SPECIAL TABLES FOR SCHEDULED CASTES

A. CHANDRA SEKHAR
OF THE INDIAN ADMINISTRATIVE SERVICE
Registrar General & Census Commissioner, India

FOREWORD

Our Constitution provides certain safeguards for scheduled castes and scheduled tribes. Such communities are notified by a Presidential order. For the purpose of the 1971 census the Scheduled Castes and Scheduled Tribes Lists (Modification) Order, 1956, as amended from time to time to reflect jurisdictional and other changes were adopted. The data thus collected were processed manually and a set of special table for the scheduled castes and scheduled tribes has been prepared in the hope that these will be of value for the planning and implementation of welfare measures in respect of these socially and economically handicapped communities.

The special tables are presented in two volumes [Part VA(i) scheduled castes and Part VA(ii) scheduled tribes] conforming to the pattern adopted in the 1961 census.

The data were processed manually in the first instance at the various state/union territory directorates of census operations. These were scrutinised and finalised at the central tabulation unit of the Registrar General's office under the supervision of Shri S. C. Srivastava, assistant central tabulation officer. I express my appreciation of the pains taken by all those who were engaged in the task of preparing these tables. I thank the Manager, Government of India Press, Nasik-6 and his colleagues for printing this volume.

GENERAL NOTE

The present volume provides data pertaining to scheduled castes. The tables included in this volume correspond to those published in Volume 1—Part VA (i) of the 1961 census.

In the Indian censuses prior to 1931, information was collected and published for each caste or tribe separately. In the 1931 census, tabulation of data for individual communities was limited to: (i) Exterior castes (ii) Primitive castes and (iii) All other castes with the exception of

(a) those whose members fell short of four per thousand of the total population and (b) those for which separate figures were deemed to be unnecessary by the local government.

In the 1941 census, 'group totals' were tabulated for scheduled castes, tribes and Anglo-Indians. Separate totals were furnished only for a few selected individual tribes.

Pursuant to the policy of the Government of India to discourage community distinction based on caste or creed, the 1951 census made a complete departure from the traditional recording of race, tribe or caste. The only relevant question incorporated in the 1951 census schedule was to enquire if the person enumerated was a member of any scheduled caste or any scheduled tribe or any other backward class or if he was an Anglo-Indian. The data were published in the following three tables:—

Table I — Scheduled castes:

Distribution of members of scheduled castes by livelihood classes, by rural-urban and sex break-up;

Table II — Scheduled tribes:

Distribution of members of scheduled tribes by livelihood classes, by rural-urban and sex break-up;

Table III — Anglo-Indian:

Population of Anglo-Indians for India, each zone and state/union territory by sex break-up.

At the 1961 census, it was decided to have detailed tabulation of the social, economic, demographic and educational characteristics relating to each scheduled caste and scheduled tribe separately. Fifteen tables relating to these two groups were prepared and published in the two all India volumes Part VA(i) and Part VA(ii).

At the 1971 census also comparable tables for scheduled castes and scheduled tribes have been prepared and are presented in the two all-India volumes Part VA(i) and Part VA(ii). Part VA(i) is devoted entirely to the scheduled castes and Part VA(ii) to the scheduled tribes.

The scheduled castes and scheduled tribes are those which were notified under article 341 of the Constitution. According to this article, the President may with respect to any state or union territory and where it is a state, after consultation with the Governor thereof, by public notification, specify the castes, races or tribes or parts of, or groups within castes, races or tribes which shall for the purposes of the Constitution be deemed to be scheduled castes or scheduled tribes in relation to that state or union territory, as the case may be.

For the purpose of the 1971, census, the scheduled castes and scheduled tribes lists (modification) order, 1956 issued under the Government of India, Ministry of Home Affairs notification no. SRO-2477A dated 29 October 1956 was adopted. Amendments issued to reflect jurisdictional changes that were effected after the 1956 order was issued were taken into account.

Though Mizoram has now become a separate union territory, data relating to this territory are shown under Assam state (Mizo district) in various tables. According to the Presidential order, referred to above, there are no scheduled castes in relation to Nagaland, Andaman & Nicobar islands and Lakshadweep (LM & A islands) and there are no scheduled tribes in relation to Haryana, Jammu and Kashmir, Punjab, Chandigarh, Delhi and Pondicherry.

Sikkim has now become a constituent state of the Indian union. No caste or tribe has been scheduled under the Constitution in relation to Sikkim. However, three castes, viz., Kami, Damai and Sarki declared as scheduled castes under the Representation of Sikkim subjects regulation, 1966 have been reckoned as such in these tables.

The figures for India and Andaman & Nicobar islands are exclusive of the Jarawas and Sentinelese tribes of those islands. These tribesmen could not be contacted and hence no information pertaining to them could be collected at the 1971 census.

The question adopted in the 1971 census to elicit information about members of scheduled castes and scheduled tribes and the instructions to the enumerator in this regard are reproduced below.

Question 11: Scheduled caste or scheduled tribe.

You have been furnished with a list of scheduled castes and scheduled tribes notified for

your state. Ascertain if the person enumerated belongs to a scheduled caste or scheduled tribe and if he does, then record the name of the scheduled caste or scheduled tribe which should find place in the list furnished to you. The answer should be recorded against the correct rectangle provided for the purpose against this question. For a person who is not a member of any scheduled caste or scheduled tribe write 'X' in both the rectangles.

If the person belonging to a scheduled caste or scheduled tribe returns his caste or tribe by synonym or generic name of a caste or a tribe it should be entered only if it finds a place in the list furnished to you. Do not write the names of scheduled castes in general terms as 'Harijan' or 'Achhut'. You should ascertain the name of the caste when it is returned and write it in the rectangle provided for recording the name. Similarly, do not write the names of scheduled tribes in general term as 'Adivasi'. You should ascertain the name of the tribe when it is returned and write it in the rectangle with broken lines provided for recording the same. If a person is negligent and insists on calling himself merely 'Harijan' or 'Achhut' or 'Adivasi' as the case may be, tell him that this description is not adequate for census purposes and persuade him to give out the actual name of the caste or tribe. You should make all efforts to ascertain the correct name of the scheduled caste or scheduled tribe as found in the notified list. If the person merely claims to be a scheduled caste or scheduled tribe but says that he does not belong to any of the notified communities applicable to the area, he will not be entered as a scheduled caste or scheduled tribe.

Scheduled castes can belong only to the Hindu or Sikh religions. If a person belongs to scheduled caste, there will be either 'H' or 'S' in the answer to question 10. Scheduled tribes may belong to any religion.

In the 1961 census, the enumerators had been provided with a set of synonyms and generic names of the scheduled castes and scheduled tribes so that a person who returned his caste or tribe by any synonym or generic name was enumerated as scheduled caste or scheduled tribe, irrespective of whether such synonym or generic name found a place in the notified list. In the 1971 census, however, in view of a Supreme Court judgment on the subject, the notified list of scheduled castes and scheduled tribes applicable to each state and union territory had to be strictly followed and the synonyms or generic names of such communities could not be recognised for purpose of enumeration as scheduled caste or scheduled tribe. There was, therefore, a possibility that despite specific instructions to enumerators to make every efforts to elicit the correct name of the caste or tribe, some persons might have returned themselves by some synonym, local name or generic name and suffered omission from enumeration as a member of a scheduled caste or a scheduled tribe.

In spite of specific instructions on the subject, it was found that in some individual slips of scheduled castes and scheduled tribes, the name of caste or tribe was not entered and returns in general terms such as 'Harijan', 'Adivasi', 'Achhut', etc., were found. There was, however, no doubt that the person so returned belonged to a scheduled caste/scheduled tribe. Such returns were treated as 'unspecified' scheduled castes or scheduled tribes as the case might be.

In the present volume, statistics of scheduled castes/scheduled tribes are presented for each state/union territory for rural and urban areas by sex. Corresponding data upto district level will be found in the respective state/union territory volume. In this volume no attempt has been made to consolidate castewise or tribewise data at the country level owing to the following reasons:—

(i) Some of the communities which are notified as scheduled castes or scheduled tribes in some states are notified as sub-castes or subtribes of other castes or tribes in some other states.

(ii) Some communities which are scheduled castes in some states are notified as scheduled tribes in a few other states.

(iii) There are some cases where communities which are treated as synonyms of scheduled castes or scheduled tribes in a few states are shown as independent scheduled castes or scheduled tribes in other states.

(iv) In the case of some communities notified under the same caste or tribe names, it appeared that they were different communities in different states.

For these reasons, it was felt that consolidation of castewise/tribewise figures at the India level might give a misleading picture owing to combination of variables and so these have been presented castewise/tribewise at the state/union territory level in this volume (and at the district level in the state/union territory volume) in strict conformity with the Scheduled castes and scheduled tribes lists (modification) order, 1956, and subsequent orders issued by the Government. The figures at India level are the 'totals' of all scheduled castes/scheduled tribes and not for individual caste or tribe.

The terms and definitions used in the tables such as 'worker', 'non-worker', 'levels of education', etc. have been explained in the fly-leaf of the relevant table. The terms 'urban' and 'rural' according to which these statistics have been presented are defined below.

The definition adopted for an urban area for the 1971 census was—

(a) All places with a municipality, corporation, cantonment or notified town area. (b) All other places which satisfied the following criteria:—(i) A minimum population of 5,000; (ii) At least three-fourth of the male working population being non-agricultural; (iii) A density of population of at least 400 per km² (i.e. 1000 per sq. mile).

The state directors were given some discretion in respect of some marginal cases in consultation with the state governments to include some places that had other distinct urban characteristics and to exclude underserving cases. All other places were treated as rural areas or villages.

In the present volume special tables relating to scheduled castes are given as under:—

PART V (i)

(I) SC-I Part A Industrial classification of persons at work and non-workers by sex for scheduled castes (Rural).

(II) SC-I Part B Industrial classification of persons at work & non-workers by sex for scheduled castes (Urban).

(III) SC-II Age and marital status for scheduled castes.

(IV) SC-III Part A Education in urban areas only for scheduled castes.

(V) SC-III Part B Education in rural areas only for scheduled castes.

(VI) SC-IV Persons not at work classified by sex, type of activity and educational levels for scheduled castes.

The general note is followed by two appendices. Appendix I gives the list of the scheduled castes/scheduled tribes and the areas in which the individual communities are scheduled according to the scheduled castes/scheduled tribes lists (Modification) order, 1956 and subsequent notifications in relation to each state and union territory.

Appendix II consists of five statements:—

I. Percentage distribution of members of scheduled castes and scheduled tribes in rural and urban areas to the total population.

II. Percentage distribution of total population of members of scheduled castes and scheduled tribes in states and union territories.

III. Population of members of scheduled castes and scheduled tribes in urban areas and their percentage to total population of scheduled castes and scheduled tribes in the states/union territories.

IV. Literacy rates among scheduled castes and scheduled tribes.

V. Percentage distribution of workers and non-workers among total population of scheduled castes/scheduled tribes.

Each of the tables presented in this volume is preceded by a fly-leaf which explains the broad features of the table and the mode of presentation of data in that table.

*Includes Union Territory of Mizoram which was carried out of Assam after the 1971 Census.

NOTE : Proportions shown against Sikkim relate to the castes declared as scheduled castes under the Representation of Sikkim Subjects Regulation (1966) and, accordingly, proportions worked out for all-India are inclusive of scheduled castes pertaining to Sikkim. No caste or tribe has been scheduled under the Constitution in relation to Sikkim.

S. C. I PART A—Industrial classification of persons at work and non-workers by sex for scheduled castes (Rural).

S. C. I PART B—Industrial classification of persons at work and non-workers by sex for scheduled castes (Urban).

FLY-LEAF

This table gives the disribution of the scheduled caste population into two broad divisions (i) workers and (ii) non-workers: workers are further classified into nine industrial categories. This table has been prepared in two parts. Part A presents data for rural areas and Part B for urban areas. Figures for each state/union territory appear for each caste separately, but caste-wise figures for all-India has not been worked out for reasons already given in the general note. Caste-wise data at the district level will be available in the corresponding volume of each state/union territory. This table has been prepared on the basis of answers to questions 3, 11 and 16 of the individual slip which indicated the sex and name of the scheduled caste to which a person belonged and his main activity—worker or non-worker.

Workers are further classified into nine industrial categories :—

(i) Cultivators.

(ii) Agricultural labourers.

(iii) Livestock, forestry, fishing, hunting and plantations, orchards and allied activities.

(iv) Mining and quarrying.

(v) Manufacturing, processing, servicing and repairs—(a) at household industry and (b) Other than household industry.

(vi) Construction.

(vii) Trade and Commerce.

(viii) Transport, storage and communications.

(ix) Other services.

In the 1971 census, every individual was asked to declare what according to him was his "main activity", i.e., how he engaged himself mostly. Accordingly, all persons were divided into two broad streams of main activity as "workers" and "non-workers".

A 'worker' was defined clearly as a person whose main activity was participation in any economically productive work by his physical or mental activity. 'Work' involved not only actual work but effective supervision or direction of work. The reference period was one week prior to the date of enumeration in the case of regular work in trade, profession, service or business. If a person had participated in any such regular work on any one of the days during the week preceding the day of enumeration and this had been returned as his 'main activity', the person was classified as a worker and categorised accordingly. A person who normally worked but had been absent from work during the reference period on account of illness or travel, holiday, temporary break-down, strike, etc., was treated as engaged in regular work in which he would have otherwise been employed but for his temporary absence. Persons under training such as apprentices with or without stipends or wages were considered as economically active and recorded as working. A person who was offered work but did not actually join it, was not treated as engaged in work. In respect of seasonal work like cultivation, livestock keeping, plantation, some types of household industry, etc., which are not carried on throughout the year, a person's main activity was ascertained with reference to such work in the last one year even if he was not economically active in the week prior to enumeration.

The definition of "worker" in the 1971 census is different from that of 1961 census. In the 1961 census, a person was considered as a 'worker' according to his participation in any economically productive work. In the case of regular employment in any trade, profession, service, business or commerce, a person was taken as a worker if he was employed during any of the 15 days preceding the day on which he was enumerated.

An exception to the 15 days' period to reckon one as a worker had been made in 1961 in the case of seasonal work like cultivation, livestock, dairying, household industry, etc. In such cases if a person had put in an hour's regular work a day throughout the greater part of the working season, he was considered as a worker. 'Work' included not only actual work but also effective supervision and direction of work. A person might be working as a cultivator or as an agricultural labourer or at a household industry or might be doing any other work. He might be engaged either in one or more than one of the above. A full-time student who spent some time in his father's shop for even part of a day during the reference period, of a fortnight was considered as a 'worker'. Similarly if a woman who was basically engaged in household duties also engaged herself in work such as pounding rice for sale or wages, or in domestic services for wages for others, or minding cattle, or selling firewood, or making and selling dung cakes, grass or any such work, she was also treated as a 'worker'. Thus in the 1961 census a person was categorised basically as a 'worker' even if such a person's contribution to work was extremely marginal. In 1971, a person was treated basically as a 'nonworker' if he or she did not come under any of the categories of 'worker'. Thus a person engaged primarily in household duties such as cooking for one's own household or performing one's own household duties or student attending an institution or a rent receiver was classified as such for his main activity and was treated as 'non-worker'. If he was also engaged in some economic activity, obviously not to the same extent as a full-time worker, that activity was mentioned under the head of "secondary work".

The various categories of workers are explained below :—

Category I.—For purpose of the census a person is working as cultivator if he or she was engaged in cultivation by oneself or by supervision or direction

in one's capacity as the owner or lessee of land held from Government or as a tenant of land held from private persons or institutions for payment of money, kind or share.

Cultivation involves ploughing, sowing and harvesting and production of cereals and millet crops such as wheat, paddy, jowar, bajra, ragi, etc., and pulses, raw jute and kindered fibre crops, cotton, etc., and other crops such as sugarcane, groundnuts, tapioca etc. and does not include fruit growing, vegetable growing or keeping orchards or groves or working of plantations like tea, coffee, rubber, cinchona and other medical plantations.

Category II.—A person who works in another person's land for wages in money, kind or share was regarded as an 'Agricultural Labourer'. He has no risk in the cultivation but he merely works in another person's land for wages. The labourer could have no right of lease or contract on land on which he works.

Category III.—Workers in livestock, forestry, fishing, hunting and plantations orchards and allied activities are classified in this category.

Category IV.—Workers in mining and quarrying are included in this category.

Category V.—This category has two parts (a) Household industry and (b) Other than household industry.

Workers in household industry either of their own household or persons working in the household of others are included in Part (a) of this category. (b) i.e. other than household industry includes all types of manufacturing, processing, servicing and repairing of goods which are not done on household industry basis.

Category VI.—Workers engaged in construction and maintenance of buildings, roads, railways, bridges, telegraph and telephone lines, waterways, reservoirs, etc. are included in this category.

Category VII.—This category includes workers engaged in any capacity in wholesale or retail, trade, commercial transactions relating to imports and exports, real estate and properties, stocks and shares, insurance, money lending, banking etc.

Category VIII.—Workers engaged in transport activities by air, rail, road and water and in services, identical to transport such as packing, carting, loading, unloading etc. and workers engaged in storages warehousing and communication services such as posts, telegraph, telephone, wireless, information and broadcasting.

Category IX—This category includes (i) public utility services like electricity, gas, water supply and sanitary services (ii) public services—Central, State, quasi-Government and Municipal employees in administrative departments (iv) Personal Services (v) Other Services.

Dadra and Nagar Haveli being entirely rural area does not appear in the urban part of the table.

S. C. II—AGE AND MARTIAL STATUS FOR SCHEDULED CASTES

FLY LEAF

This table gives important demographic information relating to age and marital status of scheduled castes and corresponds to table SCT-II Part A of 1961 census. The data presented in this table are only for total by sex. This table has been worked out with reference to answer to question 11—scheduled caste and cross tabulated with question 4—age and 5—marital status of the individual slip.

Question 4 : *Age*

The age was recorded in completed years with reference to the census date.

Question 5 : *Marital Status*

The instructions given to the enumerator are reproduced below :

"In answering this question use the following abbreviations :—

NM : Never married

M : Married

W : Widowed

S : Separated or Divorced

"For a person who has never been married at any time before, write 'NM'. For a person married, whether for the first or another time and whose marriage is subsisting at the time of enumeration with the spouse living, write 'M'. Write 'M' also for persons who are recognised by custom or society as married and for the persons in stable *de facto* union. Even if a marriage is disputed in the locality write 'M' if the person concerned says he or she is married or is in stable *de facto* union. For a widowed person whose husband or wife is dead, and who has not been married again, write 'W'. For a person who has been separated from wife or husband and is living apart with no apparent intention of living together again or who has been divorced either by a decree of a law court or by an accepted social or religious custom, but who has not remarried write 'S'. For a prostitute return her marital status as declared by her".

This table gives the marital status of the persons in the age groups 0—14, 15—44, 45+ and 'age not stated' separately for each scheduled caste by sex. The marital status adopted in this table are 'Never Married', 'Married', 'Widowed', 'Separated or Divorced', and 'Unspecified Status' for the country and each of the states/union territories. Data for each state/union territory appear for each scheduled caste separately but consolidation of caste-wise figures for India relate to scheduled castes as a whole. Caste-wise data at the district level by sex break-up will be found in the corresponding volume of each state/union territory.

The detailed characteristics of 2,532 males and 2,277 females of total scheduled caste population in respect of Gujarat could not be ascertained due to the destruction of some of the individual slips eaten by white-ants. Also the particulars relating to age and marital status of 37 males relating to Gujarat State are not available and thus not included in the table. As a result of these the population of India and Gujarat do not agree with the relevant tables of scheduled castes.

Part A—Education in urban areas only for scheduled castes.

Part B—Education in rural areas only for scheduled castes.

FLY-LEAF

This table furnishes the statistics of literacy and education among the members of scheduled castes by sex break-up and has been prepared in two parts—Part A relates to urban areas and Part B to rural areas. The terms 'Rural' and 'Urban' have been explained in the general note given in the beginning of this volume. These tables correspond to tables SCT-III Part A(i) and Part B(i) of 1961 census.

The form of question on the individual slip was as follows :—

Instructions for filling up the Questions 12 & 13 were as follows :—

Question 12 : Literacy (L or O) :

"A person who can both read and write with understanding in any language is to be taken as literate. A person who can merely read but cannot write is not a literate.

"For a person who is literate i.e. who can both read and write, record 'L' in the triangle against question 12. If there is any doubt about a person's ability to read or write the test that may be applied for reading is his/her ability to read any portion of the printed matter in the enumerators' instructions and similarly for writing he/she should be able to write a simple letter. For a person who is illiterate i.e. who can neither read nor write or can merely read but cannot write in any language. Write 'O' in the triangle against question 12. All children of the age of 4 years or less should be treated as illiterate even if the child is going to a school and may have picked up reading and writing a few odd words.

Question 13 : Educational level:

"This question will be asked of those for whom 'L' has been recorded against question 12. For a person who is illiterate and 'O' has been recorded, there is no need in ascertaining the educational level.

You have to ascertain and record the educational level attained by a person for whom 'L' is recorded in answer to question 12."

In part A of the table which pertains to urban areas, data appear for (i) Illiterate, (ii) Literate (without educational level) and the following educational levels :

(i) Primary or Junior Basic.

(ii) Matriculation or Higher Secondary.

(iii) Non-Technical diploma not equal to degree.

(iv) Technical diploma not equal to degree.

(v) University degree or post graduate degree other than technical degree.

(vi) Technical degree or diploma equal to degree or post-graduate degree.

The educational levels in part B of the table i.e. rural, have been restricted to (i) illiterate (ii) literate (without educational level) (iii) Primary or Junior basic (iv) Matriculation and above but below graduate (v) Graduate and above.

Figures for each state/union territory appear for each scheduled caste separately but consolidated caste-wise figures for India as a whole has not been worked out. Caste-wise data at district level will be found in the corresponding volume of each state/union territory volume.

The detailed characteristics of 2,532 males and 2,277 females population of Gujarat could not be ascertained due to the destruction of some of the slips eaten by white-ants. Hence the figures for India and Gujarat shown in Part B of this table do not agree with table SC-I Part A and other relevant tables of scheduled castes.

Dadra and Nagar Haveli being entirely rural, does not appear in Part A of the table.

S.C.IV—PERSONS NOT AT WORK CLASSIFIED BY SEX, TYPE OF ACTIVITY AND EDUCATIONAL LEVELS FOR SCHEDULED CASTES

FLY-LEAF

This table gives the distribution of the non-working population among scheduled castes, cross classified with educational levels. The term 'non-worker' has been explained in the fly-leaf to table S.C.I.

The data presented in this table are based on Question Nos. 11, 12, 13 and 16a(ii) of the individual slip. The form of Q. 11, Q. 12 and Q. 13 and the instructions to enumerators on the mode of recording answers to those questions have been described in the general note and the fly-leaf of table SC-III. The mode of collection of data pertaining to Q. 16(a) (ii) as explained in the instructions to enumerators is reproduced below:

"Question 16 is intended to ascertain the main activity of every individual whether he or she is economically active or not. While 16(a) (i) helps to broadly categorise all those who have returned some work as their main activity, 16(a) (ii) will help to categorise those whose main activity is not engaged in any economically productive work, but are basically non-workers. These may be categorised under seven broad heads as under :—

H: Household Duties

"This covers all those persons basically engaged in unpaid home duties doing no other work, or even if such a person may also be participating in some other work, it is not to the same extent as a whole time worker and if the person has returned his or her main activity as attending to household duties. The main activity of such a person should be entered as 'H'.

ST: Student

This will cover all full-time students or children attending school. Even if such persons participated in some work but not to the same extent as a full-time worker, by merely helping casually as an unpaid family worker in family cultivation, household industry, trade or business, they should be treated primarily as students, if that is their main activity. 'ST' should be entered in the box.

R: Retired or a Rentier

A person who has retired from service and is doing no other work i.e. not employed again in some full-time work or does not engage himself in some other work as cultivation, in business, trade etc., or a person who is a rentier or living on agricultural or non-agricultural royalty, rent or dividend, or any other person of independent means for securing which he does not have to work will come under this category. 'R' should be noted in the box for a person coming under this category.

D: Dependent

This category will include all dependents such as infants or children not attending school or a person permanently disabled from work because of illness or old age. If a girl or an old woman attends to household duties she should be categorised under 'H' for her main activity rather than 'D'.

Dependents will include all non-workers even if ablebodied who have no other activity coming under any of the categories of non-workers and who are not seeking any work either but are purely dependent.

B: Beggars etc.

This will cover beggars, vagrants or such cases as independent women without indication of source of income and those of unspecified sources of subsistence and who are not engaged in any economically productive work.

I: Institution

This will cover convicts in jails or inmates of a penal, mental or charitable institution, even if such persons are compelled to do some work as carpentry, carpet weaving, vegetable growing, etc., in such institutions. An under trial prisoner in a jail should not, however, be brought under this category but has to be indicated according to the main activity he was engaged in before he was apprehended. Inmates of such institutions will be noted as 'I'.

O: Other non-workers

This will include all non-workers who may not come under any of the six categories above but are seeking work, they should be noted 'O' in the box.

The educational levels for which the non-working population data have been cross-classified are:—

(i) Illiterate.
(ii) Literate (without educational level).
(iii) Primary or junior basic.
(iv) Matriculation and above but below graduate.
(v) Graduate and above.

Figures are presented for India and each state/union territory by total, rural and urban areas and by sex. Unlike the preceding table wherein caste-wise figures have been given for each state/union territory, this table gives figures for the total number of scheduled castes. Corresponding figures at district level will be found in the table published in the corresponding volume of each state and union territory.

Dadra and Nagar Haveli being entirely rural does not appear in the urban part of the table.

The detailed characteristics of 986 Males and 1549 females of total and rural non-working population of Gujarat could not be ascertained owing to the destruction of some of the individual slips eaten by white-ants. As a result the population of India and Gujarat shown in this table do not agree with table SC-I Part A and other relevant tables of scheduled castes.
