SUBSIDIARY TABLE B-I-6

The figures of workers in 1901-1961 (except 1941) and their distribution in 9 broad industrial classification according to 1961 Census are worked out on the lines of the following methodology.

1951 Census :

Workers in 1951 comprised of :

(i) All self-supporting persons with productive principal means of livelihood, *i.e.*, all self-supporting persons other than (*a*) agricultural rent-receivers belonging to livelihood Class IV and (*b*) self-supporting persons deriving their means of livelihood from non-agricultural, non-productive occupations, like beggars, pensioners, etc., belonging to livelihood Class VIII

(ii) Self-supporting persons belonging to livelihood Class IV (agricultural rent-receivers) but deriving secondary means of livelihood from productive occupations, *i.e.* other than Class IV.

(iii) All earning dependants in respect of their own (secondary) means of livelihood other than those who derived their secondary means of livelihood from :

(*a*) receipt of agricultural rent under Class IV, and

(*b*) non-agricultural non-productive occupations. (For calculating working force, no account has been made of the self-supporting persons whose principal means of livelihood was non-agricultural non-productive but who had a productive secondary means of livelihood, as unlike rent-receivers in Class IV, these persons were lumped in Class VIII and did not have a separate class of principal or secondary means of livelihood).

Earning dependents, however, were classified only into 8 livelihood classes and there was no further breakdown of them into divisions and sub-divisions or groups.

On the experience of 1961 it was presumed that the earning dependents in 1951 also generally belonged to the household sector and were mostly family workers in the non-household sector. This is of course a big assumption to make but seems warranted by 1961 experience. Livelihood Class V corresponds with Division-03 of I.S.I.C. Workers in household industry at two digit level in 1961, covering Division 0—3 of I.S.I.C., were added to family workers at non-household industry and their proportions at two digit level were worked out for livelihood Class V of 1951. The earning dependents of livelihood Class V of 1951 were allocated to major groups of I.S.I.C. on the basis of the proportions so worked out. Earning dependents in livelihood Class VI, VII and VIII of 1951 were allocated to major groups of 1961 on the basis of the distribution of the family workers of 1961. For this purpose family workers of major groups for 1961 were first recast into livelihood classes of 1951 and their proportions for each livelihood class were worked out. The earning dependents belonging to each livelihood class were then distributed on the basis of the proportions so worked out. The figures so obtained at major group level were consolidated into 9 industrial categories of 1961.

Non-workers of 1951 were equal to :

(*i*) All non-earning dependents

(ii) Self-supporting persons whose principal means of livelihood was agricultural rent (Class IV) and who had no productive secondary means of livelihood;

(iii) The following groups of self-supporting persons included in non-agricultural Class VIII :

(*a*) Persons living principally on income from non-agricultural property ;

(*b*) Pensioners and remittance holders ;

(*c*) Inmates of jails, asylums, alms houses and recipients of doles, beggars and vagrants, and

(*d*) Other persons living principally on income derived from non-productive activity.

(iv) Earning dependants whose own means of livelihood (secondary means of livelihood) was agricultural rent-receiving under Class IV, and

(v) Earning dependants whose secondary means of livelihood was non-agricultural non-productive.

1931 Census :

I Workers :

(i) All earners following productive occupations ; and

(ii) All working dependants following productive occupations

II Non-workers :

(i) All non-working dependants ;

(*ii*) Earners and working dependants following non-productive occupations :

(*a*) Non-cultivating proprietors taking rent in money or kind ;

(*b*) Proprietors (other than agricultural land), fund scholarship holders and pensioners ;

(*c*) Inmates of jails, asylums and alm-houses ;

(*d*) Beggars and vagrants ;

(*e*) Procurers and prostitutes ;

(*f*) Other unclassified non-productive industries.

1921 and 1911 Censuses :

I Workers :

All "Actual workers" having productive occupations

II Non-workers :

(i) All 'dependants' ; and

(*ii*) All "Actual workers" in non-productive occupations as stated in case of 1931 Census.

1901 Census :

(*i*) All "Actual workers" having productive occupations

II Non-workers :

(i) All 'Dependants' ; and

(ii) "Actual workers" in non-productive occupations :

(a) Rent-receivers ;

(*b*) Prostitutes, procurers, pimps, etc.,

(*c*) Receivers of stolen goods ;

(*d*) Witches, wizards, cow-poisoners, etc.,

(*e*) House-rent, share and other property not being land;

(*f*) Allowances for patrons or relatives ;

(*g*) Educational or other endowments, scholarships, etc

(*h*) Mendicancy (not in connection with a religious order).

(*i*) Pensioners, inmates of asylums, prisoners, etc.

The statement given below indicates the re-classification of groups and sub-divisions in earlier censuses on the lines of 1916 broad industrial classification.
