TABLE D-3 MIGRANTS BY PLACE OF LAST RESIDENCE, DURATION OF RESIDENCE AND REASON FOR MIGRATION

FLY-LEAF

This table presents the data of migrants by place of last residence, sex, duration of residence and reason for migration separately for rural and urban areas for States and Union territories. The duration of residence of the migrants have been classified into ranges, i.e., 'All durations of residence', 'less than 1 year', '1-4 years', '5-9 years' and '10+ years'. The reasons for migration are `employment' ,`business', `education',` family moved', `marriage', `natural calamities like drought, floods etc.', and `others'. The place of last residence has been classified as:

A. Last residence elsewhere in India

1. within the state of enumeration

   (a) elsewhere in the district of enumeration
   (b) in other districts of the state

2. states in India beyond the state of enumeration

B. Last residence outside India

1. in countries in Asia
2. in countries outside Asia

C. Unclassifiable

The place of last residence under `A' and each of its sub-part has been classified into rural and urban. Migrants for whom the place of last residence could not be classified as rural or urban have been included in total.

This table has been compiled on the basis of information collected through question numbers 3, 19, 20 and 21 of the Individual Slip. These questions alongwith instructions have been reproduced in the General Note.

This table corresponds to table D-3 of the 1981 Census.
