THE BOTANICAL GARDEN

The Botanical Garden is one of the loveliest spot in Udhagamandalam. Started as kitchen garden which was given final shape by the Marquis of Tweeddale in the year 1847. Good maintenance and availability of variety of exotic and ornamental plants bestow on this garden, a unique position among the several gardens in India. Flowers and seedlings are available for sale in the Botanical Garden. There is a wood-hut (Log House) at the top from where panoramic view of Udhagamandalam can be had. The annual Spring Flower Club is held every year during May which attract large number of tourists. The Botanical Garden have been maintained by the Tamil Nadu Agricultural Department since 1920. In the midst of the garden, just below the small lake, there is a fossil tree trunk of 20 million years old.

Primary Census Abstract for Scheduled Castes 196

Primary Census Abstract for Scheduled Tribes 202

Village Primary Census Abstract - CD Block-wise 208

Urban Primary Census Abstract 220

Annexures and their write-up

Annexure- I : Number of villages under each Gram Panchayat 259

Annexure- II : Fertility and mortality measures 261

Annexure- III : Various measures of fertility and mean age at marriage 262

Annexure- IV : Percentage distribution of population by place of birth/place of last residence 263

Annexure- V : Brief account of main religions 266

Annexure- VI : Marital status of population 267

Annexure- VII : Age, sex and educational level 267

Annexure-VIII : Distribution of different mother tongues 268

Foreword

The District Census Handbook (DCHB) published by Census Organisation since 1951 census, is one of the important publications in the context of planning and development at grossroots level. The publication, which is brought out for each district, contains several demographic and socio-economic characteristics village-wise and town-wise of the district alongwith the status of availability of civic amenities, infrastructural facilities, etc.

The scope of the DCHB was initially confined to a few Census Tables and Primary Census Abstract (PCA) of each village and town within the district. Thereafter, at successive censuses, its scope and coverage has been enlarged. The DCHB published at the 1961 census provided a descriptive account of the district, administrative statistics, census tables and a village and town directory including PCA. The 1971 census-DCHB series was in three parts: Part-A related to village and town directory, Part-B to village and town PCA and Part-C comprised analytical report, administrative statistics, district census tables and certain analytical tables based on PCA and amenity data in respect of villages. The 1981 census DCHB was in two parts: Part-A contained village and town directory and Part-B the PCA of village and town including the SCs and STs PCA up to tahsil/ town levels. New features alongwith restructuring of the formats of village and town directory were added into it. In Village Directory, all amenities except electricity were brought together and if any amenity was not available in the referent village, the distance in broad ranges from the nearest place having such an amenity, was given. Information on new items such as adult literacy centres, primary health sub-centres and community health workers in the village were provided so as to meet the requirements of some of the Revised Minimum Needs Programme. Information on approach to the village was provided for the first time in the Village Directory so as to give the details on number of inaccessible villages in each district. In the Town Directory, a statement (VII) on slums was introduced to provide the details on civic and other amenities in the notified slums of Class I and Class II towns.

The 1991 census DCHB, by and large, followed the pattern of presentation of 1981 census, except the format of PCA was restructured. Nine-fold industrial classification of main workers was given against the four-fold industrial classification presented in the 1981 census. In addition, sex-wise population in 0-6 age group was included in the PCA for the first time with a view to enable the data users to compile more realistic literacy rate as all children below 7 years of age had been treated as illiterate at the time of 1991 census. One of the important innovations in the 1991 census was the Community Development Block (CD block) level presentation of village directory and PCA data instead of the traditional tahsil/taluk/PS level presentation. It was expected that the presentation of village directory and PCA data at CD block level will help the planners in formulation of micro level development plans, CD block being lowest administrative unit.

The present series of 2001 census DCHBs have been made more informative and exhaustive in terms of coverage and content. The Village Directory has been enlarged in scope by including a number of other facilities like banking, recreational and cultural facilities, newspapers and magazines and 'most important commodity' manufactured in village. Income and expenditure of gram panchayat, wherever possible, has been provided. Apart from these, more details on distance(s) at which basic amenities are available (if not available in the village), are given. This includes educational facilities (namely primary and middle schools and college),

medical facilities (viz. Allopathic Hospital, Maternity & Child Welfare Centre and Primary Health Centre), drinking water, post & telegraph (post office and phone), communication, bank, credit societies and recreational facilities. In Town Directory, the statement on Slums has been modified and its coverage enlarged by including details on all slums instead of 'notified slums'. The information is given in case of all statutory towns irrespective of their class, against only Class I and Class II towns in the 1981 and 1991 censuses. The basic amenities available in the villages and towns are analysed in depth with the help of a number of cross-classified inset tables and statements. Two other significant additions in the publication are inclusion of 'motif' highlighting significant characteristic of the district and analytical notes as annexures. The analytical notes on (i) fertility and mortality and (ii) various measures of fertility and mean age at marriage are prepared based on 1991 Census. Whereas, in the notes relating to (i) percentage distribution of migrants by place of birth/place of last residence, (ii) main religions, (iii) marital status of population, (iv) age, sex and education and (v) distribution of spectrum of mother tongue, nature and extent of changes occurred in the district in its basic socio-demographic features during the decade 1991-2001 are analysed. The eight digits permanent location code number (PLCN) to all the villages and towns have been assigned keeping in view the future needs.

The village and town level amenity data have been collected, compiled and computerised in prescribed record structure under the supervision of Dr. C. Chandramouli, Director of Census Operations, Tamil Nadu. Thereafter, efforts have been made to ensure comparability of the information with that of 1991 census data and the information brought out by the respective State Governments in their annual reports and statistical handbooks for various years after 1991. The task of planning, designing and coordination of this publication was carried out by Shri R.G. Mitra, Deputy Registrar General (C&T) and Dr. I.C. Agrawal, Assistant Registerar General of Social Studies Division. Dr. R.P.Singh, Deputy Registrar General (Map) provided the technical guidance in the preparation of maps. Whereas, Shri Anil Kumar Arora, Deputy Director of Data Processing Division who worked under the overall supervision of Shri Himakar, Addl. Director (EDP) helped in preparation of record structure for computerisation of village and town directory data and the programme for the generation of Village Directory and Town Directory statements including analytical inset tables. The draft DCHB manuscripts received from the Census Directorates have been scrutinised in the Social Studies Division under the guidance of Shri S.L. Jain, Deputy Director and Shri R.K. Mehta, Assistant Director. I am thankful to all of them and others who have contributed to make this publication possible.

D.K. Sikri
Registrar General &
Census Commissioner, India

New Delhi

Preface

Publication of the District Census Handbooks (DCHBs) was initiated after the 1951 census and is continuing since then with innovations/modifications after each decennial census. This is the most valuable district level publication brought out by the census organization on behalf of each State Government/Union Territory administration. It *inter-alia* provides data/information on some of the basic demographic and socio-economic characteristics and on the availability of certain important civic amenities/facilities in each village and town of the respective districts.

The District Census Handbook has two segments: Part A and Part B. Part A primarily deals with village and Town Directory and Part B contains Primary Census Abstract of each village and town of the District. The 1991 Census data presentation both in Part A and Part B of this book was the transition from traditional presentation at Taluk level to CD Block level and this pattern continued in 2001 census as well.

For the first time in 2001 census, the District Census Handbooks are being made available in electronic format.

The District Census Handbook is the joint collaboration of the Census Directorate and the Government of Tamil Nadu. On behalf of the Government of Tamil Nadu, this Directorate has prepared the manuscript of this book.

The District Census Handbooks of 2001 have some additional information which is based on the 2001 census as compared to the previous censuses like capturing of information on participation of women in economic activities, netting all the children in age-group 0-14 as also elderly people of age 60 years and above. The data about the number of handicapped persons including partial disability has also been collected in 2001 census for the whole of India. The most important methodological innovation introduced in 2001 census relate to carving out separate slum enumeration blocks.

The data being presented in this publication have been collected and compiled by Shri M.R.V. Krishna Rao, Deputy Director of Census Operations, Tamil Nadu with the assistance of S/Shri S.K. Srivastav, N. Sukumar Nandagopal and A. Achchu Ali, Assistant Directors. For the preparation of manuscript of this book, I received wholehearted co-operation from all the Heads of Departments, Heads of offices of the District / Taluk / Corporation / Municipal / Town and Rural Administration and a number of dedicated and experienced Census staff of this office. I am grateful to all of them for their valuable contribution in the accomplishment of this task of national importance. I must place on record the co-operation extended to me by the press media and electronic media to make the census taking a great success in the state.

I am deeply grateful to Shri J.K. Banthia, IAS the Registrar General and Census Commissioner, India, New Delhi for the valuable guidance and advice at every step till the finalisation of this handbook. I also express my thanks to Dr. I.C. Agrawal, Assistant Registrar General (Social Studies Division) and Shri S.L. Jain, Deputy Director, ORGI, New Delhi for preparing the set of instructions for the compilation of the village and Town Directory and other inset tables etc. being inserted in this District Census Handbook.

In particular, it has to be mentioned that the the write up portion was taken up by Shri M.R.V.Krishna Rao, Deputy Director and finalised by Dr. D. Venkatesan, Deputy Director with the assistance of other members of the staff whose names have been mentioned in the "Acknowledgements".

District Highlights - 2001 Census

1. The Nilgiris District ranks 28th place in terms of population from the highest in Tamil Nadu.
2. This district share urban population of 59.6% to the district total population.
3. The density of population in the District was 299, as against the State level of 480.
4. The Nilgiris District has recorded the highest sex ratio of 1014 as against the State sex ratio of 987.
5. The district has recorded the highest literacy rate of 80% as against the State literacy rate of 73.5%
6. There are 41 inhabited villages in the District.
7. Decadal population growth rate was 7.31% in the district between 1991 and 2001, lesser than the State level of 11.72%.
8. Kotagiri taluk has the highest number of habited village (15) while Coonoor taluk has the lowest number (4) of such villages.
9. The District has 18 towns; 6 new towns have been added and 3 towns were declassified.
10. There were 1,82,682 households in the District.
11. Nearly 60% of the households use firewood as fuel for cooking and only 28% of the households use LPG in the District.
12. Cherangode (L.C. No. 00783500) is the most populated village with 34,020 persons and Nandipuram village (L.C. No. 00785500) is the least populated with 178 persons.
13. Mudumalai (L.C. No. 00783700) of Gudalur Taluk is the largest village with an area of 19,125.27 hectares and Kokkode (L.C. No. 00785700) in Kotagiri Taluk is the smallest village with an area of 140 hectares.

Summary Statements

List of Summary Statements

Statement 1 : Name of the headquarters of District/Taluk, their rural-urban status and distance from District headquarters, 2001.

Statement 2 : Name of the headquarters of District/CD Block, their rural-urban status and distance from District headquarters, 2001.

Statement 3 : Population of the District at each census from 1901 to 2001.

Statement 4 : Area, number of villages/towns and population in District and Taluk, 2001.

Statement 5 : CD Block wise number of villages and rural population, 2001.

Statement 6 : Population of urban agglomerations (including constituent units/towns), 2001.

Statement 7 : Villages with population of 5,000 and above at CD Block level as per 2001 census and amenities available.

Statement 8 : Statutory Towns with population less than 5,000 as per 2001 Census and amenities available.

Statement 9 : Houseless and institutional population of Taluks, Rural and Urban, 2001.

STATEMENT- 1

NAME OF THE HEADQUARTERS OF DISTRICT / TALUK, THEIR RURAL-URBAN STATUS AND DISTANCE FROM DISTRICT HEADQUARTERS, 2001

ANALYTICAL NOTE

Analytical Note

(i) History and Scope of the District Census Handbook

The compilation of District Census Handbook is an innovation of the 1951 Census. District is considered as the most important unit for presentation of Census data. Census Statistics are also compiled for individual villages and towns, as they constitute the basic units of human habitation. Besides this, some other useful information pertaining to the land and the people has also been included in it to make it a self-contained book of reference for the District. It was, however, not altogether a new idea, since census data for smaller units were published in earlier censuses also in one form or the other. For the first time in 1891 District wise list of villages were published giving the population of each village. At the 1911 Census, data of villages were published in the form of village directory. Such village directories were again compiled in the shape of District Census Statistics at the 1921 Census. Finally, District Census Handbooks emerged as regular decennial publication since 1951 Census. The demand for the basic data for the smallest administrative unit was greatly felt in the post-independence era. The ushering in an era of planning and development in the wake of launching of Five year plans after attaining independence, urgent need for detailed data at village level was felt. Thus, when the proposal to bring out District Census Handbook was put before the State Government, they readily agreed for the compilation and printing of District Census Handbooks through their respective Directors of Census Operations, under the authority of local government concerned. The general appreciation and utility of this handbook encouraged the Census Organisation to increase the scope of publication.

The tradition thus built up has been continued in the present series of District Census Handbooks. In the 1971 Census, it had been decided to bring out these hand books in three parts viz; Parts A, B and C. In respect of Tamil Nadu, Parts A and B of this publication had been printed in one volume and part C as a separate volume. During 1981 Census, it had been decided to print it in two parts viz. Parts A and B separately. Part A of this handbook consists of village and Town Directory and part B gives data on Primary Census Abstract (PCA). In 1991 Census also, the same pattern was adopted publishing Parts A and B in a single /double volumes as per the requirement and determining the size of the publication. However, in this census some of the non-census data included are information on girl schools, social forestry areas etc. whereas items like staple food and information on newspapers etc. have been omitted.

In the present Census also, this District Census Handbook is being brought out in a single volume which contain the village and town directory as also the Primary Census Abstract and it should certainly quench the thirst of the planners involved in micro level planning. Similarly, additional data revealing civic and other amenities in class I town has been presented especially in respect of slum dewellers. Scholars and planners alike may benefit from the data on amenities.

(ii) Brief History of the District

The Nilgiris derives its name from the words '*Neel'* (Blue) and '*Giris'* (Mountains). The District derives its charm from its natural setting. Located high above the sea level, situated at the junction of the two Ghat ranges of the Sayadri Hills, the Nilgiris District provides a fascinating view. The steep hills and narrow valleys with numerous perennial rivers and rivulets, running in all the directions with a few fine waterfalls here and there provide beautiful scenery. The grassy heights of the mountains and the thick woods along the lower ranges of these mountains add to its beauty. The temperate and most equable climate further enhances the attractiveness of its setting.

The Nilgiris District is said to be one of those pleasant places that have no history. Even if it had been sufficiently rich or strategically important to tempt any invader, its inhospitable climate, difficult

passes, feverish jungles would have deterred any invader.

Available inscriptions indicate that this area, which constituted the Wynaad, was a part of the territories of Ganga dynasty of Mysore (930 AD). The Hoysalas ruled Wynad during the first quarter of 12th Century AD. Among the Hoysalas, King Vishnuvardhana who ruled from 1104 to 1141 was the first to capture Wynaad and the plateau. As per legend, Vishnuvardhana was said to have "frightened the Todas, driven the Kongus underground, slaughtered Poluvas, put to death the Malayalees, terrified the King Kala and entering into the Nilgiri mountain offered its peak to the Goddess Lakshmi".

In 1310 AD, the rulers of Delhi over threw the Hoysala rulers and this area came under the authority of Madhava Dannayaka who ruled from Terakanambi until 1318.

The Wynads came under the Vijayanagara Kingdom in the early part of the 16th Century. Inscriptions to this effect are found in the District. The Battle of Talikota in 1665 saw the decline of the Vijayanagara Kingdom and the rise of the Deccan Kings. The rule of the Deccan rulers was however short lived. In 1610, King Rajawodayar of Mysore and thereafter, other Kings from Mysore ruled over this area.

In the latter half of the 18th Century, Hyder Ali usurped the throne of Mysore. After the death of Hyder Ali, his son Tipu Sultan ascended the throne. In his reign, garrisoned forts were constructed at Malaikota and Hullikal Durg. In 1799, Tipu was killed in the last Mysore War. The Nilgiris Plateau, which was then known as Dannayakankottai district, was merged with the East India Company's territories.

Though the plateau was transferred to the East India Company as early as 1799, no serious efforts were taken by any Englishmen to climb the hill until 1812. In 1800, efforts were taken by Dr. Francis Buchanan to climb the hill from Dannayakankottai. As he returned to Dannayakankottai on the same day, it was assumed that he would not have climbed beyond Arakod, which is below the Rangaswamy peak. In 1812, William Keys who was an Assistant Revenue Surveyor and an apprentice named Mac Mohan climbed the hill and were the first Englishmen to reach the plateau.

In 1819, a serious attempt was made to climb up to the hill by a new party that included Mr. Sullivan, the then Collector of Coimbatore. This party surveyed the area and they have produced a good account of data of the area. Mr. Sullivan climbed the hill once again in 1819 and selected a place for his residence at Dimhatti. For the first time, he took efforts to construct a bridle path from Sirumugai near Mettupalayam to Kotagiri and Dimhatti with the financial assistance of the Board of Revenue. The Board of Revenue sanctioned Rs. 800 for the Survey and Rs. 300 for the path. Lt. Macpherson took up the task of construction and in 1821 the path was inaugurated. It took two more years to be completed. This bridle path was the best approach to the hills till the construction of the Coonoor Ghat Road in 1830-32. Mr. Sullivan later built his own Bungalow at Kotagiri, which he named as "Stone House".

In 1821-22, Captain B. S. Ward surveyed the area and drew maps of the area. In 1823 a track across the hills to Gudalur and Wynaad was completed. In 1825 the Karkur Ghat from the Malabar to Wynaad was opened and a route to Mysore was also developed.

Sir Thomas Munro, the then Governor of Madras paid a visit to the hills in 1822. Early in 1830, Mr. James Thomas succeeded Mr. Sullivan as the Collector of Coimbatore. During this period, tobacco smuggling was widespread between Malabar and Coimbatore. With a view to arrest this smuggling, a large portion of the hills with the exception of Kotagiri was transferred to Malabar. In 1837, Lord Elphinstone became the Governor. His period saw the opening up of Coffee estates over the hills for the first time. During this time proposals were initiated to retransfer of the hills to Coimbatore and during the Governorship of Marquis of Tweedle (1843) this was given shape. A Military Depot was also established at Wellington during this time.

In 1873 and 1877, the Ouchterlony Valley and South East Wynaad were respectively merged with the District. In 1882, the status of District was conferred on this area and the Commissioner of the district was designated as Collector and the Assistant

Commissioner became Head Assistant Collector. The Collector was also given the powers of an Additional Sessions Judge. The taluk administration came into being with the appointment of a Tahsildar. The jurisdiction of the Coimbatore District Judge extended to this area till a subordinate Judge with first–class magisterial powers was appointed at Ootacamund. The position continued till the British left India in 1947.

Formation of the District

Udhagamandalam is the headquarters of the District. The Nilgiri District is divided into two Revenue Divisions-Coonoor and Gudalur. There are 6 Taluks- Coonoor, Kotagiri, Uthagamandalam, Kundah, Gudalur and Panthalur. In 1991, there were only 4 Taluks- Coonoor, Kotagiri, Uthagamandalam and Gudalur. Kundah taluk from Uthagamandalam Taluk and Panthalur Taluk from Gudalur Taluk were carved out and have been functioning since 15.5.98. There are 41 Revenue Villages in the District. In 1991, there were 45 Revenue Villages in the District. 6 Revenue villages of 1991 have been converted as Urban- Bikkatti, Kilkundah, Sholur, Adigarathi, Hulligal and Ketti. Two Urban units of 1991 have been converted as Revenue Villages- Masinagudi and Konavakorai.

(iii) Administrative Setup

The district has 18 Urban units; 2 Municipalities- Uthagamandalam and Coonoor; 1 Township- Aravankadu; 1 Cantonment- Wellington and 14 Town Panchayats. In 1991, there were only 14 Towns.

Development Administration

The Nilgiris District has four Panchayat Unions (Community Development Blocks)- Gudalur, Uthagamandalam, Kotagiri and Coonoor. There are 34 Village Panchayats in the District.

There are 3 State Legislative Assembly Constituencies- Gudalur, Udhagamandalam and Coonoor in the district. Of these, Coonoor Constituency is reserved for Scheduled Castes. There is 1 Parliamentary Constituency-Nilgiri. This Constituency covers the entire district. In addition, parts of Coimbatore District- Mettupalayam, Avinashi and Thondamuthur Constituencies are also part of this Parliamentary Constituency.

Serial Number	Revenue Division	Taluks	Community Development Blocks (Panchayat Unions)	Number of Villages	In-habited Village	No. of Towns

		Kothagiri	Kothagiri	4	4	7
		Coonoor	Coonoor	5	5	2
Total				**41**	**41**	**18**

(iv) Physical Features

Location and size

The Nilgiris is a mountain district situated in the Northwestern part of the State bordering Kerala and Karnataka State. The Malabar regions of Kerala bound it on the West, the State of Karnataka on the North and Coimbatore District on the East and South. It is spread out between 11° and 11° 55' North Latitudes and 76° 13' and 77° 02' East Longitude.

The total area of the district is 2549 sq. kms. The District could be divided into two distinct natural divisions- the Nilgiris plateau and the South East Wynad land. The plateau is marked with hills and very few valleys. The plateau is further sub-divided into four divisions: Peranganad in the extreme East, the Merkunad on the West, the Todanad in the North and the Kundahnad in the South East.

The Table land is lower in elevation than the plateau and has wide expanses of undulating forests interspersed with fields of paddy and broad patches of bamboo thickets. This is mainly in the Gudalur area.

Physiography

The District has several Hill ranges. The Doddabetta range running North to South lies across the Nilgiris plateau, dividing the region into two almost equal parts. The highest peak of this range is the Doddabetta (8640 feet). Other prominent peaks on the same range are- Club Hill, Elk Hill and Snowden.

The Southern and Eastern portions of the Doddabetta range are lower in elevation. The prominent peaks here are- Devarshola (7417 feet), Kulakambai, Hulikaldurg, Rallia Hill (7688 feet) and Rangaswamy Peak. On the west are the Ulnad Hill (7793 feet), Kulkudi (8002 feet) and Kattakadu (7933 feet).

The Kundah range lies on the South West of Uthagamandalam. Important peaks of this range are: Kalibetta (8182 feet), Devarmala (8304 feet) and the Koleri (8613 feet). On the North of the Kundah range there is the Mukurthi peak (8380 feet) and the Nilgiris peak (8118 feet). In the Wynad region of the district there is the Morappandi Hill (5014 feet).

Drainage

The two main rivers that originate from the District are the Bhavani in the South and the Moyar in the North. There are a large number of streams that drain into these two main rivers. Some of the important streams are: Pykara, Sigur, Kundah, Mudukadu, Grathada Halla, Coonoor, Kateri, Kalakumbai, Pannapuzha, Kalupuzha, Kallailadi and the Chikmoyar. Many of these streams form beautiful cascades and waterfalls.

Climate

The elevation, geographical position, geological structure of the soil, vegetation and the configuration has an impact on the climatic conditions in the District. The higher and western portions of the district come under the influence of the South West Monsoon. The North East Monsoon serves the lower and Eastern parts of the District. The atmosphere is markedly dry during January to March and only by April slight moisture is noticed. Thereafter the humidity varies with the rainfall.

South West		North East		Winter Season		Hot Weather	
Jun-Sep 1999		Oct-Dec 1999		Jan-Feb 2000		Mar-May 2000	
Actual	Normal	Actual	Normal	Actual	Normal	Actual	Normal
689.3	848.1	628.6	494.6	84.4	77.7	116.7	271.9

Source: India Meteorological Department, Chennai

In 1999-2000, The Nilgiris received 1519.0 mm of rainfall as compared to a normal of 1692.3 mm. The Table above gives the actual and normal rainfall in the district during the South West, North East monsoon, winter and hot weather season in 1999-2000 (in mm).

Forest

The total forest area in the district is 1404.33 sq. kms. Of this, 1387.59 sq. kms. is reserved forest. Four types of forests has been identified in the district.

1. Deciduous forests of the slopes
2. Moist evergreen forests of the slopes
3. Woods of the Plateau
4. Grassy lands of the Plateau

Flora

The flora of this region resembles that of the lower hills and plains. The major Timber species found here include 'Irul', Teak, 'Venteak', Sandal Wood and White Cedar. Majority of the trees that grow here are found to be more or less deciduous in character and hence during dry season (January to March) these forests have a bare appearance.

The western slopes with elevation of 3000 feet have tall trees with an average height of 200-250 feet. Though a variety of trees and plants are found here, the timber value is inferior. Iron wood, Red Cedar and Ebony are some of the species found here.

The flora of this region resemble that of the evergreen regions except that the trees do not grow that tall. Mechelia, Nileirica, Hydnocarpus, Alpinus, Melicope Indica are some of the species found here. This tract is covered with short and coarse species of grass. Trees are scarce and sparsely distributed.

Fauna

The fauna of the District is varied. Elephant, Tiger, Leopard, Bison, Bear, Boars, Sambhar, Spotted Deer, Barking Deer, Mouse Deer, Ibex and Wild Dog are some of the more prominent game animals found in the District.

The Mudumalai National Park (established in 1940), spread over 10324 hectares, is situated in this district. The Mukkurthi National Park (established in 1990) spread over 7846 hectares, is also located in this district. The Mudumalai Wildlife Sanctuary (established in 1940) spread over 21776 hectares, is also situated in this district.

Soil

The District does not have any special significance from the geological point of view. Building Stones and Laterite are found in the District. Quartz, Iron, Mica and Peat are also found. The soils of the District are of three major types- Clay, Clayey Loam and Loam with Laterite sub-soil. On account of the Hilly terrain with steep slopes, rate of soil creep and erosion is quite high and hence soil thickness does not exceed more than a meter on the slopes. Light yellow to reddish brown clay soils occur commonly. Humus soil of about 0.5 m thick is confined to the areas covered by thick vegetation.

Land and Land use Pattern

The following Table gives the Land-use pattern in the District in 1998-99.

Sl. No.	Categories	Area in Hectares	Percentage
1	Forest	117,125.0	64.9
2	Irrigated	132.8	0.1
3	Un-irrigated	47,079.5	26.1
4	Cultivable waste including Gauchar and Groves	10,206.2	5.7
5	Area not available for cultivation	6,072.5	3.4
6	Rural area Total	180,616.0	70.9
7	Urban area Total	74,284.0	29.1
	District Total	**254,900.0**	

Agriculture

Tea and Coffee are the principal plantation crops. The Tea and Coffee Plantations were introduced in these hills during 1863. The area now under tea plantation is 21,900 hectares and average annual yield is 34 million kilograms of tea. With the objective of rehabilitating people of Indian origin who migrated to Tamil Nadu, the Government of Tamil Nadu raised tea plantations in the Nilgiri district in the year 1968. The project was implemented by the forest department upto 31.3.1976 and it was converted into a Corporation (TANTEA) on 1.4.1976.Tea auctions are periodically held at Cochin, Coonoor and Coimbatore. The tea produced in the tea factories of the District are of good quality and fetch good prices in auction sales in South India. A sizable quantity of Tea is also exported to countries like U.S.A., Canada, U.K. and Switzerland. Coffee is planted over 8,200 hectares in the district. Paddy and Ragi are the main Cereals. No major Pulses are grown in the District. Potato, Vegetables, Sugarcane and Cotton are also grown in the district.

Area under Crops (in hectares) and Production (in MT) 1998-99

Horticulture

Botanical Garden

The 22 Acre Botanical Garden was laid out in 1847 and is presently maintained by the government of Tamil Nadu. The original purpose of the "Botanical Gardens" was purely academic: to promote and study the various flora in and around Nilgiris. A flower show along with an exhibition of rare plant species is held every year in the month of May at this garden. The garden also has a 20 million year old fossilized tree.

Floriculture

Floriculture, or flower farming, is a discipline of horticulture concerned with the cultivation of

flowering and ornamental plants for gardens and for floristry, comprising the floral industry. The development plant breeding of new varieties is a major occupation of floriculturists.

Floriculture crops include bedding plants, flowering plants, foliage plants or houseplants, cut cultivated greens, and cut flowers. As distinguished from nursery crops, floriculture crops are generally herbaceous. Bedding and garden plants consist of young flowering plants (annuals and perennials) and vegetable plants. Flowering plants are largely sold in pots for indoor use. The major flowering plants are poinsettias, orchids, florist chrysanthemums, and finished florist azaleas. Foliage plants are also sold in pots and hanging baskets for indoor and patio use, including larger specimens for office, hotel, and restaurant interiors.

Cut flowers are usually sold in bunches or as bouquets with cut foliage. The production of cut flowers is specifically known as the cut flower industry. Farming flowers and foliage employs special aspects of floriculture, such as spacing, training and pruning plants for optimal flower harvest; and post-harvest treatment such as chemical treatments, storage, preservation and packaging. In Australia some species are harvested from the wild for the cut flower market.

Tea

The local populace almost entirely depends on the tea trade. The massive private tea plantations that surround the hills produce fresh green tea leaves which are picked, processed and packaged in bulk in local factories, for sale at auction houses in Coonoor, Coimbatore and Cochin.

Sericulture

Coonoor has some Sericulture. The Government operates a Silk Farm, though this is largely a research facility. Floriculture and strawberry cultivation are taking root of late.

Irrigation

There are no major sources of irrigation in the District. Major sources of water supply for irrigation in this District are as follows:

Irrigation Source	Number / Length
Canals	1/2 Kms
Irrigation Wells	254
Tube Wells	0
Reservoirs	0
Tanks	0

Source: Department of Economics and Statistics

There are no major sources of irrigation in the District. Major sources of water supply for irrigation in this District are as follows:

Irrigation Source	Area in Hectares
Govt. Canals	14
Private Canals	0
Tanks	0
Tube Wells	0
Other wells	298
Other sources	150
Total	462

Source: Department of Economics & Statistics, Chennai.

Irrigated Lands

The total irrigation area in this District was 462 hectares only. Out of this, irrigation by wells estimated 298 hectares, other source of irrigation 150 hectares.The public canals irrigation accounts 14 hectares.

Un-Irrigated Lands

Of the total area in the district, 47079.54 hectares have been categorized as un-irrigated lands which works out to 26 per cent of the total area. Forest which is also considered as un-irrigated works out to 64.85 per cent.

Culturable Waste Lands

In the Nilgiris, culturable waste land has also been identified. The area identified as groves and gauchar have also been included under culturable waste. The total area under culturable waste was 10206.17 hectares which works out to 5.65 per cent.

Area Not Available for Cultivation

Of the total area in the district, some area can not be brought under cultivation for different reasons. Such area accounts to 3.36 per cent (6072.53 hectares) in the district.

Rural Water Supply

As on 1.4.2000, there were 993 fully covered habitations (40 lpcd) and 174 partially covered (less than 40 lpcd) in The Nilgiris District. Thus, a total of 1167 habitations had been covered under the rural water supply scheme.

Animal Husbandry

The following table gives the livestock and poultry population of The Nilgiris District in 1998-99. In 1999-2000, there was 1 clinician centre, 2 hospitals, 8 dispensaries, 14 mobile dispensaries, 4 mobile dispensaries, 3 mobile units and 27 sub-centres to takecare of the animal population of this District. The total milk production in this District in the year 1999-2000 was 58.95 tonnes out of which 52.07 tonnes was cow's milk and 6.88 tonnes was buffaloes milk. The egg production in this District in 1999-2000 was 18.15 lakh.

Sl. No.	Livestock and Poultry	Population
1	Cows	54,705
2	Buffaloes	4,246
3	Sheep	7,077
4	Goats	18,196
5	Poultry	68,277
6	Pigs	324

Fisheries

The indigenous fish in this District are minnows and other uneconomic species. Efforts to introduce game fish like Trout in the hill streams of the Nilgiris were made as early as 1863 by Dr. Francis Day by importing ova of the fish from New Zealand. Henry C. Wilson Fish Farm (named after Mr. H. C. Wilson, the founder of the Department, who was deputed in July, 1906 by the Ceylon Fishing Club) is run by the State Fisheries Department. Exotic fish like Mirror Carp, Golden Carp and Leather Carp are reared and soil to the public in this Farm.

Industries

The major Industry in Nilgiris District is the Tea industry. There are a large number of Tea factories in the Private, Cooperative and Public Sector. Manufacturing of wooden tea chests is an ancillary Industry. Unlike tea, coffee crop produced in the Nilgiris Districts are not processed within the district. The processing is done in the plains, either at Mettupalayam or Coimbatore. The Needle Industries (India) Ltd., The Hindustan Photo Films and The Cordite Factory are some of the other major Industries located in this District. Tourism and consequently the Hospitality Industry is another major source of employment and income in the District.

Trade and Commerce

The chief articles of trade in the district are tea, coffee, potatoes, vegetables, fruits, timber, eucalyptus oil, wattle bark, garlic and pepper. Coffee is sent to Mettupalayam and Coimbatore for processing, before they are sold to the Coffee Board. The products grown in the district are marketed both at Ootacamund and Mettupalayam, which is the receiving centre at the foot of the hills. Vegetables and fruits grown here are also marketed likewise. The chief articles required for that the local people here, viz., rice, other foodgrains, clothing and consumer goods are brought from the plains.

Fair Price Shops

There were 314 fair price shops in this District. 300 of this were full-time and 14 part-time. Of this, the Tamil Nadu Civil Supply Corporation runs 14 shops and 296 are run by the Co-operative Department. Others run 4 Shops. This District also has 4 women fair price shops and 8 Mobile fair price shops.

Transport and Communication

The Nagapattinam - Gudalur National Highway Passes through this district. The Nilgiri Ghat Roads link the district with the nearest cities in Tamilnadu, Kerala and Karnataka. All the taluks are connected with Major District Roads. The Nilgiri Mountain Railway from Mettupalayam to Udhagamandalam via Coonoor, is a great tourist attraction. The Nilgiri Mountain Railway, is now a UNESCO World Heritage Site. This services many of the populated areas of the district including Coonoor, Wellington, Aruvankadu, Ketti, Lovedale and Ooty. The nearest international airport to the Nilgiris is at Coimbatore.

Helicopter Service

Steps are being undertaken to start a helicopter shuttle service to Ooty from the nearest airport to Ooty for fixed wing aircraft which is in Coimbatore. It will initially be serviced by a Bell 407 marketed and run by J.B.Aviation with the aircraft leased from

the air service provider Pawan Hans. The aircraft is capable of transporting five passengers along with two crew.

Roads

The Nilgiris District has a good network of Roads. The Kothagiri Ghat road connecting Mettupalayam to Coonoor is the main communication link to Uthagamandalam from the plains. The Singara Ghat road starts from the northern crest of the plateau and passes through Masinagudi and Theppakadu and joins the Gudalur-Mysore road. From Uthagamandalam another Ghat road leads to Araianeke. The road from Karamadai in Coimbatore is extended upto Perumbahalla due to expansion of Kundah Power House II. The Gudalur Ghat road connects Naduvattam and Gudalur. The road to Mysore beyond Gudalur passing through Mudumalai wild life sanctuary serves as the communication link to Mysore. Access to Kozhikode on the West is also possible from Gudalur by State Highway passing through Cherambadi, which is the westernmost village in this district.

In 1996-97, the district has 5294 Kms of Roads connecting various important centres in the region. The total length of surfaced roads in the District is 3758 Kms. This includes, 13 Kms of Cement Concrete Roads, 1678 Kms of Bituminous Roads and 2067 Kms of Water Borne Macadam Roads. Unsurfaced Roads constitute 1536 Kms.

There were 6,282 commercial vehicles and 22,945 non-commercial vehicles registered in The Nilgiris District in 1999-2000. The following table gives the details:

Commercial	Total Registered Veheciles
Stage Carriage-Public	404
Stage Carriage-Private	0

Bus and Railway Stations

The Tamil Nadu State Transport Corporation Ooty runs a fleet of 401 buses in the District.

The Table below gives the comparative picture between 1991 and 2000.

	1991 Villages	2001 Villages
Bus stop	42	37
Railway Station	2	1
Pucca Approach Road	44	37
Not available	--	3

Electricity and Power

According to the Tamil Nadu Electricity Board, all Towns and Villages, 821 hamlets including 87 Adi Dravida Colonies have been electrified. Further, as on 31-03-2000, 1009 pump sets had been energized and 2836 huts provided electricity.

Electricity System (Pykara)

There are 14 dams constructed for different purposes in this district. The Pykara Hydro-Electric Scheme (With a height of 3,080 ft.) was the first power project under taken by the Government of Tamil Nadu in 1929. It utilises the water of the Pykara River which drains a portion of the Nilgiri plateau in a catchment area of 9 square miles with an average rainfall of over 80 inches per annum.

Moyar Project

The Moyar Hydro-Electric station was the first hydro-electric project executed under the Five Year Plans. It utilises the tail end water of the Pykara Station over a drop of 1,300 ft.

Kundah Project

The Kundah Hydro – Electric Scheme is one of the biggest projects undertaken by the State Government. The Scheme utilises all the hydro-potential available in the Kundah basin in the Nilgiris by the construction of five powerhouses that was completed during the Second and Third Five Year Plans. The Government of Canada provided aid under the "Colombo Plan" for construction of the project by way of machinery and material.

Projects under Execution

Sl. No.	Name of Power Station	Year of Operation	Installed Capacity (MW)	Generation (MU)	Station Consumption (MU)	Net Unit sent out (MU)
1	Pykara	1932	70	363	1.0	362.0

8	Pykara Mini	1989	2	9	0.1	8.9

Parsons Valley Hydro Electric Project at a cost of Rs.98.12 Crores and Pykara Ultimate Stage Hydro Electric Project at a cost of Rs. 381.82 Crores are two major projects under execution in this District.

The Parson Valley Dam

It is 10 miles from Udhagamandalam and is 480 feet long at the top, 15 feet wide and 115 feet height above the foundations. It has gross capacity of 680 million cubic feet. This is a source of drinking water supply for this District.

The Avalanche Dam

The Spillway Type dam is 2 Km away from Emerald camp bus stop. The length of the Dam is 1,200 feet with breadth of 21 feet and height of 186 feet. There is also a non-over flow type Dam, which is two furlong from the Emerald Dam Bus stop. The water storage capacity of both dams is 5,500 million cubic feet and the catchment area of the both reservoirs cover 22.6 Sq. miles.

The Upper Bhavani

It is about 7 miles away from Emerald Camp Bus stop up the Bhavani River. The dam measures 1,030 feet long, 20 feet wide and 246 feet high. The water storage capacity is 3,047 million cubic feet and the catchment area covered is 12.8 square miles. The Kundah Fore bay Dam is 560 feet long, 15 feet wide and 95 feet high. The water storage capacity of the Dam is 55 million cubic feet.

Education Facilities

There are 483 primary schools (229 in rural areas and 254 in urban areas), 210middle schools (90 in rural areas and 120 in urban areas), 128 secondary schools (56 in rural areas and 72 in urban areas), 60 senior secondary schools (21 in rural areas and 39 in urban areas), 3 colleges (all in urban areas), 1 industrial schools, 1 training schools (both in rural area) and 6 other literacy centres in the District. Only 2 villages in the District had no educational facility.There were 2 Polytechnics in this District (1 Government and 1 Government aided). There is 1 self-financing Engineering College in the District.

Medical Facilities

Post and Telegraph

There were 145 post offices doing postal business, 37 post offices doing post and telegraph business, 2 telegraphic offices, 41 telephone exchanges providing services to 48568 telephone services.

Commercial Banks

There were 73 commercial bank branches in this District as on 31.3.1999. 32 were located in rural areas and 41 in semi-urban areas. The deposits as on the same date Rs. 547.22 Crores. (Source : Department of Economics & Statistics, Chennai – 600 006).

Noon Meal Centres

There were 864 nutritious meal centres operating in this district in 1999-2000. The total number of children benefited under the scheme in the same yearwas 86074. Of this, 8749 were in the age group of 2-4 years, 55560 in the age group of 5-9 years and 21765 were in the age group of 10-15 years. The details of the number of Centres is are as follows:

Institution	Number
Panchayat Union	484
Municipalities	20
Municipal Corporation	0
TINIP	0
ICDS	360
Total	864

Police

There were 25 police stations, 3 Out Posts and 2 all-women police stations in this District.

Entertainment

Golf

The Royal and ancient game of Golf started in the Nilgiris more then 100 years ago. The present Race course later grew into and 18 hole golf course of international fame. A few holes started in the grounds of ABC(Archery, Badminton, Croquet) club and partly on the adjacent land belonging to Hobart Park. In 1892, the ABC club was amalgamated with the Gymkhana club representing racing and polo interests and all the amusements, thus came under the control of one unit. the Gymkhana club is located

about 5 Km from Udhagamandalam on the road to Mysore.

Gymkhana club commands, an enchanting view of the Kundha range of hills, a land swamp of sholas and the rolling Wenlock downs. The present golf links are laid out over 193 acres.

Horse Race

Every year in the Months of April, May and Middle of June, Madras Race Club is conducting Horse Races in Ooty Race Course

Trekking

Trekking is yet another enterprising sport available in the Nilgiris. There are many trekking routes available in the Nilgiris and the trekking gadgets could be had on daily rent basis from the Forest Authorities. For trekking in Ooty and around Ooty, one must get prior permission from the following authorities.

Flower Show

The usual annual flower show at Udhagamandalam and fruit show at Coonoor are the important cultural events.

People

The Nilgiris is a melting pot of different cultures. In the Southern parts of the District, the influence of the Tamilian culture is seen. In the Western parts of the District the impact of Malayali (Kerala) culture is witnessed and in the Northern parts the Kannada (Karnataka) culture is noticed. However, on account of the large scale influx of tourists and consequently people from all over the country and the world, the culture of the District has become cosmopolitan.

In the beginning of the 18th century the district was populated only by a few tribes- the Todas, Kotas, Kurumbas, Irulas and Badagas. As the Plantations grew and the growth of the tourism industry, there was large scale influx of migrants from all sides. The main communities that came here were -Parayans, Pallans, Chakkiliars, Vellalas, Nairs, Moplahs, Syrian Christians, Okkaligas, Lingayats and Goudas. At present almost every community is found in the District. A description of some of the inhabitants of the District is given below.

Tribals

The total population of Scheduled Tribe in this district is 25,048 which constitutes 15.98 % of the total population of the district. The Scheduled Tribes inhabited in the district are Todas, Kotas, Kurumbas, Irulas, Paniyas, Kttunaickans etc.

Todas

The Todas claim to have been the owners of parts of the plateau, a fact which is acknowledged by the other hill tribes by their contribution in grain or "Goodoo" (tribute) and also by the British by the payment of compensation in money for land taken up for the formation of Uthagamandalam settlement. However, there is no proof that the Todas have actually exercised any sovereign rights over the plateau.

Traditionally, they lived in small hamlets known as 'Munds' consisting of small dome-shaped thatched roofs with a low door through which one had to crawl in and out. Their women were noted for the fancy ringlets and beads that they wore. The most ancient and sacred place of worship for Todas is called 'Pho',located at Muthunad Mund in Uthagamandalam taluk. 'Pho' is circular in shape about 4' high and walls made of granite slabs. Its roof, conical in shape and 20' high is covered by dry grass. There are no idols in the 'Pho' (temple) of 'Todas', except a lamp with ghee prepared from buffalo milk.

The Mukkurthi peak is a spot held very sacred as the residence of a person whom the Todas believe to be the keeper of the portals of heaven. They believe that the spirits of deceased Todas, together with the souls of the buffaloes killed by their friends accompany them to heaven and supply them with milk there.

A belief in witchcraft is common to all the hill tribes. The Todas fear the practice of witchcraft by the Kurumbas. The ceremonies observed by the Todas

on the occasion of their marriage are few and simple. The feast, which is customary in such occasion being given primary attention. On the day of nuptial, the bride is brought to the house of the groom, who places his feet upon the bride's head, while the bride kneels down for the purpose. Dissatisfaction with the wife gives the husband a right to send her back to her parents. Similarly, the wife may leave her husband. The Todas are divided into five clans namely Peiky, Pekkam, Kuttan, Kenna and Tody. The first is considered to be the most aristocratic and they do not intermarry with each other

The custom of polyandry, (woman marrying more than one husband) was common among them. A Toda woman became a wife of all brothers of a family and children were apportioned to her husbands according to seniority. The eldest of the brothers 'Paniyan' means 'servant' in Tamil. They were traditional farm labourers for Chetty landlords who owned extensive land (within the district). With the introduction and abolishing bonded labour system the Paniyan freed themselves from this system.

The Paniyan number less than 3000 in the district. The infant mortality rate among the community is said to be very high and the reason attributed is lack of adequate medical care. To compound these troubles the paniyas do not freely mingle with the people of other communities. Their hamlets are mostly situatedwas considered the father of the first child and so on.

The Todas have two funeral ceremonies; one is performed immediately after death, and the other, about twelve months later. The ceremony observed a year after is considered much more important. The neighbouring Badagas, Kurumbas and others are invited for this ceremony.

Kurumbas

The Kurumbas live on the slopes of the hills. They are divided into five major sects: Pal Kurumbas, Jenu Kurumbas also known as Kattunaickkans, Urali Kurumbas, Betta Kurumbas and Mullu Kurumbas. Except for the Pal Kurumbas, the rest are found largely in the Gudalur area. The Pal Kurumbas live in small hamlets called Kombais. They speak a language that is a slang of Kannada. They are engaged as agricultural labourers and musicians.

The Jenu Kurumbas are found in the Gudalur area. They are however, in constant intercourse with other two tribes for whom they act as priests and musicians. The Kurumbas are classified into three categories, the Mulla Kurumbas, the Naya Kurumbas and the Paniyas. The latter two live in the Wynad. The Kurumbas call their deity Kuriabattaraya meaning lord or possessor of sheep. Now and then, they sacrifice a goat or a fowl.

Kotas

The Kotas formerly lived on the mountain in Mysore called 'Kollimala'. They occupy seven large villages, all of which are known by the general name of 'Kotagiri', or 'cow killers hill'. They are agriculturists, musicians and metal artisans for other tribes. They worship Gods, which are not represented by any image. Their temple is known as 'Ayyanar Gudi', the most important is in 'Kotta Madhan' at Kotagiri in Coonoor Taluk. The bow and arrow are kept as their traditional practice of hunting. Their common name for the God and Goddess is "Kaubetta Raya".

Panias (Paniyan)

The Paniyans are one of the Tribal communities living in Gudalur taluk of the Nilgiri district. The wordon the fringes of jungles. Thatched roof huts with mud walls offer poor shelter from torrential rains experienced during the wet season. To make a living they collect firewood inthe jungle and sell it lin the nearby bazaar. Occasionally, they go for hunting and fishing. Crabs are a delicacy for them.

The women are proud of wearing their traditional dress. They are highly superstitious. They worship goddess 'Kattu Bhagarathi'.

Irulas

The Irulas, like the Kurumbas, live by cultivation in the district. They speak in Tamil. They live on the lowest slopes and are hardly recognised as a hill tribe. Like the other tribes, they are also fond of ornaments and wear strings of red and white beads on their necks, wear bracelets and ear and nose rings.

(v) Census Concepts

Building

A 'Building' is generally a single structure on the ground. Sometimes it is made up of more than one component unit which are used or likely to be used as dwellings (residences) or establishments such as shops, business houses, offices, factories, workshops, worksheds, Schools, places of entertainment, places of worship, godowns, stores etc. It is also possible that building which have component units may be used for a combination of purposes such as shop-cum-residence, workshop-cum-residence, office-cum-residence etc.

Usually a structure will have four walls and a roof. But in some areas the very nature of construction of houses is such that there may not be any wall. Such is the case of conical structures where entrance is also provided but they may not have any walls. Therefore, such of the conical structures are also treated as separate buildings.

Permanent houses

Houses, the walls and roof of which are made of permanent materials. The material of walls can be any one from the following, namely, galvanized iron sheets or other metal sheets, asbestos sheets, burnt bricks, stones or concrete. Roof may be made of from any one of the following materials, namely, tiles, slate, galvanized iron sheets, metal sheets, asbestos sheets, bricks, stones or concrete.

*S*emi-permanent houses

Houses in which either the wall or the roof is made of permanent material and the other is made of temporary material.

Temporary houses

Houses in which both walls and roof are made of materials, which have to be replaced frequently. Walls may be made from any one of the following temporary materials, namely, grass, thatch, bamboo, plastic, polythene, mud, unburnt bricks or wood. Roof may be made from any one of the following temporary materials, namely, grass, thatch, bamboo, wood, mud, plastic or polythene.

Dwelling Room

A room is treated as a dwelling room if it has walls with a doorway and a roof and should be wide and long enough for a person to sleep in, i.e. it should have a length of not less than 2 meters and a breadth of at least 1.5 meters and a height of 2 meters. A dwelling room would include living room, bedroom, dining room, drawing room, study room, servant's room and other habitable rooms. Kitchen, bathroom, latrine, store room, passageway and verandah which are not normally usable for living are not considered as dwelling rooms. A room, used for multipurpose such as sleeping, sitting, dining, storing, cooking, etc., is regarded as a dwelling room. In a situation where a census house is used as a shop or office., etc., and the household also stays in it then the room is not considered as a dwelling room. But if a garage or servant quarter is used by a servant and if she/ he also lives in it as a separate household then this has been considered as a dwelling room available to the servant's household. Tent or conical shaped hut if used for living by any household is also considered as dwelling room.

A dwelling room, which is shared by more than one household, has not been counted for any of them. If two households have a dwelling room each but in addition also share a common dwelling room, then the common room has not been counted for either of the households.

Census House

A 'census house' is a building or part of a building used or recognised as a separate unit because of having a separate main entrance from the road or common courtyard or staircase, etc. It may be occupied or vacant. It may be used for residential or non- residential purpose or both.

In certain peculiar situations, the manner in which buildings and census houses were identified for numbering in the field by the enumerators is described hereunder:

Sometimes a series of different buildings are found along a street which are joined with one another by common walls on either side looking like a continuous structure. These different units are practically

In case of hostels, hotels, etc., even if the door of each room in which an inmate lives opens to a common verandah, staircase, courtyard or a common room, as it happens almost invariably, the entire hostel / hotel building was treated as one census house. but if such

built at different times and owned by different persons. In such cases, though the whole structure with all the adjoining units apparently appears to be one building, each portion was treated as a separate building and its constituent units as separate census houses.

On the other hand, one may come across cases, particularly in large cities of multi-storeyed ownership flats. In these cases while the structure looks like one building, different persons own the flats. In case of such multi-storeyed structures, having a number of flats owned by different persons, the entire structure was treated as one building and each flat as a separate census house.

If within a large enclosed area, there are separate buildings owned by different persons then each such building is treated as a separate building. There can be a situation where within an enclosed compound there are separate buildings owned by an undertaking or company or even government that are actually in occupation of different persons. For example, Indian Oil Corporation colony where the buildings are owned by the Corporation but these are in occupation of their employees. Each such building was treated as a separate building. But if in any one of these buildings there were flats in occupation of different households, each such flat was reckoned as a separate census house.

Sometimes it becomes difficult to apply the definition of census house strictly in certain cases. For example, in an urban area, if a flat has five rooms, each room having direct entrance from the common staircase or courtyard. By definition, this has to be treated as five census houses. If all these five rooms are occupied by a single household it was not realistic to treat them as five census houses. In such a case, 'singleness' of use of these rooms along with the main house should be considered and the entire flat was treated as one census house. On the other hand, if two independent households occupy these five rooms, the first household living in 3 rooms and the second household occupying 2 rooms, then considering the use, the first three rooms together were treated as one census house and the remaining rooms as another census house. But if each room was occupied by an independent household, then each such room was treated as a separate census house.

In case of hostels, hotels, etc., even if the door of each room in which an inmate lives opens to a common verandah, staircase, courtyard or a common room, as it happens almost invariably; the entire hostel/hotel building was treated as one census house., but if such hostels/ hotels have out-houses or other structures used for different purposes or the same purpose, then each such structure attached to the main hostel/hotel was treated as a separate census house.

In some parts of the country, in rural areas, the pattern of habitation is such that a group of huts, located in a compound, whether enclosed or unenclosed, is occupied by one household. While the main residence may be located in one hut, other huts may be used for sleeping, as a kitchen, bath room, baithak, etc. Though each of the huts was a separates structure, they form a single housing unit and therefore, have to be treated collectively as one building and one census house. If some of the huts are used by one household and the others by a second household as residence, then the two groups of huts were treated as separate census houses. However, if there were also other huts in the compound used for other purposes and not as part of the household's residence such as, cattle shed, workshed, etc., these were treated as separate census houses.

On the other hand, in urban areas, where more than one structure within an enclosed or open compound (premises) belonging to the same person, e.g., the main house, the servant's quarter, the garage, etc., only one building number was given for this group and each of the constituent a separate census house number.

Only cases where a structure with roof and pillars has come up was treated as a building.

Village

The basic unit for rural areas is the revenue village, which has definite surveyed boundaries. The revenue village may comprise of one or more hamlets but the entire village is treated as one unit for presentation of data. In unsurveyed areas, like villages within forest areas, each habitation area with locally recognized boundaries is treated as one village.

Rural-Urban area

The data in tables on Houses, Household Amenities and Assets are presented separately for rural and urban

areas. The unit of classification in this regard is 'town' for urban areas and 'village' for rural areas. In the Census of India 2001, the definition of urban area adopted is as follows:

a) All places with a municipality, corporation, cantonment board or notified town area committee, etc.

b) A place satisfying the following three criteria simultaneously:

   i) A minimum population of 5,000;

   ii) at least 75 per cent of male working population engaged in non-agricultural pursuits; and

   iii) a density of population of at least 400 per sq. km.(1,000 per sq. mile)

For identification of places which would qualify to be classified as 'urban' all villages, which, as per the 1991 Census had a population of 4,000 and above, a population density of 400 persons per sq. km. and having at least 75 per cent of male working population engaged in non-agricultural activity were considered. To work out the proportion of male working population referred to above against b) (ii), the data relating to main workers were taken into account.

Apart from these, the outgrowths (OGs) of cities and towns have also been treated as urban under 'Urban Agglomerations'. Examples of out-growths are railway colonies, university campuses, port areas, military camps, etc., that may have come up near a statutory town or city but within the revenue limits of a village or villages contiguous to the town or city. Each such individual area by itself may not satisfy the demographic criteria laid down at (b) above to qualify it to be treated as an independent urban unit but may deserve to be clubbed with the towns as a continuous urban spread. Thus, the town level data, wherever presented, also includes the data for outgrowths of such towns.

City

Towns with population of 100,000 and above are called cities.

Urban Agglomeration

An Urban Agglomeration is a continuous urban spread constituting a town and its adjoining urban outgrowths (OGs) or two or more physically contiguous towns together and any adjoining urban outgrowths of such towns. In some cases, railway colonies, university campuses, port areas, etc., may come up near a city or statutory town outside its statutory limits but within the revenue limits of a village or villages contiguous to the town or city. Each such individual area by itself may not satisfy the minimum population limit to qualify it to be treated as an independent urban unit but may deserve to be clubbed with the town as a continuous urban spread.

For the purpose of delineation of Urban Agglomerations during Census of India 2001, following criteria are taken as pre-requisites:

(a) The core town or at least one of the constituent towns of an urban agglomeration should necessarily be a statutory town; and

(b) The total population of all the constituents (i.e., towns and outgrowths) of an Urban Agglomeration should not be less than 20,000 (as per the 1991 Census).

With these two basic criteria having been met, the following are the possible different situations in which Urban Agglomerations would be constituted:

i) a city or town with one or more contiguous outgrowths;

ii) two or more adjoining towns with their outgrowths; and

iii) a city and one or more adjoining towns with their outgrowths all of which form a continuous spread.

Household

A 'household' is usually a group of persons who normally live together and take their meals from a common kitchen unless the exigencies of work prevent any of them from doing so. Persons in a household may be related or unrelated or a mix of both. However, if a group of unrelated persons live in a census house but do not take their meals from the common kitchen, then they are not constituent of a common household.Each such person was to be treated as a separate household. The important link in finding out whether it was a household or not was a common

kitchen. There may be one member households, two member households or multi-member households.

Institutional Household

A group of unrelated persons who live in an institution and take their meals from a common kitchen is called an Institutional Household. Examples of Institutional Households are boarding houses, messes, hostels, hotels, rescue homes, jails, ashrams, orphanages, etc. To make the definition more clearly perceptible to the enumerators at the Census 2001, it was specifically mentioned that this category or households would cover only those households where a group of unrelated persons live in an institution and share a common kitchen.

Houseless household

Households who do not live in buildings or census houses but live in the open on roadside, pavements, in hume pipes, under flyovers and staircases, or in the open in places of worship, mandaps, railway platforms, etc., are treated as Houseless Households.

Scheduled Castes and Scheduled Tribes

Article 341 of the Constitution provides that the President may, with respect to any State or Union territory, specify the castes, races or tribes or parts of or groups within castes, races or tribes which shall for the purposes of the Constitution be deemed to be Scheduled Castes in relation to that State or Union territory. Article 342 similarly provides for specification of tribes or tribal communities or parts of or groups within tribes or tribal communities which are to be deemed for the purposes of the Constitution to be Scheduled Tribes in relation to the various States and Union territories. In pursuance of these provisions, the list of Scheduled Castes and/or Scheduled Tribes are notified for each State and Union territory and are valid only within the jurisdiction of that State or Union territory and not outside. In September 1956, by an amendment, the Presidential Order of 1950 and in all subsequent Presidential Orders relating to Scheduled Castes, the Hindu and the Sikh religions were placed on the same footing with regard to the specification of Scheduled Castes. Later on, as per the amendment made in the Constitution (Scheduled Castes) Order 1990, the Hindu, the Sikh and the Buddhist were placed on the same footing with regard to the recognition of the Scheduled Castes.

LIST OF SCHEDULED CASTES IN TAMIL NADU

Serial Number	Scheduled Caste
1	Adi Andhra
2	Adi Dravida
3	Adi Karnataka
4	Ajila
5	Arunthathiyar
6	Ayyanavar (in Kanniyakumaari District and Shenkottah taluk of Tirunelveli district)*

Language and Mother tongue

As per the census concept, each language is a group of mother tongues. The census questionnaire collects information on the mother tongue of each person and mother tongue is defined as the language spoken in childhood by the person's mother to the person. If the mother died in infancy, the language mainly spoken in the person's home in childhood will be the mother tongue. In the case of infants and deaf mutes, the language usually spoken by the mother is considered as mother tongue. It is not necessary that the language spoken as mother tongue should have a script. The mother tongues returned by the respondents in census are classified and grouped under appropriate languages according to their linguistic characteristics.

Literate

A person aged 7 years and above who can both read and write with understanding in any language is taken as literate. A person who can only read but cannot write is not literate. It is not necessary that to be considered as literate, a person should have received any formal education or passed any minimum educational standard. Literacy could also have been achieved through adult literacy classes or through any non-formal educational system. People who are blind and can read in Braille are treated as literates.

Literacy rate

Literacy rate of the population is defined as the percentage of literates in the age-group seven years and above. For different age-groups the percentage of literates in that age-group gives the literacy rate.

Educational level

The highest level of education a person has completed.

Work

Work is defined as participation in any economically productive activity with or without compensation, wages or profit. Such participation may be physical and/or mental in nature. Work involves not only actual work but also includes effective supervision and direction of work. It even includes part time help or unpaid work on farm, family enterprise or in any other economic activity. All persons engaged in 'work' as defined above are workers. Persons who are engaged in cultivation or milk production even solely for domestic consumption are also treated as workers.

Reference period for determining a person as worker and non-worker is one year preceding the date of enumeration.

Main worker

A person who has worked for major part of the reference period (i.e. six months or more during the last one year preceding the date of enumeration) in any economically productive activity is termed as 'Main worker'.

Marginal worker

A person who worked for less than six months of the reference period (i.e. in the last one year preceding the date of enumeration) in any economic activity is termed as 'Marginal worker'.

Non-worker

A person who has not worked at all in any economically productive activity during the reference period (i.e. last one year preceding the date of enumeration) is termed as 'Non worker'.

Cultivator :

For purposes of the Census, a person is classified as cultivator if he or she is engaged in cultivation on land owned or held from government or held from private persons or institutions for payment in money, kind or share. Cultivation includes effective supervision or direction in cultivation.

A person, who has given out her/his land to another person or persons or institution(s) for cultivation for money, kind or share of crop and who does not even supervise or direct cultivation in exchange of land, is not treated as cultivator. Similarly, a person working on another person's land for wages in cash or kind or

a combination of both (agricultural labourers) is not treated as cultivator.

Cultivation involves ploughing, sowing, harvesting and production of cereals and millet crops such as wheat, paddy, jowar, bajra, ragi, etc., and other crops such as sugarcane, tobacco, ground-nuts, tapioca, etc., and pulses, raw jute and kindred fiber crop, cotton, cinchona and other medicinal plants, fruit growing, vegetable growing or keeping orchards or groves, etc. Cultivation does not include the following plantation crops – tea, coffee, rubber, coconut and betel nuts (areca).

Agricultural labourer

A person who works on another person's land for wages in money or kind or share is regarded as an agricultural labourer. She/he has no risk in the cultivation, but merely works on another person's land for wages. An agricultural labourer has no right of lease or contract on land on which she/he works.

Household industry worker

Household industry is defined as an industry conducted by the head of the household herself/himself and or by the members of the household at home or within the village in rural areas and only within the precincts of the house where the household lives in urban areas. The larger proportion of workers in household industry should consist of members of the household including the head. The industry should not be run on the scale of a registered factory which would qualify or has to be registered under the Indian Factories Act and should be engaged in manufacturing, processing, servicing and repairs of goods.

It does not include professions such as a pleader, Doctor, Musician, Dancer, Waterman, Astrologer, Dhobi, Barber, etc. or merely trade or business, even if such professions, trade or services are run at home by members of the household.

Other worker

A person, who has been engaged in some economic activity during the reference period but not as a cultivator or agricultural labourer or in Household Industry, is termed as a 'Other Worker (OW)'. The type of workers that come under this category of 'OW' include all government servants, municipal employees, teachers, factory workers, plantation workers, those engaged in trade, commerce, business, transport, banking, mining, construction, political or social work, priests, entertainment artists, etc. In effect, all those workers other than cultivators or agricultural labourers or household industry workers, are 'Other Workers'.

Work participation rate

Percentage of workers (main + marginal) to total population.

Population density

Population density is the number of persons inhabited per square kilometer of the area.

Age

Age is measured in terms of the completed number of years.

Sex ratio

Number of females per 1000 males in a population.

(vi) Non-Census Concepts

Improved drinking water

If the household had access to drinking water supplied from a tap, hand pump, tube well or well (protected or covered) situated within or outside the premises, it is considered as having access to improved drinking water.

It may be mentioned that such uniform definition may not be valid across all States.

System of sewerage

Generally, a sewerage system would mean a network of mains and branches of underground conduits for the conveyance of sewerage to the point of disposal. Sewers that carry only household and industrial wastage are called separate sewers; those that carry storm water from roofs, streets and other surfaces are known as storm water drains, while those

carrying both sewage and storm water are called combined sewers. However, in some towns, which are not provided with such underground sewerage system, it is served by open surface drain, box drain, silk pattern drain, etc., in these towns.

Type of latrine and method of disposal of night soil

There are three prevalent systems of disposal of human wastes, viz. :

(i) underground sewerage,

(ii) sanitary water flush latrines with individual disposal systems, like septic tank, leaching cess pool and collecting well, and

(iii) dry type of latrines with manual scavenging.

the street sewerage with which are connected the sanitary latrines constructed in the houses having water closets and fitted with flushing cistern (or hand flushing). Through this sewer the fecal matter is transported without the need for scavenging. This system generally exists in cities and big towns.

Where the street sewer does not exist, these sanitary water flush latrines are connected to a local septic tank with a sub-soil dispersion system or a leaching pit. Here the liquid wastes from the water closet is disposed of locally in leaching pit, a septic tank with a soil dispersion system is constructed. This dispersion requires an optimum travel through the pores of the soil, which renders the harmful liquid bacterially innocuous by the slow process of filtration through the soil traversed.

Where the soil is impermeable, collecting wells are constructed and the sanitary water flush latrines are connected with them. These wells are cleaned at periodic intervals by a suitable device. The dry type of latrines are of service type latrines from where human excreta is removed by scavengers from house to house, in most cases carrying it on their heads or shoulders or in baskets with handle or wheel barrows. These are then collected in bullock carts or trucks or tractors and trolleys for being carried to the dumping grounds.

Fertility

In demography, the word fertility is used in relation to the actual production of children or occurrence of births specially live births. Fertility is a measure of rate at which population adds to itself by births and normally assessed by relating the number of births to a full or part of the population, such as number of married women or number of women of child-bearing age. The definitions of the terminology used in computing different fertility rates are mentioned below:

Crude birth rate (CBR)

Ratio of the number of live births in a year to the mid year population, normally expressed per 1,000 population.

$$\text{CBR} = \frac{\text{Number of live births during the year}}{\text{Mid–year Population}} \times 1{,}000$$

Crude death rate (CDR)

Ratio of the number of deaths in a year to the mid year population, normally expressed per 1,000 population.

$$\text{CDR} = \frac{\text{Number of deaths during the year}}{\text{Mid-year Population}} \times 1{,}000$$

Natural growth rate

Growth rate is obtained as the difference between crude birth rate and crude death rate in the absence of migration.

Age specific fertility rate (ASFR)

Number of live births in a year to female population in any specified age-group normally expressed per 1,000 women.

$$\text{ASFR} = \frac{\text{Number of live births in a particular age-group}}{\text{Mid-year female population of the same age-group}} \times 1{,}000$$

Age specific marital fertility rate (ASMFR)

Number of live births in a year to married female population in any specified age-group normally expressed per 1,000 married women.

$$\text{ASMFR} = \frac{\text{Number of live births in a particular age-group}}{\text{Mid-year married female population of the same age-group}} \times 1{,}000$$

General fertility rate (GFR)

Number of live births per 1,000 women in the reproductive age-group (15-49) years in a given year.

$$\text{GFR} = \frac{\text{Number of live births in a year}}{\text{Mid-year female population in the age-group (15-49) years}} \times 1{,}000$$

General marital fertility rate (GMFR)

Number of live births per 1,000 married women in reproductive age-group (15-49) years in a given year.

$$\text{GMFR} = \frac{\text{Number of live births in a year}}{\text{Mid-year married female population in the age-group (15-49) years}} \times 1{,}000$$

Total fertility rate (TFR)

It is obtained as the total of the age specific fertility rates (number of children born per woman of the particular age) for the entire reproductive age span. It provides the average number of children that will be born to a woman under the fertility levels indicated by the age specific fertility rates assuming that there is no mortality of women till the completion of reproductive period.

$$\text{TFR} = \frac{5 \times \sum^{45\text{-}49} \text{ASFR}_{15\text{-}19}}{1{,}000}$$

Total marital fertility rate (TMFR)

Average number of children that would be born to a married woman if she experiences the current fertility pattern throughout her reproductive span (15-49) years assuming that there is no mortality of women till the completion of reproductive period.

$$\text{TMFR} = \frac{5 \times \sum^{45\text{-}49} \text{ASMFR}_{15\text{-}19}}{1{,}000}$$

Age-specific mortality rate (ASMR)

Number of deaths in a particular age and sex group per 1000 population of the same age-group.

$$\text{ASMR} = \frac{\text{Number of deaths in a particular age-group}}{\text{Mid-year population of the same age-group}} \times 1{,}000$$

q1

Probability of dying between birth and age 1. This can be used as approximate value of Infant Mortality Rate (IMR) which gives the ratio of number of deaths in a year of children aged less than one year to the number of births in that year.

q2

Probability of dying between birth and age 2.

q5 :

Probability of dying between birth and age 5. This indicator is also known as Under Five Mortality Rate (U5MR).

Infant mortality rate (IMR)

Ratio of the number of infant deaths (deaths of children below one year) in a year to the number of live births in that year.

$$\text{IMR} = \frac{\text{Number of infant deaths during the year}}{\text{Number of live births during the year}} \times 1{,}000$$

Infant mortality rate comprises of two parts, viz., Neo-natal mortality rate and Post neo-natal mortality rate. The neo-natal mortality rate also comprises of two parts viz., Early neo-natal mortality rate and late neo-natal mortality rate. These are defined as:

Neo-natal mortality rate (NMR)

Number of infants dying within the first month of life (28 days or under) in a year per 1,000 live births of the same year.

$$NMR = \frac{\text{Number of infant deaths aged 28 days or under during the year}}{\text{Number of live births during the year}} \times 1,000$$

i) Early neo- natal mortality rate

$$= \frac{\text{Number of infant deaths of less than 7 days during the year}}{\text{Number of live births during the year}} \times 1,000$$

ii) Late neo-natal mortality rate

$$= \frac{\text{Number of infant deaths of 7 days to less than 29 days during the year}}{\text{Number of live births during the year}} \times 1,000$$

Post neo-natal mortality rate (PNMR)

$$= \frac{\text{Number of deaths of 29 days to less than One year during the year}}{\text{Number of live births during the year}} \times 1,000$$

Peri-natal mortality rate (PMR)

Number of still births plus deaths within 1st week of delivery per 1000 births in a year.

$$PMR = \frac{\text{Number of still births and infant deaths of less than 7 days during the year}}{\text{Number of live births and still births during the year}} \times 1,000$$

Still birth rate (SBR)

$$= \frac{\text{Number of still births during the year}}{\text{Number of live births and still births during the year}} \times 1,000$$

Maternal mortality rate (MMR)

Number of deaths of women in the age-group 15-49 while pregnant or within 42 days of termination of pregnancy from any cause related to pregnancy and child birth per 1,00,000 live births in a given year.

$$MMR = \frac{\text{Number of maternal deaths to women in the age group 15-49}}{\text{Number of live birth}} \times 1,00,000$$

Eligible couple (Couples per 1,000 population)

Number of currently married females in the age-group 15-44 years per 1000 persons of all ages.

Child woman ratio (0-4)

1. Number of children in the age-group 0-4 years per 1000 women in the age-group 15-49 years.

Child woman ratio (5-9)

2. Number of children in the age-group 5-9 years per 1000 women in the age-group 15-49 years.

Migration, Internal and International migration, Impact of migration.

Migration

Migration is the third component of population change, the other two being mortality and fertility. A person is considered as a migrant by place of birth if the place in which he is enumerated during the Census is other than the place of his birth. Similarly

a person is considered as a migrant by place of last residence if the place in which he is enumerated during the Census is other than his place of immediate last residence. By capturing the last of the migrations in cases where persons have migrated more than once, this concept would give a better picture of current migration scenarios.

Internal And International Migration

The migrational movements are of three types (i) Migration within the state itself with its components (a) Migration within the district of enumeration (intra district migration) (b) Migration from one district of state to another district of state (interdistrict migration) (ii) Migration from one state to another state of the country interstate migration (iii) Migration from one country to another country. The first two streams together constitute internal migration, while the last type of movement is called international migration.

Impact of Migration

As in 1991 and 2001 Census, like previous Censuses, had collected migration details for each individual by place of birth and last residence. Data on last residence along with details like duration of stay in the current residence and reason for migration provides useful insights for studying migration dynamics of population.

Civic status of urban units

Civic Status of a town/city is determined on the basis of Civic Administrative authority of the town e.g., Municipal Corporation/Corporation, Municipal Committee/Municipal council, Municipality etc.

Size class of UA / town

Size-class of UA / Town is based on the population. UAs / Towns with 100,000 and above population are classified as Class I UAs/Towns. These Class I UAs./ Towns are now further sub classified into seven sub classes namely M1 to M7 depending on the population size of UA/City/Town. These are :

M7 (5,000,000 and above);

M6 (2,000,000 to 4,999,999);

M5 (1,000,000-1,999,999);

M4 (500,000-999,999);

M3 (300,000-499,999);

M2 (200,000-299,999); and

M1 (100,000-199,999).

Towns with 50,000 to 99,999 population are classified as Class II towns, 20,000 to 49,999 population are Class III towns, population with 10,000-19,999 are Class IV towns, population with 5,000 and 9,999 are Class V towns and towns with less than 5,000 population are Class VI towns.

Slum area

The Slum Areas (Improvement and Clearance) Act, 1956, which was enacted by the Central Government defined slums as:

a) Areas where buildings are in any respect unfit for human habitation; or

b) are by reasons of dilapidation, overcrowding, fault arrangement and design of such buildings, narrowness or faulty arrangement of streets, lack of ventilation, light or sanitation facilities, or any combination of these factors, are detrimental to safety, health or morals.

Mega city

The concept of 'Mega city' is a recent phenomenon in the Urban Sociology and is defined in term of metropolitan city in the form of large size, problem of management of civic amenities and capacity to absorb the relatively high growth of population. Indian Census in 1991 treated the population size of 5 million and above as the cut off point to identify a place as the mega city. Whereas, for the purpose of inclusion in Centrally Sponsored Scheme for Infrastructure Development in Mega cities the Ministry of Urban Affairs and employment, Department of Urban Development adopted the criteria of 4 million and above population as per 1991 Census for Mega Cities. In 2001 Census, cities with 10 millions and above population have been treated as Mega cities.

(vii) Census 2001 findings

Census taking is a massive operation carried out in a short span of time with the active participation of a veritable army of enumerators. The reference moment for the 2001 Census is the midnight of 28th February, 2001, i.e., the census provides a snapshot of the population of the country, as it existed at the midnight of 28th February, 2001. Actual enumeration was spread over a period of 20 days from 9th to 28th February, 2001 followed by revisional round up to 5th March, 2001 for up dating of the population figures with reference to the midnight of 28th February, 2001. Household schedule was canvassed by the enumerator and with a view to ensuring uniformity in approach in understanding the various concepts and in proper eliciting and recording of the information, the enumerators and supervisors were imparted both theoretical as well as practical training intensively in 3 rounds.

As a prelude to the actual census the urban and rural areas were identified and listed out in respect of each administrative unit. The Directorte of Census Operations had prepared the list of urban areas and simultaneously, a list of villages. These lists formed the basic frame for the organization of the census operations. There after, geographical areas that could be conveniently covered by each enumerator were carefully carved out to constitute the enumerator's block (EB).

The second major step was the house listing operation, which was carried out in this District during April 2000. Thereafter, in order to adhere to the prescribed workload norms the actual census enumerator's blocks were carefully demarcated on the basis of the house list population and the layout sketches and notional maps prepared for the houselisting operation. Houselisting operation was also utilized to collect wealth of information on items such as predominant material used for construction of houses, amenities available to the census households, number of living rooms etc.

Distribution of population in rural and urban areas

In 2001 the total population of The Nilgiris District was recorded as 7,62,141, the rural population as 3,07,532 and the urban population as 4,54,609. In 1991, the population were 7,10,214; 3,58,129 rural and 3,52,085 urban.

The following table shows the taluk level distribution of population in total, Rural and Urban areas of the Nilgiris District. The Udhagamandalam taluk has come out with highest population of 205,633 and lowest population recorded in the Kundah taluk 52,475.Among the taluks in rural population Udhagamandalam taluk stands first(89,124) followed by Pandalur(75,320), Kotagiri (69,728), Kundah (35,257) and Coonoor(30,663) respectively. Gudalur has recorded the lowest rural population(7,159).

Comparing the population of urban areas Coonoor taluk stands in the first position with (1,44,404) followed by Udhagamandalam (1,16,509) Gudalur (91,053), Kotagiri (43,869) and Panthalur (41,837). In urban population Kundah has recorded the lowest with (16,937).

TABLE A: DISTRIBUTION OF POPULATION –2001

Serial Number	Name of the Taluk	Total Population 2001			Rural Population 2001			Urban Population 2001			Number of Villages		Number of Towns
		Persons	Males	Females	Persons	Males	Females	Persons	Males	Females	Total	Inhabited	
1	2	3	4	5	6	7	8	9	10	11	12	13	14
1	Panthalur	117,157	58,228	58,929	75,320	37,357	37,963	41,837	20,871	20,966	4	4	1

TABLE B: DISTRIBUTION OF VILLAGES BY POPULATION SIZE 2001

Sl.No.	Name of CD Blocks	No.of Villages	<200	200-499	500-1999	2000-4999	5000-9999	10000 & above
			Number and percentage of villages(Figures within brackets are %)					
1	Gudalur	8	0(0.0)	1(12.5)	1(12.5)	0(0.0)	3(37.5)	3(37.5)
2	Udhagamandalam	14	0(0.0)	0(0.0)	1(7.1)	1(7.1)	8(57.1)	4(28.6)
3	Kotagiri	15	2(13.3)	2(13.3)	3(20.0)	2(13.3)	4(26.7)	2(13.3)
4	Coonoor	4	0(0.0)	0(0.0)	0(0.0)	1(25.0)	2(50.0)	1(25.0)
	District Total	41	2(4.4)	3(7.3)	5(12.2)	4(9.8)	17(41.5)	10(24.1)

In 1991, 64% of the inhabited villages were recorded in the population range of 5000 and above, whereas 66% of the inhabited villages have been noticed in the above said range during 2001.

Size, Class and Status of Towns

Out of 18 urban areas in the Nilgiris there are 16 statutory towns(3 Municipalities and 13 Town Panchayats) and 2 Non-statutory towns. In 199, Wellington Cantonment Board is upgraded in 2001 in addition to that one Census Town Hubbathala and Aravankadu Township is considered as a Census Town. Among the statutory towns two Municipalities comes under Class II, one cantonment board comes under Class V, out of 13 Town Panchayats, 2 Town Panchayats are comes under Class II, 6 Town Panchayats are comes under Class III and 6 Town Panchayats are comes under Class IV and one Town panchayat comes under Class V and among two Non-statutory Town one comes under Class IV and once comes under class V.

TABLE C: SIZE, CLASS AND NUMBER OF STATUTORY & NON-STATUTORY TOWNS 2001

Size of the Town	Class	Number of Statutory Towns	Number of Non-Statutory Towns
100000-Plus	I	Nil	Nil
50000-99999	II	2	Nil
20000-49999	III	7	Nil

6	Kundah	53,983	53,983	Nil	52,475	35,538	16,937	-2.8	-34.0	Nil	NIL	32.3
	District Total	710,214	356,784	353,450	762,141	307,532	454,609	7.3	-13.8	28.6	49.8	59.6

Density of Population

Density of population in the Nilgiris district is 299 which is less than the state average of 480. In 1991 the density of population of the district stood as 279.

Sex Ratio

The sex ratio (i.e. females per 1000) of the district is recorded as 1014 higher than against the state figure of 987 during the Census of India, 2001. In 1991 the sex ratio of the district as 983.

TABLE E: DENSITY OF POPULATION / SEX RATIO

Name of the State / District	Density of Population	Sex Ratio
Tamil Nadu	480	987
The Nilgiris	299	1,014

Literacy

The Literacy rate of the district is stood at 80.00 which is higher than the literacy rate of the State (73.45). The Literacy rate for males is higher than females. The male literacy stood 88.54 as compared to 71.64 for females.

TABLE F: LITERACY

Name of the State / District	Percentage of Literates		
	Persons	Males	Females
Tamil Nadu	73.45	82.42	64.43
The Nilgiris	80.00	88.54	71.64

Economic Activity

It can be seen from the table in Main workers forms 40.7% which is lower than Non-worker 54.9% and Marginal Workers 4.4% as far as persons concerned. The Non Workers were 64.6% among female and 45.1 % among males.

TABLE G: ECONOMIC ACTIVITY

Name of the State / District	Persons / Males / Females	Percentage of Workers		
		Main Worker	Marginal worker	Non-worker
Tamil Nadu	Persons	38.1	6.6	55.3
	Males	51.9	5.7	42.4
	Females	24.0	7.5	68.5
The Nilgiris	Persons	40.7	4.4	54.9
	Males	50.4	4.4	45.1
	Females	31.1	4.3	64.6

Work Participation Rate

The total work participation rate of the district is 45.1 in rural areas it is 54.9 and 35.4 in urban areas.

TABLE H: WORK PARTICIPATION RATE

District	T / R/ U	Work Participation Rate
The Nilgiris	Total	45.1
	Rural	54.9
	Urban	35.4

Scheduled Castes and Scheduled Tribes

The following table reveals that Scheduled Castes population in the Nilgiris district was 2.01%; urban with 2.03% and rural areas with 1.99% and Scheduled Tribes population was 4.36%; urban was 4.45% and rural areas was 4.26%.

TABLE I: SCHEDULED CASTES AND SCHEDULED TRIBES POPULATION

District	Total / Rural / Urban	Total Population	Population Percentage	
			Scheduled Castes	Scheduled Tribes
The Nilgiris	Total	762,141	238,014 (2.01)	28,373 (4.36)
		307,532	117,792 (1.99)	14,014 (4.26)
		454,609	120,222 (2.03)	14,359 (4.45)

Note: Percentages are given in paranthesis.

Religion

In our Country, which is a secular Country, many religions have thrived and every Census have attempted to provide an interesting picture of the religions persuasions and belief of the people of the Country.

The following table shows the main religions communities between rural and urban areas of major religions in Nilgiris district 2001.

TABLE J: DISTRIBUTION OF POPULATION BY RELIGION

Religion	Total	Rural	Urban
Hindu	599,047	266,918	332,129
Muslims	72,766	18,538	54,220
Christians	87,272	21,656	65,616
Sikhs	342	25	317
Buddhists	348	35	313
Jains	1,229	16	1,213
Others	167	23	144
Religion not stated	970	321	649

(viii) Brief analysis of data based on inset tables 1 to 52

TABLE 1 : DECADAL CHANGE IN POPULATION OF TALUK BY RESIDENCE, 1991-2001

Serial number	Name of Taluk	Sex ratio		
		Total	Rural	Urban
1	2	3	4	5
1	Panthalur	1,012	1,016	1,005
2	Gudalur	1,010	984	1,013
3	Udhagamandalam	1,005	1,014	998
4	Kotagiri	1,038	1,035	1,043
5	Coonoor	1,004	1,033	998
6	Kundah	1,049	1,053	1,042
	District Total:	**1,014**	**1,025**	**1,007**

This table refers the sex ratio by taluks in Nilgiri district. Out of 6 towns in this district, Kundah taluk has recorded the highest sex ratio of 1049 for 1000 females per 1000 males followed by Kottagiri (1038) and Panthalur while Coonoor has recorded

TABLE 7 : SEX RATIO BY CD BLOCKS, 2001

Serial number	Name of C D block	Sex ratio
1	2	3
1	Gudalur	1,006
2	Udhagamandalam	1,032
3	Kotagiri	1,035
4	Coonoor	1,033
	District (Rural) Total:	**1,025**

The table No. 7 gives the sex ratio by C.D. blocks. It is surprisingly seen that all the 4 C.D. blocks in the district have recorded the sex ratio of more than 1000.

TABLE 8 : SEX RATIO OF RURAL POPULATION BY RANGES, 2001

Range of sex ratio for villages	Number of inhabited villages	Percentage of villages in each range	Population 2001	Percentage distribution of population
1	2	3	4	5
Less than 700	0	0.0	0	0.0
700-749	0	0.0	0	0.0
750-799	0	0.0	0	0.0
800-849	0	0.0	0	0.0
850-899	1	2.4	416	0.1
900-949	2	4.9	17,798	5.8
950-999	9	22.0	41,462	13.5
1000-1099	26	63.4	230,080	74.8
1100+	3	7.3	17,776	5.8
District Total:	**41**	**100.0**	**307,532**	**100.0**

Sex ratio (Rural) for District: 1025

This table explains the sex ratio of rural population by ranges. Out of 41 habited villages in the district 85% of villages with 88% of population are in the range of sex ratio 950 - 1099.

TABLE 9 : SEX RATIO OF URBAN AGGLOMERATIONS / TOWNS, 2001

Serial number	Name of U.A / Town	Urban status of town	Sex ratio
1	2	3	4
1	Adikaratti (TP)	TP	1,064
2	Bikketti (TP)	TP	1,035
	Coonoor (UA)	UA	982
3	(a) Aravankad (TS)	TS	885
4	(b) Coonoor (M)	M	1,022
5	(c) Hubbathala (CT)	CT	1,051
6	(d) Jagathala (TP)	TP	1,044
7	(e) Wellington (CB)	CB	842
	Devarshola(UA)	UA	2,024
8	(a) Devarshola (TP)	TP	1,019
9	(b) Nelliyalam (TP)	TP	1,005
10	Gudalur (TP)	TP	1,014
11	Huligal (TP)	TP	1,012
12	Kethi (TP)	TP	1,042
13	Kilkunda (TP)	TP	1,047
14	Kotagiri (TP)	TP	1,042
15	Naduvattam (TP)	TP	964
16	O' Valley (TP)	TP	1,004
17	Sholur (TP)	TP	1,016
18	Udhagamandalam (M)	M	1,000

Sex ratio (Urban) for the district: 1007

This table provides the sex ratio of UA / Towns of Nilgiris district. Out of 19 towns in this district, Adigarati TP has recorded the highest sex ratio of 1064 for 1000 females per 1000 males followed by Habbathala (1051), Biketti (1047) and Jagathala (1044) whereas Wellington (CT) has recorded the lowest sex ratio of 842. The sex ratio of urban in the district is 1007.

TABLE 10 : SEX RATIO OF POPULATION IN THE AGE GROUP 0-6 FOR TALUK, 2001

Serial number	Name of Taluk	Total / Rural / Urban	Total population in 0-6 age group			Sex ratio for 0-6 age group
			Persons	Males	Females

		Urban	**454,609**	**152,529**	**8,773**	**33.6**	**1.9**

This table gives the No. and percentage of Scheduled Castes and Scheduled Tribes population in taluks of Nilgiris district. Panthalam taluk has recorded 39.3% of Scheduled Caste population followed by Coonoor 33.2% of Scheduled Caste population. Panthal

TABLE 15 : NUMBER AND PERCENTAGE OF SCHEDULED CASTES AND SCHEDULED TRIBES POPULATION IN C.D. BLOCKS, 2001

Serial number	Name of C.D. block	Total population	Total Scheduled Castes population	Total Scheduled Tribes population	Percentage of Scheduled Castes population to total population	Percentage of Scheduled Tribes population to total population
1	2	3	4	5	6	7
1	Gudalur	91,056	23,891	10,338	26.2	11.4
2	Udhagamandalam	116,085	29,493	2,367	25.4	2.0
3	Kotagiri	69,728	18,561	5,939	26.6	8.5
4	Coonoor	30,663	13,540	956	44.2	3.1
	District (Rural) Total:	**307,532**	**85,485**	**19,600**	**27.8**	**6.4**

This table refers the No. and percentage of Scheduled Castes and Scheduled Tribes population in C.D. blocks of Nilgiri district. Maximum of 44.2% of Scheduled Caste population has recorded in Coonoor C.D. block and minimum of 25.4% has recorded in Uthagamandalam C.D. block among Scheduled Tribe population, Gudalur has recorded the highest of 11.4% and Utahgamandalam taluk has recorded the lowest of 2.0%.

TABLE 16 : PROPORTION OF SCHEDULED CASTES POPULATION TO TOTAL POPULATION IN VILLAGES, 2001

Percentage range of Scheduled Castes population to total population	Number of villages	Percentage	Scheduled Castes Population	Percentage
1	2	3	4	5
Nil	4	9.8	0	0.0
Less than 5	2	4.9	214	0.3
5-10	8	19.5	3,989	4.7
11-20	4	9.8	5,611	6.6
21-30	10	24.4	23,243	27.2
31-40	6	14.6	18,716	21.9
41-50	6	14.6	31,853	37.3
51-75	1	2.4	1,859	2.2
76 and above	0	0.0	0	0.0
District Total	**41**	**100.0**	**85,485**	**100.0**

This table gives the proportion of Scheduled Caste population to total population in villages of Nilgiris district. 10 villages (27.2% of population), 6 villages (37.3% of population) and 6 villages (21.9% of population have come under percentage range of Scheduled Caste population to total population 21 - 30, 41 - 50 and 31 - 40 respectively.

TABLE 17 : PROPORTION OF SCHEDULED TRIBES POPULATION TO TOTAL POPULATION IN VILLAGES, 2001

Percentage range of Scheduled Tribes population to total population	Number of villages	Percentage	Scheduled Tribes Population	Percentage
1	2	3	4	5
Nil	1	2.4	0	0.0
Less than 5	17	41.5	1,783	9.1
5-10	9	22.0	6,668	34.0
11-20	4	9.8	5,132	26.2
21-30	2	4.9	3,309	16.9
31-40	2	4.9	654	3.3
41-50	0	0.0	0	0.0
51-75	2	4.9	552	2.8
76 and above	4	9.8	1,502	7.7
District Total	**41**	**100.0**	**19,600**	**100.0**

The table shows the proportion of Scheduled Tribe population to total population in the villages of Nilgiris district. It is noticed that in the percentage range of <5, there are as many as 17 villages followed by 5 - 10 range with 9 villages and 11 - 20 range in the 4 villages having the population of 1783, 6668 and 5132 respectively.

TABLE 18 : NUMBER AND PERCENTAGE OF SCHEDULED CASTES AND SCHEDULED TRIBES IN URBAN AGGLOMERATIONS/TOWNS, 2001

Serial number	Name of UA/ Town	Total population	Total Scheduled Castes population	Total Scheduled Tribes population	Percentage of Scheduled Castes population to total population	Percentage of Scheduled Tribes population to total population
1	2	3	4	5	6	7
1	Adikaratti (TP)	16,003	5,992	217	37.4	1.4

15	Naduvattam (TP)	11,370	9,109	31	80.1	0.3
16	O' Valley (TP)	24,793	10,835	428	43.7	1.7
17	Sholur (TP)	11,152	5,725	1,198	51.3	10.7
18	Udhagamandalam (M)	93,987	26,761	394	28.5	0.4
	District(Urban) Total	**454609**	**152,529**	**8,773**	**33.6**	**1.9**

The above table records the percentage of Scheduled Caste and Scheduled Tribe population of various towns in Nilgiris district. It is seen in the table that Naduvattam town has recorded the highest percentage of Scheduled Caste population with 80.1% while Sholur town has registered highest Scheduled Tribe population with 10.7%. In Devarshola town the Scheduled Caste population is low (17.4%) and in Habbathala the percentage Scheduled Tribe population is only 0.1.

TABLE 19 : SEX RATIO AMONG SCHEDULED CASTES AND SCHEDULED TRIBES IN C. D. BLOCKS, 2001

Serial number	Name of C D block	Scheduled Castes sex ratio	Scheduled Tribes sex ratio
1	2	3	4
1	Gudalur	1,014	1,019
2	Udhagamandalam	1,012	999
3	Kotagiri	1,021	1,010
4	Coonoor	1,016	931
	District (Rural) Total	**1,015**	**1,010**

The table furnishes the sex ratio among Scheduled Caste and Scheduled Tribe in C.D. blocks. Among Scheduled Castes, Kothagiri C.D. block has recorded the highest sex ratio of 1021 and Udhagamandalam is the lowest of 1012. For Scheduled Tribes, Gudalur has the highest sex ratio of 1019, while Coonoor is the lowest of 931.

TABLE 20 : SEX RATIO AMONG SCHEDULED CASTES AND SCHEDULED TRIBES IN URBAN AGGLOMERATIONS / TOWNS, 2001

Serial number	Name of U.A./ Town	Scheduled Castes sex ratio	Scheduled Tribes sex ratio
1	2	3	4
1	Adikaratti (TP)	1,039	1,067
2	Bikketti (TP)	1,077	1,143
	Coonoor UA	1,030	987
3	(a) Aravankad (TS)	1,002	1,077
4	(b) Coonoor (M)	1,025	968
5	(c) Hubbathala (CT)	1,021	1,143
6	(d) Jagathala (TP)	1,038	833
7	(e) Wellington (CB)	1,057	1,000
	Devashola UA	1,969	2,099
8	(a) Devarshola (TP)	958	1,074
9	(b) Nelliyalam (TP)	1,011	1,025
10	Gudalur (TP)	1,035	1,054
11	Huligal (TP)	1,009	982
12	Kethi (TP)	1,066	1,122
13	Kilkunda (TP)	1,044	870
14	Kotagiri (TP)	1,058	1,150
15	Naduvattam (TP)	967	824
16	O' Valley (TP)	1,012	1,048
17	Sholur (TP)	993	1,094
18	Udhagamandalam (M)	1,044	1,226
	Sex ratio (Urban) for the district:	**1,024**	**1,059**

The table provides the sex ratio among Scheduled Castes and Scheduled Tribes in towns of Nilgiris district. Among Scheduled Castes Bikketti town has recorded the highest sex ratio of 1,077 and Devarshola town is the lowest of 958. For Scheduled Tribes, Hubbathala and Bikkatti town have the highest sex ratio of 1,143 while Naduvattam town is the lowest of 824.

TABLE 21 : NUMBER AND PERCENTAGE OF LITERATES AND ILLITERATES BY TALUK, 2001

Serial Number	Name of Taluk	Total / Rural / Urban	Number of literates and illiterates						Percentage of literates			Gap in male - female literacy rate
			Number of literates			Number of illiterates

This table gives the number and percentage of main worker, marginal workers and non-workers by sex in urban agglomeration / towns. The districts (urban) percentage of total workers (main and marginal workers) and non-workers among persons, males and females are 41.2 and 58.8, 53.6 and 46.4 and 29.0 and 71.0. The highest and lowest percentage of total workers among persons are reported in Bikketti (TP) and Coonoor (M) with 53.4 and 34.7. Among males, the highest and lowest percentage of total workers are reported in Wellington (CB) and Devarshola (TP) with 62.0 and 48.9 respectively. Likewise, among females, the highest and lowest percentage of total workers are reported in Bikketti (TP) and Aravankad (TS) with 51.8 and 13.8 respectively. The highest and lowest percentage of non-workers are reported in Coonoor (M) and Bikketti (TP) with 65.3 and 46.6 respectively.

This table gives the percentage of households having improved drinking water soureces Electricity, Bathroom, Toilet and Drainage facility of Nilgiri District. It is seen in the table that the District have Improved Drinking water facility cent percent followed by Electricity 73%, Drainage 71%, Bathroom 52% and Toilet 42% respectively.

* If the household has access to drinking water supplied from a tap or a handpump / tubewell situated within or outside the premises it is considered as having access to “Improved drinking water source”.

TABLE 51: NUMBER AND PERCENT OF HOUSEHOLDS BY TYPE OF FUEL USED FOR COOKING - 2001 CENSUS

TABLE 51: NUMBER AND PERCENT OF HOUSEHOLDS BY TYPE OF FUEL USED FOR COOKING - 2001 CENSUS (Conted…)

Serial number	Taluk	Total / Rural / Urban	Total households	Types of Fuel									
				Fire wood	Crop residue	Cowdung cake	Electricity	Coal / Lignite (charcoal)	Cooking gas (L.P.G.)	Bio-gas	Kerosene	Others	No cooking
1	2	3	4	5	6	7	8	9	10	11	12	13	14
6	Kundah	Total	14,157	11,155	233	2	428	4	1,764	3	554	1	13
				(78.8)	(1.6)	(0)	(3)	(0)	(12.5)	(0)	(3.9)	(0)	(0.1)
		Rural	9,475	7,709	168	1	141	2	1,096	2	350	0	6
				(81.4)	(1.8)	(0)	(1.5)	(0)	(11.6)	(0)	(3.7)	(0)	(0.1)
		Urban	4,682	3,446	65	1	287	2	668	1	204	1	7
				(73.6)	(1.4)	(0)	(6.1)	(0)	(14.3)	(0)	(4.4)	(0)	(0.1)

It can be seen from the above table that firewood is the main source of fuel used for cooking followed by cooking gas (Liquified Pertrolium Gas) and Kerosene. Crop residiue is the least used for cooking firewood is the main source of fuel used for cooking in rural areas than urban areas. Likewise crop residue is used as fuel for cooking in rural areas. Cooking gas (LPG) is used as fuel for cooking largely in urban areas that of rural areas. Likewise, Kerosene is used as fuel for cooking largely in urban areas when compared to rural areas. The households using the rest namely cowdung cake, electricity, coal/lignite, bio-gas and others as fuel for cooking are very meagre (The percentage is negligible). The households reported no cooking is high in Coonoor taluk with 136 and the lowest in Kundah taluk with only 13.

Data source: Census of India 2001, H- series: “Tables on Houses, Household amenities and Assets.”

TABLE 52: NUMBER OF HOUSEHOLDS AVAILING BANKING SERVICES AND NUMBER OF HOUSEHOLDS HAVING EACH OF THE SPECIFIED ASSET, 2001

This table shows the number of households availing banking service and number of households having the following assets. Nearly 50% of the households having Radio/Transister. Following rural areas are having this asset more than their urban counterparts namely Panthalur taluk, Kotagiri taluk and Kundah taluk. Large number of urban households having television as asset and they are Gudalur taluk, Uthagamandalam taluk, Kotagiri taluk, and Coonoor taluk. Panthalur and Kundah taluks rural households are having this as an asset more than their urban households. Telephone is largely found in urban households. Panthalur and Kundah taluks rural households are having this as an asset than their urban households. Bicycle as an asset is largely found in the rural areas of Panthalur, Kotagiri and Kundah taluks. Urban households of the following taluks are having this as an asset than their rural counterparts and they are Gudalur, Uthagamandalam and Coonoor.

Scooter/motorcycle is available to large number of urban households except Panthalur taluk and Kundah taluk. Likewise, car, jeep, van is largely available to urban households except Panthalur and Kundah taluks. Households having none of the assets are evenly poised in rural and urban areas of the district. In the rural areas of the following taluks, number of households having none of the assets are higher than that of the urban areas and they are Panthalur, Uthagamandalam, Kotagiri and Kundah.

Data source: Census of India 2001, H- series: "Tables on Houses, Household amenities and Assets."

(ix) Major Social and Cultural Events in the District - Fairs and Festivals of The Nilgiris District.

-Thaipoosam in Elk Hill Murugan Temple (February).
-Bokkapuram Mariamman Annual Festival (February).
-Udhagamandalam Mariamman Temple Festival (April).
-Coonoor Mariamman Temple Car Festival (April-May).
-Boat Races/Boat Pay entry in Udhamandalam (May).
-Summer Festival in Udhagamandalam.
-Flower show in Udhagamandalam (May).
-Fruit show in Coonoor (May).

(x) Places of Tourist Interest of The Nilgiris District.

The Nilgiri, the paradise of holiday makers, nestles among hills at a point where the Eastern Ghats meet the Western Ghats and Sprawls among a beautiful plateau. One can see many profiles of natures each with district grandeur. Expecting July the other months are pleasant and enjoyable. This hill station attracts visitors from all over the country in all seasons.

Botanical Garden

The Botanical Garden is one of the loveliest spot in Udhagamandalam. Started as Kitchen garden which was given final shape by the Marquis of Tweeddale in the year 1847. Good maintenance and availability of variety of exotic and ornamental plants bestow on this garden a unique position among the several gardens in India. Flowers and seedling are available for sale in the Botanical Garden. There is a wood-hut (Log House) at the top from where panoramic view of Udhagamandalam can be had. The annual spring flower club is held every year during May, attract large number visitors. The Botanical Garden have been maintained by the Tamil Nadu Agricultural Department since 1920. In the midst of the gardens just below the small lake there is a fessil tree trunk of 20 million years old.

Doddabetta

Doddabeta is said to be the highest peak in Tamil Nadu. On the top, there is an attractive glass pavilion. On a clear day one can have a bird's eye view of Udhagamandalam, Coonoor, Wellingtion and Kandal and even the distant Coimbatore plains and the Mysore Plateau.

Tiger Hill

Branching off after 3 miles from main road to Coonoor a path leads to the Tiger Hill Reservoir, a beautiful picnic spot. From the reservoir one can reach nearer to Tiger Hill Rock, preceipiece and some caves situated above the vally view.

Udhagamandalam Lake

This is an artificial lake, constructed during 1824 by Mr. Sullivan, Pleasure boating facilities is available in the lake. Row boa as well as Motor boats are also available for visitors.Pony rides near the Lake is a major attraction particularly for children. Every year during Summer Festival (May) boat races are conducted in Udhagamandalam Lake.

Wilson Fish Farm

A fish farm maintained by the Fisheries Department is named after Mr. H.C. Wilson, the founder of the Department, who was deputed in July 1906 by the Ceylon Fishing Club. Exotic fish like Mirror Carp, Golden Carp and Leather Carp are reared and sold out for consumption of the local people.

St. Stephen's Church

This Parish Church was built in 1829, the Rt. Hon. S.R. Lushington, then the Governor of Madras laid the foundation stone. The oldest in Nilgiri, its wooden arches are said to have been brought from the Palace of Tippu Sultan at Srirangapatnam in Mysore State.

The Wenlock Downs

It is named after Lord Wenlock, a former Governor of Madras. The undulating landscape covering 40 square miles of grass and shola lying immediately west of Udhagamandalam are officially called by this name. The sunset seen from the Gold links on the Downs specially in September and October is indeed glorious. The Golf Links are laid out over an area of 193 acres which consists of 18 holes at a height of 7,400 feet with a par over 6,207

yards. The Government of India's Raw Film Factory (Messrs. Hindustan Photo Films) is located here. The Kamaraj Sagar (Sandynallah Dam) is built on the Downs. The Government's Sheep Farm, the Udhagamandalam kennel club and the Golf links of Gymkhana Club are all in the Downs.

Sims Park

Located inUpper Coonoor, Sim's Park opened in 1874 as a pleasure ground for the inhabitants and visitors of Coonoor and Wellington, has become a Botanical Garden in the course of its evolution. This park is named after a member of the Governor's Council. J.D.Sim (1870-75), who was as Chief architect. Many species of trees and shrubs which do not theive in Udhagamandalam are grown here. Annual fruit and vegerables show is held here.

Dolphin's Nose

It is about 12 Kms. from Coonoor bus stand situated near Tiger Hills. Enjoy the micro climate of the Shola Forest criss crossed by the winding to road, one can take a glimpse of Catherine Falls from there. The area is also abundant with wildlife.

Government Museum

The Government Museum located on Mysore Road in Udhagamandalam was set up in 1989 with a view to provide education about Nilgiri to lthe residing and visiting population. The Museum has items of tribal objects, district's ecological details and representative sculptural arts and crafts of Tamil Nadu.

The Mukurthi Peak and Mukurthi National Park

Mukurthi Park is about 40 Kms. away from Udhagamandalam. The Mukurthi National Park is located on the South Eastern Correr of the Nilgiris Plateau.

Pykara

It is situated about 21 Km away from Udhagamandalam on the Udhagamandalam-Mysore Road with well protected fenced sholas. Toda settlements, undisturbed grassy meadows and also a good wildlife habitat. The Pykara Dam reservoir attracts many tourists. There is a forest Rest House at Pykara.

Avalanchi

It is located at distance of 28 Kms. away from Udhagamandalam a beautiful lake surounded by very good forest cover. A thick forest where even sunlight cannot penetrate and is abundant with a wide variety of avifauna which is called a Nature Lover's Paradise. The road leading is an ideal wildlife habitat and has vast stretch of undisturbed forests.

Mudumalai Wildlife Sanctuary

Lying in the Nilgiri District, abutting Kerala and Karnataka State, this is situated at an elevation of 1000 metres and extends over an area of 321 sq. Km. A variety of habitants, ranging from tropical ever green forest to moist deciduous forest, moist deciduous forest, moist teak forest, dry teak forest, secondary grass lands and swaps are found. The wild life includes Elephants, Gaur, Tiger, Panther, Sambar, Spotted Deer, Barking Deer, Mouse, Wild Bear, Porcupine etc., The avifauna is varied with minerals, Hornbills, Fairy Blue birds, Jungle fowls etc., The reptillions are represented by python, Monitor Lizard, Flying Lizards etc., It is approchable from Udhagamandalam by road via two different routes via Kalhatty 36 Km. away from Udhagamandalam and the other route is via Gudalur which is 67 Km. away from Udhagamandalam. It can also be approached from Mysore which is at a distance of 91 Km. Other Picturesque spots in the Sanctuary include the Moyar water falls, the Chief Minister's water tower, Ombetta Swamp, Theppakad elephant camp etc.,

Laws falls

It is situated in the Ghat Reserve Forest of Coonoor range. It is about 75 Km. away Coonoor. The height of the Falls is about 180 Feet. There are vast stretches of undisturbed forests.

(xi) Major Characteristics of the District, contribution of the district in the form of any historical figure associated with the district.

The Nilgiri Hills were part of Hoysala empire under king Vishnuvardhana in the 12th century. They then became part of the Kingdom of Mysore of Tipu Sultan who later surrendered them to the British in the 18th century.

John Sullivan, the British governor of neighbouring Coimbatore province, liked the climate of this forested land, and occupied it by taking land from the native tribes (Toda, Irumba and Badaga); often buying up many square kilometres in a day for the price of a few meals.

The hills were developed rapidly under the British Raj because they were almost entirely owned by private British citizens, unlike the rest of India. Ooty served as the summer capital of the Madras Presidency, and had winding hill roads and a complicated rack railway system built by influential and enterprising British citizens with venture capital from the Madras government.

It is believed the Blue Mountains appear so because of the vast Nilgiri forest surrounding them.

(xii) Scope of Village and Town Directory

Village Directory

The "Village Directory" is one of the traditional compilations of the Census. It gives the list of Revenue villages, their location numbers, their area, population, number of households, amenities such as educational, medical, drinking water, post and telegraph, commercial and co-operative banks, agricultural, non-agricultural and other credit societies, recreational and cultural facilities, communication, approach to village, nearest town with distance, power supply, availability of newspaper and magazines, most important commodity manufactured and land use of each village.

Village is a statutory recognized unit having a definite boundary and separate land records. The villages which are considered as Census Towns, the amenities data are shown in the Town Directory.

The 'un-inhabited' villages (villages with no population) have been indicated as such after furnishing details in columns 1 to 3 i.e., Serial number, Name of village & location code and area of the village. The land use data for such villages are shown in col. 19 to 23.

Town Directory

The Town Directory is presented for each town covering different aspects of urban life. Like 1991 census, in the present census also there are seven Statements to be included in the District Census Handbook for presentation of data. The seventh Statement relates to slums which was numbered as IV – A in 1991 Census. Statements I to VI contain data about growth, density, sex ratio, physical aspects of towns, communications, municipal finances, civic, medical, educational and other amenities and trade, commerce, Industry, Banking facilities. This District data for the towns/U.A.s has been presented in these six statements. Similarly the seventh Statement presents the data for slums.

Statement I shows status and growth history of the towns of this District. Column 2 in this Statement indicates class, name and civic administration status of a town (as in 2000). Class of the town indicated under this column has been introduced to facilitate the analysis of town directory data at the State and at the national level.. Column 6 presents area in Sq. kms. while Column 7 presents number of households including houseless households. Columns 8 to 18 give population and growth rate of towns since 1901. Column 19 presents density and Columns 20 to 22 present sex-ratio.

Statement II shows physical aspects and location of each town as in 1999. Column 2 shows the class and name of Town. Columns 3 to 5 show the rainfall and maximum and minimum temperature. Columns 6 to 13 show the name and distance of State HQ, district HQ, Tahsil HQ, nearest city with a population of one lakh and more, nearest city with a population of five lakh and more, Railway Station, Bus facility and Navigable river/canal from town.

Statement III shows the municipal finance of the Towns. The income and expenditure for the towns of this district has been presented in this Statement.

Statement IV provides information for civic and other amenities available to the Town. This Statement presents general population as well as the Scheduled Castes/Scheduled Tribes population as per 2001 census under Columns 3, 4 and 5. Columns 6 to 20 present data regarding road length, system of sewerage, number of latrines, method of disposal of night soil, protected water supply, fire fighting service, electric connections for domestic, industrial and commercial as well as road lighting (points) and others.

Statement V gives information regarding educational, medical, recreational and cultural facilities available in the town. Population figures for 2001 census have also been presented for the towns of this District which will facilitate in analyzing data on facilities available to the people. Data pertaining to medical facilities have been obtained from Director of Health Services and shown under Columns 4 and 5. The information on educational facilities has been shown under Column 6-15.

This Statement also shows, number of working women's hostels, recreational and cultural facilities available in the town under Columns 16 to 20.

Statement VI presents information in respect of trade, commerce, industry and banking services in the towns. Columns 3 to 8 indicate three most important commodities exported and manufactured in the Towns. Information on number of banks available in the towns have been presented under column 9 whereas Columns 10 and 11 show the number of agricultural and non-agricultural credit societies in the towns.

Statement VII shows the various civic amenities available in the slums of towns of this District.

Part - A
VILLAGE AND TOWN DIRECTORY

Section I - Village Directory

(a) Note explaining the abbreviations used in the village directory

The Village Directory format has 23 columns and the details given under each column for the village are as follows:

Columns 1 : Serial Number

Self explanatory. All the villages within the C D block are presented serially in the ascending order of their location code number.

Columns 2 : Name and Location Code Number of the village.

The name and location code number of the village are shown against these columns. This also includes the forest and uninhabited villages.

Column 3 : Area of the village

The area of the villages in hectares are given.

Column 4 : Total population

The total population of the village as per 2001 Census is given against this column.

Column 5 : Number of households

The number of households as per 2001 Census is given in this column.

Amenities :

In column 6 to 23, availability in respect of different amenities such as education, medical, drinking water, post, telegraph, banks, credit societies, communication, power, approach road etc. in each village has been depicted with appropriate codes against the column concerned. Wherever the amenities are not available in the village, a dash (-) is shown in the column and next to it in brackets the distance in broad ranges viz. <5 kms., 5-10 kms. and 10+ kms of the nearest place where the facility available is given. Column wise details are given below :

Column 6 : Educational

Classes upto class V included in Primary School. Classes from VI to VIII are included in the Middle school. Classes from IX and X included in Secondary/ High school. Classes XI and XII are included in Higher / Senior secondary school.

In case of composite schools like middle school with primary school or secondary school with middle school, these are also included in the number of primary and middle schools, respectively.

Accordingly any of the following types of institutions if exists within the village is shown as per codes given below :

(i)	Primary School	P
(ii)	Middle School	M
(iii)	High/Secondary School	H
(iv)	Higher/Senior Secondary School	SS
(v)	College	C
(vi)	Industrial School	I
(vii)	Training School	Tr
(viii)	Adult literacy class/centre	AC
(ix)	Others (specify) Computer Training institutes, Tailoring Classes, Music and Dance Classes etc.	O

More than one institution of a type in the village is indicated by the number within brackets against the abbreviation, e.g. P(3), M(4), etc.

Column 7 : Medical

Availability of medical facility within the village is indicated by following codes :

(i)	Allopathic Hospital	H
	Ayurvedic Hospital	HA
	Unani Hospital	HU
	Homeopathic Hospital	H Hom
(ii)	Allopathic Dispensary	D
	Ayurvedic Dispensary	DA
	Unani Dispensary	DU
	Homeopathic Dispensary	D Hom
(iii)	Maternity & Child Welfare	MCW
(iv)	Maternity Home	MH
(v)	Child Welfare Centre	CWC
(vi)	Health Centre	HC
(vii)	Primary Health Centre	PHC
(viii)	Primary Health Sub-Centre	PHS
(ix)	Family Welfare Centre	FWC
(x)	T.B. Clinic	TB
(xi)	Nursing Home	NH
(xii)	Registered Private Medical Practitioner	RMP
(xiii)	Subsidised Medical Practitioner	SMP
(xiv)	Community Health Worker	CHW
(xv)	Others	O

More than one institution of a type in the village is indicated by the number within brackets against the abbreviations, e.g. H(3), D(4), etc.

Column 8 : Drinking Water

The type of the drinking water supply sources available within the village are indicated by codes as follows :

(i)	Tap Water	T
(ii)	Well Water	W
(iii)	Tank Water	TK
(iv)	Tubewell Water	TW
(v)	Handpump	HP
(vi)	River Water	R
(vii)	Canal	C
(viii)	Lake	L
(ix)	Spring	S
(x)	Others	O
(xi)	Summer Source	SS

Column 9 : Post, Telegraph and Telephone

It is indicated by codes as shown below whether within the village exists the following amenities:

(i)	Post Office	PO
(ii)	Telegraph Office	TO
(iii)	Post & Telegraph Office	PTO
(iv)	Telephone Connection	PH

Column 10: Commercial and Co-operative Banks

If the village is served by any banking service, commercial bank, co-operative bank etc. the same is indicated in codes mentioned below along with the number of banks in brackets. If not available the distance of nearest place where the facility exist is given:

(i)	Commercial Bank	CM
(ii)	Co-operative Bank	CP

Column 11: Credit Societies

If the village enjoys the services of Credit Societies i.e. Agricultural Credit Societies, Non Agricultural Credit Society or Other Credit Societies, the same is indicated in codes mentioned below along with the number of such societies in brackets. In case the facility is not available within the village the distance of the nearest place where such facility exist is given :

(i)	Agricultural Credit Society	ACS
(ii)	Non-Agricultural Credit Society	NCS
(iii)	Other Credit Society	OCS

Column 12 : Recreational and cultural facilities

If facilities such as Cinema/Video hall, Sports Club, Stadium/Auditorium is available in the village, the same is recorded in these columns. If not available the particulars of the nearest place with the facility is recorded. The information is indicated in codes mentioned below along with the number of such facilities in brackets:

(i)	Cinema/Video Hall	CV
(ii)	Sports Club	SP
(iii)	Stadium/Auditorium	ST

Column 13 : Communications

If the village is served by any mode of public/ private transport like Bus, Railway station or Navigable water ways they are to be mentioned as follows :

(i)	Bus	BS
(ii)	Railway Station	RS
(iii)	Navigable Waterway	NW

Column 14 : Approach to village

Approach to village refers to the state of road leading to village. The approach to the village is indicated in following codes :

(i)	Paved Road	PR
(ii)	Mud road	MR
(iii)	Foot path	FP
(iv)	Navigable River	NR
(v)	Navigable Canal	NC
(vi)	Navigable waterways other than River, Canal	NW

Column 15 : Nearest Town and distance

The distance is given in kilometers in brackets against the name of the town nearest to the village.

Column 16 : Power supply

Availability of Power Supply in the village, whatever may be the form of its use is given by using following codes :

(i)	Electricity for domestic use	ED
(ii)	Electricity for agricultural use	EAG
(iii)	Electricity for other purposes	EO
(iv)	Electricity for all purposes	EA

Column 17 : News Paper/Magazine

If village receives any News Paper/Magazines the same is noted in this column using following codes :

(i)	News Paper	N
(ii)	Magazine	M

Column 18 : Most important commodities manufactured

The name of three most important commodities manufactured in the village is recorded against this column.

Column 19 to 23 : Land use i.e. area under different types of land use

Land use data maintained by the State/U.T. Govts. are furnished against these columns. The data concerning area under Forest, Irrigated land (by source), Un-irrigated land, Culturable waste and Area not available for cultivation in the village are shown against these columns. The codes used for different types of irrigation facilities available in the village are indicated below :

(i)	Government Canal	GC
(ii)	Private Canal	PC
(iii)	Well (without electricity)	W
(iv)	Well (with electricity)	WE
(v)	Tubewell (without electricity)	TW
(vi)	Tubewell (with electricity)	TWE
(vii)	Tank	TK
(viii)	River	R
(ix)	Lake	L
(x)	Waterfall	WF
(xi)	Others	O
(xii)	Total	T

The village directory also include the following appendices.

Appendix-I	It gives the abstract of educational, medical and other amenities available in villages C D block wise of the district.
Appendix-I-A	Indicates number of villages C D block wise having one or more primary schools.
Appendix-I-B	Indicates number of villages C D block wise having primary, middle and secondary schools.
Appendix-I-C	Shows number of villages C D block wise with different sources of drinking water facilities.

Appendix-II Indicates the list of villages with 5,000 and above population which do not have one or more important amenities.

Appendix-II-A Indicates list of Census Towns which do not have one or more amenities.

Appendix-III It gives the land utilization data in respect of Census Towns/non-municipal Towns.

Appendix-IV CD block wise list of inhabited villages where no amenity other than drinking water facility is available.

Appendix-V Summary showing number of villages not having Scheduled Castes population.

Appendix-VI Summary showing number of villages not having Scheduled Tribes population.

Appendix-VII A, VII B

The appendix shows the list of villages according to proportion of the Scheduled Castes and Scheduled Tribes to the total population by ranges.

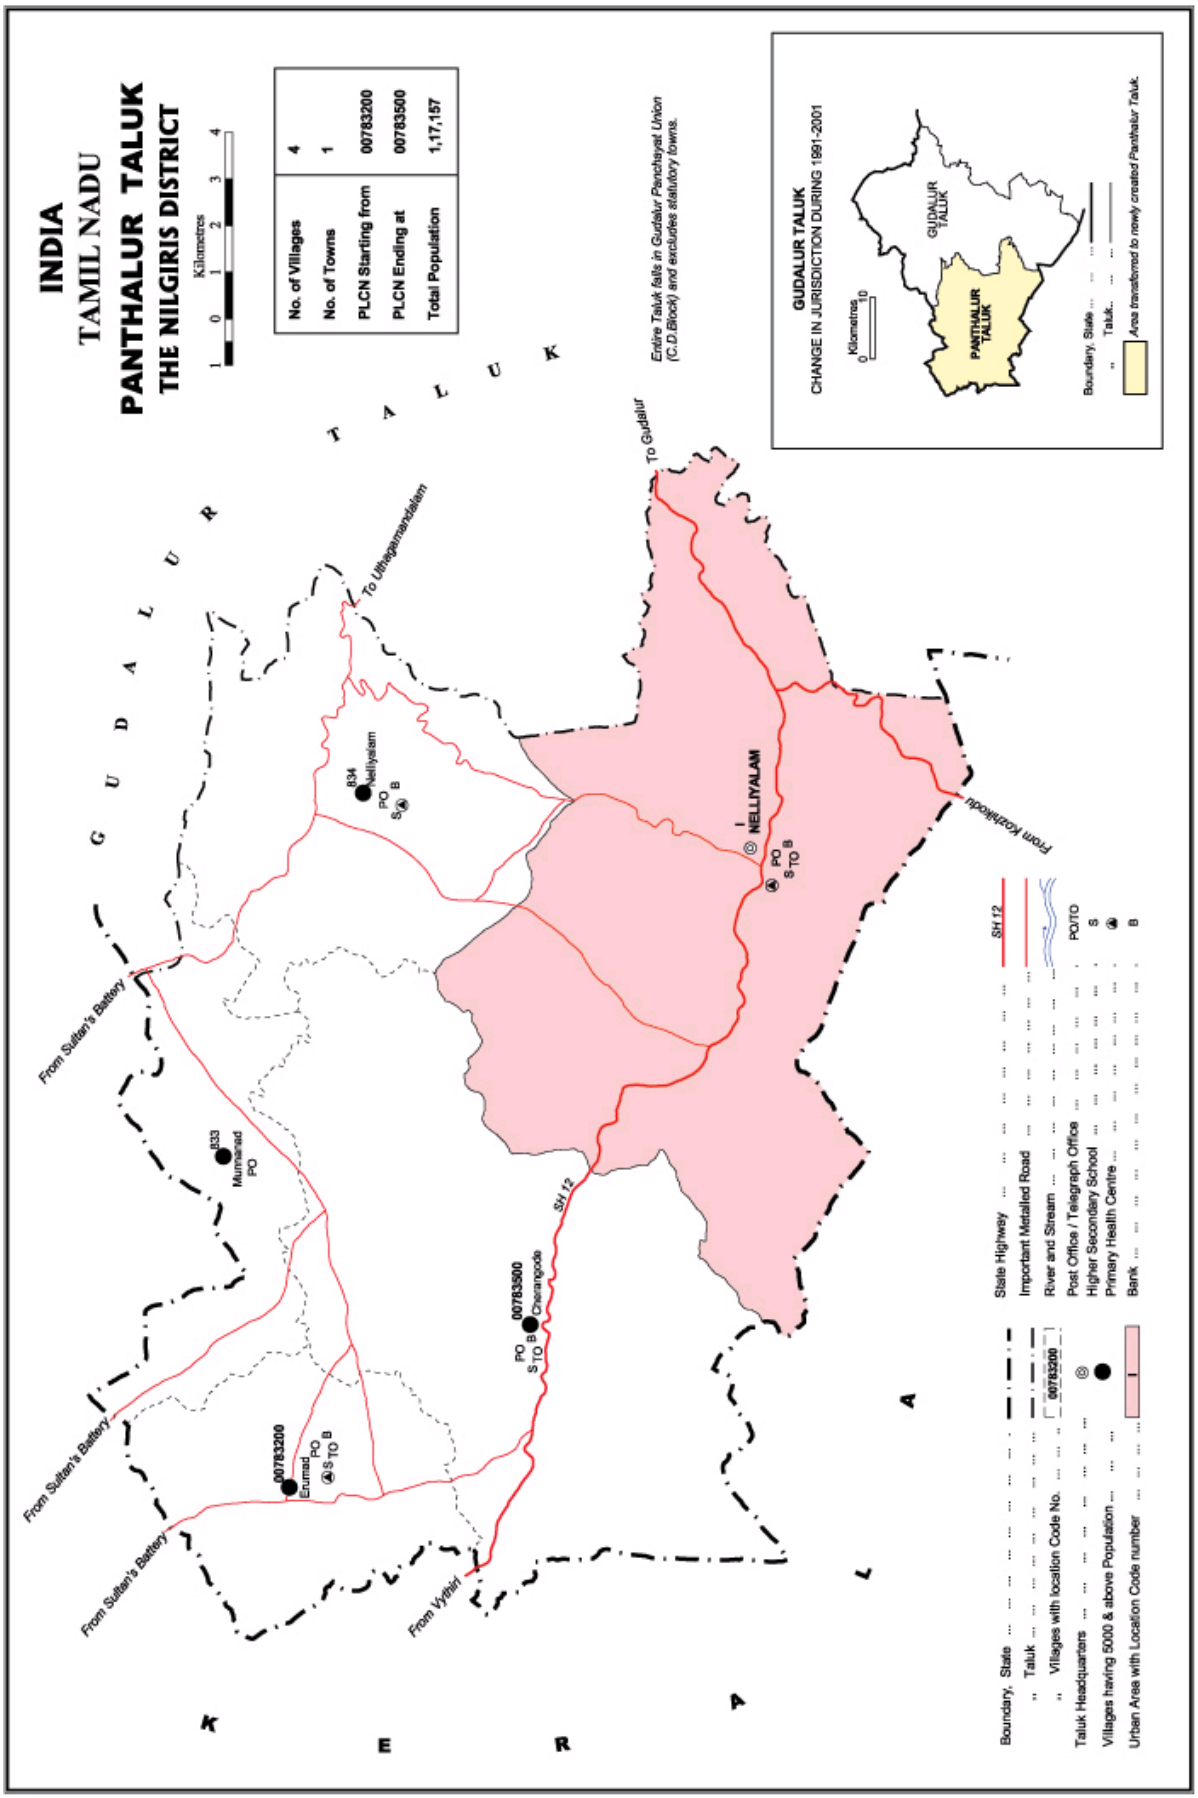

Appendix-VIII indicates CD Blockwise number of villages under each gram panchayat.

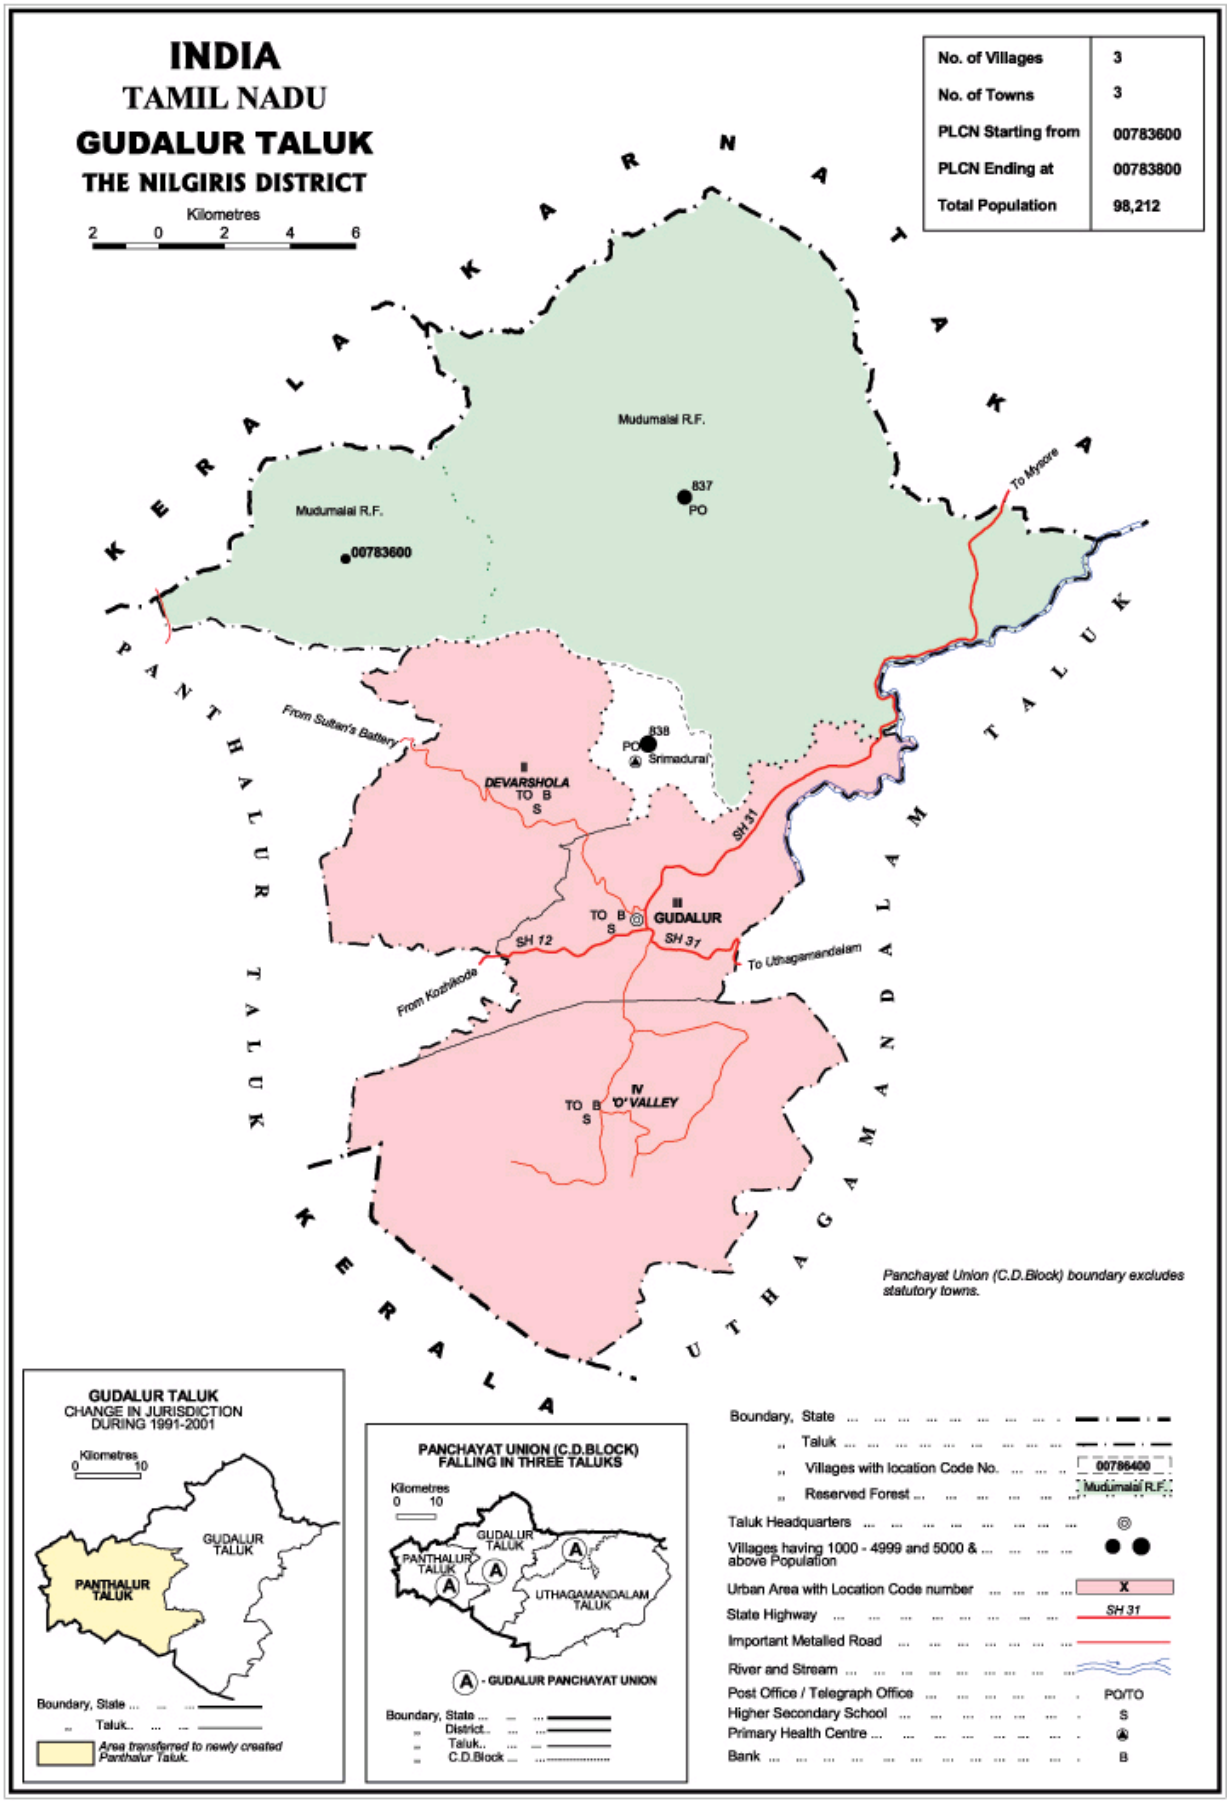

Appendix-IX shows number of different types of girls school in a village.

(b) LIST OF VILLAGES MERGED IN TOWNS AND OUTGROWTHS AT 2001 CENSUS

Sl. No.	Name of Towns	Name of villages merged in town(s)	Name of villages identified for outgrowth	Location Code Number 1991 Census	Location Code Number 2001 Census (In case of partly OG)

APPENDIX II - A Census Town

Census Towns which do not have one or more amenities

Name of the District:THE NILGIRIS

Serial number	Name of census town	Location code number	Name of C. D. block	Population	Amenities not available (indicate N. A. where amenity not available)						
					Senior Secondary School	College	Health Centre	Tap drinking water	Bus facility	Approach by Pucca road	Banks
1	2	3	4	5	6	7	8	9	10	11	12
1	Hubbathala	41114000	Coonoor	11,091	Available	N.A.	N.A.	Available	Available	Available	N.A.

APPENDIX - III

Land utilisation data in respect of Census Towns / Non-Municipal Towns

Serial number	Name of Census town and CD block within brackets	Total area	Land use				
			Forest	Irrigated by source	Unirrigated	Culturable waste (including gauchar & groves)	Area not available for cultivation
1	2	3	4	5	6	7	8
1	Hubathala	887	8	--	591	40	248
2	Aravankadu	130	NA	NA	NA	NA	NA

Note: Since Aravankadu is an ordinance area, data is not applicable.

APPENDIX IV - Village Directory

C.D. block wise list of inhabited villages where no amenity other than drinking water facility is available

Name of the District:THE NILGIRIS

Serial number	Location code number	Name of village
1	2	3
Name of CD Block: Gudalur		
	Nil	
Name of CD Block: Udhagamandalam		
	Nil	
Name of CD Block: Kotagiri		
	Nil	
Name of CD Block: Coonoor		
	Nil	

APPENDIX V - Village Directory

Summary showing number of villages not having Scheduled Castes population

Serial number	Name of C.D. block	Total villages	Uninhabited villages	Inhabited villages	Number of inhabited villages having no Scheduled Castes population
1	2	3	4	5	6
1	Gudalur	8	0	8	1
2	Udhagamandalam	14	0	14	0
3	Kotagiri	15	0	15	3
4	Coonoor	4	0	4	0
	District Total:	**41**	**0**	**41**	**4**

APPENDIX VI - Village Directory

Summary showing number of villages not having Scheduled Tribes population

Serial number	Name of C. D. block	Total villages	Uninhabited villages	Inhabited villages	Number of inhabited villages having no Scheduled Tribes population
1	2	3	4	5	6
1	Gudalur	8	0	8	0
2	Udhagamandalam	14	0	14	1
3	Kotagiri	15	0	15	0
4	Coonoor	4	0	4	0
	District Total:	**41**	**0**	**41**	**1**

APPENDIX VII A- Village Directory

List of villages according to the proportion of the Scheduled Castes to the total population by ranges

Name of the District:THE NILGIRIS

Range of Scheduled Castes population (percentages)	Location code number	Name of village
1	2	3
Name of CD Block: Gudalur		
Less than 5	00783800	Srimadurai
5-10	00783300	Moonanad
	00783700	Mudumalai
	00783200	Erumad
21-30	00783900	Masinagudi
	00783400	Nelliyalam
41-50	00783500	Cherangode
Name of CD Block: Udhagamandalam		
5-10	00784000	Kadanad
	00784400	Thuneri
	00784200	Kukkal
11-20	00784100	Ebbanadu
	00784800	Thummanatti
21-30	00786800	Ithalar
	00787200	Kinnakkorai
	00784500	Hullathy
	00784600	Nanjanad
31-40	00784700	Udhagamandalam
	00787000	Balacola
	00784300	Kagguchi
51-75	00786900	Mulligoor
	00787100	Melkundah
Name of CD Block: Kotagiri		
Less than 5	00785100	Kallampalayam
5-10	00785500	Nandipuram
11-20	00786200	Kotagiri
	00784900	Nilgiri Eastern Slopes
21-30	00785300	Neduoula
	00785800	Kadinamala
	00786300	Jackanarai
	00786100	Naduhatty
	00785900	Kengarai
31-40	00786000	Konavakorai
41-50	00785400	Denad
	00785200	Kodanad
Name of CD Block: Coonoor	00786400	Yadappalli
31-40	00786500	Burliar
41-50	00786600	Coonoor
	00786700	Melur

Note:- Villages having NIL Scheduled Castes Population have been excluded

APPENDIX VII B - Village Directory

List of villages according to the proportion of the Scheduled Tribes to the total population by ranges

Name of the District:THE NILGIRIS

Note: The data pretends to this appendix table is not available.

Section II - Town Directory

(i) Note explaining the abbreviations used in the Town directory

Town Directory statements (I to VII)

Statement I : Status and Growth History

Column (2) : Class, name and civic administration status of town

Class has been introduced to facilitate analysis of town directory data at the state and all India levels. It is presented according to 2001 Census Population of the town as follows :

Population	Class
100,000 and above	I
50,000 - 99,999	II
20,000 - 49,999	III
10,000 - 19,999	IV
5,000 - 9,999	V
Below 5,000	VI

Town with a population of one hundred thousand (1,00,000)and above is treated as a city.

The civic administration status of the towns is indicated within bracket against the name of the town. The following abbreviations are used to denote civic status of town.

(i)	Municipal Corporation	M. Corp.
(ii)	Municipal Committee	MC
(iii)	Municipal Council	M Cl
(iv)	City Municipal Council	CMC
(v)	Town Municipal Council	TMC
(vi)	Municipal Board	MB
(vii)	Municipality	M

Others columns need no comments.

Statement II : Physical Aspects and Location of towns, 1999.

Column 3 to 5 : Physical Aspects

In this columns the Rainfall and Maximum and Minimum Temperature of the town is recorded.

Column 6, 7 and 8 :

Name of the State headquarters, District headquarters and Sub-Divisional headquarters with distance from the referent town in kilometers, is recorded respectively. If the names mentioned in these columns are the same as the referent town itself, the distance is recorded as (0) zero.

Column 9 & 10 :

Name of the nearest city with one lakh and more and five lakh and more population are recorded.

Column 11, 12 and 13 :

If referent town enjoys the facility of railway station, bus route facility or navigable river/canal. Its name is mentioned. If not available, then the name of nearest place with distance, where such facility exists is mentioned.

Statement III : Municipal Finance 1998–1999

Item-wise amount of receipt and expenditure in thousand rupees, relating to municipal finance of the town for the year 1998-99 is recorded.

Statement IV : Civic and Other amenities, 1999

Column (1 to 5) : Self explanatory.

Column (6) : Road length (in kms.)

Information about kutcha/pucca road is recorded separately for the roads within the limits of the referent town.

(i)	Pucca Road	PR
(ii)	Kutcha Road	KR

Column (7) : System of Sewerage

Generally, by sewerage system is implied the network of mains and branches of underground conduits for the conveyance of sewerage to the point of disposal. Sewers that carry only household and industrial wastes are called separate sewers, those that carry storm water from roofs, streets and other surface are known as storm water drains, while those carrying both sewage and storm water are called combined sewers.

The codes used for different types of drainage system are as follows :

(i)	Sewer	S
(ii)	Open Surface Drains	OSD
(iii)	Box Surface Drains	BSD
(iv)	Sylk Drains	SD
(v)	Cesspool method	CP
(vi)	Pit System	Pt
(vii)	Others	O

Column 8 to 11 : Number of latrines

Number of various types of latrines both Public and Private are given in these columns.

Column 12 : Method of disposal of night soil

The various prevalent method of disposal of night soil are given below with codes :

Head Loads	HL
Basket	B
Wheel Barrows	WB
Septic Tank	ST
Pit System	Pt
Sewerage	S
Others	O

Column 13 and 14 : Water supply

Source and capacity of storage system. The following codes are used in these columns:

Column 13 :

(i)	Tap water	T
(ii)	Tube-well water	TW
(iii)	Tank Water	TK
(iv)	Well water	W

Column 14 :

(v)	Over Head Tank	OHT
(vi)	Service Reservoir	SR
(vii)	River Infiltration Gallery	RIG
(viii)	Bore Well Pumping System	BWP
(ix)	Pressure Tank	PT

The information on major source of water supply are given in column 13 and the storage capacity against each in kilo-litres (in bracket) are presented in column 14.

Column 15 : Fire Fighting Service

In case the fire fighting service is available in the referent town 'yes' is recorded. If the facility is not available within the town. The name of the nearest place having this facility with its distance from the referent town has been recorded.

Column 16 to 20 : Electrification (Number of connections)

Different types of electric connections have been shown in these columns, i.e. Domestic, Industrial, Commercial, Road lighting (points) & others.

Statement V : Medical, Educational, Recreational and Cultural Facilities, 1999

Column 1 to 3 : Self explanatory.

Column 4 & 5 :

The data covers all such medical institutions run by or aided by Government/Semi Government/Local bodies and Charitable institutions or Social agencies like the Missionaries. Where the family planning centres are attached to hospitals or maternity and child welfare centres or Primary Health Centres, which are treated as independent units and counted separately using following codes :

(i)	Hospital	H
(ii)	Dispensary	D
(iii)	Health Centre	HC
(iv)	Family Welfare Centre	FWC
(v)	T.B. Clinic	TB
(vi)	Nursing Home	NH
(vii)	Others	O

In case of more than one institutions of any type, it is indicated within brackets the number of such institution (s) e.g. D(3), NH(8), etc. The institutions have further been distinguished by providing additional codes within the bracket as given below :

Ayurvedic	A
Unani	U
Homoeopathic	Hom

Column 6 to 9 :

The codes used for these columns are as follows :

(i)	Arts only	A
(ii)	Science only	S
(iii)	Commerce only	C
(iv)	Arts & Science only	AS
(v)	Arts & Commerce only	AC
(vi)	Combined for all categories - Arts, Science and Commerce	ASC
(vii)	Law	L

Column 10 : Recognized shorthand, typewriting and vocational training institutes

"Recognised" should mean recognised by some statutory authority, like education department, commerce department, labour department etc. of the government or semi government or autonomous bodies, public sector undertakings etc.

The following codes are used :

(i)	Shorthand	SH
(ii)	Typewriting	Type
(iii)	Shorthand & Typewriting	SH Type
(iv)	Others	O

The vocational institutions like - Applied Art/ Painting college, Pharmacy college, B. Ed. College, Teacher's Training Institute, Music/Dance School, Nursing School etc. are covered under 'Others'.

Column 11 to 14 :

Higher Secondary/Intermediate/Senior Secondary/ PUC/Junior College level, Secondary/Matriculation, Middle Schools/ Junior Secondary and Primary Schools.

School up to class V are treated as Primary or elementary schools. These include Nursery schools, Kindergarten schools, Pre-Primary schools, Junior Basic schools upto class V and Primary schools upto class IV.

Schools upto VIII are considered as Middle school or Junior Secondary.

Schools upto class X are considered as Matriculation or Secondary schools.

Schools upto XI or XII classes are considered as Higher Secondary/Intermediate/Pre University /Junior College etc. This would cover 10+2 classes whether held in schools or college.

If there are composite schools like middle schools with primary classes or Secondary schools with Middle classes, these are also included in the number of Primary and Middle schools, respectively. For example, if in a town, there are two Primary Schools and one Middle school with Primary classes, the number of Primary schools in the town is given as three and that of Middle schools as one though there are only three educational institutions.

If there are more institutions of a type in the town, the number is indicated within bracket along with the abbreviation, e.g. P(4), M(3).

Column 15 : Adult literacy class/centres

This column has been introduced keeping in view the Minimum Needs Programme of the Planning Commission. There are number of Adult Education Centres which are included in these columns.

If an educational facility is not available in the town, the name of the nearest place and its distance in kilometres from the town where the facility is available is mentioned.

Column 16 : Working Women's hostels with number of seats

The number of working women's hostel if available in the referent town is mentioned with number of seats. If the facility is not available in the town the name of nearest place with distance where the facility is available is recorded.

Column 17 to 19 : Recreational and Cultural Facilities

Stadium, Cinema, Auditorium/Drama/Community Hall are covered under recreational & cultural facilities. The particulars of permanent recreational facilities are considered for these columns.

Column 20 : Public Libraries, Reading Rooms

Number of public libraries and reading rooms available in the referent town are recorded in codes as follows :

(i)	Public Library	PL
(ii)	Reading room	RR

Statement VI : Trade, Commerce, Industry and Banking, 1999

Column 3 to 8 :

Name of three most important commodities exported and names of three most important commodities manufactured in the town are recorded.

Column 9 : Number of Banks

Number of Banks available in the referent town both Commercial and Co-operative banks are recorded against this column.

Column 10 & 11 : Number of Agricultural Credit Societies and Non Agricultural Credit Societies

The total number of Agricultural Credit Societies and Non Agricultural Credit Societies in the referent town are recorded against these columns.

Statement VII : Civic and other Amenities in Slums, 1999

This is the statement on civic and other amenities in all slums whether notified or not and for all towns having statutory bodies, like municipality, Municipal Corporation, Town area committee etc.

Part - B
PRIMARY CENSUS ABSTRACT

Brief note on Primary Census Abstract

The first census of the third millennium and twenty first century the Census of India, 2001 was the 14th continuous and uninterrupted Indian census since 1872. Thus, 2001 Census will provide data on population and its characteristics marking transition from one century and millennium to another.

The gigantic operation of Population Enumeration (considered by many to be the single largest and complex peace time administrative exercise in the world) was made possible due to the door to door universal canvassing of the Household Schedule by about 2 million enumerators and supervisors covering 593 districts, 5,463 sub-districts, 5161 towns and 638,588 villages. The comprehensive Household Schedule which replaced the individual slip had three parts and two sides A and B. Part I contained the Location Particulars; Part II related to the Individual Particulars and Part III contained questions for Household engaged in Cultivation/Plantation**.** The part II of the Household Schedule had 39 columns and 23 questions all of which were universally canvassed and no sampling was resorted to during enumeration.

Data Processing

A quantum leap was made in the technology front while processing the Census 2001 data both for Houselisting and Population Enumeration. The Schedules for both the phases were scanned through high speed scanners in fifteen data centres across the country and hand-written data from the schedules were converted into digitized form through Intelligent Character Reading (ICR) software for creation of ASCII records for further processing. The designing and formatting of the Household Schedule had to be done very carefully using specialized software so as to ensure uniformity, which was an essential pre-requisite for scanning. The selection of appropriate state-of-art technology in data processing has made it possible to produce all the Houselisting as well as Population Enumeration tables on full count basis for the first time in the history of Census. For Census 2001, about 202 million schedules consisting of about 1028 million records were scanned and processed within a span of only 10 months starting October, 2002.

Task Force on Quality Assurance

After the data is processed, it is expedient on the part of the data producing agency to satisfy itself about its quality before putting the same in public domain. This has to be done mainly through the process of internal consistency, comparison with similar data in the past and also through validation with likewise data if available, from external sources. Quite often the local knowledge and perception has to be brought into play to understand both the existing and the new emerging trends of population distribution and characteristics. The other very important aspect of the data quality is to ensure complete coverage of all geographical areas especially for the population enumeration phase where the data is disseminated right up to the village level in the rural areas and the ward level in the urban areas. Thus ensuring the complete coverage and correct geographical linkage of each enumeration block was one of the major planks of the quality control, specially for small area population statistics.

A very comprehensive check and edit mechanism was put in place to objectively examine the preliminary Census 2001 Population Enumeration results and finally clear them for use. The responsibility of the final clearance of data was with the Task Force on Quality Assurance (TFQA), headed by the Registrar General and Census Commissioner, India. The other members of the TFQA were the Heads and senior officers of the Census Division, Data Processing Division, Map Division, Demography Division and Social Studies Division. The Directors of Census Operations were co-opted as members whenever the TFQA discussed the data for their States/Union territories. The Directors and their senior officers were required to make detailed presentations of data

for their own state both in respect to the quality and the coverage and only after the full possible satisfaction of the TFQA, the population data was cleared.

There has been a major departure in Census 2001 from the past in respect of the procedure followed for finalization of the Scheduled Castes and the Scheduled Tribes population. In the earlier censuses, the total Scheduled Castes and Scheduled Tribes population were finalized at the time of the manual compilation of the Primary Census Abstracts (PCA) at the Regional Tabulation Offices which were specially set up for this purpose. The individual Scheduled Castes and the Scheduled Tribes population for each state was finalized much later based on manual coding done by the coders. In 2001 Census, each individual Scheduled Caste and the Scheduled Tribe have been coded directly on the computers by the Data Entry Operators through a process known as Computer Assisted Coding (CAC) and taken up along with the processing of PCA data. The CAC process involves pulling down, from the relevant dictionary of the Scheduled Castes and the Scheduled Tribes, on the computer screen and coding from the dictionary by referring to the image of the specific individual entry in the Household Schedule appearing on the screen. The CAC of the response on Religion wherever required, was also undertaken along with the processing of PCA. This is because the Scheduled Castes status had to be determined in relation to the religion of the individual. Two Special Task Forces, one on Religion and the other on Scheduled Castes/ Scheduled Tribes were constituted for scrutiny and appropriate classification of these responses.

The main task of the Special Task Force on Religion was to appropriately merge or group the new responses encountered and code it into the appropriate religious community based on available literature and local knowledge. The Special Task Force on Scheduled Castes and Scheduled Tribes examined the different Scheduled Castes and Scheduled Tribes entries encountered and classified these into appropriate category of the Scheduled Castes or the Scheduled Tribes principally based on the Presidential Notification and the available literature. Thus a very systematic and scientific mechanism was operationalised to firm up the individual religion and the individual Scheduled Castes/Tribes returns. The Scheduled Castes and the Scheduled Tribes population in 2001 Census, is thus being finalized by aggregating the population data for individual Scheduled Castes and the Scheduled Tribes at appropriate geographical levels.

The entire work relating to the data validation and scrutiny was completed by all the States/Union territories under the overall supervision and monitoring of the Census Division of the Office of the Registrar General, India with active cooperation and support of the Social Studies Division, Data Processing Division, Data Dissemination Division and Map Division.

Primary Census Abstract

The Primary Census Abstract which is yet another important publication of 2001 census gives basic information on Area, Total Households, Total Population, Scheduled Castes, Scheduled Tribes Population, Population in the age group 0-6, Literates, Main workers and Marginal workers classified by the four broad industrial categories, namely, (i) Cultivators, (ii) Agricultural laborers, (iii) Household Industry Workers, and (iv) Other Workers and also Non-workers. The characteristics of the Total Population includes Scheduled Castes, Scheduled Tribes, Institutional and Houseless population and are presented by sex and rural-urban residence. This data is presented at different levels, namely, India, States/ Union territories, Districts and Cities, Urban Agglomerations (Population 1,00,000 and above) in three different tables. In addition, the Appendix of said publication provides Houseless and Institutional Households and their population by residence and sex for 2001 for India, State and Union territory.

It was for the first time at the 1981 Census that the Primary Census Abstract (PCA) was brought out for the Scheduled Castes and the Scheduled Tribes separately on the pattern of General Primary Census Abstract. This practice was continued in 1991 also. In the 1961 and 1971 Censuses, such data were made available in Table C-VIII-Social and Cultural table and to some extent in the series 'Special Tables for Scheduled Castes/Scheduled Tribes'.

The format of Primary Census Abstract has been

restructured slightly in the 2001 Census as compared to that of 1991 Census. The nine-fold industrial classification of main workers given in the Primary Census Abstract of 1991 Census has been discontinued and in its place, four-fold industrial classification of both 'main workers' and 'marginal workers' are included. In 1981 census only main workers were presented in to four categories. One of the novel features of the primary census abstract of 1991 census was the presentation of data of the population of age group 0-6 is continued in 2001 Census also. This will help the data users in better analysis of literacy data.

The data in the Primary Census Abstracts are presented at different levels, The District Primary Census Abstract is presented at District/ C D block/ UA/City/Town, Primary Census Abstract for Scheduled Castes and Primary Census Abstract for Scheduled Tribes are presented at District/C D block/ Town, Village Primary Census Abstract is presented villagewise for each C D block and Urban Primary Census Abstract at Town/Ward level. The Primary Census Abstract data for each of these characteristics is presented by sex and rural-urban residence.

The District Primary Census Abstract has been presented in 59 columns, Primary Census Abstract for Scheduled Castes and Primary Census Abstract for Scheduled Tribes has been presented in 52 columns, Village Primary Census Abstract and Urban Primary Census Abstract has been presented in 58 columns. The information on each village under a C D block are presented in the Village Primary Census Abstract and each of the wards under a town has been provided in the Urban Primary Census Abstract exist in the district. The Data was presented for villages C D block-wise for the first time in 1991 Census. This practice is continued in 2001 Census also.

The concepts and definitions used in the column heading are already explained under the sub heading 'Census concepts' in the Analytical note. The Total population includes Scheduled Castes, Scheduled Tribes, Institutional and Houseless populations. The explanation regarding area figures presented at various level in the Primary Census Abstracts is as follows:

Area Figures

The area figures supplied by local revenue authorities of the district in respect of tahasils, P.Ss and by the local bodies in respect of towns are given in sq.kms. The area figures of the villages supplied by the Tahasildars in acres have been converted and shown in hectares. The area figures of the C D block is the total of the village areas coming under each C D block. The area figures for the district supplied by the Surveyor General of India have been adopted to maintain uniformity at the national level. The total area figures of all the Tahsils/C D blocks within the district may not tally with area figures of the district because former represents land use area only. Similarly, the total of all the villages may not tally with the entire rural of P.S./Tahsil. The difference may be due to the fact that while the area covered by hills, forests and rivers etc, have been accounted in the Tahsils and P.S. level the same may not be covered under the area of the villages. Apart from this it may also differ due to varying methods of computation adopted at different levels.

An appendix to District Primary Census Abstract has also been furnished showing urban enumeration block-wise particulars on total population, Scheduled Castes population and Scheduled Tribes population for each town.

ANNEXURE II

FERTILITY AND MORTALITY MEASURES

FERTILITY LEVELS

In demography, the word fertility is used in relation to the actual production of children or "occurrence of births specially live birth". Fertility is a measure of rate at which population adds to itself by births and normally assessed by relating number of births to size of some section of the population, such as number of married couples or number of women of child bearing age.

In other words, it is a major component of population growth. In the 1991 Census, questions of fertility related to age at marriage, number of surviving children at present, number of children ever born alive and children born alive during the last one year were asked. The first three questions were asked to all ever-married women and the last question related to currently married women. Data for 2001 is not readily available.

The following table indicate the female age at marriage relates to all women who are living with their husbands. Some of them might be recently married and some of them decades ago. In view of this, the data mentioned in the table should be regarded as indicating the situation for the population as a whole.

SELECTED INDICATORS ON FEMALE NUPTIALITY, 1991

State / District	Total / Rural / Urban	Mean age at marriage of currently married women Who married during			Percentage of currently marriage women with age at marriage below 18 Who married during		
		Total	1981-86	1986-91	Total	1981-86	1986-91
Tamil Nadu	T	19.1	19.3	19.7	31.6	28.2	24.5
	R	19.0	19.1	19.3	32.2	30.2	27.8
	U	19.3	19.7	20.3	30.4	24.4	18.6
The Nilgiri	T	19.3	19.7	20.3	27.9	21.6	14.6
	R	19.3	19.5	20.1	26.3	20.8	13.5
	U	19.4	19.8	20.4	29.6	22.4	15.6

It is also observed from the table that the mean age at marriage of currently married females in The Nilgiris District is 19.3 years in 1991, slightly higher than the corresponding State level of 19.1 years. In the rural areas also, same trend is observed in the district when compared with those of the corresponding State level . The mean age at marriage of the currently married females has increased by about 0.6 years from 19.7 years who married during 1981 - 86 to 20.3 years who married during 1986 - 91 in the district as is evident from the above table.

Presently the statutory minimum age at marriage for females is 18 years. It is worth examining the proportion of the currently married females whose age at marriage was below this limit during the periods 1981 - 86 and 1986 - 91. It is observed from the table that this proportion has decreased from 21.6% during 1981 - 86 to 14.6% in 1986 - 91 in the district, lower than the corresponding State level. Same trend is observed in case of rural and urban areas also.

CHILD MORTALITY LEVELS

The estimates presented here have been obtained using the data on the number of children ever born and number of children surviving to ever-married women. Information on questions on children ever born and children surviving canvassed for all ever-married women have been tabulated by age of the mother. From this, estimates of child mortality (qi) have been worked out using Brass technique, where q (i) is the probability of a newborn child dying before age (i) = 1, 2, 3 and 5.

It is observed from the table below that the child mortality estimates in the district and the state has decreased in 1991 when compared to 1981 census.

CHILD MORTALITY INDICATORS BY SEX

State / District		Tamil Nadu		The Nilgiris	
Year		1991	1981	1991	1981
Persons	q(1)	54	104	41	100
	q(2)	58	103	44	105
	q(3)	61	114	48	113
	q(5)	67	132	61	133
Males	q(1)	55	114	35	126
	q(2)	57	110	45	113
	q(3)	61	116	48	123
	q(5)	64	134	66	136
Females	q(1)	51	93	43	72
	q(2)	60	96	44	97
	q(3)	62	111	49	103
	q(5)	70	131	56	129

ANNEXURE III

VARIOUS MEASURES OF FERTILITY AND MEAN AGE AT MARRIAGE

The measures of fertility worked out are based of the F-series tables of 1991 Census pertaining to The Nilgiris and Tamil Nadu state. These are given below:

ESTIMATES OF FERTILITY INDICATORS, 1981-1991.

State / District	Year	CBR	TFR	TMFR	GFR	GMFR
Tamil Nadu	1981	32.0	3.9	5.5	123	169
	1991	26.4	3.1	4.8	99	136
The Nilgiri	1981	32.7	3.6	5.6	120	178
	1991	24.9	2.5	4.9	86	127

Source: Occasional paper No. 1 of 1997 RGI

The values of CBR, TFR, TMFR, GFR and GMFR are presented separately for Tamil Nadu and The Nilgiris District in the above table. These values can be compared for 1981 and 1991 Censuses. The table shows that in the The Nilgiris District, all the above-mentioned rates from 1991 to 1981 have declined. Similar trend is observed in Tamil Nadu Sate also. On comparing the district level data with the State level data in the above table, it is observed that all the above mentioned rates at the district level are lower than those at the State level except TMFR in 1991.

Different fertility measures indicate that mostly all the fertility levels in the district are lower compared to the state average during 1991. This is duly supported by the higher age at marriage of females in the district, compared to the state as is evident from the following table.

IMPORTANT INDICES OF FERTILITY - 1991

	The Nilgiri District			Tamil Nadu		
Fertility Indices	Total	Rural	Urban	Total	Rural	Urban
Number of children ever born per ever married women in age group 45 - 49	3.8	3.8	3.8	3.4	3.4	3.6
Child - women ratio (0-4 years)	281	269	293	348	369	311
Child - women ratio (5-9 years)	399	383	416	447	462	418

One of the most useful indices that can be derived from the question on number of children born alive in the average number of children ever born alive per ever married women by age - group. Since most of the women complete their reproduction by the age - group 45 - 49, the average number of children ever born per ever-married women in the age - group 45 - 49 is termed as an index of completed level of fertility. Ever married include widows, divorced and separated women.

In the above table, average number of children born per ever-married women in the age group 45 - 49 in 1991 has been presented for total, rural and urban areas for the Nilgiris District and Tamil Nadu state. It is observed from the above table that the number of children ever born per ever-married women in rural and urban areas of The Nilgiris District almost same.

Child - women ratio, a relative measure, is calculated to know the fertility performance of women. It is seen from the above table that child - women ratio in rural areas are higher than urban areas of the Nilgiris District and same trend was found in State level also.

ANNEXURE IV

MIGRATION

Migration is the third component of population change, the other two being mortality and fertility. A person is considered as a migrant by place of birth if the place in which he is enumerated during the Census is other than the place of his birth. Similarly a person is considered as a migrant by place of last residence if the place in which he is enumerated during the Census is other than his place of immediate last residence.

INTERNAL AND INTERNATIONAL MIGRATION

The migrational movements are of three types; (i) Migration within the state itself with its components: (a) Migration within the district of enumeration (intra district migration), (b) Migration from one district of state to another district of state (interdistrict migration), (ii) Migration from one state to another state of the country interstate migration and (iii) Migration from one country to another country. The first two streams together constitute internal migration, while the last type of movement is called international migration.

REASON OF MIGRATION

As in 1991 and 2001 Census, the reason for migration where elicited in 2001 Census also. The reason for migration were broadly categorized as (i) employment / work (ii) Business (iii) Education (iv) Marriage (v) Moved after birth (vi) Moved with household (vii) Any other reason. Reason for migration has been elicited only with reference to movement from place of last residence.

IMPACT OF MIGRATION

Growth of population of a particular place depends upon natural increase due to excess of births over deaths and migration. Knowledge of trends in migration helps in future planning of a region.

PERCENTAGE DISTRIBUTION OF MIGRANTS BY PLACE OF BIRTH

Place of birth	2001Census			1991Census		
	Person	Males	Females	Person	Males	Females
Total Population	**762,141**	**378,351**	**383,790**	**710,214**	**358,129**	**352,085**
1. Born in India	700,813	347,367	353,446	644,653	324,469	320,184
	92.0%	91.8%	92.1%	90.8%	90.6%	90.9%
2. Within the state of enumeration	653,295	326,707	326,588	593,226	299,456	293,770
	93.2%	94.1%	92.4%	92.0%	92.3%	91.8%
(i) Born in the place of enumeration	454,204	236,659	217,545	455,729	240,968	214,761
	69.5%	72.4%	66.6%	76.8%	80.5%	73.1%
(ii) Born elsewhere in the district of enumeration	139,270	61,520	77,750	69,068	25,300	43,768
	21.3%	18.8%	23.8%	11.6%	8.4%	14.9%
(iii) Born in other districts of the state	59,821	28,528	31,293	68,429	33,188	35,241
	9.2%	8.7%	9.6%	11.5%	11.1%	12.0%
3. States in India beyond the state of enumeration	47,518	20,660	26,858	51,427	25,013	26,414
	6.8%	5.9%	7.6%	8.0%	7.7%	8.2%
4. Born Abroad	61,328	30,984	30,344	65,251	33,580	31,671
	8.0%	8.2%	7.9%	9.2%	9.4%	9.0%
5. Unclassifiable	0	0	0	310	80	230
	0.0%	0.0%	0.0%	0.0%	0.0%	0.1%

The above table explains the comparison between 1991 and 2001 census data on migrant population by Place of birth. It reveals that 21.3% (2001 census) migrants were born elsewhere in the district of enumeration but within the State, while 9.2% were born in other districts of the State. There were migrants (6.8%) also from other areas beyond the State of enumeration. In 1991 census the migrant population to the place of enumeration within the district and from other districts of the State and other places beyond the State were less compared to 2001.

PERCENTAGE DISTRIBUTION OF MIGRANTS BY PLACE OF LAST RESIDENCE IN THE DISTRICT

Place of last Residence	2001Census			1991Census		
	Person	Males	Females	Person	Males	Females
Total Migrants	**314,635**	**144,637**	**169,998**	**256,675**	**118,182**	**138,394**
1. Last residence elsewhere in India	265,839	119,874	145,965	198,355	88,291	110,064
	84.5%	82.9%	85.9%	77.3%	74.7%	79.5%
2. Last residence within the state of enumeration but outside the place of enumeration	222,306	100,999	121,307	151,548	65,598	85,950
	83.6%	84.3%	83.1%	76.4%	74.3%	78.1%
(i) Elsewhere in the district of enumeration	161,753	72,283	89,470	86,089	33,920	52,169
	72.8%	71.6%	73.8%	56.8%	51.7%	60.7%
(ii) In other districts of the state of enumeration	60,553	28,716	31,837	65,459	31,678	33,781
	37.4%	39.7%	35.6%	76.0%	93.4%	64.8%
3. Last residence in other states in India beyond the state of enumeration	43,533	18,875	24,658	46,807	22,693	24,114
	16.4%	15.7%	16.9%	23.6%	25.7%	21.9%
4. Last residence outside India	48,796	24,763	24,033	57,990	29,890	28,100
	21.9%	24.5%	19.8%	38.3%	45.6%	32.7%
5. Unclassifiable	0	0	0	330	1	230
	0.00%	0.00%	0.00%	0.1%	0.0%	0.2%

The above table is presented to compare the migrant population based on the place of last residence between 1991 and 2001 censuses in the district. Of the total population in the district, 41.3% returned as migrants based on place of last residence which was 36.1% in 1991 census. This shows that there was an increasing trend of migration in the district. Majority of the migrants (72.8%) were from other places within the district of enumeration who lived there and moved to the place of enumeration. In 1991 census, this accounted only 56.8% who lived elsewhere within the district.

INTER STATE MIGRANTS TO THE NILGIRIS DISTRICT

Serial No.	State	2001		1991	
		Migrants	% to Total Migrants	Migrants	% to Total Migrants
1	Kerala	33,377	70.2	36,707	71.4
2	Karnataka	8,477	17.8	9,530	18.5
3	Andhra Pradesh	1,081	2.3	1,060	2.1
4	Maharashtra	863	1.8	1,020	2.0
5	Uttar Pradesh	542	1.1	440	0.9
6	Total for five states	44,340	93.3	48,757	94.8
7	Other state	3,178	6.7	2,670	5.2
	Total	47,518	100.0	51,427	100.0

In 2001 Census, migrants from other states to the Nilgiris district were 47,518, lesser when compared to 1991 census (51,427). The proportion of migration among other states in India reflects that migrants from Kerala to the district was the highest (70.2%), followed by Karnataka (17.8%), Andhra Pradesh (2.2%) and Maharashtra (1.8%).

RURAL - URBAN COMPONENT OF MIGRATION

The flow of migrants consists of four streams viz., rural to rural, rural to urban, urban to rural and urban to urban. The data on the basis of these streams incase of migrants classified by place of birth.

The Nilgiris - 2001			
Place of birth	Place of Enumeration		
1. Within the State	Total	Rural	Urban
Total	199,091	89,253	109,838
	100 00	(44.8)	(55.2)
Rural	N.A	N.A	N.A
Urban	N.A	N.A	N.A
2. In other states of India	Total	Rural	Urban
Total	47,518	16,922	30,596
	(100.0)	(35.6)	(64.4)
Rural	N.A	N.A	N.A
Urban	N.A	N.A	N.A

The Nilgiris - 1991			
Place of birth	Place of Enumeration		
1. Within the State	Total	Rural	Urban

	(43.2)	(11.5)	(31.6)

ANNEXURE V

BRIEF ACCOUNT OF MAIN RELIGIONS IN THE DISTRICT

In our country, which is a secular country, many religions have thrived and every Census have attempted to provide an interesting picture of the religious persuasions and beliefs of the people of the country. The following table shows the main religious communities between Ruran and Urban areas of major religions in the Nilgiris district in 2001 and 1991 Census.

Serial Number	Religion	2001 Census			1991 Census		
		Total	Rural	Urban	Total	Rural	Urban
1	Hindu	599,047	266,918	332,129	563,411	311,122	252,289
2	Muslim	72,766	18,538	54,228	65,347	18,042	47,305
3	Christian	87,275	21,656	65,616	78,420	26,757	51,663
4	Jain	1,229	16	1,213	1,209	3	1,206
5	Buddhist	348	35	313	148	9	139
6	Sikh	342	25	317	350	32	318
7	Other Religions	167	23	144	83	29	54
8	Religion Not Stated	970	321	649	1,246	790	456
	Total	**762,141**	**307,532**	**454,609**	**710,214**	**356,784**	**353,430**

From the above table we see that the percentage of Hindu population to total population in 2001 and 1991 were 78.60% and 79.33% respectively. The percentage of Christian population were 11.45% and 11.04% in 2001 and 1991 respectively. Muslim population in the district was 9.55% in 2001 and 9.20% in 1991. In the Nilgiris district all other religions were negligible in number.

TALUKWISE DISTRIBUTION OF MAJOR RELIGIONS IN THE NILGIRIS DISTRICT

Serial Number	District / Taluk	Census Year	Population	Hindu	Christian	Muslim	Jain	Sikh	Buddhist	Other religion persons	Religion not stated
	The Nilgiris	**2001**	**762,141**	**599,047**	**87,272**	**72,766**	**1,229**	**342**	**348**	**167**	**970**
		1991	**710,214**	**563,411**	**78,420**	**65,347**	**1,209**	**350**	**148**	**83**	**1,246**
1	Panthalur	2001	117,157	84,506	13,044	19,459	6	4	15	13	110
		1991	-	-	-	-	-	-	-	-	-
2	Gudalur	2001	98,212	62,158	12,207	23,749	5	18	12	8	55
		1991	181,917	122,367	20,842	38,427	0	0	0	8	273

		1991	114,374	102,294	9,019	2,730	33	8		1	289
6	Coonoor	2001	175,067	134,384	28,953	10,781	467	264	70	81	67
		1991	173,884	134,536	28,374	3,833	530	331	87	23	270

Note:Panthalur and Kundah were not taluks in 1991.

ANNEXURE VI

MARITAL STATUS OF POPULATION

Marital status is defined as under:

Never married: A person who has never been married at any time before.

Married/currently married: A person whose marriage is subsisting with spouse living. It may be the first or subsequent marriage of either of the persons. Persons who are recognized by custom or society as married and persons in stable de facto union are also considered as married.

Widowed: A person whose spouse is dead and who has not been married again.

Divorced or Separated: A person who has been separated from the spouse and is living apart with no apparent intention of living together again or who has been divorced either by decree of a law court or by accepted social religious custom but who has not been re - married.

SEX WISE PERCENTAGE DISTRIBUTION OF MARITAL STATUS

Census Year	Sex	Never married	Married	Widowed	Divorced / Seperated	Unspecified
2001	M	50.4	47.7	1.5	0.3	0.0
	F	40.8	48.4	9.4	1.4	0.0
1991	M	54.0	44.7	1.1	0.2	0.0
	F	45.6	45.8	7.7	0.9	0.0

From the above table we see that out of total population, 50.4% males and 40.8% females are unmarried in 2001 census whereas these were 54.0% and 45.6% . In case of females, 48.4% were married in 2001 whereas 45.8% married in 1991.

ANNEXURE VII

AGE, SEX AND EDUCATIONAL LEVEL

LITERATE

A person aged 7 years and above who can both read and write with understanding in any language is to be taken as literate. A person, who can only read but cannot write, is not literate. The tables below gives the selected indications on literacy and education level during 1991 and 2001 for The Nilgiris District.

LITERACY RATES FOR AGE GROUP BY SEX

		Literacy rates for the age-group					
Census Year	Sex	7 years and above	10 years and above	15 years and above	10-14	15-59	60+
2001	M	88.3	88.5	87.3	97.4	88.9	70.8
	F	71.7	70.6	67.4	96.2	71.7	26.5
1991	M	81.8	81.4	79.5	93.6	81.8	52.3
	F	61.5	59.2	54.0	90.8	57.2	15.4

Note: 'Age not Stated' is not include

PERCENTAGE OF LITERACY IN TOTAL LITERATE

Serial Number	Literacy level	2001 Census	1991 Census
	Total Literates	100.0	100.0
1	Literate without level	1.9	0.6
2	Below Primary	15.6	22.1
3	Primary	27.1	30.2
4	Middle	18.5	18.9
5	Matric/Secondary	20.9	18.1
6	Higher Secondary	8.9	4.9
7	Non-techinical diploma or certificate not equal to degree	0.1	0.1
8	Technical diploma or certificate not equal to degree	1.0	0.5
9	Graduate and above	6.1	4.7

DISTRIBUTION OF LITERATES BY EDUCATIONAL LEVEL - 2001 AND 1991

		Percentage Literates who are				
Census Year	Sex	below primary	primary but below middle	middle level below matric	matric but below graduate	graduate and above
2001	M	16.2	26.4	18.3	32.0	7.1
	F	19.1	28.0	18.7	29.5	4.8
1991	M	20.1	29.3	19.2	25.7	5.7
	F	26.1	31.5	18.4	20.7	3.3

ANNEXURE VIII

DISTRIBUTION OF DIFFERENT MOTHER TONGUES

MOTHER TONGUE

"Mother Tongue is the language spoken in childhood by the person's mother to the person. If the mother died in infancy, the language mainly spoken in the person's home in childhood will be the mother tongue. In the case of infants and deaf means the language usually spoken by the mother should be recorded. In the cast of doubt, the language mainly spoken in the household may be recorded".

As per the Census concept, each language is a group of mother tongues. The Census questionnaire collects information on the mother tongue of each person and mother tongue is defined as the language spoken in childhood by the person's mother to the person. There are 18 languages included in the Eighth Schedule to the Constitution of India (Scheduled Languages).

DISTRIBUTION OF DIFFERENT MOTHER TONGUES RETURNED

Serial Number	Mother Tongue	Census Year	Number of persons who returned the mother tongue as their mother tongue					
			Total	Percentage to total population	Rural	Urban	Proportion	
							Rural	Urban
1	Tamil	2001	374,218	49.1	124,187	250,031	33.2	66.8
		1991	340,219	47.9	144,560	195,659	42.5	57.5
2	Badaga	2001	132,295	17.4	84,610	47,685	64.0	36.0
		1991	132,860	18.7	109,670	23,190	82.6	17.5
3	Malayalam	2001	123,579	16.2	50,799	72,780	41.1	58.9
		1991	113,262	16.0	50,097	63,165	44.2	55.8
4	Kannada	2001	52,137	6.8	15,839	36,298	30.4	69.6
		1991	48,668	6.9	17,471	31,197	35.9	64.1
5	Telugu	2001	32,584	4.3	13,878	18,706	42.6	57.4
		1991	32,671	4.6	17,779	14,892	54.4	45.6
6	Urdu	2001	12,521	1.6	865	11,656	6.9	93.1
		1991	11,169	1.6	756	10,413	6.8	93.2
7	Other mother Tongues	2001	26,294	3.5	16,288	10,006	62.0	38.1
		1991	23,900	3.4	15,431	8,469	64.6	35.4
	All mother Tongues	**2001**	**762,141**	**100.0**	**307,532**	**454,609**	**40.4**	**59.6**
		1991	**710,214**	**100.0**	**356,784**	**353,430**	**50.2**	**49.8**

In the Niligiris District, among the Scheduled Languages returned as mother tongue, Tamil as mother tongue was returned by 47.9%, followed by Badaga (10.7%), Malayalam (15.9%) and Kannada (6.9%) in 1991 census. But during 2001 census, Tamil as mother tongue was returned by 49.1%, followed by Badaga with 17.4% and Malayalam with 16.2%.

Disclaimer

Apart from demography data, all the basic amenities data were collected from State Government as on 1999. Every efforts have been made to present the data accurately. However, there could be human errors occasionally in data presentation due to enormous volume of the data. Such errors, if any, are not intentional. When in doubt, the user is advised to consult the concerned office.
