PREFACE

Introduction of the District Census Handdooks in the census publication programme, in 1951 Census, was a big landmark in the history of Indian Census Since then these Handbooks are being regularly brought out by the Census Organisation on behalf of the State Government. District Census Handbooks contain important and basic statistics relating of the districts in the State The most important part of the Handbooks relates to the village-wise and urban block-wise Primary Census data-data at the micro level-which is utilised in almost every field of planning-educational, developmental, manpower etc. This data is also used for other important purposes such as adjustment of Administrative boundaries, delimitation of electoral Constituencies etc As such immediately on the completion of Census the administrative authorities, private agencies and academic institutions, in fact most data users, are anxious to have the latest figures made available to them so that they are able to assess and pursue their activities in a more purposeful manner.

In order to make the necessary data available early to the users, a major change has been made in publication programme of the District Census Handbooks of 1971 Census. Instead of incorporating all the information and statistics of a particular District in a single volume, the same has been divided into three parts 'A' 'B' and 'C'-so that parts 'A' and B' containing (i) Village Directory and Iown Directory and (ii) Village-wise and Town-wise Primary Census Abstracts, could be released early without waiting for the compilation of data to be included in part 'C' Originally the programme was to bring out all the parts 'A' 'B' and 'C' independently, as soon as compilations for a particular part were completed Since the data for parts 'A' and' B' were compiled simultaneously, it was decided to combine these parts in one volume which, I feel, will be more convenient to users of Census data to consult as the volume contains primary statistics relating to the district at one place. The present volume consists of the parts 'A' and 'B' of District Census Hand book of Simla It is proposed to bring out Part 'C' of this publication as also for other Districts, independently, later, because at present the administrative information has just started pouring in from the various Government Departments and Organisations. It will take some more time to put together these facts and figures into proper shape, for the part 'C' volume.

As a result of reorganisation of the State of Punjab in 1966, 4 districts namely Kangra, Kulu, Simla, and Lahul & Spiti were carved out from Punjab and annexed to the State of Himachal Pradesh raising the number of districts to ten Simla is, thus, one of the four new districts in the present Census. However, the jurisdictions of this district were expanded by merging Nalagarh Tahsil, which was previously a part of Ambala district of Punjab Simla district is named after the town of that name, which is the district Headquarter as well as Capital of Himachal Pradesh Since its becoming the seat of Summer Capital of the country in 1864, Simla has acquired a special status in the map of the country Now although reduced to the level of a state Capital—Simla has acquired the position of one of the main centres of attraction for the tourists during the summer months, when the place offers salubrious climate in contrast to the sweltering heat of the plains I hope that this volume will able to answer quite a few of the querries of those who visit Simla and want to know some thing about the villages and towns of the district

I would like to express my genuine sense of gratitude to Sri A. Chandra Sekhar, Registrar General and Census Commissioner India, from whom I received guidance and considerations most consistantly Dr B K Roy Burman, Deputy Registrar General, was always helpful in solving my numerous problems for which I feel highly indebted to him.

SIMLA
30th July, 1973

ATTAR SINGH
Director of Census Operations,
Himachal Pradesh.

PARTS X—A

TOWN AND VILLAGE DIRECTORY

EXPLANATORY NOTE—PART A

1 History of the District Census Handbook.

The District Census Hand Book was an innovation of the 1951 Census Prior to 1951 Census, the Census Reports and Publications threw up data upto Tahsil, Sub-Tahsil, Town and District levels. Statistics for smaller territorial units than these were not published in any census publication With the rapid development and Socio-economic changes in the society, necessity of data for administrative unit at the lowest level was felt considerably by the Government and other organisations as well as the agencies using census statistics. With a view to removing this shortcoming, selected census statistics upto village level were incorporated in the District Census Handbooks of 1951 Census

Then it shall be seen that the 1951 Census Handbooks contained all the important census tables, in respect of a particular district as well as general information relating to Physical Aspects, Geology, Archaeology, Climate, Rainfall, History, Administration, Medical and Public Health, Education and Literacy, Agriculture and Co-operation, Industries, Local Bodies, Places of interest etc. relating to the district

The District Census Handbooks for 1961 Census underwent complete transformation and attempts were made to make them more informative. Information on all the aspects, covered in 1951 Census and on additional items also found place in 1961 District Census Handbooks Each District Census Handbooks in 1961 Census was divided into four parts each part containing specific set of information and statisrics, as briefly discussed below .

Part I Besides containing a narrative pertaining to introduction of the particular district, this part comprised mainly of wirte-up supported by small tables on topics like Physical Aspects, Population, the People, District Administration, Education, Medical and public Health, Agriculture, Fisheries, Animal Husbandary, Panchyats, Local Bodies, Co-operative Societies, Banking, Industries, Employment, Service, Communications and Road Development, Land Revenue and Land Tenure, Price Trends and Community Development, Flora and Fauna etc. In some Handbooks certain reprints of extracts from works of important authorities were also included

Part II All the Census Tables pertaining to a district were included in this part

Part III This part of the District Census Handbooks contained the Administrative Statistics on Agriculture, Administration, Medical and Public Health, Local Bodies, Transport and Communications, Livestock, Forests and other Departments.

Part IV This part mainly consisted of the Village Directory, which rendered an account of each village and town in the district The Census information in this part was given under 36 suitable heads. In addition to the census statistics in respect of each village and town, information about the level of development and amenities was also collected and incorporated in this part Amenities like Schools, Places of worship, Medical Institutions, Roads, Railways, Telegraph and Post Offices, Electricity etc., if available in a particular village/town were indicated with the help of specific abbrevitions.

2 Scope of the District Census Handbooks

It has been the experience of this organization that due to various factors, most of which were beyond its control the publication of some of the 1961 District Census Handbooks was inordinately delayed, which resulted in unnecessary hardship to the data users. The utility of statistics lies in their timely publication. Statistical data published late lose much of their relevance. With this in view, for the 1971 Census, priorities have been fixed for the publication of the different sets of information. It would be our utmost endeavour to publish the information as soon as the relevant tables and other material are ready. This, it is hoped, would result in the reduction of time-lag that usually occures in making the information available to the Government and other data users

The District Census Handbooks pertaining to 1971 Census are being brought out in two independent parts as follows .

(i) (*a*) *Part A Town Directory and Village Directory* ·

Data relating to important characteristics along with other information for each town in a district have been compiled in the form of seven statements. It is for the first time that this type of information has been compiled and published in census publications, in the shape of Town Directory. The first six statements contain town-wise statistics and information on a variety of subjects like Status, Growth History and Functional

Category of Towns, Physical Aspects and Location of Towns, 1969, Municipal Finance, 1968-69, Civic and other Amenities, 1969, Medical, Educational, Recreational and Cultural Facilities in Towns, 1969, and Trade, Commerce, Industry and Banking, 1969, The Seventh Statement contains census data on religion in respect of each town

The Village Directory gives for each village particulars of amenities available in the matter of Educational and Medical Institutions, Power Supply, Drinking Water Supply, Post and Telegraph Facilities, Communications, Particulars of Land Use, Weekly Markets, Places of Religious, Historical or Archaeologil cal interest in the village.

(*b*) *Part B Villagewise and Townwise Primary Census Abstract*

This part contains the primary census data for each village The primary data pertains to Area, Occupied Residential Houses, Number of Households, Total Population and its Sex-wise break-up, sex-wise Scheduled Caste and Scheduled Tribe Population, sex-wise Literate Population, Working Population by sex and by nine broad Categories i e , Cultivators, Agricultural Labourers, those working in Livestock, Forestry, Fishing, Hunting, Plantations etc , Mining and Quarrying , In Manufacturing, In Construction, In Trade and Commerce, In Transport, Storage and Communications, and In Other Services, and the Non-working Population also with sex-wise break-up. Similar information is incorporated in this part, in respect of each Town Urban Area and the Wards/ Enumerator's Blocks therein

(*ii*) *Part C Administrative Statistics and Report* :

The administrative statistics in all fields of development pertaining to the district will be the main content of this part Other census tables relating to the district i e , General Population Tables, Economic Tables, Social and Cultural Tables, Migration Tables, Establishment Tables, Fertility Tables and Housing Tables, will also be included in this part.

3. Collection of Non-Census data

The information in respect of Town Directory has been collected from various departments concerned and the respective Urban Local Bodies Apart from the Urban Local Bodies, without whose co-operation the compilation of such an exhaustive Town Directory would not have been possible at all, mention must be made of some of the important departments of the Government of Himachal Pradesh which furnished the statistics and information falling in their respective spheres These are . The secretary (L.S.G). to the Government of Himachal Pradesh, The Director of Industries, Himachal Pradesh, The Director of Health Services, Himachal Pradesh, The Director of Education, Himachal Pradesh, The Chief Engineers, Himachal Pradesh, P W D , and the Registrar, Co-operative Societies, Himachal Pradesh , and lastly personal observation and local enquiries by the Investigators of this office yielded many a piece of information and relevant data

The information for the compilation of Village Directory was collected with assistance of the Revenue Department of the Government of Himachal Pradesh. The *Patwaris* were drafted as enumerators and the *Kanungos* were deputed to supervise this work, under the overall control of the Tahsildar/Naib-Tahsildar concerned The data was collected by *Patwaris* in a Schedule especially devised for the purpose, strictly in accordance with a set of instructions issued in this behalf. However, later, the officials of the Directorate of Census Operations, Himachal Pradesh, were sent out in the field, again, with a view to rectifying the short-comings and reconciling the discrepancies. Thus the information, by and large, pertains to mid, 1970. The area figures were based on 'Lal Kitab' or the Revenue Village Papers as maintained at the Tahsil/ Sub-Tahsil level and the latest available figures were taken into account.

4 The Town Directory—Brief Description and Analysis .

A comprehansive Town Directory running into seven statements and highlighting all important Physical, Economic, Civic and Developmental aspects has been compiled in respect of each town in Himachal Pradesh. This Town Directory forms an important part of Part 'A' of the District Census Handbooks.

(*a*) *Census Definition of Town*

The standards laid down for considering a place as an urban area were broadly the same as in 1961 Census However, criteria adopted for determining the urban areas in the 1971 Census were maintained on the following patterr

"To qualify for recognition as an urban area a place should first be either a Municipal Corporation area or a Municipal Area or under a Town Committee or a Notified Area Committee or a Cantonment Board If it did not have any of these Urban Local Bodies to administer the affairs then the following empirical tests should be applied:

(i) A minimum population of 5,000 (estimated for 1971) .

(ii) A density of not less than 400 per Sq. Kms. (1,000 per Sq. Mile)

(iii) 3/4th of the occupations of the male working population should be outside agriculture and

(iv) The place should have, according to the Director of Census Operations, of the State a few pronounced urban characteristics and amenities "

Thus, all the places having an urban local body such as a Municipal Corporation or a Municipal Committee or a Notified Area Committee or a Cantonment Board were obviously treated as towns in this District. No place which did not have a statutary urban local body was treated as an urban area in Simla district

(*b*) *The Seven Statements of Town Directory*

Data in respect of the Town Directory has been compiled and presented in the form of seven statements In all these statements the information is shown individually, for each town, the towns having been arranged in alphabetical order A broad outline of each statement is given hereunder

Statement I—Status, Growth History and Functional Category of Towns

This statement runs into 14 columns and is primarily intended to throw up a comparative picture of population of each town in different censuses from 1901 to 1971 Civic Administration Status of each town is shown under Col 5 The last column of statement I (Col 14, Functional Category—1961 Census) would require some elucidation. It may be relevant to describe the method followed in arriving at the functional character of a particular town according to 1961 census in this context The working population according to 1961 Census was classified into nine broad Industrial Cetegories viz, I—As Cultivator, II—As Agricultural Labourer, III—In Mining, Quarrying, Livestock, Forestry, Fishing, Hunting and Plantations, Orchards and Allied Activitres, IV—At Household Industry, V—In Manufacturing other than Household Industry, VI—In Construction, VII—In Trade and Commerce, VIII—In Transport, Storage and Communications, and IX—In other Services. For working out the functional category in respect of a particular town these nine categories were suitably combined and grouped into five broad functional classifications as below :

(i) Primary Activities—Industrial Categories I, II and III

(ii) Industry—Industrial Categories IV, V and VI

(iii) Trade and Commerce—Industrial Category VII

(iv) Transport—Industrial Category VIII, and

(v) Services—Industrial Category IX.

The percentage of workers under each of these five classes of economic activities to total workers in a particular town was calculated and the functional character of the town determined according to these percentage values. If workers under one of the five occupations accounted for 40% or more of the total workers, the town was considered as mono-functional e g Service, Industrial etc However, in case the percentage was less than 40% the next predominent occupation was taken into account, so that the total of the two would come to 60% or above. Such a town was designated as bifunctional e g, Service-cum-Industrial. Further, if the total did not come upto

60% the third predominent occupation was taken into account and such a town was designated Multi-functional e g Service-cum-Industrial-cum-Primary Activities

Statement II—Physical Aspects and Location of Towns, 1969

Data on annual rainfall and temperature is shown under columns 3 to 5 of this statement which runs into 13 columns Other columns indicate the distances of a town from the nearest City with population of 1 lakh or more, from the headquarters of the State, Dietrict, Sub-division, Tahsil/Sub-Tahsil and from the nearest Railway Station, Bus Route, Navigable River/ Canal (if within 10 Kms) The last column viz col. No 13 pertains to the Sea Port (if within 50 Kms) Obviously there is no information to be recorded under this column in Himachal Pradesh

Statement III—Municipal Finance, 1968-69 ·

This statement shows the Receipt and Expenditure in respect of Municipal Finace of individual towns under different heads. There are, in all, 16 columns in this statement.

Statement IV—Civic and Other Amenities, 1969 :

This statement displays information under 16 heads. The amenities, about which information has been incorporated are, Road Length (with breakup by Kutcha and Pucca, if available) System of Sewerage/ Drainage and other related matters, Water Supply, Fire Fighting Service, and Electrification, etc

Statement V—Medical, Educational/Recreational and Cultural Facilities in Towns, 1969

This statement is intended to depict the degree of availability of Medical Facilities by type of institutions and number of beds available in each, Educational Facilities by levels/types of Courses, and Recreational and Cultural Facilities The statement has 17 columns.

Statement VI—Trade, Commerce, Industry and Banking, 1969

This statement displays information under 15 columns in respect of each town The information pertains to Imports, Exports, Manufactures, Banks, and Agricultural and Non-agricultural Credit Societies.

Statement VII—Population of Towns by Religion 1971 .

Townwise break-up of the 1971 Census population by religion is shown in this statement

(c) *Coverage* · There are six towns in Simla district which are all covered by the Town Directory. All these places were towns in 1961 Census also. Three towns viz Dagshai, Kasauli and Subathu fall in Kandaghat Tahsil whereas two towns namely Jutogh and Simla are located in Simla Sub-Tyhsil and the remaining one town i e. Nalagarh is a part of Nalagarh Tahsil.

Sources of Information The information has been collected from the respective Urban Local Bodies and the concerned departments of the Government of Himachal Pradesh. Temperature and Rain-fall data have been partially collected from the Director General of Observatories, Government of India, Poona.

(e) *Brief notes on Statements* :

Statement I—Status, Groth History and Functional Category of Towns :

Simla District has 6 towns, 3 of which (Subathu, Kasauli and Dagshai—all Cantonment Board Areas) are located in Kandaghat Tahsil, 2 (Simla Municipal Corporation and Jutogh Cantonment Board) in Simla Sub-tahsil and 1, viz , Nalagarh Municipal Committee in Nalagarh Tahsil The following notations have been utilized in this statement

Notation	Explaination
CB	Cantonment Board
M	Municipal Committee
MC	Municipal Corporation

All the towns of Simla District had urban status in the census of 1901. However, Nalagarh was declassified from 1911 to 1931 and Jutogh was considered as part of Simla town in 1911.1921 and 1951 censuses. Spectacular increase is noticed in the population of Simla during the decade 1941-51. This was mainly as a result of the influx of displaced persons from the

areas now constituting Pakistan The capital of Punjab was also located at Simla at that time In 1961 the population of Simla registered a fall from 46,150 in 1951 to 42,597. This may be explained by taking into consideration the fact of shifting of the capital of Punjab from this town to the new city of Chandigarh. The population of Simla as per 1971 census is 55,368; the percentage increase during 1961-71 being 30 No other significant features are observed in this statement excepting that the population of Nalagarh, which stood at 4,027 in 1901, is only 3,671 in 1971 Census.

Table No 1 reproduced hereunder shows the towns of Simla district classified according to functional categories

TABLE NO. 1

Distribution of towns by functional categories

Functional Category-1961	Total Number of Towns
1	2
Service	6

It would be noticed that all the 6 towns of Simla district fall in the functional category of Service.

Statement II—Physical Aspects and Location of Towns, 1969 .

The physical and locational aspects of the towns are covered in this statement. Rainfall data is not available for Dagshai, Jutogh, Nalagarh and Subathu. However, figures of annual rainfall in respect of Simla has been repeated against Jutogh with a view to enabling the reader to have a rough idea in this behalf. Kasauli experiences an annual rainfall of 1,647.1 mm, as against 1,508 4 mm. in case of Simla. Maximum temperature in Simla is 28 6°C whereas minimum temperature is-43°C. This information has again been repeated against Jutogh for which town the data is not available. Temperature data is not available for the other four towns.

Statement III—Municipal Finance,1968-69

Table No 2 given hereunder shows per capita Receipt and Expenditure, further classified according to sources and various activities, respectively, in respect of the different population size-classes of towns.

TABLE No. 2

Per capita receipt and expenditure by size class of towns

Size Class of town	Number of Towns	Per capita						
		Receipt (Rs)			Expenditure (Rs.)			
		Total Receipt	Receipt through taxes	Receipt from all other sources	Total expenditure	Expenditure on public health and conveniences	Expenditure on public institutions	Expenditure on all other aspects
1	2	3	4	5	6	7	8	9
Class I 100,000 and over			.	.	..	..	...	. .
Class II 50,000 to 99,999	1	87 20	16 76	70.44	82 09	1 17	11 46	69.46
Class III 20,000 to 49,999	.		...	..		..	...	..
Class IV 10,000 to 19,999	.		.	..	..	...	..	...
Class V 5,000 to 9,999	. .	. .		.	.-	..	..	...
Class VI Below 5,000	5	89 86	13 88	75 98	107 83	32 41	4 84	70.58

Simla falls in the population size class II (50,000—99,999) whereas all the other 5 towns fall in the population class VI (Below 5,000) Total per capita receipt in respect of Class II town is Rs 87 20 whereas it is Rs 89 86 in case of Class VI towns By sources also there is not much disparity in the pattern of receipts. However, the expenditure pattern in the two classes shows some divergence Per capita expenditure for the classes II and VI is Rs 82 09 and Rs 107 83, respectively Further, per capita expenditure on public health conveniences is Rs. 32 41 in case of class VI towns as against Rs. 1 17 in class II

Statement IV—Civic and Other Amenities, 1969

The following notations have been utilized in the compilation of this statement

Column No	Notation Used	Description
3	PR	Pucca Road
	KR	Kutcha Road
4	S	Sewer
	OSD	Open Surface Drains
	ST	Septic Tank
8	BKT	Bucket
	ST	Septic Tank
	HL	Head Load
9	T	Tap Water

Statement V-Medical, Educational, Recreational and Cultural Facilities in Towns, 1969

The notations used in this statement are detailed below —

Column No.	Notations	Description
3	H	Hospital
	D	Dispensary
	TBC	T B Clinic
	FC	Family Planning Centre
	O	Other Medical Institutions
	HC	Health Centre
5	A	Arts College
	AS	Arts & Science College
9	ITI	Industrial Training Institute
9	TC	Tailoring Centre
	CTC	Crafts Training Centre
	RITI	Rural Industrial Training Institute
13	PGC	Post Graduate Centre
	IIAS	Indian Institute of Advanced Study
	B.Ed	College of Education
	FA	College of Fine Arts
	SC	Sanskrit College

Table No. 3 given hereunder shows availability of medical facilities in terms of number of beds available per 1,000 town dwellers in Simla district.

TABLE No 3
Medical Facilities

Total No of beds in medical institutions	*No of beds per* 1,000 population
1	2
1,099	16

Total number of beds available in the medical institutions located in the towns of Simla district is 1,099. The number of beds per 1,000 population works out as 16

Simla town leads in matters of medical amenities. There are 4 Hospitals with 546 beds, 16 Dispensaries, one T. B Clinic with a provision of 2 beds and 11 other medical institutions, which include 2 Family Planning Centres also. Kasauli town has a Sanitorium with a provision of 250 beds, apart from other medical institutions. All the towns in this district can boast of availability of the indoor treatment facilities in one medical institution or the other, may be to a *very limited extent in some cases*

In matters of educational facilities Simla town forms a class by itself, with the availability of (a) An Arts College, (b) Three Arts and Science Colleges, (c) A Post Graduate Centre, (d) Indian Institute of Advanced Study and (e) A Medical College. There

are 3 Vocational and Crafts Centres also in this town. None of the other towns has a college

Table No 4 gives below shows number of schools providing educational facilities upto various levels per 1,000 population in the different towns of Simla district .—

TABLE No. 4

Higher Secondary or Secondary, Junior Secondary/ Middle and Primary Schools per 1,000 population

Number per 1,000 population

Name of the town	Higher Secondary or Secondary Schools	Middle/Junior Secondary Schools	Primary Schools
1	2	3	4
Simla	N	N	N
Jutogh		1	.
Subathu	1		..
Kasauli	N		N
Dagshai	N	N	..
Nalagarh	1	..	1

N Negligible

Perusal of the above Table reveals that, measured in terms of number per 1,000 souls, the various types of educational facilities are nil or negligible in all the towns excepting the following cases where the ratio works out as 1 :

(i) Middle or Junior Secondary Schools at Jutogh
(ii) High or Higher Secondary Schools at Subathu
(iii) High or Higher Secondary Schools and Primary Schools at Nalagarh.

As for recreational facilities it may be noted that there are 4 Cinema Halls in Simla and another at Kasauli. Similarly the number of Auditoria is 3 in Simla and 1 at Kasauli. All the towns have a Public Library excepting Simla, where the number of Public Libraries is 7.

Statement VI—Trade, Commerce, Industry and Banking, 1969

The most important commodity of import in all the towns of Simla district is Foodgrains and Groceries Cloth, Sugar and Vegetable Ghee are other important items. Hovever, in the case of Simla, Milk also commands sufficient importance as a commodity imported from outside.

Potatoest, Apples and Vegetables are the three important items of export from Simla town. Various types of vegetables and fruits are exported from other towns. In case of Nalagarh stone, sand, Bamboo, grass, charcoal, Resin and "Katha" are important items of export. Anti-rabic, Cholera and T A B. Vaccines are exported from Kasauli.

As for manufactures Kasauli is famous for its beer and wine. There is nothing spectacular requiring special mention, in this field, in other towns.

Of the 15 Banks in the towns of this district 7 are located at Simla and 4 at Nalagarh Jutogh has none. Similarly out of 35 non-agricultural societies as many as 21 are in Simla.

Statement VII—Population of towns by Religion, 1971 :

Hindus constitute the bulk of population in all the towns of Simla district and their percentage to total population varies between 78.72 in Nalagarh to 96.46 in Subathu. Sikhs constitute the second biggest community in almost all the towns and their highest percentage is in Dagshai where they form 11.52% of the total population. Muslims claim 8.72% of population in Nalagarh, their absolute number being 320 out of 3,671 In both Kasauli and Nalagarh, Christians form 3 70% of the total population Their proportion in other towns is not significant Similarly Jain Community, which claims 2.07% of the population of Nalagarh, are in insignificant numbers in other urban areas As for Buddhists, with a population of 846 in Simla, they form 1.53% of the total population of that town. Their number in other towns is either nil or insignificant.

5 Village Directory

(i) *Concept of Census Village* In 1961 Census, a Census Village was the same as a Revenue Village. After reorganisation of Punjab, Haryana and Himachal Pradesh on 1st November, 1966 some areas were transferred from the erst-while state of Punjab to Himachal Pradesh. Whereas in some of these newaly merged

Districts/Tahsils etc. the revenue village is comparable in population size and area to the revenue villages of the old districts yet in most of the cases the average revenue village is much bigger in area and population than its counterpart in the old districts. The difference is so marked that it renders comparison of the Village-wise statistics an exercise in futility Therefore, smaller rural units were considered as census villages in most newly merged areas of Himachal Pradesh. It may be relevant to detail here areawise, the names of the smallest Census Rural Units considered as Census Villages in Himachal Pradesh. This information is given below

Name of Smallest Census Rural Unit considered as 'Census Village	Areas where considered
1	2
1 Revenue Village	(i) In the Districts of Chamba Mandi, Bilaspur, Mahasu, Sirmapur, Kinnaur and Simla
	(ii) Una Tahsil and Amb ub-Tahsil of Kangra District
2 "Tikka having a distinct Sub-Hadbast Number	Kangra District excepting Una Tahsil and Amb Sub-Tahsil.
2 "Phatti" having a distinct Sub-Hadbast Number	Kulu District
4. Village Hamlet (with/ without distinct Sub-Had-bast Number)	Lahul and Spiti District

(*ii*) *Presentation of Data* The villagewise data is displayed in 18 columns Apart from this, Abstracts of the Educational Medical and Other Institutions and amenities in respect of Tahsils/Sub-Tahsil and the District have been incorporated in this publication. For according convenience in the identification of census villages, lists of villages arranged in alphabetical order showing their census location code numbers and the revenue numbers, have also been added

(*iii*) *Explanatory Note regarding Notations used in Village Directory*

The information pertaining to the different amenities available in the Census Villages has been shown with the help of a set of notations These notations alongwith the particular amenities which these represent are given hereunder :

6. **Brief analysis of data–Village Directory.**

(*a*) *Distribution of villages by area .*

Table No. 5 shows the distribution of villages in Simla district by different classes of area.

TABLE No. 5

Distribution of Villages by their areas

Area in acres	Number of Villages
1	2
50 acres or less	340
51-100 acres	416
101-200 acres	478
201-500 acres	379
501-1,000 acres	84
1,001 2,000 acres	16
2,001-5,000 acres	2
5,001 acres and above	...
Area not known	6
Total .	1,721

Note Area figures of Six villages are not available.

The villages which are comparatively small in area are predominant in district. 340 villages are of the area size 50 acres or less. The area size classes 51—500 acres and 101—200 acres claim 416 and 478 villages, respectively. The next higher size class *i. e.* 201—500 acres claims another 379 villages. Thus 1,613 villages out of 1,721 have areas less than 500 acres each. There is no village in the size class 5,001 acres and above while there are only 2 villages, which have areas between 2,001—5,000 acres each.

(*b*) *Availability of Educational Facilities* :

Table No. 6 reproduced hereunder shows the number of villages enjoying the educational facilities upto various levels by their respective distances from the nearest town.

TABLE No. 6

Distribution of villages having educational amenities by distance from the nearest town

Distance from the nearest town	Total No of Villages	Number of villages having				
		Primary School	Middle School	High or Higher Secondary School	College	Others
1	2	3	4	5	6	7
5 Kms or less	389	45	4			...
6—10 Kms	358	32	7	7	.	...
11—15 Kms	382	49	9	3	-	...
16—25 Kms.	353	44	5	3	...	..
26—50 Kms	239	20	3	3	.	...
51—100 Kms.	...	...	...	..	..	...
101—200 Kms.	...	...	..	..	..	...
201 Kms. and above	...	...	...	..	...	...
Total ·	1,721	190	28	16	...	...

It may be observed from this Table that none of the villages and Simla district is located at a distance of more than 50 Kms from the nearest town. In fact, in the distance class 36—50 Kms which is the highest in this case there are only 239 villages out of a total of 1,721. There is not much variation in the number of villages in other classes

The district has, in all, 190 villages with Primary Schools which are rougly proportionately distributed amongst all the categories of the villages located at various distances from the nearest town, excepting that the village in the class 6—10 Kms. comparatively claims smaller number of the Primary Schools. As for the Middle Schools out of 18 villages enjoying this

facility, the category of villages whose distance from the nearest town is 5 Kms or less claims only 4, which is proprotionately small. But there is no High or Higher Secondary School in this category of villages. This may be explained away by looking at the educational facilities from the angle that the children of the villages which are situated in close proximity of the towns can enroll in the schools located in the nearby urban areas. The 16 villages having High or Higher Secondary Schools and the remaining 24 villages having Middle Schools are distributed in all the classes However, the proportion of High or Higher Secondary Schools in the villages situated between 6—10 Kms. from the nearest town is more than double than that in any other category No facilities of college education are avilable in the rural areas of Simla district.

(*c*) *Availability of Medical Facilities*

Table No 7 shows the number of Medical Institutions of any kind per 100 Sq Km in the two Tahsils and a Sub-Tahsil in Simla district.

TABLE No 7

Medical facility per 100 Sq Km.

Tahsil/Sub-Tahsil	Total area in Sq. Kms*	Number of Medical institutions of any kind per 100 Sq Km.
1	2	3
Simla	108 03	3
Kandaghat	437 92	6
Nalagarh	704 60	3
Total	1,250 55	4

The area figures used in the compilation of the village Directory and for that matter in the compilation of the above Table are according to the State Director of Land Records. According to this source the total area of Simla district is 1,250 55 Sq Kms. But the area of the district according to the Surveyor General, India, as on 1st July, 1971 is 1,416 Sq. Kms. (Provisional) The interpretation of the statistics displayed in Table No 7 will, therefore, have to be undertaken taking into account this variation in the two sets of area figures. However, so far as the comparative picture of the Tahsils/Sub-Tahsil is concerned, a rough idea may be derived from this data The absolute number of Medical Institutions of any kind is 49 in the rural areas of Simla district and utilizing the area figure according to the Surveyor General, the number of Medical Institutions per 100 Sq Km works out at 3. But taking into account, the area figures according to the State Director of Land Records, as is the case in the above Table the number is calculated at 4 per 100 Sq Km. Reverting back to the Table, it is revealed that Kandaghat Tahsil has 6 Medical Institutions of any kind per 100 Sq. Km of area as against 3 each in Simla Sub-Tahsil and Nalagarh Tahsil. It may be noted that Sub-Tahsil or Tahsilwise breakup of area figures of the district according to Surveyor General, India, is not available.

*Area figures according to Director of Land Records, Himachal Pradesh

(*d*) *Electric Power Supply :*

Table No. 8 which shows the number of villages with Electric Power Supply by their distances from the nearest town is intended to throw some light on the development of the district in this field.

TABLE No. 8

Distribution of villages with electricity and distance from the nearest town

Distance from the nearest Town	Total No of villages	No. of villages with electric power supply
1	2	3
5 Kms or less	389	115
6—10 Kms	358	28
11—15 Kms	382	34
16—25 Kms	353	25
26—50 Kms	239	17
51—100 Kms	..	...
101—200 Kms	.	...
201 Kms. and above		.
Total :	1,721	219

of the 1,721 villages in Simla district 219 *i. e* only 13% are electrified. Of the 389 villages which are situated at less than 5 Kms from the nearest town, as many as 115 are electrified. The remaining 104 are distributed in all the other categories of villages.

(*e*) *Communications .*

Table No. 9, given hereunder shows villages classified by their distances from the nearest town and the extent of availability of the various means of communications.

TABLE No. 9

Distribution of villages with different communication facilities and distance from the nearest town

Distance from the nearest Town	Total No of villages	Number of Villages connected by					
		Pucca Road	Kutcha Road	Pucca Road and River	Pucca Road and Rail	Kutcha Road and Rail	Others
1	2	3	4	5	6	7	8
5—Kms. or less	389	117	66	...	9	1	1
6—10 Kms	358	68	71	...	1		1
11—15 Kms	382	56	121	...	4	..	...
16—25 Kms.	353	25	95	.		..	...
26—50 Kms.	239	9	46	...	..		...
51—100 Kms		.		...	.	..	..
101—200 Kms				.		..	...
201 Kms and above	...	.		.	.	...	...
Total	1,721	275	399	...	14	1	1

As compared to other districts, Simla may be considered as developed on a better scale in matters of communication Out of 1,721 villages 275 are connected by Pucca Roads Another 14 villages are connected by Pucca Road and Rail. There are 399 villages which are connected by Kutcha Road, while 1 village is connected by both Rail and Kutcha Road. Category of "Others" inculdes 1 village which is, in fact, Rail in this case. Kalka-Simla narrow guage Railway line is the only Railway passing through parts of Simla district. Thus, out of 1,721 villages 690 are connected by one or the other developed means of communication, while 1,031 villages still remain isolated.

(*f*) *Postal Facilities* .

Table No. 10 given hereunder shows the number of Post Offices per 100 Sq. Km , in the Tahsils/Sub-Tahsil of Simla district.

TABLE No. 10

Number of Post Offices per 100 Sq. Km.

Name of Tahsil/ Sub-Tahsil	Total area in Sq Kms *	No of Post Offices per 100 Sq Km.
1	2	3
Simla	108 03	12
Kandaghat	437 92	7
Nalagarh	704 60	2
Total	1,250 55	5

As already discussed in case of Table No. 7 the area figures utilized in the compilation of above table suffer from certain limitations. The total area of the district according to the State Director of Land Records is 1250 55 However, the area figures as reported by the Surveyor General, India, as on 1st July, 1971 is 1,416 Sq Kms. (provisional). The difference in the two sets of figures renders study of the Table in correct perspective difficult. However a comparative picture, does emerge Number of post offices per 100 Sq Km. is 12 in Simla Sub-Tahsil as against 7 in Kandahgat and 2 in Nalagarh Tahsil.

(*g*) *Staple Food*

Staple food of the inhabitants of Simla district is Wheat and Maize. Rice is also consumed in small quantities.

(*h*) *Land Use Pattern* :

The land use data has been collected and compiled under the following heads :—

(i) Forests

(ii) Culturable Waste

(iii) Area not available for cultivation

The figures of—

(i) Irrigated area and

(ii) Un-irrigated area, have also been compiled.

Table No. 11 shows statistics pertaining to cultivated land and cultivable waste land in the villages classified according to their distances from the nearest town.

* Area figures according to Director of Land Records Himachal Pradesh

TABLE No 11

Percentage of average cultivable waste per village to average cultivated land per village by distance from the nearest town

(Acres)

Distance from the nearest Town	No of Villages	Total cultivated land	Average cultivated land per village	Total cultivable waste	Average cultivable waste per village	Percentage of average cultivable waste per village to average cultivated land per village
1	2	3	4	5	6	7
5 Kms or less	389	13,687	35 19	3,768	9 69	27.54
6—10 Kms	358	14,235	39 76	12,715	35 52	89 34
11—15 Km	382	21,992	57 57	12,715	33 2 9	57 83
16—25 Kms	353	20,619	58 41	22,059	62 4	106 99
26—50 Kms	239	8,769	36 69	14,461	60 51	164 92
51—100 Kms						
101—200 Kms				..		
201 Kms and above			.	.		..
Total .	1,721	79,302	46 08	65,718	38.19	82 88

Average cultivated land per village in Simla district is only 46 08 acres. In the class of villages which are situated at 5 Kms or less from the nearest town, the average cultivated land per village is as low as 35.19 acres Average cultivable waste per village in this district is 38 19 acres This average is comparatively lower in case of villages which are situated at small distances from the nearest town.

The percentage of average cultivable waste per village to average cultivated land per village is 82 88 in the district considered as a whole. Generally speaking, it is observed that this percentage follows an increasing trend as the distance of a village from the nearest town increases The percentage is 164.92 in case of villages lying at 26—50 Kms from the nearest town as against only 27 54 in those situated at 5 Kms. or less from the nearest town.

PART X—B

VILLAGE AND TOWNWISE PRIMARY CENSUS ABSTRACT

EXPLANATORY NOTE—PRIMARY CENSUS ABSTRACT

1. Introductory

Basic and important statistics revealed by 1971 Census in respect of Primary Census Units i e , Village in rural areas and Enumerator's Block in urban areas have been presented under 38 columns of Primary Census Abstract

2 Area Figures

Primary Census Abstract contains the identification particulars of the Villages/Enumerator's Block and the respective area figures of each unit The area figures in case of census villages are based on the revenue village papers as maintained in the respective Tahsil/Sub-Tahsil offices, and were collected alongwith the non-census data pertaining to the Village Directory The latest available figures were taken into account The total of these area figures of the tahsils do not tally with the tahsil-wise and district-wise figures, because the former represent land use area and do not necessarily include what is called as the "non-reporting area" Further the figures given in case of district represent the geographical area figures supplied by the Surveyor General, India The tahsil-wise total area figures have been supplied by the Director of Land Records, Himachal Pradesh, whereas the area figures for towns have been furnished by the respective Local Bodies In case of Districts and Tahsils/Sub-Tahsils, area figures for rural areas are derived by subtracting the urban area from the total area

3 Occupied Census Houses and Households :

The next item of information pertains to the number of Occupied Residential Houses, and the number of Households in Village/Enumerator's Block It may be relevant to give here the definitions of the terms 'House' and 'Household' as adopted in Census

(i) *Census House* A Census House is a building or a part of a building inhabited or vacant and having a separate main entrance from the road or common courtyard or staircase etc , used or recognised as a separate unit It may be used for residential or non-residential purpose or both. If a building has a number of flats or blocks which are independent of one another having separate entrances of their own from the road or a common staircase or a common courtyard leading to a main gate, they are considered as separate House If within a large enclosed area there are separate buildings, then each such building is also considered as a separate House If all the structures within an enclosed compound are together treated as one building then each structure with a separate entrance is treated as separate Census House

(ii) *Census Household* A Household is a group of persons who commonly live together and would take their meals from a common kitchen unless exigencies of work prevented any of them from doing so A Household may be made up of related or unrelated persons

4 Scheduled Castes and Scheduled Tribes

Primary Census Abstract is, again, perhaps the only source of information on Scheduled Caste and Scheduled Tribe components of the village-wise/block-wise population The Castes and Tribes listed as Scheduled Castes/Tribes in Himachal Pradesh under the Government of India, Ministry of Home Affairs, Scheduled Castes and Scheduled Tribes list Modification Order, 1956, constitute the Scheduled population in Census It may be of interest to note here that, intact, two different lists were utilised in the different areas of Himachal Pradesh Such a course was necessitated in view of the merger of certain areas from the erstwhile State of Punjab in Himachal Pradesh on 1st November, 1966 when the three States of Punjab, Haryana and Himachal Pradesh were recognised The lists pertaining to Punjab were utilised in the newly merged areas whereas the lists pertaining to Himachal Pradesh were utilized in the old areas of the State These lists are given hereunder

LIST—I

List of Scheduled Castes and Scheduled Tribes for the Districts of (1) Chamba (excluding the towns of Dalhousie, M C , Dalhousie C B and Bakloh C B (2) Mandi (3) Bilaspur (4) Mahasu (5) Sirmaur and (6) Kinnaur

SCHEDULED CASTES

1 Ad-dharmi
2 Badhi or Nagalu
3 Bandhela
4 Balmiki, Chura or Bhangi
5 Bangali
6 Banjara
7 Bansi
8 Barad
9 Barar
10. Batwal
11. Bawaria
12 Bazigar
13 Bhanjra
14 Chamar, Mochi, Ramdasi or Ramdasia
15 Chanal
16 Chhimbe
17 Chuhre
18 Dagi
19 Daole
20 Darai or Daryai
21 Daule
22 Dhaki or Toori
23 Dhaogri or Dhuai
24 Doom or Doomna
25 Dumne
26 Hali.
27 Hesi
28 Jogi
29 Julahe
30 Kabirpanthi, Julaha or Keer.
31 Kamoh or Dagoli
32 Karoack.
33 Khatik
34 Koli
35 Lohar
36. Mazhabi
37 Megh
38. Nat
39 Od
40 Pasi
41 Phrera
42. Rehar
43 Rehara
44 Sansi.
45 Sapela
46. Sarde, Sarare or Siryare
47 Sarehde.
48 Sikligar
49. Sipi
50 Sirkiband
51 Teli
52 Thathiar or Thathera

SCHEDULED TRIBES

1 Gaddi
2 Gujjar
3 Jad, Lamba, Khampa and Bhot or Bodh
4 Kanaura or Kinnara
5 Lahaula
6 Pangwala

LIST II

List of Scheduled Castes for the Districts of (1) Kangra (2) Kulu (3) Lahul & Spiti and (4) Simla and (5) Towns of Dalhousie (M C), and Bakloh (C B) of Chamba District

1 Ad-dharmi
2 Balmiki, Chura or Bhangi
3 Bangali
4 Barar , Burar or Berar
5 Batwal
6 Bauria of Baweria
7 Bazigar
8 Bhanjra
9. Chamar, Jatia Chamar, Rehgar, Raigarh, Ramdasi or Ravidasi
10. Chanal
11 Dagi
12 Dhanak
13 Dumna, Mahasha or Doom.
14 Gagra
15 Gandhila or Gandil Gondola
16 Kabirpanthi or Julaha
17. Khatik
18 Kori of Koli
19. Marija or Marecha
20 Mazhabi
21. Megh
22 Nat
23 Od
24 Pasi
25 Perna
26. Pherera
27. Sanhai
28. Sanhal
29 Sansi, Bhedkut, or Manesh
30. Sapela
31. Sarera.
32 Sikligarh

33. Sirkiband.
34. Darain.
35, Dhogri, Dhangri, or Siggi, and.
36 Sansol

List of Scheduled Tribes for Lahul and Spiti District only

1. Bhot or Bodh
2. Gaddi, and
3 Swangla.

Note,—There are no Scheduled Tribes in Kangra District, Kulu District, Simla District and Towns of Dalhousie M C, Dalhousie C B of Chamba District.

5 *Literate and Educated Persons*.

A person who can both read and write with understanding in any language is considered as literate A person who can merely read but cannot not, write is not taken as literate. It is not, however, necessary that a person who is literate should have had received any formal education or should have had passed any minimum educational standard

6 Workers

In 1971 Census a person whose main activity is participation in any economically productive work by his physical or mental activity is treated as a worker Main activity is the one in which one engages one self mostly. Work involves not only actual work but effective supervision and direction of work The reference period is one week prior to the date of enumeration in the case of regular work in trade, profession, service or business If a person has participated in any such regular work on any one of the days during this reference period and that work is returned as his main activity the person is categorised accordingly Further, the main activity in case of seasonal work such as Cultivation, Livestock keeping etc, is ascertained with reference to such work in the preceding one year Total population having been divided into the two groups of "Workers" and "Non-Workers", the workers have further been classified by broad categories according to their main activities The 9 categories are briefly described hereunder -

I *Cultivator* —For the purposes of the Census a person is considered as a cultivator if he or she is engaged in cultivation by his or herself or by supervision or direction in his or her capacity as the owner or lessee of land held from Government or as a tenant of land held from private persons or institutions for payment of money, kind or share. Cultivation involves ploughing, sowing and harvesting and production of cereals and millet crops such as Wheat, Paddy, Jowar, Bajra Ragi etc and Pulses Raw Jute and Kindred fibre Crop, Cotton etc and other crops such as Sugarcane, Ground-nuts, Tapioca etc, and does not include Fruit, Growing, Vegetable Growing or keeping Orchards or Groves or working of Plantation like Tea, Coffee, Rubber, Cinchona and other medicinal plants

II *Agricultural Labourer* A person who works in another persons land for wages in money, kind or share is regarded as an Agricultural Labourer Such a person has no risk in the cultivation but he merely works in another person's land for wages The labourer can have no right of lease or contract on land on which he works

III *Livestock Forestry, Fishing, Hunting and Plantation, Orchards and Allied Activities* —Those engaged in Livestock Production Agricultural services, Hunting, Trapping and game prepagration, Forestry and Logging, Fishing, plantations, Orchards etc, are included in this category

IV *Mining and Quarrying* —This category includes all those who are working in only Mining or Quarring activities

V *Manufacturing, Processing Servicing and Repairs* This category has to sub-categories as below -

(a) *Household Industry* —A Household Industry defined as an industry conduct by the Head of the household himself/herself and/or mainly by the members of the household at home or withing the village in rural areas and only within the premises of the house where the household lives in urban areas The industry should not be run on the scale of a registered factory Further, according to the census concept a Household Industry relates to production, processing, servicing, repairing, or making and, selling of goods

(b) *Other than Household Industry* —This sub-category includes Manufacturing, Processing Servicing and Repairs, Other then Household industry as described above

VI *Construction* — Those engaged in any type of construction and allied activities are included in this category

VII *Trade and Commerce* This category includes all persons who are engaged in wholesale or retail trade in any goods Those working in Restaurants and Hotes, Banking, Financing, Insurance, Real Estate and Business services are also classified under this category

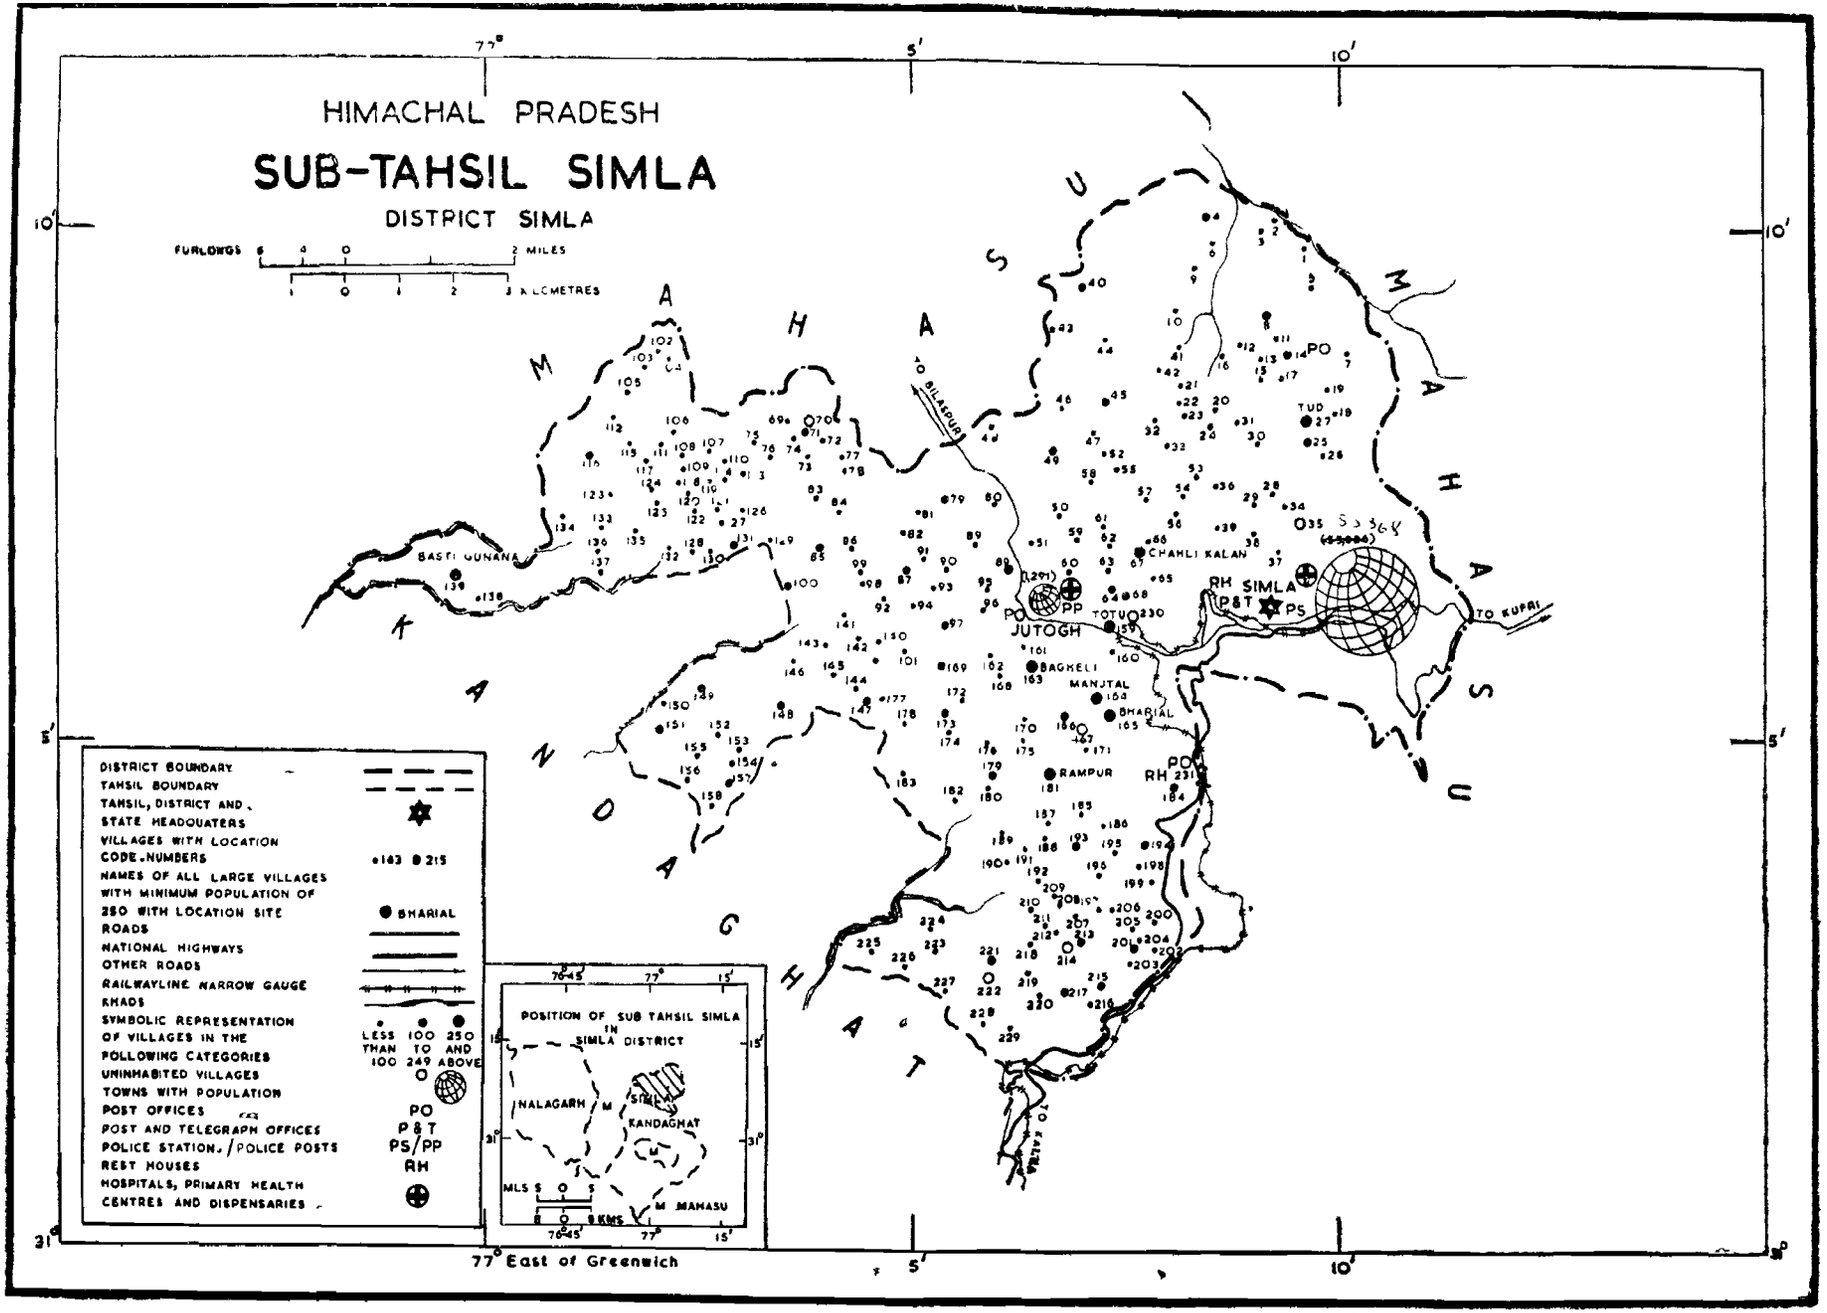

VIII *Transport, Storage and Communications* -- This category includes Land, Water and Air transport All activities connected with storage and ware housing and communications like Postal, Telegraphy and Telephone etc are also included in this category

IX *Others services* —Those engaged in community, Social and Personal Services, including Public Administration, Medical and Health Services, Recreational and Cultural Services, Community Services are included in this category Persons who happen not to adequately describe their activities or those whose services are not classified elsewhere also from part of this category of workers

X *Non-Workers* —This group consists of those persons whose main activity is returned as one of the following —

(i) Household duties.
(ii) Students
(iii) Retired persons or rentiers
(iv) Dependents
(v) Beggers etc
(iv) Institutions—inmates of
(vii) Other Non-Workers (Those seeking work)
