Motif

The Pinjore Moghul Gardens falling in Kalka Tahsil of Ambala District have a mythical and legendary history. They first find mention in the Mahabharata. The Pandavas during their 12 years exile taking fancy to this spot took refuge here and called it Panchpura. Fadai Khan the great architect and the Governor of Punjab during Aurangzeb's rule planned these gardens with fluttering balconies, spacious terraces, symmetrical water courses, sparkling fountains and green grassy plots all around encircled by embattlements. With the passage of time the gardens fell on evil days to be restored to the present glory first by the rulers of Patiala and then by the present Haryana Government. Now the gardens have become an important tourist resort with all the modern facilities.

CENSUS OF INDIA 1971

A—CENTRAL GOVERNMENT PUBLICATIONS

The publications relating to Haryana bear Series No. 6, and are bound separately as follows :

Part I-A	..	General Report
Part I-B	..	General Report
Part I-C	..	Subsidiary Tables
Part II-A	..	General Population Tables
Part II-B	..	Economic Tables
Part II-C(i)	..	Mother Tongue, Religion and Scheduled Castes and Scheduled Tribes Tables
Part II-C(ii)	..	Social and Cultural Tables and Fertility Tables
Part III	..	Establishments Report and Tables
Part IV	..	Housing Report and Tables
Part V	..	Special Tables and Ethnographic Notes on Scheduled Castes and Scheduled Tribes
Part VI-A	..	Town Directory
Part VI-B	..	Special Survey Reports on selected towns
Part VI-C	..	Survey Reports on selected villages
Part VII	..	Special Report on Graduates and Technical Personnel
Part VIII-A	..	Administration Report : Enumeration (for official use only)
Part VIII-B	..	Administration Report : Tabulation (for official use only)
Part IX	..	Census Atlas

B—HARYANA GOVERNMENT PUBLICATIONS

Part X .. District Census Handbook for each district in three Parts :—

Part A—Village and Town Directory

Part B—Village and Townwise Primary Census Abstracts

Part C—Analytical Report, Administrative Statistics and District Census Tables

(Parts A and B of the District Census Handbook for each District of Haryana State have been printed in one volume)

PREFACE

The Census of 1971 has come and gone leaving a vast residue of data collected carefully and meticulously on a country-wide basis by an army of trained enumerators. Apart from certain particulars of every individual in our land the Census has also taken care to gather information about a host of other activities—institutions, establishments, services and so on. In other words, an attempt has been made to enumerate citizens in the background of the environment in which they live. Every inch of the country has been mapped and available basic amenities noted. It was a colossal task calling for a gigantic co-operative effort by the administration and the people. Performance in the Indian Census throughout the past century has been creditable and has earned us the appreciation of the world.

For the State of Haryana this is really the first Census and so it is important that the data collected be presented in a quick and comprehensive manner. Difficult enough, as the task of collecting data is, its compilation, tabulation and publication within a reasonably quick time calls for further arduous labour by a united team of dedicated workers. We were fortunate enough to have just such a team. The result is that we have been able to bring out some publications within a few months of the actual Census count.

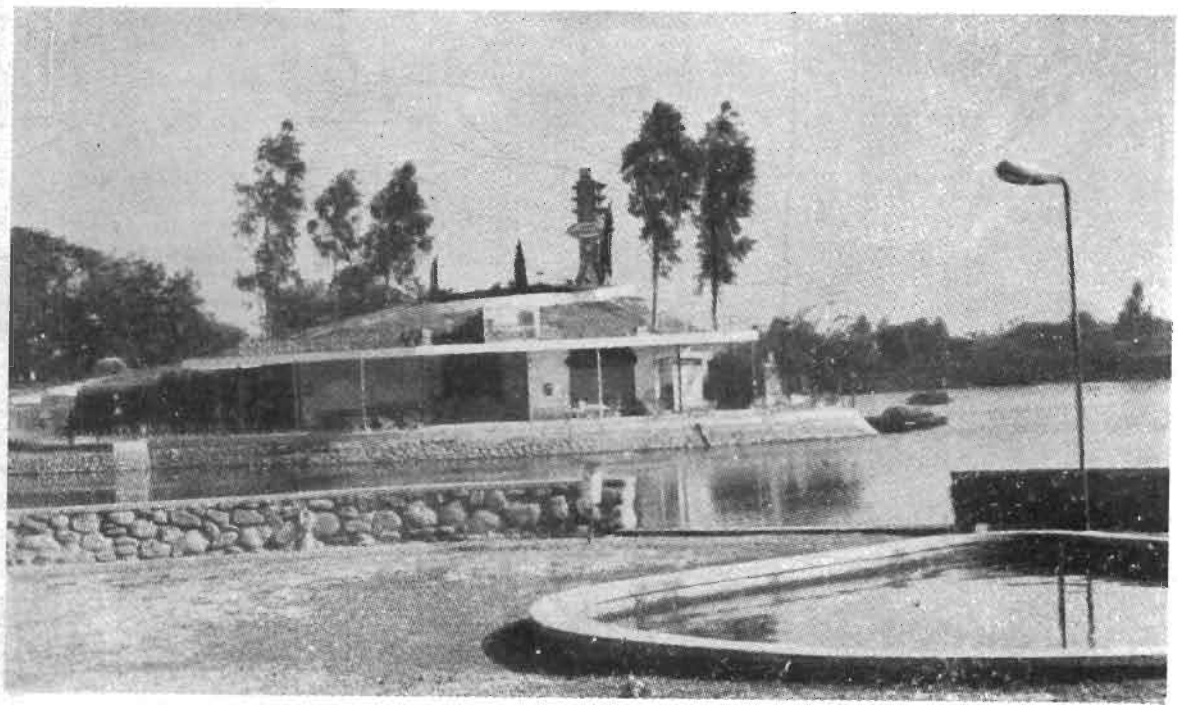

Since the District is still the basic functional unit of administration, the District Census Handbook is of special importance to all concerned with administration policy and planning. It should be of equal value to the scholar, scientist, sociologist and businessman. The data contained in it has been sorted out and presented along lines determined after careful consideration and discussion. All that is of importance in a district is contained in this Handbook. The Town and Village Directories in Part-A contain a wealth of useful information about these units. In Part-B-Village and Townwise Primary Census Abstracts have been given all the basic Census data separately for each village and town in the district. Part-C of the District Census Handbook which would be brought out sometime later would contain an analysis of the various Census data in addition to the administrative statistics and a write-up on the social, cultural, historical and other important aspects of the life of the district.

We owe our success in bringing out this publication to the inspiring leadership of our enthusiastic and zealous Registrar General of India—Shri A. Chandra Sekhar. For him the Census is not merely an administrative exercise but a vital part of existence. In his own words the—"modern Census has become an indispensable instrument of policy and development planning. It need hardly be stressed that a Census is not the mere counting of heads. It is a kind of stock-taking as it were, of the nation's human wealth. The Census aims to present a complete picture of man, in his social, cultural and economic setting."

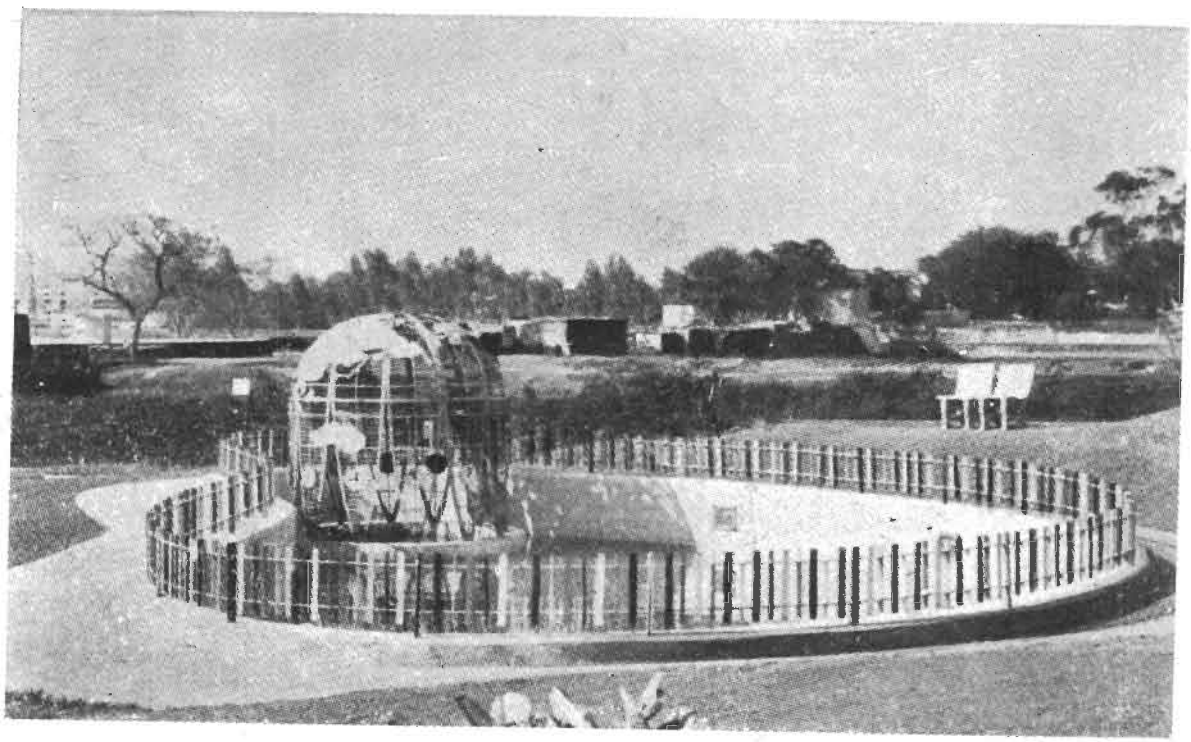

The District Census Handbook attempts to depict in a concise form this variegated phenomenon of human life. We hope it will serve as a popular reference book for all data users.

Dated, Chandigarh :
the 9th December, 1971.

ACKNOWLEDGEMENTS

It is a long arduous process between the actual Census taking and the publication of the various Census Reports. In the State of Haryana, besides the District Census Officers, Sub-Divisional Census Officers, Charge Officers, the Assistant Charge Officers etc. as many as 19,350 odd Enumerators and Supervisors were appointed on the work of actual count in the field. A bulk of the Enumerators and Supervisors were drawn from the Education Department of the State and the remaining from various State/Central Government Departments and from the Urban Local Bodies. They measured up to their responsibilities and performed the work entrusted to them willingly and well. The credit for the completion of this colossal task, involving the canvassing of the Census Schedule called the 'Individual Slip' separately for each single individual found in the State during the enumeration period, on schedule and without any untoward incident goes very largely to them.

The huge mass of data collected in the field by the army of enumerators moving from house to house was processed for the formulation of a large variety of tables at the two Regional Tabulation Offices at Chandigarh and Rohtak with the help of about 500 Sorters/Compiler Checkers/ Supervisors. The Regional Tabulation Office at Rohtak was ably looked after by Shri N.K. Tandon, Deputy Director who was assisted by Shri Janak Raj Vashishtha, Investigator and a few Statistical Assistants including Shri Jaswant Lal. The Regional Tabulation Office, Chandigarh, was controlled by my Deputy Director at Headquarters Shri J.S. Dhamija who was assisted by Shri G.D. Singla, Tabulation Officer and a few Statistical Assistants including Shri Pran Nath Modgil.

The tables prepared at the two Regional Tabulation Offices in a raw form were checked and finalised into Village and Townwise Primary Census Abstracts which form Part 'B' of this Handbook, by Shri J. N. Suri, Tabulation Officer who was assisted by Shri Ajab Lal Kakkar, Statistical Assistant and others.

The data contained in the Village and Townwise Directory which forms Part 'A' of this Handbook was collected by us from the District Revenue Agency and the Urban Local Bodies. We are indebted to them for their co-operation in supplying the required data promptly. In the Head Office the data so supplied was processed and finalised by Shri Kulbhushan Lakhanpal, Tabulation Officer who was assisted by Shri Om Parkash Malik, Statistical Assistant and others.

The maps included in this Handbook were prepared by a team of Cartographers headed by Shri Shiv Rai Puri, Tabulation Officer.

I am also indebted to my Deputy Director Headquarters, Shri J.S. Dhamija, for effectively co-ordinating all this work at various stages and the special efforts made by him in bringing out this Handbook so soon after the Census is over.

I am grateful to Shri Tara Chand, Controller of Printing and Stationery, Haryana, for the ready co-operation extended by him in the printing of this Handbook.

Dated Chandigarh :
the 9th December, 1971.

I. E. N. CHAUHAN,
Director of Census Operations,
Haryana.

INTRODUCTION

In the process of Census taking itself a great deal of interest is generated in the Census data and the uses to which it can be put. The layman, the scholar, the administrator and the planner all naturally seek to have the results of the Census at the earliest possible after the Census Operation. The compilation of the Census data, on the other hand, is a laborious and time-consuming work. Understandably, therefore, it was quite sometime and often five to six years or even more after the Census enumeration, that the data got into print or reached the hands of the users. In fact, by the time it became available to the public at large, it had already become stale and the people had lost interest in it.

2. It was decided at the time of 1951-Census, for the first time, that Census data should be published for individual villages and towns also. The district was considered to be the most manageable and rational unit for the presentation of such data. This is how the publication of the District Census Handbooks was started. However, the 1951-District Census Handbooks by and large gave a skeleton profile of the population of the district as a whole and separately for each of its component villages and towns. There was not much, if at all any, attempt to present a flesh and blood picture of population or of the social and cultural life of the district. As such, while the publication did go quite some way to serve the needs of the scholars, it did not, for obvious reasons, interest the common reader to the same extent.

3. In 1961 a positive effort was made to make the District Census Handbooks more comprehensive by the inclusion therein of the various non-census items of information such as physical features, climate, fauna and flora, places of interest, social and cultural life, a brief history of the district and its administrative machinery. The land use pattern, main crops and irrigation, trade and commerce, industries and communications, in a brief way though, were also encompassed within the scope of the District Census Handbooks, in addition to certain other information relating to rainfall, livestock, education, medical and health as collected from the various Government Departments.

4. This job, however, was a colossal one and there was again a time lag of five to six years before the handbooks could be printed and the data made available to the public. To obviate this delay, therefore, it has been decided this time to publish the District Census Handbooks in three parts. In this way, it was felt, we would be able to reduce the time lag between the compilation of the data and its final publication ; making it possible to release by instalments the data as soon as a specific part thereof had been processed. The three parts into which the District Census Handbooks have been divided are :—

Part-A	Village and Town Directory
Part-B	Village and Town-wise Primary Census Abstracts
Part-C	Analytical Report, Administrative Statistics and District Census Tables

5. Part-A-Village and Town Directory purports to be a directory of the villages and the towns in the district concerned. In it has been given certain basic and vital information separately for each village and town. While the Village Directory presents information *inter-alia* about the total area of the village in acres, availability or otherwise of the various amenities, the staple food of the people of the village and the land use pattern ; the Town Directory, on the other hand, presents data on each town through as many as seven statements, giving the status of the town, the decadal growth of its population, its functional category, certain physical and locational aspects, the state of municipal finances and of civic and other amenities, like medical, educational, recreational, cultural, banking, etc. Tahsil map showing the distribution of educational, medical, postal and water-supply amenities in its villages has been given to precede the Village Directory of the respective tahsil. The map will show at a glance the spatial distribution of the amenities available in the tahsil.

6. The basic Census data are incorporated in Part-B of the District Census Handbook. The Village and Town-wise Primary Census Abstracts, which constitute Part-B of the District Census Handbooks, contain information about the total population and its sex-wise break-up, the sex-wise population of Scheduled Castes and the number of literates separately for the two sexes, and the break-up of the total population into nine Industrial Categories of workers etc. A Tahsil map showing the village

boundaries, the location code numbers of the villages and the size class of their population has been given preceding the Village and Townwise Primary Census Abstracts of each Tahsil.

7. In the Village and Town Directory and the Village and Townwise Primary Census Abstracts, the data have been presented for the villages arranged according to their location code number, given to each village for the purposes of the Census. For the facility of the readers, however, a tahsilwise list of villages as per their alphabetical order has been furnished as an Appendix towards the end of this Handbook.

8. Originally it was intended to publish Parts A & B of the District Census Handbooks separately, as the Village and Town Directory was supposed to be ready soon after the Census Operation. The compilation of the Village and Townwise Primary Census Abstracts constituting Part-B of the District Census Handbook, on the other hand, had necessarily to await sorting of the Individual Slips. It is gratifying, however, that it has been possible to compile and finalise the Village and Townwise Primary Census Abstracts simultaneously with the finalisation of the Village and Town Directory (Part-A), making it possible to publish both Parts A & B of the District Census Handbook together in one Volume. This Book, therefore, contains both Parts 'A' Village and Town Directory and 'B' Village and Townwise Primary Census Abstracts.

9. There would, however, be quite sometime before Part-C of the District Census Handbook could be ready. Part-C of the District Census Handbook is to be devoted to an analysis of the various Census data to be presented through a series of Tables, as follows :—

A Series (General Population Tables—5 in number)
B Series (Economic Tables—9 in number)
C Series (Social and Cultural Tables—8 in number)
D Series (Migration Tables—6 in number)
E Series (Establishment Tables—4 in number)
F Series (Fertility Tables—5 in number)
G Series (Special Tables for Degree Holders and Technical Personnel—12 in number)
H Series (Housing Tables—4 in number)

It would also contain administrative statistics and a write-up on the social, cultural, historical and other important aspects of the life of the concerned district.

10. *Rural-Urban Dichotomy :* As usual, for the Census purposes, the line of division between the 'Rural' and the 'Urban' parts of population has been maintained for the presentation of the data. The 'Village' and the 'Town' are universally recognised as the basic units of habitation. The administration also recognises the division of population into 'Rural' and 'Urban'. In fact, the rural-urban dichotomy is accepted the world over and the Census data are invariably presented separately for the two.

11. Notwithstanding the universality of the rural-urban division of the population, a uniform and precise definition of 'Rural' and 'Urban' remains yet to be evolved, the difficulty in the matter arising from the vastly different conditions prevailing in the various countries of the world. In the context of the general urbanization, there has been such an extension of urban forms in the settlement pattern in some of the advanced countries of the world that the line of division between the two has tended to get more and more blurred. To add to the complexity of the situation, the line between 'Urban' and 'Rural' drawn for the Census purposes, arbitrary as it is, is drawn differently in different countries of the world, invalidating the comparability of the Census data.

12. *Evolution of the 'Village' :* The cities as also the villages are, generally a product of time. To the 'Village' and from the 'Village' to the 'Town' has been an extended process, a process of evolution which though pre-eminently social, was stimulated in a big way by a multiplicity of economic phenomena and factors. The advent of settled agriculture, as against pastoralism or shifting cultivation and the primitive economies of hunting and gathering brought the 'Village' into existence. The corporate existence of individuals underlined the need for a social organisation for controlling and regulating their social life and the village lands. The use of the plough and the improvement of the irrigation techniques, in the course of time, enabled man to produce more than his requirement of food, and thus spare a part of the population from the primary work of food production. The people rendered free from the work of food production could then engage themselves in the production of other goods needed by the food producers. The surplus of food and the lack of self-sufficiency of the food producers in terms of their other needs, provided the stimulus for the establishment of trade. Some villages, thus, developed as centres of exchange, storage and distribution of goods and also of administration.

13. *The Genesis of the 'Town' :* The evolution of the village contained in it the germs for the urban growth at a later stage. The development of transport and the surplus of food generated by a further development of agriculture and agricultural techniques and the extension of the cultivated area, created the conditions for urban growth. Freed from the task of producing the food required for bare existence, the first urban dwellers could engage themselves in professions, trade and in providing other necessities of the food producers, required for making their life more comfortable. The first urban settlements, therefore, were made possible by agricultural increment and its amassment in favoured localities made possible by the development of transport. The growth of the town could also, to some extent, be attributed to religious activity. By and by the responsibility for administering the surrounding tribal areas also came to devolve on the towns which came to serve as the seats of power. The cities thus, became the centres of market and of religious, administrative and political life. The growth of urban centres to population sizes unheard of before, and the increase in their number is a much later development caused by greater technological advancement and necessitated by the massive increase in population.

14. For Census, however, we have been content to separate the population of unit areas which for purposes of administration are regarded as 'Urban' and 'Rural' respectively. Accordingly, in our State all areas except those notified as Municipalities, Cantonment Boards or Notified Area Committees have, broadly speaking, been considered as rural areas. The rural areas, in turn, stand formed into villages, as against the urban areas which are constituted into towns and cities.

15. *The Village Defined :* The definition of the village adopted in our State for the Census, corresponds to the one contained in the Punjab Land Revenue Act, 1887. It is associated with the levy and collection by the Government of the Land Revenue and is, as such, exclusively administrative in character. From this point of view, a village is better called a Revenue Estate, meaning thereby an 'Estate' (a specific and demarcated area of land) marked as such for the purposes of levy/realization of the land revenue. As the land revenue is to be realised from the land holders, it was necessary for the Government to prepare and maintain a separate record of rights of the holders of land for each village. The Revenue Estate or 'Mauza', the name given to the village in the Punjab Land Revenue Act, 1887, has accordingly been defined "as an area of which a separate record of rights is maintained or which has been separately assessed to land revenue or would have been so assessed if the land revenue had not been realized or compounded or redeemed or which the State Government has otherwise declared as an 'Estate'." This definition of village has been adopted for the purposes of the Census ever-since the year 1901. The village, therefore, is not merely the inhabited (*abadi deh*) of a village area but refers to the entire land coming within a fixed boundary. In certain cases, in fact, a village may be uninhabited.

16. There are as many as 7,064 villages in the State of Haryana. These villages are located in 32 tahsils spread over seven districts. The Village Directory, for each district is, therefore, presented tahsil-wise.

17. *Urban Area defined :* The definition adopted at the 1971-Census for an urban area generally follows the one adopted at the 1961-Census and stands to denote :—

(a) All places with a Corporation, Municipality or a Cantonment Board or a Notified Area Committee.

(b) All other places which satisfy the following criteria :—

(i) A minimum population of 5,000.

(ii) 75 per cent of the male working population being engaged in economic pursuits other than agricultural.

(iii) A density of population of at least 400 per sq. km.

18. In Haryana, however, only places with a Municipality or a Cantonment Board or a Notified Area Committee have been treated as towns to the exclusion of all other considerations.

19. *Number of Towns in Haryana :* There are 65 towns in all in the State of Haryana, four more than their number at the time of 1961-Census. The following four places have been added to the list of towns for the first time during the 1971-Census :—

(1) Naraingarh Notified Area Committee (District Ambala)

(2) Jagadhri Workshop Railway Colony Notified Area Committee (District Ambala)

(3) Ganaur, Notified Area Committee (District Rohtak)

(4) Tosham Notified Area Committee (District Hisar).

None of the towns recognised as such at the 1961-Census was declassified during the decade 1961-71.

20. *Classification of Towns :* (i) *By Population :* It is usual to classify the towns according to their population size. For the 1971-Census, the towns have been divided into the following six classes according to their population size :—

I. Population of 100,000 and over
II. Population of 50,000 to 99,999
III. Population of 20,000 to 49,999
IV. Population of 10,000 to 19,999
V. Population of 5,000 to 9,999
VI. Population of less than 5,000.

A town with a population of 100,000 and over is termed a 'City'.

21. (ii) *By functional category :* Apart from the classification of towns according to their population size, the towns are also categorised according to their functional class. For the purposes of functional classification, the towns have been divided according to the following five main functions as performed by their population :—

(i) Primary Activities (cultivation, agricultural labour, mining and quarrying, livestock, forestry, fishing, hunting and plantations, orchards and allied activities) ;

(ii) Industrial (household industry, manufacturing other than household industry, and construction) ;
(iii) Trade and Commerce ;
(iv) Transport (transport, storage and communications) ; and
(v) Services (other services).

22. It is seldom that a town performs only one function to the absolute exclusion of all other functions. The functional classification has, therefore, been done on the basis of the percentage of workers of a particular category to the total workers in the above said five classes of economic activity, the predominant percentage value determining the functional character of the town. In case, workers under any one of the industrial categories are at least 40 per cent of the total working force in the town, the town has been considered as mono-functional, e.g., an Industrial town or a Commercial town. If, however, the percentage figure is less than 40, the next predominant function has been taken into account and in case the total of both the functions works out to 60 per cent or above of the total working force, the town is designated as bi-functional, e.g., Industrial-cum-Service town or Commercial-cum-Transport town. On the other hand, if the total of the two predominant functions does not work upto 60 per cent, then the third predominant function is taken into account and such a town is designated as multi-functional, e.g., Industrial-cum-Service-cum-Transport town and so on. In the case of bi-functional or multi-functional towns, the functions have been arranged in order of their predominance.

23. *Concept of Standard Urban Area :* A new concept that has been adopted at the 1971-Census for the tabulation of certain urban data is that of Standard Urban Area. The essentials of a Standard Urban Area are :—

(i) that there should be a core town with a minimum population size of 50,000 ;

(ii) that the contiguous areas made up of other urban as well as rural administrative units should have close mutual socio-economic links with the core town ; and

(iii) that the probabilities are that the contiguous area in question will get fully urbanised in a period of 2 to 3 decades.

24. *Standard Urban Areas vis-a-vis the Town Group Concept :* Thus, the Standard Urban Area concept would make it possible to present comparable data for a fixed area for three/four consecutive censuses and enable presentation of a meaningful picture about the growth of the towns. The concept of Standard Urban Area has replaced that of the 'Town Group' which was adopted at the 1961-Census.

A 'Town Group' was made up of independent urban units not necessarily contiguous to one another but which were to some extent inter-dependent. The 'Town Group' concept very soon became the target of criticism. It was rightly felt that the data for such Town Groups would become incomparable from Census to Census as the boundaries of the towns themselves underwent change and as the intermediate areas lying between the towns forming the 'Town Group' had been left out of account.

25. *Standard Urban Areas in Haryana :* Standard Urban Areas have been delimited in respect of towns with a population of 50,000 and above only as it was thought that smaller towns would not have any or much significant impact beyond their boundaries. A Standard Urban Area consists of the whole town and non-municipal area of the villages falling on the periphery of the town and which holds out prospects of being urbanised during the next two to three decades. In the case of Haryana, Standard Urban Areas have been delimited for the following 11 towns :—

1. Ambala
2. Bahadurgarh
3. Bhiwani
4. Faridabad-Ballabgarh Complex
5. Gurgaon
6. Hisar
7. Karnal
8. Panipat
9. Rohtak
10. Sonepat
11. Yamunanagar-Jagadhri

Although Bahadurgarh does not have a population of 50,000, it has been delimited as a Standard Urban Area considering its importance as a developing Industrial town lying close to the National Capital of New Delhi.

26. *Urban Agglomerations :* It is a matter of common observation that around most of the core or statutory towns come up fairly large and well recognised Railway Colonies, University Campuses, Military Camps etc. Although such out-growths are outside the statutory limits of a Corporation or a Municipality or a Cantonment Board, they usually fall within the revenue boundary of the place by which the town itself is known. It may not, therefore, be realistic to treat such areas as rural units. At the same time, each such individual area by itself may not satisfy the minimum population limit to qualify for being treated as an urban area. Such areas, therefore, would deserve to be reckoned alongwith the main town and be treated as an integrated urban area. Such out-growths alongwith the core town for the 1971-Census have been called Urban Agglomerations. In Haryana, however, none of the places satisfied the qualifications for being treated as an Urban Agglomeration. Even otherwise, with a view to maintain comparability of the 1971 data with the past census returns, it was not considered desirable to recognise any such Urban Agglomeration.

27. *The District of Ambala :* So much, then, for some of the important general, conceptual and definitional aspects. In the present Volume are contained Part A—Village and Town Directory; and Part B—Village and Town-wise Primary Census Abstracts of the District Census Handbook, Ambala.

28. The district of Ambala is one of the seven districts in the State of Haryana, which emerged as a new State on the 1st of November, 1966, as a result of the re-organisation of the composite State of Punjab. Although Ambala was a district in the former Punjab, its physiognomy underwent a considerable change in the process of the reorganisation of the State. In fact, Ambala is one of the two districts, the other being the Sangrur District of Punjab, which lost huge chunks of territory, as a result, so to speak, of the divisive 'fall-out'. Ambala district lost the entire tahsil of Rupar and a major part of tahsil Kharar to Punjab. Nalagarh Tahsil, on the other hand, got merged with the Bilaspur district of Himachal Pradesh. In addition, Chandigarh with some surrounding rural area which also formed part of District Ambala before 1966 has been carved out as a new Union Territory, serving as the capital of the two new States of Haryana and Punjab as also of its own. 154 villages of tahsil Kharar which continued to form part of District Ambala after the re-organisation of the composite Punjab State, now comprise Kalka tahsil of the district.

29. Ambala district lies between 27° 39′ 52″ to 30° 54′ 45″ North latitude and 74° 33′ 53″ to 76° 36′ 52″ East longitude. It is bounded by River Jamuna and across it by the Saharanpur District of Uttar Pradesh to the south-east. To its south lies District Karnal while in its west is situated District Patiala of Punjab. Rupar District of Punjab lies to its north-west, and the Shiwalik

hills bound it in the north-east. The total area of the district is 3,735.57 sq. km. This area is less by 2,221.94 sq. km. as compared to the area of the district as it was constituted before the re-organisation of the State of Punjab.

30. The district comprises the following four tahsils :—

1. Kalka ;
2. Naraingarh ;
3. Ambala ; and
4. Jagadhri.

Ambala and Kalka tahsils together form Ambala Sub-Division, with its headquarters at Ambala. Jagadhri and Naraingarh, on the other hand, are Sub-Divisions by themselves. There are as many as 1,306 villages in the district and their distribution into the four tahsils is as under :—

Name of tahsil	Number of Villages
Kalka	154
Naraingarh	334
Ambala	325
Jagadhri	493

31. The following are the 10 towns in the district :—

1. Kalka	Tahsil Kalka
2. Naraingarh 3. Sadaura	Tahsil Naraingarh
4. Ambala 5. Ambala Cantonment	Tahsil Ambala
6. Chhachhrauli 7. Buria 8. Jagadhri 9. Yamunanagar 10. Jagadhri Workshop Railway Colony	Tahsil Jagadhri

Jagadhri Workshop Railway Colony and Naraingarh have been treated as towns for the first time at the 1971-Census.

32. *Part 'A' District Census Handbook : Village Directory :* Historically, as pointed out above, the 'Village' is prior to the 'Town'. In this book, therefore, the Village Directory precedes the Town Directory. The Village Directory provides certain basic and vital information separately about each village, the villages being arranged tahsil-wise, and within the tahsil location code-wise (each village, as usual, had been given a Code Number for purposes of identification at the time of the Census enumeration).

33. The Directory furnishes information about the total area of the village in acres (column 3) ; t provides information as to the availability or otherwise of the amenities like, educational, medical, power supply, drinking water, communications and post and telegraph (columns 4 to 9). In column 10 of the Directory is indicated the staple food of the people of the village. The area under different types of land use, such as, the area under forest ; the area under cultivation (irrigated and unirrigated area being shown separately and the source of irrigation with respect to the irrigated area being shown along-side) ; cultivable waste, i.e., the land lying waste at present but which could be brought under cultivation ; and the area which could not be available for cultivation has been given in acres rounded to the nearest unit in columns 11 to 15 of the Directory. It also gives information about the nearest town to the village and the distance thereof in km. (column 16). It is common knowledge that mandis are held on fixed days in some of the villages for the sale and purchase of the goods produced in the local area. Column 17 of the Directory provides information on such mandis, if any, and the day/days on which the same are held in a particular village. In the last (Remarks) column of the Directory have been indicated the places of religious, historical and archaeological interest, the age of such places being shown within brackets alongside their names.

34. The abbreviations used under different columns in the preparation of the Village Directory together with what these stand for are indicated below :—

Column No. 4

Pr. S.	.. Primary School
Mid. S.	.. Middle School
Sec. S.	.. High or Higher Secondary School
Trn. S.	.. Training School
Ind. S.	.. Industrial School
C.	.. College

Column No. 5

D.	.. Dispensary
Mp.	.. Private Medical Practitioner
H.	.. Hospital
HC.	.. Health Centre
FC.	.. Family Planning Centre
MCW.	.. Maternity & Child Welfare Centre
VH	.. Veterinary Hospital

Column No. 6

E.	.. Power Supply

Column No. 7

W.	.. Well

T.	.. Total Irrigated area
W.	.. Well with or without electricity
TK.	.. Tank
C.	.. Canal
TW.	.. Tube-well
W & TW	.. Well and Tube-well
O.	.. Others

35. The data presented in the Village Directory has been collected from the District/Tahsil Revenue Agency, mostly through correspondence, and has not been processed in any great detail except for the removal of internal inconsistencies wherever there were any. Although Village Directory of each district was included in the Census Handbook of the concerned District in 1961, and even in 1951, contents thereof were confined by and large to the Census data and a few amenities. It is for the first time that information in great detail as mentioned above has been provided in the Village Directory. The scope of the amenities has also been extended to some

extent by the inclusion of information on the communications facility in the village. It is hoped that the Village Directory in the form it is being presented this time would go a long way in providing information about the placing of the village in its setting and stimulate a study of the individual village communities and help in discerning the inter-play of the various forces that influence the life of the villagers.

36. The following Table gives the number of villages separately for each class of villages grouped according to their area. The number of villages in each size class of area has been shown for the district as a whole and for each tahsil separately.

TABLE NO. 1

Area Upto	District/Tahsil	No. of Villages
50 Acres or less	**District**	**4**
	Tahsil Kalka	..
	Tahsil Naraingarh	1
	Tahsil Ambala	1
	Tahsil Jagadhri	2
51—100 Acres	**District**	**23**
	Tahsil Kalka	13
	Tahsil Naraingarh	2
	Tahsil Ambala	3
	Tahsil Jagadhri	5
101—200 Acres	**District**	**109**
	Tahsil Kalka	31
	Tahsil Naraingarh	25
	Tahsil Ambala	14
	Tahsil Jagadhri	39
201—500 Acres	**District**	**516**
	Tahsil Kalka	68
	Tahsil Naraingarh	120
	Tahsil Ambala	123
	Tahsil Jagadhri	205
501—1000 Acres	**District**	**448**
	Tahsil Kalka	33
	Tahsil Naraingarh	133
	Tahsil Ambala	109
	Tahsil Jagadhri	173
1001—2000 Acres	**District**	**155**
	Tahsil Kalka	7
	Tahsil Naraingarh	38
	Tahsil Ambala	58
	Tahsil Jagadhri	52
2001—5000 Acres	**District**	**48**
	Tahsil Kalka	2
	Tahsil Naraingarh	15
	Tahsil Ambala	16
	Tahsil Jagadhri	15
5001 Acres and above	**District**	**3**
	Tahsil Kalka	..
	Tahsil Naraingarh	..
	Tahsil Ambala	1
	Tahsil Jagadhri	2

It will be seen from the above Table that villages in the two classes, viz., those having area from 201 to 500 acres and those having 501 to 1,000 acres form nearly 74 per cent of the total number of villages in the district. On the other hand, the number of villages in the size class of area more than 5,000 acres is only 3, one in Tahsil Ambala and two in Tahsil Jagadhri. The district, in fact, comprises mostly of small villages. The average size of a village in the district works out to 706.4 acres. The sub-mountainous character of a big part of the district (Kalka and Naraingarh Tahsils and a part of Jagadhri Tahsil) and the existence of a number of seasonal torrents (*chos*) may perhaps account for the predominance of the villages of small size. The fact that in Kalka and Naraingarh tahsils which are sub-mountainous and have the majority of *chos* running through them, the villages in the area size of 201 to 1,000 acres predominate, goes to support this conclusion. The smaller villages in Jagadhri Tahsil are also clustered near the foot of the hills.

37. In the Table below is indicated the distribution of the villages with reference to their distance from the nearest town for the district as a whole and separately for each of the four tahsils. For this purpose again, the villages have been distributed as per their area size class.

TABLE NO. 2

Distance from the nearest town	District/Tahsil	Number of villages according to the area sizes						
		Upto 50 Acres	51—100 Acres	101—500 Acres	501—2000 Acres	2001—5000 Acres	5001 Acres & above	Total No.of villages
5 Km. or less ..	**District**	**3**	**8**	**163**	**113**	**7**	**1**	**295**
	Tahsil Kalka	..	4	25	7	1	..	37

	Tahsil Ambala	..	..	39	61	1	..	101
	Tahsil Jagadhri	1	1	57	50	6	2	117
26—50 Km. ..	**District**	..	..	**42**	**44**	**4**	..	**90**
	Tahsil Kalka	..	..	4	2	..	..	6
	Tahsil Naraingarh	..	..	16	14	1	..	31
	Tahsil Ambala	..	..	18	19	2	..	39
	Tahsil Jagadhri	..	..	4	9	1	..	14
Total ..	**District**	**4**	**23**	**625**	**603**	**48**	**3**	**1,306**
	Tahsil Kalka	..	13	99	40	2	..	154
	Tahsil Naraingarh	1	2	145	171	15	..	334
	Tahsil Ambala	1	3	137	167	16	1	325
	Tahsil Jagadhri	2	5	244	225	15	2	493

38. A glance through the above Table would show that out of a total of 1,306 villages as many as 630 villages, i.e., 48 per cent of the total lie within a distance of less than 10 km. from the nearest town. The number of villages at a distance of 11 to 25 km. is 586, i.e. nearly 45 per cent of their total number. Together the number of villages within a distance of less than 25 km. would come to 1,216, i.e., 93 per cent of the total. Only 90, i.e., 7 per cent of the total number of villages lie at a distance of more than 25 km. from the nearest town.

39. The position of the educational facilities for the district as a whole and their distribution over each of the four tahsils in the district is presented in the following Table.

TABLE NO. 3

Distance from the nearest town	District/Tahsil	Total No. of villages	Number of Villages having				
			Primary School	Middle School	High or Higher Secondary School	College	Others*
5 Km. or less ..	**District**	**295**	**116**	**15**	**6**	..	**5**

	Tahsil Naraingarh	31	15	1	3	..	..
	Tahsil Ambala	39	24	5	2	..	..
	Tahsil Jagadhri	14	5	1	..	..	..
Total ..	**District**	**1,306**	**557**	**70**	**55**	..	**13**
	Tahsil Kalka	154	44	5	7	..	2
	Tahsil Naraingarh	334	141	19	13	..	4
	Tahsil Ambala	325	193	27	18	..	3
	Tahsil Jagadhri	493	179	19	17	..	4

In the above table, a village having a Primary School as well as a Middle and/or High School or any other combination of such schools, have been accounted for more than once. However, a village having more than one school of the same standard, has been accounted for once under the respective column of the Table.

*Others include I.T.Is., Craft Schools, Training Schools, etc.

40. From Table No. 3 it will be seen that as many as 557 out of 1,306 villages i.e., nearly 43 per cent enjoy the facility of a Primary School. The total number of Primary Schools in the rural areas of the district is 567. It is also clear that the distance from the nearest town does not have any bearing on the availability or otherwise of educational facilities in the villages. In fact, the educational facilities are almost evenly distributed all over the district regardless of the distance factor. None of the villages in the District has a College.

41. The Middle Schools are 13 per cent of the total number of Primary Schools. The percentage of High/Higher Secondary Schools to Primary Schools works out to 10. There are 72 Middle Schools as against 62 High and Higher Secondary Schools. The district also has 14 Training/Industrial Institutions which are almost evenly spread over its four tahsils.

42. The position of availability of Medical facilities in the district as a whole and in each of its four tahsils is represented by the following Table.

TABLE NO. 4

MEDICAL FACILITIES

District/Tahsil	Total Area* (in Sq. Km.)	Total No. of Medical Institutions of all kinds	No. of Medical Institutions of all kinds, per 100 sq. km.
District	**3,735.57**	**126**	**3**
Tahsil Kalka	262.89	13	5
Tahsil Naraingarh	1,145.51	36	3
Tahsil Ambala	1,027.45	34	3
Tahsil Jagadhri	1,299.72	43	3

*Total Area as per the Director of Land Records, Haryana.

In the last column of the above table has been shown the number of Medical Institutions of all kinds per 100 sq. km., which works out to 3, and these are almost evenly distributed over all the four tahsils of the district.

43. All the villages in Haryana have since been electrified. The position of drinking water-supply, however, is far from satisfactory. In the Table appearing on the next page has been presented the distribution of the villages according to their source of water-supply, cross classified by their distance from the nearest town. The information has been given for the district as a whole and for each tahsil.

44. The Table nos. 6 and 7 appearing at page 13 and 14 respectively depict the state of communications and the position of the availability of Postal facilities in the district as a whole and in each of the four tahsils separately.

*Others include a combination of one or more sources of communication other than the combination mentioned in Cols. 6 to 13.

TABLE NO. 7

POSTAL FACILITIES IN THE RURAL AREAS

District/Tahsil	Total Area* (in sq.km.)	Total No. of Post Offices	No. of Post Offices per 100 sq. km.
District	**3,735.57**	**161**	**4**
Tahsil Kalka	262.89	10	4
Tahsil Naraingarh	1,145.51	48	4
Tahsil Ambala	1,027.45	59	6
Tahsil Jagadhri	1,299.72	44	3

*Total Area as per Director of Land Record, Haryana.

45. The Table No. 8 below gives the percentage of cultivable waste, the villages being classified with reference to their distance from the nearest town. Here again, the position for the district as a whole and separately for each tahsil has been shown.

TABLE NO. 8

Distance from the nearest Town	District/Tahsil	No. of Villages	Average percentage of cultivable waste
5 Km. or less ..	**District**	**295**	**8.17**
	Tahsil Kalka	37	4.26
	Tahsil Naraingarh	74	6.85
	Tahsil Ambala	66	16.66
	Tahsil Jagadhri	118	3.94
6—10 Km. ..	**District**	**335**	**4.15**
	Tahsil Kalka	70	2.28
	Tahsil Naraingarh	75	6.54
	Tahsil Ambala	54	4.02
	Tahsil Jagadhri	136	3.18
11—15 Km. ..	**District**	**273**	**6.01**
	Tahsil Kalka	27	3.51
	Tahsil Naraingarh	73	6.13
	Tahsil Ambala	65	3.26
	Tahsil Jagadhri	108	8.56
16—25 Km. ..	**District**	**313**	**4.59**
	Tahsil Kalka	14	3.94
	Tahsil Naraingarh	81	6.51
	Tahsil Ambala	101	4.41
	Tahsil Jagadhri	117	3.64
26—50 Km. ..	**District**	**90**	**5.89**
	Tahsil Kalka	6	0.00
	Tahsil Naraingarh	31	7.62
	Tahsil Ambala	39	2.75
	Tahsil Jagadhri	14	11.69
Total ..	**District**	**1,306**	**5.57**
	Tahsil Kalka	154	2.97
	Tahsil Naraingarh	334	6.59
	Tahsil Ambala	325	6.13
	Tahsil Jagadhri	493	4.90

It is surprising that the percentage of cultivable waste among the villages lying within a distance of 5 km. from the nearest town works out to be the highest, i.e. 8.17 per cent as against 4.15 per cent among the villages at a distance of 6 to 10 km., 6.01 per cent among the villages at a distance of 11—15 km., 4.59 per cent among the villages at a distance of 16 to 25.km. and 5,89 per cent for the villages at a distance of 26 to 50 km. from the nearest town. The percentage of cultivable waste for the villages at a distance of 5 km. or less from the nearest town is higher even as compared to 5.57 per cent calculated for the total number of villages in the district as a whole. Normally, one should expect the cultivable waste to increase with the increase in the distance of the villages from the nearest town as the lands lying near to the towns call for more intensive cultivation. The picture, however, becomes different if the cultivable waste of 6,256 acres in the case of Ambala Cantonment Revenue Estate alone were to be excluded from the total cultivable waste of 7,694 acres for the class of villages lying within 5 km. of the nearest town. The average percentage of cultivable waste per village in that case works out to only 3.11 which makes the position quite explainable.

46. The percentage of land under forest per village for the district as a whole works out to 3.82 per cent as is seen from the following Table.

TABLE NO. 9

Distance from the nearest Town	District/Tahsil	Total No. of Villages	Average percentage of land under forest
5 Km. or less ..	**District**	**295**	**0.77**
	Tahsil Kalka	37	0.37
	Tahsil Naraingarh	74	1.70
	Tahsil Ambala	66	0.00
	Tahsil Jagadhri	118	0.84
6—10 Km. ..	**District**	**335**	**1.10**
	Tahsil Kalka	70	1.87
	Tahsil Naraingarh	75	2.61
	Tahsil Ambala	54	0.00
	Tahsil Jagadhri	136	0.36
11—15 Km. ..	**District**	**273**	**1.77**
	Tahsil Kalka	27	2.81
	Tahsil Naraingarh	73	1.97
	Tahsil Ambala	65	0.33
	Tahsil Jagadhri	108	2.58
16—25 Km. ..	**District**	**313**	**9.95**
	Tahsil Kalka	14	10.34
	Tahsil Naraingarh	81	0.33
	Tahsil Ambala	101	0.22
	Tahsil Jagadhri	117	23.32
26—50 Km. ..	**District**	**90**	**4.72**
	Tahsil Kalka	6	0.00
	Tahsil Naraingarh	31	9.63
	Tahsil Ambala	39	0.00
	Tahsil Jagadhri	14	8.52
Total ..	**District**	**1,306**	**3.82**
	Tahsil Kalka	154	2.13
	Tahsil Naraingarh	334	2.38
	Tahsil Ambala	325	0.14
	Tahsil Jagadhri	493	8.10

The highest percentage of land under forest of 8.10 per cent is claimed by tahsil Jagadhri. Ambala tahsil, on the other hand, has the lowest average percentage of land under forest of 0.14 per cent. The high percentage of land under forest for Jagadhri tahsil is largely on account of Kalesar forest on the foot-hills included in the Jagadhri tahsil. The percentage of land under forest in the case of Naraingarh tahsil works out to 2.38 only. It would bear mention that Naraingarh tahsil has an unsurveyed area of 53,054 acres of land. As such, while on the one hand the total tahsil area has been inflated by the inclusion therein of 53,054 acres, the same has not been reckoned in the area under various land uses. This naturally has lowered the percentages of the area under different land uses.

47. The percentage of irrigated area to total cultivated area for the district as a whole works out to 16.34, as shown in the Table below :—

TABLE NO. 10

Distance from the nearest Town	District / Tahsil	No. of Villages	Average percentage of irrigated land to total cultivated land
5 Km. or less ..	**District**	**295**	**21.39**
	Tahsil Kalka	37	15.39
	Tahsil Naraingarh	74	15.47
	Tahsil Ambala	66	11.56
	Tahsil Jagadhri	118	31.82
6—10 Km. ..	**District**	**335**	**16.44**
	Tahsil Kalka	70	24.28
	Tahsil Naraingar .	75	11.26
	Tahsil Ambala	54	13.79
	Tahsil Jagadhri	36	19.34
11—15 Km. ..	**District**	**273**	**13.03**
	Tahsil Kalka	27	26.50
	Tahsil Naraingarh	73	3.29
	Tahsil Ambala	65	15.68
	Tahsil Jagadhri	108	16.44
16—25 Km. ..	**District**	**313**	**13.39**
	Tahsil Kalka	14	14.18
	Tahsil Naraingarh	81	6.78
	Tahsil Ambala	101	18.12
	Tahsil Jagadhri	117	12.51
26—50 Km. ..	**District**	**90**	**23.05**
	Tahsil Kalka	6	14.48
	Tahsil Naraingarh	31	8.60
	Tahsil Ambala	39	36.64
	Tahsil Jagadhri	14	1.26
Total ..	**District**	**1,306**	**16.34**
	Tahsil Kalka	154	21.97
	Tahsil Naraingarh	334	8.85
	Tahsil Ambala	325	18.02
	Tahsil Jagadhri	493	19.32

As against the total cultivated area of 625,880 acres, only 102,252 acres have the facility of irrigation. Surprisingly, the percentage of irrigated area to the cultivated area is the highest in the case of tahsil Kalka. Tahsil Naraingarh, on the other hand, has the lowest percentage of irrigated area to cultivated area. Compared to the percentage of irrigated area for the district as a whole, tahsil Jagadhri also comes up fairly high claiming 19.32 per cent of the total cultivated area. As against the total cultivated area of 220,326 acres 42,564 acres enjoy the facility of irrigation in tahsil Jagadhri. In absolute terms, therefore, the irrigated area alone of tahsil Jagadhri is more than even the total cultivated area of tahsil Kalka, i.e., 35,551 acres. The irrigated area in tahsil Kalka, on the other hand, comes to only 7,812 acres.

48. *Town Directory :* There are 10 towns in the district. The various data on each town has been presented through as many as seven Statements. Statement Nos. I to VI have been compiled from the information supplied by the concerned local bodies. Statement No. VII relating to the distribution of sexwise population of the towns by Religion has been prepared on the basis of the data collected during the 1971-Census.

49. Statement-I gives the status of the town i.e., whether it is a Corporation, a Municipal Committee, a Cantonment Board or a Notified Area Committee and indicates the decadal population since the year 1901. In case a town did not have urban status at the time of any of the decennial censuses, a dash (—) has been put in the column under the heading "Population of the Town at the Census of". In the case of towns which lost their urban status at the time of one or more censuses, the entry "Declassified" would be found to have been made in this column. In column 14 of this statement has been indicated the functional category of each town based on the 1961-Census returns. The following Table gives the number and names of towns, distributed according to their functional category :—

Functional Category	Number (names) of Towns
Services	1 (Ambala Cantt.)
Services-cum-Industry	2 (Ambala and Chhachhrauli)
Industry	2 (Yamunanagar & Jagadhri)
Transport	1 (Kalka)
Industry-cum-Services-cum-Primary activities	1 (Sadaura)
Primary activities-cum-Industry-cum-Services	1 (Buria)

50. Statement-II gives the physical and locational aspects of the various towns in the district. All the towns of Ambala District lie in the plains except Kalka, which lies at the foot of Simla Hills and serves as a gate-way to the well-known hill resort of Simla and to the rest of Himachal Pradesh.

51. Naraingarh Notified Area Committee receives the highest annual rainfall of 103 cms, and Jagadhri town the lowest of 60 cms. Although the rainfall data for the towns of Buria, Chhachhrauli, Jagadhri Workshop Railway Colony and Yamunanagar are not available, rainfall for these towns which lie in close proximity to Jagadhri, could be considered the same as for Jagadhri town. Similarly, annual rainfall at Sadaura and Naraingarh may be the same as both of them lie very near to each other. The information with regard to the maximum and minimum temperature for the towns is not available. Ambala experienced the maximum temperature of 44.4C° in June, 1969 and the minimum temperature of 1.8C° in December, 1969.

52. Statement-III presents the state of Municipal finances as during the financial year 1968-69 (1st April, 1968 to 31st March, 1969). The total income from the various sources and the expenditure on different items have been indicated in Rs.'00'.

The following Table provides the per capita income and expenditure of the Municipalities by the size class of the towns :—

Class of Town	No. and name of towns	Per Capita						
		Receipt			*Expenditure*			
		Total receipt	Receipt through taxes etc.	Receipt from all other sources	Total Expenditure	Public Institutions	Public Health and conveniences	All other aspects
Class-I 100,000 & over	1 (Ambala Cantt.)	28	18	10	29	3	14	12
Class-II 50,000—99,999	2 (Ambala & Yamunanagar)	33	21	12	35	1	14	20
Class-III 20,000—49,999	1 (Jagadhri)	21	18	3	20	..	10	10
Class-IV 10,000—19,999	1 (Kalka)	18	12	6	18	3	5	10
Class-V 5,000—9,999	4 (Sadaura, Jagadhri Workshop Railway Colony, Naraingarh & Chhachhrauli)	8	6	2	8	..	1	7
Class-VI Below 5,000	1 (Buria)	6	4	2	7	..	2	5

It is interesting to note that the per capita income for the municipalities of towns of Class-II works out to Rs. 33 whereas the same for the only Class-I town in the district namely, Ambala Cantonment is Rs. 28. Buria the only Class -VI town in the district has a per capita receipt of barely Rs. 6. The figures of per capita expenditure also make an interesting reading. Evidently, Class-I, Class-II and Class-VI towns are living beyond their means, although the deficit is not, in any way, substantial. The per capita expenditure of only Class-III town, viz., Jagadhri on the other hand, is less than the per capita receipt.

53. In Statement-IV has been presented the state of civic and other amenities as in the year 1969. The amenities covered are the roads, the system of sewerage and drainage, the source and quantity of drinking water-supply, the existence or otherwise of fire fighting services and the number of electric connections separately under domestic, industrial and commercial uses as also the number of street light points. The method of removal of night-soil and the number of public latrines of different types, viz., 'water borne', 'service' and 'others' have also been given. The abbreviations used in this Statement are as under :—

PR	..	Pucca Road
KR	..	Kucha Road
OSD	..	Open Surface Drains
HL	..	Head Load
WB	..	Wheel Barrows
ST	..	Septic Tank Latrines
S	..	Sewer
TW	..	Tubewell Water
T	..	Tap Water
W	..	Well Water
Hp	..	Hand Pump

It is disappointing to see that none of the towns in the district has as yet under-ground sewerage facility. The evil practice of carriage of night-soil as headload continues to persist in as many as half the number of towns, notwithstanding the efforts being made by the Government and the Municipalities to put an end thereto.

54. The position of water-supply is also far from satisfactory. The following table would provide a comparison of the actual water-supply per capita with the desired water-supply per capita as per the Indian Standard Institution's Code of Water-Supply Requirements :—

Name of Town	Total Population	Total water-supply per day (in gallons)	Water-supply per capita per day (in gallons)	Water-supply per capita as per the I.S.I. Code of Water-Supply Requirements	
				In the case of towns with Sewerage	In the case of towns without Sewerage
Ambala	83,633	1,300,000	16		
Ambala Cantt.	102,493	1,700,000	17		
Buria	4,645	..	..		
Chhachhrauli	5,382	..	..		
Jagadhri	35,094	520,000	15		
Jagadhri Workshop Railway Colony	7,332	N.A.	..	40	25
Kalka	17,711	200,000	11		
Naraingarh	6,880	..	..		
Sadaura	8,971	..	..		
Yamunanagar	72,594	2,041,000	28		

55. Statement-V depicts the position of medical, educational, recreational and cultural facilities separately for each town in the district, reference year being 1969. Under the heading medical facilities has been shown the number separately of Hospitals/Dispensaries, T.B. Clinics/Health Centres/ Nursing Homes. The total number of patient beds available in all the medical institutions in each town has also been indicated. As for the educational facilities, information has been given separately for the number of Arts/Science/Commerce Colleges, Medical/Engineering Colleges, Polytechnics, Higher Secondary or Secondary/Junior Secondary or Middle/Primary Schools and even recognised Shorthand, Type-writing and other Vocational Training Institutions. Under the heading recreational facilities are indicated the number of stadia, cinemas, auditoria and public libraries including reading rooms. Abbreviations used in the preparation of this Statement are explained as under :—

H	..	Hospital	A	..	Arts College
D	..	Dispensary	AS	..	Arts and Science College
HC	..	Health Centre	ASC	..	Arts, Science and Commerce College
TBC	..	T.B. Clinic	CE	..	College of Education
VH	..	Veterinary Hospital			

Four out of the ten towns, viz., (1) Buria (2) Chhachhrauli (3) Jagadhri Workshop Railway Colony, and (4) Naraingarh, do not have the facility of either an Arts, Science or a Commerce College. Although Kalka also did not have any College, in 1969 (the reference year), it has now an

Arts College. On the other hand, none of the towns in the district has either a Medical College or an Engineering College. Ambala, however, does have a Polytechnic as also an Industrial Training Institution. Naraingarh and Yamunanagar also have one Industrial Training Institution each.

56. The following Table gives the number of beds per 1,000 population for the various towns :—

Sl. No.	Name of Town	Total No. of beds	Population	No. of beds per 1,000 Population
1	Ambala	300	83,633	4
2	Ambala Cantt.	720	102,493	7
3	Buria	..	4,645	..
4	Chhachhrauli	13	5,382	2
5	Jagadhri	80	35,094	2
6	Jagadhri Workshop Railway Colony	28	7,332	4
7	Kalka	18	17,711	1
8	Naraingarh	50	6,880	7
9	Sadaura	8	8,971	1
10	Yamunanagar	50	72,594	1

Surprisingly, Naraingarh Notified Area Committee with a population of 6,880 has 7 beds per 1,000 persons thereby claiming equality with Ambala Cantt. Buria with a population of 4,645 on the other hand is without any Hospital/Health Centre or even a Dispensary.

57. The following Table gives the number of Higher Secondary, Middle and Primary Schools separately for each of the towns vis-a-vis their population :—

Sl. No.	Name of Town	Population	Number of Schools		
			Higher Secondary or Secondary	Middle	Primary
1	Ambala	83,633	8	..	16
2	Ambala Cantt.	102,493	14	..	25
3	Buria	4,645	2	1	1
4	Chhachhrauli	5,382	2	..	3
5	Jagadhri	35,094	2	3	12
6	Jagadhri Workshop Railway Colony	7,332	1	..	1
7	Kalka	17,711	3	4	6
8	Naraingarh	6,880	2	..	1
9	Sadaura	8,971	2	1	2
10	Yamunanagar	72,594	5	1	8

58. Statement-VI shows the extent of banking facilities,including the number of Agricultural Credit Societies and the number of Non-Agricultural Credit Societies, in each of the towns. In so far as the trade, commerce and industry aspects of the towns are concerned, information has been given on the three most important commodities imported/exported and the three most important commodities manufactured. It may be noted here that Yamunanagar has come to establish itself as a big industrial town in the district. It has a number of big industrial units manufacturing sugar, starch and chemicals and paper (the mill is owned by the House of Thapars). Lying in close proximity of the hills and River Jamuna and situated on the bank of the Western Jamuna Canal, it also possesses a position of vantage and has developed into the biggest timber market of Haryana. Jagadhri town is famous for its brass utensils industry, though declining due to scarcity of raw material on the one hand and increasing popularity of utensils made from stainless steel on the other. The towns of Ambala and Ambala Cantt. have established a reputation for the manufacture of scientific goods and instruments. These instruments are exported not only to other States in the Country but also to the countries abroad. Surajpur and Pinjore have not been treated as towns and as such information about them is not contained in the various Statements. However, the former is known for the manufacture of cement (Bhupindra Cement Works) and the latter is notable for its Hindustan Machine Tools Factory, which is a Government of India undertaking. The machines manufactured at the Hindustan Machine Tools Factory at Pinjore are exported to the countries abroad.

59. Statement No. VII gives the distribution of sexwise population by Religion for the ten towns in the district.

60. *Part 'B' Village and Townwise Primary Census Abstracts :* As the title itself suggests, the Village and Townwise Census Abstracts have been presented within the District Tahsilwise, and within the tahsil for each village and for each town separately. Preceding the Village and Townwise Primary Census Abstracts, however, Primary Census Abstract for the district as a whole and for each tahsil comprised therein has been presented. In the district and tahsil Primary Census Abstracts, 'T' stands for Total population, and 'R' and 'U' for the Rural and Urban parts thereof respectively.

61. Although for the purpose of census enumeration, the villages had been divided, on the basis of their population, into 'Enumeration Blocks' consisting of approximately 750 persons each, data of population in the case of villages have not been given 'enumeration blockwise' but for the village as a whole. In the case of towns, on the other hand, data have been provided for individual enumeration blocks within a ward. The enumeration blocks in towns were formed on the basis of a population roughly of 600 persons. Naturally, the total of the population of the enumeration blocks in a ward would give the latter's population. The information relating to the population and its characteristics presented in columns from 6 to 38 of the Primary Census Abstracts has been given sexwise, i.e., separately for Males (M) and Females (F).

62. The contents of the Primary Census Abstracts and the concepts, if any, connected therewith are discussed columnwise as under :—

Column 1 (Location Code Number).—In this column is indicated the Location Code Number of the village/town. For the purposes of the Census, every district, tahsil, village and town had been given a Location Code Number for facility of its identification. The said Location Code Number, therefore, has been indicated in this column.

Column 2 (Name of Village/Town/Ward/Urban Enumerator's Block).—As pointed out above, the Primary Census Abstracts have been presented villagewise and in the case of towns, Ward/Urban Enumerator's Blockwise. As is well-known, every town stands divided into a number of wards, most on the basis of their electoral strength.

Column 3 (Area of village in acres and of towns in sq. km.).— Does not call for any explanation.

Column 4 (Occupied Residential Houses). —In this column has been given the total number of Census Houses used for residential purposes. The question naturally arises, as to what is a Census House ? A Census House is a building or a part of a building having a separate entrance from a common courtyard or a stair-case, etc., used or recognised as a separate unit. It may be inhabited or vacant. It may be used for a residential or a non-residential purpose or for both. In this column, however, has been given the number only of those Census Houses which at the time of enumeration were being actually used for residential purposes.

Column 5 (Number of Households).—A Household is a group of persons who commonly live together and take their meals from a common kitchen unless the exigencies of work prevent them from doing so. It may be made up of related or unrelated persons. A cook or a servant living in the house of his employer and taking his food there, is to be considered as a member of the Household. Similarly, a hotel where a number of unrelated persons live together has been treated as an 'Institutional Household'.

Columns 6,7 & 8 (Total Population including Institutional and Houseless population).—Under this heading information has been provided about the total population (column 6 'P' for Persons) and separately for Males (M-column 7) and Females (F-column 8). It may be necessary to explain here as to what is meant by 'Institutional Population' and 'Houseless Population'. By 'Institutional Population' is meant the number of inmates of institutions like the Blind and Deaf and Dumb Schools, Orphanages, Lunatic Asylums, Jails, etc. By the Houseless Population is meant the number of persons who have no house to live in, and spend the night on foot-paths etc.

Columns 9 & 10 (Scheduled Castes).—In these columns has been given separately for Males (M) and Females (F) the population of Scheduled Castes. Only those Castes which are included in the list of Scheduled Castes recognised by the Presidential Order for the State of Haryana, have been reckoned as such for the purposes of Census. It may be understood that there is a separate list of Scheduled Castes for each State and that a Caste recognised as Scheduled Caste in one State may not necessarily be recognised as a Scheduled Caste in the other State.

Columns 11 & 12 (Scheduled Tribes). —As none of the Scheduled Tribes had been recognised as such by the Presidential Order for the State of Haryana, the information with respect thereto has been considered as nil.

Columns 13 & 14 (Number of Literates & Educated Persons).—In these columns has been indicated the number of Literates and Educated Persons separately for the Males and the Females. It would be necessary here to explain that for the purposes of Census, only a person who can both read and write with understanding in any language has been considered 'Literate'. Evidently, a person who can merely read but cannot write has not been treated as Literate. It is not necessary, however, that a person who is literate should have received any formal education or should have passed any minimum educational standard. Children below the age of 5 years even if they could both read and write have not been considered literate as such. Children could not be considered to have developed the required 'understanding'.

63. In columns 15 to 36 of the Primary Census Abstracts has been provided information with regard to the number of workers and their distribution into 9 Industrial Categories as per the Code of National Industrial Classification.

Columns 15 & 16 (Total Workers).—These two columns give the number separately of male and female workers, falling in any of the 9 Industrial Categories. A question may perhaps be asked as to who for the purposes of Census has been treated as a 'Worker' ? Before defining the term 'Worker', it is necessary to explain the concept of main activity adopted for the 1971-Census for the first time. By main activity is meant, as to how a person engages himself mostly. From the point of view of main activity, therefore, the population got divided into two broad categories, viz., 'Workers' and 'Non-Workers'. Only those persons, therefore , who participated in any economically productive work as their main activity, have been treated as 'Workers'. On the other hand, a person who for most of his time was engaged in any economically non-productive work has, from the point of view of main activity, been considered as a 'Non-Worker'. If, however , such a person was also engaged in some economically productive activity on a part-time basis or for only a small fraction of his time, he has been reckoned as a 'Secondary Worker' for his contribution to economic activity. As he has not been treated as worker for his main activity, the number of total workers provided in cols. 15 &16 of the Primary Census Abstracts does not account for him. Such a person, on the other hand, has been counted among the non-workers.

64. A worker, therefore, is a person whose main activity is participation in any economically productive work by his physical or mental activity. Work involves not only actual work but effective supervision and direction of work as well.

Columns 17 & 18 (Cultivators).—In these two columns has been given the number of Male and Female workers whose main activity is Cultivation. For the purposes of the Census, a person engaged in cultivation by himself or by supervision or direction in his capacity as the owner or lessee of land held from Government or as a tenant of land held from a private person or an institution for payment

in money, kind or share, has been recorded as a cultivator. Cultivation, however, does not include fruit-growing, vegetable-growing or keeping orchards or groves or working on plantations like tea, coffee, rubber, cinchona and other medicinal plantations. It may also be made clear that a person who merely owns land but has given out land to another person for cultivation, for money, kind or share of crop and who does not even supervise or direct cultivation of land, has not been treated as a cultivator or even as a worker unless he is engaged in some economically productive work. Similarly, a person working in another person's land for wages in cash, kind or share, has not been treated as a cultivator but as an 'Agricultural Labourer'.

Columns 19 & 20 (Agricultural Labourers).— In these columns have been given the number of Agricultural Labourers separately for males and females. An Agricultural Labourer is a person who works in another person's land for wages in money, kind or share. Such a person, evidently, has no risk in cultivation and merely works in another person's land for wages. The labourer could have no right of lease or contract on land on which he works.

Columns 21 & 22 (Livestock, Forestry, Fishing, Hunting & Plantations, Orchards & Allied activities).—Does not call for any explanation.

Columns 23 & 24 (Mining and Quarrying).—Does not call for any explanation.

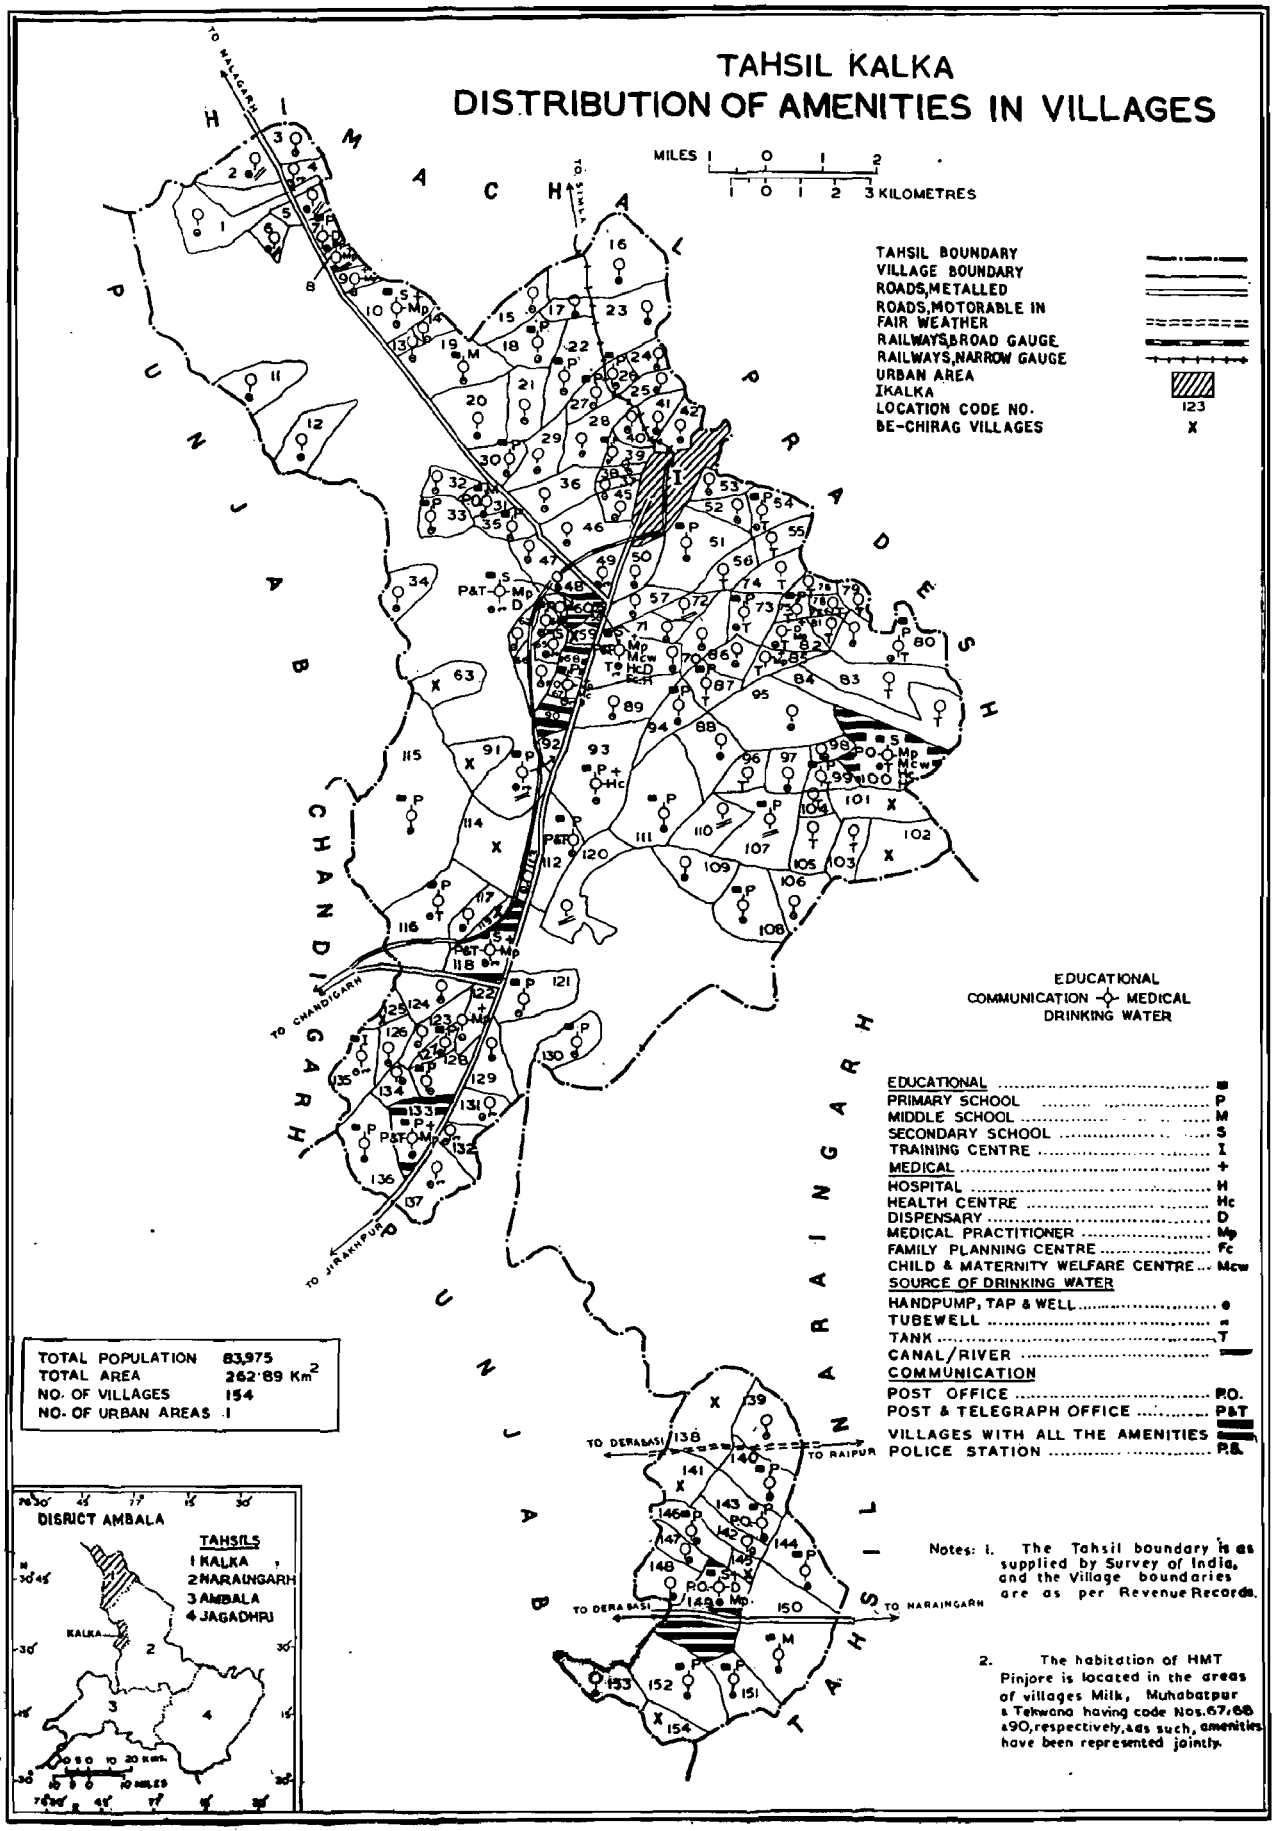

Columns 25,26,27 & 28 (Manufacturing, Processing, Servicing, and Repairs).— The workers under this category have been further sub-divided into (a) Household Industry (columns 25 & 26) and (b) Manufacturing other than Household Industry (columns 27 & 28). What is a Household Industry ? For the purposes of Census, Household Industry has been defined as 'an industry conducted by the head of the household himself/herself and/or mainly by the members of the household at home or within the village in rural areas and only within the premises of the house where the household lives in urban areas. Household Industry should necessarily be run on a small scale. A factory run on the scale of a registered factory has not been considered as 'Household Industry'. All other workers engaged in manufacturing, processing, servicing and repairs where such activities are not carried on the scale of 'Household Industry' have been included in the sub-category (b) 'Other than Household Industry'.

Columns 29 & 30 (Construction), 31 & 32 (Trade & Commerce), 33 & 34 (Transport, Storage and Communications).—The Industrial Categories mentioned in these columns are self-explanatory and do not call for any comments.

Columns 35 & 36 (Other Services).—In these columns have been given separately for males and females the figures of workers engaged in 'Other Services'. In the category 'Other Services' are included the Government servants, the municipal employees, the doctors, the teachers, the political, social and religious workers, etc. In fact, all types of economic activities carried on as a profession, not covered by the remaining 8 categories, have been covered under this category.

Columns 37 & 38 (Non-Workers).—In these columns have been given separately the number of non-workers for males and females. A non-worker is a person who as his main activity is not engaged in any economically productive work but is basically non-working. The non-workers constitute those engaged in Household Duties, Students, Retired Persons or Rentiers, Dependents, Beggars Inmates of Institutions and Other Non-Workers. One may start wondering as to what are Othe Non-Workers ? In this category are included all those persons who are not covered by any of the othe non-working categories but who are seeking employment. The other non-workers, therefore, stand fo those persons who though wanting work, have not been able to get any employment.

TAHSIL KALKA
DISTRIBUTION OF AMENITIES IN VILLAGES

Notes: 1. The Tahsil boundary is as supplied by Survey of India, and the Village boundaries are as per Revenue Records.

2. The habitation of HMT Pinjore is located in the areas of villages Milk, Muhabatpur & Tekwana having code Nos. 67, 68 & 90, respectively, & as such, amenities have been represented jointly.

*These represent 'geographical area' figures (provisional) supplied by the Surveyor General. Figures for urban area are those supplied by the local bodies. Area figures for rural area are derived by substracting the urban area from the total area of the district. The total of the area figures of the tahsils will not tally with the district figures because the former represent 'land use' area and are derived from the figures supplied by the Director of Land Records.

STATEMENTS SHOWING THE COMPOSITION OF ENUMERATORS' BLOCKS FOR EACH TOWN

KALKA TOWN

Ward No.	Enumerator's Block No. and its jurisdiction	
	Block No.	House Nos. included in the Block
1	2	3
I	1	House No. 1 to 150
	2	House No. 151 to 214
	3	House No. 215 to 337
	4	House No. 338 to 431
	5	House No. 432 to 560
II	6	House No. 561 to 700
	7	House No. 701 to 765
III	8	House No. 766 to 877
	9	House No. 878 to 981
	10	House No. 982 to 1129
	11	House No. 1130 to 1200
IV	12	House No. 1201 to 1338
	13	House No. 1339 to 1467
V	14	House No. 1468 to 1600
	15	House No. 1601 to 1737
VI	16	House No. 1738 to 1921
	17	House No. 1922 to 2104
VII	18	House No. 2105 to 2250
	19	House No. 2251 to 2400
	20	House No. 2401 to 2543
VIII	21	House No. 2544 to 2730
	22	House No. 2731 to 2920
IX	23	House No. 2921 to 3050
	24	House No. 3051 to 3185
X	25	House No. 3186 to 3225
	26	House No. 3226 to 3268
	27	House No. 3269 to 3308
XI	28	House No. 3309 to 3410
	29	House No. 3411 to 3520
	30	House No. 3521 to 3617

NARAINGARH TOWN

Ward No.	Enumerator's Block No. and its jurisdiction	
	Block No.	House Nos. included in the Block
1	2	3
	1	House No. 1 to 104
	2	House No. 105 to 300
	3	House No. 301 to 421
	4	House No. 422 to 600
	5	House No. 601 to 751
	6	House No. 752 to 900
	7	House No. 901 to 1039
	8	House No. 1040 to 1200
	9	House No. 1201 to 1393
	10	House No. 1394 to 1500
	11	House No. 1501 to 1675

SADAURA TOWN

Ward No.	Enumerator's Block No. and its jurisdiction	
	Block No.	House Nos. included in the Block
1	2	3
I	1	House No. 1 to 127
	2	House No. 128 to 205
II	3	House No. 1 to 128
III	4	House No. 1 to 254
IV	5	House No. 1 to 171/1
V	6	House No. 1 to 69
	7	House No. 70 to 232/6
VI	8	House No. 1 to 294/2

Ward No.	Enumerator's Block No. and its jurisdiction	
	Block No.	House Nos. included in the Block
1	2	3
VII	9	House No. 1 to 129
	10	House No. 130 to 220
VIII	11	House No. 1 to 175/1
IX	12	House No. 1 to 196
X	13	House No. 1 to 188
XI	14	House No. 189 to 360

AMBALA TOWN

Ward No.	Enumerator's Block No. and its jurisdiction	
	Block No.	House Nos. included in the Block
1	2	3
I	1	Block No. 1 House No. 77 to 234, 582 to 655
