CENSUS OF INDIA, 1971

PUBLICATION PROGRAMME

PONDICHERRY

Series-30 will relate to Pondicherry Union Territory only. Under these series, the following publications will be issued :—

Portrait of Population	A Descriptive Analysis of 1971 Census data
Part I	General Report and Subsidiary Tables
*Part II-A	General Population Tables (A Series)
*Part II-B	Economic Tables (B Series)
*Part II-C(i) & Part V	Distribution of Population—Religion, Scheduled Castes and Scheduled Tribes & Special Tables on Scheduled Castes
†Part II-C(ii)	Mother-tongue and other Social & Cultural Tables and Fertility Tables
*Part II-D	Migration Tables
*Part III	Establishment Report and Tables
*Part IV	Housing Report and Tables
Part VI-B	Special Survey Reports on Selected Towns
Part VI-C	Survey Reports on Selected Villages
Part VIII-A & B	Administration Report on Enumeration and Tabulation (for official use only)
Part IX	State Census Atlas
Part X	District Census Hand Book
*A & B	Village and Town Directory and Primary Census Abstract
C	Analytical Report, Administrative Statements and District Census Tables Special Studies and other Miscellaneous Reports

ALL INDIA PUBLICATIONS

Volumes similar to those indicated above are being published at the All India level. Apart from these, All India Census Tables on 1% sample basis, as Part II (special) and a Special Report on Graduates and Technical Personnel as Part VII are also being published.

*Already Published

†Present Publication

PREFACE

This publication contains the tables of C series relating to the Social and Cultural aspects of the population as also the Fertility Tables (F series) which also has bearing on the social and cultural aspects. Two of the Social and Cultural Tables, namely, C VII on Religion and C VIII Part A on Scheduled Castes are published in a separate volume titled part II C (i) for this territory. The tables on the Social and Cultural aspects cover family composition of households, age and marital status, age, sex and education, single year age returns, mother-tongue, languages and bilingualism. Fertility tables presented in this volume have been compiled for the first time in 1971 census and gives a wide range of information on currently married women. It is expected that the data presented in the tables will help in understanding the social, cultural and demographic characteristics of the population of this Union Territory and provide a frame for further studies to evolve integrated welfare schemes.

I wish to express my gratefulness to S/Sri T.V. Srinivasan and M. Thangaraju, Deputy Directors and Sri M. Panchapakesan, Assistant Director of Census Operations for their efforts and active co-operation in the collection, scrutiny and arrangement of the materials presented in this book. S/Sri S. Packiaraj, Tabulation Officer, assisted by Kum. S. Prema, Upper Division Clerk and S/Sri T. Prakash Thomas and K. Sridharan and Kum. R. Premakumari and Smt. P.R. Subbulakshmi, Assistant Compilers attended to compilation of the tables. Sri C.K. Somasundaram, Senior Technical Assistant assisted by Smt. A.M. Mangayarkarasi, Research Assistant, S/Sri S. Natarajan, A. Radhakrishnan and R. Sankara Sharma and Smts. R. Saroja Bai and V. Manimekalai, Assistant Compilers scrutinised the tables and prepared the manuscripts for printing. I place on record my appreciation of the good work done by the officers and staff of my office in bringing out this publication.

Sri R.B. Chari, I.A.S., Registrar General, India has been of great help to me in publishing the 1971 census results quickly and so my greatful thanks are due to him. Sri K.K. Chakravorty Assistant Registrar General (Census) and his staff deserve mention for their prompt clearance of statistical tables presented in this book.

The printing of statistical reports of the 1971 census so quickly at short notice is not an easy task to be accomplished. I have been, however, fortunate to have the full support of Sri A.K. Ghatak, Manager, Government of India Press, Coimbatore and his Assistant Managers (Technical) who spared no efforts in arranging for the timely printing of this volume, and I record my appreciation of their help to me.

PRELIMINARY NOTE

In this volume Part II C (ii), six out of eight of the Social and Cultural tables (C Series) and five Fertility tables (F Series) prepared in the 1971 Census relating to Pondicherry Union Territory are presented. Tables C VII—Religion and C VIII Part A relating to Scheduled castes which form part of Social and Cultural tables are presented in Part II C(i) published earlier. Tables that are given in this volume are:

Social & Cultural Tables

C I Part A — Members of households by relationship to head of household classified by age-groups.

C I Part B(i) — Households where the head is a male by relationship of members with the head.

C I Part B(ii) — Households where the head is a female by relationship of members with the head.

C II — Age and Marital status.

C III Part A — Age, sex and education in all areas.
Part B — Age, sex and education in urban areas only.

C IV — Single year age return.

C V Part A & B — Mother-tongue.

C VI — Bilingualism.

Fertility Tables

F I — Distribution of currently married women and the related births during the last year by religion and present age and age at marriage.

F II — Distribution of currently married women and the related births during the last year by education, present age and age at marriage.

F III — Distribution of currently married women and the related births during the last year by religion, duration of marriage and age at marriage.

F IV — Distribution of currently married women and the related births during the last year by education, duration of marriage and age at marriage.

F V — Distribution of currently married women and the related births during the last year by religion, duration of marriage and age at and age at marriage of the women.

Questions 3, 4, 5, 12, 13, 14 and 15 of the Individual slip relate to sex, age, marital status, literacy and education, mother-tongue and other languages of the person enumerated. The instructions issued to the census enumerators for recording answers to these questions are reproduced below.

QUESTION 3 : Sex

For males write 'M' and for females write 'F' within the circle indicated against this question. Even for eunuchs and hermaphrodites write 'M' only. Verify with reference to the name and relationship to Head against questions 1 and 2 respectively that you have noted the sex correctly.

QUESTION 4 : Age

Record the age of the person in total number of years completed last birthday. Very often there is a tendency on the part of the individuals to return 'years running' rather than the 'years completed'. Make sure that only the actual number of years completed is recorded.

In respect of infants who *might not have completed one year* by the day of enumeration, their age in completed years should be invariably shown as '0' as they have not yet completed one year of age and add 'Infant' in brackets. As was stated under general instructions make sure that infants even if a day old are invariably enumerated. *You should not enter the age in months.* The age of an infant who has not yet completed one year should invariably be noted as '0' only.

Age is one of the most important items of demographic data and you should ascertain the age with greatest care. Many persons particularly in the rural areas cannot give their age correctly. They should be assisted to state the correct age by stimulating their memory with reference to any historical event etc., well known in the area. Sometimes the age can be ascertained with reference to the age of another person of a known age that may be in the same household or in the neighbouring household or that of a well known person of the village such as Headman of the village. A person can more easily say whether he was older or younger to such a person and by how many years. This will help you to record the age more accurately.

QUESTION 5 : Marital status

In answering this question use the following abbreviations:

NM	—	never married
M	—	currently married
W	—	widowed
S	—	separated or divorced

For a person who has never been married at any time before, write 'NM'. For a person currently married whether for the first or another time and whose marriage is subsisting at the time of enumeration with the spouse living, write 'M'. Write 'M' also for persons who are recognised by custom or society as married and for the persons in stable *de-facto* union. Even if a marriage is disputed in the locality write 'M' if the person concerned says he or she is married or is in stable *de-facto* union. For a widowed person whose husband or wife is dead, and who has not been married again, write 'W'. For a person who has been separated from wife or husband and is living apart with no apparent intention of living together again or who has been, divorced either by a decree of a law court or by an accepted social or religious custom but who has not remarried, write 'S'. For a prostitute return her marital status as declared by her.

QUESTION 12 : Literacy (L or 0)

Definition of a literate: A person who can both read and write with understanding in any language is to be taken as literate. A person who can merely read but cannot write is not a literate.

It is not necessary that a person who is literate should have received any formal education or should have passed any minimum educational standard.

For a person who is literate i.e. who can both read and write, record 'L' in the triangle against question 12. If there is any doubt about a person's ability to read or write, the test that may be applied for reading is his/her ability to read any portion of the printed matter in the enumerator's instructions and similarly for writing he/she should be able to write a simple letter. Ability merely to sign one's name is not adequate to qualify a person as being able to write with understanding. If a person claims to be literate in some other language with which the enumerator is not acquainted, the respondent's word has to be taken as correct. Other members of the household may also be able to testify to the literacy of the person enumerated.

For a person who is illiterate i.e. who can neither read nor write or can merely read but cannot write, in any language, write '0' in the triangle against question 12. All children of the age of 4 years or less should be treated as illiterate even if the child is going to a school and may have picked up reading and writing a few odd words.

QUESTION 13 : Educational level

This question will be asked of those for whom 'L' has been recorded against question 12. For a person who is illiterate and '0' has been put against him in the answer to question 12, there is no advantage in ascertaining the educational level even if he had at some stage attended school and passed a standard and had relapsed into illiteracy. In such a case you should put 'X'. You have to ascertain and record the highest educational level attained by a person for whom 'L' is recorded in answer to question 12.

For a person who is still studying in a particular class, the highest educational level attained by him will be one that he has actually passed and not the one in which he is studying. For example a person studying in 1st year B.A. should be recorded as only 'P.U.C.' or 'Higher Secondary', as the case may be. Similarly, a person studying, say in the 4th year of 'M.B.B.S.' should not be noted as 'M.B.B.S.' but as 3rd year 'M.B.B.S.' which is the highest level be has actually attained. If you are not sure whether a person has passed Primary, Middle, Higher Secondary or other definite levels, you may record the actual standard passed such as say IIIrd standard, VIIIth standard, 1st year B. Com. etc.

The highest educational level attained by the person enumerated should be recorded. When a person holds both general and technical qualifications both of which are of equivalent level such as say B. Sc. (Zoology) and M.B.B.S. or B.A. (Maths) and B.E. (Bachelor in Engineering), the technical qualification should be given preference in recording the highest educational level attained. Where the general educational level is higher than the technical educational level or where it is not possible to decide which of the two levels is relatively higher, the highest level of education as returned by the person concerned should be recorded.

In recording the highest educational level of a graduate or a post graduate, subject of specialisation such as B. Sc. (Maths), M.A. (Economics), M.Sc. (Botany), B.Sc. (Agriculture), etc. should be noted. You should not use abbreviations which are not in common use. In such cases, the degree or diploma should be spelt out fully.

Whenever you come across graduates or post-graduates as also those with a technical diploma or degree, you will have to issue him, a 'Degree-holder and Technical Personnel Card' and ask the person concerned to fill it. You should note the location code on the card while issuing it. Put a tick (√) after noting the educational level against question 13 immediately after you issue a card. When you collect it after sometime but before you complete enumeration of your area, cross the tick and put a circle as 4.

You will have to ensure that the card issued to all the graduates and the technical degree or diploma holders are collected back. The non-crossed tick, if any, against question 13 will show that the card has not been collected.

QUESTION 14 : Mother-tongue

Definition: Mother-tongue is the language spoken in childhood by the person's mother to the person. If the mother died in infancy, the language mainly spoken in the person's home in childhood will be the mother-tongue. In the case of infants and deaf-mutes the language usually spoken by the mother shall be recorded.

Record mother-tongue in full whatever be the name of the language as returned and avoid use of abbreviations. You are not expected to determine if the language returned by a person is the dialect of another major language and so on. You should not try to establish any relationship between religion and mother-tongue. *You are bound to record the language as returned by the person as his mother-tongue and you should not enter into any argument with him and try to record anything other than what is returned.* If you have reason to suspect that in any area due to any organised movement, mother-tongue was not being truthfully returned, you should record the mother-tongue as actually returned by the respondent and make a report to your superior census officers for verification. You are not authorised to make any correction on your own.

QUESTION 15 : Other languages

After recording the mother-tongue in question 14 enquire whether the person knows any other language(s), Indian or foreign and record language(s) returned by him against this question. In case he does not know any language apart from his mother-tongue put 'X' against this question.

The number of languages recorded under this question need not be more than two. These languages should be other than his mother-tongue and they should be recorded in the order in which he speaks and understands best and can use with understanding in communicating with others. He need not necessarily be able to read and write these languages. It is enough if he has a working knowledge of these subsidiary languages to enable him to converse in that language with understanding.

The fertility tables (F series) which number five have been tabulated from the answers mainly returned against question 6 of the Individual Slip relating to currently married women only. The tables also have bearing on the answers returned to questions on age, literacy and education, S.C./S.T. and religion. The instructions given to enumerators for recording answers to the questions on currently married women, religion and Scheduled Caste or Scheduled Tribe are given below. Extract of instructions for recording answers to questions on sex, age, literacy and education have been given earlier.

QUESTION 6: For currently married women only

This question has to be answered in respect of all currently married women only i.e. all women whose marital status is shown as 'M' against Q-5. For all others a cross may be put through the two sub-parts of this question.

6(a) Age at marriage

Age at marriage: You should ascertain the *age at which the currently married woman* whom you are enumerating was married and record that age in completed years. If the currently married woman had been married more than once, the age at which she got married for the first time should be recorded.

6(b) Any child born in the last one year

Any child born in the last one year: You should ascertain if the currently married woman whom you are enumerating gave birth to a child in the last one year prior to the date of enumeration. Since it may be difficult for a person to reckon the exact year with reference to the English calendar dates, the period of one year may be ascertained with reference to a well known festival day which falls close to February—March, as determined by the census Superintendent of the State. You should ask if a child was born on or after this festival day last year to the date of enumeration. Only if the child was born alive, even if the child had died soon after birth, should the answer be 'Yes' to this question. *Still birth i.e. a child which is born dead should not be taken into account for this purpose. So while you should* make sure that every case of birth of child born alive, even if it is not alive on the date of enumeration, is reported, you should not reckon if the child was born lifeless.

It is common experience that the birth of the child may not be reported readily if the child is not actually surviving at the time of enumeration. Infant deaths are still high in the country. There is a chance of a number of such cases being missed unless specifically questioned about them. It is necessary to record all live births even if the child had died soon thereafter or had not survived to the day of enumeration. Therefore where the initial answer to this question is 'no', you should ask a specific question if there has been a case of child having been born alive in the last one year and later dying before the enumeration date. This is a delicate question and should be asked with tact in a manner not to offend the sensibility of the respondent. Where a currently married woman first answers that she had no child born in the last one year, you may perhaps question her as follows:

"It has been found in some houses that a child was born and had died soon after or a few days or months later and such cases had not been reported. It is my hope that there are no such cases here. Am I right?"

This may bring in the required response. If she reports 'no' then you can be sure that no birth has been missed. You have to make sure that any live birth that has occurred to the currently married woman in the last one year is netted whether the

child is surviving till the date of enumeration or not. Similarly, probe to eliminate still births may be necessary. For example, when the answer is 'yes' under question 6(b) the enumerator might ask if the child is here in this house. If the answer is 'yes' no further question is needed. If 'no' the enumerator might ask where he has gone. The answer may be 'dead' or he has gone elsewhere. If 'dead' then the enumerator might ask when did the child die and this will bring out the fact whether or not it was a still birth.

Write 'yes' if the currently married woman had given birth to a live child from the prescribed festival day last year to the date of enumeration or 'no' if she had not. In case of twin or multiple births, write 2, 3 etc., as the case may be within round brackets after the entry 'yes'.

Note: You may find on your revisional round from 1st to 3rd March, 1971 that a child is born to a married woman in a household after your last visit but before the sunrise of 1st March, 1971. You will have to take this into account and correct the answer against the Q. 6(b) accordingly. You must enquire specifically if any such birth has taken place. While ignoring still births all other births where the child was born alive even if it did not survive long should be taken into account.

Question 10: Religion

In answering this question use the following abbreviations.

H : Hinduism
I : Islam
C : Christianity
S : Sikhism
B : Budhism
J : Jainism

For others record the actual religion as returned fully.

If a person says that he has no religion it may be recorded accordingly. Do not mistake religion for caste which will not be recorded here.

Question 11: Scheduled Caste or Scheduled Tribe

You have been furnished with a list of scheduled castes and scheduled tribes notified for your State. Ascertain if the person enumerated belongs to a scheduled caste or scheduled tribe and if he does, then record the name of the scheduled caste or scheduled tribe which should find place in the list furnished to you. The answer should be recorded against the correct rectangle provided for the purpose against this question. For a person who is not a member of any scheduled caste or scheduled tribe write 'X' in both the rectangles.

If the person belonging to a scheduled caste or scheduled tribe returns his caste or tribe by synonym or generic name of a caste or a tribe it should be entered only if it finds a place in the list furnished to you. Do not write the names of scheduled castes in general terms as 'Harijan' or 'Achhut'. You should ascertain the name of the caste when it is returned and write it in the rectangle provided for recording the name. Similarly, do not write the names of scheduled tribes in general terms as 'Adivasi'. You should ascertain the name of the tribe when it is returned and write it in the rectangle with broken lines provided for recording the same. If a person is negligent and insists on calling himself merely 'Harijan' or 'Achhut' or 'Adivasi' as the case may be, tell him that this description is not adequate for census purposes and persuade him to give out the actual name of the caste or tribe. You should make all efforts to ascertain the correct name of the scheduled caste or scheduled tribe as found in the notified list. If the person merely claims to be a scheduled caste or scheduled tribe but says that he does not belong to any of the notified communities applicable to the area, he will not be entered as a scheduled caste or scheduled tribe.

Scheduled castes can belong only to the Hindu or Sikh religions. If a person belongs to scheduled caste, there will be either 'H' or 'S' in the answer to question 10. Scheduled tribes may belong to any religion.

Each table is preceded by a Fly leaf which explains the contents of the tables that follows.

SOCIAL AND CULTURAL TABLES

[C-I TO C-VI]

TABLE C-I PART A

Members of Households by Relationship to Head of Households Classified by Age-groups

TABLE C-I PART B (i)

Households where the Head is a Male by Relationship of Members with the Head

TABLE C-I PART B (ii)

Households where the Head is a Female by Relationship of Members with the Head

C—I Part A: Members of households by relationship to head of household classified by age-groups.

C—I Part B(i): Households where the head is a male by relationship of members with the head.

C—I Part B(ii): Households where the head is a female by relationship of members with the head.

FLYLEAF

These three tables show the composition of households with reference to relationship of members to the heads of households.

C-I Part A gives the composition of household by relationship to head of the household by three broad age-groups. The table is presented for the union territory and its four areas with rural-urban break up.

The three broad age-groups into which the heads of hous holds are classified are less than 30, 30-49 and 50+. Sex break up for heads of households are given. Data are shown separately for relations, unrelated members and single member households. Relations are classified as married and those with other marital status (never-married, widowed, divorced or separated). For married relations, separate details for spouse, son, brother, father, mother, other males and other females are given. Those with marital status other than married are classified under son, brother, daughter, sister, father, mother, other males and other females.

This table which is of sociological interest will indicate the extent of joint family system. Age distribution of heads of households and their relations by marital status will help to study the future trend of the joint family system.

C-I Part B(i) gives the distribution of households where the head of household is a male by relationship to the head. As in Part A, there is division of members into relations and unrelated members. Further, relations and unrelated members are divided into two groups—currently married and with other marital status. These two groups are further classified for son, brother, son's wife, brother's wife, daughter, sister, sister's son, daughter's husband, sister's husband, father, mother, mother's brother, other males and other females. Sex break-up for unrelated members is shown. C—I Part B(ii) is similar to part B(i) and gives the details for households where the head is a female.

These tables will be of interest to sociologists as it will reveal the composition of households having married relations also.

These tables correspond to Table C-I—Composition of sample Households by relationship to head of family of 1961 census, which was prepared on a 20% sample basis.

TABLE C-II

Age and Marital Status

C-II—Age and Marital Status

FLY LEAF

This table shows the distribution of population by sex and broad age-groups cross-classified by marital status. Figures are presented for the Union Territory and the four areas with rural and urban break up. This table corresponds to Table CII—Age, Sex and Marital Status of 1961 presented in Part II C & D Cultural Tables and Migration Tables of Pondicherry Union Territory.

Fourteen age-groups have been adopted for presentation of data; five year age-groups from 10 to 69, 0—9 and 70+. For those whose age was not reported, they have been shown under 'age not stated'.

The marital status for which data have been shown in this table are Never married, Married, Widowed, Divorced or separated and unspecified status.

The instructions to the enumerators for eliciting information on questions relating to age and marital status are given earlier in the Preliminary Note which may be referred to.

The statement below shows the percentage distribution of population by marital status in total, rural and urban areas for the Union Territory as a whole.

Marital status	Total		Rural		Urban	
	Males	Females	Males	Females	Males	Females
Never Married	58.83	47.38	57.61	46.36	60.53	48.78
Married	38.43	40.73	39.41	41.91	37.06	39.11
Widowed	2.48	11.39	2.71	11.20	2.15	11.66
Divorced or separated	0.25	0.50	0.26	0.53	0.25	0.45
Unspecified Status	0.01	N	0.01	N	0.01	N

'N' denotes negligible figures.

More than half of males and a little less than half among females are never married. Percentage of never married is higher among males than among females in total, rural and urban areas. As between rural and urban areas, the percentage of never married is higher in urban areas among both the sexes. Percentage of married is higher among females in all the three areas. As between rural and urban areas, married proportions are higher for both the sexes in rural areas. Percentage of widowed is significant among females as compared to males in all the three sectors. The proportion of divorced/separated category which is very small also shows a higher percentage among females as compared to males in total, rural and urban areas.

TABLE C-III—PART-A

Age, Sex and Education in All Areas

TABLE C-III—PART-B

Age, Sex and Education in Urban Areas only

C-III—Age, Sex and Education

FLY LEAF

This table gives the distribution of population of each sex by certain broad age-groups and further classified according to educational levels. This table is presented in two parts. Part A gives data for the total (all areas) and Part B gives figures for urban areas. Statistics are given in the table for the Union Territory as a whole and its four areas.

The age-groups shown in this table are 0—4, 5—9, 10—14, 15—19, 20—24, 25—34 and 35+. Those who did not report their age have been shown under 'Age not stated'. Since, attainment of educational levels almost stops at 30—35 years of age, the age-groups have been suitably adopted. From the statistics given in this table, the growth of literacy in the total population as well as in different age-groups in the rural and urban areas since the last census can be measured. The statistics will also enable the study achievements of the Five Year Plan schemes on literacy and education and may help in evolving future plans for improvement in literacy and educational levels of the population.

The educational levels shown in Part A and Part B are not similar. A broader picture has been presented for urban areas in that there are ten levels for which data are given. The educational levels adopted for Part B of the table are:

1. Illiterate
2. Literate (Without educational level)
3. Primary
4. Middle
5. Matriculation or Higher Secondary
6. Non-technical diploma or certificate not equal to degree
7. Technical diploma or certificate not equal to degree.
8. Graduate degree otherthan Technical degree
9. Post-graduate degree other than technical degree
10. Technical degree or diploma equal to degree or post-graduate degree with sub-classification for engineering and technology, medicine, agriculture, veterinary and dairying, teaching and others.

In the case of Part A giving figures for all areas, the first seven levels mentioned above have been shown. Figures for the levels mentioned at items 8 to 10 above have been combined and shown under "Graduate and above". The above presentation has been made as cross classifications by educational levels have been done on a limited range for the rural areas.

This table is similar to Table C-III-Age, sex and Education of 1961 census which was presented in three parts (A, B and C), Part C relating to rural areas presented in 1961 census has not been presented now. The figures relating to rural areas can be arrived at by deducting the figures of urban areas from the figures for total (all areas). The educational levels and age-groups are also slightly different from those shown in the 1961 table.

The statement below gives the distribution of 1,000 persons in each sex by the various educational levels separately for total, Rural and Urban areas of the Union Territory of Pondicherry.

Educational level	Total		Rural		Urban	
	Males	Females	Males	Females	Males	Females
Total	1,000	1,000	1,000	1,000	1,000	1,000
Illiterate	427	654	489	741	342	534
Literate (without educational level)	196	152	195	130	198	181
Primary	184	124	168	98	204	160
Middle	127	46	117	24	139	78
Matriculation or Higher Secondary	54	21	27	7	93	42
Non-technical diploma not equal to degree	N	N	1	N	N	N
Technical diploma or certificate not equal to degree	2	N	N	..	3	N
Graduates and above	10	3	3	N	21	5

'N' denotes negligible figures.

Literacy proportions among both the sexes is higher in urban areas as compared to rural areas. The percentages under various levels of literacy for females is significantly higher in the urban areas as compared to rural areas. In the case of males also, the percentages for educational levels of Matriculation or Higher Secondary and above are much higher in urban areas as compared to rural areas.

TABLE C-IV

Single Year Age Returns

C-IV—Single Year Age Returns

FLY LEAF

This table presents the population of each sex by single year ages. The data are presented for total, rural and urban areas at the Union Territory level. At the end of the table, figures for those who did not report their age have been given. In the appendix to this table, figures for quinquennial age-groups have been presented for each of the four areas with rural-urban break up. This is an important demographic table used by the Census Actuary for constructing life tables.

This table presents figures for ages 0 to 100 and in respect of those above 100, figures are presented for such of the ages which were reported. There are 4 males and 6 females who have reported ages above 100. The highest age reported is 110 and there are one male and two females in this age. Out of 10 centenarians, 4 males and 4 females are in rural areas of this Union Territory.

This table is similar to Table C IV-Single Year Age returns of 1961 census presented in Part IIC and D—cultural Tables and Migration Tables of Pondicherry.

The instructions to enumerators for eliciting answer to question on Age has been given in the Preliminary Note to this Volume.

TABLE C-V—PART A-(i)

Distribution of Languages (Inclusive of Mother tongues Grouped under each) Specified in Schedule VIII to the Constitution of India

TABLE C-V—PART A-(ii)

Distribution of Languages (Inclusive of Mother-tongues Grouped under each) Specified in Schedule VIII to the Constitution of India for Areas, Communes Towns and Urban Agglomeration

TABLE C-V—PART B-(i)

Speakers of Languages/Mother-Tongues (Inclusive of Mother-Tongues where Grouped) other than those Specified in Schedule VIII to the Constitution of India for Union Territory and Areas

TABLE C-V—PART B-(ii)

Speakers of Languages/Mother-Tongues (Inclusive of Mother-Tongues where Grouped) other than those Specified in Schedule VIII to the Constitution of India for Areas/Communes/ Towns/Urban Agglomeration

TABLE C-V—MOTHER-TONGUES OF THE 1971 CENSUS

Part A: Distribution of languages (inclusive of mother-tongues grouped under each) specified in Schedule VIII to the Constitution of India.

Part B: Speakers of languages/mother-tongues (inclusive of mother-tongues where grouped) other than those specified in Schedule VIII to the Constitution of India.

FLY LEAF

These tables correspond to the all-India language tables of the census of India 1951 published in Census of India Paper I of 1954 and the language tables C-V of the Census of India 1961 published in volume I part II-C (ii)-Language tables and volume XXV-Pondicherry Part II-C & D—Cultural and Migration tables.

The question on mother-tongues at the 1971 census and instructions to enumerators were as follows.

Question 14: Mother-tongue

Definition:—Mother-tongue is the language spoken in childhood by the persons's mother to the person. If the mother died in infancy, the language mainly spoken in the person's home in childhood will be the mother-tongue. In the case of infants and deaf mutes the language usually spoken by the mother shall be recorded.

Record mother-tongue in full whatever be the name of the language as returned and avoid use of abbreviations. You are not expected to determine if the language returned by a person is the dialect of another major language and so on. You should not try to establish any relationship between religion and mother-tongue. You are bound to record the language as returned by the person as his mother-tongue and you should not enter in any argument with him and try to record anything other than what is returned. If you have reason to suspect that in any area due to any organised movement, mother-tongue was not being truthfully returned, you should record the mother-tongue as actually returned by the respondent and make a report to your superior Census Officers for verification. You are not authorised to make any correction on your own.

Table C-V Part A is in two sections: (i) showing the distribution of speakers of languages (inclusive of mother-tongues grouped under each) specified in Schedule VIII to the Constitution of India for the Union Territory and its four districts separately for total, rural and urban areas cross-classified by sex. and (ii) showing the distribution of speakers of these languages for four districts, sixteen tahsils and six towns in the Union Territory for total areas only cross-classified by sex. The data for the rural areas of the tahsil are not presented but they can be derived by subtracting data in respect of towns within the tahsil from the total tahsil figures.

Table C-V Part B Presents speakers of languages/mother-tongues (inclusive of mother-tongues where grouped) other than those shown under Part A for the Union Territory, districts, tahsils and towns. This table is also being presented in two sections (i) showing the speakers of these languages/mother-tongues for the Union Territory and its districts for total, rural and urban areas cross-classified by sex and (ii) showing the distribution of these languages/mother-tongues for total areas of districts, tahsils and towns cross-classified by sex.

In both Parts A and B, mother-tongues have been grouped in some cases under the relevant languages. This has been done on the basis of information readily available or in the light of studies already made. Those 'identifiable' mother-tongues which returned 10,000 or more speakers each at the all-India level have been grouped in parts A and B as shown below.

Part A

GUJARATI	—	Saurashtra
HINDI	—	Bhojpuri; Hindustani; Maithili; Marwari; Rajasthani.
KANNADA	—	Badaga
SINDHI	—	Kachchhi

Part B

All other mother-tongues falling under Part B and which returned less than 10,000 speakers each at the all India level or were not 'identifiable' on the basis of information available as of date are included in the category 'Others' occurring as the last entry in Part B.

TABLE C VI

Bilingualism

C VI—Bilingualism

FLY LEAF

This table corresponds to Table D-I Part II of the 1951 and C-VI of the 1961 Censuses.

The question on bilingualism at the 1971 Census was:

Question 15 : Other languages

"After recording the mother-tongue in question 14, enquire whether the person knows any other language(s), Indian or foreign, and record language(s) returned by him against this question. In case he does not know any language apart from his mother-tongue, put 'X' against this question.

The number of languages recorded under this question need not be more than two. These languages should be other than his mother-tongue and they should be recorded in the order in which he speaks and understands best and can use with understanding in communicating with others. He need not necessarily be able to read and write these languages. It is enough if he has a working knowledge of these subsidiary languages to enable him to converse in that language with understanding."

In this table, data on bilingualism are presented only for selected languages/mother-tongues L/MTs). The selection of these L/MTs has been done on the basis of all India Table C-VI—Bilingualism of 1961 and a list of L/MTs was devised for all India. This list formed the basis for preparing the table on bilingualism. The rural table was processed manually and the urban table on the computer. The tables for rural and urban areas as pooled are presented here.

Columns 2, 3 and 4 of the table give the total number of speakers of L/MT inclusive of MTs grouped under it. Columns 5, 6 and 7 give figures of such of the speakers who returned a second language, that is to say, any other L/MT not accounted for in columns 2, 3 and 4. Column 8 contains in 'run on' fashion the names of subsidiary L/MTs inclusive of L/MTs wherever grouped by number of male and female speakers within brackets.

Language/Mother tongue	Total speakers			Number also speaking a second language/other tongue			Columns (6 & 7) classified by second language/other tongue
	Persons	Males	Females	Persons	Males	Females

FERTILITY TABLES

[F I To F V]

TABLE F-I

Distribution of Currently Married Women and the Related Births During the Last Year by Religion, Present Age and Age at Marriage (Rural/Urban)

F I—Distribution of currently married women and the related births during the last year by religion, present age and age at marriage

FLY LEAF

This table gives the distribution of currently married women and the children born to them during the last one year by religion, present age and age at marriage. This table is presented at the Union Territory level only and consists of two parts. Part A gives the statistics for rural areas and Part B for urban areas.

The age at marrige has been classified into the following—less than 13, 13—17, 18—22, 23—27 and 28+. Those whose age at marriage has not been reported has been shown under 'unspecified'. The present age of currently married have been tabulated under less than 13, 13—17, 18—22, 23—27, 28—32, 33—37, 38—42, 43—47 and 48+. Hence again where age has not been reported, they have been shown under 'unspecified'. Religions for which separate figures have been presented are Hinduism, Islam, Christianity, Sikhism, Buddhism, Jainism and others. A category 'religion not stated' has also been shown for those who did not report any religion.

The data presented in this table will be helpful in deriving differentials by religion in median age at marriage and in age specific marital fertility rate, total and general marital fertility rate for various age (at marriage) groups.

In an appendix to this table, information given in the two parts of the main table have been presented for Scheduled Castes only.

TABLE F-II

Distribution of Currently Married Women and the Related Births During the Last Year by Education, Present Age and Age at Marriage (Rural/Urban)

F-II Distribution of Currently Married Women and the Related Births During the Last Year by Education, Present Age and Age at Marriage

FLY LEAF

This table gives the distribution of currently married women and children born to them during the last one year, by educational levels, age at marriage, and present age. This table, like Table F I, is presented for the Union Territory as a whole and is in two parts. Part A gives the data for rural areas and Part B for urban areas.

The classification of age at marriage, and present age are the same as adopted in Table F-I. The educational levels adopted in this table are—illiterate, literate but less than matriculate, Matriculate and above but less than graduate and graduate and above. The category 'literate but lessthan matriculate' includes figures of educational levels not classifiable.

The data presented will help in deriving differentials by education in median age at marriage and in age specific marital fertility rate, total marital fertility rate and general marital fertility rate for various age (at marriage) groups.

15—2 Census/TN & P/77

F-III Distribution of Currently Married Women and the Related Births During the Last Year by Religion, Duration of Marriage and Age at Marriage

FLY LEAF

In this table, the distribution of currently married women and the related births during the last one year, classified by religion, duration of marriage, and age at marriage, are presented at the Union Territory level. As in the previous tables F I and F II, this table has also two parts, Part A relating to rural areas and Part B relating to Urban areas.

The classifications for religion, and age at marriage, are similar to those shown in Table F I. The duration of marriage has been grouped under less than one year, 1—4 years, 5—9 years, 10—14 years, 15—19 years, 20—24 years, 25—29 years and 30+. Those whose duration of marriage could not be ascertained have been shown under 'unspecified'.

In the appendix to this table, details for the Scheduled Caste population as a whole are shown as in the two parts of the main table.

The data presented in the table will help in deriving differentials by religion, in duration specific marital fertility rate for various age (at marriage) groups.

TABLE-F IV

Distribution of Currently Married Women and the Related Births During the Last Year by Education, Duration of Marriage and Age at Marriage (Rural/Urban)

F IV—Distribution of Currently Married Women and the Related Births During the Last Year by Education, Duration of Marriage and Age at Marriage

FLY LEAF

As in Table F II, the distribution of currently married women and their related births are given by educational levels, duration of marriage and age at marriage. This table is presented for the Union Territory as a whole and is in two parts. Part A deals with rural areas and part B with urban areas.

The educational levels and age (at marriage) groups adopted are similar to those shown in Table F II. The duration of marriage classification is the same as in Table F III.

The data presented will help in deriving differentials by education, in duration, specific marital fertility rate for various age (at marriage) groups.

TABLE F-V

Distribution of Currently Married Women and the Related Births During the Last Year by Religion, Education Groups, Present Age and Age at Marriage (Rural/Urban)

F-V—Distribution of Currently Married Women and the Related Births During the Last Year by Religion, Education Groups, Present Age and age at Marriage

FLY LEAF

The distribution of currently married women and the related births during the last one year are shown by religion-cum-education groups, present age and age at marriage. This table, like all other fertility tables (F I to F IV), is presented at the Union Territory level with separate details for rural and urban areas.

The groupings adopted for religion, present age and age at marriage, are the same as in Table F I. The groupings shown for educational levels are similar to those shown in Table F II.

The data presented will help in deriving differentials by religion-cum-education groups in median age at marriage, and in age specific marital fertility rate, total marital fertility rate, and general marital fertility rate for various age (at marriage) groups.
