INTRODUCTORY NOTE

INTRODUCTORY NOTE

Religion is one of the basic cultural characteristics of the population. In a secular State like India, several religions have thrived and every decennial Census has attempted to provide an interesting picture of the religious persuasions of the people of the Country. The data on religion yielded by Census are of great interest to the Anthropologists, Sociologists, Demographers, Administrators, Planners and also layman.

During 1991 Census, through question number 8 of the Individual Slip, enumerators were instructed to record the religion as actually returned by the respondents. The instructions to the Enumerators for filling up question 8 on religion are reproduced below :

"In answering this question, use the following abbreviations:

H	for	Hindus
M	for	Muslims
C	for	Christians
S	for	Sikhs
B	for	Buddhists
J	for	Jains

For others, record the actual religion as returned fully.

If a person says that he has no religion, the answer may be recorded accordingly. Do not mistake religion for caste which will not be recorded here. You should also not try to establish any relationship between religion and mother tongue. Do not write anything in the dotted boxes, but write on the line."

The enumerators were also instructed to copy the returns regarding religion of an individual from question 8 of Individual Slip to column 9 of the Household Schedule. The instructions in this regard were as follows:

"For the person entered in column 2 of the Household Schedule, check if H, M, C, S, B and J or actual religion returned by the person has been recorded in question 8 of the Individual Slip. If so, copy the same in column 9 of the Household Schedule."

Editing of the returns obtained through question 8 of the Individual Slip and editing and matching of the entry in column 9 of the Household Schedule was done in the Regional Tabulation Offices established for manual processing and compilation of Census data. The editing and matching instructions for question 8 of the individual Slip (Religion) are reproduced below:

"Question 8–Religion

Match the entry in column 9 of the Household Schedule for each member of the household with the corresponding entry against question 8 of the Individual Slip. Please note that this check will be made for all types of households, whether normal or institutional or houseless. If these are not the same for any member of the household, correct the entry in column 9 of the Household Schedule on the basis of entry in question 8 of the Individual Slip. If the entry in either the Individual Slip or the Household Schedule is missing for any member of the household copy, the entry from the schedule in which it has been written into the schedule in which it has been missed. If by chance the entry is blank in both the Individual Slip and the Household Schedule for any member of the household, look into the entries of religion in respect of other related members of the household and write the religion indicated therein in both the schedules."

Statement showing distribution of population at State/District level by main religion, other religions and persuasions and religion not stated at 1981 and 1991 Censuses is given on next page.

Seven new districts were created after 1981 Census following which 15 more districts were affected. Figures of 1981 Census recast in the jurisdiction of 1991 Census are presented in the Statements. The procedure adopted for recasting religion wise data in respect of various affected districts has been done as under :

1. Wherever complete rural/urban charges have been transferred from one district to another district, religion wise data as shown in Religion Paper 1 of 1985 have been transferred as such for making adjustments and incorporating necessary changes.

2. Where only some villages of a tahsil were transferred from one district to another, in those cases total population of those villages was distributed according to percentage distribution of religion wise population of that rural charge. The basis of this religion wise adjustment is Paper - 1 of 1985.

C–9—RELIGION TABLE

C–9—RELIGION

NOTE ON RELIGION TABLE

This table corresponds to Table C-VII–Religion of 1961 and 1971 and Table HH-15 of 1981. The only difference is that the figures of religion for 1961, 1971 and 1991 are based on the religion of the individual whereas the figures presented in 1981 were based on religion of head of the household.

The C–9 Religion table gives data for males and females for each of six major religious communities, viz., Buddhists, Christians, Hindus, Jains, Muslims and Sikhs and combined figures for "Other Religions and Persuasions" and "Religion not stated" with rural and urban break-up for State/District/Tahsil/City/Town in alphabetical order. This table is followed by two appendices and an annexure. The figures of other religions have been grouped together in the column "Other Religions and Persuasions". Details of other religions and persuasions, the strength of which at State level is 100 and above is presented in Appendix A accompanying the table. Total population of the remaining faiths having less than 100 followers is given at the State/District level in Appendix B. The Annexure that follows this Appendix gives the details of sects, beliefs or religions clubbed with another religion which is shown at head of the table in block letters.
