PREFACE

Social and Cultural Tables are published in two volumes, namely, Part II-C(i) and Part-II-C(ii). It was envisaged earlier, that all the C-Series Tables based on full count would be included in Part II-C(i). This volume was to contain Distribution of population by Mother tongue and Religion, Scheduled Castes and Scheduled Tribes in Tables C-V, C-VII and C-VIII. Table C-V, however, could not be finalised in time and as such it was left to be included in the volume Part II-C(ii).

The present volume includes Tables C-VII (Religion) and C-VIII (Scheduled Castes and Scheduled Tribes). Each table is preceded by a flyleaf which explains concept and definition on the basis of which these tables have been prepared. The types of data presented in these tables and the layout and method of presentation have also been described in the flyleaves.

The data presented in this volume were first processed in the different Regional Tabulation Offices and were later finalised in the Central Tabulation Unit attached to the Head Office at Patna under the able guidance of Shri U.P. Shrivastava, Deputy Director of Census Operations and Shri H.K. Sinha his successor in office. They did commendable work in bringing out this volume. Shri R.B. Singh, Assistant Director, Shri M. Abbas, Senior Geographer, Shri P.N. Sinha, Tabulation Officer and Shri Sheo Prasad, Printing Inspector and their teams also did valuable work and I am grateful to all of them.

I wish to express my gratitude to Shri A. Chandra Sekhar, Ex-Registrar General and Ex-Officio Census Commissioner of India for his valuable guidance and instructions. I am also grateful to Shri R.B. Chari, the present Registrar General, India, Shri K.K. Chakravorty, Assistant Registrar General, Incharge Data Processing Unit, who took keen interest in finalisation of Social and Cultural Tables and the publication of this volume. I would also like to express my sincere thanks to the Manager, Government of India Press, Coimbatore who made untiring efforts to get this publication printed in time.

TABLE C-VII
RELIGION

TABLE C-VII—RELIGION

FLYLEAF

This table has been prepared on full count and corresponds to Table C-VII of 1961 Census. It gives the distribution of population by religion. Separate figures sexwise have been given for the followers of six main religions, viz., Buddhists, Christians, Hindus, Jains, Muslims and Sikhs arranged in alphabetical order. Figures for those not stating any religion have been shown under a separate heading "Religion not stated". Figures of followers of other religions have been combined and shown under the heading "Other religions and persuasions". The break up of the figures grouped under this heading has been given in the Appendix to this table. Religions merged with the main religions are shown in Annexure II. Figures have been presented separately for total, rural and urban areas of the State, its divisions, districts, subdivisions, development blocks, urban agglomerations and towns as existing at the time of 1971 Census.

Mode of presentation

In the table districts have been presented in ascending order of their location code number. The serial number of the district represents its location code number. Within each district the Development Blocks have been shown in the ascending order of their location code numbers. The serial number of a Development Block represents its location code number within its district. Urban agglomerations/towns situated wholly within a Development Block are shown immediately following the entries for the total, rural and urban areas of the Development Block. Where a town falls in more than one Development Block it has been shown in one Development Block only with suitable footnote. In case of Patna Municipal Corporation, however, falling in 3 Development Blocks namely, Patna 1(a), Patna 1(b) and Phulwari the figures have been shown in Patna 1(a) and 1(b) and not in Phulwari Development Block. The figures for urban agglomerations falling in more than one Development Block have been shown in Annexure I along with the constituent units and the constituents of such urban agglomerations have been marked with asterisk(*) on their right in the table.

Concepts and definitions

Town—For Census purposes Municipalities, Notified Areas, Civil Lines and Cantonments are treated as towns irrespective of their population size, density of population or livelihood pattern.

Certain criteria were prescribed for treating other places as towns as was done in 1961 Census. Places were to be treated as towns if—(a) they had a population of 5,000 or more, (b) density of population was not less than 400 persons per sq. kilometre and (c) atleast three-fourths of the male working population was engaged in non-agricultural livelihood. By and large these criteria were followed except in only a very few cases on account of their tourist interest or administrative significance or their having urban characteristics.

City—A 'city' is a town with population one lakh and above.

Urban Agglomeration—An 'urban agglomeration' has been defined as "a continuous urban spread constituted of a town and its adjoining urban outgrowths or two or more physical contiguous towns together with continuous well recognised urban outgrowth, if any, of such towns".

Instructions to Enumerators

The distribution of population by religion shown in this table is based on the answer recorded against Question 10 of the Individual Slip. The instructions to Enumerators for filling up 'Question 10' of the Individual Slip are reproduced below:

"In answering this question use the following abbreviations:

H : Hinduism

I : Islam

C : Christianity

S : Sikhism

B : Buddhism

J : Jainism

For others record the actual religion as returned fully."

TABLE C-VIII

CLASSIFICATION BY LITERACY AND INDUSTRIAL CATEGORY OF WORKERS AND NON-WORKERS ACCORDING TO MAIN ACTIVITY AMONG SCHEDULED CASTES/SCHEDULED TRIBES

TABLE C-VIII—CLASSIFICATION BY LITERACY AND INDUSTRIAL CATEGORY OF WORKERS AND NON-WORKERS ACCORDING TO MAIN ACTIVITY AMONG SCHEDULED CASTES/SCHEDULED TRIBES

FLYLEAF

This table has been prepared on full count and corresponds to Table C-VIII of 1961 Census. It has been presented in two parts. Part A relates to Scheduled Castes and Part B to Scheduled Tribes. It gives the total population by sex of Scheduled Castes/Tribes, their distribution by literacy and their classification into the following 9 industrial categories of workers and the non-workers:

I Cultivators

II Agricultural Labourers

III Livestock, Forestry, Fishing, Hunting and Plantations, Orchards and allied activities

IV Mining and Quarrying

V Manufacturing, Processing, Servicing and Repairs:

(a) Household Industry

(b) Other than Household Industry

VI Construction

VII Trade and Commerce

VIII Transport, Storage and Communications

IX Other Services

Figures have been presented separately for total, rural and urban areas of the State, its divisions, districts, subdivisions, development blocks, urban agglomerations and towns as existing at the time of 1971 Census. The mode of presentation of the units is the same as in Table C-VII. Population figures by sex of individual Scheduled Castes/Tribes and their classification by literacy have been presented for the State in Appendix to this table. At the time of sorting of Individual Slips it was found that in some slips of Scheduled Castes/Tribes the names of Castes/Tribes were not mentioned and they contained entries such as Harijan, Adivasi, Scheduled Castes, Scheduled Tribes, etc. Such slips were treated as those of Scheduled Castes or Scheduled Tribes as the case may be and were categorised as caste or tribe 'unspecified'.

Concepts and definitions

For the definitions of town and urban agglomeration a reference may be made to the Flyleaf to Table C-VII.

Literate—"A person who can both read and write with understanding in any language is to be taken as literate. A person who can merely read but cannot write is not a literate".

Worker—"A 'worker' is a person whose main activity is participation in any economically productive work by his physical or mental activity. Work involves not only actual work but effective supervision and direction of work".

Reference periods—"The reference period is one week prior to the date of enumeration in the case of regular work in trade, profession, service or business. If a person had participated in any such regular work on any one of the days during this reference period and this has been returned as his main activity, the person will be categorised accordingly. A person who normally works but had been absent from work during this reference period on account of illness or travel, holiday, temporary breakdown, strike etc., the person should be treated as engaged in regular work in which he would have otherwise been employed but for his temporary absence. Persons under training such as apprentices with or without stipends or wages should be considered as economically active and recorded as working. A person who has merely been offered work but has not actually joined it, is not to be treated as engaged in work.

There are certain types of works which are not carried on throughout the year such as cultivation, livestock keeping, plantation work, some types of household industry, etc. A person's main activity should be ascertained with reference to such work in the last one year even if he was not economically active in the week prior to enumeration. It is likely that even when a person is engaged in some other work during the period of one week prior to the date of enumeration, the main activity of the person may be cultivation, agricultural labour or some other work attended to normally by him in the course of the year. Care must be taken to see that the main activity is properly ascertained in such cases. For example, a person's main activity may be agricultural labour and in the week prior to enumeration he may be engaged as a sugarcane factory laboures or as a road cooly. He should be categoised for his main activity as agricultural labourer only as returned by him as he engages himself mostly in that work and the other work should be treated as his subsidiary work.

A man or woman who is engaged primarily in household duties such as cooking for own household or performing one's own household duties or a boy or a girl is primarily a student attending institution, even if such a person helps in the family economic activity but not as a full time worker should *not* be treated as a worker for the main activity. On the other hand, if a person is primarily engaged in some economic activity but at the same time does also attend to some household chores or attends a night school etc., he or she should be treated basically as a worker for the main activity and categorised accordingly.

A person who merely receives an income such as a rent receiver or a pensioner who does not have to work for receiving the income, will not be treated as economically active unless the person is also engaged in some economic activity and if that activity is returned as the main activity of the individual".

Instruction to Enumerators

The material presented in this table has been compiled from the entries against Questions 11 & 12 of the Individual Slip. The instructions to Enumerators for filling up 'Questions 11 and 12' of the Individual Slip are reproduced below :

Question 11: Scheduled Caste or Scheduled Tribe

"You have been furnished with a list of scheduled castes and scheduled tribes notified for your State. Ascertain if the person enumerated belongs to a scheduled caste or scheduled tribe and if he does, then record the name of the scheduled caste or scheduled tribe which should find place in the list furnished to you. The answer should be recorded against the correct rectangle provided for the purpose against this question. For a person who is not a member of any scheduled caste or scheduled tribe write 'X' in both the rectangles.

If the person belonging to a scheduled caste or scheduled tribe returns his caste or tribe by synonym or generic name of a caste or a tribe it should be entered only if it finds a place in the list furnished to you. Do not write the names of scheduled castes in general terms as 'Harijan' or 'Achhut'. You should ascertain the name of the caste when it is returned and write it in the rectangle provided for recording the name. Similarly, do not write the names of scheduled tribes in general term as 'Adivasi'. You should ascertain the name of the tribe when it is returned and write it in the rectangle with broken lines provided for recording the same. If a person is negligent and insists on calling himself merely 'Harijan' or 'Achhut' or 'Adivasi' as the case may be, tell him that this description is not adequate for census purposes and persuade him to give out the actual name of the caste or tribe. You should make all efforts to ascertain the correct name of the scheduled caste or scheduled tribe as found in the notified list. If the person merely claims to be a scheduled caste or scheduled tribe but says that he does not belong to any of the notified communities applicable to the area, he will not be entered as a scheduled caste or scheduled tribe.

Scheduled castes can belong only to the Hindu or Sikh religions. If a person belongs to scheduled caste, there will be either 'H' or 'S' in the answer to question 10. Scheduled tribes may belong to any religion.

Question 12: Literacy (L or O)

Definition of a literate: A person who can both read and write with understanding in any language is to be taken as literate. A person who can merely read but cannot write is not a literate.

It is not necessary that a person who is literate should have received any formal education or should have passed any minimum educational standard.

For a person who is literate i.e., who can both read and write, record, 'L' in the triangle against question 12. If there is any doubt about a person's ability to read or write, the test that may be applied for reading is his/her ability to read any portion of the printed matter in the Enumerator's Instructions and similarly for writing he/she should be able to write a simple letter. Ability merely to sign one's name is not adequate to qualify a person as being able to write with understanding. If a person claims to be literate in some other language with which the enumerator is not acquainted, the respondent's word has to be taken as correct. Other members of the household may also be able to testify to the literacy of the person enumerated.

For a person who is illiterate i.e., who can neither read nor write or can merely read but cannot write, in any language, write 'O' in the triangle against question 12. All children of the age of 4 years or less should be treated as illiterate even if the child is going to a school and may have picked up reading and writing a few odd words."
