DISTRICT CENSUS HANDBOOK

Part - A & B

DAVANGERE DISTRICT

VILLAGE & TOWN DIRECTORY

VILLAGE AND TOWNWISE PRIMARY CENSUS ABSTRACT

लोकाभिमुख
PEOPLE ORIENTED

Directorate of Census Operations, Karnataka

F O R E W O R D

1. The District Census Handbook (DCHB) published by Census Organisation since 1951 census, is one of the important publications in the context of planning and development at gross-root level. The publication, which is brought out for each district, contains several demographic and socio-economic characteristics village-wise and town-wise of the district alongwith the status of availability of civic amenities, infrastructural facilities, etc.

2. The scope of the DCHB was initially confined to a few Census Tables and Primary Census Abstract (PCA) of each village and town within the district. Thereafter, at successive censuses, its scope and coverage has been enlarged. The DCHB published at the 1961 census provided a descriptive account of the district, administrative statistics, census tables and a village and town directory including PCA. The 1971 census-DCHB series was in three parts: Part-A related to village and town directory, Part-B to village and town PCA and Part-C comprised analytical report, administrative statistics, district census tables and certain analytical tables based on PCA and amenity data in respect of villages. The 1981 census DCHB was in two parts: Part-A contained village and town directory and Part-B the PCA of village and town including the SCs and STs PCA up to taluk/town levels. New features alongwith restructuring of the formats of village and town directory were added into it. In Village Directory, all amenities except electricity were brought together and if any amenity was not available in the referent village, the distance in broad ranges from the nearest place having such an amenity, was given. Information on new items such as adult literacy centres, primary health sub-centres and community health workers in the village were provided so as to meet the requirements of some of the Revised Minimum Needs Programme. Information on approach to the village was provided for the first time in the Village Directory so as to give the details on number of inaccessible villages in each district. In the Town Directory, a statement (IV-A) on slums was introduced to provide the details on civic and other amenities in the notified slums of Class I and Class II towns.

3. The 1991 census DCHB, by and large, followed the pattern of presentation of 1981 census, except the format of PCA was restructured. Nine-fold industrial classification of main workers was given against the four-fold industrial classification presented in the 1981 census. In addition, sex-wise population in 0-6 age group was included in the PCA for the first time with a view to enable the data users to compile more realistic literacy rate as all children below 7 years of age had been treated as illiterate at the time of 1991 census. One of the important innovations in the 1991 census was the Community Development Block (CD block) level presentation of village directory and PCA data instead of the traditional taluk/PS level presentation. It was expected that the presentation of village directory and PCA data at CD block level will help the planners in formulation of micro level development plans, CD block being lowest administrative unit.

4. The present series of 2001 census DCHBs have been made more informative and exhaustive in terms of coverage and content. The Village Directory has been enlarged in scope by including a number of other facilities like banking, recreational and cultural facilities, newspapers and magazines and 'most important commodity' manufactured in village. Income and expenditure of gram panchayat, wherever possible, has been provided. Apart from these, more details on distance(s) at which basic amenities are available (if not available in the village), are given. This includes educational facilities (namely primary and middle schools and college), medical facilities (viz. Allopathic Hospital, Maternity & Child Welfare Centre and Primary Health Centre), drinking water, post & telegraph (post office and phone), communication, bank, credit societies and recreational facilities. In Town Directory, the statement on Slums has been modified and its coverage enlarged by including details on all slums instead of 'notified slums'. The information is given in case of all statutory towns irrespective

of their class, against only Class I and Class II towns in the 1981 and 1991 censuses. The basic amenities available in the villages and towns are analysed in depth with the help of a number of cross-classified inset tables and statements. Two other significant additions in the publication are inclusion of 'motif' highlighting significant characteristic of the district and analytical notes as annexures. The analytical notes on (i) fertility and mortality and (ii) various measures of fertility and mean age at marriage are prepared based on 1991 census. Whereas, in the notes relating to (i) percentage distribution of migrants by place of birth/place of last residence, (ii) main religions, (iii) marital status of population, (iv) age, sex and education, and (v) distribution of spectrum of mother tongue, nature and extent of changes occurred in the district in its basic socio-demographic features during the decade 1991-2001 are analysed. The eight digits permanent location code (PLCN) to all the villages and towns have been assigned keeping in view the future needs.

5. The village and town level amenity data have been collected, compiled and computerized in prescribed record structure under the supervision of Shri.H.Shashidhar, Director of Census Operations, Karnataka. Thereafter, efforts have been made to ensure comparability of the information with that of 1991 census data and the information brought out by the respective state governments in their annual reports and statistical handbooks for various years after 1991. The task of planning, designing and co-ordination of this publication was carried out by Shri R.G. Mitra, Deputy Registrar General (C&T) and Dr. I.C. Agrawal, Senior Research Officer of Social Studies Division, Dr. R.P. Singh, Deputy Registrar General (Map) provided the technical guidance in the preparation of maps. Whereas, Shri Anil Kumar Arora, Deputy Director of Data Processing Division who worked under the overall supervision of Shri Himakar, Addl. Director (EDP) helped in preparation of record structure for computerization of village and town directory data and the programme for the generation of Village Directory and Town Directory statements including analytical inset tables. The draft DCHB manuscripts received from the Census Directorates have been scrutinized in the Social Studies Division under the guidance of Shri S.L. Jain, Deputy Director and Shri R.K. Mehta, Assistant Director. I am thankful to all of them and other who have contributed to make this publication possible.

D.K. Sikri
Registrar General &
Census Commissioner, India

Motif

Shanthisagara (Sulekere) Tank in Channagiri taluk of Davanagere District

Shanthisagara is also known as Sulekere, is one of the largest tanks in the State and measures about 104 114 in circumference. The construction of this tank / lake by putting barrages across Hirehalla and Soppinahalla is assigned to the 11th or 12th century.

According to local tradition, this lake was got constructed by Shanthavva, the daughter of king Vikrama Raya as an expiatory act and the formation of this lake resulted in the submersion of the town named Swargavati. At the eastern end of the embankment there is the Siddheswara temple and a few defced inscription stones one of which dated 1546 AD and records a grant. An annual festival is held here during February.

The Shanthisagara is providing facilities for pisciculture and the local fishermen have formed Co-operative Society.

P R E F A C E

In the foreword to the 2001 series of the District Census Handbooks, Sri. D.K. Sikri, I.A.S., the Registrar General and Census Commissioner, India, has traced the history of the District Census Handbooks. He has also succinctly explained the scope and coverage of the District Census Handbooks. These volumes contain salient data on the population for every village and town as revealed by 2001 Census. They also contain a wealth of information regarding villages and towns which, throw some light on the circumstances in which people live and is therefore relevant to the data on the population. This information is also of considerable importance in the context of planned development.

The District Census Handbook is divided into two parts: Part A contains information regarding each village and town (Village Directory and Town Directory collected from various sources) and Part B which contains the data on the population collected during 2001 Census - the Primary Census Abstract. The data published in Part B was collected during February-March 2001 in the Population Census.

The process of data collection for the Village Directory and the Town Directory (Part A) commenced in 1999. The Village Directory formats were mailed to the Deputy Commissioners of Districts for obtaining the village wise particulars through Village Accountants. Similarly the Town Directory formats were mailed to the Commissioners of Corporations, Chief Officers of Town Municipal Councils, Town Panchayats, etc. The village wise and town wise data furnished by these officers were then examined exhaustively for consistency in reporting and comparability with the information published in the 1991 District Census Handbooks. The Household Schedules, which were canvassed to collect the population data during 2001 Census, were scanned and data captured was processed electronically. The Primary Census Abstract was generated centrally on the computers by Registrar General, India.

In compilation of the District Census Handbooks, the Census Directorate had the co-operation of various departments of the State/Central Government. The Census Directorate gratefully acknowledge their assistance.

I take this opportunity to offer my grateful thanks to Sri. H. Shashidhar, Director of Census Operations and Sri. S.R. Raghavendra Rao, Deputy Director (Retd.) for their valuable guidance. I am also thankful to all the officers and officials of this Directorate who have been actively involved in the compilation of this volume.

I am highly grateful to Sri. J.K.Banthia, I.A.S., Ex. Registrar General, India for the benefit I have derived by way of guidance and advice. I express my thanks to Sri R.G. Mitra, Ex. Deputy Registrar General (C&T) and Dr. I.C. Agrawal, Assistant Registrar General and Sri S.L.Jain Deputy Director of Social Studies Division and Dr. R.P. Singh, Ex. Deputy Registrar General (Map) for their guidance.

District Highlights, 2001

1 New district is carved out from the erstwhile Chitradurga.

2 Population wise the rank of the district is 11th in the State.

3 District occupies 11th and 6th rank in the State with reference to Scheduled Castes and Scheduled Tribes population respectively.

4 In Literacy rate the district is placed at 11th rank in the State.

5 District stands at 22nd place in sex ratio.

6 Regarding number of villages the district stands at 13th rank in the State.

7 District occupies 9th place regarding density of population.

8 With regard to Decennial Growth the rank of district is 13th in the State.

9 Regarding percentage of Scheduled Castes and Scheduled Tribes population district is ranked at 9th and 5th position in the State respectively.

10 In respect of cultivators and agricultural labourers the rank of district is 9th & 11th respectively.

IMPORTANT STATISTICS, 2001

Particulars	Persons Males Females	State	Percentage	District	Percentage

ANALYTICAL NOTE

(i) History and Scope of the District Census Handbook

Introduction

The District Census Handbook is the most valuable district level publication brought out by the Census Organization. It contains micro-level data drawn to the lowest administrative units viz, revenue village in the case of rural areas and Division/Ward level in the case of urban areas. It is extremely useful to the planners, administrators, demographers, sociologists, etc., as it contains resourceful wealth of data regarding basic amenities available in each village and town of the district such as educational, medical, drinking water, post and telegraphs, transportation and communication, banks, societies, recreation clubs, power supply, export/import of important commodities and land use besides, the particulars revealed during the latest census enumeration. It is for the first time that the district census hand book series was included in the census publication programme at the 1951 census, in order to satisfy the growing demand by the administrators, the planners, research scholars, demographers and the other such census data users, for micro-level data. The idea of compiling the District Census Handbooks was pioneered by Sri R.A.Gopala Swamy, I.C.S. the then Registrar General, India and Ex-officio Census Commissioner of India, with a view to preserve the Census records prepared for areas below the district level. He proposed that all the district Census tables and Census abstracts prepared during the process of sorting and compilation, should be bound together in a single manuscript volume and named as the District Census Handbook and suggested that the State Government should take up printing and publication at their own cost. Then onwards, the District Census Handbooks were published in each Census with improved pattern with an aim to give the Census and Non-census data at micro level for each village of the taluk as a whole to suit the requirements of various departments.

The data in the District Census Handbook will help not only in local area planning but also in regulating the provision of goods and services as well as to minimise the regional imbalances in the process of development. The District Census Hand Book sought to replace "Part IV - Taluk Tables and Part V - Village Tables" of the earlier censuses and to present the basic demographic and economic data in the form of "Primary Census Abstract" in respect of each and every village and town within the jurisdiction of the district. The district census handbook consists of two parts, viz, Part A and Part B. Part A comprises village and Town Directory while Part-B contains Village and Town level Primary Census Abstracts. In addition, these volumes contain a set of statistical tables based on the census data in respect of the district and its constituent taluks and towns.

District Census Handbook 1961

It was in 1961 Census that the scope of District Census Hand Book was shaped in the present form by presenting i) an account of descriptive note on the district, ii) a set of non-census data tables dealing with the administrative statistics of the district for a decade, iii) taluk and town level census tables on economic and socio-cultural aspects and iv) the village and urban Primary Census Abstracts depicting the nine fold industrial classification of workers. Information on the availability of certain basic amenities in villages and towns, such as the source of drinking water and educational institutions was also presented in the volumes. However, the district census handbooks of 3 out of then existing 19 districts viz, Bangalore, Dharwad and Mysore were confined to the publication of the village-wise and urban (census enumeration block-wise) Primary Census Abstract only.

District Census Handbook 1971

During the 1971 census, the district census handbook was further refined to present the data in a systematic way. In view of countrywide uniformity in approach and to have a comprehensive coverage, the District Census Hand Books were presented in

three parts each, for a district. Part A incorporates the Town and Village Directories. Part-B incorporates the Primary Census Abstract and includes data, in the case of rural areas down to the village level and in the case of urban areas up to the block level. In addition, an introduction is included wherein the changes in jurisdiction, if any, of the district or of the taluks and the changes in the number of villages between 1961 and 1971 were explained. Part-B was essentially demographic in nature and was the end product of the tabulation of the enumeration results. Part C incorporates other census tables and administrative statistics. For convenience, Part-A and Part-B of the District Census Hand Book was presented in one volume and Part-C in a separate volume. In part-C volume, the district and taluk maps were included. These maps were prepared on the basis of maps obtained from the competent authorities concerned.

District Census Handbook 1981

The District Census Hand Book series of 1981, had some new features along with the restructuring of the formats of village and town directories, keeping in view the comparability of 1971 data. All the amenities except power supply in the village were brought together in the village directory with the instruction that in case an amenity is not available in the referent village, the distance in broad ranges from the nearest place/village where it is available were given. A few new items of information such as adult literacy centres, primary health sub-centres and community health centres/workers, data on the availability of Newspapers, Motor Vehicles, etc., in the village, were introduced in the village directory to meet the requirements of the "Revised Minimum Needs Programmes". A new column "total population and number of households" was introduced to examine the correlation of the amenities with the population and number of households they serve. The contents of Part-A were further enlarged by including two appendices, namely a list of villages not having any amenities and a distribution of villages according to the proportion of Scheduled Castes and Schedules Tribes in the total population of the village. The format of Town Directory were also modified to meet the requirements of the Minimum Needs Programme by providing information on a few new items such as class of town and its population, population of SC & ST, decadal growth rate of population, working women's hostel, adult literacy classes / centres, storage system regarding drinking water supply etc., and also the information about the nearest place and distance having educational, medical and fire-fighting facilities, in case such a facility is not available in the referent town. A new statement on civic and other amenities in slums in Class I and Class II town were included to help the planners to chalk out their programmes of slum improvements.

District Census Handbook 1991

The presentation of the District Census Hand Book for the 1991 Census was more or less similar to the manner followed in 1981. The format of Primary Census Abstract was restructured slightly. Nine-fold industrial classification of main workers were given as against four-fold classification. The sex-wise population in the age-group of 0-6 was included in the Primary Census Abstract for the first time to enable data users to compute more realistic literacy rates as all the children below 7 years of age were treated as illiterate at the 1991 census. One of the important innovations in the 1991 census was the Community Development Block-level presentation of data in the village directory and Primary Census Abstract instead of the traditional Taluk/PS level presentation. C.D.Block is the lowest administrative unit for developmental planning. The choice of the C.D. Block as the unit for data presentation was formulated to help the planners in micro-level developmental plans. Another important improvement at the 1991 Census was dissemination of data through magnetic tapes/floppies in which both the computer as well as manual codes for each revenue village were provided along with the corresponding codes of 1981 Census. In the volumes of the District Census Hand Books, the computer codes assigned to the revenue villages in the 1991 Census and the corresponding codes of 1981 Census were presented so that it may facilitate the data users to use the data either from magnetic tapes or computer floppies.

Scope of the 2001 District Census Hand Book

Like in the previous censuses, the District Census Hand Book (DCHB) for the 2001 Census brought out in two parts as usual viz., Part-A The Village and

Town Directory, and Part-B the Village and Town Primary Census Abstract.

The District Census Hand Books for the 2001 census is essentially presented in the similar manner in which the District Census Hand Books of 1991 census were presented. This is because the data can be comparable with the earlier censuses and also to study the changes taken place during the decades and hence the approach in 2001 census is similar to 1991 census. The contents have been slightly enlarged and the formats too are restructured to suit the requirements of the data users. In the village directory for 2001 census certain new amenities like, news papers, magazine received, Income-Expenditure of the local bodies, information on number of banks, credit societies, recreational and cultural facilities, most important commodities imported, manufactured and exported have been included whereas the information regarding the "Day or Days of market/hat if any" which was there in 1991 has been excluded. Apart from providing the information about the nearest place and distance in broad ranges for villages not having basic educational and medical facilities, information about the nearest place and distance in broad ranges for villages not having Middle School, College, Hospital (Allopathic), Maternity and Child Welfare Center and Primary Health Center are also been provided this time. Information on availability of drinking water during summer is also included in the Village Directory. However, in the town directory there are no changes except in the statement IV-A where this statement is separately numbered as Statement VII in 2001. Except these, the scope of 2001 series of the District Census Hand Book has, by and large remained the same as in 1991. The non-census information collected at the village level and town level was scrutinized and verified. In case of glaring discrepancies the data were crosschecked with respective parent departments for validation.

One of the significant changes made in 2001 series of District Census Hand Book is that Primary Census Abstracts are presented to the jurisdiction of the Panchayats in the district. With the constitution (73rd Amendment) Act, 1992, it has become necessary for the census organisation to provide population data for the territorial area of a panchayat in order to strengthen panchayat raj system in the country. In view of this, panchayat-wise population figures for total population and for Scheduled Castes and Scheduled Tribes population has been compiled and presented in the form of Annexure - I for each district.

Further another important step taken during the 2001 census, is assigning the Permanent Location Code Numbers (PLCN) to the villages. Location code numbers is a simple but unique device by which every area in an administrative unit in the State/U.T. can be identified. Thus assigning of Location Code Numbers at various administrative levels, right from State/U.T. to the lowest level namely enumeration block, in census taking is an important step. Each clearly demarcated area can be referred to by a combination of numbers. In a State or U.T. the next administrative area is District, followed by taluk or police station, circle, Development Block or Mandal, etc. Next below this administrative area, in urban areas are cities/towns, further divided into wards/divisions and villages in rural areas. The Location Code Numbers to various administrative areas are assigned in orderly manner always beginning from northwest point and the numbering proceeds in a serpentine manner, keeping the geographical continuity, ultimately ending at the South-East point.

There was a great demand from different organizations to study the village level data over a time span and hence a scheme of assigning permanent location code numbers to the villages and the higher level of administrative areas is devised to ensure data comparability over a period of time. In Indian Census, Location Code Numbers are allotted to each village based on traverse system (zigzag) in a serpentine manner at taluk level. These numbers for villages run from '1' to 'N' in each taluk independently. This system was adopted until 1991 census. But, for the Census of India 2001, all the villages in a state/U.T. are assigned with a Location Code Number in one continuous series beginning from "1" to "N" for the entire state/U.T. and it is not confined to a taluk. The field length of the complete PLCN structure for a village has been kept up to 8 digits and therefore the location code number of village in a taluk contains 8 digits number for 2001 Census.

(ii) Brief History of the District

Like most of the districts in the state, this district also gets its name from its administrative headquarters town Davanagere. The Davanagere district came into existence during 1997 along with six other districts, namely, Chamarajanagar from erstwhile Mysore district, Udupi from erstwhile Dakshin Kannada district, Gadag and Haveri from erstwhile Dharwad district, Koppal from erstwhile Raichur district, Bagalkot from erstwhile Bijapur district vide Government of Karnataka Notification No. RD 42 LRD 87 Part III Bangalore dated 2.8.1997.

The present newly formed Davanagere district comprises in its jurisdiction six taluks, namely, Davanagere, Jagalur and Harihar from erstwhile Chitradurga district, Honnali and Channagiri taluks from erstwhile Shimoga district and Harapanahalli taluk from erstwhile Bellary district.

Mythological Period: The area comprised in the district consists of a few places of great antiquarian interest and several places of historical importance. According to a legend, Harihar was the capital or stronghold of a great giant named 'Guha' or 'Guhasura' the limits of whose territory were 'Uchangi durga' in the east, 'Govinal' in the south, 'Mudunur' in the west and 'Aivani' in the north. He pleased God 'Brahma' by his penance and obtained a boon of exemption from the death at the hands of 'Hari' or 'Hara'. Later, he became tyrant to both Gods and people. So in order to put an end to this tyrant, Hari and Hara combined themselves into one form of 'Harihara' and destroyed him. The descent of this incarnation was at 'Kadlur' now known as Harihar, the place of confluence of Tungabhadra and Haridra, where the God's footprints are still shown.

During historical times, this district formed part of territories of several well-known dynasties such as Mauryas, Satavahanas, Kadambas, Chalukyas of Badami, Rashtrakutas, Gangas, Chalukyas of Kalyana, Nolambas, Hoysalas, Vijayanagar rulers, Muslim rulers of Deccan, Marathas and later Wodeyars of Mysore.

Pre-Historic Site: Chandragupta Maurya's migration to Shravanabelagola in the Hassan district which is south of this district and the existence of Ashoka's edicts at Asagodu and on the rocks of Brahmagiri of Jagalur taluk of the district and also at Chitradurga, the neighbouring district point out the possibility that this area might have been part of the domains of the Mauryas.

The Satavahanas: After the fall of Mauryas, Satavahanas became prominent in South India. The inscriptions found at Banavasi, Malavalli, Bellary district and the scientific excavations in Chandravalli Valley which have yielded lead coins belonging to all the periods (early, middle and late) of Satavahanas indicate the Satavahanas suzerainty over the region.

After the downfall of the Satavahanas' rule, their empire disintegrated into Abhiress and Traikutas in the north-western, the Chutus in the western, Kadambas and Pallavas in the southern and Vokatakas in the eastern and north-eastern portions of the Deccan.

The Kadambas: In about fourth century AD, the Kadambas of Banavasi rose to power in the region. The region from the western sea upto Uchchangidurga in Harapanahalli taluk of the district constituted the Banavasi-12,000 territory. Uchchangidurga was the capital of eastern branch of the Kadambas. An inscription of Kadamba period belonging to 450 AD found in Anaji village of Davanagere taluk refers to a great battle between a Pallava king named Nanakkasa and King named Krishna Varman. Another two inscriptions were found in Davanagere taluk one-dated 1160 AD and another dated 1171 AD. The former inscription mentions one Somadeva and traces the origin of Kadambas to Mayura Sharma and the later one to that of Kadamba King named Nigatiyarasa and calls himself as Lord of Uchchangi hill. The Kadambas administered a vast territory as independent and powerful rulers for 200 years from 4th century AD to 6th century AD. Ajavarman, son of Krishna Varma-II, the last ruler of Kadambas became subordinate to the Chalukya king Kirthivarma I (560-597 AD). However, the Kadambas were allowed to rule their territories under the suzerainty of the Chalukyan monarchs.

Chalukyas of Badami: Chalukyas of Badami, the Pallavas of Kanchi and Pandyas of Mudara rose into prominance more or less at the same time. The history of south India for a period of about 300 years is practically the story of mutual conflicts among these three powers each seeking constantly to extend its territories at the cost of its neighbours.

The Chalukay king Pulakesin I has taken Badami which too is said to have formerly been under the Pallavas, fortified the hill near it and made it his capital in 543-544 AD. His son Kirthivarman I (566-597 AD) extended his territories by annexing Konkan from Mauryas, Banavasi from Kadambas, Bastar and Jaipur from Nalas. The most powerful ruler in the line was Pulikeshin II (610-642 A.D.), who had a conquest on all sides to his credit, particularly over Harshavardhana of Kanauj, the emperor of the North. At the end of long drawn out conflict with the Pallava king Narasimhavarman, Pulikeshin II was defeated and killed in the battle as is evident from his title Vatapi Konda and from the inscription engraved on a rock behind Mallikarjuna temple in Badami. He ruled the Chalukya capital for some time. However, Pulikeshin's son and successor Vikramaditya I (615-681 AD) not only repelled the Pallavas invasion but also regained all the lost territories and thus restored the glory of his father's empire. Davanagere district during this period was under the Chalukyas rule.

Of the early Pallavas we hear little in this district but for the inscription found in Anaji of Davanagere taluk. It is only from the beginning of the 9th century AD that a branch of Pallavas, under the name of Nolambas, gained strength in this districts.

The Gangas: The Gangas were another early illustrious dynasty of Karnataka whose base was in Kolar and subsequently shifted to Talkad of Mysore district. They extended their power upto the Mandali and Purali on Tunga river close to Shimoga city, Raichur and parts of Bellary districts. The Channagiri area of the district was being administered by a branch of Ganga family with its seat at Asandi in the adjoining district of Chikmagalur as a feudatory of Hoysalas. They were also in possession of Raichur and parts of Bellary districts. Butuga II (936-961 AD) was granted Banavas and Nolambavadi provinces by Krishna III of Rashtrakuta king for having assisted him in campaign against Cholas. The Ganga King Marasimha II (963-974 AD) and his general Chamundaraya are said to have captured the fort of Uchchangi (Harapanahalli Taluk).

Rashtrakutas: By the middle of 8th century, Rashtrakutas of Malkhed rose to power and established their supremacy over Chalukyas. Govinda III of Rashtrakuta over-ran Nolambavadi which consisted the Chitradurga, Tumkur, Ananthapur, parts of Bellary, Bangalore and Kolar districts. An inscription in the Bagali temple in Harapanahalli taluk states that in the year 944-45 A.D., a Chalukya feudatory of Rashtrakuta king, Krishna II (939-967 A.D.) was governing the Kogali-500 which roughly corresponds to Hadagali and Harapanahalli taluks. Another inscription in the same temple mentions the King Khottiga (967-972 A.D.) of the same line. During this period, the area comprised in former Chitradurga district formed part of Nolembavaadi 3200 and continued to be bone of contention among the imperial powers viz. Chalukyas in the north and Cholas in the south. The principal local dynasties that administered this region as feudatories were the Nolambas of Henjueru (from about 700 to 1050 AD) and the Pandyas of Uchangi (from about 1073 to 1183 AD). The rule of Rashtrakutas came to an end in 973, when the lost Rashtrakuta king Karka II was dethroned by Taila II, a member of Chalukya family.

Nolambas: In about middle of the Eighth Century AD, Nolambas who were perhaps feudatories or a branch of Pallavas established a province called Nolambavadi 32000 consisting of parts of Bellary, Hemavathi in Madakasira (Andhra Pradesh) and Harapanahalli taluk of this district. Uchchangi or Uchchangi Durga was their capital. Nolambas were subordinate to the Chalukyas of Badami and Gangas of Talkad. Later on they acknowledged the suzerainty of Rashtrakutas after the defeat of Gangas by Rashtrakuta king Govinda III (793-814 AD). So long as the Rashtrakutas were supreme and strong, the Nolambas were secure under their protection. The moment this power became weak, the Nolambas began to feel the impact of the expansionist attempts of the other major powers. Thus, in 944 AD, the Nolambas were over run by the Ganga King Narasimha, who after the conquest, actually ruled the Nolambavadi country for some time. Next when the Cholas began their Northward thrust, there were conflicts between the Cholas and the Nolambas. However, after the revival of Chalukyan power in the North (and in the Nolambavadi region in about 1015 AD) the Nolambas switched over their loyalties to the Chalukyas and with this change in allegion they moved their capital to Kampli on the banks of Tungabhadra river in the neighbouring Bellary district. A few records of very

short period dating from 1048-1054 AD are also found in Honnali and Channagiri who were then feudatories of Chalukyas of Kalyana with their capital at Kampli. The Chalukyas of Kalyana appointed the princes of their own family as viceroys of Nolambavadi. In about 1064 AD, the Cholas sacked the Kampli area and appointed Pandyas of Uchchangi as governors of Nolambavadi. A few inscriptions assigned to period from 1088-1180 AD are found in Shikaripur of Shimoga district and Channagiri taluk of this district.

Taila II received the Chalukyan supremacy over the Deccan and lasted in about 1200 AD with a short break up for about 22 years from 1162 to 1184 AD. Inscriptions of Chalukyas of Kalyana have been found in this district right since period of Taila II in Bagali temple and in the Jaina temple at Kogali of Harapanahalli taluk. In Bagali there are more than a dozen inscriptions of Vikramaditya VI (1076-1127 AD) ranging from 1079 to 1126 AD are found. Further, Harihar region seems to have been an agrahara administered by 104 Brahmins during the time of Chalukyas and included in the province of Nolambavadi. Channagiri formed part of the Chalukyan domains and was included in the Nolambavadi 32000 which Pandyas of Uchangi ruled.

The Kalachuri dynasty: Bijjala II (1156-1168 AD) of the Kalachuri dynasty, one of feudatories of Chalukyas governing Tordavadi in Bijapur area and later incharge of entire Southern region including Tardavadi, Banavasi and Nolambavadi, dethroned the Chalukya king Jagadakamalla II in 1156 AD. Inscription found at Kadlabalu in Davanagere taluk dated 1163 refers to the reign of Tribuvanamalla Bijjanadeva. Bijjala ruled till 1168 in which year he met his death in the religious conflict with Veerashaivas. His successors were not so powerful and capable administrators and this gave an opportunity to the Chalukya prince Someshwara IV, son of Taila III succeeded in wresting his ancestors' throne from the Kalachurias in 1181 AD. Singhana the last ruler of Kalachiras who were ruling Belvola and Banavasi provinces surrendered to Chalukya King and acknowledged their supremacy.

The Hoysalas: Inscriptions connecting this district with the Hoysalas kingdom is evident from the fact that Vishnuvardhana (1106-1141 AD), Ballala II (1173-1220) ruled Nolambavadi, Uchchangi and Gangavadi 9600. According to the inscription dated 1177, Ballala had even made Uchchangi his capital and ruled from it. Later, the Yadavas (Seunas) of Devagiri became supreme and Hoysalas were forced to retire to South of Tungabhadra river. During (1210-1247 AD) more or less corresponding to the present Davanagere taluk came under the rule of Yadavas. The earliest Yadava inscription is found in Kadlabalu village of Davanagere taluk and belongs to the reign of Krishna (1247-1260 AD). His other inscription is dated 1258 AD and comes from Chikkabidara (Davangere taluk) refers to the construction of temple to God Kanneshvar in Bidar on the bank of the Tungabhadra. The supremacy of Hoysalas and Yadavas came to an end after the invasion of Muslim forces from the North under the leadership of Malik Kafur and Mohammed Bin Tughlaq.

After the fall of Hoysalas in 14th century, the district became a part of Vijayanagar empire who ruled for two hundred years. They exercised paramount powers, had bestowed sundry tracts of their kingdom on the vassal chiefs bearing various titles, for administrative convenience. Such of the chiefs or Palegars as were in the Northern part of the kingdom were controlled directly from the capital in Vijayanagar and those who were in the Southern parts were placed under a viceroy whose seat of government was at Shrirangapattana.

A province called Sindavadi is alluded to as far back as fifth and eighth centuries in epigraphs found in neighbouring districts of Chikmagalur and Hassan districts. There were several Sinda families governing Shimoga, Dharwad, Chitradurga, Bellary, Raichur and parts of Davanagere districts. Most of the inscriptions found in Honnali taluk in which their chief town was Belagavarti or Belagavatti, gives the history of Belagutti Arsus.

The principality of Kampili comprised parts of Bellary, Raichur, Davanagere, Chitradurga and Ananthapur districts. A stone inscription found in Harihar dated 1300 AD states that Khandeya Raya of Kampli regranted the village of Harihar to a temple. In the year 1327, Mali Zada defeated Kampili Deva the last ruler of Kampli province. The very ruins of the kingdom of Kampili rose to the mighty empire of Vijayanagar in the South.

During the chaotic conditions that followed the mortal defeat of Vijayanagara forces in 1565 AD, most of the local chiefs who were powerful enough established themselves as independent rulers of the estates which were till then administered by them as the chosen representatives of Vijayanagar monarchs. The local chiefs in Davanagere district too were affected by this phenomenon. The important families of such local chiefs who held sway for nearly 200 years, until they were vanquished by Haider Ali of Mysore are those of Nayakas of Chitradurga, Havati, Hatti, Mattinadu, Kaladi, Basavapatna, Bidanur, Harapanahalli, Belagutti etc.

The Belagutti Chiefs: Belagutti chiefs in Honnali taluk which was formerly the seat of Sindhas once again became the centre of a small principality. The 'Kudire Rayara Vrittanta' of 1806, the Belagutti 'Kaifiats' written about 110 years ago and inscription of 1690 AD found at Belagutti gives the history of Belagutti Arasus who governed the area for more than two centuries. One Bedara Channa, who had gathered a number of hunters and built a fort called 'Bedara-Kota' (hunter's fort) was proving a menace to the administration of Vijayanagara. In about 1360 AD, Vijayanagar king sent one Cheluva Rangappa connected with then ruling house of Vijayanagar as head of a punitive expedition who imprisoned Bedara Channa and produced before the king. As Channa showed the treasure hidden by him, his life was spared and as desired by him, his assumed titles of 'Behule' and 'Nayaka' and his yellow flag continued for the chiefs of the area. Cheluva Rangappa was entrusted with the administration of the tract around Belagutti. The family governed from Didagur near Tungabhadra in Honnali taluk for about 150 years and the capital was shifted to Honnali for some years and later to Belagutti.

After the fall of Vijayanagar, Belagutti chiefdom was annexed by an army of the Adil Shah of Bijapur led by Bilan Khan late in 16th century and allowed them to retain some villages as a family estate. In 1763, Thimmappa and Venkatappa of this family, who were maintaining a small cavalry force under the ruler of Kaladi with inam of some villages, submitted to Haidar Ali, who received them into Mysore service and gave them a grant and pay for keeping a force of 400 horsemen. In 1835, unsuccessful attempt was made to revive the chieftaincy by installing Digambarappa, son of Thimmappa Naik.

Dhuma Raja, a migrant from Vijayanagar fell in love with a Beda family girl while hunting in the neighbourhood of Thyavangine village of Channagiri taluk. At first, the Beda refused the intercaste union but was persuaded to accept it on condition that Dhuma Raja would settle there itself and that the offspring from the Beda woman would succeed him in the government that he would establish. Thus Dhuma Raja founded the family of Basava patna chiefs. His son Konganna Nayaka governed the area in and around Channagiri and built the fort at Basavapatna and extended his territory from Ananthapur to Mayakonda and from Harihar to Tarikere in Chikmagalur district. Inscriptions relating to rule of this family belonging to 16th and 17th centuries have been found in this district. Hanumappa Nayaka one of the chiefs, founded Santhe-bennur where he built a palace and encouraged the development of this place into a market town. When Immadi Konganna Nayaka was ruling Basavapatna in 1636 AD, the place was captured by General Ranadulla Khan of Bijapur and the Palegar retired to Tarikere and made Kaldurga as their fortress in Chikmagalur district. Since then, the chiefs of this family were known as Tarikere chiefs or Palegars. Four inscriptions found in Channagiri and Honnali indicate the rule of Adil Shah in this part. Later they regained control over the Santhe-Bennur area and held it until it was taken by the Nayakas of Chitradurga early in the 17th century. In 1717 AD, Bidanur chiefs suppressed the Nayakas of Chitradurga and built a second or outer wall to the fort and held it till 1763 AD. It was next captured by Mughals and held it until it was taken over by the Marathas in 1757 AD. Haider Ali later destroyed the fortifications and in 1791 the Marathas under Parasuram Bhan sacked it.

Dhondia Wagh (Wagh means a tiger) of Channagiri of this district was a military officer in Mysore army. He was imprisoned by Tipu Sultan, managed to escape to Nagar and organised a contingent of strong cavalry of about 5000. He too possessed a few forts in Shimoga region from where he started attacking the region around Chitradurga. He put a formidable resistance to the British who were engaged in unscrupulous game of expansion.

Ultimately, he was overcome and killed in action at Kongal in 1800 A.D. and also the whole party of Dhondia's men were destroyed.

The Britishers' period: After the fall of Tipu Sultan in 1799 A.D., the British restored the Kingdom of Wodeyars of Mysore and the area presently included in Davanagere district, also became a part of the princely state of Mysore. The rest of the history of the district runs parallel to that of the entire erstwhile state of Mysore.

Administratively the district has undergone several changes in the post palegar period. Under the British management, the division included the district of Davanagere and Tumkur. The present territory and jurisdiction of Davanagere which was earlier the part of erstwhile Chitradurga under went drastic changes during 1863, 1879 and 1882 and ultimately became a new district during 1997 August. The district administration has finally settled down with two revenue sub-divisions and six taluks.

(iii) Administrative Setup and Jurisdictional Changes during the decade - 1991-2001

Karnataka State has been divided into four revenue division, 49 sub-division, 27 districts and 175 taluks.

Davanagere District comprises of two revenue sub-divisions. while Channagiri, Davanagere, Harihar Taluks come under Davanagere sub-division, Harapanahalli and Jagalure comes under Harapanahalli sub-division. Davanagere comes under Bangalore Division.

Davanagere district was covered out by altering the limits of erstwhile Chitradurga, Bellary and Shimoga Districts vide Notification No. RD. 42 LRD 87 Part III dt.: 02/08/1997. The newly formed Davanagere district comprises in its jurisdiction the following taluks:

1. Harihar Taluk : From erstwhile Chitradurga district
2. Jagalur Taluk : From erstwhile Chitradurga district
3. Davanagere Taluk : From erstwhile Chitradurga district
4. Honnali Taluk : From erstwhile Shimoga district
5. Channagiri Taluk : From erstwhile Shimoga district
6. Harapanahalli Taluk : From erstwhile Bellary district

In 1991 census these six taluks accounted for 918 villages and in 2001 census, it has included to 923 villages.

STATEMENT SHOWING THE NUMBER OF VILLAGES / TOWNS IN EACH TALUK OF THE DISTRICT, DECADAL VARIATIONS IF ANY AND REASONS THEREOF

Sl. No.	Taluk	Total number of villages according to the list Finalised for		Total number of Towns according to the list Finalised for		Reasons for Variations in the number of villages between 1991 and 2001 Census
		2001 Census	1991 Census	2001 Census	1991 Census	
1	2	3	4	5	6	7
1	Davanagere	166	172	1	2	-
2	Harihar	84	87	1	1	Total number of villages in the taluk has declined from 87 in 1991 Census to 84 in 2001 Census. Three villages viz., Amaravathi, Guttur and Haralapur were deleted from the list of villages for having classified them as out growths of Harihar Urban Agglomeration constituted as such for the 2001 Census.
3	Jagalur	171	170	1	1	A new village viz., Narasimaharajapura was formed by altering the limits of Chaduragolla village vide Notification RD 10 LRD 92 dated 24.09.1994 and subsequently included in the list of 2001 Census, so the total number of

Sl. No.	Taluk	Total number of villages according to the list Finalised for		Total number of Towns according to the list Finalised for		Reasons for Variations in the number of villages between 1991 and 2001 Census
		2001 Census	1991 Census	2001 Census	1991 Census	
1	2	3	4	5	6	7
						villages in the taluk was increased from 170 to 171 in 1991. In 2001 Census the civic status of Jagalur Town Municipality has changed to Jagalur Town Panchayat vide Notification No. HUD 641 MLR 95(4) dated 02.11.1995.
4	Channagiri	249	246	1	1	Formerly it was in Shimoga District and later transferred to Davanagere district after its formation. This taluk witnessed formation of three new villages viz, 1. Kavali Tanda, 2. Thyavanige Tanda, 3. Neethigere Camp and with the inclusion of these three villages the total number of villages increased to 249 in 2001 Census from 246 in 1991. The civic status of Channageri Interim Mandal Panchayat upgraded into Town Panchayat vide., Notification No. HUD 641 MLR 95 (9) dated 02-11-1995.
5	Honnali	173	168	1	2	In 1991 Census this was taluk was in Shimoga district. Consequent on formation of Davangere district this taluk was transferred to Davangere district. With the formation of 5 new villages namely 1.Vijayapura, 2.Anjaneyapura, 3.Sevalalnagara, (Sasvehalli Hobli II) 4.Sevalalanagara (Govinakovi Hobli - I), 5.Vijayapura vide Notification No.RD 11 LRD 92 dated 27.9.94 and subsequent to the 2001 list of villages the total strength of the villages in the taluk increased from 168 in 1991 to 173 in 2001 Census. Further Nyamati, did not satisfy the demographic criterion for a place to be treated as an urban unit and hence declassified and included in Nyamati (rural). However, this has no effect on the total number of villages in the taluk. The civic status of Honnali Mandal Panchayat now upgraded to Town Panchayat vide., Notification No. HUD 641 MLR 95(10) dated 09-01-1996.
6	Harapanahalli	80	75	1	1	Formerly it was in Bellary district and transferred to Davanagere district after its formation. Total number of villages in this taluk has moved up from 75 in 1991 to 80 in 2001 Census due to inclusion of five newly formed villages viz., 1) Chennahalli, 2) Bapujinagar, 3) Shivapura, 4) Sevanagara and 5) Laxmipura vide Notification No. RD

Urban Local Bodies

The statutory urban local bodies are the Municipal Councils and Municipal Corporations, TMC, TP and NAC. These urban local bodies elect Councilors/ Corporators from each ward and the tenure of those Councilors/Corporators would be for five years. The President or Vice-President of the Municipal Council and the Mayor/Deputy Mayor of the Corporations are elected from among the elected Councilors/ Corporators whose tenure will be for a period one year. The Chairman of various committees are also elected among the elected Councilors with a term of one year.

The Chief Officer in Municipal Council and the Commissioner in a City Corporation are responsible for day-to-day administration and the executive authority is vested with them. There are three Town Municipal Councils and three Town Panchayaths, one City Municipal Corporation in the district.

Zilla Panchayat and Taluk Panchayat

To promote the development of institution and secure greater measure of participation by the people in the local and governmental affairs by decentralisation of power and functions and for the purpose of development, planning and implementation of various programmes there of Zilla Panchayats have been constituted in the State. The jurisdiction of Zilla Panchayat is coterminus with that of the corresponding district and covers the entire rural and semi urban area but excludes thestatutory towns. Accordingly Zilla Panchayat has been constituted for Davanagere district and its jurisdiction extends over the six Taluk Panchayats of the district. The jurisdiction of each Taluk Panchayat is coterminus with that of the taluk of the same name but excludes the area incorporated in the statutory towns or cities.

The Zilla Panchayat elects its president and vice-president and chairman of its committees from amongst the elected members. The term of these elected representatives will be for five years. An officer of the rank of IAS is deputed by the State Government as Chief Executive Officer of the Zilla Panchayat. Panchayat is assisted by various departments.

Gram Panchayats

The Government of Karnataka has enacted the Karnataka Panchayath Raj Act 1993 on 30.4.1993 replacing its previous enactment in this regard for the formation of Gram Panchayath.

STATEMENT SHOWING NUMBER OF GRAMA PANCHAYATS AND HOBLIES/FIRKAS

Sl. No.	Name of Taluk	No. of Hoblis/Firkas	No. of Grama Panchayats
1	2	3	4
1	Harihar	2	25
2	Harpanahalli	4	35
3	Jagalur	3	22
4	Davanagere	3	41
5	Honnali	6	48
6	Channagiri	6	61
	Total	24	232

Note: Details regarding Panchayatwise number of villages are furnished in Annexure I.

(iv) Physical Features

Davanagere district is situated in the southern part of the Deccan Peninsula and occupies a central position in the State of Karnataka. The maximum length of district from north to south is 100 km. where as its maximum breadth from east to west is 98 km. The most conspicuous areas of very high and very low area of the district is located at 500 and 700 metres of contour lines above the mean sea level respectively.

1. Location and Size

District Davanagere lies between the latitudinal parallels of 13 degree 50 minutes south and 14 degree 55 minutes north and longitudinal parallels of 75 degree 26 minutes west and 76 degree 33 minutes east. The district is bound by the districts of Shimoga, Chikmagalur in the south and Chitradurga in the east, Haveri in the west and Bellary in the north.

2. Physiography

The district Davangere is characterized by vast streaches of undulating places interspersed by low ranges of hilly rocks. The district is comprised of middle and upper Tungabhadra valley, Chikka Hagari Valley, Davangere and Channagiri plateaus and uplands of Jagalur and Harapanahalli. The gereral elevation above the mean sea level varies between 500 and 1000 metres. The important hill ranges of the district are Kallahalligudda range, Telgi group of hills and Narasimhadevaragudda which are found in Harapanahalli taluk.

3. Drainage

The Davanagere district lies in the middle valley of Tungabhadra river. There is a perennial supply of water in the Tungabhadra. This sacred river, the main tributary of the Krishna is formed at Kudali (Shimoga district) by the confluence of Twin Rivers Tunga and Bhadra. From Kudali, the Tungabhadra river flows towards the north. In a winding course the river forms three loopes before entering Honnali, from there it takes a direct course towards the north. The Choradi or Kumudvati joins Tungabhadra at this point towards the left. The river then bends to the northeast running towards Harihar where it is jointed by Haridra a stream flowing out of Sulekere. Again running north, it receives the Vardha on the left and flows near Hampi in Bellary district. Flowing towards Andhra Pradesh, it receives the Hargi, the Hagari and joins the Krishna a few miles beyond Kurnool at Kudalasangama. The Tungabhadra touches the district near Sirigere in Harihar taluk and leaves the district in the same taluk at a point, some eight miles east of Ranebennur.

Myothologically, the river has a prominent place in the ancient puranas. The name Tungabhadra occurs in Bhagavadgeeta. The origin of river is mentioned in the Tungabhadra Mahathmya of the Brahmanda Purana. Its banks are steep and at several places are suitable for lift irrigation. The Tungabhadra touches the district in Harihar taluk and leaves the district in the same taluk. Besides this river, two irrigation canals, namely, the Malebennur branch and the Davanagere branch of the canal network of the Bhadra Reservoir at Lakkavalli, pass through Davanagere and Harihar taluk.

4. Climate

The climate of the district is marked by hot summer months, low rainfall and a pleasant monsoon. The period from December to February constitutes the cold season and is characterized by a clear bright weather. Generally the hot season starts by the end of February and lasts till about the beginning of June, when the district comes under the influence of the south-west monsoon. The south-west monsoon extends up to September. October and November form the retreating monsoon or the post-monsoon season.

The period from about the latter half of November to February is one of the comparatively cool weather. December being the coldest month with the mean daily maximum temperature at 27.9 degree Celsius and mean daily minimum at 16.6 degree Celsius. The period from March to May is one of increasing temperatures. April is the hottest month when the mean daily maximum temperature marks upto 36.2 degree Celsius. During this season the maximum temperature may some time reach 41 degree Celsius. Relative humidity is low and particularly in summer months come down to less than 30 percent in the afternoons.

5. Winds

Winds are generally moderate with some strengthening during the period from June to October. Thunderstorms occur quite frequently in the months of April and May, and to a lesser extent during the southwest monsoon months.

6. Rainfall pattern

The District falls under northern dry, central dry and southern transition agroclimatic zones of the state. The taluks of Davanagere, Harihara and Jagalur falls under central dry zone. The taluks of Channagiri and Honnali falls under southern transition zone. Harapanahalli taluk falls under northern dry zone.

The average Rainfall in the district ranges from 529 mm in Jagalur taluk to 781mm in Channagiri taluk. The rainfall decreases from southern part of the district towards northeast and northwest part. The northwest part of Jagalur taluk receives the lowest rainfall.

Among the taluks in the district the premonsoon rainfall contributes 17 to 22% of the annual rainfall, southwest monsoon contributes 50 to 59% and northeast monsoon contributes 24 to 28% of the annual rainfall.

The coefficient of variation ranges from 55 to 63% for the premonsoon season, the highest variability (63%) being in the taluks of Harapanahalli and Harihara.

The coefficient of variation for southwest monsoon ranges from 31 to 38%, the highest being in Jagalur taluk. The coefficient of variation for northeast monsoon ranges from 59 to 66%, the highest being for Honnali taluk.

The coefficient of variation for Annual rainfall ranges from 26 to 31%. Jagalur taluk experiences high variability of rainfall.

TALUK WISE RAINFALL PATTERN, DAVANAGERE DISTRICT

Taluks (No. of years of rainfall data available)	Statistical Parameters	Pre Monsoon	South-West Monsoon	North-East Monsoon	Annual Rainfall
1	2	3	4	5	6
Channagiri (98)	Average rainfall (mm)	129	461	191	781
	Minimum rainfall (mm)	-	31	2	267
	Maximum rainfall (mm)	329	1210	480	1553

	C.V.(%)	62	38	63	31

A study of the rainfall deficit pattern during the last 20 years compared with the long term data for different seasons indicate increase in rainfall deficiency in the recent past during the premonsoon and northeast monsoon period.

Rainfall deficit during last 20 years has been compared with that of long term data in different seasons and is presented in table below.

TALUKWISE AND SEASONWISE COMPARISION OF RAINFALL DEFICIT DURING LAST 20 YEARS WITH 99 YEARS DATA, DAVANAGERE DISTRICT

Taluks	Pre Monsoon		South-West Monsoon		North-East Monsoon		Annual Rainfall	
	Long term	Recent 20 Yrs.	Long term.	Recent 20 Yrs.	Long term	Recent 20 Yrs	Long term	Recent 20 Yrs.
1	2	3	4	5	6	7	8	9
Channagiri (98)	57(58)	12(60)	21(21)	4(20)	42(43)	8(40)	23(23)	3(15)
Davanagere (98)	46(47)	15(75)	33(34)	8(40)	46(47)	11(55)	27(28)	11(55)
Harapanahalli (98)	44(45)	8(40)	21(21)	1(5)	43(44)	8(40)	21(21)	1(5)
Harihara (98)	26(26)	7(35)	30(31)	3(15)	40(41)	9(45)	18(18)	3(15)
Honnali (96)	49(51)	17(85)	19(20)	2(10)	44(46)	9(45)	26(27)	7(35)
Jagalur (98)	49(50)	12(60)	33(34)	6(30)	46(47)	10(50)	32(33)	8(40)

NOTE: Figures in bracket indicate values as percentage of number of years for which data is available or for 20 years depending on the column in which it is given.

The following inferences could be made.

· The Premonsoon rainfall in the recent 20 years is more deficit compared to the long term data, EXCEPT Harapanahalli taluk.

· Southwest monsoon is less deficit in the recent 20 years compared to the long term data with Davanagere as an exception.

· The rainfall deficit during northeast monsoon is increasing during recent 20 years compared to the long term data, except Channagiri, Harapanahalli and Honnali Taluks which do not show any significant change.

· The trend analysis of annual rainfall indicates increasing trend of rainfall deficit in the taluks of Davanagere, Honnali and Jagalur, while the taluks of Channagiri, Harapanahalli and Harihara shows a deerearing trend of rainfall deficit.

7. Forestry

The total geographical area of the district is 597597 hectares, out of which 15.0 percent of total area is covered by forest. The district itself is plain country with very little thick forest. The forest in the division consist mostly of the shrub growth and exploitation of the same for fuel and agricultural implements is increasing year by year. The over exploitation of the forest has resulted in substantial denudation. As the soil and vegetation are interdependent one cannot exist without the other. The improvement of the soil mainly depends on the growth of vegetation. Forestry schemes undertaken at various stages include the working plan method, the object being to bring the areas not covered by working scheme under proper scientific method. The main source of forest revenue in the district is from fuel and minor forest products.

The development of minor forest products engaged the attention of the department with a view to increase the forest revenue in the district.

8. Geology

The rock formation in Davanagere district falls into the categories of the crystallik schists, the granite gnesisses and the newer granite with a few later intrusive basic dykes. All these belong to the oldest rock formation recognized in India. Among the rock dolerites are conspicuous. Manganese and Iron are the chief minerals found in the district. Other minerals found in the district are asbestos and copper and gold near Jagalur taluk and Halekal in Davanagere taluk.

9. Flora & Fauna

Flora

Physiographically the district has dry and thirsty land with broken hill ranges and vast undulating

plains. The great plains are covered with stones and a dwarf species of minosa, locally called "hote jali" is dotted at wide intervals.

Coconut plantations can be seen in areas of the district wherever water resources are available. The forest in the district are called the dry deciduous scrub type. The quality of timber is poor because of poor rainfall.

The important trees found in the district are Kamara, Some or Swami-mara, Tharad or Kempu Khaira, Dindiga, Bevu, Honge, Hunase, Kakke, Sujjalu. The forest undergrowth in the district consist mainly of Thangadi (Cassia auriculta), Bandarke (Dodomia Liscosa) and Grass. The chief minor forest produce are Thangadi Bark, Kakke Bark, Tamarind, Honge leaves and flowers, gallnut and tupra.

Fauna

The hilly tract of the district has mainly a good number of leopards. Locally this animal is called as Cheetah, Kiruba, Ibbandi and Dodda Ibba. Hyenas, bears and wild bear form part of fauna of the district. Occasionally tigers are seen in the hilly areas of the district. The crocodile is found in the Tungabhadra river.

Poisonous reptiles are common in the district. Also harmless snakes, scorpions of different varieties can be seen. Common birds like crow, mynah, pigeons, woodpecker, eagles are found here as in other parts of the State. The bird fauna is not very rich. Squirrels rats, mice and monkeys are found all over. Pelican is also found. Hares are plentiful on the hill slopes and also in the valleys. However, there are no game sanctuaries in the district.

10. Soils

According to the National Bureau of Soil Survey Organisation and Land Use Planning (NSSO & ULP) the district mainly consists of four types of soil, viz, Usterts - Tropepts, Ustalfs - Tropepts, Ustalfs - Rock Outcrops and Usterts - Ustalfs - Tropepts, where the soils can be defined as follows:

i) Usterts - Deep black soil

ii) Tropepts - Shallow black, brown red alluvial soil of southern region

iii) Ustalf - High base status, red loamy, red sandy and alluvial soil.

The black soil which is found in the major part of the district including Harihara, Harapanahalli and some parts of Davanagere, Jagalur, Channagiri and Honnali, have a high water holding capacity, so it is particularly suited for rainfed crops like short staple cotton, groundnut, jowar and tur dal. A small region of the district is made up of red loamy soil, which is good for the growth of ragi.

Cropping Pattern

Paddy, Ragi, Jowar and Maize are the major crops of the district. The extent of area under major crops in hectares under each crop is given below:

LAND USE PATTERN FOR 1998-99 IN HECTARES

Name of Taluk	Geographical Area	Forest Area	Land put to Non-agricultural use			Uncultivable Fallow Land		Cultivable Fallow Land	Area Sown			Total Net Area Irrigated
			Barren and Uncultivable land	Land put to Non-agricultural use	Cultivable waste land	Permanent pastures	Trees and groves		Net Area Sown	More than once	Total Area Sown

Source : Davanagere District at a Glance, 1998-99, District Statistical Officer, Davanagere.

Land holdings for the year 1990-91 of different size are shown in the above table. The size of agricultural holdings is one of the important factors that determine the productivity of the land. Land holding pattern for the district is given in the above table, data reveals that number of marginal holdings below one hectares and small holdings of size one to two hectares constitute 64.9 per cent of the total holdings. Only 1.56 holders own land more than ten hectares.

Source : Fully revised estimates of principal crops in Karnataka for the year 1998-99, Directorate of Economics and Statistics, Bangalore

Paddy is the only major cereal crop grown in the district. Jowar, Maize and Ragi are the other important crops. Great extent of cropped area is put under the cultivation of paddy and rice. The yield of paddy under irrigated area is 5232 kg. per hectare and under un-irrigated area is 3031 kg. per hectare. As regards Maize the yield of crop under irrigated area is 4589 kg. per hectare and under un-irrigated conditions is 3767 kg. per hectare. Other oil seeds crop grown in the district are Seseamum, Nigerseed and Sunflower. Groundnut, Cotton, Sugarcane and tobacco are the commercial crops of the district. Onion, tomato, brinjal, banana are some of the plantation and horticultural crops. Dry chillies, arecanut, coconut are some of the condiments and spices crops of the district.

11. Irrigation

The irrigation potentialities of the district are not worth mentioning. However, it is a matter for solace that, river Tungabhadra, which flow through certain area of the district have provided some irrigation. There is very little scope for taking up any major irrigation work within the district. Tungabhadra is the only river, which mainly serve as the source of irrigation. Local tanks and irrigation wells in the taluks are used for irrigation. Pickup and lift irrigation is also in practice wherever feasible. A dam across Bhadra river near Lakkavalli in Chikmagalur have opened up vast potentialities for converting the dry land of several taluks into smiling green fields. The two branches of the right bank canal of the Bhadra

take off one in the direction of Harihar called the Malebennur branch and the other in the direction of Davanagere called the Davanagere branch provide assured irrigation.

NET AREA IRRIGATED BY DIFFERENT SOURCES

Name of Taluk	Net area irrigated for 1998-99 (Area in hectares)						
	Canal	Tank	Wells	Lift Irrigation	Bore Wells	Other sources	Total

Source : Davanagere District at a Glance, 1998-1999, District Statistical Officer, Davanagere

Agricultural land forms the veritable backbone of the economy of the district. Assured irrigation is the life blood of an agrarian economy. But in this respect the district is not so fortunate. It lies in an arid tract where agriculture is mainly dependent on timely and adequate rainfall. The district does not possess rich irrigation potentialities either how even as a matter of solace Tungabhadra river have provided some irrigational facilities. Total area under irrigation is 125669 hectares. Above table shows distribution of area under different source of irrigation. About 57.11 percent (71765 hectares) of area is provided with canal irrigation in all taluks except in Jagalur taluk 25.95 percent (32613 hectares) of area is provided with tube well irrigation in all taluks except Honnali taluk. Next major area is under lift irrigation which is 8.6 percent) 10923 hectares in all taluks except Channagiri and Jagalur taluks of the district.

12. Natural Wealth

The district has a few useful mineral deposite such as manganese and iron ore. Ancient mines of sulphur are also found. It is said that good quantity of gold and silver were also mined here. Copper in its ore form is found. The rock formation in the district falls into the categories of the crystalline schists, the granite gneisses and the newer granite with a few later instrusive basic dykes. Manganese and Iron are the chief mineral of the district. Talukwise mineral resources of the district are presented in the following table.

TALUK WISE MINERAL RESOURCES OF THE DISTRICT

Sl. No.	Taluk	Type of Mineral		Remarks
		Major	Minor	
1	2	3	4	5
1	Harihar	Moulding Stone	Ordinary Sand Brick Earth	The material is supplied to M/s.Kirloskar.
2	Harpanahalli	Steatite Quartz	Ordinary Sand Building Stone	-
3	Jagalur	Gold Manganese Pink Quartz	Building Stone	The area is under Forest Department. Building Stones is fed into crusher, which is abundantly available.
4	Davanagere	Copper Manganese OreIron OreAsbestos Limestone	Building Stoner Ordinary Sand	The limestone occurring at Devarabellikere can be extracted for supplementing supplies.
5	Honnali	Dolomite Lime Stone Quartz	Building Stone Ordinary Sand	Ample scope is there for cement plant.
6	Channagiri	Iron Ore Dolomite Limestone	Building Stone Ordinary Clay	-

13. Animal Husbandry

Animal husbandry and agriculture always go together. Bullock and draught cows are used for ploughing the field besides, carrying manure to the field and agricultural produce to home and to the marketing centres. Cow and buffaloes constitute the main source of milk supply. Hallikar variety of cattle is the most common breed found in the district. Cattle of Amrit Mahal breed are also found in some area of the district. The cattle in the district mainly depend on the Ragi, Jowar stalks for their fodder.

According to the live stock census 1997 the total livestock population in the district is 999948 which includes cattle, buffaloes, sheep, goats, pigs, rabbits and dogs. The total poultry stock is 317000.

The following table shows the distribution of various types of livestock in the district for the year 1997.

DISTRIBUTION OF LIVESTOCK POPULATION IN THE DISTRICT

Sl. No.	Name of Livestock	Total Livestock
1	2	3
1	Cattle	374,005
2	Buffaloes	217,038
3	Sheep	233,409
4	Goats	118,751
5	Pigs	4,212
6	Rabbits	352
7	Dogs	52,181
	Total Livestock	**999,948**
	Total Poultry	**317,000**

VETERINARY INSTITUTIONS IN THE DISTRICT FOR THE YEAR 2000

Sl. No.	Veterinary Services	No. of Institutions
1	2	3
1	Hospital	6
2	Dispensaries	40
3	Primary Veterinary Centres	77
4	Mobile Insemination Centres	6
5	Artificial Insemination Centres	25
	Total	**154**

Source: Directorate of Economics & Statistics

There are about 154 veterinary institutions of different category in the district spread over all six taluks. There are six veterinary hospitals, six mobile dispensaries, 25 artificial insemination centres and 40 veterinary dispensaries in the district. Apart from this there are 77 primary veterinary centres. These veterinary institutions are catering the needs of the livestock population in the district.

15. Fisheries

Fishery resources of the district are not much note worthy to mention for the simple reason that the district has no coastal line. The district is not developed in the field of fisheries. Hence the fishery activity is confined to inland fishing. Construction of fish tanks for seed production, rearing, development of tanks, reservoir and riverine fisheries providing financial assistance to fishermen for purchase of fishing requisites; providing share capital and marginal subsidy to fisheries, co-operatives and demonstration of improved method of fishing are some of the developmental activity under inland fisheries in the district. The district has a fishermen population of 4692 out of which 799 are active fishermen. With regard to having the active fishermen, the district can be placed in 24th place.

The following table highlight in brief the fishing activity in the district.

FISHING ACTIVITY IN THE DISTRICT

Fish Seed Stocked	In lakh fingerlings
a) Reservoirs	9.73
b) Major Tanks	27.11
c) Minor Tanks	2.47
Total	**39.31**
Estimated Fish Production	In MTs
a) Cultured	3173.30
b) Natural	336.14
Total	**3509.44**

16. Industries

Davanagere is one of the highly industrialized district. This feature may be attributed to the fact that the district is favourably situated with regard to the production of the agro-based industries, the vast network of the roads and the Bangalore-Poona railway line passing through the district headquarters and Harihar taluk which are two important industrial centers have contributed largely towards the industrial growth of the district. Cotton, which constitutes the raw material for the textile industries and groundnut, which support a large number of oil mills, are grown in considerable quantities in the district. Another important industry is Kirloskar Works at Harihar, which manufacture machine tools.

There are totally 259 factories in the district giving employment to 18,331. The table below gives talukwise details of major factories for the year 1998-99.

TALUKWISE DETAILS OF MAJOR FACTORIES FOR THE YEAR 1998-99

Name of Taluk	Number of Factories in the District					No. Employed
	Textiles	Chemicals	Engineering	Others	Total	
1	2	3	4	5	6	7

Source: District at a Glance 1998-99, Davanagere, Government of Karnataka.

Davanagere district is the chief centre of cotton textiles mills, ginning factories and oil mills. The Davanagere Cotton Mill is engaged in the production of yarn and cloth and ranks among the important textile mills of the State. There are number of oil mills in the district and most of them are located in Davanagere city itself which in addition has vanaspati manufacturing unit as well. There are number of small scale industrial units that are engaged mainly in the field of foundry and general engineering, machine tools and parts, agriculture implement etc. In Harihar taluk there are few handloom weaving units which is mainly a household industry.

18. Trade and Commerce

Banking in the modern sense was almost unknown in the old days, `Kaisala' or the hand loan was popular in the rural areas of district then. But, presently branches of many banks have been opened in all taluks to cater to the needs of public. These banks have financed the needy persons engaged in agriculture, business, transport and other activities. Cotton is the main commodity having a marketable surplus in the district. Next is groundnut. Jowar, tamarind, black gram, sesamum and millets are the other commodities. The chief places of business in the district are Hiriyur, Regulated markets established at different places in the district regularise the sale of these commodities. Consequent on growth of population and rapid urbanisation of places retail trade has spread all over. Weekly shandies are held in many places in the district. Details of number of Banks in the district/taluk wise is given below.

TALUKWISE DETAILS OF BANKS IN THE DISTRICT

There is also number of co-operative societies in the district discharging useful functions in different parts of the district and dealing with various items produced by them. There are 14 regulated markets in the district and the total turn over of these market are around 26379 lakhs. The table given below gives the details of number of co-operative societies in the district.

NUMBER OF CO-OPERATIVE SOCIETIES IN THE DISTRICT

18. Transport and Communication

The district is well served by a network of road connecting all the taluks and important trading centre outside district as well as outside State. The district being a plain country did not offer any major impediments to the development of transport and communication. Two national highways pass through the district. This is an important highway, which touches Davanagere and Harihar, two important industrial centers of the district.

19. Electricity and Power

Karnataka has a place of pride in the history of power generation in the country. KPTCL - Karnataka Power Transmission Corporation Limited (erstwhile KEB) is mainly vested with the functions of transmission and distribution of power in the entire state. The Corporation has been attaching great importance to electrification of villages and hamlets, tribal colonies and harijan basthis and energisation of irrigation pumpsets. Besides, this with a view to benefit weakest among the section of society schemes called Bhagya Jyothi / Kutir Jyothi have been introduced.

Statement given below shows talukwise number of villages electrified and talukwise energisation of IP as on 31.3.1999 in Davanagere District.

TALUKWISE NUMBER OF VILLAGES ELECTRIFIED AND ENERGISED IRRIGATION PUMP SETS AS ON 31.3.1999

(v) CENSUS CONCEPTS

Building

A 'Building' is generally a single structure on the ground. Sometimes it is made up of more than component unit which are used or likely to be used as dwellings (residences) or establishments such as shops, business houses, offices, factories, workshops, worksheds, Schools, places of entertainment, places of worship, godowns, stores etc. It is also possible that building which have component units may be used for a combination of purposes such as shop-cum-residence, workshop-cum-residence, office-cum-residence, etc.

Usually a structure will have four walls and a roof. But in some areas the very nature of construction of houses is such that there may not be any wall. Such is the case of conical structures where entrance is also provided but they may not have any walls. Therefore, such of the conical structures are also treated as separate buildings.

Permanent houses

Houses, the walls and roof of which are made of permanent materials. The material of walls can be any one from the following, namely, galvanized iron sheets or other metal sheets, asbestos sheets, burnt bricks, stones or concrete. Roof may be made of from any one of the following materials, namely, tiles, slate, galvanized iron sheets, metal sheets, asbestos sheets, bricks, stones or concrete.

Semi-permanent houses

Houses in which either the wall or the roof is made of permanent material and the other is made of temporary material.

Temporary houses

Houses in which both walls and roof are made of materials, which have to be replaced frequently. Walls may be made from any one of the following temporary materials, namely, grass, thatch, bamboo, plastic, polythene, mud, unburnt bricks or wood. Roof may be made from any one of the following temporary materials, namely, grass, thatch, bamboo, wood, mud, plastic or polythene.

Dwelling Room

A room is treated as a dwelling room if it has walls with a doorway and a roof and should be wide and long enough for a person to sleep in, i.e. it should have a length of not less than 2 meters and a breadth of at least 1.5 meters and a height of 2 meters. A dwelling room would include living room, bedroom, dining room, drawing room, study room, servant's room and other habitable rooms. Kitchen, bathroom, latrine, storeroom, passageway and verandah, which are not normally usable for living, are not considered as dwelling rooms. A room, used for multipurpose such as sleeping, sitting, dining, storing, cooking, etc., is regarded as a dwelling room. In a situation where a census houses is used as a shop or office., etc., and the household also stays in it then the room is not considered as a dwelling room. But if a servant uses a garage or servant quarter and if she/ he also lives in it as a separate household then this has been considered as a dwelling room available to the servant's household. Tent or conical shaped hut if used for living by any household is also considered as dwelling room.

A dwelling room, which is shared by more than one household, has not been counted for any of them. If two households have a dwelling room each but in addition also share a common dwelling room, then the common room has not been counted for either of the households.

Census House

A 'census house' is a building or part of a building used or recognised as a separate unit because of having a separate main entrance from the road or common courtyard or staircase, etc. It may be occupied or vacant. It may be used for residential or non- residential purpose or both.

In certain peculiar situations, the manner in which buildings and census houses were identified for numbering in the field by the enumerators is described hereunder:

Sometimes a series of different buildings are found along a street which are joined with one another by common walls on either side looking like a continuous structure. These different units are practically independent of one another and are likely to have

been built at different times and owned by different persons. In such cases, though the whole structure with all the adjoining units apparently appears to be one building, each portion was treated as a separate building and its constituent units as separate census houses.

On the other hand, one may come across cases, particularly in large cities of multi-storeyed ownership flats. In these cases while the structure looks like one building, different persons own the flats. In case of such multi-storeyed structures, having a number of flats owned by different persons, the entire structure was treated as one building and each flat as a separate census house.

If within a large enclosed area, there are separate buildings owned by different persons then each such building is treated as a separate building. There can be a situation where within an enclosed compound there are separate buildings owned by an undertaking or company or even government that are actually in occupation of different persons. For example, Indian Oil Corporation colony where the buildings are owned by the Corporation but these are in occupation of their employees. Each such building was treated as a separate building. But if in any one of these buildings there were flats in occupation of different households, each such flat was reckoned as a separate census house.

Sometimes if becomes difficult to apply the definition of census house strictly in certain cases. For example, in an urban area, if a flat has five rooms, each room having direct entrance from the common staircase or courtyard. By definition, this has to be treated as five census houses. If all these five rooms are occupied by a single household it was not realistic to treat them as five census houses. In such a case,`singleness' of use of these rooms along with the main house should be considered and the entire flat was treated as one census house. On the other hand, if two independent households occupy these five rooms, the first household living in 3 rooms and the second household occupying 2 rooms, then considering the use, the first three rooms together were treated as one census house and the remaining rooms as another census house. But if each room was occupied by an independent household, then each such room was treated as a separate census house.

In case of hostels, hotels, etc., even if the door of each room in which an inmate lives opens to a common verandah, staircase, courtyard or a common room, as it happens almost invariably, the entire hostel/ hotel building was treated as one census house. but if such hostels/ hotels have out- houses or other structures used for different purposes or the same purpose, then each such structure attached to the main hostel / hotel was treated as a separate census house.

In some parts of the country, in rural areas, the pattern of habitation is such that a group of huts, located in a compound, whether enclosed or unenclosed, is occupied by one household. While the main residence may be located in one hut, other huts may be used for sleeping, as a kitchen, bath room, baithak, etc. Though each of the huts was a separates structure, they form a single housing unit and therefore, have to be treated collectively as one building and one census house. If some of the huts are used by one household and the others by a second household as residence, then the two groups of huts were treated as separate census houses. However, if there were also other huts in the compound used for other purposes and not as part of the household's residence such as, cattle shed, workshed, etc., these were treated as separate census houses.

On the other hand, in urban areas, where more than one structure within an enclosed or open compound (premises) belonging to the same person, e.g., the main house, the servant's quarter, the garage, etc., only one building number was given for this group and each of the constituent a separate census house number.

Only cases where a structure with roof and pillars has come up was treated as a building.

Rural-Urban area

The data in tables on Houses, Household Amenities and Assets are presented separately for rural and urban areas. The unit of classification in this regard is ‘town’ for urban areas and ‘village’ for rural areas. In the Census of India 2001, the definition of urban area adopted is as follows:

a) All places with a municipality, corporation, cantonment board or notified town area committee, etc.

b) A place satisfying the following three criteria simultaneously:

i) A minimum population of 5,000;

ii) at least 75 per cent of male working population engaged in non-agricultural pursuits; and

iii) a density of population of at least 400 per sq. km.(1,000 per sq.mile)

For identification of places which would qualify to be classified as 'urban', all villages, which, as per the 1991 Census had a population of 4,000 and above, a population density of 400 persons per sq. km. and having at least 75 per cent of male working population engaged in non-agricultural activity were considered. To work out the proportion of male working population referred to above against b) (ii), the data relating to main workers were taken into account.

Apart from these, the outgrowths (OGs) of cities and towns have also been treated as urban under 'Urban Agglomerations'. Examples of out-growths are railway colonies, university campuses, port areas, military camps, etc., that may have come up near a statutory town or city but within the revenue limits of a village or villages contiguous to the town or city. Each such individual area by itself may not satisfy the demographic criteria laid down at (b) above to qualify it to be treated as an independent urban unit but may deserve to be clubbed with the towns as a continuous urban spread. Thus, the town level data, wherever presented, also includes the data for outgrowths of such towns.

City

Towns with population of 100,000 and above are called cities.

Urban Agglomeration

An Urban Agglomeration is a continuous urban spread constituting a town and its adjoining urban outgrowths (OGs) or two or more physically contiguous towns together and any adjoining urban outgrowths of such towns. In some cases railway colonies, university campuses, port areas, etc., may come up near a city or statutory town outside its statutory limits but within the revenue limits of a village or villages contiguous to the town or city. Each such individual area by itself may not satisfy the minimum population limit to qualify it to be treated as an independent urban unit but may deserve to be clubbed with the town as a continuous urban spread.

For the purpose of delineation of Urban Agglomerations during Census of India 2001, following criteria are taken as pre-requisites:

(a) The core town or at least one of the constituent towns of an urban agglomeration should necessarily be a statutory town; and

(b) The total population of all the constituents (i.e., towns and outgrowths) of an Urban Agglomeration should not be less than 20,000 (as per the 1991 Census).

With these two basic criteria having been met, the following are the possible different situations in which Urban Agglomerations would be constituted:

i) a city or town with one or more contiguous outgrowths;

ii) two or more adjoining towns with their outgrowths; and

iii) a city and one or more adjoining towns with their outgrowths all of which form a continuous spread.

Household

A ‘household’ is usually a group of persons who normally live together and take their meals from a common kitchen unless the exigencies of work prevent any of them from doing so. Persons in a household may be related or unrelated or a mix of both. However, if a group of unrelated persons live in a census house but do not take their meals from the common kitchen, then they are not constituent of a common household. Each such person was to be treated as a separate household. The important link in finding out whether it was a household or not was a common kitchen. There may be one member households, two member households or multi-member households.

Institutional Household

A group of unrelated persons who live in an institution and take their meals from a common kitchen is called an Institutional Household. Examples of

Institutional Households are boarding houses, messes, hostels, hotels, rescue homes, jails, ashrams, orphanages, etc. To make the definition more clearly perceptible to the enumerators at the Census 2001, it was specifically mentioned that this category or households would cover only those households where a group of unrelated persons live in an institution and share a common kitchen.

Houseless Household

Households who do not live in buildings or census houses but live in the open on roadside, pavements, in hume pipes, under fly-overs and staircases, or in the open in places of worship, mantaps, railway platforms, etc., are treated as Houseless Households.

Scheduled Castes and Scheduled Tribes

Article 341 of the Constitution provides that the President may, with respect to any State or Union territory, specify the castes, races or tribes or parts of or groups within castes, races or tribes which shall for the purposes of the Constitution be deemed to be Scheduled Castes in relation to that State or Union territory. Article 342 similarly provides for specification of tribes or tribal communities or parts of or groups within tribes or tribal communities, which are to be deemed for the purposes of the Constitution to be Scheduled Tribes in relation to the various States and Union territories. In pursuance of these provisions, the list of Scheduled Castes and / or Scheduled Tribes are notified for each State and Union territory and are valid only within the jurisdiction of that State or Union territory and not outside.

It is important to mention here that under the Constitution (Scheduled Castes) Order, 1950, no person who professed a religion different from Hinduism was deemed to be a member of a Scheduled Castes in addition to every member of the Ramdasi, Kabirpanthi, Majhabi or Sikligar caste resident in Punjab or Patiala and East Punjab States Union were in relation to that State whether they professed the Hindu or the Sikh religion. Subsequently, in September 1956, by an amendment, the Presidential Order of 1950 and in all subsequent Presidential Orders relating to Scheduled Castes, the Hindu and the Sikh religions were placed on the same footing with regard to the specification of Scheduled Castes. Later on, as per the amendment made in the Constitution (Scheduled Castes) Order 1990, the Hindu, the Sikh and the Buddhist were placed on the same footing with regard to the recognition of the Scheduled Castes.

The list of Scheduled Castes and Scheduled Tribes are notified for each State and Union Territory and are valid only within the jurisdiction of that State or Union Territory and not outside. In respect of Karnataka state the Scheduled Castes and Scheduled Tribes as contained in the Scheduled Castes & Scheduled Tribes Orders (Amendment) Act, 1976 are valid for the purpose of Census of India, 2001. With the promulgation of Act 39 of 1991 however, the sub entries Naik, Nayak, Beda, Bedar and Valmiki were added under the main entry at S.No. 38 (Naikda, Nayaka, …..) of the Scheduled Tribes list of the State. There are in all 101 Scheduled Castes and 49 Scheduled Tribes in the State which are listed below:

List of Scheduled Castes

1 Adi Andhra
2 Adi Dravida
3 Adi Karnataka
4 Adiya (in Coorg district)
5 Ager
6 Ajila
7 Anamuk
8 Aray Mala
9 Arunthathiyar
10 Arwa Mala
11 Baira
12 Bakad
13 Bant (in Belgaum, Bijapur, Dharwar and North Kanara districts)
14 Bakuda
15 Balagai
16 Bandi
17 Banjara, Lambani
18 Bathada

Language and Mother tongue

As per the census concept, each language is a group of mother tongues. The census questionnaire collects information on the mother tongue of each person and mother tongue is defined as the language spoken in childhood by the person's mother to the person. If the mother died in infancy, the language mainly spoken in the person's home in childhood will be the mother tongue. In the case of infants and deaf mutes, the language usually spoken by the mother is considered as mother tongue. It is not necessary that the language spoken as mother tongue should have a script. The mother tongues returned by the respondents in census are classified and grouped under appropriate languages according to their linguistic characteristics.

Literate

A person age 7 years and above who can both read and write with understanding in any language is taken as literate. A person who can only read but cannot write is not literate. It is not necessary that to be considered as literate, a person should have received any formal education or passed any minimum educational standard. Literacy could also have been achieved through adult literacy classes or through any non-formal educational system. People who are blind and can read in Braille are treated as literates.

Literacy rate

Literacy rate of the population is defined as the percentage of literates in the age group seven years and above. For different age groups the percentage of literates in that age group gives the literacy rate.

Educational level

The highest level of education a person has completed.

Work

Work is defined as participation in any economically productive activity with or without compensation, wages or profit. Such participation may be physical and/or mental in nature. Work involves not only actual work but also includes effective supervision and direction of work. It even includes part time help or unpaid work on farm, family enterprise or in any other economic activity. All persons engaged in 'work' as defined above are workers. Persons who are engaged in cultivation or milk production even solely for domestic consumption are also treated as workers.

Reference period for determining a person as worker and non-worker is one year preceding the date of enumeration.

Main worker

A person who has worked for major part of the reference period (i.e. six months or more during the last one year preceding the date of enumeration) in any economically productive activity is termed as 'Main worker'.

Marginal worker

A person who worked for less than six months of the reference period (i.e. in the last one year preceding the date of enumeration) in any economic activity is termed as 'Marginal worker'.

Non-worker

A person who has not worked at all in any economically productive activity during the reference period (i.e. last one year preceding the date of enumeration) is termed as 'Non worker'.

Cultivator

For purposes of the Census a person is classified as cultivator if he or she is engaged in cultivation on land owned or held from government or held from private persons or institutions for payment in money, kind or share. Cultivation includes effective supervision or direction in cultivation.

A person who has given out her/his land to another person or persons or institution(s) for cultivation for money, kind or share of crop and who does not even supervise or direct cultivation in exchange of land, is not treated as cultivator. Similarly, a person working on another person's land for wages in cash or kind or a combination of both (agricultural labourer) is not treated as cultivator.

Cultivation involves ploughing, sowing, harvesting and production of cereals and millet crops such as wheat, paddy, jowar, bajra, ragi, etc., and other crops such as sugarcane, tobacco, ground-nuts, tapioca, etc., and pulses, raw jute and kindred fiber crop, cotton, cinchona and other medicinal plants, fruit growing, vegetable growing or keeping orchards or groves, etc. Cultivation does not include the following plantation crops - tea, coffee, rubber, coconut and betelnuts (areca).

Agricultural labourer

A person who works on another person's land for wages in cash or kind or share is regarded as an agricultural labourer. She/he has no risk in the cultivation, but merely works on another person's land for wages. An agricultural labourer has no right of lease or contract on land on which she/he works.

Household industry worker

Household industry is defined as an industry conducted by the head of the household herself/himself and or by the members of the household at home or within the village in rural areas and only within the precincts of the house where the household lives in urban areas. The larger proportion of workers in household industry should consist of members of the household including the head. The industry should not be run on the scale of a registered factory which would qualify or has to be registered under the Indian Factories Act and should be engaged in manufacturing, processing, servicing and repairs of goods. A person who has been engaged in the economic activity like above is termed as Household Industry Worker.

It does not include professions such as a pleader, Doctor, Musician, Dancer, Waterman, Astrologer, Dhobi, Barber, etc. or merely trade or business, even if such professions, trade or services are run at home by members of the household.

Other worker

A person who has been engaged in some economic activity during the reference period but not as a cultivator or agricultural labourer or in Household Industry is termed as 'Other Worker (OW)'. The type of workers that come under this category of 'OW' include all government servants, municipal employees, teachers, factory workers, plantation workers, those engaged in trade, commerce, business, transport, banking, mining, construction, political or social work, priests, entertainment artists, etc. In effect, all those workers other than cultivators or agricultural labourers or household industry workers, are 'Other Workers'.

Work participation rate

Percentage of workers (main + marginal) to total population.

Population density

Population density is the number of persons inhabited per square kilometer of the area.

Age

Age is measured in terms of the completed number of years.

Sex ratio

Number of females per 1000 males in a population.

(vi) NON-CENSUS CONCEPTS

Improved drinking water

If the household had access to drinking water supplied from a tap, hand pump, tube well or well (protected or covered) situated within or outside the premises, it is considered as having access to improved drinking water.

It may be mentioned that such uniform definition may not be valid across all states.

System of sewerage

Generally, a sewerage system would mean a network of mains and branches of underground conduits for the conveyance of sewerage to the point of disposal. Sewers that carry only household and industrial wastage are called separate sewers; those that carry storm water from roofs, streets and other surfaces are known as storm water drains, while those carrying both sewage and storm water are called combined sewers. However, in some towns, which are not provided with such underground sewerage system, it is served by open surface drain, box drains, sylk pattern drain, etc., in these towns.

Type of latrine and Method of disposal of night soil

There are three prevalent systems of disposal of human wastes, viz.(i) underground sewerage, (ii) sanitary water flush latrines with individual disposal systems, like septic tank, leaching cess pool and collecting well, and (iii) dry type of latrines with manual scavenging.

The system of underground sewerage provides for the street sewerage with which are connected the sanitary latrines constructed in the houses having water closets and fitted with flushing cistern (or hand flushing). Through this sewer the faecal matter is transported without the need for scavenging. This system generally exists in cities and big towns.

Where the streets sewer does not exist these sanitary water flush latrines are connected to a local septic tank with a sub-soil dispersion system or a leaching pit. Here the liquid wastes from the water closet is disposed of locally in leaching pit, a septic tank with a soil dispersion system is constructed. This dispersion requires an optimum travel through the pores of the soil, which renders the harmful liquid bacterially innocuous by the slow process of filtration through the soil traversed.

Where the soil is impermeable, collecting wells are constructed and the sanitary water flush latrines are connected with them. These wells are cleaned at periodic intervals by a suitable device. The dry type of latrines are of service type latrines from where human excreta is removed by scavengers from house to house, in most cases carrying it on their heads or shoulders or in baskets with handle or wheel barrows. These are then collected in bullock carts or trucks or tractors and trolleys for being carried to the dumping grounds.

Fertility

In demography, the word fertility is used in relation to the actual production of children or occurrence of births specially live births. Fertility is a measure of rate at which population adds to itself by births and normally assessed by relating the number of births to a full or part of the population, such as number of married women or number of women of childbearing age. The definitions of the terminology used in computing different fertility rates are mentioned below:

Crude birth rate (CBR)

Ratio of the number of live births in a year to the mid year population, normally expressed per 1000 population.

$$CBR = \frac{\text{Number of live births during the year}}{\text{Mid -year Population}} \times 1000$$

Crude death rate (CDR)

Ratio of the number of deaths in a year to the mid year population, normally expressed per 1000 population.

$$CDR = \frac{\text{Number of deaths during the year}}{\text{Mid- year Population}} \times 1000$$

Natural growth rate

Growth rate is obtained as the difference between crude birth rate and crude death rate in the absence of migration.

Age specific fertility rate (ASFR)

Number of live births in a year to female population in any specified age group normally expressed per 1000 women.

$$ASFR = \frac{\text{Number of live births in a particular age group}}{\text{Mid-year female population of the same age group}} \times 1000$$

Age specific marital fertility rate (ASMFR)

Number of live births in a year to married female population in any specified age group normally expressed per 1000 married women.

$$ASMFR = \frac{\text{Number of live births in a particular agegroup}}{\text{Mid-year married female population of the same age-group}} \times 1000$$

General fertility rate (GFR)

Number of live births per 1000 women in the reproductive age-group (15-49) years in a given year.

$$GFR = \frac{\text{Number of live births in a year}}{\text{Mid-year female population in the age group (15-49) years}} \times 1000$$

General marital fertility rate (GMFR)

Number of live births per 1000 married women in reproductive age-group (15-49) years in a given year.

$$GMFR = \frac{\text{Number of live births in a year}}{\text{Mid-year married female population in the age group (15-49) years.}} \times 1000$$

Total fertility rate (TFR)

It is obtained as the total of the age specific fertility rates (number of children born per woman of the particular age) for the entire reproductive age span. It provides the average number of children that will be born to a woman under the fertility levels indicated by the age specific fertility rates assuming that there is no mortality of women till the completion of reproductive period.

$$TFR = \frac{5 \times \sum_{15\text{-}19}^{45\text{-}49} ASFR}{1000}$$

Total marital fertility rate (TMFR)

Average number of children that would be born to a married woman if she experiences the current fertility pattern throughout her reproductive span (15-49) years assuming that there is no mortality of women till the completion of reproductive period.

$$TMFR = \frac{5 \times \sum_{15\text{-}19}^{45\text{-}49} ASMFR}{1000}$$

Age-specific mortality rate (ASMR)

Number of deaths in a particular age and sex group per 1000 population of the same age group.

$$ASMR = \frac{\text{Number of deaths in a particular age group}}{\text{Mid-year population of the same age group}} \times 1000$$

q_1

Probability of dying between birth and age 1. This can be used as approximate value of Infant Mortality Rate (IMR) which gives the ratio of number of deaths in a year of children aged less than one year to the number of births in that year.

q_2

Probability of dying between birth and age 2.

q_5

Probability of dying between birth and age 5. This indicator is also known as Under Five Mortality Rate (U_5MR)

Infant mortality rate (IMR)

Ratio of the number of infant deaths (deaths of children below one year) in a year to the number of live births in that year.

$$\text{IMR} = \frac{\text{Number of infant deaths during the year}}{\text{Number of live births during the year}} \times 1000$$

Infant mortality rate comprises of two parts, viz., Neo-natal mortality rate and Post neo-natal mortality rate. The neo-natal mortality rate also comprises of two parts viz., Early neo-natal mortality rate and late neo-natal mortality rate. These are defined as:

Neo-natal mortality rate (NMR)

Number of infants dying within the first month of life (28 days or under) in a year per 1000 live births of the same year.

$$\text{NMR} = \frac{\text{Number of infant deaths aged 28 days or under during the year}}{\text{Number of live births during the year}} \times 1000$$

Early neo- natal mortality rate

$$= \frac{\text{Number of infant deaths of less than 7 days during the year}}{\text{Number of live births during the year}} \times 1000$$

Late neo-natal mortality rate

$$= \frac{\text{Number of infant deaths of 7 days to less than 29 days during the year}}{\text{Number of live births during the year}} \times 1000$$

Post neo-natal mortality rate (PNMR)

$$= \frac{\text{Number of deaths of 29 days to less than one year during the year}}{\text{Number of live births during the year}} \times 1000$$

Peri-natal mortality rate (PMR)

Number of still births plus deaths within 1st week of delivery per 1000 births in a year.

$$\text{PMR} = \frac{\text{Number of still births and infant deaths of less than 7 days during the year}}{\text{Number of live births and still births during the year}} \times 1000$$

Still birth rate (SBR)

$$= \frac{\text{Number of still births during the year}}{\text{Number of live births and still births during the year}} \times 1000$$

Maternal mortality rate (MMR)

Number of deaths of women in the age group 15-49 while pregnant or within 42 days of termination of pregnancy from any cause related to pregnancy and child birth per 100,000 live births in a given year.

$$\text{MMR} = \frac{\text{Number of maternal deaths to women in the age group 15-49}}{\text{Number of live birth}} \times 100{,}000$$

Eligible couple (Couples per 1000 population)

Number of currently married females in the age group 15-44 years per 1000 persons of all ages.

Child woman ratio (0-4)

1. Number of children in the age group 0-4 years per 1000 women in the age group 15-49 years.

Child woman ratio (5-9)

2. Number of children in the age group 5-9 years per 1000 women in the age group 15-49 years.

Migration

Migration is the third component of population change, the other two being mortality and fertility.

A person is considered as a migrant by place of birth if the place in which he/she is enumerated during the census is other than the place of his/her birth.

Similarly a person is considered as a migrant by place of last residence if the place in which he/she is enumerated during the census is other than his/her place of immediate last residence outside the village or town and not simply in another house or locality in the same village or town.

Certain aspects concerning temporary movement/ migration of people have been explained below, as these are important components concerning migration:-

i) Migration of persons in search of job is high in the country. In many cases such migrants are only seasonal in nature. People migrate to other places for work in a particular season and come back again

to their usual place of residence after three or four months. All such workers are treated as migrants. Similarly, if a person moved to any other place for attending short term vocational or educational course that lasted for only few months of a year, she/he too were considered as a migrant.

ii) Where a person had merely gone out to another place or had been shifting from one place to another purely on tour, pilgrimage, visit to hospital for treatment or for temporary business purposes, such persons are not deemed to have had another residence different from the place where she/he or her/his family normally resides. She/he is not considered as migrant.

iii) A woman temporarily moves into a hospital or to her parents or other relative's house for delivery and if the hospital or the parents/relatives houses is in a place different from usual place of residence, the place where the hospital or parents/relative's house is the place of last residence of the child but not of the mother.

A new response category 'Moved after birth' was added in Census of India 2001 in the question on 'reasons for migration' to bring out additional migration patterns. Natural calamities or distress migration as a reason for migration for last residence migrants included in 1991 Census, is covered under category of 'Others'. The reason for migration has been determined as applicable at the time of migration and not in reference to any point of time after that. For example, if a person had moved from the place of her/his last residence for the purpose of education and subsequently at some point of time got employment there only, the reason for migration would be 'education' and not 'work/employment'.

Internal and International migration

The migrational movements are of three types (i) Migration within the state itself with its components (a) Migration within the district of enumeration (intra district migration) (b) Migration from one district of state to another district of state (inter district migration), (ii) Migration from one state to another State of the country (inter-state migration), (iii) Migration from one country to another country. The first two streams together constitute internal migration, while the last type of movement is called international migration. The present name of the country, state or district and not the name by which they were known at the time of her/his birth or last residence were recorded.

Rural - Urban components of migration

Rural or Urban status in respect of migrants have been determined as applicable at the time of migration and not with reference to any point of time after that.

The flow of migrants consists of four streams viz. rural to rural, rural to urban, urban to rural and urban to urban.

Civic status of urban units

Civic Status of a town/city is determined on the basis of Civic Administrative authority of the town e.g., Municipal Corporation / Corporation, Municipal Committee/ Municipal council, Municipality etc.

Size class of UA / town

Size-class of UA/Town is based on the population size of the UA/City/Town UAs/Towns with 1,00,000 and above population is classified as Class I UAs. / Towns. These Class I Uas / Towns are now further sub classified in to seven sub classes namely M1 to M7 depending on the population size of UA/City/ Town. These are M7 (5,000,000 and above); M6 (2,000,000 to 4,999,999); M5 (1,000,000-1,999,999) M4 (500,000-999,999); M3 (300,000-499,999), M2 (200,000-299,999) & M1 (100,000-199,999). Towns with, 50,000 to 99,999 population are classified as Class II towns, 20,000 to 49,999 population are Class III towns, population with 10,000-19,999 are Class IV towns, population with 5000 and 9999 are Class V towns and towns with less than 5000 population are Class VI towns.

Slum area

The Slum Areas (Improvement and Clearance) Act, 1956 which was enacted by the Central Govt.

defined slums as a) Areas where buildings are in any respect unfit for human habitation; or b) are by reasons of dilapidation, overcrowding, fault arrangement and design of such buildings, narrowness or faulty arrangement of streets, lack of ventilation, light or sanitation facilities, or any combination of these factors, are detrimental to safety, health or morals.

Mega city

The concept of 'Mega city' is a recent phenomenon in the Urban Sociology and is defined in term of metropolitan city in the form of large size, problem of management of civic amenities and capacity to absorb the relatively high growth of population. Indian Census in 1991 treated the population size of 5 million and above as the cut off point to identify a place as the mega city. Whereas, for the purpose of inclusion in Centrally Sponsored Scheme for Infrastructure Development in Mega cities the Ministry of Urban Affairs and employment, Department of Urban Development adopted the criteria of 4 million and above population as per 1991 Census for Mega Cities. In 2001 Census, cities with 10 millions and above population have been treated as Mega cities.

(vii) 2001 Census Findings - Population and its distribution:

According to 2001 Census, the total population of Davanagere district is 1,790,952, in which male population accounts for 9,17,705 and female population accounts for 8,72,247. As may be expected, different taluks of the district and the rural and urban sectors within each such unit have experienced population growth at different rates. The rural population of Davanagere district is dispersed in as many as 810 inhabited villages belonging to 6 taluks and the urban population of the district in 6 towns. The rural-urban dictiotomy of population shows that the district is predominantly rural.

(viii) Brief analysis of data based on inset tables:

(a) Distribution of population in Rural-Urban Areas:

According to the 2001 Census, the total population of Davanagere district is 1,790,952, comprising 917,705 males and 873,247 females. The population of the district forms 3.4 percent of the state population and ranks at 11th place among the districts. Out of the total population of the district 69.7 percent lives in rural areas while 30.3 percent lives in urban areas. Rural population of the district is distributed among 6 taluks and urban population spread over in 6 towns. The total urban population in the district is 542,998 persons comprising 280,035 males and 262,963 females. The total rural population in the district comes to 1,247,954 persons and is composed of 637,670 males and 610,284 females as per 2001 Census. This rural population is distributed in 810 inhabited villages and there are 113 un-inhabited villages in the district.

(b) Size-class and Civic Status of towns:

The Statement below gives the position and number of urban units according to size-class of population as per 2001 Census:

SIZE-CLASS AND CIVIC STATUS OF TOWNS

Serial number	Size-Class of town	Name and civic status of town		Urban Population		
				Persons	Males	Females
1	2	3		4	5	6
1	II	Harihar	CMC	87,744	44,997	42,747
2	III	Harapanahalli	TP	41,907	21,888	20,019
3	IV	Jagalur	TP	14,744	7,715	7,029
4	I	Davanagere	CMC	364,523	187,987	176,536
5	IV	Honnali	TP	15,568	7,874	7,694
6	IV	Channagiri	TP	18,512	9,574	8,938

Population Growth, Density and Sex-ratio:

Population Growth:

Davanagere District witnessed a positive growth rate in each decade with 4.2, 15.7,10.2, 17.6,25.8,30.0,32.4,23.1, and 14.9 percent during the period 1901 to 2001(except 6.9 percent negative growth during the decade 1911-1921). According to the 1991 Census the total population of the district was 1,559,222. There has been net addition of 231,730 persons during 1991-2001. The decadal growth rate of the district comes to 14.9 percent. The growth rate for the rural and urban areas of the district is 11.6 and 23.3 percent respectively.

Density:

The population density of Davanagere district is 302 persons per Sq. Km. against the state average of 276 persons. At taluk level, the density varies between 165 persons in Jagalur taluk and 630 persons in Davanagere taluk. In rural areas it comes to 216 persons per Sq. Km., while in urban areas it comes to 3,779 persons. In urban areas, the density of population varies between 1,024 persons in Harapanahalli town and 22,894 persons in Honnali town.

Sex Ratio:

There are 952 females for every one thousand males in Davanagere district. The sex-ratio figures for rural areas and urban areas of the district are 957 and 939 respectively. It is also observed that, the proportion of females in rural areas is higher than that of urban areas. Sex-ratio in the age-group 0-6 comes to 946 girls per 1,000 boys in the district as a whole. In rural areas, this proportion is 950, while in urban areas the sex-ratio of Child population works out to 934 girls per 1,000 boys.

Work Participation Rate:

The work participation rate is defined as percentage of total workers to total population. According to 2001 Census, the total workers including main and marginal workers constitute 43.8 percent of total population of the district. Of the total workers, the share of main workers is 80.6 percent and marginal workers is 19.4 percent. The remaining 56.2 percent of population belongs to the category of non-workers.

As per 2001 Census among the main workers male participation rate in the district is 89.7 percent and corresponding proportion of females is 62.6 percent. The proportion of female marginal workers is higher than male marginal workers, as the females are attending to one or more economic activities in addition to their household duties to improve the family income. Majority of the workers are engaged in agricultural activities. Of the total 783,781 workers in the district, 30.8 percent of these total workers are categorized as cultivators, 34.5 percent agricultural labourers,3.9 percent in household industries and 30.8 percent in other services.

Literacy:

A person who can read and write in any language is considered as literate in Census. All children of age below 7 years are treated as illiterate.

As per 2001 Census, Davanagere district has reported 1,045,620 persons as literates constituting 67.4 percent of the total population excluding the population of 0-6 years. The male and female literacy rates in the district are 76.4 and 58.0 percent respectively. The literacy rate of males is higher than that of females. The gap in the male - female literacy rate is 18.4 in the district.

The total literacy rates of rural and urban area are 62.8 and 78.1 percent respectively. The male and female literacy rates in rural areas are 67.8 and 47.6 percent respectively. In urban areas these rates are 83.9 and 71.9 percent respectively. The gap in male - female literacy rates in urban areas is 12.0 as against 21.0 in rural areas. It is thus clear that females are better educated in urban areas than their counterparts in rural areas.

(c) Scheduled Castes and Scheduled Tribes Population 2001:

Of the 1,790,952 total population of the district 18.6 percent of the total population belong to Scheduled Castes and 11.7 percent to Scheduled Tribes. The percentage of Scheduled Castes constitute 74.1 percent in rural areas and 25.9 percent in urban areas. The proporation of Scheduled Tribes is 77.8 and 22.2 in rural and urban areas respectively.

TABLE 1: DECADAL CHANGE IN POPULATION OF TALUKS BY RESIDENCE, 1991-2001

Taluk	Population						Percentage decadal variation 1991-2001			Percentage Urban Population	
	1991			2001							
	Total	Rural	Urban	Total	Rural	Urban	Total	Rural	Urban	1991	2001
1	2	3	4	5	6	7	8	9	10	11	12
Harihar	216,793	150,146	66,647	245,654	157,910	87,744	13.3	5.2	31.7	30.7	35.7
Harapanahalli	234,092	199,946	34,146	268,793	226,886	41,907	14.8	13.5	22.7	14.6	15.6
Jagalur	136,765	124,666	12,099	158,883	144,139	14,744	16.2	15.6	21.9	8.8	9.3
Davanagere	514,168	221,706	292,462	602,523	238,000	364,523	17.2	7.3	24.6	56.9	60.5
Honnali	200,027	179,008	21,019	222,592	207,024	15,568	11.3	15.7	-25.9	10.5	7.0
Channagiri	257,377	243,242	14,135	292,507	273,995	18,512	13.6	12.6	31.0	5.5	6.3
District Total:	**1,559,222**	**1,118,714**	**440,508**	**1,790,952**	**1,247,954**	**542,998**	**14.9**	**11.6**	**23.3**	**28.3**	**30.3**

Decadal variation in population of taluk by residence is indicated in the above table. Data reveals that over all growth of 14.9 percent has been recorded in the district during the decade. The growth of population in rural areas of the district is 11.6 percent while in urban areas it is 23.3 percent. Thus, the population of district has grown faster in urban areas. Among the taluks Davanagere taluk has registered highest growth in total population. In urban areas Harihar taluk is higher. However in Honnalli taluk the urban population is indicating a decreasing trend. A negative growth rate is reported from this taluk.

TABLE 2 : NUMBER AND PERCENTAGE OF INHABITED VILLAGES IN SPECIFIED POPULATION SIZE RANGES WITH THE RELATED POPULATION, 2001

Sl. No.	District / C.D. block	Total number of inhabited villages	Total rural population			Number and percentage of villages	Population less than 200	
			Persons	Males	Females		Males	Females
1	2	3	4	5	6	7	8	9
1	Harihar	75	157,910	81,131	76,779	4 (5.3)	223	183

The above table indicates the number and percent of inhabited villages with difference population size ranges as per 2001 census. Data reveals that out of 810 inhabited villages, highest number of villages 219 (27.0) percent are in the population range of 500-999. Only one village is having a population range of 10,000. Again, 64 villages (7.9 percent) are having population less than 200. Other details can be observed from the table No. 2 above.

TABLE 3 : NEW TOWNS, DENOTIFIED, DECLASSIFIED AND MERGED TOWNS

		Name of Town
(a)	New	
(i)	Statutory Town	**NIL**
(ii)	Census Town	**NIL**
(b)	Denotified	
(i)	Statutory towns of 1991 Census denotified and also did not satisfy the criteria to be treated as Census towns.	**NIL**
(ii)	Statutory towns of 1991 Census denotified but identified as Census towns based on demographic and economic criteria.	**NIL**
(iii)	Census towns of 1991 Census are notified as Statutory towns in 2001 Census.	**1. Jagalur (MP)** **2. Honnali (MP)** **3. Channagiri (MP)**
(c)	Declassified	**NIL**
(d)	wholly merged with other towns	**NIL**

TABLE 4 : DISTRIBUTION OF VILLAGES BY POPULATION DENSITY, 2001

Range of population density (per square kilometer)	Total number of villages in each population density range	Percentage of villages in each population density range	Population	Percentage distribution of population
1	2	3	4	5
0-10	26	3.2	608	0.0
11-20	8	1.0	372	0.0
21-50	27	3.3	5,790	0.5
51-100	81	10.0	50,276	4.0
101-200	215	26.5	274,388	22.0
201-300	200	24.7	322,066	25.8
301-500	185	22.8	373,385	29.9
501 +	68	8.4	221,069	17.7
Not known	0	0.0	0	0.0
District Total:	**810**	**100.0**	**1,247,954**	**100.0**
Population Density (Rural) of the district:		**230.2**		

Distribution of villages of population density and ranges are presented in this table. The density of population for the district rural is 230.2 person / sq.km. If the villages are distributed by different ranges of population density the picture that would emerge for the rural population of the district would be as indicated in the above table. Highest number of villages 215 (26.5) comes under the population density range of 101-200. About 68 (8.4 percent) villages come under the density range of 501 and above. Again only 8 villages fall under the density of 11-20 having a population of 372.

TABLE 5 : SEX RATIO OF STATE AND DISTRICT 1901-2001

Census Years	State			Census Years	District		
	Total	Rural	Urban		Total	Rural	Urban
1	2	3	4	5	6	7	8
1901	983	984	976	1901	971	969	983
1911	981	984	960	1911	977	977	977
1921	969	975	936	1921	957	961	932
1931	965	972	927	1931	949	950	942
1941	960	965	935	1941	952	957	924
1951	966	974	941	1951	956	969	906
1961	959	973	913	1961	948	962	895
1971	957	971	913	1971	947	963	894
1981	963	978	926	1981	944	956	907
1991	960	973	930	1991	942	953	914
2001	965	976	940	2001	952	957	939

The above table gives the sex ratio for the rural and urban population of the state as well as that of the district from 1901 to 2001 Census.

It is observed that the state has recorded a decrease in the sex ratio since 1901 Census (983). However in 2001 Census the state has registered a better sex ration of 965 little higher than the ratio of 1991 Census (960).

For the district the sex ratio in 1901 Census was 971, which with some flexuation gradually decreased over the decades. However in 2001 Census the district has recorded a sex ratio of 952 better than that of 1991 (942).

It is also observed that the sex ratio in 2001 Census for the district 952 is less than that for the state (965). Again the ration for the rural women in 2001 is comparitively better than that for the urban women in state as well in the district.

TABLE 6 : SEX RATIO BY TALUKS, 2001

Sl. No.	Name of Taluk	Sex ratio		
		Total	Rural	Urban
1	2	3	4	5
1	Harihar	948	946	950
2	Harapanahalli	953	961	915
3	Jagalur	963	968	911
4	Davanagere	946	956	939
5	Honnali	960	959	977
6	Channagiri	953	954	934
	District Total:	**952**	**957**	**939**

This table gives the taluk wise sex ratio for rural and urban population as per 2001 census. It is observed from the above table that the sex ratio for rural areas is 957 and urban area is 939. The sex ratio is highest in Jagalur taluk and lowest in Davanagere taluk, whereas in urban areas highest 977 sex ratio is reported from Honnalli. The sex ratio of the district as a whole is 952 female per 1000 males.

TABLE 7: SEX RATIO BY CD BLOCKS, 2001

Sl. No.	Name of C. D. block	Sex ratio
1	2	3
1	Harihar	946
2	Harapanahalli	961
3	Jagalur	968
4	Davanagere	956
5	Honnali	959
6	Channagiri	954
	District (Rural) Total:	**957**

This table highlights the data on sex ratio by CD Blocks which includes all villages in the district. The sex ratio for the district rural is 957. Among the CD Blocks, highest sex ratio is noticed in Jagalur (968), followed by Harpanahalli (961), whereas lowest in sex ratio is reported from Harihar (946) CD Block.

TABLE 8 : SEX RATIO OF RURAL POPULATION BY RANGES, 2001

Range of sex ratio for villages	Number of inhabited villages	Percentage of villages in each range	Population 2001	Percentage distribution of population
1	2	3	4	5
Less than 700	12	1.5	523	0.0
700-749	4	0.5	222	0.0
750-799	6	0.7	1,431	0.1
800-849	17	2.1	5,029	0.4
850-899	56	6.9	57,792	4.6
900-949	244	30.1	426,107	34.1
950-999	289	35.7	584,739	46.9
1000-1099	165	20.4	166,212	13.3
1100+	17	2.1	5,899	0.5
District Total:	**810**	**100.0**	**1,247,954**	**100.0**
Sex ratio (Rural) for District:		**957**		

If the sex ratio of the rural population by ranges is given for the inhabited villages in the district the picture that would emerge is as indicated in the above table number 8. Highest number of inhabited villages 289 (35.7 percent) with 584,739 population fall under the sex ratio range of 950-999 and 165 villages falls under the sex ratio range of 1000-1099 having a population of 166,212.

TABLE 9 : SEX RATIO OF URBAN AGGLOMERATIONS / TOWNS, 2001

Sl. No.	Name of U.A. / Town	Urban status of town	Sex ratio
1	2	3	4
1	Harihar	UA	950
2	Harihar	(CMC+OG)	950
3	(i) Harihar	(CMC)	950
4	Harapanahalli	(TP)	915
5	Jagalur	(TP)	911
6	Davanagere	(CMC)	939
7	Honnali	(TP)	977
8	Channagiri	(TP)	934
	Sex ratio (Urban) for the district:		**939**

Data on urban sex ratio is presented for the district on the above table with reference to urban agglomeration/town, the sex ratio for the district urban is 939. The sex ratio is above the district urban

figures in Honnalli (TP), i.e. 977 and Harihar (MC) 950. The details of sex ratio of other urban agglomeration/towns in the district can be observed from the above table.

TABLE 10 : SEX RATIO OF POPULATION IN THE AGE GROUP 0-6 FOR TALUKS, 2001

Sl. No.	Name of Taluk	Total / Rural / Urban	Total population in 0-6 age group			Sex ratio for 0-6 age group
			Persons	Males	Females	
1	2	3	4	5	6	7
1	Harihar	Total	31,847	16,480	15,367	932
		Rural	21,286	10,919	10,367	949
		Urban	10,561	5,561	5,000	899
2	Harapanahalli	Total	40,072	20,500	19,572	955
		Rural	34,004	17,414	16,590	953
		Urban	6,068	3,086	2,982	966
3	Jagalur	Total	23,395	11,965	11,430	955
		Rural	21,527	11,031	10,496	952
		Urban	1,868	934	934	1,000
4	Davanagere	Total	78,094	40,253	37,841	940
		Rural	31,473	16,129	15,344	951
		Urban	46,621	24,124	22,497	933
5	Honnali	Total	28,895	14,732	14,163	961
		Rural	26,884	13,743	13,141	956
		Urban	2,011	989	1,022	1,033
6	Channagiri	Total	37,972	19,566	18,406	941
		Rural	35,354	18,196	17,158	943
		Urban	2,618	1,370	1,248	911
	District Total:	**Total**	**240,275**	**123,496**	**116,779**	**946**
		Rural	**170,528**	**87,432**	**83,096**	**950**
		Urban	**69,747**	**36,064**	**33,683**	**934**

Taluk wise sex ratio of population in the age group of 0-6 years with rural, urban breakup for the district is presented in the above table. Data reveals that among the taluks the sex ratio in the age group of 0-6 is highest in Honnali (961) and 955 both in Harapanahalli and Jagalur taluks. The district total for sex ratio is 946. Except for Harihar, Davanagere and Channgiri taluks where the rural sex ratio is higher and in other 3 taluks the urban sex ratio is higher.

TABLE 11 : SEX RATIO OF POPULATION IN THE AGE GROUP 0-6 FOR C.D. BLOCKS, 2001

Sl. No.	Name of C.D. block	Total population in 0-6 age group			Sex ratio for 0-6 age group
		Persons	Males	Females	
1	2	3	4	5	6
1	Harihar	21,286	10,919	10,367	949
2	Harapanahalli	34,004	17,414	16,590	953
3	Jagalur	21,527	11,031	10,496	952
4	Davanagere	31,473	16,129	15,344	951
5	Honnali	26,884	13,743	13,141	956
6	Channagiri	35,354	18,196	17,158	943
	District (Rural) Total:	**170,528**	**87,432**	**83,096**	**950**

Sex ratio for 0-6 age group in the CD Blocks of the district is presented in this table. The sex ratio for the district rural is 950. Among the CD Blocks highest sex ratio is reported form Honnalli. (956) followed by Harapanahalli (953) and lowest of 943 and 949 are reported from Channagiri and Harihar CD Blocks respectively.

TABLE 12 : SEX RATIO OF RURAL POPULATION IN THE AGE GROUP 0-6 BY RANGES, 2001

Range of sex ratio for villages	Number of inhabited villages	Percentage distribution of villages	Population 2001	Percentage distribution of population
1	2	3	4	5
Less than 700	73	9.0	3,412	2.0
700-749	24	3.0	2,651	1.6
750-799	55	6.8	9,289	5.4
800-849	55	6.8	8,698	5.1
850-899	97	12.0	24,873	14.6
900-949	119	14.7	41,408	24.3
950-999	85	10.5	27,340	16.0
1000-1099	152	18.8	33,733	19.8
1100+	150	18.5	19,124	11.2
District (Rural) Total	**810**	**100.0**	**170,528**	**100.0**
Sex ratio (Rural) for District:		**950**		

Sex ratio for the rural population by ranges has been given in the above table. The sex ratio for the district rural is 950 (in the age group 0-6). It is worth noting that 302 out of 810 inhabited villages have the sex ratio favorable for female child. About 119 inhabited villages falls under the sex ratio range of 900-949. Other details can be had from the table above.

TABLE 13 : SEX RATIO OF POPULATION IN THE AGE GROUP 0-6 OF URBAN AGGLOMERATIONS / TOWNS, 2001

Sl. No.	Name of UA / Town	Urban status of town	Total population in 0-6 age group			Sex ratio for 0-6 age group
			Persons	Males	Females	
1	2	3	4	5	6	7
1	Harihar UA		10,561	5,561	5,000	899
2	Harihar (CMC+OG)		10,561	5,561	5,000	899
3	(i) Harihar (CMC)		8,573	4,498	4,075	906
4	Harapanahalli (TP)		6,068	3,086	2,982	966
5	Jagalur (TP)		1,868	934	934	1,000
6	Davanagere (CMC)		46,621	24,124	22,497	933
7	Honnali (TP)		2,011	989	1,022	1,033
8	Channagiri (TP)		2,618	1,370	1,248	911
	District(Urban) Total		**69,747**	**36,064**	**33,683**	**934**

The child sex ratio for the urban agglomerations/towns of the district is given in the above table. Data reveals that the child sex ratio for district urban is 934 females per 1000 males. Highest child sex ratio is noticed in Honnalli (TP) (1033) followed by Jagalur(TP) 1000. Lowest child sex ratio of 899 is reported from Harihar CMC.

TABLE 14 : NUMBER AND PERCENTAGE OF SCHEDULED CASTES AND SCHEDULED TRIBES POPULATION IN TALUKS, 2001

Sl. No.	Name of Taluk	Total / Rural / Urban	Total population	Total Scheduled Castes population	Total Scheduled Tribes population	Percentage of Scheduled Castes population to total population	Percentage of Scheduled Tribes population to total population

		Urban	**542,998**	**57,692**	**33,928**	**10.6**	**6.2**

Taluk wise number and percent of SC/ST population is given in the above table. The total SC/ ST population in the district is 333,227 and 209,701 respectively. The rural-urban distribution reveals that 22.1 percent of the rural population and 10.6 percent of the urban population are scheduled castes. As regards ST 14.1 percent of rural and 6.2 per cent of urban population are scheduled tribes.The table also indicates the taluk wise percentage of SC/ST population to total population in the district.

TABLE 15 : NUMBER AND PERCENTAGE OF SCHEDULED CASTES AND SCHEDULED TRIBES POPULATION IN C.D. BLOCKS, 2001

Sl. No.	Name of C.D. block	Total population	Total Scheduled Castes population	Total Scheduled Tribes population	Percentage of Scheduled Castes population to total population	Percentage of Scheduled Tribes population to total population

	District (Rural) Total:	**1,247,954**	**275,535**	**175,773**	**22.1**	**14.1**

This table depicts population of SC and ST and its percentage proportion to total population. In rural areas of the district 22.1 percent and 14.1 percent population comprises of SC and ST respectively. Higher concentration of SC is reported from Jagalur 24.6 percent and Channagiri 24.4 percent and that of ST from Jagalur 24.7 percent and Harapanahalli 16.4 percent.

Table 16 shows the distribution of villages by percentage range of SC/ST population to total population and the percent distribution of SC population in different ranges. Data reveals that out

of 810 inhabited villages 57 villages do not have SC population. The maximum SC population falls in the range 11-20 percent in 234 villages. There are 56 villages which comprises of more than 76 percent of SC population and number of villages where the SC population varies between 51-75 percent are 58.

TABLE 16 : PROPORTION OF SCHEDULED CASTES POPULATION TO TOTAL POPULATION IN VILLAGES, 2001

District Total	**810**	**100.0**	**175,773**	**100.0**

The above table shows the distribution of villages by percentage range of ST population to total population and the percent distribution of ST population in different ranges. Data reveals that out of 810 inhabited villages, 142 villages do not have ST population. The maximum ST population falls in the range between 11-20 percent in 167 villages. There are only 28 villages where ST population varies between 51-75 percent, covering a population of 15,515. There are 32 villages where ST population comprises of more than 76 percent.

Number and percentage of SC and ST population for urban agglomeration/towns of the district is presented in table18. SC/ST constitute 10.6 percent and 6.2 percent of the district urban population. Highest 15.7 percent of SC population is reported from Jagalur TP and lowest of 5.8 percent is reported from Honnali TP. Highest 14 percent of ST population is reported from Harapanahalli (TP) and lowest 1.4 percent is reported from Honnali TP.

81-90	3	0.4	331	0.1
91-99	2	0.3	132	0.0
100	9	1.2	77	0.0
District Total:	**753**	**100.0**	**275,535**	**100.0**
Literacy rate for District (Rural):		**46.6**		

The sex wise literacy rate among SC has been given in the previous table. This table highlights the distribution of villages by literacy rate for the SC population. Literacy rate for the district rural is 46.6 percent. If the distribution of villages is made by range of literacy rate, the picture that would emerge for all the 753 inhabited villages by SC is as follows Highest number of 248 villages falls under the literacy range of 41-50 percent and 5 villages with a population of only 15 have zero percent literacy range. There are 9 villages having 100 percent literacy range.

TABLE 27 : NUMBER AND PERCENTAGE OF SCHEDULED CASTES LITERATES AND ILLITERATES BY SEX IN TOWNS, 2001

Sl. No	Name and urban status of Town	Number of literates and illiterates						Percentage of literates			Gap in male/ female literacy rate
		Number of literates			Number of illiterates						
		Persons	Males	Females	Persons	Males	Females	Persons	Males	Females	
1	2	3	4	5	6	7	8	9	10	11	12
1	Harihar (CMC+OG)	5,781	3,359	2,422	4,375	1,880	2,495	65.8	74.5	56.6	17.9

	District (Rural)	**Total:7844248419**			**30023**	**97331**	**40988**	**56343**	**52.2**	**63.2**	**40.7**	**22.5**

This table provides information on sex wise literacy rate among the ST's in the CD Blocks of the district. The percentage of literacy rate for the district rural is 52.2 percent the percentage of male literacy rate works out to 63.2 percent and that of female is 40.7 percent. The gap in male-female literacy rate is 22.5 percent for all the CD Blocks. Davanagere CD Block stands in first position in respect of highest literacy rate of 57.2 percent, highest male literacy rate of 68 percent and highest female literacy of 46.1 percent. Highest gap in male-female literacy rate is in Jagalur.

Table 29 highlights the distribution of villages by literacy rate for the ST population. Literacy rate for the district rural is 52.2 percent. If the distribution of villages is made by range of literacy rate, the picture that would emerge for all the 668 ST inhabited villages of the districts would be as indicated in the above table. Highest number of villages falls under 51-60 percent literacy range and 10 villages having a population of only 82 have zero percent literacy rate. Again 15 villages have 100 percent literacy rate.

TABLE 29 : DISTRIBUTION OF VILLAGES BY LITERACY RATE RANGE FOR SCHEDULED TRIBES POPULATION, 2001

The distribution of urban literacy rate by sex among ST's is presented in the above table. Data reveals that the literacy rate for the district urban is 64.2 percent and that of male literacy rate is 72.8 percent and female literacy rate is 55 percent. The gap between male and female literacy rate accounts for 17.8 percent. Of all the towns, Honnalli TP, stands first in the highest literacy rate of 79.4 percent, highest male literacy rate of 86.7 percent is reported from Channagiri TP. Highest gap in male-female literacy rate of 27 percent is reported from Jagalur TP, whereas highest female literacy rate of 72.4 percent has been reported from honnalli TP.

Note : - Percentages are given in brackets.

* Based on the improved drinking water source, drinking water supply has been classified as 'Improved' or otherwise. If the household has access to drinking water supplied from a tap or a hand pump / tube well situated within or outside the premises it is considered as having access to 'Improved drinking water source'. However, the concept of improved drinking water is state specific and this is to be considered accordingly.

\# Post office includes Post office, telegraph office and Post and telegraph office.

$ Transport communication includes bus service, rail facility and navigable waterways.

This table reveals brief analysis of various amenities, which are available in CD Blocks of the district. It can be seen from the above table that 93 percent of the inhabited villages have educational facilities and 95.8 percent have improved drinking water facility. Medical and post office facilities are available for 34.3 percent and 33.8 percent of villages respectively. Nearly 99.8 percent villages have power supply in the district. CD Block wise analysis shows that good percentage of inhabited villages have educational facility. The position of medical facilities varies from 24.3 percent to 61.3 percent in the CD Blocks. Availability of banking facility is not satisfactory.

TABLE 38 : NUMBER AND PERCENT OF RURAL POPULATION SERVED BY DIFFERENT AMENITIES, 2001

* Based on the improved drinking water source, drinking water supply has been classified as 'Improved' or otherwise. If the household has access to drinking water supplied from a tap or a hand pump / tube well situated within or outside the premises it is considered as having access to `Improved drinking water source'. However, the concept of improved drinking water is state specific and this is to be considered accordingly.

\# Post office includes Post office, telegraph office and Post and telegraph office.

$ Transport communication includes bus service, rail facility and navigable waterways.

CD Block wise distribution of rural population served by different amenities is presented in Table No. 38. Data reveals that 99.1 percent of the rural population is served by educational institutions while 99.5 percent have improved drinking water facility. About 61.5 percent of population has medical facility and 61.7 percent rural population is served with post facility. Above all, 100 percent of them have power supply.

TABLE 39 : DISTRIBUTION OF VILLAGES NOT HAVING CERTAIN AMENITIES, ARRANGED BY DISTANCE RANGES FROM THE PLACES WHERE THESE ARE AVAILABLE, 2001

Village not having the amenity of	Distance range of place from the villages where the amenity is available			
	Less than 5 kilometres	5-10 kilometres	10+ kilometres	Total (Col. 2 - 4)
1	2	3	4	5
1. Education :-				
(a) Primary School	67	0	0	67
(b) Middle School	267	16	1	284
(c) Degree College	107	208	478	793

Village not having the amenity of	Distance range of place from the villages where the amenity is available			
	Less than 5 kilometres	5-10 kilometres	10+ kilometres	Total (Col. 2 - 4)
1	2	3	4	5
2. Medical:-

(b) Cooperative Bank	265	237	262	764
7. Agricultural Credit Societies	395	299	95	789

There are 22 villages, which do not have any educational facility, and in these 22 villages primary school is located at a distance of less than 5 kms. About 245 villages do not have middle school out of which 228 villages have this facility at a distance of less than 5 kms. Of 700 villages not having hospitals 217 have this at a distance of less than 5 kms. For 311 villages primary health centers are available at a distance of less than 5 kms. Regarding post office, telephone and bus service good number of villages have this facility at a distance less than 5 kms. Majority of the villages have banking facility at a distance of 5 kms range.

TABLE 40 : DISTRIBUTION OF VILLAGES ACCORDING TO THE DISTANCE FROM THE NEAREST STATUTORY TOWN AND AVAILABILITY OF DIFFERENT AMENITIES, 2001

Distance range from the nearest statutory town (in kilometres)	Number of inhabited villages in each range	Type of amenity available

Post office includes Post office, Telegraph office and Post and telegraph office.

$ Transport communication includes bus service, rail facility and navigable waterways.

Table No.40 depicts distribution of villages according to distance from the nearest statutory town and availability of certain amenities. It is observed that the distance from the statutory town to the villages does not exceed 50 km except for 1 village and 4 villages have been classified as unspecified as far as distance is concerned. Distance from nearest statutory town to the village has been correlated with the type of amenities available as per 2001 census. Four categories of distance range per nearest statutory town and type of amenities available in the villages is indicated in the above table.

Table No.41 depicts the distribution of villages according to population range and availability of certain amenities. It can be seen from the above table that 392 villages are having a population of less than 1000. Only one village has population above 10,000. About 217 villages have population in the range 1000-

1999. Nearly 99.8 percent villages have power supply. Good number of villages has education. Improved drinking water facility is available in 95.8 percent villages. Post office and transport facilities are available in 33.8 percent and 84.2 percent of villages respectively. Banking facility is less in all ranges.

\# Post office includes Post office, Telegraph office and Post and telegraph office.

$ Transport communication includes bus service, rail facility and navigable waterways.

* Based on the improved drinking water source, drinking water supply has been classified as 'Improved ' or otherwise. If the household has access to drinking water supplied from a tap or a hand pump / tube well situated within or outside the premises it is considered as having access to 'Improved drinking water source'. However, the concept of improved drinking water is state specific and this is to be considered accordingly.

TABLE 42 : DISTRIBUTION OF VILLAGES ACCORDING TO LAND USE, 2001

Sl. No.	Name of C. D. block	Number of inhabited villages	Total area	Percentage of cultivable area to total area	Percentage of irrigated area to total cultivable area
1	2	3	4	5	6
1	Harihar	75	44,411	79.4	76.4
2	Harapanahalli	80	139,584	70.2	14.9
3	Jagalur	140	87,476	70.5	11.7
4	Davanagere	153	85,410	79.4	50.8
5	Honnali	153	80,701	68.4	31.2
6	Channagiri	209	104,490	66.9	37.8
	District Total:	**810**	**542,072**	**71.6**	**32.7**

Note : - Cultivable area = irrigated area + unirrigated area

Table No.42 depicts the distribution of villages according to land use. Data reveals that, only the cultivable area of the rural district has been taken into consideration, which include both irrigated and un-irrigated areas. The cultivable area of the rural portion comprise of 71.6 percent of the total area. Among the C.D. Blocks Harihar and Davanagere are having the highest percentage of cultivable area i.e. 79.4 percent. If the percentage of irrigated area to total cultivable area is considered Harihar C.D. Block is having the highest with 76.9 percent.

TABLE 43 : PER CAPITA RECEIPT AND EXPENDITURE IN STATUTORY TOWNS

Sl. No.	Class, name & urban status of the Town	Per capita receipt			Per capita expenditure					
		Total	Through taxes	From all other sources	Total	General Administration	Public health and conveniences	Public works	Public institutions	Other(s)
1	2	3	4	5	6	7	8	9	10	11
1	IV Channagiri (TP)	186	15	171	118	51	0.0	51	0.0	15
2	I Davanagere (CMC)	242	92	150	224	120	0.0	19	0.0	85
3	III Harapanahalli (TP)	306	44	262	167	72	0.1	62	0.0	33
4	II Harihar (CMC)	202	57	145	276	116	0.0	43	0.0	115
5	IV Honnali (TP)	220	29	191	199	77	0.0	23	2.0	97
6	IV Jagalur (TP)	313	41	272	234	127	0.0	22	0.0	84
District Total		**240**	**77**	**163**	**224**	**112**	**0.0**	**28**	**0.0**	**84**

The total per capita receipt of the urban district is Rs. 240/- and the total per capita expenditure is Rs. 224/-, the receipts are mainly from sources other than taxes, which is Rs. 163/-, and through taxes it is Rs. 77/-. The total per capita expenditure is mainly spent on general administration, which is Rs. 112/-, and Rs. 84/- is expenditure on 'other'. Public works expenditure is Rs. 28/-

TABLE 44 : SCHOOLS / COLLEGES PER 10,000 POPULATION IN STATUTORY TOWNS, 2001

Sl. No.	Name and urban status of Town	Type of educational institution				
		Primary	Junior Secondary / Middle	Secondary / Matriculation	Senior Secondary	College
1	2	3	4	5	6	7
1	Channagiri (TP)	5.4	3.8	2.2	1.1	0.5
2	Davanagere (CMC)	4.4	3.4	1.7	0.2	0.2
3	Harapanahalli (TP)	4.8	2.4	1.0	0.7	0.5
4	Harihar (CMC)	18.5	13.6	5.5	1.3	0.5
5	Honnali (TP)	12.8	7.7	1.3	0.6	0.6
6	Jagalur (TP)	10.2	5.4	2.7	2.7	1.4
District Total		**7.1**	**5.2**	**2.3**	**0.5**	**0.3**

The types of educational institutions per 10,000 population are given in the above table. The district urban has 7.1 primary, 5.2 Jr. Secondary/middle, 2.3 Secondary/matriculation, 0.5 Sr. Secondary and 0.3 college(s). Harihar CMC has the highest ratio of types of Institutions, except Sr. Secondary and college. Jagalur TP has 207 Sr. Secondary and 1.4 colleges per 10,000 population, which is the highest among the towns.

TABLE 45 : NUMBER OF BEDS IN MEDICAL INSTITUTIONS IN TOWNS, 2001

Sl. No.	Name and urban status of the Town	Number of beds in medical institutions per 10,000 population
1	2	3
1	Channagiri (TP)	16
2	Davanagere (CMC)	32
3	Harapanahalli (TP)	12
4	Harihar (CMC)	6
5	Honnali (TP)	32
6	Jagalur (TP)	51
	District Total	**26**

The number of beds in medical institution of urban district is reported as 26 per 10,000 population. Harihar CMC has the lowest of 6 beds and Jagalur TP the highest ratio of 51 beds per 10,000 population.

TABLE 46 : PROPORTION OF SLUM POPULATION IN TOWNS, 2001

Sl. No.	Name of the Town	Total population	Slum population	Percentage of slum population to total population
1	2	3	4	5
1	Channagiri	18,512	7,250	39.2
2	Davangere	364,523	83,089	22.8
3	Harapanahalli	41,907	6,300	15.0
4	Harihar	87,744	12,820	14.6
5	Honnali	15,568	1,823	11.7
6	Jagalur	14,744	1,200	8.1
	District Total	**542,998**	**112,482**	**20.7**

Slum population is reported from all the six towns of the district. The percentage of urban district slum population is 20.7 percent. The town wise percentage is given and the highest percentage is reported from Channagiri TP with 39.2 percent. The lowest of 8.1 percent is reported from Jagalur TP.

TABLE 47 : MOST IMPORTANT COMMODITY EXPORTED OUT OF AND MANUFACTURED IN TOWNS, 2001

Sl. No.	Name and urban status of Town	Most important commodity	
		Manufactured	Exported
1	2	3	4
1	Channagiri (TP)	Cut Sizes Of Timber	Cut Sizes Of Timber
		Earthen-Ware	Earthen-Ware
		Wooden-Furnture	Wooden Furnture
2	Davanagere (CMC)	Rice	Maize
		Wheat Products	Groundnut
		Plastic Items	Rice
3	Harapanahalli (TP)	Beedi	Beedies
		Edible Oil	Edible Oil
		Iron Equipment	Tamarind
4	Harihar (CMC*)	Lathe Machine	Lathe Machine
		Machinery Parts	Machinery Parts
		Aluminium Utensils	Aluminimum Utensils
5	Honnali (TP)	Cotton Yarn	Rice
		Puffed Rice	Cotton Yarn
		Beaten Rice	Puffed Rice
6	Jagalur (TP)	Bricks	Cotton
		-	Groundnut
		-	Arecanut

Different commodities are manufactured and exported like wooden furniture, Lathe Machine, Machinery parts, Aluminium utensils etc., along with agricultural products like Maize, Groundnut, Rice etc. The town wise commodities are listed in the above table.

x) Brief analysis of the data on houses and households amenities, Houselisting Operations, Census of India 2001 based on inset tables 48 to 52

Table No. 48 gives the distribution of households and number of dwelling rooms occupied by them. Data presented here is for the general, SC's and ST's population of the district, with a rural urban breakup. The tenure status of dwelling has also been furnished. The details of which can be seen from the above table.

Table No. 50 gives the distribution of households by availability of different amenities. Data reveals that, 96.0 percent of the households have improved drinking water, 81.6 percent of them have electricity, 65.0 percent have bathroom, 33.5 percent have toilet facility and 60.3 percent have drainage facility. All the above facilities are reported to be higher in the urban areas.

The above table provides data on households using different types of fuels for cooking purpose. The majority of households in rural areas of the district use firewood (80.3 percent) followed by households using crop residue (12.3 percent). A meager 3.6 percent use LPG. Households using other types of fuel are negligent. The percentage of urban households of the district using firewood and LPG are nearly equal, i.e. 47.6 percent and 41.3 percent respectively. The data is provided taluk wise in the district.

Table 52 provides data on households possessing specified assest and availing banking facility. The percentage of rural households in the districts availing banking facility is better than many other districts with 33.8 percent. Where as the urban percentage of households follows the general of other districts at 43.4 percent. There are 26.2 per cent and 62.5 per cent of households possessing T.V sets and 4.7 per cent and 22.8 per cent have Telephones in rural and urban areas respectively. The talukwise details are provided in the above table.

(ix) Archaeology

Palaeolithic remains found in the Davanagere district and in the neighboring district of Chitradurga, Dharwad, Shimoga and Bellary, have disclosed that man was resident in the area in those early times. In 1881, two early stone - age tools were discovered in a 'shingle-ded' at Nyamati at a short distance from the Tungabhadra river in Honnali taluk. They are bifacial pebble - tools made of quartzite, one with a rounded working edge and the other with a pointed working edge. Other than this few other Neolithic and megalithic sites have also been found in the district. Besides this, the district has many beautiful temples and monuments of archaeological and architectural interest, some of which are being preserved and protected by Archaelogical Survey of India, Bangalore. A brief mention of them are as follows:

The Harihareshwara temple of Lord Harihara in Harihar taluk is one of the important temples of Hoysala style built in 1223 A.D. The image of Harihara, has its left portion representing Vishnu and the right representing Shiva. The temple has a garbhagriha, a sukanasi, a navaranga and a mukhamantapa and a shrine of Lakshmi, standing in the left of the temple. Among other temples, Bhimeshvara temple of Nilagunda, Kalleshwara temple of Bagali and Halavagalu of Harapanahalli taluk are noteworthy. The hill, fort and ruined palace of Uchchavgidurga in Harapanahalli and the hill fort of Channagiri at the height of 61 metres are worthseeing. The large pond with a five tower built on a rock in the centre in Santhebennur and the 'musafirkhana' over there, which is a large pillared hall made up of granite, with pointed arches and a number of mutilated Hindu sculptures on the concrete roof slabs, are remarkable structures.

(x) Brief description on places of historical, religious, archaeological and tourist importance.

(1) Davanagere Taluk

i) Hadadi: At this place, inscriptions dating back to the 11th century have been found. Close to the village settlement there is the site of an ancient temple known as the temple of Ittigekallu Ranganatha. The stray finals of sculptures found in the former fort area indicates the possibility of discovering some more ancient monuments if excavation works are taken up here.

ii) Anagodu: The village is noted for its ancient temple attributed to the 11th century A.D. This temple appears to have been extended during the 17th century.

iii) Kogganur: The village is noted for its ancient temple of Ishwar. The eastern and northern cells of this 'Trikutachala' temple are now blocked up and the surrounding area outside the temple is covered up by a mound of earths.

iv) Mayakonda (rural): The place is noted for its temple of Keshava and Obala - Narasimha and the main settlement area is a municipal town since 1921.

v) Shankarahalli: There is a temple dedicated to Ranganatha Swami under the name of 'Tiruvengalanatha'.

vi) Bada: According to the inscriptions found here this was an agrahara in ancient times. There are ruins of a trikutachala temple, known as 'Kodi Basavannana Gudi' the notable sculptures of which, particularly of Garuda and Surya Narayana, are now accommodated in the local Hanuman temple.

vii) Anaji: A kadamba inscription belonging to 450 A.D. was found here. On a hill nearby are found the relics of a mud fort and a shrine of Yoganarasimha.

viii) Malalkere: This is another agrahara, also known as manalkere. There is a 'trikutachala' temple which according to a local inscription is attributed to 1701 A.D. and enshrines a linga, the idols of Janardhana and Surya Narayana. The surrounding area of the temple is covered by a mound of earth. A number of virgals and mastikals are also found here.

ix) Lokikere: This village was an agrahara during the period of later chalukyas and has a temple of 12-13th century dedicated to keteshwara, built on soap-stone. There are other noteworthy temples, one of which, of kodi kalleshwara, is much older and others of Narayana, Mailaradeva and Virabhadra belong to Hoysala period, one of Hanuman temple belong to palegar times.

x) Kodaganur: As evidenced by the ruins of a number of temples and by an inscription dated in 976 A.D., this is a place of great antiquity. The local temple of Malkandevaru, the outer portions of which are covered by a mound, belongs to 12th century. In a field nearby, there is an image of Durga with four hands in Hoysala style, known as 'Banada - Shankari' of Kodaganur mentioned in an inscription.

xi) Kabbur: Kabbur, a prominent agrahara of 12th century, has an old temple of Kalleshwara and a large mound nearby, which according to an inscription represent the site on which once stood the ancient temple of Avimuktheshwara.

(2) Harihar Taluk

i) Nanditavare: In this village, there is a small and neat temple of Ishwara, built in Hoysala style. In a inscription of 1220 A.D., the deity is called Amrita linga manikeshware. In the temple, there is an ornamental wooden frame, known as 'elechattu', which is an object of worship for the fetal-vine growers.

ii) Halivana: On the tank bund on this village, there is an old and dilapidated chalukyan temple. Several virgals, three of them containing inscriptions of the chalukyan period, are found in the precincts of this temple.

(3) Jagalur Taluk

i) Bistuvalli: Near this village there is a fine pond called Dalavayihonda, Its construction is attributed to Muddanna a Dalavaji or General of Hire Madakari Nayaka, a chief of Chitradurga during the 17th century.

ii) Asagodu: A number of mega lithic tombs found in the neighbourbood shows that this is a place of great antiquity. In the local temple of swayambhu Kalidevaswami, a number of inscriptions belonging to later Chalukyan period and onwards have been found. This village is identified with Ashoka - pattana, a centre of Buddists in ancient times.

(4) Channagiri Taluk

i) Hodigere: This village has the tomb of Shahji, the father of Shivaji Maharaj and a small temple dedicated to Bhavani.

ii) Joladalu: Local legend associates this place with sage Jamadagni, the father of Parashurama. There is a shrines dedicated to Kukkuvadamma (Renuka) and a figure of Parshurama nearby.

iii) Hosakere: this place was of considerable strategic importance in the past. The object of interest here are Kanive Durga Devi temple, tomb of Siddalinga Sivacharya Bavaji Matha containing the tomb of Shri Ramadas, Dattatreya peetha which is also known as Bababudan dargah, Shri Raghavendra Kripashrama and the Venkataramana swami temple. Idols of few Jaina Tirthankara were also discovered here. The village has a large tank known as Bade Saheb's talab, attributed to Bari-Malik, the Bijapur Governer, along with two inscriptions of 1653 A.D. on a stone regarding its construction.

iv) Santhebennur: During 16th century this place was developed as a market place by Basavapatana chiefs and was plundered successively by the armies of Bijapur Sultanate, of Haider Ali as well as the Marathas. The village had a beautiful temple of Ranganatha, which was desecrated and dismantled by the Bijapur army in order to build a mosque. Later on Basavapatna chief avenged the desecration of the temple by desecrating the Mosque. The large pond, overseeing which the Ranganatha temple once stood, towers on its bund in which 6 are now found intact and the center of the pond is adorned with a beautiful vasanta Mantapa.

v) Devarahalli: On the summit of a hill named 'Udumaradi' near this village, there is a temple dedicated to Ranganatha. The deity here is represented by a round stone marked with emblems of Vishnu, namely, the discus and the conch. Behind this stone is found an arrow - shaped linga and above that an idol of Keshava, said to here been installed by the famous Vijayanagara king Krishna Deva Raya. Lord Ranganatha is believed to have killed Ulkamukha, a demon of this place.

vi) Chikkagangoor: This village and the adjacent Hiregangoor are noted centers of traditional puppet show artists.

vii) Sulekere: Sulekere, also known as shanti sagara, is one of the largest tanks in the state measuring 104 km in circumference and was got constructed by the daughter of king Vikrama Raya, Shantavva, in 11th or 12th century by putting up barrages across Hirehalla and Soppina halla. A town named Swargavati got submerged due to formation of this tank. At the eastern end of the embankment, there is the Siddheshvara temple and a few defaced inscription stones one of which is dated in 1546 A.D. An annual festival is held here during February.

viii) Kerebilachi: The village has a site containing the ruins of mud fort walls and a Hanuman temple built of soapstone, besides a finely worked Chalukyan pillar which lies partly buried in front of the Hanuman temple.

ix) Kalkere: The village takes its name from a stone tank, which is now dried up. The ancient temple of Balleshwara constructed in 1221 A.D. according to an inscription, and those of Kalleshvara and Hanumantha found here are in various stages of decay. A virgal and a mastigudi are also seen here.

(5) Honnali Taluk

i) Kammaragatte: According to a local legend the village was formerly known as Karmaharakshetra. Lord Parshurama, it is, said, washed his blood stained battle axe at the Tunga river flowing near this village. Helavanakatte Giriyamma, a famous saint, spent the last days of her life here and in her honor, the villagers celebrate Karkotsava festival every year.

ii) Kuruva: This village located on the banks of Tungabhadra, has a river island with a chalukyan temple dedicated to Rameshvara. Several inscriptions belonging to the Hoysalas, Sevunas and the Vijayanagara monarchs have also been found here. The earliest epigraph is dated in 1142 A.D.

iii) Hirematha: The village has a veerashaiva monastery, called the Channappaswami matha founded several centuries ago by Jadeya Shankara Mahaswami, the pontiff of Shrishaila peetha. Within the premises of the matha there are the shrines of Channamallikarjuna, Veerabhadra and Chowdeshwari and also an Anubhava Mantapa. The matha has established a veda and Jyothisya pathashala and has also been publishing an almanac every year.

iv) Marikoppa: The small Haladamma shrine of this village enjoys a wide patronage in the region. Fairs are held twice a year in honour of this popular deity.

v) Balleshvara: Situated on the banks of the Tungabhadra river, this village is noted for its pretty temple of Ballalingeshvara which is built in Hoysala style. There is an ancient Jaina 'basadi' dedicated to Parshvanatha.

vi) Belaguthi: Formerly known as Belagavatti and Belagavarti this place was the chief town of sindavadi province administered by a line of chiefs known as Sindas. They were the feudatories of the Chalukyas of Kalyan and of the Hoysalas and Sevunas as well. The village contains several inscriptions of the Sinda chiefs of the 12th and 13th enturies. The other objects of interest include the ancient temples of Channakeshava and Siddeshvara. The place has a shrine of Durgambika, in honour of whom an annual fair is held in October month, which itself is famous for the wrestling matches, organised for the occasion.

vii) Tittharamapura: The temple of Rameshvara, which is built on a hillock here, attracts a large number of devotees. By the side of this temple there is a stone bull and through its mouth, water flows out incessantly.

(6) Harapanahalli Taluk

i) Kulahalli: Also known as Koovlahalli, this place has a temple which is built in a rather unusnal style and is dedicated to a 'sanyasi' (ascetic) named Goni Basappa. The annual festival held in honour of this saint attracts a large gathering.

ii) Bagali: The village has a remarkable temple of Chalukyan period, built of pot stone and dedicated to kalleshwara. There are 59 pillars in the temple, each of which differs from all the others and 36 inscribed stones, 12 of which belong to the reign of the western chalukyan king Vikramaditya VI. Five more inscriptions are found in other temples of the village.

iii) Adavihalli: In Devara Thimmalapura, a hamlet of this village, there is a large temple of Venkateshvara, said to have been built by chieftain Dadaya Nayaka, and his son Ranga Nayaka of Harpanahalli family. There are stone idols of these chiefs and their wives in the precincts of the temple. There is another shrine in this temple named as Kannu-Kottappa. The place is known for annual 'jatra' also.

iv) Neelagunda: This village has small beautiful but unfinished chalukyan temple of Bhimeshvara. The idols in the shrines of Ananthashayama and Lakshmi Narayana are also fine examples of Chalukyan art.

v) Towdur: Close to Yelaballi, a hamlet of this village, on a hillock named Narasimhagudda, an inscription rock was discovered which refer to the penance performed by several Jaina ascetics at this place and it belongs to the period of the Badami chalukyan emperor Pulikeshi II.

vi) Uchchangidurga: Under the name of Uchchangi Shringa this place was an important hill fort during the reign of early Kadambas. Later, it was the capital of a province called the Nolambavadi 3,200, and remained an impregnable fort. It was taken from

Nolambas by the Ganga king Narasimha II in about 970 A.D. The hill consists of a bare, steep, rocky ridge more than a kilometer in length from north to south, its sides being perpenducular in north and west.

vii) Halavagalu: This village has a Chalukyan temple built of black stone. There is hardly any carved work in it, making it plainest of all the temple of this type.

(xi) Brief note on places of interest and around the towns:

1) Davanagere: Davangere which is now an important commercial, industrial and educational center was originally an obscure village. In ancient days, for sometime, it formed part of the kingdom of the Devagiri Yadavas. From about the time of Hyder Ali it began to emerge as a noted commercial center. At present the city has textile mills, a number of cotton ginning mills and oil mills besides engineering workshops. It is also a prominent center of technical and professional education.

2) Harihar: Harihar is a town of great antiquity. According to a legend Guha or Guhasura, a giant who had become a menace alike to the gods and human beings was killed here by Hari, i.e, Vishnu and Hara, i.e., Shiva, who combined themselves into a singleform called Harihara. At the confluence of Haridra and Tungabhadra rivers there are impressions on rocks pointed out as the footprints of Lord Harihara. The temple of Harihareshwara, which is in Hoysala style of architecture, built in 1223 A.D. by Polava, a General of Narasimha II, is the main attraction and spot of tourist interest in the town. The idol of the deity is unique in that it has the attributes of Vishnu on its left side and those of Shiva on its right. Several inscriptions belonging to the Chalukya, the Hoysala, the Yadava and the Vijayanagara periods are found in the precincts of the temple, one of which is inscribed on a slab of 5 metres height and happens to be one of the tallest inscription stones in the state.

The town, being located on the banks of the river Tungabhadra, is an ideal picnic spot. A road bridge across the river, with 14 elliptical arches of a span of 20 metres each, is a splendid construction. The town is famous for the Kirloskar company and for Harihar polyfibres. The town has a railway station enroute to Miraj and Bombay.

3) Jagalur: The town has a shrine dedicated to Jogappa, a saint after whom this place has been named. There is a veerashaiva matha also and it contains a 'Gadduge' (tomb shrine) of Thotada Swami.

4) Harapanahalli: This was formerly the seat of one of the most powerful paleyagaras. The old fort, now in ruins, was built on a level ground, covered by two tanks Venkataramanaswami and Kannu-Kottappa besides a Jaina 'basti' called Bogar Basti. The temple is known for the publication of an almanac called Siddanta panchanga, founded by late B.Hayat Saheb Siddhanti.

5) Honnali: Honnali is an ancient place identified with 'Bhaskara Kshetra' mentioned in 'puranas'. The small Mallikarjuna shrine here has an inscription (dated in 1055 A.D.) which attributes the construction of the shrine to queen Hoysaladevi. The old town has the ruins of a fort and a moat.

6) Channagiri: Channagiri takes its name after Rani Channammaji (of the Keladi family) who erected the fort here and granted the place as an estate to her sister. On the top of the hill, there is a temple of Bete Ranganathaswami which enshrines an idol of Vishnu standing in the Samabhanga posture and also has a wooden image of Hanuman with 5 heads & 8 hands. The Keteshvara temple here is of the chalukyan style and according to an inscription, was restored by a pious lady in 1142 A.D. The mrittika brindavana of Raghavendraswami here is regarded as holy shrine endowed with miraculous powers. The Dodda Masidi containing the tomb (built in about 1636 A.D.) of Mohabat Shah Mastan Khadri deserves a mention. About a kilometer distant from the town there is a Chalukyan stone shrine called Kallumatha, which is almost entirely covered up, by a large mound of earth.

(xii) SCOPE OF VILLAGE DIRECTORY AND TOWN DIRECTORY

Village Directory

Village Directory provides micro-level data, which will help the planners in formulation of micro-level developmental plans, as the C.D.Block is the lowest administrative unit for developmental planning. Village wise information regarding the availability of certain basic amenities and facilities within the village, as also that on the manner of utilization of the land in the concerned village is furnished in the village directory. The village directory format adopted for the 2001 Census has 23 columns whereas in the 1991

Census there were only 18 columns. When compared with the 1991 Census Village Directory format, column 9, which refers to the day or days of weekly market/ hat if any, has been now left out. New inclusions are in respect of facilities like banks, agricultural credit societies, non-agricultural credit societies, other co-operative societies, number of recreational and cultural facilities like cinema/video hall, sports club, stadium/ auditorium; receipt of news papers/magazines and the name of the most important commodities manufactured in the village. In all the 23 columns in this tabulation statement, first 3 columns relates to serial number, name of the village with location code and area of village while the next 2 provide information on total population and number of households in the village as per 2001 Census. The next 8 columns relate to basic amenities such as educational; medical; drinking water (potable); post, telegraph and telephone, commercial and co-operative banks, agricultural, non-agricultural and other credit societies, number of recreational and cultural facilities such as cinema/video hall, sports club and stadium/auditorium and communications (bus service, railway station, waterway). Information in respect of approach to village, nearest town and distance in Kms, power supply, receipt of news paper/magazine, names of the most important commodities manufactured in the village are furnished in columns 14 to 18. Amenities available within the villages are shown in the respective columns and if a particular amenity especially Primary School, Middle School, College, Allopathic Hospital, PHC, MCW, Post Office, Telephone, etc., is not available in the village, the respective abbreviation is given and next to it in brackets the distance in broad ranges viz., < 5 kms, 5-10 kms and 10+ kms of the nearest place where the facility available to that particular village is indicated. The next 5 columns, 19 to 23 provide information regarding land use (i.e., area under different types of land use in hectares rounded to two decimal places) such as forest, irrigated land by source of irrigation, unirrigated, cultivable waste (including gauchar and groves) and finally the area not available for cultivation.

Town Directory

The Town Directory section contains seven statements (I to VII) which furnish information on all the statutory towns in the district, on aspects such as growth history, physical aspects and location of towns, municipal finance, civic and other amenities in the town, medical, educational, recreational and cultural facilities, trade, commerce, industry and banking in the towns, civic and other amenities in slum areas of the town. The scope of the various column headings adopted during 1991 census has remained unchanged in 2001.

Note :

1. The area figure for the district given under column No 3 against " Total" represents "Geographical Area" and has been furnished by the Surveyor General India. The figures for the urban areas are either those supplied by civic administration authorities of the towns or compiled and supplied by the Director of Survey, Settlement and Land Records or compiled in this Directorate on the basis of the available records pertaining to the delimitation of urban units. Area figures for Rural Areas are derived by subtracting the Total Urban Area from the Total Area of the District.

The total of the area figures of all the C.D. Blocks/Taluks in this district will not tally with the district figures (except urban), because the area figures for C.D. Blocks/Taluks represents the land-use area based on village wise area figures as reported by the local officers. The total area of the taluk may not tally with the aggregate of the areas of the villages listed for Census purposes for it includes the area of the statutory as well as non-statutory towns, villages which may be fully submerged and reserve forests which may not form part of any revenue village, if any, within the jurisdiction of the concerned taluk. The total area of the C.D. Block is derived by subtracting the area of the statutory town or towns (within the jurisdiction of the concerned taluks) from the total area of the taluk.

2. Out growths of towns in urban agglomerations are denoted by letter "OG".

3. The following abbreviations have been used to indicate the Civic Administration Status of town.

M.Corp	:	*Municipal Corporation*
CMC	:	*City Municipal Council*
TMC	:	*Town Municipal Council*
TP	:	*Town Panchayat*
NAC	:	*Notified Area Committee*
CB	:	*Cantonment Board*
CT	:	*Census Town (Non-Municipal Census Town / Non-Statutory Town)*

SECTION – I

VILLAGE DIRECTORY

(a) NOTE EXPLAINING THE ABBREVIATIONS USED IN THE VILLAGE DIRECTORY

The "Village Directory" is one of the traditional compilations of the Census. It gives the list of villages, their location numbers, their area, population, number of households, amenities such as educational, medical, drinking water, post and telegraph, commercial and cooperative banks, agricultural non-agricultural and other credit societies, recreational and cultural facilities, communication, approach to village, nearest town with a distance, power supply availability of newspaper and magazines, most important commodity manufactured and land use of each village.

Village is a statutory recognized unit having a definite boundary and separate land records. In case, a complete village is treated as an outgrowth of urban agglomeration, data on amenities for that village, have not been given in the Village Directory but shown along with the urban component. The villages which are considered as a Census Town , the amenities data are shown in the Town Directory. For those villages which have partly merged in an outgrowth of U.A., the amenities data are shown in the Village Directory for that particular village.

The 'uninhabited' villages (villages with no population) have been indicated as such after furnishing details in columns 1 to 3 i.e., Serial number, Name of village & location code number and area of the village against column no. 4 to 18. The land use data for such villages are shown in col. 19 to 23.

The Village Directory format has 23 columns and the details given under each column are as follows :

Columns 1 : Serial Number

Self explanatory. All the villages within the CD Block are presented serially in the ascending order of their location code number.

Columns 2 : Name and Location Code Number of village.

The name and location code number of the village are shown against these columns. This also includes the forest and un-inhabited villages.

Column 3 : Area of the village

The area of the village in hectares are given. Wherever the area figures was not furnished by the concerned department the column is left blank.

Column 4 : Total population

The total population of the village as per 2001 Census is given against this column.

Column 5 : Number of households

The number of households as per 2001 Census is given in this column.

Amenities :

In column 6 to 23, availability in respect of different amenities such as education, medical, drinking water, post, telegraph, banks, credit societies, communication, power, approach road etc. in each village has been depicted with appropriate codes against the column concerned. Wherever the amenities are not available in the village, a dash (-) is shown in the column and next to it in brackets the distance in broad ranges viz.< 5 kms., 5-10 kms. and 10+ kms. of the nearest place where the facility is available is given. Column wise details are given below

Column 6 : Educational

Classes upto class IV included in Primary School. This will include nursery school, kindergarten school. Pre-basic school, pre-primary school, junior basic school upto class IV.

Classes from V to VII are included in the middle school.

Classes from VIII to X included in Higher secondary school. Classes XI and XII are treated as equivalent to Pre-University Course.

In case of composite schools like middle school with primary school or secondary school with middle school, these are also included in the number of primary and middle schools, respectively.

Accordingly any of the following types of institutions if exists within the village is shown as per codes given below :

(i)	Primary School	P
(ii)	Middle School	M
(iii)	Secondary School	S
(iv)	Senior Secondary School	PUC
(v)	College	C
(vi)	Industrial School	I
(vii)	Training School	Tr
(viii)	Adult literacy class/centre	AC
(ix)	Others (specify) e.g. Sanskrit Pathshala, Senior basic school, Navodaya Vidyalaya, Makhtab, etc.	O

More than one institution of a type in the village is indicated by the number within brackets against the abbreviation, e.g. P(3), M(4), etc.

Column 7 : Medical

Availability of medical facility within the village is indicated by following codes :

(i)	Allopathic Hospital	H
	Ayurvedic Hospital	HA
	Unani Hospital	HU
	Homeopathic Hospital	H Hom
(ii)	Allopathic Dispensary	D
	Ayurvedic Dispensary	DA
	Unani Dispensary	DU
	Homeopathic Dispensary	D Hom
(iii)	Maternity & Child Welfare	MCW
(iv)	Maternity Home	MH
(v)	Child Welfare Centre	CWC
(vi)	Health Centre	HC
(vii)	Primary Health Centre	PHC
(viii)	Primary Health SubCentre	PHS
(ix)	Family Welfare Centre	FWC
(x)	T.B. Clinic	TB
(xi)	Nursing Home	NH
(xii)	Registered Private Medical Practitioner	RMP
(xiii)	Subsidised Medical Practitioner	SMP
(xiv)	Community Health Worker	CHW
(xv)	Others	O

More than one institution of a type in the village is indicated by the number within brackets against the abbreviations, e.g. H(3), D(4), etc.

Column 8 : Drinking Water

The type of the drinking water supply sources available within the village are indicated by codes as follows :

(i)	Tap Water	T
(ii)	Well Water	W
(iii)	Tank Water	TK
(iv)	Tubewell Water	TW
(v)	Hand pump	HP
(vi)	River Water	R
(vii)	Canal	C
(viii)	Lake	L
(ix)	Spring	S
(x)	Others	O
(xi)	Summer Source	SS

Column 9 : Post, Telegraph and Telephone

It is indicated by codes as shown below whether within the village exists the following amenities:

(i)	Post Office	PO
(ii)	Telegraph Office	TO
(iii)	Post & Telegraph Office	PTO
(iv)	Telephone Connection	PH

Column 10: Commercial and Co-operative Banks

If the village is served by any banking service, commercial bank, co-operative bank etc. the same is indicated in codes mentioned below along with the number of banks in brackets. If not available the distance of nearest place where the facility exist is given:

(i)	Commercial Bank	CM
(ii)	Co-operative Bank	CP

Column 11 : Credit Societies

If the village enjoys the services of Credit Societies i.e. Agricultural Credit Societies, Non-Agricultural Credit Society or Other Credit Societies, the same is indicated in codes mentioned below along with the number of such societies in brackets. In case the facility is not available within the village the distance of the nearest place where such facility exist is given :

(i)	Agricultural Credit Society	ACS
(ii)	Non Agricultural Credit Society	NCS
(iii)	Other Credit Society	OCS

Column 12: Recreational and cultural facilities

If facilities such as Cinema/Video hall, Sports Club, Stadium/Auditorium is available in the village, the same is recorded in these columns. If not available the particulars of the nearest place with the facility is recorded. The information is indicated in codes mentioned below along with the number of such facilities in brackets:

(i)	Cinema / Video Hall	CV
(ii)	Sports Club	SP
(iii)	Stadium / Auditorium	ST

Column 13 : Communications

If the village is served by any mode of public / private transport like Bus, Railway station or Navigable water ways they are mentioned as follows:

(i)	Bus	BS
(ii)	Railway Station	RS
(iii)	Navigable Waterway	NW

Column 14 : Approach to village

Approach to village refers to the state of road leading to village. The approach to the village is indicated in following codes :

(i)	Paved Road	PR
(ii)	Mud road	MR
(iii)	Foot path	FP
(iv)	Navigable River	NR
(v)	Navigable Canal	NC
(vi)	Navigable waterways other than River, Canal	NW

Column 15 : Nearest Town and distance

The distance is given in kilometers in brackets against the name of the town nearest to the village.

Column 16 : Power supply

Availability of Power Supply in the village, whatever may be the form of its use is given by using following codes :

(i)	Electricity for domestic use	ED
(ii)	Electricity for agricultural use	EAG
(iii)	Electricity for other purposes	EO
(iv)	Electricity for all purposes	EA

Column 17 : News Paper / Magazine

If the village receives any News Paper/Magazines, the same is noted in this column using following codes :

(i)	News Paper	N
(ii)	Magazine	M

Column 18 : Most important commodities manufactured

The name of three most important commodities manufactured in the village is recorded against this column.

Column 19 to 23: Land use i.e. area under different types of land use

Land use data maintained by the State/ UT Govts. are furnished against these columns. The data concerning area under Forest, Irrigated land (by source), Unirrigated land, Culturable waste and Area not available for cultivation in the village are shown against these columns. The area figures are given in hectare(s) up to one decimal. Dash ‘‘-” is recorded wherever the information is not made available by the concerned department. The codes used for different types of irrigation facilities available in the village are indicated below:

(i)	Government Canal	GC
(ii)	Private Canal	PC
(iii)	Well (without electricity)	W
(iv)	Well (with electricity)	WE
(v)	Tubewell(without electricity)	TW
(vi)	Tubewell(with electricity)	TWE
(vii)	Tank	TK
(viii)	River	R
(ix)	Lake	L
(x)	Waterfall	WF
(xi)	Others	O
(xii)	Total	T

The village directory also carries the following appendices.

Appendix-I	It gives the abstract of educational, medical and other amenities available in villages C D Block wise of the district.
Appendix-I-A	Indicates number of villages C D Block wise having one or more primary schools.
Appendix-I-B	Indicates number of villages C D Block wise having primary, middle and secondary schools.
Appendix-I-C	Shows number of villages C D Block wise with different sources of drinking water facilities.
Appendix-II	Indicates the list of villages with 5,000 and above population which do not have one or more important amenities.
Appendix-II-A	Indicates list of Census Towns which do not have one or more amenities.
Appendix-III	It gives the land utilization data in respect of Census Towns / non-municipal Towns.
Appendix-IV	C D Block wise list of inhabited villages where no amenity other than drinking water facility is available.
Appendix-V	Summary showing number of villages not having Scheduled Castes population.
Appendix-VI	Summary showing number of villages not having Scheduled Tribes population.
Appendix- VII-A & VII-B	The appendix shows the list of villages according to proportion of the Scheduled castes and Scheduled Tribes to the total population by ranges.
Appendix-VIII	Indicates C D Block wise number of villages under each Grama Panchayat.
Appendix-IX	Shows number of different types of girls school in a village.

TOWN DIRECTORY

(a) NOTE EXPLAINING THE ABBREVIATIONS USED IN THE TOWN DIRECTORY

Town Directory statements (I to VII)

Statement I: Status and Growth History

Column (2): Class, name and civic administration status of town:

Class has been introduced to facilitate analysis of town directory data at the state and all India levels. It is presented according to 2001 Census Population of the town as follows:

Population	Class
100,000 and above	I
50,000 99,999	II
20,000 49,999	III
10,000 19,999	IV
5,000 9,999	V
Below 5,000	VI

Town with a population of one hundred thousand (1,00,000)and above is treated as a city.

The civic administration status of the towns is indicated within bracket against the name of the town. The following abbreviations are used to denote civic status of town.

(I)	Municipal Corporation	M. Corp.
(II)	Municipal Committee	MC
(III)	Municipal Council	M Cl
(IV)	City Municipal Council	CMC
(V)	Town Municipal Council	TMC
(VI)	Municipal Board	MB
(VII)	Municipality	M
(VIII)	Cantonment Board/Cantonment	CB
(IX)	Notified Area	NA
(X)	Notified Town	NT
(XI)	Notified Area Committee/ Notified Area Council	NAC
(XII)	Notified Town Area	NTA
(XIII)	Industrial Notified Area	INA
(XIV)	Industrial Township	ITS
(XV)	Township	TS
(XVI)	Town Panchayat	TP
(XVII)	Nagar Panchayat	NP
(XVIII)	Town Committee/Town Area Committee	TC
(XIX)	Small Town Committee	ST
(XX)	Estate office	EO
(XXI)	Gram Panchayat	GP
(XXII)	Census Town	CT

Others columns need no comments.

Statement II Physical Aspects and Location of towns, 1999.

Column 3 to 5: Physical Aspects

In this columns the Rainfall and Maximum & Minimum Temperature of the town is recorded.

Column 6, 7 and 8:

Name of the State headquarters, District headquarters and SubDivisional headquarters with distance from the referent town in kilometers, is to be recorded respectively. If the names mentioned in these columns are the same as the referent town itself, the distance is recorded as (0) zero.

Column 9 & 10:

Name of the nearest city with one lakh and more and five lakhs and more population are recorded.

Column 11, 12 and 13:

If referent town enjoys the facility of railway station, bus route facility or navigable river/canal. Its name is to be mentioned. If not available, then the name of nearest place with distance, where such facility exists is to be mentioned.

Statement III : Municipal Finance 1998 - 1999

Itemwise amount of receipt and expenditure in thousand rupees, relating to municipal finance of the town for the year 1998-99 is to be recorded.

Statement IV: Civic and Other amenities, 1999

Column (1 to 5): Self explanatory.

Column (6): Road length (in kms.)

Information about kutcha / pucca road is to be recorded separately for the roads within the limits of the referent town.

(i)	Pucca Road	PR
(ii)	Kutcha Road	KR

Column (7): System of Sewerage

Generally, by sewerage system is implied the network of mains and branches of underground conduits for the conveyance of sewerage to the point of disposal. Sewers that carry only household and industrial wastes are called separate sewers, those that carry storm water from roofs, streets and other surface are known as storm water drains, while those carrying both sewage and storm water are called combined sewers.

The codes used for different types of drainage system are as follows:

(i)	Sewer	S
(ii)	Open Surface Drains	OSD
(iii)	Box Surface Drains	BSD
(iv)	Sylk Drains	SD
(v)	Cesspool method	CP
(vi)	Pit System	Pt
(vii)	Others	O

Column 8 to 11: Number of latrines

Number of various types of latrines both Public and Private are given in these columns.

Column 12: Method of disposal of night soil

The various prevalent method of disposal of night soil are given below with codes:

Head Loads	HL
Basket	B
Wheel Barrows	WB
Septic Tank	ST
Pit System	Pt
Sewerage	S
Others	O

Column 13 and 14: Water supply

Source and capacity of storage system. The following codes are used in these columns:

Column 13:

(i)	Tap water	T
(ii)	Tubewell water	TW
(iii)	Tank Water	TK
(iv)	Well water	W

Column 14:

(v)	Over Head Tank	OHT
(vi)	Service Reservoir	SR
(vii)	River Infiltration Gallery	RIG
(viii)	Bore Well Pumping System	BWP
(ix)	Pressure Tank	PT

The information on major source of water supply are given in column 13 and the storage capacity against each in kilolitres (in bracket) are presented in column 14.

Column 15: Fire Fighting Service

In case the fire fighting service is available in the referent town 'yes' is recorded. If the facility is not available within the town. The name of the nearest place having this facility with its distance from the referent town has been recorded.

Column 16 to 20: Electrification (Number of connections)

Different types of electric connections have been shown in these columns, i.e. Domestic, Industrial, Commercial, Road lighting (points) & others.

Statement V : Medical, Educational, Recreational and Cultural Facilities, 1999

Column 1 to 3: Self explanatory.

Column 4 & 5:

The data covers all such medical institutions run by or aided by Government/Semi Government/Local bodies and Charitable institutions or Social agencies like the Missionaries. Where the family planning centres are attached to hospitals or maternity and child welfare centres or Primary Health Centres, may be treated as independent units and counted separately using following codes:

(i)	Hospital	H
(ii)	Dispensary	D
(iii)	Health Centre	HC
(iv)	Family Welfare Centre	FWC
(v)	T.B. Clinic	TB
(vi)	Nursing Home	NH
(vii)	Others	O

In case of more than one institutions of any type, it is indicated within brackets the number of such institution (s) e.g. D(3), NH(8), etc. The institutions have further been distinguished by providing additional codes within the bracket as given below:

Ayurvedic	A
Unani	U
Homoeopathic	Hom

Column 6 to 9:

The codes used for these columns are as follows:

(i)	Arts only	A
(ii)	Science only	S
(iii)	Commerce only	C
(iv)	Arts & Science only	AS
(v)	Arts & Commerce only	AC
(vi)	Combined for all categories Arts, Science and Commerce	ASC
(vii)	Law	L
(viii)	University	U
(ix)	Others	O

Column 10: Recognized shorthand, typewriting and vocational training institutes

"Recognised" should mean recognised by some statutory authority, like education department, commerce department, labour department etc. of the government or semi government or autonomous bodies, public sector undertakings etc.

The following codes are used:

(i)	Vocational Training Institute	VT
(ii)	Shorthand	SH
(iii)	Typewriting	Type
(iv)	Shorthand & Typewriting	SH Type
(v)	Others	O

The vocational institutions like Applied Art/Painting college, Pharmacy college, B. Ed. College, Teacher's Training Institute, Music / Dance School, Nursing School etc. are covered under 'Others'.

Column 11 to 14: Higher Secondary/ Intermediate/ Senior Secondary/PUC/Junior College level, Secondary/Matriculation, Middle Schools/ Junior Secondary and Primary Schools.

School up to class V are treated as Primary or elementary schools. These include Nursery schools, Kindergarten schools, PrePrimary schools, Junior Basic schools upto class V and Primary schools upto class IV.

Schools upto VIII are considered as Middle school or Junior Secondary.

Schools upto class X are considered as Matriculation or Secondary schools.

Schools upto XI or XII classes are considered as Higher Secondary / Intermediate / Pre University / Junior College etc. This would cover 10+2 classes whether held in schools or college.

If there are composite schools like middle schools with primary classes or Secondary schools with Middle classes, these are also included in the number of Primary and Middle schools, respectively. For example, if in a town, there are two Primary Schools and one Middle school with Primary classes, the number of Primary schools in the town is given as three and that of Middle schools as one though there are only three educational institutions.

If there are more institutions of a type in the town, the number is indicated within bracket along with the abbreviation, e.g. P(4), M(3).

Column 15: Adult literacy class/centres

This column has been introduced keeping in view the Minimum Needs Programme of the Planning Commission. There are number of Adult Education Centres which are included in these columns.

If an educational facility is not available in the town, the name of the nearest place and its distance in kilometres from the town where the facility is available is mentioned.

Column 16: Working Women's hostels with number of seats

The number of working women's hostel if available in the referent town is mentioned with number of seats. If the facility is not available in the town the name of nearest place with distance where the facility is available is recorded.

Column 17 to 19: Recreational and Cultural Facilities

Stadium, Cinema, Auditorium/ Drama/ Community Hall are covered under recreational & cultural facilities. The particulars of permanent recreational facilities are considered for these columns.

Column 20: Public Libraries, Reading Rooms

Number of public libraries and reading rooms available in the referent town are recorded in codes as follows:

(i)	Public Library	PL
(ii)	Reading room	RR

Statement VI: Trade, Commerce, Industry and Banking, 1999

Column 3 to 8: Name of three most important commodities exported and names of three most important commodities manufactured in the town are recorded.

Column 9: Number of Banks

Number of Banks available in the referent town both Commercial and Cooperative banks are recorded against this column.

Column 10 & 11: Number of Agricultural Credit Societies and Non Agricultural Credit Societies

The total number of Agricultural Credit Societies and Non Agricultural Credit Societies in the referent town are recorded against these columns.

Statement VII: Civic and other Amenities in Slums, 1999

This is the statement on civic and other amenities in all slums whether notified or not and for all towns having statutory bodies, like municipality, Municipal Corporation, Town area committee etc.

STATEMENT - I

Brief note on Primary Census Abstract

The first census of the third millennium and twenty first century the Census of India, 2001 was the 14th continuous and uninterrupted Indian census since 1872. Thus, 2001 Census will provide data on population and its characteristics marking transition from one century and millennium to another.

The gigantic operation of Population Enumeration (considered by many to be the single largest and complex peace time administrative exercise in the world) was made possible due to the door to door universal canvassing of the Household Schedule by about 2 million enumerators and supervisors covering 593 districts, 5,463 sub-districts, 5,161 towns and 638,588 villages. The comprehensive Household Schedule which replaced the individual slip had three parts and two sides A and B. Part I contained the Location Particulars; Part II related to the Individual Particulars and Part III contained questions for Household engaged in Cultivation/Plantation. The part II of the Household Schedule had 39 columns and 23 questions all of which were universally canvassed and no sampling was resorted to during enumeration.

Data Processing

A quantum leap was made in the technology front while processing the Census 2001 data both for Houselisting and Population Enumeration. The Census schedules for both the phases were scanned through high speed scanners in fifteen data centers across the country and hand-written data from the schedules were converted into digitized form through Intelligent Character Reading (ICR) software for creation of ASCII records for further processing. The designing and formatting of the Household Schedule had to be done very carefully using specialized software so as to ensure uniformity, which was an essential pre-requisite for scanning. The selection of appropriate state-of-art technology in data processing has made it possible to produce all the Houselisting as well as Population Enumeration tables on full count basis for the first time in the history of Census. For Census 2001, about 202 million schedules consisting of about 1,028 million records were scanned and processed within a span of only 10 months starting October, 2002.

Task Force on Quality Assurance

After the data is processed, it is expedient on the part of the data producing agency to satisfy itself about its quality before putting the same in public domain. This has to be done mainly through the process of internal consistency, comparison with similar data in the past and also through validation with likewise data if available, from external sources. Quite often the local knowledge and perception has to be brought into play to understand both the existing and the new emerging trends of population distribution and characteristics. The other very important aspect of the data quality is to ensure complete coverage of all geographical areas especially for the population enumeration phase where the data is disseminated right up to the village level in the rural areas and the ward level in the urban areas. Thus ensuring the complete coverage and correct geographical linkage of each enumeration block was one of the major planks of the quality control, specially for small area population statistics.

A very comprehensive check and edit mechanism was put in place to objectively examine the preliminary Census 2001 Population Enumeration results and finally clear them for use. The responsibility of the final clearance of data was with the Task Force on Quality Assurance (TFQA), headed by the Registrar General and Census Commissioner, India. The other members of the TFQA were the Heads and senior officers of the Census Division, Data Processing Division, Map Division, Demography Division and Social Studies Division. The Directors of Census Operations were co-opted as members whenever the TFQA discussed the data for their States/Union territories. The Directors and their senior officers were required to make detailed presentations of data for their own state both in respect to the quality and thecoverage and only after the full possible cleared.

There has been a major departure in Census 2001 from the past in respect of the procedure followed for finalization of the Scheduled Castes and the Scheduled Tribes population. In the earlier censuses, the total Scheduled Castes and Scheduled Tribes populations were finalized at the time of the manual compilation of the Primary Census Abstracts (PCA) at the Regional Tabulation Offices which were specially set up for this purpose. The individual Scheduled Castes and the Scheduled Tribes population for each state was finalized much later based on manual coding done by the coders. In 2001 Census, each individual Scheduled Caste and the Scheduled Tribe have been coded directly on the computers by the Data Entry Operators through a process known as Computer Assisted Coding (CAC) and taken up along with the processing of PCA data. The CAC process involves pulling down, from the relevant dictionary of the Scheduled Castes and the Scheduled Tribes, on the computer screen and coding from the dictionary by referring to the image of the specific individual entry in the Household Schedule appearing on the screen. The CAC of the response on Religion wherever required, was also undertaken along with the processing of PCA. This is because the Scheduled Castes status had to be determined in relation to the religion of the individual. Two Special Task Forces, one on Religion and the other on Scheduled Castes/Scheduled Tribes were constituted for scrutiny and appropriate classification of these responses.

The main task of the Special Task Force on Religion was to appropriately merge or group the new responses encountered and code it into the appropriate religious community based on available literature and local knowledge. The Special Task Force on Scheduled Castes and Scheduled Tribes examined the different Scheduled Castes and Scheduled Tribes entries encoun-tered and classified these into appropriate category of the Scheduled Castes or the Scheduled Tribes principally based on the Presidential Notification and the available literature. Thus a very systematic and scientific mechanism was operationalised to firm up the individual religion and the individual Scheduled Castes/Tribes returns. The Scheduled Castes and the Scheduled Tribes population in 2001 Census, is thus being finalized by aggregating the population data for individual Scheduled Castes and the Scheduled Tribes at appropriate geographical levels.

The entire work relating to the data validation and scrutiny was completed by all the States/Union Territories under the overall supervision and monitoring of the Census Division of the Office of the Registrar General, India with active cooperation and support of the Social Studies Division, Data Processing Division, Data Dissemination Division and Map Division.

Primary Census Abstract

The Primary Census Abstract which is yet another important publication of 2001 Census gives basic information on Area, Total Households, Total population, Scheduled Castes, Scheduled Tribes population, Population in the age group 0-6, Literates, Main workers and Marginal workers classified by the four broad industrial categories, namely, (i) Cultivators, (ii) Agricultural laborers, (iii) Household Industry Workers, and (iv) Other workers and also Non-workers. The characteristics of the Total population includes Scheduled Castes, Scheduled Tribes, Institutional and Houseless population and are presented by sex and rural-urban residence. This data is presented at different levels, namely, India, States/ Union territories, Districts and Cities, Urban Agglomerations (Population 1,00,000 and above) in three different tables. In addition, the Appendix of said publication provides Houseless and Institutional Households and their population by residence and sex for 2001 for India, State and Union territory.

Apart from the India and State/Union Territory volumes for Primary Census Abstract, the District Census Handbook contains District Primary Census Abstract, Appendix to District Primary Census Abstract, Primary Census Abstract for Scheduled Castes, Primary Census Abstract for Scheduled Tribes, Village Primary Census Abstract and Urban Primary Census Abstract of the concerned district in the state.

It was for the first time at the 1981 Census that the Primary Census Abstract (PCA) was brought out for the Scheduled Castes and the Scheduled Tribes separately on the pattern of General Primary Census Abstract. This practice was continued in 1991 also. In the 1961 and 1971 Censuses, such data were made available in Table C-VIII-Social and Cultural table and to some extent in the series 'Special Tables for Scheduled Castes/Scheduled Tribes'.

The format of Primary Census Abstract has been restructured slightly in the 2001 Census as compared to that of 1991 Census. The nine-fold industrial classification of main workers given in the Primary Census Abstract of 1991 Census has been discontinued and its place, four-fold industrial classification of both 'main workers' and 'marginal workers' are included. In 1981 census only main workers were presented in to four categories. One of the novel features of the primary census abstract of 1991 Census was the presentation of data of the population of age group 0-6 is continued in 2001 Census also. This will help the data users in better analysis and understanding of this literacy data.

Level of presentation in District Census Handbooks:

The Primary Census Abstract data in different PCAs are presented at different levels. The level of presentation of Primary Census Abstracts are as under:

Name of the Primary Cenus Abstract	Level of presentation
1. District Primary Census Abstract	District/CD Block/UA/City/Town
2. Primary Census Abstract for Scheduled Castes	District/CD Block/Town
3. Primary Census Abstract for Scheduled Tribes	District/CD Block/Town
4. Village Primary CensusAbstract	CD Block/Villagewise
5. Urban Primary Census Abstract	Town/WardLevel

The PCA Data for villages was presented CD Block wise for the first time in 1991 Census. This practice is continued in 2001 Census also. The data for each CD Block is presented both for rural and urban areas separately. All the villages within the CD Block constitute the rural portion and the Census Towns and Outgrowths are shown under the urban portion of the CD Block. In case a CD Block is spread over two or more districts, than portion which falls within the district is presented, the data pertaining to remaining portion of the CD Block is presented in the concerned District Census Handbook. The data in the Urban Primary Census Abstract for each town as well as for town with outgrowths in the district are presented. The data for all the wards and the outgrowths of the town(s) are also presented separately below the concerned town(s).

The District Primary Census Abstract is presented in 59 columns. The Primary Census Abstract for Scheduled Castes and Primary Census Abstract for Scheduled Tribes are presented in 52 columns. The Village Primary Census Abstract and Urban Primary Census Abstract are presented in 58 columns.

The concepts and definitions used in the column heading are explained under the sub heading 'Census Concepts' in the Analytical Note. The term 'Total Population' includes the Scheduled Castes, the Scheduled Tribes, the Institutional and the Houseless populations. The explanation regarding area figures presented at various level in the Primary Census Abstracts are as follows:

Area Figures

The area figures supplied by local revenue authorities of the district in respect of taluks, Police Stations and by the local bodies in respect of towns are given in square kilometers. The area figures of the villages supplied by the Tahsildars in acres have been converted and shown in hectares. The area figures of the CD Block is the total of the village areas coming under each CD Block. The area figures for the district are the same as adopted by the Surveyor General of India to maintain uniformity at the national level. The total area figures of all the taluks/CD Blocks within the district may not tally with area figures of the district because former represents land use area only. Similarly, the total of all the villages may not tally with the entire rural of Police Station/ Taluk. The difference may be due to the fact that while the area covered by hills, forests and rivers etc, have been accounted in the Taluks and P.S. level the same may not be covered under the area of the villages. Apart from this it may also differ due to varying methods of computation adopted at different levels.

An appendix to District Primary Census Abstract has also been furnished showing urban enumeration block-wise particulars on Total Population, the Scheduled Castes Population and the Scheduled Tribes Population for each town.

ANNEXURE II

Note on Fertility & Mortality and Migration - 1991 & 2001 Census

Fertility levels

In demography, the word fertility is used in relation to the actual production of children or 'occurrence of births specially live births'. Fertility is a measure of rate at which population adds to itself by births and normally assessed by relating number of births to size of some section of the population, such as number of married couples or number of women of child bearing age. In other words, it is a major component of population growth. In the 1991 census, questions on fertility related to age at marriage, number of surviving children at present, number of children ever born alive and children born alive during the last one year were asked. The first three questions were asked to all ever-married women and the last question related to currently married women. The measures of fertility worked out are based on the F-Series Tables of 1991 Census pertaining to Karnataka state and are defined as below: -

Migration

What is Migration?

Migration is the third component of population change, the other two being mortality and fertility. A person is considered as a migrant by place of birth if the place in which he is enumerated during the census is other than the place of birth. Similarly a person is considered as a migrant by place of last residence if the place in which he is enumerated during the census is other than his place of immediate last residence.

Internal and International migration

The migrational movements are of three types (i) Migration within the state itself with its components (a) Migration within the district of enumeration (intra district migration), (b) Migration from one district of state to another district of state (inter district migration), (ii) Migration from one state to another state of the country (interstate migration), (iii) Migration from one country to another country. The first two streams together constitute internal migration, while the last type of movement is called international migration.

Why people migrate?

As in 1981 census, the reasons for migration were elicited in 1991 & 2001 census also. The reasons for migration were broadly categorized as (1) employment (2) business (3) education (4) family moved (5) marriage (6) natural calamities like drought, floods etc. and (7) other reasons. Reasons for migration have been elicited only with reference to movement from place of last residence.

Impact of migration

Growth of population of a particular place depends upon natural increase due to excess of births over deaths and migration. Knowledge of trends in migration helps in future planning of a region.

ANNEXURE III

Marriage and age at marriage are important social phenomena and crucial factors in the analysis of the dynamics of fertility. As such, various measures of fertility estimated based on these crucial factors are highlighted in the above table.

Estimates of General Fertility Rate (GFR) a refined measure of fertility, defined as the number of live births per thousand women in the reproductive age-group 15-49 years is a useful tool for measuring fertility, and this rate is further estimated only for the married women which is defined as General Marital Fertility Rate (GMFR). The GFR and GMFR for the district are 120 and 158 respectively.

The cumulative value of the age-specific fertility rates at the end of the child bearing ages gives a measure of fertility known as Total Fertility Rate (TFR). It indicates average number of children expected to be born per woman during her entire span on reproductive period assuming that the age specific fertility rates to which she is exposed to, continue to be the same and there is no mortality. The same is expected for married women known as Total Marital Fertility Rate (TMFR). The estimated TFR and TMFR for the district are 3.60 and 5.45 respectively. The Crude Birth Rate (CBR) is 28.96.

The most useful indices that can be derived from the question on number of Children born alive is the average number of children ever born per ever married women by age-group. Since most of the women complete their reproduction be the age-group 45-49, this indices is termed as completed fertility. The category ever married includes widows, divorced

and separated women. As such the completed fertility for the district is 4.68. The child women ratio which is a relative measure to know the fertility performance of a women is 463 in the district.

One of the parameters, presenting female age at marriage relates to all women who live with their husbands, where some of them might have been recently married and some of them decades ago. It can be observed that mean age at marriage of the currently married women of Davanagere district is lower than the state figure of 18.00.

The estimates of mortality indicators presented above have been obtained through indirect estimation using the data on the number of children ever born and number of children surviving to ever married women. The information on questions on children ever born and children surviving canvassed for all ever married woman have been tabulated by the age of the mother. This data has been converted into estimates of probability of dying before attaining a given age. These estimates have been worked out using Brass technique where (qi) is the probability of a newborn child dying before the age i = 1, 2, 3 and 5. The table above shows the estimates of infant and child mortality derived for the year 1991 by sex.

The infant mortality rate (q1) for the person is 51 and for male and female are 51 and 52 respectively. The estimates of under 5 mortality (q5) for person is 104 and for male and female are 102 and 108 respectively.

ANNEXURE - IV

ANNEXURE - IV (1): PERCENTAGE DISTRIBUTION OF IN-MIGRANTS BY PLACE OF BIRTH

	Place of Birth	1991 Census			2001 Census		
		Persons	Males	Females	Persons	Males	Females

Source : Migration Table D-1 of 1991 census

Note: Data for newly created districts could not be recalibrated for 1991 Cesnsu. Hence the data of unbifurcated districts are presented for the newly created districts also.

The Anenxure IV(1) presents data on migrants by their place of birth. The majority of migrants are those who are born within the state of enumeration, which constitute 96.39 per cent as per 2001 Census. Among them, migrants born elsewhere in the district are larger than migrants born in other districts of the state. Considerable proportions of population from other state have migrated to the district. The variations during the decade among different categories can be seen from the annexure.

ANNEXURE IV (2) - PERCENTAGE DISTRIBUTION OF IN-MIGRANTS BY PLACE OF LAST RESIDENCE

Sl. No	Place of Last residence	1991 Census			2001 Census		
		Persons	Males	Females	Persons	Males	Females
1	2	3	4	5	6	7	8
1	Last residence within the state of Enumeration	608,194	209,501	398,693	486,065	151,148	334,917
	but outside the place of enumeration	93.78	32.30	61.47	96.67	30.06	66.61
	a Elsewhere in the district	410,078	131,626	278,452	301,229	84,304	216,925
	of enumeration	63.23	20.30	42.93	59.91	16.77	43.14
	b In other districts of the state of	198,116	77,875	120,241	184,836	66,844	117,992
	enumeration	30.55	12.01	18.54	36.76	13.29	23.47
2	Last residence in other states	38,289	16,290	21,999	16,598	8,507	8,091
	of india beyond the state of enumeration	5.90	2.51	3.39	3.30	1.69	1.61
3	Last residence in other countries	460	230	230	158	91	67
		0.07	0.04	0.04	0.03	0.02	0.01
4	Unclassifiable	1,620	920	700	-	-	-
		0.25	0.14	0.11	0.00	0.00	0.00
5	**Total Migrants**	**648,563**	**226,941**	**421,622**	**502,821**	**159,746**	**343,075**
		100.00	**34.99**	**65.01**	**100.00**	**31.77**	**68.23**

The Annexure IV(2) presents data on migration by their place of last residence. As far as the district is concerned, it can be seen that migrants whose place of last residence was within the state of enumeration but outside the place of enumeration, constitute major proportion of migrant population. As per 2001 Census, their percentage accounts for 96.67. Among them, more is the inflow from within the district. Considerable proportion from other state have migrated to the district. The variations during the decade among different categories can be seen from the annexure.

ANNEXURE IV (3) - INTERSTATE IN-MIGRATION TO DAVANAGERE DISTRICT

Place of Birth	1991 Census		2001 Census	
	Migrants	Percentage of to total migrants	Migrants	Percentage of to total migrants
1	2	3	4	5
Andhra Pradesh	24,610	62.23	8,046	48.48
Goa	120	0.30	-	0.00
Kerala	2,620	6.62	1,145	6.90
Maharashtra	1,650	4.17	1,470	8.86
Tamil Nadu	6,909	17.47	2,834	17.07
Rajasthan	-	0.00	1,153	6.95
Total for 5 states	35,909	90.80	14,648	88.25
Other states	3,640	9.20	1,950	11.75
Total	**39,549**	**100.00**	**16,598**	**100.00**

The interstate in-migration to the district by their place of birth provided above, highlights the States with the largest contribution of migrants to the district. According to 2001 Census findings, majority of migrants are from Andhra Pradesh which accounts for 48.48 per cent followed by 17.07 per cent from Tamil Nadu. Migrants from Kerala, Maharastra and Rajasthan constitute 6.90, 8.86 and 6.95 per cent respectively. Further the category migrants from 'Other States' has increased from 9.20 per cent in 1991 to 11.75 per cent in 2001.

ANNEXURE IV (4) - RURAL AND URBAN COMPOSITION OF INTERNAL MIGRANTS BY PLACE OF BIRTH – 1991 & 2001

Place of Birth	Place of Enumeration-1991			Place of Enumeration-2001		
	Total	Rural	Urban	Total	Rural	Urban
1	2	3	4	5	6	7
1. Within the state	598,794	405,612	193,182	468,865	305,977	162,888
	100.0	67.7	32.3	100.0	65.3	34.7
2. In other states of India	39,549	21,109	18,440	17,398	6,774	10,624
	100.0	53.4	46.6	100.0	38.9	61.1

Rural and urban composition of internal migrants within the State as well as from other states of India by their place of birth is provided in the above statement.

ANENXURE - V

Brief account of Main Religions in the District / Taluk as per 1991 & 2001 Census

Religion forms an integral part of Indian Social System. For an Indian, it is a way of life rather than a faith. Indian Census, since its inception is collecting data on religion and presenting the same in its reports. In the pre-independence Census reports, the data on religion was being presented for 6 major religions viz., Hindus, Muslims, Christians, Sikhs, Jains and Buddhists. Besides, the minor religions have been classified under the category of 'Others'. The data on religion collected and presented by the Indian Census is the basic data of immense use for the researchers, anthropologists, sociologists, demographers, administrators, planners and even for a common man.

ANNEXURE V (1) - PERCENTAGE DISTRIBUTION OF POPULATION BY MAJOR RELIGIONS IN INDIA AND KARNATAKA DURING 1991 AND ITS GROWTH RATE DURING 1981-91 & 1991-2001

Sl. No.	Religion	India				Karnataka			
		Percentage of Population	Percentage growth rate 1981 - 1991	Percentage of Population	Percentage growth rate 1991 - 2001	Percentage of Population	Percentage growth rate 1981 - 1991	Percentage of Population	Percentage growth rate 1991 - 2001
1	2	3	4	5	6	7	8	9	10
1	Hindus	82.4	22.3	80.5	20.0	85.5	20.7	83.9	15.3
2	Muslims	11.7	26.1	13.4	29.3	11.6	25.7	12.2	23.5
3	Christians	2.3	16.9	2.3	22.1	1.9	11.1	1.9	17.4
4	Sikhs	2.0	24.2	1.9	16.9	Ng	57.8	0.0	51.7

6	Jains	0.4	3.9	0.4	26.0	0.7	14.6	0.8	26.5
7	Others	0.4	13.1	0.6	111.3	Ng	51.0	0.2	1,725.5
8	Religions not stated	0.6	573.4	0.1	76.3	0.1	8,242.0	0.3	232.9

India - State differentials

The comparative data of the country and the state of Karnataka presented in Annexure V(i) reveals that the religion wise concentration of population in the state of Karnataka is of three major religions viz., Hindus, Muslims and Christians. Hindus are returned on the higher side with over three per cent more than the national average. Christians recorded nearly one per cent less whereas the proportion of Muslims in the state to national population was almost the same. There are 85.5 per cent Hindus, 11.6 per cent Muslims and 1.9 per cent Christians in Karnataka as against that of 82.4 per cent Hindus, 11.7 per cent Muslims and 2.3 per cent Christians in India. In regard to concentration of other three major religions viz., Sikhs, Buddhists and Jains it is observed that Jains with 0.7 per cent form the fourth major religion in the state whereas Buddhists with 9.8 per cent is the third major religion in India. In the Indian scene the Sikhs form fifth major group, whereas in Karnataka, Buddhists and Sikhs are placed fifth position.

Religion wise growth in the state during the decade 1981 - 91 reveals that the major religions viz., Hindus, Muslims and Christians recorded a growth rate in lesser degree i.e., 20.7 per cent, 25.7 per cent and 11.1 per cent respectively, against that of 22.3, 26.1 and 16.9 per cent in India as a whole. On the other hand Buddhists, Sikhs and Jains recorded a growth rate of 72.8 per cent, 57.8 per cent and 14.6 pecent respectively for the state against that of 34.0, 24.2 and 3.9 per cent respectively for India. Thus, the Jains recorded a higher growth of nearly 11 per cent in the state than that of India as a whole during the decade 1981 - 91.

Percentage distribution of population during 2001 Census, by major religions in India and Karnataka shows that Hindus form majority of the population with 80.5 and 83.9 per cent respectively, while Muslims form 13.4 and 12.2 per cent for the country and state respectively. The proportion of these religions for the country and state, during 1991 Census was 82.4 per cent and 85.5 per cent for Hindus and 11.7 and 11.6 per cent for Muslims. There is not

much noticeable changes are found in other regions. Persons who have not reported to which religion or faith they belong to has increased in Karnataka, as its proportion to the total population has increased from 0.1 per cent in 1991 Census to 0.3 per cent during 2001 Census.

ANNEXURE V(2) - DISTRIBUTION OF POPULATION UNDER EACH RELIGION TO TOTAL POPULATION IN THE DISTRICTS OF KARNATAKA - 1991 CENSUS & 2001 CENSUS

The above table furnishes the composition of six major religions along with 'Other Religions' and 'Religion not stated' among the districts of the state during 2001 Census along with 1991 Census. As may be seen from the table that, the proportion of population to total population during 2001 Census, is below 5 per cent for 23 districts of the state and, is between 5-10 per cent in 3 districts. Only Bangalore district has the distinction of having more than 10 per cent of the total population of the state in its jurisdiction. During 1991 Census the situation was almost similar with 22 districts having a proportion of less than 5 per cent and 4 districts had more than 5 per cent but below 10 per cent. With 10.76 per cent of the total population Bangalore district occupied the top position.

Of the total population of the state, proportion of districts having Hindus and Muslims was uniform during both the Censuses i.e. less than 5 per cent of the total population in 21 districts for Hindus and 23 districts for Muslims, while in 5 and 3 districts respectively for Hindus and Muslims had a proportion of 5-10 per cent and Bangalore district alone had more than 10 per cent.

ANNEXURE V(3) - PERCENTAGE DISTRIBUTION OF POPULATION BY MAJOR RELIGION IN KARNATAKA AND DAVANAGERE DISTRICT - 1991 & 2001

Sl. No.	Religion	Karnataka		Davanagere	
		1991	2001	1991	2001
1	2	3	4	5	6
1	Hindus	85.50	83.86	87.35	85.58
2	Muslims	11.60	12.23	11.91	12.66
3	Christians	1.90	1.91	0.29	0.30
4	Jains	0.70	0.78	0.35	0.34
5	Buddhists	0.20	0.74	0.00	0.00
6	Sikhs	Ng	0.03	0.01	0.01
7	Others	Ng	0.22	0.01	0.50
8	Religion not stated	0.10	0.23	0.07	0.61

The percentage distribution of population by major religion in Karnataka and Davanagere district for 1991 and 2001 Censuses are presented in the above table. As may be seen from the table that in Karnataka, Hindus form 85.5 and 83.86 per cent of the total population during 1991 and 2001 Censuses, followed by Muslims and Christians. The corresponding statistics for the district does not differ much as Hindus

and Muslims occupy the top two places followed by Jains. These three religion cover more than 98 per cent of the total population of the district. Remarkable increase in the proportion of Buddhists population has been noticed between 1991 and 2001 Censuses in the State.

ANNEXURE V(4) - DISTRIBUTION BETWEEN RURAL AND URBAN AREAS OF MAJOR RELIGIONS IN KARNATAKA AND DAVANAGERE - 1991 & 2001

Sl. No.	Religion	Karnataka				Davanagere			
		1991		2001		1991		2001	
		Rural	Urban	Rural	Urban	Rural	Urban	Rural	Urban
1	2	3	4	5	6	7	8	9	10
1	Hindus	73.2	26.8	70.4	29.6	76.4	23.6	74.7	25.3
2	Muslims	44.5	55.5	41.0	59.0	40.6	59.4	38.6	61.4
3	Christians	38.1	61.9	32.5	67.5	18.4	81.6	19.0	81.0
4	Jains	57.8	42.2	53.0	47.0	22.8	77.2	19.8	80.2
5	Buddhists	83.6	16.4	83.5	16.5	55.9	44.1	13.6	86.4
6	Sikhs	12.1	87.6	18.6	81.4	19.7	80.3	11.4	88.6
7	Others	29.2	70.8	64.2	35.8	20.8	79.2	70.2	29.8
8	Religion Not Stated	75.5	24.5	68.9	31.1	75.3	24.7	68.2	31.8

Distribution of major religion by residence for the State and district are presented in the above statement. Majority of Hindus, Jains, Buddhists and those who have not stated their religion are residing in rural areas of the State during both the Censuses. While population belonging to Muslim, Christian and Sikh religion reside in urban areas of the State. As far as the district is concerned, according to 2001 Census data, except Hindus, all major religions are concentrated in urban areas. The Hindus along with population following `Other' religion and `Religion not stated' accounts for 74.7, 70.2 and 68.2 per cent respectively in rural areas. A comparative data for 1991 Census is provided in the annexure.

	P	100.00	86.65	12.67	0.09	0.04	0.00	0.00	0.15	0.39

A - Absolute, **P** - Percentage

Talukwise distribution of population following major religion is presented above. As far as the district is concerned, majority of the population follow Hindu faith in all the taluks. This is followed by Muslims in Davanagere district. However a comparison between 1991 and 2001 Census data expose a marked increase of people who did not state any religion and those who follow " Other faiths" than the religion listed above.

ANNEXURE VI - MARITAL STATUS OF POPULATION IN DAVANAGERE DISTRICT - 1991& 2001

	100.00	**73.00**	**27.00**	**100.00**	**69.68**	**30.32**

It may be seen from Annexure VI that the percentage of “Never Married” population accounts for 49.24 per cent and 50.92 per cent at state and district levels during 2001 Census, while the same was 52.05 per cent and 52.70 per cent during 1991 Census. Similarly the percentage figures of the district for Married, widowed and Divorced or Separated are 43.85, 4.96 and 0.25 per cent during 2001 Census. Comparative data for 1991 Census is also furnished in the table for ready reference. The percentage variation of all the marital categories between rural and urban is marginal in both state and district population.

The level of education by sex for the district and the State during 1991 and 2001 Census are presented in the above annexure. It can be seen that percentage of illiterates during the decade has decreased vis-a-vis for the State and the district. Though the male literates out number females, the percentage of women folk acquired literacy during the decade is more than the male population. The comparison of data for the two censuses reveals it so for the State and the district. The different educational level attained by the population can be seen in detail in the above annexure.

ANNEXURE - VIII
Distribution of different Mother Tongue returned during 1991 and 2001 Censuses

As a part of census publication program the data on spoken languages/mother tongues will be presented under C series. The table C-7 shows the distribution of languages/mother tongues which returned 10,000 or more speakers each at all-India level (including of mother tongues grouped under each for district, with total, rural/urban and male/female break ups. The unclassified mother tongues and the mother tongues having less than 10,000 speakers have been relegated to 'other' mother tongue category. The table divided into Part A - scheduled languages with the mother tongues grouped under each and Part B - Non-scheduled languages with the mother tongue grouped under each. The definition of 'Mother Tongue' is the same as in 1991 Census. The instructions to the enumerators in regard to this question read as under:

Record Mother Tongue in full, whatever be the name of the language returned by the person enumerated. The definition of Mother Tongue is the same as in 1991. "Mother Tongue is the language spoken in childhood by the person's mother to the person. If the mother died in infancy, the language mainly spoken in the person's home in childhood will be the Mother Tongue. In the case of infants and deaf mutes the language usually spoken by the mother should be recorded. In case of doubt, the language mainly spoken in the household may be recorded".

As the above instructions to the enumerators would show, the respondent was made to feel free to return the name of his/her Mother Tongue and the same was recorded faithfully by the enumerators. This naturally leads to recording of a very large number of Mother Tongue names. It is to be mentioned that Mother Tongues as returned in the Census are basically, the designation provided by the respondents. These designations or Mother Tongue labels need not be identical with the actual linguistic mediums. For assessing the correlation between the Mother Tongue designations and actual languages and dialects the raw returns of Census were subjected to thorough scrutiny and rationalization.

The abstract of languages as Mother Tongues and their strength in the district during 1991 and 2001 Census are provided below.

STATEMENT-I: ABSTRACT OF LANGUAGES AS MOTHER TONGUES AND THEIR STRENGTH IN DAVANAGERE DISTRICT-1991 AND 2001 CENSUS

15	Punchhi	-	0.00	3	0.00
16	Tibetan	-	0.00	9	0.00
17	Total Of Other Languages	979	0.06	4,279	0.24

The statement I & II gives a clear picture of the languages spoken in the district. A closer study of 2001 Census data reveals that as many as 25 and 31 languages which returned 10,000 or more speakers at All India level are spoken in the district during 1991 and 2001 Census repectively. The 'Other' category,

include Mother Tongues spoken by less than 10,000 speakers at All India level. Majority of the population speak Kannada which constitute 77.88 and 78.65 per cent followed by 11.56 and 12.11 per cent of Urdu speaking population in 1991 and 2001. Among the languages not specified in the Eighth Schedule to the constitution, Coorgi / Kodagu is spoken by 0.11 per cent of population during 2001.

Linguistic classification of the languages

The names of the 114 Scheduled and Non-Scheduled languages falling in the five language families are given below with the Scheduled Languages denoted as (S). Of the 18 Scheduled Languages, 13 fall in the Indo-Aryan branch of the Indo-European family, 4 in the Dravidian family and one in the Tibeto-Burmese family.

1. INDO-EUROPEAN

(a) INDO-ARYAN

1. Assamese (S), 2. Bengali (S), 3. Bhili/Bhilodi, 4. Bishnupuriya, 5. Dogri, 6. Gujarati (S), 7. Halabi, 8. Hindi (S), 9. Kashmiri (S), 10. Khandeshi, 11. Konkani (S), 12. Lahnda, 13. Marathi(S), 14. Nepali (S), 15. Oriya (S), 16. Punjabi (S), 17. Sanskrit (S), 18. Sindhi (S), 19. Urdu (S).

(b) GERMANIC

1. English.

2. DRAVIDIAN

1. Coorgi/Kodagu, 2. Gondi, 3. Jatapu, 4. Kannada (S), 5. Khond/Kondh, 6. Kisan, 7. Kolami, 8.Konda, 9. Koya, 10. Kui, 11. Kurukh/ Oraon, 12. Malayalam (S), 13. Malto, 14. Parji, 15. Tamil (S), 16. Telugu (S), 17. Tulu.

3. AUSTRO-ASIATIC

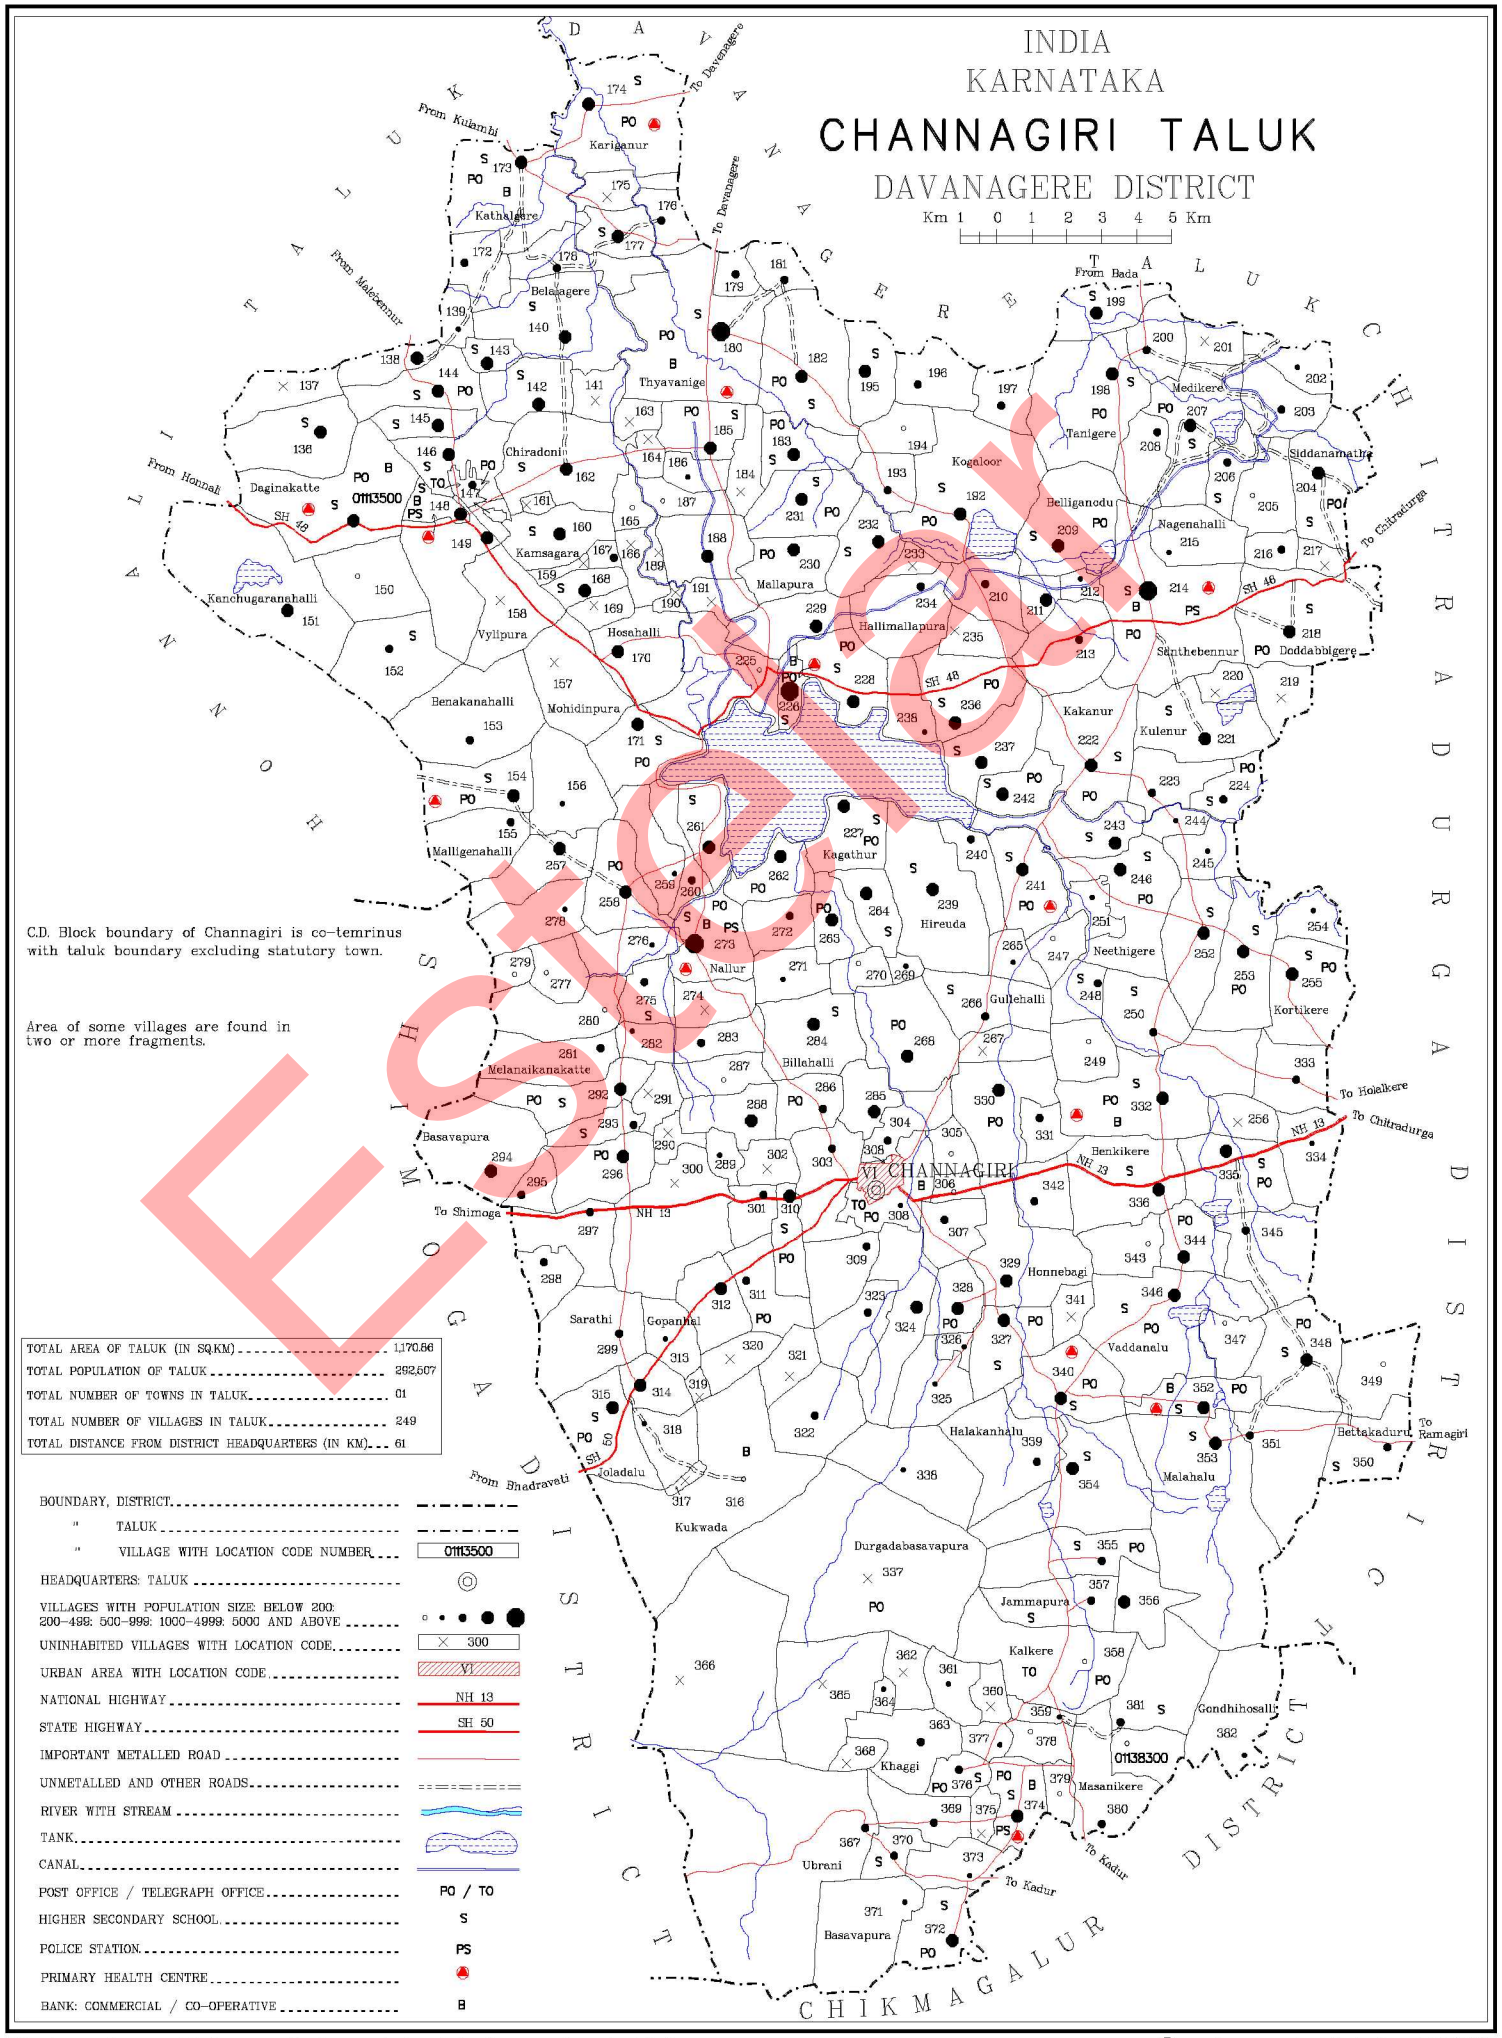

1. Bhumij, 2. Gadaba, 3. Ho, 4. Juang, 5. Kharia, 6. Khasi, 7. Koda/Kora, 8. Korku, 9. Korwa, 10. Munda, 11. Mundari, 12. Nicobarese, 13. Santali, 14. Savara.

4. TIBETO-BURMESE

1. Adi, 2. Anal, 3. Angami, 4. Ao, 5. Bhotia, 6. Bodo/Boro, 7. Chakesang, 8. Chakru/Chokri, 9. Chang, 10. Deori, 11. Dimasa, 12. Gangte, 13. Garo, 14. Halam, 15. Hmar, 16. Kabui, 17. Karbi/Mikir, 18. Khezha, 19. Khiemnungan, 20. Kinnauri, 21. Koch, 22. Kom, 23. Konyak, 24, Kuki, 25. Lahauli, 26. Lakher, 27. Lalung, 28. Lepcha, 29. Liangmei, 30. Limbu, 31. Lotha, 32. Lushai/Mizo, 33. Manipuri (S), 34. Mao, 35. Maram, 36. Maring, 37. Miri/Mishing, 38. Mishmi, 39. Mogh, 40. Monpa, 41. Nissi/Dafla, 42. Nocte, 43. Paite, 44. Pawi, 45. Phom, 46. Pochury, 47. Rabha, 48. Rengma, 49. Sangtam, 50. Sema, 51. Sherpa, 52. Tangkhul, 53. Tangsa, 54. Thado, 55. Tibetan, 56. Tripuri, 57. Vaiphei, 58. Wancho, 59. Yimchungre, 60. Zeliang, 61. Zemi, 62. Zou.

5. SEMITO-HAMITIC

1. Arabic/Arbi.
