## TEMPLE OF DAUJI MAHARAJ

Hathras, the headquarters town and tahsil of the same name lies on the state highway from Aligarh to Agra. The Hathras town began to rise since the introduction of railways in this part which, combine with the advantageous position of the place at the Junction of two main roads, has brought it into foremost rank as a commercial and industrial centre.

In the town there is a large temple of Dauji Baldev Maharaj, the elder brother of Lord Krishna. The temple has magnificent idols of Sri Baldeo and Lord Krishna. The archeological remains have testified the importance of this temple. The place was of significance during Mauryan era and received great stimulus under emperor Ashoka. This temple is an example of the earliest sculptural art of the country.

In the month of Bhadrapada (July-August) a large fair is held in the town every year which attracts lakhs of people of the neighbouring districts. Another fair is held on the occasion of Dasahra which is also attended by lakhs of people. The temple is one of the most important religious centres which is dedicated to Lord Krishna.

# FOREWORD

The District Census Handbook (DCHB) published by Census Organisation since 1951 Census, is one of the important publications in the context of planning and development at gross-root level. The publication, which is brought out for each district, contains several demographic and socio-economic characteristics village-wise and town-wise of the district alongwith the status of availability of civic amenities, infrastructural facilities, etc.

2. The scope of the DCHB was initially confined to a few Census Tables and Primary Census Abstract (PCA) of each village and town within the district. Thereafter, at successive Censuses, its scope and coverage has been enlarged. The DCHB published at the 1961 Census provided a descriptive account of the district, administrative statistics, Census tables and a village and town directory including PCA. The 1971 Census-DCHB series was in three parts: Part-A related to village and town directory, Part-B to village and town PCA and Part-C comprised analytical report, administrative statistics, district Census tables and certain analytical tables based on PCA and amenity data in respect of villages. The 1981 Census DCHB was in two parts: Part-A contained village and town directory and Part-B the PCA of village and town including the SCs and STs PCA up to tahsil/town levels. New features alongwith restructuring of the formats of village and town directory were added into it. In Village Directory, all amenities except electricity were brought together and if any amenity was not available in the referent village, the distance in broad ranges from the nearest place having such an amenity, was given. Information on new items such as adult literacy centres, primary health sub-centres and community health workers in the village were provided so as to meet the requirements of some of the Revised Minimum Needs Programme. Information on approach to the village was provided for the first time in the Village Directory so as to give the details on number of inaccessible villages in each district. In the Town Directory, a statement (IV-A) on slums was introduced to provide the details on civic and other amenities in the notified slums of Class I and Class II towns.

3. The 1991 Census DCHB, by and large, followed the pattern of presentation of 1981 Census, except the format of PCA was restructured. Nine-fold industrial classification of main workers was given against the four-fold industrial classification presented in the 1981 Census. In addition, sex-wise population in 0-6 age group was included in the PCA for the first time with a view to enable the data users to compile more realistic literacy rate as all children below 7 years of age had been treated as illiterate at the time of 1991 Census. One of the important innovations in the 1991 Census was the Community Development Block (CD block) level presentation of village directory and PCA data instead of the traditional tahsil/taluk/PS level presentation. It was expected that the presentation of village directory and PCA data at CD block level will help the planners in formulation of micro level development plans, CD block being lowest administrative unit.

4. The present series of 2001 Census DCHBs have been made more informative and exhaustive in terms of coverage and content. The Village Directory has been enlarged in scope by including a number of other facilities like banking, recreational and cultural facilities, newspapers and magazines and 'most important commodity' manufactured in village. Income and expenditure of gram panchayat, wherever possible, has been provided. Apart from these, more details on distance(s) at which basic amenities are available (if not available in the village), are given This includes educational facilities (namely primary and middle schools and college), medical facilities (viz. Allopathic Hospital, Maternity & Child Welfare Centre and Primary Health Centre), drinking water, post & telegraph (post office and phone), communication, bank, credit societies and recreational facilities. In Town Directory, the statement on Slums has been modified

and its coverage enlarged by including details on all slums instead of 'notified slums'. The information is given in case of all statutory towns irrespective of their class, against only Class I and Class II towns in the 1981 and 1991 Censuses. The basic amenities available in the villages and towns are analysed in depth with the help of a number of cross-classified inset tables and statements. Two other significant additions in the publication are inclusion of 'motif' highlighting significant characteristic of the district and analytical notes as annexures. The analytical notes on (i) fertility and mortality and (ii) various measures of fertility and mean age at marriage are prepared based on 1991 Census. Whereas, in the notes relating to (i) percentage distribution of migrants by place of birth/place of last residence, (ii) main religions, (iii) marital status of population, (iv) age, sex and education, and (v) distribution of spectrum of mother tongue, nature and extent of changes occurred in the district in its basic socio-demographic features during the decade 1991-2001 are analysed. The eight digits permanent location code (PLCN) to all the villages and towns have been assigned keeping in view the future needs.

5. The village and town level amenity data have been collected, compiled and computerised in prescribed record structure under the supervision of Dr. Ranvir Singh, Director of Census Operations, Uttar Pradesh. Thereafter, efforts have been made to ensure comparability of the information with that of 1991 Census data and the information brought out by the respective state governments in their annual reports and statistical handbooks for various years after 1991. The task of planning, designing and coordination of this publication was carried out by Shri R.G. Mitra, Deputy Registrar General (C&T) and Dr. I.C. Agrawal, Senior Research Officer of Social Studies Division. Dr. R.P. Singh, Deputy Registrar General (Map) provided the technical guidance in the preparation of maps. Whereas, Shri Anil Kumar Arora, Deputy Director of Data Processing Division who worked under the overall supervision of Shri Himakar, Addl. Director (EDP) helped in preparation of record structure for computerisation of village and town directory data and the programme for the generation of Village Directory and Town Directory statements including analytical inset tables. The draft DCHB manuscripts received from the Census Directorates have been scrutinised in the Social Studies Division under the guidance of Shri S.L. Jain, Deputy Director and Shri R.K. Mehta, Assistant Director. I am thankful to all of them and others who have contributed to make this publication possible.

# Preface

The District Census Handbooks (DCHBs) are brought-out in two parts giving village and town wise data for each district. The first part contains non-census data for each village and town and is called Village and Town Directories Part A. The Part B provides Census data for rural area up to the village level and for urban areas up to ward level for each town or city in the shape of Primary Census Abstract (PCAs). The information contained in Primary Census Abstract and Village and Town Directory (VDs/TDs) has already been released for data users in soft copy. Data available in District Census Handbooks are very useful for policy planners, Administrators, Researchers and other socio-economic research centers. Till 1991 Census, all the inset tables included in District Census Handbooks were produced manually. But this time the software designed by the Data Processing Division of the Office of the Registrar General, India helped in the fast generations of tables.

I am deeply grateful to Shri J.K. Banthia, Ex-Registrar General and Census Commissioner of India for his guidance and support. I would like to thank Shri D.K. Sikri, Secretary, Registrar General and Census Commissioner of India for his sustained support and spontaneous, unfailing guidance through our endeavours. At the outset I thank to Shri R.C. Sethi. Additional Registrar General, India, who drove us to complete the District Census Handbooks within a specific timeframe and make it ready for printing.

I thank to Shri R.G. Mitra, Ex. Deputy Registrar General (C&T), Shri R.P. Singh, Ex. Deputy Registrar General (Map), Dr. I.C. Aggarwal, Ex. Assistant Registrar General (SS) of the office of Register General, India for their guidance at each steps in the preparation of District Census Handbook. Special thanks are due to Shri S.L. Jain, Deputy Director (Social Studies) and Shri Anil Kumar Arora, Deputy Director (EDP), without their untiring efforts and support we could not have completed the District Census Handbook within this time.

The Director of Census Operations, Uttar Pradesh, Dr. Ranbir Singh, under whose guidance, the entire operations were carried out deserves all credit for its success, but he was repatriated to the State Government for taking up some other important assignments before the volume could be made available for the printing. I am also thankful to Shri R. K. Singh, Ex-Joint Director and Shri S.S.A. Jafri, Deputy Director for their valuable guidance and support to complete this project within specific time frame. The task of data collection in respect of both Census and non-census items was a gigantic on which officials in the State Government had to perform along with their normal duties. For their deep sense of devotion to duty and hard work in this regard, I am thankful to all of them.

The preparation of District Census Handbook was done under the supervision and guidance of Shri B.K. Srivastava, Deputy Director of Census Operations and his team of dedicated workers deserve all praise for their perseverance and dedication in preparing for Camera Ready Copy of District Census Handbook.

I am also thankful to Shri Mohan Pandey, Ex-Deputy Director, Shri J. Majhi, Assistant Director, Shri M.M. Pandey, Dr. S.S. Sharma S.I. Grade-I and Shri S.K. Banerjee, S.I. Gr. II who assisted in the work for timely completion of the project. S.I.Gr.II, S.I.Gr.III, Sr.Compilers, Compilers, Data Entry Operators and Assistant Compilers who assisted in the work also did a tremendous job. Shri A.M. Ansari, Deputy Director (EDP) and his team of devoted workers deserve all praise for timely processing of Household Schedule through Image Based Data Capturing Technology i.e. Scanning. The members of the staff in the Map Section did a commendable job under the guidance of Shri Dashrath Singh, Research Officer (Map) in bringing out various maps.

# ANALYTICAL NOTE

# Analytical Note

## (i) History and Scope of the District Census Handbook

The District Census Handbooks were first published after 1951 Census. Since then after every decadal Census the publication has remained a constant feature with some improvements. This publication has been traditionally brought out by the Census Organization on behalf of each State Government/ Union Territory. This publication provides data on demographic characteristics as well as information on the availability of basic amenities in each village and town of respective districts. The scope of the publication has been changing with the changing needs of the data users. The 1951 Census series of the publication contained Primary Census Abstract, Village and Town Directories, administrative statistics and an account of the district. In 1961 the publication was in a single volume containing three parts covering Census tables, official statistics and Village Directories. The 1971 Census DCHBs were published in 2 parts. The Part A contained Village and Town Directories and Part B contained Village and Town PCA. The Part C could not be published in many States/UTs which contained administrative statistics and district Census tables. The 1981 DCHBs were published on the restructured formats of Village and Town Directories. The DCHBs of 1981 Census were published in 2 parts for each district. The Village and Town Directories comprised Part 'A' and PCAs of Villages and Towns (ward-wise) including Scheduled Castes and Scheduled Tribes PCA up to Tahsil/Town level were provided in Part 'B'. If any amenity except electricity was not available in the referent village, the distance in broad ranges from the nearest place having such amenities was given. Information on some new items were also provided keeping in view of the needs of the Revised Minimum Needs Program. The 1991 DCHBs were almost same in scope as was at 1981. The new features included in 1991 DCHBs were the ninefold industrial classification of main workers and the sex-wise population in the 0-6 age group. Yet other information at the 1991 Census was the CD Block level presentation of data. The VD data was also made available through the magnetic tapes/ floppies. Unfortunately in UP no DCHBs relating to 1991 Census were out of press till completion of 2001 Census defeating the very purpose of these publications apart from causing inconveniences to the data users.

The 2001 DCHBs contain more information such as details on greater number of facilities available to the Villages/Towns. The analysis of data with aid of inset tables and statements is more informative. The 2001 DCHBs are fully geared to meet the requirements of Gram Panchayats. At the 2001 Census the DCHBs are entirely available on electronic format and on CD-ROM, hence the word "Handbook" seems now to be a misnomer.

## (ii) Brief History of the District

District Hathras is a newly created district vide Govt. notification No CM – 70/1-5/97-85/97-R5 dated 6.5.1997, after the conduct of 1991 Census. The district is carved out from the district Aligarh and Mathura by excluding or including tahsils Hathras and Sikandra Rao and 134 villages and two towns from the district Mathura. The district is named after its town Hathras.

Being carved out from the district of Aligarh and portion of the Mathura district , the brief History of the district is derived from the historical legends of the district of Aligarh and Mathura. The early history of the region covered by the present district lies in a dim past and to some extent fragmentary and uncertain. The entire region never correspond to any kingdom and it was only on few occasions that the whole of it formed part of single realm. The early history of the district may be impressed by old legends and traditions, ancient coins, old mounds and other antiquities discovered here. The district is undoubtedly a town of great antiquity as statues of Buddha and other Buddhists and Hindu remains have been found in excavations from the great mound called Gohan Khera to the east of Sasni and from the mound to the west and south of Lakhnau.

Gohankhera is one of the most ancient place of the district and it appears from the remains found there, that it was inhabited in Budha's time. Hindu

legends make the district part of the kingdom of Pandavas who are said to have moved their capital to Ahar in Bulandshahr after the distruction of Hastinapur. About the middle of the 4th century BC this region was annexed to the Nanda empire of Magadh after that the district became a part of powerful Maurya empire and continued as such for a long time. With the downfall of Mauryas , the area falling with the district was under the domain of Sunga dynasty. The history of this region from the end of Sunga rule to the rise of Guptas is very obscure . During second century BC a powerful and independent dynasty seems to have come in power at Mathura and almost held sway over this region . District continued to form part of Gupta empire till the beginning of sixth century and under Maukharis of Kannauj . About the middle of eigth century a Dynasty of Tomar Rajputs established itself at Delhi and its King seems to have extended their sway over this district also, During ninth and tenth centuries, the greater part of northen India was under the empire of Gurjara – Pratiharas of Kannauj and it was most probably in the reign of King Bhoja . It is certain that Dor Rajputs ruled over this region in the 10th century A D. In 1018 A D Mahmud of Gazni attacked Dor Rajputs and captured present Bulandshahr . The region at that time was held by Har Dutt , the father of Vikramaditya. Till the invansion of Kutub-ud-din Aibak the district was under the sway of Dors.

In the early mediaeval period it appears that this region remained in undisputed possession of Iltutmish. In 1259 under a united province of Biana and Gwalior, Balban, the then Commander of the army ascended the territory of the present district. During the reign of Mohammed Bin Tuglaq the area suffered from famine. It was under the sway of Mahmud shah during 1389. The district remained in confusion for many years till the accession of Khizr Khan in 1414. The confusion did not end immediately as there were renewed disturbances of Katchriyas around the district. References of Bahlol Lodi and his son Sikandar Lodi and later on Ibrahim Lodi have been highlighted in 14th century AD. In 1526 Babar overthrew Ibrahim Lodi at Panipat and rapidly acquired the entire doab including the present district . The district remained in the hands of Humanyun, the successor of Babar till his expulsion by Sher Shah but no event of note is recorded during the reign of Suris and after the death of Islam Shah there happened no acknowledged ruler till Humayun recovered Hindustan and the empire was consolidated by his son Akbar . Durng his reign Koil became the capital of a Sirkar, which formed part of the province of Agra. Under the strong and stable rule of Akbar immediate successors the history of the district remained uneventful.

After the decline of Mughal empire, in 1765, Jawahir Singh son Suraj Mal entered the 'Doab' including present district. In 1773, Najat Khan assumed control of the doab. Marathas gained possession of almost the whole of the upper doab up to British conquest and Britishers lasted for a longer period. In 1930 civil disobedience movement was started in the district and boycott of foreign cloths and picketing of liquor shops continued daily at Hathras. On July 20,1934 Mahatma Gandhi was welcomed at Hathras railway station. On August 15, 1947 British rule came to end , the district celebrated Independence day with rejoice.

### (iii) Administrative Setup

The district Hathras is situated in the western region of the state at a distance of approximately 365 Km. from state headquarters. The district headquarters lies at Hathras NPP for administration purpose and is divided into four Tahsils and seven development blocks. The tahsils are Hathras, Sadabad, Sasni and Sikandra Rao. These tahsils are further decentralized in seven development blocks. These are Sasni, Hathras, Mursan , Sadabad, Sahpau, Sikandra Rao, Hasayan.

The urban units in the district consist of two NPP and seven towns of Nagar Panchayat status.There are seven C.D. blocks, 430 gram sabhas, 672 inhabited villages, 16 uninhabited villages and one forest village in the district.The setup of district administration is akin to that of the neighboring districts of the state.

### Jurisdictional Changes during 1991-2001

Hathras is newly created district after 1991 census, vide Government notification No. CM-70/1-5/97-85/97-R-5 dated 6.5.1997. The district has been carved out from districts Aligarh and Mathura. To form this district entire Hathras Tahsil from district Aligarh has been transferred to this district and 162 villages , 3 towns of old Sikandra Rao Tahsil of district Aligarh has also been transferred to newly created district. Apart from this 134 villages and 2 Towns from Sadabad Tahsil of Mathura district has also been transferred to newly created district.

Jurisdictional Chnages (1991-2001)

| S No | Name of District/Tahsil | Notification No. and date | Jurisdictional Changes | |
|---|---|---|---|---|
| | | | Added | Substracted |
| 1 | 2 | 3 | 4 | 5 |
| | Hathras | | | |
| 1 | Sasni Tahsil | No CM-70/1-5/97-85/97-R-5 dated 06.05 1999 | 115 villages and 1 town transferred from Aligarh district | 376 villages and 4 towns transferred to newly created Hathras district |
| 2 | Hathras Tahsil | | 261 villages and 3 towns transferred from Aligarh district | |
| 3 | Sikandra Rao Tahsil | No. CM-70/1-5/97-85/97-R-5 dated 06 05 1999 | 162 villages and 3 towns transferred from Aligarh district | 162 villages and 3 towns transferred to newly created Hathras district |
| 4 | Sadabad Tahsil | No. CM-70/1-5/97-85/97-R-5 dated 06.05.1999 | 134 villages and 2 towns transferred from Mathura district | 134 villages and 2 towns transferred to newly created Hathras district |

**District administration:**

District administration comprises of Revenue, Developmen, Police (Law and Order), Judiciary, district level officers of different departments and Local self-government. District Magistrate is in-change of revenue administration. He is assisted by Additional District Magistrate, Finance and Revenue i.e. ADM (F& R)/ At the tahsil level Sub Divisiobal Magistrate is in-charge, who is now redesignated as Up-Jila Adhikari. He is assisted by Tahsildars in each tahsil and for revenue collection each tahsil is further entrusted to Naib Tahsildars and Kanongos circles respectively. For each revenue village, Lekhpal is in-charge. For development activities in the district there are district level offices like- Health, Panchayat Raj, Electricity, Transport, Irrigation, Jal Nigam, Animal Husbandry, Harijan and Samaj Kalyan, Agriculture, horticulture, PWD, etc net district administration. At Community Development block level there are Block Development and Assistant Block Development Officers while at the village level there is a Village Development Officer.

Under the police set-up there is a Senior Superintendent of Police in big districts and Superintendent of Police in smaller districts. Additional supdt. of Police (ASP) and Commanding Officer are in-charge of their respective area. Deputy Superintendent of Police (DSP) look-after the Thanas allotted to them. Police Inspector and Sub-Inspector are in-charges of their police stations depending upon the population and area.

The judiciary system of the district consists of District Judge, Additional District Judge and Session Judge, Civil Judge, Assistant Session Judge and Munsif Magistrate.

The Nucleus of the for local self government is consists of Mayor and Mukhya Nagar Adhikari (MNA) in the case of Nagar Nigam, Chairman, Executive Officer in Nagar Palika Parishad and Nagar Panchyat. Chairman District Board and Gram Pradhan in Panchayats and Pramukh of Kshetra Samiti etc. come under Local self-government.

**(iv) Physical Features**

**Location and Size :**

District Hathras is a part of Southern upper Ganga Plain. It the northern most district of the Agra division. It is situated in the doab of Ganga and Yamuna rivers, and lies , between 25$^0$ 27' and 26$^0$ 11' latitudes and 75$^0$ 26' to 76$^0$ 37' east longitudes. The district is bounded by district Etah in the east, Aligarh in the north and district Mathura on the west and district Agra on the south .Total area of the district as reported by district Administration was 1840 Sq Km . which is 0.72 percent of the total area of the state

**Physiography :**

District is a level plain conforming to the topography of the doab. The low land area of the Ganga and Yamuna rivers are known as Khadar. This area is sandy plains lying between Ganga and Yamuna. On the basis of the factors like geology, soils, topography, climate and natural vegetation the district is divided into the following micro regions.

**(1) Hathras alluvial plain** – It is situated in the north central part of the district , the southern boundaries marked by Yamuna Khadar. The region is a flat plain sloping towards south and another division is Sikandra Rao plain. The geology of the region is alluvial , dun , gravells of recent origion.

**(2) Sadabad plain** – It is flat extended from north to south and lies in the southern part of the district. The slope is towards south. The geology of the region is alluvium of recent origion.

The contours of the district is close to ring like land and its different varieties are more or less gangetic alluvial of recent age. The main constituents of the alluvium are clays , slits , sands and Kankar in several horizontal layers filled up in varying proportions and vertical thikness , The lime stone comflomerate is known as Kankar and it is almost found in every part of district . There are two varieties, the one being used for metalling road and the other for masonry work and ballast. Good quality of lime is obtained by burning Kankar in ordinary brick kilns. Reh is also found and it is used by washer man as substitute of soap for washing clothes.

**Drainage:**

The general level of district is extremely regular. The main river of the district is Karban, one of the tributary of Yamuna which flows around 86 Kms in the district. It forms the arterial drainage line for the district Aligarh. This stream is also known as the Karom. It is a natural water force that flows towards southernly direction through Tahsil Sadabad of Mathura district to join the Yamuna, close to the Agra district. There are also broad tracks of low land in the tahsils Sikandra Rao. In this part the natural depressions are numerous but there are no permanent lakes Similer is the situation of other tahsils.

**Climate :**

Climate of the district is characterized by a hot summer, pleasant and general dryness except in the monsoon season. The cold season sets in from about the middle of November to early March and is followed by the hot season which lasts till about the middle of June. The south – west monsoon season is from the middle of June to about the third week of September. The period from the last week of September to the middle of November may be termed the post monsoon season.

The climate of the district is coldest in the month of January and hottest in the month of June . The maximum temperature during the year 1998-1999 was as much as $45^0$ c and the minimum was $7.05^0$C. In the summer season dust laden scorching westerly winds blow quite often and heat is intense. With the onset of the monsoon during the third week of the June, the day temperature decreases considerably. Winds are generally light with a slight increase in force during the summer and early part of the monsoon season During the period from October to April the winds blow mostly from directions between North and West During monsoon season winds are predominantly from South East and East.

There are wide variations in the rainfall from place to place. During 1997 the average rain fall was very scanty. The detailed statistics could not be available to present but it was established information that all over the administrative jurisdiction of Agra, the entire districts had rainfall below to average level. The under ground water is available in plenty at a depth of 52 to hundred feet which is very hygienic and appropriate for Agriculture. Weather conditions are influenced by monsoon after rainy season. The night temperature slightly decreases except during monsoon season when humidity is high in the remaining part of the year, it is almost dry.

**Natural and Economic Resources**

**Forestry :**

The total forest area of the district is 2090 hectares which is under the control of forest department. The plantation along the river bank and road side have been raised for this purpose. There are no reserved forest as such in the district. The protected forest tracks along the river bank and road sides contain trees like Seashum, Babool, Mango, Jamun and Mahua etc.

**Minerals and Mining :**

No important mineral is found in the district. Kankar, Reh and Clay are the three natural deposits in the district. Otherwise the district is totally devoid of economic mineral deposits. The lime stone conglomerate known as Kankar is found almost in all parts of the district.

**Soil :**

The soil in the district is mostly alluvial but it varies from region to region based on the several proportions of the composition. The variety of soil is 53% matia in all tahsils Peelia 8% in Sasni tahsils or prcknot 4% in Sikandra Rao tahsils, usar and barren land 9% in all tahsils. Again Khadar 8% in Sadabad Bhur 8% in Sasni and Sikandra Rao tahsils and 10% other variety of land in all tahsils.

**Land and Land Use pattern :**

Land is flat plain sloping towards South and fertile conforming to the topography of the doab. The low land area of river Ganga and Yamuna is known as Khadar. There are number of sand dun pathches spread over the region. Agriculture based economy is predominant on account of fertility of the land.

The land in the district is plain and remarkably fertile. The use of land during the year 1997-1998 in the district was as follows:

| S.No. | Land use | (Area of 1997-1998 in hectare) |
|---|---|---|
| 1. | Forest | 2,090 |
| 2. | Culturable waste land | 2,823 |
| 3. | Current fallow | 1,874 |
| 4. | Usar and not fit for agriculture | 7,699 |
| 5. | Land put to other uses | 13,208 |
| 6. | Land under pasture | 1,011 |
| 7. | Garden and hurbs | 401 |
| 8. | Net sown area | 146,368 |
| 9. | Total area | 178,968 |
| 10. | Net area irrigated | 139,336 |
| 11. | Area sown more than onces | 226,924 |

**Agriculture and Crop Pattern :**

Agriculture is well developed in the district as usual in doab. The agriculture is divided into three kinds of harvest- Kharif, Rabi, Zaid. Main Kharif's crops are jawar, bajra and maize. The Rabi crops are wheat, barely and gram, sugarcane, oil seeds like groundnut and mustered, potato, vegetables are the non foods crops. To boost up the production of oil seeds special programmes have been launched by the government in the district. Tobbaco is grown principaly in places where water in the wells is brackish. The details given below provides the relevant information about the main crops and area under it.

| S.No. | Crops | Area (in hectare) |
|---|---|---|
| 1. | Paddy | 8,295 |
| 2. | Bajara | 35,535 |
| 3. | Maize | 8,275 |
| 4. | Wheat | 83,956 |
| 5. | Jaun | 10,337 |
| 6. | Gram | 1,607 |
| 7. | Pea | 1,104 |
| 8. | Arhar | 6,727 |
| 9. | Groundnut | 26,228 |
| 10. | Sugarcane | 516 |
| 11. | Potato | 10,094 |

Rabi, Kharif and Zaid are the main crops. This district is very peculiar as four crops are grown in a year that is Moong, Maize, Lahi and Wheat from a single holding and similar is the trend in case of vegetable plantation. Since agriculture being the mainstay of the district, farming method of the district is the mixed cultivation which gives addition at harvest in the same field by increasing the overall yield and also ensures optimum utilization of land, the nutrients and other agricultural inputs. During the year 1997-98 the gross area sown was 226,924 hectares, net area 146,368 hectares and area sown more than once was 80,556 hectares.

**Irrigation :**

Irrigation network in the district is very rich owing to the availability of ground water in plenty. Rivers, canals, tubewells are the important networks that add to irrigation in the district. As per the statistics of the district, the total area irrigated was 4.36% through government tubewells, 76.51% through private tubewells and remaining by other sources of irrigation.

The number of government tubewells in the district was 129 while ground level pump sets were 70. The ground level pumps sets are installed in development block Sadabad and Shahpur. The number of private tubewells (787) outnumber government tubewells and are the main source of irrigation in the district. Development Block Hasayan has highest density of irrigation potential where 140 hand pump of ground level are installed whereas corresponding number is 72 in the development block Sasni.

**Animal Husbandry :**

The domestic animals are generally of superior quality, owing to the fact that large number of animals are imported from the famous breeding area of the Punjab and Haryana. The locally raised live stock is better than the average, because the cattle are the offspring of good imported breed. The number of cattle in the district is seldom. The number of baffaloes is larger here than in other important neighbouring district. This fact accounts for the dairy farming in the district. There is a very extensive and valuable trade of Ghee, Asafetida in the district, which is exported in large quantity to all parts of the country.

The live stock population of the district based upon 1993 cattle census is as follows:

| S.No. | Live stock | Number |
|---|---|---|
| 1. | Bovine (domestic) | 71,649 |
| 2. | Buffalows | 247,687 |
| 3. | Sheep | 13,049 |
| 4. | Goats (he & she) | 107,494 |
| 5. | Horse and mules | 2,031 |
| 6. | Pigs | 17,437 |
| 7. | Others animals | 61,735 |
| 8. | Total no. of animals | 521,082 |

**Fishery:**

There is no prospect of development of fisheries in the district as there is no permanent lake or big river in the district. Fishery is developing under the small water scheme taken up in the district. Efforts are being made to supplement fish food made from food grain during the year 1998-99. The fishery department of the district distributed fingerlings to different development blocks. This is stated below:

| S.No. | Devlopment Block | Year 1998-1999 Area in hectares (in thousand) |
|---|---|---|
| 1. | Sasni | 311 |
| 2. | Mursan | 205 |
| 3. | Sadabad | 385 |
| 4. | Shahpau | 175 |
| 5. | Sikandra Rao | 285 |
| 6. | Hasayan | 232 |

**Industry :**

More than 80% of the district population lives in rural areas and agriculture is the only subsistence sector for the bulk of population over the last decade. Some industrial and economically gainfull activity has been initiated in order to supplement industrialisation in the district. There is one industrial institute. The number of sheds and plots are 88 and among them 44 are working. The established units on these sheds and plots annually produce goods worth Rs. 65.00 Lakh rupees. The main products of the district are Knife, readymade garments, colours, Asafetida and Tobbaco.

**Trade and Commerce :**

With the developments of roads and railways the district is better off than many areas in respect of trade and commercial activity. At present railways and roads carry a considerable volume of trade in the district. The city of Hathras is connected by Kanpur, Delhi and Aligarh. The main trade items that are exported are food grains, oil seeds, gur and potato. The items imported are fuel oil, cloth, salts and spices. Retail trade is carried out by local hats which generally meet the requirement of villagers and those residing in urban areas.

**Transport :**

The district is well connected by road. There are 72 bus station/bus stops and thirteen railway stations. The network of broad gauge and meter gauge serve the district. The length of roads in the district was 498 Kms, state highway accounts for 115 Kms, district roads 21 Km, other district and rural roads 281 Kms, district panchayat and other local body roads 69 Kms and road developed by irrigation department was 12 Kms. The railway lines connect the district with big cities of India.

**Electricity and power :**

All the towns of the district are electrified where in power is available for industrial and agricultural purposes. As per the definition of central electricity authority 655 villages of the district were electrified by 31 March 1998. The power consumption in the agricultural sector was maximum i.e.(114,641 thousand Kwh), Railways 63,253 thousand Kwh, industrial electricity 30,329 thousand Kwh, commercial light 14,494 thousand Kwh, domestic light 63,998 thousand Kwh, public light 2,502 thousand Kwh, public water and sanitation 3,592 thouand Kwh.

**Gram panchayat, its composition, jurisdiction and role in village development :**

Gram panchayat is the basic institution of local government and the foundation of all decentralized administration. There are the sufficient reason to believe that these institutions flourished and reached a very high degree of development in the country in ancient times and not only regulated the civic life of the village but also served to settle disputes by arbitration. There are 430 gram sabha in the district at present. A gram sabha is constituted for a village or a group of villages with a minimum population of 250 persons and consist of all the adult members of the village. The gram panchayat, which is the executive organ of the gram sabha has a Pradhan (president) and an Up-Pradhan (vice president). The farmer and member of gram panchayat being elected by the eligible members of the gram sabha for a term of five years.

The gram panchayat of the district controls and manages all village activity concerned with community

interests, their chief concerns being implementation of village plans in the spheres of agriculture, minor irrigation, cooperation afforestration, animal husbandry, well, health and sanitation, communication, welfare activity relating to children, youth and woman and registration of birth and death etc. Other important duties of the gram panchayat are the preventation of illegal occupation of land of the gram sabha and regulation of market and fairs.

**v) Census Concepts**

**Building :**

A 'Building' is generally a single structure on the ground. Sometimes it is made up of more than component unit which are used or likely to be used as dwellings (residences) or establishments such as shops, business houses, offices, factories, workshops, worksheds, Schools, places of entertainment, places of worship, godowns, stores etc. It is also possible that building which have component units may be used for a combination of purposes such as shop-cum-residence,workshop-cum-residence,office-cum-Residence, etc.

Usually a structure will have four walls and a roof. But in some areas the very nature of construction of houses is such that there may not be any wall. Such is the case of conical structures where entrance is also provided but they may not have any walls. Therefore, such of the conical structures are also treated as separate buildings.

**Permanent houses**

Houses, the walls and roof of which are made of permanent materials. The material of walls can be any one from the following, namely, galvanized iron sheets or other metal sheets, asbestos sheets, burnt bricks, stones or concrete. Roof may be made of from any one of the following materials, namely, tiles, slate, galvanized iron sheets, metal sheets, asbestos sheets, bricks, stones or concrete.

**Semi-permanent houses**

Houses in which either the wall or the roof is made of permanent material and the other is made of temporary material.

**Temporary houses**

Houses in which both walls and roof are made of materials, which have to be replaced frequently. Walls may be made from any one of the following temporary materials, namely, grass, thatch, bamboo, plastic, polythene, mud, unburnt bricks or wood. Roof may be made from any one of the following temporary materials, namely, grass, thatch, bamboo, wood, mud, plastic or polythene.

**Room**

A room should have four walls with a doorway with a roof over head and should be wide and long enough for a person to sleep in, i.e., it should have a length of not less than 2 metres and a breadth of at least 11/2 metres and 2 metres in height. A room, however, which is used in common for sleeping, sitting, dining, storing and cooking, etc., should be regarded as a room. An unenclosed verandah, kitchen, store, garage, cattle-shed and latrine and rooms in which a houschold industry such as a handloom is located, which are not normally used for living or sleeping are excluded from the definition of a living room for the purpose of this question.

One is likely to come across conical shaped hut or tent in which human beings reside. In such improvised accommodation, there will be no four walls to a room and therefore, the above definition would not strictly apply to such types of accommodation. In such cases, the tent or conical hut etc., have been construed to be a room. In certain parts of the country, particularly in rural areas, the pattern of housing may present some problems. For example, a household may be in occupation of several huts put to different uses such as main residence, sitting room, store and even for sleeping at night. By strict application of the definition each one will be reckoned as a census house, but this does not reflect the real situation. While huts used as store or cattle shed pose no problems, those used as sleeping rooms beyond the main residence, should be counted as rooms rather than separate census houses.If a garage is used by a servant and he lives in it as a separate household, it should be reckoned as a room available to the servant's household. If the servant is considered as a member of the household then the garage room should be reckoned as an additional room of the household

**Dwelling Room**

A room is treated as a dwelling room if it has walls with a doorway and a roof and should be wide and long enough for a person to sleep in, i.e. it should have a length of not less than 2 meters and a breadth of at least 1.5 meters and a height of 2 meters. A

dwelling room would include living room, bedroom, dining room, drawing room, study room, servant's room and other habitable rooms. Kitchen, bathroom, latrine, store room, passageway and verandah which are not normally usable for living are not considered as dwelling rooms. A room, used for multipurpose such as sleeping, sitting, dining, storing, cooking, etc., is regarded as a dwelling room. In a situation where a census houses is used as a shop or office., etc., and the household also stays in it then the room is not considered as a dwelling room. But if a garage or servant quarter is used by a servant and if she/ he also lives in it as a separate household then this has been considered as a dwelling room available to the servant's household. Tent or conical shaped hut if used for living by any household is also considered as dwelling room. A dwelling room, which is shared by more than one household, has not been counted for any of them. If two households have a dwelling room each but in addition also share a common dwelling room, then the common room has not been counted for either of the households.

**Census house**

A 'census house' is a building or part of a building used or recognised as a separate unit because of having a separate main entrance from the road or common courtyard or staircase, etc. It may be occupied or vacant. It may be used for residential or non- residential purpose or both.

In certain peculiar situations, the manner in which buildings and census houses were identified for numbering in the field by the enumerators is described hereunder:

Sometimes a series of different buildings are found along a street which are joined with one another by common walls on either side looking like a continuous structure. These different units are practically independent of one another and are likely to have been built at different times and owned by different persons. In such cases, though the whole structure with all the adjoining units apparently appears to be one building, each portion was treated as a separate building and its constituent units as separate census houses.

On the other hand, one may come across cases, particularly in large cities of multi-storeyed ownership flats. In these cases while the structure looks like one building, different persons own the flats. In case of such multi-storeyed structures, having a number of flats owned by different persons, the entire structure was treated as one building and each flat as a separate census house.

If within a large enclosed area, there are separate buildings owned by different persons then each such building is treated as a separate building. There can be a situation where within an enclosed compound there are separate buildings owned by an undertaking or company or even government that are actually in occupation of different persons. For example, Indian Oil Corporation colony where the buildings are owned by the Corporation but these are in occupation of their employees. Each such building was treated as a separate building. But if in any one of these buildings there were flats in occupation of different households, each such flat was reckoned as a separate census house.

Sometimes it becomes difficult to apply the definition of census house strictly in certain cases. For example, in an urban area, if a flat has five rooms, each room having direct entrance from the common staircase or courtyard. By definition, this has to be treated as five census houses. If all these five rooms are occupied by a single household it was not realistic to treat them as five census houses. In such a case, 'singleness' of use of these rooms along with the main house should be considered and the entire flat was treated as one census house.On the other hand, if two independent households occupy these five rooms, the first household living in 3 rooms and the second household occupying 2 rooms, then considering the use, the first three rooms together were treated as one census house and the remaining rooms as another census house. But if each room was occupied by an independent household, then each such room was treated as a separate census house.

In case of hostels, hotels, etc., even if the door of each room in which an inmate lives opens to a common verandah, staircase, courtyard or a common room, as it happens almost invariably, the entire hostel/ Hotel building was treated as one census house. but if such hostels/hotels have out-houses or other structures used for different purposes or the same purpose, then each such structure attached to the main hostel / hotel was treated as a separate census house.

In some parts of the country, in rural areas, the pattern of habitation is such that a group of huts, located in a compound, whether enclosed or unenclosed, is occupied by one household. While the main residence may be located in one hut, other huts may be used for sleeping, as a kitchen, bath room, baithak, etc. Though each of the huts was a separates structure, they form a single housing unit and therefore, have to be treated collectively as one building and one census house. If some of the huts are used by one household and the others by a second household as residence, then the two groups of huts were treated as separate census houses. However, if there were also other huts in the compound used for other purposes and not as part of the household's residence such as, cattle shed, workshed, etc., these were treated as separate census houses.

On the other hand, in urban areas, where more than one structure within an enclosed or open compound (premises) belonging to the same person, e.g., the main house, the servant's quarter, the garage, etc., only one building number was given for this group and each of the constituent a separate census house number.

Only cases where a structure with roof and pillars has come up was treated as a building.

**Village**

The basic unit for rural areas is the revenue village, which has definite surveyed boundaries. The revenue village may comprise of one or more hamlets but the entire village is treated as one unit for presentation of data. In unsurveyed areas, like villages within forest areas, each habitation area with locally recognized boundaries is treated as one village.

**Rural-Urban area**

The data in tables on Houses, Household Amenities and Assets are presented separately for rural and urban areas. The unit of classification in this regard is 'town' for urban areas and 'village' for rural areas. In the Census of India 2001, the definition of urban area adopted is as follows:

a) All places with a municipality, corporation, cantonment board or notified town area committee, etc.

b) A place satisfying the following three criteria simultaneously:

i) a minimum population of 5,000;

ii) at least 75 per cent of male working population engaged in non-agricultural pursuits; and

iii) a density of population of at least 400 per sq. km.(1,000 per sq.mile)

For identification of places which would qualify to be classified as 'urban' all villages, which, as per the 1991 Census had a population of 4,000 and above, a population density of 400 persons per sq. km. and having at least 75 per cent of male working population engaged in non-agricultural activity were considered. To work out the proportion of male working population referred to above against b) (ii), the data relating to main workers were taken into account.

Apart from these, the outgrowths (OGs) of cities and towns have also been treated as urban under 'Urban Agglomerations'. Examples of out-growths are railway colonies, university campuses, port areas, military camps, etc., that may have come up near a statutory town or city but within the revenue limits of a village or villages contiguous to the town or city. Each such individual area by itself may not satisfy the demographic criteria laid down at (b) above to qualify it to be treated as an independent urban unit but may deserve to be clubbed with the towns as a continuous urban spread. Thus, the town level data, wherever presented, also includes the data for outgrowths of such towns.

**City**

Towns with population of 1,00,000 and above are called cities.

**Urban Agglomeration**

An Urban Agglomeration is a continuous urban spread constituting a town and its adjoining urban outgrowths (OGs) or two or more physically contiguous towns together and any adjoining urban outgrowths of such towns. In some cases railway colonies, university campuses, port areas, etc., may come up near a city or statutory town outside its statutory limits but within the revenue limits of a village or villages contiguous to the town or city. Each such individual area by itself may not satisfy the minimum population limit to qualify it to be treated as an independent urban unit but may deserve to be clubbed with the town as a continuous urban spread.

For the purpose of delineation of Urban Agglomerations during Census of India 2001, following criteria are taken as pre-requisites:

(a) The core town or at least one of the constituent towns of an urban agglomeration should necessarily be a statutory town; and

(b) The total population of all the constituents (i.e., towns and outgrowths) of an Urban Agglomeration should not be less than 20,000 (as per the 1991 Census).

With these two basic criteria having been met, the following are the possible different situations in which Urban Agglomerations would be constituted:

i) a city or town with one or more contiguous outgrowths;

ii) two or more adjoining towns with their outgrowths; and

iii) A city and one or more adjoining towns with their outgrowths all of which form a continuous spread.

**Household**

A 'household' is usually a group of persons who normally live together and take their meals from a common kitchen unless the exigencies of work prevent any of them from doing so. Persons in a household may be related or unrelated or a mix of both. However, if a group of unrelated persons live in a census house but do not take their meals from the common kitchen, then they are not constituent of a common household. Each such person was to be treated as a separate household. The important link in finding out whether it was a household or not was a common kitchen. There may be one member households, two member households or multi-member households.

**Institutional household**

A group of unrelated persons who live in an institution and take their meals from a common kitchen is called an Institutional Household. Examples of Institutional Households are boarding houses, messes, hostels, hotels, rescue homes, jails, ashrams, orphanages, etc. To make the definition more clearly perceptible to the enumerators at the Census 2001, it was specifically mentioned that this category or households would cover only those households where a group of unrelated persons live in an institution and share a common kitchen.

**Houseless household**

Households who do not live in buildings or census houses but live in the open on roadside, pavements, in hume pipes, under fly-overs and staircases, or in the open in places of worship, mandaps, railway platforms, etc., are treated as Houseless Households.

**Scheduled Caste and Scheduled Tribe**

Article 341 of the Constitution provides that the President may, with respect to any State or Union territory, specify the castes, races or tribes or parts of or groups within castes, races or tribes which shall for the purposes of the Constitution be deemed to be Scheduled Castes in relation to that State or Union territory. Article 342 similarly provides for specification of tribes or tribal communities or parts of or groups within tribes or tribal communities which are to be deemed for the purposes of the Constitution to be Scheduled Tribes in relation to the various States and Union territories. In pursuance of these provisions, the list of Scheduled Castes and / or Scheduled Tribes are notified for each State and Union territory and are valid only within the jurisdiction of that State or Union territory and not outside.

It is important to mention here that under the Constitution (Scheduled Castes) Order, 1950, no person who professed a religion different from Hinduism was deemed to be a member of a Scheduled Caste in addition to every member of the Ramdasi, Kabirpanthi, Majhabi or Sikligar caste resident in Punjab or Patiala and East Punjab States Union were in relation to that State whether they professed the Hindu or the Sikh religion. Subsequently, in September 1956, by an amendment, the Presidential Order of 1950 and in all subsequent Presidential Orders relating to Scheduled Castes, the Hindu and the Sikh religions were placed on the same footing with regard to the specification of Scheduled Castes. Later on, as per the amendment made in the Constitution (Scheduled Castes) Order 1990, the Hindu, the Sikh and the Buddhist were placed on the same footing with regard to the recognition of the

Scheduled Castes.

The list containing the names of the Scheduled Castes and the Scheduled Tribes applicable for the Census of India 2001 in the State are given below:

**Scheduled Castes :**

| | | | |
|---|---|---|---|
| 1 | Agariya | 38 | Habura |
| 2 | Badhik | 39 | Hari |
| 3 | Badi | 40 | Hela |
| 4 | Baheliya | 41 | Jhusia, Jatawa |
| 5 | Baiga | 42 | Kalabaz |
| 6 | Baiswar | 43 | Kanjar |
| 7 | Bajaniya | 44 | Kapariya |
| 8 | Bajgi | 45 | Karwal |
| 9 | Balahar | 46 | Khairaha |
| 10 | Balai | 47 | Kharwar |
| 11 | Balmiki | | (excluding Banbasi) |
| 12 | Bangali | 48 | Khatik |
| 13 | Banmanus | 49 | Khorot |
| 14 | Bansphor | 50 | Kol |
| 15 | Barwar | 51 | Kori |
| 16 | Basor | 52 | Korwa |
| 17 | Bawariya | 53 | Lalbegi |
| 18 | Beldar | 54 | Majhwar |
| 19 | Beriya | 55 | Mazhabi |
| 20 | Bhantu | 56 | Musahar |
| 21 | Bhuiya | 57 | Nat |
| 22 | Bhuyiar | 58 | Pankha |
| 23 | Boria | 59 | Parahiya |
| 24 | Chamar, Dhusia, | 60 | Pasi, Tarmali |
| 25 | Chero | 61 | Patari |
| 26 | Dabgar | 62 | Rawat |
| 27 | Dhangar | 63 | Saharya |
| 28 | Dhanuk | 64 | Sanaurhiya |
| 29 | Dharkar | 65 | Sansiya |
| 30 | Dhobi | 66 | Shilpkar |
| 31 | Dom | 67 | Turaiha |
| 32 | Domar | **Scheduled Tribes** | |
| 33 | Dusadh | 1 | Bhotia |
| 34 | Gharami | 2 | Buksa |
| 35 | Ghasiya | 3 | Jaunsari |
| 36 | Gond | 4 | Raji |
| 37 | Gual | 5 | Tharu |

**Language and Mother tongue :**

As per the census concept, each language is a group of mother tongues. The census questionnaire collects information on the mother tongue of each person and mother tongue is defined as the language spoken in childhood by the person's mother to the person. If the mother died in infancy, the language mainly spoken in the person's home in childhood will be the mother tongue. In the case of infants and deaf mutes, the language usually spoken by the mother is considered as mother tongue. It is not necessary that the language spoken as mother tongue should have a script. The mother tongues returned by the respondents in census are classified and grouped under appropriate languages according to their linguistic characteristics.

**Literate**

A person age 7 years and above who can both read and write with understanding in any language is taken as literate. A person who can only read but cannot write is not literate. It is not necessary that to be considered as literate, a person should have received any formal education or passed any minimum educational standard. Literacy could also have been achieved through adult literacy classes or through any non-formal educational system. People who are blind and can read in Braille are treated as literates.

**Literacy rate**

Literacy rate of the population is defined as the percentage of literates in the age group seven years and above. For different age groups the percentage of literates in that age group gives the literacy rate.

**Educational level**

The highest level of education a person has completed

**Work**

Work is defined as participation in any economically productive activity with or without compensation, wages or profit. Such participation may be physical and/or mental in nature. Work involves not only actual work but also includes effective supervision and direction of work. It even includes part time help or unpaid work on farm, family enterprise or in any other economic activity. All persons engaged in 'work' as defined above are workers. Persons who are engaged in cultivation or milk production even solely for domestic consumption are also treated as workers.

Reference period for determining a person as worker and non-worker is one year preceding the

date of enumeration.

**Main worker**

A person who has worked for major part of the reference period ( i.e. six months or more during the last one year preceding the date of enumeration) in any economically productive activity is termed as 'Main worker'.

**Marginal worker**

A person who worked for less than six months of the reference period ( i.e. in the last one year preceding the date of enumeration ) in any economic activity is termed as 'Marginal worker'.

**Non worker**

A person who has not worked at all in any economically productive activity during the reference period (i.e. last one year preceding the date of enumeration) is termed as 'Non worker'.

**Cultivator**

For purposes of the Census a person is classified as cultivator if he or she is engaged in cultivation on land owned or held from government or held from private persons or institutions for payment in money, kind or share. Cultivation includes effective supervision or direction in cultivation.

A person, who has given out her/his land to another person or persons or institution(s) for cultivation for money, kind or share of crop and who does not even supervise or direct cultivation in exchange of land, is not treated as cultivator. Similarly, a person working on another person's land for wages in cash or kind or a combination of both (agricultural labourer) is not treated as cultivator.

Cultivation involves ploughing, sowing, harvesting and production of cereals and millet crops such as wheat, paddy, jowar, bajra, ragi, etc. and other crops such as sugarcane, tobacco, groundnuts, tapioca, etc. and pulses, raw jute and kindred fiber crop, cotton, cinchona and other medicinal plants, fruit growing, vegetable growing or keeping orchards or groves, etc. Cultivation does not include the following plantation crops – tea, coffee, rubber, coconut and betel nuts (areca).

**Agricultural labourer**

A person who works on another person's land for wages in money or kind or share is regarded as an agricultural labourer. She/he has no risk in the cultivation, but merely works on another person's land for wages. An agricultural labourer has no right of lease or contract on land on which she/he works.

**Household industry worker**

Household industry is defined as an industry conducted by the head of the household herself/ himself and or by the members of the household at home or within the village in rural areas and only within the precincts of the house where the household lives in urban areas. The larger proportion of workers in household industry should consist of members of the household including the head. The industry should not be run on the scale of a registered factory which would qualify or has to be registered under the Indian Factories Act and should be engaged in manufacturing, processing, servicing and repairs of goods.

It does not include professions such as a Pleader, Doctor, Musician, Dancer, Waterman, Astrologer, Dhobi, Barber, etc. or merely trade or business, even if such professions, trade or services are run at home by members of the household.

**Other worker**

A person who has been engaged in some economic activity during the reference period but not as a cultivator or agricultural labourer or in Household Industry is termed as a 'Other Worker (OW)'. The type of workers that come under this category of 'OW' include all government servants, municipal employees, teachers, factory workers, plantation workers, those engaged in trade, commerce, business, transport, banking, mining, construction, political or social work, priests, entertainment artists, etc. In effect, all those workers other than cultivators or agricultural labourers or household industry workers, are 'Other Workers'.

**Work participation rate**

Percentage of workers (main + marginal) to total population.

**Population density**

Population density is the number of persons inhabited per square kilometer of the area.

**Age**

Age is measured in terms of the completed number of years.

**Sex-ratio**

Number of females per 1,000 males in a

population.

**(vi) Non Census Concepts**

**Improved drinking water :**

If the household had access to drinking water supplied from a tap, hand pump, tube well or well (protected or covered) situated within or outside the premises, it is considered as having access to improved drinking water.

It may be mentioned that such uniform definition may not be valid across all states.

**System of Sewerage**

Generally, a sewerage system would mean a network of mains and branches of underground conduits for the conveyance of sewerage to the point of disposal. Sewers that carry only household and industrial wastage are called separate sewers; those that carry storm water from roofs, streets and other surfaces are known as storm water drains, while those carrying both sewage and storm water are called combined sewers. However, in some towns which are not provided with such underground sewerage system, it is served by open surface drain, box drain, sylk pattern drain, etc., in these towns.

**Type of latrine and method of disposal of night soil**

There are three prevalent systems of disposal of human wastes, viz. (i) underground sewerage, (ii)sanitary water flush latrines with individual disposal systems, like septic tank, leaching cess pool and collecting well, and (iii) dry type of latrines with manual scavenging.

The system of underground sewerage provides for the street sewerage with which are connected the sanitary latrines constructed in the houses having water closets and fitted with flushing cistern (or hand flushing). Through this sewer the faecal matter is transported without the need for scavenging. This system generally exists in cities and big towns.

Where the streets sewer does not exist these sanitary water flush latrines are connected to a local septic tank with a sub-soil dispersion system or a leaching pit. Here the liquid wastes from the water closet is disposed of locally in leaching pit, a septic tank with a soil dispersion system is constructed. This dispersion requires an optimum travel through the pores of the soil which renders the harmful liquid bacterially innocuous by the slow process of filteration through the soil traversed.

Where the soil is impermeable, collecting wells are constructed and the sanitary water flush latrines are connected with them. These wells are cleaned at periodic intervals by a suitable device. The dry type of latrines are of service type latrines from where human excreta is removed by scavengers from house to house, in most cases carrying it on their heads or shoulders or in baskets with handle or wheel barrows. These are then collected in bullock carts or trucks or tractors and trolleys for being carried to the dumping grounds.

**Fertility**

In demography, the word fertility is used in relation to the actual production of children or occurrence of births specially live births. Fertility is a measure of rate at which population adds to itself by births and normally assessed by relating the number of births to a full or part of the population, such as number of married women or number of women of child bearing age. The definitions of the terminology used in computing different fertility rates are mentioned below:

**Crude birth rate (CBR)**

Ratio of the number of live births in a year to the mid year population, normally expressed per 1,000 population.

$$CBR = \frac{\text{Number of live births during the year}}{\text{Mid-year Population}} \times 1000$$

**Crude death rate (CDR)**

Ratio of the number of deaths in a year to the mid year population, normally expressed per 1,000 population.

$$CDR = \frac{\text{Number of deaths during the year}}{\text{Mid-year Population}} \times 1000$$

**Natural growth rate**

Growth rate is obtained as the difference between crude birth rate and crude death rate in the absence of migration.

**Age specific fertility rate (ASFR)**

Number of live births in a year to female population in any specified age group normally expressed per 1,000 women.

$$\text{ASFR} = \frac{\text{Number of live births in a particular age-group}}{\text{Mid-year female population of the same age-group}} \times 1000$$

**Age specific marital fertility rate (ASMFR)**

Number of live births in a year to married female population in any specified age group normally expressed per 1,000 married women.

$$\text{ASMFR} \frac{\text{Number of live births in a particular age-group}}{\text{Mid-year married female population of the same age-group}} \times 1000$$

**General fertility rate (GFR)**

Number of live births per 1,000 women in the reproductive age-group (15-49) years in a given year.

$$\text{GFR} = \frac{\text{Number of live births in a year}}{\text{Mid-year female population in the age-group (15-49) years}} \times 1000$$

**General marital fertility rate (GMFR)**

Number of live births per 1,000 married women in reproductive age-group (15-49) years in a given year.

$$\text{GMFR} = \frac{\text{Number of live births in a year}}{\text{Mid-year married female population in the age-group (15-49) years.}} \times 1000$$

**Total fertility rate (TFR)**

It is obtained as the total of the age specific fertility rates (number of children born per woman of the particular age) for the entire reproductive age span. It provides the average number of children that will be born to a woman under the fertility levels indicated by the age specific fertility rates assuming that there is no mortality of women till the completion of reproductive period.

$$\text{TFR} = \frac{5 \times \sum_{15-19}^{45-49} \text{ASFR}}{1000}$$

**Total marital fertility rate (TMFR)**

Average number of children that would be born to a married woman if she experiences the current fertility pattern throughout her reproductive span (15-49) years assuming that there is no mortality of women till the completion of reproductive period.

$$\text{TMFR} = \frac{5 \times \sum_{15-19}^{45-49} \text{ASMFR}}{1000}$$

**Age-specific mortality rate (ASMR)**

Number of deaths in a particular age and sex group per 1,000 population of the same age group.

$$\text{ASMR} = \frac{\text{Number of deaths in a particular age-group}}{\text{Mid-year population of the same age-group}} \times 1000$$

**q1**

Probability of dying between birth and age 1. This can be used as approximate value of Infant Mortality Rate (IMR) which gives the ratio of number of deaths in a year of children aged less than one year to the number of births in that year.

**q2**

Probability of dying between birth and age 2.

**q5**

Probability of dying between birth and age 5. This indicator is also known as Under Five Mortality Rate (U5MR)

**Infant mortality rate (IMR)**

Ratio of the number of infant deaths (deaths of children below one year) in a year to the number of live births in that year.

$$\text{IMR} = \frac{\text{Number of infant deaths during the year}}{\text{Number of live births during the year}} \times 1000$$

Infant mortality rate comprises of two parts, viz., Neo-natal mortality rate and Post neo-natal mortality rate. The neo-natal mortality rate also comprises of two parts viz., Early neo-natal mortality rate and late neo-natal mortality rate. These are defined as:

**Neo-natal mortality rate (NMR)**

Number of infants dying within the first month of life (28 days or under ) in a year per 1,000 live births of the same year.

$$\text{NMR} = \frac{\text{Number of infant deaths aged 28 days or under during the year}}{\text{Number of live births during the year}} \times 1000$$

**Early neo-natal mortality rate**

$$\frac{\text{Number of infant deaths of less than 7 days during the year}}{\text{Number of live births during the year}} \times 1000$$

**Late neo-natal mortality rate**

$$\frac{\text{Number of infant deaths of 7 days to less than 29 days during the year}}{\text{Number of live births during the year}} \times 1000$$

**Post neo-natal mortality rate (PNMR)**

$$\frac{\text{Number of deaths of 29 days to less than One year during the year}}{\text{Number of live births during the year}} \times 1000$$

**Peri-natal mortality rate (PMR)**

Number of still births plus deaths within 1st week of delivery per 1,000 births in a year.

$$PMR = \frac{\text{Number of still births and infant deaths of less than 7 days during the year}}{\text{Number of live births and still births during the year}} \times 1000$$

**Still birth rate (SBR)**

$$\frac{\text{Number of still births during the year}}{\text{Number of live births and still births during the year}} \times 1000$$

**Maternal mortality rate (MMR)**

Number of deaths of women in the age group 15-49 while pregnant or within 42 days of termination of pregnancy from any cause related to pregnancy and child birth per 100000 live births in a given year.

$$MMR = \frac{\text{Number of maternal deaths to women in the agegroup 15-49}}{\text{Number of live birth}} \times 100000$$

**Eligible couple (Couples per 1,000 Population)**

Number of currently married females in the age group 15-44 years per 1000 persons of all ages.

**Child woman ratio (0-4)**

1. Number of children in the age group 0-4 years per 1,000 women in the age group 15-49 years.

**Child woman ratio (5-9)**

2. Number of children in the age group 5-9 years per 1000 women in the age group 15-49 years.

**Migration**

Migration is the third component of population change, the other two being mortality and fertility.

A person is considered as a migrant by place of birth if the place in which he/she is enumerated during the census is other than the place of his/her birth.

Similarly a person is considered as a migrant by place of last residence if the place in which he/she is enumerated during the census is other than his/her place of immediate last residence outside the village or town and not simply in another house or locality in the same village or town.

Certain aspects concerning temporary movement/ migration of people has been explained below as these are important components concerning migration:

(i) Migration of persons in search of job is high in the country. In many cases such migrants are only seasonal in nature. People migrate to other places for work in a particular season and come back again to their usual place of residence after three or four months. All such workers are treated as migrants. Similarly, if a person moved to any other place for attending short term vocational or educational course that lasted for only few months of a year, she/he too were considered as a migrant.

(ii) Where a person had merely gone out to another place or had been shifting from one place to another purely on tour, pilgrimage, visit to hospital for treatment or for temporary business purposes, such persons are not deemed to have had another residence different from the place where she/he or her/his family normally resides. She/ he is not considered as migrant.

(iii) A woman temporarily moves into a hospital or to her parents or other relative's house for delivery and if the hospital or the parents/relatives houses is in a place different from usual place of residence, the place where the hospital or parents / relative's house is the place of last residence

of the child but not of the mother.

A new response category 'Moved after birth' was added in Census of India 2001 in the question on 'reasons for migration' to bring out additional migration patterns. Natural calamities or distress migration as a reason for migration for last residence migrants included in 1991 Census, is covered under category of 'Others'. The reason for migration has been determined as applicable at the time of migration and not in reference to any point of time after that. For example, if a person had moved from the place of her/his last residence for the purpose of education and subsequently at some point of time got employment there only, the reason for migration would be 'education' and not 'work/employment'.

**Internal and International migration**

The migrational movements are of three types (i) Migration within the state itself with its components (a) Migration within the district of enumeration (intra district migration) (b) Migration from one district of state to another district of state (inter district migration), (ii) Migration from one state to another State of the country (inter-state migration), (iii) Migration from one country to another country. The first two streams together constitute internal migration, while the last type of movement is called international migration. The present name of the country, state or district and not the name by which they were known at the time of her/his birth or last residence were recorded.

**Rural-Urban components of migration**

Rural or Urban status in respect of migrants have been determined as applicable at the time of migration and not with reference to any point of time after that.

The flow of migrants consists of four streams viz. rural to rural, rural to urban, urban to rural and urban to urban.

**Civic status of urban units**

Civic Status of a town/city is determined on the basis of Civic Administrative authority of the town e.g. Municipal Corporation/Corporation, Municipal Committee/Municipal Council, Municipality etc.

**Size class of UA / town**

Size-class of UA/Town is based on the population size of the UA/City/Town UAs./Towns with 1,00,000 and above population are classified as Class I UAs. / towns. These Class I UAs. / towns are now further sub classified in to seven sub classes namely M1 to M7 depending on the population size of UA/City/ Town. These are M7 (5,000,000 and above); M6 (2,000,000 to 4,999,999); M5 (1,000,000-1,999,999) M4 (500,000-999,999); M3 (300,000-499,999), M2 (200,000-299,999) & M1 (100,000-199,999). Towns with, 50,000 to 99,999 population are classified as Class II towns, 20,000 to 49,999 population are Class III towns. population with 10,000-19,999 are Class IV towns. population with 5,000 and 9,999 are Class V towns and towns with less than 5,000 population are Class VI towns.

**Slum area**

The Slum Areas (Improvement and Clearance) Act, 1956 which was enacted by the Central Govt. defined slums as (a) Areas where buildings are in any respect unfit for human habitation; or (b) are by reasons of dilapidation, overcrowding, fault arrangement and design of such buildings, narrowness or faulty arrangement of streets, lack of ventilation, light or sanitation facilities, or any combination of these factors, are detrimental to safety, health or morals.

**Mega city**

The concept of 'Mega city' is a recent phenomenon in the Urban Sociology and is defined in term of metropolitan city in the form of large size, problem of management of civic amenities and capacity to absorb the relatively high growth of population. Indian Census in 1991 treated the population size of 5 million and above as the cut off point to identify a place as the mega city. Whereas, for the purpose of inclusion in Centrally Sponsored Scheme for Infrastructure Development in Mega cities the Ministry of Urban Affairs and Employment, Department of Urban Development adopted the criteria of 4 million and above population as per 1991 Census for Mega Cities. In 2001 Census, cities with 10 millions and above population have been treated as Mega cities.

**(vii) 2001 Census findings**

**Population Distribution :**

The total population of the district is 1,336,031 out of which 1,071,551 live in rural and

rest 264,480 in urban areas. There are four tahsils in district namely Sasni, Sikandra Rao, Hathras and Sadabad. The most populous tahsil is Hathras followed by Sikandra Rao, Sasni is least populated tahsil preceded Sadabad. The urban population in the district is 19.8 per cent. The urban population is maximum at 32.2 per cent in Hathras tahsil. There 672 revenue villages in the district out of which 656 are inhabited at the 2001 Census and remaining 16 are un-inhabited. The total rural population of 1,071,551 is spread over 7 CD Blocks and one inhabited forest villages. The most populous CD Block is Sadabad with a population of 184,966, but the maximum number of inhabited villages (143) are in Murasan CD Block. About half of populated villages have a population in the size of 500-999 and 1000-1999 and such villages form as high as 58.7 per cent of total populated villages. Although the population density in the rural district is 747 highest proportion (68.9) of villages are with a population density range of 501+ per square kilometer. Such villages contain as much as 80.2 per cent of total rural population.

**Size - Class and Status of Towns :**

In the total urban populationof 264,480 as much as 1,26,355 live in Hathras (NPP). The next big town is Sikandra Rao (NPP) with a populationof 37,938. The above two are class I and III towns having the civic status of Municipal Board (NPP), Rest of 7 towns are Nagar Panchayat (NP) out of which one, 2 are Class III- and 4 are IV and one class V towns. Sasni tahsil contains one, Sikandra Rao tahsil has 3 towns and tahsil Hathras has 3 towns while Sadabad tahsil has 2 towns.

**Population growth :**

At the present territorial jurisdiction the population of the district was 1,126,918 at 1991 Census and growing by 18.6 per cent during the decade 1991-2001 it is 1,336,031 at 2001 Census. The decadal growth at 18.6 per cent in the district has been at lower level than in the state at 25.8.

**Population Density :**

The district has an area of 1,840 square kilometre. The population density in the district is 726. While in the rural areas of the district the density is about 598.

**Sex - Ratio :**

The sex-ratio in the district at 858 is lower than 898 at the state level. Indeed the sex-ratio at the district level has all along been lower in the district as against that of the state since 1901. As against urban areas of the district the sex-ratio is higher in rural areas from 1901 to 1951. Among tahsils, highest sex-ratio is in Sikandra Rao (868) and lowest in both Sadabad (848). Among CD Blocks the sex-ratio is highest in Sikandra Rao at 866 and lowest in Sadabad at 841. Out of 656 inhabited villages in the district there are 0.9 per cent villages (with 0.1 per cent of rural population) which are having a sex-ratio below 700. In the urban parts of the district the sex-ratio is 879 and highest of 909 in Sikandra Rao (NPP) and lowest of 848 in Mendu (NP). The sex-ratio of population in the age-group 0-6 is 886 in the district. As against a sex-ratio of 886 in the age-group 0-6 of rural population of the district, it is highest at 902 in Hathras CD Block and lowest at 864 in Sadabad CD Block. It may be noted that out of 656 inhabited villages in the district in over 7.9 per cent of villages with 2.9 per cent of rural population the sex-ratio in the age-group 0-6 is less than 700. As against the sex ratio of 886 for 0-6 age group in the rural area of the district is 885 in urban areas. Among towns this sex-ratio is highest at 934 in Hasayan (NP) and lowest at 851 in Mendu (NP).

**Work Participation Rate :**

As per 2001 Census the total population of the district was 1,336,031 out of which 29.3 per cent are workers and rest of 70.7 per cent are non-workers. Among workers 22.1 per cent are main workers and rest of 7.2 per cent are marginal workers. In absolute terms males outnumber females as main workers and marginal workers as well. The extent of main workers is highest at 22.6 per cent in Sikandra Rao tahsil and lowest at 20.8 per cent in Sasni tahsil. In case of marginal workers the proportion is highest in Sadabad tahsil (10.0 per cent) in comparison to only 7.2 per cent in Sasni tahsil. The extent of workers in rural areas and non-workers in urban parts is higher. In the district among workers 33.1 per cent are cultivators and 35.4 per cent other workers. It is worthwhile to note that over 24 per cent of female workers are engaged as cultivators.

**Literacy :**

In the district 62.5 per cent population is literate. The literacy is 65.3 per cent in urban areas and 61.8 per cent in rural areas. The male literacy is as high as 76.3 per cent as against 46.3 per cent observed for females. The gap in male/female literacy rate is 30.0 percentage points. In rural areas among 7 CD Blocks, the highest literacy is at 64.1 per cent in Sadabad and lowest at 56.3 per cent in Hasayan. The literacy among male in rural areas is 76.9 per cent in comparison to 43.9 per cent among females. The lowest female literacy of 39.1 per cent is in Hasayan CD Block. Also the gap in male/female literacy rate is highest in Sadabad CD Block (38.3 per cent points). In 70.2 per cent of villages covering 77.4 per cent of rural population the literacy range is 51 to 70. Among urbanites in the district, 73.9 per cent males are literate as against 55.6 per cent females. The highest urban literacy is in Sasni NP (74.8 per cent) and lowest in Sikandra Rao NPP (54.9 per cent). The maximum males literacy is also found in Sasni NP (at 82.5 percent) and lowest of 63.6 per cent in Sikandra Rao NPP. However, the highest females literacy is in Sasni NP at 62.2 per cent and lowest at 41.0 per cent in Mendu NP. Still, the maximum gap (29.6 percentage points) in male-female literacy rate is found in Hasayan NP. The literacy among scheduled castes is 54.2 per cent in rural areas 50.7 per cent in urban.The literacy rate for scheduled tribes is 28.9 per cent in rural areas and 15.0 per cent in urban areas.

**(viii) Brief analysis of PCA data based on inset tables 1-36:**

The district throw up vivid picture of its population by varying parameters at the 2001 Census. A few of the peculiar characteristics of the population is being highlighted here on the basis of the following inset tables.

**TABLE-1 : DECADAL CHANGE IN POPULATION OF TAHSILS BY RESIDENCE, 1991-2001**

| Serial number | Tahsil | Population | | | | | | Percentage decadal variation 1991-2001 | | | Percentage urban population | |
|---|---|---|---|---|---|---|---|---|---|---|---|---|
| | | 1991 | | | 2001 | | | | | | | |
| | | Total | Rural | Urban | Total | Rural | Urban | Total | Rural | Urban | 1991 | 2001 |
| 1 | 2 | 3 | 4 | 5 | 6 | 7 | 8 | 9 | 10 | 11 | 12 | 13 |
| 1 | Sasni | N.A. | N.A. | N.A. | 196,119 | 180,861 | 15,258 | N.A. | N.A. | N.A. | N.A. | 7.8 |
| 2 | Sikandra Rao | N.A. | N.A. | N.A. | 342,652 | 283,035 | 59,617 | N.A. | N.A. | N.A. | N.A. | 17.4 |
| 3 | Hathras | N.A. | N.A. | N.A. | 464,874 | 314,978 | 149,896 | N.A. | N.A. | N.A. | N.A. | 32.2 |
| 4 | Sadabad | N.A. | N.A. | N.A. | 332,386 | 292,677 | 39,709 | N.A. | N.A. | N.A. | N.A. | 11.9 |
| | **District Total:** | **1,126,918** | **908,235** | **218,683** | **1,336,031** | **1,071,551** | **264,480** | **18.6** | **18.0** | **20.9** | **19.4** | **19.8** |

*Note - NA shown in the table-1 above indicate that all tahsil are newly carved out after 1991 and tahsil level data has not been recast for that year.*

The growth rates of each tahsil in the Hathras district for total, rural and urban areas and percentage of urban population to total population is given in table. The decadal growth rate of the district is 18.6 per cent during 1991-2001. The growth rates for rural and urban areas of the district are 18.0 and 20.9 per cent respectively . Out of the total population of the district 80.2 per cent live in rural areas while 19.8 per cent live in urban areas of the district. The proportion of urban population has slighyly declined during the decade from 20.9 per cent in 1991 to 19.8 per cent in 2001 in the district. The highest growth of urban population is recorded in Hathras tahsil (32.2 percent) and lowest is registered in Sasni tahsil (7.8). Urban population is concentrated in Hathras and Sikandra Rao tahsils.The decadal change in population of tahsils has not been presented as it is one of the newly created district after 1991 Census from Aligarh and Mathura and separate figures for each tahsil could not be recasted.

TABLE - 2: NUMBER AND PERCENTAGE OF INHABITED VILLAGES IN SPECIFIED POPULATION SIZE RANGES WITH THE RELATED POPULATION , 2001

| Serial number | District / C.D. block | Total number of inhabited villages | Total rural population | | | Number and percentage of villages | Population less than 200 | | Number and percentage of villages | Population 200-499 | | Number and percentage of villages |
|---|---|---|---|---|---|---|---|---|---|---|---|---|
| | | | Persons | Males | Females | | Males | Females | | Males | Females | |
| 1 | 2 | 3 | 4 | 5 | 6 | 7 | 8 | 9 | 10 | 11 | 12 | 13 |
| 1 | Sasni | 115 | 180,861 | 97,394 | 83,467 | 5 (4 3) | 299 | 233 | 9 (7.8) | 1,526 | 1,298 | 30 (26 1) |
| 2 | Sikandra Rao | 65 | 136,542 | 73,171 | 63,371 | 1 (1 5) | 107 | 73 | 7 (10 8) | 1,065 | 898 | 16 (24 6) |
| 3 | Hasayan | 93 | 146,493 | 78,886 | 67,607 | 1 (1 1) | 55 | 40 | 10 (10 8) | 1,846 | 1,581 | 27 (29 0) |

| **70,600** | **60,682** | **209 ( 31.9)** | **157,486** | **133,954** | **149 ( 22.7)** | **238,824** | **204,108** | **22 ( 3.4)** | **79,813** | **67,860** | **2 ( 0.3)** | **16,532** | **14,002** |

Table-2 gives C.D. block-wise population, number and percentage of villages falling in each range of population size of villages and number of males and females in each population range at C.D. block level in the district. Out of the 656 inhabited villages, 24 (3.7 per cent) are small sized villages with population below 200 persons. In the size of 200 to 499 persons there are 74 villages having 11.3 per cent villages of the district while in the size class of 500-999 population claims 176 villages with 26.8 per cent of the total villages in the district. 209 villages (31.9 per cent) are in the size class of 1,000-1,999 and 149 villages (22.7 per cent) are in the size class of 2,000-4,999. 22 villages (3.4 percent) in the district fall in the ranges of 5,000 –9,999 and 2 villages (0.3 percent) are in the size of class 10,000 and above population.The biggest village in the district having population of 17,181 persons is located in Sadabad C.D. block of district.

**TABLE - 3 : NEW TOWNS, DENOTIFIED, DECLASSIFIED AND MERGED TOWNS IN 2001 CENSUS**

(a) New
  (i) Statutory town – NIL
  (ii) Census town - NIL
(b) Denotified - NIL
  (i) Statutory towns of 1991 Census denotified and also did not satisfy the criteria to be treated as Census towns - NIL
  (ii) Statutory towns of 1991 Census denotified but identified as Census towns based on demographic and economic criteria - NIL
  (iii) Census towns of 1991 Census are notified as statutory town in 2001 Census - NIL
(c) Declassified - NIL
(d) Wholly merged with other town(s) - NIL

Declassified means the Census towns of 1991 Census which failed to satisfy the demographic and economic criteria.

TABLE - 4 : DISTRIBUTION OF VILLAGES BY POPULATION DENSITY, 2001

| Range of population density (per square kilometre) | Total number of villages in each population density range | Percentage of villages in each population density range | Population | Percentage distribution of population |
|---|---|---|---|---|
| 1 | 2 | 3 | 4 | 5 |
| 0-10 | 12 | 1 8 | 24,424 | 2 3 |
| 11-20 | 0 | 0 | 0 | 0 |
| 21-50 | 2 | 0.3 | 133 | 0 |
| 51-100 | 2 | 0.3 | 184 | 0 |
| 101-200 | 16 | 2 4 | 8,738 | 0 8 |
| 201-300 | 32 | 4 9 | 21,952 | 2 |
| 301-500 | 140 | 21.3 | 156,284 | 14 6 |
| 501 + | 452 | 68 9 | 859,836 | 80.2 |
| Not known | 0 | 0 | 0 | 0 |
| **District Total:** | **656** | **100** | **1,071,551** | **100** |

**Population Density (Rural) of the district: 747**

This table 4 shows the distribution of villages by population density ranges. The inhabited villages of the district have been grouped under eight different ranges of density. The maximum number of village i.e. 452 accounting for 68.9 per cent of the total inhabited villages of the district fall in the density range of 501+ persons having 80.2 per cent population. The lowest range of 0-10 persons per sq. km. covers 12 villages 1.8 per cent. In the medium density ranges of 21 to 50 and 51-100 persons account for 0.3 and 2.4 per cent of inhabited villages respectively. Both these ranges accomodate 0.8 per cent of the rural population.

TABLE - 5 : SEX RATIO OF STATE AND DISTRICT, 1991-2001

| Census Year | State | | | District | | |
|---|---|---|---|---|---|---|
| | Total | Rural | Urban | Total | Rural | Urban |
| 1 | 2 | 3 | 4 | 5 | 6 | 7 |
| 1901 | 938 | 941 | 916 | 885 | 888 | 871 |
| 1911 | 916 | 922 | 866 | 843 | 850 | 813 |
| 1921 | 908 | 918 | 834 | 838 | 846 | 801 |
| 1931 | 903 | 916 | 813 | 840 | 852 | 786 |
| 1941 | 907 | 922 | 824 | 841 | 847 | 813 |
| 1951 | 908 | 922 | 827 | 852 | 853 | 843 |
| 1961 | 907 | 921 | 817 | 855 | 853 | 865 |
| 1971 | 876 | 884 | 826 | 824 | 823 | 829 |
| 1981 | 882 | 889 | 850 | 827 | 821 | 851 |
| 1991 | 876 | 879 | 864 | 830 | 822 | 861 |
| 2001 | 898 | 904 | 876 | 858 | 853 | 879 |

As per 2001 Census sex-ratio of 858 females per 1,000 males has been recorded in the district against the state average of 898. The sex-ratio of the district was significantly high as compared to the state average figures from 1901 to 1931 and remained above the state average figures during this period. The subsequent decades show declining trend from 1941 to 2001 and value remained below the state average. The lowest sex ratio of 824 females per 1000 males were recorded in the district during 1971 against the state average of 876 females. It is also observed that the proportion of females in rural areas is higher than that of urban areas in both district and state.

TABLE - 6 : SEX RATIO BY TAHSILS, 2001

| Serial number | Name of Tahsil | Sex ratio | | |
|---|---|---|---|---|
| | | Total | Rural | Urban |
| 1 | 2 | 3 | 4 | 5 |
| 1 | Sasni | 860 | 857 | 895 |
| 2 | Sikandra Rao | 868 | 861 | 900 |
| 3 | Hathras | 858 | 852 | 871 |
| 4 | Sadabad | 848 | 844 | 871 |
| | **District Total:** | **858** | **853** | **879** |

The table-6 gives sex-ratios for total, rural and urban areas at tahsil level as per 2001 Census. There are 858 females for every thousand males in Hathras district. It becomes clear from the table that sex-ratio in rural areas is lower than that of urban areas. The sex-ratio among rural and urban population is 853 and 879 females respectively. The rural sex-ratio in the tahsils varies between 861 in Sikandra Rao tahsil and 844 in Sadabad. In urban areas the highest sex-ratio is recorded in Sikandra Rao (900) and the lowest is in both Hathras and Sadabad urban (871).

TABLE - 7 : SEX RATIO BY CD BLOCKS, 2001

| Serial number | Name of C D block | Sex ratio |
|---|---|---|
| 1 | 2 | 3 |
| 1 | Sasni | 857 |
| 2 | Sikandra Rao | 866 |
| 3 | Hasayan | 857 |
| 4 | Hathras | 862 |
| 5 | Mursan | 843 |
| 6 | Sadabad | 841 |
| 7 | Sahpau | 851 |
| | **District (Rural) Total:** | **853** |

The table-7 presents C.D. block-wise sex-ratio for rural population in the district. The sex-ratio in rural areas of the district comes 853 females per 1,000 males, as a whole. Among the C.D. blocks the highest sex-ratio of 866 females is found in Sikandra Rao C.D. block and is fallowed by Hathras (862 ) while the lowest of 841 is recorded in Sadabad C.D. block. The sex-ratios of Sasni, Sikandra Rao, Hasayan and Hathras C.D. block are higher than

the district rural average of 853 females and in remaining blocks, this value is below the district average.

TABLE - 8 : SEX RATIO OF RURAL POPULATION BY RANGES, 2001

| Range of sex ratio for villages | Number of inhabited villages | Percentage of villages in each range | Population 2001 | Percentage distribution of population |
|---|---|---|---|---|
| 1 | 2 | 3 | 4 | 5 |
| Less than 700 | 6 | 0 9 | 825 | 0.1 |
| 700-749 | 14 | 2.1 | 7,741 | 0 7 |
| 750-799 | 63 | 9.6 | 72,462 | 6 8 |
| 800-849 | 215 | 32 8 | 411,217 | 38.4 |
| 850-899 | 244 | 37 2 | 462,966 | 43 2 |
| 900-949 | 83 | 12.7 | 98,311 | 9.2 |
| 950-999 | 16 | 2.4 | 10,304 | 1 |
| 1000-1099 | 13 | 2 | 4,008 | 0.4 |
| 1100+ | 2 | 0.3 | 3,717 | 0 3 |
| **District Total:** | **656** | **100** | **1,071,551** | **100** |
| **Sex ratio (Rural) for District:** | | | **853** | |

Table 8 presents the distribution of villages by sex-ratio ranges based on 2001 Census. The maximum number of villages i.e. 244 accounting for 37.2 per cent of the total villages having largest population of 43.2 per cent in the district fall in the sex-ratio range of 850-899 females per 1,000 males. It is followed by the sex-ratio range of 800-849 which claims 215 villages (32.8 per cent) and 38.4 per cent population. The highest range of 1,100 & above claims 2 villages ( 0.3 per cent). This range shares 0.3 per cent rural population of the district while in the sex-ratio range of 900-949, there are 83 villages (12.7 per cent). In remaining sex-ratio ranges of 950-999,1000,1099, 750-799, 700-749 and less than 700, the number of villages are 16 (2.4 per cent), 13 (2.00 per cent), 63 (9.6. per cent), 14 (2.1 per cent) and 6 (0.9 per cent) respectively. In these ranges, the percentage of population is comparatively low. The maximum number of villages i.e 244 having maximum population (43.2 per cent) fall in the medium sex-ratio ranges of 850-899 females and above showing that in majority of villages the sex-ratio is significantly medium

TABLE - 9 : SEX RATIO OF URBAN AGGLOMERATIONS / TOWNS, 2001

| Serial number | Name of U.A / Town | Urban status of | Sex ratio |
|---|---|---|---|
| 1 | 2 | 3 | 4 |
| 1 | Hasayan | (NP) | 861 |
| 2 | Hathras | UA | 874 |
| 3 | Hathras | (NPP+OG) | 874 |
| 4 | (i) Hathras | (NPP) | 874 |
| 5 | Mendu | (NP) | 848 |
| 6 | Mursan | (NP) | 868 |
| 7 | Purdilnagar | (NP) | 891 |
| 8 | Sadabad | (NP) | 871 |
| 9 | Sahpau | (NP) | 867 |
| 10 | Sasni | UA | 895 |
| 11 | Sasni | (NP+OG) | 895 |
| 12 | (i) Sasni | (NP) | 897 |
| 13 | Sikandra Rao | (NPP) | 909 |
| **Sex ratio (Urban) for the district:** | | | **879** |

Table 9 gives the sex ratio of towns. The sex ratio in urban areas of the district comes to 879 females per 1,000 males as a whole. Among the 13 towns of the district the sex ratio varies between 848 and 909. Sikandra Rao(NPP). has the highest sex-ratio (909), while Mendu (NP) has the lowest sex-ratio of 848 females.

TABLE - 10 : SEX RATIO OF POPULATION IN THE AGE GROUP 0-6 FOR TAHSILS, 2001

| Serial number | Name of Tahsil | Total / Rural / Urban | Total population in 0-6 age group | | | Sex ratio for 0-6 age group |
|---|---|---|---|---|---|---|
| | | | Persons | Males | Females | |
| 1 | 2 | 3 | 4 | 5 | 6 | 7 |
| 1 | Sasni | Total | 36,793 | 19,581 | 17,212 | 879 |
| | | Rural | 34,327 | 18,273 | 16,054 | 879 |
| | | Urban | 2,466 | 1,308 | 1,158 | 885 |
| 2 | Sikandra Rao | Total | 68,686 | 36,312 | 32,374 | 892 |
| | | Rural | 57,248 | 30,270 | 26,978 | 891 |
| | | Urban | 11,438 | 6,042 | 5,396 | 893 |
| 3 | Hathras | Total | 84,518 | 44,667 | 39,851 | 892 |
| | | Rural | 61,178 | 32,245 | 28,933 | 897 |
| | | Urban | 23,340 | 12,422 | 10,918 | 879 |
| 4 | Sadabad | Total | 65,058 | 34,705 | 30,353 | 875 |
| | | Rural | 57,694 | 30,813 | 26,881 | 872 |
| | | Urban | 7,364 | 3,892 | 3,472 | 892 |
| | **District Total:** | **Total** | **255,055** | **135,265** | **119,790** | **886** |
| | | **Rural** | **210,447** | **111,601** | **98,846** | **886** |
| | | **Urban** | **44,608** | **23,664** | **20,944** | **885** |

The table 10 presents population of age-group 0-6 years and sex ratio for total, rural and urban areas in respect of each tahsil of the district. Total population in age group 0-6 is 255,055 persons comprising of 135,265 males and 119,790 females. The total sex ratio in this age group works out as 886 females for every thousand males in the district. The proportion of females in rural areas is slightly higher than that of urban areas. The sex ratio in rural and urban areas comes 886 and 885 females in this age-group respectively. The rural sex ratio in tahsil varies between 872 in Sadabad and 897 in Hathras tahsil. The sex-ratio of Hathras (T), and Sikandra Rao (T) are higher than district rural average (886).Sadabad Tahsil has lowest sex-ratio of 875 females among the total population. In urban areas, the highest sex-ratio is recorded in Sikandra Rao urban (893) and the lowest is found in Hathras urban (879).

**TABLE - 11 : SEX RATIO OF POPULATION IN THE AGE GROUP 0-6 FOR C.D. BLOCKS, 2001**

| Serial number | Name of C.D. block | Total population in 0-6 age group | | | Sex ratio for 0-6 age group |
|---|---|---|---|---|---|
| | | Persons | Males | Females | |
| 1 | 2 | 3 | 4 | 5 | 6 |
| 1 | Sasni | 34,327 | 18,273 | 16,054 | 879 |
| 2 | Sikandra Rao | 27,905 | 14,756 | 13,149 | 891 |
| 3 | Hasayan | 29,343 | 15,514 | 13,829 | 891 |
| 4 | Hathras | 30,805 | 16,199 | 14,606 | 902 |
| 5 | Mursan | 30,373 | 16,046 | 14,327 | 893 |
| 6 | Sadabad | 36,209 | 19,430 | 16,779 | 864 |
| 7 | Sahpau | 21,485 | 11,383 | 10,102 | 887 |
| | **District (Rural) Total:** | **210,447** | **111,601** | **98,846** | **886** |

Table 11 gives C.D. block-wise sex ratio of rural child population in the age-group 0-6 years in the district. The sex-ratio is 886 for the district (rural). The sex ratio of C.D. block varies between 864 to902. It is highest in Hathras C.D. block i.e. 902 followed by 893 in Murson C.D. block and lowest 864 females is found in Sadabad C.D. block. The sex-ratio of Sikandra Rao, Hasayan, Hathras, Murasan and Sahpau C.D. block are higher than the district rural (886) while in remaining blocks, it is below the average of the district.

**TABLE - 12 : SEX RATIO OF RURAL POPULATION IN THE AGE GROUP 0-6 BY RANGES, 2001**

| Range of sex ratio for villages | Number of inhabited villages | Percentage distribution of villages | Population 2001 | Percentage distribution of population |
|---|---|---|---|---|
| 1 | 2 | 3 | 4 | 5 |
| Less than 700 | 52 | 7.9 | 6,003 | 2.9 |
| 700-749 | 35 | 5.3 | 7,370 | 3 5 |
| 750-799 | 52 | 7.9 | 17,330 | 8 2 |
| 800-849 | 96 | 14.6 | 38,683 | 18.4 |
| 850-899 | 126 | 19.2 | 52,202 | 24 8 |
| 900-949 | 97 | 14.8 | 41,635 | 19.8 |
| 950-999 | 67 | 10.2 | 22,356 | 10 6 |
| 1000-1099 | 81 | 12.3 | 18,420 | 8.8 |
| 1100+ | 50 | 7.6 | 6,448 | 3.1 |
| **District (Rural) Total** | **656** | **100** | **210,447** | **100** |
| **Sex ratio (Rural) for District:** | | | **886** | |

Table 12 shows the distribution of villages in 9 sex-ratio ranges of the age-group 0-6 years as well as percentage of villages, total population and percentage of population of this age group falling in each range of sex ratio in the district.

The maximum number of villages i.e.126 (19.2 per cent) having largest population (24.8 per cent) in the district (rural) fall in the sex-ratio range of 850-899 females per 1,000 males in age of 0-6 years. It is followed by the sex-ratio range of 900-949, which claims 97 villages (14.8 per cent) and 19.8 per cent population. Next to it, 96 villages (14.6 per cent) are in the range of 800-849 with 18.4 per cent population. 81 villages (12.3 per cent) having 8.8 per cent population fall in sex-ratio range of 1000-1099. In remaining sex-ratio ranges of less than 700-749, 750-799, 950-999 and 1100 + above claim less number of villages and these are distributed as 52 (7.9 per cent), 35 (5.3 per cent), 52 (7.9 per cent), 67(10.2 per cent and 50 (7.6 per cent) respectively. In these ranges, the percentage of population is also low. It becomes clear from the table that 48.6 per cent of villages i.e. 319 having population (63.0 per cent) fall in the middle sex-ratio ranges of 800 to 949.

TABLE - 13 : SEX RATIO OF POPULATION IN THE AGE GROUP 0-6 OF URBAN AGGLOMERATIONS/TOWNS, 2001

| Serial number | Name of UA / Town | Urban status of town | Total population in 0-6 age group | | | Sex ratio for 0-6 age group |
|---|---|---|---|---|---|---|
| | | | Persons | Males | Females | |
| 1 | 2 | 3 | 4 | 5 | 6 | 7 |
| 1 | Hasayan | (NP) | 1,164 | 602 | 562 | 934 |
| 2 | Hathras | (NPP+OG) | 19,033 | 10,122 | 8,911 | 880 |
| 3 | Hathras | (NPP) | 18,578 | 9,883 | 8,695 | 880 |
| 4 | Hathras | (UA) | 19,033 | 10,122 | 8,911 | 880 |
| 5 | Mendu | (NP) | 2,288 | 1,236 | 1,052 | 851 |
| 6 | Mursan | (NP) | 2,019 | 1,064 | 955 | 898 |
| 7 | Purdilnagar | (NP) | 3,545 | 1,895 | 1,650 | 871 |
| 8 | Sadabad | (NP) | 5,976 | 3,167 | 2,809 | 887 |
| 9 | Sahpau | (NP) | 1,388 | 725 | 663 | 914 |
| 10 | Sasni | (NP+OG) | 2,466 | 1,308 | 1,158 | 885 |
| 11 | Sasni | (NP) | 2,103 | 1,115 | 988 | 886 |
| 12 | Sasni | UA | 2,466 | 1,308 | 1,158 | 885 |
| 13 | Sikandra Rao | (NPP) | 6,729 | 3,545 | 3,184 | 898 |
| **District(Urban) Total** | | | **44,608** | **23,664** | **20,944** | **885** |

Above table shows sex ratio of population in the age group 0-6 of urban areas of the district. Sex ratio at the district level is 885 with maximum of 934 is Hasayan (NP) and minimum in Mendu (NP) Six towns have sex ratio of higher order as compared to district average and remaining five towns are below to the urban areas of the district. Two towns have the equal sex ratio at the district level.

TABLE - 14 : NUMBER AND PERCENTAGE OF SCHEDULED CASTES AND SCHEDULED TRIBES POPULATION IN TAHSILS, 2001

| Serial number | Name of Tahsil | Total / Rural / Urban | Total population | Total Scheduled Castes population | Total Scheduled Tribes population | Percentage of Scheduled Castes population to total population | Percentage of Scheduled Tribes population to total population |

| | | **Urban** | **264,480** | **54,449** | **22** | **20.6** | **0.0** |

Table 14 depicts the distribution of Scheduled Castes and Scheduled Tribes population as well as their percentage to total population at tahsil level in rural and urban areas of the district. Of the 1,336,031 total population of the district, 25.2 per cent of the total population belongs to the Scheduled Castes and 00.0 per cent to (69 population) Scheduled Tribes. The percentage of Scheduled Castes population constitutes 26.3 per cent in rural population and 20.6 per cent in urban population of the district. The Scheduled Castes population is recorded in Hathras tahsil (66) while only 3 Scheduled Tribes population is found in Sikandra Rao tahsil. The proportion of Scheduled Tribes population is 00.0 and 00.0 per cent in rural and urban areas respectively. Scheduled Tribes population in the district is mainly concentrated in tahsil of Hathras (66 persons). The lowest number of Scheduled Tribes is recorded in Sikandra Rao (3 persons).Tahsil while Sasni and Sadabad have no Scheduled Tribes population.

TABLE - 15 : NUMBER AND PERCENTAGE OF SCHEDULED CASTES AND SCHEDULED TRIBES POPULATION IN C.D. BLOCKS, 2001

| Serial number | Name of C.D. block | Total population | Total Scheduled Castes population | Total Scheduled Tribes population | Percentage of Scheduled Castes population to total population | Percentage of Scheduled Tribes population to total population |

| 6 | Sadabad | 184,966 | 37,573 | 0 | 20.3 | 0.0 |
| 7 | Sahpau | 107,711 | 26,787 | 0 | 24.9 | 0.0 |
| **District (Rural) Total:** | | **1,071,551** | **282,290** | **47** | **26.3** | **0.0** |

Table 15 shows distribution of Scheduled Castes and Scheduled Tribes population in each C.D. block of the district. 26.3 per cent of rural population of the district belongs to Scheduled Castes and 00.0 per cent to Scheduled Tribes. At C.D. block level, Scheduled Castes population varies between 20.3 per cent in Sadabad and 29.9 per cent in Sasni C.D. block.. The other C.D. block containing the highest percentage of Scheduled Castes are Hathras (29.7), Mursan (29.5) and Hasayan (28.3). The Scheduled Tribes populations have no percentage to the total population of the district. The Scheduled Tribes population in the district is mainly concentrated in Hathras and Hasayan C.D. blocks.

TABLE - 16 : PROPORTION OF SCHEDULED CASTES POPULATION TO TOTAL POPULATION IN VILLAGES, 2001

| Percentage range of Scheduled Castes population to total population | Number of villages | Percentage | Scheduled Castes Population | Percentage |
|---|---|---|---|---|
| 1 | 2 | 3 | 4 | 5 |
| Nil | 41 | 6.3 | 0 | 0.0 |
| Less than 5 | 32 | 4.9 | 894 | 0.3 |
| 5-10 | 51 | 7.8 | 6,447 | 2.3 |
| 11-20 | 160 | 24.4 | 56,123 | 19.9 |
| 21-30 | 144 | 22.0 | 67,968 | 24.1 |
| 31-40 | 93 | 14.2 | 59,495 | 21.1 |
| 41-50 | 47 | 7.2 | 32,553 | 11.5 |
| 51-75 | 69 | 10.5 | 49,535 | 17.5 |
| 76 and above | 19 | 2.9 | 9,275 | 3.3 |
| **District Total** | **656** | **100.0** | **282,290** | **100.0** |

Table 16 reflects the number of villages according to the proportion of Scheduled Castes population to their total population in different ranges of percentage at district level. 41 villages accounting for 6.3 per cent of total 656 inhabited villages in the district do not have any Scheduled castes population. The proportion of Scheduled Castes population is less than 5.0 per cent in 32 villages (4.9 per cent). In 51 villages, it varies between 5-10 per cent while the next range of 11-20 per cent accounts for 160 villages constituting 24.4 per cent of the total villages. The range of 21-30 and 31-40 per cent contains 144 and 93 villages respectively. Both these ranges together account for 36.2 per cent villages of the district. 135 villages fall in the range of 41-76 and above percent. These villages contain 32.3 per cent Scheduled Castes population of the district. The maximum 24.1 per cent of the Scheduled Castes population is covered by range of 21-30 per cent.

## TABLE - 17 : PROPORTION OF SCHEDULED TRIBES POPULATION TO TOTAL POPULATION IN VILLAGES, 2001

| Percentage range of Scheduled Tribes population to total population | Number of villages | Percentage | Scheduled Tribes Population | Percentage |
|---|---|---|---|---|
| 1 | 2 | 3 | 4 | 5 |
| Nil | 653 | 99.5 | 0 | 0.0 |
| Less than 5 | 3 | 0.5 | 47 | 100.0 |
| 5-10 | 0 | 0.0 | 0 | 0.0 |
| 11-20 | 0 | 0.0 | 0 | 0.0 |
| 21-30 | 0 | 0.0 | 0 | 0.0 |
| 31-40 | 0 | 0.0 | 0 | 0.0 |
| 41-50 | 0 | 0.0 | 0 | 0.0 |
| 51-75 | 0 | 0.0 | 0 | 0.0 |
| 76 and above | 0 | 0.0 | 0 | 0.0 |
| **District Total** | **656** | **100.0** | **47** | **100.0** |

Table 17 indicates the distribution of villages by percentage ranges of Scheduled Tribes population to total population in the villages. There are 653 (99.5 per cent) villages where none of Scheduled Tribes have been recorded in the district. 3 (0.5 per cent) villages have total 47 Scheduled Tribes population in the district, which fall in the percentage range of less than 5.

## TABLE - 18 : NUMBER AND PERCENTAGE OF SCHEDULED CASTES AND SCHEDULED TRIBES POPULATION IN URBAN AGGLOMERATIONS / TOWNS, 2001

| Serial number | Name of UA/ Town | Total population | Total Scheduled Castes population | Total Scheduled Tribes population | Percentage of Scheduled Castes population to total population | Percentage of Scheduled Tribes population to total population |
|---|---|---|---|---|---|---|
| 1 | 2 | 3 | 4 | 5 | 6 | 7 |
| 1 | Hasayan (NP) | 5,533 | 921 | 0 | 16.6 | 0.0 |
| 2 | Hathras (NPP) | 123,244 | 27,415 | 22 | 22.2 | 0.0 |
| 3 | Hathras (NPP+OG) | 126,355 | 27,695 | 22 | 21.9 | 0.0 |
| 4 | Hathras UA | 126,355 | 27,695 | 22 | 21.9 | 0.0 |
| 5 | Mendu (NP) | 11,985 | 4,605 | 0 | 38.4 | 0.0 |
| 6 | Mursan (NP) | 11,556 | 1,990 | 0 | 17.2 | 0.0 |
| 7 | Purdilnagar (NP) | 16,146 | 2,847 | 0 | 17.6 | 0.0 |
| 8 | Sadabad (NP) | 31,742 | 4,711 | 0 | 14.8 | 0.0 |
| 9 | Sahpau (NP) | 7,967 | 1,871 | 0 | 23.5 | 0.0 |
| 10 | Sasni (NP) | 12,989 | 2,870 | 0 | 22 1 | 0.0 |
| 11 | Sasni (NP+OG) | 15,258 | 3,099 | 0 | 20.3 | 0.0 |
| 12 | Sasni UA | 15,258 | 3,099 | 0 | 20.3 | 0.0 |
| 13 | Sikandra Rao (NPP) | 37,938 | 6,710 | 0 | 17.7 | 0.0 |
| **District(Urban) Total** | | **264,480** | **54,449** | **22** | **20.6** | **0.0** |

Table 18 shows number and percentage of scheduled cast and scheduled tribes population recorded during 2001 Census in district Hathras.The table depicts that scheduled caste population in Mendu (NP) was 38.4 percent but very low (10.8 per cent) in the Sadabad town scheduled tribe population is negligible in the urban areas of he district. There are no scheduled tribe population.

TABLE 19 : SEX RATIO AMONG SCHEDULED CASTES AND SCHEDULED TRIBES IN C. D. BLOCKS, 2001

| Serial number | Name of C D block | Scheduled Castes sex ratio | Scheduled Tribes sex ratio |
|---|---|---|---|
| 1 | 2 | 3 | 4 |
| 1 | Sasni | 856 | 0 |
| 2 | Sikandra Rao | 873 | 0 |
| 3 | Hasayan | 854 | 2000 |
| 4 | Hathras | 868 | 692 |
| 5 | Mursan | 849 | 0 |
| 6 | Sadabad | 842 | 0 |
| 7 | Sahpau | 843 | 0 |
| **District (Rural) Total** | | **855** | **741** |

Table 19 indicates sex ratio among Scheduled Castes and Scheduled Tribes in each C.D. block of the district. The Scheduled Castes sex ratio is 855 for district (rural). Among the C.D.blocks, the highest sex ratio of 873 females is found in Sikandra Rao C.D. block and lowest of 842 females is recorded in Sadabad C.D. block.

Sex-ratio of Scheduled Tribes is 741 for the district level. The sex-ratio in Hasayan C.D. blocks is above the parity line 2000 while in remaining Hathras C.D. blocks is below the line of equality. The lower value of sex-ratio of 692 females is recorded in Hathras C.D. blocks.

TABLE 20 : SEX RATIO AMONG SCHEDULED CASTES AND SCHEDULED TRIBES IN URBAN AGGLOMERATIONS / TOWNS, 2001

| Serial number | Name of U.A./ Town | Scheduled Castes sex ratio | Scheduled Tribes sex ratio |
|---|---|---|---|
| 1 | 2 | 3 | 4 |
| 1 | Hasayan (NP) | 857 | 0 |
| 2 | Hathras (NPP) | 869 | 375 |
| 3 | Hathras (NPP+OG) | 869 | 375 |
| 4 | Hathras UA. | 869 | 375 |
| 5 | Mendu (NP) | 830 | 0 |
| 6 | Mursan (NP) | 855 | 0 |
| 7 | Purdilnagar (NP) | 899 | 0 |
| 8 | Sadabad (NP) | 853 | 0 |
| 9 | Sahpau (NP) | 858 | 0 |
| 10 | Sasni (NP) | 902 | 0 |
| 11 | Sasni (NP+OG) | 905 | 0 |
| 12 | Sasni UA | 905 | 0 |
| 13 | Sikandra Rao (NPP) | 900 | 0 |
| **Sex ratio (Urban) for the district:** | | **870** | **375** |

As per Table 20 sex ratio among scheduled castes varies from 830 in Mendu (NP) to 905 – Sasni (UA) in 13 towns of Hathras. In case of scheduled tribes it is 375- Hathras. No other town has ST population.

TABLE 21 : NUMBER AND PERCENTAGE OF LITERATES AND ILLITERATES BY TAHSILS, 2001

| | | **Urban** | **143,662** | **86,516** | **57,146** | **120,818** | **54,255** | **66,563** | **65.3** | **73.9** | **55.6** | **18.3** |

District and tahsil-wise literacy rates besides the number of literates and illiterates for total, rural and urban areas are given in table-21. The literacy rates are worked out by excluding population of 0-6 years. As per 2001 Census, the proportion of literates to total population excluding 0-6 years comes to 62.5

per cent in the district. This proportion in rural area is 61.8 per cent against 65.3 per cent in urban areas. In the district the literacy rates of males (76.3 per cent) is much higher than that of females (46.3 per cent). Among the tahsils, Sasni tahsil tops with 64.9 per cent literates followed by Hathras tahsil(64.7 per cent). Sadabad tahsil with 63.5 per cent and tahsil Sikandra Rao (57.0) literates stands at the bottam in the district. Out of 4 tahsils, the literacy rates of Sasni, Hathras and Sadabad.tahsils are higher than that of district average. It is observed that in urban areas of district the literacy rates are higher than the rural areas.

The gap between male and female literacy is very high which comes to 30.0 per cent in the district, as a whole. The situation at tahsil level is also much different. However this gap in urban literacy is low which comes to 18.3 points against the rural areas, where the gap between male and female literacy is 33.0 points.

**TABLE 22 : NUMBER AND PERCENTAGE OF LITERATES AND ILLITERATES BY SEX IN CD BLOCKS, 2001**

| Serial number | Name of C.D. block | Number of literates and illiterates | | | | | | | | | Gap in male/female literacy rate |
|---|---|---|---|---|---|---|---|---|---|---|---|
| | | Number of literates | | | Number of illiterates | | | Percentage of literates | | | |

| 3 | Hasayan | 66,002 | 44,971 | 21,031 | 80,491 | 33,915 | 46,576 | 56.3 | 71.0 | 39.1 | 31.9 |
| 4 | Hathras | 81,412 | 53,460 | 27,952 | 77,323 | 31,776 | 45,547 | 63.6 | 77.4 | 47.5 | 29.9 |
| 5 | Mursan | 78,679 | 53,626 | 25,053 | 77,564 | 31,170 | 46,394 | 62.5 | 78.0 | 43.9 | 34.1 |
| 6 | Sadabad | 95,355 | 66,071 | 29,284 | 89,611 | 34,402 | 55,209 | 64.1 | 81.5 | 43.2 | 38.3 |
| 7 | Sahpau | 53,614 | 36,567 | 17,047 | 54,097 | 21,636 | 32,461 | 62.2 | 78.1 | 43.3 | 34.8 |
| **District (Rural) Total:** | | **531,821** | **358,676** | **173,145** | **539,730** | **219,483** | **320,247** | **61.8** | **76.9** | **43.9** | **33.0** |

The table 22 reveals number of literates, illiterates and the literacy rates in rural areas at C.D. block level in the district. 61.8 per cent of the total rural population excluding the age group of 0-6 years literates in the district. The corresponding proportion of male and female literates comes to 76.9 and 43.9 per cent respectively which shows very wide gap of 33.0 per cent in male and female literacy. At C.D. block level, Sadabad C.D. block has the highest rural literacy rate of 64.1 per cent while 81.5 per cent males and 43.2 per cent females are literates in this block. The lowest literacy rate in rural areas is noted in Hasayan C.D. block (56.3 per cent). There are wide variations in male and female literacy in all the C.D. blocks of the district. The maximum difference of 38.3 points is found in Sahpau C.D. block.

**TABLE 23 : DISTRIBUTION OF VILLAGES BY LITERACY RATE RANGE, 2001**

| Range of literacy rate for villages | Number of inhabited villages | Percentage distribution of villages | Population | Percentage distribution of population |
|---|---|---|---|---|
| 1 | 2 | 3 | 4 | 5 |
| 0 | 0 | 0 0 | 0 | 0 0 |
| 1-10 | 0 | 0 0 | 0 | 0 0 |
| 11-20 | 4 | 0 6 | 2,548 | 0 2 |
| 21-30 | 4 | 0 6 | 1,832 | 0 2 |
| 31-40 | 7 | 1 1 | 5,834 | 0 5 |
| 41-50 | 50 | 7 6 | 87,733 | 8 2 |
| 51-60 | 199 | 30 3 | 363,144 | 33 9 |
| 61-70 | 262 | 39 9 | 466,427 | 43 5 |
| 71-80 | 113 | 17 2 | 130,004 | 12 1 |
| 81-90 | 14 | 2 1 | 13,525 | 1.3 |
| 91-99 | 3 | 0 5 | 504 | 0 0 |
| 100 | 0 | 0 0 | 0 | 0 0 |
| District Total: | 656 | 100.0 | 1,071,551 | 100.0 |
| Literacy rate for District: | | 62.5 | | |

Table 23 gives the distribution of villages by literacy rate ranges in the district. There is no village in the district which has literacy in the ranges 1-10 and 100 percent and 199 villages accounting for 30.3 per cent of the total villages are in the literacy range of 51-60 per cent and 262 villages (39.9 per cent) fall in the literacy range of 61-70 per cent. The lower literacy rate of 1 to 50 percent observed in 65 villages (9.9 percent) of the district. The higher literacy ranges of 71 to 99 per cent covers 130 villages (19.8 per cent). The range of 51-70 has the maximum number of 461 villages forming 70.2 per cent of the total inhabited villages.

Table 24 shows number and percentage of literates and illiterates by sex during 2001 in the urban areas of the district. Regarding absolute figures of literates Sasni town is way ahead of other towns. The table reveals that literacy rate is pretty high in the urban areas of district (65.3). The literacy rate is quite high (above 82 per cent in two towns) among males. Female literacy rate is not for behind in same town (above 66 per cent). However, literacy rate among females is very low (41.0 per cent) in Mendu town, thus the gap in male female literacy rate is high (27.5).

TABLE 25: NUMBER AND PERCENTAGE OF SCHEDULED CASTES LITERATES AND ILLITERATES BY SEX IN C.D. BLOCKS, 2001

| Serial number | Name of C.D. block | Number of literates and illiterates | | | | | | Percentage of literates | | | Gap in male/ female literacy rate |
|---|---|---|---|---|---|---|---|---|---|---|---|
| | | Number of literates | | | Number of illiterates | | | | | | |

| 8 | Sasni (NP+OG) | 1,441 | 923 | 518 | 1,658 | 704 | 954 | 55.3 | 67.1 | 42.2 | 24.9 |
| 9 | Sikandra Rao (NPP) | 2,453 | 1,575 | 878 | 4,257 | 1,957 | 2,300 | 45.7 | 55.9 | 34.4 | 21.5 |
| | **District (Urban) Total:** | **22,400** | **14,886** | **7,514** | **32,049** | **14,228** | **17,821** | **50.7** | **62.8** | **36.8** | **26.0** |

The table 27 brings out the number and percentage of scheduled castes literates and illiterates by sex in urban agglomerations/towns population at the 2001 Census. The number of literates is less than illiterates in the district (urban) and towns. The percentage of literates is least in Sikandra Rao (NPP) among towns but the gap in male/female literate rate is highest in case of Sahpau (NP) town. The males in all the 9 towns enjoy higher literacy rate than females. The gap in male/female literacy rate is least in case of Sikandra Rao (NPP) and the female literacy rate is highest in Sasni (NP+OG).

TABLE28: NUMBER AND PERCENTAGE OF SCHEDULED TRIBES LITERATES AND ILLITERATES BY SEX IN C. D. BLOCKS, 2001

| Serial number | Name of C.D. block | Number of literates and illiterates | | | | | | Percentage of literates | | | Gap in male/female literacy rate |
|---|---|---|---|---|---|---|---|---|---|---|---|
| | | Number of literates | | | Number of illiterates | | | | | | |
| | | Persons | Males | Females | Persons | Males | Females | Persons | Males | Females | |
| 1 | 2 | 3 | 4 | 5 | 6 | 7 | 8 | 9 | 10 | 11 | 12 |
| 1 | Hasayan | 2 | 1 | 1 | 1 | 0 | 1 | 66.7 | 100.0 | 50.0 | 50.0 |
| 2 | Hathras | 9 | 6 | 3 | 35 | 20 | 15 | 25.7 | 28.6 | 21.4 | 7.1 |
| **District (Rural) Total:** | | **11** | 7 | **4** | **36** | **20** | **16** | **28.9** | **31.8** | **25.0** | **6.8** |

The table 28 brings out the number and percentage of scheduled tribes literates and illiterates by sex in CD Blocks at the 2001 Census. The number of illiterates is more than literates in the district the total population of scheduled tribe is the district is only 47 and out of 7 C.D. Blocks, 2C.D. Blocks have scheduled tribes population. The literacy rate of the scheduled tribes population at about 28.9 per cent in the district. The gap in male and female literacy rates at about 6.8 per cent. The literacy rate of male is higher (31.8) than the female (25.0) CD Block. The gap in male/female literacy rate in Hathras CD Blocks is in favour of the females, which is an exception and otherwise the highest gap is in case of Hasayan CD Block.

TABLE 29 : DISTRIBUTION OF VILLAGES BY LITERACY RATE RANGE FOR SCHEDULED TRIBES POPULATION, 2001

| Range of literacy rate for villages | Number of inhabited villages | Percentage distribution of villages | Scheduled Tribes Population | Percentage distribution of population |

| 100 | 0 | 0.0 | 0 | 0.0 |
| **District Total:** | 3 | **100.0** | **47** | **100.0** |
| **Literacy rate for District (Rural):** | | **28.9** | | |

The table 29 gives the distribution of villages by literacy rate range for the scheduled tribes population at the 2001 Census. In the district the scheduled tribes population is found in 3 villages one village comes in each literacy range ie 1-10,61-70 and 71-80. However, the maximum (68.1 per cent) of the scheduled tribes population (32) is found in only one village with literacy range from 1 to 10 percentages.

TABLE30 : NUMBER AND PERCENTAGE OF SCHEDULED TRIBES LITERATES AND ILLITERATES BY SEX IN TOWNS, 2001

| Serial number | Name and urban status of Town | Number of literates and illiterates | | | | | | Percentage of literates | | | Gap in male/female literacy rate |
|---|---|---|---|---|---|---|---|---|---|---|---|
| | | Number of literates | | | Number of illiterates | | | | | | |
| | | Person | Males | Females | Persons | Males | Females | Persons | Males | Females | |
| 1 | 2 | 3 | 4 | 5 | 6 | 7 | 8 | 9 | 10 | 11 | 12 |
| 1 | Hathras (NPP+OG) | 3 | 3 | 0 | 19 | 13 | 6 | 15.0 | 18.8 | 0.0 | 18.8 |
| **District (Urban) Total:** | | **3** | **3** | **0** | **19** | **13** | **6** | **15.0** | **18.8** | **0.0** | **18.8** |

The table 30 gives number and percentage of scheduled tribes literates and illiterates by sex in urban agglomerations/town population at the 2001 Census. There is small scheduled tribes population (22) in the towns of the district. In 12 town there is no scheduled tribe population only Hathras NPP+OG have scheduled tribe population, the percentage of literates is 18.8 per cent of males and not a single female are literates.

## TABLE 31: NUMBER AND PERCENTAGE OF MAIN WORKERS, MARGINAL WORKERS, AND NON-WORKERS BY SEX IN TAHSILS, 2001

| Serial number | Name of Tahsil | Persons / Males / Females | Total population | Main workers | | Marginal workers | | Total workers (Main and marginal workers) | | Non workers | |

| | | **Females** | **617,101** | **24,633** | **4.0** | **37,235** | **6.0** | **61,868** | **10.0** | **555,233** | **90.0** |

Table 31 gives the number and percentage of main workers, marginal workers and non-workers by sex at tahsils level in the district as per 2001 Census. The proportion of the total workers works out 29.3 per cent of the total population in the district. The total workers are comprised of 22.1 per cent of main workers and 7.2 per cent of marginal workers and the remaining 70.7 per cent are non-workers.

Among the main workers, males participation rate in the district is 37.7 per cent and 4.0 per cent of females. Male and female marginal workers account for 8.3 and 6 per cent respectively. The percentages of male's main and marginal workers are higher than females. Total workers (main and marginal workers) among tahsils varies from 27.7 per cent Sikandra Rao tahsil to 32.5 per cent in Sadabad.

TABLE 32: NUMBER AND PERCENTAGE OF MAIN WORKERS, MARGINAL WORKERS, AND NON-WORKERS BY SEX IN C. D. BLOCKS, 2001

Table 32 shows C.D. block-wise number and percentage of main workers, marginal workers and non-workers for rural population of the district. Of the 1,071,551 total rural population of the district, 22.2 per cent has been categorised as main workers and the marginal workers constitute 7.9 per cent and the remaining 70.0 per cent fall in the category of non-workers. The sex-wise break up at the district level shows that 37.6 per cent males and 4.1 per cent females are in the category of main workers. Male and female marginal workers account for 8.6 and 7.0 per cent respectively. The percentage of male is higher than female in both main and marginal workers. Similar trend is visible at C.D. block level.

The percentage of total rural workers of the district comes to 30.0 per cent. At the C.D. block level, Sadabad has highest proportion of total workers forming 35.2 per cent of the total population. It is closely followed by Mursan (30.6 per cent), Sahpau (30.4 per cent), Hasayan (29.1 per cent), Hathras (28.6 per cent), and Sasni (28.0 per cent) The lowest percentage of 27.7 per cent is recorded in Sikandra Rao C.D block.

The table 33 indicates that as against 21.8 per cent of main workers in the urban areas of the

district, such workers are as high as 24.6 per cent in Sasni town. Similarly the proportion of marginal workers is higher in Sahpau (NP).

TABLE 34 : DISTRIBUTION OF WORKERS BY SEX IN FOUR CATEGORIES OF ECONOMIC ACTIVITY IN TAHSILS, 2001

Note: Percentages of Workers to total worker are given in brackets

It can be seen from the table 34, that the economy of the district is primarily agricultural as supported by the fact that cultivators constitute 33.1 per cent of the total workers (main + marginal) and remaining 24.7 per cent of total workers are engaged as agricultural labourers, Household industry workers (6.8 per cent) and other workers (35.4 per cent) in this district.

The distribution of workers by four categories of economic activity at tahsil shows very high dependence of population on agriculture sector absorbing large number of workers. The proportion of cultivators varies between 42.3 per cent in Sikandra Rao tahsil and 37.4 per cent in Sadabad tahsil. These variations within the district may be due to cropping and land holding patterns. The percentage of female's cultivators is 24.9 per cent, which is very low as compared to 34.6 per cent of male cultivators in the district. The percentage (6.8) of household industry workers is very low in the district. The workers in other activities occupy the first position in the district as well as in each tahsil. The highest proportion of 48.7 per cent of other workers is recorded in Hathras tahsil while the lowest proportion of 23.5 per cent is found in Sikandra Rao tahsil.

## TABLE 35 : DISTRIBUTION OF WORKERS BY SEX IN FOUR CATEGORIES OF ECONOMIC ACTIVITY IN C.D. BLOCKS, 2001

Note Percentages of Workers to total workers are given in brackets

Table 35 presents C.D. block-wise distribution of workers by sex in four categories of economic activity. In the rural areas of the district total workers (main+marginal) 30.0 per cent of total population. Among these workers, cultivators constitute 39.4 per cent, 28.9 per cent agricultural labourers, 6.5 per cent

household industry workers and 25.3 per cent other workers. The agricultural sector plays a major role in providing employment to the working force of rural population despite the fact that it is not commercial viable. Household industries also could not make much progress in rural areas as reflected in the data and these household industries employ only 6.5 per cent workers of the total working force. Therefore surplus-working force has to depend on primary activities. Among cultivators, the percentage of females (27.5 per cent) is lower than males (41.8 per cent) in the rural areas of the district. The males play a main role in rural economy of the district. The proportion of cultivators and other workers differ considerably from one C.D. block to other. The proportion of cultivators varies between 31.0 per cent in Hathras C.D. block to 52.9 per cent in Sikandra Rao C.D. block Similarly for other workers, the lowest proportion is 14.0 per cent in Sikandra Rao C.D. block while 33.0 per cent is the highest in Hathras C.D. block. The percentage of household industry workers is quite low i.e. only 6.5 per cent in the district. The percentage of agricultural labourers is highest in Hasayan (32.8 per cent) block and is followed by Sahpau (31.1 per cent.).In other C.D blocks the proportion of agricultural labourers varies between 24.4 percent and 29.5 percent. Similarly, household industry workers varies in C.D blocks between 4.0 per cent in Sikandra Rao and 7.8 per cent in Mursan.

Table 36 presents distribution of workers by sex in four categegories of economic activity in urban areas of the district. It can be observed from the table that the four categories of economic activity are cultivators, agricultural labourers, household industry workers and other workers. Figures in the table have been given for total number of workers including main and marginal workers. At the district level, urban areas recorded highest percentage of other workers ( 81.8 ), followed by household industry workers with 8.4 per cent (7.6 per cent male and 15 9 per cent female). If we observe each town, the table reveals that highest percentage of household industry workers (24.3) is recorded in Purdil Nagar The percentage of the cultivators in the district is recorded very low (4.2 per cent). At district level, 5.6 per cent in urban areas recorded as agriculture labourers. Household industry workers, as the usual trend recorded in the urban areas, other workers are in high percentage (90.5 per cent) in Hathras (NPP+OG).

**(ix) Brief analysis of the Village Directory and Town Directory data based on inset tables 37 to 47:**

One of the major part of the District Census Handbook is Village and Town Directories. These are non-census data incorporated showing educational, medical, drinking water, banking facilities, communication facilities and other such developmental indicators in the towns and villages. From this non-census data certain inset tables have been generated and reproduced below showing major trends in the availability of above amenities.

**TABLE 37 : DISTRIBUTION OF VILLAGES ACCORDING TO AVAILABILITY OF DIFFERENT AMENITIES, 2001**

Note : - Percentages are given in brackets.

* Based on the improved drinking water source, drinking water supply has been classified as 'Improved ' or otherwise If the household has access to drinking water supplied from a tap or a hand pump / tube well situated within or outside the premises it is considered as having access to 'Improved drinking water source' However, the concept of improved drinking water is state specific and this is to be considered accordingly.

# Post office includes Post office, telegraph office and Post and telegraph office

$ Transport communication includes bus service, rail facility and navigable waterways

Table 37 deals with the C.D. block-wise distribution of villages according to the availability of different amenities like education, medical, improved drinking water, post office, telephone, transport, communications, agricultural credit societies, approach by pucca road and power supply within the village. Out of 656 inhabited villages in the district 517 villages or 78.8per cent have been provided with the education facilities of one type or the other. Similarly 129 villages in the district constituting 19.7 per cent have medical facilities of one type or the other. Improved drinking water facility is available in 653 or 99.5 per cent villages. As regards, post office facility which includes facilities like telegraph office and post & telegraph, 118 villages constituting 18.0 per cent of villages have been provided with post office facility within the village. 235 or 35.8 per cent villages have been provided with the telephone facility, 42 or 6.4 per cent with transport facility, 33or 5.0 per cent villages with bank facility and 46or 7.0 per cent with agricultural credit societies. Similarly there are 493 or 75.2 per cent villages which have been linked with the pucca road. Total 570 or 86.9 per cent of villages have been provided with the electricity supply.

Almost similar pattern of distribution of villages by availability of amenities in the villages at C.D. block has been found with slight variation. Sahpur C.D. block has the highest 95.2 per cent villages where educational facility is available and lowest 67.1 per cent is found in CD block Mursan Medical facility is highest in Sikandra Rao (38.5 per cent) and lowest (8.4 per cent) in Mursan C.D. block. Improved drinking water is available to cent-percent villages in Sikandra Rao,Hasayan,Sadabadd and Sahpur blocks while in other blocks, it is above 99.0 per cent. Telephone facility is highest in Sikandra Rao (47.7 per cent) while the lowest 21.1 per cent is found in Sadabad C.D. block. Transport and communications is less developed in Sikandra Rao CD block where only 1.5 per cent villages are covered by this facility whereas the highest 11.8 per cent villages of Hasayan C.D. block are availing this facility. In the field of power supply maximum villages have been covered in the district.

**TABLE 38 : NUMBER AND PERCENT OF RURAL POPULATION SERVED BY DIFFERENT AMENITIES 2001**

| Serial number | Name of C D block | Total population of inhabited villages | Type of amenity available | | | | | | | | | |

Note : - Percentages are given in brackets.

* Based on the improved drinking water source, drinking water supply has been classified as 'Improved ' or otherwise. If the household has access to drinking water supplied from a tap or a hand pump / tube well situated within or outside the premises it is considered as having access to 'Improved drinking water source'. However, the concept of improved drinking water is state specific and this is to be considered accordingly.

# Post office includes Post office, telegraph office and Post and telegraph office.

$ Transport communication includes bus service, rail facility and navigable waterways.

Table 38 depicts the number and proportion of rural population served by different kinds of amenities. Out of total rural population of 1,071,551 persons in the district, 966,075 or 90.2 per cent have educational facility of one or the other type. Similarly 341,180 or 31.8 per cent population has medical facilities while 1,069,258 or 99.8 per cent have got improved drinking water facility. Post office facilities are available to 400,772 or 37.4 per cent population. Telephone facility is available to 522,079 or 48.7 per cent. Transport communications facility is available to 117,131 or 10.9 per cent. Bank facility is available to 125,597 or 11.7 per cent. 169,818 or 15.8 per cent have been provided with the facility of agricultural credit societies. 926,272 or 86.4 per cent have been provided with the facility of approach by pucca road. Power supply is available to 967,101 or 90.3 per cent rural population in the district. Similar pattern of availability of facilities is visible to the rural population at C.D. block level .At the district level facilities of education,power supply approach by pucca road and improved drinking water are available to larger proportion of population

TABLE 39 : DISTRIBUTION OF VILLAGES NOT HAVING CERTAIN AMENITIES, ARRANGED BY DISTANCE RANGES FROM THE PLACES WHERE THESE ARE AVAILABLE, 2001

| Village not having the amenity of | Distance range of place from the villages where the amenity is available | | | |
|---|---|---|---|---|
| | Less than 5 kms | 5-10 kms | 10+ kms | Total (Col.2-4) |
| 1 | 2 | 3 | 4 | 5 |
| 1 -Education : | | | | |
| (a) Primary School | 134 | 5 | 1 | 140 |
| (b) Middle School | 392 | 95 | 2 | 489 |
| (c) Degree College | 211 | 185 | 250 | 646 |
| 2. Medical : | | | | |
| (a) Hospital | 259 | 229 | 154 | 642 |
| (b) PHC | 227 | 278 | 138 | 643 |
| 3. Post Office | 457 | 72 | 9 | 538 |
| 4. Telephone | 253 | 104 | 64 | 421 |
| 5 Bus Service | 252 | 260 | 121 | 633 |
| 6. Banks | | | | |
| (a) Commercial Bank | 385 | 200 | 41 | 626 |
| (b) Cooperative Bank | 199 | 296 | 153 | 648 |
| 7. Agricultural Credit Societies | 386 | 188 | 36 | 610 |

Table 39 presents distribution of villages not having certain amenities within the village at district level. They have to go out of their village to avail these facilities. Such villages have been presented according to various distance ranges in this table. 140 villages do not have primary school in their villages and out of these villages, children of 134 villages have to travel less than 5 kms. for schooling Out of 656 inhabited villages as many as 489 are deprived of middle school and 646 of degree college. Of these 392 avail the facility of middle school at a distance of less than 5 kms., 95 at a distance 5-10 kms. and the remaining 2 at a distance of 10+ kms. In respect of degree college 211 avail this facility at a distance of less than 5 kms., 185 between 5 to 10 kms. and rest 250 villages at a distance of 10+ kms.

Similarly there are 642 villages in the district which have been devoid of Hospital facility and 643 villages which are deprived of PHC facilities. Of these 259 villages have the facility of Hospital available within 5 kms. while in respect of 229 villages the inhabitants have to cover a distance of 5-10 kms. in order to avail this facility. Similarly overwhelming number i.e. 154 villages have this facility at a distance of 10+ kms. As regards PHC 227 avail this facility at a distance of less than 5 kms., 278 at a distance of 5-10 kms. and the remaining 138 have to travel a distance of more than 10 kms. to avail this facility.

Regarding Post Office, 538 villages do not have this facility in the village itself. Of these majority i.e. 457 have this facility at a distance of less than 5 kms., another 72 villages avail it at a distance of 5-10 kms. In the remaining 9 villages habitants have to travel a distance of 10+ kms.

As regards Telephone, there are 421 villages in the district which are without telephone facilitiy. Of these 253 avail this facility at a distance of less than 5 kms., 104 at a distance of 5-10 kms. and remaining 64 have to traverse a distance of 10+ kms.

For Bus service out of 633 villages which do not have facility, 252 villages avail this facility at a distance of less than 5 kms., 260 at a distance between 5-10 kms. and 121 at a distance of 10+ kms.

In the entire district 626 villages are deprived of Commercial Bank and 648 of Co-operative Bank. Of these 626 villages which are deprived of Commercial Banks 385 villages avail this facility at a distance of less than 5 kms., 200 between 5-10 kms. and the remaining 41 at a distance of 10+ kms. Regarding Co-operative Banks out of 648 villages 199 villages avail this facility at a distance of less than 5 kms., 296 at a distance of 5-10 kms. and remaining 153 at a distance of 10+ kms. 610 villages do not have agricultural credit societies. This facility to 386 villages is available at a distance of less than 5 kms., 188 at a distance of 5-10 kms. and the remaining 36 at a distance of 10+ kms.

TABLE 40 : DISTRIBUTION OF VILLAGES ACCORDING TO THE DISTANCE FROM THE NEAREST STATUTORY TOWN AND AVAILABILITY OF DIFFERENT AMENITIES, 2001

| Distance range from the nearest statutory town (in kilometres) | Number of inhabited villages in each range | Type of amenity available | | | | | | | |
|---|---|---|---|---|---|---|---|---|---|

# Post office includes Post office, Telegraph office and Post and telegraph office

$ Transport communication includes bus service, rail facility and navigable waterways

Table 40 deals with the distribution of villages according to distance from the nearest statutory town and availability of different amenities within the village. Out of total 656 inhabited villages in the district, there are 202 villages which have nearest towns upto a distance of 5 kms. Of these only 156 villages forming 77.2 per cent of these total villages, are having the educational facilities of one type or the other and 30 villages constituting 14.9 per cent, have the medical facilities within the village, 22 villages forming 10.9 per cent have the facility of post office within the village and 70 or 34.7 per cent have the facility of telephone. 11 villages constituting 5.4 per cent have been linked by transport service. 6 villages comprising 3.0 per cent have been provided bank facilities, while 10 villages constituting only 5.0 per cent have been provided by agricultural credit societies.150 villages comprising 74.3 per cent have been provided with pucca road.

There are 400 inhabited villages in the district which fall in the distance range of 5-15 kms. Of these 314 villages constituting 78.5 per cent have been provided with the educational facilities. 79 villages comprising 19.8 per cent have been provided with medical facilities. 81 villages constituting 20.3 per cent enjoy the post office facility. 145 villages comprising 36.3 per cent have been provided the telephone facility. 28 villages constituting 7.00 per cent have been linked with transport communications. 22 villages comprising 5.5 per cent have bank facility. 27 villages constituting 6.8 per cent are having agricultural credit societies, while 304 villages or 76.0 per cent are approachable by pucca road. 50 village fall in the distance range of 16-50 kms. Of these, 86.0 per cent villages have educational facility, 36.0 per cent with medical, 26.0 per cent with post office, 38.0 per cent with telephone and transport & communications available to 4.0 per cent villages. Banks and agricultural credit societies facilities are available to 8.0 and 16.0 per cent of villages 36 villages or 72.0 per cent are approachable by pucca road.

There is one village in the district which is situated beyond 50 kms.from the nearest town and this village enjoys the educational medical and approach by pucca road facilities. Rest of the other facilities are not available in this village. There are 3 villages whose distance ranges from the nearest statutory town have not been given. Such villages have been grouped under the unspecified category. 3 or cent percent villages have the educational facility of one or other type. One village constituting 33.3 per cent have the medical, , telephone, banks and agricultural credit society facilities in the village two villages have been connected by pucca road and post office facilities.

TABLE 41: DISTRIBUTION OF VILLAGES ACCORDING TO POPULATION RANGE AND AMENITIES AVAILABLE, 2001

| Population range | Number of inhabited villages in each range | Type of amenity available | | | | | Type of amenity available | | | | |

# Post office includes Post office. Telegraph office and Post and telegraph office.
$ Transport communication includes bus service, rail facility and navigable waterways.
* Based on the improved drinking water source, drinking water supply has been classified as 'Improved ' or otherwise. If the household has access to drinking water supplied from a tap or a hand pump / tube well situated within or outside the premises it is considered as having access to 'Improved drinking water source'. However, the concept of improved drinking water is state specific and this is to be considered accordingly.

Table 41 deals with the distribution of villages by population ranges and amenities available therein. In Hathras district out of a total 656 inhabited villages, overwhelming 98 have a population of less than 1-499 persons. Of these, 30 villages (30.6 per cent) have education facility,96 (98.0 per cent) have improved drinking water facility.16 (16.3 per cent) have telephone facility. 5 (5.1 per cent) have been linked by bus service. 2 (2.0 per cent) have Bank facility 48 villages (49.0 per cent) have been linked with pucca road. 77 villages (78.6 per cent) have been provided with electricity. No village in this population range have medical, post office and agriculture credit societies facilities.

Out of 176 villages, which fall in the population range of 500-999 persons, 131 villages (74.4 per cent) have been provided with the education facility, 13 (7.4 per cent) with medical facility, all the villages have improved drinking water facility. 7 villages (4.0 per cent) have been provided with post office facilities, 42 villages (23.9 per cent) with telephone facility, 6 villages (3.4 per cent) with transport facilities, 1 villages (0.6 per cent) with bank facility, 5 villages (2.8 per cent) with agricultural credit societies facilities 114 villages (64.8 per cent) have approach by pucca road and 147 villages (83.5 per cent) have electricity facilities.

209 villages fall in population range of 1,000-1,999 persons. Of these 49 villages (23.4 per cent) enjoy the medical facility, 31 villages (14.8 per cent) have post office facility, 78 villages (37.3 per cent) have telephone facility, 12 villages (5.7 per cent) have transport communications facilities, 9 villages (4.3 per cent) have bank facilities, 6 villages (4.3 per cent) have agricultural credit societies and 169 villages (80.9 per cent) have approach by pucca road. 90 percent + above of these village have education, power supply and improved drinking water facilities.

There are 149 villages in the district which are covered under 2,000-4,999 population range. In this range, above 90 percent of these villages enjoy the facility of education, improved drinking water, approach by pucca road and power supply. 57 villages (38.3 per cent) have medical facility. 60 villages (40.3 per cent) have post office facility out of these villages 84 villages (56.4 percent) with telephone facilities, 13 villages have transport communication facility. 14 villages (9.4 per cent) have bank facility, 24 village (16.1 per cent) is having agricultural credit societies. There are 24 villages in the district having a population of 5,000 persons or above.

TABLE 42: DISTRIBUTION OF VILLAGES ACCORDING TO LAND USE, 2001

| Serial number | Name of C D. block | Number of inhabited villages | Total area in hectare | Percentage of cultivable area to total area | Percentage of irrigated area to total cultivable area |
|---|---|---|---|---|---|
| 1 | 2 | 3 | 4 | 5 | 6 |
| 1 | Sasni | 115 | 24876 3 | 83.2 | 90.2 |
| 2 | Sikandra Rao | 65 | 22830.5 | 98.5 | 91.8 |
| 3 | Hasayan | 93 | 26499.0 | 61.9 | 97.2 |
| 4 | Hathras | 106 | 26782.8 | 83.6 | 93.9 |
| 5 | Mursan | 143 | 22253 1 | 96 2 | 92 8 |
| 6 | Sadabad | 71 | 7723.7 | NA | 95.3 |
| 7 | Sahpau | 63 | 12458.0 | 86 7 | 99.0 |
| | ***District Total:*** | ***656*** | ***143423.4*** | ***96.8*** | ***93.9*** |

Note - Cultivable area = irrigated area + unirrigated area

Table 42 presents C.D blockwise distribution of villages according to land use. It also gives details of total area and cultivable area available of inhabited villages in the district. Cultivated area includes irrigated as well as unirrigated area. It further elaborates that what is the extent of cultivable area under irrigation. There are total 656 inhabited villages in the district having a total area 143,423.4 hectares. Of this, 96.8 per cent is cultivable and 93.9 per cent of total cultivable area has got the irrigation facility. The area figures have been collected from the revenue record maintained for each village by the State Government.

A look at the land use pattern at C.D. block level shows that Sasni block with 115 villages have a total area of 24876.3 hectares, of this 83.2 per cent of land is cultivable and of the aforesaid area 90.2 per cent is irrigated. In Sikandra Rao block, all the 65 villages have a total land area of 22,830.5 hectares, of this 98.5 per cent of land is cultivable and of the aforesaid area 91.8 per cent is irrigated. In Hasayan block, all the 93 villages have a total area of 26,499.0 hectares, of this cultivable area is 61.9 per cent and 97.2 per cent is irrigated. In Hathras block, all the 106 villages have a total area of 26782.8 hectares. Of this, cultivable area is 83.6 per cent. Of cultivable area 93.9 per cent is irrigated. Mursan block with 143 villages have a total land area of 22,253.1 hectares, of this 96.2 per cent is cultivable area and out of this cultivable area 92.8 per cent is irrigated. Sadabad block with 71 villages has a total land area of 7723.7 hectares. Of this 91.9 per cent is cultivated area, out of which 95.3 per cent is irrigated. Sahpau block with a total 63 villages have an area of 12458.0 hectares. Of this 86.7 per cent is cultivable area. Out of which 99.0 percent is irrigated.

TABLE 47 : MOST IMPORTANT COMMODITY EXPORTED OUT OF AND MANUFACTURED IN TOWNS, 2001

| Sl. No. | Name and urban status of Town | Most important commodity | |
|---|---|---|---|
| | | Manufactured | Exported |
| 1 | 2 | 3 | 4 |
| 1 | Hasayan, NP | Glass Bangles, Bricks, Sweet meats | Bangles, Rose, Khas |
| 2 | Hathras, NPP | Pulses, Chuna, Brass Utensils | Hing, Knife, Carpet |
| 3 | Mendu, NP | Sweet Meats, Mustard Oil, -- | Potato, Mustard Oil, Wheat |
| 4 | Mursan, NP | Mango, Khoya Sweets, Milk | Potato, Lahi, Wheat |
| 5 | Purdilnagar, NP | Munga, Moti, Jems | Munga, Moti, Jems |
| 6 | Sadabad, NP | --, --, -- | Potato, --, -- |
| 7 | Sahpau, NP | Bura (khandsari), --, -- | Potato, Vegitables, Bura (khandsari) |
| 8 | Sasni, NP | Glass Bottle, Bricks, Sweet meats | Glass Bottle, Ber (Fruit), Guava |
| 9 | Sikandra Rao, NPP | Woode Goods, Khadi Cloth, Rice | Khadi Cloth, Mango, Wooden Goods |

Table 47 indicates most important articles manufactured and exported out of the each town in the district. The chief export items of the district are Knife, Potato and Hing etc are the main items which are manufactured in the district the Brass, Utensils, Glass, Bottles, Munga, Moti etc.are mainly exported to other places

**(x) Brief analysis of the data on houses and household amenities, Houselisting Operations, Census of India 2001 based on inset tables 48-52:**

Data on houses and household amenities have traditionally been undertaken a few months before each census.Based upon data collected in the houselist, a few tables on the use of census house, materials of wall, floor and roof etc. are prepared. In 1991 census, the houselist was considerably expanded with 22 items of information. Again in 2001 census many new items on household assets like radio/ transistor, television, telephone, cycle, scooter/ motorcycle/moped, car/jeep and banking facility availed by household etc. for the first time has been added in the schedule. The following is the distribution of households by number of rooms occupied.

**TABLE 48 : HOUSEHOLDS BY TENURE STATUS AND NUMBER OF ROOMS OCCUPIED IN THE DISTRICT, 2001**

| Tenure status | Number of dwelling households | Number of households | | | | | | | | |
|---|---|---|---|---|---|---|---|---|---|---|

Data source: Census of India 2001, H- series: "Tables on Houses, Household amenities and Assets."

The data presented in Table 48 depicts number of households by tenure status and number of rooms occupied in the district. The total number of households in the district stands at 213,346 consisting of 173,539 rural and 39,807 urban households. 5,9251households belong to Scheduled Castes and 2,481 to Scheduled Tribes. 205,234 households are living in their owned houses constituting 96.20 per cent of total households. Of these households, the largest numbers of households (76,514) have occupied Single roomed accommodation and is followed by double roomed accommodation numbering to 63,186 households. Next position is claimed by households (31,588) occupying three plus roomed accommodation. Number of households in owned accommodation occupying three rooms rank at fourth place with 30,833 households while 3,113 households are without any exclusive room.

6,466 households living in rented accommodation account for 3.0 per cent of total number of households in the district. The largest number of 3,046 households are living in single roomed accommodation followed by 2286 households in double roomed accommodation. Households with three rooms and three plus are 640 and 402 respectively.92 house holds are without any exclusive room. In rural areas majority of households have bigger size and majority of them have their own houses while in urban areas show reverse picture.

Data source: Census of India 2001, H-series Tables on Houses, Household amenities and Assets

Note -Permanent:- 1 Permanent houses refers to those houses whose wall & roofs are made of pucca materials i.e. where, burnt briks G.I Sheets or other metal sheets, stone cement concrete is used for wall and tiles slate, shingle, corrugated iron, zinc or other metal sheets asbestos sheets bricks, lime and stone and RBC/RCC concreate are used for roof.

Semi permanent:- 2 Semi-permanent houses refer to those houses made of other types of materials.

Temporary:- 3 Temporary houses refers to those houses having wall and roofs made of Kutcha materials i.e. where grass, leaves. reeds, bamboo mud, unburnt bricks are used for the construction of walls and grass, leaves reeds, bamboo hatch, mud, unburnt bricks. wood etc.are used for roofs

The percentage distribution of households as shown in the above table reveals 79.6 per cent of the households in the district had permanent houses. The trend is different in rural (76.8 per cent) and urban area (92.0 per cent). Among tahsils highest proportion of permanent houses were accounted in tahsil Hathras (84.3 per cent) followed by Sadabad (81.3 per cent), Sasni (79.7 per cent) and lowest in Sikandra Rao (71.8 per cent). In respect of semi-permanent houses, the returns were 7.2 per cent of district level where as among tahsils, in Sasni it was 10.0 per cent and lowest was 4.2 per cent in tahsil Sadabad. Rural areas represented a similar ratio at district and tahsil level but semi permanent houses in the urban areas were in the proportion range of 3.2 to 7.2 per cent. Temporary houses in the district lie between the range of 8.7 to 19.5 per cent.

**TABLE 50: PERCENTAGE OF HOUSEHOLDS HAVING IMPROVED DRINKING WATER SOURCE, ELECTRICITY, BATHROOM, TOILET AND DRAINAGE FACILITY, 2001**

| | | | | **89.8** | **75.7** | **48.2** | **68.6** | **94.5** |

The above table shows that out of total households of the district 83.0 per cent of the households had improved drinking water facility The proportion of rural and urban area was 81 4 and 89 8 per cent. Tahsil Sikandra Rao had higher order of proportion of households where percentage for rural area was 83.7 and 92.4 per cent in urban areas. Electricity was available for 30.4 per cent of households at district level households of the district. Bathrooms and toilet facilities were available in 22.2 and 27.5 per cent of households. Tahsil Sadabad poorly served in respect of these amenities. Drainage facility was better in the district.At district level drainage facility was available for 93 2 per cent of households, whereas the proportion of rural and urban areas households accounted to 92.9 and 94.5 per cent.

It is observed from the above table that 46.8 per cent of households in the district use firewood as fuel, for cooking, the proportion in the rural area is to 47.8 and in urban area it comes to 42.8 per cent of households. LPG (cooking gas) has been reported as one of the fuel for cooking of food in to 11.8 per cent of the households. The composition of rural and urban comes to 4.5 and to 43.5 per cent respectively. Kerosene is used for cooking in 0.2 per cent of the households (0.1 per cent rural and to 0.7 per cent urban households). The other methods like crop residue, cow dung cake, coal, lignite, (charcoal), electricity and biogas etc are used 19.4, 20.9, 0.1, 0.2 and 0.3 per cent of the households of the district. The table shows that firewood Cow dug Cake and Crop residue are the predominant fuel for cooking in the district.

Data source: Census of India 2001, H-series Table on Houses, Household amenities and Assets

The table reveals that out of the total households (213346) of the district, in all 37.2 percent (79,499 households) avail banking services at district level while only 37.3 percent (79,500 households), 29.9 percent (63,726 households), 5.4 percent (11,557 households), 69.5 percent (1,48,207 households), 10.3 percent (21,875 households) and 1.8 percent (3,745 households)enjoyed the availability of household assets radio/transistor, television, telephone, bicycle, scooter/motor cycle/moped and car/jeep/van respectively whereas only 19.7 per cent (41,961 households)had none of the specified assets.

It also reveals that at tahsil levels a highest proportion of 40.1 percent ie 297641 households were availing banking services in Hathras Tahsil. On the other hand the lowest only 17652 (35.0 percent) households were availing banking services in Sadabad Tahsil. More than (33.2 percent) 10,778 households availed radio/transistor in Sasni tahsil while the availability of rest of the assets were television 9406 households (29.0 percent), telephone 1508 households (4.6 percent), Bicycle 23080 households (98.8 percent), scooter motorcycle moped 3292 households (10.1 percent) and car, jeep van 650 households (2.0 percent). Approxmately 6358 households (19.5 percent) had none of the specified assets. In other tahsils the proportion of households having none of the specified assets comprised of Sikandra Rao 13014 households (23.2 percent), Hathras 13543 households (18.2 percent) and in Sadabad tahsil 9046 households (17.9 percent) respectively.

**(xi) Major Social and Cultural Events, Natural and Administrative Developments and Significant Activities during the Decade**

No major social and cultural event has taken place in the district during the last ten years. The only change of importance is the creation of the district it self after 1991 Census which was earlier part of the district Aligarh. Sasni tahsil has been newly created tahsil out of old Hathras from where 269.04 sq. km.of area and 115 villages and one town has been transfered from Hathras tahsil.

**(xii) Brief description of places of religious, historical or archaeological importance in villages and places of tourist interest in the town of the district:**

**Hasayan:**

It is small town freqently called as Husain was treated as a separate pargana which was held by porach Rajputs and Raja of Awa.

**Hathras:**

It is headquarters of the district and it is an important Railway junction.This ancient town attained importance with rise of the jat supremacy in the district. Here is a very ancient place called lakhnu where a large number of ancient Buddhist sculptures and other remains which have been found in mound. It is also one of the commercial and industrial centre Readymade garments, Electrical goods, Agricultural implements, Paints, Candle, Ghee, knives and Brass ware are the important items that manufacture here

**Mursan:**

The town is originally strong hold of jats and is chiefly noted for production and export of glass bottles and milk products. A fort now in a dilapiadated condition stands to south of the town, dismantled by british forces.

**Sasni:**

Sasni is a place of great antiquity. It contains the ruins of the once celebrated fortress built by Raja Puhup Singh of Mursan. A short distance to the cast of sasni is situated a large and consipicuous mound, called gohan Khera, an old Buddhist establishment. The mareaso traces of an ancient temple.

**Sikandra Rao:**

This place is said to drive its name from Sultan Sikandar Lodi and was first called Sikandarapur. The town site is very low and has defective drainage. This town is also known for manufacturing of Iron rods, Acids, Ayurvedic medicine and Crude glass.

**(xiii) Major Characteristics and Contribution of the District:**

The district of Hathras is chiefly agrarian in natural more than 80% of the population is dependent on agricultural produce and district is famous for producing surplus food grains and vegetables being situated on the main Delhi - Calcutta railway line. The district has attain commercial significance. Although the figures of freedom movement was initiated from Aligarh but contributionof Hathras cannot be ignored. It was a centre of british troops which was later on destroyed by the freedom fighter of the district and surrounding areas. With the passage of time wide transformation have been observed in the living pattern, food habits and level of awareness of the public. Marriages are by and large perform within their own cast. Rituals fairs and festivals are being celeberated with same degree of enthusiasm. Majorly of households have the acces of Radio in the urban areas and few households of rural areas enjoy T.V. and news paper facility.

**(xiv) Scope of Village Directory & Town Directory**

**Village Directory :**

The village directory as the title connotes presents information pertaining to rural areas of the district at C.D block/ village level. For each C.D. block a list of villages serialized by English alphabetical order along with their location code numbers of 2001 and 1991 census has been presented. The rational of giving 2001 location code along with 1991 location code is to facilitate the identification of villages for matching information collected at each Census. The villages which have been wholly merged in Nagar Nigam, Nagar Palika Parishad and Nagar Panchayat are not included in the list. In case of partly merged villages, the remaining rural part of the villages has been treated as independent revenue village and the data have been presented for such villages in the village directory.

However, the villages treated as outgrowth of an Urban Agglomeration or Nagar Panchayat is listed in the village directory but no data are presented against the name of such villages. All these villages are listed in the Primary Census Abstract (rural) without presenting their data for providing cross references. Uninhabited or depopulated villages are

listed but only area of the village and land use pattern is given. A note against such a village indicates the state of its being depopulated or uninhabited.

The village directory brings out some basic information about a village. These data can broadly be classified into the following categories:

| | | |
|---|---|---|
| 1. | Population and households | Cols.4 & 5 |
| 2. | Amenities. | Cols.6 to 13 |
| 3. | Other infrastructural facilities etc. | Cols.14 to 16 |
| 4. | Availability of news paper/ magazine | Column 17 |
| 5. | Commodities manufacture | Column 18 |
| 6. | Total area of village and land use pattern | Column 3 & 19-23 |

**Town Directory :**

The Town Directory covers all the towns in a district. The towns are arranged by English alphabetical order. The data are presented in seven statements serially numbered (I) to (VII).

The following mode of listing of towns has been followed:-

(i) All the towns having statutory status which are not part of an Urban Agglomeration are listed once in the alphabetical arrangement of the towns.

(ii) All the towns which are part of an Urban Agglomeration and enjoy independent status of a statutory town are listed twice in the alphabetical arrangement of the towns as well as under the main town of an Urban Agglomeration. However, the data are presented separately only once under the main UA. In alphabetical arrangement a note is given against such towns that they are part of such and such Urban Agglomeration.

(iii) The outgrowth(s) of a town which do not qualify themselves for being treated as independent town are not listed in the main body of the Directory. Against name/names of the town having outgrowth(s) an asterisk (*) has been placed to indicate that the town has outgrowth(s).

(iv) Census towns are also listed in the body of Directory. These are the towns which do not enjoy statutory status but are declared towns *for the purpose of population Census.*

Town Directories of the districts give an account of status and growth history of towns, location and physical aspects of the towns, municipal finances during 1998-1999, civic and other amenities up to 1999 (as well in notified slums), medical, educational, recreational and cultural facilities by year 1999, and trade, commerce, industry and banking activities in year 1999. In this way population and growth rates of towns from 1901 to 2001, density in 2001, sex-ratio during 1981, 1991 and 2001 censuses, rainfall and temperature of the towns, receipts and expenditures in the towns of the district, road length, system of sewerage, number of latrines, method of disposal of night soil, water supply position and fire fighting services, number of electric connections, number of hospitals, colleges, cinemas etc. and number of banks as well as commodities of manufacture and exports are enumerated vividly in various statements relating to the town directories of the districts.

# PART-A VILLAGE AND TOWN DIRECTORY (Section I and II)

# Section - I : Village Directory

**Note explaining the abbreviations used in the village directory :**

The "Village Directory" is one of the traditional compilations of the Census. It gives the list of villages, their location numbers, their area, population, number of households, amenities such as educational, medical, drinking water, post and telegraph, commercial and co-operative banks, agricultural non-agricultural and other credit societies, recreational and cultural facilities, communication, approach to village, nearest town with a distance, power supply availability of newspaper and magazines, most important commodity manufactured and land use of each village.

Village is a statutory recognized unit having a definite boundary and separate land records. In case, a complete village is treated as an outgrowth of urban agglomeration, data on amenities for that village, have not been given in the Village Directory but shown along with the urban component. The villages which are consider as a Census Town , the amenities data are shown in the Town Directory. For those villages which have partly merged in an outgrowth of U.A., the amenities data are shown in the Village Directory for that particular village.

The 'un-inhabited' villages (villages with no population) have been indicated as such after furnishing details in columns 1 to 3 i.e., Serial number, Name of village & location code number and area of the village against column no. 4 to 18. The land use data for such villages are shown in col. 19 to 23.

The Village Directory format has 23 columns and the details given under each column are for the village are as follows:-

**Columns 1 : Serial Number**

Self explanatory. All the villages within the CD Block are presented serially in the ascending order of their location code number.

**Columns 2 : Name and Location Code Number of village.**

The name and location code number of the village are shown against these columns. This also includes the forest and uninhabited villages.

**Column 3 : Area of the village**

The area of the villages in hectares are given. Wherever the area figures was not furnished by the concerned department the column is left blank.

**Column 4 : Total population**

The total population of the village as per 2001 Census is given against this column.

**Column 5 : Number of households**

The number of households as per 2001 Census is given in this column.

**Amenities :**

In column 6 to 23, availability in respect of different amenities such as education, medical, drinking water, post, telegraph, banks, credit societies, communication, power, approach road etc., in each village has been depicted with appropriate codes against the column concerned. Wherever the amenities are not available in the village, a dash(-) is shown in the column and next to it in brackets the distance in broad ranges viz.< 5 kms., 5-10 kms. and 10+ kms of the nearest place where the facility is available is given. Column wise details are given below :

**Column 6 : Educational**

Classes upto class V included in Primary School. This will include nursery school, kindergarten school. Pre-basic school, pre-primary school, junior basic school upto class V.

Classes from VI to VIII are included in the middle school.

Classes from IX and X included in High secondary school. Classes XI and XII are included in senior secondary school.

In case of composite schools like middle school with primary school or secondary school with middle school, these are also included in the number of primary and middle schools, respectively.

Accordingly any of the following types of institutions if exists within the village is shown as per codes given below :

| | | |
|---|---|---|
| (i) | Primary School | P |
| (ii) | Middle School | M |
| (iii) | Secondary School | S |
| (iv) | Senior Secondary School | PUC |
| (v) | College | C |
| (vi) | Industrial School | I |
| (vii) | Training School | Tr |
| (viii) | Adult literacy class/centre | AC |
| (ix) | Others (specify) e.g. Sanskrit Pathshala, Senior basic school, Navodaya Vidyalaya, Makhtab, etc. | O |

More than one institution of a type in the village is indicated by the number within brackets against the abbreviation, e.g. P(3), M(4), etc.

**Column 7 : Medical**

Availability of medical facility within the village is indicated by following codes :

| | | |
|---|---|---|
| (i) | Allopathic Hospital | H |
| | Ayurvedic Hospital | HA |
| | Unani Hospital | HU |
| | Homeopathic Hospital | HHom |
| (ii) | Allopathic Dispensary | D |
| | Ayurvedic Dispensary | DA |
| | Unani Dispensary | DU |
| | Homeopathic Dispensary | DHom |
| (iii) | Maternity & Child Welfare | MCW |
| (iv) | Maternity Home | MH |
| (v) | Child Welfare Centre | CWC |
| (vi) | Health Centre | HC |
| (vii) | Primary Health Centre | PHC |
| (viii) | Primary Health Sub-Centre | PHS |
| (ix) | Family Welfare Centre | FWC |
| (x) | T.B. Clinic | TB |
| (xi) | Nursing Home | NH |
| (xii) | Registered Private Medical Practitioner | RMP |
| (xiii) | Subsidised Medical Practitioner | SMP |
| (xiv) | Community Health Worker | CHW |
| (xv) | Others | O |

More than one institution of a type in the village is indicated by the number within brackets against the abbreviations, e.g. H(3), D(4), etc.

**Column 8 : Drinking Water**

The type of the drinking water supply sources available within the village are indicated by codes as follows :

| | | |
|---|---|---|
| (i) | Tap Water | T |
| (ii) | Well Water | W |
| (iii) | Tank Water | TK |
| (iv) | Tubewell Water | TW |
| (v) | Handpump | HP |
| (vi) | River Water | R |
| (vii) | Canal | C |
| (viii) | Lake | L |
| (ix) | Spring | S |
| (x) | Others | O |
| (xi) | Summer Source | SS |

**Column 9 : Post, Telegraph and Telephone**

It is indicated by codes as shown below whether within the village exists the following amenities:

| | | |
|---|---|---|
| (i) | Post Office | PO |
| (ii) | Telegraph Office | TO |
| (iii) | Post & Telegraph Office | PTO |
| (iv) | Telephone Connection | PH |

**Column 10: Commercial and Co-operative Banks**

If the village is served by any banking service, commercial bank, co-operative bank etc. the same is indicated in codes mentioned below along with the number of banks in brackets. If not available the distance of nearest place where the facility exist is given:

| | | |
|---|---|---|
| (i) | Commercial Bank | CM |
| (ii) | Co-operative Bank | CP |

**Column 11: Credit Societies**

If the village enjoys the services of Credit Societies i.e. Agricultural Credit Societies, Non Agricultural Credit Society or Other Credit Societies, the same is indicated in codes mentioned below along with the number of such societies in brackets. In case the facility is not available within the village the distance of the nearest place where such facility exist is given :

| | | |
|---|---|---|
| (i) | Agricultural Credit Society | ACS |
| (ii) | Non-Agricultural Credit Society | NCS |
| (iii) | Other Credit Society | OCS |

**Column 12 : Recreational and cultural facilities**

If facilities such as Cinema/Video hall, Sports Club, Stadium/Auditorium is available in the village. The same is recorded in these columns. If not available the particulars of the nearest place with the facility is recorded. The information is indicated in codes mentioned below along with the number of such facilities in brackets:

| | | |
|---|---|---|
| (i) | Cinema / Video Hall | CV |
| (ii) | Sports Club | SP |
| (iii) | Stadium / Auditorium | ST |

**Column 13 : Communications**

If the village is served by any mode of public / private transport like Bus, Railway station or Navigable water ways they are to be mentioned as follows:

| | | |
|---|---|---|
| (i) | Bus | BS |
| (ii) | Railway Station | RS |
| (iii) | Navigable Waterway | NW |

**Column 14 : Approach to village**

Approach to village refers to the state of road leading to village. The approach to the village is indicated in following codes :

| | | |
|---|---|---|
| (i) | Paved Road | PR |
| (ii) | Mud road | MR |
| (iii) | Foot path | FP |
| (iv) | Navigable River | NR |
| (v) | Navigable Canal | NC |
| (vi) | Navigable waterways other than River, Canal | NW |

**Column 15 : Nearest Town and distance**

The distance is given in kilometres in brackets against the name of the town nearest to the village.

**Column 16 : Power supply**

Availability of Power Supply in the village, whatever may be the form of its use is given by using following codes :

| | | |
|---|---|---|
| (i) | Electricity for domestic use | ED |
| (ii) | Electricity for agricultural use | EAG |
| (iii) | Electricity for other purposes | EO |
| (iv) | Electricity for all purposes | EA |

**Column 17 : News Paper / Magazine**

If village receives any News Paper/Magazines the same is noted in this column using following codes:

| | | |
|---|---|---|
| (i) | News Paper | N |
| (ii) | Magazine | M |

**Column 18 : Most important commodities manufactured**

The name of three most important commodities manufactured in the village is recorded against this column.

**Column 19 to 23 : Land use i.e. area under different types of land use**

Land use data maintained by the State/ UT Govts. are furnished against these columns. The data concerning area under Forest, Irrigated land (by source), Un-irrigated land, Culturable waste and Area not available for cultivation in the village are shown against these columns. The area figures are given in hectare(s) up to one decimal. Dash '-' is recorded wherever the information is not made available by the concerned department. The codes used for different types of irrigation facilities available in the village are indicated below:

| | | |
|---|---|---|
| (i) | Government Canal | GC |
| (ii) | Private Canal | PC |
| (iii) | Well (without electricity) | W |
| (iv) | Well (with electricity) | WWE |
| (v) | Tubewell (with electricity) | TW |
| (vi) | Tubewell(without electricity) | TWE |
| (vii) | Tank | TK |
| (viii) | River | R |
| (ix) | Lake | L |
| (x) | Waterfall | WF |
| (xi) | Others | O |
| (xii) | Total | T |

The village directory also carries the following appendices.

| | |
|---|---|
| Appendix-I | It gives the abstract of educational, medical and other amenities available in villages C D Block wise of the district. |
| Appendix-I-A | Indicates number of villages C D Block wise having one or more primary schools. |

| | |
|---|---|
| Appendix-I-B | Indicates number of villages C D Block wise having primary, middle and secondary schools. |
| Appendix-I-C | Shows number of villages C D Block wise with different sources of drinking water facilities. |
| Appendix-II | Indicates the list of villages with 5,000 and above population which do not have one or more important amenities. |
| Appendix-II-A | Indicates list of Census Towns which do not have one or more amenities. |
| Appendix-III | It gives the land utilization data in respect of Census Towns / non-municipal Towns. |
| Appendix-IV | C D Block wise list of inhabited villages where no amenity other than drinking water facility is available. |
| Appendix-V | Summary showing number of villages having or not having Scheduled Castes population. |
| Appendix-VI | Summary showing number of villages having or not having Scheduled Tribes population. |
| Appendix-VII A | List of villages according to proportion of Scheduled Castes to the total population by ranges. |
| Appendix-VII B | List of villages according to proportion of Scheduled Tribes to the total population by ranges. |
| Appendix-VIII | Indicates C D Block wise number of villages under each Gram Panchayat. |
| Appendix-IX | Shows number of different types of girls school in a village. |

## STATEMENT

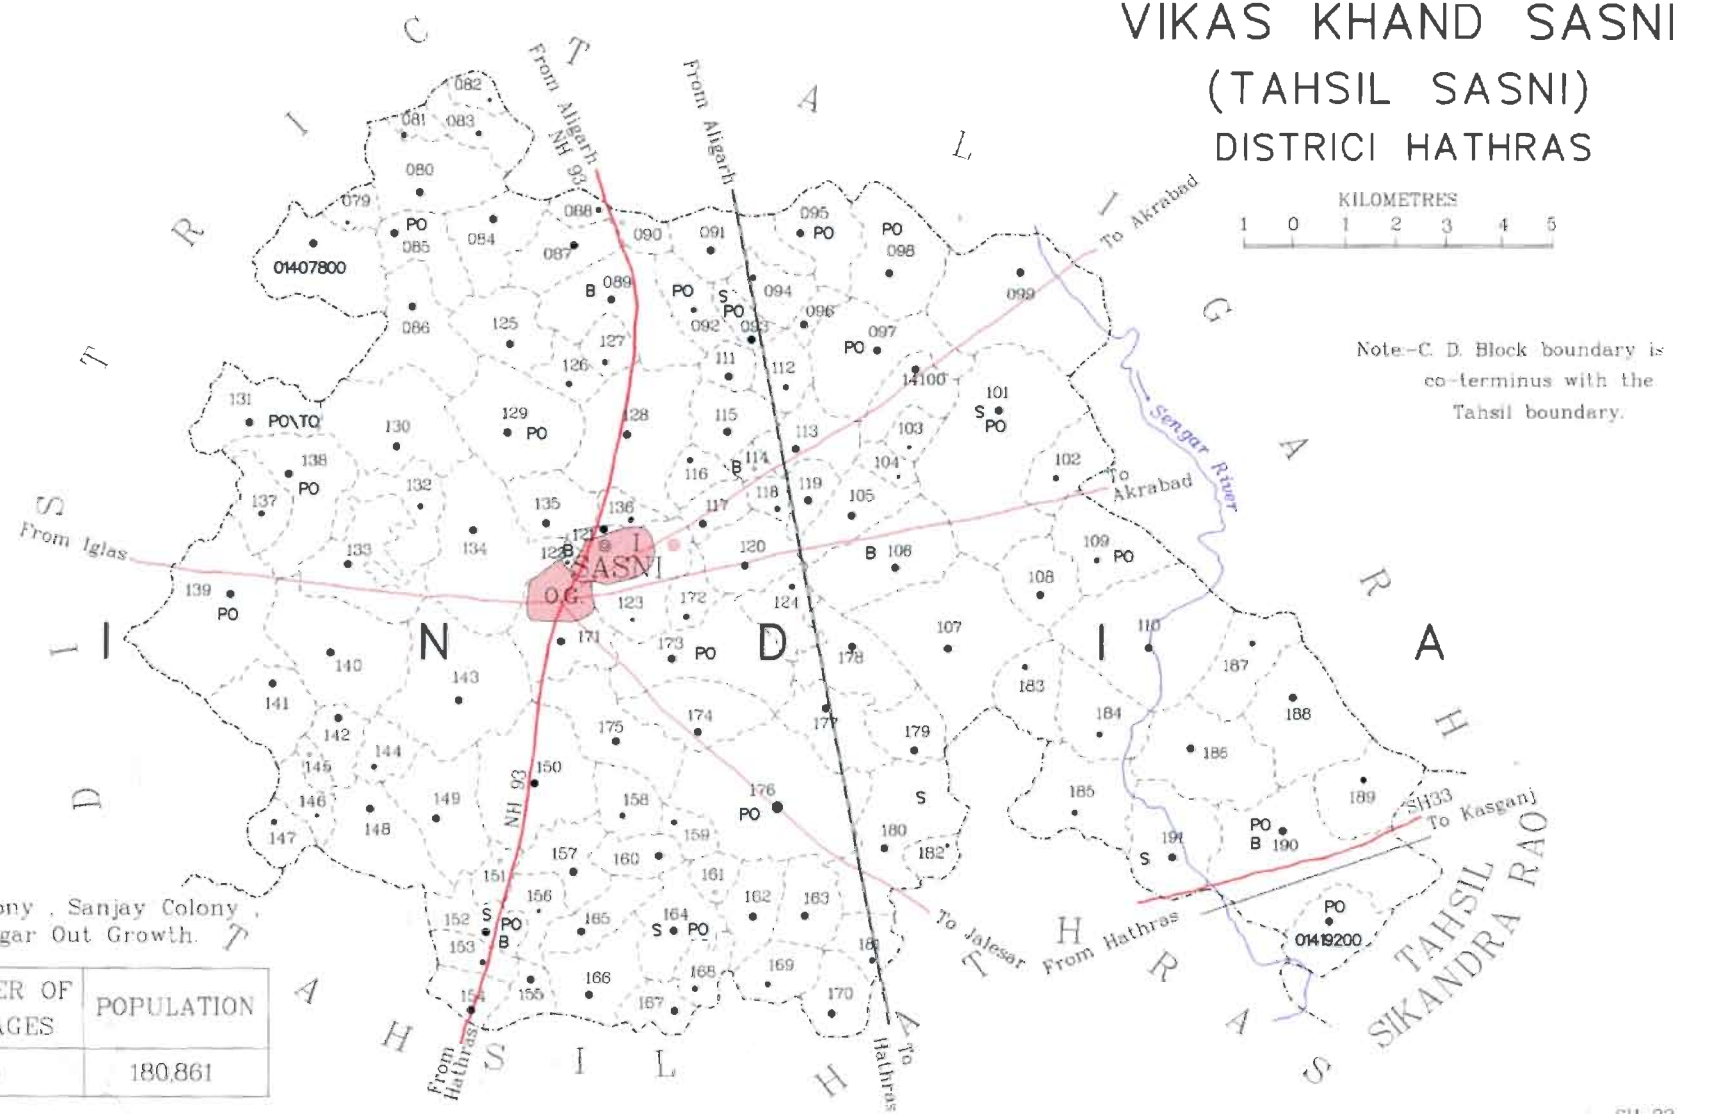

## LIST OF VILLAGES FULLY MERGED IN TOWNS AND OUTGROWTH AT 2001 CENSUS

| Serial. Number | Name of the Village | Location Code number | Merged in Town and Outgrowth |
|---|---|---|---|
| 1 | 2 | 3 | 4 |

Not applicable as there is no village merged in towns and any outgrowths in the district at 2001 Census.

| Serial number | Location code number | Name of village |
|---|---|---|
| 1 | 2 | 3 |
| **Name of CD Block: Sasni** | | |
| 1 | 01408100 | Nagla Bhika |
| 2 | 01414600 | Naupora |
| **Name of CD Block: Sikandra Rao** | | |
| 3 | 01419500 | Udpur |
| 4 | 01421700 | Barmau |
| 5 | 01424400 | Anandpur |
| **Name of CD Block: Hasayan** | | |
| 6 | 01428300 | Mandi |
| 7 | 01430500 | Uldapur |
| 8 | 01431400 | Bharatpur |
| **Name of CD Block: Hathras** | | |
| 9 | 01438200 | Garhi Singha |
| 10 | 01438700 | Kurai |
| 11 | 01441400 | Bul Garhi |
| 12 | 01442200 | Darkai |
| 13 | 01442900 | Tilokpur |
| 14 | 01444400 | Bandipur |
| 15 | 01445300 | Mewali |
| 16 | 01445700 | Pubaina |
| **Name of CD Block: Mursan** | | |
| 17 | 01449400 | Nagla Dana |
| 18 | 01450700 | Nagla Ramrai |
| 19 | 01450800 | Nagla Soron |
| 20 | 01454900 | Sundhia |
| 21 | 01455700 | Keshar Garhi |
| 22 | 01457200 | Aharai |
| **Name of CD Block: Sadabad** | | |
| 23 | 01467500 | Wedai |
| **Name of CD Block: Sahpau** | | |
| 24 | 01470700 | Burj Mauji |

## APPENDIX V - Village Directory

**Summary showing number of villages not having Scheduled Castes population**

| Serial number | Name of C.D. block | Total villages | Uninhabited villages | Inhabited villages | Number of inhabited villages having no Scheduled Castes population |
|---|---|---|---|---|---|
| 1 | 2 | 3 | 4 | 5 | 6 |
| 1 | Sasni | 115 | 0 | 115 | 6 |
| 2 | Sikandra Rao | 67 | 2 | 65 | 4 |
| 3 | Hasayan | 95 | 2 | 93 | 1 |
| 4 | Hathras | 108 | 2 | 106 | 5 |
| 5 | Mursan | 153 | 10 | 143 | 18 |
| 6 | Sadabad | 71 | 0 | 71 | 5 |
| 7 | Sahpau | 63 | 0 | 63 | 2 |
| | **District Total:** | **672** | **16** | **656** | **41** |

## APPENDIX VI - Village Directory

**Summary showing number of villages not having Scheduled Tribes population**

| Serial number | Name of C. D. block | Total villages | Uninhabited villages | Inhabited villages | Number of inhabited villages having no Scheduled Tribes population |
|---|---|---|---|---|---|
| 1 | 2 | 3 | 4 | 5 | 6 |
| 1 | Sasni | 115 | 0 | 115 | 115 |
| 2 | Sikandra Rao | 67 | 2 | 65 | 65 |
| 3 | Hasayan | 95 | 2 | 93 | 92 |
| 4 | Hathras | 108 | 2 | 106 | 104 |
| 5 | Mursan | 153 | 10 | 143 | 143 |
| 6 | Sadabad | 71 | 0 | 71 | 71 |
| 7 | Sahpau | 63 | 0 | 63 | 63 |
| | **District Total:** | **672** | **16** | **656** | **653** |

## APPENDIX VII A

## LIST OF VILLAGES ACCORDING TO THE PROPORTION OF THE SCHEDULED CASTES TO THE TOTAL POPULATION BY RANGES

### A-SCHEDULED CASTES

| Range of Scheduled caste population (percentages) | Location code number | Name of village | Range of Scheduled caste population (percentages) | Location code number | Name of village |

# Section II - Town Directory

## NOTE EXPLAINING THE ABBREVIATIONS USED IN THE TOWN DIRECTORY

**Town Directory statements (I to VII)**

**Statement I : Status and Growth History**

**Column (2) : *Class, name and civic* administration status of town :**

Class has been introduced to facilitate analysis of town directory data at the state and all India levels. It is presented according to 2001 Census Population of the town as follows :

| Population | Class |
|---|---|
| 100,000 and above | I |
| 50,000 - 99,999 | II |
| 20,000 - 49,999 | III |
| 10,000 - 19,999 | IV |
| 5,000 - 9,999 | V |
| Below 5,000 | VI |

Town with a population of one hundred thousand (1,00,000 )and above is treated as a city.

The civic administration status of the towns is indicated within bracket against the name of the town. The following abbreviations are used to denote civic status of town.

| | | |
|---|---|---|
| (I) | Municipal Corporation | M.Corp./NN |
| (II) | Municipal Committee | MC |
| (III) | Municipal Council | M Cl |
| (IV) | City Municipal Council | CMC |
| (V) | Town Municipal Council | TMC |
| (VI) | Municipal Board | MB/NPP |
| (VII) | Municipality | M |
| (VIII) | Cantonment Board/Cantonment | CB |
| (IX) | Notified Area | NA |
| (X) | Notified Town | NT |
| (XI) | Notified Area Committee/ Notified Area Council | NAC |
| (XII) | Notified Town Area | NTA |
| (XIII) | Industrial Notified Area | INA |
| (XIV) | Industrial Township | ITS |
| (XV) | Township | TS |
| (XVI) | Town Panchayat | TP |
| (XVII) | Nagar Panchayat | NP |
| (XVIII) | Town Committee/ Town Area Committee | TC |
| (XIX) | Small Town Committee | ST |
| (XX) | Estate office | EO |
| (XXI) | Gram Panchayat | GP |
| (XXII) | Census Town | CT |

Others columns need no comments.

**Statement II - Physical Aspects and Location of towns, 1999.**

**Column 3 to 5 : Physical Aspects**

In this columns the Rainfall and Maximum & Minimum Temperature of the town is recorded.

**Column 6, 7 and 8 :**

Name of the State headquarters, District headquarters and Sub-Divisional headquarters with distance from the referent town in kilometers, is to be recorded respectively. If the names mentioned in these columns are the same as the referent town itself, the distance is recorded as (0) zero.

**Column 9& 10 :**

Name of the nearest city with one lakh and more and five lakhs and more population are recorded.

**Column 11, 12 and 13 :**

If referent town enjoys the facility of railway station, bus route facility or navigable river/canal. Its name is to be mentioned. If not available, then the name of nearest place with distance, where such facility exists is to be mentioned.

**Statement III : Municipal Finance 1998 – 1999**

Item-wise amount of receipt and expenditure in thousand rupees, relating to municipal finance of the town for the year 1998-99 is to be recorded.

**Statement IV : Civic and Other amenities, 1999**

**Column (1 to 5) : Self explanatory.**

**Column (6) : Road length (in kms.)**

Information about kutcha / pucca road is to be recorded separately for the roads within the limits of the referent town.

| | | |
|---|---|---|
| (i) | Pucca Road | PR |
| (ii) | Kutcha Road | KR |

**Column (7) : System of Sewerage**

Generally, by sewerage system is implied the network of mains and branches of underground conduits for the conveyance of sewerage to the point of disposal. Sewers that carry only household and industrial wastes are called separate sewers, those that carry storm water from roofs, streets and other surface are known as storm water drains, while those carrying both sewage and storm water are called combined sewers.

The codes used for different types of drainage system are as follows :

| | | |
|---|---|---|
| (i) | Sewer | S |
| (ii) | Open Surface Drains | OSD |
| (iii) | Box Surface Drains | BSD |
| (iv) | Sylk Drains | SD |
| (v) | Cesspool method | CP |
| (vi) | Pit System | Pt |
| (vii) | Others | O |

**Column 8 to 11 : Number of latrines**

Number of various types of latrines both Public and Private are given in these columns.

**Column 12 : Method of disposal of night soil**

The various prevalent method of disposal of night soil are given below with codes :

| | | |
|---|---|---|
| (i) | Head Loads | HL |
| (ii) | Basket | B |
| (iii) | Wheel Barrows | WB |
| (iv) | Septic Tank | ST |
| (v) | Pit System | Pt |
| (vi) | Sewerage | S |
| (vii) | Others | O |

**Column 13 and 14 : Water supply**

Source and capacity of storage system. The following codes are used in these columns :

**Column 13:**

| | | |
|---|---|---|
| (i) | Tap water | T |
| (ii) | Tube-well water | TW |
| (iii) | Tank Water | TK |
| (iv) | Well water | W |

**Column 14:**

| | | |
|---|---|---|
| (v) | Over Head Tank | OHT |
| (vi) | Service Reservoir | SR |
| (vii) | River Infiltration Gallery | RIG |
| (viii) | Bore Well Pumping System | BWP |
| (ix) | Pressure Tank | PT |

The information on major source of water supply are given in column 14 and the storage capacity against each in kilo-litres (in bracket) are presented in column 15.

**Column 15 : Fire Fighting Service**

In case the fire fighting service is available in the referent town 'yes' is recorded. If the facility is not available within the town. The name of the nearest place having this facility with its distance from the referent town has been recorded.

**Column 16 to 20 : Electrification (Number of connections)**

Different types of electric connections have been shown in these columns, i.e. Domestic, Industrial, Commercial, Road lighting (points) & others.

**Statement V : Medical, Educational, Recreational and Cultural Facilities, 1999**

**Column 1 to 3 : Self explanatory.**

**Column 4 & 5 :**

The data covers all such medical institutions run by or aided by Government/Semi Government/Local bodies and Charitable institutions or Social agencies like the Missionaries. Where the family planning centres are attached to hospitals or maternity and child welfare centres or Primary Health Centres, may be treated as independent units and counted separately using following codes :

| | | |
|---|---|---|
| (i) | Hospital | H |
| (ii) | Dispensary | D |
| (iii) | Health Centre | HC |
| (iv) | Family Welfare Centre | FWC |
| (v) | T.B. Clinic | TB |
| (vi) | Nursing Home | NH |
| (vii) | Others | O |

In case of more than one institutions of any type, it is indicated within brackets the number of such institution (s) e.g. D(3), NH(8), etc. The institutions have further been distinguished by providing additional codes within the bracket as given below :

| | | |
|---|---|---|
| (i) | Ayurvedic | A |

| | | |
|---|---|---|
| (ii) | Unani | U |
| (iii) | Homoeopathic | Hom. |

**Column 6 to 9 :**

The codes used for these columns are as follows:

| | | |
|---|---|---|
| (i) | Arts only | A |
| (ii) | Science only | S |
| (iii) | Commerce only | C |
| (iv) | Arts & Science only | AS |
| (v) | Arts & Commerce only | AC |
| (vi) | Combined for all categories-Arts, Science and Commerce | ASC |
| (vii) | Law | L |
| (viii) | University | U |
| (ix) | Others | O |

**Column 10 : Recognized shorthand, typewriting and vocational training institutes**

"Recognised" should mean recognised by some statutory authority, like education department, commerce department, labour department etc. of the government or semi government or autonomous bodies, public sector undertakings etc..

The following codes are used :

| | | |
|---|---|---|
| (i) | Vocational Training Institute | VT |
| (ii) | Shorthand | SH |
| (iii) | Typewriting | Type |
| (iv) | Shorthand & Typewriting | SH Type |
| (v) | Others | O |

The vocational institutions like - Applied Art/ Painting college, Pharmacy college, B. Ed. College, Teacher's Training Institute, Music / Dance School, Nursing School etc. are covered under 'Others'.

**Column 11 to 14:**

Higher Secondary/Intermediate/Senior Secondary/PUC/Junior College level, Secondary/ Matriculation, Middle Schools/ Junior Secondary and Primary Schools.

School up to class V are treated as Primary or elementary schools. These include Nursery schools, Kindergarten schools, Pre-Primary schools, Junior Basic schools upto class V and Primary schools upto class IV.

Schools upto VIII are considered as Middle school or Junior Secondary

Schools upto class X are considered as

Matriculation or Secondary schools. Schools upto XI or XII classes are considered as Higher Secondary / Intermediate / Pre University /Junior College etc. This would cover 10+2 classes whether held in schools or college.

If there are composite schools like middle schools with primary classes or Secondary schools with Middle classes, these are also included in the number of Primary and Middle schools, respectively. For example, if in a town, there are two Primary Schools and one Middle school with Primary classes, the number of Primary schools in the town is given as three and that of Middle schools as one though there are only three educational institutions.

If there are more institutions of a type in the town, the number is indicated within bracket along with the abbreviation, e.g. P(4), M(3).

**Column 15 : Adult literacy class/centres**

This column has been introduced keeping in view the Minimum Needs Programme of the Planning Commission. There are number of Adult Education Centres which are included in these columns.

If an educational facility is not available in the town, the name of the nearest place and its distance in kilometres from the town where the facility is available is mentioned.

**Column 16 : Working Women's hostels with number of seats**

The number of working women's hostel if available in the referent town is mentioned with number of seats. If the facility is not available in the town the name of nearest place with distance where the facility is available is recorded.

**Column 17 to 19 : Recreational and Cultural Facilities**

Stadium, Cinema, Auditorium/Drama/Community Hall are covered under recreational & cultural facilities. The particulars of permanent recreational facilities are considered for these columns.

**Column 20 : Public Libraries, Reading Rooms**

Number of public libraries and reading rooms available in the referent town are recorded in codes as follows

| | | |
|---|---|---|
| (i) | Public Library | PL |
| (ii) | Reading room | RR |

**Statement VI : Trade, Commerce, Industry and Banking, 1999**

**Column 3 to 8 :**

Name of three most important commodities exported and names of three most important commodities manufactured in the town are recorded.

**Column 9 : Number of Banks**

Number of Banks available in the referent town both Commercial and Co-operative banks are recorded against this column.

**Column 10 & 11 : Number of Agricultural Credit Societies and Non Agricultural Credit Societies**

The total number of Agricultural Credit Societies and Non Agricultural Credit Societies in the referent town are recorded against these columns.

**Statement VII : Civic and other Amenities in Slums, 1999**

This is the statement on civic and other amenities in all slums whether notified or not and for all towns having statutory bodies, like municipality, Municipal Corporation, Town area committee etc.

# PART B

# PRIMARY CENSUS ABSTRACT

# Brief note on Primary Census Abstract

The first census of the third millennium and twenty first century the Census of India, 2001 was the 14th continuous and uninterrupted Indian census since 1872. Thus, 2001 Census will provide data on population and its characteristics marking transition from one century and millennium to another.

The gigantic operation of Population Enumeration (considered by many to be the single largest and complex peace time administrative exercise in the world) was made possible due to the door to door universal canvassing of the Household Schedule by about 2 million enumerators and supervisors covering 593 districts, 5,463 sub-districts, 5,161 towns and 638,588 villages. The comprehensive Household Schedule which replaced the individual slip had three parts and two sides A and B. Part I contained the Location Particulars; Part II related to the Individual Particulars and Part III contained questions for Household engaged in Cultivation/Plantation. The part II of the Household Schedule had 39 columns and 23 questions all of which were universally canvassed and no sampling was resorted to during enumeration

**Data Processing**

A quantum leap was made in the technology front while processing the Census 2001 data both for Houselisting and Population Enumeration. The Census schedules for both the phases were scanned through high speed scanners in fifteen data centers across the country and hand-written data from the schedules were converted into digitized form through Intelligent Character Reading (ICR) software for creation of ASCII records for further processing. The designing and formatting of the Household Schedule had to be done very carefully using specialized software so as to ensure uniformity, which was an essential pre-requisite for scanning. The selection of appropriate state-of-art technology in data processing has made it possible to produce all the Houselisting as well as Population Enumeration tables on full count basis for the first time in the history of Census. For Census 2001, about 202 million schedules consisting of about 1,028 million records were scanned and processed within a span of only 10 months starting October, 2002

**Task Force on Quality Assurance**

After the data is processed, it is expedient on the part of the data producing agency to satisfy itself about its quality before putting the same in public domain. This has to be done mainly through the process of internal consistency, comparison with similar data in the past and also through validation with likewise data if available, from external sources. Quite often the local knowledge and perception has to be brought into play to understand both the existing and the new emerging trends of population distribution and characteristics The other very important aspect of the data quality is to ensure complete coverage of all geographical areas especially for the population enumeration phase where the data is disseminated right up to the village level in the rural areas and the ward level in the urban areas. Thus ensuring the complete coverage and correct geographical linkage of each enumeration block was one of the major planks of the quality control, specially for small area population statistics.

A very comprehensive check and edit mechanism was put in place to objectively examine the preliminary Census 2001 Population Enumeration results and finally clear them for use. The responsibility of the final clearance of data was with the Task Force on Quality Assurance (TFQA), headed by the Registrar General and Census Commissioner, India. The other members of the TFQA were the Heads and senior officers of the Census Division, Data Processing Division, Map Division, Demography Division and Social Studies Division. The Directors of Census Operations were co-opted as members whenever the TFQA discussed the data for their States/Union territories. The Directors and their senior officers were required to make detailed presentations of data for their own state both *in* respect to the quality and the coverage and only after the full possible cleared

There has been a major departure in Census 2001 from the past in respect of the procedure followed for finalization of the Scheduled Castes and the Scheduled Tribes population. In the earlier censuses, the total Scheduled Castes and Scheduled Tribes populations were finalized at the time of the manual compilation of the Primary Census Abstracts (PCA) at the Regional Tabulation Offices which were specially set up for this purpose. The individual Scheduled Castes and the Scheduled Tribes population for each state was finalized much later based on manual coding done by the coders In 2001 Census, each individual Scheduled Caste and the Scheduled Tribe have been coded directly on the computers by the Data Entry Operators through a process known as Computer Assisted Coding (CAC) and taken up along with the processing of PCA data. The CAC process involves pulling down, from the relevant dictionary of the Scheduled Castes and the Scheduled Tribes, on the computer screen and coding from the dictionary by referring to the image of the specific individual entry in the Household Schedule appearing on the screen. The CAC of the response on Religion wherever required, was also undertaken along with the processing of PCA This is because the Scheduled Castes status had to be determined in relation to the religion of the individual. Two Special Task Forces, one on Religion and the other on Scheduled Castes/Scheduled Tribes were constituted for scrutiny and appropriate classification of these responses.

The main task of the Special Task Force on Religion was to appropriately merge or group the new responses encountered and code it into the appropriate religious community based on available literature and local knowledge. The Special Task Force on Scheduled Castes and Scheduled Tribes examined the different Scheduled Castes and Scheduled Tribes entries encoun-tered and classified these into appropriate category of the Scheduled Castes or the Scheduled Tribes principally based on the Presidential Notification and the available literature Thus a very systematic and scientific mechanism was operationalised to firm up the individual religion and the individual Scheduled Castes/Tribes returns The Scheduled Castes and the Scheduled Tribes population in 2001 Census, is thus being finalized by aggregating the population data for individual Scheduled Castes and the Scheduled Tribes at appropriate geographical levels

The entire work relating to the data validation and scrutiny was completed by all the States/Union Territories under the overall supervision and monitoring of the Census Division of the Office of the Registrar General, India with active cooperation and support of the Social Studies Division, Data Processing Division, Data Dissemination Division and Map Division

**Primary Census Abstract**

The Primary Census Abstract which is yet another important feature of 2001 Census gives basic information on Area, Total Households, Total population, Scheduled Castes, Scheduled Tribes population, Population in the age group 0-6, Literates, Main workers and Marginal workers classified by the four broad industrial categories, namely, (i) Cultivators, (ii) Agricultural laborers, (iii) Household Industry Workers, and (iv) Other workers and also Non-workers. The characteristics of the Total Population includes Scheduled Castes, Scheduled Tribes, Institutional and Houseless population and are presented by sex and rural-urban residence. This data is presented at different levels, namely, India, States/Union territories, Districts and Cities, Urban Agglomerations (Population 1,00,000 and above) in three different tables. In addition, the Appendix of said publication provides Houseless and Institutional Households and their population by residence and sex for 2001 for India, State and Union territory.

Apart from the India and State/Union Territory volumes for Primary Census Abstract, the District Census Handbook contains District Primary Census Abstract, Appendix to District Primary Census Abstract, Primary Census Abstract for Scheduled Castes, Primary Census Abstract for Scheduled Tribes, Village Primary Census Abstract and Urban Primary Census Abstract of the concerned district in the state.

It was for the first time at the 1981 Census that the Primary Census Abstract (PCA) was brought out for the Scheduled Castes and the Scheduled Tribes separately on the pattern of General Primary Census Abstract This practice was continued in 1991

also. In the 1961 and 1971 Censuses, such data were made available in Table C-VIII-Social and Cultural table and to some extent in the series 'Special Tables for Scheduled Castes/Scheduled Tribes'

The format of Primary Census Abstract has been restructured slightly in the 2001 Census as compared to that of 1991 Census. The nine-fold industrial classification of main workers given in the Primary Census Abstract of 1991 Census has been discontinued and its place, four-fold industrial classification of both 'main workers' and 'marginal workers' are included. In 1981 census only main workers were presented in to four categories. One of the novel features of the primary census abstract of 1991 census was the presentation of data of the population of age group 0-6 is continued in 2001 Census also This will help the data users in better analysis and understanding of literacy data.

**Level of presentation in District Census Handbooks:**

The Primary Census Abstract data in different PCAs are presented at different levels The level of presentation of Primary Census Abstracts are as under:

The PCA Data for villages was presented CD Block wise for the first time in 1991 Census. This practice is continued in 2001 Census also. The data for each CD Block is presented both for rural and urban areas separately. All the villages within the CD Block constitute the rural portion and the Census Towns and Outgrowths are shown under the urban portion of the CD Block. In case a CD Block is spread over two or more districts, then portion which falls within the district is presented, the data pertaining to remaining portion of the CD Block is presented in the concerned District Census Handbook The data in the Urban Primary Census Abstract for each town as well as for town with outgrowths in the district are presented. The data for all the wards and the outgrowths of the town(s) are also presented separately below the concerned town(s)

The District Primary Census Abstract is presented in 59 columns. The Primary Census Abstract for Scheduled Castes and Primary Census Abstract for Scheduled Tribes are presented in 52 columns. The Village Primary Census Abstract and Urban Primary Census Abstract are presented in 58 columns.

The concepts and definitions used in the column heading are explained under the sub heading 'Census Concepts' in the Analytical Note. The term 'Total Population' includes the Scheduled Castes, the Scheduled Tribes, the Institutional and the Houseless populations. The explanation regarding area figures presented at various level in the Primary Census Abstracts are as follows:

**Area Figures**

The area figures supplied by local revenue authorities of the district in respect of tehsils, Police Stations and by the local bodies in respect of towns are given in square kilometers. The area figures of the villages supplied by the Tahsildars in acres have been converted and shown in hectares. The area figures of the CD Block is the total of the village areas coming under each CD Block. The area figures for the district are the same as adopted by the Surveyor General of India to maintain uniformity at the national level. The total area figures of all the tahsils/CD Blocks within the district may not tally with area figures of the district because former represents land use area only. Similarly, the total of all the villages may not tally with the entire rural of Police Station/Tahsil. The difference may be due to the fact that while the area covered by hills, forests and rivers etc. have been accounted in the Tahsils and P.S. level the same may not be covered under the area of the villages. Apart from this it may also differ due to varying methods of computation adopted at different levels.

An appendix to District Primary Census Abstract has also been furnished showing urban enumeration block-wise particulars on Total Population, the Scheduled Castes Population and the Scheduled Tribes Population for each town.

# DISTRICT PRIMARY CENSUS ABSTRACT (GENERAL)

# ANNEXURES
# I TO VIII

Hathras district was carved out from Aligarh after 1991 Census. The data is not available separately for Hathras. Hence, for comparison purpose of Annexures IV to VIII, the data of undivided Aligarh district have been used, assuming that the trends and pattern of districts are same.

## ANNEXURE-I

## NUMBER OF VILLAGES UNDER EACH GRAM PANCHAYAT

Not provided for this district due to certain reasons.

## ANNEXURE-II

## FERTILITY AND MORTALITY 1991 CENSUS

The three factors affecting the population size of the district are fertility, mortality and migration. These concepts are explained in detail under the caption Census and Non- Census Concepts and Definitions in the Analytical Note portion. The fertility is defined by various measures of fertility and mean-age at marriage and also by marital status of population. One major aspect of consideration under mortality is infant and child mortality. The population of the UP state was 139 million at the 1991 Census, which accounted for 16 % of India's total population. It grew by 25% between 1981 and 1991 largely as a result of high fertility, the highest of any Indian state.

The child mortality indicators at the 1991 Census in the district and the State was as following:

**Child Mortality Indicators in the State and the District**

| Indicator | Persons/Males/Females | UP* | Aligarh |
|---|---|---|---|
| q1 | Persons | 99 | 104 |
| | Males | 98 | 98 |
| | Females | 104 | 114 |
| q2 | Persons | 117 | 111 |
| | Males | 117 | 100 |
| | Females | 118 | 123 |
| q5 | Persons | 134 | 126 |
| | Males | 135 | 115 |
| | Females | 132 | 143 |

(*Undivided Uttar Pradesh at 1991 Census)

The child mortality by age one year was higher and by ages, 2 and 5 years was lower in the district as against the State. The child mortality indicators in the district for females were in the improved condition as compared to the State by ages 1, 2 and 5 years.

## ANNEXURE–III

### VARIOUS MEASURES OF FERTILITY AND MEAN AGE AT MARRIAGE - 1991 CENSUS

| Serial Number | Fertility Measures | Uttar Pradesh | Aligarh |
|---|---|---|---|
| 1 | 2 | 3 | 4 |
| 1 | CBR | 37.2 | 35 6 |
| 2 | TFR | 5.6 | 5 7 |
| 3 | TMFR | 6.3 | 6 7 |
| 4 | GFR | 172.0 | 173 |
| 5 | GMFR | 200 0 | 211 |
| 6 | Mean age at marriage (1981-91) | 17.3 | 17 6 |
| 7 | Number of children ever born per ever married woman aged 15-49 years | 4.6 | 4 6 |
| 8 | Child woman ratio 0-4 | 631 | 691 |
| | 5-9 | 752 | 783 |

Source (i) Estimates of fertility indicators Uttar Pradesh Table # 2 23
(ii) District Profile Uttar Pradesh 1991

Measures of fertility is an important component to describe fertility and moratality rate of any area. The table reveals that the Crude Birth Rath ( CBR), which the ratio of the number of live births [illegible] a mid year population, 35 6 per thousand in the district it is below to the state of Uttar Pradesh i.e of 37 2 per thousand. In respect of Total Fertility Rate(TFR), Total Marital Fertility Rate (TMFR), General Fertility Rate (GFR) and General Marital Fertility Rate (GMFR), the district presents all a slightly higher proportion from the state figures. The conclusion that may be drawn higher fertility ratio for the district. The mean age at marriage during the period 1981-91 has been 17.3 years for the state where as 17.6 years has been observed for the district. It may be observed that higher age at marriage leads to higher of fertility in the state and district as well. Similar trend is observed in the number of children born per ever married women in the age group 45-49. The figures are same in both the state and the district as well. Number of children in the age group 0-4 and 5-9 years per thousand women in the age group 15-49. has been calculated to 691 and 783 for the district while in case of the state the corresponding figures are 631 and 752.

The annexure presented above shows percentage distribution of in-migrants as per the 1991 and 2001 Census amongst the total migrants in the state and district. There are two type of in-migration in the district such as in-migration by place of birth (in which a person is enumerated during the census at a place other than place of birth) and in-migration by place of last residence (a person is enumerated during the Census at other than his place of last residence). The comparison between 1991 Census and 2001 Census reveals that among the total migrants the proportion of in-migrants within the state (from other districts of state) was 81.3 percent and 79.6 percent respectively. The corresponding figure for the district was 91.8 percent in 1991, while in 2001 it was 94.5 percent respectively. The proportion of in-migrants from other states was 16.2 percent at state level during 1991 Census, whereas it rose to 19.3 percent in 2001. The district level figure was 7.5 percent and 5.4 percent respectively. At district level in-migration from other countries was 0.7 percent in 1991 and 0.1 percent in 2001. While at state level figures were 2.5 percent and 1.1 percent during 1991 and 2001 Census respectively.

In respect of in-migrants by place of last residence, it is evident that in-migrants from other districts of the state amongst total migrants, constituted 79.6 percent in 1991, while it was recorded 74.1 percent in 2001 at state level. District level figures were 89.2 percent and 92.4 percent during 1991 and 2001 Census respectively. The percentage of in-migrants from other states worked out to be 18.9 in 1991 and 25.2 percent in 2001 at state level, whereas district figures for both the Censuses were 10.5 percent and 7.5 percent respectively. The movement of population from other countries in the district was 0.3 percent in 1991 and 0.1 percent in 2001, while state level figures were 1.5 percent and 0.7 percent respectively.

Annexure-V presents composition based on religions at the state, district and tahsil level. If we compare the data for 1991 and 2001 Census, we find that demographic pattern based on religions is almost same in both Censuses at the state level. Hindu religion predominates with 81.7 percent population in 1991 and 80.7 percent in 2001 followed by Muslim which were 17.3 and 18.5 percent respectively. Against this, district figure for Hindu religion were 84.9 percent in 1991 and 89.3 percent in 2001, while Muslim were 14.6 percent in 1991 and 10.1 percent in 2001. Rest of the four religions i.e. Buddhist, Christian, Jain and Sikh alongwith combined population of other religion had insignificant proportion which was less than one percent of total population for each religion. Similar trend is visible for state, district and at tahsil level in 1991 as well as 2001 Census.

Annexure-VI deals with marital status of different age groups of population. On perusal of the annexure for state and district for two respective Census in the years 1991 and 2001, it is evident that, for all ages the percentage of never married is higher than proportion of married for state and at the district level also. Percentage of never married has increased from 54.4 percent male and 45.9 percent female in 1991 to 57 5 percent male and 48.9 percent female in 2001 at state level, while it rose marginally in the district from 58 2 percent male and 48.7 percent female to 59.5 percent male and 49 7 percent female. Percentage of married male and female shows declining trend in comparison to 1991 from 42 4 percent male and 49.4 percent female to 39 8 percent male and 46 2 percent female Percentage of married male was 38 8 percent and female was 46 3 percent in 1991 and in 2001 it was 37.8 percent male and 44.6 percent female. Percentage for widowed persons at state level was 3.0 percent male and 4.6 percent female in 1991 and in 2001 it was 2.6 percent male and 4.8 percent female. At district level in 2001 it was 2.6 percent male and 5.6 percent female while it was 2.9 percent male and 4.9 percent female in 1991 Census. Percentage of divorced and Separated remained constant at 0.1 percent for male and female in state and district level during 1991 and 2001 None person was recorded in the category of Unspecified marital status in state and district during 2001 Census Among the age groups, the proportion is in the descending order for never married and ascending order for widowed The trend for married is pyramidal the peak being between 25-29 and 45-49 (years) age-groups

Age and sex wise education in the state and district has been presented in the Annexure - VII. From the annexure it can be observed that percentage of illiterates has declined from 55.3 percent male and 80.0 percent female in 1991 to 44.2 percent male and 65.9 percent female in 2001 at the state level. Consequently percentage of literates has increased in all educational levels. Percentage of literates without educational level was 2.0 percent male and 0.7 percent female in 1991 at state level, which increased to 2.8 percent male and 2.1 percent female in 2001. Similarly primary level education was 10.7 percent male and 6.1 percent female in 1991 and percentage for male and female rose to 16.0 and 11.5 respectively in 2001. Middle level education was 9.8 percent male and 3.7 percent female in 1991 which increased to 13 8 percent male and 7 1 percent female in 2001. Matriculation and above level was 13 5 percent male and 4 4 percent female in 1991 which was 20 4 percent male and 9.0 percent female in 2001.

Similar trend can be observed in the district also. Illiterates were 52.0 percent male and 78.7 percent female in 1991 which declined to 38.1 percent male and 62.7 percent female in 2001. Primary level education was 10.5 percent male and 6.2 percent female in 1991, which was 16.4 percent male and 12.8 percent female in 2001. Middle level education was 12 5 percent male and 4.9 percent female in 1991 and 16.5 percent male and 8.3 percent female in 2001. Matriculation and above level of education was achieved by 15.7 percent male and 5.5 percent female in 1991 which was 24.6 percent male and 9 3 percent female in 2001. Primary level of education was highest in the age-group 7-14 in 2001, while middle level education was highest in 15-19 and the age group that had highest percentage of matriculation and above level of education was 20-24 (years).

District - Hathras

| Total Population | Hindi | Urdu | Nepali | Brajbhasha | Bhojpuri | Total Of Other Mother Tongues |
|---|---|---|---|---|---|---|
| 1 | 2 | 3 | 4 | 5 | 6 | 7 |
| 1,336,031 | 1,300,614 | 29,249 | 2,724 | 2,481 | 285 | 678 |
| 100.0 | 97.3 | 2.2 | 0 2 | 0 2 | 0.0 | 0 1 |

*Note. For state level only first 28 mother tongues and at district level only those mother tongues are shown in the table whose proportion is greater that 0 02 percent. The remaining tongues have been merged in the column of "Total of other mother tongue"*

Annexure-VIII presents distribution of population according to different mother tongues with percentage for the state and the district. There is identical trend for Census of 1991 and 2001 as the highest percentage of the people reporting Hindi as the mother tongue (82.1 percent in 1991 and 83.1 percent in 2001). This trend is visible for the district as well The district reported Hindi as mother tongue for 91.8 percent person in 1991 and 97.3 percent in 2001. Urdu returned as second largest spoken mother tongue as 9.0 percent was recorded in 1991 and 8.0 percent in 2001 at the state level whereas 7.6 percent and 2.2 percent at district level in 1991 and 2001 Census respectively. Persons speaking other languages as mother tongue were very small in number in both the state, and district, in both Censuses.
