CENSUS OF INDIA 2001

SERIES-12 **KARNATAKA**

DISTRICT CENSUS HANDBOOK

Part - A & B

CHIKMAGALUR DISTRICT

VILLAGE & TOWN DIRECTORY

VILLAGE AND TOWNWISE PRIMARY CENSUS ABSTRACT

Directorate of Census Operations, Karnataka

F O R E W O R D

1. The District Census Handbook (DCHB) published by Census Organisation since 1951 census, is one of the important publications in the context of planning and development at gross-root level. The publication, which is brought out for each district, contains several demographic and socio-economic characteristics village-wise and town-wise of the district alongwith the status of availability of civic amenities, infrastructural facilities, etc.

2. The scope of the DCHB was initially confined to a few Census Tables and Primary Census Abstract (PCA) of each village and town within the district. Thereafter, at successive censuses, its scope and coverage has been enlarged. The DCHB published at the 1961 census provided a descriptive account of the district, administrative statistics, census tables and a village and town directory including PCA. The 1971 census-DCHB series was in three parts: Part-A related to village and town directory, Part-B to village and town PCA and Part-C comprised analytical report, administrative statistics, district census tables and certain analytical tables based on PCA and amenity data in respect of villages. The 1981 census DCHB was in two parts: Part-A contained village and town directory and Part-B the PCA of village and town including the SCs and STs PCA up to taluk/town levels. New features alongwith restructuring of the formats of village and town directory were added into it. In Village Directory, all amenities except electricity were brought together and if any amenity was not available in the referent village, the distance in broad ranges from the nearest place having such an amenity, was given. Information on new items such as adult literacy centres, primary health sub-centres and community health workers in the village were provided so as to meet the requirements of some of the Revised Minimum Needs Programme. Information on approach to the village was provided for the first time in the Village Directory so as to give the details on number of inaccessible villages in each district. In the Town Directory, a statement (IV-A) on slums was introduced to provide the details on civic and other amenities in the notified slums of Class I and Class II towns.

3. The 1991 census DCHB, by and large, followed the pattern of presentation of 1981 census, except the format of PCA was restructured. Nine-fold industrial classification of main workers was given against the four-fold industrial classification presented in the 1981 census. In addition, sex-wise population in 0-6 age group was included in the PCA for the first time with a view to enable the data users to compile more realistic literacy rate as all children below 7 years of age had been treated as illiterate at the time of 1991 census. One of the important innovations in the 1991 census was the Community Development Block (CD block) level presentation of village directory and PCA data instead of the traditional taluk/PS level presentation. It was expected that the presentation of village directory and PCA data at CD block level will help the planners in formulation of micro level development plans, CD block being lowest administrative unit.

4. The present series of 2001 census DCHBs have been made more informative and exhaustive in terms of coverage and content. The Village Directory has been enlarged in scope by including a number of other facilities like banking, recreational and cultural facilities, newspapers and magazines and 'most important commodity' manufactured in village. Income and expenditure of gram panchayat, wherever possible, has been provided. Apart from these, more details on distance(s) at which basic amenities are available (if not available in the village), are given. This includes educational facilities (namely primary and middle schools and college), medical facilities (viz. Allopathic Hospital, Maternity & Child Welfare Centre and Primary Health Centre), drinking water, post & telegraph (post office and phone), communication, bank, credit societies and recreational facilities. In Town Directory, the statement on Slums has been modified and its coverage enlarged by including details on all slums instead of 'notified slums'. The information is given in case of all statutory towns irrespective

of their class, against only Class I and Class II towns in the 1981 and 1991 censuses. The basic amenities available in the villages and towns are analysed in depth with the help of a number of cross-classified inset tables and statements. Two other significant additions in the publication are inclusion of 'motif' highlighting significant characteristic of the district and analytical notes as annexures. The analytical notes on (i) fertility and mortality and (ii) various measures of fertility and mean age at marriage are prepared based on 1991 census. Whereas, in the notes relating to (i) percentage distribution of migrants by place of birth/place of last residence, (ii) main religions, (iii) marital status of population, (iv) age, sex and education, and (v) distribution of spectrum of mother tongue, nature and extent of changes occurred in the district in its basic socio-demographic features during the decade 1991-2001 are analysed. The eight digits permanent location code (PLCN) to all the villages and towns have been assigned keeping in view the future needs.

5. The village and town level amenity data have been collected, compiled and computerized in prescribed record structure under the supervision of Shri.H.Shashidhar, Director of Census Operations, Karnataka. Thereafter, efforts have been made to ensure comparability of the information with that of 1991 census data and the information brought out by the respective state governments in their annual reports and statistical handbooks for various years after 1991. The task of planning, designing and co-ordination of this publication was carried out by Shri R.G. Mitra, Deputy Registrar General (C&T) and Dr. I.C. Agrawal, Senior Research Officer of Social Studies Division, Dr. R.P. Singh, Deputy Registrar General (Map) provided the technical guidance in the preparation of maps. Whereas, Shri Anil Kumar Arora, Deputy Director of Data Processing Division who worked under the overall supervision of Shri Himakar, Addl. Director (EDP) helped in preparation of record structure for computerization of village and town directory data and the programme for the generation of Village Directory and Town Directory statements including analytical inset tables. The draft DCHB manuscripts received from the Census Directorates have been scrutinized in the Social Studies Division under the guidance of Shri S.L. Jain, Deputy Director and Shri R.K. Mehta, Assistant Director. I am thankful to all of them and other who have contributed to make this publication possible.

D.K. Sikri
Registrar General &
Census Commissioner, India

Motif

Bhadra Reservoir is also known as Lakkavalli Dam as the location of the dam is near the village Lakkavalli of Tarikere taluk. Bhadra Reservoir is a multipurpose dam with a catchment area of 1,968 Sq.Kms yielding 84.63 Thousand Million Cubic Feet (TMC) of water. With the construction of this dam an area of 11,250.88 hectares of land has been submerged which consisted of 717.49 hectares of forest, 3,274.65 hectares of Cultivable land and 7,258.74 hectares of Fallow land pertaining to 28 villages. The reservoir provides irrigation to 105,570 hectares of land. Bhadra Reservoir is a composite dam and its length is 1,708 Mtrs and the height being 59.13 Mtrs. Full reservoir level is 56.70 Mtrs. or 657.75 Mtrs. above MSL having Left Bank Low Level Canal and Right Bank Low Level Canal at 612.00 Mtrs. and 631.5 Mtrs. above MSL. The reservoir has been provided with Oghee type of spill way of 82.30 Mtrs. in length in the middle with a discharging capacity of 3,020 CMT.

The Left Bank Canal runs upto a distance of 77.0 Kms. while the Right Bank Canal runs 103 Kms. with a Branch canal of 284.90 Kms and the discharge capacity of these canals are 10.76 Cumecs and 75.03 Cumecs respectively.

Since this being a multipurpose dam 4 Power generation units are functioning with a total capacity of 40.4 MW.

P R E F A C E

In the foreword to the 2001 series of the District Census Handbooks, Sri. D.K. Sikri, I.A.S., the Registrar General and Census Commissioner, India, has traced the history of the District Census Handbooks. He has also succinctly explained the scope and coverage of the District Census Handbooks. These volumes contain salient data on the population for every village and town as revealed by 2001 Census. They also contain a wealth of information regarding villages and towns which, throw some light on the circumstances in which people live and is therefore relevant to the data on the population. This information is also of considerable importance in the context of planned development.

The District Census Handbook is divided into two parts: Part A contains information regarding each village and town (Village Directory and Town Directory collected from various sources) and Part B which contains the data on the population collected during 2001 Census - the Primary Census Abstract. The data published in Part B was collected during February-March 2001 in the Population Census.

The process of data collection for the Village Directory and the Town Directory (Part A) commenced in 1999. The Village Directory formats were mailed to the Deputy Commissioners of Districts for obtaining the village wise particulars through Village Accountants. Similarly the Town Directory formats were mailed to the Commissioners of Corporations, Chief Officers of Town Municipal Councils, Town Panchayats, etc. The village wise and town wise data furnished by these officers were then examined exhaustively for consistency in reporting and comparability with the information published in the 1991 District Census Handbooks. The Household Schedules, which were canvassed to collect the population data during 2001 Census, were scanned and data captured was processed electronically. The Primary Census Abstract was generated centrally on the computers by Registrar General, India.

In compilation of the District Census Handbooks, the Census Directorate had the co-operation of various departments of the State/Central Government. The Census Directorate gratefully acknowledge their assistance.

I take this opportunity to offer my grateful thanks to Sri. H. Shashidhar, Director of Census Operations and Sri. S.R. Raghavendra Rao, Deputy Director (Retd.) for their valuable guidance. I am also thankful to all the officers and officials of this Directorate who have been actively involved in the compilation of this volume.

I am highly grateful to Sri. J.K.Banthia, I.A.S., Ex. Registrar General, India for the benefit I have derived by way of guidance and advice. I express my thanks to Sri R.G. Mitra, Ex. Deputy Registrar General (C&T) and Dr. I.C. Agrawal, Assistant Registrar General and Sri S.L.Jain Deputy Director of Social Studies Division and Dr. R.P. Singh, Ex. Deputy Registrar General (Map) for their guidance.

DISTRICT HIGHLIGHTS - 2001 CENSUS

1. The district ranks at 7th place in literacy rate.

2. By population size, the district ranks at 23rd place both during 1991 and 2001 Census.

3. The sex ratio of the district is 984 and it stands in 6th place among the district in the State.

4. The population density of the district is 158 and ranks at 25th place among the districts.

5. Less than 50.00 per cent of the workers are engaged in agricultural activities which include both cultivators and agricultural labourers.

6. The district ranks in 14th place in terms of work participation.

7. Sringeri is one of the two taluks in the State that has recorded a population of less than 50,000, other taluk being Supa of Uttara Kannada district.

8. Sringeri, a tiny town in the district continues to remain in class VI category of towns since 1901. It has grown at a rate of 75.02 per cent over a period of 100 years.

IMPORTANT STATISTICS, 2001

Particulars	Persons Males Females	State	Percentage	District	Percentage

ANALYTICAL NOTE

(i) HISTORY AND SCOPE OF THE DISTRICT CENSUS HANDBOOK

Introduction

The District Census Handbook is the most valuable district level publication brought out by the Census Organization. It contains micro-level data down to the lowest administrative units viz, revenue village in the case of rural areas and Division/Ward level in the case of urban areas. It is extremely useful to the planners, administrators, demographers, sociologists, etc., as it contains resourceful wealth of data regarding basic amenities available in each villages and towns of the district such as educational, medical, drinking water, post and telegraphs, transportation and communication, banks, societies, recreation, power supply, export/import of important commodities and land use besides, the particulars revealed during the latest census enumeration. It is for the first time that the district census hand book series was included in the census publication programme at the 1951 census, in order to satisfy the growing demand by the administrators, the planners, research scholars, demographers and the other such census data users, for micro-level data. The idea of compiling the District Census Handbooks was pioneered by Sri R.A.Gopala Swamy, I.C.S. the then Registrar General, India and Ex-officio Census Commissioner of India, with a view to preserve the Census records prepared for areas below the district level. He proposed that all the district Census tables and Census abstracts prepared during the process of sorting and compilation, should be bound together in a single manuscript volume and named as the District Census Handbook and suggested that the State Government should take up printing and publication at their own cost. Then onwards, the District Census Handbooks were published in each Census with improved pattern with an aim to give the Census and Non-census data at micro level for each village of the taluk as a whole to suit the requirements of various departments.

The data in the District Census Handbook will help not only in local area planning but also in regulating the provision of goods and services as well as to minimise the regional imbalances in the process of development. The District Census Hand Book sought to replace “Part IV - Taluk Tables and Part V - Village Tables” of the earlier censuses and to present the basic demographic and economic data in the form of “Primary Census Abstract” in respect of each and every village and town within the jurisdiction of the district. The district census handbook consists of two parts, viz, Part A and Part B. Part A comprises village and Town Directory while Part-B contains Village and Town level Primary Census Abstracts. In addition, these volumes contain a set of statistical tables based on the census data in respect of the district and its constituent taluks and towns.

District Census Handbook 1961

It was in 1961 Census that the scope of District Census Hand Book was shaped in the present form by presenting (i) an account of descriptive note on the district, (ii) a set of non-census data tables dealing with the administrative statistics of the district for a decade, (iii) taluk and town level census tables on economic and socio-cultural aspects and (iv) the village and urban Primary Census Abstracts depicting the nine fold industrial classification of workers. Information on the availability of certain basic amenities in villages and towns, such as the source of drinking water and educational institutions was also presented in the volumes. However, the district census handbooks of 3 out of then existing 19 districts viz, Bangalore, Dharwad and Mysore were confined to the publication of the village-wise and urban (census enumeration block-wise) Primary Census Abstract only.

District Census Handbook 1971

During the 1971 census, the district census handbook was further refined to present the data in a systematic way. In view of countrywide uniformity

in approach and to have a comprehensive coverage, the District Census Hand Books were presented in three parts each, for a district. Part A incorporated the Town and Village Directories. Part-B incorporated the Primary Census Abstract and included data, in the case of rural areas down to the village level and in the case of urban areas up to the block level. In addition, an introduction was given wherein the changes in jurisdiction, if any, of the district or of the taluks and the changes in the number of villages between 1961 and 1971 were explained. Part-B was essentially demographic in nature and was the end product of the tabulation of the enumeration results. Part C incorporated other census tables and administrative statistics. For convenience, Part-A and Part-B of the District Census Hand Book were presented in one volume and Part-C in a separate volume. In part-C volume, the district and taluk maps were included. These maps were prepared on the basis of maps obtained from the competent authorities concerned.

District Census Handbook 1981

The District Census Hand Book series of 1981, had some new features along with the restructuring of the formats of village and town directories, keeping in view the comparability of 1971 data. All the amenities except power supply in the village were brought together in the village directory with the instruction that in case an amenity is not available in the referent village, the distance in broad ranges from the nearest place/village where it is available were given. A few new items of information such as adult literacy centres, primary health sub-centres and community health centres/workers, data on the availability of Newspapers, Motor Vehicles, etc., in the village, were introduced in the village directory to meet the requirements of the "Revised Minimum Needs Programmes". A new column "total population and number of households" was introduced to examine the correlation of the amenities with the population and number of households they serve. The contents of Part-A were further enlarged by including two appendices, namely a list of villages not having any amenities and a distribution of villages according to the proportion of Scheduled Castes and Schedules Tribes in the total population of the village. The format of Town Directory were also modified to meet the requirements of the Minimum Needs Programme by providing information on a few new items such as class of town and its population, population of SC & ST, decadal growth rate of population, working women's hostel, adult literacy classes / centres, storage system regarding drinking water supply etc., and also the information about the nearest place and distance having educational, medical and fire-fighting facilities, in case such a facility is not available in the referent town. A new statement on civic and other amenities in slums in Class I and Class II town were included to help the planners to chalk out their programmes of slum improvements.

District Census Handbook 1991

The presentation of the District Census Hand Book for the 1991 Census was more or less similar to the manner followed in 1981. The format of Primary Census Abstract was restructured slightly. Nine-fold industrial classification of main workers was given as against four-fold classification. The sex-wise population in the age-group of 0-6 was included in the Primary Census Abstract for the first time to enable data users to compute more realistic literacy rates as all the children below 7 years of age were treated as illiterate at the 1991 census. One of the important innovations in the 1991 census was the Community Development Block-level presentation of data in the village directory and Primary Census Abstract instead of the traditional taluk/PS level presentation. C.D.Block is the lowest administrative unit for developmental planning. The choice of the C.D. Block as the unit for data presentation was formulated to help the planners in micro-level developmental plans. Another important improvement at the 1991 Census was dissemination of data through magnetic tapes/floppies in which both the computer as well as manual codes for each revenue village were provided along with the corresponding codes of 1981 Census. In the volumes of the District Census Hand Books, the computer codes assigned to the revenue villages in the 1991 Census and the corresponding codes of 1981 Census were presented so that it may facilitate the data users to use the data either from magnetic tapes or computer floppies.

Scope of the 2001 District Census Handbook

Like in the previous censuses, the District Census Hand Book (DCHB) for the 2001 Census is brought

out in two parts as usual viz., Part-A The Village and Town Directory, and Part-B the Village and Town Primary Census Abstract.

The District Census Hand Books for the 2001 census is essentially presented in the similar manner in which the District Census Hand Books of 1991 census were presented. This is because the data would be comparable with the earlier censuses and also to study the changes taken place during the decades and hence the approach in 2001 census is similar to 1991 census. The contents have been slightly enlarged and the formats too are restructured to suit the requirements of the data users. In the village directory for 2001 census certain new amenities like, news papers, magazine received, Income-Expenditure of the local bodies, information on number of banks, credit societies, recreational and cultural facilities, most important commodities imported, manufactured and exported have been included whereas the information regarding the "Day or Days of market/*hat* if any" which was there in 1991 has been excluded. Apart from providing the information about the nearest place and distance in broad ranges for villages not having basic educational and medical facilities, information about the nearest place and distance in broad ranges for villages not having Middle School, College, Hospital (Allopathic), Maternity and Child Welfare Center and Primary Health Center are also provided this time. However, in the town directory there are no changes except in the statement IV-A where this statement is separately numbered as Statement VII in 2001. Except these, the scope of 2001 series of the District Census Hand Book has, by and large remained the same as in 1991. The non-census information collected at the village level and town level was scrutinized and verified. In case of glaring discrepancies the data were cross-checked with data made available by the respective parent departments for validation.

One of the significant changes made in 2001 series of District Census Hand Book is that Primary Census Abstracts are available to the jurisdiction of the Panchayats in the district. With the constitution (73rd Amendment) Act, 1992, it has become necessary for the census organisation to provide population data for the territorial area of a panchayat in order to strengthen panchayat raj system in the country. In view of this, panchayat-wise population figures for total population and for Scheduled Castes and Scheduled Tribes population has been compiled and presented in the form of Annexure-I for each district.

Further another important step taken during the 2001 census, is assigning the Permanent Location Code Numbers (PLCN) to the villages. Location code number is a simple but unique device by which every area in an administrative unit in the State/U.T. can be identified. Thus assigning of Location Code Numbers at various administrative levels, right from State/U.T. to the lowest level namely enumeration block, in census taking is an important step. Each clearly demarcated area can be referred to by a combination of numbers. In a State or U.T. the next administrative area is District, followed by taluk or police station, circle, Development Block or Mandal, etc. Next below this administrative area, in urban areas are cities/towns, further divided into wards/ divisions and villages in rural areas. The Location Code Numbers to various administrative areas are assigned in an orderly manner always beginning from northwest point and the numbering proceeds in a serpentine manner, keeping the geographical continuity, ultimately ending at the South-East point.

There was a great demand from different organizations to study the village level data over a time span and hence a scheme of assigning permanent location code numbers to the villages and the higher levels of administrative areas is devised to ensure data comparability over a period of time. In Indian Census, Location Code Numbers are allotted to each village based on traverse system (zigzag) in a serpentine manner at taluk level. These numbers for villages run from '1' to 'N' in each taluk/taluk independently. This system was adopted until 1991 census. But, for the Census of India 2001, all the villages in a state/U.T. are assigned with a Location Code Number in one continuous series beginning from "1" to "N" for the entire state/U.T. and it is not confined to a taluk The field length of the complete PLCN structure for a village has been kept up to 8 digits and therefore the location code number of village in a taluk contains 8 digits number for 2001 Census.

(ii) BRIEF HISTORY OF THE DISTRICT

As an administrative unit under the current name, the district has a history of about five decades. In

this densely forested mountainous district human settlements are known to have existed in the remotest past, namely the old stone age. References to several places of this district could be traced in myths and legends as well as in historical monuments. Vishnu, in his incarnation as Varaha the Great Boar, killed Hiranayaksha and rested for a while near Gangamoola on the peak of the mountain which has since been called Varaha Parvata. The drops of sweat which trickled down from the tusks and eyebrows of this Great Boar on touching the ground became the three great rivers namely Tunga, Bhadra and Netravati. In his incarnation as Parashurama, Vishnu, visited these areas and it is from the top of the Sahyadri mountains that he threw his axe on the surging seas and retrieved the entire west coast for human habitation. At Hiremagalur adjacent to the district headquarter town of Chikmagalur, a Parashu, the weapon of Parashurama, in the form of a large sized axe made out of stone is enshrined and is being worshipped from times immemorial. The present site of Hariharapura is said to be the spot where Daksha, the father-in-law of Shiva, performed a sacrifice. Agastya, Gautama, Mrikandu, Markandeya, Vibhandaka, Rishya Shringa and several other sages are believed to have set up their hermitages in various parts of the district. Rishya Shringa, after whom the town Sringeri takes its name had his hermitage here and finally he became one with the God in the form of a linga at the place in Kigga where the Rishya Sringeshvara temple now stands. It is this sage that officiated the *Putra Kameshti Yaga* performed by Dasharatha the father of Rama the epic hero. Shakunagiri hill is supposed to be the spot to where Hanuman flew back from Lanka in search of Sanjivini, the herb which was badly required to reawaken the coma-struck Lakshamana, Rama's brother. The Pandavas are supposed to have spent some time during their exile at Machcheri (identified as Matsyapuri) and at a place called Bhimanagudda, Bhima is supposed to have killed Kichaka. Janamejaya Maharaja is said to have performed *Sarpa-Yagna* at the site where the present-day Hiremagalur is located, for, here is an implanted stone pillar which is pointed out as the *Yupa-Stambha* (sacrificial post) that was used for the purpose of the sacrifice. Renowned preceptor Dattatreya is known to have had dwelt and meditated for a short period at Bababudenagiri near Chikmagalur.

Coming to historical times, it is known that in the earlier period this region included in the *Kadamba-Mandala* and was for a long period under the suzerainty of the Chalukyas. Though ruled by the Kadambas, the Gangas of Talkad, the Pallavas, and the Santaras of Humcha, none of the places of the district enjoyed the distinction of being a seat of administration. But, in about 1209 A.D. Balludeva Santara is said to have shifted his capital from Humcha to Kalasa of this district and subsequently this place came to be known as Kalasa One thousand and retained its importance for a long time as a seat of administration.

Sosevur the home town of the mighty Hoysalas is another important historical place of the district. Sala the first ruler of this dynasty seems to have consolidated himself at this place, identified with the present Angad village. His successors rose to prominence at first as vassals of the Chalukyas and later on assumed all the royal titles and held sway in the south for more than two centuries. However, they soon shifted their capital from Sosevur to Belur at first and from there to Halebid, also known as Dorasamudra. During this period however none of the places of Chikmagalur district rose to prominence even though a few do bear testimony by way of hero stones and inscriptions and such other lithic monuments to fierce battles that once took place and by the religious and cultural importance of certain places. For instance, the Sevuna army which had penetrated to Belavadi which is deep inside the Hoysala Kingdom was repelled in 1276 A.D. Asandi was then a minor seat of administration and was a centre of Kalamukhas. A herostone of 1367 A.D. found at Bidare in Kadur Taluk records that a hero named Kankeya who fought along with king Ballala III in the capture of Beligi smiting the army of Turukas was killed in action on 8th September 1342 A.D.

During the reign of Vijayanagara emperors with the exception of Sringeri no other place of this district seems to have gained prominence especially as a noted administrative centre. Sringeri was granted by the founders of the Vijayanagara empire to the spiritual preceptor and inspirer Shri Bharati Teertha so that with his disciples he could carry on his religious

devotions. From that period Sringeri received continued attention of the Vijayanagara monarchs as a spiritual centre and a protective force.

After the decline and fall of Vijayanagar, local chieftains reigned supreme. For some period, this region was ruled by the Balam chiefs and then taken over by the Nayakas of Keladi.

The Santhe-Bennur chiefs also known as Basavapatna chiefs, at first had their principal seat of administration in Shimoga district, but in 1636 A.D. when forced by Ranadulla Khan moved out to Tarikere and later recouped with Kaldurga as the main fortress. They were subsequently vanquished by Haider Ali and the territory became part of the Mysore Kingdom. After the fall of Tipu Sultan in 1799 A.D. this entire area was taken over by British and made a part of the Mysore State. In 1830 A.D., Sarja Hanumappa Nayaka a scion of the Tarikere chiefs, joined the insurgent forces. He was captured and hanged to death in 1834 A.D.

There were frequent local changes with regards to the taluk and district limits during the British period. It appears that originally the district had only Kadur, Yagati, Garudanagiri and Banavar taluks. Later Yagati was absorbed in Kadur and Garudanagiri was merged with Banavar. Till 1875 A.D., the western portion of Chikmagalur taluk formed part of Vastare taluk. Mudigere taluk came into existence in 1876 AD. Lakkavalli gave its name till 1882 A.D. to a taluk which included Bababudangiri and parts of Koppa and Balehonnur taluks. In 1882 A.D., Kadur and Banavar were combined into one taluk. It was in 1886 A.D. when Hassan district was restored, that the jurisdiction of this district, then known after Kadur town, was restricted to the area as found at present. The district headquarters was located at Chikmagalur town though the name of the district was different. Thereafter, the district boundaries have remained unaltered though several internal changes have taken place. Balehonnur is no longer a taluk headquarters, and Sringeri is no longer a Jahgir. In 1947 A.D., the name of the district was officially changed from Kadur to Chikmagalur. The district comprises of two revenue sub-divisions known after Chikmagalur and Tarikere. The former consists of the taluks of Chikmagalur, Mudigere, Sringeri and Koppa, while the later consists of the taluks of Tarikere, Narasimharajapura and Kadur.

(iii) Administrative setup and jurisidictional changes during the decade, 1991-2001

Chikmagalur district belongs to Mysore division which is one of the four administrative divisions into which the state is organised. The district is divided into seven taluks. During the decade 1991-2001, the district has not witnessed any jurisdictional changes either with regard to its outer boundaries or with regard to the boundaries of the taluks of which it is composed of. When compared to the Census of India 1991, certain changes in the number of villages and towns during census 2001 is observed, the reasons which are attributed either due to declassification or merging in towns or due to creation of new villages. The Government of Karnataka has declassified Mandal Panchayats into Gram Panchayats vide G.O.No.RDB 46 GPA dated 4.5.1995, as a result of this Ajjampura (MP), which was treated as urban during 1991 lost its urban status during 2001 Census.

Similarly with regard to villages few changes are observed in Chikmagalur, Kadur and Tarikere taluks. In Chikmagalur taluk, one village by name Sevalalnagara has been newly constituted vide notification No.RD 22 LRD 92 dated 26.9.94. Similarly, Kempanahalli, Balehalli, Uppahalli and Ramanahalli villages are fully included in Chikmagalur CMC and thus the total number of villages in the taluk in 2001 is 229. Six villages have been newly constituted in Kadur taluk vide Government notification No.RD 22 LRD 92 dated 26.9.94. They are Sevapura, Lalithnagara, Sevanagar, Lakshmipura, Hasthinapura and L. Agrahara. In Tarikere taluk, 6 villages have been newly constituted vide notification No.RD 22 LRD 92 dated 26.9.94. They are Sevalalnagar, Nagarajapura, Siddaramapura, Sriramapura, Ranganathapura and Sahyadripura. On the other hand, five villages by name Tarikere(R), Upparabasavanahalli, Haliyur, Galihalli and Machenahalli have been included in Tarikere TMC vide notification No.HUD 354 MLR 97 dated 28.03.98. Hence, the total number of villages in the taluk numbers to 249. The following statement indicates the talukwise distribution of towns and villages of the district and also the reasons for changes in the number of villages and towns in the taluks concerned.

Total number of Towns/ Villages

As per the Census of India, 2001, there are totally 1,117 villages and 9 statutory towns in the district. Of these 1,034 are inhabited and 83 are uninhabited villages.

STATEMENT SHOWING THE NUMBER OF VILLAGES / TOWNS IN EACH TALUK OF THE DISTRICT, DECADAL VARIATIONS IF ANY, AND REASONS THEREOF

Sl. No.	Name of Taluk	Total No. of villages according to the list finalised for		Total No. of towns according to the list finalized		Reasons for variation
		2001 Census	1991 Census	2001 Census	1991 Census	
1	2	3	4	5	6	7
1	Chikmagalur	229	232	1	1	Consequent on extension of boundry limits of Chikmagalur City, four villages namely Kempanahalli, Balehalli, Uppahalli and Ramanahalli got merged with the said statutory town and hence deleted from the list of villages. Further, a new village named Sevalal Nagar was constituted by altering the village limits of Machinahalli vide Notification No. RD 22 LRD 92 dated 26-09-94 and added to the 2001 Census list of villages. After accounting all these changes, the total number of villages has declined from 232 in 1991 Census to 229 in 2001 Census.
2	Kadur	312	306	2	2	As against 306 villages in 1991 Census 312 villages were listed for 2001 Census due to inclusion of six newly created villages vide Notification No. RD 22 LRD 92 dated 26-09-94. They are Sevapura, Lalithanagar, Sevanagar, Lakshmipura, Hastinapura and L Agrahara.
3	Koppa	80	80	1	1	-
4	Mudigere	140	140	2	2	-
5	Narasimharajapura	58	58	1	1	-
6	Sringeri	49	49	1	1	-
7	Tarikere	249	248	1	2	Six new villages were created in the taluk vide G.O. RD 22 LRD 92 dated 26.9.94. They are: (i) Sevalanagar (ii) Nagarajapura (iii) Siddaramapura (iv) Sriramapura (v) Ranganathapura (vi) Sahyadripura and added to the 2001 list of villages. Consequent on extention of Tarikere town limits, five villages namely, 1) Tarikere, 2) Machenahalli, 3) Galihalli, 4) Uppara Basavanahalli and 5) Haliyur were merged in the said town and also the civic status of Tarikere town has changed from Town Municipality to Town Panchayat, vide Government of Karnataka Notification No. HUD 271 MLR 95 dated 05-12-1995. With all these changes, the total number of villages has increased from 248 in 1991 to 249 in 2001 Census.
	Total	**1,117**	**1,113**	**9**	**10**	

Urban local bodies

The statutory urban local bodies are the Municipal Corporations and Municipal Councils. These urban local bodies elect Councilors/ Corporators from each ward and the tenure of the Councilors/Corporators would be for five years. The President or Vice-President of the Municipal Council and the Mayor/ Deputy Mayor of the Corporations whose tenure will be for a period one year are elected from among the

elected Councilors/Corporators. The Chairman of various committees are also elected from among the elected Councilors for a term of one year.

The Chief Officer in Municipal Council and the Commissioner in a City Corporation are responsible for day-to-day administration and the executive authority is vested with them.

Zilla Panchayat and Taluk Panchayat

To promote the development of institution and secure greater measure of participation by the people in the local and governmental affairs by decentralization of power and functions for the purpose of development, planning and implementation of various programmes thereof Zilla Panchayats have been constituted in the State. The jurisdiction of Zilla Panchayat is coterminous with that of the corresponding district but excludes the statutory towns. Accordingly, Zilla Panchayat has been constituted for Chikmagalur district and its jurisdiction extends over the Taluk Panchayats of the district. The jurisdiction of each Taluk Panchayat is coterminous with that of the taluk of the same name but excludes the area incorporated in the statutory towns or cities, if any.

The Zilla Panchayat elects its president and vice-president and chairman of its committees from amongst the elected members. The term of these elected representatives will be for five years. An IAS officer is posted by the State Government as Chief Executive Officer of the Zilla Panchayat. Various departments assist the Panchayat.

Grama Panchayats

The Government of Karnataka enacted the Karnataka Panchayat Raj Act 1993 on 30.4.1993 replacing its previous enactment in this regard for the formation of Grama Panchayat.

STATEMENT SHOWING NUMBER OF GRAMA PANCHAYATS AND HOBLIS/FIRKAS

Sl. No.	Name of Taluk	No. of Hoblis/Firkas	No. of Grama Panchayats
1	2	3	4
1	Sringeri	2	9
2	Koppa	3	18
3	Narasimharajapura	2	14
4	Tarikere	6	46
5	Kadur	6	59
6	Chikmagalur	8	47
7	Mudigere	5	33
	Total	**32**	**226**

Details regarding Panchayatwise number of villages have been furnished in Annexure I.

The Grama Panchayat is authorized to function on the items listed in Schedule I of the Act namely, preparation of annual plans for the development of Panchayat area, preparation of annual budget, providing reliefs in natural calamities, removal of encroachments on public properties, organising voluntary labour and contribution for community works, maintenance of essential statistics of the village, in addition to matters relating to Agriculture, Animal Husbandry, Fisheries, Social & Farm Forestry, Khadi, Village & Cottage Industries, Rural Housing, Drinking Water, Roads, etc., Rural Electrification, Non-conventional energy sources, Poverty Alleviation Programmes, Markets & Fairs, Rural Sanitation, Public Health & Family Welfare, Women and Child Development, Social Welfare, Welfare of Weaker Sections, Public Distribution System, Maintenance of Community assets, Construction and Maintenance of Dharmashalas, Chatras, Cattle Sheds, Ponds, Cart Stands, Slaughter Houses, Public Parks, Play Grounds, etc. Regulation of manure pits in public places and establishment and control of shandies. Such other functions as may be entrusted.

The Grama Panchayat is also empowered to make provisions for carrying out within its area any other work or measure which is likely to promote the

health, safety, education, comfort, convenience or social or economic well being of the inhabitants of the Panchayat area.

(iv) PHYSICAL FEATURES

The district is situated at the south-west of the geographical centre of the state. It has the greatest extent of 107 kms from north to south and 138 km from east to west with the total geographical area of 7,201.0 sq.kms. The most conspicuous areas of very high and very low in the district is located at 100 and 1,600 metres of contour lines above the mean sea level respectively.

(1) Location and size

Situated on the south-west centre of the state, the district lies between north latitude 12 degrees 55 minutes and 13 degrees 54 minutes and East Longitude 75 degrees 5 minutes and 76 degrees 22 minutes. The district is bound on the north by Shimoga and Channagiri taluk of Davanagere district. However, on the eastern side, the district shares its boundaries with Chitradurga on the north-east and for a small stretch on the east with Tumkur district. On the south, the district is bound by Hassan. On the west, the district is bound by Udupi and Dakshina Kannada where the Western Ghats stand as a natural barrier. In terms of area, the district ranks in 10th place in the state.

(2) Physiography

Chikmagalur falls under the well defined macro region of Deccan Plateau, one of the two regions into which the state has been divided. It is a compact but hilly and densely forested area. The mountainous district is locally referred to as 'Malnad' meaning 'hilly country' especially because of its central and western belts endowed with some of the most useful and dense forests.

The congeries of mountains in this district seem to range themselves into a central ridge which runs north to south, with a great loop of mountains on either side. The main ridge commences near Ballalarayanadurga and passing east of Metrigudda and Koppadurga, separates the basin of the Bhadra river from that of the Tunga and further runs up north towards Mandagadde to join the central range of the Shimoga district. On the western side of this ridge lies the fertile valley in which the renowned Sringeri town is situated. The famous Jagara valley is located on the east. Situated on the right bank of the river Bhadra, this valley is almost completely surrounded by the Baba Budangiri range of mountains. Known as Chandradrona Parvata in the legends, this Baba Budangiri range is said to be the loftiest range on the table-land of Karnataka. It is located in the central portion of the district and this chain of mountains forms a horse-shoe shaped ridge of tremendous dimensions. The ridge has an opening in the north-west. The northern side commencing with the Hebbe Gudda peak which is 1,337 metres above the Mean Sea Level (MSL) stretches eastwards without interruption for about 25 kms. Bending towards the south, it extends to the east an unbroken wall of about 32 kms. The southern portion is formed by the Basavanagudda and the Woddinagudda ranges. The summit of the hills consist of steep grassy slopes and the ravines are full of vegetation. The sides of the hills are covered with dense forests and coffee plantations.

Mullayyanagiri which is 1,927 metres above MSL is considered to be the highest peak not only in Chikmagalur but also in the state. The next highest peak is Kudremukh which is 1,896 metres above MSL. The name has been derived because of its resemblance like a face of a horse and it is an important place known for navigators. An equally highest peak is the baba Budangiri which is 1895 metres above MSL. It is a noted centre of cultural importance to Hindus and Muslims in the district. Devirammanagudda, Kalhattigiri (1,877 metres MSL), Metrigudda (1,663 metres MSL), Waddingudda (1,527 metres MSL), Ballalarayanadurga (1,507 metres MSL), Gangamoola (1,458 metres MSL), Lakke Parvata (1,422 metres MSL), Shakunagiri (1,419 metres MSL) and Kanchikaldurga (1,245 metres MSL) are the other prominent peaks in Chikmagalur district.

(3) Drainage

As much as 86.0 per cent of the drainage in the district falls under the Krishna basin, Cauvery basin covered 8.4 per cent and the remaining 5.6 percent

falls under west flowing rivers. As many as seven rivers originate in the district. Of these, the twin streams the Tunga and Bhadra are the principal rivers. Other rivers which originate in the district are the Hemavati, the Yagachi, the Veda, the Avati and the Netravati. Of the two principal rivers, the Bhadra has been harnessed for irrigation and power generation within the district. The Tunga, the Bhadra and the Netravati originate at different points in Gangamoola on the Varaha Parvata which is on the western boundary of the district at an elevation of about 1,198 metres. The Tunga and the Bhadra flow in the north-eastern direction and after their confluence at Kudli in Shimoga district, the two rivers constitute the mighty Tungabhadra of the plains belonging to the Krishna basin. The Netravati on the other hand flows westwards and is subsequently enriched by the Kumaradhara stream whereafter it constitutes a major river of the coastal district of Dakshina Kannada. The Hemavati river has its source near Javali in the Mudigere taluk. It flows in a south-easterly direction and constitute an important tributary of Budangiri range near the Mullayyanagiri peak. The immediate source of the Veda is the Gauri-halla which rises near Mullayyanagiri peak. The stream flows eastwards and embanked in a tank called Ayyanakere. The stream leaving the tank is called the Veda. The northern stream, the Avati which also rises near the peak of Mullayyanagiri flows eastwards and is embanked at a tank called Madagakere. These two streams join near Kadur and forms a single river called the Vedavati. It is also known as the Hagari river. The Yagachi river also called as the Badari, rises in Seethalayyanagiri of Baba Budangiri range in Chikmagalur taluk. After traversing southwards for a distance of about 20 kms, the Yagachi enters the Hassan district.

(4) Climate

A meteorological observatory is located at Balehonnur. Nature has blessed the district with salubrious climate. Throughout the year, the climate is agreeable and quite cool. The months of March, April and May are regarded as summer months. Generally April is the hottest month with the mean daily maximum temperature of 30.7ºC and the mean daily minimum temperature of 19.0ºC. The mansoon sets in early June where there is an appreciable drop in day temperature and the rainy season lasts till the end of October. This season is marked by incessant and heavy rainfall to very heavy rainfall in the western tracts and intermittent and medium to heavy in the eastern tracts. The day temperatures would be relatively low and the nights would be pleasant. November may be regarded as post monsoon month with the bright and pleasant weather. Winter sets in during December and this will last till the end of February. During this season, the weather is bright during the day and chilly cold during nights. The western and the southern regions of the district have a relatively more severe winter and a pleasant summer on account of the hilly terrain and the abundance of natural vegetation.

(5)Winds

Winds are generally very light. During the period from May to September, winds blow predominantly from the directions between south-west and north-east. In the rest of the year, the winds blow mostly from the south-east. The special weather phenomena of the district is marked by thunderstorms occurring in summer and post-monsoon seasons. Fog occurs on many days during the cold season in the western parts of the district. Even during the monsoon and post-monsoon seasons, the hilly regions are often clouded or covered with mist.

(6) Rainfall pattern

The District falls under hilly, southern transition and central dry agroclimatic zones of the state. The taluks of Chikmagalur, Koppa, Narasimharajapura, Mudigere and Sringeri falls under hilly zone. Tarikere taluk falls under southern transition zone and Kadur taluk falls under central dry zone.

The average Rainfall in the district ranges from 614 mm in Kadur taluk to 3,772 mm in Sringeri taluk. The rainfall decreases from south western part of the district towards northeastern part. The northeast part of Kadur taluk receives the lowest rainfall.

Among the taluks in the district the pre-monsoon rainfall contributes 5 to 24 per cent of the annual rainfall, south-west monsoon contributes 41 to 87 per

cent and north-east monsoon contributes 7 to 36 per cent of the annual rainfall.

The co-efficient of variation ranges from 40 to 62 per cent for the pre-monsoon season, the highest variability (62.0 per cent) being in the taluk of Sringeri.

The co-efficient of variation for southwest monsoon ranges from 20 to 35 per cent, the highest being in Chikmagalur and Kadur taluk. The co-efficient of variation for north-east monsoon ranges from 43 to 55 per cent, the highest being for Tarikere and Narasimharajapura taluks. The co-efficient of variation for Annual rainfall ranges from 18 to 27 per cent.

TALUK WISE RAINFALL PATTERN, CHIKMAGALUR DISTRICT

Taluks (No. of years of rainfall data available)	Statistical Parameters	Pre-monsoon	South-west Monsoon	North-east Monsoon	Annual Rainfall

	C.V.(%)	50	26	55	23

A study of the rainfall deficit pattern during the last 20 years compared with the long term data for different seasons indicate increase in rainfall deficiency in the recent past during the pre-monsoon and for some taluks in north-east monsoon period. Rainfall deficit during last 20 years has been compared with that of long term data in different seasons and is presented in the following table.

TALUKWISE AND SEASONWISE COMPARISION OF RAINFALL DEFICIT DURING LAST 20 YEARS WITH 99 YEARS DATA, CHIKMAGALUR DISTRICT

Taluks	Seasons and no. of years with deficit rainfall							
	Pre Monsoon		South-west Monsoon		North-east Monsoon		Annual Rainfall	
	Long term	Recent 20 Yrs.	Long term	Recent 20 Yrs.	Long term	Recent 20 Yrs.	Long term	Recent 20 Yrs.
1	2	3	4	5	6	7	8	9
Chikmagalur (99)	43(43)	12(60)	27(27)	5(25)	44(44)	8(40)	22(22)	4(20)
Kadur (98)	35(36)	8(40)	28(29)	3(15)	36(37)	8(40)	21(21)	3(15)
Koppa (98)	48(49)	11(55)	15(15)	2(10)	40(41)	9(45)	14(14)	2(10)
Mudigere (99)	37(37)	9(45)	24(24)	7(35)	33(33)	8(40)	18(18)	6(30)
Narasimharajapura (96)	46(48)	13(65)	26(27)	8(40)	44(46)	11(55)	23(24)	9(45)
Sringeri (98)	46(47)	10(50)	14(14)	3(15)	40(41)	8(40)	14(14)	4(20)
Tarikere (98)	41(42)	10(50)	21(21)	4(20)	41(42)	7(35)	19(19)	6(30)

NOTE : Figures in bracket indicate values as percentage of number of years for which data is available or for 20 years depending on the column in which it is given.

The following inferences could be made.

- The Pre-monsoon rainfall in the recent 20 years is more deficit compared to the long term data.
- South-west monsoon is less deficit in the recent 20 years compared to the long term data with Narasimharajapura and Mudigere taluks as an exception.
- The rainfall deficit during northeast monsoon is increasing during recent 20 years compared to the long term data with Chikmagalur, Sringeri and Tarikere taluks as an exception.
- The annual rainfall trend analysis indicates increasing trend in the taluks of Kadur, Koppa and Chikmagalur. The taluks of Sringeri, Tarikere, Mudigere and Narasimharajapura indicate decreasing trend.

Source : Drought Monitoring Cell (Society of Govt. of Karnataka)

(7) Forestry

This malnad district, especially its central and western belts are endowed with some of the most useful and dense forests of the country. Continuous stretch of valuable forests encompasses the whole of the Jagara valley and most of Koppa and Mudigere taluks. These forests have for long been providing shelter to numerous coffee plantations on hill slopes and have for long been exerting a beneficial influence on the climate and rainfall experienced by the district. The forests in the district mainly belong to the southern tropical variety and they are classified as southern tropical wet-evergreen forests, southern tropical semi-evergreen forests, southern moist-deciduous forests, southern tropical dry-deciduous forests and southern tropical thorn forests. Though the eastern belt of the district also has some forest areas, these forests are neither extensive nor rich in vegetation. Most of the forests of the maidan region were exposed to over-exploitation, over-grazing and forest fires. The moist deciduous forests and evergreen forests have been preserved and they cater to the needs of various forest-based industries like ply-wood, slate-frames, packing cases and match wood besides yielding bomboos, firewood and other produce for the use of the general public. The chief sources of forest revenue are the sandal wood, hard wood and soft wood. A variety of useful minor forests produce are also gathered from these forests. Forestry has all along been providing gainful work to a significant proportion of the economically active population of the district. .

(8) Geology

Geologically, the district is entirely made up of Archaean Schists and Gneisses. The Dharwar Schists occupy 50 per cent of the area of the district and it occurs in three well-defined belts of the Kudremukh-Gangamoola, the Koppa and the Bababudan. The remaining area consist mainly granitic gneisses and granites collectively grouped under the name peninsular gneissic complex. Granites are found near

Chikmagalur town while gneisses are found around Balehonnur. These are considered to be the oldest rocks in the state. The Kudremukh-Gangamoola belt comprises of hornblende Schists, amphibolites, chlorite schists, mica schists and thick beds of magnetite quartzites. The Koppa belt extends from Kalasa in a north-north-east direction for a distance of 48 to 64 kms before passing through Shimoga. The rock-types met within this belt are hornblende schist, chlorite schist, gritty argillites and magnetic quartzites. The Bababudan belt located at the east of Koppa belt is made of hornblende schists and traps, amphibolite quartzites, mica chlorite schists and capped by ferruginous quartzites.

(9) Flora and Fauna

Flora

The charm and economic welfare of Chikmagalur district depends on its varied flora. The vegetation of the district is characterised by its variety and beauty. It can be grouped into four category. They are the West Coast Tropical Evergreen Forests, the Semi-evergreen or Wet Deciduous Forests, the Peninsular Montane Vegetation and the Dry Deciduous and Thorn Scrubs. The West Coast Tropical Evergreen Forests forms a rich wet fragile ecosystem. The closed forest canopy is made up of tall trees with erect unbranched trunks supporting spreading crowns that merge with neighbouring trees to form a veritable roof. The crowns are exposed to wind, mist and rain during the monsoon. There is a stratum of smaller trees beneath this canopy. Tall palm trees and other palm trees which are shorter and more slender are found in this canopy. The coconut like 'Arenga wightii' Griffith is common and easily noticed because of its short bole and large fronds. A third stratum of shrubs thrives in the subdued lights of the forest. There are also a number of plants from the ginger family growing in the dimly lit forest undergrowth. Besides the plants in the different strata, there are a number of lianas that reach up to the forest canopy. At an higher elevation some useful canopy trees are formed. There are several ecological niches in these forests. One of these is the 'Montane Swamp'. The stony outcrops in these forests offer another ecological setting for numerous lithophytes. 'Ensete Superbum' Cheesm, the wild banana is a hardy perennial. The evergreen forests are interspersed with grassy slopes. The evergreen forests are imperceptibly transformed into semi-evergreen and wet deciduous forests as one moves eastwards from the ghats. The tropical deciduous forest is characterised by complete leaf-fall during the dry season. The canopy is not very compact so that a highest proportion of the sun light reaches right to the forest floor. As the dry season changes into wet, 'epiphytic' orchids that abound in this region flower in quick succession. The mountain ranges both at Kudremukh and the Bababudan hills reach an altitude of over 1,600 mts. These higher ridges and slopes have a special vegetation of grassy mountain meadows interspersed with compact forest formation termed as sholas which is generally associated with swift flowing cool streams. The trees especially near the ridges tend to be stunted. Their branches are covered by 'lichens', 'mosses' and numerous 'epiphytes'. Climbers are few. Among the climbers the 'Coppery' leaves of 'Capparis cleghornii' and fruits of Cayratia pedata' are quite noticeable. The grassy meadows afford a quick succession of herbs that appear in short-lived profusion. As the monsoon advances the grassy slopes become veritable carpets of flowers. On the east near Kadur, Birur and Tarikere, the plant cover changes to dry deciduous and thorn scrubs.

Fauna

The fauna is rich and varied in this district which has tropical evergreen, moist deciduous and dry forests. Major group of Indian Mammals i.e. cats, civets, mangooses, dogs, otters, bears, bats, monkeys, elephants, bisons, antelopes, rodents, etc., are seen in the forests. The cat tribe include tigers, leopards, jungle cats and civets. Two species of mangooses, the Indian brown mangoose and the strip-necked mangoose are commonly seen in the forest. Hyena, wolf, jackal, fox, otter and wild dogs are the other animals living in the forest. The sloth bears are also seen in the forests and these animals live mainly on fruits. Different varieties of bats are found in the

district. Among the monkey family, Hanuman langur and the familiar bonnet monkeys are common in the district. Elephants, bisons, spotted deer, barking deer and sambar are present in the forest. Numerous species of squirrels, hares, porcupines, mice and rats are found both in the cultivated areas and in the forests. The flying squirrel, the Indian giant squirrel and the northern palm squirrel are worth a special mention. The Indian wild boars, the house shrew and the savi's pygmy shrew are also seen in the forest. The availability of a large supply of insects and vegetable food in the forest of the district support rich bird life. Some of them include herons, storks, spotbill ducks or grey ducks, etc. Among the birds of prey, eagles, hawks, kites, vultures and owls are commonly met with in the district. The district is noted for game birds such as the tree pie, the jungle crow, the grey pit, the yellow-cheeked tit, and parakeet. In addition the green pigeon, the rock pigeon, the patridges, the myna, the tailor bird, the sparrow, the king fisher, the wood pecker, the jungle fowl, the pea-fowl, the wild dove, the quail, the cuckoo and the bulbul are also seen in the district. Fairly tropical climate and a rich supply of insect food has made abundance of reptile life in the district. It includes snakes, crocodiles, lizards, etc. Among the poisonous snakes, the most venomous king cobra, the Indian cobra, the pit viper, the krait and the common green whip snake, the coral snake, the wolf snake, the green keelback, and the python which is the largest among Indian snakes are the important habitats of the forest. Amphibians are less numerous. Fishes are abundant in both rivers and tanks. The principal fishes are carps, cat fishes, murrels, eels and other varieties. The domestic animals are very few and it includes hardy buffaloes, horses, sheep and goats. Other animal variety of invertebrates like scorpions, leeches and different types of spiders of immense size are found in the bamboo jungles on the banks of the Bhadra river. The Bhadra wild life sanctuary in the district is worth to be mentioned which is housed with wild animals and other species. This is surrounded by hills. A number of tributaries of Bhadra river flow inside the sanctuary.

(10) Soils

According to the National Bureau of Soil Survey and Land Use Planning (NBSS & ULP), the soils of the district have been defined as Ustalfs, Ustalfs-Rock Outcrops, Ustalfs-Tropepts and Tropepts-Orthants-Aqualfs. About 50 per cent of the soils mostly from the malnad parts of the district are acidic in nature. The soluble-salt content is generally low. The soils in malnad areas are well supplied with organic matter and ten percent of the soils confined to maidan areas are deficient in organic matter. The phosphorous and potash content are generally poor. These are suitable for growing plantation crops like coffee, arecanut, cardamom, pepper, tea and rubber. All along the south of the Bababudan range, rich tract of black soils are observed. The perennial water supply from the streams have made these soils more fertile. The lateritic soil found in parts of Koppa, Mudigere and Sringeri taluks are acidic in nature and deficient in nitrogen, potash, phosphorus and lime. The main crops grown in these areas are paddy, coffee, tea, sugarcane, arecanut, bananas, pepper and fruits. Red loamy soils and red sandy soils are found in and around Tarikere, Narasimharajapura, and parts of Kadur taluks. These soils are acidic and deficient in nitrogen, phosphorus and potash. The principal crops grown are paddy, ragi, millets, pulses and oilseeds, sugarcane, arecanut, bananas and chillies. The black soils are fertile and they are rich in calcium, magnesium and carbonates but deficient in nitrogen and phosphorus. These soils are found in parts of Tarikere and Kadur taluks. The principal crops grown in these soils are cotton, jowar, wheat, gram and millets.

(11) Cropping pattern

Agriculture and horticulture are the main economic activities of the district. The district is also rich in forest resources. Due to varied soil and climatic conditions, the cropping pattern of the district differs from place to place. According to Census of India 2001 the proportion of Cultivators and Agricultural Labourers to total working population is 28.6 and 21.1 per cent respectively, i.e. 49.7 per cent of the working population depends on agriculture as their livelihood.

LAND USE PATTERN FOR 1998-99 IN HECTARES

Name of Taluk	Geographical Area	Forest Area	Land put to Non-agricultural use			Uncultivable Fallow Land		Cultivable Fallow Land	Area Sown			Total Net Area Irrigated
			Barren and Uncultivable land	Land put to Non-agricultural use	Cultivable waste land	Permanent pastures	Trees and groves		Net Area Sown	More than once	Total Area Sown

Source : District at a Glance, Chikmagalur District, 1999-2000, District Statistical Office, Chikmagalur.

The land use data for the year 1998-99 reveals that 41 per cent of the total geographical area has been brought under plough and cultivable fallow lands accounts for 1.7 per cent. Forests occupy 27.8 per cent and lands put to non-agricultural use is 12.4 per cent. Considerable extent of land in the district are uncultivable fallow lands. Due to heavy rainfall and rugged terrain certain areas of the district have over a period of time been adversely affected. There are large extent of fallow lands and lands that have gone out of cultivation due to acidity, alkalinity or salinity and water logging. A survey was conducted to find out the extent of uncultivable fallow lands during the late 1960's. The reclamation measures taken up thereafter have resulted in bringing more areas under plough. The taluk wise details on land use pattern for the year 1998-99 is given above.

LAND HOLDINGS IN HECTARES 1997-98

Name of Taluk	Marginal (Below 1)		Small (1–2)		Semi-Medium (2-4)		Medium (4-10)		Large (10 & above)		Total Holdings

Source : District at a Glance, Chikmagalur District, 1999-2000, District Statistical Office, Chikmagalur.

Agricultural lands of the district are unevenly distributed amongst a large number of small land holders. Statistics on land holdings is available for the year 1997-98. It is observed from the table that the number of marginal holdings below one hectare constitute 44.2 per cent and the land held accounts for 11.8 percent. Number of small holdings of size 1-2 hectares forms 29.3 per cent by holding an area of 21.1 per cent. Holdings of the size semi-medium and medium constitute 17 per cent and 7.8 per cent respectively and the lands held by them together constitute 46.0 per cent. A meagre 1.7 per cent of the holders own 10 hectares and above. The taluk wise details can be seen from the above table.

AREA, PRODUCTION AND AVERAGE YIELD OF PRINCIPAL CROPS FOR 1998-99 UNDER ALL SEASONS

Total Food grains	*	*	*	*	*	*	154,637	252,251	1,717

Note : * Data for irrigated and un-irrigated area separately are not available.

The principal food crops are paddy, ragi and jowar. Paddy is grown under both rainfed and irrigated water conditions. The area under paddy cultivation as in 1998-99 under irrigated fields is 14,517 hectares and 35,324 hectares under un-irrigated conditions. Ragi and jowar are grown as rainfed crops mostly in maidan taluks. An area of 61,058 hectares has been put under cultivation of ragi and 13,104 hectares under cultivation of jowar. Besides these small portions of area are put under cultivation of maize and wheat. Pulses are grown in an area of 28,782 hectares whose yield is 537 kgs per hectare.

Source: Fully Revised Estimates of Principal Crops in Karnataka for the year 1998-99, Directorate of Economics & Statistics, Bangalore

Among the oilseed crops groundnut, soyabean, castor, sunflower, sesamum, rape seed and mustard and nigerseed are grown in the district. Total area of 30,134 hectares is put under cultivation of these crops. Tobacco, cotton and sugarcane are the only commercial crops raised in the district. As it is already mentioned, the district's weather conditions are suitable for growing horticultural crops. Major horticultural crops are grown as mixed crops. Besides the domestic demand, export demand for these crops are mounting. Major foreign exchange earnings are from pepper, cardamom, vanilla, copra, arecanut, coffee and other plantation crops.

(12) Irrigation

As the district comprises of two broad natural regions of 'Malnad' and 'Maidan', the sources of irrigation also vary. The district has an assured water supply from its seven rivers and number of streams, tanks and irrigation wells. Particularly the Madagakere and Ayyanakere tank are worth mentioning as the waters of the tanks are used for irrigation purposes. According to the latest statistics available for the year 1998-99, 4,867 hectares are irrigated by canals which as a source is available only in Tarikere taluk, 8194 hectares by tanks and 117 hectares through lift irrigation. Though surface water is the major source of irrigation in the district, ground water is also tapped to a considerable extent. As per 1998-99 statistics, 1,023 hectares are irrigated by wells, and 6,178 hectares by borewells. About 7,204 hectares are irrigated by other sources. The following table highlights the taluk wise net area irrigated by different sources in the district for the year 1998-99.

NET AREA IRRIGATED BY DIFFERENT SOURCES

Name of Taluk	Net area irrigated for 1998-99 (Area in hectares)						
	Canal	Tank	Wells	Lift Irrigation	Bore Wells	Other sources	Total
1	2	3	4	5	6	7	8
Chikmagalur	-	1,255	245	-	814	777	3,091
Kadur	-	2,016	143	57	1,800	391	4,407

Source: District at a Glance, 1999-2000, District Statistical Office, Chikmagalur.

Besides the sources mentioned above, Chikmagalur has couple of major irrigation projects to augment the irrigation potential in the district. The first major project was the Bhadra Reservoir Project started in the year 1947. Administrative approval was accorded in 1959. It comprises of a storage reservoir constructed across the river Bhadra near Lakkavalli village in Tarikere taluk. Shimoga, Chitradurga and Bellary are the other districts which will be benefited by the project. This is a multi-purpose project with an installed capacity for power generation of 39.20 MW. It has submerged an area of 11,250.88 hectares affecting 28 villages. It is a composite dam with 1708 mtrs. in length and 590 mtrs. of height.

The Jambadahalla Reservoir constructed across the Jambadahalla stream near Duglapura in Tarikere taluk was started in 1959 and completed in 1980. It was designed an an earthen dam with masonry spillway. Since this reservoir did not receive sufficient water to irrigate the entire atchkat, Hodirayanahalla Diversion Scheme was proposed in the year 1987. The Hodirayanahalla is a tributary to river Bhadra and takes its origin in Kemmannagundi hill range at an altitude of 1,976 mtrs. above the mean sea level. This diversion canal is expected to irrigate an area of 1,536 hectares. The diversion weir constructed across the river is of 2.61 mtrs. height and 134.96 mtrs. in length.

(13) Natural Wealth

Major economic minerals like chromite, iron ore, limestone, quartz and kyanite are found in the district. Minor minerals like limekankar, building stone, ordinary sand and ornamental stone are also found in the district. Of these, iron ore is found extensively and are being exploited on a large scale. The occurrence of iron ores in large quantities in the Bababudan range and the Kudremukh-Arali-Gangamoola range are known from a long period. Rich ore concentrations found at Kemmannugundi, Kallahattigiri and Tenusurigudda are being mined since 1924 by the iron works at Bhadravati. Investigations by the National Mineral Development Corporation indicated that in the Bababudan range itself, the estimated quantity of the iron-ore deposits exceeded 3,000 million tonnes and that the grade of ore concentrate is of the order of about 60 per cent. The NMDC conducted a detailed investigations in 1965 and proved that Kudremukh belt contained sedimentary pre-cambrian iron-ore formations of proven ore to the extent of 610 million tonnes. The iron ore deposits in this belt are of lower grade with 39 per cent of iron content. However it attracted the attention of the prospective buyers and the Government, only in the mid seventies. With the adoption of latest technology this low grade magnetic ore is beneficiated into a concentrate which has ready acceptance in the market.

Chromite of a low grade occurs near the villages Bandre, Banuru and Gijikatte in Tarikere taluk. The assessed value of the chromite is 45,000 tonnes. Limestone occur in Tarikere and Mudigere taluks. While the quantity that occurs in Tarikere has not been assessed, that which occurs in Mudigere has been estimated to be 0.46 million tonnes. Kyanite ranging upto an inch in length and quartz are found occurring in Sringeri taluk. The available quantities of both the minerals have not been assessed. In almost all the taluks except Narasimharajapura, deposits of building stone and ordinary sand are reported. In Kadur taluk alone, the present production of building stone accounts for 33,000 tonnes. The taluk wise mineral resources for the district is presented in the following table.

TALUK WISE MINERAL RESOURCES OF THE DISTRICT

Sl. No.	Taluk	Type of Mineral		Remarks
		Major	Minor	
1	2	3	4	5
1	Sringeri	Quartz, Kyanite	Building Stone, Ordinary Sand	-
2	Koppa	-	Building Stone, Ordinary Sand	-
3	Narasimharajapura	-	-	-
4	Tarikere	Chromite, Iron Ore, Limestone	Building Stone, Ordinary Sand	-

Sl. No.	Taluk	Type of Mineral		Remarks

(14) Animal Husbandry

Livestock rearing plays an important role in the rural economy. It is more vital wherever agriculture is predominant in the society. As far as Chikmagalur is concerned, the district is considered to be backward in livestock resources. The topographical features of the district have not been condusive for rearing superior breeds. While comparing with other districts, Chikmagalur ranks in 18th place in its livestock population and 20th place in its poultry wealth. (Ref: Handbook of Karnataka 2001, Gazatteer Department, Government of Karnataka).

According to the provisional figures of livestock census, 1997, the total livestock population in the district is 723,328 which includes cattle, buffaloes, sheep, goats, pigs, rabbits, dogs and other livestocks. The total poultry stock is 353,000. The following table shows the distribution of various types of livestock in the district for the year 1997.

DISTRIBUTION OF LIVESTOCK POPULATION IN THE DISTRICT

Sl. No.	Name of Livestock	Total Livestock
1	2	3
1	Cattle	362,764
2	Buffaloes	111,663
3	Sheep	74,747
4	Goats	98,329
5	Pigs	11,403
6	Rabbits	505
7	Dogs	63,563
8	Other livestock	354
	Total livestock	**723,328**
	Total poultry	**353,000**

Source : A Handbook of Karnataka – 2001, Gazetteer Department, Government of Karnataka.

The milk production in the district is 86 thousand tonnes. About 226 lakhs of eggs and 1,386 tonnes of meat are produced annually. There are eleven livestock farms under the control of the Department of Animal Husbandry and Veterinary Services. Of which one farm namely Amritmahal Cattle Breeding Station at Ajjampur is engaged in breeding of Amritmahal cattles, bull-calf production and distribution, rabbit production and distribution and fodder development. There are 32 poultry institutions in the state, of which one poultry rearing centre is at Chikmagalur. The demand for rabbit is mounting and to meet this demand, the department has started 9 rabbit breeding centre and one such centre is at Ajjampur. This centre produce and supply rabbits to the interested rabbit rearing farmers.

(14A) Veterinary Services.

The spread of veterinary services has resulted in overall improvement of animal health. In all Chikmagalur has 136 veterinary institutions catering to the needs of the livestock population in the district for the year 2000. The details are given in the following table :

VETERINARY INSTITUTIONS IN THE DISTRICT FOR THE YEAR 2000

Sl. No.	Veterinary Services	No. of Institutions
1	2	3
1	Hospitals	15
2	Dispensaries	41
3	Primary veterinary centres	68
4	Mobile dispensaries	7
5	Artificial insemination centres	5
	Total	**136**

(15) Fisheries

Fish are abundant in the rivers, tanks and reservoirs of this inland district. The finest fresh water fishes are found in the district. The important rivers namely, the Tunga, the Bhadra and the Veda which flow to a total length of about 173 kms forms an important source of fishing activity in the district. Besides these, there are 153 major and 1,364 minor tanks with the total water spread area of 10,303 hectares and 2 reservoirs with the water spread area of 11,634 hectares. The district has 7 fish farms, of which two are involved in production and five are engaged in rearing activities. Apart from these, 5 fish seed rearing centers are functioning in private sector to meet the fishing requirements. There are six fisheries co-operative societies functioning in the district. Fish marketing scheme is in operation in the district and it has totally 8 markets of which one is under the control of the department and rest are in the possession of individuals. The active fishermen population in the district numbers to 1,307. The government has introduced various welfare schemes for the benefit of fishermen. Some of them includes, Group Accident Insurance, Centrally Sponsored Scheme (CSS) development of model fishermen villages, CSS for motorisation of traditional fishing craft, CSS for reimbursement of central excise duty on diesel used by mechanised boats, subsidy on sales tax, payment of distress relief fund, etc. The following table highlights in brief the fishing activity in the district.

FISHING ACTIVITY IN THE DISTRICT

Fish Seed Stocked	**In lakh fingerlings**
a) Reservoirs	9.65
b) Major Tanks	52.52
c) Minor Tanks	5.03
Total	**67.2**
Estimated Fish Production	**In MTs**
a) Cultured	5,219.60
b) Natural	575.67
Total	**5,795.27**

(16) Industries

There are no major industrial units in the district and in fact it ranks amongst the industrially backward districts in the state. Though it is considered industrially backward, it has bountiful natural resources. There are thick semi-evergreen and other forests in malnad areas and rich black soil tracts in the maidan region. The absence of major industrial units has been compensated by extensive deposits of iron ore of different grades and coffee estates. The hilly slopes in the malnad regions of Chikmagalur, Koppa and Mudigere are rich in coffee plantations. Mining is an important activity in the district. Though mining is a primary activity, extraction of ore is undertaken on a large scale. Reference to manufacturing industry in the district can be made to the ore beneficiation and transportation by Kudremukh Iron Ore Company. Since Chikmagalur is a major

coffee producing district, coffee curing work is taken up on a large scale. Coffee curing is seasonal and the companies that are engaged in this activity offers job to more than 1,000 people only during the season.

Of the industries that have come up in the district, mention may be made to Vignyan Industries Ltd., located at Tarikere which produces steel and alloy steel castings and ignots. This company has been taken over by Bharat Heavy Electricals Ltd., Bangalore. A sugar factory, edible oil mill, manufacturing of Ayurvedic medicines, processing of tea leaves, wood industry, few engineering works, printing presses, tile factory are a few to mention. The traditional industries in the district includes weaving, oil-ghanis, bee keeping, pottery, leather craft, carpentry, black-smithing, lime-making, basket making, weaving of woollen kamblis, making of glass bangles, catechu making, copper wire works, shoe making, repairing of guns, etc.

As per the latest statistics given in the table below, there are 254 registered factories in the district giving employment opportunities to 1,237 persons. Most of the chemical factories are located in Chikmagalur and Tarikere taluks. Few engineering units in the district are found in Chikmagalur, Kadur, Koppa and Tarikere taluks.

TALUKWISE DETAILS OF MAJOR FACTORIES FOR THE YEAR 1998-99

Name of Taluk	Number of Factories in the District					No. Employed
	Textiles	Chemicals	Engineering	Others	Total	
1	2	3	4	5	6	7

(17) Trade and Commerce

A system of trade guilds developed during the ancient and medieval times served well in promoting trade and commercial activities in the district. Generally people belonging to certain sections only were engaged in trade practices in addition to carrying on indigenous banking activities. Due to the hilly and forested nature of the malnad and semi-malnad regions, the district faced with difficulties in transportation and communication which in turn affected the trade and commerce activities in the district. Introduction of railway lines and development of roads, improved the trade and commercial activities in the district. Development in transportation supported by rapid expansion in commercial banking activities especially during post-nationalisation period boosted the trade and commerce industry in the district. Coffee, arecanut and cardomom constitute prominent exports of the district. Besides these timber and firewood are also exported from the district. The imports include textiles including silk, medicines and electric goods etc., and are imported by rail and road. The major business centres are Chikmagalur, Tarikere, Kadur, Mudigere, Birur and Koppa. The other trade centres in the district include Lakkavalli, Sakrepatna, Ajjampur, Balehonnur and Kalasa. The rapid expansion in banking sector has resulted in opening of 173 banks by the year 1999. Of these 109 are commercial banks. Taluk wise number of banks in the district is given in the table.

The co-operative movement made its beginning in the district in 1905 when the Adi-Karnataka Co-operative Society was registered at Kudluru in Tarikere taluk. Gradually other types of co-operative societies came into existence. Since the advent of planned economic development in 1951, there has been considerable improvement in the co-operative movement. As per the latest statistics, there are 426 co-operative societies in the district. Of these agriculture and milk societies constitute more in

number. The district has its regulated markets. These markets ensure remunerative and competitive prices to the producers and systemises marketing on proper lines. The taluk wise details regarding number of co-operative societies and regulated markets in the district is given in the table.

TALUKWISE DETAILS OF BANKS IN THE DISTRICT

Name of Taluk	Number of Banks as on 31.03.1999

(18) Transport and Communication

Chikmagalur consist largely of malnad areas which lie to the west, bordering on the western ghats. Due to the hilly and forested nature of the malnad and semi-malnad parts, there were special transport and communication difficulties in the region which hampered trade and commerce. The completion of Bangalore-Harihar railway line which passes through the eastern side of the Kadur and Tarikere taluks of the district proved a great boon for the movement of materials and men. The section from Birur in Kadur to Harihar in Chitradurga was opened for traffic in 1889 A.D. and in the same year a section from Gubbi in Tumkur district to Birur was opened for traffic. The Birur-Shimoga section was opened for traffic in 1899 A.D. and this line was later extended to Talaguppa in 1940 A.D. This line also contributed much to the development of both internal and external trade in the district. The total length of railway line passing through the district is 91 kms. with 11 railway stations. Roads are the chief means of transportation in most of the taluks and especially in the malnad areas of the district. In the interior malnad taluks of Koppa, Narasimharajapura and Sringeri, the transportation network needs a good deal of expansion and improvement to help the development of economic activity. Currently the roads are classified as national high way, state high way, district major roads, other district roads, village roads, T.D.B. roads, forest roads and irrigation department roads. There are 19 bridges in the district. The total road length of the district is 5,705.4 kms. The taluk wise details of rail and road length in the district are given below:-

DETAILS OF RAILWAY TRANSPORT IN THE DISTRICT

Name of Taluk	Length of Railway Line in kms.				Railway Stations
	Broad Gauge	Meter Gauge	Mixed Gauge	Total

The district has 304 Post offices, 115 Telegraph Offices, 115 Telephone exchanges and a good number of telephone connections. The taluk-wise details can be seen from the above table.

(19) Electricity and Power

Karnataka has a place of pride in the history of power generation in the country. KPTCL – Karnataka Power Transmission Corporation Limited (erstwhile KEB) is mainly vested with the functions of transmission and distribution of power in the entire state. The Corporation has been attaching great importance to electrification of villages and hamlets, tribal colonies and harijan basthis and energisation of irrigation pumpsets. Besides, this with a view to benefit weakest among the section of society schemes called Bhagya Jyothi / Kutir Jyothi have been introduced.

Statement given below shows talukwise number of villages electrified and talukwise energisation of IP sets as on 31.3.1999 in Chikmagalur District.

TALUKWISE NUMBER OF VILLAGES ELECTRIFIED AND ENERGISED IP SETS AS ON 31.3.1999

(v) CENSUS CONCEPT

Building

A 'Building' is generally a single structure on the ground. Sometimes it is made up of more than one component unit which are used or likely to be used as dwellings (residences) or establishments such as shops, business houses, offices, factories, workshops, worksheds, Schools, places of entertainment, places of worship, godowns, stores etc. It is also possible that building which have component units may be used for a combination of purposes such as shop-cum-residence, workshop-cum-residence, office-cum-residence, etc.

Usually a structure will have four walls and a roof. But in some areas the very nature of construction of houses is such that there may not be any wall. Such is the case of conical structures where entrance is also provided but they may not have any walls. Therefore, such of the conical structures are also treated as separate buildings.

Permanent houses

Houses, the walls and roof of which are made of permanent materials. The material of walls can be any one from the following, namely, galvanized iron sheets or other metal sheets, asbestos sheets, burnt bricks, stones or concrete. Roof may be made of from any one of the following materials, namely, tiles, slate, galvanized iron sheets, metal sheets, asbestos sheets, bricks, stones or concrete.

Semi-permanent houses

Houses in which either the wall or the roof is made of permanent material and the other is made of temporary material.

Temporary houses

Houses in which both walls and roof are made of materials, which have to be replaced frequently. Walls may be made from any one of the following temporary materials, namely, grass, thatch, bamboo, plastic, polythene, mud, unburnt bricks or wood. Roof may be made from any one of the following temporary materials, namely, grass, thatch, bamboo, wood, mud, plastic or polythene.

Dwelling Room

A room is treated as a dwelling room if it has walls with a doorway and a roof and should be wide and long enough for a person to sleep in, i.e. it should have a length of not less than 2 meters and a breadth of at least 1.5 meters and a height of 2 meters. A dwelling room would include living room, bedroom, dining room, drawing room, study room, servant's room and other habitable rooms. Kitchen, bathroom, latrine, store room, passage-way and verandah which are not normally usable for living are not considered as dwelling rooms. A room, used for multipurpose such as sleeping, sitting, dining, storing, cooking, etc., is regarded as a dwelling room. In a situation where a census house is used as a shop or office., etc., and the household also stays in it then the room is not considered as a dwelling room. But if a garage or

servant quarter is used by a servant and if she/ he also lives in it as a separate household then this has been considered as a dwelling room available to the servant's household. Tent or conical shaped hut if used for living by any household is also considered as dwelling room.

A dwelling room, which is shared by more than one household, has not been counted for any of them. If two households have a dwelling room each but in addition also share a common dwelling room, then the common room has not been counted for either of the households.

Census House

A 'census house' is a building or part of a building used or recognised as a separate unit because of having a separate main entrance from the road or common courtyard or staircase, etc. It may be occupied or vacant. It may be used for residential or non residential purpose or both.

In certain peculiar situations, the manner in which buildings and census houses were identified for numbering in the field by the enumerators is described hereunder:

Sometimes a series of different buildings are found along a street which are joined with one another by common walls on either side looking like a continuous structure. These different units are practically independent of one another and are likely to have been built at different times and owned by different persons. In such cases, though the whole structure with all the adjoining units apparently appears to be one building, each portion was treated as a separate building and its constituent units as separate census houses.

On the other hand, one may come across cases, particularly in large cities of multistoreyed ownership flats. In these cases while the structure looks like one building, different persons own the flats. In case of such multistoreyed structures, having a number of flats owned by different persons, the entire structure was treated as one building and each flat as a separate census house.

If within a large enclosed area, there are separate buildings owned by different persons then each such building is treated as a separate building. There can be a situation where within an enclosed compound there are separate buildings owned by an undertaking or company or even government that are actually in occupation of different persons. For example, Indian Oil Corporation colony where the buildings are owned by the Corporation but these are in occupation of their employees. Each such building was treated as a separate building. But if in any one of these buildings there were flats in occupation of different households, each such flat was reckoned as a separate census house.

Sometimes it becomes difficult to apply the definition of census house strictly in certain cases. For example, in an urban area, if a flat has five rooms, each room having direct entrance from the common staircase or courtyard, by definition, this has to be treated as five census houses. If all these five rooms are occupied by a single household it was not realistic to treat them as five census houses. In such a case,'singleness' of use of these rooms along with the main house should be considered and the entire flat was treated as one census house. On the other hand, if two independent households occupy these five rooms, the first household living in 3 rooms and the second household occupying 2 rooms, then considering the use, the first three rooms together were treated as one census house and the remaining rooms as another census house. But if each room was occupied by an independent household, then each such room was treated as a separate census house.

In case of hostels, hotels, etc., even if the door of each room in which an inmate lives opens to a common verandah, staircase, courtyard or a common room, as it happens almost invariably, the entire hostel/ hotel building was treated as one census house. But if such hostels/ hotels have out houses or other structures used for different purposes or the same purpose, then each such structure attached to the main hostel / hotel was treated as a separate census house.

In some parts of the country, in rural areas, the pattern of habitation is such that a group of huts, located in a compound, whether enclosed or unenclosed, is occupied by one household. While the main residence may be located in one hut, other huts may be used for sleeping, as a kitchen, bath room, baithak, etc. Though each of the huts was a separate structure, they form a single housing unit and therefore, have to be treated collectively as one

building and one census house. If some of the huts are used by one household and the others by a second household as residence, then the two groups of huts were treated as separate census houses. However, if there were also other huts in the compound used for other purposes and not as part of the household's residence such as, cattle shed, workshed, etc., these were treated as separate census houses.

On the other hand, in urban areas, where more than one structure within an enclosed or open compound (premises) belonging to the same person, e.g., the main house, the servant's quarter, the garage, etc., only one building number was given for this group and each of the constituent a separate census house number.

Only cases where a structure with roof and pillars has come up was treated as a building.

Village

The basic unit for rural areas is the revenue village which has definite surveyed boundaries. The revenue village may comprise of one or more hamlets but the entire village is treated as one unit for presentation of data. In unsurveyed areas, like villages within forest areas, each habitation area with locally recognized boundaries is treated as one village.

Rural-Urban area

The data in tables on Houses, Household Amenities and Assets are presented separately for rural and urban areas. The unit of classification in this regard is 'town' for urban areas and 'village' for rural areas. In the Census of India 2001, the definition of urban area adopted is as follows:

a) All places with a municipality, corporation, cantonment board or notified town area committee, etc.

b) A place satisfying the following three criteria simultaneously:

i) A minimum population of 5,000;

ii) at least 75 per cent of male working population engaged in non-agricultural pursuits; and

iii) a density of population of at least 400 per sq. km.(1,000 per sq.mile)

For identification of places which would qualify to be classified as 'urban' all villages, which, as per the 1991 Census had a population of 4,000 and above, a population density of 400 persons per sq. km. and having at least 75 per cent of male working population engaged in nonagricultural activity were considered. To work out the proportion of male working population referred to above against b) (ii), the data relating to main workers were taken into account.

Apart from these, the outgrowths (OGs) of cities and towns have also been treated as urban under 'Urban Agglomerations'. Examples of outgrowths are railway colonies, university campuses, port areas, military camps, etc., that may have come up near a statutory town or city but within the revenue limits of a village or villages contiguous to the town or city. Each such individual area by itself may not satisfy the demographic criteria laid down at (b) above to qualify it to be treated as an independent urban unit but may deserve to be clubbed with the towns as a continuous urban spread. Thus, the town level data, wherever presented, also includes the data for outgrowths of such towns.

City

Towns with population of 100,000 and above are called cities.

Urban Agglomeration

An Urban Agglomeration is a continuous urban spread constituting a town and its adjoining urban outgrowths (OGs) or two or more physically contiguous towns together and any adjoining urban outgrowths of such towns. In some cases railway colonies, university campuses, port areas, etc., may come up near a city or statutory town outside its statutory limits but within the revenue limits of a village or villages contiguous to the town or city. Each such individual area by itself may not satisfy the minimum population limit to qualify it to be treated as an independent urban unit but may deserve to be clubbed with the town as a continuous urban spread.

For the purpose of delineation of Urban Agglomerations during Census of India 2001, following criteria are taken as pre-requisites:

(a) The core town or at least one of the constituent towns of an urban agglomeration should necessarily be a statutory town; and

(b) The total population of all the constituents (i.e., towns and outgrowths) of an Urban Agglomeration

should not be less than 20,000 (as per the 1991 Census).

With these two basic criteria having been met, the following are the possible different situations in which Urban Agglomerations would be constituted:

i) a city or town with one or more contiguous outgrowths;

ii) two or more adjoining towns with their outgrowths; and

iii) a city and one or more adjoining towns with their outgrowths all of which form a continuous spread.

Household

A 'household' is usually a group of persons who normally live together and take their meals from a common kitchen unless the exigencies of work prevent any of them from doing so. Persons in a household may be related or unrelated or a mix of both. However, if a group of unrelated persons live in a census house but do not take their meals from the common kitchen, then they are not constituent of a common household. Each such person was to be treated as a separate household. The important link in finding out whether it was a household or not was a common kitchen. There may be one member households, two member households or multimember households.

Institutional Household

A group of unrelated persons who live in an institution and take their meals from a common kitchen is called an Institutional Household. Examples of Institutional Households are boarding houses, messes, hostels, hotels, rescue homes, jails, ashrams, orphanages, etc. To make the definition more clearly perceptible to the enumerators at the Census 2001, it was specifically mentioned that this category of households would cover only those households where a group of unrelated persons live in an institution and share a common kitchen.

Houseless Household

Households who do not live in buildings or census houses but live in the open on roadside, pavements, in hume pipes, under flyovers and staircases, or in the open in places of worship, mantaps, railway platforms, etc., are treated as Houseless Households.

Scheduled Castes and Scheduled Tribes

Article 341 of the Constitution provides that the President may, with respect to any State or Union territory, specify the castes, races or tribes or parts of or groups within castes, races or tribes which shall for the purposes of the Constitution be deemed to be Scheduled Castes in relation to that State or Union territory. Article 342 similarly provides for specification of tribes or tribal communities or parts of or groups within tribes or tribal communities which are to be deemed for the purposes of the Constitution to be Scheduled Tribes in relation to the various States and Union territories. In pursuance of these provisions, the list of Scheduled Castes and / or Scheduled Tribes are notified for each State and Union territory and are valid only within the jurisdiction of that State or Union territory and not outside.

It is important to mention here that under the Constitution (Scheduled Castes) Order, 1950, no person who professed a religion different from Hinduism was deemed to be a member of a Scheduled Castes in addition to every member of the Ramdasi, Kabirpanthi, Majhabi or Sikligar caste resident in Punjab or Patiala and East Punjab States Union were in relation to that State whether they professed the Hindu or the Sikh religion. Subsequently, in September 1956, by an amendment, the Presidential Order of 1950 and in all subsequent Presidential Orders relating to Scheduled Castes, the Hindu and the Sikh religions were placed on the same footing with regard to the specification of Scheduled Castes. Later on, as per the amendment made in the Constitution (Scheduled Castes) Order 1990, the Hindu, the Sikh and the Buddhist were placed on the same footing with regard to the recognition of the Scheduled Castes.

The list of Scheduled Castes and Scheduled Tribes are notified for each State and Union Territory and are valid only within the jurisdiction of that State or Union Territory and not outside. In respect of Karnataka State the Scheduled Castes and Scheduled Tribes as contained in the Scheduled Castes & Scheduled Tribes Orders (Amendment) Act, 1976 are valid for the purpose of Census of India, 2001. With the promulgation of Act 39 of 1991 however, the sub entries Naik, Nayak, Beda, Bedar and Valmiki were added under the main entry at S.No. 38 (Naikda,

Nayaka, …..) of the Scheduled Tribes list of the State. There are in all 101 Scheduled Castes and 49 Scheduled Tribes in the State which are listed below:

List of Scheduled Castes

1 Adi Andhra
2 Adi Dravida
3 Adi Karnataka
4 Adiya (in Coorg district)
5 Ager
6 Ajila
7 Anamuk
8 Aray Mala
9 Arunthathiyar
10 Arwa Mala
11 Baira
12 Bakad
13 Bant (in Belgaum, Bijapur, Dharwar and North Kanara districts)
14 Bakuda
15 Balagai
16 Bandi
17 Banjara, Lambani
18 Bathada
19 Beda Jangam, Budga Jangam
20 Bellara
21 Bhangi, Mehtar, Olgana,Rukhi, Malkana, Halalkhor, Lalbegi,Balmiki, Korar, Zadmalli
22 Bhambi. Bhambi, Asadaru, Asodi, Chamadia, Chamar, Chambhar, Chamgar, Haralayya, Harali, Khalpa, Machigar, Mochigar, Madar, Madig, Mochi, Muchi, Telegu Mochi, Kamati Mochi, Ranigar, Rohidas, Rohit, Samgar
23 Bhovi
24 Bindla
25 Byagara
26 Chakkiliyan
27 Chalavadi, Chalvadi, Channayya
28 Chandala
29 Chenna Dasar, Holaya Dasar
30 Dakkal, Dokkalwar
31 Dakkaliga
32 Dhor, Kakkayya, Kankayya
33 Dom, Dombara, Paidi, Pano
34 Ellamalwar, Yellammalawandlu
35 Ganti Chores
36 Garoda, Garo
37 Godda
38 Gosangi
39 Halleer
40 Halsar, Haslar, Hulasvar,Halasvar
41 Handi Jogis
42 Hasla
43 Holar, Valhar
44 Holaya, Holer, Holeya
45 Holeya Dasari
46 Jaggali
47 Jambuvulu
48 Kadaiyan
49 Kalladi
50 Kepmaris
51 Kolupulvandlu
52 Koosa
53 Koracha
54 Korama
55 Kotegar, Metri
56 Kudumban
57 Kuravan
58 Lingader
59 Machala
60 Madari
61 Madiga
62 Mahar, Taral, Dhegu Megu
63 Mahyavanshi, Dhed, Vankar, Maru Vankar
64 Maila
65 Mala
66 Mala Dasari
67 Mala Hannai
68 Mala Jangam
69 Mala Masti
70 Mala Sale, Netkani
71 Mala Sanyasi
72 Mang, Matang, Minimadig
73 Mang Garudi, Mang Garodi
74 Manne
75 Masthi
76 Mavilan
77 Meghval, Menghvar
78 Moger
79 Mukri
80 Mundala
81 Nadia, Hadi
82 Nalkadaya

83 Nalakeyava
84 Nayadi
85 Pale
86 Pallan
87 Pambada
88 Panchama
89 Panniandi
90 Paraiyan, Paraya
91 Paravan
92 Raneyar
93 Samagara
94 Samban
95 Sapari
96 Sillekyathas
97 Sindhollu, Chindollu
98 Sudugadu Siddha
99 Thoti
100 Tigar, Tirbanda
101 Valluvan

List of Scheduled Tribes

1 Adiyan
2 Barda
3 Bavacha, Bamcha
4 Bhil, Bhil Garasia, Dholi Bhil, Dungri Bhil, Dungri Garasia, Mewasi Bhil, Rawal Bhil, Tadvi Bhil, Bhagalia, Bhilala, Pawra, Vasava, Vasave
5 Chenchu, Chenchwar
6 Chodhara
7 Dubla, Talavia, Halpati
8 Gamit, Gamta, Gavit, Mavchi, Padvi, Valvi
9 Gond, Naikpod, Rajgond
10 Gowdalu
11 Hakkipikki
12 Hasalaru
13 Irular
14 Iruliga
15 Jenu Kuruba
16 Kadukuruba
17 Kammara (in South Kanara district and Kollegal taluk of Mysore district)
18 Kaniyan, Kanyan (in Kollegal taluk of Mysore district)
19 Kathodi, Katkari, Dhor Kathodi, Dhor Katkari, Son Kathodi, Son Katkari
20 Kattunayakan
21 Kokna, Kokni, Kukna
22 Koli Dhor, Tokre Koli, Kolcha, Kolgha
23 Konda Kapus
24 Koraga
25 Kota
26 Koya, Bhine Koya, Rajkoya
27 Kudiya, Melakudi
28 Kuruba (in Coorg district)
29 Kurumans
30 Maha Malasar
31 Malaikudi
32 Malasar
33 Malayekandi
34 Maleru
35 Maratha (in Coorg district)
36 Marati (in South Kanara district)
37 Meda
38 Naikda, Nayaka, Cholivala Nayaka, Kapadia Nayaka, Mota Nayaka, Nana Nayaka, Naik, Nayak, Beda, Bedar and Valmiki
39 Palliyan
40 Paniyan
41 Pardhi, Advichincher, Phanse Pardhi
42 Patelia
43 Rathawa
44 Sholaga
45 Soligaru
46 Toda
47 Varli
48 Vitolia, Kotwalia, Barodia
49 Yerava

Language and Mother tongue

As per the Census concept, each language is a group of mother tongues. The census questionnaire collects information on the mother tongue of each person and mother tongue is defined as the language spoken in childhood by the person's mother to the person. If the mother died in infancy, the language mainly spoken in the person's home in childhood will be the mother tongue. In the case of infants and deaf mutes, the language usually spoken by the mother is considered as mother tongue. It is not necessary that the language spoken as mother tongue should have a script. The mother tongues returned by the respondents in census are classified and grouped under appropriate languages according to their linguistic characteristics.

Literate

A person aged 7 years and above who can both read and write with understanding in any language is taken as literate. A person who can only read but cannot write is not literate. It is not necessary that to be considered as literate, a person should have received any formal education or passed any minimum educational standard. Literacy could also have been achieved through adult literacy classes or through any non-formal educational system. People who are blind and can read in Braille are treated as literates.

Literacy rate

Literacy rate of the population is defined as the percentage of literates in the age group seven years and above. For different age groups the percentage of literates in that age group gives the literacy rate.

Educational level

The highest level of education a person has completed.

Work

Work is defined as participation in any economically productive activity with or without compensation, wages or profit. Such participation may be physical and/or mental in nature. Work involves not only actual work but also includes effective supervision and direction of work. It even includes part time help or unpaid work on farm, family enterprise or in any other economic activity. All persons engaged in 'work' as defined above are workers. Persons who are engaged in cultivation or milk production even solely for domestic consumption are also treated as workers.

Reference period for determining a person as worker and non-worker is one year preceding the date of enumeration.

Main worker

A person who has worked for major part of the reference period (i.e. six months or more during the last one year preceding the date of enumeration) in any economically productive activity is termed as 'Main worker' .

Marginal worker

A person who worked for less than six months of the reference period (i.e. in the last one year preceding the date of enumeration) in any economic activity is termed as 'Marginal worker' .

Non-worker

A person who has not worked at all in any economically productive activity during the reference period (i.e. last one year preceding the date of enumeration) is termed as 'Non worker'.

Cultivator

For purposes of the Census a person is classified as cultivator if she or he is engaged in cultivation on land owned or held from government or held from private persons or institutions for payment in money, kind or share. Cultivation includes effective supervision or direction in cultivation.

A person who has given out her/his land to another person or persons or institution(s) for cultivation for money, kind or share of crop and who does not even supervise or direct cultivation in exchange of land, is not treated as cultivator. Similarly, a person working on another person's land for wages in cash or kind or a combination of both (agricultural labourer) is not treated as cultivator.

Cultivation involves ploughing, sowing, harvesting and production of cereals and millet crops such as wheat, paddy, jowar, bajra, ragi, etc., and other crops such as sugarcane, tobacco, groundnuts, tapioca, etc., and pulses, raw jute and kindred fiber crop, cotton, cinchona and other medicinal plants, fruit growing, vegetable growing or keeping orchards or groves, etc. Cultivation does not include the following plantation crops – tea, coffee, rubber, coconut and betelnuts (areca).

Agricultural labourer

A person who works on another person's land for wages in cash or kind or share is regarded as an agricultural labourer. She/he has no risk in the cultivation, but merely works on another person's land for wages. An agricultural labourer has no right of lease or contract on land on which she/he works.

Household industry worker

Household industry is defined as an industry conducted by the head of the household herself/himself and or by the members of the household at home or within the village in rural areas and only within the

precincts of the house where the household lives in urban areas. The larger proportion of workers in household industry should consist of members of the household including the head. The industry should not be run on the scale of a registered factory which would qualify or has to be registered under the Indian Factories Act and should be engaged in manufacturing, processing, servicing and repairs of goods. A person who has been engaged in the economic activity like above is termed as Household Industry Worker.

It does not include professions such as a pleader, Doctor, Musician, Dancer, Waterman, Astrologer, Dhobi, Barber, etc. or merely trade or business, even if such professions, trade or services are run at home by members of the household.

Other worker

A person who has been engaged in some economic activity during the reference period but not as a cultivator or agricultural labourer or in Household Industry is termed as an 'Other Worker (OW)'. The type of workers that come under this category of 'OW' include all government servants, municipal employees, teachers, factory workers, plantation workers, those engaged in trade, commerce, business, transport, banking, mining, construction, political or social work, priests, entertainment artists, etc. In effect, all those workers other than cultivators or agricultural labourers or household industry workers, are 'Other Workers'.

Work participation rate

Percentage of workers (main + marginal) to total population.

Population density

Population density is the number of persons inhabited per square kilometer of the area.

Age

Age is measured in terms of the completed number of years.

Sex ratio

Number of females per 1,000 males in a population.

(vi) NON-CENSUS CONCEPTS

Improved drinking water

If the household had access to drinking water supplied from a tap, hand pump, tube well or well (protected or covered) situated within or outside the premises, it is considered as having access to improved drinking water.

It may be mentioned that such uniform definition may not be valid across all states.

System of sewerage

Generally, a sewerage system would mean a network of mains and branches of underground conduits for the conveyance of sewerage to the point of disposal. Sewers that carry only household and industrial wastage are called separate sewers; those that carry storm water from roofs, streets and other surfaces are known as storm water drains, while those carrying both sewage and storm water are called combined sewers. However, in some towns which are not provided with such underground sewerage system, it is served by open surface drain, box drain, sylk pattern drain, etc., in these towns.

Type of latrine and Method of disposal of night soil

There are three prevalent systems of disposal of human wastes, viz.(i) underground sewerage, (ii) sanitary water flush latrines with individual disposal systems, like septic tank, leaching cess pool and collecting well, and (iii) dry type of latrines with manual scavenging.

The system of underground sewerage provides for the street sewerage with which are connected the sanitary latrines constructed in the houses having water closets and fitted with flushing cistern (or hand flushing). Through this sewer the faecal matter is transported without the need for scavenging. This system generally exists in cities and big towns.

Where the streets sewer does not exist these sanitary water flush latrines are connected to a local septic tank with a subsoil dispersion system or a leaching pit. Here the liquid wastes from the water closet is disposed of locally in leaching pit, a septic tank with a soil dispersion system is constructed. This dispersion requires an optimum travel through the pores of the soil which renders the harmful liquid bacterially innocuous by the slow process of filtration through the soil traversed.

Where the soil is impermeable, collecting wells are constructed and the sanitary water flush latrines

are connected with them. These wells are cleaned at periodic intervals by a suitable device. The dry type of latrines are of service type latrines from where human excreta is removed by scavengers from house to house, in most cases carrying it on their heads or shoulders or in baskets with handle or wheel barrows. These are then collected in bullock carts or trucks or tractors and trolleys for being carried to the dumping grounds.

Fertility

In demography, the word fertility is used in relation to the actual production of children or occurrence of births specially live births. Fertility is a measure of rate at which population adds to itself by births and normally assessed by relating the number of births to a full or part of the population, such as number of married women or number of women of childbearing age. The definitions of the terminology used in computing different fertility rates are mentioned below:

Crude birth rate (CBR)

Ratio of the number of live births in a year to the mid year population, normally expressed per 1,000 population.

$$CBR = \frac{\text{Number of live births during the year}}{\text{Mid–year Population}} \times 1,000$$

Crude death rate (CDR)

Ratio of the number of deaths in a year to the mid year population, normally expressed per 1,000 population.

$$CDR = \frac{\text{Number of deaths during the year}}{\text{Mid year Population}} \times 1,000$$

Natural growth rate

Growth rate is obtained as the difference between crude birth rate and crude death rate in the absence of migration.

Age specific fertility rate (ASFR)

Number of live births in a year to female population in any specified age group normally expressed per 1,000 women.

$$ASFR = \frac{\text{Number of live births in a particular age group}}{\text{Midyear female population of the same age group}} \times 1,000$$

Age specific marital fertility rate (ASMFR)

Number of live births in a year to married female population in any specified age group normally expressed per 1,000 married women.

$$ASMFR = \frac{\text{Number of live births in a particular age group}}{\text{Midyear married female population of the same age group}} \times 1,000$$

General fertility rate (GFR)

Number of live births per 1,000 women in the reproductive age-group (15-49) years in a given year.

$$GFR = \frac{\text{Number of live births in a year}}{\text{Midyear female population in the age-group (15-49) years}} \times 1,000$$

General marital fertility rate (GMFR)

Number of live births per 1,000 married women in reproductive age-group (15-49) years in a given year.

$$GMFR = \frac{\text{Number of live births in a year}}{\text{Midyear married female population in the age-group (15-49) years}} \times 1,000$$

Total fertility rate (TFR)

It is obtained as the total of the age specific fertility rates (number of children born per woman of the particular age) for the entire reproductive age span. It provides the average number of children that will be born to a woman under the fertility levels indicated by the age specific fertility rates assuming that there is no mortality of women till the completion of reproductive period.

$$TFR = \frac{5 \times \sum_{15-19}^{45-49} ASFR}{1,000}$$

Total marital fertility rate (TMFR)

Average number of children that would be born to a married woman if she experiences the current fertility pattern throughout her reproductive span (15-49) years assuming that there is no mortality of women till the completion of reproductive period.

$$TMFR = \frac{5 \times \sum_{15\text{-}19}^{45\text{-}49} ASMFR}{1{,}000}$$

Age specific mortality rate (ASMR)

Number of deaths in a particular age and sex group per 1,000 population of the same age group.

$$ASMR = \frac{\text{Number of deaths in a particular age group}}{\text{Midyear population of the same age group}} \times 1{,}000$$

q_1

Probability of dying between birth and age 1. This can be used as approximate value of Infant Mortality Rate (IMR) which gives the ratio of number of deaths in a year of children aged less than one year to the number of births in that year.

q_2

Probability of dying between birth and age 2.

q_5

Probability of dying between birth and age 5. This indicator is also known as Under Five Mortality Rate (U_5MR).

Infant mortality rate (IMR)

Ratio of the number of infant deaths (deaths of children below one year) in a year to the number of live births in that year.

$$IMR = \frac{\text{Number of infant deaths during the year}}{\text{Number of live births during the year}} \times 1{,}000$$

Infant mortality rate comprises of two parts, viz., Neonatal mortality rate and Post neonatal mortality rate. The neonatal mortality rate also comprises of two parts viz., early neonatal mortality rate and late neonatal mortality rate. These are defined as:

Neo-natal mortality rate (NMR)

Number of infants dying within the first month of life (28 days or under) in a year per 1,000 live births of the same year.

$$NMR = \frac{\text{Number of infant deaths aged 28 days or under during the year}}{\text{Number of live births during the year}} \times 1{,}000$$

Early neo-natal mortality rate

$$= \frac{\text{Number of infant deaths of less than 7 days during the year}}{\text{Number of live births during the year}} \times 1{,}000$$

Late neo-natal mortality rate

$$= \frac{\text{Number of infant deaths of 7 days to less than 29 days during the year}}{\text{Number of live births during the year}} \times 1{,}000$$

Post neo-natal mortality rate (PNMR)

$$= \frac{\text{Number of deaths of 29 days to less than one year during the year}}{\text{Number of live births during the year}} \times 1{,}000$$

Perinatal mortality rate (PMR)

Number of stillbirths plus deaths within 1st week of delivery per 1,000 births in a year.

$$PMR = \frac{\text{Number of stillbirths and infant deaths of less than 7 days during the year}}{\text{Number of live births and stillbirths during the year}} \times 1{,}000$$

Still birth rate (SBR)

$$= \frac{\text{Number of stillbirths during the year}}{\text{Number of live births and stillbirths during the year}} \times 1{,}000$$

Maternal mortality rate (MMR)

Number of deaths of women in the age group 15-49 while pregnant or within 42 days of termination of pregnancy from any cause related to pregnancy and child birth per 100,000 live births in a given year.

$$MMR = \frac{\text{Number of maternal deaths to women in the age group 15-49}}{\text{Number of live birth}} \times 100{,}000$$

Eligible couple (Couples per 1,000 population)

Number of currently married females in the age group15-44 years per 1,000 persons of all ages.

Child woman ratio (0-4)

1. Number of children in the age group 0-4 years per 1,000 women in the age group 15-49 years.

Child woman ratio (5-9)

2. Number of children in the age group 5-9 years per 1,000 women in the age group 15-49 years.

Migration

Migration is the third component of population change, the other two being mortality and fertility.

A person is considered as a migrant by place of birth if the place in which he/she is enumerated during the census is other than the place of his/her birth.

Similarly a person is considered as a migrant by place of last residence if the place in which he/she is enumerated during the census is other than his/her place of immediate last residence outside the village or town and not simply in another house or locality in the same village or town.

Certain aspects concerning temporary movement/ migration of people has been explained below as these are important components concerning migration :

i) Migration of persons in search of job is high in the country. In many cases such migrants are only seasonal in nature. People migrate to other places for work in a particular season and come back again to their usual place of residence after three or four months. All such workers are treated as migrants. Similarly, if a person moved to any other place for attending short term vocational or educational course that lasted for only few months of a year, she/he too were considered as a migrant.

ii) Where a person had merely gone out to another place or had been shifting from one place to another purely on tour, pilgrimage, visit to hospital for treatment or for temporary business purposes, such persons are not deemed to have had another residence different from the place where she/he or her/his family normally resides. She/he is not considered as migrant

iii) A woman temporarily moves into a hospital or to her parents or other relative's house for delivery and if the hospital or the parents/relatives houses is in a place different from usual place of residence, the place where the hospital or parents/relative's house is the place of last residence of the child but not of the mother.

A new response category 'Moved after birth' was added in Census of India 2001 in the question on 'reasons for migration' to bring out additional migration patterns. Natural calamities or distress migration as a reason for migration for last residence migrants included in 1991 Census, is covered under category of 'Others'. The reason for migration has been determined as applicable at the time of migration and not in reference to any point of time after that. For example, if a person had moved from the place of her/his last residence for the purpose of education and subsequently at some point of time got employment there only, the reason for migration would be 'education' and not 'work/employment'.

Internal and International migration

The migrational movements are of three types (i) Migration within the state itself with its components (a) Migration within the district of enumeration (intra district migration) (b) Migration from one district of state to another district of state (inter district migration), (ii) Migration from one state to another State of the country (interstate migration), (iii) Migration from one country to another country. The first two streams together constitute internal migration, while the last type of movement is called international migration. The present name of the

country, state or district and not the name by which they were known at the time of her/his birth or last residence were recorded.

Rural-Urban components of migration

Rural or Urban status in respect of migrants have been determined as applicable at the time of migration and not with reference to any point of time after that.

The flow of migrants consists of four streams viz. rural to rural, rural to urban, urban to rural and urban to urban.

Civic status of urban units

Civic Status of a town/city is determined on the basis of Civic Administrative authority of the town e.g., Municipal Corporation/ Corporation, Municipal Committee/Municipal council, Municipality etc.

Size class of UA / town

Size class of UA/Town is based on the population size of the UA/City/Town. UAs./Towns with 100,000 and above population are classified as Class I UAs. / towns. These Class I UAs. / towns are now further sub classified in to seven sub classes namely M1 to M7 depending on the population size of UA/City/ Town. These are M7 (5,000,000 and above); M6 (2,000,000- 4,999,999); M5 (1,000,000-1,999,999); M4 (500,000-999,999); M3(300,000-499,999); M2 (200,000-299,999) & M1 (100,000-199,999). Towns with, 50,000 to 99,999 population are classified as Class II towns, 20,000 to 49,999 population are Class III towns, population with 10,000-19,999 are Class IV towns, population with 5000 and 9,999 are Class V towns and towns with less than 5,000 population are Class VI towns.

Slum area

The Slum Areas (Improvement and Clearance) Act, 1956 which was enacted by the Central Govt. defined slums as a) Areas where buildings are in any respect unfit for human habitation; or b) are by reasons of dilapidation, overcrowding, fault arrangement and design of such buildings, narrowness or faulty arrangement of streets, lack of ventilation, light or sanitation facilities, or any combination of these factors, are detrimental to safety, health or morals.

Mega city

The concept of 'Mega city' is a recent phenomenon in the Urban Sociology and is defined in term of metropolitan city in the form of large size, problem of management of civic amenities and capacity to absorb the relatively high growth of population. Indian Census in 1991 treated the population size of 5 million and above as the cut off point to identify a place as the mega city. Whereas, for the purpose of inclusion in Centrally Sponsored Scheme for Infrastructure Development in Mega cities the Ministry of Urban Affairs and employment, Department of Urban Development adopted the criteria of 4 million and above population as per 1991 Census for Mega Cities. In 2001 Census, cities with 10 millions and above population have been treated as Mega cities.

(vii) 2001 Census Findings – Population, its Distribution:

(a) Distribution of population in Rural-Urban areas:

According to the 2001 Census, the total population of Chikmagalur district is 1,140,905 comprising 574,911 males and 565,994 females. The population of the district forms 2.2 per cent of the state population and ranks at 23rd place among the districts. Out of the total population of the district, about 80.5 per cent lives in rural areas while 19.5 per cent lives in urban areas. Rural population of the district is distributed among 7 taluks and urban population spread over in 9 towns. The total urban population in the district is 222,724 persons comprising 113,625 males and 109,099 females. The total rural population in the district comes to 918,181 persons and is composed of 461,286 males and 456,895 females as per 2001 Census. The rural population is distributed in 1,034 inhabited villages and there are 83 un-inhabited villages in the district.

(b) Size-class and Civic Status of towns:

The Statement below gives the position and number of urban units according to size-class of population as per 2001 Census:

SIZE-CLASS AND CIVIC STATUS OF TOWNS

Serial number	Size-Class of town	Name and civic status of town		Urban Population		
				Persons	Males	Females
1	2	3		4	5	6
1	VI	Sringeri	TP	4,249	2,226	2,023
2	V	Koppa	TP	5,113	2,588	2,525
3	V	Narasimharajapura	TP	7,464	3,783	3,681
4	III	Tarikere	TP	34,066	17,303	16,763
5	III	Birur	TMC	22,702	11,448	11,254
6	III	Kadur	TMC	30,814	15,676	15,138
7	I	Chikmagalur	CMC	101,251	51,694	49,557
8	V	Mudigere	TP	8,963	4,553	4,410
9	V	Kudremukh	NAC	8,102	4,354	3,748

Population Growth, Density and Sex-ratio:

Population Growth:

Chikmagalur district witnessed a positive growth rate in each decade with 4.3, 3.0, 16.5, 43.1, 23.3, 23.8, 11.6, and 12.2 per cent during the period 1901 to 2001 (except 5.8 and 1.5 per cent negative growth during 1901-1921). According to the 1991 Census the total population of the district was 1,017,283. There has been net addition of 123,622 persons during 1991-2001. The decadal growth rate of the district comes to 12.2 per cent. The growth rate for the rural and urban areas of the district is 8.6 and 29.6 per cent respectively.

Density:

The population density of Chikmagalur district is 158 persons per Sq. Km. against the state average of 276 persons. At taluk level, the density varies between 83 persons in Sringeri taluk and 3,093 persons in Mudigere taluk. In rural areas it comes to 129 persons per Sq. Km., while in urban areas it comes to 2,015 persons. In urban areas the density of population varies between 368 persons in Mudigere town and 11,886 persons in Kadur town.

Sex Ratio:

There are 984 females for every one thousand males in Chikmagalur district. The sex-ratio figures for rural areas and urban areas of the district are 990 and 960 respectively. It is also observed that, the proportion of females in rural areas is higher than that of urban areas. Sex-ratio in the age-group 0-6 comes to 959 girls per 1,000 boys in the district as a whole. In rural areas, this proportion is 960, while in urban areas the sex-ratio of Child population works out to 952 girls per 1,000 boys.

Work Participation Rate:

The work participation rate is defined as percentage of total workers to total population. According to 2001 Census, the total workers including main and marginal workers constitute 45.3 per cent of total population of the district. Of the total workers, the share of main workers is 83.0 per cent and marginal workers is 17.0 per cent. The remaining 54.7 per cent of population belongs to the category of non-workers.

As per 2001 Census among the main workers male participation rate in the district is 91.4 per cent and corresponding proportion of females is 66.6 per cent. The proportion of female marginal workers is higher than male marginal workers, as the females are attending to one or more economic activities in addition to their household duties to improve the family income. Majority of the workers are engaged in other activities. Of the total 516,677 workers in the district, 28.6 per cent of these total workers are categorized as cultivators, 21.1 per cent agricultural labourers, 2.3 per cent in household industries and 47.9 per cent in other services.

Literacy:

A person who can read and write in any language is considered as literate in Census. All children of age below 7 years are treated as illiterate.

As per 2001 Census, Chikmagalur district has reported 723,610 persons as literates constituting 72.2 per cent of the total population excluding the population of 0-6 years. The proportion of male and female literacy rates in the district are 80.3 and 64.0 per cent respectively. The literacy rate of males is higher than that of females. The gap in the male-female literacy rate is 16.3 per cent in the district.

The total literacy rates of rural and urban area are 69.6 and 82.9 per cent respectively. The rate of male and female literacy in rural areas is 78.4 and 60.7 per cent respectively. In urban areas this rate is 87.8 and 77.8 per cent respectively. The gap in male-female literacy rates in urban areas is 10.0 as against 17.7 in rural areas. It is thus clear that females are better educated in urban areas than their counterparts in rural areas.

(c) Scheduled Castes and Scheduled Tribes Population 2001:

Of the 1,140,905 total population of the district 20.4 per cent of the total population belong to Scheduled Castes and 3.6 per cent to Scheduled Tribes. The percentage of Scheduled Castes constitute 86.9 per cent in rural areas and 13.1 per cent in urban areas. The proportion of Scheduled Tribes is 87.7 and 12.3 in rural and urban areas respectively.

(viii) Brief analysis of PCA data based on inset tables 1 to 36

Following tables, which presents the data on population and amenities available within the district, with a brief notes will provide an overview of the district.

TABLE 1: DECADAL CHANGE IN POPULATION OF TALUKS BY RESIDENCE, 1991-2001

Taluk	Population						Percentage decadal variation 1991-2001			Percentage Urban Population	
	1991			2001							
	Total	Rural	Urban	Total	Rural	Urban	Total	Rural	Urban	1991	2001
1	2	3	4	5	6	7	8	9	10	11	12
Sringeri	33,272	29,126	4,146	36,930	32,681	4,249	11	12.2	2.5	12.5	11.5
Koppa	80,596	75,574	5,022	87,780	82,667	5,113	8.9	9.4	1.8	6.2	5.8
Narasimha rajapura	56,324	49,800	6,524	65,639	58,175	7,464	16.5	16.8	14.4	11.6	11.4
Tarikere	205,018	170,896	34,122	224,170	190,104	34,066	9.3	11.2	-0.2	16.6	15.2

Chikmagalur	253,722	192,906	60,816	295,565	194,314	101,251	16.5	0.7	66.5	24	34.3
Mudigere	128,437	112,692	15,745	141,415	124,350	17,065	10.1	10.3	8.4	12.3	12.1
District Total :	**1,017,283**	**845,422**	**171,861**	**1,140,905**	**918,181**	**222,724**	**12.2**	**8.6**	**29.6**	**16.9**	**19.5**

Data given in table-1 reveals the taluk wise decadal variation of population in the district. During the decade 1991-2001, it has grown by 12.2 per cent. Taluk wise decadal change points out the highest variation in Narasimharajapura and Chikmagalur, where the variations are 16.5 per cent. The decadal change in urban areas highlights the variations to be negative in Tarikere taluk. On the other hand, Chikmagalur urban has recorded the highest variation of 66.5 per cent. The percentage of urban population to total population in the district has grown by 2.6 per cent during the decade.

TABLE 2 : NUMBER AND PERCENTAGE OF INHABITED VILLAGES IN SPECIFIED POPULATION SIZE RANGES WITH THE RELATED POPULATION, 2001

Sl. No.	District / C.D. block	Total number of inhabited villages	Total rural population			Number and percentage of villages	Population less than 200	
			Persons	Males	Females		Males	Females

There are 189 villages in the district having population less than 200. Also there are villages with population ranging between 200-499, 500-999, 1,000-1,999, where it numbers to 239, 292 and 222 villages respectively. The table also reveals that villages whose population ranging 2,000 and above are very less in the district. There are two villages, one each in Tarikere and Mudigere whose population exceeds 10,000.

TABLE 3 : NEW TOWNS, DENOTIFIED, DECLASSIFIED AND MERGED TOWNS

		Name of Town
(a)	New	
	(i) Statutory Town	**- Nil -**
	(ii) Census Town	**- Nil -**
(b)	Denotified	
	(i) Statutory towns of 1991 Census denotified and also did not satisfy the criteria to be treated as Census Towns	**- Nil -**
	(ii) Statutory towns of 1991 Census denotified but identifiable as Census Towns based on demographic and economic criteria	**- Nil -**
	(iii) Census towns of 1991 Census notified as Statutory town in 2001 Census	**1 Koppa (MP)** **2 Mudigere (MP)** **3 Narasimharajapura (MP)** **4 Sringeri (MP)**
(c)	Declassified	**1 Ajjampura (MP)**
(d)	Wholly merged with other town(s)	**- Nil -**

Declassified means the census towns of 1991 Census, which fail to satisfy the demographic and economic criteria.

Distribution of villages by population density and ranges are presented in the following table. It may be seen from the table that 36.1 per cent of villages have the density of population ranging between 101-200 persons, while 334 villages have the density of population less than 100 persons per sq kms. Similarly there are 327 villages that have the density above 200 persons per sq km.

TABLE 4 : DISTRIBUTION OF VILLAGES BY POPULATION DENSITY, 2001

Range of population density (per square kilometer)	Total number of villages in each population density range	Percentage of villages in each population density range	Population	Percentage distribution of population
1	2	3	4	5
0-10	49	4.7	3,201	0.3
11-20	25	2.4	5,487	0.6
21-50	77	7.4	26,393	2.9
51-100	183	17.7	118,384	12.9
101-200	373	36.1	322,910	35.2
201-300	161	15.6	172,324	18.8
301-500	113	10.9	167,408	18.2

Not known	-	0.0	-	0.0
District Total:	**1,034**	**100.0**	**918,181**	**100.0**
Population Density (Rural) of the district:			**134.2**	

TABLE 5 : SEX RATIO OF STATE AND DISTRICT 1901-2001

State				District			
Census Years	Total	Rural	Urban	Census Years	Total	Rural	Urban
1	2	3	4	5	6	7	8
1901	983	984	976	1901	907	912	872
1911	981	984	960	1911	911	914	881
1921	969	975	936	1921	910	913	888
1931	965	972	927	1931	886	888	871
1941	960	965	935	1941	892	891	902
1951	966	974	941	1951	896	897	891
1961	959	973	913	1961	903	906	892
1971	957	971	913	1971	937	940	919
1981	963	978	926	1981	953	963	905
1991	960	973	930	1991	977	985	938
2001	965	977	942	2001	984	990	960

The above table gives the sex-ratio for the rural and urban population of the state as well as that of the district from 1901 to 2001 census. It is observed that the state has recorded a decrease in the sex-ratio since 1901 census (983). However in 2001 census, the state has registered a better sex-ratio of 965 little higher than the ratio of 1991 Census (960). For the district, the sex-ratio in 1901 Census was 907, which with some fluctuations, gradually increased over the decades. However, in 2001 Census, the district has recorded a sex-ratio of 984 better than that of 1991 Census 977. It is also observed that the sex-ratio in 2001 Census for the district (984), is more than that for the state (965). Again, the ratio for the rural women in 2001 Census is comparatively better than, that for the urban women in the state as well as in the district.

TABLE 6 : SEX RATIO BY TALUKS, 2001

Sl. No.	Name of Taluk	Sex ratio		
		Total	Rural	Urban
1	2	3	4	5
1	Sringeri	992	1,003	909
2	Koppa	994	995	976
3	Narasimharajapura	1,016	1,022	973
4	Tarikere	974	975	969
5	Kadur	979	980	973
6	Chikmagalur	982	994	959

Sl. No.	Name of Taluk	Sex ratio		
		Total	Rural	Urban
1	2	3	4	5
7	Mudigere	996	1,008	916
	District Total:	**984**	**990**	**960**

There are 984 females per 1,000 males in the district. The sex ratio for rural area is 990 and for urban, it is 960. The ratio is favourable for men in both rural and urban areas. Though the ratio at the district level favours men in both the areas, taluk wise comparison reveals that in Narasimharajapura taluk, the ratio favours women. More specifically in the rural areas of Sringeri, Narasimharajapura and Mudigere taluks, the sex ratio is favourable for women.

TABLE 7: SEX RATIO BY CD BLOCKS, 2001

Sl. No.	Name of C. D. block	Sex ratio
1	2	3
1	Sringeri	1,003
2	Koppa	995
3	Narasimharajapura	1,022
4	Tarikere	975
5	Kadur	980
6	Chikmagalur	994
7	Mudigere	1,008
District (Rural) Total:		**990**

This table highlights the data on sex ratio by CD blocks, which includes all the villages in the district. The overall ratio for the district favours men which is 990 females per 1,000 males. Block wise comparison reveals that in Sringeri, Narasimharajapura and Mudigere CD blocks, the ratio favours women.

TABLE 8 : SEX RATIO OF RURAL POPULATION BY RANGES, 2001

Range of sex ratio for villages	Number of inhabited villages	Percentage of villages in each range	Population 2001	Percentage distribution of population
1	2	3	4	5
Less than 700	18	1.7	998	0.1
700-749	4	0.4	145	0.0
750-799	9	0.9	1,000	0.1
800-849	17	1.6	6,493	0.7
850-899	80	7.7	41,602	4.5
900-949	160	15.5	154,972	16.9
950-999	267	25.8	330,583	36.0
1,000-1,099	374	36.2	346,771	37.8
1,100+	105	10.2	35,617	3.9
District Total:	**1,034**	**100**	**918,181**	**100**
Sex ratio (Rural) for District:		**990**		

The sex ratio of rural population by ranges are given with corresponding number of villages. Though the overall sex ratio of rural population is 990, the sex ratio for villages by ranges reveals that there are 479 villages which have a sex ratio of 1,000 and above favouring women.

TABLE 9 : SEX RATIO OF URBAN AGGLOMERATIONS / TOWNS, 2001

Sl. No.	Name of U.A. / Town	Urban status of town	Sex ratio
1	2	3	4

1	2	3	4
3	Narasimharajapura	TP	973
4	Tarikere	TP	969
5	Birur	TMC	983
6	Kadur	TMC	966
7	Chikmagalur	CMC	959
8	Mudigere	TP	969
9	Kudremukh	NAC	861
Sex ratio (Urban) for the district:			**960**

The sex ratio for the urban areas of the district is 960. The sex ratio is favourable for men in all the towns of the district. Among the towns, Kudermukh NAC has registered the lowest sex ratio of 861 and the highest 983 is reported from Birur TMC. Chikmagalur and Sringeri are the two other towns which have reported lower sex ratio than district average.

TABLE 10 : SEX RATIO OF POPULATION IN THE AGE GROUP 0-6 FOR TALUKS, 2001

		Urban	**25,830**	**13,235**	**12,595**	**952**

Variation in child sex ratio has been a long observed phenomenon and have undergone considerable debate, among the Researchers and policy makers from time to time . Although the observed variations in the sex ratio favouring males is a biological fact, continued decline over the periods causes great concern among the policy makers. The taluk wise sex ratio for 0-6 population given in the above table reveals that there are 959 girls per 1,000 boys. The rural as well as the urban areas of Narasimharajapura is the only taluk where the registered sex ratio favours girls, and Sringeri urban has also reported the highest sex ratio favouring girls.

TABLE 11 : SEX RATIO OF POPULATION IN THE AGE GROUP 0-6 FOR C.D. BLOCKS, 2001

Sl. No.	Name of C.D. block	Total population in 0-6 age group			Sex ratio for 0-6 age group
		Persons	Males	Females	
1	2	3	4	5	6
1	Sringeri	3,674	1,880	1,794	954
2	Koppa	9,730	5,009	4,721	943
3	Narasimharajapura	7,660	3,775	3,885	1,029
4	Tarikere	23,028	11,789	11,239	953
5	Kadur	27,057	13,792	13,265	962
6	Chikmagalur	25,677	13,113	12,564	958
7	Mudigere	15,988	8,186	7,802	953
District (Rural) Total:		**112,814**	**57,544**	**55,270**	**960**

This table highlights the data on the sex ratio of population in the age group of 0-6 by CD blocks which includes only the rural portions of the district. Except Narasimharajapura CD block, where the sex ratio is favourable to female child, it is favourable for boys in all the other blocks.

TABLE 12 : SEX RATIO OF RURAL POPULATION IN THE AGE GROUP 0-6 BY RANGES, 2001

Range of sex ratio for villages	Number of inhabited villages	Percentage distribution of villages	Population 2001	Percentage distribution of population
1	2	3	4	5
Less than 700	134	13.0	3,880	3.4
700-749	52	5.0	4,371	3.9
750-799	72	7.0	6,411	5.7
800-849	80	7.7	9,745	8.6
850-899	86	8.3	12,723	11.3
900-949	93	9.0	15,707	13.9
950-999	72	7.0	14,388	12.8
1,000-1,099	190	18.4	25,931	23.0
1,100+	255	24.7	19,658	17.4
District (Rural) Total	**1,034**	**100**	**112,814**	**100**
Sex ratio (Rural) for District:		**960**		

The sex ratio of rural population in the age group of 0-6 is presented by ranges in the above table. Though the overall sex ratio for the rural district is 960 girls per 1,000 boys, it is worth noting that 445 inhabited villages have the sex ratio favourable for girls. Similarly in 258 villages, the data shows a grim picture of the status of girl child where, the sex ratio ranges between less than 700 and 750-799.

TABLE 13 : SEX RATIO OF POPULATION IN THE AGE GROUP 0-6 OF URBAN AGGLOMERATIONS / TOWNS, 2001

Sl. No.	Name of UA / Town	Urban status of town	Total population in 0-6 age group			Sex ratio for 0-6 age group
			Persons	Males	Females	
1	2	3	4	5	6	7

District (Rural) Total:		**918,181**	**203,031**	**37,212**	**22.1**	**4.1**

Similar data is presented for C.D. blocks, which includes only rural areas of the district. The Scheduled Castes and Scheduled Tribes population constitute 22.1 and 4.1 per cent to the total population of the district. Chikmagalur and Mudigere C.D. Blocks have highest percentage of Scheduled Castes and Scheduled Tribes population in its total population with 26.3 per cent and 10.1 per cent respectively. These are followed by Mudigere and Sringeri C D Blocks.

TABLE 16 : PROPORTION OF SCHEDULED CASTES POPULATION TO TOTAL POPULATION IN VILLAGES, 2001

Percentage range of Scheduled Castes population to total population	Number of villages	Percentage	Scheduled Castes Population	Percentage
1	2	3	4	5

7	Chikmagalur (CMC)	971	946
8	Mudigere (TP)	848	1,333
9	Kudremukh (NAC)	881	872
	Sex ratio (Urban) for the district:	**964**	**936**

The overall sex ratio of the Scheduled Castes and Scheduled Tribes population in the towns of Chikmagalur district is 964 and 936 respectively. The sex ratio is favourable for men both among Scheduled Castes and Scheduled Tribes. Despite the sex ratio being favourable for men, two towns Koppa and Narasimharajapura of the district have reported the sex ratio favourable for Scheduled Castes women while Sringeri TP has equal sex ratio. In Koppa TP, the data is distinctly favourable for Scheduled Castes women. Among the Scheduled Tribes, Mudigere TP has registered as high as 1,333 females per 1,000 males.

As per 2001 Census, regarding literacy rates Chikmagalur ranks seventh among the districts of the state. The percentage of literates are more in urban than in rural areas of the district. Male literates outnumber females in the district. Among the taluks, Sringeri has registered highest percentage of literates with 80.8 percent of its total population. The literacy rate for both males and females are high in the same taluk. The gap in male-female literacy rate is reported to be highest in Kadur taluk.

TABLE 22 : NUMBER AND PERCENTAGE OF LITERATES AND ILLITERATES BY SEX IN C. D. BLOCKS, 2001

91-99	5	1.0	160	0.4
100	42	8.0	207	0.6
District Total:	**522**	**100**	**37,212**	**100**
Literacy rate for District (Rural):			**56.9**	

The overall literacy rate of the Scheduled Tribes in the rural district is 56.9 per cent. The range wise rural literacy rate indicates that the rate for the majority of the villages ranges between 41-70. Villages covered under these ranges accounts for 54.2 percent. The Scheduled Tribes who are literates in these villages accounts for 74.3 percent.

Distribution of urban literacy rate of the Scheduled Tribes by sex is presented in the following table. It accounts for 77.5 percent. The male and female literacy rate is 84.5 and 69.8 per cent respectively. The literacy rate in these towns exceeds 70.0 per cent among the Scheduled Tribes, except Koppa TP which has recorded less than 70 percent. Among the towns, Sringeri TP has the highest per cent of both male and female literates when compared to other towns. Kudremukh NAC which has recorded 85.5 percent of literates have 5.3 per cent gap in male-female literacy rate which is considered to be the least among the towns.

The above table provides sexwise as well as taluk wise distribution of main workers, marginal workers, and non-workers of the district as per 2001 Census. Percentage of total workers in the district accounts for 45.3 per cent. Among the taluks, workers' percentage is high in Mudigere where the total workers works out to 50.7 per cent. In the same taluk, the percentage of female workers is high when compared to other taluks of the district. Male workers in Sringeri taluk constitute more in terms of percentage where it is reported to be 62.7 per cent. More than 50.0 per cent of the population are non-workers and this percentage is more in Chikmagalur taluk.

TABLE 32 : NUMBER AND PERCENTAGE OF MAIN WORKERS, MARGINAL WORKERS AND NON-WORKERS BY SEX IN C. D. BLOCKS, 2001

The data presented in this table is for CD blocks which includes only the rural population of the district. Data reveals that total workers including main and marginal workers constitute 47.6 per cent and non-workers accounts for 52.4 percent. Total male and female workers figure out to be 60.2 and 34.8 per cent respectively. Among the CD blocks, the percentage workers are high in Mudigere block and non-workers in Sringeri block.

Comparison of townwise data of the district reveals the huge gap between female (marginal and main) workers with male workers is presented in the following table 33. The percentage of female workers is 14.7 per cent as against 56.2 per cent for males. The female work participation rate of 8.7 per cent in Kudremukh NAC is least in the district. Further, it may also be seen from the above table that the percentage of non-workers in urban area of the district is 64.2 per cent while Narasimharajapura taluk tops the list with 66.1 per cent of its population as non-workers.

Note: Percent of Worker to total worker are given in brackets

The distribution of total workers by sex according to four industrials categories are highlighted in this table. As seen from the table, agricultural labourers and cultivators constitute 49.7 per cent, of the total workers in the district. More equally are people involved in other type of work whose percentage

works out to 47.9. The data above reveals that agricultural activity is still predominant in Kadur taluk where 74 per cent of workers are engaged in this activity. The least population involved in this activity is from Mudigere and Chikmagalur taluks where it sum up to 20.3 and 26.9 per cent respectively.

Note : Percent of Worker to total worker are given in brackets

The distribution of workers by economic activity is presented for the CD blocks of the district which includes only the rural area. The same trend as seen in taluk-wise distribution is observed in this table also. If only rural areas are taken into consideration, the percentage of cultivators and agricultural labourers are higher than as reflected in taluk wise distribution. The above distribution also points out that agricultural activity is predominant in Kadur C D block where 82.6 per cent of them are involved in this activity. Bulk of rural population, from Tarikere and Sringeri C.D. Blocks whose percentage works out to be 75.5 and 69.5 per cent respectively, are engaged in agricultural activity.

TABLE 36 : DISTRIBUTION OF WORKERS BY SEX IN FOUR CATEGORIES OF ECONOMIC ACTIVITY OF URBAN AGGLOMERATIONS / TOWNS , 2001

Sl. No.	Name and urban status of UA/Town	Persons / Males / Females	Total population	Total number of workers (Main + Marginal)	Category of workers

Total number of workers including main and marginal workers constitute 35.8 per cent. The cultivators and agricultural labourers in the urban area constitute 4.8 and 7.1 per cent respectively. Urban population engaged in other workers accounts for 85 per cent. Among the towns, 36.4 per cent of urban population from Birur TMC hold agricultural activity as their occupation. In other towns particularly Kudremukh NAC, Mudigere TP, Chikmagalur CMC, Koppa TP and Sringeri TP more than 90 per cent are pre-occupied in other works.

(ix) Brief analysis of the Village Directory and Town Directory data based on inset tables 37 to 47 :

TABLE 37 : DISTRIBUTION OF VILLAGES ACCORDING TO AVAILABILITY OF DIFFERENT AMENITIES, 2001

Note : - Percentages are given in brackets.

***** Based on the improved drinking water source, drinking water supply has been classified as 'Improved' or otherwise. If the household has access to drinking water supplied from a tap or a hand pump / tube well situated within or outside the premises it is considered as having access to 'Improved drinking water source'. However, the concept of improved drinking water is state specific and this is to be considered accordingly.

Post office includes Post office, telegraph office and Post and telegraph office.

$ Transport communication includes bus service, rail facility and navigable waterways.

The above table highlights the number of villages having different types of amenities. The statistics given above indicates the fact that good number of villages are not provided with basic amenities like education, medical, besides other facilities. Power supply is the only facility available to all the inhabited villages of the district. As far as improved drinking water facility is concerned, though all the villages in the district have one or the other source of drinking water, if the villages have tube well or a net work of pipe line for the supply of drinking water, then only the village is considered as having improved drinking water facility. Accordingly 947 villages have this facility. Access to health care services needs improvement on a large scale. In all only 15.6 per cent of the villages are privileged to have medical facility, 64.6 percent of the villages can be approached through pucca roads and 65.1 percent are connected with transport communication. Less than 50 percent of villages have post offices and telephone connections. The fact that 10.2 and 9.4 per cent of the villages have banks and agricultural credit societies, indicate that financial institutions play a less significant role in the rural economy. Among the C.D blocks, the villages in Narasimharajapura are better provided with more amenities than other blocks.

Rural population that are served by different amenities are presented in the following table. Power supply is available to 100 per cent of the population. Improved drinking water is available to 98.0 percent of the population, while educational facility is available to 79 per cent. More than 60 per cent of the population is benefited by transport, communication and pucca road facilities. With regard to other amenities, such as banking and health care service are available to less than 50 per cent of the population.

TABLE 38 : NUMBER AND PERCENT OF RURAL POPULATION SERVED BY DIFFERENT AMENITIES, 2001

Note : Percentages are given in brackets.

* Based on the improved drinking water source, drinking water supply has been classified as 'Improved' or otherwise. If the household has access to drinking water supplied from a tap or a hand pump / tube well situated within or outside the premises it is considered as having access to 'Improved drinking water source'. However, the concept of improved drinking water is state specific and this is to be considered accordingly.

\# Post office includes Post office, telegraph office and Post and telegraph office.

$ Transport communication includes bus service, rail facility and navigable waterways.

TABLE 39 : DISTRIBUTION OF VILLAGES NOT HAVING CERTAIN AMENITIES, ARRANGED BY DISTANCE RANGES FROM THE PLACES WHERE THESE ARE AVAILABLE, 2001

Village not having the amenity of	Distance range of place from the villages where the amenity is available			
	Less than 5 kilometres	5-10 kilometres	10+ kilometres	Total (Col. 2 - 4)
1	2	3	4	5
1. Education :-				
(a) Primary School	496	20	-	516
(b) Middle School	444	108	17	569
(c) Degree College	81	179	767	1,027
2. Medical:-				
(a) Hospital	105	203	704	1,012
(b) PHC	320	319	337	976
3. Post Office	589	145	43	777
4. Telephone	358	104	63	525
5. Bus Service	361	83	18	462
6. Banks				
(a) Commercial Bank	448	310	194	952
(b) Cooperative Bank	319	287	373	979
7. Agricultural Credit Societies	430	243	264	937

Certain amenities are not available within the village. In such cases data on distance from where these are available in ranges are given in the above table by distance range. About 516 villages do not

have primary schools. Primary school facility is available at a distance less than 5 kms for 496 villages. Similar is the case with middle school, where 569 villages do not have this facility. For these villages the facility is available at a distance range of less than 5 kms and 5-10 kms. With regard to degree colleges, for most of the villages, the college is at a distance of 10 kms and above. As far as medical facility is concerned, maximum number of villages have been reflected in the table under the different distant ranges. Hospitals are available in 22 villages. Only 58 villages have PHC's within its limits. For the rest of the villages, the facility is available in the distance ranges of less than 5 kms, 5-10 kms and more than 10 kms. As Post office is less than 5 kms away for 589 villages, 5-10 kms for 145 villages and it is more than 10 kms away for 43 villages. With regard to facilities like telephone and bus service, most of the villages have this facility within 5 kms reach. As far as banks and agricultural credit societies are concerned, the table exhibits a different picture revealing not many villages have this facility. However it is available at a distance of less than 5 kms, 5-10 kms and more than 10 kms.

TABLE 40 : DISTRIBUTION OF VILLAGES ACCORDING TO THE DISTANCE FROM THE NEAREST STATUTORY TOWN AND AVAILABILITY OF DIFFERENT AMENITIES, 2001

Distance range from the nearest statutory town (in kilometres)	Number of inhabited villages in each range	Type of amenity available

	(100.0)	(28.1)	(7.8)	(15.6)	(31.3)	(39.1)	(4.7)	(4.7)	(37.5)
District total	**1,034**	**530**	**161**	**264**	**509**	**673**	**105**	**97**	**668**
	(100.0)	**(51.3)**	**(15.6)**	**(25.5)**	**(49.2)**	**(65.1)**	**(10.2)**	**(9.4)**	**(64.6)**

Post office includes Post office, Telegraph office and Post and telegraph office.

$ Transport communication includes bus service, rail facility and navigable waterways.

The villages have been arranged according to the distance in ranges from the nearest statutory town. Majority of the villages are little far from their nearest statutory town, particularly, 373 and 519 villages are situated at a distance of 5-15 kms and 16-50 kms.respectively. For 64 villages, the distance could not be specified. The distance from the nearest statutory town to the village has been correlated with type of amenities available as per 2001 Census. Irrespective of the distance, villages do not have certain amenities.

\# Post office includes Post office, Telegraph office and Post and telegraph office.

$ Transport communication includes bus service, rail facility and navigable waterways.

* Based on the improved drinking water source, drinking water supply has been classified as 'Improved' or otherwise. If the household has access to drinking water supplied from a tap or a hand pump/tube well situated within or outside the premises it is considered as having access to 'Improved drinking water source'. However, the concept of improved drinking water is state specific and this is to be considered accordingly.

The rural population has been classified by different population ranges and the different amenities available under each range is given in the above table. Villages having population ranging between 5,000-9,999 have most of the facilities. Irrespective of the size of the population of a village, certain amenities like medical, post office, banks, agricultural credit societies are not within the reach.

TABLE 42 : DISTRIBUTION OF VILLAGES ACCORDING TO LAND USE, 2001

Sl. No.	Name of C. D. block	Number of inhabited villages	Total area	Percentage of cultivable area to total area	Percentage of irrigated area to total cultivable
1	2	3	4	5	6
1	Sringeri	48	44,048	13.4	14.8
2	Koppa	80	56,998	37.3	14.7
3	Narasimharajapura	58	72,680	18.8	22.9
4	Tarikere	206	97,436	55.6	22.1
5	Kadur	284	134,665	66.4	13.0
6	Chikmagalur	218	164,559	42.2	5.1
7	Mudigere	140	113,608	38.9	0.1
	District Total:	**1,034**	**675,001**	**44.2**	**11.4**

Note : - Cultivable area = irrigated area + unirrigated area

The land use data as per 2001 Census presented in the above table takes into consideration the cultivable area of the district. The cultivable area given in the table includes both irrigated and unirrigated areas. As such the total cultivable area of the rural portions comprises of only 44.2 per cent of the total area. Among the CD blocks, the highest percentage of area under cultivation is in Kadur, where the percentage works out to 66.4. Lands available for cultivation in Sringeri and Narasimharajapura are the least among the CD blocks, with 13.4 and 18.8 per cent respectively of its land to total area of the district. Total irrigated area available for cultivation accounts for 11.4 per cent of total area.

As may be seen from the table 43, the total per capita receipt of the urban disrict is Rs.2,934.0 and the total per capita expenditure is 2,554.0 The receipts are mainly from other

sources and only Rs.700.0 is received through taxes. With regard to per capita expenditure Rs.934.0 is spent on general administration, Rs.553.0 on public works and Rs.815.0 on other expenditure. While 21.0 is spent on public health and conveniences.

TABLE 44 : SCHOOLS / COLLEGES PER 10,000 POPULATION IN STATUTORY TOWNS, 2001

Sl. No.	Name and urban status of Town	Type of educational institution				
		Primary	Junior Secondary / Middle	Secondary / Matriculation	Senior Secondary	College
1	2	3	4	5	6	7
1	Birur (TMC)	7.7	5.3	2.2	1.3	0.9
2	Chikmagalur (CMC)	5.7	3.6	2.0	0.8	0.7
3	Kadur (TMC)	11.7	6.2	4.5	1.6	0.3
4	Koppa (TP)	13.7	9.8	7.8	2.0	3.9
5	Kudremukh (NAC)	3.7	3.7	3.7	1.2	0.0
6	Mudigere (TP)	19.0	12.3	7.8	2.2	1.1
7	Narasimharajapura (TP)	17.4	10.7	6.7	2.7	1.3
8	Sringeri (TP)	14.1	14.1	7.1	4.7	2.4
9	Tarikere (TP)	4.4	2.6	1.5	1.2	0.3
District Total		**7.7**	**4.9**	**3.0**	**1.3**	**0.7**

The educational institutions per 10,000 population in various statutory towns in the district given above indicates that 7.7 per cent of primary, 4.9 per cent of junior secondary/middle and 3 per cent of secondary/matriculation schools are available in the towns. Of all the towns, Narasimharajapura is slightly better by having 17.4 per cent of primary schools per 10,000 population. Senior secondary and colleges constitute 1.3 per cent and 0.7 per cent respectively.

TABLE 45 : NUMBER OF BEDS IN MEDICAL INSTITUTIONS IN TOWNS, 2001

Sl. No.	Name and urban status of the Town	Number of beds in medical institutions per 10,000 population
1	2	3
1	Birur (TMC)	31
2	Chikmagalur (CMC)	6
3	Kadur (TMC)	57
4	Koppa (TP)	68
5	Kudremukh (NAC)	62

Sl. No.	Name and urban status of the Town	Number of beds in medical institutions per 10,000 population
1	2	3
6	Mudigere (TP)	71
7	Narasimharajapura (TP)	80
8	Sringeri (TP)	24
9	Tarikere (TP)	29
	District Total	**28**

The number of beds in Medical institutions in towns is surmised as 28 per 10,000 population. While it is very low of 6 beds in Chikmagalur (CMC), it is 80 beds in Narasimharajapura (TP) which according to the data provided in the above table is the highest in comparison with other towns.

TABLE 46 : PROPORTION OF SLUM POPULATION IN TOWNS, 2001

Sl. No.	Name of the Town	Total population	Slum population	Percentage of slum population to total population
1	2	3	4	5
1	Birur	22,702	6,100	26.9
2	Chikmagalur	101,251	3,876	3.8
3	Kadur	30,814	6,970	22.6
4	Sringeri	4,249	541	12.7
5	Tarikere	34,066	900	2.6
	District Total	**193,082**	**18,387**	**9.5**

Note : Data presented for Statutory towns only having slum population.

The slum population in the district constitutes 9.5 per cent of total town population. This proportion is high in Birur which works out to 26.9 per cent followed by 22.6 per cent in Kadur and 12.7 per cent in Sringeri. The other two towns have reported less proportion of slum population.

TABLE 47 : MOST IMPORTANT COMMODITY EXPORTED OUT OF AND MANUFACTURED IN TOWNS, 2001

Sl. No.	Name and urban status of Town	Most important commodity	
		Manufactured	Exported
1	2	3	4
1	Birur (TMC)	Railway Sleeper	Arecanut
		Concrete Products	Lime
		Lime	Railway Sleeper
2	Chikmagalur (CMC)	Potato	Clothes
		Cardamom	Cement

5	Kudremukh (NAC)	Iron-Ore	Iron-Ore
6	Mudigere (TP)	Rice	Coffee
		Furniture	Cardamom
		Coffee Curing	Pepper
7	Narasimharajapura (TP)	Cut Size of Timber	Rice
		Rice	Timber
		Rubber	Rubber

Sl. No.	Name and urban status of Town	Most important commodity	
		Manufactured	Exported
1	2	3	4
8	Sringeri (TP)	Wooden Furniture Cut Sizes of Timber	Arecanut Timber Pepper
9	Tarikere (TP)	Steel Casting Glass Bangles	Arecanut Chillies Steel-Ingots

Different types of commodities are manufactured as well as exported from the district. Of this agriculture related products forms the most important commodity of trade in the district. It is one of the important coffee producing region in the State and it is also known for its spices production. Besides, production of edible oil, tiles and iron ore are the other commodities which finds a place in the list of items manufactured and exported from the district. It is worth mentioning about manufacture of wooden materials/furnitures and wooden sleepers for railway coaches in the district.

(x) Brief analysis of the data on houses and household amenities, Houselisting Operations, Census of India 2001 based on inset tables 48 to 52 :

	Median number of rooms	2	2	3	2	2	2	2	2	2

Table No. 48 gives the distribution of households by tenure status and number of dwelling rooms occupied by them. The data presented in this table is for the general population, as well as for Scheduled Castes and Scheduled Tribes. It can be seen that households dwelling in one or more than one room, constitute more in number than households with 'no exclusive room'. Median number of rooms is 2 and 3 in respect of the households dwelling in the structures owned by them in rural and urban areas respectively. As far as Scheduled Castes and Scheduled Tribes are concerned, households living in own building exceeds rented and other structures. No matter the houses are owned or rented, they have median number of two rooms.

TABLE 49 : PERCENTAGE DISTRIBUTION OF HOUSEHOLDS LIVING IN PERMANENT, SEMI PERMANENT AND TEMPORARY HOUSES, 2001

		44.8	**49.1**	**6.0**	**30.9**	**43.7**	**5.7**	**13.9**	**5.4**	**0.3**

The table above highlights the percentage distribution of households living in the houses, defined as per census concepts. The census houses, either fully or partly occupied by the households for residential purpose have been classified into permanent, semi-permanent and temporary. The households living in permanent structure in the district constitute 44.8 percent and semi-permanent structure accounts for 49.1 percent. Households living in temporary building is less in the district. Whereas in rural areas households dwelling in houses built upon semi-permanent material is comparatively more than permanent structures.

Percentage of households having improved drinking water source, electricity, bathroom, toilet and proper drainage facility will throw light on the living conditions of the people. Improved drinking water, electricity and bathroom facilities are available to 81.8, 76.6 and 73.2 percent of the households respectively. Households with proper sanitation facilities like toilet and drainage is less than 50 percent. The rural-urban composition reveals that urban households have more accessibility to these facilities than rural households. Taluk wise details can be seen in the above table.

The type of fuel used for cooking by the households is given in the preceeding table. The different types of fuel includes firewood, crop residue, cowdung cake, coal/lignite/charcoal. Kerosene, LPG, electricity, biogas, etc. Nearly 75 per cent of households use firewood for cooking followed by 13.8 per cent of households using LPG. Residence-wise comparison points out that firewood remains a predominant type of fuel used by the rural households while LPG is used by 45.8 per cent of

the urban households. Other types of fuel used for cooking is negligible. Yet the table reveals that some 0.3 per cent of the households though it is less significant do not use any of the fuels listed above for cooking. Talukwise details can be seen from the table.

TABLE 52: NUMBER OF HOUSEHOLDS AVAILING BANKING SERVICES AND NUMBER OF HOUSEHOLDS HAVING EACH OF THE SPECIFIED ASSET, 2001

Households availing banking services as well as possessing specified assets are provided in the above table. It appears that data at the district level depicts a better picture on households availing banking services than those at the state level. Further, with regard to holding of assets, televisions have became part of their assets for majority of urban households while radio/transistors still remains an asset for rural as well as urban households. Majority of the households are yet to have a telephone connections, bicycle, two wheelers and four wheelers. Above all, some 32 per cent households represent having none of the specified assets.

(xi) Archaeology

Pre-historic archaeological sites have been discovered near Kadur, Nidghatta, lingadahalli and Kaladurga hill in Tarikere taluk. It is evident from the discoveries that human beings existed in these sites which belong to the palaeolithic times. The discovery at Kaladurga hill in Tarikere taluk shows evidence of Microlithic period. Similarly many cists with and

without stone-circles belonging to megalithic period have also been unearthed at Mattavara in Chikmagalur taluk and Sakrepatna (Sakharayapatna) in Kadur taluk. Though there has not been any discovery of Neolithic sites in the district, it is believed that this culture must have been existed due to the fact that considerable evidence on Neolithic tools have been found in the adjoining districts of Shimoga and Chitradurga. Apart from the pre-historic archaeological sites, few remains of the later period are worth mentioning. Of the many places which are important from various points of view, a brief account on some of those places are mentioned in this book. This column provides information about the three protected monuments from the archaeological point of view. The first one is the splendid temple of Amrutesvara at Amruthapura in Tarikere taluk. This temple is said to have been constructed by Amrutesvara Dandanayaka, a general of the Hoysala ruler Ballala-II in 1196 A.D. One of the interesting feature of this temple is the 'Mukhamantapa' with attractive artistic design with verandas all around and the outer facing of its basement covered by a series of about a hundred impressive turrests which are alternatively large and small in sizes. The delicacy of touch, originality of design and fine features have made the temple one of the high-class structures of the Hoysala period. Also, the oldest of about 10 epigraphs found in the temple dating back to 1197 A.D. was composed by Kavichakravarti Janna, a celebrated kannada poet patronized by the Hoysalas. The second protected national monument is the Viranarayana temple at Belavadi in Kadur taluk. This is also one of the fine specimen of Hoysala architecture. This temple is dedicated to Viranarayana, Venugopala and Yoga Narasimha. It is believed from a fragmented Hoysala inscription that this Shrine was in existence before 1206 A.D. The Vidyashankara temple is another centrally protected monument in Sringeri, constructed during the period 1357-58 A.D. It was built in commemoration of the pontiff Sri Vidyashankara, also known as Vidyatirtha. It is stated that this temple was built at the behest of sage Vidyaranya and is an unique monument completely built of granite stones. It's a combination of historical architectural and iconographic significance. The sculptures illustrates episodes from the puranas and histrocial narrations.

(xii) Brief description on places of historical, religious, archaeological and tourist importance in villages and places of tourist interest in the towns of the district

Aldur (Chikmagalur Taluk) : Known as Arundur in the past, it has two '*Viragals'* (hero-stones) with inscriptions dated in 1116 A.D., when Hoysala Vishnuvardhana was ruling over this region.

Amble (Chikmagalur Taluk) : In certain inscriptions dated in 959 A.D. and later this place is referred to as Ammale and this seems to have once been a flourishing *agrahara.* There are 4 ancient temples dedicated to Chennigaraya, Lokeshwara, Veerabhadra and Gopalakrishna.

Aralaguppe (Chikmagalur Taluk) : A temple of Deveeramma highly venerated by the local people is situated here. At Kaimara a hamlet of Aralaguppe, there is the Nirvana swamy '*Matha*'. Nirvana swamy is said to have worshipped an '*Udbhavalinga*' called Mallesha and to have performed several miracles. In honour of this saint a fair is held for three days in April every year.

Arasinguppe (Chikmagalur Taluk) : The village has three *Viragals* and one *Sati* stone with inscriptions belonging to the Hoysala period and an epigraph mentioning gifts of land and authorisation to administer certain temples. This epigraph is dated in the year 1742 A.D. and belongs to the time of Santebennur chiefs.

Belavadi (Chikmagalur Taluk) : According to a legend Belavadi is the Ekachakrapura of the Mahabharata time, where Bhima is said to have slain Bakasura. There are remnants of some important temples belong to the Hoysala period.

Bisagni Matha (Chikmagalur Taluk) : There is a Veerashaiva '*Matha*' called Sri Guru Dattatreya Adi-Gadduge Inam Bisagni matha. A tradition says that a saint named Prabhulinga Shivacharya of this place performed extraordinary acts like bathing in boiling water and taming a mad elephant during the time of Keladi Someshekhara Nayaka.

Dattatreya Peetha (Chikmagalur Taluk) : Bababudangiri range on which this place is located is the highest hill range on the Karnataka table land.

This chain has a horse shoe like form with its opening to the north west. The northern arm commencing with the Hebbegudda (1,337.4 metres) stretches eastwards without interruption for about 25 kms. Bending southwards, it presents to the east an unbroken wall of more then 32 kms. The southern arm is formed by the Basavanagudda and Woddinagudda ranges. The character of the chain is that of a tremendous ridge, 1,829 metres above the sea level and in some parts only a few yards wide at the summit, rising at intervals into loftier peaks.

Mullaiyanagiri peak rising 1,926 metres above the sea level, is the highest point between the Himalayas and the Nilgiris. About 15 metres below the top of Mullaiyanagiri there are three large caves in which Siddhas named Mullappa swami (Mullaiya), Muppanappa swami and Noorondappam swami are said to have performed meditation. The Yagachi river originates from the southern slope of this hill.

The 1,895 metres high Bababudangiri has a noted shrine which is venerated by Hindus and Muslims alike and is known as Sri Guru Dattatreya Peetha, and as Bababudan's *Darga* among the Hindus and Muslims respectively. At a short distance from this shrine are situated the three sacred spots known as the *Gada-teertha, Kamana-teertha and Nellikavi teertha* formed by Manikya-Dhara water falls. The range is called "Bababudangiri" as a Muslim saint called "Bababudan" who is said to have brought coffee to India from Yemen, resided on one of the southern slopes and promoted coffee cultivation.

Gautameshwara (Chikmagalur Taluk) : According to a local tradition sage Gautama, had his hermitage here and Ahilya, his wife, was relieved of her curse by Lord Ramachandra at this place.

Hire Magalur (Chikmagalur Taluk) : According to a Puranic account this place was once the residence of nine *Siddhas* who performed penance near a pond which is now known as "*Siddha Pushkarini*". The village is also known as Bhargavapuri after Bhargava i.e. Lord Parashuram who is believed to have stayed here for some time and built the Rama and Kodandarama temples. Emperor Janamejaya is said to have performed the serpent sacrifice in this village. A stone pillar about 9 feet high, with top fashioned like a trident is pointed out as the *Yupastambha* or sacrificial post used by him. Kodandarama temple is a structure in the Hoysala style so far as the *Garbagriha* and *Sukhanasi* are concerned the remaining portions being subsequent additions in the Dravidian style.

Kalasapura (Chikmagalur Taluk) : There are two main temples of which Cheluva Narayana temple is an old one with a newly built exterior and the Mallikarjuna temple is an early Hoysala structure with well-carved Hoysala crest on the top.

Kotevuru (Chikmagalur Taluk) : This place is noted for its ancient inscriptions. Among them, one that is ascribed to about 800 A.D. gives details of a line of chiefs called Taryyallas or Kusha-Taryyallas. Several expressions in it resemble those of Kadamba grants. At the Rameshwara temple there are Senavara epigraphs mentioning Marasenavarma who is said to have constructed several temples. There is also a Viragal near Mannirkatte at the entrance to the village. An annual fair of Rameshwara is held for three days in the month of March.

Kuduvalli (Chikmagalur Taluk) : There are five Ishwara shrines dedicated to Oneshwara, Rameshwara, Harihareshwara, Someshwara and Gautameshwara. On account of these panchalingas, the place has been hailed as the Talkad of Chikmagalur district. Also called as Purushottamapura, this village was granted to *Sringeri matha* when Purushottam Bharati Swami, was the pontiff of the *matha.*

Marle (Chikmagalur Taluk) : There are two ancient temples, dedicated to Channakeshava and Siddeswara constructed in the Hoysala style in 1130 A.D. According to an inscription near the Chennakeshava temple, Vishnuvardhana visited this temple in 1130 A.D. at the time of the consecretion of the deity. Behind the Kamatheshwara temple, there is a curious *Mastikal* with three projecting hands. An old Nolamba record has also been recently discovered here.

Mattavara (Chikmagalur Taluk) : The ancient Parshwanatha *basadi* here is said to have been visited by the Hoysala king Vinayaditya about the middle of the 11th century A.D. There is a dilapidated Shiva temple with a fine figure of Bhairava. Besides, the village has the shrines of Anjaneya, Deveeramma and

Chaudeshwari. A large number of Cromlechs were found in the Government plantations to the southwest of the village.

Muttinapura (Chikmagalur Taluk) : This place is situated on the Bababudan hill range and it has the Adi-Gadduge Sri Guru Dattatreya Phalahara Matha and a temple dedicated to Prasanna Virupaksheshwara. Two inscriptions, one of the 13th century and the other of 1615 A.D. were found in this temple. The Matha has in its possession 4 copper-plate inscriptions dated 1698 A.D., 1702 A.D., 1707 A.D. and 1717 A.D. respectively. This hill range is described as Chandradrona and Veda Parvata, is believed to contain *Sanjeevini and Siddha-rasa.*

Pandaravalli (Chikmagalur Taluk) : A local legend has it that the Pandavas stayed here for some time during their exile. The village has a shrine of Mallikarjuna.

Sindigere (Chikmagalur Taluk) : It is named after Sindhamma a Jaina lady. Two inscriptions have been noticed in the Brahmeshwara shrine at the Jain Basadi here. One mentions that Hoysala Ballala married the three daughters of the Dandanayaka of this place in the Shaka year 1025. The other one dated 1137 A.D. records land grants made by the Hoysala ruler Vishnuvardhana to the *basadi.*

Teguru (Chikmagalur Taluk) : This place, situated on the left bank of the river Yagachi, has an ancient temple of Anjaneya and attracts a large number of devotees. A festival called *Peru* is held here and prayers are offered for rains.

Uppalli (Chikmagalur Taluk) : A Ganga land-grant inscription dated in 959 A.D. and well carved but mutilated figures of Veerabhadra, Subramanya, Ganapathi etc, are found here. A simple *Virgal* of early eleventh century A.D. found here has a standing figure of a man armed with bow and arrow at the top.

Vastare (Chikmagalur Taluk) : There are two obscure inscriptions on a stone near the shrine of Padmavathi. These inscriptions have been assigned to the middle of the eighteenth century and to about 900 A.D. Vastare was one of the pioneering centres of coffee cultivation by Europeans.

Antaraghatta (Kadur Taluk) : The local temple of goddess Durgambika, also called Antaraghattamma and Chamundeshwari is popular in this neighbourhood. A fair is held during February-march for ten days and the event attracts a large gathering.

Asandi (Kadur Taluk) : About 14 inscriptions including Virgals, a number of beautiful temples and a few other notable structures have been found here. During the Ganga and Hoysala times, this was the headquarters of an administrative division called *Asandinadu*.

Brahmasamudra (Kadur Taluk) : In this place, also known as Lakshminarayanapura, there are two temples (i) Nakanatheshwara temple originally erected by one Naka, A *Sarvadhikari* and chief minister of the Hoysala king Narasimha I in 1169 A.D. and (ii) Vishnu temple constructed in 1172 A.D. by Achiraja who was also a *Sarvadhikari* under the same ruler.

Devanur (Kadur Taluk) : In Sanskrit, the place is called Surapura and Girvanapura. In an inscription of 1234 A.D. this place is referred to as Lakshminarayanapura. This village has acquired fame as it is the birth place of Mahakavi Lakshmeesha, a well known Kannada poet. He was an ardent devotee of Lord Lakshmikanta, the presiding deity of one of the temples of Devanur, to whom he dedicated his famous work *Jaimini Bharata*. The Kannada poet Rudrabhatta who flourished in the 12th century A.D. has also dedicated his work *Jagannatha Vijaya* to Lord Lakshmikanta.

Devara Hosahalli (Kadur Taluk) : The ancient Lakshmiranganatha temple here is surrounded by a fort and on its north-western side there is a big pond called Anehonda. The annual fair in honour of Lakshmiranganatha is held here every April for eight days in the Mahanavami *maidana* which is close to the temple.

Girivapura (Kadur Taluk) : The village has temples of Basaveshwara and Kendala Monnappaswami as also a *gadduge* (tomb-shrine) of Marula-Siddeshwara. A Shivayoga Mandira and an "ashram" called Shantidhama Sri Guru Kumarashram were founded here by Sadashiva Shivacharya of Sakrepatna.

Hirivangala (Kadur Taluk) : In this village a number of mutilated figures of Vishnu and other deities are found.

Machcheri (Kadur Taluk) : This is said to be Mathsyapuri, the capital of Virata of Mahabharata

fame. About a kilometre to the east Vedavati river flows on a hard rock-bed eroding it in several places. This spot is known as Kunti Hole where Kunti is said to have met the Pandavas during their ajnathavasa. A nearby hillock is known as Keechakanagudda.

Sakrepatna (Kadur Taluk) : A Telugu copper plate found in this place refers to the village as Galipooji-Sankarapattnam. Myths associate this place with giant Shambarasura and the pious king named Ambareesha. Another legend says that Anjaneya, who came here in search of the Sanjeevini herb, killed the giant named Kalanemi. He then came across a good omen (shakuna) forecasting the success of his mission of finding the herb and henceforth the nearby hill came to be known as Shakunagiri. According to the Sthalapurana this place was in olden times the capital of king Rukmangada, a king mentioned in the Mahabharatha. A monument to Hon-billa who sacrificed his life for the stability of Ayyanakere, a great gun and an image of immense slab of stone called Vira Ballala Chauki are the objects of interest here. This village became a possession of Argur or Balam chiefs during the time of Vijayanagar kings. It was next taken by the Nayakas of Ikkeri-Srirangaraya king of Vijayanagar took refuge with the Ikkeri chief who espoused his cause and established him in power at Sakrepatna. But it was taken over by Mysore Army in 1690 A.D.

The car festival held in honour of Ranganatha Swamy in the month of Vaishaka is an important event in this neighbourhood.

Yemmedoddi (Kadur Taluk) : Ayyanakere or Dodda Madagadakere is a large lake, surrounded by high hills at the base of the Bababudan hill range. This magnificient and delightful reservoir has been formed by embanking the perennial Gaurihalla stream at the foot of Shakunagiri hill. This tank is said to have been constructed by Rukmangada Raya, the Chief of Sakrepatna and was renovated later during the time of Hoysala king Narasimha. The vicinity of this extensive and enchanting lake is a popular picnic spot.

Hariharapura (Koppa Taluk) : From the inscriptions of 1392 A.D. and 1418 A.D. found here, it is learnt that an *agrahara* town was established here by king Harihara II of Vijayanagara and was named after him. There is a *matha* belong to smartha Brahmins and in it there are two shrines dedicated to Narasimha and Sharada. Besides, a temple dedicated to Madhveshwara, in which two inscription stones are also found. According to a local tradition Daksha performed a great sacrifice near Someshwara temple, situated close to Hariharapura.

In Jammatige hamlet there is a small temple of Nilakanteshwara built in 1733 A.D. It is remarkable for its sculptures. Every inch of space in this temple is carved with figures depicting stories of Ramayana, Mahabharata and Bhagavatapurana.

Jayapura (Koppa Taluk) : Legend has it that at this place, sage Valmiki had his hermitage. The village, formerly known as Sollebylu, has two temples of Hoysala period dedicated to Lokeshwara and Channakeshava. In addition there are the shrines of Ganapathi, Anjaneya and Durga, a Juma Masjid and a Catholic St. Rita's church all of which are of considerable religious importance in the neighbourhood.

Narasipura (Koppa Taluk) : At Narve, a hamlet of this village which is situated on the bank of the river Tunga, sage Bibhandaka, the father of Rishyashringa of the Ramayana period is said to have had his hermitage. Of the Gopalakrishna and Ganga-Vishweshwara temples here the former is of Hoysala workmanship. In an inscription dated 1588 A.D. this place is referred to as Nari while in another dated 1592 A.D., it is referred to by the name Narave.

Angadi (Mudigere Taluk) : This place has been identified as Sasakapura or Sosevur which was the original home of the Hoysalas who rose to great power in South India. There are many old inscriptions and some beautiful sculptures in the two Jain *basadis*. Remnants of ancient temples dedicated to Keshava, Patalarudra and Malleshwara are also found here. The Vasantika temple here is said to be the spot where Sala, the founder of Hoysala dynasty, killed a tiger at the bidding of his teacher.

Devarunda (Mudigere Taluk) : According to legend, sage Kapila had his hermitage here, the presiding diety Prasanna-Rameshwara in the temple of that name here is said to have been installed by Lord Parashurama. Besides this temple, there are

shrines dedicated to Keshava, Veerabhadra, Anjaneya and Devi as also two epigraphs of the Vijayanagar period.

Durgadahalli (Mudigere Taluk) : In the midst of a jungle nearby there is a temple dedicated to Kalabhairava. Three day long Kalabhairava fair held here during February to March every year is an important event.

Gonibeedu (Mudigere Taluk) : Named after Gona, a local chief, this village has the shrines of Ganapathi, Channakeshava and Basaveshwara.

Gonibeedu Agrahara (Mudigere Taluk) : According to a legend this place was the abode of a *rakshasa* named Gonasura who was ultimately killed by Adi-Subrahmanyeshwara. The local temple of Adi-Subrahmanyeshwara is attributed to Harihara, a Vijayanagara king, who got the deity installed in fulfilment of a dream he had experienced earlier.

Halase (Mudigere Taluk) : The village is noted for its Rameshwara temple constructed recently and also for its annual *Suggi-habba* which lasts for 3 days and is held during March-April.

Hanturu (Mudigere Taluk) : The old Parashwanatha basadi here was got constructed by Hariyabharasi, the eldest among the younger sisters of Kumara Ballaladeva, a Hoysala prince in 1129 A.D. There are two other shrines of Kalleshwara and Deveeramma which are also of some importance.

Horanadu (Mudigere Taluk) : A stone inscription as also a copper plate grant, both of 1675 A.D., were found here. The local temple dedicated to Annapurneshwari which was recently renovated and enlarged is of some importance in this neighbourhood. This village has an ancient Jaina *basadi* also.

Javali (Mudigere Taluk) : The Hemavathi river also called Yenne-hole, rises from a spring situated within the limits of this village.

Kalasa (Mavinakere) - (Mudigere Taluk) : The Bhadra river flows here in three directions, rendering the place into a penninsula. Very near to the Bhadra, there are Pancha-teerthas (five sacred) ponds called Koti teertha, Rudra teertha, Ambu teertha, Naga teertha and Vasistha teertha. Kalasa is said to be one of the five sacred placed situated on the banks of the Bhadra river. According to the Skandapurana, two sages, Mitra and Varuna performed penance at the place. According to a legend the renowned sage Agastya had his hermitage on the bank of the Bhadra river here.

There is a large temple dedicated to Kalaseshwara, surrounded with inscriptions attributed to the Bairarasa Wodeyars of Karkala. The temple is said to have been founded by Shrutabindu a king from the North. Mounds covering ruins on all sides, point to the existence of a large town in former times. It was included in the dominions of Humcha and of the Karkala chiefs (1132 A.D. to 1598 A.D.). Subsequently the place was also the residence of Aigur chiefs. The former town at this site included the present villages of Melangadi, Kilangadi and Rudrapada. At Melangadi, there is a sacred bathing place called Ambuteertha where the stream rushes very deep between eroded rocks. At one point there is a large boulder placed horizontally on another. There is an inscription on this boulder stating that Sri Madhvacharya brought and placed it there in one hand. According to Madhva Vijaya, Madhvacharya saw a big rock capable of supporting a water fall from a height, abandoned at a place through utter inability to carry it to its destination. When he enquired as to why the rock was not conveyed to its destination the people told him that there were no men able to convey it and that even if Bhima were to try, it was doubtful whether he could do it. The acharya is said to have conveyed the stone easily with one hand and placed it at the destined spot.

According to some inscriptions, it is learnt that Kalasa was administered by three Hebbars. It might have enjoyed a kind of self-government about which fuller particulars are not available. Some of the princes of Vijayanagar family are said to have ruled over Kalasa.

Samse (Mudigere Taluk) : Tunga and Bhadra rivers originate at Gangamoola in the nearby Varaha Parvata (western ghats). According to legend, Vishnu in his incarnation as Varaha (great boar) raised the earth which was plunged into the ocean by Hiranyaksha. After killing Hiranyaksha, Vishnu rested for a while on the peak which has, since then come to be known as Varaha Parvata. The drops of sweat which trickled down from the tusks of the great Varaha are believed

to have formed into the twin streams Tunga and Bhadra.

Within the limits of this large densely forested village the famous Kudremukh range is located. This is a lofty peak on the western ghats, which looks like the face of a horse from the side of the Arabian sea. This has been a well known land mark for navigators. Now, iron ore is being extracted in this area on a large scale by the Kudremukh Iron Ore Company Limited, a Government of India undertaking, for export to Iran and other countries.

It is said that Jaina Muni named Shambhunatha had his hermitage here. A copper place grant of 1675 A.D. found here mentions the chiefs of the Aigur dynasty.

Taruve (Mudigere Taluk) : Ballalarayanadurga, located nearby is on a sprawling hill in the western ghats which is about 1507 metres high. Extensive fortifications were built on it by the Hoysalas, who developed the area into a military strong-hold which commanded the Kottigehara pass leading from the hilly area of Chikmagalur to the coastal area of Dakshina Kannada.

Hebbe (Narasimharajapura Taluk) : Known as Heramba kshetra this is considered to be one of the Panchkshetras situated on the banks of river Bhadra. There is an old temple dedicated to Bhavani-Shankara. Bhadra wild life sanctuary is situated close to this village.

Kanabur (Narasimharajapura Taluk) : Balehonnur, which is a part of this village is situated on the left bank of the river Bhadra and has yielded number of epigraphs and inscriptions of olden days. The Jagadguru Rambhapuri Veerasimhasana Mahasamsthana Peetha, situated at Balehalli (also called as Rambhapuri), a hamlet of this village is of considerable religious importance to a large section of the Veerashaivas in view of its being one of the five important pontifical seats of the Panchaacharya Mathas. A temple of Veerabhadra is also attached to the Matha. Balehonnur has a meteorological station and is known all over India because of the Coffee Researche Station functioning here since 1925.

Bettagere (Sringeri Taluk) : A small Shankaranarayana temple in the hamlet called Tenikodu is said to have been constructed about 200 years ago. In a place called Tippanakoppa which is a hamlet of Bettagere, there is a curious *Mastikal* having three panels.

Gandaghatta (Sringeri Taluk) : In a hamlet called Ardhini, there are two *Mastikals* of elaborate workmanship each about seven feet high and having six panels.

Rishyashringapura (Sringeri Taluk) : This place, also called Markal, but popularly known as Kigga, has the ruins of an old fort and five epigraphs, of which four are of 8th century A.D., and the fifth is of 11th century A.D. Kigga seems to be an old name of this village according to the epigraphs. The well known temple dedicated to Rishyashringeshwara here is a fairly large Dravidian structure and the sculptured pillars in the *navaranga* show an ingenious combination of men and animals. The shrine of Ganapathi found at the *Sukhanasi* has a rare figure of Balamuri Ganapathi with only two hands, his trunk turned to the right.

Vidyaranyapura (Sringeri Taluk) : This village was granted as an agrahara by the Vijayanagar king Harihara-II in memory of Vidyaranya. According to a legend, sage Vashishta had a hermitage here. Guru Vidya teertha is stated to have performed penance at this place. There are temples of Vigneshwara and Vidyashankara and a stone temple of Sadashiva, built by Ikkeri chief Shivappa Nayaka. Tunga river flows towards the west only in this village and this spot is of great sanctity as the river here is known as Paschimavahini.

Amritapura (Tarikere Taluk) : The village has the remnants of a very fine and large temple of Amriteshwara built in Hoysala style around 1197 A.D. during the reign of Viraballala II.

Baggavalli (Tarikere Taluk) : This place, said to have had the hermitage of sage Bhargava, was formerly known as Bhargavapuri. Some inscriptions have been found here. The village has a Channakeshava temple.

Gadihalli (Tarikere Taluk) : The village has the temples of Adi-Kalinatha and Ramanatha, besides the old shrines of Ishwara, Channakeshava, Basaveshwara, Ranganatha, Beeradeva and Masti.

Kallathipura (Tarikere Taluk) : The peak of Kalhattigiri situated in this village limits is 1,877 metres above MSL and has a shrine of Kattina Choudeshwari at the top. It is said that sage Agastya had one of his hermitages here and that he built a temple dedicated to Veerabhadra in such a way as to bridge a gap lying between two rocky mounds. The temple looks like a cave temple and has the figure of elephants in front. Water of the falls known after the name of this village, rushes forth passing over the head of these elephants and pilgrims take pleasure in bathing at this spot. The water falls here in cascades from a height of about 122 metres.

Lakkavalli (Tarikere Taluk) : Bhadra Reservoir has been built here. A place nearby called Ratnapuri is said to have once been the capital of Vajramakuta Raya, a legendary king.

Nandi (Tarikere Taluk) : The Nandi Jatra and cattle fair held in the month of October-November in honour of Shiva Sharana Nuli Chandayya, a Veerashaiva saint of the 12th century A.D., attracts a large gathering.

Somapura (Tarikere Taluk) : According to legend this was the place where Lord Parashuram washed away the last stains of blood on his axe. Somapura is regarded as one of the Panchkshetras. There is a temple dedicated to Prasanna Someshwara which was originally built in the 12th century A.D.

Sollapura (Tarikere Taluk) : The famous temple of Siddharameshwara is situated here. The presiding deity in the form of linga is often covered with the fascimilies of *trimurthi* i.e. figures representing Allama Prabhu, Siddharama and Channabasavanna, who were the associates of Basaveshwara. A 15 day long *jatra* is held here once in every 12 years.

Tigada (Tarikere Taluk) : Kemmannugundi, also called Krishnarajendra hill station, is a hamlet of Tigada village. This place commands the view of a magnificent natural scenery of the western ghats. Near about Kemmannugundi, there are a number of beauty spots and centres, like Shanti falls, Hebbe water falls, Kalahasti falls, Jagara valley sanctuary, Bababudangiri peak, Mullaiyanagiri peak, Dattatreya cave, the Bhadra reservoir and the meandering rivers Tunga and Bhadra. Iron ore is mined nearby and carried down by a rope way.

Places of interest in and around the towns of the district :

Ajjampura

This town, known as Azimpura during the Mughal period, derives its name from Azim Khan. Much earlier the name of the place was Keral. There are the ruins of a fort and the temples of Anjaneya, Someshwara and Keralamma. The fort, said to have been built by Bukka Raya, the Vijayanagara king and restored by Hanumappa Nayaka, a chief of Tarikere, was finally razed by Haider Ali in 1761. A fair held here for 6 days every April is an important event in this neighbourhood. Sri Shankarananda Swamiji has founded a spiritual centre here for the propagation of the teachings of Bhagvad Gita.

Birur

According to an inscription of 1063 A.D. found here this place was known in the past as Beeravura. There are several temples, the most important being that of Beeradevaru. Birur, a railway junction, is a noted centre of trade, commerce and communications but does not have any places of tourist interest.

Chikmagalur

Chikmagalur, the district headquarters town is situated south of Bababudan range in a fertile valley. The literal meaning of the name of the town is 'Younger daughter's town'. The name *Kiriya Mugali* has been used in many inscriptions, the earliest being that of 899 A.D. Hiremagalur, referred to as *Piriya or Hiriya* Mugali in inscriptions is adjacent to this town. Many inscriptions, Virgals and *Mastikals* have been found here. One Mastikals, which is ascribed to the 17th century, has a figure of a soldier holding a gun and a sword. The town is an important centre of coffee trade in the country and is a health resort.

Kadur

This was a Jaina settlement during the period of the Gangas. Though the local temple of Ishwara and Anjaneya are structures of the 17th century A.D., the idols enshrined and the pillars are of Hoysala and Rashtrakoota period and these are of excellent workmanship.

Koppa

The town has an old temple of Veerabhadra, the outer walls of which have sculptural representations of *Shiva Leelas*.

Kudremukh Mines area township

Because of the large-scale iron ore mining taken up recently in the area of Kudremukh hill range, this new township has come up within the limits of Samse village. This town is linked by newly formed road with New Mangalore Port on the west coast.

Mudigere

The town has several temples and ancient inscriptions. The temples of Rameshwara and Lakshminarayana are of some importance.

Narasimharajapura

Known as Yedehally, the town was re-named in 1915 in honour of the visit of the then Yuvaraja of Mysore. This is a noted place of Pilgrimage, for the Jains and is one of the eleven centres of Jaina Bhattarikas surviving in the country at present. The traditional name of Bhattarikas of this place is Lakshmisena. At Singanagadde nearby there are three Jain Basadis and a Matha.

Tarikere

This place of antiquity was known as Amaravatipura and was an *agrahara* in the 12th century A.D. The local temples of Keshava and Subramanya have traces of Hoysala workmanship.

Sringeri

Sringeri, situated on the banks of Tunga river, was formerly known as Rishyashrungagiri, after the legendary sage Rishyashrunga, son of sage Vibhandaka. Later it came to be called Shringagiri and then corrupted into Sringeri. It has gained fame throughout the country because of the *Matha*, one of the Chaturmanyas i.e. the four cardinal mathas, established here by Adi Shankaracharya, the propounder of the Advaita Philosophy. In the precincts of the Matha there are the beautiful temples of Sri Sharadamba and Vidya Shankara besides those of Janardhana and several samadhi-gudis, mostly built on the tombs of former pontiffs of the Matha. The temple of Mallikarjuna known as Malahanikareshwara located on a small hillock in the town as also that of Venkataramana and the Jain Basadi are of considerable interest. These temples are real treasures of art and architecture that enthral the ordinary tourist and the devout pilgrim alike. Close to Sringeri the other places of tourist interest are the Rishyasringeshwara temple at Kigga (Rishyasringapura) and Agumbe the renowned spot from where one can have an enthralling view of the sunset during the fair season.

xiii) Scope of Village Directory and Town Directory

Village Directory

Village Directory provides micro-level data which will help the planners in formulation of micro-level developmental plans as the C.D.Block is the lowest administrative unit for developmental planning. Village wise information regarding the availability of certain basic amenities and facilities within the village, as also that on the manner of utilization of the land in the concerned village are furnished in the village directory. The village directory format adopted for the 2001 Census has 23 columns whereas in the 1991 Census there were only 18 columns. When compared with the 1991 Census Village Directory format, column 9 which refers to the day or days of weekly market/ hat if any has been now left out. New inclusions are in respect of facilities like banks, agricultural credit societies, non-agricultural credit societies, other cooperative societies, number of recreational and cultural facilities like cinema/video hall, sports club, stadium/auditorium; receipt of news papers/magazines and the name of the most important commodities manufactured in the village. In all the 23 columns in this tabulation statement, first 3 columns relates to serial number, name of the village with location code and area of village while the next 2 provide information on total population and number of households in the village as per 2001 Census. The next 8 columns relate to basic amenities such as educational; medical; drinking water (potable); post, telegraph and telephone, commercial and cooperative banks, agricultural, non-agricultural and other credit societies, number of recreational and cultural facilities such as cinema/ video hall, sports club and stadium/auditorium and communications (bus service, railway station, waterway). Information in respect of approach to village, nearest town and distance in Kms., power supply, receipt of news paper/magazine, names of the most important commodities manufactured in the village are furnished in columns 14 to 18. Amenities

available within the villages are shown in the respective columns and if a particular amenity especially Primary School, Middle School, College, Allopathic Hospital, PHC, MCW, Post Office, Telephone, etc., is not available in the village, the respective abbreviation is given and next to it in brackets the distance in broad ranges viz., <5 kms., 5-10 kms. and 10+ kms. of the nearest place where the facility available to that particular village is indicated. The next 5 columns, 19 to 23 provide information regarding land use (i.e., area under different types of land use in hectares rounded to two decimal places) such as forest, irrigated land by source of irrigation, un-irrigated, cultivable waste (including gauchar and groves) and finally the area not available for cultivation.

Town Directory

The Town Directory section contains seven statements (I to VII) which furnish information on all the statutory towns in the district, on aspects such as growth history, physical aspects and location of towns, municipal finance, civic and other amenities in the town, medical, educational, recreational and cultural facilities, trade, commerce, industry and banking in the towns, civic and other amenities in slum areas of the town. The scope of the various column headings adopted during 1991 Census has remained unchanged in 2001.

Note :

1. The area figure for the district given under column No 3 against "Total" represents "Geographical Area" and has been furnished by the Surveyor General India. The figures for the urban areas are either those supplied by civic administration authorities of the towns or compiled and supplied by the Director of Survey, Settlement and Land Records or compiled in this Directorate on the basis of the available records pertaining to the delimitation of urban units. Area figures for Rural Areas are derived by subtracting the Total Urban Area from the Total Area of the District.

The total of the area figures of all the C.D. Blocks/Taluks in this district will not tally with the district figures (except urban), because the area figures for C.D. Blocks/Taluks represents the land-use area based on village wise area figures as reported by the local officers. The total area of the taluk may not tally with the aggregate of the areas of the villages listed for Census purposes for it includes the area of the statutory as well as non-statutory towns, villages which may be fully submerged and reserve forests which may not form part of any revenue village, if any, within the jurisdiction of the concerned taluk. The total area of the C.D. Block is derived by subtracting the area of the statutory town or towns (within the jurisdiction of the concerned taluks) from the total area of the taluk.

2. Out growths of towns in urban agglomerations are denoted by letter "OG".

3. The following abbreviations have been used to indicate the Civic Administration Status of town.

M.Corp	:	*Municipal Corporation*
CMC	:	*City Municipal Council*
TMC	:	*Town Municipal Council*
TP	:	*Town Panchayat*
NAC	:	*Notified Area Committee*
CB	:	*Cantonment Board*
CT	:	*Census Town (Non-Municipal Census Town / Non-Statutory Town)*

SECTION – I

VILLAGE DIRECTORY

(a) NOTE EXPLAINING THE ABBREVIATIONS USED IN THE VILLAGE DIRECTORY

The "Village Directory" is one of the traditional compilations of the Census. It gives the list of villages, their location numbers, their area, population, number of households, amenities such as educational, medical, drinking water, post and telegraph, commercial and cooperative banks, agricultural non-agricultural and other credit societies, recreational and cultural facilities, communication, approach to village, nearest town with a distance, power supply availability of newspaper and magazines, most important commodity manufactured and land use of each village.

Village is a statutory recognized unit having a definite boundary and separate land records. In case, a complete village is treated as an outgrowth of urban agglomeration, data on amenities for that village, have not been given in the Village Directory but shown along with the urban component. The villages which are considered as a Census Town , the amenities data are shown in the Town Directory. For those villages which have partly merged in an outgrowth of U.A., the amenities data are shown in the Village Directory for that particular village.

The 'uninhabited' villages (villages with no population) have been indicated as such after furnishing details in columns 1 to 3 i.e., Serial number, Name of village & location code number and area of the village against column no. 4 to 18. The land use data for such villages are shown in col. 19 to 23

.The Village Directory format has 23 columns and the details given under each column are as follows :

Columns 1 : Serial Number

Self explanatory. All the villages within the CD Block are presented serially in the ascending order of their location code number.

Columns 2 : Name and Location Code Number of village

The name and location code number of the village are shown against these columns. This also includes the forest and un-inhabited villages.

Column 3 : Area of the village

The area of the village in hectares are given. Wherever the area figures was not furnished by the concerned department the column is left blank.

Column 4 : Total population

The total population of the village as per 2001 Census is given against this column.

Column 5 : Number of households

The number of households as per 2001 Census is given in this column.

Amenities :

In column 6 to 23, availability in respect of different amenities such as education, medical, drinking water, post, telegraph, banks, credit societies, communication, power, approach road etc. in each village has been depicted with appropriate codes against the column concerned. Wherever the amenities are not available in the village, a dash (-) is shown in the column and next to it in brackets the distance in broad ranges viz.< 5 kms., 5-10 kms. and 10+ kms. of the nearest place where the facility is available is given. Column wise details are given below :

Column 6 : Educational

Classes upto class IV included in Primary School. This will include nursery school, kindergarten school. Pre-basic school, pre-primary school, junior basic school upto class IV.

Classes from V to VII are included in the middle school.

Classes from VIII to X included in Higher secondary school. Classes XI and XII are treated as equivalent to Pre-University Course.

In case of composite schools like middle school with primary school or secondary school with middle school, these are also included in the number of primary and middle schools, respectively.

Accordingly any of the following types of institutions if exists within the village is shown as per codes given below :

(i)	Primary School	P
(ii)	Middle School	M
(iii)	Secondary School	S
(iv)	Senior Secondary School	PUC
(v)	College	C
(vi)	Industrial School	I
(vii)	Training School	Tr
(viii)	Adult literacy class/centre	AC
(ix)	Others (specify) e.g. Sanskrit Pathshala, Senior basic school, Navodaya Vidyalaya, Makhtab,etc.	O

More than one institution of a type in the village is indicated by the number within brackets against the abbreviation, e.g. P(3), M(4), etc.

Column 7 : Medical

Availability of medical facility within the village is indicated by following codes :

(i)	Allopathic Hospital	H
	Ayurvedic Hospital	HA
	Unani Hospital	HU
	Homeopathic Hospital	H Hom
(ii)	Allopathic Dispensary	D
	Ayurvedic Dispensary	DA
	Unani Dispensary	DU
	Homeopathic Dispensary	D Hom
(iii)	Maternity & Child Welfare	MCW
(iv)	Maternity Home	MH
(v)	Child Welfare Centre	CWC
(vi)	Health Centre	HC
(vii)	Primary Health Centre	PHC
(viii)	Primary Health SubCentre	PHS
(ix)	Family Welfare Centre	FWC
(x)	T.B. Clinic	TB
(xi)	Nursing Home	NH
(xii)	Registered Private Medical Practitioner	RMP
(xiii)	Subsidised Medical Practitioner	SMP
(xiv)	Community Health Worker	CHW
(xv)	Others	O

More than one institution of a type in the village is indicated by the number within brackets against the abbreviations, e.g. H(3), D(4), etc.

Column 8 : Drinking Water

The type of the drinking water supply sources available within the village are indicated by codes as follows :

(i)	Tap Water	T
(ii)	Well Water	W
(iii)	Tank Water	TK
(iv)	Tubewell Water	TW
(v)	Hand pump	HP
(vi)	River Water	R
(vii)	Canal	C
(viii)	Lake	L
(ix)	Spring	S
(x)	Others	O
(xi)	Summer Source	SS

Column 9 : Post, Telegraph and Telephone

It is indicated by codes as shown below whether within the village exists the following amenities:

(i)	Post Office	PO
(ii)	Telegraph Office	TO
(iii)	Post & Telegraph Office	PTO
(iv)	Telephone Connection	PH

Column 10 : Commercial and Co-operative Banks

If the village is served by any banking service, commercial bank, co-operative bank etc. the same is indicated in codes mentioned below along with the number of banks in brackets. If not available the distance of nearest place where the facility exist is given:

(i)	Commercial Bank	CM
(ii)	Co-operative Bank	CP

Column 11 : Credit Societies

If the village enjoys the services of Credit Societies i.e. Agricultural Credit Societies, Non- Agricultural Credit Society or Other Credit Societies, the same is indicated in codes mentioned below along with the number of such societies in brackets. In case the facility is not available within the village the distance of the nearest place where such facility exist is given :

(i)	Agricultural Credit Society	ACS
(ii)	Non Agricultural Credit Society	NCS
(iii)	Other Credit Society	OCS

Column 12 : Recreational and cultural facilities

If facilities such as Cinema/Video hall, Sports Club, Stadium/Auditorium is available in the village, the same

is recorded in these columns. If not available the particulars of the nearest place with the facility is recorded. The information is indicated in codes mentioned below along with the number of such facilities in brackets:

(i)	Cinema / Video Hall	CV
(ii)	Sports Club	SP
(iii)	Stadium / Auditorium	ST

Column 13 : Communications

If the village is served by any mode of public / private transport like Bus, Railway station or Navigable water ways they are mentioned as follows:

(i)	Bus	BS
(ii)	Railway Station	RS
(iii)	Navigable Waterway	NW

Column 14 : Approach to village

Approach to village refers to the state of road leading to village. The approach to the village is indicated in following codes :

(i)	Paved Road	PR
(ii)	Mud road	MR
(iii)	Foot path	FP
(iv)	Navigable River	NR
(v)	Navigable Canal	NC
(vi)	Navigable waterways other than River, Canal	NW

Column 15 : Nearest Town and distance

The distance is given in kilometers in brackets against the name of the town nearest to the village.

Column 16 : Power supply

Availability of Power Supply in the village, whatever may be the form of its use is given by using following codes :

(i)	Electricity for domestic use	ED
(ii)	Electricity for agricultural use	EAG
(iii)	Electricity for other purposes	EO
(iv)	Electricity for all purposes	EA

Column 17 : News Paper / Magazine

If the village receives any News Paper/Magazines, the same is noted in this column using following codes :

(i)	News Paper	N
(ii)	Magazine	M

Column 18 : Most important commodities manufactured

The name of three most important commodities manufactured in the village is recorded against this column.

Column 19 to 23 : Land use i.e. area under different types of land use

Land use data maintained by the State/ UT Govts. are furnished against these columns. The data concerning area under Forest, Irrigated land (by source), Unirrigated land, Culturable waste and Area not available for cultivation in the village are shown against these columns. The area figures are given in hectare(s) up to one decimal. Desh '' is recorded wherever the information is not made available by the concerned department. The codes used for different types of irrigation facilities available in the village are indicated below:

(i)	Government Canal	GC
(ii)	Private Canal	PC
(iii)	Well (without electricity)	W
(iv)	Well (with electricity)	WE
(v)	Tubewell(without electricity)	TW
(vi)	Tubewell(with electricity)	TWE
(vii)	Tank	TK
(viii)	River	R
(ix)	Lake	L
(x)	Waterfall	WF
(xi)	Others	O
(xii)	Total	T

The village directory also carries the following appendices.

Appendix-I	It gives the abstract of educational, medical and other amenities available in villages C D Block wise of the district.
Appendix-I-A	Indicates number of villages C D Block wise having one or more primary schools.
Appendix-I-B	Indicates number of villages C D Block wise having primary, middle and secondary schools.
Appendix-I-C	Shows number of villages C D Block wise with different sources of drinking water fa cilities.
Appendix-II	Indicates the list of villages with 5,000 and above population which do not have one or more important amenities.
Appendix-II-A	Indicates list of Census Towns which do not have one or more amenities.
Appendix-III	It gives the land utilization data in respect of Census Towns / non-municipal Towns.
Appendix-IV	C D Block wise list of inhabited villages where no amenity other than drinking water facility is available.
Appendix-V	Summary showing number of villages not having Scheduled Castes population.
Appendix-VI	Summary showing number of villages not having Scheduled Tribes population.
Appendix- VII-A, VII-B	The appendix shows the list of villages according to proportion of the Scheduled Castes and Scheduled Tribes to the total population by ranges.
Appendix-VIII	Indicates C D Block wise number of villages under each Grama Panchayat.
Appendix-IX	Shows number of different types of girls school in a village.

(b) LIST OF MERGED VILLAGES IN TOWNS AND OUTGROWTHS AT 2001 CENSUS (AREA IN HECTARES 0.00)

SECTION - II

TOWN DIRECTORY

(a) NOTE EXPLAINING THE ABBREVIATIONS USED IN THE TOWN DIRECTORY

Town Directory Statements (I to VII)

Statement I : Status and Growth History

Column (2) : Class, name and civic administration status of town :

Class has been introduced to facilitate analysis of town directory data at the state and all India levels. It is presented according to 2001 Census Population of the town as follows :

Population	Class
100,000 and above	I
50,000 - 99,999	II
20,000 - 49,999	III
10,000 -19,999	IV
5,000 - 9,999	V
Below 5,000	VI

Town with a population of one hundred thousand (1,00,000) and above is treated as a city.

The civic administration status of the towns is indicated within bracket against the name of the town. The following abbreviations are used to denote civic status of town.

(i)	Municipal Corporation	M.Corp.
(ii)	Municipal Committee	MC
(iii)	Municipal Council	MC
(iv)	City Municipal Council	CMC
(v)	Town Municipal Council	TMC
(vi)	Municipal Board	MB
(vii)	Municipality	M
(viii)	Cantonment Board/Cantonment	CB
(ix)	Notified Area	NA
(x)	Notified Town	NT
(xi)	Notified Area Committee/ Notified Area Council	NAC
(xii)	Notified Town Area	NTA
(xiii)	Industrial Notified Area	INA
(xiv)	Industrial Township	ITS
(xv)	Township	TS
(xvi)	Town Panchayat	TP
(xvii)	Nagar Panchayat	NP
(xviii)	Town Committee/Town Area Committee	TC
(xix)	Small Town Committee	ST
(xx)	Estate office	EO
(xxi)	Grama Panchayat	GP
(xxii)	Census Town	CT

Others columns need no comments.

Statement II : Physical Aspects and Location of towns, 1999

Column 3 to 5 : Physical Aspects

In this columns the Rainfall and Maximum & Minimum Temperature of the town is recorded.

Column 6, 7 and 8 :

Name of the State headquarters, District headquarters and Sub-Divisional headquarters with distance from the referent town in kilometers, is to be recorded respectively. If the names mentioned in these columns are the same as the referent town itself, the distance is recorded as (0) zero.

Column 9 & 10 :

Name of the nearest city with one lakh and more and five lakhs and more population are recorded.

Column 11, 12 and 13 :

If referent town enjoys the facility of railway station, bus route facility or navigable river/canal. Its name is to be mentioned. If not available, then the name of nearest place with distance, where such facility exists is to be mentioned.

Statement III : Municipal Finance 1998 – 1999

Itemwise amount of receipt andexpenditure in thousand rupees, relating to municipal finance of the town for the year 1998-99 is to be recorded.

Statement IV : Civic and Other amenities, 1999

Column (1 to 5) : Self explanatory

Column (6) : Road length (in kms.)

Information about kutcha / pucca road is to be recorded separately for the roads within the limits of the referent town.

(i)	Pucca Road	PR
(ii)	Kutcha Road	KR

Column (7) : System of Sewerage

Generally, by sewerage system is implied the network of mains and branches of underground conduits for the conveyance of sewerage to the point of disposal. Sewers that carry only household and industrial wastes are called separate sewers, those that carry storm water from roofs, streets and other surface are known as storm water drains, while those carrying both sewage and storm water are called combined sewers.

The codes used for different types of drainage system are as follows :

(i)	Sewer	S
(ii)	Open Surface Drains	OSD
(iii)	Box Surface Drains	BSD
(iv)	Sylk Drains	SD
(v)	Cesspool method	CP
(vi)	Pit System	Pt
(vii)	Others	O

Column 8 to 11 : Number of latrines

Number of various types of latrines both Public and Private are given in these columns.

Column 12 : Method of disposal of night soil

The various prevalent method of disposal of night soil are given below with codes :

Head Loads	HL
Basket	B
Wheel Barrows	WB
Septic Tank	ST
Pit System	Pt
Sewerage	S
Others	O

Column 13 and 14 : Water supply

Source and capacity of storage system. The following codes are used in these columns:

Column 13 :

(i)	Tap water	T
(ii)	Tubewell water	TW
(iii)	Tank Water	TK
(iv)	Well water	W

Column 14 :

(v)	Over Head Tank	OHT
(vi)	Service Reservoir	SR
(vii)	River Infiltration Gallery	RIG
(viii)	Bore Well Pumping System	BWP
(ix)	Pressure Tank	PT

The information on major source of water supply are given in column 13 and the storage capacity against each in kilolitres (in bracket) are presented in column 14.

Column 15 : Fire Fighting Service

In case the fire fighting service is available in the referent town 'yes' is recorded. If the facility is not available within the town. The name of the nearest place having this facility with its distance from the referent town has been recorded.

Column 16 to 20 : Electrification (Number of connections)

Different types of electric connections have been shown in these columns, i.e. Domestic, Industrial, Commercial, Road lighting (points) & others.

Statement V : Medical, Educational, Recreational and Cultural Facilities, 1999

Column 1 to 3 : Self explanatory

Column 4 & 5 :

The data covers all such medical institutions run by or aided by Government/Semi Government/Local bodies and Charitable institutions or Social agencies like the Missionaries. Where the family planning centres are attached to hospitals or maternity and child welfare centres or Primary Health Centres, may be treated as independent units and counted separately using following codes :

(i)	Hospital	H
(ii)	Dispensary	D
(iii)	Health Centre	HC
(iv)	Family Welfare Centre	FWC
(v)	T.B. Clinic	TB

(vi)	Nursing Home	NH
(vii)	Others	O

In case of more than one institutions of any type, it is indicated within brackets the number of such institution (s) e.g. D(3), NH(8), etc. The institutions have further been distinguished by providing additional codes within the bracket as given below :

Ayurvedic	A
Unani	U
Homoeopathic	Hom

Column 6 to 9 :

The codes used for these columns are as follows :

(i)	Arts only	A
(ii)	Science only	S
(iii)	Commerce only	C
(iv)	Arts & Science only	AS
(v)	Arts & Commerce only	AC
(vi)	Combined for all categories Arts, Science and Commerce	ASC
(vii)	Law	L
(viii)	University	U
(ix)	Others	O

Column 10 : Recognized shorthand, typewriting and vocational training institutes

"Recognised" should mean recognised by some statutory authority, like education department, commerce department, labour department etc. of the government or semi government or autonomous bodies, public sector undertakings etc.

The following codes are used :

(i)	Vocational Training Institute	VT
(ii)	Shorthand	SH
(iii)	Typewriting	Type
(iv)	Shorthand & Typewriting	SH Type
(v)	Others	O

The vocational institutions like Applied Art/ Painting college, Pharmacy college, B. Ed. College, Teacher's Training Institute, Music / Dance School, Nursing School etc. are covered under 'Others'.

Column 11 to 14 : Higher Secondary / Intermediate/ Senior Secondary / PUC / Junior College level, Secondary/Matriculation, Middle Schools/ Junior Secondary and Primary Schools.

School up to class V are treated as Primary or elementary schools. These include Nursery schools, Kindergarten schools, PrePrimary schools, Junior Basic schools upto class V and Primary schools upto class IV.

Schools upto VIII are considered as Middle school or Junior Secondary.

Schools upto class X are considered as Matriculation or Secondary schools.

Schools upto XI or XII classes are considered as Higher Secondary / Intermediate/ Pre University / Junior College etc. This would cover 10+2 classes whether held in schools or college.

If there are composite schools like middle schools with primary classes or Secondary schools with Middle classes, these are also included in the number of Primary and Middle schools, respectively. For example, if in a town, there are two Primary Schools and one Middle school with Primary classes, the number of Primary schools in the town is given as three and that of Middle schools as one though there are only three educational institutions.

If there are more institutions of a type in the town, the number is indicated within bracket along with the abbreviation, e.g. P(4), M(3).

Column 15 : Adult literacy class/centres

This column has been introduced keeping in view the Minimum Needs Programme of the Planning Commission. There are number of Adult Education Centres which are included in these columns.

If an educational facility is not available in the town, the name of the nearest place and its distance in kilometres from the town where the facility is available is mentioned.

Column 16 : Working Women's hostels with number of seats

The number of working women's hostel if available in the referent town is mentioned with number of seats. If the facility is not available in the town the name of nearest place with distance where the facility is available is recorded.

Column 17 to 19 : Recreational and Cultural Facilities

Stadium, Cinema, Auditorium/Drama/ Community Hall are covered under recreational & cultural

facilities. The particulars of permanent recreational facilities are considered for these columns.

Column 20 : Public Libraries, Reading Rooms

Number of public libraries and reading rooms available in the referent town are recorded in codes as follows :

(i)	Public Library	PL
(ii)	Reading room	RR

Statement VI : Trade, Commerce, Industry and Banking, 1999

Column 3 to 8 :

Name of three most important commodities exported and names of three most important commodities manufactured in the town are recorded.

Column 9 : Number of Banks

Number of Banks available in the referent town both Commercial and Cooperative banks are recorded against this column.

Column 10 & 11 : Number of Agricultural Credit Societies and Non Agricultural Credit Societies

The total number of Agricultural Credit Societies and Non Agricultural Credit Societies in the referent town are recorded against these columns.

Statement VII : Civic and other Amenities in Slums, 1999

This is the statement on civic and other amenities in all slums whether notified or not and for all towns having statutory bodies, like municipality, Municipal Corporation, Town area committee etc.

		Nil		

(b) Brief note on Primary Census Abstract

The first census of the third millennium and twenty first century the Census of India, 2001 was the 14th continuous and uninterrupted Indian census since 1872. Thus, 2001 Census will provide data on population and its characteristics marking transition from one century and millennium to another.

The gigantic operation of Population Enumeration (considered by many to be the single largest and complex peace time administrative exercise in the world) was made possible due to the door to door universal canvassing of the Household Schedule by about 2 million enumerators and supervisors covering 593 districts, 5,463 sub-districts, 5,161 towns and 638,588 villages. The comprehensive Household Schedule which replaced the individual slip had three parts and two sides A and B. Part I contained the Location Particulars; Part II related to the Individual Particulars and Part III contained questions for Household engaged in Cultivation/Plantation. The part II of the Household Schedule had 39 columns and 23 questions all of which were universally canvassed and no sampling was resorted to during enumeration.

Data Processing

A quantum leap was made in the technology front while processing the Census 2001 data both for Houselisting and Population Enumeration. The Census schedules for both the phases were scanned through high speed scanners in fifteen data centers across the country and hand-written data from the schedules were converted into digitized form through Intelligent Character Reading (ICR) software for creation of ASCII records for further processing. The designing and formatting of the Household Schedule had to be done very carefully using specialized software so as to ensure uniformity, which was an essential pre-requisite for scanning. The selection of appropriate state-of-art technology in data processing has made it possible to produce all the Houselisting as well as Population Enumeration tables on full count basis for the first time in the history of Census. For Census 2001, about 202 million schedules consisting of about 1,028 million records were scanned and processed within a span of only 10 months starting October, 2002.

Task Force on Quality Assurance

After the data is processed, it is expedient on the part of the data producing agency to satisfy itself about its quality before putting the same in public domain. This has to be done mainly through the process of internal consistency, comparison with similar data in the past and also through validation with likewise data if available, from external sources. Quite often the local knowledge and perception has to be brought into play to understand both the existing and the new emerging trends of population distribution and characteristics. The other very important aspect of the data quality is to ensure complete coverage of all geographical areas especially for the population enumeration phase where the data is disseminated right up to the village level in the rural areas and the ward level in the urban areas. Thus ensuring the complete coverage and correct geographical linkage of each enumeration block was one of the major planks of the quality control, specially for small area population statistics.

A very comprehensive check and edit mechanism was put in place to objectively examine the preliminary Census 2001 Population Enumeration results and finally clear them for use. The responsibility of the final clearance of data was with the Task Force on Quality Assurance (TFQA), headed by the Registrar General and Census Commissioner, India. The other members of the TFQA were the Heads and senior officers of the Census Division, Data Processing Division, Map Division, Demography Division and Social Studies Division. The Directors of Census Operations were co-opted as members whenever the TFQA discussed the data for their States/Union territories. The Directors and their senior officers were required to make detailed presentations of data for their own state both in respect to the quality and the coverage and only after the full possible cleared.

There has been a major departure in Census 2001 from the past in respect of the procedure followed

for finalization of the Scheduled Castes and the Scheduled Tribes population. In the earlier censuses, the total Scheduled Castes and Scheduled Tribes populations were finalized at the time of the manual compilation of the Primary Census Abstracts (PCA) at the Regional Tabulation Offices which were specially set up for this purpose. The individual Scheduled Castes and the Scheduled Tribes population for each state was finalized much later based on manual coding done by the coders. In 2001 Census, each individual Scheduled Caste and the Scheduled Tribe have been coded directly on the computers by the Data Entry Operators through a process known as Computer Assisted Coding (CAC) and taken up along with the processing of PCA data. The CAC process involves pulling down, from the relevant dictionary of the Scheduled Castes and the Scheduled Tribes, on the computer screen and coding from the dictionary by referring to the image of the specific individual entry in the Household Schedule appearing on the screen. The CAC of the response on Religion wherever required, was also undertaken along with the processing of PCA. This is because the Scheduled Castes status had to be determined in relation to the religion of the individual. Two Special Task Forces, one on Religion and the other on Scheduled Castes/ Scheduled Tribes were constituted for scrutiny and appropriate classification of these responses.

The main task of the Special Task Force on Religion was to appropriately merge or group the new responses encountered and code it into the appropriate religious community based on available literature and local knowledge. The Special Task Force on Scheduled Castes and Scheduled Tribes examined the different Scheduled Castes and Scheduled Tribes entries encoun-tered and classified these into appropriate category of the Scheduled Castes or the Scheduled Tribes principally based on the Presidential Notification and the available literature. Thus a very systematic and scientific mechanism was operationalised to firm up the individual religion and the individual Scheduled Castes/Tribes returns. The Scheduled Castes and the Scheduled Tribes population in 2001 Census, is thus being finalized by aggregating the population data for individual Scheduled Castes and the Scheduled Tribes at appropriate geographical levels.

The entire work relating to the data validation and scrutiny was completed by all the States/Union Territories under the overall supervision and monitoring of the Census Division of the Office of the Registrar General, India with active cooperation and support of the Social Studies Division, Data Processing Division, Data Dissemination Division and Map Division.

Primary Census Abstract

The Primary Census Abstract which is yet another important publication of 2001 Census gives basic information on Area, Total Households, Total population, Scheduled Castes, Scheduled Tribes population, Population in the age group 0-6, Literates, Main workers and Marginal workers classified by the four broad industrial categories, namely, (i) Cultivators, (ii) Agricultural laborers, (iii) Household Industry Workers, and (iv) Other workers and also Non-workers. The characteristics of the Total population includes Scheduled Castes, Scheduled Tribes, Institutional and Houseless population and are presented by sex and rural-urban residence. This data is presented at different levels, namely, India, States/Union territories, Districts and Cities, Urban Agglomerations (Population 1,00,000 and above) in three different tables. In addition, the Appendix of said publication provides Houseless and Institutional Households and their population by residence and sex for 2001 for India, State and Union territory.

Apart from the India and State/Union Territory volumes for Primary Census Abstract, the District Census Handbook contains District Primary Census Abstract, Appendix to District Primary Census Abstract, Primary Census Abstract for Scheduled Castes, Primary Census Abstract for Scheduled Tribes, Village Primary Census Abstract and Urban Primary Census Abstract of the concerned district in the state.

It was for the first time at the 1981 Census that the Primary Census Abstract (PCA) was brought out for the Scheduled Castes and the Scheduled Tribes separately on the pattern of General Primary Census Abstract. This practice was continued in 1991 also. In the 1961 and 1971 Censuses, such data were made available in Table C-VIII-Social and Cultural table and to some extent in the series 'Special Tables for Scheduled Castes/Scheduled Tribes'.

The format of Primary Census Abstract has been

restructured slightly in the 2001 Census as compared to that of 1991 Census. The nine-fold industrial classification of main workers given in the Primary Census Abstract of 1991 Census has been discontinued and its place, four-fold industrial classification of both 'main workers' and 'marginal workers' are included. In 1981 census only main workers were presented in to four categories. One of the novel features of the primary census abstract of 1991 Census was the presentation of data of the population of age group 0-6 is continued in 2001 Census also. This will help the data users in better analysis and understanding of this literacy data.

Level of presentation in District Census Handbooks:

The Primary Census Abstract data in different PCAs are presented at different levels. The level of presentation of Primary Census Abstracts are as under:

Name of the Primary Cenus Abstract	Level of presentation
1. District Primary Census Abstract	District/CD Block/ UA/City/Town
2. Primary Census Abstract for Scheduled Castes	District/CD Block/ Town
3. Primary Census Abstract for Scheduled Tribes	District/CD Block/ Town
4. Village Primary Census Abstract	CD Block/Village wise
5. Urban Primary Census Abstract	Town/Ward Level

The PCA Data for villages was presented CD Block wise for the first time in 1991 Census. This practice is continued in 2001 Census also. The data for each CD Block is presented both for rural and urban areas separately. All the villages within the CD Block constitute the rural portion and the Census Towns and Outgrowths are shown under the urban portion of the CD Block. In case a CD Block is spread over two or more districts, than portion which falls within the district is presented, the data pertaining to remaining portion of the CD Block is presented in the concerned District Census Handbook. The data in the Urban Primary Census Abstract for each town as well as for town with outgrowths in the district are presented. The data for all the wards and the outgrowths of the town(s) are also presented separately below the concerned town(s).

The District Primary Census Abstract is presented in 59 columns. The Primary Census Abstract for Scheduled Castes and Primary Census Abstract for Scheduled Tribes are presented in 52 columns. The Village Primary Census Abstract and Urban Primary Census Abstract are presented in 58 columns.

The concepts and definitions used in the column heading are explained under the sub heading 'Census Concepts' in the Analytical Note. The term 'Total Population' includes the Scheduled Castes, the Scheduled Tribes, the Institutional and the Houseless populations. The explanation regarding area figures presented at various level in the Primary Census Abstracts are as follows:

Area Figures

The area figures supplied by local revenue authorities of the district in respect of taluks, Police Stations and by the local bodies in respect of towns are given in square kilometers. The area figures of the villages supplied by the Tahsildars in acres have been converted and shown in hectares. The area figures of the CD Block is the total of the village areas coming under each CD Block. The area figures for the district are the same as adopted by the Surveyor General of India to maintain uniformity at the national level. The total area figures of all the taluks/CD Blocks within the district may not tally with area figures of the district because former represents land use area only. Similarly, the total of all the villages may not tally with the entire rural of Police Station/ Taluk. The difference may be due to the fact that while the area covered by hills, forests and rivers etc, have been accounted in the Taluks and P.S. level the same may not be covered under the area of the villages. Apart from this it may also differ due to varying methods of computation adopted at different levels.

An appendix to District Primary Census Abstract has also been furnished showing urban enumeration block-wise particulars on Total Population, the Scheduled Castes Population and the Scheduled Tribes Population for each town.

(b) Brief note on Primary Census Abstract

The first census of the third millennium and twenty first century the Census of India, 2001 was the 14th continuous and uninterrupted Indian census since 1872. Thus, 2001 Census will provide data on population and its characteristics marking transition from one century and millennium to another.

The gigantic operation of Population Enumeration (considered by many to be the single largest and complex peace time administrative exercise in the world) was made possible due to the door to door universal canvassing of the Household Schedule by about 2 million enumerators and supervisors covering 593 districts, 5,463 sub-districts, 5,161 towns and 638,588 villages. The comprehensive Household Schedule which replaced the individual slip had three parts and two sides A and B. Part I contained the Location Particulars; Part II related to the Individual Particulars and Part III contained questions for Household engaged in Cultivation/Plantation. The part II of the Household Schedule had 39 columns and 23 questions all of which were universally canvassed and no sampling was resorted to during enumeration.

Data Processing

A quantum leap was made in the technology front while processing the Census 2001 data both for Houselisting and Population Enumeration. The Census schedules for both the phases were scanned through high speed scanners in fifteen data centers across the country and hand-written data from the schedules were converted into digitized form through Intelligent Character Reading (ICR) software for creation of ASCII records for further processing. The designing and formatting of the Household Schedule had to be done very carefully using specialized software so as to ensure uniformity, which was an essential pre-requisite for scanning. The selection of appropriate state-of-art technology in data processing has made it possible to produce all the Houselisting as well as Population Enumeration tables on full count basis for the first time in the history of Census. For Census 2001, about 202 million schedules consisting of about 1,028 million records were scanned and processed within a span of only 10 months starting October, 2002.

Task Force on Quality Assurance

After the data is processed, it is expedient on the part of the data producing agency to satisfy itself about its quality before putting the same in public domain. This has to be done mainly through the process of internal consistency, comparison with similar data in the past and also through validation with likewise data if available, from external sources. Quite often the local knowledge and perception has to be brought into play to understand both the existing and the new emerging trends of population distribution and characteristics. The other very important aspect of the data quality is to ensure complete coverage of all geographical areas especially for the population enumeration phase where the data is disseminated right up to the village level in the rural areas and the ward level in the urban areas. Thus ensuring the complete coverage and correct geographical linkage of each enumeration block was one of the major planks of the quality control, specially for small area population statistics.

A very comprehensive check and edit mechanism was put in place to objectively examine the preliminary Census 2001 Population Enumeration results and finally clear them for use. The responsibility of the final clearance of data was with the Task Force on Quality Assurance (TFQA), headed by the Registrar General and Census Commissioner, India. The other members of the TFQA were the Heads and senior officers of the Census Division, Data Processing Division, Map Division, Demography Division and Social Studies Division. The Directors of Census Operations were co-opted as members whenever the TFQA discussed the data for their States/Union territories. The Directors and their senior officers were required to make detailed presentations of data for their own state both in respect to the quality and the coverage and only after the full possible cleared.

There has been a major departure in Census 2001 from the past in respect of the procedure followed

for finalization of the Scheduled Castes and the Scheduled Tribes population. In the earlier censuses, the total Scheduled Castes and Scheduled Tribes populations were finalized at the time of the manual compilation of the Primary Census Abstracts (PCA) at the Regional Tabulation Offices which were specially set up for this purpose. The individual Scheduled Castes and the Scheduled Tribes population for each state was finalized much later based on manual coding done by the coders. In 2001 Census, each individual Scheduled Caste and the Scheduled Tribe have been coded directly on the computers by the Data Entry Operators through a process known as Computer Assisted Coding (CAC) and taken up along with the processing of PCA data. The CAC process involves pulling down, from the relevant dictionary of the Scheduled Castes and the Scheduled Tribes, on the computer screen and coding from the dictionary by referring to the image of the specific individual entry in the Household Schedule appearing on the screen. The CAC of the response on Religion wherever required, was also undertaken along with the processing of PCA. This is because the Scheduled Castes status had to be determined in relation to the religion of the individual. Two Special Task Forces, one on Religion and the other on Scheduled Castes/ Scheduled Tribes were constituted for scrutiny and appropriate classification of these responses.

The main task of the Special Task Force on Religion was to appropriately merge or group the new responses encountered and code it into the appropriate religious community based on available literature and local knowledge. The Special Task Force on Scheduled Castes and Scheduled Tribes examined the different Scheduled Castes and Scheduled Tribes entries encoun-tered and classified these into appropriate category of the Scheduled Castes or the Scheduled Tribes principally based on the Presidential Notification and the available literature. Thus a very systematic and scientific mechanism was operationalised to firm up the individual religion and the individual Scheduled Castes/Tribes returns. The Scheduled Castes and the Scheduled Tribes population in 2001 Census, is thus being finalized by aggregating the population data for individual Scheduled Castes and the Scheduled Tribes at appropriate geographical levels.

The entire work relating to the data validation and scrutiny was completed by all the States/Union Territories under the overall supervision and monitoring of the Census Division of the Office of the Registrar General, India with active cooperation and support of the Social Studies Division, Data Processing Division, Data Dissemination Division and Map Division.

Primary Census Abstract

The Primary Census Abstract which is yet another important publication of 2001 Census gives basic information on Area, Total Households, Total population, Scheduled Castes, Scheduled Tribes population, Population in the age group 0-6, Literates, Main workers and Marginal workers classified by the four broad industrial categories, namely, (i) Cultivators, (ii) Agricultural laborers, (iii) Household Industry Workers, and (iv) Other workers and also Non-workers. The characteristics of the Total population includes Scheduled Castes, Scheduled Tribes, Institutional and Houseless population and are presented by sex and rural-urban residence. This data is presented at different levels, namely, India, States/Union territories, Districts and Cities, Urban Agglomerations (Population 1,00,000 and above) in three different tables. In addition, the Appendix of said publication provides Houseless and Institutional Households and their population by residence and sex for 2001 for India, State and Union territory.

Apart from the India and State/Union Territory volumes for Primary Census Abstract, the District Census Handbook contains District Primary Census Abstract, Appendix to District Primary Census Abstract, Primary Census Abstract for Scheduled Castes, Primary Census Abstract for Scheduled Tribes, Village Primary Census Abstract and Urban Primary Census Abstract of the concerned district in the state.

It was for the first time at the 1981 Census that the Primary Census Abstract (PCA) was brought out for the Scheduled Castes and the Scheduled Tribes separately on the pattern of General Primary Census Abstract. This practice was continued in 1991 also. In the 1961 and 1971 Censuses, such data were made available in Table C-VIII-Social and Cultural table and to some extent in the series 'Special Tables for Scheduled Castes/Scheduled Tribes'.

The format of Primary Census Abstract has been

restructured slightly in the 2001 Census as compared to that of 1991 Census. The nine-fold industrial classification of main workers given in the Primary Census Abstract of 1991 Census has been discontinued and its place, four-fold industrial classification of both 'main workers' and 'marginal workers' are included. In 1981 census only main workers were presented in to four categories. One of the novel features of the primary census abstract of 1991 Census was the presentation of data of the population of age group 0-6 is continued in 2001 Census also. This will help the data users in better analysis and understanding of this literacy data.

Level of presentation in District Census Handbooks:

The Primary Census Abstract data in different PCAs are presented at different levels. The level of presentation of Primary Census Abstracts are as under:

Name of the Primary Cenus Abstract	Level of presentation
1. District Primary Census Abstract	District/CD Block/ UA/City/Town
2. Primary Census Abstract for Scheduled Castes	District/CD Block/ Town
3. Primary Census Abstract for Scheduled Tribes	District/CD Block/ Town
4. Village Primary Census Abstract	CD Block/Village wise
5. Urban Primary Census Abstract	Town/Ward Level

The PCA Data for villages was presented CD Block wise for the first time in 1991 Census. This practice is continued in 2001 Census also. The data for each CD Block is presented both for rural and urban areas separately. All the villages within the CD Block constitute the rural portion and the Census Towns and Outgrowths are shown under the urban portion of the CD Block. In case a CD Block is spread over two or more districts, than portion which falls within the district is presented, the data pertaining to remaining portion of the CD Block is presented in the concerned District Census Handbook. The data in the Urban Primary Census Abstract for each town as well as for town with outgrowths in the district are presented. The data for all the wards and the outgrowths of the town(s) are also presented separately below the concerned town(s).

The District Primary Census Abstract is presented in 59 columns. The Primary Census Abstract for Scheduled Castes and Primary Census Abstract for Scheduled Tribes are presented in 52 columns. The Village Primary Census Abstract and Urban Primary Census Abstract are presented in 58 columns.

The concepts and definitions used in the column heading are explained under the sub heading 'Census Concepts' in the Analytical Note. The term 'Total Population' includes the Scheduled Castes, the Scheduled Tribes, the Institutional and the Houseless populations. The explanation regarding area figures presented at various level in the Primary Census Abstracts are as follows:

Area Figures

The area figures supplied by local revenue authorities of the district in respect of taluks, Police Stations and by the local bodies in respect of towns are given in square kilometers. The area figures of the villages supplied by the Tahsildars in acres have been converted and shown in hectares. The area figures of the CD Block is the total of the village areas coming under each CD Block. The area figures for the district are the same as adopted by the Surveyor General of India to maintain uniformity at the national level. The total area figures of all the taluks/CD Blocks within the district may not tally with area figures of the district because former represents land use area only. Similarly, the total of all the villages may not tally with the entire rural of Police Station/ Taluk. The difference may be due to the fact that while the area covered by hills, forests and rivers etc, have been accounted in the Taluks and P.S. level the same may not be covered under the area of the villages. Apart from this it may also differ due to varying methods of computation adopted at different levels.

An appendix to District Primary Census Abstract has also been furnished showing urban enumeration block-wise particulars on Total Population, the Scheduled Castes Population and the Scheduled Tribes Population for each town.

ANNEXURE – II

NOTE ON FERTILITY & MORTALITY AND MIGRATION – 1991 AND 2001 CENSUS

Fertility levels

In demography, the word fertility is used in relation to the actual production of children or 'occurrence of births specially live births'. Fertility is a measure of rate at which population adds to itself by births and normally assessed by relating number of births to size of some section of the population, such as number of married couples or number of women of child bearing age. In other words, it is a major component of population growth. In the 1991 census, questions on fertility related to age at marriage, number of surviving children at present, number of children ever born alive and children born alive during the last one year were asked. The first three questions were asked to all evermarried women and the last question related to currently married women. The measures of fertility worked out are based on the FSeries Tables of 1991 Census pertaining to Karnataka state and are defined as below:

MIGRATION

What is Migration?

Migration is the third component of population change, the other two being mortality and fertility. A person is considered as a migrant by place of birth if the place in which he is enumerated during the census is other than the place of birth. Similarly a person is considered as a migrant by place of last residence if the place in which he is enumerated during the census is other than his place of immediate last residence.

Internal and International migration

The migrational movements are of three types (i) Migration within the state itself with its components (a) Migration within the district of enumeration (intra district migration), (b) Migration from one district of state to another district of state (inter district migration), (ii) Migration from one state to another state of the country (interstate migration), (iii) Migration from one country to another country. The first two streams together constitute internal migration, while the last type of movement is called international migration.

Why people migrate?

As in 1981 census, the reasons for migration were elicited in 1991 and 2001 census also. The reasons for migration were broadly categorized as (1) employment (2) business (3) education (4) family moved (5) marriage (6) natural calamities like drought, floods etc. and (7) other reasons. Reasons for migration have been elicited only with reference to movement from place of last residence.

Impact of migration

Growth of population of a particular place depends upon natural increase due to excess of births over deaths and migration. Knowledge of trends in migration helps in future planning of a region.

ANNEXURE III

VARIOUS MEASURES OF FERTILITY AND MEAN AGE AT MARRIAGE, 1991

27	Chamarajnagara	118	156	3.56	5.20	29.72	4.14	416	17.1

Marriage and age at marriage are important social phenomena and crucial factors in the analysis of the dynamics of fertility. As such, various measures of fertility estimated based on these crucial factors are highlighted in the above table.

Estimates of General Fertility Rate (GFR) a refined measure of fertility, defined as the number of live births per thousand women in the reproductive age-group 15-49 years is a useful tool for measuring fertility, and this rate is further estimated only for the married women which is defined as General Marital Fertility Rate (GMFR). The GFR and GMFR for the district are 106 and 151 respectively.

The cumulative value of the age-specific fertility rates at the end of the child bearing ages gives a measure of fertility known as Total Fertility Rate (TFR). It indicates average number of children expected to be born per woman during her entire span on reproductive period assuming that the age specific fertility rates to which she is exposed to, continue to be the same and there is no mortality. The same is expected for married women known as Total Marital Fertility Rate (TMFR). The estimated TFR and TMFR for the district are 3.13 and 5.46 respectively. The Crude Birth Rate (CBR) is 28.37.

The most useful indices that can be derived from the question on number of children born alive is the average number of children ever born per ever married women by age-group. Since most of the women complete their reproduction be the age-group 45-49, this indices is termed

as completed fertility. The category ever married includes widows, divorced and separated women. As such the completed fertility for the district is 4.49. The child women ratio which is a relative measure to know the fertility performance of a women is 382 in the district.

One of the parameters, presenting female age at marriage relates to all women who live with their husbands, where some of them might have been recently married and some of them decades ago. It can be observed that mean age at marriage of the currently married women of Chikmagalur district is higher than the state figure of 18.00.

The estimates of mortality indicators presented above have been obtained through indirect estimation using the data on the number of children ever born and number of children surviving to ever married women. The information on questions on children ever born and children surviving canvassed for all ever married woman have been tabulated by the age of the mother. This data has been converted into estimates of probability of dying before attaining a given age. These estimates have been worked out using Brass technique where (q_i) is the probability of a newborn child dying before the age i = 1, 2, 3 and 5. The table above shows the estimates of infant and child mortality derived for the year 1991 by sex.

The infant mortality rate (q_1) for the person is 55 and for male and female are 56 and 55 respectively. The estimates of under 5 mortality (q_5) for person is 75 and for male and female are 77 and 73 respectively.

ANNEXURE - IV

ANNEXURE IV (1) - PERCENTAGE DISTRIBUTION OF IN-MIGRANTS BY PLACE OF BIRTH

Sl. No.	Place of birth	1991 Census			2001 Census		
		Persons	Males	Females	Persons	Males	Females

Source : Migration Tables of 1991 & 2001 Census

The Anenxure IV(1) presents data on migrants data on migration by their place of birth. The majority of migrants are those who are born within the state of enumeration, which constitute 93.31 per cent as per 2001 Census. Among them, migrants born elsewhere in the district are larger than migrants born in other districts of the state. Considerable proportion of population from other state have migrated to the district. The variations during the decade among different categories can be seen from the annexure.

ANNEXURE IV (2) - PERCENTAGE DISTRIBUTION OF IN-MIGRANTS BY PLACE OF LAST RESIDENCE

Sl. No.	Place of Last Residence	1991 Census			2001 Census		
		Persons	Males	Females	Persons	Males	Females
1	2	3	4	5	6	7	8

Source : Migration Tables of 1991 & 2001 Census

The Annexure IV(2) presents data on migration by their place of last residence. As far as the district is concerned, it can be seen that migrants whose place of last residence was within the state of enumeration but outside the place of enumeration, constitute major proportion of migrant population. As per 2001 Census, their percentage accounts for 93.74. Among them, more is the inflow from within the district. Considerable proportion from other state have migrated to the district. The variations during the decade among different categories can be seen from the annexure.

ANNEXURE IV (3) - INTERSTATE IN-MIGRATION TO CHIKMAGALUR DISTRICT

Place of Birth	1991 Census		2001 Census	
	Migrants	Percentage to total migrants	Migrants	Percentage to total migrants
1	2	3	4	5
Andhra Pradesh	2,050	8.89	1,507	8.38
Goa	80	0.35	-	0.00
Kerala	6,330	27.44	4,670	25.97
Maharashtra	400	1.73	377	2.10
Tamil Nadu	12,680	54.96	9,277	51.60
Rajasthan	-	0.00	844	4.69
Total for 5 states	21,540	93.37	16,675	92.75
Other states	1,530	6.63	1,304	7.25
Total	**23,070**	**100.00**	**17,979**	**100.00**

The interstate in-migration to the district by their place of birth provided above, highlights the States with the largest contribution of migrants to the district. According to 2001 Census findings, large inflow of population is mainly from Tamil Nadu that constitute 51.6 per cent followed by 25.97 per cent from Kerala. Migrants from Andhra Pradesh is 8.38 per cent and from Rajasthan it accounts for 4.69 per cent. Further the category migrants from 'Other States' has increased from 6.63 per cent in 1991 to 7.25 per cent in 2001.

ANNEXURE IV(4) - RURAL AND URBAN COMPOSITION OF INTERNAL MIGRANTS BY PLACE OF BIRTH

Place of Birth	Place of Enumeration-1991			Place of Enumeration-2001		
	Total	Rural	Urban	Total	Rural	Urban
1	2	3	4	5	6	7
1. Within the state	338,387	270,031	68,356	262,973	202,296	60,677
	100.0	79.8	20.2	100.0	76.9	23.1
2. In other states of India	23,070	17,240	5,830	18,388	12,820	5,568
	100.0	74.7	25.3	100.0	69.7	30.3

Rural and urban composition of internal migrants by their place of birth is provided in the above statement. The data for both the Census points out that majority of migrants within the State as well as from other states of India have migrated to rural areas of the district. The details can be seen from the Statement.

ANNEXURE - V

Brief account of Main Religions in the District/ Taluks as per 2001 Census

Religion forms an integral part of Indian Social System. For an Indian, it is a way of life rather than a faith. Indian Census, since its inception is collecting data on religion and presenting the same in its reports. In the pre-independence Census reports, the data on religion was being presented for 6 major religions viz., Hindus, Muslims, Christians, Sikhs, Jains and Buddhists. Besides, the minor religions have been classified under the category of 'Others'. The data on religion collected and presented by the Indian Census is the basic data of immense use for the researchers, anthropologists, sociologists, demographers, administrators, planners and even for a common man.

ANNEXURE V (1) - PERCENTAGE DISTRIBUTION OF POPULATION BY MAJOR RELIGIONS IN INDIA AND KARNATAKA DURING 1991 & 2001 AND ITS GROWTH RATE DURING 1981-1991 AND 1991-2001

Sl. No.	Religion	India				Karnataka			
		Percentage of Population	Percentage growth rate 1981 - 1991	Percentage of Population	Percentage growth rate 1991 - 2001	Percentage of Population	Percentage growth rate 1981 - 1991	Percentage of Population	Percentage growth rate 1991 - 2001
1	2	3	4	5	6	7	8	9	10
1	Hindus	82.4	22.3	80.5	20	85.5	20.7	83.9	15.3
2	Muslims	11.7	26.1	13.4	29.3	11.6	25.7	12.2	23.5
3	Christians	2.3	16.9	2.3	22.1	1.9	11.1	1.9	17.4
4	Sikhs	2.0	24.2	1.9	16.9	Ng	57.8	0.0	51.7
5	Buddhists	9.8	34	0.8	23.2	0.1	72.8	0.7	438.7
6	Jains	0.4	3.9	0.4	26.0	0.7	14.6	0.8	26.5
7	Others	0.4	13.1	0.6	111.3	Ng	51.0	0.2	1,725.50
8	Religions not stated	0.6	573.4	0.1	76.3	0.1	8,242.00	0.3	232.9

India - State differentials

The comparative data of the country and the state of Karnataka presented in Annexure V(i) reveals that the religion wise concentration of population in the state of Karnataka is of three major religions viz., Hindus, Muslims and Christians. Hindus are returned on the higher side with over three per cent more than the national average. Christians recorded nearly one per cent less whereas the proportion of Muslims in the state to national population was almost the same. There are 85.5 per cent Hindus, 11.6 per cent Muslims and 1.9 per cent Christians in Karnataka as against that of 82.4 per cent Hindus, 11.7 per cent Muslims and 2.3 per cent Christians in India. In regard to concentration of other three major religions viz., Sikhs, Buddhists and Jains it is observed that Jains with 0.7 per cent form the fourth major religion in the state whereas Buddhists with 9.8 per cent is the third major religion in India. In the Indian scene the Sikhs form fifth major group, whereas in Karnataka, Buddhists and Sikhs are placed fifth position.

Religion wise growth in the state during the decade 1981 - 91 reveals that the major religions viz., Hindus, Muslims and Christians recorded a growth rate in lesser degree i.e., 20.7 per cent, 25.7 per cent and 11.1 per cent respectively, against that of 22.3, 26.1 and 16.9 per cent in India as a whole. On the other hand Buddhists, Sikhs and Jains recorded a growth rate of 72.8 per cent, 57.8 per cent and 14.6 pecent respectively for the state against that of 34.0, 24.2 and 3.9 per cent respectively for India. Thus, the Jains recorded a higher growth of nearly 11 per cent in the state than that of India as a whole during the decade 1981 - 91.

Percentage distribution of population during 2001 Census, by major religions in India and Karnataka shows that Hindus form majority of the population with 80.5 and 83.9 per cent respectively, while Muslims form 13.4 and 12.2 per cent for the country and state respectively. The proportion of these religions for the country and state, during 1991 Census was 82.4 per cent and 85.5 per cent for Hindus and 11.7 and 11.6 per cent for Muslims. There is not

much noticeable changes are found in other regions. Persons who have not reported to which religion or faith they belong to has increased in Karnataka, as its proportion to the total population has increased from 0.1 per cent in 1991 Census to 0.3 per cent during 2001 Census.

ANNEXURE V(2) - PERCENTAGE DISTRIBUTION OF POPULATION UNDER EACH RELIGION TO TOTAL POPULATION IN THE DISTRICTS OF KARNATAKA - 1991 CENSUS & 2001 CENSUS

27	Chamrajnagar	1.8	1.9	0.6	2.1	0.3	8.7	0.4	3.6	1.2

The above table furnishes the composition of six major religions along with 'Other Religions' and 'Religion not stated' among the districts of the state during 2001 Census along with 1991 Census. As may be seen from the table that the proportion of population to total population during 2001 Census is below 5 per cent for 23 districts of the state and is between 5-10 per cent in 3 districts. Only Bangalore district has the distinction of having more than 10 per cent of the total population of the state in its jurisdiction. During 1991 Census the situation was almost similar with 22 districts having a proportion of less than 5 per cent and 4 districts had more than 5 per cent but below 10 per cent. With 10.76 per cent of the total population Bangalore district occupied the top position.

Of the total population of the state, proportion of districts having Hindus and Muslims was uniform during both the Censuses i.e. less than 5 per cent of the total population in 21 districts for Hindus and 23 districts for Muslims, while in 5 and 3 districts respectively for Hindus and Muslims had a proportion of 5-10 per cent and Bangalore district alone had more than 10 per cent.

ANNEXURE V(3) - PERCENTAGE AND DISTRIBUTION OF POPULATION BY MAJOR RELIGION IN KARNATAKA AND CHIKMAGALUR DISTRICT - 1991 & 2001

Religion	Karnataka				Chikmagalur			
	1991		2001		1991		2001	
	Number	Percentage	Number	Percentage	Number	Percentage	Number	Percentage
1	2	3	4	5	6	7	8	9
Hindus	38,432,027	85.50	44,321,279	83.86	903,775	88.84	1,004,674	88.06
Muslims	5,234,023	11.60	6,463,127	12.23	81,397	8.00	94,429	8.28
Christians	859,478	1.90	1,009,164	1.91	25,805	2.54	27,501	2.41
Jains	326,114	0.70	412,659	0.78	4,134	0.41	5,081	0.45
Buddhists	73,012	0.20	393,300	0.74	2	0.00	1,129	0.10
Sikhs	10,101	Ng	15,326	0.03	29	0.00	65	0.01
Others	6,325	Ng	115,460	0.22	39	0.00	3,975	0.35
Religion not stated	36,121	0.10	120,247	0.23	2,102	0.21	4,051	0.36

The percentage distribution of population by major religion in Karnataka and Chikmagalur district for 1991 and 2001 Censuses are presented in the above table. As may be seen from the table that in Karnataka, Hindus form 85.5 and 83.86 per cent of the total population during 1991 and 2001 Censuses, followed

by Muslims and Christians. The corresponding statistics for the district does not differ much as Hindus and Muslims occupy the top two places followed by Christians. These three religion cover more than 98 per cent of the total population of the district. Remarkable increase in the proportion of Buddhists population has been noticed between 1991 and 2001 Censuses in the State.

ANNEXURE V(4) - DISTRIBUTION BETWEEN RURAL AND URBAN AREAS OF MAJOR RELIGIONS IN KARNATAKA AND CHIKMAGALUR - 1991 & 2001

State/ District	Religion	1,991				2,001			
		Rural		Urban		Rural		Urban

A : Absolute **P** : Percentage

Talukwise distribution of population following major religion is presented above. As far as the district is concerned, majority of the population follow Hindu faith in all the taluks. This is followed by Muslims and Christians in Chikmagalur district. A comparison between 1991 and 2001 Census data expose marginal variations in different faiths persuaded by the population during the decade.

ANNEXURE VI - MARITAL STATUS OF POPULATION IN CHIKMAGALUR DISTRICT - 1991 & 2001

Marital Status	1991			2001

	0.03	0.02	0.01	0.00	0.00	0.00
Total	**1,017,283**	**845,422**	**171,861**	**1,140,905**	**918,181**	**222,724**
	100.00	**83.11**	**16.89**	**100.00**	**80.48**	**19.52**

It may be seen from Annexure VI that the percentage of “Never Married” population accounts for 49.24 per cent and 47.31 per cent at state and district levels during 2001 Census, while the same was 52.05 per cent and 52.13 per cent during 1991 Census. Similarly the percentage figures of the district for Married, widowed and Divorced or Separated are 47.45., 4.96 and 0.29 per cent during 2001 Census. Comparative data for 1991 Census is also furnished in the table for ready reference. The percentage variation of all the marital categories between rural and urban is marginal in both state and district population.

The level of education by sex for the district and the State during 1991 and 2001 Census are presented in the above annexure. It can be seen that percentage of illiterates during the decade has decreased vis-a-vis for the State and the district. Though the male literates out number females, the percentage of women folk acquired literacy during the decade is more than the male population. The comparison of data for the two censuses reveals it so for the State and the district. The different educational level attained by the population can be seen in detail in the above annexure.

ANNEXURE - VIII

DISTRIBUTION OF DIFFERENT MOTHER TONGUE RETURNED DURING 1991 & 2001 CENSUS

As part of Census publication programme the data on spoken languages/Mother Tongues will be presented under C Series. The table C-7 shows the distribution of languages/Mother Tongues which returned 10,000 or more speakers each at all-India level (including of Mother Tongues grouped under each for the district, with total, rural/urban and male/female break ups). The unclassified Mother Tongues and the Mother Tongues having less than 10,000 speakers have been relegated to 'Other' Mother Tongue category. The table is divided into Part A-Scheduled languages with Mother Tongues grouped under each and Part B-Non-scheduled languages with Mother Tongue grouped under each. The instructions to the enumerators in regard to this question read as under.

"Record Mother Tongue in full, whatever be the name of the language returned by the person enumerated". The definition of Mother Tongue is the same as in 1991. "Mother Tongue is the language spoken in childhood by the person's mother to the person. If the mother died in infancy, the language mainly spoken in the person's home in childhood will be the Mother Tongue. In case of infants and deaf mutes the language usually spoken by the mother should be recorded. In case of doubt, the language mainly spoken in the household may be recorded".

As the above instructions to the enumerators would show, the respondent was made to feel free to return the name of his/her Mother Tongue and the same was recorded faithfully by the enumerators. This naturally leads to recording of a very large number of Mother Tongue names. It is to be mentioned that Mother Tongues as returned in the Census are basically, the designation provided by the respondents. These designations or Mother Tongue labels need not be identical with the actual linguistic mediums. For assessing the correlation between the Mother Tongue designations and actual languages and dialects the raw returns of Census were subjected to thorough scrutiny and rationalization.

The abstract of languages as Mother Tongues and their strength in the district during 1991 and 2001 Census are provided below.

STATEMENT-I

7	Mishmi	1	0.00	0	0.00
8	Koda/Kora	-	-	3	0.00
9	Kudubi/Kudumbi	-	-	4	0.00
10	Kuruba/Kurumba	-	-	1	0.00
11	Rai	-	-	1	0.00
12	Tibetan	-	-	6	0.00
13	Total of other languages	1,242	0.12	4,161	0.36
	Chikmagalur District	**60,388**	**5.94**	**66,894**	**5.86**

The statement I & II gives a clear picture of the languages spoken in the district. A closer study of 2001 Census data reveals that as many as 28 languages which returned 10,000 or more speakers are spoken in the district. The 'Other' category include Mother Tongues spoken by less than 10,000 speakers. Majority of the population speak Kannada which constitute 72.54 per cent followed by 6.95 per cent of Urdu speaking population. Among the languages not specified in the Eighth Schedule to the constitution, Tulu is spoken by 5.26 per cent of population. Similar data for 1991 is provided in the annexure.

Linguistic classification of the languages

1. INDO-EUROPEAN

(a) INDO-ARYAN

1. Assamese (S), 2. Bengali (S), 3. Bhili/Bhilodi, 4. Bishnupuriya, 5. Dogri, 6. Gujarati (S), 7. Halabi, 8. Hindi (S), 9. Kashmiri (S), 10. Khandeshi, 11. Konkani (S), 12. Lahnda, 13. Marathi(S), 14. Nepali (S), 15. Oriya (S), 16. Punjabi (S), 17. Sanskrit (S), 18. Sindhi (S), 19. Urdu (S)

(b) GERMANIC

1. English

2. DRAVIDIAN

1. Coorgi/Kodagu, 2. Gondi, 3. Jatapu, 4. Kannada (S), 5. Khond/Kondh, 6. Kisan, 7. Kolami, 8.Konda, 9. Koya, 10. Kui, 11. Kurukh/Oraon, 12. Malayalam (S), 13. Malto, 14. Parji, 15. Tamil (S), 16. Telugu (S), 17. Tulu

3. AUSTRO-ASIATIC

1. Bhumij, 2. Gadaba, 3. Ho, 4. Juang, 5. Kharia, 6. Khasi, 7. Koda/Kora, 8. Korku, 9. Korwa, 10. Munda, 11. Mundari, 12. Nicobarese, 13. Santali, 14. Savara

4. TIBETO-BURMESE

1. Adi, 2. Anal, 3. Angami, 4. Ao, 5. Bhotia, 6. Bodo/Boro, 7. Chakesang, 8. Chakru/Chokri, 9. Chang, 10. Deori, 11. Dimasa, 12. Gangte, 13. Garo, 14. Halam, 15. Hmar, 16. Kabui, 17. Karbi/Mikir, 18. Khezha, 19. Khiemnungan, 20. Kinnauri, 21. Koch, 22. Kom, 23. Konyak, 24, Kuki, 25. Lahauli, 26. Lakher, 27. Lalung, 28. Lepcha, 29. Liangmei, 30. Limbu, 31. Lotha, 32. Lushai/Mizo, 33. Manipuri (S), 34. Mao, 35. Maram, 36. Maring, 37. Miri/Mishing, 38. Mishmi, 39. Mogh, 40. Monpa, 41. Nissi/Dafla, 42. Nocte, 43. Paite, 44. Pawi, 45. Phom, 46. Pochury, 47. Rabha, 48. Rengma, 49. Sangtam, 50. Sema, 51. Sherpa, 52. Tangkhul, 53. Tangsa, 54. Thado, 55. Tibetan, 56. Tripuri, 57. Vaiphei, 58. Wancho, 59. Yimchungre, 60. Zeliang, 61. Zemi, 62. Zou

5. SEMITO-HAMITIC

1. Arabic/Arbi
