1.	Shri R. A. Gupta	Tabulation Officer
2.	Shri T. C. Patni	Statistical Assistant

In Printing :

1.	Shri M. M. Goyal	Tabulation Officer
2.	Shri Moti Singh	Statistical Assistant
3.	Shri Hassan Mohd.	Proof Reader
4.	Shri Dileep Singh Chandrawat	Proof Reader

NOTE

WHILE ISSUING the Administrative Atlas of Rajasthan we had announced that a Supplement to the Atlas will be released shortly. Here is that Supplement.

For quite sometime various departments of the Government of India as well as of the State Government, and, many learned organisations of the country had been pressing us to supply them with a list of villages classified by certain ranges of population sizes for purposes of planning. Some desired to know the percentage of population living in such various categories of villages. There were demands from many quarters for simultaneous exposure of population figures at the village and town level for the 1961 and 1971 Censuses to have a quick idea about the growth in population during the decade.

We have tried to meet all these demands on this organisation in this Supplement and we hope that the information presented here will be found to be helpful.

U. B. MATHUR
Deputy Director,
Census Operations, Rajasthan

STATEMENT-I

VILLAGES CLASSIFIED BY POPULATION SIZES

THERE ARE 35,795 villages in the state of which 33,305 are inhabited. These villages are of various population sizes. This statement shows the classification of individual villages by sizes.

Villages have been presented tehsilwise and according to the various population sizes viz. less than 200; 200-499; 500-999; 1000-1999; 2000-4999; 5000-9999; and 10000 & above. In each population range villages appear in the ascending order of their Census location code numbers. The following may be kept in view :

1. The figure in brackets after the population size denotes the total number of villages in that particular population range.

2. The village names are preceeded by their Census location code numbers.

3. The figure within brackets after the village names indicates the 1961 population while the figure after the brackets denotes the 1971 population. The 1961 Census figure has been provided to help appreciate the growth of population during the decade.

4. Where village names, due to their large sizes, could not be fully accommodated in the list, an abbreviated form has been used and the full name given in a footnote.

5. The population sizes with no entries have been omitted.

6. The villages found unpopulated in 1961 Census have been marked with a dagger within a bracket (†) while the new villages for which population figures are not available for 1961 Census have been marked with an asterisk within a bracket (*).

7. Unpopulated villages of 1971 Census alongwith their code numbers have also been separately listed at the end of each tehsil.

STATEMENT-III

TOWNS & THE GROWTH OF THEIR POPULATION

THERE ARE 157 places in the state which have been considered as towns for the 1971 Census. Twelve of these places, were treated as towns for the first time—six had municipalities and the remaining others fulfilled the requisite criteria of the 1971 Census.

The Statement presents the districtwise distribution of towns, showing their population for 1961 and 1971 Censuses as also the percentage variation during the decade 1961-1971. Outgrowth of a town, if any, has been taken into account for computing the decadal variation. The contribution of each individual town towards the urban population of a district is also indicated.

STATEMENT-III

Towns & the Growth of their Population

District	Tehsil	Town	1961 Population	1961 Per cent to total urban population of the district	1971 Population	1971 Per cent to total urban population of the district	Percentage Decadal Variation
