PREFACE

From 1951 Census onwards the census questionnaire contains items of enquiry to ascertain whether the respondent belongs to a Scheduled Caste or a Scheduled Tribe and, if yes, the name of the Scheduled Caste/Tribe to which he belongs with a view to collecting information for discharging the Constitutional obligations towards these communities. In the Individual slips (universal) adopted for 1981 Census, Question 9 makes an enquiry about the Scheduled Caste or Scheduled Tribe status and Question 10 about the name of the specific Scheduled Caste/Tribe. Likewise, the Question 3 of the Household Schedule enquires whether the head of the household belongs to SC or ST and Question 4 the name of the Scheduled Caste/Tribe of the head of the household, if the answer to Question 3 is in the affirmative. The statutory lists of Scheduled Castes and Scheduled Tribes are notified in pursuance of Articles 341 and 342 of the Constitution.

The lists of Scheduled Castes and Scheduled Tribes were notified for the first time under the Constitution (Scheduled Castes) Order, 1950 and the Constitution (Scheduled Tribes) Order, 1950. These lists have been modified or amended or supplemented from time to time. On the reorganisation of the States, the Scheduled Castes and Scheduled Tribes (Modification) Order came into force from 29th October, 1956.

Recently, the Scheduled Castes and Scheduled Tribes Orders (Amendment) Act, 1976, has come into force. The main purpose of this Amendment Act was to remove area restrictions in respect of most of the Scheduled Castes and Scheduled Tribes. The lists of Scheduled Castes and Scheduled Tribes appended to this Act are materially the same as contained in the Scheduled Castes and Scheduled Tribes (Modification) Order, 1956. The only difference is that most of the Scheduled Castes and Scheduled Tribes are now notified throughout of the State unlike in the 1956 Order where in most cases these were notified in relation to different regions of the State, resulting in area restrictions.

It will be pertinent to State that the enumeration of Scheduled Castes and Scheduled Tribes has its own problem. This problem is in respect of the similarity of names obtaining amongst castes and tribes which are really speaking not Scheduled Castes or Scheduled Tribes. One example is Bagri or Bagdi, which in the 1956 Order was treated as a Scheduled Castes only in the districts of Bhind, Gird (Gwalior), Morena, Shivpuri, Guna, Rajgarh, Shajapur, Ujjain, Ratlam, Mandsaur, Bhilsa (Vidisha), Indore, Dewas, Dhar, Jhabua and West Nimar. With the removal of area restriction Bagri or Bagdi caste became a Scheduled Caste for the whole State. Actually speaking the Bagri or Bagdi Caste which is a Scheduled Caste is found mostly in the districts of Mandsaur, Ratlam, Ujjain, Dhar, Dewas, Indore, Shajapur and Rajgarh with small numbers of them in Morena, Shivpuri, Guna and Vidisha.

There is a cultivating Caste in Seoni district which has similar name—Bagri/Bagdi. This Caste is not a Scheduled Caste for it does not at all suffer from such social disability as untouchability. However, if members of this Caste in Seoni district prefer to return themselves as Scheduled Caste, there is nothing to get them recorded as such in the census.

Another example may be taken. Agaria is a Scheduled Tribe and this tribe is really an occupational tribe of indegenous iron smelters. There is another prosperous cultivating Caste Agharia who live in north-eastern parts of Raipur district and south-eastern parts of Raigarh district. If they choose to return themselves as Scheduled Tribe Agaria, there is nothing to prevent them from doing so.

Same problem arises in respect of Halba/Halbi and Kamars. Halba/Halbi is a Scheduled Tribe which is concentrated only in Durg, Raipur and Bastar districts. But if the Halbi Caste of Chhindwara who have no ethnic affinity with the Halba/Halbi Scheduled Tribe return themselves as such, they get so recorded.

The Census enumerator is not an ethnographer. All that he has is the list of Scheduled Castes and Scheduled Tribes, and he goes by the respondent's reply. The Kammar section of the Dorla tribe sometimes get recorded as Kamar which is in fact a circumscribed Tribe of south-eastern Raipur district; the village Baiga or the witch-doctor, who may really be a Gond or a Kamar, gets recorded as a member of the Baiga tribe.

The figures herein presented are based on the replies given by the respondents in reply to census questionnaire and no attempt has been made, nor is it permissible to make, to tamper with these replies.

It is hoped that the publication of this data would be useful to the planners, administrators, research workers, persons engaged in voluntary social service organisations and to general data users interested in these figures.

An introductory note has been given in the beginning of this volume which describes the various concepts and definitions which will facilitate appreciation of the data presented in the volume.

Basic compilation of this data was done in the Regional Tabulation Offices and I am thankful to my colleagues who worked on it. I must particularly thank Shri B. K. Bannerjee, Regional Deputy Director, Sagar and Shri R. C. Sharma, Regional Deputy Director, Gwalior, who really helped in the compilation of primary figures.

Preparation of this volume for the press has been possible because of the diligent efforts of Shri M. L. Sharma, Deputy Director and Shri M. G. Mohril, Assistant Director. The Census tabulation team headed by Shri Vishram Singh and Shri N. P. Sharma have worked hard in he tabulation of data. I am thankful to all of them.

I am grateful to Shri P. Padmanabha, Registrar General, India and to Shri K. K. Chakravorty, Deputy Registrar General (Census and Tabulation) for their guidance.

INTRODUCTORY NOTE

This paper presents basic demographic statistics in the form of Primary Census Abstract relating to the Scheduled Castes and Scheduled Tribes. The Primary Census Abstract for the Scheduled Castes/Scheduled Tribes population have been presented in two ways (i) State level table showing State, Divisions and Districts by Total, Rural and Urban, (ii) District level table showing State, Divisions, Districts and Tahsils by Total, Rural and Urban and also giving data separately for each city/town/urban agglomeration and outgrowth. These tables are based on the information collected in the Individual slip and posted in Part II of the Household Schedule for each member of the household at the 1981 Census.

The Census enumeration was conducted during the period 9th February to 28th February 1981 and the population count was updated during the revisional round between 1 to 5 March, 1981 with reference to the Census moment i.e. sunrise of 1st March, 1981. Thus, the figures presented in this volume relate to the sunrise of 1st March, 1981.

There has been no jurisdictional change in the State's boundary during the decade 1971-81. There has however, been reconstitution of district boundaries of Sehore and Durg districts of 1971 as a result of which two new districts, viz., Bhopal and Rajnandgaon have been created. Bhopal district was carved out from Sehore district of 1971 on 13-9-1972 and Rajnandgaon district was carved out from Durg district of 1971 on 5-1-1973. Reconstitution of Commissioner's division has also taken place. As a consequence 4 new divisions have been created during the decade 1971-81. As against 7 divisions in 1971 there are now 11 divisions in the State. There has been yet another minor internal change due to the transfer of 4 villages from Budni tahsil of Sehore district to Hoshangabad tahsil of Hoshangabad district on 3-3-1976. The details of these changes have been given in Appendix-I to Table A-1 in Part II-A volume of 1981. No change has, however, taken place in the number of tahsils. Thus, there are now 11 Commissioner's divisions, 45 districts, 190 tahsils and 327 towns. As the population figures presented in this volume relate to the sunrise of 1st March, 1981, the data presented are for the territorial units as existed on that date.

The Primary Census Abstracts presented in this volume give the total number of households with SC/ST members, the Scheduled Castes and Scheduled Tribes population, literates, main workers by broad categories of main activity, marginal workers and non-workers by sex.

Scheduled Castes and Scheduled Tribes :

Scheduled Castes and Scheduled Tribes are those found in the Notification of Scheduled Castes/Scheduled Tribes Order (Amendment) Act, 1976 (No. 108 of 1976). By this amendment, area restrictions for most of the Scheduled Castes and Scheduled Tribes have been removed. However, the area restrictions still remains in respect of Dhobi (in Bhopal, Raisen and Sehore districts); Kotwal and Pardhi (in Bhind, Dhar, Dewas, Guna, Gwalior Indore, Jhabua, Khargone, Mandsaur, Morena, Rajgarh, Ratlam, Shajapur, Shivpuri, Ujjain and Vidisha districts) and Kumhar (in Chhatarpur, Datia, Panna, Rewa, Satna, Shahdol, Sidhi, and Tikamgarh districts) Scheduled Castes. Like-wise Keer and Pardhi scheduled tribes are still restricted only in Bhopal, Raisen and Sehore districts; Mina in Sironj sub-division of Vidisha district; and Panika in Chhatarpur, Datia, Panna, Rewa, Satna, Shahdol, Sidhi and Tikamgarh districts. Pardhi, Bahelia, Bahellia, Chita Pardhi, Langoli Pardhi, Phanse Pardhi, Shikari, Takankar, Takia [in (1) Bastar, Chhindwara, Mandla, Raigarh, Seoni and Surguja districts, (2) Baihar tahsil of Balaghat district, (3) Betul and Bhainsdehi tahsils of Betul district, (4) Bilaspur and Katghora tahsils of Bilaspur district, (5) Durg and Bajod tahsils of Durg district, (6) Chowki, Manpur and Mohala Revenue Inspector's circles of Rajnandgaon district, (7) Murwara, Patan and Sihora tahsils of Jabalpur district, (8) Hoshangabad and Sohagpur tahsils of Hoshangabad district and Narsimhapur district, (9) Harsud tahsil of Khandwa district, (10) Birdra-Nawagarh Dhamtari and Mahasamund tahsils of Raipur district]. Persons belonging of the castes/tribes mentioned above found in other districts than those where Scheduled have not been treated as Scheduled Castes or Scheduled Tribes as the case may be. It may be mentioned here that Scheduled Castes can belong to the Hindu or the Sikh religion only, while the Scheduled Tribes belong to any religion. To facilitate comparison, the list of Scheduled Castes and Scheduled Tribes relating to Madhya Pradesh relevant to 1971 and 1981 Censuses have been given immediately after this note as Appendix-I and Appendix-II, respectively.

The various terms and definitions connected with the data presented in this paper have been explained below:—

1. Household :

The term household in census has a different meaning than 'family' and is defined as a group of persons who commonly live together and would take their meals from a common kitchen unless the exigencies of work prevented any one of them from doing so. There may be a household of persons related by blood or a household of unrelated persons or having a mix of both. Examples of unrelated households are boarding houses, messes, hostels, residential hotels, rescue homes, jails, *ashrams* etc. These are called Institutional households. There may be one member households, 2 member households or multi-member households. For census purposes, each one of these types is regarded as a 'household'.

There are three types of households viz., normal, institutional and houseless households. A houseless household is that which is normally found to be residing on the road side, pavements, in hume pipes, under staircases, or in open, temple, mandaps, platforms and the like. Institutional households have been explained above. Those households which do not fall in the category of Institutional household and houseless household have been categorised as normal households. The enumerator was required to indicate in the Household Schedule whether the household belonged to 'Institutional household' or 'Houseless household'. For institutional 'I' was written against "the question Type of household" and 'O' was indicated in the case of houseless, household. For normal household, no entry was required to be made.

The enumeration of institutional households was done in the manner the normal households were enumerated during the enumeration period from 9th February to 28th February, 1981. The houseless households were enumerated on the night of 28th February, 1981,

2. Literates and Educated persons :

A person who can both read and write with understanding in any language is treated as literate. A person who can merely read but cannot write, is not literate. It is not necessary that a person who is literate should have received any formal education or should have passed any minimum educational standard.

The test for literacy was necessary only when the enumerator had any doubt about any person returning as 'literate'. The test for literacy was ability to read any portion of the Enumerator's Instruction Booklet and to write a simple letter. Ability merely to sign one's name was not considered adequate to qualify a person as being able to write with understanding. If a person claimed to be literate in some other language with which the enumerator was not familiar, the respondents word was taken as correct.

All children of the age of 4 years or less were treated as illiterate even if they might be attending school and, in same cases,had picked up reading and writing a few odd words.

3. Classification of workers by Industrial Category :

At the 1981 Census, the questions which were canvassed in the Individual Slip to elicit information on economic characteristics of the population were as follows :—

I Q. 14A Worked any time at all last year ? Yes / No (H/ST/D/R/B/I/O)

Q. 14B If yes in 14A, did you work for major part of last year ? Yes(1)/No (2)

II Q. 15A Main activity last year ? Yes in 14 B (C/AL/HHI/OW) / No in 14B (H/ST/D/R/B/I/O)

Q. 15B 14B Yes—Any other work any time last year ? Yes (C/AL/HHI/OW)/No
14B No—Work done any time last year ? (C/AL/HHI/OW)

III Q. 16 If No in 14A or 14B, seeking /available for work ? Yes (1)/No (2)

The above questions were formulated after detailed discussion at the Data Users Conference and technical groups. At the 1961 and 1971 Censuses, the economic questions were based on different approaches, namely usual status and current status, were adopted with reference period of one year and one week for seasonal and for regular work, respectively. Current status approach was thought to be irrelevant in the context of our country where usual status of a worker is considered to be more appropriate.

The above questions are in three parts and have been designed in such a way that first of all it attempts to divide the population into two broad groups viz., (1) those who have worked any time at all during the last year, and (2) those who have not worked at all. The latter group consists of the non-workers. This information is obtained in Q. 14A. Having classified the population into two groups, the next attempt has been to classify those who have worked any time into Main workers and Marginal workers, on the basis of time spent on work as well as secondary work, if any, of the Main workers. If a person had worked for six months or more (183 days or more) he was treated as Main Worker and if the period of work was less than six months he was regarded as a Marginal Worker. In Q. 15B details of secondary work or marginal work are obtained. Finally an attempt has been made to determine whether those who are non-workers or marginal workers are seeking or are available for work.

It will thus be seen that these questions on economic aspects have been so designed as to identify all workers in-full time workers or seasonal workers or marginal workers-and non-workers with reference to the activities during the last one year period prior to the date of enumeration.

The various terms and definitions used in collecting the economic data have been explained briefly in the following paragraphs.

Definition of work :

Work has been defined as participation in any economically productive activity. Such participation may be physical or mental in nature. Work involves not only actual work but also effective supervision and direction of work.

For persons on regular employment or engaged in regular type of work, temporary absence during the reference period on account of illness, holiday, temporary closure, strike etc., was not a disqualification for treating them as workers.

Persons under training, such as apprentices, with or without stipends or wages were also treated as workers, In the case of a person who had been offered work but had not actually joined, he was not treated as a worker. Rent receivers, pensioners etc., were not treated as economically active unless they also engaged themselves in some economic activity.

In all these questions, the reference period is the one year preceding the date of enumeration. Certain types of work such as agriculture, household industry like *gur* making etc., are carried on either throughout the year or only during certain seasons or part of the year, depending on the local circumstances. In all such cases the reference period has been the broad time span of the agricultural season preceding the enumeration.

Main Workers :

The main workers are those who have worked for a major part of the year preceding the enumeration. Main activity of a person who was engaged in more than one activity was reckoned in terms of time disposition. For example, if a person had worked as daily wage labourer for 4 months, as an agricultural labourer for 1 month and as cultivator for 2 months, he was treated as a main worker on the basis of total time spent on work and his main activity have been reckoned as daily wage labourer since he spent major part of his time on work in this activity than as cultivator or agricultural labourer.

Marginal Workers :

Marginal workers are those who have worked any time at all in the year preceding the enumeration but have not worked for a major part of the year. For example, if a person who is mostly doing household duties or is mainly a student, or mainly a dependent or a rentier or a beggar and the like who is basically a non-worker had done some work at some time during the reference period, he was treated as a marginal worker.

Non-workers :

Non-workers constitute of householders, students, dependents, retired persons or renties, beggars, inmates of institutions, unemployed persons etc. They are persons who have not worked any time at all in the year preceding the enumeration.

Main activity of workers :

The main activity of workers has been classified into four categories viz., cultivator, agricultural labourer household industry and other work. A significant departure has, therefore, been made this time whil presenting the data on economic activity which relate to only four broad categories indicated above as against nine industrial categories of the 1961 and the 1971 Censuses. The nine industrial categories of the 1971 census were (I) Cultivator (II) Agricultural labourers, (III) Livestock, Forestry, Fishing, Hunting & Plantations Orchards & allied activities (IV) Mining, (V) Manufacturing, Processing and Servicing with sub-categories (a) At Household Industry and, (b) Other than Household Industry (VI) Construction, (VII) Trade and Commerce, (VIII) Transport, Storage and Communications; and (IX) Other workers. The correspondence between the categories of 1981 and 1971 are as under :

1981 Category	1971 Category
I	I
II	II
III	V(a)
IV	III, IV, V(b) VI, VII, VIII & IX

Cultivator :

For purposes of Census a person is working as cultivator if he or she is engaged either as employer, single worker or family worker in cultivation of land owned or held from Government or held from private persons or institutions for payment in money, kind or share.

Cultivation involves ploughing, sowing and harvesting and production of cereals and millet crops such as wheat, paddy, jowar, bajra, ragi, etc., and other crops such as sugarcane, groundnuts, tapioca, etc., and pulses, raw jute and kindered fibre crops, cotton, etc., and *does not* include fruit growing, vegetable growing or keeping orchards or groves or working of plantation like tea, coffee, rubber, cinchona, opium and other mediciral plantations.

Agricultural labourer :

Persons working in another person's land for wages in money, kind or share have been treated as agricultural labourers. An agricultural labourer has no risk in the cultivation and he has no right of lease or contract on land on which he works.

Household Industry :

Household Industry is defined as an industry conducted by the head of the household himself/herself and or by the members of the households at home or within the village in rural areas and only within the precincts of the house where the household lives in urban areas. The larger proportion of workers in a household industry should consist of members of the household including the head. The industry should not be run on the scale of registered factory which would qualify and has to be registered under the Indian Factories Act.

Household industry relates to production , processing, servicing, repairing or making and selling (but not merely selling) of goods such as hand-loom weaving, dyeing, carpentry, *bidi* rolling, pottery manufacture, bicycle, repairing, blacksmithing, tailoring etc. It does not include professions such as a pleader or doctor or barber or *dhobi* even if such professions are run at home generally by members of the household.

Other workers :

All workers, *i.e.*, those who have been engaged in some economic activity during the last one year, who are not cultivators or agricultural labourers or in household industry are 'Other workers'. The type of workers that come under this category include factory workers, plantation workers, those in trade, commerce, business, transport, mining, construction, political or social work, all government servants, municipal employees, teachers, priests, entertainment artists etc.
