CONTENTS

	Pages
Foreword	V
Preface	VII
Acknowledgements	IX
Important Statistics	XI
Analytical Note	1-33

(i) Census Concepts : Rural and urban areas, Census House, Household, Scheduled Castes/Scheduled Tribes, Literates, Main workers, Marginal workers, Non-workers etc.

(ii) Brief history of the District Census Handbook.

(iii) Scope of Village Directory and Town Directory.

(iv) Brief history of the District.

(v) Physical Aspects.

(vi) Major Characteristics.

(vii) Place of Religious Historical or Archacological importance in the villages and place of tourists interest.

(viii) Brief analysis of Village and Town Directory data.

Section-I : Village Directory

1.	**Haldibari Police Station**	
	(a) Alphabetical list of villages	35
	(b) Village Directory Statement	36
2.	**Mekliganj Police Station**	
	(a) Alphabetical list of villages	43
	(b) Village Directory Statement	46
3	**Mathabhanga Police Station**	
	(a) Alphabetical list of villages	61
	(b) Village Directory Statement	64
4.	**Sital Kuc i Police Station**	
	(a) Alphabetical list of villages	83
	(b) Village Directory Statement	84
5	**Koch Bihar Police Station**	
	(a) Alphabetical list of villages	92
	(b) Village Directory Statement	96
6	**Tufanganj Police Station**	
	(a) Alphabetical list of villages	120
	(b) Village Directory Statement	122

7. Dinhata Police Station

(a) Alphabetical list of villages 134
(b) Village Directory Statement 138

8. Sitai Police Station

(a) Alphabetical list of villages 161
(b) Village Directory Statement 162

Appendix-I Police Stationwise Abstract of Amenities. 168
Appendix-II Land utilisation data in respect of Non-Municipal Town. 170
Appendix-III Police Stationwise List of village where no amenities are available. 171—175
Appendix-IV List of villages according to the proportion of Scheduled Castes and Scheduled Tribes to the total population by Ranges. 176—199

Section II Town Directory

Statement (I) Status and Growth History 200
Statement (II) Physical Aspects and location of Town 1979 202
Statement (III) Municipal Finance 1978-1979 204
Statement (IV) Civic and other aminities 1979 206
Statement (IV)(a) Civic and other aminities in notified slums 1979 206
Statement (V) Medical, Educational, Recreational and cultural facilities 1979 208
Statement (VI) Trade, Commerce, Industry and Banking 1979 210

Appendix—Town showing their out growth with population. 212

FOREWORD

The district census handbook (DCH), compiled by the Census Organisation on behalf of the State Governments, is one of the most valuable products of the Census. The DCH is constantly referred to by planners, administrators, academicians and researchers. It is *inter alia* used for delimitation of constituencies, formulation of local level and regional plans and as an aid to District administration. The district census handbook is the only publication which provides Primary Census Abstract (PCA) data upto village level for the rural areas and wardwise for each city or town. It also provides data on infrastructure and amenities in villages and towns, etc.

The district census handbook series was initiated during the 1951 Census. It contained important census tables and PCA for each village and town of the district. During 1961 Census the scope of the DCH was enlarged and it contained a descriptive account of the district, administrative statistics, census tables and a village and town directory, including PCA. The 1971 DCH series was planned in three parts. Part—A related to village and town directory, Part—B to village and town PCA and Part—C comprised analytical report, administrative statistics, district census tables and certain analytical tables based on PCA and amenity data in respect of villages However, in some states it was confined to district census tables and in a few cases altogether given up due to delay in compilation and printing.

While designing the format of 1981 DCH series some new features along with the restructuring of the formats of village and town directory have been attempted At the same time, comparability with the 1971 data has also been kept in view. All the amenities except power supply in the village have been brought together in the village directory with the instruction that in case an amenity is not available in the referrent village the distance in broad ranges from the nearest place where the ametity is available may be given. The restructuring of the format of the village directory and incorporating more exhaustive data on infrastructure aspect particularly in relation to amenities and land-use pattern is expected to further meet the need of micro level planning for rural areas. It is expected to help not only in local area planning but regulating the provision of goods and services as well so as to minimise the regional imbalances in the process of development. A few new items of information have also been introduced to meet some of the requirements of the Revised Minimum Needs Programme. Such new items of information as adult literacy centres, Primary helth subcentres, and community health workers in the village have been introduced in the village directory with this objective in mind. The new item on approch to the village is to have an idea about the villages in the dictrict which are inaccessible. A new column, "total population and number of households" has been introduced to examine the correlation of the amenities with the population and number of households they serve. Addition of two more appendices listing the villages where no amenities are available and according to the proportion of scheduled caste and scheduled tribe population to the total population has also been made with this view in mind.

The formats of the town directory have also been modified to meet the requirements of the Minimum Needs Programme by providing information on a few new items. A new statement on civic and other amenities in slums in Class—I and Class—II towns (Statement IV—A) has been introduced with this objective in mind. It is expected that this will help the planners to chalk out programmes on provision of civic amenities for the improvement of slums. The columns on Scheduled Castes and Schoduled Tribes population in statement IV relating to civic and other amenities and adult literacy classes/centres under educational facilities in statement V are also added *inter alia* with this view. A significant addition is class of town in all the seven statements of the town directory. The infrastructure of amenities in urban areas of the country can be best analysed by taking the class of towns into considerations. The addition of the columns on civic administration status and population in a few statements also serves this purpose.

The format of the primary census abstract for the villages and towns has been formulated in the light of changes in the economic and other questions canvassed through the individual slip of 1981 Census.

In order to avoid delay in publication of 1981 DCH series it has been so designed that Part—A of the volume contains village and town directory and Part B, the PCA of villages and towns including the Scheduled Castes ond Scheduled Tribes PCA upto Police Station/ Town levels. At the beginning of the DCH a detailed analytical note supported by a number of inset tables based on PCA and non census data in relation to the infrastructure has been introduced to enhance its value. The district and Police Station level maps depicting the boundaries and other important features have been inserted at appropriate places, to further enhance the value of the publication.

This publication is a joint venture of the State Government and the Census Organisation. The data have been collected and compiled in the state under the direction of Shri S. N. Ghosh, I A S, the Director of Census Operations, West Bengal on behalf of the State Government which has borne the cost of printing. The task of planning, designing and co-ordination of this publicaiion was carried out by Shri N. G. Nag, Deputy Registrar General (Social Studies) of my office. Dr. B. K. Roy, Deputy Registrar General (Map) provided the technical guidance in the preparation of the maps. Data received from Census Directorates have been scrutinised in the Social Studies Division at the headquarters under the guidance of Shri M. M. Dua, Senior Research Officer. I am thankful to all who have contributed in this project.

P. PADMANABHA
Registrar General. India

New Delhi
the 26th April. 1982

PREFACE

The District Census Hand Book complied by the Census Directorate, West Bengal, on behalf of the Govt. of West Bengal, containing Census Statistics besides other invaluable data of importance for use by the State Govt., district administration, research scholars and various other data-users owes its origin to 1951 Census. The present publication of 1981 Census is fourth in the series.

The Census of 1981 was conducted in February, 1981 with sunrise of 1st March, 1981 as reference date under the stewardship of Shri S. N. Ghosh, Director of Census Operations, West Bengal. The credit for the success of the operation goes entirely to Shri Ghosh. However, before the report could be finalised, Shri Ghosh had to resume his duties under the Govt. of West Bengal in public interest. The present publication is the product of his dedicated labour, immaculate planning and sterling administrative capabilities. Without the active involvement and inspiring leadership of Shri Ghosh, the present publication would have been a still birth.

The Census statistics in the form of Village and Town Directory included in the publication relate to the district of Koch Bihar. A brief analytical note with a number of inset tables based on Census data, included in this publication, will hopefully meet the requirements of the readers. As mentioned earlier, the 1981 Census operation in West Bengal was conducted by Shri S. N. Ghosh, as Director of Census Operations under the inspiring captaincy of Shri P Padmanabha, former Registrar General and ex-officio Census Commissioner of India, whose imaginative planning, enthusiastic support and electrifying guidance led us to successful completion of an undoubtedly difficult operation. We silently recall the contribution of Sri Padmanabha.

Shri V. S. Verma, the present Registrar General, India, has been guiding us soon after his assumption of office in 1983 to oversee the timely completion of the project. Without his active support, deep understanding and mature guidance, the publication would not have progressed much. We are greateful to Shri Verma.

We gratefully recall the help, guidance and advice received from Shri V. P. Pandey, Joint Registrar General, India in technical and administrative matters relating to this project.

Dr. N. G. Nag, Deputy Registrar General (Social Studies) and his colleagues had provided us technical guidance and scholarly assistances right from the start of the project. We acknowledge our debt to him and his colleagues.

We are also indebted to Shri K K. Chakraborty former Deputy Registrar General (C & T) and Shri N Rama Rao, Asstt. Registrar General, for their helpful suggestions. Dr. B. K. Roy, Deputy Registrar General (Map) had provided us excellent suport and guidance in cartographic matters. We are indebted to him

The data presented in the volume were collected at grass-root level by the District Magistrate, Koch Bihar (Principal Census Officer) and his innumerable colleagues including the Charge

Superintendents. We acknowledge their contributions to the preparation of this volume.

The final tabulation and compilation of data have been done by the central Tabulation Unit of this office under the supervision of Sri Swapan Kumar Guha, Investigator. first under the guidance and supervision of Shri M. N. Sarker, Asstt. Director of Census Operations, (since retired) and later under Shri A. K. Dutta, Deputy Director of Census Operations, West Bengal. Without their sincere efforts the data could not have been finalised. The analytical note was prepared by Shri S K. Guha, Investigator and scrutinised, edited and finalised by Shri A. K Dutta, Deputy Director of Census Operations. West Bengal. The pubiication is a silent testimony to their labour and love.

The printing work was supervised very efficiently by Sri S. K. Guha, Investigator, under the able guidance of Sri A. K Dutta, Deputy Director without whose direct involvement the publication could not have seen the light of the day. We recall Sri Datta's effective contribution with admiration.

There were also officials who had contributed to the project from behind the curtain. Among officials of the State Govt. who had helped us in various stages of the publication are Shri K. J. Basu Roy Chaudhury, WBCS. Shri B. Bhattacharyya, WBCS., both Deputy Secretaries to the Govt. of West Bengal, Home (C & E) Department, Writers' Buildings, Calcutta, and their colleagues to whom we pay our tribute. Mention should also be made of the Controller of Stationery. Govt. of West Bengal, for kindly providing us the necessary printing materials.

Lastly, we must express our appreciation to Joyma Kali Press, 90 B. C. Road, Barddhaman for the printing of this publication.

Calcutta

SUKUMAR SINHA
Joint Director of Census Operations
West Bengal

Number of Towns			291	

ANALYTICAL NOTE

ANALYTICAL NOTE

It has been the tradition of the Indian Census to present the census data under the two broad divisions termed urban and rural.

The definition of an urban unit at the 1981 Census is as follows :

(a) All places with a Corporation, Municipality, Town Committee, Notified Area, Cantonment.

(b) All other places which satisfied the following criteria :

(i) A population of 5,000 as the minimum,

(ii) Density per square kilometre would be a minimum of 400, and

(iii) At least 75% of the male working force should be engaged in non-agricultural pursuits.

Apart from town/city the 1971 concept of urban agglomeration is also adopted for the 1981 Census. An urban agglomeration means a stretch of urban area covering more than one municipality/town/urban outgrowth within a geographically contiguous urban continuum. An urban agglomeration shows how a particular area has had geographically continuous urbanisation.

Mention may be made in this connection of urban outgrowths. The concept of urban outgrowth has come into force for the first time in 1981 Census. The outgrowth, which must necessarily be contiguous to an urban area, is itself an urban area in so far as it fulfills the last two criteria of being an urban unit, but it falls short on the population front, *i. e.* it would have a population of less than 5,000 but more than 600.

All other areas which are not convered by the definition of urban as stated above will be treated as Rural.

CENSUS HOUSE :

We defined the census houses in the following manner : "A census house is a building or part of a building having a separate main entrance from the road or common courtyard or staircase etc. used or recognised as a separate unit. It may be occupied or vacant. It may be Used for a residential or non-residential purpose or both." Actually to make the concept understandable and applicable in field we had to introduce the concept of singleness of use. What, as per the above definition, would be a census house otherwise might not be so if there is no singleness of use.

HOUSEHOLD :

We defined household as follows : "The household is a group of persons who commonly live together and would take their meals from a common kitchen unless the exigencies of work prevented any of them from doing so. There may be a household of persons related by blood or household of unrelated persons or having a mix of both."

SCHEDULED CASTES/SCHEDULED TRIBES :

We have our own list of scheduled castes and scheduled tribes notified for our state only. If the person belonging to a scheduled caste or scheduled tribe returns his caste or tribe by a synonym or generic name

of a caste or a tribe, the information was noted if it found place in the notified list. All efforts were given to ascertain the correct name of the scheduled caste or tribe as found in the notified list. For a household belonging to scheduled caste or scheduled tribe, religion of the head of household was also examined. Scheduled caste population are found only among the population belonging to Hindu and Sikh religions but the scheduled tribe population may belong to any religion.

LITERATES :

In the census terminology, a person who can both read and write with understanding in any language is to be taken as literate. A man who can merely read but cannot write is not a literate. It is not necessary that a person who is literate should have received any formal education or should have passed any minimum education standard. All the children of the age of four years or less were treated as illiterate even if the child was attending a school or might have picked up reading and writing.

Careful attention was also given while collecting information on educational attainment of individuals. The highest education level attained by the person enumerated was recorded. This information is vital for manpower planning.

MAIN WORKERS :

The definition of worker difference between 1971 and 1981 and the system of dividing the entire population by application of the concept of worker has also undergone a very important change. Earlier in 1961 and then in 1971 the total population was divided into two categories mutually exclusive of each other. They were workers and non-workers respectively. But in 1981, this dichotomy has been replaced by a trichotomy with three categories mutually exclusive of each other. *viz.* main workers, marginal workers and non-workers.

The 1961 Census definition of worker as follows :

"The basis of work will be satisfied in the case of seasonal work like cultivation, livestock, dairying, household industry etc , if the person has had some regular work of more than one hour a day throughout the greater part of the working season. In the case of regular employment in any trade, profession, service, business or commerce the basis of work will be satisfied if the person was employed during any of the fifteen days preceding the day on which you (Enumerator) visited the Household". In 1971, the following definition was applied : "A worker is a person whose main activity is participation in any economically productive work by his physical or mental activity. Work involves not only actual work but effective supervision and direction of work. The reference period is one week prior to the date of enumeration in the case of regular work in trade, profession, service or business. If a person had any such regular work on any one of the days during this reference period and this has been returned as his main activity the person will be categorised accordingly .....There are certain types of work which are not carried on throughout the year such as cultivation, livestock keeping, plantation work, some types of household industry etc. A person's main activity should be ascertained with reference to such work in last one year even if he was not economically active in the week prior to enumeration".

Further, those who did not do any work in the manner described above, yet did some work to come under the category of secondary worker. As per 1971 definition, it was to cover "cases like persons performing household duties or students who may not be engaged in any other economically productive work at all, as also those who, though basically are performing household duties or students etc., for the purpose of their main activity, still participated in some other economic activity such as helping the household in several items of work, as in cultivation, or in household industry, or in looking after the cattle, in attending to family business etc., but not to the extent as a full time work. Such participation will be considered as secondary work of those persons..... .. participation of work that goes to augment the income of the household will only be treated as economic activity".

In 1981 Census anyone who has done any work at all during the last one year is a worker. The definition of work as participation in any economically productive activity either in physical or mental way remain more or less the same as in 1971. But this time the population has been classified into three main groups, each mutually exclusive of the others. The main workers are those who have worked major part of the year preceding the enumeration. In other words, the main worker is somebody who has done economically productive work for at least 183 days during the year preceding enumeration. All workers have been categorised in four distinct parts *viz.* (i) cultivators, (ii) Agricultural Labourers, (iii) Household Industries and (iv) other workers in 1981 Census. This is a major departure from the 1971 categories of workers. In 1971 Census the workers were divided in nine categories.

MARGINAL WORKERS :

The marginal workers are those who have worked any time at all in the year preceding enumeration but have not worked for a major part of the year. In other words, marginal workers are those who participated in economically productive work for less than 183 days during the year preceding enumeration.

NON-WORKERS :

Non-workers are those who have not done any economically productive work at all during the last one year. All non-workers have been divided into seven categories in 1981 Census. They are (i) Students, (ii) Household duties, (iii) Rentiers/Retired persons, (iv) Beggers etc., (v) Inmates of Institutions, (vi) Dependents and (vii) Others.

District Census Hondbook :

The District Census Handbook was started printing from 1951 Census. The Government and the Development agencies felt necessity of the data at micro=level for the social and economic development all over the country during the post independence era. Until then, the compilation of data was limited to district, police station and town levels only. In 1951, it was extended to the mouza level.

The publication programme of district census handbook of 1951 continued undisturbed in 1961 also and it was enlarged with the introduction of official statistics.

The major changes in the District Census Handbook publication were introduced in 1971. The District

Census Handbook 1971 was divided into three parts *viz.* Part XA, Part XB and Part XC. The first part dealt with Village and Town Directories, In village Directory the villagewise data on amenities available was given and the information in respect of each town was given in the Town Directory. The Part XB consists of village and townwise (ward wise for municipalities, town commitees and all statutory towns) Primary Census Abstract of the concerned district.

The third part *i. e.* Part XC dealt with the non-census data and social, economic and cultural tables. All the three parts were printed either in two volumes *i. e.* Part XA & XB and Part XC or in three volumes Part XA, Part XB and part XC separately according to the size of the districts.

The scope of District Census Handbook 1981 has been enlarged considerably specially in relation to the amenities available in the villages and towns and landuse pattern in villages and non-municipal towns. The collection of data on recognissd slums of Class I and Class II towns of the state is a new addition of 1981 in the Town Directory portion of the District Census Handbook. The format of the primary census abstract have been restructured due to the change of economic questions. The data on marginal workers collected through the canvassing of individual slips is an important addition. Workers have been categorised in four sectors instead of nine in 1971.

Scope of Village Direotory ;

A twenty column format was canvassed during 1981 Census period for collection of data from each and every mouza within each police station. This is called village directory. The mouzas within a police station have been represented in order of their location codes. This twenty column format has been divided in four parts. The column nos. 1-4 represent general information, columns no. 5-14 represent amenities available, column nos 15 to 19 are meant for landuse pattern and the column 20 contains special information in respect of historical, archaeological and religious interest about the mouza. At the end of each police station, the totalling has been done for col. nos. 3 to 6 and 15-19. If any amenity is not available in the village a dash '—' has been marked in the relevant column and next to it the distance of the nearest place where the facility is available has been given in the broad ranges.

The following systems were followed for indicating educational institutions, if any, located within the villages. The abreviations used for the educational institutions are also given below :

1. Primary or Elementary School (P)

   All nursery, kindergarten, pre-basic, pre-primary, Junior Basic School upto Class V and Primary School upto Class IV have been included in this group.

2. Junior Secondary or Middle School (M)

   All schools from Class V to Class VIII including Junior Madrasa upto Class VIII have been noted in this group.

3. Secondary Schools (H)

   All schools upto Class X including the schools providing Senior Cambridge Course and High Madrasa upto Class X have been treated as high school.

4. Higher Secondary School (PUC)

   All educational institutions where the education is imparted for Class XI and XII have been marked for this group.

While collecting the data according to the pattern as stated above certain limitations were imposed. We have considered only those institutions which are recognised by any conpetent authority and the specific classes of a school upto which recognition has been given. In case of composite schools like secondary schools with middle classes and primary classes or middle schools with primary classes, the relevant groups of classes have been treated separately, e. g . a composite school having classes upto XII (Twelve) has been divided as follows :

Classes from I to IV	..	(P)
,, V to VIII	..	(M)
,, IX to X	..	(H)
,, XI to XII	..	(PUC)

It is to be noted that by dint of the above kind of division, we are not going by how many educational institutions physically exist within a village, but by occupying of classes each group being treated as a school of its kind. It is also to be noted that the said groupings will hold true irrespective of the educational institution they belong to. For example, the grouping marked as PUC *i.* e. Class XI and Class XII may phycally belong to a college, but for the purpose of the Village Directory, thcse two classes taken together has constituted one unit of PUC., the rest of the classes has been treated as a college.

5. College (C)

Any college with the disciplines of Arts, Science and Commerce have been grouped here.

6. Industrial School (I)
7. Training School (Tr)
8. Audult literacy Class/Centre (AC)
9. Other educational Institutions (O)

   (Sanskrit tole, senior basic school, Makhtab etc. have been noted as others).

It is needless to mention once again that in sl. no. 5 to 9 the institutions having recognition from any competent authority have been taken into account.

In case of more than one institution of a type in the village, the number of institutions have been indicated in brackets. If any of the educational institutions as stated above is located in a village, the existence of other types of educational institutions located in nearest village (s) have not been collected. Suppose, a primary school is functioning in the village. but there is no middle or high school in the village under reference, in this case we have not indicated the distance of the nearest place where a middle school or a high school exists. Similarly, if there is a high school only in a particular village, no efforts are given for collecting distance of a nearest place whare a primary or middle school exists. The distance by ranges of a nearest place where educational facility is available have been collected from villages having no facility of any of the above mentioned nine categories of educational institutions.

In the medical fields there are a variety of amenities. These are indicated with abbreviations whether within the village exists any of the following medical institutions :—

Hospital	..	H
Maternity Home	.	MH
Child Welare Centre	..	CWC
Health Centre	..	HC
Primary Health Centre	..	PHC
Primary Health Sub-centre	..	*PHS*
Dispensary	..	D
Family Planning Centre	..	FPC
TB Clinic	..	TB
Registered Private Practitioner	..	*RP*
Community Health Worker	..	CHW
Others	..	O

The information have been collected in respect of those institutions only which are organised and/or aided by Government/semi-Government/Public bodies/local bodies/social service agencies like the missioneries. The institutions run by private individuals have not been covered. But the information on Registered Private Practitioners of any branch have been noted. If there are more than one facility in the village. the same have been indicated in appropriate abbreviations. In case of more institutions of a type in the village, the number of institutions have been indicated against the abbreviations in bracket where no amenity is available within the village, a dash (—) has been shown in relevant column and any of the facilities as given above available in a nearest place have been noted showing the distance in broad ranges.

The sources of drinking water available within the village have been indicated by codes as follows :

Tap	=	T	Fountatin	=	F
Well	=	W	Canal	=	C
Tank	=	TK	Lake	=	L
Tubewell	=	TW	Spring	=	S
Hand Pump	=	HP	Nallah	=	N
River water	=	R	Others	=	O

If there are more than one source of drinking water in the village, the same have been indicated in appropriate abbreviations in the relevant column. In absence of any source of drinking water in the village, a dash has been given in the relevant column and next to it the distance in broad ranges of the nearest place where any of the aforesaid facilities is available has been given.

The post & Telegraph amenities available within the village have been collected by codes as given below. The post office includes Branch and Sub Post Offices also. The villages having no facilities in respect of Post &

Telegraph, have been marked by dash (—) in the relevant column and next to it the distance in broad ranges of the nearest place where any of the facilities as given below is available has been noted.

Post Office	=	PO
Telegraph Office	=	TO
Post & Telegraph Office	=	PTO
Telephone connection	=	Phone

The information on hat, market have been collected for each village. The day(s) of the week on which market/hat is held have been taken into account. Where the market/hat is held daily in a village, it has been recorded as "daily". In absence of hat/market in the village, the distance in broad ranges of the nearest place have been shown where it is held.

It has been looked whether the village is served by any mode of public transport like bus, rail and waterways and the abbreviations adopted for this purpose are given below :

Bus	..	BS
Railway Station	..	RS
Navigable waterways (including river, canal etc.)	..	NW

If there is more than one facility in the village, these have been indicated separately by individual codes as given above. If no facility is available within the village, a dash is shown in the column and next to it in brackets, the distance in broad ranges of the nearest place where the facility is available is given.

Approach to the village refers to the state of roads leading to the village from the communication centre. The approch to village has been indicated by following abbreviations :

Pucca Road	..	PR
Kucca Road	..	KR
Navigable River	..	NR
Navigable Canal	..	NC
Navigable waterway (other than river canal)	..	NW

If there is more than one approch to a village, the same has been given by appropriate codes in the relevant column.

The name of the nearest town and its distance in kilometers from the village has been collected. The nearest town so indicated may not be located within the state of West Bengal, this may be located in the neighbouring state also. The operational conveniences have only been taken into consideration while collecting this information. Only those towns have been considered, which have been declared urban according to 1981 Census.

The facilities of power supply have been collected from the village where it is available in the following codes :

Electricity for Domestic consumption

Electricity for Agricultural Consumption	..	E. Ag.
Electricity for other purposes like industrial, commercial etc.	..	EO
Electricity for all purposes listed above	..	EA

Where the power is consumed for more than one purpose, this has been indicated accordingly.

The staple food, only in terms of grains, consumed by the majority population of the village during the major portion of the year have been recorded. The grains may be rice, wheat, jawar, maize etc. Sometimes a combination of these grains have been consumed by the villagers as the staple food. In that case, it has been indicated as reported.

The land use pattern of the village has been presented in five broad categories. These are as follows :

1. **Forest** .. This includes all lands classed as forests under any legal enactment dealing with forests. This may be owned by the state or by any private individual. Land maintained as potential forest land have also been treated as forests. Any area used for any other purpose but situated within the forest so defined, is treated as 'forest'.

2. **Irrigated land** .. It relates to the land which has actually been irrigated under different types of irrigation for the purpose of cultivation. The sourcewise break-up of area in hectores under different systems of irrigation has been given. The codes in respect of sources have been noted as under :

Government Canal	..	GC
Private Canal	..	PC
Well (without electricity)	..	W
Well (with electricity)	..	WE
Tube well (without electricity)	..	TW
Tubewell (with electricity)	..	TWE
Tank	..	TK
Lake	..	L
River	..	R
Waterfall	..	WF
Others	..	O

3. **Unirrigated land** .. All areas under rainfall crops or under dry rice cultivation have been classified as unirrigated areas.

4. **Culturable Waste** .. It is defined as the lands within cultivated holdings have not been cultivated during the current year and last five years or more in succession. Such lands may be either fallow or covered with shrubs and jungles. Land under thatching grasses, bamboo bushes and other groves for fuels etc., which are not

included under orchards or forests and land grazing, meadows have also been included in this category.

5. **Area not available for cultivation** ; This stands for barren, uncultivable land and land put to non-agricultural use. Barran and unculturable lands cover land within cultivable holdings which cannot be brought under cultivation without incurring a high cost. Land put to non-agricultural use stands for all lands occupied by buildings, roads and railways or under water, e. g. rivers and canals etc.

Any important place of religious, historical and archaeological interest within the village have also been mentioned in the village directory. Information on the number of copies of newspaper coming in the village, and motor cycles/scooters/cars/Jeeps and tractors available in the village have been mentioned accordingly and denoted the following codes :

Newspapers	..	N
Motors cycles/ scooters	..	M
Cars/Jeeps	..	C
Tractors	..	T

In addition to the information that have been collected through Block Development Office, the following four appendices to the Village Directory have also been compiled :

I. Police Stationwise abstract of educational, medical and other amenities,
II. Land utilisation data in respect of non-municipal (non-statutory) Census Towns.
III. Police Stationwise list of villages where no amenities are available.
IV. Police Stationwise list of village according to the proportion of scheduled castes/scheduled tribes population by ranges.

The first two appendices have been provided for obtaining actual position regarding various amenities available in the police station and as well in the district and the land utilisation pattern in the non-municipal census towns which have been treated urban by virtue of the criteria prescribed for urban units. Apdendix-III has been devised for planning input in areas where basic infrastructure is lacking. Appendix-IV has been prepared for the purpose of planning of welfare programmes for scheduled castes and scheduled tribes at micro-level, particularly in relation to the area development oriented programmes.

Scope of Town Directory :

The Town Directory has been prepared for all the statutory towns like, Municipal Corporation (MC), Municipalities (M), Notified Areas (NA), Town Committee (TC) and Cantonment areas as well as the non-statutory census towns (NM) including the outgrowths. The particulars about each town have been presented in seven statements each dealing with a particular set of information. The information so collected in the seven statements is independent of each other. The statement IVA is a new addition in town directory statement. It covers the information regarding demographic, civic and other amenities available in the notified or recognised the notified or recognised slums having a population of 50,000 or more. The towns having outgrowths has been

identified with the asterisk mark (*) and the information available on outgrowths for each statement have been included with the information of core town. In some cases we have failed to give information as detailed in the statements. In that case information not available (NA) has been quoted in the respective column.

The population of each town during 1981 Census has been considered for determining the class of towns. All the towns have been divided into six classes according to the range of population. They are as follows :

1. Population one lakh and above .. Class I
2. Population from 50,000 to 99,999 .. Class II
3. Population from 20,000 to 49,999 .. Class III
4. Population from 10,000 to 19,999 .. Class IV
5. Population from 5,000 to 9,999 .. Cless V
6. Population less than 5,000 .. Class VI

A brief discussion on seven statements is given below :

Statement I :

This statement provides some basic data based on the primary census Abstract. It deals with the status and growth history of the town. The column no. 1 to 5 gives information on class, civic status, name of the town and its location code with the police station the town belongs to. The area of the town in squre kilometer has also been given. The column no. 6 to 19 give demographic information of the town. Where the town did not have any urban status for the reference year(s), a 'dash' (—) has been given under these column(s). The decadal growth in percentage has been shown below the population figures from column no. 8 to 15. The status of the statutory towns has been fixed as on April 1980.

Statement II

The statement deals with the physical aspects and location of the town as on April 1980. This statement is divided into two. First dealing with the climatological data which include rainfall and maximum-minimum temperature. The information on climatological aspects are not available in respect of some of the towns. In that case the information noted from the nearest place where it is available. This alternative however, could not be followed uniformly due to the fact that the data are not availeble for the nearest place even. In such cases the information not available (NA) has been stated. In the second part *i. e.* in column no. 6 to 12 the locational particulars have been stated for the referrent town.

Statemcnt III :

Data on municipal finances for the year 1978-79 have been presented relating to the civic administration of the statutory bodies. The information in respect of the non-municipal census towns have also been collected wherever available and have been shown in the statement. The informatien on finance have been collected from the concerned local body. In case of non-municipal census towns, the information has been collected from the panchayat. The non-municipal census town having no fnformation has been marked with information not available (N. A.).

Statement IV :

This statement contains 19 columns. The column no. 1 to 5 provide general information of the town and the column no. 6 to 19 deal with the amenities having in the referrent town. Where the town is not served by the fire fighting services of its own, the name of the nearest place from where the referrent town gets services has been given. In absence of any of the public amenities as referred to in col. 6 to 19 the relevant column has been depicted suitably like dash (—) which means amenities not available and information not available (NA) respectively.

Statement IVA :

Information about notified or recognised slums have been given in this statement. The information is limited to the slums located in Class I and Class II towns only. The civic and other amenities that are being available to the slum-dwellers have been given in this statement. In case of more than one slum in a town, it has been spelt-out separately and the informaiton have been submitted separately for each slum.

Statement V :

This statement deals with the medical, educational. recreational and cultural facilities existed in the town as on 1979. If there is more than one institution of any type, it has been indicated within bracket in number. In case of medical institutions, the institutions run by the private doctors have not been taken into account. The institutions run by or aided by Government, Semi-Government, local bodies, charitable Institutions. Socfal Service Agencies like Missionaries etc. have been counted. Where these facilities were not available, the distance of the nearest place where these facilities are available has been noted. The Family Planning Centres attached to hospitals or Maternity and Child Welfare Centres or Primary Health Centres have been treated as separate units. The maternity and Child Welfare Centres, Veneral Disease Clinic, Chest Clinic and Leporsy Clinic etc. have been treated as independent institutions and indicated in "Others" category of medical institutions.

While presenting the data on educational institutions, the same procedure as in village Directory has been followed in respect of the school and college education. The column 6 includes educational institutions like Teachers' Training College, Basic Training College etc. The information on short hand, typewriting and other vocational training Institutions have been given in column 10. In this case only the recognised institutions have been considered. The "recognised" means recognised by any statutory authority—like the Education department, commerce department, labour department etc. of the Government or Semi-Government or autonomous bodies, public sector projects like municipality, corporation etc.

The vocational institutions like Music/Dancing school, Art College, Painting/Clay-modelling institutions etc. have been covered under col. 10. The institutions which are not included in cols. 6 to 14 have been taken in col. no. 15 under "Others". The columns 17-20 deal with the recreational and cultural facilities of town.

Statement VI :

This statement contains particulars of Trade, Commerce and Industry of the town. It also depicts information on Banking institutions like Banks, Agricultural Credit Societies and non-agricultural credit Societies.

The details of abbreviations used in different statements of Town Directory are given below :

Brief History of the distriot :

Koch Bihar, a district in the State of West Bengal situated on the extreme north-east corner of the State. It derives its name from two words *viz.* Koch and Bihar. Koch is an ethnic group of people inhabiting in the vast tract of land to the north-east of the state of West Bengal, Behar or more properly 'Vihara' on the other hand denotes an abode or spot. So, Koch Bihar means the land of the Koch.

Formerly, the tract of land pertaining to the present district of Koch Bihar was a part of a much bigger kingdom which included in its dominion a larger tact of Assam. In ancient times, the country was called Kamrupa. The reference of Koch Country within which there were two kingdom *viz.* 'Kamata' and 'Kamrupa' are available in

the works of Ain-i-Akbari and Baharistan-i-Ghaibi. Pran Narayan and Mod Narayan the rulers of Koch Bihar in seventeenth century declared themselves as rulers of 'Kamta.' About the middle of the 17th century, the western portion was called Koch Bihar in place of Kamta and eastern portion was denoted as Koch-Hajo in place of Kamrupa. In the year 1773, there was a treaty between the East India Company and the ruler of Koch Bihar. where the kingdom was referred to as 'Koch Bihar'.

Physical aspects :

The district of Koch Bihar geographically forms part of the Himalayan Terai of West Bengal. It lies between the parallels 25°57'56" and 26°32'46" north latitude and the longitude of the easternmost point being 89°52'00" east and the longitude of the westernmost point being 88°45'02" east. The northern boundary and most part of the western boundary are formed by the district of Jalpaiguri. The southern boundary of the district is bounded by the Rangpur district of Bangladesh, the eastern boundary is formed by the district of Goalpara of Assam. The district comprises an area of 3387.0 sq. kilometers.

Major characteristics of the district :

(1) The district has 5,697 hectares of forest lands (1972-73), which are in the form of protected forests and unclassified state Forests and lands. Of the 5697 hectares of forest lands ; 4050 hectares are protected forests and the remaining go under unclassified State Forests and lands.

(2) The main source of power in the district is electricity. The district gets electricity from the West Bengal State Electricity Board. Of the 7 towns of the district, 6 of them reported to have electricity. Out of 1139 inhabited villages of the district, 207 (18.17%) inhabited villages are provided with electricity facility.

(3) The classification of landuse area in Koch Bihar as on 1976-77 is given below :

i)	Net cropped area	..	261.38 thousand hectares
ii)	Land put to non-agricultural uses	..	51 36 ,,
tii)	Barren and unculturable waste	..	2.81 ,,
iv)	Miscellaneous tree crops and groves	..	8.88 ,,
v)	Culturable waste	..	11.05 ,,
vi)	Other Fallow Land (other than current fallow)	..	0.10 ,,
vii)	Current Fallow	..	0.07 ,,

(4) The district Koch Bihar is predominantly an agricultnral area. According to 1981 Census, 79.26 percent of its total workers belongs to the categories of cultivators and agricultural labourers. As per data of 1976-77, the total area under production of foodgrains was 356 1 thousand hectares ; rice was cultivated in 302.9 thousand hectars, and wheat in 39.3 thousand hectares Other crops such as pulses, oil seeds, and the miscellaneous crops like, potato, sugarcane etc. were cultivated in 10.5, 5.1 and 16.4 thousand hectares of land respectively. The fiber crops *viz.* jute and mesta were cultivated in 51.3 thousand hectares of land. The total foodgrains produced during the period under reference were 339.5 thousend tonnes, of which cereals being 334.7 thousand tonnes. Of the cereals, again, rice and wheat were produced to the extent of 246.3 and

86.7 thousand tonnes respectively. The fibres produced during 1976-77 were 342.4 thousand bales (180 kg. in each thousand bales) of which Jute being 317.2 thousand bales and masta 25.2 thousand bales.

The yields per hectare of land during the year 1976-77 were 813 kgs. for rice and 2206 kgs. for wheat. The sources of irrigation in the district are River Lift Irrigation and Deep Tubewells and Shallow tubewells. By the end of 1977, the district had 15 Deep Tubewells, 18 River Lift Irrigation, and 90 Shallow Tubewells. 10.11 percent of the total cultivable areas is irrigated as per villagewise landuse data of 1981 Census.

5. There is no big or medium sized industry in the district. As on 1977, there were 14 registered working factories in the district. These are classified as per nature of productions and functions, as given below :

	Name of Industries	**Number**
1.	Rice Milling (by Power machine)	4
2.	Taa processing	1
3,	Manufacture of Bidl	1
4.	Sawing and planning of wood (other than plywood)	2
5.	Printing and Publishing of periodicals, books, journals, atlases maps and sheet music directories etc.	1
6.	Generation of transmission of electric energy	3
7.	Repair of motor vehicles and motor cycles	1
8.	Manufacture of plywood chest for tea etc.	1

6. Koch Bihar town is one of the main centres of trade in the district. The commodities marketed here are tobacco, jute, rice, pulses and mustard seeds. A considerable portions of jute and tobacco are exported from the district.

7. The district of Koch Bihar is not characterised by satisfactory net work of roads due to the fact that the rivers in Koch Bihar are flowing from north to south and all the major roads are running east to west crossing the rivers the large number of channels and deserted beds. Of the four outlying subdivisions, Tufanganj lying on the road to Dhubri is connected with Koch Bihar by matelled road only. The communication with Dinhata is maintained by a road across the river Torsa which is negotiated by a rail-cum-road bridge. The subdivision Mathabhanga is connected by a road which is called as Gitaldah-Koch Bihar-Rajarhat=Khattimari-Mathabhanga road. This road is connected with the National Highway 31 which is traversing through the district touching the Koch Bihar town. The Jalpaiguri-Siliguri State Highway is extended upto Haldibari and Dewangi Hat-in Mekhliganj subdivision. The subdivisional headquarters Mekhliganj is connected in two alternative ways. Firstly, along the Mathabhanga-Jamaldaha-Changrabandha road which entails a crossing of the Mansai at Mathabhanga and the other by the Mathabhanga-Falakata road along the left bank of the Mansai to Falakata. The road connecting Koch Bihar town with Mathabhanga and then proceeding to Bangladesh Border is known as the Emigration Road West. The road connecting Koch Bihar town with Dhubri in Assam passing by the

north of Balarampur and crossing the Sankosh below Kherubari is known as Emigration Road East. The road which connects Koch Bihar town with Buxa via Alipurduar is known as Buxa road. The Laukuthi road connects Koch Bihar town with Fulbari, Buxiganj and Mahishkuchi. Besides there is a satisfactory railway communication in the district. The broad gauge line from New Jalpaiguri to New Bangaigaon in Assam runs through the northern part of the district about 4 kms away from the limits of the Koch Bihar town. It has thus fulfilled the long awaited needs of the people of the district. In addition there is also a metre gauge line from Alipurduar to Gitaldaha touching Koch Bihar town. Both the lines are under the admintrative control of the North-east Frontier Railways.

As per data of 1977 the district had 1385 kilometers Extra Municipal roads which were being maintained by Public Works and Public Works (Roads) Departments of the Govt. of West Bengal. Of the tolal length of the roads, 575 kms. were surfaced. In addition to that, 85.86 kms. roads were maintained by the statutory bodies of the district. 57.60 kms. of which are metalled and the rest unmetalled.

Two types of rivers are found in the district *i. e.* rushing torrents in the rainy season and limpid shallow streams in the dry season. The Mansai is partly navigable by small boats from Giladanga to Mathabhanga in the fair season The Dipa Railak is also partly navigable in the fair season.

Place of religious, historical or archaeological and tourist interes. :

The district has some important temples and a few archeological ruins of which the temple of Baneswar Siva is famous. It is located about 9.6 kilometers from Koch Bihar within the Koch Bihar Police Station. It is a place of pilgrimage for the people. There is another temple of Siva in Dhallabari at a distance of 6.4 kms. south-east of Koch Bihar town, The Kamteswari temple situated at Gossanimari about 12.8 kms. to the east of Dinhata town on the left bank of the Singimari is unique in not having idols in the temple. The village Haripur situated about 11.2 kms. north-west of Koch Bihar is famous for Mahadeva Harihar temple. The temple Siddheswari situated 9.6 kms. north-east of Koch Bihar is dedicated to Bhagavati. The place is held very sacred and considered by the local people to be second only to Kamakshya temple of Assam. At Gossanimari village one found the remains of the city of Kamtapur which are the magnificant works of the ancient kings and speak of their power and wealth. The shape of the citadel is triangular which is elongated from west to east with a perimeter of about 32 kms. The two sides of the triangle met in the west and was protected by a high rampart and inward and outward ditch covering a length of 24 kms. The old western Dharla on the other hand protected the eastern side. There were four gates to the rampart called the Hokiduar, Sil-duar, Bagh-duar and Jay-duar. The large quantities of bricks and stone debris at Silduar indicates that there were watch towers and sentry houses on either side of the entrances. In Koch Bihar town, three beatiful tanks are found. They are Sagardighi, Bairagidighi and the Laldighi. Among the three, Sagardighi with 291 metres in length and 165 metres in breadth is the largest and most beautiful. It was excavated in 1807.

The Koch Biher palace is located towards the north of Sagardighi. The main building is raised 144 78 centimeters above the ground covering an area of 4766.61 sq meters. Chilarai tank and Chilarai Fort are located in Tufanganj town. The fort surrounds an area of about 42.67 × 54.86 metres.

ANALYSIS OF DATA

Following the census traditions of 1951, 1961 and 1971 in the district census handbook of 1981, attempts have been made to analyse in brief the salient features of social and demographic information collected during the census operations of 1981 as well.

TABLE—1 DISTRIBUTION OF VILLAGES ACCORDING TO

Sl. No.	Name of Police Station	No. of inhabited villeges	No. (with percentage) of Education	No. (with percentage) of Medical
1	2	3	4	5
1	Haldibari	56	33 (58·93)	3 (5·36)
2	Mekliganj	139	69 (49·64)	31 (22·30)

53 (100·00)	10 (18·87)	14 (26 42)	15 (28·30)	28 (52·83)	..
1,139 (100·00)	**243 (21·33)**	**263 (23·09)**	**232 (20·37)**	**404 (35·47)**	**207 (18·17)**

The police station-wise distribution of inhabited villages according to the availability of different amenities are seen in table 1. It is noteworthy that all the villages of the district have drinking water facility. The facility of education is available in 873 villages out of 1139, which accounts for 76.65%. In Tufanganj police station, 82.54% of the inhabited villages have been provided with the amenity of education, which is maximum in comparison in to other police stations of the district. Dinhata police station follows closely Tufanganj P. S.with 82.52% The medical and the post & telegraph facilities are available in 9.48% and 21.33% of the inhabited villages respectively. Only 207 villages have the amenity of power supply, the percentage being 18.17%.

TABLE—2 PROPORTION OF RURAL POPULATION

Sl. No.	Name of Police Station	Total population of inhabitcd villages in the Police Station	Proportion of	
			Education	Medical
1	2	3	4	5
1	Haldibari	66,845	89·32	11·29
2	Mekliganj	98,734	79·07	47·01

TABLE—3 DISTRIBUTION OF VILLAGES NOT HAVING CERTAIN AMENITIES ARRANGED BY DISTANCE RANGES FROM THE PLACES WHERE THESE ARE AVAILABLE

Sl. No.	Village not having the amenity of	Numbef of villages where the amenity is not available and available at distance of			
		—5 Kms	5—10 Kms	10+Kms	Total (cols. 3-5)
1	2	3	4	5	6
1	Education	258	8	..	266
2	Medical	647	355	29	1,031
3	Drinking Water	..	..	..	..
4	Post & Telegraph	822	74	..	896
5	Market/Hat	834	42	..	876
6	Communication	595	216	96	907

Table 3 gives distribution of villages not having certain amenities arranged according to distance ranges from the places where these are available. It is seen from the table that 266 inhabited villages out of 1139 which accounts for 23.35% have not any type of educational institutions within the village itself. But the factlity is available within 5 Kilometres for 258 villages out of 266 which accounts for 96.99%. Regarding the medical facility 90.52 of the villages have no medical facility at all. 62.75% of such villages have it within a radious of 5 Kilometres only. Of the rest, 34.43% villages are served by the medical facility available at a distance beyond 5 Kilometres and upto 10 Kilometres.

TABLE—4 DISTRIBUTION OF VILLAGES ACCORDING TO THE DISTANCE FROM THE NEAREST TOWN AND AVAILABILITY OF DIFFERENT AMENITIES

Distance Range from the nearest town (in Kms)	No. of inhabited villages in each range	No. (wiih percentage) of villages having the amenities of							
		Education	Medical	Drinking Water	Post & Telegraph	Market/ Hat	Commu. nication	Approached by Pucca Road	Power Supply
1	2	3	4	5	6	7	8	9	10
0—5	95	74(77·89)	13(13·68)	95(100·00)	29(30·53)	13(13·68)	34(35·79)	61(64·21)	38(40·00)
6—15	459	358(78·00)	39(8·50)	459(100·00)	93(20·26)	113(24·62)	107(23·31)	189(41·18)	120(26·14)
16—50	585	441(75·38)	56(9·57)	585(100·00)	121(20·68)	137(23·42)	91(15·56)	154(26·32)	49(8·38)
51+	..	..	..	..	..	..	..	..	..
Unspecified	..	..	..	..	..	..	..	..	..
Total	**1,139**	**873(76·65)**	**108(9·48)**	**1,139(100·00)**	**243(21·33)**	**263(23·09)**	**232(20·37)**	**404(35·47)**	**207(18·17)**

Table 4 deals with the villages having different amenities located to a distance from the nearest town. It is observed from the table, that the proportions of villages having the facility of education are more or less equal in all distance ranges. But the proportions in respect of the medical and post & telegraph are found highest in the distance range 0-5 which are 13.68% and 30.53% respectively. Similarly, 40% of the villages having power supply belong to the distance range of 0-5.

TABLE—5 DISTRIBUTION OF VILLAGES ACCORDING TO POPULATION RANGES AND AMENITIES AVAILABLE

Population range	No. of inhabited villages in each range	Number (with percentage) of villages having the amenity of							
		Education	Medical	Drinking Water	Post & Telegraph	Market/ Hat	Commu-nication	Approach by Pucca Road	Power Supply
1	2	3	4	5	6	7	8	9	10
—499	366	177(48·36)	12(3·28)	366(100·00)	19(5·19)	28(7·65)	36(9·84)	73(19·95)	36(9·84)
500—1,999	528	453(85·80)	44(8·33)	528(100·00)	93(17·61)	113(21·40)	102(19·32)	191(36·17)	79(14·96)
2,000—4,999	198	196(98·99)	34(17.17)	198(100·00)	88(44·44)	86(43·43)	68(34·34)	105(53·03)	67(33·84)
5,000+	47	47(100·00)	18(38·30)	47(100·00)	43(91·49)	36(76·60)	26(55·32)	35(74·47)	25(53·19)
Total	**1,139**	**873(76·65)**	**108(9·48)**	**1139(100·00)**	**243(21·33)**	**263(23·09)**	**232(20·37)**	**404(35·47)**	**207(18·17)**

The table deals with the distribution of villages according of population range and amenities available. It is significant that all the villages having population 5000 plus have the facility of education. The villages in this population range have the different amenities to a highest proportions in comparison to the villages located in other population ranges.

TABLE—6 MAIN STAPLE FOOD IN THE MAJORITY OF VILLAGES IN EACH POLICE STATION

Sl. No.	Name of Police Station	Main Staple food
1	2	3
1	Haldibari	Rice and Wheat
2	Mekliganj	,,
3	Mathabhanga	,,
4	Sital Kuchi	,,
5	Koch Bihar	,,
6	Tufanganj	,,
7	Dinhata	,,
8	Sitai	,,

Table 6 presents data on staple food of the majority inhabitants living in the different police stations of the district. It is seen from the table that rice and wheat are the main staple food of the people of the district.

TABLE—7 DISTRIBUTION OF VILLAGES ACCORDING TO LAND USE

Sl. No.	Name of Police Station	No. of inhabited villages	Total area	Percentage cultivable area to total area	Percentage of irrigated area to total cultivable area
1	2	3	4	5	6
1	Haldibari	56	15,065·16	83·09	13·26
2	Mekliganj	139	28,296·07	83·70	12·62
3	Mathabhanga	193	61,776·40	69·07	7·43
4	Sital Kuchi	67	26,195·09	88·27	13·05
5	Koch Bihar	259	73,663·21	69·42	4·17
6	Tufanganj	126	58·552·15	80·59	16·35
7	Dinhata	246	53,660·34	83·29	9·32
8	Sitai	53	16,081·96	83·64	9·53
	Total	**1,139**	**333,290·38**	**77·55**	**10·11**

Table 7 gives information on distribution of villages according to land use by police stations. The district with 1,139 inhabited villages has a total area of 333,290 38 hectares. The cultivable area of the district is accounted for 77.55% of the total inhabited area. Again, 10.11 percent of the cultivable area is irrigated. The percentage of cultivable area to total area is found highest in Sital Kuchi police station (88.27) while the cultivable area in Mathabhanga police station is the lowest (69.07). The cultivable area covered by irrigation facilites at a maximum level of 16.35% is in Tufanganj police station. On the other hand, the lowest proportion of irrigated area *i. e.* 4.17 is in Koch Bihar police station.

TABLE– 8 GROWTH, DENSITY AND SEX-RATIO OF URBAN POPULATION

District—Koch Bihar

Census year	Total Population	Urban Population	%Urban Population	Decadal percentage variation in urban population	Density (Population per Sq. Km.)	Sex Ratio (No. of females Per 1000 males)
1	2	3	4	5	6	7
1951	668,949	50,180	7·50	+87·09	4,504	713
1961	1,019,806	71,446	7·01	+42·38	3,969	774
1971	1,414,183	96,652	6·83	+35·28	4,184	837
1981	1,771,643	122,260	6·90	+26.50	4,260	927

IN THE DISTRICT IN RELATION TO THE STATE

West Bengal					
Total Population	Uaban Population	%Urban Population	Decadal percentage variation in urban population	Density (Population per Sq. Km.)	Sex ratio No. of females per 1,000 males)
8	9	10	11	12	13
26,299,980	6,281,642	23.88	+32·52	5,180	660
34,926,279	8,540,842	24·45	+35·97	5,009	701
44,312,011	10,967,033	24·75	+28·41	5.624	751
54,580,647	14,446,721	26·47	+31·73	5,462	819

The growth, density and sex ratio of urban population in the district of Koch Bihar in relation to the State of West Bengal has been furnished in this table. It may be observed from the table that the percentage of urban population to total population in Koch Bihar district has gone up slightly during the decade 1971-1981. In 1971, the percentage of urban population was 6.83% which has gone up 6.90 in 1981. The density of urban areas of Koch Bihar district which was 3,969 in 1961 has steadily increased to 4,184 in 1971 which has gone up again to 4,260 in 1981. The urban sex ratio is higher in Koch Bihar district than in the state in all the Censuses.

NA—Not Available

Table 9 furnishes the per capita receipts and expenditure of each urban unit of the district. The per capita receipt and expenditure have been calculated for 6 towns as the receipt and expenditure account for one town is not available. So while calculating the per capita receipt and expenditure for the urban centres together, population of one town has not been taken into account. The per capita receipt comes to Rs. 46.96 at the district level. The highest per capita receipt of Rs. 53.26 is noticed in Koch Bihar Municipality while the lowest in Mathabhanga town Committee with Rs. 25.06. Among the towns, the per capita receipt is higher in two towns only than the district level.

Annual per capita expenditure comes to Rs. 36.65 at the distrrict level. The highest per capita expenditure is in Koch Bihar Municipality (Rs. 43.85) and the lowest in Haldibari town committee (Rs. 16.13).

TABLE—10 SCHOOLS PER TEN THOUSAND POPULATION IN TOWNS

Sl. No.	Class, name and civic status of Town	No. Per ten thousand population			
		Higher Secondary/ P.U.C	Secondary/ Matriculation	Junior Secondary/ Middle	Primary
1	2	3	4	5	6
1	IV Dinhata (M)	1·38	2·75	3·44	8·26
2	IV Guriahati (NM)	..	1·57	1·57	10·18
3	V Haldibari (T.C)	1·40	2·81	4·21	15·43
4	II Kach Bihar (M)	0·59	1·93	2·23	8·76
5	IV Mathabhanga (T.C)	0·90	2·71	3·62	6·33
6	VI Mekliganj (T.C)	2·21	2·21	4·41	8·82
7	VI Tufanganj (T.C)	2·04	4·08	4·08	6.11
	Total	**0·91**	**2·21**	**2·70**	**8·92**

It is seen from table 10 that in the urban areas of Koch Bihar district there are 0.91 higher secondary/PUC institutions, 2.21 secondary/matriculation schools, 2.70 Junior secondary/middle schools and 8.92 Primary schools per 10,000 population. It is noticed from the total that all the towns of the district except Guriahati are having higher secondary institutions. The highest number of such educational institutions per 10,000 population comes to 2.04 in Tufanganj town while the lowest is 0.59 in the headquarters town of the district Koch Bihar. Similarly, the highest number of Secondary, Junior secondary and primary schools are noticed in Tufanganj town (4.08), Mekliganj (4.41) and Haldibari (15.43) per 10,000 population respectively.

TABLE—11 NO. OF BEDS IN MEDICAL INSTITUTIONS IN TOWNS

Sl. No.	Class, name and civic, status of the Town	No. of beds in medical institutions per 1,000 population
1	2	3
1	IV Dinhata (M)	8·26
2	IV Guriahati (NM)	..
3	V Haldibari (T.C)	7·01
4	II Koch Bihar (M)	6·67
5	IV Mathabhanga (T.C)	2·26
6	VI Mekliganj (T.C)	5·51
7	VI Tufanganj (T.C)	5·10
	Total	**6·37**

Table 11 gives the number of beds in medical institutions per 1000 of urban population in each town. The district average is 6.37 beds per 1000 urban population. The bed facilities are available in all the towns of the district except Guriahati—a non municipal town, the highest being 8.26 in Dinhata town.

TABLE—12 PROPORTION OF SLUMS POPULATION IN TOWNS

Sl. No.	Class, name and civic status of the town	Proportion of the slums population to total population of the town	Density in slums (Per Sq. Km.)
1	2	3	4
1	II Koch Bihar (M)	No, Slums	

Table 12 gives information on slum population in class I & II towns. The district has only one class II town *i e*, Koch Bihar. Incidentally, there is no notified slum in this town.

TABLE–13 MOST IMPORTANT COMMODITY MANUFACTURED, IMPORTED AND EXPORTED IN TOWNS

Sl. No.	Class, name and civic status of the town	Most important commodity		
		Manufactured	Exported	Imported
1	2	3	4	5
1	IV Dinhata (M)	Bidi	Jute	Cloths
2	IV Guriahati (NM)	NA	NA	NA
3	V Haldibari (T.C)	Tobacco products	Jute	Rice
4	II Koch Bihar (M)	Bidi	Tobacco	Sugar
5	IV Mathabhanga (T.C)	Soap	Jute	Coal
6	VI Mekliganj (T.C)	Tobacco Products	Jute	Salt
7	VI Tufanganj (T.C)	Tobacco Products	Jute	Rice

The most important commodity manufactured, imported and exported in towns have been furnished in table 13. The tobacco products are the most important manufacturing commodity in the district. Of the exported commodites, Jute tops the list.
