VILLAGE AND TOWNWISE PRIMARY CENSUS ABSTRACT

ANAND NIGAM
Deputy Director
Directorate of Census Operations, Rajasthan

CHAND BAORI

A huge tank, called the Chand Baori is unique for its size. It is situated just 90 km. from Jaipur in Abhaneri village of Dausa district, which is also famous for its temples with carved sculptors. Opposite the temple lies the Chand Baori, which is fortified on all four sides with bastions of defence. There are numerous steps in a criss cross pattern that lead to the bottom of the baori. The steps are on three sides of the tank. The staircase of the tank is so stunningly designed that a coin once dropped here is impossible to retrieve.

Annexure-VIII	:	Distribution of different mother tongues returned in 1991 Census	567

Foreword

The District Census Handbook (DCHB) published by Census Organization since 1951 census, is one of the important publications in the context of planning and development at grass-root level. The publication, which is brought out for each district, contains several demographic and socio-economic characteristics village-wise and town-wise of the district alongwith the status of availability of civic amenities, infrastructural facilities, etc.

The scope of the DCHB was initially confined to a few Census Tables and Primary Census Abstract (PCA) of each village and town within the district. Thereafter, at successive censuses, its scope and coverage has been enlarged. The DCHB published at the 1961 census provided a descriptive account of the district, administrative statistics, census tables and a village and town directory including PCA. The 1971 census-DCHB series was in three parts: Part-A related to village and town directory, Part-B to village and town PCA and Part-C comprised analytical report, administrative statistics, district census tables and certain analytical tables based on PCA and amenity data in respect of villages. The 1981 census DCHB was in two parts: Part-A contained village and town directory and Part-B the PCA of village and town including the SCs and STs PCA up to tehsil/town levels. New features alongwith restructuring of the formats of village and town directory were added into it. In Village Directory, all amenities except electricity were brought together and if any amenity was not available in the referent village, the distance in broad ranges from the nearest place having such an amenity, was given. Information on new items such as adult literacy centres, primary health sub-centres and community health workers in the village were provided so as to meet the requirements of some of the Revised Minimum Needs Programme, Information on approach to the village was provided for the first time in the Village Directory so as to give the details on number of inaccessible villages in each district. In the Town Directory, a statement (IV-A) on slums was introduced to provide the details on civic and other amenities in the notified slums of Class I and Class II towns.

The 1991 census DCHB, by and large, followed the pattern of presentation of 1981 census, except the format of PCA was restructured. Nine-fold industrial classification of main workers was given against the four-fold industrial classification presented in the 1981 census. In addition, sex-wise population in 0-6 age group was included in the PCA for the first time with a view to enable the data users to compile more realistic literacy rate as all children below 7 years of age had been treated as illiterate at the time of 1991 census. One of the important innovations in the 1991 census was the Community Development Block (CD block) level presentation of village directory and PCA data instead of the traditional tehsil/taluk/PS level presentation. It was expected that the presentation of village directory and PCA data at CD block level will help the planners in formulation of micro level development plans, CD block being lowest administrative unit.

The present series of 2001 census DCHBs have been made more informative and exhaustive in terms of coverage and content. The Village Directory has been enlarged in scope by including a number of other facilities like banking, recreational and cultural facilities, newspapers and magazines and 'most important commodity' manufactured in village. Income and expenditure of gram panchayat, wherever

medical facilities (viz. Allopathic Hospital, Maternity & Child Welfare Centre and Primary Health Centre), drinking water, post & telegraph (post office and phone), communication, bank, credit societies and recreational facilities. In Town Directory, the statement on Slums has been modified and its coverage enlarged by including details on all slums instead of 'notified slums'. The information is given in case of all statutory towns irrespective of their class, against only Class I and Class II towns in the 1981 and 1991 censuses. The basic amenities available in the villages and towns are analyzed in depth with the help of a number of cross-classified inset tables and statements. Two other significant additions in the publication are inclusion of 'motif' highlighting significant characteristic of the district and analytical notes as annexure. The analytical notes on (i) fertility and mortality and (ii) various measures of fertility and mean age at marriage are prepared based on 1991 Census. Whereas, in the notes relating to (i) percentage distribution of migrants by place of birth/place of last residence, (ii) main religions, (iii) marital status of population, (iv) age, sex and education, and (v) distribution of spectrum of mother tongue, nature and extent of changes occurred in the district in its basic socio-demographic features during the decade 1991-2001 are analyzed. The eight digits permanent location code (PLCN) to all the villages and towns have been assigned keeping in view the future needs.

The village and town level amenity data have been collected, compiled and computerized in prescribed record structure under the supervision of Shri J.L.Modi, Director of Census Operations, Rajasthan. Thereafter, efforts have been made to ensure comparability of the information with that of 1991 census data and the information brought out by the respective state governments in their annual reports and statistical handbooks for various years after 1991. The task of planning, designing and coordination of this publication was carried out by Shri R.G. Mitra, Deputy Registrar General (C&T) and Dr. I.C. Agrawal, Senior Research Officer of Social Studies Division. Dr. R.P. Singh, Deputy Registrar General (Map) provided the technical guidance in the preparation of maps. Whereas, Shri Anil Kumar Arora, Deputy Directory of Data Processing Division who worked under the overall supervision of Shri Himakar, Addl. Director (EDP) helped in preparation of record structure for computerization of village and town directory data and the programme for the generation of Village Directory and Town Directory statements including analytical inset tables. The draft DCHB manuscripts received from the Census Directorates have been scrutinized in the Social Studies Division under the guidance of Shri S.L. Jain, Deputy Director and Shri R.K. Mehta, Assistant Director. I am thankful to all of them and others who have contributed to make this publication possible.

New Delhi
Dated: 17.10.2006

D.K.Sikri
Additional Secretary &
Census Commissioner, India

Preface

I am deeply indebted to the State Government of Rajasthan for their unstinted support and cooperation despite all odds and adversaries like famine etc. at all stages of Census Operations of 2001. I am grateful to Shri Inderjit Khanna, the then Chief Secretary of Government of Rajasthan for his prompt response, guidance and cooperation given to the Census Organization. He infused a sense of urgency and seriousness in the minds of District Collectors and Officers of the District Administration, which geared up the entire administrative machinery. The Supervisors and Enumerators, the basic census functionaries worked ceaselessly in the entire period of fieldwork to make Census 2001 successful.

Sarvashri Ashok Pandey and Vinod Zutshi, the then Secretaries in the Department of Cabinet Secretariat and General Administration have been instrumental in making Census 2001 a successful one. I owe my thanks to both of them. I am also thankful to other Departments like Education, Finance, Revenue, Economics and Statistics, Public Relations, Printing and Stationery, Local Self-government and Personnel Department for extending their full cooperation.

I am deeply grateful to Shri J.K. Banthia, Ex-Registrar General and Census Commissioner of India for his unstinted support and spontaneous, unfailing guidance throughout our endeavours. At the outset I would like to thank Shri D.K. Sikri, Registrar General and Census Commissioner, India for guiding us in bringing out this report. My grateful thanks to Shri K.N. Unni, Ex-DRG (C&T), Shri R.G. Mitra, Ex-DRG (C&T), Shri R.P. Singh, Consultant (Map), Shri Himakar, Additional Director (EDP), Dr. I.C. Agrawal, A.R.G.(SS), Shri S.L. Jain, Deputy Director (SS), Shri C. Chakravorty, Joint Director (DDU) and their colleagues at the headquarter for their ever willing, helping hand and thoughtful suggestions for putting together and shaping the volumes in their present form.

The Director of Census Operations, Rajasthan, Shri J. L. Modi under whose guidance the entire operations were carried out deserves all credit for its success, but he was repatriated to the State Government for taking up some other important assignment before this volume could be made available for the press. I am deeply greatful to Shri H.S. Meena, Ex-Joint Director of Census Operations, Rajasthan for its success.

It may be mentioned a few annexures have been added to this volume with a view to provide an insight into the 1991 and 2001 data on the suggestion of Social Studies Division of the Office of the Registrar General, India. In this connection the contribution of Shri V.K. Gupta, Senior Compiler can not be ignored.

Shri H.C Sharma, Assistant Director incharge of District Census Handbooks and Primary Census Abstract, who was ably assisted by his team of dedicated workers deserve all praise for their perseverance and dedication in preparing Village and Town Directories and in finalization of PCAs and other inset tables. I would like to thank Shri G. Fernandes, Assistant Director who not only coordinated the work but also contributed immensely to the cause of Village and Town Directories.

In view of the increasing demand of the publications in electronic format, it has been decided to publish the DCHB also on CD. I highly appreciate the efforts put in by Smt. Jyoti Luhadiya, DD(EDP) and her team to compile in the electronic format. The efforts put in by Shri Divesh Chawla, DEO Gr-'B' to prepare this is highly commendable. In this connection, the contributions of Shri P.N. Mathur Sr.Supervisor and Shri J.P. Verma, DEO Gr-'B' cannot be ignored.

Shri D.P. Sekra, Steno has taken pains in drafting the District Profile and the Analytical Note for the district. The members of the staff in the Map Section did a commendable job under the guidance of Shri Panna Lal, R.O.(Map), ably assisted by Shri R.S. Tyagi, Sr.Geographer in bringing out various maps. .

ANALYTICAL NOTE

Analytical Note

(i) History and scope of the District Census Handbook

The series of District Census Handbooks has been prepared after scanning and processing of data collected through Houselist Schedule and Household Schedule. Several new innovations have been introduced at almost all the stages of the Census of India, 2001, right from the preparatory efforts to the data processing and dissemination stage. This includes certain fundamental changes in the form and contents of the Houselist and Household schedules, while maintaining the continuity and comparability of the basic housing and population characteristics with the earlier census. For the Census of India 2001, a system of Permanent Location Code Numbers (PLCN) has been adopted by assigning to each village within the State/UT a continuous series from 1 to N. Each village has been assigned an eight digit code. The first six digits represent the code of the village as existing at the present census. The last two digits being '00' are kept for accommodating future changes in case of split of an existing village or creation of new villages etc. Since the permanent Location Codes have been assigned to each village, theoretically tracing the precise location of village on account of future jurisdictional changes in the boundaries of various administrative areas within the state should not pose a problem. It is imperative that under this scheme, the PLCN assigned to villages at the Census of India, 2001, are adopted in future censuses also to ensure the comparability of the data at the village and other administrative levels over a long time series.

The responses for almost all the questions in the Houselisting Schedule had pre-coded options. This not only helped the enumerators to record the response easily but at a later stage would hopefully facilitate quicker data processing. Apart from the improvements made in the format of the Houselisting Schedule, the scope of Houselisting was considerably expanded with the inclusion of new questions based on requirements of various data users and planners. The new features of the Houselisting Schedule are listed below.

- For the first time, different uses of census houses have been standardized and grouped into ten main uses and assigned code numbers.
- Plastic has been added in the list of material of wall and roof of a census house, as it is often used for shelter in slums and shanties.
- In the previous census, the location of drinking water source was categorized into two locations viz. 'within premises' and 'outside premises'. In the Census of India, 2001, the source 'outside premises' was split into two categories namely 'near the premises' and 'away from the premises'.
- The scope of question of availability of electricity was expanded to include six sources of lighting. Besides no lighting, this included sources like electricity, kerosene, solar, other oil and any other source.
- In 1991 Census, a question on availability of toilet facilities to the household was canvassed while in Census of India, 2001, specific information on availability of latrine within the house by the type of latrine was sought.

In addition to expending the scope of the questions canvassed during the Houselisting Operations in the 1991 Census, the following new questions were added in the Houselist Schedule for Normal Households at the Census of India, 2001.

- If the Census house was used for residential or partly residential purposes, the condition of the census house was categorized as good, livable or dilapidated based on the perception and response of the respondent.
- A question on number of married couple(s) living in the household was canvassed.
- Information was sought on the number of married couple(s) having independent room for sleeping.

- Information as to whether the waste-water outlet of the house is connected to 'closed drainage' or 'open drainage' or has not drainage was collected.
- A question on availability of bathroom within the house was included.
- Information on availability of kitchen within the house was also sought.
- Availability of certain assets to the households namely radio/transistor, television, telephone, bicycle, scooter/motor cycle/ moped, car/jeep/van were also included.
- It was also enquired whether any banking service was being availed by the household.

The Household Schedule adopted for the Population Enumeration also primarily had pre-coded options for majority of the questions. The questions for each data item were made as self-explanatory as far as possible for easy understanding. The comprehensive Household Schedule had three parts and two sides A and B. Part I contains the Location Particulars; Part II relates to Individual Particulars and Part III contains questions for Household engaged in Cultivation/Plantation. To facilitate quick tabulation for bringing out Provisional Population Totals, provisions of page totaling were made in the schedule itself for a few items namely population, males, females, population aged 0-6 years by sex, literates and workers and their categories by sex. Most of the questions canvassed during the 1991 Census, were retained for the 2001 Census, except the question on ex-serviceman, which was dropped during the Census of India, 2001. However, a number of new questions were added in the Household Schedule in view of the suggestions from policy makers, data users and researchers, while the scope of certain existing questions was enhanced.

These modifications are:

- Age at marriage was collected for males also, while it was collected for only ever-married females until the 1991 Census.
- The type of educational institution attended by a person was enlarged to include school, college, vocational institute, other institute and literacy center.
- The scope of the definition of 'work' was expanded in the Census of India, 2001, to include production of milk for domestic consumption. In the 1991 Census, cultivation of certain crops even for self-consumption was treated as economic activity. The scope of the term 'Cultivation' was expanded in this Census to include certain other crops such as tobacco, fruits, all types of flowers, roots and tubers, potatoes, chilies and turmeric, pepper, cardamom, all types of vegetables and fodder crops etc. This meant that activities related to production of all the above mentioned crops for domestic consumption has been treated as work. Only five crops viz. tea, coffee, rubber, coconut and betel nuts have been classified under 'Plantation' in the Census of India, 2001.
- At the 1991 Census, the question on seeking/ available for work was canvassed for only non-workers. At the Census of India, 2001, this question is asked from the Marginal Workers also. A question to elicit information on secondary work canvassed at the 1991 Census is dropped.
- From among the categories of non-workers adopted at the 1991 Census, the category 'Inmates of institutions' has been dropped and 'Retired Persons and Rentiers' has been replaced by the category 'Pensioners'.
- A new response category 'Moved after birth' was included in the question on 'reasons for migration' to bring out additional migration patterns. Natural calamities or distress migration as a reason for migration for last residence migrants included in the 1991 Census, is covered under category of 'Other'.
- Number of children born alive to currently married women during last one year was collected for male and female children separately.

Besides the above modifications, the following new questions were canvassed at the 2001 Census.

- A question on total disability was canvassed in the 1981 Census. In the 1991 Census, no question on disability was included. At the Census of India, 2001, a question to elicit information on total or partial disability was canvassed. The five types of disability on which information is collected are - in seeing, in hearing, in speech, in movement and mental.

- A new question on 'Travel to place of work' is canvassed mainly for workers engaged in non-agricultural activities. Information on distance from the residence to place of work and mode of travel to place of work is collected under this section.
- The Household Schedule has a new set of questions for Household engaged in cultivation/ plantation- i) Net area of land under cultivation/ plantation, ii) Net area of land irrigated and iii) Tenure status. This question was not canvassed at the 1991 Census but was canvassed in the 1981 Census in a slightly different form.
- The signature or thump impression of the respondent has been taken on the Household Schedule for the first time in the history of census. This was not only aimed at obtaining correct and complete information but also for giving an opportunity to the respondents to authenticate the information provided by them. The relationship of the respondent with the head of the household was also obtained. This new feature will pave way in carrying out a methodological study in future on the respondent profile in the census.

In 1981 Census, for the first time, an attempt was made in the series to bring out demographic and other data in diglot, Hindi and English, for a more beneficial use by data user of all categories. Hindi being the official language of the State, a Hindi version of the analytical notes was also added with a view to caters to the needs of all sections of readers. The manner of presentation of the District Census Handbooks for the 1991 Census is by and large the same.

As a necessary corollary to the Handbooks, Panchayat Samities, the basic administrative units of development, administration and planning, were listed out separately for the first time in 1981 Census in relation to those districts wherein they were not coterminous with their tehsils. As an additional attempt, informations relating to population figures as well as amenities available in each village located in the jurisdiction of each Panchayat Samiti were also presented in a separate volume under the title "Supplement to District Census Handbook". However, for reference in the main District Census Handbook, a list of villages forming part of each non-coterminous Panchayat Samiti was provided along with the abstracts of population and amenities for such Panchayat Samities as a whole in the form of Special Annexures.

In order to cater to the over-all needs of the data-users and to facilitate the task of administrators and planners it has now been decided to present the Village Directory and Primary Census data at the Panchayat Samiti level instead of the traditional Tehsil level presentation. It is expected that the presentation of Village Directory and Primary Census Abstract data at Panchayat Samiti level will help the planners in formation of micro-level developmental plans, as the Panchayat Samiti is now the lowest administrative unit for development planning. However, for the convenience of the data users and for the sake of comparability of data at Tehsil level, the Primary Census Abstract has also been presented at the Tehsil/ Town level in the form of an Appendix.

A general note on each district covering information of general interest regarding its history, topography, physiography, administrative set-up and places of tourist and historic importance etc. has also been included with a view to provide comprehensive and more purposeful information about the district as a whole. Population figures of Scheduled Castes and Scheduled Tribes constituting the core of 'Weaker Section' have also been presented at district, panchayat samiti and town level so as to facilitate planning for their welfare both at micro and macro levels.

It is earnestly hoped that this publication will serve its purpose for planners and administrators of welfare schemes and other data users in general.

Prior to 1951, Census Reports were printed for the whole province/state. The idea of preparing the District Census Handbooks separately for each district was conceived during 1951 Census as a part of a plan intended to secure an effective method of preserving the Census data below the district level. The idea was that all the district census tables would be bound together in a single volume called the District Census Handbooks. Since then the District Census Handbooks are being published regularly.

The 1951 Census series of District Census Handbooks was printed in two parts. Part I contained five General Population Tables (A Series), three Economic Tables (B Series), five Household and Age Tables (C Series) and seven Social and Cultural Tables (D Series). In Part II of District Census Handbook "Primary Census Abstract and Village Directory" which showed the basic population figures for each village or town classified by livelihood classes, were included along with some information of general nature.

The 1961 Census series of District Census Handbooks were printed in single volume in which Primary Census Abstract upto village and town/ward level and Village Directory upto village level were given. Besides, some official statistics collected from various state departments, four General Population Tables (A Series), sixteen Economic and Household Tables (B Series), seven Social and Cultural Tables (C Series), four Housing Tables (E Series) and eight Special Tables for Scheduled Castes/Scheduled Tribes were also provided in District Census Handbooks. For the first time in 1961 Census the maps for the district and tehsil were also included in the District Census Handbooks.

In 1971 Census series of District Census Handbooks village-wise 'Village Directory' giving services, facilities or amenities available in the village was given. 'Town Directory' was introduced for the first time giving useful information in respect of every town of the district. Rural Primary Census Abstract upto village level and Urban Primary Census Abstract upto enumeration block level were given in District Census Handbooks. While the District, Tehsil and Town maps were included; the inclusion of Census Tables was dispensed with in the District Census Handbooks in 1971 Census.

The scope of 1981 series of District Census Handbooks was enlarged specially in relation to amenities and land-use pattern. Apart from new items like uses of electricity, details of communication points, information for which was not collected in 1971 Census, a note on each district covering general information on its history, topography, flora, fauna and administrative set up etc. was also added. The format of the Primary Census Abstract was also restructured in the light of changes in economic and other questions canvassed in the 1981 Census but at the same time, all efforts were made to retain comparability with 1971 Census data. The inclusion of Special Primary Census Abstract for Scheduled Castes and Tribes at the Tehsil/Town level was another innovation introduced in 1981 Census series.

The manner of presentation of the District Census Handbooks for the 1991 Census was by and large the same as followed in 1981. However, the format of Primary Census Abstract was restructured slightly in the 1991 Census for the benefit of data users. Nine-fold industrial classification of main workers was given as against four-fold industrial classification presented in the 1981 Census. In addition to this, the sex-wise population in the 0-6 age-group was included in Primary Census Abstract for the first time with a view to enabling data users to compute more realistic literacy rate as all children below 7 years of age were treated as illiterate at the time of the 1991 Census.

One of the most important innovations in the 1991 Census was the Panchayat Samiti level presentation of data in the Village Directory and Primary Census Abstract instead of the traditional Tehsil level presentation.

Deviating from 1991 Census, like 1981 Census four fold industrial classification of main and marginal workers has been presented in 2001 as against nine fold given in 1991.

The mode of presentation of DCHB in 2001 will by enlarge be same as that of in 1991. The uniqueness of Census 2001 is that single record (Household Schedule) has been processed as against two records viz. Individual Slip and Household Schedule in the previous Censuses. Apart from this some deviation has been made this time by incorporating analytical notes on migration, fertility & mortality, education, marital status, age structure etc pertaining to 1991 Census of the respective district in the DCHB in the form of Annexures II to VIII. Similarly Tables based on Houselist data pertaining to Census 2001 has also been included in DCHB.

(ii) Brief History of the District

On 10th April 1991 Dausa district was constituted by transferring four tehsil of Jaipur district namely - Baswa, Lalsot, Dausa and Sikrai. Later on Mahwa tehsil of Sawai Madhopur district was also transferred

by State Government vide their Notification No. F.9/ 20/Rev/Group-I/91 dated 14th August 1992.

It is told that Kachhawa king Dulharai came here from narwar of Gwalior at 967 AD and declared Dausa on his first capital. Thus Dausa is an ancient place and was main sub-divisional headquarter of Jaipur district. This district is situated at the northern part of state and is located on Jaipur-Agra National Highway about 55 km away from Jaipur. The district is surround by Alwar in north, Bharatpur in east, Sawai Madhopur in south and Jaipur district in west.

At present one district having 2 sub-divisions Dausa and Bandikui, which were created from five tehsils - Lalsot, Dausa, Baswa, Sikrai and Mahwa. In this district 225 gram panchayats, 228 patwar circles and 1058 revenue villages are in existence.

Administrative Set-up

The District Collector is the administrative head of the district. He is also functioning as District Magistrate. For two sub-divisions of the district, two Sub-Divisional Officers are working. Dausa sub-division having two tehsils - Dausa & Lalsot and Bandikui sub-divisions comprising three tehsils - Baswa, Sikrai and Mahwa. Each of the tehsil is under the charge and supervision of a Tehsildar who is also vested with the powers of Executive Magistrate.

There are five panchayat samities viz. Dausa, Lalsot, Bandikui, Sikrai and Mahwa. The administrative head of panchayat samities is development officer and elected representative called "Pradhan". On district level, Zila Parishad is giving guidance to panchayat samities, who's President is called "Zila Pramukh". The Panchayat Samities main work are to promote and execute the developmental activities at village level.

Location & Size

Dausa district is situated in the eastern part of state between 25.33' to 27.33' north latitude and 76.50' to 76.90' eastern longitude. The total area of the district is 3432 sq. km., which constitute only 0.99 per cent of total area of the state.

Physiography

The district has a roughly semi circular or C shape broadest the centre and tapring towards east and west. Physiographically the most part of the terrain is plain inter sected with several ranges of Aravali hills running from north-northeast to south-southwest. Hills of the district are parts or branches of the north Aravali ranges. The Lalsot-Bayana Hill range forms important physiographic features of the district. This range runs from Lalsot to Bayana demarcating the boundaries between Dausa and Sawai Madhopur & Karauli Districts. There is no perennial river in the district and thus district is depend wholly on rainy water. The water arrangements are being done by seasonal rivers, streams and allied rivers. There are two rivers - Ban Ganga and Morel, which runs in most of one area of the district.

Climate

In district, except short duration of rainy season, the climate mostly remains dry. Winter season starts from November and remain up to February, where as summer season existed from March to June. After that rainy season comes, which continues up to second week of September. Approximately two & half month's rainy season the general rainy days are 36, thus the district's rainfall is less than general rainfall. The average rainfall of the district is 58.30 cm whereas in year 2000 actual rainfall of 44.60 cm was recorded, which is 13.70 cm less than average rainfall. In year 2000, the maximum 53.6 cm rainfall was recorded at Baswa centre, which is only 0.22 less than average rainfall of 53.82 cm, whereas the minimum rainfall 34.9 cm was recorded at Lalsot centre, which is 22.43 cm less than of average rainfall. The maximum 45^0C temperature in the district existent in June and temperature comes at 20^0C in winter and the minimum temperature go down to 5^0C.

Geology & Minerals

The district having pre-Aravali quartzite's which are considered to be nearly 2,500 million-year-old. These rocks are mostly covered under a mental of sand and alluvium. With a major unconformity these rocks are of Delhi super sub group, which is made up of Raialo, Alwar and Ajabgarh groups. The Alwar group consists of conglomeritic quartzites and schists, whereas the Ajabgarh group is mainly made up of schists, phylites marble and quartzites.

Primary minerals found in the district are silica sand, soap stone, dolomite and quartzite, whereas in secondary minerals - missionary stones, kankar, bajri, marble block, kharda, patti-katla slate stone and bricks are found. In year 1999-2000, 24 mining permits for primary minerals and 45 mining permits in secondary minerals were in existence in the district. The numbers of labours engaged in these activities were 977 and revenue of Rs.40.30 Lac was received from these.

Metallic minerals ore is found in Lalsot and Bandikui panchayat samities of the district, whereas in non-metallic minerals - glass sand, and soap stone are found in Khawa Rao ji, Bandikui and Geejgarh, dolomite in Sikrai, Lalsot and Bandikui; and Silica in Bharkri area. Apart from this, sand stone, lime stone, silica and building stone are found in huge quantity in various parts of the district.

Forest, Flora & Fauna

Dausa district, which was mainly a part of Jaipur district, was under control of Jaipur Empire. The 'Sikar Khana' of Jaipur Empire was managed forest of Dausa. At present forests are being maintained by Deputy Conservator of Forest. According to information provided by the Deputy Forest Ranger office, there are 28239 hectare land is found under forest, out of which 13360 hectare land is reserved forest, 14719 hectare land is protected forest and 160 hectare land is unclassified forest.

Subsidiary edaphic types of dry tropical forests are found in the district where Dhok or Dhokra (Anogeissus pendula) is the most common tree. Other species found are Adoosa (Adhatoda vasica); Gurjan (Lannea coromandelia); Khirni (Wrightia tinctoria). Salar (Boswellia serrata); Jhingha (Bauhinia recemosa); Babul (Acacia arabica); Siris (Albizzia lebbek); Bar (Ficus Bengalensis); Gular (Ficus recemosa); Pipal (Ficus religiosa); Shisham (Dalbergia sissoo). Peelu (Salvadera Oleoides); Hingota (Balanites aegyptica); Karaya (Sterculia urens); Khejra (Prosopls spicigera); Khair (Acacia catechu); and Jamun (Syzygium cumini). The timber obtained from the forests of the district is utilised for the manufacture of agricultural implements besides being used for roofing as well as for fuel purposes and for agricultural equipments.

Black buck, Nilgai, Langur, Chinkara, Chital or spotted eer, fox, hyena, hedgehog, hare, wolf, porcupine, jackal, jungle cat, sambhar, tiger, wild boar and pig mostly constitute the fauna of the district. Various types of fishes are also found in the tanks and bunds of district.

Land use

The soil in the district is by and large sandy, but there are certain areas towards the east and southern parts where the soil in for the most part is either black or rich alluvial. The total geographical area of the district is 340467 hectare as per District Collector (L.R.) Dausa. In 1999-2000, the classification of land use area was as under:

	Land use	Area in hectares
1.	Forest	23,581
2.	Area under Non-Agricultural use	37,904
3.	Barren and Non Cultivable land	35,958
4.	Net sown area	223,742
5.	Barren land	19,282

Crop Pattern

The main crop of the district is the Rabi crop grown in the month of October and harvested in March. The crop consists of grains like wheat, barley and gram. Wheat is sown as both irrigated and unirrigated crop. Barley replaces wheat on the irrigated lands where the soil is light, irrigation water is scanty or its mineral content is high. When the monsoon are scanty then the area cultivated by barley increases. In the case of gram generally irrigation is not required. The Kharif crop also contributes to the supply of food grain to the district. It is generally sown in May-June end, and harvested in September. The main crops that are sown during this season are Jowar, Bajra, groundnut, and pulses like urad, moong and moth. Sesamum is grown.

In the year 1999-2000, these crops were cultivated in the district

S.No.	Name of crop	Area in hectares	Production (in tones)
	A. Grains		
1	Bajra	79,242	36,142
2	Jowar	4,961	2,147
3	Wheat	97,812	263,198
4	Barley	5,208	11,286
5	Maize	3,560	2,316
	B. Pulses		
6	Gram	24,450	32,969
7	Tur	267	62
8	Other Kharif pulses	880	330
9	Other Rabi pulses	81	49
	C. Other commercial crops		
10	Rai and mustard	66,112	100,426
11	Sesamum	4,109	2,166
12	Sugarcane	15	26
13	Chilies	40	79
14	Cotton (in bundles)	45	147
15	Tobacco	235	44
16	Sanhemp (in bundles)	58	156

Tenancy

Tenancy in the State is governed by the Rajasthan Tenancy Act, 1955. It is one of the most important and progressive laws relating to agrarian reforms. The provisions of the Act apply in respect of land held by tenants as if the State Government were the land holder acting through the Tehsildars. In relation to the land held by him, every cultivator is either a tenant or a sub-tenant or an allottee or a trespasser. A tenant is one who is required to pay some rent on account of use and occupation of land let out to him for agricultural or allied purposes. Grantee with a favourable rate of rent, ijardar,thekedar or trespasser is not considered a tenant.

There are following classes of tenants:

(a) Khatedar tenant,

(b) Maliks,

(c) Tenant of Khudkasht, and

(d) Ghair-Khatedar tenants.

A Khatedar tenant is entitled to all the rights conferred and subject to all the liabilities imposed on Khatedar tenant by the Rajasthan Tenancy Act. On the date of coming into force of Rajasthan Tenancy Act, a Zamindar or a Biswedar holding Khudkasht was treated as a Khatedar tenant irrespective of whether he was or not in occupation on the date of vesting.

Malik is a Zamindar or Biswedar who has become Malik or Khudkasht land held by him on abolition of Zamindari and Biswedari in 1959. The word "Malik" was also added to section 14 of the Rajasthan Tenancy Act to classify it as a class of tenant. Section 13 of the Act provides that a Malik is entitled to all the rights conferred and is subject to all the liabilities imposed on Khatedar tenant and so in substance this class of tenancy is nothing but a Khatedar tenant.

holding Khudkasht were treated as Khatedar tenants. A tenant of khudkasht is essentially a sub-tenant in view of the fact that a sub-tenant is also eligible for protection of his cultivatory rights even against Khatedar tenant. Every tenant of land other than a Khatedar tenant, a tenant of Khudkasht or a sub-tenant is a Ghair-Khatedar tenant.

A trespasser is a person who takes or retains possession of land without authority or who prevents another person from occupying land duly let out to him by the State. After regularisation, the trespasser becomes an allottee. An allottee is treated as a Ghair-Khatedar tenant on whom Sub-Divisional Officer shall suo-moto confer khatedari rights after ten years of allotment provided that the allottee fulfils all the terms and conditions of allotment during this period. Similar is the case of those allottees who were otherwise allotted land by the State Government.

Agricultural implement and machinery

The agriculture activities are still being carried out in a traditional way. However, there has been drastic increase in the use of electrically operated pump sets and tractors. In comparison to 1992 livestock census use of plough and diesel operated pump set has been decreased. The following figures gives a comparative picture of use of Agriculture implements during the period 1992 and 1997:

	Name of Agriculture implements	No. of Agricultural implements		Increase/ Decrease
		1992	1997	
1.	Plough	26,468	23,001	(-)
2.	Animal carts	15,134	11,354	(-)
3.	Diesel Engine	34,117	33,960	(-)
4.	Sugarcane crusher	17	7	(-)
5.	Electric pump sets	13,905	19,171	(+)
6.	Tractors	2,751	3,969	(+)
7.	Ghani (animal driven)	23	3	(-)

Source: District Livestock Census 1997.

Irrigation

The district is generally not drought prone but there are a large numbers of wells and irrigation facilities. Even though the majority of farmers have these facilities yet they are largely dependent on the monsoon for a successful crop production. If sufficient monsoon do not occur then total production of crops reduces substantially.

The main sources of irrigation are canals, ponds, tube wells and wells. In the year 1999-2000, total irrigated area of the district was 161056 hectares, out of which 3027hectares were irrigated by canals, 261 hectares were irrigated by ponds and 157768 hectares were irrigated by wells and tube wells. In 1999-2000 the net area irrigated was 158700 hectares.

Animal Husbandry

As per the livestock census of 1997, the total livestock population was 821435 and a poultry population of 20567, which included ducks & fowls; whereas in 1992 the livestock population was recorded as 741784, hence an increment of 111676 animals has been recorded, which is 13 per cent higher then of 1992. The numbers of livestock recorded in 1997 in the district is given as under

S.No.	Category	Authorized number
1	Cattle (cross breed & indigenous)	189,812
2	Buffaloes	94,902
3	Sheep	328,544
4	Goats	339,292
5	Horse & Pony	319
6	Mules/Ass	3,853
7	Camels	5,044
8	Pigs	15

Electricity & Power

Having no Electricity Generation Centre, the district is wholly dependent on other districts for electricity. All 1052 villages of the district have been electrified up to March 2001. There were 93919 consumers consuming 784 Lac units of electricity in the year 1999-2000 in the district. The electric consumption and its type can be classified as following table:

S.No.	Classification of electric consumption	No. of Consumers	Total consumption (in Lac units)
1	2	3	4
1	Domestic consumption	59,837	245
2	Commercial consumption	10,299	59
3	Agricultural consumption	20,827	243
4	Small scale In consumption	-	51
5	Medium scale In consumption	2,574	32
6	Heavy In consumption	-	82
7	P.H.E.D.	83	50
8	Other kind of consumption	194	22

Transport and Communication

Dausa district has a significant importance in road and transport as it is situated on National Highway No.11. In year 1993-94 there were 92 km of National Highway, 589 km painted roads and 113 km of metallic roads were existed whereas in 1999-2000, National Highway of 92 km, painted roads of 1094.30 km, metallic roads of 58.70 km and concrete cement roads of 213 km were existed. Thus district has 1458 km roads and total 319 villages are connected by roads.

The numbers of vehicles have increased tremendously in the district. In year 1995-96, 428 private cars & jeeps, 101 private buses, 3927 motor cycles, scooters & autos rickshaws, 297 public & private carriers, 387 tractors and 26 taxi jeeps were registered by Transport Department. Whereas in 1999-2000 the numbers of these vehicles have been increased as 1130 private cars & jeeps, 322 private buses, 13162 motor cycles, scooters & autos rickshaws, 534 public & private carriers, 3114 tractors and 70 taxi jeeps. Due to tremendous increase in vehicles heavy pressure has been put on the present road of the district, this resulting increase in road accidents. In 1996, 178 motor vehicles were damaged in 441 accidents, whereas in year 2000, 202 persons were killed, 885 persons were injured and 508 motor vehicles were damaged in 588 accidents.

The district is connected with important cities of Rajasthan vis-a-vis important cities of the country like Delhi, Ahmedabad, Kanpur, Varanasi directly by rail transport. After change of gauge into broad-gauge, the district has been connected with many important cities of the country indirectly. The district has 14 railway stations.

To day, communication revolution is taking place through out world, and this district is having the same feelings. In year 1999-2000, there were 239 post offices, 33 telegraph offices, 41 telephone exchanges, 37 public message offices, 27 local offices, and 161 STD/PCO & 522 letterboxes were in existence.

Three rest houses under state government's public works department are established at Dausa, Mahwa and Mandawar. Apart from it a circuit house at district headquarters and in Mahwa a midway of Rajasthan Tourism Development Corporation are also situated.

Trade & Commerce

Most of business like purchasing selling, lending borrowing and contracts are being carried out by mahajans in the district. Weekly Hat/Bazaars are functioning in main towns of districts viz. Dausa, Baswa and Lalsot from state time, Dausa in main centre for food grains, and patti-katla, which in used for roofing. The stone patties of Bhakri village were being used for Jaipur State. Dausa, Bandikui and Mundawar being situated on Jaipur Delhi and Jaipur Agra Railway lines become important place of trade. Sikandara, Baswa, Lawan and Balaheri are the newly developing trade centres.

To avoid competition between farmers and their exploitation by middle men and other agencies krishi upaj mandi samities have been established at various important trade centres, so that farmers can gain proper value of their products. There are four regular krishi upaj mandi samities - Lalsot, Mandawar, Dausa and Bandikui are functioning in the district. The scientific storage facilities has been provided by Rajasthan warehousing corporation in Bandikui, Dausa, Lalsot and Mandawar Mahuwa towns of the district.

There were 3 cinema halls in the district in year 1999-2000, out of which one cinema each was located in Dausa, Lalsot and Bandikui. In 1999-2000 there were 428 fair price shops were functioning in the district out of which 51 shops were running one co-operative societies and 377 shops were running by private dealers.

In year 2000 the district having 24 petrol pump, out of which in municipal area 3 in Dausa, 2 in Bandikui, 5 in Lalsot, 4 in tehsil area of Dausa, one in Baswa, 3 in Sikrai and 6 in Mahwa were functioning, whereas in Lalsot tehsil no petrol pump was existed.

The numbers of Intoxication Liquor Shops and sale done by them in year 2000 in the district is shown as under:

S.No.	Particulars	Shops	Sale
1	Country made Liquor	89	21.21 Lac Ltrs.
2	India made foreign Liquor	16	-
3	India made Beer	-	3.37 Lac Ltr.
4	India made Sprit	-	1.17 Lac Ltr.
5	Bhang	8	885.00 Kg.
6	Other (Post Doda)	2	9585 Kg.

There were 15 Regional Rural Banks, 41 Public Sector Commercial Banks and 59 all Scheduled Commercial Banks were functioning in June 2001 in the district.

Industry & Labour

During the year 1999-2000, there were 90 registered industries in the district, in which an investment of Rs.241.89 was involved and 475 persons were employed. In the district 7 industries were based on food products, 2 industries on cotton cloth, 2 on wood, 2 on paper, 2 on leather, 16 on minerals, 1 on metal, 13 on metal & parts based industries, 2 on machinery and tools manufacturing, 1 on electric machinery and 42 industries were based on manufacturing and repairing industries were functioning.

Gram Panchayats composition & its role

The system of Panchayati Raj was inaugurated on 2nd October 1959 in Nagaur district by then Prime Minister Late Shri Jawahar Lal Nehru. Late Shri Balwant Rai Mehta proposed the recommendation for Panchayati Raj. There are three levels of Panchayati Raj:

(1) Gram Panchayat (Village level)

(2) Panchayat Samiti (Block level)

(3) Zila Parishad (District level)

Gram Panchayat is an important institution of self-government. The institution is set for a village or village agglomeration. A Gram Panchayat is created on 2,000-8,000 population. It covers a maximum area of 6 miles. The villages, which have population below 2,000, are merged with the other villages to create a Gram Panchayat. Their tenure is of 5 years.

A Gram Panchayat consist 5 to 20 members. The Head of the Panchayat is called Sarpanch. Panch and Up-Sarpanchs are also elected. It includes a member belongs to backward class and a lady member. There are 151 Gram Panchayats in the district.

The main objectives of Gram Panchayat are to arrange the primary education, sanitation of public places, drinking water and light. It manages also the adult education, livestock and repairing of wells.

During the last years, Gram Panchayats functioned several important jobs like *Kam Ke Badley Anaj*, Construction of Panchayat Ghar, School buildings, roads and tanks. It organizes also the cattle fare. Gram Panchayat plays an important role in the development of village and its economy.

(v) Census Concepts

Building

A 'Building' is generally a single structure on the ground. Sometimes it is made up of more than component unit which are used or likely to be used as dwellings (residences) or establishments such as shops, business houses, offices, factories, workshops, worksheds, Schools, places of entertainment, places of worship, godowns, stores etc. It is also possible that building which have component units may be used for a combination of purposes such as shop-cum-residence,workshop-cum-residence,office-cum-Residence, etc.

Usually a structure will have four walls and a roof. But in some areas the very nature of construction of houses is such that there may not be any wall. Such is the case of conical structures where entrance is also provided but they may not have any walls. Therefore, such of the conical structures are also treated as separate buildings.

Permanent houses

Houses, the walls and roof of which are made of permanent materials. The material of walls can be any one from the following, namely, galvanized iron sheets or other metal sheets, asbestos sheets, burnt bricks, stones or concrete. Roof may be made of from any one of the following materials, namely, tiles, slate, galvanized iron sheets, metal sheets, asbestos sheets, bricks, stones or concrete.

Semi-permanent houses

Houses in which either the wall or the roof is made of permanent material and the other is made of temporary material.

Temporary houses

Houses in which both walls and roof are made of materials, which have to be replaced frequently. Walls may be made from any one of the following temporary materials, namely, grass, thatch, bamboo, plastic, polythene, mud, unburnt bricks or wood. Roof may be made from any one of the following temporary materials, namely, grass, thatch, bamboo, wood, mud, plastic or polythene.

Room

A room should have four walls with a doorway with a roof over head and should be wide and long enough for a person to sleep in, i.e., it should have a length of not less than 2 metres and a breadth of at least 11/2 metres and 2 metres in height. A room, however, which is used in common for sleeping, sitting, dining, storing and cooking, etc., should be regarded as a room. An unenclosed verandah, kitchen, store, garage, cattle-shed and latrine and rooms in which a household industry such as a handloom is located, which are not normally used for living or sleeping are excluded from the definition of a living room for the purpose of this question.

One is likely to come across conical shaped hut or tent in which human beings reside. In such improvised accommodation, there will be no four walls to a room and therefore, the above definition would not strictly apply to such types of accommodation. In such cases, the tent or conical hut etc., have been construed to be a room. In certain parts of the country, particularly in rural areas, the pattern of housing may present some problems. For example, a household may be in occupation of several huts put to different uses such as main residence, sitting room, store and even for sleeping at night. By strict application of the definition each one will be reckoned as a census house, but this does not reflect the real situation. While huts used as store or cattle shed pose no problems, those used as sleeping rooms beyond the main residence, should be counted as rooms rather than separate census houses.If a garage is used by a servant and he lives in it as a separate household, it should be reckoned as a room available to the servant's household. If the servant is considered as a member of the household then the garage room should be reckoned as an additional room of the household.

Dwelling Room

A room is treated as a dwelling room if it has walls with a doorway and a roof and should be wide and long enough for a person to sleep in, i.e. it should have a length of not less than 2 meters and a breadth of at least 1.5 meters and a height of 2 meters. A dwelling room would include living room, bedroom, dining room, drawing room, study room, servant's room and other habitable rooms. Kitchen, bathroom, latrine, store room, passageway and verandah which are not normally usable for living are not considered as dwelling rooms. A room, used for multipurpose such as sleeping, sitting,

dining, storing, cooking, etc., is regarded as a dwelling room. In a situation where a census houses is used as a shop or office., etc., and the household also stays in it then the room is not considered as a dwelling room. But if a garage or servant quarter is used by a servant and if she/he also lives in it as a separate household then this has been considered as a dwelling room available to the servant's household. Tent or conical shaped hut if used for living by any household is also considered as dwelling room. A dwelling room, which is shared by more than one household, has not been counted for any of them. If two households have a dwelling room each but in addition also share a common dwelling room, then the common room has not been counted for either of the households.

Census house

A 'census house' is a building or part of a building used or recognised as a separate unit because of having a separate main entrance from the road or common courtyard or staircase, etc. It may be occupied or vacant. It may be used for residential or non- residential purpose or both.

In certain peculiar situations, the manner in which buildings and census houses were identified for numbering in the field by the enumerators is described hereunder:

Sometimes a series of different buildings are found along a street which are joined with one another by common walls on either side looking like a continuous structure. These different units are practically independent of one another and are likely to have been built at different times and owned by different persons. In such cases, though the whole structure with all the adjoining units apparently appears to be one building, each portion was treated as a separate building and its constituent units as separate census houses.

On the other hand, one may come across cases, particularly in large cities of multi-storeyed ownership flats. In these cases while the structure looks like one building, different persons own the flats. In case of such multi-storeyed structures, having a number of flats owned by different persons, the entire structure was treated as one building and each flat as a separate census house.

If within a large enclosed area, there are separate buildings owned by different persons then each such building is treated as a separate building. There can be a situation where within an enclosed compound there are separate buildings owned by an undertaking or company or even government that are actually in occupation of different persons. For example, Indian Oil Corporation colony where the buildings are owned by the Corporation but these are in occupation of their employees. Each such building was treated as a separate building. But if in any one of these buildings there were flats in occupation of different households, each such flat was reckoned as a separate census house.

Sometimes if becomes difficult to apply the definition of census house strictly in certain cases. For example, in an urban area, if a flat has five rooms, each room having direct entrance from the common staircase or courtyard. By definition, this has to be treated as five census houses. If all these five rooms are occupied by a single household it was not realistic to treat them as five census houses. In such a case,'singleness' of use of these rooms along with the main house should be considered and the entire flat was treated as one census house.On the other hand, if two independent households occupy these five rooms, the first household living in 3 rooms and the second household occupying 2 rooms, then considering the use, the first three rooms together were treated as one census house and the remaining rooms as another census house. But if each room was occupied by an independent household, then each such room was treated as a separate census house.

In case of hostels, hotels, etc., even if the door of each room in which an inmate lives opens to a common verandah, staircase, courtyard or a common room, as it happens almost invariably, the entire hostel/ Hotel building was treated as one census house, but if such hostels/ hotels have out- houses or other structures used for different purposes or the same purpose, then each such structure attached to the main hostel / hotel was treated as a separate census house.

In some parts of the country, in rural areas, the pattern of habitation is such that a group of huts, located

in a compound, whether enclosed or unenclosed, is occupied by one household. While the main residence may be located in one hut, other huts may be used for sleeping, as a kitchen, bath room, baithak, etc. Though each of the huts was a separates structure, they form a single housing unit and therefore, have to be treated collectively as one building and one census house. If some of the huts are used by one household and the others by a second household as residence, then the two groups of huts were treated as separate census houses. However, if there were also other huts in the compound used for other purposes and not as part of the household's residence such as, cattle shed, workshed, etc., these were treated as separate census houses.

On the other hand, in urban areas, where more than one structure within an enclosed or open compound (premises) belonging to the same person, e.g., the main house, the servant's quarter, the garage, etc., only one building number was given for this group and each of the constituent a separate census house number.

Only cases where a structure with roof and pillars has come up was treated as a building.

Village

The basic unit for rural areas is the revenue village, which has definite surveyed boundaries. The revenue village may comprise of one or more hamlets but the entire village is treated as one unit for presentation of data. In unsurveyed areas, like villages within forest areas, each habitation area with locally recognized boundaries is treated as one village.

Rural-Urban area

The data in tables on Houses, Household Amenities and Assets are presented separately for rural and urban areas. The unit of classification in this regard is 'town' for urban areas and 'village' for rural areas. In the Census of India 2001, the definition of urban area adopted is as follows:

a) All places with a municipality, corporation, cantonment board or notified town area committee, etc.

b) A place satisfying the following three criteria simultaneously:

i) a minimum population of 5,000;

ii) at least 75 per cent of male working population engaged in non-agricultural pursuits; and

iii) a density of population of at least 400 per sq. km.(1,000 per sq.mile)

For identification of places which would qualify to be classified as 'urban' all villages, which, as per the 1991 Census had a population of 4,000 and above, a population density of 400 persons per sq. km. and having at least 75 per cent of male working population engaged in non-agricultural activity were considered. To work out the proportion of male working population referred to above against b) (ii), the data relating to main workers were taken into account.

Apart from these, the outgrowths(OGs) of cities and towns have also been treated as urban under 'Urban Agglomerations'. Examples of out-growths are railway colonies, university campuses, port areas, military camps, etc., that may have come up near a statutory town or city but within the revenue limits of a village or villages contiguous to the town or city. Each such individual area by itself may not satisfy the demographic criteria laid down at (b) above to qualify it to be treated as an independent urban unit but may deserve to be clubbed with the towns as a continuous urban spread. Thus, the town level data, wherever presented, also includes the data for outgrowths of such towns.

City

Towns with population of 1,00,000 and above are called cities.

Urban Agglomeration

An Urban Agglomeration is a continuous urban spread constituting a town and its adjoining urban outgrowths (OGs) or two or more physically contiguous towns together and any adjoining urban outgrowths of such towns. In some cases railway colonies, university campuses, port areas, etc., may come up near a city or statutory town outside its statutory limits but within the revenue limits of a village or villages contiguous to the town or city. Each such individual area by itself may

not satisfy the minimum population limit to qualify it to be treated as an independent urban unit but may deserve to be clubbed with the town as a continuous urban spread.

For the purpose of delineation of Urban Agglomerations during Census of India 2001, following criteria are taken as pre-requisites:

a) The core town or at least one of the constituent towns of an urban agglomeration should necessarily be a statutory town ; and

(b) The total population of all the constituents (i.e., towns and outgrowths) of an Urban Agglomeration should not be less than 20,000 (as per the 1991 Census).

With these two basic criteria having been met, the following are the possible different situations in which Urban Agglomerations would be constituted:

i) a city or town with one or more contiguous outgrowths;

ii) two or more adjoining towns with their outgrowths; and

iii) A city and one or more adjoining towns with their outgrowths all of which form a continuous spread.

Household

A 'household' is usually a group of persons who normally live together and take their meals from a common kitchen unless the exigencies of work prevent any of them from doing so. Persons in a household may be related or unrelated or a mix of both. However, if a group of unrelated persons live in a census house but do not take their meals from the common kitchen, then they are not constituent of a common household. Each such person was to be treated as a separate household. The important link in finding out whether it was a household or not was a common kitchen. There may be one member households, two member households or multi-member households.

Institutional household

A group of unrelated persons who live in an institution and take their meals from a common kitchen is called an Institutional Household. Examples of Institutional Households are boarding houses, messes, hostels, hotels, rescue homes, jails, ashrams, orphanages, etc. To make the definition more clearly perceptible to the enumerators at the Census 2001, it was specifically mentioned that this category or households would cover only those households where a group of unrelated persons live in an institution and share a common kitchen.

Houseless household

Households who do not live in buildings or census houses but live in the open on roadside, pavements, in hume pipes, under fly-overs and staircases, or in the open in places of worship, mandaps, railway platforms, etc., are treated as Houseless Households.

Scheduled Caste and Scheduled Tribe

Article 341 of the Constitution provides that the President may, with respect to any State or Union territory, specify the castes, races or tribes or parts of or groups within castes, races or tribes which shall for the purposes of the Constitution be deemed to be Scheduled Castes in relation to that State or Union territory. Article 342 similarly provides for specification of tribes or tribal communities or parts of or groups within tribes or tribal communities which are to be deemed for the purposes of the Constitution to be Scheduled Tribes in relation to the various States and Union territories. In pursuance of these provisions, the list of Scheduled Castes and / or Scheduled Tribes are notified for each State and Union territory and are valid only within the jurisdiction of that State or Union territory and not outside.

It is important to mention here that under the Constitution (Scheduled Castes) Order, 1950, no person who professed a religion different from Hinduism was deemed to be a member of a Scheduled Caste in addition to every member of the Ramdasi, Kabirpanthi, Majhabi or Sikligar caste resident in Punjab or Patiala and East Punjab States Union were in relation to that State whether they professed the Hindu or the Sikh religion. Subsequently, in September 1956, by an amendment, the Presidential Order of 1950 and in all subsequent Presidential Orders relating to Scheduled Castes, the Hindu and the Sikh religions were placed on the same footing with regard to the specification of Scheduled Castes. Later on, as per the amendment made in the Constitution (Scheduled Castes) Order 1990, the Hindu, the Sikh and the Buddhist were placed on the same footing with regard to the recognition of the Scheduled Castes.The lists containing the names of the Scheduled Castes and the Scheduled Tribes applicable for the Census of India 2001 in the State are given below:

Scheduled Castes

1. Adi Dharmi
2. Aheri
3. Badi
4. Bagri, Bagdi
5. Bairwa, Berwa
6. Bajgar
7. Balai
8. Bansphor, Bansphod
9. Baori
10. Bargi, Vargi, Birgi
11. Bawaria
12. Bedia, Beria
13. Bhand
14. Bhangi, Chura, Mehtar, Olgana, Rukhi Malkana, Halalkhor, Lalbegi, Balmiki, Valmiki, Korar, Zadmalli
15. Bidakia
16. Bola
17. Chamar, Bhambhi, Bambhi, Bhambi Jatia, Jatav, Jatava,Mochi, Raidas, Rohidas, Regar, Raigar, Ramdasia, Asadaru, Asodi, Chamadia, Chambhar, Chamgar, Haralayya, Harali, Khalpa, Machigar, Mochigar, Madar, Madig, Telegu Mochi, Kamati Mochi, Ranigar, Rohit, Samgar
18. Chandal
19. Dabgar
20. Dhanak, Dhanuk
21. Dhankia
22. Dhobi
23. Dholi
24. Dome, Dom
25. Gandia
26. Garancha, Gancha
27. Garo, Garura, Gurda, Garoda
28. Gavaria
29. Godhi
30. Jingar
31. Kalbelia, Sapera
32. Kamad, Kamadia
33. Kanjar, Kunjar
34. Kapadia, Sansi
35. Khangar
36. Khatik
37. Koli, Kori
38. Kooch Band, Kuchband
39. Koria
40. Madari, Bazigar
41. Mahar, Taral, Dhegumegu
42. Mahyavanchi, Dhed, Dheda, Vankar, Maru, Vankar
43. Majhabi
44. Mang, Matang, Minimadig
45. Mang, Garodi, Mang Garudi
46. Megh, Meghval, Meghwal, Menghvar
47. Mehar
48. Nat, Nut
49. Pasi
50. Rawal
51. Salvi
52. Sansi
53. Santia, Satia
54. Sarbhangi
55. Sargara
56. Singiwala
57. Thori, Nayak
58. Tirgar, Tirbanda
59. Turi

Scheduled Tribes

1. Bhil, Bhil Garasia, Dholi Bhil, Dungri Bhil, Dungri Garasia, Mewasi Bhil, Rawal Bhil, Tadvi Bhil, Bhagalia, Bhilala, Pawara, Vasava, Vasave
2. Bhil Mina
3. Damor, Damaria
4. Dhanka, Tadvi, Tataria, Valvi
5. Garasia (excluding Rajput Garasia)
6. Kathodi, Katkari, Dhor Kathodi, Dhor, Katkari Son Kathodi, Son Katkari
7. Kokna, Kokni, Kukna
8. Koli Dhor, Tokre Koli, Kolcha, Kolgha
9. Mina
10. Naikda, Nayaka, Cholivala Nayaka, Kapadia Nayaka, Mota Nayaka, Nana Nayaka
11. Patelia
12. Seharia, Sehria, Sahariya

Language and Mother tongue

As per the census concept, each language is a group of mother tongues. The census questionnaire collects information on the mother tongue of each person and mother tongue is defined as the language spoken in childhood by the person's mother to the person. If the mother died in infancy, the language mainly spoken in the person's home in childhood will be the mother tongue. In the case of infants and deaf mutes, the language usually spoken by the mother is considered as mother tongue. It is not necessary that the language spoken as mother tongue should have a script. The mother tongues returned by the respondents in census are classified and grouped under appropriate languages according to their linguistic characteristics.

Literate

A person age 7 years and above who can both read and write with understanding in any language is taken as literate. A person who can only read but cannot write is not literate. It is not necessary that to be considered as literate, a person should have received any formal education or passed any minimum educational standard. Literacy could also have been achieved through adult literacy classes or through any non-formal educational system. People who are blind and can read in Braille are treated as literates.

Literacy rate

Literacy rate of the population is defined as the percentage of literates in the age group seven years and above. For different age groups the percentage of literates in that age group gives the literacy rate.

Educational level

The highest level of education a person has completed.

Work

Work is defined as participation in any economically productive activity with or without compensation, wages or profit. Such participation may be physical and/or mental in nature. Work involves not only actual work but also includes effective supervision and direction of work. It even includes part time help or unpaid work on farm, family enterprise or in any other economic activity. All persons engaged in 'work' as defined above are workers. Persons who are engaged in cultivation or milk production even solely for domestic consumption are also treated as workers.

Reference period for determining a person as worker and non-worker is one year preceding the date of enumeration.

Main-worker

A person who has worked for major part of the reference period (i.e. six months or more during the last one year preceding the date of enumeration) in any economically productive activity is termed as 'Main worker' .

Marginal worker

A person who worked for less than six months of the reference period (i.e. in the last one year preceding the date of enumeration) in any economic activity is termed as 'Marginal worker' .

Non-worker

A person who has not worked at all in any econom ically productive activity during the reference period (i.e. last one year preceding the date of enumeration) is termed as 'Non worker'.

Cultivator

For purposes of the Census a person is classified as cultivator if he or she is engaged in cultivation on land owned or held from government or held from private persons or institutions for payment in money, kind or share. Cultivation includes effective supervision or direction in cultivation.

A person, who has given out her/his land to another person or persons or institution(s) for cultivation for money, kind or share of crop and who does not even supervise or direct cultivation in exchange of land, is not treated as cultivator. Similarly, a person working on another person's land for wages in cash or kind or a combination of both (agricultural labourer) is not treated as cultivator.

Cultivation involves ploughing, sowing, harvesting and production of cereals and millet crops such as wheat, paddy, jowar, bajra, ragi, etc., and other crops such as sugarcane, tobacco, ground-nuts, tapioca, etc., and pulses, raw jute and kindred fiber crop, cotton, cinchona and other medicinal plants, fruit growing, vegetable growing or keeping orchards or groves, etc. Cultivation does not include the following plantation crops – tea, coffee, rubber, coconut and betel nuts (areca).

Agricultural labourer

A person who works on another person's land for wages in money or kind or share is regarded as an agricultural labourer. She/he has no risk in the cultivation, but merely works on another person's land for wages. An agricultural labourer has no right of lease or contract on land on which she/he works.

Household industry worker

Household industry is defined as an industry conducted by the head of the household herself/himself and or by the members of the household at home or within the village in rural areas and only within the precincts of the house where the household lives in urban areas. The larger proportion of workers in household industry should consist of members of the household including the head. The industry should not be run on the scale of a registered factory which would qualify or has to be registered under the Indian Factories Act and should be engaged in manufacturing, processing, servicing and repairs of goods.

It does not include professions such as a pleader, Doctor, Musician, Dancer, Waterman, Astrologer, Dhobi, Barber, etc. or merely trade or business, even if such professions, trade or services are run at home by members of the household.

Other worker

A person who has been engaged in some economic activity during the reference period but not as a cultivator or agricultural labourer or in Household Industry is termed as a 'Other Worker (OW)'. The type of workers that come under this category of 'OW' include all government servants, municipal employees, teachers, factory workers, plantation workers, those engaged in trade, commerce, business, transport, banking, mining, construction, political or social work, priests, entertainment artists, etc. In effect, all those workers other than cultivators or agricultural labourers or household industry workers, are 'Other Workers'.

Work participation rate

Percentage of workers (main + marginal) to total population.

Population density

Population density is the number of persons inhabited per square kilometre of the area.

Age

Age is measured in terms of the completed number of years

Sex-ratio

Number of females per 1000 males in a population.

(vi) Non Census Concepts

Improved drinking water

If the household had access to drinking water supplied from a tap, hand pump, tube well or well (protected or covered) situated within or outside the premises, it is considered as having access to improved drinking water.

It may be mentioned that such uniform definition may not be valid across all states.

System of Sewerage

Generally, a sewerage system would mean a network of mains and branches of underground conduits for the conveyance of sewerage to the point of disposal. Sewers that carry only household and industrial wastage are called separate sewers; those that carry storm water from roofs, streets and other surfaces are known as storm water drains, while those carrying both sewage and storm water are called combined sewers. However, in some towns which are not provided with such underground sewerage system, it is served by open surface drain, box drain, sylk pattern drain, etc., in these towns.

Type of latrine and Method of disposal of night soil

There are three prevalent systems of disposal of human wastes, viz.(i) underground sewerage, (ii) sanitary water flush latrines with individual disposal systems, like septic tank, leaching cess pool and collecting well, and (iii) dry type of latrines with manual scavenging.

The system of underground sewerage provides for the street sewerage with which are connected the sanitary latrines constructed in the houses having water closets and fitted with flushing cistern (or hand flushing). Through this sewer the faecal matter is transported without the need for scavenging. This system generally exists in cities and big towns.

Fertility

In demography, the word fertility is used in relation to the actual production of children or occurrence of births specially live births. Fertility is a measure of rate at which population adds to itself by births and normally assessed by relating the number of births to a full or part of the population, such as number of married women or number of women of child bearing age. The definitions of the terminology used in computing different fertility rates are mentioned below:

Crude birth rate (CBR)

Ratio of the number of live births in a year to the mid year population, normally expressed per 1,000 population.

$$CBR = \frac{\text{Number of live births during the year}}{\text{Mid-year Population}} \times 1000$$

Crude death rate (CDR)

Ratio of the number of deaths in a year to the mid year population, normally expressed per 1,000 population.

$$CDR = \frac{\text{Number of deaths during the year}}{\text{Mid-year Population}} \times 1000$$

Natural growth rate

Growth rate is obtained as the difference between crude birth rate and crude death rate in the absence of migration.

Age specific fertility rate (ASFR)

Number of live births in a year to female population in any specified age group normally expressed per 1,000 women.

$$ASFR = \frac{\text{Number of live births in a particular age-group}}{\text{Mid-year female population of the same age-group}} \times 1000$$

Age specific marital fertility rate (ASMFR)

Number of live births in a year to married female population in any specified age group normally expressed per 1,000 married women.

$$ASMFR = \frac{\text{Number of live births in a particular age-group}}{\text{Mid-year married female population of the same age-group}} \times 1000$$

General fertility rate (GFR)

Number of live births per 1,000 women in the reproductive age-group (15-49) years in a given year.

$$GFR = \frac{\text{Number of live births in a year}}{\text{Mid-year female population in the age-group (15-49) years}} \times 1000$$

General marital fertility rate (GMFR)

Number of live births per 1,000 married women in reproductive age-group (15-49) years in a given year.

$$GMFR = \frac{\text{Number of live births in a year}}{\text{Mid-year married female population in the age-group (15-49) years.}} \times 1000$$

Total fertility rate (TFR)

It is obtained as the total of the age specific fertility rates (number of children born per woman of the particular age) for the entire reproductive age span. It provides the average number of children that will be born to a woman under the fertility levels indicated by the age specific fertility rates assuming that there is no mortality of women till the completion of reproductive period.

$$5 \times \sum_{45-49} ASFR$$

$$TFR = \frac{15\text{-}19}{1000}$$

Total marital fertility rate (TMFR)

Average number of children that would be born to a married woman if she experiences the current fertility pattern throughout her reproductive span (15-49) years assuming that there is no mortality of women till the completion of reproductive period.

$$TMFR = \frac{5 \times \sum_{15\text{-}19}^{45\text{-}49} ASMFR}{1000}$$

Age-specific mortality rate (ASMR)

Number of deaths in a particular age and sex group per 1,000 population of the same age group.

$$ASMR = \frac{\text{Number of deaths in a particular age-group}}{\text{Mid-year population of the same age-group}} \times 1000$$

q1

Probability of dying between birth and age 1. This can be used as approximate value of Infant Mortality Rate (IMR) which gives the ratio of number of deaths in a year of children aged less than one year to the number of births in that year.

q2

Probability of dying between birth and age 2.

q5

Probability of dying between birth and age 5. This indicator is also known as Under Five Mortality Rate (U5MR)

Infant mortality rate (IMR)

Ratio of the number of infant deaths (deaths of children below one year) in a year to the number of live births in that year.

$$IMR = \frac{\text{Number of infant deaths during the year}}{\text{Number of live births during the year}} \times 1000$$

Infant mortality rate comprises of two parts, viz., Neo-natal mortality rate and Post neo-natal mortality rate. The neo-natal mortality rate also comprises of two parts viz., Early neo-natal mortality rate and late neo-natal mortality rate. These are defined as:

Neo-natal mortality rate (NMR)

Number of infants dying within the first month of life (28 days or under) in a year per 1,000 live births of the same year.

$$NMR = \frac{\text{Number of infant deaths aged 28 days or under during the year}}{\text{Number of live births during the year}} \times 1000$$

Early neo-natal mortality rate

$$= \frac{\text{Number of infant deaths of less than 7 days during the year}}{\text{Number of live births during the year}} \times 1000$$

Late neo-natal mortality rate

$$= \frac{\text{Number of infant deaths of 7 days to less than 29 days during the year}}{\text{Number of live births during the year}} \times 1000$$

Post neo-natal mortality rate (PNMR)

$$= \frac{\text{Number of deaths of 29 days to less than One year during the year}}{\text{Number of live births during the year}} \times 1000$$

Peri-natal mortality rate (PMR)

Number of still births plus deaths within 1st week of delivery per 1,000 births in a year.

$$PMR = \frac{\text{Number of still births and infant deaths of less than 7 days during the year}}{\text{Number of live births and still births during the year}} \times 1000$$

Still birth rate (SBR)

$$= \frac{\text{Number of still births during the year}}{\text{Number of live births and still births during the year}} \times 1000$$

Maternal mortality rate (MMR)

Number of deaths of women in the age group 15-49 while pregnant or within 42 days of termination of pregnancy from any cause related to pregnancy and child birth per 100000 live births in a given year.

$$\text{MMR} = \frac{\text{Number of maternal deaths to women in the agegroup 15-49}}{\text{Number of live birth}} \times 100000$$

Eligible couple (Couples per1000 Population)

Number of currently married females in the age group15-44 years per 1000 persons of all ages.

Child woman ratio (0-4)

1. Number of children in the age group 0-4 years per 1000 women in the age group 15-49 years.

Child woman ratio (5-9)

2. Number of children in the age group 5-9 years per 1000 women in the age group 15-49 years.

Migration

Migration is the third component of population change, the other two being mortality and fertility.

A person is considered as a migrant by place of birth if the place in which he/she is enumerated during the census is other than the place of his/her birth.

Similarly a person is considered as a migrant by place of last residence if the place in which he/she is enumerated during the census is other than his/her place of immediate last residence outside the village or town and not simply in another house or locality in the same village or town.

Certain aspects concerning temporary movement/ migration of people has been explained below as these are important components concerning migration:

(i) Migration of persons in search of job is high in the country. In many cases such migrants are only seasonal in nature. People migrate to other places for work in a particular season and come back again to their usual place of residence after three or four months. All such workers are treated as migrants. Similarly, if a person moved to any other place for attending short term vocational or educational course that lasted for only few months of a year, she/he too were considered as a migrant.

(ii) Where a person had merely gone out to another place or had been shifting from one place to another purely on tour, pilgrimage, visit to hospital for treatment or for temporary business purposes, such persons are not deemed to have had another residence different from the place where she/he or her/his family normally resides. She/he is not considered as migrant.

(iii) A woman temporarily moves into a hospital or to her parents or other relative's house for delivery and if the hospital or the parents/relatives houses is in a place different from usual place of residence, the place where the hospital or parents/relative's house is the place of last residence of the child but not of the mother.

A new response category 'Moved after birth' was added in Census of India 2001 in the question on 'reasons for migration' to bring out additional migration patterns. Natural calamities or distress migration as a reason for migration for last residence migrants included in 1991 Census, is covered under category of 'Others'. The reason for migration has been determined as applicable at the time of migration and not in reference to any point of time after that. For example, if a person had moved from the place of her/his last residence for the purpose of education and subsequently at some point of time got employment there only, the reason for migration would be 'education' and not 'work/employment'.

Internal and International migration

The migrational movements are of three types (i) Migration within the state itself with its components (a) Migration within the district of enumeration (intra district migration) (b) Migration from one district of state to another district of state (inter district migration), (ii) Migration from one state to another State of the

country (inter-state migration), (iii) Migration from one country to another country. The first two streams together constitute internal migration, while the last type of movement is called international migration. The present name of the country, state or district and not the name by which they were known at the time of her/his birth or last residence were recorded.

Rural-Urban components of migration

Rural or Urban status in respect of migrants have been determined as applicable at the time of migration and not with reference to any point of time after that.

The flow of migrants consists of four streams viz. rural to rural, rural to urban, urban to rural and urban to urban.

Civic status of urban units

Civic Status of a town/city is determined on the basis of Civic Administrative authority of the town e.g., Municipal Corporation/Corporation, Municipal Committee/ Municipal council, Municipality etc.

Size class of UA / town

Size-class of UA/Town is based on the population size of the UA/City/Town UAs./Towns with 1,00,000 and above population are classified as Class I UAs. / towns. These Class I UAs./towns are now further sub classified in to seven sub classes namely M1 to M7 depending on the population size of UA/City/ Town. These are M7(5,000,000 and above); M6(2,000,000 to 4,999,999); M5 (1,000,000-1,999,999) M4 (500,000-999,999); M3(300,000-499,999), M2 (200,000-299,999) & M1 (100,000-199,999). Towns with, 50,000 to 99,999 population are classified as Class II towns, 20,000 to 49,999 population are Class III towns, population with 10,000-19,999 are Class IV towns, population with 5000 and 9999 are Class V towns and towns with less than 5000 population are Class VI towns.

Slum area

The Slum Areas (Improvement and Clearance) Act, 1956 which was enacted by the Central Govt. defined slums as a) Areas where buildings are in any respect unfit for human habitation; or b) are by reasons of dilapidation, overcrowding, fault arrangement and design of such buildings, narrowness or faulty arrangement of streets, lack of ventilation, light or sanitation facilities, or any combination of these factors, are detrimental to safety, health or morals.

Mega city

The concept of 'Mega city' is a recent phenomenon in the Urban Sociology and is defined in term of metropolitan city in the form of large size, problem of management of civic amenities and capacity to absorb the relatively high growth of population. Indian Census in 1991 treated the population size of 5 million and above as the cut off point to identify a place as the mega city. Whereas, for the purpose of inclusion in Centrally Sponsored Scheme for Infrastructure Development in Mega cities the Ministry of Urban Affairs and employment, Department of Urban Development adopted the criteria of 4 million and above population as per 1991 Census for Mega Cities. In 2001 Census, cities with 10 millions and above population have been treated as Mega cities.

(vii) 2001 Census finding - population, its distribution

According to the 2001 census, the total population of Dausa district is 1,317,063 comprising 693,438 males and 623,625 females and constituting 2.3 percent of State population and area spread over 1.0 per cent in the 5 tehsils of the district, Dausa tehsil is most populous tehsil having population 333,508 while Mahwa is the smallest tehsils having a population of 208,846 persons. Other tehsils in order of their population size are Baswa (283,311), Lalsot (279,619), and Sikrai (211,779).

Out of the total population of the district 89.7 per cent lives in rural areas while 10.3 per cent lives in urban areas. The corresponding proportions in rural and urban areas of the State are 76.6 per cent and 23.4 per cent respectively.

(viii) Brief analysis of PCA data based on inset tables 1 to 36 :

TABLE 1 : DECADAL CHANGE IN POPULATION OF TEHSILS BY RESIDENCE, 1991-2001

Sl. No.	Tehsil	Population						Percentage decadal variation 1991-2001			Percentage urban population	
		1991			2001						1991	2001
		Total	Rural	Urban	Total	Rural	Urban	Total	Rural	Urban		
1	2	3	4	5	6	7	8	9	10	11	12	13
1	Baswa	219,084	186,479	32,605	283,311	267,016	16,295	29.3	43.2	-50.0	14.9	5.8
2	Mahwa	159,775	146,684	13,091	208,846	179,173	29,673	30.7	22.1	126.7	8.2	14.2
3	Sikrai	160,624	160,624	0	211,779	211,779	0	31.8	31.8	0.0	0.0	0.0
4	Dausa	246,534	207,958	38,576	333,508	271,907	61,601	35.3	30.8	59.7	15.6	18.5
5	Lalsot	208,414	187,439	20,975	279,619	251,370	28,249	34.2	34.1	34.7	10.1	10.1
	District Total	**994,431**	**889,184**	**105,247**	**1,317,063**	**1,181,245**	**135,818**	**32.4**	**32.8**	**29.0**	**10.6**	**10.3**

The district has registered a percentage decadal variation of 32.4 during the decade 1991-2001. The rural areas of the district has attained a higher decadal variation of 32.8 per cent as compared to that of urban area at 29.0 per cent. At tehsil level, it varies from the lowest of 29.3 per cent in Baswa tehsil to a maximum of 35.3 per cent in Dausa tehsil in total areas.

There is a decline in the percentage of urban population to total population from 10.6 in 1991 to 10.3 in 2001. All the tehsils have registered the same trend as that of district whose percentage of urban population has declined from 1991 to 2001 except in Dausa tehsil where it has increased from 15.6 per cent in 1991 to 18.5 per cent in 2001.

TABLE 2 : NUMBER AND PERCENTAGE OF INHABITED VILLAGES IN SPECIFIED POPULATION SIZE RANGES WITH THE RELATED POPULATION, 2001

	Districts (Rural) Total	**188,375**	**169,874**	**13 (1.3)**	**43,193**	**38,738**	**7 (0.7)**	**46,559**	**42,479**

Of the total 1058 villages, 1025 are inhabited villages. Lalsot Panchayat Samiti has the highest number of villages i.e. 300 where as Sikrai Panchayat Samiti with lowest of 139 villages. Dausa Panchayat Samiti is the most populous with 271,907 persons while Mahwa is the least populous Panchayat Samiti with a population of 179,173 persons. The maximum number of villages i.e.299 are those which lie in the population range of 500-999. It is followed by (249) 25.1 per cent of the inhabited villages, which have population range of 1000-1999. As regards to large size villages in the district, 13 are such which lie in the population range of 5000-9999 and 7 are such which have population more than 10000. In case of small size villages i.e. having population less than 500, such villages are 330

TABLE 3 : NEW TOWNS, DENOTIFIED, DECLASSIFIED AND MERGED TOWNS IN 2001 CENSUS

	Name of Towns
(a) New	
(i) Statutory town	Nil
(ii) Census town	1. Mandawar
(b) Denotified	
(i) Statutory towns of 1991 census denotified and also did not satisfy the criteria to be treated as census towns	1.Baswa
(ii) Statutory towns of 1991 census denotified but identified as census towns based on demographic and economic criteria	Nil
(iii) Census towns of 1991 census are notified as statutory town in 2001 census	Nil
(c) Declassified*	Nil
(d) Wholly merged with other town (s)	Nil

* Declassified means the census towns of 1991 census which failed to satisfy the demographic and economic criteria.

Mandawar (CT) has emerged in 2001, and Baswa Town has denotified. No any town has merged.

TABLE 4 : DISTRIBUTION OF VILLAGES BY POPULATION DENSITY, 2001

Range of population density (per square kilometer)	Total number of villages in each population density range	Percentage of villages in each population density range	Population	Percentage distribution of population
1	2	3	4	5
0-10	3	0.3	34	0.0
11-20	3	0.3	127	0.0
21-50	17	1.7	1,765	0.1
51-100	27	2.6	9,605	0.8
101-200	160	15.6	85,162	7.2
201-300	249	24.3	224,358	19.0
301-500	355	34.6	438,919	37.2
501 +	211	20.6	421,275	35.7
Not known	0	0.0	0	0.0
District Total	**1,025**	**100.0**	**1,181,245**	**100.0**

Population Density (Rural) of the district: 348.0

The density of population of the rural areas of the district is 348. Of the total number of inhabited villages i.e. 1025 in the district, 34.6 per cent have population density ranging from 301 to 500, followed by 24.3 per cent in the range of 201-300. Apart from these 23 villages have population density upto 50.

TABLE 5 : SEX RATIO OF STATE AND DISTRICT, 1901-2001

Census year	State			District		
	Total	Rural	Urban	Total	Rural	Urban
1	2	3	4	5	6	7
1901	905	898	947	898	893	976
1911	908	904	936	906	902	981
1921	896	896	897	878	875	923
1931	907	906	903	891	889	924
1941	906	907	897	908	906	940
1951	921	919	928	905	901	941
1961	908	913	882	889	890	860
1971	911	919	875	888	889	856
1981	919	930	877	895	897	871
1991	910	919	879	884	885	877
2001	**921**	**930**	**890**	**899**	**900**	**890**

Note: Sex ratio has been defined here as the number of females per 1000 males.

The district has witnessed a fluctuating trend in sex ratio since 1901. From 898 in 1901 it increased to 906 in 1911. It then decreased to 878 in 1921 and again increased to 891 in 1931 and so forth. During the last decade i.e. 1991-2001 it has increased from 884 in 1991 to 899 in 2001.

In comparison to rural areas of the district the sex ratio in urban areas has been higher upto 1951. From 1961 to 2001, the sex ratio in rural areas has been higher than that of in urban areas. The district has always registered lower sex ratio as compared to that of State since 1901 to 2001 except in 1941.

TABLE 6 : SEX RATIO BY TEHSILS, 2001

Sl. No.	Name of Tehsil	Sex ratio		
		Total	Rural	Urban
1	2	3	4	5
1	Baswa	898	899	878
2	Mahwa	874	872	884
3	Sikrai	899	899	0
4	Dausa	902	907	878
5	Lalsot	917	916	932
	District Total	**899**	**900**	**890**

The district has registered a sex ratio of 899 in 2001. Where as for rural and urban areas it is 900 and 890 respectively. At the tehsil level, the highest sex ratio of 917 has been registered by Lalsot tehsil and the lowest of 874 by Mahwa tehsil for total and rural areas. In case of urban areas the highest sex ratio of 932 has been attained by Lalsot tehsil and the lowest of 878 each in Baswa tehsil and Dausa tehsil respectively.

TABLE 7 : SEX RATIO BY PANCHAYAT SAMITIES, 2001

Sl. No.	Name of Panchayat Samiti	Sex ratio
1	2	3
1	Bandikui	899
2	Mahwa	872
3	Sikrai	899
4	Dausa	907
5	Lalsot	916
District (Rural) Total		**900**

At the (Panchayat Samiti) level the highest sex ratio of 916 has been registered by Lalsot Panchayat Samiti and the lowest of 872 by Mahwa Panchayat Samiti.

TABLE 8 : SEX RATIO OF RURAL POPULATION BY RANGES, 2001

Range of sex ratio for villages	Number of inhabited villages	Percentage of villages in each range	Population 2001	Percentage distribution of population
1	2	3	4	5
Less than 700	13	1.3	657	0.1
700-749	17	1.7	4,501	0.4
750-799	38	3.7	17,495	1.5
800-849	137	13.4	122,254	10.3
850-899	305	29.8	430,614	36.5
900-949	293	28.6	453,610	38.4
950-999	132	12.9	124,852	10.6
1000-1099	60	5.9	23,211	2.0
1100+	30	2.9	4,051	0.3
District Total	**1,025**	**100.0**	**1,181,245**	**100.0**

Sex ratio (Rural) for District:900

Of the total number of inhabited villages (1025), the maximum numbers of 305(29.8 Percent) villages have sex ratio ranging from 850 to 899 followed by 293 (28.6 per cent) having sex ratio in the range 900-949. It is significant to note that 90 villages are such which have sex ratio favourable to female's i.e. 1000 or more in the district.

TABLE 9 : SEX RATIO OF URBAN AGGLOMERATIONS/TOWNS, 2001

Sl. No.	Name of U.A.^/Town+*	Urban status of town	Sex ratio
1	2	3	4
1	Bandikui	M	878
2	Dausa	M	878
3	Lalsot	M	932
4	Mahwa	CT	892
5	Mandawar	CT	871
Sex ratio (Urban) for the district			**890**

\+ To be arranged in alphabetical order.
^ The names of constituent units of U.A. are given seperately.
* In case of the towns having outgrowth an asterisk mark should be placed against their names to indicate that they have outgrowths which are not separate towns.

The sex ratio in the towns of Dausa district varies from the highest of 932 in Lalsot (M) to the lowest of 871 in Mandawar (CT).

TABLE 10 : SEX RATIO OF POPULATION IN THE AGE GROUP 0-6 FOR TEHSILS, 2001

Sl. No.	Name of Tehsil	Total/ Rural/ Urban	Total population in 0-6 age group			Sex ratio for 0-6 age
			Persons	Males	Females	
1	2	3	4	5	6	7
1	Baswa	Total	54,780	28,808	25,972	902

District (Rural) Total	**1,025**	**100.0**	**241,998**	**100.0**

Sex ratio (Rural) for District: 908

Of the total inhabited villages (1025) of the district 47.5 per cent are such which have sex ratio below 900. Even among them 101 and 51 villages have sex ratio less than 700 and 700 to 749 respectively. It is significant to note that more than one fourth (30.1 per cent) of the total inhabited villages have sex ratios favouring females i.e. 1000 or more. Among them 94 villages have sex ratios even more than 1100.

The district has registered a literacy rate of 61.8 per cent in 2001. As regards to rural and urban areas of the district the literacy rates have been registered as 60.1 per cent and 76.0 per cent respectively. The gap in the male/female literacy rates has been 37.0 per cent point as it is 79.4 per cent and 42.3 per cent for males and females respectively. Fairly high literacy rates of 78.2 per cent and 88.9 per cent have been recorded by males in the rural and urban areas respectively. Similarly females have recorded literacy rates of 40.0 per cent and 61.6 per cent in rural and urban areas of the district respectively. At tehsil level, the literacy rate varies from 66.6 per cent in Baswa tehsil to 54.9 per cent in Lalsot tehsil.

TABLE 22 : NUMBER AND PERCENTAGE OF LITERATES AND ILLITERATES BY SEX IN PANCHAYAT SAMITIES, 2001

\+ To be arranged in alphabetical order
^ The names of constituent units of U.A.are given separately
* In case of towns having outgrowth an asterisk mark should be placed against their names to indicate that they have outgrowths which are not separate towns.

In contrast to the rural areas of the district only 27.2 per cent of the urban population are as workers (main + marginal). Apart from this much variation is also seen in the percentage of male and female workers, which are 43.7 and 8.8 respectively. Among the towns, the percentage of workers varies from 31.7 in Mandawar (CT) to 24.8 in Bandikui (M).

Note : Percent of worker to total worker are given in brackets.

Cultivators are the main working force in the district as they form 66.8 per cent of total workers. It is followed by other workers (23.7 per cent), agricultural labourers (6.6 per cent) etc. Females (23,638) outnumber males (12,391) as Agricultural laborers. Much variations in the percentages of male workers (35.2) and female workers (7.5) classified as other workers is seen in the district.

At tehsil level, the percentage of cultivators to total workers varies from 74.2 in Sikrai tehsil followed by 71.8 in Lalsot tehsil to 59.8 in Mahwa tehsil. For Household Industry workers, it varies from 4.7 per cent in Dausa tehsil to 1.7 per cent in Sikrai tehsil. In case of 'other workers' the highest percentage of 27.6 has been registered by Dausa tehsil while the lowest of 18.2 per cent in Sikrai tehsil.

Note : Percent of Worker to total worker are given in brackets

Less than half i.e. 42.8 per cent of the total rural population of the district is engaged in economic activities being workers. Of the total workers, most are engaged in agricultural activities i.e. 71.0 per cent are as cultivators and 7.0 per cent as agricultural labourers. Only 2.4 per cent of the workers are engaged in household industries whereas the significantly 19.6 per cent in other works.

The percentage of workers as "other workers" is higher than that of Agricultural laborers in all the panchayat samiti.

Sex wise, percentage of male workers is higher than female workers in economy categories of household industry workers and other workers and lower in cultivators and agricultural laborers. The percentage of Male and female workers as cultivators is 63.6 and 80.7 and in agricultural laborers it is 4.2 and 10.6 respectively at the district level.

\+ To be arranged in alphabetical order ^ The names of constituent units of U.A.are given separately

* In case of towns having outgrowth an asterisk mark should be placed against their names to indicate that they have outgrowths which are not separate towns.

The percentage of workers to total population of urban areas is significantly quite low being only 27.2 per cent as compared to that of rural areas of the district being 42.8 per cent. Majority of the workers i.e. 80.8 per cent one as other workers followed by cultivators (8.8 per cent).

Almost similar trend is visible in all the municipal towns except in Mandawar (CT) where the percentage of household industry workers is higher than that of agricultural labourers .

Sex wise percentage of male workers as other workers is 87.2 where as it is 45.0 per cent for female workers. On the other hand, percentage of female cultivators (27.1 per cent) is much higher than that of male cultivator's (5.5) at the district level for urban areas.

Note : - Percentages are given in brackets.

* Based on the improved drinking water source, drinking water supply has been classified as 'Improved ' or otherwise. If the household has access to drinking water supplied from a tap or a hand pump / tube well situated within or outside the premises it is considered as having access to 'Improved drinking water source'. However, the concept of improved drinking water is state specific and this is to be considered accordingly.

Post office includes Post office, telegraph office and Post and telegraph office.

$ Transport communication includes bus service, rail facility and navigable waterways.

Of the total (1025) inhabited villages, 877 (85.6 per cent) have educational facilities. In case of medical amenities only 21.2 per cent of inhabited villages have such amenities. A significant number i.e. 1006 (98.1 percent) villages have improved drinking water amenities. In the communication field only 19.6 per cent of villages have post office facilities while 30.5 per cent have telephone facilities. In the banking field the picture is gloomy as only 51 (5.0 per cent) villages have banks. More than 50 percent i.e. (517) are linked with pucca approach roads whereas 89.7 per cent have power supply.

At Panchayat Samiti level, Sikrai and Bandikui Panchayat samities have the higher percentage i.e. 92.8 and 92.4 of villages respectively having educational facilities. For medical amenities it is Mahwa Panchayat samiti , which has the highest percentage of villages having such amenities (29.6). Much variation is seen among the Panchayat samiti having telephone facilities. Mahwa Panchayat samiti has the highest percentage of villages i.e. 45.4, which have telephone facilities whereas Lalsot has the minimum percentage of 19.3 for such facility. Bandikui Panchayat Samiti has the 99.5 percent villages having power supply.

Note: Percentages are given in brackets.

* Based on the improved drinking water source, drinking water supply has been classified as 'Improved' or otherwise. If the household has access to drinking water supplied from a tap or a hand pump/tube well situated within or outside the premises it is considered as having access to 'Improved drinking water source'. However, the concept of improved drinking water is state specific and this is to be considered accordingly.

\# Post office includes Post office, telegraph office and Post and telegraph office.

$ Transport communication includes bus service, rail facility and navigable waterways.

Almost entire (97.5 per cent) rural population of the district is being served by educational amenities. It varies from 99.0 per cent in Sikrai Panchayat Samiti to 96.2 per cent in Mahwa Panchayat Samiti. The highest percentage (52.7) of population availing medical amenities has been found in Dausa Panchayat Samiti while lowest of 40.5 in Lalsot Panchayat Samiti. Sikari Panchayat Samiti at the top where cent percent of the population has access to improved drinking water while Dausa Panchayat Samiti is at the bottom with 98.6 per cent. Dausa Panchayat Samiti is in the forefront in the field by telephone facilities where 66.3 per cent of the population has been served by this facility while Sikrai Panchayat Samiti is at bottom with 43.4 per cent. Only 20.7 per cent of the rural population is being served with banking facilities whereas 95.5 per cent have access to power supply. Hundred percent of the population of Bandikui Panchayat Samiti is being served with power supply.

TABLE 39 : DISTRIBUTION OF VILLAGES NOT HAVING CERTAIN AMENITIES, ARRANGED BY DISTANCE RANGES FROM THE PLACES WHERE THESE ARE AVAILABLE, 2001

Village not having the amenity of	Distance range of place from the villages where the amenity is available			
	Less than 5 kilometres	5-10 kilometres	10+ kilometres	Total (Col. 2 - 4)
1	2	3	4	5
1. Education :-

$ Transport communication includes bus service, rail facility and navigable waterways.
* Based on the improved drinking water source, drinking water supply has been classified as 'Improved ' or otherwise. If the household has access to drinking water supplied from a tap or a hand pump / tube well situated within or outside the premises it is considered as having access to 'Improved drinking water source'. However, the concept of improved drinking water is state specific and this is to be considered accordingly.

Of the total inhabited village's (1025), majority (330) of them have population range of 1 - 499. It is followed by 299 villages in the range of 500-999. There are 13 and 7 such villages, which have population range of 5000-9999 and 10000+ respectively. As the size of villages increases the type of amenities one being available to majority if the village. All the amenities are available to almost all the villages in the population range of 5000 - 9999 and 10,000 +. While in case of small size villages e.g. in the range of 1 - 499 , though educational amenity is available to 189 villages of the total 330, medical, post office, Banks etc. are available to only 7, 9 and 1 villages respectively.

TABLE 42 : DISTRIBUTION OF VILLAGES ACCORDING TO LAND USE, 2001

Sl. No.	Name of Panchayat Samiti	Number of inhabited villages	Total area	Percentage of cultivable area to total area	Percentage of irrigated area to total cultivable area
1	2	3	4	5	6
1	Bandikui	211	63,317	64.7	59.3
2	Mahwa	152	46,786	79.5	64.4
3	Sikrai	139	50,993	71.5	71.2
4	Dausa	223	89,874	65.2	51.0
5	Lalsot	300	85,633	66.5	71.6
	District Total	**1,025**	**336,603**	**68.4**	**62.9**

Note : Cultivable area =irrigated area+ unirrigated area

Of the total rural area of the district (of inhabited villages) 68.4 per cent is cultivable. Apart from this 62.9 per cent of the total cultivable area is being irrigated. At the panchayat samiti level the highest percentage of cultivable area to total area is found at 79.5 per cent in Mahwa Panchayat Samiti followed by 71.5 per cent in Sikrai and the lowest of 64.7 per cent ib Bandikui Panchayat Samiti. As regards to irrigated area, the highest percentage of 71.6 is found in Lalsot Panchayat Samiti whereas 51.0 in Dausa Panchayat Samiti.

TABLE 43 : PER CAPITA RECEIPT AND EXPENDITURE IN STATUTORY TOWNS

Sl. No.	Class, name and urban status of the Town+	Per capita receipt			Per capita expenditure					
		Total	Through taxes	From all other sources	Total	General Administration	Public health and conveniences	Public works	Public institutions	Other(s)
1	2	3	4	5	6	7	8	9	10	11
1	IV Bandikui (M)	615.0	142.0	473.0	623.0	445.0	4.0	147.0	1.0	26.0
2	II Dausa (M)	415.0	232.0	183.0	420.0	91.0	86.0	32.0	0.0	211.0
3	III Lalsot (M)	535.0	165.0	370.0	535.0	40.0	94.0	0.0	0.0	401.0
	District Total	478.0	200.0	277.0	482.0	132.0	76.0	41.0	0.0	233.0

+ To be arranged in alphabetical order. Town has exclude OG's.

The per capita receipt by the statutory towns of the district amounts to Rs.478.0. Of this, Rs.200.0 is being received through taxes and the remaining Rs.277.0 from all other sources. The highest per capita of Rs.615.0 has been attained by Bandikui (M) followed by Rs.535.0 by Lalsot (M). The lowest per capita receipt of Rs.415.0 has been registered by Dausa(M).

TABLE 44 : SCHOOLS/COLLEGES PER 10,000 POPULATION IN STATUTORY TOWNS, 2001

Sl. No.	Name and urban status of Town	Type of educational institution				
		Primary	Junior Secondary/ Middle	Secondary/ Matriculation	Senior Secondary	College
1	2	3	4	5	6	7
1	Bandikui (M)	7.4	6.8	2.5	1.8	0.6
2	Dausa (M)	4.9	2.4	1.9	1.0	0.3
3	Lalsot (M)	8.5	2.1	1.4	1.4	0.4
	District Total	**6.2**	**3.0**	**1.9**	**1.2**	**0.4**

+ To be arranged in alphabetical order.

The number of primary, middle and secondary schools per 10,000 of population is 6.2, 3.0 and 1.9 respectively. As regards to senior secondary and college, this number is 1.2 and 0.4 respectively. At the town level, the maximum number of primary schools per 10,000 population is found in Lalsot(M) at 8.5 followed by Bandikui (M)(7.4). It varies from the highest number of middle schools per 10000 population at 6.8 in Bandikui(M) to a lowest of 2.1 in Lalsot(M). As regards to colleges, the highest number i.e. 0.6 is found inBandikui (M), whereas the lowest number 0.3 has been recorded in Dausa(M).

TABLE 45 : NUMBER OF BEDS IN MEDICAL INSTITUTIONS IN TOWNS, 2001

Sl. No.	Name and urban status of the Town+	Number of beds in medical institutions per 10,000 population
1	2	3
1	Bandikui(M)	33
2	Dausa(M)	41
3	Lalsot(M)	16
4	Mahwa(CT)	10
5	Mandawar(CT)	30
	Distrct Total	**30**

+To be arranged in alphabetical order.

The number of beds in medical institutions in towns per 10000 population is found to be only 30. The highest number of beds per 10000 population is recorded at 41 in Dausa (M) followed by Bandikui (M) 33, Mandawar (CT) 30 etc. It is found the lowest at 10 in Mahwa (CT).

TABLE 46 : PROPORTION OF SLUM POPULATION IN TOWNS, 2001

Sl. No.	Name of the Town+	Total population	Slum population	Percentage of slum population to total population
1	2	3	4	5
1	Dausa	61,601	819	1.3
2	Lalsot	28,249	1,868	6.6
	District Total	**89,850**	**2,687**	**3.0**

+ To be arranged in alphabetical order.

Only 3.0 percent of urban population of two town of the district lives in slums. At the town level it varies from a maximum of 6.6 per cent in Lalsot (M) to a lowest of 1.3 per cent each in Dausa (M).

TABLE 47 : MOST IMPORTANT COMMODITY EXPORTED OUT OF AND MANUFACTURED IN TOWNS, 2001

Sl. No.	Name and urban status of Town+	Most important commodity	
		Manufactured	Exported
1	2	3	4
1	Bandikui (M)	Oil Soap Slate	Wheat Mustard Bajra
2	Dausa (M)	Earthen Tawa Statues Soap Stone	Marble Statues Soap Stone Earthen Pot
3	Lalsot (M)	Bidi Musterd Oil Leather Shoes	Bidi Groundnut Oil Bricks
4	Mahwa (CT)	Earthen Pots Cement Pipes	Cement Pipes Earthen Pots Sweets
5	Mandawar (CT)	Iron Net Soap Lime	Lime Soap Iron Fabrication

+ To be arranged in alphabetical order.

Oil, Soap and Slate etc. are mainly manufactured in Badikui (M), Earthen Pot Eathen Tawa are mainly manufactured in Dausa (M) and Mahwa (CT). Besides it, Statues and Soap Stone are also manufactured in Dausa(M).Other commodities being manufactured in various towns are - Lime, cement pipes, Leather Shoes, Iron Net etc.

Staple food, which include Wheat Mustard Bajra etc are the main commodities being exported from various towns. Apart from these, Earthen Pot are the other main commodity being exported from various towns of Dausa district. Marble Statues is also exported from the Dausa(M), Bidi is also exported from Lalsot (M) beside it Cement pipes is exported from Mahwa (M).

Data source: Census of India 2001, H-series: “Tables on Houses, Household amenities and Assets.”

Note:

Permanent: 1. Permanent houses referrs to those houses whose wall and roofs are made of pucca materials I.e. where, burnt bricks, G.I. Sheets or other metal sheets, stone cement concrete is used for wall and tiles slate, shingle, corrugated iron, zinc or

Semi-permanent: 2. Semi-permanent houses refer to those houses made of other types of materials.

Temporary: 3. Temporary houses refers to those houses having wall and roofs made of Kutcha materials I.e. where grass, leaves, reeds, bamboo mud, unburnt bricks are used for the construction of walls and grass, leaves reeds, bamboo hatch, mud, unburnt bricks, wood etc. are used for roof.

Of the total number of households 150,152 are living in permanent, 19,157 in semi permanent and 24,922 in temporary houses. At the tehsil level, the maximum number of households 36,827 (24.5 per cent) living in permanent houses is in Dausa tehsil, whereas the minimum of 24,313 (16.2 per cent) has been found in Lalsot tehsil. In the rural areas of the district, the maximum number of households 32,309 (24.9 per cent) living in permanent houses has been found in Baswa tehsil whereas the lowest of 20,631 (15.9 per cent) households in Lalsot tehsil. In the urban areas the maximum 9,227(45.6 per cent) and the minimum 2,751(13.6 per cent) number of households living in permanent houses has been recorded in Dausa and Baswa tehsils respectively.

Data source: Census of India 2001, H-series: "Tables on Houses, Household amenities and Assets."

*Based on the improved drinking water source, drinking water supply has been classified as 'Improved' or otherwise. If the household has access to drinking water supplied from a tap or a hand pump/tube well situated within or outside the premises it is considered as having access to 'Improved drinking water source'. However, the concept of improved drinking water is state specific and this is to be considered accordingly.

Note : Percentage is to be given in brackets after the number of households.

Bathroom means bathroom within the house. Toilet means toilet within the house. Drainage means closed and open drainage.

(i) Improved drinking water : Majority of the households i.e. 56.7 per cent have drinking water facility in the district. For rural and urban areas, these percentages are 52.6 and 90.4 respectively. At tehsil level, for rural and urban areas, the highest percentage of 58.8 and 98.9 per cent of households availing this facility has been found in Baswa tehsil.

(ii) Electricity : Less than 50 per cent i.e. 44.5 per cent of households are using electricity. However there is much wide gap in the percentage of households using electricity in the rural (39.2 per cent) and urban (87.5 per cent) areas of the district. At tehsil level it varies from a maximum of 55.6 per cent to a minimum of 32.5 per cent of households using electricity.

(iii) Bathroom : Only 14.1 per cent of the households have bathrooms in the district. Here too much wider gap is seen in the percentage of households having bathroom in rural and urban areas, as these are 8.7 per cent and 58.1 per cent respectively. Similar trend is seen in all the tehsils of the district.

(iv) Toilet : In case of toilets, the picture is not so good especially in rural areas of the district. Only 8.8 per cent of households of the rural areas have toilet facility as against 67.8 per cent in the urban areas. The highest percentage (20.5) of households having toilet facility is found in Dausa tehsil whereas the lowest of 8.2 per cent in Sikrai tehsil.

(v) Drainage : Again, in case of use of drainage, the position is somewhat better than for toilets as 27.8 per cent of households have drainage in the houses. In rural areas of the district,21.6 per cent of households have drainage systems as against 77.7 per cent in urban areas.

Data source : Census of India 2001, H- Series : "Table on Houses, Household amenities and Assests". Percentage in brackets.

Majority of the households (64.3 per cent) of the district is using firewood as fuel followed by crop residue (19.8 per cent), cooking gas (9.1 per cent), Cow dung coke (5.2 per cent). In the rural and urban areas of the district, much deviation is seen in the percentage of households using fire wood and cooking gas as 67.5 per cent and 4.4 per cent of households of rural areas are using these respectively in comparison of 38.1 per cent and 47.3 per cent of urban areas respectively. Similar trend is seen at tehsil level also.

		Urban	4,088	1,097	1,242	1,705	421	1,134	577	145	1,551

Data source : Census of India 2001, H-series: "Tables on Houses, Household Amenities and Assets."

(i) Banking services : Only 23.1 per cent of the total household's (194,259) are availing Banking services whereas in rural and urban areas this percentage is 20.8 and 42.0 respectively. At tehsil level, the highest number of households (47,636) availing this facility has been found in Dausa tehsil, while the lowest (32,109) in Mahwa tehsil.

(ii) Radio/Transistor : Of the total household's (194,259) of the district, 30.6 per cent are in possession of Radio/Transistor. Similarly in rural and urban areas of the district, the percentage of households having radio/transistor is 30.0 and 35.6 per cent respectively.

(iii) Television : In case of Television, the percentage of households possessing it is much higher

i.e. 57.5 in urban areas than that of in rural areas at 16.3 per cent only.

(iv) Telephone : Only 4.2 per cent of the total household's (194,259) of the district have telephones. The gap is much wider in rural and urban areas of the district where 2.6 per cent and 17.8 per cent of their respective total households have telephones respectively.

(v) Auto mobiles : In case of two wheelers, only 9.4 per cent of the households have either motor cycle or scooter or moped. For rural and urban areas these percentage are 7.8 and 22.3 respectively. In rural areas 1.5 per cent of households have four wheelers where in urban areas 4.3 per cent of households have four wheelers.

It is very significant that less than half of the households i.e. 42.1 per cent do not have any of the specified assets. In rural areas this percentage is even higher i.e. 44.2 as compared to that of in urban areas at 25.1.

(xi)Other Developmental Activities

For the development of rural areas the District Rural Authority (D.R.D.A.) has been established under the department of special schemes and Integrated Rural Development on the basis of local resources and geographical conditions. The families living below the poverty line are being provided with employment by eradication lack of resources and unemployment by this authority. Many schemes are being executed for rural development under the eradication of poverty program schemes the main achievements in the district during the year 1999-2000 are given below:

Swarn Jayanti Gram Swarojgar Yojana

Under this scheme 992 families were benefited out of which 187 scheduled castes and 319 scheduled tribes families. All families were provided with Rs.223.41 Lac as loan and Rs.80.56 Lac as Grant in the referent year.

Jawahar Gram Smridhi Yojana

The objective of this scheme is to develop basic infra structural facilities in the Rural areas to generate employment avenues to the poor for their livelihood through community assets. In referent year 3.33 Lac mandays were created and an amount of Rs.266.31 was spent. 335 Scheduled Castes and 359 Scheduled Tribe families were benefited to provide them Indira Avas.

Swarann jayanti Urban Rojgar Yojana

Under this scheme employment is provided to unemployed persons living in urban areas. During the year 1999-2000, self-employment was given to 133 persons on which an amount of Rs.2.60 Lac was spent. Under Wages (Vatnic) Rojgar Scheme 79841 man days were created and an amount of Rs.120.50 Lac was spent.

Sansad Kshetria Vikash Yojana Kosh

Under this scheme a Member of Parliament can recommended constructional works to the tune of Rs.2 Crores for the development in his constituency in a year to District Collector. In the referent year only two works were completed and an amount of Rs.10.56 Lac was spent in the district.

Besides these schemes in the districts various schemes executed by the social welfare Department, Dairy Development Schemes, Bio-gas Scheme, Scheme related to Women & Child Development, Drinking Water (Safe) Schemes etc. are being executed during the year 1999-2000 in the district.

Social and Cultural Activities

The people of the district, as in other parts of the state enjoy a number of fairs & festivals. Besides the festivals of Dipawali, Moharrum, Dushehra, Holi and Raksha Bandhan, observed in almost all the parts of the state, local festivals like Teej, Gangaur, Basant Panchmi, Maha Shiv Ratri, Ganesh Chaturthi, Shitla Aashthmi and Janmashthmi etc are celebrated in a sprit of great devotion and enthusiasm.

The fairs have significant importance in district. The people are of religious sprit with Teej & Gangaur, other traditional fairs are also being observed. These fairs are continuing for 3 to 4 days.

The Basant Panchmi fair of Dausa is alive with its old folk culture and is very popular fair. It called "Lakhi Mela". Mahadev Mela of Kolva, Beejasani Mata Mela of Khurra, Bawri Balaji Mela of Bhandarej, Heeeramal Mela of Khawa Rao Ji, Peeplaj Mela near Rahuwas and animal fair of manpur and Gangaur can be seen of this area in these festivals. The music competition

festival held on the eve of Gangaur festival at Lalsot in very popular program. Peoples are visiting from distance places to see "Hela Khayal" presentation, which is based on folk culture. Similarly on Shitla Ashtimi a music competition is arranged at Dausa.

(xii) Brief description of places of religious, historical or archaeological importance in village and places of tourist interest in the towns of the district:

Following places are of great interest in the district:

Dausa district has significance for its cultural values, religious faith, traditional fairs and fold music. All the religious places are not for mutual co-ordination, feternity, secularistic and tolerance. This land was always a place of devotion for sadhus, saints, social workers and politicians.

Dausa has a long tradition of scholars and traditions for this reason it has an importance. The entire area is full of ancient worship places, samadhies, chhatries and forts. This land of Dhoondhar is full of Jewels of History, Culture, Art & religion. It is the area where important decisions were took place on the edge of sword between Meenas, Badegujars, Chauhans and Kachhawahas.

The great saint Dadu Dayal has started saint tradition in this area. On the advice of Daduji, Saint Jagjivan Das Maharaj choose Talhari as his land of meditation. Badshah Akbar has constructed a three chowk palace in Talhari on the eve of fulfillment of his desire of son's birth.

Ghata Mehandipur

From 24 kilometer away from Bandikui railway station beautiful place of "Ghata Mehandipur" is situated between two hillocks in the district. In the temple of Mehandipur Balaji, the idols of Balaji Maharaj, Pretraj Sarkar & Kotwal Kaptan (Bhaironji) etc gods are mainly worshipped. Due to heavy rush of devotees this place become a place of Dharamshalas.

The idol of Balaji has an amazing power even in today's scientific era the treatment of ghost, epilepsy, paralysis, insanity and madness etc being cured here without any medicine.

Similarly, in this area Balaji of Binori, and Moroli Hanumanji temple are very much popular. Apart from Neelkanth, Somnath, Sahajnath, Gupteshwar, Raghunathji, Durga Mata, Chhoth Mata temples in Dausa, the Jain Temples & Dargah of Soofi Saint Jamal Saheb are famous religious places. In Lalsot there is 800 years old temples of old Gopinathji and Jugalkishorji and 500 years old temple of Hanumanji of Purana Ghat. Apart from these, there are big temples of Ganeshji, Gangaji, Girdharji, Dwarikadhish ji, and Lakshmi Narainji, old Jain Temples are also found here. Lalsot is called as "Town of fifty two temples".

(xiii) Major characteristics of the district contribution of the district in the form of any historical figure associated with the district:

Shri Daya Ram Sahni, the Chief of Jaipur State Archaeology Department has found ruins of some important Hindu Gods & Goddess, which were 40-50 in numbers. Crocodile design water supply pipes and quadrangular pillars were also found here which were interestingly decorated. It may possible that they might have been a part of any temple, which is now not in existence. He is of the view that tomb & pillars of Somnath Temple are also very old.

Some stone sculpture made of Chandragupt period art tradition, are worshipped in "Mataji Ka Mandir" - one sculpture of "Surya" is very attractive and safe. "Gomukhi Jharna" of Jhajhiran Temple, "Medha Ka Madla Kua Jharna" Place of Khawaraoji, and canon roar near Dausa fort Towers are of significant importance.

Abhaneri

The famous Abhaneri village is situated at 5 km in southeast from Bandikui panchayat samiti headquarter of district, which was capital of Nikumbha Rajputs prior to Alwar. This village is known for its culture and archaeological importance. In this village a temple called "Harshad Mata Ka Mandir" is situated. In this temple a sculpture of standing Durgaji is found. Abhaneri is famous for its significant art. Chand Bawri near temple is live living sample of it. The construction of Chand Bawri & Harshad Mata Mandir was done probably in eighth century by King Chandra. The name of this Bawri is derived from King Chandra.

Baswa

Baswa is tehsil headquarter and situated on Delhi-Ahmedabad railway line. It is said that after wounded in Khanwa war Rana Sangha took rest in Baswa in 1527. In remembrance of it dais was built near railway lines, which is called "Rana Sangha Ka Chabutra" till today.

In 5 km east of Baswa town, hillock of Jhajhi Rampura are situated. In these hillocks temple of 11 Rudras is located. Five Rudras in each side, there are idols of Lord Shiva, Parvati and Nandi carved on a single white marble in the middle of the temple. The water falls from hillocks is run through a cow mouth and a pond is there for bath for local people. This place is a pleasing religious spot.

(xiv) Scope of Village and Town Directory:

In Part-A of the District Census Handbook, entitled as Village and Town Directory, an attempt has been made to present information regarding various amenities/facilities available in every rural/urban unit of the State. The unit of the rural areas is village and that of urban area is town/urban agglomeration. Information regarding rural areas and Census Towns has been gathered through Patwaries while that in respect of urban areas other than Census Towns has been collected through the concerned municipality/ Cantonment Board/Notified Area Committee. In order to have the aforesaid information authenticated the concerned departments and agencies were also contacted to furnish information available with them. All the information gathered about amenities relate to year 1999 and those pertaining to land-use pattern pertain to Samvat Year 2055 i.e. the agricultural year ending on the 30th June, 1999.

Village Directory

It will be helpful at the outset to have an idea of the items for which information has been included in the Village Directory. Information in respect of each village has been presented through a twenty three column format in which villages have been presented in order of their names and Permanent Location code Number (PLCN) at State level. The first four columns (2-5) give general information i.e. Name of village and Permanent location code number, area in hectares, population and number of households residing in villages as per Census 2001.The amenities available in the village have been shown in columns 6-18. The information regarding land-use pattern has been given in columns 19-23. As a special feature for Census-2001 some new columns 10-12 and 17-18 are first time incorporated viz. commercial and cooperative Bank, Agricultural/non Agricultural and other credit societies, Recreational and cultural facilities, News Paper/Magazine and most important commodity manufactured in the village. In case of uninhabited villages, the information has been given relating to columns 1-3 and 19-23 only and in the remaining columns the word 'uninhabited' has been mentioned. At the end of entries of each Panchayat Samiti the totals relating to columns 3-11, 13-14, 16-17,19 and 21-23 (total area, amenities and land-use break-up) have also been given.

Various amenities like drinking water, communication, post and telegraphs etc. have been shown against the name of the referent village if they are available within the village with the help of various codes. The Code Structure relating to various columns has been given in the beginning of Section-I to Part-A of this book. The number of each type of amenity has been indicated in parentheses after the suitable code in case of educational, medical and post & telegraph facilities.

If any amenity is not available within the village a dash (-) has been shown in the relevant column and next to it, the distance of the nearest place from the referent village where the facility is available has been given in broad distance ranges viz. <5 km, 5-10 km & 10+ km.

The following pattern has been adopted for indicating the educational institutions:

(i) Schools up to Class V have been treated as primary schools. They include Nursery Schools, Kindegarten Schools, Pre-basic and Pre-primary Schools and Junior Basic Schools upto Class V.

(ii) All schools having Classes VI to VIII have been treated as Middle Schools.

(iii) All schools having Classes IX and X have been treated as Secondary Schools.

(iv) All schools having Classes XI and XII have been treated as Higher Secondary Schools. They include Senior Cambridge Schools, Schools under

10+2 scheme, Intermediate, Pre-University and Junior College etc.

In case of composite schools relevant groups of classes have been treated separately, e.g. a school having classes I to XII, has been shown as having one primary, one middle, one secondary and one higher secondary school. The term 'College' includes all types of colleges whether Arts/Science/Commerce/ Medical/Engineering/Agriculture and others imparting education at Graduate or Post-Graduate level. Institutions other than industrial schools, training schools and adult literacy classes/ centres have been shown under 'others'.

In case of Medical institutions, Hospitals and Dispensaries, Allopathic, Ayurvedic, Unani and Homeopathy have been shown separately. Other institutions include all types of Yogic, Naturopathy, Hospitals/Dispensaries, Leprosy Centres etc.

In case there are more than one source of drinking water facility available in the village all such sources have been shown separately. Postal amenities include Post Office, Telegraph Office and Telephone, which are shown separately.

In case there are more than one communication facilities these have been indicated separately by relevant codes. Approach to the village refers to the state of roads etc. leading to the village from the communication centres i.e. bus-stand/railway station etc. This is to give an idea whether the village is easily approachable in all types of weather or becomes inaccessible for sometime in the year. Where there are more than one approach roads these have been indicated separately by relevant codes.

Information regarding the nearest town indicates the name of such town along with the distance from the referent village irrespective of the fact whether such town is located within Rajasthan or in some other adjoining states. In case of town situated in states other than Rajasthan, the concerned State has been mentioned against its name in parentheses with the help of abbreviations. The term 'town' here refers to one of those urban centres, which have been treated, as towns in the concerned state during 2001 Census.

In order to give an idea about the uses which electricity is put to, the information has been given under the head "power supply" if it is available in the village.

Land-Use Pattern

The land-use pattern has been presented under the following five headings:

I. Forest :

It denotes those lands, which have been termed as 'forest' by the competent authority.

II. Irrigated land :

It relates to land, which has actually been irrigated in the referent year. The source-wise break-up has not been presented, as no such information was available in respect of the net irrigated area.

III. Unirrigated land :

The term covers all the unirrigated land cultivated during the referent year and land lying fallow upto four years.

IV. Culturable waste :

It includes Gaucher i.e. pasture and grazing land and tree-groves.

V. Area not available for cultivation :

It refers to land, which has not been classified in any of the above mentioned types and also includes house sites, roads, rivers, nullahs, hillocks etc.

The following nine appendices have also been provided to present the position obtaining in Panchayat Samiti and district as a whole regarding various Amenities available in rural areas, villages classified by characteristics of the population and land-use pattern in Census Town in connection with the Village Directory:

(i) Panchayat Samiti wise Abstract of educational, medical and other amenities in villages.

  (a) Villages by number of Primary schools.

  (b) Villages by number of Primary, Middle and Secondary schools.

  (c) Villages with different sources of drinking water facilities available.

(ii) Villages with 5000 and above population, which do not have one or more amenities.

  (a) Census towns which do not have one or more amenities.

(iii) Land utilisation data in respect of Census Town.

(iv) Panchayat Samiti wise lists of inhabited villages where no amenity other than drinking water facility is available.

(v) Summary showing number of villages not having Scheduled Castes population.

(vi) Summary showing number of villages not having Scheduled Tribes population.

(vii) Panchayat Samiti wise list of villages according to the proportion of Scheduled Castes/ Scheduled Tribes population to total population by ranges. It consists of two parts: Part-A relates to Scheduled Castes and Part-B to Scheduled Tribes.

(viii) Panchayat Samiti wise number of villages under each Gram Panchayat.

(ix) Statement showing number of girl's schools in the villages.

Town Directory

Particulars about each town have been presented in the form of seven statements. In towns where there are slums Statement-VII has also been given in which information regarding civic and other amenities available in the slums have been shown. In each statement towns have been arranged in alphabetical order.

As has been explained earlier, urban agglomerations are of two types: first those constituted by two or more independent towns and second those where the urban characteristics have developed in the adjoining rural areas, which have developed as outgrowth of the referent town.

Where an urban agglomeration includes two or more independent towns, the names of towns constituting the agglomeration have been indicated in the alphabetical arrangement but their names have also been repeated in the alphabetical order under the name of the agglomeration after the name of the main or core town and information relating to these has been shown here. The particulars of the constituent units of the agglomerations have not been repeated wherever they occur separately in the alphabetical order and a note "See referent agglomeration" has been given against such names. The lines relating to the information regarding urban agglomeration as a whole have not been numbered but the constituent units as and when they occur in the alphabetical order have been numbered so that the last number agrees with the total number of towns in the district concerned. In respect of Statements II, III and VI in the lines relating to agglomeration a note "See constituent units" has been shown and information has been provided separately in respect of all the constituents below it.

In case of towns having out growths, an asterisk mark has been placed against their names. Information in respect of out growths has been included in the concerned town and has not been shown separately.

The amenities and other data have been indicated by codes. A list of column wise code structure and other abbreviations used in each statement has been provided at the beginning of Section-II of Part-A of this book. We may now discuss the various Town Directory statements.

Statement I

It deals with the status and growth history of the town. Columns 2 to 7 give information regarding class, name and civic status of the town, its location code number, name of the tehsil/panchayat samiti in which it is situated, its area in sq. km and number of households including houseless households residing in the town as per 2001 Census. The class of the town has been determined on the basis of its population as per Census 2001 and the civic administration status relates to the year 2000. Columns 8 to 18 show the population of the town in different decennial censuses beginning from 1901 upto 2001. The growth rate in terms of percentage in respect of previous censuses has been shown below the population figures pertaining to each Census beginning from Column 9 onwards.

A 'dash' under these columns indicates that the referent town did not have an urban status in the referent Censuses. Density of Population per sq. km as per Census 2001 has been shown in column 19 and sex ratio (number of females per 1,000 males) have been indicated for three censuses viz. 1981 to 2001 in columns 20 to 22.

Statement II

This statement gives information about the physical aspects and locations particulars of the town

in 1999. First two columns give the serial number, class, name and civic status of the town. Columns 3 to 13 deal with the physical aspects viz. rainfall and temperature. Rainfall figures are the average of the rainfall for the last one year ending 1999-2000. If the information in respect of rainfall is not available for any town it has been given for the nearest place for which it is available. Rainfall has been shown in millimeters per annum. Maximum and minimum temperatures have been given in centigrade. If the information regarding temperature is not available in respect of any town it has been given for the nearest place for which it is available and the name of the centre has been shown in footnote.

The location of the town with respect to various administrative headquarters and nearest city is indicated in columns 6 to 10. While showing the location of the referent town with respect to various administrative headquarters, names and their distance from the referent town in kilometer have been given in parentheses below the name of the place where it is situated. In case the referent town itself happens to be the seat of the administrative headquarters, this distance has been shown zero. Information regarding the nearest city of population one Lac or more and population 5 Lacs or more have been given in respect of its situation within the State or even if this city may be situated in other State. In case the nearest city happens to be situated in other State, the name of the concerned State has been shown against the name of the city in parentheses. How the referent town is approachable is given in columns 11 to 13 which indicate the availability of communication facilities viz. railway station, bus facilities and navigable river/canal within 10 km. There is no navigable river or canal in Rajasthan.

Statement III

It gives information about the finances of the civic body controlling the local civil administration and it has been presented in '000 rupees. A 'dash' in this Statement indicates that no receipt or expenditure has occurred under the particular head and 'N' represents negligible amount. First two columns give general information, columns 3 to 9 present receipt under broad categories and total receipt and columns 10 to 16 present expenditure under broad categories and total expenditure. The receipt and expenditure has been presented under six broad categories each. While receipt through taxes implies all receipts from taxes obligatory or others and revenue derived from municipal properties and power apart from taxation, it also includes income derived from holding of fairs and exhibitions, supply of milk, license fee, cattle-ponds, fines and penalties, transport services, places of entertainment, allotment/sale/lease of land and rent etc. Government grants include per capita grant, grant from Public Works Department and grant from the Social Welfare and other departments. Other sources of receipts have been specified, wherever possible but generally they are of miscellaneous nature.

Expenditure on general administration covers salary and wages of staff, contingent expenditure on staff, grants loans and advances to the staff etc. Expenditure on public safety cover fire-fighting, light, water and lease facilities, regulating the dangerous/ hazardous trades/works/occupation, water supply, registration of births and deaths, disposal of garbage, rubbish and night-soil. Public health and conveniences cover all types of medical aid and maintenance of the destitute etc. Public works include maintenance and construction of roads and buildings and relief works in times of famine and scarcity. Expenditure in public institutions covers all types of social, cultural, educational, religious institutions etc. Which are run or patronised by the municipality. Other sources of expenditure have been specified where possible but mostly these are of miscellaneous nature.

Statement IV

This statement deals with the civic and other type of public amenities and provides information about total population, scheduled castes and scheduled tribes population, road length, system of sewerage, number and types of latrines, method of disposal of night-soil, water supply, availability of fire-lighting service and electrification besides general information. In case of water supply the source of water as also the system of its storage have been shown. The storage capacity has been shown in Kiloliters. In case of disposal of night soil and protected water supply particulars have been given in respect of two methods/ sources in order of their importance if more than one exist in the town. In case fire-fighting service is not available in the town the name of the nearest place if in the same district or the name of the nearest district if in

the same state or other state where available along with distance from the referent town has been mentioned.

Statement V

Particulars of medical, educational, recreational and cultural facilities available in the town have been given in this statement and the number of each type of these facilities has also been shown in parentheses is along with the appropriate code.

In case of medical facilities the number of beds wherever available has also been shown Allopathic, Ayurvedic, Unani and Homeopathic hospitals/ dispensaries have been shown separately. No code has been provided for allopathic institutions and the numbers have been shown only in figures. Thus beside H, code for hospital means an Allopathic Hospital. Separate codes have been provided for other three systems of medicine.

If a medical or educational facility is not available in the town, the name of the nearest place, if the same district or the name of the nearest district in the same State or other State where available and its distance (in km) from the referent town has been mentioned. Details of medical institutions shown under 'Others' have also been explained.

Arts, Science and Commerce Colleges have been shown separately. While showing the educational institutions upto Higher Secondary level the same procedure as adopted in case of Village Directory, has been followed. In case of composed schools relevant classes have been treated separately e.g. a school having classes I to XII has been treated as being composed of one Primary, one Middle, one Secondary and one Higher Secondary School.

All other types of educational institution which are not covered in column 6 to 14 have been shown in column 15 under 'Others' and include technical/ vocational and training institutions like Applied Art Painting College, Pharmacy College, Agricultural College, Teacher's Training College/Institution, Music/ Dance School etc. Janchetna Kendra is also included in others.

Statement VI

This statement contains particulars regarding trade, commerce, industry and banking. It gives names of three most important commodities, exported and manufactured in the town besides the number of banks, agricultural and non-agricultural credit societies functioning in the town. A list of the outgrowths, if any, along with their population and name of the core town has also been provided at the end of the Town Directory as an Appendix.

Statement VII

Information about all slums whether notified or not and for all towns has been shown in this statement in order to give an idea about the amenities available to the slum dwellers. Particulars about paved roads, systems of sewerage, number and types of latrines, method of disposal of night soil, number of tap points/ public hydrants for supply of protected water and electrification have been provided in respect of every slum in each town, if there are any.

PART-A : VILLAGE AND TOWN DIRECTORY

Section-I

Village Directory

NOTE EXPLAINING THE ABBREVIATIONS USED IN THE VILLAGE DIRECTORY

The "Village Directory" is one of the traditional compilations of the Census. It gives the list of villages, their location numbers, their area, population, number of households, amenities such as educational, medical, drinking water, post and telegraph, commercial and co-operative banks, agricultural non-agricultural and other credit societies, recreational and cultural facilities, communication, approach to village, nearest town with a distance, power supply availability of newspaper and magazines, most important commodity manufactured and land use of each village.

Village is a statutory recognized unit having a definite boundary and separate land records. In case, a complete village is treated as an outgrowth of urban agglomeration, data on amenities for that village, have not been given in the Village Directory but shown along with the urban component. The villages which are consider as a Census Town , the amenities data are shown in the Town Directory. For those villages which have partly merged in an outgrowth of U.A., the amenities data are shown in the Village Directory for that particular village.

The 'un-inhabited' villages (villages with no population) have been indicated as such after furnishing details in columns 1 to 3 i.e., Serial number, Name of village & location code number and area of the village against column nos. 4 to 18. The land use data for such villages are shown in cols. 19 to 23.

The Village Directory format has 23 columns and the details given under each column are for the village are as follows:

Column 1 : Serial Number

Self explanatory. All the villages within the Panchayat Samiti are presented serially in the ascending order of their location code number.

Column 2 : Name and Location Code Number of village

The name and location code number of the village are shown against these columns. This also includes the forest and uninhabited villages.

Column 3 : Area of the village

The area of the villages in hectares are given. Wherever the area figures was not furnished by the concerned department the column is left blank.

Column 4 : Total population

The total population of the village as per 2001 Census is given against this column.

Column 5 : Number of households

The number of households as per 2001 Census is given in this column.

Amenities :

In columns 6 to 23, availability in respect of different amenities such as education, medical, drinking water, post, telegraph, banks, credit societies, communication, power, approach road etc. in each village has been depicted with appropriate codes against the column concerned. Wherever the amenities are not available in the village, a dash (-) is shown in the column and next to it in brackets the distance in broad ranges viz.< 5 kms., 5-10 kms. and 10+ kms of the nearest place where the facility is available is given. Column wise details are given below:

Column 6 : Educational

Classes upto class V included in Primary School. This will include nursery school, kindergarten school. Pre-basic school, pre-primary school, junior basic school upto class V.

Classes from VI to VIII are included in the middle school.

Classes from IX and X included in High secondary school. Classes XI and XII are included in senior secondary school.

In case of composite schools like middle school with primary school or secondary school with middle school, these are also included in the number of primary and middle schools, respectively.

Accordingly any of the following types of institutions if exists within the village is shown as per codes given below :

(i)	Primary School	P
(ii)	Middle School	M
(iii)	Secondary School	S
(iv)	Senior Secondary School	PUC
(v)	College	C
(vi)	Industrial School	I
(vii)	Training School	Tr
(viii)	Adult literacy class/centre	AC
(ix)	Others (specify) e.g. Sanskrit Pathshala, Senior basic school, Navodaya Vidyalaya, Makhtab, etc.	O

More than one institution of a type in the village is indicated by the number within brackets against the abbreviation, e.g. P(3), M(4), etc.

Column 7 : Medical

Availability of medical facility within the village is indicated by following codes :

(i)	Allopathic Hospital	H
	Ayurvedic Hospital	HA
	Unani Hospital	HU
	Homeopathic Hospital	H Hom
(ii)	Allopathic Dispensary	D
	Ayurvedic Dispensary	DA
	Unani Dispensary	DU
	Homeopathic Dispensary	D Hom
(iii)	Maternity & Child Welfare	MCW
(iv)	Maternity Home	MH
(v)	Child Welfare Centre	CWC
(vi)	Health Centre	HC
(vii)	Primary Health Centre	PHC
(viii)	Primary Health Sub-Centre	PHS
(ix)	Family Welfare Centre	FWC
(x)	T.B. Clinic	TB
(xi)	Nursing Home	NH
(xii)	Registered Private Medical Practitioner	RMP
(xiii)	Subsidised Medical Practitioner	SMP
(xiv)	Community Health Worker	CHW
(xv)	Others	O

More than one institution of a type in the village is indicated by the number within brackets against the abbreviations, e.g. H(3), D(4), etc.

Column 8 : Drinking Water

The type of the drinking water supply sources available within the village are indicated by codes as follows:

(i)	Tap Water	T
(ii)	Well Water	W
(iii)	Tank Water	TK
(iv)	Tubewell Water	TW
(v)	Handpump	HP
(vi)	River Water	R
(vii)	Canal	C
(viii)	Lake	L
(ix)	Spring	S
(x)	Others	O
(xi)	Summer Sorce	SS

Column 9 : Post, Telegraph and Telephone

It is indicated by codes as shown below whether within the village exists the following amenities:

(i)	Post Office	PO
(ii)	Telegraph Office	TO
(iii)	Post & Telegraph Office	PTO
(iv)	Telephone Connection	PH

Column 10 : Commercial and Co-operative Banks

If the village is served by any banking service, commercial bank, co-operative bank etc. the same is indicated in codes mentioned below along with the number of banks in brackets. If not available the distance of nearest place where the facility exist is given:

(i)	Commercial Bank	CM
(ii)	Co-operative Bank	CP

Column 11 : Credit Societies

If the village enjoys the services of Credit Societies i.e. Agricultural Credit Societies, Non-Agricultural Credit Societies or Other Credit Societies, the same is indicated in codes mentioned below along with the number of such societies in brackets. In case the facility is not available within the village the distance of the nearest place where such facility exist is given :

(i)	Agricultural Credit Society	ACS
(ii)	Non-Agricultural Credit Society	NCS
(iii)	Other Credit Society	OCS

Column 12 : Recreational and cultural facilities

If facilities such as Cinema/Video hall, Sports Club, Stadium/Auditorium is available in the village, the same is recorded in these columns. If not available the particulars of the nearest place with the facility is recorded. The information is indicated in codes mentioned below along with the number of such facilities in brackets:

(i)	Cinema/Video Hall	CV
(ii)	Sports Club	SP
(iii)	Stadium/Auditorium	ST

Column 13 : Communications

If the village is served by any mode of public / private transport like Bus, Railway station or Navigable water ways they are to be mentioned as follows:

(i)	Bus	BS
(ii)	Railway Station	RS
(iii)	Navigable Waterway	NW

Column 14 : Approach to village

Approach to village refers to the state of road leading to village. The approach to the village is indicated in following codes :

(i)	Paved Road	PR
(ii)	Mud road	MR
(iii)	Foot path	FP
(iv)	Navigable River	NR
(v)	Navigable Canal	NC
(vi)	Navigable waterways other than River and Canal	NW

Column 15 : Nearest Town with distance

The distance is given in kilometers in brackets against the name of the town nearest to the village.

Column 16 : Power supply

Availability of Power Supply in the village, whatever may be the form of its use is given by using following codes :

(i)	Electricity for domestic use	ED
(ii)	Electricity for agricultural use	EAG
(iii)	Electricity for other purposes	EO
(iv)	Electricity for all purposes	EA

Column 17 : News Paper / Magazine

If village receives any News Paper/Magazines the same is noted in this column using following codes:

(i)	News Paper	N
(ii)	Magazine	M

Column 18 : Most important commodities manufactured

The name of three most important commodities manufactured in the village is recorded against this column.

Columns 19 to 23 : Land use i.e. area under different types of land use

Land use data maintained by the State/UT Govts. are furnished against these columns. The data concerning area under Forest, Irrigated land (by source), Un-irrigated land, Culturable waste and Area not available for cultivation in the village are shown against these columns. The area figures are given in hectare(s) up to one decimal. Dash '-' is recorded wherever the information is not made available by the concerned department. The codes used for different types of irrigation facilities available in the village are indicated below:

(i)	Government Canal	GC
(ii)	Private Canal	PC
(iii)	Well (without electricity)	W
(iv)	Well (with electricity)	WE
(v)	Tubewell (without electricity)	TW
(vi)	Tubewell (with electricity)	TWE
(vii)	Tank	TK
(viii)	River	R

(ix)	Lake	L
(x)	Waterfall	WF
(xi)	Others	O
(xii)	Total	T

The village directory also carries the following appendices.

Appendix-I It gives the abstract of educational, medical and other amenities available in villages Panchayat Samiti wise of the district.

Appendix-I-A Indicates number of villages Panchayat Samiti wise having one or more primary schools.

Appendix-I-B Indicates number of villages Panchayat Samiti wise having primary, middle and secondary schools.

Appendix-I-C Shows number of villages Panchayat Samiti wise with different sources of drinking water facilities.

Appendix-II Indicates the list of villages with 5,000 and above population which do not have one or more important amenities.

Appendix-II-A Indicates list of Census Towns which do not have one or more amenities.

Appendix-III It gives the land utilization data in respect of Census Towns / non-municipal Towns.

Appendix-IV Panchayat Samiti wise list of inhabited villages where no amenity other than drinking water facility is available.

Appendix-V Summary showing number of villages not having Scheduled Castes population.

Appendix-VI Summary showing number of villages not having Scheduled Tribes population.

Appendix-VII The appendix shows the list of villages according to proportion of the VII A, VII B Scheduled castes and Scheduled Tribes to the total population by ranges.

Appendix-VIII Indicates Panchayat Samiti wise number of villages under each Gram Panchayat.

Appendix-IX Shows number of different types of girls school in a village.

LIST OF VILLAGES MERGED IN TOWNS AND OUTGROWTHS AT 2001 CENSUS

Sl. No.	Name of Towns	Name of villages merged in town(s)	Name of villages identified for outgrowth	Location Code Number 1991 Census	Location Code number 2001 Census (in case of partly OG)
1	2	3	4	5	6
			NIL

Section-II

Town Directory

NOTE EXPLAINING THE ABBREVIATIONS USED IN THE TOWN DIRECTORY

Town Directory statements (I to VII)

Statement I : Status and Growth History

Column 2 : Class, name and civic administration status of town

Class has been introduced to facilitate analysis of town directory data at the state and all India levels. It is presented according to 2001 Census Population of the town as follows:

Population	Class
100,000 and above	I
50,000 - 99,999	II
20,000 - 49,999	III
10,000 - 19,999	IV
5,000 - 9,999	V
Below 5,000	VI

Town with a population of one hundred thousand (1,00,000) and above is treated as a city.

The civic administration status of the towns is indicated within bracket against the name of the town. The following abbreviations are used to denote civic status of town.

(i)	Municipal Corporation	M. Corp.
(ii)	Municipal Committee	MC
(iii)	Municipal Council	M.Cl.
(iv)	City Municipal Council	CMC
(v)	Town Municipal Council	TMC
(vi)	Municipal Board	MB
(vii)	Municipality	M
(viii)	Cantonment Board/Cantonment	CB
(ix)	Notified Area	NA
(x)	Notified Town	NT
(xi)	Notified Area Committee/ Notified Area Council	NAC
(xii)	Notified Town Area	NTA
(xiii)	Industrial Notified Area	INA
(xiv)	Industrial Township	ITS
(xv)	Township	TS
(xvi)	Town Panchayat	TP
(xvii)	Nagar Panchayat	NP
(xviii)	Town Committee/Town Area Committee	TC
(xix)	Small Town Committee	ST
(xx)	Estate office	EO
(xxi)	Gram Panchayat	GP
(xxii)	Census Town	CT

Others columns need no comments.

Statement II : Physical Aspects and Location of towns, 1999

Columns 3 to 5 : Physical Aspects

In these columns the Rainfall and Maximum and Minimum Temperature of the town is recorded.

Columns 6, 7 and 8

Name of the State headquarters, District headquarters and Tehsil headquarters with distance from the referent town in kilometers, is to be recorded respectively. If the names mentioned in these columns are the same as the referent town itself, the distance is recorded as (0) zero.

Columns 9 and 10

Name of the nearest city with one lakh and more and five lakhs and more population are recorded.

Columns 11, 12 and 13

If referent town enjoys the facility of railway station, bus route facility or navigable river/canal. Its name is to be mentioned. If not available, then the name of nearest place with distance, where such facility exists is to be mentioned.

Statement III : Municipal Finance 1998–1999

Item-wise amount of receipt and expenditure in thousand rupees, relating to municipal finance of the town for the year 1998-99 is to be recorded.

Statement IV : Civic and Other amenities, 1999

Columns 1 to 5 : Self explanatory

Column 6 : Road length (in kms.)

Information about kutcha / pucca road is to be recorded separately for the roads within the limits of the referent town.

(i)	Pucca Road	PR
(ii)	Kutcha Road	KR

Column 7 : System of Sewerage

Generally, by sewerage system is implied the network of mains and branches of underground conduits for the conveyance of sewerage to the point of disposal. Sewers that carry only household and industrial wastes are called separate sewers, those that carry storm water from roofs, streets and other surface are known as storm water drains, while those carrying both sewage and storm water are called combined sewers.

The codes used for different types of drainage system are as follows :

(i)	Sewer	S
(ii)	Open Surface Drains	OSD
(iii)	Box Surface Drains	BSD
(iv)	Sylk Drains	SD
(v)	Cesspool method	CP
(vi)	Pit System	Pt
(vii)	Others	O

Columns 8 to 11 : Number of latrines

Number of various types of latrines both Public and Private are given in these columns.

Column 12 : Method of disposal of night soil

The various prevalent method of disposal of night soil are given below with codes :

(i)	Head Loads	HL
(ii)	Basket	B
(iii)	Wheel Barrows	WB
(iv)	Septic Tank	ST
(v)	Pit System	Pt
(vi)	Sewerage	S
(vii)	Others	O

Columns 13 and 14 : Water supply

Source and capacity of storage system. The following codes are used in these columns:

Column 13

(i)	Tap water	T
(ii)	Tube-well water	TW
(iii)	Tank Water	TK
(iv)	Well Water	W

Column 14

(v)	Over Head Tank	OHT
(vi)	Service Reservoir	SR
(vii)	River Infiltration Gallery	RIG
(viii)	Bore Well Pumping System	BWP
(ix)	Pressure Tank	PT

The information on major source of water supply are given in column 13 and the storage capacity against each in kilo-litres (in bracket) are presented in column 14.

Column 15 : Fire Fighting Service

In case the fire fighting service is available in the referent town 'yes' is recorded. If the facility is not available within the town. The name of the nearest place having this facility with its distance from the referent town has been recorded.

Columns 16 to 20 : Electrification (Number of connections)

Different types of electric connections have been shown in these columns, i.e. Domestic, Industrial, Commercial, Road lighting (points) & others.

Statement V : Medical, Educational, Recreational and Cultural Facilities, 1999

Columns 1 to 3 : Self explanatory

Columns 4 & 5

The data covers all such medical institutions run by or aided by Government/Semi Government/Local bodies and Charitable institutions or Social agencies like the Missionaries. Where the family planning centres are attached to hospitals or maternity and child welfare centres or primary health centres, may be treated as independent units and counted separately using following codes :

(i)	Hospital	H
(ii)	Dispensary	D
(iii)	Health Centre	HC
(iv)	Family Welfare Centre	FWC
(v)	T.B. Clinic	TB
(vi)	Nursing Home	NH
(vii)	Others	O

In case of more than one institutions of any type, it is indicated within brackets the number of such institution (s) e.g. D(3), NH(8), etc. The institutions have further been distinguished by providing additional codes within the bracket as given below :

Ayurvedic	A
Unani	U
Homoeopathic	Hom

Columns 6 to 9

The codes used for these columns are as follows:

(i)	Arts only	A
(ii)	Science only	S
(iii)	Commerce only	C
(iv)	Arts & Science only	AS
(v)	Arts & Commerce only	AC
(vi)	Combined for all categories-Arts, Science and Commerce	ASC

(vii)	Law	L
(viii)	University	U
(ix)	Others	O

Column 10 : Recognized shorthand, typewriting and vocational training institutes

"Recognised" should mean recognised by some statutory authority, like education department, commerce department, labour department etc. of the government or semi government or autonomous bodies, public sector undertakings etc.

The following codes are used :

(i)	Vocational Training Institute	VT
(ii)	Shorthand	SH
(iii)	Typewriting	Type
(iv)	Shorthand & Typewriting	SH Type
(v)	Others	O

The vocational institutions like - Applied Art/ Painting college, Pharmacy college, B. Ed. College, Teacher's Training Institute, Music/Dance School, Nursing School etc. are covered under 'Others'.

Columns 11 to 14

Higher Secondary/Intermediate/Senior Secondary/ PUC/Junior College level, Secondary/Matriculation, Middle Schools/Junior Secondary and Primary Schools.

School up to class V are treated as Primary or elementary schools. These include Nursery schools, Kindergarten schools, Pre-Primary schools, Junior Basic schools upto class V and Primary schools upto class IV.

Schools upto VIII are considered as Middle school or Junior Secondary.

Schools upto class X are considered as Matriculation or Secondary schools.

Schools upto XI or XII classes are considered as Higher Secondary/Intermediate/Pre University/Junior College etc. This would cover 10+2 classes whether held in schools or college.

If there are composite schools like middle schools with primary classes or Secondary schools with Middle classes, these are also included in the number of Primary and Middle schools, respectively. For example, if in a town, there are two Primary Schools and one Middle school with Primary classes, the number of Primary schools in the town is given as three and that of Middle schools as one though there are only three educational institutions.

If there are more institutions of a type in the town, the number is indicated within bracket along with the abbreviation, e.g. P(4), M(3).

Column 15 : Adult literacy class/centres

This column has been introduced keeping in view the Minimum Needs Programme of the Planning Commission. There are number of Adult Education Centres which are included in these columns.

If an educational facility is not available in the town, the name of the nearest place and its distance in kilometres from the town where the facility is available is mentioned.

Column 16 : Working Women's hostels with number of seats

The number of working women's hostel if available in the referent town is mentioned with number of seats. If the facility is not available in the town the name of nearest place with distance where the facility is available is recorded.

Columns 17 to 19 : Recreational and Cultural Facilities

Stadium, Cinema, Auditorium/Drama/Community Hall are covered under recreational & cultural facilities. The particulars of permanent recreational facilities are considered for these columns.

Column 20 : Public Libraries, Reading Rooms

Number of public libraries and reading rooms available in the referent town are recorded in codes as follows :

(i)	Public Library	PL
(ii)	Reading room	RR

Statement VI : Trade, Commerce, Industry and Banking, 1999

Columns 3 to 8

Names of three most important commodities exported and names of three most important commodities manufactured in the town are recorded.

Column 9 : Number of Banks

Number of Banks available in the referent town both Commercial and Co-operative banks are recorded against this column.

Columns 10 & 11 : Number of Agricultural Credit Societies and Non Agricultural Credit Societies

The total number of Agricultural Credit Societies and Non-Agricultural Credit Societies in the referent town are recorded against these columns.

Statement VII : Civic and other Amenities in Slums, 1999

This is the statement on civic and other amenities in all slums whether notified or not and for all towns having statutory bodies, like municipality, Municipal Corporation, Town area committee etc.

STATEMENT

Nil				

PART-B : PRIMARY CENSUS ABSTRACT

Brief note on Primary Census Abstract

The first census of the third millennium and twenty first century the Census of India, 2001 was the 14th continuous and uninterrupted Indian census since 1872. Thus, 2001 Census will provide data on population and its characteristics marking transition from one century and millennium to another.

The gigantic operation of Population Enumeration (considered by many to be the single largest and complex peace time administrative exercise in the world) was made possible due to the door to door universal canvassing of the Household Schedule by about 2 million enumerators and supervisors covering 593 districts, 5,463 sub-districts, 5,161 towns and 638,588 villages. The comprehensive Household Schedule which replaced the individual slip had three parts and two sides A and B. Part I contained the Location Particulars; Part II related to the Individual Particulars and Part III contained questions for Household engaged in Cultivation/Plantation . The part II of the Household Schedule had 39 columns and 23 questions all of which were universally canvassed and no sampling was resorted to during enumeration.

Data Processing

A quantum leap was made in the technology front while processing the Census 2001 data both for Houselisting and Population Enumeration. The Census schedules for both the phases were scanned through high speed scanners in fifteen data centers across the country and hand-written data from the schedules were converted into digitized form through Intelligent Character Reading (ICR) software for creation of ASCII records for further processing. The designing and formatting of the Household Schedule had to be done very carefully using specialized software so as to ensure uniformity, which was an essential pre-requisite for scanning. The selection of appropriate state-of-art technology in data processing has made it possible to produce all the Houselisting as well as Population Enumeration tables on full count basis for the first time in the history of Census. For Census 2001, about 202 million schedules consisting of about 1,028 million records were scanned and processed within a span of only 10 months starting October, 2002.

Task Force on Quality Assurance

After the data is processed, it is expedient on the part of the data producing agency to satisfy itself about its quality before putting the same in public domain. This has to be done mainly through the process of internal consistency, comparison with similar data in the past and also through validation with likewise data if available, from external sources. Quite often the local knowledge and perception has to be brought into play to understand both the existing and the new emerging trends of population distribution and characteristics. The other very important aspect of the data quality is to ensure complete coverage of all geographical areas especially for the population enumeration phase where the data is disseminated right up to the village level in the rural areas and the ward level in the urban areas. Thus ensuring the complete coverage and correct geographical linkage of each enumeration block was one of the major planks of the quality control, specially for small area population statistics.

A very comprehensive check and edit mechanism was put in place to objectively examine the preliminary Census 2001 Population Enumeration results and finally clear them for use. The responsibility of the final clearance of data was with the Task Force on Quality Assurance (TFQA), headed by the Registrar General and Census Commissioner, India. The other members of the TFQA were the Heads and senior officers of the Census Division, Data Processing Division, Map Division, Demography Division and Social Studies Division. The Directors of Census Operations were co-opted as members whenever the TFQA discussed the data for their States/Union territories. The Directors and their senior officers were required to make detailed presentations of data for their own state both in respect to the quality and the coverage and only after the full possible cleared.

There has been a major departure in Census 2001 from the past in respect of the procedure followed for finalization of the Scheduled Castes and the Scheduled Tribes population. In the earlier censuses, the total Scheduled Castes and Scheduled Tribes populations were finalized at the time of the manual compilation of the Primary Census Abstracts (PCA) at the Regional Tabulation Offices which were specially set up for this purpose. The individual Scheduled Castes and the Scheduled Tribes population for each state was finalized much later based on manual coding done by the coders. In 2001 Census, each individual Scheduled Caste and the Scheduled Tribe have been coded directly on the computers by the Data Entry Operators through a process known as Computer Assisted Coding (CAC) and taken up along with the processing of PCA data. The CAC process involves pulling down, from the relevant dictionary of the Scheduled Castes and the Scheduled Tribes, on the computer screen and coding from the dictionary by referring to the image of the specific individual entry in the Household Schedule appearing on the screen. The CAC of the response on Religion wherever required, was also undertaken along with the processing of PCA. This is because the Scheduled Castes status had to be determined in relation to the religion of the individual. Two Special Task Forces, one on Religion and the other on Scheduled Castes/ Scheduled Tribes were constituted for scrutiny and appropriate classification of these responses.

The main task of the Special Task Force on Religion was to appropriately merge or group the new responses encountered and code it into the appropriate religious community based on available literature and local knowledge. The Special Task Force on Scheduled Castes and Scheduled Tribes examined the different Scheduled Castes and Scheduled Tribes entries encoun-tered and classified these into appropriate category of the Scheduled Castes or the Scheduled Tribes principally based on the Presidential Notification and the available literature. Thus a very systematic and scientific mechanism was operationalised to firm up the individual religion and the individual Scheduled Castes/Tribes returns. The Scheduled Castes and the Scheduled Tribes population in 2001 Census, is thus being finalized by aggregating the population data for individual Scheduled Castes and the Scheduled Tribes at appropriate geographical levels.

The entire work relating to the data validation and scrutiny was completed by all the States/Union Territories under the overall supervision and monitoring of the Census Division of the Office of the Registrar General, India with active cooperation and support of the Social Studies Division, Data Processing Division, Data Dissemination Division and Map Division.

Primary Census Abstract

The Primary Census Abstract which is yet another important publication of 2001 Census gives basic information on Area, Total Households, Total population, Scheduled Castes, Scheduled Tribes population, Population in the age group 0-6, Literates, Main workers and Marginal workers classified by the four broad industrial categories, namely, (i) Cultivators, (ii) Agricultural labourers, (iii) Household Industry Workers, and (iv) Other workers and also Non-workers. The characteristics of the Total Population includes Scheduled Castes, Scheduled Tribes, Institu-tional and Houseless population and are presented by sex and rural-urban residence. This data is presented at different levels, namely, India, States/Union territories, Districts and Cities, Urban Agglomerations (Population 1,00,000 and above) in three different tables. In addition, the Appendix of said publication provides Houseless and Institutional Households and their population by residence and sex for 2001 for India, State and Union territory.

Apart from the India and State/Union Territory volumes for Primary Census Abstract, the District Census Handbook contains District Primary Census Abstract, Appendix to District Primary Census Abstract, Primary Census Abstract for Scheduled Castes, Primary Census Abstract for Scheduled Tribes, Village Primary Census Abstract and Urban Primary Census Abstract of the concerned district in the state.

It was for the first time at the 1981 Census that the Primary Census Abstract (PCA) was brought out for the Scheduled Castes and the Scheduled Tribes separately on the pattern of General Primary Census Abstract. This practice was continued in 1991 also. In the 1961 and 1971 Censuses, such data were made available in Table C-VIII-Social and Cultural table and to some extent in the series 'Special Tables for Scheduled Castes/Scheduled Tribes'.

The format of Primary Census Abstract has been restructured slightly in the 2001 Census as compared to that of 1991 Census. The nine-fold industrial classification of main workers given in the Primary Census Abstract of 1991 Census has been discontinued and its place, four-fold industrial classification of both 'main workers' and 'marginal workers' are included. In 1981 census only main workers were presented in to four categories. One of the novel features of the primary census abstract of 1991 census was the presentation of data of the population of age group 0-6 is continued in 2001 Census also. This will help the data users in better analysis and understanding of this literacy data.

Level of presentation in District Census Handbooks

The Primary Census Abstract data in different PCAs are presented at different levels. The level of presentation of Primary Census Abstracts are as under:

	Name of the Primary Census Abstract	Level of presentation
1.	District Primary Census Abstract	District/Panchayat Samiti/UA/City/Town
2.	Primary Census Abstract for Scheduled Castes	District/Panchayat Samiti/Town
3.	Primary Census Abstract for Scheduled Tribes	District/Panchayat Samiti/Town
4.	Village Primary Census Abstract	Panchayat Samiti/Village wise
5.	Urban Primary Census Abstract	Town/Ward level

The PCA Data for villages was presented Panchayat Samiti wise for the first time in 1991 Census. This practice is continued in 2001 Census also. The data for each Panchayat Samiti is presented both for rural and urban areas separately. All the villages within the Panchayat Samiti constitute the rural portion and the Census Towns and Outgrowths are shown under the urban portion of the Panchayat Samiti. In case a Panchayat Samiti is spread over two or more districts, than portion which falls within the district is presented, the data pertaining to remaining portion of the Panchayat Samiti is presented in the concerned District Census Handbook. The data in the Urban Primary Census Abstract for each town as well as for town with outgrowths in the district are presented. The data for all the wards and the outgrowths of the town(s) are also presented separately below the concerned town(s).

The District Primary Census Abstract is presented in 59 columns. The Primary Census Abstract for Scheduled Castes and Primary Census Abstract for Scheduled Tribes are presented in 52 columns. The Village Primary Census Abstract and Urban Primary Census Abstract are presented in 58 columns.

The concepts and definitions used in the column heading are explained under the sub heading 'Census Concepts' in the Analytical Note. The term 'Total Population' includes the Scheduled Castes, the Scheduled Tribes, the Institutional and the Houseless populations. The explanation regarding area figures presented at various level in the Primary Census Abstracts are as follows:

Area Figures

The area figures supplied by local revenue authorities of the district in respect of tehsils, and by the local bodies in respect of towns are given in square kilometers. The area figures of the villages supplied by the Tehsildars in acres have been converted and shown in hectares. The area figures of the Panchayat Samiti is the total of the village areas coming under each Panchayat Samiti. The area figures for the district are the same as adopted by the Surveyor General of India to maintain uniformity at the national level. The total area figures of all the tehsils/ Panchayat Samiti within the district may not tally with area figures of the district because former represents land use area only. Similarly, the total of all the villages may not tally with the entire rural of Tehsil. The difference may be due to the fact that while the area covered by hills, forests and rivers etc, have been accounted in the Tehsils and Panchayat Samiti level the same may not be covered under the area of the villages. Apart from this it may also differ due to varying methods of computation adopted at different levels.

An appendix to District Primary Census Abstract has also been furnished showing urban enumeration block-wise particulars on Total Population, the Scheduled Castes Population and the Scheduled Tribes Population for each town.

ANNEXURE-II : FERTILITY-MORTALITY MEASURES

Fertility is a major component of population growth. In 1991 Census, questions on fertility related to age at marriage, number of children surviving at present, number of children ever born alive and any child born alive during last one year were asked. The first three questions were asked to all ever-married women and last question related to currently married women.

AGE SPECIFIC MARITAL FERTILITY LEVEL, 1991 CENSUS

Age-Group	Dausa/Jaipur			Rajasthan		
	Total	Rural	Urban	Total	Rural	Urban
1	2	3	4	5	6	7
15-19	103.26	110.66	79.66	99.82	99.10	103.46
20-24	211.70	237.45	168.85	217.18	227.01	182.20
25-29	184.09	225.72	129.80	197.71	214.81	144.55
30-34	128.57	169.39	72.44	141.09	158.38	85.69
35-39	80.55	114.90	37.02	90.43	104.11	47.40
40-44	48.27	66.38	21.55	53.37	61.51	25.15
45-49	26.23	32.84	15.24	27.36	30.37	15.81

The Age specific Marital Fertility levels (ASMFR) has been calculated at seven different age-groups. The highest ASMFR of the district is found 211.70 in the age-group of 20-24 followed by 184.09 in the age-group of 25-29. The lowest ASMFR is reported in the age-group 45-49 i.e. 26.23. In comparison to the ASMFR at the state level it has been found lower in the age-group of 15-19, 103.26 (99.82 state) and found higher in the age-group of 20-24, 211.70 (217.18 state) respectively at the district level. In the remaining age-group i.e. 25-29, 30-34, 35-39, 40-44 & 45-49 the ASMFR of the district is higher at the state level. It can be seen from the table:

ESTIMATES OF CHILD MORTALITY, 1991 CENSUS

Mortality Indicators	District : Dausa			Rajasthan		
	Persons	Males	Females	Persons	Males	Females
q2	78	76	81	97	95	99
q3	84	81	87	100	98	106
q5	94	88	102	110	103	117

Information on the questions on children ever born and children surviving canvassed for all ever-married women has been tabulated by age of the mother. From this, estimates of child mortality have been worked out by using Brass Technique. From the estimates of child mortality (Number of deaths by ages 2, 3 and 5 given as q2, q3 and q5) it is observed that the child mortality in the Dausa district is lower as compared to the state among males as well as females. It can be seen from the table.

ANNEXURE-III : VARIOUS MEASURES OF FERTILITY AND MEAN AGE AT MARRIAGE, 1991 CENSUS

Sl. No.	State/District	CBR	TFR	TMFR	GFR	GMFR	No. of children ever born per woman age group 45- 49	Child-woman Ratio (0-4)	Mean age at marriage of currently married women

Source : Occasional paper No.1 of 1997 office of the Registrar General India and Rajasthan state district profile 1991.

Note: * Newly Created districts after 1991 Census.

Different fertility measures indicates that the fertility level in the Dausa district was higher compared to the state average. The gross fertility rate (GFR) of the GMFR (Gross Marital Fertility Rate) and total fertility rate (TFR) of the district are also lower than that of state being 183 and 4.88 as against 184 and 5.01 of the state respectively. The total marital fertility rate (TMFR) of district is 5.55 is lower than that of state 5.59. The Crude Birth Rate (CBR) is also lower 35.26 as compared to the state 35.75.

However the number of children ever born per woman in the age group of 45-49 is 5.08 which is higher than the state average 5.07.

The mean age at marriage of females in the district 16.34 is lower than that of the state. It can be seen from the table. Child women ratio (CWR) 0-4 of the district is higher than state. It can be seen from the table.

ANNEXURE-IV(a) : PERCENTAGE DISTRIBUTION OF MIGRANTS BY PLACE OF BIRTH, 1991-2001

Place of Birth	1991 Census			2001 Census		
	Persons	Males	Females	Persons	Males	Females
1	2	3	4	5	6	7
(A) Migrants born within the state of Enumeration	1,133,946	244,517	889,429	334,152	29,062	305,090
	(87.28)	(76.71)	(90.71)	(97.46)	(92.72)	(97.94)
(i) Migrants born elsewhere in district of Enumeration	750,583	122,865	627,718	218,788	17,303	201,485
	(57.77)	(38.55)	(64.02)	(63.81)	(55.20)	(64.68)
(ii) Migrants born in other district of the State	383,363	121,652	261,711	115,364	11,759	103,605
	(29.51)	(38.16)	(26.69)	(33.65)	(37.52)	(33.26)
(B) Migrants born in other states of India	141,996	62,486	79,510	8,600	2,241	6,359
	(10.93)	(19.60)	(8.11)	(2.51)	(7.15)	(2.04)
(C) Migrants born in other countries	23,310	11,750	11,560	106	41	65
	(1.79)	(3.69)	(1.18)	(0.03)	(0.13)	(0.02)
Total Migrants	**1,299,252**	**318,753**	**980,499**	**342,858**	**31,344**	**311,514**
	(100.00)	**(100.00)**	**(100.00)**	**(100.00)**	**(100.00)**	**(100.00)**

(a) By Place of Birth

It was seen that a sizeable portion of migrants in Dausa District i.e. 87.28 percent in 1991 and 97.46 percent in 2001 were migrants whose place of birth was within the state of enumeration. Out of this major portion where migrants who were born elsewhere in the district of enumeration.

The migrant whose place of birth was in other states of India was 10.93 percent in 1991and 2.51 percent in 2001 Census.

Migrant to the district whose place of birth was in other countries was 1.79 percent in 1991, whereas the proportion was marginally dropped to 0.03 percent in 2001 Census.

ANNEXURE-IV(b) : RURAL AND URBAN COMPOSITION OF INTERNAL MIGRANTS BY PLACE OF BIRTH, 1991 CENSUS

Place of Birth	Total/ Rural/ Urban	Place of Enumeration		
		Total	Rural	Urban
1	2	3	4	5
Total Internal Migrants within the State	Total	1,133,946	738,463	395,483
		(100.00)	(65.12)	(34.88)
	Rural	941,456	684,423	257,033
		(83.02)	(60.36)	(22.66)
	Urban	188,643	52,090	136,553
		(16.64)	(4.60)	(12.04)
In other states of India	Total	141,996	20,220	121,776
		(100.00)	(14.24)	(85.76)
	Rural	50,086	12,300	37,786
		(35.27)	(8.66)	(26.61)
	Urban	90,770	7,850	82,920
		(63.92)	(5.53)	(58.39)

(b) Internal Migrants (Rural/Urban):

Majority of the internal migrants i.e. 83.02 per cent whose places of birth were within Rajasthan belonged to the rural areas of the state. The same trend also reflects in case of migrants born in other states of India as can be seen from the table:

ANNEXURE-IV(c) : INTERSTATE MIGRANTS, 1991 CENSUS

Place of Birth	1991 Census	
	Migr-ants	Perce-ntage to Total migrants
1	**2**	**3**
Bihar	7,730	5.45
Gujarat	8,620	6.07
Haryana	20,916	14.73
Madhya Pradesh	10,380	7.31
Uttar Pradesh	52,670	37.09
Delhi	12,380	8.72
Total for six States	**112,696**	**79.37**
Other States	**29,300**	**20.63**
Total	**141,996**	**100.00**

ANNEXURE-IV(c) : INTERSTATE MIGRANTS, 2001 CENSUS

Place of Birth	2001 Census	
	Migr-ants	Perce-ntage to Total migrants
1	**2**	**3**
Delhi	1,060	12.33
Gujarat	309	3.59
Haryana	566	6.58
Madhya Pradesh	1,059	12.31
Punjab	1,006	11.70
Uttar Pradesh	3,617	42.06
Total for six States	**7,617**	**88.57**
Other States	**983**	**11.43**
Total	**8,600**	**100.00**

(c) Inter-state Migrants

In case of Inter-state migrants, the migrants are mainly from Haryana and Uttar Pradesh as their percentages are 14.73 and 37.09 in 1991 censu. In 2001 census main migrants are from Delhi and Utter Pradesh and their percentage are 12..33 and 42.06 respectively. Percentage of six states to total migrants is 88.57 in 2001 It can be seen from the table:

ANNEXURE-IV (d) : PERCENTAGE DISTRIBUTION OF MIGRANTS BY PLACE OF LAST RESIDENCE, 1991-2001 CENSUS

Place of Last Residence	1991 Census			2001 Census		
	Persons	Males	Females	Persons	Males	Females
1	2	3	4	5	6	7
(A) Within the State of Enumeration but	1,155,596	250,067	905,529	345,443	35,134	310,309
outside the place of Enumeration	(87.65)	(77.25)	(91.04)	(97.59)	(93.74)	(98.05)
(i) Elsewhere in the District of Enumeration	766,053	126,295	639,758	228,809	21,521	207,288
	(58.10)	(39.01)	(64.32)	(64.64)	(57.42)	(65.50)
(ii) In other districts of the state of Enumeration	389,543	123,772	265,771	116,634	13,613	103,021
	(29.55)	(38.24)	(26.72)	(32.95)	(36.32)	(32.55)
(B) States in India beyond the state of Enumeration	142,776	63,336	79,440	8,439	2,314	6,125
	(10.83)	(19.57)	(7.99)	(2.38)	(6.17)	(1.94)
(C) Last Residence outside India	19,990	10,310	9,680	85	34	51
	(1.52)	(3.18)	(0.97)	(0.02)	(0.09)	(0.02)
Total Migrants	**1,318,362**	**323,713**	**994,649**	**353,967**	**37,482**	**316,485**
	(100.00)	**(100.00)**	**(100.00)**	**(100.00)**	**(100.00)**	**(100.00)**

(d) Migration by Place of Last Residence

In the percentage distribution of migrants by place of last residence in the district it was seen that in 1991 census, the highest proportion of migrants i.e. 87.65 percent were from within the state of enumeration but outside the place of enumeration. In 2001 Census this proportion increased to 97.59 percent in the same category. Surprisingly it was seen that the proportion of female migrants were higher than the male migrants in both censuses.

The migrants in the district that were from states in India beyond the state of enumeration was 10.83 percent in 1991 as compared to 2.38 percent in 2001 census.

Persons whose last residence was outside India were 1.52 percent in 1991 census while there was a marginal dropped to 0.02 percent in 2001 census.

ANNEXURE-IV(e) : RURAL AND URBAN COMPOSITION OF INTERNAL MIGRANTS BY PLACE OF LAST RESIDENCE, 1991 CENSUS

Place of last Residence	Total/ Rural/ Urban	Place of Enumeration		
		Total	Rural	Urban
1	2	3	4	5
Total Internal Migrants within the State	Total	1,155,596	752,313	403,283
		(100.00)	(65.10)	(34.90)
	Rural	955,516	696,663	258,853
		(82.69)	(60.29)	(22.40)
	Urban	196,800	54,130	142,670
		(17.03)	(4.68)	(12.35)

ANNEXURE-IV(e) : RURAL AND URBAN COMPOSITION OF INTERNAL MIGRANTS BY PLACE OF LAST RESIDENCE, 1991 CENSUS

Place of last Residence	Total/ Rural/ Urban	Place of Enumeration		
		Total	Rural	Urban
1	2	3	4	5
In other states of India	Total	142,776	21,090	121,686
		(100.00)	(14.77)	(85.23)
	Rural	47,536	12,310	35,226
		(33.29)	(8.62)	(24.67)
	Urban	94,090	8,710	85,380
		(65.90)	(6.10)	(59.80)

(e) Migration by Place of Last Residence (Rural/ Urban)

Majority of the internal migrants i.e 65.10 per cent whose place of last residence were within Rajasthan belonged to rural areas. The same trends also reflects in case of migrants whose place of last residence were in other state of India as can be seen from the table.

RELIGION

Religion is an important basic cultural characteristic of the population. It provides as interesting picture of the society. The data on religion projects the unity and diversity of the country. The data is great importance to the public as well as Government, NGO and Minorities Commission.

Among the followers of six major religions in Dausa District it was seen that the proportion of Hindus had marginally decreased from 97.02 percent in 1991 to 96.95 percent in 2001 Census whereas the proportion of Muslims increased from 2.59 to 2.68 percent. It also true in the case of Sikh Community during the same period but the Jain community showed a marginal decreased. The Christian community was registered the same in the both census.

At the state level however the proportion of Hindus, Sikhs and Christians decreased whereas those of Muslims Jains and Buddhist increased.

MARITAL STATUS OF POPULATION

Majority of the population of the district in 1991 census is 49.25 percent in never married followed by married and widowed i.e. 47.12 and 3.55 percent respectively. Out of the male total population of the district 53.28 percent males are never married and of female never married is 44.74 percent, the proportion of widowed females is higher 5.40 percent than the males 1.90 percent. Married males are 44.75 percent while 49.79 percent females are married at the district level. Divorced or separated is not so widely practiced, only 0.06 males and 0.07 females are reported in this category which are almost half to the stage average. The same trend was found in rural as well as urban areas. In 2001 census 51.16 is never married. There after comes married persons whose percentage to total population comes to 45.21 widowed persons in absolute numbers are 46608 which is 3.54 percent to total population. Sexwise, males have higher population of never married 55.07 percent as compared to females whose population is 46.80 percent. On the other hand females have higher proportion of married (48.10 percent) than males (42.61 percent) females have a phenomenal higher number 31145 of widows than male widowers 15463 in the district. It can be seen from Annexure VI.

AGE,SEX AND EDUCATIONAL LEVEL, 1991-2001

Literacy in the age-group 10-14 years in 1991 in the district was 62.5 percent in the total which was higher among the males 80.1 percent and females 42.2 percent. In the total in the age-group 15-19 years the literacy slightly lower in the total i.e. 62.2 percent and the same trend was found as in the earlier age group except that the female literacy in this age group 15-19 years was as low as 37.9 percent. In general it was seen that the literacy rate in the urban areas was much higher both among males and females. The proportion of metric but below graduate was however not very high. In the total there were 11.9 percent metric but below graduate persons. Here also the male proportion was higher i.e. 17.7 percent compared to females 5.4 percent. Graduate and above in the age group 20+ years followed the same trend but on lesser proportion. In 2001 census the total population of the Dausa district was 1317063 which 61.84 percent are literates. As per the definition of literacy in the 2001 Census the entire population in the age-group 0-6 was considered to be illiterates. The total literacy rate in the district Dausa in the age-group 10-14 years was 85.3 percent and among males and females it was 95.9 and 72.8 percent respectively which is higher as compared to the state in the same age group. Similarly

literacy rate in the age group of 15-19 years 95.1 percent males and 58.3 percent females were reported in the district which is also higher than that of the state.

It is a general trend of the literacy at the state as well as district level, female literacy is lower than the male literacy. The percentage showed a decline at Metric but below Graduate 18.68 percent as male and 3.00 percent as female while at the graduate and above level 7.73 percent males and 1.17 percent are females. It can be seen from the Annexure VII.
