CENSUS OF INDIA, 1951

VOLUME IX

HYDERABAD

PART I-B—SUBSIDIARY TABLES

by

C. K. MURTHY, I.A.S.,

Superintendent of Census Operations

GOVERNMENT PRESS
HYDERABAD-DN.
1954

PRICE Rs. 3-8-0

Note :—The 1951 Census Report for Hyderabad State consists of four parts, *viz.*, Part I-A, Part I-B, Part II-A and Part II-B. Part I-A contains the Report, Part I-B the Subsidiary Tables prepared for the Report and Parts II-A and II-B the main tables.

CONTENTS

SUBSIDIARY TABLES—FIRST SERIES		1
1.1	Area and Population, Actual and Percentage, by Tahsil Density	6
1.2	Variation and Density of General Population	8
1.3	Mean Decennial Growth-Rates during Three Decades—General Population	9
1.4	Immigration	12
1.4-A	Distribution of Immigrants according to Place of Birth and Livelihood Classes	14
1.5	Emigration	48
1.5-A	Distribution of Emigrants according to Place of Enumeration and Livelihood Classes	50
1.6	Migration between the State and Other Parts of India	52
1.7	Variation in Natural Population	52
1.8	Livelihood Pattern of General Population	53
1.8-A	Tahsilwise Distribution per 1,000 Persons of General Population according to Agricultural and Non-Agricultural Classes	54
SUBSIDIARY TABLES—SECOND SERIES		55
2.1	Distribution of Population between Villages	58
2.2	Variation and Density of Rural Population	59
2.3	Mean Decennial Growth-Rates during Three Decades—Rural Population	60
2.4	Livelihood Pattern of Rural Population	61
2.4-A	Tahsilwise Distribution per 1,000 Persons of Rural Population according to Agricultural and Non-Agricultural Classes	62
SUBSIDIARY TABLES—THIRD SERIES		63
3.1	Distribution of Population between Towns	66
3.2	Variation and Density of Urban Population	67
3.3	Mean Decennial Growth-Rates during Three Decades—Urban Population	68
3.4	Towns Classified by Population	69
3.5	Cities—Chief Figures	69
3.6	Number per 1,000 of the General Population and of each Livelihood Class who live in Towns	70
3.7	Livelihood Pattern of Urban Population	71
3.8	Distribution of Immigrants from outside the District in Urban Areas according to Place of Birth and Livelihood Classes	72
SUBSIDIARY TABLES—FOURTH SERIES		107
4.1	Agricultural Classes per 1,000 persons of General Population—Number in each Class and Sub-Class of 10,000 persons of All-Agricultural Classes ; and Comparison with Agricultural Holdings by Size	111
4.2	Livelihood Class I (Cultivators of land wholly or mainly owned and their dependants)—Number per 10,000 persons of Livelihood Class I in each Sub-Class ; Secondary Means of Livelihood of 10,000 persons of Livelihood Class I	112
4.3	Livelihood Class II (Cultivators of land wholly or mainly unowned and their dependants)—Number per 10,000 persons of Livelihood Class II in each Sub-Class ; Secondary Means of Livelihood of 10,000 persons of Livelihood Class II	114

SUBSIDIARY TABLES—FOURTH SERIES—(*concld.*)

4.4	Livelihood Class III (Cultivating labourers and their dependants)—Number per 10,000 persons of Livelihood Class III in each Sub-Class; Secondary Means of Livelihood of 10,000 persons of Livelihood Class III	116
4.5	Livelihood Class IV (Non-Cultivating owners of land ; Agricultural rent receivers and their dependants)— Number per 10,000 persons of Livelihood Class IV in each Sub-Class ; Secondary Means of Livelihood of 10,000 persons of Livelihood Class IV	118
4.6	Active and Semi-Active Workers in Cultivation (Actual Figures)	120
4.7	Progress of Cultivation during Three Decades	122
4.8	Components of Cultivated Area per Capita during Three Decades	124
4.9	Land area per Capita (1951) and Trend of Cultivation per Capita during Three Decades	126

SUBSIDIARY TABLES—FIFTH SERIES 127

5.1	Non-Agricultural Classes per 1,000 persons of General Population ; number in each class and sub-class per 10,000 persons of All Non-Agricultural Classes and number of Employers, Employees and Independent workers per 10,000 self-supporting persons of All Non-Agricultural Classes	141
5.1-A	Non-Agricultural Classes per 1,000 persons of Rural Population ; number in each class and sub-class per 10,000 persons of All Non-Agricultural Classes and number of Employers, Employees and Independent Workers per 10,000 self-supporting persons of All Non-Agricultural Classes	142
5.1-B	Non-Agricultural Classes per 1,000 persons of Urban Population; number in each class and sub-class per 10,000 persons of All Non-Agricultural Classes and number of Employers, Employees and Independent Workers per 10,000 self-supporting persons of All Non-Agricultural Classes	143
5.2	Livelihood Class V (Production other than cultivation)—Number per 10,000 persons of Livelihood Class V of the General Population in each sub-class ; Number per 10,000 self-supporting persons of Livelihood Class V who are Employers, Employees and Independent Workers: and Secondary Means of Livelihood of 10,000 persons of Livelihood Class V	144
5.2-A	Livelihood Class V (Production other than cultivation)—Number per 10,000 persons of Livelihood Class V of the Rural Population in each sub-class ; and Number per 10,000 self-supporting persons of Livelihood Class V who are Employers, Employees and Independent Workers	146
5.2-B	Livelihood ClassV (Production other than cultivation)—Number per 10,000 persons of Livelihood Class V of the Urban Population in each sub-class ; and Number per 10,000 self-supporting persons of Livelihood Class V who are Employers, Employees and Independent Workers...	147
5.3	Livelihood Class VI (Commerce)— Number per 10,000 persons of Livelihood Class VI of the General Population in each sub-class ; Number per 10,000 self-supporting persons of Livelihood Class VI who are Employers, Employees and Independent Workers ; and Secondary Means of Livelihood of 10,000 persons of Livelihood Class VI	148
5.3-A	Livelihood Class VI (Commerce)—Number per 10,000 persons of Livelihood Class VI of the Rural Population in each sub-class ; and Number per 10,000 self-supporting persons of Livelihood Class VI who are Employers, Employees and Independent Workers ..	150
5.3-B	Livelihood Class VI (Commerce)—Number per 10,000 persons of Livelihood Class VI of the Urban Population in each sub-classs ; and Number per 10,000 self-supporting persons of Livelihood Class VI who are Employers, Employees and Independent Workers ..	151
5.4	Livelihood Class VII (Transport)—Number per 10,000 persons of Livelihood Class VII of the General Population in each sub-class ; Number per 10,000 self-supporting persons of Livelihood Class VII who are Employers, Employees and Independent Workers ; and Secondary Means of Livelihood of 10,000 persons of Livelihood Class VII ..	152
5.4-A	Livelihood Class VII (Transport)—Number per 10,000 persons of Livelihood Class VII of the Rural Population in each sub-class ; and Number per 10,000 self-supporting persons of Livelihood Class VII who are Employers, Employees and Independent Workers ..	154

SUBSIDIARY TABLES—FIFTH SERIES—(*concld.*)

5.4-B	Livelihood Class VII (Transport)—Number per 10,000 persons of Livelihood Class VII of the Urban Population in each sub-class ; and Number per 10,000 self-supporting persons of Livelihood Class VII who are Employers, Employees and Independent Workers ..	155
5.5	Livelihood Class VIII (Other services and miscellaneous sources)—Number per 10,000 persons of Livelihood Class VIII of the General Population in each sub-class ; Number per 10,000 self-supporting persons of Livelihood Class VIII who are Employers, Employees, Independent Workers and Others ; and Secondary Means of Livelihood of 10,000 persons of Livelihood Class VIII	156
5.5-A	Livelihood Class VIII (Other services and miscellaneous sources)—Number per 10,000 persons of Livelihood Class VIII of the Rural Population in each sub-class ; and Number per 10,000 self-supporting persons of Livelihood Class VIII who are Employers, Employees, Independent Workers and Others	158
5.5-B	Livelihood Class VIII (Other services and miscellaneous sources)— Number per 10,000 persons of Livelihood Class VIII of the Urban Population in each sub-class ; and Number per 10,000 self-supporting persons of Livelihood Class VIII who are Employers, Employees, Independent Workers and Others	159
5.6	Comparison of the Classification of the Population by Livelihood Classes at the 1951 and 1931 Censuses	160
5.7	Territorial distribution of 10,000 self-supporting persons of All Industries and Services (By Divisions)	161
5.8	Territorial distribution of 10,000 self-supporting persons engaged in Primary Industries not elsewhere specified (By Sub-Divisions)	162
5.9	Territorial distribution of 10,000 self-supporting persons engaged in Mining and Quarrying (By Sub-Divisions)	163
5.10	Territorial distribution of 10,000 self-supporting persons engaged in Processing and Manufacture—Foodstuffs, Textiles, Leather and Products thereof (By Sub-Divisions) ..	164
5.11	Territorial distribution of 10,000 self-supporting persons engaged in Processing and Manufacture—Metals, Chemicals and Products thereof (By Sub-Divisions)	165
5.12	Territorial distribution of 10,000 self-supporting persons engaged in Processing and Manufacture—Not elsewhere specified (By Sub-Divisions)	166
5.13	Territorial distribution of 10,000 self-supporting persons engaged in Construction and Utilities (By Sub-Divisions)	167
5.14	Territorial distribution of 10,000 self-supporting persons engaged in Commerce (By Sub-Divisions)	168
5.15	Territorial distribution of 10,000 self-supporting persons engaged in Transport, Storage and Communications (By Sub-Divisions)	169
5.16	Territorial distribution of 10,000 self-supporting persons engaged in Health, Education and Public Administration (By Sub-Divisions)	170
5.17	Territorial distribution of 10,000 self-supporting persons engaged in Services not elsewhere specified (By Sub-Divisions)	171
SUBSIDIARY TABLES—SIXTH SERIES		173
6.1	Persons per 1,000 houses and houses per 100 square miles and comparison with past Censuses	178
6.2	Number of Households per 1,000 Houses ; and Distribution by Size of 1,000 Sample Households of Rural and Urban Population	179
6.3	Females per 1,000 Males (General, Rural and Urban Population) ; and comparison with previous Censuses	181
6.4	Females per 1,000 Males in Agricultural Classes and Sub-Classes	182
6.5	Females per 1,000 Males in Non-Agricultural Classes and Sub-Classes	184

SUBSIDIARY TABLES—SIXTH SERIES—(*concld.*)

6.6	Marital status of 1,000 of each sex of General Population and comparison with previous Censuses	186
6.6-A	Marital Status of 1,000 persons of each sex in different Age Gorups	188
6.7	Age distribution of 1,000 married persons of each sex (and comparison with 1941 and 1931 Censuses)	192
6.8	Infants per 10,000 persons	194
6.9	Young Children (aged I-4) per 10,000 persons	195
6.10	Boys and Girls (aged 5-14) per 10,000 persons	196
6.11	Young Men and Women (aged 15-34) per 10,000 persons	197
6.12	Middle Aged Persons (aged 35-54) per 10,000 persons	198
6.13	Elderly Persons (aged 55 and over) per 10,000 persons	199
SUBSIDIARY TABLES—SEVENTH SERIES		201
7.1	Progress of Literacy	203
7.2	Literacy Standard of Livelihood Classes	204
7.3	Educational Services and Research	208
7.4	Literacy by Tracts—Number of Literates among the Total, Male and Female Population; and proportion of literates per 1,000 of each category	209

(*For Errata Vide Page 213*)

SUBSIDIARY TABLES—FIRST SERIES

1. *Subsidiary Table* 1.1—*Area and Population, Actual and Percentage, by Tahsil Density.* This table gives, districtwise, the area and population totals of the tahsils grouped under eight ranges of density. Further, the percentage of each of these totals to the corresponding district figure is indicated in italics immediately below the concerned total.

2. This table is based on Table-E pertaining to 'Summary Figures by Districts and Tahsils' given at page 211 of Part II-A of this Volume. Consequently, the figures relating to tahsil areas are as supplied by the Commissioner, Settlement and Land Records Department, Hyderabad State. This procedure had to be adopted as the tahsil-wise break up of the district area figures as furnished by the Surveyor General, India, was not available. The total area of the State according to the tahsil figures given in this table is 81,666 as against the Settlement Commissioner's figure of 81,668 square miles. This insignificant difference is due to the rounding of the actual area figures under each density range to the nearest square mile.

3. The percentages pertaining to area and population given in this table are as rounded to the first decimal place. In rounding up the percentages, however, some adjustments have been made, where necessary, with a view to keeping the totals for each of the districts at 100.0.

4. *Subsidiary Table* 1.2—*Variation and Density of General Population.* This table gives, districtwise, the percentage variation of the general population for the decades 1941-1951, 1931-1941 and 1921-1931 together with the density of each district as ascertained at the Censuses of 1951, 1941, 1931 and 1921. Figures given in this table are based on (*a*) the adjusted population figures as given in Table A-II relating to 'Variation in Population during Fifty Years' at page 7 of Part II-A of this Volume and (*b*) the area figures as supplied by the Surveyor General, India. All the percentages given in this table have been rounded to the first decimal place and density figures to the nearest integer.

5. *Subsidiary Table* 1.3—*Mean Decennial Growth-Rates during Three Decades—General Population.* This table gives for the three decades of 1941-1950, 1931-1940 and 1921-1930, districtwise figures relating to the mean population of the decade both for the total district area and for the district area under registration of births and deaths, the growth of population during the decade, the mean decennial growth-rate and the registered births and deaths during the decade. For reasons detailed in paragraph 7 below, columns (17) to (19) and columns (23) to (31) of this table pertaining to mean decennial birth and death rates (registered), decennial rate of natural increase (registered) and migration-cum-registration error are left blank.

6. This table has been prepared on lines indicated below:—

(1) *Columns* (2) *to* (4): The figure in each of these columns is the arithmetical mean of the general population as recorded at the two censuses taken at the beginning and at the end of the decade mentioned in the column, but the 1941, 1931 and 1921

Census figures, adopted for calculating the mean, are as adjusted to conform to the inter-state and inter-district transfer of territories effected during the decade 1941-1951. The adjusted census figures for the State and for each district are given in Table A-II relating to ' Variation in Population during Fifty Years' at page 7 of Part II-A of this Volume. Table A-II referred to above is in turn based on the corresponding table given in the 1941 Census Report. Due to certain discrepancies in the table in the 1941 Census Report, explained in detail in paragraph 5 of the flyleaf to Table A-II in Part II-A of this Volume, the totals of the figures pertaining to the districts and the two divisions for the decades 1931-1940 and 1921-1930 as given in this table do not tally with the corresponding State figure. The discrepancies, however, as stated in the flyleaf referred to above, are not very significant. The difference of 2 between the figure for the State and the total of the figures for all the districts and again the difference of 2 between the figure for North Division and the total of the figures for the districts concerned for the decade 1941-1950, is due to the rounding of the arithmetical mean, where necessary, to the next higher integer.

(2) *Columns* (5), (6) *and* (7): As births and deaths were registered in the whole of the State (vide sub-paragraph (7) below) the figures given in these columns are identical with those given in columns (2), (3) and (4) respectively.

(3) *Columns* (8) *to* (10): The figures in each of these columns represent the difference between the general population as recorded at the two censuses taken at the end and at the beginning of the decade mentioned in the column. But the 1941, 1931 and 1921 Census figures used for ascertaining the difference were as given in the Table A-II pertaining to ' Variation in Population during Fifty Years ' in Part II-A of this Volume. Again, as explained at sub-paragraph (1) above, due to certain discrepancies in the corresponding table given in the 1941 Census Report, the figures for the growth of population during each of the decades 1931-1940 and 1921-1930 for the State do not tally with the total of the corresponding district figures as given in the table.

(4) *Column* (11): The figure in this column is equal to $\frac{\text{figure in column (8)}}{\text{figure in column (2)}} \times 100.$

(5) *Column* (12): The figure in this column is equal to $\frac{\text{figure in column (9)}}{\text{figure in column (3)}} \times 100.$

(6) *Column* (13): The figure in this column is equal to $\frac{\text{figure in column (10)}}{\text{figure in column (4)}} \times 100.$

(7) *Columns* (14) *to* (16) *and columns* (20) *to* (22): These columns give respectively the total number of births and deaths in the general population registered during the decade mentioned in the column. Figures given in columns (14) and (20) pertaining to the census decade 1941-1951 are as supplied by the Inspector General, Medical and Health Services, Hyderabad State. The figures given in columns (15), (16), (21) and (22) have been taken from the 1941 and 1931 Census Reports. These figures are not adjusted to conform to the present territories of the districts or the State. They are as reported from year to year for the district concerned as it was then constituted, except that the

figures for the new district of Hyderabad represent the total of the figures for the former districts of Atraf-e-Balda and Baghat and the City of Hyderabad.

7. The Public Health Department considers the data of births and deaths supplied by them "*as very incomplete and mostly unreliable*". Further, the data furnished do not include figures for certain years for entire tracts or even districts. The incompleteness of these figures would be obvious from the fact that Madras State, the population of which is about thrice that of Hyderabad State, has registered during the last decade about fourteen times the number of births and ten times the number of deaths registered in this State. Districtwise, the returns in this State are yet more erratic. *In view of this, the Registrar General, India, has directed that no calculations should be based on these figures. Columns* (17) *to* (19) *and* (23) *to* (31) *pertaining to mean decennial birth and death rates (registered,) decennial rate of natural increase (registered) and migration-cum-registration error, which are all based on the figures for births and deaths, are, therefore, left blank.*

8. *Subsidiary Table* 1.4—*Immigration.* This table gives districtwise figures of persons enumerated in Hyderabad State according to their place of birth. Persons born within the State are classified according to those born in (*i*) District of enumeration (*ii*) Other districts of the same Natural Division and (*iii*) Other Parts of the State. Those born outside the State, but within India, are classified according to those born in (*i*) Adjacent States and (*ii*) Other Parts of India. Those born beyond India are classified according to those born in (*i*) Pakistan and (*ii*) Other Territories. This table has been prepared from Table D-IV relating to 'Migrants' at page 161 of Part II-A of this Volume.

9. *Subsidiary Table* 1.4-A—*Distribution of Immigrants according to Place of Birth and Livelihood Classes.* This table contains the following data :—

(*a*) The number of persons enumerated in Hyderabad State but born outside the State, classified both according to their place of birth and the livelihood class to which they belong. The place of birth is indicated in terms of Adjacent States (further sub-divided according to each of the three adjacent States), Other Parts of India (further sub-divided according to each of the other States in India) and Foreign Countries (further sub-divided according to Pakistan and all the rest of the foreign countries).

(*b*) The number of persons enumerated in each of the sixteen districts of Hyderabad State but born outside the district concerned, classified both according to their place of birth and the livelihood class to which they belong. The place of birth is indicated in terms of all the other districts of Hyderabad State (further sub-divided according to North and South Hyderabad Divisions and each of the remaining fifteen districts of the State), Adjacent States (further sub-divided according to each of the three States adjacent to Hyderabad State), Other Parts of India (further sub-divided according to each of the other States in India) and lastly Foreign Countries.

10. *Subsidiary Table* 1. 5—*Emigration.* This table gives the break up of the number of persons born in Hyderabad State and enumerated in India at the 1951 Census according to their place of enumeration under three categories namely (*i*) Hyderabad State and (*ii*) Adjacent States and (*iii*) Other States of India. Columns (11) to (13) pertaining to the estimated number of persons born in this State but who were outside India during the census enumeration period are left blank for lack of requisite data. Consequently, the natural population of the State which is given in Columns (14) to (16) of this table is under-estimated to the extent of the number of such persons.

Figures relating to the persons born and enumerated in Hyderabad State have been taken from Table D-IV pertaining to ' Migrants ' at page 161 of Part II-A of this Volume and figures relating to persons born in 'Adjacent States' and 'Other States of India' are based on data supplied by the Superintendents of Census Operations of the other States.

11. *Subsidiary Table* 1.5-A—*Distribution of Emigrants according to Place of Enumeration and Livelihood Classes.* This table gives the number of persons born in Hyderabad State but enumerated in other States of India at the 1951 Census, classified both according to the place where they were enumerated and the livelihood class to which they belong. The place of enumeration is indicated in terms of each of the three adjacent states (further sub-divided into the adjoining and non-adjoining districts of each of the three states) and of each of the other states in India.

12. *Subsidiary Table* 1.6—*Migration between the State and Other Parts of India.* This table gives for the State figures relating to (*i*) Immigration, (*ii*) Emigration and (*iii*) Immigration minus Emigration, as ascertained at the 1951 and 1931 Censuses.

13. The figure for immigration has been taken for 1951 from Table D-IV relating to 'Migrants' at page 161 of Part II-A of this Volume and for 1931 from Table VI relating to 'Birth place' at page 27 of Part II-1931 Census Tables. In each case, the figure represents the difference between the number of persons enumerated in the State and the number of persons born within the State. They, therefore, cover the total number of immigrants in the State, whether born in other States of India or in the French and Portuguese possessions in India, or in Pakistan and other foreign countries. The figures relating to immigrants and emigrants for 1931 are as given in the 1931 Report and are, therefore, not adjusted to conform to the subsequent inter-state transfers of villages.

14. The figure relating to emigration for 1951 represents the total number of persons born in Hyderabad State but enumerated in other States of India at the 1951 Census. The figure, therefore, does not include the number of persons who were born in Hyderabad State but were residing in the French and Portuguese possessions in India and in Pakistan and other foreign countries during the enumeration period. The corresponding figure of 334,861 for 1931 has been taken from Subsidiary Table II ' Emigration ' at page 71 of Part 1–1931 Census Report, and consists of 334,788 persons born in this State but enumerated in other parts of India, including areas which now constitute Pakistan, and 73 persons born in this State but living outside India.

15. Figures for 1941 have not been given in the table as complete data relating to emigrants for the census is not available.

16. *Subsidiary Table* 1.7—*Variation in Natural Population.* This table gives for the State, figures relating to the recorded population, the immigrants, the emigrants and the natural population as ascertained at the 1951 and 1931 Censuses. It further gives the percentage variation in the natural population of the State during the period 1931-1951. The 1951 figures for ' Recorded population ' and ' Immigrants ' have been taken from Table D-IV pertaining to 'Migrants' at page 161 of Part II-A of this Volume and those for ' Emigrants ' represent the total of persons born in Hyderababad State but enumerated in the other States of India. The 1931 figure for ' Recorded population ' is as given in the 1931 Report and is, therefore, not adjusted to conform to the subsequent inter-state transfers of villages. The figures for immigrants and emigrants

are as given in Subsidiary Tables 'I—Immigration' and 'II—Emigration' at pages 70 and 71 respectively of Part I—1931 Census Report.

17. *Subsidiary Table* 1.8—*Livelihood Pattern of General Population.* This table gives, districtwise, the number of persons belonging to each of the eight livelihood classes per 10,000 of general population. Except in a few cases wherein some adjustments have been made to keep the total of the figures for the eight livelihood classes for each district at 10,000, all other figures in the table are as rounded to the nearest integer. This table is based on Table-E pertaining to ' Summary Figures by Districts and Tahsils ' at page 211 of Part II-A of this Volume.

18. *Subsidiary Table* 1.8-A— *Tahsilwise Distribution per* 1,000 *Persons of General Population according to Agricultural and Non-Agricultural Classes.* This table gives the distribution per 1,000 persons of general population according to agricultural and non-agricultural classes in the State and in each district and tahsil of the State. This table is based on Table-E pertaining to 'Summary Figures by Districts and Tahsils' given at page 211 of Part II-A of this Volume.

SUBSIDIARY TABLES—SECOND SERIES

1. *Subsidiary Table 2·1—Distribution of Population between Villages.* This table gives, districtwise, the average population per village, the number of persons living in villages per 1,000 of general population, and the distribution per 1,000 of rural population among four categories of villages, namely those with a population of (*i*) 5,000 and over ; (*ii*) 2,000 to 5,000 ; (*iii*) 500 to 2,000 and (*iv*) less than 500. Absolute figures for rural population are also given in the table. The number of places, in each district, falling under category (*i*) is given in the following statement along with the total population of such places.

State and District	Number of Villages	Population	State and District	Number of Villages	Population
(1)	(2)	(3)	(1)	(2)	(3)
Hyderabad State ..	**19**	**104,597**	Medak ..	1	6,075
Aurangabad ..	2	11,504	Karimnagar ..	2	10,201
Bhir ..	2	11,503	Warangal ..	7	38,532
Gulbarga ..	3	15,549	Nalgonda ..	1	5,795
Adilabad ..	1	5,438			

This table has been prepared with the help of Table A-I relating to ' Area, Houses and Population ' ; Table A-III relating to ' Towns and Villages Classified by Population'; and Table A-IV relating to 'Towns Classified by Population with Variations since 1901 ' given at pages 1, 17, and 23, respectively of Part II-A of this Volume.

2. The figures given in columns (4) to (7) of the table are as rounded to the nearest integer. In order, however, to keep the total of these figures for each district at 1,000, some minor adjustments have been made in the table.

3. *Subsidiary Table 2·2—Variation and Density of Rural Population.* This table gives, districtwise, the percentage variation of rural population for the three decades of 1941-51, 1931-41, and 1921-31, together with the density in 1951. The rural population of each of the districts for the preceding censuses was obtained by subtracting the urban population of the district as given in the concerned Census Report—with requisite adjustments to conform to the location of the towns according to the present boundaries of the district—from its adjusted general population for the year concerned as given in Table A-II relating to 'Variation in Population During Fifty Years' at page 7 of Part II-A of this Volume. The figures pertaining to rural density have been taken from Table-E relating to 'Summary Figures by Districts and Tahsils ' given at page 211 of Part II-A of this Volume.

4. *Subsidiary Table 2·3—Mean Decennial Growth-Rates during Three Decades—Rural Population.* This table gives for the three decades of 1941-1950, 1931-1940, 1921-1930 districtwise figures for rural areas relating to the mean population of the decade, the

growth of population during the decade and the mean decennial growth-rate. As figures for registered births and deaths are not available separately for the rural areas of the State, columns (5) to (7) pertaining to the mean population of decade for area under registration of births and deaths are left blank and figures for registered births and deaths during decade, mean decennial birth and death rates (registered)—decennial rate of natural increase (registered) and migration-cum-registration error are also not given.

5. This table has been prepared on lines indicated below. :–

(1) *Columns* (2) *to* (4) : The figure in each of these columns is the arithmetical mean of the rural population as recorded at the two censuses taken at the beginning and at the end of the decade mentioned in the column. The rural population of each of the districts for the preceding censuses was obtained by subtracting the urban population of the district as given in the concerned Census Report—with requisite adjustments to conform to the location of the towns according to the present boundaries of the district—from its adjusted general population for the year concerned as given in Table A-II relating to 'Variation in Population During Fifty Years' at page 7 of Part II-A of this Volume. Table A-II referred to above is in turn based on the corresponding table given in the 1941 Census Report. Due to certain discrepancies in the table in the 1941 Census Report, explained in detail in paragraph 5 of the flyleaf to Table A-II in Part II-A of this Volume, the figures pertaining to the districts and to the two divisions for the decades 1931-1940, 1921-1930, as given in this table, do not tally with the corresponding State figure. The difference of 5 between the figure for the State and the total of the figures for all the districts, of 2 between the figure for North Division and the total of the figures for the districts concerned and of 3 between the figure for South Division and the total of the figures for the districts concerned for the decade 1941-1950 is due to the rounding of the arithmetical mean, where necessary, to the next higher integer.

(2) *Columns* (8) *to* (10) : The figures in each of these columns represent the difference between the rural population as recorded at the two censuses taken at the end and at the beginning of the decade mentioned in the column. The figures for rural population adopted here for the 1941, 1931 and 1921 Censuses were adjusted as indicated in sub-paragraph 5 (1) above.

(3) *Column* (11) : The figure in this col : is equal to $\frac{\text{figure in column (8)}}{\text{figure in column (2)}} \times 100.$

(4) *Column* (12) : The figure in this col : is equal to $\frac{\text{figure in column (9)}}{\text{figure in column (3)}} \times 100.$

(5) *Column* (13) : The figure in this col : is equal to $\frac{\text{figure in column (10)}}{\text{figure in column (4)}} \times 100.$

6. *Subsidiary Table* 2·4—*Livelihood Pattern of Rural Population.* This table gives, districtwise, the distribution per 10,000 persons of rural population according to the eight livelihood classes. The figures given in this table are as rounded to the nearest integer. Some adjustments have, however, been made to keep the total of the figures

for each district at 10,000. This table is based on Table-E relating to 'Summary Figures by Districts and Tahsils' given at page 211 of Part II-A of this Volume.

7. *Subsidiary Table* 2·4-A—*Tahsilwise Distribution per* 1,000 *persons of Rural Population according to Agricultural and Non-Agricultural Classes.* This table gives the distribution per 1,000 persons of rural population according to agricultural and non-agricultural classes in the State and in each district and tahsil of the State. This table is based on Table-E pertaining to 'Summary Figures by Districts and Tahsils' given at page 211 of Part II-A of this Volume.

SUBSIDIARY TABLE 2.1

Distribution of Population between Villages

State and District	Population per village	Number in villages per 1,000 of general population	Number per 1,000 rural population in villages with a population of				Rural population (Absolute figure)

SUBSIDIARY TABLES—THIRD SERIES

1. *Subsidiary Table* 3·1—*Distribution of Population between Towns.*—This table gives, districtwise, the average population per town, the number of persons living in towns per thousand of general population, and the distribution per 1,000 of urban population among four categories of towns, namely those with a population of (*i*) 20,000 and over ; (*ii*) 10,000 to 20,000 ; (*iii*) 5,000 to 10,000 and (*iv*) less than 5,000. Absolute figures for urban population are also given in this table. The details of the places, in each district, falling under category (*iv*) are given in the following statement :—

State and District	Towns populated by					
	Less than 500 persons		500 to 2,000 persons		2,000 to 5,000 persons	
	No. of Units	Population	No. of Units	Population	No. of Units	Population
(1)	(2)	(3)	(4)	(5)	(6)	(7)
Hyderabad State ..	**14**	**3,933**	**10**	**11,628**	**46**	**185,093**
Aurangabad ..	..	..	..	..	2	7,662
Parbhani ..	..	..	..	..	1	4,585
Nanded ..	..	..	..	..	4	16,926
Bidar ..	..	..	..	..	..	..
Bhir ..	..	..	..	..	1	3,499
Osmanabad ..	..	..	..	..	5	20,662
Hyderabad ..	5	1,451	4	5,927	5	18,232
Mahbubnagar ..	..	..	..	..	4	16,520
Raichur	9	2,482	6	5,701	3	10,619
Gulbarga	..	..	..	..	2	7,151
Adilabad	..	..	..	..	5	19,230
Nizamabad ..	..	..	..	..	1	4,783
Medak	..	..	..	..	4	18,840
Karimnagar ..	..	..	..	..	3	12,858
Warangal	..	..	..	..	3	12,479
Nalgonda	..	..	..	..	3	11,047

The 24 urban units in the State populated by less than 2,000 persons consist of 9 urban units in Hyderabad District, all of which represent the non-municipal or non-cantonment portions of revenue villages which are partly within and partly outside Hyderabad or Secunderabad Municipalities or Cantonments, and 15 urban units in Raichur District, all of which represent temporary camps established in connection with the construction of the Tungabhadra Project. This table has been prepared with the help of Table A-I relating to ' Area, Houses and Population ' and Table A-IV relating to ' Towns Classified by Population with Variations since 1901', given at pages 1 and 23 respectively of Part II-A of this Volume.

2. The figures given in columns (4) to (7) of the table are as rounded to the nearest integer. In order, however, to keep the total of these figures for each district at 1,000 some minor adjustments have been made in the table.

3. *Subsidiary Table* 3·2—*Variation and Density of Urban Population.*—This table gives, districtwise, the percentage variation of urban population for the three decades

of 1941-51, 1931-41 and 1921-31 together with its density in 1951. The urban population of each of the districts for the preceding censuses was taken from the concerned Census Reports—with requisite adjustments to conform to the location of the towns according to the present boundaries of the district. The figures pertaining to urban density have been taken from Table-E relating to ' Summary Figures by Districts and Tahsils ' given at page 211 of Part II-A of this Volume. *But these densities have been calculated on the basis of area figures which do not generally represent the present extent of the towns. They are, therefore, considerably exaggerated especially in case of some of the districts.*

4. *Subsidiary Table* 3·3—*Mean Decennial Growth-Rates during Three Decades—Urban Population.* This table gives for the three decades of 1941-1950, 1931-1940, 1921-1930 districtwise figures for urban areas relating to the mean population of the decade, the growth of population during the decade and the mean decennial growth-rate. As figures for registered births and deaths are not available separately for the urban areas of the State, columns (5) to (7) pertaining to the mean population of decade for area under registration of births and deaths are left blank and figures for registered births and deaths during the decade, mean decennial birth and death rates (registered), decennial rate of natural increase (registered) and migration-cum-registration error are also not given.

5. This table has been prepared on lines indicated below :—

(1) *Columns* (2) *to* (4) :—The figure in each of these columns is the arithmetical mean of the urban population as recorded at the two censuses taken at the beginning and at the end of the decade mentioned in the column. But the urban population of each of the districts for the preceding censuses was first adjusted to conform to the location of the towns according to the present boundaries of the district. The insignificant differences between the figures given for the State and for the two Divisions and the total of the figures for the districts concerned are due to the rounding of the arithmetical mean, where necessary, to the next higher integer.

(2) *Columns* (8) *to* (10) :—The figure in each of these columns represents the difference between the urban population as recorded at the two censuses taken at the end and at the beginning of the decade mentioned in the column. But the urban population figures adopted here for the 1941, 1931 and 1921 Censuses were adjusted as indicated in sub-paragraph 5 (1) above.

(3) Column (11) : the figure in this col : is equal to $\frac{\text{figure in column (8)}}{\text{figure in column (2)}} \times 100.$

(4) Column (12) : the figure in this col : is equal to $\frac{\text{figure in column (9)}}{\text{figure in column (3)}} \times 100.$

(5) Column (13) : the figure in this col : is equal to $\frac{\text{figure in column (10)}}{\text{figure in column (4)}} \times 100.$

6. *Subsidiary Table* 3·4— *Towns Classified by Population.* This table gives for the State the number of towns under each of the six classes, namely those with a population of (*i*) 100,000 and over ; (*ii*) 50,000 to 100,000 ; (*iii*) 20,000 to 50,000 (*iv*) 10,000 to 20,000 (*v*) 5,000 to 10,000 and (*vi*) less than 5,000, the total population of each class of towns and its percentage to the total urban population, and the percentage variation of the population under each class, for the decades 1941-1951, 1931-1941 and 1921-1931. All percentages have been rounded to the first place of decimal except in the case of the percentage given for ' 5,000-10,000 ' in column No. 4 where the actual figure 21·06 has been treated as 21.0. This has been done with a view to keeping the total of the percentages of all classes of towns given in this column at 100.0. This table has been prepared from Table A-IV relating to ' Towns Classified by Population with Variations since 1901' given at page 23 of Part II-A of this Volume.

7. *Subsidiary Table* 3.5—*Cities—Chief Figures.*—This table gives the population and the density of each of the two cities in the State together with the percentage variation of their population during the decades 1941-1951, 1931-1941 and 1921-1931. The population, area and density of the constituents of each of these two cities are given below :—

Cities	Area in sq. miles	Population	Density
1. Hyderabad City	83.267	1,085,722	13,039
(*a*) *Hyderabad Municipality*	*52.000*	*803,048*	*15,443*
(*b*) *Hyderabad Cantonment*	*8.000*	*57,318*	*7,165*
(*c*) *Secunderabad Municipality*	*8.200*	*161,807*	*19,733*
(*d*) *Secunderabad Cantonment*	*15.067*	*63,549*	*4,218*
2. Warangal City	22.377	133,130	5,949
(*a*) *Warangal Municipality*	*21.900*	*129,606*	*5,918*
(*b*) *Warangal City (Non-Municipal)*	*0.477*	*3,524*	*7,388*

This table is based on Table A-IV relating to ' Towns Classified by Population with Variations since 1901 ' given at page 23 of Part II-A of this Volume and the area figures as supplied by the Municipal, Cantonment or the Revenue authorities, as the case may be.

8. *Subsidiary Table* 3.6—*Number per* 1,000 *of the General Population and of each Livelihood Class who live in Towns.* This table gives, districtwise, the proportion of the urban population per 1,000 of the general population and the proportion of urban population in each of the eight livelihood classes to 1,000 of the general population in that particular class. This table is based on Table-E relating to ' Summary Figures by Districts and Tahsils ' given at page 211 of Part II-A of this Volume.

9. *Subsidiary Table* 3.7—*Livelihood Pattern of Urban Population.* This table gives, districtwise, the distribution per 10,000 of urban population according to the eight livelihood classes. The figures in the table are as rounded to the nearest integer. Some adjustments have, however, been made to keep the total of the figures for each district at 10,000. This table is based on Table-E relating to ' Summary Figures by Districts and Tahsils ' given at page 211 of Part II-A of this Volume.

10. *Subsidiary Table* 3.8—*Distribution of Immigrants from outside the District in Urban Areas according to Place of Birth and Livelihood Classes.* This table contains the following data :—

(*a*) The number of persons enumerated in the urban areas of Hyderabad State but born outside the district of enumeration classified both according to their place of birth and the livelihood class to which they belong. The place of birth is indicated in terms of Hyderabad State other than the District of Enumeration, Adjacent States (further sub-divided according to each of the three adjacent States), Other Parts of India (further sub-divided according to each of the other States in India) and Foreign Countries (further sub-divided according to Pakistan and all the rest of the foreign countries).

(*b*) The number of persons enumerated in the urban areas of each of the sixteen districts of Hyderabad State but born outside the district concerned, classified both according to their place of birth and the livelihood class to which they belong. The place of birth is indicated in terms of all the other districts of Hyderabad (further sub-divided according to North and South Hyderabad Divisions and each of the remaining fifteen districts of the State), Adjacent States (further sub-divided according to each of the three States adjacent to Hyderabad State), Other Parts of India (further sub-divided according to each of the other States in India) and lastly Foreign Countries.

SUBSIDIARY TABLE 3.1

Distribution of Population between Towns

State and District	Population per town	Number in towns per 1,000 of general population	Number per 1,000 of Urban Population in towns with a population of				Urban Population (absolute figure)

SUBSIDIARY TABLES—FOURTH SERIES

1. *Subsidiary Table* 4.1—*Agricultural Classes per 1,000 persons of General Population—Number in each Class and Sub-Class of 10,000 persons of All-Agricultural Classes; and Comparison with Agricultural Holdings by Size.* This table gives, districtwise, the number of persons in agricultural classes per 1,000 persons of the general population, and the break up of 10,000 persons belonging to all-agricultural classes by (*a*) their primary economic status *i.e.*, according to self-supporting persons, non-earning dependants and earning dependants and (*b*) the particular agricultural class they belong to, namely, cultivators of land wholly or mainly owned, cultivators of land wholly or mainly unowned, cultivating labourers, and lastly, non-cultivating owners of land and agricultural rent receivers. Columns (10) to (15) pertaining to the distribution of 1,000 agricultural holdings by size of holdings are left blank as reliable data in this regard is not available. This table is based on Economic Table—I pertaining to 'Livelihood Classes and Sub-Classes' given at page 117 of Part II-B of this Volume. The figures given in this table are as rounded to the nearest integer. Some minor adjustments have, however, been made in the figures given in columns (3), (4) and (5) in order to keep the total for each district at 10,000.

2. *Subsidiary Table* 4.2—*Livelihood Class I (Cultivators of land wholly or mainly owned and their dependants)—Number per 10,000 persons of Livelihood Class I in each Sub-Class; Secondary Means of Livelihood of 10,000 persons of Livelihood Class I.* This table gives, districtwise, for Livelihood Class I (*i*) the break up of 10,000 persons of the livelihood class by their primary economic status *i.e.*, according to self-supporting persons, non-earning dependants and earning dependants; and (*ii*) the numbers of self-supporting persons with a secondary means of livelihood and of earning dependants for every 10,000 persons in the livelihood class split up again according to the livelihood class which provides their secondary means of livelihood.* This table also gives the number of earning dependants for every 10,000 persons in the livelihood class whose secondary means of livelihood was left unspecified—*i.e.*, the number of earning dependants in whose census enumeration slips no answer was recorded for Question No. 11 pertaining to the nature of the secondary means of livelihood. The figures given in this table are as rounded to the nearest integer. Some adjustments have, however, been made in the figures given in columns (2), (3) and (4) in order to keep the total for each distrct at 10,000. This table is based on Economic Table—I pertaining to 'Livelihood Classes and Sub-Classes' and Economic Table—II pertaining to 'Secondary Means of Livelihood' given at pages 117 and 141 respectively of Part II-B of this Volume.

3. *Subsidiary Table* 4.3—*Livelihood Class II (Cultivators of land wholly or mainly unowned and their dependants)—Number per 10,000 persons of Livelihood Class II in each Sub-Class; Secondary Means of Livelihood of 10,000 persons of Livelihood class II.* This table gives, districtwise, for Livelihood Class II (*i*) the break up of 10,000 persons of the livelihood class by their primary economic status *i.e.*, according to self-supporting persons, non-earning dependants and earning dependants; and (*ii*) the numbers of self-supporting persons with a secondary means of livelihood and of earning dependants for every 10,000 persons in the livelihood class split up again according to the livelihood class which provides their secondary means of livelihood. This table also gives the number of earning dependants for every 10,000 persons in the livelihood class whose

* At the 1951 Census, the principal means of livelihood of both an earning and a non-earning dependant was construed as being the same as that of the self-supporting person on whom they were dependant, partly or wholly, as the case may be. The secondary means of livelihood of an earning dependant, however, represented the livelihood which provided him with his earnings or the greater part of his earnings. The non-earning dependant was of course presumed to have no secondary means of livelihood at all.

secondary means of livelihood was left unspecified—*i.e.*, the number of earning dependants in whose enumeration slips no answer was recorded for Question No. 11 pertaining to the nature of the secondary means of livelihood. The figures given in this table are as rounded to the nearest integer. Some adjustments have, however, been made in the figures given in columns (2), (3) and (4) in order to keep the total for each district at 10,000. This table is based on Economic Table—I pertaining to 'Livelihood Classes and Sub-Classes' and Economic Table—II pertaining to 'Secondary Means of Livelihood' given at Pages 117 and 141 respectively of Part II-B of this Volume.

4. *Subsidiary Table 4.4—Livelihood Class III (Cultivating labourers and their dependants)—Number per 10,000 persons of Livelihood Class III in each Sub-Class; Secondary Means of Livelihood of 10,000 persons of Livelihood class III.* This table gives, districtwise, for Livelihood Class III (*i*) the break up of 10,000 persons of the livelihood class by their primary economic status *i.e.*, according to self-supporting persons, non-earning dependants and earning dependants; and (*ii*) the numbers of self-supporting persons with a secondary means of livelihood and of earning dependants for every 10,000 persons in the livelihood class split up again according to the livelihood class which provides their secondary means of livelihood. This table also gives the number of earning dependants for every 10,000 persons in the livelihood class whose secondary means of livelihood was left unspecified—*i.e.*, the number of earning dependants in whose enumeration slips no answer was recorded for Question No. 11 pertaining to the nature of the secondary means of livelihood. The figures given in this table are as rounded to the nearest integer. Some adjustments have, however, been made in the figures given in columns (2), (3) and (4) in order to keep the total for each district at 10,000. This table is based on Economic Table—I pertaining to 'Livelihood Classes and Sub-Classes' and Economic Table—II pertaining to 'Secondary Means of Livelihood' given at Pages 117 and 141 respectively of Part II-B of this Volume.

5. *Subsidiary Table 4.5—Livelihood Class IV (Non-Cultivating owners of land; Agricultural rent receivers and their dependants)—Number per 10,000 persons of Livelihood Class IV in each Sub-Class; Secondary Means of Livelihood of 10,000 persons of Livelihood class IV.* This table gives, districtwise, for Livelihood Class IV (*i*) the break up of 10,000 persons of the livelihood class by their primary economic status *i.e.*, according to self-supporting persons, non-earning dependants and earning dependants; and (*ii*) the numbers of self-supporting persons with a secondary means of livelihood and of earning dependants for every 10,000 persons in the livelihood class split up again according to the livelihood class which provides their secondary means of livelihood. This table also gives the number of earning dependants for every 10,000 persons in the livelihood class whose secondary means of livelihood was left unspecified—*i.e.*, the number of earning dependants in whose enumeration slips no answer was recorded for Question No. 11 pertaining to the nature of the secondary means of livelihood. The figures given in this table are as rounded to the nearest integer. Some adjustments have, however, been made in the figures given in columns (2), (3) and (4) in order to keep the total for each district at 10,000. This table is based on Economic Table—I pertaining to 'Livelihood Classes and Sub-Classes' and Economic Table—II pertaining to 'Secondary Means of Livelihood' given at Pages 117 and 141 respectively of Part II-B of this Volume.

6. *Subsidiary Table 4.6—Active and Semi-Active Workers in Cultivation (Actual Figures).* This table gives, districtwise, the following figures:—

(1) The number of (*a*) self-supporting persons whose principal means of livelihood is Cultivation, *i.e.*, cultivation of land wholly or mainly owned, cultivation of land

wholly or mainly unowned, and employment as cultivating labourers ; (*b*) self-supporting persons in the five non-cultivating classes—*i.e.*, among persons deriving their principal means of livelihood from rent on agricultural land, production (other than cultivation), commerce, transport, and other services and miscellaneous sources—whose secondary means of livelihood is cultivation ; (*c*) earning dependants in all livelihood classes who derive their earnings, or the greater part of their earnings, from cultivation ; and (*d*) the total of all the three categories.

(2) The number of (*a*) self-supporting persons whose principal means of livelihood is cultivation of land wholly or mainly owned ; (*b*) self-supporting persons in the five non-cultivating classes whose secondary means of livelihood is cultivation of land wholly or mainly owned ; (*c*) earning dependants in all the livelihood classes who derive their earnings, or the greater part of their earnings, from cultivation of land wholly or mainly owned; and (*d*) the total of all the three categories.

(3) The number of (*a*) self-supporting persons whose principal means of livelihood is cultivation of land wholly or mainly un-owned ; (*b*) self-supporting persons in the five non-cultivating classes whose secondary means of livelihood is cultivation of land, wholly or mainly un-owned ; (*c*) earning dependants in all the livelihood classes who derive their earnings, or the greater part of their earnings, from cultivation of land wholly or mainly un-owned ; and (*d*) the total of all the three categories.

(4) The number of (*a*) self-supporting persons whose principal means of livelihood is employment as cultivating labourers ; (*b*) self-supporting persons in the five non-cultivating classes whose secondary means of livelihood is employment as cultivating labourers ; (*c*) earning dependants in all the livelihood classes who derive their earnings, or the greater part of their earnings, from employment as cultivating labourers ; and (*d*) the total of all the three categories.

7. This table is based on Economic Table-I relating to ' Livelihood Classes and Sub-Classes ' and Economic Table II relating to Secondary Means of Livelihood ' at pages 117 and 141 respectively of Part II-B of this Volume.

8. *Subsidiary Table 4.7—Progress of Cultivation during Three Decades.* This table gives, districtwise, the extent of four categories of cultivated area namely A (1) average net area sown, A (2) average area sown more than once, A (3) average net area irrigated and A (4) average area irrigated more than once. The figures represent the quinquennial averages for five years ending with the crop years 1949-50, 1939-40, 1929-30 and 1919-20.

9. Some of the defects and inconsistencies observed with regard to the figures given for 1951, 1941, 1931 and 1921 in this table are as follows :—

(*i*) The 1931 figures are available only for the State and not for the districts or even the divisions.

(*ii*) The figures given for average area irrigated more than once for 1921 and 1941 relate only to the two divisions and corresponding figures for the districts are not available.

(*iii*) The figures given in this table do not represent the present extent of the districts. The territorial changes prior to the decade 1941-51 were of an insignificant nature and were not extensive enough to prejudice all deductions except perhaps in the case of a district or two. But apart from the mutual exchange of enclave villages with Bombay and Madras States during the decade 1941-51, extensive changes were effected in this State in 1949 and 1950 consequent on (*a*) the integration of all Sarf-e-Khas (Crown) and Jagir territories and (*b*) the attempts to make each one of the tahsils and districts compact.

(*iv*) The figures relating to ' Average area irrigated more than once ' are in excess of the figures for ' Average area sown more than once ' for 1941 and 1951. Figures worked on this basis for ' Unirrigated double crop cultivation per capita ' in subsidiary table 4.8 will be negative.

(*v*) The percentage of the ' Net area irrigated more than once ' to the 'Net area irrigated ' is 21.2 in 1951, 36.2 in 1941, only 8.1 in 1931 and 116.4 in 1921. These variations are inexplicable ; the percentage recorded in 1921 is ludicrous. The Director of Statistics, Hyderabad, is consequently of the opinion that ' *it is not advisable to use the existing figures of areas for calculating the per capita acreages under the categories net area sown, area sown more than once, area irrigated and area irrigated more than once*'. In view of these defects, figures for the crop year 1951-52, which are a considerable improvement over the previous figures and also correspond better to the present extent of the districts, have been given in the columns (2*a*), (6*a*), (10*a*) and (14*a*).

10. *Subsidiary Table* 4.8—*Components of Cultivated Area per Capita during Three Decades.* This table gives, districtwise, for three decades, figures for (*i*) Unirrigated single-crop cultivation (U.S.C.) per capita, (*ii*) Unirrigated double-crop cultivation (U.D.C.) per capita, (*iii*) Irrigated single-crop cultivation (I.S.C.) per capita and (*iv*) Irrigated double crop cultivation (I.D.C.) per capita. These figures are based on subsidiary table 4.7 and are calculated as follows :—

$$(i)\quad \text{U.S.C.} = \frac{A(1)+A(4)-A(2)-A(3)}{P} \times 100 \text{ cents.}$$

$$(ii)\quad \text{U.D.C.} = \frac{A(2)-A(4)}{P} \times 100 \text{ cents.}$$

$$(iii)\quad \text{I.S.C.} = \frac{A(3)-A(4)}{P} \times 100 \text{ cents.}$$

$$(iv)\quad \text{I.D.C.} = \frac{A(4)}{P} \times 100 \text{ cents.}$$

where P represents the population for each census year. In view of the defects in subsidiary table 4.7 explained in paragraph 9 above, this table is incomplete. As in the case of subsidiary table 4.7, figures relating to 1951-52 are also given here. The figures in this table are as rounded to the first decimal place.

11. *Subsidiary Table* 4.9—*Land area per capita (1951) and trend of Cultivation per capita during Three Decades.* This table gives, districtwise, the total land area per capita, area cultivated and cultivable per capita and area of cultivation per capita. Figures for total land area per capita are calculated on the basis of the area figures for the State and the districts supplied by the Surveyor General, India, and figures pertaining to area cultivated and cultivable per capita are based on the figures supplied by the Department of Statistics, Government of Hyderabad. Columns relating to area of cultivation per capita for 1951, 1941, 1931 and 1921 are left blank because subsidiary table 4.8 is incomplete and does not furnish the necessary data. Figures relating to 1951-52 are, however, given in this table. The figures for area of cultivation per capita (in cents) have been obtained by adding the figures for U.S.C., U.D.C., I.S.C. and I.D.C. given in subsidiary table 4.8. The figures given in this table are as rounded to the first decimal place.

SUBSIDIARY TABLE 4.1

Agricultural Classes per 1,000 persons of General Population—Number in each Class and Sub-Class of 10,000 persons of All-Agricultural Classes; and Comparison with Agricultural Holdings by Size

NOTE.—The figures in Col. (2) are calculated on the basis of the area figures for the State and districts supplied by the Surveyor General, India.

The figures in Cols. (3) and (3-a) are calculated on the basis of figures supplied by the Department of Statistics, Government of Hyderabad, for the year 1950-1951 and 1951-1952. These figures are only provisional and not final.

Columns 4, 5, 6 and 7 are left blank because Subsidiary Table 4.8 is incomplete.

Figures in Col. (4-a) relate to 1951-1952.

SUBSIDIARY TABLES—FIFTH SERIES

1. *Subsidiary Table* 5.1—*Non-Agricultural Classes per 1,000 persons of General Population ; number in each class and sub-class per 10,000 persons of All Non-Agricultural Classes ; and number of Employers, Employees and Independent Workers per 10,000 self-supporting persons of All Non-Agricultural Classes.*—This table gives, districtwise, for the general population (*i*) the number of persons in non-agricultural classes per 1,000 persons of general population ; (*ii*) the distribution per 10,000 persons of all non-agricultural classes according to (*a*) their primary economic status, *i.e.*, as self-supporting persons or non-earning or earning dependants, and (*b*) the particular non-agricultural class, *i.e.*, Production or Commerce or Transport or Other Services and Miscellaneous Sources, they belong to ; and (*iii*) the distribution per 10,000 self-supporting persons of all non-agricultural classes according to their secondary economic status, *i.e.*, as employers or employees or independent workers or others.* This table also gives absolute figures relating to the total number of persons in non-agricultural classes and the total number of self-supporting persons among them.

This table is based on Economic Table–I relating to ' Livelihood Classes and Sub-Classes ' and Economic Table-III relating to ' Employers, Employees and Independent Workers in Industries and Services by Divisions and Sub-Divisions' given at pages 117 and 187 respectively of Part II-B of this Volume. The figures given in this table are as rounded to the nearest integer. Some adjustments have, however, been made to keep the total of the relevant figures in each group for the district at 10,000.

2. *Subsidiary Table* 5.1-A—*Non-Agricultural Classes per 1,000 persons of Rural Population ; number in each class and sub-class per 10,000 persons of All Non-Agricultural Classes ; and number of Employers, Employees and Independent Workers per 10,000 self-supporting persons of All Non-Agricultural Classes.*—This table gives, districtwise, for the rural population (*i*) the number of persons in non-agricultural classes per 1,000 persons of the total rural population ; (*ii*) the distribution per 10,000 persons of all non-agricultural classes among the rural population according to (*a*) their primary economic status, *i.e.*, as self-supporting persons or non-earning or earning dependants, and (*b*) the particular non-agricultural class, *i.e.*, Production, or Commerce, or Transport or Other Services and Miscellaneous Sources, they belong to ; and (*iii*) the distribution per 10,000 self-supporting persons of all non-agricultural classes among the rural population according to their secondary economic status, *i.e.*, as employers or employees or independent workers or others.* This table also gives absolute figures relating to the total number of persons in non-agricultural classes among the rural population and the total number of self-supporting persons among them.

This table is based on Economic Table–I relating to ' Livelihood Classes and Sub-Classes ' and Economic Table-III pertaining to ' Employers, Employees and Independent Workers in Industries and Services by Divisions and Sub-Divisions' given at pages 117 and 187 respectively of Part II-B of this Volume. The figures given in this table are as rounded to the nearest integer. Some adjustments have, however, been made to keep the total of the relevant figures in each group for the district at 10,000.

* This category covers all self-supporting persons engaged in unproductive activities—vide paragraph 2 at page 187 of Part II–B of this Volume.

3. *Subsidiary Table* 5.1-B—*Non-Agricultural Classes per 1,000 persons of Urban Population ; number in each class and sub-class per 10,000 persons of All Non-Agricultural Classes ; and number of Employers, Employees and Independent Workers per 10,000 self-supporting persons of All Non-Agricultural Classes.*—This table gives, districtwise, for the urban population (*i*) the number of persons in non-agricultural classes per 1,000 persons of the total urban population ; (*ii*) the distribution per 10,000 persons of all non-agricultural classes among the urban population according to (*a*) their primary economic status, *i.e.*, as self-supporting persons or non-earning or earning dependants, and (*b*) the particular non-agricultural class, *i.e.*, Production, or Commerce, or Transport or Other Services and Miscellaneous Sources, they belong to ; and (*iii*) the distribution per 10,000 self-supporting persons of all non-agricultural classes among the urban population according to their secondary economic status, *i.e.*, as employers or employees or independent workers or others.* This table also gives absolute figures relating to the total number of persons in non-agricultural classes among the urban population and the total number of self-supporting persons among them.

This table is based on Economic Table–I relating to ' Livelihood Classes and Sub-Classes ' and Economic Table-III pertaining to ' Employers, Employees and Independent Workers in Industries and Services by Divisions and Sub-Divisions' given at pages 117 and 187 respectively of Part II-B of this Volume. The figures given in this table are as rounded to the nearest integer. Some adjustments have, however, been made to keep the total of the relevant figures in each group for the district at 10,000.

4. *Subsidiary Table* 5·2—*Livelihood Class V (Production other than cultivation)—Number per 10,000 persons of Livelihood Class V of the General Population in each sub-class ; Number per 10,000 self-supporting persons of Livelihood Class V who are Employers, Employees and Independent Workers ; and Secondary Means of Livelihood of 10,000 persons of Livelihood Class V.*—This table gives, districtwise, for Livelihood Class V (Production other than cultivation) of the general population the distribution (*i*) per 10,000 persons of the livelihood class according to their primary economic status, *i.e.*, as self-supporting persons or non-earning or earning dependants ; and (*ii*) per 10,000 self supporting persons of the livelihood class according to their secondary economic status, *i.e.*, as employers or employees or independent workers. This table also gives for every 10,000 persons of Livelihood Class V, the numbers both of self-supporting persons with a secondary means of livelihood and of earning dependants split up according to the livelihood class which provides the secondary means of livelihood. This table further indicates the number of earning dependants among every 10,000 persons of the livelihood class whose secondary means of livelihood was left unspecified, *i.e.*, the number of earning dependants in whose census enumeration slips no answer was recorded to the relevant question pertaining to the nature of the secondary means of livelihood. Lastly, this table also furnishes the absolute figures for the total number of persons of Livelihood Class V.

This table is based on Economic Table-I relating to ' Livelihood Classes and Sub-Classes', Economic Table-II pertaining to ' Secondary Means of Livelihood ' and Economic Table-III relating to ' Employers, Employees and Independent Workers in Industries and Services by Divisions and Sub-Divisions' given at pages 117, 141 and 187 respectively of Part II-B of this Volume. The figures given in this table are as rounded to the nearest integer. Some adjustments have, however, been made to keep the total of the relevant figures in each group for the district at 10,000.

* This category covers all self-supporting persons engaged in unproductive activities—vide paragraph 2 at page 187 of Part II-B of this Volume.

5. *Subsidiary Table 5·2-A—Livelihood Class V (Production other than cultivation)—Number per 10,000 persons of Livelihood Class V of the Rural Population in each sub-class; and Number per 10,000 self-supporting persons of Livelihood Class V who are Employers, Employees and Independent Workers.*—This table gives, divisionwise, for Livelihood Class V (Production other than cultivation) among the rural population the distribution (*i*) per 10,000 persons of the livelihood class according to their primary economic status, *i.e.*, as self-supporting persons or non-earning or earning dependants; and (*ii*) per 10,000 self-supporting persons of the livelihood class according to their secondary economic status, *i.e.*, as employers or employees or independent workers. This table also gives, divisionwise, absolute figures for the total number of persons of Livelihood Class V among the rural population.

This table is based on Economic Table–I relating to 'Livelihood Classes and Sub-Classes' and Economic Table–III pertaining to 'Employers, Employees and Independent Workers in Industries and Services by Divisions and Sub-Divisions' given at pages 117 and 187 respectively of Part II-B of this Volume. The figures given in this table are as rounded to the nearest integer except in the case of the figure for North Hyderabad Division under column (2) where the actual figure of 2,402.46 has been treated as 2,403 in order to keep the total of the figures relating to self-supporting persons, non-earning dependants and earning dependants at 10,000.

6. *Subsidiary Table 5.2-B—Livelihood Class V (Production other than cultivation)—Number per 10,000 persons of Livelihood Class V of the Urban Population in each sub-class; and Number per 10,000 self-supporting persons of Livelihood Class V who are Employers, Employees and Independent Workers.*—This table gives, divisionwise, for Livelihood Class V (Production other than cultivation) among the urban population the distribution (*i*) per 10,000 persons of the livelihood class according to their primary economic status, *i.e.*, as self-supporting persons or non-earning or earning dependants; and (*ii*) per 10,000 self-supporting persons of the livelihood class according to their secondary economic status, *i.e.*, as employers or employees or independent workers. This table also gives, divisionwise, absolute figures for the total number of persons of Livelihood Class V among the urban population.

This table is based on Economic Table–I relating to 'Livelihood Classes and Sub-Classes' and Economic Table–III pertaining to 'Employers, Employees and Independent Workers in Industries and Services by Divisions and Sub-Divisions' given at pages 117 and 187 respectively of Part II-B of this Volume. The figures given in this table are as rounded to the nearest integer. Some adjustments have, however, been made to keep the total of the relevant figures in each group for the division at 10,000.

7. *Subsidiary Table 5.3—Livelihood Class VI (Commerce)—Number per 10,000 persons of Livelihood Class VI of the General Population in each sub-class; Number per 10,000 self-supporting persons of Livelihood Class VI who are Employers, Employees and Independent Workers; and Secondary Means of Livelihood of 10,000 persons of Livelihood Class VI.*—This table gives, districtwise, for Livelihood Class VI (Commerce) of the general population the distribution (*i*) per 10,000 persons of the livelihood class according to their primary economic status, *i.e.*, as self-supporting persons or non-earning or earning dependants; and (*ii*) per 10,000 self-supporting persons of the livelihood class according to their secondary economic status, *i.e.*, as employers or employees or independent workers. This table also gives for every 10,000 persons of Livelihood Class VI the numbers both of self-supporting persons with a secondary means of livelihood and of

earning dependants split up according to the livelihood class which provides the secondary means of livelihood. This table further indicates the number of earning dependants among every 10,000 persons of the livelihood class whose secondary means of livelihood was left unspecified, *i.e.*, the number of earning dependants in whose census enumeration slips no answer was recorded to the relevant question pertaining to the nature of the secondary means of livelihood. Lastly, this table also furnishes the absolute figures for the total number of persons of Livelihood Class VI.

This table is based on Economic Table—I relating to 'Livelihood Classes and Sub-Classes', Economic Table—II pertaining to 'Secondary Means of Livelihood' and Economic Table—III relating to 'Employers, Employees and Independent Workers in Industries and Services by Divisions and Sub-Divisions' given at pages 117, 141 and 187 respectively of Part II-B of this Volume. The figures given in this table are as rounded to the nearest integer. Some adjustments have, however, been made to keep the total of the relevant figures in each group for the district at 10,000.

8. *Subsidiary Table* 5.3-A—*Livelihood Class VI (Commerce)—Number per 10,000 persons of Livelihood Class VI of the Rural Population in each sub-class ; and Number per 10,000 self-supporting persons of Livelihood Class VI who are Employers, Employees and Independent Workers.*—This table gives, divisionwise, for Livelihood Class VI (Commerce) among the rural population the distribution (*i*) per 10,000 persons of the livelihood class according to their primary economic status, *i.e.*, as self-supporting persons or non-earning or earning dependants ; and (*ii*) per 10,000 self-supporting persons of the livelihood class according to their secondary economic status, *i.e.*, as employers or employees or independent workers. This table also gives, divisionwise, absolute figures for the total number of persons of Livelihood Class VI among the rural population.

This table is based on Economic Table—I relating to 'Livelihood Classes and Sub-Classes' and Economic Table—III pertaining to 'Employers, Employees and Independent Workers in Industries and Services by Divisions and Sub-Divisions' given at pages 117 and 187 respectively of Part II-B of this Volume. The figures given in this table are as rounded to the nearest integer except in the case of the figure for South Hyderabad Division under column (3) where the actual figure of 6,139.52 has been treated as 6,139 in order to keep the total of the figures relating to self-supporting persons, non-earning dependants and earning dependants at 10,000.

9. *Subsidiary Table* 5.3-B—*Livelihood Class VI (Commerce)—Number per 10,000 persons of Livelihood Class VI of the Urban Population in each sub-class ; and Number per 10,000 self-supporting persons of Livelihood Class VI who are Employers, Employees and Independent Workers.*—This table gives, divisionwise, for Livelihood Class VI (Commerce) among the urban population the distribution (*i*) per 10,000 persons of the livelihood class according to their primary economic status, *i.e.*, as self-supporting persons or non-earning or earning dependants ; and (*ii*) per 10,000 self-supporting persons of the livelihood class according to their secondary economic status, *i.e.*, as employers or employees or independent workers. This table also gives, divisionwise, absolute figures for the total number of persons of Livelihood Class VI among the urban population.

This table is based on Economic Table—I relating to 'Livelihood Classes and Sub-Classes' and Economic Table—III pertaining to 'Employers, Employees and Independent Workers in Industries and Services by Divisions and Sub-Divisions' given at pages 117 and 187 respectively of Part II-B of this Volume. The figures given in this table are as rounded to the nearest integer. Some adjustments have, however, been made to keep the total of the relevant figures in each group for the divison at 10,000.

10. *Subsidiary Table* 5.4—*Livelihood Class VII* (Transport)—*Number per 10,000 persons of Livelihood Class VII of the General Population in each sub-class ; Number per 10,000 self-supporting persons of Livelihood Class VII who are Employers, Employees and Independent Workers : and Secondary Means of Livelihood of 10,000 persons of Livelihood Class VII.*—This table gives, districtwise, for Livelihood Class VII (Transport) of the general population the distribution (*i*) per 10,000 persons of the livelihood class according to their primary economic status, *i.e.*, as self-supporting persons or non-earning or earning dependants ; and (*ii*) per 10,000 self-supporting persons of the livelihood class according to their secondary economic status, *i.e.*, as employers or employees or independent workers. This table also gives for every 10,000 persons of Livelihood Class VII the numbers both of self-supporting persons with a secondary means of livelihood and of earning dependants split up according to the livelihood class which provides the secondary means of livelihood. This table further indicates the number of earning dependants among every 10,000 persons of the livelihood class whose secondary means of livelihood was left unspecified, *i.e.*, the number of earning dependants in whose census enumeration slips no answer was recorded to the relevant question pertaining to the nature of the secondary means of livelihood. Lastly, this table also furnishes the absolute figures for the total number of persons of Livelihood Class VII.

This table is based on Economic Table-I relating to ' Livelihood Classes and Sub-Classes', Economic Table-II pertaining to ' Secondary Means of Livelihood' and Economic Table-III relating to ' Employers, Employees and Independent Workers in Industries and Services by Divisions and Sub-Divisions ' given at pages 117, 141 and 187 respectively of Part II-B of this Volume. The figures given in this table are as rounded to the nearest integer. Some adjustments have, however, been made to keep the total of the relevant figures in each group for the district at 10,000.

11. *Subsidiary Table* 5.4-A—*Livelihood Class VII(Transport)—Number per 10,000 persons of Livelihood Class VII of the Rural Population in each sub-class ; and Number per 10,000 self-supporting persons of Livelihood Class VII who are Employers, Employees and Independent Workers.*—This table gives, divisionwise, for Livelihood Class VII (Transport) among the rural population the distribution (*i*) per 10,000 persons of the livelihood class according to their primary economic status, *i.e.*, as self-supporting persons or non-earning or earning dependants ; and (*ii*) per 10,000 self-supporting persons of the livelihood class according to their secondary economic status, *i.e.*, as employers or employees or independent workers. This table also gives, divisionwise, absolute figures for the total number of persons of Livelihood Class VII among the rural population.

This table is based on Economic Table-I relating to ' Livelihood Classes and Sub-Classes ' and Economic Table–III pertaining to ' Employers, Employees and Independent Workers in Industries and Services by Divisions and Sub-Divisions ' given at pages 117 and 187 respectively of Part II-B of this Volume. The figures given in this table are as rounded to the nearest integer except in the case of the figure for North Hyderabad Division under column (6) where the actual figure of 6,102.35 has been treated as 6,103 in order to keep the total of the figures relating to employers, employees and independent workers at 10,000.

12. *Subsidiary Table* 5.4-B—*Livelihood Class VII(Transport)—Number per 10,000 persons of Livelihood Class VII of the Urban Population in each sub-class ; and Number per 10,000 self-supporting persons of Livelihood Class VII who are Employers, Employees and Independent Workers.*—This table gives, divisionwise, for Livelihood Class VII(Transport) among the urban population, the distribution (*i*) per 10,000 persons of the livelihood class according to their primary economic status, *i.e.*, as self-supporting persons

or non-earning or earning dependants ; and (*ii*) per 10,000 self-supporting persons of the livelihood class according to their secondary economic status. *i.e.*, as employers or employees or independent workers. This table also gives, divisionwise, absolute figures for the total number of persons of Livelihood Class VII among the urban population.

This table is based on Economic Table—I relating to 'Livelihood Classes and Sub-Classes ' and Economic Table--III pertaining to 'Employers, Employees and Independent Workers in Industries and Services by Divisions and Sub-Divisions ' given at pages 117 and 187 respectively of Part II-B of this Volume. The figures given in this table are as rounded to the nearest integer. Some adjustments have, however, been made to keep the total of the relevant figures in each group for the divison at 10,000.

13. *Subsidiary Table 5.5—Livelihood Class VIII (Other services and miscellaneous sources)—Number per 10,000 persons of Livelihood Class VIII of the General Population in each sub-class ; Number per 10,000 self-supporting persons of Livelihood Class VIII who are Employers, Employees, Independent Workers and Others* ; and Secondary Means of Livelihood of 10,000 persons of Livelihood Class VIII.*—This table gives, districtwise, for Livelihood Class VIII (Other services and miscellaneous sources) of the general population, the distribution (*i*) per 10,000 persons of the livelihood class according to their primary economic status, *i.e.*, as self-supporting persons or non-earning or earning dependants ; and (*ii*) per 10,000 self-supporting persons of the livelihood class according to their secondary economic status, *i.e.*, as employers or employees or independent workers or others*. This table also gives for every 10,000 persons of Livelihood Class VIII the numbers both of self-supporting persons with a secondary means of livelihood and of earning dependants split up according to the livelihood class which provides the secondary means of livelihood. This table further indicates the number of earning dependants among every 10,000 persons of the livelihood class whose secondary means of livelihood was left unspecified, *i.e.*, the number of earning dependants in whose census enumeration slips no answer was recorded to the relevant question pertaining to the nature of the secondary means of livelihood. Lastly, this table also furnishes the absolute figures for the total number of persons of Livelihood Class VIII.

This table is based on Economic Table—I relating to 'Livelihood Classes and Sub-Classes,' Economic Table II pertaining to ' Secondary Means of Livelihood ' and Economic Table—III relating to 'Employers, Employees and Independent Workers in Industries and Services by Divisions and Sub-Divisions ' given at pages 117, 141 and 187 respectively of Part II-B of this Valume. The figures given in this table are as rounded to the nearest integer. Some adjustments have, however, been made to keep the total of the relevant figures in each group for the district at 10,000.

14. *Subsidiary Table 5.5.A—Livelihood Class VIII (Other services and miscellaneous sources)—Number per 10,000 persons of Livelihood Class VIII of the Rural Population in each sub-class ; and Number per 10,000 self-supporting persons of Livelihood Class VIII who are Employers, Employees, Independent Workers and Others.*—This table gives, divisionwise, for Livelihood Class VIII (Other Services and Miscellaneous Sources) among the rural population the distribution (*i*) per 10,000 persons of the livelihood class according to their primary economic status, *i.e.*, as self-supporting persons or non-earning or earning dependants ; and (*ii*) per 10,000 self-supporting persons of the livelihood class according to their secondary economic status, *i.e.*, as employers or employees or independent workers or others*. This table also gives, divisionwise, absolute figures for the total number of persons of Livelihood Class VIII among the rural population.

*This category covers all self-supporting persons engaged in unproductive activities—vide paragraph 2 at page 187 of Part II-B of this Volume.

This table is based on Economic Table—I relating to ' Livelihood Classes and Sub-Classes ' and Economic Table—III pertaining to 'Employers, Employees and Independent Workers in Industries and Services by Divisions and Sub-Divisions ' given at pages 117 and 187 respectively of Part II-B of this Volume. The figures given in this table are as rounded to the nearest integer. Some adjustments have, however, been made to keep the total of the relevant figures in each group for the divison at 10,000.

15. *Subsidiary Table* 5.5-B—*Livelihood Class VIII (Other services and miscellaneous sources)—Number per 10,000 persons of Livelihood Class VIII of the Urban Population in each sub-class ; and Number per 10,000 self-supporting persons of Livelihood Class VIII who are Employers, Employees, Independent Workers and Others**.—This table gives, divisionwise, for Livelihood Class VIII (Other services and miscellaneous sources) among the urban population the distribution (*i*) per 10,000 persons of the livelihood class according to their primary economic status, *i.e.*, as self-supporting persons or non-earning or earning dependants ; and (*ii*) per 10,000 self-supporting persons of the livelihood class according to their secondary economic status, *i.e.*, as employers or employees or independent workers or others*. This table also gives, divisionwise, absolute figures for the total number of persons of Livelihood Class VIII among the urban population.

This table is based on Economic Table–I relating to ' Livelihood Classes and Sub-Classes ' and Economic Table–III pertaining to ' Employers, Employees and Independent Workers in Industries and Services by Divisions and Sub-Divisions ' given at pages 117 and 187 respectively of Part II-B of this Volume. The figures given in this table are as rounded to the nearest integer. Some adjustments have, however, been made to keep the total of the relevant figures in each group for the divison at 10,000.

16. *Subsidiary Table* 5.6—*Comparison of the Classification of the Population by Livelihood Classes at the 1951 and 1931 Censuses.*—This table gives for the State and for its two divisions the number of persons in each of the eight livelihood classes for every ten thousand of the general population as recorded at the 1951 and 1931 censuses, together with the break-up of the number in each class for the 1951 figures into self-supporting persons, non-earning dependants and earning dependants and for the 1931 Census figures into earners and working dependants. Absolute figures for self-supporting persons, self-supporting persons with a secondary means of livelihood and earning dependants under each livelihood class as recorded at the 1951 census, and for principal earners, principal earners with subsidiary occupations and working dependants under each livelihood class as recorded at the 1931 census are also given in the table. The figures given in this table are as rounded to the nearest integer. Some adjustments have, however, been made with a view to keeping the total of columns (3), (4) and (5) equal to column (2) and the total of columns (7) and (8) equal to column (6). This table is based on Economic Table-I relating to 'Livelihood Classes and Sub-Classes' and Economic Table-II pertaining to ' Secondary Means of Livelihood ' given at pages 117 and 141 respectively of Part II-B of this Volume and on Table-X pertaining to ' Occupation or Means of Livelihood' at page 107 of Volume XXIII, Part-II, 1931 Census Tables.

17. Comparison of livelihood classes of the 1951 census with the occupational groups adopted at the 1931 Census is given below :—

* This category covers all self-supporting persons engaged in unproductive activities—vide paragraph 2 at page 187 of Part II-B of this Volume.

Livelihood Class of 1951 Census	Corresponding group of 1931 Census (*Vide Table X at page 107 of part-II, 1931 Census Tables*)	
I Cultivators of land wholly or mainly owned and their dependants.	Sub-Class I	Order 1 (*a*) Group 5
II Cultivators of land wholly or mainly unowned and their dependants.	Sub-Class I	Order 1 (*a*) Group 6
III Cultivating labourers and their dependants.	Sub-Class I	Order 1 (*a*) Group 7
IV Non cultivating owners of land; agricultural rent-receivers and their dependants.	Sub-Class I	Order 1 (*a*) Group 1
V Production (other than cultivation).	Sub-Class I	Order 1 (*b*)
	do	do 1 (*c*)
	do	do 1 (*d*)
	do	do 1 (*e*)
	do	do 2
	Sub-Class II	Full
	Sub-Class III	Order 5 to 11
	do	do 12 except groups 85 and 86
	do	do 13 and 15
	do	do 17 except group 100
	Sub-Class XI	Order 52 group 190
VI Commerce.	Sub-Class V	Order 23 to 30
	do	do 31 except group 127
	do	do 32 to 39
	Sub-Class XI	Order 52 group 189
VII Transport.	Sub-Class IV	Order 20 groups 107 to 111
	do	do 21 group 112
VIII Other Services and Miscellaneous Sources.	Sub-Class I	Order 1 (*a*) groups 2 to 4
	Sub-Class III	Order 12 groups 85 and 86
	do	do 14
	do	do 16
	do	do 17 group 100
	Sub-Class IV	Order 19
	do	do 20 groups 105 and 106
	do	do 21 group 113
	do	do 22
	Sub-Class V	Order 31 group 127
	Sub-Class VI	Order 40-43
	Sub-Class VII	Order 44
	Sub-Class VIII	Order 45 to 49
	Sub-Class X	Order 51
	Sub-Class XI	Order 52 groups 188 and 191
	Unproductive	Occupations
	Sub-Class IX	Order 50
	Sub-Class XII	Orders 53, 54 and 55

18. The 1931 figures are not adjusted to correspond to the present territories of either the State or of the districts included in North Hyderabad and South Hyderabad Divisions.

19. *Subsidiary Table 5.7—Territorial distribution of 10,000 self-supporting persons of All Industries and Services (By Divisions).*—This table gives, districtwise, absolute figures relating to self-supporting persons engaged in all industries and services and the distribution per 10,000 self-supporting persons in all industries and services among the following 10 Divisions :—

Division 0—Primary Industries not elsewhere specified.
,, 1—Mining and Quarrying.
,, 2—Processing and Manufacture—Foodstuffs, Textiles, Leather and Products thereof.
,, 3—Processing and Manufacture–Metals, Chemicals and Products thereof.
,, 4—Processing and Manufacture—Not elsewhere specified.
,, 5—Construction and Utilities.
,, 6—Commerce.
,, 7—Transport, Storage and Communications.
,, 8—Health, Education and Public Administration.
,, 9—Services not elsewhere specified.

This table also gives corresponding figures for the rural and urban areas in the State and its two divisions.

All the figures given in this table are as rounded to the nearest integer. This table, is based on Economic Table-III pertaining to 'Employers, Employees and Independent Workers in Industries and Services by Divisions and Sub-Divisions ' given at page 187 of Part II-B of this Volume.

20. *Subsidiary Table 5.8—Territorial distribution of 10,000 self-supporting persons engaged in Primary Industries not elsewhere specified (By Sub-Divisions).*—This table gives, districtwise, absolute figures relating to self-supporting persons of Division 0 *i.e.* primary industries not elsewhere specified, their proportion to 10,000 self-supporting persons engaged in all industries and services and the distribution per 10,000 self-supporting persons of Division 0 among the following 6 Sub-Divisions :—

Sub-Division 0.1—Stock Raising.
,, 0.2—Rearing of small animals and insects.
,, 0.3—Plantation Industries.
,, 0.4—Forestry and collection of products not elsewhere specified and wood-cutting.
,, 0.5—Hunting (including trapping and Game Propagation).
,, 0.6—Fishing.

This table also gives corresponding figures for the rural and urban areas in the State and its two divisions.

All the figures given in this table are as rounded to the nearest integer. Where no proportion has been indicated in the table for any of the Sub-Divisions indicated above, there are either no returns under the Sub-Division or the returns are less than 0.5 per 10,000 self-supporting persons under the Division. In such cases, absolute figures, if any, can be obtained from Economic Table-III pertaining to ' Employers, Employees and Independent Workers in Industries and Services by Divisions and Sub-Divisions ' (given at page 187 of Part II-B of this Volume), on which this table is based.

21. *Subsidiary Table 5.9—Territorial distribution of 10,000 self-supporting persons engaged in Mining and Quarrying (By Sub-Divisions).*—This table gives, districtwise

absolute figures relating to self-supporting persons of Division 1 *i.e.*, mining and quarrying, their proportion to 10,000 self-supporting persons engaged in all industries and services and the distribution per 10,000 self-supporting persons of Division 1 among the following 8 Sub-Divisions :—

Sub-Division 1.0—Non-metallic mining and quarrying not otherwise classified—including mining and quarrying of such materials as precious and semi-precious stones, asbestos, gypsum, sulphur, asphalt, bitumen.
,, 1.1—Coal-mining —Mines primarily engaged in the extraction of anthracite and of soft coals such as bitumenous, sub-bitumenous and legnite.
,, 1.2—Iron ore mining.
,, 1.3—Metal mining except iron ore mining.
,, 1.4—Crude Petroleum and Natural Gas.
,, 1.5—Stone-quarrying, clay and sand pits.
,, 1.6—Mica.
,, 1.7—Salt, Saltpetre and saline substances.

This table also gives corresponding figures for the rural and urban areas in the State and its two divisions.

All the figures given in this table are as rounded to the nearest integer. Where no proportion has been indicated in the table for any of the Sub-Divisions indicated above, there are either no returns under the Sub-Division or the returns are less than 0.5 per 10,000 self-supporting persons under the Division. In such cases, absolute figures, if any, can be obtained from Economic Table-III pertaining to ' Employers, Employees and Independent Workers in Industries and Services by Divisions and Sub-Divisions ' (given at page 187 of Part II-B of this Volume), on which this table is based.

22. *Subsidiary Table* 5.10—*Territorial distribution of 10,000 self-supporting persons engaged in Processing and Manufacture—Foodstuffs, Textiles, Leather and Products thereof (By Sub-Divisions).*—This table gives, districtwise, absolute figures relating to self-supporting persons of Division 2 *i.e.*, processing and manufacture of food-stuffs, textiles, leather and products thereof, their proportion to 10,000 self-supporting persons engaged in all industries and services and the distribution per 10,000 self-supporting persons of Division 2 among the following 10 Sub-Divisions :—

Sub-Division 2.0—Food Industries otherwise unclassified.
,, 2.1—Grains and Pulses.
,, 2.2—Vegetable oil and dairy products.
,, 2.3—Sugar Industries.
,, 2.4—Beverages.
,, 2.5—Tobacco.
,, 2.6—Cotton textiles.
,, 2.7—Wearing apparel (except footwear) and made up textile goods.
,, 2.8—Textile Industries otherwise unclassified.
,, 2.9—Leather, leather products and footwear.

This table also gives corresponding figures for the rural and urban areas in the State and its two divisions.

All the figures given in this table are as rounded to the nearest integer. Where no proportion has been indicated in the table for any of the Sub-Divisions indicated

above, there are either no returns under the Sub-Division or the returns are less than 0.5 per 10,000 self-supporting persons under the Division. In such cases, absolute figures, if any, can be obtained from Economic Table-III pertaining to ' Employers, Employees and Independent Workers in Industries and Services by Divisions and Sub-Divisions ' (given at page 187 of Part II-B of this Volume), on which this table is based.

23. *Subsidiary Table* 5.11—*Territorial distribution of 10,000 self-supporting persons engaged in Processing and Manufacture—Metals, Chemicals and products thereof (By Sub-Divisions)*.—This table gives, districtwise, absolute figures relating to self-supporting persons of Division 3 *i.e.*, processing and manufacture of metals, chemicals and products thereof, their proportion to 10,000 self-supporting persons engaged in all industries and services and the distribution per 10,000 self-supporting persons of Division 3 among the following 9 Sub-Divisions :—

Sub-Division 3.0—Manufacture of metal products otherwise unclassified.
,, 3.1—Iron and Steel (Basic Manufacture).
,, 3.2—Non-Ferrous Metals (Basic Manufacture).
,, 3.3—Transport Equipment.
,, 3.4—Electrical machinery, apparatus, appliances and supplies.
,, 3.5—Machinery (other than electrical machinery) including Engineering Workshops.
,, 3.6—Basic Industrial Chemicals, Fertilisers and Power Alcohol.
,, 3.7—Medical and Pharmaceutical Preparations.
,, 3.8—Manufacture of chemical products otherwise unclassified.

This table also gives corresponding figures for the rural and urban areas in the State and its two divisions.

All the figures given in this table are as rounded to the nearest integer. Where no proportion has been indicated in the table for any of the Sub-Divisions indicated above, there are either no returns under the Sub-Division or the returns are less than 0.5 per 10,000 self-supporting persons under the Division. In such cases, absolute figures, if any, can be obtained from Economic Table-III pertaining to ' Employers, Employees and Independent Workers in Industries and Services by Divisions and Sub-Divisions ' (given at page 187 of Part II-B of this Volume), on which this table is based.

24 *Subsidiary Table* 5.12—*Territorial distribution of 10,000 self supporting persons engaged in Processing and Manufacture-Not elsewhere specified (By sub-Divisions)*.—This table gives, districtwise, absolute figures relating to self-supporting persons of Division 4 *i.e.*, processing and manufacture—not elsewhere specified, their proportion to 10,000 self-supporting persons engaged in all industries and services and the distribution per 10,000 self-supporting persons of Division 4 among the following ten Sub-Divisions :—

Sub-Division 4.0—Manufacturing Industries otherwise unclassified.
,, 4.1—Products of petroleum and coal.
,, 4.2—Bricks, tiles and other structural clay products.
,, 4.3—Cement, Cement pipes and other cement products.
,, 4.4—Non-metallic mineral products.
,, 4.5—Rubber products.
,, 4.6—Wood and wood products other than furniture and fixtures.
,, 4.7—Furniture and fixtures.
,, 4.8—Paper and paper products.
,, 4.9—Printing and Allied Industries.

This table also gives corresponding figures for the rural and urban areas in the State and its two divisions.

All the figures given in this table are as rounded to the nearest integer. Where no proportion has been indicated in the table for any of the Sub-Divisions indicated above, there are either no returns under the Sub-Division or the returns are less than 0.5 per 10,000 self-supporting persons under the Division. In such cases, absolute figures, if any, can be obtained from Economic Table-III pertaining to ' Employers, Employees and Independent Workers in Industries and Services by Divisions and Sub-Divisions ' (given at page 187 of Part II-B of this Volume), on which this table is based.

25. *Subsidiary Table* 5.13—*Territorial distribution of 10,000 self-supporting persons engaged in Construction and Utilities (By Sub-Divisions).*—This table gives, districtwise, absolute figures relating to self-supporting persons of Division 5 *i.e.*, construction and utilities, their proportion to 10,000 self-supporting persons engaged in all industries and services and the distribution per 10,000 self-supporting persons of Division 5 among the following 8 Sub-Divisions :—

Sub-Division 5.0—Construction and maintenance of works—otherwise unclassified.

,, 5.1—Construction and maintenance—Buildings.

,, 5.2—Construction and maintenance—Roads, Bridges and other Transport works.

,, 5.3—Construction and maintenance—Telegraph and Telephone Lines.

,, 5.4—Construction and maintenance Operations—Irrigation and other agricultural works including contour bunding, terracing and land reclamation operations.

,, 5.5—Works and Services—Electric power and gas supply.

,, 5.6—Works and Services—Domestic and Industrial water supply.

,, 5.7—Sanitary works and Services—Including Scavengers.

This table also gives corresponding figures for the rural and urban areas in the State and its two divisions.

All the figures given in this table are as rounded to the nearest integer. Where no proportion has been indicated in the table for any of the Sub-Divisions indicated above, there are either no returns under the Sub-Division or the returns are less than 0.5 per 10,000 self-supporting persons under the Division. In such cases, absolute figures, if any, can be obtained from Economic Table-III pertaining to ' Employers, Employees and Independent Workers in Industries and Services by Divisions and Sub-Divisions ' (given at page 187 of Part II-B of this Volume), on which this table is based.

26. *Subsidiary Table* 5.14—*Territorial distribution of 10,000 self-supporting persons engaged in Commerce (By Sub-Divisions).*—This table gives, districtwise, absolute figures relating to self-supporting persons of Division 6 *i.e.*, commerce, their proportion to 10,000 self-supporting persons engaged in all industries and services and the distribution per 10,000 self-supporting persons of Division 6 among the following 9 Sub-Divisions :—

Sub-Division 6.0—Retail trade otherwise unclassified.
" 6.1—Retail trade in foodstuffs (including beverages and narcotics).
" 6.2—Retail trade in fuel (including petrol).
" 6.3—Retail trade in textile and leather goods.
" 6.4—Wholesale trade in foodstuffs.
" 6.5—Wholesale trade in commodities other than foodstuffs.
" 6.6—Real Estate.
" 6.7—Insurance.
" 6.8—Money lending, banking and other financial business.

This table also gives corresponding figures for the rural and urban areas in the State and its two divisions.

All the figures given in this table are as rounded to the nearest integer. Where no proportion has been indicated in the table for any of the Sub-Divisions indicated above, there are either no returns under the Sub-Division or the returns are less than 0.5 per 10,000 self-supporting persons under the Division. In such cases, absolute figures, if any, can be obtained from Economic Table-III pertaining to ' Employers, Employees and Independent Workers in Industries and Services by Divisions and Sub-Divisions ' (given at page 187 of Part II-B of this Volume), on which this table is based.

27. *Subsidiary Table* 5.15—*Territorial distribution of 10,000 self-supporting persons engaged in Transport, Storage and Communications (By Sub-Divisions).*—This table gives, districtwise, absolute figures relating to self-supporting persons of Division 7 *i.e.*, transport, storage and communications, their proportion to 10,000 self-supporting persons engaged in all industries and services and the distribution per 10,000 self- supporting persons of Division 7 among the following 10 Sub-Divisions :—

Sub-Division 7.0—Transport and communications otherwise unclassified and incidental services.
" 7.1—Transport by road.
" 7.2—Transport by water.
" 7.3—Transport by Air.
" 7.4—Railway transport.
" 7.5—Storage and warehousing.
" 7.6—Postal Services.
" 7.7—Telegraph Services.
" 7.8—Telephone Services.
" 7.9—Wireless Services.

This table also gives corresponding figures for the rural and urban areas in the State and its two divisions.

All the figures given in this table are as rounded to the nearest integer. Where no proportion has been indicated in the table for any of the Sub-Divisions indicated above, there are either no returns under the Sub-Division or the returns are less than 0.5 per 10,000 self-supporting persons under the Division. In such cases, absolute figures, if any, can be obtained from Economic Table-III pertaining to ' Employers, Employees and Independent Workers in Industries and Services by Divisions and Sub-Divisions ' (given at page 187 of Part II-B of this Volume), on which this table is based.

28. *Subsidiary Table* 5.16—*Territorial distribution of 10,000 self-supporting persons engaged in Health, Education and Public Administration (By Sub-Divisions)*.—This table gives, districtwise, absolute figures relating to self-supporting persons of Division 8 *i.e.*, health, education and public administration, their proportion to 10,000 self-supporting persons engaged in all industries and services and the distribution per 10,000 self-supporting persons of Division 8 among the following Sub-Divisions :—

Sub-Division 8.1—Medical and other Health Services.
" 8.2—Educational Services and Research.
" 8.4—Police (other than village watchmen).
" 8.5—Village Officers and servants, including village watchmen.
" 8.6—Employees of Municipalities and Local Boards (including Panchayats).
" 8.7—Employees of State Government (but not including persons classifiable under any other division or sub-division).
Sub-Divisions 8.3, 8.8, 8.9—Employees of the Union Government (but not including persons classifiable under any other division or sub-division) and employees of Non-Indian Governments.

This table also gives corresponding figures for the rural and urban areas in the State and its two divisions. All the figures given in this table are as rounded to the nearest integer. This table is based on Economic Table-III pertaining to 'Employers, Employees and Independent Workers in Industries and Services by Divisions and Sub-Divisions' given at page 187 of Part II-B of this Volume.

29. *Subsidiary Table* 5.17—*Territorial distribution of 10,000 self-supporting persons engaged in Services not elsewhere specified (By Sub-Divisions)*.—This table gives, districtwise, absolute figures relating to self-supporting persons of Division 9 *i.e.*, services not elsewhere specified, their proportion to 10,000 self-supporting persons engaged in all industries and services and the distribution per 10,000 self-supporting persons of Division 9 among the following nine Sub-Divisions :—

Sub-Division 9.0—Services otherwise unclassified.
" 9.1—Domestic Services (but not including services rendered by members of family households to one another).
" 9.2—Barbers and beauty shops.
" 9.3—Laundries and Laundry services.
" 9.4—Hotels, restaurants and eating houses.
" 9.5—Recreation services.
" 9.6—Legal and business services.
" 9.7—Arts, letters and journalism.
" 9.8—Religious, Charitable and Welfare Services.

This table also gives corresponding figures for the rural and urban areas in the State and its two divisions. All the figures given in this table are as rounded to the nearest integer. This table is based on Economic Table-III pertaining to 'Employers, Employees and Independent Workers in Industries and Services by Divisions and Sub-Divisions' given at page 187 of Part II-B of this Volume.

SUBSIDIARY TABLE 5.1

* Absolute figures pertaining to the Sub-Divisions with further details are given in 'District Index of Non-Agricultural Occupations' at Page 352 of Part II-B of this Volume.

SUBSIDIARY TABLES—SIXTH SERIES

1. *Subsidiary Table* 6·1—*Persons per 1,000 houses and houses per 100 square miles and comparison with past Censuses.* This table gives, districtwise, for the 1951, 1941, 1931 and 1921 Censuses, the number of persons per 1,000 houses among the general, rural and urban populations as well as the number of houses per 100 square miles as recorded at each of the censuses. In this table, the proportions relating to the 1951 Census are based on Table A-I pertaining to ' Area, Houses and Population ' given at page 1 of Part II-A of this Volume and those relating to the previous censuses are based on the corresponding tables in the previous reports, except that the proportions relating to Hyderabad District are based on the combined figures for Hyderabad City, Atraf-e-Balda and Baghat Districts. Thus, the 1941, 1931 and 1921 proportions given in this table are not based on figures adjusted to conform to the existing boundaries of the districts or the State. *Besides, as the area figures given in the previous census reports are based on data supplied by the Commissioner, Settlement and Land Records, Hyderabad and those in the present report on data supplied by the Surveyor General of India and there is appreciable difference between the two, the present proportions regarding the number of houses per* 100 *square miles are not comparable with those given in the previous reports.* Further, considerable improvement was effected at the 1951 Census both in the method of arriving at the actual number of occupied houses and in differentiating them from households. These aspects are explained fully in the relevant section of Part I-A of this Volume.

All the figures given in this table are as rounded to the nearest integer.

2. *Subsidiary Table* 6·2—*Number of Households per 1,000 Houses ; and Distribution by size of 1,000 Sample Households of Rural and Urban Population.* This table gives, districtwise, for both the rural and the urban areas the number of households per 1,000 houses ; the population per 1,000 sample households ; the break up of 1,000 sample households according to their size into four categories, namely (*i*) ' small ' *i.e.*, those consisting of 3 members or less, (*ii*) ' medium ' *i.e.*, those consisting of 4-6 members, (*iii*) ' large ' *i.e.*, those consisting of 7-9 members and (*iv*) ' very large ' *i.e.*, those consisting of 10 or more members ; and the number of persons in each category of the households. These sample households were selected from the National Registers and represent roughly a sample of 1 in 1,000. The method adopted in the selection of the sample households is explained in paragraph 3 of the flyleaf to Table C-I pertaining to ' Household (Size and Composition)' at page 1 of Part II-B of this Volume.

3. The figures given in this table are as rounded to the nearest integer. Some adjustments have, however, been made in order to keep the total of the sample households for each district at 1,000 or to tally the number of persons given in Columns 3 and 15 with their break up according to the size of the households. This table is based on Table A-I pertaining to ' Area, Houses and Population ' given at page 1 of Part II-A of this Volume and Table C-I pertaining to ' Household (Size and Composition) ' given at page 1 of Part II-B of this Volume.

4. *Subsidiary Table* 6·3—*Females per 1,000 Males (General, Rural and Urban Population) ; and comparison with previous Censuses.* This table gives, districtwise, the

number of females per 1,000 males for the general, rural and urban populations for the 1951, 1941, 1931 and 1921 Censuses. In this table, the proportions pertaining to general population for all the censuses are based on Table A-II relating to ' Variation in Population during Fifty Years' given at page 7 of Part II-A of this Volume. But the proportions relating to the rural and urban populations are based on Table A-I pertaining to ' Area, Houses and Pouplation ; given at page 1 of Part II-A of this Volume in so far as the 1951 Census is concerned and obtained on lines indicated in paragraph 3 at page 55 and paragraph 3 at page 63 in so far as the previous censuses are concerned.

All the figures given in this table are as rounded to the nearest integer.

5. *Subsidiary Table* 6.4—*Females per 1,000 Males in Agricultural Classes and Sub-Classes.* This table gives, districtwise, for all the four agricultural classes taken together as well as for each of the four agricultural classes (*a*) the number of females per 1,000 males, (*b*) the number of self-supporting females per 1,000 self-supporting males, (*c*) the number of female non-earning dependants per 1,000 male non-earning dependants and (*d*) the number of female earning dependants per 1,000 male earning dependants. This table is based on Economic Table-I pertaining to 'Livelihood Classes and Sub-Classes' given at page 117 of Part II-B of this Volume. All the figures given in this table are as rounded to the nearest integer.

6. *Subsidiary Table* 6.5—*Females per 1,000 Males in Non-Agricultural Classes and Sub-Classes.* This table gives, districtwise, for all the four non-agricultural classes taken together as well as for each of the four non-agricultural classes (*a*) the number of females per 1,000 males, (*b*) the number of self-supporting females per 1,000 self-supporting males, (*c*) the number of female non-earning dependants per 1,000 male non-earning dependants and (*d*) the number of female earning dependants per 1,000 male earning dependants. This table is based on Economic Table-I pertaining to ' Livelihood Classes and Sub-Classes ' given at page 117 of Part II-B of this Volume. All the figures given in this table are as rounded to the nearest integer.

7. *Subsidiary Table* 6.6—*Marital status of 1,000 of each sex of General Population and comparison with previous Censuses.* This table gives, districtwise, figures relating to the marital status per 1,000 persons of each sex of the general population as ascertained at the 1951, 1941, 1931 and 1921 Censuses. In this table, the 1951 proportions are based on Table C-III pertaining to ' Age and Civil Condition ' given at page 41 of Part II-B of this Volume and the proportions for the earlier censuses are based on the district tables pertaining to ' Age, Sex and Civil Condition ' of the concerned census reports, except that the proportions for Hyderabad District have been calculated on the combined figures for Baghat and Atraf-e-Balda Districts and Hyderabad City. Thus, the 1941, 1931 and 1921 proportions given in this table are not based on figures adjusted to conform to the existing boundaries of the districts or the State.

8. The 1931 and 1921 proportions pertaining to the widowed as given in this table include the proportion of the divorced also. This is due to the fact that in the 1931 and 1921 Census Reports figures relating to divorced persons were not indicated separately but were combined with those pertaining to the widowed. The figures given in this table are as rounded to the nearest integer. Some adjustments have, however, been made in order to keep the total of the figures for unmarried, married, widowed and divorced at each census for each district at 1,000.

9. *Subsidiary Table* 6.6-A—*Marital status of 1,000 persons of each sex in different Age Groups.* This table gives, districtwise, figures relating to the marital status of 1,000 persons of each sex in each of the six age groups of ' 5-14 ', ' 15-24 ', ' 25-34', '35-44', '45-54 ' and ' 55 and Over ' as ascertained at the 1951 Census. This table is based on Table C-III pertaining to ' Age and Civil Condition ' given at page 41 of Part II-B of this Volume. The figures given in this table are as rounded to the nearest integer except that some adjustments have been made in order to keep the total of each age group at 1,000.

10. *Subsidiary Table* 6.7— *Age distribution of 1,000 married persons of each sex (and comparison with 1941 and 1931 Censuses).* This table gives, districtwise, the break-up of 1,000 married males and of 1,000 married females by the four age groups of ' 0-14 ', ' 15-34 ', ' 35-54 ' and ' 55 and Over ' for the 1951, 1941 and 1931 Censuses. In this table, the 1951 proportions are based on Table C-III pertaining to ' Age and Civil Condition ' given at page 41 of Part II-B of this Volume, and the proportions for the earlier censuses are based on the district tables pertaining to ' Age and Civil Condition ' of the concerned census reports, except that the proportions for Hyderabad District have been calculated on the combined figures for Baghat and Atraf-e-Balda Districts and Hyderabad City. Thus, the 1941 and 1931 proportions given in this table are not based on figures adjusted to conform to the existing boundaries of the districts and the State.

Note.—The age groups by which figures for civil condition are given in the 1941 and 1931 Census Reports are not identical with the age groups of the 1951 Census. The age groups for the districts by which data are furnished for civil condition in the 1941 and 1931 Census Reports are '0-1', '1-5', '5-10', '10-15', '15-20', '20-30', '30-40', '40-50', '50-60' and '60 and Over'. The districtwise figures pertaining to married persons of each sex in the age groups of '0-1', '1-5', '5-10' and '10-15' taken together, were treated as those relating to the present age group of '0-14'. But for obtaining the figures for the present age groups of '15-34', '35-54' and '55 and Over', the break-up of the districtwise figures of the previous censuses according to the four age groups of '30-35,' '35-40', '50-56' and "55-60' was required. Figures for these four age groups were available for the State. The districtwise figures pertaining to the age groups of '30-40' and '50-60" as given in the two previous reports were also split up on the basis of the ratios for these four age groups for the State.

11. At the 1951 Census (unlike in the 1941 and 1931 Censuses) all children aged '0-4 ' were treated as unmarried, irrespective of the answers recorded in the enumeration slips with reference to their marital status. But even in the earlier censuses, the proportion of the married in this initial age group was not very significant for either sex.

The figures given in this table are as rounded to the nearest integer.

12. *Subsidiary Table* 6.8—*Infants per 10,000 persons.* This table gives, districtwise, the number of infants per 10,000 persons of all ages of the general population as recorded at the 1951, 1941 and 1931 Censuses, the sexwise break-up of the number being also given for the 1951 Census ; and also the number of infants of each sex per 10,000 persons of all ages, among the rural population, the urban population, the agricultural classes and the non-agricultural classes, as recorded at the 1951 Census.

13. The proportions for 1951 are based on figures obtained from Table C-II pertaining to ' Livelihood Classes by Age Groups ' given at page 9 of Part II-B of this Volume. Proportions for the earlier censuses are based on figures given for age group ' 0-1 ' in the district tables pertaining to ' Age and Civil Condition ' of the concerned census reports, except that proportions for Hyderabad District have been calculated on the combined figures for Baghat and Atraf-e-Balda Districts and Hyderabad City. Thus, the 1941 and 1931 proportions given in this table are, not based on figures adjusted to conform to the existing boundaries of the districts and the State.

The figures given in this table are as rounded to the nearest integer.

14. *Subsidiary Table* 6.9—*Young Children (aged 1-4) per 10,000 persons.* This table gives, districtwise, the number of young children (aged 1-4) per 10,000 persons of all ages of the general population as recorded at the 1951, 1941 and 1931 Censuses, the sexwise break-up of the number being also given for the 1951 Census; and also the number of young children of each sex per 10,000 persons of all ages, among the rural population, the urban population, the agricultural classes and the non-agricultural classes, as recorded at the 1951 Census.

15. The proportions for 1951 are based on figures obtained from Table C-II pertaining to ' Livelihood Classes by Age Groups ' given at page 9 of Part II-B of this Volume. Proportions for the earlier censuses are based on the figures given for age group ' 1-5 ' in the district tables pertaining to ' Age and Civil Condition ' of the concerned census reports, except that proportions for Hyderabad District have been calculated on the combined figures for Baghat and Atraf-e-Balda Districts and Hyderabad City. Thus, the 1941 and 1931 proportions given in this table are, not based on figures adjusted to conform to the existing boundaries of the districts and the State.

The figures given in this table are as rounded to the nearest integer.

16. *Subsidiary Table* 6.10—*Boys and Girls (aged 5-14) per 10,000 persons.* This table gives, districtwise, the number of boys and girls aged ' 5-14 ' per 10,000 persons of all ages of the general population as recorded at the 1951, 1941 and 1931 Censuses, the sexwise break-up of the number being also given for the 1951 Census ; and also the number of boys and girls per 10,000 persons of all ages, among the rural population, the urban population, the agricultural classes and the non-agricultural classes, as recorded at the 1951 Census.

17. The proportions for 1951 are based on figures obtained from Table C-II pertaining to ' Livelihood Classes by Age Groups' given at page 9 of Part II-B of this Volume. Proportions for the earlier censuses are based on the totals of figures given for age groups ' 5-10 ' and ' 10-15 ' in the district tables pertaining to ' Age and Civil Condition ' of the concerned census reports, except that proportions for Hyderabad District have been calculated on the combined figures for Baghat and Atraf-e-Balda Districts and Hyderabad City. Thus, the 1941 and 1931 proportions given in this table are not based on figures adjusted to conform to the existing boundaries of the districts or the State.

The figures given in this table are as rounded to the nearest integer.

18. *Subsidiary Table* 6·11—*Young Men and Women (aged 15-34) per 10,000 persons.* This table gives, districtwise, the number of young men and women aged ' 15-34 ' per 10,000 persons of all ages of the general population as recorded at the 1951, 1941 and 1931 Censuses ; the sexwise break-up of the number being also given for the 1951 Census, and also the number of young men and women per 10,000 persons of all ages, among the rural pouplation, the urban population, the agricultural classes, and the non-agricultural classes as recorded at the 1951 Census.

19. The proportions for 1951 are based on figures obtained from Table C-II pertaining to ' Livelihood Classes by Age Groups ' given at page 9 of Part II-B of this Volume. Proportions for the earlier Censuses are based on the totals of figures for the age groups of ' 15-20 ', ' 20-30 ' as given in the district tables pertaining to ' Age and Civil Condition '

of the concerned census reports and of ' 30-35 ' as obtained from these district tables on lines indicated in the note under paragraph 10 above, except that proportions for Hyderabad District have been calculated on the totals of the figures for Baghat and Atraf-e-Balda Districts and Hyderabad City. Thus, the 1941 and 1931 proportions given in this table are, therefore not based on figures adjusted to conform to the existing boundaries of the districts or the State.

The figures given in this table are as rounded to the nearest integer.

20. *Subsidiary Table* 6.12—*Middle Aged Persons (aged 35-54) per 10,000 persons.* This table gives, districtwise, the number of middle aged persons (aged 35-54) per 10,000 persons of all ages of the general population as recorded at the 1951, 1941 and 1931 Censuses, the sexwise break-up of the number being also given for the 1951 Census ; and also the number of middle aged persons of each sex per 10,000 persons of all ages, among the rural population, the urban population, the agricultural classes and the non-agricultural classes, as recorded at the 1951 Census.

21. The proportions for 1951 are based on figures obtained from Table C-II pertaining to ' Livelihood Classes by Age groups ' given at page 9 of Part II-B of this Volume. Proportions for the earlier censuses are based on the totals of figures for the age groups of ' 40-50 ' (as given in the district tables pertaining to ' Age and Civil Condition ' of the concerned census reports), ' 35-40 ' and ' 50-55 ' as obtained from these district tables on lines indicated in the note under paragraph 10 above, except that proportions for Hyderabad District, have been calculated on the totals of figures for Baghat and Atraf-e-Balda Districts and Hyderabad City. Thus, the 1941 and 1931 proportions given in this table are not based on figures adjusted to conform to the existing boundaries of the districts or the State.

The figures given in this table are as rounded to the nearest integer.

22. *Subsidiary Table* 6·13—*Elderly Persons (aged 55 and over) per 10,000 persons.* This table gives, districtwise, the number of elderly persons (aged 55 and over) per 10,000 persons of all ages of the general population as recorded at the 1951,1941 and 1931 Censuses, the sexwise break-up of the number being also given for the 1951 Census ; and also the number of elderly persons of each sex per 10,000 persons of all ages, among the rural population, the urban population, the agricultural classes and the non-agricultural classes, as recorded at the 1951 Census.

23. The proportions for 1951 are based on figures obtained from Table C-II pertaining to ' Livelihood Classes by Age groups ' given at page 9 of Part II-B of this Volume. Proportions for the earlier censuses are based on the totals of figures for the age groups of ' 60 and over ' as given in the district tables pertaining to ' Age and Civil Condition ' of the concerned census reports and ' 55-60 ' as obtained from the district tables on lines indicated in the note under paragraph 10 above, except that proportions for Hyderabad District have been calculated on the totals of figures for Baghat and Atraf-e-Balda Districts and Hyderabad City. Thus, the 1941 and 1931 proportions given in this table, are not based on figures adjusted to conform to the existing boundaries of the districts or the State.

SUBSIDIARY TABLES—SEVENTH SERIES

1. *Subsidiary Table 7.1—Progress of Literacy.* This table gives the number of literates per 1,000 males and per 1,000 females in the age groups of ' 5-9 ', ' 5-14 ', ' 5 and upwards ' and ' 15 and upwards' as on 1-3-1951 for Hyderabad State and each of its two divisions as well as for their rural and urban areas. *Corresponding proportions in the first three age groups are also given as on* 1-3-1941 *although as explained in the relevant portion of Part* I-A *of this Volume, the 1941 figures pertaining to literacy (as well as those relating to Muslims and Urdu speakers) are considerably exaggerated. Further, in the ' Literacy ' Table of Part II of the 1941 Census Report, the figures for males and females for each of the age groups as given for the State do not tally with the figures obtained by adding the corresponding age group figures for all the districts. Again, none of these age group figures was found to tally with the corresponding figures given in the ' Age and Civil Condition ' Table of the same Report.*

This table is based on Table C-IV pertaining to ' Age and Literacy ' given at page 63 of Part II-B of this Volume and on the ' Literacy ' Tables of the 1941 Census Report.

2. *Subsidiary Table 7.2—Literacy Standard of Livelihood Classes.* This table gives, divisionwise, the number per 1,000 males and per 1,000 females of each livelihood class by Literacy and Educational Standards. It is based on Table D-VII pertaining to ' Livelihood Classes by Educational Standards ' given at page 189 of Part II-A of this Volume. All the figures given in the table have been rounded to the second decimal place.

3. *Subsidiary Table 7.3—Educational Services and Research.* This table gives, divisionwise, aboslute figures pertaining *only to such self-supporting males and females who returned their principal means of livelihood as connected with ' Educational Services and Research '* along with their break up according to the following three categories :—

(*i*) Managers, clerks and servants of educational and research institutions, including Libraries and Museums, etc.,

(*ii*) Professors, lecturers and teachers other than those employed in Universities, Colleges and Research Institutions ; and

(*iii*) Professors, lecturers, teachers and research workers employed in Universities, Colleges and Research Institutions.

The table also furnishes, sexwise, the proportion of persons under categories (*ii*) and (*iii*) per lakh of population. The figures given in columns (10) to (13) have been rounded to the second decimal place.

This table is based on the ' District Index of Non-Agricultural Occupations ' given at page 303 of Part II-B of this Volume.

4. *Subsidiary Table 7.4—Literacy by Tracts— Number of Literates among the Total, Male and Female Population and Proportion of Literates per 1,000 of each category.* This table gives for the State, for every district and for every tract of the State, absolute figures relating to the number of literates (including the educated) among the total, male and female population together with their proportion per 1,000 among each of these categories. Corresponding figures for the rural and urban populations of the State and every district are also given in this table.

SUBSIDIARY TABLE 7.1
Progress of Literacy

South Hyderabad Division														
Total	*63.85*	*104.73*	*128.33*	*135.17*	*176.13*	*139.61*	*196.15*	*26.02*	*38.32*	*46.20*	*48.25*	*39.90*	*43.13*	*37.29*
Rural	*32.59*	..	*74.15*	..	*110.29*	..	*125.52*	*8.19*	..	*14.04*	..	*10.64*	..	*9.24*
Urban	*190.35*	..	*336.35*	..	*424.18*	..	*460.20*	*98.21*	..	*168.32*	..	*150.69*	..	*143.41*

*The 1941 proportions are based on figures given in the 1941 Report. But it is found that there is considerable confusion in the 1941 Report in tabulating both literacy figures and distribution of population by age groups. This matter is dealt with more fully in the relevant portion of Part I-A of this Volume. *It may however, be noted for purposes of this table that the 1941 literacy figures, as those pertaining to Muslims and Urdu speakers, are considerably exaggerated.*

Note :—As indicated in paragraph 3 of the flyleaf, at page 201, these figures pertain only to such self-supporting males and females who returned their principal means of livelihood as connected with ' Educational Services and Research'. The actual figures, specially those pertaining to females, are likely to be appreciably higher, because many females engaged in ' Educational Services and Research, were returned only as earning dependants and not as self-supporting.
