# MOTIF

# LAKSHA GRIH

Spread across an area of 1,659 hectares, Lakshagrah is located at the intersection of Hindon and Krishna rivers. The place is around 42 km away from Meerut. It is said that the place was developed during 9th century by the then king Ahirvaran Tomar. Barnava finds a mention in the Varnavarat episode in Mahabhartha. In the south of the village, there is a small hill which is almost 100 feet high and is spread in an area of 30 acres. It is believed that these are the remains of the Lakh Mandap. It was in this Lakh Mandap, where kauravas made futile attempt to eliminate pandavas.

# FOREWORD

The District Census Handbook (DCHB) published by Census Organisation since 1951 census, is one of the important publications in the context of planning and development at gross-root level. The publication, which is brought out for each district, contains several demographic and socio-economic characteristics village-wise and town-wise of the district alongwith the status of availability of civic amenities, infrastructural facilities, etc.

2. The scope of the DCHB was initially confined to a few Census Tables and Primary Census Abstract (PCA) of each village and town within the district. Thereafter, at successive censuses, its scope and coverage has been enlarged. The DCHB published at the 1961 census provided a descriptive account of the district, administrative statistics, census tables and a village and town directory including PCA. The 1971 census-DCHB series was in three parts: Part-A related to village and town directory, Part-B to village and town PCA and Part-C comprised analytical report, administrative statistics, district census tables and certain analytical tables based on PCA and amenity data in respect of villages. The 1981 census DCBH was in two parts: Part-A contained village and town directory and Part-B the PCA of village and town including the SCs and STs PCA up to tahsil/town levels. New features alongwith restructuring of the formats of village and town directory were added into it. In Village Directory, all amenities except electricity were brought together and if any amenity was not available in the referent village, the distance in broad ranges from the nearest place having such an amenity, was given. Information on new items such as adult literacy centres, primary health sub-centres and community health workers in the village were provided so as to meet the requirements of some of the Revised Minimum Needs Programme. Information on approach to the village was provided for the first time in the Village Directory so as to give the details on number of inaccessible villages in each district. In the Town Directory, a statement (IV-A) on slums was introduced to provide the details on civic and other amenities in the notified slums of Class I and Class II towns.

3. The 1991 census DCHB, by and large, followed the pattern of presentation of 1981 census, except the format of PCA was restructured. Nine-fold industrial classification of main workers was given against the four-fold industrial classification presented in the 1981 census. In addition, sex-wise population in 0-6 age group was included in the PCA for the first time with a view to enable the data users to compile more realistic literacy rate as all children below 7 years of age had been treated as illiterate at the time of 1991 census. One of the important innovations in the 1991 census was the Community Development Block (CD block) level presentation of village directory and PCA data instead of the traditional tahsil/taluk/PS level presentation. It was expected that the presentation of village directory and PCA data at CD block level will help the planners in formulation of micro level development plans, CD block being lowest administrative unit.

4. The present series of 2001 census DCHBs have been made more informative and exhaustive in terms of coverage and content. The Village Directory has been enlarged in scope by including a number of other facilities like banking, recreational and cultural facilities, newspapers and magazines and 'most important commodity' manufactured in village. Income and expenditure of gram panchayat, wherever possible, has been provided. Apart from these, more details on distance(s) at which basic amenities are available (if not available in the village), are given. This includes educational facilities (namely primary and middle schools and college), medical facilities (viz. Allopathic Hospital, Maternity & Child Welfare Centre and Primary Health Centre), drinking water, post & telegraph (post office and phone), communication, bank, credit societies and recreational facilities. In Town Directory, the statement on Slums has been modified

and its coverage enlarged by including details on all slums instead of 'notified slums'. The information is given in case of all statutory towns irrespective of their class, against only Class I and Class II towns in the 1981 and 1991 censuses. The basic amenities available in the villages and towns are analysed in depth with the help of a number of cross-classified inset tables and statements. Two other significant additions in the publication are inclusion of 'motif' highlighting significant characteristic of the district and analytical notes as annexures. The analytical notes on (i) fertility and mortality and (ii) various measures of fertility and mean age at marriage are prepared based on 1991 Census. Whereas, in the notes relating to (i) percentage distribution of migrants by place of birth/place of last residence, (ii) main religions, (iii) marital status of population, (iv) age, sex and education, and (v) distribution of spectrum of mother tongue, nature and extent of changes occurred in the district in its basic socio-demographic features during the decade 1991-2001 are analysed. The eight digits permanent location code (PLCN) to all the villages and towns have been assigned keeping in view the future needs.

5. The village and town level amenity data have been collected, compiled and computerised in prescribed record structure under the supervision of Dr. Ranvir Singh, Director of Census Operations, Uttar Pradesh. Thereafter, efforts have been made to ensure comparability of the information with that of 1991 census data and the information brought out by the respective state governments in their annual reports and statistical handbooks for various years after 1991. The task of planning, designing and coordination of this publication was carried out by Shri R.G. Mitra, Deputy Registrar General (C&T) and Dr. I.C. Agrawal, Senior Research Officer of Social Studies Division. Dr. R.P. Singh, Deputy Registrar General (Map) provided the technical guidance in the preparation of maps. Whereas, Shri Anil Kumar Arora, Deputy Director of Data Processing Division who worked under the overall supervision of Shri Himakar, Addl. Director (EDP) helped in preparation of record structure for computerisation of village and town directory data and the programme for the generation of Village Directory and Town Directory statements including analytical inset tables. The draft DCHB manuscripts received from the Census Directorates have been scrutinised in the Social Studies Division under the guidance of Shri S.L. Jain, Deputy Director and Shri R.K. Mehta, Assistant Director. I am thankful to all of them and others who have contributed to make this publication possible.

# Preface

The District Census Handbooks (DCHBs) are brought-out in two parts giving village and town wise data for each district. The first part contains non-census data for each village and town and is called Village and Town Directories Part A. The Part B provides Census data for rural area up to the village level and for urban areas up to ward level for each town or city in the shape of Primary Census Abstract (PCAs). The information contained in Primary Census Abstract and Village and Town Directory (VDs/TDs) has already been released for data users in soft copy. Data available in District Census Handbooks are very useful for policy planners, Administrators, Researchers and other socio-economic research centers. Till 1991 Census, all the inset tables included in District Census Handbooks were produced manually. But this time the software designed by the Data Processing Division of the Office of the Registrar General, India helped in the fast generations of tables.

I am deeply grateful to Shri J.K. Banthia, Ex-Registrar General and Census Commissioner of India for his guidance and support. I would like to thank Shri D.K. Sikri, Secretary, Registrar General and Census Commissioner of India for his sustained support and spontaneous, unfailing guidance through our endeavours. At the outset I thank to Shri R.C. Sethi. Additional Registrar General, India, who drove us to complete the District Census Handbooks within a specific timeframe and make it ready for printing.

I thank to Shri R.G. Mitra, Ex. Deputy Registrar General (C&T), Shri R.P. Singh, Ex. Deputy Registrar General (Map), Dr. I.C. Aggarwal, Ex. Assistant Registrar General (SS) of the office of Register General, India for their guidance at each steps in the preparation of District Census Handbook. Special thanks are due to Shri S.L. Jain, Deputy Director (Social Studies) and Shri Anil Kumar Arora, Deputy Director (EDP), without their untiring efforts and support we could not have completed the District Census Handbook within this time.

The Director of Census Operations, Uttar Pradesh, Dr. Ranbir Singh, under whose guidance, the entire operations were carried out deserves all credit for its success, but he was repatriated to the State Government for taking up some other important assignments before the volume could be made available for the printing. I am also thankful to Shri R. K. Singh, Ex-Joint Director and Shri S.S.A. Jafri, Deputy Director for their valuable guidance and support to complete this project within specific time frame. The task of data collection in respect of both Census and non-census items was a gigantic on which officials in the State Government had to perform along with their normal duties. For their deep sense of devotion to duty and hard work in this regard, I am thankful to all of them.

The preparation of District Census Handbook was done under the supervision and guidance of Shri B.K. Srivastava, Deputy Director of Census Operations and his team of dedicated workers deserve all praise for their perseverance and dedication in preparing for Camera Ready Copy of District Census Handbook.

I am also thankful to Shri Mohan Pandey, Ex-Deputy Director, Shri J. Majhi, Assistant Director, Shri M.M. Pandey, Dr. S.S. Sharma S.I. Grade-I and Shri S.K. Banerjee, S.I. Gr. II who assisted in the work for timely completion of the project. S.I.Gr.II, S.I.Gr.III, Sr.Compilers, Compilers, Data Entry Operators and Assistant Compilers who assisted in the work also did a tremendous job. Shri A.M. Ansari, Deputy Director (EDP) and his team of devoted workers deserve all praise for timely processing of Household Schedule through Image Based Data Capturing Technology i.e. Scanning. The members of the staff in the Map Section did a commendable job under the guidance of Shri Dashrath Singh, Research Officer (Map) in bringing out various maps.

# ANALYTICAL NOTE

# Analytical Note

## (i) History and Scope of the District Census Handbook

The district census handbooks were first published after 1951 Census. Since then after every decadal census the publication has remained a constant feature with some improvements. This publication has been traditionally brought out by the Census Organization on behalf of each State Government/ Union Territory. This publication provides data on demographic characteristics as well as information on the availability of basic amenities in each village and town of respective districts. The scope of the publication has been changing with the changing needs of the data users. The 1951 Census series of the publication contained Primary Census Abstract, Village and Town Directories, administrative statistics and an account of the district. In 1961 the publication was in a single volume containing three parts covering Census tables, official statistics and Village Directories. The 1971 Census DCHBs were published in 2 parts. The Part A contained Village and Town Directories and Part B contained Village and Town PCA. The Part C could not be published in many States/UTs which contained administrative statistics and district census tables. The 1981 DCHBs were published on the restructured formats of Village and Town Directories. The DCHBs of 1981 Census were published in 2 parts for each district. The Village and Town Directories comprised Part 'A' and PCAs of Villages and Towns (ward-wise) including Scheduled Castes and Scheduled Tribes PCA up to Tahsil/Town level were provided in Part 'B'. If any amenity except electricity was not available in the referent village, the distance in broad ranges from the nearest place having such amenities was given. Information on some new items were also provided keeping in view of the needs of the Revised Minimum Needs Program. The 1991 DCHBs were almost same in scope as was at 1981. The new features included in 1991 DCHBs were the ninefold industrial classification of main workers and the sex-wise population in the 0-6 age group. Yet other information at the 1991 census was the CD Block level presentation of data. The VD data was also made available through the magnetic tapes/ floppies. Unfortunately in UP no DCHBs relating to 1991 Census were out of press till completion of 2001 Census defeating the very purpose of these publications apart from causing inconveniences to the data users.

The 2001 DCHBs contain more information such as details on greater number of facilities available to the Villages/Towns. The analysis of data with aid of inset tables and statements is more informative. The 2001 DCHBs are fully geared to meet the requirements of Gram Panchayats. At the 2001 Census the DCHBs are entirely available on electronic format and on CD-ROM, hence the word "Handbook" seems now to be a misnomer.

## (ii) Brief History of the District

Baghpat is a new district created after 1991 Census in the year 1997 and named after erstwhile Baghpat tahsil of Meerut district. No historical/ chronological events are available separately for the present district. In fact, its history is in consonance with that of Meerut district.

The history of the Baghpat is closely associated with the history of Meerut. Baghpat is presumed to be one of the five villages that are mentioned in the holy epic of Mahabharata. There are many versions of the story as to how the city derived its name. One version states that the city's original name was "VYAGPRASTH" – land of Tigers. According to another version, the name of the city was derived from Hindi word 'VAKYAPRASTH', which means place of delivering speeches. Inspired by such words and versions, the city was finally named BAGHPAT or BAGPAT during the Mughal Era. Being a part of district Meerut since long, the district finds mention in historical legends as far as approximately 6000 years ago. The archaeological excavations in Hastinapur and Rajpur Parsan indicate that illustrious Indus Valley culture thronged in this area too. Thus the origin of this district may go back to pre-historic age. The excavations in Alamgir village on the banks of the river Hindon in 1958 very clearly indicate that when Aryan's subjected this area, it could have been a tribal habitat. The Greek Historians of the second century call this area as 'BASTINOPORA'

(Hastinapur) which indicates that even during the ancient times, this area was accorded international recognition. Much earlier than that around 600 BC it formed a part of the sixteen great Mahajanpads of Northern India. Later on, the part of the area was annexed which formed part of the kingdom of Chandra Gupta Maurya. This area was ruled by the famous Saka dynasty till about 200 BC when the 'Yayudhas' overthrew them. During their rule of about 80 years, the boundaries of their kingdom touched fringes of Eastern Punjab. The 'Kustaianas' ousted the Yayudhas and ruled over for about 40 years, after which Yayudhas again came back to power. In the subsequent period, Samudragupta subjugated the area. In the sixth century Kannauj rulers ruled in this region bellowed by illustrious Harshvardhana. In 9th and 10th centuries, Pratiharas became very powerful and overthrew the rule of Tomars and in the closing days of Hindu period, the famous Chauhans ruled here. The area was being ruled by almost every famous dynasty of Hindu period. In subsequent periods, Pratiharas were replaced by Chauhans.After the defeat of Prithviraj Chauhan in 1192, the Muslim Sultanate made its first inroads in this area. After the first Sultan Qutub-ud-din Aibak, area was under Sultan Babbar. The periods of Khilji and Tuglaq dynasty saw the beginning of repression and reaction in this area. Allaudin Khilji imposed very heavy taxes on the inhabitants of the area. During 1398 Taimur invaded the area of the present district and butchered a vast number of people here. Again, the area was under Sayyed rulers during 1451 when Sultan of Jaunpur Husain Sharif attached Meerut and Bahlol Lodi made a compromise with him.

After the battle of Panipat, the area came under the first Mughal emperor Babar in 1526. After a brief span of Shershah Suri's regime from 1540 to 1545, Humaun regained this area. Akbar the great sowed the seeds of evolution of Hindu-Muslim culture. In 1739, Nadir Shah's invasion again shook the peace of freedom loving people of this area, Nadir's army looted Meerut and committed enormous atrocities in the area. In 1803, the area of the present district was handed over to East India Company.

As history repeats itself, the freedom loving people of the area have been instrumental leading ones in the revolt of 1857 by sparking of its first embers from Meerut. After the mutiny of 1857, the city gained importance and was established the headquarters of tahsil Baghpat. Basically, it was a small town with dense commercial activity known as Mandi. This Mandi is now 200 years old. It is said that it was established by Zabita Khan, son of Ruhela chief of Nazibabad (Bijnor) Najib Khan.

### (iii) Administrative Setup

The district Baghpat is located in the western plain of Uttar Pradesh. The district is administratively divided into three Tahsils, eight statutory Towns and 237 Gram Sabhas. During the period 1991-2001, a new district named-Baghpat has been carved out from the area of district Meerut.

**Jurisdictional Changes during 1991-2000**

| Name of district/Tahsil | Jurisdictional Changes | |
|---|---|---|
| | Added | Substracted |
| 1. Baraut Tahsil | (i) 63 villages and two towns of Sardhana tahsil of Meerut District. (ii) 87 villages and two towns of Baghpat tahsil | NIL |
| 2. Baghpat Tahsil | 55 villages and two towns remained in this tahsil | (i) 87 Villages and 2 towns transferred to Baraut tahsil. (ii) 109 villages and 2 towns transferred to Khekra tahsil |
| 3. Khekra Tahsil | 109 villages and two towns transferred from Baghpat tahsil | NIL |

## District Administration :

District administration comprises of Revenue, Development, Police (Law and Order), Judiciary, district level officers of different departments and Local self-government. District Magistrate is in-charge of revenue administration. He is assisted by Additional District Magistrate, Finance and Revenue i.e. ADM (F& R). At the tahsil level Sub Divisional Magistrate is in-charge, who is now redesignated as Up-Zila Adhikari. He is assisted by Tahsildars in each tahsil and for revenue collection each tahsil is further entrusted to Naib Tahsildars and Qanoongos circles respectively. For each revenue village, Lekhpal is in-charge. Chief Development Officer and District Development Officer are in-charge for development activities in the district. The other district level officers like- Health, Panchayat Raj, Electricity, Transport, Irrigation, Jal Nigam, Animal Husbandry, Harijan and Samaj Kalyan, Agriculture, horticulture, PWD, etc. At Community Development Block levels are Block Development Officer (BDO) and Assistant Development Officers and Village Development Officers at village level.

Development Officer are in-charge for development activities in the district. The other district level officers like- Health, Panchayat Raj, Electricity, Transport, Irrigation, Jal Nigam, Animal Husbandry, Harijan and Samaj Kalyan, Agriculture, horticulture, PWD, etc. At Community Development Block levels are Block Development Officer (BDO) and Assistant Development Officers and Village Development Officers at village level.

Under the police set-up Senior Superintendent of Police in big districts and Superintendent of Police in smaller districts are incharge. Deputy Superintendent of Police (DSP) look-after the Thanas allotted to them. Police Inspector and Sub-Inspector are in-charges of their police stations depending upon the population and area. The judiciary system of the district consists of District Judge, Additional District Judge and Session Judge, Civil Judge, Assistant Session Judge and Munsif Magistrate.

The Nucleus of the district body for self government is consisted of Mayor and Mukhya Nagar Adhikari (MNA) in the case of Nagar Nigam, Chairman, Executive Officer in Nagar Palika Parishad and Nagar Panchyat. Chairman District Board and Gram Pradhan in Panchayats and Pramukh of Kshetra Samiti etc. come under Local self-government.

**(iv) Physical Features**

**Location and Size :**

The district is situated on the Doab of Yamuna and Hindon on the western side of the State. It is 50 kms away from Meerut and around 40 kms away from Delhi-Saharanpur Highway. It lies between latitude 28° 47' and 29° 18' North latitude and 77° 8' and 77° 30' East longitude. River Yamuna forms the western boundary and separates it from the Rohtak and Karnal districts of Haryana state. Hindon river divides the boundaries of the district Baghpat and Meerut in the east, on the north lies Muzaffarnagar and the southern boundary fringes to the district Ghaziabad. Total area of the district is 1321 sq.kms. The shape of the district is like betel leaf.

**Physiography :**

The district is situated in the Doab of Yamuna and Hindon rivers, the district is almost alluvial plain and rectangular in shape has a slight slope from north to south. The whole of the district is a well cultivated plain and there is no uneven ground except in the area of ravines near the river valleys and the scattered Bhur ridges in the upland tract. The whole district is a tract of extra ordinary fertile soils. On the basis of geology, the district may be divided into three parts.

Khadar (lowland) of the river Hindon and Yamuna are in the east and west respectively. Yamuna Khadar region extends along the Yamuna river in a fringe shape. This marks the limit on the western side. There is a great impact of Yamuna river on the topographical feature of the region. Geologically region belongs to Alluvium, Dungravels of recent origion.

Central part of the Hindon region (Hindon) covers major part of Baghpat and slope towards south. This is the main river in the region, which flows through the region and meets the Yamuna beyond the district. The area is flat with very little variation in slope. Physiographically the area is dull. There are patches of rugged surface along the river in the southern part.

Doab of the rivers Hindon and Yamuna includes the major part of tahsils of Baghpat. The track in general is the most fertile portion of the district consisting of rich and almost to any soil and is flanked by belts of poor soil. The northern portion of the track contains alluvial soils of excellent fertility but the southern part is made up of streches of inferior land, mostly adjacent to the Yamuna which produces poor grasses only.

**Drainage :**

The river Yamuna and the Hindon are the main rivers of the district. In addition to this the Krishna river also flows through the district. This river is also important river. It provides water during rainy season only. Aluwalpur drain is a tributary of river Yamuna. The general direction of flow is from north to south. After flowing through the Yamuna Khadar, it falls into the Yamuna river near Baghpat. More than 90 per cent of the land of the district is level plain, therefore, there is no problem of drainage.

**Climate :**

The area has climatic variations of extreme kind, ranging from extremely hot in summer and extremely cold in winter. The temperature starts rising from the beginning of March signifying the onset of summer. The western winds locally known as 'Loo' begin to blow from April last. The heat is maximum

in May and June when the temperature shoots upto 46° C. January is the coldest month when the minimum temperature goes down to 4° C. Season of monsoon is humid. Thus the region goes through various seasonal vagaries. The average rainfall is more than 720 mm as per district statistics 2000-2001.

| Year | Normal | Actual(mm) |
|---|---|---|
| 1994 | 768 | 1,035 |
| 1995 | 768 | 967.2 |
| 1996 | 768 | 875 |
| 1997 | 768 | 817 |
| 1998 | 768 | 825 |
| 1999 | 768 | 450 |

Thunderstorms occur in the summer and monsoon seasons, their frequency is higher in the month of June and in September. Dust storms are common in the summer afternoons.

**Natural Economic Resources**

**Forestry :**

As per land use data, the district had 1525 hectares area of forest during 2001-2002 which comes 1.13 per cent of the total area. The maximum forest area was 596 hectares in CD Block Binauli followed by 335 hectares in CD Block Pilana and the least 83 hectares was in CD Block Chhaprauli the area shown above comes under social forestry scheme. There are no reserve forests in the district and forestry is not so economically viable in this district. The important trees found here are shisham, mango, eucalyptus, guava and babul etc. Safeda mango is internationally famous. In addition to archards of mango, guava and aaroo other fruit gardens are available in the district. Grape farming is being motivated by Government.

**Minerals and Mining :**

No important minerals are found in the district. However along river bed stone, sand in abundance is available which is being used as construction material.

**Soil :**

The soil is highly fertile and rich. The Yamuna-Hindan Doab track in general is the most fertile portion of the district consisting of rich and almost uniformally loamy soil and is flanked by belts of par soil. Sandy soil is found in the Yamuna khadar as well as bhur soil is scattered over the bank of river Hindon and hard soil is found in the middle part.

**Land and Land use Pattern :**

The land level is plain and is most fertile with a slope of north to south. The analysis of the land use statistics reveals that out of total recorded area of 134,531 hectares during 2001-2002, cultivable barren land was 1,807 hectares, land used for other than agriculture was 15,051 hectares, current fallow 1,211 hectares, other fallow 2,241 hectares. Forest covered area was 1,525 hectares, Usar and uncultivable land was 1,871 hectares. Fodder is covered in 68 hectares, orchards and groves 176 hectares. The net area of the land sown was 110,581 hectares, wheat was sown in 57,709 hectares area and rice was sown in 5,949 hectares area. The land holdings are generally small in size. Out of the total land during 1995-96 the total number of land holdings in size of less than 0.5 hectares was 40,809 and 0.5 to 1 hectare was 20,852.

**Agriculture and Crop Pattern :**

Agriculture in the district is the mainstay of the population. Rabi, Kharif and Zaid are the main crops. The main crops of rabi are wheat, barley, potato, sugarcane, pulses (masoor, gram, peas & arhar), Oilseeds etc and Kharif crops include paddy, maize, urad, moong etc. Among Zaid Maize, Vegetables are more common. Tobacco and Cotton are also grown up as cash crops in the district. Sugarcane is produced in plenty in CD Block Banauli of tahsil Baraut. Of the total area available for cultivation, nearby half of the area is used as double cropped area. The district statistics 2001-2002 shows that wheat was practiced upon 57,709, peas 97 and gram 112 hectares respectively. The Kharif crop under Maize was 1,047 hectares, Bajra 673 hectares and Paddy 5,949 hectares. Wheat and sugarcane are the main important crops of the district. The use of fertilizer and modern methods of cultivation in the district have enhanced productivity of crops in the district. High yielding variety Maxican seeds of wheat, paddy and maize have enhanced productivity manifolds.

Production of fruits and vegetables in the district bear same significance as in case of foodgrains. The fruits and vegetables are exported to Meerut and Delhi. The area under orchards accounted to 176 hectares during the year 2001-2002.

Under plant production programme there are 6 insecticide depots. Mandi Samiti in the district is well organized, where cultivators bring their products for sale. There as 8 cold storages. Potato is the main product mostly stored here. Besides these there were 154 seed stores/ fertilizer depot, 65 rural godowns and 5 agriculture service centres during 2002-03.

**Irrigation :**

The irrigation network include canals, tube-wells, wells, pumpsets etc. The main source of irrigation in the district is tube-well. 74 per cent area of land is irrigated by tube-well alone, the other source of irrigation is canal. During 2002-03 the length of canal was 435 kms. The number of Government tube-wells were 272. Private tube-wells 18,469 and pump sets were 10,239, 54 wells and 66 persian wheels. As per land use data during 2001-2002 the gross area irrigated by above sources was 110190 hectares and the net area irrigated was 174,610 hectares. Irrigation through private tubewell accounted 98,569 hectares, followed by canals 9,357 hectares and government tubewell only 2,255 hectares.

**Animal Husbandry :**

Animal husbandry supplements income from agriculture. From this substitute nutritional food, and leather is obtained as raw material. On the basis of cattle census 1997 the total number of cattle in the district was 485,950, out of which cows 111,355, buffalos were 312,988, sheep-goats 29,366, horse and pony 2,358, pigs 21,949 and 7934 were other animals. In addition to this cock-hen accounted for 44,476 while total poultry birds 44,780.

In order to increase production of animals, the district administration has implemented programmes of health care, and improvement in breeds etc. The government has so far established 14 veterinary hospitals, 32 animal service centres and 45 artificial insemination centers and sub-centers, in the district during 2002-03.

**Fishery:**

Fishery in the district has not been beneficial as compared to agriculture. There are three government owned ponds, one in Baraut and the other two in Baghpat covering an area of four hectares. Government is all set to boost fish production in the district for which fingerlings numbering 500 thousand in Chapprauli, 1100 thousand fingerlings in Baraut, 1600 thousand in Baghpat, 1600 thousand in Pilana, 300 thousand in Khekra and 2000 thousand fingerlings in Binauli had been distributed to private entrepreneurs during 2002-03.

**Industry :**

Industry plays an important role in the socio-economic development of the district. The industry department is providing facilities for the development of industry in the towns of Baghpat, Baraut and Khekra. There are 3 sugar mills under big industry, the famous one are located in Baghpat, Malkupur and Ramala. Baraut town is famous for the production of agricultural equipment. Here are many industries for manufacturing of Buggi (Dunlop-Gaddi) in this town, most of the products in the industry are comparable to international quality. The district is also leading in the production of sugarcane. As an aid to boost sugarcane production, spare parts of Khandsari units and thrasher parts are manufactured here. One food preservation centre has also been established, which is located in Baraut. In this centre 40,000 Kg of fruit and vegetables have been canned/preserved. During the year 2002-03, 262 small scale industries were also operational by different organizations. The small scale units basically pertain to engineering goods, handicrafts and handlooms etc. Industrial estate comprise 28 and produced goods worth Rs. 80,000 in the year 1997-98. Brick kilns are most common. Bricks here are supplied to the neighbouring district also. Baghpat town has a factory for manufacturing of equipments for paper mills. The unit namely Baghpat Industries Ltd. is the sole manufacturer of such machines in India. This unit has been awarded prizes by UP Government for producing import substitute machinery which has saved considerable foreign exchange for the country.

**Trade and Commerce :**

Banks play an important role in the socio-economic development of the district; as it gives loans for the development of multi-purpose projects. Syndicate Bank is the lead bank of the district. There are 54 branches of nationalized banks in the district, out of which 22 branches were in urban areas while 32 branches were in rural areas. The important commodities under trade are Khandsari, Sugar, Agricultural Implements, Handlooms and Handicrafts. Medicines, ready made garments, salt etc. Delhi, Ghaziabad, Muzaffarnagar, Agra and Meerut are the important trade centres from where imports and exports take place.

**Transport :**

The district is served by rails as well as by roads. The broad gauge railway track runs to a total length of 47 kms in the district. Number of railway stations including halts are 13. Out of which 10 are in rural areas and 3 in urban areas.

Number of bus stations/bus stops are 101, out of which 83 are in rural areas and 18 in urban areas. State Transport Corporation have played an important role in providing services of the buses of corporation on important routes. On the other routes services of private buses/taxis have also been provided. The district is served by a total length of 1049 kms by metalled road, out of which 703 kms metalled road have been constructed by P.W.D., 199 kms by local bodies and 147 kms by other departments during 2001-02.

**Electricity and Power :**

Electricity is primary infrastructure facility required for the development of economy of the district. The regular supply of electricity is required to operate tube-wells as well as in industry for the production. The neccessity of electricity has become part and parcel of the life of people. The district statistics 2002-03 shows that the total villages electrified in the district are 287. Out of the total consumption of electricity, 123,685 thousand kwh for agriculture, 10,060 thousand kwh for industry, 870 thousand kwh for street light, 10,060 thousand kwh for domestic use, 1,290 thousand kwh for public water supply and sewerage system. 337 Harijan colonies have also been electrified.

**Gram Panchayat, its composition, jurisdiction and role in village development :**

A Gram Panchayat acts as the executive of the Gram Sabha. The members of the village or Gram Panchayat are elected by the members of the Gram Sabha. The members of the Gram Sabha generally elect a small committee of 7 to 15 members from among themselves who constitute the village Panchayat. It is necessary that the village Panchayat should have a member belonging to the scheduled caste and also a woman member. It they are not elected, then the government itself appoints two such members. The village Panchayat is the sole body which looks after the various problems of the village and takes steps to improve the condition of the villagers. The number of Gram Panchayats in the district is 237.

Formerly the term of the Gram Panchayat differed from state to state. Tenure of the elected gram panchyat ranged between three to five years. The new Panchayat Raj Act of 1993 has fixed a uniform five year term for every Panchayat. It can also be dissolved earlier by the State Government, if it fails to perform its duties faithfully. A Pradhan (President) may be removed from office if two-third 'Panch' vote against him. But in such a case the sanction of the district authorities must be obtained before hand. The Panchayat normally meets once in a month. If need be, an emergency meeting can also be called by the Pradhan. Decisions are taken by the majority vote. In case of a tie the Sarpanch can also use his casting vote.

In order to be elected to a village Panchayat, a candidate should possess the following qualifications:

He should be a resident of the village concerned and his name should be in the voter's list of the village.

He should be twenty five years old.

He should be mentally and physically sound.

He should not be a proclaimed offender.

The members of the Gram Panchayat elect a Pradhan (President) and a up-Pradhan (Vice President) from amongst its own members. They may have some elderly members forming a special committee to make the working of the Panchayat more smooth and meaningful. All these people are honorary and do not get any pay. A paid Secretary to the Panchayat is appointed by the district authorities in consultation with the Panchayat concerned. A Treasurer may also be appointed if the Panchayat is larger and much account has to be obtained.

A Gram Panchayat is entrusted with various social, economic and judicial functions:

It provides civic amenities to the people of the village.

It gets a primary school opened in the village and supervises its work.

It looks after the cleanliness of the village. Drains for waste water are also constructed by the Panchayat in the village.

It gets the Primary Health Centre opened in the village. The Panchayat has also to provide land and building for such a centre.

It gets metallic roads built from the village to the nearest main road leading to a market place with the help of the Public Works Department of the district.

It arranges for sufficient irrigational facilities, improved seeds, insecticides, chemical fertiliser, improved implements and other such facilities with the help of the Block Development Officer of the area for the uplift of agriculture.

It manages and maintains the common property of the village.

In some states, the Gram Panchayat enjoys also certain judicial powers. It decides petty civil and criminal cases and can impose fines upto Rs. 100.

The State Government determines the number of Gram Pradhan according to the population of the village. In 1999-2000 the number of Gram Panchayats in Baghpat were 237.

**(v) Census Concepts**

**Building :**

A 'Building' is generally a single structure on the ground. Sometimes it is made up of more than component unit which are used or likely to be used as dwellings (residences) or establishments such as shops, business houses, offices, factories, workshops, worksheds, Schools, places of entertainment, places of worship, godowns, stores etc. It is also possible that building which have component units may be used for a combination of purposes such as shop-cum-residence,workshop-cum-residence,office-cum-Residence, etc.

Usually a structure will have four walls and a roof. But in some areas the very nature of construction of houses is such that there may not be any wall. Such is the case of conical structures where entrance is also provided but they may not have any walls. Therefore, such of the conical structures are also treated as separate buildings.

**Permanent houses**

Houses, the walls and roof of which are made of permanent materials. The material of walls can be any one from the following, namely, galvanized iron sheets or other metal sheets, asbestos sheets, burnt bricks, stones or concrete. Roof may be made of from any one of the following materials, namely, tiles, slate, galvanized iron sheets, metal sheets, asbestos sheets, bricks, stones or concrete.

**Semi-permanent houses**

Houses in which either the wall or the roof is made of permanent material and the other is made of temporary material.

**Temporary houses**

Houses in which both walls and roof are made of materials, which have to be replaced frequently. Walls may be made from any one of the following temporary materials, namely, grass, thatch, bamboo, plastic, polythene, mud, unburnt bricks or wood. Roof may be made from any one of the following temporary materials, namely, grass, thatch, bamboo, wood, mud, plastic or polythene.

**Room**

A room should have four walls with a doorway with a roof over head and should be wide and long enough for a person to sleep in, i.e., it should have a length of not less than 2 metres and a breadth of at least 11/2 metres and 2 metres in height. A room, however, which is used in common for sleeping, sitting, dining, storing and cooking, etc., should be regarded as a room. An unenclosed verandah, kitchen, store, garage, cattle-shed and latrine and rooms in which a household industry such as a handloom is located, which are not normally used for living or sleeping are excluded from the definition of a living room for the purpose of this question.

One is likely to come across conical shaped hut or tent in which human beings reside. In such improvised accommodation, there will be no four walls to a room and therefore, the above definition would not strictly apply to such types of accommodation. In such cases, the tent or conical hut etc., have been construed to be a room. In certain parts of the country, particularly in rural areas, the pattern of housing may present some problems. For example, a household may be in occupation of several huts put to different uses such as main residence, sitting room, store and even for sleeping at night. By strict application of the definition each one will be reckoned as a census house, but this does not reflect the real situation. While huts used as store or cattle shed pose no problems, those used as sleeping rooms beyond the main residence, should be counted as rooms rather than separate census houses.If a garage is used by a servant and he lives in it as a separate household, it should be reckoned as a room available to the servant's household. If the servant is considered as a member of the household then the garage room should be reckoned as an additional room of the household

**Dwelling Room**

A room is treated as a dwelling room if it has walls with a doorway and a roof and should be wide and long enough for a person to sleep in, i.e. it should have a length of not less than 2 meters and a breadth of at least 1.5 meters and a height of 2 meters. A dwelling room would include living room, bedroom, dining room, drawing room, study room, servant's room and other habitable rooms. Kitchen, bathroom,

latrine, store room, passageway and verandah which are not normally usable for living are not considered as dwelling rooms. A room, used for multipurpose such as sleeping, sitting, dining, storing, cooking, etc., is regarded as a dwelling room. In a situation where a census houses is used as a shop or office., etc., and the household also stays in it then the room is not considered as a dwelling room. But if a garage or servant quarter is used by a servant and if she/ he also lives in it as a separate household then this has been considered as a dwelling room available to the servant's household. Tent or conical shaped hut if used for living by any household is also considered as dwelling room. A dwelling room, which is shared by more than one household, has not been counted for any of them. If two households have a dwelling room each but in addition also share a common dwelling room, then the common room has not been counted for either of the households.

**Census house**

A 'census house' is a building or part of a building used or recognised as a separate unit because of having a separate main entrance from the road or common courtyard or staircase, etc. It may be occupied or vacant. It may be used for residential or non- residential purpose or both.

In certain peculiar situations, the manner in which buildings and census houses were identified for numbering in the field by the enumerators is described hereunder:

Sometimes a series of different buildings are found along a street which are joined with one another by common walls on either side looking like a continuous structure. These different units are practically independent of one another and are likely to have been built at different times and owned by different persons. In such cases, though the whole structure with all the adjoining units apparently appears to be one building, each portion was treated as a separate building and its constituent units as separate census houses.

On the other hand, one may come across cases, particularly in large cities of multi-storeyed ownership flats. In these cases while the structure looks like one building, different persons own the flats. In case of such multi-storeyed structures, having a number of flats owned by different persons, the entire structure was treated as one building and each flat as a separate census house.

If within a large enclosed area, there are separate buildings owned by different persons then each such building is treated as a separate building. There can be a situation where within an enclosed compound there are separate buildings owned by an undertaking or company or even government that are actually in occupation of different persons. For example, Indian Oil Corporation colony where the buildings are owned by the Corporation but these are in occupation of their employees. Each such building was treated as a separate building. But if in any one of these buildings there were flats in occupation of different households, each such flat was reckoned as a separate census house.

Sometimes it becomes difficult to apply the definition of census house strictly in certain cases. For example, in an urban area, if a flat has five rooms, each room having direct entrance from the common staircase or courtyard. By definition, this has to be treated as five census houses. If all these five rooms are occupied by a single household it was not realistic to treat them as five census houses. In such a case, 'singleness' of use of these rooms along with the main house should be considered and the entire flat was treated as one census house.On the other hand, if two independent households occupy these five rooms, the first household living in 3 rooms and the second household occupying 2 rooms, then considering the use, the first three rooms together were treated as one census house and the remaining rooms as another census house. But if each room was occupied by an independent household, then each such room was treated as a separate census house.

In case of hostels, hotels, etc., even if the door of each room in which an inmate lives opens to a common verandah, staircase, courtyard or a common room, as it happens almost invariably, the entire hostel/ Hotel building was treated as one census house. but if such hostels/hotels have out-houses or other structures used for different purposes or the same purpose, then each such structure attached to the main hostel / hotel was treated as a separate census house.

In some parts of the country, in rural areas, the pattern of habitation is such that a group of huts, located in a compound, whether enclosed or unenclosed, is occupied by one household. While the main residence may be located in one hut, other huts may be used for sleeping, as a kitchen, bath room, baithak, etc. Though each of the huts was a separates structure, they form a single housing unit and therefore, have to be treated collectively as one building and one census house. If some of the huts are used by one household and the others by a second household as residence, then the two groups of huts were treated as separate census houses. However, if there were also other huts in the compound used for other purposes and not as part of the household's residence such as, cattle shed, workshed, etc., these were treated as separate census houses.

On the other hand, in urban areas, where more than one structure within an enclosed or open compound (premises) belonging to the same person,

e.g., the main house, the servant's quarter, the garage, etc., only one building number was given for this group and each of the constituent a separate census house number.

Only cases where a structure with roof and pillars has come up was treated as a building.

**Village**

The basic unit for rural areas is the revenue village, which has definite surveyed boundaries. The revenue village may comprise of one or more hamlets but the entire village is treated as one unit for presentation of data. In unsurveyed areas, like villages within forest areas, each habitation area with locally recognized boundaries is treated as one village.

**Rural-Urban area**

The data in tables on Houses, Household Amenities and Assets are presented separately for rural and urban areas. The unit of classification in this regard is 'town' for urban areas and 'village' for rural areas. In the Census of India 2001, the definition of urban area adopted is as follows:

a) All places with a municipality, corporation, cantonment board or notified town area committee, etc.

b) A place satisfying the following three criteria simultaneously:

   i) a minimum population of 5,000;

   ii) at least 75 per cent of male working population engaged in non-agricultural pursuits; and

   iii) a density of population of at least 400 per sq. km.(1,000 per sq.mile)

For identification of places which would qualify to be classified as 'urban' all villages, which, as per the 1991 Census had a population of 4,000 and above, a population density of 400 persons per sq. km. and having at least 75 per cent of male working population engaged in non-agricultural activity were considered. To work out the proportion of male working population referred to above against b) (ii), the data relating to main workers were taken into account.

Apart from these, the outgrowths (OGs) of cities and towns have also been treated as urban under 'Urban Agglomerations'. Examples of out-growths are railway colonies, university campuses, port areas, military camps, etc., that may have come up near a statutory town or city but within the revenue limits of a village or villages contiguous to the town or city. Each such individual area by itself may not satisfy the demographic criteria laid down at (b) above to qualify it to be treated as an independent urban unit but may deserve to be clubbed with the towns as a continuous urban spread. Thus, the town level data, wherever presented, also includes the data for outgrowths of such towns.

**City**

Towns with population of 1,00,000 and above are called cities.

**Urban Agglomeration**

An Urban Agglomeration is a continuous urban spread constituting a town and its adjoining urban outgrowths (OGs) or two or more physically contiguous towns together and any adjoining urban outgrowths of such towns. In some cases railway colonies, university campuses, port areas, etc., may come up near a city or statutory town outside its statutory limits but within the revenue limits of a village or villages contiguous to the town or city. Each such individual area by itself may not satisfy the minimum population limit to qualify it to be treated as an independent urban unit but may deserve to be clubbed with the town as a continuous urban spread.

For the purpose of delineation of Urban Agglomerations during Census of India 2001, following criteria are taken as pre-requisites:

(a) The core town or at least one of the constituent towns of an urban agglomeration should necessarily be a statutory town; and

(b) The total population of all the constituents (i.e., towns and outgrowths) of an Urban Agglomeration should not be less than 20,000 (as per the 1991 Census).

With these two basic criteria having been met, the following are the possible different situations in which Urban Agglomerations would be constituted:

i) a city or town with one or more contiguous outgrowths;

ii) two or more adjoining towns with their outgrowths; and

iii) A city and one or more adjoining towns with their outgrowths all of which form a continuous spread.

**Household**

A 'household' is usually a group of persons who normally live together and take their meals from a common kitchen unless the exigencies of work prevent any of them from doing so. Persons in a household may be related or unrelated or a mix of both. However, if a group of unrelated persons live in a census house but do not take their meals from the common kitchen, then they are not constituent of a common household. Each such person was to be treated as a separate household. The important link in finding out whether it was a household or not was a common kitchen. There may be one member households, two member households or multi-member households.

**Institutional household**

A group of unrelated persons who live in an institution and take their meals from a common kitchen is called an Institutional Household. Examples of Institutional Households are boarding houses, messes, hostels, hotels, rescue homes, jails, ashrams, orphanages, etc. To make the definition more clearly perceptible to the enumerators at the Census 2001, it was specifically mentioned that this category or households would cover only those households where a group of unrelated persons live in an institution and share a common kitchen.

**Houseless household**

Households who do not live in buildings or census houses but live in the open on roadside, pavements, in hume pipes, under fly-overs and staircases, or in the open in places of worship, mandaps, railway platforms, etc., are treated as Houseless Households.

**Scheduled Caste and Scheduled Tribe**

Article 341 of the Constitution provides that the President may, with respect to any State or Union territory, specify the castes, races or tribes or parts of or groups within castes, races or tribes which shall for the purposes of the Constitution be deemed to be Scheduled Castes in relation to that State or Union territory. Article 342 similarly provides for specification of tribes or tribal communities or parts of or groups within tribes or tribal communities which are to be deemed for the purposes of the Constitution to be Scheduled Tribes in relation to the various States and Union territories. In pursuance of these provisions, the list of Scheduled Castes and / or Scheduled Tribes are notified for each State and Union territory and are valid only within the jurisdiction of that State or Union territory and not outside.

It is important to mention here that under the Constitution (Scheduled Castes) Order, 1950, no person who professed a religion different from Hinduism was deemed to be a member of a Scheduled Caste in addition to every member of the Ramdasi, Kabirpanthi, Majhabi or Sikligar caste resident in Punjab or Patiala and East Punjab States Union were in relation to that State whether they professed the Hindu or the Sikh religion. Subsequently, in September 1956, by an amendment, the Presidential Order of 1950 and in all subsequent Presidential Orders relating to Scheduled Castes, the Hindu and the Sikh religions were placed on the same footing with regard to the specification of Scheduled Castes. Later on, as per the amendment made in the Constitution (Scheduled Castes) Order 1990, the Hindu, the Sikh and the Buddhist were placed on the same footing with regard to the recognition of the Scheduled Castes.

The list containing the names of the Scheduled Castes and the Scheduled Tribes applicable for the Census of India 2001 in the State are given below:

**Scheduled Castes**

| | | | |
|---|---|---|---|
| 1 | Agariya | 37 | Gual |
| 2 | Badhik | 38 | Habura |
| 3 | Badi | 39 | Hari |
| 4 | Baheliya | 40 | Hela |
| 5 | Baiga | 41 | Kalabaz |
| 6 | Baiswar | 42 | Kanjar |
| 7 | Bajaniya | 43 | Kapariya |
| 8 | Bajgi | 44 | Karwal |
| 9 | Balahar | 45 | Khairaha |
| 10 | Balai | 46 | Kharwar (excluding Banbasi) |
| 11 | Balmiki | 47 | Khatik |
| 12 | Bangali | 48 | Khorot |
| 13 | Banmanus | 49 | Kol |
| 14 | Bansphor | 50 | Kori |
| 15 | Barwar | 51 | Korwa |
| 16 | Basor | 52 | Lalbegi |
| 17 | Bawariya | 53 | Majhwar |
| 18 | Beldar | 54 | Mazhabi |
| 19 | Beriya | 55 | Musahar |
| 20 | Bhantu | 56 | Nat |
| 21 | Bhuiya | 57 | Pankha |
| 22 | Bhuyiar | 58 | Parahiya |
| 23 | Boria | 59 | Pasi, Tarmali |
| 24 | Chamar, Dhusia, Jhusia, Jatawa | 60 | Patari |
| 25 | Chero | 61 | Rawat |
| 26 | Dabgar | 62 | Saharya |
| 27 | Dhangar | 63 | Sanaurhiya |
| 28 | Dhanuk | 64 | Sansiya |
| 29 | Dharkar | 65 | Shilpkar |
| 30 | Dhobi | 66 | Turaiha |
| 31 | Dom | | **Scheduled Tribes** |
| 32 | Domar | 1 | Bhotia |
| 33 | Dusadh | 2 | Buksa |
| 34 | Gharami | 3 | Jaunsari |
| 35 | Ghasiya | 4 | Raji |
| 36 | Gond | 5 | Tharu |

**Language and Mother tongue :**

As per the census concept, each language is a group of mother tongues. The census questionnaire collects information on the mother tongue of each person and mother tongue is defined as the language spoken in childhood by the person's mother to the person. If the mother died in infancy, the language mainly spoken in the person's home in childhood will be the mother tongue. In the case of infants and deaf mutes, the language usually spoken by the mother is considered as mother tongue. It is not necessary that the language spoken as mother tongue

should have a script. The mother tongues returned by the respondents in census are classified and grouped under appropriate languages according to their linguistic characteristics.

**Literate**

A person age 7 years and above who can both read and write with understanding in any language is taken as literate. A person who can only read but cannot write is not literate. It is not necessary that to be considered as literate, a person should have received any formal education or passed any minimum educational standard. Literacy could also have been achieved through adult literacy classes or through any non-formal educational system. People who are blind and can read in Braille are treated as literates.

**Literacy rate**

Literacy rate of the population is defined as the percentage of literates in the age group seven years and above. For different age groups the percentage of literates in that age group gives the literacy rate.

**Educational level**

The highest level of education a person has completed

**Work**

Work is defined as participation in any economically productive activity with or without compensation, wages or profit. Such participation may be physical and/or mental in nature. Work involves not only actual work but also includes effective supervision and direction of work. It even includes part time help or unpaid work on farm, family enterprise or in any other economic activity. All persons engaged in 'work' as defined above are workers. Persons who are engaged in cultivation or milk production even solely for domestic consumption are also treated as workers.

Reference period for determining a person as worker and non-worker is one year preceding the date of enumeration.

***Main worker***

A person who has worked for major part of the reference period ( i.e. six months or more during the last one year preceding the date of enumeration) in any economically productive activity is termed as 'Main worker'.

**Marginal worker**

A person who worked for less than six months of the reference period ( i.e. in the last one year preceding the date of enumeration ) in any economic activity is termed as 'Marginal worker'.

**Non worker**

A person who has not worked at all in any economically productive activity during the reference period (i.e. last one year preceding the date of enumeration) is termed as 'Non worker'.

**Cultivator**

For purposes of the Census a person is classified as cultivator if he or she is engaged in cultivation on land owned or held from government or held from private persons or institutions for payment in money, kind or share. Cultivation includes effective supervision or direction in cultivation.

A person, who has given out her/his land to another person or persons or institution(s) for cultivation for money, kind or share of crop and who does not even supervise or direct cultivation in exchange of land, is not treated as cultivator. Similarly, a person working on another person's land for wages in cash or kind or a combination of both (agricultural labourer) is not treated as cultivator.

Cultivation involves ploughing, sowing, harvesting and production of cereals and millet crops such as wheat, paddy, jowar, bajra, ragi, etc. and other crops such as sugarcane, tobacco, groundnuts, tapioca, etc. and pulses, raw jute and kindred fiber crop, cotton, cinchona and other medicinal plants, fruit growing, vegetable growing or keeping orchards or groves, etc. Cultivation does not include the following plantation crops – tea, coffee, rubber, coconut and betel nuts (areca).

**Agricultural labourer**

A person who works on another person's land for wages in money or kind or share is regarded as an agricultural labourer. She/he has no risk in the cultivation, but merely works on another person's land for wages. An agricultural labourer has no right of lease or contract on land on which she/he works.

**Household industry worker**

Household industry is defined as an industry conducted by the head of the household herself/ himself and or by the members of the household at home or within the village in rural areas and only within the precincts of the house where the household lives in urban areas. The larger proportion of workers in household industry should consist of members of the household including the head. The industry should not be run on the scale of a registered factory which would qualify or has to be registered under the Indian Factories Act and should be engaged in manufacturing, processing, servicing and repairs of goods.

It does not include professions such as a Pleader, Doctor, Musician, Dancer, Waterman, Astrologer, Dhobi, Barber, etc. or merely trade or business, even if such professions, trade or services are run at home by members of the household.

**Other worker**

A person who has been engaged in some economic activity during the reference period but not as a cultivator or agricultural labourer or in Household Industry is termed as a 'Other Worker (OW)'. The type of workers that come under this category of 'OW' include all government servants, municipal employees, teachers, factory workers, plantation workers, those engaged in trade, commerce, business, transport, banking, mining, construction, political or social work, priests, entertainment artists, etc. In effect, all those workers other than cultivators or agricultural labourers or household industry workers, are 'Other Workers'.

**Work participation rate**

Percentage of workers (main + marginal) to total population.

**Population density**

Population density is the number of persons inhabited per square kilometer of the area.

**Age**

Age is measured in terms of the completed number of years.

**Sex-ratio**

Number of females per 1,000 males in a population.

**(vi) Non Census Concepts**

**Improved drinking water :**

If the household had access to drinking water supplied from a tap, hand pump, tube well or well (protected or covered) situated within or outside the premises, it is considered as having access to improved drinking water.

It may be mentioned that such uniform definition may not be valid across all states.

**System of Sewerage**

Generally, a sewerage system would mean a network of mains and branches of underground conduits for the conveyance of sewerage to the point of disposal. Sewers that carry only household and industrial wastage are called separate sewers; those that carry storm water from roofs, streets and other surfaces are known as storm water drains, while those carrying both sewage and storm water are called combined sewers. However, in some towns which are not provided with such underground sewerage system, it is served by open surface drain, box drain, sylk pattern drain, etc., in these towns.

**Type of latrine and method of disposal of night soil**

There are three prevalent systems of disposal of human wastes, viz. (i) underground sewerage, (ii)sanitary water flush latrines with individual disposal systems, like septic tank, leaching cess pool and collecting well, and (iii) dry type of latrines with manual scavenging.

The system of underground sewerage provides for the street sewerage with which are connected the sanitary latrines constructed in the houses having water closets and fitted with flushing cistern (or hand flushing). Through this sewer the faecal matter is transported without the need for scavenging. This system generally exists in cities and big towns.

Where the streets sewer does not exist these sanitary water flush latrines are connected to a local septic tank with a sub-soil dispersion system or a leaching pit. Here the liquid wastes from the water closet is disposed of locally in leaching pit, a septic tank with a soil dispersion system is constructed. This dispersion requires an optimum travel through the pores of the soil which renders the harmful liquid bacterially innocuous by the slow process of filteration through the soil traversed.

Where the soil is impermeable, collecting wells are constructed and the sanitary water flush latrines are connected with them. These wells are cleaned at periodic intervals by a suitable device. The dry type of latrines are of service type latrines from where human excreta is removed by scavengers from house to house, in most cases carrying it on their heads or shoulders or in baskets with handle or wheel barrows. These are then collected in bullock carts or trucks or tractors and trolleys for being carried to the dumping grounds.

**Fertility**

In demography, the word fertility is used in relation to the actual production of children or occurrence of births specially live births. Fertility is a measure of rate at which population adds to itself by births and normally assessed by relating the number of births to a full or part of the population, such as number of married women or number of women of child bearing age. The definitions of the terminology used in computing different fertility rates are mentioned below:

**Crude birth rate (CBR)**

Ratio of the number of live births in a year to the mid year population, normally expressed per 1,000 population.

$$CBR = \frac{\text{Number of live births during the year}}{\text{Mid-year Population}} \times 1000$$

**Crude death rate (CDR)**

Ratio of the number of deaths in a year to the mid year population, normally expressed per 1,000 population.

$$CDR = \frac{\text{Number of deaths during the year}}{\text{Mid-year Population}} \times 1000$$

**Natural growth rate**

Growth rate is obtained as the difference between crude birth rate and crude death rate in the absence of migration.

**Age specific fertility rate (ASFR)**

Number of live births in a year to female population in any specified age group normally expressed per 1,000 women.

$$ASFR = \frac{\text{Number of live births in a particular age-group}}{\text{Mid-year female population of the same age-group}} \times 1000$$

**Age specific marital fertility rate (ASMFR)**

Number of live births in a year to married female population in any specified age group normally expressed per 1,000 married women.

$$ASMFR \frac{\text{Number of live births in a particular age-group}}{\text{Mid-year married female population of the same age-group}} \times 1000$$

**General fertility rate (GFR)**

Number of live births per 1,000 women in the reproductive age-group (15-49) years in a given year.

$$GFR = \frac{\text{Number of live births in a year}}{\text{Mid-year female population in the age-group (15-49) years}} \times 1000$$

**General marital fertility rate (GMFR)**

Number of live births per 1,000 married women in reproductive age-group (15-49) years in a given year.

$$GMFR = \frac{\text{Number of live births in a year}}{\text{Mid-year married female population in the age-group (15-49) years.}} \times 1000$$

**Total fertility rate (TFR)**

It is obtained as the total of the age specific fertility rates (number of children born per woman of the particular age) for the entire reproductive age span. It provides the average number of children that will be born to a woman under the fertility levels indicated by the age specific fertility rates assuming that there is no mortality of women till the completion of reproductive period.

$$TFR = \frac{5 \times \sum_{15-19}^{45-49} ASFR}{1000}$$

**Total marital fertility rate (TMFR)**

Average number of children that would be born to a married woman if she experiences the current fertility pattern throughout her reproductive span (15-49) years assuming that there is no mortality of women till the completion of reproductive period.

$$TMFR = \frac{5 \times \sum_{15-19}^{45-49} ASMFR}{1000}$$

**Age-specific mortality rate (ASMR)**

Number of deaths in a particular age and sex group per 1,000 population of the same age group.

$$ASMR = \frac{\text{Number of deaths in a particular age-group}}{\text{Mid-year population of the same age-group}} \times 1000$$

**q1**

Probability of dying between birth and age 1. This can be used as approximate value of Infant Mortality Rate (IMR) which gives the ratio of number of deaths in a year of children aged less than one year to the number of births in that year.

**q2**

Probability of dying between birth and age 2.

**q5**

Probability of dying between birth and age 5. This indicator is also known as Under Five Mortality Rate (U5MR)

**Infant mortality rate (IMR)**

Ratio of the number of infant deaths (deaths of children below one year) in a year to the number of live births in that year.

$$IMR = \frac{\text{Number of infant deaths during the year}}{\text{Number of live births during the year}} \times 1000$$

Infant mortality rate comprises of two parts, viz., Neo-natal mortality rate and Post neo-natal mortality rate. The neo-natal mortality rate also comprises of two parts viz., Early neo-natal mortality rate and late neo-natal mortality rate. These are defined as:

**Neo-natal mortality rate (NMR)**

Number of infants dying within the first month of life (28 days or under ) in a year per 1,000 live births of the same year.

$$NMR = \frac{\text{Number of infant deaths aged 28 days or under during the year}}{\text{Number of live births during the year}} \times 1000$$

**Early neo-natal mortality rate**

$$= \frac{\text{Number of infant deaths of less than 7 days during the year}}{\text{Number of live births during the year}} \times 1000$$

**Late neo-natal mortality rate**

$$= \frac{\text{Number of infant deaths of 7 days to less than 29 days during the year}}{\text{Number of live births during the year}} \times 1000$$

**Post neo-natal mortality rate (PNMR)**

$$= \frac{\text{Number of deaths of 29 days to less than One year during the year}}{\text{Number of live births during the year}} \times 1000$$

**Peri-natal mortality rate (PMR)**

Number of still births plus deaths within 1st week of delivery per 1,000 births in a year.

$$\text{PMR} = \frac{\text{Number of still births and infant deaths of less than 7 days during the year}}{\text{Number of live births and still births during the year}} \times 1000$$

**Still birth rate (SBR)**

$$= \frac{\text{Number of still births during the year}}{\text{Number of live births and still births during the year}} \times 1000$$

**Maternal mortality rate (MMR)**

Number of deaths of women in the age group 15-49 while pregnant or within 42 days of termination of pregnancy from any cause related to pregnancy and child birth per 100000 live births in a given year.

$$\text{MMR} = \frac{\text{Number of maternal deaths to women in the agegroup 15-49}}{\text{Number of live birth}} \times 100000$$

**Eligible couple (Couples per 1,000 Population)**

Number of currently married females in the age group 15-44 years per 1000 persons of all ages.

**Child woman ratio (0-4)**

1. Number of children in the age group 0-4 years per 1,000 women in the age group 15-49 years.

**Child woman ratio (5-9)**

2. Number of children in the age group 5-9 years per 1000 women in the age group 15-49 years.

**Migration**

Migration is the third component of population change, the other two being mortality and fertility.

A person is considered as a migrant by place of birth if the place in which he/she is enumerated during the census is other than the place of his/her birth.

Similarly a person is considered as a migrant by place of last residence if the place in which he/she is enumerated during the census is other than his/her place of immediate last residence outside the village or town and not simply in another house or locality in the same village or town.

Certain aspects concerning temporary movement/ migration of people has been explained below as these are important components concerning migration:

(i) Migration of persons in search of job is high in the country. In many cases such migrants are only seasonal in nature. People migrate to other places for work in a particular season and come back again to their usual place of residence after three or four months. All such workers are treated as migrants. Similarly, if a person moved to any other place for attending short term vocational or educational course that lasted for only few months of a year, she/he too were considered as a migrant.

(ii) Where a person had merely gone out to another place or had been shifting from one place to another purely on tour, pilgrimage, visit to hospital for treatment or for temporary business purposes, such persons are not deemed to have had another residence different from the place where she/he or her/his family normally resides. She/ he is not considered as migrant.

(iii) A woman temporarily moves into a hospital or to her parents or other relative's house for delivery and if the hospital or the parents/relatives houses is in a place different from usual place of residence, the place where the hospital or parents / relative's house is the place of last residence of the child but not of the mother.

A new response category 'Moved after birth' was added in Census of India 2001 in the question on 'reasons for migration' to bring out additional migration patterns. Natural calamities or distress

employment there only, the reason for migration would be 'education' and not 'work/employment'.

**Internal and International migration**

The migrational movements are of three types (i) Migration within the state itself with its components (a) Migration within the district of enumeration (intra district migration) (b) Migration from one district of state to another district of state (inter district migration), (ii) Migration from one state to another State of the country (inter-state migration), (iii) Migration from one country to another country. The first two streams together constitute internal migration, while the last type of movement is called international migration. The present name of the country, state or district and not the name by which they were known at the time of her/his birth or last residence were recorded.

**Rural-Urban components of migration**

Rural or Urban status in respect of migrants have been determined as applicable at the time of migration and not with reference to any point of time after that.

The flow of migrants consists of four streams viz. rural to rural, rural to urban, urban to rural and urban to urban.

**Civic status of urban units**

Civic Status of a town/city is determined on the basis of Civic Administrative authority of the town e.g. Municipal Corporation/Corporation, Municipal Committee/Municipal Council, Municipality etc.

**Size class of UA / town**

Size-class of UA/Town is based on the population size of the UA/City/Town UAs./Towns with 1,00,000 and above population are classified as Class I UAs. / towns. These Class I UAs. / towns are now further sub classified in to seven sub classes namely M1 to M7 depending on the population size of UA/City/ Town. These are M7 (5,000,000 and above); M6 (2,000,000 to 4,999,999); M5 (1,000,000-1,999,999) M4 (500,000-999,999); M3 (300,000-499,999), M2 (200,000-299,999) & M1 (100,000-199,999). Towns with, 50,000 to 99,999 population are classified as Class II towns, 20,000 to 49,999 population are Class III towns, population with 10,000-19,999 are Class IV towns, population with 5,000 and 9,999 are Class V towns and towns with less than 5,000 population are Class VI towns.

**Slum area**

The Slum Areas (Improvement and Clearance) Act, 1956 which was enacted by the Central Govt. defined slums as (a) Areas where buildings are in any respect unfit for human habitation; or (b) are by reasons of dilapidation, overcrowding, fault arrangement and design of such buildings, narrowness or faulty arrangement of streets, lack of ventilation, light or sanitation facilities, or any combination of these factors, are detrimental to safety, health or morals.

**Mega city**

The concept of 'Mega city' is a recent phenomenon in the Urban Sociology and is defined in term of metropolitan city in the form of large size, problem of management of civic amenities and capacity to absorb the relatively high growth of population. Indian Census in 1991 treated the population size of 5 million and above as the cut off point to identify a place as the mega city. Whereas, for the purpose of inclusion in Centrally Sponsored Scheme for Infrastructure Development in Mega cities the Ministry of Urban Affairs and Employment, Department of Urban Development adopted the criteria of 4 million and above population as per 1991 Census for Mega Cities. In 2001 Census, cities with 10 millions and above population have been treated as Mega cities.

**(vii) 2001 Census findings**

**Population Distribution :**

The total population of the district is 1,163,991 in which 934,559 live in rural and rest 229,432 in urban parts. There are three tahsils in the district namely, Baraut, Baghpat and Khekra. The most populous tahsil is Baraut followed by Khekra. Bagpat is least populated tahsil. The urban population in the distrit is 19.7 per cent The urban population is maximum in Baraut tahsil. There are 315 revenue villages in the district out of which 289are inhabited at the 2001 Census and remaining 26 are un-inhabited. The total rural population of 934,559 is spread over 6 CD blocks. The most populous CD block is Baraut with a population of 201,733 but the maximum number of inhabited villages (58) are in Binauli CD block. Eleven or 3.8 per cent of villages have a population less than 200 and 48 villages(16.6) are in the population range of 5000-9999. Although the population density in the rural district is 726 the highest proportion (77.9%) of villages are with a population density range of 501+. Such villages contain as much as 89.7 per cent of total rural population.

**Size - Class and Status of Towns :**

In the total urban population of 229,432 as much as 85,708 live in Baraut. The next big town is Khekra with a population of 40,355. The Baraut is class V town. Baraut tahsil contans four towns. Baghpat and Khekra tahsils each have two towns in which Baghpat has the civic status of Nagar Palika Parishad (NPP).

**Population growth :**

At the present territorial jurisdiction the population of the district was 1,030,399 at 1991 Census and growing by 13.0 per cent during the decade 1991-2001 it is 1,163,991 at 2001 Census. The decadal growth at 13.0 per cent in the district has been at lower level than in the state at 25.8 per cent.

**Population Density :**

The district has an area of 1,321.00 square kilometre. The population density in the district is 881. In the rural areas of the district the density is 726.

**Sex - Ratio :**

The sex-ratio in the district at 847 is way behind 898 at the state level. Indeed the sex-ratio has been all along lower in the district as against that of the state since 1901. Sex ratio in urban areas of the district is higher than that of rural area from 1971 to 2001. Among tahsils, highest sex-ratio is 855 in Baghpat and lowest 842 in Baraut. Among CD blocks the sex-ratio is highest in Pilana at 859 and lowest in Baraut at 826. Out of 289 inhabited villages in the district there are 5 villages (with 1.7 per cent) with population which are having a sex-ratio below 700. In the urban parts of the district the sex-ratio is 867 with highest 908 in Aminagar Sarai (NP) and lowest of 840 in Tikri (NP). The sex-ratio of population in the age-group 0-6 is 850 in the district which is higher than that of the state. As against sex-ratio of 851 in the age-group 0-6 of rural population of the district, it is highest at 866 in Pilana CD block and lowest 838 in Baraut CD block. As against the 0-6 age group sex-ratio of 851 in the rural area of the district it is 847 in urban areas.

**(viii) Brief Analysis of Primary Census Abstract Data based on inset Tables 1 to 36 :**

Primary Census Abstract gives data up to CD Block/UA/City/Town level for the country and state. *It contains* information relating to area (in sq km), number of occupied residential houses, number of households, total population, population in age-group 0-6, scheduled caste and scheduled tribe population with male-female break up along with main and marginal workers have been further classified into four broad industrial categories viz., cultivators, agricultural labourers, household industry workers and other workers and presented along with non-workers by sex. For the first time during 2001 census the Primary Census Abstract will give number of

**Work Participation Rate :**

In the total population of 1,163,991 of the district total workers constitute 32.7 per cent (24.9 main and 7.8 marginal workers). Total male workers account for 47.5 per cent as against 15.1 per cent total female workers. Among three tahsils the total workers are evenly constituted as they form 32.1 percent in Khekra , 32.8 percent in Baghpat and 32.9 percent Baraut. For marginal workers, females with 9.7 percent out number males whose percentage is only 6.1. In rural area of the district there is slight improvement as total workers account for 33.9 percent (25.2 percent main workers and 8.7 percent marginal workers). Here males form 48.2 percent and females 16.9 percent. However in urban areas total workers account for 27.8 percent (23.6 percent main workers and 4.2 marginal workers). Male and female components are 44.9 and 8.0 percent respectively.

**Literacy :**

In the district 64.2 percent population is literate. The literacy is 68.0 percent in urban areas and 63.3 per cent in rural areas. The male literacy is 77.0 per cent as against 49.2 per cent female literacy and therefore the gap in male/female literacy rate is 27.8 percentage points. In rural areas among 6 CD blocks, the highest literacy is at 66.7 per cent in Khekra and lowest 59.0 per cent in Chhaprauli. The literacy among males in rural areas is 77.0 per cent in comparison to 47.2 percent among females. The lowest female literacy 42.4 per cent in Chhaprauli CD block while the highest 51.1 percent in Khekra. Also the gap in male/female literacy rate is highest in this CD block which is 30.5 percentage points. In urban areas of the district 68.0 percent population is literate ,males 77.8 percent and females 56.8 percetnt. The literacy rate is at variance from 54.5 percent in Baghpat (males 63.6 and females 44.2) to 78.2 percent (males 88.9 and females 66.1 percent) in Agarwal Mandi N.P.However females literacy in 8 towns of the district Baghpat varies between 44.2 percent in Baghpat NPP and 66.1 percent Agarwal Mandi N.P.

illiterates, total workers and classification of marginal workers also into four broad industrial categories. This corresponds to Union/State PCA presented separately till 1991 except inclusion of some extra features as mentioned above. However, only four fold classification of main and marginal workers will now be presented instead of nine fold categories.

**TABLE - 1 : DECADAL CHANGE IN POPULATION OF TAHSILS BY RESIDENCE, 1991-2001**

| Serial number | Tahsil | Population | | | | | | Percentage decadal variation 1991-2001 | | | Percentage urban population | |
|---|---|---|---|---|---|---|---|---|---|---|---|---|
| | | 1991* | | | 2001 | | | | | | | |
| | | Total | Rural | Urban | Total | Rural | Urban | Total | Rural | Urban | 1991 | 2001 |
| 1 | 2 | 3 | 4 | 5 | 6 | 7 | 8 | 9 | 10 | 11 | 12 | 13 |
| 1 | Baraut | N.A | N.A | N.A | 650,051 | 519,855 | 130,196 | N.A | N.A | N.A | N.A | 20.0 |
| 2 | Baghpat | N.A | N.A | N.A | 191,589 | 142,800 | 48,789 | N.A | N.A | N.A | N.A | 25.5 |
| 3 | Khekra | N.A | N.A | N.A | 322,351 | 271,904 | 50,447 | N.A | N.A | N.A | N.A | 15.6 |
| **District Total:** | | **1,030,399** | **842,318** | **188,081** | **1,163,991** | **934,559** | **229,432** | **13.0** | **11.0** | **22.0** | **18.3** | **19.7** |

* Figures of 1991 Census have not been recasted.

The growth rate of the district for total, rural and urban areas and percentage of urban population to total population is given in table. The decadal growth rate of the district is 13.0 per cent during 1991-2001. The growth rates for rural and urban areas of the district are 11.0 and 22.0 per cent respectively . Out of the total population of the district 80.3 per cent lives in rural areas while 19.7 per cent account for urban areas of the district. The proportion of urban population has slightly increased during the decade from 18.3 per cent in 1991 to 19.7 per cent in 2001 in the district. The highest growth of urban population is recorded in Baghpat tahsil (25.5 per cent) and lowest is registered in Khekra tahsil(15.6). Urban population is concentrated in Baraut & Baghpat tahsils. The decadal variation of population of tahsils has not been presented as the district is carved out from Meerut district in 1997.

**TABLE - 2: NUMBER AND PERCENTAGE OF INHABITED VILLAGES IN SPECIFIED POPULATION SIZE RANGES WITH THE RELATED POPULATION , 2001**

| Serial number | District / C.D. block | Total number of inhabited villages | Total rural population | | | Number and percentage of villages | Population less than 200 | | Number and percentage of villages | Population 200-499 | | Number and percentage of villages |
|---|---|---|---|---|---|---|---|---|---|---|---|---|
| | | | Persons | Males | Females | | Males | Females | | Males | Females | |
| 1 | 2 | 3 | 4 | 5 | 6 | 7 | 8 | 9 | 10 | 11 | 12 | 13 |

| 1,724 | 1,441 | 11 (21.6) | 8,864 | 7,523 | 19 (37.3) | 31,437 | 27,090 | 7 (13.7) | 24,179 | 21,048 | 2 (3.9) | 11,640 | 9,823 |
| 2,458 | 1,981 | 15 (31.9) | 12,534 | 10,605 | 14 (29.8) | 22,511 | 18,821 | 7 (14.9) | 22,833 | 19,324 | 1 (2.1) | 7,225 | 6,388 |
| **9,626** | **7,927** | **78 ( 27.0)** | **63,221** | **53,996** | **107 ( 37.0)** | **192,566** | **162,447** | **48 ( 16.6)** | **171,950** | **144,276** | **11 ( 3.8)** | **67,612** | **56,950** |

Table-2 gives C.D. block-wise population, number and percentage of villages falling in each range of population size of villages and number of males and females in each population range in the district. Out of the 289 inhabited villages, 11 (3.8. per cent) are small sized villages with population below 200 persons. In the size of 200 to 499 persons there are 10 villages (3.5 per cent) of the district while in the size class of 500-999 population claims 24 villages with 8.3 per cent of the total villages.78 villages (27.0 per cent) are in the size class of 1,000-1,999 and 107 villages (37.0 per cent) are in the size class of 2,000-4,999. only 48 villages(16.6 per cent) village fall in the range of 5,000 –9999 and 11 (3.8 per cent) in 10000 and above population size.

**TABLE - 3 : NEW TOWNS, DENOTIFIED, DECLASSIFIED AND MERGED TOWNS IN 2001 CENSUS**

(a) New
  (i) Statutory town – NIL
  (ii) Census town - NIL
(b) Denotified - NIL
  (i) Statutory towns of 1991 census denotified and also did not satisfy the criteria to be treated as census towns - NIL
  (ii) Statutory towns of 1991 census denotified but identified as census towns based on demographic and economic criteria - NIL
  (iii) Census towns of 1991 census are notified as statutory town in 2001 census - NIL
(c) Declassified - NIL
(d) Wholly merged with other town(s) - NIL

Declassified means the census towns of 1991 census which failed to satisfy the demographic and economic criteria.

TABLE - 4 : DISTRIBUTION OF VILLAGES BY POPULATION DENSITY, 2001

| Range of population density (per square kilometre) | Total number of villages in each population density range | Percentage of villages in each population density range | Population | Percentage distribution of population |
|---|---|---|---|---|
| 1 | 2 | 3 | 4 | 5 |
| 0-10 | 11 | 3.8 | 24,696 | 2.6 |
| 11-20 | 3 | 1.0 | 104 | 0.0 |
| 21-50 | 0 | 0.0 | 0 | 0.0 |
| 51-100 | 2 | 0.7 | 378 | 0.1 |
| 101-200 | 4 | 1.4 | 1,301 | 0.1 |
| 201-300 | 8 | 2.8 | 6,995 | 0.8 |
| 301-500 | 36 | 12.5 | 62,795 | 6.7 |
| 501 + | 225 | 77.8 | 838,290 | 89.7 |
| Not known | 0 | 0.0 | 0 | 0.0 |
| **District Total:** | **289** | **100.0** | **934,559** | **100.0** |

Table 4 shows the distribution of villages by population density ranges. All inhabited villages of the district have been grouped under eight different ranges of density. The maximum number of villages i.e. 225 accounting for 77.8 per cent of the total inhabited villages fall in the density range of 501+ persons having 89.7 per cent population. The lower ranges of 201-300 and 301-500 persons per sq. km. cover 36 villages (12.5per cent)and 8 villages (2.8 per cent) have also high density with 201-500 persons per sq. km. while the corresponding proportion in the lower range of 101-200 the percentage of villages is 1.4 of the total inhabited villages having 0.1 per cent population of the district. In the medium densitiy ranges of 21-50 and 51-100 persons account for zero and 0.7 per cent of inhabited villages respectively. Both these ranges claim 378 rural population.

TABLE - 5 : SEX RATIO OF STATE AND DISTRICT, 1991-2001

| Census Year | State | | | District | | |
|---|---|---|---|---|---|---|
| | Total | Rural | Urban | Total | Rural | Urban |
| 1 | 2 | 3 | 4 | 5 | 6 | 7 |
| 1901 | 938 | 941 | 916 | 877 | 880 | 849 |
| 1911 | 916 | 922 | 866 | 848 | 852 | 802 |
| 1921 | 908 | 918 | 834 | 851 | 856 | 802 |
| 1931 | 903 | 916 | 813 | 839 | 842 | 804 |
| 1941 | 907 | 922 | 824 | 848 | 852 | 809 |
| 1951 | 908 | 922 | 827 | 836 | 843 | 771 |
| 1961 | 907 | 921 | 817 | 847 | 851 | 781 |
| 1971 | 876 | 884 | 826 | 836 | 835 | 855 |
| 1981 | 882 | 889 | 850 | 832 | 828 | 853 |
| 1991 | 876 | 879 | 864 | 838 | 832 | 869 |
| 2001 | 898 | 904 | 876 | 847 | 843 | 867 |

As per 2001 Census sex-ratio of 847 females per 1,000 males has been recorded in the district against the state average of 898 The sex-ratio of the district remained significantly low to that of the state from 1901 to 2001. The lowest sex ratio of 832 was recorded in the district during 1981 against the state average of 882. It is also observed that the proportion of females to males in rural areas was higher than that of urban areas in district till 1961 thereafter urban area took over the rural sex ratio.

TABLE - 6 : SEX RATIO BY TAHSILS, 2001

| Serial number | Name of Tahsil | Sex ratio | | |
|---|---|---|---|---|
| | | Total | Rural | Urban |
| 1 | 2 | 3 | 4 | 5 |
| 1 | Baraut | 842 | 837 | 864 |
| 2 | Baghpat | 855 | 844 | 886 |
| 3 | Khekra | 853 | 853 | 854 |
| | **District Total:** | **847** | **843** | **867** |

Table-6 gives sex-ratios for total, rural and urban areas at tahsil level as per 2001 census. There are 847females for every thousand males in the district. It becomes clear from the table that sex-ratio in rural areas is lower than that of urban areas. The sex-ratio among rural and urban population is 843 and 867 respectively. The rural sex-ratio in the tahsils varies between 837 in Baraut tahsil and 853 females per 1,000 males in Khekra tahsil. The sex-ratio in Baghpat tahsil and Khekra is higher than district rural average (843). In urban areas the highest sex-ratio is recorded in Baghpat. (886) and the lowest is in Khekra urban (854.).

TABLE - 7 : SEX RATIO BY CD BLOCKS, 2001

| Serial number | Name of C D block | Sex ratio |
|---|---|---|
| 1 | 2 | 3 |
| 1 | Chhaprauli | 836 |
| 2 | Baraut | 826 |
| 3 | Binauli | 850 |
| 4 | Baghpat | 844 |
| 5 | Pilana | 859 |
| 6 | Khekra | 845 |
| | **District (Rural) Total:** | **843** |

Table-7 presents C.D. block-wise sex-ratio for rural population in the district. The sex-ratio in rural areas of the district comes 843 females per 1,000 males. Among the C.D. blocks the highest sex-ratio of 859 is found in Pilana C.D. block and is followed by Binauli (850.) while the lowest of 826 is recorded

in Baraut C.D. block. The sex-ratio of Khekra, Binauli and Baghpat C.D. block is higher than the district rural average of 843 and in the remaining blocks, this value is below the district average.

TABLE - 8 : SEX RATIO OF RURAL POPULATION BY RANGES, 2001

| Range of sex ratio for villages | Number of inhabited villages | Percentage of villages in each range | Population 2001 | Percentage distribution of population |
|---|---|---|---|---|
| 1 | 2 | 3 | 4 | 5 |
| Less than 700 | 5 | 1.7 | 81 | 0.0 |
| 700-749 | 1 | 0.3 | 245 | 0.0 |
| 750-799 | 42 | 14.5 | 108,020 | 11.6 |
| 800-849 | 111 | 38.4 | 412,848 | 44.2 |
| 850-899 | 103 | 35.6 | 354,559 | 37.9 |
| 900-949 | 22 | 7.6 | 53,257 | 5.7 |
| 950-999 | 2 | 0.7 | 4,351 | 0.5 |
| 1000-1099 | 2 | 0.7 | 1,178 | 0.1 |
| 1100+ | 1 | 0.3 | 20 | 0.0 |
| **District** | **289** | **100.0** | **934,559** | **100.0** |
| **Sex ratio (Rural) for District** | | | **843** | |

Table 8 presents the distribution of 289 inhabited villages by sex-ratio ranges based on 2001 Census. The maximum number of villages i.e. 111 accounting for 38.4 per cent of the total villages having largest population of 44.2 per cent in the district fall in the sex-ratio range of 800-849 females per 1,000 males. It is followed by the sex-ratio range of 850-899 which claims 103 villages (35.6 per cent) and 37.9 per cent population. The highest range of 1,100 and above claims one villages (0.3 per cent). This range shares only 20 rural population of the district, while in the sex-ratio range of 900-949, there are 22 villages (7.6 per cent). In remaining sex-ratio ranges 1000-1099, 950-999,750-799, 700-749 and less than 700, the number of villages are 2 (0.7 per cent), 2 (0.7 per cent), 42 (14.5 per cent), one (0.3 per cent) and 5(1.7 per cent) respectively. In these ranges, the percentage of population is comparatively low. Above table also shows that in majority of villages the sex-ratio is significantly higher.

TABLE - 9 : SEX RATIO OF URBAN AGGLOMERATIONS / TOWNS, 2001

| Serial number | Name of U.A. / Town | Urban status of town | Sex ratio |
|---|---|---|---|
| 1 | 2 | 3 | 4 |
| 1 | Agarwal Mandi | NP | 885 |
| 2 | Aminagar Sarai | NP | 908 |
| 3 | Baghpat | NPP | 887 |
| 4 | Baraut | NPP | 874 |
| 5 | Chhaprauli | NP | 848 |
| 6 | Doghat | NP | 851 |
| 7 | Khekada | NP | 841 |
| 8 | Tikri | NP | 840 |
| **Sex ratio (Urban) for the district:** | | | **867** |

Table 9 gives sex ratio of towns at the 2001 census. It is 867 for the district. Highest 908 is recorded in Aminagar Sarai and lowest 840 in Tikri.

TABLE - 10 : SEX RATIO OF POPULATION IN THE AGE GROUP 0-6 FOR TAHSILS, 2001

| Serial number | Name of Tahsil | Total / Rural / Urban | Total population in 0-6 age group | | | Sex ratio for 0-6 age group |
|---|---|---|---|---|---|---|
| | | | Persons | Males | Females | |
| 1 | 2 | 3 | 4 | 5 | 6 | 7 |
| 1 | Baraut | Total | 113,026 | 61,377 | 51,649 | 842 |
| | | Rural | 91,592 | 49,704 | 41,888 | 843 |
| | | Urban | 21,434 | 11,673 | 9,761 | 836 |
| 2 | Baghpat | Total | 34,921 | 18,745 | 16,176 | 863 |
| | | Rural | 25,568 | 13,744 | 11,824 | 860 |
| | | Urban | 9,353 | 5,001 | 4,352 | 870 |
| 3 | Khekada | Total | 57,307 | 30,801 | 26,506 | 861 |
| | | Rural | 48,717 | 26,155 | 22,562 | 863 |
| | | Urban | 8,590 | 4,646 | 3,944 | 849 |
| **District Total:** | | **Total** | **205,254** | **110,923** | **94,331** | **850** |
| | | **Rural** | **165,877** | **89,603** | **76,274** | **851** |
| | | **Urban** | **39,377** | **21,320** | **18,057** | **847** |

Table 10 depicts sex ratio of population in the age group 0-6 for tahsils of the district at the 2001 census. As against the sex ratio of general population at 847 it is 850 in the age group 0-6 rural population. Sex ratio in whole population of the district for rural and urban is 843 and 867 respectively, the corresponding figures of sex ratio is 0-6 population stand 851 and 847 respectively.

## TABLE - 11 : SEX RATIO OF POPULATION IN THE AGE GROUP 0-6 FOR C.D. BLOCKS, 2001

| Serial number | Name of C.D. block | Total population in 0-6 age group | | | Sex ratio for 0-6 age group |
|---|---|---|---|---|---|
| | | Persons | Males | Females | |
| 1 | 2 | 3 | 4 | 5 | 6 |
| 1 | Chhapauli | 23,620 | 12,824 | 10,796 | 842 |
| 2 | Baraut | 34,515 | 18,782 | 15,733 | 838 |
| 3 | Binauli | 33,457 | 18,098 | 15,359 | 849 |
| 4 | Baghpat | 25,568 | 13,744 | 11,824 | 860 |
| 5 | Pilana | 26,331 | 14,108 | 12,223 | 866 |
| 6 | Khekra | 22,386 | 12,047 | 10,339 | 858 |
| **District (Rural) Total:** | | **165,877** | **89,603** | **76,274** | **851** |

Table 11 gives C.D. block-wise sex-ratio of rural child population in the age-group 0-6 years in the district. The sex-ratio is 851 for the district (rural). The sex-ratio of C.D. block varies between 838 and 866. It is highest in Pilana C.D. block i.e. 866 followed by 860 in Baghpat C.D. block and lowest 838 is found in Baraut C.D. block. The sex-ratio of Baghpat, Pilana and Khekra C.D. blocks are higher than the district rural (851) while in the remaining blocks, it is below the average of the district.

## TABLE - 12 : SEX RATIO OF RURAL POPULATION IN THE AGE GROUP 0-6 BY RANGES, 2001

| Range of sex ratio for villages | Number of inhabited villages | Percentage distribution of villages | Population 2001 | Percentage distribution of popu-lation |
|---|---|---|---|---|
| 1 | 2 | 3 | 4 | 5 |
| Less than 700 | 28 | 9.7 | 4,898 | 3.0 |
| 700-749 | 25 | 8.7 | 10,950 | 6.6 |
| 750-799 | 41 | 14.2 | 22,174 | 13.4 |
| 800-849 | 57 | 19.7 | 41,581 | 25.1 |
| 850-899 | 50 | 17.3 | 37,600 | 22.7 |
| 900-949 | 43 | 14.9 | 28,283 | 17.1 |
| 950-999 | 20 | 6.9 | 12,561 | 7.6 |
| 1000-1099 | 18 | 6.2 | 5,905 | 3.6 |
| 1100+ | 7 | 2.4 | 1,925 | 1.2 |
| **District(Rural)Total** | **289** | **100** | **165,877** | **100** |
| **Sex ratio (Rural) for District:** | | | **851** | |

Table 12 shows the distribution of villages in 9 sex-ratio ranges of the age-group 0-6 years as well as percentage of villages, total population and percentage of population of this age-group falling in each range of sex-ratio in the district.

The maximum number of villages i.e.57 (19.7 per cent) having largest population (25.1 per cent) in the district (rural) fall in the sex-ratio range of 800-849 females per 1,000 males in age of 0-6 years. It is followed by the sex-ratio range of 850-899 which accounts for 50 villages (17.3 per cent) and 22.7 per cent population. Next to it, are 43 villages (14.9 per cent) are in the range of 900-949 with 17.1 per cent population. 20 villages (6.9 per cent) having 7.6 per cent population fall in sex-ratio range of 950-999. In the remaining sex-ratio ranges of 1000-1099, 700-749, 750-799, 1100+ and less than 700 account for less number of villages and these are distributed as 18 (6.2 per cent), 25 (8.7 per cent), 41 (14.2 per cent), 7(2.4 per cent and 28 ( 9.7 per cent) respectively. In these ranges, the percentage of population is also low. It becomes clear from the table that more than fifty per cent of villages i.e.51.2 having population (61.2 per cent) fall in the higher sex-ratio ranges of 750-799,800-849 and 850-899.

**TABLE - 13 : SEX RATIO OF POPULATION IN THE AGE GROUP 0-6 OF URBAN AGGLOMERATIONS/TOWNS, 2001**

| Serial number | Name of UA / Town | Urban status of town | Total population in 0-6 age group | | | Sex ratio for 0-6 age group |
|---|---|---|---|---|---|---|
| | | | Persons | Males | Females | |
| 1 | 2 | 3 | 4 | 5 | 6 | 7 |
| 1 | Agarwal Mandi | NP | 1,846 | 974 | 872 | 895 |
| 2 | Aminagar Sarai | NP | 1,850 | 951 | 899 | 945 |
| 3 | Baghpat | NPP | 7,507 | 4,027 | 3,480 | 864 |
| 4 | Baraut | NPP | 14,118 | 7,681 | 6,437 | 838 |
| 5 | Chhaprauli | NP | 2,729 | 1,475 | 1,254 | 850 |
| 6 | Doghat | NP | 2,188 | 1,209 | 979 | 810 |
| 7 | Khekra | NP | 6,740 | 3,695 | 3,045 | 824 |
| 8 | Tikri | NP | 2,399 | 1,308 | 1,091 | 834 |
| **District(Urban) Total** | | | **39,377** | **21,320** | **18,057** | **847** |

Table 13 presents on account of sex-ratio of population in the age group 0-6 of towns of Baghpat district. For the district sex-ratio stands 847 and in 8 towns it is at variance from 810 in Doghat (NP) to 945 in Aminagar Sarai (NP). Half of the 8 towns have sex-ratio above the districts average of 847.

**TABLE - 14 : NUMBER AND PERCENTAGE OF SCHEDULED CASTES AND SCHEDULED TRIBES POPULATION IN TAHSILS, 2001**

| Serial number | Name of Tahsil | Total / Rural / Urban | Total population | Total Scheduled Castes population | Total Scheduled Tribes population | Percentage of Scheduled Castes population to total population | Percentage of Scheduled Tribes population to total population |
|---|---|---|---|---|---|---|---|
| 1 | 2 | 3 | 4 | 5 | 6 | 7 | 8 |
| 1 | Baraut | Total | 650,051 | 66,317 | 20 | 10.2 | 0.0 |
| | | Rural | 519,855 | 55,880 | 20 | 10.7 | 0.0 |
| | | Urban | 130,196 | 10,437 | 0 | 8.0 | 0.0 |
| 2 | Baghpat | Total | 191,589 | 22,240 | 0 | 11.6 | 0.0 |
| | | Rural | 142,800 | 18,144 | 0 | 12.7 | 0.0 |
| | | Urban | 48,789 | 4,096 | 0 | 8.4 | 0.0 |
| 3 | Khekra | Total | 322,351 | 39,256 | 28 | 12.2 | 0.0 |
| | | Rural | 271,904 | 34,532 | 28 | 12.7 | 0.0 |
| | | Urban | 50,447 | 4,724 | 0 | 9.4 | 0.0 |
| | **District Total:** | **Total** | **1,163,991** | **127,813** | **48** | **11.0** | **0.0** |
| | | **Rural** | **934,559** | **108,556** | **48** | **11.6** | **0.0** |
| | | **Urban** | **229,432** | **19,257** | **0** | **8.4** | **0.0** |

Table 14 depicts the distribution of Scheduled Castes and Scheduled Tribes population as well as their percentage to total population at tahsil level in rural and urban areas of the district. Of 1,163,991 total population of the district, 11.0. per cent belongs to the Scheduled Castes and zero per cent to Scheduled Tribes as there are only 48 persons belonging to ST.. The percentage of Scheduled Castes population constitutes 11.6 per cent in rural area and 8.4 per cent in urban part of the district. The highest percentage of total Scheduled Castes population is recorded in Khekra tahsil (12.2) while the lowest is found in Baraut tahsil (10.2.). The number of Scheduled Tribes population is 48 in rural areas only. Scheduled Tribes population in the district is found mainly in tahsil of Khekra with 28 persons and tahsil of Baraut where there are 20 persons.

**TABLE - 15 : NUMBER AND PERCENTAGE OF SCHEDULED CASTES AND SCHEDULED TRIBES POPULATION IN C.D. BLOCKS, 2001**

| Serial number | Name of C.D. block | Total population | Total Scheduled Castes population | Total Scheduled Tribes population | Percentage of Scheduled Castes population to total population | Percentage of Scheduled Tribes population to total population |
|---|---|---|---|---|---|---|
| 1 | 2 | 3 | 4 | 5 | 6 | 7 |
| 1 | Chhaprauli | 132,209 | 11,188 | 0 | 8.5 | 0.0 |
| 2 | Baraut | 201,733 | 21,861 | 20 | 10.8 | 0.0 |
| 3 | Binauli | 185,913 | 22,831 | 0 | 12.3 | 0.0 |
| 4 | Baghpat | 142,800 | 18,144 | 0 | 12.7 | 0.0 |
| 5 | Pilana | 146,229 | 17,727 | 22 | 12.1 | 0.0 |
| 6 | Khekra | 125,675 | 16,805 | 6 | 13.4 | 0.0 |
| **District (Rural) Total:** | | **934,559** | **108,556** | **48** | **11.6** | **0.0** |

Table 15 shows distribution of Scheduled Castes and Scheduled Tribes population in each C.D. block of the district. 11.6 per cent of rural population of the district belongs to Scheduled Castes and zero per cent to Scheduled Tribes. At C.D. block level, Scheduled Castes population varies between 8.5 per cent in Chhaprauli and 13.4 per cent in Khekra. C.D. block.. The other C.D. block containing the higher percentage of Scheduled Castes are Baghpat (12.7), Binauli (12.3.) and Pilana (12.1.). The highest number of 22 persons Scheduled Tribes population is counted in Pilana C.D. block and is followed by Baraut (20) C.D. block. The lowest number of Scheduled Tribes is recorded in Khekra with only 6 persons.

**TABLE - 16 : PROPORTION OF SCHEDULED CASTES POPULATION TO TOTAL POPULATION IN VILLAGES, 2001**

| Percentage range of Scheduled Castes population to total population | Number of villages | Percentage | Scheduled Castes Population | Percentage |
|---|---|---|---|---|
| 1 | 2 | 3 | 4 | 5 |
| Nil | 18 | 6.2 | 0 | 0.0 |
| Less than 5 | 35 | 12.1 | 2,654 | 2.4 |
| 6-10 | 93 | 32.2 | 33,444 | 30.8 |

Table 16 reflects the number of villages according to the proportion of Scheduled Castes population to their total population in different ranges of percentage at district level. 18 villages accounting for 6.2 per cent of total 289 inhabited villages in the district do not have any Scheduled castes population. The proportion of Scheduled Castes population is less than 5 per cent in 35.villages (12.1 per cent). In 93 villages, it varies between 6-10 per cent while the next range of 11-20 per cent accounts for 108 villages constituting 37.4per cent of the total villages. The range of 21-30 and 31-40 per cent contains 21 and 7 villages respectively. Both these ranges together account for 9.7per cent villages of the district. 4 villages fall in the range of 41-50 and one village in 51-75 per cent. Two villages are such where the proportion of Scheduled Castes is more than 76 per cent. These villages contain 0.7 per cent Scheduled Castes population of the district. The maximum of the 50.3 per cent of the Scheduled Castes population is covered by range of 11-20 per cent.

**TABLE - 17 : PROPORTION OF SCHEDULED TRIBES POPULATION TO TOTAL POPULATION IN VILLAGES, 2001**

Table 18 shows number and percentage of scheduled caste and scheduled tribes population recorded during 2001 Census in district Baghpat. The table depicts that scheduled caste population in Baghpat district urban constituts 8.4 percent to total population whereas scheduled Tribe is no where found. Scheduled caste population varies from 5.3 per cent is Baghpat NPP to 17.4 per cent in Agarwal Mandi (NP).

**TABLE 19 : SEX RATIO AMONG SCHEDULED CASTES AND SCHEDULED TRIBES IN C. D. BLOCKS, 2001**

| Serial number | Name of C D block | Scheduled Castes sex ratio | Scheduled Tribes sex ratio |
|---|---|---|---|
| 1 | 2 | 3 | 4 |
| 1 | Chhaprauli | 810 | 0 |
| 2 | Baraut | 812 | 667 |
| 3 | Binauli | 842 | 0 |
| 4 | Baghpat | 838 | 0 |
| 5 | Pilana | 863 | 1000 |
| 6 | Khekra | 859 | 500 |
| **District (Rural) Total** | | **838** | **778** |

Table 19 indicates sex-ratio among Scheduled Castes and Scheduled Tribes in each C.D. block of the district. The Scheduled Castes sex-ratio is 838 for district (rural). Among the C.D.blocks, the highest sex ratio 863 is found in Pilana C.D. block and lowest 810 is recorded in Chhaprauli C.D. block. Among Scheduled Tribes sex-ratio for the district is 778 while it varies from 500 in Khekra to 1000 in Pilana. In three blocks there is no ST population, these are Chhaprauli, Binauli and Baghpat.

**TABLE 20 : SEX RATIO AMONG SCHEDULED CASTES AND SCHEDULED TRIBES IN URBAN AGGLOMERATIONS / TOWNS, 2001**

| Serial number | Name of U.A./ Town | Scheduled Castes sex ratio | Scheduled Tribes sex ratio |
|---|---|---|---|
| 1 | 2 | 3 | 4 |
| 1 | Agarwal Mandi (NP) | 939 | 0 |
| 2 | Aminagar Sarai (NP) | 859 | 0 |
| 3 | Baghpat (NPP) | 889 | 0 |
| 4 | Baraut (NPP) | 868 | 0 |
| 5 | Chhaprauli (NP) | 877 | 0 |
| 6 | Doghat (NP) | 857 | 0 |
| 7 | Khekra (NP) | 831 | 0 |
| 8 | Tikri (NP) | 818 | 0 |
| **Sex ratio (Urban) for the district:** | | **865** | **0** |

In 8 towns of Baghpat district sex-ratio among scheduled castes varies from 818 in Tikri to 939 in Agarwal Mandi while for the district it is 865. No scheduled tribe population exsists in these towns.

District and tahsil-wise literacy rates besides the number of literates and illiterates for total, rural and urban areas are given in Table-21. The literacy rates are worked out by excluding population of 0-6 years. As per 2001 Census, the proportion of literates to total population excluding 0-6 years comes to 64.2 per cent in the district. This proportion in rural area is 63.3 per cent against 68.0 per cent in urban areas. In the district the literacy rates of males (77.0 per cent) is much higher than that of females (49.2 per cent). Among the tahsils, Khekra tahsil tops with 50.5 per cent female literates followed by Baghpat (50.1 per cent). Baraut tahsil with 48.2per cent female literates stands at the bottom in the district. Out of three tahsils, the literacy rates of two tahsils are higher than that of district average. It is observed that in urban areas of the district the literacy rates are higher than that of the rural areas.

The gap between male and female literacy is high which comes to 27.8 percentage points in the district. The situation at tahsil level is not much

different. However this gap in urban literacy is low which comes to 20.9 percentage points against the rural areas, where the gap between male and female literacy is 29.6 percentage points.

**TABLE 22 : NUMBER AND PERCENTAGE OF LITERATES AND ILLITERATES BY SEX IN CD BLOCKS, 2001**

| Serial number | Name of C.D. block | Number of literates and illiterates | | | | | | Percentage of literates | | | Gap in male/female literacy rate |
|---|---|---|---|---|---|---|---|---|---|---|---|
| | | Number of literates | | | Number of illiterates | | | | | | |
| | | Persons | Males | Females | Persons | Males | Females | Persons | Males | Females | |
| 1 | 2 | 3 | 4 | 5 | 6 | 7 | 8 | 9 | 10 | 11 | 12 |

| 3 | Binauli | 96,412 | 63,528 | 32,884 | 89,501 | 36,969 | 52,532 | 63.2 | 77.1 | 46.9 | 30.2 |
| 4 | Baghpat | 77,559 | 50,689 | 26,870 | 65,241 | 26,737 | 38,504 | 66.2 | 79.6 | 50.2 | 29.4 |
| 5 | Pilana | 75,614 | 49,478 | 26,136 | 70,615 | 29,180 | 41,435 | 63.1 | 76.7 | 47.2 | 29.4 |
| 6 | Khekra | 68,882 | 44,726 | 24,156 | 56,793 | 23,373 | 33,420 | 66.7 | 79.8 | 51.1 | 28.7 |
| **District (Rural) Total:** | | **486,620** | **320,722** | **165,898** | **447,939** | **186,444** | **261,495** | **63.3** | **76.8** | **47.2** | **29.6** |

Table 22 reveals number of literates, illiterates and the literacy rates in rural areas at C.D. block level in the district. 63.3 per cent of the total rural population excluding the age-group of 0-6 years literate is in the district. The corresponding proportion of male and female literates comes to 76.8 and 47.2.per cent respectively which shows very wide gap of 29.6 percentage points in male and female literacy. At C.D. block level, Khekra C.D. block has the highest rural literacy rate of 66.7 per cent while 79.8 per cent males and 51.1 per cent females are literate in this block. The lowest literacy rate in rural areas is noted in Chhaprauli C.D. block (59.0 per cent). There are wide variations in male and female literacy in all the C.D. blocks of the district. The maximum difference of 30.4 percentage points is found in Chhaprauli C.D. block.

**TABLE 23 : DISTRIBUTION OF VILLAGES BY LITERACY RATE RANGE, 2001**

| Range of literacy rate for villages | Number of inhabited villages | Percentage distribution of villages | Population | Percentage distribution of population |
|---|---|---|---|---|
| 1 | 2 | 3 | 4 | 5 |
| 0 | 0 | 0.0 | 0 | 0.0 |
| 1-10 | 0 | 0.0 | 0 | 0.0 |

Table 24 shows number and percentage of literates and illiterates by sex during 2001 in the urban areas of the district. Regarding absolute figures of literates Agarwal Mandi NP town is way ahead of other towns. The table reveals that literacy rate is pretty high in the urban areas of the district (68.0). The literacy rate is quite high (78.2 per cent) in Agarwal Mandi. Males and female literacy rates are 88.9 and 66.1 per cent respectively. However, literacy rate among females is very low (44.2 per cent) in Baghpat town, thus the gap in male-female literacy rate is 19.5 percentage points.

**TABLE25: NUMBER AND PERCENTAGE OF SCHEDULED CASTES LITERATES AND ILLITERATES BY SEX IN C.D. BLOCKS, 2001**

Table 27 brings out the number and percentage of scheduled castes literates and illiterates by sex in urban agglomerations/towns population at the 2001 census. The number of illiterates is less than literates in the district(urban) and towns. The percentage of literates is least 53.7 percent in Baghpat among 8 towns but the gap in male/female literate rate is highest 37.8 in case of Tikri town. The males in all the 8 towns enjoy higher literacy rate than females. The gap in male/female literacy rate is 25.9 lowest in case of Baghpat. Female literacy rate is highest in Khekra 52.7 per cent.

**TABLE 28: NUMBER AND PERCENTAGE OF SCHEDULED TRIBES LITERATES AND ILLITERATES BY SEX IN C. D. BLOCKS, 2001**

Table 28 brings out the number and percentage of scheduled tribes literates and illiterates by sex in CD Blocks at the 2001 census. The number of illiterates is more than literates in the district and CD Blocks. The literacy rate of the scheduled tribes population at 46.3 per cent is lower than the corresponding rate 56.5 per cent in case of scheduled castes The gap in male and female literacy rates at 3.4 percentage points is much less than what it is in case of the scheduled castes 34.4 percentage points. The literacy rate is highest in Pilana CD Block and lowest in Khekra CD Block. The gap in male/female literacy rate in two CD Blocks, is in favour of the males.

**TABLE 29 : DISTRIBUTION OF VILLAGES BY LITERACY RATE RANGE FOR SCHEDULED TRIBES POPULATION, 2001**

| **District Total:** | **4** | **100.0** | **48** | **100.0** |
| **Literacy rate for District (Rural):** | | **46.3** | | |

Table 29 gives the distribution of villages by literacy rate range for the scheduled tribes population at the 2001 census. In the district the scheduled tribes population is found only in 4 villages out of which in two villages the literacy range is zero. However, the maximum (45.8 per cent) of the scheduled tribes population (22) is found only in one village with literacy range from 61 to 70.

**TABLE 30 : NUMBER AND PERCENTAGE OF SCHEDULED TRIBES LITERATES AND ILLITERATES BY SEX IN TOWNS, 2001**

| Serial number | Name and urban status of Town | Number of literates and illiterates | | | | | | | | | Gap in male/female literacy rate |
|---|---|---|---|---|---|---|---|---|---|---|---|
| | | Number of literates | | | Number of illiterates | | | Percentage of literates | | | |
| | | Person | Males | Females | Persons | Males | Females | Persons | Males | Females | |
| 1 | 2 | 3 | 4 | 5 | 6 | 7 | 8 | 9 | 10 | 11 | 12 |
| | Baghpat (Urban) | 0 | 0 | 0 | 0 | 0 | 0 | 0 | 0 | 0 | 0 |

There is no scheduled tribe persons in urban areas of Baghpat district as is evident from the above table.

Table 31 gives the number and percentage of main workers, marginal workers and non-workers by sex at tahsil level in the district as per 2001 Census. The proportion of the total workers works out as 32.7 per cent of the total population in the district. The total workers are comprised of 24.9 per cent main workers and 7.8 per cent marginal workers and the remaining 67.3 per cent are non-workers.

Among the main workers, males participation rate in the district is 41.4 per cent and 5.4 per cent of females. Male and female marginal workers account for 6.1 and 9.7 per cent respectively. The percentage of female marginal workers is higher than that of males. Total workers (main and marginal workers) among tahsils varies from 32.1per cent in Khekra to 32.9 per cent in Baraut tahsil.

TABLE 32: NUMBER AND PERCENTAGE OF MAIN WORKERS, MARGINAL WORKERS, AND NON-WORKERS BY SEX IN C. D. BLOCKS, 2001

Table 32 shows C.D. block-wise number and percentage of main workers, marginal workers and non-workers for rural population of the district. Of 9,34,559 total rural population of the district, 25.2 per cent has been categorised as main workers and the marginal workers constitute 8.7 per cent and the remaining 66.1 per cent fall in the category of non-workers. The sex-wise break up at the district level shows that 41.5 per cent males and 5.9 per cent females are in the category of main workers. Male and female marginal workers account for 6.6 and 11.0 per cent respectively. The percentage of female marginal workers is higher than that of male marginal workers. Similar trend is visible at C.D. block level.

The percentage of total rural workers of the district comes to 33.9 per cent. At the C.D. block level, Chhaprauli & Baghpat have highest proportion of total workers forming 35.2 per cent each of the total population. It is closely followed by Baraut (33.9per cent), Binauli (33.5 per cent), Pilana (32.8 per cent), and Khekra (32.8 per cent). The lowest percentage of 32.8 per cent is recorded in Khekra and Pilana C.D. blocks.

## TABLE 33: NUMBER AND PERCENTAGE OF MAIN WORKERS, MARGINAL WORKERS, AND NON-WORKERS BY SEX IN URBAN AGGLOMERATIONS / TOWNS, 2001

Note: Percent of Worker to total worker are given in brackets

It can be seen from Table 34 that the economy of the district is primarily agricultural as supported by the fact that cultivators constitute 39.8 per cent of the total workers ( main + marginal) and remaining 60.2 per cent of total workers are engaged as agricultural labourers (18.5per cent), Household industry workers (4.2 per cent) and other workers (37.5 per cent) in this district.

The distribution of workers by four categories of economic activity at tahsil level shows very high dependence of population on agriculture sector absorbing large number of workers. The proportion of cultivators varies between 37.6 per cent in Khekra tahsil and 41.3 per cent in Baraut tahsil. These variations within the district may be due to cropping and land holding patterns. The percentage of female cultivators is 40.3. per cent which is higher as compared to 39.6 per cent of male cultivators in the district. The percentage of agricultural labourers and household industry workers is very low in the district as stated above. The workers in other activities occupy the second position next to agriculture in the district as well as in each tahsil. The highest proportion of 42.3. per cent of other workers is recorded in Baghpat tahsil while the lowest proportion of 34.0per cent is found in Baraut tahsil.

## TABLE 35 : DISTRIBUTION OF WORKERS BY SEX IN FOUR CATEGORIES OF ECONOMIC ACTIVITY IN C.D. BLOCKS, 2001

| Serial number | Name of C. D. block | Persons / Males / Females | Total population | Total number of workers (Main + Marginal) | Category of workers: Cultivators | Agricultural Labourers | Household Industry workers | Other workers |

Note: Percentage of Workers to total workers are given in brackets

Table 35 presents C.D. block-wise distribution of workers by sex in four categories of economic activity. In the rural areas of the district total workers (main+marginal) account for 33.9 per cent of total population. Among these workers, cultivators constitute 44.8 per cent, 20.8.per cent agricultural labourers, 4.1 per cent household industry workers and 30.4 per cent other workers. The agricultural sector plays a major role in providing employment to the working force of rural population despite the fact that it is not commercial value. Household industries also could not make much progress in rural areas as reflected in the data and these household industries employ only 4.1 per cent workers of the total working force. Therefore surplus working force has to depend on primary activities. Among cultivators, the percentage of females (41.9 per cent) is lower than that of males (45.6 per cent) in the rural areas of the district. The females play a main role in rural economy of the district. The proportion of cultivators and other workers differ considerably from one C.D. block to an other. The proportion of cultivators varies between 40.8 per cent in Khekra C.D. block and 45.9 per cent in Chhaprauli C.D. block. Similarly for other workers, the lowest proportion is 19.0 per cent in Chhaprauli C.D. block while 41.1per cent is the highest in Khekra C.D. block. The percentage of agricultural labourers and household industry workers together is quite low i.e. only 24.9 per cent in the district. The percentage of agricultural labourers is highest in Chhaprauli. (30.9.) block and is followed by Baraut (22.3.). In other C.D.

blocks, this proportion is further low. Similarly, household industry workers varies in C.D. blocks between 3.2. per cent in Chhaprauli and 5.9. per cent in Pilana.

Table 36 presents distribution of workers by sex in four catagories of economic activity in urban

areas of the district Baghpat. It can be observed from the table that the four categories of economic activity are cultivators, agricultural labourers, household industry workers and other workers. Figures in the table have been given for total number of workers including main and marginal workers. At the district level, urban areas recorded highest percentage of other workers (73.1), followed by cultivators with 15.1 per cent (13.0 per cent males and 26.6 per cent females). If we observe each town, the table reveals that highest percentage of cultivators (46.8) is recorded in Doghat in the agriculture labourers category Aminagar Sarai recorded very low percentage(0.7). Household industry workers are also very low 2.8 per cent in Aminagar Sarai 3.1 per cent in Baratu and 3.3 per cent in Baghpat. As the usual trend recorded in the urban areas, other workers are in high percentage (92.4 per cent in Baraut 89.9 per cent in Aminagar Sarai and 79.1 per cent in Baghpat).

**(ix) Brief analysis of the Village Directory and Town Directory data based on inset tables 37-47 :**

One of the major parts of the District Census Handbook is Village and Town Directory. These are non-census data incorporated showing educational, medical, drinking water, banking facilities, communication facilities and other such developmental indicators in the towns and villages. From this non-census data certain inset tables have been generated and reproduced below showing major trends in the availability of above amenities.

**TABLE 37 : DISTRIBUTION OF VILLAGES ACCORDING TO AVAILABILITY OF DIFFERENT AMENITIES, 2001**

| Serial number | Name of CD Block | Number of inhabited villages | Type of amenity available | | | | | | | | | |

*Note : - Percentages are given in brackets.*

*Based on the improved drinking water source, drinking water supply has been classified as 'Improved ' or otherwise. If the household has access to drinking water supplied from a tap or a hand pump / tube well situated within or outside the premises it is considered as having access to 'Improved drinking water source'. However, the concept of improved drinking water is state specific and this is to be considered accordingly.

#Post office includes Post office, telegraph office and Post and telegraph office.

$Transport communication includes bus service, rail facility and navigable waterways.

Table 37 deals with the C.D. block-wise distribution of villages according to the availability of different amenities like educational, medical, improved drinking water, post office, telephone, transport, communications, Banks agricultural credit societies, approach by pucca road and power supply within the village. Out of 289 inhabited villages in the district 264 villages or 91.5 per cent have been provided with the educational facilities of one type or the other. Similarly, 111 villages in the district constituting 38.4 per cent have medical facilities of one type or the other. Improved drinking water facility is available in 282or 97.6 per cent villages. As regards, post office facility which includes facilities like telegraph office and post & telegraph, 122 villages constituting 42.2 per cent of villages have been provided with post office facility within the village. 144 or 49.8 per cent villages have been provided with the telephone facility,

129 or 44.6 per cent with transport facility, 35or 12.1 per cent villages with bank facility and 31or 10.7 per cent with agricultural credit societies. Similarly there are 244 or 84.4 per cent villages which have been linked with the pucca road. A total of 277 or 95.8 per cent villages have been provided with the electricity supply. Almost similar pattern of distribution of villages by availability of amenities in the villages at C.D. block has been found with slight variation. Baghpat C.D. block has the highest 94.1 per cent villages where educational facility is available and lowest 84.3 per cent is found in Pilana. Medical facility is highest in Khekra. (48.9 per cent) and lowest (27.6 per cent) in Binauli C.D. block. Improved drinking water is available to cent-percent villages in Binauli and Baghpat blocks while in other blocks, it is above 90.0 per cent. Telephone facility is highest in Baraut (60.0 per cent) while it is lowest 38.3 per cent in Khekra C.D. block . Transport and communications is less developed in Pilana where only 294 per cent villages are covered by this facility whereas 44.5 per cent villages in the district are availing this facility. In the field of power supply all villages have been covered except 13 villages in the district.

**TABLE 38 : NUMBER AND PERCENT OF RURAL POPULATION SERVED BY DIFFERENT AMENITIES, 2001**

| | | | Type of amenity available | | | | | | | | | |
|---|---|---|---|---|---|---|---|---|---|---|---|---|

*Note : - Percentages are given in brackets.*

* Based on the improved drinking water source, drinking water supply has been classified as 'Improved ' or otherwise. If the household has access to drinking water supplied from a tap or a hand pump / tube well situated within or outside the premises it is considered as having access to 'Improved drinking water source'. However, the concept of improved drinking water is state specific and this is to be considered accordingly.

\# Post office includes Post office, telegraph office and Post and telegraph office.

$ Transport communication includes bus service, rail facility and navigable waterways.

Table 38 depicts the number and proportion of rural population served by different kinds of amenities. Out of total rural population of 934,559. persons in the district, 904,910 or 96.8. per cent have educational facility of one type or the other type. Similarly 509,379 or 54.5. per cent population has medical facilities while 926,833 or 99.2 per cent have got improved drinking water facility. Post office facilities are available to 629,509 or 67.4 per cent population. Telephone facility is available to 590511or 63.2 per cent. Transport communications facility is available to 516,130 or 55.2 per cent. Bank facility is available to 218,824or 23.4 per cent. 195,756 or 20.9 per cent have been provided with the facility of agricultural credit societies. 860,026 or 92.0 per cent have been provided with the facility of approach by pucca road. Power supply is available to 912,829 or 97.7 per cent rural population in the district. Similar pattern of availability of facilities is visible to the rural population at C.D. block level.

**TABLE 39 : DISTRIBUTION OF VILLAGES NOT HAVING CERTAIN AMENITIES, ARRANGED BY DISTANCE RANGES FROM THE PLACES WHERE THESE ARE AVAILABLE, 2001**

| Village not having the amenity of | Distance range of place from the villages where the amenity is available | | | |
|---|---|---|---|---|
| | Less than 5 kms. | 5-10 kms | 10+ kms | Total (Col.2-4) |
| 1 | 2 | 3 | 4 | 5 |
| 1. Education : | | | | |
| (a) Primary School | 25 | 1 | 0 | 26 |
| (b) Middle School | 113 | 46 | 5 | 164 |

| 6. Banks : | | | | |
| (a) Commercial Bank | 176 | 58 | 24 | 258 |
| (b) Cooperative Bank | 108 | 128 | 47 | 283 |
| 7. Agricultural Credit Societies | 180 | 47 | 32 | 259 |

Table 39 presents distribution of villages not having certain amenities within the village at district level. They have to go out of their village to avail these facilities. Such villages have been presented according to various distance ranges in this table. 26 villages do not have primary school in their villages and out of these villages, children of 25 villages have to travel less than 5 kms. for schooling.164 inhabited villages are deprived of middle school and 284 of degree college. Of these 113 avail the facility of middle school at a distance of less than 5 kms., 46 at a distance 5-10 kms. and the remaining 5 at a distance of 10+ kms. In respect of degree college 79 avail this facility at a distance of less than 5 kms., 77.between 5-10 kms. and rest 128 villages at a distance of 10+ kms.

Similarly there are 271 villages in the district which have been devoid of Hospital facility and 273 villages which are deprived of PHC facilities. Of these 96 villages have the facility of Hospital available within 5 kms. while in respect of 95 villages the inhabitants have to cover a distance of 5-10 kms. in order to avail this facility. Similarly 80 villages have this facility at a distance of 10+ kms. As regards PHC 86 avail this facility at a distance of less than 5 kms., 111 at a distance of 5-10 kms. and the remaining 76 have to travel a distance of more than 10 kms. to avail this facility.

Regarding Post Office, 168 villages do not have this facility in the village itself. Of these majority i.e. 134 have this facility at a distance of less than 5 kms., another 29 villages avail it at a distance of 5-10 kms. In the remaining 5 villages habitants have to travel a distance of 10+ kms.

As regards Telephone, there are 146 villages in the district which are without telephone facilitiy. Of these 95 avail this facility at a distance of less than 5 kms., 22 at a distance of 5-10 kms. and remaining 29 have to traverse a distance of 10+ kms.

For Bus service out of 176 villages which do not have facility, 129 villages avail this facility at a distance of less than 5 kms., 42 at a distance between 5-10 kms. and 5 at a distance of 10+ kms.

In the entire district 258 villages are deprived of Commercial Banks & 283 of Co-operative Bank. Of these 258 villages which are deprived of Commercial Banks, 176, villages avail this facility at a distance of less than 5 kms., 58 between 5-10 kms.and the remaining 24 at a distance of 10+ kms. Regarding Co-operative Banks out of 283 villages 108 villages avail this facility at a distance of less than 5 kms., 128 at a distance of 5-10 kms. and remaining 47 at a distance of 10+ kms. 259 villages do not have agricultural credit societies.This facility to 180 villages is available at a distance of less than 5 kms., 47 at a distance of 5-10 kms. and the remaining 32 at a distance of 10+ kms.

**TABLE 40 : DISTRIBUTION OF VILLAGES ACCORDING TO THE DISTANCE FROM THE NEAREST STATUTORY TOWN AND AVAILABILITY OF DIFFERENT AMENITIES, 2001**

| Distance range from the nearest statutory town (in kilometres) | Number of inhabited villages in each range | Type of amenity available | | | | | | | |

\# Post office includes Post office, Telegraph office and Post and telegraph office.
$ Transport communication includes bus service, rail facility and navigable waterways.

Table 40 deals with the distribution of villages according to distance from the nearest statutory town and availability of different amenities within the village. Out of total 289 inhabited villages in the district, there are 66 villages which have nearest towns upto a distance of 5 kms. Of these 57 villages forming 86.4 per cent of these total villages, are having the educational facilities of one type or the other and 24 villages constituting 36.4. per cent, have the medical facilities within the village, 29 villages forming 43.9 per cent have the facility of post office within the village and 41 or 62.1 per cent have the facility of telephone. 31 villages constituting 47.0 per cent have been linked by transport service. 8 villages comprising 12.1per cent have been provided with bank facilities, while 6 villages constituting only 9.1 per cent have been provided by agricultural credit societies. 59 villages comprising 89.4 per cent have been provided with pucca road.

There are 198 inhabited villages in the district which fall in the distance range of 5-15 kms. Of these 183 villages constituting 92.4 per cent have been provided with the educational facilities. 79 villages comprising 39.9. per cent have been provided with medical facilities. 87 villages constituting 43.9 per cent enjoy the post office facility. 96 villages comprising 48.5 per cent have been provided with the telephone facility. 89 villages constituting 44.9 per cent have been linked with transport communications. 24 villages forming 12.1. per cent have bank facility. 23 villages constituting 11.6 per cent are having agricultural credit societies, while 165 villages or 83.3 per cent are approachable by pucca road. 24 villages fall in the distance range of 16-50 kms. Of these, 91.7 per cent villages have educational facility, 33.3 per cent medical, 25.0 per cent post office, 29.2 per cent telephone and transport & communications available to 33.3 per cent villages. Banks and agricultural credit societies facilities are available 8.3 per cent each. 75.0 per cent villages are served with pucca road. There is no villages beyond 50 Km. in the district.

## TABLE 41: DISTRIBUTION OF VILLAGES ACCORDING TO POPULATION RANGE AND AMENITIES AVAILABLE, 2001

| Population range | Number of inhabited villages | Type of amenity available | | | | | | | | | |
|---|---|---|---|---|---|---|---|---|---|---|---|
| | | Education | Medical | Improved drinking water | Post Office | Telephone | Transport communi-cations | Banks | Agricultural Credit Societies | Approach by pucca road | Power supply |

Table 41 deals with the distribution of villages by population ranges and amenities available therein. In the district, out of a total 289 inhabited villages, 21 are in a population range of 1-499 persons. Of these, 6 villages (28.6 per cent) have education facility, 1(4.8 per cent) have medical facility, 14 (66.7 per cent) have improved drinking water facility. No village has post office or telephone facility. 3 (14.3 per cent) have been linked by bus service. 1(4.8 per cent) have Bank facility. No village has been provided with the agricultural credit societies, 10 villages (47.6 per cent) have been linked with pucca road. 13 villages (61.9 per cent) have been provided with electricity.

Out of 24 villages, which fall in the population range of 500-999 persons, 23 villages (95.8 per cent) have been provided with the education facility, 3 (12.5 per cent) with medical facility, all the villages have improved drinking water facility. 1village (4.2 per cent) have been provided with post office facilities, 7 villages (29.2 per cent) with telephone facility, 10 villages (41.7per cent) with transport facilities, no village is served with bank facility, 1 village (4.2 per cent) is served with agricultural credit societies and 17 villages (70.8 per cent) have approach by pucca road. 23 villages (95.8) in this range have electricity. 78 villages fall in population range of 1,000-1,999 persons. 74 villages have educational facility, 20 villages (25.7) have medical facility. Improved drinking water facilitiesis available in all villages. 11 villages (14.1 per cent) have post office facility, 33villages (42.3 per cent) have telephone facility, 27 villages (34.6 per cent) have transport communications facilities, 2 villages (2.6 per cent) have bank facilities, 2 villages (2.6 per cent) have agricultural credit societies and 66 villages (84.6 per cent) have approach by pucca road. all the 78 villages are having the facility of electricity.

There are 107 villages in the district which are covered under 2,000-4,999 population range. In this range, 103 villages(96.3) enjoy the facility of education, 45 villages (42.1 per cent ) have medical facility, cent percent villages improved drinking water, 59 villages (55.1)telephone, 51 villages (47.7) transport communications, 94 villages (87.9 per cent) approach by pucca road and 105 villages (98.1 per cent)power supply. 56 villages (52.3 per cent) have post office facility, 12.villages (11.2 per cent) have bank facility, 8 villages (7.5. per cent) are having agricultural credit societies.

## TABLE 42: DISTRIBUTION OF VILLAGES ACCORDING TO LAND USE, 2001

| Serial number | Name of C. D. block | Number of inhabited villages | Total area (hectare) | Percentage of cultivable area to total area | Percentage of irrigated area to total cultivable area |
|---|---|---|---|---|---|
| 1 | 2 | 3 | 4 | 5 | 6 |
| 1 | Chhaprauli | 27 | 15887.0 | 98.2 | 94.6 |
| 2 | Baraut | 55 | 24161.8 | 78.5 | 97.0 |
| 3 | Binauli | 58 | 20693.7 | 86.8 | 93.3 |
| 4 | Baghpat | 51 | 17588.9 | 89.8 | 97.0 |
| 5 | Pilana | 51 | 18883.5 | NA | 90.0 |
| 6 | Khekra | 47 | 14634.0 | 85.5 | 95.4 |
| | **District Total:** | **289** | **111848.9** | **89.7** | **94.4** |

Note : - Cultivable area = irrigated area + unirrigated area

Table 42 presents C.D blockwise distribution of villages according to land use. It also gives details of total area and cultivable area available of inhabited villages in the district. Cultivated area includes irrigated as well as unirrigated area. It further elaborates that what is the extent of cultivable area under irrigation. There are total 289 inhabited villages in the district having a total area of 111,848 hectares. Of this, 89.7 per cent is cultivable and 94.4 per cent of total cultivable area has got the irrigation facility. The area figures have been collected from the revenue record maintained for each village by the State Government.

A look at the land use pattern at C.D. block level shows that Chhaprauli block with 27.villages have a total area of 15,887.0 hectares, of this 98.2. per cent of land is cultivable and of the aforesaid area 94.6 per cent is irrigated. In Baraut block, all the 55.villages have a total land area of 24,161.8 hectares, of this 78.5 per cent of land is cultivable and of the aforesaid area 97.0 per cent is irrigated. In Binauli block, all the 58 villages have a total area of 20693.7 hectares, of this cultivable area is 86.8 per cent and 93.3 per cent is irrigated. In Baghpat block, all the 51 villages have a total area of 17,588.9 hectares. Of this, cultivable area is 89.8 per cent. Of cultivable area 97.0 per cent is irrigated. Baghpat block with 51 villages have a total land area of 17,588.9. hectares, of this 89.8 per cent is cultivable area and out of this cultivable area 97.0 per cent is irrigated. Pilana. block with 51 villages have a total land area of 18,883.5 hectares. Of this 103.2 per cent is cultivated area, out of which 90.0 per cent is irrigated. Khekra block with a total 47 villages have an area of 14634.0 hectares. Of this 85.5 per cent is cultivable area of which 95.4 per cent is irrigated area.

## TABLE 43 : PER CAPITA RECEIPT AND EXPENDITURE IN STATUTORY TOWNS

| Serial number | Class, name & urban status of the Town | Per capita receipt | | | Per capita expenditure | | | | | |
|---|---|---|---|---|---|---|---|---|---|---|
| | | Total | Through taxes | From all other sources | Total | General Administration | Public health and conveniences | Public works | Public institutions | Other(s) |

Table 43 gives the per capita receipts and expenditure ( in rupees) for each town in the district. The average per capita receipts for towns of the district Baghpat works out to Rs 189 of which Rs 20 are derived through local taxes and the remaining Rs 169 received from all other sources. The average

of total expenditure incurred per head is Rs 130. Out of this Rs 48 are spent on general administration, Rs 39 on public health and conveniences, Rs 16 on public works, Rs 4 on public institutions and Rs 21 is spent other items. Among all the five towns the receipt and expenditure recorded per head are the highest in Baraut NPP.

**TABLE 44 : SCHOOLS / COLLEGES PER 10,000 POPULATION IN STATUTORY TOWNS,**

| Sl. No. | Name and urban status of Town | Type of educational institution | | | | |
|---|---|---|---|---|---|---|
| | | Primary | Junior Secondary / Middle | Secondary / Matriculation | Senior Secondary | College |
| 1 | 2 | 3 | 4 | 5 | 6 | 7 |
| 1 | Agarwal Mandi , NP | 5.6 | 2.4 | 1.6 | 1.6 | 0.8 |
| 2 | Aminagar Sarai, NP | 9.9 | 3.0 | 2.0 | 2.0 | 2.0 |
| 3 | Baghpat, NPP | 6.3 | 1.1 | 0.3 | 0.3 | 0.0 |
| 4 | Baraut, NPP | 5.1 | 2.5 | 1.4 | 0.7 | 0.4 |
| 5 | Chhaprauli, NP | 5.1 | 2.2 | 1.7 | 1.7 | 0.6 |
| 6 | Doghat, NP | 3.0 | 0.8 | 0.8 | 0.8 | 0.0 |
| 7 | Khekada, NP | 4.0 | 2.0 | 1.2 | 1.2 | 1.2 |
| 8 | Tikri, NP | 3.7 | 2.2 | 0.7 | 0.7 | 0.0 |
| | **District** | **5.1** | **2.0** | **0.0** | **0.0** | **0.0** |

Table 44 shows in urban areas of Baghpat district the average number of primary school per 10,000 population comes 5.1 schools, 2.0 junior secondary/ middle,0.0 secondary/matriculation, 0.0 senior secondary schools and the ratio of colleges is also only 0.0 college per 10,000 population. Among the towns, the ratio of primary schools (9.9), junior secondary/middle (3.0), secondary/matriculation (2.0), senior secondary (2.0) and college is highest (2.0) in Aminagar Sarai (N.P).

**TABLE 45 : NUMBER OF BEDS IN MEDICAL INSTITUTIONS IN TOWNS, 2001**

| Sl. No. | Name and urban status of the Town | Number of beds in medical institutions per 10,000 population |
|---|---|---|
| 1 | 2 | 3 |
| 1 | Agarwal Mandi, NP | 0 |
| 2 | Aminagar Sarai, NP | 15 |
| 3 | Baghpat, NPP | 22 |
| 4 | Baraut, NPP | 12 |
| 5 | Chhaprauli, NP | 28 |
| 6 | Doghat, NP | 0 |
| 7 | Khekada, NP | 0 |
| 8 | Tikri, NP | 9 |
| | **Total** | 11 |

Table 45 depicts the number of beds available in medical institutions per 10000 population in each town of Baghpat district. On an average there are 11 beds per 10,000 population in urban areas of the district. Whereas it is the highest 28 in Chhaprauli Nagar Panchayat while lowest value of zero beds is recorded in Agarwal Mandi, Doghat and Khekra .

**TABLE 46 : PROPORTIONOF SLUM POPULATION IN TOWNS 2001**

| Serial number | Name of the Town | Total population | Slum population | Percentage of slum population to total population |
|---|---|---|---|---|
| 1 | 2 | 3 | 4 | 5 |
| | | Not available | | |

TABLE 47 : MOST IMPORTANT COMMODITY EXPORTED OUT OF AND MANUFACTURED IN TOWNS, 2001

| Sl. No. | Name and urban status of Town | Most important commodity | |
|---|---|---|---|
| | | Manufactured | Exported |
| 1 | 2 | 3 | 4 |
| 1 | Agarwal Mandi, NP | Soap, Gur, Sugar | Gur, Sugar, Wheat |
| 2 | Aminagar Sarai, NP | Shoes, Gur, Sugar | Gur, Shoes, Vegetable |
| 3 | Baghpat, NPP | Ice, Mustard Oil, Leather Shoes | Ice, Water Mellon, Mustard Oil |
| 4 | Baraut, NPP | Cycle Rim, Poly bag, Ayurvedic Medicine | Cycle Rim, Poly bag, Ayurvedic Medicine |
| 5 | Chhaprauli, NP | Sugar, Gur, Khandsari | Gur, Wheat, Rice |
| 6 | Doghat, NP | Gur, Flute, -- | Tobacco, Wheat, Flute |
| 7 | Khekada, NP | Handloom Cloth, Gandasa (Axe), -- | Cloth, Gur, -- |
| 8 | Tikri, NP | Gur, Furniture, -- | Wheat, Gur, Shoes |

Table 47 indicates most important articles manufactured and exported out of the each town in the district. The district is well known for a Gur & Sugar town's main exports The chief export items of the district are Gur, Sugar, Wheat are the main items which are manufactured in Agarwal Mandi town and these are mainly exported to other places.

**(x) Brief analysis of the data on houses and household amenities, collected during Census of India 2001 :(based on inset tables 48-52)**

Data on houses and household amenities have traditionally been undertaken a few months before each census.Based upon data collected in the houselist, a few tables on the use of census house, materials of wall, floor and roof etc. are prepared.In 1991 Census, the houselist was considerably expanded with 22 items of information. Again in 2001 census many new items on household assets like radio/transistor, television, telephone, cycle, scooter/ motorcycle/moped, car/jeep and banking facility availed by household etc. for the first time has been added in the schedule. The following is the distribution of households by number of rooms occupied.

**TABLE 48 : HOUSEHOLDS BY TENURE STATUS AND NUMBER OF ROOMS OCCUPIED IN THE DISTRICT, 2001**

| Tenure status | Number of dwelling households | Number of households | | | | | | | | |
|---|---|---|---|---|---|---|---|---|---|---|
| | | Total | | | Scheduled Castes | | | Scheduled Tribes | | |
| | | Total | Rural | Urban | Total | Rural | Urban | Total | Rural | Urban |

| **District total** | | *173,057 | 139,809 | 33,248 | 25,712 | 21,633 | 4,079 | 1,330 | 1,137 | 193 |

Data source: Census of India 2001, H- series: "Tables on Houses, Household amenities and Assets."

* Houselist Household

The above table shows that households having owned tenure status occupy highest place among the total households. The number of households with one room accommodation accounted for 29,556. Out of a total of 173,057 households in the district 46,441 households have two room, 33,913 households are with three rooms accomodation and 55,866 with more than 3 rooms. More than 96 percent of the households have had ownership tenure status. Among scheduled caste one room and two room dwelling households figures 7,312, and 9,147 respectively. Similarly scheduled tribe households number 208 and 301 households. The median number of rooms for the total households were 3 and for scheduled caste and scheduled tribe were 2 and 3 respectively. In case of tenure status of rented the number of one room, two rooms and three rooms figures were 1566, 1,469 and 407 households respectively in the district whereas the corresponding figures for scheduled caste and scheduled tribe were 145, 169, 53 and 14, 47, 11 respectively. The median number of rooms for total households scheduled caste and scheduled tribe were two.

In case of tenure status of "others" one room comprised 1,156, two rooms 1,067 and three rooms 241 households. But among scheduled caste and scheduled Tribe households the corresponding figures were 423, 425, 55 and 52, 8, 2 respectively. Number of dwelling households with no exclusive rooms share very little proportion.

TABLE 49: PERCENTAGE DISTRIBUTION OF HOUSEHOLDS LIVING IN PERMANENT, SEMI PERMANENT AND TEMPORARY HOUSES, 2001

| Serial Number | District/ Tahsil | Total | | | Rural | | | Urban | | |
|---|---|---|---|---|---|---|---|---|---|---|
| | | Permanent | Semi-permanent | Temporary | Permanent | Semi-permanent | Temporary | Permanent | Semi-permanent | Temporary |
| 1 | 2 | 3 | 4 | 5 | 6 | 7 | 8 | 9 | 10 | 11 |
| 1 | Baraut | 43.2 | 53.5 | 3.4 | 39.7 | 56.6 | 3.7 | 57.2 | 40.8 | 2.0 |
| 2 | Baghpat | 58.1 | 39.7 | 2.2 | 53.2 | 44.8 | 2.0 | 74.0 | 23.2 | 2.8 |
| 3 | Khekra | 63.3 | 33.2 | 3.5 | 62.1 | 33.9 | 4.0 | 70.0 | 29.1 | 1.0 |
| **District Total:** | | **51.1** | **45.7** | **3.2** | **48.2** | **48.3** | **3.5** | **63.3** | **34.8** | **1.9** |

The percentage distribution of households as shown in the above table reveals that 51.1 percent households in the district had permanent houses. The trend is lower 48.2 percent in rural but higher in urban (63.2 per cent) areas. Among tahsils highest proportion of permanent houses accounted for in tahsil Khekra (63.3 percent) and lowest in tahsil Baraut (43.2 per cent). In respect of semi permanent houses the return was 45.7 percent at district level where as among tahsils it was highest in tahsil Baraut (53.5 per cent)and lowest in tahsil Khekra (33.3 per cent ). But semi permanent houses in the urban areas were in the proportion range of 23.2 per cent to 40.8 percent/ Temporary houses in the district were 3.2 percent whereas it was 3.5 percent in rural and 1.9 percent in urban areas.

TABLE 50: PERCENTAGE OF HOUSEHOLDS HAVING IMPROVED DRINKING WATER SOURCE, ELECTRICITY, BATHROOM, TOILET AND DRAINAGE FACILITY, 2001

| Serial Number | Tahsil | Total/ Rural/ Urban | Number of households | Number and percentage of households having: Improved drinking water | Electricity | Bathroom | Toilet | Drainage |
|---|---|---|---|---|---|---|---|---|
| 1 | 2 | 3 | 4 | 5 | 6 | 7 | 8 | 9 |

| | | | | 91.3 | 77 | 66.0 | 77.7 | 97.6 |
| **District Total:** | | **Total** | **173,057** | **157,041** | **69,885** | **90,366** | **79,182** | **165,209** |
| | | | | **90.7** | **40.4** | **52.2** | **45.8** | **95.5** |
| | | **Rural** | **139,809** | **125,921** | **44,702** | **67,520** | **53,873** | **133,041** |
| | | | | **90.1** | **32** | **48.3** | **38.5** | **95.2** |
| | | **Urban** | **33,248** | **31,120** | **25,183** | **22,846** | **26,309** | **32,168** |
| | | | | **93.6** | **75.7** | **68.7** | **76.1** | **96.8** |

The above table shows that in district Baghpat 90.7 per cent households had improved drinking water facility, the proportion of rural and urban area was 90.1 and 93.6 per cent. Tahsil Baghpat had higher order of proportion of households where percentage for rural area was 91.9 per cent and 96.5 per cent in urban areas. Electricity was available to 40.4 per cent of households at district level 32.0 per cent rural and 75.7 per cent urban. Bathrooms and toilet facilities were available to 52.5 percent and 45.8 per cent households respectively.Tahsil Khekra poorly served in respect of these amenities. At district level drainage facility was available to 95.5 per cent of households, whereas the proportion of rural and urban areas households accounted for 95.2 and 96.8 per cent.

| | | | | 12.3 | 3.5 | 41.3 | 0.1 | 0.3 | 40.4 | 0.4 | 1.5 | 0.0 | 0.2 |

Data source: Census of India 2001, H-series: Tables on Houses, Household amenities and Assets.

It can be observed from the above table that 70.5 percent households (77.4 percent rural and 41.3 percent urban) use cow dung cake as main source of fuel for cooking food. Next is cooking gas which is used by 13.6 percent households (7.2 rural and 40.4 percent urban). It is followed by 9.0 percent households in the district using Firewood as fuel for cooking, the proportion in the rural area is 8.2 per cent and in urban area it comes to 12.3 per cent. Biogas is used for cooking in 0.4 per cent households (0.1 per cent rural and 1.5 per cent urban). The other methods like crop residue, coal, lignite, charcoal, electricity account for 5.8., 0.1 and 0.3 per cent respectively. The pattern of fuel used for cooking follows the same trend in tahsils (rural areas) where predominant fuel is cow dung cake . The table shows that cow dung cake LPG (cooking gas) and residue are the predominant fuel for cooking in the district.

During 1991Census predominant type of fuel used for cooking was firewood. Among 95,155 households, 79,625 households used firewood, 4,485 households used LPG and 9,225 households used kerosene.

**TABLE 52 : NUMBER AND PERCENTAGE OF HOUSEHOLDS AVAILING BANKING SERVICES AND NUMBER OF HOUSEHOLDS HAVING EACH OF THE SPECIFIED ASSET, 2001**

Data source: Census of India 2001, H-series: Table on Houses, Household amenities and Assets.

The table reveals that out of the total households (173,057) of the district, in all 52.6 per cent could avail banking services at district level while 51.7 per cent and 43.7 per cent enjoyed the availability of household assets radio/transistor.television, 6.7 per cent used telephone 56.8 bicycle, 10.0 scooter/motor/cycle/moped and 1.9 per cent car/jeep, van whereas 22.8 per cent had none of the specified assets.

It also reveals that at tahsil level a highest proportion of 58.4 per cent of households were availing banking services as well as all other households assets in Baraut tahsil. The highest of none of specified assets 23.0 per cent was in tahsil. Baghpat, on the other hand the lowest of 44.1 per cent were availing banking services in Khekra and highest of 53.0 per cent radio/transistor household asset in Baraut tahsil while the rest of the availabilities of household assets at the lowest foot were being availed in Baghpat tahsil and the percentage of the enjoyers of none of the specified assets was 22.9 per cent in Baraut tahsil 22.5 per cent households in Khekra tahsil and 23.0 per cent in Baghpat tahsil. Banking services and the order of percentage of households having all other available household assets was higher in tahsil Baraut than the other tahsils.

**(xi) Major Social and Cultural Events, Natural and Administrative Developments and Significant Activities during the Decade**

In respect of social and cultural events during the decade 1991-2001, nothing particular took place in the district. The social and cultural events follow their traditional paths of fairs, festivals, hats and melas take place as

usual. Among administrative developments, tahsil Baghpat of Meerut district has been given the status of district and Khekra and Baraut have also been created two new tahsils out of Baghpat tahsil and some portion of Sardhana tahsil of Meerut district.

**(xii) Brief description of Places of Religious, Historical or Archaeological importance in villages and places of Tourist interest in the towns of the district:**

Places of religious and tourist interest in the district are in abundance. Some of these are given below:-

**Valmiki Ashram – Baloni** – It is situated on the banks of river Hindon, approximately 25 kms from Baghpat and 29 kms from Meerut on the left bank of the river Hindon. This place is associated with the name of revered sage Valmiki. As mythology would put it, Sita lived here during the days of exile and gave birth to twins Lav and Kush. Several bricks bearing religious imprints have been found around the Ashram. According to local myth, this place is protected by five devtas (Gods) one devta is at the centre of the Ashram and remaining four protect other four corners. Every year a fair is held on Mahashivratri.

**Fort of Lakshgrah – Barnawa** – It is located 42 kms away from Meerut on the right bank of river Hindon in tahsil Baraut. During the epical age, Kaurwas are said to have built the famous "Lakha Mandap" here in order to kill five Pandwas. The castle is in ruins today, it is said to have occupied about 1659 hectares of land and was about 100 feet high. It was renovated by Tomar king Ahivarna. This place also contains the famous Dargah of Budhin Shah and Makhdeem Shah built in the Hijri year 1062. During the excavation, a Sanskrit inscription was also found, which indicates that there were originally Hindu temples. Barnava also has the ancient Sri Chandraprabhu Digamber Jain Atrshay Mandir. The temple has a huge and a magnificent look today. There is a newly built lotus temple within the premises of the Mandir. Devotees from all over the country visit this place.

**Bara Gaon** – This village is famous for three big Jain temples and is a sacred place for the followers of Jain religion.

**Pura Mahadev** – This village situated about 36 kms from Meerut and 30 kms from Baghpat on the bank of river Hindon, is in tahsil Khekra. Sage Parshuram is said to have built a temple of Lord Shiva here. It is a famous shrine of Hindus of west Uttar Pradesh, who bring the holy water from Ganga (Hardwar) twice every year in the months of Phagun and Shravan.

**Baghpat** – It lies on main Delhi – Saharanpur Highway, 70 kms from Delhi and 50 kms from Meerut on the left bank of river Yamuna. The legendary characters of Mahabharata i.e., Pandvas are said to have founded this place and named it as 'Vagnaprastha' or place of speech. Subsequently this place came to be known by its present name Baghpat. It has a famous old temple called "Pakka-Ghatt-Ka-Mandir". At present the seat of district headquarters is at Baghpat. This place is also famous for the constituency of Late Prime Minister of India, Chaudhary Charan Singh.

**Baraut** – It is located on Delhi – Saharanpur Highway, about 20 kms from Baghpat. There are several small and medium size manufacturing units that manufacture agricultural and farming equipments. The town also has big bazaar and a mandi for carrying out commercial activities.

**Rataul** – It lies on the eastern side of eastern Yamuna Canal. It is said that the village was founded more than thousand years ago, a 12$^{th}$ century copper plate having inscription of Chahadadeva, a chauhan prince of Ajmer was found in this village. It has a permanent market of its own. Huge varieties of Mangoes are grown here. More than 600 different varieties of Mango are grown in this region. The famous Mango "Anwar Rataul" was produced by this village and the mother plant of the same variety still stands here in perfectly healthy condition.

**(xiii) Major Characteristics and Contribution of the District :**

Having very agrarian nature of the economy, the district Baghpat is distinguished for producing surplus food grains and sugar. More than 80 per cent of the population is based upon agricultural related activities. Being situated in the proximity of the National Capital Region (NCR), human life and the economy of the district is influenced by the urban settings. During last 20 years there is wide variation in respect of living pattern, food habits, social awareness and overall development of the infrastructure and other facilities. Spread of the network of Television and Radios in more than 80 per cent of the households is an important feature of the society. On the educational front, literacy has almost doubled since 1951. District has produced many freedom fighters who lost their lives during 1857 to 1930. The district

takes pride as Late Chaudhary Charan Singh became the Chief Minister of Uttar Pradesh as also Prime Minister of India. His family members are following this tradition. The people of the district are hardworking and patriotic.Women's contribute physically to agricultural sector.

### (xiv) Scope of Village Directory & Town Directory

**Village Directory :**

The village directory as the title connotes presents information pertaining to rural areas of the district at C.D block/ village level. For each C.D. block a list of villages serialized by English alphabetical order along with their location code numbers of 2001 and 1991 census has been presented. The rational of giving 2001 location code along with 1991 location code is to facilitate the identification of villages for matching information collected at each Census. The villages which have been wholly merged in Nagar Nigam, Nagar Palika Parishad and Nagar Panchayat are not included in the list. In case of partly merged villages, the remaining rural part of the villages has been treated as independent revenue village and the data have been presented for such villages in the village directory.

However, the villages treated as outgrowth of an Urban Agglomeration or Nagar Panchayat are listed in the village directory but no data are presented against the name of such villages. All these villages are listed in the Primary Census Abstract (rural) without presenting their data for providing cross references. Uninhabited or depopulated villages are listed but only area of the village and land use pattern is given. A note against such a village indicates the state of its being depopulated or uninhabited.

The village directory brings out some basic information about a village. These data can broadly be classified into the following categories:

| | | |
|---|---|---|
| 1. | Population and households | Cols.4 & 5 |
| 2. | Amenities. | Cols.6 to 13 |
| 3. | Other infrastructural facilities etc. | Cols.14 to 16 |
| 4. | Availability of news paper/ magazine | Column 17 |
| 5. | Commodities manufacture | Column 18 |
| 6. | Total area of village and land use pattern | Column 3 & 19-23 |

**Town Directory :**

The Town Directory covers all the towns in a district. The towns are arranged by English alphabetical order. The data are presented in seven statements serially numbered (I) to (VII).

The following mode of listing of towns has been followed:-

(i) All the towns having statutory status which are not part of an Urban Agglomeration are listed once in the alphabetical arrangement of the towns.

(ii) All the towns which are part of an Urban Agglomeration and enjoy independent status of a statutory town are listed twice in the alphabetical arrangement of the towns as well as under the main town of an Urban Agglomeration. However, the data are presented separately only once under the main UA. In alphabetical arrangement a note is given against such towns that they are part of such and such Urban Agglomeration.

(iii) The outgrowth(s) of a town which do not qualify themselves for being treated as independent town are not listed in the main body of the Directory. Against name/names of the town having outgrowth(s) an asterisk (*) has been placed to indicate that the town has outgrowth(s).

(iv) Census towns are also listed in the body of Directory. These are the towns which do not enjoy statutory status but are declared towns for the purpose of population Census.

Town Directories of the districts give an account of status and growth history of towns, location and physical aspects of the towns, municipal finances during 1998-1999, civic and other amenities up to 1999 (as well in notified slums), medical, educational, recreational and cultural facilities by year 1999, and trade, commerce, industry and banking activities in year 1999. In this way population and growth rates of towns from 1901 to 2001, density in 2001, sex-ratio during 1981, 1991 and 2001 censuses, rainfall and temperature of the towns, receipts and expenditures in the towns of the district, road length, system of sewerage, number of latrines, method of disposal of night soil, water supply position and fire fighting services, number of electric connections, number of hospitals, colleges, cinemas etc. and number of banks as well as commodities manufactured and exports are enumerated vividly in various statements relating to the town directories of the districts.

# PART A
# VILLAGE AND TOWN DIRECTORY

# Section - I : Village Directory

**Note explaining the abbreviations used in the village directory :**

The "Village Directory" is one of the traditional compilations of the Census. It gives the list of villages, their location numbers, their area, population, number of households, amenities such as educational, medical, drinking water, post and telegraph, commercial and co-operative banks, agricultural non-agricultural and other credit societies, recreational and cultural facilities, communication, approach to village, nearest town with a distance, power supply availability of newspaper and magazines, most important commodity manufactured and land use of each village.

Village is a statutory recognized unit having a definite boundary and separate land records. In case, a complete village is treated as an outgrowth of urban agglomeration, data on amenities for that village, have not been given in the Village Directory but shown along with the urban component. The villages which are consider as a Census Town , the amenities data are shown in the Town Directory. For those villages which have partly merged in an outgrowth of U.A., the amenities data are shown in the Village Directory for that particular village.

The 'un-inhabited' villages (villages with no population) have been indicated as such after furnishing details in columns 1 to 3 i.e., Serial number, Name of village & location code number and area of the village against column no. 4 to 18. The land use data for such villages are shown in col. 19 to 23.

The Village Directory format has 23 columns and the details given under each column are for the village are as follows:-

**Columns 1 : Serial Number**

Self explanatory. All the villages within the CD Block are presented serially in the ascending order of their location code number.

**Columns 2 : Name and Location Code Number of village.**

The name and location code number of the village are shown against these columns. This also includes the forest and uninhabited villages.

**Column 3 : Area of the village**

The area of the villages in hectares are given. Wherever the area figures was not furnished by the concerned department the column is left blank.

**Column 4 : Total population**

The total population of the village as per 2001 Census is given against this column.

**Column 5 : Number of households**

The number of households as per 2001 Census is given in this column.

**Amenities :**

In column 6 to 23, availability in respect of different amenities such as education, medical, drinking water, post, telegraph, banks, credit societies, communication, power, approach road etc., in each village has been depicted with appropriate codes against the column concerned. Wherever the amenities are not available in the village, a dash(-) is shown in the column and next to it in brackets the distance in broad ranges viz.< 5 kms., 5-10 kms. and 10+ kms of the nearest place where the facility is available is given. Column wise details are given below :

**Column 6 : Educational**

Classes upto class V included in Primary School. This will include nursery school, kindergarten school. Pre-basic school, pre-primary school, junior basic school upto class V.

Classes from VI to VIII are included in the middle school.

Classes from IX and X included in High secondary school. Classes XI and XII are included in senior secondary school.

In case of composite schools like middle school with primary school or secondary school with middle school, these are also included in the number of primary and middle schools, respectively.

Accordingly any of the following types of institutions if exists within the village is shown as per codes given below :

| | | |
|---|---|---|
| (i) | Primary School | P |
| (ii) | Middle School | M |
| (iii) | Secondary School | S |
| (iv) | Senior Secondary School | PUC |
| (v) | College | C |
| (vi) | Industrial School | I |
| (vii) | Training School | Tr |
| (viii) | Adult literacy class/centre | AC |
| (ix) | Others (specify) e.g. Sanskrit Pathshala, Senior basic school, Navodaya Vidyalaya, Makhtab, etc. | O |

More than one institution of a type in the village is indicated by the number within brackets against the abbreviation, e.g. P(3), M(4), etc.

**Column 7 : Medical**

Availability of medical facility within the village is indicated by following codes :

| | | |
|---|---|---|
| (i) | Allopathic Hospital | H |
| | Ayurvedic Hospital | HA |
| | Unani Hospital | HU |
| | Homeopathic Hospital | HHom |
| (ii) | Allopathic Dispensary | D |
| | Ayurvedic Dispensary | DA |
| | Unani Dispensary | DU |
| | Homeopathic Dispensary | DHom |
| (iii) | Maternity & Child Welfare | MCW |
| (iv) | Maternity Home | MH |
| (v) | Child Welfare Centre | CWC |
| (vi) | Health Centre | HC |
| (vii) | Primary Health Centre | PHC |
| (viii) | Primary Health Sub-Centre | PHS |
| (ix) | Family Welfare Centre | FWC |
| (x) | T.B. Clinic | TB |
| (xi) | Nursing Home | NH |
| (xii) | Registered Private Medical Practitioner | RMP |
| (xiii) | Subsidised Medical Practitioner | SMP |
| (xiv) | Community Health Worker | CHW |
| (xv) | Others | O |

More than one institution of a type in the village is indicated by the number within brackets against the abbreviations, e.g. H(3), D(4), etc.

**Column 8 : Drinking Water**

The type of the drinking water supply sources available within the village are indicated by codes as follows :

| | | |
|---|---|---|
| (i) | Tap Water | T |
| (ii) | Well Water | W |
| (iii) | Tank Water | TK |
| (iv) | Tubewell Water | TW |
| (v) | Handpump | HP |
| (vi) | River Water | R |
| (vii) | Canal | C |
| (viii) | Lake | L |
| (ix) | Spring | S |
| (x) | Others | O |
| (xi) | Summer Source | SS |

**Column 9 : Post, Telegraph and Telephone**

It is indicated by codes as shown below whether within the village exists the following amenities:

| | | |
|---|---|---|
| (i) | Post Office | PO |
| (ii) | Telegraph Office | TO |
| (iii) | Post & Telegraph Office | PTO |
| (iv) | Telephone Connection | PH |

**Column 10: Commercial and Co-operative Banks**

If the village is served by any banking service, commercial bank, co-operative bank etc. the same is indicated in codes mentioned below along with the number of banks in brackets. If not available the distance of nearest place where the facility exist is given:

| | | |
|---|---|---|
| (i) | Commercial Bank | CM |
| (ii) | Co-operative Bank | CP |

**Column 11: Credit Societies**

If the village enjoys the services of Credit Societies i.e. Agricultural Credit Societies, Non Agricultural Credit Society or Other Credit Societies, the same is indicated in codes mentioned below along with the number of such societies in brackets. In case the facility is not available within the village the distance of the nearest place where such facility exist is given :

| | | |
|---|---|---|
| (i) | Agricultural Credit Society | ACS |
| (ii) | Non-Agricultural Credit Society | NCS |
| (iii) | Other Credit Society | OCS |

**Column 12 : Recreational and cultural facilities**

If facilities such as Cinema/Video hall, Sports Club, Stadium/Auditorium is available in the village. The same is recorded in these columns. If not available the particulars of the nearest place with the facility is recorded. The information is indicated in codes mentioned below along with the number of such facilities in brackets:

| | | |
|---|---|---|
| (i) | Cinema / Video Hall | CV |
| (ii) | Sports Club | SP |
| (iii) | Stadium / Auditorium | ST |

**Column 13 : Communications**

If the village is served by any mode of public / private transport like Bus, Railway station or Navigable water ways they are to be mentioned as follows:

| | | |
|---|---|---|
| (i) | Bus | BS |
| (ii) | Railway Station | RS |
| (iii) | Navigable Waterway | NW |

**Column 14 : Approach to village**

Approach to village refers to the state of road leading to village. The approach to the village is indicated in following codes :

| | | |
|---|---|---|
| (i) | Paved Road | PR |
| (ii) | Mud road | MR |
| (iii) | Foot path | FP |
| (iv) | Navigable River | NR |
| (v) | Navigable Canal | NC |
| (vi) | Navigable waterways other than River, Canal | NW |

**Column 15 : Nearest Town and distance**

The distance is given in kilometres in brackets against the name of the town nearest to the village.

**Column 16 : Power supply**

Availability of Power Supply in the village, whatever may be the form of its use is given by using following codes :

| | | |
|---|---|---|
| (i) | Electricity for domestic use | ED |
| (ii) | Electricity for agricultural use | EAG |
| (iii) | Electricity for other purposes | EO |
| (iv) | Electricity for all purposes | EA |

**Column 17 : News Paper / Magazine**

If village receives any News Paper/Magazines the same is noted in this column using following codes:

| | | |
|---|---|---|
| (i) | News Paper | N |
| (ii) | Magazine | M |

**Column 18 : Most important commodities manufactured**

The name of three most important commodities manufactured in the village is recorded against this column.

**Column 19 to 23 : Land use i.e. area under different types of land use**

Land use data maintained by the State/ UT Govts. are furnished against these columns. The data concerning area under Forest, Irrigated land (by source), Un-irrigated land, Culturable waste and Area not available for cultivation in the village are shown against these columns. The area figures are given in hectare(s) up to one decimal. Dash '-' is recorded wherever the information is not made available by the concerned department. The codes used for different types of irrigation facilities available in the village are indicated below:

| | | |
|---|---|---|
| (i) | Government Canal | GC |
| (ii) | Private Canal | PC |
| (iii) | Well (without electricity) | W |
| (iv) | Well (with electricity) | WWE |
| (v) | Tubewell (with electricity) | TW |
| (vi) | Tubewell(without electricity) | TWE |
| (vii) | Tank | TK |
| (viii) | River | R |
| (ix) | Lake | L |
| (x) | Waterfall | WF |
| (xi) | Others | O |
| (xii) | Total | T |

The village directory also carries the following appendices.

| | |
|---|---|
| Appendix-I | It gives the abstract of educational, medical and other amenities available in villages C D Block wise of the district. |
| Appendix-I-A | Indicates number of villages C D Block wise having one or more primary schools. |

| | |
|---|---|
| Appendix-I-B | Indicates number of villages C D Block wise having primary, middle and secondary schools. |
| Appendix-I-C | Shows number of villages C D Block wise with different sources of drinking water facilities. |
| Appendix-II | Indicates the list of villages with 5,000 and above population which do not have one or more important amenities. |
| Appendix-II-A | Indicates list of Census Towns which do not have one or more amenities. |
| Appendix-III | It gives the land utilization data in respect of Census Towns / non-municipal Towns. |
| Appendix-IV | C D Block wise list of inhabited villages where no amenity other than drinking water facility is available. |
| Appendix-V | Summary showing number of villages having or not having Scheduled Castes population. |
| Appendix-VI | Summary showing number of villages having or not having Scheduled Tribes population. |
| Appendix-VII A | List of villages according to proportion of Scheduled Castes to the total population by ranges. |
| Appendix-VII B | List of villages according to proportion of Scheduled Tribes to the total population by ranges. |
| Appendix-VIII | Indicates C D Block wise number of villages under each Gram Panchayat. |
| Appendix-IX | Shows number of different types of girls school in a village. |

## STATEMENT

## LIST OF VILLAGES FULLY MERGED IN TOWNS AND OUTGROWTH AT 2001 CENSUS

| Serial. Number | Name of the Village | Location Code number | Merged in Town and Outgrowth |
|---|---|---|---|
| 1 | 2 | 3 | 4 |

Not applicable as there is no village merged in towns and any outgrowths in the district at 2001 Census.

## APPENDIX II-A

## CENSUS TOWNS WHICH DO NOT HAVE ONE OR MORE AMENITIES

| Serial number | Name of census town | Location code number | Name of C. D. block | Population | Amenities not available (indicate N. A. where amenity not available) | | | Amenities not available ( indicate N. A. where amenity not available) | | | |
|---|---|---|---|---|---|---|---|---|---|---|---|
| | | | | | Senior Secondary School | College | Health Centre | Tap drinking water | Bus facility | App-roach by Pucca road | Banks |
| 1 | 2 | 3 | 4 | 5 | 6 | 7 | 8 | 9 | 10 | 11 | 12 |
| NIL | | | | | | | | | | | |

## APPENDIX III

## LAND UTILISATION DATA IN RESPECT OF CENSUS TOWNS/NON-MUNICIPAL TOWNS

| Serial number | Name of town and C.D. Block within brackets Area | Land use (Area under different types of land use in hectares) | | | | | |
|---|---|---|---|---|---|---|---|
| | | Total Area | Forest | Irrigated by source | Unirrigated | Culturable Waste (including gouchar and groves) | Area Not available for cultivation |
| 1 | 2 | 3 | 4 | 5 | 6 | 7 | 8 |
| N.A. | | | | | | | |

## APPENDIX IV

## C.D. BLOCK WISE LIST OF INHABITED VILLAGES WHERE NO AMENITY OTHER THAN DRINKING WATER FACILITY IS AVAILABLE

| Serial number | Location code number | Name of village |
|---|---|---|
| 1 | 2 | 3 |
| **Name of CD Block: Chhaprauli** | | |
| 1 | 01039200 | Chhaprauli Dehat (Now In Nagar) |
| **Name of CD Block: Baraut** | | |
| 2 | 01042000 | Aurangabad Jathauli |
| 3 | 01043400 | Akbarpur Thasaka |
| **Name of CD Block: Binauli** | | |
| 4 | 01048500 | Khaprana |
| **Name of CD Block: Baghpat** | | |
| 5 | 01054100 | Jahangarh Urf Doja |
| **Name of CD Block: Pilana** | | |
| 6 | 01059200 | Dilavar Nagar |
| 7 | 01060300 | Mozzampur Urf Ladpur |
| **Name of CD Block: Khekra** | | |
| 8 | 01064400 | Sikanderpur |

APPENDIX V - Village Directory

**Summary showing number of villages not having Scheduled Castes population**

| Serial number | Name of C.D. block | Total villages | Uninhabited villages | Inhabited villages | Number of inhabited villages having no Scheduled Castes population |
|---|---|---|---|---|---|
| 1 | 2 | 3 | 4 | 5 | 6 |
| 1 | Chhaprauli | 31 | 4 | 27 | 1 |
| 2 | Baraut | 56 | 1 | 55 | 4 |
| 3 | Binauli | 63 | 5 | 58 | 3 |
| 4 | Baghpat | 55 | 4 | 51 | 2 |
| 5 | Pilana | 58 | 7 | 51 | 4 |
| 6 | Khekra | 52 | 4 | 48 | 5 |
| | **District Total:** | **315** | **25** | **290** | **19** |

APPENDIX VI - Village Directory

**Summary showing number of villages not having Scheduled Tribes population**

| Serial number | Name of C. D. block | Total villages | Uninhabited villages | Inhabited villages | Number of inhabited villages having no Scheduled Tribes population |
|---|---|---|---|---|---|
| 1 | 2 | 3 | 4 | 5 | 6 |
| 1 | Chhaprauli | 31 | 4 | 27 | 27 |
| 2 | Baraut | 56 | 1 | 55 | 53 |
| 3 | Binauli | 63 | 5 | 58 | 58 |
| 4 | Baghpat | 55 | 4 | 51 | 51 |
| 5 | Pilana | 58 | 7 | 51 | 50 |
| 6 | Khekra | 52 | 4 | 48 | 47 |
| | **District Total:** | **315** | **25** | **290** | **286** |

## APPENDIX VII A

## LIST OF VILLAGES ACCORDING TO THE PROPORTION OF THE SCHEDULED CASTES TO THE TOTAL POPULATION BY RANGES

### A-SCHEDULED CASTES

| Range of Scheduled caste population (percentages) | Location code number | Name of village | Range of Scheduled caste population (percentages) | Location code number | Name of village |
|---|---|---|---|---|---|
| 1 | 2 | 3 | 1 | 2 | 3 |
| **Name of CD Block: Chhaprauli** | | | | 01042700 | Shabga |
| **Less than 5** | | | | 01045400 | Shahpur |
| | 01037400 | Tanda | | Baroli | |
| | 01038200 | Asara | | 01041700 | Acharaj |
| **5-10** | | | | Khera | |

## APPENDIX VII B

## LIST OF VILLAGES ACCORDING TO THE PROPORTION OF THE SCHEDULED TRIBES TO THE TOTAL POPULATION BY RANGES

| Range of Scheduled Tribes population (percentages) | Location code number | Name of village |
|---|---|---|
| 1 | 2 | 3 |
| **Name of CD Block: Chhaprauli** | | |
| **Name of CD Block: Baraut** | | |
| **Less than 5** | | |
| | 01041300 | Hasanpur Jiwani |
| | 01041000 | Kishanpur |
| **Name of CD Block: Binauli** | | |
| **Name of CD Block: Baghpat** | | |
| **Name of CD Block: Pilana** | | |
| **Less than 5** | | |
| | 01060800 | Poother |
| **Name of CD Block: Khekra** | | |
| **Less than 5** | | |
| | 01065200 | Hazipur Viran |

Note:- Villages having NIL Scheduled Tribes Population have been excluded

## APPENDIX VIII

## NUMBER OF VILLAGES UNDER EACH GRAM PANCHYAT (C.D. BLOCK WISE)

| Serial number | Name of gram panchayat and location code number | Area of gram panchayat in hectare | Number of villages with location code numbers | | Number of households | Total population | Total SC population | Total ST population | Income and expenditure of Gram panchayat (in Rs.'000) | |
|---|---|---|---|---|---|---|---|---|---|---|
| | | | Number of villages with location code numbers | Location code | | | | | Total income | Total expenditure |
| 1 | 2 | 3 | 4 | 5 | 6 | 7 | 8 | 9 | 10 | 11 |
| N.A. | | | | | | | | | | |

## APPENDIX IX

## STATEMENT SHOWING NUMBER OF GIRLS SCHOOLS IN THE VILLAGES

| Name of District | Name of C.D. Block | Location Code Number | Name of Village | No. of Girls School |
|---|---|---|---|---|
| 1 | 2 | 3 | 4 | 5 |
| N.A. | | | | |

# SECTION II - TOWN DIRECTORY

# Town Directory

**Note explaining the abbreviations used in Town Directory :**

**Statement I : Status and Growth History**

**Column (2) : Class, name and civic administration status of town :**

Class has been introduced to facilitate analysis of town directory data at the state and all India levels. It is presented according to 2001 Census Population of the town as follows :

| Population | Class |
|---|---|
| 100,000 and above | I |
| 50,000 - 99,999 | II |
| 20,000 - 49,999 | III |
| 10,000 - 19,999 | IV |
| 5,000 - 9,999 | V |
| Below 5,000 | VI |

Town with a population of one hundred thousand (1,00,000) and above is treated as a city.

The civic administration status of the towns is indicated within bracket against the name of the town. The following abbreviations are used to denote civic status of town.

| | | |
|---|---|---|
| (i) | Municipal Corporation | M.Cor/NN |
| (ii) | Municipal Committee | MC |
| (iii) | Municipal Council | M Cl |
| (iv) | City Municipal Council | CMC |
| (v) | Town Municipal Council | TMC |
| (vi) | Municipal Board | MB/NPP |
| (vii) | Municipality | M |
| (viii) | Cantonment Board/ Cantonment | CB |
| (ix) | Notified Area | NA |
| (x) | Notified Town | NT |
| (xi) | Notified Area Committee/ Notified Area Council | NAC |
| (xii) | Notified Town Area | NTA |
| (xiii) | Industrial Notified Area | INA |
| (xiv) | Industrial Township | ITS |
| (xv) | Township | TS |
| (xvi) | Town Panchayat | TP |
| (xvii) | Nagar Panchayat | NP |
| (xviii) | Town Committee/Town Area Committee | TC |
| (xix) | Small Town Committee | ST |
| (xx) | Estate office | EO |
| (xxi) | Gram Panchayat | GP |
| (xxii) | Census Town | CT |

**Statement II**

**Physical Aspects and Location of towns,1999.**

**Column 3 to 5 : Physical Aspects**

In this columns the Rainfall and Maximum & Minimum Temperature of the town is recorded.

**Column 6, 7 and 8 :**

Name of the State headquarters, District headquarters and Sub-Divisional headquarters with distance from the referent town in kilometers, is to be recorded respectively. If the names mentioned in these columns are the same as the referent town itself, the distance is recorded as (0) zero.

**Column 9 & 10 :**

Name of the nearest city with one lakh and more and five lakh and more population are recorded.

**Column 11, 12 and 13 :**

If referent town enjoys the facility of railway station, bus route facility or navigable river/canal. Its name is to be mentioned. If not available, then the name of nearest place with distance, where such facility exists is to be mentioned.

**Statement III**

**Municipal Finance 1998 -1999**

Item-wise amount of receipt and expenditure in thousand rupees, relating to municipal finance of the town for the year 1998-99 is to be recorded.

**Statement IV**

**Civic and Other amenities,1999**

**Column (1 to 5) : Self explanatory.**

**Column (6) : Road length (in kms.)**

Information about kutcha/pucca road is to be recorded separately for the roads within the limits of the referent town.

| | | |
|---|---|---|
| (i) | Puccha Road | PR |
| (ii) | Kutchha Road | KR |

**Column (7) : System of Sewerage**

Generally, by sewerage system is implied the network of mains and branches of underground conducts for the conveyance of sewerage to the point of disposal. Sewers that carry only household and industrial wastes are called separate sewers, those that carry storm water from roofs, streets and other surface are known as storm water drains, while those

carrying both sewage and storm water are called combined sewers.

The codes used for different types of drainage system are as follows :

| | | |
|---|---|---|
| (i) | Sewer | S |
| (ii) | Open Surface Drains | OSD |
| (iii) | Box Surface Drains | BSD |
| (iv) | Sylk Drains | SD |
| (v) | Cesspool method | CP |
| (vi) | Pit System | Pt |
| (vii) | Others | O |

**Column 8 to 11 : Number of latrines**

Number of various types of latrines both Public and Private are given in these columns.

**Column 12 : Method of disposal of night soil**

The various prevalent method of disposal of night soil are given below with codes :

| | | |
|---|---|---|
| (i) | Head Loads | HL |
| (ii) | Basket | B |
| (iii) | Wheel Barrows | WB |
| (iv) | Septic Tank | ST |
| (v) | Pit System | Pt |
| (vi) | Sewerage | S |
| (vii) | Others | O |

**Column 13 and 14 : Water supply**

Source and capacity of storage system. The following codes are used in these columns:

**Column 13:**

| | | |
|---|---|---|
| (i) | Tap water | T |
| (ii) | Tube-well water | TW |
| (iii) | Tank Water | TK |
| (iv) | Well water | W |

**Column 14:**

| | | |
|---|---|---|
| (v) | Over Head Tank | OHT |
| (vi) | Service Reservoir | SR |
| (vii) | River Infiltration Gallery | RIG |
| (viii) | Bore Well Pumping System | BWP |
| (ix) | Pressure Tank | PT |

The information on major source of water supply are given in column 14 and the storage capacity against each in kilo-litres (in bracket) are presented in column 15.

**Column 15 : Fire Fighting Service**

In case the fire fighting service is available in the referent town 'yes' is recorded. If the facility is not available within the town. The name of the nearest place having this facility with its distance from the referent town has been recorded.

**Column 16 to 20 : Electrification (Number of connections)**

Different types of electric connections have been shown in these columns, i.e. Domestic, Industrial, Commercial, Road lighting (points) & others.

**Statement - V**

**Medical, Educational, Recreational and Cultural Facilities, 1999**

**Column 1 to 3 : Self explanatory.**

**Column 4 & 5 :**

The data covers all such medical institutions run by or aided by Government/Semi Government/Local bodies and Charitable institutions or Social agencies like the Missionaries. Where the family planning centres are attached to hospitals or maternity and child welfare centres or Primary Health Centres, may be treated as independent units and counted separately using following codes :

| | | |
|---|---|---|
| (i) | Hospital | H |
| (ii) | Dispensary | D |
| (iii) | Health Centre | HC |
| (iv) | Family Welfare Centre | FWC |
| (v) | T.B. Clinic | TB |
| (vi) | Nursing Home | NH |
| (vii) | Others | O |

In case of more than one institutions of any type, it is indicated within brackets the number of such institution (s) e.g. D(3), NH(8), etc. The institutions have further been distinguished by providing additional codes within the bracket as given below :

| | |
|---|---|
| Ayurvedic | A |
| Unani | U |
| Homoeopathic | Hom |

**Column 6 to 9 :**

The codes used for these columns are as follows

| | | |
|---|---|---|
| (i) | Arts only | A |
| (ii) | Science only | S |
| (iii) | Commerce only | C |
| (iv) | Arts & Science only | AS |
| (v) | Arts & Commerce only | AC |
| (vi) | Combined for all categories-Arts, Science and Commerce | ASC |

| | | |
|---|---|---|
| (vii) | Law | L |
| (viii) | University | U |
| (ix) | Others | O |

**Column 10 : Recognized shorthand, typewriting and vocational training institutes**

"Recognised" should mean recognised by some statutory authority, like education department, commerce department, labour department etc. of the government or semi government or autonomous bodies, public sector undertakings etc.

The following codes are used :

| | | |
|---|---|---|
| (i) | Pucca Road | PR |
| (ii) | Kutcha Road | KR |

**Column 11 to 14:**

Higher Secondary/Interimediate/Senior Secondary/PUC/Junior College level, Secondary/ Matriculation, Middle Schools/ Junior Secondary and Primary Schools.

School up to class V are treated as Primary or elementary schools. These include Nursery schools, Kindergarten schools, Pre-Primary schools, Junior Basic schools upto class V and Primary schools upto class IV.

Schools upto VIII are considered as Middle school or Junior Secondary.

Schools upto class X are considered as Matriculation or Secondary schools.

Schools upto XI or XII classes are considered as Higher Secondary/Intermediate/Pre University/ Junior College etc. This would cover 10+2 classes whether held in schools or college.

If there are composite schools like middle schools with primary classes or Secondary schools with Middle classes, these are also included in the number of Primary and Middle schools, respectively. For example, if in a town, there are two Primary Schools and one Middle school with Primary classes, the number of Primary schools in the town is given as three and that of Middle schools as one though there are only three educational institutions.

If there are more institutions of a type in the town, the number is indicated within bracket along with the abbreviation, e.g. P(4), M(3).

**Column 15 : Adult literacy class/centres**

This column has been introduced keeping in view the Minimum Needs Programme of the Planning Commission. There are number of Adult Education Centres which are included in these columns.

If an educational facility is not available in the town, the name of the nearest place and its distance in kilometres from the town where the facility is available is mentioned.

**Column 16 : Working Women's hostels with number of seats**

The number of working women's hostel if available in the referent town is mentioned with number of seats. If the facility is not available in the town the name of nearest place with distance where the facility is available is recorded.

**Column 17 to 19 : Recreational and Cultural Facilities**

Stadium, Cinema, Auditorium/Drama/Community Hall are covered under recreational & cultural facilities. The particulars of permanent recreational facilities are considered for these columns.

**Column 20 :Public Libraries, Reading Rooms**

Number of public libraries and reading rooms available in the referent town are recorded in codes as follows :

| | | |
|---|---|---|
| (i) | Public Library | PL |
| (ii) | Reading room | RR |

**Statement - VI**

**Trade,Commerce, Industry and Banking,1999**

**Column 3 to 8 :**

Name of three most important commodities exported and names of three most important commodities manufactured in the town are recorded.

**Column 9 : Number of Banks**

Number of Banks available in the referent town both Commercial and Co-operative banks are recorded against this column.

**Column 10 & 11 : Number of Agricultural Credit Societies and Non Agricultural Credit Societies**

The total number of Agricultural Credit Societies and Non Agricultural Credit Societies in the referent town are recorded against these columns.

**Statement - VII**

**Civic and other Amenities in Slums, 1999**

This is the statement on civic and other amenities in all slums whether notified or not and for all towns having statutory bodies, like municipality, Municipal Corporation, Town area committee etc.

As no Towns having any outgrowth in the District are there, therefore the information is 'NIL'.

## PART B - PRIMARY CENSUS ABSTRACT

# Brief note on Primary Census Abstract

The first census of the third millennium and twenty first century the Census of India, 2001 was the 14th continuous and uninterrupted Indian census since 1872. Thus, 2001 Census will provide data on population and its characteristics marking transition from one century and millennium to another.

The gigantic operation of Population Enumeration (considered by many to be the single largest and complex peace time administrative exercise in the world) was made possible due to the door to door universal canvassing of the Household Schedule by about 2 million enumerators and supervisors covering 593 districts, 5,463 sub-districts, 5,161 towns and 638,588 villages. The comprehensive Household Schedule which replaced the individual slip had three parts and two sides A and B. Part I contained the Location Particulars; Part II related to the Individual Particulars and Part III contained questions for Household engaged in Cultivation/Plantation. The part II of the Household Schedule had 39 columns and 23 questions all of which were universally canvassed and no sampling was resorted to during enumeration.

**Data Processing**

A quantum leap was made in the technology front while processing the Census 2001 data both for Houselisting and Population Enumeration. The Census schedules for both the phases were scanned through high speed scanners in fifteen data centers across the country and hand-written data from the schedules were converted into digitized form through Intelligent Character Reading (ICR) software for creation of ASCII records for further processing. The designing and formatting of the Household Schedule had to be done very carefully using specialized software so as to ensure uniformity, which was an essential pre-requisite for scanning. The selection of appropriate state-of-art technology in data processing has made it possible to produce all the Houselisting as well as Population Enumeration tables on full count basis for the first time in the history of Census. For Census 2001, about 202 million schedules consisting of about 1,028 million records were scanned and processed within a span of only 10 months starting October, 2002.

**Task Force on Quality Assurance**

After the data is processed, it is expedient on the part of the data producing agency to satisfy itself about its quality before putting the same in public domain. This has to be done mainly through the process of internal consistency, comparison with similar data in the past and also through validation with likewise data if available, from external sources. Quite often the local knowledge and perception has to be brought into play to understand both the existing and the new emerging trends of population distribution and characteristics. The other very important aspect of the data quality is to ensure complete coverage of all geographical areas specially for the population enumeration phase where the data is disseminated right up to the village level in the rural areas and the ward level in the urban areas. Thus ensuring the complete coverage and correct geographical linkage of each enumeration block was one of the major planks of the quality control, specially for small area population statistics.

A very comprehensive check and edit mechanism was put in place to objectively examine the preliminary Census 2001 Population Enumeration results and finally clear them for use. The responsibility of the final clearance of data was with the Task Force on Quality Assurance (TFQA), headed by the Registrar General and Census Commissioner, India. The other members of the TFQA were the Heads and senior officers of the Census Division, Data Processing Division, Map Division, Demography Division and Social Studies Division. The Directors of Census Operations were co-opted as members whenever the TFQA discussed the data for their States/Union territories. The Directors and their senior officers were required to make detailed presentations of data for their own state both in respect to the quality and the coverage and only after

the full possible cleared.

There has been a major departure in Census 2001 from the past in respect of the procedure followed for finalization of the Scheduled Castes and the Scheduled Tribes population. In the earlier censuses, the total Scheduled Castes and Scheduled Tribes populations were finalized at the time of the manual compilation of the Primary Census Abstracts (PCA) at the Regional Tabulation Offices which were specially set up for this purpose. The individual Scheduled Castes and the Scheduled Tribes population for each state was finalized much later based on manual coding done by the coders. In 2001 Census, each individual Scheduled Caste and the Scheduled Tribe have been coded directly on the computers by the Data Entry Operators through a process known as Computer Assisted Coding (CAC) and taken up along with the processing of PCA data. The CAC process involves pulling down, from the relevant dictionary of the Scheduled Castes and the Scheduled Tribes, on the computer screen and coding from the dictionary by referring to the image of the specific individual entry in the Household Schedule appearing on the screen. The CAC of the response on Religion wherever required, was also undertaken along with the processing of PCA. This is because the Scheduled Castes status had to be determined in relation to the religion of the individual. Two Special Task Forces, one on Religion and the other on Scheduled Castes/Scheduled Tribes were constituted for scrutiny and appropriate classification of these responses.

The main task of the Special Task Force on Religion was to appropriately merge or group the new responses encountered and code it into the appropriate religious community based on available literature and local knowledge. The Special Task Force on Scheduled Castes and Scheduled Tribes examined the different Scheduled Castes and Scheduled Tribes entries encoun-tered and classified these into appropriate category of the Scheduled Castes or the Scheduled Tribes principally based on the Presidential Notification and the available literature. Thus a very systematic and scientific mechanism was operationalised to firm up the individual religion and the individual Scheduled Castes/Tribes returns. The Scheduled Castes and the Scheduled Tribes population in 2001 Census, is thus being finalized by aggregating the population data for individual Scheduled Castes and the Scheduled Tribes at appropriate geographical levels.

The entire work relating to the data validation and scrutiny was completed by all the States/Union Territories under the overall supervision and monitoring of the Census Division of the Office of the Registrar General, India with active cooperation and support of the Social Studies Division, Data Processing Division, Data Dissemination Division and Map Division.

**Primary Census Abstract**

The Primary Census Abstract which is yet another important feature of 2001 Census gives basic information on Area, Total Households, Total population, Scheduled Castes, Scheduled Tribes population, Population in the age group 0-6, Literates, Main workers and Marginal workers classified by the four broad industrial categories, namely, (i) Cultivators, (ii) Agricultural laborers, (iii) Household Industry Workers, and (iv) Other workers and also Non-workers. The characteristics of the Total Population includes Scheduled Castes, Scheduled Tribes, Institutional and Houseless population and are presented by sex and rural-urban residence. This data is presented at different levels, namely, India, States/Union territories, Districts and Cities, Urban Agglomerations (Population 1,00,000 and above) in three different tables. In addition, the Appendix of said publication provides Houseless and Institutional Households and their population by residence and sex for 2001 for India, State and Union territory.

Apart from the India and State/Union Territory volumes for Primary Census Abstract, the District Census Handbook contains District Primary Census Abstract, Appendix to District Primary Census Abstract, Primary Census Abstract for Scheduled Castes, Primary Census Abstract for Scheduled Tribes, Village Primary Census Abstract and Urban Primary Census Abstract of the concerned district in the state.

It was for the first time at the 1981 Census that the Primary Census Abstract (PCA) was brought out for the Scheduled Castes and the Scheduled Tribes separately on the pattern of General Primary Census Abstract. This practice was continued in 1991 also.

In the 1961 and 1971 Censuses, such data were made available in Table C-VIII-Social and Cultural table and to some extent in the series 'Special Tables for Scheduled Castes/Scheduled Tribes'.

The format of Primary Census Abstract has been restructured slightly in the 2001 Census as compared to that of 1991 Census. The nine-fold industrial classification of main workers given in the Primary Census Abstract of 1991 Census has been discontinued and its place, four-fold industrial classification of both 'main workers' and 'marginal workers' are included. In 1981 census only main workers were presented in to four categories. One of the novel features of the primary census abstract of 1991 census was the presentation of data of the population of age group 0-6 is continued in 2001 Census also. This will help the data users in better analysis and understanding of literacy data.

**Level of presentation in District Census Handbooks:**

The Primary Census Abstract data in different PCAs are presented at different levels. The level of presentation of Primary Census Abstracts are as under:

The PCA Data for villages was presented CD Block wise for the first time in 1991 Census. This practice is continued in 2001 Census also. The data for each CD Block is presented both for rural and urban areas separately. All the villages within the CD Block constitute the rural portion and the Census Towns and Outgrowths are shown under the urban portion of the CD Block. In case a CD Block is spread over two or more districts, then portion which falls within the district is presented, the data pertaining to remaining portion of the CD Block is presented in the concerned District Census Handbook. The data in the Urban Primary Census Abstract for each town as well as for town with outgrowths in the district are presented. The data for all the wards and the outgrowths of the town(s) are also presented separately below the concerned town(s).

The District Primary Census Abstract is presented in 59 columns. The Primary Census Abstract for Scheduled Castes and Primary Census Abstract for Scheduled Tribes are presented in 52 columns. The Village Primary Census Abstract and Urban Primary Census Abstract are presented in 58 columns.

The concepts and definitions used in the column heading are explained under the sub heading 'Census Concepts' in the Analytical Note. The term 'Total Population' includes the Scheduled Castes, the Scheduled Tribes, the Institutional and the Houseless populations. The explanation regarding area figures presented at various level in the Primary Census Abstracts are as follows:

**Area Figures**

The area figures supplied by local revenue authorities of the district in respect of tehsils, Police Stations and by the local bodies in respect of towns are given in square kilometers. The area figures of the villages supplied by the Tahsildars in acres have been converted and shown in hectares. The area figures of the CD Block is the total of the village areas coming under each CD Block. The area figures for the district are the same as adopted by the Surveyor General of India to maintain uniformity at the national level. The total area figures of all the tahsils/CD Blocks within the district may not tally with area figures of the district because former represents land use area only. Similarly, the total of all the villages may not tally with the entire rural of Police Station/Tahsil. The difference may be due to the fact that while the area covered by hills, forests and rivers etc, have been accounted in the Tahsils and P.S. level the same may not be covered under the area of the villages. Apart from this it may also differ due to varying methods of computation adopted at different levels.

An appendix to District Primary Census Abstract has also been furnished showing urban enumeration block-wise particulars on Total Population, the Scheduled Castes Population and the Scheduled Tribes Population for each town.

# DISTRICT PRIMARY CENSUS ABSTRACT (GENERAL)

# ANNEXURES - I TO VIII

Baghpat district was carved out from Meerut after 1991 Census. The data is not available separately for Baghpat. Hence, for comparison purpose of Annexures IV to VIII, the data of undivided Meerut district have been used, assuming that the trends and pattern of districts are same.

## ANNEXURE-I

## NUMBER OF VILLAGES UNDER EACH GRAM PANCHAYAT

Not provided for this district due to certain reasons.

## ANNEXURE-II

## FERTILITY AND MORTALITY 1991 CENSUS

The three factors affecting the population size of the district are fertility, mortality and migration. These concepts are explained in detail under the caption Census and Non- Census Concepts and Definitions in the Analytical Note portion. The fertility is defined by various measures of fertility and mean-age at marriage and also by marital status of population. One major aspect of consideration under mortality is infant and child mortality. The population of the UP state was 139 million at the 1991 Census, which accounted for 16 % of India's total population. It grew by 25% between 1981 and 1991 largely as a result of high fertility, the highest of any Indian state.

The child mortality indicators at the 1991 Census in the district and the State was as following:

**Child Mortality Indicators in the State and the District**

| Indicator | Persons/Males/Females | UP* | Meerut |
|---|---|---|---|
| q1 | Persons | 99 | 51 |
| | Males | 98 | 47 |
| | Females | 104 | 55 |
| q2 | Persons | 117 | 81 |
| | Males | 117 | 78 |
| | Females | 118 | 86 |
| q5 | Persons | 134 | 104 |
| | Males | 135 | 107 |
| | Females | 132 | 91 |

(*Undivided Uttar Pradesh at 1991 Census)

The child mortality by ages 1, 2 and 5 years was lower in the district as against the State. The child mortality indicators in the district for females were in the improved condition as compared to the State by ages 1, 2 and 5 years.

## ANNEXURE–III

## VARIOUS MEASURES OF FERTILITY AND MEAN AGE AT MARRIAGE - 1991 CENSUS

| Serial Number | Fertility Measures | Uttar Pradesh | Meerut |
|---|---|---|---|
| 1 | 2 | 3 | 4 |
| 1 | CBR | 37.2 | 33.0 |
| 2 | TFR | 5.6 | 5.1 |
| 3 | TMFR | 6.3 | 6.2 |
| 4 | GFR | 172.0 | 157 |
| 5 | GMFR | 200.0 | 196 |
| 6 | Mean age at marriage (1981-91) | 17.3 | 17.9 |
| 7 | Number of children ever born per ever married woman aged 15-49 years | 4.6 | 4.3 |
| 8 | Child woman ratio 0-4 | 631.0 | 663.0 |
| | 5-9 | 752.0 | 769.0 |

Source: (i) Estimates of fertility indicators Uttar Pradesh Table # 2.23
(ii) District Profile Uttar Pradesh 1991.

Measures of fertility is an important component to describe fertility and mortality rate of any area. The table reveals that the Crude Birth Rate (CBR), which is the ratio of number of live births in a year to the mid year population, 33.0 per thousand in the district. It is below to the state of Uttar Pradesh i.e. of 37.2 per thousand. In respect of Total Fertility Rate (TFR), Total marital Fertility Rate (TMFR), General Fertility Rate (GFR) and General Marital Fertility Rate (GMFR), the district presents all along a lower proportion from the state figures. the conclusion that may be drawn is lower fertility ratio for the district. The mean age at marriage during the period 1981-91 has been 17.3 years for the state whereas 17.9 years has been observed for the district.It may be observed that higher age at marriage leads to low rate of fertility in the state and district as well. Similar trend is observed in the number of children born per ever married women in the age group 15-49. The state and the district figures are placed as 4.6 and 4.3 per cent respectively. Number of children in the age group 0-4 and 5-9 years per one thousand women in the age group 15-49 has been calculated to 663 and 769 for the district while in case of the state the corresponding figures are 631 and 752.

The annexure presented above shows percentage distribution of in-migrants as per the 1991 and 2001 Census amongst the total migrants in the state and district. There are two type of in-migration in the district such as in-migration by place of birth (in which a person is enumerated during the census at a place other than place of birth) and in-migration by place of last residence (a person is enumerated during the Census at other than his place of last residence). The comparison between 1991 Census and 2001 Census reveals that among the total migrants the proportion of in-migrants within the state (from other district of state) was 81.3 percent and 79.6 percent respectively. The corresponding figure for the district was 81.3 in 1991, while in 2001 it was 84.5 percent respectively. The proportion of in-migrants from other states was 16.2 percent at state level during 1991 Census, whereas it rose to 19.3 percent in 2001. The district level figure was 15.9 percent and 15.3 percent respectively. This shows in-migration from other state to this district was almost same in 2001 in comparison to 1991. At district level in-migration from other countries was 2.8 percent in 1991 and 0.2 percent in 2001. While at state level figures were 2.5 percent and 1.1 percent during 1991 and 2001 Census respectively.

In respect of in-migrants by place of last residence, it is evident that in-migrants from other districts of the state amongst total migrants, constituted 79.6 percent in 1991, while it was recorded 74.1 percent in 2001 at state level. District level figures were 80.2 percent and 83.1 percent during 1991 and 2001 Census respectively. The percentage of in-migrants from other states worked out to be 18.9 in 1991 and 25.2 percent in 2001 at state level, whereas district figures for both the Censuses were 19.0 percent and 16.8 percent respectively. The movement of population from other countries in the district was 0.7 percent in 1991 and 0.1 percent in 2001, while state level figures were 1.5 percent and 0.7 percent respectively.

| | 100.0 | 0.0 | 0.1 | 72.6 | 2.2 | 24.9 | 0.1 | 0.0 | 0.1 |
| Baghpat Tahsil | 191,589 | 57 | 198 | 147,374 | 1,255 | 42,243 | 291 | 0 | 171 |
| | 100.0 | 0.0 | 0.1 | 76.8 | 0.7 | 22.1 | 0.2 | 0.0 | 0.1 |
| Khekra Tahsil | 322,351 | 120 | 417 | 235,096 | 2,337 | 83,911 | 195 | 48 | 227 |
| | 100.0 | 0.0 | 0.1 | 73.0 | 0.7 | 26.0 | 0.1 | 0.0 | 0.1 |

Annexure-V presents composition based on religions at the state, district and tahsil level. If we compare the data for 1991 and 2001 Census, we find that demographic pattern based on religions is almost same in both Censuses at the state level. Hindu religion predominates with 81.7 percent population in 1991 and 80.7 percent in 2001 followed by Muslim which were 17.3 and 18.5 percent respectively. Against this, district figure for Hindu religion were 70.1 percent in 1991 and 73.5 percent in 2001, while Muslim were 27.5 percent in 1991 and 24.7 percent in 2001. Rest of the four religions i.e. Buddhist, Christian, Jain and Sikh alongwith combined population of other religion had insignificant proportion which was less than one percent of total population for each religion. Similar trend is visible for state, district and at tahsil level in 1991 as well as 2001 Census.

## ANNEXURE – VI

## MARITAL STATUS OF POPULATION AS PER 1991 CENSUS

### Uttar Pradesh

| | Total Population | | | Marital Status | | | | | | | | | |

Annexure-VI deals with marital status of different age groups of population. On perusal of the annexure for state and district for two respective Census in the years 1991 and 2001, it is evident that, for all ages the percentage of never married is higher than proportion of married for state and at the district level also. Percentage of never married has increased from 54.4 percent male and 45.9 percent female in 1991 to 57.5 percent male and 48.9 percent female in 2001 at state level, while it rose marginally in the district from 57.2 percent to 59.2 percent male and in case of female it decreased from 50.7 percent to 49.6 percent. Percentage of married male and female shows declining trend in comparison to 1991 from 42.4 percent male and 49.4 percent female to 39.8 percent male and 46.2 percent female. In the district percentage of married male was 40.0 and female 45.8 percent. Percentage of married male was 40.0 percent and female was 45.8 percent in 1991 and in 2001 it was 38.1 percent male and 46.0 percent female. Percentage for widowed persons at state level was 3.0 percent male and 4.6 percent female in 1991 and in 2001 it was 2.6 percent male and 4.8 percent female. At district level in 2001 it was 38.1 percent male and 48.0 percent female while it was 40.1 percent male and 45.8 percent female in 1991 Census. Percentage of divorced and Separated remained constant at 0.1 percent for male and female in state and district level during 1991 and 2001. None person was recorded in the category of Unspecified marital status in state and district during 2001 Census. Among the age groups, the proportion is in the descending order for never married and ascending order for widowed. The trend for married is pyramidal the peak being between 25-29 and 45-49 (years) age-groups.

ANS* Age Not Stated

Age and sex wise education in the state and district has been presented in the Annexure - VII. From the annexure it can be observed that percentage of illiterates has declined from 55.3 percent male and 80.0 percent female in 1991 to 44.2 percent male and 65.9 percent female in 2001 at the state level. Consequently percentage of literates has increased in all educational levels. Percentage of literates without educational level was 2.0 percent male and 0.7 percent female in 1991 at state level, which increased to 2.8 percent male and 2.1 percent female in 2001. Similarly primary level education was 10.7 percent male and 6.1 percent female in 1991 and percentage for male and female rose to 16.0 and 11.5 respectively in 2001. Middle level education was 9.8 percent male and 3.7 percent female in 1991 which increased to 13.8 percent male and 7.1 percent female in 2001. Matriculation and above level was 13.5 percent male and 4.4 percent female in 1991 which was 20.4 percent male and 9.0 percent female in 2001.

Similar trend can be observed in the district also. Illiterates were 48.1 percent male and 71.7 percent female in 1991 which declined to 44.2 percent male and 65.9 percent female in 2001. Primary level education was 10.5 percent male

and 7.3 percent female in 1991, which was 15.5 percent male and 12.9 percent female in 2001. Middle level education was 11.2 percent male and 4.9 percent female in 1991 and 17.0 percent male and 9.6 percent female in 2001. Matriculation and above level of education was achieved by 16.5 percent male and 7.3 percent female in 1991 which was 27.2 percent male and 12.3 percent female in 2001. Primary level of education was highest in the age-group 7-14 in 2001; while middle level education was highest in 15-19 and the age group that had highest percentage of matriculation and above level of education was 20-24 (years).

*Note: For state level only first 28 mother tongues and at district level only those mother tongues are shown in the table whose proportion is greater that 0.02 percent. The remaining tongues have been merged in the column of "Total of other mother tongue".*

Annexure-VIII presents distribution of population according to different mother tongues with percentage for the state and the district. There is identical trend for Census of 1991 and 2001 as the highest percentage of the people reporting Hindi as the mother tongue (82.1 percent in 1991 and 83.1 percent in 2001). This trend is visible for the district as well. The district reported Hindi as mother tongue for 72.7 percent person in 1991 and 95.0 percent in 2001. Urdu returned as second largest spoken mother tongue as 9.0 percent was recorded in 1991 and 8.0 percent at the state level in 2001 whereas 26.1 percent and 4.6 percent at district level in 1991 and 2001 Census respectively. Persons speaking other languages as mother tongue were very small in number in both the state, and district, in both Censuses.
