PREFACE

THIS volume differs in many respects from its previous counterparts, in the format as well as in its contents. The more convenient size, the absence of lines in the Tables, the dark-blue calico jacket and the gilt-lettered spine—improvements introduced by the Census Commissioner for India—lend it a certain attractiveness.

One complaint to which the previous Census Reports were open, was the publication of the absolute and the proportional figures in two different volumes which tended to give at times an exaggerated, and often, a distorted idea. That is obviated now by bringing together in this volume, both the main and the subsidiary tables.

There are three series of tables in this volume, *viz.*, (i) Imperial, (ii) Provincial and (iii) State. The first two are obligatory tables prescribed by the Census Commissioner for India, while the third is included by me to supplement and elucidate the Imperial Tables. Imperial Tables IX—INDUSTRY, X (i) UNEMPLOYMENT, X (ii) EDUCATED UNEMPLOYMENT and the six FERTILITY TABLES, were prescribed as additions to the Imperial Series. Of these, Table IX—INDUSTRY is not published on account of certain glaring inaccuracies in the returns. Table XIV—VARIATION IN POPULATION OF SELECTED TRIBES is also not published, as the number of persons returning themselves as Tribal is too insignificant to warrant a separate Table. Tables dealing with 'CIVIL CONDITION BY AGE FOR SELECTED CASTES, TRIBES AND RACES'—'INFIRMITIES', and 'OCCUPATION BY CASTE, TRIBE OR RACE', (Imperial Tables VIII, IX and XI-A of 1931), are omitted this time by the C sioner for India. The two Provincial Ta a few minor changes, are substantially the last occasion.

There are altogether nine State Tables Two of these, *viz.*, V (i) COTTAGE INDUS and VII (i) STRUCTURES CLASSIFIED B ROOFING AND USE, correspond to Provin and V, respectively, of 1931. Supplemer respect of these two tables are furnished and VII (ii). State Table III—PO LITERACY BY CASTE, is a combination of XIV and XVII of 1931. State Table embodies the results of the Special In conducted this time along with the gene Census, and does duty for the om Table IX. Imperial Table IX—(A) (SELECTED AREAS) of 1911 is revived modified form and published as Sta IMMIGRANTS TO CITIES. State Table II urban/rural aspect of literacy in Mysor the first time. All these tables suppleme Series, and some of them at least, open lines of investigation.

The word "COMMUNITY" is substit for "RELIGION", and totals are given tables *only* for "State *including* C. Bangalore", instead of the two usual tot State *including* and (2) for State *excludi* Station.

I—Area, houses and population

NOTE 1—The new district of Mandya with an area of 1,915 sq. miles and a population of 635,588 has been formed out of the former Mysore District.

NOTE 2—For the areas of districts, the Survey of India figures have been adopted, the areas of the four Cities, *viz.*, Bangalore City, Civil and Military Station, Kolar Gold Fields City and Mysore City, furnished by the respective municipal authorities, having been adopted in the table and deducted from the respective district areas.

The total area of the State given in Imperial Table I of 1931, was 29,326 sq. miles as furnished by the Mysore Survey Department. The area as furnished by the Survey of India was 29,483 sq. miles in 1931 as against 29,458 sq. miles now recommended for adoption. The difference in the area between the Survey of India figures furnished in 1931 and 1941 is stated to be due to more accurate measurement and area computation based upon modern surveys.

NOTE 3—Statistics of population by taluks are given in Provincial Tables I and II. Statistics of population by villages are available in the Village Tables published separately as part V of the Census Report.

NOTE 4—The total urban population of all the towns with a population of 5,000 and above, is 1,152,113. The Urban/Rural ratio on the basis of this figure is 1:5·36 or 158 urban and 842 rural for every 1,000 of population.

Note—1 The proportion per cent which the area and population of each density group bear to the total area and population of the State are noted in italics below the absolute figures for the State

2 The figures in columns 16 and 17 relate to Cities each of which has been treated as a taluk for the purpose of this Table

3 The taluk densities are based upon area figures furnished by the Mysore Revenue Survey Department

VIII—Means of Livelihood

NOTE 1—The arrangement of this table follows the occupational scheme prescribed by the Census Commissioner for India. There are, according to the scheme, 235 groups of occupations falling under one or the other of the 55 Orders, 12 Sub-classes, and 4 Classes into which the scheme is divided.

To render the title of the table precise and sufficiently explanatory, the phrase "Means of Livelihood" is substituted this time for the term "Occupation" used at the previous Census.

NOTE 2—Groups which have returned less than 1 in 8,000 of the population are omitted in the table. Details for the State are, however, furnished below, in respect of occupations returning 100 and more persons. ✓

NOTE 3—The contraction M/L is used in the table for "Means of Livelihood".

XII—Part II—Bilingualism

NOTE—1. Western Hindi and Eastern Hindi are combined and shown in this table as "Hindustani."

2. Details are given in this table for only eight languages, *viz.*, Kannada (Kanarese), Telugu, Tamil, Marathi, Hindustani, Tulu, Konkani and Banajari. The remaining languages have been clubbed together under "Other languages."

3. The figures in italics in columns 5—23 show the number of persons speaking one subsidiary language only, and those in 24—31 more than one. Figures in ordinary type in columns 5—23 indicate duplication on account of tri- or polylingualism.

PROVINCIAL TABLE—I

Area and Population of Cities and Taluks

Note 1.—This and the following Table present by taluks as units, the more important statistics relating to area, population, literacy, community, etc.

Note 2.—The taluk area figures in column 2 are those furnished by the Superintendent of Land Records, Survey and Settlement in Mysore. The District figures, on the other hand, are the latest determinations of the Survey of India, adopted for Imperial Tables I and XVI.

Note 3.—While adjustments made in Imperial Table II in the population figures for previous Censuses relate, in the main, to the formation of the new district of Mandya and the transfer of 7 villages from Malvalli to Kankanhalli Taluks, all changes in the Revenue Jurisdiction subsequent to the last Census, are taken into account in this table and necessary adjustments made in previous Census figures. Details in respect of all these changes are furnished in explanatory footnotes in the "Village Tables" Volume which is published separately as part V of the Census Report.

The most important of these changes are—

(1) the bifurcation of Mysore District into two districts, *viz.*, Mysore and Mandya Districts ;

(2) bifurcation of Bangalore Taluk into Bangalore North and Bangalore South Taluks;

(3) the formation of Maddur Taluk with 120 villages from Mandya Taluk and 40 villages from Malvalli Taluk;

(4) the revival of the old French-Rocks Taluk with 113 villages from Seringapatam Taluk and 59 villages from Krishnarajpet; and

(5) the raising of Turuvekere Sub-Taluk to the status of a Taluk with the inclusion of 76 villages from Gubbi and 17 from Tiptur.

PROVINCIAL TABLE II

Population of districts and taluks by communities and literacy

Note.—While figures under the age-groups were smoothed by districts for Imperial Table XI, for the purpose of this Table smoothing was done by taluks. Hence there are slight differences in the age distribution of the literates between the two tables, the figures for all ages, however, being identical.

V (i)—Cottage Industries (General)

NOTE—This table is confined only to the cottage industries in respect of which statistics were presented in the previous Census. Figures for 1931 are also furnished in the table to facilitate comparison.

Information in respect of cottage industries was collected in 1931 on a special schedule whereas the data at this Census have been abstracted from the house-lists.

Figures for weaving in Cotton, Wool and Silk which had been furnished in 1931 separately under three different heads, are now shown under the single head " Weaving", as details for different kinds of weaving were not clearly specified in the house-lists, in many cases.
