FOREWORD

The district census handbook (DCH), compiled by the Census Organisation on behalf of the State Governments, is one of the most Valuable products of the Census. The DCH is constantly referred to by planners, administrators, academicians and researchers. It is *inter alia* used for delimitation of constituencies, formulation of local level and regional plans and as an aid to District administration. It provides useful data on infrastructure and amenities in villages and towns.

The district census handbook series was initiated during the 1951 Census. It contained important census tables and PCA for each village and town of the district. During 1961 Census the scope of the DCH was enlarged and it contained a descriptive account of the district, administrative statistics, census tables and a village and town directory, including PCA. The 1971 DCH Series was planned in three parts. Part-A related to village and town directory, Part-B to village and town PCA and Part-C comprised analytical report, administrative statistics, district census tables and certain analytical tables based on PCA and amenity data in respect of villages. However, in some states Part-C was confined to district census tables and in a few cases altogether given up due to delay in compilation and printing.

While designing the format of 1981 DCH series some new features along with the restructuring of the format of village and town directory have been attempted. At the same time, comparability with the 1971 data has also been kept in view. All the amenities except power supply in the village have been brought together in the village directory with the instruction that in case an amenity is not available in the referrent village the distance in broad ranges from the nearest place where the amenity is available may be given. The restructuring of the format of the village directory and incorporating more exhaustive data on infrastructure aspect particularly in relation to amenities and land-use pattern is expected to further meet the need of micro level planning for rural area. It is expected to help not only in local area planning but regulating the provision of goods and services as well as to minimise the regional imbalances in the process of development. A few now items of the information have also been introduced to meet some of the requirements of the Revised Minimum Needs programme. Such new items of information as adult literacy centres primary health sub-centres, and community health workers in the village have been introduced in the village directory with this objective in mind. The new iteme on approach to the village is to have an idea about the villages in the district which are inaccessible.

The formats of the town directory have also been modified to meet the requirements of the Minimum Needs Programme by providing information on a few new items. A new statement on civic and other amenities in slums in Class-I and Class-II towns (Statement IV-A) has been introduced with this objective in mind. It is expected that this will help the planners to chalk out programmes on provision of civic amenities for the improvement of slums.

Since the 1981 Census could not be conducted in Assam, only Part-A containing village and town directory is being published for the State. Further, even in Part-A some of innovations introduced in

the 1981 DCH series in other States which were based on census data have been dropped. At the beginning of the village and town directory an analytical note supported by inset tables based on non-census data in relation to the infrastructure has been introduced to make it more useful.. The district and police-station level maps depicting the boundaries and other important features have been inserted at appropriate places to enhance the utility of the publication.

This publication is a joint venture of the State Government and the Census Organisation. The data have been collected and compiled in the State under the direction of Shri N. K. Choudhury, IAS., the Director of Census Operations, Assam on behalf of the State Government which has borne the cost of printing. The task of planning, designing and co-ordination of this publication was carried out by Dr. N. G. Nag, Deputy Registrar General (Social Studies) of my office. Dr. B. K. Roy, Deputy Registrar General (Map), provided the technical guidance in the preparation of the maps. Data received from Census Directorates have been scrutinised in the Social Studies Division at the headquarters under the guidance of Shri M. M. Dua, Senior Research Officer. I am thankful to all who have contributed in this project.

New Delhi
2nd September, 1983.

P. PADMANABHA
Registrar General, India.

PREFACE

The District Census Handbook (DCH) which constitutes one of most important census publications, made its first appearance in 1951 and was immediately acclaimed by a large section of academicians, administrators, planners, policy-makers, researchers scholars and many non-governmental agencies.

The form of DCH has undergone considerable changes since 1951 to accomodate more and more information as demanded by the actual users of the handbooks.

The 1981 Census publication programme envisaged publication of DCH in two parts : Part A related to village and Town Directory and Part B to General Population Tables, Village & Town wise Primary Census Abstract (PCA) and PCA for scheduled Castes and scheduled Tribes.

Since the 1981 Census could not be conducted in Assam we have to restrict publication of our DCH to part A only. Further, even in part A, some of innovations introduced in the 1981 DCH based on Census data could not be incorporated.

The data presented in this volume had been collected and compiled under the guidance of Shri N. K Choudhury, who was Director of Census Operations, Assam till January, 1983. The tables and statements have been prepared by a team of dedicated workers in this office who have worked whole heartedly on the job. Shri N Bhattacharjee, Assistant Director (T) besides being in overall charge of supervision has prepared the analytical note in which he was ably assisted by Shri S. K. Bora and Shri S. K. Baruah, Investigator of this Directorate. Shri S. K. Baruah, Investigator has rendered yeoman's service in all stages of production of this handbook. Dr. R. Kumar, Geographer has done commendable job in preparation of the maps of district and police stations. We are grateful to Dr. N. G. Nag, the then Deputy Registrar General (Social studies) and Dr. B. K. Roy, Deputy Registrar General (Map), India for all the assistance we received from them in preparation of the tables and statements and drawing of District and Police Station maps.

Above all, we are deeply indebted to Shri Padmanabha, Ex-Registrar General, India and Shri V. S Verma, present Registrar General, India for their unfailing guidance and constant inspiration in bringing out this publication.

ANALYTICAL NOTE

Concept :

Though the 1981 Census could not be conducted in the state of Assam, the census concepts as adopted in other parts of the country are discussed in the following paragraph for a general knowledge of the reader.

Rural and Urban Areas :

The classification of the population of a country as rural and urban at a census is a well-recognised dichotomy all over the world. But in view of varying conditions between country to country, it has not been found possible to have a uniform definition that can be universally applicable to all the countries.

The basic unit for rural areas in 1981 census of India is the revenue village which has definite surveyed boundaries. The revenue village may comprise several hemlets but the entire village is treated as one unit for presentation of data. In unsurveyed villages within forest or hilly areas each habitation area with locally recognised boundaries is treated as one unit.

Urban areas are specially defined for census purposes. In the 1981 census, the same criteria as adopted in 1961 and 1971 censuses are adopted with minor variations. Urban areas in the 1981 census are as follows.

(a) All places with a municipality corporation, cantonment board or notified town area.

(b) All other places which satisfied the following criteria :

i) A minimum population of 5,000

ii) At least 75% of the male working population engaged in non-agricultural (an allied) economic pursuit.

iii) A density of population of at least 400 per square kilometre (1,000 per square mile).

The urban criteria of 1981 varies slightly from that of 1961 and 1971 censuses in that the males working in activities such as fishing, hunting, logging etc. were treated as engaged in non-agricultural activity during those censuses, whereas in 1981 census these activities are treated as on par with cultivation and agricultural labour, i. e. agricultural activity for the purpose of this criterion.

Apart from the criteria enunciated above, the Directors of Census Operations were given some discretion in respect of some marginal cases to include, in consultation with State Government, some places that had other distinct urban characteristics and also to exclude certain areas which can no longer be treated as urban according to 1981 criteria.

Census House :

A census House is a building or part of a building having a separate main entrance from the road or common courtyard or staircase, etc. used or recognised as a separate unit. It may be occupied or vacant. It may be used for a residential or non-residential purpose or both.

Household :

A Household is a group of persons who commonly live together and would take their meals from

a common kitchen unless the exigencies of circumstances prevented any of them from doing so. There may be a household of persons related by blood or household of unrelated persons or having a mix of both. Examples of unrelated households are boarding houses, messes, hostels, residential hotels, rescue homes, jails, ashrams etc. These are called "Institutional Households". There may be single member households, 2 member households or multi member households. For census purposes, each of these types is regarded as a households.

Scheduled Castes and Scheduled Tribes :

The lists of Scheduled Castes and Scheduled Tribes were notified for the first time under the Constitution (Scheduled Castes) Order, 1950 and the Constitution (Scheduled Tribes) Order, 1950. These lists have been modified or amended or supplemented from time to time. On the reorganisation of the states, the Scheduled Castes and Scheduled Tribes (Modification) Order came into force from October 29, 1956. Thereafter, a few orders specifying Scheduled Castes, Tribes in respect of a few individual states also came into force.

Literate :

A person who can both read and write with understanding in any language is taken as literate. A person who can merely read but cannot write, is not a literate. It is not necessary that a person who is literate should have received any formal education or should have passed any minimum educational standard.

Main Worker :

Main worker is a person whose main activity is participation, in any economically productive work for at least 183 days or more during one year preceding the date of enumeration considered as the reference period. Such participation may be physical or mental in nature. Work includes not only actual work but also effective supervision and direction of work.

Marginal worker :

Marginal worker is a person who has been participating in some work during the preceding one year but such participation is only marginal and not for the major part of the year.

Non-worker :

Non-worker is a person who has never done any work throughout the last one year prior to the date of enumeration. Non-workers are divided into seven categories. The symbols which have been used to indicate these categories are shown below against each category :

i)	Household duties	...	H
ii)	Students	...	S
iii)	Dependents	...	D
iv)	Retired persons or Rentiers	..	R
v)	Beggars etc.	...	B
vi)	Inmates of Institution	...	I
vii)	Other non-workers	.	O

Brief history of the district :

Goalpara lying on both sides of the river Brahmaputra is the westernmost district of the state of Assam. It covers an area of 10,301 sq. kms. and is the second largest among the districts of the state. On the north it is bounded by Bhutan, on the east by Kamrup district, on the south by Meghalaya state and on the west by West Bengal and Bangladesh.

Origin of the name :

The name Goalpara is associated with the term 'Gwal' or 'Goal' meaning milkman. There is also a belief that the name Goalpara is derived from 'Gwalitippika' which literally means milkman's village. It is believed that there was a big 'char' (alluvial land) which formed an ideal place for grazing cattles where many 'Goalas' (milkman) settled with their hards of cattle. This habitation of milkman was popularly known as 'Goaltulis'. It is therefore believed that the name Goalpara is a derivative from the term 'Goaltulis'.

The district of Goalpara had never a separate political entity under its own king and its history has to be considered in connection with that of various kingdoms of which from time to time formed

a part. It was originally included in the ancient Hindu kingdom of Kamarupa which finds mention in Mahabharata. Narakasur is said to be the earliest king of Kamarupa followed by his son Bhagadatta who is mentioned in the Mahabharata as fighting on the side of the Kauravas at the battle of Kurukshetra.

It is in the tenth and eleventh century A.D., that a powerful dynasty known as Pala dynasty ruled the central Assam but it is difficult to say for certain whether that Goalpara was included in their territories or not. In the fifteenth century A. D., the district fell within the dominions of the Khen princes. The Khen dynasty was founded by Niladhwaj in 1440 A.D. after overthrowning the last degenerate descendent of the Pala dynasty. He was powerful and founded a capital at Kamatapur in the south of Cooch Behar. He was succeeded by his son Chakradhaj who in his turn handed over the throne of Kamatapur to his son Nilambar-the last king of the line. Nilambar was the most powerful king of Khen dynasty. He extended his kingdom eastward to the Barnadi and to the Karatoya river in the west. He also conquered part of Northern Bengal from the Muhammadan ruler. Nilambar lost his kingdom to Hussain Shah of Gaud in 1498 A.D. and along with this, the rule of Khen dynasty came to an end.

The fall of Nilambar is attributed by tradition to one Sachi Patra, a councillor of his court, who invited the Muhammadans to invade the kingdom of Nilambar. The story goes that the king suspected the young son of Sachi Patra having an illegal rela tionship with the beloved queen. His suspicion at one stage went to such an extent that he had the youngman killed and served his flesh to his father Sachi Patra at a banquet. After knowing this dreadful act of his ruler, Sachi Patra was determined to avenge his son's murder. He obtained permission of the king with the plea of pilgrimage to the Ganga for washing off the sin of eating human flesh but with the real object of seeking means of vengeance. He went straight to Hussain Shah, king of Gaud (modern Sylhet) and persuaded him to invade Kamatapur by disclosing to him its instrinsic weakness. The invasion of Kamatapur was not so easy as the capital was strongly fortified. However, Hussain Shah after a long struggle succeeded in taking over the same in 1498 A.D. by stratagem and thus the rule of Kamata king came to an end. Hussain Shah adopted the strategy of announcing to the king that he wanted to return to his own country, but begged that before doing so his wife might be allowed to pay a visit to the queen of Kamatapur. Nilambar could not apprehend the conspiracy and granted the permission. A number of closely veiled palanquins were brought within the city walls. But the occupants of palanquins were soldiers and not women as it was thought. The gates of the capital were quickly thrown open to the advancing soldiers. The capital was captured and Nilambar was taken prisoner. It was decided to carry him to Gaud, but on the way, Nilambar made his escape. He was never heard of agian. With the fall of Nilambar, Kamatapur lost its integrity and was split up into a number of petty principalities. After it, a new caste known as Koch rose to power in this area.

The Koch kings : Biswa Singh was the founder of the Koch rule. A legend was there that Biswa Singh known in his childhood as Bisu was begotten on his mother Hira by Lord Siva in the disguise of his father Haria Mandall a resident of Chikangram, a village in Goalpara district. Chikangram, about 12 kms. north of Kokrajhar is said to be the first capital of the Koch Kings which was established by Haria Mandal, a Chieftain in the 15th century. Bisu was born a few years before the conquest of Kamatapur by Hussain Shah. Bisu grew up into a strong and brave youngman. He soon subdued the petty princes in the area and assumed the name of Biswa Singha. He declared himself as king of Kamatapur in 1515 A.D. and shifted his capital to Cooch Behar where he built a fine city. Biswa Singha had a well organised government. He made his brother Siba Singha the yubraj and formed a council of ministers numbering twelve. He was not involved in the wars that took place frequently between the mighty Ahoms and the Muhmmadans though the combatants passed through his kingdom. He had several wives and eighteen children inclu-

ding famous Malla Deva, Sukladhwaj, Nara Singha and Gossain Kamal.

Biswa Singha died in 1540 A.D. and was succeeded by his son Malla Deva. On the death of Biswa Singha, a chaotic situation prevailed regarding ascendency to the throne. Nara Singha proclaimed himself the king as Malla Deva and Sukladhwaj were away from home. Hearing the news of proclamation of Nara Singha as king, both Malla Deva and Sukladhawaj hastened home and captured the throne from Nara Singha. After ascending the throne Malla Deva assumed the name of Nara Narayan and appointed his brother Sukladhawaj better known as Chila Rai as the Commander-in-Chief. Soon after, Nara Narayan set out on a conquering tour and subjugated many neighbouring kings and Chiefs. His main expedition was against the Ahom whom he defeated many times in fierce battles. During these wars with Ahoms he constructed an embanked road from his capital to Narayanpur a distance of about 560 kilometres under the supervision of his brother Gossain Kamal. The remains of it are still seen and are known as Gossain Kamal Ali.

Nara Narayan was very much religious minded. He rebuilt the temple of Kamakhya which was once destroyed by a Mahammadan invader. His reign was also remarkable for the Vaishnava reformation which was founded by the great saint of Assam Sri Sri Sankar Deva, who brought a great renaissance in the social and cultural life of Assamese people. Some say that he even wished to become a disciple of Sankar Deva. The latter part of Nara Narayan's life was very much unhappy. Nara Narayan had no son till late in life and as such his brother Chila Rai's son Raghu Rai, also known as Raghu Dev, was regarded as his heir apparent to the throne. But Raghu Rai apprehanded the loss of the throne at the birth of a son named Lakshminarayan to the king afterwards. He withdrew from the capital to Barnagar where he established a new capital. This endeavour of Raghu Rai led to the division of the kingdom of Nara Narayan. Raghu Rai continued to reside at Barnagar having his territory east of the Sankosh river. The territory west of the Sankosh was made over to Lakshmi narayan.

Raghu Rai was succeeded by his son Parikshit in about 1593 A. D. Parikshit shifted his capital to North Gauhati A war broke out between Parikshit and Lakshminarayan over some dispute that took place during his father's reign. The latter was defeated but called in the Mahammadans to his aid. The Mahammadans sharply acted ,and an army under Mukarrum was sent to fight against Parikshit. Mukarrum defeated Parikshit and advanced to Goalpara and conquered the Koch fort at Dhubri. After sometime, the Koch King made an attempt to recapture the fort but was defeated and retreated to Barnagar. Then he fled to Pandu and surrendered himself. He was taken to Delhi as a prisoner. Mughal emperor Jahangir restored him to his kingdom on his undertaking to pay a sum of four lakhs of rupees. Parikshit agreed to the undertaking and returned, but on the way he fell ill and died. Thereafter his kingdom as far as the Barnadi was annexed to the Mughal Empire in about 1614 A.D.

On the defeat of Parikshit, his brother Bali Narayan fled to the Ahoms and with the help of Ahom king Pratap Singha continued the struggle with the Mughals for some years with varying successes. The country up to the Barnadi was cleared of the Mahammadans and Bali Narayan was installed as a tributary Raja of Darrang and renamed as Dharma Narayan by the Ahoms.

The conflicts between the Ahoms assisted by Bali Narayan and the Mahammadans lasted for many years. the Ahoms ultimately got upperhand and took almost all the strongholds of Mahammadans in Kamrup district and in a great part of Goalpara district. Parikshit's son Chandra Narayan, who had established himself at Karaibari fell prey to the Mughal expedition. The Mahammadans regained their hold upon Goalpara. In 1637 they made a fresh expedition against the Ahoms. The Ahoms and their ally Bali Narayan were gradually driven back. A decisive defeat was inflicted or them at Kajali near the mouth of the Kolong. Bali Narayan fled to Singri hill in Darrang and was hotly pursued and killed there in 1637. The

Ahoms reoccupied Kajali and a treaty was concluded by which the boundary between the Ahoms and the Mahammadans was fixed at Barnadi on the north and the Asurar Ali on the south of the Brahmaputra.

Since then the Mahammadans ruled Goalpara for 20 years through a Governor. In 1658 A. D. Prana Narayan, a Koch king took advantage of the confusion caused by the wars of succession following the illness and deposition of emperor Shah Jahan. He attacked Goalpara. The Mughal Governor retreated to Gauhati but was driven away by the advancing Ahoms. The Ahoms seized Goalpara and drove Prana Narayan beyond Sankosh river.

Goalpara remained in the hands of Ahoms for three years. In 1661 A. D Mir Jumla started his invasion of Assam. He marched uptill he occupied the Ahom capital Gorgaon. On his way he defeated Prana Narayan, but could not make him captive and Prana Narayana escaped to Bhutan. From that time Goalpara continued under the Mahammadan rule till 1765 A.D. when with the rest of Bengal it passed into the hands of East India Company.

Goalpara has experienced jurisdictional changes for many times since it came under British rule. It was added to Rangpur district of the Bengal province. In 1822, it was formed into a separate district known as North East Rangpur with three thanas of Goalpara, Dhubri and Karaibari along with a large portion of Garo Hills frontier and was placed under the charge of a Special Civil Commissioner. Mr. David Scott was the first official to hold this charge. After the annexation of Assam to the British territory in 1826 through Yandabo treaty, David Scott, the Special Civil Commissioner of North East Rangpur was appointed as the Commissioner of the new province and the district of North East Rangpur subsequently merged with the new province as a separate district under the name Goalpara. Since, then, it was administered on the same system as the rest of Assam till 1866 with its headquarters at Goalpara. However, in 1827 the district was transferred to the newly created Cooch Behar Commissionership and it remained so for one year. in the following year, it was placed for judicial purposes under the Judicial Commissioner of Assam, and it was finally incorporated into Assam in 1874. In 1879, the headquarters of the district were transferred to Dhubri and Goalpara, the place of old headquarters was reduced to a subdivisional headquarters. Since then, the district had been functioning with two civil subdivisions viz., Dhubri subdivision and Goalpara subdivision till 1958. In 1958 another subdivision, Kokrajhar by name, was carved out from Dhubri subdivision and at present there are three civil subdivisions in the district.

Brief History of the District Census Handbook

The District Census Handbooks were first introduced in 1951 Census. Prior to 1951, village statistics for district used to be printed after the census giving the population for each village and showing the distribution of communities and of literate persons. The district Census Handbook in 1951 contained data on area, houses and population, small scale industries, distribution of population by livelihood classes for each village and town of the district and many other census tables. In 1961 Census, the scope and contents of the District Census Handbooks were enlarged by including more census tables and also the administrative statistics which included information on rainfall and temperature, vital statistics, land utilization and agriculture, livestock, industries, administration, public healthe and medical etc.

In 1971 Census, further improvements were made in District Census Handbook by incorporating more information on Villages and Towns in the form of Village and Town Directory. The District Census Handbook of 1971 was divided into three parts and the Part-A included the Village and Town Directory. The Village Directory contained information on area, educational, medical, power supply, drinking water, communication, post and telegraph facilities, staple food, land-use pattern, nearest town and its road distance from the village, day or days of hats and markets etc. The Town Directory comprising seven statements included data on (i) Status, Growth history and functional categories of each town (ii)

Physical aspects and location of the towns (iii) Municipal finance (iv) Civic and other amenities (v) Medical, educational, recreational and cultural facilities (vi) Trade and commerce, Industry and Banking facilities and (vii) Population by religion. Part-B presented data on Primary Census Abstract like area, Census houses and house-holds, population, Castes and Tribes, literate and educated persons, workers by industrial categories and non-workers for each village and each block and ward of town. Part-C included census tables, secondary tables based on Village Directory and Primary Census Abstract data and tables relating to administrative, welfare and developmental activities.

In the 1981 Census, the District Census Handbook is divided into two parts. Part-A includes data on Village and Town Directory covering information on a few more items in addition to the information covered in these directories in 1971 Census. Part-B includes the Village and Town-wise Primary Census Abstract. This part of the District Census Handbook will not be published in case of Assam as there had been no Census in the State during 1981.

Scope of Village Directory and Town Directory Statements

The information of Village Directory was confined to a single column in 1961 Census which showed amenities available in each village like transport and postal facilities educational institutions, drinking water supply, bazar day and medical facilities, veterinary facilities and whether the village is covered by C.D. blocks or N.E.S blocks. The scope of village directory was enlarged in 1971 Census which included information on area, amenities available in the village such as medical, power supply, etc. In 1981 Census two more columns are added to the village Directory. Column 4 gives information on total population and number of house-holds and column 11 gives information regarding approach to the village. Of the seven statements of Town Directory included in 1971 Census six have been retained in 1981 Census excluding the statement VII which showed religion-wise population of each town. In addition a new statement IV A giving information on "Civic and other amenities in notified slums during 1979" has been introduced. However, in case of Goalpara district there is no notified slum area and as such this table has been dropped from the purview of this handbook.

Physical Aspects

Physically the larger portion of the district is a level palin, the lower portion of which is intersected by the river Brahamaputra. The land near the Brahamaputra is subject to floods and is covered by dense grass and reeds. Away from the river the level of the land rises and swamps give way to rice fields. Areca palms, plantains and bamboos are abundant and the houses of cultivators have been found almost buried in dense groves of such trees. It is for these areca palms, plantains and bamboos, the district looks fresh and green throughout the year. The northern and the western portion of the district is almost flat, but the Central portion is broken up by small ranges of low hills. On the east and the south, there are several ranges projecting from the Garo Hills. The northern portion of the district is covered by jungle grass and dense forests and holds a comparatively less population.

The Jurisdiction of the district has not been changed after 1971 Census. But some changes at the lower level such as police station took place during the decade. Two new police stations have sprung up after 1971 Census affecting the Jurisdications of as many as six old police stations. These are Tamarhat and Bongaigaon. Bongaigaon police station was established in 1974 by the Government of Assam Notification No. HMP. 224/72/167 dated 15-5-74 which affected the Jurisdictions of Abhayapuri, Sidle and Bijni police station while the other police station viz, Tamarhat came into existence in 1979 by the State Govt. Notification No. HMP. 964/75/26 dated 7-11-79. The police station has been formed carving out portions of Gossaigaon, Golokganj and Bilasipara police stations.

Major characteristics of the district particularly in relation to the economic resources.

Forestry :— The forests of the district have played a very significant role in shaping the economy of the district. A considerable section of the people of the district depends upon forests for firewood for domestic consumption and for timber and bamboo, reeds, thatch etc. for building purposes. The principal valuable species occuring in the forests of Goalpara district is sal, a huge quantity of which is exploited annually in the form of logs, posts, railway sleepers etc. There are hundreds of other species out of which only 35 to 40 species are generally used for construction purposes. As many as 50 species of bamboo are found in the district which can be used for diverse purposes. The district has abundant raw materials for the paper pulp, rayon pulp and paper board industries. The Ashok Paper Mill established at Jogighopa in the district had been utilising the bamboo resources of the district. Owing to certain constraints the mill has now stopped functioning. Simul timber has got a ready market in match factories. Timber of inferior species like Bohera, Hatipoila, Hirgori etc. are also found having a growing demand.

A sizeable number of forest villages are there in the district, the majority of them being in Kokrajhar sub-division. The people of these villages entirely depend upon forests for their livelihood. Each family of these villages is alloted land for cultivation by the Forest Department at a nominal rate of revenue. They are however allowed to occupy homestead land free from land revenue.

The forests of Goalpara district are mainly divided into two classes - the Reserved forests and the Unclassed State forests. The Reserved forests have been constituted under the provision of the Assam Forest Regulation VII, 1891. The Unclassed Forests are however mostly waste lands at the disposal of the Government and are usually devoid of anything in the shape of tree growth where the villagers are allowed to cultivate. The area covered by Reserved Forests in the district during the year 1980-81 was 243,693 hectares while that of Unclassed Forest was 44,035 hectares.

The area of proposed reserve forest during the period was 41,039 hectares. The Forests revenue realised by the Forest Department during the year is Rs. 13,765,706.00.

Mineral and mining :-

No known minerals or mines have been found in the district. Clay which is used for the manufacture of bricks and roofing tiles are available in the district but its use has now been almost found absent. The Archaeans, mostly granite, granite-gnesis and the intrusive delerite are locally worked to be used as road metals. Terracotta works made of clay soils have some influences among certain sections of the people. Spots of chalcopyrite (copper pyrits) and stains of malachite are seen in the Mahamaya hill in a metamorphosed dolerite of uncertain age.

Agriculture :-

Agriculture is the main occupation of the people of the district. According to 1971 Census, out of the total working population of 5,96.886 in Goalpara, 4,67,464 were engaged in agriculture out of which 3,90,875 were cultivators and 76,589 engaged as agricultural labourers. The soil of this district is fairly soft and sandy and the climate characterised by highly humid atmosphere and abundant rains accelearates the growth of agricultural crops and vegetables.

The staple food crop of the district is rice. Other important crops are mustard, pulse and wheat. Among fibres jute is largely grown. Sugarcane is not much in favour and tea is a crop of no importance in Goalpara. The totale area of the foodgrains during the year 1980-81 was 4,30,555 hectares out of which 3,86,430 hectares were covered by rice. Jute and Mesta during the same year was grown over an area of 33,400 hectares and 4,540 hectares respectivley. The break-up of areas

in hectares covered by different crops during 1980-81 is given below :—

Crops	Kokrajhar Sub-division	Dhubri Sub-division	Goalpara Sub-division
Foodgrains	163160	146820	120575
Fibre Crops	7820	22545	7605
Oilseeds	13190	10615	7730
Misc. Crops	6176	8410	6295

Fisheries :-

The district has sufficient number of natural fisheries including rivers, beels, swamps, tanks etc. and has got sufficient scope for the development of fisheries. Although in the past fishing for commercial purposes was confined to only certain sections of the people, no social stigma is now attached to this, Pisciculture has now become popular among all sections of the People irrespective of caste or creed. Large varieties of fish are found in the district. Among them the most looked after are the row. chital, hilsa, ari, magur, sol and katla.

The development of fisheries in the district was undertaken only after independance to meet the ever increasing demand for fish. Among the major schemes undertaken by the Department for the development of fisheries in the district are (i) Seed collection and distribution. (ii) Survey of natural fisheries and reclamation thereof. (iii) Renovation of old an ancient tanks, (iv) Fish farming and (v) Loan and subsidy. Initially the Department collected a major portion of fish seeds from Calcutta. Gradually the local collection of fish seeds increased to such an extent that their import from Calcutta was totally stopped. Padumpukhuri tank with an area of about 13 hectares has been renovated for the development of pisciculture. Fishery projects have been taken up in all the Development Blocks of the district. The fishery department has so far established 4 Fish Seed Farms in the district. These are Boalia Seed Farm with an area of 2.1 hectares at Agomani. Municipal Board Tank at Kokrajhar covering 0·6 hectares and Matilang and Khamarguri farms in Goalpara sub-division. There were 34 registered Beel Fisheries and 3 registered River Fisheries during 1980-81 in Goalpara sub-division. The corresponding figures for Dhubri and Kokrajhar sub-division being 50 & 13 and 2 & 3 respectively. Besides there are about 3 unregistered beels in Goalpara sub-division, 75 in Dhubri sub-division and 22 in Kokrajhar sub-division.

Animal Husbandary and Veterinary :-

Prior to 1953 this department was known as Civil Veterinary Department. In 1953 it was renamed as Animal Husbandry and Veterinary Department. The district of Goalpara had the privelege of having the first office of the District Animal Husbandry and Veterinary officer in 1953 which was established at Dhubri, the Headquarter town of the district. This was the lone office in the district till the establishment of Community Development Blocks in the state. Along with the establishment of the Community Development Blocks this organisation was also expanded to cover all the blocks and the facilities to be derived from this organisation have now been expanded to rural areas also.

Census of livestock is taken regularly. As per livestock census of 1979, the population of livestock and poultry in Goalpara District respectively are 1439621 and 1419461. Out of 14,39,652 livestocks, 10,14.497 are cattle, 79,915 are buffaloes, 23,195 are sheeps, 2,43,895 are goats, 5,262 are horses and ponnies and 72,857 are pigs. Among poultrys, there are as many as 10,74,067 are fowls, 3,11,511 are ducks and 33,883 are of other varieties. During 1980-81 there are 4 veterniary hospitals, 33 dispensaries , 9 Key Village Centres, 2 mobile dispensary 2 regional artificial insemination centres, one goat farm, 2 R.P. check posts, one R.P. Quarentine station and one poultry farm in the district. The approximate number of animals treated in the district during the year 1980-81 was 3,22,000 and that of poultry was 64,000. The number of livestock and poultry vaccinated during this period was 1,74,000 and 2,06,000 respectively. The animals castrated in the same year was approximately 22,000.

Industry :-

Although Cottage industries like pottery, black-smithy, gold and silver smithy, cane and bamboo works, cork (sola), sericulture and weaving etc. still play a vital role in the economy of the district, some of these have been suffering from prolonged stagnation and some others are on the verge of extinction. The main factor contributing to such sorry state of cottage industries is that during the British rule the indigenous industries faced keen competitian from sophisticated foreign industries producing the same articles in a very large scale and making them available to the consumers at a competitive price. The change in taste of the users also took away the patronage the cottage industries products once received. At the end of British Rule, the district of Goalpara was trailing behind most plains district of Assam in the sphere of industries, having then only one large scale industry i. e. the Match Factory of Dhubri in the private sector which went into production in 1926 and a few small scale industries like rice mills, oil mills, flour mills, saw mills etc. Through consistent efforts of the State Govt., assisted by the centre, steps have lately been taken to gear up the growth of industries in the district. The district has made some headway in industries through establishment of a heavy industry i e. Bongaigaon Refinery-cum-Petrochemical Complex and a large-scale industry i. e. Ashok Paper Mill at Jogighopa. However, owing to certain constraints the paper mill has since stopped functioning. Assam Small Scale Industries Devlopment Corporation has also extended active assistance and guidance to small scale industries existing in the district and this has greatly contributed to the district to the district economy. Gauripur, and industrial town of the district has been made headquarters of the only Rural Industries Project taken up in Assam proving thereby a boost in the field of industries in the district. Government has also established an Industrial Estate at Bongaigaon and one growth Centre at Goalpara.

Goalpara has North-East Gases Pvt. Ltd. producing Industrial Oxygen Gas, Nitrogen Gas and dissolved Accetalin Gas and Roller Flour Mill at Bongaigaon in their private sector.

The district of Goalpara has enough potentialities for forest and agro-based industries. The forest resources of the district are remarkably rich and these have given scope for establishment of more saw mills, timber treatment, plywood factories, manufacture of hard-board, satety matches etc. It is unfortunate that being one of the major jute growing areas the district so far has no jute mill in its territory. We may mention here that out of a total area (1980-81) of 112300 hectares in the State under Jute cultivation, Goalpara alone had share of 33,400 hectares. There was a total of 1,456 registered small scale industries with approximately 7,944 employees in Goalpara District by the end of 1980-81. There are 30 saw mills in the district which are mostly in Kokrajhar sub-division. The district has now 27 rice mills, 3 flour mills and 9 oil mills.

Trade and Commerce :-

In old days, the overland communication system of the district was very poor and as such external trade could not flourish. Trade with neighbouring states at that time was carried out only through the river Brahmaputra. The smaller rivers also took a very prominent part in the distribution of internal trade of the district. But as days passed, a network of railways was laid in the northern part of the district. A vast network of road communication was also developed in the district after independence and this surface communication improved to a considerable extent in the district and with that export and import of valuables made a headway. A considerable volume of business both internal and external is now carried on the district.

Goalpara, despite being primarily an agricultural district, imports some kinds of agricultureal products like pulses, onion, potato etc. as these are not sufficiently grown in the district. Besides agricultural products, some other commodities of common use, such as coconut oil, tobacco, ghee, spices, gur molasses etc. are also imported from the neighbouring states. It exports some of local products such as Cotton, Mustard oil, Ginger, Sesamum, Matikalai

(dal), Betelnut, Pineapple etc. to the neighbouring States.

Dhubri Town is the principal centre of business in the district. It is connected by a network of roads, railways and ferries with all important trade centres of the district as well as outside the district. Dhubri serves as the main distributing centre for all imported commodities. Other important wholesale trade centres of the district are Goalpara, Kokrajhr, Gauripur, Bilasipara, Bongaigaon, Chapar, Fakiragram, Sapatgram, Golokganj, Abhayapuri, Mankachar, Lakhipur, Krishnai, Dudhnai, Dhupdhara, Bijni, Gossaingaon etc.

Tenancy :-

The Goalpara Tenancy Act, 1929 is the landmark in the history of land reforms in Assam. It governed the relations between the landlord and tenant in the permanently settled areas of the Goalpara district. This act improved the conditions of the tenant class by way of protecting them against illegal ejectment and arbitracy enhancement of land rent. This act was amended in 1970 and finally repealed in 1974 when the Assam Tenancy Act, 1971 was extended to the acquired Zamindary estates of the district by a act namely, the Assam Land Holdings Act, 1974. The Assam (Temporarily-Settled Areas) Tenancy Act, 1971 is now in force in the Goalpara District. The broad features of the Act are as follows :

1. Share-croppers will be treated as tenants.

2. Right of occupancy will accrue on occupation for 3 years as against 12 years prescribed in the earlier.

3. The Government has been given the power to aquire the right of ownership and the intermediary rights in favour of occupancy and non-occupancy tenants. Till the Government do so, an enabling right has been given to the tenants cultivating their own lands to acquire such right by depositing the compensation.

4. Illegally ejected tenants will be restored possession through Revenue officers.

5. A limited right to mortgage has been given to non-occupancy tenants to obtain credit from the recognised Financial Institutions for agriculture, whereas the occupancy elemant has been given permanent, chairitable and transferrable right of use and occupacy in the land of his holding.

Transport :-

The district is divided by the river Brahamaputra in two parts. The northern part is well connected by roads, rails, and river ferry.

The people of the southern part is yet to have the rail communication. State buses as well as private buses ply regularly on the roads of the district. Regular bus service both of Assam State Transport Corporation and privately managed organisations are available to and from all important places of the district which is connected with the State Headquarters and other important towns of the Lower Assam circle. There are two major ferry services connecting the northern and southern parts of the district. These are Dhubri–Fakirganj covering a distance of 15 kms. and Jogighopa-Pancharatna covering a distance of about 2 km. Ramp powered lighter vessels, modern steel vessels and marboat are put to these services. The northern part of the district is connected by a section of the N. F. Railway both in broad-gauge and metre-gauge lines. The broad-gauge railway line had been extended to Bongaigaon and thereafter to Jogighopa and was opened goods traffic on June 15, 1965 and to passenger traffiic in January, 1966, ushering a new era in the rail transport in the district as well as in the State of Assam. There being no railway on the south bank of the river Brahmaputra in the district. People of this region may avail the opportunity of rail services at Jogighopa or Bongaigaon or at Dhubri after crossing the Brahmaputra by Jogighopa-Pancharatna ferry or by Fakirganj-Dhubri ferry.

The total number of motor vehicles on road in the district, as recorded in 1981 is 2,489 of which 283 are buses, 416 are private carriers, 750 are public carriers, 105 are motor cars, 61 are jeeps

and the rest belonging to other categories of motor vehicles. 413 motor vehicles had been registered in the district during the same year.

Brief description of places of religious, historical and archaeological importances

Goalpara district has a good number of temples which attract large number of devotees throughout the year. Among the famous are Mahamaya pith, Dudhnath temple, Surrya Than, Tukreswary Devalaya etc.

The Mahalaya Pith, one of the most hallowed pilgrim centres of Assam, is located near Bagribari which it at a distance of about 16 kms from Sapatgram. There is a big stone image of Goddess Durga (Mahamaya) in the temple. A general belief is that the said image of Mahamaya is sinking slowly into the earth and only a portion about the chest is now visible.

The Dudhnath temple is situated at Bilasipara. It contains an image of Lord Siva.

Surrya Than is situated on a hill called Surrya Pahar at about 14 kms. south-east of Goalpara town. This place is filled up with Sivalingas, Surrya mandir and hundreds of images some of which are believed to be those of Tirthankor Jains probably belonging to the Eight Century A. D., images of Lord Buddha. Dashabhuja, Durga, Ganesh, Surrya (Sun) and Chandra (Moon). People belief that old saint Vyas Deva tried to build another "Kashi" here by engraving 99,999 sivalingas.

Tukreswary Devalay is situated on Tukreswari hill 3 kms. west of Krishnai on South Trunk Road. Tukreswary is another name of Goddess Parvati, consort of Lord Siva. People believe that while Mahadeva (Lord Siva) was wandering around the earth with the body of Sati (Parvati) on his shoulder, one of her limbs fell on this spot where the temple is situated. Every year a big fair is held on the occasion of Durga Puja. The temple was almost campletely damaged by 1897 earthquake but was reconstructed in 1905.

One finds in Goalpara district quite a few remains of archaeological interest and discovery of many more of such remains by further excavation and research cannot be ruled out.

In Dudhnath temple at Bilasipara and in a temple at Jogighopa, there are images of Lord Siva and 'Siva-Parvati' carved together on stone. In Mahamaya Pith near Bagribari, there is a stone image of Durga whose date of establishment is not known. A big slab of stone near the confluence of the river Gadadhar with the Brahmaputra is associated with the mythological tale of Beula and Lakhindar. This stone is said to have been used by Netai Dhubani, the washerwoman of Siva for washing clothes. It is with the help of this Netai Dhubani that Beula could make her entry into the Kailash, the abode of Lord Siva and persuaded Siva to bring back life to her dead husband Lakhindar. It is in this place that Chand Sadagar's seven vessels of merchandise were caused to sink by Manasa, the servent goddess and daughter of Lord Siva. At Rangamati, about 10 kms. from Gauripur town, there is a mosque which is said to have been build in 1687 A. D. Famous among the other remains of the hill is a masonry enclosure in which a tiger is said to have been confined. At Chikangram the ruins of the first capital of the founder Koch King Biswa Singha can be seen. At Jogighopa, there are small caves which are said to have been used as shelter by various monks. Eight images of Lord Buddha carved in a raw on a simple slab of stone have been found in the Suryya hill. Besides all above, images of different gods and goddesses have been found in different places of the district the antiquity of which are to be ascertained.

Places of tourist interest in the towns :-

There are not too many places having special feartures that can attract the tourists. However, Dhubri is a historically important place. A big mela is held here on Asokastami Day which attract Visitors. Gurudwara at Dhubri is said to be the oldest Sikh temple in Assam. Dhaligaon near Bongaigaon town has the second Oil Refinery-cum Petrochemical complex of Assam which attract

people although in a limited scale. Besides the Oil Refinery, Bongaigaon is having an Aluminium utensils factory. The match factory of Dhubri town established as early as 1926 is a point of attraction for many. Many relies of historical importance particularly the cannons of Koch King Raghudev, Lakshminarayan and of Mughals are in possession of the Gauripur Rajbari in Gauripur town which draw a sizable number of tourists. Jogighopa about 35 kms. south of Bongaigaon town, on the north bank of Brahmaputra is a place of historic and religious importance. Big melas held on the occasion of Sivaratri and Ashokastami draw people from distant places.

A brief analysis of the village Directory

The table-I reproduced below shows the total number of inhabited villages in the police stations of Goalpara district having different kinds of amenities available to them. Out of 3,943 inhabited villages in the district of Goalpara as against 3,819 during 1971 census as many as 2,817 villages or 71.44% reported having the facilities of one or more types of educational institutions. Medical facilites are available only in 197 villages constituting a meagre 5.00% of the total number of villages in the district. Postal services are available in 327 villages the percentage being 8.29.428 villages (10.85%) of the district are benefited by a market or hat held within their jurisdictions. Inhabitants of as many as 839 (21-28%) villages have the facilities of communications either by road or rail or through waterways. Pucca road approach is available in 696 village accounting for 17.65% of total villages. Power supyly is not adequate throughout the district and inhabitants of only 181 villages (4.59)% derive the benifit of it. Not a single village in as many as 5 (five) police stations reported availability of electricity. However, it is heartening to note that drinking water drawn from different source is available in all the villages of the district.

TABLE—1

DISTRIBUTION OF VILLAGES ACCORDING TO THE AVAILABILITY OF DIFFERENT AMENITIES

Sl. No.	Name of Police Station	No. of inhabited villages	No. (with percentage) of villages having one or more of the following amenities							
			Education	Medical	Drinking water	Post & telegraph	Market/ hat	Communi-cations	Approach by pucca road	Power Supply
1	2	3	4	5	6	7	8	9	10	11
1.	Tamarhat	121	74(61.16)	6(4.96)	121(100.00)	9(7.44)	21(17.36)	21(17.36)	9(7.44)	2(1.65)
2.	Gossaingaon	358	237(66.20)	11(3.07)	358(100.00)	31(8.66)	33(9.22)	81(22.63)	48(13.41)	7(1 96)
3.	Kokrajhar	380	314(82.64)	18(4.74)	380(100.00)	27(7.11)	43(11.32)	56(14.74)	123(32.37)	21(5.53)
4.	Sidli	221	185(83.71)	17(7.69)	221(100.00)	24(10.86)	34(15.38)	41(18.55)	12(5.43)	17(7.69)
5.	Bijni	282	194(68.79)	20(7.09)	282(100.00)	38(13.48)	50(17.73)	42(14.89)	35(12.41)	12(4.26)
6.	Golokganj	181	146(80.66)	13(7.18)	181(100.00)	28(15.47)	22(12.15)	60(33.15)	54(29.83)	—
7.	Bilasipara	521	342(65.64)	20(3.84)	521(100.00)	29(5.57)	22(4.22)	156(29.94)	122(23.42)	27(5.18)
8.	Dhubri	212	127(59.91)	14(6.60)	212(100.00)	18(8.49)	14(6.60)	13(6.13)	10(4.72)	9(4.25)
9.	South Salmara	328	210(64.02)	6(1.83)	328(100.00)	22(6.71)	30(9.15)	125(38.11)	11(3 35)	—
10.	Mankachar	67	52(77.61)	6(8.96)	67(100.00)	8(11.94)	8(11.94)	21(31.34)	17(25.37)	—
11.	Bongaigaon	149	111(74.50)	9(6.04)	149(100.00)	9(6.04)	12(8.05)	27(18.12)	26(17.45)	40(26.85)
12.	Abhayapuri	359	239(66.57)	23(6.41)	359(100.00)	23(6.41)	39(10.86)	46(12.81)	67(18.66)	39(10.86)
13.	Lakhipur	299	197(65.89)	10(3.34)	299(100.00)	16(5.35)	37(12.37)	88(29.43)	45(15.05)	—
14.	Goalpara	225	174(77.33)	12(5.33)	225(100.00)	16(7.11)	35(15.56)	29(12.89)	58(25.78)	—
15.	Dudhnai	240	215(89 58)	12(5.00)	240(100.00)	29(12.08)	28(11.67)	33(13.75)	59(24.58)	7(2.92)
	TOTAL	3943	2817(71.44)	197(5.00)	3943(100.00)	327(8.29)	428(10.85)	839(21.28)	696(17.65)	181(4.59)

As regards the availability of different types of amenities in the police stations, it is found that the Dudhnai occupies the highest position reporting 89.58% of its villages having educational facilities, followed by Sidli and Kokrajhar police stations where villages having such facility constitute 83.71% and 82.64% respectively of the total village in them The lowest percentages (59.91) is obtained in the Dhubri police station. Facilities of having medical treatment is avaible in a humble proportion of villages throughout the district suggesting that the rural populace still has to rush to urban centres to avail themselves of facilities of medical treatment. The proportion of villages having Primary Health Centre or any other firm of medical institutions varies between as low as 1.83% in South Salmara and the highest of 8.96% only in Mankachar P. S.

Availability of facilities of Post & telegraph Services in the villages of Goalpara district does not either present a very encouraging picture. Golokganj represents the highest (15.47%) proportion and Lakhipur the lowest (5.35%) of such villages indicating that post and telegraph services are still concentrated in the towns of the district.

Almost identical proportion of villages in Goalpara (15.56%) and Sidli (15.38%) police station returned having market or hat for buying and selling of sundry goods within their periphery. The lowest proportion (4.22%) of villages having such facility is recorded in case of Bilasipara P. S. However, we shall presently see that inhabitants of a vast majority of villages reportedly have to traverse only about 5 kms. to buy and sell different products.

Availability of facilities of communication either by road or rail or waterways varies between as low a percentage as 6.13 of total villages in Dhubri P. S. and 38.11% in South Salmara P. S. In eight other police stations less than 20.00% of villages reported such facility.

A new piece of information collected about villages in 1981 census is their accessibility. Approach of pucca road is available to a very small percentage of villages in Goalpara district. Kokrajhar police station recorded the highest proportion (32.37%) and South Salmara the lowest proportion (3.35%) of such villages. We may, however recall here that South Salmara reported the highest proportion of villages having communication facilities mostly in the form of waterways. Among the remaining police stations Bijni returned 29.83% of its villages as approachable by pucca road. This police station reported 33.15% of its villages having communication facilities. Bijni thus occupies a position of distinction in regard to cmmunication and accessibility. Villages in Dhubri P. S. present a dismal picture in respect of accessibility of its villages by pucca road. Eight other police stations recorded about 12% to 26% of their villages as approachable by pucca road.

As regards availability of electricity for domestic or other uses Bongaigaon P. S. claims the highest position with 26.85% of its villages being electrified. The lowest proportion (1.65%) of such villages is obtained in the newly created police station of Tamarhat. We may recall here that large industries like a Refinery & Petrochemical Complex, North-East Gases Pvt. Ltd, Roller Flour Mill etc. are located in the rural arers of Bongaigaon P. S which for obvious resons require supply of electricity. While five police stations did not return even a single village having electricity, eight others reported a very small proportion of their villages having the benefit of electricity.

The above analysis clearly establishes that baring the facility of availability of drinking water drawn from a variety of sources in 100% villages and facility of having an educational institution ranging from a Primary School to a College within the precinct of a village in a significant proportion ranging between 59.91% and 89.58% of villages, extent of availability of other amenities like post and telegraph communication, market / hat etc. is far from satisfactiory. It is distressing to note that inhabitants of most negligible percentage of villages are fortunate to have medical services through a primary Health Centre or a Dispensary or a Family Planning Centre located within the boundery of their villages. The rest have obviously to traverse certain distance

beyond the periphery of their villages to receive medical attendance or treatment. Power which is now treated as a basic necessity of life and no longer considered to be luxury is available to a hopelessly insignificant proportion of rural populace in Goalpara district. It is widely accepted fact that to prevent migration from rural to urban areas it is essential that various industries on different scales be established in the rural areas too to offer new vistas of employment to the rural populace which would prevent rush of rural population in search of victual to already overburdenend and problem-ridden urban centres and this essentially calls for making available electricity to the villages of Assam, which according to 1971 Census accommodates 91.18% of the total population of the state, where power supply would, besides being used in better irrigation of their agricultural crops, stimulate establishment of various industries in our villages. Goalpara incidentally returned 92.26% of its population inhabiting the rural areas in 1971.

The following table gives the number of villages not having certain amenities alongside furnishing information about the varying distance ranges of these villages from the nearest places where those amenities are reportedly available.

It is observed that educational institutions are not available in 1126 constituting 28.56% of the total villages in district of Goalpara. However out of these, inhabitants of an overwhelming majority (94.23%) derive the benefit from educational institutions located in nearby villages/towns within a distance of less than 5 kms.

Facilities for medical treatment considered to be a prime necessity for mankind is unfortunately not available in as high a proportion as 95.00% of total villages. However, medical institution of one kind or other is located within a radius of 5 kms. in case of little more than half (59.79%) of such villages. But inhabitants of 32.19% of such villages have to traverse 5 to 10 kms. to avail themselves of any sort of medical treatment. People of the remaining 8.02% of such villages are much less fortuate in as much as they have to traverse more than 10 kms. to reach a medical institution of some kind or other.

Though 3,616 or 91.71% of the villages in the district are deprived from having a post or a telegraph office within their territory, a great majority (70.13) of such villages have such facilities within a distance of less than 5 kms. and residents of 4.62% of such villages have to go 10 kms.

TABLE—2

DISTRIBUTION OF VILLAGES NOT HAVING CERTAIN AMENITIES, ARRANGED BY DISTANCE RANGES FROM THE PLACES WHERE THESE ARE AVAILABLE.

Amenity	Number of villages where the amenity is not available and available at a distance of			
	0 – 5 kms.	5 – 10 kms.	10+ kms.	Total (Col. 2 – 4)
1	2	3	4	5
Education	1060	63	3	1126
Medical	2210	1206	300	3746
Post & Telegraph	2536	913	167	3616
Market/Hat	2559	844	112	3515
Communication	2189	828	87	3104

or more beyond their village boundary to avail such facilities.

An overwhelming majority (72.80%) of villages without a weekly/bi-weekly market/hat have the facility of buying/selling a large variety of provisions and other sundry articles within a radius of less than 5 kms. Communication either through roadways or railways or through waterways is not available within the village itself to the people of as many as 3,104 or 78.72% villages of the district However. it is heartening to note that people of 2,189 villages accounting for 70.52% of such villages have such communication in places that are within a radius of 5 kms. while 828 villages or 26.68% avail such facilities by traversing distance between 5 and 10 kms.

It is thus seen that though certain basic amenities like medical treatment, post/telegraph service. road/rail/river transport etc. are still not available within the periphery of an overwhelming majority of villages in Goalpara district the people living in a vast majority of such villages can avail themselves of such facilites available within a distance of less than 5 kms. from their habitual place of residance.

The table reveals that almost an equal proportion of villages are situated within a distance of 6 – 15 (41.11%) and 16 – 50 kms. (41.06%) from an urban centre. A much lower proportion (14.41%) of villages have an urban centre within a short distance of about 5 kms.

It is a common belief that nearer a village is to an urban centre more is the facilities normally available in an urban area, available also in the nearby rural areas. But contrary to the above hypothesis in case of villages in Goalpara district we find facility of educational institution, post & telegraph and market/hat is available in the highest proportion of villages situated at a minimum distance of 51 kms. from an urban centre. However, we must hasten to add here that the facility of communication by road, rail or waterways. approachability by pucca road and above all availability of electricity is obtained in highest proportion of villages which are located within 5 kms. from an urban centre.

Though apparently the lowest proportion of villages located nearest to an urban centre reported having facility of medical treatment, a post or a telegraph office of a market/hat within their boundary

TABLE—3

DISTRIBUTION OF VILLAGES ACCORDING TO THE DISTANCE FROM THE NEARIST TWON AND AVAILABILITY OF DIFFERENT AMENITIET

Distance range from the nearest town (in km)	No. of inhabited villages in each range	No. (with percentage) of villages having the amenity of							
		Education	Medical	Drinking water	Post & telegraph	Market/ hat	Communi-cation	Approach by pucca road	Power supply
1	2	3	4	5	6	7	8	9	10
0 – 5	568	414	21	568	45	46	161	157	52
		(72.89)	(3.70)	(100 00)	(7.92)	(8.10)	(28.35)	(27.64)	(9 15)
6 - 15	1621	1109	87	1621	134	178	384	245	86
		(68.41)	(58.37)	(100.00)	(8.27)	(10.98)	(23.69)	(15.11)	(5.31)
16 - 50	1619	1179	83	1619	132	183	258	258	40
		(72.82)	(5.13)	(100.00)	(8.15)	(11.30)	(15.94)	(15.94)	(2.47)
51+	135	115	6	135	16	21	36	36	3
		(85.19)	(4.44)	(100.00)	(11.85)	(15 56)	(26 67)	(26.67)	(2.22)
TOTAL	3943	2817	197	3943	327	428	839	696	181
		(71.44)	(5.00)	(100.00)	(8.29)	(10.85)	(21.28)	(17.65)	(4.59)

can be assumed that the inhabitants of such villages can avail themselves of such facilities in the nearest urban centre without much hindrance.

Villages located within the distance range of 16–50 kms. compare well in respect of availability of different amenities except electricity. The table needs no further elucidation.

inhabitants of majority of villages in as many as 12 out of 15 police stations in this district. Thus, rice and wheat can be considered as staple food for an overwhelming majority of rural populace in Goalpara.

To what extent the lands of villages in the district is cultivable is shown in the following Table-5.

TABLE—4

MAIN STAPLE FOOD IN THE MAJORITY OF VILLAGES IN EACH POLICE STATION.

Sl. No.	Name of Police Station	Main Staple Food
1.	2	3
1.	Tamarhat	Rice and Wheat
2.	Gossaingaon	Rice and Wheat
3.	Kokrajhar	Rice and Wheat
4.	Sidli	Rice
5.	Bijni	Rice
6.	Golokganj	Rice and Wheat
7.	Bilasipara	Rice and Wheat
8.	Dhubri	Rice and Wheat
9.	South Salmara	Rice and Wheat
10.	Mankachar	Rice and Wheat
11.	Bongaigaon	Rice and Wheat
12.	Abhayapuri	Rice and Wheat
13.	Lakhipur	Rice and Wheat
14.	Goalpara	Rice
15.	Dudhnai	Rice and Wheat

Table 4 given below has been compiled to show the nature of main staple food taken by the people of the majority of villages of different police stations in the district.

It is observed that a combination of rice and wheat form the main elements of food taken by

It is observed that almost 3/4th of the rural areas of the district are cultivable areas. Among the police stations the highest proportion (82.27%) of cultivable areas is claimed by Mankachar while Bilasipara records the lowest proportion (53.38) of cultivable areas. Ten police stations returned proportion of cultivable area above the district average

TABLE—5

DISTRIBUTION OF VILLAGES ACCORDING TO LAND USE FOR CULTIVATION

Sl. No.	Name of police station	No. of inhabited villages	Total area (in hectares)	Percentage of cultivable area to total area	Percentage of irrigated area to total cultivable area
1	2	3	4	5	6
1.	Tamarhat	121	31,154.80	74.92	2.93
2.	Gossaingaon	358	88,618.75	73.31	7.34
3.	Kokrajhar	380	61,619.26	73.86	15.06
4.	Sidli	221	47,742.71	65.31	36.04
5.	Bijni	282	91,761.82	78.20	19.87
6.	Golokganj	181	41,531.21	75.53	-
7.	Bilasipara	521	91,548.49	53.38	1.24
8.	Dhubri	212	36,294.34	68.44	0.34
9.	South Salmara	328	68,473.27	70.07	–
10.	Mankachar	67	15,512.97	82.27	–
11.	Bongaigaon	149	36,297.39	70.78	6.72
12.	Abhayapuri	359	66,046.24	70.74	0.07
13.	Lakhipur	299	60,417.15	55.81	5.06
14.	Goalpara	225	51,194.89	63.96	0.17
15.	Dudhnai	240	63,757.24	71.76	8.26
	Total :	3,943	8,51,950.53	69.04	7.91

of 69.04% while the remaining five registered proportion of such land below the district average.

The proporation of irrigated areas to total cultivable areas in the district as a whole is not very encouraging. Reportedly only 7.91% of total cultivable area in the district is irrigated establishing the fact that tillers of land in this district still to a large extent have to depand on the vagaries of nature. Sidli police station with a little over 1/3rd of its total cultivable area having been irrigated occupies a most comfortable position in comparison to the situation obtained in other police stations where the extent of irrigated area varies between a most negligible 0.17% to 19.87% of total cultivable area. While three police stations did not report any irrigated area, as many as nine reported proportion of irrigated are a below 10% of their total cultivable area.

It needs to be added here that despite our best endeavour no information about source of irrigation cluld be gathered and as such the figures of irrigated area only, as could be gathered, are shown in the above table.

A brief analysis of the data contained in TOWN DIRECTORY STATEMENTS

The history and scope of Town Directory have earlier been explained. We now attempt a brief analysis of data incorporated in each of the six statements regarding different aspects of the towns of Goalpara. It has been already stated that there is no notified slum area in the state as a whole and obviously therefore no statement on this aspect of any of the towns in Assam has been prepared.

Statement – I : Status and Growth history :

The inter-censal period between 1971 and 1981 saw the growth of 4 (four) new towns in Goalpara district. Thus, 16 towns were registered in this district in 1981 as against 12 in 1971 census. Out of the 4 new towns namely Bongaigaon, Gossaingaon, Golokganj and Jogighopa -the first two have been notified by the State Govt. and are administered by Town Committees while the remaining two have acquired the status of Census Town only after being been considered as urban units by the Census Directorate in consultation with the State Govt. because of their having certain district urban characteristics. While Mankachar treated as a Census Town for the first time in 1961 still remains so, Bijni which was a Census Town in 1971 has since been notified by the State Govt. as a regular town and is now administered by a Town Committee.

Among the 16 towns of Goalpara district 4 have Municipal Boards, 8 are administered by Town Committees and the remaining 4 are Census Towns. It is pertinent to mention here that Goalpara and Dhubri are the oldest towns in this district.

The area of the towns varies between the smallest of 1.32 km^2 in case of Jogighopa town and the largest of 8.34 km^2 claimed by Kokrajhar town which came into being only in 1961.

Owing to non-conduct of 1981 census in Assam owing to disturbed condition, certain vital demographic information like population, density, sex-ratio of the towns relating to 1981 census could not be furnished.

Statement – II : Physical Aspects and Location of Towns

This statement provides certain useful informations like availability of rail heads, bus stop, distance of each town from district and state headquarters, nearest city etc. besides giving data on physical aspects like average temperature and rainfall which however is not available independently for each town of the district and as such in case of towns where there is no independent recording of such physical features the relevant data as available in the nearest recording centre have been shown against such urban centres.

The district headquarters town of Dhubri registered the highest temperature of 37.1° C and a minimum of 9.3° C as against the highest of 38.0° C recorded by Guwahati and Tezpur the headquarters towns of Kamrup and Darrang district respectively and the minimum of 4.8 C registered in case of Nagaon town - the headquarters of Nagaon district during the same period under reckoning.

It is observed that the towns of Goalpara district are located at the minimum distance of 150 kms in case of Goalpara town and a maximum of 302 kms. in case of Gossaingaon town from the state headquarters Guwahati which is also the only city in the state. Gauripur is nearest (10 kms.) to district headquarters located at Dhubri. Out of the remaining 14 towns an equal number (6) is located at a distance of 51-100 kms. and 100 kms and above and only 2 towns within a distance of 26-50 kms. from the district headquarter.

The facility of communication by railways is available within the the periphery of 12 out of 16 towns in this district. It is interesting to note here that the newly created town of Basugaon is not having the facility of bus-route and that the dwellers of this town have to traverse a distance between 16 to 25 kms. to avail themselves of the facility of travel by buses. Incidentally, Basugaon is the only one town in the State which is not linked with the other part of the State through bus service.

Statement—III : Municipal Finance, 1978-79

Data as could be collected from the concerned Municipal Boards and Town Committees relating to the financial year 1978-79 have been incorporated in this statement. No data in respect of the census towns of Golokganj, Jogighopa, Mankachar and New Bongaigaon could be gathered as no statutory local body functions in these urban centres.

It is observed that 7 out of 12 towns for which data is available, had registered an excess of receipt over expenditure in 1978-79. However, among these towns, Gauripur returned almost equal proportion of income and expenditure.

It is interesting to note that while Gossaingaon town recorded about 480% savings over its expenditure, Bongaigaon registered expenditure exceeding its receipts by about 245% and Abhayapuri recorded its expenditure exceeding its receipts by about 132 /..

It is observed that revenue derived from municipal/town committee properties and powers apart from taxation constitute the single largest factor of receipt in case of towns while Govt. grant contributes the highest amount in case of 2 towns viz. Kokrajhar and Lakhipur. Bongaigaon returned about 52% of its receipt through loan.

A look at the expenditure pattern reveals that public works entailed the largest chunk of expenses in case of 8 towns the proportion to total expenses varying between 30.66% in case of Bongaigaon town to as high as 70.94% in case of Abhayapuri. Bijni Kokrajhar, Sapatgram and Gossaingaon registered almost equal proportion (45 12%, 46.81%, 47.11% and 48.67% respectively) of their total expenses on account of public works. Porportion of expenses for general administration of the Staturory body varies between as low as 12.49% recorded by Goalpara town and the highest of 53.70% in case of Lakhipur town. Goalpara claims the distinction of having spent the highest proportion (57.20%) of money for improvement of public health and other convenience followed by Gauripur recording 38.83% of its expenses for the same purpose. While Gossaingaon did not spend any amount for this purpose during the year under review the proportion of expenditure for this purpose returned by other towns varied between the lowest of 5.74% in case of Basugaon town and the highest of 22.69% returned by Kokrajhar town.

Statement - IV : Civic and other Amenities

Adequacy of quantum of civic and other amenities available in any place need essentially be adjudged vis-a-vis the number of people for whom these are meant. In absence of 1981 census data for Assam it is not worth-while to attempt a detailed analysis of such amenities as incorporated in the statement.

However, a look at the statement reveals that the inhabitants of the towns in Goalpara district enjoy the benefit of a considerable amount of different types of amenities made available to them by the concerned authorities. The aggregate length of pucca road per 100 sq. kms of urban area in Goalpara district is 170.97 kms. against the State aeverage of 140.27 kms. It is interesting to note here that Nagaon district claims the proud position of having the highest aggregate length of road (915.84) per 100 km^2 of urban area.

As regards the towns of Goalpara district, it is observed that Jogighopa treated as a census town for the first time in 1981 proudly claims the highest aggregate length of road (15.15 kms. per sq. km. of town area) followed by Gauripur having 13.06 kms. of road per 1 sq. km. of its area. Goalpara follows much behind with 7.06 kms. of road per sq. km. The lowest aggregate length of 0.41 kms. per sq. kms. of urban area is recorded by Mankachar which remains a census town since 1961.

It is noteworthy that only towns namely Dhubri, Goalpara, Jogighopa and New Bongaigaon Rly. Colony reported having the system of storage of potable water in overhead tanks. Tube-well and well water form the most common source of water in the towns of this district.

Fire fighting services which is an essential device for saving life and property is available in only

6 towns. The rest have to depend on such services available at varying distances from their boundary. While in case of Gauripur a fire brigade station is available at a distance of 8 kms. only; the residents of Mankachar town are in no enviable position as the nearest fire brigade station is located at a distance of 100 kms. It may be recalled here that leaving aside the North-Cachar Hills district, the percentage of towns in any district having the facility of fire lighting service is the highest (72.73 /.) in Dibrugarh district while the lowest percentage (37.50 /.) has been recorded by Goalpara.

Statement—V : Medical, Educational, Recreational and Cultural Facilities, 1979

The statement reveals that medical facilities are more or less available in all the urban centres of the district. But facilities for keeping indoor patients are found absent in 3 towns namely Basugaon, Golokganj and Jogighopa. As regards educational facilities, it is found that no medical or engineering college is located in the urban areas of the district. Bongaigaon is the lone town with the unique distinction of having a polytechnic institute within its precincts. In all there are 11 hospitals, 11 dispensaries, 4 health centres, 5 family planning centres, 1 T.B. clinic and a nursing home in the urban centres of the district. It is interesting to note here that though the number of towns are same in both the districts of Goalpara and Kamrup the total number of medical institutions is almost double in Kamrup district vis-a-vis those in Goalpara. No adult literacy centre is there in the towns of the district. Only one stadium is there in Goalpara town.

Statement—VI : Trade, Commerce, Industry and Banking, 1979

It is found that five towns of the district manufacture no commodities within their precincts. Important commodities manufactured by other towns are pottery, match splint, bidi, alluminium utensils, candle, paper etc. Jute is the main product that is exported by almost 60% of the towns of the district. Besides jute, timber, paper and cotton are also exported by a few towns. Sugar, weat, pulses cloth etc. mostly constitute the main items imported by the towns of the district. The highest number of banks (7) has been found functioning in two towns namely Dhubri and Bongaigaon. The only urban centre in the district that does not have branch of any bank within it is New Bongaigaon Rly. Colony.

It is interesting to note here that as in the case of medical institutions, Goalpara district returned almost half the numbers of branches of banks obtained in case of Kamrup district.

TABLE—6

MOST IMPORTANT COMMODITY MANUFACTURED, IMPORTED AND EXPORTED IN TOWN

Class, Name and civic status of the town			Manufactured	Most important commodity	
				Exported	Imported
1			2	3	4
1.	Abhayapuri	(T.C.)	Pottery	Jute	Sugar
2.	Basugaon	(T.C.)	—	Paddy	Wheat
3.	Bijni	(T.C.)	Match splints	Timber	Hardware
4.	Bilasipara	(T.C.)	Bidi	Jute	Cloth
5.	Bongaigaon	(M.B.)	Alluminium utensils	Jute	Sugar

1			2	3	4
6.	Dhubri	(M.B.)	Matches	Jute	Medicine
7.	Gauripur	(T.C.)	Candle	Jute	Cloth
8.	Goalpara	(M.B.)	—	Jute	Salt
9.	Golokganj	(T.C.)	—	Jute	Pulses
10.	Gossaingaon	(T.C)	Bamboo products	Paper	Paddy
11.	Jogighopa	(C.T.)	Paper	—	Rice
12.	Kokrajhar	(M.B.)	—	Jute	Pulses
13.	Lakhipur	(T.C.)	Rice	Jute	Kerosine oil
14.	Mankachar	(T C.)	—	Cotton	Rice
15.	New Bongaigaon Rly. colony	(C.T.)	Bricks	Timber	Pulses
16.	Sapatgram	(T.C.)	Wooden Furniture	Timber	Cloth

SECTION I

VILLAGE DIRECTORY

Note explaining the codes used in the Village Directory

To facilitate presentation of data in the District Census Handbook some codes have been used against the amenities available in the Villages. These are explained below :

Column — 5 :	P	Primary or Elementary School
	M	Junior Secondary or Middle School
	H	Matriculation or Secondary
	PUC	Higher Secondary/Intermediate/Pre-University/ Junior College.
	C	College
	I	Industrial School
	TS	Training School
	AC	Adult Literacy Class/Centre
	O	Other Educational Institutions
Column— 6 :	H	Hospital
	MH	Maternity Home
	CWC	Child Welfare Centre
	HC	Health Centre
	PHC	Primary Health Centre
	PHS	Primary Health Sub-Centre
	D	Dispensary
	FPC	Family Planning Centre
	TB	T. B. Clinic
	NH	Nursing Home
	RP	Registered Private Practitioner
	SMP	Subsidised Medical Practitioner
	CHW	Community Health Workers
	O	Others
Column—7 :	T	Tap
	W	Well
	TK	Tank
	TW	Tubewell
	HP	Handpump
	R	River
	F	Fountain
	C	Canal
	L	Lake
	S	Spring
	N	Nallah
	O	Others

Column— 8 :	PO	Post Office
	TO	Telegraph Office
	PTO	Post and Telegraph Office
	Phone	Telephone Connection
Column—10 :	BS	Bus
	RS	Railway Station
	NW	Navigable Waterway
Column—11 :	PR	Pucca Road
	KR	Kaccha Road
	NR	Navigable River
	NC	Navigable Canal
	NW	Navigable Waterway
Column—13 :	ED	Electricity for Domestic Purpose
	EAG	Electricity for Agriculture
	EO	Electricity for Other Purposes
	EA	Electricity for All Purpose
Column—20 :	N	Copies of the Newspapers coming in the Village
	M	Motorcycles/Scooters available in the Village
	C	Cars/Jeeps available in the Village
	T	Tractors available in the Village
