SERIES-12 **KARNATAKA**

DISTRICT CENSUS HANDBOOK

Part - A & B

KOLAR DISTRICT

VILLAGE & TOWN DIRECTORY

VILLAGE AND TOWNWISE PRIMARY CENSUS ABSTRACT

लोकाभिमुख
PEOPLE ORIENTED

Directorate of Census Operations, Karnataka

F O R E W O R D

1. The District Census Handbook (DCHB) published by Census Organisation since 1951 census, is one of the important publications in the context of planning and development at gross-root level. The publication, which is brought out for each district, contains several demographic and socio-economic characteristics village-wise and town-wise of the district alongwith the status of availability of civic amenities, infrastructural facilities, etc.

2. The scope of the DCHB was initially confined to a few Census Tables and Primary Census Abstract (PCA) of each village and town within the district. Thereafter, at successive censuses, its scope and coverage has been enlarged. The DCHB published at the 1961 census provided a descriptive account of the district, administrative statistics, census tables and a village and town directory including PCA. The 1971 census-DCHB series was in three parts: Part-A related to village and town directory, Part-B to village and town PCA and Part-C comprised analytical report, administrative statistics, district census tables and certain analytical tables based on PCA and amenity data in respect of villages. The 1981 census DCHB was in two parts: Part-A contained village and town directory and Part-B the PCA of village and town including the SCs and STs PCA up to taluk/town levels. New features alongwith restructuring of the formats of village and town directory were added into it. In Village Directory, all amenities except electricity were brought together and if any amenity was not available in the referent village, the distance in broad ranges from the nearest place having such an amenity, was given. Information on new items such as adult literacy centres, primary health sub-centres and community health workers in the village were provided so as to meet the requirements of some of the Revised Minimum Needs Programme. Information on approach to the village was provided for the first time in the Village Directory so as to give the details on number of inaccessible villages in each district. In the Town Directory, a statement (IV-A) on slums was introduced to provide the details on civic and other amenities in the notified slums of Class I and Class II towns.

3. The 1991 census DCHB, by and large, followed the pattern of presentation of 1981 census, except the format of PCA was restructured. Nine-fold industrial classification of main workers was given against the four-fold industrial classification presented in the 1981 census. In addition, sex-wise population in 0-6 age group was included in the PCA for the first time with a view to enable the data users to compile more realistic literacy rate as all children below 7 years of age had been treated as illiterate at the time of 1991 census. One of the important innovations in the 1991 census was the Community Development Block (CD block) level presentation of village directory and PCA data instead of the traditional taluk/PS level presentation. It was expected that the presentation of village directory and PCA data at CD block level will help the planners in formulation of micro level development plans, CD block being lowest administrative unit.

4. The present series of 2001 census DCHBs have been made more informative and exhaustive in terms of coverage and content. The Village Directory has been enlarged in scope by including a number of other facilities like banking, recreational and cultural facilities, newspapers and magazines and 'most important commodity' manufactured in village. Income and expenditure of gram panchayat, wherever possible, has been provided. Apart from these, more details on distance(s) at which basic amenities are available (if not available in the village), are given. This includes educational facilities (namely primary and middle schools and college), medical facilities (viz. Allopathic Hospital, Maternity & Child Welfare Centre and Primary Health Centre), drinking water, post & telegraph (post office and phone), communication, bank, credit societies and recreational facilities. In Town Directory, the statement on Slums has been modified and its coverage enlarged by including details on all slums instead of 'notified slums'. The information is given in case of all statutory towns irrespective

of their class, against only Class I and Class II towns in the 1981 and 1991 censuses. The basic amenities available in the villages and towns are analysed in depth with the help of a number of cross-classified inset tables and statements. Two other significant additions in the publication are inclusion of 'motif' highlighting significant characteristic of the district and analytical notes as annexures. The analytical notes on (i) fertility and mortality and (ii) various measures of fertility and mean age at marriage are prepared based on 1991 census. Whereas, in the notes relating to (i) percentage distribution of migrants by place of birth/place of last residence, (ii) main religions, (iii) marital status of population, (iv) age, sex and education, and (v) distribution of spectrum of mother tongue, nature and extent of changes occurred in the district in its basic socio-demographic features during the decade 1991-2001 are analysed. The eight digits permanent location code (PLCN) to all the villages and towns have been assigned keeping in view the future needs.

5. The village and town level amenity data have been collected, compiled and computerized in prescribed record structure under the supervision of Shri.H.Shashidhar, Director of Census Operations, Karnataka. Thereafter, efforts have been made to ensure comparability of the information with that of 1991 census data and the information brought out by the respective state governments in their annual reports and statistical handbooks for various years after 1991. The task of planning, designing and co-ordination of this publication was carried out by Shri R.G. Mitra, Deputy Registrar General (C&T) and Dr. I.C. Agrawal, Senior Research Officer of Social Studies Division, Dr. R.P. Singh, Deputy Registrar General (Map) provided the technical guidance in the preparation of maps. Whereas, Shri Anil Kumar Arora, Deputy Director of Data Processing Division who worked under the overall supervision of Shri Himakar, Addl. Director (EDP) helped in preparation of record structure for computerization of village and town directory data and the programme for the generation of Village Directory and Town Directory statements including analytical inset tables. The draft DCHB manuscripts received from the Census Directorates have been scrutinized in the Social Studies Division under the guidance of Shri S.L. Jain, Deputy Director and Shri R.K. Mehta, Assistant Director. I am thankful to all of them and other who have contributed to make this publication possible.

D.K. Sikri

Motif

Ammerahalli Tank in Kolar District

The Ammerahalli tank is located in Kolar taluk in Palar river basin. The area of the Ammerahalli tank is 3.83 sq.m. tank bund is of the length 1,065 and water spread area is 61.89 hectares with a storage capacity of 43.91 MCFT.

Irrigation by tanks and wells is a characteristic feature of the district. In the matter of exploitation of underground water resources Kolar district has earned an important place among the districts in the State. This district has afforded immense potentialities for constructing tanks because of its peculiar river system. These advantageous features have already been adequately exploited as well, for it is evident that in Kolar the tanks are found in series, one emptying into the other. Large number of tanks are constructed on a connected system of streams and their feeders which are many.

To enhance the storage capacity of the tank recently silt to a depth of 2 mts have been cleared with an expenditure of Rs.77 lakhs.

Ammerahalli tank provides drinking water to Kolar city by supplying 2 lakh gallon of water every day. Apart from supplying drinking water to Kolar city this tank provides irrigation in its vicinity.

P R E F A C E

In the foreword to the 2001 series of the District Census Handbooks, Sri. D.K. Sikri, I.A.S., the Registrar General and Census Commissioner, India, has traced the history of the District Census Handbooks. He has also succinctly explained the scope and coverage of the District Census Handbooks. These volumes contain salient data on the population for every village and town as revealed by 2001 Census. They also contain a wealth of information regarding villages and towns which, throw some light on the circumstances in which people live and is therefore relevant to the data on the population. This information is also of considerable importance in the context of planned development.

The District Census Handbook is divided into two parts: Part A contains information regarding each village and town (Village Directory and Town Directory collected from various sources) and Part B which contains the data on the population collected during 2001 Census - the Primary Census Abstract. The data published in Part B was collected during February-March 2001 in the Population Census.

The process of data collection for the Village Directory and the Town Directory (Part A) commenced in 1999. The Village Directory formats were mailed to the Deputy Commissioners of Districts for obtaining the village wise particulars through Village Accountants. Similarly the Town Directory formats were mailed to the Commissioners of Corporations, Chief Officers of Town Municipal Councils, Town Panchayats, etc. The village wise and town wise data furnished by these officers were then examined exhaustively for consistency in reporting and comparability with the information published in the 1991 District Census Handbooks. The Household Schedules, which were canvassed to collect the population data during 2001 Census, were scanned and data captured was processed electronically. The Primary Census Abstract was generated centrally on the computers by Registrar General, India.

In compilation of the District Census Handbooks, the Census Directorate had the co-operation of various departments of the State/Central Government. The Census Directorate gratefully acknowledge their assistance.

I take this opportunity to offer my grateful thanks to Sri. H. Shashidhar, Director of Census Operations and Sri. S.R. Raghavendra Rao, Deputy Director (Retd.) for their valuable guidance. I am also thankful to all the officers and officials of this Directorate who have been actively involved in the compilation of this volume.

I am highly grateful to Sri. J.K.Banthia, I.A.S., Ex. Registrar General, India for the benefit I have derived by way of guidance and advice. I express my thanks to Sri R.G. Mitra, Ex. Deputy Registrar General (C&T) and Dr. I.C. Agrawal, Assistant Registrar General and Sri S.L.Jain Deputy Director of Social Studies Division and Dr. R.P. Singh, Ex. Deputy Registrar General (Map) for their guidance.

DISTRICT HIGHLIGHTS - 2001 CENSUS

1 Jurisdiction of district has undergone changes in 2001 Census.

2 Population wise the rank of district is 6th in the State.

3 District occupies 3rd rank and 7th in the State with reference to Scheduled Castes and Scheduled Tribes population respectively.

4 In literacy rate the district is placed at 18th rank in the State.

5 District stands at 11th place in sex ratio.

6 Regarding number of villages the district stands at 1st rank in the State.

7 District occupies 8th place regarding density of population.

8 With regard to Decennial Growth, the rank of district is 15th in the State.

9 Regarding percentage of Scheduled Castes and Scheduled Tribes population, district is ranked at 1st and 11th position in the State respectively.

10 In respect of workers the rank of district is 4th.

ANALYTICAL NOTE

(i) HISTORY AND SCOPE OF THE DISTRICT CENSUS HANDBOOK

Introduction

The District Census Handbook is the most valuable district level publication brought out by the Census Organization. It contains micro-level data down to the lowest administrative units viz, revenue village in the case of rural areas and Division/Ward level in the case of urban areas. It is extremely useful to the planners, administrators, demographers, sociologists, etc., as it contains resourceful wealth of data regarding basic amenities available in each villages and towns of the district such as educational, medical, drinking water, post and telegraphs, transportation and communication, banks, societies, recreation, power supply, export/import of important commodities and land use besides, the particulars revealed during the latest census enumeration. It is for the first time that the district census hand book series was included in the census publication programme at the 1951 census, in order to satisfy the growing demand by the administrators, the planners, research scholars, demographers and the other such census data users, for micro-level data. The idea of compiling the District Census Handbooks was pioneered by Sri R.A.Gopala Swamy, I.C.S. the then Registrar General, India and Ex-officio Census Commissioner of India, with a view to preserve the Census records prepared for areas below the district level. He proposed that all the district Census tables and Census abstracts prepared during the process of sorting and compilation, should be bound together in a single manuscript volume and named as the District Census Handbook and suggested that the State Government should take up printing and publication at their own cost. Then onwards, the District Census Handbooks were published in each Census with improved pattern with an aim to give the Census and Non-census data at micro level for each village of the taluk as a whole to suit the requirements of various departments.

The data in the District Census Handbook will help not only in local area planning but also in regulating the provision of goods and services as well as to minimise the regional imbalances in the process of development. The District Census Hand Book sought to replace “Part IV - Taluk Tables and Part V - Village Tables” of the earlier censuses and to present the basic demographic and economic data in the form of “Primary Census Abstract” in respect of each and every village and town within the jurisdiction of the district. The district census handbook consists of two parts, viz, Part A and Part B. Part A comprises village and Town Directory while Part-B contains Village and Town level Primary Census Abstracts. In addition, these volumes contain a set of statistical tables based on the census data in respect of the district and its constituent taluks and towns.

District Census Handbook 1961

It was in 1961 Census that the scope of District Census Hand Book was shaped in the present form by presenting (i) an account of descriptive note on the district, (ii) a set of non-census data tables dealing with the administrative statistics of the district for a decade, (iii) taluk and town level census tables on economic and socio-cultural aspects and (iv) the village and urban Primary Census Abstracts depicting the nine fold industrial classification of workers. Information on the availability of certain basic amenities in villages and towns, such as the source of drinking water and educational institutions was also presented in the volumes. However, the district census handbooks of 3 out of then existing 19 districts viz, Bangalore, Dharwad and Mysore were confined to the publication of the village-wise and urban (census enumeration block-wise) Primary Census Abstract only.

District Census Handbook 1971

During the 1971 census, the district census handbook was further refined to present the data in a systematic way. In view of countrywide uniformity in approach and to have a comprehensive coverage,

the District Census Hand Books were presented in three parts each, for a district. Part A incorporated the Town and Village Directories. Part-B incorporated the Primary Census Abstract and included data, in the case of rural areas down to the village level and in the case of urban areas up to the block level. In addition, an introduction was given wherein the changes in jurisdiction, if any, of the district or of the taluks and the changes in the number of villages between 1961 and 1971 were explained. Part-B was essentially demographic in nature and was the end product of the tabulation of the enumeration results. Part C incorporated other census tables and administrative statistics. For convenience, Part-A and Part-B of the District Census Hand Book were presented in one volume and Part-C in a separate volume. In part-C volume, the district and taluk maps were included. These maps were prepared on the basis of maps obtained from the competent authorities concerned.

District Census Handbook 1981

The District Census Hand Book series of 1981, had some new features along with the restructuring of the formats of village and town directories, keeping in view the comparability of 1971 data. All the amenities except power supply in the village were brought together in the village directory with the instruction that in case an amenity is not available in the referent village, the distance in broad ranges from the nearest place/village where it is available were given. A few new items of information such as adult literacy centres, primary health sub-centres and community health centres/workers, data on the availability of Newspapers, Motor Vehicles, etc., in the village, were introduced in the village directory to meet the requirements of the "Revised Minimum Needs Programmes". A new column "total population and number of households" was introduced to examine the correlation of the amenities with the population and number of households they serve. The contents of Part-A were further enlarged by including two appendices, namely a list of villages not having any amenities and a distribution of villages according to the proportion of Scheduled Castes and Schedules Tribes in the total population of the village. The format of Town Directory were also modified to meet the requirements of the Minimum Needs Programme by providing information on a few new items such as class of town and its population, population of SC & ST, decadal growth rate of population, working women's hostel, adult literacy classes / centres, storage system regarding drinking water supply etc., and also the information about the nearest place and distance having educational, medical and fire-fighting facilities, in case such a facility is not available in the referent town. A new statement on civic and other amenities in slums in Class I and Class II town were included to help the planners to chalk out their programmes of slum improvements.

District Census Handbook 1991

The presentation of the District Census Hand Book for the 1991 Census was more or less similar to the manner followed in 1981. The format of Primary Census Abstract was restructured slightly. Nine-fold industrial classification of main workers was given as against four-fold classification. The sex-wise population in the age-group of 0-6 was included in the Primary Census Abstract for the first time to enable data users to compute more realistic literacy rates as all the children below 7 years of age were treated as illiterate at the 1991 census. One of the important innovations in the 1991 census was the Community Development Block-level presentation of data in the village directory and Primary Census Abstract instead of the traditional tahsil/taluk/PS level presentation. C.D.Block is the lowest administrative unit for developmental planning. The choice of the C.D. Block as the unit for data presentation was formulated to help the planners in micro-level developmental plans. Another important improvement at the 1991 Census was dissemination of data through magnetic tapes/floppies in which both the computer as well as manual codes for each revenue village were provided along with the corresponding codes of 1981 Census. In the volumes of the District Census Hand Books, the computer codes assigned to the revenue villages in the 1991 Census and the corresponding codes of 1981 Census were presented so that it may facilitate the data users to use the data either from magnetic tapes or computer floppies.

Scope of the 2001 District Census Handbook

Like in the previous censuses, the District Census Hand Book (DCHB) for the 2001 Census is brought out in two parts as usual viz., Part-A The Village and Town Directory, and Part-B the Village and Town Primary Census Abstract.

The District Census Hand Books for the 2001 census is essentially presented in the similar manner in which the District Census Hand Books of 1991 census were presented. This is because the data would be comparable with the earlier censuses and also to study the changes taken place during the decades and hence the approach in 2001 census is similar to 1991 census. The contents have been slightly enlarged and the formats too are restructured to suit the requirements of the data users. In the village directory for 2001 census certain new amenities like, news papers, magazine received, Income-Expenditure of the local bodies, information on number of banks, credit societies, recreational and cultural facilities, most important commodities imported, manufactured and exported have been included whereas the information regarding the "Day or Days of market/*hat* if any" which was there in 1991 has been excluded. Apart from providing the information about the nearest place and distance in broad ranges for villages not having basic educational and medical facilities, information about the nearest place and distance in broad ranges for villages not having Middle School, College, Hospital (Allopathic), Maternity and Child Welfare Center and Primary Health Center are also provided this time. However, in the town directory there are no changes except in the statement IV-A where this statement is separately numbered as Statement VII in 2001. Except these, the scope of 2001 series of the District Census Hand Book has, by and large remained the same as in 1991. The non-census information collected at the village level and town level was scrutinized and verified. In case of glaring discrepancies the data were cross-checked with data made available by the respective parent departments for validation.

One of the significant changes made in 2001 series of District Census Hand Book is that Primary Census Abstracts are available to the jurisdiction of the Panchayats in the district. With the constitution (73rd Amendment) Act, 1992, it has become necessary for the census organisation to provide population data for the territorial area of a panchayat in order to strengthen panchayat raj system in the country. In view of this, panchayat-wise population figures for total population and for Scheduled Castes and Scheduled Tribes population has been compiled and presented in the form of Annexure-I for each district.

Further another important step taken during the 2001 census, is assigning the Permanent Location Code Numbers (PLCN) to the villages. Location code number is a simple but unique device by which every area in an administrative unit in the State/U.T. can be identified. Thus assigning of Location Code Numbers at various administrative levels, right from State/U.T. to the lowest level namely enumeration block, in census taking is an important step. Each clearly demarcated area can be referred to by a combination of numbers. In a State or U.T. the next administrative area is District, followed by taluk/tahsil or police station, circle, Development Block or Mandal, etc. Next below this administrative area, in urban areas are cities/towns, further divided into wards/divisions and villages in rural areas. The Location Code Numbers to various administrative areas are assigned in an orderly manner always beginning from northwest point and the numbering proceeds in a serpentine manner, keeping the geographical continuity, ultimately ending at the South-East point.

There was a great demand from different organizations to study the village level data over a time span and hence a scheme of assigning permanent location code numbers to the villages and the higher levels of administrative areas is devised to ensure data comparability over a period of time. In Indian Census, Location Code Numbers are allotted to each village based on traverse system (zigzag) in a serpentine manner at taluk level. These numbers for villages run from '1' to 'N' in each taluk independently. This system was adopted until 1991 census. But, for the Census of India 2001, all the villages in a state/U.T. are assigned with a Location Code Number in one continuous series beginning from "1" to "N" for the entire state/U.T. and it is not confined to a taluk. The field length of the complete PLCN structure for a village has been kept up to 8 digits and therefore the location code number of village in a taluk contains 8 digits number for 2001 Census.

(ii) BRIEF HISTORY OF THE DISTRICT

Kolar is popularly known as the golden land of India, for it is at the famous Kolar Gold Fields of this district that gold mining was first undertaken in the country during modern times. Formerly Kolar was known variously as Kolahala, Kuvalala and Kolala. Of the numerous accounts prevailing about the origin of its name the following three deserve mention here. According to a legend Kartaviryarjuna, son of Kritavirya, was ruling over a kingdom which included the area of the present Kolar district. Pleased by his penance and austerities, sage Dattatreya conferred on him a boon of thousand arms and other mighty powers. However, infatuated by his might and considering himself as invincible, Kartaviryarjuna soon began to oppress both human beings and the Gods alike. He is said to have humbled Ravana, the mighty king of Lanka. His contemporary, sage Jamadagni, the father of Parashurama, had in his care the celestial cow called Surabhi which had the miraculous powers of producing and supplying everything that her master desired. During the course of his hunting expeditions Kartaviryarjuna chanced to visit Jamadagni's ashrama. Jamadagni treated the guest king in a magnificent manner. This aroused the curiosity of the king to such an extent that he was not satisfied until the sage revealed to him the details about the cow in his possession and its powers. Kartaviryarjuna could not control his avarice and demanded the cow for himself. The sage refused to accede to this unholy demand whereupon Kartaviryarjuna used his might and took away the cow by force. Parashurama, having come to know of what had happened in the ashrama during his absence, attacked and killed Kartaviryarjuna. Consequent on the defeat and extermination of their king the confusion created among the ranks of Kartaviryarjuna echoed through the hills to the west of Kolar producing Kolahala (i.e., confused shouts and noise). The hills to the west of the town are called Shata-Shringa Parvata. The scenes of this story are laid on these hills and the surrounding parts. Kolahala or the chaos that resulted here after the death of Kartaviryarjuna gave its name Kolahala to the town.

According to another account the Gangas founded Kolar, made it their capital in the early Christian era and later shifted their capital to Talkad. The Gangas ruled a large region called the Gangavadi Ninety-six thousand in which was included Kolar and the surrounding areas also. The Ganga kings used the title Kuvalalapuravareshwara, i.e. the lords of great city of Kuvalala, till 11th century. According to the Kalinga Ganga inscription from Vishakhapatnam Gangya the progenitor of Gangas was succeeded by 18 kings. The 17th king, called Kolahala is said to have built this city and called it Kolahala after his own name. There is yet another traditional account about the foundation of Kolar town and this relates to the period of Cholas. A herdsman called Kola is said to have discovered a hidden treasure at the place where the town now stands. When the king Uttama Chola came to know of this fact, with the view of confiscating the treasure thus discovered, he ordered Kola to go over to Kanchi. In the meantime, however, the king is said to have been warned against such a scheme in a dream by Renuka (consort of the sage Jamadagni) in the form of Kolahalamma. The king built a temple to pacify the Goddess Kolahalamma. Kola himself was brought back to Kolar and was invested with the authority of the Government. It is surmised that the name Kolahala might have been derived from Kolahala meaning 'Kola's plough', the implement with which Kola unearthed the hidden treasure by accident while ploughing. The local tradition also points out that the name might have been derived from the presiding deity of the temple in the town viz., Kolaramma. Whatever might be the legendary or historical accounts regarding the origin of its present name, it is certain from the above versions that Kolar town is an ancient one dating back to several centuries.

There are a number of places in this district which find a mention in epics and legends. Avani in Mulbagal taluk which is now identified with Avantikshetra is considered as one of the ten important sacred places in India. It is said that sage Valmiki lived here and that it is here that Sita gave birth to Lava and Kusha. The Pandavas are also said to have spent a part of their exile in the district. Kaivara village in Chintamani taluk is identified with Ekachakrapura where Bhima killed Bakasura. Vidura of Mahabharata times is said to have lived at Vidurashwattha, the famous shrine on the banks of

the North Pinakini, during the battle between Pandavas and Kauravas. The peepal tree which stands now at the shrine is said to have been planted by Vidura. Historically, Mahavalis or Brihad-Banas were the earliest dynasty to be in possession of parts of Kolar area in the early Christian era. Inscriptions of these kings have been found in the taluks of Mulbagal, Srinivaspur, Bagepalli and Kolar. According to one such inscription their territory lay to the west of Andhra country and according to another it was "seven-and-a-half-lakh country". The Bana kings lost their independence at the end of the 9th century when the Cholas overthrew them. However, Gangas of Mysore came into conflict with the Banas from about the first century itself. In about the 2nd century however the Gangas became masters of Kolar and ruled for nearly one thousand years. For about a century or more Kuvalala (Kolar) was the capital of the Gangas and Nandidurga was their principal fortress. In the 3rd century their capital was shifted to Talkad for strategic reasons. Thereafter, till about 840 A.D., Kolar receded to the background but remained a provincial town of some importance. Kolahala, one of the Ganga kings, is said to have built the city named Kolahala.

The Pallavas of Kanchi have left a few inscriptions in the district. They were the principal rivals of Gangas in the east. A few inscriptions of Vaidumba kings belonging to 10th and 11th centuries have also been found in Bangarapet, Bagepalli, Mulbagal and Chintamani taluks. Of the Nolamba line of kings a number of records are found in the district. Their kingdom was called Nolambavadi which comprised the present Chitradurga district and parts of the present Kolar district and Bangalore district. One inscription indicates that in the reign of Nolambadhiraja a tower was built to the temple at Nandi in 860 A.D. In about 950 A.D. a Vaidumba prince is said to have repaired a breached tank in the present Bethamangala village. The Cholas, first under Rajaraja and then under Rajendra Chola, subdued the power of the Gangas by capturing Talkad. The important city of Kolahala or Kolar, together with the whole of the present Kolar district was thus subjugated by the Cholas. In accordance with their usual system they gave the name of Nikarila Chola Mandalam to the district. At a later period, in the 13th century, a descendant of the family of Chola-Gangas was ruling over certain parts around Kolar.

In about 1117 A.D. the Hoysalas captured Talkad and drove the Cholas out of Mysore. Thereafter the Chola dominion was for sometime restricted to the north-eastern parts of Kolar district where a few inscriptions of Vikrama Chola are found. One of these, dated in 1120, records the erection and consecration of the temple of Someshwara at Sugatur. According to an inscription of this time, Vishnuvardhana residing at Talkad and Kolalapur was ruling the Gangavadi Ninety-six-thousand including Kongu. A subordinate headquarters was set up at Kolar where Udayaditya the brother of Vishnuvardhana was stationed. After the death of Someshwara in 1254 A.D. the Hoysala kingdom came to be divided between his two sons. Kolar district was included in the Tamil provinces of the kingdom and was held by Ramanatha.

During the reign of Viraballala (1291-1342) however, the kingdom was reunited. But the later part of his rule witnessed the rapid decline of Hoysala power. When Malik Kafur invaded the Hoysala territory in 1310, Ballala managed to retain his kingdom. But, during the next invasion in 1327, the Hoysala capital at Halebidu suffered a total destruction. Viraballala was thus compelled to establish himself at a new capital. In one of the inscriptions Ballala-III is represented as securely seated on his throne at Hosavidu (the New Camp or capital as distinguished from Halebidu and Old Capital) which is identified with Hosur in Gauribidanur taluk. By 1346, the Hoysala kingdom was practically absorbed by the Vijayanagara kingdom. Numerous inscriptions of the Vijayanagara kings, some of which are in Tamil, have been found in the district. Kolar happens to be one of the earliest districts to come under the rule of Vijayanagara monarchs. The earliest inscription found here professes to be of the year 1336, that is, the year in which the kingdom was founded. Mulbagal appears to have been the Viceregal seat of the government during the Vijayanagara period.

During 15th and 16th centuries, the district was being administered by various chiefs who owed allegiance to Vijayanagara kings. After the fall of Vijayanagara in 1565 while some of the chiefs became

independent a few in the southern parts of the kingdom continued to pay tributes to the representatives of the Vijayanagara monarchs stationed at Penugonda. The chiefs of the Avati line established themselves at Chik Ballapur during the later days of the Vijayanagara period. In 1478 these Avati chiefs administered Chik Ballapur. With the consent of the Vijayanagara sovereign, they extended their territory by purchasing Sidlaghatta and strengthened their position by fortifying Nandihills, Kalavaradurga, Gudibanda and Itkaldurga. Until 1762 they ruled this territory without facing any severe challenge to their authority. But, in 1762 Haider Ali laid seige to the Chik Ballapur fort for three months at the end of which he withdrew by concluding a treaty. Subsequently, in the same year, Haider Ali defeated the chief and took possession of Chik Ballapur. On the capture of Nandidurga by the British in 1791 the territory was restored to the descendant of the Avati chief for a short period.

The Sugatur family was another important line of chiefs which ruled over parts of this district from about 1418. The founder of this line is one Timmegowda, son of Ranabairegowda, the founder of Avati line of chiefs. He was conferred with the titles of Sugatura Nada Prabhu and Chikkaraya by the Vijayanagara rulers. He repaired the fort of Kolar and gained possession of Mulbagal, Punganur and the adjacent parts.Another minor ruling family that ruled over a part of the territory in Bagepalli taluk until the middle of the 18th century is that of the Nayakas of Gummanayakanapalya founded in about 1350. In about 1760 their territory was annexed by Haidar Ali.In the middle of the 16th century, the district was in a disturbed state due to the incursions of some robber chiefs until it was subdued by Bijapur army and placed under the governorship of Shahji in 1639. Shahji put his son Sambaji in charge of Kolar. Sambaji was succeeded by his son Soorat Singh and later on by Venkoji or Eccoji. During this period, part of the district was conquered by Khasim Khan of the Moghuls and that territory was attached to the province of Sira for the next 70 years. The district next passed into the hands of the Marathas, of the Nawab of Cuddapah and then of Basalat Jung, chief of Adoni and brother of Nizam of Hyderabad. Kolar and Hoskote were ceded in 1761 to Haider Ali who regarded Kolar with particular interest as being the country of his own birth place. In 1768, the British captured Mulbagal and Kolar. In 1770 the Marathas seized the district, but it was again recovered by Haider Ali. In 1791 the British captured it under Lord Cornwallis but gave it back in 1792. With the fall of Tipu Sultan in 1799, the British established their suzerainty and restored the Kingdom to the Wodeyars of Mysore. Since then Kolar has been an integral part of Mysore i.e., Karnataka State.

In the early 1800s, Purnaiya, the Regent and Dewan remodelled the system of administration in several aspects by organising the erstwhile Mysore State into three principal divisions to be administered by Subedars. During the reign of Krishnaraja Wodeyar-III, the State was divided into six divisions or Foujdaris. The present Kolar district was at that time included in Bangalore Foujdari. In 1834 when the British took over the administration to exercise direct rule through the Commissioners, the State was reconstituted into four divisions. Under this new arrangement Kolar district formed part of Bangalore division. In 1862-63 the State was again reorganised into 3 divisions and eight districts. Kolar district was included in Nandidurga division along with Tumkur district. After rendition of Mysore in 1881 the taluks of Gudibanda, Srinivaspur and Malur were abolished. In 1886, the taluks of Srinivaspur and Malur were re-established. Various changes have been effected since then in the administrative organisation of the district to suit the collection of revenue and other aspects of administration. In 1903, there were 3 revenue sub-divisions in Kolar district, their headquarters being located at Kolar and Chik Ballapur. Later, a new sub-taluk of Gudibanda was created by transferring 138 villages from Bagepalli taluk. In 1918, a new sub-division of Chintamani was created. In 1922 the Chintamani sub-division was abolished. The taluks of Kolar and Bangarapet were put under the direct supervision of the Deputy Commissioner. Later, these two taluks were attached to the Kolar sub-division. Gudibanda was subsequently upgraded into a taluk. Exchange of villages took place between erstwhile Mysore State and the neighbouring Madras State under the Provinces and State (Absorption of Enclaves) Order 1950. Seven villages in Bangarapet taluk viz., Varadikoppa, Valagalakoppa, Byappareddihalli, Harakachinnapalli, Gollahalli, Hosapete and Chinnaradoddi and one village

Koladasanapura of Malur taluk were transferred to the then Madras State. Similarly Araleri, Rayasandiram, Balanapalli and Ettakodi of Hosur taluk of Salem district were transferred to Malur taluk of Kolar district. Chintakuntapalli in Hindupur taluk of Ananthapur district of Andhra Pradesh was transferred to Gudibanda taluk of Kolar district. When the States in the Indian Union were reorganised as per the States Reorganisation Act, 1956 the new Mysore State (now Karnataka) was formed with the addition of areas of the adjoining States and 4 revenue divisions were formed for administrative convenience. Kolar district has since then been included in the Bangalore Division. At present the district has been divided into two revenue sub-divisions called Chikk Ballapur and Kolar sub-divisions, the former consisting of six and the latter five taluks.

(iii) Administrative Setup and Administrative Divisions and Jurisdictional Changes during the decade 1991-2001.

Kolar is the eastern most district of the State which comes under the Bangalore Revenue division. The district comprises of eleven taluks which have been grouped into two Revenue sub-division viz. Chik Ballapur sub-division and Kolar sub-division. Bagepalli Chik Ballapur, Chintamani, Gauribidanur, Gudibanda, Sidlaghatta talkus comes under the Chik Ballapur sub-division and the Kolar sub-division includes the following taluks viz. Bangarapet, Kolar, Malur, Mulbagal and Srinivaspur.

Total number of Towns/ Village

According to 2001 Census there are 12 towns and 3,316 villages in the district as compared to the position in 1991 where in there were 15 towns and 3,240 villages in the district of Kolar.

STATEMENT SHOWING THE NUMBER OF VILLAGES / TOWNS IN EACH TALUK OF THE DISTRICT, DECADAL VARIATIONS IF ANY AND REASONS THEREOF

Sl. No.	Name of the Taluk	Total No. of villages as per the list finalised for		Total No. of towns as per the list finalized for		Reasons for variation
		2001 Census	1991 Census	2001 Census	1991 Census	
1	2	3	4	5	6	7
1	Gauribidanur	239	236	1	2	In 1991 Census, it was presumed that the entire geographical area of Kare Kallahalli and Madanahalli included in Gauribidanur town. But it was reported later for the 2001 census, certain areas of the said villages, still lies outside the town limits. These areas were identified and treated as independent rural units and added to the 2001 village list. Further, Manchenahalli an Urban unit in 1991 census was declassified and did not satisfy the urban creation also. So with the addition of these 3 villages, the total number of villages increased to 239 in 2001 census from 236 in 1991 census.
2	Chik Ballapur	251	253	1	1	Vabasandra and Gangana Midde were fully included in the extended boundary limits of Chikkaballapur town. The civic status Town Municipality of the town has been upgraded to City Municipal Council. Vide Notification No HUD 470 MLR 95 dated 12-10-95. With the deletion of these two villages the total number of villages in the taluk fell to 251 in 2001 from 253 in 1991 census
3	Gudibanda	105	105	1	1	No change in number of villages and remains the same at 105 both in 1991 and 2001 censuses. However the civic status of Gudibanda town has been upgraded from Mandal Panchayat to Town Panchayat vide Notification No. HUD 641 MLR 95 (7) dated 11.04.96.
4	Bagepalli	229	228	1	1	The total number of villages in the taluk stands at 229 in 2001 Census as against 228 in 1991 Census, due to

Sl. No.	Name of the Taluk	Total No. of villages as per the list finalised for		Total No. of towns as per the list finalized for		Reasons for variation
		2001 Census	1991 Census	2001 Census	1991 Census	
1	2	3	4	5	6	7
						addition of Babenayakanapalli, a new village formed vide Notification No. RD. 17. LRD 92 dated 2-9-94. The civic status of Bagepalli Mandal Panchayat has been upgraded to Town Panchayat vide Notification No. HUD. 641 MLR 95 (6) dated 9.1.96.
5	Sidlaghatta	290	290	1	1	-
6	Chintamani	400	407	1	1	The total number of villages in the taluk has decreased from 407 in 1991 to 400 in 2001 census due to inclusion of following seven villages in the statutory town limits of Chintamani, viz., Chintamani, Somashettyhalli, Mallapalli, Nekundi, Wadagahalli, Thimmasandra and Kanampalli. Further the civic status of the town, has been upgraded from Town Municipal Council to City Municipal Council, vide Notification No HUD 471 MLR 95 dated 13-10-95.
7	Srinivaspur	347	347	1	1	Though the number of villages remains same at 347 both in 1991 and 2001 censuses, change in civic status of the town has taken place. The interim Mandal Panchayat of Srinivaspur town has been upgraded to Srinivaspur town Panchayat vide Notification No HUD 641 MLR 95(E) dated 09-01-96, with same jurisdiction that of Mandal Panchayat.
8	Kolar	361	362	1	1	Consequent on the extension of Kolar city limits vide Notification No HUD 464.MLR-95 dated 12.10.95 Kolar rural was completely merged in the said statutory town. As a result of this change the total number of villages in the taluk has declined to 361 in 2001 from 362 in 1991 census.
9	Malur	363	364	1	1	In this taluk also there is a decline of one village due to merger of Nachohalli village in the Malur town limits Vide Notification No HUD 466 MLR 95 dated 12.10.95. As against 364 villages in 1991, 363 villages has been listed for the 2001 Census in tha taluk.
10	Bangarapet	383	384	2	4	Consequent on extension of Boundary limits of Robertsonpet Town, Thummalahalli village is included in Robertson pet CMC limits vide Notification No HUD 465 MLR-95dated 12-10-95. Besides, KGF (SB) & BEML Nagar (NMCT) of 1991 are also merged in Robertson pet CMC limits. With the deletion of one village, the total strength of villages in the taluk decreased to 383 in 2001 as against 384 in 1991 census. The developed portion of Parandahalli village, contiguous to Roberson pet city was classified as an outgrowth of Robertson pet Urban Agglomeration in addition to the existing outgrowths. This has not affected on total number of villages in the taluk.
11	Mulbagal	343	345	1	1	Due to merger of Kasaba Mulbagal and Indalkere in Mulbagal town, the total number of villages in

Urban local bodies

The statutory urban local bodies are the Municipal Corporations and Municipal Councils. These urban local bodies elect Councilors/ Corporators from each ward and the tenure of the Councilors/Corporators would be for five years. The President or Vice-President of the Municipal Council and the Mayor/Deputy Mayor of the Corporations whose tenure will be for a period one year are elected from among the elected Councilors/Corporators. The Chairman of various committees are also elected from among the elected Councilors for a term of one year.

The Chief Officer in Municipal Council and the Commissioner in a City Corporation are responsible for day-to-day administration and the executive authority is vested with them.

Zilla Panchayat and Taluk Panchayat

To promote the development of institution and secure greater measure of participation by the people in the local and governmental affairs by decentralization of power and functions for the purpose of development, planning and implementation of various programmes thereof Zilla Panchayats have been constituted in the State. The jurisdiction of Zilla Panchayat is coterminous with that of the corresponding district but excludes the statutory towns. Accordingly, Zilla Panchayat has been constituted for Kolar district and its jurisdiction extends over the Taluk Panchayats of the district. The jurisdiction of each Taluk Panchayat is coterminous with that of the taluk of the same name but excludes the area incorporated in the statutory towns or cities, if any.

The Zilla Panchayat elects its president and vice-president and chairman of its committees from amongst the elected members. The term of these elected representatives will be for five years. An IAS officer is posted by the State Government as Chief Executive Officer of the Zilla Panchayat. Various departments assist the Panchayat.

Grama Panchayats

The Government of Karnataka enacted the Karnataka Panchayat Raj Act 1993 on 30.4.1993 replacing its previous enactment in this regard for the formation of Gram Panchayat.

STATEMENT SHOWING THE TALUKWISE NUMBER OF GRAMA PANCHAYATS AND HOBLIS/ FIRKAS

Details regarding Panchayatwise number of villages are furnished in Annexure I.

The Grama Panchayat is authorized to function on the items listed in Schedule I of the Act namely, preparation of annual plans for the development of Panchayat area, preparation of annual budget, providing reliefs in natural calamities, removal of encroachments on public properties, organising voluntary labour and contribution for community works, maintenance of essential statistics of the village, in addition to matters relating to Agriculture, Animal Husbandry, Fisheries, Social & Farm Forestry, Khadi, Village & Cottage Industries, Rural Housing, Drinking Water, Roads, etc., Rural Electrification, Non-conventional energy sources, Poverty Alleviation Programmes, Markets & Fairs, Rural Sanitation, Public Health & Family Welfare, Women and Child Development, Social Welfare, Welfare of Weaker Sections, Public Distribution System, Maintenance of Community assets, Construction and Maintenance of Dharmashalas, Chatras, Cattle Sheds, Ponds, Cart Stands, Slaughter Houses, Public Parks, Play Grounds, etc. Regulation of manure pits in public places and establishment and control of shandies. Such other functions as may be entrusted.

The Grama Panchayat is also empowered to make provisions for carrying out within its area any other work or measure which is likely to promote the health, safety, education, comfort, convenience or social or economic well being of the inhabitants of the Panchayat area.

(iv) PHYSICAL FEATURES

Kolar district is located in the Southern Maidan Plains region of the state and happens to be the eastern most district of Karnataka. The district with an area of 8223 sq.km. has it greatest length of about 135km. from the north to south with almost same distance from east to west.

(1) Location and size

Kolar district is situated between 12 degree 46 minutes and 13 degree 58 minutes north latitude and 77 degree 21 minutes and 78 degree 35 minutes east longitude. The district is bounded by the district of Bangalore and Tumkur on the west and on all other side by the districts of the adjoining State of Andhra Pradesh and Tamil Nadu. On the north it is bounded by Ananthpur district, on the east by Chittor district of Andhra Pradesh and on the south by the district of North Arcot and Dharmapuri of Tamil Nadu.

(2) Physiography

Kolar district is located in the southern maidan regions of the state. The district occupies the table land of Mysore bordering eastern ghats. The general plateau surface is interrupted by a number of hills and peaks of various heights particularly in the north. The principal chain of mountain is the Nandidurga range which runs north of Nandi towards Penukonda and Dharmavaram of Andhra Pradesh. Nandidurga, Chennakeshava Betta, Kalavaradurga and Brahmagiri are some of the important peak of this range. Parallel to the Nandidurga range runs a line of hills which enters the district north of Gummanayakanapalya separating the valleys of Chitravati and Papaghni. Murugamale, Ambajidurga and Rahmandurga are some of the isolated peaks of this range. A third line of low hills consisting of mere rising ground or mounds which commences near Srinivaspur passes to the each of Kolar and extends to Kangundi. Kuppam and Palmaner ghats in Bangarapet taluk and beyond.

The most conspicuous areas of very high and very low area of the district is located at 700 to 1000 meters of contours lines above the mean sea level respectively.

(3) Drainage

There are no perennial rivers in the district. The Palar, North Pinakini, and South Pinakini are the important rivers which originate in the elevated region in the district. The tributaries flowing in the district are Arkavathi, Chitravathi, Nangihole, Kundar, Kushavati, Markandeya Papaghni, Vrishabhavati and Vardaman hole. The main part of the Kolar district comprises the head of the Palar river system on the south and that of North Pinakini on the north. The central and eastern parts of the district forming the Palar Valley are undulating and well cultivated while there is a considerable depression in the valley of North Pinakini.

The name Palar means “Milk River” and in puranas it is mentioned as Kshira Nadi in Sanskrit. The Palar river is said to rise in a well near the summit of Nandi hills and to cross the South Pinakini running under ground. It flows east wards from Jangamakote and from Yerandahalli ten miles beyond Kolar where it is joined by an important tributary it directs its course south and south-east and flows through

Bangarapet taluk where it forms the large Bethamangala tank which is the source of water supply to K.G.F.

The length of the river from the place of its birth to the place where it leaves the district is about 67 miles along the course.

North Pinakini rises on the Chennakeshava Betta north west of Nandi hills and flow passes by the towns of Manchenahalli and Gauribindanur enter Hindupur taluk of Ananthpur district and turning eastwards passes through Cuddapah and Nellore district of Andhra Pradesh and falls into the Bay of Bengal near Nellore.

The length of the river is about 34 miles along the course in the state and it drains an area of 325 miles. The Jakkalanadurga tank (Silt Reservoir) and Srinivasa sagar are the two important dams on the river.

Papaghni means in Sanskrit 'destroyer of sin' and the name denotes a belief in the purifying efficiency of the water of the river. It rises on the Gundalagurki hills in Chik Ballapur taluk, ten miles north east of Nandi hills and taking a north easterly course, flows through Bagepalli taluk to enter the Madanpalli taluk of Chittor district and joins the North Pinakini near Kamalapur. A tank across this stream near Devaganhalli called Venkatesha sagar, which is a source of irrigation. The length of the river in the state is 42 miles along its course and it drain sufficient amount of area.

The South Pinakini rises on the Chennakeshava hills just north west of Nandi hills in Chik Ballapur taluk of this district and flowing in an easterly direction upto Sidlaghatta and take a south ward turn to enter Devanahalli tank near Balvemahalli it flows in several direction before entering Tamil Nadu to and fall into Bay of Bengal. The length of the river in Kolar district is only 24 miles.

(4) Climate

The district is endowed with an agreeable climate. The year may be divided into four seasons. The dry season with a clear bright weather last from December to February. The period from March to May constitute the hot season. South west Monsoon season last from June to October. November is the month of retreating Monsoon. May is generally the hottest month and December is the coolest month of the year. With the advance of south west Monsoon to the district in early June the temperature decreases and throughout the monsoon season the weather is pleasant.

The Nandi hills which are at a higher elevation than the Kolar Gold Fields enjoy a cooler climate all the year round. The period from March to May is one of the continuous rise in temperature. May is generally the hottest part of the year when the mean daily maximum temperature at 34.2'c at the K.G.F. with the advance of the south-west monsoon into the district in early June the temperature decreases and throughout the monsoon season the whether is pleasant. During the November both day and night temperature begin to drop. December is the coolest part of the year with mean daily maximum temperature at 25.3'c.

(5) Winds

Winds are generally moderate with same increase in force in the monsoon months from May to September winds are generally south westerly to westerly and on some afternoons north westerly. Relative humidities are high in the south west monsoon season in November and moderate during last of the year.

In October winds from the north-west or east also blow and these predominate in the period from November to January. There after there is a gradual clock wise shift to the wind direction, particularly in the mornings. Occasional thunderstorms occur in February and March becoming frequent in April and May. Thunderstorms occurs in monsoon season also, the frequency being higher in September and October. Occasional fog occurs in the cold season.

(6) Rainfall pattern

The District falls under eastern dry agro climatic zones of the state. All the taluks of Kolar district i.e., Bagepalli, Bangarapet, Chik Ballapur, Chintamani, Gauribidanur, Gudibanda, Kolar, Malur, Mulbagal, Sidlaghatta and Srinivaspur falls under eastern dry zone.

The average Rainfall in the district ranges from 699 mm in Bagepalli taluk to 806 mm in Chik Ballapur taluk. The rainfall decreases from south eastern part of the district towards northern part. The northern part of Gauribidanur and Bagepalli taluks receives the lowest rainfall.

Among the taluks in the district the premonsoon rainfall contributes 17 to 22 per cent of the annual rainfall, southwest monsoon contributes 47 to 56 per cent and northeast monsoon contributes 27 to 33 per cent of the annual rainfall.

The coefficient of variation ranges from 42 to 56 per cent for the premonsoon season, the highest variability (56 per cent) being in Gudibanda taluk.

The coefficient of variation for southwest monsoon ranges from 33 to 42 per cent, the highest being in Kolar taluk. The coefficient of variation for northeast monsoon ranges from 45 to 59 per cent, the highest being for Bagepalli taluk.

The coefficient of variation for Annual rainfall ranges from 26 to 33 per cent. The taluk of Chik Ballapur experiences high variability of rainfall.

A study of the rainfall deficit pattern during the last 20 years compared with the long term data for different seasons indicate increase in rainfall deficiency in the recent past during the premonsoon and northeast monsoon period. Rainfall deficit during last 20 years has been compared with that of long term data in different seasons and is presented in below.

TALUKWISE AND SEASONWISE COMPARISION OF RAINFALL DEFICIT DURING LAST 20 YEARS WITH 99 YEARS DATA, KOLAR DISTRICT

Taluks	Seasons and no. of years with deficit rainfall							
	Pre Monsoon		Southwest Monsoon		Northeast Monsoon		Annual Rainfall	
	Long term	Recent 20 Yrs.	Long term	Recent 20 Yrs.	Long term	Recent 20 Yrs	Long Term	Recent 20 Yrs.
1	2	3	4	5	6	7	8	9
Bagepalli (98)	41(42)	11(55)	36(37)	8(40)	40(41)	9(45)	23(23)	7(35)
Bangarapet (97)	37(38)	7(35)	31(32)	3(15)	41(42)	7(35)	25(26)	2(10)
Chik Ballapur (99)	42(42)	12(60)	28(28)	4(20)	36(36)	10(50)	26(26)	4(20)
Chintamani (96)	42(44)	9(45)	43(29)	5(25)	50(52)	11(55)	35(36)	8(40)
Gauribidanur (95)	38(40)	9(45)	33(35)	5(25)	44(46)	12(60)	27(28)	5(25)
Gudibanda (97)	46(46)	14(70)	41(41)	10(50)	43(43)	12(60)	34(34)	10(50)
Kolar (99)	38(38)	9(45)	35(35)	4(20)	38(38)	8(40)	31(31)	3(15)
Malur (96)	24(25)	11(55)	34(35)	8(40)	31(32)	6(30)	23(24)	5(25)
Mulbagal 98	42(43)	12(60)	38(39)	7(35)	47(48)	10(50)	35(36)	7(35)
Sidlaghatta (96)	42(44)	14(70)	32(33)	9(45)	40(42)	10(50)	30(31)	5(25)
Srinivaspur (98)	38(39)	8(40)	33(34)	3(15)	40(41)	10(50)	22(22)	4(20)

Note : Figures in bracket indicate values as percentage of number of years for which data is available or for 20 years depending on the column in which it is given

The following inferences could be made.

- The Premonsoon rainfall in the recent 20 years is more deficit compared to the long term data, except Bangarpet taluk.
- Southwest monsoon is less deficit in the recent 20years compared to the long term data with Bagepalli, Gudibanda, Malur and Sidlaghatta taluks as an exception.
- The rainfall deficit during northeast monsoon is increasing during recent 20 years compared to the long term data, excepting Malur and Bangarpet taluk.
- The long time trend analysis of annual rainfall indicates increasing trend in the taluks of Bangarapet, Chik Ballapur, Gauribidanur, Sidlaghatta, Kolar and Srinivaspur. In the taluks of Bagepalli, Chintamani and Gudibanda the trend is decreasing. Malur and Mulbagal taluks do not show significant change in the long time trend.

(7) Forestry

Geographical area of district comprises 779,467 hectares, of which 70,324 hecatres is covered by the forest.

Minerals, Rivers, Forest, Cultivable lands are the main natural resources of the district. Of this above forest resources in the district of Kolar are very meager. Rainfall being scanty the river and streams remain mostly dry for a major part of the year. As a result forest may be said to be devoid of any valuable vegetation. Most of the forest are confined to hilly tracts the intervening plain areas having been brought under the plough. In these tract the soils are either rocky, gravelly or very shallow and are incapable of bearing better types of vegetation especially in view of the low rainfall.

The principal forest products are firewood, Sandal wood and minor forest produce. The minor forest products are Tanning bark, Myrobalans, Tamarind, Sithaphal fruits, Maradi seeds. Intensive efforts are being made for development of the forest wealth with the financial assistance given by the Central Govt. under the successive five year plans.

(8) Geology

The variety of rocks found in the district have been classified into four categories. They are as follows:-

1) Dharwar schists. 2) Gneissic complex 3) Dole rite dykes and 4) Laterite.

The schist belt runs north and south and is composed almost entirely of dark hornblendic schists. The famous gold mines are situated in this Schists belt. The gnesis complex consists of two phases of granite intrusions into the Dharwars. The older phase of granite intrusions are known as Champion Gnesis. The second epoch of intrusion consist of a complex granite and granitic gnesises.

Lateritic masses are irregular. The Dharwar formation is rich in mineral deposits.

(9) Flora and Fauna

Flora : The vegetation is of either the dry deciduous type or of the thorny scrub type. The growing stock is stunted and the vegetation is more or less xerophytic in nature. Owing the heavy working in the past for fire wood and charcoal. Most parts of the forest have lost the characteristics of forest. While the forest belt around Nandi has some Sandal wood. The remaining area are mere scrub jungles interspersed with a few Eucalyptus trees, Honge tree, Tamarind trees, etc.

The important minor forest products are:- (1) Bark of Kakke and avarike plants used in Leather tanning industry (2) Myrobalms (3) Tamarind (4) Sitaphal fruits (5) Maradi seeds (6)Honge leaves and seeds and (7) Tupra leaves.

Fauna : The scrub jungles donot provide much cover for any of the species of wild animals like Tiger, Bison or Elephant. Wild game is practically unknown in the district Bears and Panthers are occasionally met with in the Nandi hills ranges. In the hill slopes and valley several kinds of reptiles are found Cobras being very common.

The district has no preserves or sanctuaries.

(10) Soils

The soil of Kolar district is mainly divided into three types such as red, clay loam and laterite. The red loam region extends from south to north comprising Chik Ballapur major parts of the Sidlaghatta, Kolar, Malur and some parts of Bangarapet and Mulbagal taluks. The red loam soil is very easy for cultivation purposes and responds to good manure and other treatment. This soil is particularly suited for growing vegetable crops like Potatoes, Onions, Cabbages and Radishes. Clay loam soil is found in the taluks of Gauribidanur, Chik Ballapur and parts of Sidlaghatta and Bagepalli. These soils have good moisture retentive capacity and allow deep furrowing. This soil is suitable for raising Paddy, Sugar cane, Chillies and Tobacco.

(11) Cropping pattern

Ragi and Paddy are the major crops of the district besides Maize, Ground nut and Oil seeds. As per 2001 Census, there are 36.7 per cent cultivators and 27.4 per cent agricultural labourers.

Source: District at a Glance, 1999-2000 Kolar District, Directorate of Economics & Statistics, Bangalore

The landholdings for the year 1997-98 of different size are given in the above table. The size of the agricultural holdings is one of the important factors that determine the productivity of the land. From the above table it is observed that the number of marginal holdings below one hectare and small holdings are high. Only 2,438 holders own land more than ten hectares.

As stated earlier, paddy, ragi and maize are the major cereal crops grown in the district. Groundnut, sunflower, niger seed are the other oil seeds crop grown in the district. Among the commercial crops mention may be made of sugar cane and cotton, though cotton is grown at small scale level, a very nominal area of 30 hectares of land is put under

cultivation of cotton. Sufficient and considerable amount of land is put under plantation and horticultural crops. The chief crops grown are potato, onion, tomato, mango, cashewnut, grapes.

The other condiments and spices produced in the district are dry chillies, areacanut, coriandar and galinc, etc. The yield of paddy under irrigated land per hectare is 4,450 kg. it is 2,159 kgs per hectates under unirrigated condition. The Ragi per hectare, is 2,880 kgs under irrigated conditions where as it is 1,828 kgs per hectare under unirrigated condition.

(12) Irrigation

Scanty rainfall and the uncertainty of a well distributed rainfall highlight the importance of irrigation. There are no perennial rivers nor big water storages. Hence, Irrigation by tanks and wells is a characteristic feature of the district in the matter of exploitation of under ground water resources. Kolar district has earned an important place among the district in the state. Tanks and wells are the chief source of irrigation in the district. The district has offered immense potentialities for constructing tanks because of its peculiar river system. These advantageous features have already been adequately exploited as well for it is evident that in Kolar district the tank system is very well established. Most of the tanks are found in series are emptying into the other. Large number of tanks are constructed on a connected system of streams and their feeders which are many. Most of the well in the district are fitted with electric pump set in addition there are also yathas and piccotas which are operated manually. With no major or perennial river coursing through the district there is no scope of any major irrigation project.

The table below gives a detailed picture on net area irrigated by different sources for the year 1998-99.

NET AREA IRRIGATED BY DIFFERENT SOURCES

Name of Taluk	Net area irrigated for 1998-99 (Area in hectares)						
	Canal	Tank	Wells	Lift Irrigation	Bore Wells	Other sources	Total
1	2	3	4	5	6	7	8

Source: District at a Glance, 1999-2000, Directorate of Economics & Statistics, Bangalore

As per the statistics given in the above table, a considerable proportion of cropped area is being irrigated through wells in the district. It accounts for 29.57 per cent of the total irrigated area. An area of 15,024 hectares are being irrigated by tanks, of which a major proportion of them is in Kolar taluk. Maximum 52.00 per cent of the area in the district is irrigated through bore wells.

(Ref : Irrigation in Karnataka, 2001-2002, Government of Karnataka, Irrigation Department).

(13) Natural Wealth

Besides rivers, forests and cultivable land, ninerals are also one of the important natural resources of the district. The important minerals of the district are gold, graphite clay, sillimanite, kaolin, lime stone, feldspar ochre, lime kankar, garnet and corundum is the district gold recurs chiefly in quartz which in turn occurs as veins and lenses in schists.

The taluk-wise mineral resources for the district is presented in the following table:

TALUK WISE MINERAL RESOURCES OF THE DISTRICT

Sl.No.	Name of Taluk	Type of Mineral		Remarks
		Major	Minor	
1	2	3	4	5
1	Bagepalli	-	Building Stone	-
2	Bangarapet	Gold, Silver, Corundum, Graphite	Ornamental Stone Building Stone Oridnary Sand	M/s. BGML is under closure.

(14) Animal Husbandry

Animal husbandry has all along been an indispensable complimentary activity to agriculture. Development of agriculture depends to a large extent on the available livestock. As a once the possession of a pair of Bullocks, a few cows or buffaloes and a few calves is a must for any cultivation vital agricultural operations like ploughing, sowing, threshing of grains and conveyance of produce from place to place are depended on the drought power provided by the bullocks. Buffalo and cow are the chief source of milk and manure. Quite a large number of small and marginal farmers keep a small and marginal farmers keep a small number of sheep and goats. Poultry keeping is quite popular throughout this district. Piggery is also practiced by a few. Intensive poultry development blocks has been functioning in Kolar town for the propagation of improved breeds like Rhode Island Red. Poultry keeping is quite popular through out the district, both in rural as well as urban areas.

According to Live stock census 1997, Provisional figures the total Live stock population in the district is which includes cattle, buffaloes,

sheep, goat, pigs, rabbits, dogs and others is 1,732,903. The total poultry stock is 996,367.

The following table shows the distribution of various type of live stock in the district for the year 1997.

DISTRIBUTION OF LIVESTOCK POPULATION IN THE DISTRICT

Sl. No.	Name of Livestock	Total Livestock
1	2	3
1	Cattle	531,782
2	Buffaloes	147,602
3	Sheep	725,182
4	Goats	157,771
5	Pigs	29,000
6	Rabbits	13,855
7	Dogs	126,948
8	Others	763
	Total livestock	**1,732,903**
	Total poultry	**996,367**

Source: Karnataka at a Glance 2000-2001, Directorate of Economics and Statistics, Govt. of Karnataka

(14A) Veterinary Services

The spread of Veterinary Services has resulted in overall improvement of animal health in all Kolar district has 191 Veterinary Institutions, catering to the needs of the live stock population in the district for the year 2000. The below furnished table gives a detailed picture of different kinds of veterinary institutions for the year 2000 in the district.

VETERINARY INSTITUTIONS IN THE DISTRICT FOR THE YEAR 2000

Sl. No.	Veterinary Services	No. of Institutions
1	2	3
1	Veterinary Hospital	21
2	Veterinary Dispensary	52
3	Primary Veterinary Centres	74
4	Mobile Dispensary	11
5	Artificial Insemination Centre	33
	Total	**191**

Source: Karnataka at a Glance 2000-2001, Directorate of Economics and Statistics, Govt. of Karnataka

(15) Fisheries

From the point view of fishery resources there is nothing to mention extra-ordinary about the district. The district has no coast also. However in view of the large number of tanks both major and minor. There is an ample scope for rearing fish in the tanks. The department of Fisheries are setting up fish farms to rear fish seeds and produce fish to meet the increasing demand. The fisheries department has introduced a system of auctioning fishery rights to all major tanks and issue licenses for fishing in reservoirs and big tanks like Ramasagar tank Markandeya reservoir, Kamasandra tank etc.

FISHING ACTIVITY IN THE DISTRICT

Fish Seed Stocked	In lakh fingerlings
a) Reservoirs	-
b) Major Tanks	-
c) Minor Tanks	1.68
Total	**1.68**
Estimated Fish Production	**In MTs**
a) Cultured	217.7
b) Natural	1,490.05
Total	**1,707.75**

Source: Statistical Bulletin of Fisheries 1998-99, Directorate of Fisheries, Government of Karnataka

The district has a fishermen population of 89,300 out of which 7140 are active fishermen, the district can be placed in 10th rank. There is only one fishery co-operative society in the district. The below given table highlights in brief the fishing activity in the district.

(16) Industries

Industrially, Kolar may be considered as a developed district. Bharat Gold Mines Ltd. and the Bharat Earth Movers Ltd. are the two major industrial establishment in the district and both are located in Kolar Gold Fields. Gauribidnur town has a Co-operative Sugar factory. Apart from the above, there are industrial estates at Kolar, Chik Ballapur, Chintamani and Kolar Gold Fields. Sericulture also are of the important industries of the district. The district is renowned for its sericulture industry which besides, providing work to a large number of people is also of considerable importance in the economy of the district. Silk, the queen of textiles it comes out of nature's laboratory untouched by human hand.

There are only seven factories in the district giving employment to 380 persons.

The table below gives details of major factories for the year 1998-99.

TALUKWISE DETAILS OF MAJOR FACTORIES FOR THE YEAR 1998-99

Name of Taluk	Number of Factories in the District					No. Employed

(17) Trade and Commerce

Trade and Commerce have an important place in the economy of the district. All the taluk Headquarter and other town in the district are functioning as trading and commercial centres of varying importance and are having a number of permanent shop dealing in a variety of goods. Chintamani, Chik Ballapur and Bangarapet are the chief trading centres. All the towns of the district have commercial banks. In each taluk headquarter there are branches of District Co-operative Central Bank and Land Development Bank. In addition to the above there are Credit Co-operative Societies to meet the financial needs of the agriculturist. There are also RMC which are functioning it the taluk headquarters to regulate the sale of agricultural produce by the famous and to prevent malpractice by the middle man.

As on 31.3.99 there are 119 Commercial Banks in the district in addition to this there are 65 Gramina Bank. There are 2 Urban Co-operative bank for the district each at Chintamani and Kolar respectively. Every taluk in the district has a primary land development Bank at the taluk headquarters as such there are eleven primary land development Bank in the district.

The table below gives the taluk-wise details of banks in the district.

TALUKWISE DETAILS OF BANKS IN THE DISTRICT

Name of Taluk	Number of Banks as on 31.03.1999				
	Commercial Banks	Regional Rural Banks	Urban Co-op Banks	Other Co-op Banks	Primary Land Development Bank

(18) Transport and Communication

Kolar district has a good network of roads. The starting of mining operations for gold at Kolar Gold Fields decades ago provided the necessary impetus for the gradual and planned development of good motorable Roads and Railways in the district. The district has Railway Communication facilities in an ample measure. The district had all the three type of railway lines,viz. Broad gauge, Metre gauge and Narrow gauge has been converted into Broad gauge. Now we find only two categories railway line, such as broad gauge and narrow gauge. As on 31.3.99 the Rail length of the district is as follows: Broad gauge 102 kms and narrow gauge 96 kms. The details of various facilities available under transport and communication for the year 1998-99 are given in the following table.

DETAILS OF RAILWAY TRANSPORT IN THE DISTRICT AS ON 31.3.1999

Name of Taluk	Length of Railway Line in kms.				Railway Stations
	Broad Gauge	Meter Gauge	Narrow Gauge	Total	
1	2	3	4	5	6

The district has 422 post offices, 183 telegraph offices, 115 telephone exchanges and a good number of telephone connections. Most of the houses enjoys telephone connections enabling communication to far away places. Besides this mobile service operators of various companies have set up their sales and service station in the district.

The table above shows talukwise details of post offices, telephone offices, etc., in the district.

(19) Electricity and Power

Karnataka has a place of pride in the history of power generation in the country. KPTCL – Karnataka Power Transmission Corporation Limited (erstwhile KEB) is mainly vested with the functions of transmission and distribution of power in the entire state. The Corporation has been attaching great importance to electrification of villages and hamlets, tribal colonies and harijan basthis and energisation of irrigation pumpsets. Besides, this with a view to benefit weakest among the section of society schemes called Bhagya Jyothi / Kutir Jyothi have been introduced.

Statement gives below shows talukwise number of villages electrified and talukwise energisation of IP as on 31.3.1999 in Kolar District.

TALUKWISE NUMBER OF VILLAGES ELECTRIFIED AND ENERGISED IRRIGATION PUMP SETS AS ON 31.3.1999

(v) CENSUS CONCEPT

Building

A 'Building' is generally a single structure on the ground. Sometimes it is made up of more than one component unit which are used or likely to be used as dwellings (residences) or establishments such as shops, business houses, offices, factories, workshops, worksheds, Schools, places of entertainment, places of worship, godowns, stores etc. It is also possible that building which have component units may be used for a combination of purposes such as shop-cum-residence, workshop-cum-residence, office-cum-residence, etc.

Usually a structure will have four walls and a roof. But in some areas the very nature of construction of houses is such that there may not be any wall. Such is the case of conical structures where entrance is also provided but they may not have any walls. Therefore, such of the conical structures are also treated as separate buildings.

Permanent houses

Houses, the walls and roof of which are made of permanent materials. The material of walls can be any one from the following, namely, galvanized iron sheets or other metal sheets, asbestos sheets, burnt bricks, stones or concrete. Roof may be made of from any one of the following materials, namely, tiles, slate, galvanized iron sheets, metal sheets, asbestos sheets, bricks, stones or concrete.

Semi-permanent houses

Houses in which either the wall or the roof is made of permanent material and the other is made of temporary material.

Temporary houses

Houses in which both walls and roof are made of materials, which have to be replaced frequently. Walls may be made from any one of the following temporary materials, namely, grass, thatch, bamboo, plastic, polythene, mud, unburnt bricks or wood. Roof may be made from any one of the following temporary materials, namely, grass, thatch, bamboo, wood, mud, plastic or polythene.

Dwelling Room

A room is treated as a dwelling room if it has walls with a doorway and a roof and should be wide and long enough for a person to sleep in, i.e. it should have a length of not less than 2 meters and a breadth of at least 1.5 meters and a height of 2 meters. A dwelling room would include living room, bedroom, dining room, drawing room, study room, servant's room and other habitable rooms. Kitchen, bathroom, latrine, store room, passage-way and verandah which are not normally usable for living are not considered as dwelling rooms. A room, used for multipurpose such as sleeping, sitting, dining, storing, cooking, etc., is regarded as a dwelling room. In a situation where a census house is used as a shop or office., etc., and the household also stays in it then the room is not considered as a dwelling room. But if a garage or servant quarter is used by a servant and if she/ he also lives in it as a separate household then this has been considered as a dwelling room available to the servant's household. Tent or conical shaped hut if used for living by any household is also considered as dwelling room.

A dwelling room, which is shared by more than one household, has not been counted for any of them. If two households have a dwelling room each but in addition also share a common dwelling room, then the common room has not been counted for either of the households.

Census House

A 'census house' is a building or part of a building used or recognised as a separate unit because of having a separate main entrance from the road or common courtyard or staircase, etc. It may be occupied or vacant. It may be used for residential or non residential purpose or both.

In certain peculiar situations, the manner in which buildings and census houses were identified for numbering in the field by the enumerators is described hereunder:

Sometimes a series of different buildings are found along a street which are joined with one another by common walls on either side looking like a continuous structure. These different units are practically independent of one another and are likely to have been built at different times and owned by different persons. In such cases, though the whole structure with all the adjoining units apparently appears to be one building, each portion was treated as a separate building and its constituent units as separate census houses.

On the other hand, one may come across cases, particularly in large cities of multistoreyed ownership flats. In these cases while the structure looks like one building, different persons own the flats. In case of such multistoreyed structures, having a number of flats owned by different persons, the entire structure was treated as one building and each flat as a separate census house.

If within a large enclosed area, there are separate buildings owned by different persons then each such building is treated as a separate building. There can be a situation where within an enclosed compound there are separate buildings owned by an undertaking or company or even government that are actually in occupation of different persons. For example, Indian Oil Corporation colony where the buildings are owned by the Corporation but these are in occupation of their employees. Each such building was treated as a separate building. But if in any one of these buildings there were flats in occupation of different households, each such flat was reckoned as a separate census house.

Sometimes it becomes difficult to apply the definition of census house strictly in certain cases. For example, in an urban area, if a flat has five rooms, each room having direct entrance from the common staircase or courtyard, by definition, this has to be treated as five census houses. If all these five rooms are occupied by a single household it was not realistic to treat them as five census houses. In such a case,'singleness' of use of these rooms along with the main house should be considered and the entire flat was treated as one census house. On the other hand, if two independent households occupy these

five rooms, the first household living in 3 rooms and the second household occupying 2 rooms, then considering the use, the first three rooms together were treated as one census house and the remaining rooms as another census house. But if each room was occupied by an independent household, then each such room was treated as a separate census house.

In case of hostels, hotels, etc., even if the door of each room in which an inmate lives opens to a common verandah, staircase, courtyard or a common room, as it happens almost invariably, the entire hostel/ Hotel building was treated as one census house. But if such hostels/ hotels have out houses or other structures used for different purposes or the same purpose, then each such structure attached to the main hostel / hotel was treated as a separate census house.

In some parts of the country, in rural areas, the pattern of habitation is such that a group of huts, located in a compound, whether enclosed or unenclosed, is occupied by one household. While the main residence may be located in one hut, other huts may be used for sleeping, as a kitchen, bath room, baithak, etc. Though each of the huts was a separate structure, they form a single housing unit and therefore, have to be treated collectively as one building and one census house. If some of the huts are used by one household and the others by a second household as residence, then the two groups of huts were treated as separate census houses. However, if there were also other huts in the compound used for other purposes and not as part of the household's residence such as, cattle shed, workshed, etc., these were treated as separate census houses.

On the other hand, in urban areas, where more than one structure within an enclosed or open compound (premises) belonging to the same person, e.g., the main house, the servant's quarter, the garage, etc., only one building number was given for this group and each of the constituent a separate census house number.

Only cases where a structure with roof and pillars has come up was treated as a building.

Village

The basic unit for rural areas is the revenue village which has definite surveyed boundaries. The revenue village may comprise of one or more hamlets but the entire village is treated as one unit for presentation of data. In unsurveyed areas, like villages within forest areas, each habitation area with locally recognized boundaries is treated as one village.

Rural-Urban area

The data in tables on Houses, Household Amenities and Assets are presented separately for rural and urban areas. The unit of classification in this regard is 'town' for urban areas and 'village' for rural areas. In the Census of India 2001, the definition of urban area adopted is as follows:

a) All places with a municipality, corporation, cantonment board or notified town area committee, etc.

b) A place satisfying the following three criteria simultaneously:

i) A minimum population of 5,000;

ii) at least 75 per cent of male working population engaged in non-agricultural pursuits; and

iii) a density of population of at least 400 per sq. km.(1,000 per sq.mile)

For identification of places which would qualify to be classified as 'urban' all villages, which, as per the 1991 Census had a population of 4,000 and above, a population density of 400 persons per sq. km. and having at least 75 per cent of male working population engaged in nonagricultural activity were considered. To work out the proportion of male working population referred to above against b) (ii), the data relating to main workers were taken into account.

Apart from these, the outgrowths (OGs) of cities and towns have also been treated as urban under 'Urban Agglomerations'. Examples of outgrowths are railway colonies, university campuses, port areas, military camps, etc., that may have come up near a statutory town or city but within the revenue limits of a village or villages contiguous to the town or city. Each such individual area by itself may not satisfy the demographic criteria laid down at (b) above to qualify it to be treated as an independent urban unit but may deserve to be clubbed with the towns as a continuous urban spread. Thus, the town level data, wherever presented, also includes the data for outgrowths of such towns.

City

Towns with population of 100,000 and above are called cities.

Urban Agglomeration

An Urban Agglomeration is a continuous urban spread constituting a town and its adjoining urban outgrowths (OGs) or two or more physically contiguous towns together and any adjoining urban outgrowths of such towns. In some cases railway colonies, university campuses, port areas, etc., may come up near a city or statutory town outside its statutory limits but within the revenue limits of a village or villages contiguous to the town or city. Each such individual area by itself may not satisfy the minimum population limit to qualify it to be treated as an independent urban unit but may deserve to be clubbed with the town as a continuous urban spread.

For the purpose of delineation of Urban Agglomerations during Census of India 2001, following criteria are taken as pre-requisites:

(a) The core town or at least one of the constituent towns of an urban agglomeration should necessarily be a statutory town ; and

(b) The total population of all the constituents (i.e., towns and outgrowths) of an Urban Agglomeration should not be less than 20,000 (as per the 1991 Census).

With these two basic criteria having been met, the following are the possible different situations in which Urban Agglomerations would be constituted:

i) a city or town with one or more contiguous outgrowths;

ii) two or more adjoining towns with their outgrowths; and

iii) a city and one or more adjoining towns with their outgrowths all of which form a continuous spread.

Household

A 'household' is usually a group of persons who normally live together and take their meals from a common kitchen unless the exigencies of work prevent any of them from doing so. Persons in a household may be related or unrelated or a mix of both. However, if a group of unrelated persons live in a census house but do not take their meals from the common kitchen, then they are not constituent of a common household. Each such person was to be treated as a separate household. The important link in finding out whether it was a household or not was a common kitchen. There may be one member households, two member households or multimember households.

Institutional Household

A group of unrelated persons who live in an institution and take their meals from a common kitchen is called an Institutional Household. Examples of Institutional Households are boarding houses, messes, hostels, hotels, rescue homes, jails, ashrams, orphanages, etc. To make the definition more clearly perceptible to the enumerators at the Census 2001, it was specifically mentioned that this category of households would cover only those households where a group of unrelated persons live in an institution and share a common kitchen.

Houseless Household

Households who do not live in buildings or census houses but live in the open on roadside, pavements, in hume pipes, under flyovers and staircases, or in the open in places of worship, mantaps, railway platforms, etc., are treated as Houseless Households.

Scheduled Castes and Scheduled Tribes

Article 341 of the Constitution provides that the President may, with respect to any State or Union territory, specify the castes, races or tribes or parts of or groups within castes, races or tribes which shall for the purposes of the Constitution be deemed to be Scheduled Castes in relation to that State or Union territory. Article 342 similarly provides for specification of tribes or tribal communities or parts of or groups within tribes or tribal communities which are to be deemed for the purposes of the Constitution to be Scheduled Tribes in relation to the various States and Union territories. In pursuance of these provisions, the list of Scheduled Castes and / or Scheduled Tribes are notified for each State and Union territory and are valid only within the jurisdiction of that State or Union territory and not outside.

It is important to mention here that under the Constitution (Scheduled Castes) Order, 1950, no person who professed a religion different from Hinduism was deemed to be a member of a Scheduled Castes in addition to every member of the Ramdasi, Kabirpanthi, Majhabi or Sikligar caste resident in Punjab or Patiala and East Punjab States Union were in relation to that State whether they professed the Hindu or the Sikh religion. Subsequently,

in September 1956, by an amendment, the Presidential Order of 1950 and in all subsequent Presidential Orders relating to Scheduled Castes, the Hindu and the Sikh religions were placed on the same footing with regard to the specification of Scheduled Castes. Later on, as per the amendment made in the Constitution (Scheduled Castes) Order 1990, the Hindu, the Sikh and the Buddhist were placed on the same footing with regard to the recognition of the Scheduled Castes.

The list of Scheduled Castes and Scheduled Tribes are notified for each State and Union Territory and are valid only within the jurisdiction of that State or Union Territory and not outside. In respect of Karnataka State the Scheduled Castes and Scheduled Tribes as contained in the Scheduled Castes & Scheduled Tribes Orders (Amendment) Act, 1976 are valid for the purpose of Census of India, 2001. With the promulgation of Act 39 of 1991 however, the sub entries Naik, Nayak, Beda, Bedar and Valmiki were added under the main entry at S.No. 38 (Naikda, Nayaka, …..) of the Scheduled Tribes list of the State. There are in all 101 Scheduled Castes and 49 Scheduled Tribes in the State which are listed below:

The lists containing the names of the Scheduled Castes and the Scheduled Tribes applicable for the Census of India 2001 in the State/ Union territory are given below:

List of Scheduled Castes

1 Adi Andhra
2 Adi Dravida
3 Adi Karnataka
4 Adiya (in Coorg district)

49 Yerava

Language and Mother tongue

As per the Census concept, each language is a group of mother tongues. The census questionnaire collects information on the mother tongue of each person and mother tongue is defined as the language spoken in childhood by the person's mother to the person. If the mother died in infancy, the language mainly spoken in the person's home in childhood will be the mother tongue. In the case of infants and deaf mutes, the language usually spoken by the mother is considered as mother tongue. It is not necessary that the language spoken as mother tongue should have a script. The mother tongues returned by the respondents in census are classified and grouped under appropriate languages according to their linguistic characteristics.

Literate

A person aged 7 years and above who can both read and write with understanding in any language is taken as literate. A person who can only read but cannot write is not literate. It is not necessary that to be considered as literate, a person should have received any formal education or passed any minimum educational standard. Literacy could also have been achieved through adult literacy classes or through any non-formal educational system. People who are blind and can read in Braille are treated as literates.

Literacy rate

Literacy rate of the population is defined as the percentage of literates in the age group seven years and above. For different age groups the percentage of literates in that age group gives the literacy rate.

Educational level

The highest level of education a person has completed.

Work

Work is defined as participation in any economically productive activity with or without compensation, wages or profit. Such participation may be physical and/or mental in nature. Work involves not only actual work but also includes effective supervision and direction of work. It even includes part time help or unpaid work on farm, family enterprise or in any other economic activity. All persons engaged in 'work' as defined above are workers. Persons who are engaged in cultivation or milk production even solely for domestic consumption are also treated as workers.

Reference period for determining a person as worker and non-worker is one year preceding the date of enumeration.

Main worker

A person who has worked for major part of the reference period (i.e. six months or more during the last one year preceding the date of enumeration) in any economically productive activity is termed as 'Main worker' .

Marginal worker

A person who worked for less than six months of the reference period (i.e. in the last one year preceding the date of enumeration) in any economic activity is termed as 'Marginal worker'.

Non-worker

A person who has not worked at all in any economically productive activity during the reference period (i.e. last one year preceding the date of enumeration) is termed as 'Non worker'.

Cultivator

For purposes of the Census a person is classified as cultivator if she or he is engaged in cultivation on land owned or held from government or held from private persons or institutions for payment in money, kind or share. Cultivation includes effective supervision or direction in cultivation.

A person who has given out her/his land to another person or persons or institution(s) for cultivation for money, kind or share of crop and who does not even supervise or direct cultivation in exchange of land, is not treated as cultivator. Similarly, a person working on another person's land for wages in cash or kind or a combination of both (agricultural labourer) is not treated as cultivator.

Cultivation involves ploughing, sowing, harvesting and production of cereals and millet crops such as wheat, paddy, jowar, bajra, ragi, etc., and other crops such as sugarcane, tobacco, groundnuts, tapioca, etc., and pulses, raw jute and kindred fiber crop, cotton, cinchona and other medicinal plants, fruit growing, vegetable growing or keeping orchards or groves, etc. Cultivation does not include the following plantation

crops – tea, coffee, rubber, coconut and betelnuts (areca).

Agricultural labourer

A person who works on another person's land for wages in cash or kind or share is regarded as an agricultural labourer. She/he has no risk in the cultivation, but merely works on another person's land for wages. An agricultural labourer has no right of lease or contract on land on which she/he works.

Household industry worker

Household industry is defined as an industry conducted by the head of the household herself/himself and or by the members of the household at home or within the village in rural areas and only within the precincts of the house where the household lives in urban areas. The larger proportion of workers in household industry should consist of members of the household including the head. The industry should not be run on the scale of a registered factory which would qualify or has to be registered under the Indian Factories Act and should be engaged in manufacturing, processing, servicing and repairs of goods. A person who has been engaged in the economic activity like above is termed as Household Industry Worker.

It does not include professions such as a pleader, Doctor, Musician, Dancer, Waterman, Astrologer, Dhobi, Barber, etc. or merely trade or business, even if such professions, trade or services are run at home by members of the household.

Other worker

A person who has been engaged in some economic activity during the reference period but not as a cultivator or agricultural labourer or in Household Industry is termed as an 'Other Worker (OW)'. The type of workers that come under this category of 'OW' include all government servants, municipal employees, teachers, factory workers, plantation workers, those engaged in trade, commerce, business, transport, banking, mining, construction, political or social work, priests, entertainment artists, etc. In effect, all those workers other than cultivators or agricultural labourers or household industry workers, are 'Other Workers'.

Work participation rate

Percentage of workers (main + marginal) to total population.

Population density

Population density is the number of persons inhabited per square kilometer of the area.

Age

Age is measured in terms of the completed number of years.

Sex ratio

Number of females per 1000 males in a population.

(vi) NON-CENSUS CONCEPTS

Improved drinking water

If the household had access to drinking water supplied from a tap, hand pump, tube well or well (protected or covered) situated within or outside the premises, it is considered as having access to improved drinking water.

It may be mentioned that such uniform definition may not be valid across all states.

System of sewerage

Generally, a sewerage system would mean a network of mains and branches of underground conduits for the conveyance of sewerage to the point of disposal. Sewers that carry only household and industrial wastage are called separate sewers; those that carry storm water from roofs, streets and other surfaces are known as storm water drains, while those carrying both sewage and storm water are called combined sewers. However, in some towns which are not provided with such underground sewerage system, it is served by open surface drain, box drain, sylk pattern drain, etc., in these towns.

Type of latrine and Method of disposal of night soil

There are three prevalent systems of disposal of human wastes, viz.(i) underground sewerage, (ii) sanitary water flush latrines with individual disposal systems, like septic tank, leaching cess pool and collecting well, and (iii) dry type of latrines with manual scavenging.

The system of underground sewerage provides for the street sewerage with which are connected the sanitary latrines constructed in the houses having water closets and fitted with flushing cistern (or hand flushing). Through this sewer the faecal matter is transported without the need for scavenging. This system generally exists in cities and big towns.

Where the streets sewer does not exist these sanitary water flush latrines are connected to a local septic tank with a subsoil dispersion system or a leaching pit. Here the liquid wastes from the water closet is disposed of locally in leaching pit, a septic tank with a soil dispersion system is constructed. This dispersion requires an optimum travel through the pores of the soil which renders the harmful liquid bacterially innocuous by the slow process of filtration through the soil traversed.

Where the soil is impermeable, collecting wells are constructed and the sanitary water flush latrines are connected with them. These wells are cleaned at periodic intervals by a suitable device. The dry type of latrines are of service type latrines from where human excreta is removed by scavengers from house to house, in most cases carrying it on their heads or shoulders or in baskets with handle or wheel barrows. These are then collected in bullock carts or trucks or tractors and trolleys for being carried to the dumping grounds.

Fertility

In demography, the word fertility is used in relation to the actual production of children or occurrence of births specially live births. Fertility is a measure of rate at which population adds to itself by births and normally assessed by relating the number of births to a full or part of the population, such as number of married women or number of women of childbearing age. The definitions of the terminology used in computing different fertility rates are mentioned below:

Crude birth rate (CBR)

Ratio of the number of live births in a year to the mid year population, normally expressed per 1,000 population.

$$CBR = \frac{\text{Number of live births during the year}}{\text{Mid –year Population}} \times 1{,}000$$

Crude death rate (CDR)

Ratio of the number of deaths in a year to the mid year population, normally expressed per 1,000 population.

$$CDR = \frac{\text{Number of deaths during the year}}{\text{Mid year Population}} \times 1{,}000$$

Natural growth rate

Growth rate is obtained as the difference between crude birth rate and crude death rate in the absence of migration.

Age specific fertility rate (ASFR)

Number of live births in a year to female population in any specified age group normally expressed per 1,000 women.

$$ASFR = \frac{\text{Number of live births in a particular age group}}{\text{Midyear female population of the same age group}} \times 1{,}000$$

Age specific marital fertility rate (ASMFR)

Number of live births in a year to married female population in any specified age group normally expressed per 1,000 married women.

$$ASMFR = \frac{\text{Number of live births in a particular age group}}{\text{Midyear married female population of the same age group}} \times 1{,}000$$

General fertility rate (GFR)

Number of live births per 1,000 women in the reproductive age-group (15-49) years in a given year.

$$GFR = \frac{\text{Number of live births in a year}}{\text{Midyear female population in the age-group (15-49) years}} \times 1{,}000$$

General marital fertility rate (GMFR)

Number of live births per 1,000 married women in reproductive age-group (15-49) years in a given year.

$$GMFR = \frac{\text{Number of live births in a year}}{\text{Midyear married female population in the age-group (15-49) years.}} \times 1{,}000$$

Total fertility rate (TFR)

It is obtained as the total of the age specific fertility rates (number of children born per woman of the particular age) for the entire reproductive age span. It provides the average number of children that will be born to a woman under the fertility levels indicated by the age specific fertility rates assuming that there is no mortality of women till the completion of reproductive period.

$$TFR = \frac{5 \times \sum_{15\text{-}19}^{45\text{-}49} ASFR}{1{,}000}$$

Total marital fertility rate (TMFR)

Average number of children that would be born to a married woman if she experiences the current fertility pattern throughout her reproductive span (15-49) years assuming that there is no mortality of women till the completion of reproductive period.

$$TMFR = \frac{5 \times \sum_{15\text{-}19}^{45\text{-}49} ASMFR}{1{,}000}$$

Age specific mortality rate (ASMR)

Number of deaths in a particular age and sex group per 1,000 population of the same age group.

$$ASMR = \frac{\text{Number of deaths in a particular age group}}{\text{Midyear population of the same age group}} \times 1{,}000$$

q_1

Probability of dying between birth and age 1. This can be used as approximate value of Infant Mortality Rate (IMR) which gives the ratio of number of deaths in a year of children aged less than one year to the number of births in that year.

q_2

Probability of dying between birth and age 2.

q_5

Probability of dying between birth and age 5. This indicator is also known as Under Five Mortality Rate (U_5MR)

Infant mortality rate (IMR)

Ratio of the number of infant deaths (deaths of children below one year) in a year to the number of live births in that year.

$$IMR = \frac{\text{Number of infant deaths during the year}}{\text{Number of live births during the year}} \times 1{,}000$$

Infant mortality rate comprises of two parts, viz., Neonatal mortality rate and Post neonatal mortality rate. The neonatal mortality rate also comprises of two parts viz., early neonatal mortality rate and late neonatal mortality rate. These are defined as:

Neo-natal mortality rate (NMR)

Number of infants dying within the first month of life (28 days or under) in a year per 1,000 live births of the same year.

$$NMR = \frac{\text{Number of infant deaths aged 28 days or under during the year}}{\text{Number of live births during the year}} \times 1{,}000$$

Early neo-natal mortality rate

$$= \frac{\text{Number of infant deaths of less than 7 days during the year}}{\text{Number of live births during the year}} \times 1{,}000$$

Late neo-natal mortality rate

$$= \frac{\text{Number of infant deaths of 7 days to less than 29 days during the year}}{\text{Number of live births during the year}} \times 1{,}000$$

Post neo-natal mortality rate (PNMR)

$$= \frac{\text{Number of deaths of 29 days to less than one year during the year}}{\text{Number of live births during the year}} \times 1{,}000$$

Perinatal mortality rate (PMR)

Number of stillbirths plus deaths within 1st week of delivery per 1,000 births in a year.

$$PMR = \frac{\text{Number of stillbirths and infant deaths of less than 7 days during the year}}{\text{Number of live births and stillbirths during the year}} \times 1{,}000$$

Still birth rate (SBR)

$$= \frac{\text{Number of stillbirths during the year}}{\text{Number of live births and stillbirths during the year}} \times 1{,}000$$

Maternal mortality rate (MMR)

Number of deaths of women in the age group 15-49 while pregnant or within 42 days of termination of pregnancy from any cause related to pregnancy and child birth per 100,000 live births in a given year.

$$MMR = \frac{\text{Number of maternal deaths to women in the age group 15-49}}{\text{Number of live birth}} \times 100{,}000$$

Eligible couple (Couples per 1,000 population)

Number of currently married females in the age group15-44 years per 1,000 persons of all ages.

Child woman ratio (0-4)

1. Number of children in the age group 0-4 years per 1,000 women in the age group 15-49 years.

Child woman ratio (5-9)

2. Number of children in the age group 5-9 years per 1,000 women in the age group 15-49 years.

Migration

Migration is the third component of population change, the other two being mortality and fertility.

A person is considered as a migrant by place of birth if the place in which he/she is enumerated during the census is other than the place of his/her birth.

Similarly a person is considered as a migrant by place of last residence if the place in which he/she is enumerated during the census is other than his/her place of immediate last residence outside the village or town and not simply in another house or locality in the same village or town.

Certain aspects concerning temporary movement/ migration of people has been explained below as these are important components concerning migration :

i) Migration of persons in search of job is high in the country. In many cases such migrants are only seasonal in nature. People migrate to other places for work in a particular season and come back again to their usual place of residence after three or four months. All such workers are treated as migrants. Similarly, if a person moved to any other place for attending short term vocational or educational course that lasted for only few months of a year, she/he too were considered as a migrant.

ii) Where a person had merely gone out to another place or had been shifting from one place to another purely on tour, pilgrimage, visit to hospital for treatment or for temporary business purposes, such persons are not deemed to have had another residence different from the place where she/he or her/his family normally resides. She/he is not considered as migrant

iii) A woman temporarily moves into a hospital or to her parents or other relative's house for delivery and if the hospital or the parents/relatives houses is in a place different from usual place of residence, the place where the hospital or parents/ relative's house is the place of last residence of the child but not of the mother.

A new response category 'Moved after birth' was added in Census of India 2001 in the question on 'reasons for migration' to bring out additional migration patterns. Natural calamities or distress migration as a reason for migration for last residence migrants included in 1991 Census, is covered under category of 'Others'. The reason for migration has been determined as applicable at the time of migration and not in reference to any point of time after that. For example, if a person had moved from the place of her/his last residence for the purpose of education and subsequently at some point of time got employment there only, the reason for migration would be 'education' and not 'work/employment'.

Internal and International migration

The migrational movements are of three types (i) Migration within the state itself with its components (a) Migration within the district of enumeration (intra district migration) (b) Migration from one district of state to another district of state (inter district migration), (ii) Migration from one state to another State of the country (interstate migration), (iii) Migration from one country to another country. The first two streams together constitute internal migration, while the last type of movement is called international migration. The present name of the country, state or district and not the name by which they were known at the time of her/his birth or last residence were recorded.

Rural-Urban components of migration

Rural or Urban status in respect of migrants have been determined as applicable at the time of migration and not with reference to any point of time after that.

The flow of migrants consists of four streams viz. rural to rural, rural to urban, urban to rural and urban to urban.

Civic status of urban units

Civic Status of a town/city is determined on the basis of Civic Administrative authority of the town e.g., Municipal Corporation/ Corporation, Municipal Committee/Municipal council, Municipality etc.

Size class of UA / town

Size class of UA/Town is based on the population size of the UA/City/Town. UAs./Towns with 100,000 and above population are classified as Class I UAs. / towns. These Class I UAs. / towns are now further sub classified in to seven sub classes namely M1 to M7 depending on the population size of UA/City/Town. These are M7 (5,000,000 and above); M6 (2,000,000-4,999,999); M5 (1,000,000-1,999,999); M4 (500,000-999,999); M3(300,000-499,999); M2 (200,000-299,999) & M1 (100,000-199,999). Towns with, 50,000 to 99,999 population are classified as Class II towns, 20,000 to 49,999 population are Class III towns, population with 10,000-19,999 are Class IV towns, population with 5000 and 9,999 are Class V towns and towns with less than 5,000 population are Class VI towns.

Slum area

The Slum Areas (Improvement and Clearance) Act, 1956 which was enacted by the Central Govt. defined slums as a) Areas where buildings are in any respect unfit for human habitation; or b) are by reasons of dilapidation, overcrowding, fault arrangement and design of such buildings, narrowness or faulty arrangement of streets, lack of ventilation, light or sanitation facilities, or any combination of these factors, are detrimental to safety, health or morals.

Mega city

The concept of 'Mega city' is a recent phenomenon in the Urban Sociology and is defined in term of metropolitan city in the form of large size, problem of management of civic amenities and capacity to absorb the relatively high growth of population. Indian Census in 1991 treated the population size of 5 million and above as the cut off point to identify a place as the mega city. Whereas, for the purpose of inclusion in Centrally Sponsored Scheme for Infrastructure Development in Mega cities the Ministry of Urban Affairs and employment, Department of Urban Development adopted the criteria of 4 million and above population as per 1991 Census for Mega Cities. In 2001 Census, cities with 10 millions and above population have been treated as Mega cities.

(vii) 2001 Census Findings – Population, its Distribution:

(a) Distribution of population in Rural-Urban areas:

According to the 2001 Census, the total population of Kolar district is 2,536,069 comprising 1,286,193 males and 1,249,876 females. The population of the district forms 4.8 per cent of the state population and ranks at 6th place among the districts. Out of the total population of the district, about 75.3 per cent lives in rural areas while 24.7 per cent lives in urban areas. Rural population of the district is distributed among 11 taluks and urban population spread over in 12 towns. The total urban population in the district is 625,523 persons comprising 317,940 males and 307,583 females. The total rural population in the district comes to 1,910,546 persons and is composed of 968,253 males and 942,293 females as per 2001 Census. The rural population is distributed in 2,919 inhabited villages and there are 392 un-inhabited villages in the district.

(b) Size-class and Civic Status of towns:

The Statement below gives the position and number of urban units according to size-class of population as per 2001 Census:

SIZE-CLASS AND CIVIC STATUS OF TOWNS

Serial number	Size-Class of town	Name and civic status of town		Urban Population		
				Persons	Males	Females
1	2	3		4	5	6
1	III	Gauribidanur	TMC	30,537	15,572	14,965
2	II	Chik Ballapur	CMC	54,968	27,943	27,025
3	V	Gudibanda	TP	8,807	4,401	4,406
4	III	Bagepalli	TP	20,119	10,435	9,684
5	III	Sidlaghatta	TMC	41,098	21,150	19,948
6	II	Chintamani	CMC	65,493	33,845	31,648

Serial number	Size-Class of town	Name and civic status of town		Urban Population		
				Persons	Males	Females
1	2	3		4	5	6
7	III	Srinivaspur	TP	22,959	11,798	11,161
8	I	Kolar	CMC	113,907	58,060	55,847
9	III	Malur	TMC	27,815	14,167	13,648
10	III	Bangarpet	TMC	38,703	19,678	19,025
11	I	Robertsonpet*	CMC	157,084	78,578	78,506
12	III	Mulbagal	TMC	44,033	22,313	21,720

* It includes OG

Population Growth, Density and Sex-ratio:

Population Growth:

Kolar district witnessed a positive growth rate in each decade with 7.8, 1.6, 7.2, 14.4, 16.1, 14.2, 17.6, 25.6, 16.3 and 14.4 per cent during the period 1901 to 2001. According to the 1991 Census the total population of the district was 2,216,889. There has been net addition of 319,180 persons during 1991-2001. The decadal growth rate of the district comes to 14.4 per cent. The growth rate for the rural and urban areas of the district is 12.4 and 21.0 per cent respectively.

Density:

The population density of Kolar district is 308 persons per Sq. Km. against the state average of 276 persons. At taluk level, the density varies between 183 persons in Bagepalli taluk and 490 persons in Bangarpet taluk. In rural areas it comes to 237 persons per Sq. Km., while in urban areas it comes to 4,169 persons. In urban areas the density of population varies between 2,385 persons in Mulbagal town and 13,761 persons in Gudibanda town.

Sex Ratio:

There are 972 females for every one thousand males in Kolar district. The sex-ratio figures for rural areas and urban areas of the district are 973 and 967 respectively. It is also observed that, the proportion of females in rural areas is higher than that of urban areas. Sex-ratio in the age-group 0-6 comes to 959 girls per 1,000 boys in the district as a whole. In rural areas, this proportion is 963 , while in urban areas the sex-ratio of Child population works out to 949 girls per 1,000 boys.

Work Participation Rate:

The work participation rate is defined as percentage of total workers to total population. According to 2001 Census, the total workers including main and marginal workers constitute 48.7 per cent of total population of the district. Of the total workers, the share of main workers is 82.2 per cent and marginal workers is 17.8 per cent. The remaining 51.3 per cent of population belongs to the category of non-workers.

As per 2001 Census among the main workers male participation rate in the district is 91.0 per cent and corresponding proportion of females is 68.5 per cent. The proportion of female marginal workers is higher than male marginal workers, as the females are attending to one or more economic activities in addition to their household duties to improve the family income. Majority of the workers are engaged in agricultural activities. Of the total 1,235,028 workers in the district, 36.7 per cent of these total workers are categorized as cultivators, 27.4 per cent agricultural labourers, 3.2 per cent in household industries and 32.7 per cent in other services.

Literacy:

A person who can read and write in any language is considered as literate in Census. All children of age below 7 years are treated as illiterate.

As per 2001 Census, Kolar district has reported 1,382,267 persons as literates constituting 62.8 per cent of the total population excluding the population of 0-6 years. The proportion of male and female literacy rates in the district are 73.2 and 52.2 per cent respectively. The literacy rate of males is higher than that of females. The gap in the male-female literacy rate is 21.0 per cent in the district.

The total literacy rates of rural and urban area are 57.1 and 80.3 per cent respectively. The male and female literacy rates in rural areas are 68.9 and 45.0 per cent respectively. In urban areas this rate are 86.2 and 74.3 per cent respectively. The gap in male-female literacy rates in urban areas is 11.9 as against 23.9 in rural areas. It is thus clear that females are better educated in urban areas than their counterparts in rural areas.

(c) Scheduled Castes and Scheduled Tribes Population 2001:

Of the 2,536,069 total population of the district 26.5 per cent of the total population belong to Scheduled Castes and 8.1 per cent to Scheduled Tribes. The percentage of Scheduled Castes constitute 22.7 per cent in rural areas and 77.3 per cent in urban areas. The proportion of Scheduled Tribes are 21.0 and 79.0 in rural and urban areas respectively.

(viii) Brief analysis of PCA data based on inset tables 1 to 36

Following tables, which presents the data on population and amenities available within the district, with a brief notes will provide an overview of the district.

TABLE 1: DECADAL CHANGE IN POPULATION OF TALUKS BY RESIDENCE, 1991-2001

Taluk	Population						Percentage decadal variation 1991-2001			Percentage Urban Population	
	1991			2001							
	Total	Rural	Urban	Total	Rural	Urban	Total	Rural	Urban	1991	2001
1	2	3	4	5	6	7	8	9	10	11	12
Gauribidanur	240,115	208,084	32,031	271,119	240,582	30,537	12.91	15.62	-4.66	13.34	11.26
Chik Ballapur	169,233	122,012	47,221	191,122	136,154	54,968	12.93	11.59	16.41	27.90	28.76
Gudibanda	45,821	38,258	7,563	51,828	43,021	8,807	13.11	12.45	16.45	16.51	16.99
Bagepalli	145,900	133,564	12,336	169,689	149,570	20,119	16.31	11.98	63.09	8.46	11.86
Sidlaghatta	168,251	143,074	25,177	193,965	152,867	41,098	15.28	6.84	63.24	14.96	21.19
Chintamani	235,711	185,317	50,394	271,284	205,791	65,493	15.09	11.05	29.96	21.38	24.14
Srinivaspur	163,196	146,646	16,550	184,721	161,762	22,959	13.19	10.31	38.73	10.14	12.43
Kolar	284,079	200,792	83,287	342,593	228,686	113,907	20.60	13.89	36.76	29.32	33.25
Malur	173,860	152,823	21,037	207,009	179,194	27,815	19.07	17.26	32.22	12.10	13.44
Bangarapet	387,830	201,962	185,868	421,437	225,650	195,787	8.67	11.73	5.34	47.93	46.46
Mulbagal	202,893	167,374	35,519	231,302	187,269	44,033	14.00	11.89	23.97	17.51	19.04
Kolar	**2,216,889**	**1,699,906**	**516,983**	**2,536,069**	**1,910,546**	**625,523**	**14.40**	**12.39**	**20.99**	**23.32**	**24.67**

Decadal variation in population of taluks by residence is indicated in the above table. Data reveals that over all growth of 14.40 per cent has been recorded in the district during the decade. The growth of population in rural areas of the district is 12.39 per cent while in urban areas is 20.99 per cent. Thus, the population of district has grown faster in urban areas. Among the taluks Kolar has registered the highest growth in total population. In urban areas, Sidlaghatta taluk is higher. However in Bangarapet taluk the urban population is indicating a decreasing trend. A negative growth rate is reported from the Gauribidanur urban area.

TABLE 2 : NUMBER AND PERCENTAGE OF INHABITED VILLAGES IN SPECIFIED POPULATION SIZE RANGES WITH THE RELATED POPULATION, 2001

Sl. No.	District / C.D. block	Total number of inhabited villages	Total rural population			Number and percentage of villages	Population less than 200	
			Persons	Males	Females		Males	Females

The above table indicates the number and percentage of inhabited villages with different population size ranges as per 2001 Census. Data reveals that out of 2,919 inhabited villages, highest number of villages (1,002 with 34.4 per cent) is in the population range of 200-499. No village is having a population range of 10,000 and above. 446 villages (16.0 per cent) are having population less than 200. Other details can be observed from the above table.

TABLE 3 : NEW TOWNS, DENOTIFIED, DECLASSIFIED AND MERGED TOWNS

		Name of Town
(a)	New	
	(i) Statutory Town	**- Nil -**
	(ii) Census Town	**- Nil -**
(b)	Denotified	
	(i) Statutory towns of 1991 Census denotified and also did not satisfy the criteria to be treated as Census Towns	**- Nil -**
	(ii)Statutory towns of 1991 Census denotified but identifiable as Census Towns based on demographic and economic criteria	**- Nil -**

TABLE 3 : NEW TOWNS, DENOTIFIED, DECLASSIFIED AND MERGED TOWNS

		Name of Town
	(iii) Census towns of 1991 Census notified as Statutory town in 2001 Census	**1. Gudibanda (MP)** **2. Bagepalli (MP)** **3. Srinivaspur (MP)**
(c)	Declassified	**1. Manchenahalli (MP)**
(d)	Wholly merged with other town(s)	**1. BEML Nagar (NMCT)** **2. Kolar Gold Fields (SB)**

Declassified means the census towns of 1991 Census, which fail to satisfy the demographic and economic criteria.

TABLE 4 : DISTRIBUTION OF VILLAGES BY POPULATION DENSITY, 2001

Range of population density (per square kilometer)	Total number of villages in each population density range	Percentage of villages in each population density range	Population	Percentage distribution of population
1	2	3	4	5
0-10	42	1.4	677	0.0
11-20	52	1.8	1,029	0.1
21-50	87	3.0	11,528	0.6
51-100	183	6.3	52,922	2.8
101-200	757	25.9	380,497	19.9
201-300	740	25.4	484,039	25.3
301-500	724	24.8	593,997	31.1
501 +	334	11.4	385,857	20.2
Not known	-	0.0	-	0.0
District Total:	**2,919**	**100.0**	**1,910,546**	**100.0**

Population Density (Rural) of the district: 237

Distribution of villages by population density ranges are presented in the above table. The density of population for the district rural is 237 persons/sq.km. If the villages are distributed by different range of population density the picture that would emerge for the rural population of the district would be as indicated in the above table. Highest number of villages 757 (25.9 per cent) fall under the density range of 101-200. 334 villages falls under the density range of 501 and above. Other details can be observed from the above table.

TABLE 5 : SEX RATIO OF STATE AND DISTRICT 1901-2001

Census Years	State			Census Years	District		
	Total	Rural	Urban		Total	Rural	Urban
1	2	3	4	5	6	7	8
1901	983	984	976	1901	985	984	1,000
1911	981	984	960	1911	977	978	960
1921	969	975	936	1921	958	960	933
1931	965	972	927	1931	962	966	914
1941	960	965	935	1941	951	954	911
1951	966	974	941	1951	958	963	915
1961	959	973	913	1961	956	962	903
1971	957	971	913	1971	957	964	901
1981	963	978	926	1981	961	969	912

Census Years	State			Census Years	District		
	Total	Rural	Urban		Total	Rural	Urban
1	2	3	4	5	6	7	8
1991	960	973	930	1991	959	972	893
2001	965	977	942	2001	972	973	967

The above table gives the sex-ratio for the rural and urban population of the state as well as that of the district from 1901 to 2001 census. It is observed that the state has recorded a decrease in the sex-ratio since 1901 census (983). However in 2001 census, the state has registered a better sex-ratio of 965 little higher than the ratio of 1991 Census (960). For the district, the sex-ratio in 1901 Census was 985, which showed high fluctuations over the decades. However, in 2001 Census, the district has recorded a sex-ratio of 972 better than that of 1991 Census 959. It is also observed that the sex-ratio in 2001 Census for the district (972), is more than that for the state (965). Again, the ratio for the rural women in 2001 Census is comparatively better than, that for the urban women in the state as well as in the district.

TABLE 6 : SEX RATIO BY TALUKS, 2001

Sl. No.	Name of Taluk	Sex ratio		
		Total	Rural	Urban
1	2	3	4	5
1	Gauribidanur	960	960	961
2	Chik Ballapur	965	965	967
3	Gudibanda	981	977	1,001
4	Bagepalli	972	978	928
5	Sidlaghatta	971	978	943
6	Chintamani	961	970	935
7	Srinivaspur	973	977	946
8	Kolar	970	974	962
9	Malur	971	972	963
10	Bangarapet	982	974	993
11	Mulbagal	986	988	973
	District Total :	**972**	**973**	**967**

The above table gives the talukwise sex ratio for rural and urban population as per 2001 census. It is observed from the table that the sex ratio for rural areas is 973 and urban areas is 967. The sex ratio is highest in Mulbagal and Bangarapet taluks and low in Gauribidanur taluk, sex ratio favoured women in urban areas of the Gudibanda taluk.

The sex ratio of the district as a whole is 972 female per 1,000 males.

TABLE 7: SEX RATIO BY CD BLOCKS, 2001

Sl. No.	Name of C. D. block	Sex ratio
1	2	3
1	Gauribidanur	960
2	Chik Ballapur	965
3	Gudibanda	977
4	Bagepalli	978
5	Sidlaghatta	978
6	Chintamani	970
7	Srinivaspur	977
8	Kolar	974
9	Malur	972
10	Bangarapet	974
11	Mulbagal	988
	District (Rural) Total:	**973**

The table highlights the data on sex ratio by C.D. Blocks which includes all villages in the district. The sex ratio for the district rural is 973. Among the C.D. Blocks, highest sex ratio is noticed in Mulbagal followed by Bagepalli which is above the district rural sex ratio. Whereas lowest in sex ratio is reported from Gauribidanur C.D. Block.

TABLE 8 : SEX RATIO OF RURAL POPULATION BY RANGES, 2001

Range of sex ratio for villages	Number of inhabited villages	Percentage of villages in each range	Population 2001	Percentage distribution of population
1	2	3	4	5
Less than 700	48	1.6	2,215	0.1
700-749	18	0.6	3,295	0.2
750-799	37	1.3	8,747	0.5
800-849	104	3.6	32,558	1.7
850-899	274	9.4	129,681	6.8
900-949	563	19.3	408,367	21.4
950-999	787	27.0	711,748	37.3
1,000-1,099	851	29.2	550,664	28.8
1,100+	237	8.1	63,271	3.3
District Total:	**2,919**	**100.0**	**1,910,546**	**100.0**
Sex ratio (Rural) for District:		**973**		

The sex ratio of the rural population by ranges is given for the inhabited villages in the district. The picture that would emerge is indicated in the above table. Highest number of 851 villages falls under the sex ratio range of (1,000-1,099), 237 villages have sex ratio range of 1,100 and above.

TABLE 9 : SEX RATIO OF URBAN AGGLOMERATIONS / TOWNS, 2001

Sl. No.	Name of U.A. / Town	Urban status of town	Sex ratio
1	2	3	4
1	Gauribidanur	TMC	961
2	Chik Ballapur	CMC	967
3	Gudibanda	TP	1,001
4	Bagepalli	TP	928
5	Sidlaghatta	TMC	943
6	Chintamani	CMC	935
7	Srinivaspur	TP	946
8	Kolar	CMC	962
9	Malur	TMC	963
10	Bangarapet	TMC	967
11	Robertson Pet	UA	999
12	Robertson Pet	CMC	1,003
13	Mulbagal	TMC	973
	Sex ratio Urban for the district:		**967**

Data on urban sex ratio is presented for the district on the above table with reference to urban agglomeration/town, the sex ratio for the district urban is 967. The sex ratio is above the district urban figures in Robertson Pet (CMC) i.e. 1,003 and Gudibanda (TP) (1,001). The details of sex ratio of other urban agglomerations/towns in the district can be observed from the above table.

Taluk wise sex ratio of population in the age group of 0-6 years with rural-urban break up for the district is presented in table 10. Data reveals that among the taluks the sex ratio in the age group of 0-6 is highest in Srinivaspur (980) and (970) in Malur taluks. The district total for sex ratio is 959. Out of 11 taluks, eight taluks, the rural sex ratio is higher and in the remaining those taluks the urban sex ratio is higher.

TABLE 10 : SEX RATIO OF POPULATION IN THE AGE GROUP 0-6 FOR TALUKS, 2001

	District (Rural) Total:	**256,057**	**130,473**	**125,584**	**963**

Sex ratio in the age group 0-6 in the C.D. blocks of the district is presented in this table. The sex ratio for the district rural is 963. Among the C.D. blocks, the highest sex ratio is reported from Srinivaspur (978) followed by Malur (976) and lowest 940 is reported from Sidlaghatta.

TABLE 12 : SEX RATIO OF RURAL POPULATION IN THE AGE GROUP 0-6 BY RANGES, 2001

Range of sex ratio for villages	Number of inhabited villages	Percentage distribution of villages	Population 2001	Percentage distribution of population
1	2	3	4	5
Less than 700	416	14.3	14,908	5.8
700-749	119	4.1	7,979	3.1
750-799	174	6.0	15,977	6.2
800-849	220	7.5	21,763	8.5
850-899	238	8.2	27,795	10.9
900-949	252	8.6	27,929	10.9
950-999	184	6.3	27,520	10.7
1000-1099	524	18.0	57,903	22.6
1100+	792	27.1	54,283	21.2
District (Rural) Total	**2,919**	**100.0**	**256,057**	**100.0**
Sex ratio (Rural) for District:		**963**		

The child sex ratio has been given by ranges for the rural population in the above table. Data reveals that except for the population ranges 'Less than 700' and '700-749' in all other ranges, a good number of villages are reported under each range. Though the average child sex ratio for the rural district shows 963 females per 1,000 males, it is worth noting that 1,316 out of 2,919 inhabited villages have the sex ratio favourable for female child.

TABLE 13 : SEX RATIO OF POPULATION IN THE AGE GROUP 0-6 OF URBAN AGGLOMERATIONS / TOWNS, 2001

Sl. No.	Name of UA / Town	Urban status of town	Total population in 0-6 age group			Sex ratio for 0-6 age group
			Persons	Males	Females

Taluk wise number and percentage of Scheduled Castes and Scheduled Tribes population is given in the above table. The total Scheduled Castes/Scheduled Tribes population in the district is 671,692 and 205,711 respectively. The rural-urban distribution reveals that 28.1 per cent of Scheduled Castes live in rural areas and 21.7 per cent of them live in urban areas. As regards Scheduled Tribes, 9.9 per cent live in rural areas and 2.5 per cent of them live in urban areas. The table also indicate the percentage of Scheduled Castes/Scheduled Tribes population to total population in the district.

The table 15 depicts population of Scheduled Castes and Scheduled Tribes and its percentage proportion to total population. In rural areas of the district 28.1 per cent and 9.9 per cent population comprises of Scheduled Castes and Scheduled Tribes respectively. Higher concentration of Scheduled Castes is reported from Bangarapet (31.6 per cent) and Mulbagal (31.1 per cent) and that of Scheduled Tribes from Bagepalli (17.4 per cent) and Gauribidanur (15.7 per cent).

TABLE 15 : NUMBER AND PERCENTAGE OF SCHEDULED CASTES AND SCHEDULED TRIBES POPULATION IN C.D. BLOCKS, 2001

Sl. No.	Name of C.D. block	Total population	Total Scheduled Castes population	Total Scheduled Tribes population	Percentage of Scheduled Castes population to total population	Percentage of Scheduled Tribes population to total population

12	Robertson Pet (CMC)	1,032	873
13	Mulbagal (TMC)	1,043	1,040
	Sex ratio (Urban) for the district:	**995**	**945**

Sex ratio among Scheduled Castes and Scheduled Tribes in urban agglomeration/ town of the district is presented in this table. Sex ratio for the district urban for Scheduled Castes is 995 and Scheduled Tribes is 945. Among Scheduled Castes, highest sex ratio of 1,043 and 1,032 is reported from Mulbagal TMC and Robertson Pet CMC. Among Scheduled Tribes highest sex ratio of 1,040 is reported from Mulbagal TMC followed by 980 from Gauribidanur TMC, whereas the lowest of 652 is reported from Srinivaspur (TP).

Sex wise distribution of literacy rate by residence in the taluks of the district is presented in table 21. Data reveals that the total literacy rate of the district is 62.8 per cent. Male and female literacy rate constitute 73.2 per cent and 52.2 per cent respectively. The gap in male-female literacy is 20.9 per cent. Highest literacy rate of

71.9 per cent is reported from Bangarapet, which is higher than the district percentage. Highest female literacy rate of 82.1 per cent is reported from the Bangarapet urban area. The gap in male-female literacy is highest 25.4 per cent reported from Srinivaspur rural area.

TABLE 21 : NUMBER AND PERCENTAGE OF LITERATES AND ILLITERATES BY TALUKS, 2001

TABLE 23 : DISTRIBUTION OF VILLAGES BY LITERACY RATE RANGE, 2001

Range of literacy rate for villages	Number of inhabited villages	Percentage distribution of villages	Population	Percentage distribution of population
1	2	3	4	5
0	5	0.2	36	0.0
1-10	2	0.1	53	0.0
11-20	21	0.7	3,709	0.2
21-30	72	2.5	24,683	1.3
31-40	242	8.3	97,935	5.1
41-50	618	21.2	351,093	18.4
51-60	969	33.2	657,872	34.4
61-70	752	25.8	626,419	32.8
71-80	188	6.4	140,184	7.3
81-90	26	0.9	7,315	0.4
91-99	10	0.3	462	0.0
100	14	0.5	785	0.0
District Total:	**2,919**	**100.0**	**1,910,546**	**100.0**
Literacy rate for District:		**62.8**		

The literacy rate for the district as reported in 62.8 per cent. If the distribution of villages are made according to range of literacy rate in the district the picture that would emerge would be as indicated in the above table. Highest number of 969 (33.2 per cent) villages fall under the literacy range of 51-60, 5 villages having a meagre population of 36 have zero literacy rate. 14 villages with a population of 785 have 100 per cent literacy rate.

The distribution of urban literacy rate by sex is presented in table 24. Data reveals that the literacy rate for the district urban is 80.3 per cent. Urban literacy rate among the male is 86.2 per cent and female is 74.3 per cent. The gap in male-female literacy rate is 11.9 per cent. Highest literacy rate of 89.1 per cent and highest male literacy rate of 94.2 per cent is reported from Robertson Pet CMC. Highest female literacy rate of 84.1 per cent is also reported from Robertson Pet CMC.

The above table provides information on sex wise literacy rate among the Scheduled Castes in the C.D. blocks of the district. The percentage of literacy rate for the district rural is 46.5 per cent, the percentage of male literacy rate works out to 58.1 per cent and that of female is 34.6 per cent. The gap in male-female literacy rate is 23.4 per cent. There are not much noteworthy variations or changes exist in the C.D. blocks literacy rate percentages. However the literacy rate ranges from 35.2 per cent in Bagepalli C.D. Block to 53.4 per cent in Kolar C.D. Block.

TABLE 26 : DISTRIBUTION OF VILLAGES BY LITERACY RATE RANGE FOR SCHEDULED CASTES POPULATION, 2001

Range of literacy rate for villages	Number of inhabited villages	Percentage distribution of villages	Scheduled Castes Population	Percentage distribution of population
1	2	3	4	5
0	29	1.1	206	0.0
1-10	11	0.4	671	0.1
11-20	58	2.2	5,409	1.0

81-90	14	0.5	1,512	0.3
91-99	2	0.1	46	0.0
100	6	0.2	45	0.0
District Total:	**2,653**	**100.0**	**535,967**	**100.0**
Literacy rate for District (Rural):		**46.5**		

This table highlights the distribution of villages by literacy rate for the Scheduled Castes population. Literacy rate for the district rural is 46.5 per cent. If the distribution of villages is made by range of literacy rate, the picture that would emerge for all the 2,653 inhabited villages of the district would be as indicated in the above table. Highest no. of 832 (31.4 per cent) villages falls under the literacy range of (41-50). 29 villages have zero per cent literacy range. Only 6 villages have 100.0 literacy rate.

TABLE 27 : NUMBER AND PERCENTAGE OF SCHEDULED CASTES LITERATES AND ILLITERATES BY SEX IN TOWNS, 2001

Sl. No	Name and urban status of Town	Number of literates and illiterates						Percentage of literates			Gap in male/ female literacy rate

This table provides information on sex wise literacy rate among the Scheduled Tribes in the C.D. blocks of the district. The percentage of literacy rate for the district rural is 46.1 per cent, the percentage of male literacy rate works out to 57.5 per cent and that of female is 34.4 per cent. The gap in male-female literacy rate is 23.1 per cent. Of all the C.D. blocks, Kolar C.D. block stands in first position in respect of highest literacy rate of 54.2 per cent and highest male literacy rate of 66.2 per cent, highest female literacy of 42.1 per cent. Highest gap in male-female literacy rate accounts for 27.0 per cent is reported from Mulbagal C.D. Block.

TABLE 29 : DISTRIBUTION OF VILLAGES BY LITERACY RATE RANGE FOR SCHEDULED TRIBES POPULATION, 2001

Range of literacy rate for villages	Number of inhabited villages	Percentage distribution of villages	Scheduled Tribes Population	Percentage distribution of population
1	2	3	4	5
0	67	4.0	284	0.1
1-10	6	0.4	108	0.1
11-20	45	2.7	3,851	2.0
21-30	150	9.0	13,931	7.3
31-40	319	19.2	38,288	20.1
41-50	457	27.4	63,164	33.2
51-60	334	20.1	52,800	27.8
61-70	178	10.7	14,955	7.9

Data presented in the above table is for the C.D. blocks of the district, which includes only the rural population. Data reveals that the percentage of total workers in the district rural is 53.6 per cent. Among the C.D. blocks Sidlaghatta has the highest percentage of 57.9 per cent of total workers. Highest percentage of total workers among the female is also reported from Sidlaghatta (52.8 per cent). Non-workers constitute 46.4 per cent in the district. Highest percentage (50.9 per cent) of them is reported from Bangarapet. Percentage of marginal workers for the district is (10.6 per cent). Highest of 14.9 per cent is reported from Gudibanda C.D. block.

Sex wise distribution of categories of workers for the urban population of district is given in table 33 by number and percentage. It can be seen from the table that, the percentage of total workers for the district urban is 33.7 per cent, highest (39.6 per cent) of total workers are reported from Mulbagal TP. Highest percentage 74.4 per cent of non-workers are reported from Robertson Pet CMC. Among the female total workers highest per cent of 29.4 is reported from Sidlaghatta TMC.

Note: Percent of Worker to total worker are given in brackets

The distribution of total workers by sex according to four-fold industrial category in taluks is highlighted in the above table. Data reveals that agricultural labourers and cultivators together constitute 64.1 per cent of the total workers. At taluk level maximum number of cultivators 48.2 per cent are found in Bagepalli taluk. Whereas agricultural labourers are more in Gudibanda (41.6 per cent) Number of Other Workers are more in Bangarapet taluk i.e. 48.2 per cent.

Note: Percent of Worker to total worker are given in brackets

The distribution of total workers by sex according to four-fold industrial category in C.D. blocks is highlighted in the above table. Data reveals that agricultural labourers and cultivators together constitute 76.0 per cent of the total workers. At taluk level maximum number of cultivators are found in Bagepalli 51.8 per cent. Whereas agricultural labourers are more in Gudibanda 44.8 per cent. Number of other workers is more in Kolar 31.5 per cent.

				(15.0)	(3.0)	(8.0)	(17.6)	(71.4)

The distribution of total workers by sex according to four-fold industrial category in urban agglomerations/towns is highlighted in the above table. Data reveals that other workers constitute 86.5 per cent. Cultivators and agricultural labourers together constitute 6.5 per cent, whereas household industry workers constitute 7.1 per cent. Highest number of cultivators is found in Gudibanda TP and maximum number of female agricultural labourers are reported from Gudibanda TP 35.0 per cent.

(ix) Brief analysis of the Village Directory and Town Directory data based on inset tables 37 to 47

Table 37 reveals various amenities, which are available in C.D. blocks of the district. It can be seen from the table that 86.4 per cent of the inhabited villages have educational facilities and 94.1 per cent have improved drinking water facility. Medical and post office facilities are available for 16.8 per cent and 15.2 per cent of villages respectively. About 95.4 per cent villages have power supply. C.D. block-wise analysis shows that a good percentage of inhabited villages have educational facility. The position of medical facilities varies from 11.8 per cent to 32.0 per cent in the C.D. blocks. Availability of banking facility is not satisfactory.

Note : - Percentages are given in brackets.

* Based on the improved drinking water source, drinking water supply has been classified as 'Improved' or otherwise. If the household has access to drinking water supplied from a tap or a hand pump / tube well Situated within or outside the premises it is considered as having access to 'Improved drinking water source'. However, the concept of improved drinking water is state specific and this is to be considered accordingly.

\# Post office includes Post office, telegraph office and Post and telegraph office.

$ Transport communication includes bus service, rail facility and navigable waterways.

* Based on the improved drinking water source, drinking water supply has been classified as 'Improved' or otherwise. If the household has access to drinking water supplied from a tap or a hand pump / tube well situated within or outside the premises it is considered as having access to 'Improved drinking water source'. However, the concept of improved drinking water is state specific and this is to be considered accordingly.

Post office includes Post office, telegraph office and Post and telegraph office.

$ Transport communication includes bus service, rail facility and navigable waterways.

C.D. block-wise distribution of rural population served by different amenities is presented in the above table. Data reveals that 97.1 per cent of the rural population is served by educational institutions while 96.8 per cent have improved drinking water facility. About 35.5 per cent of population have medical facility and 33.9 per cent rural population is served with postal facility. About 97.9 per cent of them have power supply.

TABLE 39 : DISTRIBUTION OF VILLAGES NOT HAVING CERTAIN AMENITIES, ARRANGED BY DISTANCE RANGES FROM THE PLACES WHERE THESE ARE AVAILABLE, 2001

Village not having the amenity of	Distance range of place from the villages where the amenity is available			
	Less than 5 kilometres	5-10 kilometres	10+ kilometres	Total (Col. 2 - 4)
1	2	3	4	5
1. Education :-				
(a) Primary School	430	11	0	441
(b) Middle School	1,591	202	48	1,841

5. Bus Service	856	76	14	946
6. Banks				
(a) Commercial Bank	1,244	927	414	2,585
(b) Cooperative Bank	617	739	1,129	2,485
7. Agricultural Credit Societies	1,367	776	628	2,771

There are 441 villages which do not have any primary school, out of this for 430 villages primary school is located at a distance less than 5 kms. About 11 villages have this facility at a distance of 5-10 km range. About 1,841 villages do not have middle school out of which 1,591 villages have this facility at a distance of less than 5 kms. Of 2,891 villages not having hospitals 1,129 have this facility at a distance of less than 5 kms. For 1,191 villages primary health centres are available at a distance less than 5 kms. Regarding post office, telephone and bus service good number of villages have this facility at a distance less than 5 kms. About 1,861 villages have banking facility at a distance of less than 5 kms range.

\# Post office includes Post office, Telegraph office and Post and telegraph office.

$ Transport communication includes bus service, rail facility and navigable waterways.

Table No.40 depicts the distribution of villages according to distance from the nearest statutory town and availability of certain amenities. It is observed that the distance from the statutory town to the villages does not exceed 50 kms. except for 4 villages. About 12 villages have been classified as unspecified as far as distance is concerned. Distance from nearest statutory town to the village has been correlated with the type of amenities available as per 2001 Census. Four categories of distance range per nearest statutory town and type of amenities available in the villages is indicated in the above table.

TABLE 41: DISTRIBUTION OF VILLAGES ACCORDING TO POPULATION RANGE AND AMENITIES AVAILABLE, 2001

Population range	Number of inhabited villages in each range	Type of amenity available									
		Education	Medical	Improved drinking water*	Post Office #	Telephone	Transport communications $	Banks	Agricultural Credit Societies	Approach by Pucca road	Power supply

$ Transport communication includes bus service, rail facility and navigable waterways.

* Based on the improved drinking water source, drinking water supply has been classified as 'Improved ' or Otherwise. If the household has access to drinking water supplied from a tap or a hand pump / tube well Situated within or outside the premises it is considered a having access to 'Improved drinking water source'. However, the concept of improved drinking water is state specific and this is to be considered accordingly.

The above table depicts the distribution of villages according to population range and availability of certain amenities. It can be seen from the above table that 2435 villages are having a population of less than 1,000. No village has population above 10,000. About 380 villages have population in the range 1,000-1,999. About 95.4 per cent villages have power supply. A good number of villages (86.4 per cent) have education. Improved drinking water facility is available in 93.9 per cent villages. Post office facility is available for 15.2 per cent villages and transport facilities are available in 67.7 per cent of villages. Banking facility is less in all ranges.

TABLE 42 : DISTRIBUTION OF VILLAGES ACCORDING TO LAND USE, 2001

Sl. No.	Name of C. D. block	Number of inhabited villages	Total area	Percentage of cultivable area to total area	Percentage of irrigated area to total cultivable area
1	2	3	4	5	6
1	Gauribidanur	219	86,394	58.2	32.5
2	Chik Ballapur	223	60,085	45.8	32.5
3	Gudibanda	85	21,030	60.4	31.7
4	Bagepalli	212	91,096	47.3	22.8
5	Sidlaghatta	243	60,762	56.4	27.0
6	Chintamani	339	82,488	50.2	24.0
7	Srinivaspur	296	80,291	54.2	24.7
8	Kolar	327	74,233	57.4	36.3
9	Malur	306	58,939	67.0	25.1
10	Bangarapet	355	77,931	61.9	37.3
11	Mulbagal	314	77,896	54.7	32.6
	District Total:	**2,919**	**771,145**	**55.2**	**29.7**

Note : - Cultivable area = irrigated area + unirrigated area

The above table depicts the distribution of villages according to land use. Data reveals that only the cultivable area of the rural district has been taken into consideration, which include both irrigated and un-irrigated areas. The cultivable area of the rural portion comprise of 55.2 per cent of the total area. Among the C.D. Blocks, Malur is having the highest percentage of cultivable area i.e. 67.0 per cent. If the percentage of irrigated area to total cultivable area is considered Bangarapet C.D. block is having the highest with a 37.3 per cent.

TABLE 43 : PER CAPITA RECEIPT AND EXPENDITURE IN STATUTORY TOWNS

Sl. No.	Class, name & urban status of the Town	Per capita receipt			Per capita expenditure

8	Malur (TMC)	201.0	48.0	152.0	249.0	119.0	0.0	62.0	0.0	46.0
9	Mulbagal (TMC)	135.0	30.0	104.0	139.0	76.0	0.0	19.0	0.0	60.0
10	Robertson Pet (UA)	148.0	15.0	133.0	120.0	55.0	0.0	36.0	0.0	30.0
11	Robertson Pet (CMC+OG)	148.0	15.0	133.0	120.0	55.0	0.0	36.0	0.0	30.0
12	Robertson Pet (CMC)	148.0	15.0	133.0	120.0	55.0	0.0	36.0	0.0	30.0
13	Sidlaghatta (TMC)	170.0	11.0	158.0	177.0	37.0	0.0	51.0	0.0	135.0
14	Srinivaspur (TP)	292.0	15.0	277.0	281.0	67.0	0.0	184.0	0.0	0.0
	District Total	**222.8**	**35.2**	**187.6**	**204.4**	**85.2**	**2.1**	**37.3**	**0.04**	**79.8**

The above table provides details on per capita receipts and expenditure (in rupees) for each town in the district. The per capita receipt for the district is Rs.222.8 of which Rs.35.2 received through taxes and rest through other sources. On the other hand the per capita expenditure is Rs.204.4 of which Rs.85.2 is spent on general administration, Rs.37.3 is spent on public works and Rs.2.1 on public health and Rs.79.8 on other items. Per capita receipt is highest in Gauribidanur TMC Rs.505.0 and per capita expenditure is highest in Chik Ballapur CMC Rs.452.0.

TABLE 44 : SCHOOLS / COLLEGES PER 10,000 POPULATION IN STATUTORY TOWNS, 2001

Sl. No.	Name and urban status of Town	Type of educational institution				
		Primary	Junior Secondary / Middle	Secondary / Matriculation	Senior Secondary	College
1	2	3	4	5	6	7
1	Bagepalli (TP)	4.0	1.5	1.5	1.5	1.0
2	Bangarapet (TMC)	6.2	4.7	1.3	0.5	0.8
3	Chik Ballapur (CMC)	5.3	3.1	1.6	0.7	0.4
4	Chintamani (CMC)	4.3	3.2	1.7	0.6	0.3
5	Gauribidanur (TMC)	7.2	3.9	2.3	1.0	0.3
6	Gudibanda (TP)	10.2	4.5	2.3	1.1	1.1
7	Kolar (CMC)	4.8	3.9	1.3	0.7	0.3
8	Malur (TMC)	6.8	5.4	2.9	1.1	0.4
9	Mulbagal (TMC)	4.5	2.7	1.4	0.5	0.5
10	Robertson Pet (UA)	5.3	4.4	1.1	0.3	0.3
11	Robertson Pet (CMC+OG)	5.3	4.4	1.1	0.3	0.3
12	Robertson Pet (CMC)	4.9	4.1	1.1	0.3	0.3
13	Sidlaghatta (TMC)	5.4	3.6	1.2	0.7	0.2
14	Srinivaspur (TP)	6.5	4.4	3.0	0.9	0.4
	District Total	**2.7**	**2.0**	**0.7**	**0.2**	**0.2**

The educational institutions per 10,000 population in various stationery towns in the district given above indicates that primary schools are the foremost type of educational institution available in the towns. The percentage of Junior Secondary/ Middle school accounts for 2.0 and Secondary/Matriculation institutions accounts for 1.7 per cent.

TABLE 45 : NUMBER OF BEDS IN MEDICAL INSTITUTIONS IN TOWNS, 2001

Sl. No.	Name and urban status of the Town	Number of beds in medical institutions per 10,000 population
1	2	3
1	Bagepalli (TP)	59
2	Bangarapet (TMC)	8
3	Chik Ballapur (CMC)	18
4	Chintamani (CMC)	23
5	Gauribidanur (TMC)	39
6	Gudibanda (TP)	86
7	Kolar (CMC)	48
8	Malur (TMC)	41
9	Mulbagal (TMC)	36
10	Robertson Pet (UA)	31
11	Robertson Pet (CMC+OG)	31
12	Robertson Pet (CMC)	31
13	Sidlaghatta (TMC)	43
14	Srinivaspur (TP)	27
	Distrct Total	**16**

The above table reflects the number of beds for the mentioned towns. In all towns, Gudibanda (TP) possesssed highest with 86 beds per 10,000 population. Lowest number of beds can be seen from Bangarapet (TMC) 8 bed only.

TABLE 46 : PROPORTION OF SLUM POPULATION IN TOWNS, 2001

Sl. No.	Name of the Town	Total population	Slum population	Percentage of slum population to total population
1	2	3	4	5
1	Bagepalli	20,119	1,245	6.2
2	Bangarapet	0	1,043	0
3	Chik Ballapur	54,968	6,655	12.1
4	Chintamani	65,493	8,849	13.5
5	Gauribidanur	30,537	10,000	32.7
6	Gudibanda	8,807	960	10.9
7	Kolar	113,907	19,980	17.5
8	Malur	27,815	619	2.2
9	Mulbagal	44,033	17,000	38.6
10	Robertsonpet	157,084	7,100	4.5
11	Sidlaghatta	41,098	8,000	19.5
12	Srinivaspur	22,959	1,667	7.3
	District Total	**586,820**	**83,118**	**14.2**

About 14.2 per cent of urban population in the district comprises of slum population. This percentage is very high in Mulbagal and Gauribidanur town which works out to 38.6 and 32.7 per cent respectively. In Bangarapet, Malur, Bagepalli, Robertsonpet and Srinivaspur towns, slum population is below 10.0 per cent.

TABLE 47 : MOST IMPORTANT COMMODITY EXPORTED OUT OF AND MANUFACTURED IN TOWNS, 2001

Sl. No.	Name and urban status of Town	Most important commodity	
		Manufactured	Exported
1	2	3	4
1	Bagepalli (TP)	Groundnut Oil	Groundnut Oil
		Steel Furnitures	Jaggery
		Cut Sizes of Timber	Cut Sizes of Timber
2	Bangarapet (TMC)	Slate & Pencil	Candle
		Cement Pipes	Rice
			Groundnut Oil
3	Chik Ballapur (CMC)	Silk Yarn	Silk Yarn
		Steel Furniture	Bamboo Baskets
		Bamboo Baskets	Steel Furniture
4	Chintamani (CMC)	Groundnut Oil	Groundnut Oil
		Mosaic Tiles	Incense Sticks
		Incense Sticks	Mosaic Tiles
5	Gauribidanur (TMC)	Sugar	Sugarcane
		Silk	Groundnut
			Silk
6	Gudibanda (TP)	Silk Clothes	Groundnut Oil
		Groundnut Oil	Silk Sarees
			Paddy
7	Kolar (CMC)	Beedies	Beedies
		Silk	Silk
		Bamboo	Bamboo
8	Malur (TMC)	Raw Silk	Silk Yarn
		Beedies	Tiles
		Tiles	Beedies
9	Mulbagal (TMC)	Beedies	Groundnut
		Granite	
10	Robertson Pet (UA)	Incense Sticks	Mosaic
		Tamarind Powder	Polished Stones
		Candles	Matches
11	Robertson Pet (CMC+OG)	Incense Sticks	Mosaic
		Tamarind Powder	Polished Stones
		Candles	Matches
12	Robertson Pet (CMC)	Incense Sticks	Mosaic
		Tamarind Powder	Polished Stones
		Candles	Matches
13	Sidlaghatta (TMC)	Silk Thread	Silk Thread
			Vegetables
			Twisted Silk Yarn
14	Srinivaspur (TP)	Cashewnut Kernels	Silk Thread
		Silk Reeling	Cut Sizes of Timber
		Cut Sizes of Timber	Cut Sizes of Timber

The above table furnishes information about the most important commodities manufactured and exported from the towns of Kolar district. Items that are both manufactured and exported includes groundnut oil, silk yarn, cut sizes of timber, beedies, polished stones and mosaic tiles, etc.

(x) Brief analysis of the data on houses and household amenities, Houselisting Operations, Census of India 2001 based on inset tables 48 to 52.

Table No.49 gives the distribution of households by the type of census houses occupied by them in the district. The structures of census houses occupied by the households have been classified with permanent, semi-permanent and temporary. The taluk-wise details of which can be seen from the above table.

TABLE 50 : NUMBER AND PERCENTAGE OF HOUSEHOLDS HAVING IMPROVED DRINKING WATER SOURCE, ELECTRICITY, BATHROOM, TOILET AND DRAINAGE FACILITY, 2001

District/ Taluk	Total/ Rural/ Urban	Number of house holds	Number and percentage of Households having

The above table gives the distribution of households by availability of different amenities. Data reveals that 97.2 per cent of the households have improved drinking water. About 85.7 per cent of them have electricity, 47.4 per cent have bathroom, and 33.4 per cent have toilet facility. About 55.3 per cent have drainage facility. All the above facilities are reported to be higher in the urban areas.

The above table provides data on households using different types of fuel for cooking. Most of the households of the rural areas of the district (90.6 per cent) use firewood, with only 2.5 per cent of them using LPG, 1.5 per cent using kerosene and 3.5 per cent using crop residue. The percentage of households of urban areas using firewood (38.1 per cent) and LPG (34.3 per cent) are nearly equal. About 23.2 per cent of them use kerosene for cooking.

TABLE 52: NUMBER OF HOUSEHOLDS AVAILING BANKING SERVICES AND NUMBER OF HOUSEHOLDS HAVING EACH OF THE SPECIFIED ASSET, 2001

Sl. No	Taluk	Total/ Rural/ Urban	Total number of house holds	Total number of households availing banking services	Availability of assets

The above table provides data on households availing banking facility and households possessing specified assets. About 29.5 per cent of households in rural areas and a little higher percentage of households (35.8 per cent) in urban areas avail banking facility. When availability of assets are concerned, the urban households possess marginally higher percentage of them except for T.V., Telephone and Scooter. About 43.1 per cent of rural and 22.4 per cent of urban households do not possess any of the above specified assets.

(xi) Archaeology

The pre-historic archaeology of the district seems to have the antiquity at least to the neolothic period.

The region appears to have trade with the great ancient civilization of Indus valley. By the gold specimens found in the pre-historic remains of Mohanjo-Daro and Harappa, with certain percentage of silver content, Sir John Marshal held the view that it was imported from Kolar Gold Fields. This view was reinforced with the find of ancient gold extracting implements. The Mysore archaeology department has one anvil stone and four mullars. Pre-historic cromlechs discovered in Kolar Gold Fields suggest that the authors of the cromlechs were perhaps pre-historic miners.

To the west of Tor locally known as Sita Gudda there are several cave shelters which seem to have been the dwelling places of pre-historic man. There are numerous megalithic sites located at the fort of granite hills.

The district abounds in ancient temples dating back to 10th century A.D. Besides this there are a few cave temples found in the district. The earliest Mahavalli inscription bearing a date is one proffessing to be of 339 A.D. found in Mulbagal taluk. This inscription is all in Sanskrit.

(xii) Brief description on places of religious, historical or archaeological and tourist importance

Devaragudipalli (Bagepalli Taluk) : This village has a large temple dedicated to Venkataramanaswamy. This temple is said to have been built in 1391 A.D. by Tirumalanayaka, during the reign of the Vijayanagara king Harihara Raya. A large cattle fair and car festival held here for seven days from *Vaishaka Bhaula Amavasya* (May) attract a gathering.

Vasanthapura (Bagepalli Taluk) : Gummanayakanapalya, a hamlet of this village, was the headquarters of Bagepalli taluk till 1882. Located at the east of Bagepalli it has a small fortified circular rock rising about 50 metres above the surrounding hilly tract. This was once the seat of a local line of chiefs founded around 1350 A.D.

Yelaburgi (Bangarapet Taluk) : Several epigraphs and sculptures are found in this place. Four epigraphs are on *Viragals* or hero-stones of the 10th century and

another of Tamil is on a *Mastikal* or a *Sati* stone of Rajendra Chola's time. A noteworthy sculpture found in the Venkataramana temple of this village is the seated figure of Vishnu, bearing a discus and a conch. The temple has 4 sculptured pillars in the navaranga and one of these bears the figures depicting the ten incarnations of Vishnu.

Hunkunda (Bangarapet Taluk) : Hunkunda is a place of great antiquity. The cave shelters to the west of the village appear to have been the dwellings of pre-historic men. The potsherds discovered to the south of the village indicate the existence of this village during the Shatavahana period i.e., the first and second century A.D. From numerous inscriptions found at this place it has been inferred that it was a border town and a scene of several battles. The village has a temple dedicated to Chowdeswari and another dedicated to Shiva.

Bethamangala (Bangarapet Taluk) : Bethamangala of Bangarapet taluk is situated on the right bank of the Palar river. This is a place of Tourist interest. Bethamangala was the headquarter of what is now called as the Bangarapet taluk. The four meters high idol of Anjaneya is one of the temples here believed to have been installed by Arjun. The Arkeshwara temple has sculptured pillars. Around car festival is held here every year during April.

Venkatapura (Bangarapet Taluk) : Situated on the left bank of the river Palar this village is known for its Venkataramanaswamy temple which has been built on the top of a hillock. The place is more popularly known as Bangara Tirupati (i.e. Golden Tirupati) by virtue of its proximity of Kolar Gold Fields. According to a legend, sage Bhrigu has his hermitage here. This is an important centre of pilgrimage.

Budikote (Bangarapet Taluk) : This is a place of great antiquity and contains an inscription belonging to the period of the Banas of the 8th century A.D. Budikote, which literally means the 'fort of ashes', is said to derive its name from the immense holocausts that occurred here in the remote past. It is the birth place of Haider Ali, one of the ablest rulers of Mysore. An annual car festival is held here during March in honour of Venkataramana, the principal deity of the Venkataramana temple.

Kalavara (Chik Ballapur Taluk) : In the limits of this village there is a hill which rises to a height of 1447 metres above the sea level and forms part of Nandidurga range. It is known as Kalavaradurga or Skandagiri. The river Papaghni is said to have its source in this hill.

Manchanabele (Chik Ballapur Taluk) : The village has a noteworthy temple dedicated to Anjaneya, built about 150 years ago.

Patrenahalli (Chik Ballapur Taluk) : The village is noted for its large Dravidian temple or Gopalakrishna, which has a fine *mukha mantapa*.

Nandi (Chik Ballapur Taluk) : The village, situated at the north-eastern base of Nandidurga hill, contains the famous temple of Bhoga Nandiswara which is surrounded by stone slabs bearing Chola inscriptions of the 11th century A.D. in the Grantha characters. An inscription of the Pallava period (10th century A.D.) is also found in the courtyard of the temple. This temple is perhaps the finest and the most ornate of the Dravidian temples in the State. It is a double-temple consisting of two separate shrines standing in a line with two *Nandi Mantapas* in front : the north shrine is dedicated to Bhoga Nandiswara and the south one to Arunachaleswara. An annual car festival is held here on the day of Shivaratri festival. A cattle fair also takes place on this occasion and lasts for 10 days.

Nandi Hills (Chik Ballapur Taluk) : is famous tourist spot. Nandidurga is famous fortified hill at the termination of a range of hills of which it is the highest point it attitude is 1478 metres above MSL and it is a popular holiday resort and tourist centre. Nandidurga was a formidable strong hold of Tipu Sultan and was captured by British army in 1791 A.D.

Kandavara (Chik Ballapur Taluk) : To the north-west of the Jvarahareswara temple here, there is a beautiful Garudagamba (pillar with a figure of Garuda), about 13 metres high, set on an ornamental pedestal sculptures.

Agalagurki (Chik Ballapur Taluk) : The village is known for its Veerabhadra temple. The sourth sluice of the Gopalakrishna tank in the village is a fine structure being in the form of mantapa supported by six lofty pillars.

Kaiwara (Chintamani Taluk) : This village is identified with Ekachakrapura where the Pandavas are said to have lifed for sometime during their exile

and where Bhima killed the demon Bakasura. There are several old temples dedicated to Amara Narayana, Bhimeswara, Sahadeveswara and Nakuleswara, all built in Dravidian style. Inscriptions here indicate that the idols of Amara Narayana, Bhimeswara and Sahadeveswara were already there by about 1283 A.D. The entrance port of Bhimeswara temple which is the most beautiful part of this temple, is one of the finest in the State. An annual car festival is held here during March in honour of Amara Narayana. Kaiwara is a pilgrim centre at present and it contains the **mutt** of Narayanappa, a saint and a poet who is the author of Kalajnana in Telugu.

Upparpet (Chintamani Taluk) : Ambaji Durga nearby is a lofty hill with its summit rising to a height of 1,340 metres above the sea level. From the top of the hill one can have a fine view of hundreds of tanks situated in the surrounding villages.

Murugamalla (Chintamani Taluk) : The village is famous for the darga (tomb shrine) of Fakir Shah Wali which is highly venerated by the Muslims. The saint is credited with healing powers. So irrespective of their religious faiths, people visit this place and seek the blessings of the saint to overcome their difficulties.

Doddakurugodu (Gauribidanur Taluk) : Situated on the left bank of the river North Pinakini, this place is more popularly known as Vidurshwattha. The huge aswatha or peepal tree here is of great antiquity, reputed, as it is, to have been planted and nourished by Vidura, an uncle of the Pandava brothers of Mahabharata fame. The name of this place is associated with the recent struggle for independence also. Defying the prohibitory order promulgated by the then Government, about 7,000 persons gathered near this sacred tree on the 25th of April 1938 in order to participate in the programme of hoisting the national flag - a programme which was organised by the Indian National Congress. The police opened fire to disperse the congregation and in the process ten persons were killed. The incident at Vidurashwattha had wide spread repercussions and, in important centres throughtout the State, protest meetings were held to express righteous indignation and to condemn the brutal action on the police. Vidurshwattha is an important place of pilgrimate in the State. The annual car festival and the associated cattle fair held during the month of *chaitra* are of considerable regional important.

Alakapura (Gauribidanur Taluk) : The place is known for the ancient temple of Channa Someswara. Annual car festival and cattle fair are held here during every January.

Hossur (Gauribidanur Taluk) : This place was occupied under the name Hosavidu (the New Camp) by the Hoysala king Ballala III (1291-1342 A.D.) after the destruction of his capital at Halebidu in Hassan district. In 1355 A.D., under the name Hosapatna, it apparently formed one of the boundary towns of the early Vijayanagara Kingdom and was the royal residence under Bukkaraya I.

Yellodu (Gudibanda Taluk) : On a hillock, called Adinarayanaswamy Betta nearby, is a temple dedicated to Adinarayanaswamy. The annual car festival held during February is of considerable importance in the neighbourhood.

Paparajanahalli (Kolar Taluk) : This village is situated on the top of a hill in the neighbourhood of Kolar town. On the way, near the Patalamma temple, is a Kannada epigraph incised on a big rock. There is a Shiva temple and the *darga* (tomb shrine) of Usman Ali. In front of the Shiva temple is a fine stone umbrella with carved basement and this entire thing stands on a rock on which is engraved a Tamil inscription. There is a cave known as Bhitagauda's cave near a rock called Kotikallu, with a Kannada inscription. At some distance to the east of this cave is a fortified hill called Darga which was once the residence of the Mughal Subedar Khasim Khan.

The village has a hamlet called Teruhalli, in the way to which and near the sluice of Dasaratha kunte tank there is a Persian inscription. The Gangadhareshvara temple here is a pretty large structure and the images of Saptamatrikas, Bhairava, Ganapathi etc., are all well carved. The south and west outer-walls and bases of the temple are covered with Tamil inscriptions of about the 13th century. A small hill to the south of the temple is called Muchukunda *ashrama* and to the west there is a good pond. To the north of Teruhalli there is a large cave known as *Pandavara hajara*.

Vokkaleri (Kolar Taluk) : Several copper plates of 8th century, which throw light on the exploits of the Chalukyas and the contemporary political events of the south, were found here. On the Vokkaleri hill, there is a temple dedicated to Markandeya Swamy. Under its auspices an annual *jatra* and a cattle fair are held in the month of *Magha*.

Bellur (Kolar Taluk) : This village is called *Vishnu Vardhana Chaturvedi Mangalam* in one of the epigraphs, after the Hoysala king Vishnuvardhana. Certain records of the place go back to the period of Sri Purusha, a Ganga king of the 8th century A.D. This place appears to have been once the home of several Sri Vaishnava scholars. It is said that one of the scholars called Vellurappa or Annangacharya came from Kanchi and settled at Bellur about 180 years ago. His foot prints are pointed out on a rock of Chikkaunkalagudda. There is a temple dedicated to Rama, who is referred to as Vala Vanda Perumal in the Tamil inscriptions.

Seethy (Kolar Taluk) : This village, though small, appears to have been a place of considerable importance during the Chola and the Hoysala periods. There are also a few references to this place in the records of the early Vijayanagara kings. There are two large temples of Sripathiswara and Kalabhairava on a low hill nearby. The latter temple is carved with inscriptions of which the oldest relates to Hoysala king Vishnuvardhana (1110-1152 A.D.). Of the others, a large number relate to Tamil Gangas and a few to Vijayanagara kings. An inscription of the 14th century A.D. alludes to the practice of offering a finger to God Kalabhairava. It is said that the image of Sripathiswara on the hill was set up by Sripathi or Vishnu and hence the place was called Srihatti, later corruped as Sihati and finally Siuti or Seethy. There are shrines of Virabhadra and Mahishasuramardhini in this temple and an inscription of Rajendra Chola (1024) in Tamil. A large cave with a few mutilated figures on a hill close by is called Bhupatamma temple and a *Jatra* is held here every year in honour of the Goddess.

Sugatur (Kolar Taluk) : Situated at a distance of about 13 km. north-west of Kolar town, this was once the headquarters of a line of local chiefs during 1417-1669 A.D. The rulers of the family were called Sugatur Nada Prabhus and their general title was Tammegowda. They are said to have founded the town of Hoskote in Bangalore Rural district. For some military services rendered by them the title of Chikkaraya was conferred on them by the Vijayanagara Kings.

Madivala (Malur Taluk) : The Gangadhareswara temple here is an old structure dating back to the Chola times. There are inscriptions here of the Cholas, the Hoysalas and the Vijayanagara kings. The earliest is of 1112 A.D., belonging to the reign of Kulothunga Chola.

Thornahalli (Malur Taluk) : The place is well known for the temple of Sappalamma. The Goddess is known by this name because, if appeased properly, she is believed to cure the cattle disease called sappe jadya. An annual car festival and a cattle fair are held in the month of *pushya* (January).

Shivarapatna (Malur Taluk) : This village is known for the carving of images in stone and metal. There are several families, the male members of which are traditional sculptors. Several unfinished images of Goddesses, naga stones etc., which are the works of these men are usually found strewn all over the village. It is said that the ancestors of these sculptors came and settled here about 300 years ago. The village appears to have at one time been a place of great importance. There are several old lithic records in this village and most of them belong to the period of Ganga king Sri Purusha (760-788 A.D.). The name of the village appears to have been derived from Shivamarapattana the residence of Shivamara II, son of Sri Purusha.

Channarayapura (Malur Taluk) : In a jungle near this place stands a huge slab, 7 feet by 5 feet which has a figure of a man attacking a tiger. This apart there are sculptures which are beautiful and realistically executed. An inscription of the reign of the Ganga King Shivamara (670-726 A.D.) is found at Bhaktarahalli nearby.

Tekal (Malur Taluk) : Tradition has it that this village once had 101 temples and 101 ponds or tirthas (holy springs). The Varadaraja temple in the Dravidian style here has a lofty *mahadvara* (outer gate) and faces west. On its basement are found a number of Tamu inscriptions. The Singa Perumal temple which is new in ruins appears to have been a fine structure with sculptured pillars and neatly dressed lintels and capitols. The village has an Anjaneya temple and a Patalamma temple. Tekal has been mentioned as the headquarters of some 76 villages in an inscription of the 9th century A.D. The Tekal hill has a magnificent cave measuring 150’ x 70’ x 50’ known as Bhimana Garadi. According to tradition Bhima, the Pandava prince, used to practice gymnastics here. The hill to the north of Tekal known as Bhupatiyamma’s hill and

it has a cave called *Rokkadagavi* (cashcave), which is supposed to have contained the treasure of the former rulers of the place.

Masthi (Malur Taluk) : Masthi appears to have been founded in the 16th century by Chokka Babati, a petty chief from the neighbourhood of Kanchipuram (Tamil Nadu), who fled to this place to save his daughter from disgrace by the ruler of his country. He was later summoned to Vijayanagara, where he rendered some important military service. He was confirmed in the territory which he possessed and he made Masthi as his capital.

Chikka Tirupati (Malur Taluk) : in Malur taluk is an important place of pilgrimage. The Srinivasa Temple at this place is a fairly large structure with a Prakara and spacious courtyard in front.

Avani (Mulbagal Taluk) : This village is a place of considerable antiquity. Tradition has it that the region round about this place was formerly called *Avantika Kshetra* and was regarded as a place of great sanctity. According to a legend, the hill near this village was the residence of sage Valmiki, the author of the epic Ramayana. The hill is therefore known as Valmiki Parvata. Rama is said to have encamped here for some time on his way back from Lanka to Ayodhya. When banished by her husband, Sita is said to have taken refuge here and given birth to Lava and Kusha, the twins. This place is mentioned in a Bana inscription, the professed date of which is 339 A.D. In a later inscription it is called the Gaya of the south. *Shraddhas* (death anniversary) performed at the spring here (called Dhanushkoti) are supposed to be as meritorious as those performed at Gaya.

At Avani there is a large group of temples known collectively by the name Rameswara. They stand at the south-west corner of the hill and consist of about a dozen different buildings, all within a single courtyard, having two gates in the south and the east. Ten of these form a sub-group dedicated to different dieties like Shiva, Parvathi, Subramanya, Lakshmaneswara, Rameshwara, Bharateswara, Shatrugneswara, Anjaneyeswara, Sugriveswara and Angadeswara. The inscriptions here indicate that these temples go back to the period of the Gangas and some were renovated during the Chola period. The Lakshmaneswara temple is the most ornate temple in the coumpound.

To the east of the Avani hill two rocks are named after Rama and Lakshmana and another, called Totttalagundu, after Sita. She is said to have witnessed from the top of this rock the battle that raged between her sons on the one side and her spouse with his army on the other, over the sacrificial horse.

An annual festival lasting for a week is held in honour of Ramalingeswara from *Magha Bahula Chaturdashi* (March) and simultaneously a cattle fair is also organised.

Kudumale (Mulbagal Taluk) : At the foot of the hill called Kudumale are found the ruins of several large temples attributed to the famous temple builder Jakanachari. The Someshwara and Ganesha temples here are noteworthy; the corner is a splendid specimen of Dravidian architecture. The Ganesha temple is the oldest in the village and has a huge figure, about 3 metres high with pedestal. This place is said to have been known as Ganeshagiri, Kutachala and Yadavadhal in the *Krita, Treta* and *Dvapara Yuga* respectively. In the *Kaliyuga*, i.e. the present age, its name is said to be Kaundinya-Kshetra as it was the site of the hermitage of sage Kaundinya. The Kaundinya river, a tributary of the Palar, has its source here.

Nangli (Mulbagal Taluk) : This village was an important frontier station from the time of Hoysalas in the 12th century A.D. and is constantly enumerated among the conquests of Vishnuvardhana.

Melur (Sidlaghatta Taluk) : This village is known for the annual Gangadevi *jatra* which lasts for seven days in the month of *Chaitra* (March). A cattle fair is also held at the same time. This place is also a centre of silk filature industry.

Nallarallapalli (Sidlaghatta Taluk) : An annual car festival and a cattle fair are held here in honour of Ramalingeswaraswamy.

Sadali (Sidlaghatta Taluk) : Situated on the Sidlaghatta-Bagepalli road, the village is said to have been founded by Sahadeva, the youngest of the Pandava brothers and was therefore called Sahadeva-Patna, since abbreviated to Sadahalli or Sadali. It was annexed to the Sira Suba and was bestowed as Jagir to two Muslim chiefs who, privately disposed of it to Doddabaichegowda of Chikballapur in 1757. Finally it was seized by Haider Ali.

Hebbata (Srinivaspur Taluk) : This village, also called Hebbetta, is a place of antiquity which is referred to as Perbetta and Pervettam respectively in Kannada and Tamil epigraphs. Of the two old epigraphs found here, one refers to the reign of Ganga king, Sri Purusha and the other belongs to the Nolamba period. Another discovery of some interest in this village was a *yantra* stone of the 10th century, set up by an order of the Ganga king, Marasimha, for the benefit of the cattle of the village. The front portion of the stone has some mystical diagrams with certain letters in the interstices, while the rear portion has 32 small squares each containing words of Sarvatobhadra verse. It is generally believed that the water with which the diagram is washed is efficacious in curing cattle diseases.

Brief note on places of interest in and around the towns :

Bagepalli, also called Bagenahalli at times, is situated on the banks of Chitravati river and is close to the border of Andhra Prardesh. Chintamani is said to have been founded by Chintaman Rao, a Maratha Chief. Bangarapet was established in 1864 on the opening of the railway line to Bangalore and was named Bowringpet, after Mr. Bowring the then Chief Commissioner. Because of its proximity to the Gold Mines and being a railway junction, the place has gradually acquired considerable importance as a commercial and transport centre. Malur, said to have been known as Mallikapura or 'Jasmine town' has a history of more than four hundred years. It formed part of Tammegowda's chiefdom during the 16th century, was held by the *mansabdars* serving the Bijapur Sultanate, was administered by Marathas for some time and was taken by storm by Hrida Ram Singh, a Rajput Zamindar. In 1761, it was annexed by Haider Ali. The town is famous for the annual *Karaga* festival and also for the Shankaranarayana temple which enshrines a *linga* having the attributes of both Shiva and Vishnu. Robertsonpet owes its origin and development to the gold mining activity and it was only in 1964 that the present town was constituted into a separate unit for civic administration. Salient details relating to the remaining towns are presented below in brief.

Chikballapur : This town was founded in 1479 by Malla Baire Gowda, the youngest son of Baire Gowda the founder of the Avati line of chiefs. The necessary permission for erecting the fort and a petta (bazar) was obtained from the Vijayanagara sovereign. On the completion of the fort, Mari Gowda was appointed as the governor of the fort, Mari Gowda was appointed as the governor of Chikballapur. He and his descendants administered this territory for a little over 300 years. About forty years later, Haider Ali returned and captured the fort. The other forts were also captured in a row and the chief and his family were taken as prisoners and kept at Bangalore. Baiche Gowda, the proud, preferred death to saluting his conquerer.

Amongst the places of interest a mention may be made of the ruins of the fort on the Kalavara hill range besides a few temples that are of recent region. The Subramanyeswara temple has three cells enshrining Lakshmi Narasimha, Subramanya and *linga* called *Kukkelinga*. The Virabhadra temple, also known as Chinnappa's temple after the builder, is a large modern structure profusely decorated with stucco figures. About 4 km. to the north-east of the town there is a fine pond which is regarded as a holy *tirtha* as it is believed that Chitravati which rises in the Harihareswara hill to the west flows into it. Nearby there is the beautiful Halasamma's well and the temples of Kasi Visvesvara, Subramanya and Anjaneya.

Gauribidanur : At this place of great antiquity formerly known as Vidurur, it is believed that Vidura, uncle of the famous Pandava brothers and lived for some time. The peepal tree, he is believed to have planted as Kurugodu (about 6 km.) is known as Vidurashwatha and is an important pilgrim centre of Karnataka. This town is said to have been in the possession of the chiefs of Dadinayakana Palya. One of these chiefs gave it away as dowry to his daughter Gauri whereupon the town came to be called Gauribidanur. At this place there is the tomb erected in memory of Muslim saint Bakharivali and nearby at Hirebidanur there is the tomb of Husen Shah Mirza, one of the Bijapur nobles. The Husen Shah *darga* is popularly known as Nyamat Bi *darga* and it infact contains 4 tombs, those of Husen Shah Mirza, his wife Saidaani Bi, daughter-in-law Nyamat Bi and Sakina Bi, daughter of Nyamat Bi. The mosque close by is known as the Juma Masjid.

Of the temples in the town a mention may be made of that dedicated to Venkataramana. The idol here is more than a metre high and the *navaranga* has good figurines of the nine planets standing in 3 rows on a single pedestal. A fragmentary inscription may be seen at the entrance to this temple.

Gudibanda : The town takes its name from the fact that it is situated at the foot of a dome-like rock (bande) which is surmounted by a temple. This rocky hill and the temple are the main objects of tourist interest. The place enjoys some historical background also in that this neighbourhood was granted to Havali Baire Gowda by Khasim Khan when the latter captured Dod Ballapur and its surrounding territories. Havali Baire Gowda fortified a rocky hill now known as old Gudibanda and established himself. Later, he built the fort at the present site.

Kolar : This place under the name Kuvalala enjoys the reputation of having been the first Capital of the Gangas. Among the temples in the town that of Kolaramma is attributed to Rajendra Chola. It is a Dravidian structure with an imposing Mahadvara. The Makbara or Tomb of Fateh Mohammed, father of Haidar Ali is one of the principal old buildings. Near the darga there are tombs on which 2 Persian inscription are engraved.

The Hill nearby called Kolar Betta bears the regarding name Shata-Shringa Parvatha (the hundred peaked mountain). Though the hills present a barren and rocky appearance on all sides there is an extensive plateau on the top. On the eastern side of the hill there is a Perennial Spring called Antara Gange, that is, the Subterranes ganges.

Kolar Gold Fields : The town is well known for the Gold mining industry.

Mulbagal : Mulbagal is the corrupt from the Kannada name Mudalabagilu meaning the eastern gate. The town is situated at the eastern pass from the table land of Mysore to the famous temple of Tirupati. The nearby fortified hill has two epigraphs, one in Kannada and the other in Tamil. Its summit commands a fine view of the surrounding countryside. On this hill there are two gigantic boulders called Mahadevanagundu and Babaiyanagundu. There are also two ponds which are known as Rama-*tirtha* and Lakshmana-*tirtha* and are held sacred by the Hindus. The main objects of interest here are the temples of Anjaneya, Somesvara and Rama and the brindavana of Sripadaraya.

Sidlaghatta : Founded by Halasuramma in 1526, this town was named after her father-in-law Sidla Gauda. Of the two large tanks in the town one is attributed to Halasuramma and the other to her son and, these are called Ammanakere and Gaudanakere respectively. The local Anjaneya temple has some carved stones depicting the story of Daksha's sacrifice and these seem to have been brought from other ancient shrines and built into it. The other temples of some importance are those of Venkataramana and Chennakeshava. Sidlaghatta is now one of the important centres of sericulture industry in the State. Melur village in this taluk is known for annual Gangadevi Jatra which last for seven days.

Srinivaspur : Papanahalli is the former i.e. original name of this town. It is said that Dewan Purnaiya (1779-1810) gave the present name when he visited this place on his way back from a pilgrimage to Tirupati, to commemorate the name of his son Srinivasa Murthy. The site of an ancient city named Haralukote is pointed out at a place called Gulganpode about 3 Km. to the east of the town. Near this site, inscriptions of the times of Mahavali Banarasa and Vikramaditya were excavated a few decades ago. A Pallava inscription dated in 760 A.D. has also been discovered here.

(xiii) Scope of Village Directory and Town Directory

Village Directory

Village Directory provides micro-level data which will help the planners in formulation of micro-level developmental plans as the C.D.Block is the lowest administrative unit for developmental planning. Village wise information regarding the availability of certain basic amenities and facilities within the village, as also that on the manner of utilization of the land in the concerned village are furnished in the village directory. The village directory format adopted for the 2001 Census has 23 columns whereas in the 1991 Census there were only 18 columns. When compared with the 1991 Census Village Directory format, column 9 which refers to the day or days of weekly market/hat if any has been now

left out. New inclusions are in respect of facilities like banks, agricultural credit societies, non-agricultural credit societies, other cooperative societies, number of recreational and cultural facilities like cinema/video hall, sports club, stadium/ auditorium; receipt of news papers/magazines and the name of the most important commodities manufactured in the village. In all the 23 columns in this tabulation statement, first 3 columns relates to serial number, name of the village with location code and area of village while the next 2 provide information on total population and number of households in the village as per 2001 Census. The next 8 columns relate to basic amenities such as educational; medical; drinking water (potable); post, telegraph and telephone, commercial and cooperative banks, agricultural, non-agricultural and other credit societies, number of recreational and cultural facilities such as cinema/video hall, sports club and stadium/ auditorium and communications (bus service, railway station, waterway). Information in respect of approach to village, nearest town and distance in Kms., power supply, receipt of news paper/magazine, names of the most important commodities manufactured in the village are furnished in columns 14 to 18. Amenities available within the villages are shown in the respective columns and if a particular amenity especially Primary School, Middle School, College, Allopathic Hospital, PHC, MCW, Post Office, Telephone, etc., is not available in the village, the respective abbreviation is given and next to it in brackets the distance in broad ranges viz., <5 kms., 5-10 kms. and 10+ kms. of the nearest place where the facility available to that particular village is indicated. The next 5 columns, 19 to 23 provide information regarding land use (i.e., area under different types of land use in hectares rounded to two decimal places) such as forest, irrigated land by source of irrigation, un-irrigated, cultivable waste (including gauchar and groves) and finally the area not available for cultivation.

Town Directory

The Town Directory section contains seven statements (I to VII) which furnish information on all the statutory towns in the district, on aspects such as growth history, physical aspects and location of towns, municipal finance, civic and other amenities in the town, medical, educational, recreational and cultural facilities, trade, commerce, industry and banking in the towns, civic and other amenities in slum areas of the town. The scope of the various column headings adopted during 1991 Census has remained unchanged in 2001.

Note :

1. The area figure for the district given under column No 3 against " Total" represents "Geographical Area" and has been furnished by the Surveyor General India. The figures for the urban areas are either those supplied by civic administration authorities of the towns or compiled and supplied by the Director of Survey, Settlement and Land Records or compiled in this Directorate on the basis of the available records pertaining to the delimitation of urban units. Area figures for Rural Areas are derived by subtracting the Total Urban Area from the Total Area of the District.

The total of the area figures of all the C.D. Blocks/Taluks in this district will not tally with the district figures (except urban), because the area figures for C.D. Blocks/Taluks represents the land-use area based on village wise area figures as reported by the local officers. The total area of the taluk may not tally with the aggregate of the areas of the villages listed for Census purposes for it includes the area of the statutory as well as non-statutory towns, villages which may be fully submerged and reserve forests which may not form part of any revenue village, if any, within the jurisdiction of the concerned taluk. The total area of the C.D. Block is derived by subtracting the area of the statutory town or towns (within the jurisdiction of the concerned taluks) from the total area of the taluk.

2. Out growths of towns in urban agglomerations are denoted by letter "OG".

3. The following abbreviations have been used to indicate the Civic Administration Status of town.

M.Corp	:	*Municipal Corporation*
CMC	:	*City Municipal Council*
TMC	:	*Town Municipal Council*
TP	:	*Town Panchayat*
NAC	:	*Notified Area Committee*
CB	:	*Cantonment Board*
CT	:	*Census Town (Non-Municipal Census Town / Non-Statutory Town)*

SECTION – I

VILLAGE DIRECTORY

NOTE EXPLAINING THE ABBREVIATIONS USED IN THE VILLAGE DIRECTORY

The "Village Directory" is one of the traditional compilations of the Census. It gives the list of villages, their location numbers, their area, population, number of households, amenities such as educational, medical, drinking water, post and telegraph, commercial and cooperative banks, agricultural non-agricultural and other credit societies, recreational and cultural facilities, communication, approach to village, nearest town with a distance, power supply availability of newspaper and magazines, most important commodity manufactured and land use of each village.

Village is a statutory recognized unit having a definite boundary and separate land records. In case, a complete village is treated as an outgrowth of urban agglomeration, data on amenities for that village, have not been given in the Village Directory but shown along with the urban component. The villages which are considered as a Census Town , the amenities data are shown in the Town Directory. For those villages which have partly merged in an outgrowth of U.A., the amenities data are shown in the Village Directory for that particular village.

The 'uninhabited' villages (villages with no population) have been indicated as such after furnishing details in columns 1 to 3 i.e., Serial number, Name of village & location code number and area of the village against column no. 4 to 18. The land use data for such villages are shown in col. 19 to 23

The Village Directory format has 23 columns and the details given under each column are as follows :

Columns 1 : Serial Number

Self explanatory. All the villages within the CD Block are presented serially in the ascending order of their location code number.

Columns 2 : Name and Location Code Number of village.

The name and location code number of the village are shown against these columns. This also includes the forest and un-inhabited villages.

Column 3 : Area of the village

The area of the village in hectares are given. Wherever the area figures was not furnished by the concerned department the column is left blank.

Column 4 : Total population

The total population of the village as per 2001 Census is given against this column.

Column 5 : Number of households

The number of households as per 2001 Census is given in this column.

Amenities :

In column 6 to 23, availability in respect of different amenities such as education, medical, drinking water, post, telegraph, banks, credit societies, communication, power, approach road etc. in each village has been depicted with appropriate codes against the column concerned. Wherever the amenities are not available in the village, a dash (-) is shown in the column and next to it in brackets the distance in broad ranges viz.< 5 kms., 5-10 kms. and 10+ kms. of the nearest place where the facility is available is given. Column wise details are given below :

Column 6 : Educational

Classes upto class IV included in Primary School. This will include nursery school, kindergarten school. Pre-basic school, pre-primary school, junior basic school upto class IV.

Classes from V to VII are included in the middle school.

Classes from VIII to X included in Higher secondary school. Classes XI and XII are treated as equivalent to Pre-University Course.

In case of composite schools like middle school with primary school or secondary school with middle school, these are also included in the number of primary and middle schools, respectively.

Accordingly any of the following types of institutions if exists within the village is shown as per codes given below :

(i)	Primary School	P
(ii)	Middle School	M
(iii)	Secondary School	S
(iv)	Senior Secondary School	PUC
(v)	College	C
(vi)	Industrial School	I
(vii)	Training School	Tr
(viii)	Adult literacy class/centre	AC
(ix)	Others (specify) e.g. Sanskrit Pathshala, Senior basic school, Navodaya Vidyalaya, Makhtab, etc.	O

More than one institution of a type in the village is indicated by the number within brackets against the abbreviation, e.g. P(3), M(4), etc.

Column 7 : Medical

Availability of medical facility within the village is indicated by following codes :

(i)	Allopathic Hospital	H
	Ayurvedic Hospital	HA
	Unani Hospital	HU
	Homeopathic Hospital	H Hom
(ii)	Allopathic Dispensary	D
	Ayurvedic Dispensary	DA
	Unani Dispensary	DU
	Homeopathic Dispensary	D Hom
(iii)	Maternity & Child Welfare	MCW
(iv)	Maternity Home	MH
(v)	Child Welfare Centre	CWC
(vi)	Health Centre	HC
(vii)	Primary Health Centre	PHC
(viii)	Primary Health SubCentre	PHS
(ix)	Family Welfare Centre	FWC
(x)	T.B. Clinic	TB
(xi)	Nursing Home	NH
(xii)	Registered Private Medical Practitioner	RMP
(xiii)	Subsidised Medical Practitioner	SMP
(xiv)	Community Health Worker	CHW
(xv)	Others	O

More than one institution of a type in the village is indicated by the number within brackets against the abbreviations, e.g. H(3), D(4), etc.

Column 8 : Drinking Water

The type of the drinking water supply sources available within the village are indicated by codes as follows :

(i)	Tap Water	T
(ii)	Well Water	W
(iii)	Tank Water	TK
(iv)	Tubewell Water	TW
(v)	Hand pump	HP
(vi)	River Water	R
(vii)	Canal	C
(viii)	Lake	L
(ix)	Spring	S
(x)	Others	O
(xi)	Summer Source	SS

Column 9 : Post, Telegraph and Telephone

It is indicated by codes as shown below whether within the village exists the following amenities:

(i)	Post Office	PO
(ii)	Telegraph Office	TO
(iii)	Post & Telegraph Office	PTO
(iv)	Telephone Connection	PH

Column 10 : Commercial and Co-operative Banks

If the village is served by any banking service, commercial bank, co-operative bank etc. the same is indicated in codes mentioned below along with the number of banks in brackets. If not available the distance of nearest place where the facility exist is given:

(i)	Commercial Bank	CM
(ii)	Co-operative Bank	CP

Column 11 : Credit Societies

If the village enjoys the services of Credit Societies i.e. Agricultural Credit Societies, Non-Agricultural Credit Society or Other Credit Societies, the same is indicated in codes mentioned below along with the number of such societies in brackets. In case the facility is not available within the village the distance of the nearest place where such facility exist is given :

(i)	Agricultural Credit Society	ACS
(ii)	Non Agricultural Credit Society	NCS
(iii)	Other Credit Society	OCS

Column 12 : Recreational and cultural facilities

If facilities such as Cinema/Video hall, Sports Club, Stadium/Auditorium is available in the village, the same is recorded in these columns. If not available the particulars of the nearest place with the facility is recorded. The information is indicated in codes mentioned below along with the number of such facilities in brackets:

(i)	Cinema / Video Hall	CV
(ii)	Sports Club	SP
(iii)	Stadium / Auditorium	ST

Column 13 : Communications

If the village is served by any mode of public / private transport like Bus, Railway station or Navigable water ways they are mentioned as follows:

(i)	Bus	BS
(ii)	Railway Station	RS
(iii)	Navigable Waterway	NW

Column 14 : Approach to village

Approach to village refers to the state of road leading to village. The approach to the village is indicated in following codes :

(i)	Paved Road	PR
(ii)	Mud road	MR
(iii)	Foot path	FP
(iv)	Navigable River	NR
(v)	Navigable Canal	NC
(vi)	Navigable waterways other than River, Canal	NW

Column 15 : Nearest Town and distance

The distance is given in kilometers in brackets against the name of the town nearest to the village.

Column 16 : Power supply

Availability of Power Supply in the village, whatever may be the form of its use is given by using following codes :

(i)	Electricity for domestic use	ED
(ii)	Electricity for agricultural use	EAG
(iii)	Electricity for other purposes	EO
(iv)	Electricity for all purposes	EA

Column 17 : News Paper / Magazine

If the village receives any News Paper/Magazines, the same is noted in this column using following codes

(i)	News Paper	N
(ii)	Magazine	M

Column 18 : Most important commodities manufactured

The name of three most important commodities manufactured in the village is recorded against this column.

Column 19 to 23 : Land use i.e. area under different types of land use

Land use data maintained by the State/ UT Govts. are furnished against these columns. The data concerning area under Forest, Irrigated land (by source), Unirrigated land, Culturable waste and Area not available for cultivation in the village are shown against these columns. The area figures are given in hectare(s) up to one decimal. Dash "-" is recorded wherever the information is not made available by the concerned department. The codes used for different types of irrigation facilities available in the village are indicated below:

(i)	Government Canal	GC
(ii)	Private Canal	PC
(iii)	Well (without electricity)	W
(iv)	Well (with electricity)	WE
(v)	Tubewell(without electricity)	TW
(vi)	Tubewell(with electricity)	TWE
(vii)	Tank	TK
(viii)	River	R
(ix)	Lake	L
(x)	Waterfall	WF
(xi)	Others	O
(xii)	Total	T

The village directory also carries the following appendices.

Appendix-I	It gives the abstract of educational, medical and other amenities available in villages C D Block wise of the district.
Appendix-I-A	Indicates number of villages C D Block wise having one or more primary schools.
Appendix-I-B	Indicates number of villages C D Block wise having primary, middle and secondary schools.
Appendix-I-C	Shows number of villages C D Block wise with different sources of drinking water fa cilities.
Appendix-II	Indicates the list of villages with 5,000 and above population which do not have one or more important amenities.
Appendix-II-A	Indicates list of Census Towns which do not have one or more amenities.
Appendix-III	It gives the land utilization data in respect of Census Towns / non-municipal Towns.
Appendix-IV	C D Block wise list of inhabited villages where no amenity other than drinking water facility is available.
Appendix-V	Summary showing number of villages not having Scheduled Castes population.
Appendix-VI	Summary showing number of villages not having Scheduled Tribes population.
Appendix- VII-A, VII-B	The appendix shows the list of villages according to proportion of the Scheduled castes and Scheduled Tribes to the total population by ranges.
Appendix-VIII	Indicates C D Block wise number of villages under each Grama Panchayat.
Appendix-IX	Shows number of different types of girls school in a village.

LIST OF MERGED VILLAGES IN TOWNS AND OUTGROWTHS AT 2001 CENSUS
(AREA IN HECTARES 0.00)

TOWN DIRECTORY

(a) NOTE EXPLAINING THE ABBREVIATIONS USED IN THE TOWN DIRECTORY

Town Directory Statements (I to VII)

Statement I : Status and Growth History

Column (2) : Class, name and civic administration status of town

Class has been introduced to facilitate analysis of town directory data at the state and all India levels. It is presented according to 2001 Census Population of the town as follows :

Population	Class
100,000 and above	I
50,000 - 99,999	II
20,000 - 49,999	III
10,000 -19,999	IV
5,000 - 9,999	V
Below 5,000	VI

Town with a population of one hundred thousand (1,00,000)and above is treated as a city.

The civic administration status of the towns is indicated within bracket against the name of the town. The following abbreviations are used to denote civic status of town.

(i)	Municipal Corporation	M. Corp.
(ii)	Municipal Committee	MC
(iii)	Municipal Council	M Cl
(iv)	City Municipal Council	CMC
(v)	Town Municipal Council	TMC
(vi)	Municipal Board	MB
(vii)	Municipality	M
(viii)	Cantonment Board/Cantonment	CB
(ix)	Notified Area	NA
(x)	Notified Town	NT
(xi)	Notified Area Committee/ Notified Area Council	NAC
(xii)	Notified Town Area	NTA
(xiii)	Industrial Notified Area	INA
(xiv)	Industrial Township	ITS
(xv)	Township	TS
(xvi)	Town Panchayat	TP
(xvii)	Nagar Panchayat	NP
(xviii)	Town Committee/ Town Area Committee	TC
(xix)	Small Town Committee	ST
(xx)	Estate office	EO
(xxi)	Gram Panchayat	GP
(xxii)	Census Town	CT

Others columns need no comments.

Statement II Physical Aspects and Location of towns, 1999

Column 3 to 5 : Physical Aspects

In this columns the Rainfall and Maximum & Minimum Temperature of the town is recorded.

Column 6, 7 and 8

Name of the State headquarters, District headquarters and Sub-Divisional headquarters with distance from the referent town in kilometers, is to be recorded respectively. If the names mentioned in these columns are the same as the referent town itself, the distance is recorded as (0) zero.

Column 9 & 10

Name of the nearest city with one lakh and more and five lakhs and more population are recorded.

Column 11, 12 and 13

If referent town enjoys the facility of railway station, bus route facility or navigable river/canal. Its name is to be mentioned. If not available, then the name of nearest place with distance, where such facility exists is to be mentioned.

Statement III : Municipal Finance 1998 – 1999

Itemwise amount of receipt and expenditure in thousand rupees, relating to municipal finance of the town for the year 1998-99 is to be recorded.

Statement IV : Civic and Other amenities, 1999

Column (1 to 5) : Self explanatory

Column (6) : Road length (in kms.)

Information about kutcha / pucca road is to be recorded separately for the roads within the limits of the referent town.

(i)	Pucca Road	PR
(ii)	Kutcha Road	KR

Column (7) : System of Sewerage

Generally, by sewerage system is implied the network of mains and branches of underground conduits for the conveyance of sewerage to the point of disposal. Sewers that carry only household and industrial wastes are called separate sewers, those that carry storm water from roofs, streets and other surface are known as storm water drains, while those carrying both sewage and storm water are called combined sewers.

The codes used for different types of drainage system are as follows :

(i)	Sewer	S
(ii)	Open Surface Drains	OSD
(iii)	Box Surface Drains	BSD
(iv)	Sylk Drains	SD
(v)	Cesspool method	CP
(vi)	Pit System	Pt
(vii)	Others	O

Column 8 to 11 : Number of latrines

Number of various types of latrines both Public and Private are given in these columns.

Column 12 : Method of disposal of night soil

The various prevalent method of disposal of night soil are given below with codes :

(i)	Head Loads	HL
(ii)	Basket	B
(iii)	Wheel Barrows	WB
(iv)	Septic Tank	ST
(v)	Pit System	Pt
(vi)	Sewerage	S
(vii)	Others	O

Column 13 and 14 : Water supply

Source and capacity of storage system. The following codes are used in these columns:

Column 13 :

(i)	Tap water	T
(ii)	Tubewell water	TW
(iii)	Tank Water	TK
(iv)	Well water	W

Column 14

(v)	Over Head Tank	OHT
(vi)	Service Reservoir	SR
(vii)	River Infiltration Gallery	RIG
(viii)	Bore Well Pumping System	BWP
(ix)	Pressure Tank	PT

The information on major source of water supply are given in column 13 and the storage capacity against each in kilolitres (in bracket) are presented in column 14.

Column 15 : Fire Fighting Service

In case the fire fighting service is available in the referent town 'yes' is recorded. If the facility is not available within the town. The name of the nearest place having this facility with its distance from the referent town has been recorded.

Column 16 to 20 : Electrification (Number of connections)

Different types of electric connections have been shown in these columns, i.e. Domestic, Industrial, Commercial, Road lighting (points) & others.

Statement V : Medical, Educational, Recreational and Cultural Facilities, 1999

Column 1 to 3 : Self explanatory

Column 4 & 5

The data covers all such medical institutions run by or aided by Government/Semi Government/Local bodies and Charitable institutions or Social agencies like the Missionaries. Where the family planning centres are attached to hospitals or maternity and child welfare centres or Primary Health Centres, may be treated as independent units and counted separately using following codes :

(i)	Hospital	H
(ii)	Dispensary	D
(iii)	Health Centre	HC
(iv)	Family Welfare Centre	FWC
(v)	T.B. Clinic	TB
(vi)	Nursing Home	NH
(vii)	Others	O

In case of more than one institutions of any type, it is indicated within brackets the number of such institution (s) e.g. D(3), NH(8), etc. The institutions have further been distinguished by providing additional codes within the bracket as given below :

(i)	Ayurvedic	A
(ii)	Unani	U
(iii)	Homoeopathic	Hom

Column 6 to 9

The codes used for these columns are as follows:

(i)	Arts only	A
(ii)	Science only	S
(iii)	Commerce only	C
(iv)	Arts & Science only	AS
(v)	Arts & Commerce only	AC
(vi)	Combined for all categories Arts, Science and Commerce	ASC
(vii)	Law	L
(viii)	University	U
(ix)	Others	O

Column 10 : Recognized shorthand, typewriting and vocational training institutes

"Recognised" should mean recognised by some statutory authority, like education department, commerce department, labour department etc. of the government or semi government or autonomous bodies, public sector undertakings etc.

The following codes are used :

(i)	Vocational Training Institute	VT
(ii)	Shorthand	SH
(iii)	Typewriting	Type
(iv)	Shorthand & Typewriting	SH Type
(v)	Others	O

The vocational institutions like Applied Art/ Painting college, Pharmacy college, B. Ed. College, Teacher's Training Institute, Music / Dance School, Nursing School etc. are covered under 'Others'.

Column 11 to 14

Higher Secondary/Intermediate/ Senior Secondary/PUC/Junior College level, Secondary/ Matriculation, Middle Schools/ Junior Secondary and Primary Schools.

School up to class V are treated as Primary or elementary schools. These include Nursery schools, Kindergarten schools, PrePrimary schools, Junior Basic schools upto class V and Primary schools upto class IV.

Schools upto VIII are considered as Middle school or Junior Secondary.

Schools upto class X are considered as Matriculation or Secondary schools.

Schools upto XI or XII classes are considered as Higher Secondary / Intermediate / Pre University / Junior College etc. This would cover 10+2 classes whether held in schools or college.

If there are composite schools like middle schools with primary classes or Secondary schools with Middle classes, these are also included in the number of Primary and Middle schools, respectively. For example, if in a town, there are two Primary Schools and one Middle school with Primary classes, the number of Primary schools in the town is given as three and that of Middle schools as one though there are only three educational institutions.

If there are more institutions of a type in the town, the number is indicated within bracket along with the abbreviation, e.g. P(4), M(3).

Column 15 : Adult literacy class/centres

This column has been introduced keeping in view the Minimum Needs Programme of the Planning Commission. There are number of Adult Education Centres which are included in these columns.

If an educational facility is not available in the town, the name of the nearest place and its distance in kilometres from the town where the facility is available is mentioned.

Column 16 : Working Women's hostels with number of seats

The number of working women's hostel if available in the referent town is mentioned with number of seats. If the facility is not available in the town the name of nearest place with distance where the facility is available is recorded.

Column 17 to 19 : Recreational and Cultural Facilities

Stadium, Cinema, Auditorium/Drama/ Community Hall are covered under recreational & cultural facilities. The particulars of permanent recreational facilities are considered for these columns.

Column 20 : Public Libraries, Reading Rooms

Number of public libraries and reading rooms available in the referent town are recorded in codes as follows :

(i)	Public Library	PL
(ii)	Reading room	RR

Statement VI : Trade, Commerce, Industry and Banking, 1999

Column 3 to 8 : Name of three most important commodities exported and names of three most important commodities manufactured in the town are recorded.

Column 9 : Number of Banks

Number of Banks available in the referent town both Commercial and Cooperative banks are recorded against this column.

Column 10 & 11 : Number of Agricultural Credit Societies and Non Agricultural Credit Societies

The total number of Agricultural Credit Societies and Non Agricultural Credit Societies in the referent town are recorded against these columns.

Statement VII : Civic and other Amenities in Slums, 1999

This is the statement on civic and other amenities in all slums whether notified or not and for all towns having statutory bodies, like municipality, Municipal Corporation, Town area committee etc.

(a) Brief note on Primary Census Abstract

The first census of the third millennium and twenty first century the Census of India, 2001 was the 14th continuous and uninterrupted Indian census since 1872. Thus, 2001 Census will provide data on population and its characteristics marking transition from one century and millennium to another.

The gigantic operation of Population Enumeration (considered by many to be the single largest and complex peace time administrative exercise in the world) was made possible due to the door to door universal canvassing of the Household Schedule by about 2 million enumerators and supervisors covering 593 districts, 5,463 sub-districts, 5,161 towns and 638,588 villages. The comprehensive Household Schedule which replaced the individual slip had three parts and two sides A and B. Part I contained the Location Particulars; Part II related to the Individual Particulars and Part III contained questions for Household engaged in Cultivation/Plantation. The part II of the Household Schedule had 39 columns and 23 questions all of which were universally canvassed and no sampling was resorted to during enumeration.

Data Processing

A quantum leap was made in the technology front while processing the Census 2001 data both for Houselisting and Population Enumeration. The Census schedules for both the phases were scanned through high speed scanners in fifteen data centers across the country and hand-written data from the schedules were converted into digitized form through Intelligent Character Reading (ICR) software for creation of ASCII records for further processing. The designing and formatting of the Household Schedule had to be done very carefully using specialized software so as to ensure uniformity, which was an essential pre-requisite for scanning. The selection of appropriate state-of-art technology in data processing has made it possible to produce all the Houselisting as well as Population Enumeration tables on full count basis for the first time in the history of Census. For Census 2001, about 202 million schedules consisting of about 1,028 million records were scanned and processed within a span of only 10 months starting October, 2002.

Task Force on Quality Assurance

After the data is processed, it is expedient on the part of the data producing agency to satisfy itself about its quality before putting the same in public domain. This has to be done mainly through the process of internal consistency, comparison with similar data in the past and also through validation with likewise data if available, from external sources. Quite often the local knowledge and perception has to be brought into play to understand both the existing and the new emerging trends of population distribution and characteristics. The other very important aspect of the data quality is to ensure complete coverage of all geographical areas especially for the population enumeration phase where the data is disseminated right up to the village level in the rural areas and the ward level in the urban areas. Thus ensuring the complete coverage and correct geographical linkage of each enumeration block was one of the major planks of the quality control, specially for small area population statistics.

A very comprehensive check and edit mechanism was put in place to objectively examine the preliminary Census 2001 Population Enumeration results and finally clear them for use. The responsibility of the final clearance of data was with the Task Force on Quality Assurance (TFQA), headed by the Registrar General and Census Commissioner, India. The other members of the TFQA were the Heads and senior officers of the Census Division, Data Processing Division, Map Division, Demography Division and Social Studies Division. The Directors of Census Operations were co-opted as members whenever the TFQA discussed the data for their States/Union territories. The Directors and their senior officers were required to make detailed presentations of data for their own state both in respect to the quality and the coverage and only after the full possible cleared.

There has been a major departure in Census 2001 from the past in respect of the procedure followed for finalization of the Scheduled Castes and the Scheduled Tribes population. In the earlier censuses, the total Scheduled Castes and Scheduled Tribes populations were finalized at the time of the manual compilation of the Primary Census Abstracts (PCA) at the Regional Tabulation Offices which were specially set up for this purpose. The individual Scheduled Castes and the Scheduled Tribes population for each state was finalized much later based on manual coding done by the coders. In 2001 Census, each individual Scheduled Caste and the Scheduled Tribe have been coded directly on the computers by the Data Entry Operators through a process known as Computer Assisted Coding (CAC) and taken up along with the processing of PCA data. The CAC process involves pulling down, from the relevant dictionary of the Scheduled Castes and the Scheduled Tribes, on the computer screen and coding from the dictionary by referring to the image of the specific individual entry in the Household Schedule appearing on the screen. The CAC of the response on Religion wherever required, was also undertaken along with the processing of PCA. This is because the Scheduled Castes status had to be determined in relation to the religion of the individual. Two Special Task Forces, one on Religion and the other on Scheduled Castes/Scheduled Tribes were constituted for scrutiny and appropriate classification of these responses.

The main task of the Special Task Force on Religion was to appropriately merge or group the new responses encountered and code it into the appropriate religious community based on available literature and local knowledge. The Special Task Force on Scheduled Castes and Scheduled Tribes examined the different Scheduled Castes and Scheduled Tribes entries encoun-tered and classified these into appropriate category of the Scheduled Castes or the Scheduled Tribes principally based on the Presidential Notification and the available literature. Thus a very systematic and scientific mechanism was operationalised to firm up the individual religion and the individual Scheduled Castes/Tribes returns. The Scheduled Castes and the Scheduled Tribes population in 2001 Census, is thus being finalized by aggregating the population data for individual Scheduled Castes and the Scheduled Tribes at appropriate geographical levels.

The entire work relating to the data validation and scrutiny was completed by all the States/Union Territories under the overall supervision and monitoring of the Census Division of the Office of the Registrar General, India with active cooperation and support of the Social Studies Division, Data Processing Division, Data Dissemination Division and Map Division.

Primary Census Abstract

The Primary Census Abstract which is yet another important publication of 2001 Census gives basic information on Area, Total Households, Total population, Scheduled Castes, Scheduled Tribes population, Population in the age group 0-6, Literates, Main workers and Marginal workers classified by the four broad industrial categories, namely, (i) Cultivators, (ii) Agricultural laborers, (iii) Household Industry Workers, and (iv) Other workers and also Non-workers. The characteristics of the Total population includes Scheduled Castes, Scheduled Tribes, Institutional and Houseless population and are presented by sex and rural-urban residence. This data is presented at different levels, namely, India, States/ Union territories, Districts and Cities, Urban Agglomerations (Population 1,00,000 and above) in three different tables. In addition, the Appendix of said publication provides Houseless and Institutional Households and their population by residence and sex for 2001 for India, State and Union territory.

Apart from the India and State/Union Territory volumes for Primary Census Abstract, the District Census Handbook contains District Primary Census Abstract, Appendix to District Primary Census Abstract, Primary Census Abstract for Scheduled Castes, Primary Census Abstract for Scheduled Tribes, Village Primary Census Abstract and Urban Primary Census Abstract of the concerned district in the state.

It was for the first time at the 1981 Census that the Primary Census Abstract (PCA) was brought out for the Scheduled Castes and the Scheduled Tribes separately on the pattern of General Primary Census Abstract. This practice was continued in 1991 also. In the 1961 and 1971 Censuses, such data were made available in Table C-VIII-Social and Cultural table and to some extent in the series 'Special Tables for Scheduled Castes/Scheduled Tribes'.

The format of Primary Census Abstract has been restructured slightly in the 2001 Census as compared to that of 1991 Census. The nine-fold industrial classification of main workers given in the Primary Census Abstract of 1991 Census has been discontinued and its place, four-fold industrial classification of both 'main workers' and 'marginal workers' are included. In 1981 census only main workers were presented in to four categories. One of the novel features of the primary census abstract of 1991 Census was the presentation of data of the population of age group 0-6 is continued in 2001 Census also. This will help the data users in better analysis and understanding of this literacy data.

Level of presentation in District Census Handbooks:

The Primary Census Abstract data in different PCAs are presented at different levels. The level of presentation of Primary Census Abstracts are as under:

Name of the Primary Cenus Abstract	Level of presentation
1. District Primary Census Abstract	District/CDBlock/UA/City/Town
2. Primary Census Abstract for Scheduled Castes	District/CDBlock/Town
3. Primary Census Abstract for Scheduled Tribes	District/CDBlock/Town
4. Village Primary CensusAbstract	CD Block/Villagewise
5. Urban Primary Census Abstract	Town/WardLevel

The PCA Data for villages was presented CD Block wise for the first time in 1991 Census. This practice is continued in 2001 Census also. The data for each CD Block is presented both for rural and urban areas separately. All the villages within the CD Block constitute the rural portion and the Census Towns and Outgrowths are shown under the urban portion of the CD Block. In case a CD Block is spread over two or more districts, than portion which falls within the district is presented, the data pertaining to remaining portion of the CD Block is presented in the concerned District Census Handbook. The data in the Urban Primary Census Abstract for each town as well as for town with outgrowths in the district are presented. The data for all the wards and the outgrowths of the town(s) are also presented separately below the concerned town(s).

The District Primary Census Abstract is presented in 59 columns. The Primary Census Abstract for Scheduled Castes and Primary Census Abstract for Scheduled Tribes are presented in 52 columns. The Village Primary Census Abstract and Urban Primary Census Abstract are presented in 58 columns.

The concepts and definitions used in the column heading are explained under the sub heading 'Census Concepts' in the Analytical Note. The term 'Total Population' includes the Scheduled Castes, the Scheduled Tribes, the Institutional and the Houseless populations. The explanation regarding area figures presented at various level in the Primary Census Abstracts are as follows:

Area Figures

The area figures supplied by local revenue authorities of the district in respect of taluks,, Police Stations and by the local bodies in respect of towns are given in square kilometers. The area figures of the villages supplied by the Tahsildars in acres have been converted and shown in hectares. The area figures of the CD Block is the total of the village areas coming under each CD Block. The area figures for the district are the same as adopted by the Surveyor General of India to maintain uniformity at the national level. The total area figures of all the taluks/CD Blocks within the district may not tally with area figures of the district because former represents land use area only. Similarly, the total of all the villages may not tally with the entire rural of Police Station/Taluk. The difference may be due to the fact that while the area covered by hills, forests and rivers etc, have been accounted in the Taluks and P.S. level the same may not be covered under the area of the villages. Apart from this it may also differ due to varying methods of computation adopted at different levels.

An appendix to District Primary Census Abstract has also been furnished showing urban enumeration block-wise particulars on Total Population, the Scheduled Castes Population and the Scheduled Tribes Population for each town.

Note on Fertility & Mortality and Migration - 1991 & 2001 Census

Note on Fertility & Mortality and Migration - 2001 Census

Fertility levels

In demography, the word fertility is used in relation to the actual production of children or 'occurrence of births specially live births'. Fertility is a measure of rate at which population adds to itself by births and normally assessed by relating number of births to size of some section of the population, such as number of married couples or number of women of child bearing age. In other words, it is a major component of population growth. In the 1991 census, questions on fertility related to age at marriage, number of surviving children at present, number of children ever born alive and children born alive during the last one year were asked. The first three questions were asked to all ever-married women and the last question related to currently married women. The measures of fertility worked out are based on the F-Series Tables of 1991 Census pertaining to Karnataka state and are defined as below: -

Migration

What is Migration?

Migration is the third component of population change, the other two being mortality and fertility. A person is considered as a migrant by place of birth if the place in which he is enumerated during the census is other than the place of birth. Similarly a person is considered as a migrant by place of last residence if the place in which he is enumerated during the census is other than his place of immediate last residence.

Internal and International migration

The migrational movements are of three types (i) Migration within the state itself with its components (a) Migration within the district of enumeration (intra district migration), (b) Migration from one district of state to another district of state (inter district migration), (ii) Migration from one state to another state of the country (interstate migration), (iii) Migration from one country to another country. The first two streams together constitute internal migration, while the last type of movement is called international migration.

Why people migrate?

As in 1981 census, the reasons for migration were elicited in 1991 and 2001 census also. The reasons for migration were broadly categorized as (1) employment (2) business (3) education (4) family moved (5) marriage (6) natural calamities like drought, floods etc. and (7) other reasons. Reasons for migration have been elicited only with reference to movement from place of last residence.

Impact of migration

Growth of population of a particular place depends upon natural increase due to excess of births over deaths and migration. Knowledge of trends in migration helps in future planning of a region.

Marriage and age at marriage are important social phenomena and crucial factors in the analysis of the dynamics of fertility. As such, various measures of fertility estimated based on these crucial factors are highlighted in the above table.

Estimates of General Fertility Rate (GFR) a refined measure of fertility, defined as the number of live births per thousand women in the reproductive age-group 15-49 years is a useful tool for measuring fertility, and this rate is further estimated only for the married women which is defined as General Marital Fertility Rate (GMFR). The GFR and GMFR for the district are 122 and 157 respectively.

The cumulative value of the age-specific fertility rates at the end of the child bearing ages gives a measure of fertility known as Total Fertility Rate (TFR). It indicates average number of children expected to be born per woman during her entire span on reproductive period assuming that the age specific fertility rates to which she is exposed to, continue to be the same and there is no mortality. The same is expected for married women known as Total Marital Fertility Rate (TMFR). The estimated TFR and TMFR for the district are 3.89 and 5.44 respectively. The Crude Birth Rate (CBR) is 30.07.

The most useful indices that can be derived from the question on number of Children born alive is the average number of children ever born per ever married women by age-group. Since most of the women complete their reproduction be the age-group 45-49, this indices is termed as completed fertility. The category ever married includes widows, divorced and

separated women. As such the completed fertility for the district is 4.26. The child women ratio which is a relative measure to know the fertility performance of a women is 441 in the district.

One of the parameters, presenting female age at marriage relates to all women who live with their husbands, where some of them might have been recently married and some of them decades ago. It can be observed that mean age at marriage of the currently married women of Kolar district is higher than the state figure of 18.00.

The estimates of mortality indicators presented above have been obtained through indirect estimation using the data on the number of children ever born and number of children surviving to ever married women. The information on questions on children ever born and children surviving canvassed for all ever married woman have been tabulated by the age of the mother. This data has been converted into estimates of probability of dying before attaining a given age. These estimates have been worked out using Brass technique where (q_i) is the probability of a newborn child dying before the age i = 1, 2, 3 and 5. The table above shows the estimates of infant and child mortality derived for the year 1991 by sex.

The infant mortality rate (q_1) for the person is 56 and for male and female are 54 and 57 respectively. The estimates of under 5 mortality (q_5) for person is 100 and for male and female are 101 and 99 respectively.

ANNEXURE - IV

PERCENTAGE DISTRIBUTION OF MIGRANTS BY PLACE OF BIRTH/PLACE OF LAST RESIDENCE, 1991 AND 2001 CENSUSES

Source : Migration Tables of 1991 & 2001 Census

The Anenxure IV(1) presents data of migrants on migration by their place of birth. The majority of migrants are those who are born within the state of enumeration, which constitute 85.51 per cent as per 2001 Census. Among them, migrants born elsewhere in the district are larger than migrants born in other districts of the state. Considerable proportion of population from other state have migrated to the district. The variations during the decade among different categories can be seen from the annexure.

ANNEXURE IV (2) - PERCENTAGE DISTRIBUTION OF IN-MIGRANTS BY PLACE OF LAST RESIDENCE

Sl. No.	Place of Last Residence	1991 Census			2001 Census		
		Persons	Males	Females	Persons	Males	Females
1	2	3	4	5	6	7	8
1	Last residence within the state of Enumeration but outside the place of enumeration	483,959	115,352	368,607	555,687	119,955	435,732
		83.27	19.85	63.42	86.11	18.59	67.52

Source : Migration Tables of 1991 & 2001 Census

The Annexure IV(2) presents data on migration by their place of last residence. As far as the district is concerned, it can be seen that migrants whose place of last residence was within the state of enumeration

but outside the place of enumeration, constitute major proportion of migrant population. As per 2001 Census, their percentage accounts for 86.11. Among them, more is the inflow from within the district. Considerable proportion from other state have migrated to the district. The variations during the decade among different categories can be seen from the annexure.

ANNEXURE IV (3) - INTERSTATE IN-MIGRATION TO KOLAR DISTRICT

Place of Birth	1991 Census		2001 Census	
	Migrants	Percentage of to total migrants	Migrants	Percentage of to total migrants
1	2	3	4	5
Andhra Pradesh	59,240	62.91	60,573	67.72
Kerala	2,860	3.04	2,233	2.50
Maharashtra	860	0.91	523	0.58
Tamil Nadu	28,753	30.54	22,908	25.61
Rajasthan	0	0.00	938	1.05
Total for 5 states	91,713	97.40	87,175	97.46
Other states	2,450	2.60	2,274	2.54
Total	**94,163**	**100.00**	**89,449**	**100.00**

The interstate in-migration to the district by their place of birth provided above, highlights the States with the largest contribution of migrants to the district. According to 2001 Census findings, large inflow of migrants are mainly from Andhra Pradesh which constitute 67.72 per cent followed by 25.61 per cent from Tamilnadu. Migrants from Kerala accounts for 2.5 per cent. Further the category migrants from `Other States' has marginally come down by 0.06 per cent.

ANNEXURE IV(4) - RURAL AND URBAN COMPOSITION OF INTERNAL MIGRANTS BY PLACE OF BIRTH - 1991 & 2001 CENSUS

Place of Birth	Place of Enumeration-1991			Place of Enumeration-2001		
	Total	Rural	Urban	Total	Rural	Urban
1	2	3	4	5	6	7
1. Within the state	475,629	352,548	123,081	535,743	397,732	138,011
	100.0	74.1	25.9	100.0	74.2	25.8
2. In other states of India	94,163	56,177	37,986	90,549	57,499	33,050
	100.0	59.7	40.3	100.0	63.5	36.5

Rural and urban composition of internal migrants by their place of birth is provided in the above statement. The data for both the Census points out that majority of migrants within the State as well as from other states of India have migrated to rural areas of the district.

ANNEXURE - V

Brief account of Main Religions in the District / Taluk as per 2001 Census

Religion forms an integral part of Indian Social System. For an Indian, it is a way of life rather than a faith. Indian Census, since its inception is collecting data on religion and presenting the same in its reports. In the pre-independence Census reports, the data on religion was being presented for 6 major religions viz., Hindus, Muslims, Christians, Sikhs, Jains and Buddhists. Besides, the minor religions have been classified under the category of 'Others'. The data on religion collected and presented by the Indian Census is the basic data of immense use for the researchers, anthropologists, sociologists, demographers, administrators, planners and even for a common man.

ANNEXURE V (1) - PERCENTAGE DISTRIBUTION OF POPULATION BY MAJOR RELIGIONS IN INDIA AND KARNATAKA DURING 1991 AND ITS GROWTH RATE DURING 1981-91 & 1991-2001

Sl. No.	Religion	India				Karnataka			
		Percentage of Population	Percentage growth rate 1981 - 1991	Percentage of Population	Percentage growth rate 1991 - 2001	Percentage of Population	Percentage growth rate 1981 - 1991	Percentage of Population	Percentage growth rate 1991 - 2001
1	2	3	4	5	6	7	8	9	10
1	Hindus	82.4	22.3	80.5	20.0	85.5	20.7	83.9	15.3
2	Muslims	11.7	26.1	13.4	29.3	11.6	25.7	12.2	23.5
3	Christians	2.3	16.9	2.3	22.1	1.9	11.1	1.9	17.4
4	Sikhs	2.0	24.2	1.9	16.9	Ng	57.8	0.0	51.7

6	Jains	0.4	3.9	0.4	26.0	0.7	14.6	0.8	26.5
7	Others	0.4	13.1	0.6	111.3	Ng	51.0	0.2	1,725.5
8	Religions not stated	0.6	573.4	0.1	76.3	0.1	8,242.0	0.3	232.9

India - State differentials

The comparative data of the country and the state of Karnataka presented in Annexure V(i) reveals that the religion wise concentration of population in the state of Karnataka is of three major religions viz., Hindus, Muslims and Christians. Hindus are returned on the higher side with over three per cent more than the national average. Christians recorded nearly one per cent less whereas the proportion of Muslims in the state to national population was almost the same. There are 85.5 per cent Hindus, 11.6 per cent Muslims and 1.9 per cent Christians in Karnataka as against that of 82.4 per cent Hindus, 11.7 per cent Muslims and 2.3 per cent Christians in India. In regard to concentration of other three major religions viz., Sikhs, Buddhists and Jains it is observed that Jains with 0.7 per cent form the fourth major religion in the state whereas Buddhists with 9.8 per cent is the third major religion in India. In the Indian scene the Sikhs form fifth major group, whereas in Karnataka, Buddhists and Sikhs are placed fifth position.

Religion wise growth in the state during the decade 1981 - 91 reveals that the major religions viz., Hindus, Muslims and Christians recorded a growth rate in lesser degree i.e., 20.7 per cent, 25.7 per cent and 11.1 per cent respectively, against that of 22.3, 26.1 and 16.9 per cent in India as a whole. On the other hand Buddhists, Sikhs and Jains recorded a growth rate of 72.8 per cent, 57.8 per cent and 14.6 pecent respectively for the state against that of 34.0, 24.2 and 3.9 per cent respectively for India. Thus, the Jains recorded a higher growth of nearly 11 per cent in the state than that of India as a whole during the decade 1981 - 91.

Percentage distribution of population during 2001 Census, by major religions in India and Karnataka shows that Hindus form majority of the population with 80.5 and 83.9 per cent respectively, while Muslims form 13.4 and 12.2 per cent for the country and state respectively. The proportion of these religions for the country and state, during 1991 Census was 82.4 per cent and 85.5 per cent for Hindus and 11.7 and 11.6

per cent for Muslims. There is not much noticeable changes are found in other regions. Persons who have not reported to which religion or faith they belong to has increased in Karnataka, as its proportion to the total population has increased from 0.1 per cent in 1991 Census to 0.3 per cent during 2001 Census.

ANNEXURE V(2) - DISTRIBUTION OF POPULATION UNDER EACH RELIGION TO TOTAL POPULATION IN THE DISTRICTS OF KARNATAKA - 1991 CENSUS & 2001 CENSUS

The above table furnishes the composition of six major religions along with 'Other Religions' and 'Religion not stated' among the districts of the state during 2001 Census along with 1991 Census. As may be seen from the table that the proportion of population to total population during 2001 Census is below 5 per cent for 23 districts of the state and is between 5-10 per cent in 3 districts. Only Bangalore district has the distinction of having more than 10 per cent of the total population of the state in its jurisdiction. During 1991 Census the situation was almost similar with 22 districts having a proportion of less than 5 per cent and 4 districts had more than 5 per cent but below 10 per cent. With 10.76 per cent of the total population Bangalore district occupied the top position.

Of the total population of the state, proportion of districts having Hindus and Muslims was uniform during both the Censuses i.e. less than 5 per cent of the total population in 21 districts for Hindus and 23 districts for Muslims, while in 5 and 3 districts respectively for Hindus and Muslims had a proportion of 5-10 per cent and Bangalore district alone had more than 10 per cent.

State - District variation

ANNEXURE V(3) - PERCENTAGE AND DISTRIBUTION OF POPULATION BY MAJOR RELIGION IN KARNATAKA AND KOLAR DISTRICT - 1991 & 2001

Religion	Karnataka				Kolar			
	1991		2001		1991		2001	
	Number	Percentage	Number	Percentage	Number	Percentage	Number	Percentage

Sikhs	10,101	Ng	15,326	0.03	258	0.01	341	0.01
Others	6,325	Ng	115,460	0.22	94	0.00	266	0.01
Religion not stated	36,121	0.10	120,247	0.23	368	0.02	2,982	0.12

The percentage distribution of population by major religion in Karnataka and Kolar district for 1991 and 2001 Censuses are presented in the above table. As may be seen from the table that in Karnataka, Hindus

form 85.5 and 83.86 per cent of the total population during 1991 and 2001 Censuses, followed by Muslims and Christians. The corresponding statistics for the district does not differ much as Hindus and Muslims occupy the top two places followed by Christians. These three religion cover more than 98 per cent of the total population of the district. Remarkable increase in the proportion of Buddhists population has been noticed between 1991 and 2001 Censuses in the State.

ANNEXURE V(4) - DISTRIBUTION BETWEEN RURAL AND URBAN AREAS OF MAJOR RELIGIONS IN KARNATAKA AND KOLAR - 1991 & 2001

Rural - Urban differentials

Distribution of major religion by residence for the State and district are presented in the above statement. Majority of Hindus, Jains, Buddhists and those who have not stated their religion are residing in rural areas of the State during both the Censuses. While population belonging to Muslim, Christian and Sikh religion reside in urban areas of the State. As far as the district is concerned, according to 2001 Census data, Hindus and those who have not stated their religion live in rural areas. All other major religions are concentrated in urban areas. The same trend is seen during 1991 Census.

A - Absolute, **P**-Percentage

District - Taluk variation

Talukwise distribution of population following major religion is presented above. As far as the district is concerned, majority of the population follow Hindu faith in all the taluks. This is followed by Muslims and Christians in Kolar district. A comparison between 1991 and 2001 Census data expose marginal variations in different faiths persuaded by the population during the decade.

It may be seen from Annexure VI that the percentage of "Never Married" population accounts for 49.24 per cent and 47.51 per cent at state and district levels during 2001 Census, while the same was 52.05 per cent and 50.67 per cent during 1991 Census. Similarly the percentage figures of the district for Married, widowed and Divorced or Separated are 47.07, 4.94 and 0.48 per cent during 2001 Census. Comparative data for 1991 Census is also furnished in the table for ready reference. The percentage variation of all the marital categories between rural and urban is marginal in both state and district population.

The level of education by sex for the district and the State during 1991 and 2001 Census are presented in the above annexure. It can be seen that percentage of illiterates during the decade has decreased vis-a-vis for the State and the district. Though the male literates out number females, the percentage of women folk acquired literacy during the decade is more than the male population. The comparison of data for the two censuses reveals it so for the State and the district. The different educational level attained by the population can be seen in detail in the above annexure.

ANNEXURE - VIII

DISTRIBUTION OF DIFFERENT MOTHER TONGUE RETURNED DURING 1991 & 2001 CENSUS

As part of Census publication programme the data on spoken languages/Mother Tongues will be presented under C Series. The table C-7 shows the distribution of languages/Mother Tongues which returned 10,000 or more speakers each at all-India level (including of Mother Tongues grouped under each for the district, with total, rural/urban and male/female break ups). The unclassified Mother Tongues and the Mother Tongues having less than 10,000 speakers have been relegated to 'Other' Mother Tongue category. The table is divided into Part A-Scheduled languages with Mother Tongues grouped under each and Part B-Non-scheduled languages with Mother Tongue grouped under each. The instructions to the enumerators in regard to this question read as under.

"Record Mother Tongue in full, whatever be the name of the language returned by the person enumerated". The definition of Mother Tongue is the same as in 1991. "Mother Tongue is the language spoken in childhood by the person's mother to the person. If the mother died in infancy, the language mainly spoken in the person's home in childhood will be the Mother Tongue. In case of infants and deaf mutes the language usually spoken by the mother should be recorded. In case of doubt, the language mainly spoken in the household may be recorded".

As the above instructions to the enumerators would show, the respondent was made to feel free to return the name of his/her Mother Tongue and the same was recorded faithfully by the enumerators. This naturally leads to recording of a very large number of Mother Tongue names. It is to be mentioned that Mother Tongues as returned in the Census are basically, the designation provided by the respondents. These designations or Mother Tongue labels need not be identical with the actual linguistic mediums. For assessing the correlation between the Mother Tongue designations and actual languages and dialects the raw returns of Census were subjected to thorough scrutiny and rationalization.

The abstract of languages as Mother Tongues and their strength in the district during 1991 and 2001 Census are provided below.

STATEMENT-I
ABSTRACT OF LANGUAGES AS MOTHER TONGUES AND THEIR STRENGTH IN KOLAR DISTRICT-1991 AND 2001 CENSUS

10	Tibetan	-	-	9	0.00
11	Total Of Other Languages	109	0.00	270	0.01

The statement I & II gives a clear picture of the languages spoken in the district. A closer study of 2001 Census data reveals that as many as 24 languages which returned 10,000 or more speakers are spoken in the district. The 'Other' category include Mother Tongues spoken by less than 10,000 speakers.Majority of the population speak Kannada which constitute 40.1 per cent followed by 39.46 per cent of Telugu speaking population. Among the languages not specified in the Eighth Schedule to the constitution, Coorgi is spoken by 0.07 per cent of population. Similar data for 1991 is provided in the annexure.

Linguistic classification of the languages

The names of the 114 Scheduled and Non-Scheduled languages falling in the five language families are given below with the Scheduled Languages denoted as (S). Of the 18 Scheduled Languages, 13 fall in the Indo-Aryan branch of the Indo-European family, 4 in the Dravidian family and one in the Tibeto-Burmese family.

1. INDO-EUROPEAN

(a) INDO-ARYAN

1. Assamese (S), 2. Bengali (S), 3. Bhili/Bhilodi, 4. Bishnupuriya, 5. Dogri, 6. Gujarati (S), 7. Halabi, 8. Hindi (S), 9. Kashmiri (S), 10. Khandeshi, 11. Konkani (S), 12. Lahnda, 13. Marathi (S), 14. Nepali (S), 15. Oriya (S), 16. Punjabi (S), 17. Sanskrit (S), 18. Sindhi (S), 19. Urdu (S).

(b) GERMANIC

1. English.

2. DRAVIDIAN

1. Coorgi/Kodagu, 2. Gondi, 3. Jatapu, 4. Kannada (S), 5. Khond/Kondh, 6. Kisan, 7. Kolami, 8.Konda, 9. Koya, 10. Kui, 11. Kurukh/Oraon, 12. Malayalam (S), 13. Malto, 14. Parji, 15. Tamil (S), 16. Tulu, 17. Telugu (S).

3. AUSTRO-ASIATIC

1. Bhumij, 2. Gadaba, 3. Ho, 4. Juang, 5. Kharia, 6. Khasi, 7. Koda/Kora, 8. Korku, 9. Korwa, 10. Munda, 11. Mundari, 12. Nicobarese, 13. Santali, 14. Savara.

4. TIBETO-BURMESE

1. Adi, 2. Anal, 3. Angami, 4. Ao, 5. Bhotia, 6. Bodo/Boro, 7. Chakesang, 8. Chakru/Chokri, 9. Chang, 10. Deori, 11. Dimasa, 12. Gangte, 13. Garo, 14. Halam, 15. Hmar, 16. Kabui, 17.
