Motif

Sohna, an hour's drive from Delhi on the way to Jaipur is a town of considerable antiquity. Snuggling against the hills it has a quaint picturesque look. Once it was surrounded by woods and streams. Now the march of urbanisation has given it a more business like look. The town derives its name from the gold (sona) *dust formerly collected from the beds of the neighbouring streams. The chief feature of Sohna is its hot sulphur springs which were discovered by the British in* 1872. *The springs are situated in the heart of the town by the side of a perpendicular rock. The temperature of the water varies from* 115° *to* 125°F. *The spring is covered with a domed building and runs into a reservoir. People from distant places flock to this place for bathing since the water is considered to be a cure for rheumatics, gout and other skin diseases. The motif depicts the Sohna hot water springs.*

CENSUS OF INDIA 1971

A—CENTRAL GOVERNMENT PUBLICATIONS

The publications relating to Haryana bear Series No. 6, and are bound separately as follows :

Part I-A	.. General Report	Part V	.. Special Tables and Ethnographic Notes on Scheduled Castes and Scheduled Tribes
Part I-B	.. General Report		
Part I-C	.. Subsidiary Tables	Part VI-A	.. Town Directory
Part II-A	.. General Population Tables	Part VI-B	.. Special Survey Reports on selected towns
Part II-B	.. Economic Tables	Part VI-C	.. Survey Reports on selected villages
Part II-C (i)	.. Mother Tongue, Religion and Scheduled Castes and Scheduled Tribes Tables	Part VII	.. Special Report on Graduates and Technical Personnel
Part II-C (ii)	.. Social and Cultural Tables and Fertility Tables	Part VIII-A	.. Administration Report : Enumeration (for official use only)
Part III	.. Establishments Report and Tables	Part VIII-B	.. Administration Report : Tabulation (for official use only)
Part IV	.. Housing Report and Tables	Part IX	.. Census Atlas

B—HARYANA GOVERNMENT PUBLICATIONS

Part X .. District Census Handbook for each district in three Parts :—

Part A—Village and Town Directory

Part B—Village and Town-wise Primary Census Abstracts

Part C—Analytical Report, Administrative Statistics and District Census Tables

(Parts A and B of the District Census Handbook for each District of Haryana State have been printed in one volume)

PREFACE

The Census of 1971 has come and gone leaving a vast residue of data collected carefully and meticulously on a country-wide basis by an army of trained enumerators. Apart from certain particulars of every individual in our land the Census has also taken care to gather information about a host of other activities—institutions, establishments, services and so on. In other words, an attempt has been made to enumerate citizens in the background of the environment in which they live. Every inch of the country has been mapped and available basic amenities noted. It was a colossal task calling for a gigantic co-operative effort by the administration and the people. Performance in the Indian Census throughout the past century has been creditable and has earned us the appreciation of the world.

For the State of Haryana this is really the first Census and so it is important that the data collected be presented in a quick and comprehensive manner. Difficult enough, as the task of collecting data is, its compilation, tabulation and publication within a reasonably quick time calls for further arduous labour by a united team of dedicated workers. We were fortunate enough to have just such a team. The result is that we have been able to bring out some publications within a few months of the actual Census count.

Since the District is still the basic functional unit of administration, the District Census Handbook is of special importance to all concerned with administration policy and planning. It should be of equal value to the scholar, scientist, sociologist and businessman. The data contained in it has been sorted out and presented along lines determined after careful consideration and discussion. All that is of importance in a district is contained in this Handbook. The Town and Village Directories in Part -A contain a wealth of useful information about these units. In Part B-Village and Townwise Primary Census Abstracts have been given all the basic Census data separately for each village and town in the district. Part -C of the District Census Handbook which would be brought out sometime later would contain an analysis of the various Census data in addition to the administrative statistics and a write-up on the social, cultural, historical and other important aspects of the life of the district.

We owe our success in bringing out this publication to the inspiring leadership of our enthusiastic and zealous Registrar General of India—Shri A. Chandra Sekhar. For him the Census is not merely an administrative exercise but a vital part of existence. In his own words the—"modern Census has become an indispensable instrument of policy and development planning. It need hardly be stressed that a Census is not the mere counting of heads. It is a kind of stock-taking as it were, of the nation's human wealth. The Census aims to present a complete picture of man, in his social, cultural and economic setting."

The District Census Handbook attempts to depict in a concise form this variegated phenomenon of human life. We hope it will serve as a popular reference book for all data users.

Dated, Chandigarh :
the 9th December, 1971.

I. E. N. CHAUHAN,
Director of Census Operations,
Haryana.

ACKNOWLEDGEMENTS

It is a long arduous process between the actual Census taking and the publication of the various Census Reports. In the State of Haryana, besides the District Census Officers, Sub-Divisional Census Officers, Charge Officers, the Assistant Charge Officers etc., as many as 19,350 odd Enumerators and Supervisors were appointed on the work of actual count in the field. A bulk of the Enumerators and Supervisors were drawn from the Education Department of the State and the remaining from various State/Central Government Departments and from the Urban Local Bodies. They measured up to their responsibilities and performed the work entrusted to them willingly and well. The credit for the completion of this colossal task, involving the canvassing of the Census Schedule called the 'Individual Slip' separately for each single individual found in the State during the enumeration period, on schedule and without any untoward incident goes very largely to them.

The huge mass of data collected in the field by the army of enumerators moving from house to house was processed for the formulation of a large variety of tables at the two Regional Tabulation Offices at Chandigarh and Rohtak with the help of about 500 Sorters/Compiler Checkers/Supervisors. The Regional Tabulation Office at Rohtak was ably looked after by Shri N.K. Tandon, Deputy Director who was assisted by Shri Janak Raj Vashishtha, Investigator and a few Statistical Assistants including Shri Jaswant Lal. The Regional Tabulation Office, Chandigarh, was controlled by my Deputy Director at Headquarters Shri J.S. Dhamija who was assisted by Shri G.D. Singla, Tabulation Officer and a few Statistical Assistants including Shri Pran Nath Modgil.

The tables prepared at the two Regional Tabulation Offices in raw form were checked and finalised into Village and Town-wise Primary Census Abstracts which form Part-'B' of this Handbook, by Shri J.N. Suri, Tabulation Officer who was assisted by Shri Ajab Lal Kakkar, Statistical Assistant and others.

The data contained in the Village and Townwise Directory which forms Part 'A' of this Handbook was collected by us from the District Revenue Agency and the Urban Local Bodies. We are indebted to them for their co-operation in supplying the required data promptly. In the Head Office the data so supplied was processed and finalised by Shri Kulbhushan Lakhanpal, Tabulation Officer who was assisted by Shri Om Parkash Malik, Statistical Assistant and others.

The maps included in this Handbook were prepared by a team of Cartographers headed by Shri Shiv Rai Puri, Tabulation Officer.

I am also indebted to my Deputy Director Headquarters, Shri J.S. Dhamija, for effectively co-ordinating all this work at various stages and the special efforts made by him in bringing out this Handbook so soon after the Census is over.

I am grateful to Shri Tara Chand, Controller of Printing and Stationery, Haryana, for the ready co-operation extended by him in the printing of this Handbook.

Dated, Chandigarh :
the 9th December, 1971.

I. E. N. CHAUHAN,
Director of Census Operations,
Haryana.

INTRODUCTION

In the process of Census taking itself a great deal of interest is generated in the census data and the uses to which it can be put. The layman, the scholar, the administrator and the planner all naturally seek to have the results of the Census at the earliest possible after the Census Operation. The compilation of the census data, on the otherhand, is a laborious and time-consuming work. Understandably, therefore, it was quite sometime and often five to six years or even more after the census enumeration, that the data got into print or reached the hands of the users. In fact, by the time it became available to the public at large, it had already become stale and the people had lost interest in it.

2. It was decided at the time of 1951-Census, for the first time, that census data should be published for individual villages and towns also. The district was considered to be the most manageable and rational unit for the presentation of such data. This is how the publication of the District Census Handbooks was started. However, the 1951-District Census Handbooks by and large gave a skeleton profile of the population of the district as a whole and separately for each of its component villages and towns. There was not much, if at all any, attempt to present a flesh and blood picture of population or of the social and cultural life of the district. As such, while the publication did go quite some way to serve the needs of the scholars, it did not, for obvious reasons, interest the common reader to the same extent.

3. In 1961 a positive effort was made to make the District Census Handbooks more comprehensive by the inclusion therein of the various non-census items of information such as physical features, climate, fauna and flora, places of interest, social and cultural life, a brief history of the district and its administrative machinery. The land use pattern, main crops and irrigation, trade and commerce, industries and communications, in a brief way though, were also encompassed within the scope of the District Census Handbooks, in addition to certain other information relating to rainfall, livestock, education, medical and health as collected from the various Government Departments.

4. This job, however, was a colossal one and there was again a time lag of five to six years before the handbooks could be printed and the data made available to the public. To obviate this delay, therefore, it has been decided this time to publish the District Census Handbooks in three parts. In this way, it was felt, we would be able to reduce the time lag between the compilation of the data and its final publication ; making it possible to release by instalments the data as soon as a specific part thereof had been processed. The three parts into which the District Census Handbooks have been divided are :—

Part-A	..	Village and Town Directory
Part-B	..	Village and Town-wise Primary Census Abstracts
Part-C	..	Analytical Report, Administrative Statistics and District Census Tables

5. Part-A-Village and Town Directory purports to be a directory of the villages and the towns in the district concerned. In it has been given certain basic and vital information separately for each village and town. While the Village Directory presents information *inter-alia* about the total area of the village in acres, availability or otherwise of the various amenities, the staple food of the people of the village and the land use pattern ; the Town Directory, on the otherhand, presents data on each town through as many as seven statements, giving the status of the town, the decadal growth of its population, its functional category, certain physical and locational aspects, the state of municipal finances and of civic and other amenities, like medical, educational, recreational, cultural and banking, etc. A tahsil map showing the distribution of educational, medical, postal and water-supply amenities in its villages has been given to precede the Village Directory of the respective tahsil. The map shows at a glance the spatial distribution of the amenities available in the tahsil.

6. The basic census data are incorporated in Part-B of the District Census Handbook. The Village and Town-wise Primary Census Abstracts, which constitute Part-B of the District Census Handbooks, contain information about the total population and its sex-wise break-up, the sex-wise population of Scheduled Castes and the number of literates separately for the two sexes, and the break-up of the total population into nine Industrial Categories of workers etc. A tahsil map showing the village boundaries, the location code numbers of the villages and the size class of their population has been given preceding the Village and Town-wise Primary Census Abstracts of each tahsil.

7. In the Village and Town Directory and the Village and Town-wise Primary Census Abstracts, the data have been presented for the villages arranged according to their location code number, given to each village for the purposes of the Census. For the facility of the readers, however, a tahsil-wise list of villages as per their alphabetical order has been furnished as an Appendix towards the end of the Handbook.

8. Originally it was intended to publish Parts A and B of the District Census Handbooks separately, as the Village and Town Directory was supposed to be ready soon after the Census Operation. The compilation of the Village and Town-wise Primary Census Abstracts, constituting Part-B of the District Census Handbook, on the other hand, had necessarily to await sorting of the Individual Slips. It is gratifying, however, that it has been possible to compile and finalise the Village and Town-wise Primary Census Abstracts simultaneously with the finalisation of the Village and Town Directory (Part-A), making it possible to publish both Parts A and B of the District Census Handbook together in one Volume. This Book, therefore, contains both Parts 'A'—Village and Town Directory and 'B'—Village and Town-wise Primary Census Abstracts.

9. There would, however, be quite sometime before Part-C of the District Census Handbook could be ready. Part-C of the District Census Handbook is to be devoted to an analysis of the various census data to be presented through a series of Tables, as follows :—

A Series (General Population Tables—5 in number)

B Series (Economic Tables—9 in number)

C Series (Social and Cultural Tables—8 in number)

D Series (Migration Tables—6 in number)

E Series (Establishment Tables—4 in number)

F Series (Fertility Tables—5 in number)

G Series (Special Tables for Degree Holders and Technical Personnel—12 in number)

H Series (Housing Tables—4 in number)

It would also contain administrative statistics and a write-up on the social, cultural, historical and other important aspects of the life of the concerned district.

10. *Rural-Urban Dichotomy*.—As usual, for the census purposes, the line of division between the 'Rural' and the 'Urban' parts of population has been maintained for the presentation of the data. The 'Village' and the 'Town' are universally recognised as the basic units of habitation. The administration also recognises the division of population into 'Rural' and 'Urban'. In fact, the rural-urban dichotomy is accepted the world over and the Census data are invariably presented separately for the two.

11. Notwithstanding the universality of the rural-urban division of the population, a uniform and precise definition of 'Rural' and 'Urban' remains yet to be evolved, the difficulty in the matter arising from the vastly different conditions prevailing in the various countries of the world. In the context of the general urbanization, there has been such an extension of urban forms in the settlement pattern in some of the advanced countries of the world that the line of division between the two has tended to get more and more blurred. To add to the complexity of the situation, the line between 'Urban' and 'Rural' drawn for the Census purposes, arbitrary as it is, is drawn differently in different countries of the world, invalidating the comparability of the Census data.

12. *Evolution of the 'Village'*.—The cities as also the villages are, generally, a product of time. To the 'Village' and from the 'Village' to the 'Town' has been an extended process, a process of evolution which though pre-eminently social, was stimulated in a big way by a multiplicity of economic phenomena and factors. The advent of settled agriculture, as against pastoralism or shifting cultivation and the primitive economies of hunting and gathering brought the 'Village' into existence. The corporate existence of individuals underlined the need for a social organisation for controlling and regulating their social life and the village lands. The use of the plough and the improvement of the irrigation techniques, in the course of time, enabled man to produce more than his requirement of food, and thus spare a part of the population from the primary work of food production. The people rendered free from the work of food production could then engage themselves in the production of other goods needed by the food producers. The surplus of food and the lack of self-sufficiency of the food producers in terms of their other needs,

provided the stimulus for the establishment of trade. Some villages, thus, developed as centres of exchange storage and distribution of goods and also of administration.

13. *The Genesis of the 'Town'.*—The evolution of the village contained in it the germs for the urban growth at a later stage. The development of transport and the surplus of food generated by a further development of agriculture and agricultural techniques and the extension of the cultivated area, created the conditions for urban growth. Freed from the task of producing the food required for bare existence, the first urban dwellers could engage themselves in professions, trade and in providing other necessities of the food producers, required for making their life more comfortable. The first urban settlements, therefore, were made possible by agricultural increment and its amassment in favoured localities made possible by the development of transport. The growth of the town could also, to some extent, be attributed to religious activity. By and by the responsibility for administering the surrounding tribal areas also came to devolve on the towns which came to serve as the seats of power. The cities, thus became the centres of market and of religious, administrative, and political life. The growth of urban centres to population sizes unheard of before, and the increase in their number is a much later development caused by greater technological advancement and necessitated by the massive increase in population.

14. For Census, however, we have been content to separate the population of unit areas which for purposes of administration are regarded as 'Urban' and 'Rural' respectively. Accordingly, in our State all areas except those notified as Municipalities, Cantonment Boards or Notified Area Committees have, broadly speaking, been considered as rural areas. The rural areas, in turn, stand formed into villages, as against the urban areas which are constituted into towns and cities.

15. *The Village Defined.*—The definition of the village adopted in our State for the Census, corresponds to the one contained in the Punjab Land Revenue Act, 1887. It is associated with the levy and collection by the Government of the Land Revenue and is, as such, exclusively administrative in character. From this point of view, a village is better called a Revenue Estate, meaning thereby an 'Estate' (a specific and demarcated area of land) marked as such for the purposes of levy/realization of the land revenue. As the land revenue is to be realized from the land holders, it was necessary for the Government to prepare and maintain a separate record of rights of the holders of land for each village. The Revenue Estate or 'Mauza', the name given to the village in the Punjab Land Revenue Act, 1887, has accordingly been defined "as an area of which a separate record of rights is maintained or which has been separately assessed to land revenue or would have been so assessed if the land revenue had not been realized or compounded or redeemed or which the State Government has otherwise declared as an 'Estate'." This definition of village has been adopted for the purposes of the Census ever-since the year 1901. The village, therefore, is not merely the inhabited area (*abadi deh*) of village but refers to the entire land coming within a fixed boundary. In certain cases, in fact, a village may be uninhabited.

16. There are as many as 7,064 villages in the State of Haryana. These villages are located in 32 tahsils spread over seven districts. The Village Directory, for each district is, therefore, presented tahsil-wise.

17. *Urban Area Defined.*—The definition adopted at the 1971-Census for an urban area generally follows the one adopted at the 1961-Census and stands to denote :—

(a) All places with a Corporation, Municipality or a Cantonment Board or a Notified Area Committee.

(b) All other places which satisfy the following criteria :—

(i) A minimum population of 5,000.

(ii) 75 per cent of the male working population being engaged in economic pursuits other than agricultural.

(iii) A density of population of at least 386 per sq. km.

18. In Haryana, however, only places with a Municipality or a Cantonment Board or a Notified Area Committee have been treated as towns to the exclusion of all other considerations.

19. *Number of Towns in Haryana.*—There are 65 towns in all in the State of Haryana, four more than their number at the time of 1961-Census. The following four places have been added to the list of towns for the first time during the 1971-Census:—

(1) Naraingarh, Notified Area Committee (District Ambala)

(2) Jagadhri Workshop Railway Colony, Notified Area Committee (District Ambala)

(3) Ganaur, Notified Area Committee (District Rohtak)

(4) Tosham, Notified Area Committee (District Hisar)

None of the towns recognised as such at the 1961-Census was declassified during the decade 1961-71.

20. *Classification of Towns* : (i) *By Population*.—It is usual to classify the towns according to their population size. For the 1971-Census, the towns have been divided into the following six classes according to their population size :—

I. Population of 100,000 and over

II. Population of 50,000 to 99,999

III. Population of 20,000 to 49,999

IV. Population of 10,000 to 19,999

V. Population of 5,000 to 9,999

VI. Population of less than 5,000

A town with a population of 100,000 and over is termed a 'City'.

21. (ii) *By functional category*.—Apart from the classification of towns according to their population size, the towns are also categorised according to their functional class. For the purposes of functional classification, the towns have been divided according to the following five main functions as performed by their population:—

(i) Primary Activities (cultivation, agricultural labour, mining and quarrying, livestock, forestry, fishing , hunting and plantations, orchards and allied activities);

(ii) Industrial (household industry, manufacturing other than household industry, and construction) ;

(iii) Trade and Commerce ;

(iv) Transport (transport, storage and communications) ; and

(v) Services (other services).

22. It is seldom that a town performs only one function to the absolute exclusion of all other functions. The functional classification has, therefore, been done on the basis of the percentage of workers of a particular category to the total workers in the above said five classes of economic activity, the predominant percentage value determining the functional character of the town. In case, workers under any one of the industrial categories are at least 40 per cent of the total working force in the town, the town has been considered as mono-functional, e.g., an Industrial town or a Commercial town. If, however, the percentage figure is less than 40, the next predominant function has been taken into account and in case the total of both the functions works out to 60 per cent or above of the total working force, the town is designated as bi-functional, e.g., Industrial-cum-Service town or Commercial-cum-Transport town. On the other hand, if the total of the two predominant functions does not work up to 60 per cent, then the third predominant function is taken into account and such a town is designated as multi-functional, e.g., Industrial-cum-Service-cum-Transport town and so on. In the case of bi-functional or multi-functional towns, the functions have been arranged in order of their predominance.

23. *Concept of Standard Urban Area*.—A new concept that has been adopted at the 1971-Census for the tabulation of certain urban data is that of Standard Urban Area. The essentials of a Standard Urban Area are :—

(i) that there should be a core town with a minimum population size of 50,000 ;

(ii) that the contiguous areas made up of other urban as well as rural administrative units should have close mutual socio-economic links with the core town ; and

(iii) that the probabilities are that the contiguous area in question will get fully urbanised in a period of 2 to 3 decades.

24. *Standard Urban Areas viz-a-viz Town Group Concept.*—Thus, the Standard Urban Area concept would make it possible to present comparable data for a fixed area for three/four consecutive censuses and enable presentation of a meaningful picture about the growth of the towns. The concept of Standard Urban Area has replaced that of the 'Town Group' which was adopted at the 1961-Census. A 'Town Group' was made up of independent urban units not necessarily contiguous to one another but which were to some extent inter-dependent. The 'Town Group' concept very soon became the target of criticism. It was rightly felt that the data for such 'Town Groups' would become incomparable from Census to Census as the boundaries of the towns themselves underwent change and as the intermediate areas lying between the towns forming the 'Town Group' had been left out of account.

25. *Standard Urban Areas in Haryana.*—Standard Urban Areas have been delimited in respect of towns with a population of 50,000 and above only as it was thought that smaller towns would not have any or much significant impact beyond their boundaries. A Standard Urban Area consists of the whole town and non-municipal area of the villages falling on the periphery of the town and which holds out prospects of being urbanised during the next two to three decades. In the case of Haryana, Standard Urban Areas have been delimited for the following 11 towns.:—

(1) Ambala

(2) Bahadurgarh

(3) Bhiwani

(4) Faridabad-Ballabgarh Complex

(5) Gurgaon

(6) Hisar

(7) Karnal

(8) Panipat

(9) Rohtak

(10) Sonepat

(11) Yamunanagar-Jagadhri

Although Bahadurgarh does not have a population of 50,000, it has been delimited as a Standard Urban Area considering its importance as a developing Industrial town lying close to the National Capital of New Delhi.

26. *Urban Agglomerations.*—It is a matter of common observation that around most of the core or statutory towns come up fairly large and well recognised Railway Colonies, University Campuses, Military Camps etc. Although such out-growths are outside the statutory limits of a Corporation or a Municipality or a Cantonment Board, they usually fall within the revenue boundary of the place by which the town itself is known. It may not, therefore, be realistic to treat such areas as rural units. At the same time, each such individual area by itself may not satisfy the minimum population limit to qualify for being treated as an urban area. Such areas, therefore, would deserve to be reckoned alongwith the main town and be treated as an integrated urban area. Such out-growths alongwith the core towns for the 1971-Census have been called Urban Agglomerations. In Haryana, however, none of the places satisfied the qualifications for being treated as an Urban Agglomeration. Even otherwise, with a view to maintain comparability of the 1971 data with the past Census returns, it was not considered desirable to recognize any such Urban Agglomeration.

27. *The District of Gurgaon.*—So much, then, for some of the important general, conceptual and definitional aspects. In the present Volume are contained Part-A—Village and Town Directory and Part-B—Village and Townwise Primary Census Abstracts of the District Census Handbook, Gurgaon.

28. Gurgaon is the southern-most of the seven districts in the State of Haryana which emerged as a new State on the 1st of November, 1966, as a result of the re-organisation of the erstwhile State of Punjab. Gurgaon was a district even in the former Punjab and continues to remain intact without any extension or contraction of its area in the new State of Haryana.

29. The district lies between 27° 39' 20" and 28° 32' 25" north latitude and 76° 18' 30" and 77° 32' 50" east longitude. It is irregular and somewhat unwieldy in shape and is connected with the remaining parts of Haryana only on the west and the north-west. On its west lies District Mahendragarh, while on its north-west is situated District Rohtak. On its south sprawls the State of Rajasthan, with the Alwar and Bharatpur Districts marking the boundary. The Union Territory of Delhi adjoins it in the north. The river Jamuna demarcates the eastern boundary of the district and separates it from the Bulandshahr and Aligarh Districts of Uttar Pradesh which face it across the river. Mathura District of Uttar Pradesh lies to its south-east. In fact, on three of its sides, the district boundary makes inter-State borders with other States.

30. In the matter of area, the district ranks third in the State with an area of 6,115.76 sq. km., the first two positions in that regard being claimed by the districts of Hisar and Karnal, respectively. Like any other district in the State, it is predominantly agricultural. Its situation, however, endows it with a position of vantage. The proximity of the district to the Union Territory of Delhi which lies to its north, has turned out to be its best asset and has been by far the most important single factor for its transformation into the most highly industrialized district of the State. The whole stretch of Delhi-Mathura Road from Delhi to Ballabgarh is flanked by huge industrial units, which even in sheer numbers account for nearly 26 per cent of the Registered Factories in the entire State. There is perhaps hardly a worthwhile category of industry of which a unit, is not situated in the Faridabad-Ballabgarh Complex. Because of the mounting pressure on land in the Union Territory of Delhi, the district has been serving as an easing ground and has been absorbing the overflow not only of numbers but of industrial units from the Union Territory. With the passage of time, there is bound to be a further industrial spurt in the area and even in other parts of the district, particularly those lying in close proximity to Delhi. In fact, the entire area has presented a changing spectacle year after year ever-since the inception in 1948 of the Faridabad Township for the rehabilitation of the refugees from the North-West Frontier Province and Dera Gazi Khan (Pakistan).

Notwithstanding the fact that the district is largely dry and quite a big part of it is sandy, the hills of the Aravali Chain rising from 500 feet to 700 feet above the plains break its otherwise dreary and monotonous scene and lend to the district a beauty and charm of its own. The hills, in fact, are as much a distinct feature in the physiognomy of the district as its shifting sands.

31. The district comprises the following six tahsils :—

(1) Rewari

(2) Gurgaon

(3) Ballabgarh

(4) Palwal

(5) Nuh

(6) Ferozepur Jhirka

All these six tahsils are sub-divisions as well.

There are 1,586 villages in the district and their distribution into the six tahsils is as under:—

Name of Tahsil	*No. of Villages*
(1) Rewari	426
(2) Gurgaon	226
(3) Ballabgarh	206
(4) Palwal	197

Name of Tahsil	*Name of Village*
(5) Nuh	289
(6) Ferozepur Jhirka	242

The following are the 14 towns in the district :—

1. Bawal Municipal Committee	Tahsil Rewari
2. Rewari Municipal Committee	
3. Pataudi Municipal Committee	
4. Haileymandi Municipal Committee	
5. Farrukhnagar Municipal Committee	Tahsil Gurgaon
6. Gurgaon Municipal Committee	
7. Sohna Municipal Committee	
8. Faridabad Township Municipal Committee	Tahsil Ballabgarh
9. Faridabad Municipal Committee	
10. Ballabgarh Municipal Committee	
11. Palwal Municipal Committee	Tahsil Palwal
12. Hodal Municipal Committee	
13. Nuh Municipal Committee	Tahsil Nuh
14. Ferozepur Jhirka Municipal Committee	Tahsil Ferozepur Jhirka

None of the towns was declassified during the inter-censal period nor was any new town added to the list of towns as at the time of 1961-Census.

32. *Part "A" District Census Handbook : Village Directory.*—Historically, as pointed out above, 'Village' is prior to the 'Town'. In this book, therefore, the Village Directory precedes the Town Directory. The Village Directory provides certain basic and vital information separately about each village, the villages being arranged tahsil-wise, and within the tahsil location code-wise (each village had been given a Code Number for purposes of identification at the time of the Census enumeration).

33. The Directory furnishes information about the total area of the village in acres (column 3); it provides information as to the availability or otherwise of the amenities like, educational, medical, power supply, drinking water, communications and post and telegraph (columns 4 to 9). In column 10 of the Directory is indicated the staple food of the people of the village. The area under different types of land use, such as, the area under forest ; the area under cultivation (irrigated and un-irrigated area being shown separately and the source of irrigation with respect to the irrigated area being shown along-side) ; cultivable waste, i.e., the land lying waste at present but which could be brought under cultivation ; and the area which could not be available for cultivation has been given in acres rounded to the nearest unit in columns 11 to 15 of the Directory. It also gives information about the nearest town to the village and the distance thereof in km. (column 16). It is common knowledge that *mandis* are held on fixed days in some of the villages for the sale and purchase of the goods produced in the local area. Column 17 of the Directory provides information on such *mandis*, if any, and the day/days on which the same are held in a particular village. In the last (Remarks) column of the Directory have been indicated the places of religious, historical and archaeological interest, the age of such places being shown within brackets alongside their names.

34. The abbreviations used under different columns in the preparation of the Village Directory together with what these stand for are indicated below :—

Column No. 4

Pr. S.	..	Primary School
Mid. S.	..	Middle School
Sec. S.	..	High or Higher Secondary School
Trn. S.	..	Training School
Ind. S.	..	Industrial School
C.	..	College

Column No. 5

D.	..	Dispensary
Mp.	..	Private Medical Practitioner
H.	..	Hospital
HC.	..	Health Centre
FC.	..	Family Planning Centre
MCW.	..	Maternity and Child Welfare Centre
VH.	..	Veterinary Hospital

Column No. 6

E.	..	Power Supply

Column No. 7

W.	..	Well
C.	..	Canal
TW.	..	Tube-well
T.	..	Tap Water
TK.	..	Tank
Hp.	..	Hand Pump

Column No. 8

PR.	..	Pucca Road
KR.	..	Kucha Road
T.	..	Railway
C.	..	Canal
R.	..	River

Column No. 9

PO.	..	Post Office
TO.	..	Telegraph Office
P & TO.	..	Post and Telegraph Office
Phone	..	Phone

Column No. 12

T.	..	Total irrigated area
W.	..	Well with or without electricity
TK.	..	Tank
C.	..	Canal
TW.	..	Tube-well
W. & TW.	..	Well and Tube-well
O.	..	Others

35. The data presented in the Village Directory have been collected from the District/Tahsil Revenue Agency, mostly through correspondence, and have not been processed in any great detail except for the removal of internal inconsistencies wherever there were any. Although Village Directory of each district was included in the Census Handbook of the concerned District in 1961, and even in 1951, the contents thereof were confined by and large to the Census data and a few amenities. It is for the first time that information in great detail as mentioned above has been provided in the Village Directory. The scope of the amenities has also been extended to some extent. It is hoped that the Village Directory in the form it is being presented in this time would go a long way in providing information about the placing of the village in its setting and stimulate a study of the individual village communities and help in discerning the interplay of various forces that influence the life of the villagers.

36. In the following Table, the villages have been classified according to their area and the number of villages falling in each class, has been shown for the district as a whole and separately for each tahsil.

TABLE NO. 1

Area Up to	District/Tahsil	No. of Villages
50 Acres or less ..	**District**	**3**
	Tahsil Rewari	..
	Tahsil Gurgaon	..
	Tahsil Ballabgarh	2
	Tahsil Palwal	..
	Tahsil Nuh	1
	Tahsil Ferozepur Jhirka	..
51—100 Acres ..	**District**	**11**
	Tahsil Rewari	4
	Tahsil Gurgaon	..
	Tahsil Ballabgarh	3
	Tahsil Palwal	..
	Tahsil Nuh	1
	Tahsil Ferozepur Jhirka	3
101—200 Acres ..	**District**	**74**
	Tahsil Rewari	16
	Tahsil Gurgaon	2
	Tahsil Ballabgarh	8
	Tahsil Palwal	4
	Tahsil Nuh	27
	Tahsil Ferozepur Jhirka	17
201—500 Acres ..	**District**	**483**
	Tahsil Rewari	126
	Tahsil Gurgaon	56
	Tahsil Ballabgarh	59
	Tahsil Palwal	44
	Tahsil Nuh	102
	Tahsil Ferozepur Jhirka	96
501—1000 Acres ..	**District**	**551**
	Tahsil Rewari	182
	Tahsil Gurgaon	76
	Tahsil Ballabgarh	78
	Tahsil Palwal	65
	Tahsil Nuh	79
	Tahsil Ferozepur Jhirka	71
1001—2000 Acres ..	**District**	**317**
	Tahsil Rewari	71
	Tahsil Gurgaon	64
	Tahsil Ballabgarh	40
	Tahsil Palwal	54
	Tahsil Nuh	52
	Tahsil Ferozepur Jhirka	36

TABLE NO. 1—*concld.*

Area Up to	District/Tahsil	No. of Villages
2001—5000 Acres ..	**District**	**131**
	Tahsil Rewari	26
	Tahsil Gurgaon	24
	Tahsil Ballabgarh	14
	Tahsil Palwal	25
	Tahsil Nuh	24
	Tahsil Ferozepur Jhirka	18
5001 Acres and above ..	**District**	**16**
	Tahsil Rewari	1
	Tahsil Gurgaon	4
	Tahsil Ballabgarh	2
	Tahsil Palwal	5
	Tahsil Nuh	3
	Tahsil Ferozepur Jhirka	1

It will be seen from the above Table that the highest number of villages *viz.*, 551 out of a total of 1,586 fall in the area size class '501—1000 acres'. The next highest number *viz.*, 483 is in the area size class '201—500 acres'. 317 villages fall in the area size class '1001—2000 acres'. Together these three size classes claim as many as 1,351 villages, accounting for 85.18 per cent of the total number. 131 villages fall in the size class '2001—5000 acres'. The number of villages in the size class '5001 acres and above', on the other hand, is only 16 and in the smaller size classes of '50 acres or less', and '51—100 acres', is very few as compared to the total number of villages in the district. The number in the size class '101—200 acres' is also not any big, being only 74. The average size of a village in the district works out to 946 acres (total) area—1,500,467 acres divided by 1,586— the total number of villages in the district).

37. The Table below shows the distribution of villages with reference to their distance from the nearest town cross-classified by their area size class for the district as a whole and separately for each of its six tahsils.

TABLE NO. 2

Distance from the nearest Town	District/Tahsil	Number of villages according to the area sizes						Totals No. of villages
		Up to 50 Acres	51—100 Acres	101—500 Acres	501—2000 Acres	2001—5000 Acres	5001— Acres and above

	Tahsil Palwal	..	..	48	119	25	5	197
	Tahsil Nuh	1	1	129	131	24	3	289
	Tahsil Ferozepur Jhirka	..	3	113	107	18	1	242

38. A glance through Table No. 2 would show that as many as 1,154 villages i.e., nearly 72.76 per cent of the total number lie within a distance of 15 km. from the nearest town. Another 350 villages, i.e., nearly 22.07 per cent of the total fall in the distance group 16—25 km. from the nearest town. There are 82 villages at a distance ranging from 26—50 km. from the nearest town.

39. The position of educational facilities in the district as a whole and their tahsil-wise distribution has been shown in the Table below :—

TABLE NO. 3

Distance from the nearest Town	District/Tahsil	Total No. of Villages	Number of Villages having				
			Primary School	Middle School	High/ Higher Secondary School	College	Others*
5 Km. or less ..	**District**	**305**	**174**	**21**	**14**	**2**	**10**

	Tahsil Ferozepur Jhirka	242	131	10	9	..	2

*Others include I.T.Is, Craft Schools, Training Schools, etc.

In Table No. 3, a village having a Primary School as well as a Middle and/or High School or any other combination of such Schools, has been accounted for more than once. For this reason, total of villages having various types of schools is in some cases more than even the total number of villages in a District/Tahsil. However, a village, having more than one school of the same standard, has been accounted for once under the respective column of the Table.

40. It is clear from Table No. 3 that 905, i.e., 57.06 per cent of the total number of villages in the district have a Primary School each. The number of Primary Schools in the rural areas of the district is 919. The distance from the nearest town does not appear to have any bearing on the availability or otherwise of the educational facilities in the villages. In fact, the educational facilities are almost evenly distributed all over the district. There are only two colleges in the rural areas of the district, one each in Rewari and Ballabgarh Tahsils.

41. The 120 Middle Schools work out to 13 per cent of the Primary Schools in the rural areas of the district. The High/Higher Secondary Schools numbering 96, however, work out to 10 per cent of the total number of Primary Schools. The district has 25 Industrial Training Institutions, out of which seven each are in Tahsils Rewari and Gurgaon. Tahsil Ferozepur Jhirka has only three, while Tahsil Ballabgarh and Nuh have four each.

42. The position of availability of the medical facilities in the district as a whole and in each of its six tahsils is depicted in the following Table :—

TABLE NO. 4

MEDICAL FACILITIES

District/Tahsil	Total Area* (in sq. km.)	Total No. of Medical Institutions of all kinds	No. of Medical Institutions of all kinds per 100 sq. km.
District	**6,115·76**	**182**	**3**
Tahsil Rewari	1,437·03	43	3
Tahsil Gurgaon	1,067·42	30	3
Tahsil Ballabgarh	749·47	20	3
Tahsil Palwal	999·72	38	4
Tahsil Nuh	1,047·96	24	2
Tahsil Ferozepur Jhirka	814·16	27	3

*Area as per the Director of Land Records, Haryana.

The number of medical institutions of all kinds per 100 sq. km. for the district as a whole works out to three only. Tahsils Rewari, Gurgaon, Ballabgarh, and Ferozepur Jhirka equal the district average of three, while Tahsil Nuh falls short of it by one. Tahsil Palwal, on the other hand, has the highest number of medical institutions of all kinds per 100 sq. km. in the district.

43. All the villages in Haryana State have since been electrified. The position of rural drinking water-supply, however, is far from satisfactory. District Gurgaon is perhaps one of the worst in this regard.

44. The Table No. 5 gives the distribution of the villages in the district according to their source of water-supply cross-classified with reference to their distance from the nearest town. The information has been given for each tahsil as well.

45. The Table Nos. 6 & 7 depict the state of communications and the position of postal facilities in the district and in each of its six tahsils separately.

TABLE NO. 5

Distance from the nearest Town	District/Tahsil	Total No. of villages	No. of villages getting drinking water-supply from										
			Wells only	Hand pumps only	Wells and Hand pumps	Wells, Hand pumps and Tube-wells	Wells, Hand-pumps and Tanks	Wells, Hand pumps and River/ Canal	River only	Tanks only	Wells, Hand pumps, Tanks and Tube-wells	Wells, Hand pumps, Tanks and River/ Canal	Others*

TABLE NO. 7

POSTAL FACILITIES IN THE RURAL AREAS

District/Tahsil	Total Area* (in sq. km.)	Total No. of Post Offices	No. of Post Offices per 100 sq. km.
District	**6,115·76**	**221**	**4**
Tahsil Rewari	1,437·03	79	5
Tahsil Gurgaon	1,067·42	42	4
Tahsil Ballabgarh	749·47	25	3
Tahsil Palwal	999·72	29	3
Tahsil Nuh	1,047·96	28	3
Tahsil Ferozepur Jhirka	814·16	18	2

*Area as per the Director of Land Records, Haryana.

The district has four Post Offices per 100 sq. km. The number of Post Offices is the highest in Tahsil Rewari, which has five Post Offices per 100 sq. km. Tahsil Gurgaon equals the district average of four Post Offices. Tahsils Ballabgarh, Palwal and Nuh have three Post Offices per 100 sq. km. Tahsil Ferozepur Jhirka has the lowest of all *viz.*, two Post Offices per 100 sq. km.

46. The Table No. 8 below gives the percentage of cultivable waste for the district as a whole and separately for each of its six tahsils. For the purposes of this Table also, the villages have been classified with reference to their distance from the nearest town.

TABLE NO. 8

Distance from the nearest Town	District/Tahsil	No. of Villages	Average Percentage of cultivable waste
5 Km. or less ..	**District**	**305**	**4·06**
	Tahsil Rewari	93	2·82

	Tahsil Ferozepur Jhirka	100	2·68
26—50 Km. ..	**District**	**82**	**2·65**
	Tahsil Rewari	29	0·71
	Tahsil Gurgaon	16	2·86
	Tahsil Ballabgarh	2	0·00
	Tahsil Palwal	10	10·13
	Tahsil Nuh	6	13·86
	Tahsil Ferozepur Jhirka	19	0·23
Total ..	**District**	**1,586**	**4·10**
	Tahsil Rewari	426	3·23
	Tahsil Gurgaon	226	5·13
	Tahsil Ballabgarh	206	3·53
	Tahsil Palwal	197	5·34
	Tahsil Nuh	289	4·42
	Tahsil Ferozepur Jhirka	242	2·86

The cultivable waste for the district works out to 4.10 per cent of its total area. The total cultivable waste is 61,461 acres as against the total area of 1,500,467 acres. The cultivable waste in Tahsil Palwal is the highest, *viz.*, 5.34 per cent. Tahsil Gurgaon is the close second with 5.13 per cent of its area being cultivable waste. The percentage of cultivable waste is the lowest in Tahsil Ferozepur Jhirka. The cultivable waste among the villges in the distance group 26—50 km. is, surprisingly, the lowest, *viz.*, 2.65 per cent of the total area.

47. The land under forest in the district is 0.40 per cent only of the total area, as is seen from the Table below :—

TABLE NO. 9

Distance from the nearest Town	District/Tahsil	No. of Villages	Average percentage of land under forest
5 Km. or less ..	**District**	**305**	**0.26**
	Tahsil Rewari	93	0.00
	Tahsil Gurgaon	66	0.42
	Tahsil Ballabgarh	49	0.06
	Tahsil Palwal	38	0.38
	Tahsil Nuh	38	0.73
	Tahsil Ferozepur Jhirka	21	0.00
6—10 Km. ..	**District**	**474**	**0.40**
	Tahsil Rewari	155	0.58
	Tahsil Gurgaon	68	0.00
	Tahsil Ballabgarh	60	0.92
	Tahsil Palwal	65	0.17
	Tahsil Nuh	68	0.76
	Tahsil Ferozepur Jhirka	58	0.05
11—15 Km. ..	**District**	**375**	**0.74**
	Tahsil Rewari	81	1.26
	Tahsil Gurgaon	60	0.00
	Tahsil Ballabgarh	57	0.19
	Tahsil Palwal	43	0.00
	Tahsil Nuh	90	1.93
	Tahsil Ferozepur Jhirka	44	0.00
16—25 Km. ..	**District**	**350**	**0.26**
	Tahsil Rewari	68	0.15
	Tahsil Gurgaon	16	0.00
	Tahsil Ballabgarh	38	0.00
	Tahsil Palwal	41	1.10
	Tahsil Nuh	87	0·14
	Tahsil Ferozepur Jhirka	100	0.00
26—50 Km. ..	**District**	**82**	**0.00**
	Tahsil Rewari	29	0.00
	Tahsil Gurgaon	16	0.00
	Tahsil Ballabgarh	2	0.00
	Tahsil Palwal	10	0.00
	Tahsil Nuh	6	0.00
	Tahsil Ferozepur Jhirka	19	0.00
Total ..	**District**	**1,586**	**0.40**
	Tahsil Rewari	426	0.42
	Tahsil Gurgaon	226	0.13
	Tahsil Ballabgarh	206	0.30
	Tahsil Palwal	197	0.39
	Tahsil Nuh	289	1.01
	Tahsil Ferozepur Jhirka	242	0.01

As is evident, the position with regard to the land under forest is highly unsatisfactory. The area under forest in the district is less than even $\frac{1}{2}$ per cent of the total, while it is desirable that atleast 22 per cent of the total area should be covered by forest. Tahsil Ferozepur Jhirka, in fact, has no forests at all, while Tahsil Nuh has 1 per cent of its area under forest.

48. The percentage of irrigated area to the total cultivated area for the district works out to 32.34. The position in this regard is depicted in the following Table :—

TABLE NO. 10

Distance from the nearest Town	District/Tahsil	No. of Villages	Average percentage of irrigated land to total cultivated land
5 Km. or less..	**District**	**305**	**37.95**
	Tahsil Rewari	93	40.70
	Tahsil Gurgaon	66	38.73
	Tahsil Ballabgarh	49	47.04
	Tahsil Palwal	38	53.79
	Tahsil Nuh	38	4.30
	Tahsil Ferozepur Jhirka	21	11.50
6—10 Km. ..	**District**	**474**	**34.64**
	Tahsil Rewari	155	36.49
	Tahsil Gurgaon	68	27.59
	Tahsil Ballabgarh	60	51.82
	Tahsil Palwal	65	49.65
	Tahsil Nuh	68	21.81
	Tahsil Ferozepur Jhirka	58	17.16
11—15 Km. ..	**District**	**375**	**30.78**
	Tahsil Rewari	81	33.64
	Tahsil Gurgaon	60	32.34
	Tahsil Ballabgarh	57	33.30
	Tahsil Palwal	43	46.99
	Tahsil Nuh	90	23.94
	Tahsil Ferozepur Jhirka	44	18.81
16—25 Km. ..	**District**	**350**	**27.15**
	Tahsil Rewari	68	28.91
	Tahsil Gurgaon	16	34.49
	Tahsil Ballabgarh	38	16.69
	Tahsil Palwal	41	48.25
	Tahsil Nuh	87	22.04
	Tahsil Ferozepur Jhirka	100	14.50
26—50 Km. ..	**District**	**82**	**30.01**
	Tahsil Rewari	29	30.98
	Tahsil Gurgaon	16	44.82
	Tahsil Ballabgarh	2	0.00
	Tahsil Palwal	10	21.34
	Tahsil Nuh	6	35.49
	Tahsil Ferozepur Jhirka	19	9.19
Total ..	**District**	**1,586**	**32.34**
	Tahsil Rewari	426	34.46
	Tahsil Gurgaon	226	34.23
	Tahsil Ballabgarh	206	38.75
	Tahsil Palwal	197	48.35
	Tahsil Nuh	289	20.85
	Tahsil Ferozepur Jhirka	242	15.58

As against the total cultivated area of 1,181,382 acres, only 382,110 acres have the facility of irrigation. Comparing the position in this regard among the various tahsils, the percentage of irrigated area to the total cultivated area is the highest *viz.*, 48.35 in Tahsil Palwal. A close second is Tahsil Ballabgarh with 38.75 per cent

of its cultivated area as irrigated. Tahsils Rewari and Gurgaon have 34.46 per cent and 34.23 per cent of their area under irrigation respectively. Tahsils Nuh and Ferozepur Jhirka have the lowest percentage of irrigated area *viz.*, 20.85 per cent and 15.58 per cent respectively, which is far below the district average. The most important source of irrigation is wells but tube-wells of late are also gaining popularity as a means of irrigation.

49. *Town Directory.*—There are 14 towns in the district. The data on each town have been presented through as many as seven Statements. Statement Nos. I to VI have been compiled from the information supplied by the concerned local bodies. Statement No. VII relating to the distribution of sex-wise population of the towns by Religion has been prepared on the basis of the data collected during the 1971-Census.

50. Statement-I gives the status of each town *i.e.*, whether it is a Corporation, a Municipal Committee, a Cantonment Board or a Notified Area Committee and indicates its decadal population since the year 1901. In case a town did not enjoy urban status at the time of any of the decennial censuses, a dash(—) has been put in the relevant column under the heading "Population of the town at the Census of". In the case of towns which lost their urban status at the time of one or more censuses, the entry "Declassified" would be found to have been made in this column. In column 14 of this Statement has been indicated the functional category of each town based on the 1961-Census returns. The following Table gives the number and names of towns distributed according to their functional category :—

Functional Category	**Number (names) of Towns**
Industry-cum-Services	1 (Ballabgarh)
Primary Activities	1 (Bawal)
Services	1 (Gurgaon)
Industry	1 (Faridabad Township)
Commerce	1 (Haileymandi)
Primary Activities-cum-Industry-cum-Services	1 (Faridabad)
Industry-cum-Primary Activities-cum-Services	1 (Farrukhnagar)
Primary Activities-cum-Services-cum-Industry	2 (Ferozepur Jhirka and Hodal)
Services-cum-Commerce-cum-Industry	1 (Nuh)
Services-cum-Industry-cum-Trade and Commerce	1 (Palwal)
Services-cum-Primary Activities	1 (Pataudi)
Industry-cum-Trade and Commerce	1 (Rewari)
Commerce-cum-Industry-cum-Services	1 (Sohna)

51. Statement-II gives the physical and locational aspects of the various towns in the district. The rainfall data are not available for the four towns of Faridabad, Faridabad Township, Haileymandi and Hodal. Gurgaon has the highest annual rainfall of 892.6 millimetres followed by Ferozepur Jhirka which receives a rainfall of 765.0 millimetres. Pataudi, on the other hand, has the lowest rainfall of 405.2 millimetres.

The information with regard to the minimum and maximum temperature for the towns is not available except for the district town of Gurgaon. Gurgaon town experienced the maximum temperature of 44.0°C in May and June, 1969 and minimum temperature of 1.1°C in January, 1969.

52. Statement-III gives the position of Municipal finances as during the financial year 1968-69 (1st April, 1968 to 31st March, 1969). The total income from the various sources and the expenditure on different items have been indicated in Rs. '00'. The Table given on the next Page provides the per capita income and expenditure of the Municipalities arranged by the size class of towns :—

Class of Town	No. and name of towns	Per Capita						
		Receipt			*Expenditure*			
		Total receipt	Receipt through taxes etc.	Receipt from all other sources	Total expenditure	Public institutions	Public health and conveniences	All other aspects
Class-I 100,000 and over	..	..	..	..	..	..	..	..
Class-II 50,000—99,999	2 (Faridabad Township, Gurgaon)	25	16	9	25	1	4	20
Class-III 20,000—49,999	2 (Palwal, Rewari)	20	15	5	19	1	9	9
Class-IV 10,000—19,999	3 (Ballabgarh, Faridabad, Hodal)	28	13	15	25	1	7	17
Class-V 5,000—9,999	5 (Bawal, Farrukhnagar, Ferozepur Jhirka, Pataudi, Sohna)	16	10	6	15	N	3	12
Class-VI Below 5,000	2 (Haileymandi, Nuh)	26	16	10	22	4	8	10

"N" Stands for "Negligible"

53. In Statement-IV has been presented the state of civic and other amenities as in the year 1969. The amenities covered are the roads, the system of sewerage and drainage, the source and quantity of drinking water-supply, the existence or otherwise of fire fighting services and the number of electric connections separately under domestic, industrial and commercial uses as also the number of street light points. The method of removal of night-soil and the number of public latrines of different types *viz.*, 'water-borne', 'service' and 'others' have also been given. The abbreviations used in the Statement are explained as under:—

PR	Pucca Road	WB	Wheel Barrows
KR	Kucha Road	HL	Head Load
S	Sewer	TW	Tube-well Water
OSD	Open Surface Drains	W	Well Water
BSD	Box Surface Drains		

Four towns *viz.*, Faridabad Township, Gurgaon, Palwal and Rewari out of the total 14 in the district have sewerage facility in some of their parts. All other towns and a major part of the above mentioned four towns are served by open surface drains. Except for small towns like Bawal, Farrukhnagar, Haileymandi, Hodal, Pataudi and Sohna, where the evil practice of carriage of night-soil as head load still continues, in all other towns the mode of carriage of night-soil is by wheel-barrows.

54. All the towns in the district, except Faridabad and Faridabad Township, have unsatisfactory drinking water supply. The following Table would provide a comparison of the actual with the desired water-supply per capita as per the Indian Standard Institution's Code of Water-Supply Requirements.

Name of Town	Total Population	Total water-supply per day (in gallons)	Water supply per capita per day (in gallons)	**Water-supply per capita as per the I.S.I. Code of Water-Supply Requirements**	
				In the case of towns with sewerage	In the case of towns without sewerage
Ballabgarh	17,411	150,000	9		
Bawal	6,529	..	..		
Faridabad	19,644	600,000	31		
Faridabad Township	85,762	7,800,000	91		
Farrukhnagar	5,487	..	..		
Ferozepur Jhirka	7,962	62,000	8		
Gurgaon	57,151	400,000	7	40	25
Haileymandi	2,252	..	..		
Hodal	14,144	150,000	11		
Nuh	4,730	52,000	11		
Palwal	36,207	300,000	8		
Pataudi	6,045	..	..		
Rewari	43,885	280,000	6		
Sohna	8,775	..	..		

55. Statement-V depicts the position of medical, educational, recreational and cultural facilities separately for all the towns in the district, reference year being 1969. Under the heading 'Medical Facilities', has been shown the number separately of Hospitals/Dispensaries,T.B.Clinic/Health Centres/Nursing Homes. The total number of patient beds available in all the Medical Institutions in each town has also been indicated. As for the educational facilities, number has been given separately of Arts/Science/Commerce Colleges, Medical/Engineering Colleges, Polytechnics, Higher Secondary/Secondary, Junior Secondary/Middle and Primary Schools and even recognised Shorthand, Typewriting, and other Vocational Training Institutions. Under the heading 'Recreational Facilities' are indicated the number of stadia, cinemas, auditoria and public libraries including reading rooms. Abbreviations used in the preparation of this Statement are explained as under :—

H	Hospital
D	Dispensary
HC	Health Centre
TBC	T. B. Clinic
ASC	Arts-cum-Science-cum-Commerce College
AS	Arts-cum-Science College
A	Arts College
CE	College of Education

The seven towns of Bawal, Faridabad, Farrukhnagar, Ferozepur Jhirka, Haileymandi, Palwal and Pataudi do not have any college. Rewari has as many as five Colleges. Two out of these five are Colleges of Education. Gurgaon has two colleges, one arts college and another Arts-cum-Science-cum-Commerce College. Hodal has only an Arts College whereas Nuh has an Arts-cum-Science-cum-Commerce College. Ballabgarh too has an Arts-cum-Science-cum-Commerce College. Faridabad Township has one Arts College and another Arts-cum-Science College. Gurgaon has two Polytechnics and Sohna has only one . There are two Vocational Training Institutions, one in Gurgaon and the other in Palwal Town.

56. The following Table gives the number of beds per 1,000 population for the various towns:—

Sl. No.	Name of Town		Total No. of beds	Population	No. of beds per 1,000 population
1	Ballabgarh	..	10	17,411	1
2	Bawal	..	10	6,529	2
3	Faridabad	..	6	19,644	Negligible
4	Faridabad Township	..	230	85,762	3
5	Farrukhnagar	..	6	5,487	1
6	Ferozepur Jhirka	..	14	7,962	2
7	Gurgaon	..	86	57,151	2
8	Haileymandi	..	4	2,252	2
9	Hodal	..	8	14,144	1
10	Nuh	..	6	4,730	1
11	Palwal	..	110	36,207	3
12	Pataudi	..	8	6,045	1
13	Rewari	..	50	43,885	1
14	Sohna	..	10	8,775	1

57. In the Table below are given the number of High/Higher Secondary, Middle and Primary Schools separately for each of the towns *vis-a-vis* their population.

Sl. No.	Name of Town	Population	Number of Schools		
			Higher Secondary/ Secondary	Middle	Primary
1	Ballabgarh ..	17,411	3	..	3
2	Bawal ..	6,529	2	..	1
3	Faridabad ..	19,644	2	..	3
4	Faridabad Township ..	85,762	2	8	8
5	Farrukhnagar ..	5,487	3	1	3
6	Ferozepur Jhirka ..	7,962	2	1	1
7	Gurgaon ..	57,151	2	4	6
8	Haileymandi ..	2,252	1	..	..
9	Hodal ..	14,144	1	1	4
10	Nuh ..	4,730	2	1	1
11	Palwal ..	36,207	3	1	11
12	Pataudi ..	6,045	1	..	2
13	Rewari ..	43,885	3	7	9
14	Sohna ..	8,775	2	..	3

58. Statement-VI shows the number of banks, the number separately of the Agricultural and Non-Agricultural Credit Societies in each of the towns. In so far as the aspects relating to trade, commerce and industry are concerned, information has been given on the three most important commodities imported/ exported and the three most important commodities manufactured. The Statement, however, fails to give a correct picture of the imports/exports and the commodities manufactured at Ballabgarh, Faridabad and Faridabad Township. It is well-known that Ballabgarh-Faridabad-Faridabad Township is by far the most important industrial complex in the State. The variety of items manufactured at these places is huge indeed. It appears that most of the factories situated at these three places fall outside the Municipal limits of these towns and their products have not, as such, been accounted for in the Statement. Some of the most important industrial units in the said complex are—Eicher Tractor Works and Escorts Limited, Faridabad, manufacturing among themselves a variety of Tractors, Scooters, Motor Vehicles and Agricultural Implements ; Usha Spinning and Weaving and Jawala Textile Mills; Hemla Embroidery Mills (P) Limited; Bata Shoe Company; Goodyear India Limited, the prestigious manufacturers of tyres ; the Atul Glass Industries and Hindustan Vaccum Glass and Metal Industries; manufacturing glass and glass products; Telefunkun India Limited; Ballabgarh, manufacturing radios ; Pearl Cycle Industries, manufacturing bicycles ; etc. etc.

59. Statement-VII gives the distribution of sexwise population by Religion for all the towns in the district.

60. *Part 'B'—Village and Townwise Primary Census Abstracts.*— As the title itself suggests, the Village and Town-wise Census Abstracts have been presented within the District Tahsilwise and within the tahsil for each village and for each town separately. Preceding the Village and Town-wise Primary Census Abstracts, however, Primary Census Abstract for the district as a whole and for each tahsil comprised therein has been presented. In the District and Tahsil Primary Census Abstracts, 'T' stands for Total population and 'R' and 'U' for the Rural and Urban parts thereof respectively.

61. Although for the purpose of census enumeration, the villages had been divided on the basis of their population, into 'Enumeration Blocks' consisting of approximately 750 persons each, data of population in the case of villages have not been given'enumeration blockwise' but for the village as a whole. In the case of towns, on the other hand, data have been provided for individual enumeration blocks within a ward. The enumeration blocks in towns were formed on the basis of a population roughly of 600 persons. Naturally, the total of the population of the enumeration blocks in a ward would give the latter's population. The information relating to the population and its characteristics presented in columns from 6 to 38 of the Primary Census Abstracts has been given sexwise, *i.e., separately for Males (M) and Females (F).*

62. The contents of the Primary Census Abstracts and the concepts, if any, connected therewith are discussed columnwise as under:—

Column 1 (Location Code Number).—In this column is indicated the Location Code Number of the village/town. For the purposes of the Census, every district, tahsil, village and town had been given a Location Code Number for facility of its identification. The said Location Code Number, therefore, has been indicated in this column.

Column 2 (Name of Village/Town/Ward/Urban Enumerator's Block).—As pointed out above, the Primary Census Abstracts have been presented villagewise and in the case of towns, Ward/Urban Enumerator's Blockwise. As is well-known, every town stands divided into a number of wards, mostly on the basis of their electoral strength.

Column 3 (Area of village in acres and of towns in sq. km.).— Does not call for any explanation.

Column 4 (Occupied Residential Houses).—In this column has been given the total number of Census Houses used for residential purposes. The question naturally arises, as to what is a Census House ? A Census House is a building or a part of building having a separate entrance from a common courtyard or a stair-case, etc, used or recognised as a separate unit. It may be inhabited or vacant. It may be used for a residential or non-residential purpose or for both. In this column, however, has been given the number only of those Census Houses which at the time of enumeration were being actually used for residential purposes.

Column 5 (Number of Households).—A Household is a group of persons who commonly live together and take their meals from a common kitchen unless the exigencies of work prevent them from doing so. It may be made up of related or unrelated persons. A cook or a servant living in the house of his employer and taking his food there, is to be considered as a member of the Household. Similarly, a hotel where a number of unrelated persons live together has been treated as an 'Institutional Household'.

Columns 6, 7 & 8 (Total Population including Institutional and Houseless Population).—Under this heading, information has been provided about the total population (column 6-'P' for Persons) and separately for Males (M-column 7) and Females (F-column 8). It may be necessary to explain here as to what is meant by 'Institutional Population' and 'Houseless Population'. By 'Institutional Population' is meant the number of inmates of institutions like the Blind and Deaf and Dumb Schools, Orphanages, Lunatic Asylums, Jails, etc. By the Houseless Population is meant the number of persons who have no house to live in, and spend the night on foot-paths etc.

Columns 9&10 (Scheduled Castes).—In these columns has been given separately for Males (M)and Females (F) the population of Scheduled Castes. Only those Castes which are included in the list of Scheduled Castes recognised by the Presidential Order for the State of Haryana, have been reckoned as such for the purposes of Census. It may be understood that there is a separate list of Scheduled Castes for each State and that a Caste recognised as Scheduled Caste in one State may not necessarily be recognised as a Scheduled Caste in the other State.

Columns 11 & 12 (Scheduled Tribes).—As none of the Scheduled Tribes had been recognised as such by the Presidential Order for the State of Haryana, the information with respect thereto has been considered as nil.

Columns 13 & 14 (Number of Literates & Educated Persons).— In these columns has been indicated the number of Literates and Educated Persons separately for the Males and the Females. It would be necessary here to explain that for the purposes of Census, only a person who can both read and write with understanding in any language has been considered 'Literate'. Evidently, a person who can merely read but cannot write has not been treated as 'Literate'. It is not necessary, however, that a person who is literate should have received any formal education or should have passed any minimum educational standard. Children below the age of 5 years, even if they could both read and write, have not been considered literate as such. Children could not be considered to have developed the 'required understanding'.

63. In columns 15 to 36 of the Primary Census Abstracts has been provided information with regard to the number of workers and their distribution into 9 Industrial Categories as per the Code of National Industrial Classification.

Columns 15&16 (Total Workers).—These two columns give the number separately of Male and Female workers, falling in any of the 9 Industrial Categories. A question may perhaps be asked as to who for the purposes of Census has been treated as a 'Worker'? Before defining the term 'Worker', it is necessary to explain the concept of main activity adopted for the 1971-Census for the first time. By main activity is meant, as to how a person engages himself mostly. From the point of view of main activity, therefore, the population got divided into two broad categories, *viz.* 'Workers' and 'Non-Workers'. Only those persons, therefore, who participated in any economically productive work as their main activity, have been treated as 'Workers'. On the other hand, a person who for most of his time was engaged in any economically non-productive work has, from the point of view of main activity, been considered as a 'Non-Worker'. If, however, such a person was also engaged in some economically productive activity on a part-time basis or for only a small fraction of his time, he has been reckoned only as a 'Secondary Worker' for his contribution to economic activity. As he has not been treated as worker for his main activity, the number of total workers provided in cols. 15 and 16 of the Primary Census Abstracts does not account for. Such a person, on the other hand, has been counted among the non-workers.

64. A worker, therefore, is a person whose main activity is participation in any economically productive work by his physical or mental activity. Work involves not only actual work but effective supervision and direction of work as well.

Columns 17 & 18 (Cultivators).—In these two columns has been given the number of Male and Female Workers whose main activity is Cultivation. For the purposes of the Census, a person engaged in cultivation by himself or by supervision or direction in his capacity as the owner or lessee of land held from Government or as a tenant of land held from a private person or an institution for payment in money, kind or share, has been recorded as a Cultivator. Cultivation, however, does not include fruit-growing, vegetable-growing or keeping orchards or groves or working on plantations like tea, coffee, rubber, cinchona and other medicinal plantations. It may also be made clear that a person who merely owns land but has given out land to another person for cultivation, for money, kind or share of crop and who does not even supervise or direct cultivation of land, has not been treated as a cultivator or even as a worker unless he is engaged in some economically productive work. Similarly, a person working in another person's land for wages in cash, kind or share, has not been treated as a cultivator but as an 'Agricultural Labourer'.

Columns 19 & 20 (Agricultural Labourers).—In these columns has been given the number of Agricultural Labourers separately for Males and Females. An Agricultural Labourer is a person who works in another person's land for wages in money, kind or share. Such a person, evidently, has no risk in cultivation and merely works in another person's land for wages. The labourer could have no right of lease or contract on land on which he works.

Columns 21 & 22 (Livestock, Forestry, Fishing, Hunting & Plantations, Orchards and Allied Activities).—Does not call for any explanation.

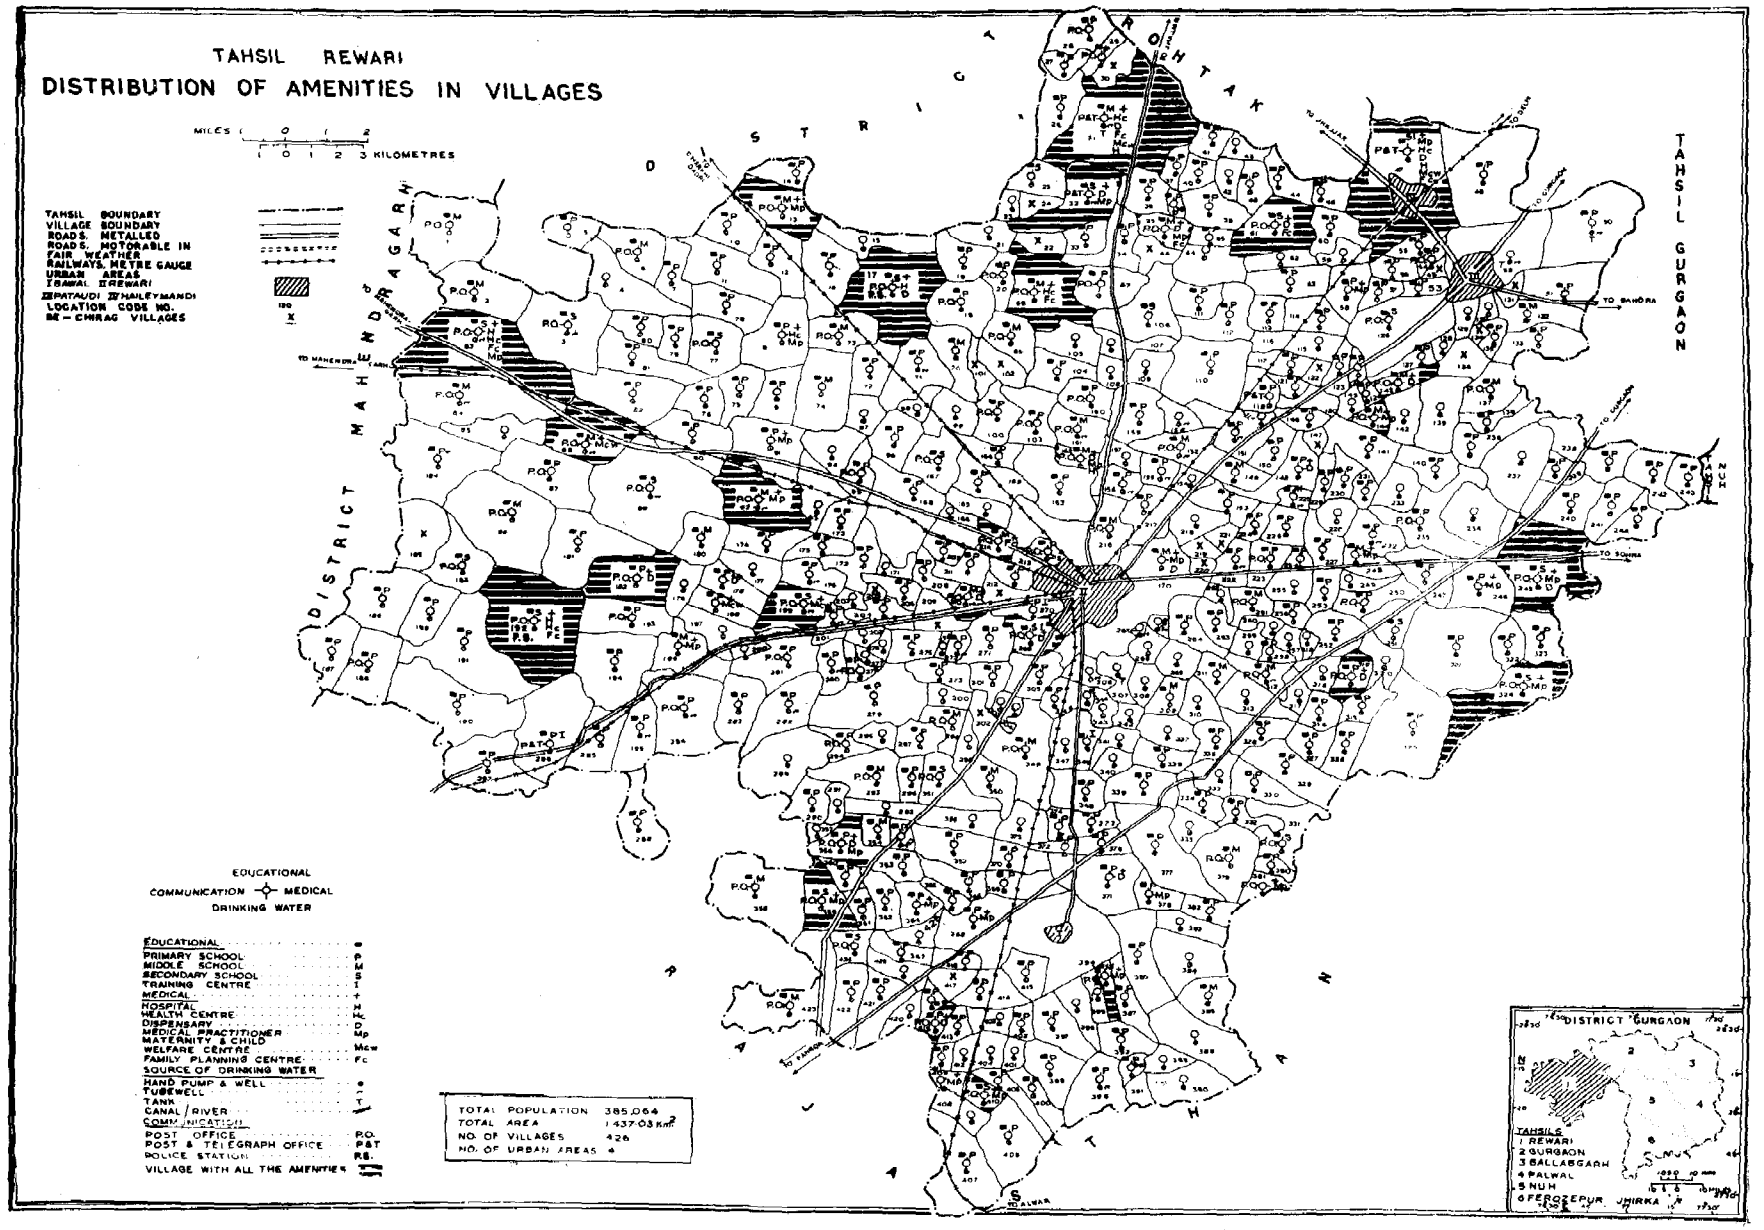

Columns 23 & 24 (Mining and Quarrying).—Does not call for any explanation.

Columns 25, 26, 27 & 28 (Manufacturing, Processing, Servicing and Repairs).—The workers under this category have been further sub-divided into (a) Household Industry (columns 25 & 26) and (b) Manufacturing other than Household Industry (columns 27 & 28). What is a Household Industry ? For the purposes of the Census, a Household Industry has been defined as "an industry conducted by the head of the household himself/herself and/or mainly by the members of the household at home or within the village in rural areas and only within the premises of the house where the household lives in urban areas. The Household Industry should necessarily be run on a small scale. A factory run on the scale of a registered factory has not been considered as a 'Household Industry'." All other workers engaged in manufacturing, processing, servicing and repairs where such activities are not carried on the scale of Household Industry, have been included in the sub-category (b) 'Other than Household Industry.'

Columns 29&30 (Construction), 31 & 32 (Trade & Commerce), 33 & 34 (Transport, Storage and Communications).—The Industrial Categories mentioned in these columns are self explanatory and do not call for any comments.

Columns 35 & 36 (Other Services).—In these columns have been given separately for Males and Females the figures of workers engaged in 'Other Services'. In the Industrial Category 'Other Services' are included the Government servants, the municipal employees, the doctors, the teachers, the political or social and religious workers, etc. In fact, all types of economic activities carried on as a profession, not covered by the remaining 8 categories, have been covered under this category.

Columns 37 & 38 (Non-Workers).—In these columns has been given separately the number of Non-Workers for Males and Females. A Non-Worker is a person who as his main activity is not engaged in any economically productive work but is basically Non-Working. The non-workers constitute those engaged in Household Duties, Students, Retired Persons or Rentiers, Dependents, Beggars, Inmates of Institutions and Other Non-Workers. One may start wondering as to what are other Non-Workers ? In this category are included all those persons who are not covered by any of the other non-working categories but who are seeking employment. The other non-workers, therefore, stand for those persons who though wanting work, have not been able to get any employment.

†Although, 'Be-chirag' (Un-inhabited) as per the Revenue record, population was recorded at the time of Census Enumeration, 1971 from the village.

Notes.—(1) In case there is a town of the same name as a village, the word (Rural) has been added along with the name of the village.

(2) The area figures are as supplied by the Revenue Patwari and include urban area, if any.

*Population of the village and the area (partly or fully) thereof has come within the municipal limits.

Notes.—(1) In case there is a town of the same name as a village, the word (Rural) has been added along with the name of the village.

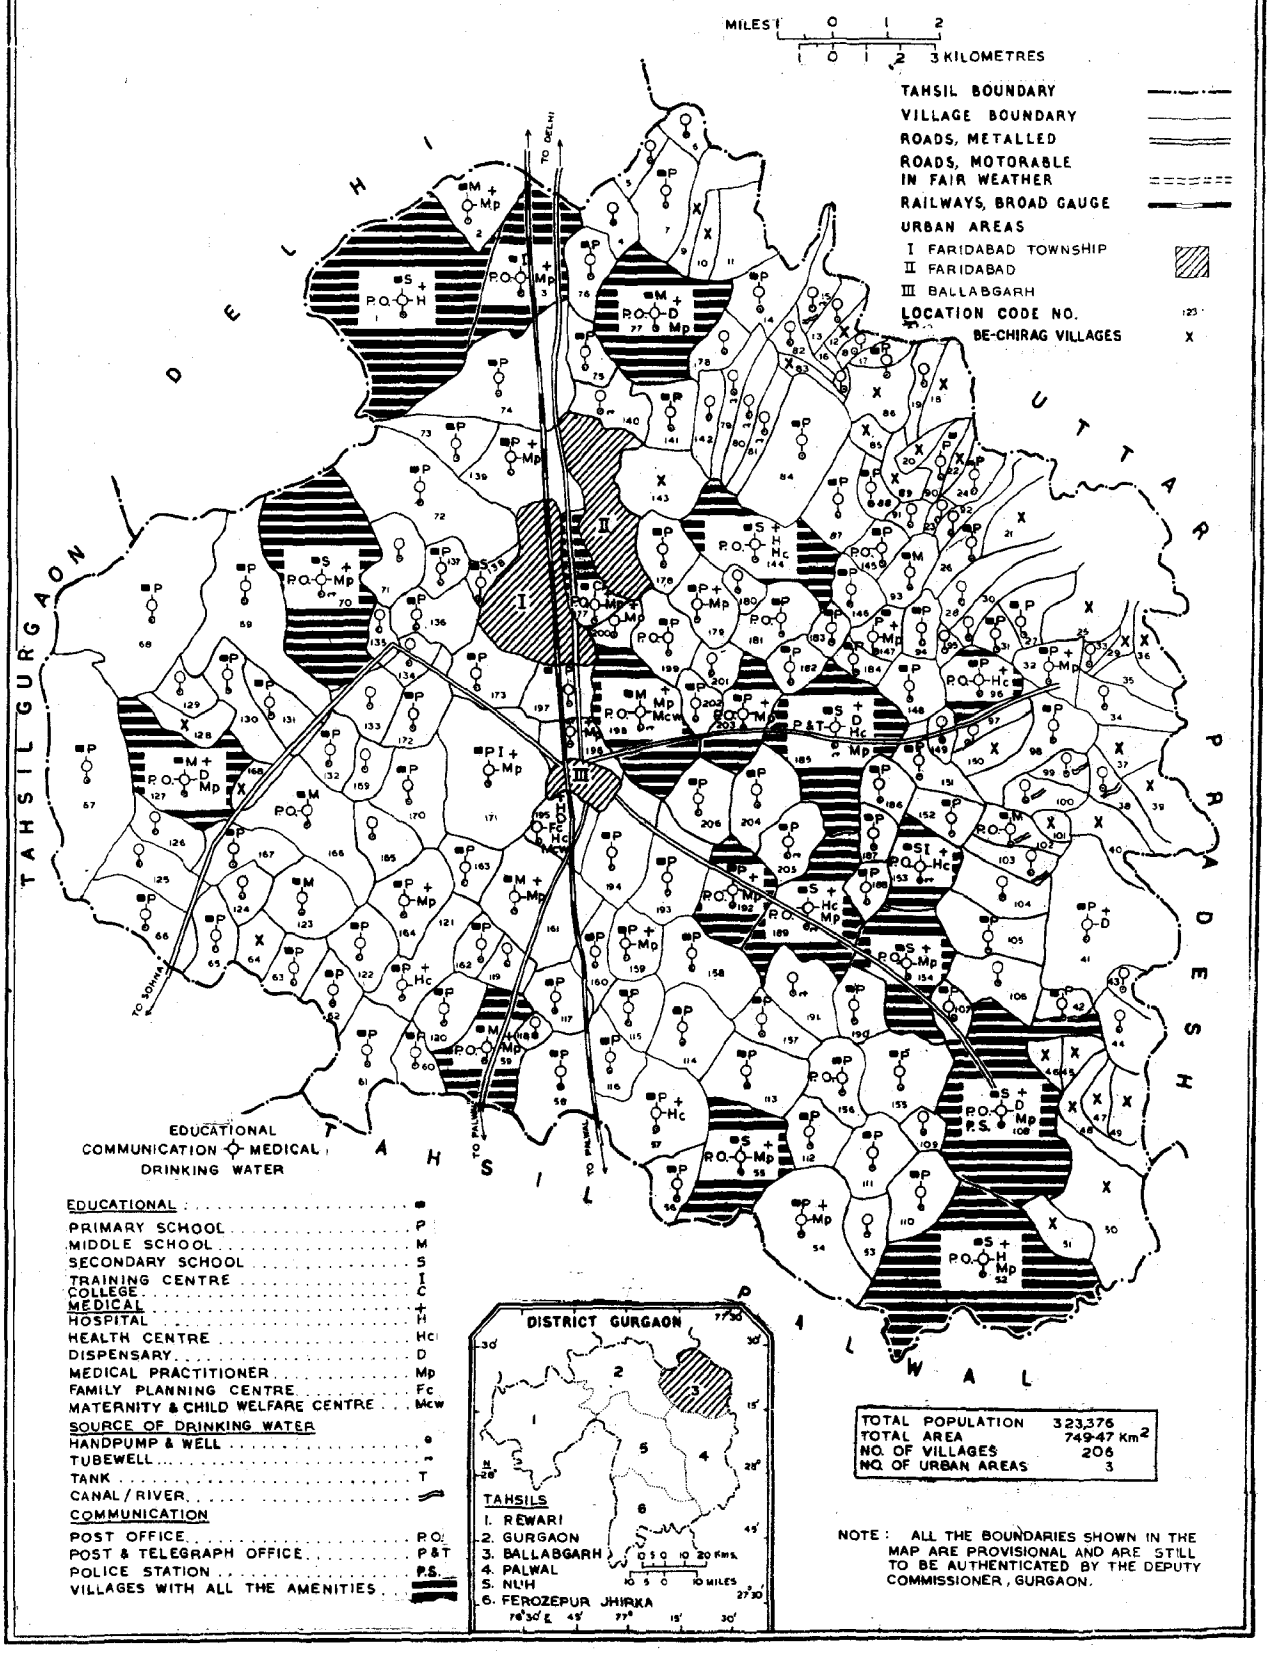

(2) The area figures are as supplied by the Revenue Patwari and include urban area, if any.

STATEMENTS SHOWING THE COMPOSITION OF ENUMERATORS' BLOCKS FOR EACH TOWN

BAWAL TOWN

Ward No.	Enumerator's Block No. and its jurisdiction	
	Block No.	House Nos. included in the Block
1	2	3
I	1	House No. 1 to 72
	2	House No. 73 to 140
II	3	House No. 1 to 99
	4	House No. 100 to 238
III	5	House No. 1 to 93
	6	House No. 94 to 177
IV	7	House No. 1 to 147
V	8	House No. 1 to 135
	9	House No. 175 to 275
	10	House No. 276 to 379
VI	11	House No. 1 to 93
	12	House No. 94 to 189
VII	13	House No. 1 to 215
	14	House No. 216 to 364

REWARI TOWN

Ward No.	Enumerator's Block No. and its jurisdiction	
	Block No.	House Nos. included in the Block
1	2	3
I	1	House No. 1 to 164
	2	House No. 165 to 265
	3	House No. 266 to 371
	4	House No. 372 to 478
	5	House No. 479 to 804
	6	House No. 805 to 900
	7	House No. 901 to 1015
	8	House No. 1016 to 1129
	9	House No. 1130 to 1248
	10	House No. 1249 to 1335
	11	House No. 1336 to 1446
	12	House No. 1447 to 1562
II	13	House No. 1 to 99
	14	House No. 100 to 210
	15	House No. 211 to 305
	16	House No. 306 to 413
	17	House No. 414 to 526
	18	House No. 527 to 613
III	19	House No. 1 to 121
	20	House No. 122 to 257
	21	House No. 258 to 390
	22	House No. 391 to 472
	23	House No. 473 to 582
	24	House No. 583 to 672
	25	House No. 673 to 805
	26	House No. 806 to 896
	27	House No. 897 to 1049
	28	House No. 1050 to 1193
IV	29	House No. 1 to 85
	30	House No. 86 to 177
	31	House No. 178 to 276
	32	House No. 277 to 381
V	33	House No. 1 to 80
	34	House No. 81 to 150
	35	House No. 151 to 289
VI	36	House No. 1 to 326
	37	House No. 327 to 390
	38	House No. 391 to 714
	39	House No. 715 to 798

	42	House No. 268 to 342
	43	House No. 343 to 439
	44	House No. 440 to 574
VIII	45	House No. 1 to 177
	46	House No. 178 to 281
	47	House No. 282 to 357
	48	House No. 358 to 495
	49	House No. 496 to 586
IX	50	House No. 1 to 140
	51	House No. 141 to 320
	52	House No. 321 to 425
	53	House No. 426 to 511
	54	House No. 512 to 691
X	55	House No. 1 to 148
	56	House No. 149 to 226
	57	House No. 227 to 321
	58	House No. 322 to 425
	59	House No. 426 to 523
XI	60	House No. 1 to 102
	61	House No. 103 to 215
	62	House No. 216 to 306
	63	House No. 307 to 414
	64	House No. 415 to 502
XII	65	House No. 1 to 85
	66	House No. 86 to 162
	67	House No. 163 to 258
	68	House No. 259 to 364
XIII	69	House No. 1 to 97
	70	House No. 98 to 174
	71	House No. 175 to 292
	72	House No. 293 to 376
	73	House No. 377 to 493
XIV	74	House No. 1 to 131
	75	House No. 132 to 212
	76	House No. 213 to 270
	77	House No. 271 to 358
XV	78	House No. 1 to 99
	79	House No. 100 to 320
	80	House No. 321 to 792

PATAUDI TOWN

Ward No.	Enumerator's Block No. and its jurisdiction	
	Block No.	House Nos. included in the Block
1	2	3
I	1	House No. 1 to 302
II	2	House No. 1 to 106
	3	House No. 107 to 181
III	4	House No. 3 to 138
IV	5	House No. 1 to 109
V	6	House No. 4 to 70
	7	House No. 71 to 141

Ward No.	Enumerator's Block No. and its jurisdiction	
	Block No.	House Nos. included in the Block
1	2	3
VI	8	House No. 1 to 56/2
	9	House No. 57 to 123
VII	10	House No. 1 to 126
VIII	11	House No. 1 to 212
IX	12	House No. 6 to 123

HAILEYMANDI TOWN

Ward No.	Enumerator's Block No. and its jurisdiction	
	Block No.	House Nos. included in the Block
1	2	3
I	1	House No. 1 to 34
II	2	House No. 1 to 37
III	3	House No. 1 to 38
IV	4	House No. 1 to 47
V	5	House No. 1 to 51
VI	6	House No. 1 to 31
VII	7	House No. 1 to 41
VIII	8	House No. 1 to 53
IX	9	House No. 1 to 60

FARRUKHNAGAR TOWN

Ward No.	Enumerator's Block No. and its jurisdiction	
	Block No.	House Nos. included in the Block
1	2	3
I	1	House No. 1 to 89
	2	House No. 90 to 172
II	3	House No. 1 to 102
III	4	House No. 1 to 45, 84 to 114
	5	House No. 46 to 83, 115 to 127
IV	6	House No. 1 to 100

Ward No.	Enumerator's Block and its jurisdiction	
	Block No.	House Nos. included in the Block
1	2	3
V	7	House No. 1 to 102, 245 to 248
	8	House No. 103 to 244
VI	9	House No. 1 to 200
	10	House No. 201 to 376
VII	11	House No. 1 to 125
	12	House No. 126 to 295
	13	House No. 296 to 435

GURGAON TOWN

Ward No.	Enumerator's Block No. and its jurisdiction

No. Census-Hr-75/
Government of India
Ministry of Home Affairs
OFFICE OF THE DIRECTOR OF CENSUS OPERATIONS, HARYANA,
Kothi No.35, Sector 10/A, Chandigarh-11.

To

_____,

_____,

_____.

Dated Chandigarh, the

Subject:- 1971-Census-District Census Handbook of Gurgaon-Regarding.

Sir,

I have the honour to invite your attention on the subject noted above, and to say that some printing mistake has been noticed in the District Census Handbook of Gurgaon District. The following para may therefore kindly be added in the 'Errata' already printed at page viii of the District Census Handbook:-

"The figures under columns 4 to 38 at pages 210-11 against Village Dhulawat (Code No.111) may be read for Village Mendla (Code No.112) and vice versa."

2. Inconvenience caused to you if any is regretted.

Yours faithfully,

(Ardaman Singh)
Dy. Director of Census Operations,
Haryana, Chandigarh.

T. C. Makheja
