PREFACE

Religion data based on the 1991 Census for the country and states was published some time back in Paper 1 of 1995. This book is a companion volume to Paper 1 of 1995 in that it contains the religion data for the lower units like districts, urban agglomerations and cities with population of one lakh and above. The data at town and tehsil levels will be available in the state or union territory volumes which are being brought out by the respective Census Directorates.

2. The finalisation of the data contained in this volume was done under the able direction of my predecessor, Shri A.R.Nanda. The Directors of Census Operations of the States and Union Territories and their officers and staff processed the huge volume of household schedules manually and tabulated the data.

3. The arduous task of checking the figures, compilation of the table and preparation of notes in this office was accomplished well by the Census Division under the overall guidance of Shri S.P.Sharma, Deputy Registrar General (Census and Tabulation) ably assisted by Shri A.K.Singh, Deputy Director of Census Operations and other colleagues. The names of the officials who helped in the scrutiny and compilation of the religion data are given separately. The initial work of scrutiny of the names of the religions was done under the supervision of Dr. M.K. Jain, Deputy Registrar General (Social Studies) assisted by Shri C.Chakravorty, Deputy Director of Census Operations and Smt. R. Sabharwal, Assistant Director of Census Operations in the Social Studies Division.

4. I hope this publication will be useful to sociologists, demographers, administrators, planners, research scholars and other data users.

INTRODUCTORY NOTE

INTRODUCTORY NOTE

Religion is one of the basic cultural characteristics of the population . In a secular state like India several religions have thrived from time immemorial and every decennial census provides an interesting picture of the religious persuasions of the people. The data on religion yielded by the census are of great interest to the anthropologists, sociologists, demographers, administrators, planners and also layman.

Religion data of 1991 Census for the country and states have already been released through paper 1 of 1995. In this paper, data on distribution of population by religion and sex and rural and urban separately for the country and states have been presented. The present publication contains the same data for the lower units like districts, urban agglomerations and cities which have a population of one lakh and above. Data at town and tehsil levels are presented in State or Union Territory volumes which are being brought out by the Census Directorates.

In the 1991 Census, in question number 8 of the Individual Slip, the religion of the person enumerated was recorded as returned. The instructions to the enumerators for filling up question 8 on religion are given below:

"In answering this question, use the following abbreviations :

H for Hindus
M for Muslims
C for Christians
S for Sikhs
B for Buddhists
J for Jains

For others, record the actual religion as returned fully. If the person says that he has no religion the answer may be recorded accordingly. Do not mistake religion for caste which will not be recorded here. You should also not try to establish any relationship between religion and mother tongue. Do not write anything in the dotted boxes, but write on the line".

The enumerators were also instructed to copy the returns regarding religion of an individual from question 8 of Individual Slip to column 9 of Household Schedule. The instructions in this regard were as follows:

"For the person entered in column 2 of the Household Schedule, check if H, M, C, S, B and J or actual religion returned by the person has been recorded in question 8 of the Individual Slip. If so, copy the same in column 9 of the Household Schedule".

Editing of the returns obtained through question 8 of the Individual Slip and editing and matching of the entry in column 9 of the Household Schedule was done in the 163 Regional Tabulation Offices established all over the country to manually process and compile the census data. The editing and matching instructions for question 8 of Individual Slip (Religion) are reproduced below:

"Question 8 Religion

Match the entry in column 9 of the Household schedule for each member of the household with the corresponding entry against question 8 of the Individual Slip. Please note that this check will be made for all types of households whether normal or institutional or houseless. If these are not the same for any member of the household, correct the entry in column 9 of the Household Schedule on the basis of entry in question 8 of the Individual Slip. If the entry in either the Individual Slip or the Household Schedule is missing for any member of the household copy the entry from the schedule in which it has been written into the schedule in which it has been missed. If by chance the entry is blank in both the Individual Slip and the Household Schedule for any member of the household, look into the entries of religion in respect of other related members of the household and write religion indicated therein in both the schedules".

The religion-wise data was compiled from household schedules in Regional Tabulation Offices. Main religions viz. Hindus, Muslims, Christians, Sikhs, Buddhists and Jains have been presented in this table in the order of numerical strength at all-India level for the sake of convenience even if within a particular state/ union territory/ district the numerical order of religions may not be same as at all-India level.

This table corresponds to table C-VII-Religion of 1961 and 1971 and table HH-15 of 1981. The only difference is that the figures of religion for 1961, 1971 and 1991 are based on the religion of the Individual whereas the figures presented in 1981 were based on religion of head of the household. The abbreviations used for the civic status of the towns are given on the next page.

C-9 RELIGION

Note on Religion Table

The C-9 religion table gives data for persons, males and females separately for each of the six major religious communities, viz. Hindus, Muslims, Christians, Sikhs, Buddhists and Jains and the combined figures for "Other religions and persuasions" and "religion not stated" by total, rural and urban for India, states/union territories, districts, urban agglomerations and cities having one lakh and above population. This table is followed by three appendices and an annexure. The figures of other religions have been grouped together in the column "other religions and persuasions". Details of other religions and persuasions, the strength of which at the country level is 100 and above each, appear in Appendix A accompanying the table. In case of each of the remaining faiths the strength of which is less than 100 the total population of each state/union territory/ district is given in Appendix B. The Appendix C gives the data for those urban agglomerations which are spread over two or more districts. The annexure which is followed by this appendix gives the details of sects, beliefs or religions clubbed with another religion which is shown at the head of the table in block letters.
