TABLE I.

AREA, HOUSES AND POPULATION.

This table shows for each Subdivision, Pergannah and Pir, the area, the number of populated and unpopulated villages, the number of occupied houses and the total population, male and female. Number of persons per square mile has also been added. All the Pirs, whether standing alone or comprised in Pergannahs, form independent units in this table. Such Pergannahs formed of Pirs are : Uperbhag, Majhalbhag, Barpara and Baghra in Sadar, Jashipur and Adipur in Panchpir and Kainsari and Kaptipada in Kaptipada Subdivision. In Bamanghati there is no Pergannah. The area given is according to the up-to-date Settlement Records. Out of the 10 Pirs in Simlipal, 7, *viz.*, Brahmangaon, Chakri, Barehipani, Kasira, Nij Simlipal, Rajnagar and Barghati, are included in the Sadar Subdivision. The remaining 3, *viz.*, Jamuna-Bardanda, Ramraja and Olkudar, are included in the Panchpir Subdivision. According to the area given in this table, the uninhabited portion of the Simlipal Hills measures 1,101.41 square miles. The area of Pir Jamuna-Bardanda was 185.57 square miles formerly. Out of this 156.23 square miles being totally uninhabited now form part of Simlipal Reserve. For this reason the area of Panchpir Subdivision has suffered a decrease. The area of the Sadar as well as Kaptipada Subdivision has also decreased on account of more accurate survey of portions of the Simlipal Hills which form parts of these two Subdivisions. The area of the Bamanghati Subdivision remains intact as before.

Baripada town has been treated as a separate unit in this and all other tables. It is the capital of Mayurbhanj State and the head-quarters of the Sadar Subdivision. Though Rairangpur and Karanjia, respective head-quarters of Bamanghati and Panchpir Subdivisions, now enjoy the reputation of being popularly known as towns, Baripada in the present census has been treated as the only recognised town in the State. In this and all the other succeeding relevant tables, figures relating to Baripada town have been given at the end of each table. These figures are included in the Sadar Subdivision but not in the Nij Majhalbhag Pir in Majhalbhag Pergannah in which Baripada town is situate.

"*Villages*" in this table means "*revenue*" villages and includes hamlets or "*sahis.*"

"*Houses*" means "*census houses.*" For a discussion of the definition of this term, see the opening paragraph of Section III, Chapter 1, of the Report. Briefly, the census house is the dwelling place of the commensal family; but any non-residential building or any other place which contained a single individual on the census night was also reckoned as a "*house.*"

TABLE II.

AREA AND POPULATION OF POLICE STATIONS.

This table shows the distribution of population by Police Stations and Outposts. The names of the Pergannahs and Pirs, which wholly or in part comprise the jurisdiction of these Police Stations and Outposts, have been specified in column 2.

The area shown in column 3 is only that of the inhabited area. In column 4 has been shown the number of the inhabited villages only. Number of persons per square mile for each separate Police Station or Outpost has been shown in column 9.

TABLE III.

CLASSIFICATION OF PERGANNAHS, PIRS, TOWN AND VILLAGES BY POPULATION.

This table is divided into two parts. Part I classifies Perganna and Pirs by population, and shows them in 8 different classes arranged numerical order, *viz.*,

(i) 25,000 and over
(ii) 20,000—25,000
(iii) 15,000—20,000
(iv) 10,000—15,000
(v) 5,000—10,000
(vi) 1,000—5,000
(vii) 500—1,000
(viii) Under 500

Part II shows Baripada town and the villages classified by populati into 4 different classes, *viz.*,

(i) 500—1,000
(ii) 1,000—2,000
(iii) 2,000—5,000
(iv) 5,000—10,000

In both parts of this table the classification shows the names the Pergannahs, Pirs or Villages concerned. In Part II names of villa having less than 500 persons each have been omitted. The number of su villages is 3,379 out of 3,708 populated villages in the whole State. T number of villages having 300 to 500 persons each is 694. The numbers those whereof the population varies between 100 and 300 is 1,741. T remaining 944 villages have each a population under 100.

The letters (S), (B), (P) and (K) in brackets against Pergannahs Pirs in Part I of this table denote respectively Sadar, Bamangha Panchpir and Kaptipada Subdivisions.

ERRATUM.

On page 10, class V., against "Barpara," *read* (P) instead of (S).

TABLE IV

VARIATION IN POPULATION.

This table has been given in two parts. In the first part variation in population during the last 50 years has been shown in respect of the whole State and the different Subdivisions. In the case of the Baripada Town the variation has been shown for the last 40 years. Prior to 1911 there was no compilation of census figures by the State. In that year the figures for 1881, 1891 and 1901 were compiled from the Report of the Census of Bengal 1901, and from information then available from the different Subdivisions. Up to 1881 there were only two Subdivisions, *viz.*, Sadar and Bamanghati. The Subdivision of Panchpir was created in 1884 and that of Kaptipada in 1908. Since 1908 there have been further changes in the jurisdiction of Sadar and Panchpir Subdivisions, except during the last decade. Hence the materials collected in 1911 have been used for the purpose of this and other tables.

The second part of this table shows variations in population of Pirs and Pergannahs during the last 20 years.

TABLE V.

BIRTHPLACE.

This table shows the birthplaces of the population enumerated in Mayurbhanj. Those born in Mayurbhanj have not been included in this table. It is divided into two parts. Part I contains the statistics of the whole State and the four Subdivisions while Part II gives detailed information relating to the 102 Pergannahs or Pirs and the town of Baripada. In both the Parts birthplaces returned by a number of persons below 100 (except Angul) have been clubbed together in their respective classes, details of which are given overleaf.

Hyderabad (Deccan) is Nizam's Dominion. Six persons returned this Dominion as their birthplace but instead of showing them separately as a class in the body of the table they have been included for convenience in Madras Presidency. Similarly though Wankaner is a State in Kathiawar Peninsula and the latter is in Gujrat, figures for Gujrat, Kathiawar and Wankaner have been separately given in the list overleaf. Calcutta city also, though in 24 Pergannahs, has been separately given in the list.

TABLE VI.

RELIGION.

This table shows the distribution of the population by five main religions, *viz.*, Hindus, Muslims, Christians, Animists and "Others." The Hindu population in this table has been subdivided into "Tribal Hindus," "Caste Hindus" and "Other Hindus." The term "Animist" has been used to denote those tribals who did not return Hinduism as distinguished from tribal religion as their religion. "Others" include Sikhs, Buddhists, Jains, Brahmos, Kumbhipatias and Aryas.

A list of castes comprising (I) Tribal Hindus, (II) Caste Hindus and (III) Other Hindus is appended overleaf.

(66) Tiar (Tiyar, Tior)

N.B.—The Tambuli were not formerly *Jalachalaniya*, but in some parts of the State they are now treated as such. For want of timely information they could not be grouped under Caste Hindus.

Though there are aboriginal " Kamars," a large majority of the persons who returned themselves as " Kamars " are not so. For that reason Kamars have been grouped under the Caste Hindus. So is the case with Magdha Gaura, included in Gaura.

TABLE VII.

RACE, TRIBE OR CASTE.

This table relates to Hindu population only, which is made up of 131 tribes or castes. It is divided into three Parts.

Part I gives the statistics of the 56 more important tribes or castes, of whom 17 are "Tribal Hindus," 17 "Caste Hindus" and 22 "Other Hindus," arranged in that order. In this Part persons belonging to different tribes or castes who are converts to Christianity are not included. Their details are given below.

Part II gives the statistics of all the other 75 tribes or castes. In this Part details of Christian converts have been conveniently included.

Part III deals with variation of some of these tribes and castes since 1891.

Brahmos, Aryas, Kumbhipatias, etc., grouped under "Others" in the Religion table do not appear in this table.

Details of Christian converts not included in Part I.

The figures for 1901 are for *Ahir* and *Goala*. It is very likely that *Goalas*, who are known as *Cohalas* in this State, were included in this figure.

In 1901, 883 males and 914 females were returned as *Bagdi*, while 668 males and 652 females were returned as *Baghuti*. In the present Census it was found that those who returned themselves as *Bagdis* were really *Baghutis*.

The great disparity in the numbers of *Bais* and *Bais Bania* in different Censuses is probably due to a confusion in the two names. In the present Census, *Agarwal*, 102 males and 63 females, *Khandelwal*, 7 males and 7 females, and *Rauniar*, 8 males and 3 females, are included in *Bais*.

TABLE IX.

LANGUAGE.

This table is divided into two parts. Part I shows the languages and dialects spoken as mother tongue by the population enumerated in the State. These languages have been arranged under the following heads :—

(1) Indo-Aryan family.

(2) Munda family.

(3) Dravidian family.

(4) Languages foreign to India.

(5) Gipsy languages.

Part II of the table deals with Bi-lingualism. Languages used in addition to or sometimes in supersession of mother tongue in daily and domestic life have been accounted for in this part.

Any individual using two (or more) subsidiary languages has been counted as two (or more) persons in the statistics of Bi-lingualism.

Hindustani, in the sense in which it has been used in the present Indian Census, includes Hindi, Urdu and Kurmali. Out of 36,189 speakers of Hindustani as their mother tongue, 6,451 are speakers of Hindi, 3,583 of Urdu and 26,155 of Kurmali. If the total number of Hindi and Kurmali speakers, *viz.*, 32,606, is taken away from the total population (60,299) of the Kurmis, the balance, namely, 27,693 Kurmis are found to have returned Bengali as their mother tongue, which has also been returned as the mother tongue of 1,149 Thataris, chiefly found in Bamanghati and Panchpir. A section of the Bhuinya known as Katras Bhuinya, whose number is believed to be about 2,000, are speakers of Bengali as their mother tongue. If the total number of these, who speak a form of Bengali all their own, is not taken into account, the number of Bengali speakers will come down to 5,995 as against 36,837, as shown in this table. It is also likely that some of the aboriginal Kamars and Kumbhars returned Bengali as their mother tongue. The Kamar *thar*, Kumbhar *thar*, and the Mankria *thar*, etc., have been grouped together under Karmali in this table for reasons given in the body of the report.

TABLE X.

OCCUPATION OR MEANS OF LIVELIHOOD.

In this table all occupations returned have been classified according to the scheme followed in the present Indian Census, which comprises 4 main classes, 12 sub-classes, 49 orders and 140 groups. Order No. 1 is further divided into 5 sub-orders.

The table is divided into two Parts. Part I gives State Summary, while Part II gives Pergannah and Pir Summaries under different sub-divisions. The latter Part is again divided into two sections. Section I is for Sadar and Section II for the remaining three subdivisions.

The total population has been divided into "earners," "working dependants" and "non-working dependants." Principal and subsidiary occupations (if any) of the earners and working dependants have been shown in both the Parts.

TABLE XI.

AGE, SEX AND CIVIL CONDITION.

The distribution of the population by age, sex and civil condition is given in this table. It is divided into three parts. Part I gives the State summary and the distribution of the population by each main Religion. Part II gives similar statistics for the four subdivisions, and Part III for Pirs and Pergannahs. In all the Parts age statistics are given in equal detail.

The age-groups are shown as 5—10, 10—15 and so on. The second figure of each group denotes the age *completed*. In the course of enumeration the distinction between reckoning the age of each person from the *nearest* birthday and from the number of *completed* years could not be satisfactorily maintained ; so following the method adopted in the Indian Census of 1921, age statistics have been compiled taking the figures returned to denote the number of completed years. Statistics for each year of life for the first five years have also been supplied.

Divorced persons have been entered as "Widowed." Persons recognised by custom as married, as by following the Sanga form of marriage, have been shown as such, even though they have not gone through any formal ceremony.

TABLE XII.

LITERACY BY RELIGION AND AGE.

This table deals with the literacy of the population classified by religion and age-periods (*viz.*, 0 to 5, 5—10, 10—15, 15—20, 20 and over). The test of literacy was the ability to write a letter to a friend and to read the answer to it. The number of persons below the age of 5 years treated as literate, because returned as such, is 57 (45 males and 12 females). Persons literate in English have been shown separately and are not included in the columns for ordinary literates. The word "literate" in columns 5—7 means literates who do not know English.

The table is divided into three parts. Part I gives the State summary and Part II, the Subdivisional summaries. Part III gives details for Pirs and Pergannahs..
