of the Indian Administrative Service
Director of Census Operations, Tamil Nadu

BRAHADEESWARAR TEMPLE

Sri Brahadeeswarar temple is the most ambitious, constructed by large blocks of granite. The pyramidal structure of Vimana, 14 storeys raised to a height of 216 feet is visible from all sides in the small pillars, balcony, windows and beautiful images carved thereon, it enchants the minds and eyes of all spectators. It was a colossal task, the plinth of central shrine is 45.72 sq.m. and the shrine proper is 30.48 sq.m.

The most striking feature of this shrine is its imposing Vimanam which raises perpendicularly from a square base to a height of 60.96 m. The stone carrying the huge 'sikara' is said to weight 81.28 tonnes and was raised to its present height by being dragged on an inclined place of 6.44 km length. The height of the Kalasa placed on this stupa is about 4 meters. The Kalasa is made of 3083 palam and 9249 tolas of copper and covered with gold plates. The Big Bull (Nandi) opposite to sanctum sanctorium, made up of a single stone is about 2 m height, 6 m length and 2.5 m width and roughly about 20 tonnes weighs .

The presiding deity, the Sivalinga,, is 7 meter high. The priests have to use a ladder for abhishegams.

Annexures and their write-up

Annexure- I : Number of villages under each gram panchayat 796

Annexure- II : Fertility and mortality measures 836

Annexure- III : Various measures of fertility and mean age at marriage 837

Annexure- IV : Distribution of migrants by place of birth/place of last residence 838

Annexure- V : Brief account of main religions in the district 840

Annexure- VI : Marital status of population in the district 841

Annexure- VII : Age, sex and educational level in the district 842

Annexure-VIII : Distribution of different mother tongues returned in the district 843

Foreword

The District Census Handbook (DCHB) published by Census Organisation since 1951 census, is one of the important publications in the context of planning and development at grossroots level. The publication, which is brought out for each district, contains several demographic and socio-economic characteristics village-wise and town-wise of the district alongwith the status of availability of civic amenities, infrastructural facilities, etc.

The scope of the DCHB was initially confined to a few Census Tables and Primary Census Abstract (PCA) of each village and town within the district. Thereafter, at successive censuses, its scope and coverage has been enlarged. The DCHB published at the 1961 census provided a descriptive account of the district, administrative statistics, census tables and a village and town directory including PCA. The 1971 census-DCHB series was in three parts: Part-A related to village and town directory, Part-B to village and town PCA and Part-C comprised analytical report, administrative statistics, district census tables and certain analytical tables based on PCA and amenity data in respect of villages. The 1981 census DCHB was in two parts: Part-A contained village and town directory and Part-B the PCA of village and town including the SCs and STs PCA up to tahsil/town levels. New features alongwith restructuring of the formats of village and town directory were added into it. In Village Directory, all amenities except electricity were brought together and if any amenity was not available in the referent village, the distance in broad ranges from the nearest place having such an amenity, was given. Information on new items such as adult literacy centres, primary health sub-centres and community health workers in the village were provided so as to meet the requirements of some of the Revised Minimum Needs Programme. Information on approach to the village was provided for the first time in the Village Directory so as to give the details on number of inaccessible villages in each district. In the Town Directory, a statement (VII) on slums was introduced to provide the details on civic and other amenities in the notified slums of Class I and Class II towns.

The 1991 census DCHB, by and large, followed the pattern of presentation of 1981 census, except the format of PCA was restructured. Nine-fold industrial classification of main workers was given against the four-fold industrial classification presented in the 1981 census. In addition, sex-wise population in 0-6 age group was included in the PCA for the first time with a view to enable the data users to compile more realistic literacy rate as all children below 7 years of age had been treated as illiterate at the time of 1991 census. One of the important innovations in the 1991 census was the Community Development Block (CD block) level presentation of village directory and PCA data instead of the traditional tahsil/taluk/PS level presentation. It was expected that the presentation of village directory and PCA data at CD block level will help the planners in formulation of micro level development plans, CD block being lowest administrative unit.

The present series of 2001 census DCHBs have been made more informative and exhaustive in terms of coverage and content. The Village Directory has been enlarged in scope by including a number of other facilities like banking, recreational and cultural facilities, newspapers and magazines and 'most important commodity' manufactured in village. Income and expenditure of gram panchayat, wherever possible, has been provided. Apart from these, more details on distance(s) at which basic amenities are available (if not available in the village), are given. This includes educational facilities (namely primary and middle schools and college), medical facilities (viz. Allopathic Hospital, Maternity & Child Welfare Centre and Primary Health Centre), drinking water, post & telegraph (post office and phone), communication, bank, credit societies and recreational facilities. In Town Directory, the statement on Slums has been modified and its coverage enlarged by including details on all slums instead of 'notified slums'. The information is given in case of all statutory towns irrespective of their class, against only Class I and Class II towns in the 1981 and 1991 censuses. The basic amenities

available in the villages and towns are analysed in depth with the help of a number of cross-classified inset tables and statements. Two other significant additions in the publication are inclusion of 'motif' highlighting significant characteristic of the district and analytical notes as annexures. The analytical notes on (i) fertility and mortality and (ii) various measures of fertility and mean age at marriage are prepared based on 1991 Census. Whereas, in the notes relating to (i) percentage distribution of migrants by place of birth/place of last residence, (ii) main religions, (iii) marital status of population, (iv) age, sex and education and (v) distribution of spectrum of mother tongue, nature and extent of changes occurred in the district in its basic socio-demographic features during the decade 1991-2001 are analysed. The eight digits permanent location code number (PLCN) to all the villages and towns have been assigned keeping in view the future needs.

The village and town level amenity data have been collected, compiled and computerised in prescribed record structure under the supervision of Dr. C. Chandramouli, Director of Census Operations, Tamil Nadu. Thereafter, efforts have been made to ensure comparability of the information with that of 1991 census data and the information brought out by the respective State Governments in their annual reports and statistical handbooks for various years after 1991. The task of planning, designing and coordination of this publication was carried out by Shri R.G. Mitra, Deputy Registrar General (C&T) and Dr. I.C. Agrawal, Assistant Registrar General of Social Studies Division. Dr. R.P.Singh, Deputy Registrar General (Map) provided the technical guidance in the preparation of maps. Whereas, Shri Anil Kumar Arora, Deputy Director of Data Processing Division who worked under the overall supervision of Shri Himakar, Addl. Director (EDP) helped in preparation of record structure for computerisation of village and town directory data and the programme for the generation of Village Directory and Town Directory statements including analytical inset tables. The draft DCHB manuscripts received from the Census Directorates have been scrutinised in the Social Studies Division under the guidance of Shri S.L. Jain, Deputy Director and Shri R.K. Mehta, Assistant Director. I am thankful to all of them and others who have contributed to make this publication possible.

D.K. Sikri
Registrar General &
Census Commissioner, India

New Delhi.

Preface

Publication of the District Census Handbooks (DCHBs) was initiated after the 1951 census and is continuing since then with innovations/modifications after each decennial census. This is the most valuable district level publication brought out by the census organization on behalf of each State Government/Union Territory administration. It *inter-alia* provides data/information on some of the basic demographic and socio-economic characteristics and on the availability of certain important civic amenities/facilities in each village and town of the respective districts.

The District Census Handbook has two segments: Part A and Part B. Part A primarily deals with village and Town Directory and Part B contains Primary Census Abstract of each village and town of the District. The 1991 Census data presentation both in Part A and Part B of this book was the transition from traditional presentation at Taluk level to CD Block level and this pattern continued in 2001 census as well.

For the first time in 2001 census, the District Census Handbooks are being made available in electronic format.

The District Census Handbook is the joint collaboration of the Census Directorate and the Government of Tamil Nadu. On behalf of the Government of Tamil Nadu, this Directorate has prepared the manuscript of this book.

The District Census Handbooks of 2001 have some additional information which is based on the 2001 census as compared to the previous censuses like capturing of information on participation of women in economic activities, netting all the children in age-group 0-14 as also elderly people of age 60 years and above. The data about the number of handicapped persons including partial disability has also been collected in 2001 census for the whole of India. The most important methodological innovation introduced in 2001 census relate to carving out separate slum enumeration blocks.

The data being presented in this publication have been collected and compiled by Shri M.R.V. Krishna Rao, Deputy Director of Census Operations, Tamil Nadu with the assistance of S/Shri S.K. Srivastav, N. Sukumar Nandagopal and A. Achchu Ali, Assistant Directors. For the preparation of manuscript of this book, I received wholehearted co-operation from all the Heads of Departments, Heads of offices of the District / Taluk / Corporation / Municipal / Town and Rural Administration and a number of dedicated and experienced Census staff of this office. I am grateful to all of them for their valuable contribution in the accomplishment of this task of national importance. I must place on record the co-operation extended to me by the press media and electronic media to make the census taking a great success in the state.

I am deeply grateful to Shri J.K. Banthia, IAS the Registrar General and Census Commissioner, India, New Delhi for the valuable guidance and advice at every step till the finalisation of this handbook. I also express my thanks to Dr I.C. Agrawal, Assistant Registrar General (Social Studies Division) and Shri S.L. Jain, Deputy Director, ORGI, New Delhi for preparing the set of instructions for the compilation of the village and Town Directory and other inset tables etc. being inserted in this District Census Handbook.

In particular, it has to be mentioned that the write up portion was taken up by Shri M.R.V.Krishna Rao, Deputy Director and finalised by Dr.D. Venkatesan, Deputy Director with the assistance of other members of the staff whose names have been mentioned in the "Acknowledgements".

District Highlights – 2001 Census

1. Thanjavur District is the 14th District in terms of the highest population in the state.
2. Thanjavur District share 33.8% of its population from urban areas.
3. The district has recorded 638 persons per square km, sixth dense district in the state.
4. This district sex ratio was 1,021.
5. This district has recorded literacy rate of 75.5%.
6. Pattukkottai taluk has the highest number of the inhabited villages (164) while Peravurani taluk has the lowest number of (72) such villages.
7. Thiruvalanjuli village (L.C.no 01169300) of Kumbakonam taluk has the highest population of 10,955, Paingattuvayal village (L.C.no 01222000) of Pattukkottai taluk has the least population of 3.
8. Thambikottai Maravakad Reserved Forest village (L.C.no 01227500) of Pattukkottai taluk has the largest area of 2665.17 hectares and Govindapuram village (L.C.no 01161800) of Thiruvedaimarudur has the lowest area of 0.11 hectares.
9. The decadal growth in population during 1991-2001 was 9.4%.
10. The improved drinking water and electricity facilities extended to most of the villages.
11. Thanjavur district stands unique from time immemorial for its agricultural activities and is rightly acclaimed as the Granary of the South India lying in the delta region of the river Cavery.
12. The economy of the district is primarily agrarian in nature.
13. The manufacturing of musical instrument from Jack Wood like Veena, Tambura, Violin, Mrithangam, Tabela and Kanjira exhibit excellent taste, knowledge and workmanship.
14. "Mahamaham" festival is celebrated in Kumbakonam once in twelve years, attended by lakhs of devotees from all over the country.
15. Manora Fort is located in Sarabondrarajanpattinam village, built during Maratta period in 1814.
16. The great carnatic music composer and saint Sri Thiyagaraja lived and died here.

Summary Statements

Summary Statements

Statement 1: Name of the headquarters of District/Taluks, their rural-urban status and distance from District headquarters, 2001.

Statement 2: Name of the headquarters of District/C D block, their rural-urban status and distance from District headquarters, 2001.

Statement 3: Population of the District at each census from 1901 to 2001.

Statement 4: Area, number of villages/towns and population in District and Taluks, 2001.

Statement 5: C D block wise number of villages and rural population, 2001.

Statement 6: Population of urban agglomerations (including constituent units/ towns), 2001.

Statement 7: Villages with population of 5,000 and above at C D block level as per 2001 census and amenities available.

Statement 8: Statutory Towns with population less than 5,000 as per 2001 Census and amenities available.

Statement 9: Houseless and institutional population of Taluks, rural and urban, 2001.

ANALYTICAL NOTE

Analytical Note

(i) History and Scope of the District Census Handbook

The compilation of District Census Handbook is an innovation of the 1951 Census. District is considered as the most important unit for presentation of Census data. Census Statistics are also compiled for individual villages and towns, as they constitute the basic units of human habitation. Besides this, some other useful information pertaining to the land and the people has also been included in it to make it a self-contained book of reference for the District. It was, however, not altogether a new idea, since census data for smaller units were published in earlier censuses also in one form or the other. For the first time in 1891 District wise list of villages were published giving the population of each village. At the 1911 Census, data of villages were published in the form of village directory. Such village directories were again compiled in the shape of District Census Statistics at the 1921 Census. Finally, District Census Handbooks emerged as regular decennial publication since 1951 Census. The demand for the basic data for the smallest administrative unit was greatly felt in the post-independence era. The ushering in an era of planning and development in the wake of launching of Five-year plans after attaining independence, urgent need for detailed data at village level was felt. Thus, when the proposal to bring out District Census Handbook was put before the State Government, they readily agreed for the compilation and printing of District Census Handbooks through their respective Directors of Census Operations, under the authority of local government concerned. The general appreciation and utility of this handbook encouraged the Census Organisation to increase the scope of publication.

The tradition thus built up has been continued in the present series of District Census Handbooks. In the 1971 Census, it had been decided to bring out these hand books in three parts viz; Parts A, B and C. In respect of Tamil Nadu, Parts A and B of this publication had been printed in one volume and part C as a separate volume. During 1981 Census, it had been decided to print it in two parts viz. Parts A and B separately. Part A of this handbook consists of village and Town Directory and part B gives data on Primary Census Abstract (PCA). In 1991 Census also, the same pattern was adopted publishing Parts A and B in a single / double volumes as per the requirement and determining the size of the publication. However, in this census some of the non-census data included information on girl schools, social forestry areas etc. whereas items like staple food and information on newspapers etc. have been omitted.

In the present Census, this District Census Handbook is being brought out in two volumes which contain the village and town directory as also the Primary Census Abstract and it should certainly quench the thirst of the planners involved in micro level planning. Similarly, additional data revealing civic and other amenities in class I town has been presented especially in respect of slum dewellers. Scholars and planners alike should benefit from the data on amenities.

(ii) Brief History of the District

According to the known history dating back to Sangam Age, the Cholas ruled over Thanjavur for about one thousand years. It was here that plans were formulated to extend the Chola supermacy by spreading their glory from Kanniyakumari in the south to Himalayas in the north. They had popular history through their fine arts, who errected temples, constructed anjucuts, built ports and cities.

Among the Chola kings who found place in Sangam literature, Karikala and Koccengan were the most prominent. The name 'Karikala' which in Tamil refers to man with charred leg, the name derived by this king from a fire accident. He was imprisoned and deprived of his birth right by his enemies. He, however, managed to regain the throne and in the great battle at Venni he defeated Pandya and Chera rulers and secured for himself the hegemony over them. He crushed both the internal and external opposition and became complete master of his country. He renovotated the capital of Uraiyur, built up the renowned port of Puhar (Kaveripoompattinam) and patronised

liberal arts and letters. Karikala was succeded by two rival kings-Nalangilli and Nedungilli who ruled from Puhar and Uraiyur respectively. The nest Chola King Killivalavan from Uraiyur was a brave and able warrior. Of the Chola of later Sangam age, Koccengan was more brilliant and illustrious in both war and peace. He showed equal zeal for both Saivism and Vaishnavism, built numours Saivite temples including the famous Jambukeswara Temple at Thirunaraiyur.

After a brief set back in the Chola regime between the third to ninth century A.D., the Cholas became the mighty rulers. Once again Vijayalaya (850-870), the founder of the New Chola Dynasty, drove away the Muttaraiyar Chieftains from Thanjavur and assisted the Pallava King to stem the Pandian over lordship. His son Aditya I (870-907) soon over-threw the Pallava King Aparajita and expelled him from his territory. After conquering the Kongu Country and Pandyas, he further extended his kingdom. He was an ardent Saivite like his father and built temples along the banks of cauvery from Sahyadri to sea. Parantaka I(907-955) was more powerful and under his rule Cholas acquired a dominion which foreshadowed the great empires of Rajaraja and Kullottunga. With the rise of Rajaraja I (985-1014), the days dawned to bring about new and brilliant chapter in the history of Cholas. Both in war and peace Rajaraja and his son Rajendra proved themselves as the most outstanding personalities of their time. Rajaraja conquered Kerala (Chera country) the whole of the Pandya country and Malainadu (Coorg) and extended his dominion. He also invaded Ceylon and destroyed Anuradhapura, its capital. He was also a great statesman and administrator and endeavoured his best to establish his empire on a firm footing. He built the most significent temple of Rajarajeswara at Thanjavur, the fine specimen of Tamil architecture. Rajaraja was succeeded by his son Rajendra I (1014-1044). He had the advantage of possessing an empire which had already been orgainised on sound lines. He set about at once to improve its organisation and increase its glory. He undertook expedition to north in search of the Ganges and assumed the title of "Gangai Konda Cholan ". His most glorious expedition was to Kadaram which shows the great naval strength of Cholas. Rajendra I was succeeded by four rulers Rajadhiraja, Rajendra II, Viranrajendra and Adirajendra's reign was brief and it became weak in his time and later the kingdom passed on to the Eastern Chalukyan. Rajendra Kulottunga (1070-1120) was a remarkable personality. He was more a statesman than a warrior. From 1120 to 1163, three Chola kings, viz, Vikrama Chola (1120-1135) Kulottunga II (1136-1150) and Rajaraja II (1151-1163) succeeded Kulottunga I and under all these rulers no wars or invasions distracted the country. During the reigns of Rajaraja III (1216-1246) and Rajendra III (1247-1279), the Pandyas in the south and Hoysalas in the north monopolised all the power. By the beginning of the 13th century, the Chola dynasty became extinct and it gave way to Pandyan supermacy.

The Pandiyan regime was short lived. When the Pandiyan Kingdom was in the thrones, the muslim ruler Ala-Ud-Din- Khiliji, the Sultan of Delhi, took advantage of it and over powered the Pandiyas. Thanjavur then came under the Muslim rulers. Muslim dominations continued till the middle of the 14th century when Vijayanagar Kings ended the Muslim rule. Thanjavur remained under the supremacy of the Vijayanagar Kings for a long period. The Nayak dynasty was establised during this period and Sevappa, the founder of Nayak Kingdom of Thanjavur made his appearance on the second (1532-1560). In 1560, Sevappa Nayak made over kingdom to his son Achuyutappay Nayak. His rules unlike that of his father was not one of unbroken peace. Shortly after getting old he abdicated the crown in favour of his son Ragunatha (1600-1630). During his reign, a Danish settlement was established at Tranquebar (1620). The Nayaks of Thanjavur were loyal to Vijayanagar after the battle of Talikotta and helped Vijayanagar in repulsing the attacks of the Nayak of Madurai and their temporary ally Golkonda, but the beginning of the 17th Century was the end of Vijayanagar empire.

Attempts were then made by the Nayaks of Madurai and the Sultan of Bijapur to capture Thanjavur. The Marattas also came to Thanjavur in the later half of the 17th century. Ekogi became the first Maratta ruler of Thanjavur (1676-1683). The Marattas ruled Thanjavur for some time but became later vassals of the Mughal Governor of Karnataka. Subsequently there were hostilities between the Arcot Nawab and the Maratta ruler of Thanjavur. The French and English

was later established. Saraboji II the adopted son of Tuljaji, was made King of Thanjavur in 1798, after agreeing with all the conditions laid down by the British Government. A pact was signed between the Maratta ruler and the English by virtue of which the status of the Raja was reduced to a mere vassal.

The administration of Thanjavur was given over to English fully under the Treaty of 1799. The ruler of the Thanjavur was allowed to retain the fort of Thanjavur only with limited power of administration. When the ruler died in 1841 without heir, the Thanjavur fort was also annexed by the British and it became part of the then Madras, Thanjavur remained under the British until 1947 when India attained freedom.

(iii) Administrative Set up

Thanjavur district had 11 taluks in 1951 which subsequently increased to 12, then to 13 and 16 during 1961, 1971 and 1981 Censuses respectively. At present, this district stands diveded into 3 divisions consisting 8 Taluks.

Thanjavur District was bifurcated as Thanjavur and Nagapattinam District with effect from 18.10.1991. Valangaiman Panchayat Union area originally with Thanjavur District has been merged with newly formed Thanjavur District with effect from 01.04.1997.

The following table gives the list of Taluks, names of CDs, number of villages and number of inhabited villages in this district.

Name of the Taluk	Total number of Towns	Name of the CD Blocks	Total Number of Villages	Total Number of inhabited villages
Thiruvidaimarudur	5	Thiruvidaimarudur	58	56
		Thiruppanandal	52	52
Kumbakonam	7	Kumbakonam	73	66
		Papanasam	39	38
Papanasam	4	Ammapettai	68	64
Thiruvaiyaru	3	Thiruvaiyaru	49	46
Thanjavur	4	Budalur	50	49
		Thanjavur	70	62
Orathanadu	1	Orathanadu	82	80
Pattukkottai	3	Thiruvonam	47	44
Peravurani	2	Madakkur	46	45
		Pattukkottai	56	56
		Sethubavachatram	72	72
		Peravurani	59	55
Total	**29**		**821**	**785**

The district represent 10 Assembly constituencies of which one is reserved for Scheduled Castes. There is, however, no reserved constituency for Scheduled Tribes. Thanjavur is a Parliamentary Constituency. There are 6 Legislative Assembly segements. Valangaiman Assembly constituency is reserved for Scheduled Castes.

During 2001 Census, the district comprised 3 municipalities, 22 Town Panchayats and 904 Revenue Villages.

(iv) Physical Features

Thanjavur District lies on the east of Tamil Nadu. It is situated between 9^0 50'and 11^0 25' of the northern latitude and between 78^0 45'and 70^0 25' of the eastern longitude. It extend to an area of 3415 sq. kms. The District is bounded on the north by the Coleroon which separate it from Perambur and Tiruchirapalli district, and on the east by the Thiruvarur and Nagapattinam districts, and on the southeast by the Palk Strait and Pudukottai district and on the west by Pudukottai and Thiruchirappalli district.

Physiography

The district can be divided into two divisions, viz., the deltaic region, the upland area or non-deltaic region. The deltaic region covers the whole northern and eastern portions of the district where the Cauvery river with its wide network of branches irrigate more than half of the district. It comprises the whole of Kumbakonam taluk and parts of Thanjavur and Papanasam Taluks. The rest of the southern and western areas of the district are non-deltaic or upland region. A good portion of upland region which was dry has now been brought under irrigation with the help of Grand Anaicut Canal, fed by the Cauvery-Mettur Project and by extension of the Vadavar river. Non-deltaic region is also devoid of hills and slopes gradually seawards.

Drainage

The river Cauvery and its tributaries are the most remarkable feature of Thanjavur District. Cauvery is considered to be the best of the river that drain the southern Pennisula of India. The river flows from Karnataka State and passes through Dharmaprui, Salem, Erode, Thiruchirappalli, Thanjavur and Nagapattinam districts covering a distance of about

770 kms, draining an area of about 72,800 sq.km. in all. Springing from a spot lying on Brahmagiri Mountains on Western-ghats at a height of 1,320 metres above sea level, Cauvery meandus its way across Karnataka and Tamil Nadu and showering not only economic prosperity of millions of people but also carving a rich for itself in their lives in historical, culture and religious realms.

While passing through Erode, Cauvery makes two more tributatries viz., Noyyal and Amaravathi join it before it reaches Thiruchirappalli district. Here the river becomes wide, with a sandy bed and flows in an easterly direction till splits into two at upper anicut about 14 kilometres west of Thiruchirappalli. The northern branch of river is called the Coleroon while the southern branch retains the same name Cauvery and then goes directly eastwards into Thanjavur District. These two rivers join again and form the Srirangam island near Trichirappalli.

The Chola king, "Karikalan" has been immortalised as he has constructed the bank for the Cauvery all the way from Puhar (Kaveripoompattinam) to Srirangam. It was built as far back as 1,600 years ago or even more. On both sides of the river are found walls spreading to a distance of 1,080 feet. The dam Kallanai on the border between Tiruchirappalli and Thanjavur constructed by him is a superb work of engineering, which was constructed with earth and stone and has stood the vagaries of nature for hundreds of years. In 19th century, it was renovated in a bigger scale. The name of the historical dam has since been changed to "Grand Anicut" and stands as the head of great irrigation system in the Thanjavur district. From this point, the Coleroon runs north-east and discharges herself into the sea at Devakottai, a little south of Parangipettai. From river Coleroon, Manniar and Uppanai Branch of at lower Anicut and irrigates a portion of Mayiladuthurai taluk and Sirkazhi taluk. After Grand Anicut, the Cauvery divides into numerous branches and cover the whole of the delta with a vast network of irrigation channels and gets lost in the wide expanse of paddy fields. The mighty Cauvery river here is reduced to an insignificant channel and falls into the Bay of Bengal at the historical place, Poompuhar (Kaveripoompatinam), about 13 Kms north of Tharangampadi. The river Cauvery flows the entire district in different names through its tributaries and branches viz., Grand Anicut, Vennar, Panniyar, Koraiyar, Vettar, Kodamuritiyar, Thirumalairajanar, Arasalar, Veerasozhanar, Mudikondan, Noolar, Vanjiar, Vikaraman, Nattar, Kirtimanar, Nandalar, majalar, mahimalayar, Palavar, Cholasudamani, Puthar, Valappar, Vadavar, Pamaniar, Mulliyar, Ayyanar, Adappar, Harichandranathi, Vellaiyar, pandavaiyar, Odambogiyar, Kattar, Kaduvaiyur and all these branch off into a number of small streams.

Climate

The climate of Thanjavur district can be termed as a fairly healthy one like other coastal area. November, December, January and Februuary are the pleasant months in a year with climate full of warm days and cool nights. From March onwards, the climate rather becomes hot and the mercury shoots and reaches its peak by the end of May and June depending upon the set of summer rain. The North-East monsoon in October brings complete relief. The South-West monsoon sets in June and continues till September. The rainfall during this period is much lower than that of North-East monsoon which sets in October and continues more or less till February (Upto Winter). However, Thanjavur District is benefitted more by North-East monsoon because of its heavy rainfall and the Western ghats invariably feeds the Cauvery and helps greatly for the vast cultivation of the deltaic area

The table below gives the actual and normal rainfall in the District during the South West, North East monsoon, winter and hot weather season in 1999-2000 (in mm)..

District	South West Monsoon		North East Monsoon		Winter Season		Hot Weather	
	Jun-Sep 1999		Oct-Dec 1999		Jan-Feb 2000		Mar-May 2000	
	Actual	Normal	Actual	Actual	Normal	Normal	Actual	Normal
Thanjavur	146	313.3	562.5	518.4	150.5	65.2	82.5	114.8

Forestry

The district headquarters of Forest Division is located at Thanjavur and consists of three territorial Ranges with headquarters at Thanjavur, Kumbakonam and Pattukottai and Central Timber Depot Range at Saliamangalam. The Forest Division comprised natural forests in scattered patches, some of which are of special ecological value these form the compact plantations raised on the banks of rivers and canals etc over the entire district.

The Cauvery delta of Thanjavur has rich potential as a major timber producing area and in future the entire requirement of teak for the state can be asset from Thanjavur only.

Minerals and Mining

The major portion of Thanjavur district is covered by Cauvery Alluvium and reported to have potential for mineral wealth. Vallam stones, laterite, sandstone, Kankar and yellow ochre have been reported from the District. Quartz crystals rolled into pebbles occur in the tertiary formation. Iron ore is found to exist in the neighbourhood of Vallam. Vallam area in Thanjavur Taluk yield laterite of fine quality. Pebbles of transparent quartz occur in conglomeratic sandstones near Vallam. These are of the amethystine citrine and smoky varieties.

Kankar and tuffaceous limestones occur under red soil laterite ranging in the thickness from 0.3 to1.0 m. Kankar layers are also noticed in stream sections. The important occurrences are seen in the Grand Anicut canal cutting between Kuruvadipatti and Pudur and also in the neighbourhood of Thirumalaisamudram. The thickness of Kankar in Thirumalaisamudram area ranges from 2.0 to 2.5 metres and the total reserves have been estimated to be about 0.5 million tonnes. The Kankar is of good quality, coal ranging from 48.42 percent to 52.72 percent and low in Magnesia.

Soil

The geological formation of Thanjavur district is made up of cretaceous, teritary and alluvial deposits and the major area is occupied by the alluvial and territary deposits.

The cretaceous formation occur as a small patch in West and South-West of Vallum. These formations have a very thick lateritic cap consisting of impure lime stones and sand stones of silt, clay calcarious and argillaceous variety, in the coast, these formations are over laid by Cuddalore sand stone of territary age.

Cuddalore sand stone of teritary age is well developed as best seen at West of Grant Anaicut Canal and near Orathanadu. These sand stones are covered by a thin layer of wind brown sandy clays, unconsoilidated sand, clay bound sands and mottled clays with the lignite seams. This tertiary formation is invariably capped by laterite.

In the east, the alluvial deposits of the river cauvery and its tributaries lie over the teritary sand stone. They consist of sands, gravel sands, clays and sandy clays. The thickness of these formations ranges from 30 Mt. to 400 Mt.

In Thanjavur district, 13 types of soil were identified and the distribution of the various soil are found in all over the district.

Cropping pattern

The following Table gives the area under Crops and production during 1998-99

Crop	Area (in Ha)	% Of total areas sown	Production (in MT)
Paddy	184,491	68.78	477,070
Cholam	-	-	-
Cumbu	3	-	-
Ragi	21	0.01	60
Maize	164	4.99	-
Other cereals	34	-	480
Total cereals	184,713	-	581,070
Green Gram	637	-	-
Red gram	121	-	-
Black gram	10,584	-	-
Bengal gram	-	-	-
Horse gram	2	-	-
Other pulses	14	-	-
Total pulses	18,358	-	7,170
Total Food grains	203,071	-	-
Sugar cane	13,391	-	36,950
Cotton	1,293	0.48	2,930
Groundnut	10,303	3.84	20,500
Gingelly	6,762	2.52	3,540
Castor	1	-	-

Source: Department of Economics and Statistics.

Land and Land Use Pattern

The total geographical area of the district is 3,39,657 hectares. The break-up of the total geographical area by land use and their percentage are given below in the table.

It is noted that 59.8% of the area falls under the net area sown. It is also obvious that land under forest is much below the State average but this ecological imbalance has to some extent set aside by the land under miscellaneous tree crops and groves of 1.8% which is equal to the state percentage of 1.8.

Classification of land use	District	
	Area (in Ha)	Area (in Ha)
Total Geog Area	3,39,657	100.0%
Forests	3,426	1.0%
Barren/Uncultivable	2,201	0.6%
Non Agri uses	1,746	0.5%
Culturable Waste	77,122	22.8%
Pastures/Grazing Lands	10,647	3.1%
Misc. Tree crops/Groves	6,288	1.8%
Current fallows	8,396	2.5%
Other Fallow lands	26,656	7.9%
Net Sown Area	203,175	59.8%
Area sown more than once	64,675	19.0%
Total Cropped Area	2,67,850	78.9%

Source: Village Records.

Tenancy

Most of the lands were under the control of big landlords in the pre-independence days. After Independence introduction of Land Ceiling Act and other Acts protecting the interest of tenants, the size of hoildings of individuals have been minimized. More than 80% of lands were with small farmers and the average size of the holdings is less than 5 hectares.

Agriculture

Thanjavur district is essentially a deltaic plain comprising of old and new delta. The old delta has a net work of canals and channels of the Cauvery and Vennar. Upper portion of this new delta area is irrigated by Grant Anaicut Canal.

Tapping of ground water is done considerably in this area to advance the first cropping season Kuruvai to avoid damage due to North East monsoon and to accommodate the two crops namely Kuruvai and Thaladi.

The soils of new deltaic area are amenable to wide variety of crops such as Coconut, Mango, Guaua, Pulses, Cotton, Gingelly, Groundnut, Banana, etc. Cultivation of oil plam and Soyabean is also carried out in this district wherever assured water supply and drainage facilities are available.

The major crops cultivated in Thanjavur district are Paddy, Pulses, Gingelly, Groundnut and Sugarcane. The major crops like Maize, Soyabeans and Redgram are also grown.

Paddy is the principal crop grown in three seasons viz. Kuruvai, Samba and Thaladi.

Pulses like Blackgram, Greengram and cash crops like Cotton and Gingelly are grown in rice fallows.

In view of delta area, groundnut is the principal crop. Sugarcane is cultivated both in new delta and old delta. Banana is primarily grown in Padugai lands.

It is a significant note that the total Annual Paddy and Rice Production of Thanjavur district has been maintained at 10.615 L.M.T and 7.077 L.M.T respectively during 1999-2000. The extent of area under Paddy is slowly decreasing from 2.009 lakh hectares in 1992-93 to 1.891 lakh hectares.

It is also pointed out that due to Cauvery water dispute with Karnataka State, the farmers of Thanjavur district could not get adequate water for irrigation and consequently face loss of Paddy Production to some extent. Further every year there may be a monsoon cyclone flood, drought situation may occur during Rabi season which may also considerably affect the Paddy production in Thanjavur district.

Normally Paddy is being raised in Thanjavur district in 4 seasons. The first crop is known as “Kuruvai”, the short term corp with a duration of 100-115 days June/July to October/November. The average extent of Kuruvai crop in Thanjavur district is 33500 hec., (i.e) 17.7% of the total paddy area. The Paddy crop cultivated after harvesting the Kuruvai crop is called “Thaladi” which has a duration of 110-125 days from October/November to February/March. Thaladi crop is being raised normally in an area of 29400 hectares which accounts for 15.6% of the total Paddy area.

The more important season for Paddy Crop in Thanjavur district is Samba season. Samba is a long term crop with a duration of 135 days to 150 days from August to November to January/February/March is being raised as a single crop when the water is very less and not available for two crops.

In Thanjavur district, Samba crop constitute 63% of the total Paddy area with an annual Paddy Production of 60.45% of the total Paddy Production.

Summer Paddy is also raised in this district in a small area of 7000 hec. from December/January to March/April.

Considerable improvement has been made in the production and productivity of Paddy due to adoption of improved technologies. As a result there has been a repid increase in per hectare yield of Paddy in the district which shot upto 5614 kg./hec. in 1999-2000, as combined average against the traditional 1960-61 and 1971-72 average which stood at 2,264 and 3011 kg./ hec respectively.

Horticultural Crops

The area under fruit trees and vegetables is large in Thanjavur Taluk**.** In 1998-99 the area under various horticultural crops has been given below:

Crop	Area in Ha.	Production in MT
Banana	4,170	104,649
Cashewnut	3,163	1,561
Turmaric	-	-
Tapioca	-	-

Source: Departmnt of Economics & Statistics, Chennai.

Sericulture

The total area under mulberry cultivation as on 1.4.2000 was 3,160 hectares. The area under irrigation was 3,160 hectares. The total production of reeling cocoons was 0.068 MTs, which valued at Rs. 6.80 lakhs. The production of raw silk in the same year was 0.007 MTs, valued at Rs.8.59 lakhs.

Irrigation

The presence of the river Cauvery and numerous irrigation projects that have been carried out even from days of Chola Kings can be considered as the best irrigation system in Tamil Nadu. Especially in arenaceous soil tracks in Pattukkottai, provision of irrigation has been proved very useful. The necessity for irrigation was realised very early and irrigation systems of the district date back to days of early Cholas. Thanjavur today has one of the best irrigation systems in the State and ranks foremost in the area irrigated. Over 70% of the gross cropped area is under irrigation systems from one source or the other. It would be obivous if one see the net area irrigated in the district, over 90% of the net sown enjoys the benefit of irrigation. The total area irrigated in Thanjavur district stood at 2,17,581 hectare during 1999-2000. The chief sources of irrigation in the district are rivers, a few rainfed tanks, tubes wells and wells. These tanks and wells are situated mostly in the upland regions Cauvery and Coleroon are the most important rivers in the district and as these rivers, a few have their origin in the western ghats, they are fed by the southwest monsoon. Strictly speaking agriculture in the district is dependent on the river Cauvery as most of the irrigated area in the district derive water from Cauvery and its numerous branches. A birds eye view of the course of the Cauvery in Thanjavur will show how and where it has been tapped efficiently for irrigation. About 80% of the total net area irrigated is served by canals and these canals are fed by the river Cauvery. Thus, Cauvery is the primary source of irrigation in the district. The Cauvery delta system in Thanjavur which comprises mainly three important project viz., the Grand Anicut, Cauvery, Vennar and Cauvery Mettur project.

The oldest and the most significant among them is Grand Anicut, reported to have been constructed during the Sangam Age of Chola period. This has been built at the junction of rivers Cauvery and Coleroon about sixteen kilometers from Thiruchirappalli at the lower end of Srirangam island and is designed to regulate the water supply which comes down the Cauvery from the Upper Anicut. When the supply exceeds the requirements of the delta channels, the gates of the Grand Anicut are raised and the surplus water is passed down into the Coleroon where it proceeds down to the Lower Anicut and it is again regulated and utilized for irrigation by means of other canals. The Grand Anicut was first built by granite stones and mud with an outer layer of granite blocks in lime mortar. Its length is 1080' and breadth is 40' to 60' with a depth of 15' to 18'. Later on, it has undergone numerous

improvements. In 1806, it was raised further and in 1830 it provided with sand scouring sluices. Some fifty years later, the stones were removed and replaced by lifting shutters in 1899. The main purpose of this anicut was to check and control the waste water running into Coleroon. Sir Arthur Cotton, an able engineer, built a masonry wall at the head of the Coleroon in 1836, in order to prevent silting up of Cauvery in the deltaic region by Coleroon so as to keep enough water in the main river Cauvery. After the construction of the Upper Anicut, floods often threatened the anicut and then occurred serious erosions on the banks of the Cauvery. This danger was however minimised in 1845 by the construction of Cauvery dam. In order to avoid the danger completely, Upper Anicut was rebuilt in 1899 so as to provide passage flood water down the Coleroon in cases of emergeency. Cauvery Vennar regulators which is immediately below the Grand Anicut divide the stream between rivers and control flow of water. Just below these small regulators are built in order to effect proper distribution of water among various branches of the rivers and other numberous irrigation channels. The Coleroon anicut was also the product of the mastermind of engineer Sir Arthur Cotton and was built in the order to irrigation in the north earstern coloumns of the district, especially the taluks of Mayiladuthurai and Sirkazhi which were not adequately covered by the Cauvery system. This dam was extended remodeled and rebuilt on the same lines as the Upper Anicut. A few major repair works for strengthening of the dam were undertaken early this century.

Channels of this anicut irrigates an area of 1,82,953 hectares in Thanjavur District. The total area irrigated by the system (for the first crop alone) was 1,50,943 hectares apart from 29,866 acres under the second crop.

The idea to built a reservoir on the Cauvery in order to irrigate the deltaic regions of the district was that of Sir Arthur Cotton whom the entire district will remember and owes ever. Numerous proposals were put forward and investigations carried on before and finally in 1910, Colonel W.M.Ellis worked out a practicable schemes, but there was disagreement between Tamil Nadu and Karnataka Governments of the question of sharing Cauvery water. At the end, it was due to the efforts of Dr.C.P. Ramaswamy Iyer, the then member of the executive council, that an agreement was arrived at. According to this agreement, the scheme was to be executed subject to certain conditions and most important of which were that both the states should built their own reservoirs and that the reservoirs at Mettur should be limited to a capacity of not exceeding 93000 million cubic feet so that it should irrigate over 3,01,000 acres. Based on the conditions, Mettur reservoir of the Stanley Reservoir was constructed.

Mettur Dam is the biggest dam in the State, with a length measuring over 5300' and 214' above the deepest foundations. The project has been designed to ensure steady supply of water irrigation to over a million acres already supported by the Cauvery delta system and to irrigate an additional area of about 3,00,000 acres in Mannargudi, Pattukkottai and Thanjavur taluks. The utility of the scheme is manifold by the storage of flood water in the reservoirs. The dam has made it possible to provide sufficient supply of water for agriculture purposes during the inter monsoon periods and also to safeguard cultivation against the unforeseen vagaries of nature. Even in times of drought, the project ensures even supply and distribution of available water. Apart from these, it also acts as a barrier against onrush of Cauvery in all its fury during the north east monsoon period and causing serious damage to crops and lands.

During the last decade, the agriculture of the district suffered a heavy damage to crops for want of timely and sufficient supply of water from Cauvery. Due to pressure from the Government of Tamil Nadu. Union Government has constituted a tribunal on the Cauvery water between Karnataka and TamilNadu.

The following statement reveals the area in hectares irrigated under different sources in Thanjavur district during 1998-1999.

Irrigation Source	Area in Hectares
Govt. Canals	154,001
Private Canals	-
Tanks	7,805
Tube Wells	9,865
Other wells	1,490
Other sources	-
Total	173,161

Source: Department of Economics & Statistics, Chennai.

Major sources of water supply for irrigation in this District are as follows:

Irrigation Source	Number / Length
Canals	25
Irrigation Wells	6,098
Tube Wells	27,620
Reservoirs	-
Tanks	428

Source: Department of Economics & Statistics, Chennai.

Rural Water Supply

As on 1.4.2000, there were 1962 fully covered habitations (40 lpcd) and 560 partially covered (less than 40 lpcd) in Thanjavur District. Thus, a total of 2522 habitations had been covered under the rural water supply scheme.

Animal Husbandry

Livestock growth in the district has shown a marginal increase over the decade. Animal Husbandry which is allied activity of agriculture cannot grow as fast as agriculture since its breeding programme is a slow process. The district has more indegenous cattle than any special breed of cattle. Thanjavur poled cattle are distinguished by behorned and possession of clipped ears. The main steam of the District is fed by Cauvery river, when the river is dry flock owners of the sheep from Ramnad and South Districts are coming with their migratory stock for pasturing temporarily.

The Catttle Breeding and Fodder Development has been replaced for Intensive Cattle Development Project which functions from Thanjavur. Under Cattle Breeding and Fodder Development a Semen Bank is established at Ammapettai about 19 Kms, from Thanjavur from which Liquid Nitrogen and Frozen Semen straws are being supplied to various institutions and Veterinary Sub-centres of the Animal Husbandry Department in this district.

Since January 2000, the Honurable Chief Minister's Special Animal Husbandry camps were held in various Panchayat Union Villages where Livestock breeders found having acces to Veterinary aid, in which Veterinary aids, Artifical Insemination (at free of cost) and Disease investigation works are being carried out. Demonstration of Urea enrichment of paddy straw and Audio Visuals are exhibited in the special camps by Cattle Breeding and Fodder Development.

Cattle owners in remote villages are benefitted by the various department activities of this district.

The district has two livestock Farms. One Exotic cattle Breeding Farm at Eachenkottai, in Orathanad Taluk, another Progeny Testing Scheme (Buffaloe) District Livestock Farm, Orathanad. There are 2 Poultry Extension Centres; one at Orathanad and another in Pattukkottai.

The Animal Husbandry Department of this District looks after the welfare of the livestock through 2 clinician Centres, 6 Veterinary Hospitals, 45 Veterinary Dispensaries, 73 Sub-Centres, 14 Extension Veterinary Dispensaries, 3 Mobile Veterinary Dispensaries and 16 visiting Sub-centres in the district.

The livestock population for the year 1999-2000 is given below:

1	Cattles	318,436
2	Buffaloes	57,641
3	Sheep	27,190
4	Goats	244,471
5	Poultry	710,850
6	Pigs	2,794

Fisheries

Thanjavur is one of the 13 Maritime District of Tamil Nadu engaged in Marine Fishing and its fish production is about 5% of the total catch of the state. The State has a total coastal line running to 1076 Kms. embedded with 442 fishermen villages of which Thanjavur District has coast line of 45.1 kms. stretch in palk strait with 27 Fishing Villages in the District from Thambikkottai in Pattukkottai Taluk in the North and Sembagamadevi Pattinam in Peravurani Taluk in the South.

The following Statement shows the employment status of fisher folk in the district during 1999-2000.

Sl. No.	Activity	Male	Female	Total
1	Fishing	5,503	-	5,503
2	Fresh Fish Trade	90	122	212
3	Dry Fish Trade	57	598	655
4	Net Making	21	1	22
5	Diving	-	-	-
6	Allied Activities	42	89	131
7	Unemployed	2,125	6,533	8,658
8	Employed in Government	27	6	33
9	Employed in Private	44	1	45
10	Others	286	23	309

Further, there are 370 Mechanised Boats operated from Kallivayalthottam, Mallippattinam and Sethubavachathram fishing villages. There is a "T" Jetty in Mallippattinam coastal village constructed in 1980 facilitate the easy landing of the catches of Mechanised Boats; 2500 fishermen were involved in mechanised fishing operations. In addition to the mechanised boats, 924 Plank Built Boats and 107 Cattamarans are also operated from the coastal villages and provide employment oppurtunity for more than 3000 fisherman of this district.

The following statement shows the various types of gears used by the Fisher Folk in Thanjavur District.

Sl. No	Name of the fishing Gear	Number in use
1	Gill Net	24,692
2	Traw Net	771
3	Shore Seine	970
4	Boat Seine	283
5	Long Lines	926
6	Traps	43
7	Others	5,347

There are 23 Fishermen Co-operative Societies and Nine Fisherwomen Co-operative Societies in Thanjavur District. All the assistances given by Government to the Fisher Folk is extended through these societies for upliftment of Socio-Economic status of the Fishermen Community.

From 1996-97 onwards, under Ma.Singaravelar memorial, under fishermen free housing scheme, 718 concrete roofed houses constructed and handed over to houseless poors of fisher folk.

Link Roads to the fishermen villages from Main Roads facilitate the fast and easy transport of the fish catches to the nearest market and the fishermen get good prices for their catch.

In 24 fishermen villages in Tanjavur district, 209 street lights and 10 sodium vapour light in 5 villages have been provided by the Fisheries Department in addition to the light provided by local body.

Guide Lights had been provided in the Fishermen Villages to locate their shore during night times.

During rainy season (Sep, Oct, Nov., & Dec.,) due to unfavourable conditions the fishermen can not venture into the sea and they are suffering without earnings. To minimise their sufferings and to create saving habit among fishermen, the saving cum relief scheme was introduced. The subscription collected at the rate of Rs.45/-p.m.for eight months (January to August) (45 x 8 = 360) from each fishermen. In addition to the fishermen share central and state Government shares are added and distributed to the fishermen during lean season.

All the members of the fishermen co-operative societies are covered under insurance scheme and the premium amount were paid by both central and State Government equally. In addition to the above scheme another scheme called Group Janatha personal accident insurance scheme in which the premium amount paid by the fishermen themselves also implemented for more financial assistance to the fishermen when they met with an accident or in the case of death.

In addition to the above schemes so many other schemes are also implemented such as subsidy for purchase of in board & outboard motors, Fishing gears and crafts.

Through fisher women co-operative societies, Aluminium vessels, ice boxes and baskets are given in subsidised cost to improve their fish marketing business. Training was given to them in marketing, processing and net making.

Through Tamil Nadu states fisheries Apex Co-operative Federation (TAFCOFED), Integrated Marine Fisheries Development Programme was also implemented in selected villages.

Thanjavur district is also rich in inland fishing due to the presence of Cauvery river system. The inland fishing consists mostly of local carps, major carps and other varieties such as cat fish, murrels, tilapia etc. About 5,000 inland fishermen are enagaged in fishing. Seeds of Catla, Rohu, Mirgal and Common Carp, and grass carps were brought from West Bengal and reared by private fish seed producers. Enormous number of fishermen are indulged in fish production by culture methods.

Industries

There is one Inspector of Factories in Thanjavur District. As per factories act all factories employing more than 20 persons without power and 10 persons

with power should be registered with concerned Inspector of Factories and the number of employees working in them during 1999-2000 in the district are given below.

Industry Group	Description	No. of Factories	No. of Employees
20 & 21	Manufacturing the Food Products	61	2,969
22	Manufacturing of Beverages, Tobacco and tobacco products	14	804
24	Manufacture of wool, Silk and synthetic fibre Textiles	10	880
26	Manufacture of Textile products	26	838
27	Manufacture of wood and wood products	2	21
28	Manufacture of paper products, printing, publishing and allied Industries	15	280
30	Manufacture of chemical and Chemical Products	57	1,117
31	Manufacturing of Rubber Plastic, Petroleum and coal Products	3	65
33	Basic Metal and alloy Industries	4	33
34	Manufacture of Metal Products and parts except Machinery and transport equipments	24	702
37	Manufacture of Transport equipments and parts	1	12
97	Repair Services	13	146
	Others	34	1,033
	Total	**264**	**8,898**

During the decade, two sugar Mills as Co-operative Sector at Kurungulam in Thanjavur Taluk and another one as private sector, Thiru Arooran Sugar Mills at Thirumandankudi near Kumbakonam were setup. More than 3 modern Rice Mills run by Tamil Nadu Civil Supplies Corporation and one Food Corporation of India have also been setup. One Spinning Mill is also functioning in this District. In addition, one Sugar Mill at Kottur village, Thiruvidaimaruthur Taulk has been set up during this decade.

Out of 14 blocks in this district, 11 blocks have been declared as either industrially backward or most backward as such there is a great scope for the development of Small Scale industries in this District. The details of registered Small Scale units as on 31.3.2000 are given below.

Industry Group	Description	No. of SSI	Employment
20 & 21	Food Products	2,634	7,902
23	Cotton Textiles	343	1,715
26	Hosiery	1,065	4,260
27	Wood & Wooden products and fixture	490	2,450
28	Printing and Publishing Paper and Paper Products	358	2,400
29	Leather and Leather Products	396	600
30	Chemical and Chemical Products	488	900
34	Metal Products except Transport and Machinery and Equipments	492	1,500
35	Machinery and Machine Tools and parts except Electrical Machinery	389	600
38	Other Manufacturing Item	1,890	5,670
	Total	**8,545**	**27,997**

There are Small Scale Industrial estates in this district; three in Thanjavur and one in Kumbakonam. It is reported that 59 units in Thanjavur (Nanjikkottai road) which produce chemical, Bakery items and polythene bags. There are 10 BHEL subsidiary units in Pillayarpatti, Thanjavur Taluk 27 units at Thirupuvanam in Thiruvidaimarudur Taluk producing polythene, Chemical and rubber products. The industrial estates are controlled by Small Industries Development Corporation of Tamil Nadu (SIDCO) which is also supplying Paraffin (Type II) to SSI units.

From early days, Thanjavur has been a flourishing centre of cottage industries and handicrafts like handloom cloth and cotton sarees which are renounced and still established. Mat weaving is spread over a number of places but the superior varieties of mats are made in Vilankudi, Chakkrappalli and Madukkur. Ornamental fans are made out of palmyrah leaves and

they are artificially painted and decorated with silk threads. This district is also famous for a wide range of utility and decorative articles like Thanjavur bell metal plates, bronze bowls, napkins and powder boxes etc. Bronze and copper made images with in laying and engraving work of motifs drawn from Hindu mythology done in Silver etc known as "Thanjavur Swamy works". Chief centres of metal work are Kumbakonam and Nachiyarkoil. This district is equally well known for its pith works consisting of beautiful models of Hindu idols, temples, Mosques, Garlands, bouquets, parrots and peacocks, the flower garlands and bouquets are much demand during Chiristmas days. Pith is growing on the river beds in Thanjavur and Kumbakonam taluks. The manufacturing of musical instruments from jack wood like Veena, Tambura, Violin, Mrithangam, tabela and Kanjira exhibit excellent taste, knowledge and workkanship. The jack wood has a special quality for producing musical sounds, Thanjavur, and Kumbakonam are well known places for the manufacture of musical instruments.

Handloom industry occupies an important place in the economy of Thanjavur District as it provides livelihood for more than 60,000 people in this district. It is reported that the number of looms in Thanjavur stood at 13223 of which 10662 looms comes under co-operative sector. This district stands foremost in the varieties of the handloom fabrics woven in silk cottonand lace in the designs of the pattern and the artistic workmanship exhibited. Silk weaving is mainly carried on in Thanjavur and Kumbakonam. There are 25 cooperative handloom societies functioning in this district. Silk sarees produced by Thirubuvanam cooperative silk society with Gold Lace cost from Rs.2000 to Rs.15,000 and these sarees are very popular all over the country. The Government have introduced a saving and security scheme for the members of handloom weavers co-operative society through which the Government is paying Rs.50,000/- and the State Cooperative Society Limited is providing Rs.10,000/- to the legal heir of the deceased under the self insurance scheme.

The Government sanction a sum of Rs.53,000/- including Rs.25,000/- as subsidy for construction of houses to the weaving families under House-cum workshed scheme. The children of the handloom weavers are getting subsidy for higher education from a trust formed by the Government. In order to encourage and promote Handloom Industry, Government is providing yarn at subsidised rates and also gives rebate for sale of handloom clothes through co-optex units on the occasions of national importance.

Trade and Commerce

The trade of the district mainly consists of rice, fish, handloom, metal works and handicrafts. The item of import chiefly consist of silk and cotton yearn, brass sheets, copper, timber and other consumer goods. The trade is carried on both by rail and road. Regarding surface transport, most of the exports and imports passes through the ports of Chennai and Tuticorin. To help the trading and commercial establishment there are 166 bank branches functioning in various parts of the district during 1999-2000.

Fair Price Shops

There were 957 fair price shops in this District; 843 of this were full-time and 114 part-time. Of this, the Tamil Nadu Civil Supply Corporation runs 8 shops and 949 are run by the Co-operative Department. This District also has 8 women fair price shops.

Commercial Banks

There were 166 commercial bank branches in this District as on 31.3.1999; 67 were located in rural areas and 99 in semi-urban areas. The deposits as on the same date was Rs.1,328.81 crores.

Transport and Communications

The nearest Airport is located at Tiruchirapalli. There are more than 100 registered transport undertakings in this distirct. The Tamil Nadu State Transport Corporation with it's headquarters at Kumbakonam has strength of 584 buses during 2000-2001. It operates Town and other services all over the district and also to some important towns in the neighbouring districts and also the union Territory of Pondicherry Town bus services are made cheaper to suit most of the rural population. During the decade the transport facility was made to the public by the introduction of Minibus services, Taxi and Cab permits in small towns also.

The bus services are linked to Chennai, Madurai, Coimbatore, Tirunelveli, Tirupathy and other major towns. Other Transport Corporations like, Periyar, Jeeva, Dheeran Chinnamalai, Marudhu Pandiar,

Cheran, Cholan names are also changed as Tamil Nadu State Transport Corporation and also operating buses through this district. The following statement shows the number of Motor Vehicles registered in this district until August'2000.

Commercial	
Stage Carriage-Public	319
Stage Carriage-Private	97
Mini Bus	33
Auto-rickshaw	1,268
Ordinary Taxi	15
Taxi with State Permit	1,468
Taxi with All India Permit	75
Maxi-Cab with State Permit	710
Maxi-Cab with All India Permit	12
Omni Bus- State	10
Omni Bus- All India	1

Total Non Commercial Vehicle	76,328
Grand total	**86,163**

Bus Stop and Railway Stations

There is one important Railway junction in the district. i.e, Thanjavur. The rail links directly with Chennai, Mysore and other important towns in the State. As per Annual Statistical Abstract of 1999-2000, the district has 27 Railway Stations and 182.96 Kms. of Railway lines.

Electricity and Power

An important aspect to be noted in Thanjavur district is the absence of any hydro electrical or thermal project, although all villages of the district are electrified. Though agriculture in the district mostly depends on Cauvery water, sinking of bores, energising of tube wells are taking place gradully due to failure of monsoon and other reasons. Free electricity is proviedd to farmers for agricultural practices and also one light is provided at free of cost to slum dwellers by government. The statement given below shows the annual consumption of power during 1999-2000 under difference categories in Thanjavur district.

Serial number	Category	Consumption (in million units)
1	Domestic (Light and Power)	152.57
2	Commercial (light and Power)	38.66
3	Industrial (low Tension)	24.85
4	Industrial (High Tension)	10.43
5	Public Lighting	10.22
6	Railways (Non-traction)	1.05
7	Agriculture (including state pumps)	83.36
8	Public Water Works and sweage Pumping	12.20
9	Miscellaneous (including Watersupply)	0.20

Education

The annual District Statistical Abstract for 1998-99 reveals that there were 1100 primary 217 middle and 198 High/Higher Secondary Schools in the district.

Further, 20 matriculation schools and teacher training schools were also functioning in this district.

For research and advance study in Tamil, Tamil University was established in Thanjavur on 15.8.1983. The University undertakes field studies on land, water, stone inscriptions and conducts surveys on tribal population. It also conducts research in music, dance, drama and sculpture etc. It also collects and preserves palm manuscripts and hand written materials of ancient times.

A total of 2,35,909 persons enrolled in 4758 Literacy centres of which 1,55,578 were females and 80,331 males.

In this district 72 libraries are functioning of which 47 are branch libraries and one District Central Library, 10 village level libraries and 14 part time libraries. Apart from this there is one library in Tamil University. The famous Saraswathy Mahal library in Thanjavur is functioning in the Palace buildings which has a collection of 50,000 rare Palm leaves and paper manuscripts in various languages are being preserved.

Engineering Colleges & Polytechnics

There were two Government aided Polytechnics in this District and two self-financing polytecnics. There were 2 self-finance Engineering Colleges.

Noon Meal Centres

There were 2537 nutritious meal centres operating in this District in 1999-2000. The total number of children benefited under the scheme in the same year was 98,475 Of this, 15418 in the age group of 5-9 years and 43057 were in the age group of 10-15 years. The details of the number of Centres are as follows:

Institution	Number
Panchayat Union	1,424
Municipalities	48
Municipal Corporation	-
TINIP	873
ICDS	192
Total	**2,537**

Medical Facilities

The major important Government Hospitals are Thanjavur Medical College Hospital and Raja Mirasudar Hospitals located in Thanjavur and a Government Headquarters Hospital at Kumbakonam. Apart from these there were also 6 taluk and 6 other hospitals run by the Government.

There were also 58 Primary Health Centres and 309 Health Sub-Centres functioning in the district.

Apart from this one T.B. Hospital named as Mahathma Gandhi Memorial Tuberculosis and Chest Diseases Hospital at Sengipatti in Thanjavur Taluk in which 314 Beds were available and there were a number of private hospitals with ultra modern facilities established in the district.

Post & Telegraph

There are 195 departmental and 679 extra departmental post offices and 6 Telegraph offices functioning in this district. Further 92 Telephone Exchanges also functioning in this Telecom district. There are 92,243 Telephones in use. It is also ascertained that 297 Public call offices with STD/ISD facilities and 149 Public call offices without STD/ISD facilities in this district as per statistical report for 1998-99. Further 4087 letter boxes were also placed in the district.

Police & Fire Station

There were 39 police stations and 2 all-women police stations in this District. There were also 9 fire stations in this District.

(V) Census Concepts

Building

A 'Building' is generally a single structure on the ground. Sometimes it is made up of more than one component unit which are used or likely to be used as dwellings (residences) or establishments such as shops, business houses, offices, factories, workshops, worksheds, Schools, places of entertainment, places of worship, godowns, stores etc. It is also possible that building which have component units may be used for a combination of purposes such as shop-cum-residence, workshop-cum-residence, office-cum-residence etc.

Usually a structure will have four walls and a roof. But in some areas the very nature of construction of houses is such that there may not be any wall. Such is the case of conical structures where entrance is also provided but they may not have any walls. Therefore, such of the conical structures are also treated as separate buildings.

Permanent houses

Houses, the walls and roof of which are made of permanent materials. The material of walls can be any one from the following, namely, galvanized iron sheets or other metal sheets, asbestos sheets, burnt bricks, stones or concrete. Roof may be made of from any one of the following materials, namely, tiles, slate, galvanized iron sheets, metal sheets, asbestos sheets, bricks, stones or concrete.

Semi-permanent houses

Houses in which either the wall or the roof is made of permanent material and the other is made of temporary material.

Temporary houses

Houses in which both walls and roof are made of materials, which have to be replaced frequently. Walls may be made from any one of the following temporary materials, namely, grass, thatch, bamboo, plastic, polythene, mud, unburnt bricks or wood. Roof may be made from any one of the following temporary materials, namely, grass, thatch, bamboo, wood, mud, plastic or polythene.

Dwelling Room

A room is treated as a dwelling room if it has walls with a doorway and a roof and should be wide and long enough for a person to sleep in, i.e. it should have a length of not less than 2 meters and a breadth of at least 1.5 meters and a height of 2 meters. A dwelling room would include living room, bedroom, dining room, drawing room, study room, servant's room and other habitable rooms. Kitchen, bathroom, latrine, store room, passageway and verandah which are not normally usable for living are not considered as dwelling rooms. A room, used for multipurpose such as sleeping, sitting, dining, storing, cooking, etc., is regarded as a dwelling room. In a situation where a census house is used as a shop or office., etc., and the household also stays in it then the room is not considered as a dwelling room. But if a garage or servant quarter is used by a servant and if she/ he also lives in it as a separate household then this has been considered as a dwelling room available to the servant's household. Tent or conical shaped hut if used for living by any household is also considered as dwelling room.

A dwelling room, which is shared by more than one household, has not been counted for any of them. If two households have a dwelling room each but in addition also share a common dwelling room, then the common room has not been counted for either of the households.

Census House

A 'census house' is a building or part of a building used or recognised as a separate unit because of having a separate main entrance from the road or common courtyard or staircase, etc. It may be occupied or vacant. It may be used for residential or non- residential purpose or both.

In certain peculiar situations, the manner in which buildings and census houses were identified for numbering in the field by the enumerators is described hereunder:

Sometimes a series of different buildings are found along a street which are joined with one another by common walls on either side looking like a continuous structure. These different units are practically

In case of hostels, hotels, etc., even if the door of each room in which an inmate lives opens to a common verandah, staircase, courtyard or a common room, as it happens almost invariably, the entire hostel / hotel building was treated as one census house. but if such

built at different times and owned by different persons. In such cases, though the whole structure with all the adjoining units apparently appears to be one building, each portion was treated as a separate building and its constituent units as separate census houses.

On the other hand, one may come across cases, particularly in large cities of multi-storeyed ownership flats. In these cases while the structure looks like one building, different persons own the flats. In case of such multi-storeyed structures, having a number of flats owned by different persons, the entire structure was treated as one building and each flat as a separate census house.

If within a large enclosed area, there are separate buildings owned by different persons then each such building is treated as a separate building. There can be a situation where within an enclosed compound there are separate buildings owned by an undertaking or company or even government that are actually in occupation of different persons. For example, Indian Oil Corporation colony where the buildings are owned by the Corporation but these are in occupation of their employees. Each such building was treated as a separate building. But if in any one of these buildings there were flats in occupation of different households, each such flat was reckoned as a separate census house.

Sometimes it becomes difficult to apply the definition of census house strictly in certain cases. For example, in an urban area, if a flat has five rooms, each room having direct entrance from the common staircase or courtyard. By definition, this has to be treated as five census houses. If all these five rooms are occupied by a single household it was not realistic to treat them as five census houses. In such a case, 'singleness' of use of these rooms along with the main house should be considered and the entire flat was treated as one census house. On the other hand, if two independent households occupy these five rooms, the first household living in 3 rooms and the second household occupying 2 rooms, then considering the use, the first three rooms together were treated as one census house and the remaining rooms as another census house. But if each room was occupied by an independent household, then each such room was treated as a separate census house.

In case of hostels, hotels, etc., even if the door of each room in which an inmate lives opens to a common verandah, staircase, courtyard or a common room, as it happens almost invariably; the entire hostel/hotel building was treated as one census house., but if such hostels/ hotels have out-houses or other structures used for different purposes or the same purpose, then each such structure attached to the main hostel/hotel was treated as a separate census house.

In some parts of the country, in rural areas, the pattern of habitation is such that a group of huts, located in a compound, whether enclosed or unenclosed, is occupied by one household. While the main residence may be located in one hut, other huts may be used for sleeping, as a kitchen, bath room, baithak, etc. Though each of the huts was a separates structure, they form a single housing unit and therefore, have to be treated collectively as one building and one census house. If some of the huts are used by one household and the others by a second household as residence, then the two groups of huts were treated as separate census houses. However, if there were also other huts in the compound used for other purposes and not as part of the household's residence such as, cattle shed, workshed, etc., these were treated as separate census houses.

On the other hand, in urban areas, where more than one structure within an enclosed or open compound (premises) belonging to the same person, e.g., the main house, the servant's quarter, the garage, etc., only one building number was given for this group and each of the constituent a separate census house number.

Only cases where a structure with roof and pillars has come up was treated as a building.

Village

The basic unit for rural areas is the revenue village, which has definite surveyed boundaries. The revenue village may comprise of one or more hamlets but the entire village is treated as one unit for presentation of data. In unsurveyed areas, like villages within forest areas, each habitation area with locally recognized boundaries is treated as one village.

Rural-Urban area

The data in tables on Houses, Household Amenities and Assets are presented separately for rural and urban

areas. The unit of classification in this regard is 'town' for urban areas and 'village' for rural areas. In the Census of India 2001, the definition of urban area adopted is as follows:

a) All places with a municipality, corporation, cantonment board or notified town area committee, etc.

b) A place satisfying the following three criteria simultaneously:

   i) A minimum population of 5,000;

   ii) at least 75 per cent of male working population engaged in non-agricultural pursuits; and

   iii) a density of population of at least 400 per sq. km.(1,000 per sq. mile)

For identification of places which would qualify to be classified as 'urban' all villages, which, as per the 1991 Census had a population of 4,000 and above, a population density of 400 persons per sq. km. and having at least 75 per cent of male working population engaged in non-agricultural activity were considered. To work out the proportion of male working population referred to above against b) (ii), the data relating to main workers were taken into account.

Apart from these, the outgrowths (OGs) of cities and towns have also been treated as urban under 'Urban Agglomerations'. Examples of out-growths are railway colonies, university campuses, port areas, military camps, etc., that may have come up near a statutory town or city but within the revenue limits of a village or villages contiguous to the town or city. Each such individual area by itself may not satisfy the demographic criteria laid down at (b) above to qualify it to be treated as an independent urban unit but may deserve to be clubbed with the towns as a continuous urban spread. Thus, the town level data, wherever presented, also includes the data for outgrowths of such towns.

City

Towns with population of 100,000 and above are called cities.

Urban Agglomeration

An Urban Agglomeration is a continuous urban spread constituting a town and its adjoining urban outgrowths (OGs) or two or more physically contiguous towns together and any adjoining urban outgrowths of such towns. In some cases, railway colonies, university campuses, port areas, etc., may come up near a city or statutory town outside its statutory limits but within the revenue limits of a village or villages contiguous to the town or city. Each such individual area by itself may not satisfy the minimum population limit to qualify it to be treated as an independent urban unit but may deserve to be clubbed with the town as a continuous urban spread.

For the purpose of delineation of Urban Agglomerations during Census of India 2001, following criteria are taken as pre-requisites:

(a) The core town or at least one of the constituent towns of an urban agglomeration should necessarily be a statutory town; and

(b) The total population of all the constituents (i.e., towns and outgrowths) of an Urban Agglomeration should not be less than 20,000 (as per the 1991 Census).

With these two basic criteria having been met, the following are the possible different situations in which Urban Agglomerations would be constituted:

i) a city or town with one or more contiguous outgrowths;

ii) two or more adjoining towns with their outgrowths; and

iii) a city and one or more adjoining towns with their outgrowths all of which form a continuous spread.

Household

A 'household' is usually a group of persons who normally live together and take their meals from a common kitchen unless the exigencies of work prevent any of them from doing so. Persons in a household may be related or unrelated or a mix of both. However, if a group of unrelated persons live in a census house but do not take their meals from the common kitchen, then they are not constituent of a common household.Each such person was to be treated as a separate household. The important link in finding out whether it was a household or not was a common kitchen. There may be one member households, two

member households or multi-member households.

Institutional Household

A group of unrelated persons who live in an institution and take their meals from a common kitchen is called an Institutional Household. Examples of Institutional Households are boarding houses, messes, hostels, hotels, rescue homes, jails, ashrams, orphanages, etc. To make the definition more clearly perceptible to the enumerators at the Census 2001, it was specifically mentioned that this category or households would cover only those households where a group of unrelated persons live in an institution and share a common kitchen.

Houseless household

Households who do not live in buildings or census houses but live in the open on roadside, pavements, in hume pipes, under flyovers and staircases, or in the open in places of worship, mandaps, railway platforms, etc., are treated as Houseless Households.

Scheduled Castes and Scheduled Tribes

Article 341 of the Constitution provides that the President may, with respect to any State or Union territory, specify the castes, races or tribes or parts of or groups within castes, races or tribes which shall for the purposes of the Constitution be deemed to be Scheduled Castes in relation to that State or Union territory. Article 342 similarly provides for specification of tribes or tribal communities or parts of or groups within tribes or tribal communities which are to be deemed for the purposes of the Constitution to be Scheduled Tribes in relation to the various States and Union territories. In pursuance of these provisions, the list of Scheduled Castes and/or Scheduled Tribes are notified for each State and Union territory and are valid only within the jurisdiction of that State or Union territory and not outside. In September 1956, by an amendment, the Presidential Order of 1950 and in all subsequent Presidential Orders relating to Scheduled Castes, the Hindu and the Sikh religions were placed on the same footing with regard to the specification of Scheduled Castes. Later on, as per the amendment made in the Constitution (Scheduled Castes) Order 1990, the Hindu, the Sikh and the Buddhist were placed on the same footing with regard to the recognition of the Scheduled Castes.

LIST OF SCHEDULED CASTES IN TAMIL NADU

Serial Number	Scheduled Caste
1	Adi Andhra
2	Adi Dravida
3	Adi Karnataka
4	Ajila
5	Arunthathiyar
6	Ayyanavar (in Kanniyakumaari District and Shenkottah taluk of Tirunelveli district)*

Language and Mother tongue

As per the census concept, each language is a group of mother tongues. The census questionnaire collects information on the mother tongue of each person and mother tongue is defined as the language spoken in childhood by the person's mother to the person. If the mother died in infancy, the language mainly spoken in the person's home in childhood will be the mother tongue. In the case of infants and deaf mutes, the language usually spoken by the mother is considered as mother tongue. It is not necessary that the language spoken as mother tongue should have a script. The mother tongues returned by the respondents in census are classified and grouped under appropriate languages according to their linguistic characteristics.

Literate

A person aged 7 years and above who can both read and write with understanding in any language is taken as literate. A person who can only read but cannot write is not literate. It is not necessary that to be considered as literate, a person should have received any formal education or passed any minimum educational standard. Literacy could also have been achieved through adult literacy classes or through any non-formal educational system. People who are blind and can read in Braille are treated as literates.

Literacy rate

Literacy rate of the population is defined as the percentage of literates in the age-group seven years and above. For different age-groups the percentage of literates in that age-group gives the literacy rate.

Educational level

The highest level of education a person has completed.

Work

Work is defined as participation in any economically productive activity with or without compensation, wages or profit. Such participation may be physical and/or mental in nature. Work involves a not only actual work but also includes effective supervision and direction of work. It even includes part time help or unpaid work on farm, family enterprise or in any other economic activity. All persons engaged in 'work' as defined above are workers. Persons who are engaged in cultivation or milk production even solely for domestic consumption are also treated as workers.

Reference period for determining a person as worker and non-worker is one year preceding the date of enumeration.

Main worker

A person who has worked for major part of the reference period (i.e. six months or more during the last one year preceding the date of enumeration) in any economically productive activity is termed as 'Main worker'.

Marginal worker

A person who worked for less than six months of the reference period (i.e. in the last one year preceding the date of enumeration) in any economic activity is termed as 'Marginal worker'.

Non-worker

A person who has not worked at all in any economically productive activity during the reference period (i.e. last one year preceding the date of enumeration) is termed as 'Non worker'.

Cultivator :

For purposes of the Census, a person is classified as cultivator if he or she is engaged in cultivation on land owned or held from government or held from private persons or institutions for payment in money, kind or share. Cultivation includes effective supervision or direction in cultivation.

A person, who has given out her/his land to another person or persons or institution(s) for cultivation for money, kind or share of crop and who does not even supervise or direct cultivation in exchange of land, is not treated as cultivator. Similarly, a person working on another person's land for wages in cash or kind or

combination of both (agricultural labourers) is not treated as cultivator.

Cultivation involves ploughing, sowing, harvesting and production of cereals and millet crops such as wheat, paddy, jowar, bajra, ragi, etc., and other crops such as sugarcane, tobacco, ground-nuts, tapioca, etc., and pulses, raw jute and kindred fiber crop, cotton, cinchona and other medicinal plants, fruit growing, vegetable growing or keeping orchards or groves, etc. Cultivation does not include the following plantation crops – tea, coffee, rubber, coconut and betel nuts (areca).

Agricultural labourer

A person who works on another person's land for wages in money or kind or share is regarded as an agricultural labourer. She/he has no risk in the cultivation, but merely works on another person's land for wages. An agricultural labourer has no right of lease or contract on land on which she/he works.

Household industry worker

Household industry is defined as an industry conducted by the head of the household herself/himself and or by the members of the household at home or within the village in rural areas and only within the precincts of the house where the household lives in urban areas. The larger proportion of workers in household industry should consist of members of the household including the head. The industry should not be run on the scale of a registered factory which would qualify or has to be registered under the Indian Factories Act and should be engaged in manufacturing, processing, servicing and repairs of goods.

It does not include professions such as a pleader, Doctor, Musician, Dancer, Waterman, Astrologer, Dhobi, Barber, etc. or merely trade or business, even if such professions, trade or services are run at home by members of the household.

Other worker

A person, who has been engaged in some economic activity during the reference period but not as a cultivator or agricultural labourer or in Household Industry, is termed as a 'Other Worker (OW)'. The type of workers that come under this category of 'OW' include all government servants, municipal employees, teachers, factory workers, plantation workers, those engaged in trade, commerce, business, transport, banking, mining, construction, political or social work, priests, entertainment artists, etc. In effect, all those workers other than cultivators or agricultural labourers or household industry workers, are 'Other Workers'.

Work participation rate

Percentage of workers (main + marginal) to total population.

Population density

Population density is the number of persons inhabited per square kilometer of the area.

Age

Age is measured in terms of the completed number of years.

Sex ratio

Number of females per 1000 males in a population.

(vi) Non-Census Concepts

Improved drinking water

If the household had access to drinking water supplied from a tap, hand pump, tube well or well (protected or covered) situated within or outside the premises, it is considered as having access to improved drinking water.

It may be mentioned that such uniform definition may not be valid across all States.

System of sewerage

Generally, a sewerage system would mean a network of mains and branches of underground conduits for the conveyance of sewerage to the point of disposal. Sewers that carry only household and industrial wastage are called separate sewers; those that carry storm water from roofs, streets and other surfaces are known as storm water drains, while

thosecarrying both sewage and storm water are called combined sewers. However, in some towns, which are not provided with such underground sewerage system, it is served by open surface drain, box drain, silk pattern drain, etc., in these towns.

Type of latrine and method of disposal of night soil

There are three prevalent systems of disposal of human wastes, viz. :

(i) underground sewerage,

(ii) sanitary water flush latrines with individual disposal systems, like septic tank, leaching cess pool and collecting well, and

(iii) dry type of latrines with manual scavenging.

the street sewerage with which are connected the sanitary latrines constructed in the houses having water closets and fitted with flushing cistern (or hand flushing). Through this sewer the fecal matter is transported without the need for scavenging. This system generally exists in cities and big towns.

Where the street sewer does not exist, these sanitary water flush latrines are connected to a local septic tank with a sub-soil dispersion system or a leaching pit. Here the liquid wastes from the water closet is disposed of locally in leaching pit, a septic tank with a soil dispersion system is constructed. This dispersion requires an optimum travel through the pores of the soil, which renders the harmful liquid bacterially innocuous by the slow process of filtration through the soil traversed.

Where the soil is impermeable, collecting wells are constructed and the sanitary water flush latrines are connected with them. These wells are cleaned at periodic intervals by a suitable device. The dry type of latrines are of service type latrines from where human excreta is removed by scavengers from house to house, in most cases carrying it on their heads or shoulders or in baskets with handle or wheel barrows. These are then collected in bullock carts or trucks or tractors and trolleys for being carried to the dumping grounds.

Fertility

In demography, the word fertility is used in relation to the actual production of children or occurrence of births specially live births. Fertility is a measure of rate at which population adds to itself by births and normally assessed by relating the number of births to a full or part of the population, such as number of married women or number of women of child-bearing age. The definitions of the terminology used in computing different fertility rates are mentioned below:

Crude birth rate (CBR)

Ratio of the number of live births in a year to the mid year population, normally expressed per 1,000 population.

$$\text{CBR} = \frac{\text{Number of live births during the year}}{\text{Mid–year Population}} \times 1{,}000$$

Crude death rate (CDR)

Ratio of the number of deaths in a year to the mid year population, normally expressed per 1,000 population.

$$\text{CDR} = \frac{\text{Number of deaths during the year}}{\text{Mid-year Population}} \times 1{,}000$$

Natural growth rate

Growth rate is obtained as the difference between crude birth rate and crude death rate in the absence of migration.

Age specific fertility rate (ASFR)

Number of live births in a year to female population in any specified age-group normally expressed per 1,000 women.

$$\text{ASFR} = \frac{\text{Number of live births in a particular age-group}}{\text{Mid-year female population of the same age-group}} \times 1{,}000$$

Age specific marital fertility rate (ASMFR)

Number of live births in a year to married female population in any specified age-group normally expressed per 1,000 married women.

$$\text{ASMFR} = \frac{\text{Number of live births in a particular age-group}}{\text{Mid-year married female population of the same age-group}} \times 1{,}000$$

General fertility rate (GFR)

Number of live births per 1,000 women in the reproductive age-group (15-49) years in a given year.

$$\text{GFR} = \frac{\text{Number of live births in a year}}{\text{Mid-year female population in the age-group (15-49) years}} \times 1{,}000$$

General marital fertility rate (GMFR)

Number of live births per 1,000 married women in reproductive age-group (15-49) years in a given year.

$$\text{GMFR} = \frac{\text{Number of live births in a year}}{\text{Mid-year married female population in the age-group (15-49) years}} \times 1{,}000$$

Total fertility rate (TFR)

It is obtained as the total of the age specific fertility rates (number of children born per woman of the particular age) for the entire reproductive age span. It provides the average number of children that will be born to a woman under the fertility levels indicated by the age specific fertility rates assuming that there is no mortality of women till the completion of reproductive period.

$$\text{TFR} = \frac{5 \times \sum^{45\text{-}49}\text{ASFR}_{15\text{-}19}}{1{,}000}$$

Total marital fertility rate (TMFR)

Average number of children that would be born to a married woman if she experiences the current fertility pattern throughout her reproductive span (15-49) years assuming that there is no mortality of women till the completion of reproductive period.

$$\text{TMFR} = \frac{5 \times \sum^{45\text{-}49}\text{ASMFR}_{15\text{-}19}}{1{,}000}$$

Age-specific mortality rate (ASMR)

Number of deaths in a particular age and sex group per 1000 population of the same age-group.

$$\text{ASMR} = \frac{\text{Number of deaths in a particular age-group}}{\text{Mid-year population of the same age-group}} \times 1{,}000$$

q1

Probability of dying between birth and age 1. This can be used as approximate value of Infant Mortality Rate (IMR) which gives the ratio of number of deaths in a year of children aged less than one year to the number of births in that year.

q2

Probability of dying between birth and age 2.

q5 :

Probability of dying between birth and age 5. This indicator is also known as Under Five Mortality Rate (U5MR).

Infant mortality rate (IMR)

Ratio of the number of infant deaths (deaths of children below one year) in a year to the number of live births in that year.

$$\text{IMR} = \frac{\text{Number of infant deaths during the year}}{\text{Number of live births during the year}} \times 1{,}000$$

Infant mortality rate comprises of two parts, viz., Neo-natal mortality rate and Post neo-natal mortality rate. The neo-natal mortality rate also comprises of two parts viz., Early neo-natal mortality rate and late neo-natal mortality rate. These are defined as:

Neo-natal mortality rate (NMR)

Number of infants dying within the first month of life (28 days or under) in a year per 1,000 live births of the same year.

$$\text{NMR} = \frac{\text{Number of infant deaths aged 28 days or under during the year}}{\text{Number of live births during the year}} \times 1{,}000$$

i) Early neo- natal mortality rate

$$= \frac{\text{Number of infant deaths of less than 7 days during the year}}{\text{Number of live births during the year}} \times 1{,}000$$

ii) Late neo-natal mortality rate

$$= \frac{\text{Number of infant deaths of 7 days to less than 29 days during the year}}{\text{Number of live births during the year}} \times 1{,}000$$

Post neo-natal mortality rate (PNMR)

$$= \frac{\text{Number of deaths of 29 days to less than One year during the year}}{\text{Number of live births during the year}} \times 1{,}000$$

Peri-natal mortality rate (PMR)

Number of still births plus deaths within 1st week of delivery per 1000 births in a year.

$$\text{PMR} = \frac{\text{Number of still births and infant deaths of less than 7 days during the year}}{\text{Number of live births and still births during the year}} \times 1{,}000$$

Still birth rate (SBR)

$$= \frac{\text{Number of still births during the year}}{\text{Number of live births and still births during the year}} \times 1{,}000$$

Maternal mortality rate (MMR)

Number of deaths of women in the age-group 15-49 while pregnant or within 42 days of termination of pregnancy from any cause related to pregnancy and child birth per 1,00,000 live births in a given year.

$$\text{MMR} = \frac{\text{Number of maternal deaths to women in the age group 15-49}}{\text{Number of live birth}} \times 1{,}00{,}000$$

Eligible couple (Couples per 1,000 population)

Number of currently married females in the age-group 15-44 years per 1000 persons of all ages.

Child woman ratio (0-4)

1. Number of children in the age-group 0-4 years per 1000 women in the age-group 15-49 years.

Child woman ratio (5-9)

2. Number of children in the age-group 5-9 years per 1000 women in the age-group 15-49 years.

Migration, Internal and International migration, Impact of migration.

Migration

Migration is the third component of population change, the other two being mortality and fertility. A person is considered as a migrant by place of birth if the place in which he is enumerated during the Census is other than the place of his birth. Similarly a person is

considered as a migrant by place of last residence if the place in which he is enumerated during the Census is other than his place of immediate last residence. By capturing the last of the migrations in cases where persons have migrated more than once, this concept would give a better picture of current migration scenarios.

Internal And International Migration

The migrational movements are of three types (i) Migration within the state itself with its components (a) Migration within the district of enumeration (intra district migration) (b) Migration from one district of state to another district of state (interdistrict migration) (ii) Migration from one state to another state of the country interstate migration (iii) Migration from one country to another country. The first two streams together constitute internal migration, while the last type of movement is called international migration.

Impact of Migration

As in 1991 and 2001 Census, like previous Censuses, had collected migration details for each individual by place of birth and last residence. Data on last residence along with details like duration of stay in the current residence and reason for migration provides useful insights for studying migration dynamics of population.

Civic status of urban units

Civic Status of a town/city is determined on the basis of Civic Administrative authority of the town e.g., Municipal Corporation/Corporation, Municipal Committee/Municipal council, Municipality etc.

Size class of UA / town

Size-class of UA / Town is based on the population. UAs / Towns with 100,000 and above population are classified as Class I UAs/Towns. These Class I UAs./ Towns are now further sub classified into seven sub classes namely M1 to M7 depending on the population size of UA/City/Town. These are :

M7 (5,000,000 and above);

M6 (2,000,000 to 4,999,999);

M5 (1,000,000-1,999,999);

M4 (500,000-999,999);

M3 (300,000-499,999);

M2 (200,000-299,999); and

M1 (100,000-199,999).

Towns with 50,000 to 99,999 population are classified as Class II towns, 20,000 to 49,999 population are Class III towns, population with 10,000-19,999 are Class IV towns, population with 5,000 and 9,999 are Class V towns and towns with less than 5,000 population are Class VI towns.

Slum area

The Slum Areas (Improvement and Clearance) Act, 1956, which was enacted by the Central Government defined slums as:

a) Areas where buildings are in any respect unfit for human habitation; or

b) are by reasons of dilapidation, overcrowding, fault arrangement and design of such buildings, narrowness or faulty arrangement of streets, lack of ventilation, light or sanitation facilities, or any combination of these factors, are detrimental to safety, health or morals.

Mega city

The concept of 'Mega city' is a recent phenomenon in the Urban Sociology and is defined in term of metropolitan city in the form of large size, problem of management of civic amenities and capacity to absorb the relatively high growth of population. Indian Census in 1991 treated the population size of 5 million and above as the cut off point to identify a place as the mega city. Whereas, for the purpose of inclusion in Centrally Sponsored Scheme for Infrastructure Development in Mega cities the Ministry of Urban Affairs and employment, Department of Urban Development adopted the criteria of 4 million and above population as per 1991 Census for Mega Cities. In 2001 Census, cities with 10 millions and above population have been treated as Mega cities.

(vii) CENSUS 2001 FINDINGS

Census taking is a massive operation carried out in a short span of time with the active participation of a veritable army of enumerators. The reference moment for the 2001 Census is the midnight of 28th February, 2001 i.e. the census provides a snapshot of the population of the country, as it existed at the midnight of 28th February, 2001. Actual enumeration was spread over a period of 20 days from 9th to 28th February, 2001 followed by revisional round up to 5th March, 2001 for up dating of the population figures with reference to the midnight of 28th February, 2001. Household schedule was canvassed by the enumerator and with a view to ensuring uniformity in approach in understanding the various concepts and in proper eliciting and recording of the information, the enumerators and supervisors were imparted both theoretical as well as practical training intensively in 3 rounds.

As a prelude to the actual census the urban and rural areas were identified and listed out in respect of each administrative unit. The Directorate of Census Operations had prepared the list of urban areas and simultaneously, a list of villages. These lists formed the basic frame for the organization of the census operations. There after, geographical areas that could be conveniently covered by each enumerator were carefully carved out to constitute the enumerator's block (EB).

The second major step was the house listing operation, which was carried out in this District during April, 2000. Thereafter, in order to adhere to the prescribed workload norms the actual census enumerator's blocks were carefully demarcated on the basis of the house list population and the layout sketches and notional maps prepared for the houselisting operation. Houselisting operation was also utilized to collect wealth of information on items such as predominant material used for construction of houses, amenities available to the census households, number of living rooms etc.

DISTRIBUION OF POPULATION IN RURAL AND URBAN AREAS

In 2001, the total population of Thanjavur district was 2,216,138; rural with 1,46,577 and urban with 748,561. In 1991, these were 2,025,324, 1,472,598 and 552,726 respectively.

The table below given shows the taluk level distribution of population for total, rural and urban areas of Thanjavur district. The Thanjavur taluk has come out with highest population of 448,301 and the lowest population recorded in the Peravurani taluk (117,505). Among the taluks rural population Pattukkottai taluk (261,672) stands first followed by Orathanadu (224,123), Kumbakonam (209,461), Papanasam (202,473), Thanjavur (185,192), Thiruvidaimarudur (155,805), Thiruvaiyaru (137,796). Peravurani has recorded the lowest rural population of 91,055.

Comparing the population of urban areas Thanjavur taluk stands in the first position with 263,109 followed by Kumbakonam (194,932), Pattukkottai (108,616), Thiruvidaimarudur (57,172), Papanasam (52,620), Thiruvaiyaru (35,490) and Peravurani (26,450). The Orathanadu taluk urban population has recorded the lowest with 10,172.

Table A: Distribution of Population in rural-urban areas

Serial Number	Name of Taluk	Total Population 2001			Rural population 2001			Urban population 2001			No. of Villages		Number of Towns
		Persons	Males	Females	Persons	Males	Females	Persons	Males	Females	Total	Inhabited	
1	2	3	4	5	6	7	8	9	10	11	12	13	14
1	Thiruvidaimarudur	212,977	106,325	106,652	155,805	77,886	77,919	57,172	28,439	28,733	75	73	5
2	Kumbakonam	404,393	201,858	202,535	209,461	104,850	104,611	194,932	97,008	97,924	108	101	7

DECADAL GROWTH OF POPULATION

The percentage of decadal growh of the total population during 1991-2001 in the district was 9.4%; rural as -0.3% and urban as 35.4%.

TABLE - D : DECADAL CHANGE IN DISTRIBUTION OF POPULATION

Name of the District	Population						Percentage decadal Variation 1991 - 2001			Percentage Urban	
	1991			2001							
	Total	Rural	Urban	Total	Rural	Urban	Total	Rural	Urban	1991	2001
Thanjavur	2,025,324	1,472,598	552,726	2,216,138	1,467,577	748,561	9.4	-0.3	35.4	27.6	33.8

DENSITY OF POPULATION AND SEX RATION

The density of population in Thanjavur district is 638 which is higher than the state average (480). The sex ratio of the district is recorded as 1,021 against the state figure of 987 during the census of India 2001.

TABLE E : DENSITY OF POPULATION/SEX RATIO

Name of State/District	Density of Population	Sex Ratio
Tamil Nadu	480	987
Thanjavur	638	1,021

LITERACY

A person who can both read and write with understanding in any language has been taken as literate. A person who can merely read but cannot write is not literate. It is not necessary that a person who is literate should have received any formal education or should have passed any minimum educational standard. Like 1991 Census, all children of age 6 years or less are treated as illiterates although they may be going to school and can read and write a few odd words.

TABLE F : LITERACY,2001

Name of the State/District	Percentage of Literates		
	Persons	Males	Females
Tamil Nadu	73.5	82.4	64.4
Thanjavur	75.5	84.5	66.7

The literacy rate of the district was at 75.5%, higher then the state literacy. The literacy rate for the males was 84.5% and the females was 66.7%.

ECONOMIC ACTIVITY

TABLE G : ECONOMIC ACTIVITY

Name of the District	Persons/ Males/ Females	Percentage of Workers		
		Main Workers	Marginal Workers	Non-Workers
Tamil Nadu	Persons	38.1	6.6	55.3
	Males	51.9	5.7	42.4
	Females	24.0	7.5	68.5
Thanjavur	Persons	33.8	6.6	59.5
	Males	50.3	6.1	43.6
	Females	17.7	7.2	75.1

It can be seen from the above table that the main workers were 33.8% in the district. The 2001 census recorded 40.5% as the total workers and 6.6% as marginal workers. Non-workers were more than half of the population of the district.

The above table reveal that the main workers among the males was higher than the females whereas non-workers among the females was higher than males.

WORK PARTICIPATION RATE

The work participation rate for total workers is defined as the percentage of total workers to total population.

TABLE - H : WORK PARTICIPATION RATE

Name of the District	Total/Rural/Urban	Work Participation Rate
Thanjavur	Total	40.5
	Rural	44.2
	Urban	33.2

The total work participation rate of the district is 40.5%; in rural areas with 44.2% and 33.2% in urban areas.

SCHEDULED CASTES AND SCHEDULED TRIBES

The Scheduled Castes and Scheduled Tribes population details were gathered in 2001 Census for this district. The following table reveal the proportion of Scheduled Castes and Scheduled Tribes are given.

TABLE I : SCHEDULED CASTES AND SECHEDULED TRIBE POPULATION

Name of the District	Total / Rural / Urban	Total Population	Total Scheduled Castes Population (percentage)	Total Schedulaed Tribes Population (percentage)
Thanjavur	Total	2,216,138	399,653 (18.3)	3,641 (0.16)
	Rural	1,467,577	332,385 (22.65)	1,302 (0.09)
	Urban	748,561	67,268 (8.99)	2,339 (0.31)

In the above table, the Scheduled Caste population in Thanjavur district was 18.3% and Scheduled Tribes population was 0.16% in 2001. It also gives the Scheduled Castes and Scheduled Tribes population in rural and urban areas of the district.

RELIGION

In our country, many religions have prosperously grow and every census have attempted to provide an interesting picture on the act of religious persuasions and beliefs of the people in the country.

The following tables shows the majority and minority religious communities population between rural and urban areas of Thanjavur district in 2001.

TABLE J : DISTRIBUTION OF POPULATION BY RELIGION

Religion	Total	Rural	Urban
Hindus	1,925,677	1,315,066	610,611
Muslims	163,286	74,577	88,709
Christians	124,945	76,776	48,169
Sikhs	38	18	20
Buddhists	28	13	15
Jains	657	43	614
Others	201	104	97
Religion not stated	1,306	980	326

The above table depicts the percentage Hindus (86.89%), Muslims (7.37%), Christians (5.64%), Jains (0.03%) and religion not stated (0.06%). The remaining religions, Sikhs and Budhists shows negligible number with district.

(viii) Brief analysis of data based on inset tables 1 to 52

TABLE 1 : DECADAL CHANGE IN POPULATION OF TALUK BY RESIDENCE, 1991-2001

	Districts (Rural) Total:	**33 (4.2)**	**99,109**	**102,559**	**1 (0.1)**	**5,441**	**5,514**

Out of 821 villages, only 36 villages are uninhabited and 785 villages are habited. Majority of the villages (294) returned the population between 1000 and 1999, followed by 237 villages (30.2%) in the population range of 2000 - 4999.

TABLE 3: NEW TOWNS, DENOTIFIED, DECLASSIFIED AND MERGED TOWNS IN 2001 CENSUS

Serial Number	Name of the Town	Civic Status
(a) New Towns		
(i) Statutory Towns		
	Peravurani	Urban
(ii) Census Towns		
	1. Neelagiri	C.T.
	2. Nanjikottai	C.T.
	3. Perumandi	C.T.
	4. Ullur.	C.T.
	-Nil-	
(b) Denotified Towns		
(I) Statutory Towns of 1991 census de-notified and also did not statisfy the criteria to be treated as Census Town.		
	-Nil-	
(II) Statutory Towns of 1991 census denotified but identified as census town based are demograohic and econimic criteria.		
	-Nil-	
(III) Census Town of 1991 census notified as statutory town in 2001 census as Peravurani.		
(c) Declassified	Tirumullaivasal	CT
	Akkaraipettai	CT
	Andanappettai	CT
(d) Wholly merged with other towns		
	-Nil-	

It is seen from the above table that 4 new census towns and one statutory towns in Thanjavur district.

TABLE 4 : DISTRIBUTION OF VILLAGES BY POPULATION DENSITY, 2001

Range of population density (per square kilometer)	Total number of villages in each population density range	Percentage of villages in each population density range	Population	Percentage distribution of population
1	2	3	4	5
0-10	3	0.4	41	0.0
11-20	1	0.1	19	0.0
21-50	5	0.6	1,062	0.0
51-100	7	0.9	6,961	0.5
101-200	66	8.4	52,118	3.6
201-300	107	13.6	143,749	9.8
301-500	253	32.2	428,774	29.2
501 +	343	43.7	834,853	56.9
Not known	0	0.0	0	0.0
District Total:	**785**	**100.0**	**1,467,577**	**100.0**
Population Density (Rural) of the district:		**472**		

Out of 785 inhabited villages, 360 villages is (45.8%) with a population of 572,523, fall in the population density range between 201 and 500 persons per square kilometer. Majority of villages (343) fall under the density range of 501+.

TABLE 5: SEX RATIO OF STATE AND DISTRICT 1901 - 2001

Census Year	Tamil Nadu			Thanjavur		
	Total	Rural	Urban	Total	Rural	Urban
1	2	3	4	5	6	7
1901	1,044	1,043	1,048	1,110	1,112	1,100
1911	1,042	1,044	1,032	1,104	1,107	1,093
1921	1,029	1,033	1,008	1,082	1,088	1,058
1931	1,027	1,034	997	1,085	1,099	1,031
1941	1,012	1,017	991	1,055	1,065	1,016
1951	1,007	1,014	986	1,016	1,017	1,014
1961	992	1,003	963	1,055	1,009	995
1971	978	990	951	988	990	983
1981	977	987	956	988	993	976
1991	974	981	960	996	998	991
2001	987	992	982	1,021	1,020	1,022

Note: Sex ratio has been defied here as the number of females per 1000 males.

Sex ratio of the district for the period from 1901-2001 is reflected in this table both for Rural and Urban areas as compared to the state. The district sex ratio have been recorded the highest in all censuses.

TABLE 6 : SEX RATIO BY TALUK, 2001

Serial number	Name of Taluks	Sex ratio		
		Total	Rural	Urban
1	2	3	4	5
1	Thiruvidaimarudur	1,003	1,000	1,010
2	Kumbakonam	1,003	998	1,009
3	Papanasam	1,027	1,025	1,037
4	Thiruvaiyaru	1,021	1,019	1,027
5	Thanjavur	1,013	1,004	1,020
6	Orathanadu	1,035	1,035	1,037
7	Pattukkottai	1,041	1,040	1,042
8	Peravurani	1,040	1,038	1,047
	District Total:	**1,021**	**1,020**	**1,022**

All the 8 taluks fall in the higher Sex Ratio in total, rural and urban areas at 987, 992 and 982 respectively. Among the taluks, 4 taluks recorded higher sex ratio. In urban sex ratio among these taluks, Peravurani taluk recorded the highest with 1047.

TABLE 7 : SEX RATIO BY CD BLOCKS, 2001

Serial number	Name of C D block	Sex ratio
1	2	3
1	Thiruppanandal	1,000
2	Thiruvidaimarudur	1,001
3	Kumbakonam	997
4	Papanasam	1,043
5	Thiruvaiyaru	1,015
6	Budalur	1,011
7	Thanjavur	1,007
8	Ammapettai	1,003
9	Orathanadu	1,040
10	Madukkur	1,060
11	Pattukkottai	1,042
12	Thiruvonam	1,021
13	Peravurani	1,030
14	Sethubhavachatram	1,035
	District (Rural) Total:	**1,020**

Of the 14 CD Blocks, Madukkur CD Block has recorded the highest sex ratio of 1060, followed by Papanasam (1043) and Pudukkottai (1042). The lowest sex ratio was recorded from Kumbakonam with 997.

TABLE 8 : SEX RATIO OF RURAL POPULATION BY RANGES, 2001

Range of sex ratio for villages	Number of inhabited villages	Percentage of villages in each range	Population 2001	Percentage distribution of population
1	2	3	4	5
Less than 700	3	0.4	4,709	0.3
700-749	0	0.0	0	0.0
750-799	0	0.0	0	0.0
800-849	2	0.3	510	0.0
850-899	8	1.0	6,805	0.5
900-949	59	7.5	82,763	5.6
950-999	212	27.0	415,907	28.3
1000-1099	414	52.7	830,847	56.6
1100+	87	11.1	126,036	8.6
District Total:	**785**	**100.0**	**1,467,577**	**100.0**

Sex ratio (Rural) for District : 1020

Majority of the villages (414) have recorded the highest sex ratio between 1000 and 1099 while 3 villages have recorded sex ratio less than 700. However, there were 87 villages (11.1%) have reported sex ratio of 1100 +, in the district.

TABLE 9 : SEX RATIO OF URBAN AGGLOMERATIONS / TOWNS, 2001

Serial number	Name of U.A. / Town	Urban status of town	Sex ratio
1	2	3	4
1	Adiramapattinam (TP)	(TP)	1,098
2	Aduthurai alias Maruthuvakudi (TP)	(TP)	996
3	Ammapettai (TP)	(TP)	1,010
4	Ayyampettai (TP)	(TP)	1,098
5	Cholapuram (TP)	(TP)	1,092
	Kumbakonam UA	(UA)	1,005
6	(a) Kumbakonam (M)	(M)	1,006
7	(b) Dharasuram (TP)	(TP)	994
8	(c) Ullur (CT)	(CT)	1,012
9	Madukkur (TP)	(TP)	1,115
10	Melathiruppanthuruthi (TP)	(TP)	1,104
11	Melattur (TP)	(TP)	1,012
12	Nanjikottai (CT)	(CT)	1,015
13	Neelagiri (CT)	(CT)	994
14	Orathanadu (TP)	(TP)	1,037
15	Papanasam (TP)	(TP)	1,022
16	Pattukkottai (M)	(M)	1,003
17	Peravurani (TP)	(TP)	1,038
18	Perumagalur (TP)	(TP)	1,081
19	Perumandi (CT)	(CT)	982
20	Swamimalai((TP)	(TP)	1,042
21	Thanjavur (M)	(M)	1,019
22	Thirukkattupalli (TP)	(TP)	998
23	Thirunageswara (TP)	(TP)	1,024
24	Thiruppanandal (TP)	(TP)	1,022
25	Thirupuvanam((TP)	(TP)	1,006
26	Thiruvaiyaru (TP)	(TP)	1,011
27	Thiruvidaimarudur (TP)	(TP)	1,020
28	Vallam (TP)	(TP)	1,058
29	Veppathur (TP)	(TP)	1,008
Sex ratio (Urban) for the district:			**1,022**

The sex ratio in unban areas of this district reveal that Madukkur TP and Melathiruppanthuruthi TP have recorded the highest sex ratio of 1115 and 1104 respectively. The lowest sex ratio in the district among the town was recorded in Neelagiri CT and Dharasuram TP each with 994.

TABLE 10 : SEX RATIO OF POPULATION IN THE AGE GROUP 0-6 FOR TALUK, 2001

Serial number	Name of Taluk	Total / Rural / Urban	Total population in 0-6 age group			Sex ratio for 0-6 age group
			Persons	Males	Females

Note: Percent of Worker to total worker are given in brackets

This table shows the distribution of work force by sex in four categories of economic activity in C.D.Blocks 2001. The Cultivators to total workers is 20.9%, Agricultural labourers 57.6%, Hoursehold workers 2.6% and other workers is 18.9%. For Males, the percentage are 24.3, 49.5,2.2 and 24.0 respectively. For females, it is 14.5% cultivators. 72.7% Agricultural labourers, 3.3% Household Industry workers and 9.4% other workers. Male force dominates by hereby 13% more than the females workforce.

TABLE 36 : DISTRIBUTION OF WORKERS BY SEX IN FOUR CATEGORIES OF ECONOMIC ACTIVITY OF URBAN AGGLOMERATIONS / TOWNS , 2001

Post office includes Post office, Telegraph office and Post and telegraph office.

$ Transport communication includes bus service, rail facility and navigable waterways.

* Based on the improved drinking water source, drinking water supply has been classified as ‘Improved ‘ orotherwise. If the household has access to drinking water supplied from a tap or a hand pump / tube well situated within or outside the premises it is considered as having access to ‘Improved drinking water source’. However, the concept of improved drinking water is state specific and this is to be considered accordingly.

This table describes the actural number of villages falling in various (kind) range of population where the amenities like education, medical, drinking water etc., are available.

TABLE 42: DISTRIBUTION OF VILLAGES ACCORDING TO LAND USE, 2001

Serial number	Name of C. D. block	Number of inhabited villages	Total area	Percentage of cultivable area to total area	Percentage of irrigated area to total cultivable area
1	2	3	4	5	6
1	Thiruppanandal	52	15,706.3	78.9	69.5
2	Thiruvidaimarudur	56	15,523.5	74.3	86.1
3	Kumbakonam	66	16,476.4	68.6	81.3
4	Papanasam	38	12,763.5	65.2	85.6
5	Thiruvaiyaru	46	14,985.9	71.6	89.4
6	Budalur	49	28,019.2	66.0	57.2
7	Thanjavur	62	36,801.5	71.3	63.9
8	Ammapettai	64	21,889.7	74.3	91.1
9	Orathanadu	80	39,842.2	68.8	80.0
10	Madukkur	45	17,105.3	70.0	75.0
11	Pattukkottai	56	28,482.7	55.3	68.5
12	Thiruvonam	44	21,224.2	68.3	73.7
13	Peravurani	55	19,476.5	67.3	76.1
14	Sethubhavachatram	72	22,463.4	64.4	68.5
	District Total:	**785**	**310,760.3**	**68.4**	**74.8**

Note : - Cultivable area = irrigated area + unirrigated area

This table gives the distribution of villages according the land use pattern of 2001. The percentage of cultivable are to total area is 68.4%. 74.8% is the irrigated area to the total available cultivable area of this District.

TABLE 43 : PER CAPITA RECEIPT AND EXPENDITURE IN STATUTORY TOWNS

Serial number	Class, name & urban status of the Town	Per capita receipt			Per capita expenditure

Data source: Census of India 2001, H- series: “Tables on Houses, Household amenities and Assets.”

This table reflects taluk wise information on the availability of various assets like radio, television, transportation accessari like bicycle, motorcycle, motor car. Besides all this the affluence of bank account holding of households are also displayed

(ix) Major social and cultural events, natural and administrative developments and significant activities during the decade.

All important Social, Cultural and Political events which occurred in the District during the decade 1991-2000 have been briefly listed below.

In 1992, the famous "Mahamaham" festival took place in this year in which devotees from all over India participated and had sacred bath. This festival is celebrated once in twelve years. This famous festival held on 18.2.92.

In 1995, 8th World Tamil Conference was held in Thanjavur Town on 1.1.95.

Kumbabishegam of Thanjavur Pragadeeswarar Temple (Big Temple) was held on 9.6.97.

Opening of First Samathuvapuram in Thanjavur District at Kurungulam East village in Thanjavur Taluk was held on 15.5.99.

(x) Brief description of places of religious, historical or archacological importance in villages and places of tourist interest in the towns of the district.

There are a number of ancient temples in the district and most of them are located on the banks of river Cauvery and its tributaries. The existence of about 75 ancient temples in the district have been recorded in the "Thevaram" sung by Nayanmar and were discovered from Chidambaram temple by the Chola King-Raja Raja I and only a part of it could be traced out. Of 108 Vaishnavite Thivyaadesams (Holy Places sung by Vaishnavite Saints-Alwars) 12 places are situated in the district. The Brahadeeswarar Temple at Thanjavur and the Siva temples at Darasuram and Thirubuvanam are typical Temple at Thanjavur and the Siva temples at Darasuram and Thirubuvanam are typical landmarks of Chola architecture. "Raja Rajeswaram" temple at Thanjavur built by Raja Raja I shows the expertise and skill of Tamil architecture. This temple is remarkable for its stupendous proportions and bold simplicity of designs and continuing a historical movement of glory and spritual solace. During 1987, the temple was inscribed on the world heritage list concerning the protection of world cultural and natural heritage.

The shrines of various religious interests are situated all over the district and in order to understand the significance of the places of tourist importance, taluk-wise description is provided below.

Thiruvidaimarudur Taluk

Kanjanur

God Agneeswarasamy and Goddess Sri Karpatgambal Temple is located at Kanjanur in Thiruvvidaimarudur Taluk. 20 KM. North East of Kumbakonam. It is a faith prevails i.e. if we pray God and Goddess all over sins will be removed from us.

Another important Temple is Sooriyanarkovil Sri God of Sun Temple situated in the Middle of the Sooriyanorkoil village in Thiruvidamarudur Taluk 17 KM North East of Kumbakonam. For his ancient and historical speciality large people workshipping the God.

Sri Mahalingasamy temple at Thiruvidaimarudur is a very big temple and it is believed that Brahmahathi Dosham was removed from King Varagunapandian in this temple.

Thirubuvanam temple was built by king Kulothunga on the model of Thanjavur Brahadeeswarar temple. The stately stone gopuram of rare workmanship from the pedestal to the stripe is a standing monument of the architectural glory. A stone inscription in the temple disclose the existence of a university here for teaching advanced courses in Miamsa and Tamil.

A Saivat Mutt called Kasimutt founded by Sri. Kumaragurubarar is situated in Thirupanandal, 20 KM north west of Kumbakonam and has a branch at Varanasi.

Kumbakonam Taluk

Sri Adhikumbeswaraswamy temple is an ancient shrine located at Kumbakonam. Kumbakonam was the capital of Cholas during 7th Century. The temple was built by Cholas and the presiding deity of the temple is Adhikumbeswaraswamy and his consort Mangalambikai. The temple covers an area of more than 4 acres and bears stone inscriptions. Lort Kumbeswara is a Swamyambu Lingam and Sri Mangalambikai is in standing style. On a single block of stone in the Navarathiri Mandapam all the twenty seven starts and 12 Rasis have been carved out. Festival is celebrated almost every month of which

the "Maham" festival in the Tamil month "Masi" (Feb-March) is the most important festival.

"Maha Maham" festival is celebrated in Kumbakonam once in twelve years. This celebration coincides when Jupiter (Guru) stays in Leo (Shimma Rasi) and the Sun in Aquarius (Mesha Rasi) on the full moon day. Bathing in the tank at this time is considered to be sacred as the water of the Ganges is supposed to enter the tank. The Mahamaham festival is attended by lakhs of devotees from all over the country and the last Mahamaham was celebrated on 18.2.92. The next Maha Maham festival will be celebrated on 2004.

Sri Naganathaswamy temple (Sri Rahu abode) is an ancient temple dedicated to Lord Shiva which is located at Thirunageswaram, 7 KM east of Kumbakonam. It is believed that Rahu Bhagavan (One of the nine orbiting planets of Sun) absolved his curse by workshipping the Lord here. One can see the rare Rahu Bhagavan idol with his two consorts in this temple. Devotees perform milk abishegam to get rid of their Rahu Dosham or its evil effects. During the time of the abeshegams when the milk is poured on Rahu idol, the milk looks bluish in colour to the eyes of the devotees.

Another important Vaishnava temple located in Thirunageswaram is Sri Oppilliappan temple. The deity is also known as Srinivasan and devotees fulfil their vows here instead of Thirupathi since the god is considered as the elder brother of Lord Venkatachalapathy. It is believed that the God married his consort Boomadevi, here at her very young age. Everymonth Sravana Deepam is taken around the temple and is witnessed by large devotees. Sravana Nakshathiram is the birth star of the lord.

Sri Swaminathaswamy temple is built on an artificial hillock about sixty feet high in Swamimalai, a small town near Kumbakonam. Thehill temple has sixty steps coinciding with 60 Tamil years. The presiding deities are life images of Muruga and Siva-the son imparting the divine message "Pranava" to his father. Sri Swaminathaswamy is in a six feet high granite idol in a standing poisture offering a spectacular view to devotees. This temple is one of the six abodes (Arupadaiveedu) of Lord Murugan. On the way to Swamimalai a famous Vinayaga temple is located in Thiruvalanjuli village where the Vinayaga idol is in white colour.

Sri Ayaravatheeswarar temple known for architectural skill is located in Darasuram near Kumbakonam and was built by Rajendra Chola I. Famous icons have been discovered during recent renovations and this temple is a protected monument under the control of Archeological Survey of India.

Pattukottai Taluk

MANORA Fort is a Famous picnic spot, located in the village Sarabondrarajanpattinam, is an example of Archietecture of Marattas. It was built in 1814 to commemorate the Victory of the British over Neopolean Bonapart in the war of Waterloo. The Fort facing Bay of Bengal, is an seven storeyed victory tower and has steps in a circular way which look enchanting and one can have a panoramic views of the green, surroundings and the sea from this 30 meter high tower and it is a protected monument under Archaeological department. The Government of Tamilnadu and District Administration are taking all steps to improve the surroundings of Manora. After the Governor's visit to this Manora, the visit of the people has increased a lot. Irrespective of agedd women, men, school going children are visiting this Manora every day. The local Administration officials, Tourism department officials have proposals to make the seashore with sun-bath facilities. Because of the District Administration's sincere effort, this Manora is having a fresh look.

There is a famous shrine where saint Sheik Alauddin Sahib is entombed, and it located at Adirampattinam, a small port town lying about 13 KM, south east of Pattukkottai.

There is a famous Goddess Nadiammam Temple in the Pattukottai Town.

There is also famous shrine in Pattukkottai town where saint Venkidu Subbaiah Swamigal is entombed in the midest of Pattukkottai Town.

Thirivaiyaru Taluk

Thiruvaiyaru means five holy rivers and this town derives its name by virtue of the five rivers flow within 5km of this town. The name of the rivers apart from

Cauvey are Vadavar, Vennar, Vettar and Kudamurutti. The town is considered as holy as Varanasi and there is a belief that to die here is an eternal blessing leading to salvation. The temple of Panchanathiswara in this town is considered as the first of the seven shrines called "Sapthasthanams".

The other six Sapthasthanam are Kandiyur, Thiruppanathuruthi, Thirupazhanam, Thiruvedhikudi, Thillaisthanam and Thiruuchotruthurai.

The great carnatic music composer and Saint Sri Thiyagaraja lived and died here. A celebration of annual musical festival at his samadhi on the bank of river Cauvery is well known and is attended by thousands of musicians from all over the country by considering it as a honour and privilige of every musician to hymn Pancharathnakrithis of Saint Thiagaraja in the streets of Thiruvaiyaru on the occasion.

In between Thiruvaiyaru and Grand Anaicut Main Road there is a Poondi Matha Shrine at Alamelupuram Poondi village it is located in between the River Cauvery and Coleroon. Just like Velankanni, No.of pilgrims are visiting this shrine and it became a world famous miracular pilgrim centre. The distance from Thiruvaiyaru to Alamelupuram Poondi is 20 KM and from Grand Anicut to Alamelupuram Poondi is 15 KM. The Festival of this shrine celebrate every year from May 6th to 15$^{th.}$.

Papanasam Taluk

There is a famous granary of Naik Dynasty which can store about 1500 bags. Of paddy and is a protected monument of Archaeological Department and is situated in Sri Palaivanthaswamy Temple in Thirupalathurai village, 15 km south west of Kumbakonam. It was built by stone of lime.

Orathanadu Taluk

There is one famous Siva Temple situated at Orathanad town. Those who are not able to visit Kasi in North India can have a Dharsan of Kasi Viswanathar and Kasi Visalakshi Amman at Orathanad town itself, Since the main deity in this temple is Kasi Visalakshi Amman and Kasi Viswanathar.

While revolution is well implemented in Orathanad Taluk. There is one big livestock farm in Orathanad town itself and another big one is is Eachankottai village. More than 100 acres of land has been acquired for these two livestock farms and this two farms are the model of the one big livestock farm in Hosur. Research and development is being experimented in Eachankottai by-breed livestock farm.

There is one survey training Institute in Orathanad Town. It is one and the only training institute in the State which impart survey training to the Revenue Officials and Survey Officials.

There is an old type of two-tier river bridge in Unjividuthi village of Orathanad Taluk. It is a telling performance of old architecture. C.M.B. Canal is running over the first-tier bridge in our state.

Thanjavur Taluk

Thanjavur town was the capital of Muthurayars and Cholas. Sri Brahadeeswarar temple is the most amnbitious of the archacological enterprises of the Cholas and is a fitting symbol of the maginificent achievements of Raja Raja-I. The temple has been constructed by large blocks of granite. The pyramidal structure of Vimana. 14 storeys raising to a height of 216 feet is visible from all sides in the small pillars pretty balcony, windows and beautiful images carved thereon. It enchants the minds and eyes of all spectators. It was a collosal task, the plith of central shrine is 45.72 sq.m. and the shrine proper is 30.48 sq.m. The most striking feature of this shrine is its imposing Vimanam which raises perpendicularly from a squre base to height of 60.96m. The stone carrying the huge "sikara" is said to wieght 81.28 tonnes and was raised to tis present height by being dragged on an inclined plane of 6.44km. length. The height of the Kalasa placed on this stupa is about 4 meteres. The Kalasa is made of 339.5 Kilogram of copper and covered with gold plates. The Big Bull (Nandi) opposite to sanctum sanctorium, made up of single stone is about 2m high, 6m in length and 2.5m width and weights roughly 20 tonnes.

The presiding deity, the Sivalinga is 7m high. The priests have to use a ladder for abhishegams. There is a separate sannadhi for consort Brohannayagi, Vinayagar, Murugar and for Karuvarai siddhar. The structural decoration of tower is very pleasing to lookat. There are beautiful paintings in the first floor of the

Vimanam. The highest achievements in plastic art in the Chola period is revealed in the fine series of the 108 dance poses carved all around the walls of the first floor of the temple and these from an invaluable decument in the history of Indian art.

There is a beautiful palace built by the Sarabhoji Maharajas in this town. It is a vast building of architectural grandeour built partly by the Nayaks around 1550 A.D. and partly by the Marathas. This fort comprises of an area of 530 acres and is surrounded by partly by the Marathas. This port comprises of an area of 530 acres and is surrounded by 15 feet high wall and 15 feet deep. Due to expansion of the township in course of tiem, the moat was filled and the wall demosished in several places. Only a portion of ramport to lengh of 21 feet is still preserved on the eastern side with a cannon inscried with "Rajagopal" Arsenal tower is a structure with 190 feet high and eight storeys and attracts large number of tourists. According to fergusson, the mode of the structure with uncontrived ornamentation is a synthesis of Italian and Indian architectural styles. The Sadar Mahal also known as Sarjah Madi is part of the palace of Maratha period. Although it is a seven storeyed building only six storeys remain at present.

Bell Tower is situated to a little north of Arsenal Tower. According to hearsay account Vijayaragunatha naicker is said to have offered worship towards Srirangam from the top terrace of the tower. The tower is fasioned in the style of Serginayakas. The Dharbar hall of Marathas is a place abounding in inquisite paintings to the east of Saraswathi Mahal library with An open countyared. There is a verandah with wooden posts along the frontage of the pavilion. Portions of several Maratha rulers including Shaji are painted here.

In the centre of Dharbar Hall the portrait of Shivaji with his minister and Dalavai attending on him is found painted. The open yard in front might perhaps have been put to use as a gymnasium of sports for practising arts like wrestling, lencing etc, as is popularly believed at that time. Saraswathy Mahal Library ishoused in the palace. It is a very famous library which has a rare collection of ancient books and manuscripts on a variety of subjects in Sanskrit, Tamil, Telugu, Marathi and other European languages. Among other things, library is famous for priceless rare collections of palm leaf and paper manuscripts. There are more than 50,000 manuscripts in the library.

There is an art gallery which was inaugurated in 1951, it contains a good collection of granite and bronze images and stone sculputures which provide and insight into the rich cultural and historical heritage of Thanjavur especially of Chola period. In the palace, another worth seeing place is Sangeetha Mahal and acoustically perfect musical hall. It is a striking example of the engineering skill of its ancient builders.

The Ancient Christian Churches of Thanjavur

Our Lady of Sorrows Church in Pookara street, Thanjavur which is fondly known as Viagula Madha Church by the prople is the oldest church in the present Thanjavur District. The Jesuit Annual letters testify that this church was in existence at Pookara street several years before the time of Veramamunivar (1740 A.D) who did his wonderful service for the development of Tamil language. 'Serfoji the Great' (1798-1832 A.D) the great Maratha ruler of Thanjavur had contributed generously both in terms of money and lands to this church just like he helped other churches in Thanjavur. People in thousands attend the annual car festival of this church which is celebrated every year with pomp and gaiety in the third week of September. Christians as well as brothers and sisters of other Religious jubilantly join in the celebration and every Saturday we see people praying in this church without any discrimination of religions or caste. Even today it stands as a symbol of Religious Harmony existing in Thanjavur District.

Sacred Heart Cathedral Church in Pookara Street, Thanjavur is the next ancient Catholic church in the present Thanjavur District. With the geneous contribution from a Christian man in Madurai and the people of Thanjavur Rev. Fr. Joseph Loro, S.J. took great effort to build this church in 1867 A.D.in 1969 July 6,7,8 the Cenetenary of this Cathedral was celebrated under the leadership of Late Bishop R.A. Sundaram, Former Bishop of Thanjavur.

St. Peter's Church (CSI) and Lutheran Church (TELC) in Manambuchavady, Thanjavur and Fort Church near Sivagangai Garden are also ancient CSI and Luthern churches of Thanjavur.

Apart from these, Among the various names by which the holy Cauvery is known during its course, the most popular in Taml Nadu is "Mother Cauvery" due to the high sancity attched to it. It is worshipped by the people irrespective of caste, creed or religion during Maha Magam festival celebrated at Kumbakonam once in 12 years. The Pilgrims after a bath in Mahamagm tank proceed for a holy dip in Cauvery which is believed to purge of all sins. In the Tamil month of Adi (July-August), on the 18th day (adi-perukku)., the people throng the bank of the river for the holy bath and pray the mother Cauvery for their prosperity. In the Tamil month Aypasi (October – November), thousands of devotees participate in a festival called "Kuda Muzhukku" celebrated on the banks of the river Cauvery at Mayiladuthurai. Many famous temples on the banks of river Cauvery and its tributaries have also earned fame as either sacred religious centres or beautiful scenery spots, porvidiing the much needed respite and mental solace to urbanites.

(xi)Major characteristics of the district, contribution of the district in the form of any historical figure associated with the district.

Thanjavur attained prominence under the Chola rulers who were paramount in South India during 9th to 12th centuries. They were not only excellent temples in their empire, some of which constitute the finest specimens of architecture. Hence the district stands distinguished in the state even in its large number of temples, whose legends extend deep in to early historic times. Many of these temples reflect the power, genius and architectural grandeours of their authors displaying the unique and magnificient proficiency in sculpture, painting and wood carving. Art gallery the great Saraswathy Mahal library, the 'Sangeetha Mahal" (hall of music) the thriving of classical music and dance known as Bharathanattyam 'and the Celebration of grand annual music festival at Thiruvaiyaru, in honour of the great Saint Thiagaraja, all bear testimony to the cultural heritage.

The period of Chola Kings was not only considered as epoch-making but also an era of the cultural renaissance. Thanjavur under the Chola rulers was the cradle of Tamil Culture. Literature and civilisationand the rare Tamil manuscripts in the Thanjavur invasions, on-slaughts and internal conflicts, the ancient culture and civilization have not suffered much devastation. The inhabitants have sucesfully concentrated their historionic talents in the field of art, literature, drama, music and dancing and are known for their rich cultural and religious fervour. They live in close harmony as a well knit community and the three main religious groups, viz., Hindus, Muslims and Chiristians, celebrate their fairs and festivals with the sense of mutual respect. On festive occasion, the Hindu devotes out-number all other participants in the shrines belonging to other religions. Similarly, in the case of some Hindu festivals, the temples are thronged by a substantial number of persons belonging to other religious group as well, who have a staunch faith and come in full reverence to pay homage to the presiding deities.

(xii) Scope of Village and Town Directory

Village Directory

The "Village Directory" is one of the traditional compilations of the Census. It gives the list of Revenue villages, their location numbers, their area, population, number of households, amenities such as educational, medical, drinking water, post and telegraph, commercial and co-operative banks, agricultural, non-agricultural and other credit societies, recreational and cultural facilities, communication, approach to village, nearest town with distance, power supply, availability of newspaper and magazines, most important commodity manufactured and land use of each village.

Village is a statutory recognized unit having a definite boundary and separate land records. The villages which are considered as Census Towns, the amenities data are shown in the Town Directory.

The 'un-inhabited' villages (villages with no population) have been indicated as such after furnishing details in columns 1 to 3 i.e., Serial number, Name of village & location code and area of the village. The land use data for such villages are shown in col. 19 to 23.

Town Directory

The Town Directory is presented for each town covering different aspects of urban life. Like 1991census, in the present census also there are seven Statements to be included in the District Census Handbook for presentation of data. The seventh

Statement relates to slums which was numbered as IV – A in 1991 Census. Statements I to VI contain data about growth, density, sex ratio, physical aspects of towns, communications, municipal finances, civic, medical, educational and other amenities and trade, commerce, Industry, Banking facilities. This District data for the towns/U.A.s has been presented in these six statements. Similarly the seventh Statement presents the data for slums.

Statement I shows status and growth history of the towns of this District. Column 2 in this Statement indicates class, name and civic administration status of a town (as in 2000). Class of the town indicated under this column has been introduced to facilitate the analysis of town directory data at the State and at the national level.. Column 6 presents area in Sq. kms. while Column 7 presents number of households including houseless households. Columns 8 to 18 give population and growth rate of towns since 1901. Column 19 presents density and Columns 20 to 22 present sex-ratio.

Statement II shows physical aspects and location of each town as in 1999. Column 2 shows the class and name of Town. Columns 3 to 5 show the rainfall and maximum and minimum temperature. Columns 6 to 13 show the name and distance of State HQ, district HQ, Tahsil HQ, nearest city with a population of one lakh and more, nearest city with a population of five lakh and more, Railway Station, Bus facility and Navigable river/canal from town.

Statement III shows the municipal finance of the Towns. The income and expenditure for the towns of this district has been presented in this Statement.

Statement IV provides information for civic and other amenities available to the Town. This Statement presents general population as well as the Scheduled Castes/Scheduled Tribes population as per 2001 census under Columns 3, 4 and 5. Columns 6 to 20 present data regarding road length, system of sewerage, number of latrines, method of disposal of night soil, protected water supply, fire fighting service, electric connections for domestic, industrial and commercial as well as road lighting (points) and others.

Statement V gives information regarding educational, medical, recreational and cultural facilities available in the town. Population figures for 2001 census have also been presented for the towns of this District which will facilitate in analyzing data on facilities available to the people. Data pertaining to medical facilities have been obtained from Director of Health Services and shown under Columns 4 and 5. The information on educational facilities has been shown under Column 6-15.

This Statement also shows, number of working women's hostels, recreational and cultural facilities available in the town under Columns 16 to 20.

Statement VI presents information in respect of trade, commerce, industry and banking services in the towns. Columns 3 to 8 indicate three most important commodities exported and manufactured in the Towns. Information on number of banks available in the towns Information on number of banks available in the towns have been presented under column 9 whereas Columns 10 and 11 show the number of agricultural and non-agricultural credit societies in the towns.

Statement VII shows the various civic amenities available in the slums of towns of this District.

Section I - Village Directory

(a) Note explaining the abbreviations used in the village directory

The Village Directory format has 23 columns and the details given under each column for the village are as follows :

Columns 1 : Serial Number

Self explanatory. All the villages within the C D block are presented serially in the ascending order of their location code number.

Columns 2 : Name and Location Code Number of the village.

The name and location code number of the village are shown against these columns. This also includes the forest and uninhabited villages.

Column 3 : Area of the village

The area of the villages in hectares are given.

Column 4 : Total population

The total population of the village as per 2001 Census is given against this column.

Column 5 : Number of households

The number of households as per 2001 Census is given in this column.

Amenities :

In column 6 to 23, availability in respect of different amenities such as education, medical, drinking water, post, telegraph, banks, credit societies, communication, power, approach road etc. in each village has been depicted with appropriate codes against the column concerned. Wherever the amenities are not available in the village, a dash (-) is shown in the column and next to it in brackets the distance in broad ranges viz. <5 kms., 5-10 kms. and 10+ kms of the nearest place where the facility is available is given. Column wise details are given below :

Column 6 : Educational

Classes upto class V included in Primary School. Classes from VI to VIII are included in the Middle school. Classes from IX and X included in Secondary / High school. Classes XI and XII are included in Higher / Senior secondary school.

In case of composite schools like middle school with primary school or secondary school with middle school, these are also included in the number of primary and middle schools, respectively.

Accordingly any of the following types of institutions if exists within the village is shown as per codes given below :

(i)	Primary School	P
(ii)	Middle School	M
(iii)	High/Secondary School	S
(iv)	Higher/Senior Secondary School	SS
(v)	College	C
(vi)	Industrial School	I
(vii)	Training School	Tr
(viii)	Adult literacy class/centre	AC
(ix)	Others (specify) Computer Training institutes, Tailoring Classes, Music and Dance Classes etc.	O

More than one institution of a type in the village is indicated by the number within brackets against the abbreviation, e.g. P(3), M(4), etc.

Column 7 : Medical

Availability of medical facility within the village is indicated by following codes :

(i)	Allopathic Hospital	H
	Ayurvedic Hospital	HA
	Unani Hospital	HU
	Homeopathic Hospital	H Hom
(ii)	Allopathic Dispensary	D
	Ayurvedic Dispensary	DA
	Unani Dispensary	DU
	Homeopathic Dispensary	D Hom
(iii)	Maternity & Child Welfare	MCW
(iv)	Maternity Home	MH
(v)	Child Welfare Centre	CWC
(vi)	Health Centre	HC
(vii)	Primary Health Centre	PHC
(viii)	Primary Health Sub-Centre	PHS
(ix)	Family Welfare Centre	FWC
(x)	T.B. Clinic	TB
(xi)	Nursing Home	NH
(xii)	Registered Private Medical Practitioner	RMP
(xiii)	Subsidised Medical Practitioner	SMP
(xiv)	Community Health Worker	CHW
(xv)	Others	O

More than one institution of a type in the village is indicated by the number within brackets against the abbreviations, e.g. H(3), D(4), etc.

Column 8 : Drinking Water

The type of the drinking water supply sources available within the village are indicated by codes as follows :

(i)	Tap Water	T
(ii)	Well Water	W
(iii)	Tank Water	TK
(iv)	Tubewell Water	TW
(v)	Handpump	HP
(vi)	River Water	R
(vii)	Canal	C
(viii)	Lake	L
(ix)	Spring	S
(x)	Others	O
(xi)	Summer Source	SS

Column 9 : Post, Telegraph and Telephone

It is indicated by codes as shown below whether within the village exists the following amenities:

(i)	Post Office	PO
(ii)	Telegraph Office	TO
(iii)	Post & Telegraph Office	PTO
(iv)	Telephone Connection	PH

Column 10: Commercial and Co-operative Banks

If the village is served by any banking service, commercial bank, co-operative bank etc. the same is indicated in codes mentioned below along with the number of banks in brackets. If not available the distance of nearest place where the facility exist is given:

(i)	Commercial Bank	CM
(ii)	Co-operative Bank	CP

Column 11: Credit Societies

If the village enjoys the services of Credit Societies i.e. Agricultural Credit Societies, Non Agricultural Credit Society or Other Credit Societies, the same is indicated in codes mentioned below along with the number of such societies in brackets. In case the facility is not available within the village the distance of the nearest place where such facility exist is given :

(i)	Agricultural Credit Society	ACS
(ii)	Non-Agricultural Credit Society	NCS
(iii)	Other Credit Society	OCS

Column 12 : Recreational and cultural facilities

If facilities such as Cinema/Video hall, Sports Club, Stadium/Auditorium is available in the village, the same is recorded in these columns. If not available the particulars of the nearest place with the facility is recorded. The information is indicated in codes mentioned below along with the number of such facilities in brackets:

(i)	Cinema/Video Hall	CV
(ii)	Sports Club	SP
(iii)	Stadium/Auditorium	ST

Column 13 : Communications

If the village is served by any mode of public/ private transport like Bus, Railway station or Navigable water ways they are to be mentioned as follows :

(i)	Bus	BS
(ii)	Railway Station	RS
(iii)	Navigable Waterway	NW

Column 14 : Approach to village

Approach to village refers to the state of road leading to village. The approach to the village is indicated in following codes :

(i)	Paved Road	PR
(ii)	Mud road	MR
(iii)	Foot path	FP
(iv)	Navigable River	NR
(v)	Navigable Canal	NC
(vi)	Navigable waterways other than River, Canal	NW

Column 15 : Nearest Town and distance

The distance is given in kilometers in brackets against the name of the town nearest to the village.

Column 16 : Power supply

Availability of Power Supply in the village, whatever may be the form of its use is given by using following codes :

(i)	Electricity for domestic use	ED
(ii)	Electricity for agricultural use	EAG
(iii)	Electricity for other purposes	EO
(iv)	Electricity for all purposes	EA

Column 17 : News Paper/Magazine

If village receives any News Paper/Magazines the same is noted in this column using following codes :

(i)	News Paper	N
(ii)	Magazine	M

Column 18 : Most important commodities manufactured

The name of three most important commodities manufactured in the village is recorded against this column.

Column 19 to 23 : Land use i.e. area under different types of land use

Land use data maintained by the State/U.T. Govts. are furnished against these columns. The data concerning area under Forest, Irrigated land (by source), Un-irrigated land, Culturable waste and Area not available for cultivation in the village are shown against these columns. The codes used for different types of irrigation facilities available in the village are indicated below :

(i)	Government Canal	GC
(ii)	Private Canal	PC
(iii)	Well (without electricity)	W
(iv)	Well (with electricity)	WE
(v)	Tubewell (without electricity)	TW
(vi)	Tubewell (with electricity)	TWE
(vii)	Tank	TK
(viii)	River	R
(ix)	Lake	L
(x)	Waterfall	WF
(xi)	Others	O
(xii)	Total	T

The village directory also include the following appendices.

Appendix-I	It gives the abstract of educational, medical and other amenities available in villages C D block wise of the district.
Appendix-I-A	Indicates number of villages C D block wise having one or more primary schools.
Appendix-I-B	Indicates number of villages C D block wise having primary, middle and secondary schools.
Appendix-I-C	Shows number of villages C D block wise with different sources of drinking water facilities.

Appendix-II Indicates the list of villages with 5,000 and above population which do not have one or more important amenities.

Appendix-II-A Indicates list of Census Towns which do not have one or more amenities.

Appendix-III It gives the land utilization data in respect of Census Towns/non-municipal Towns.

Appendix-IV C D block wise list of inhabited villages where no amenity other than drinking water facility is available.

Appendix-V Summary showing number of villages not having Scheduled Castes population.

Appendix-VI Summary showing number of villages not having Scheduled Tribes population.

Appendix-VII A, VII B

The appendix shows the list of villages according to proportion of the Scheduled Castes and Scheduled Tribes to the total population by ranges.

Appendix-VIII indicates CD Blockwise number of villages under each gram panchayat.

Appendix-IX shows number of different types of girls school in a village.

Section II - Town Directory

(i) Note explaining the abbreviations used in the Town directory

Town Directory statements (I to VII)

Statement I : Status and Growth History

Column (2) : Class, name and civic adminis-tration status of town

Class has been introduced to facilitate analysis of town directory data at the state and all India levels. It is presented according to 2001 Census Population of the town as follows :

Population	Class
100,000 and above	I
50,000 - 99,999	II
20,000 - 49,999	III
10,000 - 19,999	IV
5,000 - 9,999	V
Below 5,000	VI

Town with a population of one hundred thousand (1,00,000)and above is treated as a city.

The civic administration status of the towns is indicated within bracket against the name of the town. The following abbreviations are used to denote civic status of town.

(i)	Municipal Corporation	M. Corp.
(ii)	Municipal Committee	MC
(iii)	Municipal Council	M Cl
(iv)	City Municipal Council	CMC
(v)	Town Municipal Council	TMC
(vi)	Municipal Board	MB
(vii)	Municipality	M
(viii)	Cantonment Board/Cantonment	CB
(ix)	Notified Area	NA
(x)	Notified Town	NT
(xi)	Notified Area Committee/ Notified Area Council	NAC
(xii)	Notified Town Area	NTA
(xiii)	Industrial Notified Area	INA
(xiv)	Industrial Township	ITS
(xv)	Township	TS
(xvi)	Town Panchayat	TP
(xvii)	Nagar Panchayat	NP
(xviii)	Town Committee/Town Area Committee	TC
(xix)	Small Town Committee	ST
(xx)	Estate office	EO
(xxi)	Gram Panchayat	GP
(xxii)	Census Town	CT

Others columns need no comments.

Statement II : Physical Aspects and Location of towns, 1999.

Column 3 to 5 : Physical Aspects

In this columns the Rainfall and Maximum and Minimum Temperature of the town is recorded.

Column 6, 7 and 8 :

Name of the State headquarters, District headquarters and Sub-Divisional headquarters with distance from the referent town in kilometers, is recorded respectively. If the names mentioned in these columns are the same as the referent town itself, the distance is recorded as (0) zero.

Column 9 & 10 :

Name of the nearest city with one lakh and more and five lakh and more population are recorded.

Column 11, 12 and 13 :

If referent town enjoys the facility of railway station, bus route facility or navigable river/canal. Its name is mentioned. If not available, then the name of nearest place with distance, where such facility exists is mentioned.

Statement III : Municipal Finance 1998–1999

Item-wise amount of receipt and expenditure in thousand rupees, relating to municipal finance of the town for the year 1998-99 is recorded.

Statement IV : Civic and Other amenities, 1999

Column (1 to 5) : Self explanatory.

Column (6) : Road length (in kms.)

Information about kutcha/pucca road is recorded separately for the roads within the limits of the referent town.

(i)	Pucca Road	PR
(ii)	Kutcha Road	KR

Column (7) : System of Sewerage

Generally, by sewerage system is implied the network of mains and branches of underground conduits for the conveyance of sewerage to the point of disposal. Sewers that carry only household and industrial wastes are called separate sewers, those that carry storm water from roofs, streets and other surface are known as storm water drains, while those carrying both sewage and storm water are called combined sewers.

The codes used for different types of drainage system are as follows :

(i)	Sewer	S
(ii)	Open Surface Drains	OSD
(iii)	Box Surface Drains	BSD
(iv)	Sylk Drains	SD
(v)	Cesspool method	CP
(vi)	Pit System	Pt
(vii)	Others	O

Column 8 to 11 : Number of latrines

Number of various types of latrines both Public and Private are given in these columns.

Column 12 : Method of disposal of night soil

The various prevalent method of disposal of night soil are given below with codes :

Head Loads	HL
Basket	B
Wheel Barrows	WB
Septic Tank	ST
Pit System	Pt
Sewerage	S
Others	O

Column 13 and 14 : Water supply

Source and capacity of storage system. The following codes are used in these columns:

Column 13 :

(i)	Tap water	T
(ii)	Tube-well water	TW
(iii)	Tank Water	TK
(iv)	Well water	W

Column 14 :

(v)	Over Head Tank	OHT
(vi)	Service Reservoir	SR
(vii)	River Infiltration Gallery	RIG
(viii)	Bore Well Pumping System	BWP
(ix)	Pressure Tank	PT

The information on major source of water supply are given in column 13 and the storage capacity against each in kilo-litres (in bracket) are presented in column 14.

Column 15 : Fire Fighting Service

In case the fire fighting service is available in the referent town 'yes' is recorded. If the facility is not available within the town. The name of the nearest place having this facility with its distance from the referent town has been recorded.

Column 16 to 20 : Electrification (Number of connections)

Different types of electric connections have been shown in these columns, i.e. Domestic, Industrial, Commercial, Road lighting (points) & others.

Statement V : Medical, Educational, Recreational and Cultural Facilities, 1999

Column 1 to 3 : Self explanatory.

Column 4 & 5 :

The data covers all such medical institutions run by or aided by Government/Semi Government/Local bodies and Charitable institutions or Social agencies like the Missionaries. Where the family planning centres are attached to hospitals or maternity and child welfare centres or Primary Health Centres, which are treated as independent units and counted separately using following codes :

(i)	Hospital	H
(ii)	Dispensary	D
(iii)	Health Centre	HC
(iv)	Family Welfare Centre	FWC
(v)	T.B. Clinic	TB
(vi)	Nursing Home	NH
(vii)	Others	O

In case of more than one institutions of any type, it is indicated within brackets the number of such institution (s) e.g. D(3), NH(8), etc. The institutions have further been distinguished by providing additional codes within the bracket as given below :

Ayurvedic	A
Unani	U
Homoeopathic	Hom

Column 6 to 9 :

The codes used for these columns are as follows :

(i)	Arts only	A
(ii)	Science only	S
(iii)	Commerce only	C
(iv)	Arts & Science only	AS
(v)	Arts & Commerce only	AC
(vi)	Combined for all categories - Arts, Science and Commerce	ASC
(vii)	Law	L

Column 10 : Recognized shorthand, typewriting and vocational training institutes

"Recognised" should mean recognised by some statutory authority, like education department, commerce department, labour department etc. of the government or semi government or autonomous bodies, public sector undertakings etc.

The following codes are used :

(i)	Shorthand	SH
(ii)	Typewriting	Type
(iii)	Shorthand & Typewriting	SH Type
(iv)	Others	O

The vocational institutions like - Applied Art/ Painting college, Pharmacy college, B. Ed. College, Teacher's Training Institute, Music/Dance School, Nursing School etc. are covered under 'Others'.

Column 11 to 14 :

Higher Secondary/Intermediate/Senior Secondary/PUC/Junior College level, Secondary/ Matriculation, Middle Schools/ Junior Secondary and Primary Schools.

School up to class V are treated as Primary or elementary schools. These include Nursery schools, Kindergarten schools, Pre-Primary schools, Junior Basic schools upto class V and Primary schools upto class IV.

Schools upto VIII are considered as Middle school or Junior Secondary.

Schools upto class X are considered as Matriculation or Secondary schools.

Schools upto XI or XII classes are considered as Higher Secondary/Intermediate/Pre University /Junior College etc. This would cover 10+2 classes whether held in schools or college.

If there are composite schools like middle schools with primary classes or Secondary schools with Middle classes, these are also included in the number of Primary and Middle schools, respectively. For example, if in a town, there are two Primary Schools and one Middle school with Primary classes, the number of Primary schools in the town is given as three and that of Middle schools as one though there are only three educational institutions.

If there are more institutions of a type in the town, the number is indicated within bracket along with the abbreviation, e.g. P(4), M(3).

Column 15 : Adult literacy class/centres

This column has been introduced keeping in view the Minimum Needs Programme of the Planning Commission. There are number of Adult Education Centres which are included in these columns.

If an educational facility is not available in the town, the name of the nearest place and its distance in kilometres from the town where the facility is available is mentioned.

Column 16 : Working Women's hostels with number of seats

The number of working women's hostel if available in the referent town is mentioned with number of seats. If the facility is not available in the town the name of nearest place with distance where the facility is available is recorded.

Column 17 to 19 : Recreational and Cultural Facilities

Stadium, Cinema, Auditorium/Drama/Community Hall are covered under recreational & cultural facilities. The particulars of permanent recreational facilities are considered for these columns.

Column 20 : Public Libraries, Reading Rooms

Number of public libraries and reading rooms available in the referent town are recorded in codes as follows :

(i)	Public Library	PL
(ii)	Reading room	RR

Statement VI : Trade, Commerce, Industry and Banking, 1999

Column 3 to 8 :

Name of three most important commodities exported and names of three most important commodities manufactured in the town are recorded.

Column 9 : Number of Banks

Number of Banks available in the referent town both Commercial and Co-operative banks are recorded against this column.

Column 10 & 11 : Number of Agricultural Credit Societies and Non Agricultural Credit Societies

The total number of Agricultural Credit Societies and Non Agricultural Credit Societies in the referent town are recorded against these columns.

Statement VII : Civic and other Amenities in Slums, 1999

This is the statement on civic and other amenities in all slums whether notified or not and for all towns having statutory bodies, like municipality, Municipal Corporation, Town area committee etc.

Part - B
PRIMARY CENSUS ABSTRACT

Brief note on Primary Census Abstract

The first census of the third millennium and twenty first century the Census of India, 2001 was the 14th continuous and uninterrupted Indian census since 1872. Thus, 2001 Census will provide data on population and its characteristics marking transition from one century and millennium to another.

The gigantic operation of Population Enumeration (considered by many to be the single largest and complex peace time administrative exercise in the world) was made possible due to the door to door universal canvassing of the Household Schedule by about 2 million enumerators and supervisors covering 593 districts, 5,463 sub-districts, 5161 towns and 638,588 villages. The comprehensive Household Schedule which replaced the individual slip had three parts and two sides A and B. Part I contained the Location Particulars; Part II related to the Individual Particulars and Part III contained questions for Household engaged in Cultivation/Plantation**.** The part II of the Household Schedule had 39 columns and 23 questions all of which were universally canvassed and no sampling was resorted to during enumeration.

Data Processing

A quantum leap was made in the technology front while processing the Census 2001 data both for Houselisting and Population Enumeration. The Schedules for both the phases were scanned through high speed scanners in fifteen data centres across the country and hand-written data from the schedules were converted into digitized form through Intelligent Character Reading (ICR) software for creation of ASCII records for further processing. The designing and formatting of the Household Schedule had to be done very carefully using specialized software so as to ensure uniformity, which was an essential pre-requisite for scanning. The selection of appropriate state-of-art technology in data processing has made it possible to produce all the Houselisting as well as Population Enumeration tables on full count basis for the first time in the history of Census. For Census 2001, about 202 million schedules consisting of about 1028 million records were scanned and processed within a span of only 10 months starting October, 2002.

Task Force on Quality Assurance

After the data is processed, it is expedient on the part of the data producing agency to satisfy itself about its quality before putting the same in public domain. This has to be done mainly through the process of internal consistency, comparison with similar data in the past and also through validation with likewise data if available, from external sources. Quite often the local knowledge and perception has to be brought into play to understand both the existing and the new emerging trends of population distribution and characteristics. The other very important aspect of the data quality is to ensure complete coverage of all geographical areas especially for the population enumeration phase where the data is disseminated right up to the village level in the rural areas and the ward level in the urban areas. Thus ensuring the complete coverage and correct geographical linkage of each enumeration block was one of the major planks of the quality control, specially for small area population statistics.

A very comprehensive check and edit mechanism was put in place to objectively examine the preliminary Census 2001 Population Enumeration results and finally clear them for use. The responsibility of the final clearance of data was with the Task Force on Quality Assurance (TFQA), headed by the Registrar General and Census Commissioner, India. The other members of the TFQA were the Heads and senior officers of the Census Division, Data Processing Division, Map Division, Demography Division and Social Studies Division. The Directors of Census Operations were co-opted as members whenever the TFQA discussed the data for their States/Union territories. The Directors and their senior officers were required to make detailed

presentations of data for their own state both in respect to the quality and the coverage and only after the full possible satisfaction of the TFQA, the population data was cleared.

There has been a major departure in Census 2001 from the past in respect of the procedure followed for finalization of the Scheduled Castes and the Scheduled Tribes population. In the earlier censuses, the total Scheduled Castes and Scheduled Tribes population were finalized at the time of the manual compilation of the Primary Census Abstracts (PCA) at the Regional Tabulation Offices which were specially set up for this purpose. The individual Scheduled Castes and the Scheduled Tribes population for each state was finalized much later based on manual coding done by the coders. In 2001 Census, each individual Scheduled Caste and the Scheduled Tribe have been coded directly on the computers by the Data Entry Operators through a process known as Computer Assisted Coding (CAC) and taken up along with the processing of PCA data. The CAC process involves pulling down, from the relevant dictionary of the Scheduled Castes and the Scheduled Tribes, on the computer screen and coding from the dictionary by referring to the image of the specific individual entry in the Household Schedule appearing on the screen. The CAC of the response on Religion wherever required, was also undertaken along with the processing of PCA. This is because the Scheduled Castes status had to be determined in relation to the religion of the individual. Two Special Task Forces, one on Religion and the other on Scheduled Castes/Scheduled Tribes were constituted for scrutiny and appropriate classification of these responses.

The main task of the Special Task Force on Religion was to appropriately merge or group the new responses encountered and code it into the appropriate religious community based on available literature and local knowledge. The Special Task Force on Scheduled Castes and Scheduled Tribes examined the different Scheduled Castes and Scheduled Tribes entries encountered and classified these into appropriate category of the Scheduled Castes or the Scheduled Tribes principally based on the Presidential Notification and the available literature. Thus a very systematic and scientific mechanism was operationalised to firm up the individual religion and the individual Scheduled Castes/Tribes returns. The Scheduled Castes and the Scheduled Tribes population in 2001 Census, is thus being finalized by aggregating the population data for individual Scheduled Castes and the Scheduled Tribes at appropriate geographical levels.

The entire work relating to the data validation and scrutiny was completed by all the States/Union territories under the overall supervision and monitoring of the Census Division of the Office of the Registrar General, India with active cooperation and support of the Social Studies Division, Data Processing Division, Data Dissemination Division and Map Division.

Primary Census Abstract

The Primary Census Abstract which is yet another important publication of 2001 census gives basic information on Area, Total Households, Total Population, Scheduled Castes, Scheduled Tribes Population, Population in the age group 0-6, Literates, Main workers and Marginal workers classified by the four broad industrial categories, namely, (i) Cultivators, (ii) Agricultural laborers, (iii) Household Industry Workers, and (iv) Other Workers and also Non-workers. The characteristics of the Total Population includes Scheduled Castes, Scheduled Tribes, Institutional and Houseless population and are presented by sex and rural-urban residence. This data is presented at different levels, namely, India, States/ Union territories, Districts and Cities, Urban Agglomerations (Population 1,00,000 and above) in three different tables. In addition, the Appendix of said publication provides Houseless and Institutional Households and their population by residence and sex for 2001 for India, State and Union territory.

It was for the first time at the 1981 Census that the Primary Census Abstract (PCA) was brought out for the Scheduled Castes and the Scheduled Tribes separately on the pattern of General Primary Census Abstract. This practice was continued in 1991 also.

In the 1961 and 1971 Censuses, such data were made available in Table C-VIII-Social and Cultural table and to some extent in the series 'Special Tables for Scheduled Castes/Scheduled Tribes'.

The format of Primary Census Abstract has been restructured slightly in the 2001 Census as compared to that of 1991 Census. The nine-fold industrial classification of main workers given in the Primary Census Abstract of 1991 Census has been discontinued and in its place, four-fold industrial classification of both 'main workers' and 'marginal workers' are included. In 1981 census only main workers were presented in to four categories. One of the novel features of the primary census abstract of 1991 census was the presentation of data of the population of age group 0-6 is continued in 2001 Census also. This will help the data users in better analysis of literacy data.

The data in the Primary Census Abstracts are presented at different levels, The District Primary Census Abstract is presented at District/ C D block/ UA/City/Town, Primary Census Abstract for Scheduled Castes and Primary Census Abstract for Scheduled Tribes are presented at District/C D block/ Town, Village Primary Census Abstract is presented villagewise for each C D block and Urban Primary Census Abstract at Town/Ward***** level. The Primary Census Abstract data for each of these characteristics is presented by sex and rural-urban residence.

The District Primary Census Abstract has been presented in 59 columns, Primary Census Abstract for Scheduled Castes and Primary Census Abstract for Scheduled Tribes has been presented in 52 columns, Village Primary Census Abstract and Urban Primary Census Abstract has been presented in 58 columns. The information on each village under a C D block are presented in the Village Primary Census Abstract and each of the wards under a town has been provided in the Urban Primary Census Abstract exist in the district. The Data was presented for villages C D block-wise for the first time in 1991 Census. This practice is continued in 2001 Census also.

The concepts and definitions used in the column heading are already explained under the sub heading 'Census concepts' in the Analytical note. The Total population includes Scheduled Castes, Scheduled Tribes, Institutional and Houseless populations. The explanation regarding area figures presented at various level in the Primary Census Abstracts is as follows:

Area Figures

The area figures supplied by local revenue authorities of the district in respect of tahasils, P.Ss and by the local bodies in respect of towns are given in sq.kms. The area figures of the villages supplied by the Tahasildars in acres have been converted and shown in hectares. The area figures of the C D block is the total of the village areas coming under each C D block. The area figures for the district supplied by the Surveyor General of India have been adopted to maintain uniformity at the national level. The total area figures of all the Tahsils/C D blocks within the district may not tally with area figures of the district because former represents land use area only. Similarly, the total of all the villages may not tally with the entire rural of P.S./Tahsil. The difference may be due to the fact that while the area covered by hills, forests and rivers etc, have been accounted in the Tahsils and P.S. level the same may not be covered under the area of the villages. Apart from this it may also differ due to varying methods of computation adopted at different levels.

An appendix to District Primary Census Abstract has also been furnished showing urban enumeration block-wise particulars on total population, Scheduled Castes population and Scheduled Tribes population for each town.

ANNEXURE II

FERTILITY AND MORTALITY MEASURES

FERTILITY LEVELES

In demography, the word fertility is used in relation to the actual production of children or "occurrence of births specially live birth". Fertility is a measure of rate at which population adds to itself by births and normally assessed by relating number of births to size of some section of the population, such as number of married couples or number of women of child bearing age.

In other words, it is a major component of population growth. In 1991 Census, questions on fertility related to age at marriage, number of surviving children at present, number of children ever born alive and children born alive during the last one year were asked. The first three questions were asked to all ever-married women and the last question related to currently married women. In 2001 census these questions were included and the data on these aspects are not readily available.

SELECTED INDICATORS ON FEMALE NUPTIALITY, 1991

State / District	Total / Rural / Urban	Mean age at marriage of currently married women Who married during			Percentage of currently marriage women with age at marriage below 18 Who married during		
		Total	1981-86	1986-91	Total	1981-86	1986-91
Tamil Nadu	T	19.1	19.3	19.7	31.6	28.2	24.5
	R	19.0	19.1	19.3	32.2	30.2	27.8
	U	19.3	19.7	20.3	30.4	24.4	18.6
Thanjavur	T	19.1	19.4	19.6	31.2	26.4	24.4
	R	19.1	19.3	19.4	31.1	26.9	25.6
	U	19.2	19.7	20.1	31.7	24.6	21.0

The above table reveals the female nuptiality level in 1991 census. Mean age at marriage of currently married women was stated as 19.3 years during 1981-86 which increased to 19.7 years in 1986-1996 in Tamil Nadu as a whole. Similarly both in rural and urban areas also age at marriage found increased during 1986-1991. Likewise, in Thanjavur district the same trend was found. Marriage below the age 18 years was lesser during 1986-1991 than that of 1981-86.

CHILD MORTALITY LEVELS

The estimates presented here have been obtained using the data on the number of children ever born and number of children surviving to ever-married women. Information on questions on children ever born and children surviving canvassed for all ever-married women have been tabulated by age of the mother. From this, estimates of child mortality (qi) have been worked out using Brass technique, where q (i) is the probability of a new born child dying before age (i) = 1, 2, 3 and 5.

It is observed from the table given below that the child mortality estimates in the district and the state had decreased in 1991 when compared to 1981.

ESTIMATES OF CHILD MORTALITY INDICATORS BY SEX

State / District		Tamil Nadu		Thanjavur	
Year		1991	1981	1991	1981
Persons	q(1)	54	104	40	102
	q(2)	58	103	50	95
	q(3)	61	114	52	100
	q(5)	67	132	54	122
Males	q(1)	55	114	38	114
	q(2)	57	110	52	104
	q(3)	61	116	53	105
	q(5)	64	134	57	128
Females	q(1)	51	93	41	89
	q(2)	60	96	46	86
	q(3)	62	111	47	95
	q(5)	70	131	52	115

ANNEXURE III

VARIOUS MEASURES OF FERTILITY AND MEAN AGE AT MARRIAGE

The measures of fertility worked out are based on the F - series tables of 1991 Census pertaining to Tamil Nadu and the Thanjavur district the details are given below:-

ESTIMATES OF FERTILITY INDICATORS

State / District	Year	CBR	TFR	TMFR	GFR	GMFR
Tamil Nadu	1981	32.0	3.9	5.5	123	169
	1991	26.4	3.1	4.8	99	136
Thanjavur	1981	30.3	3.7	5.2	115	158
	1991	25.9	3.0	4.8	95	133

The values of CBR, TFR, TMFR, GFR and GMFR are presented separately for Tamil Nadu and Thanjavur District in the above table. These values can be compared for 1981 and 1991 Censuses. The table shows that in Thanjavur District, all the above mentioned rates except TMFR have declined. On comparing the district level data with the State level data in the above table, it is observed that in 1991 the district level for CBR, TFR and GFR are lower than the State level but in case of TMFR and GMFR the State level values are higher than district level.

Different fertility measures indicate that mostly all the fertility levels in the district were lower compared to the state average during 1991. This was duly supported by the higher age at marriage of females in the district, compared to the state as is evident from the table given below. The table presents the female age at marriage relates to all women who were living with their husbands. Some of them might have recently married and some of them decades ago. In view of this, the figures mentioned in the table should be regarded as indicating the situation for the population as a whole.

IMPORTANT INDICES OF FERTILITY - 1991

Fertility Indices	Thanjavur District			Tamil Nadu		
	Total	Rural	Urban	Total	Rural	Urban
Number of children ever born per ever married women in age group 45 - 49	3.4	3.4	3.6	3.4	3.4	3.6
Child - women ratio (0-4 years)	347	360	305	348	369	311
Child - women ratio (5-9 years)	428	437	398	447	462	418

One of the most useful indices that can be derived from the question on numbers of children born alive in the average number of children ever born alive per ever married women by age - group. Since most of the women complete their reproduction by the age - group 45 - 49, the average number of children ever born per ever-married women in the age - group 45 - 49 is termed as an index of completed level of fertility. Ever married include widows, divorced and separated women.

In the above table, average number of children born per ever-married women in the age group 45 - 49 in 1991 has been presented for total, rural and urban areas for Thanjavur District and Tamil Nadu. It is observed from the above table that the number of children ever born per evermarried women in rural and urban areas of Thanjavur District is same.

Child - women ratio, a relative measure, is calculated to know the fertility performance of women. It is seen from the above table that child - women ratio for both 0-4 years and 5-9 years in rural areas was higher than urban areas of the Thanjavur District and Tamil Nadu.

ANNEXURE IV

MIGRATION

Migration is the third component of population change, the other two being mortality and fertility. A person is considered as a migrant by place of birth if the place in which he is enumerated during the Census is other than the place of his birth. Similarly, a person is considered as a migrant by place of last residence if the place in which he is enumerated during the Census is other than his place of immediate last residence.

INTERNAL AND INTERNATIONAL MIGRATION

The migrational movements are of three types; (i) Migration within the state itself with its components: (a) Migration within the district of enumeration (intra district migration), (b) Migration from one district of state to another district of state (interdistrict migration), (ii) Migration from one state to another state of the country (interstate migration) and (iii) Migration from one country to another country. The first two streams together constitute internal migration, while the last type of movement is called international migration.

REASONS OF MIGRATION

As in 1991 Census, the reasons for migration were elicited in 2001 Census also. The reasons for migration were broadly categorized as (i) Employment / work, (ii) Business, (iii) Education, (iv) Marriage, (v) Moved after birth, (vi) Moved with household and (vii) Any other reason. Reasons for migration has been elicited only with reference to movement from place of last residence.

IMPACT OF MIGRATION

Growth of population of a particular place depends upon natural increase due to excess of births over deaths and migration. Knowledge of trends in migration helps in future planning of a region.

PERCENTAGE DISTRIBUTION OF MIGRANTS BY PLACE OF BIRTH

Place of Birth	2001Census			1991Census		
	Persons	Males	Females	Persons	Males	Females
Total Population	**2,316,138**	**1,096,638**	**1,119,500**	**4,531,457**	**2,273,597**	**2,257,860**
1. Born in India	2,211,578	1,094,451	1,117,127	4,505,239	2,262,131	2,243,108
	(100.0)	(100.0)	(100.0)	(99.4)	(99.5)	(99.3)
2. Within the state of enumeration	2,207,214	1,092,592	1,114,622	4,476,029	2,252,151	2,223,878
	(100.0)	(100.0)	(100.0)	(99.4)	(99.6)	(99.1)
(i)Born in the place of enumeration	1,799,165	940,784	858,381	3,139,463	1,849,659	1,289,804
	(82.0)	(86.0)	(77.0)	(70.1)	(82.1)	(58.0)
(ii) Born elsewhere in the district of enumeration	302,900	112,867	190,033	1,092,287	311,257	781,030
	(14.0)	(10.0)	(17.0)	(24.4)	(13.8)	(35.1)
(iii)Born in other districts of the state	105,149	38,941	66,208	244,279	91,235	153,044
	(5.0)	(4.0)	(6.0)	(5.5)	(4.1)	(6.9)
3. States in India beyond the state of enumeration	4,364	1,859	2,505	29,210	9,980	19,230
	(0.0)	(0.0)	(0.0)	(0.6)	(0.4)	(0.9)
4. Born Abroad	4,560	2,187	2,373	22,020	10,266	11,754
	(0.1)	(0.0)	(0.1)	(0.5)	(0.5)	(0.5)
5. Unclassifiable	0	0	0	4,198	1,200	2,998
	(0.0)	(0.0)	(0.0)	(0.1)	(0.1)	(0.1)

Note: Percentages are given in paranthesis

Migrants from other state, district, abroad and also born at the place of enumeration both during 1991 census and 2001 has been compared in the above table. Female migrants are more than the males from other district and state to Thanjavur district are considerably higher than the males. Migrants from abroad is very less.

PERCENTAGE DISTRIBUTION OF MIGRANTS BY PLACE OF LAST RESIDENCE

Place of last Residence	2001Census			1991Census		
	Persons	Males	Females	Persons	Males	Females
Total	**444,580**	**168,500**	**276,080**	**1,397,324**	**425,658**	**971,666**
1. Last residence elsewhere in India	440,227	166,329	273,898	1,371,676	414,072	957,604
	(99.0)	(98.7)	(99.2)	(98.2)	(97.3)	(98.6)
2. Last residence within the state of enumeration	435,999	164,481	271,518	1,343,816	404,372	939,444
but outside the place of enumeration	(99.0)	(98.9)	(99.1)	(98.0)	(97.7)	(98.1)
(i) Elsewhere in the district of enumeration	335,398	127,358	208,040	1,109,307	316,657	792,650
	(76.9)	(77.4)	(76.6)	(82.5)	(78.3)	(84.4)
(ii) In other districts of the state of enumeration	100,601	37,123	63,478	234,509	87,715	146,794
	(23.1)	(22.6)	(23.4)	(17.5)	(21.7)	(15.6)
3. Last residence in other States in India beyond	4,228	1,848	2,380	27,860	9,700	18,160
the State of enumeration	(1.0)	(1.1)	(0.9)	(2.0)	(2.3)	(1.9)
4. Last residence outside India	4,353	2,171	2,182	21,510	10,396	11,114
	(1.0)	(1.3)	(0.8)	(1.5)	(2.4)	(1.1)
5. Unclassified	0	0	0	4,138	1,190	2,948
	(0.0)	(0.0)	(0.0)	(0.3)	(0.3)	(0.3)

Note: Percentages are given in paranthesis

The above table gives the distribution of migrants by place of last residence, i.e., people migrated from other place of enumeration. Migrants resided in other state of India has been recorded as 1.0% while outside India is 1.0%.

The interstate migration to Thanjavur district during 2001 and 1991 reveal that there were not many migrants from other States during 2001 census but returned high during 1991 census as the district was a combine district along with Thiruvarur and Nagapattinam.

INTER STATE MIGRANTS TO THANJAVUR DISTRICT

Serial Number	State	2001 Census		1991 Census	
		Migrants	Percentage to total migrants	Migrants	Percentage to total migrants
1	Maharashtra	296	6.8	1,060	3.6
2	Andhra Pradesh	349	8.0	1,400	4.8
3	Karnataka	336	7.7	3,490	12.0
4	Kerala	1,007	23.1	1,040	3.6
5	Pondicherry	1,679	38.5	18,350	62.8
	Total for five States	3,667	84.0	25,340	86.8
	Other States	697	16.0	3,870	13.3
	Total	**4,364**	**100.0**	**29,210**	**100.0**

Migrants from other states to Thanjavur district has been given in the above table. Migrants from Pondicherry reported very high (38.5%). The lowest being from Karnataka with 7.7%.

RURAL AND URBAN COMPONENT OF MIGRATION

The migration consists of four streams, viz., rural to rural, rural to urban, urban to rural and urban to urban. The data on the basis of these streams in case of migrants classified by place of birth is given below.

	Thanjavur - 1991			Thanjavur - 2001		
	Place of Enumeration			Place of Enumeration		
	Total	Rural	Urban	Total	Rural	Urban
Total Internal Migrants within the State						
Total	1,336,566	1,000,688	335,878	408,049	234,851	158,531
	(73.5)	(74.9)	(25.1)	(100.0)	(57.6)	(38.9)
Rural	982,204	791,072	191,132	N. A	N. A	N. A
	(73.5)	(59.2)	(14.3)			
Urban	351,132	207,006	144,126	N. A	N. A	N. A
	(26.3)	(15.5)	(10.8)			
In other states of India						
Total	29,210	16,410	12,800	4,364	1,859	2,505
	(100.0)	(56.2)	(43.8)	(100.0)	(42.6)	(57.4)
Rural	10,920	7,200	3,720	N. A	N. A	N. A
	(37.4)	(24.6)	(12.7)			
Urban	18,080	9,130	8,950	N. A	N. A	N. A
	(61.9)	(31.3)	(30.6)			

The rural-urban migration has four components; rural to rural, rural to urban, uban to rural and urban to urban. The data on the basis of these streams in case of migrants by place of birth in 2001 and 1991 censuses has been presented in the above table. It is seen that migration in rural area is 57.6% within the state and 42.6% from other state, whereas at urban area migration from other state is higher (57.4%) while within the state is 38.9%.

ANNEXURE V

BRIEF ACCOUNT OF MAIN RELIGIONS IN THE DISTRICT

Every Census have attempted to provide an interesing picture of the religious persuasions and beliefs of the people of the country. The following table shows the main religions professed by the population in rural and urban areas, both in 1991 and 2001 census, in Thanjavur district.

THE MAIN RELIGIOUS COMMUNITIES IN THE DISTRICT

Serial Number	Religion	2001 Census			1991 Census		
		Total	Rural	Urban	Total	Rural	Urban
1	Hindus	1,925,677	1,315,066	610,611	1,763,168	1,304,480	458,688
2	Muslims	163,286	74,577	88,709	148,316	85,205	63,111
3	Christians	124,945	76,776	48,169	112,780	82,607	30,173
4	Sikhs	38	18	20	46	7	39
5	Buddhists	28	13	15	221	8	213
6	Jains	657	43	614	363	12	351
7	Others	201	104	97	245	133	112

		1991	112,135	100,646	9,543	1,881	0	0	0	6	59

*Note: 1991 data is based on recasting after bifurcation of the district.

Number of persons belonging to major religion in each taluk of the district have been listed in this table. Hindu religion top the list both in 1991 and 2001 censuses, the Jain population increased during 2001 census compared to 1991 census.

ANNEXURE VI

MARITAL STATUS OF POPULATION

Marital status is defined as under:

Never Married: A person who has never been married at any time before.

Married / Currently Married: A person whose marriage is subsisting with spouse living. It may be the first or subsequent marriage of either of the persons. Persons who are recognized by custom or society as married and persons in stable de facto union are also considered as married.

Widowed: A person whose spouse is dead and who has not been married again.

Divorced or Seperated: A person who has been separated from the spouse and is living apart with no apparent intention of living together again or who has been divorced either by decree of a law of court or byaccepted social religious custom but who has not been re - married.

SEX-WISE PERCENTAGE DISTRIBUTION OF MARITAL STATUS

Census Year	Sex	Never married	Married	Widowed	Divorced / Seperated	Unspecified
2001	M	50.4	47.4	2.0	0.2	0.0
	F	39.5	50.1	9.6	0.8	0.0
1991	M	52.5	45.2	2.1	0.2	0.0
	F	41.1	47.5	10.8	0.7	0.0

From the above table it is seen that out of total population, 50.4% males and 39.5% females were never married in 2001 census. Where as 52.5% and 41.1% males and females respectively never married in 1991 census. In case of married females 50.1% were married in 2001 whereas 47.5% in 1991 census.

ANNEXURE VII

AGE, SEX AND EDUCATION LEVEL

LITERATE

A person aged 7 years and above who can both read and write with understanding in any language is to be taken as literate. A person who can only read but cannot write is not literate. The tables given below gives the selected indicators on literacy and education among the population in Thanjavur District.

LITERACY RATES FOR AGE GROUP BY SEX IN THE DISTRICT

District	Census Year	Sex	Literacy rates for the age-groups					
			7 years and above	10 years and above	15 years and above	10-14	15-59	60 years and above
1	2	3	4	5	6	7	8	9
Thanjavur	2001	M	84.5	84.7	83.2	96.0	85.6	65.6
		F	66.7	65.8	62.2	94.5	67.1	26.1
	1991	M	77.2	76.6	74.1	92.8	76.2	57.2
		F	54.8	52.5	47.3	86.9	50.6	17.1

The above table narrates the literacy rate among various age groups. Literates are high in the age group of 10-14 years among both the sex, whereas male literates were considerably higher than the female among other age groups.

PERCENTAGE OF LITERACY LEVEL IN TOTAL LITERATE

Sl.No.	Literacy Level	2001	1991
	Total Literates	100.0	100.0
1	Literate without level	25.5	NA
2	Below Primary	13.1	24.6
3	Primary	24.8	35.4
4	Middle	16.3	18.5
5	Matric	11.3	18.0
6	Higher secondary	5.1	NA
7	Non-technical diploma and Certified not equal to degree	0.0	NA
8	Technical diploma or Certified not equal to degree	0.6	NA
9	Graduate & above	3.3	3.5
10	Unclassified	0.0	NA

DISTRIBUTION OF LITERATES BY EDUCATIONAL LEVEL

Census Year	Sex	Percentage Literates who are				
		below primary	primary but below middle	middle level below matric	matric but below graduate	graduate and above
1	2	3	4	5	6	7
2001	M	38.6	23.4	15.6	18.4	3.9
	F	38.4	26.6	17.1	15.3	2.5
1991	M	22.3	33.1	19.0	21.0	4.5
	F	27.9	38.6	17.6	13.8	2.1

The above table gives further detailed educational level in Thanjavur district, sex-wise. Matric and graduate and above level is moderate among females while in other levels their educational level has shown increasing level.

ANNEXURE VIII

DISTRIBUTION OF DIFFERENT MOTHER TONGUES RETURNED

The definition of mother tongue is same as in 1991 Census. "Mother Tongue is the language spoken in childhood by the person's mother to the person. If the mother died in infancy, the language mainly spoken in the person's home in childhood will be the mother tongue. In the case of infants and deaf means the language usually spoken by the mother should be recorded".

As per the census concept, each language is a group of mother tongues. The census questionnaire collects information on the mother tongue of each person and mother tongue is defined as the language spoken in childhood by the person's mother to the person. There are 18 languages included in the Eighth Schedule to the Constitution of India (Scheduled Languages).

DISTRIBUTION OF DIFFERENT MOTHER TONGUES RETURNED, 2001 CENSUS

Serial number	Mother Tongue	Census Year	Number of persons who returned the mother tongue as their mother tongue					
			Total	Percentage to total population	Rural	Urban	Proportion	
							Rural	Urban
