Preface

This volume relates to Part-II B dealing with the Primary Census Abstract which will give basic information—occupied residential houses, number of households, total population, Scheduled Castes and Scheduled Tribes population, literates, main workers, cultivators, agricultural labourers, workers in household industry and other workers, marginal workers, non-workers by sex in respect of each area unit upto Development Block and Town.

It hardly needs any reiteration that the Census was a success mainly for the whole hearted co-operation of all census functionaries and the people of Tripura. May I convey my heartfelt thanks to all for the same.

The kind and constant guidance of Shri P. Padmanabha, IAS, Registrar General, India shall have to be remembered with reverence gratitude.

I must offer my thanks to Shri K.K. Chakraborty, Deputy Registrar General (C & T) and Shri S.C. Srivastava, Assistant Central Tabulation Officer for their co-operation.

Shri Samiran Chakraborty, Investigator has done spade-work for this volume also. He has done justice to his job by his undivided attention and as such his works merit special recognition. Special mention may be made for Shri D.K. Choudhuri, Assistant Director of Census Operations for his assistance mainly in terms of editing. I must convey my heartfelt thanks to Shri Choudhuri for delivering the goods.

I will be failing in my duties if I do not mention the help of all categories of technical staff in the matter of tabulation. In the preparation of the maps and diagrams presented in this volume the services rendered by Shri K. Singh, Cartographer, Shri K.R. Chakraborty, Sr. Artist and Miss Subhra Chakraborty, Draftsman need also be recorded with appreciation. The services of Shri Shambhu Das Choudhury, Jr. Stenographer, Smt. S. Deb Barma, U.D. Clerk and Shri S. Rao Bhattacharjee, L. D. Clerk are to be given due consideration.

I would like to mention about the contribution made by the Officer-in-charge and staff of Government of India Press, Gangtok, Sikkim to whom I offer my thanks on behalf of the staff of this Directorate.

S. R. CHAKRABORTY
Director of Census Operations,
Tripura

General Note

In 1981 Census canvassing of Universal Individual Slip helped us in collecting the information in respect of demographic, social and cultural items and these items cover the relationship to head of household, age, sex, marital status, religion, mother tongue, other language spoken, Scheduled Castes/Scheduled Tribes, literacy, school attendance and educational level. Out of these, this volume presents information relating to the economic activities of the individual. All these information have been tabulated manually on full count basis in a tabular form having 39 columns (as reproduced below in running numbers) and presented as Primary Census Abstract.

P.C.A. Column

1 — Serial number

2 — Name of State/District/Subdivision/Development block/Town

3 — Total/Rural/Urban

4 — Area in Km^2

5 — Occupied residential houses

6 — No. of households

7 to 9 Total population including institutional and houseless population by sex

10 to 12 Scheduled Castes population by sex

13 to 15 Scheduled Tribes population by sex

16 to 18 Literate and educated persons by sex

19 to 33 Total Main workers and the main workers in broad four-categories by sex

34 to 36 Marginal workers by sex

37 to 39 Non-workers by sex

In 1971 Census the State PCA comprised of 54 columns whereas in 1981 Census 39 columns as mentioned above have been introduced. The column for marginal workers for 1981 Census is a new introduction. During 1971 there were 9 Industrial categories of workers which have been clubbed into four broad categories of workers for the purpose of 1981 Census. That it is so would be evident from the picture given below.

Category	1971	1981
I	— Cultivators	I—Cultivators
II	— Agricultural labourers	II—Agricultural labourers
III	— Livestock, Forestry, Fishing, Hunting and Plantations, Orchards and allied activities.	Va—Household Industry, Manufacturing, processing, Servicing and Repairs.
IV	— Mining and Quarrying	III,—Other Workers IV, V(b) & VI to IX
V	— Manufacturing, processing, servicing and Repairs.	
	(a) Household Industry	
	(b) Other than Household Industry.	
VI	— Construction	
VII	— Trade & Commerce	
VIII	— Transport, storage and communication	
IX	— Other Services	

The economic questions of 1981 Census have undergone changes as the concept of 'work' of 1961 and 1971 Censuses, as opposed to the 'income' or 'economic independence' concept of the earlier censuses is adopted for 1981 Census. But the criterion for classification of persons as workers is changed. While in 1961 and 1971 censuses different approaches namely usual status and current status were adopted with reference period of one year and one week for seasonal and for regular work respectively, at the 1981 Census the usual status approach is adopted uniformly for all work. In the 1961 and 1971 Censuses classification as worker or non-worker was made through different criteria. In 1961 a person qualified as a worker if he had worked regularly during the last

season or if he had worked at least for a day in regular (non seasonal) work during the preceeding fortnight. At the 1971 Census a person was treated as worker only if he spent his time mainly in work or if he worked at least for a day in regular (non seasonal) work during the preceeding week. The dichotomy of workers/non workers of 1961 and 1971 Censuses is discarded at the 1981 Census and instead a trichotomy as main workers, marginal workers and non-workers is adopted.

For *Main Workers* the time criterion of engagement in work for major part of the year i.e. at least 183 days is adopted while those who worked for some time during the last year but not for the major part are treated as *Marginal Workers*. Those who had never worked during the last year are *Non Workers*. This trichotomy partially permits a comparibility of 1981 Census economic data with that of 1971 as well as 1961. The main workers of 1981 Census can be expected to correspond to the workers of 1971 and the main workers and marginal workers of 1981 together to correspond to the workers of 1961.

Workers/Main workers/Marginal workers/Non-workers in 1961, 1971 and 1981 in Tripura State are furnished below.

1.	*Percentage of workers*	1961	—	38.29
		1971	—	27.79
2.	*Percentage of Main workers*	1981	—	29.64
3.	*Percentage of Marginal workers*	1981	—	2.63
4.	Total of 2 & 3		—	32.27
5.	Percentage of Non workers	1961	—	61.71
		1971	—	72.21
		1981	—	67.73

Building, Census houses and households

Columns 5 and 6 of the Primary Census Abstract give the total number of occupied residential Census houses and number of household respectively.

Building

A building is generally a single structure on the ground. Sometimes it is made up of more than one component unit which are used or likely to be used as dwellings (residences) or establishment such as shops, business houses, offices, factories, workshops, worksheds, schools, places of entertainment, places of worships, godowns, stores etc. It is also possible that buildings which have component units may be used for a combination of purposes such as shop-cum-residence, workshop-cum-residence, office-cum-residence etc.

Census House

A Census House is a building or part of a building having a separate main entrance from the road or common courtyard or staircase etc. used or recognised as a separate unit. It may be inhabited or vacant. It may be used for residential purpose or both.

The figures of occupied residential houses shown in column 5 of PCA are those of Census houses actually used as residence or residence in combination with other use on the Census day.

Households

A household is a group of persons who commonly live together and would take their meal from a common kitchen unless the exigencies of work prevented any of them from doing so.

There may be one member household, two member households or multi-member households. For Census purpose each one of these types is regarded as a household.

Institutional household

There may be a household or persons related by blood or household of unrelated persons, the later are boarding houses, hostel, residential hotels, orphanages, rescue homes, ashrams etc. These are institutional households.

At the time of generation of PCA special instruction was there to keep account of such households and its population for proper record of Institutional population.

Again for the count of houseless population on the very night of 28th February, 1981 the houseless persons in the state was counted simultaneously in all places. Similarly as the case of Institutional Population, the proper records for houseless households and population were achieved at the time of generation of PCA.

The following statement gives the number of households per 1000 Census houses and the number of households per Km^2 in 1981 in Tripura and in its three districts.

STATEMENT—1

Number of households per 1000 Census houses and the number of households per Km². 1981

State/ District	Number of households per 1000 Census houses			Number of households per square kilometre		
	Total	Rural	Urban	Total	Rural	Urban
1	2	3	4	5	6	7
Tripura	1012	1011	1019	36	32	794
West Tripura District.	1011	1009	1018	53	45	1186
North Tripura District.	1014	1014	1021	29	27	485
South Tripura District.	1011	1010	1022	28	26	545

From the above statement it would appear that the household pattern *i.e.* number of households per 1000 Census houses in 1981 Census are similar in all areas of the State within the range of 1009 to 1014 and that in urban areas within the range of 1018 to 1022. But in 1961 and 1971 it was within the range of 1137-1188 and 1063 to 1171 respectively for the State. Hence a gradual fall in the proportion of households per 1000 Census houses from 1961 to 1981 is apparent. In urban areas of the State it was 1444 in 1961, 1326 in 1971 and 1019 per 1000 Census houses in 1981 Census and as such there was a decline in proportion.

In case of the number of households per Km^2 the maximum number is in West Tripura district *i.e.* 53 while it is much lower in case of other two districts of North Tripura and South Tripura having the number 29 and 28 affecting State proportion. Similar is the case in Urban area. The proportion is 1186 in West Tripura district whereas it is 485 and 545 in North and South District respectively. That there was gradual rise from 1961 to 1981 in the proportion of households per square kilometre would be apparent from the following statement.

Statement showing the number of households per square kilometre during the last three decades

	Number of households per Km^2		
	Total	**Rural**	**Urban**
1961	21	19	458
1971	26	23	683
1981	36	32	794

The trend of decrease in the ratio of Census houses with households in indicative of the fact that Census houses are being split gradually which is the index of deconstralization of social system perhaps due to economic pressure. The density of Census households per Km^2 has increased gradually.

Scheduled Castes and Scheduled Tribes

At the time of enumeration a list of Scheduled Castes and Tribes as per "The Scheduled Castes and Scheduled Tribes Orders (Amendment) Act, 1976 (No. 108 of 1976)" was supplied to each of the Census officials. It was first ascertained if the persons enumerated belongs to a Scheduled Caste or Scheduled Tribe. If he does, it was incumbent upon them to see whether the name of the Scheduled Caste or Scheduled Tribe mentioned by him finds place in the list. The answers were to be recorded in the appropriate places of the individual slip and in case of a person not belonging to any SC or ST 'X' mark was to be given. Thus the enumeration of SC and ST person was performed after proper verification of the list as (reproduced below). In the PCA, the number of Scheduled Castes find place in columns 10 to 12 and that of Scheduled Tribes would find place in columns 13 to 15. A list of Scheduled Castes and Scheduled Tribes is reproduced below with a short note.

Scheduled Castes

"Scheduled Castes" means such Castes, races or tribes or parts of or groups within such castes, races or tribes as are deemed under Article 341 (of the Constitution of India) to be the Scheduled Castes for the purpose of the Constitution of India.

According to the Constitution (Scheduled Castes) Order 1950 and the Constitution (Scheduled Castes) (Part C States) Order 1951 as modified by the Scheduled Castes and Scheduled Tribes Lists (Modification) Order, 1956 and all subsequent amending Notification issued up-to-date, the castes indicated have been declared as Scheduled Castes in Tripura State.

No person who professes a religion different from the Hindu or the Sikh shall be deemed to be a member of a Scheduled Caste.

Scheduled Tribes

"Scheduled Tribes" means such tribes or tribal communities or parts or groups within such tribes or tribal communities as are deemed under Article 342 (of the Constitution of India) to be Scheduled Tribes for the purposes of the Constitution of India.

According to the Constitution (Scheduled Tribes) Order 1950, and the Constitution (Scheduled Tribes) (Part C States) Order 1951 as modified by the Scheduled Castes and Scheduled Tribes Lists (Modification) Order 1956 and all subsequent amending Notifications issued up-to-date, the communities indicated have been declared as Scheduled Tribes in Tripura State.

Persons belonging to Scheduled Tribes may profess any religion.

LIST OF SCHEDULED CASTES/SCHEDULED TRIBES, TRIPURA

Scheduled Castes

1. Bagdi
2. Bhuimali
3. Bhunar
4. Chamar, Muchi
5. Dandasi
6. Dhenuar
7. Dhoba
8. Dum
9. Ghasi
10. Gour
11. Gur
12. Jalia Kaibarta
13. Kahar
14. Kalindi
15. Kan
16. Kanda
17. Kanugh
18. Keot
19. Khadit
20. Kharia
21. Koch
22. Koir
23. Kol
24. Kora
25. Kotal
26. Mahishyadas
27. Mali
28. Mehtor
29. Musahar
30. Namsudra
31. Patni
32. Sabar
33. Unclassified

Scheduled Tribes

1. Bhil
2. Bhutia
3. Chaimal
4. Chakma
5. Garoo
6. Halam
7. Jamatia
8. Khasia
9. Kuki including the following sub-tribes :—
   - (i) Balte
   - (ii) Belalhut
   - (iii) Chhalya
   - (iv) Fun
   - (v) Hajango
   - (vi) Jangtei
   - (vii) Khareng
   - (viii) Khephong
   - (ix) Kuntei
   - (x) Laifang
   - (xi) Lentei
   - (xii) Mizel
   - (xiii) Namte
   - (xiv) Paitu, Paite
   - (xv) Rangchan
   - (xvi) Rangkhole
   - (xvii) Tangluya
10. Lepcha
11. Lushai
12. Mag
13. Munda, Kaur
14. Noatia
15. Orang
16. Reang
17. Santal
18. Tripura, Tripuri, Tippera
19. Uchai
20. Unclassified.

The percentage distribution of members of Scheduled Castes and Scheduled Tribes (in Rural and Urban areas) to the total population, 1981 is mentioned below :

STATEMENT—2

Percentage distribution of members of Scheduled Castes and Scheduled Tribes in Rural and Urban areas to the total population 1981

State/District	Percentage of Scheduled Castes									Percentage of Scheduled Tribes

TRIPURA

LITERACY, 1981

MALE AND FEMALE LITERACY

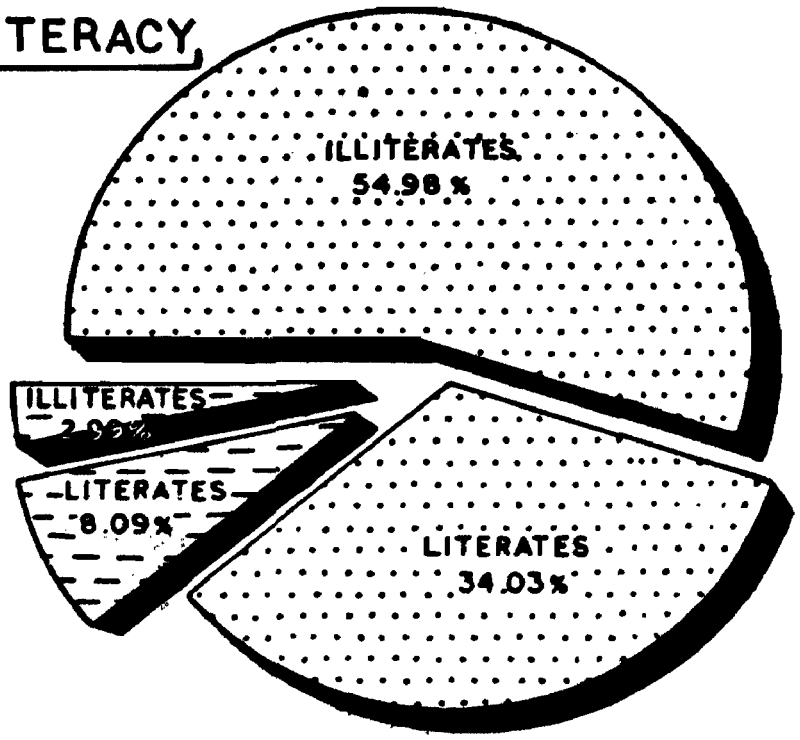

MALES :-	
LITERATES	545,401
ILLITERATES	509,445
TOTAL MALE POPULATION	1,054,846

FEMALES :-	
LITERATES	319,398
ILLITERATES	678,814
TOTAL FEMALE POPULATION	998,212

RURAL AND URBAN LITERACY

RURAL :-	
LITERATES	698,643
ILLITERATES	1,128,847
TOTAL RURAL POPULATION	1,827,490

URBAN :-	
LITERATES	166,156
ILLITERATES	59,412
TOTAL URBAN POPULATION	225,568

During the last three decades the total population of Scheduled Castes and Scheduled Tribes in Tripura were as follows :—

Scheduled Castes	1961	119,725(10.5%)
	1971	192,860(12.4%)
	1981	310,384(15.1%)
Scheduled Tribes	1961	360,070(31.5%)
	1971	450,544(28.9%)
	1981	583,920(28.4%)

The figures within brackets show the percentage to total population.

It is evident that the percentage of Scheduled Caste population to the total population increased while the percentage of Scheduled Tribe population to total population decreased. The decadal growth rate in Scheduled Castes population was 61.09% during 1961-71 and 60.94% in 1971—81 whereas that of the Scheduled Tribe population was 25.13% in 1961—71 and 22.84 in 1971—81. The decadal growth rate of general population other than Scheduled Caste and Scheduled Tribe was 37.86% in 1961—71 and 26.93% in 1971—81.

Among the districts, the maximum concentration of the strength of Scheduled Castes is found in West Tripura district. As it is 16.9% in West Tripura District, 14.8% in South Tripura District and 12.1% in North Tripura District.

But in case of Scheduled Tribes, the percentage of Scheduled tribe is highest in South Tripura District.

35.8% of total population belonging to Scheduled tribe live there. 27.3% Scheduled tribe population live at North Tripura and 25.0% Scheduled tribe population live at West Tripura.

Statement 3 & 4 shows the percentage of Scheduled Castes and Scheduled Tribes separately and in a combined form. The percentages of Scheduled Castes and Tribes combined together was found to be 42% in 1961 Census and 41.3% in 1971 while it is 43.5% in 1981 showing a fall in 1971 and again a considerable rise in 1981.

The maximum percentage of combined Scheduled Castes and Tribes would be found in South Tripura District followed by West Tripura as there would be lowest percentage in North Distrtct which contains 39.4%.

But in distribution of 100 members of Scheduled Castes of the State among districts it is found that West Tripura district takes the lion share of 53 while the rest are distributed as 26 and 21 in South Tripura district and North Tripura district respectively.

Similar characteristics are also observed in case of distribution of 100 members of Scheduled Tribes of the State among the districts—where again West Tripura district heads the list by having 42 members while 33 and 25 members are distributed in South and North districts of Tripura respectively.

Literate and educated persons

The information for the number of persons literate and educated by sex is available in columns 16 to 18 of the PCA.

Definition of Literate or educated person

A person who can both read and write with understanding in any language is to be taken as literate. A person who can merely read but can not write is not a Literate.

It is not necessary that a person who is literate should have received any formal education or should have passed any minimum educational standard.

The person who can neither read nor write or can merely read but can not write in any language has been treated as illiterate. All children of the age of 4 years or less have been treated as illiterate even if the child is going to a school and may have picked up reading and writing a few odd words.

The Literacy in the state and in different districts as found in 1981 Census is furnished below :—

STATEMENT—5

State/ District	Among the total population			Among the rural population			Among the urban population		
	P	M	F	P	M	F	P	M	F
1	2	3	4	5	6	7	8	9	10
Tripura	42.1	51.7	32.0	38.2	48.2	27.6	73.7	79.9	67.1
West Tripura district	46.2	56.1	35.8	41.0	51.7	29.9	74.7	81.1	68.1
North Tripura district	42.0	50.8	32.5	39.6	48.7	29.8	74.2	78.8	69.4
South Tripura district	34.8	44.6	24.5	32.1	42.0	21.7	69.1	76.8	60.8

The percentage have been calculated on the total population inclusive of the population in age group 0-4.

The literacy rates in 1961, 1971 and 1981 are as follows :—

	Persons	Males	Females
Literacy in 1961	20.24%	29.61%	10.19%
1971	30.98%	40.20%	21.19%
1981	42.12%	51.70%	32.00%

Percentage of literate persons increased in every decade from 1961 to 1981 and the increase has been in case of both males and females. The percentage of male literates has gone up from 29.61 to 40.20 from 1961 Census to 1971 Census and went up to 51.70 in 1981, while percentage of female literates increased from 10.19 to 21.19 from 1961 to 1971 and went up to 32.00 in 1981. The rate of increase from 1961 level to 1971 was 35.76% and 107.95% for males and females respectively while the rate of increase was 28.61% and 51.01% respectively for males and females in 1981 if percentage of 1971 level is taken into account. This shows a high percentage increase rate of literacy in females than males during the last three decades. Still the females have a long way to go to catch up with males in the matter of literacy.

In rural area literacy rate is 38.2 taking both male and female together. Taken separately the literacy rate for males and females would be 48.2 and 27.6 respectively.

It would be apparent from Statement—5 that the literacy rate in urban areas in case of both males and females is on the high side.

The rate of literacy amongst males and females in West Tripura District is 46.2 whereas that of males and females in South District is 34.8 whereas that of males and females in North District 42.0. As such the literacy rate of male and female, if combined, of West Tripura would be highest.

Classification of workers by industrial categories

In 1981 Census the information related to economic activity of the individual was collected through some questions in the individual slips which were canvassed in the field. These were as follows :—

I. Q. 14A Worked any time at all last year ?
Yes
No (H/ST/D/R/B/O)

II. Q. 14B If yes in 14A did you work for major part of last year ?
Yes (1) / No (2)

III. Q. 15A Main activity last year ?
Yes in 14B (C / AL/HHI/OW)
No in 14B (H/ST/D/R/B/O)

IV. Q. 15B 14B yes — Any other work any time last year? Yes (C/AL/HHI/OW) / No
14B No—Work done any time last year ? (C/AL/HHI/OW)

The workers and non-workers for 1981 Census have been clearly defined in earlier pages. A new category of workers — Marginal workers for 1981 Census has also been defined. Still the adopted trichotomy of workers/non-workers of 1981 i.e. three categories, into which the Individuals of 1981 have been classified are in brief, as follows :—

1. **Main workers** are those who worked for a major part i.e. at least 183 days of the year preceeding the enumeration. In other words, those for whom the answer would have been "Yes" and therefore, the entry would have been "1" in Q. 14B of the Individual Slip are categorised as main workers. Whether they are Cultivator or Agricultural labourer or engaged in Household Industry or as other workers is determined by the information available in Q. 15A in cases in the Individual Slip.

2. **Marginal workers** are those who have worked for some time but have not worked for major part of the year preceeding the enumeration. In other words, marginal workers would be those for whose the entry in 14A of the Individual Slip would have been "Yes" and the entry in Q. 14B of the Individual Slip would have been "No (2)". The types of work in which marginal workers were engaged would only be available after detailed tabulation.

3. **Non-workers** are those who had not worked at all during the year preceeding the enumeration. In other words non-workers would be those for whom the answer returned as 'No' against Q. 14A.

In 1981, in PCA, a departure has been made in the presentation of data of industrial categories from 1971 Census. Only 4 broad categories of main workers viz. Cultivator (I), Agricultural Labourer (II), Household Industry (Va) and Other Workers (III, IV, Vb, VI to IX) have been introduced on the recommendation of the Planning Commission and Central Statistical Organisation in 1981 Census in place of 9 categories of workers in 1971 Census.

Cultivator :

For purpose of the census a person is working as Cultivator if he or she is engaged either as employer, single worker or family worker in cultivation of land owned or held from Government or held from private persons or institution for payment in money, kind or share. Cultivation includes supervision or direction of cultivation.

Cultivation involves ploughing, sowing and harvesting and production of cereals and millet crops such as wheat, paddy, jowar, bajra, ragi etc. and other crops such as sugarcane, groundnuts, topioca etc. and pulses, raw jute and kindred fibre crop, cotton, etc. and does not include fruit growing, vegetable growing or keeping orchards or groves or working of plantation like tea, coffee, rubber, cinchona and other medicinal plantations. For a person who is a cultivator 'C' has been written in the space provided.

Agricultural labourer :

A person who works in another persons land for wages in money, kind or share should be regarded as an agricultural labourer. He or she has no risk in the cultivation but he/she merely works in another person's land for wages. An agricultural labourer has no right to lease or contract on land on which he/she works. For a person who returns his/her economic activity as agricultural labourer 'AL' has been written in the space provided.

Household Industry :

Household Industry is defined as an Industry conducted by the head of the household himself/herself and or by the members of the household at home or within the village in rural areas and only within the precincts of the house where the household lives in urban areas. The larger proportion of workers in a Household Industry should consist of members of the household including the head. The industry should not be run on the scale of a registered factory which would qualify or has to be registered under Indian Factories Act. For a person who returns his/her activity engaged in Household Industry 'HHI' has deen written in the space provided.

There may be an Industry which is being run by a large joint family of more than 10 persons and where power is used or more than 20 persons where power is not used. In such cases, though only family members are involved, this will not be treated as 'HHI'. Thus the meaning of the term run on the scale of a registered factory refers to such cases even if these are not registered as such.

The main criterion of a Household Industry is the participation of one or more members of a household. This criterion is applicable in urban areas too. Even if the industry is not actually located at home in rural areas there is greater possibility of the members of the household participating even it is located anywhere within the village limits. In the urban areas where organised Industry takes greater prominence, the Household Industry should be confined to the precincts of the house where participants live. In urban areas even if the members of the household by themselves run an industry but at a place away from the precincts of their home, it is not be considered as Household Industry.

A list of the common Household Industry is reproduced below :—

LIST OF COMMON HOUSEHOLD INDUSTRIES

DESCRIPTION

Slaughtering, preparation & preservation of meat, poultry and other slaughtering, Processing and Canning of meat.

Production of Butter, Cream, Ghee, Cheese, Chhana, Khowa & other dairy products. Manufacture of Ice Cream, Kulphi, Milk shake etc.

Manufacture of Kojum products, Fruit preservation (canning of fruits) Dehydration of fruits & vegetables, Production of achar, pickles, *chutney*, murraba *etc.* Production of sauce, jam jelly, Marmalade *etc.*

Preservation of fish & canning of fish, Dehydration of fish & sea foods, Manufacture of fish oil, fish meal *etc.*

Production of flour by village *Chakkies* or flour-mill by grinding wheat, maize, gram etc. Production of rice by milling, dehusking & processing of paddy by rice mill. Production of pulses (Dal). Hand pounding of rice by *dhehi* or *ukhal* . Production of *Sattu.*

Production of bread, biscuits, cake & other bakery products.

Gur and *Khandsari* making from sugar cane & palm Juice, production of *bhoora* & candy. Production of jaggery from coconut & palmyra juice (neera). Production of other indigenous products from sugar & jaggery n. e. c.

Production of common salt.

Production of Cocoa, Chocolate, Toffee, lozenges and other sugar confectionery products. Making of sweet meats, laddo, peda, barfi, *batasa*, *tilnura fewari* etc.

Production of oil in oil pressing *ghani*, *kolhu* or by small machines.

Currying, roasting & grinding of Coffee.

Processing of cashewnut including drying de-shotting, roasting salting etc.

Production of ice.

Production of Cattle feed and poultry feed etc.

Grinding of chillies, turmeric, spices etc. Parching of grains, and production of *papar*, appalam, *Barri*, *danauri*, *sewai* etc.

Making of *chura* or *chira*, *muri*, *murki*, *khoi*. Making of *dalmoth*, *Chana Chur* (*jor*) *Garam* etc. Making of *chat*. Manufacture of Sago & Sago products. Making of other food products or residuary snacks.

Production of Vinegar, Neera etc. Production of Country liquor like toddy. Production of other indigenous liquor from other materials from trees and shrubs.

Production of mineral water, Production of aerated water such as Soda water, lemon soda etc. Production of *sharbats* and squashes, Production of *Jal-Jeera*, Production of fruit Juice, Production of other beverages n. e. c.

Tobacco stemming redrying & other like processes connected with preparing tobacco leaf for manufacture.

Manufacture of *Bidi.*

Manufacture of cigars & choroots.

Manufacture of snuff, Manufacture of *Jorda*, *Kimam*, *Khaini* & other chewing tabacco.

Manufacture of *Hookah* tobacco, Manufacture of other tobacco products n. e. c.

Textile Cotton

Cotton ginning, cleaning & carding

Dyeing of cloth & yarn, Bleaching of cloth & yarn, Tie & dye (bandhani) of cloth & yarn, Printing of cloth.

Cotton spinning by *charkha & takli.*

Production of *Khadi* textile in handloom.

Cotton cloth weaving in handlooms other than *Khadi.*

Cotton cloth weaving in powerloom.
Cotton textile n. e. c.

Textiles, wool, silk & fibre

Wool cleaning, sorting, carding, scouring & processing of wool (other than mill).

Spinning of wool by charkha or takli. Wool weaving in power looms & handlooms.

Dyeing & bleaching of woollen textiles

Manufacture of blankets & shawls, Manufacture of felts, Manufacture of other articles like pashmina, *thulma*, *gudma etc.*

Spinning & weaving of silk textile.

Dyeing & bleaching of silk and printing of silk textile

Spinning, weaving & finishing of *tussar*, eri, weaving of *mashru*, himru, *brocade*, *kinkhab* by handloom, weaving of artificial silk in handloom & powerloom. Jute & mesta spinning & weaving of mats & asanie etc.

Dyeing, printing & bleaching of jute textile

Preparing, spinning & weaving of hemp fibre

Manufacture of other products, such as jute bags, from jute, hemp, mesta & other similar fibres.

Manufacture of hosiery goods such as *banians*, socks, sweaters, mufflers etc. Manufacture of *nalas* (nadas) & *azarbands*. Manufacture of *prandas* & *chootelas*. Manufacture of hosiery & other knitted fabrics and garments n. e. c.

Manufacture of fishing net. Manufacture of other nets excl. mosquito net & fishing net. Manufacture of sacred thread. Manufacture of thread, rope, cordage & twine (cotton). Manufacture of rope, cordage out of hemp. Manufacture of rope, cordage out of jute. Manufacture of rope by palm fibre. Manufacture of rope by data palm fibre. Manufacture of milk cordage, rope & twine n. e. c.

Embroidery & making of *Phulkari*, Making of *Zari* thread & *zardoshi* Traditional embroidery. Patch work embroidery. Lace garland making. Making of fringes & creps laces. Making of Kargota maingarlands. Making of other embroidery products etc.

Manufacture of *Durries*. Manufacture of rugs, carpets, druggets (except made of *coir*) . Manufacture of other similar textile products n. e. c.

Making of Traditional garments. Making of ready made textile garments.

Manufacture of cap, hat & other head gear, crochet work (bon & caps). Making & repairing of umbrellas. Manufacture of rain coats.

Manufacture of mosquito net, Manufacture of *Khes*, bed covers, curtains, pillow cases, furnishing, table cloth, cloth bags etc. Making of *Newar*. Manufacture of other made up taxtile goods like quilt, mattress, *razai*, etc. n. e. c.

Manufacture of coir matting carpets, cactus fibre for rope, rope & twine making from coconut fibre. Manufacture of brush, broom etc. from coconut fibre. Husking of coconut. Coir spinning. Coconut curing. Other allied products of coir industry etc.

Manufacture of canvas goods (tents, sails etc.). Manufacture of *Namda* felt. Making of *Suzand* (padded quilts). Processing of coconut fibre for upholstery. Handicraft articles made of flax & fibre. Manufacture & recovery of all types of fibres for purpose of padding, wadding & upholstery n. e. c. Manufacture *daura* (thread), *batua* cotton thread buttons. Manufacture of dolls toys (rags & cotton). Manufacture of other textile product n. e. c.

Manufacture of match splinters, plywoods & veneer.

Sawing, planting of wood.

Lecquerware (if on wood). Manufacture of artware and decorated wooden boxes (patras). Manufacture of wooden toys, sandal wood, other wood carving. Bead making from wood. Sawdust & plaster figure making. Marquetry boxes (inlay work). Manufacture of photo frames. Manufacture of other wooden products n. e. c. Manufacture of boxes & packing cases other than plywood. Manufacture of boxes from *moonj* grass. Manufacture of rope mats etc. from *moonj* & *sewai* grass and making of cadjar for thatching purposes. Manufacture of mats, handfans & umbrellas from palm leaves. Manufacture of *sirki*, mura & *chhaj*. Manufacture of baskets. Manufacture of *Donas* (drone) and *pattals* (Patravali) from leaves. Canning of chairs. Manufacture of *chicks*, *khaskas tetti* & fans, sticks & poles from bamboo.

Manufacture of structural wooden goods (including treated timber) such as beams, posts, doors, windows.

Carpentry works concerned with repairs of agri, implements (woods). Manufacture of wooden industrial goods other than transport equipment and fixtures. Manufacture of tool handles, blocks etc.

Manufacture of cork & cork products.

Manufacture of wooden furniture & fixtures.

Manufacture of bamboo, cane & reed furniture, screens & fixtures. Grass mats.

Manufacture of broom-sticks, Manufacture of wooden utensils. Manufacture of cartwheels thatching. Manufacture of wooden *Kharaua* & other wooden sandels. Making of sticks & poles from wood. Framing of photographs & pictures. Manufacture of other articles from leaf, cane, bamboo & other allied products etc. Manufacture of other wood & allied products n. e. c.

Manufacture of handmade pulp paper and board etc.

Making of envelopes and paper bags. Making of card-board boxes, cards, paper cups, saucers, plates, etc.

Manufacture of pulp products n.e.c. e. g. dools.

Paper making articles. Making of kites. Internal decorations of paper. Making of paper toys. Making of paper flowers etc. Making of either paper products from paper, paper boards etc.

Printing and publishing books and periodicals.

Lithography, engraving, etching, blockmaking type cutting & other work connected with printing industry.

Book binding, stitching, sizing & other work connected with book binding industry.

Printing work, Printing of hand bills, invitation cards, envelope printing, picture post card printing embossing etc.

Flaying processing of hides & skins incl. taxidermy, currying, tanning & finishing of hides & skins and preparation of finished leather, stuffed animals.

Making of leather boots, shoes and *chappals* (slippers, sandals). Making of *Poola* shoes. Manufacture of leather-cum-rubber/plastic/cloth shoes, sandals & *chappals*. Manufacture of other footwear n. e. c.

Making of waring apparel like coats, gloves etc. (except footwear) made of leather.

Manufacture of leather products such as leather upholstery, suitcases, pocket books, cigarette & key cases, ladies hand bags, purses, saddlery, whip, acquducts'kos) *charas* and other articles.

Currying, tanning, bleaching & dyeing of fur. Making of clothing & wearing apparel made of fur (except footwear)

Manufacture of fur & skin rugs

Vulcanising tyre & tubes

Manufacture of chappals from old tyres & other rubber footwear.

Manufacture of rubber products from natural & synthetic rubber incl. raincoats, oil cloths, water proof cloths etc. Manufacture of celluloid goods. Manufacture of rubber balloons, rubber sheets.

Manufacture of plastic toys, Manufacture of plastic buttons.

Manufacture of other plastic goods like nets, cards polythiene bags.

Making of candles.

Manufacture of fertilizers (incl. from bones)
Manufacture of dyes, paints, colours, *abir*, *sindon*, varnish etc. Manufacture of indigo. Manufacture of wazes & polished.

Manufacture of medicines (Ayurvedic, Unani etc), Pharmaceutical preparation.

Manufacture of incense & perfumes. Manufacture of agarbati. Manufacture of rose water. Manufacture of powder, snow, cream, *bindi*, *tikli*, hair oil & nail polish. Manufacture of *Kumkum* & hingro. Manufacture of maseara, *kajal* & *surma*. Manufacture of perfumes, cosmetics & other toilet preparations n. e. c. Manufacture of soap & washing soap, soap powder.

Manufacture of tooth powder. Manufacture of other washing & cleaning compounds n. e. c.

Production of inedible oil.

Manufacture of turpentine, synthetic resins & other materials n. e. e.

Manufacture of matches.

Manufacture of fireworks & other explosives such as pathaka etc.
Manufacture of ink incl. fountain pen ink. Making of boot polish. Manufacture of other chemical products n. e. c.

Production of bricks. Manufacture of roofing tiles. Manufacture of other clay products n. e. c.
Making of glass bangles, beads. Manufacture of bead garlands. Manufacture of glass & glass products except optical & photographic lenses. Manufacture of laboratory glass apparatus.

Making of earthenwares such as pottery etc. Manufacture of crockery.

Manufacture of lishu. Manufacture of lime.
Manufacture of mica products incl. mica grinding, mica splitting. Stone carving. Marble carving. Granite

carving. Making of *Chakki, Chakla, Siliut, Lorha, Jainta*, utensils & other articles from stone. Manufacture of images & toys. Manufacture of other structural stone goods, stone dressing & stone crusing etc. Manufacture of cement *jally*, tiles and sanitary fittings. Making of cement statues. Making of cement products n. e. c.

Re-rolling of M. S. Rods.
Foundry

Making of articles out of tin sheets such as barrels, drums, trunks, metal containers etc. Manufacture of sanitary and plumbing fixtures.

Manufacture of iron & steel furniture & fixtures.

Manufacture of agricultural implements such as plough, *Khurpi, kudal*, etc. Manufacture of light engineering goods incl. bolts, nuts, screws, hand tools, locks (incl. repair), general hardware (blacksmithy)

Lacquer ware (if on metal) Nickel plating & electroplating. Engraving, embossing, polishing & welding of metal products. Enamalling & galvanizing of metal products. Plating & electro-plating of metal n. e. c. incl. silverplating, gold plating, E.-P. N. S. etc.

Making of utensils of brass & bell metal. Making brassware. Making of other brass & bell metal products n. e. c. Making of alluminium products, untensils. Making of utensils of tin, copper, iron (buckets etc.) & articles from iron sheets. Manufacture of cutlery.

Making of brass & bell metal ornaments. Making of other aluminium products n. e. c. Bronze articles incl. bronze images, medals & articles of alloys. Manufacture of scales, weight & measures. Manufacture of other metal products (excl. iron, brass, bell metal, aluminium) n. e. c.

Manufacture of small machine parts.

Manufacture of sewing machine parts and repair of sewing machine. Manufacture of small arms like knives, swords & their repairs. Stove repairing. Manufacture of indigenous boats, *donga*, raft, barges and country crafts.

Manufacture of cycle parts & accessories, such as saddle, seat, frame & gear etc. Manufacture of cycle rickshaw parts.

Manufacture of animal drawn & hand drawn vehicles such as bullock carts, *tumtum, lagadi, palki* cab, wheel barrow, hand barrow etc.

Manufacture of scientific goods.
Inlay work with ivory & brass. Goldsmithy. Manufacture of jewellery, silverware & wares using gold & other precious metals and precious & semi-precious stones. Silver art ware (incl. silver, repousse work on copper such as Tanjore) & silver images. Silver filigree industry. Bidriware industry. Manufacture of gold & silver leaves. Gold coverings work (fancy jewellery). Manufacture of jewellery, silverware etc. n. e. c.

Manufacture of sport goods such as lessim & dumballs. Manufacture of rubber balls. Manufacture of other sports goods e. g. bats, rackets, balls etc.

Manufacture and repair of musical instruments such as harmonium *tabla, sitar, bansuri* etc.

Manufacture of chalk pieces. Manufacture of slate & slate pencils. Making of rubber stamps. Manufacture of fountainpen parts. Manufacture of pins & clips. Manufacture of other stationery articles such as pencil, penholders etc.

Making of cowdung cakes. Making beads from conch shells & horn goods. Making of traditional objects such as Orissa, Mysore & Tanjore paintings etc. Making of lac bangles. Making of buttons (bone, shell & ivory). Making of imitation jewellery. Making of gangavan (making of wig from human hair).

Making of garlands from flowers, camphor, sandal wood shavings, seeds & other materials like beads etc. Making of other artificial flowers badges etc. Making of brushes, brooms. Making of lamp shades. Making of cigarette holders. Manufacture of goods out of horns. Painter's shop (Commercial Signboard painting).

Repair of shoes, *chappals* & other leather footwear. Repair of all other leather products except footwear.

Repairing & servicing of electrical apparatus, heaters, ovens etc.

Repairing & servicing of fans. Charging of Batteries.

Repairing & servicing of automobiles & motor cycles.

Repairing & servicing of watches & clocks, jewellery.

Repair of cycle & cycle rickshaw.

Repair of spectacles. Repair of petromax. Repairing & servicing of Radio. Repair of goods n. e. c.

Other Workers :

All workers i. e. those who have been engaged in some economic activity during the last one year, who are not cutlivators or Agricultural labourers or in Household Industry, are Other Workers — 'OW'. The type of workers, plantation workers, those in Trade, Commerce, business, transport, mining, construction, political or social work, all Government Servants, municipal employees, teachers, priests, entertainment artists etc. In effect, all those who work in any field of economic activity other than cultivation, agricultural labourer or household industry are other workers. They have been entered as 'OW'.

If some one is a non-worker throughout, his or her category of non-worker is to be ascertained as follows :

(1)	Household duties	— H
(2)	Students	— ST
(3)	Dependents	— D
(4)	Retired persons or rentier	— R
(5)	Beggars	— B
(6)	Inmates of Institution	— I
(7)	Other non-workers	— O

Percentage of Workers/Main Workers/Marginal Workers/Non-Workers to total population during 1961-81.

	1961	1971	1981
Workers	38.29	27.79	32.27
Main Workers	—	—	29.64
Marginal Workers	—	—	2.63
Non-Workers	61.71	72.21	67.73

The above statement shows the percentage of workers and non-workers in the last three decades of 1961, 1971 and 1981. A percentage fall is marked in the case of workers as it was 38.29 during 1961 whereas it has come down to 27.79 during 1971. Correspondingly there has been rise in percentage of non-workers. In 1961 it was 61.71 whereas it has gone upto 72.21% in 1971. The main reason for this decline may perhaps be attributed to the change in definition of workers. There was every possibility of inclusion of persons rendering casual assistance under the category of workers as per definition of 1961. In 1971 a significant change has been made in the definition of the workers by eliminating the possibility of inclusion of such persons rendering casual system as workers. To be more categorical, liberal approach of 1961 has been made stringent during 1971, so much so that the re-thinking had to be made for 1981 Census by striking a balance in between the liberal approach of 1961 and stringent approach of 1971. To be more clear, the persons rendering casual assistance deem to be workers for the 1961 Census and eliminating as workers in 1971 Census and had to be treated as marginal workers for the 1981 Census. In 1981, the percentage of main workers which should as per definition correspond to the workers of 1971 shows a natural rise to 29.64 from 27.79. Again the main workers together with marginal workers of 1981 are to correspond to the workers of 1961 as per prescribed definition. But the percentage of main-workers together with that of marginal workers which comes to 32.27% does not correspond to the percentage (38.29) of workers of 1961, though the absolute figures shows a considerable increase as follows:

1981	Main Workers	—	608,589
	Marginal workers	—	53,860.
1961	Workers	—	437,229

The percentage of different categories of Main Workers to total Main Workers of the State Tripura during 1961-81.

Year	I Cultivator	II Agricultural Labourers	Va Household industry	III, IV, Vb to IX Other workers
1	2	3	4	5
1961	64.24	7.52	5.75	22.49
1971	54.41	19.96	1.40	24.23
1981	43.28	24.00	1.44	31.28

The above statement has been prepared on the basis of broad categories introduced in the format of Primary Census Abstract during 1981 Census. The figures under column No. 5 of 1961 and 1971 in relation to other workers have been derived by clubbing the figures of different categories except those mentioned in column No. 2, 3 & 4. The statement shows the comparative change of proportion in the different categories during last three decades. If agricultural sector *i.e.* Cultivator (col. 2) and Agricultural Labourers (col. 3) are taken into account than the total percentage of 1961 comes to 71.76 and that of 1971 comes to 74.37 and that of 1981 comes to 67.28. If we take this position into account then it would appear that there has been increase of the main workers in the sector of agriculture during the 1971 Census whereas there has been declined in the sector during 1981 Census.

Now taking sub-sector of cultivator (col. 2) within the sector of agriculture, it would appear that there has been steady decrease. But if we take sub-sector of agricultural labourers (col. 3) into account then it would appear that there has been steady increase in the category of agricultural labourers. If we take the total picture of the population of the sector of agriculture as a whole then it would appear that there has been declined from 1971 to 1981 as it was 74.37% during 1971 and it has become 67.28 during 1981 Census. This gap of 74.37—67.28=7.09 has found a place in the category of other worker. That means there has been corresponding increase in the sector of other workers. That there has been increased in the category of other workers since 1961 census would be evident from the fact that it was 22.49 during 1961 and it has come up to 24.23 during 1971 whereas it has come up to 31.26 during 1981. Though there has been rapid fall in the percentage of cultivator during the decades there has been corresponding increase in the percentage of other workers.

It would be evident that the percentage of cultivators has declined whereas that of Agri-labourers has increased. This obviously indicates that some cultivators divided the privilege of their being recorded as Baragadars also. The collection of census data wholly depends upon the response of the respondent.

So far the category of Household Industry (col. No. 4) is concerned the house-wife rendering casual assistance were netted as household workers during 1961 Census whereas they have not been treated as inclusion of the workers rendering casual assistance has been eliminated during 1971 & 1981. So there was decline in the percentage of workers engaged in the household as it would appear from the above statement.

The percentage distribution of population of each sex into workers, marginal workers, non-workers in the State and districts in 1981 (Main workers being further distributed by broad industrial categories of 1981 Census).

STATEMENT—6

State/ District	Sex	Total Population	Total workers	Total Main workers	Main workers				Marginal workers	Non Workers.
					Cultivator	Agricultural Labourers	Household Industry	Other workers		
1	2	3	4	5	6	7	8	9	10	11
Tripura	M	100.00	50.71	49.23	21.73	11.14	.62	15.74	1.48	49.29
	F	100.00	12.78	8.95	3.42	2.87	.22	2.44	3.83	87.22
West Tripura	M	100.00	49.06	47.52	17.41	10.64	.85	18.62	1.54	50.94
District	F	100.00	12.35	9.06	2.79	3.17	.27	2.83	3.29	87.65
North Tripura	M	100.00	52.08	50.73	25.22	10.06	.37	15.08	1.35	47.92
District	F	100.00	11.97	8.39	3.66	1.80	.21	2.72	3.58	88.03
South Tripura	M	100.00	52.30	50.80	26.03	13.13	.45	11.19	1.50	47.70
District	F	100.00	14.37	9.30	4.34	3.40	.14	1.42	5.07	85.63

In order to discuss the percentage distribution of population of each sex from State level down to the district level, the reference to the earlier statement showing the distribution of main workers is relevant. It would appear from the earlier statement that 43.28 per cent of the main workers of the State are Cultivators. The next highest percentage is in favour of other workers (31.28) followed by Agricultural labourer (24.00). It is the Household Industry which comprises of a very small percentage of 1.44 in the category of main workers of the State. This general pattern is also reflected in case of male workers. That it is so would be evident from the above statement. But in the case of female workers it would appear from the statement that the percentage of main workers is of the order of 8.95 out of which the highest percentage of 3.42 belongs to the category of Cultivators. So far female workers are concerned next position goes to the category of Agricultural Labourers followed by other workers. That means the percentage of Cultivators is followed by that of other workers which in his turn is followed by that of Agricultural Labourers so far male workers are concerned whereas the percentage of Cultivators being highest one is followed by that of Agri-Labourers which in its turn is followed by that of other workers

so far female workers are concerned. To that extent the deviation is there in the pattern of distribution of main workers.

More or less the same pattern of percentage of distribution of workers at State level is observed at district level also excepting that of West Tripura District. In case of female workers of West Tripura District the percentage of Agricultural workers being 3.17 is the highest one while the next position goes to the other workers (2.83%) followed by cultivators (2.79%). So far North Tripura District is concerned the percentage of the category of female Cultivators being 3.66% is the highest one followed by other workers which is of the order of 2.72%. The percentage of female Agricultural Labourers comprising of 1.80% is the lowest one amongst these three categories. The percentage of distribution pattern of females of North Tripura District follow almost the same pattern of the percentage of distribution of male workers of Tripura as a whole.

As per calculation in the State 29.64 per cent of the total population are main workers and 2.63 per cent are marginal workers. They constitute 32·27 per cent of total workers leaving 67.23% of non-workers. It would be relevant to recall here that non-workers also include those in lobour force who are unemployed. Amongst males 49.23 per cent are main workers and only 1.48 per cent are marginal workers. These two categories constitute 50.71 per cent of total workers while the non-workers are 49.29 per cent. But in case of females only 8.95% are main workers and 3.83% are marginal workers. These two constitute 12.78% of total workers while a large percentage of 87.22 are non-workers. The sharp contrast in the distribution amongst main workers, marginal workers and non-workers between males and females warrant attention. Main workers amongst females constitute a small proportion (8.95) in comparison with main workers amongst males (49.23) while the proportion of marginal workers (3.83) among females is comparatively higher than that of males (1.48). In absolute figures against 38240 female marginal workers there are only 15,620 male marginal workers in the State.

The proportion of non-workers among females (87.22) is very much high compared to that of males (49.29). The participation of women in economic activity would still appear to be on a very modest scale. Incidentally this contrast can also be appreciated by comparing the absolute figures. That it is so would be evident from the fact that there are 519291 male workers whereas there are 89298 female workers. This the general pattern of distribution of main workers, marginal workers and non-workers amongst the males and females has been reflected in all the three districts of the State. It may be mentioned here that the female marginal workers of South Tripura District show the highest percentage 5.07% which is much higher than the state average of 3.83. Among the female non-workers North Tripura District shows the highest percentage (38.03) while in case of male non-workers, West Tripura District shows the highest percentage of 50.94%.

It would appear from the statement that out of every 1000 persons of the state only 323 persons are workers out of which 297 persons are main workers and only 26 persons are marginal workers while the rest numbering 677 are non-workers. Out of the 297 main workers 129 persons are engaged as Cultivators while 93 persons are in the category of other workers, 71 persons are Agricultural labourers and only 4 persons are engaged at household industry. This pattern of distribution of 1000 person clearly indicates that the males outnumber the females in all categories of main workers. But in case of females only 128 numbers are workers who include 38 marginal workers thereby separating a large majority of 872 females as non-workers. Alike males, out of female 90 main workers 37.8% *i. e.* 34 females are Cultivators. Next comes the group of 29 female Agricultural Labourers followed by 25 female workers of the category of other workers. But the females at household industry are only 2. The Cultivators and Agricultural Labourers in case of both males and females are much more in rural areas than in urban areas while in urban areas the category of "other workers" occupy the maximum proportion of main workers. In urban areas out of 82 female main workers the member of females belonging to the category of cultivators is negligible *i.e.* not at all countable. The female Agricultural Labourers and

those engaged at Household Industry are almost non-existent as only one member appears to be there in each case.

West Tripura district does not show the similar characteristic of the state in distribution of workers. Rather it has an isolated character having the lowest number (287) of main workers per 1000 persons in comparison to that of other districts. Out of 287 main workers the maximun persons (109) are other workers. Next comes the group of Cultivators comprising of 103 persons followed by 70 Agricultural Labourers. The least number is exhibited by a group of main workers engaged at household industry which comprised of only 5 persons. West Tripura district also shows the low proportion of female main workers in comparison with that of male main workers. Only 91 females out of 1000 females are main workers whereas males are 475. This shows that the participation of females in the economic activity in the district as well as in the State is on a very modest scale.

Cultivators and Agricultural Labourers are very rare in number in urban areas of West Tripura District and this picture holds good in cases of urban areas of the State as a whole. It is very interesting to note that the proportion of main workers at household industry throughout the State varies from 1 to 9 irrespective of sex both in rural or urban areas. Thus male "other workers" (422) of urban areas of West Tripura District shows the largest number out of 1000 males. In case of females also the same position exists.

So far North Tripura District is concerned the pattern of distribution of 1000 persons is in conformity with that of the State.

In the South Tripura District the distribution of 1000 persons presents a different order as there are 307 main workers and 32 marginal workers which constitute the largest proportion of workers amongst the District. Correspondingly there has been decline of proportion of non-workers in South Tripura District. The Cultivators in the district particularly in the rural areas are in majority while other workers are in majority in urban areas. Agricultural labourers hold the second position both in rural and urban areas. Then comes "other workers" in rural areas and Cultivators in urban areas.

The statement shows the picture of the economic activities of the males and females as a whole in rural and urban areas and it can be inferred that the livelihood of the inhabitants of rural areas are mainly based on agriculture while the same in the urban areas are based on other works. In agriculture again the Cultivators still outnumber the Agricultural Labourers and that also in both the sexes. The poor strength of main workers at household industry is indicative of the fact that the household industry is struggling for its very existence in Tripura. Marginal workers are more in proportion in rural areas and it is quite interesting to note that it is the females who are predominant. In both rural and urban areas the female workers constitute the small proportion resulting in inflation in the proportion of non-workers. But it is quite interesting to note that the proportion of workers (including marginal workers) and non-workers amongst males is almost fifty-fifty.

PRIMARY CENSUS ABSTRACT

Fly Leaf

It is already stated in earlier pages that Primary Census Abstract is the basic table which has been prepared on full count basis manually. It contains the information of area, occupied residential houses, households, population by sex, literates and educated persons by sex, scheduled castes and scheduled tribes by sex, workers in broad industrial categories by sex and Non-workers by sex. It is presented in two parts one as 'State Primary Census Abstract' and the other as 'District Primary Census Abstract'. The former one deals with the State and the Districts only while the later with the towns and Development blocks under the districts as the lowest level. In both cases the information are furnished in 39 columns having separate figures for persons, males and females and also for total, rural and urban.

Area figures furnished in column 4 for the state and the districts total are supplied by the surveyor General, of India while the urban figures and the figures for development blocks are supplied by the Director of Land Records, Government of Tripura. The rural figures for the state and districts are derived by subtracting urban area from the total. Naturally the total figures of the development blocks under each district will not tally with the rural figures derived by subtracting urban figures from the total of the respective district.

Against towns the following abreviations have been used as:

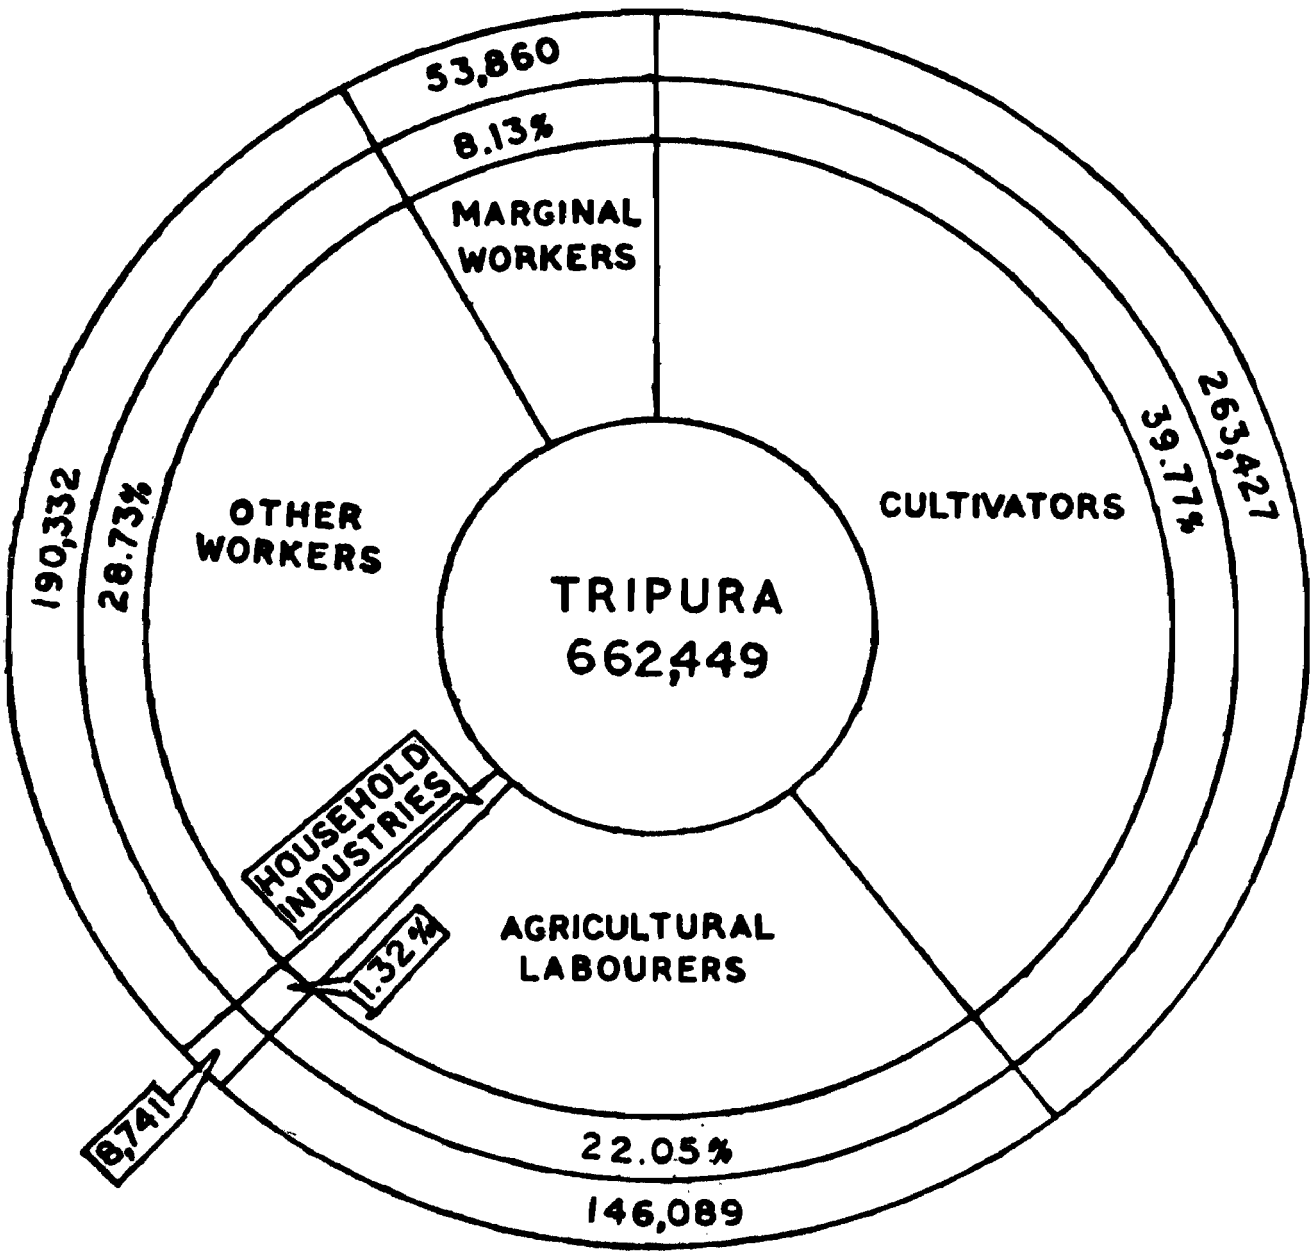

M=Municipality

NAC=Notified Area Committee

Col. 5 and 6 give the figures for occupied residential houses and Households which are calculated from Abridged houselist at the time of generation of PCA. Col. 7, 8 and 9 give the full count population including Institutional population for persons, males and females respectively. Col. 10, 11 & 12 present the total persons, males and females of scheduled castes while cols. 13, 14 and 15 give the total persons, males and females of scheduled tribes. Col. 15 to 36 represent the total persons, males and females population of total main workers with its broad industrial categories *viz.* Cultivators, Agricultural labourers, Household Industry, Other Workers. For persons, males and females and also the number of marginal workers by sex. Cols. 37 to 39 give the number of Non-workers by sex.

PRIMARY CENSUS ABSTRACT FOR SCHEDULED CASTES/SCHEDULED TRIBES

PRIMARY CENSUS ABSTRACT FOR SCHEDULED CASTES/SCHEDULED TRIBES

Fly leaf

This is for the first time in 1981 Census the scheme of generation of Primary Census Abstract for Scheduled Castes/Scheduled Tribes were undertaken simultaneously with generation of general Primary Census Abstract. Separate cell was organised for the purpose.

Alike general Primary Census Abstract, Scheduled Castes/Scheduled Tribes Primary Census Abstract has proforma but with 31 columns as follows:

Col 4=No. of households with Scheduled Castes/Scheduled Tribes

Col 5 to 7=Total Scheduled Castes/Scheduled Tribes population by sex

Col 8 to 10=Literates by sex

Col 11 to 13=Total main workers by sex

Col 14 to 16=Cultivators by sex

Col 17 to 19=Agricultural labourers by sex

Col 20 to 22=Household Industry etc. by sex

Col 23 to 25=Other workers by sex

Col 26 to 28=Marginal workers by sex

Col 29 to 31=Non-workers by sex

The Primary Census Abstract for Scheduled Castes/Scheduled Tribes has been presented in two forms viz. (1) State Primary Census Abstract for Scheduled Castes/Scheduled Tribes (2) District Primary Census Abstract for Scheduled Castes/Scheduled Tribes. In state Primary Census Abstract upto district level information are furnished while in District Primary Census Abstract information down to Development Blocks and Towns are furnished. In 1971 such information down to District level were available while in 1981 Census, information down to development blocks have been derived. State Primary Census Abstract for Scheduled Castes and Scheduled Tribes of 1981 Census correspond to the Table C VIII Part A and Part B of 1971 Census. No. of households of Scheduled Castes/Scheduled Tribes members has been introduced in 1981 Census.
