SERIES-12 **KARNATAKA**

DISTRICT CENSUS HANDBOOK

Part - A & B

CHITRADURGA DISTRICT

VILLAGE & TOWN DIRECTORY

VILLAGE AND TOWNWISE PRIMARY CENSUS ABSTRACT

Directorate of Census Operations, Karnataka

F O R E W O R D

1. The District Census Handbook (DCHB) published by Census Organisation since 1951 census, is one of the important publications in the context of planning and development at gross-root level. The publication, which is brought out for each district, contains several demographic and socio-economic characteristics village-wise and town-wise of the district alongwith the status of availability of civic amenities, infrastructural facilities, etc.

2. The scope of the DCHB was initially confined to a few Census Tables and Primary Census Abstract (PCA) of each village and town within the district. Thereafter, at successive censuses, its scope and coverage has been enlarged. The DCHB published at the 1961 census provided a descriptive account of the district, administrative statistics, census tables and a village and town directory including PCA. The 1971 census-DCHB series was in three parts: Part-A related to village and town directory, Part-B to village and town PCA and Part-C comprised analytical report, administrative statistics, district census tables and certain analytical tables based on PCA and amenity data in respect of villages. The 1981 census DCHB was in two parts: Part-A contained village and town directory and Part-B the PCA of village and town including the SCs and STs PCA up to taluk/town levels. New features alongwith restructuring of the formats of village and town directory were added into it. In Village Directory, all amenities except electricity were brought together and if any amenity was not available in the referent village, the distance in broad ranges from the nearest place having such an amenity, was given. Information on new items such as adult literacy centres, primary health sub-centres and community health workers in the village were provided so as to meet the requirements of some of the Revised Minimum Needs Programme. Information on approach to the village was provided for the first time in the Village Directory so as to give the details on number of inaccessible villages in each district. In the Town Directory, a statement (IV-A) on slums was introduced to provide the details on civic and other amenities in the notified slums of Class I and Class II towns.

3. The 1991 census DCHB, by and large, followed the pattern of presentation of 1981 census, except the format of PCA was restructured. Nine-fold industrial classification of main workers was given against the four-fold industrial classification presented in the 1981 census. In addition, sex-wise population in 0-6 age group was included in the PCA for the first time with a view to enable the data users to compile more realistic literacy rate as all children below 7 years of age had been treated as illiterate at the time of 1991 census. One of the important innovations in the 1991 census was the Community Development Block (CD block) level presentation of village directory and PCA data instead of the traditional taluk/PS level presentation. It was expected that the presentation of village directory and PCA data at CD block level will help the planners in formulation of micro level development plans, CD block being lowest administrative unit.

4. The present series of 2001 census DCHBs have been made more informative and exhaustive in terms of coverage and content. The Village Directory has been enlarged in scope by including a number of other facilities like banking, recreational and cultural facilities, newspapers and magazines and 'most important commodity' manufactured in village. Income and expenditure of gram panchayat, wherever possible, has been provided. Apart from these, more details on distance(s) at which basic amenities are available (if not available in the village), are given. This includes educational facilities (namely primary and middle schools and college), medical facilities (viz. Allopathic Hospital, Maternity & Child Welfare Centre and Primary Health Centre), drinking water, post & telegraph (post office and phone), communication, bank, credit societies and recreational facilities. In Town Directory, the statement on Slums has been modified and its coverage enlarged by including details on all slums instead of 'notified slums'. The information is given in case of all statutory towns irrespective

of their class, against only Class I and Class II towns in the 1981 and 1991 censuses. The basic amenities available in the villages and towns are analysed in depth with the help of a number of cross-classified inset tables and statements. Two other significant additions in the publication are inclusion of 'motif' highlighting significant characteristic of the district and analytical notes as annexures. The analytical notes on (i) fertility and mortality and (ii) various measures of fertility and mean age at marriage are prepared based on 1991 census. Whereas, in the notes relating to (i) percentage distribution of migrants by place of birth/place of last residence, (ii) main religions, (iii) marital status of population, (iv) age, sex and education, and (v) distribution of spectrum of mother tongue, nature and extent of changes occurred in the district in its basic socio-demographic features during the decade 1991-2001 are analysed. The eight digits permanent location code (PLCN) to all the villages and towns have been assigned keeping in view the future needs.

5. The village and town level amenity data have been collected, compiled and computerized in prescribed record structure under the supervision of Shri.H.Shashidhar, Director of Census Operations, Karnataka. Thereafter, efforts have been made to ensure comparability of the information with that of 1991 census data and the information brought out by the respective state governments in their annual reports and statistical handbooks for various years after 1991. The task of planning, designing and co-ordination of this publication was carried out by Shri R.G. Mitra, Deputy Registrar General (C&T) and Dr. I.C. Agrawal, Senior Research Officer of Social Studies Division, Dr. R.P. Singh, Deputy Registrar General (Map) provided the technical guidance in the preparation of maps. Whereas, Shri Anil Kumar Arora, Deputy Director of Data Processing Division who worked under the overall supervision of Shri Himakar, Addl. Director (EDP) helped in preparation of record structure for computerization of village and town directory data and the programme for the generation of Village Directory and Town Directory statements including analytical inset tables. The draft DCHB manuscripts received from the Census Directorates have been scrutinized in the Social Studies Division under the guidance of Shri S.L. Jain, Deputy Director and Shri R.K. Mehta, Assistant Director. I am thankful to all of them and other who have contributed to make this publication possible.

D.K. Sikri

Motif

Vanivilasa Sagara Reservoir across river Vedavathi in Chitradurga District

The district is drained mainly by the Vedavathi which runs for a length of about 208 kms in the district. The Vedavathi river joins Tungabhadra in Siruguppa taluk of Bellary district and the Tungabhadra itself meets the Krishna in the Kurnool district of Andhra Pradesh.

The reservoir built across the Vedavathi near Vanivilasapura known as Vanivilasa Sagara also known as Marikanive and the canal network thereof provides irrigation facilities to the lands in Hiriyur taluk and for a few villages situated outside the limits of this taluk as well. The other major streams in the district are Janagahalla or Chikkahagari, Swarnamukhi, Syagalahalla, Garani and the Nayakanhatti stream.

P R E F A C E

In the foreword to the 2001 series of the District Census Handbooks, Sri. D.K. Sikri, I.A.S., the Registrar General and Census Commissioner, India, has traced the history of the District Census Handbooks. He has also succinctly explained the scope and coverage of the District Census Handbooks. These volumes contain salient data on the population for every village and town as revealed by 2001 Census. They also contain a wealth of information regarding villages and towns which, throw some light on the circumstances in which people live and is therefore relevant to the data on the population. This information is also of considerable importance in the context of planned development.

The District Census Handbook is divided into two parts: Part A contains information regarding each village and town (Village Directory and Town Directory collected from various sources) and Part B which contains the data on the population collected during 2001 Census - the Primary Census Abstract. The data published in Part B was collected during February-March 2001 in the Population Census.

The process of data collection for the Village Directory and the Town Directory (Part A) commenced in 1999. The Village Directory formats were mailed to the Deputy Commissioners of Districts for obtaining the village wise particulars through Village Accountants. Similarly the Town Directory formats were mailed to the Commissioners of Corporations, Chief Officers of Town Municipal Councils, Town Panchayats, etc. The village wise and town wise data furnished by these officers were then examined exhaustively for consistency in reporting and comparability with the information published in the 1991 District Census Handbooks. The Household Schedules, which were canvassed to collect the population data during 2001 Census, were scanned and data captured was processed electronically. The Primary Census Abstract was generated centrally on the computers by Registrar General, India.

In compilation of the District Census Handbooks, the Census Directorate had the co-operation of various departments of the State/Central Government. The Census Directorate gratefully acknowledge their assistance.

I take this opportunity to offer my grateful thanks to Sri. H. Shashidhar, Director of Census Operations and Sri. S.R. Raghavendra Rao, Deputy Director (Retd.) for their valuable guidance. I am also thankful to all the officers and officials of this Directorate who have been actively involved in the compilation of this volume.

I am highly grateful to Sri. J.K.Banthia, I.A.S., Ex. Registrar General, India for the benefit I have derived by way of guidance and advice. I express my thanks to Sri R.G. Mitra, Ex. Deputy Registrar General (C&T) and Dr. I.C. Agrawal, Assistant Registrar General and Sri S.L.Jain Deputy Director of Social Studies Division and Dr. R.P. Singh, Ex. Deputy Registrar General (Map) for their guidance.

District Highlights, 2001

1 Jurisdiction of the district has undergone changes in 2001 Census.

2 Population wise the rank of the district is 18th in the State.

3 District occupies 9th rank and 4th in the State with reference to Scheduled Castes and Scheduled Tribes population respectively.

4 In Literacy rate the district is placed at 15th rank in the State.

5 District stands at 20th place in sex ratio.

6 Regarding number of villages the district stands at 12th rank in the State.

7 District occupies 22nd place regarding density of population.

8 With regard to Decennial Growth the rank of district is 12th in the State.

9 Regarding percentage of Scheduled Castes and Scheduled Tribes population district is ranked at 4th and 3rd position in the State respectively.

10 In respect of agricultural labourers the rank of district is 12th.

ANALYTICAL NOTE

(i) HISTORY AND SCOPE OF THE DISTRICT CENSUS HANDBOOK

Introduction

The District Census Handbook is, most valuable district level publication brought out by the Census Organization. It contains micro-level data drawn to the lowest administrative units viz, revenue village in the case of rural areas and Division/Ward level in the case of urban areas. It is extremely useful to the planners, administrators, demographers, sociologists, etc., as it contains resourceful wealth of data regarding basic amenities available in each village and town of the district such as educational, medical, drinking water, post and telegraphs, transportation and communication, banks, societies, recreation clubs, power supply, export/import of important commodities and land use besides, the particulars revealed during the latest census enumeration. It is for the first time that the district census hand book series was included in the census publication programme at the 1951 census, in order to satisfy the growing demand by the administrators, the planners, research scholars, demographers and the other such census data users, for micro-level data. The idea of compiling the District Census Handbooks was pioneered by Sri R.A.Gopala Swamy, I.C.S. the then Registrar General, India and Ex-officio Census Commissioner of India, with a view to preserve the Census records prepared for areas below the district level.. He proposed that all the district Census tables and Census abstracts prepared during the process of sorting and compilation, should be bound together in a single manuscript volume and named as the District Census Handbook and suggested that the State Government should take up printing and publication at their own cost. Then onwards, the District Census Handbooks were published in each Census with improved pattern with an aim to give the Census and Non-census data at micro level for each village of the taluk as a whole to suit the requirements of various departments.

The data in the District Census Handbook will help not only in local area planning but also in regulating the provision of goods and services as well as to minimise the regional imbalances in the process of development. The District Census Hand Book sought to replace "Part IV - Taluk Tables and Part V - Village Tables" of the earlier censuses and to present the basic demographic and economic data in the form of "Primary Census Abstract" in respect of each and every village and town within the jurisdiction of the district. The district census handbook consists of two parts, viz, Part A and Part B. Part A comprises village and Town Directory while Part-B contains Village and Town level Primary Census Abstracts. In addition, these volumes contain a set of statistical tables based on the census data in respect of the district and its constituent taluks and towns.

District Census Handbook 1961

It was in 1961 Census that the scope of District Census Hand Book was shaped in the present form by presenting i) an account of descriptive note on the district, ii) a set of non-census data tables dealing with the administrative statistics of the district for a decade, iii) taluk and town level census tables on economic and socio-cultural aspects and iv) the village and urban Primary Census Abstracts depicting the nine fold industrial classification of workers. Information on the availability of certain basic amenities in villages and towns, such as the source of drinking water and educational institutions was also presented in the volumes. However, the district census handbooks of 3 out of then existing 19 districts viz, Bangalore, Dharwad and Mysore were confined to the publication of the village-wise and urban (census enumeration block-wise) Primary Census Abstract only.

District Census Handbook 1971

During the 1971 census, the district census handbook was further refined to present the data in a systematic way. In view of country-wide uniformity in approach and to have a comprehensive coverage, the District Census Hand Books were presented in three parts each, for a district. Part A incorporates

the Town and Village Directories. Part-B incorporates the Primary Census Abstract and includes data, in the case of rural areas down to the village level and in the case of urban areas up to the block level. In addition, an introduction is included wherein the changes in jurisdiction, if any, of the district or of the taluks and the changes in the number of villages between 1961 and 1971 were explained. Part-B was essentially demographic in nature and was the end product of the tabulation of the enumeration results. Part C incorporates other census tables and administrative statistics. For convenience, Part-A and Part-B of the District Census Hand Book was presented in one volume and Part-C in a separate volume. In part-C volume, the district and taluk maps were included. These maps were prepared on the basis of maps obtained from the competent authorities concerned.

District Census Handbook 1981

The District Census Hand Book series of 1981, had some new features along with the restructuring of the formats of village and town directories, keeping in view the comparability of 1971 data. All the amenities except power supply in the village were brought together in the village directory with the instruction that in case an amenity is not available in the referent village, the distance in broad ranges from the nearest place/village where it is available were given. A few new items of information such as adult literacy centres, primary health sub-centres and community health centres/workers, data on the availability of Newspapers, Motor Vehicles, etc., in the village, were introduced in the village directory to meet the requirements of the "Revised Minimum Needs Programmes". A new column "total population and number of households" was introduced to examine the correlation of the amenities with the population and number of households they serve. The contents of Part-A were further enlarged by including two appendices, namely a list of villages not having any amenities and a distribution of villages according to the proportion of Scheduled Castes and Schedules Tribes in the total population of the village. The format of Town Directory were also modified to meet the requirements of the Minimum Needs Programme by providing information on a few new items such as class of town and its population, population of SC & ST, decadal growth rate of population, working women's hostel, adult literacy classes / centres, storage system regarding drinking water supply etc., and also the information about the nearest place and distance having educational, medical and fire-fighting facilities, in case such a facility is not available in the referent town. A new statement on civic and other amenities in slums in Class I and Class II town were included to help the planners to chalk out their programmes of slum improvements.

District Census Handbook 1991

The presentation of the District Census Hand Book for the 1991 Census was more or less similar to the manner followed in 1981. The format of Primary Census Abstract was restructured slightly. Nine-fold industrial classification of main workers were given as against four-fold classification. The sex-wise population in the age-group of 0-6 was included in the Primary Census Abstract for the first time to enable data users to compute more realistic literacy rates as all the children below 7 years of age were treated as illiterate at the 1991 census. One of the important innovations in the 1991 census was the Community Development Block-level presentation of data in the village directory and Primary Census Abstract instead of the traditional taluk/PS level presentation. C.D.Block is the lowest administrative unit for developmental planning. The choice of the C.D. Block as the unit for data presentation was formulated to help the planners in micro-level developmental plans. Another important improvement at the 1991 Census was dissemination of data through magnetic tapes/floppies in which both the computer as well as manual codes for each revenue village were provided along with the corresponding codes of 1981 Census. In the volumes of the District Census Hand Books, the computer codes assigned to the revenue villages in the 1991 Census and the corresponding codes of 1981 Census were presented so that it may facilitate the data users to use the data either from magnetic tapes or computer floppies.

Scope of the 2001 District Census Handbook

Like in the previous censuses, the District Census Hand Book (DCHB) for the 2001 Census brought out in two parts as usual viz., Part-A The Village and Town Directory, and Part-B the Village and Town Primary Census Abstract.

The District Census Hand Books for the 2001 census is essentially presented in the similar manner in which the District Census Hand Books of 1991 census were presented. This is because the data can be comparable with the earlier censuses and also to study the changes taken place during the decades and hence the approach in 2001 census is similar to 1991 census. The contents have been slightly enlarged and the formats too are restructured to suit the requirements of the data users. In the village directory for 2001 census certain new amenities like, news papers, magazine received, Income-Expenditure of the local bodies, information on number of banks, credit societies, recreational and cultural facilities, most important commodities imported, manufactured and exported have been included whereas the information regarding the "Day or Days of market/hat if any" which was there in 1991 has been excluded. Apart from providing the information about the nearest place and distance in broad ranges for villages not having basic educational and medical facilities, information about the nearest place and distance in broad ranges for villages not having Middle School, College, Hospital (Allopathic), Maternity and Child Welfare Center and Primary Health Center are also been provided this time. Information on availability of drinking water during summer is also included in the Village Directory. However, in the town directory there are no changes except in the statement IV-A where this statement is separately numbered as Statement VII in 2001. Except these, the scope of 2001 series of the District Census Hand Book has, by and large remained the same as in 1991. The non-census information collected at the village level and town level was scrutinized and verified. In case of glaring discrepancies the data were cross-checked with respective parent departments for validation.

One of the significant changes made in 2001 series of District Census Hand Book is that Primary Census Abstracts are presented to the jurisdiction of the Panchayats in the district. With the constitution (73rd Amendment) Act, 1992, it has become necessary for the census organisation to provide population data for the territorial area of a panchayat in order to strengthen panchayat raj system in the country. In view of this, panchayat-wise population figures for total population and for Scheduled Castes and Scheduled Tribes population has been compiled and presented in the form of Primary Census Abstract for each district.

Further another important step taken during the 2001 census, is assigning the Permanent Location Code Numbers (PLCN) to the villages. Location code number is a simple but unique device by which every area in an administrative unit in the State/ U.T. can be identified. Thus assigning of Location Code Numbers at various administrative levels, right from State/U.T. to the lowest level namely enumeration block, in census taking is an important step. Each clearly demarcated area can be referred to by a combination of numbers. In a State or U.T. the next administrative area is District, followed by taluk or police station, circle, Development Block or Mandal, etc. Next below this administrative area, in urban areas are cities/towns, further divided into wards/divisions and villages in rural areas. The Location Code Numbers to various administrative areas are assigned in orderly manner always beginning from northwest point and the numbering proceeds in a serpentine manner, keeping the geographical continuity, ultimately ending at the South-East point.

There was a great demand from different organizations to study the village level data over a time span and hence a scheme of assigning permanent location code numbers to the villages and the higher level of administrative areas is devised to ensure data comparability over a period of time. In Indian Census, Location Code Numbers are allotted to each village based on traverse system (zigzag) in a serpentine manner at taluk level. These numbers for villages run from '1' to 'N' in each taluk independently. This system was adopted until 1991 census. But, for the Census of India 2001, all the villages in a state/U.T. are assigned with a Location Code Number in one continuous series beginning from "1" to "N" for the entire state/U.T. and it is not confined to a taluk. The field length of the complete PLCN structure for a village has been kept up to 8 digits and therefore the location code number of village in a taluk contains 8 digits number for 2001 Census.

(ii) BRIEF HISTORY OF THE DISTRICT

Chitradurga district has a hoary past dating back to the pre-historic and legendary times. According to a tradition, it was near the Jatinga Rameshvar hill of this district that Jatayu challenged Ravana when,

having abducted Sita, the latter was passing through this part of the country with her on his way to Lanka. According to another, during the period of their exile the Pandava brothers and their mother Kunti stayed for some time near Chitradurga hills. At that time, the Chitradurga hill was the abode of Hidimbasura - a cannibal, who, along with his sister Hidimbi, was a source of great terror to the people of the neighbourhood. The turn of events that followed the arrival of Pandavas led to a duel between Bhima and Hidimbasura in which the latter was slain. Bhima then married Hidimbi who vowed to give up her evil ways, and had by her a son named Ghatotkacha.

Some of the pot-sherds discovered in the pre-historic sites of the district are stated to be similar to those found in the Indus Valley, Sumer and Crete of the 3rd millennium B.C. Further, the ancient local culture which has been designated as "Roppa Culture" is said to be similar to the campiguin culture of France belonging to the period from 8000 B.C. to 6000 B.C. Chandravalli Valley which is located immediately to the west of the fortified hill of Chitradurga is supposed to have got its name from Chandrahasa the pious king of Kuntala Desha.Neoliths discovered in the water courses and at Baralagondi and Neralagondi villages located close to this valley have established the fact that this valley was inhabited by man during the Neolithic period. Scientific excavations in Chandravalli Valley have yielded lead coins belonging to the Satavahanas, silver coins of Roman origin, and ornaments of gold, silver and copper besides an abundance of painted and polished pottery. Traces of walls constructed out of large-sized bricks of still ancient origin are stated to be faintly visible here and there in the cuttings. These findings and the rock inscriptions of Mayura Sharma Kadamba discovered in this valley amply indicate that a prosperous township existed at this site during the period of Satavahanas and the early Kadambas. The discovery of Ashokan edicts on rocks near Brahmagiri of Molakalmuru taluk by B.L.Rice in 1892 revealed that the Mauryan empire extended in the south at least upto Chitradurga district. The Mauryan rule was followed by that of the Satavahanas (230 B.C. to 220 A.D.). That Chitradurga was an important place during that period is borne out by the Satavahana coins discovered at Chandravalli Valley as also by the inscriptions found at places like Malavalli and Banavasi.

After the downfall of the Satavahana rule, their empire disintegrated into numerous principalities. Chitradurga district came under the sway of the Kadambas of Banavasi. The earliest Kadamba inscription found in the district is in Chandravalli Valley and, on Paleolithic grounds it is assigned to 258 A.D. This inscription records the construction of a tank at this place by Mayura Sharma, the founder of the Kadamba dynasty, and also mentions that Mayura Sharma had defeated the Traikutas, Abiras, Pallavas, Pariyatrikas, Sakasthomas, Sayindakas, Punnatas and Mokaris. With Banavasi as their principal capital, the Kadambas administered a vast territory as independent and powerful rulers till they were subjugated by Kirtivarman I (560-597 A.D.) of the Chalukyan dynasty. However, the Kadambas were allowed to rule their territories under the suzerainty of the Chalukyan monarchs. With the advent of the Chalukyas in mid-sixth century, for the next 300 years the area comprised in Chitradurga district seems to have been plunged into a state of perpetual unrest arising out ot the struggle for power between the Chalukyas of Badami, the Pallavas of Kanchi and Pandyas of Madurai. All the three rose into prominence in South India more or less at the same time and engaged themselves in intermittent warfare, each seeking constantly to extend its territories at the cost of that of its neighbours. However, by the middle of 8th century, Rashtrakutas of Malkhed rose to power and established their supremacy over the Chalukyas. During this period, the area comprised in Chitradurga distict formed part of Nolambavadi 32000 and continued to be a bone of contention among the imperial powers. The principal local dynasties that administered this region as feudatories were the Nolambas of Henjeru (from 700 to 1050 A.D.) and the Pandyas of Uchchangi (from about 1073to 1183 A.D.)

The earliest Rashtrakuta inscriptions in the district belong to the reign of Govinda II (775-780 A.D.). According to these inscriptions, Govinda II had as his feudatories the son(Charu-Ponnera) and the grandson(Pallavamalla) of Simhapota, a Nolamba Chief who was subordinate to the Ganga Kings. The earliest Nolamba records in the district go back to the period of this Simhapota who is introduced in the three of the inscriptions found in Challakere taluk. Krishna II (880-914 A.D.) and Krishna III (940-966

A.D.) are the other prominent Rashtrakuta Kings who have left behind several inscriptions pertaining to their respective periods. Dilipa or Iriva-Nolamba (942-966 A.D.) was the Nolamba feudatory under Krishna III. In about 973 A.D., Karakka II, the last Rashtrakuta King was dethroned by Tailapa of the Chalukyan Dynasty(973-997 A.D.). Tailapa not only regained all territories of his forefathers but also extended his kingdom in all directions. So long as the Rashtrakutas were supreme and strong, the Nolambas were secure under their protection. The moment this power became weak, the Nolambas began to feel the impact of the expansionist attempts of other major powers. Thus, in 974 A.D., the Nolambas were overrun by the Ganga King Marasimha, who, after the conquest, actually ruled over the Nolambavadi country for some time. Next, when the Cholas began their northward thrust, there were conflicts between the Cholas and the Nolambas. However, after the revival of the Chalukayan power in the north (and in the Nolambavadi regions in the 1015 A.D.) the Nolambas switched over their loyalties to the Chalukyas and with this change in allegiance they moved their capital to Kampili located on the banks of Tungabhadra to the west of Bellary.

The Hoysala inscriptions found in the district belong to the reign of Ballala II (1173-1220 A.D.) and of later kings. However, since Nolambavadi has been mentioned as one of the provinces ruled by Vishnuvardhana (1106-1141 A.D) it is evident that at least a part of Chitraduraga district formed part of the Hoysala Kingdom. The Yadavas of Davagiri were the main rivals of the Chalukyan and contending for the possession of the Chalukayan and Kalachuri Kingdoms. Up to the period of Ballala II i.e., about 1220 A.D., the Hoysalas were supreme. Later, the Yadavas gained an upper hand and the Hoysalas were forced to retire to the south of the Tungabhadra. During the period 1210-1247 A.D., a part of Chitradurga District, more or less corresponding to the present Davanagere taluk came under the rule of Yadavas. The earliest Yadava inscription found in the district is in Kadlabalu in Davanagere taluk and it is dated in 1250 A.D. The supremacy of the Hoysalas and the Yadavas came to an end when these two powers were conquered by the invading Muslim forces from the North under the leadership of Malik Kafur and Mohammed Bin Tughlaq. Chitradurga came under the sway of the Vijayanagara empire in the 14th century. The earliest Vijayanagara inscription found in the district is dated in 1354 A.D. During the next two hundred years, the Vijayanagara Kings, who exercised paramount powers, had bestowed sundry tracts of their kingdom on the vassal chiefs, bearing various titles, for administrative convenience. Such of the chiefs or palegars as were in the northern part of the kingdom were controlled directly from the capital i.e., Vijayanagara, and those who were in the southern parts were placed under a Viceroy whose seat of the government was at Shirangapatna.

During the chaotic conditions that followed the mortal defeat of the Vijayanagara forces in 1565 A.D., most of the local chiefs became independent and acquired the power of the estates which were till then being administrated by them as the chosen representatives of the Vijayanagara monarchs. The local chiefs in Chitradurga District too were affected by this phenomenon. The important families of such local chiefs who held sway over the district for nearly 200 years, until they were vanquished by Haider Ali of Mysore, are those of the Nayakas of Chitradurga, Harati, Hatti (Nayakanahatti) and Mattinamadu.

The Chitradurga family belonged to the Beda community. According to one of the tradition, three households belonging to the Kamageti family migrated from Jadikal-durga near Tirupati of Andhra Pradesh and settled down at Nirutadi near Bharamasagara of this district in about 1475 A.D. Later on, the son and the grandson of one of these men, named Hire Hanumappa Nayaka and Thimmanna Nayaka respectively, settled at Matti in Davanagere Taluk. This Thimmanna Nayaka was appointed by the Vijayanagara King first as the Chief of Holalkere, then of Hiriyur and finally of Chitradurga. After consolidating his position, Thimanna Nayaka fortified the Chitradurga hill and conducted himself in such a manner that a force was sent by the Vijayanagara King to ensure his obedience to the throne. According to another account, this Thimanna Nayaka is the one who came with a small band of armed men from the hilly tracts near Tirupati and entered the service of the palegar of Basavapattana. Later on, when a quarrel arose he fled to Mayakonda and, when pursued, escaped to the jungles near Guntur of Andhra Pradesh. There, he collected a band of men, started

plundering on all sides, moved back to this district again, erected a fort at a place called Rangapattana and intensified his activities. Being annoyed by his depredations, the palegars of the neighbouring areas such as those of Harapanahalli, Nidugal and Basavapattana united themselves against Thimmanna Nayaka and with the aid of the Vijayanagara troops marched on Rangapattana. At this, Thimanna Nayaka moved over to Chitradurga hills for cover. When besieged here, it is said, he distinguished himself as the hero of a most daring adventure by carrying off at night, the horse of Saluva Narasinga Raya, the Vijayanagara Prince who was the commander of the forces pitted against him. It is said that while unleashing the horse, he aroused the groom whereupon he hid himself amidst the litter around the horse to escape notice. The groom who came near the horse drove in the peg afresh for the heel ropes and while doing so, unknowingly sent the peg right through the palm of the hiding Thimanna Nayaka. The latter endured the pain in silence and subsequently freed himself and ultimately despite grievous injury carried off the horse. This proof of fortitude resulted in the conclusion of a peace agreement and appointment of Thimanna Nayaka as the Chief of Chitradurga. Later on, at the behest of the king, Thimanna Nayaka is said to have easily captured Gulbarga, which the Vijayanagara forces had failed to take even after six months. Thimanna Nayaka was succeeded by his son Obanna Nayaka who, later took the name of Madakari Nayaka, broke off his allegiance to the Vijayanagara empire and became an independent ruler. In 1602 A.D., Madakari Nayaka was succeeded by his son Kasturi Rangappa Nayaka. His reign which was about for 50 years was full of conflicts with the neighbouring chiefs. During the next 100 years the succeeding chiefs consolidated their position and by 1754 A.D., when Madakari Nayaka, the last, ascended the throne at the age of 12, Chitradurga had become a very powerful and independent state in the south. In their wars against each other during this period, the major powers like Haider Ali of Mysore and the Peshwas of Maharashtra sought for the help of Chitradurga Nayaka. First, he helped Haider Ali in the campaigns against Bankapur, Nijagal and the Marathas. However, with all his outward show of friendliness, Haider Ali appears to have nursed a consistent jealousy towards the Nayaka of Chitradurga and waiting for an opportunity to annex the chiefdom. In 1777 A.D., when Haider Ali was threatened with an invasion by the allied armies of the Marathas and the Nizam, the Nayaka of Chitradurga promised to help the allied forces against Haider Ali. As soon as he came to know about this change of alliance, Haider Ali marched upon Chitradurga and surrounded the fort. The Siege, which was maintained for several months without success, was lifted when the Nayaka agreed to pay a fine of thirteen lakh pagodas. The peace so bought by the chief was however short-lived, for soon after the conclusion of his campaign against the Marathas in 1779 A.D., Haider Ali again laid a siege on Chitradurga fort, which lasted for several months. Ultimately due to the treachery of some of the officers on the Nayaka's service, Haider Ali succeeded in capturing the fort. The Nayaka and his family members were taken to Shrirangapattana as prisoners.

After the fall of Tipu Sultan in 1799, the British restored the kingdom to the Wodeyars of Mysore and the area presently included in Chitradurga district also became a part of the princely State of Mysore. The rest of the history of the district runs parallel to that of the entire erstwhile State of Mysore.

Administratively, the district has undergone several changes in the post-palegar period. Under the British management, the Chitradurga division included the districts of Chitradurga and Tumkur. In 1863, Chitradurga Division was broken up and while Chitradurga district was tagged on to the Nandidurga division. In 1879, the system of administration through Divisions was abolished and in 1882, Chitradurga came to be reduced to the status of a Sub-division under Tumkur District. In 1886, Chitradurga district was re-established. After several changes in the structure of taluks and sub-taluks till the mid-forties, the district administration has finally settled down with only one revenue sub-division and six taluks. The changes in the jurisdiction of the district during the intercensal period 1991-2001 are discussed separately.

(iii) Administrative Setup and Jurisdictional Changes during the decade - 1991-2001

Karnataka State has been divided into four Revenue Divisions, 49 Sub-Divisions, 27 districts and 175 taluks. Chitradurga is one of the seven districts of the Bangalore Revenue division. The district

comprises of six taluks. They are 1) Challakere, 2) Chitradurga, 3) Hiriyur, 4) Molakalmuru, 5) Hosadurga and 6) Holalkere. Chitradurga is both a Sub-divisional and District Headquarters as all the taluks of the district have been clubbed into only one Revenue Sub-Division.

The administrative division and jurisdiction of the district have undergone major changes during the decade. The district comprises of only six taluks now as against nine during 1991 Census. As the taluks of Davanagere, Harihar and Jagalur have been bifurcated from erstwhile Chitradurga district to form a new district called as Davanagere and those taluks have been transferred to the new district.

Total number of Towns/Villages

As a sequal to the bifurcation of the district and jurisdictional changes thereafter and after the finalisation of the rural-urban frame for the 2001 Census, the district has only six towns as against ten towns during 1991. There are 1059 villages in the district as against 1049 during 1991 Census as per the jurisdiction exist and the rural-urban classification made.

REASONS FOR VARIATION IN THE NUMBER OF VILLAGES/ TOWNS IN EACH TALUK OF THE DISTRICT, DECADAL VARIATIONS IF ANY AND REASONS THEREOF

Sl.No.	Name of the Taluk	Total No. of villages according to the list finalised for		Total No. of towns according to the list finalised		Reasons for variation in the number of villages/towns in each taluk of the district, decadal variations if any and reasons thereof
		2001 Census	1991 Census	2001 Census	1991 Census	
1	2	3	4	5	6	7
1	Challakere	195	190	1	1	The total number of villages in the taluk has gone up from 190 in 1991 Census to 195 in 2001 Census due to creation of 5 new villages viz.,1.Jambaiahnahally, 2.Manamainmainahatti, 3.Harishchandranayakanahalli, 4.Nandanahally, 5.Sevalalnagar. vide Notification No.RD 10 LRD 92 dated 24.9.1994 and subsequently inclusion in the 2001list of villages.Challakere Town limits were extended vide Notification No. HUD 353 MLR 95 dt. 07.10.1995 and it comprises additional portions of Challakere village and portions of Nagaramgere and Gorlakatte villages.
2	Chitradurga	190	186	1	1	There is an increase of 5 villages in the taluk during the decade1991 and 2001.Five villages viz., Sriramanagar, Eshwaranagaram, Sevapura,Sevalalnagar and Hospete are newly constituted villages vide Notification No.RD 10 LRD 92 dated 24.09.1994.Kenchanakatte and Neralagundi and the outgrowth Kelagote are fully included in the city limits along with portions of six other villages vide Notification No. HUD 350 MLR 95 dated 25.11.1995. Medihalli out growth of 1991 Census now forms part of Chitradurga city limits, developed portion classified as outgrowth and rest of area accounted in rural frame. Hence with all these changes, the total number of villages in the taluk has increased from 186 in 1991 to 190 in 2001 Census.
3	Hiriyur	158	157	1	1	Total number of villages in the taluk has increased from 157 in 1991 Census to 158 in 2001 Census.The increase is due to inclusion of two villages viz., Sevalalnagar and Indiranagar constituted by altering the limits of Babbur and Somerahalli villages respectively vide Notification No RD 10 LRD 92 dated 24.09.1994. Further, consequent of extension of boundary limits of Hiriyur town Municipality vide Notification No. HUD 352 MLR 95 dated 07.10.1995 Krishnambudi village is fully included in the said statutory town limits.Hence its name is deleted from the 2001 Census village list.

Sl.No.	Name of the Taluk	Total No. of villages according to the list finalised for		Total No. of towns according to the list finalised		Reasons for variation in the number of villages/towns in each taluk of the district, decadal variations if any and reasons thereof
		2001 Census	1991 Census	2001 Census	1991 Census	
1	2	3	4	5	6	7
4	Holalkere	202	201	1	1	With the inclusion of Hosuru village formed out by altering the limits of Kalkere village, vide Notification No.RD10 LRD 92 dated 24.09.1994 the total number of villages in the taluk has increased from 201 in 1991 to 202 in 2001 Census.The civic status of Holalkere town has changed from Interim Mandal Panchayat to Town Panchayat vide Notification No HUD 641 MLR 95(2) dated 09.01.1996.
5	Hosadurga	225	224	1	1	In this taluk, one new village has been constituted, by altering the limits of Janakal village vide Notification No. RD 10 LQ.92 dated 24.09.1996. With the addition of this village in the 2001 list of villages, the total number of villages in the taluk has increased from 224 in 1991Census to 225 in 2001 Census. Further, the civic status of Hosadurga town has been upgraded from Mandal Panchayat to Town Panchayat vide Notification No.HUD 641 MLR 95(3) dtd. 09.01.96
6	Molakalmuru	89	91	1	1	Total number of villages in the taluk has declined from 91 in 1991 Census to 89 in 2001 Census due to inclusion of Molakalmuru and Somerahalli revenue villages in Molakalmuru town. Subsequently, they were deleted from the 2001 list of villages.The civic status of the town was upgraded from Interim Mandal Panchayat to Town Panchayat vide Notification No. HUD 641 MLR 95 dated 20.02.1996.
	Total	**1059**	**1049**	**6**	**6**	**-**

Urban Local Bodies

The statutory urban local bodies are the Municipal Councils and Municipal Corporations. These urban local bodies elect Councilors / Corporators from each ward and the tenure of those Councilors / Corporators would be for five years. The President or Vice-President of the Municipal Council and the Mayor / Deputy Mayor of the Corporations are elected from among the elected Councilors / Corporators whose tenure will be for a period one year. The Chairman of various committees are also elected among the elected Councilors with a term of one year.

The Chief Officer in Municipal Council and the Commissioner in a City Corporation are responsible for day to day administration and the executive authority is vested with them. There are three Town Municipal Councils and three Town Panchayaths, one City Municipal Corporation in the district.

Zilla Panchayat and Taluk Panchayat

To promote the development of institution and secure greater measure of participation by the people in the local and governmental affairs by decentralisation of power and functions and for the purpose of development planning and implementation of various programmes there of Zilla Panchayats have been constituted in the State. The jurisdiction of Zilla Panchayat is coterminus with that of the corresponding district and covers the entire rural and semi urban area but excludes thestatutory towns. Accordingly to Zilla Panchayat has been constituted for Chitradurga district and its jurisdiction extends over the six Taluk Panchayats of the district. The jurisdiction of each Taluk Panchayat is coterminus with that of the taluk of the same name but excludes the area incorporated in the statutory towns or cities.

The Zilla Panchayat elects its president and vice-president and chairman of its committees from amongst the elected members. The term of these elected representatives will for five years. An officer of the rank of IAS is deputed by the State Government as Chief Executive Officer of the Zilla Panchayat. Panchayat is assisted by various departments.

Gram Panchayats

The Government of Karnataka has enacted the Karnataka Panchayath Raj Act 1993 on 30.4.1993 replacing its previous enactment in this regard for the formation of Gram Panchayath.

STATEMENT SHOWING NUMBER OF GRAMA PANCHAYATS AND HOBLIS/FIRKAS

Sl. No.	Name of Taluk	No. of Hoblis/Firkas	No. of Grama Panchayats
1	2	3	4
1	Molakalmuru	2	16
2	Challakere	4	39
3	Chitradurga	4	36
4	Holalkere	4	29
5	Hosadurga	4	33
6	Hiriyur	4	32
	Total	**22**	**185**

The Gram Panchayath is authorised to function on the items listed in Schedule I of the Act namely, preparation of annual plans for the development of panchayath area, preparation of annual budget, providing reliefs in natural calamities, removal of encroachments on public properties, organising voluntary labour and contribution for community works, maintenance of essential statistics of the village, in addition to matters relating to agriculture, Animal Husbandry, Fisheries, Social & Farm Forestry, Khadi, Village & Cottage Industries, Rural Housing, Drinking Water, Roads, etc., Rural Electrification, Non-conventional energy sources, poverty alleviation programmes, Markets & Fairs, Rural Sanitation, Public Health & Family Welfare, Women and Child Development, Social Welfare, Welfare of Weaker Sections, Public Distribution System, Maintenance of Community assets, Construction and Maintenance of Dharmashalas, Chatras, Cattle Sheds, Ponnds, Cart Stands, Slaughter Houses, Public Parks, Play Grounds, etc. Regulation of manure pits in public places and establishment and control of shandies. Such other functions as may be entrusted.

The Gram Panchayath is also empowered to make provisions for carrying out within its area any other work or measure which is likely to promote the health, safety, education, comfort, convenience or social or economic well being of the inhabitants of the panchayath area.

(iv) Physical Features

Chitradurga district extending over an area of 8440 Sq. kms is situated in the southern part of the Deccan Peninsula and occupies a central position in the State of Karnataka. Physiographically the region in which the district is situated may be classified as a maidan. The district has a maximum length of 180 km. from north to south and its maximum breadth is 107 km. from east to west.

(1) Location and Size

Chitradurga district lies between the latitudinal parallels of 13 degree 34 minutes and 15 degree 02 minutes north latitudes and 75 degree 37 minutes and 77 degree 01 minutes east longitude. Chitradurga district is bound by the district of Dharwad and Bellary to the north, on the east by the Ananthapur district of the Andhra Pradesh, on the south by Tumkur district and on the west by the districts of Shimoga, Chikmagalur and Davanagere districts.

(2) Physiography

The district, it may be observed in broad items, is characterized by vast stretches of undulating plains interspersed by low ranges of rocky hills. It may however be broadly divided into two regions: the eastern region consists of what may be called the Vedavathi plains comprising the taluks through which the river Vedavathi flows, namely, Challakere, Hiriyur and the southern portion of Molakalmuru. The second region comprises the taluk of Hosdurga besides the northern portion of Molakalmuru taluk and the eastern parts of Holalkere taluk. This region is predominantly hilly and the area covered by these taluks may be called the central hilly region.

The whole of Chitradurga district lies in the valley of Vedavathi river. The central parts of the western sector is occupied by a long range of flat-topped, steep-sided hills running in the south by south-east direction

right across the district. The two well defined hill ranges in the plateau of erstwhile Mysore State area are the western and the eastern ghats. Chitradurga falls under the eastern ghats range which is marked by an interior belt, running from the Biligirirangana betta ranges in the south to Molakalmuru in the north. The district of Chitradurga is crossed from south, south-east to north and north-west by a belt of intermittent parallel chains of low hills, which are mostly bare and stony, through which are found narrow passes. The eastern line runs from the west of Hiriyur upto Chitradurga and from thence, with a break for some distance, continues from Kanakuppa hill upto the district boundary. Halarameshwaragudda(1162 metres MSL) in Hosdurga taluk is the highest point in the district. Birankaldurga (1159 metres MSL) in the Jogimadu area to the south of Chitradurga town is the next highest point. The two other prominent peaks lie in the eastern sector of the district and these are Eachalagudda and the Jogimatti, each with a height of about 1161 metres MSL. The contours in the district varies from a minimum of 500 metres a maximum of 900 metres in height. The western parallel commences a Hosdurga and passes by Mayakonda to Anaji. Around Molakalmuru in the north are some detached clusters of rocky hills. The hills in the district are spread over four out of the six taluks in the district namely Molakalmuru, Hiriyur, Chitradurga and Hosdurga. Near the headquarters town of Chitradurga a wedge shaped range of hills with the base south divides the taluk into two. Towards the base of the range, the hills are lofty, extensive and being wholly rugged, are covered with bamboos, stunted teak and other trees.

(3) Drainage

The district is drained mainly by the Vedavathi which runs for a length of about 129 kms in the district. The Vedavathi river joins Tungabhadra in Siruguppa taluk of Bellary district and the Tungabhadra itself meets the Krishna in the Kurnool district of Andhra Pradesh.

The reservoir built across the Vedavathi near Vanivilasapura and the canal network thereof provides irrigation facilities to the lands in Hiriyur taluk and for a few villages situated outside the limits of this taluk as well. The other major streams in the district are Janagahalla or Chikkahagari, Swarnamukhi, Syagalahalla, Garani and the Nayakanhatti stream.

Vedavati is also called Hagari. The Vedavati is formed by the confluence of two steams, the Veda and Avati, which spring from the eastern side of the Bababudan Hills. The two streams Veda and Avati unite at Thangali three miles south-east of Kadur and then enter Chitradurga district at a point near Hosadurga. Penetrating the central belt of hills it issues thence by the pass called the Marikanive to the south of Brahmagiridurga where a reservoir called Vanivilas Sagar has been built flowing near Hiriyur, the river leaves the district near Ghataparti in Challakere taluk. The river Vedavati is a shallow river, having a width of 400 feet near about Hosadurga.

Jaragahalla is a major stream in the district having its source in Holalkere taluk. It flows through Chitradurga and Jagalur taluk of Davanagere district and again on entering Molakalmuru taluk it receives the main drainage from the western portion of the same taluk. Flowing along the western sector of the Molakalmuru taluk boundary it then enters the middle sector and take a turn in the north easterly direction falling into Vedavati river in the confines of Bellary district. Two important hill streams without any names given to them take their rise in the range of hills in the north-west of the Molakalmuru taluk, flow into the Jaraganahalla about a mile beyond the taluk boundary.

Suvarnamukhi is also a major stream having its origin in Tumkur district. It joins the Vedavati after a course of seven miles in the district. The actual entry of the stream in the district is near Hiriyur taluk.

Syagalahalla also called Sulekerehalla in another major stream having its origin in the ranges of hills to the west of Holalkere taluk. The stream flows for about 45 miles in the district before it joins the Tungabhadra river near Harihar taluk.

Garani is an important stream rising in the hills near Chitradurga and flowing towards the east, almost parallel to the Vedavati river. Ultimately this stream joins the Vedavati some seven miles beyond Hiriyur.

(4) Climate

The climate of the district is marked by hot summer months, low rainfall and a pleasant monsoon. The period from December to February constitutes

the cold season and is characterized by a clear bright weather. Generally the hot season starts by the end of February and lasts till about the beginning of June, when the district comes under the influence of the south-west monsoon. The south-west monsoon extends up to September. October and November form the retreating monsoon or the post-monsoon season.

The period from about the latter half of November to February is one of the comparatively cool weather. December being the coldest month with the mean daily maximum temperature at 27.9 degree Celsius and mean daily minimum at 16.6 degree Celsius. The period from March to May is one of the increasing temperatures. April is one of the increasing temperatures. April is the hottest month when the mean daily maximum temperature marks upto 36.2 degree Celsius. During this season the maximum temperature some time reach 41 degree Celsius. Relative humidity is low and particularly in summer months come down to less than 30 per cent in the afternoons.

(5) Winds

Winds are generally moderate with some strengthening during the period from June to October. Thunderstorms occur quite frequently in the months of April and May, and to a lesser extent during the south-west monsoon months.

(6) Rainfall pattern

The entire District falls under central dry agroclimatic zones of the state. The taluks under the District are Challakere, Chitradurga, Hiriyur, Holalkere, Hosadurga and Molakalmuru.

The average Rainfall in the district ranges from 448mm in Challakere taluk to 669mm in Holalkere taluk. The rainfall decreases from western part of the district towards eastern part. The eastern most part of Challakere taluk receives the lowest rainfall.

Among the rainfall period, the premonsoon rainfall contributes 18 to 23% of the annual rainfall, southwest monsoon contributes 45 to 52% and northeast monsoon contributes 28 to 33% of the annual rainfall.

The coefficient of variation ranges from 46 to 65% for the premonsoon season, the highest variability (53 to 65%) being in the taluks of Hiriyur, Hosdurga, Molakalmuru and Challakere taluks.

The coefficient of variation for southwest monsoon ranges from 33 to 50%, the highest being in Challakere taluk. The coefficient of variation for northeast monsoon ranges from 58 to 75%, the highest being for Molakalmuru taluk.

The coefficient of variation for Annual rainfall ranges from 26 to 35%, the highest being in Hosadurga taluk.

TALUK WISE RAINFALL PATTERN, CHITRADURGA DISTRICT

TALUKS (No. of years of rainfall data available)	Statistical Parameters	Pre- Monsoon	South-West Monsoon	North-east Monsoon	Annual Rainfall
1	2	3	4	5	6
Challakere (97)	Average rainfall (mm)	99	201	148	448

A study of the rainfall deficit pattern during the last 20 years compared with the long term data for different seasons indicate that in recent past the rainfall deficiency is increasing during the premonsoon and north-east monsoon period, with exception in certain taluks. Rainfall deficit during last 20 years has been compared with that of long term data in different seasons and is presented in table following.

TALUKWISE AND SEASONWISE COMPARISION OF RAINFALL DEFICIT DURING LAST 20 YEARS WITH 99 YEARS DATA, CHITRADURGA DISTRICT

Taluks	Seasons and no. of years with deficit rainfall							
	Pre-Monsoon		South-west Monsoon		North-east Monsoon		Annual Rainfall	
	Long Term	Recent 20 Yrs.	Long Term	Recent 20 Yrs.	Long term	Recent 20 Yrs	Long term	Recent 20 Yrs.
1	2	3	4	5	6	7	8	9
Challakere (97)	41(42)	6(30)	41(42)	6(30)	42(43)	9(45)	32(33)	9(45)
Chitradurga (98)	43(44)	13(65)	34(35)	5(25)	39(40)	11(55)	30(31)	10(50)
Hiriyur (98)	25(26)	6(30)	36(37)	8(40)	44(45)	10(50)	23(23)	4(20)
Holakere (98)	39(40)	11(55)	28(29)	3(15)	43(44)	9(45)	23(23)	3(15)
Hosadurga (98)	26(27)	4(20)	36(37)	3(15)	43(44)	8(40)	22(22)	3(15)
Molakalmuru (98)	50(51)	12(60)	37(38)	6(30)	40(41)	9(45)	29(30)	7(35)

Note : Figures in bracket indicate values as percentage of number of years for which data is available or for 20 years depending on the column in which it is given.

The following inferences could be made.

1. The Premonsoon rainfall in the recent 20 years is more deficit compared to the long term data, except for the taluks of Challakere and Hosadurga.
2. Southwest monsoon is less deficit in the recent 20 years compared to the long term data with Hiriyur taluk as an exception.
3. The rainfall deficit during northeast monsoon is increasing during recent 20 years compared to the long term data, with Hosadurga taluk as an exception
4. The trend analysis of annual rainfall shows increasing trend for the taluks of Hiriyur, Holalkere and Hosdurga and decreasing trend for the taluks of Challakere, Chitradurga and Molakalmuru.

(7) Forestry

The total geographical area of the district is 770,702 hectares. Out of which 73,719 hectares is being covered by forest. The district itself is plain country with very little thick forest. The forest in the division consist mostly of the shrub growth and exploitation of the same for fuel and agricultural implements is increasing year by year. The over exploitation of the forest has resulted in substantial denudation. As the soil and vegetation are interdependent, one cannot exist without the other. The improvement of the soil mainly depends on the growth of vegetation. Forestry schemes undertaken at various stages include the working plan method, the object being to bring the areas not covered by working scheme under proper scientific method. The main source of forest revenue in the district is from fuel and minor forest produce.

The development of minor forest produce engaged the attention of the department with a view to increase the forest revenue in the district.

(8) Geology

The rock formation in the district falls into the categories of the crystalline schists, the granite gneisses and the newer granites with a few later intrusive basic dykes. All these belong to the oldest rock formations recognized in India. The Chikkanayakanahalli band schists running towards the north-west constitute the chief belt of schists. Here, the band has split up into two divisions; the lowest belt consists of hornblendic schists with quartzites and ferruginous quartzites. These schists are covered by a series of grits and clay. Coarse grey and pink porphyritic granite are noticeable on the western borders. Among the dyke rocks, dolerites are conspicuous.

(9) Flora & Fauna

Flora : Physiographically the district has dry and thirsty land with broken hill ranges and vast undulating plains. The dry and mixed are the category of forest included the district.

Coconut plantations can be seen in areas of the district wherever water resources are available. The Vedavati valley near Hosadurga presents a grand vistas of verdant vegetation with tree spread all over. The forest in the district are called the dry deciduous scrub type. The quality of timber is poor because of poor rainfall.

The important trees found in the district are Kamara, Sone or Swami-mara, Tharad or Kempu Khaira, Dindiga, Bevu, Honge, Hunase, Kakke, Sujjalu.

Fauna : The hilly tract of the district has mainly a good number of leopards. Locally this animal is called as Cheetah, Kiruba, Ibbandi and Dodda Ibba. Hyenas, bears and wild bear form part of fauna of the district. Occasionally tigers are seen in the hilly areas of the district. The spotted deer is seen in herds in Hiriyur, Holalkere and Chitradurga.

Poisonous reptiles are common in the district. Also harmless snakes, scorpions of different varieties can be seen. Common birds like crow, mynah, pigeons, woodpecker, eagles are found here as in other parts of the State. The bird fauna is not very rich. Squirrels are found all over. Many kinds of wild fowl are seen in the south of the district. Pelican is also found. However, there are no game sanctuaries in the district.

(10) Soils

The district is having a fertile black soil with their bases having a high water holding capacity. The black soils found in a wide area in the district are particularly suited for rainfed crops like short staple cotton, groundnut, jowar and tur dal. The soil in the district found to contain a high concentration of soluble salt which are either critical for growth or critical for germination. The black soil content in the area tends towards alkalinity. In the atchkat area under major tanks rich clay soil are found, which after successive cultivation, manuring and frequent additions to good soil have greatly improved in fertility. Alkaline lands of all degrees of alkalinity both in dry locations and in low lying flats forming boggy marshes are found in the Hiriyur taluk.

The district taken as a whole has varied soil structure, black, red and medium black. The deep red loam variety is also found which is good for the growth of ragi.

(11) Cropping Pattern

Paddy, Ragi, Maize and Jowar are the cereal crops grown in the district. Ragi and Jowar are grown in all the taluks of the district. Cotton is another non-food crop of the district.

LAND USE PATTERN FOR 1998-99 IN HECTARES

Source : District at a glance, Chitradurga District, 1999-2000, Directorate of Economics & Statistics, Bangalore.

The land holdings for the year 1995-96 of different size are shown in the above table. The size of agricultural land holdings is one of the important factor that determine the productivity of land. It is observed from the above table that, the number of marginal holdings below one hectare and small holdings of size one to two hectares constitute 55.90 per cent of the total holdings only 3.74 per cent holders own land more than ten hectares.

Paddy is the only cereal crop grown in the district. The soil is black and fertile having a high water holding whereas capacity which is suitable for rainfed crop like jowar, groundnut and tur dal, etc. Sun flower, sesamum are some of major oil seeds crops of the district. Cotton is an important commercial crop. Among the plantation and horticultural crops important are onion, brinjal and tomato. The yield of paddy under irrigated area is 4665 kgs per hectare and under un-irrigated area is 2109 kgs per hectare. An area of 26795 hectare is put under cultivation of commercial crop cotton, the yield per hectares 202 kg.

The various details about area, production and yield per hectare regarding other crops can be observed from the table given below.

AREA, PRODUCTION AND AVERAGE YIELD OF PRINCIPAL CROPS FOR 1998-99 UNDER ALL SEASONS

(12) Irrigation

Vedavati or Hagari is the only river which mainly serve as the source of irrigation. Local tanks and irrigation wells in the taluks are used for irrigation. Pick-up and lift irrigation are also in practice wherever possible.

Vanivilas Sagar or Marikanive Reservoir constructed utilising the Vedavati valley, in Hiriyur Taluk also serves as the major irrigational source. The table below gives a detailed picture on net area irrigated by different sources for the year 1998-99.

NET AREA IRRIGATED BY DIFFERENT SOURCES

Name of Taluk	Net area irrigated for 1998-99 (Area in hectares)						
	Canal	Tanks	Wells	Tube Wells	Lift Irrigation	Others	Total
1	2	3	4	5	6	7	8

(13) Natural Wealth

Manganese and iron, which are the chief minerals of the district, are found around Chitradurga in a longitudinal belt. Other minerals found in the district are asbestos in the taluk of Hosadurga; copper and stibnite in Chitradurga taluk; bauxuite in Holalkere taluk; red and yellow ochres near Guddadarangavvanahalli; and gold in Kotemardi and Gonur in Chitradurga taluk, Bodimardi in Hosdurga taluk and Javanagondanahalli, Anesidri and Dindivara of Hiriyur taluk.

TALUK WISE MINERAL RESOURCES OF THE DISTRICT

Sl. No.	Taluk	Type of Mineral		Remarks
		Major	Minor	
1	2	3	4	5
1	Molakalmuru	-	Ornamental Stone	-
2	Challakere	Corundum Feldsparsv Quartz Quartzite	Brick Earth Sand Ordinary Building Stone	Major minerals is not of commercial value.
3	Chitradurga	Gold Copper Antimony Lead Ores Iron Ore Kyanite	Lime Kankar Tank Clay Brick Earth Building Stone	Gold is being investigated by G.S.I and H.G.M.L. Tank Clay is extracted only seasonally.
4	Holalkere	Iron Ore Manganese Berytes Green Quartz	Building Stone	The Ore is being sent to MMTC. Glass grade quartz are reported.

TALUK WISE MINERAL RESOURCES OF THE DISTRICT

Sl. No.	Taluk	Type of Mineral		Remarks
		Major	Minor	
1	2	3	4	5
		Kyanite Steatite Limestone Moulding Stone		
5	Hosdurga	Chomite Iron Ores Manganese Asbestos Berytes China Clay Dolomite Lime Stone	Building Stone Ordinary Sand Tank Clay Ornamental Stone	The Department has Co-ordinated with NCB for Major Cement Plant in Chitradurga and Tumkur districts. (14) Animal Husbandry

Agriculture and cattle wealth are inter-related with each other. Cattle of Amrit Mahal breed is very famous in Chitradurga district. The cattle of this breed are very strong in shoulder and limbs and are active. They are generally white in colour. The cattle in the district mainly depend on the ragi and jowar stalks for their fodder. Cattle, Sheep, goat, pigs, rabbits, poultry form the main livestock wealth of the district.

According to Live Stock Census 1997 the total livestock population in the district is 1493820, which includes cattle, buffaloes, sheep, goats, pigs, rabbits and dogs. The total poultry stock is 603299. The following table shows the distribution of various type of live stock in the year for the year 1997.

DISTRIBUTION OF LIVESTOCK POPULATION IN THE DISTRICT

Sl. No.	Name of Livestock	Total Livestock
1	2	3
1	Sheep	716,433
2	Buffaloes	172,777

(14A) Veterinary Services

The spread of veterinary services has resulted in overall improvement of animal health in all the district has 132 veterinary institution catering the needs of the live stock population in the district for the year 2000. The details of which are given below.

VETERINARY INSTITUTIONS IN THE DISTRICT FOR THE YEAR 2000

Sl. No.	Veterinary Services	No. of Institutions
1	2	3
1	Hospital	7
2	Dispensaries	29
3	Primary Veterinary Centres	79
4	Mobile Insemination Centres	6
5	Artificial Insemination Centres	11
	Total	**132**

(15) Fisheries

Fishery resources of the district consist of several major and minor tanks and two reservoirs viz., the Vanivilas Sagar and the Gayathri Reservoir. The important fishes found in the water of the district are carps, cat fishes, murrels and other miscellaneous varieties. The important fishing communities in the district are Besthas, Upparas, Bedas.

For the development of fisheries in the district, there is fisheries department which has taken an intensive fisheries development. The Fishermen's Co-operative Society chiefly engaged in the exploitation of fishery resources. The society market the catches of the members and supplies them with the fishery requisites.

The fishing activities of the district has been confirmed to that of the inland fishing only as there is no coastal line in the district. However, in the district there are 6 fish rearing farms. There are no ice plants, cold storages, freezing plant, etc. in the district. Fishermen population in the district is 4692. Out of which 799 are active fishermen. The district place at 24th rank. There are 8 fishing co-operative societies in the district.

From the point view of development the State Government has introduced various welfare schemes such as saving cum relief scheme. Group accident insurance for the active fisher men. Development of model villages for fisher men establishment of district relief fund with a view to improve the socio-economic condition of fishermen in the district.

Below given table highlight in brief the fishing activity in the district.

FISHING ACTIVITY IN THE DISTRICT

Fish Seed Stocked	In lakh fingerlings
a) Reservoirs	5.47
b) Major Tanks	44.48
c) Minor Tanks	1.00
Total	**50.95**
Estimated Fish Production	**In MTs**
a) Cultured	2,290.90
b) Natural	655.72
Total	**2,956.62**

(16) Industries

Chitradurga was one of the highly industrialized district of the State. With the creation of a new district called Davanagere, Chitradurga presently cannot boast itself to be an advanced district in terms of industrial popularity, as the major industrial area of the erstwhile

Chitradurga now comes under the jurisdiction of Davanagere district. Mining is a developing industry in the district. The Vani Vilas Co-operative Sugar Factory at Hiriyur is under lock out. Another important old time industry of the district is production of edible and non-edible oil by the use of oil Ghanas. Oil processing is the hereditary occupation of the people belonging to the Ganigas. Besides this there are a few small scale industrial units and there are a few rice mills. Handloom weaving industry is household industry especially in Chitradurga, Molakalmuru and Hosdurga taluks. There are 188 factories in the district given employment to 7912 persons.

TALUKWISE DETAILS OF MAJOR FACTORIES FOR THE YEAR 1998-99

Name of Taluk	Number of Factories in the District					No. Employed
	Textiles	Chemicals	Engineering	Others	Total

(17) Trade and Commerce

Banking in the modern sense was almost unknown in the old days, `Kaisala' or the hand loan was popular in the rural areas of district then. But, presently branches of many banks have been opened in all taluks to cater to the needs of public. These banks have financed the needy persons engaged in agriculture, business, transport and other activities. Cotton is the main commodity having a marketable surplus in the district. Next is ground nut. Jowar, tamarind, black gram, sesamum and millets are the other commodities. The chief places of business in the district are Hiriyur, Molakalmuru and Chitradurga. Molakalmuru is the chief centre for silk fabrics which are in great demand. Chitradurga town is known for its trade in grains and cotton. Talukwise details of banks are given in the table below.

TALUKWISE DETAILS OF BANKS IN THE DISTRICT

Name of Taluk	Number of Banks as on 31.03.1999				
	Commercial Banks	Regional Rural Banks	Urban Co-op Banks	Dist. Central Co-op Banks	State Agricultural & Rural Dev. Banks

There are number of co-operative societies discharging useful functions. Besides, there are 14 regulated markets established at different places in the district to regularise the sale of these commodities.Consequent on growth of population and rapid urbanisation of places retail trade has spread all over. Weekly shandies are held in many places in the district. A large volume of business is transacted in the largest weekly fair which will be held regularly in Challakere. The below given table gives the details of number of co-operative societies in the district.

NUMBER OF CO-OPERATIVE SOCIETIES IN THE DISTRICT

Name of Taluk	Co-operation and Agricultural Marketing as on 31.03.99

(18) Transport and communication

The modern means of conveyance in the district are buses, lorries, auto-rickshaws, motor cars, motor cycles and bicycles.

The district headquarters is well connected to every nook and corner of the district. K.S.R.T.C. has introduced hi-tech buses to many places in the State which pass through Chitradurga town. Besides these, many express and shuttle buses ply in Chitradurga district.

A broad gauge Railway route of length 167 Kms is constructed in the district. The trains on this route pass through the district headquarters. There is no meter gauge railway route in the district. The details of various facilities available under transport and communication for the year 1998-99 are given in the following table.

(19) Electricity and Power

Karnataka has a place of pride in the history of power generation in the country. KPTCL - Karnataka Power Transmission Corporation Limited (erstwhile KEB) is mainly vested with the functions of transmission and distribution of power in the entire state. The Corporation has been attaching great importance to electrification of villages and hamlets, tribal colonies and harijan basthis and energisation of irrigation pumpsets. Besides, this with a view to benefit weakest among the section of society schemes called Bhagya Jyothi / Kutir Jyothi have been introduced.

Statement gives below shows talukwise number of villages electrified and talukwise energisation of IP as on 31.3.1999 in Chitradurga District.

(v) CENSUS CONCEPT

Building

A 'Building' is generally a single structure on the ground. Sometimes it is made up of more than one component unit which are used or likely to be used as dwellings (residences) or establishments such as shops, business houses, offices, factories, workshops, worksheds, Schools, places of entertainment, places of worship, godowns, stores etc. It is also possible that building which have component units may be used for a combination of purposes such as shop-cum-residence, workshop-cum-residence, office-cum-residence, etc.

Usually a structure will have four walls and a roof. But in some areas the very nature of construction of houses is such that there may not be any wall. Such is the case of conical structures where entrance is also provided but they may not have any walls. Therefore, such of the conical structures are also treated as separate buildings.

Permanent houses

Houses, the walls and roof of which are made of permanent materials. The material of walls can be any one from the following, namely, galvanized iron sheets or other metal sheets, asbestos sheets, burnt bricks, stones or concrete. Roof may be made of from any one of the following materials, namely, tiles, slate, galvanized iron sheets, metal sheets, asbestos sheets, bricks, stones or concrete.

Semi-permanent houses

Houses in which either the wall or the roof is made of permanent material and the other is made of temporary material.

Temporary houses

Houses in which both walls and roof are made of materials, which have to be replaced frequently. Walls may be made from any one of the following temporary materials, namely, grass, thatch, bamboo, plastic, polythene, mud, unburnt bricks or wood. Roof may be made from any one of the following temporary materials, namely, grass, thatch, bamboo, wood, mud, plastic or polythene.

Dwelling Room

A room is treated as a dwelling room if it has walls with a doorway and a roof and should be wide and long enough for a person to sleep in, i.e. it should have a length of not less than 2 meters and a breadth of at least 1.5 meters and a height of 2 meters. A dwelling room would include living room, bedroom, dining room, drawing room, study room, servant's room and other habitable rooms. Kitchen, bathroom, latrine, store room, passage-way and verandah which are not normally usable for living are not considered as dwelling rooms. A room, used for multipurpose such as sleeping, sitting, dining, storing, cooking, etc., is regarded as a dwelling room. In a situation where a census house is used as a shop or office., etc., and the household also stays in it then the room is not considered as a dwelling room. But if a garage or servant quarter is used by a servant and if she/ he also lives in it as a separate household then this has been considered as a dwelling room available to the servant's household. Tent or conical shaped hut if used for living by any household is also considered as dwelling room.

A dwelling room, which is shared by more than one household, has not been counted for any of them. If two households have a dwelling room each but in addition also share a common dwelling room, then the common room has not been counted for either of the households.

Census House

A ‘census house’ is a building or part of a building used or recognised as a separate unit because of having a separate main entrance from the road or common courtyard or staircase, etc. It may be occupied or vacant. It may be used for residential or non residential purpose or both.

In certain peculiar situations, the manner in which buildings and census houses were identified for numbering in the field by the enumerators is described hereunder:

Sometimes a series of different buildings are found along a street which are joined with one another by common walls on either side looking like a continuous structure. These different units are practically independent of one another and are likely to have been built at different times and owned by different persons. In such cases, though the whole structure with all the adjoining units apparently appears to be one building, each portion was treated as a separate building and its constituent units as separate census houses.

On the other hand, one may come across cases, particularly in large cities of multistoreyed ownership flats. In these cases while the structure looks like one building, different persons own the flats. In case of such multistoreyed structures, having a number of flats owned by different persons, the entire structure was treated as one building and each flat as a separate census house.

If within a large enclosed area, there are separate buildings owned by different persons then each such building is treated as a separate building. There can be a situation where within an enclosed compound there are separate buildings owned by an undertaking or company or even government that are actually in occupation of different persons. For example, Indian Oil Corporation colony where the buildings are owned by the Corporation but these are in occupation of their employees. Each such building was treated as a separate building. But if in any one of these buildings there were flats in occupation of different households, each such flat was reckoned as a separate census house.

Sometimes it becomes difficult to apply the definition of census house strictly in certain cases. For example, in an urban area, if a flat has five rooms, each room having direct entrance from the common staircase or courtyard, by definition, this has to be treated as five census houses. If all these five rooms are occupied by a single household it was not realistic to treat them as five census houses. In such a case,`singleness' of use of these rooms along with the main house should be considered and the entire flat was treated as one census house. On the other hand, if two independent households occupy these five rooms, the first household living in 3 rooms and the second household occupying 2 rooms, then considering the use, the first three rooms together were treated as one census house and the remaining rooms as another census house. But if each room was occupied by an independent household, then each such room was treated as a separate census house.

In case of hostels, hotels, etc., even if the door of each room in which an inmate lives opens to a common verandah, staircase, courtyard or a common room, as it happens almost invariably, the entire hostel/ hotel building was treated as one census house. But if such hostels/ hotels have out houses or other structures used for different purposes or the same purpose, then each such structure attached to the main hostel / hotel was treated as a separate census house.

In some parts of the country, in rural areas, the pattern of habitation is such that a group of huts, located in a compound, whether enclosed or unenclosed, is occupied by one household. While the main residence may be located in one hut, other huts may be used for sleeping, as a kitchen, bath room, baithak, etc. Though each of the huts was a separate structure, they form a single housing unit and therefore, have to be treated collectively as one building and one census house. If some of the huts are used by one household and the others by a second household as residence, then the two groups of huts were treated as separate census houses. However, if there were also other huts in the compound used for other purposes and not as part of the household's residence such as, cattle shed, workshed, etc., these were treated as separate census houses.

On the other hand, in urban areas, where more than one structure within an enclosed or open compound (premises) belonging to the same person, e.g., the main house, the servant's quarter, the garage, etc., only one building number was given for this group and each of the constituent a separate census house number.

Only cases where a structure with roof and pillars has come up was treated as a building.

Village

The basic unit for rural areas is the revenue village which has definite surveyed boundaries. The revenue village may comprise of one or more hamlets but the entire village is treated as one unit for presentation of data. In unsurveyed areas, like villages within forest areas, each habitation area with locally recognized boundaries is treated as one village.

Rural-Urban area

The data in tables on Houses, Household Amenities and Assets are presented separately for rural and urban areas. The unit of classification in this regard is 'town' for urban areas and 'village' for rural areas. In the Census of India 2001, the definition of urban area adopted is as follows:

a) All places with a municipality, corporation, cantonment board or notified town area committee, etc.

b) A place satisfying the following three criteria simultaneously:

   i) A minimum population of 5,000;

   ii) at least 75 per cent of male working population engaged in non- agricultural pursuits and

   iii) a density of population of at least 400 per sq.km.(1,000 per sq.mile)

For identification of places which would qualify to be classified as 'urban' all villages, which, as per the 1991 Census had a population of 4,000 and above, a population density of 400 persons per sq. km. and having at least 75 per cent of male working population engaged in nonagricultural activity were considered. To work out the proportion of male working population referred to above against b) (ii), the data relating to main workers were taken into account.

Apart from these, the outgrowths (OGs) of cities and towns have also been treated as urban under 'Urban Agglomerations'. Examples of outgrowths are railway colonies, university campuses, port areas, military camps, etc., that may have come up near a statutory town or city but within the revenue limits of a village or villages contiguous to the town or city. Each such individual area by itself may not satisfy the demographic criteria laid down at (b) above to qualify it to be treated as an independent urban unit but may deserve to be clubbed with the towns as a continuous urban spread. Thus, the town level data, wherever presented, also includes the data for outgrowths of such towns.

City

Towns with population of 100,000 and above are called cities.

Urban Agglomeration

An Urban Agglomeration is a continuous urban spread constituting a town and its adjoining urban outgrowths (OGs) or two or more physically contiguous towns together and any adjoining urban outgrowths of such towns. In some cases railway colonies, university campuses, port areas, etc., may come up near a city or statutory town outside its statutory limits but within the revenue limits of a village or villages contiguous to the town or city. Each such individual area by itself may not satisfy the minimum population limit to qualify it to be treated as an independent urban unit but may deserve to be clubbed with the town as a continuous urban spread.

For the purpose of delineation of Urban Agglomerations during Census of India 2001, following criteria are taken as pre-requisites:

(a) The core town or at least one of the constituent towns of an urban agglomeration should necessarily be a statutory town; and

(b) The total population of all the constituents (i.e., towns and outgrowths) of an Urban Agglomeration should not be less than 20,000 (as per the 1991 Census).

With these two basic criteria having been met, the following are the possible different situations in which Urban Agglomerations would be constituted:

i) a city or town with one or more contiguous outgrowths;

ii) two or more adjoining towns with their outgrowths; and

iii) a city and one or more adjoining towns with their outgrowths all of which form a continuous spread.

Household

A 'household' is usually a group of persons who normally live together and take their meals from a common kitchen unless the exigencies of work prevent any of them from doing so. Persons in a household may be related or unrelated or a mix of both. However, if a group of unrelated persons live in a census house but do not take their meals from the common kitchen, then they are not constituent of a common household. Each such person was to be treated as a separate household. The important link in finding out whether it was a household or not was a common kitchen. There may be one member households, two member households or multimember households.

Institutional Household

A group of unrelated persons who live in an institution and take their meals from a common kitchen is called an Institutional Household. Examples of Institutional Households are boarding houses, messes, hostels, hotels, rescue homes, jails, ashrams, orphanages, etc. To make the definition more clearly perceptible to the enumerators at the Census 2001, it was specifically mentioned that this category of households would cover only those households where a group of unrelated persons live in an institution and share a common kitchen.

Houseless Household

Households who do not live in buildings or census houses but live in the open on roadside, pavements, in hume pipes, under flyovers and staircases, or in the open in places of worship, mantaps, railway platforms, etc., are treated as Houseless Households.

Scheduled Castes and Scheduled Tribes

Article 341 of the Constitution provides that the President may, with respect to any State or Union territory, specify the castes, races or tribes or parts of or groups within castes, races or tribes which shall for the purposes of the Constitution be deemed to be Scheduled Castes in relation to that State or Union territory. Article 342 similarly provides for specification of tribes or tribal communities or parts of or groups within tribes or tribal communities which are to be deemed for the purposes of the Constitution to be Scheduled Tribes in relation to the various States and Union territories. In pursuance of these provisions, the list of Scheduled Castes and / or Scheduled Tribes are notified for each State and Union territory and are valid only within the jurisdiction of that State or Union territory and not outside.

It is important to mention here that under the Constitution (Scheduled Castes) Order, 1950, no person who professed a religion different from Hinduism was deemed to be a member of a Scheduled Castes in addition to every member of the Ramdasi, Kabirpanthi, Majhabi or Sikligar caste resident in Punjab or Patiala and East Punjab States Union were in relation to that State whether they professed the Hindu or the Sikh religion. Subsequently, in September 1956, by an amendment, the Presidential Order of 1950 and in all subsequent Presidential Orders relating to Scheduled Castes, the Hindu and the Sikh religions were placed on the same footing with regard to the specification of Scheduled Castes. Later on, as per the amendment made in the Constitution (Scheduled Castes) Order 1990, the Hindu, the Sikh and the Buddhist were placed on the same footing with regard to the recognition of the Scheduled Castes.

The list of Scheduled Castes and Scheduled Tribes are notified for each State and Union Territory and are valid only within the jurisdiction of that State or Union Territory and not outside. In respect of Karnataka State the Scheduled Castes and Scheduled Tribes as contained in the Scheduled Castes & Scheduled Tribes Orders (Amendment) Act, 1976 are valid for the purpose of Census of India, 2001. With the promulgation of Act 39 of 1991 however, the sub entries Naik, Nayak, Beda, Bedar and Valmiki were added under the main entry at S.No. 38 (Naikda, Nayaka, …..) of the Scheduled Tribes list of the State. There are in all 101 Scheduled Castes and 49 Scheduled Tribes in the State which are listed below:

List of Scheduled Castes

1 Adi Andhra
2 Adi Dravida
3 Adi Karnataka
4 Adiya (in Coorg district)

Language and Mother tongue

As per the Census concept, each language is a group of mother tongues. The census questionnaire collects information on the mother tongue of each person and mother tongue is defined as the language spoken in childhood by the person's mother to the person. If the mother died in infancy, the language mainly spoken in the person's home in childhood will be the mother tongue. In the case of infants and deaf mutes, the language usually spoken by the mother is considered as mother tongue. It is not necessary that the language spoken as mother tongue should have a script. The mother tongues returned by the respondents in census are classified and grouped under appropriate languages according to their linguistic characteristics.

Literate

A person aged 7 years and above who can both read and write with understanding in any language is taken as literate. A person who can only read but cannot write is not literate. It is not necessary that to be considered as literate, a person should have received any formal education or passed any minimum educational standard. Literacy could also have been achieved through adult literacy classes or through any non-formal educational system. People who are blind and can read in Braille are treated as literates.

Literacy rate

Literacy rate of the population is defined as the percentage of literates in the age group seven years and above. For different age groups the percentage of literates in that age group gives the literacy rate.

Educational level

The highest level of education a person has completed.

Work

Work is defined as participation in any economically productive activity with or without compensation, wages or profit. Such participation may be physical and/or mental in nature. Work involves not only actual work but also includes effective supervision and direction of work. It even includes part time help or unpaid work on farm, family enterprise or in any other economic activity. All persons engaged in 'work' as defined above are workers. Persons who are engaged in cultivation or milk production even solely for domestic consumption are also treated as workers.

Reference period for determining a person as worker and non-worker is one year preceding the date of enumeration.

Main worker

A person who has worked for major part of the reference period (i.e. six months or more during the last one year preceding the date of enumeration) in any economically productive activity is termed as ‘Main worker’.

Marginal worker

A person who worked for less than six months of the reference period (i.e. in the last one year preceding the date of enumeration) in any economic activity is termed as ‘Marginal worker’.

Non-worker

A person who has not worked at all in any economically productive activity during the reference period (i.e. last one year preceding the date of enumeration) is termed as ‘Non worker’.

Cultivator

For purposes of the Census a person is classified as cultivator if she or he is engaged in cultivation on land owned or held from government or held from private persons or institutions for payment in money, kind or share. Cultivation includes effective supervision or direction in cultivation.

A person who has given out her/his land to another person or persons or institution(s) for

cultivation for money, kind or share of crop and who does not even supervise or direct cultivation in exchange of land, is not treated as cultivator. Similarly, a person working on another person's land for wages in cash or kind or a combination of both (agricultural labourer) is not treated as cultivator.

Cultivation involves ploughing, sowing, harvesting and production of cereals and millet crops such as wheat, paddy, jowar, bajra, ragi, etc., and other crops such as sugarcane, tobacco, groundnuts, tapioca, etc., and pulses, raw jute and kindred fiber crop, cotton, cinchona and other medicinal plants, fruit growing, vegetable growing or keeping orchards or groves, etc. Cultivation does not include the following plantation crops - tea, coffee, rubber, coconut and betelnuts (areca).

Agricultural labourer

A person who works on another person's land for wages in cash or kind or share is regarded as an agricultural labourer. She/he has no risk in the cultivation, but merely works on another person's land for wages. An agricultural labourer has no right of lease or contract on land on which she/he works.

Household industry worker

Household industry is defined as an industry conducted by the head of the household herself/himself and or by the members of the household at home or within the village in rural areas and only within the precincts of the house where the household lives in urban areas. The larger proportion of workers in household industry should consist of members of the household including the head. The industry should not be run on the scale of a registered factory which would qualify or has to be registered under the Indian Factories Act and should be engaged in manufacturing, processing, servicing and repairs of goods. A person who has been engaged in the economic activity like above is termed as Household Industry Worker.

It does not include professions such as a pleader, Doctor, Musician, Dancer, Waterman, Astrologer, Dhobi, Barber, etc. or merely trade or business, even if such professions, trade or services are run at home by members of the household.

Other worker

A person who has been engaged in some economic activity during the reference period but not as a cultivator or agricultural labourer or in Household Industry is termed as an 'Other Worker (OW)'. The type of workers that come under this category of 'OW' include all government servants, municipal employees, teachers, factory workers, plantation workers, those engaged in trade, commerce, business, transport, banking, mining, construction, political or social work, priests, entertainment artists, etc. In effect, all those workers other than cultivators or agricultural labourers or household industry workers, are 'Other Workers'.

Work participation rate

Percentage of workers (main + marginal) to total population.

Population density

Population density is the number of persons inhabited per square kilometer of the area.

Age

Age is measured in terms of the completed number of years.

Sex ratio

Number of females per 1,000 males in a population

(vi) NON-CENSUS CONCEPTS

Improved drinking water

If the household had access to drinking water supplied from a tap, hand pump, tube well or well (protected or covered) situated within or outside the premises, it is considered as having access to improved drinking water.

It may be mentioned that such uniform definition may not be valid across all states.

System of sewerage

Generally, a sewerage system would mean a network of mains and branches of underground conduits for the conveyance of sewerage to the point of disposal. Sewers that carry only household and industrial wastage are called separate sewers; those that carry storm water from roofs, streets and other surfaces are known as storm water drains, while those carrying both sewage and storm water are called combined sewers. However, in some towns which are not provided with such underground sewerage system, it is served by open surface drain, box drain, sylk pattern drain, etc., in these towns.

Type of latrine and Method of disposal of night soil.

There are three prevalent systems of disposal of human wastes, viz.(i) underground sewerage, (ii) sanitary water flush latrines with individual disposal systems, like septic tank, leaching cess pool and collecting well, and (iii) dry type of latrines with manual scavenging.

The system of underground sewerage provides for the street sewerage with which are connected the sanitary latrines constructed in the houses having water closets and fitted with flushing cistern (or hand flushing). Through this sewer the faecal matter is transported without the need for scavenging. This system generally exists in cities and big towns.

Where the streets sewer does not exist these sanitary water flush latrines are connected to a local septic tank with a subsoil dispersion system or a leaching pit. Here the liquid wastes from the water closet is disposed of locally in leaching pit, a septic tank with a soil dispersion system is constructed. This dispersion requires an optimum travel through the pores of the soil which renders the harmful liquid bacterially innocuous by the slow process of filtration through the soil traversed.

Where the soil is impermeable, collecting wells are constructed and the sanitary water flush latrines are connected with them. These wells are cleaned at periodic intervals by a suitable device. The dry type of latrines are of service type latrines from where human excreta is removed by scavengers from house to house, in most cases carrying it on their heads or shoulders or in baskets with handle or wheel barrows. These are then collected in bullock carts or trucks or tractors and trolleys for being carried to the dumping grounds.

Fertility

In demography, the word fertility is used in relation to the actual production of children or occurrence of births specially live births. Fertility is a measure of rate at which population adds to itself by births and normally assessed by relating the number of births to a full or part of the population, such as number of married women or number of women of childbearing age. The definitions of the terminology used in computing different fertility rates are mentioned below:

Crude birth rate (CBR)

Ratio of the number of live births in a year to the mid year population, normally expressed per 1,000 population.

$$CBR = \frac{\text{Number of live births during the year}}{\text{Mid –year Population}} \times 1,000$$

Crude death rate (CDR)

Ratio of the number of deaths in a year to the mid year population, normally expressed per 1,000 population.

$$CDR = \frac{\text{Number of deaths during the year}}{\text{Mid year Population}} \times 1,000$$

Natural growth rate

Growth rate is obtained as the difference between crude birth rate and crude death rate in the absence of migration.

Age specific fertility rate (ASFR)

Number of live births in a year to female population in any specified age group normally expressed per 1,000 women.

$$ASFR = \frac{\text{Number of live births in a particular age group}}{\text{Midyear female population of the same age group}} \times 1,000$$

Age specific marital fertility rate (ASMFR)

Number of live births in a year to married female population in any specified age group normally expressed per 1,000 married women.

$$ASMFR = \frac{\text{Number of live births in a particular age group}}{\text{Midyear married female population of the same age group}} \times 1,000$$

General fertility rate (GFR)

Number of live births per 1,000 women in the reproductive age-group (15-49) years in a given year.

$$GFR = \frac{\text{Number of live births in a year}}{\text{Midyear female population in the age-group (15-49) years}} \times 1,000$$

General marital fertility rate (GMFR)

Number of live births per 1,000 married women in reproductive age-group (15-49) years in a given year.

$$GMFR = \frac{\text{Number of live births in a year}}{\text{Midyear married female population in the age-group(15-49) Yrs}} \times 1{,}000$$

Total fertility rate (TFR)

It is obtained as the total of the age specific fertility rates (number of children born per woman of the particular age) for the entire reproductive age span. It provides the average number of children that will be born to a woman under the fertility levels indicated by the age specific fertility rates assuming that there is no mortality of women till the completion of reproductive period.

$$TFR = \frac{5 \times \sum_{15-19}^{45-49} ASFR}{1{,}000}$$

Total marital fertility rate (TMFR)

Average number of children that would be born to a married woman if she experiences the current fertility pattern throughout her reproductive span (15-49) years assuming that there is no mortality of women till the completion of reproductive period.

$$TMFR = \frac{5 \times \sum_{15-19}^{45-49} ASMFR}{1{,}000}$$

Age specific mortality rate (ASMR)

Number of deaths in a particular age and sex group per 1,000 population of the same age group.

$$ASMR = \frac{\text{Number of deaths in a particular age group}}{\text{Midyear population of the same age group}} \times 1{,}000$$

q_1

Probability of dying between birth and age 1. This can be used as approximate value of Infant Mortality Rate (IMR) which gives the ratio of number of deaths in a year of children aged less than one year to the number of births in that year.

q_2

Probability of dying between birth and age 2.

q_5

Probability of dying between birth and age 5. This indicator is also known as Under Five Mortality Rate (U_5MR)

Infant mortality rate (IMR)

Ratio of the number of infant deaths (deaths of children below one year) in a year to the number of live births in that year.

$$IMR = \frac{\text{Number of infant deaths during the year}}{\text{Number of live births during The year}} \times 1{,}000$$

Infant mortality rate comprises of two parts, viz., Neonatal mortality rate and Post neonatal mortality rate. The neonatal mortality rate also comprises of two parts viz., early neonatal mortality rate and late neonatal mortality rate. These are defined as:

Neo-natal mortality rate (NMR)

Number of infants dying within the first month of life (28 days or under) in a year per 1,000 live births of the same year.

$$NMR = \frac{\text{Number of infant deaths aged 28 days or under during the year}}{\text{Number of live births during the year}} \times 1{,}000$$

Early neo-natal mortality rate

$$= \frac{\text{Number of infant deaths of less than 7 days during the year}}{\text{Number of live births during the year}} \times 1{,}000$$

Late neo-natal mortality rate

$$= \frac{\text{Number of infant deaths of 7 days to less than 29 days during the year}}{\text{Number of live births during the year}} \times 1{,}000$$

Post neo-natal mortality rate (PNMR)

$$= \frac{\text{Number of deaths of 29 days to less than one year during the year}}{\text{Number of live births during the year}} \times 1,000$$

Perinatal mortality rate (PMR)

Number of stillbirths plus deaths within 1st week of delivery per 1,000 births in a year.

$$PMR = \frac{\text{Number of stillbirths and infant deaths of less than 7 days during the year}}{\text{Number of live births and stillbirths during the year}} \times 1,000$$

Still birth rate (SBR)

$$= \frac{\text{Number of stillbirths during the year}}{\text{Number of live births and stillbirths during the year}} \times 1,000$$

Maternal mortality rate (MMR)

Number of deaths of women in the age group 15-49 while pregnant or within 42 days of termination of pregnancy from any cause related to pregnancy and child birth per 100,000 live births in a given year.

$$MMR = \frac{\text{Number of maternal deaths to women in the age group 15-49}}{\text{Number of live birth}} \times 100,000$$

Eligible couple (Couples per 1,000 population)

Number of currently married females in the age group15-44 years per 1,000 persons of all ages.

Child woman ratio (0-4)

1. Number of children in the age group 0-4 years per 1,000 women in the age group 15-49 years.

Child woman ratio (5-9)

2. Number of children in the age group 5-9 years per 1,000 women in the age group 15-49 years.

Migration

Migration is the third component of population change, the other two being mortality and fertility.

A person is considered as a migrant by place of birth if the place in which he/she is enumerated during the census is other than the place of his/her birth.

Similarly a person is considered as a migrant by place of last residence if the place in which he/she is enumerated during the census is other than his/her place of immediate last residence outside the village or town and not simply in another house or locality in the same village or town.

Certain aspects concerning temporary movement/ migration of people has been explained below as these are important components concerning migration :

i) Migration of persons in search of job is high in the country. In many cases such migrants are only seasonal in nature. People migrate to other places for work in a particular season and come back again to their usual place of residence after three or four months. All such workers are treated as migrants. Similarly, if a person moved to any other place for attending short term vocational or educational course that lasted for only few months of a year, she/he too were considered as a migrant.

ii) Where a person had merely gone out to another place or had been shifting from one place to another purely on tour, pilgrimage, visit to hospital for treatment or for temporary business purposes, such persons are not deemed to have had another residence different from the place where she/he or her/his family normally resides. She/he is not considered as migrant.

iii) A woman temporarily moves into a hospital or to her parents or other relative's house for delivery and if the hospital or the parents/relatives houses is in a place different from usual place of residence, the place where the hospital or parents/ relative's house is the place of last residence of the child but not of the mother.

A new response category 'Moved after birth' was added in Census of India 2001 in the question on 'reasons for migration' to bring out additional migration patterns. Natural calamities or distress migration as a reason for migration for last residence migrants included in 1991 Census, is covered under category of ‘Others’. The reason for migration has been determined as applicable at the time of migration and not in reference to any point of time after that. For example, if a person had moved from the place of her/his last residence for the purpose of education and subsequently at some point of time got employment there only, the reason for migration would be 'education and not ‘work/employment’.

Internal and International migration

The migrational movements are of three types (i) Migration within the state itself with its components (a) Migration within the district of enumeration (intra district migration) (b) Migration from one district of state to another district of state (inter district migration), (ii) Migration from one state to another State of the country (interstate migration), (iii) Migration from one country to another country. The first two streams together constitute internal migration, while the last type of movement is called international migration. The present name of the country, state or district and not the name by which they were known at the time of her/his birth or last residence were recorded.

Rural-Urban components of migration

Rural or Urban status in respect of migrants have been determined as applicable at the time of migration and not with reference to any point of time after that.

The flow of migrants consists of four streams viz. rural to rural, rural to urban, urban to rural and urban to urban.

Civic status of urban units

Civic Status of a town/city is determined on the basis of Civic Administrative authority of the town e.g., Municipal Corporation/ Corporation, Municipal Committee/Municipal council, Municipality etc.

Size class of UA / town

Size class of UA/Town is based on the population size of the UA/City/Town. UAs./Towns with 100,000 and above population are classified as Class I UAs. / towns. These Class I UAs. / towns are now further sub classified in to seven sub classes namely M1 to M7 depending on the population size of UA/City/ Town. These are M7 (5,000,000 and above); M6 (2,000,000- 4,999,999); M5 (1,000,000-1,999,999); M4 (500,000-999,999); M3(300,000-499,999); M2 (200,000-299,999) & M1 (100,000-199,999). Towns with, 50,000 to 99,999 population are classified as Class II towns, 20,000 to 49,999 population are Class III towns, population with 10,000-19,999 are Class IV towns, population with 5,000 and 9,999 are Class V towns and towns with less than 5,000 population are Class VI towns.

Slum area

The Slum Areas (Improvement and Clearance) Act, 1956 which was enacted by the Central Govt. defined slums as a) Areas where buildings are in any respect unfit for human habitation; or b) are by reasons of dilapidation, overcrowding, fault arrangement and design of such buildings, narrowness or faulty arrangement of streets, lack of ventilation, light or sanitation facilities, or any combination of these factors, are detrimental to safety, health or morals.

Mega city

The concept of 'Mega city' is a recent phenomenon in the Urban Sociology and is defined in term of metropolitan city in the form of large size, problem of management of civic amenities and capacity to absorb the relatively high growth of population. Indian Census in 1991 treated the population size of 5 million and above as the cut off point to identify a place as the mega city. Whereas, for the purpose of inclusion in Centrally Sponsored Scheme for Infrastructure Development in Mega cities the Ministry of Urban Affairs and employment, Department of Urban Development adopted the criteria of 4 million and above population as per 1991 Census for Mega Cities. In 2001 Census, cities with 10 millions and above population have been treated as Mega cities.

(vii) 2001 Census Findings – Population, its Distribution:

(a) Distribution of population in Rural-Urban Areas:

According to the 2001 Census, the total population of Chitradurga district is 1,517,896, comprising 776,221 males and 741,675 females. The population of the district forms 2.9 percent of the state population and ranks at 18th place among the districts. Out of the total population of the district 81.9 percent lives in rural areas while 18.1 percent lives in urban areas. Rural population of the district is distributed among 6 taluks and urban population spread over in 6 towns. The total urban population in the district is 274,238 persons comprising 140,779 males and 133,459 females. The total rural population in the district comes to 1,243,658 persons and is composed of

635,442 males and 608,216 females as per 2001 Census. This rural population is distributed in 946 inhabited villages and there are 113 un-inhabited villages in the district.

(b) Size-class and Civic Status of towns:

The Statement below gives the position and number of urban units according to size-class of population as per 2001 Census:

SIZE-CLASS AND CIVIC STATUS OF TOWNS

Serial number	Size-Class of town	Name and civic status of town		Urban Population		
				Persons	Males	Females
1	2	3		4	5	6
1	IV	Molakalmuru	TP	14,133	7,345	6,788
2	III	Challakere	TMC	49,067	25,177	23,890
3	I	Chitradurga	CMC*	125,170	64,112	61,058
4	IV	Holalkere	TP	14,574	7,591	6,983
5	III	Hosdurga	TP	22,488	11,607	10,881
6	III	Hiriyur	TMC	48,806	24,947	23,859

Population Growth, Density and Sex-ratio:

Population Growth:

Chitradurga District witnessed a positive growth rate in each decade with 11.2, 3.7, 13.3, 9.2, 16.4, 26.0, 21.3, 21.1, 20.5 and 15.6 percent during the period 1901 to 2001. According to the 1991 Census the total population of the district was 1,312,717. There has been net addition of 205,179 persons during 1991-2001. The decadal growth rate of the district comes to 15.6 percent. The growth rate for the rural and urban areas of the district is 13.6 and 26.1 percent respectively.

Density:

The population density of Chitradurga district is 180 persons per Sq. Km. against the state average of 276 persons. At taluk level, the density varies between 156 persons in Hiriyur taluk and 277 persons in Chitradurga taluk. In rural areas it comes to 150 persons per Sq. Km., while in urban areas it comes to 2,178 persons. In urban areas, the density of population varies between 328 persons in Molakalmuru town and 22,082 persons in Holalkere town.

Sex Ratio:

There are 955 females for every one thousand males in Chitradyrga district. The sex-ratio figures for rural areas and urban areas of the district are 957 and 948 respectively. It is also observed that, the proportion of females in rural areas is higher than that of urban areas. Sex-ratio in the age-group 0-6 comes to 946 girls per 1,000 boys in the district as a whole. In rural areas, this proportion is 947, while in urban areas the sex-ratio of Child population works out to 944 girls per 1,000 boys.

Work Participation Rate:

The work participation rate is defined as percentage of total workers to total population. According to 2001 Census, the total workers including main and marginal workers constitute 47.6 percent of total population of the district. Of the total workers, the share of main workers is 79.8 percent and marginal workers is 20.2 percent. The remaining 52.4 percent of population belongs to the category of non-workers.

As per 2001 Census among the main workers male participation rate in the district is 90.3 percent and corresponding proportion of females is 63.1 percent. The proportion of female marginal workers is higher than male marginal workers, as the females are attending to one or more economic activities in addition to their household duties to improve the family income. Majority of the workers are engaged in agricultural activities. Of the total 721,835 workers in the district, 38.4 percent of these total workers are categorized as cultivators, 33.4 percent agricultural labourers, 3.3 percent in household industries and 24.8 percent in other services.

Literacy:

A person who can read and write in any language is considered as literate in Census. All children of age below 7 years are treated as illiterate.

As per 2001 Census, Chitradurga district has reported 849,690 persons as literates constituting 64.5 percent of the total population excluding the population of 0-6 years. The male and female literacy rates in the district are 74.7 and 53.8 percent respectively. The literacy rate of males is higher than that of females. The gap in the male - female literacy rate is 20.9 in the district.

The total literacy rates of rural and urban area are 60.7 and 81.1 percent respectively. The male and female literacy rates in rural areas are 71.8 and 49.1 percent respectively. In urban areas these rates are 87.2 and 74.7 percent respectively. The gap in male - female literacy rates in urban areas is 12.5 as against 22.7 in rural areas. It is thus clear that females are better educated in urban areas than their counterparts in rural areas.

(c) Scheduled Castes and Scheduled Tribes Population 2001:

Of the 1,517,896 total population of the district 22.2 percent of the total population belong to Scheduled Castes and 17.5 percent to Scheduled Tribes. The percentage of Scheduled Castes constitute 82.7 percent in r ural areas and 17.3 percent in urban areas. The proporation of Scheduled Tribes is 83.8 and 16.2 in rural and urban areas respectively.

(viii) Brief analysis of PCA data based on inset tables 1 to 36

Following tables, which presents the data on population with in the district with brief notes will provide an overview of the district.

TABLE 1: DECADAL CHANGE IN POPULATION OF TALUKS BY RESIDENCE, 1991-2001

Taluk	Population						Percentage decadal variation 1991-2001			Percentage Urban Population	
	1991			2001							
	Total	Rural	Urban	Total	Rural	Urban	Total	Rural	Urban	1991	2001
1	2	3	4	5	6	7	8	9	10	11	12
Molakalmuru	103,536	94,857	8,679	126,742	112,609	14,133	22.4	18.7	62.8	8.4	11.2
Challakere	279,387	241,018	38,369	332,718	283,651	49,067	19.1	17.7	27.9	13.7	14.7
Chitradurga	322,032	218,597	103,435	376,506	251,336	125,170	16.9	15.0	21.0	32.1	33.2
Holalkere	179,210	166,989	12,221	197,766	183,192	14,574	10.4	9.7	19.3	6.8	7.4

District Total:	**1,312,717**	**1,095,247**	**217,470**	**1,517,896**	**1,243,658**	**274,238**	**15.6**	**13.6**	**26.1**	**20.9**	**18.1**

Decadal variation in population of taluks by residence is indicated in the above table. Data reveals that over all growth of 15.63 per cent has been recorded in the district during the decade. The growth of population in rural areas of the district is 13.55 per cent, while in urban areas it is 26.10 per cent. Thus, the population of district has grown faster in urban areas.

Among the taluks Molakalmuru has registered highest growth in total population as well as urban population.

TABLE 2: NUMBER AND PERCENTAGE OF INHABITED VILLAGES IN SPECIFIED POPULATION SIZE RANGES WITH THE RELATED POPULATION, 2001

Sl. No.	District / C.D. block	Total number of inhabited villages	Total rural population			Number and percentage of villages	Population less than 200	
			Persons	Males	Females		Males	Females
1	2	3	4	5	6	7	8	9
1	Molakalmuru	78	112,609	57,842	54,767	10 (12.8)	257	229

The above table indicates the number and per cent of inhabited villages with different population size ranges as per 2001 census. Data reveals that out of 946 inhabited villages, highest number of villages 309(32.7 per cent) are in the population range of 1000-1999. Only two villages are having a population range of 10,000 and above. About 89 villages (9.4 per cent) are having population less than 200. Other details can be observed from the table no. 2 above.

TABLE 3 : NEW TOWNS, DENOTIFIED, DECLASSIFIED AND MERGED TOWNS

			Name of Town
(a)	**New**		
	(i)	Statutory Town	Nil
	(ii)	Census Town	Nil
(b)	**Denotified**		
	(i)	Statutory towns of 1991 Census denotified and also did not satisfy the criteria to be treated as Census towns	Nil
	(ii)	Statutory towns of 1991 Census denotified but identified as Census towns based on demographic and economic criteria	Nil
	(iii)	Census towns of 1991 Census are notified as Statutory towns in 2001 census	1. Molakalmuru (MP) 2. Holalkere (MP) 3. Hosadurga (MP)
(c)	**Declassified**		Nil
(d)	**Wholly merged with other Towns**		Nil

Declassified means the Census towns of 1991 Census which failed to satisfy the demographic and economic criteria.

TABLE 4: DISTRIBUTION OF VILLAGES BY POPULATION DENSITY, 2001

Range of population density (per square kilometre)	Total number of villages in each population density range	Percentage of villages in each population density range	Population	Percentage distribution of population
1	2	3	4	5
0-10	32	3.4	1,235	0.1
11-20	18	1.9	2,964	0.2
21-50	47	5.0	14,511	1.2
51-100	138	14.6	108,745	8.7
101-200	377	39.9	533,799	42.9
201-300	192	20.3	289,261	23.3
301-500	97	10.3	177,466	14.3
501 +	45	4.8	115,677	9.3
Not known	-	0.0	-	0.0
District Total:	**946**	**100.0**	**1,243,658**	**100.0**
Population Density (Rural) of the district:		**160.7**		

Distribution of villages of population density and ranges are presented in this table. The density of population for the district rural is 160.7 person/sq. km. If the villages are distributed by different ranges of population density the picture that would emerge for the rural population of the district would be as indicated in the above Table No.4. Highest no of 377 (39.9 per cent) of villages comprising a population of 533,799 falls in population density range of 101-200. About 192 (20.3 per cent) of villages with a population of 289,261 comes under the population density range of 201-300.

TABLE 5 : SEX RATIO OF STATE AND DISTRICT 1901-2001

Census Years	Karnataka			Census Years	Chitradurga		
	Total	Rural	Urban		Total	Rural	Urban
1	2	3	4	5	6	7	8
1901	983	984	976	1901	967	964	999
1911	981	984	960	1911	968	969	942
1921	969	975	936	1921	947	948	934
1931	965	972	927	1931	952	955	913
1941	960	965	935	1941	937	940	911
1951	966	974	941	1951	942	951	865
1961	959	973	913	1961	942	951	875
1971	957	971	913	1971	946	956	879
1981	963	978	926	1981	952	960	904
1991	960	973	930	1991	951	957	919
2001	965	976	940	2001	955	957	948

The above table gives the sex-ratio for the rural and urban population of the state as well as that of the district from 1901 to 2001 census.

It is observed that the state has recorded a decrease in the sex-ratio since 1901 census (983). However in 2001 census, the state has registered a better sex-ratio of 965 little higher than the ratio of 1991 Census (960).

For the district, the sex-ratio in 1901 Census was 967, which with some fluctuations gradually decreased over the decades. However, in 2001 Census, the district has recorded a sex-ratio of 955, slightly better than that of 1991 Census (951). It is also observed that the sex-ratio in 2001 Census for the district (955), is less than that for the state (965).

Again, the ratio for the rural women in 2001 Census is comparatively better than, that for the urban women in the state but vice-versa for the district.

TABLE 6 : SEX RATIO BY TALUKS, 2001

Sl. No.	Name of Taluk	Sex ratio		
		Total	Rural	Urban
1	2	3	4	5
1	Molakalmuru	944	947	924
2	Challakere	953	954	949
3	Chitradurga	947	944	952
4	Holalkere	962	965	920
5	Hosadurga	971	975	937
6	Hiriyur	958	959	956
	District Total:	**955**	**957**	**948**

This table gives the talukwise sex ratio for rural and urban population as per 2001 census. It is observed from the above table that the sex ratio for rural areas is 957 and urban area is 948. The sex ratio is highest in Hosadurga taluk and low in Molakalmuru taluk. Whereas in urban areas highest (956) sex ratio reported from Hiriyur taluk.

The sex ratio of the district as a whole is 955 female per 1000 males.

TABLE 7: SEX RATIO BY CD BLOCKS, 2001

Sl. No.	Name of C. D. Block	Sex ratio
1	2	3
1	Molakalmuru	947
2	Challakere	954
3	Chitradurga	944
4	Holalkere	965
5	Hosdurga	975
6	Hiriyur	959
	District (Rural) Total:	**957**

This table highlights the data on sex ratio by CD Blocks which includes all villages in the district. The sex ratio for the district rural is 957. Among the C.D Blocks highest sex ratio 975 is noticed in Hosadurga followed by Holalkere (965) which is above the district rural sex ratio. Whereas lowest in sex ratio reported from Chitradurga CD Block, (944).

TABLE 8 : SEX RATIO OF RURAL POPULATION BY RANGES, 2001

Range of sex ratio for villages	Number of inhabited villages	Percentage of villages in each range	Population 2001	Percentage distribution of population
1	2	3	4	5
Less than 700	9	1.0	288	0.0
700-749	5	0.5	494	0.0
750-799	11	1.2	6,429	0.5
800-849	32	3.4	14,787	1.2
850-899	81	8.6	76,849	6.2
900-949	283	29.9	405,300	32.6
950-999	313	33.1	530,098	42.6
1000-1099	192	20.3	204,020	16.4
1100+	20	2.1	5,393	0.4
District Total:	**946**	**100.0**	**1,243,658**	**100.0**
Sex ratio (Rural) for District:		**957**		

The sex ratio of the rural population by ranges is given for the inhabited villages in the district; the picture that would emerge is as indicated in the above table No. 8. Highest number of 313 (33.1) villages covering a population of 530,098 falls under the sex ratio range of 950-999. Only 20 villages covering population of 5393 falls under the sex ratio range of 1100 and above.

TABLE 9 : SEX RATIO OF URBAN AGGLOMERATIONS / TOWNS, 2001

Sl. No.	Name of U.A. / Town	Urban status of town	Sex ratio
1	2	3	4
1	Molakalmuru	(TP)	924
2	Challakere	(TMC)	949
3	Chitradurga	UA	952
4	Chitradurga	(CMC+OG)	952
5	(i) Chitradurga	(CMC)	952
6	Holalkere	(TP)	920
7	Hosdurga	(TP)	937
8	Hiriyur	(TMC)	956
Sex ratio (Urban) for the district:			**948**

Data on urban sex ratio is presented for the district in the above table with reference to urban agglomeration/ town. The sex ratio for the district urban is 948. The sex ratio is above the district urban figures in Hiriyur (TMC) i.e 956 and Chitradurga 952. Lowest of 924 is reported from Molakalmuru. The details of sex ratio of other urban agglomerations/towns in the district can be observed from the above Table No. 9.

TABLE 10 : SEX RATIO OF POPULATION IN THE AGE GROUP 0-6 FOR TALUKS, 2001

Sl. No.	Name of Taluk	Total / Rural / Urban	Total population in 0-6 age group			Sex ratio for 0-6 age group
			Persons	Males	Females	
1	2	3	4	5	6	7
1	Molakalmuru	Total	20,555	10,580	9,975	943
		Rural	18,557	9,574	8,983	938
		Urban	1,998	1,006	992	986
2	Challakere	Total	46,959	24,140	22,819	945
		Rural	40,830	20,999	19,831	944
		Urban	6,129	3,141	2,988	951
3	Chitradurga	Total	48,051	24,676	23,375	947
		Rural	33,351	17,099	16,252	950
		Urban	14,700	7,577	7,123	940
4	Holalkere	Total	24,085	12,448	11,637	935
		Rural	22,386	11,575	10,811	934
		Urban	1,699	873	826	946
5	Hosadurga	Total	26,199	13,304	12,895	969
		Rural	23,433	11,853	11,580	977
		Urban	2,766	1,451	1,315	906
6	Hiriyur	Total	33,686	17,364	16,322	940
		Rural	27,565	14,224	13,341	938
		Urban	6,121	3,140	2,981	949
	District Total:	**Total**	**199,535**	**102,512**	**97,023**	**946**
		Rural	**166,122**	**85,324**	**80,798**	**947**
		Urban	**33,413**	**17,188**	**16,225**	**944**

Taluk wise sex ratio of population in the age group of 0-6 years with rural, urban breakup for the district is presented in the above table. Data reveals that among the Taluks the sex ratio in the age group of 0-6 is highest in Hosadurga taluk (969). The district total for sex ratio is 946. Except for Chitradurga and Hosadurga taluks where the rural sex ratio is higher and in other taluks the urban sex ratio is higher.

TABLE 11 : SEX RATIO OF POPULATION IN THE AGE GROUP 0-6 FOR C.D. BLOCKS, 2001

Sl. No.	Name of C.D. block	Total population in 0-6 age group			Sex ratio for 0-6 age group
		Persons	Males	Females	
1	2	3	4	5	6
1	Molakalmuru	18,557	9,574	8,983	938
2	Challakere	40,830	20,999	19,831	944
3	Chitradurga	33,351	17,099	16,252	950
4	Holalkere	22,386	11,575	10,811	934
5	Hosdurga	23,433	11,853	11,580	977
6	Hiriyur	27,565	14,224	13,341	938
	District (Rural) Total:	**166,122**	**85,324**	**80,798**	**947**

Sex ratio for 0-6 age group in the CD Blocks of the district is presented in this table. The sex ratio for the district rural is 947. Among the CD Blocks highest sex ratio is reported from Hosadurga (977) followed by Chitradurga (950) and lowest of (934) is reported from Holalkere followed by Hiriyur and Molakalmuru CD Blocks (938).

TABLE 12 : SEX RATIO OF RURAL POPULATION IN THE AGE GROUP 0-6 BY RANGES, 2001

Range of sex ratio for villages	Number of inhabited villages	Percentage distribution of villages	Population 2001	Percentage distribution of population
1	2	3	4	5
Less than 700	89	9.4	5,572	3.4
700-749	30	3.2	3,902	2.3
750-799	60	6.3	8,234	5.0
800-849	77	8.1	14,767	8.9
850-899	105	11.1	25,655	15.4
900-949	114	12.1	31,547	19.0
950-999	95	10.0	21,503	12.9
1000-1099	174	18.4	31,408	18.9
1100+	202	21.4	23,534	14.2
District (Rural) Total	**946**	**100.0**	**166,122**	**100.0**
Sex ratio (Rural) for District:		**947**		

Sex ratio for the rural population by ranges has been given in the above table. Data reveals that except for the ranges 700-749, 750-799 and 800-849, in all other ranges good number of villages are reported under each range. Though the sex ratio for the district rural is 947 (in the age group for 0-6), it is worth noting that 376 out of 946 inhabited villages have the sex ratio favourable for female child.

TABLE 13 : SEX RATIO OF POPULATION IN THE AGE GROUP 0-6 OF URBAN AGGLOMERATIONS / TOWNS, 2001

Sl. No.	Name of UA / Town	Urban status of town	Total population in 0-6 age group			Sex ratio for 0-6 age group
			Persons	Males	Females	
1	2	3	4	5	6	7
1	Molakalmuru (TP)		1,998	1,006	992	986
2	Challakere (TMC)		6,129	3,141	2,988	951
3	Chitradurga UA		14,700	7,577	7,123	940
4	Chitradurga (CMC+OG)		14,700	7,577	7,123	940
5	(i) Chitradurga (CMC)		14,390	7,414	6,976	941
6	Holalkere (TP)		1,699	873	826	946
7	Hosdurga (TP)		2,766	1,451	1,315	906
8	Hiriyur (TMC)		6,121	3,140	2,981	949
District(Urban) Total			**33,413**	**17,188**	**16,225**	**944**

The child sex ratio for the urban agglomerations/ towns of the district is given in the above table. Data reveals that the child sex ratio for district urban is 944 females per 1000 males. Highest child sex ratio is noticed in Molakalmuru (TP) (986). Lowest child sex ratio of 906 is reported from Hosadurga (TP).

TABLE 14 : NUMBER AND PERCENTAGE OF SCHEDULED CASTES AND SCHEDULED TRIBES POPULATION IN TALUKS, 2001

Sl. No.	Name of Taluk	Total / Rural / Urban	Total population	Total Scheduled Castes population	Total Scheduled Tribes population	Percentage of Scheduled Castes population to total population	Percentage of Scheduled Tribes population to total population

		Rural	215,913	55,176	21,091	25.6	9.8
		Urban	48,806	8,273	4,371	17.0	9.
	District Total:	**Total**	**1,517,896**	**336,487**	**266,235**	**22.2**	**17.5**
		Rural	**1,243,658**	**294,335**	**236,111**	**23.7**	**19.0**
		Urban	**274,238**	**42,152**	**30,124**	**15.4**	**11.0**

Taluk wise number and per cent of Scheduled Castes/ Scheduled Tribes population is given in the above table. The total Scheduled Caste/Scheduled Tribe population in the district is 336,487 and 266,235 respectively. The rural-urban distribution reveals that 23.7 per cent of rural population and 15.4 per cent of urban population are scheduled caste respectively. As regards Scheduled Tribes 19 per cent of rural population and 11 per cent of urban population are scheduled tribe. The table also indicate the per cent of Scheduled castes/Scheduled Tribes population to total population in the district as a whole.

TABLE 15 : NUMBER AND PERCENTAGE OF SCHEDULED CASTES AND SCHEDULED TRIBES POPULATION IN C.D. BLOCKS, 2001

Sl. No.	Name of C.D. block	Total population	Total Scheduled Castes population	Total Scheduled Tribes population	Percentage of Scheduled Castes population to total population	Percentage of Scheduled Tribes population to total population
1	2	3	4	5	6	7
1	Molakalmuru	112,609	23,266	42,821	20.7	38.0
2	Challakere	283,651	65,039	82,615	22.9	29.1
3	Chitradurga	251,336	64,979	52,045	25.9	20.7
4	Holalkere	183,192	46,900	21,594	25.6	11.8
5	Hosdurga	196,957	38,975	15,945	19.8	8.1

District (Rural) Total:		**1,243,658**	**294,335**	**236,111**	**23.7**	**19.0**

This table depicts population of Scheduled Castes and Scheduled Tribes and its percentage proportion to total population. In rural areas of the district 23.7 percent and 19 percent population comprises of Scheduled Castes and Scheduled Tribes respectively. Higher concentration of Scheduled Castes is reported from Chitradurga (25.9 percent) and Hiriyur and Holalkere (25.6 percent) and that of Scheduled Tribes from Molakalmuru (38 percent) and Challakere (29.1 percent).

TABLE 16 : PROPORTION OF SCHEDULED CASTES POPULATION TO TOTAL POPULATION IN VILLAGES, 2001

Percentage range of Scheduled Castes population to total population	Number of villages	Percentage	Scheduled Castes Population	Percentage
1	2	3	4	5
Nil	103	10.9	-	0.0
Less than 5	73	7.7	1,694	0.6
5-10	68	7.2	8,190	2.8
11-20	256	27.1	71,472	24.3
21-30	204	21.6	91,361	31.0
31-40	90	9.5	43,053	14.6
41-50	45	4.8	21,016	7.1
51-75	53	5.6	32,529	11.1
76 and above	54	5.7	25,020	8.5
District Total	**946**	**100.0**	**294,335**	**100.0**

The above table shows the distribution of villages by percentage range of Scheduled Castes/ Scheduled Tribes population to total population and the per cent distribution of Scheduled Castes population in different ranges. Data reveals that out of 946 inhabited villages 103 villages do not have Scheduled Castes population. The maximum Scheduled Castes population falls in the range 11-20 percent in 256 (27.1 per cent) villages. There are only 54 villages which comprises of more than 76 per cent of Scheduled Castes population and number of villages where the Scheduled Castes population varies between 51-75 per cent is 53.

TABLE 17 : PROPORTION OF SCHEDULED TRIBES POPULATION TO TOTAL POPULATION IN VILLAGES, 2001

Percentage range of Scheduled Tribes population to total population	Number of villages	Percentage	Scheduled Tribes Population	Percentage
1	2	3	4	5
Nil	167	17.7	-	0.0
Less than 5	211	22.3	6,275	2.7
5-10	147	15.5	16,680	7.1
11-20	138	14.6	33,668	14.3
21-30	82	8.7	36,722	15.6
31-40	42	4.4	25,742	10.9
41-50	37	3.9	28,663	12.1
51-75	46	4.9	34,214	14.5
76 and above	76	8.0	54,147	22.9
District Total	**946**	**100.0**	**236,111**	**100.0**

The above table shows the distribution of villages by percentage range of Scheduled Tribes population to total population and the per cent distribution of Scheduled Tribes population in different ranges. Data reveals that out of 946 inhabited villages 167 villages do not have Scheduled Tribes population. The maximum Scheduled Tribes population falls in the range of 76 and above in 76 villages. There are 46 villages where Scheduled Tribes population varies between 51-75 per cent.

TABLE 18 : NUMBER AND PERCENTAGE OF SCHEDULED CASTES AND SCHEDULED TRIBES POPULATION IN URBAN AGGLOMERATIONS / TOWNS, 2001

Sl. No.	Name of UA / Town	Total population	Total Scheduled Castes population	Total Scheduled Tribes population	Percentage of Scheduled Castes population to total population	Percentage of Scheduled Tribes population to total population
1	2	3	4	5	6	7

District(Urban) Total		**274,238**	**42,152**	**30,124**	**15.4**	**11.0**

Number and percentage of Scheduled Castes and Scheduled Tribes population for urban agglomeration/towns of the district is presented in the above table. Scheduled castes/ Scheduled Tribes constitute 15.4 per cent and 11 per cent of the district urban population. Highest (17 per cent) of Scheduled castes population is reported from Hiriyur (TMC) and lowest of 11.2 per cent is reported from Hosadurga (TP). Highest 25 per cent of Scheduled Tribes population is reported from Challakere (TMC) and lowest 4 per cent is reported from Hosadurga (TP).

TABLE 19 : SEX RATIO AMONG SCHEDULED CASTES AND SCHEDULED TRIBES IN C. D. BLOCKS, 2001

Sl. No.	Name of C. D Block	Scheduled Castes sex ratio	Scheduled Tribes sex ratio
1	2	3	4
1	Molakalmuru	932	948
2	Challakere	954	950
3	Chitradurga	958	947
4	Holalkere	965	978
5	Hosadurga	977	998
6	Hiriyur	946	968
	District (Rural) Total	**956**	**956**

Sex ratio among the Scheduled Castes and Scheduled Tribes in the CD Blocks of the district is presented in this table. The sex ratio in the district rural for Scheduled castes is 956 and Scheduled Tribes also is 956. Highest 977 sex ratio for Scheduled Castes is reported from Hosadurga and 965 from Holalkere CD Blocks and lowest 932 from Molakalmuru. Whereas highest sex ratio (998) for Scheduled Tribes is reported from Hosadurga and lowest sex ratio of (947) is reported from Chitradurga.

TABLE 20 : SEX RATIO AMONG SCHEDULED CASTES AND SCHEDULED TRIBES IN URBAN AGGLOMERATIONS / TOWNS, 2001

Sl. No.	Name of U.A. / Town	Scheduled Castes sex ratio	Scheduled Tribes sex ratio

Sex wise distribution of literacy rate by residence in the taluks of the district is presented in the above table. Data reveals that the total literacy rate of district is 64.5 per cent. Male and female literacy rate constitute 74.7 per cent and 53.8 per cent respectively. Gap in female literacy is 20.9 per cent. Highest literacy rate of 71.8 per cent is reported from Chitradurga which is higher than the district percentage. Highest female literacy rate of 79.1 per cent is reported from the Chitradurga urban areas. The gap in male-female literacy is highest 26 per cent reported from Molakalmuru rural areas.

TABLE 22 : NUMBER AND PERCENTAGE OF LITERATES AND ILLITERATES BY SEX IN C. D. BLOCKS, 2001

Sl. No.	Name of C.D.Block	Number of literates and illiterates						Percentage of literates			Gap in male-female literacy rate
		Number of literates			Number of illiterates						
		Persons	Males	Females	Persons	Males	Females	Persons	Males	Females

District (Rural) Total:		**654,284**	**395,230**	**259,054**	**589,374**	**240,212**	**349,162**	**60.7**	**71.8**	**49.1**	23

The CD.Block wise percentage of literacy in the district accounts for 60.7 per cent in which male-female literacy rate is 71.8 per cent and 49.1 per cent respectively. Gap in male-female literacy rate for the district rural accounts for 22.7. Highest literacy rate of 66.9 per cent is reported from Holalkere C.D. block with highest male and female literacy rate. Gap in male-female literacy rate is also highest 26.1 per cent in Molakalmuru CD Block.

TABLE 23 : DISTRIBUTION OF VILLAGES BY LITERACY RATE RANGE, 2001

Range of literacy rate for villages	Number of inhabited villages	Percentage distribution of villages	Population	Percentage distribution of population
1	2	3	4	5
0	1	0.1	8	0.0
1-10	1	0.1	40	0.0
11-20	9	1.0	2,837	0.2
21-30	13	1.4	4,908	0.4
31-40	42	4.4	45,358	3.6
41-50	144	15.2	161,696	13.0
51-60	267	28.2	353,002	28.4
61-70	300	31.7	475,927	38.3
71-80	125	13.2	160,058	12.9
81-90	40	4.2	39,281	3.2
91-99	2	0.2	526	0.0
100	2	0.2	17	0.0
District Total:	**946**	**100.0**	**1,243,658**	**100.0**
Literacy rate for District:		**64.5**		

The literacy rate for the district as reported is 64.5 per cent. If the distribution of villages are made according to range of literacy rate in the district the picture that would emerge would be as indicated in the above table no. 23. Highest no. of 300 (31.7 per cent) villages fall in the literacy range of 61-70 per cent. Only two villages covering a meager population of only 17 fall under 100 per cent literacy range.

TABLE 24 : NUMBER AND PERCENTAGE OF LITERATES AND ILLITERATES BY SEX IN URBAN AGGLOMERATIONS / TOWNS, 2001

Sl. No.	Name and urban status of UA/Town	Number of literates and illiterates						Percentage of literates			Gap in male-female literacy rate

District Total:	**843**	**100.0**	**294,335**	**100.0**
Literacy rate for District (Rural):		**50.1**		

This table highlights the distribution of villages by literacy rate for the Scheduled Castes population. Literacy rate for the district rural is 50 per cent. If the distribution of villages is made by range of literacy rate, the picture that would emerge for all the 843 Scheduled Castes

inhabited villages of the district would be as indicated in the above table no.26. Highest no. of 268 villages (31.8 per cent) fall under the literacy range 41-50. Only 4 villages (0.5 per cent) fall under 100 per cent literacy range with a population of only 46.

TABLE 27 : NUMBER AND PERCENTAGE OF SCHEDULED CASTES LITERATES AND ILLITERATES BY SEX IN URBAN AGGLOMERATION / TOWNS, 2001

Sl. No	Name and urban status of Town	Number of literates and illiterates						Percentage of literates			Gap in male/ female literacy rate
		Number of literates			Number of illiterates						
		Persons	Males	Females	Persons	Males	Females	Persons	Males	Females	
1	2	3	4	5	6	7	8	9	10	11	12
1	Molakalmuru (TP)	1,128	668	460	705	273	432	71.7	82.0	60.7	21.3
2	Challakere (TMC)	4,405	2,584	1,821	3,091	1,267	1,824	68.1	77.8	57.8	20.0
3	Chitradurga (CMC+OG)	12,676	7,225	5,451	7,329	2,915	4,414	72.5	81.1	63.5	17.6

6	Hiriyur (TMC)	5,073	3,027	2,046	3,200	1,224	1,976	70.1	81.0	58.4	22.5
	Chitradurga (Urban)	**26,028**	**15,139**	**10,889**	**16,124**	**6,499**	**9,625**	**70.9**	**80.1**	**61.2**	**18.9**

The distribution of urban literacy rate by sex among Scheduled Castes is presented in the above table. Data reveals that the literacy rate for the district urban is 70.9 per cent and that of male literacy rate is 80.1 per cent, female literacy rate is 61.2 per cent. The gap between male and female literacy rate accounts for 18.9 per cent. It is interesting to note that highest literacy rate of 77 per cent, highest male literacy rate of 85.3 per cent, highest female literacy rate of 66.3 per cent is reported from Holalkere (TP). Highest male-female literacy gap of 22.5 per cent is reported from the Hiriyur (TMC).

TABLE 28 : NUMBER AND PERCENTAGE OF SCHEDULED TRIBES LITERATES AND ILLITERATES BY SEX IN C. D. BLOCKS, 2001

Sl. No	Name of C.D. Blocks	Number of literates and illiterates						Percentage of literates			Gap in male/ female literacy rate
		Number of literates			Number of illiterates

District (Rural) Total:		**103,896**	**65,649**	**38,247**	**132,215**	**55,045**	**77,170**	**51.6**	**63.7**	**38.9**	**24.8**

This table provides information on sex wise literacy rate among the Scheduled Tribes in the CD. Blocks of the district. The percentage of literacy rate for the district rural is 51.6 per cent. The percentage of male literacy rate works out to 63.7 per cent and that of female is 38.9 per cent. The gap in male-female literacy rate is 24.8 per cent. Of all the C.D Blocks Holalkere C.D Block stands in first position in respect of highest literacy rate of 60.4 per cent with male literacy rate of 72 per cent and highest female literacy of 48.6 per cent. Highest gap in male-female literacy rate accounts for 26.3 per cent reported from Molakalmuru CD Block.

TABLE 29 : DISTRIBUTION OF VILLAGES BY LITERACY RATE RANGE FOR SCHEDULED TRIBES POPULATION, 2001

Range of literacy rate for villages	Number of inhabited villages	Percentage distribution of villages	Scheduled Tribes Population	Percentage distribution of population
1	2	3	4	5
0	15	1.9	45	0.0
1-10	2	0.3	152	0.1
11-20	11	1.4	3,320	1.4
21-30	30	3.9	14,213	6.0
31-40	71	9.1	28,742	12.2
41-50	154	19.8	64,512	27.3
51-60	212	27.2	68,398	29.0
61-70	171	22.0	42,503	18.0
71-80	77	9.9	12,170	5.2
81-90	17	2.2	1,843	0.8
91-99	4	0.5	169	0.1
100	15	1.9	44	0.0
District Total:	**779**	**100.0**	**236,111**	**100.0**
Literacy rate for District (Rural):		**51.6**		

The sex wise literacy rate among Scheduled Tribes has been given in the previous table. This table highlights the distribution of villages by literacy rate for the Scheduled Tribes population. Literacy rate for the district rural is 51.6 per cent. If the distribution of villages is made by range of literacy rate, the picture that would emerge for all the 779 Scheduled Tribes inhabited villages of the district would be as indicated in Table No 29. Highest no. of 212(27.2 per cent) villages fall under the literacy range of 51-60 per cent. Only 15 (1.9 per cent) villages have 100 per cent literacy rate range with a population of 44.

TABLE 30 : NUMBER AND PERCENTAGE OF SCHEDULED TRIBES LITERATES AND ILLITERATES BY SEX IN URBAN AGGLOMERATION / TOWNS, 2001

Sl. No.	Name and urban status of Town	Number of literates and illiterates						Percentage of literates			Gap in male/ female literacy rate
		Number of literates			Number of illiterates						
		Persons	Males	Females	Persons	Males	Females	Persons	Males	Females	
1	2	3	4	5	6	7	8	9	10	11	12

6	Hiriyur (TMC)	2,689	1,542	1,147	1,682	704	978	70.3	78.8	61.4	17.4
	Chitradurga (Urban)	**19,057**	**11,073**	**7,984**	**11,067**	**4,427**	**6,640**	**71.9**	**81.3**	**61.9**	**19.4**

The distribution of urban literacy rate by sex among Scheduled Tribes is presented in the above table. Data reveals that the literacy rate for the district urban is 71.9 per cent and that of male literacy rate is 81.3 per cent and female literacy rate of 61.9 per cent. The gap between male and female literacy rate accounts for 19.4 per cent. Of all the towns Chitradurga CMC stands first in highest literacy rate of 79 per cent with male literacy rate of 88.1 per cent. Gap in male-female literacy rate of 25.9 per cent is reported from Molakalmuru. Highest female literacy rate of 74.2 per cent has been reported from Hosadurga (TP).

TABLE 31: NUMBER AND PERCENTAGE OF MAIN WORKERS, MARGINAL WORKERS AND NON-WORKERS BY SEX IN TALUKS, 2001

Sl. No	Name of Taluk	Persons/ Males/ Females	Total population	Main workers		Marginal workers		Total workers (Main and marginal workers)		Non workers

Note: Percent of Worker to total worker are given in brackets

The distribution of total workers by sex according to four fold industrial category in taluks is highlighted in this table. Data reveals that Agricultural labourers and cultivators together constitute 71.8 per cent of the total workers. At taluk level maximum number of cultivators are found in Holalkere taluk, Whereas agricultural labourers are more in Molakalmuru. Number of other workers are more in Chitradurga.

Note : - Percentages are given in brackets.

* Based on the improved drinking water source, drinking water supply has been classified as `Improved ' or otherwise. If the household has access to drinking water supplied from a tap or a hand pump / tube well situated within or outside the premises it is considered as having access to `Improved drinking water source'. However, the concept of improved drinking water is state specific and this is to be considered accordingly.

\# Post office includes Post office, telegraph office and Post and telegraph office.

$ Transport communication includes bus service, rail facility and navigable waterways.

This table reveals brief analysis of various amenities which are available in CD Block of the district. It can be seen from the above table that 93.0 per cent of the inhabited villages have educational facilities and 96.1 per cent have improved drinking water facility. Medical and post office facilities are available for 20.8 per cent and 32.3 per cent of villages respectively. All villages (100 percent) have power supply in the district. CD Block wise analysis shows that good percentage of inhabited villages have educational facility. The position of medical facilities varies from 30.8 per cent to 14.6 per cent in the CD Blocks. Availability of banking facility is not satisfactory.

TABLE 38 : NUMBER AND PERCENT OF RURAL POPULATION SERVED BY DIFFERENT AMENITIES, 2001

* Based on the improved drinking water source, drinking water supply has been classified as 'Improved'' or otherwise. If the household has access to drinking water supplied from a tap or a hand pump / tube well situated within or outside the premises it is considered as having access to `Improved drinking water source'. However, the concept of improved drinking water is state specific and this is to be considered accordingly.

\# Post office includes Post office, telegraph office and Post and telegraph office.

$ Transport communication includes bus service, rail facility and navigable waterways.

CD Block wise distribution of rural population served by different amenities is presented in Table No. 38. Data reveals that 99.5 per cent of the rural population is served by educational institutions while 99 per cent have improved drinking water facility. About 40.1 per cent of population have medical facility and 57.6 per cent rural population is served with post facility. All of them (100 percent) have power supply.

TABLE 39 : DISTRIBUTION OF VILLAGES NOT HAVING CERTAIN AMENITIES, ARRANGED BY DISTANCE RANGES FROM THE PLACES WHERE THESE ARE AVAILABLE, 2001

Village not having the amenity of	Distance range of place from the villages where the amenity is available			
	Less than 5 kilometres	5-10 kilometres	10+ kilometres	Total (Col. 2 - 4)
1	2	3	4	5
1. Education :-				
(a) Primary School	67	-	-	67
(b) Middle School	304	21	1	326
(c) Degree College	54	123	758	935
2. Medical:-				
(a) Hospital	46	216	662	924
(b) PHC	257	269	363	889
3. Post Office	640	-	-	640
4. Telephone	258	-	-	258
5. Bus Service	208	16	-	224
6. Banks				
(a) Commercial Bank	398	340	120	858
(b) Cooperative Bank	42	143	734	919
7. Agricultural Credit Societies	351	287	185	823

There are 67 villages which do not have any educational facility, for these villages primary school is located at a distance of 5 Kms. About 326 villages do not have middle school out of which 304 villages have this facility at distance 5 kms. Of 946 villages 22 villages have hospital within the village and 46 have hospital facility at a distance of less than 5 Kms. For 257 villages primary health centres are available at a distance of 5 kms. Regarding post office, telephone and bus service, good number of villages have this facility at a distance less than 5 Kms. Majority of the villages have banking facility at a distance of 5 Kms range.

TABLE 40 : DISTRIBUTION OF VILLAGES ACCORDING TO THE DISTANCE FROM THE NEAREST STATUTORY TOWN AND AVAILABILITY OF DIFFERENT AMENITIES, 2001

Post office includes Post office, Telegraph office and Post and telegraph office.

$ Transport communication includes bus service, rail facility and navigable waterways.

Table No.40 depicts distribution of villages according to distance from the nearest statutory town and availability of certain amenities. It is observed that the distance from the statutory town to the villages does not exceed 50 kms except for one village and 5 villages have been classified as unspecified as far as distance is concerned. Distance from nearest statutory town to the village has been correlated with the type of amenities available as per 2001 census. Four categories of distance range per nearest statutory town and type of amenities available in the villages is indicated in the above table.

TABLE 41: DISTRIBUTION OF VILLAGES ACCORDING TO POPULATION RANGE AND AMENITIES AVAILABLE, 2001

Post office includes Post office, Telegraph office and Post and telegraph office.

$ Transport communication includes bus service, rail facility and navigable waterways.

***** Based on the improved drinking water source, drinking water supply has been classified as 'Improved' or otherwise. If the household has access to drinking water supplied from a tap or a hand pump / tube well situated within or outside the premises it is considered as having access to 'Improved drinking water source'. However, the concept of improved drinking water is state specific and this is to be considered accordingly.

Table No. 41 depicts the distribution of villages according to population range and availability of certain amenities. It can be seen from the above table that 470 villages are having a population of less than 1000. Only two villages has population above 10,000+. About 309 villages have population in the range 1000-1999. All the villages have power supply. Good number of villages 93 per cent have education facility. Improved drinking water facility is available in 96.1 per cent villages. Post office and transport facilities are available for 32.3 per cent and 76.3 per cent of villages. Banking facility is less in all ranges.

TABLE 42 : DISTRIBUTION OF VILLAGES ACCORDING TO LAND USE, 2001

Sl. No.	Name of C. D. block	Number of inhabited villages	Total area	Percentage of cultivable area to total area	Percentage of irrigated area to total cultivable area
1	2	3	4	5	6
1	Molakalmuru	78	69,540	51.0	26.9
2	Challakere	185	198,620	70.2	21.9
3	Chitradurga	165	133,390	80.4	21.0
4	Holalkere	166	108,780	63.2	23.9
5	Hosadurga	198	131,890	65.0	11.9
6	Hiriyur	154	167,190	79.6	26.9
	District Total:	**946**	**770,702**	**72.8**	**21.6**

Note: - Cultivable area = irrigated area + unirrigated area

Table No.42 depicts the distribution of villages according to land use. Data reveals that only the cultivable area of the rural district has been taken into consideration which include both irrigated and un-irrigated areas. The cultivable area of the rural portion comprise of 72.8 per cent of the total area. Among the CD Blocks Chitradurga is having highest percentage of cultivable area i.e 80.4 per cent. If the percentage of irrigated area to total cultivable area is considered, Molakalmuru and Hiriyur CD Blocks are having the highest with 26.9 per cent.

TABLE 43 : PER CAPITA RECEIPT AND EXPENDITURE IN STATUTORY TOWNS

Sl. No.	Class, name & urban status of the Town	Per capita receipt			Per capita expenditure					
		Total	Through taxes	From all other sources	Total	General Administration	Public health and conveniences	Public works	Public institutions	Other(s)
1	2	3	4	5	6	7	8	9	10	11
1	III Challakere (TMC)	227	32	195	227	143	-	28	-	56
2	I Chitradurga (CMC*)	407	98	306	351	127	-	32	-	189
3	III Hiriyur (TMC)	203	70	133	189	116	-	9	-	64
4	IV Holalkere (TP)	89	14	76	75	48	-	7	-	20
5	III Hosadurga (TP)	295	44	252	241	96	-	16	-	129
6	IV Molakalmuru (TP)	191	20	171	191	69	-	15	-	108
District Total		**301**	**68**	**232**	**268**	**118**	**-**	**24**	**-**	**125**

* Includes Out Growth

Table 43 provides details on per capita receipts and expenditure (in rupees) for each town in the district. The per capita receipt for the district is Rs 301 of which Rs 68 received through taxes and rest through other sources. On the other hand the per capita expenditure is Rs. 268 of which Rs 11.8 is spent on general administration, Rs. 24 on public works. Data on expenditure on public health and public institution is not available. Rs 125 is spent on other items. Per capita receipt is highest in Chitradurga and per capita expenditure is also highest in Chitradurga.

TABLE 44 : SCHOOLS / COLLEGES PER 10,000 POPULATION IN STATUTORY TOWNS, 2001

Sl. No.	Name and urban status of Town	Type of educational institution				
		Primary	Junior Secondary / Middle	Secondary / Matriculation	Senior Secondary	College
1	2	3	4	5	6	7
1	Challakere (TMC)	11.2	6.9	3.5	1.0	1.0
2	Chitradurga (CMC*)	9.7	5.3	2.2	1.0	1.0

District Total		**10.8**	**5.5**	**2.7**	**1.2**	**0.9**

* Includes Out Growth

The types of educational institutions per 10,000 population for the urban district is provided in the above table. The urban district has 10.8 Primary schools, 5.5 Junior secondary/ Middle, 2.7 Secondary/ Matriculation, 1.2 Senior secondary and 0.9 college per 10,000 population. The town wise data is provided in the above table.

TABLE 45 : NUMBER OF BEDS IN MEDICAL INSTITUTIONS IN TOWNS, 2001

Sl. No.	Name and urban status of the Town	Number of beds in medical institutions per 10,000 population
1	2	3
1	Challakere (TMC)	11
2	Chitradurga (CMC*)	8
3	Hiriyur (TMC)	31
4	Holalkere (TP)	34
5	Hosadurga (TP)	22
6	Molakalmuru (TP)	21
	Distrct Total	**16**

* Includes Out Growth

The number of beds in medical institutions per 10,000 population in the towns of the district is presented in the above table. The urban district reported 16 beds per 10,000 population. The highest of 34 beds is reported from Holalkere (TP) and the lowest of 8 beds from Chitradurga (CMC).

TABLE 46 : PROPORTION OF SLUM POPULATION IN TOWNS, 2001

Sl. No.	Name of the Town	Total population	Slum population	Percentage of slum population to total population
1	2	3	4	5
1	Challakere	49,067	7,298	14.9
2	Chitradurga	125,170	18,000	14.4
3	Hiriyur	48,806	20,750	42.5
4	Holalkere	14,574	1,875	12.9
5	Hosadurga	22,488	3,348	14.9
6	Molakalmuru	14,133	1,070	7.6
	District Total	**274,238**	**52,341**	**19.1**

The slum population of the urban district is 19.1 percent of the total urban population. The highest of 42.5 percent of slum population is reported from Hiriyur (TMC) and the lowest 7.6 percent from Molakalmuru (TP). The table above provides the data for all the towns of the district.

TABLE 47 : MOST IMPORTANT COMMODITY EXPORTED OUT OF AND MANUFACTURED IN TOWNS, 2001

Sl. No.	Name and urban status of Town	Most important commodity	
		Manufactured	Exported
1	2	3	4
1	Challakere (TMC)	Groundnut Oil	Groundnut Oil
		Edible Oil	Edible Oil
		Paddy	Onion
2	Chitradurga (CMC*)	Silk/Cotton-Spinning	Silk/Cotton Cloth
		Groundnut Oil	Groundnut Oil
			Cotton
3	Hiriyur (TMC)	Sugar	Coconut
		Coir Products	Groundnut Oil
		Groundnut Oil	Sugar
4	Holalkere (TP)	Cement Bricks	Arecanut
			Ragi
			Coconut
5	Hosdurga (TP)	Coconut Oil	Coconut
		Coir	Ragi
		Furniture	Oil Seeds
6	Molakalmuru (TP)	Silk Sarees	Silk Sarees
		Bricks	Fruits
			Groundnut

Different commodities manufactured and exported from the towns of the district are given in the above table. Silk is manufactured and exported from Chitradurga (CMC) and Molakalmuru (TP). Groundnut oil is manufactured and exported from these towns of the district. Agricultural products are also exported such as Ragi, Onion, Coconut and Fruits.

(x) Brief analysis of the data on houses and household amenities, Houselisting Operations, Census of India 2001 based on inset tables 48 to 52.

Table No. 48 gives the distribution of households by number of dwelling rooms occupied by them. Data presented here is for the general, Scheduled Caste and Scheduled Tribes population of the district, with a rural urban breakup. The tenure status of dwelling has also been furnished. The details of which can seen from the above table.

Table No.50 gives the distribution of households by availability of different amenities. Data reveals that, 98.3 per cent of the households have improved drinking water. About 78.3 per cent of them have electricity, 53.8 per cent have bathroom, 21.2 per cent have toilet facility, 35 per cent have drainage facility. All the above facilities are reported to be higher in the urban areas.

The above table provides data on households using different type of fuels for cooking purpose. Majority of households in rural areas of the district use firewood (91.5%) followed by households using crop residue (4.7%). A meager 1.9% households use LPG. Use of other fuels is negligent. The percentage of urban households using firewood & LPG are 48.8% & 31.6% respectively. About 14.6% of them use kerosene for cooking.

The above table provides data on households possessing specified asset and availing banking facility. Availability of assets like radio/ transistor (37.0%), T.V. (16.1%) and bicycle (19.6%) is more in rural area than other assets. About 51.7% of them do not have any of the specified assets. Availability of these assets in urban areas is more with greater no. of households availing banking facility (43.7%), T.V. (57.2%), radio/ transistor (43.2%), bicycle (26.7%), Telephone (21.3%) and Scooter/ Motor cycle (19.4%). Only 29.1% of them do not have any specified asset.

(xi) Archaeology

The pre-historic archaeology in the district requires detailed study of two places, namely Chandravalli and Brahmagiri.

In the valley of Chandravalli an ancient city flourished, as per the current story among the people. During the British Commission government, a number of lead coins were collected and sent to British Museum and elsewhere. Lead coins belonging to the Satavahanas, Roman silver coins and ornaments of gold, silver and copper were picked up near the 'Tiger rock' and a new water course. Walls constructed of ancient bricks were gaintly visible. Painted and polished pottery were quite common. These are the rock inscriptions of Mayurasharva Kadamba reveal the existence of a prosperous town in the Satavahana and early Kadamba periods.

The iron-sarathy and pottery paint toward a possible pre-historic iron-age and existence of man during neo-lithic period to the middle age. The Satavahana regime dates to the first and second century A.D.

Brahmagiri has earned a place in the archaeological map of India since the discovery of Ashoka's edicts round about this place. This important discovery revealed that the Maurya empire extended at least upto Chitradurga district.

There were three inscription discovered of which the best preserved is the Brahmagiri inscription, engraved on the top of a great gneiss boulder, at a point called "Ganjigunte Mule".

All the three inscriptions are in Brahmi characters, expressed in Prakrit language. The main object of the edicts to exhort are classes of people to greater effort in pious duties as the king adduces his own example.

A study of the ground went to show that an extension town of about the Maurya times had flourished in the neighbourhood of the Brahmagiri inscriptions.

Seven centuries ago there was also the prosperous town of Haneya flourishing to the west of the hill. The Akkathangi temple, the Pagedesalu hill temple, the Jain temple, the fort walls near the fort of the hills, the steps leading from the fields to the hill and the Trishankeshwara and the Bhagyalakshmi temple, the basement of two polatial buildings and the Hulikunte tank on the hill are all said to have belonged to this town.

There is also an inscription of the Hoysala king Vira Ballala II (AD 1190) who proudly claims that he conquered the hill fort of Haneya and founded the city of “Vijayanagari”.

(xii) Brief description on places of religious, historical or archaeological importance in villages:

Challakere taluk:

Dodderi : The historical importance of this place lies in the fact that this was founded by Thimmanna Nayaka the founder of a line of chiefs known as the Nidugal chiefs. Dodderi was once a centre of paper manufacture.

Naikanhatti : Naikanahatti is known in historical accounts as Hatti. This was a seat of administration of a small chiefdom during the 17th century A.D. The village has a tomb-shrine dedicated to a saint named Tippe Rudrayya who lived in the early 18th century. On account of his spiritual powers he became the preceptor of the chiefs of Hatti family. The construction of the local tank, one of the biggest in the district, is attributed to this saint.

Chitradurga taluk :

Ingladhal : Though this village and its surroundings are for long been known for the sulphur and copper deposits, it is during the last decade that exploration of the ore was begun. The ash mounds and the slag found in association with megaliths, indicate that this place was in the remote past, a centre of mining and metallurgy.

Sirigere : This is an important religious center and the headquarters of the famous Veerashaiva Matha known as Taralabalu Matha. This religious institution has for quite some time been running several educational institutions for the benefit of the general public.

Hiriyur taluk :

Vanivilaspura : Also known as Marikanive, this village has in its proxinmity a dam built across the river Vedavati. Construction of this dam was completed in

1907 and since then water is being made available for irrigation. Kanive Maramma, the presiding deity of the place, has a shrine and under its auspicious an annual fair is held every August.

Bharmagiri : This is situated in a low fortified hill and named after Bharmanna Nayaka, a Palegar of Chitradurga. The village has a shrine in which the procession image of Kanive Maramma, the presiding deity of Marikanive is kept.

Aimangala : According to an inscription of 975 A.D. this ancient place was known as Ayyapamangala. There is a ruined fort of massive works and a moat all round. The village has a Vaisshnava traditions and also a place in ruins. The Virabhadra temple of this village is also an important monument.

Harthikote : This was the headquarters of Harati Chiefs who later occupied Nidugal and came to be known in history as Nidugal chiefs.

Abbinahole : In this place there is a Virgal erected by Nolamba king Aiyapa in 933 A.D. The village has a temple dedicated to Ranganatha, where the main object of worship is a round atone which is believed to be an Udbhava murthy i.e., that which has emerged from the earth of its own accord.

Holalkere taluk :

Malladihalli : A saintly social worker named Sri Raghavendra Swamiji has built an Ashrama and over the years has developed here an educational complex and centre for yoga training.

Hosdurga taluk :

Neergunda : This place is interesting as the site of an ancient city. During the fourth century A.D. under the Gangas this was the capital of a Jaina principality. According to tradition, the city was founded in 160 B.C. by Nilashekara, a king from North India and named as Nilavatipattana.

Bagur : This village is known for its famous temple of Channakeshava swamy.

Devapura : The temple of Halarameshwara situated here is a famous religious institution in this neighbourhood. The village has a sacred pond where, on the basis of the Prasada received by the devotee, it is believed, one can foretell the future.

Mathodu : This was a seat of a line of Palegars founded by Giriyappa Nayaka. Mathodu was once upon a time famous for the manufacture of glass bangles.

Sirampura : Formerly known as Budihal, this place has a fort which was built during the 15th century by a chief who was a subordinate of the Vijayanagara kings. This was one of the prominent centres of insurgency in 1831.

Heggere : This is a centre of pilgrimage for Jains.

Molakalmuru taluk :

Siddapura : Brahmagiri, one of the most important sites of archaeological excavations of a microlithic culture, is situated in this village. According to an inscription dated in 962 A.D. this is the spot where Jatayu the heroic bird killed by Ravana while trying to rescue Sita from the clutches of Ravana. On the Jatinga Rameshwara hill nearby there are several temples such as Rameshwara, Bhogeshwara, Ganesha (with two hands) and the one dedicated to Jatayu.

Three minor edicts of Ashoka have been found here. One of these is located on a hill called Emmetammannana gundu near Siddapura and the other is on a rock called Akshara bonde near Brahmagiri. These two have been declared as protected monuments. The third edict is on a rock called Balegara gundu near Jatinga Rameshwara temple and this is greatly defaced. The area bounded by these edicts was the site of Ishila, a Mauryan town, which was probably the headquarters of a local division. Excavations have revealed some traces of an earlier town dating back to 8th century B.C. According to inscriptions, in the days of the Hoysalas, there was a town called Haneya at this site.

A number of chromlechs of a variety of shapes and sizes are found in this area. Painted pottery, hundreds of micro-liths such as knives, saws, arrow heads etc. made of chert, chalcedony and flint have been found here.

On Brahmagiri hills there is a temple of Trishankeshwara and a building called Mahal. This Mahal was built by a Veerashaiva guru during the 19th century.

Places of tourist interest in and around the towns of the district :

Chitradurga : Legends connected with this town associate it with two episodes narrated in Mahabharata. Pandavas are said to have stayed here for some time during their exile. A site near this town is pointed out as the site where Bheema was accosted by Hidimbi who instantly fell in love with him. The development later resulted in duel between Bheema and her brother Hidimbasura. Bheema killed the giant and married Hidimbi. Near this site there are temples containing lingas named after each one of the Pandava brothers and another one dedicated to Hidimba under the name Hidimbeshwara. A large piece of bone which is preserved carefully in this shrine is said to be the remnant of a tooth of the giant.

Chandravalli valley which lies immediately to the west of the fort derives its name from Chandrahasa, the king of Kuntala mentioned in Mahabharata. Chandravalli is one of the very important and ancient archaeological sites in Karnataka. Series of excavations have been conducted here to enable a proper reconstruction of its historical past. Neoliths discovered in the caves of Neralagondi and Baralagondi suggest the existence of a human settlement here during the Neolithic age. The earlier forms of painted pottery and evidences of iron smelting reveal the life pattern during the prehistoric iron age. Remnants of walls constructed out of large sized bricks (measuring 18" x 9" x 3", 18" x 9"x 3 ½" & 16"x 8"x 4 ½"), of the painted and polished pottery and a rock inscription of Mayura Sharma Kadamba paint to the existence of a prosperous township at this site during the period of the Satavahanas and the Kadambas. Lead coins of Satavahanas, silver coins of Romans and ornaments of gold, silver and copper have also been discovered here. The excavations at Chandravalli thus opened up a vast vista of time extending over the last three millenniums or even more.

The present name of the town is derived from Chirtrakaldurga. There is a lofty hill with a peak which looks like Chatrakal or an umbrella. A number of inscriptions belonging to the Chalukyas, the Hoysalas and the Vijayanagar kings have been found here. The Chitradurga fort is called Yelusuttinakote, i.e.,a fort with seven series of enclosure walls. The outermost wall has four gates. There are 18 temples in the upper fort. The height of the walls range from five to thirteen metres depending upon the landscape and the configuration of rock formations. When the fort was intact it had as many as 19 gateways, 33 postern gates,35 secret entrances and four invisible entrances. Part of the fort which is mainly of mud was built by the Palegars of Chitradurga and that part which is mainly of granite slabs was built by Hyder Ali and Tipu Sultan. At several places huge granite cubes have been neatly cut and joined , apparently without the use of any cementing material.

The main temples here are of Sampige Siddheswara, Hidimbeshwara, Ekanathamma, Phalguneshwara, Gopalkrishna, Anjaneya, Subbaraya and Basava. In Hidimbeshwara temple, apart from the tooth of Hidimba, there is a huge cylinder made out of iron plates- about 3 metres in circumference and two metres high. This is known as the bheri or drum of Bheema.

There is an interesting masonry pot of three metres depth and about seven metres diameter. This is pointed out as the place that was being used for grinding gunpowder during the times of Hyder Ali and Tipu Sultan. There are a series of inter- connected tanks which were meant to conserve the rain water. This device allowed water to flow from one tank to the other in succession with a minimum loss and permitted preservation of large quantities of water for subsequent use. It is said that on account of this wonderful arrangement the fort never suffered from water scarcity throughout its history.

One of the secret entrances into the fort is called Vanake Kindi. The name commemorates the heroic deed of Obavva who with great presence of mind attacked a column of the enemy soldiers who were stealthily entering the fort one by one. She used the Vanake or the common pestle used for pounding paddy, as her weapon and defended the fort. This event occurred when the forces of Hyder Ali laid siege to the Chitradurga fort.

In the lower fort there is a large temple built by the Palegars and dedicated to Uchchangiamma or Uthsavamba, their tutelary deity. About two kilometers north-west of the town is situated Murugharajendra Matha, a famous religious institution of Lingayats.

To the west of the town amidst a group of hills is situated the Ankli Matha. A series of ancient subterranean chambers cut out at different levels, shrines and pedestals may be seen here. An inscription dated in 1286 A.D. belonging to the Hoysala period is found near the Panchalinga cave here. Jogi matti, one of the highest points of the district is located five kilometers to the south of the town.

Chitradurga is a colourful spot from historical and archaeological points of view and affords immense satisfaction to the tourist interested in history. Its scenic beauty, as well as architectural and defence installations have been captured in the films with historical and also social themes produced in Kannada.

Challakere : Neither the town nor its immediate neighbourhood has any place of tourist interest. The town however enjoys statewide reputation as a trading centre. The weekly shandy held here is said to be one of the biggest shandies of the district.

Hiriyur : This town was founded in the 16th century by Keshava Nayaka, a chief of Mayasandra. The ancient temple of Teru-Malleahwara here is built in Dravidian style. There is a 15 metre high deepasthambha (lamp pillar) having 8 lamps in the shape of iron cups each of which is capable of holding 10 seers of oil. These lamps are lighted once during the Kartika masa.

Holalkere : During the 10th century, Holalkere is said to have been an important Jaina centre. The present town was founded by one Boya Gauda, under the protection of Doddanna Nayaka, a Chief of Dhummi. The place is famous for the three metre high idol of Lord Ganesha called Bailu Ganapathi.

Hosdurga : This town has the remnants of a hill fort which was erected by Chikkanna Nayaka, a Palegar of Chitradurga.

Molakalmuru : Molakalmuru is a place of great antiquity. To the north of the present township, the Kadambas had built a fortified town called Lunkeya-kote. Nearby is a temple of Lunkeshwara said to have been built by a Kadamba prince during the 10th century. The unique feature of this temple is that it is served by a succession of Gosayins from North India. A large reservoir constructed by a Chief of Hatti, a rock called Kuguva Bande (that which produces a chain of echoes), and a boulder, on which a Yamaka in praise of Kalidasa is engraved are the other interesting objects in the vicinity of this town. The silk weaving industry of the place enjoys wide reputation and provides employment and sustenance to a considerable proportion of population of the town.

(xiii) Scope of Village Directory and Town Directory

Village Directory

Village Directory provides micro-level data which will help the planners in formulation of micro-level developmental plans as the C.D.Block is the lowest administrative unit for developmental planning. Village wise information regarding the availability of certain basic amenities and facilities within the village, as also that on the manner of utilization of the land in the concerned village are furnished in the village directory. The village directory format adopted for the 2001 Census has 23 columns whereas in the 1991 Census there were only 18 columns. When compared with the 1991 Census Village Directory format, column 9 which refers to the day or days of weekly market/hat if any has been now left out. New inclusions are in respect of facilities like banks, agricultural credit societies, non-agricultural credit societies, other co-operative societies, number of recreational and cultural facilities like cinema/video hall, sports club, stadium/ auditorium; receipt of news papers/magazines and the name of the most important commodities manufactured in the village. In all the 23 columns in this tabulation statement, first 3 columns relates to serial number, name of the village with location code and area of village while the next 2 provide information on total population and number of households in the village as per 2001 Census. The next 8 columns relate to basic amenities such as educational; medical; drinking water (potable); post, telegraph and telephone, commercial and co-operative banks, agricultural, non-agricultural and other credit societies, number of recreational and cultural facilities such as cinema/video hall, sports club and stadium/auditorium and communications (bus service, railway station, waterway). Information in respect of approach to village, nearest town and distance in Kms, power supply, receipt of news paper/magazine, names of the most important commodities manufactured in the village are furnished in columns 14 to 18. Amenities

available within the villages are shown in the respective columns and if a particular amenity especially Primary School, Middle School, College, Allopathic Hospital, PHC, MCW, Post Office, Telephone, etc., is not available in the village, the respective abbreviation is given and next to it in brackets the distance in broad ranges viz., < 5 kms, 5-10 kms and 10+ kms of the nearest place where the facility available to that particular village is indicated. The next 5 columns, 19 to 23 provide information regarding land use (i.e., area under different types of land use in hectares rounded to two decimal places) such as forest, irrigated land by source of irrigation, unirrigated, cultivable waste (including gauchar and groves) and finally the area not available for cultivation.

Town Directory

The Town Directory section contains seven statements (I to VII) which furnish information on all the statutory towns in the district, on aspects such as growth history, physical aspects and location of towns, municipal finance, civic and other amenities in the town, medical, educational, recreational and cultural facilities, trade, commerce, industry and banking in the towns, civic and other amenities in slum areas of the town. The scope of the various column headings adopted during 1991 census has remained unchanged in 2001. The towns are arranged in an alphabetical order for the district.

Note :

1. The area figure for the district given under column No 3 against " Total" represents "Geographical Area" and has been furnished by the Surveyor General India. The figures for the urban areas are either those supplied by civic administration authorities of the towns or compiled and supplied by the Director of Survey, Settlement and Land Records or compiled in this Directorate on the basis of the available records pertaining to the delimitation of urban units. Area figures for Rural Areas are derived by subtracting the Total Urban Area from the Total Area of the District.

The total of the area figures of all the C.D. Blocks/Taluks in this district will not tally with the district figures (except urban), because the area figures for C.D. Blocks/Taluks represents the land-use area based on village wise area figures as reported by the local officers. The total area of the taluk may not tally with the aggregate of the areas of the villages listed for Census purposes for it includes the area of the statutory as well as non-statutory towns, villages which may be fully submerged and reserve forests which may not form part of any revenue village, if any, within the jurisdiction of the concerned taluk. The total area of the C.D. Block is derived by subtracting the area of the statutory town or towns (within the jurisdiction of the concerned taluks) from the total area of the taluk.

2. Out growths of towns in urban agglomerations are denoted by letter "OG".

3. The following abbreviations have been used to indicate the Civic Administration Status of town.

M.Corp	:	*Municipal Corporation*
CMC	:	*City Municipal Council*
TMC	:	*Town Municipal Council*
TP	:	*Town Panchayat*
NAC	:	*Notified Area Committee*
CB	:	*Cantonment Board*
CT	:	*Census Town (Non-Municipal Census Town / Non-Statutory Town)*

SECTION – I

VILLAGE DIRECTORY

(a) NOTE EXPLAINING THE ABBREVIATIONS USED IN THE VILLAGE DIRECTORY

The "Village Directory" is one of the traditional compilations of the Census. It gives the list of villages, their location numbers, their area, population, number of households, amenities such as educational, medical, drinking water, post and telegraph, commercial and cooperative banks, agricultural, nonagricultural and other credit societies, recreational and cultural facilities, communication, approach to village, nearest town with a distance, power supply, availability of newspaper and magazines, most important commodity manufactured and land use of each village.

Village is a statutory recognized unit having a definite boundary and separate land records. In case, a complete village is treated as an outgrowth of urban agglomeration, data on amenities for that village, have not been given in the Village Directory but shown along with the urban component. For the villages which are considered as a Census Town , the amenities data are shown in the Town Directory. For those villages which have partly merged in an outgrowth of U.A., the amenities data are shown in the Village Directory for that particular village.

The 'uninhabited' villages (villages with no population) have been indicated as such after furnishing details in columns 1 to 3 i.e., Serial number, Name of village & location code number and area of the village against column no. 4 to 18. The land use data for such villages are shown in col. 19 to 23

The Village Directory format has 23 columns and the details given under each column are as follows :

Columns 1 : Serial Number

Self explanatory. All the villages within the CD Block are presented serially in the ascending order of their location code number.

Columns 2 : Name and Location Code Number of village

The name and location code number of the village are shown against these columns. This also includes the forest and un-inhabited villages.

Column 3 : Area of the village

The area of the village in hectares are given. Wherever the area figures was not furnished by the concerned department the column is left blank.

Column 4 : Total population

The total population of the village as per 2001 Census is given against this column.

Column 5 : Number of households

The number of households as per 2001 Census is given in this column.

Amenities :

In column 6 to 23, availability in respect of different amenities such as education, medical, drinking water, post, telegraph, banks, credit societies, communication, power, approach road etc. in each village has been depicted with appropriate codes against the column concerned. Wherever the amenities are not available in the village, a dash (-) is shown in the column and next to it in brackets the distance in broad ranges viz.< 5 kms., 5-10 kms. and 10+ kms. of the nearest place where the facility is available is given. Column wise details are given below :

Column 6 : Educational

Classes upto class IV included in Primary School. This will include nursery school, kindergarten school. Pre-basic school, pre-primary school, junior basic school upto class IV.

Classes from V to VII are included in the middle school.

Classes from VIII to X included in Higher secondary school. Classes XI and XII are treated as equivalent to Pre-University Course.

In case of composite schools like middle school with primary school or secondary school with middle school, these are also included in the number of primary and middle schools, respectively.

Accordingly any of the following types of institutions if exists within the village is shown as per codes given below :

(i)	Primary School	P
(ii)	Middle School	M
(iii)	Secondary School	S
(iv)	Senior Secondary School	PUC
(v)	College	C
(vi)	Industrial School	I
(vii)	Training School	Tr
(viii)	Adult literacy class/centre	AC
(ix)	Others (specify) e.g. Sanskrit Pathshala, Senior basic school, Navodaya Vidyalaya, Makhtab etc.	O

More than one institution of a type in the village is indicated by the number within brackets against the abbreviation, e.g. P(3), M(4), etc.

Column 7 : Medical

Availability of medical facility within the village is indicated by following codes :

(i)	Allopathic Hospital	H
	Ayurvedic Hospital	HA
	Unani Hospital	HU
	Homeopathic Hospital	H Hom
(ii)	Allopathic Dispensary	D
	Ayurvedic Dispensary	DA
	Unani Dispensary	DU
	Homeopathic Dispensary	D Hom
(iii)	Maternity & Child Welfare	MCW
(iv)	Maternity Home	MH
(v)	Child Welfare Centre	CWC
(vi)	Health Centre	HC
(vii)	Primary Health Centre	PHC
(viii)	Primary Health SubCentre	PHS
(ix)	Family Welfare Centre	FWC
(x)	T.B. Clinic	TB
(xi)	Nursing Home	NH
(xii)	Registered Private Medical Practitioner	RMP
(xiii)	Subsidised Medical Practitioner	SMP
(xiv)	Community Health Worker	CHW
(xv)	Others	O

More than one institution of a type in the village is indicated by the number within brackets against the abbreviations, e.g. H(3), D(4), etc.

Column 8 : Drinking Water

The type of the drinking water supply sources available within the village are indicated by codes as follows :

(i)	Tap Water	T
(ii)	Well Water	W
(iii)	Tank Water	TK
(iv)	Tubewell Water	TW
(v)	Handpump	HP
(vi)	River Water	R
(vii)	Canal	C
(viii)	Lake	L
(ix)	Spring	S
(x)	Others	O

Column 9 : Post, Telegraph and Telephone

It is indicated by codes as shown below whether within the village exists the following amenities:

(i)	Post Office	PO
(ii)	Telegraph Office	TO
(iii)	Post & Telegraph Office	PTO
(iv)	Telephone Connection	PH

Column 10: Commercial and Co-operative Banks

If the village is served by any banking service, commercial bank, cooperative bank etc. the same is indicated in codes mentioned below along with the number of banks in brackets. If not available the distance of nearest place where the facility exist is given:

(i)	Commercial Bank	CM
(ii)	Cooperative Bank	CP

Column 11: Credit Societies

If the village enjoys the services of Credit Societies i.e. Agricultural Credit Societies, Non- Agricultural Credit Society or Other Credit Societies, the same is indicated in codes mentioned below along with the number of such societies in brackets. In case the facility is not available within the village the distance of the nearest place where such facility exist is given :

(i)	Agricultural Credit Society	ACS
(ii)	Non Agricultural Credit Society	NCS
(iii)	Other Credit Society	OCS

Column 12 : Recreational and cultural facilities

If facilities such as Cinema/Video hall, Sports Club, Stadium/Auditorium is available in the village, the same is recorded in these columns. If not available the particulars of the nearest place with the facility is recorded. The information is indicated in codes mentioned below along with the number of such facilities in brackets:

(i)	Cinema / Video Hall	CV
(ii)	Sports Club	SP
(iii)	Stadium / Auditorium	ST

Column 13 : Communications

If the village is served by any mode of public / private transport like Bus, Railway station or Navigable water ways they are mentioned as follows:

(i)	Bus	BS
(ii)	Railway Station	RS
(iii)	Navigable Waterway	NW

Column 14 : Approach to village

Approach to village refers to the state of road leading to village. The approach to the village is indicated in following codes :

(i)	Paved Road	PR
(ii)	Mud road	MR
(iii)	Foot path	FP
(iv)	Navigable River	NR
(v)	Navigable Canal	NC
(vi)	Navigable waterways other than River, Canal	NW

Column 15 : Nearest Town and distance

The distance is given in kilometers in brackets against the name of the town nearest to the village.

Column 16 : Power supply

Availability of Power Supply in the village, whatever may be the form of its use is given by using following codes :

(i)	Electricity for domestic use	ED
(ii)	Electricity for agricultural use	EAG
(iii)	Electricity for other purposes	EO
(iv)	Electricity for all purposes	EA

Column 17 : News Paper / Magazine

If the village receives any News Paper/Magazines, the same is noted in this column using following codes

(i)	News Paper	N
(ii)	Magazine	M

Column 18 : Most important commodities manufactured

The name of three most important commodities manufactured in the village is recorded against this column.

Column 19 to 23 : Land use i.e. area under different types of land use

Land use data maintained by the State Government is furnished against these columns. The data concerning area under Forest, Irrigated land (by source), Unirrigated land, Culturable waste and Area not available for cultivation in the village are shown against these columns. The area figures are given in hectare(s) up to one decimal. Dash '-' is recorded wherever the information is not made available by the concerned department. The codes used for different types of irrigation facilities available in the village are indicated below:

(i)	Government Canal	GC
(ii)	Private Canal	PC
(iii)	Well (without electricity)	W
(iv)	Well (with electricity)	WE

(v)	Tubewell (without electricity)	TW	(ix)	Lake	L
(vi)	Tubewell (with electricity)	TWE	(x)	Waterfall	WF
(vii)	Tank	TK	(xi)	Others	O
(viii)	River	R	(xii)	Total	T

The village directory also carries the following appendices:

Appendix-I	It gives the abstract of educational, medical and other amenities available in villages C.D. Block wise of the district.
AppendixIA	Indicates number of villages C D Block wise having one or more primary schools.
Appendix-IB	Indicates number of villages C D Block wise having primary, middle and secondary schools.
Appendix-IC	Shows number of villages C D Block wise with different sources of drinking water facilities.
Appendix-II	Indicates the list of villages with 5,000 and above population which do not have one or more important amenities.
AppendixIIA	Indicates list of Census Towns which do not have one or more amenities.
Appendix-III	It gives the land utilization data in respect of Census Towns / nonmunicipal Towns.
Appendix-IV	C D Block wise list of inhabited villages where no amenity other than drinking water facility is available.
Appendix-V	Summary showing number of villages not having Scheduled Castes population.
Appendix-VI	Summary showing number of villages not having Scheduled Tribes population.
Appendix-VIIA, & VII B	The appendix shows the list of villages according to proportion of the Scheduled Castes and Scheduled Tribes to the total population by ranges.
Appendix-VIII	Indicates C D Block wise number of villages under each Grama Panchayat.
AppendixIX	Shows number of different types of girls school in a village.

SECTION – II
TOWN DIRECTORY

(a) NOTE EXPLAINING THE ABBREVIATIONS USED IN THE TOWN DIRECTORY

Town Directory statements (I to VII)

Statement I: Status and Growth History

Column (2): Class, name and civic administration status of town:

Class has been introduced to facilitate analysis of town directory data at the state and all India levels. It is presented according to 2001 Census Population of the town as follows:

Population	Class
100,000 and above	I
50,000 99,999	II
20,000 49,999	III
10,000 19,999	IV
5,000 9,999	V
Below 5,000	VI

Town with a population of one hundred thousand (1,00,000) and above is treated as a city.

The civic administration status of the towns is indicated within bracket against the name of the town. The following abbreviations are used to denote civic status of town.

(i)	Municipal Corporation	M. Corp.
(ii)	Municipal Committee	MC
(iii)	Municipal Council	M Cl
(iv)	City Municipal Council	CMC
(v)	Town Municipal Council	TMC
(vi)	Municipal Board	MB
(vii)	Municipality	M
(viii)	Cantonment Board/Cantonment	CB
(ix)	Notified Area	NA
(x)	Notified Town	NT
(xi)	Notified Area Committee/ Notified Area Council	NAC
(xii)	Notified Town Area	NTA
(xiii)	Industrial Notified Area	INA
(xiv)	Industrial Township	ITS
(xv)	Township	TS
(xvi)	Town Panchayat	TP
(xvii)	Nagar Panchayat	NP
(xviii)	Town Committee/Town Area Committee	TC
(xix)	Small Town Committee	ST
(xx)	Estate office	EO
(xxi)	Gram Panchayat	GP
(xxii)	Census Town	CT

Others columns need no comments.

Statement II Physical Aspects and Location of towns, 1999.

Column 3 to 5: Physical Aspects

In this columns the Rainfall and Maximum & Minimum Temperature of the town is recorded.

Column 6, 7 and 8:

Name of the State headquarters, District headquarters and SubDivisional headquarters with distance from the referent town in kilometers, is to be recorded respectively. If the names mentioned in these columns are the same as the referent town itself, the distance is recorded as (0) zero.

Column 9 & 10:

Name of the nearest city with one lakh and more and five lakhs and more population are recorded.

Column 11, 12 and 13:

If referent town enjoys the facility of railway station, bus route facility or navigable river/canal. Its name is to be mentioned. If not available, then the name of nearest place with distance, where such facility exists is to be mentioned.

Statement III : Municipal Finance 1998 - 1999

Itemwise amount of receipt and expenditure in thousand rupees, relating to municipal finance of the town for the year 1998-99 is to be recorded.

Statement IV: Civic and Other amenities, 1999

Column (1 to 5): Self explanatory.

Column (6): Road length (in kms.)

Information about kutcha / pucca road is to be recorded separately for the roads within the limits of the referent town.

(i)	Pucca Road	PR
(ii)	Kutcha Road	KR

Column (7): System of Sewerage

Generally, by sewerage system is implied the network of mains and branches of underground conduits for the conveyance of sewerage to the point of disposal. Sewers that carry only household and industrial wastes are called separate sewers, those that carry storm water from roofs, streets and other surface are known as storm water drains, while those carrying both sewage and storm water are called combined sewers.

The codes used for different types of drainage system are as follows:

(i)	Sewer	S
(ii)	Open Surface Drains	OSD
(iii)	Box Surface Drains	BSD
(iv)	Sylk Drains	SD
(v)	Cesspool method	CP
(vi)	Pit System	Pt
(vii)	Others	O

Column 8 to 11: Number of latrines

Number of various types of latrines both Public and Private are given in these columns.

Column 12: Method of disposal of night soil

The various prevalent method of disposal of night soil are given below with codes:

Head Loads	HL
Basket	B
Wheel Barrows	WB
Septic Tank	ST
Pit System	Pt
Sewerage	S
Others	O

Column 13 and 14: Water supply

Source and capacity of storage system. The following codes are used in these columns:

Column 13:

(i)	Tap water	T
(ii)	Tubewell water	TW
(iii)	Tank Water	TK
(iv)	Well water	W

Column 14:

(v)	Over Head Tank	OHT
(vi)	Service Reservoir	SR
(vii)	River Infiltration Gallery	RIG
(viii)	Bore Well Pumping System	BWP
(ix)	Pressure Tank	PT

The information on major source of water supply are given in column 13 and the storage capacity against each in kilolitres (in bracket) are presented in column 14.

Column 15: Fire Fighting Service

In case the fire fighting service is available in the referent town 'yes' is recorded. If the facility is not available within the town. The name of the nearest place having this facility with its distance from the referent town has been recorded.

Column 16 to 20: Electrification (Number of connections)

Different types of electric connections have been shown in these columns, i.e. Domestic, Industrial, Commercial, Road lighting (points) & others.

Statement V : **Medical, Educational, Recreational and Cultural Facilities, 1999**

Column 1 to 3: Self explanatory.

Column 4 & 5:

The data covers all such medical institutions run by or aided by Government/Semi Government/Local bodies and Charitable institutions or Social agencies

like the Missionaries. Where the family planning centres are attached to hospitals or maternity and child welfare centres or Primary Health Centres, may be treated as independent units and counted separately using following codes:

(i)	Hospital	H
(ii)	Dispensary	D
(iii)	Health Centre	HC
(iv)	Family Welfare Centre	FWC
(v)	T.B. Clinic	TB
(vi)	Nursing Home	NH
(vii)	Others	O

In case of more than one institutions of any type, it is indicated within brackets the number of such institution (s) e.g. D(3), NH(8), etc. The institutions have further been distinguished by providing additional codes within the bracket as given below:

Ayurvedic	A
Unani	U
Homoeopathic	Hom

Column 6 to 9:

The codes used for these columns are as follows:

(i)	Arts only	A
(ii)	Science only	S
(iii)	Commerce only	C
(iv)	Arts & Science only	AS
(v)	Arts & Commerce only	AC
(vi)	Combined for all categories Arts, Science and Commerce	ASC
(vii)	Law	L
(viii)	University	U
(ix)	Others	O

Column 10: Recognized shorthand, typewriting and vocational training institutes

"Recognised" should mean recognised by some statutory authority, like education department, commerce department, labour department etc. of the government or semi government or autonomous bodies, public sector undertakings etc.

The following codes are used:

(i)	Vocational Training Institute	VT
(ii)	Shorthand	SH
(iii)	Typewriting	Type
(iv)	Shorthand & Typewriting	SH Type
(v)	Others	O

The vocational institutions like Applied Art/ Painting college, Pharmacy college, B. Ed. College, Teacher's Training Institute, Music / Dance School, Nursing School etc. are covered under 'Others'.

Column 11 to 14: Higher Secondary/ Intermediate/ Senior Secondary/PUC/Junior College level, Secondary/Matriculation, Middle Schools/ Junior Secondary and Primary Schools.

School up to class V are treated as Primary or elementary schools. These include Nursery schools, Kindergarten schools, PrePrimary schools, Junior Basic schools upto class V and Primary schools upto class IV.

Schools upto VIII are considered as Middle school or Junior Secondary.

Schools upto class X are considered as Matriculation or Secondary schools.

Schools upto XI or XII classes are considered as Higher Secondary / Intermediate / Pre University / Junior College etc. This would cover 10+2 classes whether held in schools or college.

If there are composite schools like middle schools with primary classes or Secondary schools with Middle classes, these are also included in the number of Primary and Middle schools, respectively. For example, if in a town, there are two Primary Schools and one Middle school with Primary classes, the number of Primary schools in the town is given as three and that of Middle schools as one though there are only three educational institutions.

If there are more institutions of a type in the town, the number is indicated within bracket along with the abbreviation, e.g. P(4), M(3).

Column 15: Adult literacy class/centres

This column has been introduced keeping in view the Minimum Needs Programme of the Planning

Commission. There are number of Adult Education Centres which are included in these columns.

If an educational facility is not available in the town, the name of the nearest place and its distance in kilometres from the town where the facility is available is mentioned.

Column 16: Working Women's hostels with number of seats

The number of working women's hostel if available in the referent town is mentioned with number of seats. If the facility is not available in the town the name of nearest place with distance where the facility is available is recorded.

Column 17 to 19: Recreational and Cultural Facilities

Stadium, Cinema, Auditorium/ Drama/ Community Hall are covered under recreational & cultural facilities. The particulars of permanent recreational facilities are considered for these columns.

Column 20: Public Libraries, Reading Rooms

Number of public libraries and reading rooms available in the referent town are recorded in codes as follows:

(i) Public Library	PL
(ii) Reading room	RR

Statement VI: Trade, Commerce, Industry and Banking, 1999

Column 3 to 8: Name of three most important commodities exported and names of three most important commodities manufactured in the town are recorded.

Column 9: Number of Banks

Number of Banks available in the referent town both Commercial and Cooperative banks are recorded against this column.

Column 10 & 11: Number of Agricultural Credit Societies and Non Agricultural Credit Societies

The total number of Agricultural Credit Societies and Non Agricultural Credit Societies in the referent town are recorded against these columns.

Statement VII: Civic and other Amenities in Slums, 1999

This is the statement on civic and other amenities in all slums whether notified or not and for all towns having statutory bodies, like municipality, Municipal Corporation, Town area committee etc.

STATEMENT - I

APPENDIX : TOWNS SHOWING THEIR OUTGROWTH WITH POPULATION

Sl. No.	Name of Town with location code	Population of the core town	Outgrowth	Population of outgrowth
1	2	3	4	5
		- Nil -		

(a) Brief note on Primary Census Abstract

The first census of the third millennium and twenty first century the Census of India, 2001 was the 14th continuous and uninterrupted Indian census since 1872. Thus, 2001 Census will provide data on population and its characteristics marking transition from one century and millennium to another.

The gigantic operation of Population Enumeration (considered by many to be the single largest and complex peace time administrative exercise in the world) was made possible due to the door to door universal canvassing of the Household Schedule by about 2 million enumerators and supervisors covering 593 districts, 5,463 sub-districts, 5,161 towns and 638,588 villages. The comprehensive Household Schedule which replaced the individual slip had three parts and two sides A and B. Part I contained the Location Particulars; Part II related to the Individual Particulars and Part III contained questions for Household engaged in Cultivation/Plantation. The part II of the Household Schedule had 39 columns and 23 questions all of which were universally canvassed and no sampling was resorted to during enumeration.

Data Processing

A quantum leap was made in the technology front while processing the Census 2001 data both for Houselisting and Population Enumeration. The Census schedules for both the phases were scanned through high speed scanners in fifteen data centers across the country and hand-written data from the schedules were converted into digitized form through Intelligent Character Reading (ICR) software for creation of ASCII records for further processing. The designing and formatting of the Household Schedule had to be done very carefully using specialized software so as to ensure uniformity, which was an essential pre-requisite for scanning. The selection of appropriate state-of-art technology in data processing has made it possible to produce all the Houselisting as well as Population Enumeration tables on full count basis for the first time in the history of Census. For Census 2001, about 202 million schedules consisting of about 1,028 million records were scanned and processed within a span of only 10 months starting October, 2002.

Task Force on Quality Assurance

After the data is processed, it is expedient on the part of the data producing agency to satisfy itself about its quality before putting the same in public domain. This has to be done mainly through the process of internal consistency, comparison with similar data in the past and also through validation with likewise data if available, from external sources. Quite often the local knowledge and perception has to be brought into play to understand both the existing and the new emerging trends of population distribution and characteristics. The other very important aspect of the data quality is to ensure complete coverage of all geographical areas especially for the population enumeration phase where the data is disseminated right up to the village level in the rural areas and the ward level in the urban areas. Thus ensuring the complete coverage and correct geographical linkage of each enumeration block was one of the major planks of the quality control, specially for small area population statistics.

A very comprehensive check and edit mechanism was put in place to objectively examine the preliminary Census 2001 Population Enumeration results and finally clear them for use. The responsibility of the final clearance of data was with the Task Force on Quality Assurance (TFQA), headed by the Registrar General and Census Commissioner, India. The other members of the TFQA were the Heads and senior officers of the Census Division, Data Processing Division, Map Division, Demography Division and Social Studies Division. The Directors of Census Operations were co-opted as members whenever the TFQA discussed the data for their States/Union territories. The Directors and their senior officers were required to make detailed presentations of data for their own state both in respect to the quality and the coverage and only after the full possible cleared.

There has been a major departure in Census 2001 from the past in respect of the procedure followed for finalization of the Scheduled Castes and the Scheduled Tribes population. In the earlier censuses, the total Scheduled Castes and Scheduled Tribes populations were finalized at the time of the manual compilation of the Primary Census Abstracts (PCA) at the Regional Tabulation Offices which were specially set up for this purpose. The individual Scheduled Castes and the Scheduled Tribes population for each state was finalized much later based on manual coding done by the coders. In 2001 Census, each individual Scheduled Caste and the Scheduled Tribe have been coded directly on the computers by the Data Entry Operators through a process known as Computer Assisted Coding (CAC) and taken up along with the processing of PCA data. The CAC process involves pulling down, from the relevant dictionary of the Scheduled Castes and the Scheduled Tribes, on the computer screen and coding from the dictionary by referring to the image of the specific individual entry in the Household Schedule appearing on the screen. The CAC of the response on Religion wherever required, was also undertaken along with the processing of PCA. This is because the Scheduled Castes status had to be determined in relation to the religion of the individual. Two Special Task Forces, one on Religion and the other on Scheduled Castes/ Scheduled Tribes were constituted for scrutiny and appropriate classification of these responses.

The main task of the Special Task Force on Religion was to appropriately merge or group the new responses encountered and code it into the appropriate religious community based on available literature and local knowledge. The Special Task Force on Scheduled Castes and Scheduled Tribes examined the different Scheduled Castes and Scheduled Tribes entries encoun-tered and classified these into appropriate category of the Scheduled Castes or the Scheduled Tribes principally based on the Presidential Notification and the available literature. Thus a very systematic and scientific mechanism was operationalised to firm up the individual religion and the individual Scheduled Castes/Tribes returns. The Scheduled Castes and the Scheduled Tribes population in 2001 Census, is thus being finalized by aggregating the population data for individual Scheduled Castes and the Scheduled Tribes at appropriate geographical levels.

The entire work relating to the data validation and scrutiny was completed by all the States/Union Territories under the overall supervision and monitoring of the Census Division of the Office of the Registrar General, India with active cooperation and support of the Social Studies Division, Data Processing Division, Data Dissemination Division and Map Division.

Primary Census Abstract

The Primary Census Abstract which is yet another important publication of 2001 Census gives basic information on Area, Total Households, Total population, Scheduled Castes, Scheduled Tribes population, Population in the age group 0-6, Literates, Main workers and Marginal workers classified by the four broad industrial categories, namely, (i) Cultivators, (ii) Agricultural laborers, (iii) Household Industry Workers, and (iv) Other workers and also Non-workers. The characteristics of the Total population includes Scheduled Castes, Scheduled Tribes, Institutional and Houseless population and are presented by sex and rural-urban residence. This data is presented at different levels, namely, India, States/ Union territories, Districts and Cities, Urban Agglomerations (Population 1,00,000 and above) in three different tables. In addition, the Appendix of said publication provides Houseless and Institutional Households and their population by residence and sex for 2001 for India, State and Union territory.

Apart from the India and State/Union Territory volumes for Primary Census Abstract, the District Census Handbook contains District Primary Census Abstract, Appendix to District Primary Census Abstract, Primary Census Abstract for Scheduled Castes, Primary Census Abstract for Scheduled Tribes, Village Primary Census Abstract and Urban Primary Census Abstract of the concerned district in the state.

It was for the first time at the 1981 Census that the Primary Census Abstract (PCA) was brought out for the Scheduled Castes and the Scheduled Tribes separately on the pattern of General Primary Census Abstract. This practice was continued in 1991 also. In the 1961 and 1971 Censuses, such data were made available in Table C-VIII-Social and Cultural table and to some extent in the series 'Special Tables for Scheduled Castes/Scheduled Tribes'.

The format of Primary Census Abstract has been restructured slightly in the 2001 Census as compared to that of 1991 Census. The nine-fold industrial classification of main workers given in the Primary Census Abstract of 1991 Census has been discontinued and its place, four-fold industrial classification of both 'main workers' and 'marginal workers' are included. In 1981 census only main workers were presented in to four categories. One of the novel features of the primary census abstract of 1991 Census was the presentation of data of the population of age group 0-6 is continued in 2001 Census also. This will help the data users in better analysis and understanding of this literacy data.

Level of presentation in District Census Handbooks:

The Primary Census Abstract data in different PCAs are presented at different levels. The level of presentation of Primary Census Abstracts are as under:

Name of the Primary Cenus Abstract	Level of presentation
1. District Primary Census Abstract	District/CDBlock/UA/City/Town
2. Primary Census Abstract for Scheduled Castes	District/CDBlock/Town
3. Primary Census Abstract for Scheduled Tribes	District/CDBlock/Town
4. Village Primary CensusAbstract	CD Block/Villagewise
5. Urban Primary Census Abstract	Town/WardLevel

The PCA Data for villages was presented CD Block wise for the first time in 1991 Census. This practice is continued in 2001 Census also. The data for each CD Block is presented both for rural and urban areas separately. All the villages within the CD Block constitute the rural portion and the Census Towns and Outgrowths are shown under the urban portion of the CD Block. In case a CD Block is spread over two or more districts, than portion which falls within the district is presented, the data pertaining to remaining portion of the CD Block is presented in the concerned District Census Handbook. The data in the Urban Primary Census Abstract for each town as well as for town with outgrowths in the district are presented. The data for all the wards and the outgrowths of the town(s) are also presented separately below the concerned town(s).

The District Primary Census Abstract is presented in 59 columns. The Primary Census Abstract for Scheduled Castes and Primary Census Abstract for Scheduled Tribes are presented in 52 columns. The Village Primary Census Abstract and Urban Primary Census Abstract are presented in 58 columns.

The concepts and definitions used in the column heading are explained under the sub heading 'Census Concepts' in the Analytical Note. The term 'Total Population' includes the Scheduled Castes, the Scheduled Tribes, the Institutional and the Houseless populations. The explanation regarding area figures presented at various level in the Primary Census Abstracts are as follows:

Area Figures

The area figures supplied by local revenue authorities of the district in respect of taluks, Police Stations and by the local bodies in respect of towns are given in square kilometers. The area figures of the villages supplied by the Talukdars in acres have been converted and shown in hectares. The area figures of the CD Block is the total of the village areas coming under each CD Block. The area figures for the districtare the same as adopted by the Surveyor General of India to maintain uniformity at the national level. The total area figures of all the taluks/CD Blocks within the district may not tally with area figures of the district because former represents land use area only. Similarly, the total of all the villages may not tally with the entire rural of Police Station/ Taluk. The difference may be due to the fact that while the area covered by hills, forests and rivers etc, have been accounted in the Taluks and P.S. level the same may not be covered under the area of the villages. Apart from this it may also differ due to varying methods of computation adopted at different levels.

An appendix to District Primary Census Abstract has also been furnished showing urban enumeration block-wise particulars on Total Population, the Scheduled Castes Population and the Scheduled Tribes Population for each town.

ANNEXURE – II

NOTE ON FERTILITY & MORTALITY AND MIGRATION – 1991 AND 2001 CENSUS

Fertility levels

In demography, the word fertility is used in relation to the actual production of children or 'occurrence of births specially live births'. Fertility is a measure of rate at which population adds to itself by births and normally assessed by relating number of births to size of some section of the population, such as number of married couples or number of women of child bearing age. In other words, it is a major component of population growth. In the 1991 census, questions on fertility related to age at marriage, number of surviving children at present, number of children ever born alive and children born alive during the last one year were asked. The first three questions were asked to all evermarried women and the last question related to currently married women.

MIGRATION

What is Migration?

Migration is the third component of population change, the other two being mortality and fertility. A person is considered as a migrant by place of birth if the place in which he is enumerated during the census is other than the place of birth. Similarly a person is considered as a migrant by place of last residence if the place in which he is enumerated during the census is other than his place of immediate last residence.

Internal and International migration

The migrational movements are of three types (i) Migration within the state itself with its components (a) Migration within the district of enumeration (intra district migration), (b) Migration from one district of state to another district of state (inter district migration), (ii) Migration from one state to another state of the country (interstate migration), (iii) Migration from one country to another country. The first two streams together constitute internal migration, while the last type of movement is called international migration.

Why people migrate?

As in 1981 census, the reasons for migration were elicited in 1991 and 2001 censuses also. The reasons for migration were broadly categorized as (1) employment (2) business (3) education (4) family moved (5) marriage (6) natural calamities like drought, floods etc. and (7) other reasons. Reasons for migration have been elicited only with reference to movement from place of last residence.

Impact of migration

Growth of population of a particular place depends upon natural increase due to excess of births over deaths and migration. Knowledge of trends in migration helps in future planning of a region.

Marriage and age at marriage are important social phenomena and crucial factors in the analysis of the dynamics of fertility. As such, various measures of fertility estimated based on these crucial factors are highlighted in the above table.

Estimates of General Fertility Rate (GFR) a refined measure of fertility, defined as the number of live births per thousand women in the reproductive age-group 15-49 years is a useful tool for measuring fertility, and this rate is further estimated only for the married women which is defined as General Marital Fertility Rate (GMFR). The GFR and GMFR for the district are 120 and 158 respectively.

The cumulative value of the age-specific fertility rates at the end of the child bearing ages gives a measure of Fertility known as Total Fertility Rate (TFR). It indicates average number of children expected to be born per woman during her entire span on reproductive period assuming that the age specific fertility rates to which she is exposed to, continue to be the same and there is no mortality. The same is expected for married women known as Total Marital Fertility Rate (TMFR). The estimated TFR and TMFR for the district are 3.60 and 5.45 respectively. The Crude Birth Rate (CBR) is 28.96.

The most useful indices that can be derived from the question on number of children born alive is the average number of children ever born per ever married women by age-group. Since most of the women complete their reproduction be the age-group 45-49, this indices is termed as completed fertility. The category ever married includes widows, divorced

and separated women. As such the completed fertility for the district is 4.68. The child women ratio which is a relative measure to know the fertility performance of a woman is 463 in the district.

One of the parameters, presenting female age at marriage relates to all women who live with their husbands, where some of them might have been recently married and some of them decades ago. It can be observed that mean age at marriage of the currently married women of Chitradurga district is lower than the state figure of 18.00.

The estimates of mortality indicators presented above have been obtained through indirect estimation using the data on the number of children ever born and number of children surviving to ever married women. The information on questions on children ever born and children surviving canvassed for all ever married woman have been tabulated by the age of the mother. This data has been converted into estimates of probability of dying before attaining a given age. These estimates have been worked out using Brass technique where (q_i) is the probability of a newborn child dying before the age i = 1, 2, 3 and 5. The table above shows the estimates of infant and child mortality derived for the year 1991 by sex.

The infant mortality rate (q_1) for the person is 50 and for male and female are 51 and 52 respectively. The estimates of under 5 mortality (q_5) for person is 104 and for male and female are 102 and 108 respectively.

The Annexure IV(1) presents data of migrants on migration by their place of birth. The majority of migrants are those who are born within the state of enumeration, which constitute 93.38 per cent as per 2001 Census. Among them, migrants born elsewhere in the district are larger than migrants born in other districts of the state. Considerable proportion of population from other state have migrated to the district. The variations during the decade among different categories can be seen from the annexure.

ANNEXURE IV (2) - PERCENTAGE DISTRIBUTION OF IN-MIGRANTS BY PLACE OF LAST RESIDENCE

Sl. No.	Place of Last Residence	1991 Census			2001 Census

The Annexure IV(2) presents data on migration by their place of last residence. As far as the district is concerned, it can be seen that migrants whose place of last residence was within the state of enumeration but outside the place of enumeration, constitute major proportion of migrant population.

As per 2001 Census, their percentage accounts for 94.08. Among them, more is the inflow from within the district. Considerable proportion from other state have migrated to the district. The variations during the decade among different categories can be seen from the annexure.

ANNEXURE IV (3) - INTERSTATE IN-MIGRATION TO CHITRADURGA DISTRICT

Sl. No.	Place of Birth	1991 Census		2001 Census	
		Migrants	Percentage of total migrants	Migrants	Percentage of total migrants

	Total	**39,549**	**100.00**	**23,295**	**100.00**

Source : Migration Tables of 1991 & 2001 Census

The interstate in-migration to the district by their place of birth provided above, highlights the States with the largest contribution of migrants to the district. According to 2001 Census findings, large inflow of population is mainly from Andhra Pradesh that constitute 77.03 per cent followed by 10.7 per cent from Tamilnadu. Migrants from Rajasthan is 5.8 per cent. Further the category migrants from `Other States' has come down from 9.2 per cent in 1991 to 3.78 per cent in 2001.

ANNEXURE IV(4) - RURAL AND URBAN COMPOSITION OF INTERNAL MIGRANTS BY PLACE OF BIRTH 1991 AND 2001 CENSUS

Sl.No.	Place of Birth	Place of Enumeration-1991			Place of Enumeration-2001		
		Total	Rural	Urban	Total	Rural	Urban
1	2	3	4	5	6	7	8
1.	Within the state	338,387	270,031	68,356	262,973	202,296	60,677
		100.0	79.8	20.2	100.0	76.9	23.1

		100.0	74.7	25.3	100.0	69.7	30.3

Source : Migration Tables of 1991 & 2001 Census

Rural and urban composition of internal migrants by their place of birth is provided in the above statement. The data for both the Census points out that majority of migrants within the State as well as from other states of India have migrated to rural areas of the district. The details can be seen from the Statement.

ANENXURE - V

Brief account of Main Religions in the District /Taluk as per 1991 & 2001 Census

Religion forms an integral part of Indian Social System. For an Indian, it is a way of life rather than a faith. Indian Census, since its inception is collecting data on religion and presenting the same in its reports. In the pre-independence Census reports, the data on religion was being presented for 6 major religions viz., Hindus, Muslims, Christians, Sikhs, Jains and Buddhists. Besides, the minor religions have been classified under the category of 'Others'. The data on religion collected and presented by the Indian Census is the basic data of immense use for the researchers, anthropologists, sociologists, demographers, administrators, planners and even for a common man.

ANNEXURE V(1) - PERCENTAGE DISTRIBUTION OF POPULATION BY MAJOR RELIGIONS IN INDIA AND KARNATAKA DURING 1991 & 2001 AND ITS GROWTH RATE DURING 1981-1991& 1991-2001

Sl No	Religion	India				Karnataka			
		Percentage of Population	Percentage growth rate 1981-1991	Percentage of Population	Percentage growth rate 1991-2001	Percentage of Population	Percentage growth rate 1981-1991	Percentage of Population	Percentage growth rate 1991-2001
1	2	3	4	5	6	7	8	9	10

India - State differentials

The comparative data of the country and the state of Karnataka presented in Annexure V(1) reveals that the religion wise concentration of population in the state of Karnataka is of three major religions viz., Hindus, Muslims and Christians. Hindus are returned on the higher side with over three per cent more than the national average. Christians recorded nearly one per cent less whereas the proportion of Muslims in the state to national population was almost the same. There are 85.5 per cent Hindus, 11.6 per cent Muslims and 1.9 per cent Christians in Karnataka as against that of 82.4 per cent Hindus, 11.7 per cent Muslims and 2.3 per cent Christians in India. In regard to concentration of other three major religions viz., Sikhs, Buddhists and Jains it is observed that Jains with 0.7 per cent form the fourth major religion in the state whereas Buddhists with 9.8 per cent is the third major religion in India. In the Indian scene the Sikhs form fifth major group, whereas in Karnataka, Buddhists and Sikhs are placed fifth position.

Religion wise growth in the state during the decade 1981 - 91 reveals that the major religions viz., Hindus, Muslims and Christians recorded a growth rate in lesser degree i.e., 20.7 per cent, 25.7 per cent and 11.1 per cent respectively, against that of 22.3, 26.1 and 16.9 per cent in India as a whole. On the other hand Buddhists, Sikhs and Jains recorded a growth rate of 72.8 per cent, 57.8 per cent and 14.6 pecent respectively for the state against that of 34.0, 24.2 and 3.9 per cent respectively for India. Thus, the Jains recorded a higher growth of nearly 11 per cent in the state than that of India as a whole during the decade 1981 - 91.

Percentage distribution of population during 2001 Census, by major religions in India and Karnataka shows that Hindus form majority of the population with 80.5 and 83.9 per cent respectively, while Muslims form 13.4 and 12.2 per cent for the country and state respectively. The proportion of these religions for the country and state, during 1991 Census was 82.4 per cent and 85.5 per cent for Hindus and 11.7 and 11.6 per cent for Muslims. There are not

much noticeable changes are found in other religions. Persons who have not reported to which religion or faith they belong to has increased in Karnataka, as its proportion to the total population has increased from 0.1 per cent in 1991 Census to 0.3 per cent during 2001 Census.

ANNEXURE V(2) - DISTRIBUTION OF POPULATION UNDER EACH RELIGION TO TOTAL POPULATION IN THE DISTRICTS OF KARNATAKA - 1991 CENSUS & 2001 CENSUS

The above table furnishes the composition of six major religions along with 'Other Religions' and 'Religion not stated' among the districts of the state during 2001 Census along with 1991 Census. As may be seen from the table that the proportion of population to total population during 2001 Census is below 5 per cent for 23 districts of the state and is between 5-10 per cent in 3 districts. Only Bangalore district has the distinction of having more than 10 per cent of the total population of the state in its jurisdiction. During 1991 Census the situation was almost similar with 22 districts having a proportion of less than 5 per cent and 4 districts had more than 5 per cent but below 10 per cent. With 10.76 per cent of the total population Bangalore district occupied the top position.

Of the total population of the state, proportion of districts having Hindus and Muslims was uniform during both the Censuses i.e. less than 5 per cent of the total population in 21 districts for Hindus and 23 districts for Muslims, while in 5 and 3 districts respectively for Hindus and Muslims had a proportion of 5-10 per cent and Bangalore district alone had more than 10 per cent.

ANNEXURE V(3) - PERCENTAGE AND DISTRIBUTION OF POPULATION BY MAJOR RELIGION IN KARNATAKA AND CHITRADURGA DISTRICT - 1991 & 2001

Others	6,325	Ng	115,460	0.22	90	0.01	4,844	0.32
Religion not stated	36,121	0.10	120,247	0.23	1,302	0.10	8,411	0.55

The percentage distribution of population by major religion in Karnataka and Chitradurga district for 1991 and 2001 Censuses are presented in the above table. As may be seen from the table that in Karnataka, Hindus form 85.5 and 83.86 per cent of the total population during 1991 and 2001 Censuses, followed by Muslims and Christians. The corresponding statistics for the district does not differ much as Hindus and Muslims occupy the top two places followed by Jains. These three religion cover more than 98 per cent of the total population of the district. Remarkable increase in the proportion of Buddhists population has been noticed between 1991 and 2001 Censuses in the State.

ANNEXURE V(4) - DISTRIBUTION BETWEEN RURAL AND URBAN AREAS OF MAJOR RELIGIONS IN KARNATAKA AND CHITRADURGA - 1991 & 2001

	Others	4	4.4	86	95.6	4,350	89.8	494	10.2
	Religion not stated	1,144	87.9	158	12.1	7,486	89.0	925	11.0

Distribution of major religion by residence for the State and district are presented in the above statement. Majority of Hindus, Jains, Buddhists and those who have not stated their religion are residing in rural areas of the State during both the Censuses. While population belonging to Muslim, Christian and Sikh religion reside in urban areas of the State. Almost similar trend is seen in the district. As per 2001 Census data, while majority of Hindus, Buddhists, Sikhs and those who have not stated their religion reside in rural areas, majority of Muslims, Christians and Jains reside in urban areas. A comparative data for 1991 Census is provided in the annexure.

A : Actual, **P**: Percentage

Talukwise distribution of population following major religion is presented above. As far as the district is concerned, majority of the population follow Hindu faith in all the taluks. This is followed by Muslims and Jains in Chitradurga district. A comparison between 1991 and 2001 Census data expose marginal variations in different faiths persuaded by the population during the decade.

ANNEXURE VI - MARITAL STATUS OF POPULATION IN CHITRADURGA DISTRICT - 1991& 2001

	100.00	73.00	27.00	100.00	81.93	18.07

It may be seen from Annexure VI that the percentage of "Never Married" population accounts for 49.24 per cent and 48.87 per cent at state and district levels during 2001 Census, while the same was 52.05 per cent and 52.70 per cent during 1991 Census. Similarly the percentage figures of the district for Married, widowed and Divorced or Separated are 45.79, 5.06 and 0.28 per cent during 2001 Census. Comparative data for 1991 Census is also furnished in the table for ready reference. The percentage variation of all the marital categories between rural and urban is marginal in both state and district population.

The level of education by sex for the district and the State during 1991 and 2001 Census are presented in the above annexure. It can be seen that percentage of illiterates during the decade has decreased vis-a-vis for the State and the district. Though the male literates out number females, the percentage of women folk acquired literacy during the decade is more than the male population. The comparison of data for the two censuses reveals it so for the State and the district. The different educational level attained by the population can be seen in detail in the above annexure.

ANNEXURE - VIII

DISTRIBUTION OF DIFFERENT MOTHER TONGUE RETURNED DURING 1991 & 2001 CENSUS

As part of Census publication programme the data on spoken languages/Mother Tongues will be presented under C Series. The table C-7 shows the distribution of languages/Mother Tongues which returned 10,000 or more speakers each at all-India level (including of Mother Tongues grouped under each for the district, with total, rural/urban and male/female break ups). The unclassified Mother Tongues and the Mother Tongues having less than 10,000 speakers have been relegated to 'Other' Mother Tongue category. The table is divided into Part A-Scheduled languages with Mother Tongues grouped under each and Part B-Non-scheduled languages with Mother Tongue grouped under each. The instructions to the enumerators in regard to this question read as under.

"Record Mother Tongue in full, whatever be the name of the language returned by the person enumerated". The definition of Mother Tongue is the same as in 1991. "Mother Tongue is the language spoken in childhood by the person's mother to the person. If the mother died in infancy, the language mainly spoken in the person's home in childhood will be the Mother Tongue. In case of infants and deaf mutes the language usually spoken by the mother should be recorded. In case of doubt, the language mainly spoken in the household may be recorded".

As the above instructions to the enumerators would show, the respondent was made to feel free to return the name of his/her Mother Tongue and the same was recorded faithfully by the enumerators. This naturally leads to recording of a very large number of Mother Tongue names. It is to be mentioned that Mother Tongues as returned in the Census are basically, the designation provided by the respondents. These designations or Mother Tongue labels need not be identical with the actual linguistic mediums. For assessing the correlation between the Mother Tongue designations and actual languages and dialects the raw returns of Census were subjected to thorough scrutiny and rationalization.

The abstract of languages as Mother Tongues and their strength in the district during 1991 and 2001 Census are provided below.

STATEMENT-I

ABSTRACT OF LANGUAGES AS MOTHER TONGUES AND THEIR STRENGTH IN CHITRADURGA DISTRICT-1991 AND 2001 CENSUS
