Gurudwara Baba Sahib Singh Ji Bedi

The mention of the principality of Bedi's of Una is found in Kuthlehar State which was situated on the eastern side of the present Una district. Gurudwara Baba Sahib Singh Ji Bedi is situated within the precinct of Una fort and was founded by the descendant of Baba Guru Nanak Ji. According to the District Gazetteer of Hoshiarpur (1884) that Bedi Baba Kaladhari, a descendant of Baba Nanak, crossed over from Dera Baba Nanak (Gurdaspur), early in the 19th century and after wandering about the Jalandhar Doaba for years and ultimately settled down at Una where he laid foundation of Una town. Here he attracted huge crowd of followers who flocked to hear his eloquent disquisition on the Granth Sahib. In Samvat 1860 (1804 A.D.) Raja Umed Singh gave to Baba Sahib Singh Ji Bedi, the whole of the Una Taluk (177 villages) as Jagir which was confirmed by Maharaja Ranjit Singh in Samvat 1872 and about the same time he received Nurpur Taluka from Sardar Budha Singh. Thus the principality of Bedi's of Una went flourishing and expanding till it was taken over by the British. Even Now the descendants of Baba Kaladhari live in the fort of Una. Every year in the month of February/ March a fair is held here to commemorate the Baba Kaladhari.

Fairs and Festivals, Natural, Administrative developments and Significant activities during the decade 58-59

(ix) Places of Religious, Historical or Archaeological importance and Tourist interest 59-60

(x) Major characteristics of the district 60-61

(xi) Scope of Village Directory and Town Directory 61-64

PART-A · VILLAGE AND TOWN DIRECTORY **65-270**

Section-I . Village Directory

(a) Note explaining the abbreviations used in Village Directory 69-72

(b) List of villages merged in towns and outgrowths at 2001 Census 72

(c) 1 (i) Maps of Amb C D block, Bharwain Sub-tehsil and Amb tehsil 73-77
(ii) Alphabetical list of villages alongwith location code 1991 and 2001 79-83
(iii) Village Directory data of Amb C D block 84-125

2 (i) Map of Gagret C D block 127
(ii) Alphabetical list of villages alongwith location code 1991 and 2001 129-131
(iii) Village Directory data of Gagret C D block 132-151

3 (i) Map of Dhundla C D block-cum-Bangana tehsil 153
(ii) Alphabetical list of villages alongwith location code 1991 and 2001 155-161
(iii) Village Directory data of Dhundla C D block 162-217

4 (i) Maps of Una C D block, Una tehsil and Haroli Sub-tehsil 219-223
(ii) Alphabetical list of villages alongwith location code 1991 and 2001 225-227
(iii) Village Directory data of Una C D block 228-245

(d) Appendices to Village Directory 246-247

Appendix I Abstract of Educational, Medical and other Amenities in villages - C D block level 248-253

Appendix IA Villages by number of Primary Schools 254

Appendix IB Villages by Primary, Middle and Secondary Schools 254

Appendix IC Villages with different sources of drinking water facilities available 254

Appendix II Villages with 5,000 and above population which do not have one or more amenities available 254

Appendix II A Census Towns 254

Appendix III Land utilisation data in respect of Census Towns/Non-Municipal Towns 255

Appendix IV C D block-wise list of inhabited villages where no amenity other than drinking water facility is available 255

Appendix V Summary showing number of villages not having Scheduled Castes population 255

Appendix VI Summary showing number of villages not having Scheduled Tribes population 255

Appendix VII A List of villages according to the proportion of the Scheduled Castes to the total population by ranges 256-268

Appendix VII B List of villages according to the proportion of the Scheduled Tribes to the total population by ranges 269-270

Appendix VIII List of villages under each Gram Panchayat 270

Section-II Town Directory **273-290**

(a) Note explaining the abbreviations used in Town Directory 273-276

(b) A brief analysis of Town Directory Statements 276-278

	Statement I - Status and Growth History	280-281
	Statement II - Physical Aspects and Location of Towns	280-281
	Statement III - Municipal Finance	282-283
	Statement IV - Civic and Other Amenities	282-283
	Statement V- Medical, Educational, Recreational and Cultural Facilities	284-287
	Statement VI - Trade, Commerce, Industry and Banking	288-289
	Statement VII- Civic and Other Amenities in Slums	288-289
(c)	Appendix to Town Directory	290
PART-B . PRIMARY CENSUS ABSTRACT		**293-423**
(a)	Brief note on Primary Census Abstract	293-295
(b)	District Primary Census Abstract (General)	298-303
(c)	Appendix to District Primary Census Abstract	307-308
Primary Census Abstract for Scheduled Castes		310-315
Primary Census Abstract for Scheduled Tribes		318-323
C D Block-wise Village Primary Census Abstract		326-415
Urban Primary Census Abstract		418-423
Annexures		**427-439**
Annexure I	Number of villages under each Gram Panchayat	427
Annexure II	Fertility, Mortality and Migration, 1991 Census	427
Annexure III	Various measures of Fertility and Mean Age at Marriage, 1991 Census	427 428
Annexure IV(A)	Percentage distribution of Migrants by place of birth, 1991-2001 Censuses	428-429
Annexure IV(B)	Migrants by place of last residence, 1991-2001 Censuses	429
Annexure V	Brief account of main religions in the district as per 1991-2001 Censuses	429-430
Annexure VI	Sex wise marital status of population as per 1991-2001 Censuses	430
Annexure VII	Literates by Educational levels in the district, 1991-2001 Censuses	431-433
Annexure VIII	Distribution of different mother tongues returned in 1991-2001 Censuses	433
List of Educational, Wildlife Sanctuaries, National Parks, Post Offices, Banks and Medical Institutions		434-439

Foreword

The District Census Handbook (DCHB) published by Census Organisation since 1951 census, is one of the important publications in the context of planning and development at gross-root level The publication which is brought out for each district, contains several demographic and socio-economic characteristics village-wise and town-wise of the district alongwith the status of availability of civic amenities, infrastructural facilities, etc

2 The scope of the DCHB was initially confined to a few Census Tables and Primary Census Abstract (PCA) of each village and town within the district Thereafter, at successive censuses, its scope and coverage has been enlarged The DCHB published at the 1961 census provided a descriptive account of the district, administrative statistics, census tables and a village and town directory including PCA The 1971 census-DCHB series was in three parts Part-A related to village and town directory, Part-B to village and town PCA and Part-C comprised analytical report, administrative statistics, district census tables and certain analytical tables based on PCA and amenity data in respect of villages The 1981 census DCHB was in two parts Part-A contained village and town directory and Part-B the PCA of village and town including the SCs and STs PCA up to tehsil/town levels New features alongwith restructuring of the formats of village and town directory were added into it In Village Directory, all amenities except electricity were brought together and if any amenity was not available in the referent village, the distance in broad ranges from the nearest place having such an amenity, was given Information on new items such as adult literacy centres, primary health sub-centres and community health workers in the village were provided so as to meet the requirements of some of the Revised Minimum Needs Programme Information on approach to the village was provided for the first time in the Village Directory so as to give the details on number of inaccessible villages in each district In the Town Directory, a statement (IV-A) on slums was introduced to provide the details on civic and other amenities in the notified slums of Class I and Class II towns

3 The 1991 census DCHB, by and large, followed the pattern of presentation of 1981 census, except the format of PCA was restructured Nine-fold industrial classification of main workers was given against the four-fold industrial classification presented in the 1981 census In addition, sex-wise population in 0-6 age group was included in the PCA for the first time with a view to enable the data users to compile more realistic literacy rate as all children below 7 years of age had been treated as illiterate at the time of 1991 census One of the important innovations in the 1991 census was the Community Development Block (CD block) level presentation of village directory and PCA data instead of the traditional tehsil/taluk/PS level presentation It was expected that the presentation of village directory and PCA data at CD block level will help the planners in formulation of micro level development plans, CD block being lowest administrative unit

4 The present series of 2001 census DCHBs have been made more informative and exhaustive in terms of coverage and content The Village Directory has been enlarged in scope by including a number of other facilities like banking, recreational and cultural facilities, newspapers and magazines and 'most important commodity' manufactured in village Income and expenditure of gram panchayat, wherever possible, has been provided Apart from these, more details on distance(s) at which basic amenities are available (if not available in the village), are given This includes educational facilities (namely primary, middle, high, higher secondary schools and colleges), medical facilities (viz Allopathic Hospital Maternity & Child Welfare Centre and Primary Health Centre), drinking water, post & telegraph (post office and phone), communication bank, credit societies and recreational facilities In Town Directory, the statement on Slums has been modified and

its coverage enlarged by including details on all slums instead of 'notified slums' The information is given in case of all statutory towns irrespective of their class, against only Class I and Class II towns in the 1981 and 1991 censuses The basic amenities available in the villages and towns are analysed in depth with the help of a number of cross-classified inset tables and statements Two other significant additions in the publication are inclusion of 'motif' highlighting significant characteristic of the district and analytical notes as annexures The analytical notes on (i) fertility and mortality and (ii) various measures of fertility and mean age at marriage are prepared based on 1991 Census Whereas, in the notes relating to (i) percentage distribution of migrants by place of birth/place of last residence (ii) main religions, (iii) marital status of population, (iv) age sex and education, and (v) distribution of spectrum of mother tongue, nature and extent of changes occurred in the district in its basic socio-demographic features during the decade 1991-2001 are analysed The eight digits permanent location code (PLCN) to all the villages and towns have been assigned keeping in view the future needs

5 The village and town level amenity data have been collected, compiled and computerised in prescribed record structured under the supervision of Shri R L Bisotra, Director of Census Operations, Himachal Pradesh Thereafter, efforts have been made to ensure comparability of the information with that of 1991 census data and the information brought out by the respective state governments in their annual reports and statistical handbooks for various years after 1991 The task of planning, designing and coordination of this publication was carried out by Shri R G Mitra, Deputy Registrar General (C&T) and Dr I C Agrawal, Senior Research Officer of Social Studies Division Dr R P Singh, Deputy Registrar General (Map) provided the technical guidance in the preparation of maps Whereas, Shri Anil Kumar Arora, Deputy Director of Data Processing Division who worked under the overall supervision of Shri Himakar, Addl Director(EDP) helped in preparation of record structure for computerisation of village and town directory data and the programme for the generation of Village Directory and Town Directory statements including analytical inset tables The draft of DCHB manuscripts received from the Census Directorates have been scrutinised in the Social Studies Division under the guidance of Shri S L Jain, Deputy Director and Shri R K Mehta, Assistant Director, I am thankful to all of them and others who have contributed to make this publication possible

D K Sikri
Registrar General &
Census Commissioner, India

New Delhi
Dated 17 10 2006

Preface

The Registrar General and Census Commissioner of India has in his foreword to this series of publications, not only provided the reader with historical background of the District Census Handbooks but also amply elaborated the scope and coverage envisaged for this country-wide project In fact, this is the most important district level publication which provides reliable data at grass root level for the purpose of planning, administrative requirements as well as of academic development in socio-demographic field The each of the District Census Handbook contains the salient results on the data gathered at the actual enumeration of head-count and in addition contain a wealth of other non-census information in respect of each village and town of the district

Continuing the tradition of the earlier Censuses, the 2001 series of the District Census Handbooks is comprised of two parts but the present series is more informative in terms of coverage and contents Part-A contains Village Directory which provides information on infrastructural amenities and land use data at village level i e name and location of villages, area, population, number of households, important civic amenities/ facilities available in villages like educational, medical, drinking water, post, telegraph and telephone, commercial and co-operative banks, agricultural & non-agricultural credit societies, recreational and cultural facilities, communications, approach to the village, nearest town & distance, power supply, news paper/magazine and most important commodity manufactured in the villages Similarly, the comprehensive statements and their analysis of Town Directory provide valuable information on growth, physical, economic, civic and development aspects in respect of each town of the district C D block being the lowest administrative unit for developmental planning, it is assumed that the data provided at this level would be extremely useful to the planners for formulating micro level developmental plans

Part-B in the District Census Handbook contains Village and Town Primary Census Abstract This provides information on area, number of households, sex-wise total population, child population in age-group 0-6, Scheduled Castes and Scheduled Tribes, literates, workers, non-workers and divisions of workers into four industrial categories i e cultivators, agricultural labourers, workers in household industries and other workers in respect of each village and town of the district

Besides the brief history and other major characteristics of the district, inset tables and appendixes based on village directory, housing tables and PCA and their analysis added in the District Census Handbook provide glimpse of availability of amenities to villages, conditions of housing, assets available with households and demographic profile of population at Tehsil/C D Block level which are of much utility for demarcation of areas of surplus and deficit to reorient the planning process

The District Census Handbook was the joint venture of the Government of Himachal Pradesh and the Census Organisation of the Government of India The design of 2001 District Census Handbooks was evolved centrally by the Census Commissioner, India and accordingly these books have been prepared by my office In earlier Censuses, the cost of publication of these books were met by the State Government but now these are being printed centrally by the Census Organisation In accomplishing this task, we have had the ready and whole hearted co-operation of the staff at various levels of different departments of the State Government The data so supplied by these field level officers have been cross checked with the data obtained from various departments and an attempt had been made to reconcile the discrepancies to make it more reliable I am grateful to all Heads of Departments of the State Government, officers and staff engaged in the conduct of 2001 Census for their co-operation to accomplish this task

The compilation of such a huge amount of varied data in a single volume requires proper planning and close monitoring We had the honour of having enlightened guidance and encouragement of Sh J K Banthia, I A S , the former Registrar General and Census Commissioner, India and I owe special thanks to Sh J K Banthia I am equally grateful to Sh D K Sikri, I A S , the present Registrar General and Census Commissioner, India for guiding and encouraging for the publication of this District Census Handbook, I am also thankful to Dr R P Singh, Consultant (Map), Sh R G Mitra, the former Deputy Registrar General (C & T) and Dr I C Aggarwal, Asstt Registrar General (SS) and Sh S L Jain, Deputy Director of S S Division for providing technical guidance and finalising this report

The 2001 Census Operations in Himachal Pradesh were carried out under the dynamic direction of Dr R L Bisotra, I A S , former Director of Census Operations All credit for successful conduct of Census Operations in the State, despite topographical and climatic conditions in the State, goes to him The work of two District Census Handbooks was initiated under his able guidance he was recalled by the State Government in March, 2004 for taking up another assignment but before this books was finalised I owe my deep sense of gratitude to Dr R L Bisotra, I A S , the former Director of Census Operations for the successful conduct of the Census Operations in the state

The data presented in the District Census Handbook required a concerted team work of officers and staff members of this Directorate who were involved with it at various stages of its planning, supervision, field work,computerisation, preparation of manuscript, maps and C R C for printing I express my appreciation for the painstaking dedicated service rendered by all of them and also whose names have been acknowledged separately However, the special mention may be made of S/Shri L R Katiyar and A S Negi, Asstt Directors for preparing the draft report of this publication S/Shri R K Sharma, Statistical Investogator, Gr-II and R D Bali, Statistical Investigator, Gr-III for drafting of analytical notes and checking of Village and Town Directory Primary Census Abstract included in this publication was scrutinized by Census Section under the supervision of Sh C M Azad, Statistical Investigator, Gr-II The whole manuscript of the District Census Handbook was edited and finalised by me Maps appearing in this publication were prepared by Map Section under the guidance of Smt Veena Thakur, Sr Geographer Camera Ready Copy of District Census Handbook was prepared under the supervision of Sh Sohan Lal Quami, Sr Tech Asstt (Ptg) I express my appreciation for the painstaking dedicated service rendered by them and all other my colleagues in the Directorate associated with this project

I shall feel greatly rewarded if the book comes to the expectation of the data users

District Highlights – 2001 Census

1 The economy of the district primarily depends on agriculture

2 Rearing of livestock is also a main activity next to agriculture for the people of the district

3 District ranks-7th in the State with regard to population (having 7 37 per cent population of the State),4th in Sex Ratio (997), 3rd in population density (291), 2nd in literacy rate (80 4 per cent) and 10th in order of area

4 District is famous for "Dera Baba Barbhag Singh's Gurudwara, which is located near Amb–Nadaun road

5 District is famous for Holi fair at Mairi near Amb, where large number of people assembles to celebrate the Hola Mohalla

6 New building constructed for District Ayurvedic Hospital

7 District Hospital up-graded to Zonal Hospital

8 There is no single village with a population of 10,000 + in the district

9 All the villages of district are electrified

Note Villages fully covered as out growths (OGs) and such villages therefore are not included under the item, "Number of villages'

Definition of Census Town :

All places which satisfy or are expected to satisfy the following criteria are treated as Census Towns -

i) A minimum population of 5,000 ,

ii) At least 75 per cent of the male working population engaged in non-agricultural pursuits, and

iii) A density of population of at least 400 per square kilometre (1,000 per square mile)

ANALYTICAL NOTE

Analytical Note

(i) History and scope of the District Census Handbook :

The need of data at the grass root level for the administrative and planning purposes at sub micro level as well as academic studies prompted the innovation of District Census Handbook District Census Handbook is a unique publication from the Census organization which provides most authentic details of census and non-census information from village and town level to district level The District Census Handbook was firstly introduced during the 1951 Census, which brought out the Census data down to the town/village level Till then the census data was presented mostly up to district/tehsil/sub-tehsil/ town level only

The District Census Handbook of 1951, apart from the census data, it contained general information of the district like, physical, economic, socio-cultural and administrative aspects of the district including both types of data, census as well as non-census

The 1951 pattern of District Census Handbook continued uninterrupted till 1961 In 1961 the scope of the District Census Handbook was made more comprehensive by including additional items such as climate, geology, agriculture, industry, forests and number of cross tables picked from various series of census tables Till date it is regarded as a model District Census Handbook The entire presentation was divided into four parts First part dealt with the land and the people and the second part contained census tables Whereas third part contained information regarding agriculture, medical and health while fourth part contained village/town directory

During 1971 it was realized that the combination of census as well as non-census data in a single publication, resulted in unnecessary delay in the publication of census results and in order to avoid inordinate delay, it was decided that census data should be delinked from the non-census data and the publication should be brought out in two volumes Thus, District Census Handbook was splited into two volumes First volume dealt with the village and town directory and also village/town-wise Primary Census Abstract of the district whereas second volume dealt with the non-census data, social, economic and cultural tables

In the 1981 Census in order to streamline and to overcome delay in bringing out the publication, the second part of 1971 District Census Handbook was omitted Thus, 1981 District Census Handbook consists of single volume which contains village/town directory in Part-A and town/village wise Primary Census Abstract of the concerned district in Part-B

In the 1991 Census too, with a view to avoiding delay in bringing out the publication, District Census Handbook was brought out in a single volume in two parts as the data given therein are closely inter related Part-A includes Village and town Directory, while Part-B includes Village and Town Primary Census Abstract In the 1971 Census as well as in the 1981 Census, the Village Directory format in District Census Handbook Part-A had 20 columns while in 1991 Village Directory, the number of columns has been reduced to 18 by deleting two Columns of staple food and remarks Moreover, in 1991 District Census Handbook, village and town directory as well as Primary Census Abstract were published first time at C D Block level instead of tehsil/sub-tehsil level due to demand for framing development plans at block level

In 2001 Census, the same pattern has again been followed though the number of columns in village directory format has been raised to 23 for providing some additional information in the villages The additional non-census data and census data include information on agricultural and non-agricultural credit societies, co-operative societies, recreational and cultural facilities, number of commercial and co-operative banks The number of gram panchayats alongwith their constituent villages, notes on fertility, mortality and migration, main religions, marital status and mother tongues etc

based on 1991 Census are provided in the form of separate annexure at the end of the book In 2001 District Census Handbook too, Part-A village directory will contain information about the name of the village, location code, total area of the village, total population and number of households in the village, amenities like education, medical, drinking water, post and telegraphs, communications, number of banks commercial and co-operative banks, agricultural and non-agricultural credit societies, co-operative societies, recreational and cultural facilities, mode of transportation and communication, approach road, nearest town, power supply, availability of newspapers and most important articles, commodity manufactured This part also contains information about land use in the village, forests, agriculture, irrigational sources, culturable wastes etc Similarly, the town directory contains seven statements which would deal with area of the town, number of households, population, rate of growth of the town during the last nine decades, density of population of the town, sex-ratio, status of civic administration, its finances and other socio-cultural, educational, and developmental activities and the amenities that might have been undertaken or provided Part-B would contain the town/village wise Primary Census Abstract which includes information/data about the total area of the village, total number of households, population and its sex-wise break-up, also the break-up of Scheduled Castes and Scheduled Tribes, literacy The break-up of the working population by sex into four industrial categories viz (i) cultivators, (ii) agricultural labourers, (iii) workers in household industries, and (iv) other workers Apart from the aforesaid data, the Primary Census Abstract will contain the data on the marginal workers and non-workers also

It would be pertinent to mention here that the sources of information for the town and the village directory have been mainly the heads of urban bodies and the revenue agency supplemented by the concerned departments The information so collected from the various sources have been thoroughly scrutinized so as to ensure its authenticity It is hoped that because of this extra validation, information provided in the 2001 District Census Handbook should become more reliable and can be used without any hitch by scholars and planners alike A number of new tables based on P C A are also included and an effort has been made to correlate the data with the geography of the district These endeavours should make the District Census Handbook definitely more useful than even before The village and town directory as also the primary census abstract included in this handbook should quench the thirst of the planners involved in micro level planning Similarly additional data revealing civic and other amenities in towns is oriented to minimum need programme Scholars and planners alike should benefit from the data on amenities by size of the town

(ii) Brief History of the district

Una is a small district located on the south-western border of the State The present Una district was formally a part of the erstwhile Kangra state Bulk of the present Una district, which is called as Jaswan Dun was ruled by the Katoch family of Kangra It is believed that the Jaswan state, with its capital at Rajpura near Amb, was founded by Purab Chand in 1170 A D From Purab Chand to Umed singh, 27 princes ruled the Jaswan state Not much is known about the state until the time of emperor Akbar when it became subject to Mughal rule

On the decline of the Mughal Empire and rise of Sikhs, the Jaswan state came under their dominance and was annexed to Maharaja Ranjit Singh's kingdom in 1815 A D Ranjit Singh wanted Umed Singh of Jaswan state to attend the assembly at Sialkot which he refused As a result, Ranjit Singh imposed fine on him which was beyond his capacity to pay Consequently, he abdicated his state and accepted a Jagir of Rs 12 00 per annum In 1848 during the second Sikh war, Umed Singh joined revolt against the British which was crushed and Raja alongwith his son departed to Almora where both died In 1879, Ram Singh grand son of Umed Singh was restored to his ancestral jagir at Jaswan originally held by Raja Umed Singh consisting of 21 village in Jaswan Dun and also family garden at Amb as wall as building at Rajpura, formerly the palace of Raja Umed Singh He died in 1892 and was succeeded by his son Raja Raghunath Singh who also died in 1918 Thereafter, Laxman Singh succeeded him who started residing at Amb

Apart from Jaswan state on the northern extreme was princely state of Siba which was off shoot of Kangra ruling family Eastern side of present Una district was under the rule of Kutlehrias who were reported to have migrated from Uttar Pradesh Thus, present Una is comprised of three princely states of Jaswan Dun, Siba and Kutlehria During British regime, present Una district excluding Bangana block was part of Hoshiarpur district of Punjab, Una was a tehsil as well as sub-division of that district and present Anandpur Sahib tehsil of Ropar district was its part In the re-organisation of Punjab state, present Una district was merged within Himachal Pradesh with district headquarters at Dharmsala and the remaining area of present Anandpur Sahib tehsil remained in Punjab Thus, Una was bifurcated in two states i e Himachal and Punjab on the re-organisation of states On 1 9 1972 Himachal Pradesh government divided the Kangra district into three districts namely Una, Hamirpur and Kangra

New Una district was formed by transferring entire Una tehsil, Amb sub-tehsil and villages of Barsar sub-tehsil from the Kangra district In the 1981 Census, the composition of rural and urban constituents of the district is given below

Name of tehsil and number of villages

1 Amb tehsil (176 villages)

2 Haroli sub-tehsil (33 villages) newly formed in 1980 with 33 villages of Una tehsil

3 Una tehsil (74 villages)

4 Bangana tehsil (311 villages) newly formed in 1975 with 311 villages of Barsar sub-tehsil

Name of towns

1 Gagret N A C

2 Daulatpur N A C

3 Una M C

4 Mehatpur Basdehra N A C

5 Santokhgarh N A C

Total number of the villages were 594 in the district During the decade 1981-91, no jurisdictional changes took place at district level However 8 villages of Haroli sub-tehsil were transferred to Una tehsil

After 1991 Census, one new sub-tehsil Bharwain has been carved out by transferring 48 villages from Amb tehsil in 1997 The number of villages increased from 593 to 814 in the district due to settlement and number of towns remained 5 as in 1991 Census

Una, the district headquarters is located at a distance of 202 kms from the State capital, Shimla The Una town is situated on the banks of the river Swan which is a tributary of river Satluj The district comprises of three tehsils viz Bangana, Amb and Una and two sub-tehsils Bharwain and Haroli For the development purpose, there are four community development blocks in the district, these are namely Amb, Gagret, Una and Dhundla The district has five towns namely Daulatpur Nagar Panchayat, Gagret Nagar Panchayat, Una Muncipal Council Mehatpur Basdehra Nagar Panchayat and Santokhgarh Nagar Panchayat It has a total number of 814 villages

(iii) Administrative set-up

Una is a small foot hill district located on the south-western border of the State The district comprises of three tehsils and two sub-tehsils consisting of 814 villages as per 2001 Census The district has two sub-divisions of Amb and Una Amb sub-division is comprised of Bharwain sub-tehsil, Amb tehsil and Nagar Panchayats of Daulatpur and Gagret Una sub-division is constituted by tehsils of Bangana, Una and sub-tehsil Haroli including Una Municipal Council, Nagar Panchayats of Santokhgarh and Mehatpur Basdehra

For the development purpose, the district is divided into four community development blocks These are Amb, Garget, Una and Dhundla with headquarters of the same name

The district has not undergone any jurisdictional changes at district level during 1991-2001 However, one new sub-tehsil of Bharwain has been created by taking away 48 villages from Amb tehsil in 1997 As stated earlier, number of villages have also increased in all tehsils except Haroli on account of settlement which was completed in the district during the decade Besides this, the status of Notified Area Committees and Municipal

Committees have been changed to Nagar Panchayats and Municipal Councils respectively The composition of district as existed at the time of 2001 Census is given below

Jurisdictional changes occurred during, 1991-2001

Serial number	Name of district / tehsil/sub-tehsil	No of villages		No of new villages created	No of towns		Remarks and Government notifications etc
		1991 Census	2001 Census		1991 Census	2001 Census	
	1	2	3	4	5	6	7
	Una District	**593**	**814***	**221**	**5**	**5**	*Increase in the villages due to Settlement
1	Bharwain sub-tehsil	-	48	-	_	_	Bharwain sub-tehsil created by transferring 48 villages from Amb tehsil Vide notification No GAD-1A(1) 8185 dated 18 12 1997
2	Amb tehsil	177	252*	123	2	2	
3	Bangana tehsil	311	349*	38	-	-	
4	Una tehsil	80	140*	60	3	3	
5	Haroli sub-tehsil	25	25	-	-	-	

For administrative purposes, the Deputy Commissioner is the administrative head of the district He is responsible for general administration and maintenance of law and order He is assisted by one additional Deputy Commissioner and other District Officers For administrative convenience, the district has been divided into sub- divisions and each sub – division is headed by Sub-divisional Officer (Civil) Each tehsil is under the charge of Tehsildar ,while the incharge of sub-tehsil is Naib-Tehsildar assisted by office Kanungo

Besides this, Block Development Officer is posted in each community development block to supervise and co-ordinate the development works assigned to Gram Panchayats in rural areas

The head of the district police force is the Superintendent of Police, assisted by Additional S P and one Deputy Superintendent of Police Each Police Station is headed by S H O Every department maintains its district office to implement the schemes pertaining to it

Urban Local Bodies

The statutory Urban Local Bodies are Cantonment Board, Municipal Corporation, Municipal Council and Nagar Panchayat The Urban Local Bodies elect a councillor from each of the Ward and his term is 5 years

The President of the Municipal Council/Nagar Panchayat or the Mayor of the Municipal Corporation and his Deputy are elected from the elected councillors The Chairman of the various committees are also elected from the elected members with a term of 5 years Although for day-to-day administration, the Executive Officer/Secretary is responsible in a Municipal Council/Nagar Panchayat, he works under the guidance of the President of the Council In Corporation, an I A S or a senior H A S officer is deputed by the State Government as Municipal Commissioner who is responsible for day-to-day administration and development works

(iv) Physical features

Una district lies in the south-western part of Himachal Pradesh It is bounded by Kangra district in the north and north-east, Hamirpur district in the east, Bilaspur in the south-east and Punjab State in west and south The district is stretched between 31°17'52"-31°52'0" north latitudes and 75°58'21"-76°28'25" east longitudes The district has a total area of 1,550 Sq kms and ranks 10th in the State in order of area

Physiography The configuration of district is mostly hilly district and falls in the Himalayan foot-hill zone popularly known as Shiwalik foot hills There are many important hill ranges/Dhars in the district Prominent among them are Sola Singhi Dhar or Jaswan Dhar, Chaumukhi Dhar, Dhionsar Dhar, Ramgarh Ki Dhar and Bangar Ki Dhar and all are stretching on the eastern part of the district These Dhars run in the district from north-west to south-east direction Area adjoining Punjab border is also

hilly Eastern part of this district is relatively higher than that of western part The elevation of this district varies between 332 metres and 1,162 metres above the mean sea level Swan river is the main river in the district which flows from north-west to south-east direction Many tributaries like Borewali Khad, Barera Khad, Garni Khad, Panjoa Khad, Ambwali Khad, Badowali Khad and Hum Khad etc , join it in the district from right and left sides Swan river and its tributaries form a valley in the district known as Swan valley which is flat and most fertile It is a seasonal river and becomes itself a tributary of Satluj river outside the district In eastern part of the district, Lunkhar Khad is another Khad which flows in the south-easterly direction and merges with Satluj river It also forms a narrow valley which is relatively flat and fertile The climate of the district is sub-tropical to temperate and therefore, summers are hot and winters are cool Shiwalik ranges experience heavy rainfall which is mostly received during monsoon season

The geology of this district predominantly pertains to Shiwalik structure which comprises conglomerates, firable-miscaceous sand stone, silt stone and clay stone However, in the valley area of Swan river and its tributaries, the geological structure is of alluvium containing sand, silt and clay in varying proportion Soils of the district as classified by the N B S S and L U P (I C A R), Nagpur, mostly Ochrepts-Psamments (73) whereas Ochrepts-Orthents (72) soil types are seen in the eastern part Sola Singhi Dhar, Chaumukhi Dhar, Dhionsar Dhar, Ramgrarh Ki Dhar and Bangar Ki Dhar are covered with thick reserved and protected forests of Chir, Bamboo, Khair etc However, in western part, vegetation is scattered and is of scrub type On the basis of physiography , climate and soils, natural vegetation and geology, this district is divided into 3 sub-micro regions which are detailed below

Una Shiwalik : This region is formed by the area surrounding Swan valley in the district, occupying the western Haroli sub-tehsil and north western part of the Una tehsil, western, northern and eastern parts of Amb tehsil and Bangana tehsil excepting areas which are in Swan valley and Satluj Basin It is the biggest sub- micro region of the district and is surrounded by Kangra and Hamirpur districts from north-east and east, respectively, by Satluj Basin and Swan valley from south and by Punjab state from west

This region has many low lying hills popularly known as Dhars viz, Sola Singhi Dhar, Chaumukhi Dhar, Dhionsar Dhar, Ramgarh Ki Dhar and all these fall on the eastern part of the region Eastern part is relatively higher in elevation than western part The elevation of this region varies between 433 metres and 1,162 metres above the mean sea level Sola Singhi Dhar is the longest hill range of this region and is also known as Chintpurni Dhar and Jaswan Dhar It rises from near Talwara and enters the district in north where its culminating ridge forms the boundary between Una and Kangra districts As this range passes southwards, it increases steadily in width as well as in elevation and attains maximum height of 1,162 metres This Dhar terminates on the bank of the Satluj river beyond this district Chaumukhi Dhar enters the district in the east from Kangra side and runs south-easterly direction It also forms boundary between Una and Hamirpur districts Dhionsar Dhar and Ramgarh Ki Dhar, on the western parts of the Bangana tehsil, extend from north-west to south-east direction and both the Dhars terminate on the bank of Satluj river In western part of this region, the hill ranges are low The elevation of these small hills decreases towards Swan valley as well as Punjab plains The numerous non-perenial streams as tributaries of Swan river rise from these hills/dhars and join it outside the region Lunkhar Khad and Swan river itself take their origin in the eastern Shiwalik hills The Shiwalik hills receive considerable amount of rainfall during the monsoon season

The geological structure of this region pertains to Shiwalik formations occurring Conglomerates, firable miscaceous sand stone, silt stone and clay stone The seasonal and non-seasonal streams have caused heavy denudation in these hills In eastern part of this region, soil cover is Ochrepts-Orthents (72) while in northern and western parts, soil cover is Ochrepts Psamments (73) These soils are shallow black, brown, sandy and alluvial soil of northern region and are of recent origin Eastern Shiwalik hills/Dhars are covered with thick reserved and protected forests of Chir, Bamboo and Khair etc However, in western Shiwalik hills, vegetation is scattered and is of scrub type

Swan Valley : This valley spreads on the both sides of Swan river in the Una district and covers the eastern part of Haroli sub-tehsil, whole of Una tehsil except north-west and south-east corner, central and southern parts of Amb tehsil and small part of Bangana tehsil It is enclosed by Una Shiwalik from three sides and by Punjab state and Satluj Basin from south

Swan river is an important seasonal river of the district which flows in the centre of Swan valley It starts near Daulatpur in north-west and flows towards south-easterly direction Swan river is a tributary of Satluj river which joins ultimately outside the district The valley is formed by Swan river and by its tributaries which meet it from left and right sides Important amongst them are Hum Khad, Badowali Khad, Kalohwali Khad, Borewali Khad, Barera Khad, Garni Khad, Panjoa Khad, Ambwali Khad and Chaler Khad etc This valley is narrow in the north and becomes more wider in the central and southern portions of the district The entire valley is most fertile and flat The elevation varies between 332 metres and 554 metres above the mean sea level From the banks of Swan river, slope starts rising gradually towards east and west The valley receives considerable amount of rainfall most of which is received during monsoon season Summer are comparatively hot and winters are cool

The geology of this valley predominantly pertains to alluvium of recent formations However, in peripherial areas of this valley, geology pertains to Shiwalik formation The soils of this valley are categorised as Ochrepts-Psamments (73) These soils are shallow black, brown, alluvial and sandy soils of recent origin Due to heavy population pressure on land, broad leaved scattered vegetations are found in this valley

Satluj Basin This basin comprises mostly the eastern Una district which includes central and southern parts of Bangana tehsil and south- eastern fringe of Una tehsil It is enclosed by Swan valley, Una Shiwalik and Hamirpur district from west to east and by Bilaspur district and Punjab state from south It is the smallest sub- micro region of the district

The main khad/stream of this basin is Lunkhar Khad which rises in the northern Bangana tehsil and flows in the centre of this basin from north-west to south-east direction It is tributary of Satluj river which meets Satluj river in south where Satluj river forms the boundary line between Una and Bilaspur districts Lunkhar Khad also forms its own valley which is narrow in extent Major tract of this basin lies between Chaumukhi and Sola Singhi Dhars in the east and Dhionsar and Ramgarh Ki Dhar in the west Bangar Ki Dhar, a low lying hill, lies in the south-western part and runs in the southerly direction Altitude of this basin varies between 462 metres and 867 metres above the mean sea level

The geological structure of this region is predominantly composed of Shiwalik formation However, in south-western part it is alluvium of recent formation The soil cover is mainly categorised as Ochrepts-Orthents (72) However, in south-western part it is categorized as Ochrepts/Psamments (73) The eastern and western slopes of this basin are covered with thick mixed vegetation mainly of Bamboos while in the lower part there is a thin vegetation cover due to dense concentration of population

Drainage

River System Only Satluj river flows in some parts of Bangana tehsil of this district This river enters in Lathiani area of Bangana tehsil and further enters in Punjab state at village Bharmoti of this district To irrigate the land of some villages of Una tehsil, the water of this river is being lifted at village Bhabour Sahib of Punjab area There is an other seasonal river named as Swan river which starts from Daulatpur chowk of Amb tehsil and enters in Pubjab state at village Santokhgarh of Una tehsil of this district This river is being seasonal serves no purpose of irrigation etc , rather it washes away fertile land during the rainy season The Himachal Pradesh Government has started its channelisation from Jhulera bridge towards Santokhgarh

This district comprises of a portion of Gobind Sagar reservoir falling in the district Lunkhar Khad spreads from Dumkhar to Bhakra There aie 130 seasonal and perennial ponds measuring about 65 hectares area in the district The district is bounded by the river Beas on the north and the river satluj in the east

Climate . This district is situated at the foot of Shiwalik Hills Throughout the summer climate remains very hot In rainy season when rain occurs in the upper hills and water flows down to the plain the Swan river which is a seasonal river play havoc with the area Consequently much of the plain area has been swallowed by this river which requires channelisation By channelising it, much of the area will be protected from soil erosion and lot of lives and property can be saved During winter the days are too cold District receives average annual rainfall of about 1,009 m m and maximum temperature goes upto 41 0°c during the month of June and lowest temperature is recorded during December/January In south-western Una district annual temperature is above 25°c while north-eastern portion it varies between 20°c to 25°c

Forests : The Forests play a vital role in shaping the characteristic conditions of an area Besides these also influence the economic and social life of the people considerably The forests provide valuable timber, medicinal herbs, raw materials for industries and also provide employment and play a vital role in conserving the soil erosion and ensure timely rains

The Una Forest Division is bounded on north by Gular Dhar, Chintpurni Ridge, east by Sola Singhi Dhar, Hamirpur Forest Division and Kutlehar Jagir forest and south and west by state boundary of Punjab Una has a single forest division and is headed by Divisional Forest officer

In Una district, the plantation of Chil, Khair and Eucalypts have been raised successfully For working in the government reserve forests, 4 working circles namely the Una Chil working circle, the Una Coppice working circle, the Khair Over Lapping working circle and the Protection working circle have been constituted

For the plantation on private, community, government waste land and forest land, plants are distributed among the people at the subsidized rates With the increase in human population there is much pressure on the forests for timber, firewood and fodder for cattle The following statements 3 and 4 show the area of forest coverage and the value of forest products in the district based on the assessment of the Forest Department of the state

STATEMENT-A.

AREA UNDER FORESTS DURING 1998-99

Serial number	Type of Forests	Area in hectares
1	2	3
1	Reserved forest	4,391
2	Protected forests	4,796
3	Unclassified forests	15,500
4	Other forests	26,860
	Total forests	**51,547**

STATEMENT-B

FOREST PRODUCTS AND THEIR VALUE, DURING YEAR 1998-99

Serial number	Forest products	Quantity	Value in Rs Lacs
1	2	3	4
1	Timber	575 Cubic Metres	78 75
2	Firewood	995 Cubic Meters	1 81
3	Khair Wood	55 77 Cubic Metres	10 04
4	Biroza	2,844 95 Quintals	76 81

Source District Statistical Abstract-2001

Fauna and Flora : Many types of fauna are found in this district, identified as Shisham, Poplar, Mango, Banana, Lemon, Orange and Pulm etc Similarly, there are many kinds of flora in the district The important floras namely Leopard, Pig, Porcupine, Monkey, Langoor, Stag, Neelgaye, Snail etc , are found in the district

Minerals and Mining There is no useful mineral in the district However, the rivers and khads of the district provide stones, "Bajri" and sand used in the construction of the buildings and roads There is a good scope for the stone crushing unit in the district

Soil and Cropping pattern : Soil in the district varies from sandy loam to clay Agricultural Operations in the district are carried out in two spells i e spring and autumn The spring crops are called

"Rabi" and the autumn crops are known as "Kharif" The main "Rabi" crops are namely Wheat, Barley, Gram and Oilseeds The "Kharif" crops are namely Maize, Paddy, Oilseeds, Pulses and Potatoes The crop rotations followed in the district are 1 Paddy-Wheat, 2 Maize-Wheat, 3 Maize-Potato, 4 Maize-Wheat and Baisakhi Moong etc

Land and Land-use pattern, Tenancy As stated earlier the district was a part of the erstwhile Kangra district until 1st September, 1972 and prior to November, 1966 the area of this district was in composite Punjab

The word tenancy denotes occupation of land from landlord on rent on certain conditions After the reorganization the present, Una district was transferred from Kangra district and Land Ceiling Act and Village Common Land Utilization Act came into force Prior to the tenancy and Land Reforms Act, 1972, there were three kinds of land tenures in the district These were (1) Zamindari (2)Pattedari and (3) Bhai Chara Zamindari system of land tenure or the land lordism has also been abolished after the introduction of Himachal Pradesh Tenancy and Land Reforms Act and most of the cultivators who were tenants of the land-lords have become the owners of the land

Agriculture is the main occupation of the majority of the rural population Land available in the district may be classified into five categories (i) Forests (ii)Land not available for cultivation which includes lands put to non-agricultural uses and barren/ unculturable lands (iii) Other uncultivated lands excluding fallow lands, under which comes permanent pastures and grazing lands, culturable waste, lands under miscellaneous crops and groves (iv) Fallow lands which include current fallows (v) Cultivated lands

Agriculture : Agriculture is the main occupation of the people in the district The agro-climatic conditions prevailing in the district are favourable for the growing crops The land holdings of the farmers in the district are small The farmers grow more than two crops in a year so as to get maximum production from the land

The elevation of this district varies from 332 metres to 1,162 metres above the mean sea-level District received heavy rainfall during monsoon season Some efforts have been made for water harvesting by constructing water storage like irrigation tanks, ponds, checkdams etc The department of agriculture is supplying improved high yielding varieties of seeds of maize, paddy, wheat, pulses, oilseeds, potato, sugarcane, sunflowers etc to increase the yield of crops With the use of high yielding varieties of seeds, advanced agricultural machinery, fertilizers and pesticides, the agriculture production per hectare has increased as given below

YIELD PER HECTARE IN Kgs DURING 1993-94 TO 1995-96

Serial number	Name of crops	1993-94	1994-95	1995-96
1	2	3	4	5
1	Maize	1,751	1,809	2,080
2	Rice	2,265	2,460	2,285
3	Wheat	1,505	2,077	1,975

In addition to it, efforts are also being made to encourage the farmers for growing vegetables like Cauliflower, Tomato, Kalitori, Tinda, Potato, Lady's Finger etc

The seed multiplication farm Pakhubella is functioning in the district which serves the purpose of demonstration in farming to the farmers The department of agriculture has a detailed programme to conduct training camps in each block headquarters The department provides special incentive to farmers for attending these camps The pressure of population is increasing on the land and effort is being made to bring more land under cultivation by reclaiming agricultural wasteland The department of agriculture has established 17 sub-divisions in the state for undertaking soil conservation work on agriculture farming land The data of land utilization for the year 1999-2000 as recorded by the district Revenue officer, Una is given in the next page

STATEMENT-C

LAND UTILIZATION STATISTICS FOR THE YEAR 1999-2000

Serial number	Classification of Area	Tehsilwise land utilization (in hectares)					
		Una	Amb	Bangana	Bharwain	Haroli	Total
1	2	3	4	5	6	7	8
1	Total Geographical Area	33,477	49,657	41,850	10,055	19,883	154,992
2	Forest	1,158	4,062	8,731	4,570	-	18,521
3	Barren and unculturable land	11,148	17 084	13,001	2,520	8,322	52,075
4	Land put to non-agricultural uses	8,109	12,316	12,416	1,474	4,614	38,929
5	Culturable waste	1,205	311	1,680	226	1,396	4,818
6	Total cropped area	21,747	25,281	11,249	2,550	10,673	71,500

Source District Statistical Abstract, Una - 2001

Out of the total 71,500 hectares cropped area, 30,921 hectares were under double cropping pattern during 1999-2000 The statement given below shows the area under main crops in each tehsil/sub-tehsil of the district during 1999-2000

STATEMENT-D

TEHSILWISE AREA UNDER MAIN CROPS (IN HECTARES) DURING 1999-2000

Serial Number	Name of Crop	Tehsilwise area (1999-2000)					
		Una	Amb	Bangana	Haroli	Bharwain	Total
1	2	3	4	5	6	7	8
1	Cereals	19,016	23,255	10,296	9,338	2,386	64,291
2	Pulses	178	356	137	157	35	863
3	Others	1,125	948	661	643	43	3,420

Source District Statistical Abstract, Una-2001

During the year of 1999-2000, 64,291 hectares were under different cereals, 863 hectares under pulses and 3,420 hectares under other crops in the district

Following statement shows area under major crops (in Hectares) and production of major crops (in metric tonnes) during the year 1998-99 and 1999-2000

STATEMENT-E

AREA UNDER DIFFERENT CROPS AND PRODUCTION

Serial Number	Name of main crops	1998-99		1999-2000	
		Area (in hectares)	Production (in metric tonnes)	Area (in hectares)	Production (in metric tonnes)
1	2	3	4	5	6
1	Maize	28,084	22,130	29,519	56,153
2	Rice	2,592	3,227	2,627	5 769
3	Wheat	33,083	19,729	32,096	38,711
4	Pulses	919	261	864	391
5	Potato	582	1,463	613	3,745
6	Sugarcane	655	8,853	602	9,924
7	Oilseeds	2,162	703	2,192	940

Source District Statistical Abstract, Una-2001

In terms of area, wheat is major crop of the district which occupied 32,096 hectares with production of 38,711 metric tonnes during 1999-2000 However, quantity of maize produced was 56,153 tonnes in the area of 29,519 hectares during the same period Third position is occupied by rice followed by sugarcane, potato and oilseeds

Crop Insurance Scheme : In order to provide insurance to all crops and all farmers, the government has introduced "Rastriya Krishi Bima Yojna", in the state from "Rabi" 1999-2000 season Under this scheme all the loanee/ non-loanee farmers shall be covered and the government shall bear 50 per cent premium Initially maize, rice, wheat, barley, and potato crops have been brought under this scheme but other annual horticultural crops will also be included in the next three years

Horticulture : Horticulture is of great significance to the people of the state It goes a long way in improving the economic condition of the people District Una falls in Himalayan foothill-zone of the state As such apple, the main fruit crop of Himachal Pradesh, is not grown in the district However, a variety of other fruits are being grown in the district

Main fruit crops which are grown in the district are citrus, mango, guava and pear According to the data maintained by Horticulture department of state, area and production of different fruits during the year 1998-99 is given in following statement

STATEMENT-F
AREA UNDER DIFFERENT FRUITS (IN HECTARES) DURING 1998-99

Serial number	Name of fruits	Area (in hect)	Production (in metric tonnes)
1	2	3	4
1	Citrus Fruits	2,177	767
2	Nuts and dry fruits	172	15
3	Subtrophical fruits	1,932	3,489
4	Other temperate fruits	947	156
	Total	**5,2284,**	**787**

Source District Statistical Abstract, Una-2001

The district has one Progeny-cum-Demonstration Orchard at Saloh where nursery of pear, mango, guava and citrus are grown for the benefit of the farmers H P M C a state public undertaking is marketing fresh fruits and vegetables, processing the unmarketable surplus and marketing the processed products

Fertilizers to the fruits growers are being supplied by HIMFED organization through the agriculture services societies All pesticides are supplied to the growers through the A D O (Horticulture) posted in the block Besides, horticulture inputs are provided on subsidized rates to the farmers for the development of horticulture In the recent years mango has emerged as the important fruits crop

Irrigation : The growing of crops is largely dependent on rainfall and to increase the crop production, development of irrigation is essential for the increase of agriculture production particularly in areas where the rainfall is scanty and irregular The main river of district is Swan which does not provide the perinnial source of water However, the water level in plain area and adjoining to Swan river is shallow which can be used for irrigation by digging tubewells Besides this water of river Satluj has been lifted at village Bhabour Sahib of Punjab to provide the irrigation facility to the some of the villages of Una tehsil

The main sources of irrigation in the district are Government Canals, Tube- wells, Wells and Private Canals The irrigated area in hectares as per crop from 1998-99 to1999-2000 in the district is given in following statement

STATEMENT-G
GROSS IRRIGATED AREA (CROP-WISE) IN HECTARES

Serial number	Crops	1998-99		1999-2000	
		Total area	Irrigated area	Total area	Irrigated area
1	2	3	4	5	6
1	Maize	28,084	2,810	24,518	2,776
2	Rice	2,592	1,287	2,677	1,345
3	Wheat	33,083	6,419	32,096	5 591
4	Pulses	919	70	864	80
5	Potato	582	523	613	553

Source District Statistical Abstract, Una-2001

The major proportion of crops in the district is unirrigated 50 24 per cent of total area under rice was irrigated during 1999-2000 while irrigated area of wheat was only 17 42 per cent and under maize was 11 29 per cent Similarly irrigated area under other crops is also low in the district

Animal Husbandry: Livestock is the main wealth next to agriculture of rural population Almost every household in rural areas invariably keeps a few cows, buffaloes, sheep and goats and keep poultry birds Animals are kept for milk, meat and for providing manure to the fields The district has a large number of livestock As per the livestock Census of 1992, the number of livestock in the district is given in the following statement

STATEMENT-H
LIVE STOCK AND POULTRY (ACCORDING TO 1992 LIVESTOCK CENSUS)

Serial number	Particulars of Livestock and Poultry	Total
1	2	3
1	Cattle	67,492
2	Buffaloes	91,736
3	Sheep	5,983
4	Goats	46,974
5	Pigs	66
6	Others	768
7	Total	213,019
8	Poultry birds	21,847

Source District Statistical Abstract, Una-2001

For the prevention of common infectious diseases of livestock, veterinary aid is of great importance During the year 1999, there were 16 veterinary hospitals, 76 veterinary dispensaries, one mobile dispensary, one C V D and 14 other institutions in the district

These institutions are providing veterinary aid for common ailment and also helping in prevention and control of contagious diseases

Dairy : Dairy production is an integral part of the Animal Husbandry The Himachal Pradesh State Co-operative Milk Producers Federation is implementing dairy development activities in the state In order to improve the life standard of the people, all-round efforts are being made to improve the production of milk At present DCSO department is collecting milk at 3 milk chilling plants i e Bangana, Jhelera and Pekhubella

The district is surplus in milk supply and Gujjars living in this district are mainly engaged in the rearing of milch animals At present there are 8 routes in the district through which milk is collected from the rural areas and supplied to the milk chilling plants Cattle fairs are regularly organized in each block and animals of good quality are being supplied 16 centres are functioning in this district for breeding of Murrah buffaloes

Poultry Two poultry farms at Ajouli and Jalgran are existing and supplying poultry birds Poultry feed is being purchased from the Punjab Poultry Corporation, Chandigarh and Himachal Pradesh, Agro- industries, Parwanoo Poultry Development Officer, Ajouli and Poultry Manager, Una are imparting training to the farmers engaged in poultry farming

Fisheries : Una is a foothill district and is not drained by the perennial rivers/khads The natural fishing grounds inside the district are almost absent The natural fisheries resources of this district comprises of a portion of Gobind Sagar reservoir falling in the district Lunkar Khad spread from Dumkhar to Bhakra from where considerable fish production is achieved

There are about 130 seasonal and perennial ponds measuring about 65 hectares area in the district

The fish farming development agency is providing the facilities of seed production, rearing and distribution Fisheries Co-operative Societies i e Lathiani, Kutlehar and Mandi are engaged in fishing from Gobind Sagar

For providing some remunerative employment to the Scheduled Castes, educated unemployed, small and marginal farmers, the government of Himachal Pradesh has started some intensive programme for development of fish culture in the state The fishery department has provided gillnets, boats and tents to the fishermen for the development of the fisheries in the district

There is one Chief Executive Officer, one district Fishery officer and technical/clerical staff available for the development of the fisheries in

the district The local Panchayats also auction the Panchayat ponds to the fishermen which earn revenue to them

Government of India has initiated number of new schemes The beneficiary now is entitled for the financial assistance of Rs 40,000/- per hectare for pond construction, Rs 20,000/- per hectare for pond renovation, Rs 6,000/- per hectare for the Ist year inputs, Rs 10,000/- per hectare under integrated fish farming and 5 Lacs for setting fish feed unit etc

Fish production and its value, during year 1998-99 and 1999-2000 are given in following statement

STATEMENT-I
FISHERIES

Serial number	Items	1998-99	1999-2000
1	2	3	4
1	No of registered fishermen	242	241

Industries . There has been no large scale Industrial units in the district due to lack of infrastructural facilities, resources and demand In the district Industrial activities are being looked after by the District Industries Centre, Una which was established during 1979 with a motive to provide all the facilities under one roof such as preparing of the project reports, procuring of raw material and marketing of finished goods etc

District Industries Centre provides several incentives e g 10 per cent subsidy of capital investment, subsidy on rate of interest, margin money, exemption from sales and purchase taxes The details of medium and small scale industries existing in the district is given below

EXISTING INDUSTRIAL UNITS

Size of Industries	No of units	Investment(in lacs)	Employment
1	2	3	4
(i) Medium scale industries	5	4,106 00	541
(ii) Small scale industrial units	1,229	7,064 00	4,060
Total	**1,234**	**7,064 00**	**4,601**

The medium scale industries are engaged in the manufacturing L P G cylinders, coated cotton fabrics, P V C films, P V C sheetings, HDPE woven fabric socks, docorative & laminated sheets, Malta spirits, country liquor and craft paper etc The small scale industries are manufacturing steel furnitures, gate, grills, building material, wooden furniture, plastic pipes and water tanks etc

Industry department of the state has developed industrial centres in the district where all facilities to set up the industrial units are easily available The most of industries in the district are located in Mehatpur, Tahliwal, Amb and Gagret The detail of these industrial centres is given below

STATEMENT-J

Sericulture : Sericulture is an agro-based labour intensive industry and climatic conditions are quite favourable for growth of this industry Sericulture has been given the status of priority industry and is admissible for all those facilities which are given to priority industry in the state The silk worm rearers are given silk seed and mulberry saplings at highly subsidized rate Una district has four sericulture farms/centres through which sericulture related activities are being propogated These centres are located at Hatli, Takarla, Bahor Jaswan and Khud

Trade, Commerce and Banking : The district has no big trading centers The trade and commerce in the district is by and large confined to the local requirements only The main centers of wholesale business are Una, Gagret, Mehatpur and Chintpurni Almost all the major items of the daily requirement are imported from the plains except few cereals like wheat and maize which are locally grown and marketed Among the exports, the main articles are fish, 'dhoop', citrus fruits, sub-tropical fruits like mango etc The items of import are foodgrains, petrol, diesel, sugar, cloth, edible oil, utensil, kerosene etc

The banking services have a great role in economic growth In the past money lending was exclusively held by village Sahukars, who generally charged higher rates of interest as per their will With the opening of banks, trading activities are being handled by them The district has adequate banking facilities, most of the banks are situated at district, tehsil and block headquarters

There are 52 branches of commercial and 16 branches of Kangra Central Co-operative banks functioning in the district The Punjab National Bank is the lead bank of the district The following statement shows the number of branches of banks, deposits and advances during 1999-2000

STATEMENT-L
NUMBER OF BANK BRANCHES, DEPOSITS AND ADVANCES

Serial Number	Name of Bank	No of branches	Deposits (Rs in lacs)	Advances (Rs in lacs)

Source : District Statistical Abstract, Una-2001

The banks are providing the financial assistance to the transport operators, un-employed graduates, retail traders, small scale industries and agriculturists etc to generate the employment in the district The lead bank prepares the credit plan of the district to be implemented for the developmental activities by various government agencies and also identifies places for the opening of new branches It also acts as a liaison between the public and other banks on the one hand and between government and beneficiaries on the other

Transport : Road transportation is the life of the economy of the district The district is well connected by roads and rail The district has a good number of roads and it is connected by the roads from Chandigarh, Delhi and maximum places of Punjab and Himachal Pradesh The district headquarters is also connected by broad gauge railway line

The goods transport is almost in the hands of private truck operators while in case of passenger transport the buses of various regions are mainly plied by HRTC

A fleet of 94 buses of HRTC is plying in Una on different routes Punjab Roadways is also plying buses on various routes in the district The total length of metalled and unmetalled roads is 1,515 kms including national and state highways during 1999-2000 as per district statistical abastract of Una Out of this length 90 kms is double-lane while remaining length of road is signle- lane

All the tehsils and block headquarters are well connected by roads and State highway 32 passes through the district

HRTC - has introduced some new schemes for the benefit of people of the state like-

(i) Smart Card Schemes - Smart Card is obtainable on payment of Rs 50 and is valid upto one year Passengers having smart card get a discount of 10 per cent and senior citizens get discount upto 20 per cent

(ii) Group Discount Scheme– A group of 4 to 10 persons travelling more than 100 kms will get a discount of 10 per cent and a group of more than 10 persons will get a discount of 15 per cent

(iii) Courier Service- HRTC has introduced courier service through its buses from booking office w e f 01 11 2000

During the period 2000-2001, 2,836 vehicles were registered in the district as detailed in the following statement

STATEMENT-M

NO. OF REGISTERED VEHICLES IN THE DISTRICT, DURING YEAR 2000-2001

Serial number	Name of Vehicle	Total number

Source District Statistical Abstract, Una-2001

Electricity and Power : For the development of agriculture and industries, the availability of power is essential The use of electricity for domestic purpose has become a necessity in modern times The rural electrification plays a significant role in socio-economic development In the field of rural electrification, the state has made remarkable achievements All the inhabited villages of the state were electrified by the end of June 1988, though it was a very difficult task due to mountainous terrain The district does not have any hydo-electric generating station because there are no perennial rivers that flow through the district

For the distribution of electricity for industrial and domestic consumption, the district has 33 KV and 11 KV electric lines During the year 1999-2000 the number of consumers by type of uses of electricity is given below

STATEMENT-N
TYPES OF USERS OF ELECTRICITY

Serial number	Type of use of electricity	Number of Consumers
1	2	3
1	Domestic	1,05,927
2	Commercial	14,004
3	Industrial	1,690
4	Agricultural	1,592
5	Water Supply	172
6	Others	39
	Total	**123,424**

Source District Statistical Abstract, Una-2001

Gram Panchayat : There were 217 Gram Panchayats in the district by the end of December,1998 Each Gram Panchayat consists of one Gram Pradhan, one Up-Pradhan and five members duly elected by voters of that Gram Panchayat Number of members varies according to the population of Gram Panchayat

During the year 2000, the state government has established 126 new Gram Sabha circles and abolished 11 existing Gram Sabhas thus raising the number of Gram Panchayats to 3,037 from 2,922 in the state

In view of the provisions of the constitutional 73rd amendment Act and Himachal Pradesh Panchayati Raj Act,1994, the Panchayati Raj institutions have been devolved functions, powers and responsibilities relating to 15 departments of the state government As such Panchayats are involved in large number of civil works viz, construction of school rooms, paths, irrigation and water supply schemes, culverts etc and lot of funds are being released to the Panchayats for execution of these works These developmental works are being executed by the Gram Panchayats with very little technical help from the Junior Engineer of the concerned development block who are not able to supervise each work In addition, the State Govt has decided that the Gram Panchayats shall prepare micro plans proposing development interventions that reflect the needs in their area by way of improving rural connectivity, planning in connection with education, health and veterinary care facilities, drinking water, sanitation etc It has also been decided that every Gram Sabha shall hold four general meetings in each year on 1st Sunday of January, April, July and October

Keeping in view manifold increase in the functions of Gram Panchayats, it has been decided to provide them technical assistance by creating a post of Technical Sahayak for every 2 to 3 Panchayats The technical assistant will be the employee of the Gram Panchayat who will be paid honorarium @ Rs 1,200 P M from the Sabha funds for which Gram Panchayats have been allowed to charge one per cent contingency for the works executed through them pertaining to any scheme

The functionaries of the Panchayati Raj Institutions have to discharge various administrative, judicial and financial functions In order to make them aware about their functions, powers and responsibilities, training has to be imparted to them and as such a proposal for funding the training programme has been sent to Govt of India In the meantime the two training institutes of the department have been directed to impart training to newly elected Pradhans of Gram Panchayats

The funds to the Panchayati Raj Institutions are being provided as per the recommendation of 1st State Financial Commission With a view to strengthen the financial position of the Panchayati Raj Institutions and to raise resources through taxes and levies, the State Government on 1st November, 1999 have empowered the Gram Panchayats to levy taxes and fees at their own level for which maximum rates of such taxes, fees and duties have been notified by the Government under the provision of Section 100 of the Himachal Pradesh Panchayati Raj Act, 1994

(v) Concepts and Definitions

Census Concepts .

Building ·

A 'Building' is generally a single structure on the ground Sometimes it is made up of more than one component unit which are used or likely to be used as dwellings (residences) or establishments such as shops, business houses, offices, factories, workshops, worksheds, schools, places of entertainment, places of worship, godowns, stores etc It is also possible that building which have component units may be used for a combination of purposes such as shop-cum-residence, workshop-cum-residence, office-cum-residence, etc

Usually a structure will have four walls and a roof But in some areas the very nature of construction of houses is such that there may not be any wall Such is the case of conical structures where entrance is also provided but they may not have any walls Therefore, such of the conical structures are also treated as separate buildings

Permanent Houses :

Houses, the walls and roof of which are made of permanent materials The material of walls can be any one from the following, namely, galvanized iron sheets or other metal sheets, asbestos sheets, burnt bricks, stones or concrete Roof may be made of from any one of the following materials, namely, tiles, slate, galvanized iron sheets, metal sheets, asbestos sheets, bricks, stones or concrete

Semi-permanent Houses :

Houses in which either the wall or the roof is made of permanent material and the other is made of temporary material

Temporary Houses :

Houses in which both walls and roof are made of materials, which have to be replaced frequently Walls may be made from any one of the following temporary materials, namely, grass, thatch, bamboo, plastic, polythene, mud, unburnt bricks or wood Roof may be made from any one of the following temporary materials, namely, grass, thatch, bamboo, wood, mud, plastic or polythene

Dwelling Room

A room is treated as a dwelling room if it has walls with a doorway, a roof and should be wide and long enough for a person to sleep in, i e it should have a length of not less than 2 meters and a breadth of at least 1 5 meters and a height of 2 meters A dwelling room would include living room, bedroom, dining room, drawing room, study room, servant's room and other habitable rooms Kitchen, bathroom, latrine, store room, passageway and verandah which are not normally usable for living are not considered as dwelling rooms A room, used for multipurpose such as sleeping, sitting, dining, storing, cooking, etc , is regarded as a dwelling room In a situation where a census house is used as a shop or office etc and the household also stays in it then the room is not considered as a dwelling room But if a garage or servant quarter is used by a servant and if she/ he also lives in it as a separate household then this has been considered as a dwelling room available to the servant's household Tent or conical shaped hut if used for living by any household is also considered as dwelling room A dwelling room, which is shared by more than one household, has not been counted for any of them If two households have a dwelling room each but in addition also share a common dwelling room, then the common room has not been counted for either of the households

Census House :

A 'census house' is a building or part of a building used or recognised as a separate unit because of having a separate main entrance from the road or common courtyard or staircase, etc It may be occupied or vacant It may be used for residential or non- residential purpose or both In certain peculiar situations, the manner in which buildings and census houses were identified for numbering in the field by the enumerators is described hereunder Sometimes a series of different buildings are found along a street which are joined with one another by common walls on either side looking like a continuous structure These different units are practically independent of one another and are likely to have been built at different times and owned by different persons In such cases, though the whole structure with all the adjoining units apparently appears to be one building, each portion was treated as a separate building and its constituent units as separate census houses On the other hand, one may come across cases,

particularly in large cities of multi-storeyed ownership flats In these cases while the structure looks like one building, different persons own the flats In case of such multi-storeyed structures, having a number of flats owned by different persons, the entire structure was treated as one building and each flat as a separate census house

If within a large enclosed area, there are separate buildings owned by different persons then each such building is treated as a separate building There can be a situation where within an enclosed compound there are separate buildings owned by an undertaking or company or even government that are actually in occupation of different persons For example, Indian Oil Corporation colony where the buildings are owned by the Corporation but these are in occupation of their employees Each such building was treated as a separate building But if in any one of these buildings there were flats in occupation of different households, each such flat was reckoned as a separate census house Some times it becomes difficult to apply the definition of census house strictly in certain cases For example, in an urban area, if a flat has five rooms, each room having direct entrance from the common staircase or courtyard By definition, this has to be treated as five census houses If all these five rooms are occupied by a single household it was not realistic to treat them as five census houses In such a case, 'singleness' of use of these rooms along with the main house should be considered and the entire flat was treated as one census house On the other hand, if two independent households occupy these five rooms, the first household living in 3 rooms and the second household occupying 2 rooms, then considering the use, the first three rooms together were treated as one census house and the remaining rooms as another census house But if each room was occupied by an independent household, then each such room was treated as a separate census house In case of hostels, hotels, etc , even if the door of each room in which an inmate lives opens to a common verandah, staircase, courtyard or a common room, as it happens almost invariably, the entire hostel/hotel building was treated as one census house but if such-hostels/hotels have out-houses or other structures used for different purposes or the same purpose, then each such structure attached to the main hostel/hotel was treated as a separate census house In some parts of the country, in rural areas, the pattern of habitation is such that a group of huts, located in a compound, whether enclosed or unenclosed, is occupied by one household While the main residence may be located in one hut, other huts may be used for sleeping, as a kitchen, bath room, baithak, etc Though each of the huts was a separate structure, they form a single housing unit and therefore, have to be treated collectively as one building and one census house If some of the huts are used by one household and the others by a second household as residence, then the two groups of huts were treated as separate census houses However, if there were also other huts in the compound used for other purposes and not as part of the household's residence such as, cattle shed, workshed, etc , these were treated as separate census houses On the other hand, in urban areas, where more than one structure within an enclosed or open compound (premises) belonging to the same person, e g , the main house, the servant's quarter, the garage, etc., only one building number was given for this group and each of the constituent a separate census house number Only cases where a structure with roof and pillars has come up was treated as a building

Village

The basic unit for rural areas is the revenue village which has definite surveyed boundaries The revenue village may comprise of one or more hamlets but the entire village is treated as one unit for presentation of data In unsurveyed areas, like villages within forest areas, each habitation area with locally recognized boundaries is treated as one village

Rural-Urban Area

The data in tables on Houses, Household Amenities and Assets are presented separately for rural and urban areas The unit of classification in this regard is 'town' for urban areas and 'village' for rural areas In the Census of India 2001, the definition of urban area adopted is as follows a) All places with a municipality, corporation, cantonment board or notified town area committee, etc b) A place satisfying the following three criteria simultaneously i) A minimum population of 5,000, ii) at least 75 per cent of male working population engaged in non-agricultural pursuits, and iii) a density of population of at least 400 per sq km (1,000 per sq mile) For identification of places which would qualify to be classified as 'urban' all villages, which, as per the 1991 Census had a population of 4,000 and above, a

population density of 400 persons per sq km and having at least 75 per cent of male working population engaged in non-agricultural activity were considered To work out the proportion of male working population referred to above against b) (ii), the data relating to main workers were taken into account Apart from these, the outgrowths (OGs) of cities and towns have also been treated as urban under 'Urban Agglomerations' Examples of out growths are railway colonies, university campuses, port areas, military camps, etc , that may have come up near a statutory town or city but within the revenue limits of a village or villages contiguous to the town or city Each such individual area by itself may not satisfy the demographic criteria laid down at (b) above to qualify it to be treated as an independent urban unit but may deserve to be clubbed with the towns as a continuous urban spread Thus, the town level data, wherever presented, also includes the data for outgrowths of such towns

City ·

Towns with population of 100,000 and above are called cities

Urban Agglomeration :

An Urban Agglomeration is a continuous urban spread constituting a town and its adjoining urban outgrowths (OGs) or two or more physically contiguous towns together and any adjoining urban outgrowths of such towns In some cases railway colonies, university campuses, port areas, etc , may come up near a city or statutory town outside its statutory limits but within the revenue limits of a village or villages contiguous to the town or city Each such individual area by itself may not satisfy the minimum population limit to qualify it to be treated as an independent urban unit but may deserve to be clubbed with the town as a continuous urban spread For the purpose of delineation of Urban Agglomerations during Census of India 2001, following criteria are taken as pre-requisites (a) The core town or atleast one of the constituent towns of an urban agglomeration should necessarily be a statutory town , and(b) The total population of all the constituents (i e , towns and outgrowths) of an Urban Agglomeration should not be less than 20,000 (as per the 1991 Census) With these two basic criteria having been met, the following are the possible different situations in which Urban Agglomerations would be constituted i) a city or town with one or more contiguous outgrowths , ii) two or more adjoining towns with their outgrowths , and iii) a city and one or more adjoining towns with their outgrowths all of which form a continuous spread

Household :

A 'household' is usually a group of persons who normally live together and take their meals from a common kitchen unless the exigencies of work prevent any of them from doing so Persons in a household may be related or unrelated or a mix of both However, if a group of unrelated persons live in a census house but do not take their meals from the common kitchen, then they are not constituent of a common household Each such person was to be treated as a separate household The important link in finding out whether it was a household or not was a common kitchen There may be one member households, two member households or multi-member households

Institutional Household

A group of unrelated persons who live in an institution and take their meals from a common kitchen is called an Institutional Household Examples of Institutional Households are boarding houses, messes, hostels, hotels, rescue homes, jails, ashrams, orphanages, etc To make the definition more clearly perceptible to the enumerators at the Census 2001, it was specifically mentioned that this category or households would cover only those households where a group of unrelated persons live in an institution and share a common kitchen

Houseless Household .

Households who do not live in buildings or census houses but live in the open on roadside, pavements, in hume pipes, under fly-overs and staircases, or in the open in places of worship, mandaps, railway platforms, etc , are treated as Houseless Households

Scheduled Castes and Scheduled Tribes

Article 341 of the Constitution provides that the President may, with respect to any State or Union territory, specify the castes, races or tribes or parts of or groups within castes, races or tribes which shall for the purposes of the Constitution be deemed to be Scheduled Castes in relation to that State or Union territory Article 342 similarly provides for

specification of tribes or tribal communities or parts of or groups within tribes or tribal communities which are to be deemed for the purposes of the Constitution to be Scheduled Tribes in relation to the various States and Union territories In pursuance of these provisions, the list of Scheduled Castes and Scheduled Tribes are notified for each State and Union territory and are valid only within the jurisdiction of that State or Union territory and not outside It is important to mention here that under the Constitution (Scheduled Castes) Order, 1950, no person who professed a religion different from Hinduism was deemed to be a member of a Scheduled Castes in addition to every member of the Ramdasi, Kabirpanthi, Mazhabi or Sikligar Caste resident in Punjab or Patiala and East Punjab States Union were in relation to that State whether they professed the Hindu or the Sikh religion Subsequently, in September 1956, by an amendment, the Presidential Order of 1950 and in all subsequent Presidential Orders relating to Scheduled Castes, the Hindu and the Sikh religions were placed on the same footing with regard to the specification of Scheduled Castes Later on, as per the amendment made in the Constitution (Scheduled Castes) Order 1990, the Hindu, the Sikh and the Buddhist were placed on the same footing with regard to the recognition of the Scheduled Castes The lists containing the names of the Scheduled Castes and the Scheduled Tribes applicable for the Census of India 2001 in the State are given below

Scheduled Castes

1 Ad Dharmi
2 Badhi Nagalu
3 Balmiki, Bhangi, Chuhra, Chura, Chuhre

Language and Mother tongue

As per the census concept, each language is a group of mother tongues The census questionnaire collects information on the mother tongue of each person and mother tongue is defined as the language spoken in childhood by the person's mother to the person If the mother died in infancy, the language mainly spoken in the person's home in childhood will be the mother tongue In the case of infants and deaf mutes, the language usually spoken by the mother is considered as mother tongue It is not necessary that the language spoken as mother tongue should have a script The mother tongues returned by the respondents in census are classified and grouped under appropriate languages according to their linguistic characteristics

Literate

A person age 7 years and above who can both read and write with understanding in any language is taken as literate A person who can only read but cannot write is not literate It is not necessary that to be considered as literate, a person should have received any formal education or passed any minimum educational standard Literacy could also have been achieved through adult literacy classes or through any non-formal educational system People who are blind and can read in Braille are treated as literates

Literacy Rate ·

Literacy rate of the population is defined as the percentage of literates in the age- group seven years and above For different age groups the percentage of literates in that age group gives the literacy rate

Educational Level

The highest level of education a person has completed

Work

Work is defined as participation in any economically productive activity with or without compensation, wages or profit Such participation may be physical and/or mental in nature Work involves not only actual work but also includes effective supervision and direction of work It even includes part time help or unpaid work on farm, family enterprise or in any other economic activity All persons engaged in 'work' as defined above are workers Persons who are engaged in cultivation or milk production even solely for domestic consumption are also treated as workers Reference period for determining a persons as worker and non-worker is one year preceding the date of enumeration

Main Worker .

A person who has worked for major part of the reference period (i e six months or more during the last one year preceding the date of enumeration) in any economically productive activity is termed as 'Main worker'

Marginal Worker ·

A person who worked for less than six months of the reference period (i e in the last one year preceding the date of enumeration) in any economic activity is termed as 'Marginal Worker'

Non-worker ·

A person who has not worked at all in any economically productive activity during the reference period (i e last one year preceding the date

of enumeration) is termed as 'Non-Worker'

Cultivator

For purposes of the Census a person is classified as cultivator if he or she is engaged in cultivation on land owned or held from government or held from private persons or institutions for payment in money, kind or share Cultivation includes effective supervision or direction in cultivation A person who has given out her/his land to another person or persons or institution(s) for cultivation for money, kind or share of crop and who does not even supervise or direct cultivation in exchange of land, is not treated as cultivator Similarly, a person working on another person's land for wages in cash or kind or a combination of both (agricultural labourer) is not treated as cultivator Cultivation involves ploughing, sowing, harvesting and production of cereals and millet crops such as wheat, paddy, jowar, bajra, ragi, etc , and other crops such as sugarcane, tobacco, ground-nuts, tapioca, etc , and pulses, raw jute and kindred fiber crop, cotton, cinchona and other medicinal plants, fruit growing, vegetable growing or keeping orchards or groves, etc Cultivation does not include the following plantation crops–tea, coffee, rubber, coconut and betel-nuts (areca)

Agricultural Labourer ·

A person who works on another person's land for wages in money or kind or share is regarded as an agricultural labourer She/he has no risk in the cultivation, but merely works on another person's land for wages An agricultural labourer has no right of lease or contract on land on which she/he works

Household Industry Worker :

Household industry is defined as an industry conducted by the head of the household herself/himself and or by the members of the household at home or within the village in rural areas and only within the precincts of the house where the household lives in urban areas The larger proportion of workers in household industry should consist of members of the household including the head The industry should not be run on the scale of a registered factory which would qualify or has to be registered under the Indian Factories Act and should be engaged in manufacturing, processing, servicing and repairs of goods It does not include professions such as a pleader, Doctor, Musician, Dancer, Waterman, Astrologer, Dhobi, Barber, etc or merely trade or business, even if such professions, trade or services are run at home by members of the household

Other Worker :

.A person who has been engaged in some economic activity during the reference period but not as a cultivator or agricultural labourer or in Household Industry is termed as a 'Other Worker (OW)' The type of workers that come under this category of 'OW' include all government servants, municipal employees, teachers, factory workers, plantation workers, those engaged in trade, commerce, business, transport, banking, mining, construction, political or social work, priests, entertainment artists, etc In effect, all those workers other than cultivators or agricultural labourers or household industry workers, are 'Other Workers'

Work Participation Rate :

Percentage of workers (main + marginal) to total population

Population Density :

Population density is the number of persons inhabited per square kilometre of the area

Age ·

Age is measured in terms of the completed number of years

Sex-ratio

Number of females per 1,000 males in a population

(vi) Non-Census Concepts

Improved Drinking Water

If the household had access to drinking water supplied from a tap, hand pump, tube well or well (protected or covered) situated within or outside the premises, it is considered as having access to improved drinking water It may be mentioned that such uniform definition may not be valid across all states

System of Sewerage

Generally, a sewerage system would mean a network of mains and branches of underground conduits for the conveyance of sewerage to the point of disposal Sewers that carry only household and industrial wastage are called separate sewers, those that carry storm water from roofs, streets and other

surfaces are known as storm water drains, while those carrying both sewage and storm water are called combined sewers However, in some towns which are not provided with such underground sewerage system, it is served by open surface drain, box drain, sylk pattern drain, etc , in these towns

Type of latrine and method of disposal of night soil

There are three prevalent systems of disposal of human wastes, viz (i) underground sewerage, (ii) sanitary water flush latrines with individual disposal systems, like septic tank, leaching cess pool and collecting well, and (iii) dry type of latrines with manual scavenging The system of underground sewerage provided for the street sewerage which are connected to the sanitary latrines constructed in the houses having water closets and fitted with flushing cistern (or hand flushing) Through this sewer the faecal matter is transported without the need for scavenging This system generally exists in cities and big towns Where the streets sewer does not exist these sanitary water flush latrines are connected to a local septic tank with a sub-soil dispersion system or a leaching pit Here the liquid wastes from the water closet is disposed of locally in leaching pit, a septic tank with a soil dispersion system is constructed This dispersion requires an optimum travel through the pores of the soil which renders the harmful liquid bacterially innocuous by the slow process of filtration through the soil traversed Where the soil is impermeable, collecting wells are constructed and the sanitary water flush latrines are connected with them These wells are cleaned at periodic intervals by a suitable device The dry type of latrines are of service type latrines from where human excreta is removed by scavengers from house to house, in most cases carrying it on their heads or shoulders or in baskets with handle or wheel barrows These are then collected in bullock carts or trucks or tractors and trolleys for being carried to the dumping grounds

Fertility .

In demography, the word fertility is used in relation to the actual production of children or occurrence of births specially live births Fertility is a measure of rate at which population adds to itself by births and normally assessed by relating the number of births to a full or part of the population, such as number of married women or number of women of child bearing age The definitions of the terminology used in computing different fertility rates are mentioned below

Crude Birth Rate (CBR) .

Ratio of the number of live births in a year to the mid year population, normally expressed per 1,000 population

$$CBR = \frac{\text{Number of live births during the year}}{\text{Mid-year population}} \times 1,000$$

Crude Death Rate (CDR) .

Ratio of the number of deaths in a year to the mid year population, normally expressed per 1,000 population

$$CDR = \frac{\text{Number of deaths during the year}}{\text{Mid-year population}} \times 1,000$$

Natural Growth Rate :

Growth rate is obtained as the difference between crude birth rate and crude death rate in the absence of migration

Age Specific Fertility Rate (ASFR)

Number of live births in a year to female population in any specified age group normally expressed per 1,000 women

$$ASFR = \frac{\text{Number of live births in a particular age-group}}{\text{Mid-year female population of the same age-group}} \times 1,000$$

Age Specific Marital Fertility Rate (ASMFR)

Number of live births in a year to married female population in any specified age group normally expressed per 1,000 married women

$$ASMFR = \frac{\text{Number of live births in a particular age-group}}{\text{Mid-year married female population of the same age-group}} \times 1,000$$

General Fertility Rate (GFR) :

Number of live births per 1,000 women in the reproductive age-group (15-49) years in a given year

$$GFR = \frac{\text{Number of live births in a year}}{\text{Mid-year female population in the age-group (15-49) years}} \times 1,000$$

General Marital Fertility Rate (GMFR) :

Number of live births per 1,000 married women in reproductive age-group (15-49) years in a given year

$$GMFR = \frac{\text{Number of live births in a year}}{\text{Mid-year married female population in the age-group (15-49) years}} \times 1,000$$

Total Fertility Rate (TFR) :

It is obtained as the total of the age specific fertility rates (number of children born per woman of the particular age) for the entire reproductive age span It provides the average number of children that will be born to a woman under the fertility levels indicated by the age specific fertility rates assuming that there is no mortality of women till the completion of reproductive period

$$TFR = \frac{5 \times \sum_{15-19}^{45-49} ASFR}{1,000}$$

Total marital fertility rate (TMFR)

Average number of children that would be born to a married woman if she experiences the current fertility pattern throughout her reproductive span (15-49) years assuming that there is no mortality of women till the completion of reproductive period

$$TMFR = \frac{5 \times \sum_{15-19}^{45-49} ASMFR}{1,000}$$

Age-specific Mortality Rate (ASMR)

Number of deaths in a particular age and sex group per 1,000 population of the same age group

$$ASMR = \frac{\text{Number of deaths in a particular age-group}}{\text{Mid-year population of the same age-group}} \times 1,000$$

q1

Probability of dying between birth and age 1 This can be used as approximate value of Infant Mortality Rate (IMR) which gives the ratio of number of deaths in a year of children aged less than one year to the number of births in that year

q2

Probability of dying between birth and age 2

q5

Probability of dying between birth and age5 This indicator is also known as Under Five Mortality Rate (U5MR)

Infant Mortality Rate (IMR)

Ratio of the number of infant deaths (deaths of children below one year) in a year to the number of live births in that year

$$IMR = \frac{\text{Number of infant deaths during the year}}{\text{Number of live births during the year}} \times 1,000$$

Infant mortality rate comprises of two parts, viz , Neo-natal mortality rate and Post neo-natal mortality rate The neo-natal mortality rate also comprises of two parts viz , Early neo-natal mortality rate and late neo-natal mortality rate These are defined as

Neo-natal Mortality Rate (NMR)

Number of infants dying within the first month of life (28 days or under) in a year per 1,000 live births of the same year

$$NMR = \frac{\text{Number of infant deaths aged 28 days or under during the year}}{\text{Number of live births during the year}} \times 1,000$$

Early neo-natal Mortality Rate

$$= \frac{\text{Number of infant deaths of less than 7 days during the year}}{\text{Number of live births during}} \times 1,000$$

Late neo-natal Mortality Rate :

$$= \frac{\text{Number of infant deaths of 7 days to less than 29 days during the year}}{\text{Number of live births during the year}} \times 1,000$$

Post neo-natal Mortality Rate (PNMR)

$$= \frac{\text{Number of deaths of 29 days to less than one year during the year}}{\text{Number of live births during the year}} \times 1,000$$

Peri-natal Mortality Rate (PMR)

Number of still births plus deaths within 1st week of delivery per 1,000 births in a year

$$PMR = \frac{\text{Number of still births and infant deaths of less than 7 days during the year}}{\text{Number of live births and still births during the year}} \times 1,000$$

Still Birth Rate (SBR) .

$$= \frac{\text{Number of still births during the year}}{\text{Number of live births and still births during the year}} \times 1,000$$

Maternal Mortality Rate (MMR)

Number of deaths of women in the age group 15-49 while pregnant or within 42 days of termination of pregnancy from any cause related to pregnancy and child birth per 1,00,000 live births in a given year

$$MMR = \frac{\text{Number of maternal deaths to women in the age-group 15-49}}{\text{Number of live birth}} \times 1,00,000$$

Eligible couple (Couples per 1,000 population)·

Number of currently married females in the age group15-44 years per 1,000 persons of all ages

Child woman ratio (0-4) :

1 Number of children in the age group 0-4 years per 1,000 women in the age group 15-49 years

Child woman ratio (5-9)

2 Number of children in the age group 5-9 years per 1,000 women in the age group 15-49 years

Migration .

Migration is the third component of population change, the other two being mortality and fertility

A person is considered as a migrant by place of birth if the place in which he/she is enumerated during the census is other than the place of his/her birth

Similarly a person is considered as a migrant by place of last residence if the place in which he/she is enumerated during the census is other than his/her place of immediate last residence outside the village or town and not simply in another house or locality in the same village or town

Certain aspects concerning temporary movement/ migration of people has been explained below as these are important components concerning migration

(i) Migration of persons in search of job is high in the country In many cases such migrants are only seasonal in nature People migrate to other places for work in a particular season and come back again to their usual place of residence after three or four months All such workers are treated as migrants Similarly, if a person moved to any other place for attending short term vocational or educational course that lasted for only few months of a year, she/he too were considered as a migrant

(ii) Where a person had merely gone out to another place or had been shifting from one place to another purely on tour, pilgrimage, visit to hospital for treatment or for temporary business purposes, such persons are not deemed to have had another residence different from the place where she/he or her/his family normally resides She/he is not considered as migrant

(iii) A woman temporarily moves into a hospital or to her parents or other relative's house for delivery and if the hospital or the parents/relatives house is in a place different from usual place of residence, the place where the hospital or parents/relative's house is the place of last residence of the child but not of the mother

A new response category 'Moved after birth' was added in Census of India 2001 in the question on 'reasons for migration' to bring out additional migration patterns Natural calamities or distress migration as a reason for migration for last residence migrants included in 1991 Census, is covered under

category of 'Others' The reason for migration has been determined as applicable at the time of migration and not in reference to any point of time after that For example, if a person had moved from the place of her/his last residence for the purpose of education and subsequently at some point of time got employment there only, the reason for migration would be 'education' and not 'work/employment'

Internal and International migration :

The migrational movements are of three types (i) Migration within the state itself with its components (a) Migration within the district of enumeration (intra district migration) (b) Migration from one district of state to another district of state (inter district migration), (ii) Migration from one state to another State of the country (inter-state migration), (iii) Migration from one country to another country The first two streams together constitute internal migration, while the last type of movement is called international migration The present name of the country, state or district and not the name by which they were known at the time of her/his birth or last residence were recorded

Rural-Urban components of migration :

Rural or Urban status in respect of migrants have been determined as applicable at the time of migration and not with reference to any point of time after that The flow of migrants consists of four streams viz rural to rural, rural to urban, urban to rural and urban to urban

Civic status of urban units .

Civic Status of a town/city is determined on the basis of Civic Administrative authority of the town e g , Municipal Corporation/ Corporation, Municipal Committee/Municipal Council Municipality etc

Size-class of UA/town

Size-class of UA/Town is based on the population size of the UA/City/Town UAs/Towns with 100,000 and above population are classified as Class I UAs/ towns These Class I UAs/towns are now further sub classified in to seven sub classes namely M1 to M7 depending on the population size of UA/City/ Town These are M7 (5,000,000 and above), M6 (2,000,000 to 4,999,999), M5 (1,000,000-1,999,999) M4 (500,000-999,999), M3 (300,000-499,999), M2 (200,000-299,999) & M1 (100,000-199,999) towns with, 50,000 to 99,999 population are classified as Class II towns, 20,000 to 49,999 population are Class III towns, population with 10,000-19,999 are Class IV towns, population with 5,000 and 9,999 are Class V towns and towns with less than 5 000 population are Class VI towns

Slum area ·

The Slum Areas (Improvement and Clearance) Act, 1956 which was enacted by the Central Govt defined slums as a) Areas where buildings are in any respect unfit for human habitation, or b) are by reasons of dilapidation, overcrowding, fault arrangement and design of such buildings, narrowness or faulty arrangement of streets, lack of ventilation, light or sanitation facilities, or any combination of these factors, are detrimental to safety, health or morals

Mega city :

The concept of 'Mega city is a recent phenomenon in the Urban Sociology and is defined in term of metropolitan city in the form of large size, problem of management of civic amenities and capacity to absorb the relatively high growth of population Indian Census in 1991 treated the population size of 5 million and above as the cut off point to identify a place as the mega city Whereas, for the purpose of inclusion in Centrally Sponsored Scheme for Infrastructure Development in Mega cities the Ministry of Urban Affairs and employment, Department of Urban Development adopted the criteria of 4 million and above population as per 1991 Census for Mega Cities In 2001 Census, cities with 10 millions and above population have been treated as Mega cities

(vii) 2001 Census findings – Population, its distribution

(a)Distribution of population in rural-urban areas

According to the 2001 Census, the total population of Una district is 448,273 comprising 224,524 males and 223,749 females This population of the district forms 7 4 per cent of the state population and ranks at 7th place among the districts Out of the total population of the district 91 2 per cent lives in rural areas while 8 8 per cent lives in urban areas Rural

population of the district is distributed among 5 tehsils, sub-tehsils and urban population is spread over in equal number of towns The total urban population in the district is 39,424 persons comprising 20,800 males and 18,624 females The total rural population in this district comes to 408,849 persons and is composed of 203,724 males and 205,125 females as per 2001 Census This rural population is distributed in 758 villages Out of the total 814 villages in the district 758 are inhabited villages while 56 villages are uninhabited Swan valley has dense concentration of villages which are bigger in their size The main concentration of villages is mainly in this valley as it is flat and most fertile area of the district

(b) Size class and civic status of towns The statement below gives the position and number of urban units in size class for 2001 Census

Serial number	Size Class of town	Name and civic status of town	Urban population		
			P	M	F
1	2	3	4	5	6
1	VI	Daulatpur (NP)	3,354	1,700	1,654
2	VI	Gagret (NP)	3,181	1,685	1 496
3	V	Mehatpur Basdehra (NP)	8,681	4,653	4,028
4	V	Santokhgarh (NP)	8,308	4,274	4,034
5	IV	Una (M Cl)	15,900	8,488	7,412
	Total	**5 Towns**	**39,424**	**20,800**	**18,624**

Population Growth, Density and Sex-ratio

Population Growth According to the 1991 Census, the total population of the district was 378,269 which rose to 448,273 in 2001 Census There has been net addition of 70,004 persons during 1991-2001 The decadal growth rate of district comes to 18 5 per cent The growth rates for the rural and urban areas of the district are 18 2 and 22 2 per cent respectively The growth rate of urban population is high than the rural population in the district due to plain terrain of the district and industrial development Moreover, there is decline in the urban population of Gagret Nagar Panchayat by 25 3 per cent during the decade resulting low growth in urban population This decline in the urban population in this town is mainly due to the transfer of urban area to rural area leading to negative growth The highest growth of urban population has taken place in Santokhgarh (NP) where population shows increase of 35 3 per cent during the decade

Density The density of population in Una district is 291 persons per sq km against the state average of 109 persons At tehsil/sub-tehsil level, the density of population varies between 493 persons in Una tehsil and 156 persons in Bangana tehsil In rural areas the density of population works out 269 persons per km^2 while in urban areas it comes to 1,923 persons

Sex-ratio There are 997 females for every thousand males in Una district The sex-ratio figures for rural and urban areas of the district are 1,007 and 895 respectively It is also observed that the proportion of females in rural areas is higher than that of urban areas Among the tehsils/sub-tehsils,the highest sex ratio of 1,028 females has been recorded in Bangana tehsil and the lowest is recorded in Una tehsil (958) The urban areas of Mehatpur Basdehra has lowest sex ratio of 866 females Sex-ratio in age-group 0-6 comes 837 females per 1,000 males in the district, as a whole In rural areas, this proportion is 839 females while in urban areas the sex-ratio of child population works out 820 females per 1,000 males

Work participation rate The work participation rate is defined as percentage of total workers to total population In the same way it is defined for main workers and marginal workers According to 2001 Census, the total workers including main and-marginal workers constitute 45 0 per cent of the total population of the district Of the total workers, the share of the main workers is 26 6 per cent and the marginal workers is 18 4 per cent The remaining more than half of population belongs to the category of non-workers

As per 2001 Census among the main workers, male participation rate in the district is 41 1 per cent and corresponding proportion of females is 12 0 per cent Male and female marginal workers account for 11 8 and 25 0 per cent respectively The proportion of female marginal workers is substantially higher than males, as the females are attending to one or more economic activities in addition to their house duties to improve the family income

It is observed that in rural as well as in the urban areas of the district, the proportion of male main workers is higher than that of the female main workers

Literacy A person who can read and write in any language with understanding is taken as literate

in census All children of age below 7 years are treated as illiterate

As per 2001 census Una district reported 312,278 persons as literates constituting 80 4 per cent of the total population excluding 0-6 age-group population The proportion of male and female literates in the district is 87 7 and 73 2 per cent respectively The literacy rate of males is much higher than that of females The difference of male and female literacy rate is 14 5 points in the district

The total literacy rates of rural and urban areas are 80 2 and 82 1 per cent respectively The proportion of male and female literates in rural areas is 87 8 and 72 8 per cent respectively In urban areas this proportion is 86 6 and 77 2 per cent respectively The difference between male and female literacy rates in urban areas is about 9 4 points as against 15 0 points in rural areas It is thus clear that females are better educated in urban areas than their counterparts in rural areas

Availability of University education in the district There are two Govt Colleges in the district situated in Amb and Una besides these, other private colleges are functioning at Gagret and Daulatpur and Bhatoli Govt Degree College of Amb caters the needs of Amb and Bharwain sub-tehsil while the rest of tehsils/sub-tehsils are served by the remaining Colleges For higher university education, the students of this district have to go Shimla, Solan, Palampur or outside the state

(c) Scheduled Castes and Scheduled Tribes population, 2001 Of the 448,273 total population of the district, 100,588 persons constituting 22 4 per cent of the total population belongs to the Scheduled Castes and 51 persons accounting for negligible proportion of Scheduled Tribes population The percentage of Scheduled Castes population constitute 22 8 per cent in rural population and 18 9 per cent in urban population of the district The proportion of Scheduled Tribes is negligible among the rural population while in urban areas, it comes only 0 1 per cent This district is not having any notified Scheduled Tribes The Scheduled Tribes population in the district is mainly concentrated in Una tehsil

Brief Analysis of PCA data

TABLE 1 DECADAL CHANGE IN POPULATION OF TEHSILS/SUB-TEHSILS BY RESIDENCE, 1991-2001

Serial		Population						Percentage decadal variation			Percentage urban population	
		1991			2001			1991-2001				
number	Tehsil/Sub-tehsil	Total	Rural	Urban	Total	Rural	Urban	Total	Rural	Urban	1991	2001
1	2	3	4	5	6	7	8	9	10	11	12	13
1	Bharwain (ST)	15,625	15 625	-	16,323	16,323	-	+4 5	+4 5	-	-	-

3	Bangana (T)	55,605	55,605	-	64 347	64 347	-	+15 7	+15 7	-	-	-
4	Una (T)	135,175	109,909	25,266	164 779	131,890	32,889	+21 9	+20 0	+30 2	18 7	20
5	Haroli (ST)	51,437	51,437	-	59,179	59,179	-	+15 1	+15 1	-	-	-
	District Total	**378,269**	**345,997**	**32,272**	**448,273**	**408,849**	**39,424**	**+18 5**	**+18 2**	**+22 2**	**8 5**	**8 8**

Table 1 · The growth rates of each tehsil/sub-tehsil in Una district for total, rural and urban areas and percentage of urban population to total population is given in table The decadal growth rate of the district is 18 5 per cent during 1991-2001 The growth rates for rural and urban areas of the district are 18 2 and 22 2 per cent respectively Out of the total population of the district 91 2 per cent lives in rural areas while 8 8 per cent lives in urban areas of the district The proportion of urban population has slightly increased during the decade from 8 5 per cent in 1991 to 8 8 per cent in 2001 in the district The highest growth of urban population is recorded (30 2 per cent) in Una tehsil and negative growth is registered inAmb (-6 7) tehsil This negative growth in urban population of Amb tehsil is mainly due to the transfer of urban area to rural area in Gagret Nagar Panchayat resulting decline in urban population during 1991-2001 Urban population is concentrated in Una and Amb tehsils while other tehsils/sub-tehsils are entirely rural Una tehsil has highest decadal growth rate of 21 9 per cent, while Bharwain sub-tehsil has shown the lowest growth rate of 4 5 per cent for the total population

TABLE 2 NUMBER AND PERCENTAGE OF INHABITED VILLAGES IN SPECIFIED POPULATION SIZE RANGES WITH THE RELATED POPULATION, 2001

Serial number	District / C D block	Total number of inhabited villages	Total rural population			Number and percentage of villages	Population less than 200		Number and percentage of villages	Population 200-499	
			Persons	Males	Females		Males	Females		Males	Females

101-200	162	21 4	52,811	12 9
201-300	176	23 2	91,940	22 5
301-500	177	23 4	111,612	27 3
501 +	145	19 1	140,040	34 3
Not known	-	0 0	-	0 0
District Total	**758**	**100 0**	**408,849**	**100 0**
Population Density (Rural) of the district		**290 6**		

Table 4 . This table shows the distribution of villages by population density ranges The inhabited villages of the district have been grouped under eight different ranges of density The maximum number of villages i e 177 accounting for 23 4 per cent of the total inhabited villages of the district fall in the density range of 301-500 persons having 27 3 per cent population The lowest ranges of 0-10 & 11-20 persons per sq km cover 12 villages (1 6 per cent) 145 villages (19 1 per cent) have very high density with more than 501 persons per sq km while the corresponding proportion in the lower range of 101 to 300 is 44 6 per cent of the total inhabited villages having 35 4 per cent population of the district In the medium densities ranges of 21 to 50 and 51-100 persons account for 3 0 and 8 3 per cent of inhabited villages respectively Both these ranges claim 3 0 per cent rural population

TABLE 5 SEX RATIO OF STATE AND DISTRICT, 1901-2001

Census year	Himachal Pradesh			Una District *		
	Total	Rural	Urban	Total	Rural	Urban
1	2	3	4	5	6	7
1901	884	899	600	-	-	-
1911	889	905	499	900	900	-
1921	890	908	490	930	930	-
1931	897	915	521	917	919	843
1941	890	907	542	916	921	764
1951	912	932	664	936	939	830
1961	938	961	650	978	980	911
1971	958	976	749	1,003	1,008	876
1981	973	989	795	1,028	1 037	926
1991	976	990	831	1,017	1 024	939
2001	968	989	795	997	1,007	895

* Sexwise population for 1901 Census is not available

Note Sex-ratio has been defined here as the number of females per 1 000 males

Table 5 As per 2001 Census sex-ratio of 997 females per 1,000 males has been recorded in the district against the state average of 968 The sex-ratio of the district was significantly high as compared to the state average figures from 1911 to 2001 and remained above the state average figures during this period The sexwise population for 1901 Census is not available for newly merged areas in the state

The total sex ratio of district was 900 females per 1000 males in1911 It continued to swing between 930 females in 1921 and 978 females in 1961 census with slight ups and downs during this period In subsequent decades, it crossed the parity line except 2001 Census when it fell down to 997 females from 1017 in 1991 But in the case of state it never crossed the equality line but shows gradual improvement during 1901-2001 The sex ratio of the state was 884 females in 1901 which rose to 968 in 2001 Census showing gain of 84 points during this period

TABLE 6 SEX RATIO BY TEHSILS, 2001

Serial number	Name of Tehsil/Sub-tehsil	Sex ratio		
		Total	Rural	Urban
1	2	3	4	5
1	Bharwain (ST)	1,027	1 027	-
2	Amb (T)	1,016	1,021	931
3	Bangana (T)	1,028	1,028	-
4	Una (T)	958	976	889
5	Haroli (ST)	1,017	1,017	-
	District Total	**997**	**1,007**	**895**

Table 6 . It gives sex-ratio for total, rural and urban areas at tehsil/sub-tehsil level as per 2001 Census There are 997 females for every thousand males in Una district It becomes clear from the table that sex-ratio in rural areas is higher than that of urban areas The sex-ratio among rural and urban population is 1,007 and 895 females in 2001 respectively The rural sex-ratio in the tehsils varies between 958 in Una tehsil and 1,028 females per 1,000 males in Bangana tehsil The total sex-ratio in Bharwain (ST) Amb (T), Bangana (T) and Haroli (ST) is higher than district average (997) and rural average (1,007) In urban areas the highest sex-ratio is recorded in Amb (931) and the lowest is in Una urban (889) The sex ratio of Una urban is below the district urban average of 895 females per 1,000 males

TABLE 7 SEX RATIO BY C D BLOCKS, 2001

Serial number	Name of C D block	Sex ratio
1	2	3
1	Amb	1 011
2	Gagret	1 026
3	Dhundla	1 028
4	Una	981
	District (Rural) Total	**1,007**

Table 7 · It presents C D block-wise sex-ratio for rural population in the district The sex-ratio in rural areas of the district comes to 1,007 females per 1,000 males, as a whole Among the C D blocks, the highest sex-ratio of 1,028 females is found in Dhundla C D block and is followed by Gagret (1,026) while the lowest of 981 is recorded in Una C D block The sex-ratios of Amb,Gagret and Dhundla C D blocks are higher than the district rural average of 1,007 females and in Una block, this value is below the district average

TABLE 8 SEX RATIO OF RURAL POPULATION BY RANGES, 2001

Range of sex ratio for villages	Number of inhabited villages	Percentage of villages in each range	Population 2001	Percentage distribution of population
1	2	3	4	5
Less than 700	18	2 4	576	0 1
700-749	3	0 4	607	0 1
750-799	19	2 5	4,177	1 0
800-849	25	3 3	9,673	2 4
850-899	46	6 1	22,671	5 5
900-949	98	12 9	51 849	12 7
950-999	126	16 6	107,149	26 2
1,000-1,099	229	30 2	157,101	38 4
1,100+	194	25 6	55,046	13 5
District Total	**758**	**100 0**	**408,849**	**100 0**
Sex ratio (Rural) for District		**1,007**		

Table 8 : It presents the distribution of villages by 9 sex-ratio ranges based on 2001 Census The maximum number of villages i e 229 accounting for 30 2 per cent of the total villages having largest population of 38 4 per cent in the district fall in the sex-ratio range of 1,000-1,099 females per 1,000 males It is followed by the sex-ratio range of 1100 plus which claims 194 villages (25 6 per cent) and 13 5 per cent population The range of 950-999 claims 126 villages (16 6 per cent) This range shares 26 2 per cent rural population of the district while in the sex-ratio range of 900-949, there are 98 villages (12 9 per cent) In remaining sex-ratio ranges of 850-899,800-849, 750-799, 700-749 and less than 700, the number of villages are 46 (6 1 per cent), 25 (3 3 per cent), 19 (2 5 per cent), 3 (0 4 per cent) and 18 (2 4 per cent) respectively In these ranges, the percentage of population is comparatively low The maximum number of villages i e 549 having maximum population (78 1 per cent) fall in the higher sex-ratio ranges of 950-999 females and above showing that in majority of villages the sex-ratio is significantly higher

TABLE 9 SEX RATIO OF URBAN AGGLOMERATIONS / TOWNS, 2001

Serial number	Name of Town	Urban status of town	Sex ratio
1	2	3	4
1	Daulatpur	NP	973
2	Gagret	NP	888
3	Una	M Cl	873
4	Mehatpur Basdehra	NP	866
5	Santokhgarh	NP	944
Sex ratio (Urban) for the district			**895**

Table 9 · It gives the sex-ratio of towns The sex-ratio in urban areas of the district comes to 895 females per 1,000 males, as a whole Among the 5 towns of the district, the sex-ratio varies between 866 to 973 Daulatpur (NP) has the highest sex-ratio (973), while Mehatpur Basdehra NP has the lowest sex-ratio of 866 females The urban sex ratio in Gagret, Una and Mehatpur Basdehra is below the district average figure of 895 females per 1,000 males while it is in higher side in Daulatpur and Santokhgarh Nagar Panchayats

TABLE 10 SEX RATIO OF POPULATION IN THE AGE GROUP 0-6 FOR TEHSILS/SUB-TEHSILS, 2001

Sl No	Name of Tehsil/Sub-tehsil	Total / Rural / Urban	Total population in 0-6 age group			Sex ratio for 0-6

76 and above	-	0 0	-	0 0
District Total	**758**	**100 0**	22	**100 0**

Table 17 It indicates the distribution of villages by percentage ranges of Scheduled Tribes population to total population in the villages The district is non-tribal and has scheduled tribes population of 22 persons distributed in 3 villages These villages are covered by the range of less than five per cent The remaining 755 inhabited villages are without any tribal population

TABLE 18 NUMBER AND PERCENTAGE OF SCHEDULED CASTES AND SCHEDULED TRIBES POPULATION IN URBAN AGGLOMERATIONS / TOWNS, 2001

Serial number	Name of Town	Total population	Total Scheduled Castes population	Total Scheduled Tribes population	Percentage of Scheduled Castes population to total population	Percentage of Scheduled Tribes population to total population
1	2	3	4	5	6	7
1	Daulatpur (NP)	3,354	620	-	18 5	-
2	Gagret (NP)	3,181	406	-	12 8	-
3	Una (M Cl)	15,900	1,897	22	11 9	0 1
4	Mehatpur Basdehra (NP)	8,681	2 558	7	29 5	0 1
5	Santokhgarh (NP)	8,308	1,979	-	23 8	-
District (Urban) Total		**39,424**	**7,460**	29	**18 9**	**0 1**

Table 18 . It shows the distribution of Scheduled Castes and Scheduled Tribes population in each town of the district Scheduled Castes and Scheduled Tribes in the towns constitute 18 9 per cent and 0 1 per cent respectively of the district urban population Scheduled castes population varies between 11 9 per cent in Una M Cl and 29 5 per cent in Mehatpur Basdehra NP The proportion of Scheduled Castes population is higher in Mehatpur Basdehra (29 5 per cent) and Santokhgarh (23 8)Nagar Panchayats This proportion in Daulatpur (18 5) and Gagret (12 8) Nagar Panchayats and Una (11 9) M Cl is below the district urban average of 18 9 per cent The proportion of Scheduled Tribes population is at parity of district urban average in Una (0 1) M Cl and Mehatpur Basdehra (0 1) Nagar Panchyat while there is no Scheduled Tribes population in Daulatpur,Gagret and Santokhgarh Nagar Panchayats

TABLE 19 SEX RATIO AMONG SCHEDULED CASTES AND SCHEDULED TRIBES IN C D BLOCKS, 2001

Serial number	Name of C D block	Scheduled Castes sex ratio	Scheduled Tribes sex ratio
1	2	3	4
1	Amb	976	-
2	Gagret	956	1 000
3	Dhundla	968	-
4	Una	939	600
	District (Rural) Total	**959**	**692**

Table 19 It indicates sex-ratio among Scheduled Castes and Scheduled Tribes in each C D block of the district The Scheduled Castes sex-ratio is 959 for district (rural) Among the C D blocks, the highest sex ratio of 976 females is found in Amb C D block and lowest of 939 females is recorded in Una

C D block The sex ratio in Amb (976) and Dhundla (968) C D Blocks are above the district rural average of 959 while it is below this figure in Gagret and Una blocks

Sex-ratio of Scheduled Tribes population in rural Una district is 692 females per 1,000 males in 2001 Census The sex-ratio in Gagret C D block is above the parity line while in Una C D block is below the line of equality The lower value of sex-ratio of 600 females is recorded in Una C D block

TABLE 20 SEX RATIO AMONG SCHEDULED CASTES AND SCHEDULED TRIBES IN URBAN AGGLOMERATIONS / TOWNS, 2001

Serial number	Name of Town	Scheduled Castes sex ratio	Scheduled Tribes sex ratio
1	2	3	4
1	Daulatpur (NP)	950	-
2	Gagret (NP)	952	-
3	Una (M Cl)	897	48
4	Mehatpur Basdehra (NP)	882	167
5	Santokhgarh (NP)	903	-
	Sex ratio (Urban) for the district	**901**	74

Table 20 : It indicates the sex-ratio among Scheduled Castes and Scheduled Tribes in each town of the district It is observed that urban sex ratio of the district for Scheduled Castes population is more than the general sex ratio of the urban population of the district The Scheduled Castes sex ratio in urban areas for the district is 901 females per 1,000 males in the district as against the district (urban) sex ratio of 895 females in general The sex ratio among the Scheduled Castes in the towns of the district varies between 882 in Mehatpur Basdehra and 952 in Gagret Nagar Panchayats The urban sex ratio of Scheduled Castes population is higher in Gagret (952), Daulatpur (950) and Santokhgarh (903) Nagar Panchayats than the district urban average while it is below this average figure in Una (897) M Cl and Mehatpur Basdehra (882) Nagar Panchayat

Sex-ratio of Scheduled Tribes population in the urban areas of the district is 74 females per 1,000 males The highest sex ratio of 167 females per 1,000 males is recorded in Mehatpur Basdehra NP while it is 48 females per 1,000 males in Una M Cl There is no Scheduled Tribes population recorded in the remaining urban areas of the district Tribal population in this district is of floating nature who normally comes from other parts of the state without their families resulting in low value of sex ratio

TABLE 21 · NUMBER AND PERCENTAGE OF LITERATES AND ILLITERATES BY TEHSILS/SUB-TEHSILS, 2001

Note Per cent of Worker to total worker are given in brackets

Table 34 : It can be seen from the table 34, the economy of the district is primarily agricultural as supported by the fact that cultivators constitute 57 1 per cent of the total workers (main + marginal) and

remaining 42 9 per cent of total workers are engaged as agricultural labourers (5 6 per cent), household industry workers (2 0 per cent) and other workers (35 3 per cent) in this district

The distribution of workers by four categories of economic activity at tehsil/sub-tehsil shows very high dependence of population on agriculture sector absorbing large number of workers The proportion of cultivators varies between 37 2 per cent in Una tehsil and 76 0 per cent in Bangana tehsil These variations within the district may be due to cropping and land holding patterns The percentage of females cultivators is 79 8 per cent which is very high as compared to 41 3 per cent of male cultivators in the district The percentage of agricultural labourers and household industry workers is very low in the district as stated above The workers in other activities occupy the second position next to agriculture in the district as well as in each tehsil/sub-tehsil The highest proportion of 54 1 per cent of other workers is recorded in Una tehsil while the lowest proportion of 18 9 per cent is found in Bangana tehsil

Note Percent of Worker to total worker are given in brackets

Table 35 : It presents C D block-wise distribution of workers by sex in four categories of economic activity In the rural areas of the district total workers (main+marginal) is 46 1 per cent of total population Among these workers, cultivators constitute 60 3 per cent, 5 8 per cent agricultural labourers, 2 0 per cent household industry workers and 31 9 per cent other workers The agricultural sector plays a major role in providing employment to the working force of rural population despite the fact that it is not commercial

viable Household industries also could not make much progress in rural areas as reflected in the data and these household industries employ only 2 0 per cent workers of the total working force Therefore surplus working force has to depend on primary activities Among cultivators, the proportion of females (81 6 per cent) is higher than males (44 6 per cent) in the rural areas of the district The females play a main role in rural economy of the district The proportion of cultivators and other workers differ considerably from one C D block to other The proportion of cultivators varies between 41 3 per cent in Una C D block to 76 0 per cent in Dhundla C D block Similarly for other workers, the lowest proportion is 18 9 per cent in Dhundla C D block while 51 5 per cent is the highest in Una C D block The percentage of agricultural labourers and household industry workers together is quite low i e only 7 8 per cent in the district The percentage of agricultural labourers is highest in Gagret (9 7) block and is followed by Amb(4 8) In other C D blocks, this proportion is quite insignificant Similarly, household industry workers varies in C D blocks between 1 0 per cent in Dhundla and 2 8 per cent in Una

TABLE 36 · DISTRIBUTION OF WORKERS BY SEX IN FOUR CATEGORIES OF ECONOMIC ACTIVITY OF URBAN AGGLOMERATIONS / TOWNS, 2001

				(14 1)	**(24 2)**	**(5 3)**	**(1 9)**	**(68 6)**

Table 36 : Table 36 deals with town-wise distribution of workers by sex in four categories of economic activity of towns in the district A sufficient land is not available in the towns for the purpose of cultivation due to scarcity of land and its high value, the economy of the inhabitants of the urban areas is primarily dependent on other services, commercial and other type of works as supported by the fact that other workers constitute 83 7 per cent of the total workers (main+marginal) and remaining 16 3 per cent are engaged in cultivation (11 3) agricultural labourers (3 0 per cent) and household industry (2 0) in this district The male and female workers in the category of other workers is 87 5 per cent and 68 6 per cent respectively The proportion of female workers engaged in cultivation (24 2 per cent) is much higher than the male cultivators (8 1 per cent) in the district (urban total)

The distribution of workers by four categories of economic activity at towns level shows very high dependence of population on other sectors than the cultivation, agricultural labourers and household industries The other sectors have absorbed a large number of males and females workers in the towns The proportion of other workers varies between 49 5 per cent in Daulatpur and 95 8 per cent in Una MCl This proportion is also high in Mehatpur Basdehra (94 8 per cent),Gagret (83 4) and Santokhgarh (65 8) Nagar Panchayats Barring Mehatpur Basdehra where male cultivators is more than the females, the percentage of female cultivators is very high in the remaining towns of the district The percentage of agricultural labourers and household industry is very low in all the towns The proportion of agricultural labourers is very high in Santokhgarh (10 0 per cent) and Daulatpur (5 9 per cent) Nagar Panchayats Similarly the percentage of household industry is in higher side in Gagret (4 6 per cent) Nagar Panchayat

Brief analysis of the Village Directory and Town Directory Data

TABLE 37 DISTRIBUTION OF VILLAGES ACCORDING TO AVAILABILITY OF DIFFERENT AMENITIES, 2001

Serial number	Name of C D block	Number of inhabited villages	Type of amenity available

5 Bus Service	190	53	26	269
6 Banks				
(a) Commercial Bank	409	204	112	725
(b) Cooperative Bank	270	183	273	726
7 Agricultural Credit Societies	389	105	101	595

Table 39 : It presents distribution of villages not having certain amenities within the village at district level They have to go out of their village to avail these facilities Such villages have been presented according to various distance ranges in this table 343 villages do not have primary school in their villages and out of these villages, children of 340 villages have to travel less than 5 kms for schooling Out of 758 inhabited villages as many as 565 are deprived of middle school and 754 of degree college Of these 528 avail the facility of middle school at a distance of less than 5 kms , 36 at a distance of 5-10 kms and the remaining one at a distance of 10+ kms In respect of degree college 81 avail this facility at a distance of less than 5 kms , 113 between 5 to 10 kms and rest 560 villages at a distance of 10+ kms

Similarly, there are 754 villages in the district which have been devoid of hospital facility and 746 villages which are deprived of PHC facilities Of these, 26 villages have the facility of hospital available within 5 kms while in respect of 41 villages the inhabitants have to cover a distance of 5-10 kms in order to avail this facility Similarly overwhelming number of 687 villages have this facility at a distance of 10+ kms As regards PHC, 236 avail this facility at a distance of less than 5 kms , 212 at a distance of 5-10 kms and the remaining 298 have to travel a distance of more than 10 kms to avail this facility

Regarding Post Office, 585 villages do not have this facility in the village itself Of these majority i e 501 have this facility at a distance of less than 5 kms , another 64 villages avail it at a distance of 5-10 kms In the remaining 20 villages habitants have to travel a distance of 10+ kms

As regards Telephone, there are 91 villages in the district which are without telephone facility Of these 74 avail this facility at a distance of less than 5 kms , 15 at a distance of 5-10 kms and remaining 2 have to traverse a distance of 10+ kms

For Bus service out of 269 villages which do not have facility, 190 villages avail this facility at a distance of less than 5 kms , 53 at a distance between 5-10 kms and 26 at a distance of 10+ kms

In the entire district 725 villages are deprived of Commercial Bank & 726 of Co-operative Bank Of these 725 villages which are deprived of Commercial Banks, 409 villages avail this facility at a distance of less than 5 kms , 204 between 5-10 kms & the remaining 112 at a distance of 10+ kms Regarding Co-operative Banks, out of 726 villages, 270 villages avail this facility at a distance of less than 5 kms , 183 at a distance of 5-10 kms and remaining 273 at a distance of 10+ kms 595 villages do not have agricultural credit societies This facility to 389 villages is available at a distance of less than 5 kms , 105 at a distance of 5-10 kms and the remaining 101 at a distance of 10+ kms

TABLE 40 DISTRIBUTION OF VILLAGES ACCORDING TO THE DISTANCE FROM THE NEAREST STATUTORY TOWN AND AVAILABILITY OF DIFFERENT AMENITIES, 2001

Distance range from the nearest statutory town (in kilometres)	Number of inhabited villages in each range	Type of amenity available							
		Education	Medical	Post Office #	Telephone	Transport communi-cations $	Banks	Agricultural Credit Societies	Approach by pucca road

* Based on the improved drinking water source, drinking water supply has been classified as 'Improved' or otherwise If the household has access to drinking water supplied from a tap or a hand pump / tube well situated within or outside the premises it is considered as having access to 'Improved drinking water source' However, the concept of improved drinking water is state specific and this is to be considered accordingly

Table 41 : It deals with the distribution of villages by population ranges and amenities available therein In Una district out of a total 758 inhabited villages, overwhelming 494 have a population of less than 500 persons Of these, 193villages (39 1 per cent) have education facility, 108 (21 9 per cent) have medical facility, 487 (98 6 per cent) have improved drinking water facility 58 villages (11 7 per cent) have post office facility 417 (84 4per cent) have telephone facility 267 (54 0 per cent) have been linked by bus service 11 (2 2 per cent) have Bank facility 53 villages (10 7 per cent) have been provided with the agricultural credit societies, 231 villages (46 8 per cent) have been linked with pucca road 492 villages (99 6 per cent) have been provided with electricity

Out of 134 villages, which fall in the population range of 500-999 persons, 112 villages (83 6 per cent) have been provided with the education facility, 70 (52 2 per cent) with medical facility, all the villages have improved drinking water facility 42 villages (31 3 per cent) have been provided with post office facilities, 124 villages (92 5 per cent) with telephone facility, 104 villages (77 6 per cent) with transport facilities, 15 villages (11 2 per cent) with bank facility, 46 villages (34 3 per cent) with agricultural credit societies and 100 villages (74 6 per cent) have approach by pucca road All villages in this range have electricity

106 villages fall in population range of 1,000-1,999 persons All of these villages have power supply and improved drinking water facilities 91 villages (85 8 per cent) have been provided with education facility Whereas 85 villages (80 2 per cent) enjoy the medical facility, 59 villages (55 7 per cent) have post office facility, 103 villages (97 2 per cent) have telephone facility, 95 villages (89 6 per cent) have transport communications facilities, 20 villages (18 9 per cent) have bank facilities, 50 villages (47 2 per cent) have agricultural credit societies and 95 villages (89 6 per cent) have approach by pucca road

There are 24 villages in the district which are covered under 2,000-4,999 population range In this range, all the villages enjoy the facility of education, improved drinking water, approach by pucca road and power supply 21 villages (87 5 per cent) have medical facility 20villages (83 3 per cent) have post

office facility, 23 villages (95 8 per cent) have telephone and transport facility, 6 villages (25 0 per cent) have bank facility and 14 villages (58 3 per cent) is having agricultural credit societies There is no village in the district having a population of 5,000 persons or above

TABLE 42 DISTRIBUTION OF VILLAGES ACCORDING TO LAND USE, 2001

Serial number	Name of C D block	Number of inhabited villages	Total area	Percentage of cultivable area to total area	Percentage of irrigated area to total cultivable area
1	2	3	4	5	6
1	Amb	240	38,030	32 5	22
2	Gagret	108	35,703	33	24 4
3	Dhundla	306	33,554	19 6	1 6
4	Una	104	33,383	38 2	25 7
	District Total	**758**	**140,670**	**30 9**	**20 6**

Note Cultivable area = irrigated area + unirrigated area

Table 42 : It presents C D blockwise distribution of villages according to land use It also gives details of total area and cultivable area available in inhabited villages of the district Cultivated area includes irrigated as well as unirrigated area It further elaborates that what is the extent of cultivable area under irrigation There are total 758 inhabited villages in the district having a total area of 140,670 hectares as per village papers Of this, 30 9 per cent is cultivable and 20 6 per cent of total cultivable area has got the irrigation facility The area figures have been collected from the revenue record maintained for each village by the State Government

A look at the land use pattern at C D block level shows that Amb block with 240 villages have a total area of 38,030 hectares Of this 32 5 per cent of land is cultivable and of the aforesaid area 22 0 per cent is irrigated In Gagret block, all the 108 villages have a total land area of 35,703 hectares, of this 33 0 per cent of land is cultivable and of the aforesaid area 24 4 per cent is irrigated In Dhundla block, all the 306 villages have a total area of 33,554 hectares, of this cultivable area is 19 6 per cent and out of this 1 6 per cent is irrigated In Una block, all the 104 villages have a total area of 33,383 hectares Of this, cultivable area is 38 2 per cent Of cultivable area 25 7 per cent is irrigated The percentage of irrigated area to total cultivable area is high in Una (25 7 per cent), Gagret (24 4 per cent) and Amb (22 0 per cent) C D block This proportion is very low in Dhundla (1 6 per cent) C D block as compared to the district rural average of 20 6 per cent The percentage of cultivable area to total area is also less in Dhundla (19 6 per cent) block in the district

TABLE 43 PER CAPITA RECEIPT AND EXPENDITURE IN STATUTORY TOWNS

Data source Census of India 2001, H- series "Tables on Houses, Household amenities and Assets"

Note

Permanent 1 Permanent houses refers to those houses whose wall & roofs are made of pucca materials i e , where, burnt bricks, GI Sheets or other metal sheets, stone cement concrete is used for wall and tiles slate, shingle, corrugated iron, zinc or other metal sheets asbestos sheets, bricks, lime and stone and RBC/RCC concreate are used for roof

Semi permanent 2 Semi-permanent houses refer to those houses made of other types of materials

Temporary 3 Temporary houses refers to those houses having wall and roofs made of Kutcha materials i e where grass, leaves, reeds, bamboo mud, unburnt bricks are used for the construction of walls and grass, leaves reeds bamboo hatch, mud, unburnt bricks, wood etc are used for roofs

Table 49 : It reveals that 67 2 per cent of household of the district are living in houses made of pucca materials, residences of 25 4 per cent households are of semi-permanent nature and houses of only 7 4 per cent households are made of temporary materials

In the rural areas, however, the percentage of households living in permanent houses is 65 3 per cent, 26 9 per cent in semi-permanent and only 7 8 per cent in temporary houses

District-wise percentage in urban areas indicates that majority of households i e 86 2 per cent are living in houses constructed of pucca materials, 10 7 per cent in semi-permanent structure and percentage of households in temporary houses is 3 1 constructed of kutcha materials At tehsil/sub-tehsil level, the lowest percentage of 32 6 households occupying permanent structure is found in Bharwain while highest percentage of 82 6 is seen in Una tehsil The

proportion of semi-permanent houses is high in Bharwain and low in Haroli The proportion of temporary houses is quite low in all tehsils/sub-tehsils and highest is 12 8 per cent in Haroli followed by Una (8 1) tehsil, Amb (6 7) and Bangana (3 9) tehsils while in Bharwain sub-tehsil, it is below one per cent

Data source Census of India 2001, H- series "Tables on Houses, Household amenities and Assets"

* Based on the improved drinking water source, drinking water supply has been classified as 'Improved' or otherwise If the household has access to drinking water supplied from a tap or a hand pump / tube well situated within or outside the premises it is considered as having access to 'Improved drinking water source' However, the concept of improved drinking water is state specific and this is to be considered accordingly

Note Percentage is given in brackets after the number of households
Bathroom means bathroom within the house
Toilet means toilet within the house
Drainage means closed and open drainage

Table 50 : It indicates that 90 7 per cent households in the district have been provided with improved drinking water supplied from a tap or a hand-pump/ tube-well, 97 4 per cent households have provision of electricity in their houses The bathroom facility is available to only 38 7 per cent households within their premises As regards rural areas, 36 0 per cent households are having bathroom facility, whereas this proportion in urban areas comes to 66 0 per cent 97 4 per cent rural households have facility of electricity against 97 8 per cent in urban areas Toilet and drainage facilities in the district are available to 31 2 per cent and 33 3 per cent households respectively Their percentage is higher in urban areas as compared to rural areas The trend of these amenities available to the households at tehsil/sub-tehsil level is almost conform to the district pattern analysed

Data source Census of India 2001, H- series "Tables on Houses, Household amenities and Assets"

Table 51 : The percentage distribution of households by type of fuel used for cooking purposes is given in Table 51 There are nine types of fuel used for which data have been presented in the table It is observed that wood is used as the most predominant fuel used for cooking by 62 6 per cent households in the district In the tehsils/ sub-tehsils, this proportion varies between 81 0 per cent in Bharwain and 46 8 per cent in Una tehsil In rural areas use of wood for cooking is very high while in urban areas it is used by less of population due to availability of L P G The next

cooking fuel is gas which is used by 32 7 per cent households in the district This proportion in urban and rural areas is 67 7 and 29 2 per cent respectively In rural areas use of gas for cooking is very low as compared to urban areas at tehsil/ sub-tehsil level There are 1 9 per cent households using kerosene in the district Use of kerosene for cooking by urban households comes to 7 3 per cent while in rural areas its proportion is only 1 4 per cent, as a whole The percentage of households using other types of fuel such as crop residue, cow dung cakes, electricity, coal, biogas etc is insignificant In rural areas wood is main fuel and in urban areas cooking gas is used as predominant fuel

Data source Census of India 2001, H- series "Tables on Houses, Household amenities and Assets "

Table 52 : This table presents data for total, rural and urban areas at district/tehsil/sub-tehsil level about households availing banking services and possession of assets such as radio/transistor, telephone, bicycle, scooter and car etc by the households There are 88,869 households in the district and among them, 59,995 households have been availing banking services 30,758 households have Radio/Transistor Television is possessed by 54,755 households Telephone is available in 14,006 households Being plain area, Bicycle is lifeline means of transportation and is available in 33,123 households Scooter, Motor cycle, Moped and Car, Jeep, Van are available with 13,910 and 1,890 households respectively The picture in use of banking services and possession of assets by households at tehsil level is almost similar as analyzed above for the district as a whole

(viii) Major Social and Cultural events, natural and administrative developments and significant activities during the decade

Major social and cultural events - Fairs and Festivals · There are quite a few fairs and festivals celebrated in the various parts of the district Some of the important fairs are as follows

Chintpurni : At Chintpurni three fairs are held every year, first in the month of February, second in July/August and the third in September The shrine of Devi is very important where people come from different parts of the country and offer their prayers

Pir Nigaha This shrine is situated in Basoli about 8 kms from Una This is said to be the handiwork of "Pandavas" but later appropriated by Muslims A fair is also held every thursday in May/

June It is believed that the cattle is brought over here to get cure of the diseases People assemble in large number

Panjgatra : Panjgatra at Babhaur on the Satluj is held on first Baisakhi day It is purely a religious festival The people collect and take bath in the river Satluj The name is from five stones said to have been used by the sons of the Pandavas in the game of Panch Satara

Baisakhi and Holi : The fair at Mairi near Amb is held on Holi, where large number of people use to assemble Principally people from Doaba and Manjha-Malwa collect here and offer prayers to Dera Baba Barbhag Singh Another fair is held on the day of Baisakhi, which is attended mostly by people from Kangra district Yet another fair in Thakurdwara of Dharamsal is held on the day of Baisakhi and Holi

Besides these, some other fairs held in the district are namely Sidh Badhmana fair which is held on every sunday in the months of June-July Jatoli-Haroli fair is held for the worship of Gugga Pir and Bhadar Kali fair is held in February and September

Natural and administrative developments and significant activities during the decade:-

The district has made enormous developments of roads and in providing the amenities to the general public as below

(i) District Hospital Una upgraded to Zonal Hospital with 300 beds capacity, 3 Primary Health Centres upgrated to level of Community Health Centres and 8 new health sub-centres were opened in such Panchayats where no medical facilitiy was available duing the decade

(ii) A new building was constructed for District Ayurvedic Hospital, Una

(iii) Community health centre Chintpurni was up-graded to Civil Hospital

(iv) 40 Ayurvedic Health Centers opened during the decade and ayurvedic health centre upgraded to 10 beded hospital

(v) Two medium scale industries for fruit and vegetable processing and PVC sheetings were set up at Oel and Mehatpur in private sector

(vi) Una town was linked with Broad Gauge railway line

(vii) New branches of Banks were opened

(viii) New sub-tehsil Bharwain has been created on 18 12 96

(ix) Construction of new roads, School buildings and dispensaries

No natural changes took place in the district during the decade

(ix) Places of religious, historical, archaeological importance and places of Tourist interest

Una district has not many places of historical archaeological interest However, it has a number of places having religious importance Among these some are given below

Una : The Una town is the district headquarters which is situated on the bank of river Swan, a tributary of the Satluj river During the period of Guru Govind Singh, a follower of Guru Nanak Dev known as Baba Kala Dhari has come and settled here Kala Dhari family was given a Jagir of 177 villages by Maharaja Ranjit Singh Kala Dhari family had laid the foundation of Una town Even today, in the fort of Una the family of Baba Kala Dhari live Every year in the month of February/March, a fair is held here in the memory of Baba Kala Dhari

Chintpurni : This place is situated on the northern end of the district on Bharwain-Talwara road This place is famous for temple of goddess Bhagwati It is well connected by roads to Punjab and other various religious places of Kangra district Durga Ashtami is one of the famous festival of this place Thousands of pilgrims visit every month from all over the northern India

Dera Baba Barbhag Singh : It is believed that some 300 years ago, Saint Barbhag Singh had come from Kartarpur and performed the penance The place is located near Amb-Nadaun road After the death of Baba Barbhag Singh his followers have constructed two Gurudwaras, one at the place of penance and the other at the place where he preached the people Some 2 kms away from this place flows the 'Banganga' The pilgrims take a bath in this river

Dera Baba Rudroo This holy place is located at a height of 669 metres from mean sea level on the

road from Una to Amb near Basal village There is a Samadhi of Baba Rudra Nand at this place Baba had performed the penance The famous festivals celebrated at this place are Ganesh Chaturthi, Krishna Janmashtami etc Slightly near by this place, there is another holy place known as 'Jogi Panga' It is surrounded by deep forests It is believed that Baba Rudra Nand had sat in penance at this place also His followers are still looking after this place

Shiv Bari-Gagret : On Hoshiarpur-Dharmsala road near Gagret, the Shiva temple is located on the bank of river 'Som Bhadra' It is believed that temple had been constructed by Saint Dronacharya During July/August, thousands of people visit here to offer banquets to Shiva Linga

Bhadar Kali Temple : It is located at 4 kms from Daulatpur The temple of Bhadar Kali Mata is considered to be very ancient The Baisakhi festival is celebrated at this place with great gaiety

Mahadeva Temple : This is a very ancient temple situated in Talmera village of Bangana tehsil On the occasion of Shivratri, a fair is held and butter and milk is offered The Place is known for its beautiful surroundings Famous Govind Sagar Lake and Sola Singhi Dhar near it forms a natural boundary between Hamirpur and Una districts

(x) Major characteristics of the district

The People : The district is predominantly inhabited by Brahmins,Rajputs, Jats, Sainis, Bahtis and Gujjars The Brahmins and Rajputs mainly dwell on landed property The Brahmins who own land are mostly concentrated around Amb The main communities among the Brahmins are, namely, Saraswat, Kangra Raina, Gaur and Bhatt These communities have some social hierarchy among them Of these Saraswat and Kangra Raina Brahmins are considered higher in social status There are sub-divisions of Brahmins divided into various sub-groups Similarly, the Rajputs have their own social grades at the top of which come the Katoch, Guleria, Kutlehria, Jaswals etc The next grade comes of Salamians below it Rathis

The majority of Khatris in the district are engaged in the money lending and trade and a very few have landed property

The population of the district appears to be largely migrants from western Punjab (now Pakistan), Jammu and Rajasthan It is believed that the Oswals had migrated from Osia in Jaipur and some of the Rajputs migrated from Marwar and the Khaundarwals are supposed to have come from Khandla village near Jodhpur The Mohammedan Gujjars are believed to have migrated from Jammu side The Gujjars mostly rear cattle and move from place to place in search of pastures depending upon the season Besides, some other minor communities found sprinkled over the district are Bogars, Chahngs, Labanas, Kalals and Telis etc

Food . The principle staple food of the district is maize in winter and wheat and gram in summer Sarsoan is the most common vegetable in the entire district Butter milk is also very popular with the people and rather forms a staple drink of all the members of the family Meat is generally consumed by Rajputs and the Mohammedans, though, the other castes also have taken a liking for it more and more

Dress . The male dress generally comprises of the 'pyjama' or 'dhoti' covered over it with a shirt in summer While in winter, a woollen sleeveless or with sleeves coat is worn over and above the shirt and 'dhoti' The older generation often wear 'pagri' (Turban) However, with the younger generation pants and cotton/terrywool shirts are more popular The women's wear consists of a pair of 'pyjama'(Salwar) or 'ghagra' (Petticoat) and a short coat (Kurta) 'Chadar' or the Dupatta covers the body over the shoulders This traditional dress, however, is fast vanishing with the younger generation more given to salwar, kameej and sarees

Houses : Like some of the other parts of the state, the houses in the villages are of kutcha mud with the thatched roofs With the change of time pucca stone and concrete houses with corrugated sheets roofing are fast coming up in the villages and more predominantly in the urban areas Indeed, the quality of the house is indicative of the socio-economic conditions of the population

Language : The people of Una district speak mainly Hindi and Punjabi But, the traditional language in the district slightly vary from place to place like in Amb and Una tehsils the local language spoken is

known as 'Pahari' Whereas in part of Bangana and Una which formed former Kutlehar State speak Kuthleri or 'Pahari' According to the classification of languages, made by the Linguistic Survey of India, the 'Pahari' dialects spoken in Una district come under Indo-European Family of languages These have further been classified as languages belonging to Aryan sub-family, Indo- Aryan Branch, Inner sub-branch, 'Pahari' Group and dialects under Western Pahari (Census of India,1961 Language tables)

Contribution of the District in the form of any historical figure

(i) During the period of 10th Guru Gobind Singh, a follower of Guru Nanak Dev known as Baba Kala Dhari had come and settled here Kala Dhari family was given a Jagir of 177 villeges by Maharaja Ranjit Singh, Kala Dhari family had laid the foundation of Una town

(ii) Dera Baba Barbhag Singh's Gurudwara- It is believed that some 300 years ago, Saint Baba Barbhag Singh had come from Kartarpur and performed the penance The place is located near Amb- Nadaun road The followers have constructed famous Gurudwara

(iii) Baisakhi and Holi- The fair at Mairi near Amb is held on Holi where large number of people get together Principally people from Doab and Majha-Malwa collect here and offer prayers to Dera Baba Bharbhag Singh

(iv) Una district has produced outstanding players of international game Padam Shri Charanjit Singh was the Captain of Indian Olympic Hockey team in 1964 which won gold medal in Hockey Another sportsman is Shri Mahinder Pal who also got first place in pistol shooting in Asiad and Common Wealth games Shri Deepak Thakur is another outstanding Hockey player of the district who was the Captain of Indian Junior Hockey team in 1996 and now is member of Indian hockey team which has been participating in International matches Among the veteran sportsmen, Shri Gurdev Singh of Una who took first places in the races of 1500, 5000 and 10,000 metres in the International Veteran Athletic competition

(xi) Scope of Village Directory and Town Directory

Village Directory · The Village Directory is one of the traditional compilations of the census organisation and provides the consolidated picture of each village as revealed by the availability of existing amenities, land use pattern, composition of its population and other infrastructural details This will be of immense help to identify the areas of surplus and deficit requiring the attention of planners and administrators for rescheduling the development process in appropriate direction The format of village directory has 23 columns providing village-wise data of location, area, population, land use pattern and amenities etc

The details of each column of village directory are explained as below -

Column-1 Serial number of the village is indicated in this column

Column-2 gives the name of the village and permanent location code number with Hadbast No in brackets (PLCN) assigned to each village in serpentine manner from north-west to south direction and is essential for identification of village The concept of permanent location code number has been introduced first time in 2001 Census by assigning eight digit number starting from the first village of the first tehsil of first district of the state to the last village of last tehsil of the last district In the state of Himachal Pradesh first PLCN 00,000,100 has been assigned to village 'R F LUJ' in Pangi tehsil of Chamba district which happens to be first village, tehsil and district while the last PLCN of 02,011,800 has been assigned to the last village 'DHAR CHALING GAARH' of the state in Sangla tehsil of Kinnaur district which happen to be last as per procedure adopted for assigning location code number The district census handbook of 1991 Census as well as updated district and tehsil maps and services of local revenue officers/officials have been used to assign the PLCN to the villages The last two zeros will be used if new villages are created out of existing villages in subsequent census Before 2001 census, village location code number used to change from one census to other due to change in jurisdictions or creation of villages or merger of villages in urban areas The district handbook of 1991 Census has been used as basis for filling up the name of the village

including the forest and uninhabited villages But to ensure the accuracy, the list of villages and their names were got authenticated from the respective Tehsildar of each tehsil

Column-3 shows the area (in hectares) of the village as indicated by the State Revenue Department

Columns–4 & 5 gives the population and number of households in each village which facilitate the correlation between the amenities available to the population and number of households in village

Columns 6 to 9 deal with the amenities like education, medical, drinking water, post, telegraph and telephone etc The information relating to these amenities were filled by the Patwari of concerned village in village directory booklet which were subsequently cross checked with district census handbook of 1991 as well as with the information collected from the various departments to ensure the accuracy of information provided In such cases where no facility is available within a village, a dash (-) has been shown in the column and next to it in brackets, the distance from the village in broad ranges viz upto 5 kms , 5-10 kms and 10+ kms of the nearest place where the facility is available has been given This will help not only for local area planning but in regulating the provisions of goods and services as well, so as to minimize the regional imbalance in the process of development The abbreviations used to indicate these amenities have been explained separately in the subsequent section The list of colleges, senior secondary schools, hospitals, post & telegraph offices in the district as obtained from the concerned departments are also added in the form of annexures at the end

Column-10 shows the number of banks – Commercial banks and Co-operative banks In addition to this, the list of banks procured from the lead bank of the district has also been added in this book

Column-11 relates to number of credit societies, such as agricultural credit societies, non-agricultural credit societies and other cooperative societies

Column-12 shows the number of recreational and cultural facilities viz Cinema/video hall, sports club, stadium/auditorium facility available in the villages

Column-13 Indicates the type of communications amenities such as by bus, railway or navigable waterway available to the village

Column-14 refers to the state of roads etc leading to the village This is useful in determining as to whether the village is approachable both in fair and foul weather by paved road, mud road, foot path and navigable water ways

Column-15 gives the information of the nearest town and its distance in kms from the village in brackets from the referent village In case, the nearest town is located in another state, the name of the state has also been furnished

Column-16 relates to the availability of power supply to the village with purposes such as domestic, agricultural use, other purposes or for purposes which are denoted by the abbreviations

Column-17 gives the information as to whether newspapers/magazines are received in the village

Column-18 gives the information of most important commodities manufactured in the village

Columns- 19 to 23 gives the details about land utilization The land use pattern given in the village directory conforms to the pattern of classification of land use as recommended by the Ministry of Agriculture, Government of India The Ministry of Agriculture, has recommended the maintenance of records of land use pattern under five categories These are as follows -

i) Forests
ii) Irrigated
iii) Unirrigated
iv) Culturable waste (including Gauchar and Groves)
v) Area not available for cultivation

Forest area shown in column-19 includes all lands classed under any legal enactment dealing with forests or administered as forests, whether state owned or private and whether wooded or maintained as potential forest land The crops raised in the forests and grazing lands or areas open for grazing within the forest is also included under the forest area

Columns 20 and 21 show area irrigated by different sources of irrigation and un-irrigated area These two columns cover all agricultural land which

equals to net cropped area sown with crops and orchards including current and other fallow lands In case of irrigated land, the source of irrigation has also been indicated

Column-22 Culturable waste This includes all lands available for cultivation whether not taken up for cultivation or taken up for cultivation once but not cultivated during the five years or more in succession Such lands may be either fallow or covered with shrubs and jungles which are not put to any use Lands under thatching grasses, bamboo bushes and other groves for fuel etc , which are not included under orchards or forests come under this column All grazing lands, whether they are permanent pastures and meadows or not, village common and grazing lands within forest area are also included in this column

Column- 23 Area not available for cultivation This includes land not available for cultivation such as barren, unculturable land and land put to non-agricultural use Land put to non-agricultural use stands for all lands occupied by buildings, roads and railways or under water etc Barren and unculturable lands cover all lands like mountains and deserts which cannot be put under cultivation, except at a very high cost

Column- 2 & 1 Indicate the name of the village and serial number of village respectively

Town Directory : The Town Directory is presented for each town in the district covering different aspects of urban life Seven statements (I to VII) have been included for presentation of this data The data contained in these statements are the area, population of 2001 and past censuses, growth rates, density, sex ratio, physical aspects of town, communications, municipal finances, civic, medical, educational and other amenities and trade, commerce, industry and banking facilities It covers all the towns in the district statutorily notified as well as non-municipal towns All the towns in the district are arranged in alphabetical order

The data collected in these statements have largely been furnished by the municipal bodies For non-municipal towns, the cantonment executive officers supplied the information

Statement-I Status and Growth History The statement runs into 22 columns and is primarily intended to throw up a comparative picture of each town in different censuses from 1901 to 2001 Civic administration status of each town is shown under column 2 and Location Code number in column 3 whereas column 4 indicates the name of tehsil/sub-tehsil to which town belongs While column 5 shows the name of C D block, area of each town in sq km is depicted under column 6 column 7 deals with the number of households including houseless households as per the 2001 Census Columns 8 to 18 deal with population and growth rate of the towns at different censuses from 1901 to 2001 Column 19 of the statement shows density of towns as per the 2001 Census Columns 20 to 22 depict the sex ratio from 1981 to 2001 Censuses

Statement-II Physical Aspects and Location of Towns · In this statement data on annual rainfall, maximum and minimum temperature are shown under columns 3 to 5 Columns 6 to 8 indicate the name and road distance of the state, district, sub-divisional and tehsil/sub-tehsil headquarters Column 9 shows the name of nearest city with population of one lakh or more and columns 11 to 13 give information regarding name and road distance of the nearest railway station, bus route, navigable river/ canal (if within 10 kms)

Statement-III Municipal Finance : This statement shows the receipt and expenditure of Municipal Finance of individual towns for the year 1998-99 under different heads There are in all 16 columns in the statement showing receipt and expenditure under different heads

Statement IV Civic and Other Amenities : The statement displays information under 20 columns The amenities about which information has been incorporated are road length (with break-up by Kutcha and Pucca), system of sewerage, drainage and other related matters such as water supply, fire fighting services and electrification etc

Statement-V Medical, Educational, Recreational and Cultural Facilities . This statement displays information under 20 heads and it intends to depict the degree of availability of medical facilities by type of institutions and number of hospital beds available in each institution Educational facilities by level/type of courses and recreational and cultural facilities

Statement-VI Trade, Commerce, Industry and Banking : This statement presents information under 11 columns in respect of each town Columns 3 to 8 indicate three most important commodities exported and manufactured in the town Information on number of banks available in the town appears under column 9 Columns 10 and 11 shows number of agricultural and non-agricultural credit societies operating in each town respectively

Statement-VII Civic and other amenities in Slums : There are no slum areas notified in Himachal Pradesh Hence no information is collected in this regard

PART-A
VILLAGE AND TOWN DIRECTORY

SECTION-I
VILLAGE DIRECTORY

Section-I
Village Directory

Note explaining the abbreviations used in the village directory :

The "Village Directory" is one of the traditional compilations of the Census It gives the list of villages, their location numbers, their area, population, number of households, amenities such as educational, medical, drinking water, post and telegraph, commercial and co-operative banks, agricultural, non-agricultural and other credit societies, recreational and cultural facilities, communication, approach to village, nearest town with a distance, power supply, availability of newspaper and magazines, most important commodity manufactured and land use of each village

Village is a statutory recognized unit having a definite boundary and separate land records In case, a complete village is treated as an outgrowth of urban agglomeration, data on amenities for that village, have not been given in the Village Directory but shown along with the urban component The villages which are considered as a Census Town, the amenities data are shown in the Town Directory For those villages which have partly merged in an outgrowth of U A , the amenities data are shown in the Village Directory for that particular village

The 'un-inhabited' villages (villages with no population) have been indicated as such after furnishing details in columns 1 to 3 i e , Serial number, Name of village, location code number with hadbast number in brackets and area of the village 'Uninhabited' is indicated against column no 4 to 18 The land use data for such villages are shown in col 19 to 23

The Village Directory format has 23 columns and the details given under each column for the village are as follows

Column 1 : Serial Number

Self explanatory All the villages within the CD Block are presented serially in the ascending order of their location code number

Column 2 : Name, Hadbast Number and Location Code Number of village.

The name, hadbast number and location code number of the village are shown against this column This also includes the forest and uninhabited villages

Column 3 Area of the village

The area of the villages in hectares are given Wherever the area figures was not furnished by the concerned department the column is left blank

Column 4 : Total population

The total population of the village as per 2001 Census is given against this column

Column 5 : Number of households

The number of households as per 2001 Census is given in this column

Amenities ·

In column 6 to 23, availability in respect of different amenities such as education, medical, drinking water, post & telegraph, banks, credit societies, communications, power, approach road etc in each village has been depicted with appropriate codes against the column concerned Wherever the amenities are not available in the village, a dash (-) is shown in the column and next to it in brackets the distance in broad ranges viz <5 kms , 5-10 kms and 10+ kms of the nearest place where the facility is available is given Column wise details are given below

Column 6 . Educational

Classes upto class V included in Primary School This will include nursery school, kindergarten school pre-basic school, pre-primary school, junior basic school upto class V

Classes from VI to VIII are included in the middle school

Classes from IX and X included in High secondary school Classes XI and XII are included in senior secondary school

In case of composite schools like middle school with primary school or secondary school with middle school, these are also included in the number of primary and middle schools, respectively

Accordingly any of the following types of institutions if exists within the village is shown as per codes given below

(i)	Primary School	P
(ii)	Middle School	M
(iii)	Secondary School	S
(iv)	Senior Secondary School	PUC
(v)	College	C
(vi)	Industrial School	I
(vii)	Trainmg School	Tr
(viii)	Adult literacy class/centre	AC
(ix)	Others (specify) e g Sanskrit Pathshala, Senior basic school, Navodaya Vidyalaya, Makhtab, etc	O

More than one institution of a type in the village is indicated by the number within brackets against the abbreviation, e g P(3), M(4), etc

Column 7 : Medical

Availability of medical facility within the village is indicated by following codes

(i)	Allopathic Hospital	H
	Ayurvedic Hospital	HA
	Unani Hospital	HU
	Homeopathic Hospital	H Hom
(ii)	Allopathic Dispensary	D
	Ayurvedic Dispensary	DA
	Unani Dispensary	DU
	Homeopathic Dispensary	D Hom
(iii)	Maternity & Child Welfare	MCW
(iv)	Maternity Home	MH
(v)	Child Welfare Centre	CWC
(vi)	Health Centre/Community Health Centre	HC
(vii)	Primary Health Centre	PHC
(viii)	Primary Health Sub-Centre	PHS
(ix)	Family Welfare Centre	FWC
(x)	T B Clinic	TB
(xi)	Nursing Home	NH
(xii)	Registered Private Medical Practitioner	RMP
(xiii)	Subsidised Medical Practitioner	SMP
(xiv)	Community Health Worker	CHW
(xv)	Others	O

More than one institution of a type in the village is indicated by the number within brackets against the abbreviations, e g H(3), D(4), etc

Column 8 : Drinking Water

The type of the drinking water supply sources available within the village are indicated by codes as follows

(i)	Tap Water	T
(ii)	Well Water	W
(iii)	Tank Water	TK
(iv)	Tubewell Water	TW
(v)	Handpump	HP
(vi)	River Water	R
(vii)	Canal	C
(viii)	Lake	L
(ix)	Spring	S
(x)	Others	O
(xi)	Summer Source	SS

Column 9 . Post & Telegraph and Telephone

It is indicated by codes as shown below whether within the village exists the following amenities

(i)	Post Office	PO
(ii)	Telegraph Office	TO
(iii)	Post & Telegraph Office	PTO
(iv)	Telephone Connection	PH

Column 10 :Commercial and Co-operative Banks

If the village is served by any banking service, commercial bank, co-operative bank etc the same is indicated in codes mentioned below along with the

number of banks in brackets If not available the distance of nearest place where the facility exist is given

(i)	Commercial Bank	CM
(ii)	Co-operative Bank	CP

Column 11 · Credit Societies

If the village enjoys the services of Credit Societies i e Agricultural Credit Societies, Non Agricultural Credit Society or Other Credit Societies, the same is indicated in codes mentioned below along with the number of such societies in brackets In case the facility is not available within the village the distance of the nearest place where such facility exist is given

(i)	Agricultural Credit Society	ACS
(ii)	Non- Agricultural Credit Society	NCS
(iii)	Other Credit Society	OCS

Column 12 Recreational and cultural facilities

If facilities such as Cinema/Video hall, Sports Club, Stadium/Auditorium is available in the village The same is recorded in these columns If not available the particulars of the nearest place with the facility is recorded The information is indicated in codes mentioned below along with the number of such facilities in brackets

(i)	Cinema/Video Hall	CV
(ii)	Sports Club	SP
(iii)	Stadium/Auditorium	ST

Column 13 · Communications

If the village is served by any mode of public/ private transport like Bus, Railway station or Navigable water ways they are to be mentioned as follows

(i)	Bus	BS
(ii)	Railway Station	RS
(iii)	Navigable Waterway	NW

Column 14 : Approach to village

Approach to village refers to the state of road leading to village The approach to the village is indicated in following codes

(i)	Paved Road	PR
(ii)	Mud Road	MR
(iii)	Foot Path	FP
(iv)	Navigable River	NR
(v)	Navigable Canal	NC
(vi)	Navigable waterways other than River, Canal	NW

Column 15 . Nearest Town and distance

The distance is given in kilometres in brackets against the name of the town nearest to the village

Column 16 Power supply

Availability of Power Supply in the village, whatever may be the form of its use is given by using following codes

(i)	Electricity for domestic use	ED
(ii)	Electricity for agricultural use	EAG
(iii)	Electricity for other purposes	EO
(iv)	Electricity for all purposes	EA

Column 17 News Paper/Magazine

If village receives any News Paper/Magazines the same is noted in this column using following codes

(i)	News Paper	N
(ii)	Magazine	M

Column 18 : Most important commodities manufactured

The name of three most important commodities manufactured in the village is recorded against this column

Column 19 to 23 . Land use i.e area under different types of land use

Land use data maintained by the State Govts is furnished against these columns The data concerning area under Forest, Irrigated land (by source), Un-irrigated land, Culturable waste and Area not available for cultivation in the village are shown against these columns The area figures are given in hectares up to one decimal Desh '-' is recorded wherever the information is not made available by the concerned department The codes used for different types of irrigation facilities available in the village are indicated below

(i)	Government Canal	GC
(ii)	Private Canal	PC
(iii)	Well (without electricity)	W

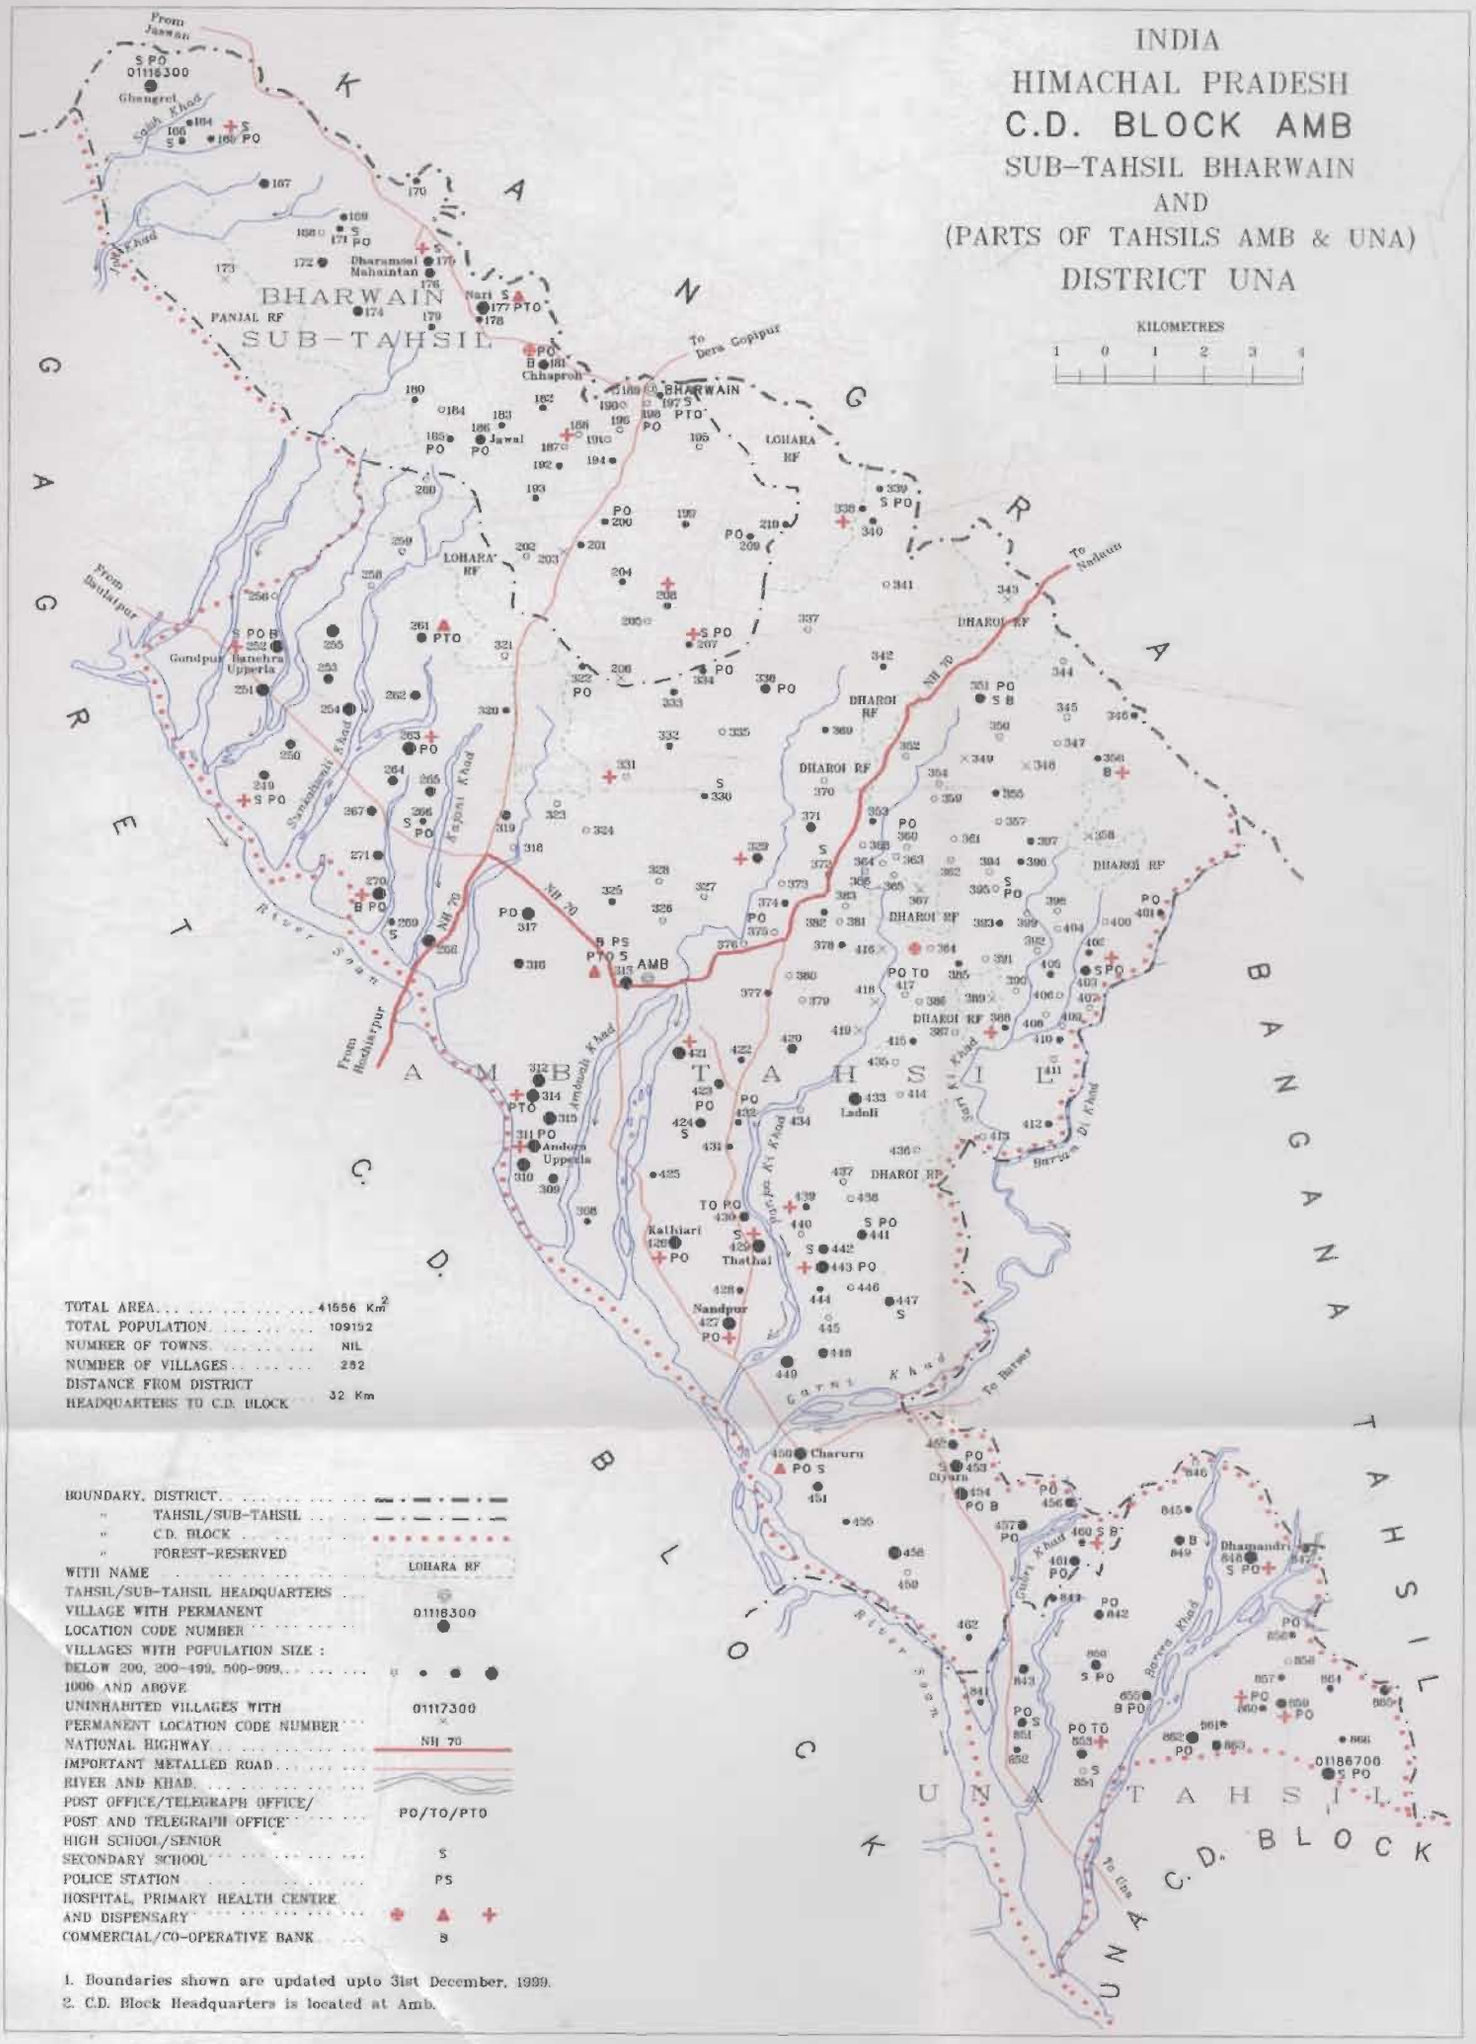

(iv)	Well (with electricity)	WE
(v)	Tubewell (without electricity)	TW
(vi)	Tubewell (with electricity)	TWE
(vii)	Tank	TK
(viii)	River	R
(ix)	Lake	L
(x)	Waterfall	WF
(xi)	Others	O
(xii)	Total	T

The village directory also carries the following appendices

Appendix-I	It gives the abstract of educational, medical and other amenities available in villages CD Block wise of the district
Appendix-I-A	Indicates number of villages CD Block wise having one or more primary schools
Appendix-I-B	Indicates number of villages CD Block wise having primary, middle and secondary schools
Appendix-I-C	Shows number of villages CD Block wise with different sources of drinking water facilities
Appendix-II	Indicates the list of villages with 5,000 and above population which do not have one or more important amenities
Appendix-II-A	Indicates list of Census Towns which do not have one or more amenities
Appendix-III	It gives the land utilization data in respect of Census Towns/non-municipal Towns
Appendix-IV	CD Block wise list of inhabited villages where no amenity other than drinking water facility is available
Appendix-V	Summary showing number of villages not having Scheduled Castes population
Appendix-VI	Summary showing number of villages not having Scheduled Tribes population
Appendix-VII	The appendix shows the list of villages according to proportion of the Scheduled Castes (VIIA) and Scheduled Tribes (VIIB) to the total population by ranges

List of villages merged in towns and outgrowths at 2001 Census.

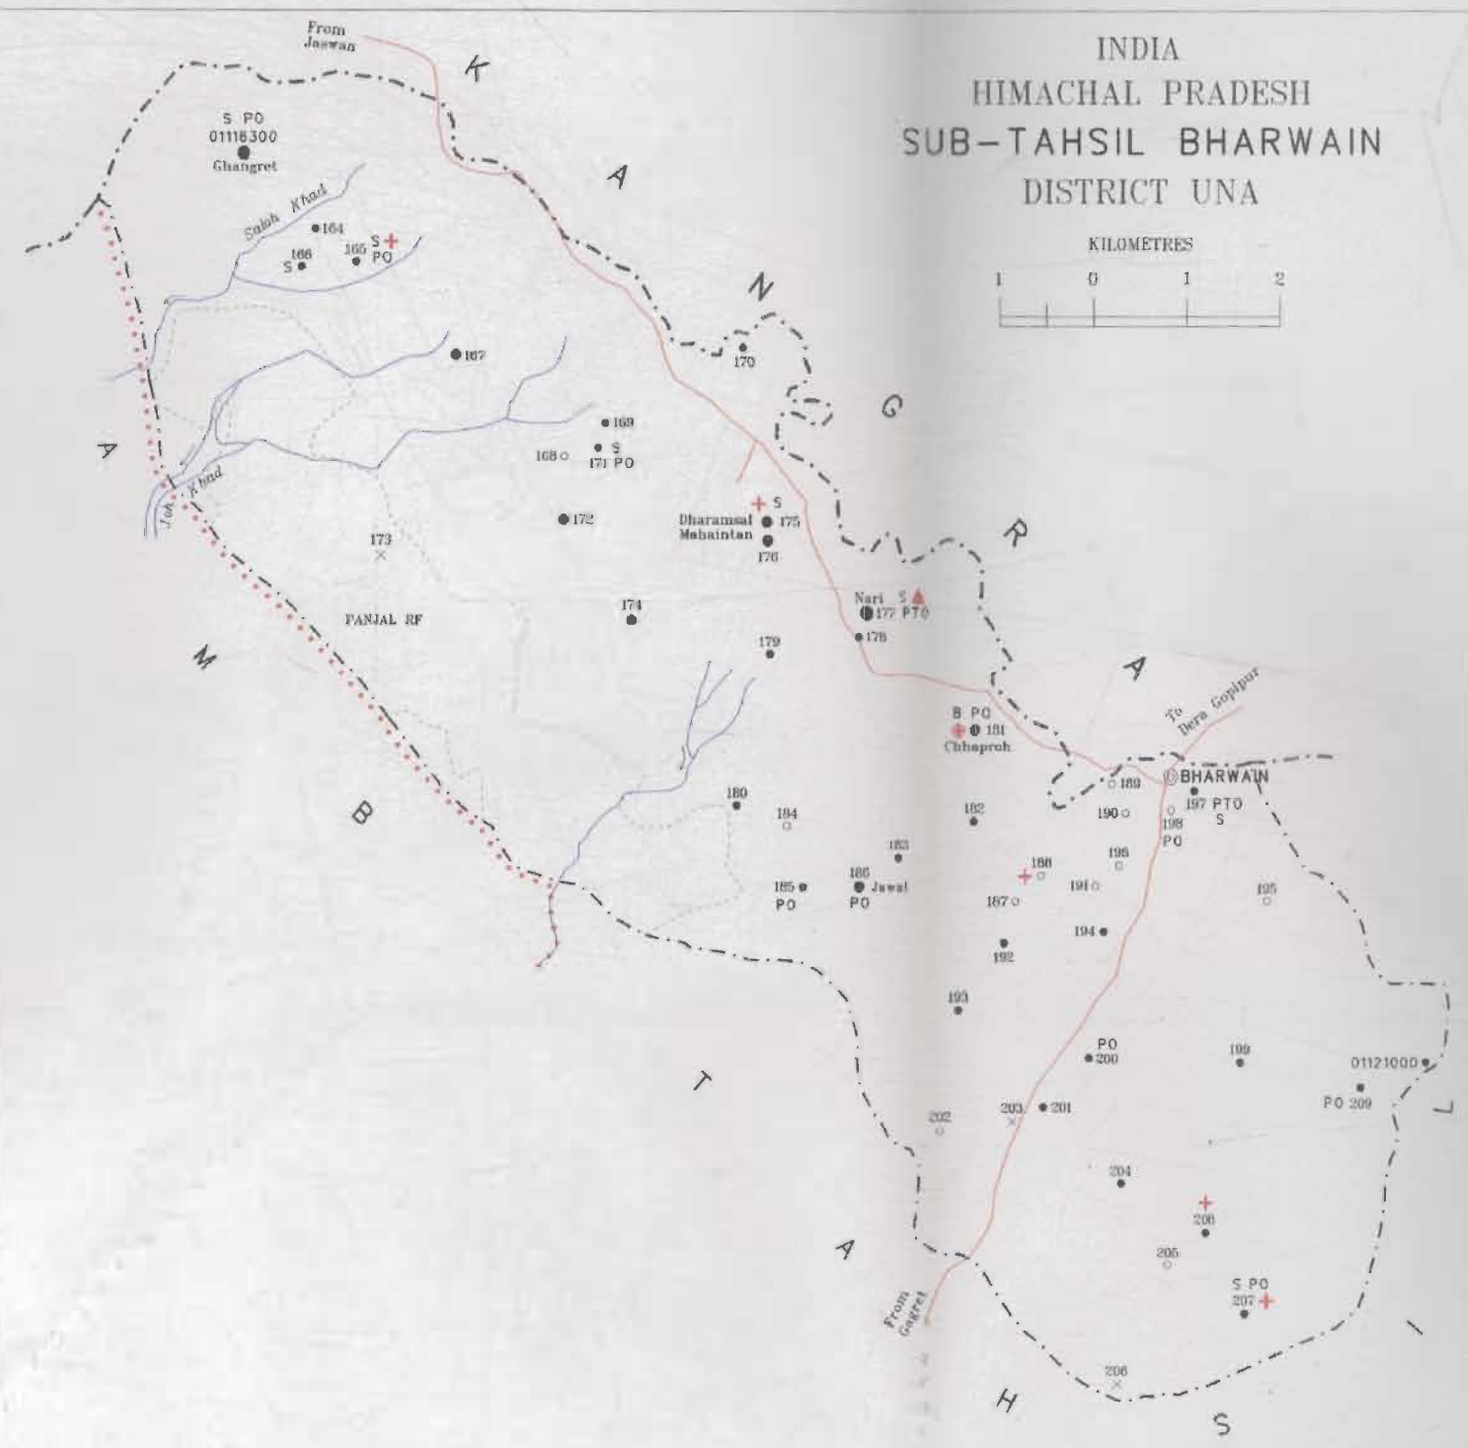

In Una district no village was merged in any town and no outgrowth was reported in town during decade 1991-2001

Appendices to Village Directory

Appendix I

Appendix I of the Village Directory depicts C D block-wise abstract of educational, medical, drinking water, post, telegraph, phone, communications, banks, power supply, credit societies, recreations and news/ magazine facilities available in the total 758 inhabited villages Out of total 758 inhabited villages in the district, 415 villages have primary schools numbering to 496 schools implying that some of villages are having more than one primary school As regards middle schools, 193 villages have 200 schools and in 102 villages have 104 high/secondary schools while 43 villages are such where 44 higher secondary/senior secondary schools are located There are only four villages having one college each which provides education of graduate and above level 12 villages have 13 adult literacy centres and 12 villages have 14 number of other educational institutions Of the total inhabited villages, 338 villages are such which do not have any type of educational institutions and students of these villages have to go out of the villages for their schooling The highest number of villages without any school are located in Dhundla(197)C D block and is followed by Amb (105), Gagret (23) and Una (13) C D block

As regards the medical facilities, in all, five villages have one hospital each, 80 dispensaries are located in 78 villages and 16 primary health centres/ health centres are located in equal number of villages and 131 villages have equal numbers of primary health sub-centres in the district 19 villages have 23 Maternity and child welfare centres/ maternity homes/ child welfare centres and 6 family welfare centres are located in equal number of villages while 48 villages in district have 59 community health workers and 154 villages have 324 other types of medical institutions But in Una district majority of villages do not have any medical facility within the villages Of the total 758 villages, people of 474 villages have to go out of their villages for medical facility such villages are largest in Dhundla (244) C D block and is followed by Amb (149), Gagret (48) and Una (33)

Most important source of drinking water is tap and tap water is available to 750 villages out of total 758 inhabited villages and 31 and 8 villages meet their requirement of water from fountain and river respectively Other important source of drinking water is well,tubewell and tank which also provide the drinking water to 661,228 and 147 villages respectively 698 villages have more than one source of drinking water in the district

Postal facility which includes post office, telegraph office and post and telegraph office is available to 173, 23 and 18 villages respectively Post office & phone facility is available in 165 villages and telegraph & phone in 23 villages Post, telegraph office and phone facility is available in 18 villages Phone is available within 667 villages 489 villages out of 758 inhabited villages have bus service in the villages As regard banking services, it is available within 52 villages having 91 branches of commercial and co-operative banks in rural areas of the district Power supply is available to 756 villages while two villages in Amb C D block are devoid of electricity There are 171 agricultural credit societies in 163 villages Each of 23 villages have one non-agricultural credit society while 19 villages have equal number of other credit society in the district As regards the availability of recreational facility, 6 villages in district have cinema/video hall, 5 sport clubs and 3 villages have stadium/auditorium/community hall News paper is available in 594 villages in the district Facility of magazine is available in 448 villages 442 are such villages where both news paper & magazine are available

Appendix I-A

Appendix I-A deals with C D block-wise villages by number of primary schools There are 343 villages in the district which are devoid of any primary school facility 352 villages in the district have equal number of primary schools i e one each primary school in each village In case of villages having at least 2 schools each, there are 50 villages in this category of schools In case of villages having 3

schools each there are 10 such villages in this category Amb and Dhundla C D blocks do not have any village in this category Gagret and Una blocks have 2 and 8 villages respectively and all these villages have 3 primary schools each Lastly in case of villages having 4+ schools, there are 3 villages in this category These villages are distributed one in Gagret C D block and two in Una C D block

Appendix I-B

Appendix I-B depicts information regarding different type of educational institutions There are 343 villages in the district which do not have any type of school facilities 222 villages are having atleast one primary school and no middle school along with it 193 villages are having atleast one primary school along with one middle school Similarly 102 villages are having atleast one middle school alongwith one secondary school

Appendix I-C

Appendix I-C deals with the villages with different sources of drinking water facilities There is no village in the entire district which is having single source of water like tubewell and handpump 681 villages in the district are having more than one source from amongst tap, well, tubewell and handpump Out of the 4 blocks in the district only 55 villages have tap water and 3 villages have only well water available for drinking purposes

Appendix II

Appendix II deals with the villages having 5,000 & above population which do not have one or more amenities in the district Since the district has no village with population of 5,000 and above, hence the data have not been compiled

Appendix II-A

Appendix II-A of the Village Directory deals with the Census Towns which do not have one or more amenities Since the district has no non municipal town or in other words, Census Towns, hence the data is not compiled

Appendix III

There is no census town in the district during 2001 Census

Appendix IV

Appendix IV of the Village Directory gives C D blockwise list of inhabited villages where no amenity other than the drinking water facility is available in the villages In the entire district there is only one village namely Talahar location code number 01135900 which falls in Amb C D block respectively, which have got no amenity other than the drinking water

Appendix V

Appendix V of the Village Directory shows the number of villages not having Scheduled Castes population Out of 814 villages in the district, 56 villages are uninhabited and rest of 758 villages are inhabited Out of 758 inhabited villages, 145 are such which do not have any Scheduled Castes Population and 613 inhabited villages are such which have some Scheduled Castes population in the district Dhundla C D block has largest number 85 villages without any Scheduled Castes population while in other C D blocks this number of villages varies between 9 in Gagret and 36 villages in Amb C D block

Appendix VI

Appendix VI shows number of villages not having Scheduled Tribes population Out of 758 inhabited villages there are 755 villages which are not having any Scheduled Tribes population and the remaining 3 inhabited villages are such which are having some Scheduled Tribes population

Appendix VII-A

Appendix VII-A depicts list of villages according to the proportion of Scheduled Castes to total population by ranges of such villages where Scheduled Castes population has been recorded in 2001 Census These percentage ranges are as less than 5, 5-10, 11-20, 21-30 31-40, 41-50, 51-75 and 76 and above per cent of total population of villages

Appendix VII-B

Appendix VII-B depicts list of villages according to the proportion of Scheduled Tribes to total population by percentage ranges in the villages where Scheduled Tribes population has been recorded such as less than 5 5-10, 11-20, 21-30, 31-40, 41-50, 51-75 and 76 and above per cent of total population of villages

Appendix VIII

Appendix VIII shows the list of villages under each Gram Panchayat This appendix could not be generated because in Himachal Pradesh a few villages fall in more than one panchayat

SECTION-II
TOWN DIRECTORY

Section-II
Town Directory

Note explaining the abbreviations used in Town Directory :

Statement I . Status and Growth History

Column (2) Class, name and civic administration status of town

Class has been introduced to facilitate analysis of town directory data at the state and all India levels It is presented according to 2001 Census Population of the town as follows

Population	Class
100,000 and above	I
50,000 - 99,999	II
20,000 - 49,999	III
10,000 - 19,999	IV
5,000 - 9,999	V
Below 5,000	VI

Town with a population of one hundred thousand (1,00,000) and above is treated as a city

The civic administration status of the towns is indicated within bracket against the name of the town The following abbreviations are used to denote civic status of town

(i)	Municipal Corporation	M Corp
(ii)	Municipal Committee	MC
(iii)	Municipal Council	M Cl
(iv)	City Municipal Council	CMC
(v)	Town Municipal Council	TMC
(vi)	Municipal Board	MB
(vii)	Municipality	M
(viii)	Cantonment Board/ Cantonment	CB
(ix)	Notified Area	NA
(x)	Notified Town	NT
(xi)	Notified Area Committee/ Notified Area Council	NAC
(xii)	Notified Town Area	NTA
(xiii)	Industrial Notified Area	INA
(xiv)	Industrial Township	ITS
(xv)	Township	TS
(xvi)	Town Panchayat	TP
(xvii)	Nagar Panchayat	NP
(xviii)	Town Committee/Town Area Committee	TC
(xix)	Small Town Committee	ST
(xx)	Estate office	EO
(xxi)	Gram Panchayat	GP
(xxii)	Census Town	CT

Statement II - Physical Aspects and Location of towns, 1999.

Column 3 to 5 . Physical Aspects

In these columns the Rainfall and Maximum & Minimum Temperature of the town is recorded

Column 6, 7 and 8 ·

Name of the State headquarters, District headquarters and Sub-Divisional headquarters with distance from the referent town in kilometers is to be recorded respectively If the names mentioned in these columns are the same as the referent town itself, the distance is recorded as (0) zero

Column 9 & 10 .

Name of the nearest city with one lakh and more and five lakh and more population are recorded

Column 11, 12 and 13 ·

If referent town enjoys the facility of railway station, bus route facility or navigable river/canal, its name is to be mentioned If not available, then the name of nearest place with distance, where such facility exists is to be mentioned

Statement III · Municipal Finance 1998-1999

Itemwise amount of receipt and expenditure in thousand rupees, relating to municipal finance of the town for the year 1998-99 is to be recorded

Statement IV . Civic and Other amenities, 1999

Column (1 to 5) · Self explanatory.

Column (6) · Road length (in kms.)

Information about kutcha/pucca road is to be recorded separately for the roads within the limits of the referent town

(i)	Pucca Road	PR
(ii)	Kutcha Road	KR

Column (7) · System of Sewerage

Generally, by sewerage system is implied the network of mains and branches of underground conduits for the conveyance of sewerage to the point of disposal Sewers that carry only household and industrial wastes are called separate sewers, those that carry storm water from roofs, streets and other surface are known as storm water drains, while those carrying both sewage and storm water are called combined sewers

The codes used for different types of drainage system are as follows

(i)	Sewer	S
(ii)	Open Surface Drains	OSD
(iii)	Box Surface Drains	BSD
(iv)	Sylk Drains	SD
(v)	Cesspool method	CP
(vi)	Pit System	Pt
(vii)	Others	O

Column 8 to 11 Number of latrines

Number of various types of latrines both Public and Private are given in these columns

Column 12 . Method of disposal of night soil

The various prevalent method of disposal of night soil are given below with codes

(i)	Head Loads	HL
(ii)	Basket	B
(iii)	Wheel Barrow	WB
(iv)	Septic Tank	ST
(v)	Pit System	Pt
(vi)	Sewerage	S
(vii)	Others	O

Column 13 and 14 . Water supply

Source and capacity of storage system The following codes are used in these columns

Column 13

(i)	Tap water	T
(ii)	Tubewell water	TW
(iii)	Tank Water	TK
(iv)	Well water	W

Column 14

(v)	Over Head Tank	OHT
(vi)	Service Reservoir	SR
(vii)	River Infiltration Gallery	RIG
(viii)	Bore Well Pumping System	BWP
(ix)	Pressure Tank	PT

The information on major source of water supply are given in column 14 and the storage capacity against each in kilo-litres (in bracket) are presented in column 15

Column 15 . Fire Fighting Service

In case the fire fighting service is available in the referent town 'yes' is recorded If the facility is not available within the town The name of the nearest place having this facility with its distance from the referent town has been recorded

Column 16 to 20 · Electrification (Number of connections)

Different types of electric connections have been shown in these columns, i e Domestic, Industrial, Commercial, Road lighting (points) & others

Statement V · Medical, Educational, Recreational and Cultural Facilities, 1999

Column 1 to 3 · Self explanatory

Column 4 & 5 .

The data covers all such medical institutions run by or aided by Government/Semi Government/ Local bodies and Charitable institutions or Soci-

agencies like the Missionaries Where the family planning centres are attached to hospitals or maternity and child welfare centres or Primary Health Centres, may be treated as independent units and counted separately using following codes

(i)	Hospital	H
(ii)	Dispensary	D
(iii)	Health Centre	HC
(iv)	Family Welfare Centre	FWC
(v)	T B Clinic	TB
(vi)	Nursing Home	NH
(vii)	Others	O

In case of more than one institutions of any type, it is indicated within brackets the number of such institution (s) e g D(3), NH(8), etc The institutions have further been distinguished by providing additional codes within the bracket as given below

Ayurvedic	A
Unani	U
Homoeopathic	Hom

Column 6 to 9

The codes used for these columns are as follows

(i)	Arts only	A
(ii)	Science only	S
(iii)	Commerce only	C
(iv)	Arts & Science only	AS
(v)	Arts & Commerce only	AC
(vi)	Combined for all categories-Arts, Science and Commerce	ASC
(vii)	Law	L

Column 10 Recognized shorthand, typewriting and vocational training institutes

"Recognised" should mean recognised by some statutory authority, like education department, commerce department, labour department etc of the government or semi government or autonomous bodies, public sector undertakings etc

The following codes are used

(i)	Shorthand	SH
(ii)	Typewriting	Type
(iii)	Shorthand & Typewriting	SH Type
(iv)	Others	

The vocational institutions like - Applied Art/ Painting college, Pharmacy college, B Ed College, Teacher's Training Institute, Music/Dance School, Nursing School etc are covered under 'Others

Column 11 to 14

Higher Secondary/Intermediate/Senior Secondary/ PUC/Junior College level, Secondary/Matriculation Middle Schools/ Junior Secondary and Primary Schools

School up to class V are treated as Primary or elementary schools These include Nursery schools, Kindergarten schools, Pre-Primary schools, Junior Basic schools upto class V and Primary schools upto class IV

Schools upto VIII are considered as Middle school or Junior Secondary

Schools upto class X are considered as Matriculation or Secondary schools

Schools upto XI or XII classes are considered as Higher Secondary/Intermediate/Pre-University/Junior College etc This would cover 10+2 classes whether held in schools or college

If there are composite schools like middle schools with primary classes or Secondary schools with Middle classes, these are also included in the number of Primary and Middle schools, respectively For example, if in a town, there are two Primary Schools and one Middle school with Primary classes, the number of Primary schools in the town is given as three and that of Middle schools as one though there are only three educational institutions

If there are more institutions of a type in the town, the number is indicated within bracket along with the abbreviation, e g P(4), M(3)

Column 15 : Adult literacy class/centres

This column has been introduced keeping in view the Minimum Needs Programme of the Planning Commission There are number of Adult Education Centres which are included in these columns

If an educational facility is not available in the town, the name of the nearest place and its distance in kilometres from the town where the facility is available is mentioned

Column 16 . Working Women's hostels with number of seats

The number of working women's hostel if available in the referent town is mentioned with number of seats If the facility is not available in the town the name of nearest place with distance where the facility is available is recorded

Column 17 to 19 . Recrcational and Cultural Facilities

Stadium, Cinema, Auditorium/Drama/Community Hall are covered under recreational & cultural facilities The particulars of permanent recreational facilities are considered for these columns

Column 20 Public Libraries, Reading Rooms

Number of public libraries and reading rooms available in the referent town are recorded in codes as follows

(i)	Public Library	PL
(ii)	Reading room	RR

Statement VI Trade, Commerce, Industry and Banking, 1999

Column 3 to 8 :

Name of three most important commodities exported and name of three most important commodities manufactured in the town are recorded

Column 9 Number of Banks

Number of Banks available in the referent town both Commercial and Co-operative banks are recorded against this column

Column 10 & 11 . Number of Agricultural Credit Societies and Non Agri-cultural Credit Societies

The total number of Agricultural Credit Societies and Non Agricultural Credit Societies in the referent town are recorded against these columns

Statement VII Civic and other amenities in Slums, 1999

This is the statement on civic and other amenities in all slums whether notified or not and for all towns having statutory bodies, like municipality, Municipal Corporation, Town area committee etc

A brief analysis of statements of Town Directory

Statements I to VII of the Town Directory deal with the various aspects of the urban areas in the district The information available in them is being reproduced hereunder

Statement I It shows the status and growth history of the town in the district In Una district there are five towns Of these, one town has the status of Municipal Council and remaining four towns are having a status of Nagar Panchayat Of the 5 towns in the district, 2 towns of Daulatpur and Gagret Nagar Panchayats belong to class-VI towns, Una M Cl is a class-IV town and Mehatpur Basdehra *and Santokhgarh Nagar Panchayats are class-V* towns As regards town-wise growth during 1901-2001, Una town continued to grow gradually except the decade of 1951-1961 when its population declined by 4 5 per cent and highest increase of 44 7 per cent was recorded during 1971-81 During the current decade of 1991-2001, the population of Una has grown from 12,001 to 15,900 persons showing the increase of 32 5 per cent Santokhgarh NP continued to be Nagar Panchayat during 1961 to 1971 which is still existed as such The highest increase of 47 2 per cent was recorded between 1981-1991 Even current decade of 1991-2001 has recorded growth of 21 3 per cent Mehatpur Basdehra Nagar Panchayat was declared as statutory town only in 1981 when it's population was only 3,858 persons and since then its population has grown at high rate The growth rate of this town is 35 3 per cent during 1991-2001 Daulatpur Nagar Panchayat was small town in 1981 having population of 2,336 persons which rose to 3,354 persons in 2001 Census showing increase of 43 6 per cent during this period Gagret Panchayat also came into existence during 1981 and its population was only 4,502 persons at that time which declined to 3,181 persons in 2001 Census This Nagar Panchayat shows sharp decline in its population from 4,502 in 1981 to 4,258 persons in 1991 Census and again from 4,258 persons in 1991 to 3,181 persons in 2001 The negative growth of this town is mainly due to transfer of urban areas to rural areas during 1991-2001

Females were excess over the males in Daulatpur Nagar Panchayat in both Censuses of 1981 and 1991 but sex ratio declined sharply in 2001 Census to 973 females per 1,000 males Similarly

sex ratio in Gagret Nagar Panchayat was 927 females in 1991 which declined to 888 females in 2001 Census The deficiency of females in remaining towns of Una, Santokhgarh and Mehatpur Basdehra is very high resulting low sexratio which never touched the parity line during these years The density of population in Una town comes to 3,180 persons per sq km which is the highest and Daulatpur Nagar Panchayat has the lowest density of population being 658 persons per sq km

Statement II This statement reveals the physical aspects and location of each town from state, District, Tehsil and Community Development Block headquarters besides the location of the district the nearest city with one lakh or above and five lakh and above population which is Hoshiarpur and Jalandhar respectively which fall in Punjab state but nearer to all towns of district This distance ranges between 28 to 58 kms from the towns of this district for Hoshiarpur and between 90 to 120 Kms for Jalandhar Una town is linked with railway line The nearest railway facility for Santokhgarh Nagar Panchayat is at Una and for Daulatpur and Gagret this facility is available at Hoshiarpur (Pb) Mehatpur Basdehra avails this facility at Rai Mehatpur Each town in the district is linked by different bus routes of nearby states and state/district headquarters All towns are very far away from state headquarters and Daulatpur town has longest distance of 288 kms

Statement III It represents the municipal finance (1998-1999) of each local body of the district The receipt and the expenditure amount has been rounded in Rs '000 for each town Daulatpur Nagar Panchayat had a total receipt of Rs 2,172 thousands and an expenditure of Rs 1,503 thousands was incurred The maximum amount of Rs 900,000 was spent on public works Gagret town had a total receipt of Rs 2,443,000 of which highest amount of Rs 1,988,000 had been received from Government Grant The total expenditure of this town during the period mentioned was Rs 2,046,000 The amount of Rs 1,350,000 have been spent on Public safety Mehatpur Basdehra, Nagar Panchayat had a total receipt of Rs 7,110,000 of which highest amount of Rs 4,099,000 has been received as a govt grant and a sum of Rs 4,054,000 was spent on public works from the total expenditure of Rs 7,110,000 Santokhgarh Nagar Panchayat and Una M Cl had a total receipts of Rs 5,967,000 and 20,245,000 respectively Of this Rs 4,168,000 and Rs 16,990,000 has been received from government grant in respect of Santokhgarh Nagar Panchayat and Una M Cl The total expenditure of Una M Cl was Rs 20,245,000 Rs 5,967,000 was incurred by Santokhgarh NP Of this 5,015,000 was spent on public works and Rs 14,395,000 was spent on public safety in respect of Santokhgarh Nagar Panchayat and Una M Cl respectively

Statement IV It deals with the Civic and other amenities provided by the local bodies in their respective towns in 1999 In Daulatpur Nagar Panchayat out of 3,354 total population 620 persons belong to Scheduled Castes Gagret town with a population of 3,181 persons consists of 406 Scheduled Castes In Mehatpur Basdehra out of 8,681 total population, the proportion of Scheduled Castes and Scheduled Tribes is 2,558 and 7 persons respectively Santokhgarh Nagar Panchayat with a population of 8,308 persons has 1,979 Scheduled Castes With a total population of 15,900 persons in Una M Cl 1,897 and 22 persons are Scheduled Castes and Scheduled Tribes respectively All the five towns are connected with pucca and kutcha roads within their municipal limits The sewerage system in these towns are open surface drains, sewer and septic tank and pits The local bodies are maintaining water borne and service latrines in all the 5 towns in the district Daulatpur NP has 150 water borne and 6 other type of latrines Gagret town has 303 water borne, Mehatpur Basdehra NP with 489 water borne,Santokhgarh NP with 930 water borne and Una M Cl with 372 water borne latrines, 100 service latrines and 4 other type of latrines serve the purpose All the four towns in the district have septic tank facility for disposal of the night soil while it is pits in Daulatpur town In all towns, the water supply is provided through taps Of the 5 towns in the district the storage system in 4 towns viz Gagret, Mehatpur Basdehra, Santokhgarh and Una M Cl have overhead tanks with a storage capacity of 200 0, 650 0,270 0 and 1,269 0 kilolitres Mehatpur Basdehra has more than one storage system viz overhead tank and service reservoir with a capacity of 650 0 (OHT) and 155 0 (SR)

kilolitres There is no storage system in Daulatpur Nagar Panchayat Out of 5 towns in the district, only one town Una M Cl has fire fighting service For remaining four towns, this facility is available from Talwara, Una and Nangal Dam Daulatpur Nagar Panchayat has 930 domestic, 450 commercial, 60 road lighting points and 20 industrial electric connections Gagret town is provided with 1,139 domestic, 31 industrial, 478 commercial, 120 road lighting and 5 other electric connections Mehatpur Basdehra Nagar Panchayat has 1,429 domestic connections, 212 industrial, 784 commercial and 160 road light (point) electric connection Santokhgarh Nagar Panchayat and Una M Cl have 1,902 and 4,000 domestic,84 and 180 industrial, 416 and 2,100 commercial and 135 and 500 road light (points) electric connections Santokhgarh NP has two other electric connection

Statement V This statement deals with the medical, educational, recreational and cultural facilities available in the towns during the year mentioned in the statement If these facilities are not available within the town limits, then nearest places where these are available have been recorded with distance in kms in brackets All the five towns in the district have the facility of Hospital and health centres Una town has two hospitals with 122 beds Health centers at Daulatpur with 30 beds, Gagret with 6 beds, Mehatpur Basdehra with 26 beds and Santokhgarh with no bed are functioning Only Una M Cl has TB Clinic and Nursing Home facilities Higher education of degree level is available at Daulatpur,Gagret and Una Medical College facilities are available at Jalandhar and Chandigarh Medical Colleges

The engineering college facility is available at Hamirpur town in Himachal Pradesh There is one polytechnic institution functioning at Gagret in this district Daulatpur NP has 2 Higher Secondary and 3 Secondary/Matriculation institutions, 4 Junior Secondary/Middle and 4 primary schools Gagret town has 2 number each of Secondary/Matriculation, Junior Secondary and Middle schools and Primary Schools The facility of higher secondary school is available to this town at Ambota at a distance of 1 Km Mehatpur Basdehra NP has 1 Higher Secondary, 2 Higher Secondary,Secondary/Matriculation, 2 Junior Secondary/Middle and 4 Primary Schools Santokhgarh town has 2 each Higher Secondary, Secondary/Matriculation and Junior Secondary/Middle & 5 Primary Schools Una M Cl has 4 Higher Secondary, 5 Secondary/Matriculation and 5 Junior Secondary/Middle school and 13 Primary schools Only Una town has a working women hostel with a capacity of 7 seats Recreational facilities are available in Una town of the district

Statement VI It deals with the trade, commerce, industry and banking facilities in the town in 1999 The most important items manufactured are polypex and corogated bags, liquors, furnitures and bricks These items are also exported out of the towns Banking facilities are available in all the 5 towns of the district Daulatpur has 3 branches of Banks, Gagret 4, Mehatpur Basdehra 5, Santokhgarh 3 and Una M Cl has 8 commercial/co-operative banks All the towns of the district has one agriculture credit societies each Non-agriculture credit societies facility is available in Santokhgarh having five credit societies and one in Daulatpur Nagar Panchayat

Statement VII It deals with the amenities available in the slum areas of the town Since there is no recognised/notified slums in the towns of this district Hence, no information recorded in this statement

PART-B
PRIMARY CENSUS ABSTRACT

Brief note on Primary Census Abstract

The first census of the third millennium and twenty first century the Census of India, 2001 was the 14th continuous and uninterrupted Indian census since 1872 Thus, 2001 Census will provide data on population and its characteristics marking transition from one century and millennium to another

The gigantic operation of Population Enumeration (considered by many to be the single largest and complex peace time administrative exercise in the world) was made possible due to the door to door universal canvassing of the Household Schedule by about 2 million enumerators and supervisors covering 593 districts, 5,463 sub-districts, 5,161 towns and 638,588 villages The comprehensive Household Schedule which replaced the individual slip had three parts and two sides A and B Part I contained the Location Particulars, Part II related to the Individual Particulars and Part III contained questions for Household engaged in Cultivation/Plantation The part II of the Household Schedule had 39 columns and 23 questions all of which were universally canvassed and no sampling was resorted to during enumeration

Data Processing

A quantum leap was made in the technology front while processing the Census 2001 data both for Houselisting and Population Enumeration The Census Schedules for both the phases were scanned through high speed scanners in fifteen data centers across the country and hand-written data from the Schedules were converted into digitized form through Intelligent Character Reading (ICR) software for creation of ASCII records for further processing The designing and formatting of the Household Schedule had to be done very carefully using specialized software so as to ensure uniformity, which was an essential pre-requisite for scanning The selection of appropriate state-of-art technology in data processing has made it possible to produce all the Houselisting as well as Population Enumeration tables on full count basis for the first time in the history of Census For Census 2001, about 202 million Schedules consisting of about 1,028 million records were scanned and processed within a span of only 10 months starting October, 2002

Task Force on Quality Assurance

After the data is processed, it is expedient on the part of the data producing agency to satisfy itself about its quality before putting the same in public domain This has to be done mainly through the process of internal consistency, comparison with similar data in the past and also through validation with likewise data if available, from external sources Quite often the local knowledge and perception has to be brought into play to understand both the existing and the new emerging trends of population distribution and characteristics The other very important aspect of the data quality is to ensure complete coverage of all geographical areas especially for the population enumeration phase where the data is disseminated right up to the village level in the rural areas and the ward level in the urban areas Thus ensuring the complete coverage and correct geographical linkage of each enumeration block was one of the major planks of the quality control, specially for small area population statistics

A very comprehensive check and edit mechanism was put in place to objectively examine the preliminary Census 2001 Population Enumeration results and finally clear them for use The responsibility of the final clearance of data was with the Task Force on Quality Assurance (TFQA), headed by the Registrar General and Census Commissioner, India The other members of the TFQA were the Heads and senior officers of the Census Division, Data Processing Division, Map Division, Demography Division and Social Studies Division The Directors of Census Operations were co-opted as members whenever the TFQA discussed the data for their States/Union territories The Directors and their senior officers were required to make detailed presentations of data for their own state both in respect to the

quality and the coverage and only after the full possible cleared

There has been a major departure in Census 2001 from the past in respect of the procedure followed for finalization of the Scheduled Castes and the Scheduled Tribes population In the earlier censuses, the total Scheduled Castes and Scheduled Tribes population were finalized at the time of the manual compilation of the Primary Census Abstracts (PCA) at the Regional Tabulation Offices which were specially set up for this purpose The individual Scheduled Castes and the Scheduled Tribes population for each state was finalized much later based on manual coding done by the coders In 2001 Census, each individual Scheduled Caste and the Scheduled Tribe have been coded directly on the computers by the Data Entry Operators through a process known as Computer Assisted Coding (CAC) and taken up along with the processing of PCA data The CAC process involves pulling down, from the relevant dictionary of the Scheduled Castes and the Scheduled Tribes, on the computer screen and coding from the dictionary by referring to the image of the specific individual entry in the Household Schedule appearing on the screen The CAC of the response on Religion wherever required, was also undertaken along with the processing of PCA This is because the Scheduled Castes status had to be determined in relation to the religion of the individual Two Special Task Forces, one on Religion and the other on Scheduled Castes/ Scheduled Tribes were constituted for scrutiny and appropriate classification of these responses

The main task of the Special Task Force on Religion was to appropriately merge or group the new responses encountered and code it into the appropriate religious community based on available literature and local knowledge The Special Task Force on Scheduled Castes and Scheduled Tribes examined the different Scheduled Castes and Scheduled Tribes entries encoun-tered and classified these into appropriate category of the Scheduled Castes or the Scheduled Tribes principally based on the Presidential Notification and the available literature Thus a very systematic and scientific mechanism was operationalised to firm up the individual religion and the individual Scheduled Castes/Tribes returns The Scheduled Castes and the Scheduled Tribes population in 2001 Census, is thus being finalized by aggregating the population data for individual Scheduled Castes and the Scheduled Tribes at appropriate geographical levels

The entire work relating to the data validation and scrutiny was completed by all the States/Union Territories under the overall supervision and monitoring of the Census Division of the Office of the Registrar General, India with active cooperation and support of the Social Studies Division, Data Processing Division, Data Dissemination Division and Map Division

Primary Census Abstract

The Primary Census Abstract which is yet another important publication of 2001 Census gives basic information on Area, Total Households, Total population, Scheduled Castes, Scheduled Tribes population, Population in the age group 0-6, Literates, Main workers and Marginal workers classified by the four broad industrial categories, namely, (i) Cultivators, (ii) Agricultural labourers, (iii) Household Industry Workers, and (iv) Other workers and also Non-workers The characteristics of the Total Population includes Scheduled Castes, Scheduled Tribes, Institutional and Houseless population are presented by sex and rural-urban residence This data is presented at different levels, namely, India, States/Union Territories, Districts and Cities, Urban Agglomerations (Population 1,00,000 and above) in three different tables In addition, the Appendix of said publication provides Houseless and Institutional Households and their population by residence and sex for 2001 for India, State and Union Territory

Apart from the India and State/Union Territory volumes for Primary Census Abstract, the District Census Handbook contains District Primary Census Abstract, Appendix to District Primary Census Abstract, Primary Census Abstract for Scheduled Castes, Primary Census Abstract for Scheduled Tribes, Village Primary Census Abstract and Urban Primary Census Abstract of the concerned district in the state

It was for the first time at the 1981 Census that the Primary Census Abstract (PCA) was brought out for the Scheduled Castes and the Scheduled Tribes separately on the pattern of General Primary Census Abstract This practice was continued in 1991 also In the 1961 and 1971 Censuses, such data were made available in Table C-VIII-Social and Cultural table and to some extent in the series 'Special Tables for Scheduled Castes/Scheduled Tribes'

The format of Primary Census Abstract has been restructured slightly in the 2001 Census as compared to that of 1991 Census The nine-fold industrial classification of main workers given in the Primary Census Abstract of 1991 Census has been discontinued and its place, four-fold industrial classification of both 'main workers' and 'marginal workers' are included In 1981 Census only main workers were presented in to four categories One of the novel features of the primary census abstract of 1991 Census was the presentation of data of the population of age group 0-6 is continued in 2001 Census also This will help the data users in better analysis and understanding of this literacy data

Level of presentation in District Census Handbooks

The Primary Census Abstract data in different PCAs are presented at different levels The level of presentation of Primary Census Abstracts are as under

	Name of the Primary Census Abstract	Level of presentation
1	District Primary Census Abstract	District/CD Block/UA/City/Town
2	Primary Census Abstract for Scheduled Castes	District/CD Block/Town
3	Primary Census Abstract for Scheduled Tribes	District/CD Block/Town
4	Village Primary Census Abstract	CD Block/Village wise
5	Urban Primary Census Abstract	Town/Ward level

The PCA Data for villages was presented CD Block wise for the first time in 1991 Census This practice is continued in 2001 Census also The data for each CD Block is presented both for rural and urban areas separately All the villages within the CD Block constitute the rural portion and the Census Towns and Outgrowths are shown under the urban portion of the CD Block In case a CD Block is spread over two or more districts, than portion which falls within the district is presented, the data pertaining to remaining portion of the CD Block is presented in the concerned District Census Handbook The data in the Urban Primary Census Abstract for each town as well as for town with outgrowths in the district are presented The data for all the wards and the outgrowths of the town(s) are also presented separately below the concerned town(s)

The District Primary Census Abstract is presented in 59 columns The Primary Census Abstract for Scheduled Castes and Primary Census Abstract for Scheduled Tribes are presented in 52 columns The Village Primary Census Abstract and Urban Primary Census Abstract are presented in 58 columns

The concepts and definitions used in the column heading are explained under the sub heading 'Census Concepts' in the Analytical Note The term 'Total Population' includes the Scheduled Castes, the Scheduled Tribes, the Institutional and the Houseless populations The explanation regarding area figures presented at various level in the Primary Census Abstracts are as follows

Area Figures

The area figures supplied by local revenue authorities of the district in respect of tehsils, Police Stations and by the local bodies in respect of towns are given in square kilometres The area figures of the villages supplied by the Tehsildars in acres have been converted and shown in hectares The area figures of the CD Block is the total of the village areas coming under each CD Block The area figures for the district are the same as adopted by the Surveyor General of India to maintain uniformity at the national level The total area figures of all the tehsils/CD Blocks within the district may not tally with area figures of the district because former represents land use area only Similarly, the total of all the villages may not tally with the entire rural of Police Station/ Tehsil The difference may be due to the fact that while the area covered by hills, forests and rivers etc, have been accounted in the Tehsils and P S level the same may not be covered under the area of the villages Apart from this it may also differ due to varying methods of computation adopted at different levels

An appendix to District Primary Census Abstract has also been furnished showing urban enumeration block-wise particulars on Total Population, the Scheduled Castes Population and the Scheduled Tribes Population for each town

ANNEXURES

ANNEXURE-I

STATEMENT SHOWING NUMBER OF VILLAGES UNDER EACH GRAM PANCHAYAT

Owing to the fact that a few villages in Himachal Pradesh fall in more than one Panchayat, this annexure could not be generated

ANNEXURE-II

NOTE ON FERTILITY, MORTALITY AND MIGRATION, 1991 CENSUS

Fertility Levels : Births, deaths and migration are three components of population change in any geographical unit Fertility is a major factor which affects population growth In the 1991 Census, questions on fertility relating to age at marriage number of surviving children, number of children ever born alive and children born alive during the last year were canvassed to generate the table of fertility The first three questions were asked to all ever married women and the last question was asked to currently married women The various measures of fertility worked out are based on the district level estimates for fertility and child mortality for 1991

Different fertility measures reveal higher levels of fertility in the district compared to the state Mean age at marriage of females in the district is higher as compared to State Child Woman Ratio in the state is higher in comparison to district

Table below gives Age specific Marital Fertility Levels for 1991

Age-group	Una district			Himachal Pradesh		
	Total	Rural	Urban	Total	Rural	Urban
1	2	3	4	5	6	7
15-19	64	63	77	142	142	140
20-24	204	204	211	259	260	239
25-29	167	168	156	170	172	152
30-34	71	72	63	79	81	61
35-39	35	35	40	38	39	28
40-44	12	12	8	17	18	9
45-49	4	4	2	9	9	9

It may be seen from the above table that fertility levels in the district are lower as compared to state figures in all age groups In case of district, rural fertility rates are higher in the age groups 25-29, 30-34 and 40-44 and lower in remaining age groups However, in the case of state, rural fertility rates are higher as compared to urban rates in all the age groups Among age groups, the higher fertility rates are observed in the age- group 20-24 followed by age group 25-29 in both state and district

Child Mortality Rates, 1991 : Information on the questions on children ever born and children surviving was collected for all ever married women The estimates of child mortality worked out given below

Persons / Males / Females	Estimates of child mortality, 1991							
	Una district				Himachal Pradesh			
1	2	3	4	5	6	7	8	9
	q(1)	q(2)	q(3)	q(5)	q(1)	q(2)	q(3)	q(5)
Persons	72	77	84	96	82	86	92	95
Males	70	79	84	92	84	90	95	98
Females	74	76	83	97	81	82	89	92

From the estimates of child mortality (number of deaths by ages 1,2,3 and 5) given above as q(1), q(2), q(3) and q(5), it is observed that the level of child mortality in the district is substantially lower as compared to the State except q(5), which is higher in the district The females Child mortality is higher in q (1) and q (5) and lower in q(2) and q (3) as compared to males child mortality in the district In the case of State , the females Child mortality is lower as compared to males child mortality

ANNEXURE-III

VARIOUS MEASURES OF FERTILITY AND MEAN AGE AT MARRIAGE, 1991 CENSUS

State/ District	CBR	TFR	TMFR	GFR	GMFR	Child-Woman Ratio	Mean age at Marriage	Number of children ever born to each married women in the age group of 45-49
1	2	3	4	5	6	7	8	9

Kinnaur	30 52	4 00	6 23	136	192	50 8	19 66	4 77

The Annexure-III reflects the crude birth rate, various fertility rates, child women ratio, mean age at marriage at district level in the State

Migration (Movements of population)

Migration is the third component of population change, the other two being Mortality and Fertility A person is considered as a migrant by place of birth if the place in which she/he is enumerated during the Census is other than the place of her/his birth Similarly, a person is considered as a migrant by place of last residence if the place in which she/he is enumerated during the Census is other than his place of immediate last residence

Internal and International Migration

The migrational movements are of three types -

(i) Migration within the state itself and its components

(a) Migration within the district of enumeration (intra-district migration)

(b) Migration from one district of state to another district of state (inter-district migration)

(ii) Migration from one state to another state of the country (inter-state migration), and

(iii) Migration from one country to another country

The first two streams together constitute internal migration, while the last type of movement is called international migration

Why people migrate : For the first time in the Census, reasons for migration were elicited in 1981 The reasons for migration were broadly categorized as (1) Employment (2) Business (3) Education (4) Marriage (5) Moved after Birth (6) Moved with household and (7) Any other reason

Reasons for migration have been elicited *only with reference to movement from place of* last residence

Impact of Migration : The growth of population of a particular place depends upon natural increase due to excess births over deaths and migration Knowledge of trends of migration helps in future planning of a region

ANNEXURE-IV(A)

PERCENTAGE DISTRIBUTION OF MIGRANTS BY PLACE OF BIRTH, 1991-2001 CENSUSES

Place of Birth	Percentage distribution of Migrants by place of birth in the district					
	1991 Census			2001 Census		
	Persons	Males	Females	Persons	Males	Females
1	2	3	4	5	6	7
(A) Migrants born within the state of enumeration	109,897 (77 04)	23 826 (69 36)	86,071 (79 48)	123,034 (73 40)	19,592 (55 92)	103,442 (78 03)
(i) Migrants born elsewhere in district of enumeration	89,245 (62 56)	18,073 (52 61)	71,172 (65 72)	101,127 (60 33)	14,230 (40 61)	86,897 (65.55)
(ii) Migrants born in other district of the State	20,652 (14 48)	5,753 (16 75)	14,899 (13 76)	21,907 (13 07)	5,362 (15 31)	16,545 (12 48)
(B) Migrants born in other States of India	31,984 (22 42)	10,026 (29 19)	21,958 (20 27)	43,526 (25 97)	14,728 (42 03)	28,798 (21 72)
(C) Migrants born in other countries	771 (0 54)	498 (1 45)	233 (0 25)	1,054 (0 63)	718 (2 05)	336 (0 25)
Total Migrants	142,652 (100 00)	34,350 (100 00)	108,302 (100 00)	**167,614 (100 00)**	**35,038 (100 00)**	**132,576 (100.00)**

Annexure-IV(A) reveals the percentage distribution of migrants by place of the birth during 1991 and 2001 Censuses In 1991 Census, there were 142,652 total migrants in Una district comprising of 34,350 males and 108,302 females Of these migrants, 109,897 (77 04 per cent) consisting 23,826 (69 36 per cent) males and 86,071 (79 48 per cent) females were born within thed state of enumeration On the other hand, 31,984 (22 42 per cent) consisting 10,026 (29 19 per cent) males and 21,958 (20 27 per cent) females were born in other states of India and 771 (0 54 per cent) consisting 498 (1 45 per cent) males and 233 (0 25 per cent) females were those born in other countries Whereas in 2001 Census, 167,614 persons were recorded as total migrants in the district Out of the total migrants, 123,034 (73 40 per cent) 19,592

(55 92 per cent) males and 103,442 (78 03 per cent) females were born within the state of enumeration, 43,526 (25 97 per cent) comprising 14,728 (42 03 per cent) males and 28,798 (21 72 per cent) females were born in other states of India and 1,054 (0 63 per cent) consisting of 718 (2 05 per cent) males and 336 (0 25 per cent) females were born in other countries

On the basis of comparision of data pertaining 1991 and 2001 Censuses, slight variation in migration pattern has been noticed In the categoiy of migrants born within the state of enumeration the percentage has gone down from 77 04 to 73 40 per cent However, in the category of migrants born in other states of India and other countries the percentage has increased from 22 42 per cent to 25 97 and 0 54 per cent to 0 63 per cent respectively It is intersting to note that during 1991 and 2001 Censuses, male dominated the categories of migrants born in other states of India and migrants born in other countries whereas females dominated the category of migrants born within the state of enumeration

ANNEXURE-IV (B)

MIGRANTS BY PLACE OF LAST RESIDENCE, 1991-2001 CENSUSES

Place of Last residence	Percentage distribution of Migrants by place of Last residence in the district					
	1991 Census			2001Census		
	Persons	Males	Females	Persons	Males	Females
1	2	3	4	5	6	7
(A) Last residence within the state of enumeration	112,513 (76 86)	25 056 (67 60)	87,457 (80 00)	126,725 (72 47)	21,681 (53 40)	105,044 (78 23)
(i) Last residence elsewhere in district of enumeration	91,165 (62 28)	18 705 (50 47)	72,460 (66 28)	103,998 (59 47)	15,141 (37 29)	88,857 (66 17)
(ii) Last residence in other district of the State	21,348 (14 58)	6 351 (17 13)	14,997 (13 72)	22,727 (13 00)	6,540 (16 11)	16,187 (12 05)
(B) Last residence in other States of India	33,326 (22 77)	11 627 (31 37)	21,699 (19 85)	47,184 (26 98)	18,207 (44 84)	28,977 (21 58)
(C) Last residence in other countries	548 (0 37)	380 (1 03)	168 (0 15)	968 (0 55)	712 (1 75)	256 (0 19)
Total Migrants	146,387 (100 00)	37,063 (100 00)	109,324 (100 00)	**174,877** (100 00)	**40,600** (100 00)	**134,277** (100 00)

Annexure-IV(B) reveals migrants by the place of last residence during 1991 and 2001 Censuses At the 1991 Census, in the Una district, out of the total 146,387 migrants, 112,513 (76 86 per cent) reported their place of last residence within the state of enumeration, 33,326 (22 77 per cent) reported place of last residence in other states of India and 548 (0 37 per cent) reported place of last residence in other countries Similarly, in 2001 Census, out of total 174,877 migrants 126,725 (72 47 per cent), 47,184 (26 98 per cent) and 968 (0 55 per cent) reported their last residence within the state of enumeration in other states of India and in other countries respectively Females having last residence within the state of enumeration dominated in the migration whereas males dominated the categories viz place of last residence in other states of India and in other countries

ANNEXURE-V

BRIEF ACCOUNT OF MAIN RELIGIONS IN THE DISTRICT AS PER 1991-2001 CENSUSES

Serial number	Religion	1991 Census				2001 Census			
		No of followers	Percentage to total population	Proportion		No of followers	Percentage to total population	Proportion	
				Rural	Urban			Rural	Urban
1	2	3	4	5	6	7	8	9	10
	Total Population	**378,269**	**100 00**	**91 47**	**8 53**	**448,273**	**100 00**	**91 21**	**8 79**
1	Hindu	352,933	93 30	91 65	8 35	412,491	92 02	91 40	8 60
2	Muslim	8,378	2 21	96 36	3 64	11,632	2 59	95 13	4 87
3	Buddhist	66	0 02	72 73	27 27	505	0 11	85 94	14 06

5	Christian	91	0 02	62 64	37 36	152	0 03	59 87	40 13
6	Jain	46	0.01	17.39	82.61	34	0.01	67.65	32.35

Annexure-V presents brief account of main religions of the people of Una district during 1991 and 2001 Censuses During both the Censuses majority of population was that of the followers of Hinduism (93 30 per cent and 92 02 per cent respectively), Sikhs accounted for 4 39 per cent and 5 21 per cent population during 1991 and 2001 respectively Muslim (2 21 per cent and 2 59 per cent respectively) occupy the third position Rest of the religions have very marginal presence in the district Sikh and Muslim both religions have shown a slight increase of 0 82 and 0 38 percentage points respectively whereas the proportion of Hindu religion recorded a decline of 1 28 percentgae point in 2001 Census

ANNEXURE-VI

SEX WISE MARITAL STATUS OF POPULATION AS PER 1991-2001 CENSUSES

Serial number	Marital Status	1991/ 2001 Census	Total population(%)		Age group 0-14		15-44		45-59		60+ & age not stated	
			Males	Females	Males	Females	Males	Females	Males	Females	Males	Females
1	2	3	4	5	6	7	8	9	10	11	12	13
	All Marital Status	**1991 Census**	**187,582 (100 00)**	**190,687 (100 00)**	**66,731**	**62,059**	**80,053**	**87,158**	**20,295**	**21,833**	**20,503**	**19,637**
		2001 Census	**196,593 (100 00)**	**216,107 (100 00)**	**64,387**	**57,698**	**84,854**	**102,110**	**23,987**	**29,078**	**23,365**	**27,221**
1	Never married	1991 Census	108,597 (57 89)	88,699 (46 52)	66,592	61,889	39,977	26,396	773	58	1,255	356
		2001 Census	108,354 (55 12)	84,825 (39 25)	64,248	57,431	43 021	26,952	277	47	808	395
2	Married	1991 Census	73,898 (39 40))	86,080 (45 14)	135	166	39,650	59,267	18,608	18,260	15,505	8,387
		2001 Census	84,569 (43 02)	109,210 (50 54)	126	229	41,446	72,800	23,171	24,439	19,826	11,742
3	Widowed	1991 Census	4,928 (2 63)	15,772 (8 27)	1	2	348	1,418	868	3,490	3,711	10,862
		2001 Census	3,443 (1 75)	21,698 (10 04)	6	37	249	2,110	491	4,497	2,697	15,054
4	Divorced or Separated	1991 Census	158 (0 08)	131 (0 07)	3	1	78	77	46	25	31	28
		2001 Census	227 (0 11)	374 (0 17)	7	1	138	248	48	95	34	30
5	Unspecified status	1991 Census	1	5	-	1	-	-	-	-	1	4
		2001 Census	-	-	-	-	-	-	-	-	-	-

The marital status is categorised in four broad category

(1) Never Married — A person who has never married at any time

(2) Married — A person whose spouse is still alive and the marriage subsist

(3) Widowed — A widowed person whose husband or wife is dead

(4) Divorced or Separated — For a person who is divorced either by court or by any social or religious custom

Annexure-VI shows the distribution of population by marital status in Una district as per 1991 and 2001 Censuses respectively The sex wise distribution of population according to 1991 Census revealed that 57 89 per cent males and 46 52 per cent females were never married, 39 40 per cent males and 45 14 per cent females were married, 2 63 per cent males and 8 27 per cent females were widowed and 0 08 per cent males and 0 07 per cent females were divorced or separated Negligible percentage of males and females was returned in the category of unspecified status According to 2001 Census, percentage of males and females in respect of married and divorced or separated and in case of females in the category of widowed slightly increased whereas it decreased in respect of males and females in the category of never married and in case of males only in the category of widowed No person in the unspecified marital status was reported during 2001 Census

A person who can read and write with understanding in any language is taken as a literate A person who can merely read but can not write is not considered literate In Census, to be a literate, it is not essential that a person should have received any formal education or passed any prescribed examination It is better to distinguish between literacy and educational level Literacy means the proportion of literates to total population whereas educational level relates to stage of schooling or college or other training attained by a person

In Census, children below 7 years of a age are treated as illiterated and excluded from the total population for working out the literacy rate This is known as effective literacy rate The data collected on literacy and educational level help in measuring the progress of literacy as well as quality of education

The literacy rate of state and districts are given below

Serial number	State/ District	Literacy rate 1991	Rank in literacy rate among districts of State	Literacy rate 2001	Rank in literacy rate among districts of State
1	2	3	4	5	6
	Himachal Pradesh	**63 86**	-	**76 5**	-
