CENSUS OF INDIA 2001

SERIES-12 **KARNATAKA**

DISTRICT CENSUS HANDBOOK

Part - A & B

GULBARAGA DISTRICT

VILLAGE & TOWN DIRECTORY

VILLAGE AND TOWNWISE PRIMARY CENSUS ABSTRACT

Directorate of Census Operations, Karnataka

F O R E W O R D

1. The District Census Handbook (DCHB) published by Census Organisation since 1951 census, is one of the important publications in the context of planning and development at gross-root level. The publication, which is brought out for each district, contains several demographic and socio-economic characteristics village-wise and town-wise of the district alongwith the status of availability of civic amenities, infrastructural facilities, etc.

2. The scope of the DCHB was initially confined to a few Census Tables and Primary Census Abstract (PCA) of each village and town within the district. Thereafter, at successive censuses, its scope and coverage has been enlarged. The DCHB published at the 1961 census provided a descriptive account of the district, administrative statistics, census tables and a village and town directory including PCA. The 1971 census-DCHB series was in three parts: Part-A related to village and town directory, Part-B to village and town PCA and Part-C comprised analytical report, administrative statistics, district census tables and certain analytical tables based on PCA and amenity data in respect of villages. The 1981 census DCHB was in two parts: Part-A contained village and town directory and Part-B the PCA of village and town including the SCs and STs PCA up to taluk/town levels. New features alongwith restructuring of the formats of village and town directory were added into it. In Village Directory, all amenities except electricity were brought together and if any amenity was not available in the referent village, the distance in broad ranges from the nearest place having such an amenity, was given. Information on new items such as adult literacy centres, primary health sub-centres and community health workers in the village were provided so as to meet the requirements of some of the Revised Minimum Needs Programme. Information on approach to the village was provided for the first time in the Village Directory so as to give the details on number of inaccessible villages in each district. In the Town Directory, a statement (IV-A) on slums was introduced to provide the details on civic and other amenities in the notified slums of Class I and Class II towns.

3. The 1991 census DCHB, by and large, followed the pattern of presentation of 1981 census, except the format of PCA was restructured. Nine-fold industrial classification of main workers was given against the four-fold industrial classification presented in the 1981 census. In addition, sex-wise population in 0-6 age group was included in the PCA for the first time with a view to enable the data users to compile more realistic literacy rate as all children below 7 years of age had been treated as illiterate at the time of 1991 census. One of the important innovations in the 1991 census was the Community Development Block (CD block) level presentation of village directory and PCA data instead of the traditional taluk/PS level presentation. It was expected that the presentation of village directory and PCA data at CD block level will help the planners in formulation of micro level development plans, CD block being lowest administrative unit.

4. The present series of 2001 census DCHBs have been made more informative and exhaustive in terms of coverage and content. The Village Directory has been enlarged in scope by including a number of other facilities like banking, recreational and cultural facilities, newspapers and magazines and 'most important commodity' manufactured in village. Income and expenditure of gram panchayat, wherever possible, has been provided. Apart from these, more details on distance(s) at which basic amenities are available (if not available in the village), are given. This includes educational facilities (namely primary and middle schools and college), medical facilities (viz. Allopathic Hospital, Maternity & Child Welfare Centre and Primary Health Centre), drinking water, post & telegraph (post office and phone), communication, bank, credit societies and recreational facilities. In Town Directory, the statement on Slums has been modified and its coverage enlarged by including details on all slums instead of 'notified slums'. The information is given in case of all statutory towns irrespective

of their class, against only Class I and Class II towns in the 1981 and 1991 censuses. The basic amenities available in the villages and towns are analysed in depth with the help of a number of cross-classified inset tables and statements. Two other significant additions in the publication are inclusion of 'motif' highlighting significant characteristic of the district and analytical notes as annexures. The analytical notes on (i) fertility and mortality and (ii) various measures of fertility and mean age at marriage are prepared based on 1991 census. Whereas, in the notes relating to (i) percentage distribution of migrants by place of birth/place of last residence, (ii) main religions, (iii) marital status of population, (iv) age, sex and education, and (v) distribution of spectrum of mother tongue, nature and extent of changes occurred in the district in its basic socio-demographic features during the decade 1991-2001 are analysed. The eight digits permanent location code (PLCN) to all the villages and towns have been assigned keeping in view the future needs.

5. The village and town level amenity data have been collected, compiled and computerized in prescribed record structure under the supervision of Shri.H.Shashidhar, Director of Census Operations, Karnataka. Thereafter, efforts have been made to ensure comparability of the information with that of 1991 census data and the information brought out by the respective state governments in their annual reports and statistical handbooks for various years after 1991. The task of planning, designing and co-ordination of this publication was carried out by Shri R.G. Mitra, Deputy Registrar General (C&T) and Dr. I.C. Agrawal, Senior Research Officer of Social Studies Division, Dr. R.P. Singh, Deputy Registrar General (Map) provided the technical guidance in the preparation of maps. Whereas, Shri Anil Kumar Arora, Deputy Director of Data Processing Division who worked under the overall supervision of Shri Himakar, Addl. Director (EDP) helped in preparation of record structure for computerization of village and town directory data and the programme for the generation of Village Directory and Town Directory statements including analytical inset tables. The draft DCHB manuscripts received from the Census Directorates have been scrutinized in the Social Studies Division under the guidance of Shri S.L. Jain, Deputy Director and Shri R.K. Mehta, Assistant Director. I am thankful to all of them and other who have contributed to make this publication possible.

D.K. Sikri
Registrar General &
Census Commissioner, India

Motif

Bennithora Dam in Gulbarga District

The photograph of Bennithora dam has been selected to represent Gulbarga district. Location of the dam is near Herur Khurd village of Chitapur taluk and built across Bhima river. This dam is constructed to utilize 5.75 TMC of water for irrigation with a catchment area of 2204.09 Sq.Kms. Gross storage capacity of the dam is 5.296 TMC.

Bennithora is a composite dam of 2270 Mtrs in length and full reservoir level being 438.89 Mtrs. Seven spill ways of size 15 M x 11.5 M have been provided to discharge 310,800 Cusecs of water. With the construction of this dam 9 villages having a population of 9338 and an area of 2473 Hectares has been affected.

Bennithora dam has been provided with canals on either side of the reservoir. Left Bank Canal runs a distance of 66 Kms with a head discharge of 121.84 Cusecs and the Atchkat area of 6799 Hectares. While the Right Bank Canal is 82 Kms long with a head discharge of 218.76 Cusecs and 13435 Hectares under its atchkat. Gross Command area under this reservoir is 24859 Hectares.

P R E F A C E

In the foreword to the 2001 series of the District Census Handbooks, Sri. D.K. Sikri, I.A.S., the Registrar General and Census Commissioner, India, has traced the history of the District Census Handbooks. He has also succinctly explained the scope and coverage of the District Census Handbooks. These volumes contain salient data on the population for every village and town as revealed by 2001 Census. They also contain a wealth of information regarding villages and towns which, throw some light on the circumstances in which people live and is therefore relevant to the data on the population. This information is also of considerable importance in the context of planned development.

The District Census Handbook is divided into two parts: Part A contains information regarding each village and town (Village Directory and Town Directory collected from various sources) and Part B which contains the data on the population collected during 2001 Census - the Primary Census Abstract. The data published in Part B was collected during February-March 2001 in the Population Census.

The process of data collection for the Village Directory and the Town Directory (Part A) commenced in 1999. The Village Directory formats were mailed to the Deputy Commissioners of Districts for obtaining the village wise particulars through Village Accountants. Similarly the Town Directory formats were mailed to the Commissioners of Corporations, Chief Officers of Town Municipal Councils, Town Panchayats, etc. The village wise and town wise data furnished by these officers were then examined exhaustively for consistency in reporting and comparability with the information published in the 1991 District Census Handbooks. The Household Schedules, which were canvassed to collect the population data during 2001 Census, were scanned and data captured was processed electronically. The Primary Census Abstract was generated centrally on the computers by Registrar General, India.

In compilation of the District Census Handbooks, the Census Directorate had the co-operation of various departments of the State/Central Government. The Census Directorate gratefully acknowledge their assistance.

I take this opportunity to offer my grateful thanks to Sri. H. Shashidhar, Director of Census Operations and Sri. S.R. Raghavendra Rao, Deputy Director (Retd.) for their valuable guidance. I am also thankful to all the officers and officials of this Directorate who have been actively involved in the compilation of this volume.

I am highly grateful to Sri. J.K.Banthia, I.A.S., Ex. Registrar General, India for the benefit I have derived by way of guidance and advice. I express my thanks to Sri R.G. Mitra, Ex. Deputy Registrar General (C&T) and Dr. I.C. Agrawal, Assistant Registrar General and Sri S.L.Jain Deputy Director of Social Studies Division and Dr. R.P. Singh, Ex. Deputy Registrar General (Map) for their guidance.

District Highlights - 2001

1 Gulbarga district is the third largest in the state in terms of population (3rd in ranking position) having the population of 3,130,922 persons.

2 Gulbarga district is the largest district in the State in terms of area i.e., 16224 sq.km.

3 The Sex Ratio of Gulbarga district is 966 per 1000 males which stands at 20 in ranking position.

4 The literacy rate among rural areas is 42.3 which is the lowest in the State.

5 Gulbarga stands third in terms of 0-6 population i.e., 536,454.

6 The female literacy rate in rural areas of Gulbarga district is second least in terms of percentage i.e., 29.4.

7 Yadgir taluk has got lowest literacy rate of 37.2 percent among the taluks in the State.

8 Gulbarga is the only district in the State that has maximum number of cement factories i.e., 6 in numbers.

9 The famous Shahabad Stones available in Shahabad of Gulbarga district is an export item to all over the country even today.

10 Gulbarga district is famous for growing tur dal and has separate locations for tur dal factories which have good marketing value.

11 There are 17 towns in the district of which Gulbarga Municipal Corporation is the only city having Class I status with a population of 3.35 lakhs which stands 6 in ranking position.

12 Gulbarga district has good number of pilgrimage centres for both Hindus and Muslims which attracts large number of pilgrims from neighbouring states viz., Maharashtra, Andhra Pradesh and also from Karnataka.

13 The population of the district predominantly belongs to labour class - most of them agricultural and construction workers.

14 Gulbarga district is the prominent one in terms of political importance in the state.

Analytical Note

(i) HISTORY AND SCOPE OF THE DISTRICT CENSUS HANDBOOK

Introduction

The District Census Handbook is the most valuable district level publication brought out by the Census Organization. It contains micro-level data down to the lowest administrative units viz, revenue village in the case of rural areas and Division/Ward level in the case of urban areas. It is extremely useful to the planners, administrators, demographers, sociologists, etc., as it contains resourceful wealth of data regarding basic amenities available in each villages and towns of the district such as educational, medical, drinking water, post and telegraphs, transportation and communication, banks, societies, recreation, power supply, export/import of important commodities and land use besides, the particulars revealed during the latest census enumeration. It is for the first time that the district census hand book series was included in the census publication programme at the 1951 census, in order to satisfy the growing demand by the administrators, the planners, research scholars, demographers and the other such census data users, for micro-level data. The idea of compiling the District Census Handbooks was pioneered by Sri R.A.Gopala Swamy, I.C.S. the then Registrar General, India and Ex-officio Census Commissioner of India, with a view to preserve the Census records prepared for areas below the district level. He proposed that all the district Census tables and Census abstracts prepared during the process of sorting and compilation, should be bound together in a single manuscript volume and named as the District Census Handbook and suggested that the State Government should take up printing and publication at their own cost. Then onwards, the District Census Handbooks were published in each Census with improved pattern with an aim to give the Census and Non-census data at micro level for each village of the taluk as a whole to suit the requirements of various departments.

The data in the District Census Handbook will help not only in local area planning but also in regulating the provision of goods and services as well as to minimise the regional imbalances in the process of development. The District Census Hand Book sought to replace “Part IV - Taluk Tables and Part V - Village Tables” of the earlier censuses and to present the basic demographic and economic data in the form of “Primary Census Abstract” in respect of each and every village and town within the jurisdiction of the district. The district census handbook consists of two parts, viz, Part A and Part B. Part A comprises village and Town Directory while Part-B contains Village and Town level Primary Census Abstracts. In addition, these volumes contain a set of statistical tables based on the census data in respect of the district and its constituent taluks and towns.

District Census Handbook 1961

It was in 1961 Census that the scope of District Census Hand Book was shaped in the present form by presenting (i) an account of descriptive note on the district, (ii) a set of non-census data tables dealing with the administrative statistics of the district for a decade, (iii) taluk and town level census tables on economic and socio-cultural aspects and (iv) the village and urban Primary Census Abstracts depicting the nine fold industrial classification of workers. Information on the availability of certain basic amenities in villages and towns, such as the source of drinking water and educational institutions was also presented in the volumes. However, the district census handbooks of 3 out of then existing 19 districts viz, Bangalore, Dharwad and Mysore were confined to the publication of the village-wise and urban (census enumeration block-wise) Primary Census Abstract only.

District Census Handbook 1971

During the 1971 census, the district census handbook was further refined to present the data in a systematic way. In view of countrywide uniformity

in approach and to have a comprehensive coverage, the District Census Hand Books were presented in three parts each, for a district. Part A incorporated the Town and Village Directories. Part-B incorporated the Primary Census Abstract and included data, in the case of rural areas down to the village level and in the case of urban areas up to the block level. In addition, an introduction was given wherein the changes in jurisdiction, if any, of the district or of the taluks and the changes in the number of villages between 1961 and 1971 were explained. Part-B was essentially demographic in nature and was the end product of the tabulation of the enumeration results. Part C incorporated other census tables and administrative statistics. For convenience, Part-A and Part-B of the District Census Hand Book were presented in one volume and Part-C in a separate volume. In part-C volume, the district and taluk maps were included. These maps were prepared on the basis of maps obtained from the competent authorities concerned.

District Census Handbook 1981

The District Census Hand Book series of 1981, had some new features along with the restructuring of the formats of village and town directories, keeping in view the comparability of 1971 data. All the amenities except power supply in the village were brought together in the village directory with the instruction that in case an amenity is not available in the referent village, the distance in broad ranges from the nearest place/village where it is available were given. A few new items of information such as adult literacy centres, primary health sub-centres and community health centres/workers, data on the availability of Newspapers, Motor Vehicles, etc., in the village, were introduced in the village directory to meet the requirements of the "Revised Minimum Needs Programmes". A new column "total population and number of households" was introduced to examine the correlation of the amenities with the population and number of households they serve. The contents of Part-A were further enlarged by including two appendices, namely a list of villages not having any amenities and a distribution of villages according to the proportion of Scheduled Castes and Schedules Tribes in the total population of the village. The format of Town Directory were also modified to meet the requirements of the Minimum Needs Programme by providing information on a few new items such as class of town and its population, population of SC & ST, decadal growth rate of population, working women's hostel, adult literacy classes / centres, storage system regarding drinking water supply etc., and also the information about the nearest place and distance having educational, medical and fire-fighting facilities, in case such a facility is not available in the referent town. A new statement on civic and other amenities in slums in Class I and Class II town were included to help the planners to chalk out their programmes of slum improvements.

District Census Handbook 1991

The presentation of the District Census Hand Book for the 1991 Census was more or less similar to the manner followed in 1981. The format of Primary Census Abstract was restructured slightly. Nine-fold industrial classification of main workers was given as against four-fold classification. The sex-wise population in the age-group of 0-6 was included in the Primary Census Abstract for the first time to enable data users to compute more realistic literacy rates as all the children below 7 years of age were treated as illiterate at the 1991 census. One of the important innovations in the 1991 census was the Community Development Block-level presentation of data in the village directory and Primary Census Abstract instead of the traditional Taluk/PS level presentation. C.D.Block is the lowest administrative unit for developmental planning. The choice of the C.D. Block as the unit for data presentation was formulated to help the planners in micro-level developmental plans. Another important improvement at the 1991 Census was dissemination of data through magnetic tapes/floppies in which both the computer as well as manual codes for each revenue village were provided along with the corresponding codes of 1981 Census. In the volumes of the District Census Hand Books, the computer codes assigned to the revenue villages in the 1991 Census and the corresponding codes of 1981 Census were presented so that it may facilitate the data users to use the data either from magnetic tapes or computer floppies.

Scope of the 2001 District Census Hand Book

Like in the previous censuses, the District Census Hand Book (DCHB) for the 2001 Census is brought out in two parts as usual viz., Part-A The Village and Town Directory, and Part-B the Village and Town Primary Census Abstract.

The District Census Hand Books for the 2001 Census is essentially presented in the similar manner in which the District Census Hand Books of 1991 Census were presented. This is because the data would be comparable with the earlier censuses and also to study the changes taken place during the decades and hence the approach in 2001 Census is similar to 1991 Census. The contents have been slightly enlarged and the formats too are restructured to suit the requirements of the data users. In the village directory for 2001 Census certain new amenities like, news papers, magazine received, Income-Expenditure of the local bodies, information on number of banks, credit societies, recreational and cultural facilities, most important commodities imported, manufactured and exported have been included whereas the information regarding the "Day or Days of market/*hat* if any" which was there in 1991 has been excluded. Apart from providing the information about the nearest place and distance in broad ranges for villages not having basic educational and medical facilities, information about the nearest place and distance in broad ranges for villages not having Middle School, College, Hospital (Allopathic), Maternity and Child Welfare Center and Primary Health Center are also provided this time. However, in the town directory there are no changes except in the statement IV-A where this statement is separately numbered as Statement VII in 2001. Except these, the scope of 2001 series of the District Census Hand Book has, by and large remained the same as in 1991. The non-census information collected at the village level and town level was scrutinized and verified. In case of glaring discrepancies the data were cross-checked with data made available by the respective parent departments for validation.

One of the significant changes made in 2001 series of District Census Hand Book is that Primary Census Abstracts are available to the jurisdiction of the Panchayats in the district. With the constitution (73rd Amendment) Act, 1992, it has become necessary for the census organisation to provide population data for the territorial area of a panchayat in order to strengthen panchayat raj system in the country. In view of this, panchayat-wise population figures for total population and for Scheduled Castes and Scheduled Tribes population has been compiled and presented in the form of Annexure-I for each district.

Further another important step taken during the 2001 Census, is assigning the Permanent Location Code Numbers (PLCN) to the villages. Location code number is a simple but unique device by which every area in an administrative unit in the State/U.T. can be identified. Thus assigning of Location Code Numbers at various administrative levels, right from State/U.T. to the lowest level namely enumeration block, in census taking is an important step. Each clearly demarcated area can be referred to by a combination of numbers. In a State or U.T. the next administrative area is District, followed by taluk or police station, circle, Development Block or Mandal, etc., in different states/U.T.s. Next below this administrative area, in urban areas are cities/towns, further divided into wards/divisions and villages in rural areas. The Location Code Numbers to various administrative areas are assigned in an orderly manner always beginning from northwest point and the numbering proceeds in a serpentine manner, keeping the geographical continuity, ultimately ending at the South-East point.

There was a great demand from different organizations to study the village level data over a time span and hence a scheme of assigning permanent location code numbers to the villages and the higher levels of administrative areas is devised to ensure data comparability over a period of time. In Indian Census, Location Code Numbers are allotted to each village based on traverse system (zigzag) in a serpentine manner at taluk level. These numbers for villages run from '1' to 'N' in each taluk independently. This system was adopted until 1991 census. But, for the Census of India 2001, all the villages in a state/U.T. are assigned with a Location Code Number in one continuous series beginning from "1" to "N" for the entire state/U.T. and it is not confined to a taluk. The field length of the complete PLCN structure for a village has been kept up to 8

digits and therefore the location code number of village in a taluk contains 8 digits number for 2001 Census.

(ii) BRIEF HISTORY OF THE DISTRICT

Gulbarga district encompasses a vast geographical area and as may be expected, contains a few places of historical importance as well as a few which finds a mention in the Hindu mythology.

In former days, Gulbarga was known as Kalburgi which means a 'stony land' or 'stone roofing' or a 'heap of stones' in Kannada. Another version is that Gulbarga was so named to connote a leaf with flower, since 'gul' means 'flower' and 'Burg' means 'leave', in the Persian language. Nothing definite is known about the origin of the name, but this much is certain that it was known as Kalburgi in earlier days and was later on changed to Gulbarga. Even now it is not uncommon to hear people calling the place as Kalburgi.

There are a few places in Gulbarga district connected with legendary history, of which two may be mentioned, i.e., Sagara and Chhaya.

Sagara, the modern Shahapur got its name from a famous king of Ikshavaku lineage. It is said that somebody had administered poison to his mother and that therefore he was born with 'gara' (Sa+gara) i.e., poison. He got the lost kingdom of his father and performed the horse sacrifice here. He begot 60,000 sons by his first wife, who in subsequent years were lifted to the heaven by the penance and adventurous deeds of their grandson, Bhagiratha. (Gazetteer of Gulbarga 1966).

Chhaya is a famous place of pilgrimage on the banks of the river Krishna. This place is associated with the name of a wife of the Sun God. The legend says that the first wife of the sun, Samjna, unable to bear his burning radiance, created a woman, Chhaya, resembling her own form and left for her fathers house, leaving her replica at home with her husband. Chhaya lived with the Sun as his wife. The Sun was under the impression that it was his real wife. The mystery was somehow revealed afterwards and the Sun joined his original wife, leaving Chhaya-Devi. Chhaya was now helpless. After sometime, the Sun was full of remorse and said that in order to atone for the wrong which he did her, he would touch her feet every morning and 'even now the first rays of the rising Sun touch the feet of her image' at this place.

During the rule of the Nizam there was practically no real administration in the modern sense of the term. Land was given in the form of grants to nobles and others and as security for the payment of debts to people who had advanced money or to leaders of mercenary bands. The lands given to the nobles were known as Paigah and that given to others were called Jagirs. Land taken over by the Nizam from the government for failure to pay his privy purse was known as Sarf-e-khas and the land that remained under the government control was called Diwani land. Each had a separate administrative machinery of its own.

The areas directly under the government were divided into districts and each district was in turn divided into taluks. Zillabandi, the formation of district, was first attempted in 1863 and this constituted one of the most remarkable reforms brought about by Salar Jung, the then Prime Minister of Hyderabad. The first district to be then formed in this area was the Shorapur district. This had only 5 taluks originally, within a decade on account of annexations the number of taluks increased to nine and the district comprised of Shorapur, Gulbarga, Andola, Dehgaon, Chincholi, Sedam, Kodangal, Gurmatkal and Mahagaon(Narona). Gulbarga district as such was formed in 1873 with six taluks of the above mentioned nine. The Shorapur district was again broken up in 1883 when Andola taluk came to be transferred to Gulbarga district. Thus in 1901 Gulbarga district had seven taluks besides as many as 509 Jagir villages. In 1905 there were several change such as the transfer of Yadgir taluk from Raichur district to Gulbarga district. Gurmatkal and Mahagaon were divided among Sedam, Kodangal, Gulbarga and Yadgir taluks and 73 villages from Mahabubnagar district were included in Kodangal and Yadgir taluks. Thus, after these changes Gulbarga district consisted of 8 taluks and the 5 paigahs of Aland, Firozabad, Afzalpur, Kalgi, and Chittapur and the Jagirs of Tandur and Kosgi. This position remained more or less unaltered till, in September 1949, the Jagirs were abolished and the Sarf-e-Khas lands too were taken away from the Nizam after payment of compensation. In Gulbarga district four

more taluks were created out of adjoining enclave jagir areas. Thus, prior to the time of Reorganisation of States in 1956 the district comprised 12 taluks namely, Gulbarga, Chincholi, Sedam, Kodangal, Shorapur, Shahapur, Jevargi (Andola), Yadgir, Aland, Chitapur, Afzalpur and Tandur. Of these, in 1956 the taluks of Kodangal and Tandur were transferred to Andhra Pradesh and the rest to Karnataka. Thereafter there has not been any change either in the external boundaries of the district or in the boundaries of the taluks. The ten taluks of the district are grouped into three revenue sub-division with the respective head-quarters at Gulbarga, Sedam and Yadgir. After the formation of the new Mysore State in 1956, Gulbarga became the the headquarters of the Revenue Division having jurisdiction over the districts of Gulbarga, Bidar and Raichur. In 1966 for administrative convenience Bellary district was also transferred to Gulbarga Division.

Gulbarga was the capital of Alauddin Bahaman Shahim 1347 and continued as capital till about 1424, when the capital was shifted to Bidar. Even prior to 1347, Gulbarga formed a provincial seat of administration and before the Mohammedan conquest of this region, it was included in the territory ruled by the Kakatiyas of Warangal. The Gulbarga fort is said to have been originally built by Raja Gulchand of Warangal and subsequently strengthened by Alauddin Bahaman Shah, the Bahamani Sulthan. The fort contained 15 towers and 26 guns of which one was 8 meters long. Within the ramparts of the fort there is the imposing mosque which, spanning an area of 72 metres by 59 metres, resembles the great mosque of Cordova in Spain, it incidentally happens to be the only mosque in India which is completely roofed. The architect of this mosque was Rafi from Quazia of Iran.

The celebrated Sufi Saint Khwaja Syed Mohammed Gewuderaz popularly called Khwaja Bande Nawaz who was the disciple of Nasiruddin Chirag of Delhi, came to Gulbarga in 1413. He was primarily a Persian writer and after residing in the Deccan he mastered Urdu language. During 1422-36 Ahmad Shah Bahamani conferred rich endownments on Khwaja Bande Nawaz and even to this day the tomb of this saint stands as an imposing structure with a good number of other tombs in the huge complex. The tomb of Khwaja Bande Nawaz is an object of veneration for Muslims as well as the Hindus. The tomb has fine wall of paintings. The Bahamani sultans encouraged the influx of learned men, poets and statesmen to their capital from abroad. It later fell into the hands of Adilshahi dynasty. Gulbarga continued its importance under the Mughals and the Nizams. Nizam-ul-Mulk Asaf Jah, the first Nizam had it in his dominion and the Nizam made it a district headquarter in 1873. It was in 1956 it became part of the Karnataka State. To the north-west is the old Fort of Gulbarga, the outer walls and the gateway areas dilapidated condition. The other important monuments in Gulbarga are the shrine of Sharanbasaveshwara a veerashiva saint of the 19th century. The saints successors run a chain of educational institution in the city so also the successors of Bande Nawaz also run a chain of educational institutions. Besides this, the mosque of Khalandar Khan and the Hirapur mosque constructed during 1585 by Chandbibi are two more important building in the city. Shah Bazaar Masjid (mosque) is a notable monument of Bhamari period. There are seven monuments of Bahamari princes built between 1375 to 1422 A.D. and they are called as Haft Gumbaz. The monuments at Gulbarga are fine examples of Indo Sarasenic style. The Gulbarga city is subjected to the administration of a municipal corporation and university is also established.

(iii) Administrative setup and Jurisidictional changes during the decade 1991-2001

Gulbarga is situated on the north east corner of Karnataka State and it is the head quarters town of one of the four revenue divisions of Karnataka, popularly known as Hyderabad-Karnataka.

The jurisdiction of Gulbarga division extends over the districts of Gulbarga, Bidar, Raichur and Bellary. The district is further divided into three revenue sub-divisions and ten taluks. The Gulbarga sub-division comprises of Gulbarga, Aland, Afzalpur and Jevargi taluks. The Sedam sub-division consists of Sedam, Chincholi and Chitapur taluks. The Yadgir sub-division includes Yadgir, Shahapur and Shorapur taluks. The district has not witnessed any jurisdictional changes either with regard to district boundaries or with regards to taluk boundaries during the decade 1991-2001. According to the Census of

India, 2001, there are 1437 villages and 17 towns in the district. The variation in number of towns and villages between 1991 and 2001 census is attributed due to declassification, transfer, merger of towns and creation of new towns and villages. The statement below will give a clear picture of the towns and villages in the district and variations as per Census of India, 2001.

STATEMENT SHOWING THE NUMBER OF VILLAGES/TOWNS IN EACH TALUK OF THE DISTRICT, DECADAL VARIATIONS, IF ANY, AND REASONS THEREOF

Sl. No.	Taluk	Total No. of villages according to the list finalised for		Total No. of towns according to the list finalised for		Reasons for variation in the number of villages/towns in each taluk of the district, decadal variations if any and reasons thereof
		2001 Census	1991 Census	2001 Census	1991 Census	
1	2	3	4	5	6	7
1	Aland	136	129	1	1	Seven new villages viz., (1) Subashnagar, (2) Haltadkal, (3) Nasirwadi, (4) Sukarwadi, (5) Walwandwadi, (6) Vijayanagar, (7) Sharananagar were formed vide Government of Karnataka Notification No. RD 4 LRD 92 dated 27-09-1994 and added to 2001 Census village list. With the addition of these villages, the total number of villages in the taluk has increased from 129 in 1991 to 136 in 2001 Census. The civic status of Aland Town has been changed from Town Municipal council to Town Panchayat vide Notification No. HUD 409 MLR 95 dt. 26-09-95.
2	Afzalpur	93	90	1	-	With the addition of three new villages viz., (1) Vithalnagar, (2) Ramangar, and (3) Shivajinagar which were formed vide Notification No.RD.4.LRD 92 dated 27.9.1994, the total number of villages in the taluk has moved up from 90 in 1991 to 93 in 2001 Census. Afzalpur Town Panchayat has been newly constituted vide Notification No. HUD 641 MLR 95 (43) dt.07-11-95.
3	Gulbarga	140	143	1	1	The total number of villages, which was 143 in 1991 Census moved down to 140 in 2001 Census due to the inclusion of Hirapur and Dariyapur in Gulbarga Corporation limits, vide Notification No. HUD 641 MLR 95 (44) dt. 09-01-96. Some portion of the revenue village Kushnoor now form part of city limits and remaining developed area is now treated as an outgrowth of Gulbarga UA. Hence the village name was deleted from 2001 Census list of villages. Further, the erstwhile three outgrowths viz., Badepur, Biddapur, Brahmpur of Gulbarga UA and some portions of 10 other near by villages were also included in the extended corporation limits.
4	Chincholi	148	145	1	1	Five new villages were formed after 1991 Census. They are Srinagar, Hanumannagar, Gandhinagar, Jawaharnagar, and Venkatapura vide Notification No.RD.4.LRD.92 dated

Sl. No.	Taluk	Total No. of villages according to the list finalised for		Total No. of towns according to the list finalised for		Reasons for variation in the number of villages/towns in each taluk of the district, decadal variations if any and reasons thereof
		2001 Census	1991 Census	2001 Census	1991 Census	
1	2	3	4	5	6	7
						27.9.1994. Two Villages namely Bommanahalli and Chandapura, are fully included in Chincholi Town Panchayat vide Notification No.HUD 641 MLR (44) dt. 09-01-96. With the addition of 5 new villages and deletion of 2 revenue villages which got merged with Chincholi Town Panchayat the total number of villages in the taluk moved from 145 in 1991 to 148 in 2001. The civic status of Chincholi interim Mandal Panchayat has been upgraded to Town Panchayat vide Notification No. HUD 641 MLR 95(64) dated 09.01.96.
5	Sedam	117	110	2	3	After the 1991 Census, 7 new villages have been formed viz., (1) Rajivnagar, (2) Bhima-nagar, (3) Nrupathunganagar, (4) Jawahar nagar, (4) Nagasanpalli, (5) Indiranagar, (7) Malkapalli vide G.O.No.RD.4.LRD.92 dated 27.9.1994. Aditya Nagar a Census Town in 1991 Census situated within Mulkhed village lost its urban status, as it did not satisfy the urban criteria of treating an area as an urban. So the number of urban units in the taluk has decreased from 3 in 1991 to 2 in 2001 Census and on the other hand the number of villages increased from 110 in 1991 to 117 in 2001.
6	Chitapur	125	121	5	4	The number of villages in the taluk has moved up from 121 in 1991 to 125 in 2001 Census. Eight new villages viz., (1) Sanjaynagar, (2) Mahanagar, (3) Sevanagar, (4) Gandhinagar, (5) Devapur, (6) Bapunagar, (7) Shivanagar, (8) Tarkaspet, were formed vide Notification No.RD 4 LRD 92 dated 27.9.1994 after 1991 Census and included in the village list of 2001 Census. Further three villages viz (1) K.Chitapur, (2) P.Chitapur, (3) K.Nagaon, lost its identity as revenue villages due to their inclusion in the extended boundary limits of Chitapur Town. The civic status of Chitapur Town has changed from Town Municipality to Town Panchayat vide Notification No. HUD 405 MLR 95 dated 28.11.1995. Apart from the above changes, one more village of 1991 Census viz Bankur lost its rural status due to classification and inclusion as out growth of Shahabad UA.
7	Jevargi	159	158	1	-	'Indira Gandhinagar' was formed by bifurcating the erstwhile revenue village namely Mandewal vide Notification No.RD.4.LRD 92 dated 27.9.1994. Jevargi Town Panchayat a statutory urban unit was formed having same jurisdiction of Jevargi Mandal Panchayat vide Notification

Sl. No.	Taluk	Total No. of villages according to the list finalised for		Total No. of towns according to the list finalised for		Reasons for variation in the number of villages/towns in each taluk of the district, decadal variations if any and reasons thereof
		2001 Census	1991 Census	2001 Census	1991 Census	
1	2	3	4	5	6	7
						No.HUD.641 MLR.95 (95) dated 9.1.1996. However, this has no effect on number of villages in the taluk. With the inclusion of one village the total number of villages in the taluk increased from 158 in 1991 to 159 to 2001 Census.
8	Shorapur	201	185	1	4	As against 185 villages in 1991 Census there are 201 villages in 2001 Census. This is due to addition of 17 new villages and deletion of one village.The newly formed villages are (1) Sevanagar, (2) Shivajinagar, (3) Tippanatgi, (4) Ramnagar, (5) Bhagyanagar, (6) Horatti, (7) Mailapur, (8) Devatinagar, (9) Krishnagar, (10) Dharmapur, (11) Hanumannagar, (12) Rajunagar, (13)Manjalapur (K), (14) Jairamnagar, (15) Siddapur,(16) Venkatapura and (17) Kumbarpet, vide Notification No. RD 4 LRD 92 dated 27-09-1994. Further one village Narasingpet was fully included in Shorapur Town Municipal Council vide Notification No.HUD 404 MLR 95 dated 26.9.95 and hence deleted from 2001 Census list of villages. Besides three urban units of this taluk lost their urban identity due to declassification / for not satisfying the criteria for a place to be treated as urban. They are (1) Narayanapur NAC a portion of Narayanpur village (2) Hunasagi UKP Camp of Hunasigi village and (3) Krishnapur UKP Colony of Bijaspur revenue village. These 3 changes have no effect on number of villages in the taluk.
9	Shahpur	154	154	2	2	-
10	Yadgir	164	143	2	2	The number of villages in the taluk has gone up from 143 in 1991 Census to 164 in 2001 Census. The increase is due to inclusion of 21 newly formed villages in the taluk vide Notification No. RD 4 LRD 92 dated 27-09-1994. They are (1) Siddharthanagar, (2) Venkateshwaranagar, (3) Balajinagar, (4) Rampur(G), (5) Shivapur, (6) Devarahalli, (7) Kamalanagar, (8) Subashnagar,(9)Indiranagar, (10) Madepalli, (11) Dantapur, (12) Jawaharnagar, (13) Viswaspur, (14) Bhimanagar, (15) Ashoknagar, (16) Panchasheelanagar, (17) Shettikera, (18) Bettadahalli, (19) Dharmapur, (20) Devanalli, (21)Chandapur. The civic status of Gurumitkal Town has been changed from Town Municipality to Town Panchayat vide Notification No. HUD 403 MLR 95 dated 26.09.95.
	Total	**1437**	**1378**	**17**	**18**	

Total number of Towns/ Village:-

According to 2001 Census there are 17 towns and 1,437 villages in Gulbarga district, as compared to the position in 1991 where in there were 18 towns and 1378 villages in Gulbarga district.

Urban local bodies

The statutory urban local bodies are the City Municipal Councils, Municipal Corporations, Notified Area Committee, Town Municipal Councils, Town Panchayat, and Cantonment Boards. These urban local bodies elect Councilors / Corporators from each ward and the tenure of those Councilors / Corporators would be for five years. The President or Vice President of the Municipal Council and the Mayor / Deputy Mayor of the Corporations are elected from among the elected Councilors / Corporators whose tenure will be for a period of one year. The Chairman of various committees are also elected among the elected Councilors with a term of one year.

The Chief Officer in Municipal Council and the Commissioner in a City Corporation are responsible for daytoday administration and the executive authority is vested with them.

Zilla Panchayat and Taluk Panchayat

To promote the development of institution and secure greater measure of participation by the people in the local and governmental affairs by decentralisation of power and functions and for the purpose of development, planning and implementation of various programmes thereof Zilla Panchayats have been constituted in the State. The jurisdiction of Zilla Panchayat is coterminous with that of the corresponding district and covers the entire rural and semi urban areas but excludes the statutory towns. Accordingly, a Zilla Panchayat has been constituted for Gulbarga district and its jurisdiction extends over the 10 Taluk Panchayats of the district. The jurisdiction of each Taluk Panchayat is coterminous with that of the taluk of the same name but excludes the area incorporated in the statutory towns or cities.

The Zilla Panchayat elects its president and vicepresident and chairman of its committees from amongst the elected members. The term of these elected representatives will be for five years. An officer of the rank of IAS is deputed by the State Government as Chief Executive Officer of the Zilla Panchayat. Various departments assist Panchayat.

Gram Panchayats

The Government of Karnataka has enacted the Karnataka Panchayat Raj Act 1993 on 30.4.1993 replacing its previous enactment in this regard for the formation of Gram Panchayat.

STATEMENT SHOWING THE TALUKWISE NUMBER OF GRAMA PANCHAYATS AND HOBLIES/ FIRKAS

8	Shorapur	5	42
9	Shahpur	5	36
10	Yadgir	6	39
	Total	**48**	**338**

Details regarding Panchayatwise number of villages have been furnished in Annexure I.

The Grama Panchayat is authorised to function on the items listed in Schedule I of the Act namely, preparation of annual plans for the development of panchayat area, preparation of annual budget, providing reliefs in natural calamities, removal of encroachments on public properties, organising

voluntary labour and contribution for community works, maintenance of essential statistics of the village, in addition to matters relating to agriculture, Animal Husbandry, Fisheries, Social & Farm Forestry, Khadi, Village & Cottage Industries, Rural Housing, Drinking Water, Roads, etc., Rural Electrification, Non-conventional energy sources, poverty alleviation programmes, Markets & Fairs, Rural Sanitation, Public Health & Family Welfare, Women and Child Development, Social Welfare, Welfare of Weaker Sections, Public Distribution System, Maintenance of Community assets, Construction and Maintenance of Dharmashalas, Chatras, Cattle Sheds, Ponds, Cart Stands, Slaughter Houses, Public Parks, Play Grounds, etc. Regulation of manure pits in public places and establishment and control of shandies. Such other functions as may be entrusted.

The Grama Panchayat is also empowered to make provisions for carrying out within its area any other work or measure which is likely to promote the health, safety, education, comfort, convenience, social or economic well being of the inhabitants of the panchayat area.

(iv) PHYSICAL FEATURES

Gulbarga district is located in the north-eastern sector of Karnataka and cover a vast expanse of table land. Its extent is 170 kms from north to south while 168 kms from east to west, covering a total geographical area of 16,224 sq.kms. The most conspicuous areas of very high and very low in the district is located at 330 and 650 metres of contour lines above the mean sea level respectively.

(1) Location and size

Located on north eastern sector of the state, it lies between 16°12'N to 17°46'N latitude and 76°04'E to 77°42'E longitudes. On the north-west, for a short stretch, the district shares its boundaries with Maharashtra and on the east it is bounded by Andhra Pradesh. On the other three sides, the district is surrounded by Raichur on the south, Bidar on the north and Bijapur on the west.

(2) Physiography

Physiographically the region in which the district is located is defined as Deccan Plateau. It is further divided into micro regions and the district forms a part of "Northern Karnataka Plateau'. As per physio-agronomic classification of the areas within the state, Gulbarga belongs to northern maidan region. It consists of Deccan traps and sedimentary rock formations. These rocks are hard and compact black rocks called basalts. The general elevation ranges between 330 metres and 650 metres except in some eastern parts where it is above 660 metres. By and large the district presents a flat landscape and the slope is from north to south and south to east. The landscape is somewhat undulating in parts of Aland and Yadgir taluks. Mention may be made of few hill ranges in the district. The longest range of hills enter the north of Gulbarga district on the west and continues in the direction of south-east for about hundred kilometres. There is a small range called the Mohammedapur hills in Shahpur taluk. The third range takes its name from Shorapur which is historically important town of the district and it is about 13 kilometres. Another range of hills is seen in Yadgir taluk which runs from west to east for a length of about 32 kilometres and tapers off as it enters Sedam taluk.

(3) Drainage

The Krishna and the Bhima are the main rivers of the district. The Bhima itself is a tributary of the Krishna and flows into it at the south-eastern tip of the district. The river Krishna is venerated by the Hindus and a bath in the river is considered purificatory. The length of this river in the district is about 150 kilometres. At a place known as Jaldurg Falls, about 3 kilometres downstream near Narayanpur in Shorapur taluk, the river cascades down a fall of about 65 metres. It is near this spot a dam is being constructed under the Upper Krishna Project.

The river Bhima rises in the Western Ghats near Bhimashankar and flows south-eastwards across the district for a length of about 225 kilometres and has a total drainage of 70,614 sq.kms. Most of the areas on either banks of the river consist of black cotton soil with patches of murram and sandy soils at ridge points. Several streams and rivers like Bori, Amerja and Kagna join the river Bhima through its course in the district. The Amerja river which rises near Alur in Maharashtra flows south to join the Bhima just upstream of the pilgrim centre Devar Ghangapur. This river enters Gulbarga district near Niragundi village of Aland taluk and flows directly south through the

taluks of Aland and Afzalpur covering a distance of about 90 kilometres. The Bori river formed by the confluence of two big streams in Sholapur district has the major portion of its course in Maharashtra territory. It enters Gulbarga district near Jodki Khurd village of Afzalpur taluk and traverses south for about 25 kilometres in a zig-zag manner before joining the Bhima. The Kagna rises near Kohir in Andhra Pradesh and enters the district near Habal village in Sedam taluk. It has a serpentine course and flows east and south-east till it joins the Bhima near Hungunta village in Chitapur taluk. The main tributaries to this river are the Bennithora, the Mullamari and Kamalavathi streams. It passes through the taluks of Sedam and Chitapur and covers a distance of about 64 kilometres. The Bennithora river rises on the ridges near Mallegaon in Maharashtra and enter Gulbarga district near Hipperga in Aland taluk. It flows for about 100 kilometres in the north-easterly direction to join the Kagna river near Malkhed. The river flows through Aland, Gulbarga and Chitapur taluks. The river Mullamari rises near Matala in Homnabad taluk of Bidar district and after flowing in a south-eastern direction for about 50 kilometres enters Gulbarga near Kinni village and continues to flow in the same direction for another 65 kilometres. Near Chincholi town it turns directly south and flows into the Kagna river near Jattur after traversing another 25 kilometres.

(4) Climate

The climate of the district is generally dry and healthy, and the seasons are on the pattern of those generally in the Deccan. The summer season starts during the middle of February and continues upto the first week of June. Summer is followed by south-west monsoon which last till the end of September. October and November are the post-monsoon months. The period from December to the middle of February is the coldest season. The mean daily maximum temperature during coldest month is 29.7°C and mean daily minimum temperature is 14.8°C. The mean daily maximum temperature during summer is 40.6°C and the mean daily minimum temperature is 25.9°C.

(5) Winds

Winds are generally light to moderate with some increase in force during the later half of summer and the monsoon season. Winds are from directions between south-west and north-west during the monsoon season. In the post monsoon season, they are north-easterly or easterly. In the cold seasons, winds blow mainly from directions between north-east and south-east. In summer season, winds are variable in direction but by May, winds from directions between west and north predominate. The depressions from the Bay of Bengal become diffused on crossing the east coast of India, while traversing westward, these diffused depressions affect the district and its neighbourhood causing wide spread heavy rain. Thunder-storms occur in April, May and early June.

(6) Rainfall pattern

The District falls under north eastern transition and north eastern dry agroclimatic zones of the state. The taluks of Aland and Chincholi falls under north eastern transition zone. The taluks of Afzalpur, Chitapur, Gulbarga, Jevargi, Sedam, Shahpur, Shorapur and Yadgir falls under north eastern dry zone.

The average Rainfall in the district ranges from 686mm in Afzalpur taluk to 944 mm in Chincholi taluk. The rainfall decreases from north western part of the district towards north and eastern part. The northwest part of Afzalpur taluk receives the lowest rainfall.

Among the taluks in the district the premonsoon rainfall contributes 8 to 11 percent of the annual rainfall, southwest monsoon contributes 70 to 78 percent and northeast monsoon contributes 14 to 21 percent of the annual rainfall.

The coefficient of variation ranges from 62 to 78 percent for the premonsoon season, the highest variability (78 percent) being in the Chitapur taluk

The coefficient of variation for southwest monsoon ranges from 30 to 46 percent the highest being in Chitapur taluk. The coefficient of variation for northeast monsoon ranges from 65 to 86 per cent the highest being for Sedam taluk.

The coefficient of variation for Annual rainfall ranges from 27 to 40 per cent. Jevargi taluk experiences high variability of rainfall.

Shahpur (42)	12(29)	5(25)	10(24)	4(20)	13(31)	6(30)	7(17)	1(5)
Shorapur (43)	15(35)	5(25)	15(35)	9(45)	20(46)	9(45)	11(26)	6(30)
Yadgir (64)	26(41)	7(35)	12(19)	5(25)	16(25)	5(25)	10(16)	2(15)

Note : Figures in bracket indicate values as percentage of number of years for which data is available or for 20 years depending on the column in which it is given.

The following inferences could be made:

* The Premonsoon rainfall in the recent 20 years is more deficit compared to the long term data.
* Southwest monsoon in the recent 20 years is more deficit compared to the long term data with Jevargi and Shahpur taluks as an exception.
* The rainfall deficit during northeast monsoon is increasing during recent 20 years compared to the long term data.
* The trend analysis of annual rainfall indicates increasing trend in the taluks of Afzalpur, Jevargi, Chincholi, Shahapur and Yadgir. The rest of the taluks viz. Aland, Chitapur, Gulbarga, Sedam and Shorapur indicate decreasing trend.

(7) Forestry

The climate and topographical conditions of the district are not quite favourable for the growth of rich vegetation and forests. The total forest area in the district consist of 4.3 percent of the total geographical area. The forests of the district are of three types : the mixed teak forests, the mixed firewood forests and the dry scrub forests. The teak forests are found only in Chincholi range and it is considered to be of good quality. The mixed firewood forests are found in most of the taluks, and occasionally these forest contain sandalwood which is much more valuable. The major forest products of the district are constructional timber and firewood. Among the minor products, Rosa grass of motia variety is an important product which is auctioned every year by the Forest department. The oil extracted from this grass is exported to United States of America and the Arab countries.

(8) Geology

The main geological formations in the district are (i) Pleistocene and Recent: consisting of soil and laterite, alluvium and recent conglomerates ; (ii) Tertiary: composed of Deccan traps and inter-trappeans and infra-trappeans; (iii) Puranas (Precambrian): composed of Upper Bhima Shales and Sandstones, Middle Bhima Limestones and Lower Bhima Shales and Sandstones and (iv) Archaen: comprising Peninsular gneiss with associated younger granites and Dharwar Schists. The Dharwars occur merely as small patches amidst the gneiss and are of negligible size. The major portion of the area in Shahpur, Shorapur and Yadgir taluks are covered by Peninsular gneisses. Two types of gneisses are found.

The grey gneiss are found on the hill tracts north of Shorapur and Shahpur. Fire-grained Pink gneisses occur extensively to the north of Sagar and Rastapur. The granite and gneisses of the complex are traversed by a number of dolerite dykes. Overlying the steeply dipping granites and gneisses are seen horizontal beds of sandstone, shale and limestone in the valleys of the rivers Bhima and Kagna which are designated as the Bhimas. Infra Trappeans consisting of layers of unconsolidated mud and grit, reddish or whitish in colour are described as occurring as beds varying in thickness from two to nine feet underlying the upper Bhimas and below the Deccan Trap. The Deccan Traps are seen in the northern portion of Gulbarga district. The taluks of Aland, Afzalpur and part of Chincholi are covered by trap flows. These rocks are composed of soft and hard lava flows whose weathering has produced flat-topped hills and terrace like features. Cryptocrystalline silica in the form of agate, Chalcedony, opal and jasperoid chert are commonly seen along with the traps. North of Gurmatkal in Yadgir taluk, inter-trappean cherts with associated marls are seen.

(9) Flora and Fauna

Gulbarga district is situated in the dry-climate belt and is devoid of lofty ranges of hills. Consequently the flora and fauna of the district are not quite impressive. The forest area constitute a meagre four percent of the total geographical area. Forests are of two types. Deciduous in the north-east zone with a fairly dense tree growth and the scrub type on the south-east. As the deciduous forests have for long been over-exploited, most parts of the forests have become barren. The forest-flora is scattered in small bits except in Chincholi taluk where dense growth of trees of appreciable growth could even now be met with. The other taluks have patches of forests mostly the scrub type, yielding no timber at all.

In the absence of thick evergreen forests in the district, wild life is almost non-existent. The deciduous forests have a few varieties of langoors and monkeys. Beasts of prey belonging to the carnivora class are seen occasionally. The tiger is almost extinct and few panthers are seen very rarely. Bears are found in some areas in Chincholi taluk and cause menace to farmers. The hyena, wolves, wild dogs, Spotted deer, Sambhar, Black buck, Indian fox and Jackals are seen in various parts of the district.

(10) Soils

The district contain soils derived from Deccan traps, Vindhyan formations, granites, gneisses and laterite. The soils are shallow to medium black, deep black, red sandy loams, laterite and alluvial. The black soil occur in major parts of the district, and it is derived from Deccan traps. It is best known for dry farming. Shallow to medium black soils occur in the taluks of Gulbarga, Yadgir and Jevargi. Deep black soils are found in Gulbarga, Aland, Afzalpur, Chincholi, Shahapur, Jevargi, Chitapur and Sedam. These are rich in bases like lime and magnesium and they have a high base exchange capacity. These soils have clay content ranging from 40 to 70 percent and the water holding capacity is high.

The red sandy loams which are red to pale brown in colour are found in parts of Yadgir, Shorapur, Aland and Afzalpur taluks. The laterite soils are bright red to pale red and sandy loam in texture. Their water holding capacity is poor. This type of soil is found in the northern parts of Gulbarga and Chincholi taluks. Alluvial soils are found on the banks of Bhima and Krishna rivers in Yadgir and Shorapur taluks. These soils are clay to clay loams in texture and are rich in bases. The soil test conducted in the district prove that the soils have a high concentration of soluble salts which are either critical for growth or for germination. It indicates a strong tendency for soils to develop alkalinity. Phosphorous content is low and they have a high potash content. These soils are suitable for growing jowar, paddy, millets, pulses, sunflower, cotton, linseed, wheat, bananas, chillies, onions, groundnuts and other vegetables.

(11) Cropping pattern

Agriculture is predominant activity in the district. According to the results of the census of India 2001, 27.1 percent are cultivators and 40 percent are agricultural labourers, which only highlights that there is a high proportion of cultivators and agricultural labourers in the district.

The below given table reveals data on land use pattern in the different taluks of the district for the year 1997-98 in Hectares.

LAND USE PATTERN FOR 1997-98 IN HECTARES

Name of Taluk	Geographical Area	Forest Area	Land put to Non-agricultural use			Uncultivable Fallow Land		Cultivable Fallow Land	Area Sown			Total Net Area Irrigated
			Barren and Uncultivable land	Land put to Non-agricultural use	Cultivable waste land	Permanent pastures	Trees and groves		Net Area Sown	More than once	Total Area Sown	
1	2	3	4	5	6	7	8	9	10	11	12	13

Source : Gulbarga District at a Glance, 1998-99, District Statistical Office, Gulbarga

Agricultural land is the major economic resource which all along has been providing sustenance to the people of the district. The land use data for the district for the year 1997-98 reveals that the net area sown is 70.0 per cent and the total area sown is 83.1 per cent. The area classified as land put to non-agricultural use constitute 7.8 per cent and uncultivable fallow lands constitute 3.2 per cent. Since cultivable fallow lands also represent the cultivated lands it is obvious that 85 per cent of the total geographical area has already been brought under the plough. Therefore there is very little scope for further expansion of the area under cultivation. Dry farming forms the basis of the traditional economy of the district and 11.2 per cent of net area sown receives irrigation facilities.

LAND HOLDINGS IN HECTARES 1990-91

Name of Taluk	Marginal (Below 1)		Small (1–2)		Semi-Medium (2-4)		Medium (4-10)		Large (10 & above)		Total Holdings

The size of the agricultural holdings is one of the important factors that determine the productivity of land. From the above it is observed that distribution of land holdings is very much uneven. It is found that small holding of 1-2 hectares and semi-medium holdings of 2-4 hectares constitute more and these holdings accounted for 31.1 and 30.1 per cent of the total holdings. Lands held by these holdings accounted for 14.2 and 25.8 per cent of the total land held. Land holdings of medium size 4-10 hectares constitute 19.2 per cent and the total land held by them accounts for 35.5 per cent.

AREA, PRODUCTION AND AVERAGE YIELD OF PRINCIPAL CROPS FOR 1998-99 UNDER ALL SEASONS

Principal Crops	Irrigated			Un-irrigated			Total		
	Area in hectare	Production in tones	Yield in Kgs per hectare	Area in hectare	Production in tones	Yield in Kgs per hectare	Area in hectare	Production in tones	Yield in Kgs per hectare

Total Food grains*	-	-	-	-	-	-	1,037,679	580,273	589

Note:- * Data for irrigated and un-irrigated area separately are not available.

Statistics relating to area, production and average yield under principal crops reveals that more than 70 percent of the cultivated lands are sown with food crops. Bajra, jowar and paddy are the main principal crops grown in the district. Considerable extent of area put under cultivation of jowar and bajra are being rain-fed. Paddy is grown mainly under irrigated condition. Wheat, maize and ragi are the other cereals grown in the district. Among the oil seeds, sun flower and groundnut are grown extensively in the district. Sesamum, nigerseed, linseed, castor and soyabean are the other oil seeds grown in the district. Cotton, sugarcane, mesta and sunhemp are the chief commercial crops produced in the district. Total area put under cultivation of plantation and horticultural crops constitute 7,429 hectares. The area, production and yield of different plantation crops grown in the district can be seen from the table. Dry chillies, dry ginger, garlic, coriander and coconut are also grown in the district.

AREA, PRODUCTION AND AVERAGE YIELD OF CROPS FOR 1998-99 UNDER ALL SEASONS

Crops	Area in hectares	Production in tones	Yield in Kgs per hectare

(12) Irrigation

The district is naturally bestowed with plenty of waters. Through its perennial rivers namely the Krishna, the Bhima, the Kagna, the Amerja, other rivulets and streams. In the recent past efforts are being made to improve the irrigation facilities and to bring more areas under irrigation. The table below gives a detailed picture on net area irrigated by different sources for the year 1998-99.

NET AREA IRRIGATED BY DIFFERENT SOURCES

Name of Taluk	Net area irrigated for 1998-99 (Area in hectares)						
	Canal	Tank	Wells	Bore Wells	Lift Irrigation	Other sources	Total
1	2	3	4	5	6	7	8
Afzalpur	-	92	3,523	318	34	938	4,905
Aland	-	-	6,737	158	-	-	6,895
Chincholi	1,400	360	740	166	-	262	2,928
Chitapur	-	-	461	255	-	90	806

Source: Gulbarga District at a Glance, 1998-99, District Statistical Office, Gulbarga.

As per statistics given in the above table, the net area irrigated is 11.2 percent of the net area sown in the district. Of which a considerable proportion is being irrigated through canals. An area of 22,728 hectares are being irrigated through wells which is the only source available in all the taluks in the district.

In order to augment the irrigation potential in the district, the government has accorded permission to few irrigation projects. One such project is the giant multipurpose Upper Krishna Project for exploitation of Krishna water which was approved in 1969. The project has been taken up in stages. The Bennithora irrigation project comprises of a reservoir across the

river Bennithora, near Henus(Khurd) village in Chitapur taluk. With canals on both banks, this project is expected to provide irrigation to an extent of 20,234 hectares. The dam is a composite one with 2,207 mt. long and 24 mt. high. It has submerged an extent of 2,473 hectares. Of land affecting 9 villages in the district. The work is under progress. Amrja is another irrigation project comprising of a reservoir across the river Amrja, near Sangagi village in Aland taluk. The proposed canals on both sides, will provide irrigation to an extent of 8,903 hectares of land in Aland and Afzalpur taluks. It is an earthern dam with 960 mt. long and 31.85 mt. high It has submerged an extent of 641 hectares, affecting three villages. The work is under progress. The Lower Mullamari project is yet another irrigation project by which the district will be benefited. This project consist of a reservoir across the rivers Mullamari, a tributary to river Bhima near Nagarhal village in Chincholi taluk. With two canals on both banks, it is expected to irrigate 8,100 hectares of land. It is designed as an earthern dam with 2024 mt. long and 24.46 mt. high, submerging an area of 844 hectares affecting 4 villages. The project is under different stages of completion.

Gandorinala is another medium irrigation project that envisages construction of dam across the river Gandorinala near Belkota site in Gulbarga taluk. It is expected to cover 8094 hectares of land. Bhima Lift Irrigation Scheme envisages construction of earthern dam proposed near Sonna (K) village of Afzalpur taluk. The proposed length of the dam is 2,250 m. The project is yet to be cleared by the Central Water Commission. It is expected to irrigate 24,282 hectares of land in Afzalpur. The Kagna project is a new one covering an area of 8,000 hectares in Chitapur and Sedam taluk.

(13) Natural Wealth

The major minerals available in the district are Limestone, quartz, red ochre, steatite, violet amethyst, moulding sand, calcareous earth, iron ore – fuller's earth, clay, copper, feldspar, gold, gypsum, tourmaline and shale. The minor minerals are building stone, banded agate, sand stone, ornamental stone and ordinary sand. Limestone deposits are extensively found in Sedam, Chincholi, Shorapur, Chitapur, Shahpur, Gulbarga and Jevargi. It is used in manufacturing of cement and is being exploited over the decades. Copper is available in Shorapur and the quantity of reserve has not been assessed. Good quality of quartz is available in Sedam, Yadgir, Shorapur and Chitapur. Fuller's earth is available in Chincholi taluk. This earth has the unique property of bleaching vegetables and mineral oils. Fuller's earth is mainly used by the petroleum-refinining industry for filtering and clarifying lubricants. It is also being used for deodorization of oily waste material and purification of water. The other minerals available in abundance like ordinary sand, moulding sand and building stone which is used as flooring and roofing material are being exploited for economic purposes. The taluk-wise mineral resources are presented in the following table.

MINERAL RESOURCES OF THE DISTRICT

Sl. No.	Taluk	Type of Mineral		Remarks
		Major	Minor	
1	2	3	4	5
1	Aland	-	Building Stone	-
2	Afzalpur	-	Building Stone	-
3	Chincholi	Calcareous earth, Iron ore, Fuller's earth, Limestone	Building Stone	-
4	Chitapur	Limestone, Moulding Sand, Quartz, Red ochre, Shale	Building Stone, Ordinary Sand	Building stone and ordinary sand available abundantly
5	Gulbarga	Limtestone, Gypsum	Building Stone	-
6	Jevargi	Limestone, Red ochre	Building Stone, Ordinary Sand	-
7	Sedam	Quartz, Red Ochre, Steatite, Limestone	Building Stone, Banded Agate, Sand Stoneare	Existing major cement projects are setup large scale quarrying for Shahabad stone carried out
8	Shahpur	Limestone, Red ochre Ordinary Sand,	Building Stone, Ornamental Stone	Building stone and ordinary sand available abundantly

Sl. No.	Taluk	Type of Mineral		Remarks
		Major	Minor	
1	2	3	4	5
9	Shorapur	Calcareous earth, Clay, Copper, Feldspar, Gold, Gypsum, Limestone, Quartz, Tourmaline, Moulding Sand	Building Stone, Ornamental Stone	M/s Bangalore Cements are setup a plant at Hunsigi village
10	Yadgir	Violet amethyst, Moulding Sand Quartz	Building Stone	Building material abundantly

(14) Animal Husbandry

Livestock rearing plays an important role in the rural economy wherever agriculture is predominant. Generally it is felt that the climatic and soil condition and wide spread fluctuations in rainfall have rendered the district not suited for livestock rearing. Despite this fact the district ranks in third place in its livestock population. (Ref : A Handbook of Karnataka - 2001, Gazetteer Department, Govt. of Karnataka).

According to the provisional figures of Livestock Census 1997, the total livestock population in the district is 2,153,146 which includes cattle, buffaloes, sheep, goats, pigs, rabbit, dogs and other livestock. Total poultry stock is 7,35,000. The following table shows the distribution of various types of livestock in the district for the year 1997.

The milk production in the district is 166,000 tonnes About 385 lakhs of eggs and 3,367 tonnes of meat are produced annually in the district. One sheep and wool development scheme at Yadgir is functioning under the control of Zilla Panchayat. There are 32 poultry institutions in the State. Of which one District Poultry Rearing and Training Centre and Intensive Poultry and Egg Marketing Centre is at Gulbarga.

DISTRIBUTION OF LIVESTOCK POPULATION IN THE DISTRICT

Sl. No.	Name of Livestock	Total Livestock
1	2	3
1	Cattle	815,651
2	Buffaloes	208,453
3	Sheep	447,496
4	Goats	569,654
5	Pigs	24,561
6	Rabbit	28
7	Dogs	84,381
8	Other Livestock	2,922
	Total Livestock	**2,153,146**
	Total Poultry	**735,000**

(14A) Veterinary Services

The spread of veterinary services has resulted in overall improvement of animal health. In all, the district has 284 veterinary institutions catering to the needs of the livestock population in the district. The details are given below.

VETERINARY INSTITUTIONS IN THE DISTRICT FOR THE YEAR 2000

Sl. No.	Veterinary Services	No. of Institutions
1	2	3
1	Hospitals	12
2	Dispensaries	43
3	Primary veterinary centres.	199
4	Mobile dispensaries	10
5	Artificial Insemination centre	22

(15) Fisheries

Gulbarga is not known for its fishing activity. The activity in this sector in the district is limited to inland fishing. Major and minor tanks in the district numbers to 438 with the water spread area of 9,518.8 hectares and there are 8 reservoirs with the water spread are of 6,049.5 hectares. The district has 6 Fish Farms mainly involved in rearing activity. Four private fish seed centres located in the district are also involved in rearing activity. The district is equipped with 28 Ice Plants. There are 22 Primary Fishing Co-operative Societies and 3 private fish markets functioning in the district. There are 3,821 active fishermen in the district. The government has introduced various welfare schemes for the benefit of fishermen. Some of them includes, Group Accident Insurance, Centrally Sponsored Scheme Development of Model Fishermen villages, Centrally Sponsored Scheme for motorisation of traditional fishing craft, Centrally Sponsored Scheme for reimbursement of Central Excise duty on diesel used by mechanised boats, subsidy on sales tax, Payment of Distress Relief fund, etc. The following table highlights in brief the fishing activity in the district.

(16) Industries

Though Gulbarga ranks amongst the industrially backward district, some of its industries are worth mentioning. A well known cement factory and a large sized textile mill functioning in the district have enabled Gulbarga to find a unique place in the industrial map of the state. It has a few small scale engineering units consisting of automobile workshops, soap manufacturing units, beedi factories and bakeries, etc. There are a few household industries mainly engaged in handloom weaving which provide job to thousands of workers. The statistics for the year 1998-99 reveals that the district has 2 textile units, 2 chemical units which are located at Gulbarga city and 22 engineering units. The district has 115 units categorized as 'others'. All these units offer employment opportunities to 15,990 persons. The taluk wise details are given below.

(17) Trade and Commerce

Trade and commerce activity in the district are confined to limited spheres. The chief exports include jowar, bajra, pulses, cotton, groundnut and tobacco. Cement and stone slabs are also exported. The imports include provisions and foodgrains, textiles, sugar, salt, non-edible oils, hardware, coal, machinery and lot of other consumer and luxury goods. The first regulated market in the district was started in 1940. By 1970-80, the number increased to 22 markets. Currently the district has 10 markets, one in each taluk.

The banking in its modern sense had its beginning in 1917 when the Central Co-operative bank was established in Gulbarga. The first commercial bank was established in 1922 but it was closed in the year 1958. The Central Bank of India and State Bank of Hyderabad started its branches at Yadgir and Gulbarga in the year 1939 and 1944 respectively. Since then several branches of different banking institutions came into existence in the district. The district now has 96 commercial banks spread all over the places. Of which 39 banks are in Gulbarga taluk. There are 75 regional rural banks, 6 urban co-operative banks and 10 other co-operative banks. Each taluk has one Primary Land Development bank.

Over the years, the co-operative movement has gained solid base in the district. From 635 societies of all types during 1979, it has grown up to 1,236 in 1999.

(18) Transport and Communication

The district has fairly good rail communication facility. There are two broad guage railway lines, which were laid more than hundred years ago. The Raichur-Sholapur section was laid between 1861-1871 to connect Bombay and Madras Presidencies. It passes through Yadgir, Wadi, Shahabad and Gulbarga. The Wadi-Secunderabad line passes through the towns of Chitapur and Sedam. There two lines provided vital link between Hyderabad, Madras and Bombay.

The road communication during the pre-independence period was very poor in the district. Special attention was paid to the development of roads under the Five Year Plans. The Rural Communication Programme launched by the State Government in 1959-60, focussed its attention to provide all-weather roads in rural areas, construction of missing links and construction of culverts. Since then, the district witnessed improvements in road communications. The total road length of the district is 7,741 kms. There are no National Highways passing through the district. The roads in the district are classified as State Highways, District Major Roads, Other District Roads, Village Roads, TDB Roads, Municipality Roads, Forest Roads and Irrigation Department Roads. Total bridges numbers to 45 in the district. The taluk wise details of transport facilities available is given below.

ROAD TRANSPORT IN THE DISTRICT

The district has 623 post offices, 209 telegraph offices and 138 telephone exchanges besides a good number of telephone connections enabling them communication to far and vide places. Apart from the above, mobile service facility is also available in the district. The below given table shows talukwise details of post offices, telephone exchanges, etc.

(19) Electricity and Power

Karnataka has a place of pride in the history of power generation in the country. KPTCL – Karnataka Power Transmission Corporation Limited (erstwhile KEB) is mainly vested with the functions of transmission and distribution of power in the entire state. The Corporation has been attaching great importance to electrification of villages and hamlets, tribal colonies and harijan basthis and energisation of irrigation pumpsets. Besides this, with a view to benefit weakest among the section of society schemes called Bhagya Jyothi / Kutir Jyothi have been introduced.

Statement given below shows talukwise number of villages electrified and talukwise energisation of IP sets as on 31.3.1999 in Gulbarga district.

TALUKWISE NUMBER OF VILLAGES ELECTRIFIED AND ENERGISED IP SETS AS ON 31.3.1999

(v) CENSUS CONCEPT

Building

A 'Building' is generally a single structure on the ground. Sometimes it is made up of more than one component unit which are used or likely to be used as dwellings (residences) or establishments such as shops, business houses, offices, factories, workshops, worksheds, Schools, places of entertainment, places of worship, godowns, stores etc. It is also possible that building which have component units may be used for a combination of purposes such as shop-cum- residence, workshop-cum-residence, office-cum-residence, etc.

Usually a structure will have four walls and a roof. But in some areas the very nature of construction of houses is such that there may not be any wall. Such is the case of conical structures where entrance is also provided but they may not have any walls. Therefore, such of the conical structures are also treated as separate buildings.

Permanent houses

Houses, the walls and roof of which are made of permanent materials. The material of walls can be any one from the following, namely, galvanized iron sheets or other metal sheets, asbestos sheets, burnt bricks, stones or concrete. Roof may be made of from any one of the following materials, namely, tiles, slate, galvanized iron sheets, metal sheets, asbestos sheets, bricks, stones or concrete.

Semi-permanent houses

Houses in which either the wall or the roof is made of permanent material and the other is made of temporary material.

Temporary houses

Houses in which both walls and roof are made of materials, which have to be replaced frequently. Walls may be made from any one of the following temporary materials, namely, grass, thatch, bamboo, plastic, polythene, mud, unburnt bricks or wood. Roof may be made from any one of the following temporary materials, namely, grass, thatch, bamboo, wood, mud, plastic or polythene.

Dwelling Room

A room is treated as a dwelling room if it has walls with a doorway and a roof and should be wide and long enough for a person to sleep in, i.e. it should have a length of not less than 2 meters and a breadth of at least 1.5 meters and a height of 2 meters. A dwelling room would include living room, bedroom, dining room, drawing room, study room, servant's room and other habitable rooms. Kitchen, bathroom, latrine, store room, passage-way and verandah which are not normally usable for living are not considered as dwelling rooms. A room, used for multipurpose such as sleeping, sitting, dining, storing, cooking, etc., is regarded as a dwelling room. In a situation where a census house is used as a shop or office., etc., and the household also stays in it then the room is not considered as a dwelling room. But if a garage or servant quarter is used by a servant and if she/ he also lives in it as a separate household then this has been considered as a dwelling room available to the servant's household. Tent or conical shaped hut if used for living by any household is also considered as dwelling room.

A dwelling room, which is shared by more than one household, has not been counted for any of them. If two households have a dwelling room each but in addition also share a common dwelling room, then the common room has not been counted for either of the households.

Census House

A 'census house' is a building or part of a building used or recognised as a separate unit because of having a separate main entrance from the road or common courtyard or staircase, etc. It may be occupied or vacant. It may be used for residential or non residential purpose or both.

In certain peculiar situations, the manner in which buildings and census houses were identified for numbering in the field by the enumerators is described hereunder:

Sometimes a series of different buildings are found along a street which are joined with one another by common walls on either side looking like a continuous structure. These different units are practically independent of one another and are likely to have been built at different times and owned by

different persons. In such cases, though the whole structure with all the adjoining units apparently appears to be one building, each portion was treated as a separate building and its constituent units as separate census houses.

On the other hand, one may come across cases, particularly in large cities of multistoreyed ownership flats. In these cases while the structure looks like one building, different persons own the flats. In case of such multistoreyed structures, having a number of flats owned by different persons, the entire structure was treated as one building and each flat as a separate census house.

If within a large enclosed area, there are separate buildings owned by different persons then each such building is treated as a separate building. There can be a situation where within an enclosed compound there are separate buildings owned by an undertaking or company or even government that are actually in occupation of different persons. For example, Indian Oil Corporation colony where the buildings are owned by the Corporation but these are in occupation of their employees. Each such building was treated as a separate building. But if in any one of these buildings there were flats in occupation of different households, each such flat was reckoned as a separate census house.

Sometimes it becomes difficult to apply the definition of census house strictly in certain cases. For example, in an urban area, if a flat has five rooms, each room having direct entrance from the common staircase or courtyard, by definition, this has to be treated as five census houses. If all these five rooms are occupied by a single household it was not realistic to treat them as five census houses. In such a case,'singleness' of use of these rooms along with the main house should be considered and the entire flat was treated as one census house. On the other hand, if two independent households occupy these five rooms, the first household living in 3 rooms and the second household occupying 2 rooms, then considering the use, the first three rooms together were treated as one census house and the remaining rooms as another census house. But if each room was occupied by an independent household, then each such room was treated as a separate census house.

In case of hostels, hotels, etc., even if the door of each room in which an inmate lives opens to a common verandah, staircase, courtyard or a common room, as it happens almost invariably, the entire hostel/ hotel building was treated as one census house. But if such hostels/ hotels have out houses or other structures used for different purposes or the same purpose, then each such structure attached to the main hostel / hotel was treated as a separate census house.

In some parts of the country, in rural areas, the pattern of habitation is such that a group of huts, located in a compound, whether enclosed or unenclosed, is occupied by one household. While the main residence may be located in one hut, other huts may be used for sleeping, as a kitchen, bath room, baithak, etc. Though each of the huts was a separate structure, they form a single housing unit and therefore, have to be treated collectively as one building and one census house. If some of the huts are used by one household and the others by a second household as residence, then the two groups of huts were treated as separate census houses. However, if there were also other huts in the compound used for other purposes and not as part of the household's residence such as, cattle shed, workshed, etc., these were treated as separate census houses.

On the other hand, in urban areas, where more than one structure within an enclosed or open compound (premises) belonging to the same person, e.g., the main house, the servant's quarter, the garage, etc., only one building number was given for this group and each of the constituent a separate census house number.

Only cases where a structure with roof and pillars has come up was treated as a building.

Village

The basic unit for rural areas is the revenue village which has definite surveyed boundaries. The revenue village may comprise of one or more hamlets but the entire village is treated as one unit for presentation of data. In unsurveyed areas, like villages within forest areas, each habitation area with locally recognized boundaries is treated as one village.

Rural-Urban area

The data in tables on Houses, Household Amenities and Assets are presented separately for rural and urban areas. The unit of classification in this regard is 'town' for urban areas and 'village' for rural areas. In the Census of India 2001, the definition of urban area adopted is as follows:

a) All places with a municipality, corporation, cantonment board or notified town area committee, etc.

b) A place satisfying the following three criteria simultaneously:

i) A minimum population of 5,000;

ii) at least 75 per cent of male working population engaged in non-agricultural pursuits; and

iii) a density of population of at least 400 per sq. km.(1,000 per sq.mile)

For identification of places which would qualify to be classified as 'urban' all villages, which, as per the 1991 Census had a population of 4,000 and above, a population density of 400 persons per sq. km. and having at least 75 per cent of male working population engaged in non-agricultural activity were considered. To work out the proportion of male working population referred to above against b) (ii), the data relating to main workers were taken into account.

Apart from these, the outgrowths (OGs) of cities and towns have also been treated as urban under 'Urban Agglomerations'. Examples of outgrowths are railway colonies, university campuses, port areas, military camps, etc., that may have come up near a statutory town or city but within the revenue limits of a village or villages contiguous to the town or city. Each such individual area by itself may not satisfy the demographic criteria laid down at (b) above to qualify it to be treated as an independent urban unit but may deserve to be clubbed with the towns as a continuous urban spread. Thus, the town level data, wherever presented, also includes the data for outgrowths of such towns.

City

Towns with population of 100,000 and above are called cities.

Urban Agglomeration

An Urban Agglomeration is a continuous urban spread constituting a town and its adjoining urban outgrowths (OGs) or two or more physically contiguous towns together and any adjoining urban outgrowths of such towns. In some cases railway colonies, university campuses, port areas, etc., may come up near a city or statutory town outside its statutory limits but within the revenue limits of a village or villages contiguous to the town or city. Each such individual area by itself may not satisfy the minimum population limit to qualify it to be treated as an independent urban unit but may deserve to be clubbed with the town as a continuous urban spread.

For the purpose of delineation of Urban Agglomerations during Census of India 2001, following criteria are taken as pre-requisites:

(a) The core town or at least one of the constituent towns of an urban agglomeration should necessarily be a statutory town; and

(b) The total population of all the constituents (i.e., towns and outgrowths) of an Urban Agglomeration should not be less than 20,000 (as per the 1991 Census).

With these two basic criteria having been met, the following are the possible different situations in which Urban Agglomerations would be constituted:

i) a city or town with one or more contiguous outgrowths;

ii) two or more adjoining towns with their outgrowths; and

iii) a city and one or more adjoining towns with their outgrowths all of which form a continuous spread.

Household

A 'household' is usually a group of persons who normally live together and take their meals from a common kitchen unless the exigencies of work prevent any of them from doing so. Persons in a household may be related or unrelated or a mix of both. However, if a group of unrelated persons live in a census house but do not take their meals from the common kitchen, then they are not constituent of a common household. Each such person was to be

treated as a separate household. The important link in finding out whether it was a household or not was a common kitchen. There may be one member households, two member households or multimember households.

Institutional Household

A group of unrelated persons who live in an institution and take their meals from a common kitchen is called an Institutional Household. Examples of Institutional Households are boarding houses, messes, hostels, hotels, rescue homes, jails, ashrams, orphanages, etc. To make the definition more clearly perceptible to the enumerators at the Census 2001, it was specifically mentioned that this category of households would cover only those households where a group of unrelated persons live in an institution and share a common kitchen.

Houseless Household

Households who do not live in buildings or census houses but live in the open on roadside, pavements, in hume pipes, under flyovers and staircases, or in the open in places of worship, mantaps, railway platforms, etc., are treated as Houseless Households.

Scheduled Castes and Scheduled Tribes

Article 341 of the Constitution provides that the President may, with respect to any State or Union territory, specify the castes, races or tribes or parts of or groups within castes, races or tribes which shall for the purposes of the Constitution be deemed to be Scheduled Castes in relation to that State or Union territory. Article 342 similarly provides for specification of tribes or tribal communities or parts of or groups within tribes or tribal communities which are to be deemed for the purposes of the Constitution to be Scheduled Tribes in relation to the various States and Union territories. In pursuance of these provisions, the list of Scheduled Castes and / or Scheduled Tribes are notified for each State and Union territory and are valid only within the jurisdiction of that State or Union territory and not outside.

It is important to mention here that under the Constitution (Scheduled Castes) Order, 1950, no person who professed a religion different from Hinduism was deemed to be a member of a Scheduled Castes in addition to every member of the Ramdasi, Kabirpanthi, Majhabi or Sikligar caste resident in Punjab or Patiala and East Punjab States Union were in relation to that State whether they professed the Hindu or the Sikh religion. Subsequently, in September 1956, by an amendment, the Presidential Order of 1950 and in all subsequent Presidential Orders relating to Scheduled Castes, the Hindu and the Sikh religions were placed on the same footing with regard to the specification of Scheduled Castes. Later on, as per the amendment made in the Constitution (Scheduled Castes) Order 1990, the Hindu, the Sikh and the Buddhist were placed on the same footing with regard to the recognition of the Scheduled Castes.

The list of Scheduled Castes and Scheduled Tribes are notified for each State and Union Territory and are valid only within the jurisdiction of that State or Union Territory and not outside. In respect of Karnataka State the Scheduled Castes and Scheduled Tribes as contained in the Scheduled Castes & Scheduled Tribes Orders (Amendment) Act, 1976 are valid for the purpose of Census of India, 2001. With the promulgation of Act 39 of 1991 however, the sub entries Naik, Nayak, Beda, Bedar and Valmiki were added under the main entry at S.No. 38 (Naikda, Nayaka, …..) of the Scheduled Tribes list of the State. There are in all 101 Scheduled Castes and 49 Scheduled Tribes in the State which are listed below:

List of Scheduled Castes

1 Adi Andhra
2 Adi Dravida
3 Adi Karnataka
4 Adiya (in Coorg district)
5 Ager
6 Ajila
7 Anamuk
8 Aray Mala
9 Arunthathiyar
10 Arwa Mala

Language and Mother tongue

As per the Census concept, each language is a group of mother tongues. The census questionnaire collects information on the mother tongue of each person and mother tongue is defined as the language spoken in childhood by the person's mother to the person. If the mother died in infancy, the language mainly spoken in the person's home in childhood will be the mother tongue. In the case of infants and deaf mutes, the language usually spoken by the mother is considered as mother tongue. It is not necessary that the language spoken as mother tongue should have a script. The mother tongues returned by the respondents in census are classified and grouped under appropriate languages according to their linguistic characteristics.

Literate

A person aged 7 years and above who can both read and write with understanding in any language is taken as literate. A person who can only read but cannot write is not literate. It is not necessary that to be considered as literate, a person should have received any formal education or passed any minimum educational standard. Literacy could also have been achieved through adult literacy classes or through any non-formal educational system. People who are blind and can read in Braille are treated as literates.

Literacy rate

Literacy rate of the population is defined as the percentage of literates in the age group seven years and above. For different age groups the percentage of literates in that age group gives the literacy rate.

Educational level

The highest level of education a person has completed.

Work

Work is defined as participation in any economically productive activity with or without compensation, wages or profit. Such participation may be physical and/or mental in nature. Work involves not only actual work but also includes effective supervision and direction of work. It even includes part time help or unpaid work on farm, family enterprise or in any other economic activity. All persons engaged in 'work' as defined above are workers. Persons who are engaged in cultivation or milk production even solely for domestic consumption are also treated as workers.

Reference period for determining a person as worker and non-worker is one year preceding the date of enumeration.

Main worker

A person who has worked for major part of the reference period (i.e. six months or more during the last one year preceding the date of enumeration) in any economically productive activity is termed as 'Main worker' .

Marginal worker

A person who worked for less than six months of the reference period (i.e. in the last one year preceding the date of enumeration) in any economic activity is termed as 'Marginal worker' .

Non-worker

A person who has not worked at all in any economically productive activity during the reference period (i.e. last one year preceding the date of enumeration) is termed as 'Non worker'.

Cultivator

For purposes of the Census a person is classified as cultivator if she or he is engaged in cultivation on land owned or held from government or held from private persons or institutions for payment in money, kind or share. Cultivation includes effective supervision or direction in cultivation.

A person who has given out her/his land to another person or persons or institution(s) for cultivation for money, kind or share of crop and who does not even supervise or direct cultivation in exchange of land, is not treated as cultivator. Similarly, a person working on another person's land for wages in cash or kind or a combination of both (agricultural labourer) is not treated as cultivator.

Cultivation involves ploughing, sowing, harvesting and production of cereals and millet crops such as wheat, paddy, jowar, bajra, ragi, etc., and other crops such as sugarcane, tobacco, groundnuts, tapioca, etc., and pulses, raw jute and kindred fiber crop, cotton, cinchona and other medicinal plants, fruit growing, vegetable growing or keeping orchards or groves, etc. Cultivation does not include the following plantation crops – tea, coffee, rubber, coconut and betelnuts (areca).

Agricultural labourer

A person who works on another person's land for wages in cash or kind or share is regarded as an agricultural labourer. She/he has no risk in the cultivation, but merely works on another person's land for wages. An agricultural labourer has no right of lease or contract on land on which she/he works.

Household industry worker

Household industry is defined as an industry conducted by the head of the household herself/ himself and or by the members of the household at home or within the village in rural areas and only within the precincts of the house where the household lives in urban areas. The larger proportion of workers in household industry should consist of members of the household including the head. The industry should not be run on the scale of a registered factory which would qualify or has to be registered under the Indian Factories Act and should be engaged in manufacturing, processing, servicing and repairs of goods. A person who has been engaged in the in the economic activity like above is termed as Household Industry Worker.

It does not include professions such as a pleader, Doctor, Musician, Dancer, Waterman, Astrologer, Dhobi, Barber, etc. or merely trade or business, even if such professions, trade or services are run at home by members of the household.

Other worker

A person who has been engaged in some economic activity during the reference period but not as a cultivator or agricultural labourer or in Household

Industry is termed as an 'Other Worker (OW)'. The type of workers that come under this category of 'OW' include all government servants, municipal employees, teachers, factory workers, plantation workers, those engaged in trade, commerce, business, transport, banking, mining, construction, political or social work, priests, entertainment artists, etc. In effect, all those workers other than cultivators or agricultural labourers or household industry workers, are 'Other Workers'.

Work participation rate

Percentage of workers (main + marginal) to total population.

Population density

Population density is the number of persons inhabited per square kilometer of the area.

Age

Age is measured in terms of the completed number of years.

Sex ratio

Number of females per 1,000 males in a population.

(vi) NON-CENSUS CONCEPTS

Improved drinking water

If the household had access to drinking water supplied from a tap, hand pump, tube well or well (protected or covered) situated within or outside the premises, it is considered as having access to improved drinking water.

It may be mentioned that such uniform definition may not be valid across all states.

System of sewerage

Generally, a sewerage system would mean a network of mains and branches of underground conduits for the conveyance of sewerage to the point of disposal. Sewers that carry only household and industrial wastage are called separate sewers; those that carry storm water from roofs, streets and other surfaces are known as storm water drains, while those carrying both sewage and storm water are called combined sewers. However, in some towns which are not provided with such underground sewerage system, it is served by open surface drain, box drain, sylk pattern drain, etc., in these towns.

Type of latrine and Method of disposal of night soil

There are three prevalent systems of disposal of human wastes, viz.(i) underground sewerage, (ii) sanitary water flush latrines with individual disposal systems, like septic tank, leaching cess pool and collecting well, and (iii) dry type of latrines with manual scavenging.

The system of underground sewerage provides for the street sewerage with which are connected the sanitary latrines constructed in the houses having water closets and fitted with flushing cistern (or hand flushing). Through this sewer the faecal matter is transported without the need for scavenging. This system generally exists in cities and big towns.

Where the streets sewer does not exist these sanitary water flush latrines are connected to a local septic tank with a subsoil dispersion system or a leaching pit. Here the liquid wastes from the water closet is disposed of locally in leaching pit, a septic tank with a soil dispersion system is constructed. This dispersion requires an optimum travel through the pores of the soil which renders the harmful liquid bacterially innocuous by the slow process of filtration through the soil traversed.

Where the soil is impermeable, collecting wells are constructed and the sanitary water flush latrines are connected with them. These wells are cleaned at periodic intervals by a suitable device. The dry type of latrines are of service type latrines from where human excreta is removed by scavengers from house to house, in most cases carrying it on their heads or shoulders or in baskets with handle or wheel barrows. These are then collected in bullock carts or trucks or tractors and trolleys for being carried to the dumping grounds.

Fertility

In demography, the word fertility is used in relation to the actual production of children or occurrence of births specially live births. Fertility is a measure of rate at which population adds to itself by births and normally assessed by relating the number of births to a full or part of the population, such as number of married women or number of women of childbearing age. The definitions of the terminology used in computing different fertility rates are mentioned below:

Crude birth rate (CBR)

Ratio of the number of live births in a year to the mid year population, normally expressed per 1,000 population.

$$CBR = \frac{\text{Number of live births during the year}}{\text{Mid –year Population}} \times 1,000$$

Crude death rate (CDR)

Ratio of the number of deaths in a year to the mid year population, normally expressed per 1,000 population.

$$CDR = \frac{\text{Number of deaths during the year}}{\text{Mid year Population}} \times 1,000$$

Natural growth rate

Growth rate is obtained as the difference between crude birth rate and crude death rate in the absence of migration.

Age specific fertility rate (ASFR)

Number of live births in a year to female population in any specified age group normally expressed per 1,000 women.

$$ASFR = \frac{\text{Number of live births in a particular age group}}{\text{Midyear female population of the same age group}} \times 1,000$$

Age specific marital fertility rate (ASMFR)

Number of live births in a year to married female population in any specified age group normally expressed per 1,000 married women.

$$ASMFR = \frac{\text{Number of live births in a particular age group}}{\text{Midyear married female population of the same age group}} \times 1,000$$

General fertility rate (GFR)

Number of live births per 1,000 women in the reproductive age-group (15-49) years in a given year.

$$GFR = \frac{\text{Number of live births in a year}}{\text{Midyear female population in the age-group (15-49) years}} \times 1,000$$

General marital fertility rate (GMFR)

Number of live births per 1,000 married women in reproductive age-group (15-49) years in a given year.

$$GMFR = \frac{\text{Number of live births in a year}}{\text{Midyear married female population in the age-group (15-49) years.}} \times 1,000$$

Total fertility rate (TFR)

It is obtained as the total of the age specific fertility rates (number of children born per woman of the particular age) for the entire reproductive age span. It provides the average number of children that will be born to a woman under the fertility levels indicated by the age specific fertility rates assuming that there is no mortality of women till the completion of reproductive period.

$$TFR = \frac{5 \times \sum_{15-19}^{45-49} ASFR}{1,000}$$

Total marital fertility rate (TMFR)

Average number of children that would be born to a married woman if she experiences the current fertility pattern throughout her reproductive span (15-49) years assuming that there is no mortality of women till the completion of reproductive period.

$$TMFR = \frac{5 \times \sum_{15-19}^{45-49} ASMFR}{1,000}$$

Age specific mortality rate (ASMR)

Number of deaths in a particular age and sex group per 1,000 population of the same age group.

$$ASMR = \frac{\text{Number of deaths in a particular age group}}{\text{Midyear population of the same age group}} \times 1,000$$

q_1

Probability of dying between birth and age 1. This can be used as approximate value of Infant Mortality Rate (IMR) which gives the ratio of number

of deaths in a year of children aged less than one year to the number of births in that year.

q_2

Probability of dying between birth and age 2.

q_5

Probability of dying between birth and age 5. This indicator is also known as Under Five Mortality Rate (U_5MR)

Infant mortality rate (IMR)

Ratio of the number of infant deaths (deaths of children below one year) in a year to the number of live births in that year.

$$IMR = \frac{\text{Number of infant deaths during the year}}{\text{Number of live births during The year}} \times 1{,}000$$

Infant mortality rate comprises of two parts, viz., Neonatal mortality rate and Post neonatal mortality rate. The neonatal mortality rate also comprises of two parts viz., early neonatal mortality rate and late neonatal mortality rate. These are defined as:

Neo-natal mortality rate (NMR)

Number of infants dying within the first month of life (28 days or under) in a year per 1,000 live births of the same year.

$$NMR = \frac{\text{Number of infant deaths aged 28 days or under during the year}}{\text{Number of live births during the year}} \times 1{,}000$$

Early neo-natal mortality rate

$$= \frac{\text{Number of infant deaths of less than 7 days during the year}}{\text{Number of live births during the year}} \times 1{,}000$$

Late neo-natal mortality rate

$$= \frac{\text{Number of infant deaths of 7 days to less than 29 days during the year}}{\text{Number of live births during the year}} \times 1{,}000$$

Post neo-natal mortality rate (PNMR)

$$= \frac{\text{Number of deaths of 29 days to less than one year during the year}}{\text{Number of live births during the year}} \times 1{,}000$$

Perinatal mortality rate (PMR)

Number of stillbirths plus deaths within 1st week of delivery per 1,000 births in a year.

$$PMR = \frac{\text{Number of stillbirths and infant deaths of less than 7 days during the year}}{\text{Number of live births and stillbirths during the year}} \times 1{,}000$$

Still birth rate (SBR)

$$= \frac{\text{Number of stillbirths during the year}}{\text{Number of live births and stillbirths during the year}} \times 1{,}000$$

Maternal mortality rate (MMR)

Number of deaths of women in the age group 15-49 while pregnant or within 42 days of termination of pregnancy from any cause related to pregnancy and child birth per 100,000 live births in a given year.

$$MMR = \frac{\text{Number of maternal deaths to women in the age group 15-49}}{\text{Number of live birth}} \times 100{,}000$$

Eligible couple (Couples per 1,000 population)

Number of currently married females in the age group15-44 years per 1,000 persons of all ages.

Child woman ratio (0-4)

1. Number of children in the age group 0-4 years per 1,000 women in the age group 15-49 years.

Child woman ratio (5-9)

2. Number of children in the age group 5-9 years per 1,000 women in the age group 15-49 years.

Migration

Migration is the third component of population change, the other two being mortality and fertility.

A person is considered as a migrant by place of birth if the place in which he/she is enumerated during the census is other than the place of his/her birth.

Similarly a person is considered as a migrant by place of last residence if the place in which he/she is enumerated during the census is other than his/her place of immediate last residence outside the village or town and not simply in another house or locality in the same village or town.

Certain aspects concerning temporary movement/ migration of people has been explained below as these are important components concerning migration :

i) Migration of persons in search of job is high in the country. In many cases such migrants are only seasonal in nature. People migrate to other places for work in a particular season and come back again to their usual place of residence after three or four months. All such workers are treated as migrants. Similarly, if a person moved to any other place for attending short term vocational or educational course that lasted for only few months of a year, she/he too were considered as a migrant.

ii) Where a person had merely gone out to another place or had been shifting from one place to another purely on tour, pilgrimage, visit to hospital for treatment or for temporary business purposes, such persons are not deemed to have had another residence different from the place where she/he or her/his family normally resides. She/he is not considered as migrant.

iii) A woman temporarily moves into a hospital or to her parents or other relative's house for delivery and if the hospital or the parents/relatives houses is in a place different from usual place of residence, the place where the hospital or parents/ relative's house is the place of last residence of the child but not of the mother.

A new response category 'Moved after birth' was added in Census of India 2001 in the question on 'reasons for migration' to bring out additional migration patterns. Natural calamities or distress migration as a reason for migration for last residence migrants included in 1991 Census, is covered under category of 'Others'. The reason for migration has been determined as applicable at the time of migration and not in reference to any point of time after that. For example, if a person had moved from the place of her/his last residence for the purpose of education and subsequently at some point of time got employment there only, the reason for migration would be 'education' and not 'work/employment'.

Internal and International migration

The migrational movements are of three types (i) Migration within the state itself with its components (a) Migration within the district of enumeration (intra district migration) (b) Migration from one district of state to another district of state (inter district migration), (ii) Migration from one state to another State of the country (interstate migration), (iii) Migration from one country to another country. The first two streams together constitute internal migration, while the last type of movement is called international migration. The present name of the country, state or district and not the name by which they were known at the time of her/his birth or last residence were recorded.

Rural-Urban components of migration

Rural or Urban status in respect of migrants have been determined as applicable at the time of migration and not with reference to any point of time after that.

The flow of migrants consists of four streams viz. rural to rural, rural to urban, urban to rural and urban to urban.

Civic status of urban units

Civic Status of a town/city is determined on the basis of Civic Administrative authority of the town e.g., Municipal Corporation/ Corporation, Municipal Committee/Municipal council, Municipality etc.

Size class of UA / town

Size class of UA/Town is based on the population size of the UA/City/Town. UAs./Towns with 100,000 and above population are classified as Class I UAs. / towns. These Class I UAs. / towns are now further sub classified in to seven sub classes namely M1 to M7 depending on the population size of UA/City/ Town. These are M7 (5,000,000 and above); M6 (2,000,000- 4,999,999); M5 (1,000,000-1,999,999); M4 (500,000-999,999); M3(300,000-499,999); M2 (200,000-299,999) & M1 (100,000-199,999). Towns with, 50,000 to 99,999 population are classified as Class II towns, 20,000 to 49,999 population are Class III towns, population with 10,000-19,999 are Class IV towns, population with 5,000 and 9,999 are Class V towns and towns with less than 5,000 population are Class VI towns.

Slum area

The Slum Areas (Improvement and Clearance) Act, 1956 which was enacted by the Central Govt. defined slums as a) Areas where buildings are in any respect unfit for human habitation; or b) are by reasons of dilapidation, overcrowding, fault arrangement and design of such buildings, narrowness or faulty arrangement of streets, lack of ventilation, light or sanitation facilities, or any combination of these factors, are detrimental to safety, health or morals.

Mega city

The concept of 'Mega city' is a recent phenomenon in the Urban Sociology and is defined in term of metropolitan city in the form of large size, problem of management of civic amenities and capacity to absorb the relatively high growth of population. Indian Census in 1991 treated the population size of 5 million and above as the cut off point to identify a place as the mega city. Whereas, for the purpose of inclusion in Centrally Sponsored Scheme for Infrastructure Development in Mega cities the Ministry of Urban Affairs and employment, Department of Urban Development adopted the criteria of 4 million and above population as per 1991 Census for Mega Cities. In 2001 Census, cities with 10 millions and above population have been treated as Mega cities.

(vii) 2001 Census findings – Population, its distribution

(a) Distribution of population in Rural-Urban Areas:

According to the 2001 Census, the total population of Gulbarga district is 3,130,922, comprising 1,592,789 males and 1,538,199 females. The population of the district forms 5.9 per cent of the state population and ranks at 3rd place among the districts. Out of the total population of the district 72.8 per cent lives in rural areas while 27.8 per cent lives in urban areas. Rural population of the district is distributed among 10 taluks and urban population spread over in 17 towns. The total urban population in the district is 852,621 persons comprising 440,446 males and 412,175 females. The total rural population in the district comes to 2,278,301 persons and is composed of 1,152,343 males and 1,125,958 females as per 2001 Census. This rural population is distributed in 1,360 inhabited villages and there are 77 un-inhabited villages in the district.

(b) Size-class and Civic Status of towns:

The Statement below gives the position and number of urban units according to size-class of population as per 2001 Census:

SIZE-CLASS AND CIVIC STATUS OF TOWNS

Serial number	Size-Class of town	Name and civic status of town		Urban Population		
				Persons	Males	Females
1	2	3		4	5	6
1	III	Aland	TMC	35,245	18,271	16,974
2	IV	Afzalpur	TP	19,335	10,091	9,244

17	II	Yadgir	TMC	58,811	29,958	28,853

* Includes outgrowths

Population Growth, Density and Sex-ratio:

Population Growth:

Gulbarga District witnessed a positive growth rate in each decade with 9.2, 11.6, 7.0, 14.5, 15.3, 24.3, 19.6, 24.1 and 21.3 per cent during the period 1901 to 2001 (except 7.9 per cent negative growth during the decade 1911-1921). According to the 1991 Census the total population of the district was 2,582,169. There has been net addition of 548,753 persons during 1991-2001. The decadal growth rate of the district comes to 21.3 per cent. The growth rate for the rural and urban areas of the district is 15.5 and 39.8 per cent respectively.

Density:

The population density of Gulbarga district is 193 persons per Sq. Km. against the state average of 276 persons. At taluk level, the density varies between 138 persons in Afzalpur taluk and 390 persons in Gulbarga taluk. In rural areas it comes to — persons per Sq. Km., while in urban areas it comes to 2,302 persons. In urban areas the density of population varies between 200 persons in Bhimarayanagudi town and 7,232 persons in Gurmatkal town.

Sex Ratio:

There are 966 females for every one thousand males in Gulbarga district. The sex-ratio figures for rural areas and urban areas of the district are 977 and 936 respectively. It is also observed that, the proportion of females in rural areas is higher than that of urban areas. Sex-ratio in the age-group 0-6 comes to 938 girls per 1,000 boys in the district as a whole. In rural areas, this proportion is 945 , while in urban areas the sex-ratio of Child population works out to 917 girls per 1,000 boys.

Work Participation Rate:

The work participation rate is defined as percentage of total workers to total population. According to 2001 Census, the total workers including main and marginal workers constitute 43.1 per cent of total population of the district. Of the total workers, the share of main workers is 74.8 per cent and marginal workers is 25.2 per cent. The remaining 56.9 per cent of population belongs to the category of non-workers.

As per 2001 Census among the main workers male participation rate in the district is 87.6 per cent and corresponding proportion of females is 55.5 per cent. The proportion of female marginal workers is higher than male marginal workers, as the females are attending to one or more economic activities in addition to their household duties to improve the family income. Majority of the workers are engaged in agricultural activities. Of the total 1,350,072 workers in the district, 27.1 per cent of these total workers are categorized as cultivators, 40.0 per cent agricultural labourers, 2.5 per cent in household industries and 30.4 per cent in other services.

Literacy:

A person who can read and write in any language is considered as literate in Census. All children of age below 7 years are treated as illiterate.

As per 2001 Census, Gulbarga district has reported 1,297,445 persons as literates constituting 50.0 per cent of the total population excluding the population of 0-6 years. The male and female literacy rates in the district are 61.8 and 37.9 per cent respectively. The literacy rate of males is higher than that of females. The gap in the male - female literacy rate is 23.9 points in the district.

The total literacy rates of rural and urban area are 42.3 and 70.1 percent respectively. The rate male and female literacy in rural areas is 54.9 and 29.4 per cent respectively. In urban areas this rate is 79.2 and 60.5 per cent respectively. The gap in male - female literacy rates in urban areas is 18.7 as against 25.5 in rural areas. It is thus clear that females are better educated in urban areas than their counterparts in rural areas.

(c) Scheduled Castes and Scheduled Tribes Population 2001:

Of the 3,130,922 total population of the district 22.9 per cent of the total population belong to Scheduled Castes and 4.9 per cent to Scheduled Tribes. The percentage of Scheduled Castes constitute 86.3 per cent in rural areas and 13.7 per cent in urban areas. The proportion of Scheduled Tribes are 93.4 and 606 in rural and urban areas respectively.

(viii) Brief analysis of PCA data based on inset tables 1 to 36

Following tables, which presents the data on population with in the district with brief notes will provide an overview of the district.

TABLE 1:DECADAL CHANGE IN POPULATION OF TALUKS BY RESIDENCE, 1991-2001

Taluk	Population						Percentage decadal variation 1991-2001			Percentage Urban Population	
	1991			2001							
	Total	Rural	Urban	Total	Rural	Urban	Total	Rural	Urban	1991	2001
1	2	3	4	5	6	7	8	9	10	11	12
Aland	260,834	234,270	26,564	297,136	261,891	35,245	13.9	11.8	32.7	10.2	11.9
Afzalpur	150,856	150,856	-	180,071	160,736	19,335	19.4	6.6	-	-	10.7
Gulbarga	523,944	213,024	310,920	675,679	245,414	430,265	29.0	15.2	38.4	59.3	63.7
Chincholi	189,161	178,577	10,584	223,646	206,502	17,144	18.2	15.6	62.0	5.6	7.7
Sedam	163,155	129,889	33,266	196,154	156,026	40,128	20.2	20.1	20.6	20.4	20.5
Chitapur	309,481	208,968	100,516	366,802	238,532	128,270	18.5	14.2	27.6	32.5	35.0
Jevargi	188,707	188,707	-	235,254	216,075	19,179	24.7	14.5	-	-	8.2
Shorapur	281,743	242,919	38,824	336,755	293,133	43,622	19.5	20.7	12.4	13.8	13
Shahpur	240,206	208,417	31,789	293,518	249,819	43,699	22.2	19.9	37.5	13.2	14.9
Yadgir	274,082	216,742	57,340	325,907	250,173	75,734	18.9	15.4	32.1	20.9	23.2
District Total:	**2,582,169**	**1,972,366**	**609,803**	**3,130,922**	**2,278,301**	**852,621**	**21.3**	**15.5**	**39.8**	**23.6**	**27.2**

Data given in table-1 reveals the taluk wise decadal variations of population in the district. During 1991-2001, the variations is 21.3 per cent. Taluk wise decadal change, indicates that a highest of 29.0 per cent is reported from Gulbarga taluk and the lowest of 13.9 per cent is reported from Aland taluk. In rural areas, higher percentage of decadal variation of 20.7 per cent and 20.1 per cent are reported from Shorapur and Sedam taluks respectively. The lowest variation of 6.6 per cent is noted in Afzalpur taluk. From the above table it is observed that there was no urban population in 1991 in the taluks of Afzalpur and Jevargi. During the decade 1991-2001, the urban population of the district has witnessed a growth by 3.6 per cent.

TABLE 2 : NUMBER AND PERCENTAGE OF INHABITED VILLAGES IN SPECIFIED POPULATION SIZE RANGES WITH THE RELATED POPULATION, 2001

Sl. No.	District / C.D. block	Total number of inhabited villages	Total rural population			Number and percentage of villages	Population less than 200	
			Persons	Males	Females		Males	Females

303 (22.3)	**446,231**	**437,066**	**43 (3.2)**	**137,220**	**132,660**	**9 (0.7)**	**53,284**	**50,998**

There are 32 villages in the district having population less than 200. Also there are villages in the population range of 200-499, 500-999, 1,000-1,999, 2000-4999, 5,000-9,999 and 10,000 and above, having 104, 388, 481, 303, 43 and 9 villages respectively. The table also reveals that number of villages in the population range between 1,000-1,999 is maximum, which account for 481 villages, whereas the number of villages having 10,000 and above population is only 9. It is also observed from the table that in Jevargi taluk, none of the villages have population less than 200. Table also reveals that out of 10 taluks of the district, only 5 taluks have villages with a population of 10,000 and above.

TABLE 3 : NEW TOWNS, DENOTIFIED, DECLASSIFIED AND MERGED TOWNS

		Name of Town
(a)	New	
(i)	Statutory Town	**1. Afzalpur (TP)**
		2. Jevargi (TP)
(ii)	Census Town	
		NIL
(b)	Denotified	
(i)	Statutory towns of 1991 Census denotified and also did not satisfy the criteria to be treated as Census towns.	**Narayanapur (NAC)**
(ii).	Statutory towns of 1991 Census denotified but identified as Census towns based on demographic and economic criteria	**NIL**
(iii)	Census towns of 1991 Census are notified as Statutory towns in 2001 Census	**Chincholi (MP)**
(c)	Declassified	**1. Adityanagar (NMCT)**
		2. Hunasagi UKP Camp (NMCT)
		3. Krishnapur UKP Colony (NMCT)
(d)	wholly merged with other towns	**NIL**

Declassified means the census towns of 1991 Census, which fail to satisfy the demographic and economic criteria.

TABLE 4 : DISTRIBUTION OF VILLAGES BY POPULATION DENSITY, 2001

Range of population density (per square kilometer)	Total number of villages in each population density range	Percentage of villages in each population density range	Population	Percentage distribution of population
1	2	3	4	5
0-10	8	0.6	232	0.0
11-20	2	0.1	179	0.0
21-50	20	1.5	9,534	0.4
51-100	204	15.0	214,559	9.4
101-200	834	61.3	1,432,089	62.9
201-300	210	15.4	449,108	19.7
301-500	65	4.8	126,893	5.6
501 +	17	1.3	45,707	2.0
Not known	0	0.0	0	0.0
District Total:	**1,360**	**100.0**	**2,278,301**	**100.0**
Population Density (Rural) of the district:		**148.4**		

Distribution of villages by population density ranges is presented in the above table. It reveals that 61.3 per cent of villages have the density of population ranging between 101-200. While, 234 villages have the density less than 100 per sq km. Similarly there are 292 villages, which have a density of 200 and above.

TABLE 5 : SEX RATIO OF STATE AND DISTRICT 1901-2001

State				District			
Census Years	Total	Rural	Urban	Census Years	Total	Rural	Urban
1	2	3	4	5	6	7	8
1901	983	984	976	1901	974	974	975
1911	981	984	960	1911	975	975	978
1921	969	975	936	1921	973	973	974
1931	965	972	927	1931	970	972	950
1941	960	965	935	1941	960	959	966
1951	966	974	941	1951	993	995	981
1961	959	973	913	1961	989	996	955
1971	957	971	913	1971	981	990	940
1981	963	978	926	1981	981	995	935
1991	960	973	930	1991	962	974	925
2001	964	976	940	2001	966	977	936

The Above table gives the sex ratio for the rural and urban population of the state as well as that of the district from 1901 to 2001 Census.

It is observed that the state has recorded a decrease in the sex ratio since 1901 Census (983). However in 2001 Census, the state has registered a better sex ratio of 965, little higher than the ratio of 1991 Census (960).

For the district, the sex ratio in 1901 Census was 974, which with some fluctuations gradually decreased over the decades. However in 2001 Census, the district has recorded a sex ratio of 966 slightly better than that of 1991 Census (962). It is also observed that the sex ratio in 2001 Census for the district 966 is slightly more than that for the state (965).

Again, the ratio for rural women in 2001 Census is comparatively better that that for the urban women in the state as well as in the district.

TABLE 6 : SEX RATIO BY TALUKS, 2001

Sl. No.	Name of Taluk	Sex ratio		
		Total	Rural	Urban
1	2	3	4	5
1	Aland	952	955	929
2	Afzalpur	946	950	916
3	Gulbarga	938	962	924
4	Chincholi	974	981	896
5	Sedam	1,008	1,021	957
6	Chitapur	968	983	940
7	Jevargi	967	969	950
8	Shorapur	980	981	975
9	Shahpur	979	986	939
10	Yadgir	988	992	974
	District Total:	**966**	**977**	**936**

There are 966 females per 1,000 males in the district . The sex ratio for rural is 977 and for urban, it is 936. The sex ratio is favourable for men in both rural and urban areas. Though the sex ratio at the district level favours men in both the areas, taluk wise comparison reveals that in one taluk namely Sedam, the sex ratio is favourable for women in rural area.

TABLE 7: SEX RATIO BY CD BLOCKS, 2001

Sl. No.	Name of C. D. block	Sex ratio
1	2	3
1	Aland	955
2	Afzalpur	950
3	Gulbarga	962
4	Chincholi	981
5	Sedam	1,021
6	Chitapur	983
7	Jevargi	969
8	Shorapur	981
9	Shahpur	986
10	Yadgir	992
	District (Rural) Total:	**977**

The table highlights the data on sex ratio by CD blocks, which includes all the villages in the district. The overall sex ratio for the district rural favours men with is 977 females per 1000 males. Community Development Block wise comparison reveals that in Sedam CD block, the ratio favours women.

TABLE 8: SEX RATIO OF RURAL POPULATION BY RANGES, 2001

Range of sex ratio for villages	Number of inhabited villages	Percentage of villages in each range	Population 2001	Percentage distribution of population
1	2	3	4	5
Less than 700	4	0.3	147	0.0
700-749	3	0.2	998	0.0
750-799	3	0.2	1,032	0.0
800-849	16	1.2	12,100	0.5
850-899	82	6.0	77,039	3.4
900-949	304	22.4	553,940	24.3
950-999	469	34.5	981,373	43.1
1,000-1,099	435	32.0	622,084	27.3

Range of sex ratio for villages	Number of inhabited villages	Percentage of villages in each range	Population 2001	Percentage distribution of population
1	2	3	4	5
1,100+	44	3.2	29,588	1.3
District Total:	**1,360**	**100.0**	**2,278,301**	**100.0**
Sex ratio (Rural) for District:		**977**		

The sex ratio of rural population by ranges is given with corresponding number of villages in the above table. Though the overall sex ratio of the district is 977, the distribution of sex ratio in the villages by ranges, reveals that there are 479 villages which have a sex ratio above 1,000 favouring women in the rural areas. For the majority of the villages, the sex ratio ranges between 900-949, 950-999 and 1,000-1,099.

TABLE 9 : SEX RATIO OF URBAN AGGLOMERATIONS / TOWNS, 2001

Sl. No.	Name of U.A. / Town	Urban status of town	Sex ratio
1	2	3	4
1	Aland	TMC	929
2	Afzalpur	TP	916
3	Gulbarga	UA	924
4	Gulbarga	M Corp+OG	924
5	(i) Gulbarga	M Corp.	926
6	Chincholi	TP	896
7	Kurgunta	CT	957
8	Sedam	TMC	957
9	Chitapur	TP	983

Variations in child sex ratio has been long observed phenomenon and have undergone considerable debate among the researchers and policy makers from time to time. Although they observed that variations in the sex ratio favouring males is a biological fact, continued decline over the period causes great concern among the policy makers. The taluk wise sex ratio for 0-6 population is given in the above table which reveals that there are 938 girls for 1,000 boys. The sex ratio for rural area is 945 whereas for the urban area it is 917.

TABLE 11 : SEX RATIO OF POPULATION IN THE AGE GROUP 0-6 FOR C.D. BLOCKS, 2001

Sl. No.	Name of C.D. block	Total population in 0-6 age group			Sex ratio for 0-6 age group
		Persons	Males	Females	
1	2	3	4	5	6
1	Aland	41,879	21,887	19,992	913
2	Afzalpur	26,561	13,664	12,897	944
3	Gulbarga	41,808	21,616	20,192	934
4	Chincholi	35,454	18,285	17,169	939
5	Sedam	26,754	13,587	13,167	969
6	Chitapur	41,859	21,459	20,400	951
7	Jevargi	39,208	20,274	18,934	934

	District (Rural) Total:	**404,046**	**207,763**	**196,283**	**945**

This table highlights the data on the sex ratio of population in the age group 0-6 by C.D blocks which includes only the rural portions of the district. From the above table it is observed that the child sex ratio is favourable for boys in all the C.D blocks.

TABLE 12 : SEX RATIO OF RURAL POPULATION IN THE AGE GROUP 0-6 BY RANGES, 2001

Range of sex ratio for villages	Number of inhabited villages	Percentage distribution of villages	Population 2001	Percentage distribution of population
1	2	3	4	5
Less than 700	53	3.9	4,853	1.2
700-749	31	2.3	5,367	1.3
750-799	87	6.4	16,888	4.2
800-849	133	9.8	35,839	8.9
850-899	197	14.5	68,268	16.9
900-949	224	16.5	86,332	21.4
950-999	169	12.4	69,720	17.3
1,000-1,099	262	19.3	80,621	20.0
1,100+	204	15.0	36,158	8.9
District (Rural) Total	**1,360**	**100.0**	**404,046**	**100.0**
Sex ratio (Rural) for District:		**945**		

The sex ratio of rural population in the age group of 0-6 is presented by ranges in the above table. Though the overall sex ratio for the rural district is 945 girls for 1,000 boys, it is worth noting that 466 inhabited villages have the sex ratio favourable for girls. Similarly in 171 villages, the data shows a grim picture of the girl child where the sex ratio ranges between less than 700 and 750-799.

TABLE 13 : SEX RATIO OF POPULATION IN THE AGE GROUP 0-6 OF URBAN AGGLOMERATIONS / TOWNS, 2001

	District(Urban) Total		**132,408**	**69,080**	**63,328**	**917**

The child sex ratio for the urban agglomeration/ towns is given in the above table. Data reveals that the urban sex ratio for the district is 917 girls for 1,000 boys. In Gurumatkal (TP) the sex ratio is favourable for girls. In all other towns of the district, the plight of the girl child is not very encouraging. Lowest sex ratio of 837 and 847 are reported from Shahabad ACC (NAC) and Wadi ACC (NAC) respectively. Next lowest sex ratio of 857 is registered in Chincholi (TP).

TABLE 14 : NUMBER AND PERCENTAGE OF SCHEDULED CASTES AND SCHEDULED TRIBES POPULATION IN TALUKS, 2001

	District (Rural) Total:	**2,278,301**	**569,287**	**134,588**	**25.0**	**5.9**

Similar data is presented in the above table at C.D block level, which includes only rural areas in the district. The Scheduled Castes and Scheduled Tribes in the rural areas of the district constitutes 25 and 5.9 per cent of the total population. The highest percentage of (33.9 per cent) Scheduled Castes is reported from Chincholi CD Block, while Shorapur CD Block has highest percentage (18.3 per cent) of Scheduled Tribes population in the district.

TABLE 16 : PROPORTION OF SCHEDULED CASTES POPULATION TO TOTAL POPULATION IN VILLAGES, 2001

Percentage range of Scheduled Castes population to total population	Number of villages	Percentage	Scheduled Castes Population	Percentage
1	2	3	4	5
Nil	28	2.1	0	0.0
Less than 5	33	2.4	1,027	0.2
5-10	140	10.3	21,405	3.8
11-20	445	32.7	139,124	24.4
21-30	333	24.5	148,696	26.1
31-40	159	11.7	91,924	16.1
41-50	95	7.0	61,000	10.7

20	Shahpur (TMC)	903	934
21	Gurmatkal (TP)	997	1,122
22	Yadgir (TMC)	959	988
	Sex ratio (Urban) for the district:	**925**	**968**

The overall sex ratio of Scheduled Castes and Scheduled Tribes in the towns of Gulbarga district is 925 and 968 respectively. The ratio is favourable for men among both Scheduled Castes and Scheduled Tribes. As regards to Scheduled Castes, the sex ratio is favourable to males except Bhimarayanagudi (NAC) that has reported 1,058 females per 1,000 males. Lowest sex ratio of 731 is reported from Wadi ACC (NAC). For Scheduled Tribes five towns have recorded higher sex ratio and in Wadi (CT) a component of Wadi UA, the sex ratio is equal.

The above table provides sex wise as well as taluk wise distribution of main, marginal and non-workers of the district as per 2001 Census. Percentage of total workers in the district accounts for 43.1 per cent. Among the taluks, workers percentage is high in Aland and Yadgir taluks where the total workers works out to 51.4 per cent. In the same taluks male workers are high compared to other taluks in the district. Female workers in Yadgir taluk constitute more in terms of percentage where it is reported to be 46.5 per cent. An equally higher proportion is noticed in Aland and Chincholi, where the total female workers account for 46.4 and 46.2 per cent respectively. More than 50 per cent of the population are non-workers and this percentage is more in Gulbarga taluk.

The data presented in this table is for C.D Blocks, which includes only the rural population in the district. Data reveals that total workers including main and marginal workers constitute 48.3 per cent and non workers accounts for 51.7 per cent of the total population. Total male and female workers figure out to be 53.7 and 42.8 per cent respectively. Among the C.D Blocks the percentage of total workers is high in Yadgir C D Block while non workers in Afzalpur C D Block.

This table provides sex-wise distribution of workers by category for the urban areas of the district. The percentage of total workers in urban areas constitute 29.2 per cent of the total urban population. The percentage of female workers including marginal workers is considerably low when compared with male workers. There are 13.2 per cent females workers against 44.2 per cent male workers in the urban areas of the district. Shahabad ACC (NAC), a component of Shahabad UA has registered as low as 4.6 percent of female workers, while Gurumatkal (TP) has reported that 37.5 per cent of its female population as workers. 70.8 per cent of the total population of the district are non workers. Among the towns, Shahabad ACC (NAC) has recorded the highest percentage (77.5) of non workers in the district.

Note: Percent of Worker to total worker are given in brackets

The distribution of total workers by sex according to four industrial categories are highlighted in this table. As seen from the table, agricultural labourers and cultivators constitute 67.1 per cent of the total workers in the district. People who are engaged in other type of activities works out to 30.4 per cent. The data above reveals that agricultural activities is predominant in the district and the highest percentage is registered in Aland taluk with 81.7 per cent. The percentage of workers engaged in activities other than agriculture activities high in Gulbarga taluk with 61.8 per cent.

TABLE 35 : DISTRIBUTION OF WORKERS BY SEX IN FOUR CATEGORIES OF ECONOMIC ACTIVITY IN C.D. BLOCKS, 2001

Note: Percent of Worker to total worker are given in brackets

In table 35 the distribution of workers by economic activity is presented for the C.D block of the district which includes only the rural portion. The same trend as seen in taluk-wise distribution is observed in this table also. If only rural areas are taken into consideration, the percentage of cultivators and agricultural labourers in total population are higher than that in taluk-wise distribution. The above distribution also points out that agricultural activity is predominant in all the C.D blocks and the highest percent of 86.1 is noticed in Aland C.D block.

In table 36 the sex wise distribution of workers by economic activity is presented for the urban agglomerations/towns in the district. Total number of workers including main and marginal workers constitute 29.2 percent of the total urban population. The cultivators and agricultural labourers constitute 3.7 and 8.6 percent respectively. Urban population engaged in other economic activities accounts for 83.5 percent. In Afzalpur (TP) 51.6 percent of its working population is engaged in agricultural activities, while 99.7 percent of workers in Wadi ACC (NAC) are engaged in economic activities other than agriculture.

***** Based on the improved drinking water source, drinking water supply has been classified as 'Improved ' or otherwise. If the household has access to drinking water supplied from a tap or a hand pump / tube well situated within or outside the premises it is considered as having access to 'Improved drinking water source'. However, the concept of improved drinking water is state specific and this is to be considered accordingly.

Post office includes Post office, telegraph office and Post and telegraph office.

$ Transport communication includes bus service, rail facility and navigable waterways.

The above table highlights the number of villages having different type amenities. The statistics given above points out to the fact that good number of villages are not provided with basic amenities. Power supply and education are the facilities that are available for the maximum number of inhabited villages in the district. As far as improved drinking water facility is concerned, 1,298 (95.4 per cent) villages are provided with this facility. Access to health care services needs improvement on a large scale. In all 52.1 per cent of the villages are privileged to have medical facilities. Some 64.3 per cent of the villages can be approached through pucca roads and 73.1 per cent are connected with transport communication. Less than 50 per cent of the villages have post offices and 53.2 per cent have telephone connections. Only 10.9 and 15.1 per cent of the villages have banks and agricultural credit societies. Among the C.D blocks, Aland and Afzalpur are better provided with more amenities than other blocks of the district.

TABLE 38 : NUMBER AND PERCENT OF RURAL POPULATION SERVED BY DIFFERENT AMENITIES, 2001

Note : - Percentages are given in brackets.

* Based on the improved drinking water source, drinking water supply has been classified as 'Improved' or otherwise. If the household has access to drinking water supplied from a tap or a hand pump / tube well situated within or outside the premises it is considered as having access to 'Improved drinking water source'. However, the concept of improved drinking water is state specific and this is to be considered accordingly.

Post office includes Post office, telegraph office and Post and telegraph office.

$ Transport communication includes bus service, rail facility and navigable waterways.

Rural population that are served by different amenities are shown in the above table. More than 99 percent of the population are benefited by education and power supply facilities. Next in line is, improved drinking water which is available to 96.8 per cent of the population. More than 74 per cent of the population are provided with transport communication and pucca road facilities. With regard to other amenities like medical, post office and telephone, are provided to more than 60 per cent of the population. Banking and agricultural society facilities are available to 24.5 and 27.0 per cent of rural population.

TABLE 39 : DISTRIBUTION OF VILLAGES NOT HAVING CERTAIN AMENITIES, ARRANGED BY DISTANCE RANGES FROM THE PLACES WHERE THESE ARE AVAILABLE, 2001

(b) Co-operative Bank	122	251	921	1,294
7. Agricultural Credit Societies	334	347	474	1,155

Certain amenities are not available within the villages. In such cases data on distance from where these are available in distance ranges are given in the above table. About 18 villages do not have primary schools, but it is available at a distance of less than 5 kms for all the 18 villages. In case of middle school, 551 villages do not have this facilities. For majority these villages, the facilities is less than 5kms, 5-10 ranges and with regards to 32 villages this facility is available at a distance of more than 10kms. As regard to degree colleges, for most of the villages, the college is at a distance of 10 kms and above. As far as medical facility is concerned 25 villages have hospital facility and PHC's are available for 109 villages. For all the remaining villages, this facility is available under different ranges as indicated in the table. Post office is less than 5 kms away for 574 villages, 5-10 kms away for 179 villages and it is more than 10 kms away for 33 villages. With regard to facilities like telephone and bus services, most of the villages have this facility within 5 kms and 5-10 kms and people living in 121 villages have to traverse about 10 kms or more. As far as banks and agricultural credit societies are concerned the table exhibits a different picture revealing that not many villages have this facility. However it is available at a distance of less than 5 kms, 5-10 kms and 10 kms and above.

Post office includes Post office, Telegraph office and Post and telegraph office.

$ Transport communication includes bus service, rail facility and navigable waterways.

The villages have been arranged according to the distance in ranges from the nearest statutory town. Majority of the villages are little far from their nearest statutory towns, particularly, 397 and 864 villages are situated at a distance of 5-15 kms and 16-50 kms. For 20 villages, the distance could not be specified. The distance from the nearest statutory towns to the villages has been co-related with type of amenities available as per 2001 census. Irrespective of the distance, some villages do not have certain amenities.

Post office includes Post office, Telegraph office and Post and telegraph office.

$ Transport communication includes bus service, rail facility and navigable waterways.

* Based on the improved drinking water source, drinking water supply has been classified as 'Improved' or otherwise. If the household has access to drinking water supplied from a tap or a hand pump / tube well situated within or outside the premises it is considered as having access to 'Improved drinking water source'. However, the concept of improved drinking water is state specific and this is to be considered accordingly.

The rural population has been arranged with reference to ranges and different amenities available under each range is given in the above table. Villages having population 10,000 and above have most of the facilities. Irrespective of the size of the population, certain amenities like medical, post office, telephone, bank, agricultural credit society's are not available in a few villages.

TABLE 42 : DISTRIBUTION OF VILLAGES ACCORDING TO LAND USE, 2001

Sl. No.	Name of C. D. block	Number of inhabited villages	Total area	Percentage of cultivable area to total area	Percentage of irrigated area to total cultivable
1	2	3	4	5	6
1	Aland	135	171,294	92.0	4.9
2	Afzalpur	89	122,583	93.1	5.0
3	Gulbarga	136	165,782	89.9	2.7
4	Chincholi	137	147,371	72.3	5.7
5	Sedam	109	91,956	86.5	2.5
6	Chitapur	122	160,256	83.0	0.6
7	Jevargi	145	175,917	91.8	1.4
8	Shorapur	190	177,799	85.0	41.9

TABLE 42 : DISTRIBUTION OF VILLAGES ACCORDING TO LAND USE, 2001

Sl. No.	Name of C. D. block	Number of inhabited villages	Total area	Percentage of cultivable area to total area	Percentage of irrigated area to total cultivable
1	2	3	4	5	6
9	Shahpur	145	161,580	86.0	22.4
10	Yadgir	152	160,279	78.7	10.0
	District Total:	**1360**	**1,534,817**	**85.9**	**10.3**

Note : - Cultivable area = irrigated area + unirrigated area

The land use data presented in the above table, takes into consideration only the cultivable area of the rural area of the district. The cultivable area given in the table includes both irrigated and un-irrigated areas. As such the total cultivable area of the rural portion comprises of 85.9 per cent of the total area. Among the C.D blocks, Afzalpur has the highest percentage (93.1) of area available for cultivation. The preponderance of agriculture in the district, is established with the fact that in all the taluks, the percentage of area under cultivation exceeds 70 per cent of the geographical area. Total irrigated area accounts for 10.3 per cent of the total cultivable area.

TABLE 43 : PER CAPITA RECEIPT AND EXPENDITURE IN STATUTORY TOWNS

	District Total	**243.0**	**56.0**	**186.0**	**177.0**	**86.0**	**0**	**9.0**	**0**	**80.0**

The total per capita receipts for the district (urban) is Rs.243.0 and expenditure Rs. 117.0. The per Capita receipts are mainly from other sources at Rs.186.0. Whereas, through taxes it is only Rs.56.0. The expenditure is mainly on general administration and others are Rs. 86.0 and Rs. 80.0 respectively. An amount of Rs. 9.0 is spent on public works. Townwise details are provided in the above table.

Number of educational institutions available for every 10,000 population residing in urban areas of the district is listed in table 44. As may be seen from the table that district average for Primary education is 4.8, while 3.6 and 2.4 are for Middle and High School/Secondary Schools. However the number of educational institutions at Sr. Secondary and College are less and their average being 0.9 and 0.6 per 10,000 population. Wadi ACC (NAC) which has been provided with better educational facilities tops the table, while Afzalpur (TP) occupy the last place.

TABLE 44 : SCHOOLS / COLLEGES PER 10,000 POPULATION IN STATUTORY TOWNS, 2001

Sl. No.	Name and urban status of Town	Type of educational institution

10	Sedam (TMC)	16
11	Shahabad (TMC)	6
12	Shahabad ACC (NAC*)	-
13	Shahpur (TMC)	14
14	Shorapur (TMC)	7
15	Wadi (CT)	-
16	Wadi ACC (NAC)	53
17	Yadgir (TMC)	9
	District Total	**21**

Above table furnishes details on number of beds available in the medical institutions, located in the towns of the district, for every 10,000 population. The average for the district is 21 beds per 10,000 population. As in the case of educational facilities, once again Wadi ACC (NAC) tops the list with 53 beds per 10,000 population followed by Gurmatkal (TP) and Gulbarga (M.Corp) with 31 and 30 beds respectively. In all other towns the beds available is below district average. Bhimarayanagudi (NAC), Kurgunta (CT) and Wadi (CT) have no hospitals in their jurisdictions, hence the number of beds available is reported as '0' against them. Though Shahabad ACC (NAC) has one hospital, number of beds available has not been reported.

TABLE 46 : PROPORTION OF SLUM POPULATION IN TOWNS, 2001

Sl. No.	Name of the Town	Total population	Slum population	Percentage of slum population to total population
1	2	3	4	5
1	Afzalpur	19,335	11,583	59.9
2	Aland	35,245	4,325	12.3
3	Chitapur	27,006	11,228	41.6
4	Gulbarga	430,265	31,242	7.3
5	Gurmatkal	16,923	0	0.0
6	Jevargi	19,179	5,837	30.4
7	Sedam	31,539	1,900	6.0
8	Shahabad	50,562	1,050	2.1
9	Shahpur	38,907	5,550	14.3
10	Shorapur	43,622	0	0.0
11	Yadgir	58,811	11,400	19.4
	District Total	**771,394**	**84,115**	**10.9**

Note:- Data presented for statutory towns only having slum population.

Existence of slums are reported from 11 towns of the district and the proportion of slum population to total population for these towns is presented in the above table. Since the authorities have not furnished the details of number of households and population of the slums, for Gurmatkal (TP) and Shorapur (TMC) the proportion could not be furnished.

TABLE 47 : MOST IMPORTANT COMMODITY EXPORTED OUT OF AND MANUFACTURED IN TOWNS, 2001

Sl. No.	Name and urban status of Town	Most important commodity	
		Manufactured	Exported
1	2	3	4
1	Afzalpur (TP)		Banana Sugarcane
2	Aland (TMC)	Khadi Clothes Jaggery	Dal Jowar Sugarcane
3	Bhimarayanagudi (NAC)		Cotton Tur Dal
4	Chincholi (TP)	Stone Polishing	Shahabad Polished Stones
5	Chitapur (TP)	Polished Stone Beedies	Polished Stone Tur Dal Beedies
6	Gulbarga (M.Corp*)	Tur Dal Til Oil Moong	Til Moong Dal Wheat
7	Gurmatkal (TP)	Handloom Clothes	Handloom Cloth
8	Jevargi (TP)	Silk	Silk Jowar Gram

TABLE 47 : MOST IMPORTANT COMMODITY EXPORTED OUT OF AND MANUFACTURED IN TOWNS, 2001

Sl. No.	Name and urban status of Town	Most important commodity	
		Manufactured	Exported
1	2	3	4
9	Kurgunta (CT)	-	-
10	Sedam (TMC)	Cement Stone	Cement Shahabad Stones
11	Shahabad (TMC)	Tur Dal Shahabad Stone	Shahabad Stone Tur Dal
12	Shahabad ACC (NAC*)	Cement Heavy Machinery	Cement Heavy Machinery
13	Shahpur (TMC)	-	Groundnut Jowar
14	Shorapur (TMC)	Handloom Wooden Articles	Groundnut Jowar Handloom
15	Wadi (CT)	Cement Polished Stone	Cement Shahabad Stones
16	Wadi ACC (NAC)	Cement	Cement
17	Yadgir (TMC)	Edible Oil	Edible Oil Sugarcane Jowar

The above table furnishes details of commodities manufactured and exported in the towns of the district. Shahabad Stone, a flooring material has a demand all over the country is a major commodity manufactured and exported along with Cement. Khadi and Handloom cloths, agricultural produce bi-products, silk, heavy machineries and oil are also manufactured and exported.

Table No 48 gives the distribution of households by tenure states and the number of dwelling rooms occupied by them. The data presented in this table is for the general, as well as Scheduled Castes and Scheduled Tribes. It can be seen that households dwelling in more than one room constitute more in number than households with 'No exclusive room'. Majority of the households live in their own structure with one room. Especially, in urban areas, households living in own structure have two and more than three rooms. The medium number of rooms is 2 in the district. As for as Scheduled Castes and Scheduled Tribes are concerned, households living in own building exceeds rented and other structures. No matter the houses are owned or rented, they live in one and two rooms.

		59.5	**35.4**	**5.1**	**37.2**	**32.2**	**4.7**	**22.3**	**3.2**	**0.4**

The table above highlights the percentage distribution of households living in the houses defined as per census concept in the district. The census houses occupied by the households for fully and partly residential purpose have been classified into permanent, semi-permanent and temporary. The households living in permanent structure in the district constitute 59.5 percent and semi-permanent structure accounts for 35.4 percent. It may be observed that in this district, the percentage of households dwelling in permanent houses is higher than that for the State, particularly in rural areas. Households dwelling in temporary structures is only 5.1 percent of the total households. Particularly in urban areas households dwelling in houses built upon permanent material is comparatively more than semi-permanent and temporary structures.

Availability of improved drinking water source, electricity, bathroom, toilet and proper drainage facility is an indicator of the living conditions of the people. Improved drinking water and electricity facilities are available to 80.9 and 67.6 percent of the households respectively. Facilities like bathroom, toilet and drainage is available to less than 50 percent. The rural-urban composition reveals that urban households have more accessibility to these facilities than rural households. Taluk wise details can be seen in the table.

The above table provides data at taluk level with rural and urban classification regarding the households using different types of fuels for cooking purpose. The majority of the households (84.9 per cent) in the

rural areas of the district depend on firewood, as the fuel for cooking. Followed by crop residue (12.3 per cent) and the use of other types of fuel are negligible. In the urban areas of the district also fire wood occupies prominent place with (46.6 per cent), followed by LPG (30.7 per cent) and Kerosene (13.4 per cent). However this situation is some what different in Gulbarga City, where the use of LPG occupies top place followed by firewood (34.8 per cent) and Kerosene (18.3 per cent).

The table above provides data on households possessing specified assets and availing banking facility. The households of the rural areas of the district availing banking facility works out to 20.8 per cent and for urban households 32.4 per cent. There is a remarkable difference between rural and urban households in respect of all specified assets. The rural households possessing Television works out to 12.2 per cent and the same for urban households is 54.7 per cent. Only 2.1 per cent rural households have telephone, where as 18.7 per cent of the urban households have telephone. Households not possessing any of the specified assets works out to 70.2 per cent in rural areas, whereas the same for urban area is 32.6 per cent.

(xi) Archaeology

There are number of architectural monuments in the district and monuments built by Bahmani Sultanate are larger in number. A significant feature of several of the Bahmani monuments at Gulbarga is that through the Sultanate itself was founded as a challange to the Tughlaq power, they are built on the same orthodox Tughlaq pattern with sloping walls and flat domes. The most important monument among these, is the big covered mosque, the Jami Mosque, constructed during the reign of the second Sultan of the Bahmani dynasty. The roof of Mosque is constructed as per the model of Cordova mosque in Spain. A remarkable feature of the interior is that, it is constructed in such a way that a person from any part of this enclosure would be able to see the Inam on the pulpit. Another monument is the mausoleum of the great saint Khwaja Mohammad Gesu Daraz, popularly known as Khwaja Bande Nawaz. This mausoleum is regarded with great esteem and veneration by both Hindus and Muslims. Adjoining is the tomb of his son and both forms a perfect specimen of the Perso-Deccani architecture. The interior of the saint's tomb is decorated with ornaments with excellent paintings in the Persian style. Firuz's tomb is situated just a little distance from the saint's tomb. The architecture of this monument is unique and can be said to be the acme of engineering skill. The Fort of Gulbarga is another monument originally built by Raja Gulchand and it was further strengthened by Bahman Shah. It is a remarkable structure containing fifteen towers. The Forts of Firuzabad, Chincholi and Chitapur are worth mentioning. A couple of furlongs from the south gate of the Gulbarga Fort, group of three monuments are seen. One of the monument contain the remains of Bahman Shah the founder of the dynasty. Monument representing Chalukyan architecture and Bahmani architecture are found in the district. For example, a temple in the precincts of Gulbarga Fort, ruined site at Nagai in the Chitapur taluk, some Jaina temples at Malkhed and Seram represent Chalukyan architecture. Monuments at Aland, Firuzabad, Gogi, Kodikal and Sagar represent Bahmani architecture. Apart from these, pre-historic remains consisting of Cromlechs, Kistavaens and Cairns have been discovered at some villages in Jevargi taluk on the banks of Bhima river, Rajan-Kollur and Hagaratgi in Shorapur taluk, Vibhuthihalli in Shahpur taluk and at some other places in the district. Especially the Kistavaens found here, are described to be similar to those in England and Wales. They form the majority of monument at Rajan-Kollur, and Hagaratgi. The Cairns found in the district are similar to those in England, France, Germany, Central Asia and parts of India. These Cairns are found in Jevargi, Andola, Kodekal, Hunsgi, Malgatti, Restapur, Maddarki, Chikkanahalli and Nellugi in the district. It is certain that these Cromlechs, Kistavaens, Cairns and other remains have been built by an ancient Dravidian race. These antiquities data back to as far as 3000 years.

(xii) Brief description on places of historical, religious, archaeological and tourist importance

D.Ghanagapur (Afzalpur Taluk) : This is a noted pilgrim centre in Southern India and attracts devotees throughout the year from far and near. The rivers Bhima and Amerja unite here and the pilgrims regard a dip at this spot as very meritorious. The sacred shrine of Narasimha Saraswati Datta Maharaj is situated here and under its auspices, an annual fair is held during February. This event attracts a very large number of devotees from several parts of Karnataka, Maharashtra and Andhra Pradesh.

Padaswali (Aland Taluk) : Known as Pattashali in ancient times, this is a pilgrim centre of note. It has a marvellous statue of Channakeshavaswamy in black marble. Though small in size, the image is extraordinary for its beauty.

Khandala (Aland Taluk) : The Ramalingeshwara temple here is a noted place of worship.

Rudrawadi (Aland Taluk) : An inscription belonging to the Chalukyan period is found here.

Narona (Aland Taluk) : According to a local legend, Sri Rama, in order to absolve himself of the sin of killing Ravana, stayed here for some time on his way back to Ayodhya and offered his prayers to the Linga in one of the temples here. Hence the village came to be known as Na Ravana which later got corrupted into Narona. It is said that sage Agastya also lived here for some time. There is a fine temple of Kartikaswamy which attracts a large number of devotees. Narona has in all 8 thirthas (sacred springs) which are highly venerated by the Hindus of the neighbourhood.

Yergal (Chitapur Taluk) : Also known as Yergol, this place is associated with Jayatirtha Yati, a Madhva saint of the 14th centuary who is also known to his followers as Sri Tikacharya. He is believed to have written his celebrated *Nyayasudha* at this place.

Nalwar (Chitapur Taluk) : The village has an ancient temple dedicated to Chandrala Parameshwari which attracts numerous pilgrims from different parts of the state all through the year.

Sonthi (Chitapur Taluk) : The village, also called Tonchi and Sannathi, is situated on the banks of the Bhima river and is famous for its Chandralamba temple. This temple, built in a circular shape, has huge *mantapas* on either side of the main entrance. It is said that the Western Chalukyas regarded Chandralamba as their family deity and extended royal patronage to this temple. According to a local belief Chandralamba is none other than Sitadevi an incarnation of Goddess Lakshmi. In the inner courtyard of this temple there are the *Dwadasha lingas*, as also the images of Mahakali, Mahalakshmi and Saraswathi. In this village there is a temple dedicated to Markandeya and also the Samadhi of Vishwambara Dikshita. These also attract a large number of pilgrims. Recently, some important ancient Buddhist relics as well as a few inscriptions in Prakrit and Kannada have been discovered at this place.

Hongunta (Chitapur Taluk) : The village is located at the confluence of rivers Bhima and Kagna and is therefore associated with some sanctity. The Chandra-Parameshwari temple of this village is noted for its religious importance.

Mugul Nagaon (Chitapur Taluk) : In ancient days Nagaon was an important seat of learning in *Vedas* and *Sashtras*. The village has several inscriptions besides numerous temples. One of the temples here has 61 pillars with nice carvings and is built in the Jaina style. In front of it, is a rectangular pillar, 2 metres high, which contains an inscription relating to the Chalukyan period. The great minister Kalidasa Dandanatha who adorned the court of Vikramaditya and who was also the promoter of prosperity of the Chalukyan kingdom finds a mention in two of the inscriptions dated 1055 A.D. He is described as possessing literary taste of a high calibre, as a great leader of the army, a *Brihaspathi* in politics, *Garuda* in daring and so on. According to the inscriptions here, Kalidasa I who was the son of Madhusudana and his own son Kalidasa II served successively Jayasimha II (1015-42), Someswara I (1042-68) and Vikramaditya IV (1078-1126) as chief ministers. Kalidasa I appears to have founded *Nagaon Agrahara* during the reign of Jayasimha II. Nagaon is also described as the capital of the *Eyalu* Three Hundred province of the *Kuntala_Desha*. The Yellamma temple here attracts a large number of pilgrims from all over the district and also from outside.

Korwar (Chitapur Taluk) : This village is sanctified by the existence of Shri Annaveerabhadra temple, under the auspices of which an annual festival and a cattle fair are held during May.

Kalgi : The temples of Kaleshwara and Narasimha at this place are well known in this region. A largely attended fair is held during the month of May every year.

Aralgundgi (Jevargi Taluk) : This village is known as the birth place of the famous Veerashaiva Saint Sri Sharanabasaveswara, whose shrine at Gulbarga, happens to be one of the most important religious institutions of the district.

Malkhed (Sedam Taluk) : Malkhed, historically known as Manyakheta, is situated on the banks of the Kagna river. For over two centuries from about 753 A.D., it was the flourishing capital of the Rashtrakutas. The period of Rashtrakuta ascendancy in the Deccan marked one of the most brilliant periods in the history of India. No other dynasty in the Deccan played such a dominant role in the history of India till the rise of Marathas in 7th century A.D. During the period of Amoghavarsha (814-880 A.D.) Manyakheta reached the pinnacle of its glory and development. The place lost its importance after the fall of the Rashtrakutas. A sprawling city of the bygone days is now an insignificant village with the ruins of a fort to testify to its glorious past. The place is venerated by the adherents of the Madhva faith as it has the *samadhi* of Jayathirtha *Yati* the famous commentator of Madhvacharya's works who is also known as Tikacharya.

Malkhed is also known as the place which produced the greatest *Apabramsha* poet Pushpadanta. He is credited to have composed

Mahapurana, Jasahara Chariu and *Nayakumara Chariu* and the patronage of the Rashtrakuta King Krishna II and his successor during the early part of the tenth century.

Sagar (Shahpur Taluk) : Sagar is noted for its *Dargah* of the Saint, Shaikh Sufi Sarmat Saheb under the auspices of which *urus* is held every year.

Gogipeth (Shahpur Taluk) : This village has a big mosque and also a few tombs of the Adil Shahi period (17th century A.D.). Every year during the month of *Shaban* an *urus* is organised here and this event attracts a large gathering.

Diggi (Shahpur Taluk) : This place is noted for its Sangamnath temple. Annual fair, held during August, attracts a large gathering.

Hayyal Buzrug (Shahpur Taluk) : The village has a big temple dedicated to Lingeswara, also called Hayyalappa. In the month of January an annual fair is held under the auspices of this temple and the event attracts a large gathering.

Wagingera (Shorapur Taluk) : This place finds a mention in the Indian history on account of the fierce battle which took place here between the Raja of Shorapur and Emperor Aurangzeb (17th century A.D.). It contains the ruins of a well-built fort which was at one time considered invincible.

Kakkera (Shorapur Taluk) : Annual festival in honour of Lord Somanath and a cattle fair held here are important events in the region and attract a large gathering.

Devapur (Shorapur Taluk) : This village is believed to be the birth place of the great poet Lakshimsha, the author of the famous Jaimini Bharatha.

Tinthini (Shorapur Taluk) : Situated on the bank of river Krishna, Tinthini is regarded as a sacred place by both the Hindus and the Muslims of this region. It has the famous shrine of Moneshwar which is also called Monappiah's *Dargah*. An annual fair is held in honour of Monappa during every February. This shrine is called Monappaiah's Dargah after the Hindu-Sufi saint who, though of Viswakarma caste by birth was greatly attracted by the tenets of Islam. His tomb is thus an object of worship for the Muslims as well as Hindus. A bridge has been constructed across the Krishna river here for facilitating direct traffic between Bangalore and Bidar.

Kodekal (Shorapur Taluk) : This is a place of considerable religious importance. The Channabasaveshwara temple and the *Dargah* situated here, attract a large number of devotees throughout the year. Biennial fairs are held during April and November in honour of Channabasaveshwara.

Narayanpur (Shorapur Taluk) : Chaya Bhagavathi shrine which is situated on the banks of the Krishna river near the village, attracts a large number of devotees especially on the occation of the annual festival held on *Vaishaka Shudda Tadige* (April-May). During this period a fair is also organised under the auspices of the temple. A portion of the river which runs into a cave and emerges out here cascades down a fall of about 70 metres. This fall is known as *Jaldurg Falls*. There are the ruins of a fort and of an old shrine at the Jaldurg Falls. According to a legend, Samjna, the legitimate wife of Surya, the Sun God, being unable to bear the burning radiance of her spouse created Chaya, a woman resembling herself in every form. After entrusting to Chaya the care of her husband Samjna went away to her parents. Thenceforth Chaya lived with Surya as his wife until he came to know that his real wife had duped him and was staying with her parents. Immediately Surya deserted Chaya and joined Samjna. After some time realising the wrong he had done to Chaya and to atone for his hasty action Surya decided to touch her feet daily. The first rays of the sun touch the feet of the Chaya Bhagavathi image enshrined here.

Hagaratgi (Shorapur Taluk) : This is a place of Archaeological interest in that some remains of the old Dravidian culture have been found here. The Archaeological Survey of India are reported to have unearthed a number of objects for further study.

Kembhavi (Shorapur Taluk) : This village is noted for its historical relics relating to Bahmani dynasty. There are a number of tombs which are venerated even now by the Muslims.

Anur (B) (Yadgir Taluk): Sangam which is nearby, is a holy place where the Bhima river joins the Krishna. The place is also called *Nagargadde*. Throughout the year pilgrims visit the place and bathe

at the confluence of the rivers. The Channaveera Basaveshwara fair held about the month of February every year is an event that attracts a large gathering.

Brief note on places of interest in and around the towns :

Out of all the towns of the district only Gulbarga and Shorapur merit a detailed consideration under this heading and a passing mention would suffice regarding the other towns. Afzalpur takes its name from Afzal Khan the famous Bijapur General who met with his death at the hands of Shivaji. Aland has a few historical remnants including an inscribed stone which speaks of the association of this place with the Chalukyan King Tribhuvana malla Vikramaditya. During the 15th century a Russian explorer is believed to have passed through this town. Aland is a place of pilgrimage for Hindus, because it has the tomb shrine of saint Raghava Chaitanya Maharaj. It is a place held in reverence by the Muslims as well on account of the fact that it has the *Dargh* of saint Ladle Mushaib under the auspices of which an annual prayer meeting is also organised. Chincholi town which is situated amidst picturesque surroundings is noted for its fine *Dargah* and its Raimanghad temple among Muslims and Hindus respectively. Chitapur has practically nothing of interest to boast of. The position is much the same in the case of Gurmatkal and Shahpur as well. Jevargi, on the other hand, has several Jain temples and is a Jain pilgrimage centre. Sedam has several temples of which a special mention may be made of the panchalinga temple. There is a Jain mandir. The Jama masjid of this place is constructed in the lintel style which is somewhat unique for its beauty. There are two pairs of towns of the same name but with different suffixes. Shahabad (M) and Shahabad A.C.C. are adjacent towns and while the former represents the traditional village developed into a town, the latter represents a planned township which has been developed by the factory management. The cement factory and the stone quarries are the objects of interest here. Besides, there is an elegant masonry enclosure which contains within it a big mosque and a wall. Wadi (TP) and Wadi A.C.C. Notified area are likewise contiguous towns and the latter has the cement factory and the related township within its limits. Wadi is an important railway junction. Yadgir town has a hill which contains the remnants of a fort attributed to the Yadava kings. An inscription found on the Nizam Buruz gives an account of the visit of Nizam Ali Khan to this place. The Jama Masjid and the Mailaralinga temple here are of considerable religious importance in this neighbourhood. A mention may also be made of the large reservoir at Hattikuni, which is situated at about 16 km from Yadgir and is an ideal picnic spot.

Shorapur formerly known as Surapura, is a place of historical importance in that Raja Venkatappa Naik, the chief of a principality with its capital at this place rebelled against the British in 1857. The rebellion was however put down and the principality which was being administered by the Bedar chiefs from about 1707 A.D. was handed over to the Nizam of Hyderabad. The temple dedicated to Lord Krishna under the name Gopalaswamy is an object of considerable religious importance. Under its auspices a fair is organised every year on the occasion of Sri Krishna Janmashtami when thousands of devotees gather at this place to have the *darshan* of the Lord. The town also contains several other temples, a number of mosques and *ashur khanas* as well as the remains of a palace.

Gulbarga was formerly known as Kalburgi and even now quite a large number of people from rural areas often refer to it by the old name. The fort at Gulbarga which is said to have been originally built by Raja Gulchand was subsequently strengthened by Ala-ud-din Bahmani. The town rose into prominence during the early Bahmani period when the founder of this dynasty shifted his capital from Daulatabad. Gulbarga continued to be the capital of this kingdom till about 1424 A.D. Thereafter gradually it lost its importance. Now there are a few remnants in the form of ancient monuments which testify to its glorious past. The fort contained 15 towers and 26 guns of which one was 8 metres long. Within the ramparts of the fort there is the imposing mosque which, spanning an area of 72 metres by 59 metres, resembles the great mosque of Cordova in Spain. This mosque is the only one one of its kind in the entire country. In the eastern outskirts of the town there are several tombs of Bahmani Sultans. These are huge structures with high domes. The tomb of Khwaja Bande Nawaz is venerated by muslims and also by Hindus of the region. The annual prayer session is an event of considerable religious and social importance. The arches of the *Dargah* are considered a speciality of the Bahmani architecture. The walls and domes are adorned with paintings in the Turkish and Iranian styles. Some of the relics of the saint are even now preserved in the shrine along

with some specimen art pieces of those days. There is also a library in the premises of the *Dargah* containing several thousands of old books in Urdu, Persian and Arabic languages. Emperor Aurangzeb is said to have caused the erection of a mosque, a *sarai* and a college near this tomb shrine. The tomb of Khwaja Bande Nawaz is one of the chief tourist attractions of Gulbarga. The other prominent shrine is of Saint Sharana Basaveshwara. He was an eminent religious teacher and philosopher who preached religious and social equality. This temple has been developed into pilgrim centre. Under its auspices an annual fair lasting for a fortnight is held during the month of April. Apart from these two shrines, there are two groups of royal tombs which too are of some tourist interest. One of these is located close to the southern entrance of the fort and the other is located in the eastern outskirts. These two groups fall into two separate patterns. There are single tombs which are simple square chambers having battlements and corner turets and topped by solitary dome. The whole structure standing on a square plinth. There are double tombs also. Muhammad Shah is said to have built two mosques in the town and both are even now objects of considerable interest. The Shah Bazar Masjid is simple and is in the Tugluq style of architecture, whereas the Jama Masjid situated within the fort walls has stilted domes and narrow entrance typical of the persian style of architecture, the Jama Masjid has four domes at its four corners and the fifth large dominating the whole structure is raised above the prayer hall.

(xiii) Scope of Village Directory and Town Directory

Village Directory

Village Directory provides micro level data, which will help the planners in formulation of micro-level developmental plans, as the C.D.Block is the lowest administrative unit for developmental planning. Village wise information regarding the availability of certain basic amenities and facilities within the village, as also that on the manner of utilization of the land in the concerned village are furnished in the village directory. The village directory format adopted for the 2001 Census has 23 columns whereas in the 1991 Census there were only 18 columns. When compared with the 1991 Census Village Directory format, column 9, which refers to the day or days of weekly market/ hat if any has been now left out. New inclusions are in respect of facilities like banks, agricultural credit societies, non-agricultural credit societies, other cooperative societies, number of recreational and cultural facilities like cinema/video hall, sports club, stadium/auditorium; receipt of news papers/magazines and the name of the most important commodities manufactured in the village. In all the 23 columns in this tabulation statement, first 3 columns relates to serial number, name of the village with location code and area of village while the next 2 provide information on total population and number of households in the village as per 2001 Census. The next 8 columns relate to basic amenities such as educational; medical; drinking water (potable); post, telegraph and telephone, commercial and cooperative banks, agricultural, non-agricultural and other credit societies, number of recreational and cultural facilities such as cinema/ video hall, sports club and stadium/auditorium and communications (bus service, railway station, waterway). Information in respect of approach to village, nearest town and distance in Kms., power supply, receipt of news paper/magazine, names of the most important commodities manufactured in the village are furnished in columns 14 to 18. Amenities available within the villages are shown in the respective columns and if a particular amenity especially Primary School, Middle School, College, Allopathic Hospital, PHC, MCW, Post Office, Telephone, etc., is not available in the village, the respective abbreviation is given and next to it in brackets the distance in broad ranges viz., <5 kms., 5-10 kms. and 10+ kms. of the nearest place where the facility available to that particular village is indicated. The next 5 columns, 19 to 23 provide information regarding land use (i.e., area under different types of land use in hectares rounded to two decimal places) such as forest, irrigated land by source of irrigation, un-irrigated, cultivable waste (including gauchar and groves) and finally the area not available for cultivation.

Town Directory

The Town Directory section contains seven statements (I to VII) which furnish information on all the statutory towns in the district, on aspects such as growth history, physical aspects and location of towns, municipal finance, civic and other amenities in the town, medical, educational, recreational and cultural facilities, trade, commerce, industry and banking in the towns, civic and other amenities in slum areas of the town. The scope of the various column headings adopted during 1991 Census has remained unchanged in 2001.

Note :

1. The area figure for the district given under column No 3 against " Total" represents "Geographical Area" and has been furnished by the Surveyor General India. The figures for the urban areas are either those supplied by civic administration authorities of the towns or compiled and supplied by the Director of Survey, Settlement and Land Records or compiled in this Directorate on the basis of the available records pertaining to the delimitation of urban units. Area figures for Rural Areas are derived by subtracting the Total Urban Area from the Total Area of the District.

The total of the area figures of all the C.D. Blocks/Taluks in this district will not tally with the district figures (except urban), because the area figures for C.D. Blocks/Taluks represents the land-use area based on village wise area figures as reported by the local officers. The total area of the taluk may not tally with the aggregate of the areas of the villages listed for Census purposes for it includes the area of the statutory as well as non-statutory towns, villages which may be fully submerged and reserve forests which may not form part of any revenue village, if any, within the jurisdiction of the concerned taluk. The total area of the C.D. Block is derived by subtracting the area of the statutory town or towns (within the jurisdiction of the concerned taluks) from the total area of the taluk.

2. Out growths of towns in urban agglomerations are denoted by letter "OG".

3. The following abbreviations have been used to indicate the Civic Administration Status of town.

M.Corp	:	*Municipal Corporation*
CMC	:	*City Municipal Council*
TMC	:	*Town Municipal Council*
TP	:	*Town Panchayat*
NAC	:	*Notified Area Committee*
CB	:	*Cantonment Board*
CT	:	*Census Town (Non-Municipal Census Town / Non-Statutory Town)*

SECTION – I

VILLAGE DIRECTORY

(a) NOTE EXPLAINING THE ABBREVIATIONS USED IN THE VILLAGE DIRECTORY

The "Village Directory" is one of the traditional compilations of the Census. It gives the list of villages, their location numbers, their area, population, number of households, amenities such as educational, medical, drinking water, post and telegraph, commercial and cooperative banks, agricultural non-agricultural and other credit societies, recreational and cultural facilities, communication, approach to village, nearest town with a distance, power supply availability of newspaper and magazines, most important commodity manufactured and land use of each village.

Village is a statutory recognized unit having a definite boundary and separate land records. In case, a complete village is treated as an outgrowth of urban agglomeration, data on amenities for that village, have not been given in the Village Directory but shown along with the urban component. The villages which are considered as a Census Town , the amenities data are shown in the Town Directory. For those villages which have partly merged in an outgrowth of U.A., the amenities data are shown in the Village Directory for that particular village.

The 'uninhabited' villages (villages with no population) have been indicated as such after furnishing details in columns 1 to 3 i.e., Serial number, Name of village & location code number and area of the village against column no. 4 to 18. The land use data for such villages are shown in col. 19 to 23

The Village Directory format has 23 columns and the details given under each column are as follows :

Columns 1 : Serial Number

Self explanatory. All the villages within the CD Block are presented serially in the ascending order of their location code number.

Columns 2 : Name and Location Code Number of village.

The name and location code number of the village are shown against these columns. This also includes the forest and un-inhabited villages.

Column 3 : Area of the village

The area of the village in hectares are given. Wherever the area figures was not furnished by the concerned department the column is left blank.

Column 4 : Total population

The total population of the village as per 2001 Census is given against this column.

Column 5 : Number of households

The number of households as per 2001 Census is given in this column.

Amenities :

In column 6 to 23, availability in respect of different amenities such as education, medical, drinking water, post, telegraph, banks, credit societies, communication, power, approach road etc. in each village has been depicted with appropriate codes against the column concerned. Wherever the amenities are not available in the village, a dash (-) is shown in the column and next to it in brackets the distance in broad ranges viz.< 5 kms., 5-10 kms. and 10+ kms. of the nearest place where the facility is available is given. Column wise details are given below :

Column 6 : Educational

Classes upto class IV included in Primary School. This will include nursery school, kindergarten school. Pre-basic school, pre-primary school, junior basic school upto class IV.

Classes from V to VII are included in the middle school.

Classes from VIII to X included in Higher secondary school. Classes XI and XII are treated as equivalent to Pre-University Course.

In case of composite schools like middle school with primary school or secondary school with middle school, these are also included in the number of primary and middle schools, respectively.

Accordingly any of the following types of institutions if exists within the village is shown as per codes given below :

(i)	Primary School	P
(ii)	Middle School	M
(iii)	Secondary School	S
(iv)	Senior Secondary School	PUC
(v)	College	C
(vi)	Industrial School	I
(vii)	Training School	Tr
(viii)	Adult literacy class/centre	AC
(ix)	Others (specify) e.g. Sanskrit Pathshala, Senior basic school, Navodaya Vidyalaya, Makhtab, etc.	O

More than one institution of a type in the village is indicated by the number within brackets against the abbreviation, e.g. P(3), M(4), etc.

Column 7 : Medical

Availability of medical facility within the village is indicated by following codes :

(i)	Allopathic Hospital	H
	Ayurvedic Hospital	HA
	Unani Hospital	HU
	Homeopathic Hospital	H Hom
(ii)	Allopathic Dispensary	D
	Ayurvedic Dispensary	DA
	Unani Dispensary	DU
	Homeopathic Dispensary	D Hom
(iii)	Maternity & Child Welfare	MCW
(iv)	Maternity Home	MH
(v)	Child Welfare Centre	CWC
(vi)	Health Centre	HC
(vii)	Primary Health Centre	PHC
(viii)	Primary Health SubCentre	PHS
(ix)	Family Welfare Centre	FWC
(x)	T.B. Clinic	TB
(xi)	Nursing Home	NH
(xii)	Registered Private Medical Practitioner	RMP
(xiii)	Subsidised Medical Practitioner	SMP
(xiv)	Community Health Worker	CHW
(xv)	Others	O

More than one institution of a type in the village is indicated by the number within brackets against the abbreviations, e.g. H(3), D(4), etc.

Column 8 : Drinking Water

The type of the drinking water supply sources available within the village are indicated by codes as follows :

(i)	Tap Water	T
(ii)	Well Water	W
(iii)	Tank Water	TK
(iv)	Tubewell Water	TW
(v)	Handpump	HP
(vi)	River Water	R
(vii)	Canal	C
(viii)	Lake	L
(ix)	Spring	S
(x)	Others	O
(xi)	Summer Source	SS

Column 9 : Post, Telegraph and Telephone

It is indicated by codes as shown below whether within the village exists the following amenities:

(i)	Post Office	PO
(ii)	Telegraph Office	TO
(iii)	Post & Telegraph Office	PTO
(iv)	Telephone Connection	PH

Column 10 : Commercial and Co-operative Banks

If the village is served by any banking service, commercial bank, cooperative bank etc. the same is indicated in codes mentioned below along with the number of banks in brackets. If not available the distance of nearest place where the facility exist is given:

(i)	Commercial Bank	CM
(ii)	Co-operative Bank	CP

Column 11: Credit Societies

If the village enjoys the services of Credit Societies i.e. Agricultural Credit Societies, Non-Agricultural Credit Society or Other Credit Societies, the same is indicated in codes mentioned below along with the number of such societies in brackets. In case the facility is not available within the village the distance of the nearest place where such facility exist is given :

(i)	Agricultural Credit Society	ACS
(ii)	Non Agricultural Credit Society	NCS
(iii)	Other Credit Society	OCS

Column 12 : Recreational and cultural facilities

If facilities such as Cinema/Video hall, Sports Club, Stadium/Auditorium is available in the village, the same is recorded in these columns. If not available the particulars of the nearest place with the facility is recorded. The information is indicated in codes mentioned below along with the number of such facilities in brackets:

(i)	Cinema / Video Hall	CV
(ii)	Sports Club	SP
(iii)	Stadium / Auditorium	ST

Column 13 : Communications

If the village is served by any mode of public / private transport like Bus, Railway station or Navigable water ways they are mentioned as follows:

(i)	Bus	BS
(ii)	Railway Station	RS
(iii)	Navigable Waterway	NW

Column 14 : Approach to village

Approach to village refers to the state of road leading to village. The approach to the village is indicated in following codes :

(i)	Paved Road	PR
(ii)	Mud road	MR
(iii)	Foot path	FP
(iv)	Navigable River	NR
(v)	Navigable Canal	NC
(vi)	Navigable waterways other than River, Canal	NW

Column 15 : Nearest Town and distance

The distance is given in kilometers in brackets against the name of the town nearest to the village.

Column 16 : Power supply

Availability of Power Supply in the village, whatever may be the form of its use is given by using following codes :

(i)	Electricity for domestic use	ED
(ii)	Electricity for agricultural use	EAG
(iii)	Electricity for other purposes	EO
(iv)	Electricity for all purposes	EA

Column 17 : News Paper / Magazine

If the village receives any News Paper/Magazines, the same is noted in this column using following codes:

(i)	News Paper	N
(ii)	Magazine	M

Column 18 : Most important commodities manufactured

The name of three most important commodities manufactured in the village is recorded against this column.

Column 19 to 23 : Land use i.e. area under different types of land use

Land use data maintained by the State Government is furnished against these columns. The data concerning area under Forest, Irrigated land (by source), Unirrigated land, Culturable waste and Area not available for cultivation in the village are shown against these columns. The area figures are given in hectare(s) up to one decimal. Dash '-' is recorded wherever the information is not made available by the concerned department. The codes used for different types of irrigation facilities available in the village are indicated below:

(i)	Government Canal	GC
(ii)	Private Canal	PC
(iii)	Well (without electricity)	W
(iv)	Well (with electricity)	WE
(v)	Tubewell (without electricity)	TW
(vi)	Tubewell(with electricity)	TWE
(vii)	Tank	TK
(viii)	River	R
(ix)	Lake	L
(x)	Waterfall	WF
(xi)	Others	O
(xii)	Total	T

The village directory also carries the following appendices.

Appendix-I	-	It gives the abstract of educational, medical and other amenities available in villages C D Block wise of the district.
Appendix-IA	-	Indicates number of villages C D Block wise having one or more primary schools.
Appendix-IB	-	Indicates number of villages C D Block wise having primary, middle and secondary schools.
Appendix-IC	-	Shows number of villages C D Block wise with different sources of drinking water facilities.
Appendix-II	-	Indicates the list of villages with 5,000 and above population which do not have one or more important amenities.
Appendix-IIA	-	Indicates list of Census Towns which do not have one or more amenities.
Appendix-III	-	It gives the land utilization data in respect of Census Towns / nonmunicipal Towns.
Appendix-IV	-	C D Block wise list of inhabited villages where no amenity other than drinking water facility is available.
Appendix-V	-	Summary showing number of villages not having Scheduled Castes population.
Appendix-VI	-	Summary showing number of villages not having Scheduled Tribes population.
Appendix-VII A & VII B	-	The appendix shows the list of villages according to proportion of the Scheduled Castes and Scheduled Tribes to the total population by ranges.
Appendix-VIII	-	Indicates C D Block wise number of villages under each Grama Panchayat.
Appendix-IX	-	Shows number of different types of girls school in a village.

SECTION – I

VILLAGE DIRECTORY

NOTE EXPLAINING THE ABBREVIATIONS USED IN THE VILLAGE DIRECTORY

The "Village Directory" is one of the traditional compilations of the Census. It gives the list of villages, their location numbers, their area, population, number of households, amenities such as educational, medical, drinking water, post and telegraph, commercial and cooperative banks, agricultural non-agricultural and other credit societies, recreational and cultural facilities, communication, approach to village, nearest town with a distance, power supply availability of newspaper and magazines, most important commodity manufactured and land use of each village.

Village is a statutory recognized unit having a definite boundary and separate land records. In case, a complete village is treated as an outgrowth of urban agglomeration, data on amenities for that village, have not been given in the Village Directory but shown along with the urban component. The villages which are considered as a Census Town , the amenities data are shown in the Town Directory. For those villages which have partly merged in an outgrowth of U.A., the amenities data are shown in the Village Directory for that particular village.

The 'uninhabited' villages (villages with no population) have been indicated as such after furnishing details in columns 1 to 3 i.e., Serial number, Name of village & location code number and area of the village against column no. 4 to 18. The land use data for such villages are shown in col. 19 to 23

The Village Directory format has 23 columns and the details given under each column are as follows :

Columns 1 : Serial Number

Self explanatory. All the villages within the CD Block are presented serially in the ascending order of their location code number.

Columns 2 : Name and Location Code Number of village.

The name and location code number of the village are shown against these columns. This also includes the forest and un-inhabited villages.

Column 3 : Area of the village

The area of the village in hectares are given. Wherever the area figures was not furnished by the concerned department the column is left blank.

Column 4 : Total population

The total population of the village as per 2001 Census is given against this column.

Column 5 : Number of households

The number of households as per 2001 Census is given in this column.

Amenities :

In column 6 to 23, availability in respect of different amenities such as education, medical, drinking water, post, telegraph, banks, credit societies, communication, power, approach road etc. in each village has been depicted with appropriate codes against the column concerned. Wherever the amenities are not available in the village, a dash (-) is shown in the column and next to it in brackets the distance in broad ranges viz.< 5 kms., 5-10 kms. and 10+ kms. of the nearest place where the facility is available is given. Column wise details are given below :

Column 6 : Educational

Classes upto class IV included in Primary School. This will include nursery school, kindergarten school. Pre-basic school, pre-primary school, junior basic school upto class IV.

Classes from V to VII are included in the middle school.

Classes from VIII to X included in Higher secondary school. Classes XI and XII are treated as equivalent to Pre-University Course.

In case of composite schools like middle school with primary school or secondary school with middle school, these are also included in the number of primary and middle schools, respectively.

Accordingly any of the following types of institutions if exists within the village is shown as per codes given below :

(i)	Primary School	P
(ii)	Middle School	M
(iii)	Secondary School	S
(iv)	Senior Secondary School	PUC
(v)	College	C
(vi)	Industrial School	I
(vii)	Training School	Tr
(viii)	Adult literacy class/centre	AC
(ix)	Others (specify) e.g. Sanskrit Pathshala, Senior basic school, Navodaya Vidyalaya, Makhtab, etc.	O

More than one institution of a type in the village is indicated by the number within brackets against the abbreviation, e.g. P(3), M(4), etc.

Column 7 : Medical

Availability of medical facility within the village is indicated by following codes :

(i)	Allopathic Hospital	H
	Ayurvedic Hospital	HA
	Unani Hospital	HU
	Homeopathic Hospital	H Hom
(ii)	Allopathic Dispensary	D
	Ayurvedic Dispensary	DA
	Unani Dispensary	DU
	Homeopathic Dispensary	D Hom
(iii)	Maternity & Child Welfare	MCW
(iv)	Maternity Home	MH
(v)	Child Welfare Centre	CWC
(vi)	Health Centre	HC
(vii)	Primary Health Centre	PHC
(viii)	Primary Health SubCentre	PHS
(ix)	Family Welfare Centre	FWC
(x)	T.B. Clinic	TB
(xi)	Nursing Home	NH
(xii)	Registered Private Medical Practitioner	RMP
(xiii)	Subsidised Medical Practitioner	SMP
(xiv)	Community Health Worker	CHW
(xv)	Others	O

More than one institution of a type in the village is indicated by the number within brackets against the abbreviations, e.g. H(3), D(4), etc.

Column 8 : Drinking Water

The type of the drinking water supply sources available within the village are indicated by codes as follows :

(i)	Tap Water	T
(ii)	Well Water	W
(iii)	Tank Water	TK
(iv)	Tubewell Water	TW
(v)	Handpump	HP
(vi)	River Water	R
(vii)	Canal	C
(viii)	Lake	L
(ix)	Spring	S
(x)	Others	O
(xi)	Summer Source	SS

Column 9 : Post, Telegraph and Telephone

It is indicated by codes as shown below whether within the village exists the following amenities:

(i)	Post Office	PO
(ii)	Telegraph Office	TO
(iii)	Post & Telegraph Office	PTO
(iv)	Telephone Connection	PH

Column 10 : Commercial and Co-operative Banks

If the village is served by any banking service, commercial bank, cooperative bank etc. the same is indicated in codes mentioned below along with the number of banks in brackets. If not available the distance of nearest place where the facility exist is given:

(i)	Commercial Bank	CM
(ii)	Co-operative Bank	CP

Column 11: Credit Societies

If the village enjoys the services of Credit Societies i.e. Agricultural Credit Societies, Non-Agricultural Credit Society or Other Credit Societies, the same is indicated in codes mentioned below along with the number of such societies in brackets. In case the facility is not available within the village the distance of the nearest place where such facility exist is given :

(i)	Agricultural Credit Society	ACS
(ii)	Non Agricultural Credit Society	NCS
(iii)	Other Credit Society	OCS

Column 12 : Recreational and cultural facilities

If facilities such as Cinema/Video hall, Sports Club, Stadium/Auditorium is available in the village, the same is recorded in these columns. If not available the particulars of the nearest place with the facility is recorded. The information is indicated in codes mentioned below along with the number of such facilities in brackets:

(i)	Cinema / Video Hall	CV
(ii)	Sports Club	SP
(iii)	Stadium / Auditorium	ST

Column 13 : Communications

If the village is served by any mode of public / private transport like Bus, Railway station or Navigable water ways they are mentioned as follows:

(i)	Bus	BS
(ii)	Railway Station	RS
(iii)	Navigable Waterway	NW

Column 14 : Approach to village

Approach to village refers to the state of road leading to village. The approach to the village is indicated in following codes :

(i)	Paved Road	PR
(ii)	Mud road	MR
(iii)	Foot path	FP
(iv)	Navigable River	NR
(v)	Navigable Canal	NC
(vi)	Navigable waterways other than River, Canal	NW

Column 15 : Nearest Town and distance

The distance is given in kilometers in brackets against the name of the town nearest to the village.

Column 16 : Power supply

Availability of Power Supply in the village, whatever may be the form of its use is given by using following codes :

(i)	Electricity for domestic use	ED
(ii)	Electricity for agricultural use	EAG
(iii)	Electricity for other purposes	EO
(iv)	Electricity for all purposes	EA

Column 17 : News Paper / Magazine

If the village receives any News Paper/Magazines, the same is noted in this column using following codes:

(i)	News Paper	N
(ii)	Magazine	M

Column 18 : Most important commodities manufactured

The name of three most important commodities manufactured in the village is recorded against this column.

Column 19 to 23 : Land use i.e. area under different types of land use

Land use data maintained by the State Government is furnished against these columns. The data concerning area under Forest, Irrigated land (by source), Unirrigated land, Culturable waste and Area not available for cultivation in the village are shown against these columns. The area figures are given in hectare(s) up to one decimal. Dash '-' is recorded wherever the information is not made available by the concerned department. The codes used for different types of irrigation facilities available in the village are indicated below:

(i)	Government Canal	GC
(ii)	Private Canal	PC
(iii)	Well (without electricity)	W
(iv)	Well (with electricity)	WE
(v)	Tubewell (without electricity)	TW
(vi)	Tubewell(with electricity)	TWE
(vii)	Tank	TK
(viii)	River	R
(ix)	Lake	L
(x)	Waterfall	WF
(xi)	Others	O
(xii)	Total	T

The village directory also carries the following appendices.

Appendix-I	-	It gives the abstract of educational, medical and other amenities available in villages C D Block wise of the district.
Appendix-IA	-	Indicates number of villages C D Block wise having one or more primary schools.
Appendix-IB	-	Indicates number of villages C D Block wise having primary, middle and secondary schools.
Appendix-IC	-	Shows number of villages C D Block wise with different sources of drinking water facilities.
Appendix-II	-	Indicates the list of villages with 5,000 and above population which do not have one or more important amenities.
Appendix-IIA	-	Indicates list of Census Towns which do not have one or more amenities.
Appendix-III	-	It gives the land utilization data in respect of Census Towns / nonmunicipal Towns.
Appendix-IV	-	C D Block wise list of inhabited villages where no amenity other than drinking water facility is available.
Appendix-V	-	Summary showing number of villages not having Scheduled Castes population.
Appendix-VI	-	Summary showing number of villages not having Scheduled Tribes population.
Appendix-VII A & VII B	-	The appendix shows the list of villages according to proportion of the Scheduled Castes and Scheduled Tribes to the total population by ranges.
Appendix-VIII	-	Indicates C D Block wise number of villages under each Grama Panchayat.
Appendix-IX	-	Shows number of different types of girls school in a village.

SECTION - II

TOWN DIRECTORY

(a) NOTE EXPLAINING THE ABBREVIATIONS USED IN THE TOWN DIRECTORY

Town Directory Statements (I to VII)

Statement I : Status and Growth History

Column (2) : Class, name and civic administration status of town :

Class has been introduced to facilitate analysis of town directory data at the state and all India levels. It is presented according to 2001 Census Population of the town as follows :

Population	Class
100,000 and above	I
50,000 - 99,999	II
20,000 - 49,999	III
10,000 -19,999	IV
5,000 - 9,999	V
Below 5,000	VI

Town with a population of one hundred thousand (1,00,000) and above is treated as a city.

The civic administration status of the towns is indicated within bracket against the name of the town. The following abbreviations are used to denote civic status of town.

(i)	Municipal Corporation	M. Corp.
(ii)	Municipal Committee	MC
(iii)	Municipal Council	M Cl
(iv)	City Municipal Council	CMC
(v)	Town Municipal Council	TMC
(vi)	Municipal Board	MB
(vii)	Municipality	M
(viii)	Cantonment Board/Cantonment	CB
(ix)	Notified Area	NA
(x)	Notified Town	NT
(xi)	Notified Area Committee/ Notified Area Council	NAC
(xii)	Notified Town Area	NTA
(xiii)	Industrial Notified Area	INA
(xiv)	Industrial Township	ITS
(xv)	Township	TS
(xvi)	Town Panchayat	TP
(xvii)	Nagar Panchayat	NP
(xviii)	Town Committee/Town Area Committee	TC
(xix)	Small Town Committee	ST
(xx)	Estate office	EO
(xxi)	Gram Panchayat	GP
(xxii)	Census Town	CT

Others columns need no comments.

Statement II : Physical Aspects and Location of towns, 1999

Column 3 to 5 : Physical Aspects

In this columns the Rainfall and Maximum & Minimum Temperature of the town is recorded.

Column 6, 7 and 8 :

Name of the State headquarters, District headquarters and Sub-Divisional headquarters with distance from the referent town in kilometers, is to be recorded respectively. If the names mentioned in these columns are the same as the referent town itself, the distance is recorded as (0) zero.

Column 9 & 10 :

Name of the nearest city with one lakh and more and five lakhs and more population are recorded.

Column 11, 12 and 13 :

If referent town enjoys the facility of railway station, bus route facility or navigable river/canal. Its name is to be mentioned. If not available, then the name of nearest place with distance, where such facility exists is to be mentioned.

Statement III : Municipal Finance 1998 – 1999

Itemwise amount of receipt andexpenditure in thousand rupees, relating to municipal finance of the town for the year 1998-99 is to be recorded.

Statement IV : Civic and Other amenities, 1999

Column (1 to 5) : Self explanatory

Column (6) : Road length (in kms.)

Information about kutcha / pucca road is to be recorded separately for the roads within the limits of the referent town.

(i)	Pucca Road	PR
(ii)	Kutcha Road	KR

Column (7) : System of Sewerage

Generally, by sewerage system is implied the network of mains and branches of underground conduits for the conveyance of sewerage to the point of disposal. Sewers that carry only household and industrial wastes are called separate sewers, those that carry storm water from roofs, streets and other surface are known as storm water drains, while those carrying both sewage and storm water are called combined sewers.

The codes used for different types of drainage system are as follows :

(i)	Sewer	S
(ii)	Open Surface Drains	OSD
(iii)	Box Surface Drains	BSD
(iv)	Sylk Drains	SD
(v)	Cesspool method	CP
(vi)	Pit System	Pt
(vii)	Others	O

Column 8 to 11 : Number of latrines

Number of various types of latrines both Public and Private are given in these columns.

Column 12 : Method of disposal of night soil

The various prevalent method of disposal of night soil are given below with codes :

Head Loads	HL
Basket	B
Wheel Barrows	WB
Septic Tank	ST
Pit System	Pt
Sewerage	S
Others	O

Column 13 and 14 : Water supply

Source and capacity of storage system. The following codes are used in these columns:

Column 13 :

(i)	Tap water	T
(ii)	Tubewell water	TW
(iii)	Tank Water	TK
(iv)	Well water	W

Column 14 :

(v)	Over Head Tank	OHT
(vi)	Service Reservoir	SR
(vii)	River Infiltration Gallery	RIG
(viii)	Bore Well Pumping System	BWP
(ix)	Pressure Tank	PT

The information on major source of water supply are given in column 13 and the storage capacity against each in kilolitres (in bracket) are presented in column 14.

Column 15 : Fire Fighting Service

In case the fire fighting service is available in the referent town 'yes' is recorded. If the facility is not available within the town. The name of the nearest place having this facility with its distance from the referent town has been recorded.

Column 16 to 20 : Electrification (Number of connections)

Different types of electric connections have been shown in these columns, i.e. Domestic, Industrial, Commercial, Road lighting (points) & others.

Statement V : Medical, Educational, Recreational and Cultural Facilities, 1999

Column 1 to 3 : Self explanatory

Column 4 & 5 :

The data covers all such medical institutions run by or aided by Government/Semi Government/Local bodies and Charitable institutions or Social agencies like the Missionaries. Where the family planning centres are attached to hospitals or maternity and child welfare centres or Primary Health Centres, may be treated as independent units and counted separately using following codes :

(i)	Hospital	H
(ii)	Dispensary	D
(iii)	Health Centre	HC
(iv)	Family Welfare Centre	FWC
(v)	T.B. Clinic	TB

(vi)	Nursing Home	NH
(vii)	Others	O

In case of more than one institutions of any type, it is indicated within brackets the number of such institution (s) e.g. D(3), NH(8), etc. The institutions have further been distinguished by providing additional codes within the bracket as given below :

Ayurvedic	A
Unani	U
Homoeopathic	Hom

Column 6 to 9 :

The codes used for these columns are as follows :

(i)	Arts only	A
(ii)	Science only	S
(iii)	Commerce only	C
(iv)	Arts & Science only	AS
(v)	Arts & Commerce only	AC
(vi)	Combined for all categories Arts, Science and Commerce	ASC
(vii)	Law	L
(viii)	University	U
(ix)	Others	O

Column 10 : Recognized shorthand, typewriting and vocational training institutes

"Recognised" should mean recognised by some statutory authority, like education department, commerce department, labour department etc. of the government or semi government or autonomous bodies, public sector undertakings etc.

The following codes are used :

(i)	Vocational Training Institute	VT
(ii)	Shorthand	SH
(iii)	Typewriting	Type
(iv)	Shorthand & Typewriting	SH Type
(v)	Others	O

The vocational institutions like Applied Art/ Painting college, Pharmacy college, B. Ed. College, Teacher's Training Institute, Music / Dance School, Nursing School etc. are covered under 'Others'.

Column 11 to 14 : Higher Secondary/ Intermediate / Senior Secondary / PUC / Junior College level, Secondary/Matriculation, Middle Schools/ Junior Secondary and Primary Schools.

School up to class V are treated as Primary or elementary schools. These include Nursery schools, Kindergarten schools, PrePrimary schools, Junior Basic schools upto class V and Primary schools upto class IV.

Schools upto VIII are considered as Middle school or Junior Secondary.

Schools upto class X are considered as Matriculation or Secondary schools.

Schools upto XI or XII classes are considered as Higher Secondary / Intermediate/ Pre University / Junior College etc. This would cover 10+2 classes whether held in schools or college.

If there are composite schools like middle schools with primary classes or Secondary schools with Middle classes, these are also included in the number of Primary and Middle schools, respectively. For example, if in a town, there are two Primary Schools and one Middle school with Primary classes, the number of Primary schools in the town is given as three and that of Middle schools as one though there are only three educational institutions.

If there are more institutions of a type in the town, the number is indicated within bracket along with the abbreviation, e.g. P(4), M(3).

Column 15 : Adult literacy class/centres

This column has been introduced keeping in view the Minimum Needs Programme of the Planning Commission. There are number of Adult Education Centres which are included in these columns.

If an educational facility is not available in the town, the name of the nearest place and its distance in kilometres from the town where the facility is available is mentioned.

Column 16 : Working Women's hostels with number of seats

The number of working women's hostel if available in the referent town is mentioned with number of seats. If the facility is not available in the town the name of nearest place with distance where the facility is available is recorded.

Column 17 to 19 : Recreational and Cultural Facilities

Stadium, Cinema, Auditorium/Drama/ Community Hall are covered under recreational & cultural facilities. The particulars of permanent

recreational facilities are considered for these columns.

Column 20 : Public Libraries, Reading Rooms

Number of public libraries and reading rooms available in the referent town are recorded in codes as follows :

(i) Public Library	PL
(ii) Reading room	RR

Statement VI : Trade, Commerce, Industry and Banking, 1999

Column 3 to 8 :

Name of three most important commodities exported and names of three most important commodities manufactured in the town are recorded.

Column 9 : Number of Banks

Number of Banks available in the referent town both Commercial and Cooperative banks are recorded against this column.

Column 10 & 11 : Number of Agricultural Credit Societies and Non Agricultural Credit Societies

The total number of Agricultural Credit Societies and Non Agricultural Credit Societies in the referent town are recorded against these columns.

Statement VII : Civic and other Amenities in Slums, 1999

This is the statement on civic and other amenities in all slums whether notified or not and for all towns having statutory bodies, like municipality, Municipal Corporation, Town area committee etc.

(a) Brief note on Primary Census Abstract

The first census of the third millennium and twenty first century the Census of India, 2001 was the 14th continuous and uninterrupted Indian census since 1872. Thus, 2001 Census will provide data on population and its characteristics marking transition from one century and millennium to another.

The gigantic operation of Population Enumeration (considered by many to be the single largest and complex peace time administrative exercise in the world) was made possible due to the door to door universal canvassing of the Household Schedule by about 2 million enumerators and supervisors covering 593 districts, 5,463 sub-districts, 5,161 towns and 638,588 villages. The comprehensive Household Schedule which replaced the individual slip had three parts and two sides A and B. Part I contained the Location Particulars; Part II related to the Individual Particulars and Part III contained questions for Household engaged in Cultivation/Plantation. The part II of the Household Schedule had 39 columns and 23 questions all of which were universally canvassed and no sampling was resorted to during enumeration.

Data Processing

A quantum leap was made in the technology front while processing the Census 2001 data both for Houselisting and Population Enumeration. The Census schedules for both the phases were scanned through high speed scanners in fifteen data centers across the country and hand-written data from the schedules were converted into digitized form through Intelligent Character Reading (ICR) software for creation of ASCII records for further processing. The designing and formatting of the Household Schedule had to be done very carefully using specialized software so as to ensure uniformity, which was an essential pre-requisite for scanning. The selection of appropriate state-of-art technology in data processing has made it possible to produce all the Houselisting as well as Population Enumeration tables on full count basis for the first time in the history of Census. For Census 2001, about 202 million schedules consisting of about 1,028 million records were scanned and processed within a span of only 10 months starting October, 2002.

Task Force on Quality Assurance

After the data is processed, it is expedient on the part of the data producing agency to satisfy itself about its quality before putting the same in public domain. This has to be done mainly through the process of internal consistency, comparison with similar data in the past and also through validation with likewise data if available, from external sources. Quite often the local knowledge and perception has to be brought into play to understand both the existing and the new emerging trends of population distribution and characteristics. The other very important aspect of the data quality is to ensure complete coverage of all geographical areas especially for the population enumeration phase where the data is disseminated right up to the village level in the rural areas and the ward level in the urban areas. Thus ensuring the complete coverage and correct geographical linkage of each enumeration block was one of the major planks of the quality control, specially for small area population statistics.

A very comprehensive check and edit mechanism was put in place to objectively examine the preliminary Census 2001 Population Enumeration results and finally clear them for use. The responsibility of the final clearance of data was with the Task Force on Quality Assurance (TFQA), headed by the Registrar General and Census Commissioner, India. The other members of the TFQA were the Heads and senior officers of the Census Division, Data Processing Division, Map Division, Demography Division and Social Studies Division. The Directors of Census Operations were co-opted as members whenever the TFQA discussed the data for their States/Union territories. The Directors and their senior officers were

required to make detailed presentations of data for their own state both in respect to the quality and the coverage and only after the full possible cleared.

There has been a major departure in Census 2001 from the past in respect of the procedure followed for finalization of the Scheduled Castes and the Scheduled Tribes population. In the earlier censuses, the total Scheduled Castes and Scheduled Tribes populations were finalized at the time of the manual compilation of the Primary Census Abstracts (PCA) at the Regional Tabulation Offices which were specially set up for this purpose. The individual Scheduled Castes and the Scheduled Tribes population for each state was finalized much later based on manual coding done by the coders. In 2001 Census, each individual Scheduled Caste and the Scheduled Tribe have been coded directly on the computers by the Data Entry Operators through a process known as Computer Assisted Coding (CAC) and taken up along with the processing of PCA data. The CAC process involves pulling down, from the relevant dictionary of the Scheduled Castes and the Scheduled Tribes, on the computer screen and coding from the dictionary by referring to the image of the specific individual entry in the Household Schedule appearing on the screen. The CAC of the response on Religion wherever required, was also undertaken along with the processing of PCA. This is because the Scheduled Castes status had to be determined in relation to the religion of the individual. Two Special Task Forces, one on Religion and the other on Scheduled Castes/Scheduled Tribes were constituted for scrutiny and appropriate classification of these responses.

The main task of the Special Task Force on Religion was to appropriately merge or group the new responses encountered and code it into the appropriate religious community based on available literature and local knowledge. The Special Task Force on Scheduled Castes and Scheduled Tribes examined the different Scheduled Castes and Scheduled Tribes entries encoun-tered and classified these into appropriate category of the Scheduled Castes or the Scheduled Tribes principally based on the Presidential Notification and the available literature. Thus a very systematic and scientific mechanism was operationalised to firm up the individual religion and the individual Scheduled Castes/Tribes returns. The Scheduled Castes and the Scheduled Tribes population in 2001 Census, is thus being finalized by aggregating the population data for individual Scheduled Castes and the Scheduled Tribes at appropriate geographical levels.

The entire work relating to the data validation and scrutiny was completed by all the States/Union Territories under the overall supervision and monitoring of the Census Division of the Office of the Registrar General, India with active cooperation and support of the Social Studies Division, Data Processing Division, Data Dissemination Division and Map Division.

Primary Census Abstract

The Primary Census Abstract which is yet another important publication of 2001 Census gives basic information on Area, Total Households, Total population, Scheduled Castes, Scheduled Tribes population, Population in the age group 0-6, Literates, Main workers and Marginal workers classified by the four broad industrial categories, namely, (i) Cultivators, (ii) Agricultural laborers, (iii) Household Industry Workers, and (iv) Other workers and also Non-workers. The characteristics of the Total population includes Scheduled Castes, Scheduled Tribes, Institutional and Houseless population and are presented by sex and rural-urban residence. This data is presented at different levels, namely, India, States/ Union territories, Districts and Cities, Urban Agglomerations (Population 1,00,000 and above) in three different tables. In addition, the Appendix of said publication provides Houseless and Institutional Households and their population by residence and sex for 2001 for India, State and Union territory.

Apart from the India and State/Union Territory volumes for Primary Census Abstract, the District Census Handbook contains District Primary Census Abstract, Appendix to District Primary Census Abstract, Primary Census Abstract for Scheduled Castes, Primary Census Abstract for Scheduled Tribes, Village Primary Census Abstract and Urban Primary Census Abstract of the concerned district in the state.

It was for the first time at the 1981 Census that the Primary Census Abstract (PCA) was brought out for the Scheduled Castes and the Scheduled Tribes separately on the pattern of General Primary Census

Abstract. This practice was continued in 1991 also. In the 1961 and 1971 Censuses, such data were made available in Table C-VIII-Social and Cultural table and to some extent in the series 'Special Tables for Scheduled Castes/Scheduled Tribes'.

The format of Primary Census Abstract has been restructured slightly in the 2001 Census as compared to that of 1991 Census. The nine-fold industrial classification of main workers given in the Primary Census Abstract of 1991 Census has been discontinued and its place, four-fold industrial classification of both 'main workers' and 'marginal workers' are included. In 1981 census only main workers were presented in to four categories. One of the novel features of the primary census abstract of 1991 Census was the presentation of data of the population of age group 0-6 is continued in 2001 Census also. This will help the data users in better analysis and understanding of this literacy data.

Level of presentation in District Census Handbooks:

The Primary Census Abstract data in different PCAs are presented at different levels. The level of presentation of Primary Census Abstracts are as under:

Name of the Primary Cenus Abstract	Level of presentation
1. District Primary Census Abstract	District/CD Block/UA/ City/Town
2. Primary Census Abstract for Scheduled Castes	District/CD Block/Town
3. Primary Census Abstract for Scheduled Tribes	District/CD Block/Town
4. Village Primary Census Abstract	CD Block/ Villagewise
5. Urban Primary Census Abstract	Town/Ward Level

The PCA Data for villages was presented CD Block wise for the first time in 1991 Census. This practice is continued in 2001 Census also. The data for each CD Block is presented both for rural and urban areas separately. All the villages within the CD Block constitute the rural portion and the Census Towns and Outgrowths are shown under the urban portion of the CD Block. In case a CD Block is spread over two or more districts, than portion which falls within the district is presented, the data pertaining to remaining portion of the CD Block is presented in the concerned District Census Handbook. The data in the Urban Primary Census Abstract for each town as well as for town with outgrowths in the district are presented. The data for all the wards and the outgrowths of the town(s) are also presented separately below the concerned town(s).

The District Primary Census Abstract is presented in 59 columns. The Primary Census Abstract for Scheduled Castes and Primary Census Abstract for Scheduled Tribes are presented in 52 columns. The Village Primary Census Abstract and Urban Primary Census Abstract are presented in 58 columns.

The concepts and definitions used in the column heading are explained under the sub heading 'Census Concepts' in the Analytical Note. The term 'Total Population' includes the Scheduled Castes, the Scheduled Tribes, the Institutional and the Houseless populations. The explanation regarding area figures presented at various level in the Primary Census Abstracts are as follows:

Area Figures

The area figures supplied by local revenue authorities of the district in respect of Taluks, Police Stations and by the local bodies in respect of towns are given in square kilometers. The area figures of the villages supplied by the Tahsildars in acres have been converted and shown in hectares. The area figures of the CD Block is the total of the village areas coming under each CD Block. The area figures for the district are the same as adopted by the Surveyor General of India to maintain uniformity at the national level. The total area figures of all the taluks/CD Blocks within the district may not tally with area figures of the district because former represents land use area only. Similarly, the total of all the villages may not tally with the entire rural of Police Station/Taluk. The difference may be due to the fact that while the area covered by hills, forests and rivers etc, have been accounted in the Taluks and P.S. level the same may not be covered under the area of the villages. Apart from this it may also differ due to varying methods of computation adopted at different levels.

An appendix to District Primary Census Abstract has also been furnished showing urban enumeration block-wise particulars on Total Population, the Scheduled Castes Population and the Scheduled Tribes Population for each town.

(a) Brief note on Primary Census Abstract

The first census of the third millennium and twenty first century the Census of India, 2001 was the 14th continuous and uninterrupted Indian census since 1872. Thus, 2001 Census will provide data on population and its characteristics marking transition from one century and millennium to another.

The gigantic operation of Population Enumeration (considered by many to be the single largest and complex peace time administrative exercise in the world) was made possible due to the door to door universal canvassing of the Household Schedule by about 2 million enumerators and supervisors covering 593 districts, 5,463 sub-districts, 5,161 towns and 638,588 villages. The comprehensive Household Schedule which replaced the individual slip had three parts and two sides A and B. Part I contained the Location Particulars; Part II related to the Individual Particulars and Part III contained questions for Household engaged in Cultivation/Plantation. The part II of the Household Schedule had 39 columns and 23 questions all of which were universally canvassed and no sampling was resorted to during enumeration.

Data Processing

A quantum leap was made in the technology front while processing the Census 2001 data both for Houselisting and Population Enumeration. The Census schedules for both the phases were scanned through high speed scanners in fifteen data centers across the country and hand-written data from the schedules were converted into digitized form through Intelligent Character Reading (ICR) software for creation of ASCII records for further processing. The designing and formatting of the Household Schedule had to be done very carefully using specialized software so as to ensure uniformity, which was an essential pre-requisite for scanning. The selection of appropriate state-of-art technology in data processing has made it possible to produce all the Houselisting as well as Population Enumeration tables on full count basis for the first time in the history of Census. For Census 2001, about 202 million schedules consisting of about 1,028 million records were scanned and processed within a span of only 10 months starting October, 2002.

Task Force on Quality Assurance

After the data is processed, it is expedient on the part of the data producing agency to satisfy itself about its quality before putting the same in public domain. This has to be done mainly through the process of internal consistency, comparison with similar data in the past and also through validation with likewise data if available, from external sources. Quite often the local knowledge and perception has to be brought into play to understand both the existing and the new emerging trends of population distribution and characteristics. The other very important aspect of the data quality is to ensure complete coverage of all geographical areas especially for the population enumeration phase where the data is disseminated right up to the village level in the rural areas and the ward level in the urban areas. Thus ensuring the complete coverage and correct geographical linkage of each enumeration block was one of the major planks of the quality control, specially for small area population statistics.

A very comprehensive check and edit mechanism was put in place to objectively examine the preliminary Census 2001 Population Enumeration results and finally clear them for use. The responsibility of the final clearance of data was with the Task Force on Quality Assurance (TFQA), headed by the Registrar General and Census Commissioner, India. The other members of the TFQA were the Heads and senior officers of the Census Division, Data Processing Division, Map Division, Demography Division and Social Studies Division. The Directors of Census Operations were co-opted as members whenever the TFQA discussed the data for their States/Union territories. The Directors and their senior officers were

required to make detailed presentations of data for their own state both in respect to the quality and the coverage and only after the full possible cleared.

There has been a major departure in Census 2001 from the past in respect of the procedure followed for finalization of the Scheduled Castes and the Scheduled Tribes population. In the earlier censuses, the total Scheduled Castes and Scheduled Tribes populations were finalized at the time of the manual compilation of the Primary Census Abstracts (PCA) at the Regional Tabulation Offices which were specially set up for this purpose. The individual Scheduled Castes and the Scheduled Tribes population for each state was finalized much later based on manual coding done by the coders. In 2001 Census, each individual Scheduled Caste and the Scheduled Tribe have been coded directly on the computers by the Data Entry Operators through a process known as Computer Assisted Coding (CAC) and taken up along with the processing of PCA data. The CAC process involves pulling down, from the relevant dictionary of the Scheduled Castes and the Scheduled Tribes, on the computer screen and coding from the dictionary by referring to the image of the specific individual entry in the Household Schedule appearing on the screen. The CAC of the response on Religion wherever required, was also undertaken along with the processing of PCA. This is because the Scheduled Castes status had to be determined in relation to the religion of the individual. Two Special Task Forces, one on Religion and the other on Scheduled Castes/Scheduled Tribes were constituted for scrutiny and appropriate classification of these responses.

The main task of the Special Task Force on Religion was to appropriately merge or group the new responses encountered and code it into the appropriate religious community based on available literature and local knowledge. The Special Task Force on Scheduled Castes and Scheduled Tribes examined the different Scheduled Castes and Scheduled Tribes entries encoun-tered and classified these into appropriate category of the Scheduled Castes or the Scheduled Tribes principally based on the Presidential Notification and the available literature. Thus a very systematic and scientific mechanism was operationalised to firm up the individual religion and the individual Scheduled Castes/Tribes returns. The Scheduled Castes and the Scheduled Tribes population in 2001 Census, is thus being finalized by aggregating the population data for individual Scheduled Castes and the Scheduled Tribes at appropriate geographical levels.

The entire work relating to the data validation and scrutiny was completed by all the States/Union Territories under the overall supervision and monitoring of the Census Division of the Office of the Registrar General, India with active cooperation and support of the Social Studies Division, Data Processing Division, Data Dissemination Division and Map Division.

ANNEXURE – II
NOTE ON FERTILITY & MORTALITY AND MIGRATION – 1991 & 2001 CENSUSES

Fertility levels

In demography, the word fertility is used in relation to the actual production of children or 'occurrence of births specially live births'. Fertility is a measure of rate at which population adds to itself by births and normally assessed by relating number of births to size of some section of the population, such as number of married couples or number of women of child bearing age. In other words, it is a major component of population growth. In the 1991 census, questions on fertility related to age at marriage, number of surviving children at present, number of children ever born alive and children born alive during the last one year were asked. The first three questions were asked to all evermarried women and the last question related to currently married women.

MIGRATION

What is Migration?

Migration is the third component of population change, the other two being mortality and fertility. A person is considered as a migrant by place of birth if the place in which he is enumerated during the census is other than the place of birth. Similarly a person is considered as a migrant by place of last residence if the place in which he is enumerated during the census is other than his place of immediate last residence.

Internal and International migration

The migrational movements are of three types (i) Migration within the state itself with its components (a) Migration within the district of enumeration (intra district migration), (b) Migration from one district of state to another district of state (inter district migration), (ii) Migration from one state to another state of the country (interstate migration), (iii) Migration from one country to another country. The first two streams together constitute internal migration, while the last type of movement is called international migration.

Why people migrate?

As in 1981 census, the reasons for migration were elicited in 1991 & 2001 census also. The reasons for migration were broadly categorized as (1) employment (2) business (3) education (4) family moved (5) marriage (6) natural calamities like drought, floods etc. and (7) other reasons. Reasons for migration have been elicited only with reference to movement from place of last residence.

Impact of migration

Growth of population of a particular place depends upon natural increase due to excess of births over deaths and migration. Knowledge of trends in migration helps in future planning of a region.

ANNEXURE III

VARIOUS MEASURES OF FERTILITY AND MEAN AGE AT MARRIAGE, 1991

Sl. No	State/District	GFR	GMFR	TFR	TMFR	CBR	No. of children ever born per ever married women in age-group 45-49	Child - Women ratio (0 - 4)	Female Mean Age at Marriage

Marriage and age at marriage are important social phenomena and crucial factors in the analysis of the dynamics of fertility. As such, various measures of fertility estimated based on these crucial factors are highlighted in the above table.

Estimates of General Fertility Rate (GFR) a refined measure of fertility, defined as the number of live births per thousand women in the reproductive age-group 15-49 years is a useful tool for measuring fertility, and this rate is further estimated only for the married women which is defined as General Marital Fertility Rate (GMFR). The GFR and GMFR for the district are 149 and 181 respectively.

The cumulative value of the age-specific fertility rates at the end of the child bearing ages gives a measure of Fertility known as Total Fertility Rate (TFR). It indicates average number of children expected to be born per woman during her entire span on reproductive period assuming that the age specific fertility rates to which she is exposed to, continue to be the same and there is no mortality. The same is expected for married women known as Total Marital Fertility Rate (TMFR). The estimated TFR and TMFR for the district are 4.75 and 5.83 respectively. The Crude Birth Rate (CBR) is 33.27.

The most useful indices that can be derived from the question on number of children born alive is the average number of children ever born per ever married women by age-group. Since most of the women complete their reproduction be the age-group 45-49, this indices is termed as completed fertility. The category ever married includes widows, divorced and

separated women. As such the completed fertility for the district is 4.39. The child women ratio which is a relative measure to know the fertility performance of a woman is 624 in the district.

One of the parameters, presenting female age at marriage relates to all women who live with their husbands, where some of them might have been recently married and some of them decades ago. It can be observed that mean age at marriage of the currently married women of Gulbarga district is lower than the state figure of 18.00.

27	Chamarajnagara	57	75	81	89	57	86	92	97	58	64	75	86

The estimates of mortality indicators presented above have been obtained through indirect estimation using the data on the number of children ever born and number of children surviving to ever married women. The information on questions on children ever born and children surviving canvassed for all ever married woman have been tabulated by the age of the mother. This data has been converted into estimates of probability of dying before attaining a given age. These estimates have been worked out using Brass technique where (q_i) is the probability of a newborn child dying before the age i = 1, 2, 3 and 5. The table above shows the estimates of infant and child mortality derived for the year 1991 by sex.

The infant mortality rate (q_1) for the person is 59 and for male and female are 59 and 59 respectively. The estimates of under 5 mortality (q_5) for person is 86 and for male and female are 81 and 91 respectively.

Source : Migration Tables of 1991 & 2001 Census

The Anenxure IV(1) presents data of migrants on migration by their place of birth. The majority of migrants are those who are born within the state of enumeration, which constitute 89.48 per cent as per 2001 Census. Among them, migrants born elsewhere in the district are larger than migrants born in other districts of the state. Considerable proportion of population from other state have migrated to the district. The variations during the decade among different categories can be seen from the annexure.

ANNEXURE IV (2) - PERCENTAGE DISTRIBUTION OF IN-MIGRANTS BY PLACE OF LAST RESIDENCE

Source : Migration Tables of 1991 & 2001 Census

The Annexure IV(2) presents data on migration by their place of last residence. As far as the district is concerned, it can be seen that migrants whose place of last residence was within the state of enumeration but outside the place of enumeration, constitute major proportion of migrant population. As per 2001 Census, their percentage accounts for 89.75. Among them, more is the inflow from within the district. Considerable proportion of population from other state have migrated to the district. The variations during the decade among different categories can be seen from the annexure.

ANNEXURE IV (3) - INTERSTATE IN-MIGRATION TO GULBARGA DISTRICT

Place of Birth	1991 Census		2001 Census	
	Migrants	Percentage to total migrants	Migrants	Percentage to total migrants
1	2	3	4	5
Andhra Pradesh	29,420	44.45	32,740	47.45
Goa	60	0.09	0	0.00
Kerala	870	1.31	0	0.00
Maharashtra	31,786	48.03	28,997	42.02
Tamil Nadu	1,410	2.13	1,106	1.60
Bihar	0	0.00	954	1.38
Rajasthan	0	0.00	950	1.38
Total for 5 states	63,546	96.01	64,747	93.83
Other states	2,640	3.99	4,257	6.17
Total	**66,186**	**100.00**	**69,004**	**100.00**

The interstate in-migration to the district by their place of birth provided above, highlights the States with the largest contribution of migrants to the district. According to 2001 Census findings, large inflow of migrants are mainly from Andhra Pradesh and Maharashtra which accounts for 47.45 and 42.02 per cent respectively. The migrants reported from other States of Tamilnadu, Bihar and Rajasthan is marginal. Further the category migrants from 'Other States' has increased from 3.99 per cent in 1991 to 6.17 per cent in 2001.

ANNEXURE IV(4) - RURAL AND URBAN COMPOSITION OF INTERNAL MIGRANTS BY PLACE OF BIRTH -1991 AND 2001 CENSUS

Place of Birth	Place of Enumeration-1991			Place of Enumeration-2001		
	Total	Rural	Urban	Total	Rural	Urban
1	2	3	4	5	6	7
1. Within the state	558,940	415,754	143,186	582,756	436,813	145,943
	100.0	74.4	25.6	100.0	75.0	25.0
2. In other states of India	66,186	40,815	25,371	68,340	45,844	22,496
	100.0	61.7	38.3	100.0	67.1	32.9

Rural and urban composition of internal migrants by their place of birth is provided in the above statement. The data for both the Census points out that majority of migrants within the State as well as from other states of India have migrated to rural areas of the district. The details can be seen from the Statement.

ANNEXURE - V

Brief account of Main Religions in the District / Taluk as per 1991 & 2001 Census

Religion forms an integral part of Indian Social System. For an Indian, it is a way of life rather than a faith. Indian Census, since its inception is collecting data on religion and presenting the same in its reports. In the pre-independence Census reports, the data on religion was being presented for 6 major religions viz., Hindus, Muslims, Christians, Sikhs, Jains and Buddhists. Besides, the minor religions have been classified under the category of 'Others'. The data on religion collected and presented by the Indian Census is the basic data of immense use for the researchers, anthropologists, sociologists, demographers, administrators, planners and even for a common man.

ANNEXURE V (1) - PERCENTAGE DISTRIBUTION OF POPULATION BY MAJOR RELIGIONS IN INDIA AND KARNATAKA DURING 1991 & 2001 AND ITS GROWTH RATE DURING 1981-91 AND 1991-2001

India - State differentials

The comparative data of the country and the state of Karnataka presented in Annexure V(i) reveals that the religion wise concentration of population in the state of Karnataka is of three major religions viz., Hindus, Muslims and Christians. Hindus are returned on the higher side with over three per cent more than the national average. Christians recorded nearly one per cent less whereas the proportion of Muslims in the state to national population was almost the same. There are 85.5 per cent Hindus, 11.6 per cent Muslims and 1.9 per cent Christians in Karnataka as against that of 82.4 per cent Hindus, 11.7 per cent Muslims and 2.3 per cent Christians in India. In regard to concentration of other three major religions viz., Sikhs, Buddhists and Jains it is observed that Jains with 0.7 per cent form the fourth major religion in the state whereas Buddhists with 9.8 per cent is the third major religion in India. In the Indian scene the Sikhs form fifth major group, whereas in Karnataka, Buddhists and Sikhs are placed fifth position.

Religion wise growth in the state during the decade 1981 - 91 reveals that the major religions viz., Hindus, Muslims and Christians recorded a growth rate in lesser degree i.e., 20.7 per cent, 25.7 per cent and 11.1 per cent respectively, against that of 22.3, 26.1 and 16.9 per cent in India as a whole. On the other hand Buddhists, Sikhs and Jains recorded a growth rate of 72.8 per cent, 57.8 per cent and 14.6 pecent respectively for the state against that of 34.0, 24.2 and 3.9 per cent respectively for India. Thus, the Jains recorded a higher growth of nearly 11 per cent in the state than that of India as a whole during the decade 1981 - 91.

Percentage distribution of population during 2001 Census, by major religions in India and Karnataka shows that Hindus form majority of the population with 80.5 and 83.9 per cent respectively, while Muslims form 13.4 and 12.2 per cent for the country and state respectively. The proportion of these religions for the country and state, during 1991 Census was 82.4 per cent

and 85.5 per cent for Hindus and 11.7 and 11.6 per cent for Muslims. There are not much noticeable changes are found in other religions. Persons who have not reported to which religion or faith they belong to has increased in Karnataka, as its proportion to the total population has increased from 0.1 per cent in 1991 Census to 0.3 per cent during 2001 Census.

ANNEXURE V(2) - DISTRIBUTION OF POPULATION UNDER EACH RELIGION TO TOTAL POPULATION IN THE DISTRICTS OF KARNATAKA - 1991 CENSUS & 2001 CENSUS

The above table furnishes the composition of six major religions along with 'Other Religions' and 'Religion not stated' among the districts of the state during 2001 Census along with 1991 Census. As may be seen from the table that the proportion of population to total population during 2001 Census is below 5 per cent for 23 districts of the state and is between 5-10 per cent in 3 districts. Only Bangalore district has the distinction of having more than 10 per cent of the total population of the state in its jurisdiction. During 1991 Census the situation was almost similar with 22 districts having a proportion of less than 5 per cent and 4 districts had more than 5 per cent but below 10 per cent. With 10.8 per cent of the total population Bangalore district occupied the top position.

Of the total population of the state, proportion of districts having Hindus and Muslims was uniform during both the Censuses i.e. less than 5 per cent of the total population in 21 districts for Hindus and 23 districts for Muslims, while in 5 and 3 districts respectively for Hindus and Muslims had a proportion of 5-10 per cent and Bangalore district alone had more than 10 per cent.

ANNEXURE V(3) - PERCENTAGE AND DISTRIBUTION OF POPULATION BY MAJOR RELIGION IN KARNATAKA AND GULBARGA DISTRICT - 1991 & 2001

Religion not stated	36,121	0.10	120,247	0.23	3,721	0.14	10,123	0.32

The percentage distribution of population by major religion in Karnataka and Gulbarga district for 1991 and 2001 Censuses are presented in the above table. As may be seen from the table that in Karnataka, Hindus form 85.5 and 83.86 per cent of the total population during 1991 and 2001 Censuses, followed

by Muslims and Christians. The corresponding statistics for the district does not differ much as Hindus and Muslims occupy the top two places followed by Buddhists in 2001 Census. These three religion cover more than 98 per cent of the total population of the district. Remarkable increase in the proportion of Buddhists population has been noticed between 1991 and 2001 Censuses in the State.

ANNEXURE V(4) - DISTRIBUTION BETWEEN RURAL AND URBAN AREAS OF MAJOR RELIGIONS IN KARNATAKA AND GULBARGA - 1991 & 2001

State/ District	Religion	1,991				2,001			
		Rural		Urban		Rural		Urban

	Religion not stated	2,845	76.5	876	23.5	5,885	58.1	4,238	41.9

Distribution of major religion by residence for the State and district are presented in the above statement. Majority of Hindus, Jains, Buddhists and those who have not stated their religion are residing in rural areas of the State during both the Censuses. While population belonging to Muslim, Christian and Sikh religion reside in urban areas of the State. As far as the district is concerned, according to 2001 Census data, Hindus and those who have not stated their religion live in rural areas. All other major religions are concentrated in urban areas. The same trend is seen during 1991 Census.

A : Actual P : Percentage

Talukwise distribution of population following major religion is presented above. As far as the district is concerned, majority of the population follow Hindu faith in all the taluks. This is followed by Muslims and Buddhists in Gulbarga district. A comparison between 1991 and 2001 Census data expose a remarkable growth of Buddhists during the decade in the region.

ANNEXURE VI - MARITAL STATUS OF POPULATION IN GULBARGA DISTRICT - 1991& 2001

	0.01	0.01	0.00	0.00	0.00	0.00
Total	**2,582,169**	**1,972,366**	**609,803**	**3,130,922**	**2,278,301**	**852,621**
	100.00	**76.38**	**23.62**	**100.00**	**72.77**	**27.23**

It may be seen from Annexure VI that the percentage of "Never Married" population accounts for 49.24 per cent and 53.27 per cent at state and district levels during 2001 Census, while the same was 52.05 per cent and 52.09 per cent during 1991 Census. Similarly the percentage figures of the district for Married, widowed and Divorced or Separated are 41.45, 4.98 and 0.30 per cent during 2001 Census. Comparative data for 1991 Census is also furnished in the table for ready reference. The percentage variation of all the marital categories between rural and urban is marginal in both state and district population.

The level of education by sex for the district and the State during 1991 and 2001 Census are presented in the above annexure. It can be seen that percentage of illiterates during the decade has

decreased vis-a-vis for the State and the district. Though the male literates out number females, the percentage of women folk acquired literacy during the decade is more than the male population. The comparison of data for the two censuses reveals it so for the State and the district. The different educational level attained by the population can be seen in detail in the above annexure.

ANNEXURE - VIII

DISTRIBUTION OF DIFFERENT MOTHER TONGUE RETURNED DURING 1991 & 2001 CENSUS

As part of Census publication programme the data on spoken languages/Mother Tongues will be presented under C Series. The table C-7 shows the distribution of languages/Mother Tongues which returned 10,000 or more speakers each at all-India level (including of Mother Tongues grouped under each for the district, with total, rural/urban and male/female break ups). The unclassified Mother Tongues and the Mother Tongues having less than 10,000 speakers have been relegated to 'Other' Mother Tongue category. The table is divided into Part A-Scheduled languages with Mother Tongues grouped under each and Part B-Non-scheduled languages with Mother Tongue grouped under each. The instructions to the enumerators in regard to this question read as under.

"Record Mother Tongue in full, whatever be the name of the language returned by the person enumerated". The definition of Mother Tongue is the same as in 1991. "Mother Tongue is the language spoken in childhood by the person's mother to the person. If the mother died in infancy, the language mainly spoken in the person's home in childhood will be the Mother Tongue. In case of infants and deaf mutes the language usually spoken by the mother should be recorded. In case of doubt, the language mainly spoken in the household may be recorded".

As the above instructions to the enumerators would show, the respondent was made to feel free to return the name of his/her Mother Tongue and the same was recorded faithfully by the enumerators. This naturally leads to recording of a very large number of Mother Tongue names. It is to be mentioned that Mother Tongues as returned in the Census are basically, the designation provided by the respondents. These designations or Mother Tongue labels need not be identical with the actual linguistic mediums. For assessing the correlation between the Mother Tongue designations and actual languages and dialects the raw returns of Census were subjected to thorough scrutiny and rationalization.

The abstract of languages as Mother Tongues and their strength in the district during 1991 and 2001 Census are provided below.

STATEMENT-I
ABSTRACT OF LANGUAGES AS MOTHER TONGUES AND THEIR STRENGTH IN GULBARGA DISTRICT-1991 AND 2001 CENSUS

PART A: LANGUAGES SPECIFIED IN THE EIGHTH SCHEDULE TO THE CONSTITUTION

	Gulbarga District	**2,196**	**0.09**	**8,785**	**0.28**

The statement I & II gives a clear picture of the languages spoken in the district. A closer study of 2001 Census data reveals that as many as 31 languages which returned 10,000 or more speakers are spoken in the district. The 'Other' category include Mother Tongues spoken by less than 10,000 speakers. Majority of the population speak Kannada which constitute 67.27 per cent followed by 16.82 per cent of Urdu speaking population. Among the languages not specified in the Eighth Schedule to the constitution, Coorgi is spoken by 0.09 per cent of population. Similar data for 1991 is provided in the annexure.

Linguistic classification of the languages

The names of the 114 Scheduled and Non-Scheduled languages falling in the five language families are given below with the Scheduled Languages denoted as (S). Of the 18 Scheduled Languages, 13 fall in the Indo-Aryan branch of the Indo-European family, 4 in the Dravidian family and one in the Tibeto-Burmese family.

1. INDO-EUROPEAN

(a) INDO-ARYAN

1. Assamese (S), 2. Bengali (S), 3. Bhili/Bhilodi, 4. Bishnupuriya, 5. Dogri, 6. Gujarati (S), 7. Halabi, 8. Hindi (S), 9. Kashmiri (S), 10. Khandeshi, 11. Konkani (S), 12. Lahnda, 13. Marathi (S), 14. Nepali (S), 15. Oriya (S), 16. Punjabi (S), 17. Sanskrit (S), 18. Sindhi (S), 19. Urdu (S)

(b) GERMANIC

1. English

2. DRAVIDIAN

1. Coorgi/Kodagu, 2. Gondi, 3. Jatapu, 4. Kannada (S), 5. Khond/Kondh, 6. Kisan, 7. Kolami, 8.Konda, 9. Koya, 10. Kui, 11. Kurukh/ Oraon, 12. Malayalam (S), 13. Malto, 14. Parji, 15. Tamil (S), 16. Telugu (S), 17. Tulu

3. AUSTRO-ASIATIC

1. Bhumij, 2. Gadaba, 3. Ho, 4. Juang, 5. Kharia, 6. Khasi, 7. Koda/Kora, 8. Korku, 9. Korwa, 10. Munda, 11. Mundari, 12. Nicobarese, 13. Santali, 14. Savara

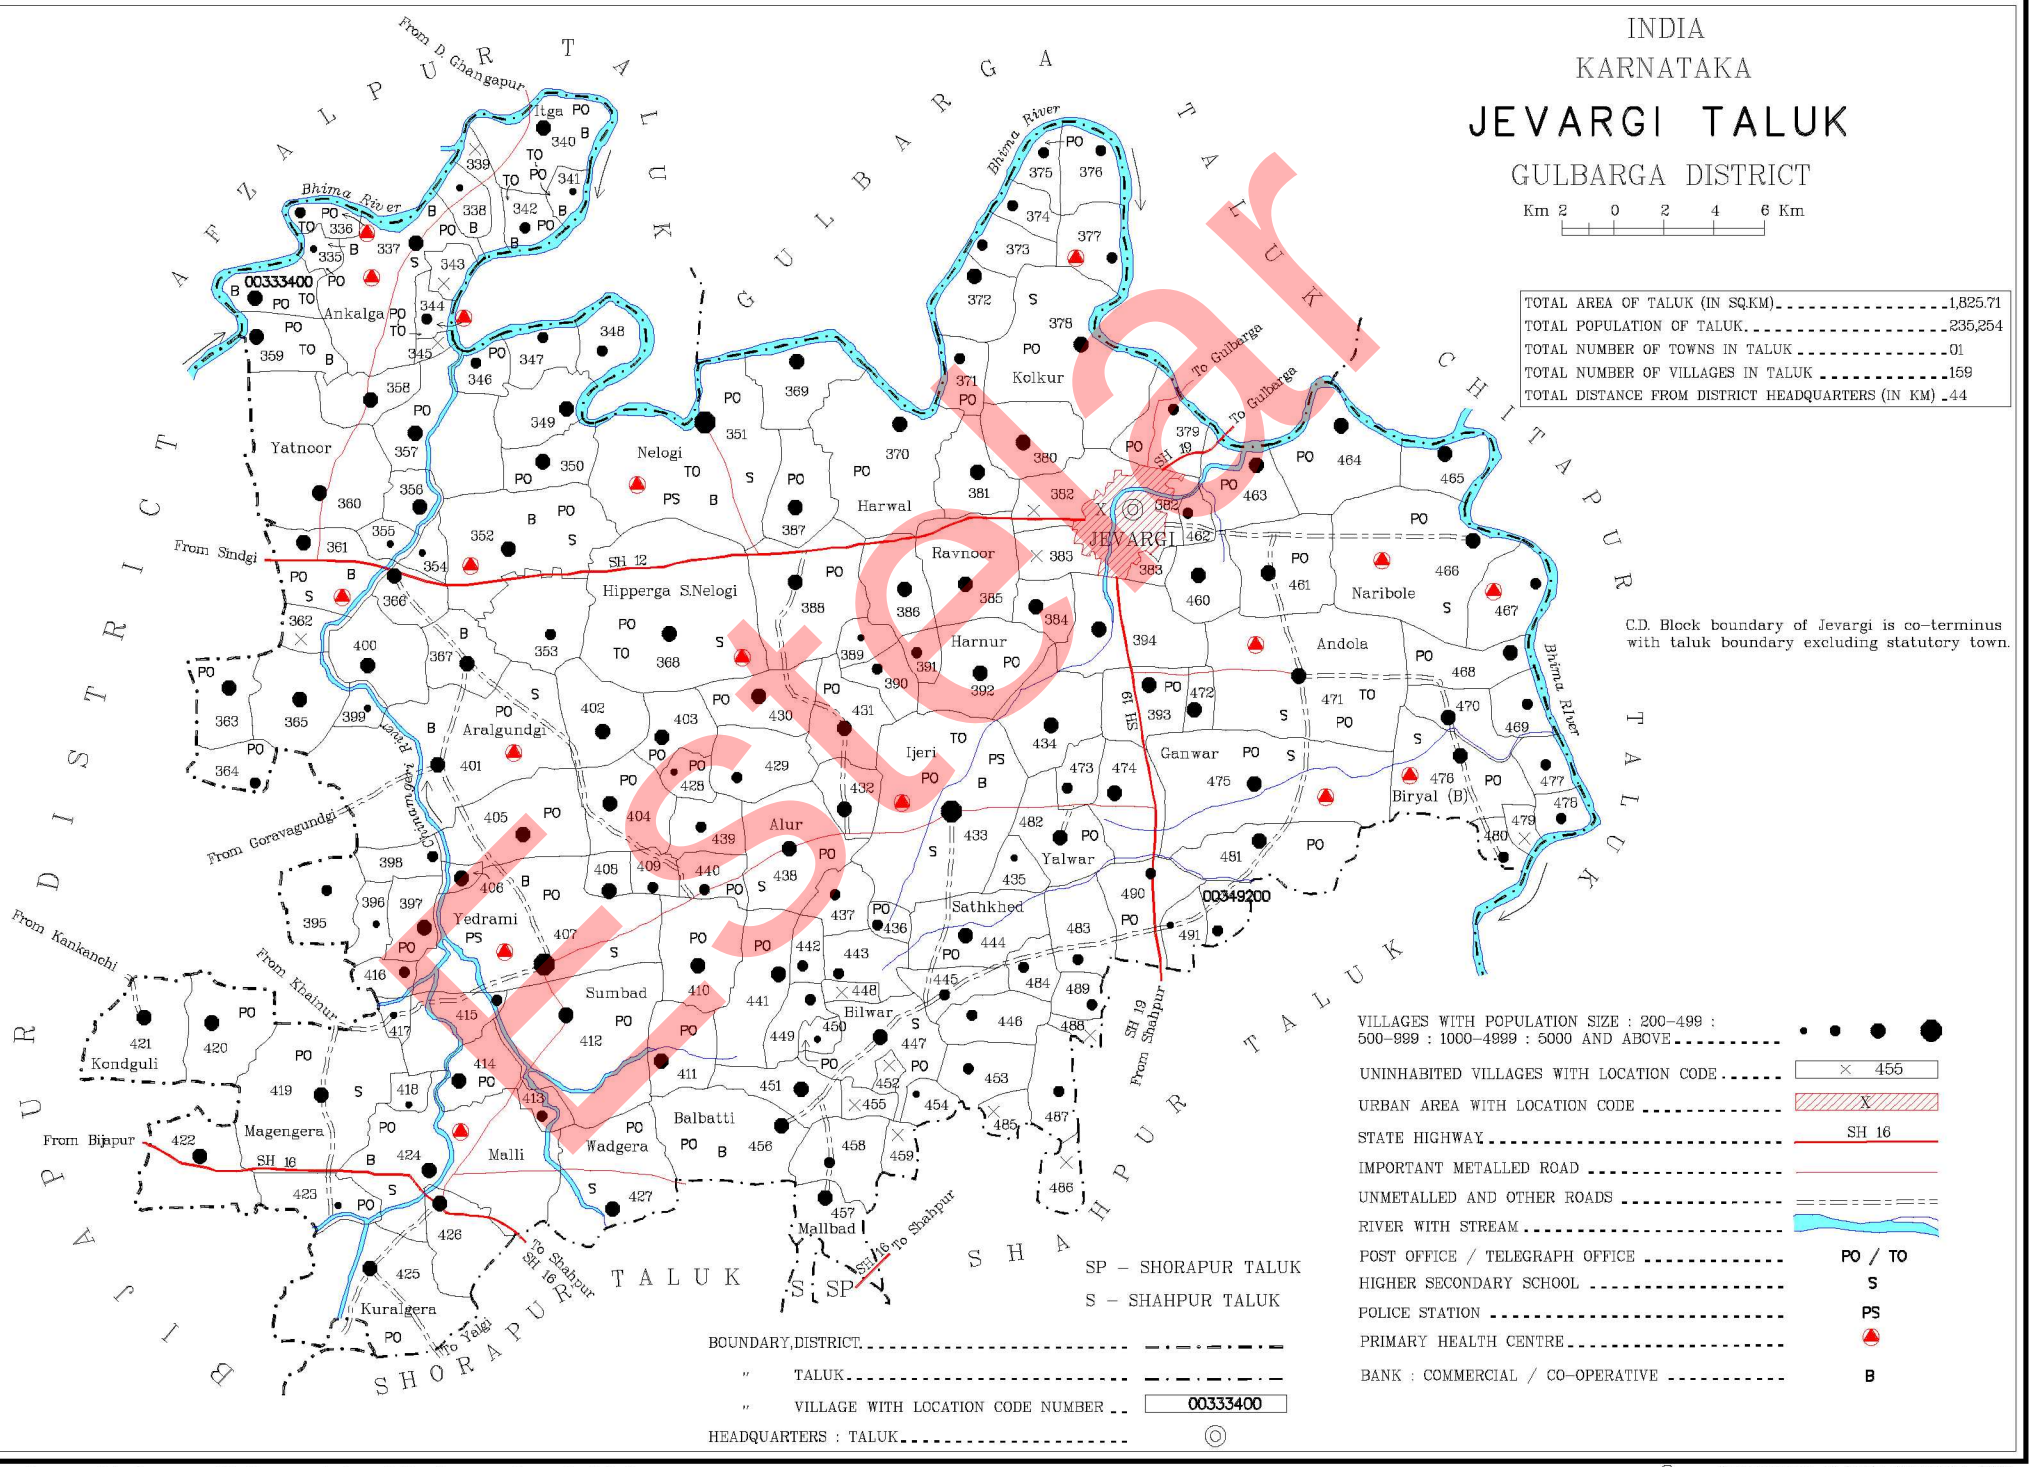

4. TIBETO-BURMESE

1. Adi, 2. Anal, 3. Angami, 4. Ao, 5. Bhotia, 6. Bodo/Boro, 7. Chakesang, 8. Chakru/Chokri, 9. Chang, 10. Deori, 11. Dimasa, 12. Gangte, 13. Garo, 14. Halam, 15. Hmar, 16. Kabui, 17. Karbi/Mikir, 18. Khezha, 19. Khiemnungan, 20. Kinnauri, 21. Koch, 22. Kom, 23. Konyak, 24, Kuki, 25. Lahauli, 26. Lakher, 27. Lalung, 28. Lepcha, 29. Liangmei, 30. Limbu, 31. Lotha, 32. Lushai/Mizo, 33. Manipuri (S), 34. Mao, 35. Maram, 36. Maring, 37. Miri/Mishing, 38. Mishmi, 39. Mogh, 40. Monpa, 41. Nissi/Dafla, 42. Nocte, 43. Paite, 44. Pawi, 45. Phom, 46. Pochury, 47. Rabha, 48. Rengma, 49. Sangtam, 50. Sema, 51. Sherpa, 52. Tangkhul, 53. Tangsa, 54. Thado, 55. Tibetan, 56. Tripuri, 57. Vaiphei, 58. Wancho, 59. Yimchungre, 60. Zeliang, 61. Zemi, 62. Zou

5. SEMITO-HAMITIC

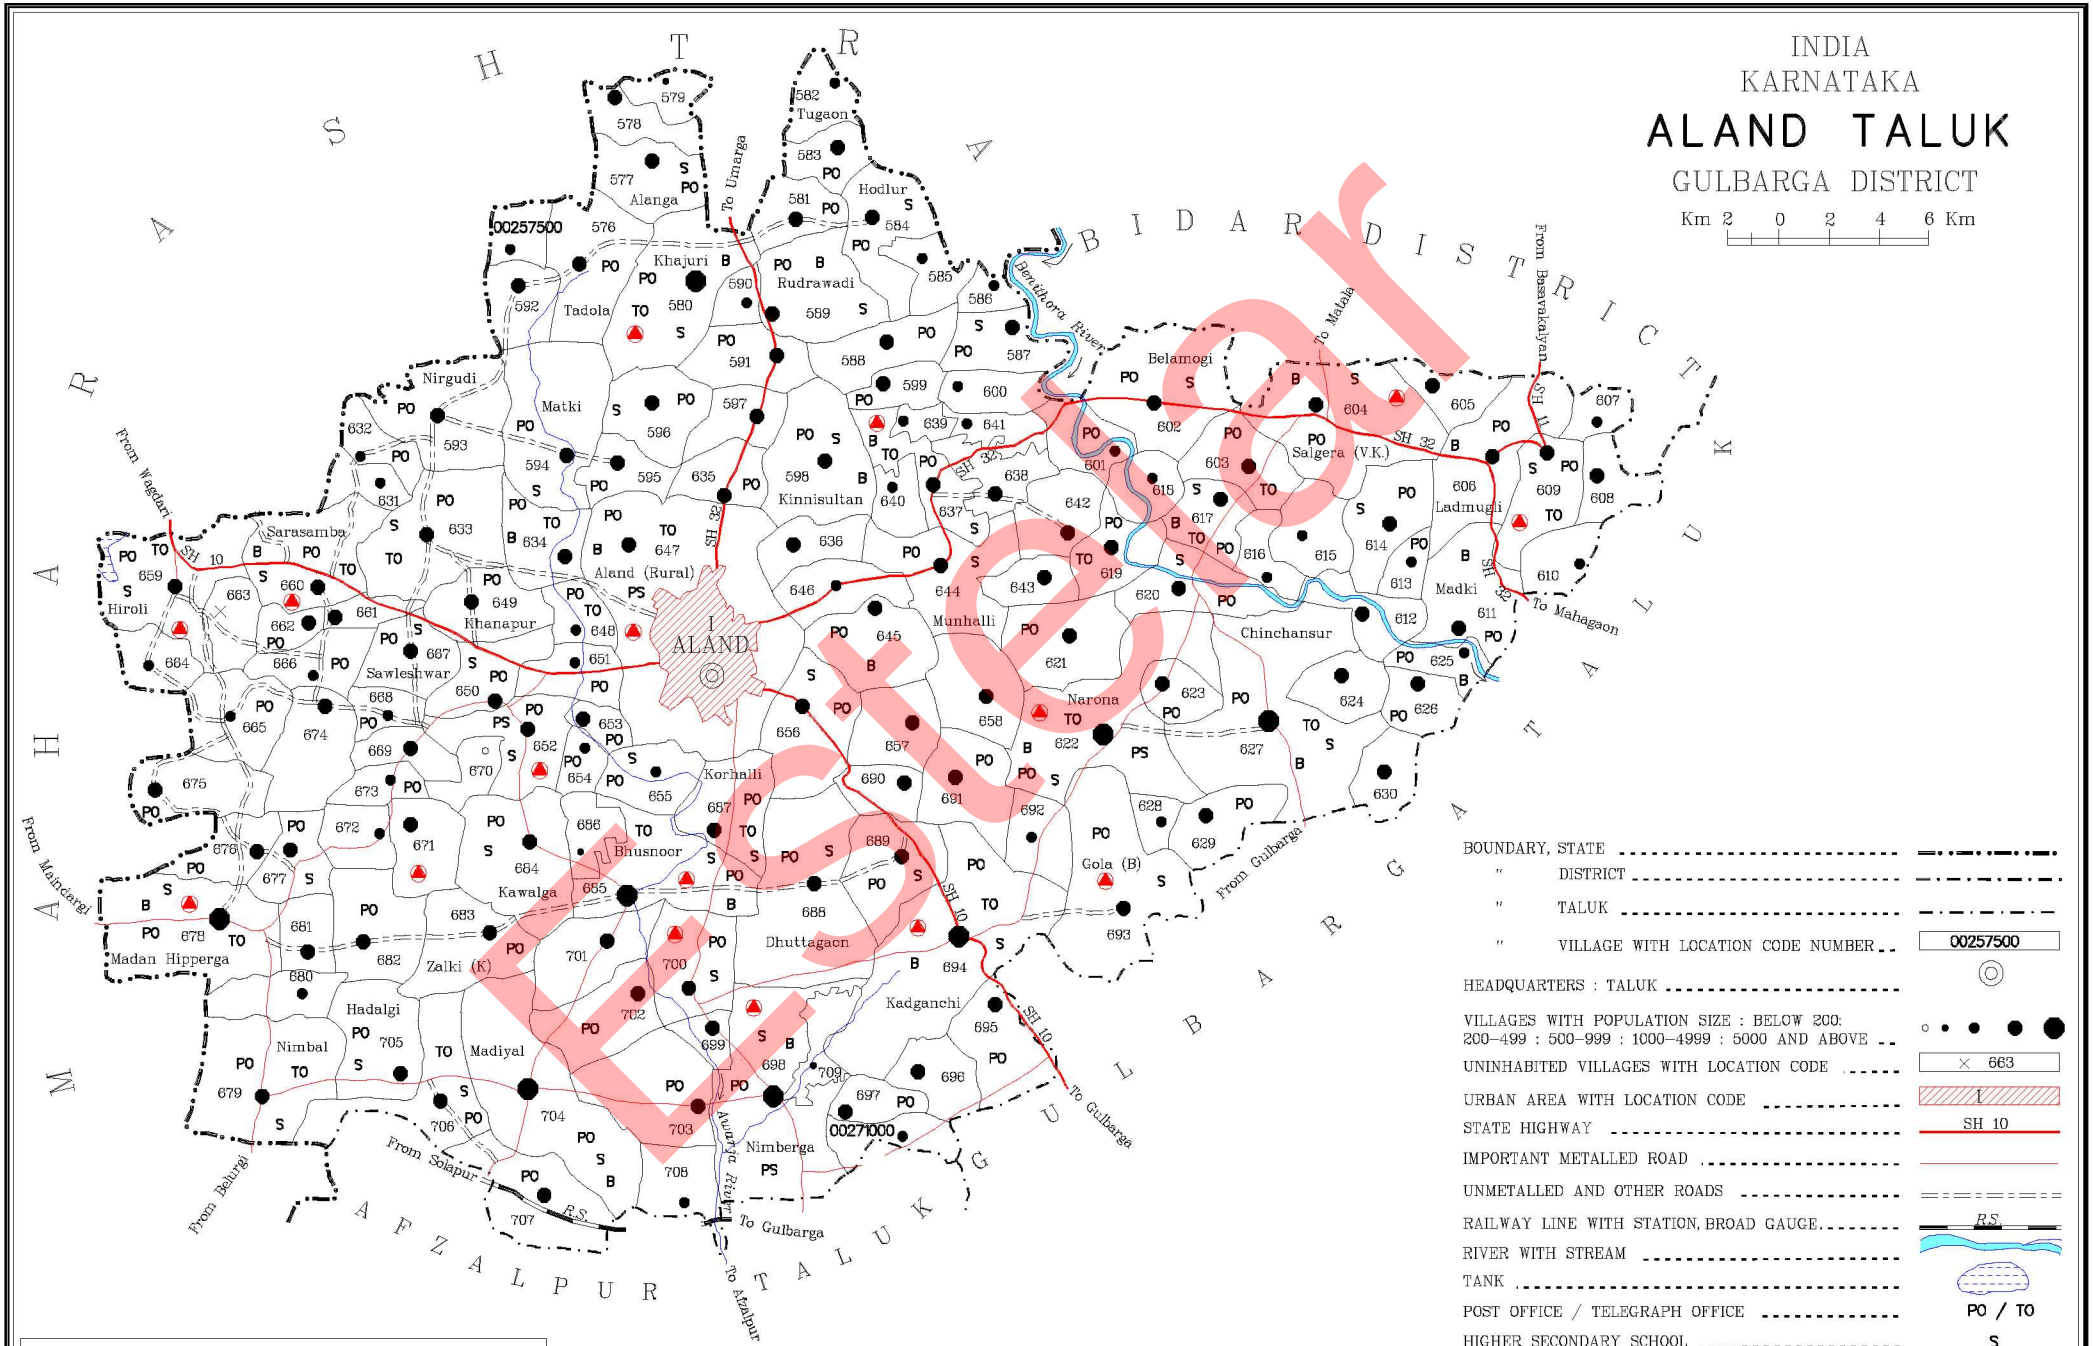

1. Arabic/Arbi
