VILLAGE AND TOWNWISE PRIMARY CENSUS ABSTRACT

ANAND NIGAM
Deputy Director
Directorate of Census Operations, Rajasthan

JALOR FORT

Jalor is famous for its fort built by the Parmars probably in the 10th century. The fort and the palaces had passed into many hands before finally falling into the hands of the rulers of Marwar. During those times the Hindu rulers were great patrons of art and culture. The fort of Jalor has a proud past aptly expressed in this famous couplet.

'Let the sky be torn;
the earth turned upside down
let the iron armour be cut to pieces,
heads severed, body fighting alone
but Jalore still would not surrender.

The fort has four gigantic gates but it is approachable only from one side, after a two mile long serpentine ascent. The fort is built on the lines of traditional Hindu Architecture. The enclosure is spacious with the mosque of saint Malik Shah said to be built by Allauddin Khilji in the center.

Urban Primary Census Abstract 444

Annexure-I : Number of villages under each Gram Panchayat, 2001 Census 456

Annexure-II : Fertility and Mortality, 1991 Census 475

Annexure-III : Various measures of fertility and mean age at marriage, 1991 Census 476

Annexure-IV : Percentage distribution of Migrants by place of birth/ place of last residence, 1991-2001 Census 477

Annexure-V : Brief account of main religions in the district as per 1991-2001 Census 479

Annexure-VI : Marital status of population as per 1991-2001 Census 480

Annexure-VII : Age, Sex and Education in the district, 1991-2001 Census 482

Annexure-VIII : Distribution of different mother tongues returned in 1991-2001 Census 483

Foreword

The District Census Handbook (DCHB) published by Census Organization since 1951 census, is one of the important publications in the context of planning and development at grass-root level. The publication, which is brought out for each district, contains several demographic and socio-economic characteristics village-wise and town-wise of the district alongwith the status of availability of civic amenities, infrastructural facilities, etc.

The scope of the DCHB was initially confined to a few Census Tables and Primary Census Abstract (PCA) of each village and town within the district. Thereafter, at successive censuses, its scope and coverage has been enlarged. The DCHB published at the 1961 census provided a descriptive account of the district, administrative statistics, census tables and a village and town directory including PCA. The 1971 census-DCHB series was in three parts: Part-A related to village and town directory, Part-B to village and town PCA and Part-C comprised analytical report, administrative statistics, district census tables and certain analytical tables based on PCA and amenity data in respect of villages. The 1981 census DCHB was in two parts: Part-A contained village and town directory and Part-B the PCA of village and town including the SCs and STs PCA up to tehsil/town levels. New features alongwith restructuring of the formats of village and town directory were added into it. In Village Directory, all amenities except electricity were brought together and if any amenity was not available in the referent village, the distance in broad ranges from the nearest place having such an amenity, was given. Information on new items such as adult literacy centres, primary health sub-centres and community health workers in the village were provided so as to meet the requirements of some of the Revised Minimum Needs Programme, Information on approach to the village was provided for the first time in the Village Directory so as to give the details on number of inaccessible villages in each district. In the Town Directory, a statement (IV-A) on slums was introduced to provide the details on civic and other amenities in the notified slums of Class I and Class II towns.

The 1991 census DCHB, by and large, followed the pattern of presentation of 1981 census, except the format of PCA was restructured. Nine-fold industrial classification of main workers was given against the four-fold industrial classification presented in the 1981 census. In addition, sex-wise population in 0-6 age group was included in the PCA for the first time with a view to enable the data users to compile more realistic literacy rate as all children below 7 years of age had been treated as illiterate at the time of 1991 census. One of the important innovations in the 1991 census was the Community Development Block (CD block) level presentation of village directory and PCA data instead of the traditional tehsil/taluk/PS level presentation. It was expected that the presentation of village directory and PCA data at CD block level will help the planners in formulation of micro level development plans, CD block being lowest administrative unit.

The present series of 2001 census DCHBs have been made more informative and exhaustive in terms of coverage and content. The Village Directory has been enlarged in scope by including a number of other facilities like banking, recreational and cultural facilities, newspapers and magazines and 'most important commodity' manufactured in village. Income and expenditure of gram panchayat, wherever possible, has been provided. Apart from these, more details on distance(s) at which basic amenities are available (if

medical facilities (viz. Allopathic Hospital, Maternity & Child Welfare Centre and Primary Health Centre), drinking water, post & telegraph (post office and phone), communication, bank, credit societies and recreational facilities. In Town Directory, the statement on Slums has been modified and its coverage enlarged by including details on all slums instead of 'notified slums'. The information is given in case of all statutory towns irrespective of their class, against only Class I and Class II towns in the 1981 and 1991 censuses. The basic amenities available in the villages and towns are analyzed in depth with the help of a number of cross-classified inset tables and statements. Two other significant additions in the publication are inclusion of 'motif' highlighting significant characteristic of the district and analytical notes as annexure. The analytical notes on (i) fertility and mortality and (ii) various measures of fertility and mean age at marriage are prepared based on 1991 Census. Whereas, in the notes relating to (i) percentage distribution of migrants by place of birth/place of last residence, (ii) main religions, (iii) marital status of population, (iv) age, sex and education, and (v) distribution of spectrum of mother tongue, nature and extent of changes occurred in the district in its basic socio-demographic features during the decade 1991-2001 are analyzed. The eight digits permanent location code (PLCN) to all the villages and towns have been assigned keeping in view the future needs.

The village and town level amenity data have been collected, compiled and computerized in prescribed record structure under the supervision of Shri J.L.Modi, Director of Census Operations, Rajasthan. Thereafter, efforts have been made to ensure comparability of the information with that of 1991 census data and the information brought out by the respective state governments in their annual reports and statistical handbooks for various years after 1991. The task of planning, designing and coordination of this publication was carried out by Shri R.G. Mitra, Deputy Registrar General (C&T) and Dr. I.C. Agrawal, Senior Research Officer of Social Studies Division. Dr. R.P. Singh, Deputy Registrar General (Map) provided the technical guidance in the preparation of maps. Whereas, Shri Anil Kumar Arora, Deputy Directory of Data Processing Division who worked under the overall supervision of Shri Himakar, Addl. Director (EDP) helped in preparation of record structure for computerization of village and town directory data and the programme for the generation of Village Directory and Town Directory statements including analytical inset tables. The draft DCHB manuscripts received from the Census Directorates have been scrutinized in the Social Studies Division under the guidance of Shri S.L. Jain, Deputy Director and Shri R.K. Mehta, Assistant Director. I am thankful to all of them and others who have contributed to make this publication possible.

New Delhi

D.K.Sikri
Additional Secretary &
Census Commissioner, India

Preface

I am deeply indebted to the State Government of Rajasthan for their unstinted support and cooperation despite all odds and adversaries like famine etc. at all stages of Census Operations of 2001. I am grateful to Shri Inderjit Khanna, the then Chief Secretary of Government of Rajasthan for his prompt response, guidance and cooperation given to the Census Organization. He infused a sense of urgency and seriousness in the minds of District Collectors and Officers of the District Administration, which geared up the entire administrative machinery. The Supervisors and Enumerators, the basic census functionaries worked ceaselessly in the entire period of fieldwork to make Census 2001 successful.

Sarvashri Ashok Pandey and Vinod Zutshi, the then Secretaries in the Department of Cabinet Secretariat and General Administration have been instrumental in making Census 2001 a successful one. I owe my thanks to both of them. I am also thankful to other Departments like Education, Finance, Revenue, Economics and Statistics, Public Relations, Printing and Stationery, Local Self-government and Personnel Department for extending their full cooperation.

I am deeply grateful to Shri J.K. Banthia, Ex-Registrar General and Census Commissioner of India for his unstinted support and spontaneous, unfailing guidance throughout our endeavours. At the outset I would like to thank Shri D.K. Sikri, Registrar General and Census Commissioner, India for guiding us in bringing out this report. My grateful thanks to Shri K.N. Unni, Ex-DRG (C&T), Shri R.G. Mitra, Ex-DRG (C&T), Shri R.P. Singh, Consultant (Map), Shri Himakar, Additional Director (EDP), Dr. I.C. Agrawal, A.R.G.(SS), Shri S.L. Jain, Deputy Director (SS), Shri C. Chakravorty, Joint Director (DDU) and their colleagues at the headquarter for their ever willing, helping hand and thoughtful suggestions for putting together and shaping the volumes in their present form.

The Director of Census Operations, Rajasthan, Shri J. L. Modi under whose guidance the entire operations were carried out deserves all credit for its success, but he was repatriated to the State Government for taking up some other important assignment before this volume could be made available for the press. I am deeply greatful to Shri H.S. Meena, Ex-Joint Director of Census Operations, Rajasthan for its success.

It may be mentioned a few annexures have been added to this volume with a view to provide an insight into the 1991 and 2001 data on the suggestion of Social Studies Division of the Office of the Registrar General, India. In this connection the contribution of Shri V.K. Gupta, Senior Compiler can not be ignored.

Shri H.C Sharma, Assistant Director incharge of District Census Handbooks and Primary Census Abstract, who was ably assisted by his team of dedicated workers deserve all praise for their perseverance and dedication in preparing Village and Town Directories and in finalization of PCAs and other inset tables. I would like to thank Shri G. Fernandes, Assistant Director who not only coordinated the work but also contributed immensely to the cause of Village and Town Directories.

In view of the increasing demand of the publications in electronic format, it has been decided to publish the DCHB also on CD. I highly appreciate the efforts put in by Smt. Jyoti Luhadiya, DD(EDP) and her team to compile in the electronic format. The efforts put in by Shri Divesh Chawla, DEO Gr-'B' to prepare this is highly commendable. In this connection, the contributions of Shri P.N. Mathur, Sr.Supervisor and Shri J.P. Verma, DEO Gr-'B' cannot be ignored.

Shri R.S.Tyagi, Senior Geographer has taken pains in drafting the District Profile and the Analytical Note for the district. The members of the staff in the Map Section did a commendable job under the guidance of Shri Panna Lal, R.O.(Map), ably assisted by Shri R.S. Tyagi, Sr.Geographer in bringing out various maps.

ANALYTICAL NOTE

Analytical Note

(i) History and scope of the District Census Handbook

The series of District Census Handbooks has been prepared after scanning and processing of data collected through Houselist Schedule and Household Schedule. Several new innovations have been introduced at almost all the stages of the Census of India, 2001, right from the preparatory efforts to the data processing and dissemination stage. This includes certain fundamental changes in the form and contents of the Houselist and Household schedules, while maintaining the continuity and comparability of the basic housing and population characteristics with the earlier census. For the Census of India 2001, a system of Permanent Location Code Numbers (PLCN) has been adopted by assigning to each village within the State/UT a continuous series from 1 to N. Each village has been assigned an eight digit code. The first six digits represent the code of the village as existing at the present census. The last two digits being '00' are kept for accommodating future changes in case of split of an existing village or creation of new villages etc. Since the permanent Location Codes have been assigned to each village, theoretically tracing the precise location of village on account of future jurisdictional changes in the boundaries of various administrative areas within the state should not pose a problem. It is imperative that under this scheme, the PLCN assigned to villages at the Census of India, 2001, are adopted in future censuses also to ensure the comparability of the data at the village and other administrative levels over a long time series.

The responses for almost all the questions in the Houselisting Schedule had pre-coded options. This not only helped the enumerators to record the response easily but at a later stage would hopefully facilitate quicker data processing. Apart from the improvements made in the format of the Houselisting Schedule, the scope of Houselisting was considerably expanded with the inclusion of new questions based on requirements of various data users and planners. The new features of the Houselisting Schedule are listed below.

- For the first time, different uses of census houses have been standardized and grouped into ten main uses and assigned code numbers.
- Plastic has been added in the list of material of wall and roof of a census house, as it is often used for shelter in slums and shanties.
- In the previous census, the location of drinking water source was categorized into two locations viz. 'within premises' and 'outside premises'. In the Census of India, 2001, the source 'outside premises' was split into two categories namely 'near the premises' and 'away from the premises'.
- The scope of question of availability of electricity was expanded to include six sources of lighting. Besides no lighting, this included sources like electricity, kerosene, solar, other oil and any other source.
- In 1991 Census, a question on availability of toilet facilities to the household was canvassed while in Census of India, 2001, specific information on availability of latrine within the house by the type of latrine was sought.

In addition to expending the scope of the questions canvassed during the Houselisting Operations in the 1991 Census, the following new questions were added in the Houselist Schedule for Normal Households at the Census of India, 2001.

- If the Census house was used for residential or partly residential purposes, the condition of the census house was categorized as good, livable or dilapidated based on the perception and response of the respondent.
- A question on number of married couple(s) living in the household was canvassed.
- Information was sought on the number of married couple(s) having independent room for sleeping.

- Information as to whether the waste-water outlet of the house is connected to 'closed drainage' or 'open drainage' or has not drainage was collected.
- A question on availability of bathroom within the house was included.
- Information on availability of kitchen within the house was also sought.
- Availability of certain assets to the households namely radio/transistor, television, telephone, bicycle, scooter/motor cycle/ moped, car/jeep/van were also included.
- It was also enquired whether any banking service was being availed by the household.

The Household Schedule adopted for the Population Enumeration also primarily had pre-coded options for majority of the questions. The questions for each data item were made as self-explanatory as far as possible for easy understanding. The comprehensive Household Schedule had three parts and two sides A and B. Part I contains the Location Particulars; Part II relates to Individual Particulars and Part III contains questions for Household engaged in Cultivation/Plantation. To facilitate quick tabulation for bringing out Provisional Population Totals, provisions of page totaling were made in the schedule itself for a few items namely population, males, females, population aged 0-6 years by sex, literates and workers and their categories by sex. Most of the questions canvassed during the 1991 Census, were retained for the 2001 Census, except the question on ex-serviceman, which was dropped during the Census of India, 2001. However, a number of new questions were added in the Household Schedule in view of the suggestions from policy makers, data users and researchers, while the scope of certain existing questions was enhanced.

These modifications are:

- Age at marriage was collected for males also, while it was collected for only ever-married females until the 1991 Census.
- The type of educational institution attended by a person was enlarged to include school, college, vocational institute, other institute and literacy center.
- The scope of the definition of 'work' was expanded in the Census of India, 2001, to include production of milk for domestic consumption. In the 1991 Census, cultivation of certain crops even for self-consumption was treated as economic activity. The scope of the term 'Cultivation' was expanded in this Census to include certain other crops such as tobacco, fruits, all types of flowers, roots and tubers, potatoes, chilies and turmeric, pepper, cardamom, all types of vegetables and fodder crops etc. This meant that activities related to production of all the above mentioned crops for domestic consumption has been treated as work. Only five crops viz. tea, coffee, rubber, coconut and betel nuts have been classified under 'Plantation' in the Census of India, 2001.
- At the 1991 Census, the question on seeking/ available for work was canvassed for only non-workers. At the Census of India, 2001, this question is asked from the Marginal Workers also. A question to elicit information on secondary work canvassed at the 1991 Census is dropped.
- From among the categories of non-workers adopted at the 1991 Census, the category 'Inmates of institutions' has been dropped and 'Retired Persons and Rentiers' has been replaced by the category 'Pensioners'.
- A new response category 'Moved after birth' was included in the question on 'reasons for migration' to bring out additional migration patterns. Natural calamities or distress migration as a reason for migration for last residence migrants included in the 1991 Census, is covered under category of 'Other'.
- Number of children born alive to currently married women during last one year was collected for male and female children separately.

Besides the above modifications, the following new questions were canvassed at the 2001 Census.

- A question on total disability was canvassed in the 1981 Census. In the 1991 Census, no question on disability was included. At the Census of India, 2001, a question to elicit information on total or partial disability was canvassed. The five types of disability on which information is collected are - in seeing, in hearing, in speech, in movement and mental.

- A new question on 'Travel to place of work' is canvassed mainly for workers engaged in non-agricultural activities. Information on distance from the residence to place of work and mode of travel to place of work is collected under this section.
- The Household Schedule has a new set of questions for Household engaged in cultivation/ plantation- i) Net area of land under cultivation/ plantation, ii) Net area of land irrigated and iii) Tenure status. This question was not canvassed at the 1991 Census but was canvassed in the 1981 Census in a slightly different form.
- The signature or thump impression of the respondent has been taken on the Household Schedule for the first time in the history of census. This was not only aimed at obtaining correct and complete information but also for giving an opportunity to the respondents to authenticate the information provided by them. The relationship of the respondent with the head of the household was also obtained. This new feature will pave way in carrying out a methodological study in future on the respondent profile in the census.

In 1981 Census, for the first time, an attempt was made in the series to bring out demographic and other data in diglot, Hindi and English, for a more beneficial use by data user of all categories. Hindi being the official language of the State, a Hindi version of the analytical notes was also added with a view to caters to the needs of all sections of readers. The manner of presentation of the District Census Handbooks for the 1991 Census is by and large the same.

As a necessary corollary to the Handbooks, Panchayat Samities, the basic administrative units of development, administration and planning, were listed out separately for the first time in 1981 Census in relation to those districts wherein they were not coterminous with their tehsils. As an additional attempt, informations relating to population figures as well as amenities available in each village located in the jurisdiction of each Panchayat Samiti were also presented in a separate volume under the title "Supplement to District Census Handbook". However, for reference in the main District Census Handbook, a list of villages forming part of each non-coterminous Panchayat Samiti was provided along with the abstracts of population and amenities for such Panchayat Samities as a whole in the form of Special Annexures.

In order to cater to the over-all needs of the data-users and to facilitate the task of administrators and planners it has now been decided to present the Village Directory and Primary Census data at the Panchayat Samiti level instead of the traditional Tehsil level presentation. It is expected that the presentation of Village Directory and Primary Census Abstract data at Panchayat Samiti level will help the planners in formation of micro-level developmental plans, as the Panchayat Samiti is now the lowest administrative unit for development planning. However, for the convenience of the data users and for the sake of comparability of data at Tehsil level, the Primary Census Abstract has also been presented at the Tehsil/ Town level in the form of an Appendix.

A general note on each district covering information of general interest regarding its history, topography, physiography, administrative set-up and places of tourist and historic importance etc. has also been included with a view to provide comprehensive and more purposeful information about the district as a whole. Population figures of Scheduled Castes and Scheduled Tribes constituting the core of 'Weaker Section' have also been presented at district, panchayat samiti and town level so as to facilitate planning for their welfare both at micro and macro levels.

It is earnestly hoped that this publication will serve its purpose for planners and administrators of welfare schemes and other data users in general.

Prior to 1951, Census Reports were printed for the whole province/state. The idea of preparing the District Census Handbooks separately for each district was conceived during 1951 Census as a part of a plan intended to secure an effective method of preserving the Census data below the district level. The idea was that all the district census tables would be bound together in a single volume called the District Census Handbooks. Since then the District Census Handbooks are being published regularly.

The 1951 Census series of District Census Handbooks was printed in two parts. Part I contained five General Population Tables (A Series), three Economic Tables (B Series), five Household and Age Tables (C Series) and seven Social and Cultural Tables (D Series). In Part II of District Census Handbook "Primary Census Abstract and Village Directory" which showed the basic population figures for each village or town classified by livelihood classes, were included along with some information of general nature.

The 1961 Census series of District Census Handbooks were printed in single volume in which Primary Census Abstract upto village and town/ward level and Village Directory upto village level were given. Besides, some official statistics collected from various state departments, four General Population Tables (A Series), sixteen Economic and Household Tables (B Series), seven Social and Cultural Tables (C Series), four Housing Tables (E Series) and eight Special Tables for Scheduled Castes/Scheduled Tribes were also provided in District Census Handbooks. For the first time in 1961 Census the maps for the district and tehsil were also included in the District Census Handbooks.

In 1971 Census series of District Census Handbooks village-wise 'Village Directory' giving services, facilities or amenities available in the village was given. 'Town Directory' was introduced for the first time giving useful information in respect of every town of the district. Rural Primary Census Abstract upto village level and Urban Primary Census Abstract upto enumeration block level were given in District Census Handbooks. While the District, Tehsil and Town maps were included; the inclusion of Census Tables was dispensed with in the District Census Handbooks in 1971 Census.

The scope of 1981 series of District Census Handbooks was enlarged specially in relation to amenities and land-use pattern. Apart from new items like uses of electricity, details of communication points, information for which was not collected in 1971 Census, a note on each district covering general information on its history, topography, flora, fauna and administrative set up etc. was also added. The format of the Primary Census Abstract was also restructured in the light of changes in economic and other questions canvassed in the 1981 Census but at the same time, all efforts were made to retain comparability with 1971 Census data. The inclusion of Special Primary Census Abstract for Scheduled Castes and Tribes at the Tehsil/Town level was another innovation introduced in 1981 Census series.

The manner of presentation of the District Census Handbooks for the 1991 Census was by and large the same as followed in 1981. However, the format of Primary Census Abstract was restructured slightly in the 1991 Census for the benefit of data users. Nine-fold industrial classification of main workers was given as against four-fold industrial classification presented in the 1981 Census. In addition to this, the sex-wise population in the 0-6 age-group was included in Primary Census Abstract for the first time with a view to enabling data users to compute more realistic literacy rate as all children below 7 years of age were treated as illiterate at the time of the 1991 Census.

One of the most important innovations in the 1991 Census was the Panchayat Samiti level presentation of data in the Village Directory and Primary Census Abstract instead of the traditional Tehsil level presentation.

Deviating from 1991 Census, like 1981 Census four fold industrial classification of main and marginal workers has been presented in 2001 as against nine fold given in 1991.

The mode of presentation of DCHB in 2001 will by enlarge be same as that of in 1991. The uniqueness of Census 2001 is that single record (Household Schedule) has been processed as against two records viz. Individual Slip and Household Schedule in the previous Censuses. Apart from this some deviation has been made this time by incorporating analytical notes on migration, fertility & mortality, education, marital status, age structure etc pertaining to 1991 Census of the respective district in the DCHB in the form of Annexures II to VIII. Similarly Tables based on Houselist data pertaining to Census 2001 has also been included in DCHB.

(ii) Brief History of the District

The district takes its name from the town of Jalor. Jalor was carved out of the erstwhile princely state of Jodhpur, which is now the district headquarter. On the merger of the Jodhpur State into the United States of

Greater Rajasthan in the year 1949, a separate district of Jalor was formed which continues to remain as such. According to local tradition, it is said to have derived its name from Jal tree (Salvadora Persical) which is found in abundance in the area.

At the time of creation of Jalor district in 1949 it consisted of two sub-divisions viz. Bhinmal and Jalor; and three tehsils namely, Jalor, Jaswantpura, and Sanchore. In 1954 seventy-seven villages of Sanchore tehsil with an area of 2010.4 sq.km were transferred to the Chohtan tehsil of Barmer district. During the period of 1951-61, a new tehsil called Ahore was constituted with the transfer of 123 villages and former town of Ahore with an area of 1708.4 sq.km from Jalor tehsil. In 1961, the headquarter of Jaswantpura tehsil was shifted to Bhinmal and the tehsil was renamed as Bhinmal. During 1981-91 inter-censal period, a new tehsil named Raniwara was constituted with the transfer of 85 villages and an area of 983.99 sq.km from the Bhinmal tehsil. In 1991-2001, two tehsils namely, Sayala and Bagora were newly formed. After 1991 Census Sayala tehsil was newly formed with 49 villages transferred from Jalor tehsil. 58 villages were transferred from Bhinmal tehsil to Bagora tehsil. The district has three statutory towns namely Jalor, Bhinmal and Sanchore.

(iii) Administrative set-up

Here, as in other districts, the Collector besides being the administrative head of the district, is also the District Magistrate. Each Sub-Division is under the charge of Sub-Divisional Officer while each Tehsil is under the charge and supervision of a Tehsildar who is also vested with the powers of Executive Magistrate. Each Sub-Tehsil is under the charge of a Naib Tehsildar.

Administratively the District is divided into 3 Sub-Divisions and 7 Tehsils and 7 Panchayat Samities as under:

Sl. No.	Name of Sub-Division	Name of Panchayat Samiti	Name of Tehsil	No.of Villages
1	2	3	4	5
1	Jalor	1. Ahore	Ahore	113
		2. Jalor	Jalor	46
			Ahore	23
		3. Sayala	Sayala	49
			Jalor	28
2	Sanchore	4. Sanchore	Sanchore	206
		5. Bhinmal	Bhinmal	23
3	Bhinmal		Bagora	58
		6. Jaswantpura	Bhinmal	75
		7. Raniwara	Raniwara	85

Source: District Planning Cell, Collectorate Jalor.

With the ushering in of democratic decentralization in 1959, seven Panchayat Samities were formed in the district. Panchayat Samities are guided by Zila Parishad under the Chairmanship of the Zila Pramukh but supervised by the Collector of the district, who is also the Ex-officio District Development Officer. The ultimate aim of the Government is to make the Panchayat Samities the sole agency of all developmental activities at the block level

Police

For maintaining internal security and peace in the district, one post of Superintendent of Police, one post of Additional Superintendent of Police and 4 posts of Deputy Superintendent of Police have been sanctioned in the district. Apart from these 9 Inspectors, 37 Sub Inspectors, 34 Assistant Sub Inspectors, 104 Head Constables and 559 Constables are working in the Police Force of the district.

Judicial Administration

For providing rapid justice to people, courts of District and Sessions Judge, Civil Judge and Chief Judicial Magistrate, Additional Civil Judge and Additional Judicial Magistrate and Munsif and Executive Magistrate are functioning at district headquarter. Alongwith this one post of the level of Sessions Judge is placed in the Consumer Protection Court. Each one court of Munsif and Executive Magistrate are functioning at the sub divisional headquarters of Bhinmal and Sanchore

(iv) Physical Features

(1) Location and size

Jalor district is situated at the south-western corner of Rajasthan State adjoining Gujarat State between $24^0$37' and $25^0$49' latitudes and $71^0$11' and $73^0$05' East longitudes. It is bounded on the north-west by Barmer district, on the north-east by Pali district, on the south-east by Sirohi district and on the south by Banaskantha district of the Gujarat State. The district covers an area of 10640 sq.km, which constitutes 47.69 sq.km Urban and 10592.31 sq.km Rural. It has 12th rank in the state according to the area.

(2) Physiography

Apart from a small offshoot of the Aravalli hills in the east, the area is a vast sand covered tract with sub-stratum of gneiss, hornblende and quartz, which The major part of the district is comprised of sandy desert with isolated hills near Jalor, Ahore, Darra,

Bhinmal, Lakawas and Jaswantpura etc. The average elevation of the plains is about 180 m. and the hills rise up to 736 m. above mean sea level. Sunda is the highest peak of 991 metres located in Jaswantpura Panchayat Samiti in the district. In the west of the district, the area is a vast sand covered tract. The drainage is constituted by Jawai, Khari, Bandi and Sagi tributaries of Luni, the only major river of western Rajasthan. These streams remain dry during most part of the year

(3) Climate

The characteristic features of the climate of the district are its dryness, extremes of temperature and low rainfall. The year may be divided into four seasons, winter from November to March, summer from April to June, monsoon from July to mid September and the post-monsoon season up to the end of October. The winter season sets in by November, when both day and night temperature begins to drop, reaching the lowest point in January. Temperatures rise rapidly after March and attain the peak in May or June. Day temperatures have been known to reach as high as 46^0c in the month of May and June. Lowest temperature has been recorded at 5^0c or below in the month of January. The average maximum temperature recorded in the year 1998 was 48.60^0c and the minimum at 4^0c.

The rainfall decreases towards the west. Normal annual rainfall in the district is 421.6 mm. The average annual rainfall for the year 1998-99, however, came to 252.2 mm and the average humidity percentage for the year 1998 was 62.00. Rain gauge instruments have been installed at five places namely Jalor, Ahore, Bhinmal, Jaswantpura and Sanchore in the district.

Geology and Minerals

Whereas a major part of the area is covered with a thick blanket of sand and alluvium soil, only 5 to 10 per cent area of the district reveals exposures of different rock types the metasedimentary rocks belonging to the Delhi Super Group which include phylite, schist, marble and quartzite are found in the district as inclusion within the dominant granites and rhyolite. The most common type of granite, the pink Jalor granite is found near Jalor town. The older Grey Erinpura granite is sparsely found in the district. The Malani rhyolite and associated agglomerate volcanic ash, felsite etc are found in the west of Roja Bhakar and Lakawas and in the north eastern part of the district. These rocks represent a large-scale ancient volcanic activity of the Indian Sub-continent and have been estimated to be about 745 million years old. Dykes and Veines of dolerite, granite, porphyry, aplitee etc also occur at places.

There are very few minerals of economic importance in the district. Some of these are as under:

Building Stone

Pink Variety of Jalor granite with varying textures is found at Roja Bhakar near Jalor town, Siyana, Bagra and other places. Granite based Industrial units have been established at these places. These are quarried in the form of blocks and slabs, capable of taking an excellent polish and have a very good market in India and abroad. Grey granite, aplite, prophyry, rholits and dolerite are also quarried in the district. Small granules of the Grey and Brown rhyolites are widely used in mosaic flooring.

Fluorite

It is an important mineral used in steel and other industries. Deposits of fluorite in the form of veins and in volcanic rocks have been discovered at Karara area, which has put the district on the mineral map of Rajasthan.

Veins of barytes and calcite also occur along with fluorite in the Karara area. Traces of marble have also been found near Ropsi village of Bhinmal tehsil.

The data regarding number of mines of various minerals in the district in 1999-2000 is as given below:

Sl. No.	Name of minerals	Number of Mines
	Principals minerals	
1	Granite	278
2	Flospar	4
3	Rholite	3
4	Marble	2
5	Gypsum	1
6	Masonry Stone	136

Source: District Planning Cell, Collectorate Jalor

Forest, Flora and Fauna

The forests of Jalor district falls under the Central India Mixed Deciduous type. The bulk of the forests grow on the detached and isolated hill slopes. The forests have been classified as (a) Reserved (b) Protected, and (c) Unclassified. The area covered under these forests in the year are as given below:

Sl. No.	Classification of the forest	Area in Sq.km.
1	ReservedForest	20.05
2	ProtectedForest	29.00
3	Unclassified	4.00

Source: District Planning Cell, Collectorate Jalor

About 0.50 per cent of the total area of the district was under forests according to the District Forest

Department during 1999-2000. It covers about 53.05 sq.km under forest.

The trees found in the forests on the hill slopes include Kumta (Acacia Senegal), Hingot (Balanites roxburghi), Salar (Boswellia Serrata Roxb), Khejri (Prosopis Spicigera), Gol (Lannea Coromandelica Merr), Thor (Euphorbia nivulia Ham), Pilu (Salvadora Oleoides Dcne). The common trees found in the forest along the base of the hills and in plains are Khejri (Prosopis Spicigera), Pilu (Salvadora Oleoides Dcne), Jal (Salvadora persica L), Aranjia (Acacia Leucophloea Roxb Wild), Ber (Zizyphus Jujuba), Neem (Azadirachta Indica Juss), Vilayati Khejri (Prosopis Juliflora) and Rohera (Tecomella Undulata).

Among the common shrubs and herbs found in the region mention may be made of Aak (Calotropis procera), Anwal (Cassia auriculata), Dessani (Rhus mysyrensis Heyne ex-wright and Arn), Gangan (Grewia tenax Forsk Fiori), Jharber (Zizyphus Mummularia), Jhinjani (Mimosa Rebicaulis Lam) etc. The grasses available in the district are mainly ephemeral and lasts only during the rainy season.

The wild animals found in the forests of the district are Black Bear (Melursus ursinus), Jackal (Cania Aureus), Panther (Panthera Pardus), Jungle Cat (Felis Chaus), Chinkara (Gazella bennetti), Indian Fox (Vulpes bengalensis), Neelgai (Boselaphus tragocamelus). Big game is extremely rare in the district.

All the more common Indian birds such as the Crow, house sparrow (Passer domesticus), Bulbul or Red vented Bulbul (Molpastes cafer), Baya (Weaver bird), Parrot or rose ringed parakeet (Psittacula krameri), Koyal (Eudynamis scolopacens), Vulture (Psendogyps bengalensis) etc are to found everywhere. The Kites or the common pariah kites (Milvus migrans), Peafowl (Pavocristatus), Sand-grouse (Ptercles exuctus), grey partridge (Francolinus pondicerianus), common and jungle bush quail (Coturnix and Perdicula asiatica) are also found.

Snakes are also found in the district of different sizes. Poisonous snakes like cobra (Naja naja), Krate (Bungarus) are seen in the forest while crocodile (Crocodiles porosus) is an extinct species.

Land use

As per the Surveyor General of India, total geographical area of the district is 10640.23 sq. km. The reporting area of land utilization in the district was 1056602 hectares during 1999-2000 as per land records at the District Collector's office

Sl. No.	Classification of the land use	Area (in hectare)	Percentage to total area
1	Forest	18,927	1.80
2	Area not available for cultivation	123,858	11.72
3	Permanent pasture and other grazingland	77,746	7.32
4	Current Fallow land	307,055	29.07
5	Net Area sown	529,016	50.09
	Total	**1,056,602**	**100.00**

Source: District Zila Sankhikiya Rooprekha-2001.

Crop pattern

Though both Rabi and Kharif Crops are grown in the district, however, Kharif remains the main crop of the district. Kharif crop consists of grains like Bajra, Jowar, Maiz and Kharif pulses. Sesamum is also grown. It is generally sown in May-June and harvested in September. The main Rabi crop is wheat. In same areas gram cumin seed (Jeera) and barley, Isbgol, Coriander are also grown. Wherever water is available for irrigation, the 'Rabi' crop is grown.

The statement below indicates the data for areas under cultivation for such crops (in hectares) and its production in tonnes for the year 1999-2000

Sl. No.	Name of crop	Area sown (in hectare)	Production (in tones)
1	Bajra	253,824	12,469
2	Jowar	1,820	87
3	Wheat	41,077	65,905
4	Maize	110	107
5	Barley	573	675
6	SmallMillets	617	30
7	Gram	1,214	-
8	Moong	38,179	66
9	Other Kharif Pulses	8,305	-
10	Other Rabi Pulses	15	16
11	Sesamum	25,398	64
12	Rape & Mustard	102,029	99,059
13	Ground Nut	16	5
14	Cotton	1,435	850
15	Cumin Seed	33,249	15,591
16	Isabgol	32,017	25,245
17	Castor Seed	25,757	14,319

Tenancy

Tenancy in the State is governed by the Rajasthan Tenancy Act, 1955. It is one of the most important and progressive laws relating to agrarian reforms. The provisions of the Act apply in respect of land held by tenants as if the State Government was the landholder acting through the Tehsildars. In relation to the land held by him every cultivator is either a tenant or a sub-tenant or an allottee or a trespasser. A tenant is one who is required to pay some rent on account of use and occupation of land let out to him for agricultural or allied purposes. Grantee with a favourable rate of rent, ijardar, thekedear or trespasser is not considered a tenant.

There are following classes of tenant:

(a) Khatedar tenants
(b) Maliks
(c) Tenants of Khudkasht and
(d) Gair-Khatedar tenants.

A Khatedar tenant is entitled to all the rights conferred and is subject to all the liabilities imposed on Khatedar tenant by the Rajasthan Tenancy Act, 1953. On the date of coming into force of Rajasthan Tenancy Act, a Zamindar or a Biswedar holding Khudkasht was treated as a Khatedar tenant irrespective of whether he was or not in Occupation on the date of vesting.

Malik is a Zamindar or Biswedar who has become malik of Khudkasht land held by him on abolition of Zamindari & Biswedari in 1959. The word 'Malik' was also added to section 14 of the Rajasthan Tenancy Act to classify it as a class of tenants. Section 13 of the Act provides that a Malik is entiled to all the rights conferred upon & is subject to all the liabilities imposed on Khatedar tenant and in substance, this class of tenancy is nothing but a Khatedar tenant.

As Zamindars & Biswedars holding Khudkasht were treated as Khatedar tenants a tenant of Khudkasht is essentially a subtenant in view of the fact that a sub-tenant is also eligible for protection of his cultivatory rights even against Khatedar tenants. Every tenant of land other than a Khatedar tenant, tenant of Khudkasht or a sub-tenant is Gair Khatedar tenant.

A trespasser is a person who takes or retains possession of land without authority or who prevents another person from occupying land duly let out to him by the state. After regularization, the trespasser becomes an allottee. An allottee is treated as a Gair Khatedar tenant on whom Sub-Divisional Officer shall shomoto confer Khatedari rights after ten years of allotment, provided that the allottee fulfills all the terms & conditions of allotment during his period. Similar is the case of other allottees who were otherwise allotted land by the state government.

Agricultural Implements and Machinery

Cultivation is by and large still done the traditional way. However there has been a drastic increase in the use of Tractors, Oil Engine Pump Sets and Electric Pump Sets and a decrease in the use of Ploughs.

There were 56474 Ploughs, 18578 Animal Carts, 11960 Tractors, 42989 Oil Engine Pump sets and 23014 Electric Pump sets in the district during the year 1997

Irrigation

The irrigation in the district is by and large depends on monsoon.

The area is mainly irrigated by wells followed by canal and tanks in the district. There were 55988 wells in the district in 1999-2000 of which 12084 are not usable. Maximum number of wells are found in Sanchore Panchayat Samiti. In Ahore Panchayat Samiti the situation is very precarious where of the total 5318 wells, 2672 are not usable. The net irrigated area has decreased from 314893 hectares in 1995-96 to 226842 hectares in 1999-2000.

Irrigation in 15 villages of the district through Jawai Canal and some irrigation facility is also available through Jelpura dam. On completion of Narmada dam large chunk of area will be irrigated by it.

By the crops that are irrigated it was seen that the food crops put together (other than sugarcane) cover more area.

Animal Husbandry

The district is prosperous from cattle wealth point of view. Apart from cultivation, cattle's rearing is also the main source of livelihood. As per cattle census of 1997 there were 315707 buffaloes, 710072 sheep,

466871 goats, 1536 horses and ponies, 287535 cattle, 13803 camels and 16952 poultry. Cows of kankrey and buffaloes of murrah breed, sheep and goats of marwah breed posses important place in states cattle wealth.

There were 40 veterinary hospitals, 1 veterinary dispensary, 23 artificial insemination centres, 31 sub-centeres and one biotic laboratory in the district in 1998-99. There were 23 Goshalas in the same year.

Sheep and wool extension centres are working in the district for the improvement of sheep breeding and increasing of wool production.

Industries

District Jalor has not yet come on the industrial map of the state because of lack of infrastructure required for industrial growth. Large scale industry is almost non-existent. However, there is a spurt in the small scale industries due to intensive efforts made under Rural Industrialization Scheme. The main small scale industries of the district relate to agricultural implements, fabrication of iron and steel, cement based industries, utensils, shoe making, engineering industries, cosmetics, handicrafts, scientific instruments, plastic and stationary.

Among cottage industries mention may be made of carpentry, dyeing and printing, goldsmithy, oilseed pressing, pottery, black-smithy, tanning, petro- salt and weaving. Other cottage industries in the district are rope making, brick manufacturing, bidi manufacturing and indigenous confectioneries.

Government of India and State Government have been providing various facilities and encouragement for the development of industries in the form of financial assistance by grant of loans and subsidies and factory accommodation by establishing Industrial Estates and allotment of land at concessional rates therein. The district has substantial livestock population serving as a source of large quantities of bones hides and skins in the area. According to the survey conducted by the State Industries Department, the availability of hydropower in the district, combined with products and economic facilities locally available, could help the development of various industries.

There were 2753 registered factories in the district during 2000-2001 providing employment to 8354 persons. The number of registered industries and employment provided them in the district is as given below:

Sl. No.	Types of Industries	No. of Units	Employment provided
1	2	3	4
1	Agro based Industries	267	879
2	Forest based Industries	150	579
3	Mineral based Industries	553	2,822
4	Engineering based Industries	292	1,093
5	Other Industries	208	516
	Artisan based Industries		
6	Local demand based Industries	234	386
7	Cattle based Industries	1,049	2,079
	Total	**2,753**	**8,354**

Source: District Planning Cell, Collectorate Jalor

Seven Industrial areas have been functioning in the district under the control of Rajasthan State Industrial Development and Investment Corporation Ltd. (RIICO).

There were 8980 persons registered with the Employment Exchange during 2000-2001. The distribution of the applicants according to occupation is as follows:

Sl. No.	Name of Occupation	Number of Applicants registered
1	Professional, Technical and related Persons	837
2	Administration and Managerial Persons	1
3	Clerical and related Persons	22
4	Agriculture, Fishing, Hunting and related Persons	80
5	Transport	1
6	Mining & Quarrying	150
7	Labourers not elsewhere classified	7,889
	Total	**8,980**

Source: Office District Employment Officer, Jalor

Power and Electricity

Electricity in Jalor district is mainly being through 33 kV line, 11 kV line, LT line and 132 kV line. The district is having two 132 and 400 K.W.S. Grid Stations, which are situated at Jalor and Bhinmal.

Before starting of the Rural Electrification Scheme in district, only Jalor town was provided with electricity. Now most of the important places of the district have been electrified. 657 villages have been electrified in the district upto 1999-2000.

The following table gives a description of power consumption in the district during the year 1999-2000.

1999-2000	
Type of uses	Consumption (in million KWH)
1. Domestic consumption	30.39
2. Commercial consumption	7.27
3. Industrial consumption	86.96
4. Public Lighting	0.70
5. Public Water Works	15.65
6. Agriculture (Irrigation)	331.56
7. Other Purposes	0.72
Total	**473.25**

Trade and Commerce

The articles exported from the district are cattle, shoes, coarse, cloth, marble tables, oil seeds, mustard oil and zeera etc. while cereals, rice, vegetable oil, tobacco, sugar, medicines and gur are imported.

In the district, there were 61 branches of various Indian Commercial Banks including Rural Banks in the year 1998-99, in addition to 16 Cooperative Banks. Jalor, Bhinmal and Sanchore are the main trade centres in the district. There were three Cinema houses in the district with a capacity of 1050 persons. Of these, one each was located at Sanchore, Bhinmal and Jalor towns; but now these are closed

Transport and Communication

The district is connected with metalled roads to all the adjoining districts namely Sirohi, Pali and Barmer; and Gujarat State. The main important route is National Highway No. 8 which passes through the district. It directly connects Barmer, Jaisalmer, Bikaner and Ganganagar, which are important cities. Its maintenance is the responsibility of CPWD. There are four roads, which fall into category of State Highways, and the State Public Works Department does their maintenance.

The total length of roads in the district has increased from 2146.20 km in 1995-96 to 2633.30 km in 1999-2000.

Of the total length of 2633.30 km during 2000, the National Highway run 41 km, Painted Roads 2098.50 km, Metalled roads 163.3 km, concrete & cement roads 297.5 km, and Fair weather tracks 33.00 km. All the important places of the district are connected with bus routes. *(Source: Office of Chief Engineer PWD)*

Out of 28363 Motor Vehicles registered in the district in the year 1999-2000, Private Cars & Jeeps numbered 3310, Motor Cycle and Auto Rickshaw 13034, Taxi & Contract Vehicles 859, Prakram Vehicles (Bus) 56, Public Carriers 1010, Tractors 8295 and others were 1556 vehicles.

The district has rail connections by meter gauge line of the Northern Railways. A branch line Samdari-Raniwara passes through the district which connects Jalor and Bhinmal towns. There are 15 railway stations in the district.

The district has no air link with other parts of the country. There are six Dak Bungalows located at Jalor, Bhinmal, Jaswantpura, Raniwara, Sanchore and Chitalwara, the maintenance of which is the responsibility of the State Public Works Department.

The district had 266 Post Offices, 20 Telegraph Offices, 42 Telephone Exchanges and 53 Public Call Offices, 64 Local Offices, 213 STD/PCO during 1999-2000.

Gram Panchayats composition & its role

The system of Panchayati Raj was inaugurated on 2nd October 1959 in Nagaur district by then Prime Minister Late Shri Jawahar Lal Nehru. Late Shri Balwant Rai Mehta proposed the recommendation for Panchayati Raj. There are three levels of Panchayati Raj:

(1) Gram Panchayat (Village level)

(2) Panchayat Samiti (Block level)

(3) Zila Parishad (District level)

Gram Panchayat is an important institution of self-government. The institution is set for a village or village agglomeration. A Gram Panchayat is created on 2,000-

8,000 population. It covers a maximum area of 6 miles. The villages, which have population below 2,000, are merged with the other villages to create a Gram Panchayat. Their tenure is of 5 years.

A Gram Panchayat consist 5 to 20 members. The Head of the Panchayat is called Sarpanch. Panch and Up-Sarpanchs are also elected. It includes a member belonging to backward class and a lady member. There are 151 Gram Panchayats in the district.

The main objectives of Gram Panchayat are to arrange the primary education, sanitation of public places, drinking water and light. It manages also the adult education, livestock and repairing of wells.

During the last years, Gram Panchayats functioned several important jobs like *Kam Ke Badley Anaj*, Construction of Panchayat Ghar, School buildings, roads and tanks. It organizes also the cattle fair. Gram Panchayat plays an important role in the development of village and its economy.

(v) Census Concepts

Building

A 'Building' is generally a single structure on the ground. Sometimes it is made up of more than component unit which are used or likely to be used as dwellings (residences) or establishments such as shops, business houses, offices, factories, workshops, worksheds, Schools, places of entertainment, places of worship, godowns, stores etc. It is also possible that building which have component units may be used for a combination of purposes such as shop-cum-residence,workshop-cum-residence,office-cum-Residence, etc.

Usually a structure will have four walls and a roof. But in some areas the very nature of construction of houses is such that there may not be any wall. Such is the case of conical structures where entrance is also provided but they may not have any walls. Therefore, such of the conical structures are also treated as separate buildings.

Permanent houses

Houses, the walls and roof of which are made of permanent materials. The material of walls can be any one from the following, namely, galvanized iron sheets or other metal sheets, asbestos sheets, burnt bricks, stones or concrete. Roof may be made of from any one of the following materials, namely, tiles, slate, galvanized iron sheets, metal sheets, asbestos sheets, bricks, stones or concrete.

Semi-permanent houses

Houses in which either the wall or the roof is made of permanent material and the other is made of temporary material.

Temporary houses

Houses in which both walls and roof are made of materials, which have to be replaced frequently. Walls may be made from any one of the following temporary materials, namely, grass, thatch, bamboo, plastic, polythene, mud, unburnt bricks or wood. Roof may be made from any one of the following temporary materials, namely, grass, thatch, bamboo, wood, mud, plastic or polythene.

Room

A room should have four walls with a doorway with a roof over head and should be wide and long enough for a person to sleep in, i.e., it should have a length of not less than 2 metres and a breadth of at least 11/2 metres and 2 metres in height. A room, however, which is used in common for sleeping, sitting, dining, storing and cooking, etc., should be regarded as a room. An unenclosed verandah, kitchen, store, garage, cattle-shed and latrine and rooms in which a household industry such as a handloom is located, which are not normally used for living or sleeping are excluded from the definition of a living room for the purpose of this question.

One is likely to come across conical shaped hut or tent in which human beings reside. In such improvised accommodation, there will be no four walls to a room and therefore, the above definition would not strictly apply to such types of accommodation. In such cases, the tent or conical hut etc., have been construed to be a room. In certain parts of the country, particularly in rural areas, the pattern of housing may present some problems. For example, a household may be in occupation of several huts put to different uses such as main residence, sitting room, store and even for sleeping at night. By strict application of the definition each one will be reckoned as a census house, but this does not reflect the real situation. While huts used as store or cattle shed pose no problems, those used as sleeping rooms beyond the main residence, should be

counted as rooms rather than separate census houses.If a garage is used by a servant and he lives in it as a separate household, it should be reckoned as a room available to the servant's household. If the servant is considered as a member of the household then the garage room should be reckoned as an additional room of the household.

Dwelling Room

A room is treated as a dwelling room if it has walls with a doorway and a roof and should be wide and long enough for a person to sleep in, i.e. it should have a length of not less than 2 meters and a breadth of at least 1.5 meters and a height of 2 meters. A dwelling room would include living room, bedroom, dining room, drawing room, study room, servant's room and other habitable rooms. Kitchen, bathroom, latrine, store room, passageway and verandah which are not normally usable for living are not considered as dwelling rooms. A room, used for multipurpose such as sleeping, sitting, dining, storing, cooking, etc., is regarded as a dwelling room. In a situation where a census houses is used as a shop or office., etc., and the household also stays in it then the room is not considered as a dwelling room. But if a garage or servant quarter is used by a servant and if she/he also lives in it as a separate household then this has been considered as a dwelling room available to the servant's household. Tent or conical shaped hut if used for living by any household is also considered as dwelling room. A dwelling room, which is shared by more than one household, has not been counted for any of them. If two households have a dwelling room each but in addition also share a common dwelling room, then the common room has not been counted for either of the households.

Census house

A 'census house' is a building or part of a building used or recognised as a separate unit because of having a separate main entrance from the road or common courtyard or staircase, etc. It may be occupied or vacant. It may be used for residential or non- residential purpose or both.

In certain peculiar situations, the manner in which buildings and census houses were identified for numbering in the field by the enumerators is described hereunder:

Sometimes a series of different buildings are found along a street which are joined with one another by common walls on either side looking like a continuous structure. These different units are practically independent of one another and are likely to have been built at different times and owned by different persons. In such cases, though the whole structure with all the adjoining units apparently appears to be one building, each portion was treated as a separate building and its constituent units as separate census houses.

On the other hand, one may come across cases, particularly in large cities of multi-storeyed ownership flats. In these cases while the structure looks like one building, different persons own the flats. In case of such multi-storeyed structures, having a number of flats owned by different persons, the entire structure was treated as one building and each flat as a separate census house.

If within a large enclosed area, there are separate buildings owned by different persons then each such building is treated as a separate building. There can be a situation where within an enclosed compound there are separate buildings owned by an undertaking or company or even government that are actually in occupation of different persons. For example, Indian Oil Corporation colony where the buildings are owned by the Corporation but these are in occupation of their employees. Each such building was treated as a separate building. But if in any one of these buildings there were flats in occupation of different households, each such flat was reckoned as a separate census house.

Sometimes if becomes difficult to apply the definition of census house strictly in certain cases. For example, in an urban area, if a flat has five rooms, each room having direct entrance from the common staircase or courtyard. By definition, this has to be treated as five census houses. If all these five rooms are occupied by a single household it was not realistic to treat them as five census houses. In such a case,'singleness' of use of these rooms along with the main house should be considered and the entire flat was treated as one census house.On the other hand, if two independent households occupy these five rooms, the first household living in 3 rooms and the second household occupying 2 rooms, then considering the use, the first three rooms together were treated as one census house and the remaining rooms as another census house. But if each room was occupied by an independent household, then each such room was treated as a separate census house.

In case of hostels, hotels, etc., even if the door of each room in which an inmate lives opens to a common verandah, staircase, courtyard or a common room, as

it happens almost invariably, the entire hostel/ Hotel building was treated as one census house, but if such hostels/ hotels have out- houses or other structures used for different purposes or the same purpose, then each such structure attached to the main hostel / hotel was treated as a separate census house.

In some parts of the country, in rural areas, the pattern of habitation is such that a group of huts, located in a compound, whether enclosed or unenclosed, is occupied by one household. While the main residence may be located in one hut, other huts may be used for sleeping, as a kitchen, bath room, baithak, etc. Though each of the huts was a separates structure, they form a single housing unit and therefore, have to be treated collectively as one building and one census house. If some of the huts are used by one household and the others by a second household as residence, then the two groups of huts were treated as separate census houses. However, if there were also other huts in the compound used for other purposes and not as part of the household's residence such as, cattle shed, workshed, etc., these were treated as separate census houses.

On the other hand, in urban areas, where more than one structure within an enclosed or open compound (premises) belonging to the same person, e.g., the main house, the servant's quarter, the garage, etc., only one building number was given for this group and each of the constituent a separate census house number.

Only cases where a structure with roof and pillars has come up was treated as a building.

Village

The basic unit for rural areas is the revenue village, which has definite surveyed boundaries. The revenue village may comprise of one or more hamlets but the entire village is treated as one unit for presentation of data. In unsurveyed areas, like villages within forest areas, each habitation area with locally recognized boundaries is treated as one village.

Rural-Urban area

The data in tables on Houses, Household Amenities and Assets are presented separately for rural and urban areas. The unit of classification in this regard is 'town' for urban areas and 'village' for rural areas. In the Census of India 2001, the definition of urban area adopted is as follows:

a) All places with a municipality, corporation, cantonment board or notified town area committee, etc.

b) A place satisfying the following three criteria simultaneously:
   i) a minimum population of 5,000;
   ii) at least 75 per cent of male working population engaged in non-agricultural pursuits; and
   iii) a density of population of at least 400 per sq. km.(1,000 per sq.mile)

For identification of places which would qualify to be classified as 'urban' all villages, which, as per the 1991 Census had a population of 4,000 and above, a population density of 400 persons per sq. km. and having at least 75 per cent of male working population engaged in non-agricultural activity were considered. To work out the proportion of male working population referred to above against b) (ii), the data relating to main workers were taken into account.

Apart from these, the outgrowths(OGs) of cities and towns have also been treated as urban under 'Urban Agglomerations'. Examples of out-growths are railway colonies, university campuses, port areas, military camps, etc., that may have come up near a statutory town or city but within the revenue limits of a village or villages contiguous to the town or city. Each such individual area by itself may not satisfy the demographic criteria laid down at (b) above to qualify it to be treated as an independent urban unit but may deserve to be clubbed with the towns as a continuous urban spread. Thus, the town level data, wherever presented, also includes the data for outgrowths of such towns.

City

Towns with population of 1,00,000 and above are called cities.

Urban Agglomeration

An Urban Agglomeration is a continuous urban spread constituting a town and its adjoining urban outgrowths (OGs) or two or more physically contiguous towns together and any adjoining urban outgrowths of such towns. In some cases railway colonies, university campuses, port areas, etc., may come up near a city or statutory town outside its statutory limits but within the

revenue limits of a village or villages contiguous to the town or city. Each such individual area by itself may not satisfy the minimum population limit to qualify it to be treated as an independent urban unit but may deserve to be clubbed with the town as a continuous urban spread.

For the purpose of delineation of Urban Agglomerations during Census of India 2001, following criteria are taken as pre-requisites:

a) The core town or at least one of the constituent towns of an urban agglomeration should necessarily be a statutory town; and

(b) The total population of all the constituents (i.e., towns and outgrowths) of an Urban Agglomeration should not be less than 20,000 (as per the 1991 Census).

With these two basic criteria having been met, the following are the possible different situations in which Urban Agglomerations would be constituted:

i) a city or town with one or more contiguous outgrowths;
ii) two or more adjoining towns with their outgrowths; and
iii) A city and one or more adjoining towns with their outgrowths all of which form a continuous spread.

Household

A 'household' is usually a group of persons who normally live together and take their meals from a common kitchen unless the exigencies of work prevent any of them from doing so. Persons in a household may be related or unrelated or a mix of both. However, if a group of unrelated persons live in a census house but do not take their meals from the common kitchen, then they are not constituent of a common household. Each such person was to be treated as a separate household. The important link in finding out whether it was a household or not was a common kitchen. There may be one member households, two member households or multi-member households.

Institutional household

A group of unrelated persons who live in an institution and take their meals from a common kitchen is called an Institutional Household. Examples of Institutional Households are boarding houses, messes, hostels, hotels, rescue homes, jails, ashrams, orphanages, etc. To make the definition more clearly perceptible to the enumerators at the Census 2001, it was specifically mentioned that this category or households would cover only those households where a group of unrelated persons live in an institution and share a common kitchen.

Houseless household

Households who do not live in buildings or census houses but live in the open on roadside, pavements, in hume pipes, under fly-overs and staircases, or in the open in places of worship, mandaps, railway platforms, etc., are treated as Houseless Households.

Scheduled Caste and Scheduled Tribe

Article 341 of the Constitution provides that the President may, with respect to any State or Union territory, specify the castes, races or tribes or parts of or groups within castes, races or tribes which shall for the purposes of the Constitution be deemed to be Scheduled Castes in relation to that State or Union territory. Article 342 similarly provides for specification of tribes or tribal communities or parts of or groups within tribes or tribal communities which are to be deemed for the purposes of the Constitution to be Scheduled Tribes in relation to the various States and Union territories. In pursuance of these provisions, the list of Scheduled Castes and / or Scheduled Tribes are notified for each State and Union territory and are valid only within the jurisdiction of that State or Union territory and not outside.

It is important to mention here that under the Constitution (Scheduled Castes) Order, 1950, no person who professed a religion different from Hinduism was deemed to be a member of a Scheduled Caste in addition to every member of the Ramdasi, Kabirpanthi, Majhabi or Sikligar caste resident in Punjab or Patiala and East Punjab States Union were in relation to that State whether they professed the Hindu or the Sikh religion. Subsequently, in September 1956, by an amendment, the Presidential Order of 1950 and in all subsequent Presidential Orders relating to Scheduled Castes, the Hindu and the Sikh religions were placed on the same footing with regard to the specification of Scheduled Castes. Later on, as per the amendment made in the

Constitution (Scheduled Castes) Order 1990, the Hindu, the Sikh and the Buddhist were placed on the same footing with regard to the recognition of the Scheduled Castes.The lists containing the names of the Scheduled Castes and the Scheduled Tribes applicable for the Census of India 2001 in the State are given below:

Scheduled Castes

1. Adi Dharmi
2. Aheri
3. Badi
4. Bagri, Bagdi
5. Bairwa, Berwa
6. Bajgar
7. Balai
8. Bansphor, Bansphod
9. Baori
10. Bargi, Vargi, Birgi
11. Bawaria
12. Bedia, Beria
13. Bhand
14. Bhangi, Chura, Mehtar, Olgana, Rukhi Malkana, Halalkhor, Lalbegi, Balmiki, Valmiki, Korar, Zadmalli
15. Bidakia
16. Bola
17. Chamar, Bhambhi, Bambhi, Bhambi Jatia, Jatav, Jatava,Mochi, Raidas, Rohidas, Regar, Raigar, Ramdasia, Asadaru, Asodi, Chamadia, Chambhar, Chamgar, Haralayya, Harali, Khalpa, Machigar, Mochigar, Madar, Madig, Telegu Mochi, Kamati Mochi, Ranigar, Rohit, Samgar
18. Chandal
19. Dabgar
20. Dhanak, Dhanuk
21. Dhankia
22. Dhobi
23. Dholi
24. Dome, Dom
25. Gandia
26. Garancha, Gancha
27. Garo, Garura, Gurda, Garoda
28. Gavaria
29. Godhi
30. Jingar
31. Kalbelia, Sapera
32. Kamad, Kamadia
33. Kanjar, Kunjar
34. Kapadia, Sansi
35. Khangar
36. Khatik
37. Koli, Kori
38. Kooch Band, Kuchband
39. Koria
40. Madari, Bazigar
41. Mahar, Taral, Dhegumegu
42. Mahyavanchi, Dhed, Dheda, Vankar, Maru, Vankar
43. Majhabi
44. Mang, Matang, Minimadig
45. Mang, Garodi, Mang Garudi
46. Megh, Meghval, Meghwal, Menghvar
47. Mehar
48. Nat, Nut
49. Pasi
50. Rawal
51. Salvi
52. Sansi
53. Santia, Satia
54. Sarbhangi
55. Sargara
56. Singiwala
57. Thori, Nayak
58. Tirgar, Tirbanda
59. Turi

Language and Mother tongue

As per the census concept, each language is a group of mother tongues. The census questionnaire collects information on the mother tongue of each person and mother tongue is defined as the language spoken in childhood by the person's mother to the person. If the mother died in infancy, the language mainly spoken in the person's home in childhood will be the mother tongue. In the case of infants and deaf mutes, the language usually spoken by the mother is considered as mother tongue. It is not necessary that the language spoken as mother tongue should have a script. The mother tongues returned by the respondents in census are classified and grouped under appropriate languages according to their linguistic characteristics.

Literate

A person age 7 years and above who can both read and write with understanding in any language is taken as literate. A person who can only read but cannot write is not literate. It is not necessary that to be considered as literate, a person should have received any formal education or passed any minimum educational standard. Literacy could also have been achieved through adult literacy classes or through any non-formal educational system. People who are blind and can read in Braille are treated as literates.

Literacy rate

Literacy rate of the population is defined as the percentage of literates in the age group seven years and above. For different age groups the percentage of literates in that age group gives the literacy rate.

Educational level

The highest level of education a person has completed.

Work

Work is defined as participation in any economically productive activity with or without compensation, wages or profit. Such participation may be physical and/or mental in nature. Work involves not only actual work but also includes effective supervision and direction of work. It even includes part time help or unpaid work on farm, family enterprise or in any other economic activity. All persons engaged in 'work' as defined above are workers. Persons who are engaged in cultivation or milk production even solely for domestic consumption are also treated as workers.

Reference period for determining a person as worker and non-worker is one year preceding the date of enumeration.

Main-worker

A person who has worked for major part of the reference period (i.e. six months or more during the last one year preceding the date of enumeration) in any economically productive activity is termed as 'Main worker'.

Marginal worker

A person who worked for less than six months of the reference period (i.e. in the last one year preceding the date of enumeration) in any economic activity is termed as 'Marginal worker' .

Non-worker

A person who has not worked at all in any econom ically productive activity during the reference period (i.e. last one year preceding the date of enumeration) is termed as 'Non worker'.

Cultivator

For purposes of the Census a person is classified as cultivator if he or she is engaged in cultivation on land owned or held from government or held from private persons or institutions for payment in money, kind or share. Cultivation includes effective supervision or direction in cultivation.

A person, who has given out her/his land to another person or persons or institution(s) for cultivation for money, kind or share of crop and who does not even supervise or direct cultivation in exchange of land, is not treated as cultivator. Similarly, a person working on another person's land for wages in cash or kind or a combination of both (agricultural labourer) is not treated as cultivator.

Cultivation involves ploughing, sowing, harvesting and production of cereals and millet crops such as wheat, paddy, jowar, bajra, ragi, etc., and other crops such as sugarcane, tobacco, ground-nuts, tapioca, etc., and pulses, raw jute and kindred fiber crop, cotton, cinchona and other medicinal plants, fruit growing, vegetable growing or keeping orchards or groves, etc. Cultivation does not include the following plantation crops–tea, coffee, rubber, coconut and betel nuts (areca).

Agricultural labourer

A person who works on another person's land for wages in money or kind or share is regarded as an agricultural labourer. She/he has no risk in the cultivation, but merely works on another person's land for wages. An agricultural labourer has no right of lease or contract on land on which she/he works.

Household industry worker

Household industry is defined as an industry conducted by the head of the household herself/himself and or by the members of the household at home or within the village in rural areas and only within the precincts of the house where the household lives in urban areas. The larger proportion of workers in household industry should consist of members of the household including the head. The industry should not be run on the scale of a registered factory which would qualify or has to be registered under the Indian Factories Act and should be engaged in manufacturing, processing, servicing and repairs of goods.

It does not include professions such as a pleader, Doctor, Musician, Dancer, Waterman, Astrologer, Dhobi, Barber, etc. or merely trade or business, even if such professions, trade or services are run at home by members of the household.

Other worker

A person who has been engaged in some economic activity during the reference period but not as a cultivator or agricultural labourer or in Household Industry is termed as a 'Other Worker (OW)'. The type of workers that come under this category of 'OW' include all government servants, municipal employees, teachers, factory workers, plantation workers, those engaged in trade, commerce, business, transport, banking, mining, construction, political or social work, priests, entertainment artists, etc. In effect, all those workers other than cultivators or agricultural labourers or household industry workers, are 'Other Workers'.

Work participation rate

Percentage of workers (main + marginal) to total population.

Population density

Population density is the number of persons inhabited per square kilometre of the area.

Age

Age is measured in terms of the completed number of years

Sex-ratio

Number of females per 1000 males in a population.

(vi) Non Census Concepts

Improved drinking water

If the household had access to drinking water supplied from a tap, hand pump, tube well or well (protected or covered) situated within or outside the premises, it is considered as having access to improved drinking water.

It may be mentioned that such uniform definition may not be valid across all states.

System of Sewerage

Generally, a sewerage system would mean a network of mains and branches of underground conduits for the conveyance of sewerage to the point of disposal. Sewers that carry only household and industrial wastage are called separate sewers; those that carry storm water from roofs, streets and other surfaces are known as storm water drains, while those carrying both sewage and storm water are called combined sewers. However, in some towns which are not provided with such underground sewerage system, it is served by open surface drain, box drain, sylk pattern drain, etc., in these towns.

Type of latrine and Method of disposal of night soil

There are three prevalent systems of disposal of human wastes, viz.(i) underground sewerage, (ii) sanitary water flush latrines with individual disposal systems, like septic tank, leaching cess pool and collecting well, and (iii) dry type of latrines with manual scavenging.

The system of underground sewerage provides for the street sewerage with which are connected the sanitary latrines constructed in the houses having water closets and fitted with flushing cistern (or hand flushing). Through this sewer the faecal matter is transported without the need for scavenging. This system generally exists in cities and big towns.

Where the streets sewer does not exist these sanitary water flush latrines are connected to a local septic tank with a sub-soil dispersion system or a leaching pit. Here the liquid wastes from the water closet is disposed of locally in leaching pit, a septic

tank with a soil dispersion system is constructed. This dispersion requires an optimum travel through the pores of the soil which renders the harmful liquid bacterially innocuous by the slow process of filteration through the soil traversed.

Where the soil is impermeable, collecting wells are constructed and the sanitary water flush latrines are connected with them. These wells are cleaned at periodic intervals by a suitable device. The dry type of latrines are of service type latrines from where human excreta is removed by scavengers from house to house, in most cases carrying it on their heads or shoulders or in baskets with handle or wheel barrows. These are then collected in bullock carts or trucks or tractors and trolleys for being carried to the dumping grounds.Where the streets sewer does not exist these sanitary water flush latrines are connected to a local septic tank with a sub-soil dispersion system or a leaching pit. Here the liquid wastes from the water closet is disposed of locally in leaching pit, a septic tank with a soil dispersion system is constructed. This dispersion requires an optimum travel through the pores of the soil which renders the harmful liquid bacterially innocuous by the slow process of filteration through the soil traversed.

Fertility

In demography, the word fertility is used in relation to the actual production of children or occurrence of births specially live births. Fertility is a measure of rate at which population adds to itself by births and normally assessed by relating the number of births to a full or part of the population, such as number of married women or number of women of child bearing age. The definitions of the terminology used in computing different fertility rates are mentioned below:

Crude Birth Rate (CBR)

Ratio of the number of live births in a year to the mid year population, normally expressed per 1,000 population.

$$CBR = \frac{\text{Number of live births during the year}}{\text{Mid-year Population}} \times 1000$$

CrudeDeath Rate (CDR)

Ratio of the number of deaths in a year to the mid year population, normally expressed per 1,000 population.

$$CDR = \frac{\text{Number of deaths during the year}}{\text{Mid-year Population}} \times 1000$$

Natural Growth Rate

Growth rate is obtained as the difference between crude birth rate and crude death rate in the absence of migration.

Age Specific Fertility Rate (ASFR)

Number of live births in a year to female population in any specified age group normally expressed per 1,000 women.

$$ASFR = \frac{\text{Number of live births in a particular age-group}}{\text{Mid-year female population of the same age-group}} \times 1000$$

Age Specific Marital Fertility Rate (ASMFR)

Number of live births in a year to married female population in any specified age group normally expressed per 1,000 married women.

$$ASMFR = \frac{\text{Number of live births in a particular age-group}}{\text{Mid-year married female population of the same age-group}} \times 1000$$

General Fertility Rate (GFR)

Number of live births per 1,000 women in the reproductive age-group (15-49) years in a given year.

$$GFR = \frac{\text{Number of live births in a year}}{\text{Mid-year female population in the age-group (15-49) years}} \times 1000$$

General Marital Fertility Rate (GMFR)

Number of live births per 1,000 married women in reproductive age-group (15-49) years in a given year.

$$GMFR = \frac{\text{Number of live births in a year}}{\text{Mid-year married female population in the age-group (15-49) years.}} \times 1000$$

Total Fertility Rate (TFR)

It is obtained as the total of the age specific fertility

rates (number of children born per woman of the particular age) for the entire reproductive age span. It provides the average number of children that will be born to a woman under the fertility levels indicated by the age specific fertility rates assuming that there is no mortality of women till the completion of reproductive period.

$$TFR = \frac{5 \times \sum_{15\text{-}19}^{45\text{-}49} ASFR}{1000}$$

Total Marital Fertility Rate (TMFR)

Average number of children that would be born to a married woman if she experiences the current fertility pattern throughout her reproductive span (15-49) years assuming that there is no mortality of women till the completion of reproductive period.

$$TMFR = \frac{5 \times \sum_{15\text{-}19}^{45\text{-}49} ASMFR}{1000}$$

Age-Specific Mortality Rate (ASMR)

Number of deaths in a particular age and sex group per 1,000 population of the same age group.

$$ASMR = \frac{\text{Number of deaths in a particular age-group}}{\text{Mid-year population of the same age-group}} \times 1000$$

q1

Probability of dying between birth and age 1. This can be used as approximate value of Infant Mortality Rate (IMR) which gives the ratio of number of deaths in a year of children aged less than one year to the number of births in that year.

q2

Probability of dying between birth and age 2.

q5

Probability of dying between birth and age 5. This indicator is also known as Under Five Mortality Rate (U5MR).

Infant Mortality Rate (IMR)

Ratio of the number of infant deaths (deaths of children below one year) in a year to the number of live births in that year.

$$IMR = \frac{\text{Number of infant deaths during the year}}{\text{Number of live births during the year}} \times 1000$$

Infant mortality rate comprises of two parts, viz., Neo-natal mortality rate and Post neo-natal mortality rate. The neo-natal mortality rate also comprises of two parts viz., Early neo-natal mortality rate and late neo-natal mortality rate. These are defined as:

Neo-Natal Mortality Rate (NMR)

Number of infants dying within the first month of life (28 days or under) in a year per 1,000 live births of the same year.

$$NMR = \frac{\text{Number of infant deaths aged 28 days or under during the year}}{\text{Number of live births during the year}} \times 1000$$

Early Neo-Natal Mortality Rate

$$= \frac{\text{Number of infant deaths of less than 7 days during the year}}{\text{Number of live births during the year}} \times 1000$$

Late Neo-Natal Mortality Rate

$$= \frac{\text{Number of infant deaths of 7 days to less than 29 days during the year}}{\text{Number of live births during the year}} \times 1000$$

Post Neo-Natal Mortality Rate (PNMR)

$$= \frac{\text{Number of deaths of 29 days to less than One year during the year}}{\text{Number of live births during the year}} \times 1000$$

Peri-natal Mortality Rate (PMR)

Number of still births plus deaths within 1st week of delivery per 1,000 births in a year.

$$PMR = \frac{\text{Number of still births and infant deaths of less than 7 days during the year}}{\text{Number of live births and still births during the year}} \times 1000$$

Still Birth Rate (SBR)

$$= \frac{\text{Number of still births during the year}}{\text{Number of live births and still births during the year}} \times 1000$$

Maternal Mortality Rate (MMR)

Number of deaths of women in the age group 15-49 while pregnant or within 42 days of termination of pregnancy from any cause related to pregnancy and child birth per 100,000 live births in a given year.

$$\text{MMR} = \frac{\text{Number of maternal deaths to women in the agegroup 15-49}}{\text{Number of live birth}} \times 100{,}000$$

Eligible couple (Couples per 1000 Population)

Number of currently married females in the age group 15-44 years per 1000 persons of all ages.

Child woman ratio (0-4)

Number of children in the age group 0-4 years per 1000 women in the age group 15-49 years.

Child woman ratio (5-9)

Number of children in the age group 5-9 years per 1000 women in the age group 15-49 years.

Migration

Migration is the third component of population change, the other two being mortality and fertility.

A person is considered as a migrant by place of birth if the place in which he/she is enumerated during the census is other than the place of his/her birth.

Similarly a person is considered as a migrant by place of last residence if the place in which he/she is enumerated during the census is other than his/her place of immediate last residence outside the village or town and not simply in another house or locality in the same village or town.

Certain aspects concerning temporary movement/ migration of people has been explained below as these are important components concerning migration:

(i) Migration of persons in search of job is high in the country. In many cases such migrants are only seasonal in nature. People migrate to other places for work in a particular season and come back again to their usual place of residence after three or four months. All such workers are treated as migrants. Similarly, if a person moved to any other place for attending short term vocational or educational course that lasted for only few months of a year, she/he too were considered as a migrant.

(ii) Where a person had merely gone out to another place or had been shifting from one place to another purely on tour, pilgrimage, visit to hospital for treatment or for temporary business purposes, such persons are not deemed to have had another residence different from the place where she/he or her/his family normally resides. She/he is not considered as migrant.

(iii) A woman temporarily moves into a hospital or to her parents or other relative's house for delivery and if the hospital or the parents/relatives houses is in a place different from usual place of residence, the place where the hospital or parents/relative's house is the place of last residence of the child but not of the mother.

A new response category 'Moved after birth' was added in Census of India 2001 in the question on 'reasons for migration' to bring out additional migration patterns. Natural calamities or distress migration as a reason for migration for last residence migrants included in 1991 Census, is covered under category of 'Others'. The reason for migration has been determined as applicable at the time of migration and not in reference to any point of time after that. For example, if a person had moved from the place of her/his last residence for the purpose of education and subsequently at some point of time got employment there only, the reason for migration would be 'education' and not 'work/employment'.

Internal and International migration

The migrational movements are of three types— (i) Migration within the state itself with its components (a) Migration within the district of enumeration (intra

district migration), (b) Migration from one district of state to another district of state (inter district migration) (ii) Migration from one state to another State of the country (inter-state migration), (iii) Migration from one country to another country. The first two streams together constitute internal migration, while the last type of movement is called international migration. The present name of the country, state or district and not the name by which they were known at the time of her/his birth or last residence were recorded.

Rural-Urban components of migration

Rural or Urban status in respect of migrants have been determined as applicable at the time of migration and not with reference to any point of time after that.

The flow of migrants consists of four streams viz. rural to rural, rural to urban, urban to rural and urban to urban.

Civic status of urban units

Civic Status of a town/city is determined on the basis of Civic Administrative authority of the town e.g., Municipal Corporation/Corporation, Municipal Committee/ Municipal council, Municipality etc.

Size class of UA / town

Size-class of UA/Town is based on the population size of the UA/City/Town UAs./Towns with 1,00,000 and above population are classified as Class I UAs. / towns. These Class I UAs./towns are now further sub classified in to seven sub classes namely M1 to M7 depending on the population size of UA/City/Town. These are M7(5,000,000 and above); M6(2,000,000 to 4,999,999); M5 (1,000,000-1,999,999) M4 (500,000-999,999); M3(300,000-499,999), M2 (200,000-299,999) & M1 (100,000-199,999). Towns with, 50,000 to 99,999 population are classified as Class II towns, 20,000 to 49,999 population are Class III towns, population with 10,000-19,999 are Class IV towns, population with 5000 and 9999 are Class V towns and towns with less than 5000 population are Class VI towns.

Slum area

The Slum Areas (Improvement and Clearance) Act, 1956 which was enacted by the Central Govt. defined slums as a) Areas where buildings are in any respect unfit for human habitation; or b) are by reasons of dilapidation, overcrowding, fault arrangement and design of such buildings, narrowness or faulty arrangement of streets, lack of ventilation, light or sanitation facilities, or any combination of these factors, are detrimental to safety, health or morals.

Mega city

The concept of 'Mega city' is a recent phenomenon in the Urban Sociology and is defined in term of metropolitan city in the form of large size, problem of management of civic amenities and capacity to absorb the relatively high growth of population. Indian Census in 1991 treated the population size of 5 million and above as the cut off point to identify a place as the mega city. Whereas, for the purpose of inclusion in Centrally Sponsored Scheme for Infrastructure Development in Mega cities the Ministry of Urban Affairs and employment, Department of Urban Development adopted the criteria of 4 million and above population as per 1991 Census for Mega Cities. In 2001 Census, cities with 10 millions and above population have been treated as Mega cities.

(vii) 2001 Census finding - population, its distribution

According to the 2001 census, the total population of Jalor district is 1,488,940 comprising 737,880 males and 711,060 females and constituting 2.6 percent of State population and area spread over 3.1 per cent in the 7 tehsils of the district, Sanchore tehsil is most populous tehsil having population 368,004 while Bagora is the smallest tehsils having a population of 130,895 persons. Other tehsils in order of their population size are Bhinmal (221,546), Jalor (219,381), Ahore (207,961), Raniwara (163,349) and Sayla (137,804).

Out of the total population of the district 92.4 per cent lives in rural areas while 7.6 per cent lives in urban areas. The corresponding proportions in rural and urban areas of the State are 76.6 per cent and 23.4 per cent respectively.

(viii) Brief analysis of PCA data based on inset tables 1 to 36 :

TABLE 1 : DECADAL CHANGE IN POPULATION OF TEHSILS BY RESIDENCE, 1991-2001

Sl. No.	Tehsil	Population						Percentage decadal variation 1991-2001			Percentage urban population	
		1991			2001						1991	2001
		Total	Rural	Urban	Total	Rural	Urban	Total	Rural	Urban		
1	2	3	4	5	6	7	8	9	10	11	12	13
1	Sayla	105,363	105,363	0	137,804	137,804	0	30.8	30.8	0.0	0.0	0.0
2	Ahore	176,184	176,184	0	207,961	207,961	0	18.0	18.0	0.0	0.0	0.0
3	Jalor	175,500	141,850	33,650	219,381	174,551	44,830	25.0	23.1	33.2	19.2	20.4
4	Bhinmal	181,617	150,886	30,731	221,546	182,266	39,280	22.0	20.8	27.8	16.9	17.7
5	Bagora	101,635	101,635	0	130,895	130,895	0	28.8	28.8	0.0	0.0	0.0
6	Sanchore	279,139	260,312	18,827	368,004	342,120	25,884	31.8	31.4	37.5	6.7	7.0
7	Raniwara	123,125	123,125	0	163,349	163,349	0	32.7	32.7	0.0	0.0	0.0
	District Total	**1,142,563**	**1,059,355**	**83,208**	**1,448,940**	**1,338,946**	**109,994**	**26.8**	**26.4**	**32.2**	**7.3**	**7.6**

The district has registered a percentage decadal variation of 26.8 during the decade 1991-2001. The rural areas of the district has attained a higher decadal variation of 26.4 per cent as compared to that of urban area at 32.3 per cent. At tehsil level, it varies from the lowest of 32.7 per cent in Raniwara tehsil to a maximum of 18.0 per cent in Ahore tehsil in total areas.

There is a very little increase in the percentage of urban population to total population from 7.3 in 1991 to 7.6 in 2001. All the tehsils have registered the same trend as that of district whose percentage of urban population has increased from 1991 to 2001.

TABLE 2 : NUMBER AND PERCENTAGE OF INHABITED VILLAGES IN SPECIFIED POPULATION

Sl. No.	District/Panchayat Samiti	Total number of inhabited villages	Total rural population			Number and percentage of villages	Population less than 200		Number and percentage of villages

Of the total 706 villages, 697 are inhabited villages. Sanchore Panchayat Samiti has the highest number of villages i.e. 204 where as Jalor Panchayat Samiti with lowest of 68 villages. Again, Sanchore Panchayat Samiti is the most populous with 342120 persons while Jaswantpura is the least populous Panchayat Samiti with a population of 128410 persons. The maximum number of villages i.e. 227 are those which lie in the population range of 1000-1999. It is followed by 31.3 per cent of the inhabited villages, which have population range of 2000-4999. As regards to large size villages in the district, 28 are such which lie in the population range of 5000-9999 and 4 are such which have population more than 10000. In case of small size villages i.e. having population less than 500, such villages are 77 in number in the district.

TABLE 3 : NEW TOWNS, DENOTIFIED, DECLASSIFIED AND MERGED TOWNS IN 2001 CENSUS

	Name of Towns
(a) New	
(i) Statutory town	Nil
(ii) Census town	Nil
(b) Denotified	
(i) Statutory towns of 1991 census denotified and also did not satisfy the criteria to be treated as census towns	Nil
(ii) Statutory towns of 1991 census denotified but identified as census towns based on demographic and economic criteria	Nil
(iii) Census towns of 1991 census are notified as statutory town in 2001 census	Nil
(c) Declassified*	Nil
(d) Wholly merged with other town (s)	Nil

* Declassified means the census towns of 1991 census which failed to satisfy the demographic and economic criteria.

No new town has emerged, nor denotified nor any town merged.

TABLE 4 : DISTRIBUTION OF VILLAGES BY POPULATION DENSITY, 2001

Range of population density (per square kilometer)	Total number of villages in each population density range	Percentage of villages in each population density range	Population	Percentage distribution of population

Population Density (Rural) of the district		129.7		

The density of population of the rural areas of the district is 129.7. Of the total number of inhabited villages i.e. 697 in the district, 57.4 per cent have population density ranging from 101 to 200, followed by 23.0 per cent in the range of 51-100. Apart from these 43 villages have population density upto 50.

TABLE 5 : SEX RATIO OF STATE AND DISTRICT, 1901-2001

Census year	State			District		
	Total	Rural	Urban	Total	Rural	Urban
1	2	3	4	5	6	7
1901	905	898	947	898	893	1,008
1911	908	904	936	916	912	1,009
1921	896	896	897	911	906	1,043
1931	907	906	903	910	908	941
1941	906	907	897	921	922	910
1951	921	919	928	918	914	964
1961	908	913	882	919	921	870
1971	911	919	875	932	934	878
1981	919	930	877	942	948	879
1991	910	919	879	942	947	881
2001	**921**	**930**	**890**	**964**	**970**	**889**

Note: Sex ratio has been defined here as the number of females per 1000 males.

The district has witnessed a fluctuating trend in sex ratio since 1901. From 898 in 1901 it declined to 916 in 1911. It again decreased to 906 in 1921 and increased to 908 in 1931 and so forth. During the last decade i.e. 1991-2001 it has increased from 947 in 1991 to 970 in 2001.

In comparison to rural areas of the district the sex ratio in urban areas has been higher upto 1931 and favouring females except in 1941 and 1961 to 2001, the sex ratio in rural areas has been higher than that of in urban areas. The district has always registered higher sex ratio as compared to that of state since 1901 to 2001.

TABLE 6 : SEX RATIO BY TEHSILS, 2001

Sl. No.	Name of Tehsil	Sex ratio		
		Total	Rural	Urban
1	2	3	4	5
1	Sayla	969	969	0
2	Ahore	1,023	1,023	0
3	Jalor	962	986	873

District Total	**550**	**100.0**	**121,310**	**100.0**

Literacy rate for District (Rural): 25.7

The literacy rate of the scheduled tribes population in the rural areas of the district is 25.7 per cent. There are 550 villages in the district where scheduled tribes population reside. It is significant to note that only 5 (0.9 per cent) of the total inhabited villages (550) have 100 per cent literacy rate. Apart from these 151 villages are such where literacy rate ranges from 11 to 20 per cent. Population wise, 96.0 per cent i.e. bulk of scheduled tribes population have literacy rate lives up to the 50 per cent. Among these 32.6 per cent have literacy rate ranging between 11 to 20 per cent.

\+ To be arranged in alphabetical order.

* In case of towns having outgrowth an asterisk mark should be placed against their names to indicate that they have outgrowths which are not separate towns.

Among the towns of Scheduled Tribe of Jalor district, the highest literacy rate of 36.8 per cent has been attained by Jalor (M) whereas the lowest literacy rate of 22.4 per cent has recorded in Sanchore (M). Similarly among the male highest literacy rate is 52.4 percent in Jalor and lowest literacy rate of 31.2 per cent in Sanchore. Among the females the highest literacy rate of 17.5 per cent in Jalor (M) and lowest rate of 9.3 per cent in Bhinmal (M). The highest gap 34.9 per cent in Jalor (M) and lowest 19.1 per cent in Sanchore (M).

In the district, 50.2 per cent of the total population comprises of total workers (main + marginal) and the rest 40.8 per cent as non-workers. Of the total workers (50.2 percent), 34.9 per cent are as main workers and the rest 15.2 per cent as marginal workers. Sex wise, 54.1 per cent of male population is that of workers whereas for females this percentage is 46.1. At the tehsil level, Sanchore tehsil has recorded the highest percentage of total workers for both males and females being 68.9 per cent and 65.7 per cent respectively. On the other hand, Bhinmal tehsil has recorded the lowest percentage of total workers both for males and females being 46.8 per cent and 25.3 per cent in Jalor.

More than half of the rural population consists of workers i.e. 51.7 per cent. There is not much difference in the work participation rates of males and females being 54.8 per cent and 48.6 per cent respectively for the rural areas of the district. Like at tehsil level, at Panchayat Samiti level too, the highest percentage of male and female workers has been recorded in Sanchore Panchayat Samiti at 70.4 and 69.3 respectively. However, the lowest percentages have been registered by Jaswantpura Panchayat Samiti at 47.0 for males and 34.6 for females respectively.

^ The names of constituent units of U.A.are given seprately.

* In case of towns having outgrowth an astrrisk mark should be placed against their names to indicate that they have outgrowths which are not separate towns.

In contrast to the rural areas of the district only 31.5 per cent of the urban population are as workers (main + marginal). Apart from this much variation is also seen in the percentage of male and female workers, which are 46.9 and 14.1 respectively. Among the towns, the percentage of workers varies from 33.7 in Sanchore (M) to 30.3 in Jalor (M).

Note: Percent of Worker to total worker are given in brackets

Cultivators are the main working force in the district as they form 66.4 per cent of total workers. It is followed by other workers (19.3 per cent), agricultural labourers (11.1 per cent) etc. Females (233447) outnumber males (249237) as cultivators. Much variations in the percentages of male workers (25.9) and female workers (11.2) classified as other workers is seen in the district.

At tehsil level, the percentage of cultivators to total workers varies from 82.8 in Sanchore tehsil followed by 79.6 in Bagora tehsil to 75.6 in Sayla tehsil. For Household Industry workers, it varies from 4.8 per cent in Jalor and Bhinmal tehsils to 2.3 per cent in Raniwara tehsil. In case of 'other workers' the highest percentage of 41.7 has been registered by Jalor tehsil while the lowest of 9.7 per cent in Sanchore tehsil.

				(48.6)	**(72.3)**	**(14.8)**	**(2.4)**	**(10.5)**

Note : Percent of Worker to total worker are given in brackets

More than half i.e. 51.7 per cent of the total rural population of the district is engaged in economic activities being workers. Of the total workers, most are engaged in agricultural activities i.e. 69.1 per cent are as cultivators and 11.5 per cent as agricultural labourers. Only 2.8 per cent of the workers are engaged

in household industries whereas the 16.5 per cent in other works.

Almost similar trend has been observed in all the panchayat samities.

Sex wise, percentage of male workers is higher Household industry Workers categories except cultivators and Agricultural labors where their percentage 66.4 and 8.7 as compared to that of females at 72.3 and 14.8 at the district level srspectively.

TABLE 36 : DISTRIBUTION OF WORKERS BY SEX IN FOUR CATEGORIES OF ECONOMIC ACTIVITY OF URBAN AGGLOMERATIONS/TOWNS, 2001

				(48.7)	(20.3)	(1.5)	(10.1)	(68.1)
		Females	12,249	2094	1083	157	426	428
				(17.1)	(51.7)	(7.5)	(20.3)	(20.4)
	District (Urban) Total	**Persons**	**109,994**	**34612**	**3881**	**957**	**3990**	**25784**
				(31.5)	**(11.2)**	**(2.8)**	**(11.5)**	**(74.5)**
		Males	**58,243**	**27312**	**2028**	**318**	**2505**	**22461**
				(46.9)	**(7.4)**	**(1.2)**	**(9.2)**	**(82.2)**
		Females	**51,751**	**7300**	**1853**	**639**	**1485**	**3323**
				(14.1)	**(25.4)**	**(8.8)**	**(20.3)**	**(45.5)**

The percentage of workers to total population of urban areas is significantly quite low being only 31.5 per cent as compared to that of rural areas of the district being 51.7 per cent. Here too, the percentage of workers engaged in four economic categories is just the reverse as compared to rural workers where majority i.e. 74.5 per cent of the total urban workers are as 'other workers' followed by 11.5 and 11.2 per cent as household industry and cultivators workers respectively.

Almost similar trend is visible in all the municipal towns where the percentage of household industry workers is higher than that of agricultural labourers and cultivators. Except Sanchore (M) where the percentage of cultivation is higher than that of Household Industry workers.

Sex wise percentage of male worker as other workers is than that of female other workers being 82.2 and 45.5 per cent respectively. On the other hand, percentage of female cultivators (25.4 per cent) is much higher than that of male cultivator's (7.4) at the district level for urban areas.

(ix) Brief analysis of the Village Directory and Town Directory data based on inset tables 37 to 47:

Note : - Percentages are given in brackets.

* Based on the improved drinking water source, drinking water supply has been classified as 'Improved ' or otherwise. If the household has access to drinking water supplied from a tap or a hand pump / tube well situated within or outside the premises it is considered as having access to 'Improved drinking water source'. However, the concept of improved drinking water is state specific and this is to be considered accordingly.

Post office includes Post office, telegraph office and Post and telegraph office.

$ Transport communication includes bus service, rail facility and navigable waterways.

Of the total (697) inhabited villages, 679 (97.4 per cent) have educational facilities. In case of medical amenities only 47.8 per cent of inhabited villages have such amenities. A significant numbers i.e.632 (90.7 percent) villages have improved drinking water amenities. In the communication field only 36.9 per cent of villages have post office facilities while 61.1 per cent have telephone facilities. In the banking field the picture is gloomy as only 56 (8.0 per cent) villages have banks. More than 60 per cent i.e. (443) are linked with pucca approach roads whereas 90.0 per cent have power supply.

At tehsil level, Jalor and Bhinmal tehsils each have the cent percent of villages having educational facilities. For medical amenities it is Jalor tehsil, which have highest percentage of 60.3 Much variation is seen among the tehsils having telephone facilities. Sayla tehsil has the highest percentage of villages i.e. 84.4, which have telephone facilities whereas Sanchore has the minimum percentage of 40.7 for such facility. Jaswantpura tehsil has the distinction of cent percent villages having power supply.

Note : - Percentages are given in brackets. * Based on the improved drinking water source, drinking water supply has been classified as 'Improved ' or otherwise. If the household has access to drinking water supplied from a tap or a hand pump / tube well situated within or outside the premises it is considered as having access to 'Improved drinking water source'. However, the concept of improved drinking water is state specific and this is to be considered accordingly.
Post office includes Post office, telegraph office and Post and telegraph office.

Almost entire (99.7 per cent) rural population of the district is being served by educational amenities. It varies from cent percent in Jalor, Bhinmal and Raniwara Panchayat Samities to 99.3 in Sanchore Panchayat Samiti. The highest percentage (83.2) of population availing medical amenities has been found in AhorePanchayat Samiti while lowest of 48.4 in Sanchore Panchayat Samiti. Jalor Panchayat Samiti at the top where 99.8 per cent of the population has access to improved drinking water while Bhinmal Panchayat Samiti is at the bottom with 85.4 per cent. Sayla Panchayat Samiti is in the forefront in the field by telephone facilities where 92.7 per cent of the population has been served by this facility while Sanchore Panchayat Samiti is at bottom with 53.8 per cent. Only 20.2 per cent of the rural population is being served with banking facilities whereas 95.8 per cent have access to power supply. Hundred percent of the population of Jaswantpura Panchayat Samiti is being served with power supply.

TABLE 39 : DISTRIBUTION OF VILLAGES NOT HAVING CERTAIN AMENITIES, ARRANGED BY DISTANCE RANGES FROM THE PLACES WHERE THESE ARE AVAILABLE, 2001

Village not having the amenity of	Distance range of place from the villages where the amenity is available			
	Less than 5 kilometres	5-10 kilometres	10+ kilometres	Total (Col. 2 - 4)
1	2	3	4	5
1. Education :-				
(a) Primary School	14	4	0	18
(b) Middle School	218	129	12	359
(c) Degree College	3	30	664	697
2. Medical:-				
(a) Hospital	7	68	622	697
(b) PHC	90	186	377	653
3. Post Office	225	178	37	440
4. Telephone	84	101	86	271
5. Bus Service	100	72	36	208
6. Banks				
(a) Commercial Bank	79	210	370	659
(b) Cooperative Bank	42	149	473	664
7. Agricultural Credit Societies	128	171	233	532

There are only 18 villages in the district, which do not have primary schools, of these in 14 villages this amenity is available in less than 5 kilometers. In case of middle schools, 359 villages do not have this amenity. Of these, for 218 villages this amenity is available at a distance of less than 5 km, for 129 villages at a distance of 5-10 km. None of the villages in the district have a degree college. For most of the villages i.e. 664, the degree colleges are available at a distance beyond 10 km.

Likewise, none of the villages have hospitals. For this in most of the villages i.e. 622 one has to go for more than 10 km. Similarly post office amenity is not available to 440 villages. Of these, for 225 villages, this amenity is available at a distance less than 5 km. Of the total 697 villages, Bus services are not available in 208 villages. Among these, this facility is available at a distance of less than 5 km and 5 to 10 km for 100 and 72 villages respectively.

As regards to banking services, 659 and 664 villages do not have commercial banks and cooperative banks respectively. For most of the villages i.e. 370 and 473 one has to go for more than 10 km for commercial banks and cooperative banks respectively.

TABLE 40 : DISTRIBUTION OF VILLAGES ACCORDING TO THE DISTANCE FROM THE NEAREST STATUTORY TOWN AND AVAILABILITY OF DIFFERENT AMENITIES, 2001

Distance range from the nearest statutory town (in kilometres)	Number of inhabited villages in each range	Type of amenity available

\# Post office includes Post office, Telegraph office and Post and telegraph office.

$ Transport communication includes bus service, rail facility and navigable waterways.

* Based on the improved drinking water source, drinking water supply has been classified as 'Improved' or otherwise. If the household has access to drinking water supplied from a tap or a hand pump / tube well situated within or outside the premises it is considered as having access to 'Improved drinking water source'. However, the concept of improved drinking water is state specific and this is to be considered accordingly.

Of the total inhabited village's (697), majority 227 of them have population range of 1000-1999. It is followed by 218 villages in the range of 2000 - 4999. There are 28 and 4 such villages, which have population range of 5000-9999 and 10000+ respectively.

TABLE 42 : DISTRIBUTION OF VILLAGES ACCORDING TO LAND USE, 2001

Sl. No.	Name of Panchayat Samiti	Number of inhabited villages	Total area	Percentage of cultivable area to total area	Percentage of irrigated area to total cultivable area
1	2	3	4	5	6
1	Ahore	110	158,633	70.8	18.5
2	Jalor	68	98,880	61.9	38.1
3	Sayla	77	145,710	73.3	62.3
4	Bhinmal	80	132,101	69.9	56.6
5	Sanchore	204	291,980	77.6	34.8
6	Raniwara	84	98,250	41.7	54.5
7	Jaswantpura	74	106,550	42.1	41.5
	District Total	**697**	**1,032,104**	**66.4**	**41.2**

Note : Cultivable area = irrigated area + unirrigated area

Of the total rural area of the district (of inhabited villages) 66.4 per cent is cultivable. Apart from this 41.2 per cent of the total cultivable area is being irrigated. At the panchayat samiti level the highest percentage of cultivable area to total area is found at 77.6 per cent in Sanchore Panchayat Samiti followed by 73.3 per cent in Sayla and the lowest of 41.7 per cent each in Raniwara Panchayat Samiti. As regards to irrigated area, the highest percentage of 62.3 is found in Sayla Panchayat Samiti whereas 18.5 in Ahore Panchayat Samiti.

TABLE 43 : PER CAPITA RECEIPT AND EXPENDITURE IN STATUTORY TOWNS

Sl. No.	Class, name and urban status of the Town+	Per capita receipt			Per capita expenditure					
		Total	Through taxes	From all other sources	Total	General Administration	Public health and conveniences	Public works	Public institutions	Other(s)
1	2	3	4	5	6	7	8	9	10	11
1	III Bhinmal (M)	485.0	216.0	269.0	532.0	118.0	36.0	163.0	5.0	210.0
2	III Jalor (M)	42.0	17.0	25.0	41.0	9.0	13.0	13.0	3.0	3.0
3	III Sanchore (M)	616.0	245.0	371.0	810.0	34.0	78.0	18.0	37.0	643.0
	District Total	335.0	141.0	194.0	389.0	54.0	37.0	67.0	12.0	228.0

\+ To be arranged in alphabetical order.
Town has exclude OG's.

The per capita receipt by the statutory towns of the district amounts to Rs.335.0 Of this, Rs.141.0 is being received through taxes and the remaining Rs.194.0 from all other sources. The highest per capita of Rs.616.0 has been attained by Sanchore (M) followed by Rs.485.0 by Bhinmal (M). The lowest per capita receipt of Rs.42.0 has been registered by Jalor (M).

TABLE 44 : SCHOOLS/COLLEGES PER 10,000 POPULATION IN STATUTORY TOWNS, 2001

Sl. No.	Name and urban status of Town	Type of educational institution				
		Primary	Junior Secondary/ Middle	Secondary/ Matriculation	Senior Secondary	College
1	2	3	4	5	6	7
1	Bhinmal (M)	3.1	1.3	0.5	0.8	0.3
2	Jalor (M)	4.5	1.8	0.9	0.7	0.2
3	Sanchore (M)	4.6	1.9	0.8	0.4	0.0
	District Total	**4.0**	**1.6**	**0.7**	**0.6**	**0.2**

+ To be arranged in alphabetical order.

The number of primary, middle and secondary schools per 10000 of population is 4.0, 1.6 and 0.7 respectively. As regards to senior secondary and college, this number is 0.6 and 0.2 respectively. At the town level, the maximum number of primary schools per 10000 populations is found in Sanchore (M) at 4.6 followed by Jalor (4.5), Bhinmal (3.1) etc. It varies from the highest number of middle schools per 10000 populations at 1.9 in Sanchore (M) to a lowest of 1.3 each in Bhinmal (M). As regards to colleges, the highest number i.e. 0.3 is found in Bhinmal, whereas the number '0' has been recorded in Sanchore (M).

TABLE 45 : NUMBER OF BEDS IN MEDICAL INSTITUTIONS IN TOWNS, 2001

Sl. No.	Name and urban status of the Town+	Number of beds in medical institutions per 10,000 population
1	2	3
1	Bhinmal(M)	45
2	Jalor(M)	38
3	Sanchore(M)	63
	Distrct Total	**46**

+To be arranged in alphabetical order.

The number of beds in medical institutions in towns per 10000 populations is found to be only 46. The highest number of beds per 10000 population is recorded at 63 in Sanchore (M) followed by Bhinmal (45), Jalor (38) etc.

TABLE 46 : PROPORTION OF SLUM POPULATION IN TOWNS, 2001

Sl. No.	Name of the Town+	Total population	Slum population	Percentage of slum population to total population
1	2	3	4	5
1	Jalor	44,830	14,900	33.2
2	Sanchore	25,884	13,580	52.5
	District Total	**70,714**	**28,480**	**40.3**

+ To be arranged in alphabetical order.

About forty percent of urban population of the district lives in slums. At the town level it varies from a maximum of 52.5 per cent in Sanchore (M) followed by 33.2 percent in Jalor town

TABLE 47 : MOST IMPORTANT COMMODITY EXPORTED OUT OF AND MANUFACTURED IN TOWNS, 2001

Sl. No.	Name and urban status of Town+	Most important commodity	
		Manufactured	Exported
1	2	3	4
1	Bhinmal (M)	Leather Shoes	Leather Shoes
		Mustard Oil	Jeera
		Isabgol	Rayra
2	Jalor (M)	Granite	Granite
		Cotton Bedsheet	Cotton Bedsheet
		Mojari (Shoes)	Mojari (Shoes)
3	Sanchore (M)	Leather Shoes	Jeera
		Woolen Blanket	Isabgol
			Leather Shoes

+ to be arranged in alphabetical order.

Leather goods of which includes Mojari, is being manufactured in all the three towns. Beside this Mustard Oil Isabgol Granite, Cotton Bed sheet and woolen Blankets being manufactured in various towns.

All the above commodities being export from various towns. Apart from these Jeera and Rayra is the other main commodity being exported from various towns of Jalor district.

*Based on the improved drinking water source, drinking water supply has been classified as 'Improved' or otherwise. If the household has access to drinking water supplied from a tap or a hand pump/tube well situated within or outside the premises it is considered as having access to 'Improved drinking water source'. However, the concept of improved drinking water is state specific and this is to be considered accordingly.

Note : Percentage is to be given in brackets after the number of households. Bathroom means bathroom within the house. Toilet means toilet within the house. Drainage means closed and open drainage.

(i) Improved drinking water : Majority of the households i.e. 51.6 per cent have drinking water facility in the district. For rural and urban areas, these percentages are 48.0 and 94.4 respectively. At tehsil level, for rural areas, the highest percentage (70.5) of households availing this facility has been found in Jalor tehsil whereas for urban areas it is 97.5 per cent in Bhinmal tehsil.

(ii) Electricity : 38.4 per cent of households are using electricity. However there is much wide gap in the percentage of households using electricity in the rural (34.8 per cent) and urban (80.6 per cent)

areas of the district. At tehsil level it varies from a maximum of 56.0 per cent to a minimum of 14.6 per cent of households using electricity.

(iii) Bathroom : Only 16.7 per cent of the households have bathrooms in the district. Here too much wider gap is seen in the percentage of households having bathroom in rural and urban areas, as these are 13.2 per cent and 58.3 per cent respectively. Similar trend is seen in all the tehsils of the district.

(iv) Toilet : In case of toilets, the picture is not so good especially in rural areas of the district. Only 8.3 per cent of households of the rural areas have toilet facility as against 55.1 per cent in the urban areas. The highest percentage (14.8) of households having toilet facility is found in Ahore tehsil whereas the lowest of 3.3 per cent in Bagora tehsil.

(v) Drainage : Again, in case of usage of drainage, the position is poor. Only 20.3 of households have drainage in their houses. In rural areas the position is even worse, where only 16.0 per cent of households have drainage system as against 71.1 per cent in urban areas.

Majority of the households (87.2 per cent) of the district is using firewood as fuel followed by cooking gas (5.3 per cent), kerosene (2.7 per cent), and crop residual (3.9 per cent). In the rural and urban areas of the district, much deviation is seen in the percentage of households using fire wood and cooking gas as 91.0 per cent and 3.0 per cent of households of rural areas are using these respectively in comparison of 42.5 per cent and 32.9 per cent of urban areas respectively. Similar trend is seen at tehsil level also.

Data source : Census of India 2001, H-series: "Tables on Houses, Household Amenities and Assets."

(i) Banking services: Only 25.25 per cent of the total household's (244908) are availing Banking services whereas in rural and urban areas this percentage is 23.95 and 40.58 respectively. At tehsil level, the highest number of households (11763) availing this facility has been found in Sanchore tehsil, while the lowest (5257) in Raniwara tehsil.

(ii) Radio/Transistor: Of the total household's (244908) of the district, 29.81 per cent are in possession of Radio/Transistor. Similarly in rural and urban areas of the district, the percentage of households having radio/transistor is 28.65 and 43.51 per cent respectively.

(iii) Television : In case of Television, the percentage of households possessing it is much higher i.e. 43.53 in urban areas than that of in rural areas at 6.22 per cent only.

(iv) Telephone : Only 4.14 per cent of the total household's (244908) of the district have telephones. The gap is much wider in rural and urban areas of the district where 3.19 per cent and 15.30 per cent of their respective total households have telephones respectively.

(v) Auto mobiles : In case of two wheelers, only 4.89 per cent of the households have either motor cycle or scooter or moped. For rural and urban areas these percentage are 3.56 and 20.59 respectively. The picture is somewhat better in case of rural areas where 2.01 per cent have four wheelers in comparison to two wheelers. In urban areas only 5.07 per cent of households have four wheelers.

It is very significant that more than half of the households i.e. 61.63 per cent do not have any of the specified assets. In rural areas this percentage is even higher i.e. 64.24 as compared to that of in urban areas at 30.80.

Other Developmental Activities

Massive Programme

Under this scheme to increase the income of small and marginal farmers through increasing agricultural products, the banks provided loans for the following programs during 1995-96:

1. Construction of New Wells
2. Deepen the Old Wells
3. Supply of Diesel Engine
4. Electric Pump Sets
5. Construction of Drain.

Jawahar Rojgar Yojana

Main objectives of this program was to select the poorest families in the villages, to give them employment for creating some means of livelihood and put them on some Community Development/Construction Works in the villages. It spent the following amount on various schemes under the Jawahar Rajgar Yojana during 1998-99:

Name of the Yojana	(Expenditure in Lac Rupees)
1. Jeevan Dhara	49.87
2. Indira Awas	91.32
3. Apna Gaon Apna Kam	32.52
4. Others	202.41

Trysem Programme

Under this scheme 196 persons were trained and 83 persons got the self-employment in the district during 1998-99. The scheme has ceased in 1999-2000.

Other various schemes have been launched in the district like Mahila Avam Bal Vikas, Sheep Development Programme, Swarn Jayanti Self Employment Scheme, Mada Scheduled Tribes Scheme, Battis Zila Battis Kam Yojana and Jawahar Gram Samridhi Yojana etc.

Social and Cultural Activities

Fairs and Festivals

The fairs and festivals play an important role in the cultural, religious and social life of the people in various regions of the district. While most of the fairs are generally seasonal and religious in character, these fairs are becoming increasingly important from the commercial and tourist point of view in recent years. Such fairs, as in the past, continue to be an important source of enjoyment and entertainment of the public in general besides being a source of income to the local bodies.

The important fairs held in the district are related to those of Ramdeoji and Sundha Mata. While the fairs of Ramdeoji is universally held in various villages of the district especially in the villages of Tura (Sayla

tehsil), Badanwari and Kawrada (Ahore tehsil), Galifa and Khara (Sanchore tehsil). The fair of Sundha Mata is held at Dantlawas (Bhinmal tehsil) twice in a year on Bhadrapada Sudi 13-15 and Kartika Sudi 13-15. The fair of Sheetla Mata is held at Jalor, Ranodar (Sanchore tehsil), Munthala Sili (Bhinmal tehsil) and attracts a large gatherings. Shivratri fair, which is held at Jalor, Hotigaon (Sanchore tehsil) and Ramseen (Bhinmal tehsil) has a good assemblage of its devotees from neighbouring areas.

The other fairs worthmentioning are Sati Mata Ka Mela and Jalandarnath at Teliyana (Sayla tehsil), Jagannath fair at Dhawla (Jalor tehsil), Peer Ki Jal fair at Pratappura in Sanchore tehsil, Apeshwar Mahadeo fair and Aasha Mata fair at Ramseen. Besides, cattle fairs are also held at Sanchore and Sewadiya (Raniwara tehsil) by the respective Panchayat Samities.

The main festivals among Muslims are Idul-Fitre, Idul-Zuha, Bara-Bafat and Moharrum while Hindus observe Deepawali, Holi, Dashehra, Raksha Bandhan and Janmashtami.

Places of Religious, Historical and Archaeological Importance and Tourist Interest

Jalor district is rich in ancient monuments and cultural and historical traditions which attracts the attention of historians and archaeologists. The district has importance not only for historians but also other scholars, pilgrims, geologists and tourists. The following places are of great importance in the district:

Jalor

Jalor is a place of great historic importance and was known as Jabalipura during ancient and medieval times. It was a centre of culture in early times and has been regarded as a holy place of the Jains. Jalor Fort, one of the most famous forts in Rajasthan stands on a hill at the south end of the town. The fort is accessible only by an ascent of 5 km up a steep and slippery stone road passing through three distinct lines of defence. The structure is of considerable strength. It has ample supply of drinking water from a couple of tanks within it and possess remnants of several buildings. There are four Vaishnava temples and five Jain temples as well as the tomb of Malik Shah, A famous Mohammedan Saint. Besides these near the Main Gate, there is a Mosque.

Sanchore

Sanchore is the headquarters of the tehsil with the same name. It is at a distance of 145 km from Jalor. An inscription of 1185 AD discovered at the place, shows that it was under the possession of Solankis of Gujarat up to 12th century AD. Sanchore was a great centre of Jainism and Saivism. It was considered to be a holy place by the Jains, because of the celebrated temple of Mahavira. The image of Mahavira of this temple was considered to be the most beautiful image found anywhere.

Bhinmal

During the mediaeval times, Bhinmal was a great centre of Brahminical studies under the Chauhan rulers of Jalor. It was also a great seat of learning and home of several illustrious scholars. It is believed that due to some natural calamity the old town was buried under ground. Several temples in the town are existing like Varahshyam, Chandinath, Mahadeoji, Hanumanji and Chamunda Devi.

(xiii) Scope of Village and Town Directory

In Part-A of the District Census Handbook, entitled as Village and Town Directory, an attempt has been made to present information regarding various amenities/facilities available in every rural/ urban unit of the State. The unit of the rural areas is village and that of urban area is town/urban agglomeration. Information regarding rural areas and Census Towns has been gathered through Patwaries while that in respect of urban areas other than Census Towns has been collected through the concerned municipality/Cantonment Board/Notified Area Committee. In order to have the aforesaid information authenticated the concerned departments and agencies were also contacted to furnish information available with them. All the information gathered about amenities relate to year 1999 and those pertaining to land-use pattern pertain to Samvat Year 2055 i.e. the agricultural year ending on the 30th June, 1999.

Village Directory

It will be helpful at the outset to have an idea of the items for which information has been included in the Village Directory. Information in respect of each village has been presented through a twenty three column format in which villages have been presented in order of their names and Permanent Location code

Number (PLCN) at State level. The first four columns (2-5) give general information i.e. Name of village and Permanent location code number, area in hectares, population and number of households residing in villages as per Census 2001.The amenities available in the village have been shown in columns 6-18. The information regarding land-use pattern has been given in columns 19-23. As a special feature for Census-2001 some new columns 10-12 and 17-18 are first time incorporated viz. commercial and cooperative Bank, Agricultural/non Agricultural and other credit societies, Recreational and cultural facilities, News Paper/Magazine and most important commodity manufactured in the village. In case of uninhabited villages, the information has been given relating to columns 1-3 and 19-23 only and in the remaining columns the word 'uninhabited' has been mentioned. At the end of entries of each Panchayat Samiti the totals relating to columns 3-11, 13-14, 16-17,19 and 21-23 (total area, amenities and land-use break-up) have also been given.

Various amenities like drinking water, communication, post and telegraphs etc. have been shown against the name of the referent village if they are available within the village with the help of various codes. The Code Structure relating to various columns has been given in the beginning of Section-I to Part-A of this book. The number of each type of amenity has been indicated in parentheses after the suitable code in case of educational, medical and post & telegraph facilities.

If any amenity is not available within the village a dash (-) has been shown in the relevant column and next to it, the distance of the nearest place from the referent village where the facility is available has been given in broad distance ranges viz. <5 km, 5-10 km & 10+ km.

The following pattern has been adopted for indicating the educational institutions:

(i) Schools up to Class V have been treated as primary schools. They include Nursery Schools, Kindegarten Schools, Pre-basic and Pre-primary Schools and Junior Basic Schools upto Class V.

(ii) All schools having Classes VI to VIII have been treated as Middle Schools.

(iii) All schools having Classes IX and X have been treated as Secondary Schools.

(iv) All schools having Classes XI and XII have been treated as Higher Secondary Schools. They include Senior Cambridge Schools, Schools under 10+2 scheme, Intermediate, Pre-University and Junior College etc.

In case of composite schools relevant groups of classes have been treated separately, e.g. a school having classes I to XII, has been shown as having one primary, one middle, one secondary and one higher secondary school. The term 'College' includes all types of colleges whether Arts/Science/Commerce/ Medical/Engineering/Agriculture and others imparting education at Graduate or Post-Graduate level. Institutions other than industrial schools, training schools and adult literacy classes/ centres have been shown under 'others'.

In case of Medical institutions, Hospitals and Dispensaries, Allopathic, Ayurvedic, Unani and Homeopathy have been shown separately. Other institutions include all types of Yogic, Naturopathy,

IV. Culturable waste

It includes Gaucher i.e. pasture and grazing land and tree-groves.

V. Area not available for cultivation

It refers to land, which has not been classified in any of the above mentioned types and also includes house sites, roads, rivers, nullahs, hillocks etc.

The following nine appendices have also been provided to present the position obtaining in Panchayat Samiti and district as a whole regarding various Amenities available in rural areas, villages classified by characteristics of the population and land-use pattern in Census Town in connection with the Village Directory:

(i) Panchayat Samiti wise Abstract of educational, medical and other amenities in villages.

  (a) Villages by number of Primary schools.

  (b) Villages by number of Primary, Middle and Secondary schools.

  (c) Villages with different sources of drinking water facilities available.

(ii) Villages with 5000 and above population, which do not have one or more amenities.

  (a) Census towns which do not have one or more amenities.

(iii) Land utilisation data in respect of Census Town.

(iv) Panchayat Samiti wise lists of inhabited villages where no amenity other than drinking water facility is available.

(v) Summary showing number of villages not having Scheduled Castes population.

(vi) Summary showing number of villages not having Scheduled Tribes population.

(vii) Panchayat Samiti wise list of villages according to the proportion of Scheduled Castes/ Scheduled Tribes population to total population by ranges. It consists of two parts: Part-A relates to Scheduled Castes and Part-B to Scheduled Tribes.

(viii) Panchayat Samiti wise number of villages under each Gram Panchayat.

(ix) Statement showing number of girl's schools in the villages.

Town Directory

Particulars about each town have been presented in the form of seven statements. In towns where there are slums Statement-VII has also been given in which information regarding civic and other amenities available in the slums have been shown. In each statement towns have been arranged in alphabetical order.

As has been explained earlier, urban agglomerations are of two types: first those constituted by two or more independent towns and second those where the urban characteristics have developed in the adjoining rural areas, which have developed as outgrowth of the referent town.

Where an urban agglomeration includes two or more independent towns, the names of towns constituting the agglomeration have been indicated in the alphabetical arrangement but their names have also been repeated in the alphabetical order under the name of the agglomeration after the name of the main or core town and information relating to these has been shown here. The particulars of the constituent units of the agglomerations have not been repeated wherever they occur separately in the alphabetical order and a note "See referent agglomeration" has been given against such names. The lines relating to the information regarding urban agglomeration as a whole have not been numbered but the constituent units as and when they occur in the alphabetical order have been numbered so that the last number agrees with the total number of towns in the district concerned. In respect of Statements II, III and VI in the lines relating to agglomeration a note "See constituent units" has been shown and information has been provided separately in respect of all the constituents below it.

In case of towns having out growths, an asterisk mark has been placed against their names. Information in respect of out growths has been included in the concerned town and has not been shown separately.

The amenities and other data have been indicated by codes. A list of column wise code structure and other abbreviations used in each statement has been provided at the beginning of Section-II of Part-A of this book. We may now discuss the various Town Directory statements.

Statement I

It deals with the status and growth history of the town. Columns 2 to 7 give information regarding class, name and civic status of the town, its location code number, name of the tehsil/panchayat samiti in which it is situated, its area in sq. km and number of households including houseless households residing in the town as per 2001 Census. The class of the town has been determined on the basis of its population as per Census 2001 and the civic administration status relates to the year 2000. Columns 8 to 18 show the population of the town in different decennial censuses beginning from 1901 upto 2001. The growth rate in terms of percentage in respect of previous censuses has been shown below the population figures pertaining to each Census beginning from Column 9 onwards.

A 'dash' under these columns indicates that the referent town did not have an urban status in the referent Censuses. Density of Population per sq. km as per Census 2001 has been shown in column 19 and sex ratio (number of females per 1,000 males) have been indicated for three censuses viz. 1981 to 2001 in columns 20 to 22.

Statement II

This statement gives information about the

physical aspects and locations particulars of the town in 1999. First two columns give the serial number, class, name and civic status of the town. Columns 3 to 13 deal with the physical aspects viz. rainfall and temperature. Rainfall figures are the average of the rainfall for the last one year ending 1999-2000. If the information in respect of rainfall is not available for any town it has been given for the nearest place for which it is available. Rainfall has been shown in millimeters per annum. Maximum and Minimum temperatures have been given in centigrade. If the information regarding temperature is not available in respect of any town it has been given for the nearest place for which it is available and the name of the centre has been shown in footnote.

The location of the town with respect to various administrative headquarters and nearest city is indicated in columns 6 to 10. While showing the location of the referent town with respect to various administrative headquarters, names and their distance from the referent town in kilometre have been given in parentheses below the name of the place where it is situated. In case the referent town itself happens to be the seat of the administrative headquarters, this distance has been shown zero. Information regarding the nearest city of population one Lac or more and population 5 Lacs or more have been given in respect of its situation within the State or even if this city may be situated in other State. In case the nearest city happens to be situated in other State, the name of the concerned State has been shown against the name of the city in parentheses. How the referent town is approachable is given in columns 11 to 13 which indicate the availability of communication facilities viz. railway station, bus facilities and navigable river/canal within 10 km. There is no navigable river or canal in Rajasthan.

Statement III

It gives information about the finances of the civic body controlling the local civil administration and it has been presented in '000 rupees. A 'dash' in this Statement indicates that no receipt or expenditure has occurred under the particular head and 'N' represents negligible amount. First two columns give general information, columns 3 to 9 present receipt under broad categories and total receipt and columns 10 to 16 present expenditure under broad categories and total expenditure. The receipt and expenditure has been presented under six broad categories each. While receipt through taxes implies all receipts from taxes obligatory or others and revenue derived from municipal properties and power apart from taxation, it also includes income derived from holding of fairs and exhibitions, supply of milk, license fee, cattle-ponds, fines and penalties, transport services, places of entertainment, allotment/sale/lease of land and rent etc. Government grants include per capita grant, grant from Public Works Department and grant from the Social Welfare and other departments. Other sources of receipts have been specified, wherever possible but generally they are of miscellaneous nature.

Expenditure on general administration covers salary and wages of staff, contingent expenditure on staff, grants loans and advances to the staff etc. Expenditure on public safety cover fire-fighting, light, water and lease facilities, regulating the dangerous/ hazardous trades/works/occupation, water supply, registration of births and deaths, disposal of garbage, rubbish and night-soil. Public health and conveniences cover all types of medical aid and maintenance of the destitute etc. Public works include maintenance and construction of roads and buildings and relief works in times of famine and scarcity. Expenditure in public institutions covers all types of social, cultural, educational, religious institutions etc. Which are run or patronised by the municipality. Other sources of expenditure have been specified where possible but mostly these are of miscellaneous nature.

Statement IV

This statement deals with the civic and other type of public amenities and provides information about total population, scheduled castes and scheduled tribes population, road length, system of sewerage, number and types of latrines, method of disposal of night-soil, water supply, availability of fire-lighting service and electrification besides general information. In case of water supply the source of water as also the system of its storage have been shown. The storage capacity has been shown in Kiloliters. In case of disposal of night soil and protected water supply particulars have been given in respect of two methods/ sources in

order of their importance if more than one exist in the town. In case fire-fighting service is not available in the town the name of the nearest place if in the same district or the name of the nearest district if in the same state or other state where available along with distance from the referent town has been mentioned.

Statement V

Particulars of medical, educational, recreational and cultural facilities available in the town have been given in this statement and the number of each type of these facilities has also been shown in parentheses is along with the appropriate code.

In case of medical facilities the number of beds wherever available has also been shown Allopathic, Ayurvedic, Unani and Homeopathic hospitals/ dispensaries have been shown separately. No code has been provided for allopathic institutions and the numbers have been shown only in figures. Thus beside H, code for hospital means an Allopathic Hospital. Separate codes have been provided for other three systems of medicine.

If a medical or educational facility is not available in the town, the name of the nearest place, if the same district or the name of the nearest district in the same State or other State where available and its distance (in km) from the referent town has been mentioned. Details of medical institutions shown under 'Others' have also been explained.

Arts, Science and Commerce Colleges have been shown separately. While showing the educational institutions upto Higher Secondary level the same procedure as adopted in case of Village Directory, has been followed. In case of composed schools relevant classes have been treated separately e.g. a school having classes I to XII has been treated as being composed of one Primary, one Middle, one Secondary and one Higher Secondary School.

All other types of educational institution which are not covered in column 6 to 14 have been shown in column 15 under 'Others' and include technical/ vocational and training institutions like Applied Art Painting College, Pharmacy College, Agricultural College, Teacher's Training College/Institution, Music/ Dance School etc. Janchetna Kendra is also included in others.

Statement VI

This statement contains particulars regarding trade, commerce, industry and banking. It gives names of three most important commodities, exported and manufactured in the town besides the number of banks, agricultural and non-agricultural credit societies functioning in the town. A list of the outgrowths, if any, along with their population and name of the core town has also been provided at the end of the Town Directory as an Appendix.

Statement VII

Information about all slums whether notified or not and for all towns has been shown in this statement in order to give an idea about the amenities available to the slum dwellers. Particulars about paved roads, systems of sewerage, number and types of latrines, method of disposal of night soil, number of tap points/ public hydrants for supply of protected water and electrification have been provided in respect of every slum in each town, if there are any.

PART-A : VILLAGE AND TOWN DIRECTORY

Section-I

Village Directory

NOTE EXPLAINING THE ABBREVIATIONS USED IN THE VILLAGE DIRECTORY

The "Village Directory" is one of the traditional compilations of the Census. It gives the list of villages, their location numbers, their area, population, number of households, amenities such as educational, medical, drinking water, post and telegraph, commercial and co-operative banks, agricultural non-agricultural and other credit societies, recreational and cultural facilities, communication, approach to village, nearest town with a distance, power supply availability of newspaper and magazines, most important commodity manufactured and land use of each village.

Village is a statutory recognized unit having a definite boundary and separate land records. In case, a complete village is treated as an outgrowth of urban agglomeration, data on amenities for that village, have not been given in the Village Directory but shown along with the urban component. The villages which are consider as a Census Town , the amenities data are shown in the Town Directory. For those villages which have partly merged in an outgrowth of U.A., the amenities data are shown in the Village Directory for that particular village.

The 'un-inhabited' villages (villages with no population) have been indicated as such after furnishing details in columns 1 to 3 i.e., Serial number, Name of village & location code number and area of the village against column no. 4 to 18. The land use data for such villages are shown in col. 19 to 23.

The Village Directory format has 23 columns and the details given under each column are for the village are as follows:

Column 1 : Serial Number

Self explanatory. All the villages within the Panchayat Samiti are presented serially in the ascending order of their location code number.

Column 2 : Name and Location Code Number of village

The name and location code number of the village are shown against these columns. This also includes the forest and uninhabited villages.

Column 3 : Area of the village

The area of the villages in hectares are given. Wherever the area figures was not furnished by the concerned department the column is left blank.

Column 4 : Total population

The total population of the village as per 2001 Census is given against this column.

Column 5 : Number of households

The number of households as per 2001 Census is given in this column.

Amenities :

In column 6 to 23, availability in respect of different amenities such as education, medical, drinking water, post, telegraph, banks, credit societies, communication, power, approach road etc. in each village has been depicted with appropriate codes against the column concerned. Wherever the amenities are not available in the village, a dash (-) is shown in the column and next to it in brackets the distance in broad ranges viz.< 5 kms., 5-10 kms. and 10+ kms of the nearest place where the facility is available is given. Column wise details are given below:

Column 6 : Educational

Classes upto class V included in Primary School. This will include nursery school, kindergarten school. Pre-basic school, pre-primary school, junior basic school upto class V.

Classes from VI to VIII are included in the middle school.

Classes from IX and X included in High secondary school. Classes XI and XII are included in senior secondary school.

In case of composite schools like middle school with primary school or secondary school with middle school, these are also included in the number of primary and middle schools, respectively.

Accordingly any of the following types of institutions if exists within the village is shown as per codes given below :

(i)	Primary School	P
(ii)	Middle School	M
(iii)	Secondary School	S
(iv)	Senior Secondary School	PUC
(v)	College	C
(vi)	Industrial School	I
(vii)	Training School	Tr
(viii)	Adult literacy class/centre	AC
(ix)	Others (specify) e.g. Sanskrit Pathshala, Senior basic school, Navodaya Vidyalaya, Makhtab, etc.	O

More than one institution of a type in the village is indicated by the number within brackets against the abbreviation, e.g. P(3), M(4), etc.

Column 7 : Medical

Availability of medical facility within the village is indicated by following codes :

(i)	Allopathic Hospital	H
	Ayurvedic Hospital	HA
	Unani Hospital	HU
	Homeopathic Hospital	H Hom
(ii)	Allopathic Dispensary	D
	Ayurvedic Dispensary	DA
	Unani Dispensary	DU
	Homeopathic Dispensary	D Hom
(iii)	Maternity & Child Welfare	MCW
(iv)	Maternity Home	MH
(v)	Child Welfare Centre	CWC
(vi)	Health Centre	HC
(vii)	Primary Health Centre	PHC
(viii)	Primary Health Sub-Centre	PHS
(ix)	Family Welfare Centre	FWC
(x)	T.B. Clinic	TB
(xi)	Nursing Home	NH
(xii)	Registered Private Medical Practitioner	RMP
(xiii)	Subsidised Medical Practitioner	SMP
(xiv)	Community Health Worker	CHW
(xv)	Others	O

More than one institution of a type in the village is indicated by the number within brackets against the abbreviations, e.g. H(3), D(4), etc.

Column 8 : Drinking Water

The type of the drinking water supply sources available within the village are indicated by codes as follows:

(i)	Tap Water	T
(ii)	Well Water	W
(iii)	Tank Water	TK
(iv)	Tubewell Water	TW
(v)	Handpump	HP
(vi)	River Water	R
(vii)	Canal	C
(viii)	Lake	L
(ix)	Spring	S
(x)	Others	O
(xi)	Summer Sorce	SS

Column 9 : Post, Telegraph and Telephone

It is indicated by codes as shown below whether within the village exists the following amenities:

(i)	Post Office	PO
(ii)	Telegraph Office	TO
(iii)	Post & Telegraph Office	PTO
(iv)	Telephone Connection	PH

Column 10 : Commercial and Co-operative Banks

If the village is served by any banking service, commercial bank, co-operative bank etc. the same is indicated in codes mentioned below along with the number of banks in brackets. If not available the distance of nearest place where the facility exist is given:

(i)	Commercial Bank	CM
(ii)	Co-operative Bank	CP

Column 11 : Credit Societies

If the village enjoys the services of Credit Societies i.e. Agricultural Credit Societies, Non-Agricultural Credit Societies or Other Credit Societies, the same is indicated in codes mentioned below along with the number of such societies in brackets. In case the facility is not available within the village the distance of the nearest place where such facility exist is given :

(i)	Agricultural Credit Society	ACS
(ii)	Non-Agricultural Credit Society	NCS
(iii)	Other Credit Society	OCS

Column 12 : Recreational and cultural facilities

If facilities such as Cinema/Video hall, Sports Club, Stadium/Auditorium is available in the village, the same is recorded in these columns. If not available the particulars of the nearest place with the facility is recorded. The information is indicated in codes mentioned below along with the number of such facilities in brackets:

(i)	Cinema/Video Hall	CV
(ii)	Sports Club	SP
(iii)	Stadium/Auditorium	ST

Column 13 : Communications

If the village is served by any mode of public / private transport like Bus, Railway station or Navigable water ways they are to be mentioned as follows:

(i)	Bus	BS
(ii)	Railway Station	RS
(iii)	Navigable Waterway	NW

Column 14 : Approach to village

Approach to village refers to the state of road leading to village. The approach to the village is indicated in following codes :

(i)	Paved Road	PR
(ii)	Mud road	MR
(iii)	Foot path	FP
(iv)	Navigable River	NR
(v)	Navigable Canal	NC
(vi)	Navigable waterways other than River, Canal	NW

Column 15 : Nearest Town and distance

The distance is given in kilometers in brackets against the name of the town nearest to the village.

Column 16 : Power supply

Availability of Power Supply in the village, whatever may be the form of its use is given by using following codes :

(i)	Electricity for domestic use	ED
(ii)	Electricity for agricultural use	EAG
(iii)	Electricity for other purposes	EO
(iv)	Electricity for all purposes	EA

Column 17 : News Paper/Magazine

If village receives any News Paper/Magazines the same is noted in this column using following codes:

(i)	News Paper	N
(ii)	Magazine	M

Column 18 : Most important commodities manufactured

The name of three most important commodities manufactured in the village is recorded against this column.

Columns 19 to 23 : Land use i.e. area under different types of land use

Land use data maintained by the State/UT Govts. are furnished against these columns. The data concerning area under Forest, Irrigated land (by source), Un-irrigated land, Culturable waste and Area not available for cultivation in the village are shown against these columns. The area figures are given in hectare(s) up to one decimal. Dash '-' is recorded wherever the information is not made available by the concerned department. The codes used for different types of irrigation facilities available in the village are indicated below:

(i)	Government Canal	GC
(ii)	Private Canal	PC
(iii)	Well (without electricity)	W
(iv)	Well (with electricity)	WE
(v)	Tubewell (without electricity)	TW
(vi)	Tubewell (with electricity)	TWE
(vii)	Tank	TK
(viii)	River	R

(ix)	Lake	L
(x)	Waterfall	WF
(xi)	Others	O
(xii)	Total	T

The village directory also carries the following appendices.

Appendix-I It gives the abstract of educational, medical and other amenities available in villages Panchayat Samiti wise of the district.

Appendix-I-A Indicates number of villages Panchayat Samiti wise having one or more primary schools.

Appendix-I-B Indicates number of villages Panchayat Samiti wise having primary, middle and secondary schools.

Appendix-I-C Shows number of villages Panchayat Samiti wise with different sources of drinking water facilities.

Appendix-II Indicates the list of villages with 5,000 and above population which do not have one or more important amenities.

Appendix-II-A Indicates list of Census Towns which do not have one or more amenities.

Appendix-III It gives the land utilization data in respect of Census Towns/non-municipal Towns.

Appendix-IV Panchayat Samiti wise list of inhabited villages where no amenity other than drinking water facility is available.

Appendix-V Summary showing number of villages not having Scheduled Castes population.

Appendix-VI Summary showing number of villages not having Scheduled Tribes population.

Appendix-VII The appendix shows the list of villages according to proportion of the A, VII B Scheduled castes and Scheduled Tribes to the total population by ranges.

Appendix-VIII Indicates Panchayat Samiti wise number of villages under each Gram Panchayat.

Appendix-IX Shows number of different types of girls school in a village.

PART-B : PRIMARY CENSUS ABSTRACT

Brief note on Primary Census Abstract

The first census of the third millennium and twenty first century the Census of India, 2001 was the 14th continuous and uninterrupted Indian census since 1872. Thus, 2001 Census will provide data on population and its characteristics marking transition from one century and millennium to another.

The gigantic operation of Population Enumeration (considered by many to be the single largest and complex peace time administrative exercise in the world) was made possible due to the door to door universal canvassing of the Household Schedule by about 2 million enumerators and supervisors covering 593 districts, 5,463 sub-districts, 5,161 towns and 638,588 villages. The comprehensive Household Schedule which replaced the individual slip had three parts and two sides A and B. Part I contained the Location Particulars; Part II related to the Individual Particulars and Part III contained questions for Household engaged in Cultivation/Plantation . The part II of the Household Schedule had 39 columns and 23 questions all of which were universally canvassed and no sampling was resorted to during enumeration.

Data Processing

A quantum leap was made in the technology front while processing the Census 2001 data both for Houselisting and Population Enumeration. The Census schedules for both the phases were scanned through high speed scanners in fifteen data centers across the country and hand-written data from the schedules were converted into digitized form through Intelligent Character Reading (ICR) software for creation of ASCII records for further processing. The designing and formatting of the Household Schedule had to be done very carefully using specialized software so as to ensure uniformity, which was an essential pre-requisite for scanning. The selection of appropriate state-of-art technology in data processing has made it possible to produce all the Houselisting as well as Population Enumeration tables on full count basis for the first time in the history of Census. For Census 2001, about 202 million schedules consisting of about 1,028 million records were scanned and processed within a span of only 10 months starting October, 2002.

Task Force on Quality Assurance

After the data is processed, it is expedient on the part of the data producing agency to satisfy itself about its quality before putting the same in public domain. This has to be done mainly through the process of internal consistency, comparison with similar data in the past and also through validation with likewise data if available, from external sources. Quite often the local knowledge and perception has to be brought into play to understand both the existing and the new emerging trends of population distribution and characteristics. The other very important aspect of the data quality is to ensure complete coverage of all geographical areas especially for the population enumeration phase where the data is disseminated right up to the village level in the rural areas and the ward level in the urban areas. Thus ensuring the complete coverage and correct geographical linkage of each enumeration block was one of the major planks of the quality control, specially for small area population statistics.

A very comprehensive check and edit mechanism was put in place to objectively examine the preliminary Census 2001 Population Enumeration results and finally clear them for use. The responsibility of the final clearance of data was with the Task Force on Quality Assurance (TFQA), headed by the Registrar General and Census Commissioner, India. The other members of the TFQA were the Heads and senior officers of the Census Division, Data Processing Division, Map Division, Demography Division and Social Studies Division. The Directors of Census Operations were co-opted as members whenever the TFQA discussed the data for their States/Union territories. The Directors and their senior officers were required to make detailed presentations of data for their own state both in respect to the quality and the coverage and only after the full possible cleared.

There has been a major departure in Census 2001 from the past in respect of the procedure followed for finalization of the Scheduled Castes and the Scheduled Tribes population. In the earlier censuses, the total Scheduled Castes and Scheduled Tribes populations were finalized at the time of the manual compilation of the Primary Census Abstracts (PCA) at the Regional Tabulation Offices which were specially set up for this purpose. The individual Scheduled Castes and the Scheduled Tribes population for each state was finalized much later based on manual coding done by the coders. In 2001 Census, each individual Scheduled Caste and the Scheduled Tribe have been coded directly on the computers by the Data Entry Operators through a process known as Computer Assisted Coding (CAC) and taken up along with the processing of PCA data. The CAC process involves pulling down, from the relevant dictionary of the Scheduled Castes and the Scheduled Tribes, on the computer screen and coding from the dictionary by referring to the image of the specific individual entry in the Household Schedule appearing on the screen. The CAC of the response on Religion wherever required, was also undertaken along with the processing of PCA. This is because the Scheduled Castes status had to be determined in relation to the religion of the individual. Two Special Task Forces, one on Religion and the other on Scheduled Castes/ Scheduled Tribes were constituted for scrutiny and appropriate classification of these responses.

The main task of the Special Task Force on Religion was to appropriately merge or group the new responses encountered and code it into the appropriate religious community based on available literature and local knowledge. The Special Task Force on Scheduled Castes and Scheduled Tribes examined the different Scheduled Castes and Scheduled Tribes entries encoun-tered and classified these into appropriate category of the Scheduled Castes or the Scheduled Tribes principally based on the Presidential Notification and the available literature. Thus a very systematic and scientific mechanism was operationalised to firm up the individual religion and the individual Scheduled Castes/Tribes returns. The Scheduled Castes and the Scheduled Tribes population in 2001 Census, is thus being finalized by aggregating the population data for individual Scheduled Castes and the Scheduled Tribes at appropriate geographical levels.

The entire work relating to the data validation and scrutiny was completed by all the States/Union Territories under the overall supervision and monitoring of the Census Division of the Office of the Registrar General, India with active cooperation and support of the Social Studies Division, Data Processing Division, Data Dissemination Division and Map Division.

Primary Census Abstract

The Primary Census Abstract which is yet another important publication of 2001 Census gives basic information on Area, Total Households, Total population, Scheduled Castes, Scheduled Tribes population, Population in the age group 0-6, Literates, Main workers and Marginal workers classified by the four broad industrial categories, namely, (i) Cultivators, (ii) Agricultural labourers, (iii) Household Industry Workers, and (iv) Other workers and also Non-workers. The characteristics of the Total Population includes Scheduled Castes, Scheduled Tribes, Institu-tional and Houseless population and are presented by sex and rural-urban residence. This data is presented at different levels, namely, India, States/Union territories, Districts and Cities, Urban Agglomerations (Population 1,00,000 and above) in three different tables. In addition, the Appendix of said publication provides Houseless and Institutional Households and their population by residence and sex for 2001 for India, State and Union territory.

Apart from the India and State/Union Territory volumes for Primary Census Abstract, the District Census Handbook contains District Primary Census Abstract, Appendix to District Primary Census Abstract, Primary Census Abstract for Scheduled Castes, Primary Census Abstract for Scheduled Tribes, Village Primary Census Abstract and Urban Primary Census Abstract of the concerned district in the state.

It was for the first time at the 1981 Census that the Primary Census Abstract (PCA) was brought out for the Scheduled Castes and the Scheduled Tribes separately on the pattern of General Primary Census Abstract. This practice was continued in 1991 also. In the 1961 and 1971 Censuses, such data were made available in Table C-VIII-Social and Cultural table and to some extent in the series 'Special Tables for Scheduled Castes/Scheduled Tribes'.

The format of Primary Census Abstract has been restructured slightly in the 2001 Census as compared to that of 1991 Census. The nine-fold industrial classification of main workers given in the Primary Census Abstract of 1991 Census has been discontinued and its place, four-fold industrial classification of both 'main workers' and 'marginal workers' are included. In 1981 census only main workers were presented in to four categories. One of the novel features of the primary census abstract of 1991 census was the presentation of data of the population of age group 0-6 is continued in 2001 Census also. This will help the data users in better analysis and understanding of this literacy data.

Level of presentation in District Census Handbooks

The Primary Census Abstract data in different PCAs are presented at different levels. The level of presentation of Primary Census Abstracts are as under:

	Name of the Primary Census Abstract	Level of presentation
1.	District Primary Census Abstract	District/Panchayat Samiti/UA/City/Town
2.	Primary Census Abstract for Scheduled Castes	District/Panchayat Samiti/Town
3.	Primary Census Abstract for Scheduled Tribes	District/Panchayat Samiti/Town
4.	Village Primary Census Abstract	Panchayat Samiti/Village wise
5.	Urban Primary Census Abstract	Town/Ward level

The PCA Data for villages was presented Panchayat Samiti wise for the first time in 1991 Census. This practice is continued in 2001 Census also. The data for each Panchayat Samiti is presented both for rural and urban areas separately. All the villages within the Panchayat Samiti constitute the rural portion and the Census Towns and Outgrowths are shown under the urban portion of the Panchayat Samiti. In case a Panchayat Samiti is spread over two or more districts, than portion which falls within the district is presented, the data pertaining to remaining portion of the Panchayat Samiti is presented in the concerned District Census Handbook. The data in the Urban Primary Census Abstract for each town as well as for town with outgrowths in the district are presented. The data for all the wards and the outgrowths of the town(s) are also presented separately below the concerned town(s).

The District Primary Census Abstract is presented in 59 columns. The Primary Census Abstract for Scheduled Castes and Primary Census Abstract for Scheduled Tribes are presented in 52 columns. The Village Primary Census Abstract and Urban Primary Census Abstract are presented in 58 columns.

The concepts and definitions used in the column heading are explained under the sub heading 'Census Concepts' in the Analytical Note. The term 'Total Population' includes the Scheduled Castes, the Scheduled Tribes, the Institutional and the Houseless populations. The explanation regarding area figures presented at various level in the Primary Census Abstracts are as follows:

Area Figures

The area figures supplied by local revenue authorities of the district in respect of tehsils, and by the local bodies in respect of towns are given in square kilometers. The area figures of the villages supplied by the Tehsildars in acres have been converted and shown in hectares. The area figures of the Panchayat Samiti is the total of the village areas coming under each Panchayat Samiti. The area figures for the district are the same as adopted by the Surveyor General of India to maintain uniformity at the national level. The total area figures of all the tehsils/ Panchayat Samiti within the district may not tally with area figures of the district because former represents land use area only. Similarly, the total of all the villages may not tally with the entire rural of Tehsil. The difference may be due to the fact that while the area covered by hills, forests and rivers etc, have been accounted in the Tehsils and Panchayat Samiti level the same may not be covered under the area of the villages. Apart from this it may also differ due to varying methods of computation adopted at different levels.

An appendix to District Primary Census Abstract has also been furnished showing urban enumeration block-wise particulars on Total Population, the Scheduled Castes Population and the Scheduled Tribes Population for each town.

ANNEXURE-II : FERTILITY-MORTALITY MEASURES

Fertility is a major component of population growth. In 1991 Census, questions on fertility related to age at marriage, number of children surviving at present, number of children ever born alive and any child born alive during last one year were asked. The first three questions were asked to all ever-married women and last question related to currently married women.

AGE SPECIFIC MARITAL FERTILITY LEVEL, 1991 CENSUS

Age-Group	Jalor			Rajasthan		
	Total	Rural	Urban	Total	Rural	Urban
1	2	3	4	5	6	7
15-19	128.75	116.48	291.26	99.82	99.1	103.46
20-24	287.42	283.97	3298.27	217.18	227.01	182.2
25-29	272.92	278.32	207.82	197.71	214.81	144.55
30-34	215.81	219.8	166.09	141.09	158.38	85.69
35-39	141.43	146.41	79.48	90.43	104.11	47.4
40-44	85.88	90.08	35.12	53.37	61.51	25.15
45-49	48.83	49.78	35.34	27.36	30.37	15.81

The ASMFR has been calculated at seven different age groups. The highest ASMFR of the district 287.42 has been found in the age group of 20-24 followed by 272.92 in the age group 25-29. The lowest ASMFR of 48.83 has been found in the age-group 45-49. In comparison to state, ASMFR of the district is lower than that of state in all age groups. Similar trends found in rural areas. It can be seen from the table.

ESTIMATES OF CHILD MORTALITY, 1991 CENSUS

Mortality Indicators	District : Jalor			Rajasthan State		
	Persons	Males	Females	Persons	Males	Females
q2	112	104	120	97	95	99
q3	121	117	132	100	98	106
q5	129	125	139	110	103	117

Information on the question on children ever born and children surviving canvassed for all ever-married women has been tabulated by age of the mother. From this, estimates of child mortality have been worked out by using Brass Technique.

From the estimates of child mortality (Number of death by ages 2, 3 and 5 given as q2, q3 and q5) it is observed that the child mortality in the Jalor district is higher as compared to the state among males and females. It can be seen from the table.

ANNEXURE-III : VARIOUS MEASURES OF FERTILITY AND MEAN AGE AT MARRIAGE, 1991 CENSUS

Source : Occasional paper No.1 of 1997 office of the Registrar General India and Rajasthan state district profile 1991.

Note: * Newly Created districts after 1991 Census.

Different fertility measures indicate that the fertility level in the Jalor district was higher compared to state average in 1991. The gross fertility rate (GFR) of the district has been reported as 165 as against 162 of the state. Similarly the GMFR (Gross Marital Fertility Rate) and Total Fertility Rate (TFR) of the district are also higher than that of state being 193 and 5.23 as against 184 and 5.01 of the state respectively. The Total Marital Fertility Rate (TMFR) of district is 5.95 is higher than that of state i.e. 5.59. The Crude Birth Rate (CBR) is lower 34.95 as compared to the state 35.75.

The number of children ever born per woman in the age-group of 45-49 is 5.44 higher than the state average 5.07. The mean age at marriage of the district is 18.28 is higher than the state. It can be seen from the table. Child Woman Ratio (CWR) of 0-4 district is higher than state.

ANNEXURE-IV(a) : PERCENTAGE DISTRIBUTION OF MIGRANTS BY PLACE OF BIRTH, 1991-2001

Place of birth	1991 Census			2001 Census		
	Persons	Males	Females	Persons	Males	Females
1	2	3	4	5	6	7
(A) Migrants born within the state of Enumeration	280,004 (94.72)	36,837 (92.96)	243,167 (94.99)	379,377 (95.18)	50,070 (92.03)	329,307 (95.68)
(i) Migrants born elsewhere in district of Enumeration	218,926 (74.06)	24,780 (62.53)	194,146 (75.84)	308,363 (77.37)	34,780 (63.93)	273,583 (79.49)
(ii) Migrants born in other district of the State	61,078 (20.66)	12,057 (30.43)	49,021 (19.15)	71,014 (17.82)	15,290 (28.10)	55,724 (16.19)
(B) Migrants born in other states of India	14,595 (4.94)	2,320 (5.85)	12,275 (4.80)	18,406 (4.62)	3,871 (7.12)	14,535 (4.22)
(C) Migrants born in other countries	1,020 (0.34)	470 (1.19)	550 (0.21)	788 (0.20)	465 (0.85)	323 (0.09)
Total Migrants	**295,619 (100.00)**	**39,627 (100.00)**	**255,992 (100.00)**	**398,571 (100.00)**	**54,406 (100.00)**	**344,165 (100.00)**

(a) By Place of Birth:

It was seen that a sizeable portion of migrants in Jalor District i.e. 94.72 percent in 1991 and 95.18 percent in 2001 were migrants whose place of birth was within the state of enumeration. Out of this major portion where migrants who were born elsewhere in the district of enumeration.

The migrant whose place of birth was in other states of India was 4.94 percent in 1991 and 4.62 percent in 2001 Census.

Migrant to the district whose place of birth was in other countries was 0.34 percent in 1991, whereas the proportion was marginally less i.e. 0.20 percent in 2001 Census.

ANNEXURE-IV(b) : RURAL AND URBAN COMPOSITION OF INTERNAL MIGRANTS BY PLACE OF BIRTH, 1991 CENSUS

Place of Birth	Total/ Rural/ Urban	Place of Enumeration		
		Total	Rural	Urban
1	2	3	4	5
Total Internal Migrants within the State	Total	280,004 (100.00)	257,879 (92.10)	22,125 (7.90)
	Rural	261,726 (93.47)	245,519 (87.68)	16,207 (5.79)
	Urban	17,148 (6.12)	11,280 (4.03)	5,868 (2.09)
In other states of India	Total	14,595 (100.00)	12,285 (84.17)	2,310 (15.83)
	Rural	10,505 (71.98)	9,465 (64.85)	1,040 (7.13)
	Urban	4,020 (27.54)	2,750 (18.84)	1,270 (8.70)

(b) Internal Migrants (Rural/Urban):

Majority of the internal migrants i.e.92.10 per cent whose places of birth were within Rajasthan belonged to the rural areas of the state. The same trend also reflects in case of migrants born in other state of India as can be seen from the table.

ANNEXURE-IV(c) : INTERSTATE MIGRANTS, 1991-2001 CENSUS

Place of Birth	1991 Census		Place of Birth	2001 Census	
	Migr-ants	Perce-ntage to Total		Migr-ants	Perce-ntage to Total migrant
1	**2**	**3**	**4**	**5**	**6**

Total Migrants	**302,469**	**42,637**	**259,832**	**407,569**	**59,093**	**348,476**
	(100.00)	**(100.00)**	**(100.00)**	**(100.00)**	**(100.00)**	**(100.00)**

(d) Migration by Place of Last Residence:

In the percentage distribution of migrants by place of last residence inthe district it was seen that in 1991 census.The highest proportion of migrants i.e 94.39 percent were from within the state of enumeration but outside the place of enumeration. In 2001 Census this proportion increased to 94.66 percent in the same category. Suprisingly it was seen that the proportion of female migrants were higher than the male migrants in both censuses.

The migrants in the district that were from states in India beyond the state of enumeration was 5.39 percent in 1991 as compared to 5.19 percent in 2001 census.

Persons whose last residence was outside India was 0.22 percent in 1991 census while there was a marginal increased to 0.16 percent in 2001 census.

ANNEXURE-IV(e) : RURAL AND URBAN COMPOSITION OF INTERNAL MIGRANTS BY PLACE OF LAST RESIDENCE, 1991 CENSUS

Place of last Residence	Total/ Rural/ Urban	Place of Enumeration		
		Total	Rural	Urban
1	2	3	4	5
Total Internal Migrants within the State	Total	285,494	262,929	22,565
		(100.0)	(92.1)	(7.9)
	Rural	267,326	250,899	16,427
		(93.6)	(87.9)	(5.8)
	Urban	17,738	11,620	6,118
		(6.2)	(4.1)	(2.1)

ANNEXURE-IV(e) : RURAL AND URBAN COMPOSITION OF INTERNAL MIGRANTS BY PLACE OF LAST RESIDENCE, 1991 CENSUS

Place of last Residence	Total/ Rural/ Urban	Place of Enumeration		
		Total	Rural	Urban
1	2	3	4	5
In other states of India	Total	16,315	14,045	2,270
		(100.0)	(86.1)	(13.9)
	Rural	10,415	9,435	980

RELIGION

Religion is an important basic cultural characteristic of the population. It provides an interesting picture of the society. The data on religion projects the unity and diversity of the country. The data is of great importance to the public as well as Government,NGO and Minorities Commission.

Among the followers of six major religions in Jalor District it was seen that the proportion of Hindus had marginally increased from 93.77 percent in 1991 to 94.47 percent in 2001 Census. Whereas the proportion of Muslims also marginally increased from 3.64 to 4.00 percent.It is also true in the case of Sikh Communityduring the same period but the Jain Community showed a marginal decreased. The Christian community registeredthe same in the both census.

At the state level however the proportion of Hindus,Sikhs and Jains decreased whereas those of Muslims,Christians and Buddhists increased..

MARITAL STATUS OF POPULATION

Majority of the population of the district in1991census is 52.57 percent in never married followed by married and widowed i.e. 43.17 and 4.22 percent respectively. Out of the male total population of the district 57.16 percent males are never married and of female never married is 47.70 percent, the proportion of widowed females is higher 6.73 percent than the males 1.81 percent. Married males are 40.96 percent while 45.52 percent females are married at the district level. Divorced or Separated is not so widely practiced, only 0.03 males and 0.05 females are reported in this category which are almost half to the state average. The same trend was found in rural as well as urban areas.In 2001 census 52.61 is never married.There after comes married persons whose percentage to total population comes to 43.38 widowed persons in absolute numbers 57,238 which is 3.95 percent to total population. Sexwise, males have higher population of never married is 56.98 percent as compared to females whose population is 48.08 percent. On the other hand, females have higher proportion of married 45.52 percent than males 41.30 percent. Females have a phenomenal higher number 44,978 of widows than male widowers 1,22,600 in the district.It can be seen in Annexure VI.

AGE, SEX AND EDUCATIONAL LEVEL,1991- 2001

Literacy in the age-group 10-14 years in1991 in the district was 39.5 percent in the total which was higher among the males 62.9 percent and females 13.6 percent. In the total in the age-group 15-19 years the literacy lower in the total i.e. 37.1 percent and the same trend was found as in the earlier age group except that the female literacy in this age group 15-19 years was as low as 13.7 percent. In general it was seen that the literacy rate in the urban areas was much higher both among males and females.The proportion of matric but below graduate was however not very high. In the total there were 2.7 percent metric but below graduate persons. Here also the male proportion was higher i.e. 4.9 percent compared to females 0.6 percent. Graduate and above in the age group 20 + years followed the same trend but in lesser proportion. In 2001 census the total population of the Jalor district was 1,448,940 which 46.49 percent are literates.As per the definition of literacy in the 2001 Census the entire population in the age-group 0-6 was considered to be illiterates. The total literacy rate in the district Jalor in the age-group 10-14 years was 70.2 percent and among males and females it was 87.9 and 50.7 percent respectively which is lowerr as compared to the state in the same age group.

Similarly literacy rate in the age group of 15-19 years 81.5 percent males and 40.8 percent females were reported in the district which is also higher than that of the state .

It is a general trend of the literacy at the state as well as district level, female literacy is lower than the male literacy. The percentage showed a decline at Matric but below Graduate 7.11 percent amongs male and 1.14percent amongs females while at the graduate and above level 2.97 percent males and 0.37 percent are females. It can be seen from the Annexure VII.
