PREFACE

The District Census Handbook is presented in three parts for each district.

Part A contains the Village and Town Directory. Part B deals with Primary Census Abstract which includes data down to the village level in the rural areas and the block level in the urban areas. Part C incorporates the census tables, administrative statistics and an analytical report. With a view to making the data available to the public as soon as they are collected and compiled, parts A and B are presented in one volume. Part C, the compilation of which will take some more time, will be printed as a separate volume.

The District Census Handbooks were first introduced in the 1951 census. Prior to 1951, village statistics for each district used to be printed after the census giving the population for each village and showing the distribution of communities and of literate persons. The 1951 Handbooks contained a general account of the district and its people, data on area, houses, population, small scale industries, distribution of population by livelihood classes for each village and town of the district and some census tables. In 1961 these volumes were improved by extending the coverage and incorporating administrative statistics for each district. The 1971 District Census Handbooks follow more or less the same pattern as in 1961.

The District Census Handbooks are state government publications. They are, however, compiled by the census organisation on behalf of the state government.

We received ready and full cooperation from the state government in the preparation of this volume. We also had the benefit of the guidance and advice of Shri A. Chandra Sekhar, I. A. S., Registrar General and Census Commissioner for India. Shri K. D. Ballal, Deputy Registrar General, Dr. B. K. Roy Burman, Deputy Registrar General (Social Studies) and Shri K. K. Chakravorty, Central Tabulation Officer assisted us in all possible ways. We are deeply indebted to them all. This volume is the product of the joint effort of all my esteemed colleagues. I am grateful to them all. Shri G.N. Bhattacharyya, Deputy Director, Shri J. C. Bhuyan, Assistant Director and Shri K. S. Dey, Assistant Director in particular deserve my thanks for their help on the preparation of this volume.

Shillong,
December 1972

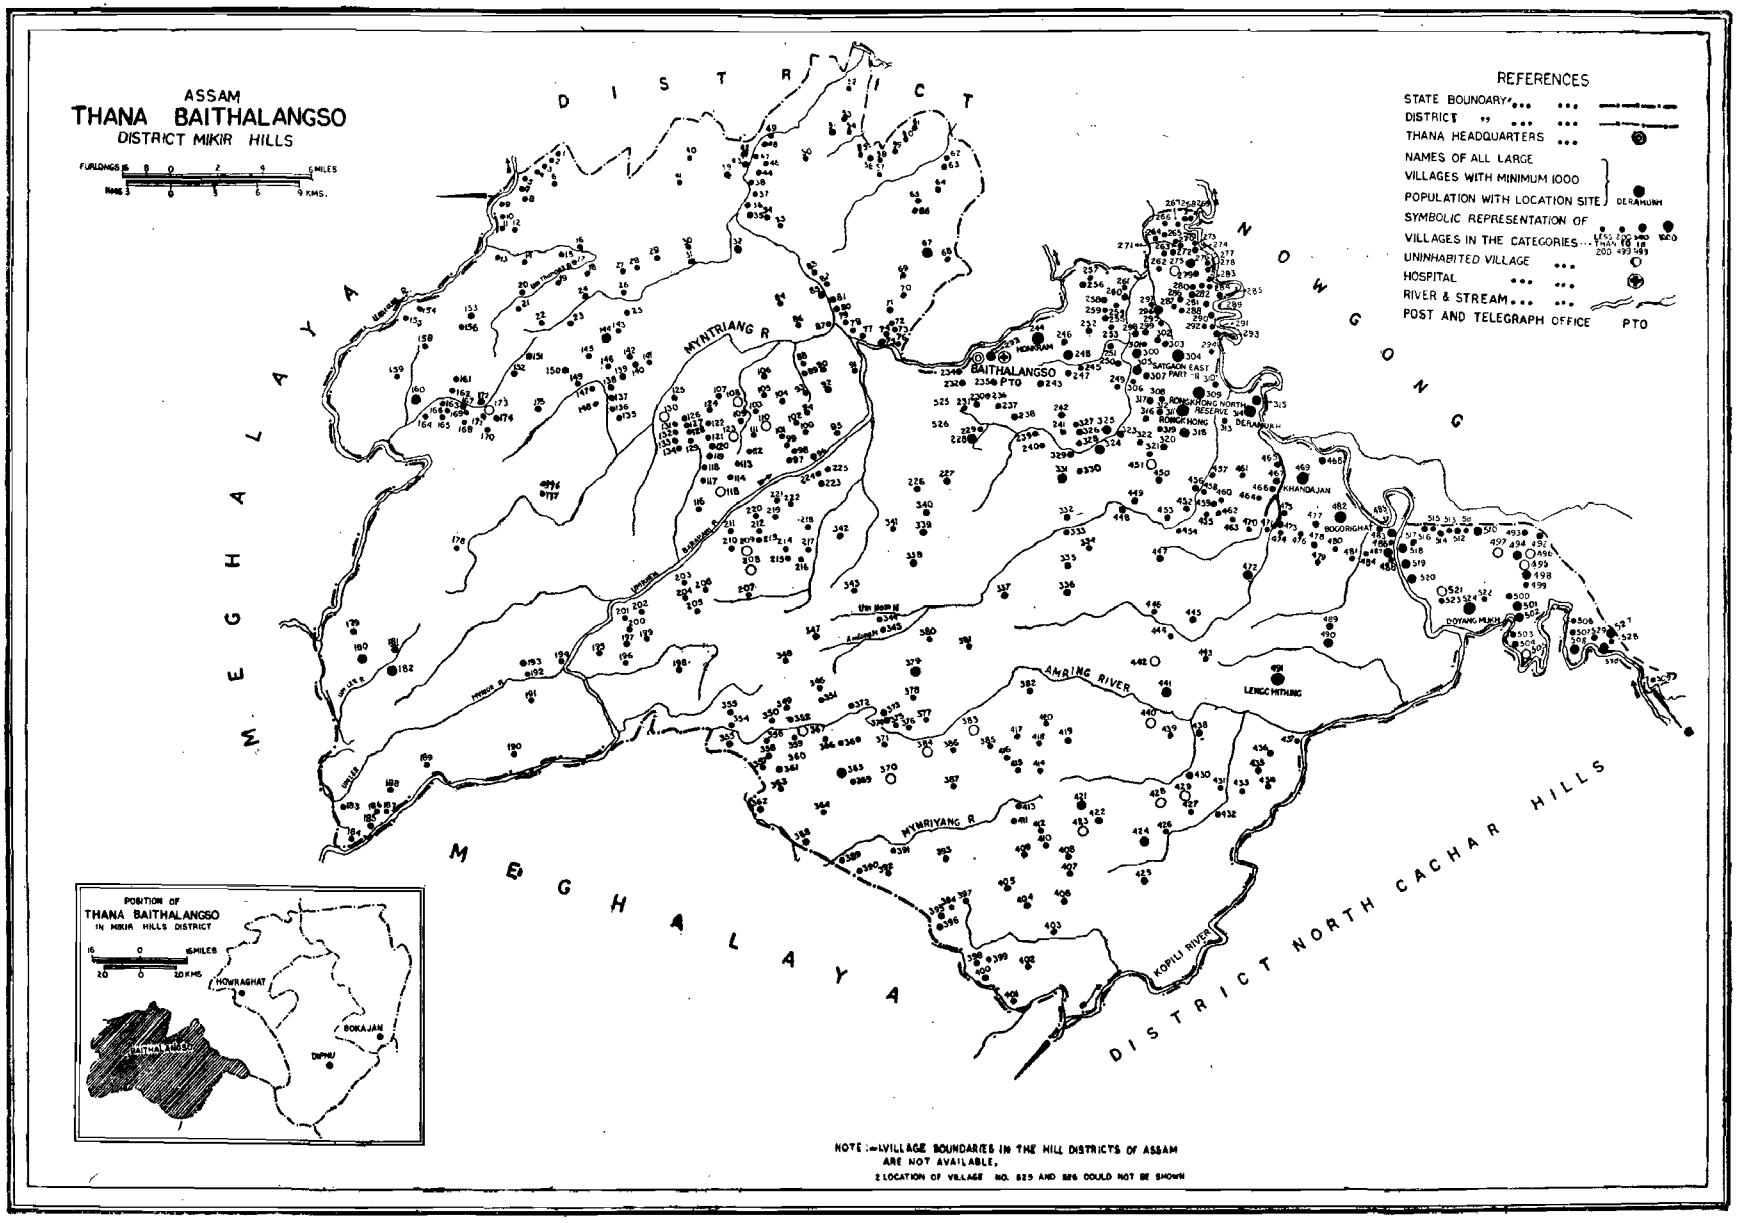

A. K. SAIKIA

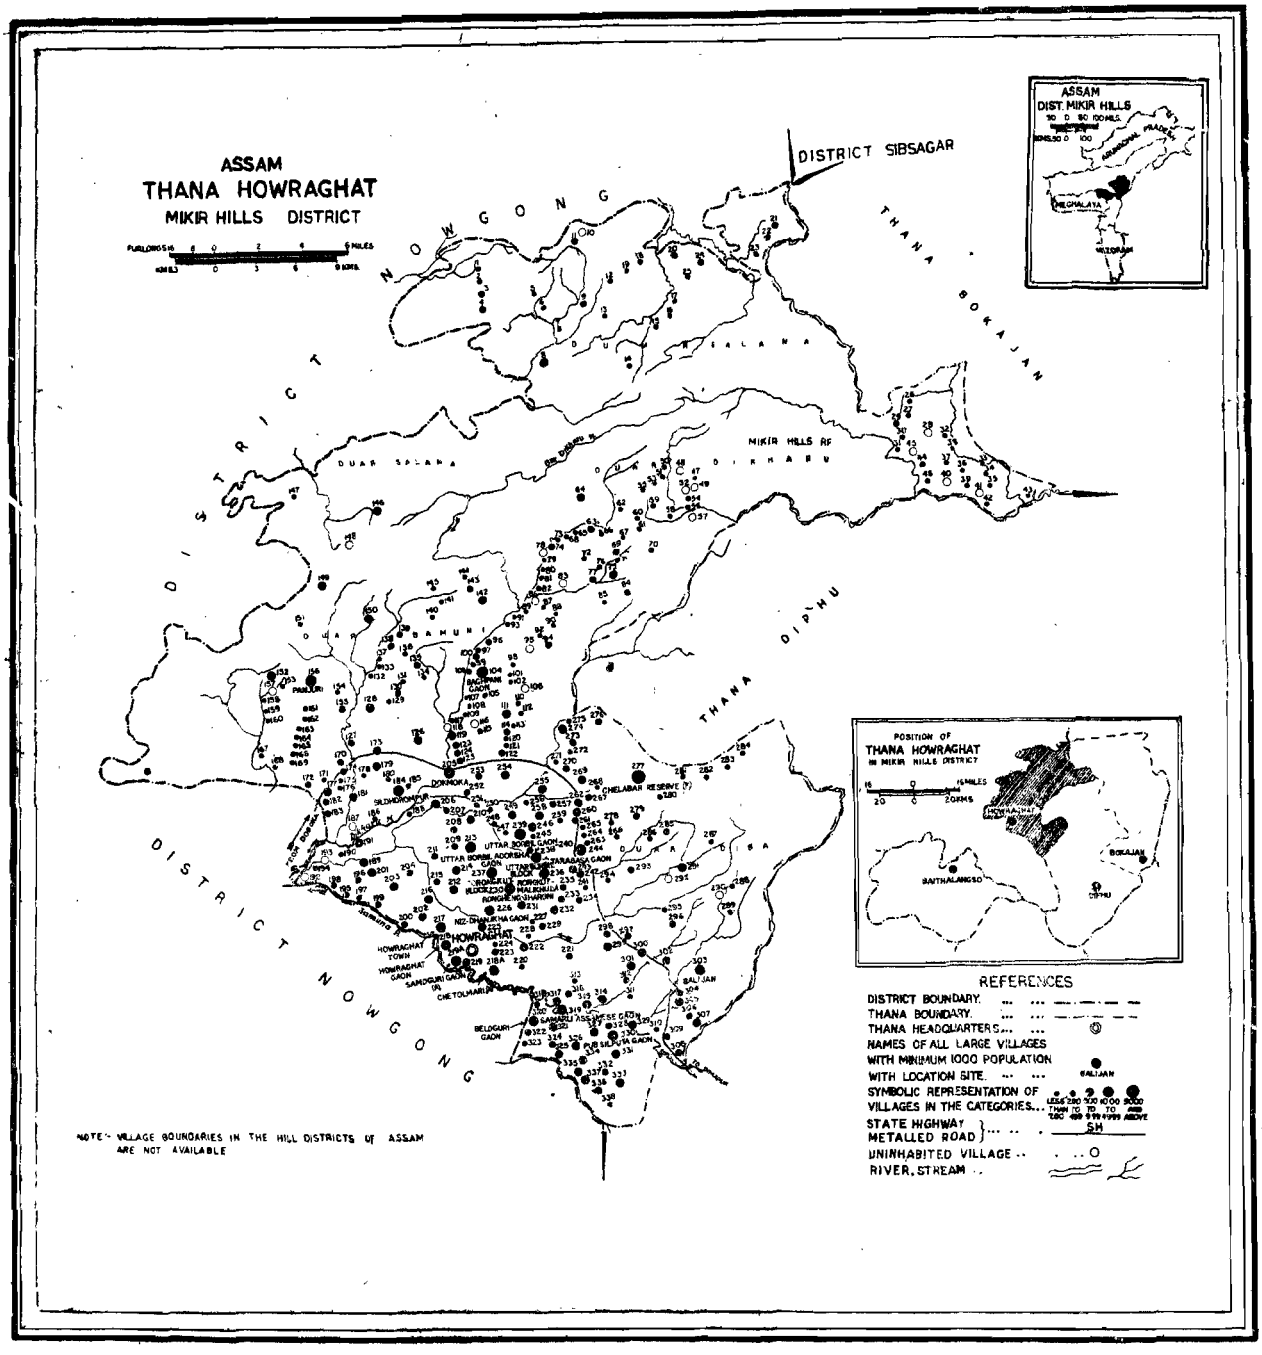

CENSUS 1971 : MIKIR HILLS DISTRICT

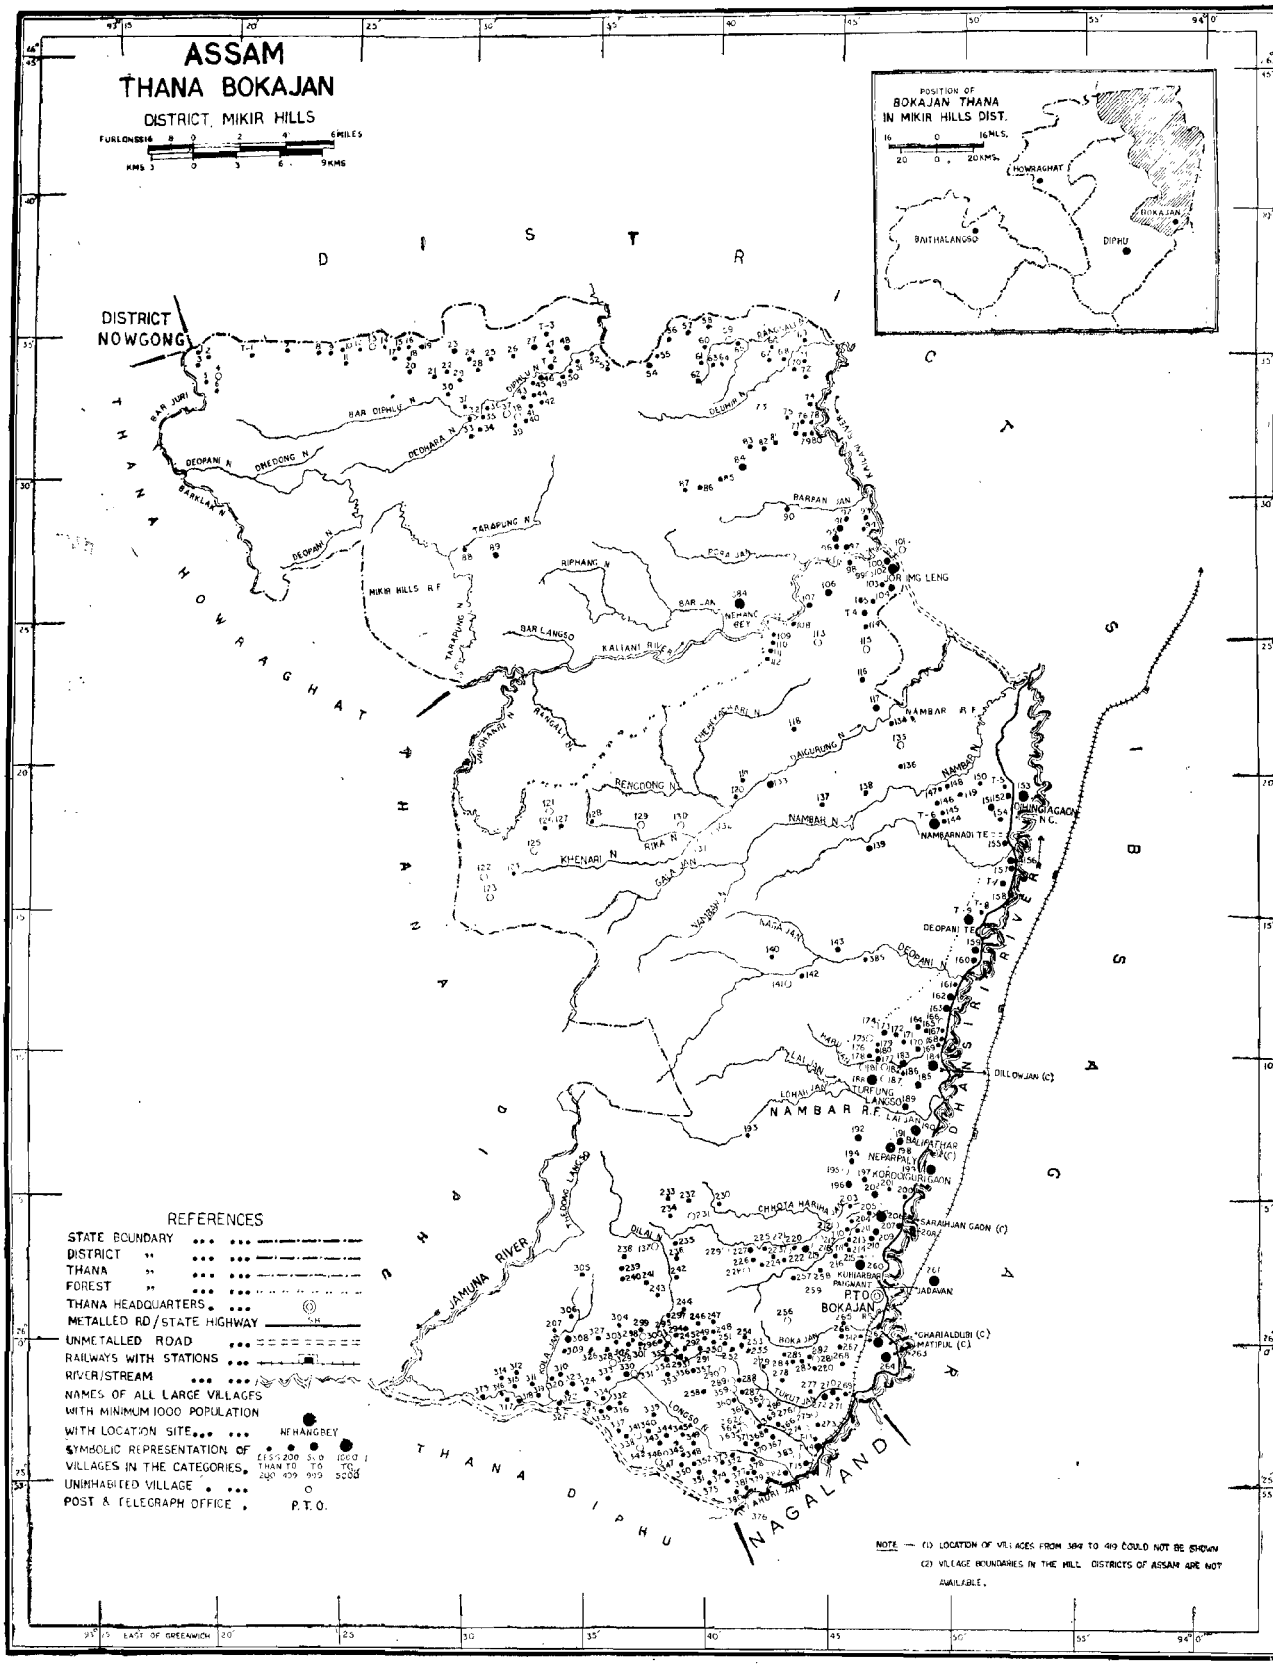

FIGURES AT A GLANCE

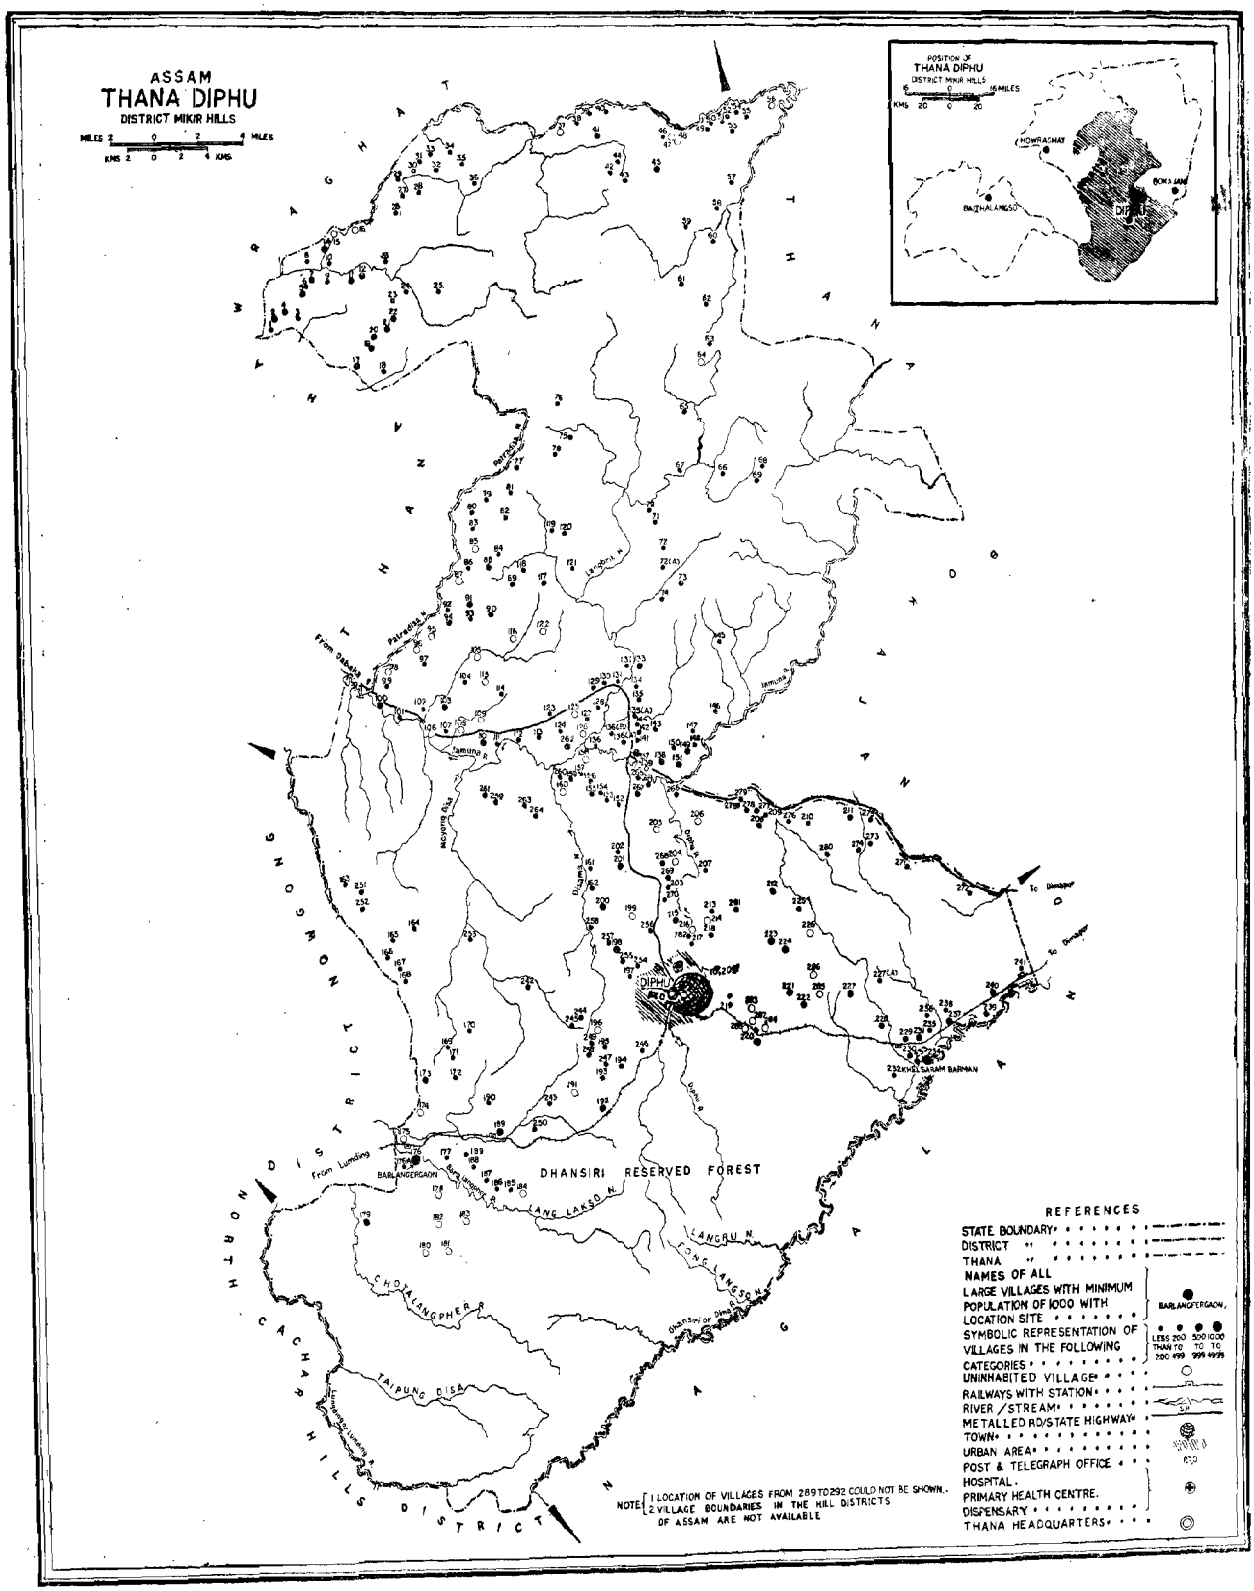

● Population	Total	Persons	379,310
		Males	202,347
		Females	176,963
	Rural	Persons	369,110
		Males	195,821
		Females	173,289
	Urban	Persons	10,200
		Males	6,526
		Females	3,674
● Decennial growth rate 1961-71			68.28
● Area in Km^2			10,332.0
● Density of population per Km^2			37
● Sex ratio (Number of females per 1000 males)			875
● Literacy rate		Persons	19.17
		Males	26.93
		Females	10.29
● Percentage of urban population to total population			2.69
● Percentage of workers to total population (main activity only)		Persons	31.16
		Males	53.38
		Females	5.75

PART X-A

VILLAGE AND TOWN DIRECTORY

NOTE

VILLAGE DIRECTORY

The Village Directory presents for each village informations on total area, amenities available within the village, staple food used, land use pattern, nearest town and distance, markets and 'hats' and places of religious, historical and archaeological interest. The amenities are presented under six headings, namely, educational, medical, power supply, drinking water, communications and post and telegraphs. The land use pattern is given under five columns, namely, forest, irrigated, un-irrigated, cultivable waste and area not available for cultivation.

The informations of the Village Directory were collected through the enumerators during the houselisting and house-numbering operations in September-October, 1970. The enumerators were instructed to obtain the area and land use figures in respect of cadastral villages from the Land Revenue staff. In case of the non-cadastral villages these figures are estimates based on local knowledge.

TOWN DIRECTORY

The Town Directory is presented in the form of seven statements which are indicated below :—

Statement I : Status, growth history and functional category of towns.

Statement II : Physical aspects and location of towns 1969.

Statement III : Municipal Finance 1968-69

Statement IV : Civic and other amenities 1969-70.

Statement V : Medical, Educational, Recreational and Cultural facilities in towns 1969-70.

Statement VI : Trade, Commerce, Industry and Banking 1969-70.

Statement VII : Population by religions 1971.

The definition of a town as adopted in 1971 census is as follows :—

(a) All places with a Municipal Corporation or a Municipality or a Town Committee or a notified area or Cantonment.

(b) All other places which satisfied the following criteria :—

(i) A minimum population of 5,000.

(ii) At least 75% of the male working population is non-agricultural.

(iii) A density of population of at least 400 per sq.km. (i.e. 1000 per sq.mile).

Statement I

It gives the status, growth of population from 1901 to 1971 and the predominant functional category of each town for 1961 and 1971.

The procedure for determining the functional character of a town in 1961 and 1971 is explained below :

According to 1961 census the workers were grouped under nine industrial categories as shown below :

(I) Cultivators

(II) Agricultural Labourers

(III) Mining, Quarrying, Livestock, Forestry, Fishing, Hunting and Plantations, Orchards and allied activities

(IV) Household Industry

(V) Manufacturing other than Household Industry

(VI) Construction

(VII) Trade and Commerce

(VIII) Transport, Storage and Communications

(IX) Other Services

At the 1971 census basically the same classification has been followed with some minor deviations. Category III of 1961 has

been split by assigning an independent category to "Mining and Quarrying" which now bears category number IV of 1971. Categories IV and V of 1961 have been combined in 1971 and presented as Category V(a)—Manufacturing, Processing, Servicing and Repairs—Household Industry and Category V(b)—Manufacturing, Processing, Servicing and Repairs—Other than Household Industry.

With a view to determining the functional categories of towns these nine industrial categories are regrouped into the following five broad groups of economic activity :—

Economic Activity	Industrial Category according to	
	1961 Census	1971 Census
1. Primary Activities	I,II & III	I,II,III & IV
2. Industry	IV,V&VI	V(a),V(b) & VI
3. Trade & Commerce	VII	VII
4. Transport	VIII	VIII
5. Services	IX	IX

The percentage of workers in each of the five groups to the total number of workers in the town is worked out. If any one group accounts for 40 per cent or more of the total working population of the town, it is classified by the corresponding economic activity. If the highest percentage is less than 40, the next predominant group is added. If the two groups together constitute a minimum of 60per cent of the total workers, the town is then designated by both the economic activities. In case the percentage of any two activities do not add upto 60 per cent such a town is designated by three of the predominant activities.

Statement II

This statement furnishes data on annual rainfall and temperature, name of and distance from the nearest city, state headquarters, district headquarters, sub-divisional and police station headquarters, railway station, bus route, navigable river or canal and sea port.

Statement III

Municipal Finance in respect of the towns having municipalities or town committees in the districts presented in this statement as obtained from the respective local authorities.

Statement IV

Informations in respect of civic and other amenities available in the town are presented in this statement. They cover system of sewerage, drainage, number of latrines, method of disposal of night soil, protected water supply, fire-fighting services and electrification facilities. By "protected water supply" is meant supply of water through taps, irrespective of whether the water so supplied has been filtered or chlorinated.

Statement V

This statement presents informations under three main headings of Medical, Educational and Recreational and Cultural facilities. Under Medical facilities the number of hospitals, dispensaries, health centres, etc. is given along with the number of beds in each institution. Educational facilities include Arts, Science, Commerce, Medical and Engineering Colleges, Polytechnics, Recognised Shorthand, Typewriting and other vocational training institutions, Higher Secondary, Secondary, Junior Secondary, Middle and Primary Schools and others. Recreational and Cultural facilities cover stadia, cinemas, auditoria, drama halls, public libraries and reading rooms.

Statement VI

Details in respect of trade, commerce, industry and banking are given here. Information on items under trade and commerce shown in columns 3 to 11 are obtained from the local Chambers of Commerce. The number of banks has been obtained from Reserve Bank of India while that of Agricultural and non-Agricultural Credit Societies have been secured from the Regional Co-operative Societies.

Statement VII

This shows the distribution of population by religion as revealed by 1971 census.

PART X-B

PRIMARY CENSUS ABSTRACT

NOTE

PRIMARY CENSUS ABSTRACT

The Primary Census Abstract presents basic informations on area, number of occupied residential houses, number of households, total population belonging to scheduled castes and scheduled tribes by sex, working population classified into nine industrial categories and non-workin gpopulation by sex for the district, police stations, urban agglcmerations, towns, villages, urban wards and urban enumerators' blocks.

Dfinitions of Town and Urban Agglomeration

The definitions of Town have already been given in the note for Town Directory. Besides the recognised towns, there are other urbanised areas which do not qualify to be treated as towns. The concepts of Urban Outgrowth and Urban Agglomeration were developed at the 1971 census to cover such areas. It is found that in several areas around a crore city or town have come up fairly large urbanise and well-recognised railway colonies, university campuses, military camps, etc. It is not realistic to treat such areas lying outside the statutory limits of the town as rural units and at the same time each such individual area by itself may not satisfy the population limit to qualify to be treated as an individual urban unit. Such areas which are known as Urban Outgrowths deserve to be reckoned along with the main town or city and the continuous spread including such urban outgrowths would deserve to be treated as an integrated urban area what is being called Urban Agglomeration at the 1971 census.

In Assam four such urban agglomerations have been recognised. They are Gauhati, Jorhat, Bongaigaon and Dhubri. Gauhati urban agglomeration which is in Kamrup district has been formed with Gauhati municipality and its outgrowths, Pandu town and its outgrowths and Kamakhya Town.

Definition of Village

In the plains districts where most of the areas have been cadastrally surveyed the cadastral village has been taken as a village for census. In the non-cadastral pockets like 'char' and forest areas of the plains a village is taken to be a 'gaon' or 'gram' together with its adjacent 'tolas' or 'paras' etc. In the hill districts a village has been taken to be a collection of houses bearing a separate name and situated within certain boundaries traditionally recognised by the villagers. Tea gardens with their housing colonies of the staff and workers are treated as villages. Settlements made by the forest department within the forest reserves which are commonly known as forest villages are also taken as villages.

Area

Column 2 of the Primary Census Abstract indicates the units for which the figures are presented. Column 4 furnishes the area of each of the units in square kilometer.

The area of the district is as furnished by the Surveyor General of India. The areas of the police stations are obtained from the State Directorate of Survey, while those for the urban units are collected from the respective local authorities. The village area figures are as gathered by the enumerators during Housenumbering and Houselisting operations in September-October 1970. In case of cadastral villages the enumerators were instructed to collect the figures from the local revenue officials. The area figures of non-cadastral villages are estimates based on local knowledge

Residential Census Houses and Households

Columns 5 and 6 of the Primary Census Abstract present the figures of total number of residential census houses as also the number of households. A census house is a building or a part of a building having a separate main entrance from the road or common court-yard or staircase etc., used or recognised as a separate unit. It may be inhabited or vacant. It may be used for residential or non-residential purposes or both. A building is generally a single structure, but sometimes made up of more than one component unit, which are used or likely to be used as dwellings or establishments such as shops, workshops, factories, godowns or in combination with any of these such as shop-cum-residence or workshop-cum-residence. A household is a group of persons who commonly live together and would take their meals from a common kitchen unless the exigencies of work prevented any of them from doing so. There may be household of persons related by blood or household of unrelated persons ; the latter are boarding houses, hotels, orphanages etc., which are called institutional households. For more details on these definitions attention is invited to the instructions to enumerators for filling up the Houselist and Establishment Schedule which are reproduced in the Part II-A General Population Tables, 1971 Census.

Houseless and Institutional Population

Houseless and Institutional Population has not been separately shown in the Primary Census Abstract. Houseless persons are those who have no fixed place of residence and no regular houses to live in and include such persons as beggars, sadhus, nomads, vagrants, vagabonds, etc. and also the population living in boats plying on rivers. Institutional Population includes the inmates of such institutions as hostels, boarding houses, hotels, sanatoria, jails, asylums, hospitals, ashrams, etc. where group of unrelated persons stay together.

Scheduled Castes and Scheduled Tribes

The population figures of scheduled castes and scheduled tribes by sex are given in the columns 10 to 15 of the Primary Census Abstract.

Each enumerator was furnished with a list of scheduled castes and scheduled tribes applicable to the state under the scheduled castes and scheduled tribes list Modificaton Order, 1956. He was instructed to record a person as belonging to scheduled caste or scheduled tribe only when the name of the scheduled caste or scheduled tribe as returned by the person found a place in the list. If the person belonging to a scheduled caste or scheduled tribe returned his caste or tribe by any synonym or generic name of the caste or tribe not mentioned in the list he was not eligible to be entered as a scheduled caste or tribe. Similarly if a person morely claimed to be a scheduled caste or scheduled tribe, but did not belong to any of the listed communiy applicable to the area, he would not be recognised as a scheduled caste or scheduled tribe.

The scheduled castes and scheduled tribes in Assam as listed in the Scheduled Castes and Scheduled Tribes List Modification Order, 1956 are given at the end of this chapter.

Literacy and Education

Columns 16 to 18 of the Primary Census Abstract give the number of literate and educated persons for each unit.

The test for literacy as laid down in the instruction to enumerators for the 1971 census was as follows :—

A person who can both read and write in any language with understanding is to be taken as literate. A porson who can merely read but cannot write is not to be treated as literate. The test for reading is the abilitiy to read a portion of the Instruction Booklet for Enumerators. The test for writing is the ability to write a simple letter. Children aged 4 and below were treated as illiterate.

The test for education was that the person should have passed a recognised written examination or examinations as proof of an educational level attained. The highest examination passed was taken as the level for education.

Workes and Non-workers

Columns 19 to 54 of the Primary Census Abstract present the economic activity of the population. The population is first divided into workers (columns 19-21) and non-workers (columns 52-54) and then the workers are classified into nine broad industrial categories as follows :—

(i) Cultivators, (ii) Agricultural Labourers, (iii) Livestock, Forestry, Fishing, Hunting and Plantations, Orchards and allied activities, (iv) Mining and Quarrying, (v) (a) Manufacturing, Processing, Servicing and Repairs—Household Industry (v) (b) Manufacturing, Processing, Servicing and Repairs—other than House-hold Industry, (vi) Construction, (vii) Trade and Commerce, (viii) Transport, Storage and Communications and (ix) Other Services.

The definition of workers and non-workers as adopted in the 1971 census is different from that of the last census. At the 1971 Census, every individual was required to declare himslf what according to him was his main activity. All persons got themselves divided into two broad streams of main activity namely, (i) as workers and (ii) non-workers according as the type of main activity that the persons returned themselves as engaged in mostly. If the answer indicated that an individual was an economically active worker, he or she was classified as working as a cultivator or as an agricultural labourer, or at household industry or in other work such as forestry, mining, manufacturing, trade, transport, services, etc. If a person returned himself /herself basically as not engaged in any economic activity such a person was required to state if he or she was engaged in household duties or was a student, retired person or a rentier, a dependent, a beggar or vagrant, inmate of a charitable institution or other non-worker such as a person who was mostly unemployed.

The definition of worker adopted for the 1971 census is given below :—

A worker is a person whose main activity is participation in any economically productive work by his physical or mental activity. Work includes not only actual work but effective supervision and direction of work.

The reference period is one week prior to the date of enumeration in case of regular work. If a person had participated in any regular work on any one of the days during this reference period and this has been returned as his main activity, the person was categorsied accordingly. A person who normally works but had been absent from his regular work during the reference period on account of illness, travel, strike, etc. is regarded as engaged in regular work in which he/she otherwise would have been employed but for his/her temporary absence. Persons under training such as apprentices with or without stipend or wages are considered as economically active and recorded as working

A person who has merely been offered work but has not actually joined it, is not treated as engaged in work. For seasonal work like cultivation, livestock keeping, plantations etc., a person's main activity was ascertained with reference to the work normally attended to by him in course of the last one year.

Cultivator

For purposes of the census a person is working as cultivator if he or she is engaged in cultivation by oneself or by supervision or direction in one's capacity as the owner or lessee of land held from government or as a tenant of land held from private persons or institution for payment of money, kind or share

Cultivation involving ploughing sowing and harvesting and production of cereals and millet crops such as wheat, paddy, jower, bajra, ragi etc., and pulses, raw jutes and kindered fibre crop, cotton, etc., and other crops such as sugar-cane, groundnuts, tapioca etc., and does not include fruit growing, vegetable growing or keeping orchards or groves or working on plantations like tea, coffee, rubber, cinchona and other medicinal plantations.

Agricultural Labourer

A person who works in another person's land for wages in money, kind or share is regarded as an agricultural labourer. He has no risk in the cultivation but he merely works in another person's land for wages. The labourer could have no right of lease or contract on land on which he works.

Household Industry

A household industry is defined as an industry conducted by the head of the household himself/herself and/or mainly by the members of the household within the village in rural areas and only within the premises of the house where the household lives in urban areas. The industry should not be run on the scale of registered factory. The main criterion of the household industry is the participation of one or more members of a household. A household industry should relate to production, processing, servicing, repairing or making and selling (but not merely selling) of goods. It does not include professions such as that of a pleader, doctor, barbar, musician, dancer, waterman, dhobi, astrologer, etc.

Other Workers

If a person engages himself in any other work which is not cultivation, agricultural labour or household industry he is treated as engaged in other work. Other workers include factory workers, those working in trade or transport, all government servants, municipal employees,teachers,mining workers, political or social workers, building labourers, etc. In effect all types of economic activity not covered by cultivation, agricultural labour or household industry come under this residual category.

List of Scheduled Castes and Scheduled Tribes in Assam

The Scheduled Castes and Scheduled Tribes in Assam as listed in the Scheduled Castes and Scheduled Tribes List Modification Order, 1956 are noted below. It may be noted that Scheduled Castes are recognised only among Hindus and Sikhs while the members of Scheduled Tribes may belong to any religion.

Scheduled Castes in Assam

Throughout the State :—

1. Bansphor
2. Bhuinmali or Mali
3. Brittial-Bania or Bania
4. Dhupi or Dhobi
5. Dugla or Dholi
6. Hira
7. Jalkeot
8. Jhalo, Malo or Jhalo-Malo
9. Kaibartta or Jaliya
10. Lalbegi
11. Mahara
12. Mehtar or Bhangi
13. Muchi or Rishi
14. Namasudra
15. Patni
16. Sutradhar

Scheduled Tribes. in Assam

I. In the Autonomous Districts:-

1. Chakma
2. Dimasa (Kachari)
3. Garo
4. Hajong
5. Hmar
6. Khasi and Jaintia (including Khasi, Synteng or Pnar, War, Bhoi or Lyngngam)
7. Any Kuki Tribes, including :—
   (i) Biate or Biete
   (ii) Changsan
   (iii) Chongloi
   (iv) Doungel
   (v) Gamalhou
   (vi) Gangte
   (vii) Guite
   (viii) Hanneng
   (ix) Haokip or Haupit
   (x) Haolai
   (xi) Hengna
   (xii) Hongsungh
   (xiii) Hrangkhawal or Rangkhol
   (xiv) Jongbe
   (xv) Khawchung
   (xvi) Khawathlang or Khothalon
   (xvii) Khelma
   (xviii) Kholhou
   (xix) Kipgen
   (xx) Kuki
   (xxi) Lengthang
   (xxii) Lhangum
   (xxiii) Lhoujem
   (xxiv) Lhouvun
   (xxv) Lupheng
   (xxvi) Mangjel
   (xxvii) Misao
   (xxviii) Riang
   (xxix) Sairhem
   (xxx) Selnam
   (xxxi) Singson
   (xxxii) Sitlhou
   (xxxiii) Sukte
   (xxxiv) Thado
   (xxxv) Thangngen
   (xxxvi) Uibuh
   (xxxvii) Vaiphei
8. Lakher
9. Man (Tai-Speaking)
10. Any Mizo (Lushai) Tribes
11. Mikir
12. Any Naga Tribes
13. Pawi
14. Synteng

II. In the Tribal Areas other than the Autonomous Districts :—
All Tribes of North-East Frontier Agency including :—

1. Abor
2. Aka
3. Apatani
4. Dafla
5. Galong
6. Khampti
7. Khowa
8. Mishmi
9. Momba
10. Any Naga Tribes
11. Sherdukpen
12. Singpho

III. In the state of Assam excluding the Tribal Areas :—

1. Barmans in Cachar
2. Boro-Borokachari
3. Deori
4. Hojai
5. Kachari including Sonwal
6. Lalung
7. Mech
8. Miri
9. Rabha

The following abbreviations are used in the Primary Census Abstract for facility of presentation.

'P' Persons
'M' Males
'F' Females
} Appearing above the column numbers.

'NA' Not Available.
