Delwara Temple Sirohi

The Delwara Jain Temples in Sirohi District are living monuments of art, architecture & sculptor, which draw Lac of visitors to Mount Abu, where the temples are located. The main group consists of five temples. Of these five temples, two temples of Vimal Vasahi and of Tejpal are known for their exquisite carving in marble. The former was built by Vimala Sah an officer of the Chalukya King Bhim-I in 1031 A.D. and is dedicated to Lord Adinath, the first Tirthankar, while the later belongs to the 13 Century and was built by the two famous brothers Vastupal and Tejpal and is dedicated to Lord Neminath, the 22nd Tirthankar of the Jains.

These temples are famous for their superb carving in marbles and are an embodiment of the architectural splendor of the country. No description can do justice to the beauty of these temples. They are to be seen, to be believed. The intricate carvings are a feast to the eyes. It is art at its finest. Sometimes one wonders whether it is indeed the work of human hands.

Foreword

The District Census Handbook (DCHB) is brought out for each district since the first Census after Independence and is one of the most widely used publications compiled and prepared by the Census Organisation on behalf of the State Governments and the Union territory Administrations. This publication provides Primary Census Abstract (PCA) data up to village level for the rural areas and provides similar details ward-wise for each city or town, and also provides the present status on availability of important civic amenities/infra-structural facilities in villages and towns of the district concerned. This publication has proved to be of immense utility, as it is considered as an essential and basic document for the purpose of delimitation of constituencies, formulation of local level and regional plan and also as an aid to district administration.

The publication of District Census Handbook(DCHB) was first introduced during the 1951 Census which contained a few important Census tables and PCA for each village and town of the district. Thereafter, at each successive Censuses, the scope and coverage of this publication was enlarged. The DCHB published at the 1961 Census provided a comprehensive descriptive account of the district, administrative statistics, Census tables and a village and town directory including PCA. The 1971 Census-DCHB series was planned in three parts. Part-A related to village and town directory, Part-B to village and town PCA and Part-C comprised analytical report, administrative statistics, district Census tables and certain analytical tables based on PCA and amenity data in respect of villages. However, in some States, Part-C was confined to district Census tables and in a few cases altogether given up due to delay in compilation and printing. At the 1981 Census, new features along with the restructuring of the formats of village and town directory were introduced in the DCHB. These were published in two parts for each district. While Part-A comprised village and town directories, the PCA of village and town (ward-wise) including the Scheduled Castes and the Scheduled Tribes PCA up to tehsil/town level were provided in Part-B. In restructuring the format of Village Directory, all the amenities except electricity were brought together and if any amenity was not available in the referent village, the distance in broad ranges from the nearest place having such amenity was given. Information on some new items such as Adult Literacy Centres, Primary Health sub-Centres and Community Health Workers in the village were provided so as to meet the requirements of some of the Revised Minimum Needs Programme. Similarly information on approach to the village was also provided for the first time in the Village Directory so as to give the details on number of inaccessible villages in each district. In the Town Directory, another statement (IV-A) on slums was introduced to provide the details on civic and other amenities in the notified slums of Class I and Class II towns. Apart from this, one column on the Scheduled Castes and the Scheduled Tribes population and another on Adult Literacy classes/centres were added in the Statements IV and V respectively.

The manner of presentation of the DCHBs of the 1991 Census was by and large the same as followed in the 1981 Census. The format of PCA was, however restructured slightly in the 1991 Census. Nine-fold industrial classification of main workers was given as against four-fold industrial classification presented in the 1981 Census. In addition, the sex-wise population in the 0-6 age group was also included in the PCA for the first time with a view to enable data users to compile more realistic literacy rate as all children below 7 years of age had been treated as illiterate at the time of 1991 Census. Another important addition in the DCHB of the 1991 Census was the Community Development Block level presentation of village directory and PCA data instead of the traditional Tehsil/Taluk/PS level presentation. It was expected that the presentation of village directory and PCA data at CD block level will help the planners in formulation of micro level development plans, as the CD block is the lowest administrative unit for developmental planning. Further, in order to facilitate the administrators, planners and researchers

intending to use village directory and PCA data, either from the magnetic tapes/floppies or from the published records, both the computer and manual codes for each village were provided for the 1991 Census along with the corresponding codes of the 1981 Census.

The present series of the DCHB in 2001 Census have been made more informative and exhaustive in terms of coverage and content. The content of village directory has been broadened by including more types of facilities such as bank, recreational and cultural facilities, newspapers and magazines available in villages. Information on most important commodity manufactured in village and also income and expenditure of Gram Panchayat, wherever possible are provided. Specific details on distances, in case a basic amenity is not available in the referent village is also given. These include distances in respect of availability of primary and middle school and college (in respect of the educational facility), Allopathic Hospital, Maternity & Child Welfare Centre and Primary Health Centre (in respect of the medical facility), drinking water, Post Office and phone, communication, bank, credit societies and recreational facilities. In town directory, information on all types of slums, whether notified/recognised by the respective town authority or not and in respect of all statutory towns irrespective of their class as against only Class I and Class II towns of the 1981 and 1991 Censuses are provided. With reference to the village concerned, the nearest city with 5 lakh and above population has also been given in addition to 1 lakh and above population. The varied basic amenities available in the villages and towns are analysed in depth with the help of a number of cross-classified inset tables and statements. A significant addition in the publication is inclusion of analytical notes as annexures on important aspects concerning Census data on (i) fertility, mortality and migration, (ii) various measures of fertility and mean age at marriage, (iii) percentage distribution of migrants by place of birth/place of residence, (iv) main religions, (v) marital status of population, (vi) age, sex and education, and (vii) distribution of different mother tongue, all based on 1991 Census. The eight digits permanent location code (PLCN) to all the villages and towns have been assigned keeping in view the future needs.

It is worthwhile to mention that the District Census Handbooks of the Census of India, 2001 are being made available for the first time in electronic format in addition to printed volumes keeping in view the demand of data users.

This publication is a collaborative task of the State Government and the Census Organisation. The village and town level amenity data have been collected, compiled and computerised in prescribed record structure under the direction of Shri J.L. Modi, Director of Census Operations, Rajasthan on behalf of the State. At the same time, much effort has been made to ensure comparability with the corresponding 1991 Census data and also similar information brought out by the respective State Governments in annual reports and statistical handbooks for various years after 1991. The task of planning, designing and coordination of this publication was carried out by Shri R.G. Mitra, Deputy Registrar General (C&T) and Dr. I.C. Agrawal, Senior Research Officer of Social Studies Division. Dr. R.P. Singh, Deputy Registrar General (Map) provided the technical guidance in the preparation of maps. Whereas, Shri Anil Kumar Arora, Deputy Director of Data Processing Division who worked under the overall supervision of Shri Himakar, Addl. Director(EDP) helped in preparation of record structure for computerisation of village and town directory data and the programme for the generation of Village Directory and Town Directory statements including analytical inset tables. The draft of District Census Handbook manuscripts received from the Census Directorates have been scrutinised in the Social Studies Division under the guidance of Shri S.L. Jain, Deputy Director and Shri R.K. Mehta, Assistant Director. I am thankful to all who have contributed in this project.

J.K. Banthia
Registrar General &
Census Commissioner, India

New Delhi
24th November 2003

Preface

I am deeply indebted to the State Government of Rajasthan for their unstained support and cooperation despite all odds and adversaries like famine etc at all stages of Census Operations of 2001. I am grateful to Shri Inderjit Khanna, the then Chief Secretary of Government of Rajasthan for his prompt response, guidance and cooperation given to the Census Organization. He infused a sense of urgency and seriousness in the minds of District Collectors and Officers of the District Administration, which geared up the entire administrative machinery. The Supervisors and Enumerators, the basic census functionaries worked ceaselessly in the entire period of fieldwork to make Census 2001 successful.

Sarvashri Ashok Pandey and Vinod Zutshi, the then Secretaries in the Department of Cabinet Secretariat and General Administration have been instrumental in making Census 2001 a successful one. I owe my thanks to both of them. I am also thankful to other Departments like Education, Finance, Revenue, Economics and Statistics, Public Relations, Printing and Stationery, Local Self-government and Personnel Department for extending their full cooperation.

I am deeply grateful to Shri J.K. Banthia, Ex-Registrar General and Census Commissioner of India for his sustained support and spontaneous, unfailing guidance throughout our endeavours. At the outset I would like to thank Shri D. K. Sikri, Registrar General and Census Commissioner, India for guiding us in bringing out this report. My grateful thanks to Shri R.G. Mitra, DRG (C&T), Shri R.P. Singh, DRG (Map), Shri Himakar, Additional Director (EDP), Dr.I.C. Agrawal, S.R.O.(SS), Shri S.L. Jain, Deputy Director (SS), Shri C. Chakravorty, Joint Director (DDU) and their colleagues at the headquarter for their ever willing, helping hand and thoughtful suggestions for putting together and shaping the volumes in their present form.

The Director of Census Operations, Rajasthan, Shri J. L. Modi under whose guidance the entire operations were carried out deserves all credit for its success, but he was repatriated to the State Government for taking up some other important assignment before this volume could be made available for the press.

Shri H.S. Meena, Joint Director, incharge of District Census Handbooks and Primary Census Abstract, who was ably assisted by Shri H.C. Sharma, Assistant Director and their team of dedicated workers deserve all praise for their perseverance and dedication in preparing Village and Town Directories and in finalization of PCAs and other inset tables.

Shri K.S. Bhatnagar, Deputy Director (DDE) and his team of devoted workers desserve all praise for timely processing of Household Schedules through “Image based data capturing Technology” i.e. Scanning.

Shri K.S.Singh,Statistical Grade I has taken pains in drafting the District Profile and the Analytical Note for the district. The members of the staff in the Map Section did a commendable job under the guidance of Shri Panna Lal, R.O.(Map) ably assisted by Shri R.S. Tyagi, Sr.Geographer in bringing out various maps. Shri K.S. Bhatnagar officer incharge of printing has ensured the timely release of volumes and all credit goes to him for getting through the press.

District Highlights - 2001 Census

1. Sirohi district ranks 31st in terms of population, 25th in term of area and 21st in terms of population density.
2. The sex ratio of Sirohi district (943) is significantly higher than that the State (921) sex ratio.
3. The literacy rate in Sirohi district is 53.9 per cent which is lower than the literacy rate in the State 60.4 per cent and it ranks 26th among the other districts of the State.
4. Only 2 villages have population more than 10,000 namely Bhavri in Pindwara Tehsil and Mandar in Reodar Tehsil. There are 7 Uninhabited villages in the district.
5. Village Bhavri (Teh.Pindwara) is most populated (12,440) and Dhandhpura (Teh.Pindwara) is the least populated (2) village.
6. The economy of the district is mainly dependent on agriculture.
7. The district has recorded 50 per cent work participation rate for male workers.
8. Reodar Tehsil has the highest number of villages (126) and Sheoganj Tehsil has the lowest number of village (70).
9. In the district, Manadar village in Tehsil Sheoganj has the largest area(9132 hectare) and Incheeniya Band village in Tehsil Sirohi has the smallest area (7 hectare).
10. Mount Abu town is the only summer resort in Rajasthan state.
11. The Delwara Temples are famous for the best specimens, of stone carving of mediaeval India and it is a place of pilgrimage for the Jains. The main group consist of five temples constructed almost entirely of white marble.
12. Nakki lake is situated in the most picturesque setting,between the high hills. From its western end one can see a view of the plains through a gorge. The beauty of Mount Abu town is very much enhanced by this lake which is an artificial lake and is said to have been excavated by the finger nails (nakki) of the Gods and hence named as such.
13. Sunset point is famous as a tourist interest as it presents a marvellous phenomena of the setting sun like the hanging red ball from the peak of hillock.

ANALYTICAL NOTE

BLANK

Analytical Note

(i) History and scope of the District Census Handbook

The series of District Census Handbooks has been prepared after scanning and processing of data collected through Houselist Schedule and Household Schedule. Several new innovations have been introduced at almost all the stages of the Census of India, 2001, right from the preparatory efforts to the data processing and dissemination stage. This includes certain fundamental changes in the form and contents of the Houselist and Household schedules, while maintaining the continuity and comparability of the basic housing and population characteristics with the earlier census. For the Census of India 2001, a system of Permanent Location Code Numbers (PLCN) has been adopted by assigning to each village within the State/UT a continuous series from 1 to N. Each village has been assigned an eight digit code. The first six digits represent the code of the village as existing at the present census. The last two digits being '00' are kept for accommodating future changes in case of split of an existing village or creation of new villages etc. Since the permanent Location Codes have been assigned to each village, theoretically tracing the precise location of village on account of future jurisdictional changes in the boundaries of various administrative areas within the state should not pose a problem. It is imperative that under this scheme, the PLCN assigned to villages at the Census of India, 2001, are adopted in future censuses also to ensure the comparability of the data at the village and other administrative levels over a long time series.

The responses for almost all the questions in the Houselisting Schedule had pre-coded options. This not only helped the enumerators to record the response easily but at a later stage would hopefully facilitate quicker data processing. Apart from the improvements made in the format of the Houselisting Schedule, the scope of Houselisting was considerably expanded with the inclusion of new questions based on requirements of various data users and planners. The new features of the Houselisting Schedule are listed below.

- For the first time, different uses of census houses have been standardized and grouped into ten main uses and assigned code numbers.
- Plastic has been added in the list of material of wall and roof of a census house, as it is often used for shelter in slums and shanties.
- In the previous census, the location of drinking water source was categorized into two locations viz. 'within premises' and 'outside premises'. In the Census of India, 2001, the source 'outside premises' was split into two categories namely 'near the premises' and 'away from the premises'.
- The scope of question of availability of electricity was expanded to include six sources of lighting. Besides no lighting, this included sources like electricity, kerosene, solar, other oil and any other source.
- In 1991 Census, a question on availability of toilet facilities to the household was canvassed while in Census of India, 2001, specific information on availability of latrine within the house by the type of latrine was sought.

In addition to expending the scope of the questions canvassed during the Houselisting Operations in the 1991 Census, the following new questions were added in the Houselist Schedule for Normal Households at the Census of India, 2001.

- If the Census house was used for residential or partly residential purposes, the condition of the census house was categorized as good, livable or dilapidated based on the perception and response of the respondent.
- A question on number of married couple(s) living in the household was canvassed.
- Information was sought on the number of married couple(s) having independent room for sleeping.

- Information as to whether the waste-water outlet of the house is connected to 'closed drainage' or 'open drainage' or has not drainage was collected.
- A question on availability of bathroom within the house was included.
- Information on availability of kitchen within the house was also sought.
- Availability of certain assets to the households namely radio/transistor, television, telephone, bicycle, scooter/motor cycle/ moped, car/jeep/van were also included.
- It was also enquired whether any banking service was being availed by the household.

The Household Schedule adopted for the Population Enumeration also primarily had pre-coded options for majority of the questions. The questions for each data item were made as self-explanatory as far as possible for easy understanding. The comprehensive Household Schedule had three parts and two sides A and B. Part I contains the Location Particulars; Part II relates to Individual Particulars and Part III contains questions for Household engaged in Cultivation/Plantation. To facilitate quick tabulation for bringing out Provisional Population Totals, provisions of page totaling were made in the schedule itself for a few items namely population, males, females, population aged 0-6 years by sex, literates and workers and their categories by sex. Most of the questions canvassed during the 1991 Census, were retained for the 2001 Census, except the question on ex-serviceman, which was dropped during the Census of India, 2001. However, a number of new questions were added in the Household Schedule in view of the suggestions from policy makers, data users and researchers, while the scope of certain existing questions was enhanced.

These modifications are:

- Age at marriage was collected for males also, while it was collected for only ever-married females until the 1991 Census.
- The type of educational institution attended by a person was enlarged to include school, college, vocational institute, other institute and literacy center.
- The scope of the definition of 'work' was expanded in the Census of India, 2001, to include production of milk for domestic consumption. In the 1991 Census, cultivation of certain crops even for self-consumption was treated as economic activity. The scope of the term 'Cultivation' was expanded in this Census to include certain other crops such as tobacco, fruits, all types of flowers, roots and tubers, potatoes, chilies and turmeric, pepper, cardamom, all types of vegetables and fodder crops etc. This meant that activities related to production of all the above mentioned crops for domestic consumption has been treated as work. Only five crops viz. tea, coffee, rubber, coconut and betel nuts have been classified under 'Plantation' in the Census of India, 2001.
- At the 1991 Census, the question on seeking/ available for work was canvassed for only non-workers. At the Census of India, 2001, this question is asked from the Marginal Workers also. A question to elicit information on secondary work canvassed at the 1991 Census is dropped.
- From among the categories of non-workers adopted at the 1991 Census, the category 'Inmates of institutions' has been dropped and 'Retired Persons and Rentiers' has been replaced by the category 'Pensioners'.
- A new response category 'Moved after birth' was included in the question on 'reasons for migration' to bring out additional migration patterns. Natural calamities or distress migration as a reason for migration for last residence migrants included in the 1991 Census, is covered under category of 'Other'.
- Number of children born alive to currently married women during last one year was collected for male and female children separately.

Besides the above modifications, the following new questions were canvassed at the 2001 Census.

- A question on total disability was canvassed in the 1981 Census. In the 1991 Census, no question on disability was included. At the Census of India, 2001, a question to elicit information on total or partial disability was canvassed. The five types of disability on which information is collected are - in seeing, in hearing, in speech, in movement and mental.

- A new question on 'Travel to place of work' is canvassed mainly for workers engaged in non-agricultural activities. Information on distance from the residence to place of work and mode of travel to place of work is collected under this section.
- The Household Schedule has a new set of questions for Household engaged in cultivation/ plantation- i) Net area of land under cultivation/ plantation, ii) Net area of land irrigated and iii) Tenure status. This question was not canvassed at the 1991 Census but was canvassed in the 1981 Census in a slightly different form.
- The signature or thump impression of the respondent has been taken on the Household Schedule for the first time in the history of census. This was not only aimed at obtaining correct and complete information but also for giving an opportunity to the respondents to authenticate the information provided by them. The relationship of the respondent with the head of the household was also obtained. This new feature will pave way in carrying out a methodological study in future on the respondent profile in the census.

In 1981 Census, for the first time, an attempt was made in the series to bring out demographic and other data in diglot, Hindi and English, for a more beneficial use by data user of all categories. Hindi being the official language of the State, a Hindi version of the analytical notes was also added with a view to caters to the needs of all sections of readers. The manner of presentation of the District Census Handbooks for the 1991 Census is by and large the same.

As a necessary corollary to the Handbooks, Panchayat Samities, the basic administrative units of development, administration and planning, were listed out separately for the first time in 1981 Census in relation to those districts wherein they were not coterminous with their tehsils. As an additional attempt, informations relating to population figures as well as amenities available in each village located in the jurisdiction of each Panchayat Samiti were also presented in a separate volume under the title "Supplement to District Census Handbook". However, for reference in the main District Census Handbook, a list of villages forming part of each non-coterminous Panchayat Samiti was provided along with the abstracts of population and amenities for such Panchayat Samities as a whole in the form of Special Annexures.

In order to cater to the over-all needs of the data-users and to facilitate the task of administrators and planners it has now been decided to present the Village Directory and Primary Census data at the Panchayat Samiti level instead of the traditional Tehsil level presentation. It is expected that the presentation of Village Directory and Primary Census Abstract data at Panchayat Samiti level will help the planners in formation of micro-level developmental plans, as the Panchayat Samiti is now the lowest administrative unit for development planning. However, for the convenience of the data users and for the sake of comparability of data at Tehsil level, the Primary Census Abstract has also been presented at the Tehsil/ Town level in the form of an Appendix.

A general note on each district covering information of general interest regarding its history, topography, physiography, administrative set-up and places of tourist and historic importance etc. has also been included with a view to provide comprehensive and more purposeful information about the district as a whole. Population figures of Scheduled Castes and Scheduled Tribes constituting the core of 'Weaker Section' have also been presented at district, panchayat samiti and town level so as to facilitate planning for their welfare both at micro and macro levels.

It is earnestly hoped that this publication will serve its purpose for planners and administrators of welfare schemes and other data users in general.

Prior to 1951, Census Reports were printed for the whole province/state. The idea of preparing the District Census Handbooks separately for each district was conceived during 1951 Census as a part of a plan intended to secure an effective method of preserving the Census data below the district level. The idea was that all the district census tables would be bound together in a single volume called the District Census Handbooks. Since then the District Census Handbooks are being published regularly.

The 1951 Census series of District Census Handbooks was printed in two parts. Part I contained five General Population Tables (A Series), three Economic Tables (B Series), five Household and Age Tables (C Series) and seven Social and Cultural Tables (D Series). In Part II of District Census Handbook "Primary Census Abstract and Village Directory" which showed the basic population figures for each village or town classified by livelihood classes, were included along with some information of general nature.

The 1961 Census series of District Census Handbooks were printed in single volume in which Primary Census Abstract upto village and town/ward level and Village Directory upto village level were given. Besides, some official statistics collected from various state departments, four General Population Tables (A Series), sixteen Economic and Household Tables (B Series), seven Social and Cultural Tables (C Series), four Housing Tables (E Series) and eight Special Tables for Scheduled Castes/Scheduled Tribes were also provided in District Census Handbooks. For the first time in 1961 Census the maps for the district and tehsil were also included in the District Census Handbooks.

In 1971 Census series of District Census Handbooks village-wise 'Village Directory' giving services, facilities or amenities available in the village was given. 'Town Directory' was introduced for the first time giving useful information in respect of every town of the district. Rural Primary Census Abstract upto village level and Urban Primary Census Abstract upto enumeration block level were given in District Census Handbooks. While the District, Tehsil and Town maps were included; the inclusion of Census Tables was dispensed with in the District Census Handbooks in 1971 Census.

The scope of 1981 series of District Census Handbooks was enlarged specially in relation to amenities and land-use pattern. Apart from new items like uses of electricity, details of communication points, information for which was not collected in 1971 Census, a note on each district covering general information on its history, topography, flora, fauna and administrative set up etc. was also added. The format of the Primary Census Abstract was also restructured in the light of changes in economic and other questions canvassed in the 1981 Census but at the same time, all efforts were made to retain comparability with 1971 Census data. The inclusion of Special Primary Census Abstract for Scheduled Castes and Tribes at the Tehsil/Town level was another innovation introduced in 1981 Census series.

The manner of presentation of the District Census Handbooks for the 1991 Census was by and large the same as followed in 1981. However, the format of Primary Census Abstract was restructured slightly in the 1991 Census for the benefit of data users. Nine-fold industrial classification of main workers was given as against four-fold industrial classification presented in the 1981 Census. In addition to this, the sex-wise population in the 0-6 age-group was included in Primary Census Abstract for the first time with a view to enabling data users to compute more realistic literacy rate as all children below 7 years of age were treated as illiterate at the time of the 1991 Census.

One of the most important innovations in the 1991 Census was the Panchayat Samiti level presentation of data in the Village Directory and Primary Census Abstract instead of the traditional Tehsil level presentation.

Deviating from 1991 Census, like 1981 Census four fold industrial classification of main and marginal workers has been presented in 2001 as against nine fold given in 1991.

The mode of presentation of DCHB in 2001 will by enlarge be same as that of in 1991. The uniqueness of Census 2001 is that single record (Household Schedule) has been processed as against two records viz. Individual Slip and Household Schedule in the previous Censuses. Apart from this some deviation has been made this time by incorporating analytical notes on migration, fertility & mortality, education, marital status, age structure etc pertaining to 1991 Census of the respective district in the DCHB in the form of Annexures II to VIII. Similarly Tables based on Houselist data pertaining to Census 2001 has also been included in DCHB.

(ii) Brief History of the District

The district derives its name after Sirohi town, being the district headquarters and the later is said to have taken its name from the Saranwa hill, on the western slope of which it stands. Tod has suggested that the

name of the territory might have been derived from its position at the head (sir) of the desert (rohi). This has also been suggested that the original name of the town was 'Shivpuri' of which the present name is a derivative. The word 'Sirohi' also means a sword, and this has led some people to believe that this State of brave Deora Chauhans was so named due to the widespread fame of its swords.

It was regarded as part of 'Marubhumi' and has always been referred to as Arbudh Pradesh in Puranic traditions. After a lapse of time, Chandrawati became the capital of Arbudh Pradesh and during the reign of Parmars, it was known as Ashtadhashati Desh, which Sirohi was supposed to comprise of 1,800 villages. In 1,405 Rao Sobhaji, the ancestor of the Deora clan of Chauhans built the Sirohi town in a bay of the hills near the site of the present capital. Rao Sains Mal, son of Rao Sobhaji built the new City on a healthier site, on the western slopes of the Saranwa hills which was also called Sirohi. Afterwards, the whole of the area under the charge of Deoras was known as Sirohi.

Prior to the final merger of this area with Rajasthan State, in December 1947, a decision was taken for integration of all the States around Sirohi. In March, 1948, Sirohi was placed under Western India States Agency and thus it was removed from the Rajputana Agency. In November 1948, an agreement between the minor ruler of Sirohi and the Government of India was signed and accordingly, Bombay Government took over the administration on behalf of the Central Government, since January 5, 1949. On January 25, 1950 the erstwhile Sirohi State was partitioned and, as a sequel, Abu Road tehsil and a part of Delwara tehsil were merged with the then Bombay state while the remaining part of the state was transferred to Rajasthan.

The former Sirohi State was divided into six tehsils namely Abu road, Delwara, Pindwara, Reodar, Sheoganj and Sirohi. Just before the merger, another tehsil Bhawri was changed from a 'hath-kharch' tehsil to 'Khalsa'. In 1950, the area which was merged into Rajasthan State, was divided into five tehsils and placed in a single sub-division.

During the period 1951-61, by and inter –State transfer, Abu Road taluka (786.8 sq. kms.) of Banaskantha district under Gujarat State was transferred to this district of Rajasthan State, on the recommendations of the State Re-organisation Commission. Accordingly, a new Abu Road tehsil was constituted in Sirohi district. In the process of inter-tehsil re-adjustments, former Bhawri tehsil (582.7 sq. kms) was merged in Pindwara tehsil as such, at that time, there remained five tehsils viz. Sheoganj, Sirohi, Pindwara, Abu Road and Reodar. Besides, four villages (73.6 sq. kms.) were transferred from Reodar tehsil to the newly formed Abu Road tehsil, as a result of inter-tehsil transfers. No inter district or inter-tehsil transfers of the territory took place during 1961-71 and 1971-81. The total numbers of villages in the district in 1991 were 461 whereas it increased to 462 in 2001 Census, which includes 7 uninhabited villages. Bhawri Census Town is declassified during the decade 1991-2001.

Regarding the urban areas of the district, three towns namely Sirohi, Sheoganj and Pindwara of 1951 Census continued to be classified as towns in 1961 Census and Rohira town of 1951 Census was declassified and became a revenue village in Pindwara tehsil. However, subsequent to the transfer of Abu Road tehsil, two more towns viz, Mount Abu and Abu Road were also added to the list of towns in the district during 1961 Census. After 1961 Census there has been no change in the list of towns in the district. During the inter census period of 1981-91 a census town Bhawri was also classified in the list of urban areas however it was declassified during the decade 1991-2001.

(iii) Administrative set-up

For the purpose of administration, the district was divided into two sub-divisions, five tehsils and five towns, as mentioned below:

Sub-Division	Tehsils	Towns
1. Sirohi	1. Sirohi	1. Sirohi
	2. Sheoganj	2. Sheoganj
	3. Reodar	-
2. Mount Abu	4. Abu Road	3. Mount Abu
		4. Abu Road
	5. Pindwara	5. Pindwara

Apart from the five tehsils, there was three sub-tehsils in the district.

The collector is the administrative head of the district and also functions as the district Magistrate, while the Sub-division is under the charge and the supervision of a sub-divisional Magistrate, and tehsil administration is under the charge of a Tehsildar.

With the advent of democratic decentralisation in

1959, five Panchayat Samities are set up in the district. The Panchayat Samities function under the tenuous control of the Zila Parishad, headed by the Zila Pramukh, as its chairman, but are administratively supervised by the Collector of the district, who is also the ex-officio District Development Officer.

(iv) Physical Features

(1) Location and Size

The district is situated in the south-west of Rajasthan between the parallels of 24°20' and 25°17' north latitudes and 72°16' and 73°10' east longitudes. It is bounded on the north east by Pali district, on the east by Udaipur district, on the south by Banaskantha district of Gujarat State, and on the west and north-west by Jalor district. The total area of the district is 5136.00 sq. km. as against the total area of 3,42,239.00 sq. km. of the state. It's rank 25th among the districts in respect of area.

(2) Physiography

The district is in the shape of an irregular triangle. A large part of the district is a vast semi desert. Plain, marked by isolated hills and chains of hillocks forming the eastern fringes of the Thar desert. It is bounded by the north-eastern, south western trending Aravalli Ranges on the east. Abu Sirohi range divides the district into two parts. In the western portion, four groups of scattered hills (off shoots of the aravalli range) are available one each in tehsils Sirohi and Sheoganj and two in Reodar tehsil. The highest point in Sirohi tehsil is an isolated peak west of village Mandwara reaching a height of 583 metres, in Jairaj group of Reodar tehsil near village Padar being 1,090 metres, and in the Nandwar group in the north-east of village Rohua (695 metres) and Neebaj (999 metres). The south west fringes of detached hills in Sheoganj tehsil begin with an isolated peak reaching a height of 639 metres near village Sagaliya, west of villages Mochhal (665 metres), Jogapura (721 metres), Alpa(683 metres) and Rewara (696 metres) above the sea level. Besides, numerous small hillocks also exist.

Detatched hills of the Aravalli range are situated in the south-east of the central portion of this district. Mount Abu is situated at about 1,219 metres above sea level and is built on an irregular plateau which is surrounded by several projecting peaks and ridges. Another important plateau is Oriya in Abu Road tehsil, which is at a distance of about eight kms from Mount Abu station and it is 152 metres higher than Abu, and lies below the main peak of 'Guru Shikhar' which is 1,722 metres above the mean sea level and is the highest point between the Himalayas and Nilgiris. East of the Abu hills, across the valley of Banas, is the tract known as Bhakar, which consists of successive ranges of steep and rugged hills of no great height.

(3) Water resources

Jawai is the largest and longest of the rivers of north-west, which eventually joins Luni. It rises in the aravalli hills and after flowing through various villages forms the boundary between Pali and Sirohi districts. Western Banas is the most important river of the district draining almost all the area east of Abu-Sirohi range in Pindwara and Abu Road tehsils. Other rivers which flow in the district are Khari, Sukri, Kachmaoli or Bodi, Kapalganga. Krishnavati, the most important tributary of Khari also flows through the boundaries of several villages of the district.

No natural lake exists in the district but there are traces of old artificial ones at Garh in the east and also at other places. The picturesque 'Nakki lake' holds pride of place. An old reservoir called Chandela is situated at the foot of Abu hills, 12 kms, west of Abu Road. The tanks famous in the district are jubilee and Siwera in Pindwara tehsil, Akhelao and Mansarovar in the north east of Sirohi town, Lakherao in Sirohi town, Abbot at Matrimata, Dudhia between Sarneshwarji and Sirohi and Visola north of Sirohi town on way to village Kolar (Sheoganj tehsil). Perennial springs of water are few and small in the district.

(4) Climate

On the whole, the district has a dry climate with the hot season somewhat milder than in the adjoining districts to the north and north-west. Generally cold season begins from December and lasts up to February which is followed by the hot season which continues up to the middle of June, while the period from mid-June to mid-September is of the south-west monsoon, the next remaining period till the end of November constitutes the post-monsoon season.

There is only one meteorological observatory in the district established at Mount Abu. Since this place is a hill station, a true picture regarding the data of temperature and other meteorological elements cannot

be considered representative of the conditions prevailing in the whole district. Hence, for the plain areas of the district, meteorological data available for Erinpura Road a station set up just outside the district on its western border, may be taken as truly representative. During the year 2000, the maximum, minimum and mean temperatures were recorded as 34°C, (-)3.4°C and 25.5°C at Erinpura road Centre.

The rainfall generally decreases from the south-east to north-west in the district. Over 90 per cent rainfall constitutes during the period June to September. The rainfall at Mount Abu is much higher than at the stations in the plains. The normal annual rainfall at the district head-quarters is 73.23 cm. While the actual rainfall was 40.48 cm. during the year 2000.

(5) Natural economic resources

Soil

Five types of soil are met with, namely (i) stiff clay, known as mattiyar which is black in colour; it is most suitable for wheat, barley and cotton and is found in Pindwara tehsil and part of Sheoganj tehsil, (ii) gorat or goradu sometimes called bhuri which is light brown in colour and rather sandy, but fertile; it is mostly found in Reodar tehsil and in some parts of Sirohi and Sheoganj tehsils; it is suitable for bajra, (iii) reti or nearly pure sand which is found in river beds is suited for tomatoes and watermelons, (iv) kankari or kankarwali which is hard and stony with an admixture of sand is found around the bases of some of the hills, (v) khari or the land impregnated with salt is unsuitable for the crops.

Geology and minerals

The Delhi Super Group of rocks occupy the Aravalli ranges in the eastern part of the district and also the small chain of hills to the west of Monut Abu. Among the main rock types are phylite, mica schist, limestone, marble calc silicate rocks, quartzite etc. These rocks range in age from 1,540 to 1,400 million years and are intruded by the grey Erinpura and the pink Jalor granites. The subsequent rhyolites are ancient volcanic rocks that erupted sometime between 745 and 1000 million years ago whereas the variety of basic rocks near Mer-Mundwara area, which form a ring structure, are considered to have erupted during the Cretaceous period.

Among the minerals found in the district mention may be made of calcite, copper, lead and zinc, limestone and wollastonite. Small pockets of calcite occur near villages Bhoola and Moras of Pindwara tehsil and villages Tankiya, Siyawa and Upla Khejra of Abu Road tehsil. While village Deri (Abu Road tehsil) contains multi-metal deposit of copper, lead and zinc reserves of about a million tones, a number of smaller deposits are located near villages Basantgarh and Rohira (Pindwara tehsil) village Goili (Sirohi tehsil) and Swaroopganj. Limestone is available in villages Danvav, Morthala, Kiwarli, Maval and Akra-Padoori area of Abu Road tehsil. Sizeable deposits of wollastonite have been recently discovered in the Upla Khejra area of Abu Road tehsil of which major portion falls in this district. This mineral is used in the ceramic, paint, paper and plastic industries.

In addition to the above mentioned minerals is found in the district, there are large deposits of good quality marble at Hara Magra near villages Selwada, Perwa, Serwa and Bhatana (Reodar tehsil) amphibole asbestos near village Bori-Buj (Abu Road tehsil) and talc near Abu.

The data regarding production of various main and secondary minerals in the district, their average sale and average labour engaged in them during 1999-2000 is given below:

Name of the Minerals	Unit	Production	Sale in 000' rupees	No.of labourers engaged
a. Main Minerals				
1. Calcite	000'Ton	53.407	42,725	573
2. Wallstonite	000'Ton	116.852	46,741	505
3. Lime Stone	000'Ton	3233.515	291,016	170
b. Secondary Minerals				
1. Masonry Stone	000'Ton	244.708	7,528	65
2. Lime Stone (Burning)	000'Ton	113.937	6,835	70
3. Marble	000'Ton	92.961	24,561	470
4. Bajari	000'Ton	181.029	5,430	241
5. Granite	000'Ton	3.997	1,998	65

Forest, Flora and Fauna

During the year 1999-2000, 152,495 hectares of land i.e., 29.44 per cent of the total reporting area in the district, was under forests. Major portion of the district is covered with trees and bushes. The most common tree is Dhau (Anogeissus pendula), which is

found on the low rocky hills scattered all over the district. Apart from its use as fire wood it is also utilised for preparing carts and agricultural implements. Other trees found are Neem (Azadirachta indica), Pipal (ficus religiosa), Ber (Zizyphus jujuba), Tamarisk (Tamariz dioica), Bar (Ficus bengalensis) and Gular (Ficus glomerate).

Among the bushes, which cover three fourths of the plains of the district, mention may be made of ber (Zizyphus nummularia), Anwala (Cassia auriculate) and Kair (Acacia Catechu) together with Khejra (Prosopis spicigera), Babul (Acacia arabica), Jhal or Pilu (Salvadora persica and S. Oleoides) and Kair or Karel (Cappairs aphylla) at places. Thor (Emphorbia royleana) is found throughout the district, especially on the hills around the base of Mount Abu and Dhak (Butea frondosa) in the area where the soil is deep and good. The bark of Dhak tree is used in making ropes for the water pots of Persian wheels.

The trees and shrubs found on the solpes and round the base of Abu are bamboo (Bambusa strictus), Aam (Mangifera indica), species of Dhao (Anogeissus Latifolia and Pendula etc.) Siris (Albizzia lebbek), Bel(Aegle marmelos), Jamun(Eugenia jambolana), Rohira (Tecoma undulata), the horse radish tree (Moringa concanesis) etc. Abu is considered the richest spot in vegetation in the whole state of Rajasthan. On the higher parts of Abu, Ambartari(Aerides affine) is found which clings to mango and other trees. Stiging nettle (Girardinai heterophylla) and Karanda (Carisa carandas) are also found in abundance.

The fauna of the district is rather varied though not very plentiful. Panthers are commonly found while wild boars are available in most of the hills. Ravine deer (Chinkara) are fairly common while four horned antelope are rarely available. Tigers and black bears are found on the Abu-Sirohi range and in Neebaj hills in the south-west while Chital (Cervus axis) confine themselves to the grass lands and lower slopes of the Aravallies in the south-east. Nilgai (Boselaphus tragolamelen) is seldom seen and black-bucks are rare. Regarding small game, grey partridge, hares, some varieties of quail and sandgrouse are found in the district. Junglefowl and red spur-fowl are plentiful on Abu and some other high hills while Floricans inhabit some of the large grass preserves.

There is a game sanctuary at Mount Abu which was established in 1960-61. In order to ensure preservation of wild life, the State Government has Prohibited the shooting, hunting, netting and trapping of animals and birds in this areas. There is a facility of watch tower at Trevor Tal besides watertroughs nearby and platforms for bird-feeding.

Land use pattern

Total geographical area of the district during 1999-2000 was 517947 hectares. The classification of land-use in the district during the same period is as under:

Classification of land use	Area in hectares	Percentage to total area
Area under forest	152,495	29.44
Land not available for cultivation	102,521	19.79
Permanent Pastures and other grazing land	33,501	6.47
Land under miscellaneous trees crops and groves not included in the net area sown	23	0
Cultivable waste land included fallow land	102,658	19.83
Net area sown	126,749	24.47
Total	**517,947**	**100.00**

Source: Zila Sankhikiya Rooprekha-2001.

Crop pattern

As per statistics available for the year 1999-2000, the area under some major crops is given below:

S.No.	Name of crop	Area in hectares	Production (in tones)
1	Bajara	13,793	66
2	Jowar	5,081	90
3	Wheat	18,603	35,845
4	Maize	23,920	1,749
5	Barley	1,180	1,912
6	Small Millets	2,710	76
7	Rice	8	1
8	Gram	1,935	2,298
9	Tur	611	8
10	Other Kharif Pulses	8,291	27
11	Other Rabi Pulses	4	-
12	Rape & Mustard	11,155	15,261
13	Groundnut	1,916	132
14	Til	7,667	20

Source: Zila Sankhikiya Rooprekha-2001.

There are two main crop seasons, the Kharif or as it is usually called here, barsala and the rabi or unali. The barsala (autumn) crops begin with the first rains in July and are reaped in October. The unali (spring) crops are usually sown in November and harvested after April. Among Kharif crops, are included maize, jowar, cotton, pulses, groundnut, sugarcane and rice; while the Rabi crops consists of wheat, barley, gram, oilseeds, methi, alsi, dhania and opium. The third crop 'Zayad, is also grown when vegetables like brinjals, cucumbers and water and musk melons are raised in river beds during the summers. The important crops in the district, in order of production were wheat, maize, barley, gram during 1999-2000.

Tenancy

Tenancy in the State is governed by the Rajasthan Tenancy Act, 1955. It is one of the most important and progressive laws relating to agrarian reforms. The provisions of the Act apply in respect of land held by tenants as if the State Government were the land holder acting through the Tehsildars. In relation to the land held by him, every cultivator is either a tenant or a sub-tenant or an allottee or a trespasser. A tenant is one who is required to pay some rent on account of use and occupation of land let out to him for agricultural or allied purposes. Grantee with a favourable rate of rent, ijardar, thekedar or trespasser is not considered a tenant.

There are following classes of tenants:

a) Khatedar tenants,
b) Maliks,
c) Tenant of Khudkasht, and
d) Ghair-Khatedar tenants.

A Khatedar tenant is entitled to all the rights conferred and subject to all the liabilities imposed on Khatedar tenant by the Rajasthan Tenancy Act. On the date of coming into force of Rajasthan Tenancy Act, a Zamindar or a Biswedar holding Khudkasht was treated as a Khatedar tenant irrespective of whether he was or not in occupation on the date of vesting.

Malik is a Zamindar or Biswedar who has become Malik or Khudkasht land held by him on abolition of Zamindari and Biswedari in 1959. The word "Malik" was also added to section 14 of the Rajasthan Tenancy Act to classify it as a class of tenant. Section 13 of the Act provides that a Malik is entitled to all the rights conferred and is subject to all the liabilities imposed on Khatedar tenant and so in substance this class of tenancy is nothing but a Khatedar tenant.

As Zamindars and Biswedars holding Khudkasht were treated as Khatedar tenants. A tenant of khudkasht is essentially a sub-tenant in view of the fact that a sub-tenant is also eligible for protection of his cultivatory rights even against Khatedar tenant. Every tenant of land other than a Khatedar tenant, a tenant of Khudkasht or a sub-tenant is a Ghair-Khatedar tenant.

A trespasser is a person who takes or retains possession of land without authority or who prevents another person from occupying land duly let out to him by the State. After regularisation, the trespasser becomes an allottee. An allottee is treated as a Ghair-Khatedar tenant on whom Sub-Divisional Officer shall suo-moto confer khatedari rights after ten years of allotment provided that the allottee fulfils all the terms and conditions of allotment during this period. Similar is the case of those allottees who were otherwise allotted land by the State Government.

Irrigation

The total net irrigated area during 1999-2000 was 48542 hectares, which constituted 38.30 per cent of total net area sown in the district. The distribution of this total area according to the different sources of irrigation is as follows:

S.No.	Source of irrigation	Area in hectares
1	Well	47,492
2	Tanks	370
3	Canals	638
4	Tube wells	42
	Total	**48,542**

Source: Statistical Abstract – 2001

Irrigation through Well is the most important source of irrigation covering about 97.84 per cent of the total net irrigated area of the district.

The following data show the area (in hectares) of the main crops sown in the irrigated area:

Year	Kharif	Rabi	Jayad Rabi
1995-1996	29,058	76,415	9,773
1996-1997	28,512	59,135	7,863
1997-1998	27,205	81,903	9,402
1998-1999	23,909	68,838	9,089
1999-2000	22,654	33,690	7,252

Source: Statistical Abstract – 2001

Livestock cattle breeding and fisheries

According to the livestock Census 1997 the total livestock population was 970689 in the district. Following is the distribution of livestock according to the livestock Census of 1992 and 1997:

S.No.	Livestock	1992	1997
1	Cattle	189,812	214,390
2	Buffaloes	94,902	127,836
3	Sheep	328,544	320,208
4	Goat	339,292	297,459
5	Horses and Ponies	319	296
6	Donkeys/Mules	3,853	3,534
7	Camel	5,044	5,859
8	Khachar	15	8
9	Pig	2,189	1,099
	Total	**963,970**	**970,689**

The total poultry in the district during the period 1992 and 1997 was 33767 and 47905 respectively.

For treatment of animals, the following facilities were available in the district during the year 1999-2000

1	Veterinary Hospital	33
2	Aushdhalya	6
3	Key village units	1
4	Artificial insemination centres	21

The variety of fishes and their production for the year 1999-2000 is given below.

S.No.	Variety of fishes	Production in kg.
1	Major carps	153,200
2	Cat-fish	35,320
3	Minor carps	45,825
	Total	**234,345**

Agricultural Implements and Machinery

Of the total area 517947 hectares in the district, 126749 hectares used for agriculture and it constituted 24.47 per cent of the total area. The net area sown is cropped more than once was 34717 hectares, which constituted 27.39 per cent of the net area sown. Wheat, Maize, Barley and Gram are the main crops as per production during the year 1999-2000 in the district. Agricultural implements regarding agricultural implements there were 45312 ploughs, 7907 carts, 16 sugarcane crushers, 2226 tractors, 12649 diesel engines, 8380 electric pumps and 32 Ghanies (oil pressing machines) in the district as per livestock census of 1997.

Electricity

The electricity by different types of uses and their consumption of electricity and number of consumers during 1999-2000 is given below:

S.No.	Type of uses	Number of consumers	Consumption (in million Kwh.)
1	Household consumption	86,344	559.87
2	Commercial consumption	12,942	152.85
3	Industrial consumption	2,588	2498.84
4	Public lighting	218	13.36
5	Public water works	405	59.12
6	Irrigation	10,340	441.05
7	Others	29	39.61
	Total	**112,866**	**3764.70**

Source: Zila Sankhikiya Rooprekha-2001.

Almost all villages and five towns are electrified in the district.

Transport and Communication

There was 1436.78 km length of roads during 1999-2000. The classification of roads of communication in the district during the same period is as under:

S.No.	Roads	In kilometers
1	National highways	143
2	Painted roads	1,104
3	Metalled roads	77
4	Gravelled roads	-
5	Fair dressed up roads	113
	Total	**1,437**

Source: Zila Sankhikiya Rooprekha-2001.

National Highway No. 14 & 76 passes through Beawar, Pali, Sirohi, Abu Road, Palanpur and Pindwara - Udaipur, Nimbahera Chittaurgarh Kota, Sheopuri (M.P.).

About 326 villages were connected by road in the district. All the important places of the district are connected with bus routes.

The number of vehicles registered in various categories during 1999-2000 is given below:

S.No.	Category	No. of vehicle
1	Private cars and Jeeps	2,281
2	Private bus	419
3	Motor cycles and Auto rickshaw	19,325
4	Taxi and Trolley	1,226
5	Public and private carriers	979
6	Tractors	3,526
7	Others	1,153
	Total	**28,909**

Source: Zila Sankhikiya Rooprekha-2001.

There were 178 post offices, 15 telegraph offices, 46 telephone exchanges and 598 STD/Public Call Offices during 1999-2000 in the district. The first metre gauge line in the district was opened in December 1880 and was a part of Rajputana Malwa Railway. Now, the district is connected by Western Railway and is on the Delhi-Ahmedabad route. The metre gauge enters the district at Mori Bera and crosses it at Mawal. There were 12 railway stations in the district during 1999-2000 and 83 kms line have been converted into Broad gauge.

Trade and Commerce

The major articles exported out of the district include sheep, goats, raw and tanned hides, skin, honey, bamboo, anwal bark, gum, charcoal, ghee, swords, oil-seeds etc., the imports consist of textiles, grain, iron, steel and other metals, kerosene, salt, sugar, tobacco, spices, hosiery, cutlery, crockery, various types of machines, medicines, matches, building materials, petroleum etc. The articles are mostly sent to Ahmedabad, Mumbai, Delhi and Kanpur and the articles required are generally imported from Ahmedabad and Mehsana (Gujarat State), Mumbai and Poona (Maharashtra State), Bhatinda and Firozpur (Punjab State) and Rewari (Haryana State), and Ajmer, Beawar and Pachpadra of Rajasthan State.

There were 59 branches of various scheduled Commercial Banks and 25 Co-operative Banks functioning in the district in the year 2000.

During the year 2000, 19 petrol pumps operated in the district, 127 shops of country liquor, 24 shops of Indian made foreign liquor, 7 shops of hempdrugs and 4 cinema houses one each at Sirohi, Pindwara and two at Abu Road in the district.

Industry

The Government of India has declared Sirohi as a Non-Industrial district on 1.4.1983. After that, Government has provided infra-structural amenities in six places viz Sirohi Abu Road, Pindwara, Swaroopganj, Mandar and Sheoganj. Besides, 584 developed Industrial plots were also allotted after 1983 in different Industrial areas of the district.

There were only six registered factories in the district by 1961, whereas the number rose to 75 by 1980 employing 770 persons. On account of the development of industrial areas by the state government after 1983 small and cottage industries were established rapidly in the district and by 1988-89, 2381 small and cottage industries were registered in the district employing 7287 persons.

There were 132 registered factories, employing 4660 persons and 3730 small-scale industries registered with Industry Department, employing 18602 persons by 1999-2000 in the district. Besides 8 large and medium Industries by the same year, employing 2620 persons.

The detailed information regarding the type of Industries, income and the employment provided by them during 1999-2000 in the district is given below:

S. No.	Type of Industries	Total number of Industries	Total (P&M) investment (in lakh)	No of employed
1	Mines based	23	23,962	150
2	Agriculture & foodbased	14	3,496	62
3	Paper based	2	395	10
4	Textile based	4	4,516	21
5	Plastic based	1	60	7
6	Iron based	6	1,105	29
7	Chemical based	3	1,070	20
8	Wood based	3	1,016	17
9	Other	19	10,059	82
	Total	**75**	**45,679**	**398**

Source: Zila Sankhikiya Rooprekha-2001.

Benani Cement limited Factory and Lakshmi Cement, J.K. Puram are established in the district, manufacturing 43 & 53 grade qualitative cement.

Gram Panchayats composition & its role

The system of Panchayati Raj was inaugurated on 2nd October 1959 in Nagaur district by then Prime Minister Late Shri Jawahar Lal Nehru. Late Shri Balwant Rai Mehta proposed the recommendation for Panchayati Raj. There are three levels of Panchayati Raj:

(1) Gram Panchayat (Village level)

(2) Panchayat Samiti (Block level)

(3) Zila Parishad (District level)

Gram Panchayat is an important institution of self-government. The institution is set for a village or village agglomeration. A Gram Panchayat is created on 2,000-8,000 population. It covers a maximum area of 6 miles. The villages, which have population below 2,000, are

merged with the other villages to create a Gram Panchayat. Their tenure is of 5 years.

A Gram Panchayat consist 5 to 20 members. The Head of the Panchayat is called Sarpanch. Panch and Up-Sarpanchs are also elected. It includes a member belongs to backward class and a lady member. There are 151 Gram Panchayats in the district.

The main objectives of Gram Panchayat are to arrange the primary education, sanitation of public places, drinking water and light. It manages also the adult education, livestock and repairing of wells.

During the last years, Gram Panchayats functioned several important jobs like *Kam Ke Badley Anaj*, Construction of Panchayat Ghar, School buildings, roads and tanks. It organizes also the cattle fare. Gram Panchayat plays an important role in the development of village and its economy.

(v) Census Concepts

Building

A 'Building' is generally a single structure on the ground. Sometimes it is made up of more than component unit which are used or likely to be used as dwellings (residences) or establishments such as shops, business houses, offices, factories, workshops, worksheds, Schools, places of entertainment, places of worship, godowns, stores etc. It is also possible that building which have component units may be used for a combination of purposes such as shop-cum-residence,workshop-cum-residence,office-cum-Residence, etc.

Usually a structure will have four walls and a roof. But in some areas the very nature of construction of houses is such that there may not be any wall. Such is the case of conical structures where entrance is also provided but they may not have any walls. Therefore, such of the conical structures are also treated as separate buildings.

Permanent houses

Houses, the walls and roof of which are made of permanent materials. The material of walls can be any one from the following, namely, galvanized iron sheets or other metal sheets, asbestos sheets, burnt bricks, stones or concrete. Roof may be made of from any one of the following materials, namely, tiles, slate, galvanized iron sheets, metal sheets, asbestos sheets, bricks, stones or concrete.

Semi-permanent houses

Houses in which either the wall or the roof is made of permanent material and the other is made of temporary material.

Temporary houses

Houses in which both walls and roof are made of materials, which have to be replaced frequently. Walls may be made from any one of the following temporary materials, namely, grass, thatch, bamboo, plastic, polythene, mud, unburnt bricks or wood. Roof may be made from any one of the following temporary materials, namely, grass, thatch, bamboo, wood, mud, plastic or polythene.

Room

A room should have four walls with a doorway with a roof over head and should be wide and long enough for a person to sleep in, i.e., it should have a length of not less than 2 metres and a breadth of at least 11/2 metres and 2 metres in height. A room, however, which is used in common for sleeping, sitting, dining, storing and cooking, etc., should be regarded as a room. An unenclosed verandah, kitchen, store, garage, cattle-shed and latrine and rooms in which a household industry such as a handloom is located, which are not normally used for living or sleeping are excluded from the definition of a living room for the purpose of this question.

One is likely to come across conical shaped hut or tent in which human beings reside. In such improvised accommodation, there will be no four walls to a room and therefore, the above definition would not strictly apply to such types of accommodation. In such cases, the tent or conical hut etc., have been construed to be a room. In certain parts of the country, particularly in rural areas, the pattern of housing may present some problems. For example, a household may be in occupation of several huts put to different uses such as main residence, sitting room, store and even for sleeping at night. By strict application of the definition each one will be reckoned as a census house, but this

does not reflect the real situation. While huts used as store or cattle shed pose no problems, those used as sleeping rooms beyond the main residence, should be counted as rooms rather than separate census houses.If a garage is used by a servant and he lives in it as a separate household, it should be reckoned as a room available to the servant's household. If the servant is considered as a member of the household then the garage room should be reckoned as an additional room of the household.

Dwelling Room

A room is treated as a dwelling room if it has walls with a doorway and a roof and should be wide and long enough for a person to sleep in, i.e. it should have a length of not less than 2 meters and a breadth of at least 1.5 meters and a height of 2 meters. A dwelling room would include living room, bedroom, dining room, drawing room, study room, servant's room and other habitable rooms. Kitchen, bathroom, latrine, store room, passageway and verandah which are not normally usable for living are not considered as dwelling rooms. A room, used for multipurpose such as sleeping, sitting, dining, storing, cooking, etc., is regarded as a dwelling room. In a situation where a census houses is used as a shop or office., etc., and the household also stays in it then the room is not considered as a dwelling room. But if a garage or servant quarter is used by a servant and if she/he also lives in it as a separate household then this has been considered as a dwelling room available to the servant's household. Tent or conical shaped hut if used for living by any household is also considered as dwelling room. A dwelling room, which is shared by more than one household, has not been counted for any of them. If two households have a dwelling room each but in addition also share a common dwelling room, then the common room has not been counted for either of the households.

Census house

A 'census house' is a building or part of a building used or recognised as a separate unit because of having a separate main entrance from the road or common courtyard or staircase, etc. It may be occupied or vacant. It may be used for residential or non- residential purpose or both.

In certain peculiar situations, the manner in which buildings and census houses were identified for numbering in the field by the enumerators is described hereunder:

Sometimes a series of different buildings are found along a street which are joined with one another by common walls on either side looking like a continuous structure. These different units are practically independent of one another and are likely to have been built at different times and owned by different persons. In such cases, though the whole structure with all the adjoining units apparently appears to be one building, each portion was treated as a separate building and its constituent units as separate census houses.

On the other hand, one may come across cases, particularly in large cities of multi-storeyed ownership flats. In these cases while the structure looks like one building, different persons own the flats. In case of such multi-storeyed structures, having a number of flats owned by different persons, the entire structure was treated as one building and each flat as a separate census house.

If within a large enclosed area, there are separate buildings owned by different persons then each such building is treated as a separate building. There can be a situation where within an enclosed compound there are separate buildings owned by an undertaking or company or even government that are actually in occupation of different persons. For example, Indian Oil Corporation colony where the buildings are owned by the Corporation but these are in occupation of their employees. Each such building was treated as a separate building. But if in any one of these buildings there were flats in occupation of different households, each such flat was reckoned as a separate census house.

Sometimes if becomes difficult to apply the definition of census house strictly in certain cases. For example, in an urban area, if a flat has five rooms, each room having direct entrance from the common staircase or courtyard. By definition, this has to be treated as five census houses. If all these five rooms are occupied by a single household it was not realistic to treat them as five census houses. In such a case,'singleness' of use of these rooms along with the main house should be considered and the entire flat was treated as one census house.On the other hand, if

two independent households occupy these five rooms, the first household living in 3 rooms and the second household occupying 2 rooms, then considering the use, the first three rooms together were treated as one census house and the remaining rooms as another census house. But if each room was occupied by an independent household, then each such room was treated as a separate census house.

In case of hostels, hotels, etc., even if the door of each room in which an inmate lives opens to a common verandah, staircase, courtyard or a common room, as it happens almost invariably, the entire hostel/ Hotel building was treated as one census house, but if such hostels/ hotels have out- houses or other structures used for different purposes or the same purpose, then each such structure attached to the main hostel / hotel was treated as a separate census house.

In some parts of the country, in rural areas, the pattern of habitation is such that a group of huts, located in a compound, whether enclosed or unenclosed, is occupied by one household. While the main residence may be located in one hut, other huts may be used for sleeping, as a kitchen, bath room, baithak, etc. Though each of the huts was a separates structure, they form a single housing unit and therefore, have to be treated collectively as one building and one census house. If some of the huts are used by one household and the others by a second household as residence, then the two groups of huts were treated as separate census houses. However, if there were also other huts in the compound used for other purposes and not as part of the household's residence such as, cattle shed, workshed, etc., these were treated as separate census houses.

On the other hand, in urban areas, where more than one structure within an enclosed or open compound (premises) belonging to the same person, e.g., the main house, the servant's quarter, the garage, etc., only one building number was given for this group and each of the constituent a separate census house number.

Only cases where a structure with roof and pillars has come up was treated as a building.

Village

The basic unit for rural areas is the revenue village, which has definite surveyed boundaries. The revenue village may comprise of one or more hamlets but the entire village is treated as one unit for presentation of data. In unsurveyed areas, like villages within forest areas, each habitation area with locally recognized boundaries is treated as one village.

Rural-Urban area

The data in tables on Houses, Household Amenities and Assets are presented separately for rural and urban areas. The unit of classification in this regard is 'town' for urban areas and 'village' for rural areas. In the Census of India 2001, the definition of urban area adopted is as follows:

a) All places with a municipality, corporation, cantonment board or notified town area committee, etc.

b) A place satisfying the following three criteria simultaneously:

   i) a minimum population of 5,000;

   ii) at least 75 per cent of male working population engaged in non-agricultural pursuits; and

   iii) a density of population of at least 400 per sq. km.(1,000 per sq.mile)

For identification of places which would qualify to be classified as 'urban' all villages, which, as per the 1991 Census had a population of 4,000 and above, a population density of 400 persons per sq. km. and having at least 75 per cent of male working population engaged in non-agricultural activity were considered. To work out the proportion of male working population referred to above against b) (ii), the data relating to main workers were taken into account.

Apart from these, the outgrowths(OGs) of cities and towns have also been treated as urban under 'Urban Agglomerations'. Examples of out-growths are railway colonies, university campuses, port areas, military camps, etc., that may have come up near a statutory town or city but within the revenue limits of a village or villages contiguous to the town or city. Each such individual area by itself may not satisfy the demographic criteria laid down at (b) above to qualify it to be treated as an independent urban unit but may deserve to be clubbed with the towns as a continuous urban spread. Thus, the town level data, wherever presented, also includes the data for outgrowths of such towns.

City

Towns with population of 1,00,000 and above are called cities.

Urban Agglomeration

An Urban Agglomeration is a continuous urban spread constituting a town and its adjoining urban outgrowths (OGs) or two or more physically contiguous towns together and any adjoining urban outgrowths of such towns. In some cases railway colonies, university campuses, port areas, etc., may come up near a city or statutory town outside its statutory limits but within the revenue limits of a village or villages contiguous to the town or city. Each such individual area by itself may not satisfy the minimum population limit to qualify it to be treated as an independent urban unit but may deserve to be clubbed with the town as a continuous urban spread.

For the purpose of delineation of Urban Agglomerations during Census of India 2001, following criteria are taken as pre-requisites:

a) The core town or at least one of the constituent towns of an urban agglomeration should necessarily be a statutory town ; and

(b) The total population of all the constituents (i.e., towns and outgrowths) of an Urban Agglomeration should not be less than 20,000 (as per the 1991 Census).

With these two basic criteria having been met, the following are the possible different situations in which Urban Agglomerations would be constituted:

i) a city or town with one or more contiguous outgrowths;

ii) two or more adjoining towns with their outgrowths; and

iii) A city and one or more adjoining towns with their outgrowths all of which form a continuous spread.

Household

A 'household' is usually a group of persons who normally live together and take their meals from a common kitchen unless the exigencies of work prevent any of them from doing so. Persons in a household may be related or unrelated or a mix of both. However, if a group of unrelated persons live in a census house but do not take their meals from the common kitchen, then they are not constituent of a common household. Each such person was to be treated as a separate household. The important link in finding out whether it was a household or not was a common kitchen. There may be one member households, two member households or multi-member households.

Institutional household

A group of unrelated persons who live in an institution and take their meals from a common kitchen is called an Institutional Household. Examples of Institutional Households are boarding houses, messes, hostels, hotels, rescue homes, jails, ashrams, orphanages, etc. To make the definition more clearly perceptible to the enumerators at the Census 2001, it was specifically mentioned that this category or households would cover only those households where a group of unrelated persons live in an institution and share a common kitchen.

Houseless household

Households who do not live in buildings or census houses but live in the open on roadside, pavements, in hume pipes, under fly-overs and staircases, or in the open in places of worship, mandaps, railway platforms, etc., are treated as Houseless Households.

Scheduled Caste and Scheduled Tribe

Article 341 of the Constitution provides that the President may, with respect to any State or Union territory, specify the castes, races or tribes or parts of or groups within castes, races or tribes which shall for the purposes of the Constitution be deemed to be Scheduled Castes in relation to that State or Union territory. Article 342 similarly provides for specification of tribes or tribal communities or parts of or groups within tribes or tribal communities which are to be deemed for the purposes of the Constitution to be Scheduled Tribes in relation to the various States and Union territories. In pursuance of these provisions, the list of Scheduled Castes and / or Scheduled Tribes are notified for each State and Union territory and are valid only within the jurisdiction of that State or Union territory and not outside.

It is important to mention here that under the Constitution (Scheduled Castes) Order, 1950, no person who professed a religion different from Hinduism was deemed to be a member of a Scheduled Caste in addition to every member of the Ramdasi, Kabirpanthi,

Majhabi or Sikligar caste resident in Punjab or Patiala and East Punjab States Union were in relation to that State whether they professed the Hindu or the Sikh religion. Subsequently, in September 1956, by an amendment, the Presidential Order of 1950 and in all subsequent Presidential Orders relating to Scheduled Castes, the Hindu and the Sikh religions were placed on the same footing with regard to the specification of Scheduled Castes. Later on, as per the amendment made in the Constitution (Scheduled Castes) Order 1990, the Hindu, the Sikh and the Buddhist were placed on the same footing with regard to the recognition of the Scheduled Castes.The lists containing the names of the Scheduled Castes and the Scheduled Tribes applicable for the Census of India 2001 in the State are given below:

Scheduled Castes

1. Adi Dharmi
2. Aheri
3. Badi
4. Bagri, Bagdi
5. Bairwa, Berwa
6. Bajgar
7. Balai
8. Bansphor, Bansphod
9. Baori
10. Bargi, Vargi, Birgi
11. Bawaria
12. Bedia, Beria
13. Bhand
14. Bhangi, Chura, Mehtar, Olgana, Rukhi Malkana, Halalkhor, Lalbegi, Balmiki, Valmiki, Korar, Zadmalli
15. Bidakia
16. Bola
17. Chamar, Bhambhi, Bambhi, Bhambi Jatia, Jatav, Jatava,Mochi, Raidas, Rohidas, Regar, Raigar, Ramdasia, Asadaru, Asodi, Chamadia, Chambhar, Chamgar, Haralayya, Harali, Khalpa, Machigar, Mochigar, Madar, Madig, Telegu Mochi, Kamati Mochi, Ranigar, Rohit, Samgar
18. Chandal
19. Dabgar
20. Dhanak, Dhanuk
21. Dhankia
22. Dhobi
23. Dholi
24. Dome, Dom
25. Gandia
26. Garancha, Gancha
27. Garo, Garura, Gurda, Garoda
28. Gavaria
29. Godhi
30. Jingar
31. Kalbelia, Sapera
32. Kamad, Kamadia
33. Kanjar, Kunjar
34. Kapadia, Sansi
35. Khangar
36. Khatik
37. Koli, Kori
38. Kooch Band, Kuchband
39. Koria
40. Madari, Bazigar
41. Mahar, Taral, Dhegumegu
42. Mahyavanchi, Dhed, Dheda, Vankar, Maru, Vankar
43. Majhabi
44. Mang, Matang, Minimadig
45. Mang, Garodi, Mang Garudi
46. Megh, Meghval, Meghwal, Menghvar
47. Mehar
48. Nat, Nut
49. Pasi
50. Rawal
51. Salvi
52. Sansi
53. Santia, Satia
54. Sarbhangi
55. Sargara
56. Singiwala
57. Thori, Nayak
58. Tirgar, Tirbanda
59. Turi

Scheduled Tribes

1. Bhil, Bhil Garasia, Dholi Bhil, Dungri Bhil, Dungri Garasia, Mewasi Bhil, Rawal Bhil, Tadvi Bhil, Bhagalia, Bhilala, Pawara, Vasava, Vasave
2. Bhil Mina
3. Damor, Damaria
4. Dhanka, Tadvi, Tataria, Valvi
5. Garasia (excluding Rajput Garasia)
6. Kathodi, Katkari, Dhor Kathodi, Dhor, Katkari Son Kathodi, Son Katkari
7. Kokna, Kokni, Kukna
8. Koli Dhor, Tokre Koli, Kolcha, Kolgha
9. Mina
10. Naikda, Nayaka, Cholivala Nayaka, Kapadia Nayaka, Mota Nayaka, Nana Nayaka
11. Patelia
12. Seharia, Sehria, Sahariya

Language and Mother tongue

As per the census concept, each language is a group of mother tongues. The census questionnaire collects information on the mother tongue of each person and mother tongue is defined as the language spoken in childhood by the person's mother to the person. If the mother died in infancy, the language mainly spoken in the person's home in childhood will be the mother tongue. In the case of infants and deaf mutes, the language usually spoken by the mother is considered as mother tongue. It is not necessary that the language spoken as mother tongue should have a script. The mother tongues returned by the respondents in census are classified and grouped under appropriate languages according to their linguistic characteristics.

Literate

A person age 7 years and above who can both read and write with understanding in any language is taken as literate. A person who can only read but cannot write is not literate. It is not necessary that to be considered as literate, a person should have received any formal education or passed any minimum educational standard. Literacy could also have been achieved through adult literacy classes or through any non-formal educational system. People who are blind and can read in Braille are treated as literates.

Literacy rate

Literacy rate of the population is defined as the percentage of literates in the age group seven years and above. For different age groups the percentage of literates in that age group gives the literacy rate.

Educational level

The highest level of education a person has completed.

Work

Work is defined as participation in any economically productive activity with or without compensation, wages or profit. Such participation may be physical and/or mental in nature. Work involves not only actual work but also includes effective supervision and direction of work. It even includes part time help or unpaid work on farm, family enterprise or in any other economic activity. All persons engaged in 'work' as defined above are workers. Persons who are engaged in cultivation or milk production even solely for domestic consumption are also treated as workers.

Reference period for determining a person as worker and non-worker is one year preceding the date of enumeration.

Main-worker

A person who has worked for major part of the reference period (i.e. six months or more during the last one year preceding the date of enumeration) in any economically productive activity is termed as 'Main worker' .

Marginal worker

A person who worked for less than six months of the reference period (i.e. in the last one year preceding the date of enumeration) in any economic activity is termed as 'Marginal worker' .

Non-worker

A person who has not worked at all in any econom ically productive activity during the reference period (i.e. last one year preceding the date of enumeration) is termed as 'Non worker'.

Cultivator

For purposes of the Census a person is classified as cultivator if he or she is engaged in cultivation on land owned or held from government or held from

private persons or institutions for payment in money, kind or share. Cultivation includes effective supervision or direction in cultivation.

A person, who has given out her/his land to another person or persons or institution(s) for cultivation for money, kind or share of crop and who does not even supervise or direct cultivation in exchange of land, is not treated as cultivator. Similarly, a person working on another person's land for wages in cash or kind or a combination of both (agricultural labourer) is not treated as cultivator.

Cultivation involves ploughing, sowing, harvesting and production of cereals and millet crops such as wheat, paddy, jowar, bajra, ragi, etc., and other crops such as sugarcane, tobacco, ground-nuts, tapioca, etc., and pulses, raw jute and kindred fiber crop, cotton, cinchona and other medicinal plants, fruit growing, vegetable growing or keeping orchards or groves, etc. Cultivation does not include the following plantation crops – tea, coffee, rubber, coconut and betel nuts (areca).

Agricultural labourer

A person who works on another person's land for wages in money or kind or share is regarded as an agricultural labourer. She/he has no risk in the cultivation, but merely works on another person's land for wages. An agricultural labourer has no right of lease or contract on land on which she/he works.

Household industry worker

Household industry is defined as an industry conducted by the head of the household herself/himself and or by the members of the household at home or within the village in rural areas and only within the precincts of the house where the household lives in urban areas. The larger proportion of workers in household industry should consist of members of the household including the head. The industry should not be run on the scale of a registered factory which would qualify or has to be registered under the Indian Factories Act and should be engaged in manufacturing, processing, servicing and repairs of goods.

It does not include professions such as a pleader, Doctor, Musician, Dancer, Waterman, Astrologer, Dhobi, Barber, etc. or merely trade or business, even if such professions, trade or services are run at home by members of the household.

Other worker

A person who has been engaged in some economic activity during the reference period but not as a cultivator or agricultural labourer or in Household Industry is termed as a 'Other Worker (OW)'. The type of workers that come under this category of 'OW' include all government servants, municipal employees, teachers, factory workers, plantation workers, those engaged in trade, commerce, business, transport, banking, mining, construction, political or social work, priests, entertainment artists, etc. In effect, all those workers other than cultivators or agricultural labourers or household industry workers, are 'Other Workers'.

Work participation rate

Percentage of workers (main + marginal) to total population.

Population density

Population density is the number of persons inhabited per square kilometre of the area.

Age

Age is measured in terms of the completed number of years

Sex-ratio

Number of females per 1000 males in a population.

(vi) Non Census Concepts

Improved drinking water

If the household had access to drinking water supplied from a tap, hand pump, tube well or well (protected or covered) situated within or outside the premises, it is considered as having access to improved drinking water.

It may be mentioned that such uniform definition may not be valid across all states.

System of Sewerage

Generally, a sewerage system would mean a network of mains and branches of underground conduits for the conveyance of sewerage to the point

of disposal. Sewers that carry only household and industrial wastage are called separate sewers; those that carry storm water from roofs, streets and other surfaces are known as storm water drains, while those carrying both sewage and storm water are called combined sewers. However, in some towns which are not provided with such underground sewerage system, it is served by open surface drain, box drain, sylk pattern drain, etc., in these towns.

Type of latrine and Method of disposal of night soil

There are three prevalent systems of disposal of human wastes, viz.(i) underground sewerage, (ii) sanitary water flush latrines with individual disposal systems, like septic tank, leaching cess pool and collecting well, and (iii) dry type of latrines with manual scavenging.

The system of underground sewerage provides for the street sewerage with which are connected the sanitary latrines constructed in the houses having water closets and fitted with flushing cistern (or hand flushing). Through this sewer the faecal matter is transported without the need for scavenging. This system generally exists in cities and big towns.

Fertility

In demography, the word fertility is used in relation to the actual production of children or occurrence of births specially live births. Fertility is a measure of rate at which population adds to itself by births and normally assessed by relating the number of births to a full or part of the population, such as number of married women or number of women of child bearing age. The definitions of the terminology used in computing different fertility rates are mentioned below:

Crude birth rate (CBR)

Ratio of the number of live births in a year to the mid year population, normally expressed per 1,000 population.

$$\text{CBR} = \frac{\text{Number of live births during the year}}{\text{Mid-year Population}} \times 1000$$

Crude death rate (CDR)

Ratio of the number of deaths in a year to the mid year population, normally expressed per 1,000 population.

$$\text{CDR} = \frac{\text{Number of deaths during the year}}{\text{Mid-year Population}} \times 1000$$

Natural growth rate

Growth rate is obtained as the difference between crude birth rate and crude death rate in the absence of migration.

Age specific fertility rate (ASFR)

Number of live births in a year to female population in any specified age group normally expressed per 1,000 women.

$$\text{ASFR} = \frac{\text{Number of live births in a particular age-group}}{\text{Mid-year female population of the same age-group}} \times 1000$$

Age specific marital fertility rate (ASMFR)

Number of live births in a year to married female population in any specified age group normally expressed per 1,000 married women.

$$\text{ASMFR} = \frac{\text{Number of live births in a particular age-group}}{\text{Mid-year married female population of the same age-group}} \times 1000$$

General fertility rate (GFR)

Number of live births per 1,000 women in the reproductive age-group (15-49) years in a given year.

$$\text{GFR} = \frac{\text{Number of live births in a year}}{\text{Mid-year female population in the age-group (15-49) years}} \times 1000$$

General marital fertility rate (GMFR)

Number of live births per 1,000 married women in reproductive age-group (15-49) years in a given year.

$$\text{GMFR} = \frac{\text{Number of live births in a year}}{\text{Mid-year married female population in the age-group (15-49) years.}} \times 1000$$

Total fertility rate (TFR)

It is obtained as the total of the age specific fertility rates (number of children born per woman of the particular age) for the entire reproductive age span. It provides the average number of children that

will be born to a woman under the fertility levels indicated by the age specific fertility rates assuming that there is no mortality of women till the completion of reproductive period.

$$TFR = \frac{5 \times \sum_{15\text{-}19}^{45\text{-}49} ASFR}{1000}$$

Total marital fertility rate (TMFR)

Average number of children that would be born to a married woman if she experiences the current fertility pattern throughout her reproductive span (15-49) years assuming that there is no mortality of women till the completion of reproductive period.

$$TMFR = \frac{5 \times \sum_{15\text{-}19}^{45\text{-}49} ASMFR}{1000}$$

Age-specific mortality rate (ASMR)

Number of deaths in a particular age and sex group per 1,000 population of the same age group.

$$ASMR = \frac{\text{Number of deaths in a particular age-group}}{\text{Mid-year population of the same age-group}} \times 1000$$

q1

Probability of dying between birth and age 1. This can be used as approximate value of Infant Mortality Rate (IMR) which gives the ratio of number of deaths in a year of children aged less than one year to the number of births in that year.

q2

Probability of dying between birth and age 2.

q5

Probability of dying between birth and age 5. This indicator is also known as Under Five Mortality Rate (U5MR)

Infant mortality rate (IMR)

Ratio of the number of infant deaths (deaths of children below one year) in a year to the number of live births in that year.

$$IMR = \frac{\text{Number of infant deaths during the year}}{\text{Number of live births during the year}} \times 1000$$

Infant mortality rate comprises of two parts, viz., Neo-natal mortality rate and Post neo-natal mortality rate. The neo-natal mortality rate also comprises of two parts viz., Early neo-natal mortality rate and late neo-natal mortality rate. These are defined as:

Neo-natal mortality rate (NMR)

Number of infants dying within the first month of life (28 days or under) in a year per 1,000 live births of the same year.

$$NMR = \frac{\text{Number of infant deaths aged 28 days or under during the year}}{\text{Number of live births during the year}} \times 1000$$

Early neo-natal mortality rate

$$= \frac{\text{Number of infant deaths of less than 7 days during the year}}{\text{Number of live births during the year}} \times 1000$$

Late neo-natal mortality rate

$$= \frac{\text{Number of infant deaths of 7 days to less than 29 days during the year}}{\text{Number of live births during the year}} \times 1000$$

Post neo-natal mortality rate (PNMR)

$$= \frac{\text{Number of deaths of 29 days to less than One year during the year}}{\text{Number of live births during the year}} \times 1000$$

Peri-natal mortality rate (PMR)

Number of still births plus deaths within 1st week of delivery per 1,000 births in a year.

$$PMR = \frac{\text{Number of still births and infant deaths of less than 7 days during the year}}{\text{Number of live births and still births during the year}} \times 1000$$

Still birth rate (SBR)

$$= \frac{\text{Number of still births during the year}}{\text{Number of live births and still births during the year}} \times 1000$$

Maternal mortality rate (MMR)

Number of deaths of women in the age group 15-49 while pregnant or within 42 days of termination of pregnancy from any cause related to pregnancy and child birth per 100000 live births in a given year.

$$\text{MMR} = \frac{\text{Number of maternal deaths to women in the agegroup 15-49}}{\text{Number of live birth}} \times 100000$$

Eligible couple (Couples per1000 Population)

Number of currently married females in the age group15-44 years per 1000 persons of all ages.

Child woman ratio (0-4)

1. Number of children in the age group 0-4 years per 1000 women in the age group 15-49 years.

Child woman ratio (5-9)

2. Number of children in the age group 5-9 years per 1000 women in the age group 15-49 years.

Migration

Migration is the third component of population change, the other two being mortality and fertility.

A person is considered as a migrant by place of birth if the place in which he/she is enumerated during the census is other than the place of his/her birth.

Similarly a person is considered as a migrant by place of last residence if the place in which he/she is enumerated during the census is other than his/her place of immediate last residence outside the village or town and not simply in another house or locality in the same village or town.

Certain aspects concerning temporary movement/ migration of people has been explained below as these are important components concerning migration:

(i) Migration of persons in search of job is high in the country. In many cases such migrants are only seasonal in nature. People migrate to other places for work in a particular season and come back again to their usual place of residence after three or four months. All such workers are treated as migrants. Similarly, if a person moved to any other place for attending short term vocational or educational course that lasted for only few months of a year, she/he too were considered as a migrant.

(ii) Where a person had merely gone out to another place or had been shifting from one place to another purely on tour, pilgrimage, visit to hospital for treatment or for temporary business purposes, such persons are not deemed to have had another residence different from the place where she/he or her/his family normally resides. She/he is not considered as migrant.

(iii) A woman temporarily moves into a hospital or to her parents or other relative's house for delivery and if the hospital or the parents/relatives houses is in a place different from usual place of residence, the place where the hospital or parents/relative's house is the place of last residence of the child but not of the mother.

A new response category 'Moved after birth' was added in Census of India 2001 in the question on 'reasons for migration' to bring out additional migration patterns. Natural calamities or distress migration as a reason for migration for last residence migrants included in 1991 Census, is covered under category of 'Others'. The reason for migration has been determined as applicable at the time of migration and not in reference to any point of time after that. For example, if a person had moved from the place of her/his last residence for the purpose of education and subsequently at some point of time got employment there only, the reason for migration would be 'education' and not 'work/employment'.

Internal and International migration

The migrational movements are of three types (i) Migration within the state itself with its components (a) Migration within the district of enumeration (intra district migration) (b) Migration from one district of state to another district of state (inter district migration), (ii) Migration from one state to another State of the country (inter-state migration), (iii) Migration from one country to another country. The first two streams together constitute internal migration, while the last

type of movement is called international migration. The present name of the country, state or district and not the name by which they were known at the time of her/his birth or last residence were recorded.

Rural-Urban components of migration

Rural or Urban status in respect of migrants have been determined as applicable at the time of migration and not with reference to any point of time after that.

The flow of migrants consists of four streams viz. rural to rural, rural to urban, urban to rural and urban to urban.

Civic status of urban units

Civic Status of a town/city is determined on the basis of Civic Administrative authority of the town e.g., Municipal Corporation/Corporation, Municipal Committee/ Municipal council, Municipality etc.

Size class of UA / town

Size-class of UA/Town is based on the population size of the UA/City/Town UAs./Towns with 1,00,000 and above population are classified as Class I UAs. / towns. These Class I UAs./towns are now further sub classified in to seven sub classes namely M1 to M7 depending on the population size of UA/City/ Town. These are M7(5,000,000 and above); M6(2,000,000 to 4,999,999); M5 (1,000,000-1,999,999) M4 (500,000-999,999); M3(300,000-499,999), M2 (200,000-299,999) & M1 (100,000-199,999). Towns with, 50,000 to 99,999 population are classified as Class II towns, 20,000 to 49,999 population are Class III towns, population with 10,000-19,999 are Class IV towns, population with 5000 and 9999 are Class V towns and towns with less than 5000 population are Class VI towns.

Slum area

The Slum Areas (Improvement and Clearance) Act, 1956 which was enacted by the Central Govt. defined slums as a) Areas where buildings are in any respect unfit for human habitation; or b) are by reasons of dilapidation, overcrowding, fault arrangement and design of such buildings, narrowness or faulty arrangement of streets, lack of ventilation, light or sanitation facilities, or any combination of these factors, are detrimental to safety, health or morals.

Mega city

The concept of 'Mega city' is a recent phenomenon in the Urban Sociology and is defined in term of metropolitan city in the form of large size, problem of management of civic amenities and capacity to absorb the relatively high growth of population. Indian Census in 1991 treated the population size of 5 million and above as the cut off point to identify a place as the mega city. Whereas, for the purpose of inclusion in Centrally Sponsored Scheme for Infrastructure Development in Mega cities the Ministry of Urban Affairs and employment, Department of Urban Development adopted the criteria of 4 million and above population as per 1991 Census for Mega Cities. In 2001 Census, cities with 10 millions and above population have been treated as Mega cities.

(vii) 2001 Census finding - population, its distribution

According to the 2001 census, the total population of Sirohi district is 851,107 comprising 437,949 males and 413,158 females and constituting 1.5 percent of State population and area spread over 1.5 per cent in the 5 tehsils of the district, Pindwara tehsil is most populous tehsil having population 205,568 while Sheoganj is the smallest tehsils having a population of 124,452 persons. Other tehsils in order of their population size are Abu Road (184,610), Reodar (175,344) and Sirohi (161,133).

Out of the total population of the district 82.3 per cent lives in rural areas while 17.7 per cent lives in urban areas. The corresponding proportions in rural and urban areas of the State are 76.6 per cent and 23.4 per cent respectively.

(viii) Brief analysis of PCA data based on inset tables 1 to 36 :

TABLE 1 : DECADAL CHANGE IN POPULATION OF TEHSILS BY RESIDENCE, 1991-2001

Sl. No.	Tehsil	Population						Percentage decadal variation 1991-2001			Percentage urban population	
		1991			2001						1991	2001
		Total	Rural	Urban	Total	Rural	Urban	Total	Rural	Urban		
1	2	3	4	5	6	7	8	9	10	11	12	13
1	Sheoganj	99,742	79,876	19,866	124,452	99,663	24,789	24.8	24.8	24.8	19.9	19.9
2	Sirohi	133,923	105,806	28,117	161,133	125,589	35,544	20.3	18.7	26.4	21.0	22.1
3	Pindwara	152,236	128,032	24,204	205,568	184,803	20,765	35.0	44.3	-14.2	15.9	10.1
4	Abu Road	136,006	80,611	55,395	184,610	114,818	69,792	35.7	42.4	26.0	40.7	37.8
5	Reodar	132,122	132,122	0	175,344	175,344	0	32.7	32.7	0.0	0.0	0.0
	District Total	**654,029**	**526,447**	**127,582**	**851,107**	**700,217**	**150,890**	**30.1**	**33.0**	**18.3**	**19.5**	**17.7**

The district has registered a percentage decadal variation of 30.1 during the decade 1991-2001. The rural area of the district has attained a higher decadal variation of 33.0 per cent as compared to that of urban area at 18.3 per cent. At tehsil level, it varies from the lowest of 20.3 per cent in Sirohi tehsil to a maximum of 35.7 per cent in Abu Road tehsil in total areas.

There is a decline in the percentage of urban population to total population from 19.5 in 1991 to 17.7 in 2001. All the tehsils have registered the same trend as that of district whose percentage of urban population has declined from 1991 to 2001 except in Sirohi tehsil where it has increased from 21.0 per cent in 1991 to 22.1 per cent in 2001 and in Sheoganj where it has remained at 19.9 per cent.

TABLE 2 : NUMBER AND PERCENTAGE OF INHABITED VILLAGES IN SPECIFIED POPULATION SIZE RANGES WITH THE RELATED POPULATION , 2001

Sl. No.	District/Panchayat Samiti	Total number of inhabited villages	Total rural population			Number and percentage of villages	Population less than 200		Number and percentage of villages
			Persons	Males	Females		Males	Females	
1	2	3	4	5	6	7	8	9	10

3	Reodar	35,914	34,408	2 (1.6)	6,881	6,367	1 (0.8)	5,837	5,448
4	Abu Road	22,738	21,426	2 (2.6)	6,540	5,965	0 (0.0)	0	0
5	Pindwara	33,104	31,919	8 (8.1)	25,675	24,398	1 (1.0)	6,537	5,903
Districts (Rural) Total		**136,754**	**132,904**	**18 (4.0)**	**60,375**	**57,180**	**2 (0.4)**	**12,374**	**11,351**

Of the total 462 villages, 455 are inhabited villages. Reodar Panchayat Samiti has the highest number of villages i.e. 126 where in Sheoganj Panchayat Samiti with lowest of 69 villages. Pindwara Panchayat Samiti is the most populous with 184803 persons while Sheoganj is the least populous Panchayat Samiti with a population of 99663 persons. The maximum number of villages i.e. 124 are those which lie in the population range of 500-999. It is followed by 121 inhabited villages, which have population range of 1000-1999. As regards to large size villages in the district, 18 are such which lie in the population range of 5000-9999 and 2 are such which have population more than 10000. In case of small size villages i.e. having population less than 500, such villages are 98 in number in the district.

TABLE 3 : NEW TOWNS, DENOTIFIED, DECLASSIFIED AND MERGED TOWNS IN 2001 CENSUS

		Name of Towns
(a)	**New**	
	(i) Statutory town	Nil
	(ii) Census town	Nil
(b)	**Denotified**	
	(i) Statutory towns of 1991 census denotified and also did not satisfy the criteria to be treated as census towns	Nil
	(ii) Statutory towns of 1991 census denotified but identified as census towns based on demographic and economic criteria	Nil
	(iii) Census towns of 1991 census are notified as statutory town in 2001 census	Nil
(c)	**Declassified***	Bhawri (CT)
(d)	**Wholly merged with other town (s)**	Nil

* Declassified means the census towns of 1991 census which failed to satisfy the demographic and economic criteria.

No new town has emerged, nor denotified nor any town merged. However, Bhawri (CT) of 1991 has been declasssified.

TABLE 4 : DISTRIBUTION OF VILLAGES BY POPULATION DENSITY, 2001

Range of population density (per square kilometer)	Total number of villages in each population density range	Percentage of villages in each population density range	Population	Percentage distribution of population
1	2	3	4	5
0-10	15	3.3	1,380	0.2
11-20	7	1.5	861	0.1
21-50	35	7.7	19,535	2.8
51-100	85	18.7	92,062	13.1
101-200	147	32.3	225,151	32.2
201-300	88	19.3	169,842	24.3
301-500	62	13.6	140,435	20.1
501 +	16	3.5	50,951	7.3
Not known	0	0.0	0	0.0
District Total	**455**	**100.0**	**700,217**	**100.0**

Population Density (Rural) of the district: 138

The density of population of the rural areas of the district is 138 Of the total number of inhabited villages i.e. 455 in the district, 32.30 per cent have population density ranging from 101-200, followed by 19.34 per cent in the range of 201-300. Apart from these 57 villages have population density upto 50.

TABLE 5 : SEX RATIO OF STATE AND DISTRICT, 1901-2001

Census year	State			District		
	Total	Rural	Urban	Total	Rural	Urban
1	2	3	4	5	6	7
1901	905	898	947	917	926	869
1911	908	904	936	937	952	841
1921	896	896	897	936	962	771
1931	907	906	903	946	961	847
1941	906	907	897	947	957	882
1951	921	919	928	965	965	964
1961	908	913	882	948	960	889
1971	911	919	875	958	968	909
1981	919	930	877	963	981	881
1991	910	919	879	949	965	888
2001	**921**	**930**	**890**	**943**	**960**	**868**

Note: Sex ratio has been defined here as the number of females per 1000 males

The district has witnessed a fluctuating trend in sex ratio since 1901. From 917 in 1901 it increased to 937 in 1911. It then decreased to 936 in 1921 and again increased to 946 in 1931 and so forth. During the last decade i.e. 1991-2001 it has declined from 949 in 1991 to 943 in 2001.

In comparison to rural areas of the district the sex ratio in urban areas has always been lower right from 1901 to 2001.

TABLE 6 : SEX RATIO BY TEHSILS, 2001

Sl. No.	Name of Tehsil	Sex ratio		
		Total	Rural	Urban
1	2	3	4	5
1	Sheoganj	955	964	920
2	Sirohi	985	1,013	894
3	Pindwara	948	954	894
4	Abu Road	894	935	830
5	Reodar	945	945	0
	District Total	**943**	**960**	**868**

The district has registered a sex ratio of 943 in 2001. Where as for rural and urban areas it is 960 and 868 respectively. At the tehsil level, the highest sex ratio of 985 has been registered by Sirohi tehsil and the lowest of 894 by Abu Road tehsil for total and rural areas. In case of urban areas the highest sex ratio of 920 has been attained by Sheoganj tehsil and the lowest of 830 by Abu Road tehsil. Whereas the highest sex ratio of 1013 and the lowest of 935 has been registered in Sirohi and Abu Road tehsil respectively for rural areas.

TABLE 7 : SEX RATIO BY PANCHAYAT SAMITIES, 2001

Sl.No.	Name of Panchayat Samiti	Sex ratio
1	2	3
1	Sheoganj	964
2	Sirohi	1,013
3	Reodar	945
4	Abu Road	935
5	Pindwara	954
	District (Rural) Total	**960**

At the Panchayat Samiti level the pattern is just the same as analyzed for rural areas of tehsil in table 6 because all the Panchayat Samities are co-terminus with their respective tehsils.

TABLE 8 : SEX RATIO OF RURAL POPULATION BY RANGES, 2001

Range of sex ratio for villages	Number of inhabited villages	Percentage of villages in each range	Population 2001	Percentage distribution of population
1	2	3	4	5
Less than 700	13	2.9	4,121	0.6
700-749	4	0.9	663	0.1
750-799	9	2.0	5,615	0.8
800-849	18	4.0	16,007	2.3
850-899	52	11.4	73,375	10.5
900-949	113	24.8	219,149	31.3
950-999	105	23.1	213,079	30.4
1000-1099	106	23.3	138,110	19.7
1100+	35	7.7	30,098	4.3
District Total	**455**	**100.0**	**700,217**	**100.0**

Sex ratio (Rural) for District: 960

Of the total number of inhabited villages (455), the maximum number of 113 villages have sex ratio ranging from 900 to 949 followed by 106 (23.3 per cent) having sex ratio in the range 1000-1099. It is significant to note that 35 villages are such which have higher sex ratios of 1100+.

TABLE 9 : SEX RATIO OF URBAN AGGLOMERATIONS / TOWNS, 2001

Sl. No.	Name of U.A.^ / Town+*	Urban status of town	Sex ratio
1	2	3	4
1	Abu Road UA	UA	877
2	Abu Road *	M	877
3	Abu Road (M)	M	878
4	Mount Abu (M)	M	737
5	Pindwara (M)	M	894
6	Sheoganj (M)	M	920
7	Sirohi (M)	M	894
Sex ratio (Urban) for the district			868

\+ To be arranged in alphabetical order.
^ The names of constituent units of U.A. are given seperately.
* In case of the towns having outgrowth an asterisk mark should be placed against their names to indicate that they have outgrowths which are not separate towns.

The sex ratio in the towns of Sirohi district varies from the highest of 920 in Sheoganj (M) to the lowest of 737 in Mount Abu (M).

TABLE 10 : SEX RATIO OF POPULATION IN THE AGE GROUP 0-6 FOR TEHSILS, 2001

Sl. No.	Name of Tehsil	Total/ Rural/ Urban	Total population in 0-6 age group			Sex ratio for 0-6 age group
			Persons	Males	Females

		Rural	36,282	18,689	17,593	941
		Urban	0	0	0	0
District Total		**Total**	**168,985**	**88,082**	**80,903**	**918**
		Rural	**145,451**	**75,338**	**70,113**	**931**
		Urban	**23,534**	**12,744**	**10,790**	**847**

The district has registered a sex ratio in the population of the age group 0-6 of 918, 931 and 847 for the total, rural and urban areas respectively. In rural areas at tehsil level, the highest sex ratio of 970 has been registered by Abu Road tehsil and the lowest of 874 by Sirohi tehsil. Similarly in the urban areas of tehsils, the highest sex ratio has been registered by Abu Road tehsil at 873 and the lowest by Pindwara tehsil at 816.

TABLE 11 : SEX RATIO OF POPULATION IN THE AGE GROUP 0-6 FOR PANCHAYAT SAMITIES, 2001

Sl. No.	Name of Panchayat Samiti	Total population in 0-6 age group			Sex ratio for 0-6 age group
		Persons	Males	Females	
1	2	3	4	5	6
1	Sheoganj	18,871	9,939	8,932	899
2	Sirohi	23,998	12,807	11,191	874
3	Reodar	36,282	18,689	17,593	941
4	Abu Road	27,161	13,788	13,373	970
5	Pindwara	39,139	20,115	19,024	946
	District (Rural) Total	**145,451**	**75,338**	**70,113**	**931**

At the Panchayat Samiti level the pattern of sex ratio in the age group 0-6 is just the same as analyzed for rural areas of tehsils in table 10 as all the Panchayat Samities are co-terminus with their respective tehsils.

TABLE 12 : SEX RATIO OF RURAL POPULATION IN THE AGE GROUP 0-6 BY RANGES, 2001

Range of sex ratio for villages	Number of inhabited villages	Percentage distribution of villages	Population 2001	Percentage distribution of population
1	2	3	4	5
Less than 700	29	6.4	1,439	1.0
700-749	15	3.3	3,550	2.4
750-799	33	7.3	8,391	5.8

In the district, 40.4 per cent of the total population comprises of total workers (main + marginal) and the rest 59.6 per cent as non-workers. Of the total workers (40.4 percent), 28.9 per cent are as main workers and the rest 11.5 per cent as marginal workers. Sex wise, 50.1 per cent of male population is that of workers whereas for females this percentage is 30.1. At the tehsil level, Reodar tehsil has recorded the highest percentage of total workers for both males and females being 52.0 per cent and 40.4 per cent respectively. On the other hand, Sirohi tehsil has recorded the lowest percentage of total workers for males and Sheoganj tehsil for females being 46.0 per cent and 23.9 per cent respectively.

Less than half (42.5 per cent) of the rural population consists of workers. There is much difference in the work participation rates of males and females being 50.3 per cent and 34.4 per cent respectively for the rural areas of the district. Like at tehsil level, at Panchayat Samiti level too, the highest percentage of male and female workers has been recorded in Reodar Panchayat Samiti at 52.0 and 40.4 respectively. However, the lowest percentage of male workers has been registered by Sirohi Panchayat Samiti at 46.2 and of female workers at 28.1 by Sheoganj Panchayat Samiti.

^ The names of constituent units of U.A.are given separately

* In case of towns having outgrowth an asterisk mark should be placed against their names to indicate that they have outgrowths which are not separate towns.

In contrast to the rural areas of the district only 30.7 per cent of the urban population are as workers (main + marginal). Apart from this much variation is also seen in the percentage of male and female workers, which are 49.4 and 9.1 respectively. Among the towns, the percentage of workers varies from 37.2 in Mount Abu (M) to 28.6 in Sirohi (M).

Note: Percent of Worker to total worker are given in brackets

Other workers are the main working force in the district as they form 46.5 per cent of total workers. It is followed by Cultivators (32.5 per cent), agricultural labourers (18.1 per cent) etc. Females (41522) outnumber males (20582) as agricultural labourers. Much variations in the percentages of male workers (56.4) and female workers (28.9) classified as other workers is seen in the district.

At tehsil level, the percentage of cultivators to total workers varies from 53.8 in Reodar tehsil followed by 29.1 in Abu Road tehsil to 22.8 in Sheoganj tehsil. For Household Industry workers, it varies from 4.0 per cent in Sirohi tehsil to 1.6 per cent in Abu Road tehsil. In case of 'other workers' the highest percentage of 55.0 has been registered by Abu Road tehsil while the lowest of 27.3 per cent in Reodar tehsil.

Note: Percent of Worker to total worker are given in brackets

Less than half i.e. 42.5 per cent of the total rural population of the district is engaged in economic activities being workers. Of the total workers, most are engaged in agricultural activities i.e. 37.3 per cent are as cultivators and 20.6 per cent as agricultural labourers. Only 2.8 per cent of the workers are engaged in household industries whereas the significantly 39.4 per cent in other works.

The percentage of workers as 'Other workers' is higher than that of Cultivators in all the panchayat samities except in Reodar and Abu Road panchayat samities where it is just the opposite.

Sex wise, percentages of male workers is higher than female workers in economic categories of cultivators and other workers and lower in agricultural labourers and household industry workers. The percentage of male and female workers as agricultural labourers is 11.3 and 34.8 respectively at the district level.

\+ To be arranged in alphabetical order
^ The names of constituent units of U.A.are given separately
* In case of towns having outgrowth an asterisk mark should be placed against their names to indicate that they have outgrowths which are not separate towns.

The percentage of workers to total population of urban areas is 30.7. Majority of the workers i.e. 92.1 per cent are as other workers followed by household industry workers (4.2 per cent).

Almost similar trend is visible in all the municipal towns as that of four urban area at the district level except in Pindwara (M) where agricultural labourers out-number household industry workers.

Sex wise percentage of male workers as other workers is 94.3 where as it is 78.3 per cent for female workers. On the other hand, percentage of female cultivators (3.8) is higher than that of male cultivator's (1.6) at the district level for urban areas.

Note: Percentages are given in brackets.

* Based on the improved drinking water source, drinking water supply has been classified as 'Improved' or otherwise. If the household has access to drinking water supplied from a tap or a hand pump/tube well situated within or outside the premises it is considered as having access to 'Improved drinking water source'. However, the concept of improved drinking water is state specific and this is to be considered accordingly.

\# Post office includes Post office, telegraph office and Post and telegraph office.

$ Transport communication includes bus service, rail facility and navigable waterways.

Of the total (455) inhabited villages, 424 (93.2 per cent) have educational facilities. In case of medical amenities only 44.2 per cent of inhabited villages have such amenities. A significant number i.e. 434 (95.4 per cent) villages have improved drinking water amenities. In the communication field only 36.7 per cent of villages have post office facilities while 62.6 per cent have telephone facilities. In the banking field the picture is gloomy as only 39 (8.6 per cent) villages have banks. More than 60 per cent i.e. (285) are linked with pucca approach roads whereas 87.7 per cent have power supply.

At Panchayat Samiti level, Abu Road and Sheoganj Panchayat Samiti have the higher percentage i.e. 98.7 and 94.2 of villages respectively having educational facilities. For medical amenities it is Sirohi Panchayat Samiti which has the highest percentage of villages having such amenities (60.2). Much variation is seen among the Panchayat Samiti having telephone facilities. Sirohi Panchayat Samiti has the highest percentage of villages i.e. 78.3, which have telephone facilities whereas Abu Road has the minimum percentage of 48.7 for such facility. Sirohi and Reodar Panchayat Samiti, each has the 97.6 per cent villages having power supply.

Note: Percentages are given in brackets.

* Based on the improved drinking water source, drinking water supply has been classified as 'Improved' or otherwise. If the household has access to drinking water supplied from a tap or a hand pump/tube well situated within or outside the premises it is considered as having access to 'Improved drinking water source'. However, the concept of improved drinking water is state specific and this is to be considered accordingly.

\# Post office includes Post office, telegraph office and Post and telegraph office.

$ Transport communication includes bus service, rail facility and navigable waterways.

Almost entire (99.5 per cent) rural population of the district is being served by educational amenities. It varies from 100.00 per cent in Abu Road Panchayat Samiti to 99.0 per cent in Reodar Panchayat Samiti. The highest percentage (88.1) of population availing medical amenities has been found in Sirohi Panchayat Samiti while lowest of 49.7 in Abu Road Panchayat Samiti. Reodar Panchayat Samiti is at the top where 99.9 per cent of the population has access to improved drinking water while Sheoganj Panchayat Samiti is at the bottom with 96.9 per cent. Sirohi Panchayat Samiti is in the forefront in the field by telephone facilities where 94.0 per cent of the population has been served by this facility while Abu Road Panchayat Samiti is at bottom with 64.2 per cent. Only 25.2 per cent of the rural population at the district level is being served with banking facilities whereas 94.3 per cent have access to power supply. Nearly Hundred percent (99.8) of the population of Reodar Panchayat Samiti is being served with power supply.

TABLE 39 : DISTRIBUTION OF VILLAGES NOT HAVING CERTAIN AMENITIES, ARRANGED BY DISTANCE RANGES FROM THE PLACES WHERE THESE ARE AVAILABLE, 2001

Village not having the amenity of	Distance range of place from the villages where the amenity is available			
	Less than 5 kilometres	5-10 kilometres	10+ kilometres	Total (Col. 2 - 4)
1	2	3	4	5
1. Education :				
(a) Primary School	26	6	0	32
(b) Middle School	185	66	8	259
(c) Degree College	12	42	401	455
2. Medical :				
(a) Hospital	19	61	375	455
(b) PHC	84	152	188	424
3. Post Office	189	78	21	288
4. Telephone	68	57	45	170
5. Bus Service	142	74	17	233
6. Banks				
(a) Commercial Bank	91	164	175	430
(b) Co-operative Bank	88	135	208	431
7. Agricultural Credit Societies	139	143	109	391

There are only 32 villages in the district, which do not have primary schools, of these, in 26 villages this amenity is available in less than 5 kilometers. In case of middle schools, 259 villages do not have this amenity. Of these, for 185 villages this amenity is available at a distance of less than 5 km, for 66 villages at a distance of 5-10 km. None of the villages in the district have a degree college. For most of the villages i.e. 401, the degree colleges are available at a distance beyond 10 km.

Likewise, none of the villages have hospitals. For this in most of the villages i.e. 375 one has to go for more than 10 km. Similarly post office amenity is not available to 288 villages. Of these, for 189 villages, this amenity is available at a distance less than 5 km. Of the total 455 villages, bus services are not available in 233 villages. Among these, this facility is available at a distance of less than 5 km and 5 to 10 km for 142 and 74 villages respectively.

As regards to banking services, 430 and 431 villages do not have commercial banks and cooperative banks respectively. For most of the villages i.e. 175 and 208, one has to go for more than 10 km for commercial banks and cooperative banks respectively.

Post office includes Post office, Telegraph office and Post and telegraph office.
$ Transport communication includes bus service, rail facility and navigable waterways.
* Based on the improved drinking water source, drinking water supply has been classified as 'Improved' or otherwise. If the household has access to drinking water supplied from a tap or a hand pump / tube well situated within or outside the premises it is considered as having access to 'Improved drinking water source'. However, the concept of improved drinking water is state specific and this is to be considered accordingly.

Of the total inhabited village's (455), majority (124) of them have population range of 500-999. It is followed by 121 villages in the range of 1000-1999. There are 18 and 2 such villages, which have population range of 5000-9999 and 10000+ respectively. As the size of villages increases the type of amenities are being available to majority of the village. All the amenities are available to almost all the villages in the population range of 5000-9999 and 10000+. While in case of small size villages e.g. in the range of 500-999, though educational amenity is available to 122 villages of the total 124, medical, post office, Banks etc are available to only 26, 15 and 1 villages respectively.

TABLE 42 : DISTRIBUTION OF VILLAGES ACCORDING TO LAND USE, 2001

Sl. No.	Name of Panchayat Samiti	Number of inhabited villages	Total area (in hectares)	Percentage of cultivable area to total area	Percentage of irrigated area to total cultivable area
1	2	3	4	5	6
1	Sheoganj	69	88,952	38.3	42.4
2	Sirohi	83	108,367	26.8	60.0
3	Reodar	126	108,877	40.3	61.5
4	Abu Road	78	80,162	18.9	46.4
5	Pindwara	99	112,757	29.3	35.2
	District Total	**455**	**499,115**	**31.1**	**50.0**

Note: Cultivable area = irrigated area + unirrigated area

Of the total rural area of the district (of inhabited villages) only 31.1 per cent is cultivable. Apart from this 50.0 per cent of the total cultivable area is being irrigated. At the panchayat samiti level the highest percentage of cultivable area to total area is found at 40.3 per cent in Reodar Panchayat Samiti followed by 38.3 per cent in Sheoganj and the lowest of 18.9 per cent in Abu Road Panchayat Samiti. As regards to irrigated area, the highest percentage of 61.5 is found in Reodar Panchayat Samiti whereas 35.2 in Pindwara Panchayat Samiti.

TABLE 43 : PER CAPITA RECEIPT AND EXPENDITURE IN STATUTORY TOWNS

Sl. No.	Class, name and urban status of the Town+	Per capita receipt			Per capita expenditure					
		Total	Through taxes	From all other sources	Total	General Administration	Public health and conveniences	Public works	Public institutions	Other(s)

\+ To be arranged in alphabetical order
Town has to exclude OG's.

The per capita receipt by the statutory towns of the district amounts to Rs.623.0. Of this, Rs.287.0 is being received through taxes and the remaining Rs.336.0 from all other sources. The highest per capita of Rs.1309.0 has been attained by Sheoganj (M) followed by Rs.1116.0 by Mount Abu (M). The lowest per capita receipt of Rs.64.0 has been registered by Pindwara (M).

TABLE 44 : SCHOOLS/COLLEGES PER 10,000 POPULATION IN STATUTORY TOWNS, 2001

Sl. No.	Name and urban status of Town+	Type of educational institution				
		Primary	Junior Secondary/ Middle	Secondary/ Matriculation	Senior Secondary	College
1	2	3	4	5	6	7
1	Abu Road (M)	4.4	0.6	0.4	0.8	0.2
2	Mount Abu (M)	2.7	0.9	3.6	0.9	0.0
3	Pindwara (M)	1.0	1.4	1.0	0.5	0.0
4	Sheoganj (M)	4.8	1.2	0.4	0.8	0.4
5	Sirohi (M)	4.8	2.0	0.3	0.6	0.8
	District Total	**3.8**	**1.2**	**0.9**	**0.7**	**0.3**

+ To be arranged in alphabetical order

The number of primary, middle and secondary schools per 10,000 of population is 3.8, 1.2 and 0.9 respectively. As regards to senior secondary and college, this number is 0.7 and 0.3 respectively. At the town level, the maximum number of primary schools per 10,000 population is found each in Sheoganj (M) and Sirohi (M) at 4.8 followed by Abu Road (4.4). It varies from the highest number of middle schools per 10,000 population at 2.0 in Sirohi (M) to a lowest of 0.6 in Abu Road (M). As regards to colleges, the highest number i.e. 0.8 is found in Sirohi (M), whereas the number '0' has been recorded in Mount Abu (M) and Pindwara (M).

TABLE 45 : NUMBER OF BEDS IN MEDICAL INSTITUTIONS IN TOWNS, 2001

Sl. No	Name and urban status of the Town+	Number of beds in medical institutions per 10,000 population
1	2	3
1	Abu Road (M)	11
2	Mount Abu (M)	23
3	Pindwara (M)	14
4	Sheoganj (M)	15
5	Sirohi (M)	62
	District Total	**26**

+ To be arranged in alphabetical order

The number of beds in medical institutions in towns per 10,000 population in the district is found to be only 26. The highest number of beds per 10,000 population is recorded at 62 in Sirohi (M) followed by Mount Abu (M) (23), Sheoganj (M) (15) etc.

TABLE 46 : PROPORTION OF SLUM POPULATION IN TOWNS, 2001

Sl. No.	Name of the Town+	Total popu-lation	Slum popu-lation	Percentage of slum population
1	2	3	4	5
1	Abu Road (M)	47,640	4,355	9.1
2	Mount Abu (M)	22,152	14,886	67.2
3	Pindwara (M)	20,765	5,885	28.3
4	Sheoganj (M)	24,789	7,350	29.7
5	Sirohi (M)	35,544	4,200	11.8
	District Total	**150,890**	**36,676**	**24.3**

+To be arranged in alphabetical order

Nearly one fourth (24.3 per cent) of urban population of the district lives in slums. At the town level it varies from a maximum of 67.2 per cent in Mount Abu (M) to a lowest of 9.1 per cent each in Abu Road town.

TABLE 47 : MOST IMPORTANT COMMODITY EXPORTED OUT OF AND MANUFACTURED IN TOWNS, 2001

Sl. No.	Name and urban status of Town+	Most important commodity	
		Manufactured	Exported
1	2	3	4
1	Abu Road (M)	Marble	Marble
		Granite	Granite
		Fiber Thread	Fiber Thread
2	Mount Abu (M)	-	Vegetables
		-	Mangoes
		-	Black Berries
3	Pindwara (M)	Cement	Cement
		Stone Powder	Coal Stone
		Marble Articals	Marble
4	Sheoganj (M)	Sweets	Cloth
		Vegetable Oil	Medicines
			Hosiery
5	Sirohi (M)	Sword	Sword
		Leather Shoes	Leather Shoes
		Stone Tiles	Furnitures

+To be arranged in alphabetical order

Marble/Granite articles are mainly manufactured in Abu Road (M) and Pindwara (M). Besides it, stone powder is manufactured in Pindwara (M) and stone tiles in Sirohi (M). Other commodities being manufactured in various towns are - fibre thread, vegetable oils and cement.

Marble, granite, fruits and vegetable, cloth etc are the main commodities being exported from various towns.

Data source Census of India 2001.H-Series:" Tables on Houses, Household amenities and Assests"

Of the total households (163,245) of the district, majority i.e. 146,165 (89.54 per cent) are living in their owned houses whereas 13,474 households (8.25 per cent) have rented houses. In the owned category, the median number of rooms a household possess is 1 while in case of rented it is 2. As regards to rural areas of the district, 94.05 per cent of the households are living in owned dwellings whereas in urban areas this percentage is 68.18. The median number of rooms in owned, rented and others categories are the same for rural areas of the district. In urban areas the median number of rooms in 'owned' category is 2 and for other categories it is same as that of in rural areas. The households belonging to scheduled tribes has higher percentage (95.34) having owned dwellings as compared to scheduled caste households (91.98).

Data source: Census of India 2001, H-series: "Tables on Houses, Household amenities and Assets."

Note:

Permanent: 1. Permanent houses referrs to those houses whose wall and roofs are made of pucca materials I.e. where, burnt bricks, G.I. Sheets or other metal sheets, stone cement concrete is used for wall and tiles slate, shingle, corrugated iron, zinc or other metal sheets asbestos sheets, bricks, lime and stone and RBC/RCC concrete are used for roof.

Semi-permanent: 2. Semi-permanent houses refer to those houses made of other types of materials.

Temporary: 3. Temporary houses refers to those houses having wall and roofs made of Kutcha materials i.e. where grass, leaves, reeds, bamboo mud, unburnt bricks are used for the construction of walls and grass, leaves reeds, bamboo hatch, mud, unburnt bricks, wood etc. are used for roofs.

Of the total number of households, 96,533 are living in permanent, 59,819 in semi permanent and 6,887 in temporary houses. Of the total households of the district, the maximum number of households (24,198) living in permanent houses is in Pindwara tehsil, whereas the minimum of 14,733 (15.3 per cent) has been found in Sheoganj tehsil. In the rural areas of the district, the maximum number of households (20,686) living in permanent houses has been found in Pindwara tehsil whereas the lowest of 9,454 households in Abu Road tehsil. In the urban areas the maximum (10,551) and the minimum (3,512) number of households living in permanent houses has been recorded in Abu Road and Pindwara tehsils respectively.

Data source: Census of India 2001, H-series: "Tables on Houses, Household amenities and Assets."

* Based on the improved drinking water source, drinking water supply has been classified as 'Improved' or otherwise. If the houshold has access to drinking water supplied from a tap or a hand pump/tube well situated within or outside the premises it is considered as having access to 'Improved drinking water source'. However, the concept of improved drinking water is state specific and this is to be considered accordingly.

Note: Percentage is to be given in brackets after the number of households.
Bathroom means bathroom within the house.
Toilet means toilet within the house.
Drainage means closed and open drainage.

(i) Improved drinking water: Majority of the households i.e. 78.3 per cent have improved drinking water facility in the district. For rural and urban areas, these percentages are 74.7 and 95.5 respectively. At tehsil level, for rural areas, the highest percentage (89.1) of households availing this facility has been found in

Sirohi tehsil whereas for urban areas it is 97.8 per cent in Sheoganj tehsil.

(ii) Electricity: More than 60 per cent i.e. 61.5 per cent of households are using electricity. However there is much wide gap in the percentage of households using electricity in the rural (55.7 per cent) and urban (88.8 per cent) areas of the district. At tehsil level it varies from a maximum of 75.6 per cent in Sirohi tehsil to a minimum of 54.5 per cent of households in Abu Road using electricity.

(iii) Bathroom: Less than a quarter i.e. 24.8 per cent of the households have bathrooms in the district. Here too much wider gap is seen in the percentage of households having bathroom in rural and urban areas, as these are 17.7 per cent and 58.8 per cent respectively. Similar trend is seen in all the tehsils of the district except Reodar which is entirely rural.

(iv) Toilet: In case of toilets, the picture is not so good especially in rural areas of the district. Only 11.2 per cent of households of the rural areas have toilet facility as against 62.9 per cent in the urban areas. The highest percentage (31.4) of households for total areas having toilet facility is found in Abu Road tehsil whereas the lowest of 7.9 per cent in Reodar tehsil.

(v) Drainage: Again, in case of use of drainage, the position is somewhat better than for toilets. 35.8 per cent of households have drainage in their houses. In rural areas of the district, 26.6 per cent of households have drainage system as against 79.6 per cent in urban areas.

Data source: Census of India 2001, H-series: "Tables on Houses, Household amenities and Assets."
Percentage in brackets.

Majority of the households (75.1 per cent) of the district are using firewood as fuel followed by cooking gas (13.3 per cent), kerosene (8.1 per cent), and crop residue (2.6 per cent). In the rural and urban areas of the district, much deviation is seen in the percentage of households using fire wood and cooking gas among rural and urban areas as 85.4 per cent and 6.3 per cent of households of rural areas are using these respectively in comparison of 26.3 per cent and 46.5 per cent of urban areas respectively. Similar trend is seen at tehsil level also.

Data source Census of India 2001.H-Series:" Tables on Houses, Household amenities and Assests"

(i) Banking services: Only 35.4 per cent of the total household's are availing banking services whereas in rural and urban areas this percentage is 30.5 and 58.4 respectively. At tehsil level, the highest number of households (13,750) availing this facility has been found in Sirohi, while the lowest (7,926) in Sheoganj tehsil.

(ii) Radio/Transistor: Of the total household's of the district, 29.9 per cent are in possession of Radio/ Transistor. Similarly in rural and urban areas of the district, the percentage of households having radio/ transistor is 29.1 and 34.0 per cent respectively.

(iii) Television: In case of Television, the percentage of households possessing it is much higher i.e. 60.9 in urban areas than that of in rural areas at 14.0 per cent only.

(iv) Telephone: Only 7.35 per cent of the total household's of the district have telephones. The gap is wide in rural and urban areas of the district where 4.9 per cent and 19.1 per cent of their respective total households have telephones respectively.

(v) Auto mobiles: In case of two wheelers, 11.8 per cent of the households have either motor cycle or scooter or moped. For rural and urban areas these percentages are 8.7 and 26.3 respectively. In rural areas 2.1 per cent of households have four wheelers whereas in urban areas only 4.9 per cent of households have four wheelers.

It is very significant that little less than half of the households i.e. 45.8 per cent do not have any of the specified assets. In rural areas this percentage is even higher i.e. 50.9 as compared to that of in urban areas at 21.9.

(xi) Other Developmental Activities during 1999-2000:

The details of progress made by District Rural Development Authority, Sirohi for Rural Development is given as under:

Jawahar Gram Samradhi Yojana

Under this scheme 23.35 Lacs Rupees were sanctioned and 124 works were carried out in different Gram Panchayats. Under this scheme 1.61 Lacs man days were created.

Indira Aavas Yojana

Under this scheme 413 Indira Aavas were sanctioned in the district and construction work of 124 houses were completed during the year. Earlier sanctioned 210 houses also were constructed and an amount of Rs.88.68 Lacs was spent on construction of houses.

Assured Rojgar Yojana

Under this scheme old and new in all 45 works were completed and an amount of Rs.137.62 Lacs was spent.

Sansad Isthaniya Kshetra Vikas Yojana

Under this scheme on the recommendation of MP's a total of 53 works were completed and an amount of 5.46 Lacs was spent.

Vidhayak Isthaniya Kshetra Vikas Yojana

Under this scheme a total of 53 works were sanctioned and only 5 works were completed and an amount of 22.70 Lacs was spent.

Desert Development Programme

This scheme is applicable only Sheoganj Panchayat Samiti. Under this scheme 4 water shed works were completed and an amount of Rs.9.11 Lacs was spent during the year 1999-2000.

Social and Cultural activities

Fairs and Festivals

Most of the fairs held in the district are either religious or social in nature which also have some commercial importance and are organized on some specific dates. These fairs besides being an important source of joy and get-together also provide income to the local bodies, the important fairs organized in the district are described below:

Gautamji Fair

This fair is held at Choteela's Pahari in Sheoganj tehsil on Chaitra Sudi 13 every year. Nearly 30,000 people congregate in the fair, mostly belonging to the communities of Bhils and Minas.

Sarneshwar Mahadeo fair

It is annually held at Sarneshwar temple near Sirohi town on 12th day of second half of Bhadra Pada. Among the chief participants are rebaries who are said to settle their caste disputes on this occasion. About 10,000 persons participate in this fair.

Sheetla Mata Fair

This fair is held at Sirohi on Chaitra Badi 7, every year. Around 10,000 persons belonging to all communities participate in the fair for worshipping the Mata. The Mata is believed to bring relief to persons affected by small pox. Sheetla Mata fair is also organized in several other villages in the district.

Reodar Fair

This fair is held annually at Reodar village on Chetra Budi 1. Around 5000 persons assemble in this fair for Holi Darsan.

Rishikesh Mahadeo Fair

This fair is held annually near village Umarni (Abu Road tehsil) on Bhadra Pada Sudi 11. Around 50,000 persons assemble in this fair from the neighbouring areas and worship the deity.

Among the other important fairs held in the district, mention may be made of Gor's and Meghwani's fairs held at Siyawa and Mungthala in Abu Road tehsil, Mahadeoji and Sabhugji Mahadeo fairs at Amli and Waloriya in Pindwara tehsil. Several other fairs of local importance are also organized at various places in the district.

As in other districts of the State, the principal Hindu festivals are Holi, Diwali, Dashera, Raksha-Bandhan, Sheetla Saptmi, Gangaur and Akha Teej. The chief Muslim festivals are Muharram, Idul-Fitr, Idul Zuha, Shab-e-barat and Barawafat.

(xii) Brief description of places of religious, historical or archaeological importance in village and places of tourist interest in the towns of the district:

Following places are of great interest in the district:

Mount Abu

The town is the only summer resort in Rajasthan and records a population of 22152 according to 2001 Census. It is approached by a circuitous road from Abu Road railway station. The actual ascent is marked by sharp turns and deep chasms and gorges, passing through picturesque natural scenery, fringed with trees of primeval forest and rivulets. A tourist bureau and a game sanctuary were set up here in 1958-59 and 1960-61 respectively. The important places worth-seeing in and around the town are as follows:

Delwara Temples

These are about two and half kilometers from Nakki lake towards Achalgarh and is a place of pilgrimage for the Jains. The Delwara temples are famous for the best specimen of stone-carving of mediaeval India. The main group consists of five temples constructed almost entirely of white marble, Of these five temples, only two temples, of Vimal Vasahi and of Tejpala are more famous. The former was built by Vimala Sah (an officer of the Chalukya king Bhim I) in 1,031 A.D. while the latter belongs to the 13th century and was built by the two famous brothers, Vastupal and Tejpal and is

dedicated to Neminath, the 22nd Tirthankar of the Jains. The most striking feature of the Tejpal is the marble pendant in the dome of the porch. It drops from the ceiling like a cluster of half-open lotus whose cups are so finally wrought that they appear to be almost transparent. It has its elephant-room, which is much larger, and is enclosed by a pierced screen of open tracery. Of the remaining three Jain temples, one is located outside the group across the road while the second is dedicated to Parasnath (called Chaumukha) and the third is named as temple Adinath. At the spot known as 'Balam Rasiya' behind the group of these Jain temples are the remains of old Hindu temples.

Nakki Lake

Nakki Lake is situated in the most picturesque setting, between the high hills from its western end one can see a view of the plain through a gorge. The beauty of Mount Abu town is very much enhanced by this lake, which is an artificial sheet of water and is said to have been excavated by the finger-nails (nakhi) of the Gods and hence named as such. There are a number of rocky islands in the lake having palm trees. Boats are also available for a cruise. Besides, there are several caves in the adjoining hillocks, of which the prominent ones are 'Hathi gupha', 'Champa Gupha' and 'Ram jharokha'.

Nun and Toad Rocks

At a short distance from Nakki lake there are two rocks called Nun and the Toad for their resemblance in outline to a veiled women and an immense toad, respectively.

Sunset Point

This place is famous as a tourist interest as it presents a marvelous phenomena of the setting sun like the hanging red ball from the peak of hillock.

Arbuda Devi's Temple

A small white temple is built out of a natural cleft on the side of the hill which is popularly known as ,Adhar Devi, or Arbuda Mata, or Ambika a tutelary goddess of Abu. The shrine lies in the rock below the temple. The place can be approached by two different routes one from Nakki lake via Adam Hospital and the other by a side track intersecting the Delwara road.

Dudh Baori

A historical place 'Dudh Baori' is also situated at the bottom of Arbuda Devi's temple which is said to have always been filled with milk which was consumed by the 'Rishies'.

Achalgarh

The fort of Achalgarh is situated in the north east of Delwara temples at about a distance of five kilometers and is famous for being an old stronghold of the Parmaras of Chandrawati and Abu and also for Achaleshwar temple. 'Mandakini tank' a water reservoir is just before the temple. The water of the tank is considered to be as holy as that of the Ganges. To the south of the tank is an enclosure containing several shrines, notably that of Achaleshwar. Toe nail of God Shiva is an object of great sanctity and in front of the temple is a big brass 'Nandi' (the bull with Lord Shiva on its back). Besides, several other images are also placed. Bhara thari caves which are not far away can also be easily visited. Guru Shikhar, the highest spot of Mount Abu, is at a short distance beyond Achalgarh.

Gao Mukh

It is approachable by a metalled road from Nakki lake to 'the temple of Hanumanji from where ascent starts for this place. It is at a distance of about ten kilometers from Abu and is one of the beauty spots where a little stream flows and looks like a replica of a cow's mouth (Gao Mukh). Close by is the temple of Vashistha where the idols of Rama, Lakshman and Vashustha are seen. Numerous images are found lying about, of these the oldest is the fire-pit, where the four Agnicula Clans are said to have been originated near the temple.

Ajari

This is a small village in Pindwara tehsil at a distance of five kilometers south of Pindwara on the way leading to Abu Road. To the north west of the village, there is a temple of Mahadeo. The scenery is picturesque, honey-combed with date-trees and a small rivulet flows nearby. It is a fine pocnic spot. Markandeshwar Rishi is said to have meditated here.

There are small images of God Vishnu and Goddess Saraswati. Close by is a pond known as 'Gaya-Kund' where people immerse the mortal remains of their dear ones.

Derasuri

This is a place near Saranwa hills to the west of Sirohi Road. There are fourteen Jain temples which are famous for their sculpture. The place is famous for its beautiful surroundings.

Rohira

It is a village in Pindwara tehsil and is situated on the way, from Sirohi town to Sirohi Road. There are three temples of archaeological importance, of which two are located outside the village and one within the village itself. Among these temples, the first belongs to Thakurji (Vishnu) the second to Rajeshwar Mahadeo and the third is a Laxmi Narayan Temple.

Wasa

There is a fine temple of Surya (The sun god) of the eleventh or twelfth century on the outskirts of village wasa (Pindwara tensil). The village has a temple with a'Lingum' in the shrine and an image of 'Tirthankar' over its door. Jamdagni, the famous 'tirth' is about three kilometres north of village Wasa, which is said to be the Ashram of Jamdagni Rishi.

Other Worth-seeing places in the district are villages Jhadoli (Sheoganj tehsil) and Jeerawal (Reodar tehsil) which are famous for their Jain temples, Chan Udrawati (Abu Road tehsil) being an ancient city, Karodidhwajh temple about 38 kilometres south-east of Sirohi town, Kolar Ambeshwar is a picnic spot famous for Shiva temple (Sheoganj tehsil) Matarmata-place in the hills near Sirohi town is attractive because of its scenery, small rivulets, tall trees and a temple, village Mungthala (Abu Road tehsil) is famous for its three temples, Pindwara having an old temple dedicated to the sun god, Swaroopganj for being a good grain Mandi, Sarneshwar temple about three kilometers to the north of Sirohi town is famous for its temple of Shri Sarneshwarji, Basantgarh (Pindwara tehsil) having an old fort and a Kshemarya temple, a shrine of Khimel Mata which lies to the west of the fort. Besides these Vyas Tirth, Nag Tirth, Hanuman Ashram, Lakh Chaurashi, Kumbha Swami temple, Kheti-Kund, Mrig Ashram. Vashthanji, village Oriya, Satsang Ashram and Kunwari Kanya are the other noteworthy places worth a visit.

(xiii) Major characteristics of the district contribution of the district in the form of any historical figure associated with the district:

The popular belief is that Sirohi derived its name from the 'Siranwa' hill. Situated in the bay of the hills it is a state of some brave Chauhans where the 'Sword' was a very popular and famous weapon. Sirohi in other words also means 'Sword' from where the district derived its name. Rao Shobhaji, sixth in descent from Rao Deoraj the progenitor of the Deora clan of Chauhans built the town of Sirohi in 1405. Rao Sahas Mal built the new city of Sirohi on a better site which was also called 'Sinchi'.

Mount Abut situated in Sirohi district is a town of tourist interest many famous Jain temples are located in the region.

(xiv) Scope of Village and Town Directory:

In Part-A of the District Census Handbook, entitled as Village and Town Directory, an attempt has been made to present information regarding various amenities/facilities available in every rural/ urban unit of the State. The unit of the rural areas is village and that of urban area is town/urban agglomeration. Information regarding rural areas and Census Towns has been gathered through Patwaries while that in respect of urban areas other than Census Towns has been collected through the concerned municipality/Cantonment Board/Notified Area Committee. In order to have the aforesaid information authenticated the concerned departments and agencies were also contacted to furnish information available with them. All the information gathered about amenities relate to year 1999 and those pertaining to land-use pattern pertain to Samvat Year 2055 i.e. the agricultural year ending on the 30th June, 1999.

Village Directory

It will be helpful at the outset to have an idea of the items for which information has been included in the Village Directory. Information in respect of each village has been presented through a twenty three column format in which villages have been presented in order of their names and Permanent Location code Number (PLCN) at State level. The first four columns

(2-5) give general information i.e. Name of village and Permanent location code number, area in hectares, population and number of households residing in villages as per Census 2001.The amenities available in the village have been shown in columns 6-18. The information regarding land-use pattern has been given in columns 19-23. As a special feature for Census-2001 some new columns 10-12 and 17-18 are first time incorporated viz. commercial and cooperative Bank, Agricultural/non Agricultural and other credit societies, Recreational and cultural facilities, News Paper/Magazine and most important commodity manufactured in the village. In case of uninhabited villages, the information has been given relating to columns 1-3 and 19-23 only and in the remaining columns the word 'uninhabited' has been mentioned. At the end of entries of each Panchayat Samiti the totals relating to columns 3-11, 13-14, 16-17,19 and 21-23 (total area, amenities and land-use break-up) have also been given.

Various amenities like drinking water, communication, post and telegraphs etc. have been shown against the name of the referent village if they are available within the village with the help of various codes. The Code Structure relating to various columns has been given in the beginning of Section-I to Part-A of this book. The number of each type of amenity has been indicated in parentheses after the suitable code in case of educational, medical and post & telegraph facilities.

If any amenity is not available within the village a dash (-) has been shown in the relevant column and next to it, the distance of the nearest place from the referent village where the facility is available has been given in broad distance ranges viz. <5 km, 5-10 km & 10+ km.

The following pattern has been adopted for indicating the educational institutions:

(i) Schools up to Class V have been treated as primary schools. They include Nursery Schools, Kindegarten Schools, Pre-basic and Pre-primary Schools and Junior Basic Schools upto Class V.

(ii) All schools having Classes VI to VIII have been treated as Middle Schools.

(iii) All schools having Classes IX and X have been treated as Secondary Schools.

(iv) All schools having Classes XI and XII have been treated as Higher Secondary Schools. They include Senior Cambridge Schools, Schools under 10+2 scheme, Intermediate, Pre-University and Junior College etc.

In case of composite schools relevant groups of classes have been treated separately, e.g. a school having classes I to XII, has been shown as having one primary, one middle, one secondary and one higher secondary school. The term 'College' includes all types of colleges whether Arts/Science/Commerce/ Medical/Engineering/Agriculture and others imparting education at Graduate or Post-Graduate level. Institutions other than industrial schools, training schools and adult literacy classes/ centres have been shown under 'others'.

In case of Medical institutions, Hospitals and Dispensaries, Allopathic, Ayurvedic, Unani and Homeopathy have been shown separately. Other institutions include all types of Yogic, Naturopathy, Hospitals/Dispensaries, Leprosy Centres etc.

In case there are more than one source of drinking water facility available in the village all such sources have been shown separately. Postal amenities include Post Office, Telegraph Office and Telephone, which are shown separately.

In case there are more than one communication facilities these have been indicated separately by relevant codes. Approach to the village refers to the state of roads etc. leading to the village from the communication centres i.e. bus-stand/railway station etc. This is to give an idea whether the village is easily approachable in all types of weather or becomes inaccessible for sometime in the year. Where there are more than one approach roads these have been indicated separately by relevant codes.

Information regarding the nearest town indicates the name of such town along with the distance from the referent village irrespective of the fact whether such town is located within Rajasthan or in some other adjoining states. In case of town situated in states other than Rajasthan, the concerned State has been mentioned against its name in parentheses with the help of abbreviations. The term 'town' here refers to one of those urban centres, which have been treated,

as towns in the concerned state during 2001 Census.

In order to give an idea about the uses which electricity is put to, the information has been given under the head "power supply" if it is available in the village.

Land-Use Pattern

The land-use pattern has been presented under the following five headings:

I. Forest :

It denotes those lands, which have been termed as 'forest' by the competent authority.

II. Irrigated land :

It relates to land, which has actually been irrigated in the referent year. The source-wise break-up has not been presented, as no such information was available in respect of the net irrigated area.

III. Unirrigated land :

The term covers all the unirrigated land cultivated during the referent year and land lying fallow upto four years.

IV. Culturable waste :

It includes Gaucher i.e. pasture and grazing land and tree-groves.

V. Area not available for cultivation :

It refers to land, which has not been classified in any of the above mentioned types and also includes house sites, roads, rivers, nullahs, hillocks etc.

The following nine appendices have also been provided to present the position obtaining in Panchayat Samiti and district as a whole regarding various Amenities available in rural areas, villages classified by characteristics of the population and land-use pattern in Census Town in connection with the Village Directory:

(i) Panchayat Samiti wise Abstract of educational, medical and other amenities in villages.

  (a) Villages by number of Primary schools.

  (b) Villages by number of Primary, Middle and Secondary schools.

  (c) Villages with different sources of drinking water facilities available.

(ii) Villages with 5000 and above population, which do not have one or more amenities.

  (a) Census towns which do not have one or more amenities.

(iii) Land utilisation data in respect of Census Town.

(iv) Panchayat Samiti wise lists of inhabited villages where no amenity other than drinking water facility is available.

(v) Summary showing number of villages not having Scheduled Castes population.

(vi) Summary showing number of villages not having Scheduled Tribes population.

(vii) Panchayat Samiti wise list of villages according to the proportion of Scheduled Castes/ Scheduled Tribes population to total population by ranges. It consists of two parts: Part-A relates to Scheduled Castes and Part-B to Scheduled Tribes.

(viii) Panchayat Samiti wise number of villages under each Gram Panchayat.

(ix) Statement showing number of girl's schools in the villages.

Town Directory

Particulars about each town have been presented in the form of seven statements. In towns where there are slums Statement-VII has also been given in which information regarding civic and other amenities available in the slums have been shown. In each statement towns have been arranged in alphabetical order.

As has been explained earlier, urban agglomerations are of two types: first those constituted by two or more independent towns and second those where the urban characteristics have developed in the adjoining rural areas, which have developed as outgrowth of the referent town.

Where an urban agglomeration includes two or more independent towns, the names of towns constituting the agglomeration have been indicated in the alphabetical arrangement but their names have also been repeated in the alphabetical order under the name of the agglomeration after the name of the

main or core town and information relating to these has been shown here. The particulars of the constituent units of the agglomerations have not been repeated wherever they occur separately in the alphabetical order and a note "See referent agglomeration" has been given against such names. The lines relating to the information regarding urban agglomeration as a whole have not been numbered but the constituent units as and when they occur in the alphabetical order have been numbered so that the last number agrees with the total number of towns in the district concerned. In respect of Statements II, III and VI in the lines relating to agglomeration a note "See constituent units" has been shown and information has been provided separately in respect of all the constituents below it.

In case of towns having out growths, an asterisk mark has been placed against their names. Information in respect of out growths has been included in the concerned town and has not been shown separately.

The amenities and other data have been indicated by codes. A list of column wise code structure and other abbreviations used in each statement has been provided at the beginning of Section-II of Part-A of this book. We may now discuss the various Town Directory statements.

Statement I

It deals with the status and growth history of the town. Columns 2 to 7 give information regarding class, name and civic status of the town, its location code number, name of the tehsil/panchayat samiti in which it is situated, its area in sq. km and number of households including houseless households residing in the town as per 2001 Census. The class of the town has been determined on the basis of its population as per Census 2001 and the civic administration status relates to the year 2000. Columns 8 to 18 show the population of the town in different decennial censuses beginning from 1901 upto 2001. The growth rate in terms of percentage in respect of previous censuses has been shown below the population figures pertaining to each Census beginning from Column 9 onwards.

A 'dash' under these columns indicates that the referent town did not have an urban status in the referent Censuses. Density of Population per sq. km as per Census 2001 has been shown in column 19 and sex ratio (number of females per 1,000 males) have been indicated for three censuses viz. 1981 to 2001 in columns 20 to 22.

Statement II

This statement gives information about the physical aspects and locations particulars of the town in 1999. First two columns give the serial number, class, name and civic status of the town. Columns 3 to 13 deal with the physical aspects viz. rainfall and temperature. Rainfall figures are the average of the rainfall for the last one year ending 1999-2000. If the information in respect of rainfall is not available for any town it has been given for the nearest place for which it is available. Rainfall has been shown in millimeters per annum. Maximum and minimum temperatures have been given in centigrade. If the information regarding temperature is not available in respect of any town it has been given for the nearest place for which it is available and the name of the centre has been shown in footnote.

The location of the town with respect to various administrative headquarters and nearest city is indicated in columns 6 to 10. While showing the location of the referent town with respect to various administrative headquarters, names and their distance from the referent town in kilometer have been given in parentheses below the name of the place where it is situated. In case the referent town itself happens to be the seat of the administrative headquarters, this distance has been shown zero. Information regarding the nearest city of population one Lac or more and population 5 Lacs or more have been given in respect of its situation within the State or even if this city may be situated in other State. In case the nearest city happens to be situated in other State, the name of the concerned State has been shown against the name of the city in parentheses. How the referent town is approachable is given in columns 11 to 13 which indicate the availability of communication facilities viz. railway station, bus facilities and navigable river/canal within 10 km. There is no navigable river or canal in Rajasthan.

Statement III

It gives information about the finances of the civic body controlling the local civil administration and it has been presented in '000 rupees. A 'dash' in this

Statement indicates that no receipt or expenditure has occurred under the particular head and 'N' represents negligible amount. First two columns give general information, columns 3 to 9 present receipt under broad categories and total receipt and columns 10 to 16 present expenditure under broad categories and total expenditure. The receipt and expenditure has been presented under six broad categories each. While receipt through taxes implies all receipts from taxes obligatory or others and revenue derived from municipal properties and power apart from taxation, it also includes income derived from holding of fairs and exhibitions, supply of milk, license fee, cattle-ponds, fines and penalties, transport services, places of entertainment, allotment/sale/lease of land and rent etc. Government grants include per capita grant, grant from Public Works Department and grant from the Social Welfare and other departments. Other sources of receipts have been specified, wherever possible but generally they are of miscellaneous nature.

Expenditure on general administration covers salary and wages of staff, contingent expenditure on staff, grants loans and advances to the staff etc. Expenditure on public safety cover fire-fighting, light, water and lease facilities, regulating the dangerous/ hazardous trades/works/occupation, water supply, registration of births and deaths, disposal of garbage, rubbish and night-soil. Public health and conveniences cover all types of medical aid and maintenance of the destitute etc. Public works include maintenance and construction of roads and buildings and relief works in times of famine and scarcity. Expenditure in public institutions covers all types of social, cultural, educational, religious institutions etc. Which are run or patronised by the municipality. Other sources of expenditure have been specified where possible but mostly these are of miscellaneous nature.

Statement IV

This statement deals with the civic and other type of public amenities and provides information about total population, scheduled castes and scheduled tribes population, road length, system of sewerage, number and types of latrines, method of disposal of night-soil, water supply, availability of fire-lighting service and electrification besides general information. In case of water supply the source of water as also the system of its storage have been shown. The storage capacity has been shown in Kiloliters. In case of disposal of night soil and protected water supply particulars have been given in respect of two methods/ sources in order of their importance if more than one exist in the town. In case fire-fighting service is not available in the town the name of the nearest place if in the same district or the name of the nearest district if in the same state or other state where available along with distance from the referent town has been mentioned.

Statement V

Particulars of medical, educational, recreational and cultural facilities available in the town have been given in this statement and the number of each type of these facilities has also been shown in parentheses is along with the appropriate code.

In case of medical facilities the number of beds wherever available has also been shown Allopathic, Ayurvedic, Unani and Homeopathic hospitals/ dispensaries have been shown separately. No code has been provided for allopathic institutions and the numbers have been shown only in figures. Thus beside H, code for hospital means an Allopathic Hospital. Separate codes have been provided for other three systems of medicine.

If a medical or educational facility is not available in the town, the name of the nearest place, if the same district or the name of the nearest district in the same State or other State where available and its distance (in km) from the referent town has been mentioned. Details of medical institutions shown under 'Others' have also been explained.

Arts, Science and Commerce Colleges have been shown separately. While showing the educational institutions upto Higher Secondary level the same procedure as adopted in case of Village Directory, has been followed. In case of composed schools relevant classes have been treated separately e.g. a school having classes I to XII has been treated as being composed of one Primary, one Middle, one Secondary and one Higher Secondary School.

All other types of educational institution which are not covered in column 6 to 14 have been shown in column 15 under 'Others' and include technical/

vocational and training institutions like Applied Art Painting College, Pharmacy College, Agricultural College, Teacher's Training College/Institution, Music/ Dance School etc. Janchetna Kendra is also included in others.

Statement VI

This statement contains particulars regarding trade, commerce, industry and banking. It gives names of three most important commodities, exported and manufactured in the town besides the number of banks, agricultural and non-agricultural credit societies functioning in the town. A list of the outgrowths, if any, along with their population and name of the core town has also been provided at the end of the Town Directory as an Appendix.

Statement VII

Information about all slums whether notified or not and for all towns has been shown in this statement in order to give an idea about the amenities available to the slum dwellers. Particulars about paved roads, systems of sewerage, number and types of latrines, method of disposal of night soil, number of tap points/ public hydrants for supply of protected water and electrification have been provided in respect of every slum in each town, if there are any.

PART-A : VILLAGE AND TOWN DIRECTORY

blank

Section-I

Village Directory

NOTE EXPLAINING THE ABBREVIATIONS USED IN THE VILLAGE DIRECTORY

The "Village Directory" is one of the traditional compilations of the Census. It gives the list of villages, their location numbers, their area, population, number of households, amenities such as educational, medical, drinking water, post and telegraph, commercial and co-operative banks, agricultural non-agricultural and other credit societies, recreational and cultural facilities, communication, approach to village, nearest town with a distance, power supply availability of newspaper and magazines, most important commodity manufactured and land use of each village.

Village is a statutory recognized unit having a definite boundary and separate land records. In case, a complete village is treated as an outgrowth of urban agglomeration, data on amenities for that village, have not been given in the Village Directory but shown along with the urban component. The villages which are consider as a Census Town , the amenities data are shown in the Town Directory. For those villages which have partly merged in an outgrowth of U.A., the amenities data are shown in the Village Directory for that particular village.

The 'un-inhabited' villages (villages with no population) have been indicated as such after furnishing details in columns 1 to 3 i.e., Serial number, Name of village & location code number and area of the village against column nos. 4 to 18. The land use data for such villages are shown in cols. 19 to 23.

The Village Directory format has 23 columns and the details given under each column are for the village are as follows:

Column 1 : Serial Number

Self explanatory. All the villages within the Panchayat Samiti are presented serially in the ascending order of their location code number.

Column 2 : Name and Location Code Number of village

The name and location code number of the village are shown against these columns. This also includes the forest and uninhabited villages.

Column 3 : Area of the village

The area of the villages in hectares are given. Wherever the area figures was not furnished by the concerned department the column is left blank.

Column 4 : Total population

The total population of the village as per 2001 Census is given against this column.

Column 5 : Number of households

The number of households as per 2001 Census is given in this column.

Amenities :

In columns 6 to 23, availability in respect of different amenities such as education, medical, drinking water, post, telegraph, banks, credit societies, communication, power, approach road etc. in each village has been depicted with appropriate codes against the column concerned. Wherever the amenities are not available in the village, a dash (-) is shown in the column and next to it in brackets the distance in broad ranges viz.< 5 kms., 5-10 kms. and 10+ kms of the nearest place where the facility is available is given. Column wise details are given below:

Column 6 : Educational

Classes upto class V included in Primary School. This will include nursery school, kindergarten school. Pre-basic school, pre-primary school, junior basic school upto class V.

Classes from VI to VIII are included in the middle school.

Classes from IX and X included in High secondary school. Classes XI and XII are included in senior secondary school.

In case of composite schools like middle school with primary school or secondary school with middle school, these are also included in the number of primary and middle schools, respectively.

Accordingly any of the following types of institutions if exists within the village is shown as per codes given below :

(i)	Primary School	P
(ii)	Middle School	M
(iii)	Secondary School	S
(iv)	Senior Secondary School	PUC
(v)	College	C
(vi)	Industrial School	I
(vii)	Training School	Tr
(viii)	Adult literacy class/centre	AC
(ix)	Others (specify) e.g. Sanskrit Pathshala, Senior basic school, Navodaya Vidyalaya, Makhtab, etc.	O

More than one institution of a type in the village is indicated by the number within brackets against the abbreviation, e.g. P(3), M(4), etc.

Column 7 : Medical

Availability of medical facility within the village is indicated by following codes :

(i)	Allopathic Hospital	H
	Ayurvedic Hospital	HA
	Unani Hospital	HU
	Homeopathic Hospital	H Hom
(ii)	Allopathic Dispensary	D
	Ayurvedic Dispensary	DA
	Unani Dispensary	DU
	Homeopathic Dispensary	D Hom
(iii)	Maternity & Child Welfare	MCW
(iv)	Maternity Home	MH
(v)	Child Welfare Centre	CWC
(vi)	Health Centre	HC
(vii)	Primary Health Centre	PHC
(viii)	Primary Health Sub-Centre	PHS
(ix)	Family Welfare Centre	FWC
(x)	T.B. Clinic	TB
(xi)	Nursing Home	NH
(xii)	Registered Private Medical Practitioner	RMP
(xiii)	Subsidised Medical Practitioner	SMP
(xiv)	Community Health Worker	CHW
(xv)	Others	O

More than one institution of a type in the village is indicated by the number within brackets against the abbreviations, e.g. H(3), D(4), etc.

Column 8 : Drinking Water

The type of the drinking water supply sources available within the village are indicated by codes as follows:

(i)	Tap Water	T
(ii)	Well Water	W
(iii)	Tank Water	TK
(iv)	Tubewell Water	TW
(v)	Handpump	HP
(vi)	River Water	R
(vii)	Canal	C
(viii)	Lake	L
(ix)	Spring	S
(x)	Others	O
(xi)	Summer Sorce	SS

Column 9 : Post, Telegraph and Telephone

It is indicated by codes as shown below whether within the village exists the following amenities:

(i)	Post Office	PO
(ii)	Telegraph Office	TO
(iii)	Post & Telegraph Office	PTO
(iv)	Telephone Connection	PH

Column 10 : Commercial and Co-operative Banks

If the village is served by any banking service, commercial bank, co-operative bank etc. the same is indicated in codes mentioned below along with the number of banks in brackets. If not available the distance of nearest place where the facility exist is given:

(i)	Commercial Bank	CM
(ii)	Co-operative Bank	CP

Column 11 : Credit Societies

If the village enjoys the services of Credit Societies i.e. Agricultural Credit Societies, Non-Agricultural Credit Societies or Other Credit Societies, the same is indicated in codes mentioned below along with the number of such societies in brackets. In case the facility is not available within the village the distance of the nearest place where such facility exist is given :

(i)	Agricultural Credit Society	ACS
(ii)	Non-Agricultural Credit Society	NCS
(iii)	Other Credit Society	OCS

Column 12 : Recreational and cultural facilities

If facilities such as Cinema/Video hall, Sports Club, Stadium/Auditorium is available in the village, the same is recorded in these columns. If not available the particulars of the nearest place with the facility is recorded. The information is indicated in codes mentioned below along with the number of such facilities in brackets:

(i)	Cinema/Video Hall	CV
(ii)	Sports Club	SP
(iii)	Stadium/Auditorium	ST

Column 13 : Communications

If the village is served by any mode of public / private transport like Bus, Railway station or Navigable water ways they are to be mentioned as follows:

(i)	Bus	BS
(ii)	Railway Station	RS
(iii)	Navigable Waterway	NW

Column 14 : Approach to village

Approach to village refers to the state of road leading to village. The approach to the village is indicated in following codes :

(i)	Paved Road	PR
(ii)	Mud road	MR
(iii)	Foot path	FP
(iv)	Navigable River	NR
(v)	Navigable Canal	NC
(vi)	Navigable waterways other than River and Canal	NW

Column 15 : Nearest Town with distance

The distance is given in kilometers in brackets against the name of the town nearest to the village.

Column 16 : Power supply

Availability of Power Supply in the village, whatever may be the form of its use is given by using following codes :

(i)	Electricity for domestic use	ED
(ii)	Electricity for agricultural use	EAG
(iii)	Electricity for other purposes	EO
(iv)	Electricity for all purposes	EA

Column 17 : News Paper / Magazine

If village receives any News Paper/Magazines the same is noted in this column using following codes:

(i)	News Paper	N
(ii)	Magazine	M

Column 18 : Most important commodities manufactured

The name of three most important commodities manufactured in the village is recorded against this column.

Columns 19 to 23 : Land use i.e. area under different types of land use

Land use data maintained by the State/UT Govts. are furnished against these columns. The data concerning area under Forest, Irrigated land (by source), Un-irrigated land, Culturable waste and Area not available for cultivation in the village are shown against these columns. The area figures are given in hectare(s) up to one decimal. Dash '-' is recorded wherever the information is not made available by the concerned department. The codes used for different types of irrigation facilities available in the village are indicated below:

(i)	Government Canal	GC
(ii)	Private Canal	PC
(iii)	Well (without electricity)	W
(iv)	Well (with electricity)	WE
(v)	Tubewell (without electricity)	TW
(vi)	Tubewell (with electricity)	TWE
(vii)	Tank	TK
(viii)	River	R

(ix)	Lake	L
(x)	Waterfall	WF
(xi)	Others	O
(xii)	Total	T

The village directory also carries the following appendices.

Appendix-I It gives the abstract of educational, medical and other amenities available in villages Panchayat Samiti wise of the district.

Appendix-I-A Indicates number of villages Panchayat Samiti wise having one or more primary schools.

Appendix-I-B Indicates number of villages Panchayat Samiti wise having primary, middle and secondary schools.

Appendix-I-C Shows number of villages Panchayat Samiti wise with different sources of drinking water facilities.

Appendix-II Indicates the list of villages with 5,000 and above population which do not have one or more important amenities.

Appendix-II-A Indicates list of Census Towns which do not have one or more amenities.

Appendix-III It gives the land utilization data in respect of Census Towns / non-municipal Towns.

Appendix-IV Panchayat Samiti wise list of inhabited villages where no amenity other than drinking water facility is available.

Appendix-V Summary showing number of villages not having Scheduled Castes population.

Appendix-VI Summary showing number of villages not having Scheduled Tribes population.

Appendix-VII The appendix shows the list of villages according to proportion of the VII A, VII B Scheduled castes and Scheduled Tribes to the total population by ranges.

Appendix-VIII Indicates Panchayat Samiti wise number of villages under each Gram Panchayat.

Appendix-IX Shows number of different types of girls school in a village.

Section-II

Town Directory

NOTE EXPLAINING THE ABBREVIATIONS USED IN THE TOWN DIRECTORY

Town Directory statements (I to VII)

Statement I : Status and Growth History

Column 2 : Class, name and civic administration status of town

Class has been introduced to facilitate analysis of town directory data at the state and all India levels. It is presented according to 2001 Census Population of the town as follows:

Population	Class
100,000 and above	I
50,000 - 99,999	II
20,000 - 49,999	III
10,000 - 19,999	IV
5,000 - 9,999	V
Below 5,000	VI

Town with a population of one hundred thousand (1,00,000) and above is treated as a city.

The civic administration status of the towns is indicated within bracket against the name of the town. The following abbreviations are used to denote civic status of town.

(i)	Municipal Corporation	M. Corp.
(ii)	Municipal Committee	MC
(iii)	Municipal Council	M.Cl.
(iv)	City Municipal Council	CMC
(v)	Town Municipal Council	TMC
(vi)	Municipal Board	MB
(vii)	Municipality	M
(viii)	Cantonment Board/Cantonment	CB
(ix)	Notified Area	NA
(x)	Notified Town	NT
(xi)	Notified Area Committee/ Notified Area Council	NAC
(xii)	Notified Town Area	NTA
(xiii)	Industrial Notified Area	INA
(xiv)	Industrial Township	ITS
(xv)	Township	TS
(xvi)	Town Panchayat	TP
(xvii)	Nagar Panchayat	NP
(xviii)	Town Committee/Town Area Committee	TC
(xix)	Small Town Committee	ST
(xx)	Estate office	EO
(xxi)	Gram Panchayat	GP
(xxii)	Census Town	CT

Others columns need no comments.

Statement II : Physical Aspects and Location of towns, 1999

Columns 3 to 5 : Physical Aspects

In these columns the Rainfall and Maximum and Minimum Temperature of the town is recorded.

Columns 6, 7 and 8

Name of the State headquarters, District headquarters and Tehsil headquarters with distance from the referent town in kilometers, is to be recorded respectively. If the names mentioned in these columns are the same as the referent town itself, the distance is recorded as (0) zero.

Columns 9 and 10

Name of the nearest city with one lakh and more and five lakhs and more population are recorded.

Columns 11, 12 and 13

If referent town enjoys the facility of railway station, bus route facility or navigable river/canal. Its name is to be mentioned. If not available, then the name of nearest place with distance, where such facility exists is to be mentioned.

Statement III : Municipal Finance 1998–1999

Item-wise amount of receipt and expenditure in thousand rupees, relating to municipal finance of the town for the year 1998-99 is to be recorded.

Statement IV : Civic and Other amenities, 1999

Columns 1 to 5 : Self explanatory

Column 6 : Road length (in kms.)

Information about kutcha / pucca road is to be recorded separately for the roads within the limits of the referent town.

(i)	Pucca Road	PR
(ii)	Kutcha Road	KR

Column 7 : System of Sewerage

Generally, by sewerage system is implied the network of mains and branches of underground conduits for the conveyance of sewerage to the point of disposal. Sewers that carry only household and industrial wastes are called separate sewers, those that carry storm water from roofs, streets and other surface are known as storm water drains, while those carrying both sewage and storm water are called combined sewers.

The codes used for different types of drainage system are as follows :

(i)	Sewer	S
(ii)	Open Surface Drains	OSD
(iii)	Box Surface Drains	BSD
(iv)	Sylk Drains	SD
(v)	Cesspool method	CP
(vi)	Pit System	Pt
(vii)	Others	O

Columns 8 to 11 : Number of latrines

Number of various types of latrines both Public and Private are given in these columns.

Column 12 : Method of disposal of night soil

The various prevalent method of disposal of night soil are given below with codes :

(i)	Head Loads	HL
(ii)	Basket	B
(iii)	Wheel Barrows	WB
(iv)	Septic Tank	ST
(v)	Pit System	Pt
(vi)	Sewerage	S
(vii)	Others	O

Columns 13 and 14 : Water supply

Source and capacity of storage system. The following codes are used in these columns:

Column 13

(i)	Tap water	T
(ii)	Tube-well water	TW
(iii)	Tank Water	TK
(iv)	Well Water	W

Column 14

(v)	Over Head Tank	OHT
(vi)	Service Reservoir	SR
(vii)	River Infiltration Gallery	RIG
(viii)	Bore Well Pumping System	BWP
(ix)	Pressure Tank	PT

The information on major source of water supply are given in column 13 and the storage capacity against each in kilo-litres (in bracket) are presented in column 14.

Column 15 : Fire Fighting Service

In case the fire fighting service is available in the referent town 'yes' is recorded. If the facility is not available within the town. The name of the nearest place having this facility with its distance from the referent town has been recorded.

Columns 16 to 20 : Electrification (Number of connections)

Different types of electric connections have been shown in these columns, i.e. Domestic, Industrial, Commercial, Road lighting (points) & others.

Statement V : Medical, Educational, Recreational and Cultural Facilities, 1999

Columns 1 to 3 : Self explanatory

Columns 4 & 5

The data covers all such medical institutions run by or aided by Government/Semi Government/Local bodies and Charitable institutions or Social agencies like the Missionaries. Where the family planning centres are attached to hospitals or maternity and child welfare centres or primary health centres, may be treated as independent units and counted separately using following codes :

(i)	Hospital	H
(ii)	Dispensary	D
(iii)	Health Centre	HC
(iv)	Family Welfare Centre	FWC
(v)	T.B. Clinic	TB
(vi)	Nursing Home	NH
(vii)	Others	O

In case of more than one institutions of any type, it is indicated within brackets the number of such institution (s) e.g. D(3), NH(8), etc. The institutions have further been distinguished by providing additional codes within the bracket as given below :

Ayurvedic	A
Unani	U
Homoeopathic	Hom

Columns 6 to 9

The codes used for these columns are as follows:

(i)	Arts only	A
(ii)	Science only	S
(iii)	Commerce only	C
(iv)	Arts & Science only	AS
(v)	Arts & Commerce only	AC
(vi)	Combined for all categories-Arts, Science and Commerce	ASC

(vii)	Law	L
(viii)	University	U
(ix)	Others	O

Column 10 : Recognized shorthand, typewriting and vocational training institutes

"Recognised" should mean recognised by some statutory authority, like education department, commerce department, labour department etc. of the government or semi government or autonomous bodies, public sector undertakings etc.

The following codes are used :

(i)	Vocational Training Institute	VT
(ii)	Shorthand	SH
(iii)	Typewriting	Type
(iv)	Shorthand & Typewriting	SH Type
(v)	Others	O

The vocational institutions like - Applied Art/ Painting college, Pharmacy college, B. Ed. College, Teacher's Training Institute, Music/Dance School, Nursing School etc. are covered under 'Others'.

Columns 11 to 14

Higher Secondary/Intermediate/Senior Secondary/ PUC/Junior College level, Secondary/Matriculation, Middle Schools/Junior Secondary and Primary Schools.

School up to class V are treated as Primary or elementary schools. These include Nursery schools, Kindergarten schools, Pre-Primary schools, Junior Basic schools upto class V and Primary schools upto class IV.

Schools upto VIII are considered as Middle school or Junior Secondary.

Schools upto class X are considered as Matriculation or Secondary schools.

Schools upto XI or XII classes are considered as Higher Secondary/Intermediate/Pre University/Junior College etc. This would cover 10+2 classes whether held in schools or college.

If there are composite schools like middle schools with primary classes or Secondary schools with Middle classes, these are also included in the number of Primary and Middle schools, respectively. For example, if in a town, there are two Primary Schools and one Middle school with Primary classes, the number of Primary schools in the town is given as three and that of Middle schools as one though there are only three educational institutions.

If there are more institutions of a type in the town, the number is indicated within bracket along with the abbreviation, e.g. P(4), M(3).

Column 15 : Adult literacy class/centres

This column has been introduced keeping in view the Minimum Needs Programme of the Planning Commission. There are number of Adult Education Centres which are included in these columns.

If an educational facility is not available in the town, the name of the nearest place and its distance in kilometres from the town where the facility is available is mentioned.

Column 16 : Working Women's hostels with number of seats

The number of working women's hostel if available in the referent town is mentioned with number of seats. If the facility is not available in the town the name of nearest place with distance where the facility is available is recorded.

Columns 17 to 19 : Recreational and Cultural Facilities

Stadium, Cinema, Auditorium/Drama/Community Hall are covered under recreational & cultural facilities. The particulars of permanent recreational facilities are considered for these columns.

Column 20 : Public Libraries, Reading Rooms

Number of public libraries and reading rooms available in the referent town are recorded in codes as follows :

(i)	Public Library	PL
(ii)	Reading room	RR

Statement VI : Trade, Commerce, Industry and Banking, 1999

Columns 3 to 8

Names of three most important commodities exported and names of three most important commodities manufactured in the town are recorded.

Column 9 : Number of Banks

Number of Banks available in the referent town both Commercial and Co-operative banks are recorded against this column.

Columns 10 & 11 : Number of Agricultural Credit Societies and Non Agricultural Credit Societies

The total number of Agricultural Credit Societies and Non-Agricultural Credit Societies in the referent town are recorded against these columns.

Statement VII : Civic and other Amenities in Slums, 1999

This is the statement on civic and other amenities in all slums whether notified or not and for all towns having statutory bodies, like municipality, Municipal Corporation, Town area committee etc.

PART-B : PRIMARY CENSUS ABSTRACT

Brief note on Primary Census Abstract

The first census of the third millennium and twenty first century the Census of India, 2001 was the 14th continuous and uninterrupted Indian census since 1872. Thus, 2001 Census will provide data on population and its characteristics marking transition from one century and millennium to another.

The gigantic operation of Population Enumeration (considered by many to be the single largest and complex peace time administrative exercise in the world) was made possible due to the door to door universal canvassing of the Household Schedule by about 2 million enumerators and supervisors covering 593 districts, 5,463 sub-districts, 5,161 towns and 638,588 villages. The comprehensive Household Schedule which replaced the individual slip had three parts and two sides A and B. Part I contained the Location Particulars; Part II related to the Individual Particulars and Part III contained questions for Household engaged in Cultivation/Plantation . The part II of the Household Schedule had 39 columns and 23 questions all of which were universally canvassed and no sampling was resorted to during enumeration.

Data Processing

A quantum leap was made in the technology front while processing the Census 2001 data both for Houselisting and Population Enumeration. The Census schedules for both the phases were scanned through high speed scanners in fifteen data centers across the country and hand-written data from the schedules were converted into digitized form through Intelligent Character Reading (ICR) software for creation of ASCII records for further processing. The designing and formatting of the Household Schedule had to be done very carefully using specialized software so as to ensure uniformity, which was an essential pre-requisite for scanning. The selection of appropriate state-of-art technology in data processing has made it possible to produce all the Houselisting as well as Population Enumeration tables on full count basis for the first time in the history of Census. For Census 2001, about 202 million schedules consisting of about 1,028 million records were scanned and processed within a span of only 10 months starting October, 2002.

Task Force on Quality Assurance

After the data is processed, it is expedient on the part of the data producing agency to satisfy itself about its quality before putting the same in public domain. This has to be done mainly through the process of internal consistency, comparison with similar data in the past and also through validation with likewise data if available, from external sources. Quite often the local knowledge and perception has to be brought into play to understand both the existing and the new emerging trends of population distribution and characteristics. The other very important aspect of the data quality is to ensure complete coverage of all geographical areas especially for the population enumeration phase where the data is disseminated right up to the village level in the rural areas and the ward level in the urban areas. Thus ensuring the complete coverage and correct geographical linkage of each enumeration block was one of the major planks of the quality control, specially for small area population statistics.

A very comprehensive check and edit mechanism was put in place to objectively examine the preliminary Census 2001 Population Enumeration results and finally clear them for use. The responsibility of the final clearance of data was with the Task Force on Quality Assurance (TFQA), headed by the Registrar General and Census Commissioner, India. The other members of the TFQA were the Heads and senior officers of the Census Division, Data Processing Division, Map Division, Demography Division and Social Studies Division. The Directors of Census Operations were co-opted as members whenever the TFQA discussed the data for their States/Union territories. The Directors and their senior officers were required to make detailed presentations of data for their own state both in respect to the quality and the coverage and only after the full possible cleared.

There has been a major departure in Census 2001 from the past in respect of the procedure followed for finalization of the Scheduled Castes and the Scheduled Tribes population. In the earlier censuses, the total Scheduled Castes and Scheduled Tribes populations were finalized at the time of the manual compilation of the Primary Census Abstracts (PCA) at the Regional Tabulation Offices which were specially set up for this purpose. The individual Scheduled Castes and the Scheduled Tribes population for each state was finalized much later based on manual coding done by the coders. In 2001 Census, each individual Scheduled Caste and the Scheduled Tribe have been coded directly on the computers by the Data Entry Operators through a process known as Computer Assisted Coding (CAC) and taken up along with the processing of PCA data. The CAC process involves pulling down, from the relevant dictionary of the Scheduled Castes and the Scheduled Tribes, on the computer screen and coding from the dictionary by referring to the image of the specific individual entry in the Household Schedule appearing on the screen. The CAC of the response on Religion wherever required, was also undertaken along with the processing of PCA. This is because the Scheduled Castes status had to be determined in relation to the religion of the individual. Two Special Task Forces, one on Religion and the other on Scheduled Castes/ Scheduled Tribes were constituted for scrutiny and appropriate classification of these responses.

The main task of the Special Task Force on Religion was to appropriately merge or group the new responses encountered and code it into the appropriate religious community based on available literature and local knowledge. The Special Task Force on Scheduled Castes and Scheduled Tribes examined the different Scheduled Castes and Scheduled Tribes entries encoun-tered and classified these into appropriate category of the Scheduled Castes or the Scheduled Tribes principally based on the Presidential Notification and the available literature. Thus a very systematic and scientific mechanism was operationalised to firm up the individual religion and the individual Scheduled Castes/Tribes returns. The Scheduled Castes and the Scheduled Tribes population in 2001 Census, is thus being finalized by aggregating the population data for individual Scheduled Castes and the Scheduled Tribes at appropriate geographical levels.

The entire work relating to the data validation and scrutiny was completed by all the States/Union Territories under the overall supervision and monitoring of the Census Division of the Office of the Registrar General, India with active cooperation and support of the Social Studies Division, Data Processing Division, Data Dissemination Division and Map Division.

Primary Census Abstract

The Primary Census Abstract which is yet another important publication of 2001 Census gives basic information on Area, Total Households, Total population, Scheduled Castes, Scheduled Tribes population, Population in the age group 0-6, Literates, Main workers and Marginal workers classified by the four broad industrial categories, namely, (i) Cultivators, (ii) Agricultural labourers, (iii) Household Industry Workers, and (iv) Other workers and also Non-workers. The characteristics of the Total Population includes Scheduled Castes, Scheduled Tribes, Institu-tional and Houseless population and are presented by sex and rural-urban residence. This data is presented at different levels, namely, India, States/Union territories, Districts and Cities, Urban Agglomerations (Population 1,00,000 and above) in three different tables. In addition, the Appendix of said publication provides Houseless and Institutional Households and their population by residence and sex for 2001 for India, State and Union territory.

Apart from the India and State/Union Territory volumes for Primary Census Abstract, the District Census Handbook contains District Primary Census Abstract, Appendix to District Primary Census Abstract, Primary Census Abstract for Scheduled Castes, Primary Census Abstract for Scheduled Tribes, Village Primary Census Abstract and Urban Primary Census Abstract of the concerned district in the state.

It was for the first time at the 1981 Census that the Primary Census Abstract (PCA) was brought out for the Scheduled Castes and the Scheduled Tribes separately on the pattern of General Primary Census Abstract. This practice was continued in 1991 also. In the 1961 and 1971 Censuses, such data were made available in Table C-VIII-Social and Cultural table and to some extent in the series 'Special Tables for Scheduled Castes/Scheduled Tribes'.

The format of Primary Census Abstract has been restructured slightly in the 2001 Census as compared to that of 1991 Census. The nine-fold industrial classification of main workers given in the Primary Census Abstract of 1991 Census has been discontinued and its place, four-fold industrial classification of both 'main workers' and 'marginal workers' are included. In 1981 census only main workers were presented in to four categories. One of the novel features of the primary census abstract of 1991 census was the presentation of data of the population of age group 0-6 is continued in 2001 Census also. This will help the data users in better analysis and understanding of this literacy data.

Level of presentation in District Census Handbooks

The Primary Census Abstract data in different PCAs are presented at different levels. The level of presentation of Primary Census Abstracts are as under:

	Name of the Primary Census Abstract	Level of presentation
1.	District Primary Census Abstract	District/Panchayat Samiti/UA/City/Town
2.	Primary Census Abstract for Scheduled Castes	District/Panchayat Samiti/Town
3.	Primary Census Abstract for Scheduled Tribes	District/Panchayat Samiti/Town
4.	Village Primary Census Abstract	Panchayat Samiti/Village wise
5.	Urban Primary Census Abstract	Town/Ward level

The PCA Data for villages was presented Panchayat Samiti wise for the first time in 1991 Census. This practice is continued in 2001 Census also. The data for each Panchayat Samiti is presented both for rural and urban areas separately. All the villages within the Panchayat Samiti constitute the rural portion and the Census Towns and Outgrowths are shown under the urban portion of the Panchayat Samiti. In case a Panchayat Samiti is spread over two or more districts, than portion which falls within the district is presented, the data pertaining to remaining portion of the Panchayat Samiti is presented in the concerned District Census Handbook. The data in the Urban Primary Census Abstract for each town as well as for town with outgrowths in the district are presented. The data for all the wards and the outgrowths of the town(s) are also presented separately below the concerned town(s).

The District Primary Census Abstract is presented in 59 columns. The Primary Census Abstract for Scheduled Castes and Primary Census Abstract for Scheduled Tribes are presented in 52 columns. The Village Primary Census Abstract and Urban Primary Census Abstract are presented in 58 columns.

The concepts and definitions used in the column heading are explained under the sub heading 'Census Concepts' in the Analytical Note. The term 'Total Population' includes the Scheduled Castes, the Scheduled Tribes, the Institutional and the Houseless populations. The explanation regarding area figures presented at various level in the Primary Census Abstracts are as follows:

Area Figures

The area figures supplied by local revenue authorities of the district in respect of tehsils, and by the local bodies in respect of towns are given in square kilometers. The area figures of the villages supplied by the Tehsildars in acres have been converted and shown in hectares. The area figures of the Panchayat Samiti is the total of the village areas coming under each Panchayat Samiti. The area figures for the district are the same as adopted by the Surveyor General of India to maintain uniformity at the national level. The total area figures of all the tehsils/ Panchayat Samiti within the district may not tally with area figures of the district because former represents land use area only. Similarly, the total of all the villages may not tally with the entire rural of Tehsil. The difference may be due to the fact that while the area covered by hills, forests and rivers etc, have been accounted in the Tehsils and Panchayat Samiti level the same may not be covered under the area of the villages. Apart from this it may also differ due to varying methods of computation adopted at different levels.

An appendix to District Primary Census Abstract has also been furnished showing urban enumeration block-wise particulars on Total Population, the Scheduled Castes Population and the Scheduled Tribes Population for each town.

ANNEXURE-II : FERTILITY-MORTALITY MEASURES

Fertility is a major component of population growth. In 1991 Census, questions on fertility related to age at marriage, number of children surviving at present, number of children ever born alive and any child born alive during last one year were asked. The first three questions were asked to all ever-married women and last question related to currently married women.

AGE SPECIFIC MARITAL FERTILITY LEVEL, 1991 CENSUS

Age-Group	Sirohi			Rajasthan		
	Total	Rural	Urban	Total	Rural	Urban
1	2	3	4	5	6	7
15-19	118.94	108.66	180.81	99.82	99.10	103.46
20-24	293.38	289.54	308.55	217.18	227.01	182.20
25-29	272.28	287.23	209.75	197.71	214.81	144.55
30-34	216.34	232.12	157.08	141.09	158.38	85.69
35-39	129.42	140.65	81.09	90.43	104.11	47.40
40-44	79.41	89.05	34.35	53.37	61.51	25.15
45-49	31.64	35.35	13.57	27.36	30.37	15.81

The Age specific Marital Fertility levels (ASMFR) has been calculated at seven different age-groups. The highest ASMFR of the district is found 293.38 in the age-group of 20-24 followed by 272.28 in the age-group of 25-29. The lowest ASMFR is reported in the age-group 45-49 i.e. 31.64. In comparison to the ASMFR at the state level it has been found lower in the age-group of 15-19, 118.94 (99.82 state) and 20-24, 293.38 (217.18 state) respectively at the district level. In the remaining age-group i.e. 25-29, 30-34, 35-39, 40-44 & 45-49 the ASMFR of the district is lower at the state level. It can be seen from the table:

ESTIMATES OF CHILD MORTALITY, 1991 CENSUS

Mortality Indicators	District : Sirohi			Rajasthan State		
	Persons	Males	Females	Persons	Males	Females
q2	126	130	125	97	95	99
q3	129	128	129	100	98	106
q5	139	132	147	110	103	117

Information on the questions on children ever born and children surviving canvassed for all ever-married women has been tabulated by age of the mother. From this, estimates of child mortality have been worked out by using Brass Technique. From the estimates of child mortality (Number of deaths by ages 2, 3 and 5 given as q2, q3 and q5) it is observed that the child mortality in the Sirohi district is higher as compared to the state among males as well as females. It can be seen from the table.

ANNEXURE-III : VARIOUS MEASURES OF FERTILITY AND MEAN AGE AT MARRIAGE, 1991 CENSUS

Sl. No.	State/District	CBR	TFR	TMFR	GFR	GMFR	No. of children ever born per woman age group 45- 49	Child-woman Ratio (0-4)	Mean age at marriage of currently married women

Source : Occasional paper No.1 of 1997 office of the Registrar General India and Rajasthan state district profile 1991.
Note: * Newly Created districts after 1991 Census.

Different fertility measures indicates that the fertility level in the Sirohi district was lower compared to the state average. The gross fertility rate (GFR) of the GMFR (Gross Marital Fertility Rate) and total fertility rate (TFR) of the district are also lower than that of state being 176 and 4.73 as against 184 and 5.01 of the state respectively. The total marital fertility rate (TMFR) of district is 5.46 is lower than that of state 5.59. The Crude Birth Rate (CBR) is also lower 33.33 as compared to the state 35.75.

However the number of children ever born per woman in the age group of 45-49 is 5.02 which is lower than the state average 5.07.

The mean age at marriage of females in the district 18.00 is higher than that of the state. It can be seen from the table. Child women ratio (CWR) 0-4 of the district is lower than state. It can be seen from the table.

ANNEXURE-IV(a) : PERCENTAGE DISTRIBUTION OF MIGRANTS BY PLACE OF BIRTH, 1991 CENSUS

Place of Birth	1991 Census		
	Persons	Males	Females
1	2	3	4
(A) Migrants born within the state of Enumeration	175,275 (87.41)	37,015 (81.09)	138,260 (89.27)
(i) Migrants born elsewhere in district of Enumeration	126,531 (63.10)	21,886 (47.95)	104,645 (67.57)
(ii) Migrants born in other district of the State	48,744 (24.31)	15,129 (33.14)	33,615 (21.70)
(B) Migrants born in other states of India	23,950 (11.94)	7,770 (17.02)	16,180 (10.45)
(C) Migrants born in other countries	1,300 (0.65)	860 (1.89)	440 (0.28)
Total Migrants	**200,525 (100.00)**	**45,645 (100.00)**	**154,880 (100.00)**

(a) By Place of Birth:

A total number of 200,525 persons were found as migrants by place of birth. Among these 175,275 migrants were those who were born in Rajasthan. This accounted for 87.41 per cent of total migrants. A large chunk of the migrants 63.10 per cent were those whose places of birth was else where in the district of enumeration. A significant i.e. 24.31 per cent of migrants were their place of birth in other district of the Rajasthan. A meagre number of migrants i.e. 1,300 (0.65 per cent) were those whose places of birth were out side India it can be seen from the table.

ANNEXURE-IV(b) : RURAL AND URBAN COMPOSITION OF INTERNAL MIGRANTS BY PLACE OF BIRTH, 1991 CENSUS

Place of Birth	Total Rural Urban	Place of Enumeration		
		Total	Rural	Urban
1	2	3	4	5
Total Internal Migrants within the State	Total	175,275 (100.00)	138,574 (79.06)	36,701 (20.94)
	Rural	149,639 (85.37)	126,893 (72.39)	22,746 (12.98)
	Urban	22,585 (12.89)	8,970 (5.12)	13,615 (7.77)
In other states of India	Total	23,950 (100.00)	13,270 (55.41)	10,680 (44.59)
	Rural	13,330 (55.66)	10,060 (42.01)	3,270 (13.65)
	Urban	10,230 (42.71)	2,930 (12.23)	7,300 (30.48)

(b) Internal Migrants (Rural/Urban):

Majority of the internal migrants i.e. 85.37 per cent whose places of birth were within Rajasthan belonged to the rural areas of the state. The same trend also reflects in case of migrants born in other states of India as can be seen from the table:

ANNEXURE-IV(c) : INTERSTATE MIGRANTS, 1991 CENSUS

Place of Birth	1991 Census	
	Migrants	Percentage to total migrants
1	2	3
Bihar	920	3.84
Gujarat	15,150	63.26
Maharashtra	1,120	4.68
Haryana	670	2.80
Madhya Pradesh	700	2.92
Uttar Pradesh	2,740	11.44
Total for six States	21,300	88.94
Other States	2,650	11.06
Total	23,950	100.00

(c) Inter-state Migrants

In case of Inter-state migrants, the migrants are mainly from bordering states of Gujarat and Uttar Pradesh as their percentages are 63.26 and 11.44 respectively. It is followed by migrants having place of birth in Maharashtra with 4.68 percent as can be seen from the table:

ANNEXURE-IV (d) : PERCENTAGE DISTRIBUTION OF MIGRANTS BY PLACE OF LAST RESIDENCE, 1991 CENSUS

Place of Last Residence	1991 Census		
	Persons	Males	Females
1	2	3	4
(A) Within the State of Enumeration but outside the place of Enumeration	177,725 (86.63)	37,775 (78.53)	139,950 (89.12)
(i) Elsewhere in the District of Enumeration	129,001 (62.88)	22,596 (46.97)	106,405 (67.76)
(ii) In other districts of the state of Enumeration	48,724 (23.75)	15,179 (31.56)	33,545 (21.36)
(B) States in India beyond the state of Enumeration	26,570 (12.95)	9,940 (20.66)	16,630 (10.59)
(C) Last Residence outside India	850 (0.42)	390 (0.81)	460 (0.29)
Total Migrants	**205,145 (100.00)**	**48,105 (100.00)**	**157,040 (100.00)**

(d) Migration by Place of Last Residence:

A total number of 205,145 persons were found as migrants by place of last residence. Among these 177,725 migrants were those whose place of last residence were within the state of enumeration but out side the place of enumeration. This accounted 86.63 per cent of total migrants by place of last residence. Similarly a total number of 26,570 (12.95 percent) persons were found, as migrants whose place of last residence were states in India beyond the state of enumeration. Only 850 persons were found whose place of last residence was outside the India. It can be seen from the table.

ANNEXURE-IV(e) : RURAL AND URBAN COMPOSITION OF INTERNAL MIGRANTS BY PLACE OF LAST RESIDENCE, 1991 CENSUS

Place of last Residence	Total/ Rural/ Urban	Place of Enumeration		
		Total	Rural	Urban
1	2	3	4	5
Total Internal Migrants within the State	Total	177,725	140,294	37,431
		(100.00)	(78.94)	(21.06)
	Rural	150,939	128,573	22,366
		(84.93)	(72.34)	(12.59)
	Urban	23,245	8,880	14,365
		(13.08)	(5.00)	(8.08)
In other states of India	Total	26,570	15,550	11,020
		(100.00)	(58.52)	(41.48)
	Rural	13,500	10,230	3,270
		(50.81)	(38.50)	(12.31)
	Urban	12,480	5,050	7,430
		(46.97)	(19.01)	(27.96)

(e) Migration by Place of Last Residence (Rural/ Urban):

Majority of the internal migrants i.e. 78.94 per cent place of last residence was in rural areas of the state. Similar trend is also reflected in case of migrants whose place of last residence were in other state of India as can be seen from the Table.

ANNEXURE-V : RELIGIONWISE DISTRIBUTION OF TOTAL POPULATION, 1991 CENSUS

District	Religion	Population	Percentage to total Population	Percentage		Percentage to total Population Rajasthan
				Rural	Urban	
1	2	3	4	5	6	7
Sirohi	Total Population	654,029	100.00	80.49	19.51	100.00
	Hindu	620,124	94.82	82.51	17.49	89.08
	Muslim	19,258	2.95	40.67	59.33	8.01
	Sikh	487	0.07	15.20	84.80	1.48
	Jain	13,033	1.99	50.82	49.18	1.28
	Christian	985	0.15	19.90	80.10	0.11
	Buddhist	11	N	9.09	90.91	0.01
	Other Religions and	75	0.01	2.67	97.33	N
	Religion not stated	56	0.01	75.00	25.00	0.03

RELIGION

Religion is an important basic cultural characteristic of the population. It provides an interesting picture of the society. The data on religion are provides unity and diversity of the country. The data is great importance to the public as well as Government, NGO and Minorities Commission.

Among the followers of six major religions in Sirohi district as per 1991 Census, Hindus are the main forces with 94.82 per cent to the total population. It is followed by Muslims 2.95 per cent and Jains 1.99 per cent.

If we compare this data to the state level the percentages population of Hindus is higher and the percentage population of Muslims is lower than the district. It can be seen from the table.

ANNEXURE-VI : MARITAL STATUS OF POPULATION AS PER, 1991 CENSUS

Age Group	Total Population		Marital Status

MARITAL STATUS OF POPULATION

Majority of the population of the district i.e. 49.97 percent is never married, followed by married and widowed i.e. 45.40 and 4.45 percent respectively out of the male total population of the district 54.64 percent males are never married and the female total population of the district 45.04 percent females are never married. The proportion of widowed female is higher 6.97 percent than the males 2.05 percent. Divorced or separated is not so widely practiced. The same trend was found in rural as well as urban areas. It can be seen from the table.

ANNEXURE-VII : AGE, SEX AND EDUCATION IN THE DISTRICT, 1991 CENSUS

State/ District	Total/ Rural/ Urban	Literacy rate for the age group						Percent of population in the age group 20+ who are					
		10-14			15-19			Matric but below graduate			Graduate and above
