*Provisional Population Totals Paper 3 of 1991 for the State of Maharashtra contains details of Work Participation Rates at district levels for all areas as well as rural and urban areas separately. We have tried to compare the Work Participation Rates of 1991 Census with that of the 1981 Census taking into account the adjustments of district boundaries as per 1991 Census. While analysing we have broken the Chapters under major categories of male and female separately as also rural and urban areas. Similarly, main and marginal workers and work participation rates have been analysed for each of the above mentioned categories. Comparisons have been made not only in terms of percentage but also by rank order. However, it must be clearly understood that these tables are based on a quick tabulation done by the enumerators and the Charge Officers and no major scrutiny or editing has been done and therefore, the final figures are bound to be different from those presented in the present volume.*

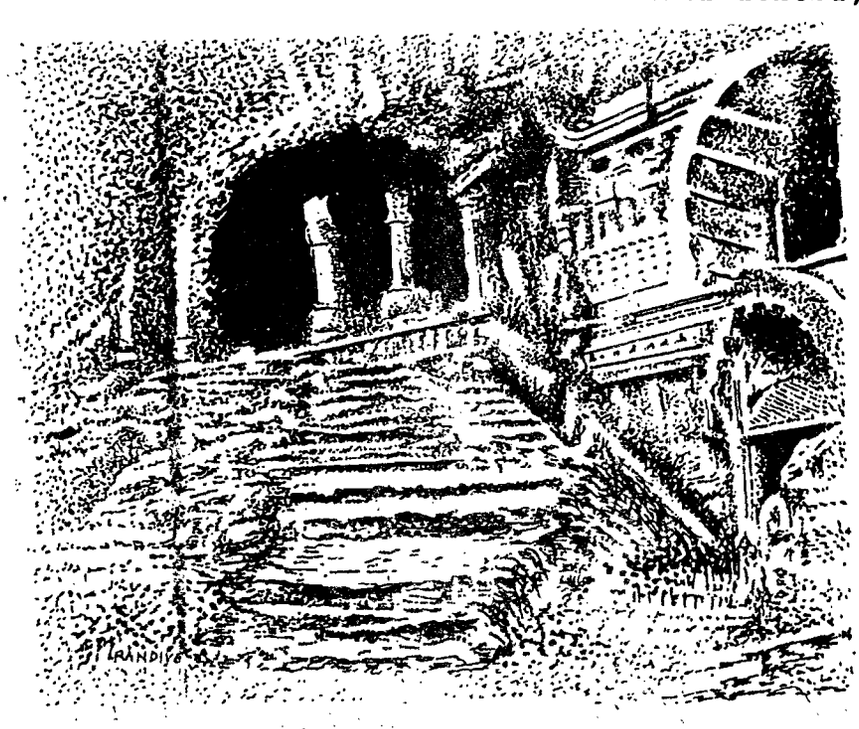

*The Registrar General & Census Commissioner of India, Shri A.R.Nanda has been the source of encouragement and sound advice throughout the Census Operations and subsequently. I would like to thank him on behalf of my Directorate for the freedom, sagacious advice and inspiration provided in bringing out this paper. DRG(Census) & DRG(Demography) from the Office of the Registrar General provided us with valuable tips for presenting this paper. I am thankful to all the senior Officers of the Registrar General who helped us in bringing out this paper.*

*This Paper was discussed at length for its contents and its style by my colleagues in this Directorate and after hours of discussions the present format and the contents have come out in the present form. I would like to thank each one of my staff who have worked extremely hard, came up with new ideas and*

*worked with enthusiasm to contribute for this paper. Although individuals can be cited for putting in their contribution. I feel that the entire Directorate from the senior most to the humblest level has contributed its might and therefore, without naming anyone in particular I would like to place on record my deep appreciation of the single minded devotion which everyone put-in, while bringing out this paper.*

## *STATE HIGHLIGHTS - 1991 CENSUS*

1. *Maharashtra's work participation rate is higher than the India average by more than 5 points.*

2. *Work participation rate for females in the State is higher by more than 10 points as compared to all India average.*

3. *Work participation rate for females in the rural areas of the State is highest (45.83 per cent) among the 14 major States of India.*

4. *Increase in the rural work participation rate for females is of almost 5 points during the last decade.*

5. *Highly urbanised districts show lower work participation rate than the State average.*

6. *The work participation rates for districts in Western Maharashtra have increased during the last decade while those in the districts in Marathawada and Vidarbha have decreased. However, 1991 work participation rates for districts in Marathawada and Vidarbha are still higher than those of districts of Western Maharashtra.*

7. *Maximum increase of 7.50 points in the work participation rate has been recorded for Sindhudurg district during the last decade and maximum decrease of 6.34 points has been recorded for Chandrapur district.*

8. *For main workers Gadchiroli district has the highest work participation rate (45.59 per cent) while Gr.Bombay (34.67 per cent) the lowest.*

9. *Proportion of male main workers is highest in Gadchiroli district (54.46%) and lowest in Ratnagiri district (45.38%). Ratnagiri district is preceded by Sindhudurg (45.94%) and Satara (47.99%) districts.*

10. *Work participation rate for female main workers is highest in Bhandara district (39.95%) and lowest for Greater Bombay (10.78%).*

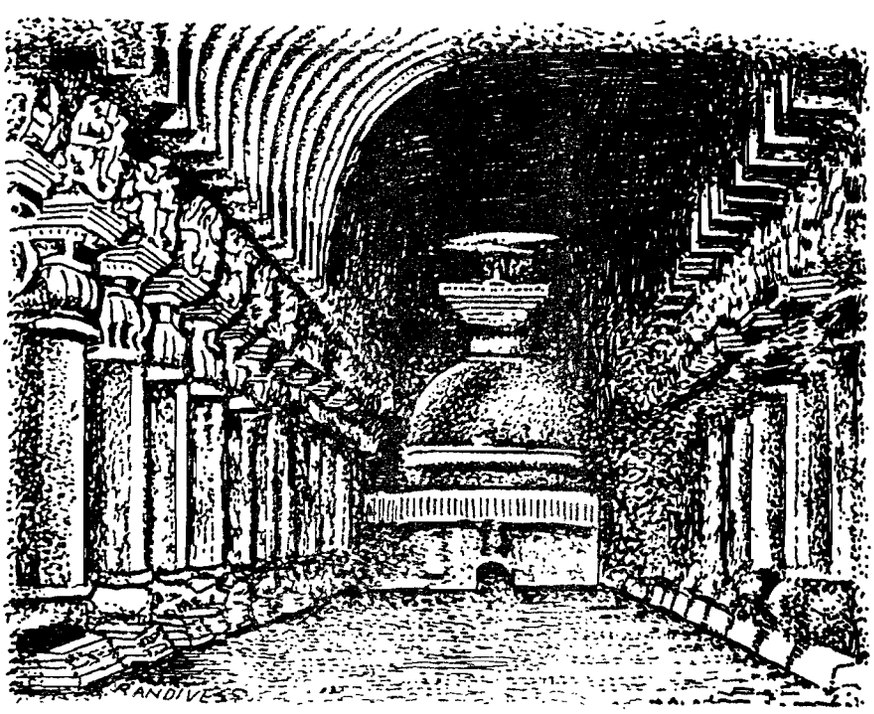

11. *There is a marked decline in the proportion of cultivators among males but there is increase in the proportion of agricultural labourers among males & females both and cultivators among females.*

12. *The proportion of main workers as Cultivators is more than 50 per cent in Ratnagiri, Sindhudurg and Gadchiroli districts. As against this Akola, Amravati and Yavatmal have more than 50 per cent of its main workers engaged as Agricultural Labourers.*

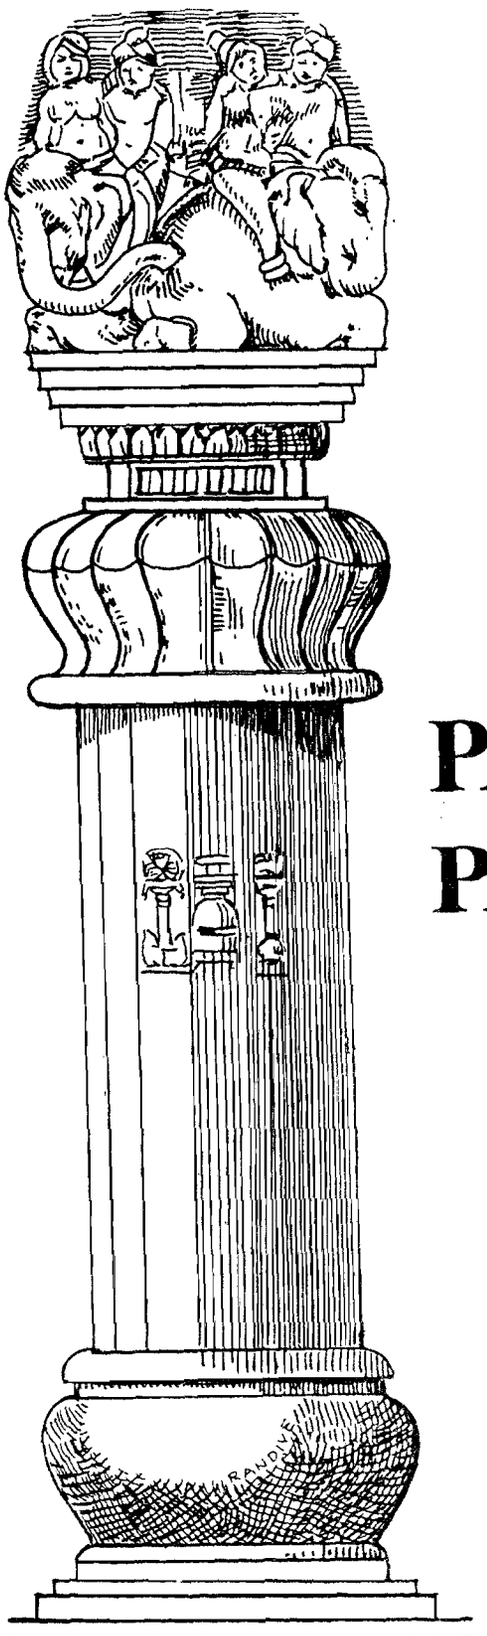

13. *Gr.Bombay, Pune, Thane and Nagpur districts have more than 50 per cent of their main workers engaged as other workers (OW).*

14. *Highest proportion of marginal workers has been recorded in Nanded district followed by Gadchiroli and Sindhudurg districts.*

15. *The proportion of female marginal workers is highest in Sindhudurg district (16.22%) and lowest in Gr.Bombay (0.77%).*

## CHAPTER I

### INTRODUCTION

This paper is the last in the series of publications based on the provisional population totals of the 1991 Census. It gives the provisional figures of total workers, main workers engaged in four broad groups of economically productive activity and marginal workers. The provisional results presented in this paper are also based on a quick tabulation of the field totals compiled by the census enumerators as the earlier two papers.

As these figures are purely provisional, they may vary to some extent from the final figures that will be published some time in 1992 after thorough scrutiny and editing. The present paper is published with a view to giving the readers a preliminary idea about the trends in the growth of working population and its composition by four broad categories of workers, viz. Cultivators, Agricultural labourers, Household Industry workers and Other workers.

Before attempting an analysis of the data relating to workers, it would be appropriate to explain the concepts regarding work, main workers, marginal workers and non-workers adopted in 1991 census.

Work is defined as participation in any economically productive activity. Such participation may be physical or mental. Work involves not only actual work but also effective supervision. It also includes unpaid work on farm or in family enterprise.

Based on the above definition of work the population is divided into two broad groups - workers and non-workers. Workers are further sub-divided into two categories viz. main

workers and marginal workers.

Although the reference date for the 1991 census was 1 March 1991, the reference period for the economic questions formed for classifying a person as worker or non-worker was one year preceding the date of enumeration.

A person who has worked for six months or more is treated as a main worker and the one who has worked for less than six months is treated as a marginal worker.

The person who has not worked at all during the reference period of one year is treated as a non-worker.

Main workers have been further classified into four broad categories viz. Cultivators, Agricultural labourers, Workers engaged in 'Household industry' and 'Other Work'.

**Cultivator**

For purposes of the census a person is considered working as cultivator, if he or she is engaged either as employer, single worker or family worker in cultivation of land owned or held from Government or held from private persons or institutions for payment in money, kind or share. Cultivation includes supervision or direction of cultivation.

A person who has given out his or her land to another person or persons for cultivation for money, kind or share of crop and who does not even supervise or direct cultivation of land, is not to be treated as cultivator. Similarly, a person working in another person's land for wages in cash or kind or a combination of both (agricultural labourer) is not be treated as cultivator.

Cultivation involves ploughing sowing and harvesting and production of cereals and millet crops such as wheat,

paddy, jowar, bajra, ragi, etc., and other crops such as sugarcane, ground-nut, tapioca, etc., and does not include fruit-growing, vegetable growing or keeping orchards or groves or working on plantations like tea, coffee, rubber, cinchona and other medicinal plantations.

As may be seen from the above description of Cultivators, the census defines only growing of certain specified crops as cultivation. The Census definition of cultivators would not include all workers engaged in agricultural production. This limitation has to be kept in view while using the data.

**Agricultural Labourer**

A person who works on another person's land for wages in money, kind or share is regarded as an agricultural labourer. He or she has no risk in cultivation, but he or she merely works on another person's land for wages. An agricultural labourer has no right of lease or contract on land on which he or she works.

**Household Industry**

Household Industry is defined as an industry conducted by the head of the household himself or herself and/or by the members of the household at home or within the village in rural areas and only within the precincts of the house where the household lives in urban areas. The larger proportion of workers in household industry consists of members of the household including the head. The industry is not run on the scale of a registered factory which would qualify or has to be registered under the Indian Factories Act.

The main criterion of a Household Industry is the participation of one or more members of a household. This criterion will apply in urban areas also. Even if the

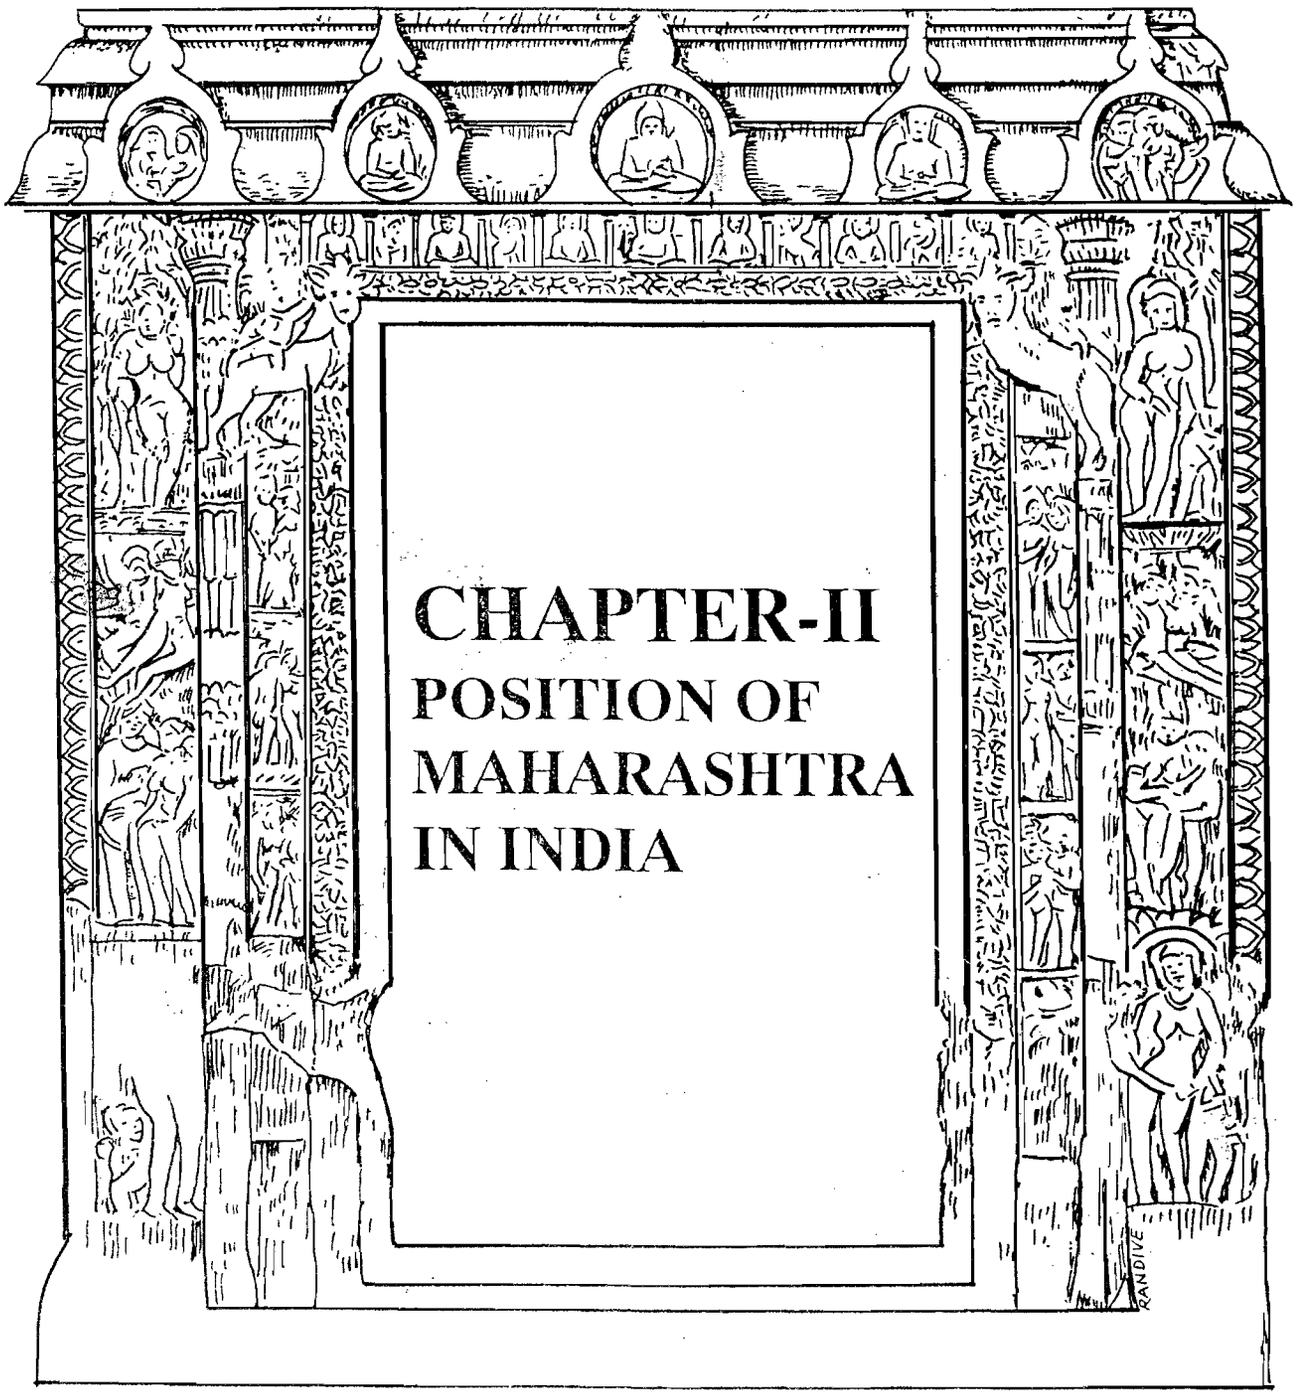

industry is not actually located at home in rural areas, there is greater possibility of the members of the household participating even if it is located anywhere within the village limits. In the urban areas where organised industry takes greater prominence, the Household Industry should be confined to the precincts of the house where the participants live. In urban areas even if the members of the household by themselves run an industry but at a place away from the precincts of their home, it is not considered as Household Industry. It should be located within the precincts of the house where the members live in the case of urban areas.

Household Industry relates to production, processing, servicing, repairing or making and selling (but not merely selling) of goods. It doesnot include professions such as a pleader, doctor, barber, musician, dancer, waterman, dhobi, astrologger, etc. or merely trade or business, even if such professions, trade or services are run at home by members of the household.

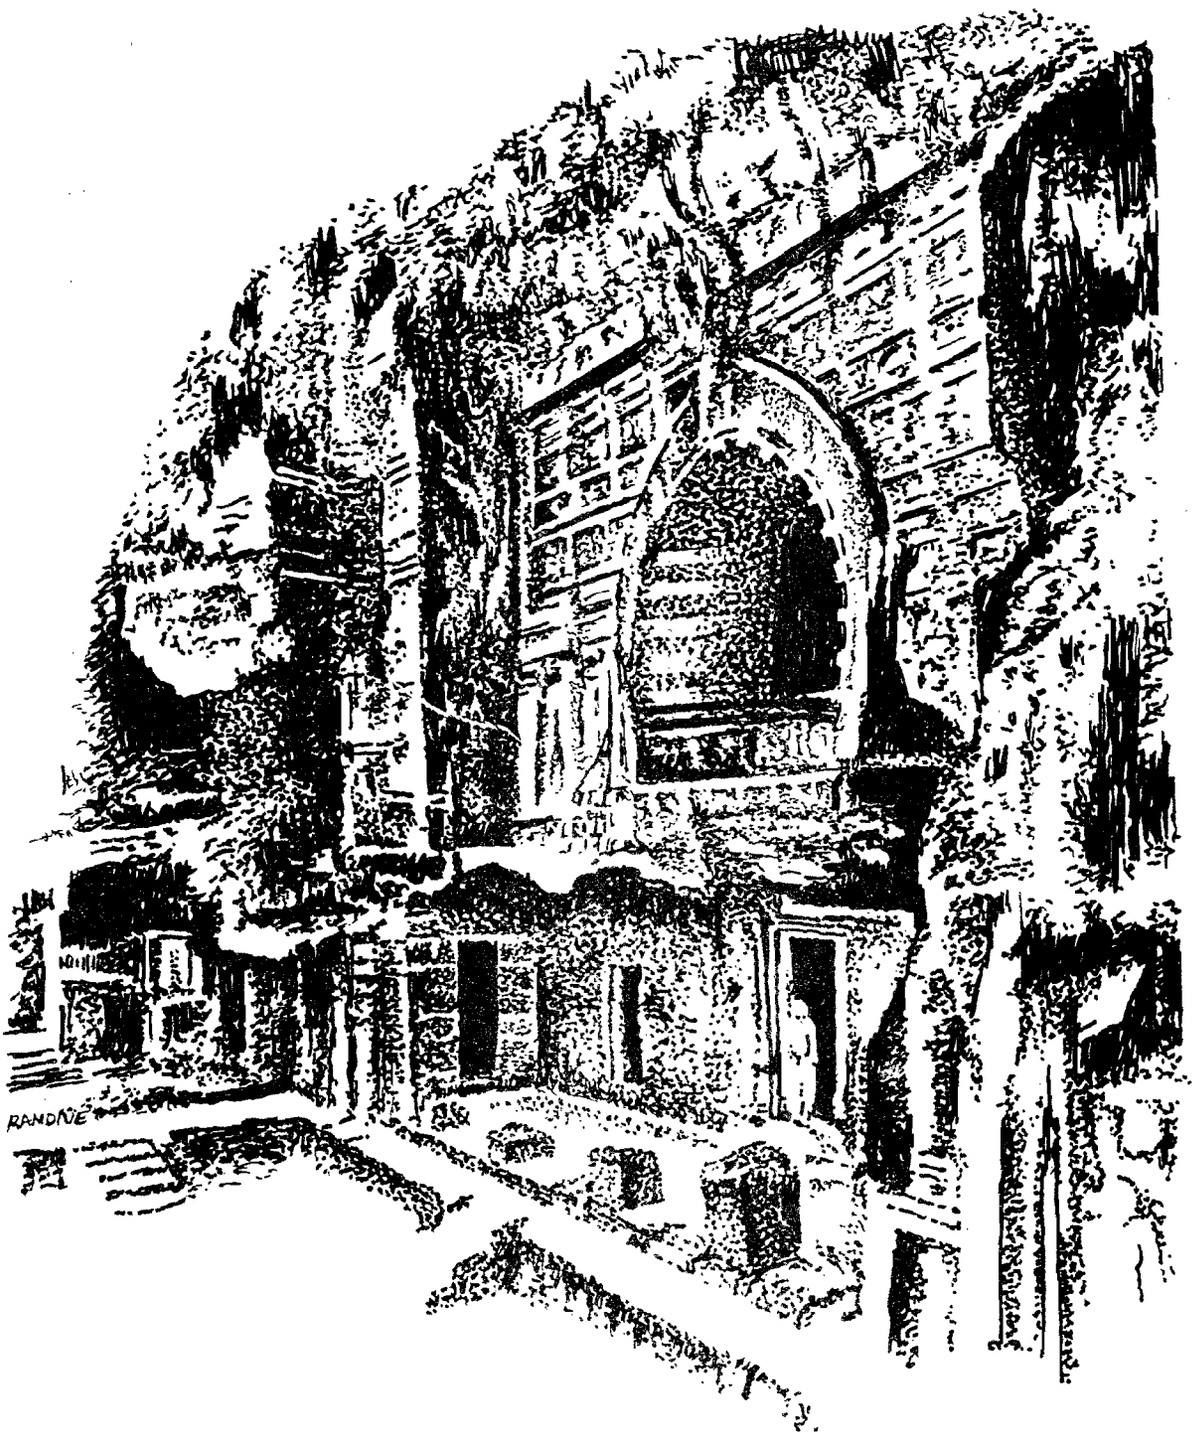

**Other Workers**

All workers, i.e. those who have been engaged in some economic activity during the year preceding enumeration who are not cultivators or agricultural labourers or household industry workers are 'Other workers'. The type of workers that come under this category includes factory workers, plantation workers, those in trade, commerce, business, transport, mining, construction, political or social work, all government servants, municipal employees, teachers, priests, entertainment artist, etc. In effect, all those who work in any field of economic activity other than cultivation, agricultural labour or household industry are 'Other workers'.

Appendix 1 - 'Concept of work' in earlier censuses and
Appendix 2 - 'Comparison with ILO's Concept' are given at the end.

# CHAPTER-II
# POSITION OF MAHARASHTRA IN INDIA

*AJANTA CAVE NO. XXVI (AURANGABAD)*

## CHAPTER II

## POSITION OF MAHARASHTRA IN INDIA

It would be interesting to know where Maharashtra State stands vis-a-vis India as a whole and other states before embarking on the analysis of data for Maharashtra and its districts.

Work participation rates for India and 23 states and seven union territories are presented in Statement 2.1.

The work participation rate is defined as proportion of total workers to total population.

Work participation rates (WPR) for Maharashtra are higher than the India average by 5.86 points and 5.16 points in 1981 and 1991 respectively.

Among the 14 major states with more than one crore population, only Andhra Pradesh (45.27 p.c) and Tamil Nadu (44.13 p.c.) have higher WPRs than Maharashtra (42.84 p.c.).

So far as the neighbouring states of Andhra Pradesh, Karnataka, Madhya Pradesh and Gujarat are concerned, the WPR has marginally declined in Andhra Pradesh and Madhya Pradesh and marginally increased in Maharashtra, moderately in Karnataka and substantially in Gujarat during 1981-91.

**Male WPR**

Male WPR of Maharashtra (52.03 p.c.) is higher than the national male WPR of 51.56 p.c. Among the 14 major states, Maharashtra ranks 8th with a WPR of 52.03 p.c. All the four adjoining major states have higher WPRs than Maharashtra. Male WPR for India has declined marginally during the decade 1981-91. Barring Gujarat, West Bengal, Kerala and Tamil Nadu, Male WPRs for all other major states have declined during the last decade.

So far as the adjoining major states are concerned, the decline in WPRs of Andhra Pradesh and Madhya Pradesh are higher and that of Karnataka is lower than Maharashtra. The WPR of Gujarat on the other hand has increased by 1.44 points during the decade.

## STATEMENT 2.1

PERCENTAGE OF TOTAL WORKERS IN 1981 AND 1991 IN ALL AREAS

| India/State or Union Territory | Persons | | | Males | | | Females | | |
|---|---|---|---|---|---|---|---|---|---|
| | Percentage of workers | | Percentage increase in the number of workers 1981 - 91 | Percentage of workers | | Percentage increase in the number of workers 1981 - 91 | Percentage of workers | | Percentage increase in the number of workers 1981 - 91 |
| | 1981 | 1991 | | 1981 | 1991 | | 1981 | 1991 | |
| 1 | 2 | 3 | 4 | 5 | 6 | 7 | 8 | 9 | 10 |
| INDIA | 36.70 | 37.68 | 26.80 | 52.62 | 51.56 | 21.40 | 19.67 | 22.73 | 42.26 |

| **Union Territories** | | | | | | | | | |
| 1. Andaman & Nicobar Islands | 36.88 | 34.88 | 39.86 | 56.71 | 52.95 | 33.45 | 10.78 | 12.86 | 84.19 |
| 2. Chandigarh | 34.92 | 34.78 | 41.32 | 54.77 | 54.01 | 38.06 | 9.10 | 10.52 | 66.77 |
| 3. Dadra & Nagar Haveli | 48.92 | 53.38 | 45.66 | 56.32 | 57.66 | 38.20 | 41.33 | 48.88 | 56.08 |
| 4. Daman & Diu | 33.22 | 37.09 | 43.38 | 44.49 | 50.72 | 53.16 | 22.62 | 23.06 | 25.26 |
| 5. Delhi | 32.19 | 31.64 | 48.08 | 52.67 | 51.53 | 45.63 | 6.84 | 7.67 | 71.43 |
| 6. Lakshadweep | 24.39 | 26.19 | 37.90 | 39.24 | 43.86 | 45.80 | 9.16 | 7.48 | 3.19 |
| 7. Pondicherry | 30.41 | 33.16 | 45.57 | 47.08 | 50.47 | 43.50 | 13.48 | 15.48 | 52.92 |

Excludes Assam and Jammu & Kashmir.

**Female WPR**

The female WPR has increased from 19.67 p.c. to 22.73 p.c. for India as a whole. This increasing trend is also observed in all major states.

Among major states, Andhra Pradesh ranks first with female WPR of 34.81 p.c. Maharashtra (33.02 p.c.) ranks second. The lowest WPR is observed in Haryana (11.29 p.c.). West Bengal (11.67 p.c.) and Uttar Pradesh (12.87 p.c.) come next.

**Work participation in rural areas**

Trends similar to those observed for all areas are also noticed in case of rural areas of India as a whole viz. increase in the WPR of persons, decrease in WPR of males and a sizeable increase in the WPR of females.

The highest WPR for persons is observed in Andhra Pradesh (50.55 p.c) Mahrashtra ranks second with a rural WPR of 49.47 p.c. The lowest WPR is registered in Harayana (31.61 p.c.)

As for male WPRs, the WPR for India has declined from 53.77 p.c. in 1981 to 52.50 p.c. in 1991. Gujarat, Kerala and West Bengal are the only exceptions to the declining trend. Even then the male WPR for Maharashtra (53.02 p.c.) is higher than that for Kerala (48.02 p.c.) and West Bengal (52.09 p.c.) Maharashtra is among the eight major states which have WPRs higher than the national WPR of 52.50 p.c. All the four adjoining major states have WPRs higher than that of Maharashtra.

As regards rural female workers, Maharashtra ranks first with a WPR of 45.83 p.c. among the 14 major states of India. The national WPR is only 27.20 p.c. The lowest WPR is registered in Punjab(7.02 p.c.).

## Work participation in urban areas

The trends in urban areas are similar to those observed in all areas and rural areas.

Among the 14 major states of India, Maharashtra ranks third with a WPR of 32.35 p.c. which is also higher by 1.90 points than the national average, of 30.45 p.c. Maharashtra is followed by Karnataka (31.98), Assam (31.34), Gujarat (31.26), Andhra pradesh (30.89 p.c) and Punjab (30.55 p.c.).

As for urban males, Punjab ranks first with a WPR of 51.73 p.c. followed by Gujarat (51.70 p.c.) and Maharashtra (50.33 p.c.).

So far as urban female workers are concerned, Tamil Nadu (14.55 p.c. ) ranks first followed by Kerala (14.00 p.c) among the major states. Maharashtra ranks fifth with WPR of 11.58 p.c. The two adjoining major states of Andhra Pradesh (12.49 p.c) and Karnataka (13.11 p.c.) have higher while Gujarat (8.77 p.c) and Madhya Pradesh (10.28 p.c.) have lower WPRs than Maharashtra.

## Main workers

Statement 2.2 presents the proportion of main workers to total population for persons, males and females for India and states.

STATEMENT 2.2

PROPORTION OF MAIN WORKERS BY SEX IN STATES AND UNION TERRITORIES IN 1981-91, ALL AREAS

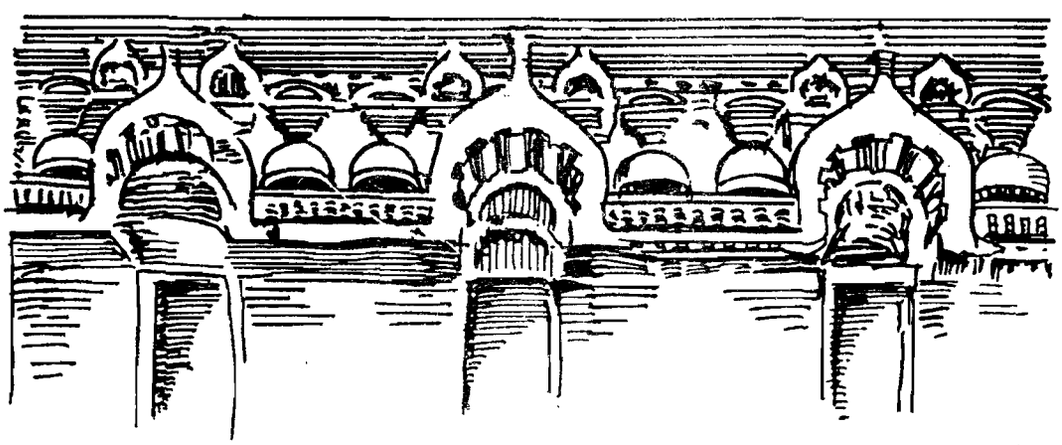

| | India/State or Union Territories | Persons | | Males | | Females | |
|---|---|---|---|---|---|---|---|
| | | 1981 | 1991 | 1981 | 1991 | 1981 | 1991 |

| 7 | Pondicherry | 28.66 | 32.35 | 46.02 | 49.88 | 11.03 | 14.44 |

*Excludes Assam and Jammu & Kashmir.

The main workers follow same trends as those observed for total workers viz. marginal increase in total main workers, a decrease in male main workers and substantial increase in female main workers, except in a few states.

Andhra Pradesh with 42.79 p.c. main workers ranks first among the 14 major states of India. It is followed by Tamil Nadu (41.29 p.c) and Maharashtra (39.22 p.c.). The national average is only 34.19 p.c. As for male main workers, the national average is 50.62 p.c. Tamil Nadu (55.84 p.c.)ranks first among the major states. Maharashtra (50.98 p.c.) ranks seventh. All *the adjoining states viz. Andhra Pradesh* (55.84 p.c) Karnataka (53.34 p.c.) Gujarat (53.35 p.c.) and Madhya Pradesh (51.40 p.c) have higher proportions of male main workers than Maharashtra.

So far as female main workers are concerned Andhra Pradesh (30.44 p.c) ranks first followed by Maharashtra (26.66 p.c.) and Tamil Nadu (26.31 p.c) The national average is only 16.48 p.c. The lowest proportion is observed in Punjab(4.17 p.c). The corresponding proportion for Punjab was 2.27 in 1981.

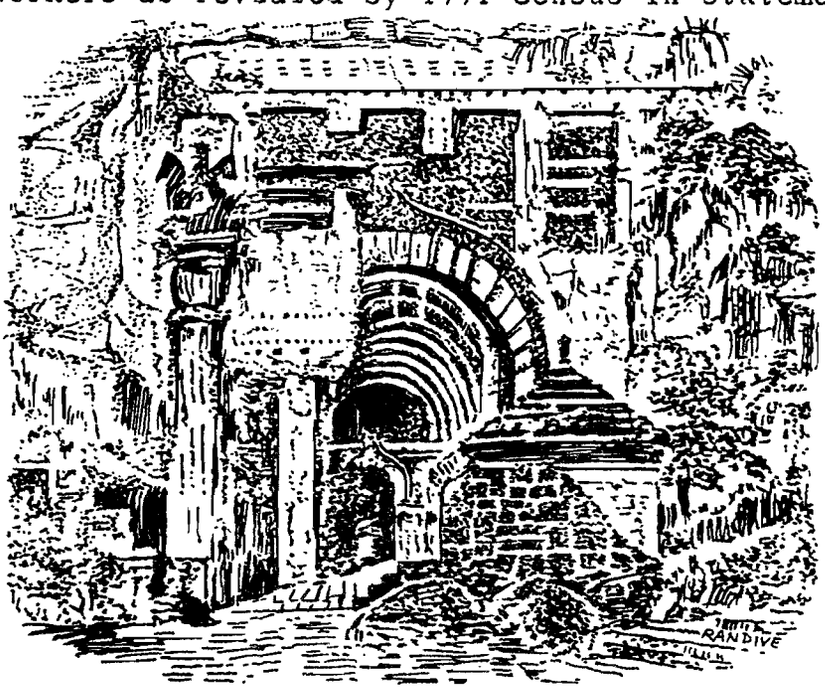

*FACADE OF CELL AT MANMODI JUNNAR (PUNE)*

## Marginal Workers

The proportion of marginal workers to total population works out to 3.49 p.c. for the country as a whole. Rajasthan with a proportion 6.95 p.c. marginal workers ranks first among the major states and is closely followed by Gujarat (6.90 p.c) Maharashtra (3.62 p.c.) ranks sixth among the 14 major states. Neighbouring states of Andhra Pradesh (2.48 p.c.) and Karnataka (3.35 p.c.) have lower proportions of marginal workers while Gujarat (6.90 p.c) and M.P (4.96 p.c.) have higher proportions of marginalworkers. For seven of the 14 major states (including Maharashtra) the proportion of marginal workers has declined over 1991. The highest decline was observed in Andhra Pradesh. In Andhra Pradesh the proportion has declined from 3.50 in 1981 to 2.48 in 1991. The highest increase was registered by Gujarat from 5.04 p.c. in 1981 to 6.90 p.c. in 1991.

The states and union territories of India have been arranged in descending order of their proportion of rural female workers as revealed by 1991 Census in Statement 2.3.

*FACADE OF CHAITY CAVE KARLE (PUNE)*

| 29 | Delhi | 1.24 | 2.65 | 28 |
| 30 | Chandigarh | 0.12 | 0.47 | 30 |

*Excludes Assam and Jammu & Kashmir.

Among the major states, Gujarat ranks first with a proportion of 18.21 p.c. rural female marginal workers. Maharashtra (9.53 p.c) ranks fifth. Of the three border states (excluding Gujarat), Karnataka (8.62 p.c.) and Andhra Pradesh (5.62 p.c.) rank below while Madhya Pradesh (11.86 p.c.) ranks above Maharashtra. The proportion of rural female marginal workers has declined in Orissa, Haryana, Andhra Pradesh and Punjab.

**Composition of main workers**

A marked decline in the proportion of cultivators among males and in the agricultural labourers among females is the most striking feature in the decadal trend in the sectoral distribution of main workers. During the decade 1981-91, there has been an increase in the proportion of agricultural labourers among males and cultivators among females.

For the country as a whole 38.43 p.c., main workers are cultivators. Among the 14 major states, Rajasthan (59.18 p.c) has the highest proportion of main workers engaged as cultivators. The lowest proportion is registered by Kerala (12.38 p.c). Maharashtra (32.81 p.c.) ranks tenth. Of the four border states, only Andhra Pradesh has a lower proportion at 27.76 p.c.. In the three states of Madhya Pradesh, Rajasthan and Uttar Pradesh, more than 50 p.c. of the main workers are engaged as cultivators.

More than one-fourth of the main workers are agricultural labourers in India. Andhra Pradesh with 40.76 p.c. agricultural labourers ranks first however, in so far as cultivators are concerned it ranks twelfth. Rajasthan, which ranks first as far as cultivators are concerned, ranks last with a proportion of 10.13 p.c. while Maharashtra (26.91 p.c.) ranks sixth as far as agricultural labourers are concerned.

Only 3.66 p.c. main workers are engaged in Household industry for the country as a whole. The highest proportion of workers engaged in Household industry to total main

workers is observed in Andhra Pradesh (5.04 p.c.). In five of the 14 major States the proportion of workers in Household industry has declined during 1981-91. These include the three neighbouring States of Maharashtra viz. Gujarat, Karnataka and Madhya Pradesh.

Nearly, one-third of India's total main workers are engaged in 'Other work'. Kerala (58.04 p.c.) ranks first, followed by West Bengal (42.07 p.c.) and Gujarat (41.38 p.c.). Bihar has the lowest proportion of workers engaged in 'Other work'. Rajasthan, Madhya Pradesh, Uttar Pradesh, Bihar, Orissa and Andhra Pradesh form a contiguous belt with workers in 'Other work' less than 30 p.c. Maharashtra (37.21) ranks sixth.

**Composition of workers in rural India**

In rural India more than 50 p.c. of male workers are engaged as cultivators. In six of the 14 major States, the proportion of male cultivators to total main workers is more than 50 p.c. Again Rajasthan (70.67 p.c.) ranks first, followed by Uttar Pradesh (64.48 p.c.) and Madhya Pradesh (64.24 p.c.). The lowest proportion is observed in Kerala (18.01 p.c.) Maharashtra ranks nineth with a proportion of 47.35 p.c.

As for rural females, in five States more than 50 p.c. females are engaged as cultivators. The highest proportion is observed in Andhra Pradesh (86.89 p.c.) which ranks 12th in respect of male cultivators. Rajasthan (74.17 p.c.) ranks second. The three other States with more than 50 p.c. rural female cultivators are Haryana (57.17 p.c.), Madhya Pradesh (54.92 p.c.) and Uttar Pradesh (51.31 p.c.) Maharashtra ranks sixth with a proportion of 44.85 p.c.

For India as a whole, the proportion of rural male agricultural labourers has increased while that of rural female agricultural labourers has decreased during the decade. The proportion of rural female agricultural labourers has declined in eight major States.

Statement 2.4 presents the proportion of cultivators and agricultural labourers taken together in rural areas for States and Union Territories.

STATEMENT 2.4

STATES AND UNION TERRITORIES ARRANGED IN DESCENDING ORDER OF PROPORTION OF CULTIVATORS AND AGRICULTURAL LABOURERS TAKEN TOGETHER IN RURAL AREAS, 1981 - 1991

| Rank in 1991 | India/State or Union Territory | 1991 | 1981 | Rank in 1981 |

| 27 | Daman & Diu | 23.56 | 41.84 | 25 |
| 28 | Delhi | 16.08 | 30.25 | 27 |
| 29 | Chandigarh | 8.58 | 18.71 | 29 |
| 30 | Lakshadweep | 0.00 | 0.00 | 30 |

*Excludes Assam and Jammu & Kashmir.

In seven major States, the combined proportion of cultivators and agricultural labourers is more than 80 p.c., in six States it is between 70-80 p.c. and in only one State viz. Kerala (46.06 p.c.) it is less than 50 p.c. In Madhya Pradesh and Bihar, as many as 88 p.c. rural workers are engaged in cultivation. Maharashtra ranks fifth with 83.13 p.c. of its rural workers engaged as cultivators and agricultural labourers. In five States viz. Madhya Pradesh, Bihar, Rajasthan, Maharashtra and Andhra Pradesh the proportion of rural workers engaged in cultivation has shown an increase over 1981.

Only 2.87 p.c. of rural male main workers and 3.08 p.c. of rural female main workers are engaged in Household Industry.

In the rural areas of the country only 19.04 p.c. of male main workers are engaged in 'Other work'. Among the major stages only Kerala has more than 50 p.c. of its rural main workers engaged in 'Other work'. West Bengal has 25.51 p.c. male workers engages in other work. In the remaining states the proportion of male workers engaged in 'Other work' is less than 25 p.c. Maharashtra ranks seventh with a proportion of 21.14 p.c.

So far as females are concerned, the proportion of workers engaged in 'Other work' is only 8.84 p.c. at the national level. Among the major states Kerala (44.17 p.c.) ranks first, followed by West Bengal (21.86 p.c.) Maharashtra has only 4.74 p.c. of its rural female workers engaged in 'Other work' and ranks twelfth.

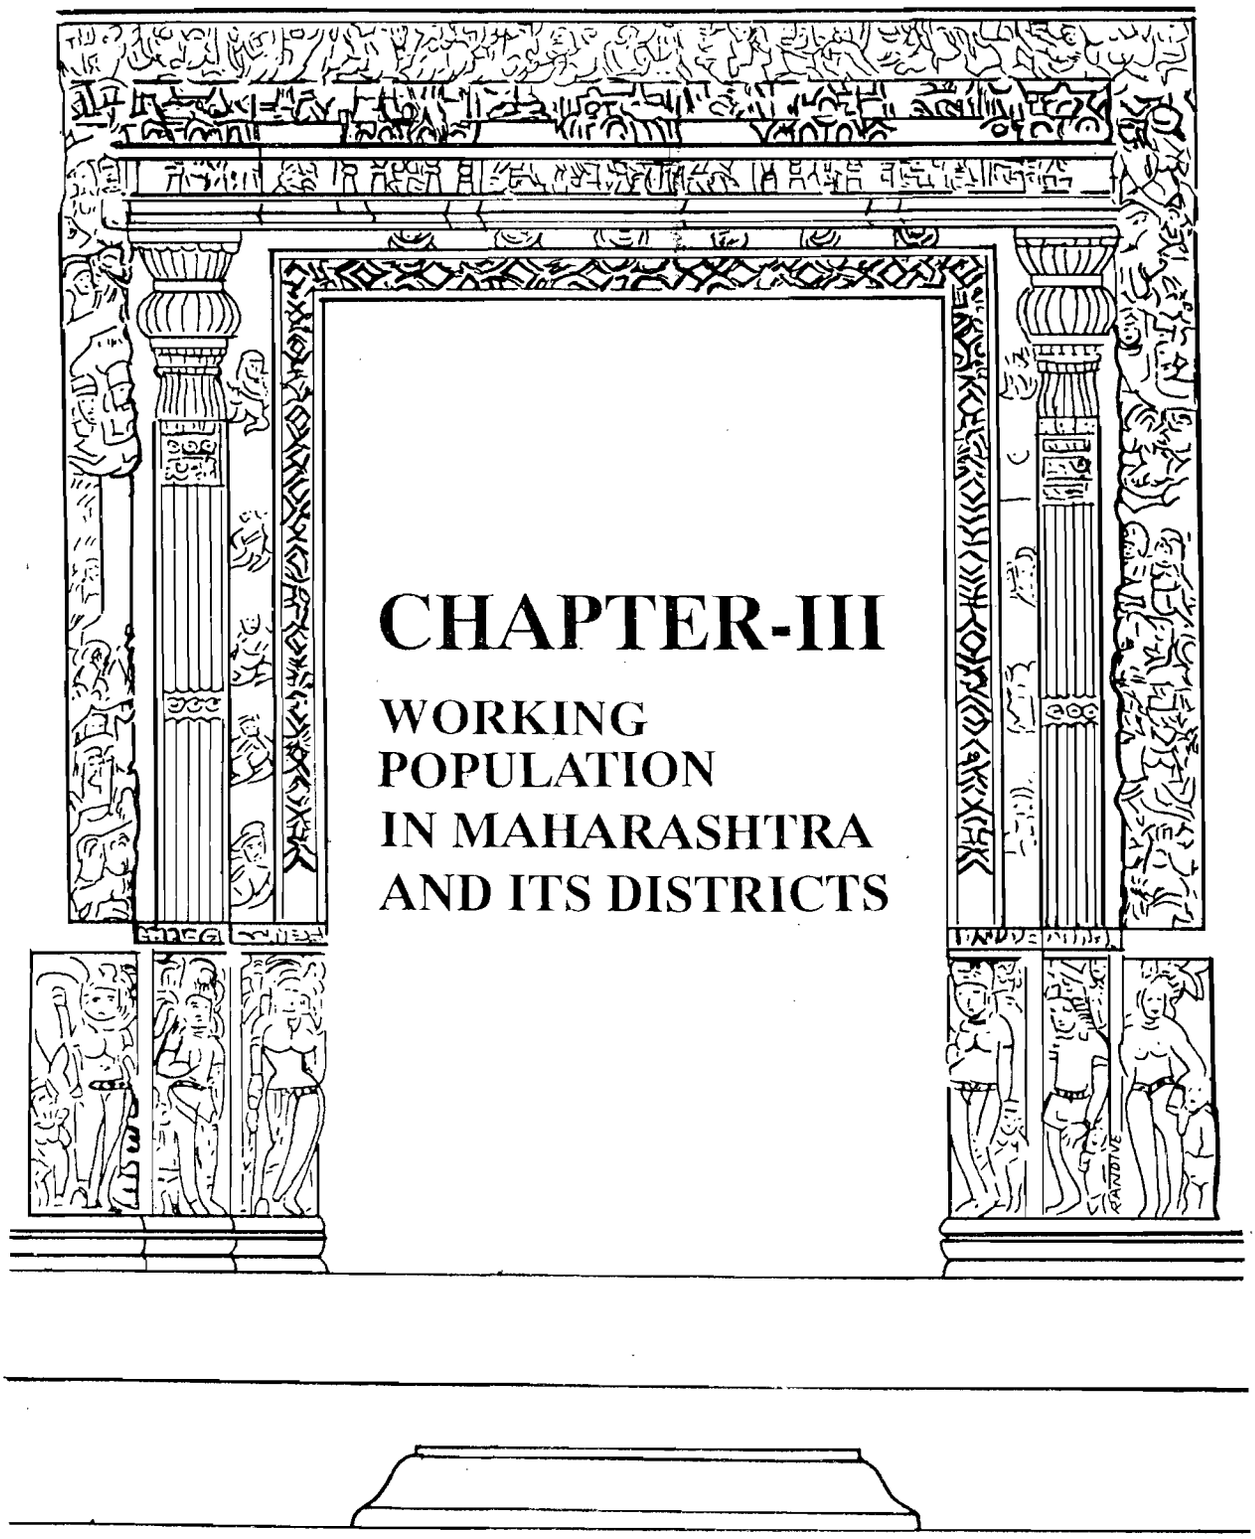

## Composition of workers in urban India

In urban India, the proportion of workers engaged as cultivators and agricultural labourers is only 5.00 p.c. and 6.71 p.c. for India as a whole. The proportion of workers engaged in Household industry is also low (5.59 p.c.). As many as 82.70 p.c. workers are engaged in 'Other work'. A similar trend is observed in all the major states with some variations. In all the major states nearly 75 p.c. workers are engaged in 'Other work'.

As for males, more than 80 p.c. of the main workers are engaged in 'Other work' in all the major states. The national average is 84.85 p.c. Of the four neighbouring states only Gujarat (90.83 p.c.) ranks above Maharashtra (90.07). In fact, Gujarat ranks first followed by West Bengal (90.08) and Maharashtra. In nine of the 14 major states the proportion of workers engaged in 'Other work' has declined during 1981-91. Maharashtra is one of them.

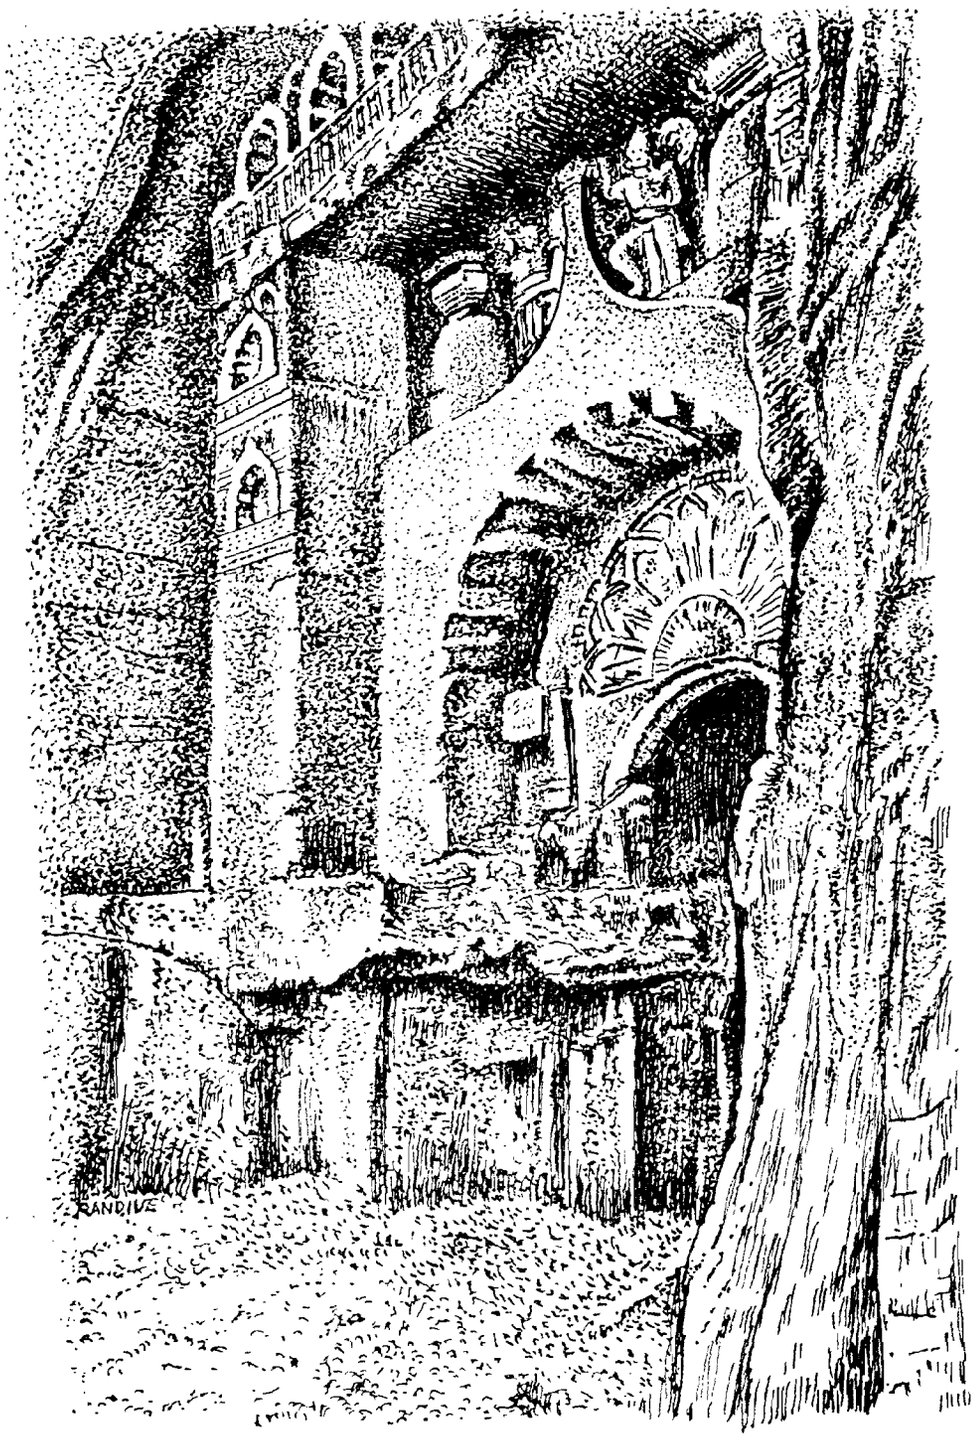

The national average for female workers engaged in 'Other work' works out to 69.16 p.c. The highest female participation in 'Other work' is observed in Punjab (86.28 p.c.) and the lowest in Andhra Pradesh (54.20 p.c.) Maharashtra (73.60 p.c.) ranks fifth. Only Gujarat (75.44 p.c.) of the four neighbouring states ranks above Maharashtra.

# CHAPTER-III

## WORKING POPULATION IN MAHARASHTRA AND ITS DISTRICTS

*MANMODI CHAITYA CAVE JUNNAR (PUNE)*

## CHAPTER III

## WORKING POPULATION IN MAHARASHTRA AND ITS DISTRICTS

Statement presents the WPRs for Maharashtra for 1981-91

| | | 1981 | | | 1991 | | |
|---|---|---|---|---|---|---|---|
| | | P | M | F | P | M | F |
| Maharashtra | T | 42.56 | 53.73 | 30.63 | 42.84 | 52.03 | 33.02 |
| | R | 48.16 | 55.38 | 40.85 | 49.47 | 53.02 | 45.83 |
| | U | 32.15 | 50.87 | 10.14 | 32.35 | 50.53 | 11.58 |

In 1991, the overall WPR (i.e. WPR for persons or both sexes together) increased marginally or we may even say that it almost remain stationery during 1981-91, the male WPR declined by 1.70 points while the female WPR improved by 2.39 points.

Further, the decline or rise in WPRs was more significant in rural than in urban areas from one census to another. During 1981-91, the rural male WPR decreased by 2.36 points while the female WPR increased by 4.98 points.

The decline in 1981-91 is negligible.

The urban female WPR declined by 1.44 points during 1981-91.

## Work participation rates (WPR) for the State

Statement 3.1 presents the WPRs for total workers (main workers plus marginal workers), main workers and marginal workers for Maharashtra by sex and by rural-urban.

The work participation rate (WPR) is defined as the proportion of workers to total population.

Statement 3.1

Work participation rates - Maharashtra, 1981 & 1991

| T/R/U | Year | Persons | Males | Females |
|---|---|---|---|---|
| 1 | 2 | 3 | 4 | 5 |
| | I - Total Workers (Main workers + Marginal workers) | | | |
| T | 1981 | 42.56 | 53.73 | 30.63 |
| | 1991 | 42.84 | 52.03 | 33.02 |
| R | 1981 | 48.16 | 55.38 | 40.85 |
| | 1991 | 49.47 | 53.02 | 45.83 |
| U | 1981 | 32.15 | 50.87 | 10.14 |
| | 1991 | 32.35 | 50.53 | 11.58 |
| | II - Main Workers | | | |
| T | 1981 | 38.71 | 52.51 | 23.98 |
| | 1991 | 39.22 | 50.98 | 26.66 |
| R | 1981 | 42.70 | 53.85 | 31.39 |
| | 1991 | 44.07 | 51.65 | 36.30 |
| U | 1981 | 31.30 | 50.18 | 9.11 |
| | 1991 | 31.54 | 49.95 | 10.51 |
| | III - Marginal workers | | | |
| T | 1981 | 3.85 | 1.22 | 6.65 |

| | | | | |
|---|---|---|---|---|
| | 1991 | 3.62 | 1.05 | 6.36 |
| R | 1981 | 5.46 | 1.53 | 9.46 |
| | 1991 | 5.40 | 1.37 | 9.53 |
| U | 1981 | 0.85 | 0.69 | 1.03 |
| | 1991 | 0.81 | 0.58 | 1.07 |

The WPR for total workers has increased from 42.56 per cent in 1981 to 42.84 per cent in 1991 for the State as a whole, from 48.16 per cent to 49.47 per cent in rural areas and from 32.15 per cent to 32.35 per cent in urban areas.

During the decade 1981-91, the male WPR has, however, decreased from 53.73 per cent to 52.03 per cent for the State as a whole, from 55.38 per cent to 53.03 per cent for its rural areas and from 50.86 per cent to 50.53 per cent. The decrease in rural areas is 2.35 points as against 0.33 points in urban areas.

The female WPR has increased during the decade 1981-91 for the State as a whole (30.63% to 33.02%), its rural areas (40.85% to 45.83%) and its urban areas (10.14 per cent to 11.58 per cent). The hike in rural WPR in 4.98 points as compared to 1.44 points in urban WPR.

The WPRs for main workers follow a similar trend.

The WPRs for marginal workers show a different trend. The WPRs for persons and males have declined during the decade. While the female WPR for the State as a whole has dropped from 6.65 per cent in 1981 to 6.36 per cent in 1991, the female WPR has increased both in rural (9.46% to 9.53%) and urban (1.03% to 1.07%) areas.

While no plausible reason for the drop in the male WPR can be offered at this stage for want of detailed data on education,age-distribution,migration and urbanisation, etc., the rise in female WPR may be attributed to the special efforts made at this census to net female workers.

The question classifying a person as worker or non-worker was restructured by adding a hint in paranthesis to remind the enumerator that unpaid farm workers and workers in family enterprise are to be treated as workers. The manual of instructions for filling up the individual slip coaxed the enumerators to do detailed probing for the women reporting as non-workers by asking whether she was engaged in specific economic activities such as cultivation, cow-dung cake making etc. Posters and T.V. campaigns were undertaken to create awareness among women for correctly reporting their economic activity. Although, it can not be ascertained as to what extent this rise in female WPRs can be attributed to these special efforts, the fact that the female WPRs for main and marginal workers have risen when the male WPRs have declined gives sufficient indication of the success of the special efforts and various campaigns.

The rural female WPRs for main and marginal workers varied by 4.91 and 0.07 points respectively during the decade. The corresponding variations in urban female WPRs are 2.40 and 0.04 points respectively.

**Districtwise WPRs**

The distribution of 1991 census total population, total workers, main workers and marginal workers by sexs for Maharashtra and its thirty districts is presented in Table 1. The WPRs for total workers, main workers and marginal workers are also presented for 1981 and 1991.

The districtwise WPRs bring to the fore the regional patterns. By and large the WPRs for districts in Western Maharashtra have increased during the decade while those in the districts of Marathwada and Vidarbha have decreased.

The exceptions to the increasing trend in Western Maharashtra are Thane (40.27% to 39.90%) and Nashik (43.93% to 43.92%) for total workers; Gr.Bombay (34.70% to 34.67%) and Thane (37.82% to 36.97%) for main workers and Nashik (3.16% to 2.59%), Dhule (5.62% to 5.56%), Ahmadnagar (4.05% to 3.35%) and Pune (3.57% to 2.89%) for Marginal workers.

The exceptions to the declining trend in Marathwada and Vidarbha regions are Bid (45.94 to 47.02%), Amravati (43.00 to 44.27%) and Gadchiroli (53.79 to 53.95%) for total workers; Aurangabad (39.76 to 39.97%), Bid (40.28 to 41.70%), Osmanabad (40.20 to 41.44%) and Latur (37.95 to 39.30%), all from Marathwada and Gadchiroli (53.79% to 53.95%) from Vidarbha for main workers and Amravati (2.53% to 3.97%), Yavatmal (2.89% to 2.90%) and Wardha (2.35% to 2.73%), all from Vidarbha, for Marginal workers.

Although, the WPRs in Marathwada and Vidarbha have declined during the decade, the 1991 WPRs for districts in Marathwada and Vidarbha are generally higher than those for districts of Western Maharashtra.

Statement 3.2 shows the WPRs for total workers for 1981 & 1991.

Statement 3.2

Work participation Rates for Total workers 1981 & 1991

| Name of District & its Rank in 1991 | WPR 1991 | Rank in 1981 | WPR 1981 |
|---|---|---|---|
| 1 | 2 | 3 | 4 |
| Maharashtra | 42.84 | - | 42.56 |
| 1. Gadchiroli | 53.95 | 1 | 53.79 |
| 2. Bhandara | 49.99 | 3 | 50.50 |
| 3. Jalna | 48.25 | 7 | 48.60 |

| | | | | |
|---|---|---|---|---|
| 4. | Yavatmal | 47.47 | 6 | 48.93 |
| 5. | Buldana | 47.31 | 2 | 50.59 |
| 6. | Bid | 47.02 | 9 | 45.95 |
| 7. | Chandrapur | 46.36 | 8 | 48.33 |
| 8. | Ahmadnagar | 45.86 | 10 | 45.67 |
| 9. | Sindhudurg | 45.67 | 24 | 41.07 |
| 10. | Parbhani | 45.56 | 5 | 49.30 |
| 11. | Dhule | 45.49 | 17 | 43.63 |
| 12. | Osmanabad | 45.23 | 11 | 45.38 |
| 13. | Wardha | 45.06 | 12 | 45.22 |
| 14. | Satara | 45.03 | 22 | 41.44 |
| 15. | Kolhapur | 44.62 | 23 | 41.36 |
| 16. | Nanded | 44.37 | 4 | 49.36 |
| 17. | Ratnagiri | 44.30 | 25 | 40.44 |
| 18. | Amravati | 44.27 | 18 | 43.00 |
| 19. | Raigarh | 43.95 | 20 | 41.75 |
| 20. | Nashik | 43.92 | 15 | 43.93 |
| 21. | Akola | 43.58 | 13 | 44.82 |
| 22. | Latur | 43.44 | 14 | 44.68 |
| 23. | Sangli | 43.02 | 27 | 38.90 |
| 24. | Jalgaon | 42.91 | 19 | 42.28 |
| 25. | Solapur | 42.87 | 21 | 41.55 |
| 26. | Aurangabad | 42.86 | 16 | 43.74 |
| 27. | Pune | 40.04 | 28 | 38.52 |
| 28. | Thane | 39.90 | 26 | 40.27 |
| 29. | Nagpur | 37.37 | 29 | 38.17 |
| 30. | Gr.Bombay | 35.41 | 30 | 35.21 |

The WPR for total workers varied from 35.21 in Gr.Bombay district to 53.79 in Gadchiroli district in 1981; 18 districts were above state average (42.56%) of which 15 districts were from Marathwada and Vidarbha. In 1991, the WPR varies from 35.41 in Gr.Bombay district to 53.95 in Gadchiroli; 26 district have come above the State average (42.84%). Again 15 out of 16 districts of Marathwada and Vidarbha have WPRs higher than the State

average. The four districts which are below State average both in 1981 & 1991, are Greater Bombay, Nagpur, Thane & Pune - all of them highly urbanised and industrially developed districts of the State.

[The largest positive variation of 7.50 points was observed in the WPR of Sindhudurg districts (38.71 in 1981 to 45.67 p.c. in 1991). Sindhudurg has rocketted from 28th position in 1981 to 9th position in 1991]. The largest negative variation or drop of 6.34 points was observed in the WPR of Chandrapur district (52.70 to 46.36%). Inspite of this decline in WPR, Chandrapur ranks seventh in the State and comes above all the districts of Western Maharashtra.

Statement 3.3 presents WPRs for main workers for 1981 & 1991.

Statement 3.3

Work Participation Rates for Main Workers 1981 & 1991

| Name of District and its Rank in 1991 | WPR 1991 | Rank in 1981 | WPR 1981 |

| 29.Sindhudurg | 35.07 | 30 | 32.43 |
| 30.Gr.Bombay | 34.67 | 27 | 34.70 |

In 1981 the WPR for Main workers varied from 29.94 in Sindhudurg district to 46.97 in Buldana district. In 1991, the WPR varies 34.67 in Gr.Bombay to 45.59 in Gadchiroli district. In 1981 there were 17 districts above State average (38.71) and in 1991 there are 20 districts above State average (39.22). In 1991, 14 out of 16 districts from Marathwada and Vidarbha are among the first seventeen districts in the State. Sindhudurg ranks 29th in 1991 and ranked 30th in 1981.

WPRs for marginal workers for 1981 and 1991 are presented in Statement 3.4.

Statement 3.4

Work Participation Rates for marginal workers 1981 & 1991

| Name of district and its Rank in 1991 | WPR 1991 | Rank in 1981 | WPR 1981 |
|---|---|---|---|
| 1 | 2 | 3 | 4 |
| Maharashtra | 3.62 | - | 3.85 |

| 13.Jalna | 4.18 | 16 | 4.21 |
| 14.Latur | 4.14 | 5 | 6.73 |
| 15.Solapur | 4.13 | 19 | 3.89 |
| 16.Amravati | 3.97 | 26 | 2.53 |
| 17.Osmanabad | 3.79 | 11 | 5.18 |
| 18.Parbhani | 3.38 | 10 | 5.19 |
| 19.Ahmadnagar | 3.35 | 17 | 4.12 |
| 20.Thane | 2.93 | 27 | 2.44 |
| 21.Yavatmal | 2.90 | 23 | 2.89 |
| 22.Pune | 2.89 | 21 | 3.57 |
| 23.Aurangabad | 2.89 | 18 | 3.98 |
| 24.Jalgaon | 2.73 | 24 | 2.71 |
| 25.Wardha | 2.73 | 28 | 2.35 |
| 26.Nashik | 2.59 | 22 | 3.16 |

| | | | |
|---|---|---|---|
| 27.Buldana | 2.56 | 20 | 3.62 |
| 28.Nagpur | 1.87 | 25 | 2.58 |
| 29.Akola | 1.86 | 29 | 2.21 |
| 30.Gr.Bombay | 0.74 | 30 | 0.51 |

In 1981 Nanded district had the highest WPR(8.77) for marginal workers. The lowest WPR (0.51) was registered by Gr.Bombay district. In 1991, Sindhudurg has the highest WPR (10.60) and Gr.Bombay (0.74) has the lowest. In 1981 there were 19 districts above the State average (3.85) and in 1991 there are 17 districts above the State average (3.62) Nanded which ranked first in 1981 ranks 11th in 1991 with WPR decreasing from 8.77 to 4.42. Chandrapur slumped from 5th position to 12th position, Latur from 6th position to 14th position and Parbhani from tenth to eighteenth. Amravati has improved its position from 26 to 16, Kolhapur from 14 to 6 and Thane from 27 to 20.

**Male WPRs**

Statement 3.5 presents WPRs for male main workers for Maharashtra and its 30 districts for 1981 and 1991.

Statement 3.5

Work Participation Rates for Male main workers in 1981 & 1991

| Name of District & its Rank in 1991 | WPR 1991 | Rank in 1981 | WPR 1981 |
|---|---|---|---|

| 18. | Ahmadnagar | 50.43 | 19 | 52.20 |
| 19. | Pune | 50.30 | 25 | 49.79 |
| 20. | Nashik | 50.20 | 22 | 51.77 |
| 21. | Raigarh | 49.86 | 27 | 48.92 |
| 22. | Jalgaon | 49.63 | 24 | 51.14 |
| 23. | Bid | 49.07 | 10 | 53.97 |
| 24. | Nanded | 48.98 | 8 | 54.67 |
| 25. | Nagpur | 48.76 | 26 | 49.12 |
| 26. | Latur | 48.53 | 15 | 52.85 |
| 27. | Aurangabad | 48.49 | 23 | 51.66 |
| 28. | Satara | 47.99 | 28 | 47.09 |
| 29. | Sindhudurg | 45.94 | 30 | 42.27 |
| 30. | Ratnagiri | 45.38 | 29 | 43.41 |

---

The WPR for male main workers varied from 39.67 in Sindhudurg district to 60.64 in Chandrapur district in 1981. In 1991, it varies from 45.38 in Ratnagiri district to 54.46 in Gadchiroli district. In 1981, there were 17 districts above State average (52.51) out of which 13 districts were from Marathwada and Vidarbha. In 1991, 11 districts have come above the State average (50.98) and 7 of them are from Marathwada and Vidarbha.

The WPRs of all except 6 districts (Sangli, Pune, Raigarh, Satara, Sindhudurg & Ratnagiri - all from Western Maharashtra), have declined during the decade. The greatest decline viz. 9.16 points is observed in Chandrapur district followed by Parbhani (6.24 points), Nanded (5.69 points) and Jalna (5.41 points). The decline in WPRs varied from 0.36 points in Nagpur district to 9.16 points Chandrapur district in so far as Marathwada and Vidarbha regions are concerned. In western Maharashtra, it varied from 0.45 points in Kolhapur to 1.90 points in Solapur.

Chandrapur, which ranked first in 1981, has slumped to 9th position in 1991. Nanded has nosedived from 9th position in 1981 to 24th position in 1991, Latur from 15th to 25th, Bid from 11th to 23rd. Osmanabad and Parbhani has also slided down from 7th to 17th and 3rd to 13th position.

Sangli, with a 0.51 points' increase, has jumped from 21st rank to 5th rank in 1991, while Sindhudurg, which registered a rise of 6.27 points has improved its position by one rank only. The 1981 WPR of Sangli (51.81%) was already much higher than that of Sindhudurg (39.67%).

Again, the districts of Satara, Sindhudurg and Ratnagiri, which are known for sex selective male out-migration to Bombay, occupied the last three positions both in 1981 and 1991 inspite of the fact that the highest increase is registered by Sindhudurg district (6.27 points).

The WPRs for male marginal workers are presented in Statement 3.6.

Statement 3.6

Work participation Rates for Male marginal workers in 1981 & 1991

| Name of district & its Rank in 1991 | | WPR 1991 | Rank in 1981 | WPR 1981 |
|---|---|---|---|---|
| 1 | | 2 | 3 | 4 |
| | Maharashtra | 1.05 | - | 1.22 |

| 17. | Nanded | 0.97 | 2 | 2.48 |
| 18. | Nagpur | 0.90 | 18 | 1.15 |
| 19. | Pune | 0.87 | 16 | 1.17 |
| 20. | Nashik | 0.84 | 28 | 0.85 |
| 21. | Buldana | 0.77 | 6 | 1.90 |
| 22. | Sangli | 0.75 | 19 | 1.14 |
| 23. | Gr.Bombay | 0.72 | 30 | 0.59 |
| 24. | Parbhani | 0.72 | 15 | 1.30 |
| 25. | Akola | 0.65 | 23 | 1.02 |

| | | | | |
|---|---|---|---|---|
| 26. | Jalgaon | 0.62 | 24 | 0.99 |
| 27. | Ahmadnagar | 0.59 | 19 | 1.14 |
| 28. | Latur | 0.56 | 13 | 1.32 |
| 29. | Osmanabad | 0.53 | 14 | 1.31 |
| 30. | Solapur | 0.49 | 27 | 0.90 |

The WPR for male marginal workers varied from 0.59 in Gr.Bombay to 4.21 in Sindhudurg district in 1981. In 1991, the WPR varies from 0.49 in Solapur district to 4.20 in Sindhudurg district. The WPRs of only 9 districts have improved during the decade 1981-1991 18 have decreased and 3 (Sindhudurg, Nashik & Satara) have remained almost stationary.

**Female WPRs**

Statements 3.7 & 3.8 present the WPRs for female main and marginal workers respectively.

Statement 3.7

Work Participation Rates for 'Main Female Workers' in 1981 & 1991

| 14. Osmanabad | 7.25 | 9 | 9.22 |
| 15. Bhandara | 7.20 | 15 | 7.53 |
| 16. Jalna | 7.12 | 14 | 7.55 |
| 17. Ahmadnagar | 6.25 | 16 | 7.23 |
| 18. Parbhani | 6.17 | 10 | 9.21 |
| 19. Amravati | 5.95 | 27 | 3.65 |
| 20. Pune | 5.05 | 20 | 6.13 |
| 21. Jalgaon | 4.96 | 24 | 4.53 |
| 22. Aurangabad | 4.93 | 17 | 7.14 |
| 23. Thane | 4.84 | 25 | 4.12 |
| 24. Yavatmal | 4.72 | 23 | 5.06 |
| 25. Nashik | 4.45 | 21 | 5.62 |

| | | | |
|---|---|---|---|
| 26. Buldana | 4.43 | 22 | 5.42 |
| 27. Wardha | 4.17 | 28 | 3.60 |
| 28. Akola | 3.14 | 29 | 3.47 |
| 29. Nagpur | 2.92 | 25 | 4.12 |
| 30. Gr.Bombay | 0.77 | 30 | 0.41 |

In 1981 the WPR for female main workers was the lowest (8.56) in Gr.Bombay district and the highest (38.86) in Bhandara district. In 1991 also, these districts have retained their positions. The WPR for Gr.Bombay is 10.78 and that for Bhandara is 39.95. In 1981, there were 19 districts above the State average (23.98) and in 1991, 21 districts rank above the State average (26.66). All except one district (Nagpur) Vidarbha rank above the State average in 1991. Except Thane and Buldana districts all the districts have higher WPRs in 1991. Nine districts of Solapur, Sindhudurg, Satara, Kolhapur, Pune, Nagpur, Sangli, Thane & Gr.Bombay have occupied positions 22 to 30 both in 1981 & 1991 with minor displacements.

In 1981 the WPR for female marginal workers varied from 0.41 in Gr.Bombay district to 15.37 in Gadchiroli district. In 1991, it varies from 0.77 in Gr.Bombay district to 16.22 in Sindhudurg district. The highest increase during 1981-91 (4.65 points) was registered by Sindhudurg district. The WPRs have declined in 13 out of 16 districts of Marathwada & Vidarbha. The largest decrease is noticed in Nanded district (7.25 points) followed by Latur (4.42) and Chandrapur (4.22). The WPRs of only three districts (Nashik, Ahmadnagar & Pune) from Western Maharashtra have declined during the decade.

To sum up, in Marathwada & Vidarbha, by and large, the female WPRs for main workers have risen while those for marginal workers have declined. However, there is no definite evidence to show that the marginal workers of 1981

have been classified as main workers in 1991. In six districts (Parbhani, Nanded, Buldana, Yavatmal, Nagpur and Chandrapur) the changes in WPRs of main and marginal workers have resulted in an overall decrease in the WPR of female 'Total Workers'. Buldana is the only district in the State with decrease in WPRs of both main and marginal workers.

In Western Maharashtra, generally the female WPRs of both main and marginal workers have shown an increase. In only one district (viz. Thane), the increase or decrease in WPRs of main and marginal workers have resulted into an overall decrease in the WPR of female 'Total workers'. Although, the WPRs of marginal workers in Nashik, Ahmadnagar and Pune have declined during the decade, the corresponding hike in the WPRs of main workers is much larger. Consequently, the WPRs of the female 'total workers' have also increased.

**Rural Male WPRs**

The WPRs of rural male main and marginal workers are presented in Statements 3.9 and 3.10.

Statement 3.9

Work Participation Rates for 'Rural" Male Main Workers in 1981 & 1991.

| 28. Solapur | 0.60 | 28 | 0.98 |
| 29. Osmanabad | 0.56 | 17 | 1.38 |

The WPR for rural male main workers varied from 39.40 in

Sindhudurg district to 64.02 in Chandrapur district in 1981. In 1991, it varies from 45.22 in Ratnagiri district to 55.16 in Gadchiroli district. In 1981, 16 districts ranked above State average (53.85) as against 19 districts in 1991. Twelve out of 16 districts of Marathwada and Vidarbha have WPRs above State average (51.66) in 1991. Only five districts viz. Raigarh, Ratnagiri, Sindhudurg, Pune and Satara (all from Western Maharashtra) have shown an increase in WPR during the decade. The highest increase (6.55 points) is observed in Sindhudurg and the highest decline (10.12 points) in Chandrapur district. The decline in Gadchiroli district which formed a part of the erstwhile Chandrapur district is only 2.57 points. Districts of Marathwada and Vidarbha regions have experienced more decline in WPRs. The decline in the districts of Western Maharashtra varied from 0.14 points in Sangli to 2.79 points in Thane, that in the districts of Marathwada from 4.05 points in Aurangabad district to 6.57 points in Parbhani district and in the districts of Vidarbha from 1.39 points in Amravati to 10.12 in Chandrapur. Even then six districts (Gadchiroli, Amravati, Wardha, Chandrapur, Nagpur and Yavatmal) of Vidarbha occupy the first six positions. The last four positions are occupied by Raigarh, Satara, Sindhudurg and Ratnagiri districts, known for sex-selective male out-migration to Gr.Bombay, although the WPRs percentage of these districts have improved during the decade.

The WPR for rural male marginal workers was the highest in Sindhudurg district (4.37) and the lowest in Yavatmal district (0.82) in 1981. In 1991, Osmanabad district (0.56) ranks the last and Sindhudurg district (4.36) ranks first. In 1981, 12 districts ranked above State average (1.53) as compared to 14 districts in 1991. The State average is 1.37 in 1991. In 16 districts the WPRs have declined during the decade, in 11 districts the WPRs have increased and in two districts (Ratnagiri and Gadchiroli) they have remained almost constant.

Rural female WPRs:

Statement 3.11 showing WPRs of rural female main workers at State and district level.

Statement 3.11

Works Participation Rates for Rural Female Main workers in 1991 & 1981.

| Name of district and its Rank in 1991 | | WPR 1991 | Rank in 1981 | WPR 1981 |
|---|---|---|---|---|
| 1 | | 2 | 3 | 4 |

---

The WPR for urban male main workers varied from 43.29 in Sindhudurg district to 54.86 in Gr.Bombay district in 1981. The highest and lowest WPRs in 1991 were observed in Thane (54.28) and Latur (42.18) districts. In 1981, three districts (viz. Gr.Bombay, Thane and Raigarh) ranked above State average (50.18). In 1991, in addition to the above three districts one more district (viz.Kolhapur) ranks above the State average (49.95). All these districts are from Western Maharashtra. Barring Aurangabad district all the districts of Marathwada have registered lower WPRs in 1991.

So far as urban male marginal workers are concerned, the WPRs ranged from 0.45 in Nashik district to 2.64 in Gadchiroli district in 1981. In 1991 WPRs range from 0.15 in Latur district to 2.40 in Sindhudurg district. In 1981, WPRs of 22 districts were higher than the State average (0.69) whereas in 1991, 13 districts have WPRs higher or equal to the State average (0.58). In 26 out of 30 districts of the State the WPRs have declined.

**Urban female WPRs**

The WPRs of urban female main and marginal workers are presented in Statements 3.15 and 3.16 respectively.

Statement 3.15

Work participation Rates for Urban Female main workers, 1981 & 1991.

| 29. | Pune | 0.62 | 27 | 1.02 |
| 30. | Akola | 0.59 | 28 | 0.89 |

In 1981, the WPR for urban female main workers varied from 6.45 in Chandrapur district to 17.77 in Gadchiroli district. The 1991 WPRs ranged from 6.74 in Latur distric to 18.78 in Gadchiroli district. In 1981, 16 districts, ranked above State average (9.11) while in 1991, 13 districts rank above State average (10.51). In eight districts - viz Raigarh and Dhule from Western Maharashtra, Jalna, Parbhani, Osmanabad and Latur from Marathawada and Buldana and Bhandara from Vidarbha - the WPRs have declined during the decade.

As regards urban female marginal workers, in 1981 the WPRs ranged from 0.41 in Gr. Bombay district to 7.19 in Gadchiroli district. The 1991 WPRs vary from 0.59 in Akola district to 3.60 in Gadchiroli district. In 1981, 26 districts came above the State average (1.03). In 1991, 22 districts rank above the State average (1.07). In 17 districts the WPRs have decreased. The highest decline is observed in Gadchiroli (3.59 points) and yet it ranks first in 1991. It is followed by Parbhani with a decrease of 1.06 points.

Gadchiroli district ranked first in 1981 and also ranks first in 1991 both for main workers and marginal workers. A decline in WPRs of both main and marginal workers is observed in six districts viz. Raigarh, Dhule Jalna, Parbhani, Buldana and Bhandara.

**Rural Urban differentials (Main workers)**

For the State as a whole, the WPR for rural male main workers has decline by 2.20 points and that for urban male main workers has declined by 0.23 points only. The highest decrease for rural males (10.12 points) was observed in Chandrapur district and for urban males in Parbhani district (3.73 points). The highest increase both in Rural (6.55 points) and Urban (2.50 points) males is observed in Sindhdurg district. The rural WPRs have declined in 24 districts and urban WPRs have declined in 12 districts.

The WPR for rural female main workers for the State as a whole has risen by 4.91 points and that for urban female main workers by 1.40 points. The highest increase for rural females was observed in Latur district (9.95 points) and for urban females in Ahmadnagar district (2.83 points).
While no district showed a decrease in so far as rural female WPRs are concerned, the highest decrease in urban female WPRs was observed in Parbhani district (1.90 points).

## Rural - Urban differentials (Marginal workers)

The WPR for rural male marginal workers for the State has increased by 0.16 points while that for urban male marginal workers has increased by 0.11 points. Among districts, the highest increase in Rural male WPRs is observed in Thane (1.40 points) and in urban males in Sindhudurg district (0.30 points). The largest decrease in male rural WPRs is observed in Buldana (1.80 points) and Gadchiroli (1.88 points) respectively.

So far as female marginal workers are concerned, the rural WPR for the State as a whole has experienced an increase of 0.07 points as against an increase of 0.04 points experienced by urban areas. The highest increase in Rural and Urban WPRs is observed in Thane (5.14 points) and Kolhapur (0.79 points) districts respectively. The highest decrease in rural females is noticed in Bid district (8.87 points) and that in urban females is noticed in Gadchiroli district (3.59 points).

## Workers by Broad Industrial Categories

Statement 3.17 shows the proportion of main workers, workers in four broad industrial categories, marginal workers and non-workers to total population for the State.

For the State as a whole, the proportion of workers in agricultural sector (cultivators and agricultural labourers) has gone down from 23.91 p.c. in 1981 to 23.42 p.c. in 1991 (a drop of 0.51 points) while that in non-agricultural sector has gone up from 14.80 p.c. in 1981 to 15.80 in 1991 (a rise of 1.00 point).

The proportion of male workers in agricultural sector has decreased from 27.41 p.c. in 1981 to 24.77 p.c in 1991 (2.64 points) and that in non-agricultural sector has risen from 25.10 p.c. in 1981 to 26.21 p.c. in 1991 (1.21 points). So far as female workers are concerned, the proportions of

workers in both agricultural and non-agricultural sectors have increased from 20.16 in 1981 to 21.98 in 1991 (1.82 points) and 3.82 p.c. in 1981 to 4.68 p.c. in 1991 (0.86 points) respectively.

**Rural - Urban differentials**

Rural male workers in agricultural sector have declined from 41.51 p.c. in 1981 to 39.28 p.c. in 1991 (2.23 points), while only a negligible increase is observed in male workers in non-agricultural sector (12.34 p.c. in 1981 to 12.38 p.c. in 1991). Contrary to the overall trend and the trend observed in rural areas, the proportion of urban male workers in both agricultural and non-agricultural sectors has declined during the decade.

Proportions of female workers in agricultural and non-agricultural sectors have increased both in rural and urban areas. However, there is a difference in the degree of rise in rural and urban areas. In rural areas the proportion of female workers in agricultural sector has shown an increase of 4.65 points (29.29 in 1981 to 33.94 in 1991). Corresponding increases for female workers in agricultural and non-agricultural sectors are 0.27 points (2.37 minus 2.10) and 1.30 points (8.55 minus 7.25) respectively. Thus, while the hike in female workers in agricultural sector is more significant in rural areas, that in non-agricultural sector is more significant in urban areas.

The increase in the female workers in the two sectors is so large that the overall proportions of main workers in rural areas and urban areas show an increase during the decade even though the male proportions have decreased. The proportion of rural main workers has increased from 42.70 p.c in 1981 to 44.07 p.c. in 1991, that of rural workers in agricultural sector from 35.44 p.c. in 1981 to 36.64 in 1991 and that of rural workers in non-agricultural sector from 35.44 p.c in 1981 to 36.64 p.c. in 1991 and that of rural workers in non-agricultural sector from 7.26 in 1981 to 7.43 in 1991. The corresponding proportions for urban areas are 31.30 and 31.54 for main workers and 28.80 and 29.03 for non-agricultural sector.

## Statement 3.17

Proportion of main workers to total population and into broad industrial categories, Maharashtra.

| | | Total Main Workers | | Cultivator | | Agricultural Labourers | | Household Industry | | Other Workers | | Marginal workers | | Non-workers | |
|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|---|
| | | 1981 | 1991 | 1981 | 1991 | 1981 | 1991 | 1981 | 1991 | 1981 | 1991 | 1981 | 1991 | 1981 | 1991 |
| Total | P | 38.71 | 39.22 | 13.60 | 12.87 | 10.31 | 10.55 | 0.99 | 1.20 | 13.81 | 14.60 | 3.85 | 3.62 | 57.44 | 57.16 |
| | M | 52.51 | 50.98 | 17.59 | 15.21 | 9.72 | 9.56 | 1.37 | 1.67 | 23.73 | 24.54 | 1.22 | 1.05 | 46.27 | 47.97 |

| Rural | P | 42.70 | 44.07 | 20.44 | 20.42 | 15.00 | 16.22 | 0.95 | 1.06 | 6.31 | 6.37 | 5.46 | 5.40 | 51.84 | 50.53 |
| | M | 53.86 | 51.65 | 27.12 | 24.46 | 14.39 | 14.82 | 1.31 | 1.46 | 11.03 | 10.91 | 1.53 | 1.37 | 44.80 | 46.98 |
| | F | 31.39 | 36.30 | 13.67 | 16.28 | 15.62 | 17.66 | 0.57 | 0.65 | 1.53 | 1.71 | 9.46 | 9.53 | 59.15 | 54.17 |
| Urban | P | 31.30 | 31.54 | 0.91 | 0.92 | 1.59 | 1.59 | 1.07 | 1.43 | 27.73 | 27.60 | 0.85 | 0.81 | 67.85 | 67.65 |
| | M | 50.18 | 49.95 | 1.40 | 1.33 | 1.65 | 1.66 | 1.47 | 1.97 | 45.66 | 44.99 | 0.69 | 0.58 | 49.13 | 49.47 |
| | F | 9.11 | 10.51 | 0.33 | 0.45 | 1.53 | 1.52 | 0.59 | 0.81 | 6.66 | 7.73 | 1.03 | 1.07 | 89.86 | 88.42 |

## Agricultural and Non-Agricultural sectors

Within the agricultural sector, the proportion of rural male cultivators has decreased by 2.66 points (27.12 - 24.46) while that of Agricultural labourers has gone up by 0.43 points (14.82 - 14.39) only.

As for rural females, the proportions of both cultivators and agricultural labourers have risen by 2.61 points (16.28 - 13.67) and 2.04 points (17.66 - 15.62) respectively.

As regards non-agricultural sector, the proportion of male rural workers in household industry has gone up by 0.15 points from 1.31 p.c. in 1981 to 1.46 p.c. in 1991. However, the proportion of male workers engaged in 'other work' has declined by 0.11 points and 11.03 p.c. in 1981 to 10.91 p.c. in 1991.

The proportion of urban males in Household Industry has increased by 0.50 points from 1.47 p.c. in 1981 to 1.97 p.c. in 1991, while the proportion of workers engaged in 'other work' has decreased by 0.66 points from 45.66 p.c. in 1981 to 44.99 p.c. in 1991.

The proportions of female workers in both Household industry and 'other work' have shown an upward trend. The proportion of rural female workers in Household industry has risen by 0.08 points and that in 'other work' by 0.18 points. In urban areas, the proportion of females in Household industry has increased by 0.22 points while that in 'other work' by 1.08 points.

## Distribution of main workers by broad industrial categories

Table 2 presents the distribution of total main workers by cultivators, agricultural labourers, workers engaged in Household Industry and in 'other work' and the percentage of workers engaged in each of these four broad industrial categories to total main workers.

## Rural male workers

For the State as a whole, the proportion of rural male cultivators to main workers has declined and the proportions of workers in the remaining three categories have increased. The proportion of male workers in agricultural sector has decreased by 1.05 points from 77.08 p.c. in 1981 to 76.03 p.c. in 1991. Obviously, there is a corresponding increase in the proportion of workers in non-agricultural sector.

The proportion of rural main workers in agricultural sector has shown an increase only in eight districts viz. Thane, Sindhudurg, Parbhani, Bid, Nanded, Latur, Nagpur and Gadchiroli. There is a corresponding decrease in the proportion of workers engaged in non-agricultural sector in these districts.

All the districts, except Thane, have experienced a drop in the prportion of cultivators. The proportion of agricultural labourers has shown an upward trend in all but three districts viz. Nashik, Dhule and Ahmadnagar. Thus, Nashik, Dhule and Ahmadnagar are the only districts having suffered a loss in proportions of both cultivators and agricultural labourers and Thane is the only district with higher proportions of cultivators and agricultural labourers in 1991.

Although, the proportion of agricultural workers has increased in all the districts excluding Nashik, Dhule and Ahmadnagar, the drop in the proportion of cultivators has been compensated by the rise in Agricultural labourers only in seven districts. Thus, for rural areas of 22 districts of Maharashtra the proportion of workers engaged in agricultural sector has decreased and that in non-agricultural sector has increased.

The proportion of workers engaged in household industry

has declined in five districts viz. Solapur, Nanded, Latur, Bhandara and Chandrapur. The drop (0.92 points), in Bhandara known for its Bidi rolling industry, is significant.

**Rural female workers**

For the State as a whole, unlike male workers, the proportion of female cultivators to total main workers has increased while the proportions of agricultural labourers and workers in Household industry and 'Other work' have decreased.

Among districts, the proportion of female cultivators has gone down in 11 districts - eight of them are from western Maharashtra and three from Vidarbha.

In all the districts of Marathwada and Vidarbha except three rice-growing districts of Vidarbha (viz. Bhandara, Chandrapur and Gadchiroli) the proportion of agricultural labourers has reduced. The proportion of agricultural labourers has increased in six districts of Western Maharashtra (viz. Nashik, Dhule, Ahmadnagar, Pune, Sangli and Solapur).

Sangli is the only district, in which the proportions of both cultivators and agricultural labourers have decreased.

Of the 10 districts (excluding Sangli), with decrease in prportion of cultivators, only in case of five districts (Raigarh, Satara, Bhandara, Chandrapur and Gadchiroli), the decrease in proportion of cultivators has been compensated by the increase in Agricultural Labourers showing a consequent increase in the proportions of workers in agricultural sector.

Of the 18 districts (excluding Sangli), with decrease in proportion of Agricultural Labourers, only in seven districts (viz. Nashik, Dhule, Solapur, Bid, Nanded,

Osmanabad and Nagpur), the decrease in proportion of Agricultural Labourers has been compensated by the increase in the proportion of cultivators, resulting into the increase in the proportion of workers in agricultural sector. Thus in 12 districts, the proportion female workers engaged in agricultural sector has increased while in the remaining 17 districts the proportion of female workers engaged in non-agricultural sector has increased.

The proportion of workers in Household industry has diminished in eight districts - one (viz. Sangli) from Western Maharashtra and seven (viz. Parbhani, Bid, Nanded, Osmanabad, Nagpur, Bhandara and Chandrapur) from Marathawada & Vidarbha. The drop (3.15 points) in Bhandara district known for its bidi rolling industry is significantly high, as the increase in female workers engaged in other work has been 0.72 points only.

**Urban male workers**

For the state as a whole, the proportions of cultivators and workers in 'Other work' have decreased while those of Agricultural labourers and workers in Household industry have increased.

The decrease (13.13 points) in Gadchiroli district is the highest and is not compensated by a corresponding increase in the proportion of Agricultural Labourers. Consequently, the drop in the proportion of workers in Agricultural sector in Gadchiroli is as high as 12.66 points.

In Solapur district, the decline in the proportion of cultivators is equal to the rise in the proportion of agricultural labourers. Consequently, proportion of workers in agricultural sector has remain the same. In 18 districts the proportion of workers engaged in agricultural sector has reduced with a corresponding increase in the non-agricultural sector. Similarly in 21 districts the proportion of workers

in agricultural sector has gone down with a corresponding increase in the proportion of workers in non-agricultural sector. The increase in the agricultural sector in the urban area of Chandrapur (15.33 points) and Ahmadnagar (12.89 points) is very significant.

The proportion of female workers in household industry has declined in 9 districts viz. Ratnagiri, Sindhudurg, Sangli, Solapur, Aurangabad, Nagpur, Bhandara, Chandrapur and Gadchiroli. The decline in Bhandara district is as much as 15.16 points i.e. from 44.32 p.c. in 1981 to 29.16 p.c. in 1991.

**Overall picture**

For Maharashtra as a whole, the proportions of cultivators and agricultural labourers have declined; the proportion of workers in HHI and other work have increased during the decade. Among the four broad industrial categories, the proportion of workers engaged in 'other work' is the highest (37.21).

In Ratnagiri, Sindhudurg and Gadchiroli districts more than 50% of the main workers are engaged as cultivators. In Satara district, the proportion of cultivators is almost 50% (49.95).

The cotton-growing districts of Akola, Amravati and Yavatmal have more than 50% of main workers engaged as Agricultural labourers.

The four most urbanised and industrially developed districts of Gr.Bombay, Thane, Pune and Nagpur have more than 50% of the main workers engaged in 'other work'.

Barring Akola, Amravati & Yavatmal districts with more than 50% main workers engaged as Agricultural labourers, in

Dhule, Jalna, Parbhani, Nanded, Osmanabad, Buldana, Wardha and Chandrapur districts the proportion of Agricultural labourers is greater than that of cultivators.

Statement 3.18 shows the cultivators and Agricultural labourers per 100 Hectares of Gross cropped area.

Statement 3.18

No.of cultivators and Agricultural labourers per 100 Hectares of Gross cropped area.

| State/District | Cultivators per 100 Hectares | Agricultural labourers per 100 Hectares |
|---|---|---|
| 1 | 2 | 3 |

Source: Last Agricultural Census 1986

In the rice-growing districts of Thane, Raigarh, Ratnagiri and Sindhudurg of Western Maharashtra and Bhandara and Gadchiroli districts of Vidarbha, the number of cultivators per 100 hectares is greater than the number of agricultural labourers. In Sindhudurg and Ratnagiri districts the number of agricultural labourers per 100 hectares is only 23. These two districts are known for heavy out-migration to Bombay as a result of which agricultural labourers may not be available.

In the cotton growing districts of Vidarbha viz. Buldana, Akola, Amravati, Yavatmal, Wardha and Nagpur, the number of agricultural labourers is significantly greater than that of cultivators. Cotton is a cash crop and probably the rich cultivators owning large stretches of land could afford to hire agricultural labourers instead of employing their own family members.

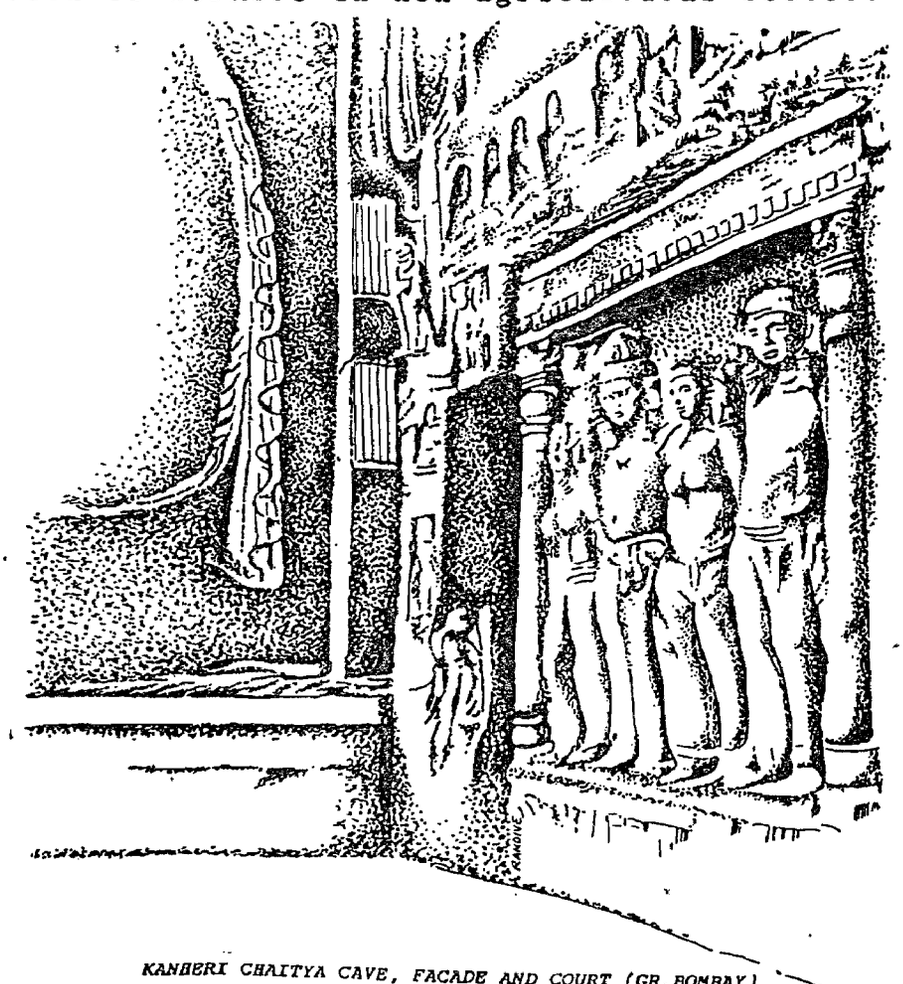

**Summing up**

For the State as a whole the WPRs have increased during the last decades; the male WPRs have declined and the female WPRs have risen. By and large the WPRs of districts of Western Maharashtra have increased while those of the districts of Marathwada and Vidarbha have decreased. Inspite

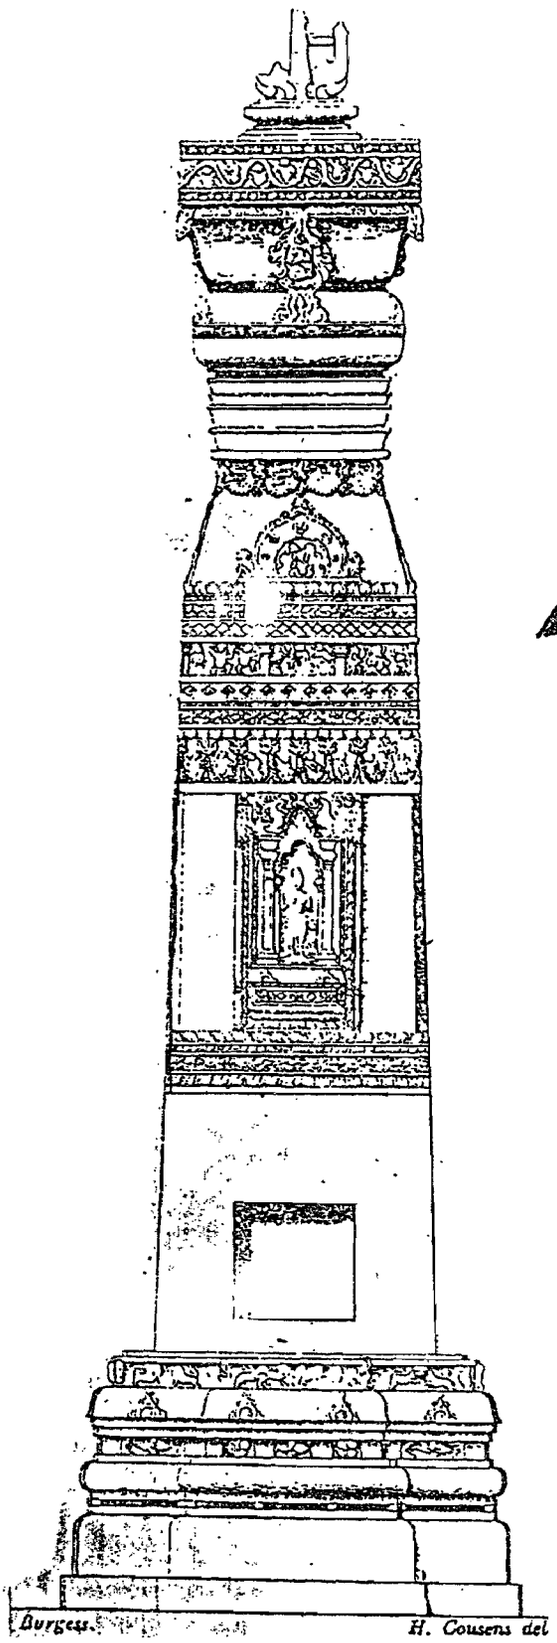

of the decline in WPRs, many districts of Marathwada and Vidarbha have still WPRs greater than those of districts of Western Maharashtra.

The WPRs for male main workers slumped during the last decade in rural areas of 24 districts in the State including all the 16 districts of Vidarbha and Marathwada. As against this, there was not a single district in which the female WPR for main workers suffered a loss. In fact, in majority of the districts there was a substantial increase in the female WPRs during the decade. These substantial increases in the female WPRs resulted into the increase of total and main workers of both sexes though by smaller margins.

Barring Gr.Bombay district, in majority districts the proportion of workers (of both sexes together) engaged in agricultural sector to total main workers has declined leading to a consequential corresponding increase in the proportion of workers in non-agricultural sector.

## Appendix 1

### Concept of "work" in earlier Censuses

The data on the economic activity of the people collected upto the 1951 Census were based on income and dependency concepts. From the 1961 Census onwards the concept of work measured in terms of time or the labour fore concept has been followed. This is in accordance with the recommendations of the ILO and is generally followed in most of the countries. The classification of population as workers and non-workers based on the concept of work was introduced in the 1961 Census. In the case of seasonal work, a person was considered as a worker if he/she had some regular work of more than one hour a day throughout the greater part of the "working season'. In the case of regular employment in any trade, profession, service, business or commerce the basis of work was satisfied if the person was employed during any of the fifteen days preceding the day on which the enumerator had visited the household.

In the 1971 Census every person was asked what his main activity was i.e., how he or she engaged himself mostly. On the basis of this question the population was divided into two broad streams of main activity as "workers" and "non-workers". The reference period adopted was one week prior to the date of enumeration in the case of regular work in trade, profession,service or business. If a person had participated in any such regular work on any one of the days during this reference period and this had been returned as his main activity, the person was categorised accordingly. In the case of seasonal workers, a person's main activity was ascertained with reference to such work in the last one year even if the person was not economically active in the week prior to the enumeration. this was based on the reasoning that it is likely that even when a person is engaged in some other work during the period of one week prior to the date of enumeration, the main activity of the person may be cultivation, agricultural labour or some other work attended to normally by the person in the course of the year.

Every person whether he or she had returned some work as main activity or had returned himself or herself in any of the basically non-

working category was required to state his or her secondary work. Each person was asked if besides the main activity, the person had participated in any secondary work.

The 1971 Census registered a sharp decline in the work participation rate (WPR), defined as the percentage of workers among population, as compared to the 1961 Census.

While formulating the economic questions for the 1981 Census, there were detailed discussions at the Data Users' Conferences and the meetings of Technical Groups. It was considered desirable to obtain in the 1981 Census a detailed profile of the working characteristics of the population without losing much of the comparability with 1961 and 1971 results.It was also thought that under the Indian conditions the enquiry relating to the usual status of a worker was more appropriate than the current status. The economic questions of the 1981 Census were formulated so as to first divide the population into those who had worked anytime at all during the year preceding the Census and those who had not worked at all during the year. The later were termed as non-workers. Having classified the population into these broad groups,an attempt was made to sub divide those who had worked any time into two groups (i) Main Workers i.e.those who had worked in some economic activity for the major part of the year i.e. for a period of six months (183 days) or more and (ii) Marginal Workers i.e. those who had worked for some time during the last year, but not for the major part. An attempt was also made to find out whether those who were non-workers or those who were marginal workers, were seeking or available for work. Thus, a trichotomy of persons into mutually exclusive groups of "main workers", "marginal workers" and "non-workers" was introduced in the 1981 Census. A uniform reference period of "one year" preceding the enumeration was adopted for recording activity status in the 1981 Census, irrespective of whether the activity was "seasonal" or "regular".

## Appendix 2

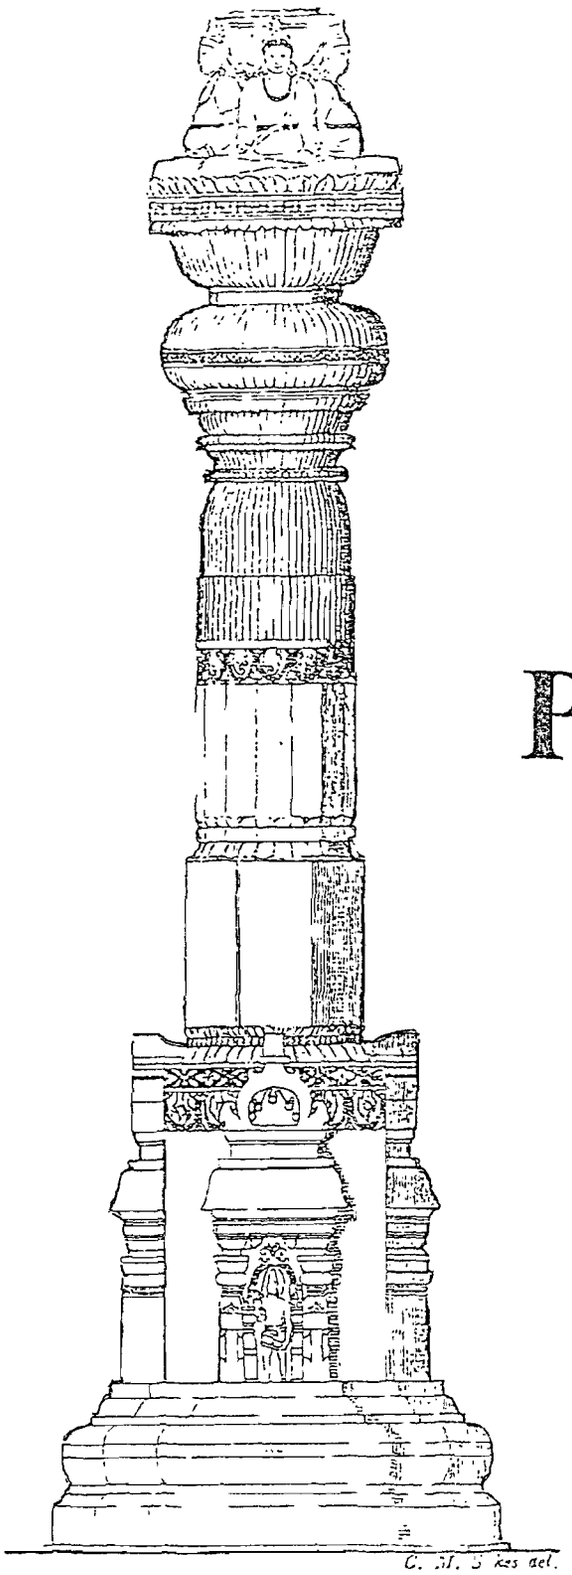

### Comparison with ILO's Concept

According to Resolution No 1 of the 13th International Conference of Labour Statisticians 1982, the economically active population comprises persons of either sex, who furnish the supply of labour for the production of economic goods and services as defined by the United Nations systems of national accounts and balances, during a specified time reference period. According to these systems, production of economic goods and services includes all production and processing of primary products whether for the market for barter or for own consumption, the production of all other goods and services for the market and, in the case of households which produce such goods and services for the market, the corresponding production for own consumption.

Thus according to this definition, economic activities can be market activities or non-market activities. Market activities are those in which one produces goods or services for pay or for profit. The non-market economic activities are:

(a) Production of primary commodities for own consumption.
(b) Processing of primary commodities for own consumption.
(c) Own account production of fixed assets.

The Census of India recognises production for own consumption in cultivation as economic activity. The term Cultivation in the Census, covers only growing of certain crops such as cereals, millets, sugar cane etc. Growing of plantation crops, vegetables, flowers and other crops are not included under cultivation. Growing of such crops if done, exclusively for home consumption, is not considered as economic activity in the Census. Processing of primary commodities for own consumption and own account production of fixed assets are also excluded from the purview of economic activity in the Census. In other words, with the exception of cultivation, the census does not include the non-market economic activities as work.
