

CENSUS OF INDIA 1991

SERIES-25

UTTAR PRADESH

PAPER-1 of 1991
Supplement

PROVISIONAL POPULATION TOTALS

VIJENDER PAUL
Director of Census Operations Uttar Pradesh

Salient features of Supplement to Paper-1 of 1991

1. Overall growth of population of Uttar Pradesh declined by 0.08 per cent points in the decade 1981-91 as compared to previous decade(1971-81).

2. Proportion of urban population in Uttar Pradesh increased by 1.94 per cent points in decade 1981-91 as compared to previous decade(1971-81).

3. Growth of urban population in Uttar Pradesh (38.97 per cent) is higher than India(35.97 per cent) and Maharashtra(38.66 per cent), the highest contributor to the urban population of the country.

4. Sex ratio in urban areas of Uttar Pradesh improved by 16 points during the decade 1981-91.

5. Proportion of workers engaged in Household Industry (4.38 per cent) is higher than India(3.63 per cent).

6. Proportion of Cultivators at the 1991 Census in Uttar Pradesh declined as compared to 1981 Census while the proportion of Agricultural Labourers, Household Industry workers and Other Workers has gone up.

7. Proportion of marginal workers in Uttar Pradesh has gone up by 1.04 per cent points as against merely 0.2 per cent points at India level. Thus rise is more than five times as compared to India.

8. Proportion of urban male Marginal Workers in Uttar Pradesh in 1991 Census has doubled while it is constant at India level.

9. Rural female workers in Uttar Pradesh have registered highest growth(98.39 per cent) among all the states during the decade(1981-91).

10. Urban data, sex ratio, working population, density etc., are being presented by five Economic Regions of Uttar Pradesh.

Foreword

Paper-1 of 1991 giving provisional population totals was released on April 04, 1991 for the State of Uttar Pradesh. It contained basic information relating to population for the State , districts and towns having more than one lakh population . These were, total population, number of literates by sex and density of population. Now, with the availability of Charge Abstracts, further details on the following items have been worked out :

i) Rural and urban break-up of population;
ii) Population of all the towns;
iii) Main workers and their distribution by broad Industrial Categories, viz., Cultivators, Agricultural Labourers, Household Industry workers and Other workers.

According to 1991 Census, population of Uttar Pradesh is placed at 139 million as against 844 million for India and 5283 million estimated by United Nations for the world as a whole.

Uttar Pradesh, the biggest state of the country lies at the 6th place in the world in terms of population after China, U.S.S.R.(erstwhile), United States, Indonesia and Brazil leaving India. Uttar Pradesh accounts for 2.63 per cent of world's total population.In other words, on an average every 38th person of the world belongs to Uttar Pradesh.

The National Council of Applied Economic Research (NCAER) conducted a Techno-Economic Survey in 1960 wherein it divided Uttar Pradesh in five Economic Regions. This division was utilised by government of Uttar Pradesh for planning purposes and budgetary allocation. Keeping in view importance of regional analysis, an attempt has been made to present in this volume some of the demographic profiles of Uttar Pradesh by these five Economic Regions. This presentation may be helpful for Administrators and Policy Makers in studying regional imbalances across these five Economic Regions in demographic terms.

I hope these details would be useful for researchers and other data users till final figures upto village/ward levels are published. As already mentioned, these figures have been compiled from Charge Abstracts received directly in Regional Tabulation Offices from the Charges. As such, figures in this publication are likely to vary in some cases from those final totals that would be arrived at after scrutiny and processing of Census Schedules in Regional Tabulation Offices. There are some

compared to those published in Paper-1 because those figures were based on the quick information transmitted by District/Charge Officers.

It would not be out of place to mention here some of the important departures in framing questions and conceptional aspects adopted at the 1991 Census as against 1981 Census. Some of these are :-

i) Age limit for considering a person illiterate has been raised from 4 in 1981 to 6 years in 1991. It was done at the instance of Department of Education in the Ministry of Human Resource Development and the Planning Commission as the ability to read and write with understanding is not generally achieved until a child attains the age of 7 or more.

ii) It was felt that many persons, especially, women and children engaged in farm or family enterprise were not taken as workers. For that matter with a view to netting such persons as workers, a line "including unpaid worker on farm or in family enterprise" was incorporated in the individual slip itself in question no. 14A.

iii) Information relating to job seekers which was collected for both marginal workers and non-workers at the 1981 Census has now been collected only for non-workers.

iv) Two more reasons for migration, viz., business and natural calamity were added to the list of reasons for migration.

v) Information regarding ex-army personnel was collected for the first time.

Uttar Pradesh is one of the few States where population of urban agglomerations/towns common in 1981 and 1991 Censuses has grown faster during the decade as compared to previous decade. In all size classes of U.As./Towns (except class III), growth rate is in the range of 32 to 39 per cent while the population of Class III urban agglomerations/towns of 1981 has increased at a faster rate than Class I and Class II urban agglomerations/towns. A similar trend was witnessed during the decade 1971-81 also. There has, however, been a sharp fall in the growth rate of Class VI towns of 1981.

Usually, economic activities rendered by females were not netted properly in previous Censuses owing to ignorance and laxity in asking probing questions on the part of the enumerators and also due to ignorance of respondents themselves who normally do not want to disclose this kind of information unless asked repeatedly. Apart from this, women and children are left out because of gender bias and also due to cultural, social and historical reasons.

This point was emphasized during training classes to enumerators/supervisors and thereafter during the publicity campaigns launched for the Census work through Video Vans, posters and hand bills etc. The United Nations Development Fund for Women (UNIFEM) posters showing female economic activities were displayed and distributed freely . These efforts have paid dividends as is evident from the fact that highest growth rate (98.39 per cent) has been recorded for female workers including marginal workers in the rural areas during decade 1981-91 in Uttar Pradesh as compared to other states. The absolute increase in their number during the decade has been 3,819,481.

I am grateful to entire field hierarchy right from the level of District Magistrates and Mukhya Nagar Adhikaris down to enumerators who did commendable job by executing Census Operations in the most populous state of the country with great patience and dedication. My Regional Deputy/Assistant Directors and their subordinate staff coordinated well with field hierarchy and monitored progress of work very efficiently. They all deserve my appreciation.

I owe a deep sense of gratitude to Shri A.R.Nanda, Registrar General and Census Commissioner, India, for his valuable guidance and suggestions from time to time.

Vijender Paul
Director
Census Operations, U.P.

Introductory Note

1. The State of Uttar Pradesh has now 63 districts as against 56 at the 1981 Census. Kanpur Nagar, Hardwar, Firozabad, Mahrajganj, Siddharthnagar, Mau and Sonbhadra are the seven new districts created after 1981 Census. Similarly, 52 new tahsils and 42 towns were also created during the decade 1981-1991. Consequent upon creation of new districts, tahsils, towns and Community Development (C.D.) Blocks also, jurisdictions of 20 districts, 79 Tahsils and 68 Community Development Blocks have been affected. Details about these newly created administrative units are presented in Appendix-1.

2. As already mentioned, an attempt has been made to provide information, wherever found feasible, by five economic regions of Uttar Pradesh - viz., Hill, Western, Central, Bundelkhand and Eastern. Appendix-4 provides a list of districts falling in each region.

Rural & Urban Configuration of Population

3. It is customary to present rural and urban components of the population separately for each administrative unit. However, there is no uniform definition of rural and urban areas throughout the world. Urban nomenclature, in fact, depends upon various factors, such as, developmental level, economic, social, political and cultural situations prevailing in the country. Taking into consideration all these factors, following criteria were evolved for treating a place as "urban" at the 1981 Census which have been adopted as such for 1991 Census as well:-

(a) All places with a Municipality, Corporation, Cantonment Board or Notified/Town Area Committee etc.

(b) All other places which satisfied following criteria;

(i) A minimum of population of 5,000;

(ii) Atleast 75% of male working population engaged in non-agricultural pursuits; and

(iii) A density of population of atleast 400 per sq.km. (1,000 per sq.mile).

4. In working out proportion of male working population engaged in non-agricultural pursuits/occupations, such as, fishing, livestock, hunting, logging, plantation and orchards etc. falling under industrial category-III were treated as non-agricultural pursuits at the 1961 and 1971 Censuses but for 1981 Census, these occupations were taken as allied agricultural activities for testing the criteria

described at b(ii). The criteria adopted for the 1981 Census have been adopted for 1991 Census also. All those places which qualified under (b) are called Census Towns (CT) because they do not have any status of local body, such as M.C., M.B., Cantt., N.A. and T.A. constituted through statutory notifications.

5. There are so many Town Areas in the State which do not fulfil the conditions laid down under (b) but because of being covered under statutory declaration, they have been taken as urban areas. The number of towns which was 325 in the State in 1971 went up to 704 in 1981 and 753 in 1991. The abrupt rise in number of towns at the 1981 Census was mainly due to the inclusion of all T.As. in the urban frame. The number of different categories of towns in 1971, 1981 and 1991 Censuses is given in Statement-I.

Statement - I

Distribution of Towns by Local status

Census	M.C.	M.B.	Cantt.	N.A.	T.A.	C.T.	Total
1	2	3	4	5	6	7	8
1971	5	150	22	41	83	24	325
1981	5	187	22	47	417	26	704
1991	8	229	22	33	418	43	753

6. In Census, a town having one lakh and above population is called "City". Their number at 1981 Census was 30 which has gone up to 42 at the 1991 Census.

7. Interestingly, NOIDA industrial complex of Ghaziabad district coming up in the vicinity of National Capital is also in this category but it has not yet attained status of statutory town through State government Notification. However, it has been notified by the Department of Industries, Uttar Pradesh.

8. It is worthwhile to mention here that proportion of urban population of Uttar Pradesh should have been more by atleast 5 per cent points had the urban areas under the jurisdiction of 12 Development Authorities, 7 Special Area Development Authorities and 63 Prescribed Authorities established under the U.P. Urban Planning and Development Act, 1973, U.P. Special Areas Development Authorities Act, 1986 and U.P. Regulation of Building Operations Act, 1958 were also taken into account.

9. Every prescribed/development authority has a core town in its jurisdiction which is invariably a Nagar Palika or City Board. This core town is surrounded by a number of villages which are included in the notification issued by the Prescribed Authority or Development Authority. Thus, the Prescribed/Development Authority concept is almost similar to the concept of Standard Urban Area (S.U.A.) in Census.

10. We may take up the case of NOIDA being urbanised for industrial, commercial and residential purposes under the U.P. Act No.6 of 1B76 called U.P. Industrial Area Development Act, 1976. NOIDA has of course been categorised as Census Town and included in the urban frame. The U.P. Government has again notified the greater NOIDA Industrial Authority under the Act of 76 vide notification No.7436/HE/18-11-107-H/85 dated 28.01.1991 which now includes several villages of Bulandshahr and Ghaziabad districts but these have not been included in the urban frame. There are similar cases with the other development authorities indicated in para 8.

11. The urban frame should be finalised in consultation with Chief Town & Country Planner, U.P., Lucknow and Urban Development Department, Lucknow instead of consulting only the District Magistrates for this purpose. This will ensure correct depiction of Urban bodies of the State unlike at present where omission noted in para 8 above have occurred.

Urban Agglomeration (U.A.)

12. The concept of Urban Agglomeration (U.A.) was introduced for the first time at the 1971 Census which was adopted as such for 1981 Census and now for 1991 Census as well. As per definition, "an urban agglomeration is the continuous urban spread constituting a town and its adjoining urban outgrowths (OGs) or two or more physically contiguous towns together with continuous well recognised urban outgrowths, if any, of such towns". This was considered an improvement on the Town Group concept of 1961 under which 'urban spread' was not necessarily to be continuous.

13. In India, it is the common scene that some fairly large and well recognised settlements, like residential colonies, camps or shopping complex etc. come up quite close to the periphery of a statutory town which are not in fact within its municipal limits and yet these areas enjoy almost all amenities available to the core town. These adjoining areas/settlements may not fulfil criteria laid down for census Town but if they form a continuous spread with the adjoining town, it would be realistic to treat these settlements as urban outgrowths (OGs.) which may be an entire village/part of a village. Similarly, two or more towns situated contiguous to one another can also be included in a U.A. The requirements for an urban agglomeration follows:

(a) A city or, town with contiguous growth(s), the growth being outside the statutory limits but falling within the boundaries of adjoining village or villages; or

(b) Two or more adjoining towns with their outgrowth(s) as in (a); or

(c) A city with one or more adjoining towns with their urban outgrowths all of which form a continuous spread.

14. An urban agglomeration with more than one lakh population is, however, called a City Urban Agglomeration while those having less than one lakh population are known as Town U.As. Based on above concepts and definitions, list of towns and urban agglomerations was finalized for the State, albeit para 8 & 9.

15. Besides obtaining list of statutory towns, demographic profiles in respect of 1435 villages having 4,000 or more population in 1981 were tested in accordance with the instructions given by the Registrar General, India. Of these 43 villages fulfilled requirements of a Census Town. A districtwise list of new towns (including Census Towns) is given in statement-2.

Statement - 2

New Towns After 1981 Census

Name of Town	Status of Town	Name of District
1	2	3
1. Gangotri	N.A.	Uttarkashi
2. Adhoiwala	C.T.	Dehradun
3. Forest Research Institute & College Area	C.T.	Dehradun
4. Rishikesh	C.T.	Dehradun

53. Iltifatganj Bazar	T.A.	Faizabad
54. Kadipur	T.A.	Sultanpur
55. Musafirkhana	T.A.	Sultanpur
56. Mahrajganj	M.B.	Mahrajganj
57. Ghughli	T.A.	Mahrajganj
58. Harraiya	T.A.	Basti
59. Bansgaon	T.A.	Gorakhpur
60. Khadda	T.A.	Deoria
61. Kurthi Jafarpur	C.T.	Mau
62. Sheodaspur	C.T.	Varanasi

Note:

1. List includes new Census Towns of 1991 apart from newly created towns through State Government Notifications.

2. Forty two new statutory towns included in the list are inclusive of six towns viz., Gajraula T.A. Dasna T.A., Faridpur T.A., Jahanabad T.A., Ashrafpur Kichhauchha T.A. and Bansgaon T.A. which were notified urban units in earlier Censuses but consequent upon their denotification later on they ceased to be towns. However, at the 1991 Census these have been notified once again as urban units.

16. As already said, a city or town with a continuous outgrowth would have formed an urban agglomeration. For this, as per the instructions of Registrar General, India certain conditions were to be looked into.

17. There were some instances in the past when some parts of villages, though not contiguous to the city/town, were included in urban agglomeration on the ground that in a few years the area would become contiguous. This was not correct as the intention in delineating the urban agglomeration was to take into account the present urban spread only. If there was some uninhabited area between an urbanised village and the statutory limit of a town, the village should have not been treated as an urban outgrowth to constitute an urban agglomeration with the town as they would not form a contiguous spread with the town on account of intervening uninhabited area. The outgrowth should have been a viable unit, such as a village or a hamlet or an enumeration block fully identifiable in relation to its boundaries and location. While framing the urban agglomeration with its constituent units, including outgrowths, care was to be taken to see that an enumeration block did not cut across the boundaries of a town and its outgrowth. Above all, while determining urban outgrowth of town, it was to be ensured that proposed outgrowth(s) possessed requisite urban features in terms of infrastructure, i.e., the characteristics and amenities.

18. The urban agglomeration was to be finalised on the above lines, prescribed by Registrar General, India with further instructions that a notional map of each of the proposed urban agglomeration with its constituent units be prepared and sent to Registrar General, India for its scrutiny and approval.

19. Accordingly, a circular was sent to all the District Magistrates of State requesting them to send their proposals for urban agglomeration(s) on the lines of the instructions in consultations with the authorities of local bodies and other subordinate district authorities concerned. The District Magistrates were also requested to have on-the-spot checking, should the need arise. Alongwith their proposals, a notional map was also requested to be sent to facilitate scrutiny of the proposal.

20. After receiving proposals regarding formation of urban agglomeration from the districts, such proposals were scrutinised in the Census Directorate. In each case, a team of officers from the Directorate was sent to the concerned district for on-the-spot inspection and checking in collaboration with the district authorities. Thereafter, final shape was given to each and every proposal of the urban agglomeration. However, these final proposals were sent to Registrar General, India for scrutiny and approval and only after obtaining approval from the Registrar General, India, urban agglomerations were adopted in urban frame of the State for 1991 Census.

21. Rest of the area, which was not treated as urban in every district, was taken as rural. In rural areas, basic unit is a revenue village, the boundary of which is normally well-defined. However, there are certain cadastically unsurveyed areas/

villages in forest/hill areas which do not have clear and well-defined boundaries. In such cases, locally recognised natural boundaries were adopted. In a reserve forest area, which is not part of any revenue village, Forest Officer's range was taken as one forest village. A list of such villages alongwith their mauzas was obtained from district administration and it was then reconciled with 1981 list, taking into account jurisdictional changes that occured after 1981 Census.

Urban Units in Uttar Pradesh

22. There were, in all, 753 urban units in Uttar Pradesh as against 704 at the time of 1981 Census. During last decade (1981-91) 2 urban units were denotified through State Government notifications and 3 Census Towns of 1981 were declassified as they did not fulfil the requirements of being treated as urban units. Forty two urban units were created in the State during the decade through State Government notifications and 20 new Census Towns were added. Apart from this, eight urban units (including one Census Town) were merged in the municipal limits of various towns. Thus, net addition to urban units of 1981 was 49 leading to final tally of 753 urban units. Out of 753 urban units, 8 are Municipal Corporations (M.Cs.), 229 Municipal Boards (M.Bs.), 22 Cantonment Boards (C.Bs.), 33 Notified Areas (N.As.), 419 Town Areas (T.As.) and 43 Census Towns (C.Ts.). Considering urban agglomeration (U.A.) as a single unit, total number of urban units classified into six population groups for 1981 and 1991 is presented in Statement-3.

Statement - 3

Distribution of Town by Class and Econimic Region

Size-class of U.A./ Town		Uttar Pradesh		ECONOMIC REGION									
				Hill		Western		Central		Bundel-khand		Eastern	
		1991	1981	91	81	91	81	91	81	91	81	91	81
1		2	3	4	5	6	7	8	9	10	11	12	13

5,000 to 9,999	V	210	230	15	10	78	90	38	37	21	23	58	70
less than 5,000	VI	40	81	23	25	10	28	4	12	-	2	3	14
Total		702	659	65	55	320	298	99	95	51	50	167	161

23. Statement-3 shows a decline in number of towns in Class V and VI in 1991 from 1981.

National Capital Region

24. Of late, attempts have been made to reduce congestion in Delhi and to arrest its rapid population growth. The concept

of National Capital Region has been developed, keeping in view the interdependence among the various interlocking regions of metropolitan area of the extended metropolis.

25. The National Capital region extends over an area of about 30,000 sq. kms. and covers as per 1991 administrative set up, parts of the States of Haryana, Rajasthan, Uttar Pradesh and entire Union Territory of Delhi. The Uttar Pradesh part of the National capital Region includes some parts of Meerut, Ghaziabad and Bulandshahr districts.

26. . Distribution of towns forming the part of the National Capital Region, falling in Uttar Pradesh, by size class has been presented in Statement-4.

Statement - 4

Distribution of towns in Uttar Pradesh by size-class in N.C.R.

District	Size - class						
	I-VI	I	II	III	IV	V	VI
1	2	3	4	5	6	7	8
Meerut	23	1	3	3	13	3	-
Ghaziabad	24	4	1	6	7	5	1
Bulandshahr	22	1	2	6	7	6	-
Uttar Pradesh	69	6	6	15	27	14	1

27. Out of total of 138 towns in the National Capital Region, 69 fall in Uttar Pradesh. Among the towns of Uttar Pradesh falling in National Capital Region (N.C.R.), Meerut Nagar Mahapalika is the largest and Babugarh T.A. in Gaziabad district is the smallest by the population size.

28. As per 1991 Census, population of N.C.R. is 26.08 million of which share of Uttar Pradesh is 9.01 million (34.55 per cent). The growth rate of Uttar Pradesh sub-region in N.C.R. comes to be 29.32 per cent during the decade 1981-91 which is below the urban growth rate of Uttar Pradesh (38.97 per cent) during the same period.

29. Population and growth rate of class I and II towns of Uttar Pradesh falling in N.C.R. have been presented in Statement-5.

Statement - 5

Population and growth rate of Class I & II towns of U.P. in N.C.R.

Cities/Towns		District	Population	Decadal growth rate	
				1971-81	1981-91
1		2	3	4	5
1. Meerut	M.C.	Meerut	752078	50.76	67.58
2. Meerut	Cantt.	Meerut	94876	10.30	0.71

11. Khurja	M.B.	Bulandshahr	80384	33.58	19.76
12. Sikandrabad	M.B.	Bulandshahr	61035	34.67	41.50

30. It may be observed from statement that growth of 11 towns in N.C.R. varies from 69.63 per cent in Ghaziabad M.B. to 0.71 in Meerut Cantt. Noida C.T. is a new town in 1991 Census.

Main Workers, Marginal Workers and Non-workers

31. In Census, a person is classified as worker or non-worker taking into account time spent by him/her in participation of any economically productive activity. Such participation may be physical or mental in nature. Work involves not only actual work but also effective supervision and direction. Prior to 1981 Census, classification of population was done into two categories, viz., workers and non-workers but afterwards with the redesigning of economic questions at the 1981 Census in Individual Slip, three-fold classification of population into main workers, marginal workers and non-workers was possible.

32. Concept and definition of work has been changing from time to time according to the requirement of data and prevailing conditions. Till 1951 Census, economic data were collected on income and dependency concept. From 1961 Census onwards the concept of work measured in terms of time or the labour force concept was adopted. The concept of work for collection of economic data was evolved for the first time in 1961 Census. The population was divided into two classes, viz., workers and non-workers. A person was considered worker if he/she had been in employment or doing work in some seasonal activity for 15 days preceding the day on which he/she enumerated. In 1971 Census the reference period for considering a person as worker was the week prior to the day of enumeration

and concept of main activity was introduced. At this Census every person was asked how did he/she engage himself/herself mostly. Thus, mainly due to changing reference period and introduction of main activity concept at the 1971 Census, the data collected during 1961 and 1971 Censuses were not comparable. Hence, at the 1981 Census while formulating the economic question there were detailed discussions at the Data Users Conference and Meetings of the Technical groups. It was considered desirable to obtain in the 1981 Census a detailed profile of the working characteristics of the population without looking much comparability with 1961 and 1971 results. Keeping in view these facts into consideration a set of economic questions was designed in such a way that figures comparable to both 1961 and 1971 could be obtained. Accordingly at the 1981 Census, a person was considered as worker if he/she had worked for even a single day during the last year or season preceding the enumeration.

33. If a person had worked for more than six months (183 days), he/she was treated as main worker while those who worked for less than six months were treated as marginal worker. While finalizing economic questions for 1991 Census, it was decided to adopt long-term reference period of one year for both seasonal and regular activities as was done at the 1981 Census. Special emphasis was given for netting the work done by women and children engaged in unpaid work in farm or in family enterprise. Accordingly, in the first economic question (14-A) itself a line (including unpaid work in farm or in family enterprise) was incorporated. Apart from this, it was decided to canvass question on seeking/available for work only among non-workers. Question 16-A and 16-B were designed in such a way that not only job seekers coming for the first time into the labour force but also those who did work prior to reference period are netted, incorporated. Apart from this, it was decided to canvass question on seeking/available for work only among non-workers. Questions 16-A and 16-B were designed in such a way that not only job seekers coming for the first time into the labour force but also those who did work prior to reference period are netted.

34. The economic questions which were finally adopted for the 1991 Census are as follows:

14-A Did you work any time at all last year?
(including unpaid work on farm or in family enterprise)

Yes
No (H/ST/D/R/B/I/O)

14-B If 'yes' in 14-A, did you work for major part of last year? Yes (1) / No (2)

15-A Main activity last year?

'Yes' in 14-B (C/AL/HHI/OW)
'No' in 14-B(H/ST/D/R/B/I/O)

If HHI/OW in 15-A

i) Name of establishment
ii) Nature of Industry, trade or service
iii) Description of work
iv) Class of worker

15-B 'Yes' in 14-B Any other work any time last year?
'No' in 14-B Work done any time last year?

Yes (C/AL/HHI/OW) No

(C/AL/HHI/OW)

If HHI/OW in 15-B

i) Name of establishment
ii) Nature of Industry, trade or service
iii) Description of work
iv) Class of worker

16-A If 'No' in 14-A, seeking/available for work?

Yes (1) / No (2)

16-B If 'Yes' in 16-A, have you ever worked before?

Yes (1) / No (2)

35. As desired above, now three way classification of population into main workers, marginal workers and non-workers is possible. This is done on the basis of time spent by the respondents in performing economic activities. The criteria of engagement during major part of the year, i.e., six months or 183 days or more evolved at 1981 Census was adopted for 1991 also. Those who worked for less than six months during preceding year were considered as marginal workers. Thus, in Census, for considering one as main worker, marginal worker or non-worker, time spent by him/her in doing economic activity or otherwise is taken into account. The work has been defined as participation in any economically productive activity which may be physical or mental involving both actual work and effective supervision and direction.

36. Main workers have been classified into four broad industrial categories, viz., cultivators, agricultural labourers, household industry workers and other workers. Further classification of other workers will be possible when Primary Census Abstract is finalized. Thus, for 1991 Census, number of workers engaged in all the nine industrial categories would be available after Primary Census Abstract is ready. However, in the present paper, details in respect of only four broad industrial categories of workers have been presented.

37. The definition of workers engaged in each of the four broad industrial categories is as follows:

Cultivators

38. For purpose of Census, a person is working as cultivator if he or she is engaged either as employer, single worker of family worker in cultivation of land owned or held from government, private persons or institutions for payment in money kind or share. Cultivation includes supervision or direction of cultivation as well. Share croppers are also taken as cultivators.

Agricultural Labourer

39. A person who works on another person's land for wages in money, kind or share is regarded as an agricultural labourer. He or she has no risk in the cultivation but he/she merely works on another person's land for wages. An agricultural labourer has no right of lease or contract on land on which he/she works.

40. However, one was classified as a cultivator or agricultural labourer only when he/she was engaged in the growing of following crops.

1. Cereal and millet crops
1. Pulses
2. Fibre crops
4. Oil seeds
5. Cash crops, sugar-cane

41. The growing of plantation, orchards, flowers, vegetables, medicinal plants and spices cropss etc. was not considered as cultivation in Indian Census 1991. These are shown in "other category".

Household Industry

42. Household Industry is defined as an industry conducted by the head of the household himself/herself and/or by the members of the household at home or within the village in the case of rural areas and only within precincts of the house where the household lives in urban areas. The larger proportion of workers in household industry should consist of members of the household including the head. Besides this, the industry should not be run on the scale of a registered factory which would qualify or has to be registered under the Indian Factories Act. So far as economic activity being done in a household industry is concerned, it should relate to manufacturing, processing, servicing, repairing or making and selling (but not merely selling) of goods.

Other Workers

43. All workers, i.e. those who have been engaged in

some economic activity during the last one year and who are not cultivators or agricultural labourers or workers in household industry are other workers. Those covered under the category of other workers would broadly include factory workers, plantation workers, those in trade, commerce, business, transport, mining, construction, political or social workers, all government servants etc. Thus, all those workers who are not cultivators or agricultural labourers or engaged in household industry, are other workers.

Analysis Of Data

1. Uttar Pradesh, the biggest State of the country in terms of population, has recorded a population of 139,031,130 persons comprising 73,898,286 males and 65,132,844 females at the sun-rise of March 1, 1991, of them, 111,377,720 were living in rural areas and 27,653,410 in urban areas. Thus, proportion of urban population observed at the 1991 Census for the State was 19.89 per cent as against 17.95 per cent at the 1981 Census. In other words, 80.11 per cent of population in the State still lives in rural areas as against 82.05 per cent at the 1981 Census. As such, urbanisation in the State during the course of last ten years(1981-91) has been very insignificant.

2. Allahabad district with a population of 4,927,123 persons is the biggest district of the state followed by Varanasi (4,839,752), Deoria(4,435,122), Moradabad(4,104,266) and Gonda(3,574,214). Uttarkashi with a population of 237,772 is, however, the smallest district of the State.

Rural Urban Composition

3. The rural-urban distribution of population of a country indicates its pace of economic development and industrialization. For developing countries, this distribution is one of the important indicators for judging the level of economic development. It is a well known fact that other things remaining same, higher is the proportion of urban popultion, higher would be the level of economic development.

4. Based on the criteria adopted in 1991 census as described in the introductory portion of the report, rural-urban composition of population for the state has been presented in this volume alongwith other demographic and economic aspects of population.

Urban Units in Uttar Pradesh

5. There were 753 towns in 1991 Census in the state as compared to 704 at the time of 1981 Census. The number of statutory towns, which were 678 at the 1981 Census, has now gone upto 710. Similarly, the number of Census Towns(C.T.) has increased to 43 from 26 in 1981 Census. After 1981 Census, five towns,viz., Bhatwari T.A. (Uttarkashi), Mazara C.T.(Dehradun),Datauji C.T.(Agra), Itai Rampur C.T.(Gonda) and Gahmar T.A. (Ghazipur) were declassified/denotified from the urban frame for 1991 Census. Furthermore, eight towns(including I.I.T., Kanpur) were fully merged with other towns through statutory notifications issued by the state Government during the period 1981-91. I.I.T., Kanpur was merged in Kanpur M.C. prior to 1981 Census but this change could not be affected at that time. Thus there has been

a net addition of 32 statutory towns and 17 census towns in the urban frame after 1981 Census. The number of statutory and census towns at the 1981 and 1991 Censuses in each district is presented in statement-6 and details in respect of declassified/denotified and merged towns is presented in statement-7.

STATEMENT -6

Distribution of Statutory and Census Towns by Districts, 1981 and 1991

State/ Districts	Number of towns					
	1981			1991		
	Statutory towns	Census towns	Total	Statutory towns	Census towns	Total

STATEMENT-7

Towns of 1981 denotified/declassified in 1991 and Towns of 1981 merged with other Towns in 1991

Name of Town	Name of District	Population in 1981	Name of town with which merged
1	2	3	4
(i) Towns denotified/declassified			
1. Mazra C.T.	Dehradun	4,928	-
2. Datauji C.T.	Agra	1,258	-
3. Itai Rampur C.T.	Gonda	11,283	-
4. Bhatwari T.A.	Uttarkashi	1,157	-
5. Gahmar T.A.	Ghazipur	16,681	-
(ii) Towns merged with other towns			
1. I.I.T.,Kanpur	Kanpur Nagar	7,512	Kanpur M.C.

Name of Town	Name of Disstrict	Population in 1981	Name of Town
2. Baksar khera T.A.	Meerut	4,294	Meerut M.C.
3. Abdullapur T.A.	Meerut	6,383	Meerut M.C.
4. Kankar Khera T.A.	Meerut	20,716	Meerut M.C.
5. Izatnagar Rly. Settlement N.A.	Bareilly	11,273	Bareilly M.C.
6. Clutterbuckganj T.A.	Bareilly	14,772	Bareilly M.C.
7. Charbagh-Alambagh N.A.	Lucknow	31,036	Lucknow M.C.
8. Gorakhpur Fertilizer N.A.	Gorakhpur	5,917	Gorakhpur

Growth of population

6. The growth of population in Uttar Pradesh during the decade 1981-91 has been 25.41 per cent. This is slightly lower (0.08 per cent points) than that (25.49 per cent) observed during the decade 1971-81. However, it is higher than the all-India average (23.56). A comparison with growth rates observed in respect of other states and Union Territories reveals that 12 states and all seven Union Territories have registered higher decadal growth rate than Uttar Pradesh. Nagaland (56.86) has recorded the highest growth rate followed by Delhi (50.64) and Andaman and Nicobar Islands (47.88)

7. While analysing the growth of population by Economic Regions, it has been observed that Western (25.79) and Eastern (26.51) regions have registered a higher growth in comparison to the state average (25.41). Statement-8 shows growth of population and share of urban population in each region:

Statement-8

Growth rate and share of urban population by Economic Regions

State/ Economic Regions	Growth rate (1981-91)			Share of Urban Population	
	Total	Rural	Urban	1981	1991
1	2	3	4	5	6
Uttar Pradesh	25.41	22.41	38.97	100.00	100.00
1. Hill	22.03	17.17	43.75	4.45	4.60
2. Western	25.79	21.42	39.86	46.89	47.20
3. Central	23.53	19.21	39.63	20.84	20.94
4. Bundelkhand	23.96	21.84	32.47	5.45	5.19
5. Eastern	26.51	25.24	37.11	22.37	22.07

8. Growth rates of rural and urban components of population for the state have been 22.44 and 38.97 per cent respectively. It implies that rural growth has been less than overall growth rate (25.41) by 2.97 per cent points whereas urban growth is higher by 13.56 per cent points than overall growth. The contributon of urban population is highest from Western Region while it is least from Hill Region. Further analysis of regionwise contribution towards state's urban population indicates that there has been increase in 1991 Census as compared to 1981 Census in Hill, Western and Central Regions whereas it has declined for Bundelkhand and Eastern regions.

9. So far as overall growth of population at district level is concerned, Ghaziabad(49.48) is on the top followed by Nainital (39.49), Sonbhadra (37.37), Lucknow (35.69) and Dehradun(33.22). The districts registering lowest decadal growth rates in ascending order are Garhwal (5.79), Almora (8.38), Pithoragarh (14.55), Tehri Garhwal (15.60) and Chamoli (18.21).

Rural Population

10. Growth of rural population in respect of 27 districts has been higher as compared to state average(22.44). Among them five districts, viz., Sonbhadra(35.32), Nainital(31.76), Mirzapur(31.64), Varanasi(30.19) and Moradabad(29.41) are leading districts. There are only three districts in the state which have registered less than ten per cent growth in their rural population during the decade. These are Garhwal(2.89), Lucknow(7.82) and Almora(8.38).

11. Deoria district with a rural population of 4,109,061 has the maximum chunk of population living its rural areas. It is followed by allahabad (3,890,627), Varanasi (3,523,169), Gonda (3,297,849) and Jaunpur(2,985,710). On the other hand, districts having minimum rural population are Uttarkashi (220,620), Kanpur Nagar (374,442), Chamoli(404,484), Dehradun (500,423) and Pithoragarh (518,286). Barring Kanpur Nagar district, all are hill districts. Districtwise rural population and growth rate is presented in Supplement Table-2.

Urban Population

12. The proportion of urban population in Uttar Pradesh as per 1991 census is 19.89 per cent as compared to 17.95 per cent at the 1981 census. Thus, the urban proportion has registered an increase of 1.94 per cent points during the decade 1981-91. In absolute terms the urban population of Uttar Pradesh has registered an increase of 7,754,295 persons in comparison to the figures netted at the previous census.

Proportion of Urban population of Uttar Pradesh compared with India

13. The Proportion of urban population for India at the 1991 Census was 25.72 per cent as against 23.34 in 1981. Thus, there has been a rise of 2.38 per cent points during the last decade. On the other hand, as stated above, the proportion of urban population for U.P. at the 1991 was 19.89 per cent as against 17.95 per cent at the 1981 census, a gain of 10.94 per cent points during the decade. Thus in U.P., the pace of urbanisation has been slower by 0.44 per cent points in comparison to India. State/Union Territories alongwith their proportion of urban population at the 1991 and 1981 censuses are given in statement - 9 in descending order.

STATEMENT-9

States and Union Territories arranges in descending order of their level of urbanisation

Rank in 1991	State/ Union Territory	Urban population as per cent of total population		Rank in 1981
		1991	1981	
1.	Delhi	89.93	92.73	2
2.	Chandigarh	89.69	93.63	1
3.	Pondicherry	64.05	52.28	3
4.	Lakshadweep	56.29	46.28	4
5.	Daman & Diu	46.86	36.75	5
6.	Mizoram	46.20	24.67	15
7.	Goa	41.02	32.03	8
8.	Maharashtra	38.73	35.03	6
9.	Gujarat	34.40	32.95	7
10.	Tamil Nadu	34.20	32.95	7
11.	Karnataka	30.91	28.89	10
12.	Punjab	29.72	27.68	11
13.	Manipur	27.69	26.42	13
14.	West Bengal	27.69	26.47	12
15.	Andhra Pradesh	26.84	23.32	16
16.	A. & N. Islands	26.80	26.30	14
17.	Kerala	26.44	18.74	21
	INDIA	25.72	23.34	
18.	Haryana	24.79	21.88	17
19.	Jammu & Kashmir	23.83	21.05	18
20.	Madhya Pradesh	23.21	20.29	20
21.	Rajasthan	22.88	21.05	19
22.	Uttar Pradesh	19.89	17.95	23
23.	Meghalaya	18.69	18.07	22
24.	Nagaland	17.28	15.52	25

1	2	3	4
25. Tripura	25.26	10.99	28
26. Orissa	13.43	11.79	27
27. Bihar	13.17	12.47	26
28. Arunachal Pradesh	12.21	6.56	32
29. Assam	11.08	9.88	29
30. Sikkim	9.12	16.15	24
31. Himachal Pradesh	8.70	7.61	30
32. Dadra & Nagar Haveli	8.47	6.67	31

14. It may be seen from statement-9 that Uttar Pradesh now stands at 22nd place, gaining one place in comparison to 1981(23rd) despite being at first place in terms of total population. Two newly created States, i.e., Mizoram and Goa and all Untion Territories except Dadra and Nagar Haveli have a higher proportion of urban population than Uttar Pradesh. Excluding these States and Union Territories, Uttar Pradesh occupies 14th place so far as proportion of urban population to total population is concerned.

15. The highest decadal growth rate in urban population among the major states has been recorded in Kerala (60.89 per cent) followed by Madhya Pradesh (44.98 per cent), Haryana (43.07 per cent), Andhra Pradesh (42.64 per cent) and Rajasthan (30.24 per cent). Decadal growth of urban population (38.97) recorded by Uttar Pradesh during the decade 1981-91 is higher than that of Maharashtra (38.66 per cent). Incidentally Maharashtra is the biggest contributor to the urban population of the country.

16. As mentioned earlier, Uttar Pradesh has recorded 38.97 per cent growth in its urban population during 1981-91. On comparing present growth rate (38.97) with that observed during the previous decade (60.62 per cent), a sharp decline is noticed, but this is not a real decline. This is mainly due to the fact that all the Town Areas in 1981 were taken as urban units irrespective of their demographic profiles. The abrupt rise in the number of towns had, in fact, resulted into higher growth in urban population of the state at the 1981 census. Total population of all Town Areas at the 1971 Census was only 8.13 per cent of total urban population of Uttar Pradesh but this proportion rose abruptly to 20.32 per cent in 1981 Census due to addition of 334 Town Areas.

17. So far as contribution towards urban population of the country is concerned, Uttar Pradeesh is at the second place after Maharashtra (14.04 per cent) accounting for 12.73 per cent. Other States contributing an appreciable proportion are-Tamil Nadu (8.76), West Bengal (8.57), Andhra Pradesh (8.20), Madhya Pradesh (7.07), Gujarat (6.52), Karnataka (6.38) and Bihar (5.24). The individual contribution of rest of the States and Union Territories towards the urban population of the country is, however, less than 5 per cent.

Growth of Urban Population in Districts

18. On examining growth of urban population in different districts during the decade 1981-91, it is observed that there has been a spectacular rise in urban population of five districts of the state. These are Ghaziabad (103.31), Mahrajganj (87.85), Sultanpur (69.67), Lucknow (60.80) and Tehri Garhwal (60.53). The urban population of Ghaziabad district has, in fact, more than doubled during the decade but Mahrajganj and Sultanpur districts despite having spectacular rise in their urban population, are among the five least urbanised districts of the state.

19. From statement-10 it is observed that 5 most urbanised districts are Kanpur Nagar, Lucknow, Dehradun, Ghaziabad and Agra. At the 1981 Census, Jhansi district was the fourth most urbanised district of the state which has now been replaced by Ghaziabad district. Five least urbanised districts are - Siddharthnagar, Sultanpur, Mahrajganj, Pratapgrah and Kanpur Dehat. At the 1991 Census, Pratapgarh district has entered into the list of least urbanised districts replacing Tehri Garhwal.

Level of urbansiation in Uttar Pradesh

20. At the 1991 Census, the percentage of urban population was 19.89 which has gone up during the course of last ten years (1981-91) by just 1.94 per cent points. Thus, four-fifths of the population in the state lives in rural areas. Apparently the pace of urbanisation has been very slow in Uttar Pradesh during the last decade. Statement-10 presents name of districts having maximum and minimum proportions of urban population at 1981 and 1991 Censuses.

STATEMENT-10

First five districts having maximum and minimum percentage of urban to total population, 1981 and 1991

Districts having maximum percentage	State Average	Districts having minimum percentage
(1)	(2)	(3)
1981	17.95	1981
1. Lucknow (52.60)		1. Sultanpur (3.30)
2. Dehradun (48.86)		2. Tehri Garhwal (4.30)
3. Kanpur (46.32)		3. Basti (4.80)
4. Agra (38.10)		4. Pratapgarh (5.05)
5. Jhansi (37.94)		5. Pithoragarh (5.22)
1991	10.89	1991
1. Kanpur nagar (84.98)		1. Siddharthnagar (3.50)

1	2	3
2. Lucknow (62.34)		2. Sultanpur (4.47)
3. Dehradun (50.68)		3. Mahrajganj (4.49)
4. Ghaziabad (46.41)		4. Pratapgarh (5.56)
5. Agra (40.63)		5. Kanpur Dehat (5.71)

21. At the 1981 Census, only Lucknow district (52.60) had more than fifty per cent urban population, but now Kanpur Nagar (84.98) and Dehradun (50.68) districts have also attained this distinction alongwith Lucknow (62.34). Ghaziabad district (46.41)is nearing this mark. On the other hand, Siddharthnagar a newly created district has merely 3.50 per cent urban population. In fact, Siddharthnagar district has been created out of erstwhile Basti district where largest chunk of population lived in rural areas at the 1981 Census. In terms of proportion of urban population, Basti district had been on the third spot from bottom at 1971 and 1981 Censuses. Now Siddharthnagar district is at the bottom (3.50) preceded by Sultanpur (4.47), Mahrajganj (4.49), Pratapgarh (5.56) and Kanpur Dehat (5.71). Tehri Garhwal and Pithoragarh, the two hill districts of the State were earlier (1981) in the band of 5 districts having minimum urban population but now there is no hill district in this group. The proportion of urban population to total in respect of each district and for each of the five Economic Regions is presented in statement-11.

Statement - 11

Urban Population of Uttar Pradesh, 1981-1991

State/ District/ Regions	1981			1991		
	Total Population	Urban Population	Urban Population as percentage to total population	Total Population	Urban Population	Urban Population as percentage to total population

59. Ballia	1,850,296	176,898	9.56	2,249,964	225,252	10.01
60. Ghazipur	1,944,669	154,282	7.93	2,462,867	177,646	7.21
61. Varanasi	3,701,006	994,823	26.88	4,839,752	1,316,583	27.20
62. Mirzapur	1,261,150	172,915	13.71	1,661,622	229,061	13.79
63. Sonbhadra	777,999	94,750	12.18	1,068,730	144,124	13.49
5. Eastern	41,651,580	4,451,243	10.69	52,692,140	6,103,138	11,58

22. The proportion of urban population has gone up in each of the five economic regions. It is maximum in Hill region (3.26 per cent points) and minimum in the Eastern region (0.89 per cent points). However, the highest proportion of urban population lies in the Western region.

23. Although maximum increase in the proportion of urban population has been observed for Hill region but that does not depict the real picture. The overall proportion of urban population of Hill region is high (21.56 per cent) because of Dehradun (50.68 per cent) and Nainital (31.51 per cent) districts. If we exclude the proportion of urban population of these two districts, the resultant proportion for the remaining six districts is extremely low (7.82 per cent).

24. The position of urbanisation is worse in Eastern region where only 11.58 per cent of population lives in urban areas despite the fact that districts like Allahabad and Varanasi are part of this region. As a matter of fact there are nine towns of Class I category in this region but the proportion of urban population is least among all Economic Regions. Statement-12 presents a comparative picture in respect of urban population and proportion of urban to total population in respect of class I cities/ U.As. (with population of one lakh or more) and their share in urban population by Economic regions.

Statement - 12

Share of Class I Cities/U.As. to Total and Urban Population by Economic Regions

State/Economic Region	No.of Class I Cities/ U.As.	Percentage of Urban to total population	Percentage of Class I Cities/U.As. to total population	Percentage of Class I Cities/ U.As. to urban population
1	2	3	4	5
Uttar Pradesh	42	19.89	11.14	55.99
Hill	2	21.56	7.97	36.96
Western	24	26.37	14.50	55.01
Central	6	23.92	17.47	73.02
Bundelkhand	1	21.34	5.48	25.66
Eastern	9	11.58	6.14	53.01

25. These proportions provide deeper insight to have a clear view about low level of urbanisation in U.P. Hill region has only 2 Class I urban centres viz., Dehradun and Nainital which account for more than one-third of urban population in the region. Western region is most urbanised among all regions having 24 cities/U.As. These account for 14.50 per cent of total population of the region. Central region, though, has 23.92 per cent of total population in urban areas but it is mainly due to Kanpur and Lucknow Municipal Corporations the two biggest cities of the State. A mention has already been made regarding Eastern region.

26. In statement-13, districts have been arranged in descending order of their share in urban population of the state. Kanpur Nagar (7.66 per cent) and Lucknow (6.16 per cent) each accommodate more than five per cent towards urban population of the state while Varanasi, Ghaziabad, Meerut, Moradabad and Agra each contribute more than four per cent. The combined contribution of these seven districts towards the total urban population of the state is 35.92 per cent, i.e., more than one-third of urban population of the state lives in these seven districts.

Statement-13

Districts arranged in descending order of their share in urban population of state in 1991

Rank in 1991	District	Percentage of urban population 1991	Percentage of urban population 1981	Rank in 1981

60	Pithoragarh	0.15	0.14	61
61	Chamoli	0.13	0.15	60
62	Tehri Garhwal	0.12	0.10	62
63	Uttarkashi	0.06	0.07	63

27. Statement-14 indicates the level of urbanisation from 1901 for the state. It is observed that total number of towns has been fluctuating between 420 to 463 from 1901 to 1951 but later on in 1961 due to exclusion of town areas from the urban frame, total number of towns went down steeply. However, thereafter, a continuous rise in number of towns is visible. Columns 7, 8 and 9 of statement-14 viz., annual exponential growth rate, annual gain in percentage of urban population and annual rate of gain in percentage of urban population indicate the pace of urbanisation.

28. Considering the proportion of urban population to total population of the State, we find a decline of 0.9 per cent points in the census year 1911over 1901, with a negative decennial growth rate to the tune of -8.98 per cent. Thereafter, barring 1961 Census, a rising trend has been observed in the proportion of urban population.

URBAN GROWTH RATE & LEVEL

Rank	District	Growth of urban Population 1981-91	Rank	District	Percentage of urban Population in 1991
1	GORAKHPUR	56·42	1	MEERUT	37·10
2	MEERUT	47·32	2	MORADABAD	27·46
3	DEORIA	40·56	3	VARANASI	27·20
4	ALIGARH	39·87	4	ALIGARH	25·20
5	AZAMGARH	35·38	5	ALLAHABAD	21·04
6	ALLAHABAD	33·99	6	GORAKHPUR	18·39
7	GONDA	33·17	7	GONDA	7·73
8	MORADABAD	32·79	8	DEORIA	7·35
9	VARANASI	32·34	9	AZAMGARH	7·18
10	JAUNPUR	31·06	10	JAUNPUR	6·90

29. Comparison of the annual exponential growth rate and annual rate of gain in percentage of urban population of U.P. with that of India indicates faster growth for U.P. during the decades 1971-81 and 1981-91. However, annual gain in percentage of urban population in respect of U.P. has been of lower order to that of the country because it has lower proportion of urban population as compared to India.

Statement - 14

Trends of Urbanisation in Uttar Pradesh

Census Year	Number of U.As/ Towns	Total Population	Urban Population	Percentage of urban population to total Population	Decennial growth (Urban)	Tempo of Urbanisation (Per cent per year)		
						Annual exponential growth rate	Annual gain in percentage of urban population	Annual rate of gain in percentage of urban population
1	2	3	4	5	6	7	8	9
1901	458	48,627,655	5,390,611	11.09	-	-	-	-
1911	420	48,154,908	4,906,673	10.19	-8.98	-0.94	-0.09	0.81
1921	444	46,672,398	4,936,416	10.58	0.61	0.06	0.04	0.38

1991	702	139,031,130	27,653,410	19.89	38.97	3.35	0.10	1.08

30. There are ten districts in the state which have more than three million population. Chart "A" presents the growth of urban population during 1981-91 and proportion of urban population in these districts and their ranks by growth and proportion of urban population. Interestingly Varanasi lies at the 9th place in terms of growth of urban population while it is at the 3rd place in respect of proportion of urban population. In contrast, Deoria lies at the 3rd place with a growth of 40.56 per cent during the decade while proportion of urban population for this district is merely 7.35 per cent.

31. There are 23 city urban agglomerations having more than one million population in the country. Kanpur, Lucknow and Varanasi city urban agglomerations of Uttar Pradesh appear in the list at 9th, 11th and 22nd places respectively.

Density

32. At the 1991 Census, the density of population, i.e., number of persons per sq. km. was 472 as against 377 in 1981 and 300 in 1971. Thus, number of persons living in one sq.km. of area has now increased by 172 persons in comparison to that in 1971 Census while between 1971 and 1981, the rise in density was 77 persons only. In fact, there has been almost three-fold rise in the density of population of the state since 1901 (165).

33. The analysis of density by Economic regions indicates that it is highest for Eastern region (614) followed by Western (602) and Central (528) regions. In fact density for all these three regions is higher than the state average (472). However, for Bundelchand (229) and Hill (115) regions it is well below the state average.

34. Districtwise analysis of density reveals that it varies from 30 persons per sq. km. in Uttarkashi to 2,397 in Kanpur Nagar. The districts in upper slot are Kanpur Nagar (2397), Lucknow (1081), Ghaziabad (1062), Varanasi (951) and Gorakhpur (916) while districts in lower order are Uttarkashi (30), Chamoli (48), Pithoragarh (63), Garhwal (123) and Tehri Garhwal (130).

35. Kanpur Nagar, which was a part of erstwhile Kanpur district has dislodged Lucknow district from the top position it occupied in 1981 Census. Ghaziabad has retained its 3rd position but Varanasi has been pushed back to 4th place and Meerut which was at 4th place in 1981 has disappeared from this distinctive group. The 5th place is now attained by Gorakhpur district. In the lower rung of the ladder are Uttarkashi, Chamoli and Pithoragarh, occupying the same positions as in 1981 Census but Tehri Garhwal has been replaced by Garhwal. Tehri Garhwal, thus, has been pushed to 5th place from the bottom which was occupied by Lalitpur in 1981. The statement-15 depicts comparative picture of districts with higher and lower density at the 1981 and 1991 Censuses.

Statement - 15

Five districts having highest and lowest density in 1981 and 1991

Districts having highest density		Districts having lowest density	
1981		1981	
1. Lucknow	(797)	1. Uttarkashi	(24)
2. Varanasi	(727)	2. Chamoli	(40)
3. Ghaziabad	(712)	3. Pithoragarh	(55)
4. Meerut	(708)	4. Tehri Garhwal	(113)
5. Kanpur	(606)	5. Lalitpur	(115)

1991		1991	
1. Kanpur Nagar	(2397)	1. Uttarkashi	(30)
2. Lucknow	(1081)	2. Chamoli	(48)
3. Ghaziabad	(1062)	3. Pithoragarh	(63)
4. Varanasi	(951)	4. Garhwal	(123)
5. Gorakhpur	(916)	5. Tehri Garhwal	(130)

36. In all India context, Uttar Pradesh stands at 9th place, the first five places being occupied by Delhi (6319), Chandigarh (5620),. Pondicherry (1640), Lakshadweep (1615) and Dadra and Nagar Haveli (906). Arunachal Pradesh (10) has the lowest density among all States and Union Territories.

Sex Ratio

37. The sex ratio, i.e., number of females per 1,000 males in 1991 Census for the State comes out to be 881, 886 and 862 for total, rural and urban areas respectively. The corresponding figures in 1981 Census were 885, 893 and 846. Comparison of sex ratio at the two Censuses reveals that number of females for all areas has gone down by 4 points whereas it has gone up by 16 points in urban areas. Statement-16 gives sex ratio for Uttar Pradesh and India.

Statement - 16

Sex ratio in U.P. and India, 1901-1991

Census Year	Sex Ratio	
	India	Uttar Pradesh
1	2	3
1901	972	937
1911	964	915
1921	955	909
1931	950	904
1941	945	907
1951	946	910
1961	941	919
1971	930	879
1981	934	885
1991	929*	881

*Provisional

38. The sex ratio in respect of Uttar Pradesh has always been less than national average. It is also observed that decline in sex ratio for the state of U.P. has been

higher than that witnessed in the national average, i.e., reduction in number of females per 1,000 males since 1901 to this date for the state has been 56, as against 43. at the national level.

39. As mentioned above, sex ratio for the state is 881 for all areas, 886 for rural and 862 for urban. In this light, it is observed that sex ratio is highest in Hill region (976) followed by Eastern region (925) for all areas while for other regions it is well behind ranging between 843 to 857. Considering rural areas, only Hill region crosses the bar of 1000 (1027). Among all regions, sex ratio is less than 900 in urban areas. Statement-17 shows sex ratio by all areas, rural and urban for Economic regions.

STATEMENT-17

Sex Ratio by Economic Regions

State/Region	Total	Rural	Urban
1	2	3	4
Uttar Pradesh	881	886	862
Hill	976	1027	809
Western	843	834	869
Central	857	857	857
Bundelkhand	847	844	861
Eastern	925	933	862

40. The highest sex ratio have been recorded in Almora (1,128), followed by Garhwal (1,112), Tehri Garhwal (1,073), Chamoli (1,051), Pithoragarh (1,030) and Azamgarh (1,010). There are, thus, only 6 out of 63 districts in the State where females have outnumbered males. On the lowest rung of the ladder lies Budaun district (811) preceded by Shahjahanpur (818), Mathura (819), Hardoi (821) and Firozabad (832). However, there is no district in the State wherein females have outnumbered males in urban areas. The lowest urban sex ratio (560) has, however, been recorded in Tehri Garhwal district.

Urban population by size class of towns

41. As has already been mentioned, there were 753 urban units in the frame prepared for the 1991 census for Uttar Pradesh. However, considering Urban Agglomeration (UA) as single unit, the number of U.As. and towns comes to 702 only. Thus, the number of U.As/towns, as compared to 1981 (659), has increased by 43. It may be mentioned here that number of U.As/towns at the time of 1971 census was 293 only. The enormous increase in number of U.As/towns in 1981 Census was mainly due to inclusion of all the Town Areas (T.As)

in urban frame irrespective of their urban characteristics.

42. The distribution of U.As./towns by size class, their proportion to urban population, growth rate and sex ratio is presented in statement-18.

STATEMENT-18

Distribution of U.As./Towns by size class of towns, proportion to urban population, growth rate and sex ratio (1981-1991)

Size class	Number of U.As./Towns		Proportion of Population in each size class to urban Population		Growth rate		Sex ratio (Females per 1,000 males)	
	1981	1991	1981	1991	1981	1991	1981	1991
1	2	3	4	5	6	7	8	9
All Classes	659	702	100.00	100.00	60.62	38.97	846	862
Class I	30	42	51.40	55.99	43.17	51.39	837	857
Class II	36	45	12.44	11.45	82.80	28.02	945	870
Class III	86	129	12.64	13.94	20.43	53.21	861	865
Class IV	195	236	23.52	12.25	121.83	25.96	866	870
Class V	231	210	8.56	5.86	200.19	-4.90	853	867
Class VI	81	40	1.44	0.51	1205.32	-51.51	820	797

43. The Total number of U.As. is now 31 as against 25 at the 1981 Census. New U.As. constituted after 1981 are six only, viz., Rishikesh U.A. Bijnor U.A., Muzaffarnagar U.A., Firozabad U.A., Mubarakpur U.A. and Renukoot U.A. However, due to merger of all the constituent units of Gorakhpur U.A. into the core town, the final tally is 31. Similarly, the total number of Class I U.As./Towns has increased to 42 as compared to 30 in 1981. The number of U.As. falling in the category of Class I towns is 19. There are 6 U.As. and 39 towns in Class II and 6 U.As. and 123 towns in Class III. It is clear from the statement that the number of U.As./Towns has gone up in Classes I, II, III and IV while the same has declined in classes V and VI. This is mainly due to upgradation in the status of towns consequent upon rise in their population.

44. As already mentioned, the proportion of urban population to total population is 19.89 per cent in the State. The analysis of classwise distribution of urban population shows that more than fifty per cent of the chunk resides in Class I cities and U.As. There has been an

increase in proportion of population living in towns of class I and III in 1991 as compared to 1981 while corresponding proportions for the remaining classes of towns have declined.

45. The sex ratio in urban areas of the State was observed as 862. Thus, it has gone up by 16 points over 1981. Except class VI towns, all others have registered an increase in the sex ratio in comparison to 1981. There has been a sharp fall in the sex ratio in class VI towns in 1991 Census (797) as compared to 1981 Census (820).

46. Though sex ratio has improved in urban areas of the State since 1981, it is still unfavourable to females (862). Statement-19 presents distribution of U.As. and towns by five ranges of sex ratio, viz., high, medium, average, low and very low by size class of towns.

Statement - 19

Distribution of Urban Agglomerations/Towns by ranges of high, medium, average, low and very low sex ratio by size class of Towns, 1991 (State average : 862

Size Class	No.of U.As./ Towns	High above (1,000)	Medium (990-999)	Average (800-899)	Low (700-799)	Very Low (below 700)
1	2	3	4	5	6	7
Class I	42	-	2	39	1	-
Class II	45	-	2	43	-	-
Class III	129	-	22	99	5	3
Class IV	236	-	38	190	4	4
Class V	210	1	47	148	11	3
Class VI	40*	-	3	22	8	6

* In Kedarnath N.A., Female population is "Nil". As such the total of columns 3 to 7 comes to 39.

47. There is only one town - Bilariaganj (Azamgarh district) of class V where females (1021) have outnumbered males. Gangotri N.A. a newly created town in Uttarkashi district has the lowest sex ratio (58). The other distinguishing feature noticed is that no female population has been recorded in Kedarnath N.A. during the 1991 Census. Almost similar position prevailed at the time of 1981 Census as well when only one female was enumerated at that time in this urban unit.

Growth in Urban population of U.As./Towns

48. Number of towns classified into high, medium, average, low and very low ranges of growth of urban population is presented in statement-20.

Statement - 20

Distribution of U.As./Towns by High, Medium, Average, Low and Very Low Growth during 1981-91 by Size Class of Towns

Size Class of Towns	No.of U.As./ Towns	High (More than 50 per cent & above the state average in each size class)	Medium (Between 25-50 per cent above the state average in each size class)	Average (25 per cent of the state average in each size class)	Low (Between 25-50 per cent below the state average in each size class)	Very Low (Below 50 per cent of the state Average in each size class)
1	2	3	4	5	6	7
Class I	41	3	4	17	14	3
Class II	45	4	2	25	11	3
Class III	125	10	15	67	28	5
Class IV	220	11	16	109	61	25
Class V	181	8	5	70	64	34
Class VI	35	3	3	7	11	11

49. In statement-20, only those U.As./Towns have been included which were in 1991 Census frame and existed in 1981 also. As such, the number of towns presented in statement-20 is different from that shown in statement-18.

50. The highest growth rate has been recorded in Loni T.A. (256.83) of Ghaziabad district. Other towns with more than 100 per cent growth rate are Kedarnath N.A. (150.83) Misrikh-cum-Neemsar M.B. (110.79) and Mahmudabad M.B. (104.45). Badri-nathpuri N.A. (-61.96), Ranikhet Cantt. (-32.88), Chakrata Cantt. (-10.52), Joshimath M.B. (-4.89), Lansdowne Cantt. (-4.81), Railway Settlement Roza N.A. (-4.30), Rajapur T.A. (-3.77), Ordnance Factory Muradnagar N.A. (-2.55) and Kalagarh C.T. (-1.67) are such nine towns which have registered a negative growth rate.

51. Considering 1951 as base year the index of popula-tion growth has been worked out for 42 cities/city urban agglomera-tions with a population of one lakh or more in 1991. The same is presented in statement-21. It is observed from the statement that Ghaziabad U.A. (1188) has recorded more than 11 fold growth in population followed by Modinagar UA (1009) with a 10 fold growth. Both the towns are located in Ghaziabad district. Rae Bareli M.B. (521) has also increased more than five times.

Statement - 21

Index of growth of population of cities having population of one lakh or more

City/City Urban Agglomeration	1951	1961	1971	1981	1991

Working Population

52. In Census parlance, work is defined as participation in any economically productive activity which may be physical or mental. Work involves not only actual work but also effective supervision and direction of work. It also includes unpaid work done by a person on farm or in family enterprise. His/her engagement is measured in terms of time spent by him/her in performing that economic activity. Accordingly, those who had their engagement in any economically productive activity for six months or more were treated as main workers while others who had worked for a period less than six months during the year preceding the date of enumeration were treated as marginal workers. Based on this criterion, the information on economic activity for every person was collected through individual slips. On the basis of information, thus collected, total population has been divided into three major groups, viz., main workers, marginal workers and non workers. Main workers have further been divided into four broad groups viz., Cultivators, Agricultural Labourers, Household Industry Workers and Other Workers. These details are presented in supplement tables 5 and 6.

Work Participation Rate

53. In Uttar Pradesh, out of total population of 139,031,130 netted at the 1991 Census, 41,342,238 (29.74 per cent) were main workers and 3,518,738 (2.53 per cent) marginal workers. The corresponding proportion at the 1981 Census were 29.23 and 1.49. Total work force (main workers as well as marginal workers) at the 1991 Census was 32.27 per cent which is roughly one-third of the total population while it was 30.72 per cent at the 1981 Census. Thus there is an improvement in total work force by 1.55 per cent points during the decade.

54. The distribution of population by main, marginal and non-workers in the Economic regions has been presented in statement-22. It is observed that proportion of total main workers (35.17) as well as female main workers (25.45) is highest in Hill Region followed by Bundelkhand Region where proportion of total main workers and female main workers is 32.91 and 12.45 per cent respectively. Both the regions are above the state averages (29.74 for males and 8.24 for females). Male main workers are highest in Central Region (51.24 per cent) followed by Bundelkhand Region (50.24). It is surprising to note that proportion of female main workers is least in Western Region (3.01 per cent). The participation of main workers is again highest for both rural and urban areas of Hill Region being 36.50 and 29.18 per cents respectively.

Statement - 22

Distribution of population by Main, Marginal and Non Workers in Economic Regions

State/ Economic Regions		Main Workers			Marginal Workers			Non Workers		
		T	R	U	T	R	U	T	R	U

Workers in 1991 compared with 1981

55. Comparison of 1991 Census data with 1981 reveals that there has been slight increase in percentage of main (0.51 per cent points) as well as marginal workers (1.04 per cent points). The increase in the proportion of marginal workers is, however, of higher order, i.e., it has gone up from 1.49 per cent in 1981 to 2.53 per cent in 1991.

Workers in Rural and Urban areas

56. Taking rural and urban break-up of main workers in the State, it has been observed that percentage of main workers to total population in rural areas is higher in 1991 Census (30.47 per cent) as compared to corresponding proportion at the 1981 Census (29.71 per cent) while corresponding proportion for urban areas at the 1991 Census (26.79 per cent) is slightly lower than 1981 (26.99 per cent). So far as proportion of marginal workers is concerned, it has gone up in rural areas at the 1991 Census (3.03 per cent) by 1.28 per cent points as compared to 1981 (1.75 per cent). Similarly in urban areas as well, the proportion

of marginal workers has gone up from 0.30 per cent in 1981 to 0.52 in 1991, giving a rise of 0.22 per cent points.

57. Comparison of 1981 and 1991 Census figures of main and marginal workers indicates that in rural areas proportions of both main and marginal workers have gone up but in urban areas the proportion of main workers has declined slightly while it has gone up for marginal workers. However, the overall proportion of work force (main and marginal workers taken together) has gone up in rural areas from 31.46 per cent in 1981 to 33.50 in 1991 Census and in urban areas as well it has gone up from 27.29 to 27.31 during the same period.

Workers by Sex

58. Among males, 48.68 per cent were main workers and 0.68 per cent marginal workers at the 1991 Census. Thus, in all, 49.36 per cent among males were found engaged in some or other economically productive activity. Corresponding position in respect of female workers was only 12.87 per cent (8.24 per cent main workers and 4.63 per cent marginal workers). The corresponding proportion for males at the 1981 Census was 50.31 per cent as against 5.37 per cent for females.

59. A further analysis of sex-wise work participation rate at state level indicates that percentage of male workers to total male population has gone down in 1991 Census as compared to 1981 Census, i.e., it has gone down from 50.31 per cent in 1981 to 48.68 per cent in 1991. On the other hand, percentage of female workers to total female population in 1991 Census has gone up as compared to 1981 Census. In fact, proportion of female main workers has increased by 2.84 per cent points while increase in female marginal workers is 1.96 per cent during the decade. Observed in 1981 while the proportion of female marginal workers has gone up by 1.96 per cent points during the decade.

Work participation rate of Uttar Pradesh compared with India

60. A comparison of work participation rate observed for the State with that of India (excluding J & K) indicates that proportion of both main as well as marginal workers in Uttar Pradesh is of lower order in comparison to India's proportion. The proportions are 29.74 and 2.53 per cent respectively in Uttar Pradesh as compared to 34.12 and 3.52 observed at India (excluding J & K) level. Sex-wise proportions for state also follow the same pattern as observed for India.

61. Another observation while comparing work force of Uttar Pradesh with that of the whole country (excluding J & K) reveals that share of total main workers of Uttar Pradesh to total main workers in the country is 14.48 per cent whereas population of state constitutes 16.62 per cent of the total population of India (including estimated population of J & K). In other words, proportion

of workers in Uttar Pradesh is less than the proportion of population of the country. Male main workers of Uttar Pradesh constitute 16.41 per cent of total main workers in the country whereas the female main workers in state are only 8.11 per cent of total female main workers in the country.

62. The uniformity observed at India (excluding J & K) and state level proportions is that there has been decline in percentage share of male main workers at both the levels. At India (excluding J & K) level the percentage has gone down by 1.08 per cent points (from 51.62 per cent in 1981 to 50.54 per cent in 1991) while for Uttar Pradesh the percentage share has registered a fall of 1.63 per cent points (percentage being 50.31 in 1981 and 48.68 in 1991). In contrast, percentages of female main workers have gone up at national as well as state level since 1981 Census. At state level, the percentage of female main workers in 1991 Census was 8.24 per cent as against 5.40 per cent in 1981 - an increase of 2.84 per cent points while at India level, the proportion of female main workers in 1981 was 14.00 per cent as compared to 16.43 per cent in 1991 - registering an increase of 2.43 per cent points. It is, thus, observed that female main workers in state have registered higher increase in comparison to those observed at India level.

Statement - 23

Distribution of Main Workers by broad categories

Distribution of main workers into different categories of workers

63. In this volume, classification of main workers into cultivators, Agricultural Labourers and those engaged in Household Industry and other services has been presented in supplement table 6. Further distribution of workers in ninefold categories will be available when Primary Census Abstracts are finalized in Regional Tabulation Offices.

64. Out of total 41,342,238 main workers in the State, 21,846,902 (52.84 per cent) are cultivators; 7,952,047 (19.23 per cent) Agricultural Labourers; 1,809,272 (4.38 per cent) Household Industry workers while 9,734,017 (23.55 per cent) workers were found engaged in Other Services. Corresponding figures for India are 110,588,822 (38.75 per cent) Cultivators; 74,649,217 (26.15 per cent) Agricultural Labourers; 10,373,099 (3.63 per cent) Household Industry Workers and 89,811,775 (31.47 per cent) Other Workers. A comparison of the percentages of Cultivators and Household Industry Workers for the State shows that they are on the higher side than corresponding proportions observed at India level whereas proportions of Agricultural Labourers and those engaged in other services at state level are lower than the proportion observed for India. Further analysis of India and state level figures reveals that cultivators in state account for 19.76 per cent of the total cultivators in the country.

65. Statement-23 presents distribution of main workers by broad categories, viz., Cultivators, Agricultural Labourers, Household Industry Workers and Other Workers by sex in Economic Regions. Proportion of Cultivators is maximum (59.89 per cent) in Hill Region followed by Central Region (57.55 per cent). The corresponding proportion for the state is 52.85 per cent.

66. Proportion of Agricultural Labourers is highest (23.26 per cent) in Bundelkhand Region. Combining Cultivators and Agricultural Labourers, it is observed that Bundelkhand Region has maximum proportion (78.56 per cent) of its workers in agricultural sector. Corresponding proportion for the state (72.08 per cent) is less by 6.48 per cent points.

67. Proportion of workers engaged in Household Industry is extremely low in all the regions and state as well. For state, it is only 4.38 per cent of total main workers. Eastern Region has a higher proportion (5.60) of main workers engaged in Household Industry.

68. Considering category of Other Workers, it is observed that its proportion at state level is 23.54 per cent which is way behind the proportion prevailing in Hill (31.42) and Western (29.50) Regions.

Comparison of workers in four broad categories

69. Comparison of number of workers netted at the 1991

Census with those netted in 1981, shows that there has been decline to the tune of 5.68 per cent points in number of cultivators (from 58.52 per cent in 1981 to 52.84 per cent in 1991) whereas percentages of workers engaged in remaining three broad categories, i.e., Agricultural Labourers, Household Industry Workers and Other Workers has gone up. An analysis of percentage contribution of cultivators (from 41.58 in 1981 to 38.75 in 1991) and Agricultural Labourers (from 29.94 in 1981 to 26.15 in 1991) shows that the proportions have declined in 1991 Census as compared to 1981. There has, however, been slight increase over 1981 Census figures so far as percentage contribution of Household Industry Workers and those engaged in Other Services at India level is concerned. Thus there is shifting of workers from primary sectors of the economy to secondary and tertiary sectors.

Districtwise distribution of Main workers into four broad Categories of workers.

70. Districtwise analysis of Main workers presented in supplement table - 6 shows that in absolute terms, highest number of Cultivators (845,261) has been netted in Gonda district followed by Deoria (719,964), Allahabad (674,576), Bahraich (664,426) and Sitapur (656,497). Allahabad district with 403,689 Agricultural Labourers is at the top of the list in this category. Apart from this, other districts which stand prominently, in this regard are Deoria (301,269), Muzaffarnagar (273,605), Varanasi (268,184) and Gorakhpur (249,097). District having the highest number of Household Industry Workers in the state is Varanasi (243,071). Other districts which have Household Industry Workers in appreciable number are Allahabad (105,346), Agra (68,161), Mau (60,416) and Mirzapur (54,623). These are the districts where carpet weaving and leather industries are household names.

71. Out of total 9,734,017 workers engaged in Other Services in the state : 2,590,712 (26.62 per cent), are spread over in 6 districts, viz., Kanpur, Varanasi, Lucknow, Ghaziabad, Meerut and Allahabad - all having class I cities. Kanpur district with 523,033 persons engaged in Other Services tops the list followed by Varanasi (432,753), Lucknow (431,742), Ghaziabad (414,837) and Meerut (397,873)

72. Another angle of analysing data could be the percentage distribution of main workers in different categories in various districts. We may call it percentage distribution of main workers into 4 categories among districts. The salient feature of this type of analysis is as follows:

Cultivators

73. Almora district (79.74 per cent) has returned the highest percentage of cultivators in the state. Other

prominent districts are Tehri Garhwal (78.87 per cent); Uttarkashi (78.56 per cent); Chamoli (78.13 per cent) and Pithoragarh (77.93 per cent). Hardoi has also high proportion (74.04) of cultivators. Districts where percentage of cultivators is below 30 per cent are- Kanpur Nagar (8.83 per cent); Dehradun (21.88 per cent) and Lucknow (29.81 per cent). Further analysis of these proportions at district level indicates that Almora is the only district where percentage of cultivators has gone up during the decade. Other districts mentioned here have registered lower percentage as compared to that observed at the 1981 Census. It is noteworthy that all these districts are highly urbanised.

Agricultural Labourers

74. Districts where Agricultural Labourers constitute 30 per cent or more of total main workers are Ballia (35.41 per cent); Muzaffarnagar (31.15 per cent); Hamirpur (31.11 per cent); Mirzapur (30.96 per cent) and Saharanpur (30.86 per cent). It is interesting to note that proportion of Agricultural labourers in Chamoli (0.68 per cent); Pithorgarh (0.96 per cent); Almora (1.00 per cent); Tehri Garhwal (1.04 per cent) and Uttarkashi (1.29 per cent) is very insignificant. Percentage of Agricultural Labourers in districts constituting more than 30 per cent of the total main workers has gone up since 1981 Census. Districts having Agricultural Labourers in higher proportion have shown improvement since 1981. The same trend follows among districts having lower proportions, the only exception being Almora where percentage has gone down from 1.58 per cent in 1981 to 1.00 per cent in 1991 Census.

Household Industry Workers

75. Workers engaged in this category account for 4.38 per cent of the total work force of the state as compared to 3.70 per cent in 1981 Census. District registering the highest percentage in this category is Varanasi (17.21 per cent) followed by Mau (15.33 per cent), Mirzapur (10.12 per cent), Agra (8.88 per cent) and Ballia (7.06 per cent). Districts at the lower rung of the ladder are Tehri Garhwal (0.76 per cent); Uttarkashi (1.36 per cent); Almora (1.42 per cent); Garhwal (1.57 per cent) and Budaun (1.65 per cent). Except Budaun, all the districts are in Hill region of the state.

Workers in Other Services

76. At state level, there has been an increase in the percentage of workers engaged in Other Services at the 1991 Census over 1981. In fact, it has gone up from 21.80 per cent at 1981 census to 23.55 per cent at 1991 Census.

77. District level analysis of workers engaged in this category reveals that Kanpur Nagar (78.95 per cent) has the highest percentage of workers engaged in Other Services. Other districts following closely are Dehradun (66.04 per cent); Ghaziabad (55.09 per cent); Lucknow (54.73 per cent) and Agra (44.27 per cent). All are highly urbanised districts.

78 Siddharthnagar district (7.47 per cent) has returned the lowest percentage of workers engaged in Other Services at the 1991 Census. Other districts following the same trend are Mahrajganj (9.09 per cent); Bahraich (10.46 per cent); Gonda (10.60 per cent); Kheri (11.70 per cent) and Hardoi (11.96 per cent). Except Kheri and Hardoi, all the districts are from eastern part of the state.

79. The foregoing description can be summarised as under:-

i). Growth of population in U.P is higher (25.49 per cent) than that of the country (23.56 per cent) during 1981-91 decade.

ii). Decline in growth rate is marginal in the state (0.08 per cent points) in 1981-91 over 1971-81 decade.

iii). Considering growth rate by Economic Regions, Eastern Region has registered higher growth rate (26.51 per cent) during 1981-91 decade while Central Region (23.55) has registered lowest growth rate which is lower than India (23.56).

iv). Growth in rural population has been highest in Eastern Region (25.41 per cent) while Hill Region has registered highest growth rate (43.75 per cent) in urban areas.

v). The urban population of the state has gone up by 1.94 per cent points in 1991 over 1981. However, with only 19.89 per cent of urban population, the state remains predominantly rural.

vi). Among Economic Regions of the state, Western Region has the highest proportion of urban population (26.37). Decadal growth of urban population (38.97) recorded by U.P. during the decade 1981-91 is higher to that of Maharashtra - the biggest contributor to the urban population of the country.

vii). A large chunk of urban population (56 per cent) lives in class I cities/U.As.

viii). A sharp rise (95 persons per sq.kms.) in desity of population has been registered in the state during the decade.

ix). Sex ratio has been of lower order in U.P. (881) as compared to India(929). In comparison to 1981 it has declined in 1991 by 4 points. The corresponding figures for rural areas (893 in 1981 and 886 in 1991) shows a decline of 7 points. However in urban areas an increase of 16 points has been registered.

x). By Economic Regions, sex ratio for rural and urban areas are highest in Hill (1027) and Western (869) Regions respectively. The overall sex ratio is highest in Hill Region.

xi). The work participation rate has increased from 30.72 (1981) to 32.27 (1991). Among all the regions, it is highest in Hill Region (39.60)..

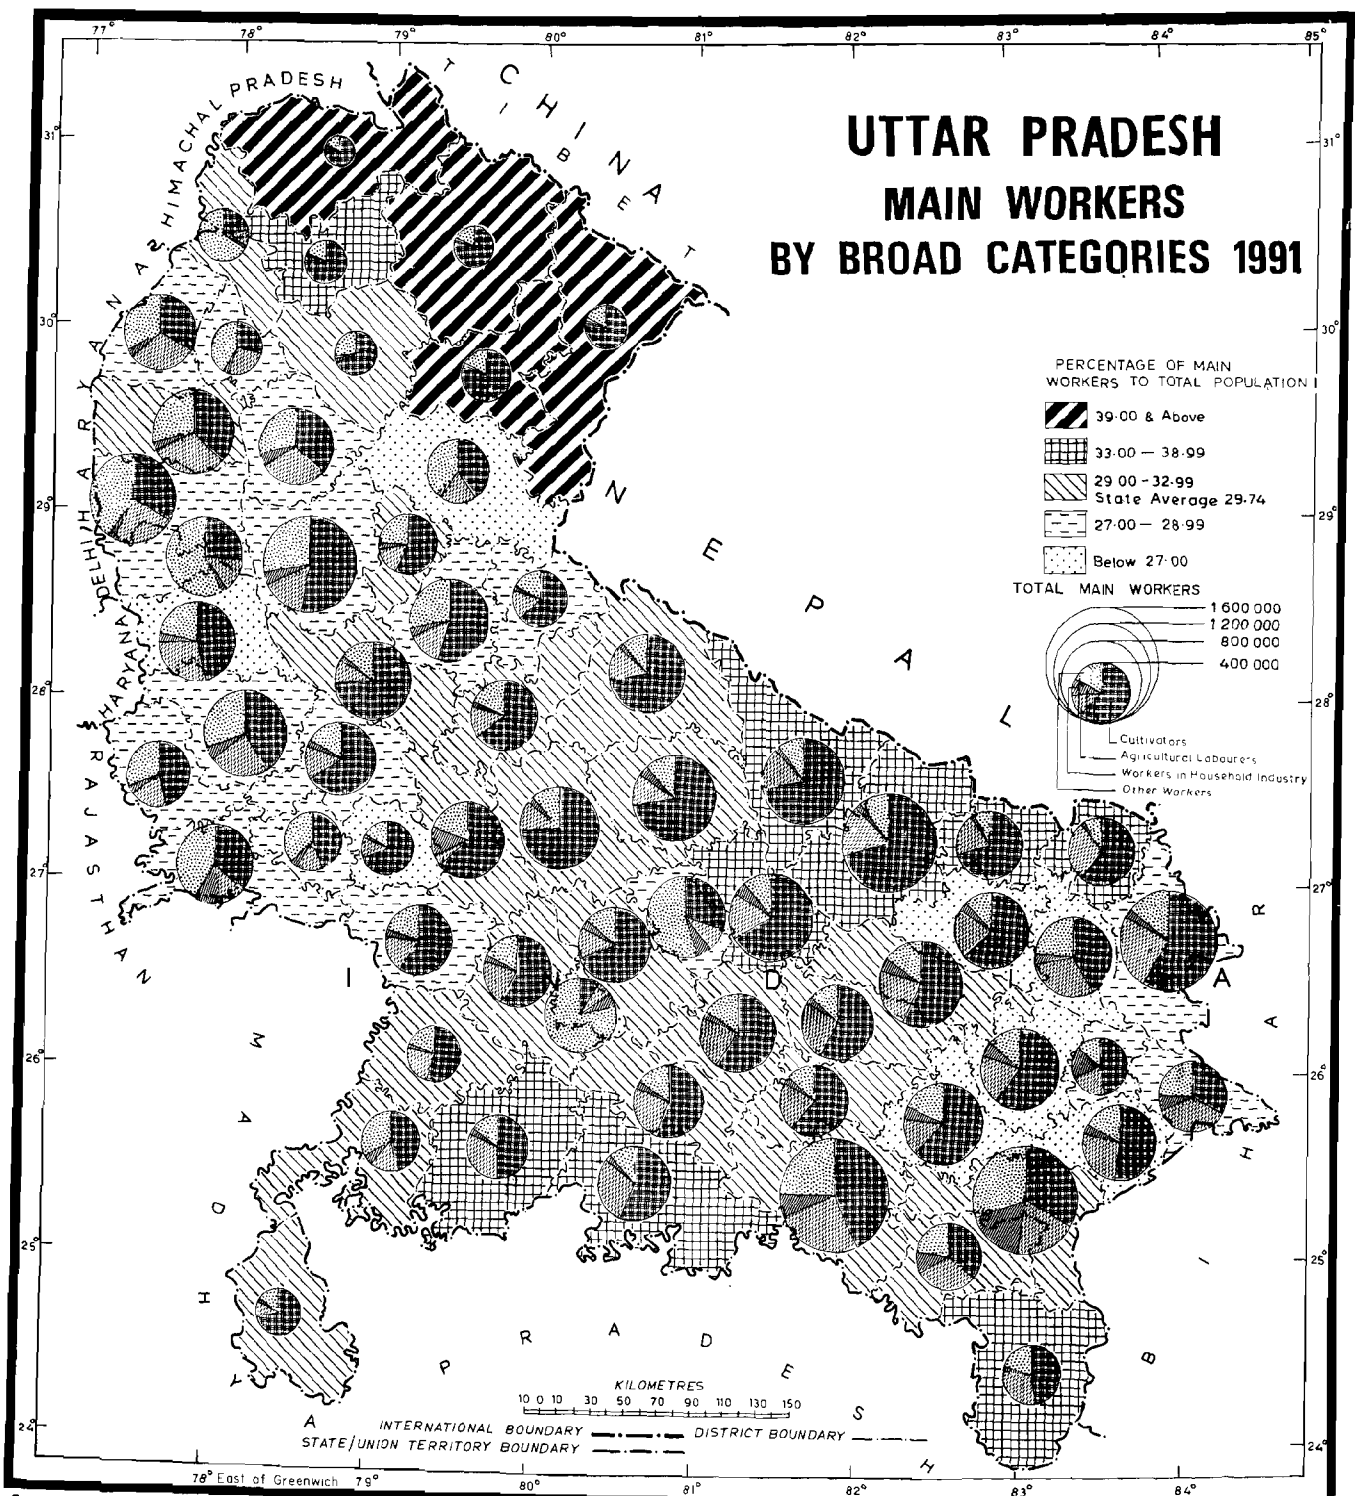

xii). Rural female workers in U.P. have registered highest growth (98.39 per cent) among all the states during 1981-91 decade. Cultivators at 1991 Census have declined in U.P. as compared to 1981 Census while the proportion of workers in Agricultural Labourers, Household Industry Workers and Other Workers have increased during the decade.

xiii). The proportion of workers engaged in Household Industry (4.38) in the state is higher to that of India (3.63) at the 1991 Census.

xiv). Marginal Workers have gone up from 1.49 per cent in 1981 to 2.53 in 1991. thus, an increase of 1.04 per cent points has been registered for U.P., as against merely 0.2 per cent points for India. In fact thee proportion of urban male marginal workers in U.P. has doubled from 1981 Census whereas the same is constant for the country.

APPENDIX -I

New Districts/Tahsils Created after 1981 Census

Names of the newly created Districts/Tahsils (1991 Census)	Name of District(s)/Tahsil(s) from which the New District/Tahsil(mentioned in col-1) were created.
1	2
Newly Created Districts	
1. Hardwar	(i) Entire Roorkee tahsil of Saharanpur district, (ii) Portion of Najibabad tahsil of Bijnor district, (iii) Portion of Muzaffarnagar tahsil of Muzaffarnagar district.
2. Firozabad	(i) Entire Firozabad tahsil of Agra district, (ii) Portion of Etmadpur tahsil of Agra district (iii) Entire Jasrana and Shikohabad tahsil of Mainpuri district.
3. Kanpur Nagar	Entire Kanpur tahsil of Kanpur district
4. Siddharthnagar	(i) Entire Naugarh tahsil of Basti district, (ii) Portion of Bansi and Domariaganj tahsils of Basti district.
5. Mahrajganj	Entire Mahrajganj tahsil and portion of Pharenda tahsil of Gorakhpur district.
6. Mau	(i) Entire Ghosi, Maunath-Bhanjan, and Mohammadabad Gohna tahsils of Azamgarh district (ii) Portion of Rasra tahsil of Ballia district.
7. Sonbhadra	Entire Robertganj and Dudhi tahsils of Mirzapur district.

Newly Created Tahsil

1.	Rudrapryag Tahsil	(i) Portion of Pauri tahsil of Garhwal district, (ii) Portions of Chamoli Karnaprayag and Ukhimath tahsil of Chamoli District.
2.	Tharali Tahsil (Chamoli District)	Portion of Karnaprayag tahsil of Chamoli district
3.	Narendra Nagar Tahsil (Tehri Garhwal District)	Portion of Deoprayag tahsil of Tehri Garhwal district.
4.	Dhumakot Tahsil (Garhwal District)	Portion of Lansdowne tahsil of Garhwal district.
5.	Thali Sain (Garhwal District)	Portion of Pauri tahsil of Garhwal district.
6.	Gangolihat Tahsil (Pithoragarh District)	Portion of Pithoragarh tahsil of Pithoragarh district).
7.	Bhikiya Sain Tahsil (Almora District)	Portion of Ranikhet tahsil of Almora district
8.	Dhari Tahsil (Nainital District)	Portion of Nainital tahsil of Nainital district.
9.	Kosya Kutauli (Nainital District	Portion of Nainital tahsil of Nainital district.
10.	Behat Tahsil (Saharanpur District)	Portion of Saharanpur tahsil of Saharanpur district.
11.	Hardwar Tahsil (Hardwar District)	(i) Portion of Roorkee tahsil of Saharanpur district, (ii) Portion of Najibabad tahsil of Bijnor district.
12.	Laksar Tahsil (Hardwar District)	(i) Portion of Roorkee tahsil of Saharanpur district (ii) Portion of Muzaffarnagar tahsil of Muzaffarnagar district.
13.	Chandpur Tahsil (Bijnor District)	Portions of Bijnor and Dhampur tahsil of Bijnor district.
14.	Modinagar Tahsil	Portions of Ghaziabad and Hapur tahsils of Ghaziabad district.
15.	Siana Tahsil (Bulandshahr District)	Portions of Bulandshahr and Anupshahr tahsils of Bulandshahr district.

16.	Chandausi Tahsil (Moradabad District)	Portions of Bilari & Sambhal tahsil of Moradabad district.
17.	Dhanaura Tahsil (Moradabad District)	Portions of Hasanpur & Amroha tahsils of Moradabad district.
18.	Mirganj Tahsil (Bareilly District)	Portions of Bareilly & Baheri tahsils of Bareilly district.
19.	Patyali Tahsil (Etah District)	Portion of Kasganj and Aliganj tahsils Etah district.
20.	Rasulabad Tahsil	Portions of Derapur, Akbarpur and Bilhaur tahsils of Kanpur district.
21.	Bara Tahsil (Allahabad District)	Portion of Karchhana tahsil of Allahabad district.
22.	Atarra Tahsil (Banda District)	Portions of Baberu and Naraini tahsil of Banda district.
23.	Gola Gokaran Nath Tahsil (Kheri District)	Portions of Mohammadi and Lakhimpur tahsils of Kheri district.
24.	Laharpur Tahsil (Sitapur District)	Portions of Sitapur & Biswan tahsils of Sitapur district.
25.	Lalganj Tahsil (Rae Bareli District)	Portion of Dalmau tahsil of Rae Bareli district.
26.	Tiloi Tahsil (Rae Bareli District)	Portions of Mahrajganj & Salon tahsils of Rae Bareli district.
27.	Mankapur Tahsil (Gonda District)	Portion of Utraula tahsil of Gonda district.
28.	Tulsipur Tahsil (Gonda District)	Portion of Balrampur Tahsil of Gonda district.
29.	Colonelganj Tahsil (Gonda District)	Portions of Tarabganj and Gonda tahsils of Gonda district.
30.	Ramnagar Tahsil (Barabanki District)	Portion of Fatehpur tahsil of Barabanki district.
31.	Rudauli Tahsil (Barabanki District)	Portion of Ram Sanehi Ghat, tahsil of Barabanki district.
32.	Jalalpur Tahsil (Faizabad District)	Portion of Akbarpur tahsil of Faizabad district.
33.	Gauriganj Tahsil (Sultanpur District)	Portions of Amethi & Musafirkhana tahsils of Sultanpur district.

34.	Lalganj Ajhara (Pratapgarh District)	Portions of Pratapgarh & Kunda tahsils of Pratapgarh district.
35.	Bhanpur Tahsil (Basti District)	Portions of Basti & Domariaganj tahsils of Basti district.
36.	Itwa Tahsil (Siddharthnagar District)	Portion of Domariaganj Tahsil of Basti district.
37.	Gola Tahsil (Gorakhpur District)	Portion of Bansgaon tahsil of Gorakhpur district.
38.	Khajni Tahsil (Gorakhpur District)	Portions of Bansgaon & Gorakhpur tahsils of Gorakhpur district.
39.	Sahjanwa Tahsil (Gorakhpur District)	Portion of Gorakhpur tahsil of Gorakhpur district.
40.	Chauri Chaura Tahsil (Gorakhpur District)	Portion of Gorakhpur tahsil of Gorakhpur district.
41.	Nautanwa Tahsil (Maharajganj District)	Portion of Pharenda tahsil of Gorakhpur district.
42.	Nichlaul Tahsil (Mahrajganj District)	Portion of Mahrajganj tahsil of Gorakhpur district.
43.	Rudrapur Tahsil (Deoria District)	Portion of Tahsils Deoria & Salempur of Deoria district.
44.	Tamkuhiraj Tahsil (Deoria District)	Portion of Tahsil Padrauna of Deoria district.
45.	Budhanpur Tahsil (Azamgarh District)	Portion of tahsil Phulpur of Azamgarh district.
46.	Maunath Bhanjan Tahsil (Mau District)	Portions of tahsils Ghosi and Mohammadabad Gohna of Aazamgarh district. Tahsil Rasra of Ballia district.
47.	Badlapur Tahsil (Jaunpur District)	Portions of tahsils Jaunpur, Machhlishahr and Shahganj of Jaunpur district.
48.	Bairiya Tahsil (Ballia District)	Portions of tahsils Ballia and Bansdih of Ballia district.
49.	Bhadohi Tahsil (Varanasi District)	Portion of tahsil Gyanpur of Varanasi district.
50.	Sakaldiha Tahsil (Varanasi District)	Portion of Tahsil Chandauli of Varanasi district.
51.	Lalganj Tahsil (Mirzapur District)	Portion of tahsil Mirzapur of Mirzapur district.
52.	Marihan Tahsil (Mirzapur District)	Portions of tahsils Chunar and Mirzapur of Mirzapur district.
