P. P. MAHANA

OF THE INDIAN ADMINISTRATIVE SERVICE

Director of Census Operations, Maharashtra

CENSUS OF INDIA 1981

SERIES 12—MAHARASHTRA

List of Publications to be released

Part I-A	Administration Report–Enumeration
Part I-B	Administration Report–Tabulation
Part II-A	General Population Tables
Part II-B	Primary Census Abstract (*Present volume*).
Part III-A	Economic Tables
Part III-B	Economic Tables (concluded)
Part IV-A	Social and Cultural Tables
Part IV-B	Social and Cultural Tables (concluded)
Part V-A	Migration Tables
Part V-B	Migration Tables (concluded)
Part VI-A	Fertility Tables
Part VI-B	Fertility Tables (concluded)
Part VII	Tables on Houses and Physically Handicapped Persons
Part VIII-A	Household Tables
Part VIII-B	Household Tables (concluded)
Part VIII-C	Report on Households.
Part IX	Special Tables on Scheduled Castes and Scheduled Tribes.
Part X-A	Town Directory
Part X-B	Survey Reports on Selected Towns
Part X-C	Survey Reports on Selected Villages
Part XI	Ethnographic Notes and Special Studies on Scheduled Castes and Scheduled Tribes
Part XII	Census Atlas
Part XIII	District Census Handbooks.

PREFACE

Among the reports scheduled to present statistical tables based on data collected at the 1981 Census, Parts II-A and II-B are important because they initiate the series. Both are expected to be brought out at the earliest possible—preferably, as simultaneous publications. Part-II-A will present the General Population Tables designated as A-series tables, and Part II-B will present the Primary Census Abstract. At the two preceding censuses, viz., those of 1961 and 1971, the entire information was brought out in a single part designated as 'Part II-A—General Population Tables'. The main reason for splitting up the earlier recognised Part II-A into two volumes this time is that the Primary Census Abstract is being presented now not only for the general population, but also specially for the scheduled caste and the scheduled tribe populations.

In respect of Maharashtra, both the parts were finalised and sent for printing nearly at one and the same time. However, the latter part, viz., Part II-B, that is, the present volume, being simpler in content, happens to be seeing the light of day earlier. Part II-A may be expected to follow within a short period. A welcome aspect of the earlier release of this volume is that it contains the basic census table known as the Primary Census Abstract, from which the A-series tables to be presented in Part II-A are derived.

Shri P. P. Mahana, IAS, functioned as Director of Census Operations, Maharashtra, from 2 July 1979 to 14 December 1982. It was under his able guidance, control and direction that the operations of the 1981 Census of India came to be conducted in Maharashtra, of course with overall control by the Registrar General & Census Commissioner from the Centre. To Shri Mahana, who has rejoined the service of the Government of Maharashtra and is no longer with us, we offer first our sincere and grateful thanks for all that he has done for the 1981 Census in Maharashtra.

We will be failing in our duty if we do not express our sincere and deep gratitude to Shri P. Padmanabha, IAS, Registrar General & Census Commissioner, India, who was a constant source of inspiration and guidance to us in every small or big project we undertook in connection with the 1981 Census. By bringing out the 1981 census publications in good time and in accordance with the guidelines propounded by him, we shall, in our own small way, be paying our humble tribute to his great abilities.

The other officers in the Registrar General's office have been equally helpful and have provided the required guidance and co-operation to us in all matters falling in their respective spheres. We would make a specific mention of the very valuable guidance we have received from Shri K. K. Chakravorty, Deputy Registrar General (Census & Tabulation), Shri V. P. Pandey, Deputy Registrar General, India, Dr. B. K. Roy, Deputy Registrar General (Map), Dr. N. G. Nag, Deputy Registrar General (Social Studies), and Shri Madan Singh, Senior Research Officer and Shri S. C. Srivastava, Asstt. Central Tabulation Officer, in the Census Division. We are extremely grateful to all of them.

In regard to printing of this volume, we are deeply indebted to Shri R. B. Alva, Director, Govt. Printing and Stationery, Maharashtra State, and to his band of devoted officers in the State Printing Department, viz., Shri G. D. Dhond, Dy. Director, Shri V. R. Joshi, Manager, Government Press, Nagpur, and Shri M. Y. Mankame, Manager, Government Photozincographic Press, Pune. Had it not been for the excellent co-operation we received from these officers, it would not have become possible for us to bring out this first regular 1981 Census Report for Maharashtra in record time. So far as our knowledge goes, no other State has so far brought out its Part II-A or Part II-B of the 1981 Census.

A list of contributors to this project is appended.

A. W. MAHATME,
Joint Director of Census Operations,
Maharashtra.

BOMBAY :
Gudhi Padva
Ambedkar Jayanti 14th April 1983.

LIST OF CONTRIBUTORS TO THIS PROJECT

State Hq.

Direction and Guidance

Shri P. P. Mahana, Director.
Shri A. W. Mahatme, Jt. Director (Report writing).
Shri A. S. Dange, Dy. Director.
Shri K. K. Akolkar, Asstt. Director.

Statistical Scrutiny and Compilation

Kum. V. I. Nimbalkar, Investigator.
Shri D. S. Gandhi, Statistical Assistant.
Shri J. T. Gondukupe, Statistical Assistant.
Smt. T. V. Govekar, Statistical Assistant.
Shri N. D. Solanki, Statistical Assistant.
Kum. A. P. Parulekar, Computor.
Kum. J. A. Bhonsle, Computor.
Shri R. M. Sonawane, Computor.
Shri R. S. Sharma, Computor.
Smt. A. S. Pisat, Computor.
Kum. S. M. Parte, Computor.

Mapping and Art Work

Shri Madhav Shyam, Research Officer.
Shri A. Shanmugam, Senior Geographer.
Shri A. Braganza, Geographer.
Shri D. M. Walwe, Senior Artist.
Shri D. D. Padalkar, Senior Draftsman.
Shri V. V. Govekar, Senior Draftsman.
Shri A. L. Randive, Draftsman.
Shri M. K. Zahiruddin, Draftsman.
Shri S. D. Kavthekar, Draftsman.
Shri V. B. Yadav, Draftsman.
Smt. T. S. Kavthekar, Draftsman.
Shri L. S. Sawant, Hand Press Machine Operator.

Stenographic Assistance

Shri B. V. S. Sitaram.
Smt. Achamma Sam.

Printing

Shri C. M. Kane, Printing Inspector.

AT THE ENUMERATION STAGE

All Regional Deputy Directors of Census Operations.

All Principal Census Officers, District/City Census Officers and Charge Officers in Maharashtra.

All Supervisors and Enumerators,

and

THE PEOPLE OF MAHARASHTRA, who very willingly came forward to furnish information about themselves to the enumerators, who necessarily functioned as scribes to record answers to the prescribed census questions about each household and its members.

EXPLANATORY NOTE

The Primary Census Abstract (PCA) is this time being presented in a separate volume entitled Part II-B, unlike in 1971 when it was combined with A-series tables in a part designated as ' Part II-A—General Population Tables'. The A-Series tables, which in actuality are summary tables derived from the PCA itself, will be presented in a separate part to be entitled ' Part II-A—General Population Tables '.

As in the past, the data presented in the PCA have been compiled on the basis of the information recorded in individual slips, but there has been some difference this time in the procedure followed for compilation. In 1971, the individual slip pads were broken and the separated slips were sorted manually for various classifications. This time, the field enumerator himself was made to compile the Primary Census Abstract for each household by posting the relevant information in Part II of the Household Schedule called the ' population record ' on the basis of the entries made in the the individual slips relating to the members of the household. In our tabulation offices, a thorough scrutiny was carried out with a view to verifying whether the enumerator had posted the information correctly in the ' population record ', and corrections were made wherever necessary. This corrected ' population record ' for each household formed the basis for consolidation of totals to present the Primary Census Abstract data for higher territorial units. The data for the various households were consolidated for striking totals for the enumeration block, and so on for building up totals for the village/town/urban agglomeration, and further for the tahsil (rural/urban), district (rural/urban) and the State (rural/urban.).

The Primary Census Abstract runs into 39 columns and has been presented in two parts. The first part called the ' State PCA ' presents data for the State (total/rural/urban), broken down by districts (total/rural/urban). In the second part called the ' District PCA ', further breakdowns of the district data are presented by tahsil (total/rural/urban), and under each tahsil for the towns situated therein. Wherever Urban Agglomerations were delineated, information has been presented for each such agglomeration too. The items of information presented are (i) area in km^2, (ii) No. of occupied residential houses, (iii) No. of households (total of normal, institutional and houseless households), (iv) population, (v) scheduled caste population, (vi) scheduled tribe population, (vii) literate population, (viii) No. of 'main workers' broken down by four broad categories, (ix) No. of ' marginal workers', and (x) No. of non-workers, the breakdown by sex being presented for each item of data.

The 1971 Primary Census Abstract was presented for the general population only. This time, two additional Primary Census Abstracts are being presented. They relate to the Scheduled Caste (SC) population and the Scheduled Tribe (ST) population respectively. These special PCAs are, however, being presented up to the level of tahsil/town only. The present volume, Part-II-B, incorporates these two special PCAs, in addition to the PCA for the general population. The District Census Handbooks will present village-wise PCA in respect of the general population only. No special PCAs for SCs/STs will be presented at the village level.

In the PCA for the general population, there are 39 columns in all. Nine of these present information in three columns each in respect of ' total population ', ' scheduled caste population ' and 'scheduled tribe population '. In the special PCA for SCs/STs, this information naturally gets reduced to three columns only, so as to give the number of persons, males and females among the SCs or STs, as the case may be. This results in a reduction of six in the count of columns. Again, the special PCAs for SCs/STs do not present information as to the 'area' and the 'number of occupied residential houses'. There is thus a total reduction of eight columns as compared to the PCA for the general population. This brings down the number of columns in the format of the special PCA for SCs/STs to 31 only.

The PCA is the basic and the only table produced this time on a full count basis and this has been done manually. It corresponds to the Primary Census Abstract of the 1971 Census, but differs from it in some respects. The main difference relates to the number of worker categories being presented this time. While in 1971, the data were presented by ten categories of workers, this time only four very broad categories are being presented, *viz.*, (i) Cultivators, (ii) Agricultural Labourers, (iii) Workers at Household Industry, and (iv) Other Workers. This has been done at the instance of the Planning Commission, which advised that four worker categories will adequately meet the immediate requirements of planning. The correspondence between the four categories of 1981 and the ten categories of 1971 has been indicated in the column headings by mentioning in roman numerals the various categories of 1971 to which each one of the 1981 categories corresponds. However, figures for ten worker categories as such will not be available from the Primary Census Abstract of 1981. Detailed classification of workers according to the 3--digit code structure of the National Industrial Classification (NIC) 1970 will be presented by way of district level estimates in volumes to be brought out subsequently to present tables produced on the computer on the basis of a 20% sample of individual slips. Until such time as the detailed tables giving classification of workers by NIC codes become available, the reader will have to make do with data on only four broad ' worker ' categories. For his benefit, the correspondence between the 1981 and the 1971 ' worker ' categories is again set forth clearly below.

1981 worker category	*Corresponding 1971 worker categories*
(1) Cultivators	I—Cultivators
(2) Agricultural Labourers	II—Agricultural Labourers.
(3) Household Industry—Manufacturing, processing, servicing and repairs.	V(*a*)—Manufacturing, processing, servicing and repairs in household industry.
(4) Other Workers ..	III—Livestock, forestry, fishing, hunting, plantations, orchards, and allied activities.
	IV—Mining and quarrying.
	V(*b*)—Manufacturing, processing servicing and repairs other than in household industry.
	VI—Construction.
	VII—Trade and Commerce.
	VIII—Transport, storage and communications.
	IX—Other services.

This time, there is an additional item of information in the Primary Census Abstract, which relates to ' marginal workers '. Marginal workers were identified by the enumerator as those who worked for less than major part of the period of one year preceding the date of enumeration. Although in 1971 the Primary Census Abstract did not present figures of marginal workers, it is possible to compare this figure presented in 1981 with the figure of ' non-workers having secondary work ' for the corresponding unit, which has been presented in Table B-VII of 1971. There was a change this time in so far as the reference period was concerned. In 1971, every individual was asked an initial question to ascertain as to what, according to him, his main activity was, that is, the activity on which he spent most time. No specific reference period was indicated in posing this question. However, the enumerator was instructed to explain to the respondent that in the case of regular work obtaining all the year round, he/she should have worked for at least one day during the period of one week preceding the date of enumeration. If it was seasonal work, he/she should have worked for the greater part of the last working season. If the response was that he/she engaged himself/herself mostly in an activity which fell under the ' non-worker' category, he/she was treated as a non-worker for main activity. In such a case, he/she was also questioned as to whether he/she engaged himself/herself in any part-time activity which fell under the category of ' work '. If the reply was 'Yes', he/she was treated as a non-worker having secondary work.

In 1981, the initial question asked in respect of every individual was whether he/she *worked any time at all during last year*, and if so, whether he/she worked for major part or for less than major part of last year. The reference period of one year related this time to all types of work, that is, not only in the case of those who worked all the year round, but also in the case of those who worked during particular seasons only. A person was classified as a ' main worker ' if he/she had worked for the major part of last year, that is, for a total of 183 days or more. A person who worked for less than 183 days during last year was classified as ' marginal worker '.

DEFINITIONS OF CONCEPTS

Area

The area figure presented in column 4 represents the total geographic area of the concerned territorial unit and has been expressed in sq. km. The district area figures are as reported by the Surveyor General of India and are provisional. The State area figure represents the total of the district area figures. The tahsil area figures are as reported by the State Land Records Department. In the case of municipal corporations, municipal councils and cantonments, the area figures are as reported by the concerned civic administrations. For the districts and tahsils, in addition to presenting the total area, its breakdown into rural and urban has also been indicated in the same column. The urban area of a tahsil/district/state represents the total of the areas of ' urban ' places or towns situated therein. For census purposes, a 'town' was defined as a place which already enjoys the status of municipal corporation, municipal council, or cantonment board, whatever be its population, and if it does not already enjoy any such civic status, then if it satisfied all three of the following criteria, *viz.*, (1) it was expected to attain a population of at least 5,000 at the census of 1981, (2) it would have a density of population of at least 400 per sq. km, and (3) according to the immediately preceding census of 1971, at least three-fourths of its male working population was engaged in non-agricultural pursuits. A place which did not satisfy the prescribed criteria for being classified as ' urban ' was necessarily classified as ' rural ', and hence came to be included in the village list of the concerned tahsil.

There was a difference this time, as compared to 1961 and 1971, in defining ' non-agricultural pursuits '. While in 1961 and 1971 these represented all activities other than (I) Cultivators and (II) Agricultural Labourers, this time they were taken as representing all activities other than (I) Cultivators (II) Agricultural Labourers, and (III) Livestock, forestry, fishing, hunting, plantation, orchards and allied activities.

The urban area of a tahsil has been worked out by adding up the areas of the towns included therein. The tahsil rural area has been derived by deducting the urban area from the total area. The same applies to the urban/rural areas presented for each district and the State. Since the source for the tahsil area figures is different from that for the district area figures, it is likely that in a number of cases the area figures shown for the tahsils in a district will not add up strictly to the area shown in the table for that district as such.

Houses, Households and Population

Columns 5 and 6 of the Primary Census Abstract give for each territorial unit the 'No. of occupied residential houses' and the 'No. of households' respectively. The census definitions of 'building' and 'census house' were as follows.

A 'building' was defined as generally a single structure on the ground, enclosed by four walls and with a roof overhead. The quality of construction was immaterial. It may be made up of more than one component unit used or likely to be used for purposes of residence, or for any other non-residential purpose, such as, shop, business house, office, factory, work-shed, school, etc. Combination of some other purpose with residence was also provided for in the definition.

A 'Census house' was defined as a building or part of a building having a separate main entrance from the road or from a common courtyard, staircase, etc., used or recognised as a separate unit. It may be occupied or vacant. It may be used for a residential or for a non-residential purpose, or for a combination of purposes.

The definition of 'census house' provides that such a house could be either occupied or vacant. The figure presented in column 5 of the PCA represents the number of houses which at the time of the census were occupied and were actually being used either wholly or partly for purposes of residence. This means that the figure excludes all census houses which were vacant at that time, as also those which were being used for wholly non-residential purposes.

A 'household' was defined as a group of persons who commonly live together and would take their meals from a common kitchen, unless the exigencies of work prevented any of them from doing so. There could be a single-person household or a multi-person household. Three types of households were identified.

A 'normal household' was defined as comprising persons related to one another by blood or marriage, with or without some unrelated members. The second type was the 'institutional household'. An 'institutional household' was defined as comprising persons unrelated to one another, but living together in the same premises and eating from a common kitchen. Examples of such households were boarding houses, messes, hotels, lodges, rescue homes, jails, ashrams, etc. The 'normal' and the 'institutional' households were enumerated in the houses where they were found to be living during the enumeration period, which extended from 9 February to 28 February 1981. A revisional round was taken during the period 1 March to 5 March 1981 in order to adjust the population count to the prescribed reference moment, *viz.*, sunrise of 1 March 1981.

The third type was the 'houseless household'. Such a household lived in the open, without a roof overhead, but with common arrangements made for cooking food for the members. For enumerating the houseless population, special arrangements were made on the night of 28 February 1981 for collecting at suitable centres all persons who reported that they lived in the open and had not already been enumerated somewhere else. This was thus a one-night enumeration on the eve of the reference date of the census, in respect of which no revisional round was obviously called for with a view to adjusting the population count.

The figure presented in column 6 of the PCA represents the total of the three types of households. The corresponding population, that is, the population living in the three types of households taken together, has been indicated in columns 7, 8 and 9 for persons of both sexes, for males and for females, respectively.

It will be pertinent to mention here that the census aims at enumerating every individual with the household where he normally resides or, in other words, in his/her dormitory. A uniform period had been prescribed for being observed throughout the country in connection with the enumeration operations. This was 9 February to 28 February 1981. A person was enumerated at his normal place of residence with his own household, provided he happened to live there for at least one day during the enumeration period. An individual who happened to be away from his normal place of residence throughout the period of enumeration was enumerated as a visitor in a household where he was found by the census enumerator appointed for the place of his visit, provided he reported that he had not been enumerated anywhere else for the Indian Census. The 'dormitory' approach imports a very significant feature into the census results in respect of big cities, which one associates in one's mind with large population of workers and students. A substantial proportion of the day-time population of workers and students in a big city happens to commute daily to the city from surrounding towns and villages for pursuing their vocations. This commuter population is enumerated in their respective dormitories in the surrounding towns and villages. The population figures presented for any big city thus relate only to the population having their dormitories in the city itself.

Scheduled Caste & Scheduled Tribe populations

At the census, a question was asked in respect of every individual to ascertain as to whether he/she belonged to a Scheduled Caste or a Scheduled Tribe. The instructions to the enumerator were that after obtaining a reply from the respondent that he did belong to a Scheduled Caste or a Scheduled Tribe, he should enquire about the name of the caste or tribe and then verify, from the authoritative list furnished to him, as to whether the caste or tribe in question stood included in the list notified by the President for the State, or for part of the State, in which the individual was enumerated. It was only after verifying that the concerned name of caste or tribe did appear in the Presidential list that the enumerator was to put him down as a person belonging to SC or ST, and, in token of that verification, he was also required to record the name of caste/tribe on the individual slip of the concerned person.

Despite these insrtuctions, many enumerators seem to have recorded people in general terms as Harijan/Achhut for Scheduled Caste and Adivasi/Girijan for Scheduled Tribe. In tabulating the data, such persons have been counted as belonging to SCs/STs, as the case may be, even though only general terms had been used and the specific name of caste/tribe had not been mentioned. The figures presented in columns 10-12 to indicate the Scheduled Caste population, and in columns 13-15 to indicate the Scheduled Tribe population are thus inclusive of cases where the classification as SC/ST was mentioned only in vague, general terms This sort of imputation was resorted to even in 1971.

The lists of Scheduled Castes and Scheduled Tribes notified by the President for the State of Maharashtra under the Scheduled Castes/Scheduled Tribes Orders (Amendment) Act, 1976 (108 of 1976), as also the ones which prevailed earlier in 1971, have been reproduced in an annexure to this note.

Literates

A 'literate' was defined as a person who can, with understanding, do both-read and write-in any language. For a person to be classified as a literate, it was not necessary that he should have received formal education in any school or institution, or should have passed some minimum educational standard. All children below the age of five years were automatically treated as illiterate and were recorded as such. Thus, the figures of literates shown in cols. 16-18 do not cover at all the population in the age-group 0 to 4 years.

Definitions of 'work' and 'non-work'

The census definitions of 'work' and 'non-work' are reproduced below :

"Work may be defined as participation in any economically productive activity. Such participation may be physical or mental in nature. 'Work' involves not only actual work, but also effective supervision and direction of work.

Reference period

In all the questions, the reference period is the one year preceding the date of enumeration. Certain types of work such as agriculture, household industry like gur making, etc., are carried on either throughout the year or only during certain seasons or parts of the year, depending on the local circumstances. In such cases what we are concerned with is the broad time-span of the agricultural seasons preceding the enumeration.

Explanation

There should be no confusion regarding these questions. What we are trying to find out is the number of workers and since workers can be full-time

workers or seasonal workers or marginal workers, it is necessary to collect data that will give us the correct picture. This is what Questions 14A and 14B and Questions 15A and 15B seek to do. The detailed explanation and instructions for each of these questions are given separately, but it will be useful if we look at these together to understand their purpose better.

Question 14A seeks to find out if a person has done any work at all during the last year or whether he or she did not work at all, and if it is the latter, how the person spent his/her time as a non-worker. Then Question 14B seeks to find out who among the persons returning 'Yes'in Question 14A had worked for the major part of the year. By major part of the year, it is intended to find out how many had worked for 183 days or more or, in other words, worked for 6 months or more. Those who have worked for 183 days or more will answer 'Yes' for Question 14B. For them code ' 1 ' has to be recorded in the box. But those who have worked for less than six months or 183 days will say ' No '; and for them code ' 2 ' is to be recorded in the box for this question. Question 15A seeks to elicit information on the main activity of the workers in Question 14B, i.e., those for whom ' 1 ' has been recorded in the box. It will also elicit information about the main activity of the 'marginal workers' covered in Question 14B, i.e., those who have returned 'No' and for whom ' 2 ' has been recorded in the box against Question 14B.

The person may have worked for six months or 183 days or more in more than one activity. For example, he/she may have worked for 3 months in cultivation, one month in gur making and 3 months as an agricultural labourer. In Question 15A, he/she is required to indicate which of these three activities according to him/her was his/her main activity, i.e., in which capacity he/she spent more time. In the instant case, since the person has spent three months each in cultivation and as agricultural labourer, the choice as to which of these two would be his/her main activity should be left to him/her. Those who have returned 'No' for Question 14B, i.e., those who have worked for less than six months or 183 days during the last year and for whom code ' 2 ' has been recorded in the box, will have to state whether according to them, they were engaged mainly in household duties, or as student, or dependent or as retired person, rentier, or begger, or inmates of institution, and if not in any of these categories, the person(s) should be put under 'Others' in Question 15A.

In Question 15B, details of secondary work or marginal work are sought to be obtained. Those who have worked for the major part of the year, i.e., those for whom ' 1 ' has been recorded in the box against Question 14B, may have had secondary work and this should be entered in Question 15B. Those who have not worked for the major part of the year and for whom code ' 2 ' has been recorded in the box against Question 14B, must have done some marginal work and these details will be entered in Question 15B. It is important that probing questions are asked to elicit correct information in this question.

In Question 16, it is proposed to ask all persons returning 'No' in Question 14A, i.e., H/ST/D/R/B/I/O in Question 14A, or 'No' in Question 14B, i.e., code ' 2 ' in Question 14B, whether he or she has been seeking work or is available for work.

It will thus be seen that these questions on economic aspects have been so designed as to identify all the workers, regular or seasonal, and non-workers with reference to the activities during the last one year prior to the date of enumeration. It is very important to remember that the period referred to in Questions 14A, 14B, 15A and 15B is one year preceding the enumeration. Thus, if in some areas, a person has been a cultivator or an agricultural labourer, or has worked in an industry, etc., only in one season, i.e., less than 6 months/183 days, he/she is not to be treated as a worker for Question 14B. His/her economic activity will be reflected in Question 15B. Thus, all those returning 'Yes' in Question 14A must be noted as 'Yes' in Question 14B or in Question 15B or both.

The definitions of the seven categories of non-workers are given in the following paragraphs.

Household duties—H

This covers all persons who are engaged in unpaid home duties and who do no other work or have not done any work at all during the last one year. Such persons should be entered as ' H '.

If a person who normally attends to household duties is also engaged in some economic activity, then he or she is a worker for the purposes of Question 14A and not a non-worker. For example, a housewife may help in family cultivation or agriculture or make and sell cow-dung cakes at odd times, or prepare papad, achar, etc., and sell them. She is a worker and should be recorded as 'Yes' in Question 14A though she is mainly a housewife. On the other hand a woman may be working in a factory or office or as a labourer or cultivator and may also be attending to household duties. Such a person is of course a worker and will be categorised appropriately in Question 15A later, and she will be recorded as 'Yes' in Question 14A.

It will be necessary for you to ask probing questions, particularly in the case of women, to find out if they have any economic activity, even if it is marginal, apart from household duties. If they have, they would be workers for the purposes of Question 14A, but the fact that they are mainly engaged in household duties will be reflected in Question 14B and 15A as we will see later.

Students—ST

This will cover all full-time students and children attending school. For student write 'ST'.

If a student participates in some economically productive work, say, by helping sometimes as an unpaid family worker in family cultivation, or in household industry, trade or business, such student should be treated as a worker for the purposes of Question 14A and not as a student. In such cases, even though such a person is no doubt mainly a student, he or she is a worker for the purposes of Question 14A. The fact that such a person is mainly a student will be reflected in Questions 14B and 15A, as we shall see later.

Please note that a person has to be a full-time student for being classified as 'ST' in Question 14A. For example, a person who is mainly attending to household duties but taking a correspondence course or attending part-time classes will not be classified as 'ST' but would be 'H' in Question 14A.

Please do not presume that a person does not do any work because he is a student. It is very important to ask probing questions to students so as to net marginal workers.

Please note that in most houses the daughters help in the household work though they are studying full-time. In such cases, we are more interested in finding out if they are students and for this purpose you must ask if such girls are students or not. If they are, they should be recorded as 'ST' and not as 'H'.

Dependents—D

This category includes all dependents such as infants or children not attending school or a person permanently disabled from work because of illness or old age.

Dependents will include even able-bodied persons who cannot be categorised in any other category of non-worker but are dependent on others. However, if such a person who is dependent on others for subsistence is seeking work, he or she should be categorised as 'O'.

If a girl or an old woman attends to household duties she should be categorised as 'H' rather than 'D'. As you are aware, many persons may be dependents in the general sense of the word but are also doing household work, studying or looking for work. In such cases, they should be entered as 'H', 'ST', or 'O' as the case may be, and not as 'D'. It is, therefore, necessary for you to ask whether a person who is said to be a dependent is studying or looking for work etc., and if so, categorise him or her accordingly rather than as 'D'. Such persons would particularly include unemployed daughters, sisters, brothers, etc.

Retired persons or Rentiers—R

Person who has retired from service and is doing no other work, i.e., not employed again in some full-time work or not engaged in some other work such as cultivation, business, trade, etc. or a person who is a rentier or living on agricultural or non-agricultural royalty, rent or dividend or any other person of independent means for securing which he/she does not have to work, will come under this category. 'R' should be noted for a person coming under this category in the space provided.

However, in such cases also a careful probe is necessary. A retired person may be drawing pension and be doing some work, as for example, a retired engineer may be working as contractor. In such cases, he/she is a worker and should be entered as such.

Beggars, etc.—B

This will cover beggars, vagrants or cases such as persons without indication of source of income and those with unspecified sources of subsistence who are not engaged in any economically productive work.

For such persons, 'B' should be written in the space provided.

Inmates of institutions—I

This will cover convicts in jails or inmates of a penal, mental or charitable institution, even if such persons are compelled to do some work such as carpentry, carpet weaving, vegetable growing, etc. in such institutions. But an undertrial prisoner enumerated in a jail should be recorded for the work he/she was doing before he/she was apprehended. Similarly, a person temporarily in a hospital or similar institution should be recorded for the kind of work he/she was doing before he/she was admitted into the hospital or institution. But for a long-term undertrial prisoner or convict in a prison or for long-term inmates of penal or charitable or mental institutions, the person's previous work should not be recorded, but 'I' should be recorded. A person will be considered as " long-term " if he or she is in such an institution for 6 months or more.

Other non-workers—O

This will include all non-workers who may not come under any of the above six categories but *who are looking for work*. They should be noted as 'O' in the space provided. A boy or girl who has completed education or has stopped studying and is looking for work will come under this category. A person who is merely spending his/her time at home as a dependent and is not doing any work and is not seeking any work will come under 'D' rather than 'O'. A person irrespective of age and whether educated or not, if he or she reports that he or she is not engaged in any other activity but is seeking work will come under this category.

It must be noted that this category includes only those who do not fall into any of the other categories of non-workers discussed earlier. There may be cases of students who may be seeking work and quite prepared to give up studies if they got a job. Such persons are students (ST) for Question 14A. The fact that they are seeking jobs will be reflected in Question 16. Thus, category 'O' need not necessarily represent all those who are seeking work.

The census definitions of the four categories of workers presented in columns 22-33 are reproduced below :—

Cultivator

For purposes of the census a person is working as cultivator if he or she is engaged either as employer, single worker or family worker in cultivation of land owned or held from Government or held from private persons or institutions for payment in money, kind or share. Cultivation includes supervision or direction of cultivation.

A person who has given out his/her land to another person or persons for cultivation for money, kind or share of crop and who does not even supervise or direct cultivation of land, will not be treated as cultivator. Similarly, a person working in another person's land for wages in cash or kind or a combination of both (that is agricultural labourer) will not be treated as cultivator in this question.

Cultivation involves ploughing, sowing and harvesting and production of cereals and millet crops such as wheat, paddy, jowar, bajra, ragi, etc., and other crops such as sugarcane, ground-nuts, tapioca, etc., and pulses, raw jute and kindred fibre crops, cotton, etc., and does not include fruit growing, vegetable growing or keeping orchards or groves or working on plantations like tea, coffee, rubber, cinchona and other medicinal plantations. For a person who is a cultivator, write 'C' in the space provided.

Agricultural labourer

Person who works in another person's land for wages in money, kind or share should be regarded as an agricultural labourer. He or she has no risk in the cultivation but he/she merely works in another person's land for wages. An agricultural labourer has no right to lease or contract on land on which he/she works.

For a person who returns his/her economic activity as agricultural labourer, write 'AL' in the space provided.

Important

For certain reasons, the growing of certain crops is not considered as agriculture. If a person is engaged in the growing of such crops he or she will not be considered as a cultivator or agricultural labourer.

You must remember that a person can be classified as a cultivator or as an agricultural labourer only on the basis of the crops grown. The growing of the following crops is considered as cultivation. Therefore, a person who grows these crops or who works on land on which these crops are grown can be classified either as a cultivator or an agricultural labourer as the case may be.

(*i*) Cereal and millet crops : Paddy, wheat, jowar, bajra, maize, ragi, barley, gram. etc.
(*ii*) Pulses : Arhar, moong, masur, urd, khesari, etc.
(*iii*) Fibre crops : Raw cotton, jute, mesta, sunhemp and kindred fibre crops.
(*iv*) Oil Seeds : Sesamum, ground-nut, rape, mustard, linseed, castor, etc.
(*v*) Cash crops : Sugarcane.

The growing of the following crops will not be considered as cultivation :—

(*i*) Plantation crops : Tea, coffee, rubber, tobacco, pepper, cardamom, etc.
(*ii*) Edible nuts (other than ground-nut) : Walnut, almond, cashewnut, etc.
(*iii*) Fruits : Bananas, apples, grapes, mangoes, oranges, etc.
(*iv*) Coconut.
(*v*) Ganja, cinchona, opium and medicinal plants.
(*vi*) Betel-nuts (areca).
(*vii*) Flowers.
(*viii*) Roots and tubers, chillies and spices (other than pepper and cardamom).
(*ix*) Vegetables.
(*x*) Other crops not specifically included undre cultivation.

Please remember that you must use the abbreviations given in the instructions, namely, 'C' or 'AL'. It will be evident that you will have to ask a specific question regarding the crops grown in all cases where one merely says he/she is a cultivator or an agricultural labourer.

Household Industry

For a person who returns his/her main activity as engaged in some production, processing, servicing or repair of articles or goods such as handloom weaving, dyeing, carpentry, bidi rolling, pottery manufacture, bicycle reparing, blacksmithy, tailoring, etc., it has to be ascertained if it is a household industry, and if so, it should be indicated by the abbreviation 'HHI' in the space provided.

Household Industry is defined as an industry conducted by the head of the household himself/herself and/or by the members of the household at home or within the village in rural areas and only within the precincts of the house where the household lives in urban areas. The larger proportion of workers in a household industry should consist of members of the household including the head. The industry should not be run on the scale of a registered factory which would qualify or has to be registered under the Indian Factories Act.

There may be an industry which is being run by a large joint family of more than 10 persons and where power is used or more than 20 persons where power is not used. In such cases, though only family members are involved, this will not be treated as 'HHI'. Thus, the meaning of the term ' run on the scale of a registered factory' refers to such cases even if these are not registered as such.

The main criterion of a Household Industry is the praticipation of one or more members of a household. This criterion will apply in urban areas too. Even if the industry is not actually located at home in rural areas there is greater possibility of the members of the household participating even if it is located anywhere within the village limits. In the urban areas where organised industry takes greater prominence, the Household Industry should be confined to the precincts of the house where the participants live. In urban areas even if the members of the household by themselves run an industry but at a place away from the precincts of their home, it will not be considered a Household Industry. It should be located within the precincts of the house where the members live in the case of urban areas.

A Household Industry should relate to production, processing, servicing, repairing or making and selling (but not merely selling) of goods. It does not include professions such as a Pleader or Doctor or Barber, Musician, Dancer, Waterman, Dhobi, Astrologer, etc., or merely trade or business even if such professions, trade or services are run at home by members of the household.

Sometimes it is likely that the person who may not be working in his/her own Household Industry may be working in another person's Household Industry. You should, therefore, enquire whether the person who is not working in his/her own Household Industry is working in any other person's Household Industry and record as per instructions given above.

As mentioned earlier, a Household Industry should relate to production, processing, servicing, repairing, or making and selling of goods. However, a household can be engaged in certain other activities collectively, but these may not qualify for being considered as Household Industries.

Certain activities even though conducted by members of the same household will not constitute a Household Industry. These are indicated below and therefore the members of the family working

in such industries will be classified as 'OW' and not 'HHI':—

(*i*) Plantation work.

(*ii*) Livestock maintenance and production of milk such as cattle, goat, sheep breeding, poultry farms, bee-keeping, rearing of silk worm and production of cocoons and raw silk, production of milk, eggs, honey, wax, bones, etc.

(*iii*) Hunting, trapping and selling of the catch.

(*iv*) Forestry and logging : log, fuel, charcoal, production, gathering and selling of fodder and other forest produce, etc.

(*v*) Fishing, including rearing of fish, collection of pearls, shells, sea products, etc.

(*vi*) Mining and quarrying.

In our country Household Industry is a very important part of our economy. We must get accurate data regarding those engaged in 'HHI'. You must carefully read these instructions and understand them. The main points are again indicated below.

'HHI' stands for worker in Household Industry. The main characteristics of the Household Industry are the following :—

(*a*) One or more members of the household must praticipate. Participation by hired labour must be minimum.

(*b*) The activity should relate to some production, processing, servicing, repairing or making and selling of goods.

(*c*) The goods produced should not be for consumption by the household itself but should be wholly or partly for sale.

(*d*) In the urban area, the industry must be carried on in the precincts of the house in which the household lives. In the rural areas, the industry may be anywhere within the limits of the village.

(*e*) The activity should not be on the scale of a Registered Factory.

(*f*) Professions such as those practised by Pleader Doctor, Barber, Musician, Dancer, Dhobi, Astrologer, etc. will not be 'HHI'.

Other Workers

All workers, i.e. those who have been engaged in some economic activity during the last one year, who are not cultivators or agricultural labourers or in Household Industry, are 'Other Workers' 'OW'. The type of workers that come under this category of 'OW' include factory workers, plantation workers, those in trade, commerce, business, transport, mining, construction, political or social work, all Government servants, municipal employees, teachers, priests, entertainment artists, etc. In effect, all those who work in any field of economic activity other than cultivator, agricultural labourer or household industry are 'Other Workers'. They will be entered as 'OW'.

Households per 1,000 occupied census houses and per km² of area

Statement 1 shows, for Maharashtra State and for each of its districts, the number of households that works out per 1,000 occupied census houses, as also per sq. km of area. The ratios have been worked out on the basis of the number of households shown in column 6 of the Primary Census Abstract (PCA) in respect of the general population. The first ratio has been worked out by dividing the number of households by the number of occupied census houses shown in column 5 of the PCA, and the second one by dividing the number of households by the area in km² shown in column 4 of the PCA.

We have, under each column of Statement 1, shown within brackets the corresponding data according to the 1971 census. It will be noticed that, as a general rule, the number of households per 1,000 occupied census houses has declined in 1981, as compared to 1971 almost everywhere. We have tried to seek an explanation for this phenomenon by examining the rate at which the number of households has grown during the decade 1971--81, as compared to the rate at which the number of houses has grown during this period. The sub-joined table indicates these growth rates for Maharashtra State as a whole by total/rural/urban area.

	Percentage growth in number of occupied census houses 1971-81	Percentage growth in number of households 1971-81
MAHARASHTRA		
Total	+33.10	+23.94
Rural	+26.09	+19.59
Urban	+47.89	+32.69

It will be seen that the number of occupied census houses has grown at a higher rate during 1971-81, as compared to the rate at which the number of households has grown. Since the number of census houses is taken in the denominator in working out the ratio, the result shows a decline in this ratio in 1981. Since the definition of 'occupied census house' and of 'household' has not changed from the 1971 to the 1981 census, no other explanation appears plausible. As for the number of households per sq. km of area, there is, of course, an increase everywhere in 1981 over 1971–obviously, because the area has not changed, while the number of households has increased.

Household size

Statement 2 shows, for Maharashtra State and for each of its districts, the average size of household among the general population, the Scheduled Caste population and the Scheduled Tribe population. This size has been worked out by taking into consideration all the three types of households, viz., (1) normal, (2) institutional, and (3) houseless. Among the general population, the household size ranges from 4.89 in Ratnagiri District to 5.87 in Nashik District. Among the SC population, the household size ranges from 4.72 in Ratnagiri District to 5.83 in Gr. Bombay District. Among the ST population, the household size ranges from 4.17 in Ratnagiri District to 5.70 in Osmanabad District.

If rural and urban areas are considered separately, it will be seen that the household size among the general population ranges from 4.88 in Ratnagiri District to

5.89 in Nashik District. The lowest and the highest ranked districts are the same in the case of the rural area as in the case of the total area, and even the values are almost identical. As for the urban area, the household size among the general population ranges from 4.87 in Thane District to 5.95 in Dhule District. Greater Bombay, which is a city district, shows a household size of 5.07 among the general population, which is closer to the lowest ranked value of 4.87 than to the highest ranked value. Rural-Urban differentials are not quite relevant in the case of the Scheduled Caste population and the Scheduled Tribe population. Hence separate figures for rural and urban areas have not been presented in this statement, in so far as SCs and STs are concerned.

It may be mentioned here that the number of households shown in column 6 of the PCA in respect of the general population is inclusive of the number of houseless households. Obviously, these households were not actually found nor enumerated in the houses whose number has been indicated in column 5 of Statement 1. The ratio showing the number of households per 1,000 occupied census houses in Statement 1 is thus a notional one in the sense that it gives the number of households per 1,000 census houses which works out if all households (including the houseless households) were accommodated in the census houses whose number has been shown in column 5. A reader who may be interested in working out a ratio which ignores houseless households will have to deduct from the figure shown in column 6 the number of houseless households, and obtain the total of normal and institutional households which happened to be actually occupying the census houses shown in column 5 and were enmuerarated as occupants thereof. For this purpose, he will have to refer to Appendix 3 to Table A-1 to be presented in Part II-A, which will come out separately.

Similarly, the household size worked out in Statement 2 is for normal, institutional and houseless households combined. Since separate information as to the number of households and the population in respect of the houseless and the institutional types will be presented in Part II-A, as mentioned above, an interested reader will have to refer to that part for working out the household size separately for the three types of households insofar as the general population is concerned. No separate data have been compiled for the institutional and the houseless households insofar as the Scheduled Caste and Scheduled Tribe populations are concerned.

Scheduled Caste (SC) and Scheduled Tribe (ST) proportions in the population

A study of the figures of population belonging to SCs and STs becomes necessary in connection with the problem of providing succour to the socially disabled classes. The problem can be studied from two different angles. We could, for instance, study the spread of the population of SCs or STs in the State over its districts. Another angle would be to study the proportion belonging to SCs or STs in the total population of each district.

Statement 3 gives, in columns 2 to 10, the distribution of 100 SC population of both sexes combined, as also of the male and female sexes separately, in Maharashtra State by total/rural/urban area, further broken down by districts. Similar information has been given in respect of ST population in columns 11 to 19 of the statement.

The spread of SC and ST populations of the State over the districts could be studied better in relation to the shares of the various districts in the total population of the State. This comparative information is presented in the sub-joined tables for the benefit of the reader.

Shares of the Districts in 100 population of the State, 1981

State/District	Total Population	SC Population	ST Population
MAHARASHTRA ..	100.00	100.00	100.00
1. Gr. Bombay ..	13.13	8.91	1.46
2. Thane	5.34	1.87	12.64
3. Raigarh	2.37	0.56	3.30
4. Ratnagiri ..	3.36	1.01	0.55
5. Nashik	4.76	4.15	12.16
6. Dhule	3.27	1.91	14.40
7. Jalgaon	4.17	3.44	3.74
8. Ahmadnagar ..	4.31	6.42	3.25
9. Pune	6.63	7.00	2.5
10. Satara	3.25	2.83	0.23
11. Sangli	2.92	4.56	0.27
12. Solapur	4.16	8.33	0.89
13. Kolhapur ..	3.99	6.76	0.47
14. Aurangabad ..	3.88	3.36	1.31
15. Parbhani ..	2.91	2.38	1.36
16. Bid	2.37	3.81	0.23
17. Nanded	2.79	4.41	3.09
18. Osmanabad ..	3.55	7.63	0.90
19. Buldana	2.40	2.08	1.15
20. Akola	2.91	2.25	1.99
21. Amravati ..	2.96	2.52	4.19
22. Yavatmal ..	2.77	1.92	6.41
23. Wardha	1.48	0.82	2.46
24. Nagpur	4.12	4.07	6.12
25. Bhandara ..	2.93	4.00	5.16
26. Chandrapur ..	3.27	3.00	9.52

Statement 4 gives the proportion (per cent) in the population of the State and of each district which belongs to SCs/STs. The total of these two proportions has also been indicated in each case. For ready reference, the distribution by districts of 100 SC/ST population of both sexes in the total area of the State, already given in Statement 3, has been repeated in Statement 4. For purposes of comparison, corresponding data for 1971 have been indicated in this statement in all the columns within brackets.

Statement 5 gives, for the State and for each district, the proportion SC, the proportion ST, and the proportion SC+ST in the population by total/rural/urban area and by persons/males/females.

SC Population

The largest share of the SC population of the State lives in Greater Bombay (8.91 per cent), which is a city district. This is followed by Solapur District (8.33 per cent), Osmanabad District (7.63 per cent), Pune District (7.00 per cent), Kolhapur District (6.76 per cent), and Ahmadnagar District (6.42 per cent). These six districts together account for 45.05 per cent of the SC population of the State.

The proportion SC in the population works out to an average of 7·14 per cent for Maharashtra State as a whole. If the districts are considered separately, the proportion ranges from 1.69 per cent in Raigarh district to 15·35 per cent in Osmanabad district.

ST Population

The largest share of the ST population of the State lives in Dhule District (14·40 per cent). This is followed by Thane District (12·64 per cent), Nashik District (12.16 per cent), and Chandrapur District (9·52 per cent). These four districts together account for 48·72 per cent of the ST population of the State.

The proportion ST in the population works out to an average of 9.19 per cent for Maharashtra State as a whole. If the districts are considered separately, the proportion ranges from 0.64 per cent in Satara District to 40.53 per cent in Dhule District.

A study of the proportion ST in the population can also be made tahsilwise. It is observed that out of 232 tahsils in the twenty-five districts (excluding Greater Bombay), there are 30 tahsils which show a proportion ST of 25 per cent or more in 1981. These have been ranked below in descending order of proportion ST.

Ranking of Tahsils with a proportion ST of 25% or more in the population in 1981.

Sl. No.	Name of Tahsil	District	Proportion ST—1981 (%)	Proportion ST—1971 (%)
1.	Akrani	Dhule	95.23	94.33
2.	Peint	Nashik	93.68	94.43
3.	Mokhada	Thane	92.74	92.62
4.	Surgana	Nashik	91.77	95.77
5.	Talasari	Thane	90.76	88.31
6.	Akkalkuwa	Dhule	87.21	84.55
7.	Jawhar	Thane	86.14	88.98
8.	Nawapur	Dhule	85.43	86.80
9.	Melghat	Amravati	74.42	73.66
10.	Talode	Dhule	65.97	63.48
11.	Dahanu	Thane	65.68	64.93
12.	Sironcha	Chandrapur	52.74	52.90
13.	Vada	Thane	51.08	48.85
14.	Kalwan	Nashik	49.45	47.98
15.	Dindori	Nashik	49.28	47.76
16.	Shahade	Dhule	47.19	43.48
17.	Sakri	Dhule	45.89	43.80
18.	Akola	Ahmadnagar	44.95	44.77
19.	Igatpuri	Nashik	39.81	37.62
20.	Nandurbar	Dhule	38.04	36.53
21.	Shirpur	Dhule	37.30	24.26
22.	Palghar	Thane	36.24	35.12
23.	Gadchiroli	Chandrapur	34.06	32.28
24.	Kelapur	Yavatmal	33.30	32.56
25.	Shahapur	Thane	31.15	32.01
26.	Baglan	Nashik	29.84	29.26
27.	Waroda	Chandrapur	26.41	.. *
28.	Rajura	Chandrapur	25.93	26.87
29.	Yavatmal	Yavatmal	25.53	23.80
30.	Kinwat	Nanded	25.43	20.79

* ST list was not applicable to Waroda Tahsil in 1971.

The highest ranked tahsil is Akrani (95.23 per cent) in Dhule District, and the lowest ranked is Kinwat (25.43 per cent) in Nanded District. The spread of these 30 tahsils over the districts by number is as follows.

District	No. of tahsils with proportion ST of 25% or more	Total number of tahsils in the district
Dhule	8	10
Thane	7	13
Nashik	6	13
Chandrapur	4	6
Yavatmal	2	5
Amravati	1	6
Ahmadnagar	1	13
Nanded	1	8
	30	

It will be noticed from Statement 4 that except in a very few cases, the proportion SC, as also the proportion ST, in the population has increased in 1981 as compared to 1971 in almost all districts. The main reason for this increase is the amendment effected in the notified SC and ST lists under the Scheduled Castes and Scheduled Tribes Orders (Amendment) Act, 1976 (108 of 1976). This Act virtually removed all area restrictions with regard to residence in the specified districts or tahsils, which prevailed previously in the matter of recognising persons as beolnging to SCs and STs. Most of the castes/tribes included in the lists are now recognised as SCs or STs, as the case may be, throughout the State of Maharashtra, and not in particular districts/tahsils, as was the case previously.

Literacy rate

Statement 6 gives the proportion literate (per cent) in the population by total/rural/urban area for both sexes combined (i.e. persons), as also for males and females separately. Since the age distribution of the population in 1981 is not yet available, the literacy rates have been worked out without excluding the population of age 0-4 years from the total population to be taken in the denominator, which is otherwise a usual procedure followed in working out such rates.

The average literacy rate for Maharashtra State as a whole works out as shown below. The corresponding data for 1971 have also been shown within brackets for the sake of comparison.

Literacy rate for Maharashtra, 1981

	Persons	Males	Females
Total	47.18 (39.18)	58.79 (51.04)	34.79 (26.43)
Rural	38.15 (30.63)	51.25 (43.22)	24.88 (17.84)
Urban	63.92 (58.07)	71.80 (66.88)	54.65 (47.33)

Maharashtra State as a whole has gained by 8 percentage points in the literacy rate during the decade 1971-81, if the rate for both sexes combined is considered. Males have gained by 7·75 percentage points and the females by 8.36 percentage points.

Statement 7 ranks the districts of the State in descending order of the value of literacy rate for both sexes combined (i.e. persons) and also gives data for males and females separately for 1981, and further, similar data for the preceding census of 1971. Greater Bombay District (68.18 per cent) tops the list, while the last rank is taken by Nanded District (29.78 per cent) insofar as the literacy rate for both sexes combined is concerned. Greater Bombay maintains its lead in the male and the female literacy rates. Nanded District (43.32 per cent) takes the last rank even in the male literacy rate, However, in the female literacy rate Nanded district (15.67 per cent) gains slight edge over Parbhani District (15.53 per cent) and goes one place higher.

Statement 8 gives, for the general population. the SC population and the ST population, the literacy rate among males and females separately. The averages for Maharashtra State as a whole work out as follows. The male literacy rate is 58.79 per cent among the general,

population, 48.85 per cent among the SC population, and 32.38 per cent among the ST population. The female literacy rate is 34·79 per cent among the general population, 21.53 per cent among the SC population, and 11.94 per cent among the ST population.

Work Participation rate

Statement 9 gives, for Maharashtra State and for each district, by total/rural/urban area, the distribution of population of each sex by main workers, marginal workers and non-workers, distribution of the proportion for main workers by four broad categories being also indicated. Statement 10 gives the same information, but the distribution indicated is per cent, instead of per mille, and the breakdown by total/rural/urban area has not been given.

Statement 11 replicates Statement 10, but gives information in respect of the SC population in place of the general population. On the same lines, Statement 12 gives information in respect of the ST population.

The work force and the participation rate in Maharashtra from 1961 to 1981 have been discussed in Appendix 1. An attempt, to relate the figure of workers at cultivation to the area under the crops specified in the definition of cultivation has also been made therein.

LIST OF SCHEDULED CASTES

1971 CENSUS

List of scheduled castes applicable in the State of Maharashtra throughout the State except the districts of Buldana, Akola, Amravati, Yeotmal, Wardha, Nagpur, Bhandara, Chanda, Aurangabad, Parbhani, Nanded, Bhir, Osmanabad and Rajura—

(1) Ager,
(2) Bakad or Bant,
(3) Bhambi, Bhambhi, Asadaru, Asodi, Chamadia, Chamar, Chambhar, Chamgar, Haralayya, Harali, Khalpa, Machigar, Mochigar, Madar, Madig, Mochi, Telegu Mochi, Kamati Mochi, Ranigar, Rohidas, Rohit or Samgar,
(4) Bhangi, Mehtar, Olgana, Rukhi, Malkana, Halalkhor, Lalbegi, Balmiki, Korar or Zadmalli,
(5) Chalvadi or Channayya,
(6) Chenna Dasar or Holaya Dasar,
(7) Dhor, Kakkayya or Kankayya,
(8) Garoda or Garo,
(9) Halleer,
(10) Halsar, Haslar, Hulasvar or Halasvar,
(11) Holar or Valhar,
(12) Holaya or Holar,
(13) Lingader,
(14) Mahar, Taral or Dhegu Megu,
(15) Mahyavanshi, Dhed, Vankar or Maru Vankar,
(16) Mang, Matang or Minimadig,
(17) Mang-Garudi,
(18) Meghval or Menghvar,
(19) Mukri,
(20) Nadia or Hadi,
(21) Pasi,
(22) Shenva, Chenva, Sedma or Ravat,
(23) Tirgar or Tirbanda,
(24) Turi.

2. In the districts of Buldana, Akola, Amravati, Yeotmal, Wardha, Nagpur, Bhandara and Chanda—

(1) Bahna or Bahana,
(2) Balahi or Balai,
(3) Basor, Burud, Bansor or Bansodi,
(4) Chamar, Chamari, Mochi, Nona, Rohidas, Ramnami, Satnami, Surjabanshi or Surjyaramnami,
(5) Dom or Dumar,
(6) Dohor,
(7) Ganda or Gandi,
(8) Ghasi or Ghasia,
(9) Kaikadi,
(10) Katia or Patharia,
(11) Khatik, Chikwa or Chikvi,
(12) Madgi,
(13) Mahar or Mehra,
(14) Mang, Dankhni-Mang, Mang-Mahashi, Mang-Garudi, Madari-Garudi or Radhe-Mang,
(15) Mehtar or Bhangi,
(16) Sansi.

3. In the districts of Akola, Amravati and Buldana—Bedar.

4. In the district of Bhandara—

(1) Chadar,
(2) Holiya.

5. In the districts of Bhandara and Buldana—Khangar Kanera or Mirdha.

6. In the districts of Amravati, Bhandara and Buldana—Kori.

7. In the districts of Aurangabad, Parbhani, Nanded, Rajura, Bhir and Osmanabad—

(1) Anamuk,
(2) Araya (Mala),
(3) Arwa Mala,
(4) Beda (Budga) Jangam,
(5) Bindla,
(6) Byagara,
(7) Chalvadi,
(8) Chambhar,
(9) Dakkal (Dokkalwar),
(10) Dhor,
(11) Ellamalwar (Yellammalawandlu),
(12) Holeya,
(13) Holeya Dasari,
(14) Kolupulvandlu,

43. Sawar, Sawara.
44. Thakur, Thakar, Ka Thakur, Ka Thakar, Ma Thakur, Ma Thakar.
45. Thoti (in Aurangabad, Bid, Nanded, Osmanabad and Parbhani District and Rajura tahsil of Chandrapur district)
46. Varli.
47. Vitolia, Kotwalia, Barodia.

LIST OF SCHEDULED TRIBES

1971 CENSUS

List of scheduled tribes applicable in the State of Maharashtra throughout the State except the districts of Buldana, Akola, Amravati, Yavatmal, Wardha, Nagpur, Bhandara, Chanda, Aurangabad, Parbhani, Nanded, Bhir, Osmanabad and Rajura—

(1) Barda,
(2) Bavacha or Bamcha,
(3) Bhil including Bhil Garasia, Dholi Bhil, Dungri Bhil, Dungri Garasia, Mewasi Bhil, Rawal Bhil, Tadvi Bhil, Bhagalia, Bhilala, Pawara, Vasava and Valvi.
(4) Chodhara,
(5) Dhanka including Tadvi, Tetaria and Valvi,
(6) Dhodia,
(7) Dubla, including Talavia or Halpati,
(8) Gamit or Gamta or Gavit, including Mavchi, Padvi, Vasava, Vasave, and Valvi,
(9) Gond or Rajgond,
(10) Kathodi or Katkari, including Dhor Kathodi or Dhor Katkari and Son Kathodi or Son Katkari,
(11) Kokna, Kokni, Kukna,
(12) Koli Dhor, Tokre Koli, Kolcha or Kolgha,
(13) Naikda or Nayaka including Cholivala Nayaka, Kapadia Nayaka, Mota Nayaka and Nana Nayaka,
(14) Pardhi including Advichincher and Phanse Pardhi,
(15) Patelia,
(16) Pomla,
(17) Rathawa,
(18) Varli,
(19) Vitolia, Kotwalia or Barodia.

2. In Thana district—
Koli Malhar.

3. (*a*) In Ahmednagar district——
Akola, Rahuri and Sangamner talukas.
(*b*) In Kolaba district——
Karjat, Khalapur, Alibag, Mahad and Sudhagad talukas.
(*c*) In Nasik district——
Nasik, Niphad, Sinnar, Chandor, Baglan, Igatpuri, Dindori and Kalvan talukas and Surgana and Peint mahals.
(*d*) In Poona district——
Ambegaon, Junnar, Khed, Maval and Mulshi talukas and Velhe mahal.
(*e*) In Thana district——
Thana, Murbad, Bhivandi, Bassein, Vada, Shahapur, Dahanu, Palghar, Jawhar and Mokhada talukas.
} Koli Mahadev or Dongar Koli.

4. (*a*) In Ahmednagar district——
Akola, Rahuri and Sangamner talukas,
(*b*) In Kolaba district——
Karjat, Khalapur, Pen, Panvel and Sudhagad talukas and Matheran.
(*c*) In Nasik district——
Igatpuri, Nasik and Sinnar talukas.
(*d*) In Poona district——
Ambegaon, Junnar, Khed and Maval talukas.
(*e*) In Thana district——
Thana, Kalyan, Murbad, Bhivandi, Bassein, Vada, Shahapur, Palghar, Jawhar and Mokhada talukas.
} Thakur or Thakar including Ka Thakur, Ka Thakar, Ma Thakur and Ma Thakar.

5. In (1) Melghat tahsil of Amravati district, (2) Gadhchiroli and Sironcha tahsils of Chanda district, (3) Kelapur, Wani and Yeotmal tahsils of Yeotmal district——

(1) Andh,
(2) Baiga,
(3) Bhaina,
(4) Bharia-Bhumia of Bhuinhar-Bhumia including Pando,
(5) Bhattra,
(6) Bhil,
(7) Bhunjia,
(8) Binjhwar,
(9) Birhul or Birhor,
(10) Dhanwar,
(11) Gadaba or Gadba,
(12) Gond, including——

Arakh or Arrakh,	Kandra,
Agaria,	Kalanga,
Asur,	Katola,
Badi Maria or	Koitar,
Bada Maria,	Koya,
Bhatola,	Kirwar or Kirwara,
Bhimma,	Kucha Maria,

Koilabhuti,	Madia (Maria),
Bhar,	Mana,
Bisonhorn Maria,	Mannewer,
Chota Maria,	Moghya or Mogia or
Dondami Maria,	Monghya,
Dhuru or Dhurwa,	Mudia (Muria),
Dhoba,	Nagarchi,
Dhulia,	Nagwansi,
Dorla,	Ojha,
Gaiki,	Raj,
Gatta or Gatti,	Sonjhari Jhareka,
Gaita,	Thatia or Thotya,
Gond Gowari,	Wade Maria or
Hill Maria,	Vade Maria,

(13) Halba or Halbi,
(14) Kamar,
(15) Kawar, Kanwar, Kaur, Cherwa, Rathia, Tanwar or Chattri,
(16) Khairwar,
(17) Kharia,
(18) Konda or Khond or Kandh,
(19) Kol,
(20) Kolam,
(21) Korku, including Bopchi, Mouasi, Nihal or Nahul and Bondhi or Bondeya,
(22) Korwa, including Kodaku,
(23) Majhwar,
(24) Munda,
(25) Nagesia or Nagasia,
(26) Nihal,
(27) Oraon, including Dhanka and Dhangad,
(28) Pardhan, Pathari and Saroti,
(29) Pardhi, including Bahelia or Bahellia, Chita Pardhi Langoli Pardhi, Phans Pardhi, Shikari, Takankar and Takia,
(30) Parja,
(31) Saonta or Saunta,
(32) Sawar or Sawara.

6. In the districts of Aurangabad, Parbhani, Nanded, Rajura, Bhir and Osmanabad—

(1) Andh,
(2) Bhil,
(3) Gond (including Naikpod and Rajgond),
(4) Kolam (including Mannervarlu),
(5) Koya (including Bhine Koya and Rajkoya),
(6) Pardhan,
(7) Thoti.

Primary Census Abstract

STATE / DISTRICT PRIMARY CENSUS ABSTRACT

The total area figures for the State and the districts are as supplied by the Surveyor General. The total area figures for the tahsils are as reported by the State Land Records Department. The area figures for towns are as supplied by the respective municipal corporations or councils.

2. The tahsil urban area is obtained by adding the areas of the towns situated therein. The tahsil rural area is obtained by deducting from the total area the urban area arrived at by adding the town area figures.

3. The district urban area is obtained by adding the concerned tahsil urban areas. The district rural area is obtained by deducting from the total area (as reported by the Surveyor General) the urban area arrived at by adding the tahsil urban area figures.

4. The State urban area is obtained by adding the district urban areas. The State rural area is obtained by deducting from the total area (as reported by the Surveyor General) the urban area arrived at by adding the district urban area figures.

5. Since the source for the total area figures in respect of the State and the districts is the Surveyor General, while that for the total area figures in respect of the tahsils is the State Land Records Department, the total areas, as also the rural areas, for the tahsils in district, may not add up to the corresponding figures shown against the district.

6. Area figures of State and districts as on 31 March 1982 are as supplied by the Surveyor General of India which are provisional.

7. Area figures of urban areas are as supplied by municipal corporations and councils.

8. Names of towns treated as such for the first time in 1971, which continue as towns in 1981, have been marked with an asterisk (*) on the left.

9. Names of towns treated as such for the first time in 1981 have been printed in *italics*.

10. "M" stands for municipality and "M. Corp." for Municipal Corporation.

** This is the area reported by the Surveyor General of India for the city district of Greater Bombay comprising the revenue districts of Bombay city and Bombay Suburban.
@ Constituent of Ulhasnagar Urban Agglomeration (Spread over Kalyan and Ulhasnagar tahsils), for which consolidated data have also been presented in the Annexure.
‡ The area figures of (1) Kirloskarwadi town, (2) Solapur O. G. and (3) Chikhalthana O. G. are not available and hence the rural area figures which are derived by deducting urban area from total area are inflated to that extent.

GPN—A-66—DCOMSB-11-82—1020-A4*

APPENDIX 1

Comparison of ' Work Force ' in 1961, 1971 and 1981

The concept of 'Worker' as adopted for the 1961, 1971 and 1981 censuses has been explained below seriatim beginning with the 1961 census.

1961

Economic Activity

The economic data in 1961 were collected on the basis of work, *i.e.*, the population was divided into two classes—"Workers" and "Non-workers".

A person who was working but was absent from his work during the fifteen days preceding the day of enumeration due to illness or other causes was regarded as a 'Worker'. A person under training as apprentice with or without stipend or wages was regarded as worker. A public or social service worker who was actively engaged in public service activity or a political worker who was actively engaged in furthering the political activity of his party was regarded as a 'worker'. Work included not only actual work but effective supervision and direction of work.

A person who is working may be working as cultivator, as an agricultural labourer, at a household industry or may be doing other work. He may be engaged in only one of the above-mentioned categories or in more than one. Thus a person can be working both as a cultivator and an agricultural labourer, in which case he should be entered both as a cultivator and an agricultural labourer or he may be working as cultivator and also at household Industry, in which case he may be entered as cultivator and at household industry. Or he may be working in any possible combination stated in above items, in which case he will be entered in the appropriate places. Or he may be doing just one kind of work, in which case he will be entered in one of the above-mentioned categories.

Reference Period

The basis of work was satisfied in the case of seasonal work like cultivation, live-stock, dairying, household industry etc., if a person had some regular work of more than one hour a day throughtout the greater part of the working season. In the case of regular employment in any trade, profession, service, business or commerce, the basis of work would be satisfied if the person was employed during any of the fifteen days preceding the day on which the enumerator had visited the household. The concepts used for the various categories of workers are explained below :

Working as Cultivator

For the purposes of the census, a person is working as cultivator if he or she is engaged either as employer, single worker or family worker in (a) cultivation of land, supervision or direction of cultivation owned or held from Government and (b) cultivation of land or supervision or direction of cultivation of land held from private persons or institutions for payment in money, kind or share.

Cultivation involves ploughing, sowing and harvesting and does not include fruit growing or keeping orchards or groves or working for plantations like tea, coffee, rubber, cinchona and other medicinal plantations. Persons engaged in fruit growing or orcharding or plantations like tea, coffee, rubber, cinchona and other medicinal plantations were recorded in household industry or other work as the case may be.

A person who has given out his land to another person or persons for cultivation for money, kind or share of crop and who does not even supervise or direct cultivation of land was not treated as working as cultivator. Similarly, a person who works in another person's land only as a labourer and has no right of lease or contract on land on which he works, nor is responsible for taking decisions as to which crop to sow and when, or taking the risks of cultivation, and is paid wages in cash, kind or share, such as, share of produce was not treated as cultivator.

Working as Agricultural Labourer

An agricultural labourer is a person who works in another person's land only as a labourer, without exercising any supervision or direction in cultivation, for wages in cash, kind or share, such as, share of produce. The labourer has no right of lease or contract on land on which he works; nor is he responsible for taking decisions as to which crop to sow and when, or taking the risk of cultivation. A share of produce goes to him only as wages. He should have been working as agricultural labourer in the last or current cultivating season.

Working at Household Industry

For a person who was working in a household industry, the nature of work done by him and the nature of household industry was recorded.

A household industry was defined as an industry conducted by the head of the household himself and/or mainly members of the household at home or within the village in rural areas and only at home in urban areas. The industry should not be run on the scale of a registered factory. Thus, the main criterion for a household industry was the participation of one or more members of the household in rural areas. In the urban areas, the industry should be confined to the house. Household industry related to production, processing, servicing, repairing or making and selling of goods. It did not include professions such as pleader, doctor, barber, waterman or astrologer, etc.

A person, though he might not be working in his own household industry, might be working as a paid employee in another person's household industry. It was therefore, enquired whether the person who was not working in his own household industry was working in any other person's household industry and, if so, the nature of work done by him was recorded.

Doing Work other than Cultivator, Agricultural Labourer and Household Industry

If the enumerated person was not working in the above categories, the actual work was entered. If the person is working as a cultivator or as an agricultural labourer or at household industry and also does

some other work (dairying or livestock raising, orchard or plantation etc.), which does not relate to any of the above categories, it was recorded as such. If the person is engaged in more than one work and none of them is related to any of the above categories, the work to which he devotes more time was recorded.

1971

Economic Activity

The economic activity was categorised into main activity and secondary activity. All persons were divided into two broad streams of main activity *viz.*, Workers and Non-workers. (i) "Worker : A 'worker' is a person whose main activity is participation in any economically productive work by his physical or mental activity. Work invoives not only actual work but also effective supervision and direction of work.

A man or woman who is engaged primarily in household duties such as cooking for own household or performing one's own household duties or a boy or a girl who is primarily a student attending institution, even if such a person helps in the family economic activity but not as a full-time worker, should not be treated as a worker for the main activity. On the other hand, if a person is primarily engaged in some economic activity but at the same time does also attend to some household chores or attends a night school etc., he or she should be treated basically as a worker for the main activity and categorised accordingly.

A person who is working may be either working as a cultivator, as an agricultural labourer or at a household industry or may be doing any other work.

Reference period

The reference period was one week prior to the date of enumeration in the case of regular work in trade, profession, service or business. If a person had participated in any such regular work on any one of the days during this reference period and this had been returned as his main activity, the person was categorised accordingly. A person who normally works but had been absent from work during this reference period on account of illness, travel, holiday, temporary breakdown, or strike etc., the person was treated as engaged in regular work in which he would have otherwise been employed but for his temporary absence. Persons under training such as apprentices with or without stipends or wages were considered as ecomically active and recorded as working. A person who had merely been offered work but had not actually joined was not treated as engaged in work. There are certain types of work which are not carried on throughout the year e.g., cultivation, livestock keeping, plantation work, some types of household industry, etc. A person's main activity was ascertained with reference to such work in the last one year even if he was not economically active in the week prior to enumeration. It is likely that even when a person is engaged in some other work during the period of one week prior to the date of enumeration, the main activity of the person may be cultivation, agricultural labour or some other work attended to normally by him in the course of the year.

The various categories of workers are explained below.

Cultivator

For purposes of the Census, a person is working as cultivator if he or she is engaged in cultivation by oneself or by supervision or direction in one's capacity as the owner or lessee of land held from govt. or as a tenant of land held from private persons or institutions for payment of money, kind or share.

Cultivation involves ploughing, sowing and harvesting and production of cereals and millet crops such as wheat, paddy, jowar, bajra, ragi, etc., and pulses, raw jute and kindred fibre crop, cotton, etc., and other crops such as sugarcane, groundnuts, tapioca, etc., and does not include fruit growing, vegetable growing or keeping orchards or groves or working on plantation like tea, coffee, rubber, cinchona and other medicinal plantations.

A person who merely owns land but has given out land to another person or persons for cultivation for money, kind or share of crop and who does not even supervise or direct cultivation of land, was not treated as cultivator. Similarly, a person working in another person's land for wages in cash, kind or share was not treated as cultivator.

Agricultural Labourer

A person who works in another person's land for wages in money, kind or share was regarded as an 'Agricultural Labourer'. He has no risk in the cultivation but he merely works in another person's land for wages. The labourer could have no right of lease or contract on the land on which he works.

Household Industry

For a person who returns his main activity as engaged in some production or processing of goods, such as, say, handloom weaving, dyeing, carpentry, bidi rolling, pottery manufacture, dairying, cycle repairing, blacksmithy, tailoring, etc., it was ascertained if it was a household industry.

A household industry was defined as an industry conducted by the head of the household himself/herself and/or mainly by the members of the household at home or within the village in rural areas and only at home in urban areas. The industry should not be run on the scale of a registered factory.

The main criterion of a household industry was the participation of one or more members of a household. This criterion was applied to urban areas too. Even if the industry is not actually located at home in rural areas, there is greater possibility of the members of the household participating even if it is located anywhere within the village limits. In the urban areas where organised industry takes greater prominence, the household industry should be confined to the precincts of the house where the participants live. In urban areas, even if the members of the household by themselves run an industry but at a place away from the precincts of their home, it was not considered a household industry. It should be located within the precincts of the house where the members live.

A household industry relates to production, processing, servicing, repairing or making and selling (but not merely selling) of goods. It does not include professions such as pleader or doctor or barber, musician, dancer, waterman, dhobi, astrologer, etc., or merely trade or business, even if such professions, trade or services are run at home by members of the household.

Sometimes it is likely that a person who may not be working in his own household industry may be working as a petty employee in another person's household industry. It was therefore, enquired whether the person who is not working in his own household industry is working in any other person's household industry as an employee.

Other Workers

A person who gives his main activity as engaged in any other work which is not cultivation, agricultural labour or household industry, was regarded under the category of ' other workers '. The type of workers that may come under the ' other workers ' category are factory workers, those working in trade or transport, all government servants, municipal employees, teachers, mining workers, political or social workers, building labourers, etc., In effect, all types of economic activity not covered by cultivation, agricultural labour or household industry were recorded under this residual category. Workers engaged in plantations or forestry were not treated as cultivators or agricultural labourers, but as ' other workers '.

1981

In 1981, the economic questions initially sorted out every individual into one of two classifications, *viz.*, (1) worker, and (2) non-worker. A 'worker' was one who had engaged himself in 'work' for at least some time during the reference period. A 'non-worker' was one who did not engage himself at all in 'work' throughout the whole reference period. 'Work' was defined as participation in economically productive activity. Such participation may be mental or physical in nature. Work involves not only actual work, but also effective supervision and direction of work.

An important departure in 1981 from the corresponding concept adopted for the 1961 and 1971 censuses was with regard to the reference period. At the earlier two censuses, different reference periods were prescribed for 'seasonal' and 'non-seasonal' work. In 1981, a uniform reference period was prescribed for both—'seasonal' as also 'non-seasonal' work. It was the period of one year preceding the date of enumeration of the individual.

A person who was classified in the very first economic question as a 'worker' was in the next question classified into one of two classes, depending on whether he worked for major part of last year, or for less than major part. A 'major part' worker was one who, during last year, put in work for six months or more or, in other words, for 183 days or more. The PCA shows such an individual under the classfication 'Main Worker'. A person who did work during last year, but whose contribution in terms of days worked amounted to less than six months (or 183 days) was classified as a 'marginal worker'. Whether the individual worked for major part of last year or for less than major part, that is, marginally, the 'work' he engaged himself in was classified into one out of the following four categories *viz.*, (1) Cultivator, (2) Agricultural Labourer, (3) Household Industry, and (4) Other work.

The definitions adopted for these 'worker' categories in 1981 were identical with those prescribed at the 1971 census. The definitions adopted in connection with the 1971 census have already appeared above and hence have not been repeated here under 1981.

For purposes of comparison of data, an equation of the results of the three censuses in regard to the work force is possible, if aggregates are arrived at in the following manner :—

1961 Workers = 1971 Workers for 'main activity'
+Non-workers for 'main activity' who had secondary work.
= 1981 Main Workers + Marginal Workers.

We have set forth the above equation for Maharashtra State as a whole in the accompanying Statement A. After giving the absolute figures for the three censuses, the work participation rates which work out on that basis for 1961, 1971 and 1981 have also been indicated in the statement.

Cropped area per worker at ' cultivation '

The census defines 'cultivator' and ' agricultural labourer ' as workers engaged in growing of certain specific crops only, and not any other crops. These have been listed out in the 1981 Instructions to Enumerators, which have been reproduced in the preceding explanatory note while defining the four categories of workers. We thought it fit to examine if the land area in which these specific crops might have been grown in the districts of Maharashtra near about the 1981 census time could be ascertained, so that we could relate to this cropped area the population of cultivators and agricultural labourers reported at the 1981 census.

Although 1980-81 would have been the right year for which we should have sought the information, the actual position at the moment is that the latest year for which this information is available is 1977-78. We have tried to satisfy ourselves with the information available for 1977-78. This has been reproduced in the accompanying Statement B by extracting from the Statistical Abstract of Maharashtra State for the year 1977-78, published by the Directorate of Economics & Statistices, Government of Maharashtra. For each district, we worked out the gross cropped area per head of main workers at cultivation (that is, cultivators + agricultural labourers) by dividing the figure of gross cropped area available from the above source by the total of cultivators and agricultural labourers available from the 1981 census, and then ranked the districts in descending order of this ratio. The result of the exercise is exhibited in the accompanying Statement C. Greater Bombay, which is a city district, has been left out in assigning rank orders. Solapur district tops the list, with a value of 1.87 hectares for this ratio. Thane district ranks last with a value of 0.38 hectares. The ranks get altered to some extent if we go by figures of gross cropped area alone (*vide* col. 3 of Statement C) and do not work out a ratio as indicated above.

There is one more implied assumption involved in the above exercise. In taking the figure of workers at cultivation in the denominator for working out the above ratio, we have taken into consideration only the 'main workers'. It is not unlikely that some of the 'marginal workers' might also be working at cultivation. But since the breakdown of 'marginal workers' by industrial categories is not yet available, the next best choice was to assume that only the 'main workers' and none of the 'marginal workers' might have worked at cultivation. Even a ratio worked out on the basis of this assumption will perhaps serve as a rough and ready measure.

*Greater Bombay is a predominantly urban district and hence has not been taken into consideration for purposes of this ranking in connection with a 'cultivation' index.

APPENDIX 2

Sectionwise Primary Census Abstracts for Greater Bombay Municipal Corporation

Greater Bombay Municipal Corporation area is a city and also a district by itself. It reported a population of 8.2 millions at the 1981 census, which was 13.1 per cent of the population of the State. Being a Municipal Corporation area, there are no tahsils therein, as in the case of other districts, for which data could be presented in the preceding District Primary Census Abstract. However, for census purposes the Health Registration Sections constituted by the Municipal Corporation served as separate charges within the city. Data in the form of the Primary Census Abstract for the general, the SC and the ST populations were compiled separately for each of the 88 Health Registration Sections, before building up totals for the city. Since these compilations do not fit into the scheme of the District Primary Census Abstract, the data by Sections have been presented in this appendix. In presenting the Sectionwise PCAs, we have stuck to the usual formats, that is, 39 columns in the case of the general PCA, and 31 columns in the case of the special PCAs for SCs and STs. The only difference made is with regard to the information presented in column 3. Since the entire Greater Bombay area is urban, we have, instead of designating this column as Total/Rural/Urban, presented therein the number of Enumeration Blocks (EBs) in each Section.

Incidentally, the names of sections 79, 80 and 82 as now given in this appendix are correct. In our Paper 1 of 1982, some printing errors had crept in in printing the names of these sections on page 26.

A statement to give certain socio-economic indicators for Greater Bombay Sections as emerging from the 1981 census results is also appended.

The extract relating to 'houses', households and population from the explanatory note given at the beginning is, for ready reference, repeated below, since it needs particular attention in studying census data relating to Greater Bombay.

Houses, households and population

Columns 5 & 6 of the Primary Census Abstract give for each territorial unit the 'No. of occupied residential houses and the 'No. of households' respectively. The census definitions of 'building' and 'census house' were as follows.

A 'building' was defined as generally a single structure on the ground, enclosed by four walls and with a roof overhead. The quality of construction was immaterial. It may be made up of more than one component unit used or likely to be used for purposes of residence or for any other non-residential purpose, such as shop, business house, office, factory, work-shed, school, etc. Combination of some other purpose with residence was also provided for in the definition.

A 'census house' was defined as a building or part of a building having a separate main entrance from the road or from a common courtyard, staircase, etc., used or recognised as a separate unit. It may be occupied or vacant. It may be used for a residential or for a non-residential purpose, or for a combination of purposes.

The definition of 'census house' provides that such a house could be either occupied or vacant. The figure presented in column 5 of the PCA represents the number of houses which at the time of the census were occupied and were actually being used either wholly or partly for purposes of residence. This means that the figure excludes all census houses which were vacant at that time, as also those which were being used for wholly non-residential purposes.

A 'household' was defined as a group of persons who commonly live together and would take their meals from a common kitchen, unless the exigencies of work prevented any of them from doing so. There could be a single-person household or a multi-person household. Three types of households were identified. A 'normal household' was defined as comprising persons related to one another by blood or marriage, with or without some unrelated members. The second type was the 'institutional household'. An 'institutional household' was defined as comprising persons unrelated to one another, but living together in the same premises and eating from a common kitchen. Examples of such households were boarding houses, messes, hotels, lodges, rescue homes, jails, ashrams, etc. The 'normal' and the 'institutional' households were enumerated in the houses where they were found to be living during the enumeration period, which extended from 9 February to 28 February 1981. A revisional round was taken during the preiod 1 March to 5 March 1981 in order to adjust the population count to the prescribed reference moment, *viz.*, sunrise of 1 March 1981.

The third type was the 'houseless household'. Such a household lived in the open, without a roof overhead, but with common arrangements made for cooking food for the members. For enumerating the houseless population, special arrangements were made on the night of 28 February 1981 for collecting at suitable centres all persons who reported that they lived in the open and had not already been enumerated somewhere else. This was thus a one-night enumeration on the eve of the reference date of the census, in respect of which no revisional round was obviously called for with a view to adjusting the population count.

The figure presented in column 6 of the PCA represents the total of the three types of households. The corresponding population, that is, the population living in the three types of households taken together, has been indicated in columns 7, 8 and 9 for persons of both sexes, for males and females respectively.

It will be pertinent to mention here that the census aims at enumerating every individual with the household where he normally resides or, in other words, in his/her dormitory. A uniform period had been prescribed for being observed throughout the country in connection with the enumeration operations. This was 9 February to 28 February 1981. A person was enumerated at his normal place of residence with his own household, provided he happened to live there for at least one day during the enumeration period. An individual who happened to be away from his normal place of residence throughout the period of enumeration was enumerated as a visitor in a household where he was found by the census enumerator appointed for the place of his visit, provided he reported that he had not been enumerated anywhere else for the Indian census. The 'dormitory' appraoch imports a very significant feature into the census results in respect of big cities, which one associates in one's mind with large populations of workers and students. A substantial proportion of the day-time population of workers and students in a big city happens to commute daily to the city from surrounding towns and villages for pursuing their vocations. This commuter population is enumerated in their respective dormitories in the surrounding towns and villages. The population figures presented for any big city thus relate only to the population having their dormitories in the city itself.

Certain Socio-Economic Indicators for Greater Bombay Sections

* This figure, viz. 429.89 km constitutes the total of the areas communicated by the Greater Bombay Municipal Corporation for the 88 sections. The Municipal Corporation area is coterminous with that of Greater Bombay district, for which the area reported by Surveyor General of India is 603·00 km². The latter figure has been shown against Greater Bombay district in the Primary Census Abstract.

SECTIONWISE PRIMARY CENSUS ABSTRACT FOR GREATER BOMBAY MUNICIPAL CORPORATION

* This figure, viz. 429.89 km constitutes the total of the areas communicated by the Greater Bombay Municipal Corporation for the 88 sections. The Municipal Corporation area is coterminous with that of Greater Bombay district, for which the area reported by Surveyor General of India is 603·00 km². The latter figure has been shown against Greater Bombay district in the Primary Census Abstract.

APPENDIX 3

Schedules Canvassed at the 1981 Census

CENSUS OF INDIA 1981 — INDIVIDUAL SLIP (Universal) — CONFIDENTIAL

Pad No. .....
Slip No. .....

Location Code ..... ( ) Sl. No. of Household [ ]

1 Name .....

2 Relationship to head .....

3 Male (1)/Female (2) .....

4 Age .....

5 Marital status .....

6 Mother tongue .....

7 Two other languages known .....

8 Religion .....

9 Whether S.C. (1) or S.T. (2) .....

10 Name of caste/tribe .....

11 Literate (1)/Illiterate (2) .....

12 Educational attainment .....

13 Attending school/college Yes(1)/No(2) .....

14A Worked any time at all last year ? Yes / No (H/ST/D/R/B/I/O) .....

14B If yes in 14A, did you work for major part of last year ? Yes (1)/No (2) .....

15A Main activity last year ? Yes in 14B (C/AL/HHI/OW) / No in 14B (H/ST/D/R/B/I/O) .....

If HHI/OW in 15A

(i) Name of establishment .....

(ii) Description of work .....

(iii) Nature of industry, trade or service .....

(iv) Class of worker .....

15B 14B Yes—Any other work any time last year ? Yes (C/AL/HHI/OW)/No / 14B No—Work done any time last year ? (C/AL/HHI/OW) .....

If HHI/OW in 15B

(i) Name of establishment .....

(ii) Description of work .....

(iii) Nature of industry, trade or service .....

(iv) Class of worker .....

16 If No in 14A or 14B, seeking/available for work ? Yes (1)/No (2) .....

CENSUS OF INDIA 1981 — INDIVIDUAL SLIP (Sample) — CONFIDENTIAL

1 Birth place

(a) Place of birth .....

(b) Rural (1)/Urban (2) .....

(c) District .....

(d) State/Country .....

2 Last residence

(a) Place of last residence .....

(b) Rural (1)/Urban (2) .....

(c) District .....

(d) State/Country .....

3 Reasons for migration from place of last residence (Code)* .....

4 Duration of residence at the village or town of enumeration .....

5 For all ever-married women only

(a) Age at marriage .....

(b) Number of children surviving at present

Male Female Total

(c) Number of children ever born alive

Male Female Total

6 For currently married women only

Any child born alive during last one year .....

*Employment (1) Education (2) Family moved (3) Marriage (4) Others (5)

A-66—36—A.

CENSUS OF INDIA 1981

HOUSEHOLD SCHEDULE

Part I : Household Particulars

Book No._____ CONFIDENTIAL

Form No._____

Location Code_____ Serial number of household (Col. 7 of abridged houselist)_____ Type of household, whether Institutional or Houseless*_____

1. Name of head of household _____
2. Religion of the head of household _____
**3. Whether head of household belongs to S.C. or S.T. If scheduled caste write (1)/If scheduled tribe write (2) _____
4. Name of caste/tribe of head of household _____
5. Language mainly spoken in the household _____
6. Does the household live in owned house ? Yes (1)/No (2) _____
7. If 'No' in 6, does the household own a house or house site in the village or town of enumeration ? Yes (1)/No (2) _____
8. Predominant construction material of the house occupied by household :

(a) WALL — Grass, leaves, reeds or bamboo (1) | Mud (2) | Unburnt bricks (3) | Wood (4) | Burnt bricks (5) | G. I. sheets or other metal sheets (6) | Stone (7) | Cement concrete (8) | Ekra (9) | Others (0) _____

(b) ROOF — Grass, leaves, reeds, thatch, wood, mud, unburnt bricks or bamboo (1) | Tiles, slate or shingle (2) | Corrugated iron, zinc or other metal sheets (3) | Asbestos cement sheets (4) | Brick, stone and lime (5) | Stone (6) | Concrete R. B. C., R. C. C. (7) | Others (8) _____

(c) FLOOR — Mud (1) | Wood/Planks (2) | Bamboo or logs (3) | Brick, stone and lime (4) | Cement (5) | Mosaic/Tiles (6) | Others (7) _____

9. FACILITIES AVAILABLE TO THE HOUSEHOLD :

(a) Drinking water supply (i) Source : Well (1) | Tap (2) | Hand pump/Tube well (3) | River/Canal (4) | Tank (5) | Others (6) _____

(ii) Within premises (1)/Outside premises (2) _____

(b) Electricity : Yes (1)/No (2) _____ (c) Toilet (for Urban areas only) Yes (1)/No (2) _____

10. Number of living rooms in occupation of household _____
11. Number of married couples usually living in the household _____
12. Does the household cultivate land ? Yes (1)/No (2) _____ 13. If 'Yes' in 12, category — Owned (1) | Rented (2) | Owned and rented (3) _____
14. If Rented enter local name of tenancy _____
15. Total population of the household (Total of Col. 2 of Part II : Population Record) _____

* For institutional write 'I', for houseless write '0'

** Consult list supplied to you. If not belonging to S.C./S.T. put cross (×) in the box
