

2011

Preparatory work for Census 2011

Mapping activity

- As a preparatory work, the properly updated and accurate maps on each administrative unit are required before every Census for proper coverage of entire Geographical area of the country .

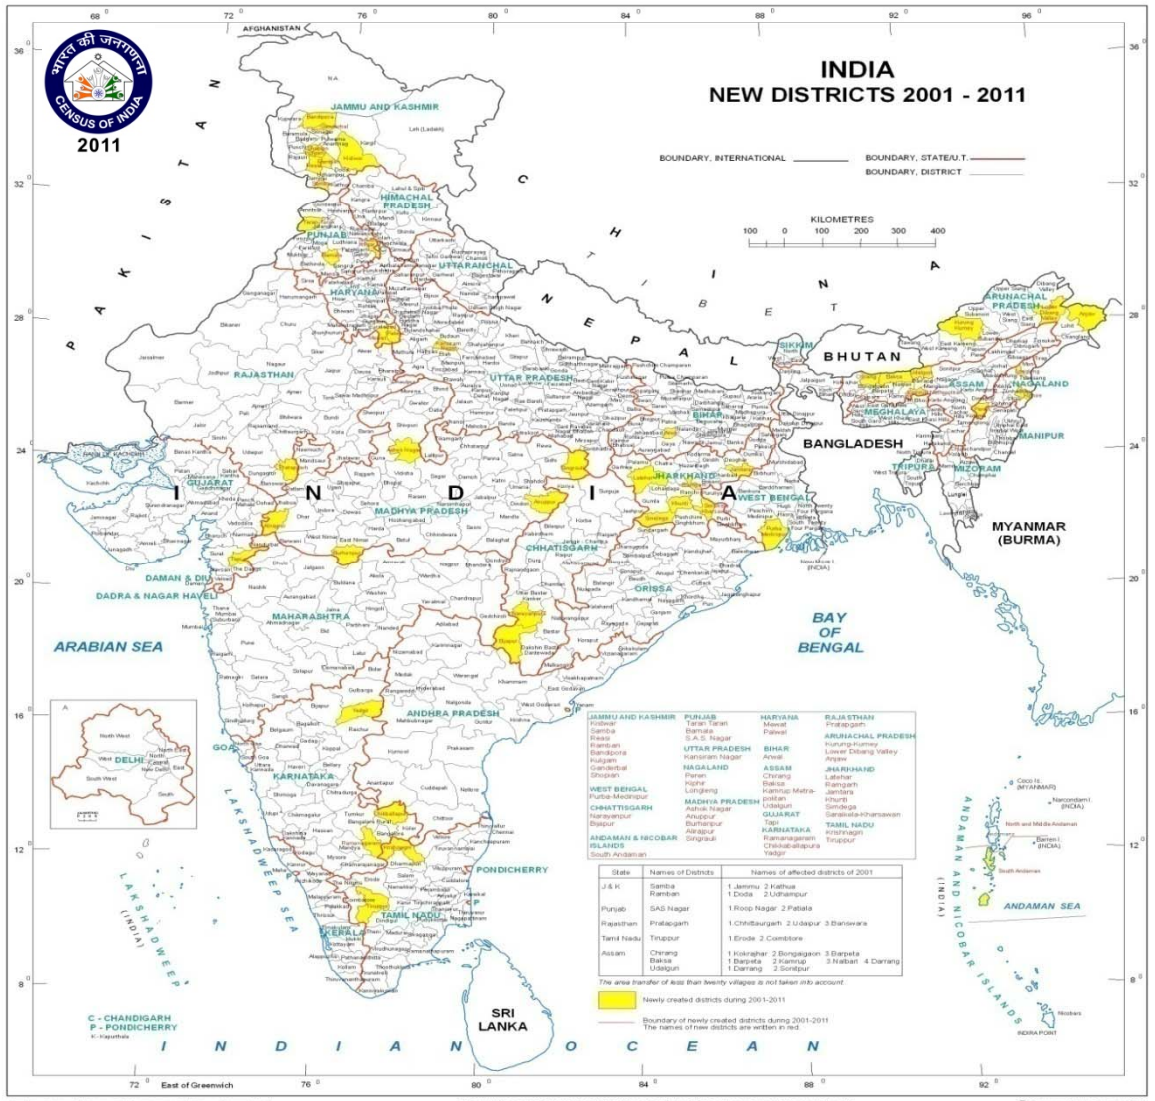

Based upon Survey of India map with the permission of the Surveyor General of India.

The territorial waters of India extend into the sea to a distance of twelve nautical miles measured from the appropriate base line.

The interstate boundaries between Arunachal Pradesh, Assam and Meghalaya shown on this map are as interpreted from the North-Eastern Areas (Reorganisation) Act, 1971, but have yet to be verified.

Vision for 2011

1. We have digital files of all the village in the country .
2. We propose to geo -reference all of them to link the census data and bring a dynamic information system.
3. So far, we have been producing thematic maps but envisaging to offer a GIS based decision support system (DSS) by bringing spatial and non spatial data to-gather
4. It is proposed to generate interactive thematic maps in GIS domain for the user departments , planners, researcher, students and policy makers.
