PREFACE

District Census Handbooks were published for the first time in 1951. Because of their usefulness they are being printed in every census since then. Though District Census Handbooks are State Government publications, the data to be presented in them are processed and compiled in the Census Office. District Census Handbook has been divided into three parts, viz., (*i*) Part A containing Town and Village Directory, (*ii*) Part B containing Village and Townwise Primary Census Abstract and (*iii*) Part C containing Analytical Report, Administrative Statistics and District Census Tables. It was envisaged that the three parts should be brought out separately as data for all the parts may not be available at the same time. Since materials for Part B were ready before printing of Part A could be taken up, parts A and B for the district of Saharsa are being brought out together in the present volume. Part C will be brought out separately.

The Explanatory Note at the beginning of Part A gives the details of information contained in the Town Directory and the Village Directory. Similarly, the Explanatory Note at the beginning of Part B gives the details of information contained in the Primary Census Abstract. Alphabetical list of villages showing names of villages and their serial number in Village Directory and Primary Census Abstract has been given at the beginning of the volume to facilitate reference to Village Directory and Villagewise Primary Census Abstract.

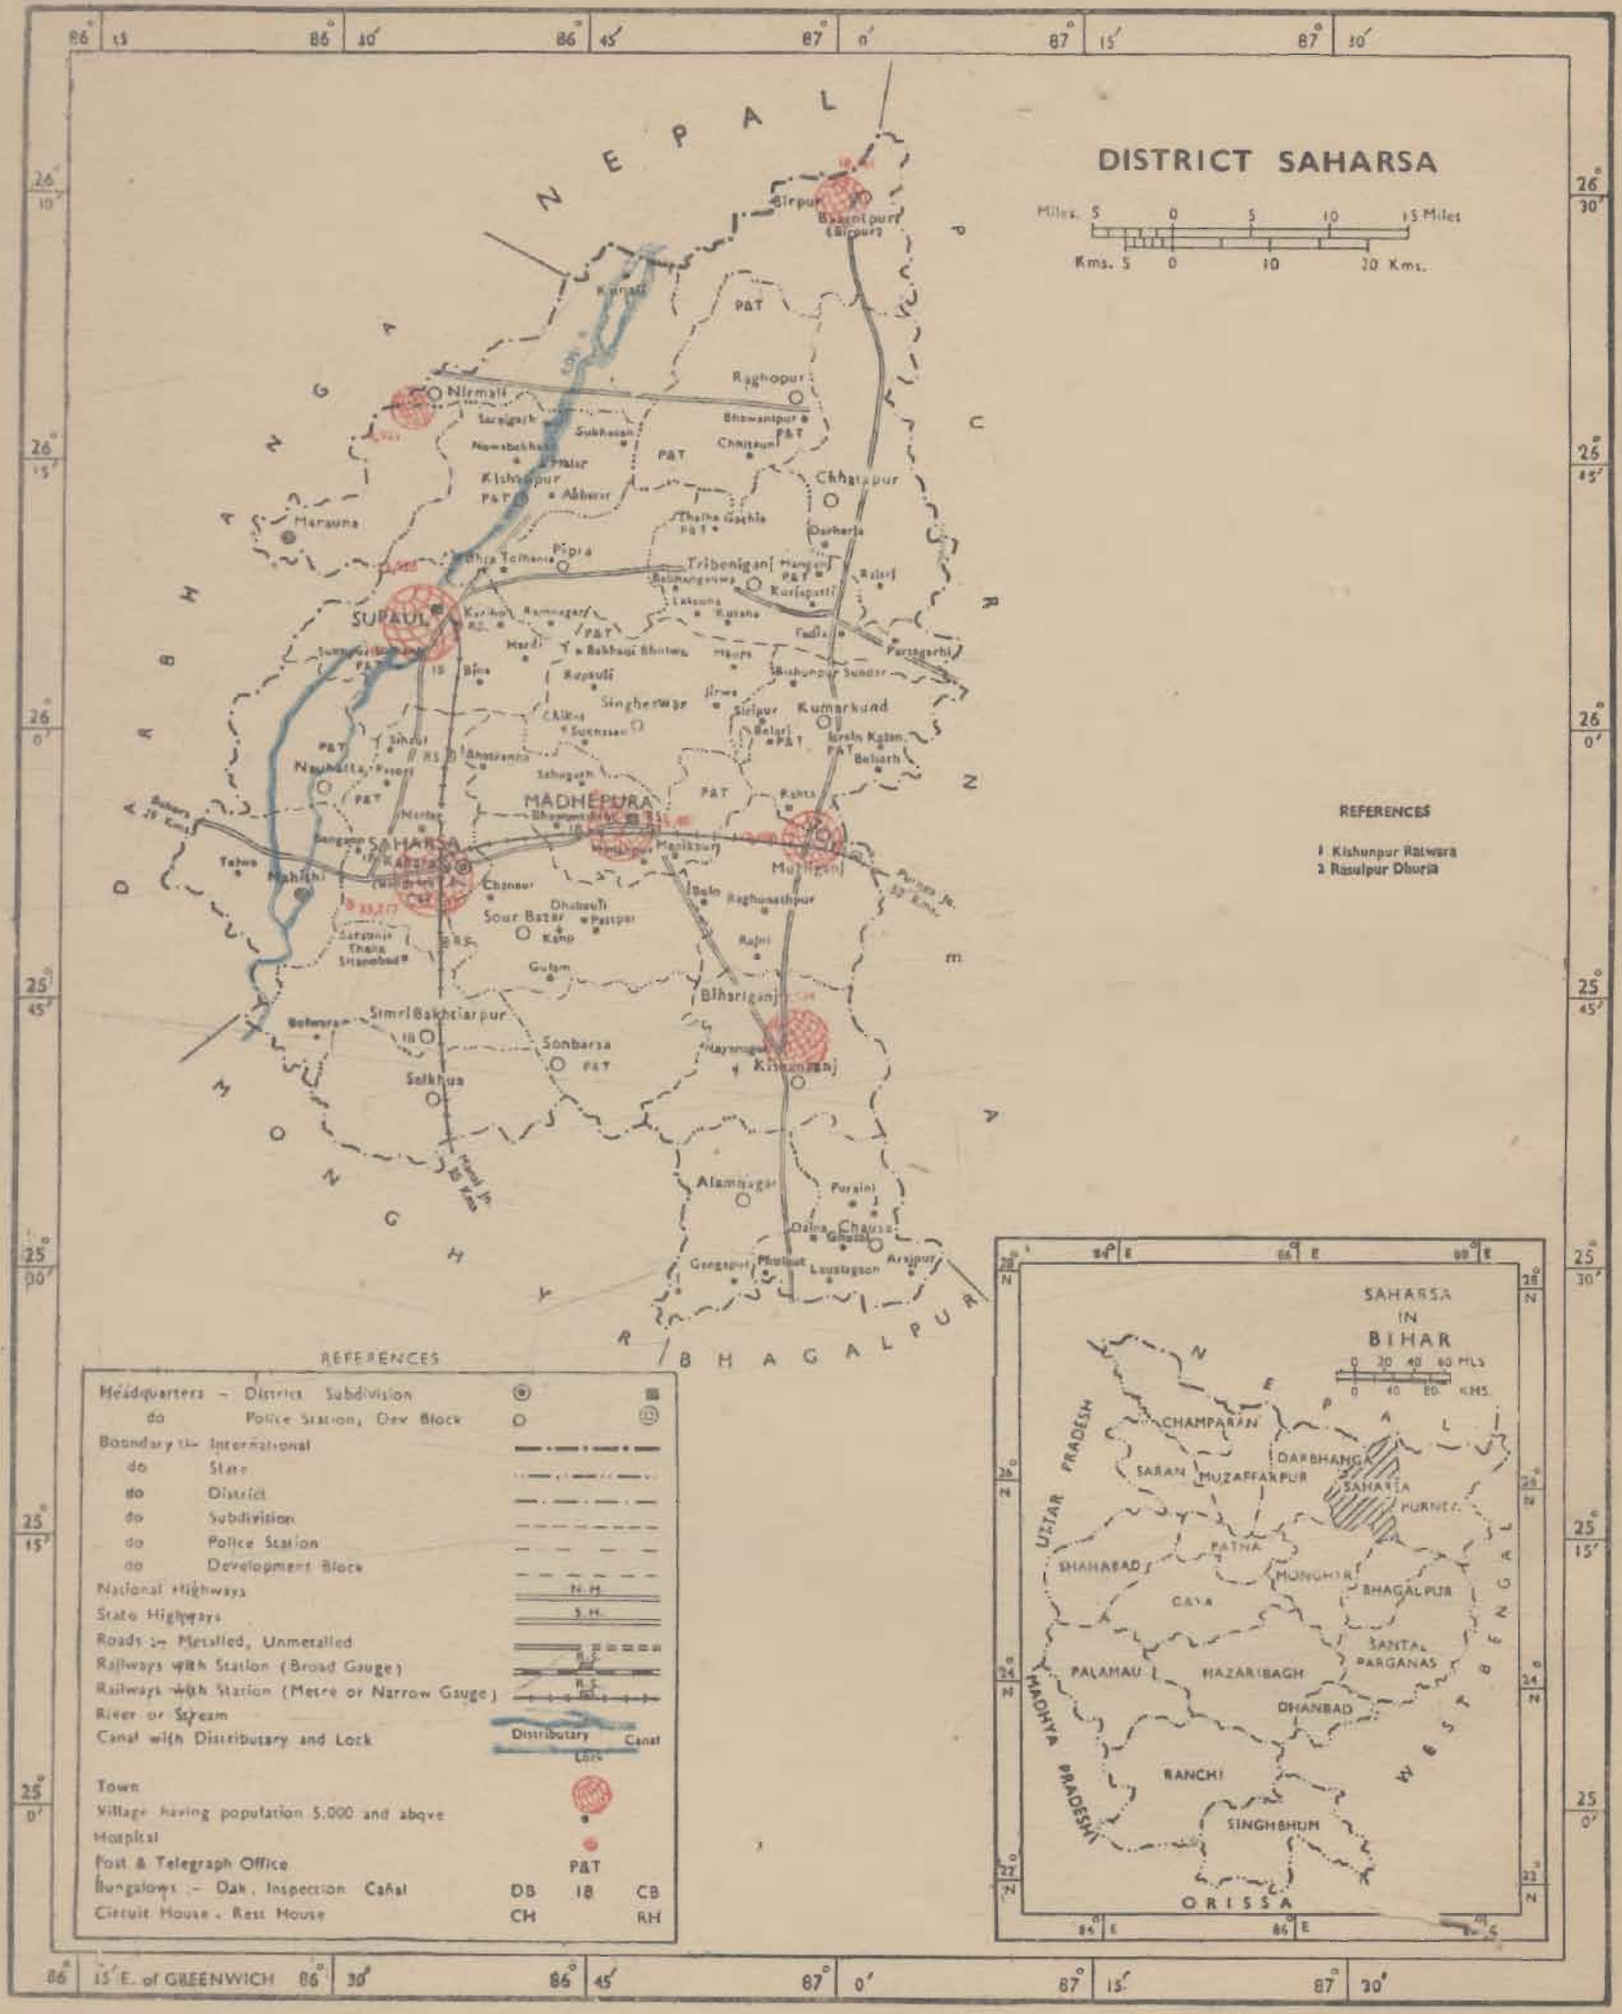

To make this Handbook more useful Community Development Block maps in reduced scale have also been given at the end of the volume as in 1961. These maps have been prepared from the Anchal maps in the scale 1"=1 mile which were traced from the old Revenue Thana map in the same scale. A map of the district showing administrative divisions has also been given at the beginning.

I am grateful to the vast multitude of Enumerators and Supervisors who collected the basic data in the *Mauzawar* Note at the time of houselisting and in the Individual Slip at the time of enumeration. Charge Superintendents, Subdivisional Officers and District Officers alongwith the Subdivisional Census Officers and District Census Officers organised the programme and supervised it in their respective areas. I am grateful to them. I am also grateful to the various departments of the State Government for all their co-operation at various stages of census. In my own office Shree U. P. Shrivastava, Deputy Director organised the work of compilation of the figures presented in District Census Handbooks Parts A and B. He was ably assisted by Shree P. N. Sinha, Tabulation Officer and his team of Statistical Assistants, Computors and Assistant Compilers. The information contained in Part B was basically compiled in respective Regional Tabulation Offices under the supervision of the respective Deputy Directors. Shree R. B. Singh, Investigator, Shree Maheshwar Prasad, Tabulation Officer, Shree Sidheshwar Prasad Verma, Junior Investigator and Shree Sheo Prasad, Printing Inspector have helped in getting the volume printed. Shree M. Abbas, Senior Geographer assisted by his team prepared the maps which are found in this volume. I am sincerely obliged to all of them.

I am indebted to Dr. B. K. Roy, Burman, Deputy Registrar General (S. S.), Dr. B. K. Roy, Map Officer, Shree K. K. Chakravorty, Assistant Registrar General and all the members of their respective teams for providing necessary guidelines for this publication. It is difficult to express in words my obligation to Shree A. Chandra Sekhar, Registrar General and Census Commissioner of India whose inspiration and guidance lay behind whatever we did in discharge of our duties. I am grateful to M/s Eagle Offset Printers, Allahabad, which undertook the work of printing this volume and accomplished it with promptness.

NOTE : If a Development Block has more than one village with the same name the thana number of the village has also been given within brackets after the name.

DISTRICT CENSUS HANDBOOK
PART A

EXPLANATORY NOTE

TOWN DIRECTORY

For Census purposes all Municipalities, Notified Areas, Civil Lines and Cantonments are treated as towns irrespective of their population, size, density of population or livelihood pattern.

Certain criteria were prescribed for treating other places also as towns. Places were to be treated as towns if—

(a) they had a population of 5,000 or more;

(b) density was not less than 400 persons per sq. km., and

(c) at least three-fourths of the male working population was engaged in non-agricultural livelihood.

By and large these criteria were followed except in only a very few cases on account of their tourist interest or administrative importance or their having urban characteristics.

Some statistics and data on population and religion for each town of the district have been presented in the Town Directory. Seven statements have been presented in the Directory. In the statements towns have been arranged in the ascending order of the Location Code Numbers assigned to them. Towns treated as such for the first time in 1971 Census have been printed in *italics*.

The following abbreviations have been used in column 3 of Statement I and column 2 of the remaining statements to indicate civic administration status:

C—Municipal Corporation
M—Municipality
N.A.C.—Notified Area Committee
C.B.—Cantonment Board
N.M.—Non-Municipal, Non-Town Committee, Non-*Panchayat* Town, i.e., statusless town

The contents of the statements and sources of materials are described below:

Statement I

This statement gives civic administration status in 1970, population for the eight censuses from 1901 to 1971 and functional category both according to 1961 Census and 1971 Census for each town. No figure for a town has been given for a particular census year if it did not exist as such in that census. Thus if a town did not exist in 1941 Census or earlier censuses there will be no entry in the statement under the columns relating to the population of the town for censuses 1901 to 1941. Similarly for towns treated as such for the first time in 1971 Census there will be no entry under the columns relating to the population of the town for censuses 1901 to 1961 and in the column relating to functional category, 1961 Census.

For functional classification of towns for 1961 Census the nine industrial categories of workers of that census were grouped into 5 broad sectors of economy. The statement below will show the names of the 5 sectors, the industrial categories grouped in each and the designation of the town in case workers of a sector comprised 40 per cent or more of the total working population of the town.

Sector	Industrial Category	Designation of the town if workers of the sector comprised 40 per cent or more of the total working population.
1. Agriculture and Allied activities	I, II & III	Primary activity town.

2. Industries including Construction.	IV, V & VI	Industrial town.
3. Trade and Commerce	VII	Commercial town.
4. Transport Storage & Communications	VIII	Transport town.
5. Other Services	IX	Service town.

If one sector did not absorb 40 per cent or more of the total working population of a town, the next predominant sector was taken into account so that both taken together comprised 60 per cent or more of the total working population. Such a town was designated as industrial-*Cum* commercial town or transport-*Cum* service town as warranted by the figures. If the total of 2 sectors did not account for 60 per cent of the working population the third predominant sector was taken into account and such town was designated as industrial *Cum* commercial *Cum* transport town and so on.

The functional classification of towns for 1971 Census has been done according to the methods indicated above for 1961 Census with the difference that industrial categories I, II, III and IV of 1971 have been grouped into the sector Agriculture and Allied activities and industrial categories V(a), V(b) and VI into the sector Industries including Construction.

Statement II

This statement gives the annual rainfall, temperature, nearest city and road distance from State Headquarters, District Headquarters, Sub-divisional Headquarters, Railway Station and Bus route for each town for the year 1969. It also shows if there is a navigable river/canal within 10 kilometres or sea port within 50 kilometres of the town.

The information in columns 6 to 13 is based on the report of the local officers. The sources of information presented in columns 3 to 5 are mentioned in the footnote to the statement.

The abbreviations used in this statement are explained below :

Column 12

R—River
C—Canal

Statement III

This statement gives information about the municipal finance for each statutory town for the year 1968-69. Figures under columns 3 to 16 of the statement indicate the amount in rupees. Information has been presented for statutory towns only. No entry has been made against statusless towns.

The information presented in this statement is based on the report of the local officers.

Statement IV

This statement gives information about the amenities existing in the towns for the year 1969. It shows the road length, system of sewerage, number of latrines, method of disposal of night soil, availability of protected water-supply, fire fighting services and number of electric connections for each town.

The information in this statement is based on the report of the local officers.

The following abbreviations have been used in the statement :

Column 3

P—*Pucca* Road
K.—*Katcha* Road

Column 4

OSD—*Pucca Nala, Katcha Nala,* Open Drain

Column 8

ST—Septic Tank Latrine
HL—Head load

Column 9

T—Tap water
Tw—Tube-well water
W—Well water

Statement V

This statement gives information about the medical, educational, recreational and cultural facilities available in the towns for the year 1969.

The information furnished in this statement is based on the report of the local officers.

The following abbreviations have been used :

Column 3

D—Dispensary
H—Hospital
HC—Health Centre
TBC—T. B. Clinic
NH—Nursing Home

Column 5

A—Arts only
AS—Arts and Science only

In columns 3 and 5 the figures within brackets after the abbreviations indicate the number relating to them. Thus H(4) and A(3) denote 4 hospitals and 3 Arts Colleges respectively. The figures in columns 4 and 6 to 17 indicate numbers.

Statement VI

This statement gives information about trade, commerce, industry, banking and credit societies for each town for the year 1969. Figures under columns 12 to 14 indicate numbers.

The information presented in this statement is based on the report of the local officers.

Statement VII

This statement gives the distribution of population according to religion and the population of Scheduled Castes and Scheduled Tribes for each town according to 1971 Census. Separate figures have been given for the followers of the six main religions, viz., Buddhist, Christian, Hindu, Jain, Muslim, Sikh and for those who have not returned to any religion. Followers of other religions have been shown collectively under 'Others'.

VILLAGE DIRECTORY

The Village Directory gives the list of villages arranged in the ascending order of thana numbers Development Blockwise. The names of Development Blocks have been printed on the top left hand corner of the heading pages and top right hand corner of the facing pages. It also gives for each inhabited village information about electrification, existence of communications and transport facilities (cols. 2 and 13), educational facilities (cols. 3-7), medical facilities (cols. 8-11), drinking water facilities (col. 12), name of staple food (col. 14), area under forest (col. 15), irrigated area (cols. 16-20), unirrigated area (col. 21), culturable waste (col. 22), area not available for cultivation (col. 23), nearest town (col. 24), market day (col. 25), copies of newspapers coming in the village, motor cycle, scooter, car, jeep and tractor available in the village (col. 26). For uninhabited villages information about area under forest (col. 15), irrigated area (cols. 16-20), unirrigated area (col. 21), culturable waste (col. 22) and area not available for cultivation (col. 23) has been presented. In column 2 the figure within brackets after the

name of village indicates the thana number of the village which also represents the location code number of the village. The name of the Revenue Thana has been printed in bold capital letters in column 2. The data presented in the Village Directory have been compiled from the *Mauzawar* Note prepared for every village at the time of Houselisting Operation undertaken in May-June, 1970 for the 1971 Census.

A village has the same meaning as a revenue *Mauza* which is defined as follows :

"A *Mauza* means a parcel of land which as a rule is partly built over but mostly cultivated and waste with a definite position and area, the boundaries of which were defined either at the time of the cadastral survey or at the time of the revenue survey. It may contain no houses at all or, on the other hand several hamlets each bearing a different name."

The following abbreviations have been used in the Table :

(*i*) *Column 2*

E—Electricity in the village
P—Post Office in the village
T—Post and Telegraph Office in the village
T—Telephone connection in the village

(*ii*) *Columns 3—7*

P—Primary School
M—Middle School
H—High/Higher Secondary School
C—College
O—Includes Sanskrit Pathshala, Senior Basic School, Junior Basic School, Teachers' Training School, Madersa, Makhtab, etc.

(*iii*) *Columns 8- 11*

H—Hospital including dispensary
F—Family Planning Centre and Maternity and Child Welfare Centre
C—Health Centre/Sub-Centre
O—Includes Ayurvedic, Homeopathic, Unani dispensaries, etc.

(*iv*) *Column 12*

T—Tap water
W—Well
Tw—Tube-well
Tk—Tank
R—River
O—Includes canal, fountain, etc.

(*v*) *Column 13*

P— *Pucca* Road
K— *Katcha* Road
T—Rail
R—River
C—Canal

(*vi*) *Column 14*

R—Rice
W—Wheat
M—Maize
O—Others

(*vii*) *Columns 16 -20*

W—Well
C—Canal
Tw—Tube-well
Tk—Tank
O—Others

(*viii*) *Column 25*

S—Sunday
M—Monday
T—Tuesday
W—Wednesday
Th—Thursday
F—Friday
St—Saturday

(*ix*) *Column 26*

N—Copies of newspaper coming in the village.

M—Motor cycle and Scooter available in the village.

C—Car and Jeep available in the village.

T—Tractor available in the village.

(*x*) N.A.—Information not available.

The figures under columns 3—11 indicate numbers. In columns 12 and 26 the figures after the abbreviations indicate the number relating to them. Where, however, the number of amenities was not reported by the Enumerator, abbreviation only has been given in columns 12 and 26. If a village was located within one mile of *Katcha* road or *Pucca* road or railway station it was treated as having *Katcha* road or *Pucca* road or connected by rail as the case may be and entry under column 13 has been made accordingly.

An abstract showing the number of amenities available and total number of villages having a particular type of amenity for each Development Block is given in the Appendix.

DISTRICT CENSUS HANDBOOK
PART B

VILLAGE AND TOWNWISE PRIMARY CENSUS ABSTRACT

EXPLANATORY NOTE

PRIMARY CENSUS ABSTRACT

Primary Census Abstract has been presented in two parts. The first part is the District Abstract of the Primary Census Abstract giving figures for the total, rural and urban areas of the District, Subdivisions, and Development Blocks and also for each town of the district. The other part is the Village/Urban Blockwise Primary Census Abstract which gives figures up to village level for rural areas and up to urban block level for urban areas. Primary Census Abstract gives area figures, number of occupied residential houses number of households, total population by sex, population by sex of Scheduled Castes and Scheduled Tribes, of literate and educated persons and of workers classified into the following nine industrial categories of workers, and the non-workers:

I	Cultivators
II	Agricultural Labourers
III	Livestock, Forestry, Fishing, Hunting and Plantations, Orchards and Allied activities
IV	Mining and Quarrying
V	Manufacturing, Processing, Servicing and Repairs:
	(a) Household Industry
	(b) Other than Household-Industry
VI	Construction
VII	Trade and Commerce
VIII	Transport, Storage and Communications
IX	Other Services

For uninhabited villages, however, the names, thana numbers and area figures have only been presented.

Rural/Urban classification

All Municipalities, Notified Areas and Cantonments were treated as towns irrespective of their population size, density of population or livelihood pattern.

Certain criteria were prescribed for treating other places as towns as it was done in 1961 Census. Places were to be treated as towns if—

(a) they had a population of 5,000 or more;

(b) density was not less than 400 persons per sq. km.; and

(c) at least three-fourths of the male working population was engaged in non-agricultural livelihood.

By and large these criteria were followed except in only a very few cases on account of their tourist interest or administrative importance or their having urban characteristics.

Mode of presentation

In the District Abstract of Primary Census Abstract the Development Blocks have been arranged in the ascending order of the Location Code numbers assigned to them within the district. Towns falling in a Development Block have been shown immediately following the entries for the total, rural and urban areas of the Development Block.

In the Village/Urban Blockwise Primary Census Abstract figures for a Development Block have been presented first followed by the figures for the villages falling in the Development Block. The villages in the Development Block have been arranged in ascending order of their thana numbers which also represent their Location Code numbers. The

thana numbers have been given within brackets after the name of the village in column 2. The name of the Revenue Thana has been given in bold capital letters in column 2.

After entries relating to all the villages of a Development Block have been exhausted the figures for each town with figures for its wards and urban blocks falling in the Development Block are given. The Development Blocks have been presented in the ascending order of Location Code numbers assigned to them within the district. Similarly, if a Development Block has more than one town, the towns have been arranged in ascending order of the Location Code numbers.

Area figures

The total area figure for the district given in column 4 represents geographical area figure supplied by the Surveyor General, India. The urban area figure for the district is based on the area figures of individual towns supplied by the local officers. The rural area of the district has been arrived at by subtracting urban area figure from the total geographical area figures supplied by the Surveyor General, India.

The rural area figures of units lower than the district do not add up to the area figure of the district because rural areas of units lower than the district have been computed from Thana Jurisdiction Lists maintained by the State Survey Office while rural area of the district has been derived by subtracting the urban area figure of the district as supplied by the local officers from the total area figure of the district as supplied by the Surveyor General, India.

The area figures of villages have been taken from the Thana Jurisdiction Lists maintained in the State Survey Office. Areas of villages are given in acres in the Thana Jurisdiction Lists. The area figures have been converted from acres to hectares in my office by applying the conversion factor 1 acre = 0.40468 hectare. The area figures of villages shown in column 3 are in hectares. The total area figure of a Development Block is the arithmetical total of the area figures of the villages.

Scheduled Castes and Scheduled Tribes

Under Articles 341(1) and 342(1) of the Constitution of India, the castes or tribes to be treated as Scheduled Castes or Scheduled Tribes for a particular State are specified by public notification by the President of India.

According to the Government of India, Ministry of Home Affairs' Notification no. SRO 2477A, dated the 29th October, 1956 the lists of Scheduled Castes and Scheduled Tribes for the State of Bihar are given below :

Scheduled Castes

(I) Throughout the State—

1. Bantar
2. Bauri
3. Bhogta
4. Chamar or Mochi
5. Chaupal
6. Dabgar
7. Dhobi
8. Dom or Dhangad
9. Dusadh, including Dhari or Dharhi
10. Ghasi
11. Halalkhor
12. Hari, Mehtar or Bhangi
13. Kanjar
14. Kurariar
15. Lalbegi
16. Musahar
17. Nat
18. Pan or Sawasi
19. Pasi
20. Rajwar
21. Turi

(II) In Patna and Tirhut Divisions, and the districts of Monghyr, Bhagalpur, Palamau and Purnea—Bhumij

(III) In Patna, Shahabad, Gaya and Palamau districts—Bhuiya

Scheduled Tribes

(I) Throughout the State—

1. Asur
2. Baiga
3. Banjara
4. Bathudi
5. Bedia
6. Binjhia
7. Birhor
8. Birjia
9. Chero
10. Chik Baraik

Concepts and definitions

Urban Block—For the purpose of field work the lowest Census Division is a Census Block in which an enumerator is required to do the work of census. In urban areas a Block normally has about 120 households or 600 persons with clear boundaries like roads, paths, drains, etc. No urban block cuts across any ward boundary.

Village—A village means the same thing as revenue *mauza* which has been defined as follows :

> "A *mauza* means a parcel of land which as a rule is partly built over but mostly cultivated and waste with a definite position and area, the boundaries of which were defined either at the time of the cadastral survey or at the time of the revenue survey. It may contain no houses at all or, on the other hand, several hamlets each bearing a different name."

Occupied residential house—"A 'Census house' is building or part of a building having a separate main entrance from the road or common courtyard or stair-case, etc., used or recognised as a separate unit. It may be inhabited or vacant. It may be used for a residential or non-residental purpose or both.

If a building has a number of flats or blocks which are independent of one another having separate entrances of their own from the road or a common stair-case or a common courtyard leading to a main gate, they will be one or more separate census houses. If within a large enclosed area there are separate buildings, then each such building will be one or more separate census house. If all the structures within an enclosed compound are together treated as one building then each structure with a separate entrance should be treated as a separate census house." 'Occupied residential houses' refer to only such houses as are not vacant and are used wholly or partly for dwelling purposes.

Household—"A household is a group of persons who commonly live together and would take their meals from a common kitchen unless the exigencies of work prevented any of them from doing so. There may be 'one-member household, two-member

household or multi-member household'. For census purposes each one of these types is regarded as a 'Household'. Again, there may be a household of persons related by blood or household of unrelated persons; the latter are Boarding Houses, Hostels, Residential Hotels, Orphanages, Rescue Homes, *Ashrams*, etc. These are called 'Institutional Households'."

Houseless population--Houseless population refers to that section of population which have no 'house' to live in such as pavement dwellers or beggars living in the open. 'Houseless households' are the household of houseless persons.

Literate—"A person who can both read and write with understanding in any language is to be taken as literate. A person who can merely read but cannot write is not a literate."

Worker—"A worker is a person whose main activity is participation in any economically productive work by his physical or mental activity. Work involves not only actual work but effective supervision and direction of work."

In case of regular work in trade, profession, service or business the reference period was one week prior to the date of enumeration. If a person had participated in any such regular work on any one of the days during the reference period he was treated as a worker. A person who normally worked but had been absent from work during the reference period on account of illness, or travel, holiday, temporary break down, strike, etc., was treated as a worker A person who was under training as an apprentice with or without stipend or wage was considered as a worker. There are certain types of works which are not carried on throughout the year such as cultivation, livestock keeping, plantation work, some types of household industry, etc. The reference period for such work was a year. Persons engaged in such types of work were treated as workers if they had participated in such work in the last one year even if they were not economically active in the week prior to enumeration.

The entire population can be divided into two broad categories workers and non-workers. A person who is not a worker is treated as a non-worker.

The following abbreviations have been used :

M --Municipality

N —Notified Area

Note : (1) Total Area figures given in column 4 against district represent 'Geographical area' figures supplied by the Surveyor General, India. The urban areas are based on the area figures of individual towns supplied by the local officers. The rural area for the district has been arrived at by subtracting the urban area from the 'Geographical area' supplied by the Surveyor General, India.

(2) The rural area figures of units lower than the District do not add up to the Area figure of the district because the rural areas of units lower than the district have been computed from the Thana Jurisdiction lists maintained by the State Survey Office while rural area of the District has been derived by subtracting the urban area of the District as supplied by the local officers from the total area of the District as supplied by the Surveyor General, India.

(3) Towns treated as such for the first time in 1961 which continue as towns in 1971 Census are shown with asterisk (*) mark on their left.

(4) Roman numerals within brackets after the names of the towns indicate their location code numbers.

(5) The following abbreviations have been used for the status of towns:
M—Municipality.
N—Notified Area.

(6) Towns treated as such for the first time in 1971 are printed in *italics*.
