TABLE I

AREA, HOUSES AND POPULATION

The area of some taluks given in this table is slightly different from that given in the corresponding table of 1931. The difference is due to the re-allocation of the boundaries of the taluks and the inclusion of the area of certain unsurveyed hills.

3. The age recorded at this Census is the completed age as against nearest age in 1931.

4. Divorced persons have been shown separately instead of grouping them with widowed persons as at the last Census.

TABLE IV

LITERACY BY COMMUNITY AND AGE

1. This table consists of two parts. Part I contains the statistics of literacy by community and age for the taluks and Part II for the municipal towns.

2. The ages are arranged in quinary groups up to 20 and the remaining ages are brought under three groups '20-30', '30-50', and '50 and over'. In 1931 these three groups were shown together as '20 and over'.

3. 6,577 children below 5 years of age who were returned as literate, and 20,838 persons who are 'able to read only' have not been included in the figures for 'literate'.

4. The figures in columns 5 to 7 under 'literate' include persons who are 'literate in English.'
