PREFACE

This publication 'Paper 4 of 1981—Primary Census Abstract for Scheduled Castes and Scheduled Tribes' is the fourth in the series of 1981 census publications brought out by the Kerala Census Directorate. While Paper 1 and Paper 2 were based on provisional figures compiled immediately after the census, Paper 3—Final Population Totals as well as this volume are based on the final figures arrived at after detailed scrutiny and processing of the data in the Regional Census Tabulation Offices during 1981–82.

The Primary Census Abstract (PCA) separately for Scheduled Castes and Scheduled Tribes is presented in this volume. It contains figures of population, households, literates, main workers (classified by broad categories viz., cultivators, agricultural labourers, household industry workers and other workers), marginal workers and non-workers by sex. The Background Note preceding the tables provides a brief analysis of all the above features. While all the available data on Scheduled Castes and Scheduled Tribes down to the village and town level are presented in this volume, the caste-wise and tribe-wise population figures will be published only sometime later since these have to be processed in the computer and made available on the basis of an all India time-table.

Such a volume containing detailed data on Scheduled Castes and Scheduled Tribes exclusively is being brought out for the first time in census and hence there is no corresponding publication in the 1971 or earlier censuses. A list of other census publications containing data relating to Scheduled Castes and Scheduled Tribes which are to be brought out in course of time and the time-schedule of their publication are given at the end of this volume for information.

It is hoped that this will be a useful reference book providing micro level statistics on the demographic features, literacy levels and categories of workers in respect of Scheduled Castes and Scheduled Tribes to all data-users like planners, administrators, educators and development officials.

BACKGROUND NOTE

1. INTRODUCTION

The caste system in Kerala in historic perspective

1. 1. The caste system which was non-existent in ancient Kerala society was introduced subsequently by the Aryan immigrants. The later part of the Sangam age (first five centuries A. D.) witnessed the beginnings of caste-wise segregation and stratification of society. By the eighth century A. D. the Aryanisation of Kerala was almost complete and the Brahmins attained a position of primacy in social and religious matters. Even the powerful groups like the Kshatriyas (ruling class) and the Nairs (fighting class) came under the domination of the Brahmins. Many other communities which followed occupations involving manual labour or indulged in beef-eating came to be relegated to the lower echelons of the social ladder. Over the centuries the rigours and rigidities of the caste system became etched more and more deeply in the social life of Kerala manifesting in the triple evils of untouchability, unapproachability and unseeability perpetrated towards the lower castes. Further, they were denied admission to schools and employment in Government service. They were denied entry into temples and were not even allowed to walk along the approach roads to temples. Another notable aspect of this evil of caste-based discrimination was that in addition to the existence of a multitude of castes there was a bewildering variety of sub-castes and some of the lower castes considered untouchable by the high castes had among themselves certain sub-castes considered untouchable by certain other superior sub-castes within the same caste. There was no inter-marriage or inter-dining between these sub-castes. For instance, the Pulayas who abstained from eating beef considered as polluting, the very approach of other Pulayas who ate beef. Further, untouchability was practised even by the lower castes between themselves. For instance, the Ezhavas who cavilled at the denial of temple entry to them by the high caste Hindus, themselves denied entry into the temples owned by them to the still lower castes.

1. 2. The evils of the caste system at its worst as indicated above came to be substantially mitigated in the present century as a result of the influence of the liberal western education, the agitations of the depressed classes for the removal of their disabilities, the growing awareness among the high caste people about the injustices in the caste system, the work of great social reformers and, above all, the Indian National Movement. Consequent to these, a series of progressive measures were implemented in the different parts of the State as it then existed, which broke down the rigid barriers and disabilities of the caste system. Children of all castes were given admission to schools, communal rotation was adopted for government jobs and the approach roads to temples were thrown open to the lower caste people. The Vaikom Satyagraha (1924) and the Guruvayur Satyagraha (1931–32) were landmarks in this reform movement. The historic Temple Entry Proclamation was issued on November 12, 1936 by the Maharaja of Travancore ordaining as follows:

> "Profoundly convinced of the truth and validity of our religion, believing that it is based on divine guidance and on all-comprehending toleration, knowing that in its practice it has, throughout the centuries, adapted itself to the needs of changing times, solicitous that none of our Hindu subjects should by reason of birth or estate or community be denied the consolation and solace of the Hindu faith, we have decided and hereby declare, ordain and command that, subject to such rules and conditions as may be laid down and imposed by Us for preserving their proper atmosphere and maintaining their rituals and observances, there should henceforth be no restriction placed on any Hindu by birth or religion on entering and worshipping at the temples controlled by Us and our Government".

In Cochin and Malabar areas also similar progressive reforms were implemented and temple entry was formally introduced in 1947. With the advent of independence, legislation was implemented for the abolition of untouchability and constitutional provisions were introduced for the protection of the Scheduled Castes and Scheduled Tribes.

Provisions in the Constitution of India

1. 3. Under the directive principles of state policy in Article 46 of the Constitution, it is laid down that "the state shall promote with special care the educational and economic interests of the weaker sections of the people and in particular, of the Scheduled Castes and the Scheduled Tribes and shall protect them from social injustice and all forms of exploitation".

1. 4. As prescribed in Articles 341 and 342 of the Constitution, the President of India has to notify specified castes, races or tribes or part of or groups with in castes, races or tribes or tribal communities as Scheduled Castes and Scheduled Tribes respectively.

Scheduled Castes and Scheduled Tribes Order, 1950

1. 5. Accordingly, the President of India, after consultation with the heads of the states concerned issued the Constitution (Scheduled Castes) Order 1950 and the Constitution (Scheduled Tribes) Order 1950. [The 'Malabar District' and 'Kasaragod Taluk' mentioned in this statement refer to the areas specified as such in sub-section (2) of Section 5 of the States Re-organization Act, 1956 (37 of 1956). 'Malabar District' comprises of the present Cannanore, Waynad, Kozhikode and Malappuram Districts; Ottappalam, Mannarghat, Palghat and Alathur Taluks and portion of Chittur Taluk of Palghat District; Chavakkad Taluk and portion of Kodungallur Taluk of Trichur District and portion of Cochin Taluk (ie. old Fort Cochin Taluk) of Ernakulam District. 'Kasaragod Taluk of Malabar District' comprises of the present Kasaragod and Hosdurg Taluks of Cannanore District.]

Changes in the lists of S.Cs. and S.Ts. between 1971 and 1981

1.11. From the above statement, it can be seen that substantial changes have occurred in the 1981 list as compared to the 1971 list by way of addition of new castes/tribes which satisfy the prescribed criteria, deletion of certain castes/tribes which do not satisfy the criteria, transfer from the caste list to the tribe list and *vice versa*, removal of area restrictions etc. The following are the changes between the lists adopted in the 1971 census and 1981 census:

(*i*) 7 Scheduled Castes (Boyan, Chakkiliyan, Kuravan or Sidhanar, Nayadi, Pallan, Paraiyan or Parayan or Sambavar and Valluvan) and 6 Scheduled Tribes (Irular or Irulan, Kadar, Kammara, Malayan, Marati and Muthuvan or Muduger or Muduvan) have no change in the areal restrictions from 1971 to 1981 while the remaining 61 Scheduled Castes and 29 Scheduled Tribes have undergone changes in areal jurisdiction as per the revised list.

(*ii*) In the lists of S.C. and S.T. adopted in the 1971 census, 'Ulladan' was a Scheduled Caste and 'Ulladan (Hill dwellers)' was a Scheduled Tribe. As per the revised list, Ulladan has been deleted from the S.C. list and the name of the tribe 'Ulladan (Hill dwellers)' has been changed as 'Ulladan'.

(*iii*) Uraly was a Scheduled Caste as well as a Scheduled Tribe in 1971. But Uraly has now been deleted from the list of S.C. and retained only under S.T.

(*iv*) 2 Scheduled Tribes viz. Malayekandi and Vishavan which had no population in 1971 have now been deleted from the list of S.T.

(*v*) While 'Pulayans' came under both S.C. and S.T. in 1971, they no longer come under S.T. as per the 1976 revised list and are only S.C.

1.12. On a comparison of the figures of S.C. and S.T. for 1971 with those of 1981, it can be seen that the deletion of Pulayan from the list of Scheduled Tribes and the removal of the area restriction for Pulayan under S.C. have resulted in a substantial fall in the S.T. population and increase in the S.C. population in the State, especially in the erstwhile Malabar region.

2. S.C. AND S.T. POPULATION FIGURES

State-level picture

2.1. According to the 1981 census, the Scheduled Caste population of Kerala is 25,49,382 which works out to 10·02 per cent of the total population and the Scheduled Tribe population is 2,61,475 which works out to 1·03 per cent of the total population. The combined population of Scheduled Castes and Scheduled Tribes together is 28·11 lakhs in 1981 as against 20·42 lakhs in 1971, which means an increase of 37·68 per cent as compared to the general population growth rate of 19·24 per cent. The Scheduled Caste and Scheduled Tribe population as per the 1971 census was 17·72 lakhs (8·30 per cent) and 2·69 lakhs (1·26 per cent) respectively. For India, as a whole in 1971, the percentage of Scheduled Caste population was 14·6 and that of Scheduled Tribe population was 6·94. (The corresponding all India figures for 1981 are not yet finalised).

2.2. The estimated population as in 1971 of Scheduled Castes and Scheduled Tribes based on the 1976 Amendment has subsequently been worked out and notified by the Government of India in 1977. According to this estimate, the Scheduled Caste and Scheduled Tribe population come to 20·02 lakhs (9·38 per cent) and 1·93 lakhs (0·90 per cent) respectively. These figures provide a more accurate base for a realistic comparison with the 1981 figures of Scheduled Caste and Scheduled Tribe population separately. Based on the above revised figures, the growth rate of Scheduled Caste population for 1971–81 is 27·32 per cent and that of Scheduled Tribe population is 35·23 per cent.

District-level picture

2.3. The following statement gives the district-wise break-up of the S.C. and S.T. population by sex and their percentage to the total population as per the 1981 census final totals.

4. SEX RATIO

State-level picture

4.1 Compared to the sex-ratio (1,032 females per 1,000 males) for the total population of the State, the sex-ratios for Scheduled Castes and Scheduled Tribes are lower with 1,022 and 992 respectively. The sex-ratio for Scheduled Tribes which is adverse to females is in marked contrast to the general trend of sex-ratio in the State which has always been in favour of females.

District-level picture

4.2. The highest sex-ratio among Scheduled Castes is in Trivandrum district (1,045) while the second and third positions are held by Trichur (1,044) and Palghat (1,040). Cannanore, Wayanad, Idukki and Kottayam districts have predominance of males over females. The lowest sex-ratio is in Wayanad (932) district.

4.3. In the case of Scheduled Tribes, the sex-ratio is above 1,000 only in four districts viz. Malappuram (1,055), Trivandrum (1,025), Kottayam (1,012) and Wayanad (1,010). In all other districts, males outnumber females, Trichur being the lowest with 937 females per 1,000 males.

5. LITERACY

State-level picture

5.1. Literacy is an important demographic characteristic which is a pointer to the level of advancement of the people. It is all the more significant in the case of Scheduled Caste and Scheduled Tribes as most of them were consigned to the darkness of illiteracy and ignorance for centuries. Viewed from this angle, the comparatively higher literacy rates of Scheduled Caste and Scheduled Tribe population in Kerala present an encouraging picture. Out of the Scheduled Caste population of 25·49 lakh in the State, 14·27 lakh are literate which works out to a literacy rate of 55·96 per cent. Out of the Scheduled Tribe population of 2·61 lakhs in the State, 83,132 are literate which works out to 31·79 per cent. The disparity between the state average (70·42 per cent) and the percentage of S.C./S.T. literacy is considerable with a difference of 14·46 point in the case of Scheduled Castes and 38·63 in respect of Scheduled Tribes. However, it is significant to note that the Kerala S.C. rate is substantially higher even than the all India general literacy rate (36·17 per cent), while, the Kerala S.T. rate is not far less than the all India general literacy rate itself. The same phenomenon is noticed in respect of male and female literacy of Scheduled Castes. However, in the case of female literacy, both S.C. and S.T. rates for Kerala are higher than the general female literacy rate for all India.

District-level picture

5.2. As in the case of the literacy rates for the total population, Kottayam district leads other districts with 71·79 per cent for S.C. and 73·63 per cent for S.T. This is the sole district in the state where the literacy rate of S.T. is higher than S.C. and also the S.C. and S.T. rates are higher even than the state average literacy rate for total population. Both S.C. and S.T. literacy rates are lowest in Palghat district with 41·93 per cent for S.C. and 12·04 for S.T. The four southern districts of Kottayam, Alleppey, Quilon and Trivandrum are better placed in S.C./S.T. literacy. Palghat, Malappuram, Wayanad, Cannanore and Idukki districts have low literacy among Scheduled Castes while the low literacy zone among Scheduled Tribes comprises of the five contiguous districts of Wayanad, Kozhikode, Malappuram, Palghat and Trichur.

The lowest rank is occupied by Palghat with percentages of 49·85 for S.C. and 16·02 for S.T. In respect of female literacy also, Kottayam occupies the highest position with 67·24 per cent for S.C. and 71·78 per cent for S.T. It is significant that the percentage of female literacy among S.C. (71·78) is higher than S.C. (67·24). Palghat district has the lowest female literacy among S.C. and S.T. with 34·31 and 7·97 respectively.

Rural-urban picture

5.4. At the state level and in all districts having urban areas (except Kottayam), urban literacy rates for Scheduled Castes are higher than the corresponding rural rates. In Kottayam, the rural rate for S.C. (71·91) is higher than the urban rate (70·39). Coming to Scheduled Tribes, the urban rates are lower than the corresponding rural rates in the districts of Idukki (37·42 as against 43·42) and Kottayam (67·05 as against 73·71).

6. WORKERS AND NON-WORKERS

Economic questions in the 1981 census

6.1. The economic questions that were asked through the Individual Slip (Universal) are as follows:

Q. 14A. Worked any time at all last year? Yes / No(H/ST/R/D/B/I/O)

Q. 14B. If yes in 14A, did you work for major part of last year? Yes (1)/No (2)

Q. 15A. Main activity last year? Yes in 14B (C/AL/HHI/OW) / No in 14B (H/ST/D/R/B/I/O)

If HHI/OW in 15A

(i) Name of establishment
(ii) Description of work
(iii) Nature of Industry, trade or service
(iv) Class of worker

Q. 15B. 14B Yes—Any other work any time last year? Yes (C/AL/HHI/OW)/No / 14B No—Work done any time last year? (C/AL/HHI/OW)

If HHI/OW in 15B

(i) Name of establishment
(ii) Description of work
(iii) Nature of industry, trade or service
(iv) Class of worker

Q. 16. If No in 14A or 14B, seeking/available for work? Yes (1)/No(2)

6.2. The first question 14A in 1981 is intended to divide the population into two basic streams of workers and non-workers based on a liberal definition of work. Work was defined as participation in any economically productive activity. Such participation may be physical or mental in nature. Work involved not only actual work but also effective supervision of work. The reference period was the preceding one year. Question 14A was intended to find out whether a person had done any work during the last year or whether he did not work at all and if so how the person spent his time as a non-worker. The question was expected to net all workers irrespective of the quantum of their contribution to economic activity. In other words, full-time workers, part-time workers and marginal workers were netted by this question.

This question also gave the number of persons who belong to the non-worker category of H (Household duties), ST (Students), D(Dependents), R (Retired or rentier persons), B (Beggars, vagrants, etc.), I(Inmates of institutions) and O(Other non-workers) and had no secondary work at all. Question 14 B was asked of all persons for whom 'yes' was recorded in Question 14A, to ascertain whether the person had worked for the major part of the year. All persons who had worked for 183 days (six months) or more were treated as having worked for the major part of the year. Question 15A was intended to elicit information on the details of the main activity (working or non-working) in which he was engaged during the major part of the year. In Q. 15B, details of the secondary work, if any, for workers (Yes in 14B) and the marginal work for all persons who did not work for the major part of the year (No in 14B) were collected. Q.16 i.e. 'seeking work or available for work' was asked of all persons who had no work at all for the entire year (No in Q. 14A) (unemployed) or no work during major part of the year (No.) in 14B) (underemployed). The order of the questions was designed after a pilot study (in 1978) and two pretests (in 1978 and 1979), the intention being to net all full-time workers, marginal workers, persons having secondary work and persons seeking available for work.

Main workers, marginal workers and non-workers

6·3. The tables presented in this volume relate to main workers, marginal workers and non-workers. The concepts of these terms are briefly indicated below:—

I MAIN WORKERS

Main workers are those who have worked for major part of the year preceding the enumeration. In other words, those for whom the answer would have been 'yes' in Q. 14A and 'yes' (1) in Q. 14B of the Individual Slip (Universal) are categorised as main workers. Workers are further divided into cultivators, agricultural labourers, those engaged in household industry and other workers based on the information available in Q. 15A.

II MARGINAL WORKERS

Marginal workers are those who have worked any time in the year preceding the enumeration but have not worked for the major part of the year. In other words marginal workers would be those for whom the entry in Q. 14A of the Individual Slip (Universal) is 'yes' and the entry in Q. 14B of the slip is 'No (2)'. The type of work in which the marginal workers were engaged is collected through Q. 15B of the Individual Slip (Universal) but at this stage data on such marginal workers have not been generated.

III NON-WORKERS

Non-workers are those for whom the answer is 'No' in Q. 14A of the Individual Slip (Universal). They are persons who have not worked any time at all in the year preceding the enumeration period.

IV WORK-PARTICIPATION RATE

The term 'work participation rate' used in this census refers to the proportion of workers to total population and not the proportion of the labour force to total population, though the latter is often the conventional usage. This distinction has to be noted while referring to the figures given in this paper. Again, as per the definition of main workers, marginal workers and non-workers, these are exclusive categories and hence if the number under the 3 categories are added together one will arrive at the total population itself.

6·4. As stated above, based on economic activity, persons are classified as main workers, marginal workers and non-workers. Main workers are further categorised as cultivators, agricultural labourers, household industry workers and other workers.

State-level picture

6·5. Of the total Scheduled Castes (25·49 lakhs) in the State 10·73 lakh are workers which comprise of 9·24 lakh main workers and 1·49 lakh marginal workers. The combined work-participation rate of Scheduled Caste is 42·10 per cent, which includes the main workers (36·26 per cent) and marginal workers (5·84). 60·37 per cent of the main workers belong to the agricultural sector, of which 2·28 per cent are cultivators and 58·09 per cent are agricultural labourers. The percentage of workers among Scheduled Castes in the non-agricultural sector (39·63) comprises of 3·43 per cent in household industry and 36.20 per cent other workers.

6·6. Coming to Scheduled Tribes, there are 1·18 lakh workers (comprising of 1·06 lakh main workers and 0·12 lakh marginal workers) and the combined work-participation rate is 45·25 (i.e. 40·53 per cent main workers and 4·72 per cent marginal workers). Of the Scheduled Tribe main workers, 78.01 per cent are in the agricultural sector which includes 20·54 per cent in the category of cultivators and 57·47 per cent agricultural workers. In the non-agricultural sector, the percentage of household industry workers constitutes only 0·75 per cent, while those under 'Other workers' comprise of 21·24 per cent.

Except in the case of marginal workers, the rates among S.Ts. are higher than S.C. at the State level. It is also noticed that the percentage of main workers in the agricultural sector among Scheduled Castes (60·37 per cent) and Scheduled Tribes (78·01) are much higher than the total population rate (41·30). In the non-agricultural sector their proportion is very low, the percentage being 39·63 per cent for S.C. and 21·99 per cent for S.T. as against 58·70 per cent for the total population. Another striking feature is that 28·01 per cent of the agricultural labourers of the State belong to Scheduled Castes. Similarly, 12·66 per cent household industry workers are from Scheduled Castes.

District-level picture

Among Scheduled Castes, the highest rate is recorded in Palghat district (47·90 per cent) followed by Idukki (46·46) and Wayanad (44·57). Other districts have work participation rates less than the State rate for S.C. (42·10).
