INTRODUCTION

This volume contains nine special tables on scheduled castes and scheduled tribes (SC and ST tables) of Maharashtra. Four out of these nine tables relate to the SCs and the remaining five pertain to the STs. Two tables of SCs (SC I and SC III) and two tables of STs (ST I and ST III) are presented in two parts (Parts A and B).

The social and cultural table, C-VIII (Parts A and B), which presents data on literacy and economic activities of the SCs and STs as a whole as well as for individual castes and tribes, has already been published in Part II-C(i) (Maharashtra, 1971 census).

The special tables presented in this volume are on the lines of the special tables on SCs and STs published after the 1961 census. They provide comparable data.

After the primary tabulation of the 1971 census data at the regional tabulation offices, manual re-sorting of the individual slips was undertaken to prepare these special tables. The tables are based on a full count.

Question 11 in the individual slip of the 1971 census related to SC and ST. The questions contained in the individual slip and the instructions issued to enumerators for recording the answers to questions are given in appendix I. Answers to this question were cross tabulated with answers to other questions in the individual slip and the special tables presented in this volume were prepared.

A brief description of the data contained in the special tables and the relevant questions of the individual slip (answers to which formed the basis of the tables) are given in appendix II. An explanatory note is given before each table to explain its layout, method of presentation and concepts used. A few general aspects common to all the tables and some of the concepts and definitions adopted in the 1971 census so far as they are relevant to the material presented in this volume are explained in this indroductory note.

Scheduled castes and Scheduled tribes

Under articles 341 and 342 of the Constitution of India certain castes, races and tribes are declared as scheduled castes and scheduled tribes, respectively. The first order under articles 341 and 342 was issued by the President in 1950. That order contained *inter alia* three parts of schedules applicable to the three erstwhile states of Bombay, Madhya Pradesh and Hyderabad. The 1950 order was modified by the Scheduled castes and Scheduled tribes orders (amendment) act, 1956. Consequent upon the reorganisation of states in 1956, the lists as amended by the 1956 act were notified in a revised form as applicable to the new states. After bifurcation of the bigger bilingual state of Bombay and formation of Gujarat and Maharashtra the revised order of 1956 was again amended.

The declared lists of SCs and STs in Maharashtra at the time of the 1971 census were the same as those mentioned in Part VII-A Maharashtra in the seventh schedule (for scheduled castes) and eighth schedule (for scheduled tribes) appended to the Bombay reorganisation act of 1960. In substance *i.e.*, to the extent of names of castes and tribes included in it, the 1960 lists of scheduled castes and scheduled tribes are, except for a minor change, the same as had been declared through the Scheduled castes and Scheduled tribes orders (amendment) act of 1956.

The contents of the President's lists of SCs/STs appended to the Bombay Reorganisation act 1960 are reproduced in appendix III.

Scheduled castes not reported in the 1971 census

Seven scheduled castes (1) Anamuk, (2) Arwa Mala, (3) Bahna, (4) Chadar, (5) Halleer, (6) Mala Hannai, and (7) Samagara were not returned by any one in the respective specified areas in the 1971 census.

Anamuk, Mala Hannai and Samagara are from the regional list applicable to the districts of Aurangabad division, and to Rajura tahsil in Chandrapur district. Chadar is from the regional list pertaining to the Nagpur division and is applicable to Bhandara district only. Halleer is from the regional list applicable to the districts of Bombay and Poona divisions. Bahna is from the regional list applicable to the districts of Nagpur division (except Rajura tahsil in Chandrapur district).

Scheduled tribes not reported in the 1971 census

Nine scheduled tribes (1) Bhaina, (2) Birhul or Birhor, (3) Gadaba or Gadba, (4) Khairwar, (5) Kondh or Khond or Kandh, (6) Korwa including Kodaku, (7) Majhwar, (8) Munda, and

(9) Saonta or Saunta were not returned by anyone in the respective specified areas in the 1971 census. All the nine names are from the regional list of scheduled tribes applicable to the districts of Nagpur division. No one belonging to these tribes was reported in the six specifically notified tahsils during the census enumeration.

Area restrictions

It is to be noted that all the scheduled castes are not notified for the entire area of the state. It has already been mentioned that although there is one list of scheduled castes, in reality it comprises three independent regional lists brought together. Some of the scheduled castes, *viz.*, Bhangi, Chalvadi, Chamar, Dhor, Mahar and Mang, figure in two or all the three regional lists, though in different groups with different sub-castes or synonyms. Only Bhangi, Chambhar, Mahar and Mang appearing in the three regional lists can be recognised as such in all areas of Maharashtra. Area restriction is, therefore, a basic limitation to be always remembered while using the figures of population or characteristics of scheduled castes presented in the census tables. When the tables present scheduled caste figures for the state, division or district, it is always implied that the presentation is only for the restricted area notified against each scheduled caste as per the President's order.

The areas notified for each scheduled caste are shown in appendix IV.

Scheduled tribes also are not notified for the entire area of the state. There were 218 persons belonging to the Bhunjia in Maharashtra. In fact, all these 218 persons were confined to Melghat, Kelapur, Wani, Yeotmal, Gadhchiroli and Sironcha tahsils of Nagpur division as Bhunjia has been notified for these six tahsils only. The areas notified for each scheduled tribe are shown in appendix V.

The castes/tribes are presented in alphabetical order and names of castes (including sub-castes) and tribes (including sub-tribes) are exactly the same as those appearing in the President's order. The scheme of presentation of table C-VIII which differs from that of the present special tables may be found in the introduction and fly-leaves to table C-VIII parts A and B published in part II-C(i) (Maharashtra, 1971 census).

Concepts and definitions

A few important concepts which the reader will come across in the tables are explained below:--

Age.—The age of a person was recorded in the census in total years completed last birthday.

Literacy.—A person who could both read and write with understanding in any language was taken as a literate. All children of the age of four years or less were treated as illiterates.

Educational level.—The highest educational level attained by the person enumerated was recorded. When a person held both general and technical qualifications of equivalent level, the technical qualification was taken into account for recording the highest educational level.

Workers and non-workers.—In the 1971 census a worker was defined as a person whose main activity was participation in any economically productive work through his physical or mental activity. Work involved not only actual work but effective supervision and direction of work. In cases of regular work in trade, profession, service or business, a person was considered as a worker if he had participated in such regular work on any one of the days during the week preceding the date of enumeration and that work had been returned as his main activity. A person participating in regular work, but absent from his work during the week preceding the date he was enumerated, owing to illness, travel, holiday, strike, temporary breakdown, etc. was treated as a worker.

In the case of work such as cultivation, livestock, plantations, some type of household industries, etc., a person was treated as a worker after ascertaining whether he had participated in any work any time during the preceding year even if he was not economically active in the week prior to enumeration. These related mainly to seasonal work. Persons under training as apprentices with or without a stipend were recorded as workers.

A public or social worker engaged actively in public or social work or a political worker actively engaged in furthering the political aims of a party was also regarded as a worker. Under-trials or persons who were in jail but were not convicted by a court of law were recorded as workers if they were engaged in any of the activities which was considered by definition as work, before they were arrested. Similarly, persons who were admitted to hospitals or sanatoria were considered as workers if they were engaged in activities which were considered as work before they were admitted.

A person who had secured employment or was offered a job but had not actually joined duty was not treated as a worker. A person

who was engaged primarily in household duties such as cooking for one's own household or performing one's own household duties or a boy or a girl who was primarily a student attending an institution, even if such a person helped in the family's economic activity but not as a full time worker, was not treated as worker for the main activity. On the other hand, if a person was primarily engaged in some economic activity but at the same time also attended to some household chores or a night school etc. he was treated basically as a worker for the main activity. A person who merely received income such as rent or pension and who did not have to work for receiving that income, was not treated as worker unless he had returned some economic activity and if that activity was returned as the main activity of the individual.

Non-workers are those who are not mainly engaged in any economically productive work. They comprise seven broad groups (*i*) those basically engaged in unpaid household duties and doing no other work, (*ii*) full time students and children attending school, (*iii*) retired persons, not employed again in some full-time work and rentiers, (*iv*) all dependants such as infants and children not attending school, persons permanently disabled from work owing to illness, old age, etc., (*v*) beggars, vagrants, independent women without indication of source of income, those of unspecified sources of subsistence, (*vi*) inmates of penal, mental or charitable institutions, convicts in jails, and (*vii*) all non-workers who may not come under any of the six categories but are seeking work.

Industrial categories

The working population has been classified in to the following nine broad industrial categories:—

I cultivators;

II agricultural labourers;

III livestock, forestry, fishing, hunting, plantations, orchards and allied activities;

IV mining and quarrying;

V manufacturing, processing, servicing and repairs etc. (a) household industry (b) other than household industry;

VI construction;

VII trade and commerce;

VIII transport, storage and communications; and

IX other services.

Category I.—Both owner cultivators and tenant cultivators. Apart from workers personally working on land, those engaged in supervision or direction of cultivation are also included in this category.

Category II.—All other persons working on other persons' lands for wages in cash or kind without holding any right upon the land are classified as agricultural labourers and included in this category. Thus an agricultural labourer is a person working on another's land as a labourer and has no right or lease on the land on which he is working and is not, therefore, responsible for taking decisions as to the kind of crop to be sown and is paid wages in cash or kind.

Category III.—Workers in livestcok, forestry, fishing, hunting, plantations, orchards and allied activities are included in this category. This includes livestock production, hunting, trapping, game propagation, forestry and logging, fishing in sea, coastal and inland waters, collection of pearls, conches and other sea-products, etc.

Category IV.—Workers in mining and quarrying are included in this category. This includes coal mining, crude petroleum and natural gas production, metal ore mining, stone quarrying and other type of mining (salt, chemicals, precious stones, mica, gypsum, etc.).

Category V.—Has two groups—shousehold and other than household. A household industry is defined as an industry conducted by the head of the household himself and/or by the members of the household at home or within the village in rural areas and only at home in urban areas. In urban areas, the industry must be confined to the house or at least a major part of the work must be located at home. The household industry is not run on the scale of factory. A household industry should relate to production, servicing, processing repairing or making and selling of goods, but should not be confined to the process of buying and selling only. It does not include professions such as doctor, astrologer, pleader, etc. Workers in manufacturing industry other than household industry include those engaged in all types of production, processing, servicing or repairing of goods. This category does not include production or processing which may be classified as "household industry".

Category VI.—This category includes workers engaged in construction and maintenance of buildings, roads, railways, bridges, telegraphs, telephones, waterways, reservoirs, etc.

Category VII.—This category comprises workers engaged in any capacity in wholesale or retail trading activity and commercial transactions relating to imports and exports, real estate and property, stocks and shares, insurance, money-lending, banking, etc.

Category VIII.—Under this category come workers engaged in transport activity by air, rail road or water and in services incidental to transport such as packing, carting, loading, unloading, etc. Workers engaged in storage, warehousing and communication, services such as posts, telegraphs, telephones, wireless signalling, information and broadcasting are also included.

Category IX.—This category includes (*i*) public utility services like electricity, gas or water supply, sanitary services, etc., (*ii*) central, state or municipal employees, (*iii*) professional services, (*iv*) trade or labour associations, recreational services, etc.

INSTRUCTIONS TO ENUMERATORS FOR RECORDING ANSWERS TO QUESTION 11 ON SCHEDULED CASTES OR SCHEDULED TRIBES

* * * *

You have been furnished with a list of scheduled castes and scheduled tribes notified for your State Ascertain if the person enumerated belongs to a scheduled caste or scheduled tribes and if he does, then record the name of the scheduled caste or scheduled tribe which should find place in the list furnished to you The answer should be recorded against the correct rectangle provided for the purpose against this question. For a person who is not a member of any scheduled caste or scheduled tribe write 'X' in both the rectangles.

If the person belonging to a scheduled caste or scheduled tribe returns his caste or tribe by synonym or generic name of a caste or a tribe it should be entered only if it finds a place in the list furnished to you Do not write the names of scheduled castes in general terms as 'Harijan' or 'Achhut'. You should ascertain the name of the case when it is returned and write it in the rectangle provided for recording the name. Similarly, do not write the names of scheduled tribes in general term as, 'Adivasi' You should ascertain the name of the tribe when it is returned and write it in the rectangle with broken lines provided for recording the same. If a person is negligent and insist on calling himself merely 'Harijan' or 'Achhut' or 'Adivasi', as the case may be, tell him that this description is not adequate for census purposes and persuade him to give out the actual name of the caste or tribe You should make all efforts to ascertain the correct name of the scheduled caste or scheduled tribe as found in the notified list. If the person merely claims to be a scheduled caste or scheduled tribe but says that he does not belong to any of the notified communities applicable to the area, he will not be entered as a scheduled caste or scheduled tribe

Scheduled castes can belong only to the Hindu or Sikh religion If a person belongs to scheduled caste there will be either 'H' or 'S' in the answer to question 10 Scheduled tribes may belong to any religion

TABLE SC-I PART A

INDUSTRIAL CLASSIFICATION OF PERSONS AT WORK AND NON-WORKERS BY SEX FOR SCHEDULED CASTES (RURAL)

TABLE SC-I PART B

INDUSTRIAL CLASSIFICATION OF PERSONS AT WORK AND NON-WORKERS BY SEX FOR SCHEDULED CASTES (URBAN)

EXPLANATORY NOTE

In these tables the population under each scheduled caste of Maharashtra is classified into workers and non-workers. Workers are further classified into the nine industrial categories. The scheduled castes are arranged according to alphabetical order. Figures for scheduled castes as a whole are also presented.

Table SC-I Part A relates to rural areas and table SC-I Part B relates to urban areas of Maharashtra. Figures are presented for Maharashtra, its four administrative divisions and 26 districts.

The economic classification of scheduled castes as a whole has already been presented in table C-VIII Part A published in Part II-C (i) (Maharashtra 1971 Census). The present tables give the caste-wise break-up.

The last group of 'unclassified' appearing in the table relates to persons who were returned as belonging to scheduled castes without mentioning the names of the actual castes.

AGE AND MARITAL STATUS FOR SCHEDULED CASTES

EXPLANATORY NOTE

This table gives the distribution of the population of each scheduled caste by sex, age groups and marital status. The figures are presented for Maharashtra, its four administrative divisions and 26 districts. Rural urban break-up is, however, not given.

The three broad age groups adopted in this table are 0—14, 15—44 and 45 and above. The last group of "age not stated" includes persons in whose case age had not been returned.

Answers relating to marital status were recorded against Q. 5 of the individual slip and are classified in the table into four categories which are explained below :—

Never married.—Persons who have never been married come under this category.

Married.—Those who are currently married whether for the first time or thereafter come under this category. Those recognised as married by custom or society or those in stable *de facto* union are included in this category.

Widowed.—Those whose husbands or wives are dead and who have not married again are included in this category.

Divorced or separated.—Persons who have been divorced either by a decree of a law court or by a regular social or religious custom but who have not remarried are considered as divorced. Those who have been separated from wives or husbands and are staying apart with no apparent intention of living together again are treated as "separated". The table shows only the combined figures for "divorced" or "separated".

While compiling a similar table C-II [published in the census volume Part II-C(ii), Maharashtra] for the general population, all persons in the age group 0—9 have been treated as never married irrespective of the answer to Q. 5 of the individual slip. While compiling the present table (SC-II), however, this assumption was not made. The marital status classification for all persons including those in the age group 0—14 has been made with reference to the marital status actually returned during the census, Consequently the figures of marital status for the total and the age group 0—14 shown in this table may not be consistent with the corresponding figures shown in table C-II of Maharashtra.

TABLE SC-III PART-A

EDUCATION IN URBAN AREAS ONLY FOR SCHEDULED CASTES

TABLE SC-III PART-B

EDUCATION IN RURAL AREAS ONLY FOR SCHEDULED CASTES

EXPLANATORY NOTE

These tables present the distribution of scheduled caste population of Maharashtra by sex and educational levels. The figures are presented for all the scheduled castes as a whole as well as for each individual scheduled caste separately.

The educational levels adopted for classification are more elaborate for urban areas and the figures are therefore, presented in two separate parts—Part A for urban areas and Part B for rural areas. In each part, data are presented for Maharashtra its four administrative divisions and 26 districts. The table relating to rural areas (Part B) classifies the population according to the following educational levels : (i) illiterate, (ii) literate (without educational level), (iii) primary or junior basic, (iv) matriculation and above but below graduate, and (v) graduate and above. In the 1961 census the fourth group was limited to 'matriculation or higher secondary' and the fifth and last group was "above matriculation or higher secondary". The number of persons who had graduated was not presented separately in the corresponding 1961 census table (Table SCT-III Part B(i)).

The table relating to urban areas (Part A) presents data for the following educational levels —(i) illiterate (ii) literate (without educational level), (iii) primary or junior basic, (iv) matriculation or higher secondary, (v) non-technical diploma not equal to degree, (vi) technical diploma not equal to degree, (vii) university degree or post-graduate degree other than technical degree, (viii) technical degree or diploma equal to degree or post-graduate degree.

A literate is defined as one who has the ability to read and write with understanding in any language, a simple letter either in print or in manuscript. If a person who could both read and write, had also passed written examination as proof of an educational level attained, the highest examination passed was recored in the census slip Only the educational levels already attained have been taken into consideration in the tables. For example a person studying in the B.A. Class was not treated as a graduate. He was shown against "matriculation and above but below graduate" in rural areas and against "matriculation or higher secondary" in urban areas. Technical or non-technical degree or diploma was also counted in case a person had technical or non-technical qualification in urban areas.

In a few cases where the answer to the question on literacy was blank or inadequate, the persons concerned have been treated as illiterate unless the answers to the economic questions indicated that they could be literated. In the latter case they were classified under "literate (without educational level)".

TABLE SC-IV

PERSONS NOT AT WORK CLASSIFIED BY SEX, TYPE OF ACTIVITY AND EDUCATIONAL LEVEL FOR SCHEDULED CASTES

TABLE SC-IV—

Persons not at work classified by sex, type of activity and educational levels for scheduled castes

EXPLANATORY NOTE

This table presents the distribution of non-working population among the scheduled castes of Maharashtra by sex, type of activity and educational levels. The table confines itself to the scheduled castes as a whole without giving individual caste figures. The figures are presented for Maharashtra, its four administrative divisions and 26 districts. Under each administrative unit figures of total, rural and urban areas are given separately.

The non-workers are classified according to the following types of activity : (i) students, (ii) persons engaged in household duties, (iii) dependants and infants, (iv) retired, rentier and persons of independant means, (v) beggars, vagrants, etc., (vi) inmates of penal, mental & charitable institutions and (vii) others.

The last group of 'others' includes persons seeking employment for the first time as well as persons employed before but now out of employment and seeking work. In 1961 figures for these two groups and "full time students" were presented in the corresponding tableS C-I and all the above groups of 1971 except and "Students" were included in "others".

The classification by educational levels is by a vertical spread under column 1.

TABLE ST-I PART A

INDUSTRIAL CLASSIFICATION OF PERSONS AT WORK AND NON-WORKERS BY SEX FOR SCHEDULED TRIBES (RURAL)

TABLE ST-I PART B

INDUSTRIAL CLASSIFICATION OF PERSONS AT WORK AND NON-WORKERS BY SEX FOR SCHEDULED TRIBES (URBAN)

EXPLANATORY NOTE

In these tables, the population under each scheduled tribe of Maharashtra is classified into workers and non-workers. Workers are further classified into the nine industrial categories. The scheduled tribes are arranged according to alphabetical order. Figures for scheduled tribes as a whole are also presented.

Table ST-I Part A relates to rural areas and table ST-I Part B relates to urban areas of Maharashtra. Figures are presented for Maharashtra, its four administrative divisions and 21 out of 26 districts. The remaining five districts viz., Buldana, Akola, Wardha, Nagpur and Bhandara are not shown in the tables as no tribe was notified in these districts.

The economic classification of scheduled tribes as a whole has already been presented in table C-VIII Part B published in the volume Part II-C(i) of Maharashtra. The present tables give the tribe-wise break up.

The last group of 'unclassified' appearing in the table relates to the persons who were returned as belonging to scheduled tribes without mentioning the names of the scheduled tribes.

ST-II

AGE AND MARITAL STATUS FOR SCHEDULED TRIBES

EXPLANATORY NOTE

This table gives the distribution of the population of each scheduled tribe by sex, broad age groups and marital status. The figures are presented for Maharashtra, its four administrative divisions and 21 districts out of 26 districts of the state. Rural-urban break-up is, however, not given. Five districts viz., Buldana, Akola, Wardha, Nagpur and Bhandara are not shown in the table as no tribe was notified in these districts.

The three broad age groups adopted in this table are 0—14, 15—44 and 45 and above. The last group of 'age not stated' includes persons in whose case age had not been returned.

Answers relating to marital status were recorded against Q. 5 of the individual slip and are classified in the table into four categories which are explained below :—

Never married.—Persons who have never been married come under this category.

Married.—Those who are currently married, whether for the first time or thereafter come under this category. Those recognised as married by custom or society or those in stable *de facto* union are included in this category.

Widowed.—Those whose husbands or wives are dead and who have not married again are included in this category.

Divorced or separated—Persons who have been divorced either by a decree of a law court or by a regular social or religious custom but who have not remarried are considered as divorced. Those who have been separated from wives or husbands and are staying apart with no apparent intention of living together again are treated as 'separated'. The table shows only the combined figures for "divorced or separated".

While compiling a similar table C-II for the general population which is presented in Part II-C(ii) (Maharashtra 1971 census), all persons in the age group 0—9 have been treated as never married irrespective of the answer to Q. 5 of the individual slip. While compiling the present table (ST-II) however, this assumption was not made. The marital status classification for all persons including those in the age group 0—14 has been made with reference to the marital status actually returned during the census and consequently, the figures of marital status for the total and the age group 0–14 shown in this table may not be consistent with the corresponding figures shown in table C-II of Maharashtra.

ST-III PART A

EDUCATION IN URBAN AREAS ONLY FOR SCHEDULED TRIBES

ST-III PART B

EDUCATION IN RURAL AREAS ONLY FOR SCHEDULED TRIBES

40—2 Census Maha./76

EXPLANATORY NOTE

These tables present the distribution of scheduled tribe population of Maharashtra by sex and educational levels. The figures are presented for all the scheduled tribes as a whole as well as for each individual scheduled tribe separately.

The educational levels adopted for classification are more elaborate for urban areas and the figures are, therefore, presented in two separate parts—Part A for urban areas and Part B for rural areas. In each part, data are presented for Maharashtra, its four administrative divisions and 21 districts out of 26 of the state. Five districts, viz., Buldana, Akola, Wardha, Nagpur and Bhandara are not shown in the table as no tribe was notified in these districts.

The table relating to rural areas (Part B) classifie the population according to the following educational levels :—

(i) illiterate, (ii) literate (without educational level), (iii) primary or junior basic, (iv) matriculation and above but below graduate) and (v) graduate and above. In the 1961 census the last group was limited to matriculation and above. The number of persons who had graduated was not presented separately in the corresponding 1961 census table (Table SCT-III Part B(ii).).

The table relating to urban areas (Part A) presents data for the following educational levels :—

(i) illiterate, (ii) literate (without educational level) (iii) primary or junior basic, (iv) matriculation higher secondary, (v) non-technical diploma not equal to degree, (vi) technical diploma not equal to degree, (vii) university degree or post-graduate degree other than technical degree and (viii) technical degree or diploma equal to degree or post-graduate degree.

A literate is defined as one who has the ability to read and write with understanding in any language a simple letter either in print or in manuscript. If a person who could both read and write, had also passed a written examination as a proof of an educational level attained, the highest examination passed was recorded in the census slip. Only the educational levels already attained has been taken into consideration in the tables. For example, a person studying in the B.A. class was not treated as a graduate He was shown against 'matriculation and above but below 'graduate', in rural areas and against 'matriculation or higher secondary' in urban areas. Technical or non-technical degree or diploma was counted in case a person had technical or non-technical qualification in urban areas.

In a few cases where the answer to the question on literacy was blank or inadequate, the persons concerned have been treated as illiterate unless the answer to the economic questions indicated that they could be literate. In the latter case they were classified under 'literate (without educational level'.

PERSONS NOT AT WORK CLASSIFIED BY SEX TYPE OF ACTIVITY AND EDUCATIONAL LEVEL FOR SCHEDULED TRIBES

EXPLANATORY NOTE

This table presents the distribution of non-working population among the scheduled tribes of Maharashtra by sex, type of activity and educational levels. The table confines itself to the scheduled tribes as a whole without giving individual tribe figures.

The figures are presented for Maharashtra, its four administrative divisions and 21 districts out of 26. The remaining five districts, viz., Buldana, Akola, Wardha, Nagpur and Bhandara are not shown in the table as not tribe was notified in these districts. Under each administrative unit figures for total, rural and urban areas are given separately.

The non-workers are classified according to the following types of activity :—

(i) students, (ii) persons engaged in household duties, (iii) dependents and infants, (iv) retired, rentiers and persons of independent means, (v) beggars, vagrants, etc., (vi) inmates of penal, mental and charitable institutions and (vii) others.

The last group of 'others' includes persons seeking employment for the first time as well as persons employed before but now out of employment and seeking work. In 1961 figures for these two groups and 'full time students' were presented in the corresponding table ST-II and all the above groups of 1971 except "students" were included in "others".

The classification by educational levels is by vertical spread under column 1.

RELIGION FOR SCHEDULED TRIBES

EXPLANATORY NOTE

This table shows the distribution of the population of each scheduled tribe by religion. The figures are presented for all the scheduled tribes as a whole as well as for each scheduled tribe separately. The presentation is for Maharashtra and 21 out of 26 districts. Total, rural and urban figures are shown separately. Five districts, viz., Buldana Akola, Wardha, Nagpur and Bhandara are not presened in the table as no tribe was notified in these districts.

The classification of scheduled tribes by religion is based on the answers returned to Q. 10 religion and Q. 11 scheduled caste/scheduled tribe in the census slip. Unlike the scheduled castes, who could belong only to Hindu and Sikh religions, members of scheduled tribes may belong to any religion. In the present table, figures are given for Christian and Hindu religions in separate columns (column 6 to 9) as these two account for the largest population of the scheduled tribe population. Figures do appear separately for other religions but they are presented in the column entitled 'other religions', in run-on lines. In this column (column 10) the name of the religion is given first followed in brackets by T (Total) R (Rural) or U (Urban) and the figures by males and females. Religions are presented in alphabetical order.
