Section I Village Directory :	I—385

Note explaining the codes used in the Village Directory (3), Majuli P.S.— Alphabetical list of villages (7). Amenities and land used (12); Jorhat P.S.- Alphabetical list of villages (37), Amenities and land used (40), Teok P.S.— Alphabetical list of villages (66), Amenities and land used (70); Mariani P.S.— Alphabetical list of villages (94), Amenities and land used (96); Titabar P.S.— Alphabetical list of villages (109) Amenities and land used (112); Amguri P.S.— Alphabetical list of villages (136), Amenities and land used (138): Nazira P.S.— Alphabetical list of villages (154), Amenities and land used (158), Sibsagar P.S.- Alphabetical list of villages (179) Amenities and land used (182); Demow P.S.— Alphabetical list of villages (199) Amenities and land used (202); Moranhat P.S.— Alphabetical list of villages (220), Amenities and land used (222); Sonari P.S.— Alphabetical list of villages (236), Amenities and land used (238); Borhat P.S.— Alphabetical list of villages (252), Amenities and land used (254); Bokakhat P.S.— Alphbetical list of villages (264), Amenities and land used (266), Dergaon P.S.— Alphabetical list of villages (276), Amenities and land used (278), Golaghat P.S.— Alphabetical list of Villages (293), Amenities and land used (300) Sarupathar P.S.— Alphabetical list of villages (346), Amenities and land used (352).

Appendix I	386—390

Police Station wise Abstract of Educational, Medical and other amenities

Appendix II	
Appendix III	391—410

Police Station wise list of villages where no amenities other than drinking water are available.

Section II Town Directory	411—428

[Key to the codes used for the entries in the Town Directory (413), Statement I— Status and Growth History (416), Statement II— Physical Aspects and Location of Town, 1979 (418), Statement III Muinicipal Finance 1978-79 (420), Statement IV—Civic and other amenities 1979, (422) Statement V—Medical, Educational, Recreational and cultural facilities, 1979 (424) Statement — VI Trade Commerce, Industry and Banking, 1979 (426).

FOREWORD

The District Census Handbook (DCH), compiled by the Census Organisation on behalf of the State Governments, is one of the most Valuable products of the Census. The DCH is constantly referred to by planners, administrators, academicians and researchers. It is *inter alia* used for delimitation of constituencies, formulation of local level and regional plans and as an aid to District administration. It provides useful data on infrastructure and amenities in villages and towns.

The District Census Handbook series was initiated during the 1951 Census. It contained important census tables and PCA for each village and town of the district. During 1961 Census the scope of the DCH was enlarged and it contained a descriptive account of the district, administrative statistics, census tables and a village and town directory, including PCA. The 1971 DCH Series was planned in three parts. Part-A related to village and town directory, Part-B to village and town PCA and Part-C comprised analytical report, administrative statistics, district census tables and certain analytical tables based on PCA and amenity data in respect of villages. However, in some states Part-C was confined to district census tables and in a few cases altogether given up due to delay in compilation and printing.

While designing the format of 1981 DCH series some new features along with the restructuring of the format of village and town directory have been attempted. At the same time, comparability with the 1971 data has also been kept in view. All the amenities except power supply in the village have been brought together in the village directory with the instruction that in case an amenity is not available in the referrent village the distance in broad ranges from the nearest place where the amenity is available may be given. The restructuring of the format of the village directory and incorporating more exhaustive data on infrastructure aspect particularly in relation to amenities and land-use pattern is expected to further meet the need of micro level planning for rural area. It is expected to help not only in local area planning but regulating the provision of goods and services as well as to minimise the regional imbalances in the process of development A few now items of the information have also been introduced to meet some of the requirements of the Revised Minimum Needs programme. Such new items of information as adult literacy centres primary health sub-centres, and community health workers in the village have been introduced in the village directory with this objective in mind. The new iteme on approach to the village is to have an idea about the villages in the district which are inaccessible.

The formats of the town directory have also been modified to meet the requirements of the Minimum Needs Programme by providing information on a few new items. A new statement on civic and other amenities in slums in class-I and class-II towns (Statement IV-A) has been introduced with this objective in mind. It is expected that this will help the planners to chalk out programmes on provision of civic amenities for the improvement of slums.

Since the 1981 Census could not be conducted in Assam, only Part-A containing village and town directory is being published for the State. Further, even in part-A some of innovations introduced in the 1981 DCH series in other States which were based on census data have been dropped. At the beginning of the village and town directory an analytical note supported by inset tables based on noncensus data in relation to the infrastructure has been introduced to make it more useful. The district and police-station level maps depicting the boundaries and other important features have been inserted at appropriate places to enhance the utility of the publication.

This publication is a joint venture of the State Government and the Census organisation. The data have been collected and compiled in the State under the direction of Shri N. K. Choudhury, IAS, the Director of Census Operations, Assam on behalf of the State Government which has borne the cost of printing. The task of planning, designing and co-ordination of this publication was carried out by Dr. N.G. Nag, Deputy Registrar General (Social Studies) of my office. Dr B.K. Roy, Deputy Registrar General (Map), provided the technical guidance in the preparation of the maps. Data received from Census Directorates have been scrutinised in the Social Studies Division at the headquarters under the guidance of Shri M. M. Dua, Senior Research Officer. I am thankful to all who have contributed in this project.

New Delhi
2nd September, 1983.

P. PADMANABHA
Registrar General, India.

PREFACE

The District Census Handbook (DCH) which constitutes one of most important census publications, made its first appearance in 1951 and was immediately acclaimed by a large section of academicians, administrators, planners, policy-makers, researchers scholars and many non-governmental agencies.

The form of DCH has undergone considerable changes since 1951 to accomodate more and more information as demanded by the actual users of the handbooks.

The 1981 Census publication programme envisaged publication of DCH in two parts. Part A related to village and Town Directory and Part B to General Population Tables, Village & Town wise Primary Census Abstract (PCA) and PCA for scheduled Castes and scheduled Tribes.

Since the 1981 Census could not be conducted in Assam we have to restrict publication of our DCH to part A only. Further, even in part A, some of innovations introduced in the 1981 DCH based on Census data could not be incorporated.

The data presented in this volume had been collected and compiled under the guidance of Shri N. K. Choudhury, who was Director of Census Operations, Assam till January, 1983. The tables and statements have been prepared by a team of dedicated workers in this office who have worked whole heartedly on the job. Shri N. Bhattacharjee, Assistant Director (T) besides being in overall charge of supervision has prepared the analytical note in which he was ably assisted by Shri S. K. Bora and Shri S. K. Baruah, Investigator of this Directorate. Shri S. K. Baruah, Investigator has rendered yeoman's service in all stages of production of this handbook. We are grateful to Dr. N. G. Nag, the then Deputy Registrar General (Socia Studies) India for all the assistance we received from him in preparation of the tables and statements.

Above all, we are deeply indebted to Shri Padmanabha, Ex-Registrar General, India and Shri V. S. Verma, present Registrar General, India for their unfailing guidance and constant inspriration in bringing out this publication.

Guwahati
December 1, 1989.

J. C. Bhuyan.
Deputy Director of Census Operations,
Assam.

ANALYTICAL NOTE

Concepts :

Though the 1981 Census could not be conducted in Assam, the census concepts as adopted in other parts of the country are discussed in the following paragraphs.

Rural and Urban Areas :

The classification of the population of a country as rural and urban at a census is a well-recognised dichotomy all over the world. But in view of varying conditions between country to country it has not been found possible to have a uniform definition that can be universally applicable to all the countries

The basic unit for rural areas in 1981 Census of India is the revenue village which has definite surveyed boundaries. The revenue village may comprise several hamlets but the entire village is treated as one unit for presentation of data. In unsurveyed villages within forest or hilly areas each habitation area with locally recognised boundaries is treated as one unit.

Urban areas are specially defined for census purposes. In the 1981 census, the same criteria as adopted in 1961 and 1971 censuses are adopted with minor variation. Urban areas in the 1981 census are :

(a) All places with a municipality, corporation, cantonment board or notified town area,

(b) All other places which satisfied the following criteria :

(i) A minimum population of 5,000;

(ii) At least 75% of the male working population engaged in non-agricultural (and allied) economic pursuit;

(iii) A density of population of at least 400 per square kilometre (1,000 per square mile).

The urban criterion of 1981 varies slightly from that of 1961 and 1971 censuses in that the males working in activities such as fishing, hunting, logging etc. were treated as engaged in non-agricultural activity during those censuses, whereas in 1981 census

these activities are treated as on par with cultivation and agricultural labour, i.e agricultural activity for the purpose of this criterion.

Apart from the oriteria enunciated above, the Directors of Census Operations were given some discretion in respect of some marginal cases to include, in consultation with State Government, some places that had other distinct urban characteristics and also to exclude certain areas which can no longer be treated as urban according to 1981 criteria.

Census House :

A Census House is a building or part of a building having a separate main entrance from the road or common courtyard or staircase, etc., used or recognised as a separate unit. It may be occupied or vacant. It may be used for a residential or non-residential purpose or both.

Household :

A household is a group of persons who commonly live together and would take their meals from a common kitchen unless the exigencies of circumstances prevented any of them from doing so. There may be a household of persons related by blood or a household of unrelated persons or having a mix of both. Examples of unrelated households are boarding houses, messes, hostels, residential hotels, rescue homes, jails, ashrams, etc. These are called "Institutional Households." There may be one member households, 2 member households or multi-member households. For census purposes, each of these types is regarded as a household.

Scheduled Castes and Scheduled Tribes :

The lists of Scheduled Castes and Scheduled Tribes were notified for the first time under the Constitution (Scheduled-Castes) order, 1950. and the Constifution (Scheduled Tribes) order, 1950 These lists have been modified or amended or supplemented from time to time. On the reorganisation of the States the Scheduled Castes and Scheduled Tribes (Modification) order came into force from October 29, 1956. Thereafter, a few orders specifying Scheduled Castes/Tribes in respect of a few individual states also came into force.

Literate :

A person who can both read and write with understanding in any language is taken as literate. A person who can merely read but cannot write, is not a literate. It is not necessary that a person who is literate should have received any formal education or should have passed any minimum educational standard.

Main worker :

Main worker is a person whose main activity is participation in any economically

productive work for at least 183 days or more during one year preceding the date of enumeration considered as the reference period. Such participation may be physical or mental in nature. Work involves not only actual participation in work but also effective supervision and direction of work.

Marginal Worker :

Marginal Worker is a person who has been participating in some work during the preceding one year but such participation is only marginal and not for the major part of the year.

Non-Worker :

Non-Worker is a person who has never done any work during the last one year prior to the date of enumeration. Non-workers are divided into seven categories. The symbols which have been used to indicate these categories are given against each category.

(i)	Household duties	=	H
(ii)	Students	=	S
(iii)	Dependents	=	D
(iv)	Retired persons or rentiers	=	R
(v)	Beggars, etc.	=	B
(vi)	Inmates of institution	=	I
(vii)	Other non-workers		

Early History of the District :

This can very well be assumed that before the advent of the Bodos or Boros practically no records of the Sibsagar district can be traced. Scholars are of the opinion that the great Bodo tribe of Sino-Tibetan orgin had settled fairly early over the valley of Brahmaputra and Some Austric and possibly also Dravidian tribes had preceded the Mongoloid Bodos in this tract It is with the Bodos that the early history of Sibsagar is concerned and not with the legendary princes of Hindu mythology.

It is recorded in the Tantras that Sibsagar formed a part of the great kingdom of Pragjyotisa — Kamrupa, whose eastern boundary extended up to the river Dikhou, particularly during the time of Varman rulers of Assam of atleast the 7th-8th century. This political status seems to have continued till the Hindu dynasty declined and different small principalities were established by the Barabhuyans and the Bodo chiefs begining with the 12th century A.D. or a little earlier.

Short History of the Kacharis :

Kacharis belonging to the Great Bodo tribe can be said to be the original autochthons of Assam. When the curtain rises for the drama of modern history, we

find a large part of the Sibsagar district under the dominion of the Kachari king of Dimapur. Even we found them not only in the valley of the Brahmaputra but also in the Garo Hills and in Hill Tippera far away to the south. These Kacharis are thought to be a section of Indo-Chinese race whose headquarters are said to have been located in inaccessible hills and valleys and they seem to have spread to the state of Assam. In early history of Kamrupa it is depicted that "these later Mongolians belong to the Tibeto-Barman family of Indo-Chinese group and their representatives of the present day are the Kacharis, Koches, Rabhas, Meches, Mikirs, Lalungs, Garos, Nagas, Kukis and Chutiyas of these the tribes speaking the Bodo or Boro Language seem to have occupied the plains of Assam for a very long time."

Captain Fisher was of the opinion that "the Bodo gradually accquired an empire over Assam, Shylhet, Mymensing and the valleys to the east of the Brahmaputra their origin being at Kamrupa" (Kachari Buranji by Dr. S.K Bhuyan). Thus it is seen that the major part of Assam and North-East Bengal formed a great Bodo kingdom.

In the District Gazetter of Sibsagar by Mr. B. C. Allen it is mentioned that the History of Kachari in Sibsagar is vague and fragmentary for "they have left no annals of their males." But in the history written by Ahom historians that was just reverse as there are sufficient materials about their rules.

In the History of Assam it is stated that the Kachari kingdom was founded by Manik and his son-in-law Rukata. The famous king of this dynesty was Bichapati Pha or Vikramaditya Pha who extended his territory up to Namchang and Borhat of the present Sibsagar Sub-division. When the Ahom invaded and conquered Assam in the early part of the 13th century i.e., in 1228 A.D. they came in conflict with the then powerful Kacharis. A major conflict took place when the Kacharis invaded the Ahom territory in 1490 A.D. on the bank of the river Dikhou which appears to have formed the boundary between the two nations for a long time. In this battle the Ahoms were defeated and were forced to plea for peace. But during the next thirty years the Ahoms had thrust the Kachari boundary back to the Dhansiri river. In the year 1535 A.D. war between the Ahoms and kacharis broke out again and the Ahom king Suhungmung who was popularly known as Dihingia Raja advanced up to the valley of Dhansiri, killed Kachari Raja Detchung and sacked his capital Dimapur. As a result of this the capital was removed to Maibong in N.C. Hills District and from there again to Khaspur to the South of Barail and the subsequent history of the Kacharis has little or no connection with the District of Sibsagar.

Short History of the Chutiyas :

The Chutiyas, the other section of the Bodo tribe, at the time of advent of the Ahoms shared with the Kacharis the sovereignty of the Sibsagar district. Sir Edward Gait is of the opinion that "The Kacharis are believed to be very closely allied to the Koches and also, so far atleast as language is concerned to the Chutiyas". According to Coll Daeton the Chutiyas were originally settled in the hilly regions near Subansiri river and entered the plains through north east. This tribe lived in large independent villages like the Abors and Miris of the present day. In course of time at about 1189 A.D. one Birpal or Birahar had attained a certain measure of supremacy over certain villages and established a small state on the North East of Assam. The process begun by Birpal was carried on by his son Gaurinarayan or Ratnadhwajpal. He extended his influence over the wild tribes, brought under subjection all the Chutiyas living in different Hills of the area, assumed the title Lord of Hills and descended in to the valley of Brahmaputra. There he defeated king Bhadrasen and founded a capital called Ratnapur which is said to have been situated in Majuli. Gaur was at that time still under the rule of a Hindu dynesty so the eruption of the Chutiyas must have taken place prior to its conquest by the Mahmmadan in 1204 A.D. The Chutiya king contracted on alliance with a neighbouring king called Nayapal and consolidated his power. But to many historians expedition of Kamata Gaon by Ratna-dhwaspal is very doubtful. As the saying goes Ratnadhwaspal visited the king of Gaur and left his son to be educated at the court of Gaur. Unfortunately the prince expired there and his body was sent to his father who at that time was busy in constructing a city near Kundil river. He received the dead body of his son and named the city as Sadiya (the place where the corpse was handed over) to commemorate the death of his son.

Ratnadhwas was succeeded by nine kings. The last king named Dharmadhwas Pal had one daughter named Sadhani. Dharmadhwas gave his daughter in marriage to a poor young Chutia boy. After marriage the old king resigned in favour of his son-in law, who assumed the name of Nitipal. Naturally enough he was quite unfit for this high royal position, and as a result of wich the kingdom was soon reduced to a state of anarchy and confusion. The Ahom seized this opportunity to push home their attacks. In or about 1523 A.D. during the reign of Suhungmung or Dihingia Raja the Ahom generals Koncheng and Frachengmung subjugated the Chutia Kingdom and thus ended the rule of Chutiya dynesty.

Short History of the Ahoms :

After the Chutiyas and the Kacharis is time to turn to the History of the Ahoms,

the fierce and war like tribe of Shans, who call themselves Tai. They were a branch of the great Tai race of East Asia. They migrated to upper Burma in the valley of Nam Mao during the six century A.D. From there they spread south east and north wards into the Irrawady valley.

During 1228 A.D. a Tai prince called Chao-Sukapha entered in eastern Assam by crossing the Patkai Hills from Upper Burma and starting from the smallest gradually subjugated the whole of the valley of the Brahmaputra as far as the Manas. On his way he defeated the Nagas, conquered a foothold which soon expanded into a small kingdom the capital of which was built on the Charaideo Hills.

Sukapha, the first Ahom king when arrived in 1228 AD found the Chutiyas rulling in the north with an out post at Safrai and the Kacharis in the south with an out post at Kenduguri. In a narrow strip of territory near the Hills there were a few families of Morans and Barahis, evidently of Bodo origin whom the Ahom Chief easily absorbed into his clan. Sukapha won over to his side Badancha & Thakumtha the two local Matak and Barahi chief respectively and encouraged intermarriage with these people. The Matak chief helped Sukapha in conquering the neighbouring hostile tribes.

Robinson's Descriptive Accounts of 1841 says that Sukapha was the first to assume for himself and his people the name Ahom (the peerless) and to give the name Assam to the country where they ruled.

After Sukapha twelve of the successor, though they ruled the Ahom kingdom, many of them were mere names and nothing more and of their reign little or nothing of interest is known. On the whole it seems to have been a cruel and trecherous time.

Sargadeo Suhungmung who was popularly known as Dihingia Raja was the 14th Ahom king who ruled from 1497 to 1539 A.D. as a most powerful king. The reign of this monarch according to Dr. S. K. Bhuyan in his history of Assam "witnesses the marked expansion of Ahom power accompanied by the establishment in some degree of its sphere of influence in Bengal and even in Orissa. In the Imperial Gazetteer of India it is stated that, "his reign is memorable not only for the extermination of the Chutiyas and the Kacharis rule from the valley of the Brahmaputra, and the acknowledgement of his supremacy 'by the Koch king Biswa Singha, but also for the repulse of the Mohamedan expeditions. The Sultan of Gaur being unable to resist on expedition from Ahom king negotiated for peace by offering two of his daughters to the Ahom king and a number of paragonas as dowry. The peace was concluded and the Ahom general constructed a small brick temple and excavated a tank on the bank of Korotoya, as a

memorial of their victory. Thus under Suhungmung the Ahom kingdom reached its greatest expansion and Kamrup and Kamata were liberated from Muslim dominion. Suhungmung met his tragic ends in the hands of an assassin and was succeeded by Suklengmung in the year 1539 who is said to have found a capital at Gargaon near present day Nazira. During his tenure hostility between the Ahoms and the Koches brokes out in which Koches were completely annihilated.

Suklengmung was succeeded by Sukhampha popularly known as Khora Raja, who enjoyed the throne for long forty one years. During his tenure Koch king Naranarayan and his warrior brother Chilarai invaded the Ahom kingdom which the Ahom king was unable to withstand. Gargaon fell in the hands of the Koches and the Ahom king fled to the Naga Hills. The triumph of the Koches was short lived and about 1614 A.D. Balinarayan, brother of Naranarayan sought help of the next Ahom king Suchengpha or Pratap Singha against attack of Muhammadans. In 1637 the Nawab of Dacca sent an overwhelming force and the Ahoms were driven out of Kamrupa and a treaty was made in A.D. 1639 under which Barnadi was treated as frontier between the Muhammadan and Ahom Territory. His reign was notable for development of backward areas, construction of roads, forts, ramparts and tanks and also reorganization of villages.

In the year 1648 Sutamla or Jayadhwas Singha ascended the throne of Ahom kingdom. During his tenure Hindu influence grew in the Ahom court. He established many shrines of the Vaishnava cult and took sramana (saran) from a Brahman preacher. Mir Jumla who was appointed Nawab of Dacca by Emperor Aurangzeb attacked the Ahom Kingdom in the year 1662. No resistance could be offered to the Muhammadan at the initial stage of their march and as a result of which they occupied the forts at Jagighopa, Saraighat, Pandu, Gauhati itself and Kajali on the western frontier of Nowgong without striking a blow. At Simalugarh, near Kalibar there was a strongly fortified post upon which even the guns of Muhammadas made little impression but it was in vain from the point of view of Ahoms. On March 17th,1662 the Nawab entered Gargaon and the Ahom king fled to Naga Hills. The Mughal general established himself at the Ahom capital for sometime but circumstances forced him to leave the Ahom territory. Francies Hamilton in his account of Assam says "His army was so roughly handled by the enterprising and warlike Assamese that he not only was compelled to make a precipitate retreat, but also to, give up a large part of the land which had belonged to the Muslems before the invasion took place.

At the death of Sutamla or Jayadhwas Singha his son Chupungmung or Chakradhwas

Singha ascended the throne of Ahom Kingdom. He was a man of indomitable courage and wonderful foresight as well as a warrior himself. Being unable to consume the humiliating defeat of the Ahoms at the hands of Mughals he started a vast war preparation under his direct supervision and attacked the Mughals and recovered Kamrup in 1667 and placed one young and enterprising warrior Lachit Barphukan as officer at Gauhati. When the news of Mughals defeat reached Emperor Aurangzeb he sent General Raja Ram Singh with a large Army to chastise the Ahoms. But the Ahom general Lachit Borphukan against so many odds inflicted a defeat on Ram Singh in the Historic battle of Saraighat in 1671. This victory in the battle of Saraighat has earned for Lachit immortal fame. During the reign of Chakradhwas Singha there was a severe famine in his kingdom.

After the death of Chakradhwas Singha till 1681 Ahom history witnessed reign of conspirary, execution and murder. During the period nobles with design of their own proved too strong for the crown and between 1670 to 1681 seven princes were placed upon the throne only to come to a bloody and untimely end.

In the year 1681 Godadhar Singha ascended the throne of Ahom kingdom and brought an end to the disturbances in the Ahom kingdom and restored its prestige. In 1682 he recovered Gauhati which fell to Mughals in 1679 again from the Mughals and frontiers of Assam again pushed forward to the river Manas. Not being content with consolidating his power in the plains he despatched expeditions against Nagas and Mikirs and subdued them. During his tenure series of reforms were introduced.

After the death of Godadhar Singha his son Sukhrangpha or Rudra Singha rose to the throne in the year 1695, during whose tenure zenith of Ahom power was reached. He founded a new capital at Rangpur, presently known as Sibsagar, constructed a stone bridge across the river Namdang which still remains as a manument. During his reign subjugation of Cachar and Jaintia was completed in 1700 A.D. Nagas were brought under control of Ahom kingdom. Thus it seemed that the Ahoms not only had dominated the whole valley of Brahmaputra but also the outer hills as well. King Rudra Singha engaged himself with a large scale plan for an expedition against the Mughals in Bengal which he could not bring to reality due to his sudden death in 1714 at Gauhati. The Rudreswar temple was created by his son Pramatta Singha in memory of that sad event. Rudra Singha has been called Shivaji of eastern India. His personality earned an all India significance. It is because he had formed a Hindu confederacy to fight against the Mughals. During his tenure he brought many changes to the social, religious and political life of Assam.

After Rudra Singha his son Siva Singha ascended the throne. He was a weak prince and was much under the influence of his wives. His first wife Fuleswari excavated Gaurisagar tank and temple on its bank. Siva Singha's second wife Ambika Devi is remembered by posterity as the excavator of the great Siva tank on whose bank present town of Sibsagar stands. During the reign of Siva Singha major religious reforms like adaptation of Sakta Hinduism took place.

The reign of next Ahom king Pramatta Singha was short and uneventful. He built Ranghar near Sibsagar. During the incumbancy of his successor, Rajeswar Singha the sign of decay of Ahom power was quite clear. During his tenure the King of Manipur sought help of Ahoms to defend him from Burmese invasion which was accorded and a treaty was made according to which a Manipuri princess named Kuranganayani was offered to the Ahom king whom Rajeswar Singha elevated to the rank of principal queen. This had led to close cultural and religious ties between the two countries. While the Ahom army was advancing to help the Manipuri king by opening up a shorter route by cutting thick jungles of forest lost its way and large number of men perished and the expedition popularly known as Lata-Kata-Ran failed. Other petty conflicts with the Mikirs, kings of Cachar, Jaintia, Dafala etc. were easily overcome by the Ahom king. In 1757 Jorhat was honoured by a visit of the Ahom king and he erected a temporary residence there. This town became the capital of Ahom kingdom when the Ahoms had been driven out of Rongpur by the Moamoria rebels. In each of the two capital of Gargaon and Rongpur king Rajeswar Singha erected brick built palaces the Karengghar and Talatal ghar the ruins of which are now protected monuments.

The reign of next Ahom king Lakshmi Singha was signalled by the outbreak of a civil rebellion known as Moamoria insurrection which continued for more than 30 years. The cause of this insurrection was deep rooted mixing religion with politics. The introduction of Sakta Hinduism into the Ahom court during the reign of Siva Singha, the insult inflicted upon the Moamaria Mahanta by his queen Phuleswari and the disdain with which Moamarias were generally treated by the Ahoms led to an odd relation between the two communities. Ultimately it proved to be the major factor in the downfall of the Ahoms. The royal force was defeated on many occassions and at last the king was driven out of Rongpur. However the revolt was subdued. After expiry of Lakhmi Singha in 1780 A.D. his son Gaurinath Singha succeeded to the throne of Ahom kingdom. During his reign the revolt broke

out afresh and took a serious turn and in 1786 the rebels inflicted a decisive defect upon the Ahom army and the king had to flee to Gauhati. His generals under the leadership of Purnananda Buragohain remained behind in Upper Assam and carried on the contest with varying success. In the meantime king Gaurinath Singha made appeal to the British Governor General Lord Cornowallis at Calcutta for help against the Moamarians and the same was accorded in 1792 under the command of Captain Welsh. And in 1794 with the help of British force Rongpur was reoccupied after a decisive victory over the insurgents.

A few months after the departure of Captain Welsh Gaurinath Singha died and he was succeeded by Kamaleswar Singha. During his tenure the Dafala attacks on royal troops were repulsed.

The next king Chandra Kanta Singha saw the complete downfall of the Ahom kingdom. Due to suspicion and envy among the viceroy of Gauhati Badan Borphukan and Purnananda Buragohain and at the instance and initiative of Badan Borphukan the Burmese, known in Assam as "Maan" invaded this country.

The three kings Chandrakanta Singha, Purandar Singha and Jogeswar Singha became puppet kings at the hands of the nobles, the Burmese and the British. The failure of the Ahoms to withstand and repel the Burmese attacks made it clear that they had lost their vigour as a military race.

In such a dilapidated condition king Purandar Singha appealed to the agent of the East India Co. to help him with a few armies to regain his lost kingdom. Though initially the appeal was rejected, in 1824 war was declared by the British Govt. against the Burmese with the goodwill of Assamese people and finally in Jan' 1825 Rongpur was reoccupied from the Burmese. In the following year on 24th Feb, 1826 by a treaty at Yandaboo the Burmese renounced all claims on Assam and her dependencies and Assam was annexed to the British Colony.

Brief History of the District

Origin of the name :

As history speaks it was in the year 1733 A.D. the Ahom queen Ambika Devi dug a tank at the then Ahom capital Rongpur covering an area of 257 acres, to commemorate the name of her beloved husband King Siva Singha. The place came to be known as Sivpore (Sivpur) being associated with the great Siva Temple (Siva Dol) built on the bank of this tank. With the passage of time, the name Sibsagar, alluding both to the temple and the tank gained popularity. Thus Sibsagar a big tank (Sagar meaning sea) gives its name of Sibsagar to the old town of Rangpur.

Origin of the District :

It was during the declining days of the Ahom Kingdom in 1833 Purandar Singha was entrusted with the administration of Upper

Assam by the East India Company who had already won mastery over Assam in 1826 as a result of the First Anglo-Burmese war. Even this artificial ornamentation by a scion of the Ahom Royal House was short lived, for in the year 1838 A.D. the whole area was resumed by the authorities of East India Company and annexed with British territory, and on September 16th of the same year Col. Adam White was appointed its political agent. By a proclamation in 1839 the area was divided into two districts namely Sibsagar and Lakhimpur, and was placed under the same form of administration as prevailed in the Lowerr Assam districts. Thus, the District of Sibsagai came into being bordering on the river Dhansir on the west and the Namsang Tipam parbbat on the East.

Location, General boundaries, total area and population :

The district of Sibsagar is in the eastern part of the State and lies between 25°49′ and 27°17′ North Latitudes and 93°18′ and 95°26′ East Longitudes (approximately). It is surrounded by the District of Darrang and Lakhimpur on the north, by the District of Dibrugarh and Arunachal pradesh on the east, by the State of Nagaland on the south and by the district of Karbi Anglong and Nowgong on the west. The district covers an area of 8,989 km² and has a population of 1,837,389 as per 1971 Census. The district of Sibsagar stands fourth in regard to area as Compared to other districts of Assam.

Administrative Division :

Purandar Singha the last Ahom King ruled his territory with his capital at Jorhat. But with the annexation of this territory to the British territory it necessitated the shifting of the capital of the newly formed Sibsagar district from Jorhat to Sibsagar as well as the formation of two other sub-divisions one at Jaipur and the other at Golaghat, and accordingly it was done. In 1845 A.D. Jaipur sub-division was transfered to Lakhimpur and on 18th December of the same year Jorhat was declared as a new sub-division merging certain portions of the Golaghat sub-division with it. This reconstitution of the districts was a short lived one as in the year 1884-85 A.D. Namsang, Borduari, Paniduari, Mutoria, Banfenia, Jobaka, Changlolim Mulungia, Jaktangia, Tablungia and other Naga villages to the west of the Dikhou river were transferred to the then Naga Hills district. In the year 1913 A.D. again some reconstitution were made in which the District head quarter had been shifted from Sibsagar to Jorhat for administrative convenience.

For general administrative purposes the district has been divided into four sub-divisions namely Jorhat, Sibsagar, Golaghat and Majuli. Their head-quarters are the towns bearing the corresponding name in respect of Majuli sub-division. Total No. of Police Stations in the district is 16 out of which Jorhat, Teok, Mariani and Titabar fall under

Jorhat sub-division, Amguri, Nazira, Sibsagar, Demow, Moranhat, Sonari and Borhat fall under Sibsagar sub-division; Golaghat, Sarupathar, Bokakhat and Dergaon fall under Golaghat sub-division and only one Police Station namely Majuli is under Majuli sub-division.

Physical Features :

The district of Sibsagar can be divided into three natural divisions. The first one is a belt of flooded land varying from three or four to as much seven or eight miles in width situated on the south bank of the river Brahmaputra through out its course through Sibsagar. The area in this part is covered with high reed jungle interposed with swamps or 'bill' and significant stretches of rich fodder grass. There is little cultivation except of summer rice followed by pulse or mustard. There are patches of forests which constitute habitat for wild elephants and mithuns. In this area some muddy pools lie where the world famous rhinocerous surrounded by reeds and grasses from twelve to fifteen feet in height wallow. Near the tree jungle there is high ground where the deer can make their home.

To the south of this flooded tract and east of the river Dhansiri is our second natural division which is a wide, healthy and homogeneous plain lying between Nagaland and the Brahmaputra. It is the most populous and important portion of the District in which hardly any big jungle can be seen and where cultivation brings in considerable prosperity and progress. On the lower lands the staple crop rice is raised while the high land are usually under tea plantation.

North of Brahmaputra is the Majuli, our third natural division and the greatest river island of the world. It is seperated from Lakhimapur by Subansiri and Kherkatia Suti, at one time the main channel of the Brahmaputra. The whole of Majuli was too low to be fit for cultivation of transplanted rice, and main crops are Summer rice, mustard, Bao, Ahu only.

Majuli is a principal place of pilgrimage for the Vaishnavites of Assam since the days of Ahom reign. Here so many Satras or Monasteries are situated which besides being religious centres are also the strongholds of important elements of Assamese art and culture, Great Kindness and hospitality are shown to visitors by the inmates of the Satras, notable among which are the Satras of Kamalabari, Auniati, Garamur and Dakhinpat.

The whole of Sibsagar District is a level plain. Mention can be made only of two small hillocks, that is, the Charaideo hill and the Neghereting Hill. The two hillocks have no intrinsic importance of their own but they are associated with certain events which cause for their importance. The Charaideo hill was the site of the first Ahom Capital and once the burial place of the Ahom Kings and persons enjoying royalg status. And in the

Negheriting Hill, there stands a temple sacred to Mahadeva.

The whole of the drainage of the district finds its way into the river Brahmaputra the enormous river as it flows past from east to west on the north of the district. Here in lies the greatest river island of the world Majuli. The major Tributaries of the Brahmaputra in the district of Sibsagar are Dihing, Disang, Dikhou, Jhanji, Bhogdai, Kakadonga and Dhansiri, which originate in the south. Among these the river Dhansiri is the largest. Though these rivers during summer creates havoc by way of flood causing unimaginable anxiety to the people inhabiting at the river side.

The greater part of Sibsagar lies too high for the formation of lakes, bills, marshes, and the only ones of any size are situated in the Majuli sub-division. They too are not of any considerable size, which are actually the remains of river which have changed their course. In the district there are plenty of tanks and notable among them are situated in the Sibsagar Sub-Division which tell the tale of Ahom rule in the district. Among these mention can be made of Sibsagar tank, Jaysagar tank and Gaurisagar tank.

Jurisdictional Change :

During the decade 1971-81 due to shifting of 7 villages of Dergaon Police Station of the district to Gohpur Police Station of Darrang district vide Govt Notifiation No A A P. 88/65/112 dtd. 10-12-71 some changes took place in the district boundary of Sibsagar. Also two new Police stations in the district, that is, Borhat and Demow were created vide Govt. Notification No. HMP. 310/75/17dtd 23rd Jun' 80 and HMP. 544/75/21 dtd 31 st Oct' 79 respectively. A new sub-divison, Majuli has been created with the area of Majuli Police station in the year 1979 vide Govt. Notification No. AAP. 56/79/2 dtd 5-2-79. For some administrative reasons 39 villages of Dergaon P.S. have been shifted to Majuli P.S. vide Govt. Notification No AAP 88/65/112 dtd 10-2-71 causing internal Jurisdictional change in the district.

A brief note on places of religious, historical or archaeological importance in the district :

The district of Sibsagar was the centre of administration of the Ahom Kingdom for nearly 600 years. The Ahom rulers took keen interest in building up numerous temples dedicated to different deities and dig tanks having no parallel elsewhere. And these temples and tanks still stand out as memorials to their glory. From architectural grandeur and beauty these temples can very well be compared with any contemporary architecture found in other parts of India.

Sibsagar Tank :–

This tank alongwith the three temples standing on its south bank was constructed by Queen Ambika Devi in 1733 A. D. to commemorate the death of her husband king Siva Singha. The total area of the tank is 257 acres, the area under water is 129 acres. On the bank of tank here stands three temples, viz, Siva Dol, Vishnu Dol and Devi Dol and also a collection of different sizes of cannon used during the reign of Ahom kings.

Siva Dol :

This is the tallest temple of Assam, the height being 132 feet 9 inches including the Golden Dome. The Golden Dome fell down in 1947 earthquake and was reinstalled in 1954. The earthquake of August 15, 1950 caused serious damage to the temple, specially to the ornamental stonework on the outer surface and to the masonry superstructure. One of the greatest festival of this eastern part of the country "Siva Ratri" with Mela is duly performed at this Dol annually.

Vishnu Dol :

It is situated to the east of Siva Dol. Dol jatra and Ratha Jatra festival are celebrated here.

Devi Dol :

It is situated to the west of Siva Dol. Durgapuja festival is celebrated here.

Kareng Ghar :

This palace was built in the year 1700 A.D. by king Rudra Singha and was the capital and Military Station of Ahom kings. This palace is popularly known as Talatal Ghar. It is a seven storeyed building, four above and three below the ground and have two tunnels, one from Kareng to Dikhou river, length being $2\frac{1}{2}$kms. approxmately and the other from Kareng to Gargaon palace, its length being 16 kms. The palace is surrounded on all sides by high ramparts. Within the ramparts is situated another structure known as Golaghar (which means the magazine). There is a water reservoir close to the palace for the use of the royal palace which is connected by an earthen pipe with the Jaysagar Tank. The plan and construction of the Kareng Ghar speaks highly about the worksmanship of the Architects of that time.

Several earthquakes that have swept Assam have demolished the palace to a great extent. Nature also has played its part equally and consequentialy certain portions of the palace got burried under earth. Archaeologist, Historians and Tourists come in large numbers to see this historic site.

Rangghar :

Rangghar, the amphitheatre of Ahom King was built in the year 1745 A. D. opposite to the Karengghar. It is a brickbuilt, two storeyed oval shaped structure. During the Ahom rule it was utilized for the purpose of witnessing games, sports, animal fights etc. by the members of the royal family. The monument is still in its original structure. Its architectural design is a novelty, bearing great historical and archaeological importance.

Jaysagar Tank :

This tank is situated about 3 kms. south of Sibsagar town. It was constructed by king Rudra Singha within 45 days. in memory of his mother Sati Jaymati Kunwari who had sacrificed her life in order to save her husband Gadapani or Gadadhar Singha and her motherland. The place where Jaymoti was prosecuted lies to the south west of this tank and is called Jarenga Pathar. The area of the tank with its bank is 318 acres. On its bank there stands four temples, namely, Joy Dol (Vishnu), Siva Dol, Devi Dol and Ghanashyam Dol and several other institutions including Sibsagar College.

Ghanashyam Temple :

It is situated on the south west corner of Jaysagar Tank and is dedicated to the memory of Ghanashyam, the noble architect who built the Karengghar. It is a small hut-like structure decorated with terracotta works.

In between Joysagar and Karengghar there are Rongnath Dol, Fagua Dol, Gauriballava Dol and Hara Gauri Dol, some of which are being looked after by the state Government.

Rudrasagar and Athaisagar :—

These two tanks are situated 8 kms. south-west of Sibsagar town. They are also popularly known as Napukhuri and Puranipukhuri respectively. The Rudrasagar tank was constructed by Lakshmi Singha in the year 1773A . D. and the Athaiagar by Jayadhwas Singha in 1653 A. D.

Stone Bridge :

There is a stone bridge over the river Namdang built entirely of stone during the reign of king Rudra Singha. Its length is 202 feet and breadth is 21½ feet. It remains as a great monument of the Ahom ruler.

Gaurisagar Tank :

It is situated about 14 kms. east of Sibsagar Town. The palace was constructed with wood and stones in 1752 A.D. It is a seven storeyed building and connected by a tunnel with the Karengghar. The palace was the principal capital of Ahom kingdom. The site is of great archaeological importance.

Charaideo :

The place is situated about 25 kms. east of Sibsagar Town. It was the first capital of

Ahom kings established by king Sukapha. Though the origin of the name of the place is uncertain, the saying goes that here in this place birds were offered to the God. So the place came to be known as Charaideo. Formerly the Kacharis, the Borahis, the Morans, the Nagas and the Ahoms used to offer their prayers and obtain to deities at the sacrifiacil altar of Charaideo, known as Deosal.

In the hillock of Charaideo exist maidams or graves of Ahom kings and queens which cover a wide area from Santak to Mathurapur. By the side of the road also exist two tanks known as Aadhowa and Petudowa.

The foreign invaders including Mirijumla being very much tempted by valuable treasures that lay buried in the graves, dug them out and plundered the area mercilessly. Though these graves are concealed by deep dense forest but the artistry of the brick built houses underneath catches the eye of every visitor.

Rudrasagar :

This neighbourhood area of Sibsagar town is a most oil prospecting area. In view of favourable geological features, the Oil and Natural Gas Commission is 1959 located some exploratory wells and as a result Rudrasagar structure was taken in hand. On 28th May, 1960 the drilling of oil was commenced and by this time the operation have been extended to cover more oil areas giving a big boost to the economy of the district in particular and the state and country in general.

Other Ruins :

Certain stone images assigned to be of tenth, eleventh century A.D. which were long lying in S.D.O's official residence at Sibsagar had finally been removed to the state Museum at Guwahati and now adorning the Museum. Among sculptures the images of Gaja Laksmi, Varahratara, Kamadeva, Saraswati are worth to mention. These images are believed to be the remains of a Vishnu Temple erected by the Kamrupa kings of the tenth or eleventh century A.D. Near the S.D.O's court at Sibsagar a few cannons of the Ahom period are still to be seen.

Jorhat the gateway to Sibsagar and the neighbouring state of Nagaland was originaly known as Disaibahar. As there were a couple of markets near Disai, that is the river Bhogdai such as Phukanarhat, Macharhat, the place came to be known as Jorhat ('Jor' means twin and 'hat' means market). When Rongpur was ruined as a result of aggression by the Morans, the then Ahom King Gaurinath Singha shifted his capital to Jorhat in 1794 A. D. During the British rule in Assam the Head Quarter of the district had been shifted to Jorhat in 1913 A. D.

Bongalpukhuri :

On the southern side of Jorhat town near

Na-ali there is a tank popularly known as Bongalpukhuri. In 1739 Badan Barphukan was murdered by one Rupsing Bongal while Borphukan was taking bath. Rupsing excavated thin tank with the monetary reward that he received for this heinous crime. Some circle is of the opinion that Rupsing Bongal washed his blood-stained knife in this tank after killing Bodan Borphukan and so it came to be known as Bongalpukhuri.

Bor Pukhuri :

There is a tank near Tarajan, Jorhat which is known as Borpukhuri, but its actual name is Buragohain Pukhuri.

Burigosani Devalay :

After defeating the Jayantia King the Ahom king brought the Burigosani from Jayantia and established first at Rongpur. Alongwith shifting of the Ahom capital to Jorhat, the image of Burigosani was also shifted and placed in a temple which lies in the middle of Jorhat Town. It is a Sakta shrine.

Raja Maidam :

It lies on the south bank of the river Tokolai and on the northern side of Jorhat Town and preserves the ashes of King Purandar Singha, who expired on 1st October 1864.

Purnananda Buragohain Maidam :

There is a maidam on the bank of the Tokolai river near Macharhat which is of Purnananda Buragohain. It was constructed by his son Ruchinath Buragohain in the year 1815.

Garh Ali :

To protect the Ahom Kingdom from the Mowamarias a big embankment extending from Sewni Ali to Naga hills was constructed which now-a-days is popularly known as Garh Ali. Having seen this embankment the Moamarians got bewildered and hence this came to be known as Bibudhi Garh.

Bilveswar Siva Temple :

About 5 kms. south of Jorhat by the side of south Trunk Road there lie ruins of an old and small temple alongwith a tank popularly known as Bilveswar Siva temple which was constructed by Ruchinath Buragohain,

Ladaigarh :

Ahom King Pratap Singha constructed a garh embankment on the northern and southern part of his kingdom to protect it. The northern part is known as Swatatalgarh and the southern part as Ladaigarh.

Baduli Pukhuri :

During the reign of Ahom King Jayadhwas Singha a tank was excavated by Baduli Borphukan by the side of the trunk road near Teok which was named after him. These days the tank as well as the place is popularly known as Baduli Pukhuri.

Borbheti :

To the west of Jorhat Town in the Malow Pathar there lies a mound called Borbheti, which is said to have been the site of the Namghar of the Moamaria Gosain in the later part of the seventeenth century. According to Ahom chronicles, each disciple of the Gosai brought one god for construction of this mound which enabled him to ascertain their number. Also lie there two smaller mounds known as Majorbheti and Majiabheti and are belived to be the sites of houses of the Gosain and his brother. During the reign of Ahom king Rajeswar Singha the Moamaria Mahanta Chaturbhuj ordered his disciples to demonstrate their mighat by erecting a 'bheti' bringing a certain amount of soil per head and accordingly it was done. This is popularly known as Borbheti.

Negheriting Siva Temple :

This temple is situated to the northern side of the N.H. 37 near Dergaon. This was built by Ahom king Rajeswar Singha in the middle of eighteenth century on a hillock known as Negheri. In design this Siva Temple differs from all other temples in the District. Daily worship is carried on in this temple.

Derghon Temple :

The original temple was to the north of Negheriting Siva Temple. The temple at the present site was built by Ahom King Susenpha through Momai Tamuli Barua in 1672 A. D.

Burigosanis Devalaya :

It is situated at Dergaon which is in ruin now.

Athgaon Than :

This old shrine stands at a distance of of 5 kms. from Furkating Railway Junction towards, Golaghat town. The stone image of the Devi placed in a building is still worshipped.

Halowa Gosanir Than :

Situated in Morongi Mouza, it was constructed by Ahom King Gaurinath Singha in 1784 A. D. where worship is still a regular phenomenon.

Numaligarh :

Numaligarh, the great embankment was Built by Ahom King Pratap Singha. A Bahar (Town) known as Numali Bahar was also constructed with brick buildings on the south bank of the river Dhansiri near the fort. Two other forts namely Rajgarh and Lakhowgarh join the main fort.

By the side of this fort near Numaligarh Tea Estate there exist ruins of a temple on hill top. These ruins date back Pre-Kachari and Pre-Ahom periods. The entire hill is full of temple remains, pillar-plinths and huge number of images with artistic designs which are of great archaeological value.

Kacharipathar ruins :

Near Jamuguri Railway station on the bank of the river these ruins can be seen inside a deep forest. This was once the capital of a powerful Kachari King. In some chronicles it is stated that this city was founded by Kachari King Prasantadhwas Narayan. But another circle is of the opinion that this was founded by king Chakradhwas. Formerly this was known as Bor-Dimapur and is certainly older than Dimapur. It was surrounded by an earthen fort of half a mile on each side which is now in a dilapidated condition. But rows of stones and pillars of different size and shapes are still to be found there.

Kako Gosanir Than :

This Shrine is situated in Kaziranga area. It is a Sakta Shrine founded by Ahom King Godadhar Singha. As chronicle speaks King Gadadhar Singha at the time of his exile worshipped this deity which he kept concealed inside a Kako bamboo chungh (Pipe).

Basanti Than :

It is also situated in Kaziranga area. The image which this shrine contains is of Durga and annual celebration of Durgotsava is held during the spring season. The antiquity of the place is uncertain.

Stone elephant :

At a certain attitude by the side of Kohma Pahar or the bank of river Dipholu there stands a stone cut elephant of considerable size and adorned with architectural design. The history of it is obscure.

Garampani :

It is situated at a distance of about 20 kms. from Golaghat town on the bank of Nambar river. There is a big hot spring, where people take bath for its curative affect. It is an ideal place for holiday goers. These days for preservation of the wildbirds and animal in and around the area a wild life sanctuary has been developed. The hot spring is a most familiar hunt for various kinds of birds and beasts.

All Saints Church of Hinnamora, Jorhat :

This Church was constructed in the year 1895 on a plot of land at Chinnamora, near Jorhat donated by Jorhat Tea Co. Ltd. under the able direction of the Bishop of Calcutta. Unfortunately an accidental fire damaged the original Church and had to be reconstructed in 1911.

American Baptists Foreign Mission Church, Jorhat :

In about 1903 a Christian Baptist Missionary Rev. S.A.D. Boggs opened an institution in the Rajabari area near Jorhat for the study of the Bible. In due course this had emerged as an institution of prayer in the form of a Church. Along-with study of Bible, courses of studies of Primary, M.V. and High School were also introduced and specially tribal students were given good

opportunity for the learning of art and crafts. After second world war the High school had been converted into a Theological College.

Christ Church, Golaghat :

In the year 1906, the Manager of Maheema Tea Estate who was a britishier constructed this Church at Golaghat. Till 1930 this Church was under the Church of England in India.

Central Baptist Church, Sibsagar :

Dr. Nathan Brown constructed this Church on eastern bank of the Sibsagar Tank. The Church was on its original place for about 100 years but now this has been removed to the south eastern side of the tank and has been named as Central Baptist Church.

Buddha Vihars :

There are a large number of Buddha Vihars in the district among which those at Barpathar, Sarupathar, Kaliani, Chalapathar and Disangpani Sapekhati are the most important. Vikshus and Sramanas are there to perform the day to day ritual. The Disangpani Vihar is really beautiful.

Dargah of Ajan Pir Muslim Shrine :

This Muslim Shrine is situated on the north of Dikhow river near the Brahmaputra in Haraguri Chapori. It is said that Ahom King Pratap Singha constructed this Shrine surrounded by earthen wall for Ajan Pir.

There is another Muslim shrine known as the Dargah of Khundker Pir, lying on the bank of the Dilih river.

Place of Tourist Interest :

Assam's wild life is the main source of attraction for the tourists and the district of Sibsagar is not an exception to it. Among the places of tourist interest in the district Kaziranga National Park has already carved out for itself a place in the world Touristtr's map. This natiolal park is the abode of the rare one-horned Indian Rhinoceros (Rhinoceros Unicornis) and spreads over an area of 430 sq. kms. In addition to Rhinos, Kaziranga, Sanctuary which was declared as National Park on 1st January, 1974 is the natural home of other animals too. Visitors are excited and thrilled to get beautiful views of the magnificent wild buffalo, the hansome sambars, the swamp deer, the hog deer the tigers, reptiles and lizards. And occassionally the wild elephants and water birds frequent the beets and other favourite haunts of the Rhino. It is very interesting to note that pelicane breed in this sanctuary is a very rare phenomenon.

Tourists sitting on elephant back can enjoy viewing from a close range wild life in their natural habitat. Coffee plantation, rubber plantation and tea gardens and its factories are another attraction to the tourists.

Major characteristics of the District Particularly in relation to the Economic Resources :-

Forestry :

The forest area of the District in general can be divided into two groups, namely, 1. Reserved forests and 2. Unclassed state forests. To be brief, this unclassed state forest is simply Govt. waste land and does not necessarily possess any of the characteristics which are usually associated with the expression forests.

Most of the forests of the district are concentrated in the Sibsagar and Golaghat subdivision. In Sibsagar it is situated on the southern part of the district and in Golaghat they form continuous belts around the river valleys.

The total area under reserved forests in the district in 1980-81 is recorded as 157,187 hectres and that of unclassed state forest is 1, 952 hectres. Proposed reserve forest during the period is 6,234 hectres.

The forest area of the district can be divided into two types, namely tropical evergreen forests and miscellaneous forests. The first category includes climatic climax vegetation such as Hollong, Nahar, Sam Amri, Gunseroi, Makai, Sopa etc. In the other category those species are included whose top canopies are deciduous and the middle and lower canopies are ever green in character. Qualitatively the latter forests are inferior and as such they have less commercial value.

Flora :

The evergreen forests, as the name suggests, are evergreen in character and composed of many canopies, the top canopy being predominated by Hollong which lowers majestically over others with clean and straight poles of nearly 100 feet length. In some of the reserves Makai is also found associated with Hollong in this canopy. Other species in this canopy are Sam, Sopa, Gunseroi etc. but their occurence is only sporadic in an otherwise gregarious crop of Hollong and Kahir. In the middle canopy of evergreen forests are found Nahar, Morshal etc. and in the lower canopy we find a variety of evergreen shrabs and herbs among which Phutuka, Gosbhedeli, Gerukatamul, Kowpat, Tora, Lengoo etc. predominate.

The top canopy of miscellaneous forests is covered with deciduous species whose leafless period is short. The most common tree in this canopy is Bhelu which lowers over the rest and grows to gigantic dimensions. In the middle canopy Nahar finds predominant place and in the lower canopy the undergrowth is lighter compared to evergreen forests.

Although destruction of forest is taking place in the district for a long time, the harmful effects of soil erosion and scarcity of rainfall are yet to be felt keenly in the district. Vanamohotsava under which fruits

and other trees are planted meets the situation to a considerable extent.

Forestry has played an important role in the economy of the district. A vast majority of the people of the district depends upon forests for firewood for domestic consumption and for timber, bamboo, ekra, reed, thatch, jengu, tokopat, cane etc. fo house, building purposes, making furnitures,r etc.

The outturn of timber from the forests of the district during 1980-81 is reportdly as shown below.

Timbe r in Rough logs-24,036 Cubic meters.
Timber in rough poles- 1,039 Running metres.

Revenue earned by the state exchequer through sale of forests products of the district during 1980-81 is Rs. 7,90,614.00

According to Govt. Plan of Concentrated regeneration and aforestation in Assam, total area artifically regenerated in the district of Sibsagar is 10,705.45 hectres and total area naturally regenerated is 5,620.00 hectres.

Fisheries :

The potentiality for development of Fisheries in the district lies mainly in the rivers, beels, swamp, tanks and ponds. Those marshy lands which are generally found in the tea gardens and cannot be used for any other beneficial purposes can best be utilized for developing pisciculture to a very great extent.

The activities for development of Fisheries in the district were initiated in 1948 with the establishment of seed collection centre at Nazira and Joysagar. Subsequently in 1954 and 1958 the area of activity was extended to Jorhat and Golaghat sub-division respectively. In certain Development Blocks small fish farms are there from where fish seeds and fishes are sold to public.

Natural sources were the original sources of obtaining seeds where mixed varities-both economic and uneconomic were available. These seeds were sold to individual parties by the fisherman and the result obtained in this process was totally disappointing in regard to development of fisheries. With the introduction of induced breeding operation where a particular variety of fish in induced for breeding the problem of mixed pay has been avoided giving a systematic approach to the development of fisheries.

The following development schemes are implemented by the department of Fisheries for development of fisheries in the district.

(i) Fish seed production.
(ii) Fish production through composite fish culture, intensive fish culture, Paddy-cum-fish culture, Fish-cum-duck culture, Fish-cum-pig culture, Air-breathing fish culture (Majur culture)
(iii) Development of beel fisheries.
(iv) Applied nutrition programme.

(v) Assistance to private pisciculturists (i) for inputs (ii) for reclamation of tanks and ponds.

(vi) Fish farmers development agency (Centrally sponsored scheme).

Total No of ponds and tanks for the purpose of fishery in the district as in 1981 is 1,344 The total No of unregistered beels during 1981 is 127, No of registered beels is 53 and No of rivers for the purpose is 9. Production of fish in the district, during 1980-81 is estimated to be around 5.6 thousand tonnes.

The most commonly used nets for the purpose of fishing in the district are (1) Ghakota (2) Khewari (3) Langi and (4) Parangi. Various wicker-work traps are also used such as Polo, Juluki, Jakoi, Dingaru, Thupa Sepagui etc.

Industry :

This is undeniably a fact that the state of Assam is blessed with a high potential for development of resource-based and demand based industries. But the pace of industrialisation of Assam had not been satisfactory and the district of Sibsagar is no exception to it. This slow and lopsided progress is caused by a variety of factors such as, inadequate economic and basic infrastructural facilities, derth of entrepreneural motivation, low level central sector investment, shyness in the flow of outside capital etc. Whatever progress is made till now, is confined to a few selected sectors like petrolium, c and forests etc. The early evolution of varied industrial arts constituted one of the important featurers of the cultural life of Assamese people. Various cottage industries formed an inalienable part of Assam's culture for self-sufficiency had been the key note of Assam's economy in early mediavel times. To a large number of Assamese people these small scale industries had been a way of life. References that we have in historical and other literature of Assam are quite sufficient to point to a high standard of Industrial efficiency that the people of Assam obtained in early times. Assam produced almost all that was necessary for life according to prevalent standard of living in those days.

The district of Sibsagar being the seat of Ahom Government was naturally the place where Assam's industries alongwith her culture developed to a high degree of perfection. The name of villages in the district such as Kamargaon, Poliagaon, Kumargaon Japisojia gaon, Guryogania, Sonarigaon and Kahargaon indicating as they do the habitation of professional artisan classes such as blacksmiths, matmakers, potters, Japimakers, gur-suppliers, goldsmiths and bell metal workers respectively highlights the socio-economic structure existing in those days. Among the old industries that had been in existence in the district of Sibsagar mention can be made of weaving, metal industries, wood and Bamboo works, pottery, Brick making and

Ceramics, stone carving and masonry, Ghani and allied Cottage industries, Defence industries etc.

In order to provide infrastructural facilities to local entreprenurs some Industrial Estates were set up by the state Government which proved immensely beneficial to the development of Industry in Assam.

There is no heavy industry except the age-old tea industry, which can be considered as the barometer of economic development in Assam and a good foreign exchange earner to the country. Majority of the tea gardens were owned by the British Indianisatra has taken place gradually. The district of Sibsagar has the second highest acerage under tea in Assam and these gardens employ a very large number of persons.

The drilling of oil in and around Sibsagar town constitutes one of the important and profitable industries of the district. The first discovery of oil was made at Moran within Sibsagar sub-division by M/S Oil India Ltd. The Oil and Natural Gas Commission Located the first exploratory well at Langehai near Disangmukh and in the following year drilling was started at Rudrasagar and drilling works are now being carried out at many places including Lakwa within the same sub-division.

Coal Industry :

Coal is another mineral product of economic importance in the district of Sibsagar. The survey of coal resources of Assam was started by Central Fuel Research Institute Dhanbad in 1953 and later in 1957 Coal Survey Station was established at Jorhat. Investigations have revealed that Assam Coals are very interesting geologically and their abnormality is generally attributed to high organic sulphur contents.

The Coal bearing strata extends along the western edge of the Tipam hills. Outcrops of the seams are seen along a strip 25 miles long, about half of which lie in the district of Sibsagar. The Nazira Coal field about 16 miles in length lies about 4 miles south of Naginimara station up to Dikhou river.

Another coal bearing area lies in the Jhanji river, which is of course quite narrow, only three miles long and lies 15 miles south east of Amguri station. Coal is found also in the Disai river where the proved outcrops are stated to be five miles long.

The tea industry in the district is playing a pivotal role in the growth and development of certain other industries in the district. The most important of these are the Plywood industry. Tea grown in different gardens are packed in the Garden factories in plywood chests for despatch either to the sale centres in India or for export. Tea Estates need huge quantity of fertilisers to ensure healthy growth of plants. Thus the industry gives a big boost in the development of fertiliser industry in the state. Tea industry has also

played aery important role in opening up and developing areas which were previously inaccessible jungle and forests. The vast army of laboures working in the tea gardens are mostly from other states like Bihar, Madhya Pradesh, Orissa, Tamil Nadu.

The Assam Co-operative Sugar Mill was established at Barua Bamun Gaon near Dergaon. The factory went into full production in the year 1960-61. The mill provides direct employment to a large number of technicians, educated youngmen and unskilled labour.

Some large scale flour mills are there in the district of which mention can be made of Assam Valley Flour Mill near Ranghar Chariali about a mile from Sibsagar Town. The Brahmaputra Mills Ltd. at Dergaon and Dergaon Sarakar Rice and Flour Mill.

Veneer Mill :

There is a big Veneer Mill at Mariani which started production in 1957. Tea chests, Commercial plywood, Flush door and black boards are manufactured in the Mill. The raw materials of the Mill are obtained from lease held forests and private contractors. The important feature of the manufacture lies in making Veneers from timbers and pressing the Veneer for manufacture of plywood. Most of the products of the Mill are sold in the big cities of India.

Some small scale industries are in existence in the district giving a big boost to the pace of Industrial development of the district. These are Rice Mills, Atta Mills, Oil Mills, Engineering workshop, Automobile workshop, Vulcanising and Tyre Rethreading, Blacksmithy and Allied industries, Bricks making etc.

Trade and Commerce :

Jorhat, being the Head Quarters of the district, occupies a prime place in the sphere of trade and commerce of the district. Several factors such as direct connection with Calcutta by Air, the proximity of a good river port Neamati, the location of major financial institutions, administrative head quarters and commerical carrying centres have contributing a lot in this regard. It is generally seen that comparatively more people in urban areas are engaged in trade and commerce than those in the rural areas. A look back at 1971 Cencus figures reveals 25.12% of total workers engaged in trade and commerce in urban areas of Sibsagar district as against only 2.87% in case of rural areas of the district. This is due to the fact that trade and commerce require financial capability, business acuman and adequate communication facilities the factors which for obvious reasons are not which to be found in the villages of Assam. Throughout the nook and corner of the district people belonging to particular community were to be seen associated with trade and commerce. However, the scene now-a-

days is changing. Local and indigeneous people are gradualy engaging themselves in activities related to trade and commerce.

Electricity & Power :

In spite of the power potential based on hydel, natural gas, oil and coal resources the district of Sibsagar lags far behind in respect of generation of power. Excepting two units of Lakwa Thermal power station generating 2 × 15 M.W. and three units of Mobile gas Turbine sets at Geleky generating 3 × 3 M. W. of power the district does not generate any power of its own and depends entirely upon supply from outside.

Under the rural electrification scheme 873 villages of the district have been provided with electricity till 1981 and a total of 190 pumpsets have been energised benefiting a large population of peasants.

Transport :

The district of Sibsagar in connected with the rest of the state by railways, road and air. Road Transport services are provided by both public and private sector organisations. The Assam State Road Transport Corporation the only public sector organisation operating in the district, provide both passenger and goods traffic in selected roads. The private sector road transport plays a pivotal role in the movement of passengers and goods traffic in the far and long areas of the district. There is a considerable increase in the number of motor vehicles on road over the few years. As in 1981 the figure for the district stands at 12,735.

The railway also plays an important role in the movement of passengers and goods traffic in the district.

Though the district has considerable scope for the development of navigational facilities, the existing facility is quite negligible. The inland water transport corporation is presently operating a Ferry Service in between Neamati ghat and Kamalabari connecting the district Head Quarter with the biggest river island Majuli.

Air transport is another important means of transport available in the district. The Indian Airlines operates regular air service from Rowriah, the only airport of the District situated at a distance of 6 km. from Jorhat the district H. Q.

Agriculture :

The economy of Assam is preponderantly agrarian in character as nearly 70% of the total working force are engaged in agriculture. The district of Sibsagar is not exception to it.

The arable soils of the district may broadly be grouped into (1) Old alluvial soils (2) New alluvial soils of riparian tracts and (3) Hilly soils. The major portion of the arable soils of the district are however alluvial soils.

Tea, Paddy, sugarcane, vegetables and

to a certain extent fruits are the main crops, grown in old alluvial soils of the district, soil condition being suitable for these crops.

Crops like pulses, mustard, paddy, sugarcane, potato vegetables etc also are grown is this district.

Rice being the principal food crop, is being grown in the district since time immovable.

Tea is perhaps the most widely used beverages in the world. The district of Sibsagar occupies a prime place in production of tea. As such a huge working force of the distriet are engaged in this tea industry. The Tocklai Experimental Station at Jorhat which is the biggest tea research institution in Asia has done a good deal of investigation in different aspects of tea culture and manufacture.

One of the most valuable garden crops of the district is banana known as Kol in Assam. Tobacco is also seen being grown in the majority of Gardens in new alluvial soils. Pineapple is also an important fruit grown in the district. The main pineapple growing area of the district is Borpathar area under Golaghat sub-division.

The Prosperity of the district is closely associated with the rapid and scientific development of agriculture. But unfortunately the pace of developments towards modernisation of agriculture is slow in the district. The adequate development of agriculture in the district is thwarted by many inhibitory factors such as small and uneconomic holding low crop intensity. Low level Technology, meagre irrigational facility, Inadequate credit facility etc. On top of all these, occurence of recurring flood affects agricultural production of the district in a big way.

There are three agricultural research centres in the district namely (1) Rice Experimental station, Titabar (2) Toklai Experimental station, Jorhat (3) Agro Economic Research Centre, Jorhat. These centres contribute in a great measue to the development of agriculture production in the state.

Minerals and Mining :

Coal and oil are the only minerals which have so for been commercialy exploited in the district. Coal is mined in Nazira and Jaipur coal fields. Coal is also found in the Jhanji and Disoi rivers. Jhanji coal area is three miles long and stretches up to Nagaland. The Disoi area is said to be about 5 miles long and situated just on the border of Nagaland. The seams in both the cases are few, thin and highly inclined. The Nazira coalfield is nearly 16 miles long and situated about 4 miles south of Naginimara railway station up to the Dikhou river.

The thickest coal measures are exposed in the Safrai river where there are five worked seams totalling about 73 feet in thickness. The coal reserve estimated in limited area of the coalfield appears to be about 40

million tons. Some of the coal seams are worked by Nazira coal Co. at Nazira colliery situated in the Borjan - Waktinjan Valley. Data available from sources other than the Regional Coal Survey station. Jorhat, indicate that the coals are of good quality. They have about 40% sulphur.

In Jaipur, out-crops of the seams are seen along a strip of 25 miles long, about half of this lies in Sibsagar District. A thickness of more than 45 feet of Coal in six seams is exposed in the Dilih river. The Coal bearingrocks dip to the east with high degree of inclination. On the Sibsagar side, the Coal is worked by the Dilih collieries (Assam) Ltd. The colliery has an area of 4 sq. miles. The Dilih coals have low carbon. Low calorific value and high oxygen. Like all tertiary coals of Assam the Dilih coals are friable and produce very high proportion of fire.

The Oil and Natural Gas Commission undertook exploration in Sibsagar and neighbouring areas for Oil and Natural Gas as early as 1957 when a seismic survey was initiated and continues till date. Deep exploratory drilling commenced in 1959. Oil has been encountered in all the wells drilled so far in the Rudrasagar area. The Commission has since geared up their activities in other areas of the district has achieved carying degrees of success.

Animal Husbandry and Veterinary :

As per the Livestock Census conducted in Assam in the year 1979, the population of Livestock in the district of Sibsagar is as follows –

1)	Cattle	–	6,18,882
2)	Buffaloes	—	1,28,758
3)	Sheep	—	1,433
4)	Goat	—	1,70,877
5)	Pig	—	89,912
6)	Fowls		4,38,624
7)	Duck	–	4,02,618
8)	Others	—	18,658

As part of the Livestock development programme, various efforts concerning breeding, feeding, disease control and dairy development continues to be undertaken in the district. For the develoment of Cattle, schemes like Intensive Cattle Development Project (I C D P) is in operation in the district. The livestock development programme in the district also include distribution of improved breed of bulls and cows, poultry, duck etc.

For general development of Livestock wealth there is a wide net work of Veterinary hospitals and dispensaries spreading all throughout the district. In the district there are 3 Hospitals, 43 Dispensaries, 47 Intensive Cattle development Project Centres, 2 Mobile Veterinary Dispensary, 3 Regional A. I. Centres.

Brief History of the District Census Handbook :

The District Census Handbooks were first introduced during the 1951 Census. Prior to 1951, village statistics for districts used to be printed after the census giving the population for each village and showing the distribution of communities and of literate persons. The District Census Handbook in 1951 contained data on area, houses and population, small scale industries, distribution of population by livelihood classes for each village and town of the district and many other census tables. In 1961 the scope of District Census Handbook were enlarged by the addition of more census tables and also the administrative statistics which included information on rainfall and temparature, vital statistics land utilization and agriculture, live stock, industries, administration, public health, medical facilities etc.

In 1971 Census further improvements were made in District Census Handbook by incorporating more information on villages and towns in the form of village Directory and Town Directory. The District Census Handbook in 1971 was divided into three parts and the part A included village Directory and Town Directory. The village Directory contained information on area, Educational, Medical facilities, Power supply, Drinking water, Communication, Post and Telegraph, Staple food, Land use pattern, nearest town and its road distance from the village, day or days of 'hats' and markets etc. The Town Directory comprising seven statement included data on (i) Status, Growth history and functional categories of each town (ii) Physical aspects and their location (iii) Municipal finance (iv) Civic and other amentities (v) Medical, educational, recreational and caltural facilities (vi) Trade and Commerce, Industry and Banking facilities and (vii) Population by religion.

Part-B presented data on Primary Census Abstract which included informations on area, Census houses, population, Castes and Tribes, literate and educated persons, workers by industrial categories and non-workers for each village in rural and each block and ward of town.

Part-C included socio-economic tables, secondary tables based on Village Directory and Primary Census Abstract data and tables relating to administrative, welfare and developmental activities.

In the 1981 Census, the District Census Handbook is divided into two parts. Part-A includes data on Village and Town Directory covering information on a few new items in addition to the information covered in these directories in 1971 Census, Part-B includes the Village and Town-wise Primary Census Abstract. This part of the District Census Handbook will not be published in

case of Assam as there had been no census in the state during 1981.

Scope of Village Directory & Town Directory Statements :

The information on Village Directory was confined to a single column in 1961 Census which showed amenities available in each village like transport and postal facilities, educational institution, drinking water supply, Bazar day and medical facilities, veterinary facilities and whether the village is covered by C. D. blocks or N. E. S. blocks. The scope of village directory was enlarged in 1971 census which included information on area, amenities available in the village such as medical, power supply, etc. which are detailed in earlier paragraphs. In 1981 Census two more columns are added to the Village Directory. Column 4 gives information on total population and number of households and col. 11 gives information regarding approach road to the village. All the statements of Town Directory included in 1971 census excluding the statement VII which covered population by religion have been retained in 1981 Census. In addition to that a new statement-IV-A giving information on "Civic and other amenities on notified slums during 1979" has also been introduced.

A brief analysis of the date on village Directory:

Table 1 deals with distribution of villages according to the availability of different amenities, such as, education, medical, drinking water, post and telegraph, market/hat, Communication, approach by pucca road, Power supply etc. Out of 2,682 inhabited villages, 2,066 villages constituting 77.03 percent of the total villages are having educational facilities of one type or the other. of this, Amguri Police Station which constitute with 4.66 percent of the total villages of the district enjoys the dignity of having highest educational facilities, being 92.80 percent of the villages in the police station are covered by the facility of one type or the other. Sarupathar police station of the district shows a sorry figure in this regard as though it constitute with 12.83 percent of the district only in 36.05 percent villages of the police station have got educational facilities.

In the sphere of Medical facilities only in 360 villages out of a total of 2,682 inhabited villages are having medical facilities of one type or the other. Of this highest percentage of villages having medical facilities of one type or the other is under Mariani police station where in 36.56 percent of the total villages of the police station is cover by medical facilities. The lowest percentage is counted in Sibsagar police station where in the percentage stands at 3.79 as only 5 villages out of a total of 132 villages in the police station are covered by medical facilities of one type or the other.

TABLE—1

DISTRIBUTION OF VILLAGES ACCORDING TO THE AVAILABILITY OF DIFFERENT AMENITES

Sl. No.	Name of Police Station	No. of inhabited villages	No. (with percentage) of villages having one or more of the following amenities.							
			Education	Medical	Drinking water	Post & telegraph	Market/ hat	Communi-cations	Approach by pucca Road	Power supply
1	2	3	4	5	6	7	8	9	10	11
1.	Majuli	185	161 (87.03)	14 (7.57)	185 (100.00)	48 (25.95)	16 (8.65)	17 (9.19)	9 (4.86)	3 (1.62)
2.	Jorhat	210	174 (82.87)	39 (18.57)	210 (100.00)	51 (24.29)	34 (16.19)	62 (29.52)	95 (45.24)	97 (46.19)
3.	Teok	198	158 (79.80)	20 (10.10)	198 (100.00)	28 (14.14)	26 (13.13)	41 (20.71)	46 (23.23)	62 (31.31)
4.	Mariani	93	81 (87.10)	34 (36.56)	93 (100.00)	20 (21.51)	47 (50.54)	15 (16.13)	29 (31.18)	31 (33.33)
5.	Titabar	186	155 (83.33)	48 (25.81)	186 (100.00)	34 (18.28)	48 (25.81)	128 (68.82)	63 (33.87)	93 (50.00)
6.	Amguri	125	116 (92.80)	17 (13.60)	125 (100.00)	39 (31.20)	26 (20.80)	15 (12.00)	49 (39.20)	44 (35.20)
7.	Nazira	166	136 (81.93)	16 (9.64)	166 (100.00)	36 (21.69)	18 (10.84)	3 (1.81)	77 (46.39)	57 (34.34)
8.	Sibsagar	132	116 (87.88)	5 (3.79)	132 (100.00)	30 (22.73)	16 (12.12)	9 (6.82)	66 (50.00)	68 (51.52)
9.	Demow	142	126 (88.73)	23 (16.20)	142 (100.00)	22 (15.49)	34 (23.94)	44 (30.99)	34 (23.94)	24 (16.90)
10.	Moranhat	110	91 (82.73)	9 (8.19)	110 (100.00)	19 (17.27)	38 (34.55)	25 (22.73)	32 (29.09)	5 (4.54)

1	2	3	4	5	6	7	8	9	10	11
11.	Sonari	109	92 (84.40)	14 (12.84)	109 (100.00)	23 (21.10)	20 (18.35)	59 (54.13)	36 (33.03)	15 (13.76)
12.	Borhat	79	60 (75.95)	6 (7.59)	79 (100.00)	9 (11.39)	5 (6.33)	24 (30.38)	36 (45.57)	13 (16.46)
13.	Bokakhat	91	72 (79.12)	19 (20.88)	91 (100.00)	19 (20.88)	22 (24.18)	21 (23.08)	40 (43.96)	17 (18.68)
14.	Dergaon	122	109 (89.34)	12 (9.84)	122 (100.00)	30 (24.59)	21 (17.21)	47 (38.52)	84 (68.85)	39 (31.97)
15.	Golaghat	390	295 (75.64)	74 (18.97)	390 (100.00)	72 (18.46)	75 (19.23)	27 (6.92)	148 (37.95)	157 (40.26)
16.	Sarupathar	344	124 (36.05)	10 (2.91)	338 (98.26)	13 (3.78)	15 (4.36)	108 (31.39)	18 (5.23)	33 (9.59)
	District Total	2,682	2,066 (77.03)	360 (13.42)	2,676 (99.78)	493 (18.38)	461 (17.19)	645 (24.05)	862 (32.14)	758 (28.26)

Almost all the villages of the district are equipped with drinking water facilities excepting 6 villages is Sarupathar Police Station. This 6 villages lying in Assam Nagaland border depends on drinking water in the near by villages which stands at a distance of 0-5 km.

In the district 493 villages (i. e. 18.93) out of 2,682 villages are having Post and Telegraph facilities. The highest percentage of villages enjoying P & T facilities is in Amguri police station (31.20) and lowest percentage in Sarupathar police station which stands at 3.78 percent.

The number of villages having market or hat facilities in the district is 461 out of a total of 2,682. Here too in Mariani police station the figure stands highest. Its being 47 (50.54) out of a total of 93 villages in the police station. And in Sarupathar it is lowest, being 15 (4.36) out of 344 inhabited villages in the police station.

Communicationwise, 645 villages of the district out of a total of 2,682 inhabited villages are having communication facilities like Bus stop, Railway Station, Navigable water way etc.

In the district there are 862 villages linked by Pucca Road out of 2,682 villages. Highest figure in the regard it comes in Dergaon Police Station that is, 84 (6,885) villages out of 122 villages and lowest figure is in Sarupathar Police Station which records at 33 (9.59) out of 344 villages in the police station.

Lastly there are 758 villages in the distrct out of 2,682 villages which have got power supply in the villages itself. The highest percentage of villages having power supply is in Sibsagar, that is, 51.52, means 68 villages out of 132 villages in the police station. And the lowest figure recorded is in case of Maranhat police station, that is, 5 villages (4.54%) out of 110 villages in the police station.

Thus, one can safety conclude that excepting the amenities of Education and Drinking water the district is far behind in providing other amenities to it's inhabitants.

Table 2 : deales with the distribution of villages not having certain amenities, arranged by distance range from the place where these are available. In the district there are 568 villages which have no educational facility in the village itself but available within a distance of 5 kms. from the village. Another 44 and 4 villages having no education facility in the village itself but available in near by village at a distance of 5-10 kms. and 10 + kms. respectively. Thus altogather 616 villages in the district have no education facility in the village itself.

So far as medical facilities are concerned 2,322 villages out of 2,682 villages in the

TABLE—2

DISTRIBUTION OF VILLAGES NOT HAVING CERTAIN AMENITIES, ARRANGED BY DISTANCE RANGE FROM THE PLACES WHERE THESE ARE AVAILABLE.

Village not having the amenity of	Number of villages where the amenity is not available and available at distance of			
	0—5 kms.	5—10 kms.	10+ kms.	Total (Col. 2—4)
1	2	3	4	5
Education	568	44	4	616
Medical	1,402	752	168	2,322
Drinking water	6	—	—	6
Post & Telegraph	1,550	553	86	2,189
Market/hat	1,425	668	128	2,221
Communication	1,149	655	233	2,037

district have got no medical facility in the village itself. Out of this for 1,402 villages the facility is available at a distance of 5-10 kms. and for 168 villages at a distance of 10 + kms.

Drinking water facility is available in almost all the villages of the district exeepting 6 Nos of villages. The facility is available at a distance of 0-5 kms. for these villages.

In the district out of a total of 2,682 villages, in 2,189 villages no Post and Telegraph facility is available in the village itself. But the same is available at a distance of 0-5 kms. for 1,550 villages, 5-10 kms for 553 villages and 10 + kms for 86 villages.

In regard to availability of Market/ Hat facility in the village itself, the same is not available in 2,221 villages of the district out of 2,682 inhabited villages. But the facility is available at a distance of 0-5 kms. in 1,425 villages, 5—10 kms in 668 villages and 10 + kms. in 128 villages.

Lastly there are 2,037 villages in the district out of a total of 2,682 villages are having no communication facilities upto the village itself. Out of this for 1,149 villages one has to travel 0-5 kms. distance, for 655 villages one has to travel 5-10 kms. distance and for 233 villages one has to travel 10 + kms distance to available of the facility.

Table -3 deals with the distribution of villages according to the distance from the nearest town and availability of different amenities. Out of 2,682 inhabited village of

TABLE—3

DISTRIBUTION OF VILLAGES ACCORDING TO THE DISTANCE FROM THE NEAREST TOWN AND AVAILABILITY OF DIFFERENT AMENITIES

Distance range from the nearest town (in km.)	No. of inhabited villages in each range	No. (with percentage) of villages having the amenity of							
		Education	Medical	Drinking water	Post & Telegraph	Market/ hat	Communication	Approach by pucca road	Power supply
1	2	3	4	5	6	7	8	9	10
0 – 5	372	336 (90.32)	60 (16.13)	372 (100.00)	106 (23.49)	86 (23.12)	79 (21.24)	220 (59.14)	186 (50.00)
6 – 15	934	772 (82.66)	172 (18.42)	934 (100.00)	192 (20.56)	198 (21.20)	215 (23.02)	371 (39.72)	328 (35.12)
16 – 50	1,024	821 (80.18)	119 (11.62)	1,024 (100.00)	175 (17.09)	160 (15.63)	251 (24.51)	258 (25.20)	231 (22.56)
51 +	352	137 (38.92)	9 (2.56)	346 (98.30)	20 (5.68)	17 (4.83)	100 (28.41)	13 (3.69)	13 (3.69)
Tota	2,682	2,066 (77.03)	360 (13.42)	2,676 (99.78)	493 (18.38)	461 (17.19)	645 (24.05)	862 (32.14)	758 (28.26)

the district 372 villages is situated within 0-5 kms. from the town. of them 336 villages have educational facility, 60 villages have medical facility, all the villages have drinking water facility, 106 villages have Post and Telegraph facility, 86 villages have market/hat facility, 220 villages have approach to the villages by pucca road and 186 villages have power supply facility. Another 934 inhabited villages of the district. is situated at a distance of 6-15 kms from the town of this 772 villages are having educational facility, 172 villages are having medical facility, all the villages are having drinking water facility, 192 villages are having post and telegraph facility, 198 villages are having market/hat facility, 215 villages are having communication facility, 371 villages are having approach to the village by pucca road and 328 villages are having power supply facility. In the distance range of 16-50 kms from the town 1,024 villages is situated out of the total 2,682 inhabited villages of the district. Of this 821 villages are having educational facility, 119 villages are having medical facility, all the villages are having drinking water facility, 160 villages are having market/hat facility, 251 villages are having communication facility 258 villages are having approach to the

TABLE—4

MAIN STAPLE FOOD IN THE MAJORITY OF VILLAGES IN EACH POLICE STATION

Sl. No.	Name of Police Station	Main Staple Food
1	2	3
1.	Majuli	Rice
2.	Jorhat	Rice and Wheat
3.	Teok	Rice
4.	Mariani	Rice
5.	Titabar	Rice

13.	Bokakhat	Rice and Wheat
14.	Dergaon	Rice
15.	Golaghat	Rice
16.	Sarupathar	Rice

villager by pucca road and 231 villages are having power supply facility. The remaining 352 inhabited villages are beyond the distance range of 50 kms. from the nearest town. Of this 137 villages have educational facility, of villages have medical facility, 346 villages have drinking water facility, 20 villages have Post and Telegraph facility, 17 villages have market / hat facility, 100 villages have communication facility, 13 villages have approach to the villages by Pucca Road and 13 villages have the facility of Power Supply in the villages itself.

Table—4 deals with the main staple food in the majority of villages in each Police Station. In Jorhat, Demow, Moranhat, Borhat, and Bokakhat police stations main staple food comprise of Rice and Wheat and in all other police stations it is Rice. Though there lies a difference in the main staple food, but on the whole food habits are the same.

Table—5 deals with the distribution of villages according to land use. All villagese put to-gather the district have a total land area of 6,94,518.37 hectares. Ths total cultivable area to the total land area in 5,19,204.42 hectares, that is 74.76 percent. Of this the total irrigated area of the district is 5,562.14 hectarers or a modicum of 1.07 percent irrigated area to the total cultivable area.

Police station wise, Majuli Police station having 185 inhabited villages have a total land area of 72,591.35 hectares. Of this 49.33 percent is cultivable area, having no irrigated area of the total cultivable area. In Jorhat police station there are 210 inhabited villages with a total land area of 51,982.82 hectares. Of this 82.79 percent is cultivable area and 0.44 percent area of the total cultivable area is under irrigated. Teok police station having 198 inhabited villages have a total land area of 44,190.92 hectares. Of this 83.13 percent area is cultivable area and 0.73 percent area of the cultivable area is under irrigation. Mariani police station having 93 inhabited villages have a total land area of 30,598 hectares. Of this 86.09 percent is cultivable area and 3.98 percent of the cultivable area is under irrigation. Titabar police station having 186 inhabited villages have a total land area and 1.00 percent of the cultivable area is under irrigation. Amguri police station having 125 inhabited villages have a total land area of 31,505.55 hectares. Of this 83.80 percent is cultivable area and 2.77 percent of the cultivable area is under irrigation. Nazira police station having 166 inhabited villages have a total land area of 50,969.54 hectares. Of this 78.53 percent is cultivable area and 2.07 percent of the oultivable area is under irrigation. Sibsagar police station having 132 inhabited villages have a total land area of 31,631.70 hectares. Of this 83.17 percent is cultivable area and 0.37 percent, of the cultivable area is under irrigation. Demow Police station having 142 inhabited villages have a total land area of 35,151.30 hectares. Of this 83.20 percent is cultivable area and 0.08 percent

TABLE—5

DISTRIBUTION OF VILLAGES ACCORDING TO LAND USE

Sl. No.	Name of Police Station	No. of inhabited Villages	Total area in (hectares)	Percentage of cultivable area to total area	Percentage of irrigated area to total cultivable area
1	2	3	4	5	6
1.	Majuli	185	72,591.35	49.33	—
2.	Jorhat	210	51,982.82	82.79	0.44
3.	Teok	198	44,190.92	83.13	0.73
4.	Mariani	93	30,598.60	86.09	3.98
5.	Titabar	186	39,717.91	87.81	1.00
6.	Amguri	125	31,505.55	83.80	2.77
7.	Nazira	166	50,969.54	78.53	2.07
8.	Sibsagar	132	31,631.70	83.17	0.37
9.	Demow	142	35,151.30	83.20	0.08
10.	Moranhat	110	25,913.60	82.03	—
11.	Sonari	109	33,772.75	73.68	2.37
12.	Borhat	79	17,808.15	68.21	—
13.	Bokakhat	91	53,371.65	48.40	0.67
14.	Dergaon	122	44,534.82	70.72	2.60
15.	Golaghat	390	1,02,786.45	82.49	1.09
16.	Sarupathar	344	27,991.26	78.69	1.87
	Total	2682	6,94,518.37	74.76	1.07

of the cultivable area is under irrigation. Moranhat police station having 110 inhabited villages have a total land area of 25,913.60 hectares. Of this 82.03 percent is cultivable area and irrigated area under the police station is recorded as nil. Sonari police station having 109 inhabited villages have a total land area of 33,772.75 hectares. Of this 73.68 percent is cultivable area and 2.37 percent of the cultivable area is under irrigation. Borhat Police station having 79 inhabited villages have a total land area of 17,808.15 hectares. Of this 68.21 percent is cultivable area and no area of the police station is under irrigation. Bokahat police station having 91 inhabited villages have a total land area of 53,371.65 hectares of this 48.40 percent is cultivable area is under irrigation. Dergaon police station having 122 inhabited villages have a total land area of 44,534.82 hectares. This 70.72 percent is cultivable area and 2.60 percent of the cultivable area is under irrigation. Golaghat police station having 390 inhabited villages have a total land area of 10,2786.45 hectares. Of this 82.49 percent is cultivable area and 1.09 percent of the cultivable area is under irrigation. Sarupathar police station having 344 inhabited villages have a total land area of 27,991.26 hectarhs. Of this 78.69 percent is cultivable area and 1.87 percent of the total cultivable area is under irrigation.

Thus, this can very well be estimated that in Sibsagar District, as a very nominal cultivable area is covered under irrigation facilities, agriculture in the district mostly depends upon natural rainfall.

A brief analysis of data on Town Directory of Sibsagar District :

The history and scope of Town Directory have already been explained. We shall now look at the different statements depicting different aspects of the town in the district and shall attempt a brief analysis of data presented in the Statements.

Statement I : Status and growth history

Absence of 1981 Census data necessitated deletion of vital aspect of demographic information namely the density of population at the towns of the district. This statement reveals that there are only 10 towns in the district. The largest area of 17.12 sq. kms. is found in case of Jorhat town and the smallest of 1.00 sq. km. in case of Sonari town.

Statement II : Aspects and location of Town

The statement indicates that the state capital Guwahati is in the distance range from 246 kms. to 406 kms. The distance of district headquarters Jorhat from other towns varies between 11 kms. to 100 kms. All the towns except Bokahat, Dergaon and Sonari have the Railway stations within their precinct.

Statement III : Municipal finance

The receipt since exceeds the expenditure side in case of Amguri, Dergaon, Golaghat, Jorhat towns. Sibsagar, Jorhat, Golaghat and Amguri have spent more than 50% in the public health and other convenience purposes.

Statement IV : Civic and other amenities, 1979

Any discussion on the quantum of civic and other amenities available in a town need essentially be linked with the total number of inhabitants in it. Absence of population figure in Column 4 of the statement therefore renders meaningless analysis of the other information provided in the statement. However it is observed that Jorhat and Golaghat have 38.50 kms. and 17.90 kms. of pucca road respectively. Tap water is provided in the towns of Golaghat and Jorhat only.

Statement V : Medical, educational, recreational and cultural facilities, 1979.

The statement reveals that eight town have hospital facilities and other towns have health centre only. A medical college is available in Dibrugarh town.

Statement VI : Trade, Commerce, Industry and Banking, 1979

The statement shows that most of the towns have manufactured Tea, Crude oil, Plywood Fertiliser etc. All towns in the district have banking facilities.

SECTION I

VILLAGE DIRECTORY

Note explaining the codes used in the Village Directory

To facilitate presentation of data in the District Census Handbook some codes have been used against the amenities available in the villages. These are explained below :

Column—5	P	Primary or Elementary School
	M	Junior Secondary or Middle School
	H	Matriculation or Secondary
	PUC	Higher Secondary/Intermediate/Pre-University/Junior College.
	C	College
	I	Industrial School
	Tr.	Training School
	AC	Adult Literacy class/centre
	O	Other Educational Institutions
Column—6 :	H	Hospital
	MH	Maternity Home
	CWC	Child Welfare Centre
	HC	Health Centre
	PHC	Primary Health Sub-Centre
	D	Dispensary
	FPC	Family Planning Centre
	TB	T.B. Clinic
	NH	Nursing Home
	RP	Registered Private Practitioner
	SMP	Subsidised Medical Practitioner
	CHW	Community Health Workers
	O	Others
Column—7 :	T	Tap
	W	Well
	TK	Tank
	TW	Tubewell
	HP	Handpump
	R	River
	F	Fountain
	C	Canal
	L	Lake
	S	Spring
	N	Nallah
	O	Others

Column—8 :	PO	Post Office
	TO	Telegraph Office
	PTO	Post and Telegraph Office
	Phone	Telephone Connection
Column—10 :	BS	Bus
	RS	Railway Station
	NW	Navigable Waterway
Column—11 :	PR	Pucca Road
	KPR	Kutcha Road
	NR	Navigable River
	NC	Navigable Canal
	NW	Navigable Waterway
Column—13 :	ED	Electricity for Domestic Purpose
	EAG	Electricity for Agriculture
	EO	Electricity for Other Purpose
	EA	Electricity for All Purpose
Column—20 :	N	Copies of Newspaper Coming into the Village
	M	Motorcycles/Scooters available in the Village
	C	Cars/Jeeps Available in the Village
	T	Tractors Available in the Village.
