CONTENTS

		Pages
1.	**Foreword**	(v—vi)
2.	**Preface**	(vii—viii)
3.	**Acknowledgements**	(ix)
4.	**Important Statistics**	(xi—xii)
5.	**Analytical Note**	(1—21)

(i) Census Concepts: Rural and urban areas, Census house/Household, Scheduled Castes/Scheduled Tribes, Literates, Main Workers, Marginal Workers, Non-workers etc.

(ii) Brief History of the District Census Handbook

(iii) Scope of Village Directory and Town Directory

(iv) Brief History of the District

(v) Physical Aspects

(vi) Major Characteristics

(vii) Place of Religious, Historical or Archaeological importance in the villages and place of tourist interest.

(viii) Brief analysis of Villages and Town Directory datc

SECTION—I VILLAGE DIRECTORY

1.	**Harishchandrapur Police Station**	
	(i) Alphabetical List of Villages	22— 23
	(ii) Village Directory Statement	24— 41
2.	**Kharba (Chanchal) Police Station**	
	(i) Alphabetical List of Villages	42— 43
	(ii) Village Directory Statement	44— 61
3.	**Ratua Police Station**	
	(i) Alphabetical List of Villages	62— 63
	(ii) Village Directory Statement	64— 77
4.	**Gajole Police Station**	
	(i) Alphabetical List of Villages	78— 81
	(ii) Village Directory Statement	82—109
5.	**Bamangola Police Station**	
	(i) Alphabetical List of Villages	110—111
	(ii) Village Directory Statement	112—125
6.	**Habibpur Police Station**	
	(i) Alphabetical List of Villages	126—129
	(ii) Village Directory Statement	130—157
7.	**Maldah Police Station**	
	(i) Alphabetical List of Villages	158—159
	(ii) Village Directory Statement	160—171

		Pages
8.	**English Bazar Police Station**	
	(i) Alphabetical List of Villages	172—173
	(ii) Village Directory Statement	174—187
9.	**Manikchak Police Station**	
	(i) Alphabetical List of Villages	189
	(ii) Village Directory Statement	190—199
10.	**Kaliachak Police Station**	
	(i) Alphabetical List of Villages	200—201
	(ii) Village Directory Statement	202—221
Appendix—I	Police Stationwise Abstract of Amenities	222—225
Appendix—II	Land utilisation data in respect of Non-Municipal Town	226
Appendix—III	Police Stationwise List of Villages where no amenities are available	227—236
Appendix—IV	List of Villages according to the Proportion of Scheduled Castes and Scheduled Tribes to the total Population by ranges.	237—279

SECTION—II TOWN DIRECTORY

Statement—I		Status and Growth History	280—281
„	II	Physical Aspects and location of Towns, 1979	282—283
„	III	Municipal Finance 1978-1979	284—285
„	IV	Civic and other amenities, 1979	286—287
„	IV(A)	Civic and other amenities in Notified Slums, 1979	288—289
„	V	Medical, Educational, Recreational and Cultural facilities, 1979	290—291
„	VI	Trade, Commerce, Industry and Banking, 1979	292—293
Appendix—Towns showing their outgrowths with population			294

FOREWORD

The District Census Handbook (DCH), compiled by the Census Organisation on behalf of the State Governments, is one of the most valuable products of the Census. The DCH is constantly referred to by planners, administrators, academicians and researchers. It is *inter alia* used for delimitation of constituencies, formulation of local level and regional plans and as an aid to District administration. The district census handbook is the only publication which provides Primary Census Abstract (PCA) data upto village level for the rural areas and wardwise for each city or town. It also provides data on infrastructure and amenities in villages and towns, etc.

The district census handbook series was initiated during the 1951 Census.It contained important census tables and PCA for each village and town of the district. During 1961 Census the scope of the DCH was enlarged and it contained a descriptive account of the district, administrative statistics, census tables and a village and town directory, including PCA. The 1971 DCH series was planned in three parts. Part-A related to village and town directory, Part-B to village and town PCA and Part-C comprised analytical report, administrative statistics, district census tables and certain analytical tables based on PCA and amenity data in respect of villages. However, in some states it was confined to district census tables and in a few cases altogether given up due to delay in compilation and printing.

While designing the format of 1981 DCH series some new features along with the restructuring of the formats of village and town directory have been attempted. At the same time, comparability with the 1971 data has also been kept in view. All the amenities except power supply in the village have been brought together in the village directory with the instruction that in case an amenity is not available in the referrent village the distance in broad ranges from the nearest place where the amenity is available may be given. The restructuring of the format of the village directory and incorporating more exhaustive data on infrastructure aspect particularly in relation to amenities and land-use pattern is expected to further meet the need of micro level planning for rural areas. It is expected to help not only in local area planning but regulating the provision of goods and services as well so as to minimise the regional imbalances in the process of development. A few new items of information have also been introduced to meet some of the requirements of the Revised Minimum Needs Programme. Such new items of information as adult literacy centres, primary health sub-centres, and community health workers in the village have been introduced in the village directory with this objective in mind. The new item on approach to the village is to have an idea about the villages in the district which are inaccessible. A new column, "total population and number of households" has been introduced to examine the correlation of the amenities with the population and number of households they serve. Addition of two more appendices listing the villages where no amenities are available and according to the proportion of scheduled caste and scheduled tribe population to the total population has also been made with this view in mind.

The formats of the town directory have also been modified to meet the requirements of the Minimum Needs Programme by providing information on a few new items. A new statement on civic and other amenities in slums in Class-I and Class-II towns (Statement IV-A) has been introduced with this objective in mind. It is expected that this will help the planners to chalk out programmes on provision of civic amenities for the improvement of slums. The columns on Scheduled Castes and Scheduled Tribes population in statement IV relating to civic and other amenities and adult literacy

classes/centres under educational facilities in statement V are also added *inter alia* with this view. A significant addition is class of town in all the seven statements of the town directory. The infrastructure of amenities in urban areas of the country can be best analysed by taking the class of towns into consideration. The addition of the columns of civic administration status and population in a few statements also serves this purpose.

The format of the primary census abstract for the villages and towns has been formulated in the light of changes in the economic and other questions canvassed through the individual slip of 1981 Census.

In order to avoid delay in publication of 1981 DCH series it has been so designed that Part-A of the volume contains village and town directory and Part-B, the PCA of villages and towns including the Scheduled Castes and Scheduled Tribes PCA upto Police Station/Town levels. At the beginning of the DCH a detailed analytical note supported by a number of inset tables based on PCA and non-census data in relation to the infrastructure has been introduced to enhance its value. The district and Police Station level maps depicting the boundaries and other important features have been inserted at appropriate places, to further enhance the value of the publication.

This publication is a joint venture of the State Government and the Census Organisation. The data have been collected and compiled in the State under the direction of Shri S. N. Ghosh, I.A.S. the Director of Census Operations, West Bengal on behalf of the State Government which has borne the cost of printing. The task of planning, designing and co-ordination of this publication was carried out by Shri N. G. Nag, Deputy Registrar General (Social Studies) of my office. Dr. B. K. Roy, Deputy Registrar General (Map) provided the technical guidance in the preparation of the maps. Data received from Census Directorates have been scrutinised in the Social Studies Division at the headquarters under the guidance of Shri M. M. Dua, Senior Research Officer. I am thankful to all who have contributed in this project.

New Delhi
the 26th April, 1982

P. PADMANABHA
Registrar General, India

PREFACE

The District Census Handbook compiled by the Census Directorate, West Bengal, on behalf of the Govt. of West Bengal, containing Census Statistics besides other invaluable data of importance for use by the State Govt., district administration, research scholars and various other data-users owes its origin to 1951 Census. The present publication of 1981 Census is fourth in the series.

The Census of 1981 was conducted in February, 1981 with sunrise of 1st March, 1981 as reference date under the stewardship of Shri S. N. Ghosh, Director of Census Operations, West Bengal. The credit for the success of the operation goes entirely to Shri Ghosh. However, before the report could be finalised, Shri Ghosh had to resume his duties under the Govt. of West Bengal in public interest. The present publication is the product of his dedicated labour, immaculate planning and sterling administrative capabilities. Without the active involvement and inspiring leadership of Shri Ghosh, the present publication would have been a still birth.

The Census statistics in the form of Village and Town Directory included in the publication relate to the district of Murshidabad. A brief analytical note with a number of inset tables based on Census data, included in this publication, will hopefully meet the requirements of the readers.

As mentioned earlier, the 1981 Census Operations in West Bengal was conducted by Shri S. N. Ghosh as Director of Census Operations under the inspiring captaincy of Shri P. Padmanabha, former Registrar General and ex-officio Census Commissioner of India, whose imaginative planning, enthusiastic support and electrifying guidance led us to successful completion of an undoubtedly difficult operation. We silently recall the contribution of Sri Padmanabha.

Shri V. S. Verma, the present Registrar General, India, has been guiding us soon after his assumption of office in 1983 to oversee the timely completion of the project. Without his active support, deep understanding and mature guidance, the publication would not have progressed much. We are greateful to Shri Verma.

We gratefully recall the help, guidance and advice received from Shri V. P. Pandey, Joint Registrar General, India in technical and administrative matters relating to this project.

Dr. N. G. Nag, Deputy Registrar General (Social Studies) and his colleagues had provided us technical guidance and scholarly assistances right from the start of the project. We acknowledge our debt to him and his colleagues.

We are also indebted to Shri K. K. Chakraborty former Deputy Registrar General (C & T) and Shri N. Rama Rao, Asstt. Registrar General, for their helpful suggestions. Dr. B. K. Roy, Deputy Registrar General (Map) had provided us excellent support and guidance in cartographic matters. We are indebted to him.

The data presented in the volume were collected at grass-root level by the District Magistrate, Murshidabad (Principal Census Officer) and his innumerable colleagues including the Charge Superintendents. We acknowledge their contributions to the preparation of this volume.

The final tabulation and compilation of data have been done by the Central Tabulation Unit of this office under the supervision of Sri Swapan Kumar Guha, Investigator, first under the guidance and supervision of Shri M. N. Sarker, Asstt. Director of Census Operations, (since retired) and later under Shri A. K. Dutta, Deputy Director of Census Operations, West Bengal. Without their sincere efforts the data could not have been finalised. The analytical note was prepared by Shri S. K. Guha, Investigator and scrutinised, edited and finalised by Shri A. K. Dutta, Deputy Director of Census Operations, West Bengal. The publication is a silent testimony to their labour and love.

The printing work was supervised very efficiently by Sri S. K. Guha, Investigator, under the able guidance of Sri A. K. Dutta, Deputy Director without whose direct involvement the publication could not have seen the light of the day. We recall Sri Datta's effective contribution with admiration.

There were also officials who had contributed to the project from behind the curtain. Among the officials of the State Govt. who had helped us in various stages of the publication are Shri K. J. Basu Roy Chaudhury, WBCS., Shri B. Bhattacharyya, WBCS., both Deputy Secretaries to the Govt. of West Bengal, Home (C & E) Department, Writers' Buildings, Calcutta, and their colleagues to whom we pay our tribute. Mention should also be made of the Controller of Stationery, Govt. of West Bengal, for kindly providing us the necessary printing materials.

Lastly, we must express our appreciation to The Eureka Printing Works (P) Ltd., for the printing of this publication.

SUKUMAR SINHA
Joint Director of Census Operations
West Bengal

	Uninhabited		3,088	188
Number of Towns			291	4

ANALYTICAL NOTE

ANALYTICAL NOTE :

It has been the tradition of the Indian Census to present the census data under the two broad divisions termed urban and rural.

The definition of an urban unit at the 1981 Census is as follows :

(a) All places with a corporation, municipality, Town Committee, Notified Area, Cantonment.

(b) All other places which satisfied the following criteria :

(i) A population of 5,000 as the minimum,

(ii) Density per square kilometre would be a minimum of 400, and

(iii) at least 75% of the male working force should be engaged in non-agricultural pursuits.

Apart from town/city the 1971 concept of urban agglomeration is also adopted for the 1981 Census. An urban agglomeration means a stretch of urban area covering more than one municipality/town/urban outgrowth within a geographically contiguous urban continuum. An urban agglomeration shows how a particular area has had geographically continuous urbanisation.

Mention may be made in this connection of urban outgrowths. The concept of urban outgrowth has come into force for the first time in 1981 Census. The outgrowth, which must necessarily be contiguous to an urban area, is itself an urban area in so far as it fulfils the last two criteria of being an urban unit, but it falls short on the population front *i.e.* it would have a population of less than 5,000 but more than 600.
All other areas which are not covered by the definition of urban as stated above will be treated as Rural.

CENSUS HOUSE :

We defined the Census houses in the following manner :—"A census house is a building or part of a building having a separate main entrance from the road or common courtyard or staircase etc. used or recognised as a separate unit. It may be occupied or vacant. It may be used for a residential or non-residential purpose or both." Actually to make the concept understandable and applicable in field we had to introduce the concept of Singleness of use. What, as per the above definition, would be a census house otherwise might not be so if there is no singleness of use.

HOUSEHOLD :

We defined household as follows : "The household is a group of persons who commonly live together and would take their meals from a common kitchen unless the exigencies of work prevented any of them from doing so. There may be a household of persons related by blood or household of unrelated persons or having a mix of both."

SCHEDULED CASTES/SCHEDULED TRIBES :

We have our own list of scheduled castes and scheduled tribes notified for our state only. If the person belonging to a scheduled caste or scheduled tribe returns his caste or tribe by a synonym or generic name of a caste or a tribe, the information was noted if it found place in the notified list. All efforts were given to ascertain the correct name of the scheduled caste or tribe as found in the notified list. For a household belonging to scheduled castes or scheduled tribes, religion of the head of household was also examined. Scheduled caste population are found only among the population belonging to Hindu and Sikh religions but the scheduled tribe population may belong to any religion.

LITERATES :

In the census terminology, a person who can both read and write with understanding in any language is to be taken as literate. A man who can merely read but cannot write is not a literate. It is not necessary that a

person who is literate should have received any formal education or should have passed any minimum education standard. All the children of the age of four years or less were treated as illiterate even if the child was attending a school or might have picked up reading and writing.

Careful attention was also given while collecting information on educational attainment of individuals. The highest education level attained by the person enumerated was recorded. This information is vital for manpower planning.

MAIN WORKERS :

The definition of worker difference between 1971 and 1981 and the system of dividing the entire population by application of the concept of worker has also undergone a very important change. Earlier in 1961 and then in 1971 the total population was divided into two categories mutually exclusive of each other. They were workers and non-workers respectively. But in 1981, this dichotomy has been replaced by a trichotomy with three categories mutually of each other, *viz.* main workers, marginal workers and non-workers.

The 1961 Census definition of worker was as follows :

"The basis of work will be satisfied in the case of seasonal work like cultivation, livestock, dairying, household industry etc., if the person has had some regular work of more than one hour a day throughout the greater part of the working season. In the case of regular employment in any trade, profession, service, business or commerce the basis of work will be satisfied if the person was employed during any of the fifteen days preceding the day on which you (Enumerator) visited the "Household". In 1971, the following definition was applied : "A worker is a person whose main activity is participation in any economically productive work by his physical or mental activity. Work involves not only actual work but effective supervision and direction of work. The reference period is one week prior to the date of enumeration in the case of regular work in trade, profession, service or business. If a person had any such regular work on any one of the days during this reference period and this has been returned as his main activity the person will be categorised accordingly.....There are certain types of work which are not carried on throughout the year such as cultivation, livestock keeping, plantation work, some types of household industry etc. A person's main activity should be ascertained with reference to such work in last one year even if he was not economically active in the week prior to enumeration."

Further, those who did not do any work in the manner described above, yet did some work to come under the category of secondary worker. As per 1971 definition, it was to cover "cases like persons performing household duties or students who may not be engaged in any other economically productive work at all, as also those who, though basically are performing household duties or students etc., for the purpose of their main activity, still participated in some other economic activity such as helping the household in several items of work, as in cultivation, or in household industry, or in looking after the cattle, in attending to family business etc., but not to the extent as a full time work. Such participation will be considered as secondary work of those persons.....participation of work that goes to augment the income of the household will only be treated as economic activity."

In 1981 Census any one who has done any work at all during the last one year is a worker. The definition of work as participation in any economically productive activity either in physical or mental way remain more or less the same as in 1971. But this time the population has been classified into three main groups, each mutually exclusive of the others. The main workers are those who have worked major part of the year preceding the enumeration. In other words, the main worker is somebody who has done economically productive work for at least 183 days during the year preceding enumeration. All workers have been categorised in four distinct parts *viz.* (i) Cultivators, (ii) Agricultural Labourers, (iii) Household Industries and (iv) other workers in 1981 Census. This is a major departure from the 1971 categories of workers. In 1971 Census the workers were divided in nine categories.

MARGINAL WORKERS :

The marginal workers are those who have worked any time at all in the year preceding enumeration but have not worked for a major part of the year. In other words, marginal workers are those who participated in economically productive work for less than 183 days during the year preceeding Enumeration.

NON WORKERS :

Non-workers are those who have not done any economically productive work at all during the last one year. All non-workers have been divided into seven categories in 1981 Census. They are (i) Students, (ii) Household duties, (iii) Rentiers/Retired Persons, (iv) Beggars etc., (v) Inmates of Institutions, (vi) Dependents and (vii) Others.

DISTRICT CENSUS HANDBOOK :

The District Census Handbook was started printing from 1951 Census. The Government and the Development agencies felt necessity of the data at micro-level for the social and economic development all over the country during the post independence era. Until then, the compilation of data was limited to district, police station and town levels only. In 1951, it was extended to the mouza level.

The publication programme of District Census Handbook of 1951 continued undisturbed in 1961 also and it was enlarged with the introduction of official statistics.

The major changes in the District Census Handbook publication were introduced in 1971. The District Census Handbook 1971 was divided into three parts *viz.* Part XA, Part XB and Part XC. The first part dealt with Village and Town Directories. In Village Directory the villagewise data on amenities available was given and the information in respect of each town was given in the Town Directory. The Part XB consists of Village and Townwise, (Wardwise for Municipalities, Town Committees and all Statutory Towns) Primary Census Abstract of the concerned district.

The third part *i.e.* Part XC dealt with the non-census data and social, economic and cultural tables. All the three parts were printed either in two volumes *i.e.* Part XA & XB and Part XC or in three volumes Part XA, Part XB and Part XC separately aecording to the size of districts.

The scope of District Census Handbook 1981 has been enlarged considerably specially in relation to the amenities available in the villages and towns and landuse pattern in villages and non-municipal towns. The collection of data on recognised slums of Class I and Class 1I towns of the state is a new addition of 1981 in the Town Directory portion of the District Census Handbook. The format of the primary census abstract have been restructured due to the change of economic questions. The data on marginal workers collected through the canvassing of individual slips is an important addition. Workers have been categorised in four sectors instead of nine in 1971.

SCOPE OF VILLAGE DIRECTORY :

A twenty column format was canvassed during 1981 Census period for collection of data from each and every mouza within each police station. This is called village directory. The mouzas within a police station have been represented in order of their location codes. This twenty column format has been divided in four parts. The column nos. 1—4 represent general information, column nos. 5—14 represent amenities available, column nos. 15 to 19 are meant for landuse pattern and the column 20 contains special information in respect of historical, archaeological and religious interest about the mouza. At the end of each police station, the totalling has been done for col. nos. 3 to 6 and 15—19. If any amenity is not available in the village a dash '—' has been marked in the relevant column and next to it the distance of the nearest place where the facility is available has been given in the broad ranges.

The following systems were followed for indicating educational institutions, if any, located within the villages. The abbreviations used for the educational institutions are also given below :—

1. Primary or Elementary School (P)

All nursery, kindergarten, pre-basic, pre-primary, Junior Basic School upto Class V and Primary School upto Class IV have been included in this group.

2. Junior Secondary or Middle School (M).

All schools from Class V to Class VIII including Junior Madrasa upto Class VIII have been noted in this group.

3. Secondary School (H)

All schools upto Class X including the schools providing Senior Cambridge Course and High Madrasa upto Class X have been treated as high school.

4. Higher Secondary School (PUC)

All educational institutions where the education is imparted for Class XI and XII have been marked for this group.

While collecting the data according to the pattern as stated above certain limitations were imposed. We have considered only those institutions which are recognised by any competent authority and the specific classes of a school upto which recognition has been given. In case of composite schools like secondary schools with middle classes and primary classes or middle schools with primary classes, the relevant groups of classes have been treated separately, *e.g.*, a composite school having classes upto XII (Twelve) has been divided as follows :—

Classes from I to IV	...	(P)
,, ,, V to VIII	...	(M)
,, ,, IX to X	...	(H)
,, ,, XI to XII	...	(PUC)

It is to be noted that by dint of the above kind of division, we are not going by how many educational institutions physically exist within a village, but by occupying of classes each group being treated as a school of its kind. It is also to be noted that the said groupings will hold true irrespective of the educational institution they belong to. For example, the grouping marked as PUC *i.e.* Class XI and Class XII may physically belong to a college, but for the purpose of the Village Directory, these two classes taken together has constituted one unit of PUC., the rest of the classes has been treated as a college.

5. College (C)

Any college with the disciplines of Arts, Science and Commerce have been grouped here.

6. Industrial School (I)

7. Training School (Tr)

8. Audit literacy Class/Centre (AC)

9. Other educational Institution (O)

(Sanskrit tole, senior basic school, Makhtab etc. have been noted as others).

It is needless to mention once again that in sl. no. 5 to 9 the institutions having recognition from any competent authority have been taken into account.

In case of more than one institution of a type in the village, the number of institutions have been indicated in brackets. If any of the educational institutions as stated above is located in a village, the existence of other types of educational institutions located in nearest village(s) have not been collected. Suppose, a primary school is functioning in the village, but there is no middle or high school in the village under reference, in this case we have not indicated the distance of the nearest place where a middle school or a high school

exists. Similarly, if there is a high school only a particular village, no efforts are given for collecting distance of a nearest place where a primary or middle schoool exists. The distance by ranges of a nearest place where educational facility is available have been collected from villages having no facility of any of the above mentioned nine categories of educational institutions.

In the medical fields there is a variety of amenities. These are indicated with abbreviations whether within the village exists any of the following medical institutions :—

Hospital	H
Maternity Home	MH
Child Welfare Centre	CWC
Health Centre	HC
Primary Health Centre	PHC
Primary Health Sub-centre	PHS
Dispensary	D
Family Planning Centre	FPC
TB Clinic	TB
Registered Private Practitioner	RP
Community Health Worker	CHW
Others	O

The information have been collected in respect of those institutions only which are organised and/or aided by Government/semi-Government/Public bodies/local bodies/social service agencies like the missionaries. The institutions run by private individuals have not been covered. But the information on Registered private Practitioners of any branch have been noted. If there are more than one facility in the village, the same have been indicated in appropriate abbreviations. In case of more institutions of a type in the village, the number of institutions have been indicated against the abbreviations in bracket where no amenity is available within the village, a dash (—) has been shown in relevant column and any of the facilities as given above available in a nearest place have been noted showing the distance in broad ranges.

The sources of drinking water available within the village have been indicated by codes as follows :—

Tap	=	T	Fountain	=	F
Well	=	W	Canal	=	C
Tank	=	TK	Lake	=	L
Tubewell	=	TW	Spring	=	S
Hand Pump	=	HP	Nallah	=	N
River Water	=	R	Others	=	O

If there are more than one source of drinking water in the village, the same have been indicated in appropriate abbreviations in the relevant column. In absence of any source of drinking water in the village, a dash '—' has been given in the relevant column and next to it the distance in broad ranges of the nearest place where any of the aforesaid facilities if available has been given.

The Post & Telegraph amenities available within the village have been collected by codes as given below. The Post office includes Branch and Sub Post Offices also. The villages having no facilities in respect of Post & Telegraph, have been marked by dash (—) in the relevant column and next to it the distance in broad ranges of the nearest place where any of the facilities as given below is available has been noted.

Post Office	=	PO
Telegraph office .	=	TO
Post & Telegraph office	=	PTO
Telephone connection	=	Phone

The information on hat, market have been collected for each village. The day(s) of the week on which market/hat is held have been taken into account. Where the market/hat is held daily in a village, it has been recorded as "daily". In absence of hat/market in the village, the distance in broad ranges of the nearest place have been shown where it is held.

It has been looked whether the village is served by any mode or public transport like bus, rail and waterways and the abbreviations adopted for this purpose are given below :—

Bus	BS
Railway Station	RS
Navigable waterways (including river, canal etc.)	NW

If there is more than one facility in the village, these have been indicated separately by individual codes as given above. If no facility is available within the village, a dash (—) is shown in the column and next to it in brackets, the distance in broad ranges of the nearest place where the facility is available is given.

Approach to the village refers to the state of roads leading to the village from the communication centre. The approach to village has been indicated by following abbreviations :—

Pucca Road	PR
Kucha Road	KR
Navigable River	NR
Navigable Canal	NC
Navigable Waterway (Other than river or canal)	NW

If there is more than one approach to a village, the same has been given by appropriate codes in the relevant column.

The name of the nearest town and its distance in kilometers from the village has been collected. The nearest town so indicated may not be located within the state of West Bengal, this may be located in the neighbouring state also. The operational conveniences have only been taken into consideration while collecting this information. Only those towns have been considered, which have been declared urban according to 1981 Census.

The facilities of power supply have been collected from the village where it is available in the following codes :—

Electricity for Domestic Consumption	ED
Electricity for Agricultural Consumption	E. Ag.
Electricity for other purposes like industrial, commercial etc.	EO
Electricity for all purposes listed above	EA

Where the power is consumed for more than one purpose, this has been indicated accordingly.

The staple food, only in terms of grains, consumed by the majority population of the village during the major portion of the year have been recorded. The grains may be rice, wheat, jawar, maize etc. Sometimes a combination of these grains have been consumed by the villagers as the staple food. In that case, it has been indicated as reported.

The land use pattern of the village has been presented in five broad categories. These are as follows :—

1. Forest— This include all lands classed as forests under any legal enactment dealing with forests. This may be owned by the state or by any private individual. Land maintained as

potential forest land have also been treated as forests. Any area used for any other purpose but situated within the forest so defined, is treated as 'forest'.

2. ***Irrigated land***— *It relates to the land which has actually been irrigated under* different types of irrigation for the purpose of cultivation. The sourcewise break-up of area in hectares under different systems of irrigation has been given. The codes in respect of sources have been noted as under :—

Government Canal	GC
Private Canal	PC
Well (without electricity)	W
Well (with electricity)	WE
Tube well (without electricity)	TW
Tube well (with electricity)	TWE
Tank	TK
Lake	L
River	R
Waterfall	WF
Others	O

3. **Unirrigated land**— All areas under rainfall crops or under dry rice cultivation have been classified as unirrigated areas.

4. **Culturable Waste**— It is defined as the lands within cultivated holdings have not been cultivated during the current year and last five years or more in succession. Such lands may be either fallow or covered with shrubs and jungles. Land under thatching grasses, bamboo bushes and other groves for fuels etc., which are not included under orchards or forests and land grazing, meadows have also been included in this category.

5. **Area not available for cultivation**— This stands for barren, uncultivable land and land put to non-agricultural use. Barren and unculturable lands cover land within cultivable holdings which cannot be brought under cultivation without incurring a high cost. Land put to non-agricultural use stands for all lands occupied by buildings, roads and railways or under water *e.g.* rivers and canals etc.

Any important place of religious, historical and archaeological interest within the village have also been mentioned in the village directory. Information on the number of copies of newspapers coming in the village, and motor cycles/scooters/cars-Jeeps and tractors available in the village have been mentioned accordingly and denoted the following codes :—

Newspapers	N
Motors cycles/scooters	M
Cars/Jeeps	C
Tractors	T

In addition to the information that have been collected through Block Development Office, the following four appendices to the Village Directory have also been compiled :

I. Police Stationwise abstract of educational, medical and other amenities.

II. Land utilisation data in respect of non-municipal (non-statutory) Census Towns.

III. Police Stationwise list of villages where no amenities are available.

IV. Police Stationwise list of villages according to the proportion of scheduled castes/scheduled tribes population by ranges.

The first two appendices have been provided for obtaining actual position regarding various amenties available in the police station and as well in the district and the land utilisation pattern in the non-municipal census towns which have been treated urban by virtue of the criteria prescribed for urban units. Appendix-III has been devised for planning input in areas where basic infra-structure is lacking. Appendix-IV has been prepared for the purpose of planning of welfare programmes for scheduled castes and scheduled tribes at micro-level, particularly in relation to the area develoment oriented programmes.

SCOPE OF TOWN DIRECTORY :

The Town Directory has been prepared for all the statutory towns like Municipal Corporation (MC), Municipalities (M), Notified Areas (NA), Town Committee (TC) and Cantonment areas as well as the non-statutory census towns (NM) including the outgrowths. The particulars about each town have been presented in seven statements each dealing with a particular set of information. The information so collected in the seven statements is independent of each other. The statement IVA is a new addition in town directory statements. It covers the information regarding demographic, civic and other amenities available in the notified or recognised slums having a population of 50,000 or more. The towns having outgrowths has been identified with the asterisk mark (*) and the information available on outgrowths for each statement have been included with the information of core town. In some cases we have failed to give information as detailed in the statements. In that case information not available (NA) has been quoted in the respective column.

The population of each town during 1981 Census has been considered for determining the class of towns. All the towns have been divided into six classes according to the range of population. They are as follows :—

1.	Population one lakh and above	... Class	I
2.	Population from 50,000 to 99,999	... ,,	II
3.	Population from 20,000 to 49,999	... ,,	III
4.	Population from 10,000 to 19,999	... ,.	IV
5.	Population from 5,000 to 9,999	... ,,	V
6.	Population less than 5,000	... ,,	VI

A brief discussion on seven statements is given below :—

Statement I :

This statement provides some basic data based on the Primary Census Abstract. It deals with the status and growth history of the town. The column no. 1 to 5 gives information on class, civic status, name of the town and its location code with the police station the town belongs to. The area of the town in square kilometre has also been given. The column no. 6 to 19 give demographic information of the town. Where the town did not have any urban status for the reference year (s), a 'dash' (—) has been given under these column (s). The decadal growth in percentage has been shown below the population figures from column no. 8 to 15. The status of the statutory towns has been fixed as on April 1980.

Statement II :

The statement deals with the physical aspects and location of the town as on April 1980. This statement is divided into two. First dealing with the climatological data which include rainfall and maximum-minimum temperature. The information on climatological aspects are not available in respect of some of the towns. In that case the information noted from the nearest place where it is available. This alternative however, could not be followed uniformly due to the fact that the data are not available for the nearest place even. In such cases the information not available (NA) has been stated. In the second part *i.e.* in column no. 6 to 12 the locational particulars have been stated for the referrent town.

Statement III :

Data on municipal finances for the year 1978-79 have been presented relating to the civic administration of the statutory bodies. The information in respect of the non-municipal census towns have also been collected wherever available and have been shown in the statement. The information on finances have been collected from the concerned local body. In case of non-municipal census towns, the information has been collected from the panchyat. The non-municipal census town having no information has been marked with information not available (N.A.)

Statement IV :

This statement contains 19 columns. The column no. 1 to 5 provide general information of the town and the column no. 6 to 19 deal with the amenities having in the referrent town. Where the town is not served by the fire fighting services of its own, the name of the nearest place from where the referrent town gets services has been given. In absence of any of the public amenities as referred to in col. 6 to 19 the relevant column has been depicted suitably like dash (—) which means amenities not available and information not available (NA) respectively.

Statement IVA :

Information about notified or recognised slums have been given in this statement. The information is limited to the slums located in Class I and Class II towns only. The civic and other amenities that are being available to the slum-dwellers have been given in this statement. In case of more than one slum in a town, it has been spelt-out separately and the information have been submitted separately for each slum.

Statement V :

This statement deals with the medical, educational, recreational and cultural facilities existed in the town as on 1979. If there is more than one institution of any type, it has been indicated within bracket in number. In case of medical institutions, the institutions run by the private doctors have not been taken into account. The institutions run by or aided by Government, Semi-Government, Local bodies, Charitable Institution and Social Service Agencies like Missionaries etc. have been counted. Where these facilities were not available, the distance of the nearest place where these facilities are available has been noted. The Family Planning Centres attached to hospitals or Maternity and Child Welfare Centres or Primary Health Centres have been treated as separate units. The Maternity and Child Welfare Centres, Veneral Disease Clinic, Chest Clinic and Leprosy Clinic etc. have been treated as independent institutions and indicated in "Others" category of medical institutions.

While presenting the data on educational institutions, the same procedure as in Village Directory has been followed in respect of the school and college education. The column 6 includes educational institutions like Teachers' Training College, Basic Training College etc. The information on short hand, type-writing and other vocational training Institutions have been given in column 10. In this case only the recognised institu-

tions have been considered. The "recognised" means recognised by any statutory authority—like the Education department, Commerce department, Labour department etc. of the Government or Semi-Government or autonomous bodies, public sector projects like municipality, corporation etc.

The vocational institutions like Music/Dancing school, Art College, Painting/Clay-modelling institutions etc. have been covered under col. 10. The institutions which are not included in cols. 6 to 14 have been taken in col. no. 15 under "Others". The columns 17-20 deal with the recreational and cultural facilities of the town.

Statement VI :

This statement contains particulars of Trade, Commerce and Industry of the town. It also depicts information on Banking institutions like Banks, Agricultural Credit Societies and non-agricultural credit Societies.

The details of abbreviations used in different statements of Town Directory are given below :—

BRIEF HISTORY OF THE DISTRICT.

The district of Maldah derives its name from the town now called Old Maldah. The word Maldah comes from the Arabic word 'Mal' meaning wealth. The name possibly signifies that during the medieval period, Maldah grew vigorously as a trading centre and was a place of great wealth and prosperity.

The district has a very rich history from ancient times. It contains within its limits the sites of Pandua and Gour, the capital cities of Bengal throughout medieval times. Both the towns are located north and south of English Bazar, almost at a equal distance, Gour being on the western bank and Pandua on the eastern bank of the river Mahananda. Both the towns contain old relics which make them places of great tourist attractions.

PHYSICAL ASPECTS.

The district of Maldah lies between the latitudes 25° 32′ 08″ and 24° 40′ 20″ in the northern hemisphere and is situated entirely to the north of the tropic of cancer. The easternmost extremity of the district is marked by 88° 28′ 10″ east longitudes and its westernmost extremity by 87° 45′ 50″ east longitudes.

With a territory extending over 3733.0 Sq. Kilometres, the district is bounded on the north by the Purnea district of Bihar and West Dinajpur district, on the east by the Rajsahi District in Bangladesh, on the south by the Murshidabad District and on the west by the Murshidabad, Santal Parganas and Purnea Districts.

The part of the district is that of a low lying plain sloping gently towards the south. The north eastern part of the district contains a few elevated tracts. Parts of these high lands have elevations upto 30 metres from

the river level. These elevations are intersected by deep water Channels thereby giving the appearance of small hills.

Two important rivers, the Ganges and the Mahananda flow through the district of Maldah. All the main rivers of the district are of Himalayan or Sub-Himalayan origin and flow in southernly directions. Mahananda has an important tributory called Kalindri, which receives in its flow tributory viz. Kalkos, Kankar, Kos and Baromasia. These four small streams are the sources of floods in the district during the rainy season.

MAJOR CHARACTERISTICS OF THE DISTRICT.

The forests of the district occupy an area of 20 square kilometres which constitute 0.54 percent of the total area of the district. The district derives its power from the West Bengal State Electricty Board. All the four towns in the district have electricity. As regards electricity in rural areas, 512 inhabited villages out of 1615 have so far been electrified in the district which constitute 31.70 percent of the total inhabited villages of the district of Maldah. The classification of land use area in Maldah as on 1976-77 is given below :—

i)	Net cropped area	291.28	thousand	hectares
ii)	Land put to non-agricultural uses	54.54	,,	,,
iii)	Barren and unculturable waste	0.24	,,	,,
iv)	Misc. tree crops and groves	1.37	,,	,,
v)	Culturable waste	5.30	,,	,,
vi)	Other Fallow land (Other than current fallow)	0.72	,,	,,
vii)	Current Fallow	1.08	,,	,,

The economy of the district of Maldah is mainly rural in nature. Agriculture is the principal source of livelihood of the people of the area. Cultivation and agricultural labourers together constitute 74.30 percent of the total workers in the district according to 1981 census. As per data of 1976-77, the total area under production of food grains was 399.7 thousand hectares. Rice was cultivated in 248.1 thousand hectares and wheat in 40.3 thousand hectares. The fibres mainly jute and masta were cultivated in 24.1 and 1.8 thousand hectares respectively. Barley and pulses were cultivated in 14.8 and 80.1 thousand hectares of lands respectively. The total food grains produced during 1976-77 were 410.7 thousand tonnes of which cereals being 367.5 thousand tonnes. Of the cereals again rice and wheat were produced 262.2 and 81.7 thousand tonnes respectively. The fibres produced during 1976-77 were 157.2 thousand bales (180 kgs in each thousand bales) of which jute being 147.1 thousand bales and the remaining fibres were masta.

The yields per hectare of land during the year 1976-77 were 1057 kgs for rice ; 2026 kgs for wheat.

The tank irrigation is the major source for agriculture in the district. There are large number of tanks in the district. Since tank irrigation is not always sufficient to cater the needs in the respect, various other irrigation schemes were executed by the Government to ensure adequate irrigation facilities to the cultivators. Such schemes are, the Government of West Bengal had installed 128 Deep Tubewells, 353 schemes of River lift irrigation and 239 shallow tubewells have been sunk in the district by the end of 1976-77.

There is no big or large scale industries in the district. But the small scale industries of this district play a vital role in its economy. The most important of all the industries of Maldah is silk. It has a traditional past and is still the life bird of the district. There were only 8 registered working factories in the district in 1977. But the number of registered small scale industries accounted for 1256 in the referent year. According to the house census held in August — September 1980, Factories, workshops and worksheds occupied exclusively 2685 census houses in the district Maldah. Workshops-cum-residence including household industry covered 10020 census houses.

The most important export commodities of the district are silk, cotton, mango, rice and jute. In addition to that fruit products and bidi are also exported. Of the import commodities, wheat, coal, cloth, pulses, sugar and mustard oil are important.

The district is well served by roads. The national Highway No. 34 connecting Calcutta with Siliguri falls within this district. It covers a distance of 108 kilometres in the district of Maldah. There are three State Highways in the district. They are 32 kilometres long Manickchak — English Bazar Road, 26 kilometres long State highway passes by the side of Adina and Pandua and the third one — the State Highway the length of which is 32 kilometres connects Gajol with Baniadpur of West Dinajpur District.

Amongst the other roads, Gajol — Samshi-chanchal — Harishchandrapur is important. The length of this road is 53 kilometres. There is another important road which connects Gajol with Bamangola, Habibpur and Bulbulchandi. The length of this road is 42 kilometres. A 16 kilometres long road links Manikchak with Ratua. Ratua is connected with Samchi by another short road measuring about 16 kilometres.

The Public Works and Public Works (Roads) Departments in West Bengal maintained 572 kilometres Extra Municipal Roads in 1977. Of these, 537 kilometres were surfaced. The Extra municipal roads maintained by the Zilla Parishad were 822.75 kilometres in the year under reference. The length of roads maintained by the municipalities in the district of Maldah was 87.05 kilometres in the said year.

Maldah is connected by railway. Northeast Frontier Railway serve the people of Maldah. Maldah has become a Divisional headquarters of the Northeast Frontier Railway.

PLACES OF RELIGIOUS, HISTORICAL OR ARCHAEOLOGICAL AND TOURIST INTEREST

Among the important historical, archaeological and as well as the tourist spots in the district, the names of Gour and Pandua may be mentioned. The city of Gour, a deserted capital of Bengal is situated at an Old channel of the ganges, 16 kilometres South West of English Bazar. Its dimensions as defined by the embankments is about 12 kilometres in length north and south and about 2 to 3 kilometres in breadth from east to west. It is said that at the time of the Mohomedan invasion another name of the city was Lakhnauti or Lakshmanavati. Of the fort within the city two gates, the Dakhil Darwaza and the Lukachuri, exist with a part of the ramparts. Within the fort precincts are some remains of the palace wall and various buildings. Gour is full of dighis and tanks of various sizes. Of these, within the limits of the city, the Chotta Sagar Dighi measuring 640 by 384 metres lies north and south. There is another large dighi, just behind the Piasbari dak bungalow about 402 metres in length and about 238 metres in breadth. But the largest of all is the great sagar Dighi which measures 1463 by 731 metres.

Another historical place Pandua an old capital of Bengal in the Barind or Barendra bhum situated at distance of about 10 kilometres north-east from Old Maldah. The ruins of the city of Pandua is the evidence of an earlier Hindu dynasty. During the Mohammadan times, the city was called Firozadabad. The remains which now exist may be divided into those of Pandua and Adinah, the distance between the places being about 3.5 kilometres.

There are several buildings of interest at Old Maldah, though they are of a later date than those at Gour or Pandua. The oldest is known as the phuti masjid or cracked mosque. The date ascribed to it is 1495. The Juma Masjid is a large building. The date ascribed to the building is 1596. At the confluence of the rivers Kalindri and Mahananda, there stands a minar known as the Nimasarai tower. The tower is about 17 metres high.

ANALYSIS OF DATA

It is a census tradition to analyse certain data on social and demographic information collected during census enumeration and from ancillary projects like Town Directory and Village Directory. The District Census Handbook 1951 and 1961 were decorated with such analysis which were most attractive to the scholars. The District Census Handbook 1981 follows the same manner as in 1951 and 1961. A large number of inset tables has been prepared on Town Directory, Village Directory and Primary Census Abstract to make the analysis more scientific and acceptable.

TABLE—1 DISTRIBUTION OF VILLAGES ACCORDING TO THE AVAILABILITY OF DIFFERENT AMENITIES

Sl. No.	Name of P. S.	No. of inhabited Villages	No. (with Percentage) of Villages having one or more of the following aminities							
			Education	Medical	Drinking Water	Post and Telegraph	Market/ Hat	Communi-cations	Approach by Pucca Road	Power Supply
1	2	3	4	5	6	7	8	9	10	11
1	Harishchandrapur	175	134 (76.57)	13 (7.43)	174 (99,43)	25 (14.29)	38 (21.71)	11 (6.29)	40 (22.86)	62 (35.43)
2	Kharba (Chanchal)	182	126 (69.23)	17 (9.34)	177 (97.25)	28 (15.38)	35 (19.23)	13 (7.14)	47 (25.82)	111 (60.99)
3	Ratua	135	105 (77.78)	12 (8.89)	134 (99.26)	31 (22.96)	18 (13.33)	25 (18.52)	65 (48.15)	82 (60.74)
4	Gajole	286	140 (48.95)	9 (3.15)	282 (98.60)	25 (8.74)	20 (6.99)	14 (4.90)	93 (32.52)	28 (9.79)
5	Bamangola	140	76 (54.29)	24 (17.14)	138 (98.56)	13 (9.29)	21 (15.00)	46 (32.86)	46 (32.86)	19 (13.57)
6	Habibpur	235	103 (43.83)	9 (3.83)	231 (98.30)	18 (7.66)	18 (7.66)	20 (8.51)	44 (18.72)	12 (5.11)
7	Maldah	114	70 (61.40)	45 (4.34)	114 (100.00)	10 (8.77)	5 (4.39)	21 (18.42)	27 (23.68)	39 (34.21)
8	English Bazar	113	75 (66·37)	6 (5.31)	104 (92.04)	23 (20.35)	15 (13.27)	58 (51.33)	80 (70.80)	30 (26.55)
9	Manikchak	74	57 (77.03)	6 (8.11)	69 (93.24)	23 (31.08)	18 (24.32)	7 (9.46)	30 (40.54)	34 (45.95)
10	Kaliachak	161	135 (83.85)	15 (9.32)	157 (97.52)	58 (36.02)	33 (20.50)	48 (29.81)	48 (29.81)	95 (59.01)
	Total	**1,515**	**1,021 (63,22)**	**116 (7.18)**	**1,580 (97.83)**	**254 (15,73)**	**221 (13.68)**	**263 (16.28)**	**520 (32.20)**	**512 (31.70)**

The table 1 deals with the distribution of villages according to the availability of different amenities

TABLE—2 PROPORTION OF RURAL POPULATION SERVED BY DIFFERENT AMENITIES

Sl. No.	Name of P. S.	Total Population of Inhabited Villages in the P. S.	Proportion of Rural Population served by the amenity of							
			Education	Medical	Drinking Water	Post and Telegraph	Market/ Hat	Communication	Approach by Pucca Road	Power Supply
1	2	3	4	6	6	7	8	9	10	11
1	Harishchandrapur	221,890	91.96	14.19	99.99	31.17	31.95	12.93	34.67	50.41
2	Kharba (Chanchal)	217,746	84.74	14.83	99.62	26.97	28.78	10.70	30.39	78.54

1981	2,031,871	97,196	4.78	+42.88	6,750	927	54,580,647	14,446,721	26.47	+31.73	5,462	819

The table 8 gives the details of growth, density and Sex-ratio of urban population of the district in relation to the State.

TABLE—9 NEW TOWNS/TOWN DECLASSIFIED IN 1981 CENSUS

Name of Towns	Population 1981 Census
1	2
(a) Added	
(i) VI Jagannathpur (NM)	3,952
(ii) V Jhali-Jhalia (NM)	5,655

The table 9 indicates the formation of the new towns and the declassification of the old towns in the 1981 Census.

TABLE—10 PER CAPITA RECEIPT AND EXPENDITURE IN TOWNS

Class, Name & Civic Status of the Town	Per Capita								
	Receipt			Expenditure					
	Total Receipt	Receipt through Taxes	Receipt from all other Sources	Total Expenditure	General Administration	Expenditure on public health & conveniences	Public Works	Public Institutions	Other Aspec
1	2	3	4	5	6	7	8	9	10
1. II English Bazar (M)	40.89	9.41	31.48	33.07	5.00	20.60	2.63	1.46	3.3
2. VI Jagannathpur (NM)	..	..	..	..	..	..	..	..	.
3. V Jhalijhalia (NM)	0.18	0.18	..	0.18	..	..	0.18	..	.
4. V Old Maldah (M)	55.37	6.41	48.96	40.22	2.21	12.36	8.86	3.73	13.0
Total	**89.76**	**8.85**	**31.18**	**31.73**	**4.44**	**18.60**	**3.05**	**1.58**	**4.0**

The table 10 furnishes the per Capita receipt and expenditure in each town of the district.

TABLE—11 SCHOOLS PER TEN THOUSAND POPULATION IN TOWN

Class, Name and Civic Status of Town	No. per ten thousand population			
	Higher Secondary/ PUC	Secondary/ Matriculation	Junior Secondary/ Middle	Primary
1	2	3	4	5
1. II English Bazar (M)	0.38	1.52	2.28	9.87
2. VI Jagannathpur (NM)	..	..	5.06	10.12
3. V Jhali Jhalia (NM)	..	1.77	1.77	1.77
4. V Old Maldah (NM)	1.17	2.33	2.33	13.99
Total	**0.46**	**1.61**	**2.37**	**9.77**

The table 11 gives information on Schools per ten thousand population in the urban sectors of the district.

TABLE—12 NO. OF BEDS IN MEDICAL INSTITUTIONS

Class, Name and Civic Status of the Town	No. of Beds in Medical Institutious per 1000 Populations
1	2
1. II English Bazar (M)	8.91
2. VI Jagannathpur (NM)	..
3. V Jhali-Jalia (NM)*	5.31
4. V Old Maldah (M)	..
Total	**8.67**

The table 12 presents data on beds in medical institutions per one thousand population in urban sector of the district

TABLE—13 MOST IMPORTANT COMMODITY MANUFACTURED, IMPORTED AND EXPORTED IN TOWNS

Class. Name and Civic Status of the Town	Most Important Commodities		
	Manufactured	Exported	Imported
1	2	3	4
1. II English Bazar (M)	Mango Processing	Mengo	Baby Food
2. VI Jagannathpur (NM)	Jute Products	Jute	Coal
3. V Jhali-Jhalia (NM)	Coal Briquette	Mango	Rice
4. V Old Maldah (M)	Mango Products	June	Cloth

The table 13 furnishes data in respect of the most important commodities manufactured, exported and imported in each town of the district.
