FOREWORD

The socio-cultural tables of the 1991 Census are based on questions on age, marital status, literacy, educational level, school attendance, mother tongue, knowledge of other languages, religion and relationship of the members of the household to the head of the household Some of these tables have been generated from the data collected through the Individual Slip while others have been generated from the Household Schedule

2 There are 10 tables proposed to be generated on socio-cultural aspects Of these, 7 tables are based on 10 per cent sample in the states with the population of 10 million & above and on full count basis in the remaining States and Union Territories These have been generated from the individual slip through processing on computer 3 tables, relating to mother tongue, religion and household composition are based on full count and have been produced by manual compilation

3 Tables on age, marital status, educational level and school attendance (Tables C-1 to C-6) have already been released on floppy disks usable on personal computers These are now being brought out in printed form as Part IV A - Socio-Cultural Tables The other tables of this series are published as Part IV B - Socio-Cultural Tables

4 A general note on the socio-cultural tables of the 1991 Census which gives detailed information regarding presentation of tables, concepts used and the relevant questions along with the relevant extracts from the manual of instructions to enumerator is given in the volume for ready and comprehensive reference of the user

5 A separate fly-leaf is also given for each table regarding the contents of the table

6 The 1991 Census Operations were conducted under the overall guidance of my predecessor Shri A R Nanda The work of coding and editing of Individual Slip records were completed in the Directorate of Census Operations and the job of data entry was done in the Direct Data Entry Centre of this organization Thereafter editing and tabulation on computer was done in the Data Processing Division at the headquarters The dissemination of data on computer media and preparation of camera ready copy of the publications were also done in the Data Processing Division

7 The job of scrutiny of the computerised tables, preparation of notes of this publication and arranging the printing of this publication was carried out in the headquarters The scrutiny of the quality of tables was done by a Task Force of officers of this office specially constituted for this purpose

8 I hope this publication will prove useful to administrators, demographers, research scholars and other data users

New Delhi
June 1998

Dr M Vijayanunni
Registrar General and Census Commissioner, India

GENERAL NOTE ON THE SOCIO-CULTURAL TABLES

Traditionally, the Indian Census has been collecting data on the socio-cultural characteristics of the Indian Population The tables on socio-cultural characteristics of 1991 census are based on the data collected through the Individual Slip

The specimen of the Individual Slip is reproduced in Appendix-I In order to facilitate the understanding of the concepts and the questions used in collecting the data for preparation of the tables in this volume, the Instructions to Enumerators for recording the answers to the concerned questions of the Individual Slips are reproduced in Appendix-II

The following tables are presented for this State

C -1	Age, sex and marital status
C -2	Age, sex and level of education-All areas
C -2 Part A	Age, sex and level of education-Urban
C -3 Part A	Attending School/ College by completed level of education, age and sex Urban
C -3 Part B	Attending School/College by completed level of education, age and sex Rural
C -4	Population (Ages 5-19)by single year of age, school attendance and economic activity
C -5	Single year age returns
C -6	Population by five year age groups and sex

Data pertaining to the above tables have been processed from a 10% sample of Individual Slips in respect of all states with a population of 10 million and above i e , Andhra Pradesh, Assam Bihar, Gujarat, Haryana, Karnataka, Kerala, Madhya Pradesh, Maharashtra, Orissa, Punjab, Rajasthan, Tamil Nadu, Uttar Pradesh and West Bengal and on full count in respect of all other states and union territories except Jammu & Kashmir where the 1991 census was not conducted due to the disturbed conditions A note on the sampling procedure adopted in the 1991 Census is given in Appendix III

APPENDIX I

CENSUS OF INDIA 1991 INDIVIDUAL SLIP CONFIDENTIAL

Location Code ( ) Sl No of Household [ ] Pad No
Code No of Development Block Slip No

---

1 Name
2 Relationship to head
3 Male (1)/Female (2)
4 Age
5 Marital status
6 Mother tongue
7 Two other languages known
8 Religion
9 Whether S C (1) or S T (2)
10 Name of Scheduled Caste/Tribe
11 Literate(1)/Illiterate(2)
12 Educational attainment
13 Attending school/college, Yes(1)/No(2)

14A Did you work any time at all last year? Yes / No(H/ST/D/R/B/I/O)
(including unpaid work on farm or in family enterprise)

14B If 'Yes' in 14A, did you work for major part of last year? Yes (1)/No(2)

15A Main activity last year? 'Yes' in 14B (C/AL/HHI/OW) / 'No' in 14B (H/ST/D/R/B/I/O)

If HHI/OW in 15A
(i) Name of establishment
(ii) Nature of industry, trade or service
(iii) Description of work
(iv) Class of worker

15B 'Yes' in 14B—Any other work any time last year? Yes(C/AL/HHI/OW)/No
'No' in 14B—Work done any time last year? (C/AL/HHI/OW)

If HHI/OW in 15B
(i) Name of establishment
(ii) Nature of industry, trade or service
(iii) Description of work
(iv) Class of worker

16A If 'No' in 14A, seeking/available for work ? Yes(1)/No(2)
16B If 'Yes' in 16A, have you ever worked before ? Yes (1)/No(2)

17A Whether you are an Ex-serviceman ? Yes(1)/No(2) ☐

17B If 'Yes' in 17A, Pensioner(1)/Non-Pensioner(2) ☐

18 Birth Place
- (a) Place of birth
- (b) Rural(1)/Urban(2) ☐
- (c) District
- (d) State/Country

19 Last residence
- (a) Place of last residence
- (b) Rural(1)/Urban(2) ☐
- (c) District
- (d) State/Country

20 Reasons for migration from place of last residence (Code)* ☐

21 Duration of residence at the village or town of enumeration ☐

22 For all ever married women only
- (a) Age at marriage ☐
- (b) Number of children surviving at present

Male ☐ Female ☐ Total ☐

(c) Number of children ever born alive

Male ☐ Female ☐ Total ☐

23 For currently married women only
Any child born alive during last one year

Employment (1) | **Business (2)** | **Education (3)** | **Family moved (4)**

Marriage (5) | **Natural calamities like drought, floods, etc** | **Others (7)**

APPENDIX - II

INSTRUCTIONS TO ENUMERATORS FOR RECORDING THE ANSWERS TO THE CONCERNED QUESTIONS RELATING TO SOCIO-CULTURAL TABLES

Q 3 Male (1)/Female (2)

For male, write 1' and for female write 2' in the box provided against this question For eunuchs and hermaphrodites, write 1' in the box Verify with reference to the name and relationship to head recorded under columns 2 and 3 respectively of the Household Schedule that you have noted the sex correctly

Q 4 Age

Record the age of the person in total years completed last birthday in the rectangle provided against this question The age should be recorded in international numerals Very often, there is a tendency on the part of individuals to return years running' rather than years completed' Make sure that only the actual number of years completed is recorded In respect of infants who might not have completed one year by the day of enumeration, their age in completed years must be shown as 0' as they have not yet completed one year of age Make sure that infants even if one day old are invariably enumerated You should not enter the age in months The age of an infant who has not yet completed one year should invariably be noted as 0' only

Q 5 Marital Status

In answering this question use the following abbreviations

For never married, write **NM'**

For currently married, write **M'**

For widowed, write **W'**

For separated or divorced, write **`S'**

The entry is to be made in the manner indicated below

(a) For a person who has never been married at any time before, write NM'

(b) For a person currently married, whether for the first or another time and whose marriage is subsisting at the time of enumeration with the spouse living, write M' Write M' also for persons who are recognised by custom or society as married and for the persons in stable de facto union Even if a marriage is disputed in the locality, write M' if the person concerned says he or she is married or is in stable de facto union

(c) For a widowed person whose husband or wife is dead, and who has not been married again, write W'

(d) For a person who has been separated from wife or husband and is living apart with no apparent intention of living together again or who has been divorced either by decree of a law court or by an accepted social or religious custom but who has not re-married, write S'

(e) For an independent woman return her marital status as declared by her

This question must be answered for all persons irrespective of age For very young children, though we may know that they are not married, the appropriate abbreviation must be entered M' is the abbreviation for currently married' The word currently' does not mean recently' It only means at

present' For example, a man may be 80 years old and may have been married 50 years ago, if his wife is still alive and the marriage subsists, they are currently married'

The only conditions for the marital status to be reckoned as currently married' are that the man and woman are both alive and that their marriage subsists i e , they are not divorced or separated Please note that we are not concerned with the legality of a union

The entry as above will have to be made on the line and not in the dotted box

Q 11 Literate (1)/Illiterate (2)

Definition of a literate A person who can both read and write with understanding in any language is to be taken as literate A person who can merely read but cannot write, is not literate It is not necessary that a person who is literate should have received any formal education or should have passed any minimum educational standard

For a person who is literate, i e , who can both read and write with understanding in any language write 1' in the box provided against this question If there is any doubt about a person's ability to read or write, the test that may be applied for reading is his/her ability to read any portion of the printed matter in the Enumerator ' s Instruction booklet (provided the person is familiar with the Language used in the booklet) and similarly, for writing, he/she should be able to write a simple letter Ability merely to sign one's name is not adequate to qualify a person as being able to write with understanding If a person claims to be literate in some other language with which the enumerator is not acquainted, the respondent ' s word has to be taken as correct Other members of the household may also be able to testify to the literacy of the person enumerated

For a person who is illiterate, i e , who can neither read nor write or can merely read but cannot write in any language, write 2' in the box against this question All children of the age of 6 years or less should be treated as illiterate even if the child is going to a school and may have picked up reading and writing a few odd words

Q 12 Educational Attainment

This question will be asked of only those who are literate and for whom 1' has been recorded against Question 11 For a person who is illiterate and for whom 2' has been recorded in the answer to Question 11, there is no question of ascertaining the educational attainment even if he/she had at some stage attended school and passed a standard and had relapsed into illiteracy In such a case, you should put a dash (—) We are insisting that a dash (—) should be put if there is no educational attainment and not a cross (x), because we want to avoid confusion with 10th standard which a cross may signify You will have to ascertain and record the highest educational level attained by a person for literate, i e for whom 1' is recorded in answer to Question 11

For a person who is still studying in a particular class, the highest educational level attained by him/her will be one that he/she has actually passed and not the one in which he/she is studying For example, a person studying in Ist year B A should be recorded as only PUC' or Higher Secondary or Senior Secondary (10+2)' as the case may be Similarly, for a person studying say in the 4th year of M B B S , his/her educational attainment should be 3rd year of M B B S which is the highest level he/she has actually attained You must record the actual standard passed such as, III standard, VIII standard, Ist year B Com etc , However, if a person merely says that he/she has passed primary, middle, matriculation, school final, higher secondary or senior secondary (10+2) or other definite levels, record him/her as such

The highest educational level attained by the person enumerated should be recorded When a person holds both general and technical qualifications, both of which are of equivalent level or of varying levels such as B Sc (Zoology) and M B B S or B A (Maths) and B E (Bachelor of Engineering), both the technical and general qualifications should be recorded against this question In the case of pass courses, indicate the degree only

In recording the educational level of a graduate or a post-graduate, the major subject such as B Sc (Maths), M A (Economics), M Sc (Botany), B Sc (Agriculture), etc should be noted You should not use abbreviations which are not in common use In such cases, the degree or diploma should be spelt out fully For example, M A(Hindi) and Diploma in Library Science or M A (Sociology) and Diploma in Labour Relations Adequate space has been provided in the slip and you are urged to record the qualification accurately and in sufficient detail This information is vital for manpower planning and should receive your careful attention

The Post-graduates and also those with a technical degree or technical diploma and those with certificates from the Industrial Training Institute(ITI) were asked during the census to fill Post-graduate degree holders and technical personnel schedule and filled in schedules were collected during revisional round between March 1 to 5, 1991 This information was readily available to ascertain information regarding educational attainment against question 12 of the Individual Slip While issuing the Post graduate degree holder and technical personnel schedule for each eligible person in the household, the location code was noted on the schedule and tick (✓) was put against question 12 of the person concerned for whom a post graduate degree holder and technical personnel schedule had been issued A statement was prepared giving the number of blank schedules received, number of schedules issued to eligible persons, number of filled in schedules collected and number of blank schedules returned by enumerator to his/her supervisor The persons have been identified with the help of tick (✓) against question 12 of the Individual slip of person concerned for whom a schedule had been issued The account of schedules issued to eligible persons was maintained During the revisional round between March 1 and 5, 1991 all the post graduate degree holder and technical personnel schedules issued to the member of the households, in the jurisdiction of enumerator were collected by him/her and handed over to the supervisor, while collecting these schedules a reverse stroke (\) was put on the tick (✓) against question 12 of the Individual concerned The marking appeared as (x) to signify that the filled in schedule in respect of that individual had been collected The Individual had been told that if he/she was unable to return it to the enumerator then he had to fold the form, paste and post it and no postage was required as this was paid by the addressee

Q 13· Attending School/College, Yes(1)/No(2)

After you have recorded the answer to Question 12, you have further to ask whether the person whom you are enumerating is attending any school or college If the answer is Yes ' you have to record 1' in the box provided against this question If the answer is No', you should record 2' in the box Please note that illiterates (code 2 against Question 11) can be found attending school Therefore, this question should be asked of all persons, including elderly men and women

In recording answers to this question you are not required to ascertain whether the school/college being attended by the person enumerated is a recognised or unrecognised institution The choice should be left to the respondent as to whether the person is attending school/college Thus, if a person is receiving education through a correspondence course or attending some vocational course or attending the Adult Education Program and returns himself as attending school/college, he/she will be entered as such and code 1 ' will be recorded in the box against this question

ECONOMIC QUESTIONS

In the 1991 Census we intended collecting information regarding the economic activity of the people in great detail so that those who use these data have the type of information they want The economic questions consist of the following

I **Q 14A Did you work any time at all last year ?** **Yes** / **No(H/ST/D/R/B/I/O)**

(including unpaid work on farm or in family enterprise)

Q 14B If 'Yes' in 14A, did you work for major part of last year? Yes(1)/No(2)

II Q 15A Main activity last year ? `Yes' in 14B ( C/AL/HHI/OW ) / `No' in 14B (H/ST/D/R/B/I/O)

Q 15B Yes' in 14B Any other work any time last year? Yes (C/AL/HHI/OW)/No / No' in 14B Work done any time last year?(C/AL/HHI/OW)

III Q 16A If `No' in 14A, seeking / available for work? Yes (1) / No (2)

Q 16B If Yes' in 16A, have you ever worked before? Yes(1)/ No(2)

These questions must be canvassed for every person, irrespective of age or sex Every person must be asked Question 14A, including the very young or very old and the answer to this question must be filled in The other questions will have to be filled in the case of those to whom they are applicable The instructions for filling these questions follow

These questions are meant to get details of the work done by the people with reference to last year We may, therefore, first consider what is meant by work' and what the reference period' is

Definition of work

Work may be defined as participation in any economically productive activity Such participation may be physical or mental in nature Work involves not only actual work but also effective supervision and direction of work It also includes unpaid work on farm or in family enterprise

Reference Period

In all the questions except Question 16B, the reference period is the one year preceding the date of enumeration Certain types of work such as agriculture, household industry like, *Gur* making, etc , are carried on either throughout the year or only during certain seasons or parts of the year, depending on the local circumstances In such cases what we are concerned with is the broad time-span of the agricultural seasons preceding the enumeration For Question 16B, the reference period is any time before one year preceding the date of enumeration

Explanation

There should be no confusion regarding these questions What we are trying to find out is the number of workers and non-workers and among the workers those who had worked for the major part of the year and those who did not worked for the major part of the year Details of their activity are also collected The number of non-workers seeking/available for work and those among them who had not worked before are also collected

Question 14A seeks to find out if a person has done any work at all (including unpaid work on farm or in family enterprise) during the last year or whether he or she did not work at all and if it is the latter, how the person spend his/her time as a non-worker Then Question 14B seeks to find out who among the persons returning Yes' in Question 14A had worked for the major part of the year By major part of the year is meant 6 months(183 days) or more Those who had worked for the major part of the year are termed as Main workers' Those who had not worked for the major part of the year i e , those who had worked for less than six months (183 days) in the year are termed as Marginal workers' Those who had worked for 6 months or more, will answer Yes' for Question 14B For them code 1' has to be recorded in the box But those who have worked for less than six months or 183 days will say No', and for them code 2' is to be recorded in the box for this question Question 15A seeks to elicit information on the activity of the main workers in Question 14B i e , those for whom code 1' has been recorded in the box It will also elicit information about the main activity of the marginal workers' covered in Question 14B, i e , those who have returned No' and for whom code 2' has been recorded in the box against Question 14B

A person may have worked for six months or 183 days or more in one or more than one activity If he/she has worked for 3 months in cultivation, one month in *Gur* making and 3 months as an agricultural labourer in Question 15A, he/she is required to indicate which of these three activities according to him/her was his/her main activity, i e in which capacity he/she spent more time In the instant case since the person has spent three months each in cultivation and as agricultural labourer the choice as to which of these two would be his/her activity should be left to him/her The other work or the secondary work he/she was engaged which has not been entered in Question 15A would be entered in Question 15B Those who have returned No' for Question 14B, i e those who have worked for less than six months or 183 days during the last year and for whom code 2' has been recorded in the box, will have to state whether according to them, they were engaged mainly in household duties, or a student, or dependent or as retired person, rentier, or beggar or inmates of institutions and if not in any of these categories, the person(s) should be put under Others' in Question 15A

In Question 15B, details of secondary work or marginal work are sought to be obtained Those who have worked for the major part of the year i e , those for whom code 1' has been recorded in the box against Question 14B, may have had secondary work and this should be entered in Question 15B The secondary work will be cultivation if agricultural labour has been returned as main activity in Question 15A and vice-versa Those who have not worked for the major part of the year and for whom code 2' has been recorded in the box against Question 14B, must have done some marginal work and these details will be entered in Question 15B It is important that probing questions are asked to elicit correct information

In Question 16A, it is proposed to ask all persons returning No' in question 14A, i e , H/ST/D/R/B/I/O in question 14A, whether he or she has been seeking work or is available for work Question 16B seeks to find out who among the Non-workers returning Yes' in question 16A had ever worked or not before Those who had worked any time before will answer Yes' for question 16B and for them code 1' has to be recorded in the box But those who had not worked any time before will say No' and for them code 2' is to be recorded The main purpose of this question is to elicit information regarding the fresh entrants in the labour market Those returning code 2' for this question will be the fresh entrants in the labour market

It will thus be seen that these questions on economic aspects have been so designed as to identify all the workers, main or marginal and non-workers with reference to the activities during the last one year prior to the date of enumeration It is very important to remember that the period referred to in Question 14A, 14B, 15A and 15B is one year preceding the enumeration Thus, if in some areas, a person has been a cultivator or an agricultural labourer, or has worked in an industry, etc , only in one season, i e less than 6 months/183 days, he/she is not to be treated as a worker for Question 14B His/her economic activity will be reflected in Question 15B Thus, all those returning Yes' in Question 14A must be netted as Yes' in Question 14B or in Question 15B or both

Certain important points that need special emphasis are the following and these should be kept in mind

(i) A person who normally works but has been absent from work during the reference period on account of illness, holiday, temporary closure, strike, etc , must be treated as engaged in the work he/she would otherwise have been doing but for his/her temporary absence

(ii) Persons under training such as apprentices, with or without stipends or wages should be treated as workers

(iii) A person who has merely been offered work but has not actually joined yet, should not be treated as engaged in this work

(iv) If a person is engaged in some economic activity but at the same time does also attend to some household chores or attends a school, etc , he or she would be treated basically as a worker

(v) A person, who merely receives an income, such as a rent receiver or a pensioner who does not have to work for receiving the income, will not be treated as economically active

unless the person is also engaged for some part of the year in some economic activity Similarly, beggars, pensioners, receivers of agricultural or non-agricultural royalty or of rents or dividends who may be earning an income but who are not participating in any productive work should not be treated as working unless they also work in cultivation, industry, trade, profession, business or commerce

(vi) A person who engages himself/herself in work such as rice pounding for sale or wages, or in domestic services for wages for others or minding cattle for wages or selling firewood or making and selling cow dung cakes or selling grass, etc , or any other work like cultivation, etc , he/she should be treated as working under Question 14A However, any person who is engaged only in household duties but doing no other productive work to augments the family's resources should not be considered as working for the purpose of this question

Important

Women are often classified as Non-workers because of non-reporting of their work It also happens tnat women who work for the major part of the year are reported as working for less than six months Special efforts were made for capturing women's work by asking probing Questions

(vii) A man or a woman may be producing or making something only for the domestic consumption of the household and not for sale Such a person is not a worker, even though from his or her point of view the activity is productive

(viii) For an under trial prisoner enumerated in a jail, he/she should be recorded for the work he/she was doing before he/she was apprehended Similarly, for a person temporarily in a hospital or similar institution he/she should be recorded for the kind of work he/she was doing before he/she was admitted into hospital or institution But for convicts in a prison or for long-term inmates of penal or charitable or mental institutions, the persons' previous work should not be recorded, but I' should be recorded For census purposes, inmates of penal or charitable or mental institutions if detained for 6 months or more should be treated as long term and I' should be recorded for them

(ix) A public or social service worker who is engaged in public service activity or a political worker who is also engaged in furthering the political activity of his/her party will be recorded as a worker and entered accordingly Such persons will include members of Parliament, State Legislatures, Local authorities, etc

APPENDIX - III

A NOTE ON SAMPLING AND ESTIMATION PROCEDURE ADOPTED IN 1991 CENSUS

In the 1991 Census sampling was adopted for preparing certain tables based on Individual Slips A 10 per cent sample of Individual Slips was used in all states with a population of 10 million and above i e , Andhra Pradesh, Assam, Bihar, Gujarat, Haryana, Karnataka, Kerala, Madhya Pradesh, Maharashtra, Orissa, Punjab, Rajasthan, Tamil Nadu, Uttar Pradesh and West Bengal In all other states and union territories, the tabulation has been done without resorting to sampling The sample slips were selected linear systematically in each enumeration block with a random start The detailed instructions issued for sampling are given below

INSTRUCTIONS FOR SELECTION OF A 10 PER CENT SAMPLE OF INDIVIDUAL SLIPS

General Instructions to Deputy Directors/ Assistant Directors/Officers in charge of the Edit and Coding Cells where sample is to be drawn

A 10 per cent sample of Individual Slips is to be drawn for the purpose of tabulation The sampling fraction will be same for both rural and urban areas The sample would be drawn separately from each Enumeration Block For this purpose separate random numbers for each Enumeration Block to be used as random start for sample selection would be assigned

2 The process of sample selection would be carried out by one or more teams constituting of Statistical Assistants, Supervisors and Samplers/ Checkers A team will consist of one Statistical Assistant, 3 Supervisors and 9 Samplers/Checkers Each team will have to perform two essential tasks The first will be the physical checking of the number of filled in slips in each Enumeration Block, pad wise and filling up the identification particulars and the relevant columns of the Control Sheet (Annexure II) The second would be the assigning of the random number for each block and selection of the sample It would be essential to assign the work relating to these items to specific Supervisors/Checkers/Samplers

3 The records should be handled charge by charge It should be noted that the procedure for sample selection will not involve handling of Household Schedules and other records Only Individual Slip pads will be used for sample selection

4 The instructions for the Statistical Assistant, Supervisor and Checker/Sampler should be explained to these levels in training classes Normally one day training would be enough Please ensure that the training is intensive You should also make sure that the persons have understood the instructions thoroughly A close supervision during the first few days is essential to ensure that the team understands the procedure well

5 Before the sampling starts, you should ensure that sufficient number of Control Sheets for Sampling - Enumeration Block level (Annexure II) are available with the Supervisors, Checkers/Samplers You will also have to provide sufficient number of rubber stamps to mark (1) Once the sample is picked, the selected sample slips have to be edited, coded and sent for data processing, with suitable identifications

6 You will notice that every Enumeration Block has to be assigned a Random Start for the purpose of sample selection and this Random Start has to be incorporated in the Control Sheet for Sampling-Charge level before the records go to the concerned Sampler Please note that the Random Start will be a number between 1 and 10

7 When records are issued to the Statistical Assistant they should be checked with the inventory for their completeness If any bundle is by chance not issued the Sampling may not be undertaken in the Enumeration Block(s) in that bundle

8 The Sampler would have to identify each sampled Individual Slip The checker after thorough checking will have to affix the Stamp (I) on each such slip at the place indicated in these instructions later You should ensure that sufficient number of such stamps are available Since, in the first stage only the sampled slips would have to be edited, coded and keyed in, on the cover page of each pad against the entry Stage-I, the total number of sample slips in that pad should be recorded by the Checker You should ensure that this is done without fail so that data entry proceeds without any difficulty

Instructions to Statistical Assistant

Since a number of tables based on Individual Slips of the 1991 Census will be prepared on a 10 per cent sample, it is necessary that the sample is selected correctly As the head of a team which is doing the sample selection you are having a great responsibility It is necessary for you to ensure that the sample is selected as per the instructions and all the checks as mentioned have been carried out before the records leave your section for further processing

2 You will be heading a team of 3 Supervisors and 9 Checkers/Samplers Each Supervisor will normally have 3 Checkers/Samplers under him This team will be responsible for selecting the sample, stamping the sampled slips for easy identification at data entry stage and filling up the Control Sheets

3 You should read these instructions very carefully and understand them thoroughly You should also be familiar with the instructions to the Supervisors, Checkers/Samplers before you start your work If at any stage you have any doubt or if your Supervisors, Checkers/Samplers consult you on any point which you are unable to solve then you should immediately consult your Investigator/Assistant Director/Deputy Director for instructions Your basic duties will be the following -

(i) Receiving records from the record room of the charge assigned to you,

(ii) Distributing these records in the manner prescribed to the units under you for sampling and checking,

(iii) Assigning the Random Start for each Enumeration Block,

(iv) Carrying out test checks for sampling, and

(v) Returning the records to the record room after the sampling is over in the same manner in which you got them

4 Before you start your work you should have sufficient number of blank Control Sheet Forms, rubber stamps, ink pads and some blank forms of the Index Slips for Enumeration Blocks as well as bundles to be used in case the original Index Slip has been mutilated You will be handling the following records

(i) The bundles of Individual Slip pads of the charge assigned to you

(ii) The list of Enumeration Blocks which will be given along with the charge records

(iii) The Control Sheets for Sampling Charge Level for assigning the Random Start to each block

5 You should ensure that you have received the records of all relevant Enumeration Blocks for the charge You may check this with the list of Enumeration Blocks provided to you

6 You should issue a few bundles at a time to one Supervisor The inventory should be kept with you One bundle may contain the records of one or more Enumeration Blocks You should ensure that the Supervisor issues only one bundle at a time to a Sampler You should also make sure that the Supervisor fills up the location particulars and the Random Start in the Control Sheet for Sampling-Enumeration Block level for each of the Enumeration Blocks contained in the bundle before issuing the bundle to the Sampler

7 You will also maintain Control Sheets for Sampling-Charge Level The format of this Control Sheet is given in the Annexure 1 After you receive the records for a charge, fill up the first and second columns of this Control Sheet The second column of the Control Sheet contains the Random Start for each Enumeration Block to be allotted by you This may be filled up as described in the next paragraph While handing over the records of the bundle to the Sampler you should also give him the Random Start for the Enumeration Blocks contained in that bundle

8 From the random number table you should select a Random Start between 0 and 9 for sample selection for each block For this purpose you may select any particular row or column of the table Select a single digit random number for the first Enumeration Block of the charge This number will be a number between 0 and 9 (both inclusive) The number zero will stand for Random Start 10 Write the number in column 2 Whenever you get a random number zero, write 10 in column 2 Thereafter you may allot random starts for the next and subsequent Enumeration Blocks sequentially from the first random number selected in the random number table

9 You should supply adequate number of Control Sheets for Sampling- Enumeration Block Level to the Samplers and ensure that the identification particulars of the Enumeration Blocks are properly filled in the Control Sheet

10 While sampling is in progress you should supervise the work closely and ensure that the instructions are carried out properly by the Supervisors, Checkers/Samplers working under you

11 If a Supervisor informs you about any pad of Individual Slip not having pad number then you have to assign a pad number to that pad For this purpose you may assign the pad number as 99001 as the pad number for the first such pad in that charge Pad numbers may be assigned sequentially within the charge to any other pad which does not have pad number

12 When you get back the records after the sampling operations are over, you should carry out arithmetical checks and satisfy yourself that the sample has been drawn properly You should also fill up the relevant columns of the Control Sheet for Sampling- Charge level

13 After you have received all the records pertaining to all Enumeration Blocks of the charge and carried out the necessary checks you should return the records to the record room You should also complete the Control Sheet for Sampling- Charge level at this point

14 You should inform the record keeper well in advance as to when you are likely to complete the charge so that records of fresh charge may be issued to you This will ensure regular flow of work and no time will be unnecessarily lost in getting the records You should take care to see that the records of one charge do not get mixed up with those of another

15 It is possible that during the handling, the Index Slip pasted or kept on the first pad of the Enumeration Block may get mutilated In such a case you should ensure that a fresh Index Slip is written up and pasted at proper place

Instructions to Supervisor

One Supervisor will be in charge of the work of 3 Checkers/Samplers Initially all the persons working under a Supervisor may be assigned the work of sampling After the work of sampling has been completed for a sufficient number of Enumeration Blocks one or two of the Checkers may be assigned the job of checking the sample selection In this way it may be ensured that the Checker does not remain idle for want of work

2 You will be receiving a few bundles of Individual Slip pads at a time One bundle will sometimes contain the records for more than one Enumeration Block You should issue only one bundle at a time to a Sampler You should fill up the location particulars on the top of the Control Sheets for Sampling - Enumeration Block level for each of the Enumeration Blocks in the bundle and copy of the Random Start from the Control Sheet-Charge level available with the Statistical Assistant These sheets should be issued along with the bundle to the sampler

3 You should go through the instructions to the Samplers and Checkers and ensure that the work is being done according to instructions You should take care to see that a Checker or a Sampler is dealing with only one Enumeration Block at a time You should also assist the Statistical Assistant in the record management During sampling operations if the Sampler reports that the pad does not have a pad number then you will have to consult the Statistical Assistant to assign a pad number The work of the Checkers and Samplers should be thoroughly checked at every stage This involves the following steps

(a) Before starting the sampling, check

(i) Whether the location code particulars given at the top of the Control Sheet for Sampling Enumeration Block Level tally with those in Index Slip of the concerned Enumeration Block,

(ii) Whether all the Individual Slip pads as per the Index Slip are available in the bundle, &

(iii) Whether the pad number has been entered in the pads properly

(b) After the sample selection has been completed in an Enumeration Block you must check the following

(i) The entries in columns 4, 5 and 6 of each line of the Control Sheet for Sampling - Enumeration Block level,

(ii) Whether the total number of sample slips in the pad and the serial number of the selected sample slips have been entered on the cover page of each pad against the entry(1)

(iii) The total number of sample slips in an Enumeration Block as given in the total of column 4 should be equal to either (total of column 3)/10 or the (total of column 3/10)+1 ignoring the remainder in both the cases This checking should be done for each of the Enumeration Block and wherever there are errors the sampling should be got re-done In such cases the stamps put on the wrongly sampled slips should be crossed out in red ink,

(iv) The column 4 of each line of the Control Sheet for Sampling--Enumeration Block level must be checked in a similar way, and

(v) You should check whether all the sample slips have been stamped and check the number of sampled slip by actual counting of the stamped slips

4 After carrying out all the checks and ensuring that every thing is in order you should hand-over the records and Control Sheets to the Statistical Assistant

Instructions to Checker

Your duties are to check the sampling done by the Sampler and to stamp on the sampled slips for identification You should read and understand the instructions to the Sampler When the sampling is over the Sampler will hand over to you the bundle of Individual Slip pads with its Index Slip and Control Sheets for each enumeration block listed in the list of enumeration blocks

2 You should check the following in the order given below

(i) You should check whether all the pads as per the Index Slip have been entered in the Control Sheet for Sampling-Enumeration Block level and whether the total number of valid slips entered in the cover page of each pad tallies with what is

entered in the Control Sheet for Sampling -- Enumeration Block level In case of discrepancies corrections must be made after counting the slips again

(ii) Take the first pad of the block Count the number of valid slips from the beginning to the first slip (including it) that has been selected by the Sampler This slip would have been folded now This number should be equal to the random start assigned to the block If the Sampler has counted properly affix Stamp(1) on the right hand bottom corner of the Individual Slip Then count the number of valid slips between the first sampled slip and the second sampled slip (excluding both the folded slips) The number should be equal to 9 If the sample slip has been identified properly affix Stamp (1) on the right hand bottom corner of each sampled slip Similarly check the number of valid slips between the second sampled slip and the third sampled slip and so on till you reach the last sampled slip of the pad While doing this you should also ensure that the sampled slips are also valid filled in slips When you have reached the last sampled slip of the pad count the number of valid filled in slips left after the last sampled slip This number should be equal to the number entered in column 5 of the "Control Sheet for Sampling - Enumeration Block Level" against this pad This number should never be above 10 Repeat these checks for each pad of that block

(iii) The procedure for sample selection suggested is simple and straight forward Normally there should be no mistakes However, if you find that Sampler has not counted the slips properly, either at the starting point or subsequently, you should correct it The "Control Sheet for Sampling-Enumeration Block Level" must also be corrected The rubber stamp (1)Should be affixed only after ensuring the accuracy of sample selection

(iv) Count the number of folded slips in each pad and ensure that the entries made in the "Control Sheet for Sampling-Enumeration Block Level" are correct You should also enter the number of sampled slips in each pad on the cover page of the pad against the item "(1)_____" In case this is not printed on the cover page then you should write at the left hand bottom corner of the cover page the following

Number of slips stamped

Stage 1 _____

Stage 2 _____

Stage 3 _____

Then enter the number of sampled slips in that pad against the entry (1)

(v) After entering the number of selected slips write the serial numbers of the selected slips of that pad in brackets on the same line

3 If at any stage you find that some mistakes have occurred then do not fail to make necessary corrections in the Control Sheet for Sampling-Enumeration Block level After all the Enumeration Blocks in one bundle are checked you should hand over the records to your Supervisor

Instructions to Sampler

Selection of 10 per cent systematic sample of Individual Slips within each Enumeration Block will be done by the Sampler Unfilled or canceled slips should be ignored while selecting sample Only valid filled in Individual Slips will be taken into consideration

2 Before starting sample selection, you must be in possession of the following documents

(i) Bundle containing pads of filled in Individual Slips This bundle may contain the records for one or more Enumeration Blocks depending on the size of the Enumeration Block The bundle will have an Index Slip which will tell you about the Enumeration Blocks, the records of which are present in that bundle

(ii) A control sheet for Sampling-Enumeration Block level form for each Enumeration Block of that bundle with the location particulars and the Random Start already filled in

3 After receiving the above documents you must do the following

(a) Check whether all the pads in the Enumeration Block have a pad number If a pad does not have a pad number, bring it to the notice of your Supervisor who will give a number to it after consulting the Statistical Assistant This pad number must be written by you on the pad cover and all the slips in that pad

(b) If, by any chance, a pad does not have a cover page, you must stick a piece of paper to the first slip of that pad at the top edge and write the location particulars and pad number

(c) Check whether the Individual Slip pads for all the Enumeration Blocks included in this bundle are available by comparing Index Slip for the Enumeration Block kept with the records for each block Take care that the pads of Individual Slips of one Enumeration Block do not mix with those of another

4 If some discrepancies are observed while checking the above points, you must bring these to the notice of the Supervisor and get them corrected before proceeding further

Procedure for sample selection and filling up Control Sheet for Sampling- Enumeration Block Level

5 The Control Sheet for Sampling - Enumeration Block Level plays a vital role in accurate sample selection This should, therefore, be filled in with great care Separate Control Sheet for Sampling - Enumeration Block level should be used for each Enumeration Block

Step 1 (Columns 1, 2 and 3 of the Control Sheet for Sampling- Enumeration Block level) Open the bundle of the filled in Individual Slip pads and with the help of location code make sure that all the pads belong to same Enumeration Block Arrange the pads in ascending order with the help of "Pad No " given on the top right of the cover page Take pads one by one and make the entries in columns 1, 2 and 3 Before making entries in columns 2 and 3 of Control Sheet please ensure that the entries made on cover page of each pad are correct and Individual Slip have been properly scrutinized and edited If the Individual Slips in the pad have not been edited while preparing the Primary Census Abstract in Regional Tabulation Office please consult your Supervisor In edited slips industrial category would have been written in Roman numerals on the left side of Q 15A and in case of slips relating to Scheduled Caste/Scheduled Tribe persons Stamp (3) would have been affixed Make a total of column 3 of Control Sheet and tally it with the corresponding entry in Index Slip If it is not tallying consult your Supervisor before going ahead

Step 2 (columns 4, 5 and 6) Take the first pad and select the first sample slip of the Enumeration Block with the help of Random Start given on the top right of the Control Sheet The Random Start will be in the range 1 and 10 (both inclusive) If Random Start is 7 then the first sample slip will be 7th valid filled in slip of the first pad If the Random Start is 10, then the first sample slip will be the 10th valid filled in slip of the first pad Fold this slip upwards so that edges of the slip do not stick out of the pad so that the sample slip selected by you is easily identified by the Checker Thereafter select every tenth valid filled in slip and fold it If the Random Start is 7, then the folded slips would be 7th, 17th, 27th etc (excluding the canceled and unfilled slips that may occur in between) The sample selection from this pad will stop

when less than 10 valid filled in slips are left Now count the number of slips that you have folded and enter this number in column 4 of the Control Sheet for Sampling Enumeration Block level against the concerned pad number

Count the number of filled in slips left over at the end of the pad, after the last folded slip This should lie between 0 and 9 (both inclusive) Enter this number in column 5

Entry in column 6 of the Control Sheet for Sampling Enumeration Block Level identifies the starting slip for the next pad If, for example, two slips are left over in the first pad after the last sample slip folded, you will continue sample selection from the 8th slip (10-2) of the next pad The number 8, i e (10-2) will be entered in column 6 of the block level Control Sheet for Sampling Enumeration Block level as well as on the front cover page of the next pad

6 Continue sample selection from all the pads of the Enumeration Block in the above manner Please note that the pads must be taken up by you in the same order in which they have been entered in column 2 of the Control Sheet The entries in columns 4 to 6 will have to be carefully made on the line against the pad you are dealing with

7 Even if in a pad there are less than 10 valid filled in slips, you must consider such a pad for sample selection For example, if in pad No 1508 of Enumeration Block No 91, after sample selection, **four slips are left over**, you would have entered 4 in column 5 and 6 **in column 6**, against pad No 1508 This indicates that the first slip to be selected in the next pad i e , pad No 1509 is 6 If in pad No 1509 you find 6 or more slips you will obviously select the 6th slip If, however, in pad No 1509 you find only two filled in slips you will not be able to select any sample in this pad, but the particulars of pad No 1509 must be entered against this pad number in the Control Sheet You will enter in column 3 of the entry corresponding to pad No 1509 the number 2, the total number of filled in slips in that pad In column 4, you will enter 0 because no slip has been selected as a sample In column 5, you will enter 6, which will be the number of slips left over after the last sampled slip This number actually consists of the four slips left over in pad No 1508 and the two slips which are the only ones found in pad No 1509 The starting point for the next pad, i e , pad No 1510 of this Enumeration Block would be 4 which is (10-6) in this case This type of situation would be an extremely rare one as normally only the last pad in an Enumeration Block would have less than 10 valid filled in slips The procedure in such rare cases must be noted and followed carefully

8 In some rare cases, in an Enumeration Block there may be only one filled in pad and the number of valid filled in slips in the pad may be less than 10 In this case also you should attempt to select a sample If the number of filled in Individual Slips in this Enumeration Block is less than the Random Start then no slip will be selected However, the Control Sheet Sampling- Enumeration Block level has to be filled up in this case also For example, if the number of individuals in the block is 4 and Random Start is 5 or 6 or 7 or 8 or 9 or 10, no sample slip will be identified If however, the Random Start is 1 or 2 or 3 or 4 one sample slip will be identified

9 After you have identified the sample slips in a pad and filled in column 4, 5 and 6 of the Control sheet, you must now bundle these pads in the same order as in column 2 of the Control Sheet When you have completed the sampling in all blocks that were given to you, hand them over to the Checker after checking that the Index Slip is at the top of each bundle If the Index Slip is missing prepare a new Index Slip and paste it The Control Sheet for Sampling - Enumeration Block level will also be kept along with the first pad of the Enumeration Block

Important

One bundle may contain the Individual Slip pads for more than one Enumeration Block In such cases you should take care to see that each Enumeration Block is dealt with separately and the pads for more than one block are not mixed up

Estimation Procedure Tables prepared from the 10 percent sample were inflated to get the final estimates This estimation was done at rural, non-city urban and city levels of each district keeping the sex wise figures of literates, population in the age group 0-6 years main workers engaged in either cultivation,

Agricultural labour, Household Industry or other work as controls This was done to ensure that the figures in these tables are consistent with those in PCA

The figures other than those available in PCA are subject to sampling variations The levels of standard errors for different cell values are given in the Annexure IV

Annexure - I to Appendix - III

Control Sheet for Sampling-Charge Level

State Code Name of Charge Code
District Code

TABLE C-1 AGE, SEX AND MARITAL STATUS

FLY-LEAF

This table presents the age, sex and marital status ('never married', 'married', 'widowed' and 'divorced or separated') composition of the population separately for total, rural and urban areas at State, District and City level The age groups adopted are 0-9, 10-14, 15-19, 20-24, 25-29, 30-34, 35-39, 40-44, 15-44, 45-49, 50-54, 55-59, 60-64, 65-69, 70-74, 75-79, 80+ and age not stated

This table is based on information collected through question numbers 3, 4 and 5 of the Individual Slip The questions along with the instructions have been reproduced in the General Note

This table corresponds to Table C-1 of 1981 Census However, the age group 60 years and above has been further split into 60-64, 65-69, 70-74, 75-79 and 80+

C-1 AGE, SEX AND MARITAL STATUS

TABLE C-2 AGE, SEX AND LEVEL OF EDUCATION

FLY-LEAF

This table presents educational level of the population by age and sex Data are presented for the single year ages 7, 8, 9, 10, 11, 12, 13 and 14 and the age groups 0-6, 15-19, 20-24, 25-29, 30-34, 35-39, 40-44, 45-49, 50-54, 55-59, 60-64, 65-69, 70-74, 75-79, 80+ and 'age not stated' This table is presented in two parts, C-2 for all areas and C -2 Part A for urban areas at State, District and City level The data are presented for illiterate and the following educational levels

C-2 -All areas

Literate without any formal schooling (including educational level unclassifiable),
Below Primary,
Primary,
Middle,
Matriculation/Secondary,
Higher Secondary/Intermediate/Pre-University/Senior Secondary,
Non Technical diploma or certificate not equal to degree,
Technical diploma or certificate not equal to degree,
Graduate and above

C-2 Part A-Urban areas

Literate without any formal schooling(including educational level unclassifiable),
Below Primary,
Primary,
Middle,
Matriculation/Secondary,
Higher Secondary/Intermediate/Pre-University/Senior Secondary,
Non Technical diploma or certificate not equal to degree,
Technical diploma or certificate not equal to degree,
Graduate degree other than technical degree,
Post graduate degree other than technical degree,

Technical degree or diploma equal to degree or post-graduate degree
(i) Engineering and Technology,
(ii) Medicine
(iii) Agriculture and Dairying,
(iv) Veterinary,
(v) Teaching,
(vi) Others

These tables C-2 and C-2 Part A have been compiled on the basis of information collected through question numbers 3, 4, 11 and 12 of the Individual Slip These questions along with the instructions have been reproduced in the General Note

This table corresponds to table C-2 of the 1981 Census
