KERALA

PART III

REPORT AND TABLES ON ESTABLISHMENTS

K. NARAYANAN

OF THE INDIAN ADMINISTRATIVE SERVICE

DIRECTOR OF CENSUS OPERATIONS,

KERALA

1973

ACKNOWLEDGEMENTS

As part of the Census Operations, data on establishments were first collected in the 1961 Census. The Houselist Schedule canvassed in this census provided data on names of establishments, names of products or kind of repair and servicing undertaken, average number of persons employed daily during the week and kind of fuel or power used in addition to building number, household number, material of wall, material of roof, purpose for which census house is used etc. In the 1971 Census, data on establishments were collected in a separate schedule known as 'Establishment Schedule'. The information collected through these Schedules were tabulated and presented in this volume. As in the case of Houselist Schedules, the Establishment Schedules were also canvassed by the village officials, municipal officials and forest officials who functioned as supervisors and enumerators. Their whole-hearted co-operation has considerably helped to enrich the coverage and quality of the data.

The scrutiny, coding and punching of the information contained in the Establishment Schedules were done with utmost care in the Coding and Punching Cell of my office under the effective supervision of Shri P. Sreedhara Menon, Deputy Director. He was ably assisted in this work by Shri K.Gopinathan, Tabulation officer and Sarvashri P. V. James and Josey Joseph, Senior Technical Assistants. I thank all of them and their staff who completed the work within the stipulated time.

Shri B. T. Pillai, Deputy Director of Census Operations, Kerala, who was also in charge of the Zonal Computer Centre (South Zone), Madras, looked after the entire edit operations and the transferring of data on to magnetic tapes. I am extremely thankful to him and to the staff in the Zonal Computer Centre, Madras for their valuable help and co-operation. My thanks are also due to Shri S. C. Sharma, Assistant Registrar General (Data Processing) for processing the tapes and also for supplying the final tables in time.

I take this opportunity to express my heartfelt thanks to Shri K. K. Chakravorty, Assistant Registrar General, for his co-operation in the scrutiny of the tables and clearing them in time for publication.

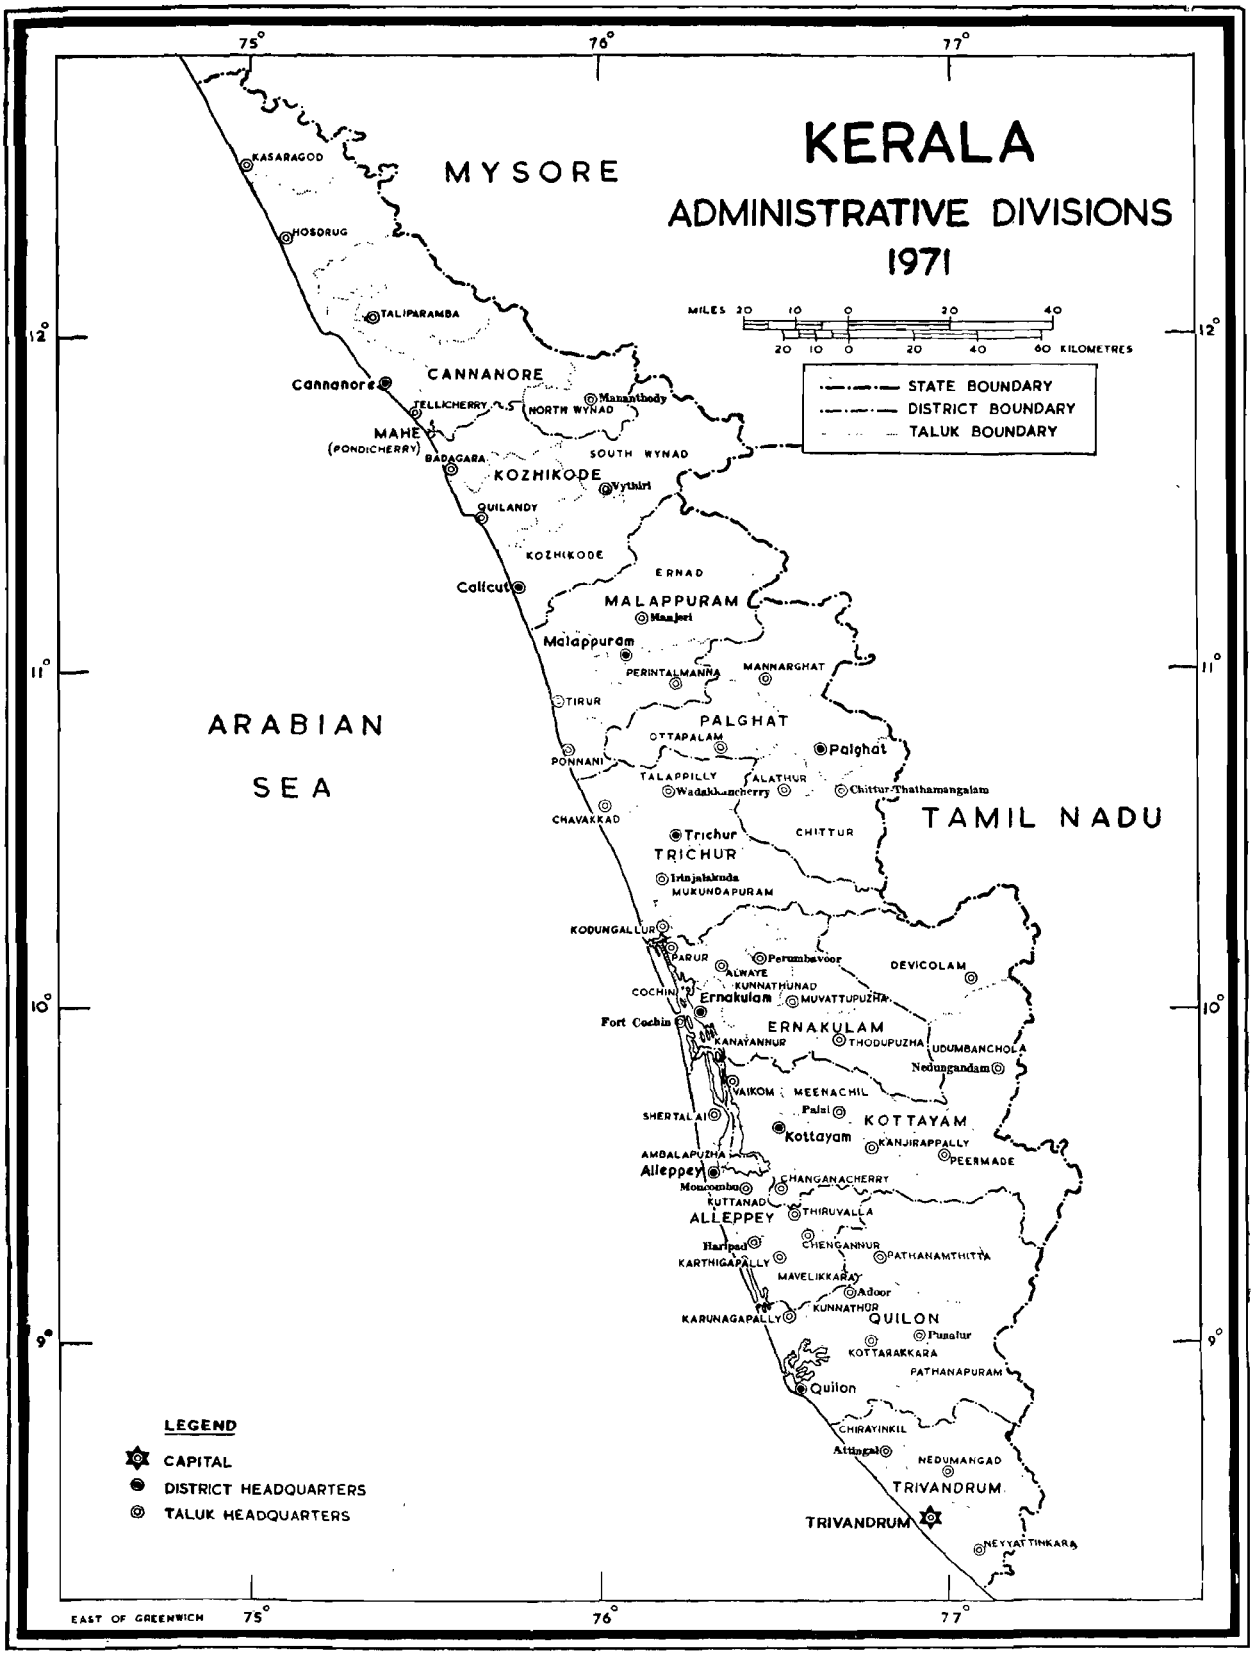

I am highly grateful to Shri A. Chandra Sekhar, Registrar General of India for his inspiring guidance at all stages of Census Operations and also for giving useful suggestions in finalising this Report.

The first draft of this Report was prepared by Shri P. Sreedhara Menon, Deputy Director. For giving final shape to this Report I also received valuable assistance from Shri M. A. Koshy and Shri B. T. Pillai, Deputy Directors and Shri S. Jayashanker, Senior Investigator. All the inset tables in this Report were prepared by Shri K. Sivaramakrishna Iyer, Statistical Assistant, and Smt. R. Krishnakumari and Smt. M. Parvathy Ammal, Assistant Compilers. The subsidiary tables were prepared by Smt. R. Kamalamma and Shri J. Dassayyan, Computors under the able guidance of Shri K. Gopinathan, Tabulation Officer. I wish to thank Shri S. Gopalakrishna Pillai, my Stenographer, who took the entire dictation of the Report promptly and efficiently. The entire typing of the final tables was carefully done by Shri M. Krishnan and Smt. S. Saraswathy Amma, Typists. I am also thankful for the good work done by Smt. P. M. Rugmini Amma, Tabulation Officer and Smt. M. K. Vilasini and Smt. S. Radhamoni, Assistant Compilers in checking the tables at various stages of printing. I have great pleasure in acknowledging the valuable services rendered by Shri K. Krishna Pillai, Draftsman, in preparing the map and charts for this volume. I would like to place on record my appreciation of the meticulous work done by the Printing Section of my office consisting of Shri N. Ravindranathan Thampi, Printing Inspector, and Sarvashri N. Aravindan and N. Madhavan, Proof Readers.

I am extremely grateful to Shri V. R. Sivaram, Manager, Government of India Press, Coimbatore for printing this volume in spite of heavy pressure of work already undertaken by him. I may be failing in my duty if I do not mention the excellent work done by Shri K. Gopalakrishnan, Assistant Manager, and his efficient colleagues in printing this volume neatly and in record time.

TRIVANDRUM;
31ST DECEMBER 1973

K. NARAYANAN

REPORT
AND
SUBSIDIARY TABLES

CHAPTER I

INTRODUCTION

Data on houses used as establishments were collected for the first time along with the housenumbering operations in 1960 as part of the 1961 Census Operations. Particulars regarding the name of establishment, whether used as workshop or factory, name of proprietor, name of products, the type of repair or servicing undertaken, average number of persons employed daily during the previous week and kind of fuel or power, if machinery is used, were collected. These particulars were entered in the same schedule used for collecting information on housing conditions. In 1971 Census, however, a separate schedule was developed for collecting information on the census houses used as establishments. Comprehensive data on the establishments in the State have been collected as part of the 1971 Census.

2. The schedule used for collecting details on establishments during the 1971 Census was finalised after two pretests, the first pretest in 1967 and the second in 1969. During the first pretest, a 12 column schedule was tried out on the field. This schedule was intended to collect information only on manufacturing establishments, i.e., establishments where some kind of production, processing or servicing is done. In the second pretest conducted in 1969 this schedule was revised to include data on all establishments whether manufacturing, trading or those put to other uses. It was a ten-column schedule. From the experience gained from the second pretest the arrangement of columns was slightly modified and an eleven-column schedule was finally approved for use during 1970 at the time of the housenumbering and houselisting operations.

3. The "establishment" was defined as follows during the 1971 Census:—

> "An 'establishment' is a place where goods are produced or manufactured not solely for domestic consumption or where servicing and/or repairing is done such as factory, workshop or household industry or servicing and/or repair workshop or a place where retail or wholesale business is carried on or commercial services are rendered or an office, public or private or a place of entertainment or where educational, religious, social or entertainment services are rendered. It is necessary that in all these places one or more persons should be actually working. Thus an establishment will cover manufacturing, trade and other establishments where people work.
>
> Examples
>
> A factory or a workshop or workshop-cum-residence or a trading or other establishment i.e. where some kind of production, processing, repair or servicing is undertaken or where goods or articles are made and sold, or some business is being carried on such as grocery shop, a pan shop, restaurant, bank, hotel or an office is functioning such as Government office, commercial office, or an institution if being run such as school, college, hospital dispensary etc. and where one or more persons are working. An establishment may occupy a census house or a group of census houses or a part of a census house."

4. For collecting information on the establishments, the establishments were classified into three broad groups:

1 Manufacturing, processing or servicing establishments;

2 Trading establishments; and

3 Other types of establishments such as office, hospitals, schools etc.

In respect of all the establishments the following common informations were collected:

1 Name of the establishment or of the proprietor;

2 Whether the establishment was

(a) Government/quasi-Government

(b) Private

(c) Co-operative Institution

3 Average number of persons working daily last week or in last working season, including proprietors and/or family workers.

In respect of the first category of establishments, information was collected as to whether they were (a) household industries (b) registered factories or (c) un-registered workshops, description of the products, processing or servicing done and type of fuel or power used. In the case of trading establishments description of goods bought or sold was noted down. Information as to whether the trading establishments was a wholesale or a retail business centre was also collected. In respect of establishments other than those coming under the above two categories no additional information was collected. The format of the establishment schedule and the instructions to the enumerators to fill the same are given in Annexure II.

5. The data collected through the establishment schedule have been tabulated on a full-count basis. The schedules received from the enumerators (village/municipal/forest staff) were edited, coded and the data punched on cards at the Coding and Punching Cell at the headquarters.

These punched cards were transferred to the magnetic tapes by the Zonal Computer Centre, Madras. The tapes were then sent to the Registrar General's Office for further processing on the computer and final tables were supplied to this office by the Registrar General. The following tables as supplied by the Registrar General are presented in this volume:

E-I		Distribution of establishments by broad types
E-II	Part-A	Distribution of manufacturing, processing or servicing establishments other than household industries classified by registered factories and unregistered workshops and size of employment.
	Part-B	Distribution of manufacturing, processing or servicing establishments other than household industries classified by industry, fuel/power or manual used and size of employment.
	Part-C	Distribution of household industry establishments classified by industry, fuel/power used and size of employment.
E-III		Distribution of Trade/Commercial establishments classified by the type of business or trade and size of employment.
E-IV		Distribution of establishments (other than manufacturing, processing or servicing or business and trade establishments) by size of employment.

In 1961 information on establishments was presented in table E-III as part of the Report on Housing and Establishments. This table gave details of census houses used as factories and workshops classified by industry, power and no power used, and size of employment.

6. Valuable data on the unorganised sector i.e., unregistered workshops, household industries, small business houses and other similar establishments are also presented through the above tables. It must, however, be pointed out that the coverage of the establishments in these tables is confined to those located in buildings i.e., in structures with walls and a roof. In other words, open air establishments or itinerant vendors are not covered. This limitation must be borne in mind while making use of the above tables. While information on large establishments would be forthcoming from other returns that Government collect from such establishments, the meiit of the information collected through the establishment schedule is that it includes data on the small establishments in the unorganised sector spread throughout the length and breadth of the country.

7. Peculiar types of establishments are water pumpshed in fields, travellers' bungalows and rest houses and the small temples. If the respondents returned that there was atleast one regular employee to operate or look after these, they were treated as establishments. If there was none working in these cases, they were treated as vacant houses and not included in the list of establishments.

8. In spite of several training classes some enumerators do not seem to have understood clearly the definitions of household industry, unregistered workshop and trading establishments. Some enumerators have recorded the details of establishments under inappropriate columns, eg., trading establishments are shown under the columns meant for manufacturing establishments and *vice versa*. Though the type of fuel or power used is to be recorded only for manufacturing establishments some enumerators recorded these details for other types of establishments also whereas some other enumerators failed to record these details at all. In several cases number of employees was not recorded by the enumerators. But in some other cases, the enumerators included the number of students also while recording the number of employees in schools, colleges etc. and the number of inmates also as employees in establishments like jails, hostels etc.

9. Though according to instructions, a large factory with different units situated in the same campus is to be treated as a single establishment, some of the enumerators had treated each of the units as separate establishments. There are also a few cases of omission to record the details of establishments in the establishment schedule. In several cases while the use to which the census house is put is noted as 'Workshop' in the houselist, the corresponding details recorded in the establishment schedules revealed that it was a 'Shop' and *vice versa*.

10. There were also a few instances where the number of employees was not recorded in the establishment schedule. The schedules had to be returned to the Charge Officers in such cases to get the number of employees filled up. In Cheruvannur town in Kozhikode taluk, there were a large number of omissions in the Establishment Schedule. The schedule was returned to the Charge Officer and the mistake rectified.

11. The Establishment Schedules were scrutinised cent per cent and edited. The cross references between the Houselists and Establishment Schedules were made at the time of editing and inconsistencies were set right.

CHAPTER II

TYPES OF ESTABLISHMENTS

Table E-I presented in this report gives details of the district-wise distribution of the establishments under different types. There are 533,726 establishments in the State as a whole. Of these 129,317 establishments are situated in urban areas and 404,409 in rural areas. More than 24 per cent of the establishments are in the urban areas though the population in the urban areas of the State accounts for only 16.24 per cent of the total population of the State. Of the total number of establishments in the State only 4.98 per cent are Government/quasi-Government institutions and 1.48 per cent of the establishments are in the co-operative sector. The remaining establishments—93.54 per cent of the total—are in the private sector.

2. The establishments in the State can be broadly grouped under three types, namely, (i) manufacturing, processing or servicing establishments, (ii) trade or business establishments and (iii) other establishments. 104,798 establishments in the State come under the first category. They form 19.64 per cent of the total number of establishments. 316,509 establishments (59.30 per cent of the total) are trading or business establishments. "Other establishments" account for 21.06 per cent of the total. Under this category 20,463 are educational institutions (18.20 per cent), 10,451 are public health institutions (9.30 per cent) and 81,505 (72.50 per cent) are miscellaneous kinds of institutions such as offices, cinema theatres, barber shops etc. It is clear that the trade or business establishments predominate in the State.

3. The table 1 brings out the percentage distribution of total establishments classified by various types of establishments amongst the ten districts of the State. The table also brings out the distribution of the establishments in the rural and urban areas of each district. It may be seen that the distribution of establishments amongst the districts follows more or less the distribution of population amongst these districts. Quilon district having the highest population among the districts in the State has also the largest number of establishments. Similarly, Palghat, the least populous district in the State has the lowest number of establishments. The percentage distribution of the establishments under the category 'Manufacturing, processing or servicing establishments' shows that Cannanore and Ernakulam have a greater share of these establishments than other districts with 13.52 and 13.45 per cent respectively of such establishments. Trichur, Alleppey and Trivandrum have got more than 10 per cent of such establishments and the rest are having less then 10 per cent each of these establishments. The trading establishments on the other hand are more or less evenly distributed amongst the districts closely following the percentage distribution of the population in the districts. Quilon has the highest percentage of these establishments with 13.62 per cent and Palghat has the lowest with 6.26 per cent. It is worthwhile pointing out that Malappuram with 8.7 per cent of the total population of the State has only 6 per cent of the manufacturing establishments whereas Palghat with less population (7.89 per cent) has a greater share of the manufacturing establishments (8.34 per cent). This shows that Malappuram district is perhaps industrially the most backward district in the State.

4. The table 2 gives the distribution of the establishments amongst the districts of the State and as well as the distribution of these establishments amongst the various categories in each district. A glance at the table indicates that in the State as a whole as well as in all the districts trading establishments predominate with more than 50 per cent of the total number of establishments. Five districts of the State,viz., Cannanore, Palghat, Trichur, Ernakulam and Alleppey have more than 20 per cent of the establishments in the category of manufacturing establishments, whereas in the State as a whole the manufacturing establishments form only 19.64 per cent of the total establishments. This indicates that the State as a whole is industrially backward. But amongst the districts in the State, the above five districts are in the forefront in the matter of industrialization. In Cannanore we have a large number of household industries particularly handloom weaving, in Palghat, the rice bowl of the State, we have a large number of rice mills, Trichur has a string of tile factories and also rice mills, Alleppey has coir factories both in the organised and unorganised sectors, and Ernakulam, of course, is the most industrially developed district in the State with its industrial complex centred in the Ernakulam-Alwaye belt. Palghat has the highest percentage (23.59) of establishments in the manufacturing sector. Quilon has the highest percentage (65.56) of establishments in the trading sector and Kottayam has 24.50 per cent under other establishments.

7. Of the total number of establishments in the State, 93.54 per cent are in the private sector. 4.98 per cent are Government/quasi-Government institutions. 1.48 per cent of the establishments are in the co-operative sector. The same distribution holds good more or less in the various districts as seen from the table given below. Palghat district has a slightly higher percentage of institutions (5.98) in the Government/quasi-Government sector followed by Trivandrum (5.63 per cent). Even district-wise the share of the co-operatives in the ownership of the establishments is not very encouraging, being less than 2 per cent in all the districts.

Table 5

PERCENTAGE DISTRIBUTION OF ESTABLISHMENTS BY VARIOUS SECTORS

State/District	Total	Government/ quasi-Government	Private	Co-operative
1	2	3	4	5
KERALA	**100·00**	**4·98**	**93·54**	**1·48**
1 Cannanore	100·00	4·76	93·39	1·85
2 Kozhikode	100·00	4·45	94·19	1·36
3 Malappuram	100·00	5·18	92·98	1·84
4 Palghat	100·00	5·98	92·26	1·76
5 Trichur	100·00	4·88	93·28	1·84
6 Ernakulam	100·00	5·10	93·52	1·38
7 Kottayam	100·00	5·44	93·49	1·07
8 Alleppey	100·00	4·53	94·19	1·28
9 Quilon	100·00	4·41	94·44	1·15
10 Trivandrum	100·00	5·63	92·90	1·47

8. As far as manufacturing and trading establishments are concerned the control of these institutions by Government/quasi-Government bodies is insignificant. The co-operative sector has a slightly higher percentage of the trading establishments going upto 3 per cent in some areas. The share of the public sector presents a better picture when we come to 'other establishments' which comprises mainly of educational institutions, public health institutions and offices. In the table below is presented the rural-urban distribution of these institutions amongst the various districts.

T—Total R—Rural U—Urban

MANUFACTURING ESTABLISHMENTS

9. The manufacturing establishments are classified into three broad categories, namely, (1) registered factories (2) unregistered workshops and (3) household industries. At this stage it is worthwhile to note how these three categories of establishments were defined during the census operations.

1 REGISTERED FACTORY :

"A factory which is registered under the Indian Factories Act should be treated as a registered factory. Any other workshop merely licensed by the Municipal or any other authority are registered for any other purpose should not be treated as a registered factory unless it is registered under the Indian Factories Act."

2 UNREGISTERED WORKSHOP :

"Workshop is a place where some kind of production, processing, servicing, repairing or making of goods for sale, is going on. A workshop which is registered under the Indian Factories Act should be treated as a registered factory and others as unregistered workshops. Workshops which are run as household industry should be treated as a household industry and entered as such.

When you come across an establishment where some kind of manufacturing, processing or servicing etc. is done you should ascertain whether it is a household industry or a registered factory or a workshop not registered under the Factories Act and write whatever it actually is in this column. Please note that workshops merely licensed or entered in the registers of a local authority are not to be considered as registered factories unless registered under the Indian Factories Act. All workshops other than household industries and not registered under the Indian Factories Act should be treated as unregistered workshops even if they are merely licensed as workshops by the local authorities. Please do not write (i) or (ii) or (iii) in the column but write household industry or registered factory or unregistered workshop as the case may be."

3 HOUSEHOLD INDUSTRY :

A household industry is defined as an industry conducted by the head of the household himself/herself and/or mainly by the members of the household at home or within the village in the rural areas and only within the premises of the house where the household lives in urban areas. The industry should not be run on the scale of a registered factory.

Thus there are four ingredients of the household industry:—

(i) Nature of activity

(ii) Participation

(iii) Location

(iv) Size

(i) NATURE OF ACTIVITY

A household industry should relate to production, processing, servicing, repairing or making and selling (but not merely selling) of goods. It does not include professions such as pleader or doctor or barber, musician, dancer, washerman (*Dhobi*), astrologer etc. or merely trade or business even if such profession/trade or services are conducted at home by members of the household.

(ii) PARTICIPATION

The head of the household and/or one or more members of the household must participate in such an industry. If it is run primarily by hired labourers, the 'participation ingredient of the household members will not be satisfied and it will not be a household' industry. The industry may run with the help of hired workers but the head and/or members of the household must be mainly participating in the industry and not solely dependent on hired workers. Besides actual work participation also includes 'supervision and direction'.

(iii) LOCATION

The industry should be located within the premises of the house where the household lives in urban areas; if it is situated at a place other than at home, it will not be termed as household industry in urban areas. In rural areas however the industry may be either at home or anywhere within the village limits. In rural areas, even though, the Industry is not situated at home, there is a greater possibility of the members of the household participating in it if it is located within the village limits.

(iv) SIZE

The industry should not be on the scale of a registered factory. Irrespective of the location and participation by the members of the household if the industry or workshop is registered under the Factories Act, then it will not be a household industry. Thus it will be clear that any industry which can be termed as 'household industry' must satisfy all the four ingredients mentioned above.

10. Out of 104,798 manufacturing establishments in the State, Cannanore district has the highest number 14,171 closely followed by Ernakulam district 14,096. Malappuram district, the newly formed district, has the lowest number of manufacturing establishments. The following table gives the distribution of manufacturing establishments in the State, as well as in the districts, under the three broad categories.

Table 7

DISTRIBUTION OF MANUFACTURING ESTABLISHMENTS BY DIFFERENT TYPES

	State/District	Total manufacturing establishments	Registered factories		Unregistered workshops		Household industries	
			Number	Percentage	Number	Percentage	Number	Percentage
		2	3	4	5	6	7	8
	KERALA	**104,798**	**3,434**	**100·00**	**81,773**	**100·00**	**19,591**	**100·00**
1	Cannanore	14,171	421	12·26	9,792	11·97	3,958	20·20
2	Kozhikode	8,714	313	9·11	7,113	8·70	1,288	6.58
3	Malappuram	6,302	67	1·95	4,919	6·02	1,316	6·72
4	Palghat	8,745	243	7·08	6,286	7·69	2,216	11·31
5	Trichur	11,201	411	11·97	8,282	10·13	2,508	12·80
6	Ernakulam	14,096	577	16·80	10,576	12·93	2,943	15·02
7	Kottayam	8,606	240	6·99	7,351	8·99	1,015	5·18
8	Alleppey	11,959	204	5·94	10,315	12·61	1,440	7·35
9	Quilon	10,456	546	15·90	8,815	10·78	1,095	5·59
10	Trivandrum	10,548	412	12·00	8,324	10·18	1,812	9·25

Ernakulam district has the largest number of registered factories (577) and unregistered workshops (10,576) amongst the districts of Kerala. As far as household industries are concerned very nearly one-fifth of the total number in the State are found in Cannanore district. Quilon comes second in the number of registered factories with 546, and Alleppey ranks second in the number of unregistered workshops with 10,315. As far as household industries are concerned Cannanore has the largest number with 3,958 establishments, Ernakulam comes next to Cannanore with 2,943 establishments. Malappuram district, a newly formed district of the State, has the lowest number of registered factories (67) and unregistered workshops (4,919).

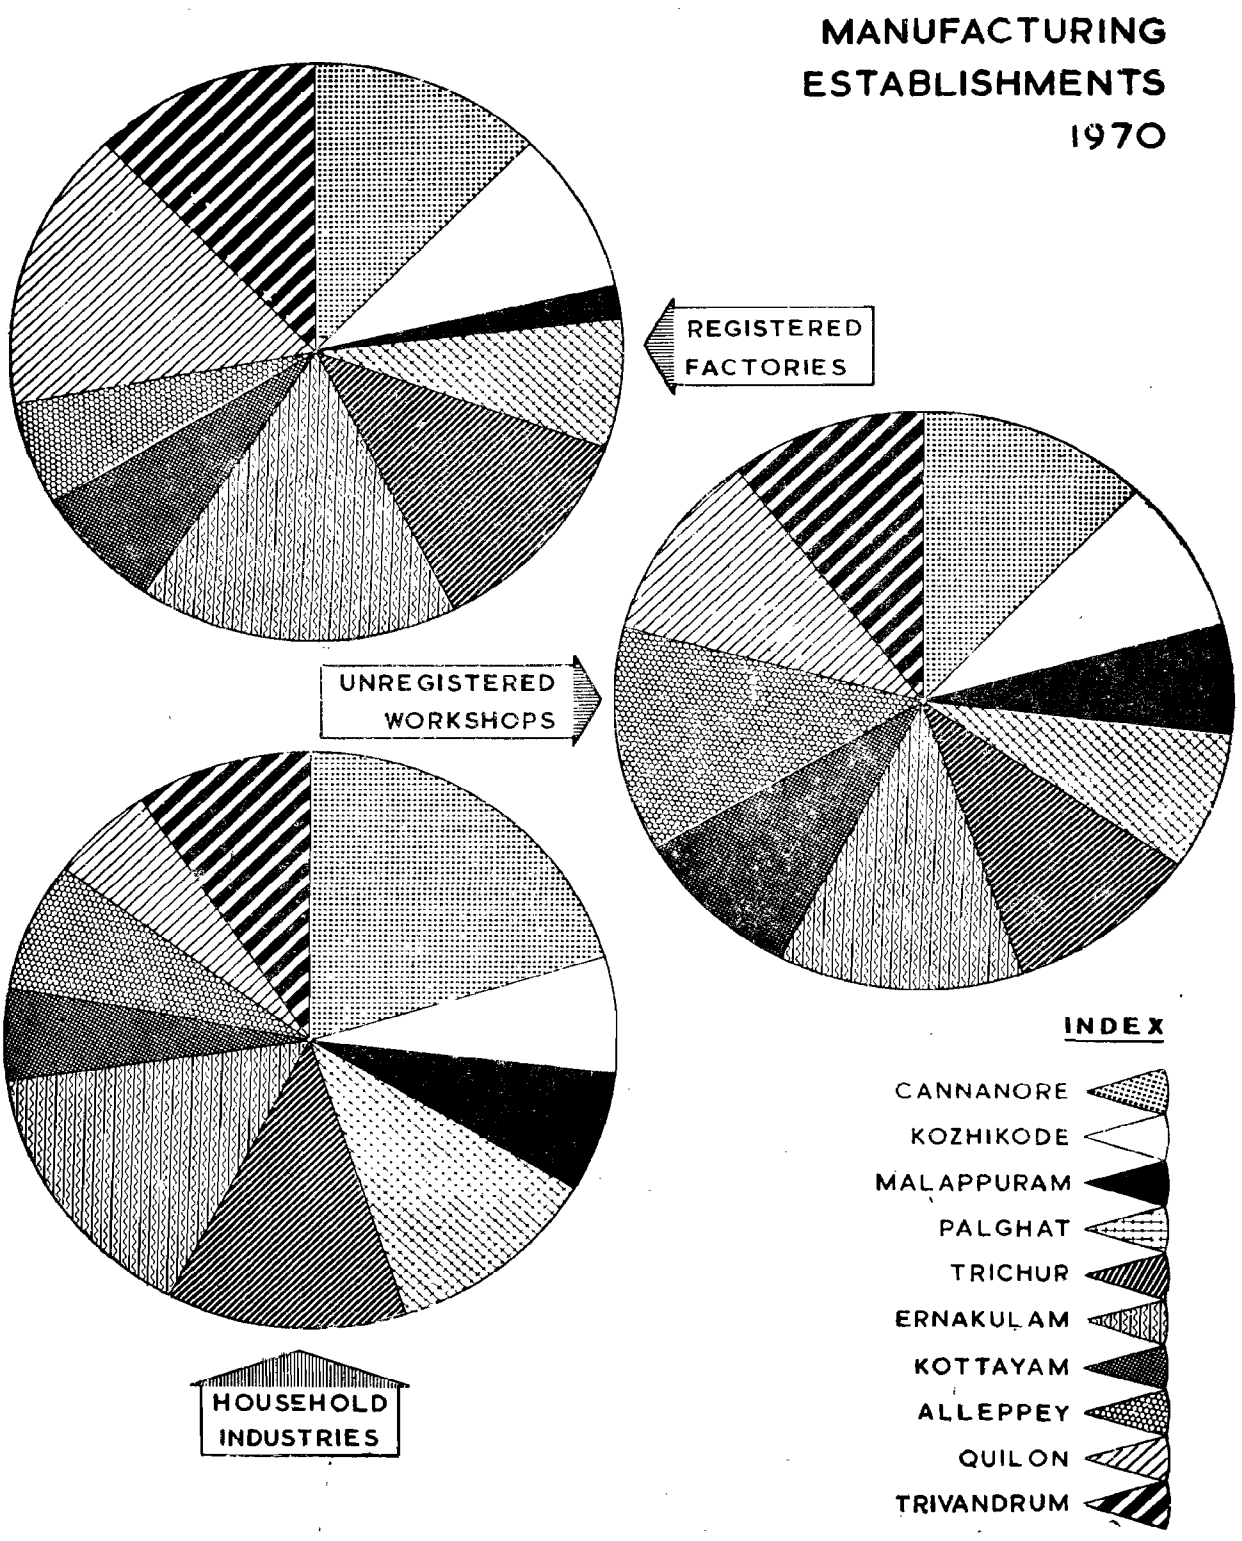

11. A perusal of table E-II published in this report will indicate that out of 577 registered factories in Ernakulam district, 213 are under the industrial major group of 'manufacturing of food products.' Similarly out of 546 registered factories in Quilon, 264 are under the same major group. Quilon district is famous for its cashew factories as well as for marine products which have gained momentum with the construction of the fishing harbour in Neendakara. The Indo-Norwegian Project started in Neendakara with the assistance of the Norwegian Government went a long way in developing the fishing industry in this part of the State by the introduction of mechanised fishing boats. Ernakulam district with its major port has vast potentialities for the development of the fishing industry especially for export purposes. Out of 3,958 establishments under household industries in Cannanore district 1,719 are under the major group "manufacturing of beverages, tobacco and tobacco products". In fact, the majority of these establishments are beedi manufacturing establishments. 887 establishments are under the major group 'manufacturing of cotton textiles'. The distribution of the various kinds of manufacturing establishments amongst the districts reveals that Ernakulam district has relatively higher economic progress than any other district.

12. The percentage distribution of the manufacturing establishments by broad categories among the districts is given in the following table.

Table 8

10 Trivandrum	100·00	3·91	78·91	17·18

In all the districts more than 60 per cent of the establishments are unregistered workshops. Cannanore has the highest percentage of household industries, namely, 27.93 per cent. Quilon is the only district which has more than 5 per cent of its industries under the category of registered factories.

13. The following table indicates the distribution of the manufacturing establishments between rural and urban areas in the State and the various districts.

R—Rural U—Urban

TRADING AND BUSINESS ESTABLISHMENTS

14. There are 316,509 trading establishments in the State. These form 59.30 per cent of the total establishments in the State. Out of these 243,498 (76.93 per cent) are in rural areas. The remaining 73,011 (23.07 per cent) are in urban areas. Trading establishments have been classified into three categories. They are :—(i) Wholesale establishments (ii) retail establishments and (iii) others. Establishments running commercial services such as banks, money lending banks, pan shops, tea shops etc., have been grouped under the third category. 5,209 (1.65 per cent) are wholesale establishments. There are 206,123 (65.12 per cent)establishments doing retail business. 105,177 are miscellaneous commercial establishments coming under the category of 'others'. It is worthwhile to point out that out of 316,509 trading and business establishments, 304,635 are confined to wholesale and retail trade in restaurants and hotels. Financing, insurance, real estates and business services account for 11,874 establishments. The subjoined table gives the percentage distribution of the wholesale, retail and other trading establishments amongst the ten districts of the State.

Table 10

	II	10·55	7·66	10·90	9·99

I—Number II—Percentage

Ernakulam district accounts for the maximum number of wholesale establishments having 19.12 per cent of the total number of wholesale establishments in the State. Quilon district accounts for 13.80 per cent of the retail establishments. Quilon again leads the other districts in the third category having 13.56 per cent of the establishments in this category. Palghat district has the lowest percentage of wholesale establishments having only 6.16 per cent. Even amongst the retail establishments, Palghat comes last with only 5.45 per cent. Under the category 'other trading establishments', Kottayam stands last with 7.33 per cent.

OTHER ESTABLISHMENTS

15. Out of the total number of 112,419 establishments under the category 'others' 86,650 are in rural areas and 25,769 are in urban areas. 22.3 per cent of these establishments are owned by Government or quasi-Government institutions, 76.7 per cent are private establishments and 1.0 per cent are in the co-operative sector. The maximum number of Government/quasi-Government sector establishments are in Ernakulam district and the minimum number is in Malappuram district. In the co-operative sector, Ernakulam district accounts for the maximum number of institutions. Under the category of other establishments educational institutions, public health institutions and other types of institutions like offices, barber shops etc. are included. The distribution of these establishments by districts is given in the following table.

Table 11

	II	9·78	9·04	9·00	10·06

I—Number II—Percentage

12.64 per cent of the educational institutions are situated in Malappuram district while 15.34 per cent of the public health institutions are located in Kottayam district.

16. The distribution of 'other establishments' in each district is given below. It is worthy to note that 28.26 per cent of the establishments under the category of 'other establishments' in Malappuram district comes under educational institutions. In regard to public Health Institutions Kottayam District comes first and Malappuram District ranks last.

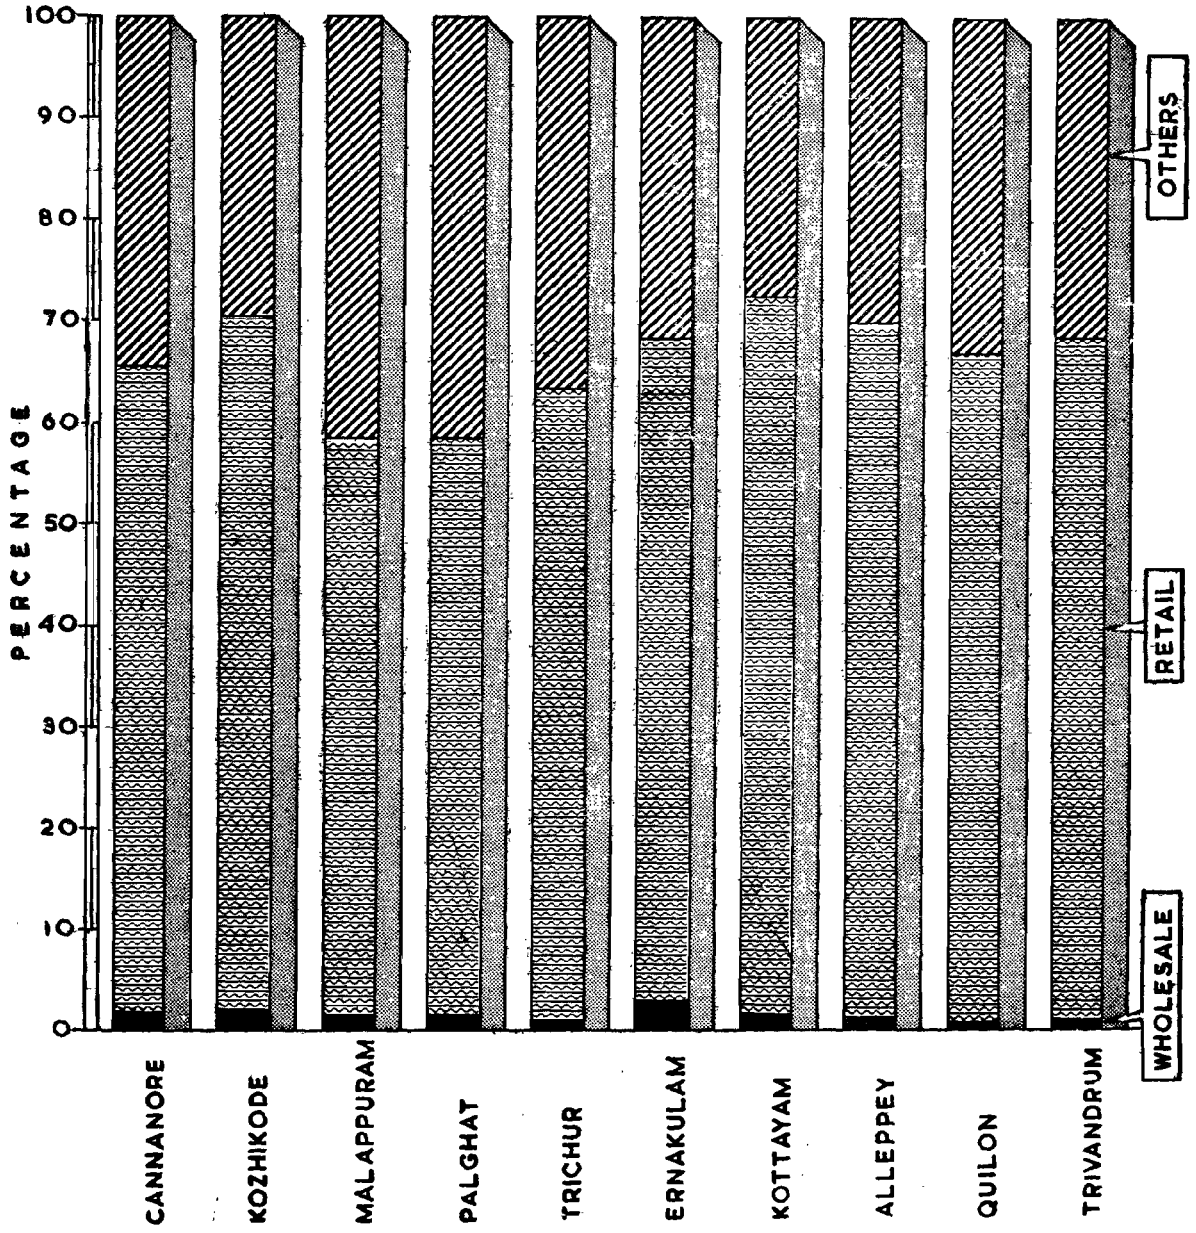

Table 12

DISTRIBUTION OF 'OTHER ESTABLISHMENTS' IN EACH DISTRICT

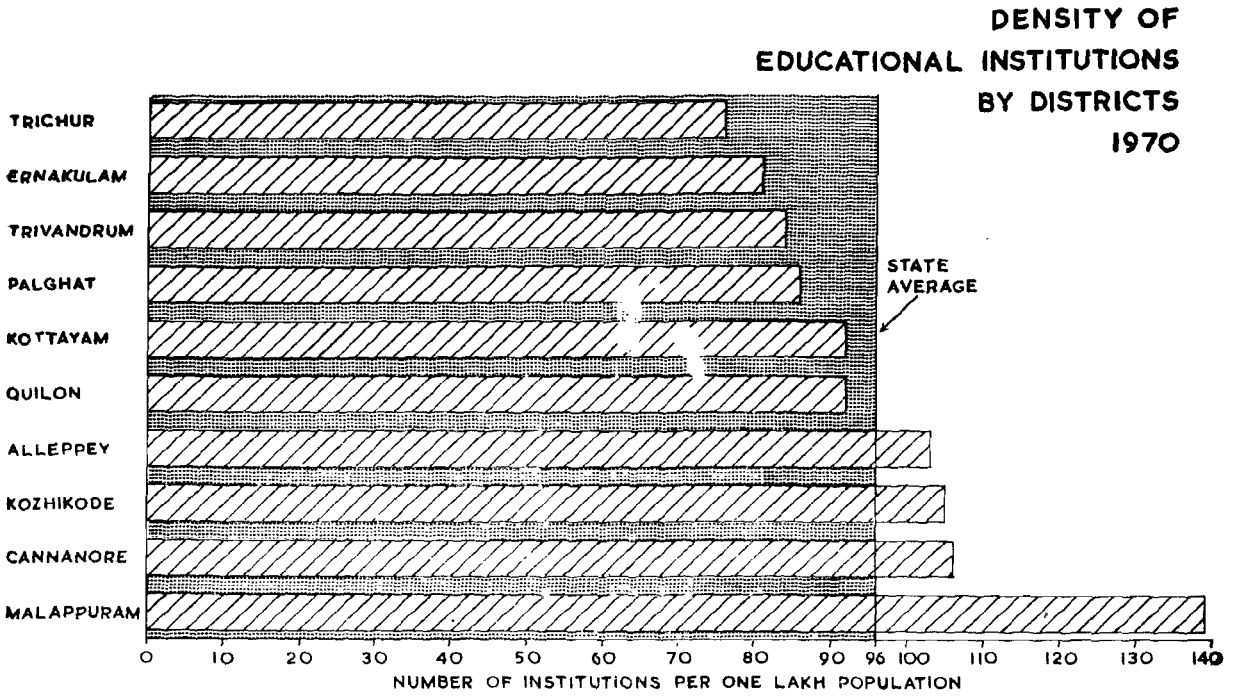

State/District	Other establishments: Total	Educational institutions	Public health institutions	Others
1	2	3	4	5
KERALA	**100·00**	**18·20**	**9·30**	**72·50**
1 Cannanore	100·00	17·92	6·63	75·45
2 Kozhikode	100·00	20·63	8·77	70·60
3 Malappuram	100·00	28·26	5·94	65·80
4 Palghat	100·00	16·97	7·43	75·60
5 Trichur	100·00	15·73	7·58	76·69
6 Ernakulam	100·00	14·31	9·96	75·73
7 Kottayam	100·00	16·14	13·47	70·39
8 Alleppey	100·00	19·52	12·45	68·03
9 Quilon	100·00	18·13	11·07	70·80
10 Trivandrum	100·00	16·83	8·56	74·61

17. Table 13 gives the distribution of educational institutions by districts with corresponding literacy rates. The percentage of literacy is more than 60 per cent in the erstwhile Travancore-Cochin area while it is less than 60 per cent in the erstwhile Malabar area. The minimum number of educational institutions is in Palghat district and the minimum percentage of literacy is also in Palghat district. Thus Palghat district is the most backward district in the number of the educational institutions as well as in the literacy rate.

Table 13

COMPARATIVE PICTURE OF EDUCATIONAL INSTITUTIONS AND LITERACY RATES

State/District	Percentage of educational institutions			Percentage of literacy		
	Total	Rural	Urban	Total	Rural	Urban
1	2	3	4	5	6	7
KERALA	**100.00**	**100.00**	**100.00**	**60.42**	**59.28**	**66.31**
1 Cannanore	12.28	12.71	10.31	54.84	54.00	60.11
2 Kozhikode	10.81	10.16	13.79	57.23	55.08	63.14
3 Malappuram	12.64	14.39	4.66	47.90	47.55	52.79
4 Palghat	7.06	7.32	5.83	46.69	44.66	60.66
5 Trichur	7.91	7.88	8.04	61.61	60.58	69.43
6 Ernakulam	9.41	7.82	16.69	65.29	63.68	69.52
7 Kottayam	9.39	9.56	8.62	67.72	66.97	74.34
8 Alleppey	10.67	10.31	12.32	70.44	70.50	70.15
9 Quilon	10.79	12.16	4.53	64.97	64.78	67.17
10 Trivandrum	9.04	7.69	15.21	62.54	60.87	67.27

This district, therefore, requires some special consideration in this regard. Malappuram, Cannanore and Kozhikode districts are also backward in literacy in spite of the fact that these districts have a higher percentage of educational institutions. In all other districts except Quilon the literacy rate is in proportion to the number of educational institutions. However, the difference as far as Quilon district is concerned is not very much. As regards Kozhikode, Malappuram and Cannanore districts it may be difficult to examine the correlation of literacy percentage with reference to the distribution of educational institutions. In these three districts, the percentage of Muslim population is as follows :

Cannanore	24.34 per cent
Kozhikode	30.62 per cent
Malappuram	63.93 per cent

Since there is a high percentage of Muslim population in these districts there is likely to be a large number of Madrassas and other religious instruction schools conducted for the Muslims. These institutions must have been included among educational institutions. This presumably seems to be the reason for the large number of educational institutions eventhough the literacy percentage is low. In Palghat district the percentage of Muslim population is 21.27 while in all other districts the percentage is less than 14. Hence with the above exception it can be considered that there exists a correlation between the distribution of educational institutions and the literacy rate.

18. The average number of educational institutions per 1 lakh population in the State and in each district is presented in the following table.

Table 14

NUMBER OF EDUCATIONAL INSTITUTIONS PER 1 LAKH OF POPULATION

State/District	Total	Rural	Urban
1	2	3	4
KERALA	**96**	**94**	**106**
1 Cannanore	106	105	116
2 Kozhikode	105	110	90
3 Malappuram	139	140	137
4 Palghat	86	84	100
5 Trichur	76	70	118
6 Ernakulam	81	76	93
7 Kottayam	92	86	148
8 Alleppey	103	98	126
9 Quilon	92	92	87
10 Trivandrum	84	79	98

The State average of schools and other educational institutions is 96 per 1,000 population. Cannanore, Kozhikode, Malappuram and Alleppey districts have number of institutions above the State average while the remaining districts have below the State figure. In the rural areas,

Cannanore, Kozhikode, Malappuram and Alleppey exceed the State average and in the urban areas Cannanore, Malappuram, Trichur, Kottayam and Alleppey districts exceed the State average.

19. The following table gives the distribution of public health institutions and the average number of public health institutions per one lakh population.

Table 15

DISTRIBUTION OF PUBLIC HEALTH INSTITUTIONS

State/District	Percentage distribution of public health institutions			Number of institutions per one lakh of population		
	Total	Rural	Urban	Total	Rural	Urban
1	2	3	4	5	6	7
KERALA	**100.00**	**100.00**	**100.00**	**49**	**45**	**67**
1 Cannanore	8.89	8.72	9.48	39	35	68
2 Kozhikode	8.99	7.68	13.62	45	40	56
3 Malappuram	5.21	5.81	3.10	29	27	58
4 Palghat	6.05	6.01	6.16	37	33	67
5 Trichur	7.46	7.56	7.11	37	33	66
6 Ernakulam	12.82	10.85	19.73	56	51	70
7 Kottayam	15.34	16.86	10.00	77	73	109
8 Alleppey	13.33	13.41	13.05	66	62	84
9 Quilon	12.91	15.40	4.18	56	56	51
10 Trivandrum	9.00	7.70	13.57	43	38	55

Kottayam district has got the maximum number of public health institutions and Malappuram district has got the lowest number. The State average of public health institutions per one lakh population is 49. Ernakulam, Kottayam, Alleppey and Quilon districts have above the State average. The same pattern of distribution is seen in the rural areas. In the urban areas Cannanore, Ernakulam, Kottayam and Alleppey districts exceed the State average of 67 and Palghat district has 67 institutions which equals the State figure. Kottayam district stands foremost in urban areas with 109 institutions per one lakh population.

CHAPTER III

SIZE OF EMPLOYMENT

The present chapter deals with the size of employment provided by the various types of establishments in the State. Before we proceed to a discussion of the size of employment *vis-a-vis* different kinds of establishments it will be useful to know the size of the working force available in the State as per 1971 Census and the prevalent unemployment problem in the State. Out of a total population of 213 lakhs, 114 lakhs are in the working age-group (15-59), 56 lakhs of them are males and 58 lakhs females. About half of the total population in the working age-group of 15-59 are economically active workers. Analysing these figures sex-wise it is seen that 43 lakhs out of 56 lakhs males in the age-group 15-59 are economically active, i.e. 77 per cent of the male working force is at the present moment employed. Amongst the females only 13 lakhs out of 58 lakhs in the age-group 15-59 are economically active, i.e., only 23 per cent of females are workers. More than 50 per cent of the female workers are in the agricultural sector either as cultivators or as agricultural labourers. The rest of the female workers are mainly employed in other services, household industries, other industries and in livestock, fisheries, plantations etc. The enormity of the unemployment problem in the State especially amongst the female working force is revealed to a certain extent from the figures provided above.

2. The succeeding paragraphs of this chapter are based on the Establishment Tables (E-II, E-III and E-IV) prepared as part of 1971 Census programme.

3. The following table gives details regarding the number of establishments in the State and the districts and the employment provided by them under the three broad categories, viz., manufacturing establishments, trade and business establishments and others.

Table 16

NUMBER OF ESTABLISHMENTS AND VOLUME OF EMPLOYMENT BY BROAD CATEGORIES

State/District	Number of establishments				Persons employed			
	Total	Manufacturing	Trade and business	Others	Total	Manufacturing	Trade and business	Others
	2	3	4	5	6	7	8	9
KERALA	**533,726**	**104,798**	**316,509**	**112,419**	**1,516,150**	**522,042**	**499,865**	**494,243**
1 Cannanore	63,248	14,171	35,055	14,022	157,429	58,392	51,140	47,897
2 Kozhikode	54,357	8,714	34,921	10,722	138,778	40,110	55,348	43,320
3 Malappuram	39,739	6,302	24,281	9,156	79,488	16,966	32,958	29,564
4 Palghat	37,069	8,745	19,814	8,510	93,289	28,718	31,360	33,211
5 Trichur	50,591	11,201	29,096	10,294	135,832	46,725	45,526	43,581
6 Ernakulam	62,006	14,096	34,460	13,450	210,245	72,036	65,401	72,808
7 Kottayam	48,587	8,606	28,077	11,904	133,320	32,559	48,136	52,625
8 Alleppey	57,466	11,959	34,321	11,186	147,580	46,009	52,661	48,910
9 Quilon	65,745	10,456	43,104	12,185	241,573	126,317	61,480	53,776
10 Trivandrum	54,918	10,548	33,380	10,990	178,616	54,210	55,855	68,551

It must be emphasized even at this stage that the establishments listed out during the house-listing operations were only those which had four walls and a roof above. Open air establishments and itinerant vendors have been left out. Hence the figures provided by the Census in 1971 regarding workers under the different industrial categories and the figures provided here are not strictly comparable. According to the statement given above 533,726 establishments provide employment to 15.16 lakhs of people. Of these 104,798 manufacturing establishments alone provide employment to 5.22 lakhs of people. About 5 lakhs of people are employed in trade and business. Almost an equal number are employed in other establishments such as offices, educational institutions, public health institutions etc. It can be seen that manufacturing establishments provide very nearly 5 jobs per establishment on an average whereas trading establishments provide only 3 jobs for every two establishments. In the case of other establishments (offices, educational institutions etc.) the job potential comes to slightly above 4 persons

per establishment. Maximum employment opportunities are provided by the establishments in Quilon and Ernakulam districts. These two districts put together account for very nearly 30 per cent of the total employment in the State. Quilon stands first with 15.9 per cent followed closely by Ernakulam with 13.9 per cent. It can also be seen that on account of the fact that Ernakulam has got large sized factories and Quilon has got a number of cashew factories with large employment potential, the employment establishment ratio in the manufacturing sector is more than 5 in these two districts. Establishments for manufacturing of food products and handloom weaving, provide more employment potential in Trivandrum district.

4. The Statement given below gives district-wise percentage of population and the percentage of employment.

Table 17

DISTRIBUTION OF POPULATION COMPARED WITH VOLUME OF EMPLOYMENT

State/District	Population 1971		Volume of employment provided by establishments	
	Number	Percentage	Number	Percentage
1	2	3	4	5
KERALA	**21,347,375**	**100.00**	**1,516,150**	**100.00**
1 Cannanore	2,365,164	11.08	157,429	10.39
2 Kozhikode	2,106,249	9.87	138,778	9.15
3 Malappuram	1,856,362	8.70	79,488	5.24
4 Palghat	1,685,342	7.89	93,289	6.15
5 Trichur	2,128,797	9.97	135,832	8.96
6 Ernakulam	2,383,178	11.16	210,245	13.87
7 Kottayam	2,085,134	9.77	133,320	8.79
8 Alleppey	2,125,722	9.96	147,580	9.74
9 Qulon	2,412,821	11.30	241,573	15.93
10 Trivandrum	2,198,606	10.30	178,616	11.78

It can be seen that Malappuram has the lowest number of employment (5.24 per cent) even though it has 8.70 per cent of the population.

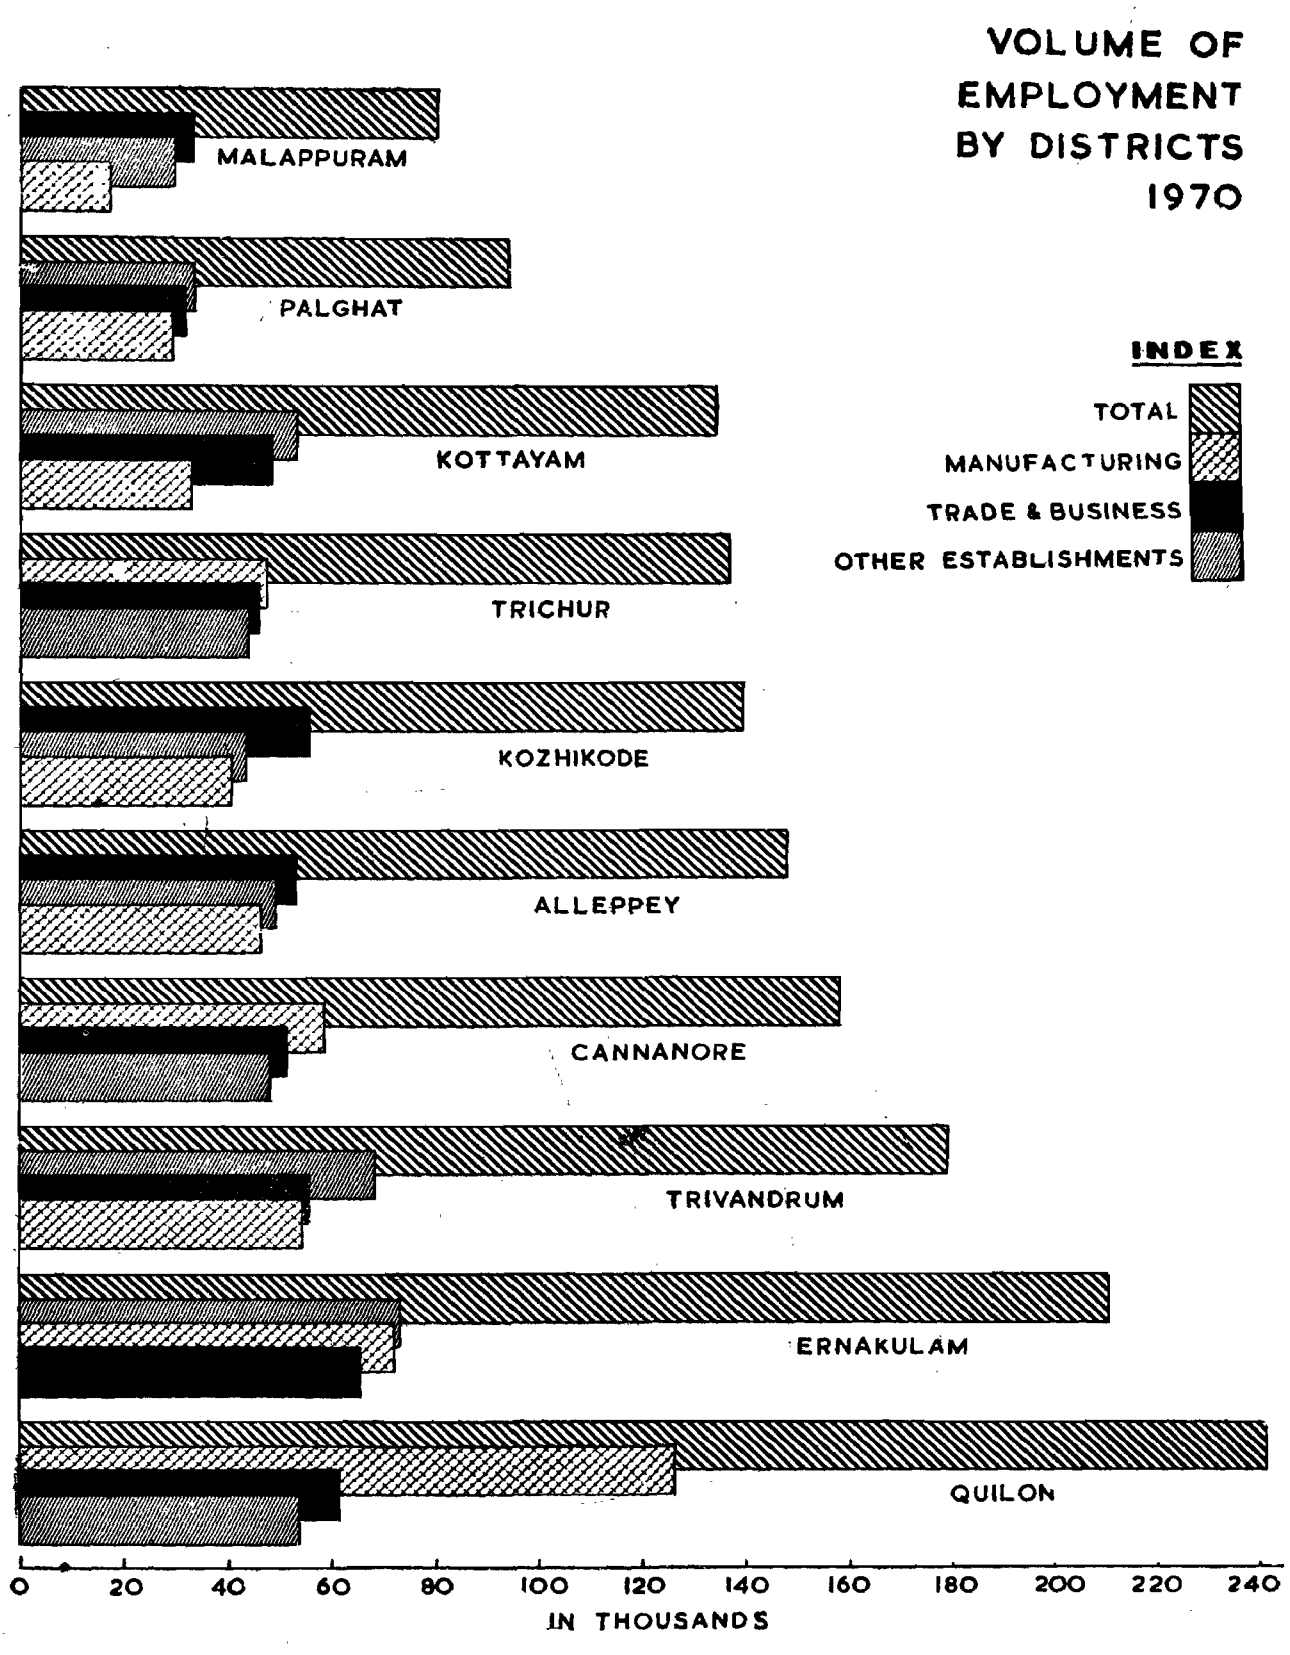

5. In the following table the distribution of population, district-wise, is compared with the working population and the volume of employment provided by the establishments.

Table 18

DISTRIBUTION OF WORKING POPULATION COMPARED WITH VOLUME OF EMPLOYMENT

State/District	Total workers, 1971		Volume of employment provided by establishments	
	Number	Percentage	Number	Percentage
1	2	3	4	5
KERALA	**6,216,459**	**100.00**	**1,516,150**	**100.00**
1 Cannanore	714,593	11.49	157,429	10.39
2 Kozhikode	566,936	9.12	138,778	9.15
3 Malappuram	502,644	8.09	79,488	5.24
4 Palghat	604,825	9.73	93,289	6.15
5 Trichur	603,551	9.71	135,832	8.96
6 Ernakulam	687,253	11.05	210,245	13.87
7 Kottayam	619,613	9.97	133,320	8.79
8 Alleppey	598,468	9.63	147,580	9.74
9 Quilon	690,283	11.10	241,573	15.93
10 Trivandrum	628,293	10.11	178,616	11.78

facing page 16

MANUFACTURING ESTABLISHMENTS

6. The employment created by the manufacturing, processing or servicing establishments under its three broad categories now may be discussed. The three broad categories are (i) registered factories (ii) unregistered workshops and (iii household industries. The employment created by these three broad categories in the State as well as in each district is brought out in the following table.

Table 19

DISTRIBUTION OF MANUFACTURING ESTABLISHMENTS UNDER DIFFERENT TYPES

State/District		Number of units			Persons employed		
		Registered factory	Unregistered workshop	Household industry	Registered factory	Unregistered workshop	Household industry
1		2	3	4	5	6	7
KERALA	I	**3,434**	**81,773**	**19,591**	**266,000**	**213,878**	**42,164**
	II	**3.28**	**78.03**	**18.69**	**50.95**	**40.97**	**8.08**
1 Cannanore	I	421	9,792	3,958	20,252	31,265	6,875
	II	2.97	69.10	27.93	34.68	53.54	11.78
2 Kozhikode	I	313	7,113	1,288	20,543	17,427	2,140
	II	3.59	81.63	14.78	51.22	43.45	5.33
3 Malappuram	I	67	4,919	1,316	2,322	11,925	2,719
	II	1.06	78.06	20.88	13.69	70.29	16.02
4 Palghat	I	243	6,286	2,216	9,883	14,113	4,722
	II	2.78	71.88	25.34	34.42	49.14	16.44
5 Trichur	I	411	8,282	2,508	22,183	20,445	4,097
	II	3.67	73.94	22.39	47.47	43.76	8.77
6 Ernakulam	I	577	10,576	2,943	36,680	28,276	7,080
	II	4.09	75.03	20.88	50.92	39.25	9.83
7 Kottayam	I	240	7,351	1,015	14,284	16,266	2,009
	II	2.79	85.42	11.79	43.87	49.96	6.17
8 Alleppey	I	204	10,315	1,440	13,982	28,396	3,631
	II	1.71	86.25	12.04	30.39	61.72	7.89
9 Quilon	I	546	8,815	1,095	100,620	22,605	3,092
	II	5.22	84.31	10.47	79.66	17.89	2.45
10 Trivandrum	I	412	8,324	1,812	25,251	23,160	5,799
	II	3.91	78.91	17.18	46.58	42.72	10.70

I Number II Percentage

3,434 registered factories in the State alone provide employment opportunities to 2.66 lakhs of people. 50.95 per cent of the persons employed in the manufacturing sector are employed in the registered factories which account only for 3.28 per cent of the total manufacturing establishments. To understand the full significance of the employment opportunities created by big factories it is worthwhile to mention that registered factories which form only 0.6 per cent of the total number of establishments in the State including trade and other establishments absorb more than 18 per cent of the workers in the various establishments. Unregistered workshops which form 78.03 per cent of the manufacturing establishments provide 40.97 per cent of the total employment. The ratio of workers to establishment is the lowest in the household industry. Only 8.08 per cent of the employment is provided by household industrial establishments which form 18.69 per cent of the total establishments in the manufacturing sector. The employment-establishment ratio works out to 77 in the case of registered factories, 3 in the case of unregistered workshops and 2 in the case of household industry. The following table gives an idea of the employment

establishment ratio in respect of these three categories of manufacturing establishments, district-wise.

Table 20

EMPLOYMENT-ESTABLISHMENT RATIO

State/District	Number of persons employed per		
	Registered factory	Unregistered workshop	Household industry
1	2	3	4
KERALA	77	3	2
1 Cannanore	48	3	2
2 Kozhikode	66	2	2
3 Malappuram	35	2	2
4 Palghat	41	2	2
5 Trichur	54	2	2
6 Ernakulam	64	3	2
7 Kottayam	60	2	2
8 Alleppey	69	3	3
9 Quilon	184	3	3
10 Trivandrum	61	3	3

It is observed that this ratio is the highest in Quilon under the registered factory with an employment of 184 persons per factory. This is due to the fact that there is a concentration of cashew factories which are labour-intensive establishments. In all the other districts this ratio is far less than the average of 77 for the State. The other districts where the ratio is more than 60 are Kozhikode, Ernakulam, Alleppey and Trivandrum where there are labour-intensive factories. The employment-establishment ratio in respect of the unregistered workshops and household industries follows more or less the State pattern in all the districts.

7. Is it the larger units that provide larger employment or the small sized ones in the aggregate? This question can be better studied with the following table.

Table 21

MANUFACTURING ESTABLISHMENTS CLASSIFIED BY SIZE OF EMPLOYMENT

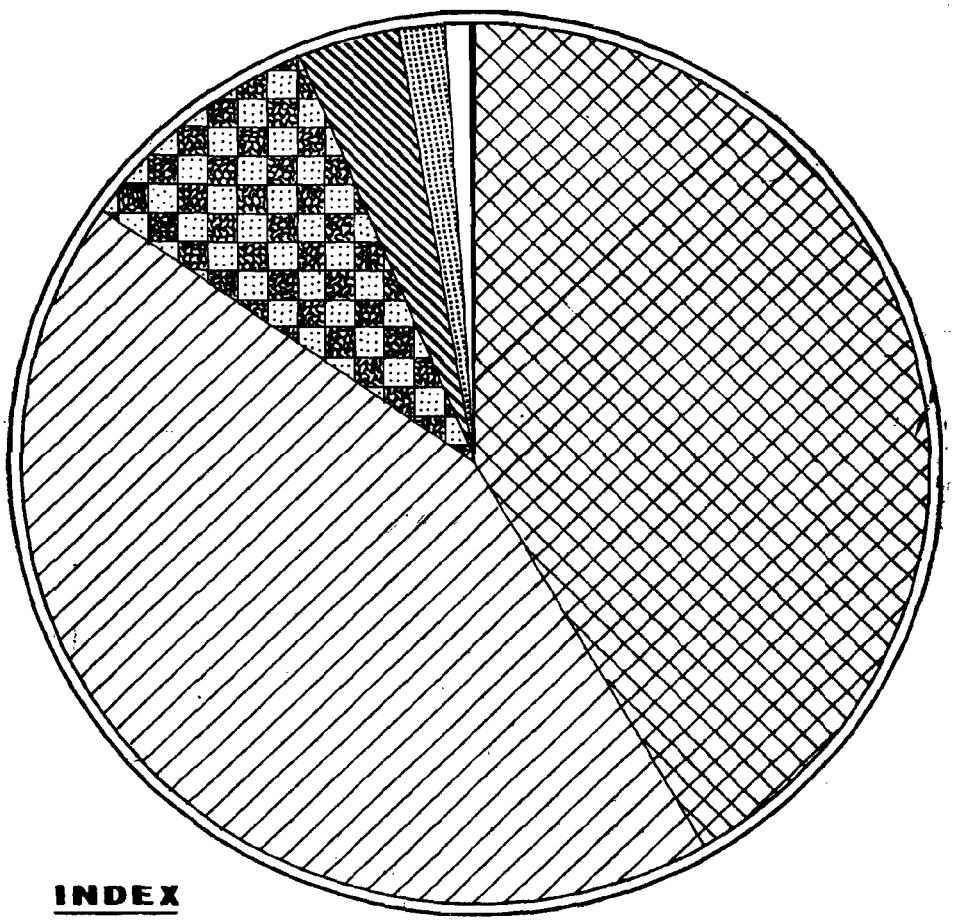

Size of employment (Persons)	Number of units				Persons employed			
	Total	Registered factory	Unregistered workshop	Household industry	Total	Registered factory	Unregistered workshop	Household industry
1	2	3	4	5	6	7	8	9
1	43,472	..	34,917	8,555	43,472	..	34,917	8,555
2—4	45,027	..	35,339	9,688	113,768	..	89,513	24,255
5—9	9,506	..	8,366	1,140	60,178	..	53,155	7,023
10—19	3,813	798	2,818	197	49,048	10,424	36,293	2,331
20—49	1,705	1,705	..	..	49,977	49,977	..	..
50—99	435	435	..	..	29,094	29,094	..	..
100—299	297	297	..	..	47,399	47,399	..	..
300—499	57	57	..	..	22,480	22,480	..	..
500+	136	136	..	..	106,626	106,626	..	..
Unspecified*	350	6	333	11	..	..	..	..

*Establishments with persons unspecified

If establishments having more than 100 employees are considered as large units the total employment provided by the larger units in the State comes to only 176,505 as against the total employment of 345,537 provided by the smaller units, i.e., the smaller units provide very nearly twice the employment provided by the larger units. It can be seen from the statement above that the largest employment is provided in the unorganised sector (unregistered workshops and household industries) with size of employment 2-4 persons the total employment provided being 113,768. Next to that an employment opportunity of 106,626 is provided by registered factories with size of employment 500 and above. The organised sector as well as unorganised sector provide very nearly the same employment opportunities the registered factories employing 266,000 persons and the others providing employment to 256,042 persons.

facing page 19

8. The position in the districts as regards employment provided by the organised sector and the unorganised sector of industries, by manufacturing establishments with less than 100 employees and establishments employing more than 100 persons is indicated in the following table.

Table 22

PERSONS EMPLOYED IN ORGANISED AND UNORGANISED SECTORS

State/District	Persons employed in			
	Organised sector	Unorganised sector	Establishments with less than 100 persons	Establishments with 100 persons and more
1	2	3	4	5
KERALA	**266,000**	**256,042**	**345,537**	**176,505**
1 Cannanore	20,252	38,140	49,605	8,787
2 Kozhikode	20,543	19,567	27,834	12,276
3 Malappuram	2,322	14,644	16,312	654
4 Palghat	9,883	18,835	25,259	3,459
5 Trichur	22,183	24,542	36,541	10,184
6 Ernakulam	36,680	35,356	49,779	22,257
7 Kottayam	14,284	18,275	25,418	7,141
8 Alleppey	13,982	32,027	37,983	8,026
9 Quilon	100,620	25,697	36,038	90,279
10 Trivandrum	25,251	28,959	40,768	13,442

The position is different in different districts and does not follow a uniform pattern. In Quilon the organised sector provides very nearly four times more employment than unorganised sector. In Cannanore, Malappuram, Palghat and Alleppey the unorganised sector provides greater opportunities for employment than the organised sector. In the other districts, Kozhikode, Trichur, Ernakulam, Kottayam and Trivandrum the opportunities provided by both the organised and unorganised sectors are more or less the same. Except in Quilon in all other districts the state pattern of smaller establishments providing larger employment opportunities than the bigger ones is followed.

9. Let us now analyse the distribution of large establishments in the State. Large establishments are taken to mean for the purposes of this analysis establishments providing employment to 100 or more persons. The following table gives the distribution of large units in the State and the districts according to the number of persons employed indicating also the total number of persons employed in these establishments.

Table 23

DISTRIBUTION OF REGISTERED FACTORIES WITH 100 PERSONS AND ABOVE CLASSIFIED BY SIZE OF EMPLOYMENT

State/District	Number of units classified by size of employment				Persons employed classified by size of employment			
	Total	100-299 persons	300-499 persons	500 persons and above	Total	100-299 persons	300-499 persons	500 persons and above
1	2	3	4	5	6	7	8	9
KERALA	**490**	**297**	**57**	**136**	**176,505**	**47,399**	**22,480**	**106,626**
1 Cannanore	33	26	2	5	8,787	4,059	760	3,968
2 Kozhikode	41	33	2	6	12,276	5,115	777	6,384
3 Malappuram	3	3	..	..	654	654	...	..
4 Palghat	17	15	1	1	3,459	2,465	304	690
5 Trichur	42	36	2	4	10,184	4,465	873	4,846
6 Ernakulam	65	43	9	13	22,257	7,031	3,725	11,501
7 Kottayam	24	16	1	7	7,141	2,189	352	4,600
8 Alleppey	20	12	3	5	8,026	1,899	1,262	4,865
9 Quilon	210	95	32	83	90,279	17,015	12,481	60,783
10 Trivandrum	35	18	5	12	13,442	2,507	1,946	8,989

It may be pointed out at the very outset that Quilon district alone has 210 of the total 490 big establishments in the State (42.86 per cent). These large establishments in Quilon district absorb 90,279 workers out of 176,505 employed in similar establishments throughout the State or they have as much as 51.15 per cent of the total employment potential in this field. This is due to the fact that in Quilon district most of the cashew factories are situated. There are 83 factories in Quilon district employing more than 500 persons each out of 136 such establishments in the State, which works out to a percentage of 61.03. Out of 57 registered factories employing between 300 and 499 persons per factory, 32 are situated in Quilon. 95 out of 297 factories employing between 100 and 299 persons per factory are again situated in Quilon district. Ernakulam comes next with 65 large establishments employing 22,257 persons. In Malappuram district there are only 3 large factories employing a total of 654 persons. In other words 0.6 per cent of the total number of factories are situated in this district providing about 0.4 per cent of the total employment in the State.

10. As has been already touched upon in the foregoing paragraph large and important factories with sizable employment potentials are not uniformly distributed in all the districts. They are more or less concentrated in the districts of Quilon, Ernakulam and Trivandrum. While in Quilon there is a concentration of cashew factories and tile factories, in Trivandrum and Ernakulam we have other kinds of manufacturing establishments such as Trivandrum Titanium Products, Hindustan Latex, Travancore Rubber Works and textile mills in Trivandrum district and in the Cochin-Alwaye belt in Ernakulam district a number of large factories manufacturing chemicals, fertilisers etc. There is an Oil Refinery at Cochin and the establishment of a Ship-building Yard is in progress. To name but a few of the important factories in this industrial complex of the State, FACT, HMT, TCC, Premier Tyres, and Travancore Rayons are some of the important factories with large employment potential. While in Malappuram district there is no factory employing more than 500 persons, in Palghat there is only one and in the other districts there are only very few such factories. The following table gives the nature and number of establishments providing employment to 500 persons and above in the different districts of Kerala.

Table 24

MANUFACTURING ESTABLISHMENTS WITH AN EMPLOYMENT OF 500 PERSONS AND MORE

Industrial minor group	Description	No. of units	Volume of employment
1	2	3	4
203	Canning, preserving and processing of fish crustacea and similar foods.	1	880
206	Manufacture and refining of sugar (vacuum pan sugar factories)	1	755
207	Production of indigenous sugar boora, khandsari, gur etc. from sugar-cane, palm juice	1	820
212	Tea processing	5	3,487
213	Coffee curing, roasting and grinding	1	798
214	Cashewnut processing like drying, shelling, roasting, salting etc.	90	65,577
219	Manufacture of food products not elsewhere classified	2	2,350
231	Cotton spinning, weaving, shrinking, sanforizing, mercerising and finishing of cotton textiles in mills	8	6,573
235	Weaving and finishing of cotton textiles on handlooms, other than khadi	1	593
236	Weaving and finishing of cotton textiles in power looms	1	1,250
247	Spinning, weaving and finishing of other textiles, synthetic fibres, rayons, nylons etc.	3	4,633
261	Manufacture of all types of threads, cordage ropes, twines, nets etc.	1	2,210
270	Manufacture of veneer, plywood and their products	1	562
280	Manufacture of pulp, paper and paper board including newsprint	1	938
285	Printing and publishing of periodicals, books, journals, atlases, maps, sheet music directories.		984
300	Tyre and tube industries	2	1,318
310	Manufacture of basic industrial organic and inorganic chemicals and gases such as acids, alkalies and their salts, gases like acetyline oxygen, nitrogen etc.	1	667
311	Manufacture of fertilisers and pesticides	2	1,577
314	Manufacture of perfumes, cosmetics, lotions, hair dressing, tooth pastes, soap in any form synthetic detergents, shampoos, shaving products, cleansers, washing and scouring products and other toilet preparations	1	924

Table 24—*concld.*

1	2	3	4
320	Manufacture of structural clay products	1	721
321	Manufacture of glass and glass products	1	513
324	Manufacture of cement, lime and plaster	1	535
329	Manufacture of miscellaneous non-metallic mineral products such as slate products, abrasives, graphite products, mineral, wool, silica products and other non-metallic mineral products not elsewhere classified	1	822
336	Zinc manufacturing	1	513
345	Manufacture of metal utensils, cutlery and kitchenware	1	685
356	Manufacture, alteration and repair of general items of non-electrical machinery, components equipment and accessories not elsewhere classified	1	2,100
360	Manufacture of electrical industrial machinery and apparatus and parts	1	529
361	Manufacture of insulated wires and cables	1	1,027
366	Manufacture of electronic computers, control instruments and other equipment	1	534
374	Manufacture of motor vehicles and parts	1	1,251
389	Manufacture of miscellaneous products not elsewhere classified such as costume, jewellery, costume novelties, feather, plumes, artificial flowers, brooms, brushes, lamp shades, tobacco pipes, cigarette holders, ivory goods, badges, wigs and similar articles	1	500

11. The employment provided under manufacturing, processing and servicing sector in the State is 522,042. The distribution of this number amongst the various industrial major groups as per National Industrial Classification 1970 is given in the following table.

Table 25

MANUFACTURING ESTABLISHMENTS CLASSIFIED BY BROAD MAJOR GROUPS

Major group	Description	Number of establishments	Number of persons employed
1	2	3	4
20-21	Manufacture of food products	15,937	161,706
22	Manufacture of beverages, tobacco and tobacco products	8,144	34,231
23	Manufacture of cotton textiles	9,786	54,066

Table 25—*concld.*

1	2	3	4
24	Manufacture of wools, silk and synthetic fibre textiles	9	4,643
25	Manufacture of jute, hemp and mesta textiles	19	71
26	Manufacture of textile products (including wearing apparel other than footwear)	25,657	84,999
27	Manufacture of wood and wood products, furniture and fixtures	7,333	28,893
28	Manufacture of paper and paper products and printing, publishing and allied industries	1,858	13,788
29	Manufacture of leather, leather and fur products (except repair)	761	1,642
30	Manufacture of rubber, plastic, petroleum, and coal products	2,404	12,932
31	Manufacture of chemicals and chemical products (except products of petroleum and coal)	3,419	20,304
32	Manufacture of non-metallic mineral products	3,862	29,983
33	Basic metal and alloys industries	37	735
34	Manufacture of metal products and parts, except machinery and transport equipment	9,450	21,296
35	Manufacture of machinery, machine tools and parts except electrical machinery	385	5,048
36	Manufacture of electrical machinery apparatus appliances and supplies and parts	121	5,075
37	Manufacture of transport equipment and parts	183	3,622
38	Other manufacturing industries	7,818	17,402
39	Repair	7,615	21,606

It may be seen that the maximum employment of 161,706 is provided under the major group 20-21 manufacturing of food products. Major group 26—manufacture of textile products (including wearing apparel other than footwear) employs 84,999 workers. Manufacture of cotton textiles (major group 23) comes next in rank providing employment to 54,066. Under the major group 22—manufacture of beverages, tobacco and tobacco products 34,231 persons are employed. The fifth rank goes to major group 32—manufacture of non-metallic mineral products. manufacture of wood and wood products, furniture and fixtures (Major group 27) provides employment to 28,893. 75 per cent of the employment is thus provided under these six major groups of industrial establishments alone. The distribution of the employment opportunities provided by these six major groups alone is dealt with in detail, district-wise, in the following paragraphs.

(i) Manufacture of food products

12. Under this head, as far as Kerala is concerned, the cashewnut processing, rice mills,

preserving and processing of fish, tea processing, manufacture of bakery products and manufacture of cocoanut oil are the main industries. It may be seen that majority of establishments (94.69 per cent) under this category in the State fall in the unorganised sector, especially as unregistered workshops. In regard to employment, the registered factories, eventhough their number is only 846, provide employment to about 1.62 lakhs persons. In the following table the distribution of employment under this head, district-wise, is given.

Table 26

DISTRIBUTION OF ESTABLISHMENTS ENGAGED IN MANUFACTURE OF FOOD PRODUCTS

State/District	Number of units				Persons employed			
	Total	Registered factory	Unregistered workshop	Household industry	Total	Registered factory	Unregistered workshop	Household industry
1	2	3	4	5	6	7	8	9
KERALA	**15,937**	**846**	**13,097**	**1,994**	**161,706**	**128,367**	**29,104**	**4,235**
1 Cannanore	1,439	18	1,218	203	4,940	1,693	2,860	387
2 Kozhikode	1,401	43	1,240	118	7,439	4,443	2,730	266
3 Malappuram	786	15	653	118	1,999	283	1,447	269
4 Palghat	1,171	52	884	235	3,451	988	2,006	457
5 Trichur	2,021	63	1,627	331	7,366	3,313	3,348	705
6 Ernakulam	2,400	213	1,887	300	16,350	10,792	4,914	644
7 Kottayam	2,247	91	1,948	208	11,797	7,454	3,937	406
8 Alleppey	1,737	52	1,502	183	10,605	7,105	3,137	363
9 Quilon	1,558	264	1,147	147	87,630	84,537	2,799	294
10 Trivandrum	1,177	35	991	151	10,129	7,759	1,926	444

It can be observed that 54 per cent of the employment under this major head is in Quilon district alone. This is due to the concentration of cashew factories and the processing of fish in this district. Ernakulam accounts for more than 10 per cent of the employment in this major group providing employment for 16,350 persons. Malappuram district has only 1,999 persons employed under this major group and it comes last amongst the districts.

(ii) Manufacture of textile products including wearing apparel other than footwear

13. Under this major head is grouped manufacture of coir and coir products also. This actually accounts for a sizable proportion of the employment under this major group. Of the 25,657 manufacturing establishments only 440 are registered factories. The establishments in the unorganised sector provide more employment in this category i.e. 78.08 per cent. The distribution of employment, district-wise, is given below.

Table 27

DISTRIBUTION OF ESTABLISHMENTS ENGAGED IN MANUFACTURE OF TEXTILE PRODUCTS BY DISTRICTS

State/District	Number of units				Persons employed			
	Total	Registered factory	Unregistered workshop	Household industry	Total	Registered factory	Unregistered workshop	Household industry
1	2	3	4	5	6	7	8	9
KERALA	**25,657**	**440**	**21,498**	**3,719**	**84,999**	**18,636**	**56,115**	**10,248**
1 Cannanore	1,126	4	1,033	89	2,452	519	1,800	133
2 Kozhikode	1,794	28	1,643	123	4,848	1,009	3,658	181
3 Malappuram	1,804	9	1,250	545	4,739	197	3,321	1,221
4 Palghat	1,739	1	1,698	40	2,559	65	2,436	58
5 Trichur	2,535	11	2,156	368	7,872	2,605	4,666	601

Table 27—*concld.*

1	2	3	4	5	6	7	8	9
6 Ernakulam	3,092	29	2,622	441	8,781	1,064	6,562	1,155
7 Kottayam	1,750	6	1,394	350	4,057	198	3,066	793
8 Alleppey	5,752	99	4,702	951	23,814	4,825	16,211	2,778
9 Quilon	2,979	88	2,482	409	12,349	2,283	8,297	1,769
10 Trivandrum	3,086	165	2,518	403	13,528	5,871	6,098	1,559

Alleppey, Quilon, Trivandrum and Ernakulam districts together account for 68.7 per cent of the total employment under this major head and the majority of the workers in these four districts are engaged in the manufacture of coir and coir products.

(iii) Manufacture of cotton textiles

14. Handloom-weaving, and powerloom weaving mainly account for employment under this major group. Of the 9,786 establishments under this category only 307 are registered factories which provide an employment of 22,967 persons. The establishments under the unorganised sector provide for about three persons per establishment. The proportion is still higher in Trivandrum district. The district wise figures are given in the following table.

Table 28

DISTRIBUTION OF ESTABLISHMENTS ENGAGED IN MANUFACTURE OF COTTON TEXTILES

State/District	Number of units				Persons employed			
	Total	Registered factory	Unregistered workshop	Household industry	Total	Registered factory	Unregistered workshop	Household industry
1	2	3	4	5	6	7	8	9
KERALA	**9,786**	**307**	**5,079**	**4,400**	**54,066**	**22,967**	**21,127**	**9,972**
1 Cannanore	3,081	124	2,070	887	18,801	7,741	9,405	1,655
2 Kozhikode	1,188	32	493	663	5,051	2,151	1,888	1,012
3 Malappuram	301	3	133	165	814	273	263	278
4 Palghat	1,311	17	392	902	4,880	1,473	1,193	2,214
5 Trichur	364	20	98	246	4,081	3,251	521	309
6 Ernakulam	679	13	285	381	3,992	2,149	897	946
7 Kottayam	101	2	79	20	796	330	411	55
8 Alleppey	166	6	112	48	835	383	370	82
9 Quilon	560	9	370	181	3,030	1,676	935	419
10 Trivandrum	2,035	81	1,047	907	11,786	3,540	5,244	3,002

Cannanore and Trivandrum districts together account for 56.5 per cent of the persons employed under this group.

(iv) Manufacture of beverages, tobacco and tobacco products

15. Manufacture of beedi is the main industry under this group and the concentration is in Cannanore district as can be seen from the district wise figures given below. Palghat and Trichur are the other two districts which provide more employment. It may also be seen that most of the establishments fall in the unorganised sector and they provide more employment as against registered factories.

Table 29

DISTRIBUTION OF ESTABLISHMENTS ENGAGED IN MANUFACTURE OF BEVERAGES, TOBACCO AND TOBACCO PRODUCTS

State/District	Number of units				Persons employed			
	Total	Registered factory	Unregistered workshop	Household industry	Total	Registered factory	Unregistered workshop	Household industry

10 Trivandrum	121	..	118	3	205	..	201	4

(v) Manufacture of non-metallic mineral products

16. Tile factories and establishments for the manufacture of earthenware and earthern pottery are the important constituents of this group. They are concentrated in the districts of Trichur, Quilon, Ernakulam and Kozhikode. About one-fourth of employees in this industry are in Trichur district. In Cannanore, Kozhikode, Trichur, Kottayam and Quilon districts majority of the employees work in the organised sector. The district-wise distribution of employment under this group is given below.

Table 30

DISTRIBUTION OF ESTABLISHMENTS ENGAGED IN MANUFACTURE OF NON-METALLIC MINERAL PRODUCTS

State/District	Number of units				Persons employed			
	Total	Registered factory	Unregistered workshop	Household industry	Total	Registered factory	Unregistered workshop	Household industry

9 Quilon	247	52	154	41	5,330	4,807	430	93
10 Trivandrum	413	42	258	113	2,631	870	1,419	342

(vi) Manufacture of wood and wood products, furniture and fixtures

17. These establishments, are naturally confined mainly to the unorganised sector i.e., out of 28,893 workers 19,915 are engaged in this sector. Ernakulam district has the largest number of persons in the manufacture of wood and wood products. Of the 6,511 persons engaged in this industry in the district 5,280 are in the unorganised sector. The district-wise distribution of employment under this group is given in the following table.

Table 31

DISTRIBUTION OF ESTABLISHMENTS ENGAGED IN MANUFACTURE OF WOOD AND WOOD PRODUCTS BY DISTRICTS

State/District	Number of units				Persons employed			
	Total	Registered factory	Unregistered workshop	Household industry	Total	Registered factory	Unregistered workshop	Household industry
	2	3	4	5	6	7	8	9
KERALA	**7,333**	**329**	**4,952**	**2,061**	**23,893**	**8,978**	**15,110**	**4,805**
1 Cannanore	481	34	375	72	2,680	1,659	880	141

Table 31—*concld.*

1	2	3	4	5	6	7	8	9
2 Kozhikode	420	63	326	31	2,864	1,807	974	83
3 Malappuram	322	7	197	118	1,015	151	559	305
4 Palghat	783	11	327	445	2,054	327	832	895
5 Trichur	826	54	587	185	3,612	1,305	1,966	341
6 Ernakulam	1,982	74	886	1,022	6,511	1,231	2,676	2,604
7 Kottayam	521	26	467	28	2,393	859	1,472	62
8 Alleppey	596	2	571	23	1,967	55	1,865	47
9 Quilon	837	34	738	65	3,338	813	2,380	145
10 Trivandrum	565	15	478	72	2,459	771	1,506	182

Ernakulam district alone accounts for 22.5 per cent of the total employment under this group. There is concentration of this industry in Trichur and Quilon districts also. The lowest number of employment provided under this group is in Malappuram district.

18. It will be interesting to analyse, major group-wise, how the employment potential is distributed among the three categories of manufacturing establishments, namely, registered factories, unregistered workshops and household industries. The following table presents a picture of the percentage distribution of the various categories of establishments and their employment potential according to each major group in respect of the important manufacturing establishment groups in the State.

Table 32

PERCENTAGE DISTRIBUTION OF MANUFACTURING ESTABLISHMENTS AND VOLUME OF EMPLOYMENT UNDER EACH MAJOR GROUP

Major group	Number of units			Persons employed		
	Registered factory	Unregistered workshop	Household industry	Registered factory	Unregistered workshop	Household industry
1	2	3	4	5	6	7
20—21	5·31	82·18	12·51	79·38	18·00	2·62
22	3·54	65·56	30·90	28·77	59·28	11·95
23	3·14	51·90	44·96	42·48	39·08	18·44
26	1·71	83·79	14·50	21·92	66·02	12·06
27	4·36	67·53	28·11	31·07	52·30	16·63
28	7·27	90·58	2·15	52·31	46·92	0·77
30	5·45	89·77	4·78	55·45	43·06	1·49
31	7·31	73·59	19·10	65·65	29·34	5·01
32	7·87	55·00	37·13	66·95	21·47	11·58
34	1·45	84·47	14·08	23·98	67·22	8·80
35	14·55	79·48	5·97	78·09	21·26	0·65
36	24·79	75·21	..	94·44	5·56	..
37	15·85	83·06	1·09	75·37	24·52	0·11
38	0·47	85·28	14·25	13·13	76·20	10·67
39	1·42	96·86	1·72	23·21	76·01	0·78

It may be seen that more than 50 per cent of the employment potential is created in the organised sector of the following major groups of industries:-

1 Manufacture of food products;

2 Manufacture of paper and paper products and printing, publishing and allied industries;

3 Manufacture of rubber, plastic, petroleum and coal products;

4 Manufacture of chemicals and chemical products (except products of petroleum and coal).

5 Manufacture of non-metallic mineral products;

6 Manufacture of machinery, machine tools and parts except electrical machinery;

7 Manufacture of electrical machinery, apparatus appliances and supplies and parts;

8 Manufacture of transport equipment and parts.

In other words, the industries under the major groups can be started mainly in the organised sector.

19. Substantial employment (more than 10 per cent) in the household industrial sector is available in respect of the industries in the following major groups:-

1 Manufacture of beverages, tobacco and tobacco products (mainly beedi making);

2 Manufacture of cotton textiles (mainly handloom);

3 Manufacture of textile products (including wearing apparel other than footwear) (mainly coir);

4 Manufacture of wood and wood products, furniture and fixtures;

5 Manufacture of non-metallic mineral products (mainly pottery);

6 Other manufacturing industries.

20. In the case of the industries in the following major groups, employment opportunities (above 50 per cent) are created in the unorganised sector other than household industries, namely, un-registered workshops

1 Manufacture of beverages, tobacco and tobacco products (mainly beedi making);

2 Manufacture of textile products (including wearing apparel other than footwear) (mainly coir and coir products);

3 Manufacture of wood and wood products, furniture and fixtures;

4 Manufacture of metal products and parts except machinery and transport equipment;

5 Other manufacturing industries (mainly jewellery making and stationery articles etc.) and

6 Repair.

TYPE OF POWER OR FUEL USED

21. In table E-II Part-B given as part of this volume and in its subsidiary table, distribution of manufacturing, processing or servicing establishments other than household industries classified by industry, fuel/manual power used and size of employment, is given. Similarly in E-II Part-C table is given the distribution of household industry establishments classified by industry, fuel/power used and size of employment. It may be pointed out in this connection that during the 1961 Census, tabulation was done only in respect of manufacturing establishments and even there the household industry-establishments were not separately tabulated. A comparison between the 1960 and 1970 figures regarding establishments is therefore possible only if the entire manufacturing establishments are taken together.

22. The total number of manufacturing establishments has increased by 79.56 per cent between 1960 and 1970. In the rural areas there is an increase of 89.14 per cent in the establishments whereas in the urban areas, the increase is only 59.85 per cent. The following table presents a comparative picture of the number of manufacturing establishments in 1960 and 1970 by type of fuel used.

Table 33

COMPARATIVE PICTURE OF MANUFACTURING ESTABLISHMENTS BY TYPE OF FUEL DURING 1960 AND 1970

Type of power used		Number of manufacturing establishments	
		1960	1970
1		2	3
TOTAL	**T**	**58,365**	**104,798**
	R	**39,262**	**74,261**
	U	**19,103**	**30,537**
I ALL FUEL	T	5,235	15,820

II MANUAL (NO POWER)	T	53,130	88,978
	R	36,231	64,033
	U	16,899	24,945

T—Total R—Rural U—Urban

It may be seen that the number of establishments using electricity has more than doubled the percentage increase being 186.40. The increase in the establishments using electricity is more rapid in the rural areas, showing an increase of 224.08 per cent whereas in the urban areas, the increase is only 144.04 per cent. While in 1960, the number of establishments utilising electric power was equally divided between the rural and urban areas, in 1970 the number of establishments using electric power is higher in the rural areas than in the urban areas. This is a good trend. It indicates that electrification of the rural areas is going fast and establishments are not concentrated in urban areas but are also dispersing to rural areas. Liquid fuel as a type of power, for establishments has lost ground. Whereas there were 669 establishments using liquid fuel in 1960 their number has come down to 173 in 1970. On the other hand, coal, wood and bagasse as type of power for establishments has increased manyfold between 1960 and 1970. The number of establishments using this kind of power has increased from 27 to 2,567.

23. It will be interesting to note and compare the volume of employment in the various establishments in the State by kind of fuel and power used between 1960 and 1970. The following table gives the comparative picture of the volume of employment classified by the type of fuel for 1960 and 1970.

Table 34

COMPARATIVE PICTURE OF VOLUME OF EMPLOYMENT CLASSIFIED BY TYPE OF FUEL FOR 1960 AND 1970

Type of power used	Volume of employment		Percentage variation
	1960	1970	
1	2	3	4
TOTAL	**394,787**	**522,042**	+ 32·23
I ALL FUELS	101,051	148,065	+ 46·53
(a) Electricity	89,477	137,394	+ 53·55
(b) Liquid	10,019	502	— 94·99
(c) Coal, wood and bagasse	1,067	9,934	+831·02
(d) Others	488	235	— 51·84
II MANUAL (NO POWER)	293,736	373,977	+ 27·32

24. The total number of establishments has increased from 58,365 to 104,798 registering an increase of 79.56 per cent. Even though there is an increase in number of establishments using electric power in all the establishments with different sizes of employment there is a sharp fall in the number of establishment using liquid fuel as power. There is also an increase in the number of establishments operated manually.

Table 35

DISTRIBUTION OF MANUFACTURING ESTABLISHMENTS BY TYPE OF FUEL AND SIZE OF EMPLOYMENT

Type of fuel	Year	Size of employment							
		Total	1 person	2-9 persons	10-19 persons	20-49 persons	50-99 persons	100+ persons	Unspecified
1	2	3	4	5	6	7	8	9	10
TOTAL	**1960**	**58,365**	**20,901**	**33,020**	**2,524**	**1,152**	**383**	**385**	..
	1970	**104,798**	**43,472**	**54,533**	**3,813**	**1,705**	**435**	**490**	**350**
I ALL FUELS	1960	5,235	1,305	2,758	432	368	199	173	..
	1970	15,820	5,759	8,249	798	561	221	197	35
(a) Electricity	1960	4,528	1,079	2,446	383	299	174	147	..
	1970	12,968	4,357	6,896	754	529	212	192	28
(b) Liquid fuel	1960	669	223	296	46	61	24	19	..
	1970	173	109	56	2	6	..	..	..
(c) Coal, wood and bagasse	1960	27	3	12	3	4	1	4	..
	1970	2,567	1,248	1,232	40	26	9	5	7
(d) Other power	1960	11	..	4	..	4	..	3	..
	1970	112	45	65	2	..	..	..	..
II MANUAL (NO POWER)	1960	53,130	19,596	30,262	2,092	784	184	212	..
	1970	88,978	37,713	46,284	3,015	1,144	214	293	315

It may be seen from the above table that single member establishments have increased by more than 100 per cent whereas the number of establishments using more than 100 persons has increased from 385 to only 490, i.e., a mere 27.27 per cent increase. Even in the single member establishments, establishments using electric power has increased almost four times whereas the number of establishments using power employing more than 100 persons has increased from 147 in 1960 to 192 in 1970, the increase being only 30.61 per cent.

25. In the rural areas of the State the number of manufacturing establishments has increased from 39,262 in 1960 to 74,261 in 1970 which works out to a growth of 52.87 per cent. As in the case for all areas, the general trend of increase in the number of establishments run by electrical power and manually operated ones is maintained in the case of rural areas as well. The establishments using liquid fuel has gone down since 1960. There is a sharp increase in the manufacturing

establishments which use coal, wood and bagasse as type of power. The following table gives a comparative picture for 1960 and 1970 of manufacturing establishments in rural areas.

Table 36

DISTRIBUTION OF MANUFACTURING ESTABLISHMENTS BY TYPE OF FUEL USED AND SIZE OF EMPLOYMENT FOR RURAL AREAS

Type of fuel	Year	Size of employment							
		Total	1 person	2-9 persons	10-19 persons	20-49 persons	50-99 persons	100+ persons	Unspecified

	1970	64,033	28,559	31,726	2,265	859	139	218	267

26. The general pattern of increase in manufacturing establishments which use electricity, coal, wood and bagasse as power is followed in urban areas also. Manually operated establishments also show an increasing trend. Single member establishments have doubled since 1960 while establishments engaging 2-9 persons each have increased one and a half times. The number of establishments with 100 persons and more have shown a rise from 134 in 1960 to 171 in 1970 More than half of these big establishments are using electricity for operating them. The following table gives a broad picture of the manufacturing establishments classified by type of fuel used and size of employment in the urban areas of the State.

Table 37

DISTRIBUTION OF MANUFACTURING ESTABLISHMENTS BY TYPE OF FUEL USED AND SIZE OF EMPLOYMENT IN THE URBAN AREAS

Type of fuel	Year	Size of employment							
		Total	1 person	2-9 persons	10-19 persons	20-49 persons	50-99 persons	100+ persons	Unspecified

27. The use of electric power in industry is considered as a measure of progress. The following table gives the distribution of manufacturing establishments by districts using electricity as type of fuel.

Table 38

DISTRIBUTION OF MANUFACTURING ESTABLISHMENTS USING ELECTRICITY 1970

State/District	Number of units			Employment		
	Total	Household industry	Other manufacturing establishments	Total	Household industry	Other manufacturing establishments
1	2	3	4	5	6	7
KERALA	**12,968**	**245**	**12,723**	**137.394**	**385**	**137,009**
1 Cannanore	*800*	*11*	789	*10,451*	*17*	*10,434*
2 Kozhikode	892	2	890	14.236	3	14,233
3 Malappuram	354		354	2,125	..	2,125
4 Palghat	942	3	939	7,970	7	7,963
5 Trichur	1,869	43	1,826	21,122	70	21,052
6 Ernakulam	2,229	55	2,174	29,789	69	29,720
7 Kottayam	1,397	34	1,363	13,368	64	13,304
8 Alleppey	1,591	16	1,575	8,086	21	8,065
9 Quilon	1,759	69	1,690	20,270	109	20,161
10 Trivandrum	1,135	12	1,123	9,977	25	9,952

Out of 12,968 establishments in the State using electricity only 245 are household industries which employ only 385 persons. The rest of the 12,723 establishments employing 137,009 persons are other manufacturing establishments. Ernakulam accounts for 2,229 establishments i.e., 17 per cent of the total in the State. Malappuram has the lowest number of establishments (354). There is no household industry in Malappuram district using electric power. In Kozhikode there are only 2 household industries and in Palghat 3 household industries using electric power.

28. It will be interesting to analyse the use of electric and manual power for industrial establishments under the various major groups . The number of establishments by size of employment using electricity as well as manual power under each major group is presented in the following table.

Table 39

NUMBER OF ESTABLISHMENTS BY SIZE OF EMPLOYMENT

Major group		Size of employment										
		Total	1 person	2-4 persons	5-9 persons	10-19 persons	20-49 persons	50-99 persons	100-299 persons	300-499 persons	500+ persons	Unspecified

E—Electricity M—Manual

Out of 12,968 establishments using electric power 7,752 are in the major group 20-21, manufacture of food products accounting for 60 per cent of the total establishments. 6,968 of these establishments are either single member establishments or having only 2-4 persons per establishment. Only 10 establishments using electric power under this major group have more than 500 employees per establishment. It is also worthwhile to note that in this major group, establishments using electric power and manual labour are more or less equally distributed with an edge for establishments using electric power. Establishments under major group 33 basic metal and alloys industries, major group 35 manufacture of machinery, machine tools and parts except electric machinery, major group 36 manufacture of electrical major apparatus, appliances and supplies and parts have, naturally, more number of establishments using electric power. However, the number of such establishments is not very significant.

28. What kind of fuel is used in household industrial establishments? This will be really

an important study. The following table presents the total number of household industry-establishments in the rural and urban areas by size of employment and type of fuel used.

Table 40

DISTRIBUTION OF HOUSEHOLD INDUSTRIAL ESTABLISHMENTS BY TYPE OF FUEL AND SIZE OF EMPLOYMENT, 1970

Kind of fuel or power used		Total		Size of employment			
		Number	Percentage	1 person	2-4 persons	5-9 persons	10-19 persons
1		2	3	4	5	6	7
TOTAL	**T**	**19,591**	**100·00**	**8,555**	**9,688**	**1,140**	**197**

	R	15,756	94·92	6,706	7,908	961	173
	U	2,928	97·89	1,271	1,467	163	24

Out of a total 19,591 household industrial establishments 18,684, i.e., 95 per cent of the establishments use manual power. 596 establishments (3.04 per cent) use coal, wood and bagasse. A mere 1·2 per cent of the establishments in this category use electric power. Of these 221 are in the rural areas and 24 are in the urban areas. It must be pointed out that the household industries have not taken to electric power in a significant manner in the State.

TRADE OR BUSINESS ESTABLISHMENTS

29. The distribution of trading/commercial establishments classified by the type of business or trade and size of employment is given in table E-III. There are 316,509 such establishments in the State. Of these 304,635 establishments come under division 6—wholesale and retail trade, restaurants and hotels. The remaining 11,874 establishments come under division 8—financing, insurance, real estates and business houses. The distribution of the trading and commercial establishments is given in the following table.

Table 41

DISTRIBUTION OF TRADING AND COMMERCIAL ESTABLISHMENTS

State/District	Number of establishments		
	Total	Trade	Commercial
1	2	3	4
KERALA	**316,509**	**304,635**	**11,874**
1 Cannanore	35,055	33,914	1,141
2 Kozhikode	34,921	33,543	1,378
3 Malappuram	24,281	23,570	711
4 Palghat	19,814	19,011	803
5 Trichur	29,096	27,608	1,488
6 Ernakulam	34,460	32,548	1,912
7 Kottayam	28,077	27,064	1,013
8 Alleppey	34,321	33,222	1,099
9 Quilon	43,104	42,045	1,059
10 Trivandrum	33,380	32,110	1,270

When trade and commerce establishments are taken together, Quilon, Cannanore, Kozhikode, Ernakulam, Alleppey and Trivandrum have a greater share of them than the other districts in the State. Palghat has the lowest number of such establishments. The distribution of the trading establishments alone also follows the same order. However, when commercial establishments alone are considered, Ernakulam district ranks first and Malappuram last. In general it may be said that Trichur, Kottayam, Malappuram, and Palghat districts are not noted for their trade and commerce establishments and that Quilon and Ernakulam are quite prominent for trading and commercial establishments respectively.

30. The distribution of number of establishments, major group-wise, indicating also the total employment under each major group is given in the following table.

Table 42

DISTRIBUTION OF TRADING AND COMMERCIAL ESTABLISHMENTS BY MAJOR GROUPS

	Description	No. of establishments	Persons employed
	1	2	3
	TOTAL	**316,509**	**499,865**
60	Wholesale trade in food, textiles, live animals, beverages, intoxicants	2,952	10,609
61	Wholesale trade in fuel, light, chemicals, perfumery, ceramics, glass	285	1,197
62	Wholesale trade in wood, paper, other fabrics, hide and skin and inedible oils	449	1,803

Table 42—*concld.*

	1	2	3
63	Wholesale trade in all types of machinery equipment including transport and electrical equipment	28	96
64	Wholesale trade in food and miscellaneous manufacturing	1,495	4,815
65	Retail trade in food and food articles, beverage, tobacco and intoxicants	141,685	184,993
66	Retail trade in textiles	13,072	22,624
67	Retail trade in fuel and other household utilities and durables	8,346	13,082
68	Retail trade in others	43,020	60,388
69	Restaurants and hotels	93,303	153,627
80	Banking and similar type of financial institutions	5,426	25,991
81	Providents and insurance	133	1,907
82	Real estate and business services	3,975	12,967
83	Legal services	2,340	5,766

45 per cent of these establishments are engaged in retail trade in food and food articles, beverages tobacco and tobacco products and intoxicants, providing employment to 184,993 persons. Restaurants and hotels form very nearly 30 per cent of these establishments. 93,303 establishments under this category employ 153,627 persons. Establishments engaged in retail trade other than food and food articles, textiles, fuel and other household utilities number 43,020 (13.59 per cent) employing 60,388 persons. Under commercial establishments banking and similar types of financial institutions occupy the main place with 5,426 numbers. Real estates and business houses account for 3,975 establishments and legal services 2,340.

31. The following table presents the distribution of establishments by size-class and major group under Division 6, trading establishments including restaurants and hotels.

Table 43

I—Number II—Persons employed

Single member establishments and establishments employing 2-4 persons account for 99 per cent of the total establishments in this division and employ about 90 per cent of the workers under this division. Analysing major group-wise, the largest employment is provided by single member establishments under major group 65, retail trade in food and food articles, beverages, tobacco and intoxicants followed closely by establishments employing 2-4 persons per establishment under major group 69, restaurants and hotels. Single person establishments along with establishments employing 2-4 persons provide employment to 126,533 persons under this major group. There are only 35 establishments employing more than 50 persons per establishment providing employment to 2,678 persons.

32. The following table presents the employment size and major group-wise distribution of commercial establishments in the State.

Table 44

DISTRIBUTION OF COMMERCIAL ESTABLISHMENTS BY SIZE OF EMPLOYMENT

Description		Size of employment							
		Total	1 person	2-4 persons	5-9 persons	10-19 persons	20-49 persons	50-99 persons	100+ persons

I—Number II—Persons employed

The largest employment is provided by establishments under major group 80, banking and similar types of finances. Even here it is only the establishments having 2-4 persons per establishment, which provide the largest number of employments (6,669).

OTHER ESTABLISHMENTS

33. Table E-IV presented as part of this publication gives the distribution of establishments (other than manufacturing, processing or servicing or business and trade establishments) by size of employment. The total number of establishments and the number of persons employed under the various divisions are given in the following table.

Table 45

DISTRIBUTION OF OTHER ESTABLISHMENTS BY MAJOR DIVISIONS

Division		Number	Persons employed
1		2	3
TOTAL		**112,419**	**494,243**
0	Agriculture, hunting, forestry, and fishing	1,001	1,827
1	Mining and quarrying	2	21
4	Electricity, gas and water	349	1,791
5	Construction	43	784
7	Transport, storage and communications	7,939	37,916
9	Community, social and personal services	103,085	451,904

Out of a total of 112,419 establishments under this category 103,085 come under Division 9 community, social and personal services employing 451,904 persons. In other words very nearly 91.43 per cent of the persons employed under this category come under Division 9. Next to this division maximum employment is provided by division 7 transport, storage and communications employing 37,916 persons (7.67 per cent) in 7,939 establishments.

34. The following table presents the total number of establishments under the various major groups and the employment provided under each group.

Table 46

DISTRIBUTION OF OTHER ESTABLISHMENTS BY MAJOR GROUPS

Description		No. of establishments	No. of persons employed
1		2	3
TOTAL		**112,419**	**494,243**
00	Agricultural production	1	13
01	Plantation	1	1
02	Live-stock production	285	829
03	Agricultural services	709	975
04	Hunting, trapping and game propagation	1	..
06	Fishing	4	9
19	Other mining	2	21
40	Electricity	47	690
41	Gas and steam	4	79
42	Waterworks and supply	298	1,022
50	Construction	23	737
51	Activities allied to construction	20	47
70	Land transport	1,265	13,595
71	Water transport	53	607
72	Air transport	5	139
73	Services incidental to transport	38	197
74	Storage and warehousing	2,561	3,942
75	Communications	4,017	19,436
90	Public administration and defence services	9,963	124,418
91	Sanitary services	12	21
92	Education, scientific and research services	20,463	185,558
93	Medical and health services	10,439	38,235
94	Community services	29,619	49,339
95	Recreational and cultural services	7,715	16,324
96	Personal services	22,189	27,896
98	International and other extra territorial bodies services	4	8
99	Services not elsewhere classified	2,681	10,105

From the point of view of number of establishments community services ranks first with 29,619 establishments followed by personal services (22,189). But from the point of view of the professional employment community services ranks third with 49,339 persons and personal services ranks fifth with 27,896 persons employed. Education, scientific and research services provide the largest number of employment (185,558) through 20,463 establishments. Public administration and defence services provide employment for 124,418 through 9,963 establishments.

35. While comparing districts, Cannanore district has the largest number of other establishments with 14,022. But Ernakulam district has the largest number of employment 72,808. Palghat district has the lowest number of establishments (8,510) while Malappuram district has the lowest rank in the number of employment (29,564). Among the districts of the State Trivandrum has the largest number of employment under major group 90—Public Administration and defence services—with 25,555 persons. Quilon district, when compared to other districts, has the highest number of persons employed in education, scientific and research services.

36. Amongst the divisions discussed above, as has been pointed out earlier, the maximum employment is provided under Divisions 7 and 9, the rest of the divisions provide less than 2,000 employment each. It is proposed to discuss the distribution of establishments under these two Divisions 7 (transport, storage and communications) and 9 (community, social and personal services) major group-wise and by size of employment. This distribution is presented in the following table.

Table 47

DISTRIBUTION OF OTHER ESTABLISHMENTS BY SIZE OF EMPLOYMENT

Description	Total	Size of employment: One person	2-4 persons	5-9 persons	10-19 persons	20-49 persons	50-99 persons	100+ persons
1	2	3	4	5	6	7	8	9
DIVISION—7 TOTAL	**37,916**	**2,911**	**9,721**	**3,659**	**3,106**	**3,954**	**2,827**	**11,738**
70 Land transport	13,595	467	1,258	815	1,148	1,049	1,038	7,820

72 Air transport	139	..	4	..	10	70	55	..
73 Services incidental to transport	197	15	39	21	51	71	..	..
74 Storage and warehousing	3,942	2,003	1,025	369	226	219	..	100
75 Communications	19,436	408	7,345	2,416	1,620	2,459	1,620	3,568
DIVISION—9 TOTAL	**451,904**	**57,837**	**59,696**	**64,946**	**73,591**	**91,103**	**48,656**	**56,075**
90 Public Administration and defence services	124,418	2,176	6,682	16,192	19,056	30,711	17,295	32,306
91 Sanitary services	21	10	3	8	..	..	..	..
92 Education, scientific and research services	185,558	4,145	13,849	35,553	42,824	50,822	25,203	13,162
93 Medical and health services	38,235	5,424	9,057	3,755	4,434	4,743	4,390	6,432
94 Community services	49,339	21,175	16,078	3,613	2,972	2,890	1,081	1,530
95 Recreational and cultural services	16,324	5,709	2,386	3,483	3,051	861	513	321
96 Personal services	27,896	18,057	8,835	678	177	89	60	..
98 International and other extra territorial bodies services	8	3	..	5	..	..	..	..
99 Services not elsewhere classified	10,105	1,138	2,806	1,659	1,077	987	114	2,324

The largest number of employment is provided under Division 7 by establishments having more than 100 persons per establishment. Maximum employment is provided by establishments under major group 70 (land transport) and by establishments having more than 100 employees. Major group 75 (communications) provides the largest number of employment, the maximum employment under this category being provided by establishments in size class with 2-4 persons.

As far as Division 9 is concerned which actually provides for the largest employment maximum employment is provided under size class 20-49 persons employing 91,103 persons. Out of this 50,822 persons are employed under major group 92 (education, scientific and research services). Out of 254 establishments in size class 100 persons and above, 131 are under major group 90 (public administration and defence services) employing 32,306 persons.

ANNEXURE II

INSTRUCTIONS TO ENUMERATORS FOR FILLING UP THE HOUSELIST AND ESTABLISHMENT SCHEDULE

Census is a national undertaking of great importance, indispensable to intelligent and efficient public administration apart from the other multifarious ways it serves the scholar, the businessman, the industrialist, the country's planners, the electoral authorities etc. Census has become a regular feature in every progressive country, whatever, be its size and political set-up and it is conducted at regular intervals to fulfil well-defined objectives.

2. The job entrusted to you viz., the housenumbering and houselisting is an essential preliminary step to the population census. Apart from mere listing of houses, you will be collecting some essential data on housing, as also separately on manufacturing training and service establishments which will be useful to the country's planners. You have, therefore, an important role to play. The quality and quantiy of your contribution depends on how well you apply yourself to this task, understand the instructions thoroughly and carry out your responsibilities with the care that it demands.

3. You will be required to prepare lay-out sketches showing the location of houses within the area allotted to you and number all the houses, residential or otherwise and list them and fill up some essential particulars in the schedules given to you. The instructions for housenumbering, filling up of houselist and establishment schedule are given in this booklet in three parts. The instructions for filling up the Houselist Abstract are given as the appendix.

PART I

HOUSENUMBERING AND PREPARATION OF NOTIONAL MAPS

4. The population census is taken by visiting each and every house and hence it is essential to assign numbers to all houses in Kerala before the census is taken. Although houses have been numbered in municipal and non-municipal areas by the Municipalities and Panchayats respectively, the numbering is not in conformity with the pattern accepted for census purposes. Hence it is proposed to conduct fresh numbering of all houses in a systematic way for the purpose of census, whether the area is municipal or non-municipal. This work has to be done carefully and efficiently.

Rural Areas

5. In the rural areas of the State, kara/muri/desom will be treated as the territorial unit for purposes of housenumbering and houselisting. Where a village does not consist of desoms, karas or muris the village itself will be territorial unit of operations. Before the actual painting of house numbers an essential step which you have to do is to prepare a rough notional map of the entire village. Buildings in each territorial unit will be numbered consecutively starting from 1 and ending with the last building in the same unit.

6. You would have prepared a detailed notional map of the revenue village previously. But the notional map now required to be prepared is different from the one prepared before as this will cover more details. In this detailed sketch the emphasis is mainly on the lay-out of the houses on the village site. The sketch should show all the roads, streets and cart tracks. The names of streets, if any, should be shown on these sketches. All topographical details, important features and public buildings should be prominently shown. In addition to this, the name of taluk, name of village, name of kara/muri/desom, their boundaries etc. with the name and signature of the person who prepared the map, should also be shown. This map need not be drawn to scale. But if a survey map of suitable scale is already available it is desirable to use a copy of the same for marking houses. Then every building or house should be located on this sketch. Since all the buildings have to be marked in the sketch it should be sufficiently large. But it may be difficult to show all the houses in one map. Under such circumstances the territorial unit may be divided into two or three segments and separate maps may be prepared for each segments and houses located. The division of territorial unit into segments should, as far as possible, conform to natural boundaries. The maps of such divided areas should be clearly demarcated and assigned letters (a), (b), (c) etc. After this, separate map sufficiently large in size, for each segment should be prepared and houses located. In this sketch also topographical details should be shown. To identify these segments they may be indicated with the same letters (a), (b), (c) etc. originally given to them. Even if the territorial unit is divided into two or three segments the housenumbering should run consecutively from the first segment to the last segment and each segment should not be given separate numbers commencing from 1.

7. If the territorial unit is divided separate maps have to be prepared for each segment for showing housenumbers and hence, as far as possible, the territorial unit need not be divided.

8. In some areas private forests will be included in the village. The village authorities have to assign numbers in these areas also. In the reserve forests and private forests which lie outside the village boundaries the forest officials will have to attend to housenumbering. In the reserve forests, forest range will be the territorial unit, but if the range is situated in several taluks the portions lying in each taluk should be given A, B, C numbers along with the code numbers. In each area separate schedules will be filled in for the portion of forest lying in each taluk. But the numbering is consecutive to its previous portions. In some ranges forests may lie within and outside the village boundaries. In numbering the houses in a forest range included within the village boundary, the village code number should also be shown in brackets along with the code number of the range.

9. There may be clusters of habitations spread out in the forest. These clusters should be shown on the lay-out sketch. The name of the cluster should also be written if there be one. If there is no name then it would be necessary to identify it with reference to any known permanent features such as a hill stream, a range of hills, road and so on. After drawing the boundaries of such clusters on the lay-out sketch the location of each of the houses should be indicated on it and numbers assigned to each house.

Urban Areas

10. The preparation of notional maps and the house numbering sketches in urban areas should essentially follow the same procedure as in the rural areas. In respect of Corporations, Municipalities, Cantonments and Townships, each ward should be treated as a territorial unit. But in respect of other towns,

41—1 Census, Kerala/72

he kara, muri or desom included in the town should be treated as a ward.

11. The Draftsman of the Municipal Administration might have already prepared town maps perhaps even to scale and these may come extremely useful. It has been found from experience that the boundaries of towns are often times loosely defined and not properly demarcated giving rise to several doubts regarding the areas lying on the outskirts of towns. It is important that the map should clearly indicate the boundaries by means of definite survey numbers and also other permanent features. Sometimes one side of the road falls within the town limits and the other side excluded as it may be outside the defined boundary of the town. All these should be carefully verified before the maps are certified to be correct by the supervising authorities. Cases of suburban growth adjoining the limits of a town and such cases as one side of a street falling outside the limits of a town should be brought to the notice of the superior officers who will have to ensure that such built up areas are properly accounted for within he administrative units in which they fall.

12. A detailed notional map of each town showing the boundaries of wards etc. was prepared previously. In the map which you are going to prepare now the main roads, streets, lanes, railway lines, rivers and other topographical details and boundaries should be shown with reference to the location of houses. In urban area it may not be possible to show all the houses in one sketch. In such cases the sketch may be divided into 2 or 3 segments and separate sketches may be prepared for each segment. Each such portion should be indicated with letters (a), (b), (c), etc. along with the ward number. In such a case a ward map showing the segments and separate lay-out map for each one of the segments may be prepared and in each segment the buildings and houses be clearly located and housenumbers shown. Here again important buildings should be indicated such as town hall, large office buildings, court building, post office, hospital, school, church, market building etc.

Method of Showing Houses in the Notional Map

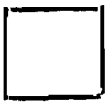

13. Houses may be divided into 'pucca' and 'kachha'. It is difficult to evolve a comprehensive definition of the terms 'pucca' and 'kachha' houses to cover diffierent patterns of structures all over the country. The categorisation of the houses as 'Pucca' or 'Kachha' for the purposes of depicting them on the lay-out sketches is purely to facilitate identification. Also as 'Kachha' houses are not likely to be long lasting any one referring to the layout sketches a few years later can easily distinguish the settlement areas which are likely to have undergone a change.

14. For the purpose of the preparation of lay-out sketches a 'Pucca' house may be treated as one which has its walls and roof made of the following materials:—

Wall material :	Burnt bricks, stone (duly packed with lime and cement), cement concrete or timber etc.
Roof material :	Tiles, galvanised corrugated iron sheets, asbestos cement sheets, timber etc.
	Reinforced brick concrete.
	Reinforced cement concrete.

15. Houses, the walls and/or roof of which are made of materials other than those mentioned above such as unburnt bricks, bamboo, mud, grass, reeds, thatch etc. or loosely packed stone, burnt bricks etc. may be treated as 'Kachha' houses.

16. It will be of advantage if the 'Pucca' and 'Kachha' houses are shown by some conventional signs like a square for a 'pucca' house and a triangle for a 'Kachha' house, further depicting on them as residential or non-residential as follows:

Pucca residential house 

Pucca non-residential house 

Kachha residential house 

Kachha non-residential house 

17. When once the location of every building/house is fixed on the plan it will be a simple matter to decide on a convenient method of numbering the building/house in one series following certain principles. No hard and fast rule can be laid as to the direction in which the house numbers should run i.e., left to right or in a clock-wise order or north-east to south-west and so on. Much depends on the lay-out. So long as some convenient and intelligible order is followed it should be alright. The numbers allotted to each house should be marked on the sketch and with the help of arrow marks at convenient intervals, the direction in which the house numbers run should be indicated. This is particularly important when streets cut across one another and the housenumbering series along a street get interrupted. It will be of advantage if the numbers are roughly marked in pencil on this sketch and later verified with the actual state of things on ground to see if the order of numbering indicated on the sketch would be convenient or if any slight changes are needed, for after all the sketch is only a rough one and the actual state of buildings on ground may suggest a more intelligible order of numbering at some places.

Numbering of Buildings and Census Houses in Rural as well as Urban Areas

18. You have to give numbers to "Buildings" and "Census houses" in all areas. Instructions below will guide you to determine what a 'Building' and a 'Census house' are for the purpose of houselisting.

Building

19. A 'building' is generally a single structure but sometimes made up of more than one component unit, which are used or likely to be used as dwellings (residences) or establishments such as shops, workshops, factories etc., or as godowns, stores, cattles sheds, etc. or in combination with any of these such as, shop-cum-residence or workshop-cum-residence etc. Sometimes a series of different buildings may be found along a street which are joined with one another by common walls on either side looking like a continuous structure. These different units are practically independent of one another and likely to have been built at different times and owned by different persons. In such cases though the whole structure with all the adjoining units apparently appears to be one building, each portion should be treated as separate building and given separate numbers.

20. If there are more than one structure within an enclosed or open compound (premises) belonging to the same person e.g. the main house, the servant's quarters, the garage etc. only one building number should be given for this group and each of the

constituent separate structures assigned a sub-number like 1 (1), 1 (2), 1(3) and so on provided these structure satisfy the definition of a "Census house " given hereafter.

21. The buildings should be numbered as follows:

(i) If the locality consists of a number of streets in a village, the buildings in the various streets in a village, should be numbered continuously. Streets should be taken in uniform order from north-east to south-west. It has been observed that the best way of numbering the buildings is to continue with one consecutive serial on one side of the street and complete the numbering on that side before crossing over to the end of the other side of the street and continuing with the serial, stopping finally opposite to where the first number began.

(ii) In the urban area, the numbering will have to respect the axis of the street and not any pre-conceived geographical direction: like north-east etc.

(iii) Arabic numerals (1, 2, 3.....) should be used for building numbers.

(iv) A building under construction, the roof of which has been completed should be given a number in the serial.

(v) If a new building either 'Pucca' or 'Kachha' is found after the housenumbering has been completed or in the midst of buildings already numbered, it should be given a new number which may bear a sub-number of the adjacent building number e.g. 10/1.

Note: These should *not* be numbered as 10 (1) or 10 (2) etc., as such numbering would apply to census houses within the same building. On the other hand, 10/1 would mean a separate building that has come up after building number 10.

Census House

22. A 'Census House' is a building or part of a building having a separate main entrance from the road or common courtyard or stair-case etc. used or recognised as separate unit. It may be inhabited or vacant. It may be used for a residential or non-residential purpose or both.

23. If a building has a number of flats or blocks which *are independent of one another* having separate entrances of their own from the road or a common stair-case or a common court-yard leading to a main gate, they will be considered as separate census houses. If within a large enclosed area there are separate buildings, then each such building will be one or more separate census houses. If all the structures within an enclosed compound are together treated as one building then each structure with a separate entrance should be treated as a separate census house.

24. Each census house should be numbered. If a building by itself is a single census house then the number of the census house is the same as the building number. But if different parts or constituent units of a building qualify to be treated as separate census houses, each census house should be given a subnumber within brackets to the building number. For example if there are two census houses in building number 10 the Census numbers assigned to the constituent units are 10 (1) and 10 (2). Similarly if there are three census houses in building number 11 the numbers assigned to these census houses are 11 (1), 11 (2), and 11 (3).

25. The order in which census houses within a building have to be numbered should be continuous, preferably clockwise or in any convenient manner if it is difficult to do it clockwise.

26. The definition of census house may sometimes be difficult of application in its literal sense in the context of varying patterns of structures and their usage. For example, in cities and towns, one does come across a situation when a flat in the occupation of one household as residence may be made up of 4 rooms or so and all the rooms may have direct entrance from a common court-yard or a stair case. In terms of the definition of the census house each of these rooms having entrances from the common stair-case etc., may qualify to be treated as census houses. But it does not realistically reflect the situation of a number of houses. In such case 'singleness' of use of these rooms along with the main house by the household should be taken into account and the entire flat comprising 4 rooms should be treated as one census house only and assigned one number. If, on the other hand, each one of these rooms had been separately occupied by independent households and if each portion had separate main entrance then each will be justified to be treated as a separate census house. In a hostel building even if a door of each room in which an inmate lives open to a common verandah or a staircase, as it happens almost invariably, the entire hostel building may have to be treated as one census house only.

27. It is usual to find in municipal towns/cities, that every site whether built upon or not is numbered by the municipal authorities on property basis. Such open sites even if they are enclosed by a compound wall should not be listed for census purposes. Only where a structure with four walls and a roof has come up, should be treated as a census house and listed. But in some areas the very nature of construction of houses is such that, for example, a conical roof almost touches the ground and an entrance is also provided and there may not be any wall as such. Such structures should of course be treated as buildings and houses numbered and listed.

Household

28. A 'household' is a group of persons who commonly live together and would take their meals from a common kitchen unless the exigencies of work prevented any of them from doing so. There may be one member household, two member household or multimember household. For census purposes each one of these types is regarded as a 'household'. Again, there may be a household of persons related by blood or household of unrelated persons; the latter are boarding houses, hostels, residential hotels, orphanages, resque homes ashrams etc. These are called institutional households.

29. Each household will be listed according to the instructions that follow (See paragraphs 50 & 51) and distinguishing number allotted to each household. As each household will be related to the physical structure of a census house, the household number as such need not be painted on the door of each census house. Only the census house number will be painted.

Mode of Assigning Building And Census House Numbers

30. Every building number should be prefixed with the letter 'C' followed by a hyphen and code number of the territorial unit (kara/ muri/desom/ward/forest range) followed by a hyphen again. The actual number of the building will be painted after the last hyphen.

Illustration:

C-1-8

In this illustration

C stands for Census

1 denotes the code number of the territorial unit and

8 denotes the number of the building

If there are more than one census house in a building indicate each census house by separate sub-numbers.

For example if there are three census houses in a buiing number C-1-8 then the census numbers assigned for the first census house is C-1-8(1), for the second census house C-1-8(2) and for the third census house C-1-8(3). In addition to the above indicate within brackets the total number of census houses in the

building along with the first census house number. This will enable the enumerator to know the number of census house in that building. This should be painted separately a little away towards the right, as the next line of the number of the census house so as to avoid its being treated as part of the census house number which it is not.

Illustration:

C-1-8(1)

(1—3)

Where there is only one census house in a building nothing more than the number of the building need be painted. It may be remembered that if a building consists of more than one census house it is not the building number alone that is to be painted. On the other hand, the number of the census house which includes the building number is painted on the doors of the house. The following example will be helpful to distinguish clearly the relation between the building and the census house.

	Building No.	*Census house No.*
Suppose a building number 8 consists of only one census house	C-1-8	C-1-8
Suppose the building number 8 has 3 census houses	C-1-8	C-1-8(1) (1-3) C-1-8-(2) C-1-8-(3)

31. From the above instructions it will be clear that you need paint only the census house number. But in Column 3e2ne. the houselist, the building number should also be written. Th of number has to be painted in coal-tar at the entrance ofe the building either on the wall or door. In the case oj huts, which have only wall and door with cadjan leaves or grass, it may not be possible to paint the number on them. A small piece of cardboard will have to be used for painting the number in those cases and the same should be handed over to the head of the household with instructions to keep it carefully. If any wooden plank is supplied by the house owner the number will be painted on that instead of on the cardboard. Take care to see that the numbering is done neatly and legibly. Coal-tar, brush, card-board, chalk etc. will have to be purchased by the enumeretor for this purpose.

32. At the time of housenumbering you may come across house numbers painted on the doors of the census houses during 1961 Census. While giving fresh numbers for 1971 Census, the numbers given for 1961 Census should be struck off by drawing a bold line across the number painted in 1961. But the house numbers given by the authorities of Panchayats or Municipalities should on no account be tampered with.

PART II

HOUSELISTING

33. After the preparation of notional maps and the numbering of the houses the next step is to list them in the prescribed form.

34. At the 1971 Census a houselist schedule and an establishment schedule will be canvassed on universal basis. Specimen forms of the schedules to be so canvassed are given at the end of this book. The following instructions will guide you in filling the houselist.

35. On the top of the houselist form, provision is made to note the name of the district with code number; name of the taluk/ island with code number; name of the village/town/forest division with code number; name or number of ward/name of kara/muri/desom/forest range with code number etc. The entries here are to be filled by you very carefully. The location code is the method by which every village or town in any taluk in every district of a State is identified by a combination of numbers. For this purpose every district, taluk/island, village/town/forest division special area; ward/kara/muri, desom/forest range in the State would have been allotted code numbers. Your Charge Superintendent or the Superviser would have indicated to you the code numbers pertaining to your area. You shall have to enter them in the relevant spaces against the names of various jurisdictional units. Please note that the town number is to be given in roman figures to distinguish it from the village number which will be indicated by arabic numerals. The entries not relevant to your area may be struck off. Location code should be filled in all pages of the houselist. As far as Kerala State is concerned block numbers need not be filled in.

Note: PLEASE DO NOT WRITE ANYTHING IN SPACE ENCLOSED BY DOTTED LINES IN COLUMN NUMBERS 4, 5, 6, 10 & 12. THESE ARE MEANT FOR WRITING CODE NUMBERS IN THE TABULATION OFFICES.

Col. 1. Line Number

36. Every line in the houselists is to be numbered seriall . The line numbers should be continuous for your area (ward, kara, muri, desom/forest range special area).

Col. 2. Building Number

37. Before you start houselisting, every building will bear a number. The number which has to be assigned in the layout sketch and marked or put on the building should be written in this column. Please see the definition of buildings given in para 19 of this instructions. If all the building has a well-known name, then the name of the building should also be recorded in this column in addition to the number of the building.

Col. 3. Census House Number

38. The attributes of a census house have been described earlier (vide para 22 of these instructions) and in accordance with those instructions you would have allotted census house number to a building or to a part of a building.

39. If there is only one census house in a building then the number of the census house will be the same as the building number. It will be repeated in this column.

40. If there be more than one census house in a building (as mentioned in paras 23 & 24) e. g. in building No. 10 there are three census houses—then against the first census house you will record "10 (1)" for the second "10 (2)" and for the third "10 (3)" in this column. Col. 2, the building number, will be entered in the first line only against which census house No. 10 (1) would have been mentioned in col. 3. Col. 2 will remain blank against census house number 10 (2) and 10 (3).

Note: You should *not* indicate them as 10/1 or 10/2 etc. as that would be followed in the allotment of a number to a new building not previously numbered that has come up after building No. 10.

Cols. 4 and 5. Predominant construction material of Census house

41. In these columns you will have to note the materials of wall and roof.

Col. 4. Material of wall

42. Under this column the material out of which the major portion of the walls of the house are made, as for example, grass, cadjan leaves, leaves, reeds, bamboo, unburnt bricks, mud, burnt bricks, stone, cement concrete, timber etc., should be written. Where a house consists of separate structures each having walls made out of different materials the material out of which the walls of the main portion of the house mostly used for living or sleeping are made, are to be recorded.

Col. 5. Material of roof

43. The material out of which most of the outer roofs, exposed to the weather and *not the ceiling* is made i.e. tiles, cadjan leaves, thatch, corrugated iron, zinc or asbestos, cement sheets or concrete, slate, tiles etc., should be written. In the case of a multi-storeyed building the intermediary floor or floors will be the roof of the lower floor. If the roof is mainly made of bricks, stones etc., and has a mud plaster, cement plaster or lime plaster exposed to the sky, the material of roof in such cases will *not* be "mud", "cement" or "lime" respectively but it will be "bricks", "stone" etc., which constitute the fabric of the roof.

Col. 6. Purpose for which Census house is used, e.g., residence, shop, shop-cum-residence, business, factory, workshop, workshop-cum-residence, school, bank, commercial house, office, hospital, hotel etc. or vacant.

44. The actual use to which a census house is put is to be recorded here keeping in mind the broad categorisation such as: (these are purely illustrative):

(i) Residence, shop-cum-residence, workshop-cum-residence;

(ii) Factory, workshop and workshed etc. "Factory" should be written if it is registered under Indian Factories Act. A 'workshop' is a place where any kind of production, repair or servicing goes on or where goods and articles are made and sold, but is not large enough to be a factory. It is not necessary that some machinery should exist. Even a place where some household industry (as defined in para 85) such as say, hand-loom weaving, bidi rolling, papad making, toy making etc., is carried on, it should be noted as a workshop here. If it is also used as a residence it should be noted as work-shop-cum-residence. Make searching enquiry if a house is used for the purpose of production of any goods or engaged in some processing or repairing even on a household industry basis as these are not likely to be apparent to a casual observer.

(iii) Shop: A shop is a place where articles are bought and/or sold for cash or for credit.

(iv) Office, business house, bank etc. Business house is that where transactions in money or other articles take place.

(v) Hospital, dispensary, health centre, doctor's clinic etc.

(vi) School, and other educational institutions.

(vii) Hostel, sarai, dharmasalas, tourist home, inspection house etc.

(viii) Restaurant, sweetmeat shop and eating place. A sweetmeat shop where sweetmeat is being made and sold should be recorded as a workshop.

(ix) Places of entertainments such as cinema house, theatre, community gathering etc.

(x) Places of worship, e.g. temple, church, mosque, gurudwara etc.

(xi) Institution such as orphanage, rescue home, jail, reformatory, children home etc.

(xii) Others e.g. cattle-shed, garage, godown, laundry, petrol bunk, passenger shelter etc., the exact use has to be fully described.

45. If the census house is found vacant i.e. if no person is living in it at the time of enumeration and it is not being used for any of the purposes listed above, write "vacant" in this column. If a census house is locked because the occupants have gone on journey or pilgrimage, then it may not be treated as "vacant" but the use to which it is put recorded here and the fact that the occupants have gone on a journey/pilgrimage noted in the remarks column as "house locked, occupants on journey/pilgrimage etc.

Note: The reason for vacancy such as dilapidated, under repair, incomplete construction, want of tenant etc. may be recorded in the remarks column.

Col. 7. Is it used wholly or partly as an Establishment? Yes or No. If yes, enter further details in the Establishment schedule and indicate the serial number of that entry here (within brackets).

Definition of an Establishment

46. An 'establishment' is a place where goods are produced or manufactured not solely for domestic consumption or where servicing and/or repairing is done such as factory, workshop or household industry or servicing and/or repair workshop or a place where retail or wholesale business is carried on or commercial services are rendered or an office, public or private or a place of entertainment or where educational, religious social or entertainment services are rendered. It is necessary that in all these places one or more persons should be actually working. Thus an estabishment will cover manufacturing, trade and other establishments where people work.

Examples

A factory or a workshop or workshop-cum-residence or a trading or other establishment, i.e. where some kind of production, processing, repair or servicing is undertaken or where goods or articles are made and sold, or some business is being carried on such as a grocery shop, a pan shop, restaurant, bank, hotel or an office is functioning such as Government office, commercial office, or an institution if being run such as school, college, hospital, dispensary, etc. and where one or more persons are working. An establishment may occupy a census house or a group of census house or a part of a census house.

47. This column applies only in cases where the census house is used as an establishment as defined above. Some times the act of production, processing or servicing may not be apparent especially if carried on as a household industry such as e.g. when a handloom is located inside a house and is not in operation at the time of enumerator's visit or in some other type of household industry such as papad making or toy manufacturing or bidi rolling etc. is done, say in some interior portion of the house. You should make searching enquiries to see if any production, processing or servicing is done or any business is carried on or any institution is being run in any part of the house not readily seen from outside. If "Yes" is recorded here, go to the establishment schedule, and fill up

further particulars in that schedule. Please fill in the serial number of the entry *within bracket* as given in the establishment schedule in this column after "yes". If it is not used as an establishment schedule record "No" in this column.

48. It is possible that some kind of production or processing is undertaken in the house by the members of the household for purely domestic consumption, e.g., handpounding of rice, preparation of spices like tumeric, chillies, etc. or say, knitting of woollen garments, embroidery work, loin-loom weaving and so on, meant for household use only and not for sale. In such cases, the house should not be treated as an "establishment".

Cols. 8 to 16. If the building is used wholly or partly as a residence

49. These columns will relate to census houses which are used wholly or partly as a residence. If, however, a particular census house is not being used for residential purpose at all even partly as will be evident from entry in col. 6 put "X" in each of columns 8 to 16.

Col. 8. Household number

50. A household is a group of persons who commonly live together and would take their meals from a common kitchen unless the exigencies of work prevented any of them from doing so. It may be made up of related or unrelated persons. A cook or a servant living in the house of his employer and taking his food there is part of that household. A hostel where a number of unrelated person live together is an institutional household. So also a jail.

51. There may be more than one household in a census house. Each household should be given a separate number. This can be done by using the alphabets as (a), (b), (c) etc. as affixes to the census housenumber. e.g. If building No. C-1-2 is also a census house and has 3 households the household numbers will be C-1-2(a), C-1-2(b), C-1-2 (c). If building No. C-1-4 has 2 census houses the houses will be numbered as C-1-4-(1) and C-1-4-(2). If within these houses there are respectively 3 and 2 households then they will be numbered as C-1-4(1) (a), C-1-(4)(1) (b), C-1-4 (1) (c) and C-1-4(2) (a) and C-1-4 (2) (b) respectively. If, however, building No. C-1-3 is also a census house and has only one household the household number to be entered in this column will be C-1-3 only. In the above cases of household numbers C-1-2 (b) and C-1-2 (c), C-1-4(1) (b), C-1-4(1) (c) and C-1-4-(2) (b), there will be no entries against them in columns 3 to 7. Columns 3 to 7 will be filled for the entire census houses, C-1-2 (a), C-1-4 (1) (a) and C-1-4(2) (a) as the case may be. In the above example there is no need to repeat the entries in columns 3 to 7 against the census households C-1-2(b). C-1-2 (c), C-1-4(1) (b), C-1-4 (1)(c) and C-1-4 (2) (b).

Column 9. Name of the head of household

52. The name of the head of each household should be written. The head of the household for census purposes is a person who is recognised as such in the household. He is generally the person who bears the chief responsibility for the maintenance of the household and takes decisions on behalf of the household. The head of the household need not necessarily be the eldest male member but may even be a female or a younger member of either sex. You need not enter into any long argument about it but record the name of the person who is recognised by the household as its head. In the case of institutions like boarding houses, messes, chummeries which should be regarded as households of unrelated persons living together and which may be called institutional households, the manager or superintendent or the person who has administrative responsibility or who by common consent is regarded as the head' should be recorded as the head of the household. In the case of institutional households write 'INST' within brackets after the name of the head of household. In the case of an absentee *de jure* head the person on whom the responsibility of managing the affairs of the household falls at the time of enumeration should be regarded as the head.

Col. 10. If S.C. or S.T. write name of the caste/tribe

53. You will have been furnished with a list of S.C. and S.T. notified for your area. Ascertain if the head of the household belongs to Scheduled Caste or Scheduled Tribe and check whether the Caste/Tribe is scheduled as per your list. If so, for Scheduled Caste write the name of the Caste and record 'SC' within brackets, for Scheduled Tribe write the name of the tribe and record 'ST' within brackets, for others write 'X'. For a household belonging to a Scheduled Caste, check the religion of the head of the household. He or she should be either a Hindu or a Sikh. There cannot be a S.C. in any other religion. Scheduled Tribes may belong to any religion.

54. In a case where the head of the household belongs to SC/ST even if any other member of the household (except institutional households) does not belong to SC/ST then mention Caste/Tribe to which he belongs and write SC/ST as the case may be. On the other hand if the head does not belong to the SC/ST; but anyother member of the household does belong to SC/ST; write "X" in this column.

55. In the case of all institutional households write "X" in this column irrespective of whether the head belongs to SC/ST; or not.

Col. 11. No. of living rooms in the occupation of Census household.

56. A room should have 4 walls with a doorway with a roof overhead and should be wide and long enough for a person to sleep in i.e., it should have a length of not less than 2 metres and the breadth of atleast 1½ metres, and 2 metres in height. An enclosed room, however, which is used in common for sleeping, sitting, dining, storing, and cooking etc. should be regarded as a room. An unenclosed verandah, kitchen, store, garrage, cattle-shed and latrine and rooms in which household industry such as handloom is located which are not normally usable for living or sleeping etc. are excluded from the definition of a room for the purpose of this column.

57. If there is only one household in a census house the counting of rooms will not be difficult. But if a census house consists of a number of households, the number of rooms occupied by each household has to be entered against the name of each head of household. In cases where a room is occupied by more than one household or they share more than one room the number of rooms should be given together against a bracket as common to such households, e.g., suppose there are 2 households in a census house consisting of 6 rooms. If one household is using 3 rooms separately and the second household 2 rooms separately and one room is used jointly by both households, the entries in this column should be made as follows:—

3
} 1
2

58. One is likely to come across conical shaped hut or tent in which human beings reside. In such improvised accommodation, there will be no four walls to a room and, therefore, the above definition would not strictly apply to such types of accommodation. In such cases, the tent or conical hut etc. may in itself be construed to be a room.

Col. 12. Does the household live in owned or rented house (i) Owned (O), (ii) Rented (R).

59. If a household is occupying a census house owned by itself or is not paying anything to anybody in the form of rent then the household may be considered as living in own house. This should be recorded by "O". A household living in a flat or a house taken on 'ownership' basis on payment of instalments should be regarded as living in its own house notwithstanding that all instalments have not been paid.

60. If the household lives in rented house write 'R'. A housing unit is rented if rent is paid or contracted for, by the occupants in cash or in kind. Where an owner permits a household to live in a house, rent free even then the household should be treated as living in a rented house. For example, rent free accommodation provided to employees by Government, Institution, Companies etc. In such cases, you should treat the house as rented and write "R".

Cols. 13 to 15: Number of persons (including children) normally residing in Census household on the day of the visit of the Enumerator

61. Enter the number of males normally residing in the household in Col. 13, females in Col. 14 and total number of persons in Col. 15 (Col. 13+Col. 14).

62. In these columns normal residents are to be recorded even though some of them may be absent on the date of the enumerator's visit. Casual visitors should be excluded as they will be considered at their respective places of normal residence. But a person who has stayed with the household for a period of 3 months or more should, however, be included. Correspondingly normal residents absent for over 3 months or more should be excluded from the household in which they normally reside. Total of these columns should be struck at the end of each page and after completion of housclisting grand total of the territorial unit should be struck at the bottom of the last column.

Col. 16: Does the household cultivate land ? (Yes or No)

63. If the household is cultivating any land then you have to record the answer "Yes" otherwise "No". Cultivation involves ploughing, sowing and harvesting and does not include fruit growing or keeping orchards or groves or working for plantations like tea, coffee, rubber, cinchona and other medicinal plantations. For determining whether a household is cultivating or not it should be necessary to ascertain if one or more persons in the household are engaged in cultivation of land or supervision or direction of cultivation of land owned or held from Government or from private persons or institutions for payment in money, kind or share. Encroachers who cultivate land encroached upon will be regarded as cultivating households for the purpose of this column. If the household has a visitor who cultivates land elsewhere, it cannot be deemed that the household as such is a cultivating household, unless the head or other members of the household are engaged in cultivation of their own, the household should not be reckoned as a cultivating household. A household whose members merely work on somebody else's land for wages should not be treated as a cultivating household.

Col. 17: Remarks

64. If there is an entry in col. 6 as "vacant" you have to record the reason such as "dilapidated", "under repair", "incomplete construction", "want of tenant" etc. in this column.

65. After you have completed the filling up of the houselist for your area you will p epare a duplicate copy of the houselist, for which you will be given adequate number of blank forms.

PART III

ESTABLISHMENT SCHEDULE

66. Instead of loading the main houselist form itself with questions pertaining to establishments, it has been decided to have a separate schedule in which particulars of each establishment are to be recorded. (See the establishment schedule given at end of this book.)

67. The term "establishment" has been defined in paragraph 46 of this booklet. You are requested to study it carefully before filling the establishment schedule.

68. *The respondents should be fully assured that the information collected in these Schedules will be treated as completely confidential and is meant for statistical purposes and will not be used as evidence against any individual or establishment for any purpose. The respondents should be encouraged to furnish truthful replies without any reservation.*

69. At the top of the schedule provision is made for noting the location code number and name of the area concerned. This should be the same as those noted on the top of the houselist which you will be canvassing simultaneously. You should fill the location code numbers etc. correctly.

70. The columns of establishment schedule can be classified into 4 broad groups—

(i) Columns 1 to 5 are of uniform applicability and entries have to be made in respect of all the establishments;

(ii) Columns 6 to 8 pertain to manufacturing, processing etc.—establishments;

(iii) Columns 9 and 10 relate to trading establishments; and

(iv) Column 11 refers to 'other establishments' which are not covered in columns 6 to 10.

Thus, it will be seen that the columns falling within the groups (ii) to (iv) are mutually exclusive, while those in group (i) are common to all.

Col. 1: Serial number

71. In the column the establishments are to be entered one after another serially. Arabic numerals should be used for this purpose i.e., 1, 2, 3 etc. (Please do not forget to enter the Sl No.. of this column in column 7 of the houselist.)

Col. 2: Census housenumber

72. Census house number to be noted is the same as that of column 3 of the houselist and against which "Yes" is written in column 7 of the houselist indicating that the census house is used as an establishment.

73. A point to be noted here is that it is likely that a single factory or workshop may be spread over more than one census house adjoining one another. Therefore, while in Col. 2 of this schedule a number of census houses may be noted in respect of that particular unit of production, processing, or repairing, trade or business etc., the entries in Col. 3 onwards will be one only for that group of houses covered by a single unit of production or business etc. establishment. For example, if a single factory in Alwaye or business establishment in Ernakulam should be spread over 2 or 3 adjacent buildings, each of the buildings should not be shown as a separate factory or establishment, but the house numbers of all these buildings shown in col. 2 should be bracketed together and the particulars of the single factory or establishment entered in subsequent columns against this group of house. If, on the other hand, the activities of a large firm or an office are carried on in buildings located far away in different localities, each of the census houses in the different localities will have to be treated as a separate establishment and the particulars of the establishment relating to that particular census house should be listed in this schedule.

74. It is possible that in a particular establishment, more than one activity is being undertaken within the same premises. For example, in the betel shop bidi rolling is also being undertaken

or in a grocery shop a flour mill is also located, or in a doctor's clinic medicines are sold. In such cases, the establishments should be identified having regard to the major activity and recorded as such in the relevant columns pertaining to the major activity.

Col. 3: Name of the establishment or of the proprietor

75. In this column write the name of establishment in the case of factories, large manufacturing concerns, a shop or business establishment, banks, office etc. which usually bear distinct name. Where an establishment has no separate name as in the case of small workshops and establishments like confectionaries, small tea shops, dhobi's establishment, household industries, etc. write the name of the owner as "so and so's" halva shop etc. This is to help easy identification.

Col. 4: Is the establishment (i) Government/Quasi-Government (ii) Private (iii) Co-operative Institution

76. Here enter whether the establishment enumerated belongs to public sector i.e. Government/Quasi-Goverument managed including establishments run by local authorities; to private sector or a co-operative enterprise. Please do not write in this column (i) or (ii) or (iii) but write (i) Government—Public Sector or Quasi-Government—Public Sector or Local Authority (ii) Private or (iii) Co-operative.

77. There may be many schools or libraries etc. which are not owned by any particular individual or group of individuals. These may be owned by people in general and managed by managing committees. Such establishments should be treated as private as distinguished from Government/Quasi-Government or run by local authorities or co-operative enterprises.

78. An establishment will be treated as Government/Quasi-Government, institution if the Central or State Government or a local authority such as Zilla Parishad, City Corporation or Municipalities etc. completely owns or has a majority of shares as to control the management of the establishment.

79. Private establishments are those owned and managed by private individuals or corporate bodies not being co operative institutions or Government/Quasi-Government institutions.

80. Establishments registered under the Co-operative Societies Registration Law of the State, alone fall in the category of 'Co-operative'.

Col. 5: Average number of persons working daily last week or in the last working season, including proprietors and/or family workers

81. In this column the information has to be entered relating to the total number of workers including apprentices paid or unpaid and also including owner(s) or proprietor(s) of the establishments and any of the family members if they also work in the establishment and also hired workers, if any. It is not necessary that an establishment should necessarily have paid workers. A small shop run in the same house, where the owner lives and the business is attended to by just one person of the household is also an etablishment. The average number of persons working per day in the establishment during the week preceding the day of your visit should be recorded. For computing the average number of persons working per day if the establishment remained closed owing to holiday etc. such day(s) should be ignored and only the 'days' on which the establishment worked should be taken into account. If during the week preceding your visit the establishment remained closed either due to strike or lock-out, the week during which the establishment worked preceding such strike or lock-out should be taken into account for reckoning the average number of persons working. The hired workers should normally be in full time employment.

82. Some establishments such as a sugar factory, rice mill etc. may be seasonal in character and may not be actually working at the time of present listing. You should then ascertain the particulars of such establishments with reference to the last working season.

83. In case more than one product is produced, or more than one item of business is conducted or several types of service are rendered, it is not necessary to enquire the number of persons employed in the production/business/servicing of each type of product, business or service that is covered against that serial number. For example, in a large textile mill there may be a weaving section, dyeing section, laboratory, repairing section, sales section etc. It is not necessary to ascertain the employment in each section. The total employment has to be ascertained. The major activity of the establishment will be described in subsequent columns.

Cols. 6, 7 and 8: If any manufacturing, processing or servicing is done

84. Those columns relate only to such establishments in which goods are manufactured or some kind of processing or servicing is done and/or repairs are carried on.

Col. 6: Is it (i) Household industry (ii) Registered factory (iii) Unregistered workshop

Household industry—Definition

85. A household industry is defined as an industry conducted by the head of the household himself/herself and/or mainly by the members of the household at home or within the village in rural areas and only within the premises of the house where the household lives in urban areas. The industry should not be run on the scale of a registered factory.

86. Thus there are four ingredients of the household industry—

(i) Nature of activity
(ii) Participation
(iii) Location
(iv) Size.

(i) Nature of activity

87. A household industry should relate to production, processing, servicing, repairing or making and selling (but not merely selling) of goods. It does not include profession such as pleader or doctor or barber, musician, dancer, washerman (Dhobi), astrologer etc. or merely trade or business even if such professions, trade or services are conducted at home by members of the household.

(ii) Participation

88. The head of the household and/or one or more members of the household must participate in such an industry. If it is run primarily by hired labourers, the 'participation' ingredient of the household members will not be satisfied and it will not be a household industry. The industry may run with the help of hired workers but the head and/or members of the household must be mainly participating in the industry and not solely dependent on hired workers. Besides 'actual work', participation also includes 'supervision and direction'.

(iii) Location

89. The industry should be located within the premises of the house where the household lives in urban areass. If it is situated at place other than at home, it will not be termed as household industry in urban areas. In rural areas however the industry may be either at home or anywhere within the village limits. In rural areas, even though, the industry is not situated at home, there is a greater possibility of the members of the household participating in it if it is located within the village limits.

(iv) Size

90. The industry should not be on the scale of a registered factory. Irrespective of the location and participation by the

members of the household, if the industry or workshop is registered under the Factories Act, then it will not be a household industry.

91. Thus it will be clear that any industry which can be termed as 'household industry' must satisfy all the four ingredients mentioned above.

Registered factory

92. A Factory which is registered under the Indian Factories Act should be treated as a registered factory. Any other workshop merely licenced by the Municipal or any other authority are registered for any other purpose should not be treated as a registered factory unless it is registered under the Indian Factories Act.

Unregistered workshop

93. Workshop is a place where some kind of 'production', processing, servicing, repairing or making of goods for sale, is going on. A workshop which is registered under the Indian Factories Act should be treated as a registered factory and others as unregistered workshops. Workshops which are run as household industry should be treated as a household industry and entered as such.

94. When you come across an establishment where some kind of manufacturing, processing or servicing etc. is done, you should ascertain whether it is a household industry or a registered factory or a workshop not registered under the Factories Act and write whatever it actually is in this column. Please note that workshops merely licenced or entered in the registers of a local authority are not to be considered as registered factories unless registered under the Indian Factories Act. All workshops other than household industries and not registered under the Indian Factories Act should be treated as unregistered workshops even if they are merely licenced as workshops by the local authorities. Please do not write (i) or (ii) or (iii) in the column but write "household industry" or "registered factory" or "unregistered workshop" as the case may be.

Col. 7: Description of the products, processing or servicing done

95. The description of the actual work relating to product processing, and servicing which is done in the household industry, factory or workshop that is being listed is to be recorded here. For example, handloom weaving, lace knitting, oil ghani etc, manufacturing of GI pipes, electroplating, motor or cycle repairing, iron foundry, paper making, or book binding, printing and dyeing, shoe making, sweetmeat making etc. If in any establishment more than one article is produced or more than one kind of processing or servicing or repairing is done indicate only the major kind of products or processing or repairing or servicing etc.

Col. 8: Type of fuel or power used

96. Enter here the description of the power or fuel used for the running of the factory, workshop (or household industry if it is run on power or fuel). The fuels can be kerosene, soft coke, petrol, diesel, gas, coal, wood etc. Electricity, steam etc. are some of the sources of power. Some units such as oil ghani may be run by animal power. Some may be run by merely human energy such as carpet making, pottery making etc. Enter the description of fuel or power used for the production, processing servicing etc. that is carried on in the establishment. There may be instances where more than one fuel or power is used, in such cases only the fuel or power which is used in running the primary, unit of the industry will be noted in this column.

Cols. 9 and 10: If used as a trading establishment

97. Columns 9 and 10 are to be filled in respect of trading establishments or establishments which render commercial services only.

98. Trading or business establishments are those where some trading that is transactions involving sale and/or purchase of goods go on. Establishments rendering commercial services are the banks, money lending firms, pawn shops etc.

Col. 9: Description of goods bought/sold

99. If it is a trading establishment you should ascertain what are the goods bought and/or sold and write the description in this column. If there are more than one type of goods bought/sold by the establishment, you should give description of the main item of goods bought/sold by the establishment.

100. In the case of establishments rendering commercial services such as in the case of banks, etc., you should write the description of services rendered as in the case of bank, you should write "banking services".

Col. 10: Whether (i) wholesale or (ii) retail

101. For all trading establishments you should ascertain in respect of the goods mentioned in Col. 9 whether they are sold/bought in wholesale or in retail and write as the case may be.

102. You may come across certain establishments herein both types of trade i.e. wholesale and retail going on. In such cases, you should ascertain in which category (whether wholesale or retail) the volume of trade is greater and record the category accordingly.

103. In the case of establishments rendering commercial services e.g. bank, etc. please do not write any of the two categories i.e. "wholesale" or "retail" but put "X" in this column.

Col. 11: If used as any other establishment describe e.g. Government Office, School, Hospital, Railway Station, Barber's Saloon, Cinema Theatre, Hotel, Tea-shop etc.

104. Two specific types of establishments have been covered in columns 6 to 10. Column 11 relates to the remaining types of establishments not covered by columns 6 to 10. You have to describe such establishments in this column. For example, Government office, school, hospital, railway station, orphanage, rescue home, barber's saloon, cinema theatre, hotel, tea-shop, lawyer's office, doctors' clinic, laundry etc.

105. After you have completed filling up of the establishment schedule for your area you will prepare a duplicate copy of the Establishment Schedule for which you would be given adequate number of blank forms.

APPENDIX

INSTRUCTIONS FOR FILLING UP HOUSELIST ABSTRACT

After completing the houselists and establishment schedules the Enumerator has to prepare a houselist abstract in the form enclosed. Detailed instructions for filling up the houselist abstract are given below.

Various important items of information are collected through the houselists which include details about census houses and census households. It is proposed to collect through the houselist abstract data regarding the number of census houses used for residential purposes those lying vacant, those used for any other purposes, the number of census households and the number of institutional households among them, besides the total population of the area. After filling up the houselist abstracts, the Enumerator has to hand them over to the Supervisor concerned who has to check the abstract with reference to the entries in the houselist and attest the abstract in token of having done so. The houselist abstract has to be prepared for each ward in the case of urban areas and for each kara/muri/desom in the case of rural areas, in respect of forest areas, separate abstracts have to be prepared for portions of range falling within the village limits and those outside the village boundaries. There are 12 columns in the abstract in addition to the location particulars. The page number of the houselist should be entered in the first column. Columns 2 to 12 should contain the summary of census houses, census households and the population obtained from the entries referred to in the page number given in column 1.

Location code

The location code particulars given on the top of this form are the same as those given in the houselist. These location code particulars should oe copied on all the pages of the houselist abstracts.

Col. 1: Page number of houselist

Separate continuous page numbers in Arabic numerals (1,2, 3) will have to be given for the houselists prepared for each area viz., a ward in respect of urban area, kara/muri/desom in respect of rural area and a range in respect of forest area. The Enumerator has to assign page number to the houselists in a serial (needless to say that each houselist form has two pages—obverse and reverse) for the entire area. The page number given in the houselist of each such area should be recorded in this column.

Cols. 2-4: Occupied residential census houses

These columns are meant for filling up the number of census houses used for residential as well as for partially residential purpose.

Col. 2: Wholly residential

The number of occupied census houses recorded as "residence" only in column 6 of the houselist should be entered in this column. Details of census houses used as residence and for other purposes should be entered in the succeeding column.

Col. 3: Partly residential

The number of census houses used as 'residence and for other purposes' e.g. shop-cum-residence, workshop-cum-residence etc. should be entered in this column.

Col. 4: Total (2+3)

This column relates to the total number of census houses used for residential purpose i.e. total of columns 2 and 3.

Col. 5: Vacant census houses

The number of census houses recorded as 'vacant' in column 6 of the houselist has to be entered here.

Col. 6: Census houses put to other uses

The number of census houses not covered by columns 2 to 5 and used as shop, business, workshop, industry, office, hospital, hotel etc. should be recorded here.

Col. 7: Total (4+5+6)

The total number of census houses appearing on each page, i.e., total of columns 4, 5 and 6 should be entered in column 7.

Cols. 8-9: Number of households

This column relates to the number of census households. This has to be counted from column 9 of the houselist relating to the head of the household.

Col. 8: Total households including institutional households

The total number of households including institutional households has to be recorded in this column.

Col. 9: Institutional households

The number of entries 'INST' in brackets recorded after the name of the head of the household in column 9 of the houselist should be entered here.

Cols. 10-12: Total population

The total population of each page is given in columns 13 to 15, at the end of the each page of the houselist. These should be verified properly and entered in columns 10 to 12 of the houselist abstract.

Do not forget to put the name, signature and date in the space provided for at the end of the abstract.

Ensure that all the details are recorded in the abstract before it is handed over to the Supervisor.
