## SHAHEED SMARAK STHAL, MUNSHIGANJ

During the British Rule, farmers of the district protested strongly against their representative rule and held meetings at different places throughout the district. Baba Ram Chander, the leader of agitations formed '*Kissan Sabha*' on November 5th of 1920 at *Rasoolpur'* and *Atarwa* villages in Unchahar. Hardly within a period of one month, of its formation '*Kissan Sabha*' started taking active part in the form of agitation. Amol Sharma and Baba Jankidas, being the leaders of that agitation, were arrested by the administrative authorities. The rumour of their assassination agitated farmers and this rumour added fuel to the fire of agitation and farmers became violent. Their entry in the city was prohibited. On hearing about loot, robbery and violence in the district, Pt. Jawahar Lal Nehru visited there on the 7th day of January, 1921. A follower of the British Rule Veer Pal Singh, all of sudden opened fire and shot three rounds on a man *Badlu Bedia* of '*Bhord*' at the bridge on river *'Sai'* in Munshiganj. In the meantime, hearing the noise of gun-shots, the army of horse-riders assumed it to be a firing order and opened firing ruthlessly on the farmers resulting in a mass killing of the farmers. On the government records the death toll was recorded as nominal but as per the evidences of eyewitness, a press reporter, Ganesh Shankar Vidyarthi of the news-paper 'Pratap' published the death toll in hundreds and termed the incidence as the 'Jalian wala Bagh Kand'. Hence, in the memory of the martyrs of that day, the 7th January, 1921, a memorial was erected in Munshiganj and since then 'Martyrs Day' is observed every year on the same date.

Annexure I Number of villages under each Gram Panchayat 863
Annexure II Fertility and Mortality, 1991 Census 863
Annexure III Various measures of fertility and mean age at marriage, 1991 Census 864
Annexure IV Percentage distribution of Migrants by place of birth/place of last residence, 1991 Census 865
Annexure V Brief account of main religions in the district/tahsil as per 1991 Census 866
Annexure VI Marital status of population as per 1991 Census 867
Annexure VII Age, Sex and Education in the district, 1991 Census 872
Annexure VIII Distribution of different mother tongues returned in 1991 Census 873

# FOREWORD

The District Census Handbook (DCHB) published by Census Organisation since 1951 census, is one of the important publications in the context of planning and development at gross-root level. The publication, which is brought out for each district, contains several demographic and socio-economic characteristics village-wise and town-wise of the district alongwith the status of availability of civic amenities, infrastructural facilities, etc.

2. The scope of the DCHB was initially confined to a few Census Tables and Primary Census Abstract (PCA) of each village and town within the district. Thereafter, at successive censuses, its scope and coverage has been enlarged. The DCHB published at the 1961 census provided a descriptive account of the district, administrative statistics, census tables and a village and town directory including PCA. The 1971 census-DCHB series was in three parts: Part-A related to village and town directory, Part-B to village and town PCA and Part-C comprised analytical report, administrative statistics, district census tables and certain analytical tables based on PCA and amenity data in respect of villages. The 1981 census DCBH was in two parts: Part-A contained village and town directory and Part-B the PCA of village and town including the SCs and STs PCA up to tahsil/town levels. New features alongwith restructuring of the formats of village and town directory were added into it. In Village Directory, all amenities except electricity were brought together and if any amenity was not available in the referent village, the distance in broad ranges from the nearest place having such an amenity, was given. Information on new items such as adult literacy centres, primary health sub-centres and community health workers in the village were provided so as to meet the requirements of some of the Revised Minimum Needs Programme. Information on approach to the village was provided for the first time in the Village Directory so as to give the details on number of inaccessible villages in each district. In the Town Directory, a statement (IV-A) on slums was introduced to provide the details on civic and other amenities in the notified slums of Class I and Class II towns.

3. The 1991 census DCHB, by and large, followed the pattern of presentation of 1981 census, except the format of PCA was restructured. Nine-fold industrial classification of main workers was given against the four-fold industrial classification presented in the 1981 census. In addition, sex-wise population in 0-6 age group was included in the PCA for the first time with a view to enable the data users to compile more realistic literacy rate as all children below 7 years of age had been treated as illiterate at the time of 1991 census. One of the important innovations in the 1991 census was the Community Development Block (CD block) level presentation of village directory and PCA data instead of the traditional tahsil/taluk/PS level presentation. It was expected that the presentation of village directory and PCA data at CD block level will help the planners in formulation of micro level development plans, CD block being lowest administrative unit.

4. The present series of 2001 census DCHBs have been made more informative and exhaustive in terms of coverage and content. The Village Directory has been enlarged in scope by including a number of other facilities like banking, recreational and cultural facilities, newspapers and magazines and 'most important commodity' manufactured in village. Income and expenditure of gram panchayat, wherever possible, has been provided. Apart from these, more details on distance(s) at which basic amenities are available (if not available in the village), are given. This includes educational facilities (namely primary and middle schools and college), medical facilities (viz. Allopathic Hospital, Maternity & Child Welfare Centre and Primary Health Centre), drinking water, post & telegraph (post office and phone), communication, bank, credit societies and recreational

facilities. In Town Directory, the statement on Slums has been modified and its coverage enlarged by including details on all slums instead of 'notified slums'. The information is given in case of all statutory towns irrespective of their class, against only Class I and Class II towns in the 1981 and 1991 censuses. The basic amenities available in the villages and towns are analysed in depth with the help of a number of cross-classified inset tables and statements. Two other significant additions in the publication are inclusion of 'motif' highlighting significant characteristic of the district and analytical notes as annexures. The analytical notes on (i) fertility and mortality and (ii) various measures of fertility and mean age at marriage are prepared based on 1991 Census. Whereas, in the notes relating to (i) percentage distribution of migrants by place of birth/place of last residence, (ii) main religions, (iii) marital status of population, (iv) age, sex and education, and (v) distribution of spectrum of mother tongue, nature and extent of changes occurred in the district in its basic socio-demographic features during the decade 1991-2001 are analysed. The eight digits permanent location code (PLCN) to all the villages and towns have been assigned keeping in view the future needs.

5. The village and town level amenity data have been collected, compiled and computerised in prescribed record structure under the supervision of Dr. Ranvir Singh, Director of Census Operations, Uttar Pradesh. Thereafter, efforts have been made to ensure comparability of the information with that of 1991 census data and the information brought out by the respective state governments in their annual reports and statistical handbooks for various years after 1991. The task of planning, designing and coordination of this publication was carried out by Shri R.G. Mitra, Deputy Registrar General (C&T) and Dr. I.C. Agrawal, Senior Research Officer of Social Studies Division. Dr. R.P. Singh, Deputy Registrar General (Map) provided the technical guidance in the preparation of maps. Whereas, Shri Anil Kumar Arora, Deputy Director of Data Processing Division who worked under the overall supervision of Shri Himakar, Addl. Director (EDP) helped in preparation of record structure for computerisation of village and town directory data and the programme for the generation of Village Directory and Town Directory statements including analytical inset tables. The draft DCHB manuscripts received from the Census Directorates have been scrutinised in the Social Studies Division under the guidance of Shri S.L. Jain, Deputy Director and Shri R.K. Mehta, Assistant Director. I am thankful to all of them and others who have contributed to make this publication possible.

Registrar General &
Census Commissioner, India

New Delhi
Dated: 17.10.2006.

# Preface

The District Census Handbooks (DCHBs) are brought-out in two parts giving village and town wise data for each district. The first part contains non-census data for each village and town and is called Village and Town Directories Part A. The Part B provides Census data for rural area up to the village level and for urban areas up to ward level for each town or city in the shape of Primary Census Abstract (PCAs). The information contained in Primary Census Abstract and Village and Town Directory (VDs/TDs) has already been released for data users in soft copy. Data available in District Census Handbooks are very useful for policy planners, Administrators, Researchers and other socio-economic research centers. Till 1991 Census, all the inset tables included in District Census Handbooks were produced manually. But this time the software designed by the Data Processing Division of the Office of the Registrar General, India helped in the fast generations of tables.

I am deeply grateful to Shri J.K. Banthia, Ex-Registrar General and Census Commissioner of India for his guidance and support. I would like to thank Shri D.K. Sikri, Secretary, Registrar General and Census Commissioner of India for his sustained support and spontaneous, unfailing guidance through our endeavours. At the outset I thank to Shri R.C. Sethi. Additional Registrar General, India, who drove us to complete the District Census Handbooks within a specific timeframe and make it ready for printing.

I thank to Shri R.G. Mitra, Ex. Deputy Registrar General (C&T), Shri R.P. Singh, Ex. Deputy Registrar General (Map), Dr. I.C. Aggarwal, Ex. Assistant Registrar General (SS) of the office of Register General, India for their guidance at each steps in the preparation of District Census Handbook. Special thanks are due to Shri S.L. Jain, Deputy Director (Social Studies) and Shri Anil Kumar Arora, Deputy Director (EDP), without their untiring efforts and support we could not have completed the District Census Handbook within this time.

The Director of Census Operations, Uttar Pradesh, Dr. Ranbir Singh, under whose guidance, the entire operations were carried out deserves all credit for its success, but he was repatriated to the State Government for taking up some other important assignments before the volume could be made available for the printing. I am also thankful to Shri R. K. Singh, Ex-Joint Director and Shri S.S.A. Jafri, Deputy Director for their valuable guidance and support to complete this project within specific time frame. The task of data collection in respect of both Census and non-census items was a gigantic on which officials in the State Government had to perform along with their normal duties. For their deep sense of devotion to duty and hard work in this regard, I am thankful to all of them.

The preparation of District Census Handbook was done under the supervision and guidance of Shri B.K. Srivastava, Deputy Director of Census Operations and his team of dedicated workers deserve all praise for their perseverance and dedication in preparing for Camera Ready Copy of District Census Handbook.

I am also thankful to Shri Mohan Pandey, Ex-Deputy Director, Shri J. Majhi, Assistant Director, Shri M.M. Pandey, Dr. S.S. Sharma S.I. Grade-I and Shri S.K. Banerjee, S.I. Gr. II who assisted in the work for timely completion of the project. S.I.Gr.II, S.I.Gr.III, Sr.Compilers, Compilers, Data Entry Operators and Assistant Compilers who assisted in the work also did a tremendous job. Shri A.M. Ansari, Deputy Director (EDP) and his team of devoted workers deserve all praise for timely processing of Household Schedule through Image Based Data Capturing Technology i.e. Scanning. The members of the staff in the Map Section did a commendable job under the guidance of Shri Dashrath Singh, Research Officer (Map) in bringing out various maps.

# ANALYTICAL NOTE

**(i) History and Scope of the District Census Handbook**

The district census handbooks were first published after 1951 census. Since then after every decadal census the publication has remained a constant feature with some improvements. This publication has been traditionally brought out by the Census Organization on behalf of each State Government/ Union Territory. This publication provides data on demographic characteristics as well as information on the availability of basic amenities in each village and town of respective districts. The scope of the publication has been changing with the changing needs of the data users. The 1951 census series of the publication contained Primary Census Abstract, Village and Town Directories, administrative statistics and an account of the district. In 1961 the publication was in a single volume containing three parts covering Census tables, official statistics and Village Directories. The 1971 Census DCHBs were published in 2 parts. The Part A contained Village and Town Directories and Part B contained Village and Town PCA. The Part C could not be published in many States/UTs which contained administrative statistics and district census tables. The 1981 DCHBs were published on the restructured formats of Village and Town Directories. The DCHBs of 1981 Census were published in 2 parts for each district. The Village and Town Directories comprised Part 'A' and PCAs of Villages and Towns (ward-wise) including Scheduled Castes and Scheduled Tribes PCA up to Tahsil/Town level were provided in Part 'B'. If any amenity except electricity was not available in the referent village, the distance in broad ranges from the nearest place having such amenities was given. Information on some new items were also provided keeping in view of the needs of the Revised Minimum Needs Program. The 1991 DCHBs were almost same in scope as was at 1981. The new features included in 1991 DCHBs were the nine-fold industrial classification of main workers and the sex-wise population in the 0-6 age group. Yet other information at the 1991 census was the CD Block level presentation of data. The VD data was also made available through the magnetic tapes/floppies. Unfortunately in UP no DCHBs relating to 1991 Census were out of press till completion of 2001 Census defeating the very purpose of these publications apart from causing inconveniences to the data users.

The 2001 DCHBs contain more information such as details on greater number of facilities available to the Villages/Towns. The analysis of data with aid of inset tables and statements is more informative. The 2001 DCHBs are fully geared to meet the requirements of Gram Panchayats. At the 2001 Census the DCHBs are entirely available on electronic format and on CD-ROM, hence the word "Handbook" seems now to be a misnomer.

**(ii) Brief History of the District**

District Rae Bareli was created by British government in 1858. The town initially was founded by Bhars and was known as Bharauli, which in course of time got corrupted into Bareli. The prefix in the district name Rae is said to be a corruption of Rahi, a village which is 5 kms., away from the district headquarters. It is also said that Rae, which represents Rai, the common title of Kayastha who were masters of the town for a considerable period.

The early history of the district can't be traced for want of any written substance but it may be conjectured that the area falling within the vicinity of the present district had some ancient background. Being situated in the neighbourhood of city of Nawabs i.e. Lucknow, the district has been known as Avadh or Suba of Avadh. Earlier it was known as the Kosla country. It was bounded in west and north-west by kingdom of Panchala, on the east by river Sadavira separating it from Videha and south-east by kingdom of Kashi. In the north it is stretched up to foot hills of Himalayas and in the south the Vatsa kingdom. There is no doubt that the district has seen civilized and had settled life since very early times. Numerous traces of solid brick work and large quantities of broken terracotta's and burnt and un-burnt clay seals bearing Buddhist symbols and old coins prove the great antiquity of the place, which seems to have once been a big and flourishing Buddhist centre. Very old and rare image of Natraj Shiv is reported to have been discovered few years ago. Many other villages contain the ruins of ancient bricks, coins, usually ascribe to Bhar Rajas. The tract represented by present district was subject to the kingdom of Ikshvakus of Ayodhya. The district formed an integral part of Rama's extensive and prosperous kingdom. Excavations made in 20th century reveal that the coins, earthen pots, various copper tools, gold and silver coins, temples, images of Gods and Goddess and remains are the proves of fort the existence of the district since three thousand years. The district Rae Bareli was the part of the dynasties of Maurya, Shung and Gupta period. Some Kushanvanshi coins have been discovered during excavations in the village Danda Khera and Gagaiso. The worth mentioning among these are coins of 'Vim Cad Fiasis' and Kanishk I. The buried remains, specially gold and silver coins of the reign of Skand Gupta and Chandra Gupta II have been found in Dalmau and Maharajganj. Coins of the times of Harshvardhan and Gurjar Pratihar

Rajvans have been found in Bhataura (Fatehpur) and Kahjir village. During 7th century Chinese pilgrim Huensang travelled to Dalmau and Jagatpur. The remains of bricks and other things envisage that it was a Buddhist centre during that period. During Gupta and early medieval period the district find reference on the basis of the artistic images of Sun, Vishnu, Shiv, Ganga etc, which have been found in Saraini. The 10th century is referred by the interline of a temple in Dariapur village indicating Ganga and Yamuna on the both sides of pillars and grand images of other deities.

The territory of the present district was under the domination of Delhi Sultanate and Mughals up to 12th century. One of the Rajput clans of the district Kaunpuria is also said to have originated here in 13th century. Ala-ud-din Khilji (1226-1316) before ascending the throne of Delhi had held the governorship of Kara and Avadh, which included this district. Malik Mubarak was the governor of Dalmau. During the reign of Mohammad Bin Tuglaq, Firoz Shah Tuglaq opened a school for the instruction of the people in Muslim lore and an Idgah was erected during 1351-1388. Bhars were the local chief during 1394. There are references of Lodi dynasty for 1517-1526, however, Lodi was defeated and killed by Babur in 1526 in the battle of Panipat. Sher Shah Suri drove out Babur and Humaun in 1540 but nothing was heard of this district during the reign. It was also during this year that Malik Mohammad Jaisi composed his celebrated work Padmawat, which made the town of Jais famous forever. In 1556, the great Mughal emperor Akbar ascended the throne of Delhi. In his period part of the area covered by present district of Rae Bareli was included in Sirkar Manikpur of the Suba of Allahabad. From the last quarter of the sixteenth to first quarter of eighteenth century, the history of the district reflects only the rise of local Bais and Kanpuria chiefs. In the times of Aurangzeb, Amar Singh the Bais Raja and Surat Singh, Kanpuria raja of Tiloi were the most prominent Rajput Chiefs of the district,

So far as the present district is concerned very little seems to have happened during the reign of Mughal emperors but in 1722 the district was part of Suba of Avadh. In February 1856, Wajid Ali Sah the king of Avadh was deposed and his territories including the area now covered by Rae Bareli was annexed by East India Company. Up to the expulsion of British from Lucknow, no event of significance took place in the district. The district was created in the year 1858. The size and the shape of the district was different at that time, from the present one. Prior to the creation of district, it had four divisions but during the year 1891 when the province of Avadh was re-organized in two divisions, the district became part of Lucknow division.

Pt. Madan Mohan Malviya visited this district in 1921 and on October 17, 1925 Mahatma Gandhi passed through Rae Bareli on his way to Lucknow from Ballia. The civil disobedience movement was launched on 1930 and Rae Bareli was in the forefront of this movement. The Quit India Movement was inaugurated on August 9, 1942 and the district did not lag behind any other. Rae Bareli celebrated long awaited independence with befitting glee and rejoicing in every home along with rest of the country.

**(iii) Administrative Set-up :**

The district of Rae Bareli is situated in the central region of the state. The distance from state headquarters is approximately 80 Kms. The district headquarters lies at Rae Bareli. There are seven tahsils namely- Maharajganj, Tiloi, Rae Bareli, Lalganj, Dalmau, Salon and Unchahar. These tahsils are located within of 45 Kms. from the district headquarters. These tahsils are further decentralized amongst 21 Development Blocks. These are Bachhrawan, Shivgarh, Mahrajganj, Singhpur, Tiloi, Bahadurpur, Harchandpur, Amawa, Satava, Rahi Khiron, Saraini, Lalganj, Dalmau, Jagatpur, Deeh, Chhatoh, Salon, Unchahar, Dinshahgaura and Rohnia. The urban units of the district are compressed of two Nagar Palika Parishads and seven Nagar Panchayats.

**Juridictional Changes during (1991-2000)**

After 1991 Census, Unchahar tahsil was created by transferring 160 villages and 1 town from Salon tahsil and 61 villages from Dalmau tahsil. The area that has been assimilated from the tahsils were respectively 302.89 and 112.27 Sq. Kms. Unchahar tahsil was created vide Govt. Notification No. 1796/1-5/97-112/97-R-5 dated 20.9.97, whereas the areas to be assimilated was vide Govt. Order No. 2643/1-5/98-112/97-R-5 dated 26.10.98. Four villages of Tiloi tahsil were also transferred to tahsil Musafirkhana tahsil of Sultanpur district. In term of area, it was 23.50 Sq. Km. vide Govt. Order No. 115/1-5/99-596/96-R-5 dated 16.2.99. It is explained in following table:

**Jurisdictional Changes (1991-2000)**

| S. No. | Name of District/ Tahsil | Notification No. and Date | Jurisdictional Changes | |
|---|---|---|---|---|
| | | | Added | Subtracted |
| 1 | Rae Bareli Unchahar Tahsil | 1796/1-5/97-112/97-R-5 dated 2.8.1997<br><br>2643/1-5/98-112/97-R-5 dated 26.10.1998. | 160 villages and 1 town transferred from Salon tahsil.<br>61 villages transferred from Dalmau tahsil. | |
| 2 | Dalmau Tahsil | 2643/1-5/98-112/97-R-5 dated 2.8.1997. | -- | 61 villages transferred to newly created Unchahar tahsil. |
| 3. | Salon Tahsil | 1796/1-5/97-112/97-R-5 dated 16.2.1999. | -- | 160 villages and 1 town transferred to newly created Unchahar tahsil. |
| 4. | Tiloi Tahsil | 115/1-5/99-596/96-R-5 dated 16.2.1999. | -- | 4 Villages transferred to Musafirkhana tashil of Sultanpur district. |
| 5. | Lal Ganj Tahsil | 376-76-9-211 A-Q 82 dated 28.3.1999. | --- | 6 villages transferred to Bindki tahsil of Fatehpur district. |

**District Administration**

District administration comprises of Revenue, Development, Police (Law and Order), Judiciary, district level officers of different departments and Local self-government. District Magistrate is in-change of revenue administration. He is assisted by Additional District Magistrate, (Finance and Revenue) i.e. ADM (F& R)/ At the tahsil level Sub Divisiobal Magistrate is in-charge, who is now re-designated as Up-Zila Adhikari. He is assisted by Tahsildars in each tahsil and for revenue collection, each tahsil is further entrusted to Naib Tahsildars and Kanoongos (circles) respectively. For each revenue village, Lekhpal is in-charge. Development activities in the district are loooked after by Chief Development Officer. The other district level officers like- Health, Panchayat Raj, Electricity, Transport, Irrigation, Jal Nigam, Animal Husbandry, Harijan and Samaj Kalyan, Agriculture, horticulture, PWD, etc net district administration. At Community Development level, Community Development Officers and Village Development Officers at village level are at the helm.

Under the police set-up Senior Superintendent of Police in big districts and Superintendent of Police in smaller districts are in-charge. Additional Superintendent of Police (ASP) and Commanding Officer are in-charge of their respective areas. Deputy Superintendent of Police (DSPs) look after the Thanas allotted to them. Police Inspector and Sub-Inspector are in-charges of their police stations depending upon the population and area. The judiciary system of the district consists of District Judge, Additional District Judge and Session Judge, Civil Judge, Assistant Session Judge and Munsif Magistrate.

The Nucleus of the district body for self government is consisted of Mayor and Mukhya Nagar Adhikari (MNA) in the case of Nagar Nigam, Chairman/Executive Officer in Nagar Palika Parishad and Nagar Panchyat. Chairman District Board and Gram Pradhan in Panchayats and Pramukh of Kshetra Samiti etc., come under Local Self-government.

**(iv) Physical Features**

**Location and Size:**

The district comes under administrative control of Commissioner, Lucknow Division. It is bounded by Lucknow and Barabanki on the north, Unnao on the west, Fatehpur on the south and Sultanpur and Pratapgarh on the east. The district lies between latitude 25°49' and 26°36 north and longitude 80°41' and 81°34' east. The southern boundary of the district is formed by river Ganga which separates the district from the district of Fatehpur. The total sprawl of the district in respect of area is 4,609 Sq.Km., which is 1.56 per cent of the area of undivided Uttar Pradesh. The tract of the area occupied by the present district is 285-395 feet above the see level.

**Physiography:**

Rae Bareli district is part of middle Ganga Plain west. The shape of the district is irregular but fairly compact tract of undulating land. The slope in general is from north-west to south-east. The highest points are crowns of watersheds of the different drainage channel. The district is drained by Ganga the Sai and their tributaries, although some of them gain as main stream after passing the confines of the district. Being the part of the Gangetic plain the district shows the geology of recent origin and exposes ordinary Gangetic Alluvium. It is noted for Kankar, Reh and Brick earth deposits. On the basis of geology, soil topography climate and natural vegetation the district is divided in four sub-micro regions.

1. **Ganga flood plain** : It lies along the Ganga river from one to other end of the district. The average width is approximately 10 Kms. It is separated from Dalmau plain by the high land zone extended parallel to Ganga river. Villages are bigger in size and situated on the high bank of the Ganga to protect from flood water. Dalmau is tahsil headquarters and nearby urban centre.
2. **Dalmau Plain** : Another division extends in east-west direction in the southern part of the district. It is high land tract situated in between the Ganga flow limit and Sai catchment. The Loni river originates from a local depression of the area. The slope of the tract is towards south east direction. The main Physio geographic features are numerous Jhils or Tals. It is seen in more frequently in the eastern part than in western part. Some of them are shaped as ox-bow and others are of irregular shape. It is said that existence of such large number of jhils indicate stuffing caused by rivers or river piracy in ancient period. They also form an inland drainage system and serve local requirement of irrigation.
3. **Sai Catchment** :

This region is spread over on both sides of Sai river in width of approximately 25 Kms. The slope of the tract is towards south east. The main physical feature is eroded surface along Sai river, besides sharp bends are also noticed in the course of Sai.

4. **Bachhrawan-Jais Plain** :

This lies in the northern part of the district. It is flat and fertile tract sloping towards south direction. The rivulets join the Sai, originate from depression located here. Although such depressions are common significant, among them are Khaur, Pildah, Mung etc. Geologically this region is alluvial. The settlements in this region are sparsely distributed.

**Drainage** :

The district is drained by Ganga, and Sai. The Ganga touches Gadumau of Saraini in the extreme west and passes out the district through Bahadurganj. Sai river touches Rae Bareli in the extreme north-west cornor near village Rampur, where boundaries of Lucknow , Unnao and Rae Bareli meet. The total course of rive in the district is about 100 Kms. It passes out Rae Bareli at village Khanpur in Salon.

The tributaries of Gang and Loni are Chob and Mathra. The total length of course of river in Rae Bareli district is about 87 Kms. The tributaries of Sai are Kathwara Naiya, Maharajganj Naiya, Nasirabad Naiya, Basoha Sah, Choh and Simrauta Naiya. Among the lakes there are large number of marshes and irregular water courses in the district. They are all dry during hot weather but in years of heavy rainfall, they contribute towards causing floods. Mung Tal, Hanswa, Khaur and Salethu lakes in the northern and Narpatiganj, Jalsen, Bisaiya, and Shamaspur in the southern part are however deeper and narrower than those in the north. All of them contract to very small diversion in the summer season.

**Climate:**

The district lies in the vast Gangetic plain of north India at an elevation of 100 to 120 metres sloping gently to south east. The Sai river flows through the district, while Ganga through its southern boundary. Due to its situation of low elevation and long distance from the sea, the district has hot summer lasting from March to June end. Monsoon comes in the second half of June, though the weather may often remain sultry, rainy season lasts up to half of September and winter sets in November and lasts generally.

There is no metrological observatory in the district for recording temperature. The description it follows is based upon the record of the observatories of the neighbouring districts having similar climate. During the year 1998-99, the maximum temperature was 45.2° and minimum was 3.6° Celsius. The temperature begins to increase rapidly from March. Both day and night temperature continuously rise till the end of May or early June when maximum temperature touches 48° Celsius making it hottest part of the year. With the advent of monsoon during June/July the temperature sharply falls and nights gradually grow cooler. January is the coldest month with temperature of about 23° C in days and 8° C during nights. The district is periodically under-cold waves because of western disturbances. The average annual rainfall was 923 mm and while the actual was 361 mm in 1998. Rain fall is maximum during the month of July-August and mid September. Nearly 60 per cent of the rains occur in July and August. After rains weather becomes humid. Winds are generally light except in summer but during April to June strong hot winds, called loo generally blow from west to east.

**Natural and Economic Resources :**

**Forestry:**

The district was initially crowded by dense forests, which surrounded the strongholds of the Talukedars but with the increase of population, the forests were gradually reclaimed for agricultural purposes. Of the total area of the district, more than 4,918 hect of land was under forests during the year 1997-98. Under social forestry schemes, fruit and non fruit bearing trees have been planted along road sides. The important trees are Dhak, Khair, Babul, Mahua, Sheesham, Neem, Kanji, Siras, Eucalyptus, Mango and Jamun. Groves in the district are mostly of mango and mahua. Wild animals have greatly decreased in number and variety. This has been mainly because of deforestation. Neelgai near Ganga, Jackals, fox, cat, mongoose and other animals are found in the district.

**Minerals and Mining:**

No minerals of importance are found in the district. Reh in abundance is found in user land, which is used by washermen to clean dirty clothes. Sand is obtained from the river Ganga and Sai, which is used for construction of houses and buildings. Lime is produced from Kankar at Jais, Bachhrawan and Maharajganj.

**Soil:**

The type of soil is of mixed variety and varies in different parts of the district. It comprises Kachhar, Domat, Matiyar, stiff clay and loam. In the Kachhar of Ganga, alluvial land is found. The surface of soil changes every year and cultivation of Rabi crop is possible here. The upland nearby to Dalmau and Salon is generally a light loam but often the proportion of the sand is very high. To the north of the upland there is belt of stiff clay interspersed with broad and shallow swamps and usar (Reh) lands primarily in the areas of Lalganj, Rohania and Bhela. In the Ganga upland, the part is inferior and poor, where it is impossilble to raise Rabi without irrigation. The soil in the northern tract of the district is firm or clay.

**Land and Land-use Patterns:**

According to Agricultural Census 1990-91 the total number of land holdings in the district were 415,835, covering an area of 282,147 but small land holdings were relatively much more biger one which was disadvantageous for agriculture. More than 80 per cent of the land holdings were below one hect. 15 per cent between 1 to 2 hects, 4 per cent 2 to 4 hectares and 1 per cent from 4 to 10 hectares. The land use pattern in the district during 1997-98 were forests 4,918 hect. cultivable land 19,715 hect., current fallow 25,046 hect., usar and not fit for cultivation 23,174 hect., other uses 47,091 hects., orchards 3,978 hect., and grove 21,936 hects.

**Agriculture and Crop Pattern:**

The crop pattern of the district is similar to other districts in the plains of the state. Rabi, Kharif and Zaid are three main harvests. The Zaid harvest is comparatively of little importance. Among Kharif crop paddy is most important. The other Kharif crops are Juwar, Bajra, Maize, Kodon and pulses like Arhar, Urad and Moong. Among Rabi crops wheat is most important. It covers on an average one fourth of the total Rabi area in the district. Barley is generally sown in combination with gram. The major non-food crops in the district in both Rabi and Kharif consists of tobacco, oilseeds, ground nut, onion, garlic, potato and other vegetables. The practice of growing different crops by rotation in the same field have been followed in order to increase the fertility of the land. Of the total cultivable land available in the district, the net area sown in the district during 1997-98 was 62.3 per cent.

Agriculture network comprises 284,622 hects. as net sown area, 417,630 hect., gross sown area, area under double crop 133,008 hect., net irrigated area 219,063 hect., gross irrigated area 343,215 hects.,

and net area sown to total area was 62.3 during the year 1997-98. Crop density was 146.7 of the total area sown.

Sankhyakiya Patrika 1998 reveals that the district had the services of 331 seed/fertilser depot., 193 rural godowns, 19 insectiside depot., 7 seed farms, 15 cold storages, 4 agriculture service centres and 5 Krishi Utpadan Mandi Samiti.

**Irrigation:**

The district is on the whole provided with good irrigation facilities, both natural and artificial. The rivers, lakes and ponds have normally sufficient water to irrigate the paddy crop during breaks in the rains and the other cops in winter. These sources are supplemented by wells, canals, tube wells and lift irrigation devices. According to Sankhyakiya Patrika 1998, the district had 2,775 km long canal network, 382 government and 9,460 private tube wells, 2,436 masonry wells and 56,019 pumping sets. The district has the services of Sharda Sahayak Canal network.

The net irrigated area in the district was 77 per cent and proportion of gross irrigated area to gross area sown was 82.2 per cent. Irrigation potential in the district is very rich. Ground water is found at less depth in plenty. Irrigation through canals was 51.2 per cent, tube-wells 48.3 per cent and other sources 0.5 per cent.

**Animal Husbandry:**

Animal husbandry in the district is generally poor. Those of better variety are brought from Kheri, Haryana and Punjab. According to Animal Census 1993 bovines counted to 739,420, buffaloes 307,441, sheep 70,302, goats 248,953 horses and ponies 8,747, pigs 175,867 and others 121,664. Sheep and goats are generally reared by shepherds. Goats are reared for flesh, hide and milk. There are 84 Artificial Insemination Centres improving the breed of cows and buffaloes in the district. Animal husbandry hospitals are 37, Animal Service Centres 63, Sheep Development Centres 12 and 19 Pig Development Centres run by government for the improvement in the breed and variety and also to tackle cattle disease and their treatment.

**Fishery:**

In respect of fisheries, more than 30 kinds of fishes are found in the rivers, lakes and tanks of the district. Rohu, Bhakur, Nain, Karaunch, Bata, Tengra, Parhin and Patra are good for the table. Fishing as a profession is followed by Mallah and Pasis. The Fishery Department distributes fingerlings to the borrowers and fish nurseries for its development in the district.

**Industry:**

Among old time industry, handloom weaving had been important one. The production of metal utensils at Dalmau is also an old industry. As per the statistics of the district, during the year 1998-99 there were 6,652 rural industry and 3,181 small scale industries. Number of large and medium scale in the district and registered under 1948 Factory Act were 129. Out of these, only 42 were operational. Indian Telephone Industries is land mark among large scale industry. Among the small scale industries agricultural implements, general engineering, iron and steel goods, wooden goods, electrical, plastic, footwear, hosiery, lime, oil and soap, confectionery, ice-cream, ayurvedic medicines, biri and ply wood products, mats, baskets, ropes, tanned leather and shoes, pottery are produced in cottage and village industries.

**Trade and Commece:**

In old days trade and commerce was limited to local level but after construction of roads, it has considerably increased. The main items of export are opium, sugar, foodgrain, tobacco, telephone equipments and mustard, ground nut and til oil. The items of import are kerosene, gas, sugar, salt and coal The main market of the district is Rae Bareli town. Almost all the towns and tahsil headquarters have become local trade centres that cater to the demands of the inhabitants of the district. Many trade relations have been developed form neighbouring districts like Kanpur, Lucknow , Allahabad and Varanasi to cater specific items to the city markets.

**Trasnport:**

On transport front, the district is well connected by roads and rails from neighbouring districts. The roads in the district have properly been maintained. The principal roads are Allahabad-Lucknow , Allahabad-Unnao, Lucknow -Varanasi, Rae Bareli-Kanpur and Rae Bareli-Fatehpur. The roads of the district are classified as State highways, local roads and roads belonging to local bodies. The total length of pucca roads in the district is 2,461 Kms. Out of these 1,710 Kms. is under the maintenance of Public Works Department. There were 159 bus stoppage and 176 Kms. of railway lines in the district during the

year 1999-2000. Railway stations figure 25 and one aerodrome is also maintained by State government at Fursatganj.

**Electricity and Power:**

Electricity and power is available in all villages and towns of the district. More than 17 per cent of power is used in domestic, 2.8 in commercial, 24.8 in industries, 1.9 public light, 51.3 per cent in agriculture and 1.4 per cent in public water works. Per-capita consumption of electricity in the district during 1998-99 was 117 kwh. Thermal power plant at Unchahar has started power generation through two units. The power generation at the plant is properly going on.

**Gram Panchayats, its composition, jurisdiction and role in village devlopment:**

A Gram Panchayat acts as the executive of the Gram Saba. It is vital for village development.

**Composition**

The members of the village or Gram Panchayat are elected by the members of the Gram Sabha. The members of the Gram Sabha generally elect a small committee of 7-15 members from among themselves who constitute the village Panchayat. There is 636 Gram Sabhas in the district.

It is necessary that the village Panchayat should have a member belonging to the scheduled caste and also a woman member. If they are not elected, then the government itself appoints two such members. The village Panchayat is the sole body which looks after the various problems of the village and takes steps to improve the conditions of the villagers.

**Its Term**

The new Panchayat Raj act of 1993 has fixed a uniform five year for every Panchayat. It can also he dissolved earlier by the state government, if it fails to perform its duty faithfully. A Sarpanch may be removed from office, if two-third Panchas vote against him but in such a case the sanction of the district authorities must be obtained before hand.

The Panchayat normally meets once in a month. If need be an emergency meeting can also be called by the Sarpanch.

**Qualifications**

In order to be elected to a Village Panchayat, a candidate should possess the following qualifications:

(I) He should be a resident of the village concerned and his name should be in the voter's list of the village.
(II) He should be twenty-five years old.
(III) He should be mentally and physically sound.
(IV) He should not be a proclaimed offender.

**Functions:**

A Gram Panchayat is entrusted with various social economic and Judicial functions.

(1) It provides civic amenities to the people of the village.
(2) It gets a primary school opened in the village and supervise its work.
(3) It looks the cleanliness of the village. Drains for waste water are also provided by the Panchayat in the village.
(4) It gets a Primary Health Centre opened in the village. The Panchayat has also provided land and building for such a centre.
(5) It gets metalled roads build from the village to the nearest road leading to a market place with the help of the Public Works Department of the district.
(6) It arranges for sufficient irrigational facilities, improved seeds, insecticides, chemical manures, improved implements and other such facilities with the help of the Block Development Officer of the area for the uplift of agriculture.
(7) It manages and maintains the common property of the village.
(8) In some states, the Gram Panchayat enjoys also certain judicial powers. It decides petty civil and criminal cases and imposes fine up to Rs.100.

**(v) Census Concepts**

**Building:**

A 'Building' is generally a single structure on the ground. Sometimes it is made up of more than component unit which are used or likely to be used as dwellings (residences) or establishments such as shops, business houses, offices, factories, workshops, work sheds, Schools, places of entertainment,

places of worship, godowns, stores etc. It is also possible that building which have component units may be used for a combination of purposes such as shop-cum-residence, workshop-cum-residence, office-cum-Residence, etc.

Usually a structure will have four walls and a roof. But in some areas the very nature of construction of houses is such that there may not be any wall. Such is the case of conical structures where entrance is also provided but they may not have any walls. Therefore, such of the conical structures are also treated as separate buildings.

**Permanent houses :**

Houses, the walls and roof of which are made of permanent materials. The material of walls can be any one from the following, namely, galvanized iron sheets or other metal sheets, asbestos sheets, burnt bricks, stones or concrete. Roof may be made of from any one of the following materials, namely, tiles, slate, galvanized iron sheets, metal sheets, asbestos sheets, bricks, stones or concrete.

**Semi-permanent houses :**

Houses in which either the wall or the roof is made of permanent material and the other is made of temporary material.

**Temporary houses**

Houses in which both walls and roof are made of materials, which have to be replaced frequently. Walls may be made from any one of the following temporary materials, namely, grass, thatch, bamboo, plastic, polythene, mud, un-burnt bricks or wood. Roof may be made from any one of the following temporary materials, namely, grass, thatch, bamboo, wood, mud, plastic or polythene.

**Room :**

A room should have four walls with a doorway with a roof over head and should be wide and long enough for a person to sleep in, i.e., it should have a length of not less than 2 metres and a breadth of at least 11/2 metres and 2 metres in height. A room, however, which is used in common for sleeping, sitting, dining, storing and cooking, etc., should be regarded as a room. An unenclosed verandah, kitchen, store, garage, cattle-shed and latrine and rooms in which a household industry such as a handloom is located, which are not normally used for living or sleeping are excluded from the definition of a living room for the purpose of this question.

One is likely to come across conical shaped hut or tent in which human beings reside. In such improvised accommodation, there will be no four walls to a room and therefore, the above definition would not strictly apply to such types of accommodation. In such cases, the tent or conical hut etc., have been construed to be a room.- In certain parts of the country, particularly in rural areas, the pattern of housing may present some problems. For example, a household may be in occupation of several huts put to different uses such as main residence, sitting room, store and even for sleeping at night. By strict application of the definition each one will be reckoned as a census house, but this does not reflect the real situation. While huts used as store or cattle shed pose no problems, those used as sleeping rooms beyond the main residence should be counted as rooms rather than separate census houses. If a garage is used by a servant and he lives in it as a separate household, it should be reckoned as a room available to the servant's household. If the servant is considered as a member of the household then the garage room should be reckoned as an additional room of the household.

**Dwelling Room**

A room is treated as a dwelling room if it has walls with a doorway and a roof and should be wide and long enough for a person to sleep in, i.e. it should have a length of not less than 2 meters and a breadth of at least 1.5 meters and a height of 2 meters. A dwelling room would include living room, bedroom, dining room, drawing room, study room, servant's room and other habitable rooms. Kitchen, bathroom, latrine, store room, passageway and verandah which are not normally usable for living are not considered as dwelling rooms. A room, used for multipurpose such as sleeping, sitting, dining, storing, cooking, etc., is regarded as a dwelling room. In a situation where a census houses is used as a shop or office etc., and the household also stays in it then the room is not considered as a dwelling room. But if a garage or servant quarter is used by a servant and if she/ he also lives in it as a separate household then this has been considered as a dwelling room available to the servant's household. Tent or conical shaped hut if used for living by any household is also considered as dwelling room. A dwelling room, which is shared by more than one household, has not been counted for any of them. If two households have a dwelling room each but in addition also share a common dwelling room, then the common room has not been counted for either of the households.

**Census house :**

A 'census house' is a building or part of a building used or recognized as a separate unit because of having a separate main entrance from the road or common courtyard or staircase, etc. It may be occupied or vacant. It may be used for residential or non- residential purpose or both.

In certain peculiar situations, the manner in which buildings and census houses were identified for numbering in the field by the enumerators is described hereunder.

Sometimes a series of different buildings are found along a street which is joined with one another by common walls on either side looking like a continuous structure. These different units are practically independent of one another and are likely to have been built at different times and owned by different persons. In such cases, though the whole structure with all the adjoining units apparently appears to be one building, each portion was treated as a separate building and its constituent units as separate census houses.

On the other hand, one may come across cases, particularly in large cities of multi-storeyed ownership flats. In these cases while the structure looks like one building, different persons own the flats. In case of such multi-storeyed structures, having a number of flats owned by different persons, the entire structure was treated as one building and each flat as a separate census house.

If within a large enclosed area, there are separate buildings owned by different persons then each such building is treated as a separate building. There can be a situation where within an enclosed compound there are separate buildings owned by an undertaking or company or even government that are actually in occupation of different persons. For example, Indian Oil Corporation colony, where the buildings are owned by the Corporation but these are in occupation of their employees. Each such building was treated as a separate building. But if in any one of these buildings there were flats in occupation of different households, each such flat was reckoned as a separate census house.

Sometimes it becomes difficult to apply the definition of census house strictly in certain cases. For example, in an urban area, if a flat has five rooms, each room having direct entrance from the common staircase or courtyard. By definition, this has to be treated as five census houses. If all these five rooms are occupied by a single household it was not realistic to treat them as five census houses. In such a case, 'singleness' of use of these rooms along with the main house should be considered and the entire flat was treated as one census house. On the other hand, if two independent households occupy these five rooms, the first household living in 3 rooms and the second household occupying 2 rooms, then considering the use, the first three rooms together were treated as one census house and the remaining rooms as another census house. But if each room was occupied by an independent household, then each such room was treated as a separate census house.

In case of hostels, hotels, etc., even if the door of each room in which an inmate lives opens to a common verandah, staircase, courtyard or a common room, as it happens almost invariably, the entire hostel/ Hotel building was treated as one census house but if such hostels/hotels have out-houses or other structures used for different purposes or the same purpose, then each such structure attached to the main hostel / hotel was treated as a separate census house.

In some parts of the country, in rural areas, the pattern of habitation is such that a group of huts, located in a compound, whether enclosed or unenclosed, is occupied by one household. While the main residence may be located in one hut, other huts may be used for sleeping, as a kitchen, bath room, baithak, etc. Though each of the huts was a separates structure, they form a single housing unit and therefore, have to be treated collectively as one building and one census house. If some of the huts are used by one household and the others by a second household as residence, then the two groups of huts were treated as separate census houses. However, if there were also other huts in the compound used for other purposes and not as part of the household's residence such as, cattle shed, work shed, etc., these were treated as separate census houses.

On the other hand, in urban areas, where more than one structure within an enclosed or open compound (premises) belonging to the same person, e.g., the main house, the servant's quarter, the garage, etc., only one building number was given for this group and each of the constituent a separate census house number

Only cases where a structure with roof and pillars has come up was treated as a building.

**Village-**

The basic unit for rural areas is the revenue village, which has definite surveyed boundaries. The revenue village may comprise of one or more hamlets but the entire village is treated as one unit for

presentation of data. In un-surveyed areas, like villages within forest areas, each habitation area with locally recognized boundaries is treated as one village.

**Rural-Urban area**

The data in tables on Houses, Household Amenities and Assets are presented separately for rural and urban areas. The unit of classification in this regard is 'town' for urban areas and 'village' for rural areas. In the Census of India 2001, the definition of urban area adopted is as follows:

a) All places with a municipality, corporation, cantonment board or notified town area committee, etc.

b) A place satisfying the following three criteria simultaneously:

i) A minimum population of 5,000;

ii) At least 75 per cent of male working population engaged in non-agricultural pursuits; and

iii) A density of population of at least 400 per sq. km, (1,000 per sq. mile).

For identification of places which would qualify to be classified as 'urban' all villages, which, as per the 1991 Census had a population of 4,000 and above, a population density of 400 persons per sq. km. and having at least 75 per cent of male working population engaged in non-agricultural activity were considered. To work out the proportion of male working population referred to above against b) (ii), the data relating to main workers were taken into account.

Apart from these, the outgrowths (OGs) of cities and towns have also been treated as urban under 'Urban Agglomerations'. Examples of out-growths are railway colonies, university campuses, port areas, military camps, etc., that may have come up near a statutory town or city but within the revenue limits of a village or villages contiguous to the town or city. Each such individual area by itself may not satisfy the demographic criteria laid down at (b) above to qualify it to be treated as an independent urban unit but may deserve to be clubbed with the towns as a continuous urban spread. Thus, the town level data, wherever presented, also includes the data for outgrowths of such towns.-

**City :**

Towns with population of 1, 00,000 and above are called cities.

**Urban Agglomeration**

An Urban Agglomeration is a continuous urban spread constituting a town and its adjoining urban outgrowths (OGs) or two or more physically contiguous towns together and any adjoining urban outgrowths of such towns. In some cases railway colonies, university campuses, port areas, etc., may come up near a city or statutory town outside its statutory limits but within the revenue limits of a village or villages contiguous to the town or city. Each such individual area by itself may not satisfy the minimum population limit to qualify it to be treated as an independent urban unit but may deserve to be clubbed with the town as a continuous urban spread.

-For the purpose of delineation of Urban Agglomerations during Census of India 2001, following criteria are taken as pre-requisites:

(a) The core town or at least one of the constituent towns of an urban agglomeration should necessarily be a statutory town; and

(b) The total population of all the constituents (i.e., towns and outgrowths) of an Urban Agglomeration should not be less than 20,000 (as per the 1991 Census).

With these two basic criteria having been met, the following are the possible different situations in which Urban Agglomerations would be constituted:

i) A city or town with one or more contiguous outgrowths;

ii) Two or more adjoining towns with their outgrowths and

iii) A city and one or more adjoining towns with their outgrowths all of which form a continuous spread.

**Household**

A 'household' is usually a group of persons who normally live together and take their meals from a common kitchen unless the exigencies of work prevent any of them from doing so. Persons in a household may be related or unrelated or a mix of both. However, if a group of unrelated persons live in a census house but do not take their meals from the common kitchen, then they are not constituent of a common household. Each such person was to be treated as a separate household. The important link in finding out whether it was a household or not was a common kitchen. There may be one member households, two member households or multi-member households.

**Institutional household :**

A group of unrelated persons who live in an institution and take their meals from a common kitchen is called an Institutional Household. Examples of Institutional Households are boarding houses,

messes, hostels, hotels, rescue homes, jails, ashrams, orphanages, etc. To make the definition more clearly perceptible to the enumerators at the Census 2001, it was specifically mentioned that this category or households would cover only those households where a group of unrelated persons live in an institution and share a common kitchen.-

**Houseless household :**

Households who do not live in buildings or census houses but live in the open on roadside, pavements, in hume pipes, under flyovers and staircases, or in the open in places of worship, mandaps, railway platforms, etc., are treated as Houseless Households.

**Scheduled Caste and Scheduled Tribe**

Article 341 of the Constitution provides that the President may, with respect to any State or Union territory, specify the castes, races or tribes or parts of or groups within castes, races or tribes which shall for the purposes of the Constitution be deemed to be Scheduled Castes in relation to that State or Union territory. Article 342 similarly provides for specification of tribes or tribal communities or parts of or groups within tribes or tribal communities which are to be deemed for the purposes of the Constitution to be Scheduled Tribes in relation to the various States and Union territories. In pursuance of these provisions, the list of Scheduled Castes and / or Scheduled Tribes are notified for each State and Union territory and are valid only within the jurisdiction of that State or Union territory and not outside.

It is important to mention here that under the Constitution (Scheduled Castes) Order, 1950, no person who professed a religion different from Hinduism was deemed to be a member of a Scheduled Caste in addition to every member of the Ramdasi, Kabirpanthi, Majhabi or Sikligar caste resident in Punjab or Patiala and East Punjab States Union were in relation to that State whether they professed the Hindu or the Sikh religion. Subsequently, in September 1956, by an amendment, the Presidential Order of 1950 and in all subsequent Presidential Orders relating to Scheduled Castes, the Hindu and the Sikh religions were placed on the same footing with regard to the specification of Scheduled Castes. Later on, as per the amendment made in the Constitution (Scheduled Castes) Order 1990, the Hindu, the Sikh and the Buddhist were placed on the same footing with regard to the recognition of the Scheduled Castes.

The list containing the names of the Scheduled Castes and the Scheduled Tribes applicable for the Census of India 2001 in the State are given below:

**Scheduled Castes :**

| | | | |
|---|---|---|---|
| 1 | Agariya | 2 | Badi |
| 3 | Baiga | 4 | Balahar |
| 5 | Bajaniya | 6 | Baiswar |
| 7 | Balmiki | 8 | Bajgi |
| 9 | Banmanus | 10 | Balai |
| 11 | Barwar | 12 | Bangali |
| 13 | Bawariya | 14 | Bansphor |
| 15 | Beriya | 16 | Basor |
| 17 | Bhuiya | 18 | Beldar |
| 19 | Boria | 20 | Bhantu |
| 21 | Badhik | 22 | Bhuyiar |
| 23 | Baheliya | 24 | Chero |
| 25 | Chamar, Dhusia, Jhusia, Jatawa | 26 | Dharkar |
| 27 | Dabgar | 28 | Dom |
| 29 | Dhanuk | 30 | Dusadh |
| 31 | Dhobi | 32 | Domar |
| 33 | Dhangar | 34 | Gharami |
| 35 | Gond | 36 | Gual |
| 37 | Ghasiya | 38 | Habura |
| 39 | Hari | 40 | Hela |
| 41 | Kanjar | 42 | Korwa |
| 43 | Karwal | 44 | Kalabaz |
| 45 | Kharwar (excluding Banbasi) | 46 | Kapariya |
| 47 | Kol | 48 | Khairaha |
| 49 | Khorot | 50 | Khatik |
| 51 | Kori | 52 | Lalbegi |

| | | | |
|---|---|---|---|
| 53 | Majhwar | 54 | Mazhabi |
| 55 | Musahar | 56 | Nat |
| 57 | Parahiya | 58 | Pankha |
| 59 | Patari | 60 | Pasi, Tarmali |
| 61 | Rawat | 62 | Shilpkar |
| 63 | Sansiya | 64 | Saharya |
| 65 | Sanaurhiya | 66 | Turaiha |

**Scheduled Tribes**

| | | | |
|---|---|---|---|
| 1 | Bhotia | 2 | Buksa |
| 3 | Jaunsari | 4 | Raji |
| 5 | Tharu | | |

**Language and Mother tongue :**

As per the census concept, each language is a group of mother tongues. The census questionnaire collects information on the mother tongue of each person and mother tongue is defined as the language spoken in childhood by the person's mother to the person. If the mother died in infancy, the language mainly spoken in the person's home in childhood will be the mother tongue. In the case of infants and deaf mutes, the language usually spoken by the mother is considered as mother tongue. It is not necessary that the language spoken as mother tongue should have a script. The mother tongues returned by the respondents in census are classified and grouped under appropriate languages according to their linguistic characteristics.-

**Literate :**

A person age 7 years and above who can both read and write with understanding in any language is taken as literate. A person who can only read but cannot write is not literate. It is not necessary that to be considered as literate, a person should have received any formal education or passed any minimum educational standard. Literacy could also have been achieved through adult literacy classes or through any non-formal educational system. People who are blind and can read in Braille are treated as literates.

**Literacy rate:**

Literacy rate of the population is defined as the percentage of literates in the age group seven years and above. For different age groups the percentage of literates in that age group gives the literacy rate.

**Educational level**

The highest level of education a person has completed.

**Work :**

Work is defined as participation in any economically productive activity with or without compensation, wages or profit. Such participation may be physical and/or mental in nature. Work involves not only actual work but also includes effective supervision and direction of work. It even includes part time help or unpaid work on farm, family enterprise or in any other economic activity. All persons engaged in 'work' as defined above are workers. Persons who are engaged in cultivation or milk production even solely for domestic consumption are also treated as workers. Reference period for determining a person as worker and non-worker is one year preceding the date of enumeration.

**Main worker:**

A person who has worked for major part of the reference period ( i.e. six months or more during the last one year preceding the date of enumeration) in any economically productive activity is termed as 'Main worker'.

**Marginal worker :**

A person who worked for less than six months of the reference period (i.e. in the last one year preceding the date of enumeration) in any economic activity is termed as 'Marginal worker'.-

**Non worker :**

A person who has not worked at all in any economically productive activity during the reference period (i.e. last one year preceding the date of enumeration) is termed as 'Non worker'.-

**Cultivator :**

For purposes of the Census a person is classified as cultivator if he or she is engaged in cultivation on land owned or held from government or held from private persons or institutions for payment in money, kind or share. Cultivation includes effective supervision or direction in cultivation.

A person, who has given out her/his land to another person or persons or institution(s) for cultivation for money, kind or share of crop and who does not even supervise or direct cultivation in exchange of land, is not treated as cultivator. Similarly, a person working on another person's land for wages in cash or kind or a combination of both (agricultural labourer) is not treated as cultivator.

-Cultivation involves ploughing, sowing, harvesting and production of cereals and millet crops such as wheat, paddy, jowar, bajra, ragi, etc. and other crops such as sugarcane, tobacco, groundnuts, tapioca, etc. and pulses, raw jute and kindred fiber crop, cotton, cinchona and other medicinal plants, fruit growing, vegetable growing -or keeping orchards or groves, etc. Cultivation does not include the following plantation crops – tea, coffee, rubber, coconut and betel nuts (areca).

**Agricultural labourer-**

A person who works on another person's land for wages in money or kind or share is regarded as an agricultural labourer. She/he has no risk in the cultivation, but merely works on another person's land for wages. An agricultural labourer has no right of lease or contract on land on which she/he works.-

**Household industry worker :**

Household industry is defined as an industry conducted by the head of the household herself/himself and or by the members of the household at home or within the village in rural areas and only within the precincts of the house where the household lives in urban areas. The larger proportion of workers in household industry should consist of members of the household including the head. The industry should not be run on the scale of a registered factory which would qualify or has to be registered under the Indian Factories Act and should be engaged in manufacturing, processing, servicing and repairs of goods.

It does not include professions such as a pleader, Doctor, Musician, Dancer, Waterman, Astrologer, Dhobi, Barber, etc. or merely trade or business, even if such professions, trade or services are run at home by members of the household.

**Other worker :**

A person who has been engaged in some economic activity during the reference period but not as a cultivator or agricultural labourer or in Household Industry is termed as a 'Other Worker (OW)'. The type of workers that come under this category of 'OW' include all government servants, municipal employees, teachers, factory workers, plantation workers, those engaged in trade, commerce, business, transport, banking, mining, construction, political or social work, priests, entertainment artists, etc. In effect, all those workers other than cultivators or agricultural labourers or household industry workers, are 'Other Workers'.

**Work participation rate**

Percentage of workers (main + marginal) to total population.

**Population density :**

Population density is the number of persons inhabited per square kilometer of the area.-

**Age :**

Age is measured in terms of the completed number of years.

**Sex-ratio**

Number of females per 1,000 males in a population.

**(vi) Non Census Concepts**

**Improved drinking water :**

If the household had access to drinking water supplied from a tap, hand pump, tube well or well (protected or covered) situated within or outside the premises, it is considered as having access to improved drinking water.

It may be mentioned that such uniform definition may not be valid across all states.

**System of Sewerage :**

Generally, a sewerage system would mean a network of mains and branches of underground conduits for the conveyance of sewerage to the point of disposal. Sewers that carry only household and industrial wastage are called separate sewers; those that carry storm water from roofs, streets and other surfaces are known as storm water drains, while those carrying both sewage and storm water are called

combined sewers. However, in some towns which are not provided with such underground sewerage system, it is served by open surface drain, box drain, sylk pattern drain, etc., in these towns.

**Type of latrine and method of disposal of night soil.**

There are three prevalent systems of disposal of human wastes, viz. (i) underground sewerage, (ii) sanitary water flush latrines with individual disposal systems, like septic tank, leaching cess pool and collecting well, and (iii) dry type of latrines with manual scavenging.

The system of underground sewerage provides for the street sewerage with which are connected the sanitary latrines constructed in the houses having water closets and fitted with flushing cistern (or hand flushing). Through this sewer the faecal matter is transported without the need for scavenging. This system generally exists in cities and big towns.

Where the streets sewer does not exist these sanitary water flush latrines are connected to a local septic tank with a sub-soil dispersion system or a leaching pit. Here the liquid wastes from the water closet is disposed of locally in leaching pit, a septic tank with a soil dispersion system is constructed. This dispersion requires an optimum travel through the pores of the soil which renders the harmful liquid bacterially innocuous by the slow process of filteration through the soil traversed.

Where the soil is impermeable, collecting wells are constructed and the sanitary water flush latrines are connected with them. These wells are cleaned at periodic intervals by a suitable device. The dry type of latrines are of service type latrines from where human excreta is removed by scavengers from house to house, in most cases carrying it on their heads or shoulders or in baskets with handle or wheel barrows. These are then collected in bullock carts or trucks or tractors and trolleys for being carried to the dumping grounds.

**Fertility :**

In demography, the word fertility is used in relation to the actual production of children or occurrence of births specially live births. Fertility is a measure of rate at which population adds to itself by births and normally assessed by relating the number of births to a full or part of the population, such as number of married women or number of women of child bearing age. The definitions of the terminology used in computing different fertility rates are mentioned below:

**Crude birth rate (CBR)**

Ratio of the number of live births in a year to the mid year population, normally expressed per 1,000 population.

$$\text{CBR} = \frac{\text{Number of live births during the year}}{\text{Mid–year Population}} \times 1{,}000$$

Crude death rate (CDR)

Ratio of the number of deaths in a year to the mid year population, normally expressed per 1,000 population.

$$\text{CDR} = \frac{\text{Number of deaths during the year}}{\text{Mid-year Population}} \times 1{,}000$$

**Natural growth rate-**

Growth rate is obtained as the difference between crude birth rate and crude death rate in the absence of migration.

**Age specific fertility rate (ASFR)**

Number of live births in a year to female population in any specified age group normally expressed per 1,000 women.

$$\text{ASFR} = \frac{\text{Number of live births in a particular age-group}}{\text{Mid-year female population of the same age-group}} \times 1{,}000$$

**Age specific marital fertility rate (ASMFR)**

Number of live births in a year to married female population in any specified age group normally expressed per 1,000 married women.

$$\text{ASMFR} = \frac{\text{Number of live births in a particular age-group-}}{\text{Mid-year married female population of the same age-group}} \times 1{,}000$$

**General fertility rate (GFR)-**

Number of live births per 1,000 women in the reproductive age-group (15-49) years in a given year.

$$GFR = \frac{\text{Number of live births in a year}}{\text{Mid-year female population in the age-group (15-49) years}} \times 1{,}000$$

**General marital fertility rate (GMFR)**

Number of live births per 1,000 married women in reproductive age-group (15-49) years in a given year.

$$GMFR = \frac{\text{Number of live births in a year}}{\text{Mid-year married female population in the age-group (15-49) years.}} \times 1{,}000$$

**Total fertility rate (TFR)**

It is obtained as the total of the age specific fertility rates (number of children born per woman of the particular age) for the entire reproductive age span. It provides the average number of children that will be born to a woman under the fertility levels indicated by the age specific fertility rates assuming that there is no mortality of women till the completion of reproductive period.

$$TFR = \frac{5 \times \sum_{15\text{-}19}^{45\text{-}49} ASFR}{1{,}000}$$

**Total marital fertility rate (TMFR)**

Average number of children that would be born to a married woman if she experiences the current fertility pattern throughout her reproductive span (15-49) years assuming that there is no mortality of women till the completion of reproductive period.-

$$TMFR = \frac{5 \times \sum_{15\text{-}19}^{45\text{-}49} ASMFR}{1{,}000}$$

**Age-specific mortality rate (ASMR)**

Number of deaths in a particular age and sex group per 1,000 population of the same age group.

$$ASMR = \frac{\text{Number of deaths in a particular age-group}}{\text{Mid-year population of the same age-group}} \times 1{,}000$$

**q1**

Probability of dying between birth and age 1 This can be used as approximate value of Infant Mortality Rate (IMR) which gives the ratio of number of deaths in a year of children aged less than one year to the number of births in that year.

**q2-**

Probability of dying between birth and age 2

**q5-**

Probability of dying between birth and age 5. This indicator is also known as Under Five Mortality Rate (U5MR) -

**Infant mortality rate (IMR)**

Ratio of the number of infant deaths (deaths of children below one year) in a year to the number of live births in that year.

$$IMR = \frac{\text{Number of infant deaths during the year}}{\text{Number of live births during the year}} \times 1{,}000$$

Infant mortality rate comprises of two parts, viz., Neo-natal mortality rate and Post neo-natal mortality rate. The neo-natal mortality rate also comprises of two parts viz., early neo-natal mortality rate and late neo-natal mortality rate. These are defined as.

**Neo-natal mortality rate (NMR)**

Number of infants dying within the first month of life (28 days or under) in a year per 1,000 live births of the same year.

$$\text{NMR} = \frac{\text{Number of infant deaths aged 28 days or under during the year}}{\text{-Number of live births during the year}} \times 1{,}000$$

**Early neo-natal mortality rate**

$$= \frac{\text{Number of infant deaths of less than 7 days during the year}}{\text{Number of live births -during the year}} \times 1{,}000$$

**Late neo-natal mortality rate**

$$= \frac{\text{Number of infant deaths of 7 days to less than 29 days during the year}}{\text{Number of live births during the year}} \times 1{,}000$$

**Post neo-natal mortality rate (PNMR)**

$$= \frac{\text{Number of deaths of 29 days to less than- One year during the year}}{\text{Number of live births -during the year}} \times 1{,}000$$

**Peri-natal mortality rate (PMR)**

Number of still births plus deaths within 1st week of delivery per 1,000 births in a year.

$$\text{PMR} = \frac{\text{Number of still births and infant deaths of less than 7 days during the year}}{\text{Number of live births and still births during the year}} \times 1{,}000$$

**Still birth rate (SBR)**

$$= \frac{\text{Number of still births during the year}}{\text{Number of live births and still births during the year}} \times 1{,}000$$

**Maternal mortality rate (MMR)**

Number of deaths of women in the age group 15-49 while pregnant or within 42 days of termination of pregnancy from any cause related to pregnancy and child birth per 100,000 live births in a given year.

$$\text{MMR} = \frac{\text{Number of maternal deaths to women in the age group 15-49}}{\text{Number of live birth}} \times 100{,}000$$

Eligible couple (Couples per 1,000 Population)

Number of currently married females in the age group 15-44 years per 1,000 persons of all ages.

Child woman ratio (0-4)

1. Number of children in the age group 0-4 years per 1,000 women in the age group 15-49 years.

Child woman ratio (5-9)

2. Number of children in the age group 5-9 years per 1,000 women in the age group 15-49 years.

**Migration**

Migration is the third component of population change, the other two being mortality and fertility.

A person is considered as a migrant by place of birth if the place in which he/she is enumerated during the census is other than the place of his/her birth.

Similarly a person is considered as a migrant by place of last residence if the place in which he/she is enumerated during the census is other than his/her place of immediate last residence outside the village or town and not simply in another house or locality in the same village or town.

Certain aspects concerning temporary movement/ migration of people has been explained below as these are important components concerning migration:

(i) Migration of persons in search of job is high in the country. In many cases such migrants are only seasonal in nature. People migrate to other places for work in a particular season and come back again to their usual place of residence after three or four months. All such workers are treated as migrants. Similarly, if a person moved to any other place for attending short term vocational or educational course that lasted for only few months of a year, she/he too were considered as a migrant.

(ii) Where a person had merely gone out to another place or had been shifting from one place to another purely on tour, pilgrimage, visit to hospital for treatment or for temporary business purposes, such persons are not deemed to have had another residence different from the place where she/he or her/his family normally resides. She/he is not considered as migrant.

(iii) A woman temporarily moves into a hospital or to her parents or other relative's house for delivery and if the hospital or the parents/relatives houses is in a place different from usual place of residence, the place where the hospital or parents/relative's house is the place of last residence of the child but not of the mother.

A new response category 'Moved after birth' was added in Census of India 2001 in the question on 'reasons for migration' to bring out additional migration patterns. Natural calamities or distress migration as a reason for migration for last residence migrants included in 1991 Census, is covered under category of 'Others'. The reason for migration has been determined as applicable at the time of migration and not in reference to any point of time after that. For example, if a person had moved from the place of her/his last residence for the purpose of education and subsequently at some point of time got employment there only, the reason for migration would be 'education' and not 'work/employment'.

**Internal and International migration**

The migrational movements are of three types (i) Migration within the state itself with its components (a) Migration within the district of enumeration (intra district migration) (b) Migration from one district of state to another district of state (inter district migration), (ii) Migration from one state to another State of the country (inter-state migration), (iii) Migration from one country to another country. The first two streams together constitute internal migration, while the last type of movement is called international migration. The present name of the country, state or district and not the name by which they were known at the time of her/his birth or last residence were recorded.

**Rural-Urban components of migration**

Rural or Urban status in respect of migrants have been determined as applicable at the time of migration and not with reference to any point of time after that.

**(vii) 2001 Census finding**

**Population Distribution:**

The total population of the district is 2, 872, 335 in which 2,598,337 live in rural and rest 273,998 in urban parts. There are 7 tahsils in district namely Maharajganj, Tiloi, Rae Bareli, Lalganj, Dalmau, Unchahar, and Salon. The most populous tahsil is Rae Bareli followed by Lalganj, Dalmau is least populated tahsil. The urban population in the district is 9.5 per cent. The proportion of urban population is maximum at 23.7 per cent in Rae Bareli tahsil. There were 1,773 revenue villages and among them 40 are un-inhabited. The total rural population of district is spread over 21 CD blocks and 1,733 inhabited villages. The most populous CD Block is Salon with a population of 184,130 but the maximum number of inhabited villages 148 are in Sareni CD Block. More than half of populated villages have a population in the size of 500 and 1,999 and such villages form as high as 56.9 per cent of total populated villages. Although the population density in the rural district is 573 highest proportion (66.7) of villages are with a population density range of 501 per square kilometre. Such villages contain as much as 76.6 per cent of total rural population.

**Size-class and status of towns:**

In the total urban population of district Rae Bareli highest population live in Rae Bareli NPP (169,333) the next big town is Jais NPP with a population of 24,363. The above two are class I and III towns having the civic status of Nagar Palika Parishad (NPP). Rest 7 towns are Nagar Panchayat (NP) out of which one town is class III, 2 towns are class IV, and 4 are class V towns, Maharajganj and Salon tahsil 7 contains 2 towns, while 5 tahsils have one town each.

**Population growth:**

At the present territorial jurisdiction, the population of the district was 2,309,928 at 1991 Census and growing by 24.3 per cent during the decade 1991-2001, it is 2,872,335 at 2001 Census. The decadal growth at 24.3 per cent in the district has been at lower level than in the state at 25.8 per cents.

**Population Density:**

The district has area of 4,609 square kilometre. The population density in the district is 623. In the rural areas of the district the density is 573.

**Sex-Ratio:**

The sex-ratio in the district at 951 is way ahead to 898 at the state level. Indeed the sex-ratio at the district has all along been higher in the district as against to the state since 1901. As against to urban

areas of the district the sex-ratio is higher in rural areas. Among tahsils, highest sex-ratio is in Lalganj (977) and lowest in Maharajganj (924). Among CD Blocks the sex-ratio is highest in Sareni at 987 and lowest in Bachhrawan at 906. Out of 1,733 inhabited villages in the district there are 47.1 per cent villages (with 50.0 per cent of rural population), which are having a sex-ratio below 949. In the urban parts of the district the sex-ratio is 914 and highest of 958 is in salon (NP) and lowest of 905 in Rae Bareli (NPP). The sex-ratio of population on the age-group 0-6 is 941 in the district. As against a sex-ratio of 943 in the age-group 0-6 of rural population of the district, it is highest at 968 in Bahadurpur Block and lowest at 914 in Bachhrawan CD Block. It may be noted that out of 1,733 inhabited villages in the district in over 19.4 per cent of villages with 19.8 per cent of rural population the sex-ratio in the age-group 0-6 is between 1,000-1,099 As against the 0-6 age-group sex-ratio of 943 in the rural area of the district is 919 in urban. Among towns this sex-ratio is highest at 993 in Unchahar (NP) and lowest at 891 in Lalganj (NP).

**Work Participation Rate:**

In the total population of the district as much as 35.6 per cent are workers and rest of 64.4 per cent are non-worker. Among workers 23.0 per cent are main workers and rest of 12.6 per cent are marginal workers of total population. In absolute terms males outnumber females as main worker but reverse trend is visible in marginal workers. The extent of main workers is highest at 24.8 per cent in Maharajganj tahsil and lowest at 21.0 per cent in Lalganj tahsil. In case of marginal workers the percentage is highest in Salon tahsil as 14.9 per cent in comparison to only 10.7 per cent in Rae Bareli tahsil. The extent of workers in rural parts and non-workers in urban parts is higher. In the district among workers 43.0 per cent are cultivators and 18.4 per cent other workers. Over 33.0 per cent of female workers are engaged as cultivators.

**Literacy:**

In the district 53.8 per cent population is literate. The literacy is 72.8 per cent in urban areas and 51.7 per cent in rural areas. The male literacy is high at 67.6 per cent as against 39.3 per cent female literacy, and therefore, the gap in male/female literacy rate is 28.3 percentage points. In rural areas among 21 CD Blocks, the highest literacy is at 66.2 per cent in Sareni and lowest at 41.1 per cent in Bahadurpur. The literacy among males in rural areas is 66.2 per cent in comparison to 36.5 per cent among females. The lowest female literacy of 25.4 per cent is in Bahadurpur CD Block. The gap in male/female literacy rate is highest in Dalmau CD Block, which is 31.8 percentage points. In 31.2 per cent of villages covering also 33.7 per cent of rural population the literacy range is 51 to 60. Among urbanites in the district, as much as 80.1 per cent males are literates as against 64.9 per cent females. The highest urban literacy is in Lalganj 80.3 per cent and lowest in Jais (NPP) at 49.2 per cent. The maximum male literacy is also found in Lalganj (NP) at 87.6 per cent and lowest at 59.1 per cent in Jais (NPP). However, the highest female literacy is in Lalganj at 72.4 per cent and lowest at 38.5 per cent in Jais (NPP). Still, the maximum gap in male-female literacy rate at 22.4 percentage points is found in Dalmau (NP). The literacy among Scheduled Castes is 38.3 per cent, in the countryside it is 53.6 per cent in towns. There is no percentage of literacy for Scheduled Tribes at district level. Only 29.2 per cent Scheduled Tribe population in rural areas and 67.0 per cent urban population are literates of population found only in Rae bareli (NPP) is literate.

**(viii) Brief analysis of PCA data based on inset tables :**

The district throws up an vivid picture of its population at the 2001 Census. A few of the peculiar characteristics of the population is being highlighted through the following inset tables.

**TABLE 1**
**DECADAL CHANGE IN POPULATION OF TAHSILS BY RESIDENCE, 1991-2001**

| Serial number | Tahsil | Population | | | | | | Percentage decadal variation 1991-2001 | | | Percentage urban population | |
|---|---|---|---|---|---|---|---|---|---|---|---|---|
| | | 1991 | | | 2001 | | | | | | 1991 | 2001 |
| | | Total | Rural | Urban | Total | Rural | Urban | Total | Rural | Urban | | |

| 1 | Maharajganj | | | | 364,944 | 347,036 | 17,908 | | | | | 4.9 |
| 2 | Tiloi | | | | 404,188 | 379,825 | 24,363 | | | | | 6.0 |
| 3 | Rae Bareli | | | | 714,790 | 545,457 | 169,333 | | | | | 23.7 |
| 4 | Lalganj | | N.A. | | 451,367 | 430,225 | 21,142 | | | N.A. | | 4.7 |
| 5 | Dalmau | | | | 250,626 | 241,590 | 9,036 | | | | | 3.6 |
| 6 | Unchahar | | | | 272,001 | 262,713 | 9,288 | | | | | 3.4 |
| 7 | Salon | | | | 414,419 | 391,491 | 22,928 | | | | | 5.5 |
| | **District Total:** | **2,309,928** | **2,100,016** | **209,912** | **2,872,335** | **2,598,337** | **273,998** | **24.3** | **23.7** | **30.5** | **9.1** | **9.5** |

The growth rate of in the district for total, rural and urban areas and percentage of urban population to total population is given in table. The decadal growth rate of the district is 24.3 per cent during 1991-2001. The growth rates for rural and urban areas of the district are 23.7 and 30.5 per cent respectively. Out of the total population of the district 90.5 per cent lives in rural areas while 9.5 per cent lives in urban areas of the district. The proportion of urban population has slightly increased during the decade from 9.1 per cent in 1991 to 9.5 per cent in 2001 in the district. The highest proportion of urban population is recorded in Rae Bareli (23.7) per cent and lowest is registered in Unchahar (3.4) per cent tehsil. Urban population is concentrated in Rae Bareli tahsil, while in other tahsil the percentage is very low.

**TABLE 2: NUMBER AND PERCENTAGE OF INHABITED VILLAGES IN SPECIFIED POPULATION SIZE RANGES WITH THE RELATED POPULATION , 2001**

| Sl. No. | District / CD block | Total number of inhabited villages | Total rural population | | | Number and percentage of villages | Population less than 200 | |
|---|---|---|---|---|---|---|---|---|
| | | | Persons | Males | Females | | Males | Females |
| 1 | 2 | 3 | 4 | 5 | 6 | 7 | 8 | 9 |
| 1 | Bachhrawan | 66 | 131,958 | 69,215 | 62,743 | 0 (0.0) | 0 | 0 |

Table-2 gives CD block-wise population, number and percentage of villages falling in each range of population size of villages and number of males and females in each population range at CD block level in the district. Out of the 1733 inhabited villages, 82 villages (4.7 per cent) are small size villages with population below 200 persons. In the size of 200 to 499 persons there are 281 villages having 16.2 per cent villages of the district while in the size class of 500-999 population claims 474 villages with 27.4 per cent of the total villages in the district. 511 villages (29.5 per cent) are in the size class of 1,000-1,999 and 317 villages (18.3 per cent) are in the size class of 2,000-4,999. Sixty villages in the district fall in the ranges of 5,000 to 9,999 population. There are also 8 villages (0.5 per cent) which have population of 10,000 and above.

**TABLE 3 : NEW TOWNS, DE-NOTIFIED, DECLASSIFIED AND MERGED TOWNS IN 2001 CENSUS**

| Name of town |
|---|
| 1 |

(a) New

( i ) Statutory town

NIL

( ii ) Census town

NIL

(b) Denotified

(i) Statutory towns of 1991 census denotified and also did not satisfy the criteria to be treated as census towns.

NIL

(ii) Statutory towns of 1991 census denotified but identified as census towns based on demographic and economic criteria.

NIL

(iii) Census towns of 1991 census are notified as statutory town in 2001 census.

NIL

(c) Declassified

NIL

(d) Wholly merged with other town(s)

NIL

**Declassified means the census towns of 1991 census which failed to satisfy the demographic and economic criteria.*

During the decade 1991-2001, no new town has been added or declassified or merged with other town in the district.

**Table 4: DISTRIBUTION OF VILLAGES BY POPULATION DENSITY, 2001**

| Range of population density (per square kilometer) | Total number of villages in each population density range | Percentage of villages in each population density range | Population | Percentage distribution of population |
|---|---|---|---|---|
| 1 | 2 | 3 | 4 | 5 |
| 0-10 | 62 | 3.6 | 76,326 | 2.9 |
| 11-20 | 3 | 0.2 | 51 | 0.0 |
| 21-50 | 7 | 0.4 | 3,440 | 0.1 |
| 51-100 | 11 | 0.6 | 1,901 | 0.1 |
| 101-200 | 35 | 2.0 | 12,954 | 0.5 |
| 201-300 | 60 | 3.5 | 36,434 | 1.4 |
| 301-500 | 399 | 23.0 | 477,105 | 18.4 |
| 501 + | 1,156 | 66.7 | 1,990,126 | 76.6 |
| Not known | 0 | 0.0 | 0 | 0.0 |
| **District Total:** | **1,733** | **100.0** | **2,598,337** | **100.0** |

The table 4 shows the distribution of villages by population density ranges. The inhabited villages of the district have been grouped under eight different ranges of density. The maximum number of village i.e. 1,156 accounting for 66.7 per cent of the total inhabited villages of the district fall in the density range of 501+ persons having 76.6 per cent population. The lowest ranges of 0-10 persons per sq. km. cover 62 villages (3.6 per cent). In population density range of 11 to 20 it is 3 villages or 0.2 per cent of the total inhabited villages having 51 persons with zero per cent population of the district. In the medium density ranges of 21 to 50 and 51-100 persons accounting for 0.4 and 0.6 per cent of inhabited villages respectively. Both these ranges claim 0.2 per cent of rural population.

**TABLE 5: SEXRATIO OF STATE AND DISTRICT 1901-2001**

| | UTTAR PRADESH | | | RAE BARELI | | |
|---|---|---|---|---|---|---|
| | Total | Rural | Urban | Total | Rural | Urban |
| 1 | 2 | 3 | 4 | 5 | 6 | 7 |
| 1901 | 938 | 941 | 916 | 1026 | 1028 | 997 |
| 1911 | 916 | 922 | 866 | 991 | 994 | 931 |
| 1921 | 908 | 918 | 834 | 972 | 976 | 880 |
| 1931 | 903 | 916 | 813 | 973 | 977 | 870 |
| 1941 | 907 | 922 | 824 | 975 | 979 | 892 |
| 1951 | 908 | 922 | 827 | 954 | 959 | 857 |
| 1961 | 907 | 921 | 817 | 965 | 968 | 868 |
| 1971 | 876 | 884 | 826 | 944 | 946 | 879 |
| 1981 | 882 | 889 | 850 | 941 | 948 | 854 |
| 1991 | 876 | 879 | 864 | 931 | 936 | 877 |
| 2001 | 898 | 904 | 876 | 951 | 955 | 914 |

Note: SexRatio has been defined here as the numberof females per 1,000 males.

As per 2001 Census sex-ratio of 951 females per 1,000 males has been recorded in the district against the state average of 898. The sex-ratio of the district was significantly high as compared to the state average figures from 1901 to 2001 and remained above the state average figures during this period. The lowest sex ratio of 931 females per 1,000 males were recorded in the district during 1991 against the state average of 876 females. It is also observed that the proportion of females in rural areas is higher than that of urban areas in the district.

**TABLE 6 : SEX RATIO BY TAHSILS, 2001**

| Serial number | Name of Tahsil | Sex ratio | | |
|---|---|---|---|---|
| | | Total | Rural | Urban |
| 1 | 2 | 3 | 4 | 5 |
| 1 | Maharajganj | 924 | 924 | 926 |
| 2 | Tiloi | 951 | 953 | 924 |
| 3 | Rae Bareli | 930 | 938 | 905 |
| 4 | Lalganj | 977 | 980 | 918 |
| 5 | Dalmau | 975 | 978 | 914 |
| 6 | Unchahar | 960 | 960 | 944 |
| 7 | Salon | 964 | 965 | 952 |
| | **District Total:** | **951** | **955** | **914** |

The table-6 gives sex-ratio for total, rural and urban areas at tahsil level as per 2001 Census. There are 951 females for thousand males in Rae Bareli district. It is clear from the table that sex-ratio in rural areas is higher than that of urban areas. The sex-ratio among rural and urban population is 955 and 914 females respectively. The rural sex-ratio in the tahsils varies between 924 in Maharajganj tahsil and 977 females per 1,000 males in Lalganj tahsil. In urban areas the highest sex-ratio is recorded in Salon (952) and the lowest is in Rae Bareli urban (905).

**TABLE 7 : SEX RATIO BY CD BLOCKS, 2001**

| Serial number | Name of C D block | Sex ratio |
|---|---|---|
| 1 | 2 | 3 |
| 1 | Bachhrawan | 906 |
| 2 | Shivgarh | 923 |
| 3 | Mahrajganj | 944 |
| 4 | Singhpur | 951 |
| 5 | Tiloi | 970 |
| 6 | Bahadurpur | 934 |
| 7 | Harchandpur | 930 |
| 8 | Amawan | 920 |
| 9 | Sataon | 973 |
| 10 | Rahi | 925 |
| 11 | Khiron | 976 |
| 12 | Sareni | 987 |
| 13 | Lalganj | 977 |
| 14 | Dalmau | 981 |
| 15 | Deenshah Gaura | 971 |
| 16 | Jagatpur | 971 |
| 17 | Rohniya | 961 |
| 18 | Unchahar | 953 |
| 19 | Dih | 946 |
| 20 | Chhatoh | 968 |
| 21 | Salon | 976 |
| | **District (Rural) Total:** | **955** |

The table-7 presents CD block-wise sex-ratio for rural population in the district. The sex-ratio in rural areas of the district comes to 955 females per 1,000 males, as a whole. Among the CD blocks the highest sex-ratio of 987 females is found in Sareni CD block and is followed by Dalmau (981), while the lowest of 906 is recorded in Bachhrawan CD block. The sex-ratio of Sareni, Dalmau, Tiloi, Salon, Khiron, Sataon, Lalganj, Deenshah Gaura, Jagatpur, Rohniya, and Chhatoh CD block are higher than the district rural average of 955 females and in remaining blocks, this value is below the district average.

**TABLE 8 : SEX RATIO OF RURAL POPULATION BY RANGES, 2001**

| Range of sex ratio for villages | Number of inhabited villages | Percentage of villages in each range | Population 2001 | Percentage distribution of population |
|---|---|---|---|---|
| 1 | 2 | 3 | 4 | 5 |
| Less than 700 | 12 | 0.7 | 1,198 | 0.0 |
| 700-749 | 7 | 0.4 | 1,259 | 0.0 |
| 750-799 | 22 | 1.3 | 8,507 | 0.3 |
| 800-849 | 60 | 3.5 | 48,220 | 1.9 |
| 850-899 | 224 | 12.9 | 298,564 | 11.5 |
| 900-949 | 490 | 28.3 | 942,151 | 36.3 |
| 950-999 | 441 | 25.4 | 760,194 | 29.3 |
| 1000-1099 | 381 | 22.0 | 474,911 | 18.3 |
| 1100+ | 96 | 5.5 | 63,333 | 2.4 |
| **District Total:** | **1,733** | **100.0** | **2,598,337** | **100.0** |
| **Sex ratio (Rural) for District:** | | **955** | | |

Table 8 presents the distribution of villages by nine sex-ratio ranges based on 2001 Census. The maximum number of villages i.e 490 accounting for 28.3 per cent of the total villages having largest population of 36.3 per cent in the district fall in the sex-ratio range of 900-949 females per 1,000 males. It is followed by the sex-ratio range of 950-999, which claims 441 villages (25.4 per cent) and 29.3 per cent population. The highest range of 1,100 and above claims 96 villages (5.5 per cent). This range shares 2.4 per cent rural population of the district while in the sex-ratio range of 1000-1099, there are 381 villages which is 22.0 per cent) of total villages. In remaining sex-ratio ranges of 850-899,800-849, 750-799, 700-749 a small population is found and the number of villages are 224 (12.9 per cent), 60 (3.5 per cent), 22 (1.3 per cent) and 7 (0.4 per cent) respectively. In these ranges, the percentage of population is comparatively low. In the majority of villages the sex-ratio is significantly higher.

**TABLE 9 : SEX RATIO OF URBAN AGGLOMERATIONS / TOWNS, 2001**

| Serial number | Name of U.A /town | Urban status of town | Sex ratio |
|---|---|---|---|
| 1 | 2 | 3 | 4 |
| 1 | Bachhrawan | (NP) | 933 |
| 2 | Dalmau | (NP) | 914 |
| 3 | Jais | (NPP) | 924 |
| 4 | Lalganj | (NP) | 918 |
| 5 | Maharajganj | (NP) | 911 |
| 6 | Parsadepur | (NP) | 945 |
| 7 | Rae Bareli | (NPP) | 905 |
| 8 | Salon | (NP) | 958 |
| 9 | Unchahar | (NP) | 944 |
| **Sex ratio (Urban) for the district:** | | | **914** |

Table 9 gives the sex-ratio of towns. The sex-ratio in urban areas of the district comes to 914 females per 1,000 males as a whole. Among the 9 towns of the district the sex-ratio varies between 905 to 958. Salon NP, has the highest sex-ratio (958), while Rae Bareli NPP has the lowest sex-ratio of 905 females.

**TABLE 10**

| | | **Urban** | **39,344** | **20,505** | **18,839** | **919** |

Table 10 presents population of age-group 0-6 years and sex-ratio for total rural and urban areas in respect of each tahsils of the district. Total population in age-group 0-6 is 530,789 persons comprising 273,434 males and 257,355 females. The total sex-ratio in this age-group works out to 941 females for every thousand males in the district. The proportion of females in rural areas is higher than that of urban areas. The sex-ratio in rural and urban areas comes to 943 and 919 respectively in this age-group. The rural sex-ratio in tahsil varies between 927 in Lalganj tahsil and 958 in Unchahar tahsil. The sex-ratio of Tiloi, Unchahar, and Salon are higher than the district rural average (943). Lalganj has lowest sex-ratio of 926 among the total population, as a whole. In urban areas, the highest sex-ratio is recorded in Unchahar urban (993) and the lowest is found in Lalganj urban (891).

**TABLE 11: SEX RATIO OF POPULATION IN THE AGE GROUP 0-6 FOR CD BLOCKS, 2001**

| Serial number | Name of CD block | Total population in 0-6 age group | | | Sex ratio for 0-6 age group |
|---|---|---|---|---|---|

| **Sex ratio (Rural) for District:** | | **943** | | |

Table 12 shows the distribution of villages in 9 sex-ratio ranges of the age-group 0-6 years as well as percentage of villages, total population and percentage of population of this age-group falling in each range of sex-ratio in the district.

The maximum number of villages i.e. 337 (19.4 per cent) having population of 97,300 (19.8 per cent) in the district (rural) fall in the sex-ratio range of 1,000-1,099 females per 1,000 males in age of 0-6 years. It is followed by the sex-ratio range of 1,100+ above which claims 270 villages (15.6 per cent) and 8.1 per cent population. Next to it, 269 villages (15.5 per cent) are in the range of 900-949 with 21.4 per cent population. 218 villages (12.6 per cent) having 14.2 per cent population fall in sex-ratio range of 850-899. In remaining sex-ratio ranges of less than 700, 700-749, 750-799, 800-849 and 950-999 claim less number of villages and these are distributed as 95 (5.5 per cent), 54 (3.1 per cent), 112 (6.5 per cent), 154 (8.9 per cent) 224 (12.4 per cent) respectively.

**TABLE13 : SEX RATIO OF POPULATION IN THE AGE GROUP 0-6 OF URBAN AGGLOMERATIONS / TOWNS, 2001**

| Sl. No. | Name of UA /Town | Urban status of town | Total population in 0-6 age group | | | Sex ratio for 0-6 age group |
|---|---|---|---|---|---|---|
| | | | Persons | Males | Females | |
| 1 | 2 | 3 | 4 | 5 | 6 | 7 |
| 1 | Bachhrawan | (NP) | 1,838 | 960 | 878 | 915 |
| 2 | Dalmau | (NP) | 1,350 | 702 | 648 | 923 |
| 3 | Jais | (NPP) | 4,334 | 2,243 | 2,091 | 932 |
| 4 | Lalganj | (NP) | 2,876 | 1,521 | 1,355 | 891 |
| 5 | Maharajganj | (NP) | 1,079 | 552 | 527 | 955 |
| 6 | Parsadepur | (NP) | 1,865 | 938 | 927 | 988 |
| 7 | Rae Bareli | (NPP) | 21,933 | 11,544 | 10,389 | 900 |
| 8 | Salon | (NP) | 2,401 | 1,208 | 1,193 | 988 |
| 9 | Unchahar | (NP) | 1,668 | 837 | 831 | 993 |
| **District(Urban) Total** | | | **39,344** | **20,505** | **18,839** | **919** |

Table 13 shows sex ratio of population in the age group 0-6 of urban agglomerations/towns 2001. In urban area of the district Rae Bareli total population in age group of 0-6 is 39,344 in which 20,505 are males and 18,839 females and sex ratio of the urban areas of the district is 919 Among towns sex ratio in age group 0-6 varies from 891 in Lalganj town to 993 in Unchahar NP, In Maharajganj NP, Jais NP, Dalmau NP, Parsadepur NP and Salon NP towns, sex ratio is more than the district average. Among 9 towns Rae Bareli NPP has highest population.

| | | **Urban** | **273,998** | **41,434** | **122** | **15.1** | **0.1** |

Table 14 depicts the distribution of Scheduled Castes and Scheduled Tribes population as well as their percentage to total population at tahsil level in rural and urban areas of the district. Of the 2,872,335 total population of the district, 29.8 per cent of the total population belong to the Scheduled Castes and 0.1 per cent to Scheduled Tribes. The percentage of Scheduled Castes population constitutes 31.4 per cent in rural population and 15.1 per cent in urban population of the district. The highest percentage of total Scheduled Castes population is recorded in Maharajganj tahsil (38.2) while the lowest is found in Rae Bareli tahsil (26.4). The proportion of Scheduled Tribes population is 0.1 with 0.1 per cent in rural and zero per cent in urban areas respectively. Scheduled Tribes population in the district is mainly concentrated in tahsil of Lalganj (0.1 per cent), Dalmau (0.1 per cent) and Unchahar (0.1 per cent).

| | **District (Rural) Total:** | **2,598,337** | **815,315** | **1,680** | **31.4** | **0.1** |

Table 15 shows distribution of Scheduled Castes and Scheduled Tribes population in each CD block of the district. 31.4 per cent of rural population of the district belongs to Scheduled Castes and 0.1 per cent to Scheduled Tribes. At CD block level, Scheduled Castes population varies between 43.0 per cent in Bacchrawan and 26.9 per cent in Tiloi CD block. The other CD block containing the high percentage of Scheduled Castes are Shivgarh (38.9), Maharajganj (34.9), Harchandpur (34.3), Chhatoh (33.0), Dalmau (31.2) and Salon (30.4). The highest proportion of 0.4 per cent Scheduled Tribes population is counted in Khiron CD block and is followed by Deenshah Gaura and Unchahar (0.2) CD block. The lowest percentage of Scheduled Tribes is recorded in Salon, Dalmau, Lalganj, Sareni (0.1) per cent. The Scheduled Tribes population in the district is mainly concentrated in Khiron, Unchahar and Dalmau CD blocks.

**TABLE 16 : PROPORTION OF SCHEDULED CASTES POPULATION TO TOTAL POPULATION IN VILLAGES, 2001**

| Percentage range of Scheduled Castes population to total population | Number of villages | Percentage | Scheduled Castes Population | Percentage |
|---|---|---|---|---|
| 1 | 2 | 3 | 4 | 5 |
| Nil | 52 | 3.0 | 0 | 0.0 |
| Less than 5 | 21 | 1.2 | 399 | 0.0 |
| 5-10 | 53 | 3.1 | 3,661 | 0.4 |
| 11-20 | 259 | 14.9 | 75,014 | 9.2 |
| 21-30 | 470 | 27.1 | 240,839 | 29.5 |
| 31-40 | 420 | 24.2 | 243,503 | 29.9 |
| 41-50 | 259 | 14.9 | 155,941 | 19.1 |

| 76 and above | 24 | 1.4 | 7,756 | 1.0 |
| **District Total** | **1,733** | **100.0** | **815,315** | **100.0** |

Table 16 reflects the number of villages according to the proportion of Scheduled Castes population to their total population in different ranges of percentage at district level. 52 villages accounting for 3.0 per cent of total 1,733 inhabited villages in the district do not have any Scheduled Castes population. The proportion of Scheduled Castes population is less than 5 per cent in 21 villages (1.2 per cent). In 53 villages, it varies between 5-10 per cent. The range 11-20 and 21-30 per cent contains 259 and 470 villages respectively. Both these ranges together account for 42.0 per cent villages of the district. 175 villages fall in the range of 51-75. 24 villages are such where the proportion of Scheduled Castes is more than 76 per cent. These villages contain 1.0 per cent Scheduled Castes population of the district. The maximum of the 29.9 per cent of the Scheduled Castes population is covered by range of 31-40 per cent.

**TABLE 17 : PROPORTION OF SCHEDULED TRIBES POPULATION TO TOTAL POPULATION IN VILLAGES, 2001**

| Percentage range of Scheduled Tribes population to total population | Number of villages | Percentage | Scheduled Tribes Population | Percentage |
|---|---|---|---|---|
| 1 | 2 | 3 | 4 | 5 |

| 9 | Unchahar (NP) | 9,288 | 679 | 0 | 7.3 | 0.0 |
| **District (Urban) Total** | | **273,998** | **41,434** | **122** | **15.1** | **0.1** |

Table 18 shows number and percentage of Scheduled Castes and Scheduled Tribes population recorded during 2001 Census in urban areas of the district. The table depicts that Scheduled Caste population in Bachhrawan NP and Parsadepur NP were 24.5 and 18.6 per cent respectively but low (6.9 per cent) is seen in the Salon town. Scheduled Tribe population is negligible in the urban areas of the district. There is no Scheduled Tribe population in 8 towns. Only Rae Bareli NPP has Scheduled Tribe population of 122 (0.1 per cent).

**TABLE 19 : SEX RATIO AMONG SCHEDULED CASTES AND SCHEDULED TRIBES IN C D BLOCKS, 2001**

| Serial number | Name of C D block | Scheduled Castes sex ratio | Scheduled Tribes sex ratio |
|---|---|---|---|
| 1 | 2 | 3 | 4 |

| 20 | Chhatoh | 971 | 1,000 |
| 21 | Salon | 1,005 | 953 |
| | **District (Rural) Total** | **972** | **935** |

Table 19 shows sex-ratio among Scheduled Castes and Scheduled Tribes in each CD block of the district. The Scheduled Castes sex-ratio is 972 for district (rural). Among the CD blocks, the highest sex ratio of 1,015 females is found in Sataon CD block and lowest of 909 females is recorded in Bachhrawan CD block. This table shows sex ratio of Scheduled Tribe population in rural areas of the district is 935.

The sex ratio in 6 CD blocks is below than the parity line while in 11 CD blocks it is above district average. The lower value of sex ratio of 333 females is recorded in Bahadurpur CD block. There are 4 CD blocks where there are no Scheduled Tribe population.

**TABLE 20 : SEX RATIO AMONG SCHEDULED CASTES AND SCHEDULED TRIBES IN URBAN AGGLOMERATIONS / TOWNS, 2001**

| Serial number | Name of U.A./ Town | Scheduled Castes sex ratio | Scheduled Tribes sex ratio |
|---|---|---|---|
| 1 | 2 | 3 | 4 |

District and tahsil-wise literacy rates besides the number of literates and illiterates for total, rural and urban areas are given in table-21. The literacy rate is worked out by excluding population of 0-6 years. As per 2001 Census, the proportion of literates to total population excluding 0-6 years comes to 53.8 per cent in the district. This proportion in rural area is 51.7 per cent against 72.8 per cent in urban areas. In the district the literacy rate of males (67.6 per cent) is much higher than that of females (39.3 per cent). Among the tahsils, Lalganj tahsil tops with 63.9 per cent literates followed by Rae Bareli tahsil (58.7 per cent). Tiloi tahsil with 43.9 per cent literates stands at the bottom in the district. Out of 7 tahsils, the literacy rate of 3 tahsils is higher than that of district average. It is observed that in urban areas of the district the literacy rate is higher than the rural areas.

The gap between male and female literacy is very high which comes to 28.3 percentage points in the district, as a whole. The situation at tahsil level is not much different. However, this gap in urban literacy is low which comes to 15.2 percentage points against the rural areas, where the gap between male and female literacy is 29.7 percentage points.

Table 22 reveals number of literates, illiterates and the literacy rates in rural areas at CD block level in the district. 51.7 per cent of the total rural population excluding the age-group of 0-6 years and literates. The corresponding proportion of male and female literates comes to 66.2 and 36.5per cent respectively which shows very wide gap of 29.7 per cent in male and female literacy. At CD block level, Sareni CD block has the highest rural literacy rate of 66.2 per cent while 79.5 per cent males and 52.9 per cent females are literates in this block. The lowest literacy rate in rural areas is noted in Bahadurpur CD block (41.1 per cent). There are wide variations in male and female literacy in all the CD blocks of the district. The maximum difference of 31.8 points is found in Dalmau CD block.

**TABLE 23 : DISTRIBUTION OF VILLAGES BY LITERACY RATE RANGE, 2001**

| Range of literacy rate for villages | Number of inhabited villages | Percentage distribution of villages | Population | Percentage distribution of population |
|---|---|---|---|---|

| **District Total:** | **1.733** | **100.0** | **2,598,337** | **100.0** |
| **Literacy rate for District:** | | **53.8** | | |

Table 23 gives the distribution of villages by literacy rate ranges in the district. There is no literate in 2 villages (1 per cent) of the district and population of these villages are only 3 persons. Out of 1,731 4 villages (0.2 per cent) have all the literate population. 541 villages accounting for 31.2 per cent of the total villages are in the literacy range of 51-60 per cent and 298 villages (17.2 per cent) fall in the literacy range of 61-70 per cent. The lower literacy rate of 1 to 50 per cent was observed in 753 villages (43.4 per cent) of the district. The higher literacy ranges of 71 to 100 per cent covers 139 villages (8.0 per cent). The range of 51-60 have the maximum number of 541.villages forming 31.2 per cent of the total inhabited villages.

Table 24 shows number and percentage of literates and illiterates by sex during 2001 in the urban areas of the district. Regarding absolute figures of literates Rae Bareli NPP is higher than other towns. While highest percentage of literates is in Lalganj NP (80.3). The table reveals that literacy rate is pretty high in the urban areas of the district (72.8). The literacy rate is quite high (above 85 per cent in two towns) in Bachhrawan NP and Lalganj NP among males. Female literacy rate is not far behind in two towns Rae Bareli NPP and Lalganj NP (above 70 per cent). However, literacy rate among females is very low (38.5 per cent) in Jais NPP. The gap in male female literacy rate is very high (22.4) in Dalmau (NP).

Table 25 shows number and percentage of Scheduled Castes literates and illiterates by sex in CD blocks 2001. In rural areas of the district proportion of literates among Scheduled Castes is 38.3 per cent in which 52.5 per cent are Males and 23.8 per cent Females. Thus, the gap in male and female literacy rates is 28.7 percentage points. Among 21 CD blocks, Sareni CD block has the highest literacy rate 54.0 per cent and Rohniya (30.2) CD block has the lowest literacy rates. The gap in male/female literacy rates in Sareni (31.1) CD block is highest and this gap is lowest in Amawan (26.0) CD block.

**TABLE 26 : DISTRIBUTION OF VILLAGES BY LITERACY RATE RANGE FOR SCHEDULED CASTES POPULATION, 2001**

| Range of literacy rate for villages | Number of inhabited villages | Percentage distribution of villages | Scheduled Castes Population | Percentage distribution of population |
|---|---|---|---|---|
| 1 | 2 | 3 | 4 | 5 |

| **Literacy rate for District (Rural):** | | **38.3** | | |

The table 26 presents the distribution of villages by literacy rate range for Scheduled Castes population at the 2001 census. Highest number (517) of inhabited villages with 34.5 per cent of total rural Scheduled Castes population lies in the literacy range is 31-40 per cent. In the district there are 16 inhabited villages with Scheduled Castes population (0.2 per cent) have higher percentages (71-100 per cent) of literacy.

**TABLE 27: NUMBER AND PERCENTAGE OF SCHEDULED CASTES LITERATES AND ILLITERATES BY SEX IN TOWNS, 2001**

| Serial number | Name and urban status of Town | Number of literates and illiterates | | | | | | Percentage of literates | | | Gap in male/ female literacy rate |
|---|---|---|---|---|---|---|---|---|---|---|---|
| | | Number of literates | | | Number of illiterates | | | | | | |
| | | Persons | Males | Females | Persons | Males | Females | Persons | Males | Females | |
| 1 | 2 | 3 | 4 | 5 | 6 | 7 | 8 | 9 | 10 | 11 | 12 |
| 1 | Bachhrawan (NP) | 1,393 | 887 | 506 | 1,516 | 611 | 905 | 59.0 | 72.7 | 44.3 | 28.4 |
| 2 | Dalmau (NP) | 562 | 362 | 200 | 644 | 253 | 391 | 57.0 | 72.3 | 41.2 | 31.1 |
| 3 | Jais (NPP) | 1,636 | 1,213 | 423 | 3,480 | 1,493 | 1,987 | 40.5 | 56.3 | 22.4 | 33.9 |
| 4 | Lalganj (NP) | 1,775 | 1,111 | 664 | 1,317 | 521 | 796 | 67.1 | 79.4 | 53.4 | 26.0 |
| 5 | Maharajganj (NP) | 431 | 285 | 146 | 468 | 189 | 279 | 58.2 | 73.1 | 41.7 | 31.4 |
| 6 | Parsadepur (NP) | 431 | 328 | 103 | 1,377 | 618 | 759 | 29.9 | 43.0 | 15.1 | 27.9 |
| 7 | Rae Bareli (NPP) | 11,581 | 7,258 | 4,323 | 13,239 | 5,737 | 7,502 | 55.7 | 66.4 | 43.8 | 22.6 |
| 8 | Salon (NP) | 286 | 211 | 75 | 619 | 254 | 365 | 40.2 | 56.6 | 22.2 | 34.4 |
| 9 | Unchahar (NP) | 282 | 186 | 96 | 397 | 171 | 226 | 50.8 | 62.8 | 37.1 | 25.7 |
| | **Rae Bareli (Urban)** | **18,377** | **11,841** | **6,536** | **23,057** | **9,847** | **13,210** | **53.6** | **65.7** | **40.2** | **25.5** |

Table 27 brings out the number and percentage of Scheduled Castes literates and illiterates by sex in urban population at the 2001 Census. The percentage of illiterates is less than literates in the district (urban) and towns. The percentage of literates is least in Parsadepur NP among 9 towns but the gap in male/female literacy rate is highest in case of Salon NP The males in all the 9 towns enjoy higher literacy rate than females. The gap in male/female literacy rate is least in case of Rae Bareli NPP.

The table 28 brings out the number and percentage of Scheduled Tribes literates and illiterates by sex in CD blocks at the 2001 Census. The percentage of illiterates is more than literates in the district and all CD blocks except two CD blocks (Bachhrawan and Khiron). The literacy rate of the Scheduled Tribes population is 29.2 per cent and is much lower than the corresponding rate of 38.3 per cent in case of rural population of Scheduled Castes community. The gap in male and female literacy rates at 30.5 per cent is also higher than the Scheduled Castes community (28.7 per cent). The literacy rate is highest in Bachhrawan (60.0 per cent) CD block and lowest in Unchahar CD block (2.3 per cent) male/female literacy ate in Maharajganj (-60.5 per cent) CD block is in favour of the females, which is an exception and otherwise the highest gap is in case of Lalganj CD block (59.6).

**TABLE 29 : DISTRIBUTION OF VILLAGES BY LITERACY RATE RANGE FOR SCHEDULED TRIBES POPULATION, 2001**

| Range of literacy rate for villages | Number of inhabited villages | Percentage distribution of villages | Scheduled Tribes Population | Percentage distribution of population |
|---|---|---|---|---|
| 1 | 2 | 3 | 4 | 5 |
| 0 | 8 | 21.6 | 129 | 7.7 |
| 1-10 | 4 | 10.8 | 412 | 24.5 |

Table 32 shows CD block-wise number and percentage of main workers, marginal workers and non-workers for rural population of the district. Of the 2,598,337 total rural population of the district, 23.1 per cent has been categorized as main workers and the marginal workers constitute 13.5 per cent and the remaining 63.4 per cent fall in the category of non-workers. The sex-wise break up at the district level shows that 37.6 per cent males and 8.0 per cent females are in the category of main workers. Male and female marginal workers account for 10.9 and 16.3 per cent respectively. The percentage of female marginal workers is higher than male marginal workers. Similar trend is visible at CD block level.

The percentage of total rural workers of the district comes to 36.6 per cent. At the CD block level, Rohniya has highest proportion of total workers forming 40.0 per cent of the total population. It is closely followed by Maharajganj (39.7 per cent), Chhatoh (39.7 per cent), Salon (39.1 per cent), Tiloi and Dih (38.5 per cent) and. The lowest percentage of 31.2 per cent is recorded in Lalganj CD block.

| | | | | **(22.7)** | **(33.0)** | **(54.1)** | **(4.5)** | **(8.4)** |

Note: Per cent of Worker to total worker are given in brackets

It can be seen from the table 34 that the economy of the district is primarily agricultural as supported by the fact that cultivators constitute 43.0 per cent of the total workers (main + marginal) and 34.5 per cent of total workers are engaged as agricultural labourers. Household industry workers are 4.1 per cent and other workers 18.4 per cent in this district.

The distribution of workers by four categories of economic activity at tahsil level also shows very high dependence of population on agriculture sector absorbing large number of workers. The proportion of cultivators varies between 38.2 per cent in Rae Bareli tahsil and 46.9 per cent in Dalmau tahsil. These variations within the district may be due to different cropping and land holding patterns. The percentage of male cultivators is 47.5 per cent which is higher as compared to 33.0 per cent of female cultivators in the district. The percentage of household industry workers is very low in the district as stated above. The workers in other activities occupy the second position next to agriculture in the district as well as in each tahsil. The highest proportion of 28.4 per cent of other workers is recorded in Rae Bareli tahsil while the lowest proportion of 13.1 per cent is found in Salon tahsil.

Note: Per cent of Worker to total worker are given in brackets

Table 35 presents CD block-wise distribution of workers by sex in four categories of economic activity. In the rural areas of the district, total workers (main+marginal) are 36.6 per cent of total population. Among these workers, cultivators constitute 45.9 per cent, 36.7 per cent agricultural labourers, 3.7 per cent household industry workers and 13.7 per cent other workers. The agricultural sector plays a major role in providing employment to the working force of rural population despite the fact that it is not commercially viable. Household industries also could not make much progress in rural areas as reflected in the data and the household industries employ only 3.7 per cent workers of the total working force. Therefore, surplus working force has to depend on primary activities. Among cultivators,

the percentage of females (33.9 per cent) is lower than males (51.6 per cent) in the rural areas of the district. The females play main role in rural economy of the district. The proportion of cultivators and other workers differ considerably from one CD block to other. The proportion of cultivators varies between 41.1 per cent in Singhpur CD block to 50.7 per cent in Shivgarh CD block. Similarly for other workers, the lowest proportion is 8.9 per cent in Dih CD block while 21.2 per cent is the highest in Sareni CD block. The percentage of agricultural labourers and household industry workers together 40.4 per cent in the district. The percentage of agricultural labourers is highest in Singhpur (44.4) block and is followed by Rahniya (41.0). In other CD blocks, this proportion is quite insignificant. Similarly, household industry workers vary in CD blocks between 2.1 per cent in Rohniya and 5.9 per cent in Sareni.

**TABLE 36 : DISTRIBUTION OF WORKERS BY SEX IN FOUR CATEGORIES OF ECONOMIC ACTIVITY OF URBAN AGGLOMERATIONS / TOWNS , 2001**

Table 36 presents distribution of workers by sex in four categories of economic activity in urban areas of the district. It can be observed from the table that the four categories of economic activity are cultivators, agricultural labourers, household industry workers and other workers. Figures in the table has been given for total number of workers including main and marginal workers. At the district level, urban areas recorded highest percentage of other workers (81.1), followed by HHI with 9.1 per cent (7.1 per cent male and 22.1 per cent female). If we observe each town, the table reveals that highest percentage of cultivators (13.1) is recorded in Bachhrawan. In the agriculture labourers category Lalganj NP recorded very low percentage (3.5 ) while highest of 22.8 per cent is in Parsadepur (NP). There is no town which has no agricultural workers. Household industry workers are (22.1 per cent) in Jais NPP, 11.5 per cent in Lalganj and 10.9 per cent in Dalmau. As the usual trend recorded in the urban areas, other workers are in high percentage (percentage of other workers is 87.3 per cent in Rae Bareli NPP and 83.1 per cent in Lalganj N.P.).

**(ix) Brief analysis of the Village Directory and Town Directory data based on inset table:**

One of the major parts of the District Census Handbook is Village and Town Directories. These are non-census data incorporated showing educational, medical, drinking water, banking facilities, ommunication facilities and other such developmental indicators in the towns and villages. From this non-census data certain inset tables have been generated and reproduced below showing major trends in the availability of above amenities**.**

**TABLE 37: DISTRIBUTION OF VILLAGES ACCORDING TO AVAILABILITY OF DIFFERENT AMENITIES, 2001**

Note : - Percentages are given in brackets.

* Based on the improved drinking water source, drinking water supply has been classified as `Improved ' or otherwise. If the household has access to drinking water supplied from a tap or a hand pump / tube well situated within or outside the premises it is considered as having access to `Improved drinking water source'. However, the concept of improved drinking water is state specific and this is to be considered accordingly.

# Post office includes Post office, telegraph office and Post and telegraph office.

$ Transport communication includes bus service, rail facility and navigable waterways.

Table 37 deals with the CD block-wise distribution of villages according to the availability of different amenities like education, medical, improved drinking water, post office, telephone, transport, communications, agricultural credit societies, approach by pucca road and power supply within the village. Out of 1,733 inhabited villages in the district 1,307 villages or 75.4 per cent have been provided with the education facilities of one type or the other. Similarly 505 villages in the district constituting 29.1 per cent have medical facilities of one type or the other. Improved drinking water facility is available in 1,702 or 98.2 per cent villages. As regards, post office facility which includes facilities like telegraph office and post & telegraph, 401 villages constituting 23.1 per cent of villages have been provided with post office facility within the village. 518 or 29.9 per cent villages have been provided with the telephone facility, 153 or 8.8 per cent with transport facility, 116 or 6.7 per cent villages with bank facility and 172 or 9.9 per cent with agricultural credit societies. Similarly there are 825 or 47.6 per cent villages which have been linked with the pucca road. Total 1,609 or 92.8 per cent of villages have been provided with the electricity supply. Almost similar pattern of distribution of villages by availability of amenities in the villages at CD block has been found with slight variation. Bachhrawan CD block has the highest 95.5 per cent villages where educational facility is available and lowest 54.9 per cent is found in Rohniya CD block. Medical facility is highest in Bachhrawan CD block (50.0 per cent) and lowest (14.5 per cent) in Tiloi CD block. Improved drinking water is available to cent-per cent villages in 10 CD blocks while in other blocks, it is above 80 per cent. Telephone facility is highest in Jagatpur (46.7 per cent) with 28 villages of the CD block enjoying this facility. Transport and communications is less developed in Singhpur where only 2.7 per cent villages are covered by this facility whereas 15.7 per cent villages of Amawan CD block are availing this facility

**TABLE 38 : NUMBER AND PERCENT OF RURAL POPULATION SERVED BY DIFFERENT AMENITIES, 2001**

Note : - Percentages are given in brackets.

* Based on the improved drinking water source, drinking water supply has been classified as `Improved ' or otherwise. If the household has access to drinking water supplied from a tap or a hand pump / tube well situated within or outside the premises it is considered as having access to `Improved drinking water source'. However, the concept of improved drinking water is state specific and this is to be considered accordingly.

# Post office includes Post office, telegraph office and Post and telegraph office.

$ Transport communication includes bus service, rail facility and navigable waterways.

Table 38 depicts the number and proportion of rural population served by different kind of amenities. Out of total rural population of 2,598,337 persons in the district, 2,347,300 or 90.3 per cent have educational facility of one or the other type. Similarly 1,234,012 or 47.5 per cent population has medical facilities, while 2,576,411 or 99.2 per cent have got improved drinking water facility. Post office facilities are available to 1,224,660 or 47.1 per cent population. Telephone facility is available to 1,130,966 or 43.5 per cent. Transport communications facility is available to 442,974 or 17.0 per cent. Bank facility is available to 456,717 or 17.6 per cent. 575,448 or 22.1 per cent have been provided with the facility of agricultural credit societies. 1,598,411 or 61.5 per cent have been provided with the facility of pucca road. Power supply is available to 2,487,040 or 95.7 per cent rural population in the district. Similar pattern of availability of facilities is visible to the rural population at CD block level. However, in Bachhrawan CD block facilities of education, medical and improved drinking water are available to larger proportion of population.

**TABLE 39 : DISTRIBUTION OF VILLAGES NOT HAVING CERTAIN AMENITIES, ARRANGED BY DISTANCE RANGES FROM THE PLACES WHERE THESE ARE AVAILABLE, 2001**

| Village not having the amenity of | Distance range of place from the villages where the amenity is available | | | |
|---|---|---|---|---|
| | Less than 5 kilometres | 5-10 kilometres | 10+ kilometres | Total (Col. 2 - 4) |
| 1 | 2 | 3 | 4 | 5 |
| 1. Education :- | | | | |
| (a) Primary School | 437 | 16 | 2 | 455 |
| (b) Middle School | 1,010 | 376 | 24 | 1,410 |
| (c) Degree College | 320 | 570 | 808 | 1,698 |
| 2. Medical:- | | | | |
| (a) Hospital | 574 | 627 | 485 | 1,686 |
| (b) PHC | 427 | 806 | 453 | 1,686 |
| 3. Post Office | 1,134 | 175 | 23 | 1,332 |
| 4. Telephone | 762 | 288 | 165 | 1,215 |
| 5. Bus Service | 700 | 690 | 237 | 1,627 |
| 6. Banks | | | | |
| (a) Commercial Bank | 969 | 520 | 143 | 1,632 |
| (b) Cooperative Bank | 493 | 854 | 346 | 1,693 |
| 7. Agricultural Credit Societies | 1,190 | 327 | 44 | 1,561 |

Table 39 presents distribution of villages not having certain amenities within the village. They have to go out of their village to avail these facilities. Such villages have been presented according to various distance ranges in this table. 455 villages do not have primary school in their villages and out of these villages, children of 437 villages have to travel less than 5 kms., for schooling. Out of 1,410 inhabited villages 1,010 avail the facility of middle school at a distance of less than 5 kms., 376 at a distance 5-10 kms., and the remaining 24.at a distance of 10+ kms. In respect of degree college 320 avail this facility at a distance of less than 5 kms., 570 between 5 to 10 kms., and rest 808 villages at a distance of 10+ kms.

Similarly, there are 1686 villages in the district which have been devoid of Hospital facility and 1686 villages which are deprived of PHC facilities. Of these 574 villages have the facility of Hospital available within 5 kms, while in respect of 627 villages the inhabitants have to cover a distance of 5-10 kms. in order to avail this facility. Similarly 485 villages have this facility at a distance of 10+kms. As regards PHC 427 avail this facility at a distance of less than 5 kms., 806 at a distance of 5-10 kms., and the remaining 453 have to travel a distance of more than 10 kms. to avail this facility.

Regarding Post Office, 1,332 villages do not have this facility in the village itself. Of these majority i.e. 1,134 have this facility at a distance of less than 5 kms., another 175 villages avail it at a distance of 5-10 kms. In the remaining 23 villages habitants have to travel a distance of 10+ kms.

As regards Telephone, there are 1,215 villages in the district which are without telephone facility. Of these 762 avail this facility at a distance of less than 5 kms., 288 at a distance of 5-10 kms., and remaining 165 have to travel a distance of 10+ kms.

For Bus service out of 1,627 villages which do not have facility, 700 villages avail this facility at a distance of less than 5 kms., 690 at a distance between 5-10 kms. and 237 at a distance of 10+ kms.

In the entire district 1,632 villages are deprived of Commercial Bank and 1693 of Co-operative Bank. Of these, 969 avail this facility at a distance of less than 5 kms., 520 between 5-10 kms., and the remaining 143 at a distance of 10+ kms. Regarding Co-operative Banks out of 1,693 villages that do not have this facility. 493 villages avail this facility at a distance of less than 5 kms., 854 at a distance of 5-10 kms., and remaining 346 at a distance of 10+ kms. 1561 villages do not have agricultural credit societies. This facility to 1,190 villages is available at a distance of less than 5 kms., 327 at a distance of 5-10 kms. and the remaining 44 at a distance of 10+ kms.

**TABLE 40 : DISTRIBUTION OF VILLAGES ACCORDING TO THE DISTANCE FROM THE NEAREST STATUTORY TOWN AND AVAILABILITY OF DIFFERENT AMENITIES, 2001**

# Post office includes Post office, Telegraph office and Post and telegraph office.

$ Transport communication includes bus service, rail facility and navigable waterways.

Table 40 deals with the distribution of villages according to distance from the nearest statutory town and availability of different amenities within the village. Out of total 1733 inhabited villages in the district, there are 237 villages which have nearest towns upto a distance of 5 kms. Of these only 161 villages forming 67.9 per cent are having the educational facilities of one type or the other and 56 villages constituting 23.6 per cent, have the medical facilities within the village, 46 villages forming 19.4 per cent have the facility of post office within the village and 58 or 24.5 per cent have the facility of telephone. 17 villages constituting 7.2 per cent have been linked by transport service. 14 villages comprising 5.9 per cent have been provided bank facilities, while 21 villages constituting only 8.9 per cent have been provided by agricultural credit societies. 121 villages comprising 51.1 per cent have been provided with pucca road.

There are 1055 inhabited villages in the district which fall in the distance range of 5-15 kms. Of these 804 villages constituting 76.2 per cent have been provided with the educational facilities. 324 villages comprising 30.7 per cent have been provided with medical facilities. 236 villages constituting 22.4 per cent enjoy the post office facility. 324 villages comprising 30.7 per cent have been provided the telephone facility. 98 villages constituting 9.3 per cent have been linked with transport communications. 73 villages comprising 6.9 per cent have bank facility. 105 villages constituting 10.0 per cent are having agricultural credit societies, while 503 villages or 47.7 per cent are approachable by pucca road. 408 villages fall in the distance range of 16-50 kms. Of these, 77.2 per cent villages have educational facility, 27.5 per cent with medical, 27.5 per cent with post office, 30.9 per cent have telephone and transport and communications available to 8.8 per cent villages. Banks with 6.4 per cent and agricultural credit societies facilities are available to 41 or 10.0 per cent of villages. There is no village in the distance range of 16-50 from the nearest town.

There are 33 villages whose distance from the nearest statutory town have not been given. Such villages have been grouped under the unspecified category. 81.8 or cent per cent villages have the educational facility of one or other type. 13 villages constituting 39.4 per cent have the medical, post office, telephone, banks and agricultural credit society facilities are available to 21.2 per cent, 30.3 per cent, 9.1 per cent and 15.2 per cent respectively. 24 (72.7 per cent) villages have also been connected by pucca road.

**TABLE 41: DISTRIBUTION OF VILLAGES ACCORDING TO POPULATION RANGE AND AMENITIES AVAILABLE, 2001**

| Population range | Number of inhabited villages in each range | Type of amenity available | | | | | | | | | |

# Post office includes Post office, Telegraph office and Post and telegraph office.

$ Transport communication includes bus service, rail facility and navigable waterways.

* Based on the improved drinking water source, drinking water supply has been classified as `Improved ' or otherwise. If the household has access to drinking water supplied from a tap or a hand pump / tube well situated within or outside the premises it is considered as having access to `Improved drinking water source'. However, the concept of improved drinking water is state specific and this is to be considered accordingly.

Table 41 deals with the distribution of villages by population ranges and amenities available therein. There are 363 villages with a population size of less than 500 among than 111 villages (30.6 per cent) are having education facility, 27 villages (7.4 per cent) medical 350 villages (96.4) drinking water 40 villages (14.0 per cent) telephone 3.3 per cent villages with transport facility, 1.7 per cent with bank 38.6 per cent with facility of pucca road and 86.2 per cent villages with electricity. In this population range no village has post office or agriculture credit societies.

Out of 474 villages, which fall in the population range of 500-999 persons, 352 villages (74.3 per cent) have been provided with the education facility, 88 (18.6 per cent) with medical facility, 466 (98.3 per cent) villages have improved drinking water facility. 40 villages (8.4 per cent) have been provided with post office facilities, 103 villages (21.7 per cent) with telephone facility, 25 villages (5.3 per cent) with transport facilities, 9 villages (1.9 per cent) with bank facility, 20 villages (4.2 per cent) with agricultural credit societies and 181 villages (38.2 per cent) have approach by pucca road. 437 (92.2 per cent) villages in this range have electricity.

511 villages fall in population range of 1,000-1,999 persons. 159 villages (31.1 per cent) enjoy the medical facility, 114 villages (22.3 per cent) have post office facility, 175 villages (34.2 per cent) have telephone facility, 36 villages (7.0per cent) have transport communications facilities, 19 villages (3.7 per cent) have bank facilities, 49 villages (9.6 per cent) have agricultural credit societies and 238 villages (46.6 per cent) have approach by pucca road.

There are 317 villages in the district which are covered under 2,000-4,999 population range. In this range, 305 villages enjoy the facility of education, 177 villages (55.8 per cent) have medical facility. 188 villages (59.3 per cent) have post office facility, 46 villages (14.5 per cent) have bank facility, 62 villages (19.6 per cent) is having agricultural credit societies. There are 68 village in the district having a population of 5000-9999 and 8 villages in the population size of 10000+. Proportion of availability of amenities in more populous villages is higher than the smaller villages.

**TABLE 42: DISTRIBUTION OF VILLAGES ACCORDING TO LAND USE, 2001**

| Serial number | Name of C. D. block | Number of inhabited villages | Total area | Percentage of cultivable area to total area | Percentage of irrigated area to total cultivable area |
|---|---|---|---|---|---|
| 1 | 2 | 3 | 4 | 5 | 6 |
| 1 | Bachhrawan | 66 | 26,704.9 | 78.7 | 87.1 |
| 2 | Shivgarh | 62 | 19,361.0 | 86.1 | 93.9 |
| 3 | Mahrajganj | 75 | 18,098.0 | 94.1 | 83.2 |
| 4 | Singhpur | 74 | 22,864.4 | 75.4 | 84.1 |
| 5 | Tiloi | 83 | 21,443.3 | 69.8 | 91.6 |
| 6 | Bahadurpur | 41 | 16,460.3 | 80.0 | 88.7 |
| 7 | Harchandpur | 80 | 17,700.0 | 89.4 | 86.1 |
| 8 | Amawan | 83 | 18,623.7 | 74.7 | 73.1 |
| 9 | Sataon | 71 | 24,525.5 | 83.1 | 77.8 |
| 10 | Rahi | 104 | 26,033.0 | 73.5 | 87.6 |
| 11 | Khiron | 94 | 21,090.8 | 44.9 | 78.6 |
| 12 | Sareni | 148 | 24,260.0 | 67.1 | 66.5 |
| 13 | Lalganj | 92 | 20,864.3 | 71.5 | 71.9 |
| 14 | Dalmau | 123 | 26,143.9 | NA | 95.6 |
| 15 | Deenshah Gaura | 70 | 13,139.9 | 67.0 | 87.6 |
| 16 | Jagatpur | 60 | 11,603.1 | 66.8 | 89.2 |
| 17 | Rohniya | 51 | 11,497.6 | 30.7 | 96.4 |
| 18 | Unchahar | 99 | 17,582.4 | 47.9 | 83.2 |
| 19 | Dih | 70 | 19,869.1 | 64.4 | 82.6 |
| 20 | Chhatoh | 58 | 14,181.0 | 78.3 | 78.7 |
| 21 | Salon | 129 | 23,969.1 | 79.3 | 82.0 |
| | **District Total:** | **1,733** | **416,015.3** | **83.6** | **85.3** |

Note : - Cultivable area = irrigated area + unirrigated area

Table 42 presents C.D block-wise distribution of villages according to land use. It also gives details of total area and cultivable area available to inhabited villages in the district. Cultivated area includes irrigated as well as unirrigated area. It further elaborates that what is the extent of cultivable area under irrigation. There are total 1,733 inhabited villages in the district having a total area of 416,015.3 hectares. Of this, 83.6 per cent is cultivable and 85.3 per cent of total cultivable area has got the irrigation facility. The area figures have been collected from the revenue record maintained for each village by the State government.

The land use pattern at CD block level shows that Bachhrawan block with 66 villages have a total area of 26,704.9 hectares, of this 78.7 per cent of land is cultivable and of the aforesaid area 87.1 per cent is irrigated. In Dalmau block, all the 123 villages have a total land area of 26,143.9 hectares, and 95.6 per cent of the cultivable area is irrigated. In Sataon block, all the 71 villages have a total area of 24,525.5 hectares; of this cultivable area is 83.1 per cent and 77.8 per cent is irrigated. In Salon block, all the 129 villages have a total area of 23,969.1 hectares. Of this, cultivable area is 79.3 per cent. Of cultivable area 82.0 per cent is irrigated. Singhpur block with 74 villages have a total land area of 22,864.4 hectares, of this 75.4 per cent is cultivable area and out of this cultivable area 84.1 per cent is irrigated. Tiloi block with 83 villages has a total land area of 21,443.3 hectares. Out of this 69.8 per cent is cultivated area, out of which 91.6 per cent is irrigated. Khiron block with a total 94 villages have an area of 21,090.8 hectares. Of this 44.9 per cent is cultivable area and 786 per cent is irrigated area.

**TABLE 47 : MOST IMPORTANT COMMODITY EXPORTED OUT OF AND MANUFACTURED IN TOWNS, 2001**

| Sl. No. | Name and urban status of Town | Most important commodity | |
|---|---|---|---|
| | | Manufactured | Exported |
| 1 | 2 | 3 | 4 |
| 1 | Bachhrawan, NP | --, --, -- | --, --, -- |
| 2 | Maharajganj, NP | Utensils, Rice, Furniture | Rice, Vegitables, Utensils |
| 3 | Jais, NPP | Bidi, --, -- | Ber, Oil seeds, Food grains |
| 4 | RaeBareli, NPP | Raw Cotton, Telephone Equipment, Sugar | Telephone Upkaran, Cement Pipe, Raw Cotton |
| 5 | Lalganj, NP | Power Thrasher, Persian Wheel, Moonj | Hide, Food grain, Oil Seeds |
| 6 | Dalmau, NP | --, --, -- | --, --, -- |
| 7 | Unchahar, NP | Handloom Cloth, --, -- | Handloom Cloth, --, -- |
| 8 | Parsadepur, NP | Shoes, --, -- | Potato, Rice, Wood |
| 9 | Salon, NP | Wooden Goods, --, -- | Potato, Water Melon, -- |

Table 47 indicates most important articles manufactured and exported out of the each town in the district. The district is well known for manufacturing of Telephone Instrument. The chief export items of the district are raw leather, rice, cotton, potato, water melon. The main items which are manufactured are utensils, power thrasher, furniture shoes and telephone instruments.

**(x) Brief analysis of the data on houses and household amenities, House listing Operations, Census of India 2001 based on inset tables**

Data on houses and household amenities have traditionally been undertaken a few months before each census. Based upon data collected in the houselist, a few tables on the use of census house, materials of wall, floor and roof etc. are prepared. In 1991 census, the houselist was considerably expanded with 22

items of information. Again in 2001 census many new items on household assets like radio /transistor, television, telephone, cycle, scooter /motorcycle / moped, car/jeep and banking facility availed by household etc. for the first time has been added in the schedule. The district wise tables have been prepared and these are placed in the subsequent tables. The following is the distribution of households by number of rooms occupied.

**TABLE 48 : HOUSEHOLDS BY TENURE STATUS AND NUMBER OF ROOMS OCCUPIED IN THE DISTRICT, 2001**

Data source: Census of India 2001, H- series: "Tables on Houses, Household amenities and Assets."

The data presented in the table 48 depicts number of households by tenure status and number of rooms occupied in the district. The total number of households in the district stands at 505,133 consisting of 462,473 rural and 42,660 urban households. 173,036 households belong to Scheduled Castes and 4,317 to Scheduled Tribes. 488,362 households are living in their own houses constituting 96.7 per cent of total households. Of these households, the largest number of households (146,261) have occupied double room accommodation and is followed by single room accommodation numbering 142,267 households. Next position is claimed by households (98276) occupying three plus room accommodation.

11,947 households living in rented accommodation account for 2.4 per cent of total number of households in the district. The largest number of 5,211 households are living in two room accommodation followed by 4,090 households in single room accommodation. Households with three rooms and three plus are 1,456 and 978 respectively.

**TABLE 49: PERCENTAGE DISTRIBUTION OF HOUSEHOLDS LIVING IN PERMANENT, SEMI PERMANENT AND TEMPORARY HOUSES, 2001**

| Sl. No. | District / Tahsil | Total | | | Rural | | | Urban | | |

Data source: Census of India 2001, H-series: Tables on Houses, Household amenities and Assets.

Note:- Permanent:- 1 Permanent houses refers to those houses whose wall & roofs are made of pucca materials i.e. where, burnt briks. G.I. Sheets, or other metal sheets, stone cement concrete is used for wall and tiles slate, shingle, corrugated iron, zinc or other metal sheets, bricks, lime and stone and RBC/RCC concreate are used for roof.
Semi permanent:- 2 Semi-permanent houses refer to those houses made of other types of materials.
Temporary:- 3 Temporary houses refers to those houses having wall and roofs made of Kutcha materials i.e. where grass, leaves, reeds, bamboo mud, unburnt bricks are used for the construction of walls and grass, leaves reeds, bamboo hatch, mud, unburnt bricks, wood etc.are used for roofs.

The percentage distribution of households as shown in the above table reveals that 34.2 per cent of the households in the district had permanent houses. The trend is different in rural (30.1 per cent) and urban area (78.4 per cent). Among tahsils highest proportion of permanent houses were accounted in tahsil Rae Bareli (44.9 per cent) followed by Lalganj (39.6 per cent), Dalmau (32.6 per cent) and lowest in Salon (24.2 per cent). In respect of semi-permanent houses, the returns were 8.3 per cent at district level whereas among tahsils, in Maharajganj it was 13.5 per cent and lowest was 5.1 per cent in tahsil Dalmau. Rural areas represented a similar ratio at district and tahsil level but semi permanent houses in the urban areas were in the proportion range of 2.7 to 20.3 per cent. Temporary houses in the district lie between the ranges of 48.9 to 67.0 per cent.

*Based on the improved drinking water source, drinking water source, drinking water supply has been classified as 'Improved' otherwise. If the household has access to drinking water supplied from a tap or a hand pump/tube well situated within or outside the premises it is considered as having access to 'Improved drinking water source'. However, the concept of improved drinking water is state specific and this is to be considered accordingly.

Note: Percentage is to be given in brackets after the number of households.

Bathroom means bathroom within the house.

Toilet means toilet within the house.

The above table shows that out of total households of the district 64.6 per cent of the households had improved drinking water facility. The proportion of rural and urban area was 62.5 and 88.4 per cent. Tahsil Dalmau had higher order of proportion of households where percentage for rural area was 71.4 and Lalganj 92.6 per cent in urban areas. Electricity was available of 20.3 per cent of households at district level. Bathrooms and toilet facilities were available in 22.5 and 17.5 per cent of households. At district level drainage facility was available of 69.7per cent of households, whereas the proportion of rural and urban areas households accounted to 69.7 and 91.7 per cent.

Percentage in brackets

Data source: Census of India 2001, H-series: Tables on Houses, Household amenities and Assets.

It is observed from the above table that 76.7 per cent of households in the district use firewood as fuel, for cooking, the proportion in the rural area is 80.1 per cent and in urban area it comes to 39.7 per cent of households. LPG (cooking gas) has been reported as one of the fuel for cooking of food in 6.2 per cent of the households. The composition of rural and urban comes to 2.9 and to 41.6 per cent respectively. Kerosene is used for cooking in as many as 1.4 per cent of the households (0.3 per cent rural and 13.1 per cent urban households). The other methods like crop residue, cow dung cake, coal, lignite, charcoal, electricity and biogas etc. ranges between 0.1 per cent 7.2 per cent of the households of the district. The table shows that firewood, LPG (cooking gas) and kerosene are the predominant fuel for cooking in the district.

Data source: Census of India 2001, H-series: Table on Houses, Household amenities and Assets.

Table 52 depicts about the households having banking services and other assets available to the households. Out of a total of 505,133 households, 201,178 (39.9 per cent) enjoy banking services while, 208,860 (41.3 per cent) Radio/Transistor/Television, 75,188 (14.9 per cent), Telephone 15,346 (3.0 per cent), Bicycle 416,182 (82.4 per cent), Scooter, Motor Cycle 38,600 (7.6 per cent), Car, Jeep, Van 6,435 (1.3 per cent), 64,970 (12.7 per cent) have none of the specified assets.

**(xi) Major social, cultural events, natural and administrative developments and significant activities during the decade :**

No significant social, cultural or natural events have taken place during the last decade. On administrative development, a new tahsil Unchahar was added in the district during the last decade.

**(xii) Brief description of places of Religious, Historical or Archaeological importance in villages and places of Tourist Interest in the towns of the district:**

**Dalmau** : It is one of the historical town. It is situated in the southern part of the district on the bank of Ganga. Here lies the fort of king Daldeo. Statue of poet Nirala in Nirala Smriti Sansthan, Sankat Mochan Mandir, Ibrahim Sharki ka kunwa, Mahal of Nawab Asaf-ud-daula, Dalmau Pump Nahar and Gaushala etc which are worth seeing.

**Salon** : Salon was established by King Saliwahan. It is one of the oldest town. Samerpur Bird Sanctuary is a famous tourist spot of this place.

**Maharajganj** : Situated on the northern part of the district, it is said that Pandavas built Ahorba Bhawani temple here. Rawat Kanhaiya Bux Singh was born here. He wrote history of Vaish Kshatriya.

**Jais** : Jais is famous since ancient times. It is the birth place of Malik Mohammed Jaisi, who wrote Padmawat. It was also capital of king Udayan. Guru Govind's disciple and Nagpanthi saint Matsyendra Nath was born in a Brahmin family of this town.

**Shankerpur** : Leader of Sattawan Kranti, Rana Beni Madho Singh made this place inside the fort capital of his kingdom. Fort of the said king was established here. Temple of Goddess Durga exists inside the fort. The remaing of the fort and temple exist even today.

**Naseerabad** : King of Jaunpur established this town, and named it after his son Naseeruddin. Amar Shaheed of freedom struggle Har Prasad was born in Naseerabad town.

**Lalganj** :It is one of the biggest business centre of the district. Acharya Brajnandan established this business centre which caters to the need of nearby villagers.

**Daulatpur :** This town was established by Acharya Sukhdeo Mishra. Famous Hindi poet and analyst Mahabir Prasad Dwivedi was born here. He built a Saraswati temple at this place.

**Thuleri** : It is one of the historical places in the district. The Kuchcha fort here was built by Sultan Ibrahim Shah of Jaunpur .Masjids , five temples of Mahadeo and ponds built by Raja Niswan Singh are worth seeing.

The other places of importane are Jalalpur Ghai, Gagaso, Amawa, Baleswar, Ram Krishna Sewashram, Puri Tulsidas Majre, Bachhrawan, Parsadepur and Unchahar which are worth seeing.

**(xiii) Major characteristics and contributions of District :**

The district of Rae Bareli is agrarian in nature. It produces large quantity of food grains, Being the old constituency of Late Prime Minister Indira Gandhi, a V.I.P. status was given to this district. Owing to political concentration, the development of infrastructure was given priority in relation to neighbouring districts. Indian Telephone Industry and National Flying Institute Rae Bareli, Firoz Gandhi Degree College are significant. The uniqueness of the district is embodied in the way that all the villages in the district are electrified and net work of irrigation is excellent.

Rana Madho Singh of Baiswara was king of Shankerpur kingdom. Shankarpur kingdom was a part of Nawab of Avadh. He was a true patriot and struggle continuously against British. Raja of Tiloi, Jaipal Singh also fought bravely.Freedom struggle was vigorously started in the district. The district has witnessed many freedom fighters. Rana Goralla is known for his battle skills. The district was the Karmabhumi of Rafi Ahmad Kidwai in 1930-31. Tehri Singh and Avadan Singh were killed by British troups while fighting with them at Saraini.

**(xiv) Scope of Village Directory & Town Directory Village Directory**

The village directory as the title itself connotes provides information pertaining to rural areas of the district at C.D block/ village level. For each CD block a list of villages serialized in English alphabetical order along with their location code numbers of 2001 and 1991 census are presented. The rational of giving 2001 location code along with 1991 location code is to facilitate the identification of villages for matching information collected at each Census. The villages which have been wholly merged in Nagar Nigam, Nagar Palika Parishad and Nagar Panchayat are not included in the list. In case of partly merged villages, the remaining rural part of the villages has been treated as independent revenue village and the data have been presented for such villages in the village directory.

However, the villages treated as outgrowth of an Urban Agglomeration or Nagar Panchayat is listed in the village directory but no data are presented against the name of such villages. All these villages are listed in the Primary Census Abstract (rural) without presenting their data for providing cross references. Uninhabited or depopulated villages are listed but only area of the village and land use pattern is given. A note against such a village indicates the state of its being depopulated or uninhabited.

The village directory brings out some basic information about the village. These data can broadly be classified into the following categories:

| | | |
|---|---|---|
| 1. | Population and households | Cols.4 & 5 |
| 2. | Amenities. | Cols.6 to 13 |
| 3. | Other infrastructural facilities etc. | Cols.14 to 16 |
| 4. | Availability of news paper/ magazine | Column 17 |
| 5. | Commodities manufacture | Column 18 |
| 6. | Total area of village and land use pattern | Column 3 & 19-23 |

**Town Directory :**

The Town Directory covers all the towns in a district. The towns are arranged in English alphabetical order. The data are presented in seven statements serially numbered (I) to (VII).

The following mode of listing of towns has been followed:-

(i) All the towns having statutory status which are not part of an Urban Agglomeration are listed once in the alphabetical arrangement of the towns.

(ii) All the towns which are part of an Urban Agglomeration and enjoy independent status of a statutory town are listed twice in the alphabetical arrangement of the towns as well as under the main town of an Urban Agglomeration. However, the data are presented separately only once under the main UA. In alphabetical arrangement a note is given against such towns that they are part of such and such Urban Agglomeration.

(iii) The outgrowth(s) of a town which do not qualify themselves for being treated as independent town are not listed in the main body of the Directory. Against name/names of the town having outgrowth(s) an asterisk (*) has been placed to indicate that the town has outgrowth(s).

(iv) Census towns are also listed in the body of Directory. These are the towns which do not enjoy statutory status but are declared towns for the purpose of population Census.

Town Directories of the districts give an account of status and growth history of towns, location and physical aspects of the towns, municipal finances during 1998-1999, civic and other amenities up to 1999 (as well in notified slums), medical, educational, recreational and cultural facilities by year 1999, and trade, commerce, industry and banking activities in year 1999. In this way population and growth

rates of towns from 1901 to 2001, density in 2001, sex-ratio during 1981, 1991 and 2001 census, rainfall and temperature of the towns, receipts and expenditures in the towns of the district, road length, system of sewerage, number of latrines, method of disposal of night soil, water supply position and fire fighting services, number of electric connections, number of hospitals, colleges, cinema halls etc. Number of banks as well as commodities manufactured and exports are enumerated vividly in various statements relating to the town directories of the districts

# VILLAGE DIRECTORY

# Section - I : Village Directory

**Note explaining the abbreviations used in the village directory :**

The "Village Directory" is one of the traditional compilations of the Census. It gives the list of villages, their location numbers, their area, population, number of households, amenities such as educational, medical, drinking water, post and telegraph, commercial and co-operative banks, agricultural non-agricultural and other credit societies, recreational and cultural facilities, communication, approach to village, nearest town with a distance, power supply availability of newspaper and magazines, most important commodity manufactured and land use of each village.

Village is a statutory recognized unit having a definite boundary and separate land records. In case, a complete village is treated as an outgrowth of urban agglomeration, data on amenities for that village, have not been given in the Village Directory but shown along with the urban component. The villages which are considered as a Census Town , their amenities data are shown in the Town Directory. For those villages which have partly merged in an outgrowth of U.A., the amenities data are shown in the Village Directory for that particular village.

The 'un-inhabited' villages (villages with no population) have been indicated as such after furnishing details in columns 1 to 3 i.e., Serial number, Name of village & location code number and area of the village against column no. 4 to 18. The land use data for such villages are shown in col. 19 to 23.

The Village Directory format has 23 columns and the details given under each column are for the village are as follows:-

**Columns 1 : Serial Number**

Self explanatory. All the villages within the CD Block are presented serially in the ascending order of their location code number.

**Columns 2 : Name and Location Code Number of village.**

The name and location code number of the village are shown against these columns. This also includes the forest and uninhabited villages.

**Column 3 : Area of the village**

The area of the villages in hectares are given. Wherever the area figures were not furnished by the concerned department the column is left blank.

**Column 4 : Total population**

The total population of the village as per 2001 Census is given against this column.

**Column 5 : Number of households**

The number of households as per 2001 Census is given in this column.

**Amenities :**

In column 6 to 23, availability in respect of different amenities such as education, medical, drinking water, post, telegraph, banks, credit societies, communication, power, approach road etc., in each village has been depicted with appropriate codes against the column concerned. Wherever the amenities are not available in the village, a dash(-) is shown in the column and next to it in brackets the distance in broad ranges viz.< 5 kms., 5-10 kms. and 10+ kms of the nearest place where the facility is available is given. Column wise details are given below :

**Column 6 : Educational**

Classes upto class V included in Primary School. This will include nursery school, kindergarten school. Pre-basic school, pre-primary school, junior basic school upto class V.

Classes from VI to VIII are included in the middle school.

Classes from IX and X included in High secondary school. Classes XI and XII are included in senior secondary school.

In case of composite schools like middle school with primary school or secondary school with middle school, these are also included in the number of primary and middle schools, respectively.

Accordingly any of the following types of institutions if exists within the village is shown as per codes given below :

| | | |
|---|---|---|
| (i) | Primary School | P |
| (ii) | Middle School | M |
| (iii) | Secondary School | S |
| (iv) | Senior Secondary School | PUC |
| (v) | College | C |
| (vi) | Industrial School | I |

| | | |
|---|---|---|
| (vii) | Training School | Tr |
| (viii) | Adult literacy class/centre | AC |
| (ix) | Others (specify) e.g. Sanskrit Pathshala, Senior basic school, Navodaya Vidyalaya, Makhtab, etc. | O |

More than one institution of a type in the village is indicated by the number within brackets against the abbreviation, e.g. P(3), M(4), etc.

**Column 7 : Medical**

Availability of medical facility within the village is indicated by following codes :

| | | |
|---|---|---|
| (i) | Allopathic Hospital | H |
| | Ayurvedic Hospital | HA |
| | Unani Hospital | HU |
| | Homeopathic Hospital | HHom |
| (ii) | Allopathic Dispensary | D |
| | Ayurvedic Dispensary | DA |
| | Unani Dispensary | DU |
| | Homeopathic Dispensary | DHom |
| (iii) | Maternity & Child Welfare | MCW |
| (iv) | Maternity Home | MH |
| (v) | Child Welfare Centre | CWC |
| (vi) | Health Centre | HC |
| (vii) | Primary Health Centre | PHC |
| (viii) | Primary Health Sub-Centre | PHS |
| (ix) | Family Welfare Centre | FWC |
| (x) | T.B. Clinic | TB |
| (xi) | Nursing Home | NH |
| (xii) | Registered Private Medical Practitioner | RMP |
| (xiii) | Subsidised Medical Practitioner | SMP |
| (xiv) | Community Health Worker | CHW |
| (xv) | Others | O |

More than one institution of a type in the village is indicated by the number within brackets against the abbreviations, e.g. H(3), D(4), etc.

**Column 8 : Drinking Water**

The type of the drinking water supply sources available within the village are indicated by codes as follows :

| | | |
|---|---|---|
| (i) | Tap Water | T |
| (ii) | Well Water | W |
| (iii) | Tank Water | TK |
| (iv) | Tubewell Water | TW |
| (v) | Handpump | HP |
| (vi) | River Water | R |
| (vii) | Canal | C |
| (viii) | Lake | L |
| (ix) | Spring | S |
| (x) | Others | O |
| (xi) | Summer Source | SS |

**Column 9 : Post, Telegraph and Telephone**

It is indicated by codes as shown below whether within the village exists the following amenities:

| | | |
|---|---|---|
| (i) | Post Office | PO |
| (ii) | Telegraph Office | TO |
| (iii) | Post & Telegraph Office | PTO |
| (iv) | Telephone Connection | PH |

**Column 10: Commercial and Co-operative Banks**

If the village is served by any banking service, commercial bank, co-operative bank etc. the same is indicated in codes mentioned below along with the number of banks in brackets. If not available the distance of nearest place where the facility exist is given:

| | | |
|---|---|---|
| (i) | Commercial Bank | CM |
| (ii) | Co-operative Bank | CP |

**Column 11: Credit Societies**

If the village enjoys the services of Credit Societies i.e. Agricultural Credit Societies, Non Agricultural Credit Society or Other Credit Societies, the same is indicated in codes mentioned below along with the number of such societies in brackets. In case the facility is not available within the village the distance of the nearest place where such facility exist is given :

| | | |
|---|---|---|
| (i) | Agricultural Credit Society | ACS |
| (ii) | Non-Agricultural Credit Society | NCS |
| (iii) | Other Credit Society | OCS |

**Column 12 : Recreational and cultural facilities**

If facilities such as Cinema/Video hall, Sports Club, Stadium/Auditorium is available in the village. The same is recorded in these columns. If not available the particulars of the nearest place with the facility is recorded. The information is indicated in codes mentioned below along with the number of such facilities in brackets:

| | | |
|---|---|---|
| (i) | Cinema / Video Hall | CV |
| (ii) | Sports Club | SP |
| (iii) | Stadium / Auditorium | ST |

**Column 13 : Communications**

If the village is served by any mode of public / private transport like Bus, Railway station or Navigable water ways they are to be mentioned as follows:

| | | |
|---|---|---|
| (i) | Bus | BS |
| (ii) | Railway Station | RS |
| (iii) | Navigable Waterway | NW |

**Column 14 : Approach to village**

Approach to village refers to the state of road leading to village. The approach to the village is indicated in following codes :

| | | |
|---|---|---|
| (i) | Paved Road | PR |
| (ii) | Mud road | MR |
| (iii) | Foot path | FP |
| (iv) | Navigable River | NR |
| (v) | Navigable Canal | NC |
| (vi) | Navigable waterways other than River, Canal | NW |

**Column 15 : Nearest Town and distance**

The distance is given in kilometres in brackets against the name of the town nearest to the village.

**Column 16 : Power supply**

Availability of Power Supply in the village, whatever may be the form of its use is given by using following codes :

| | | |
|---|---|---|
| (i) | Electricity for domestic use | ED |
| (ii) | Electricity for agricultural use | EAG |
| (iii) | Electricity for other purposes | EO |
| (iv) | Electricity for all purposes | EA |

**Column 17 : Newspaper / Magazine**

If village receives any News Paper/Magazines the same is noted in this column using following codes:

| | | |
|---|---|---|
| (i) | Newspaper | N |
| (ii) | Magazine | M |

**Column 18 : Most important commodities manufactured**

The name of three most important commodities manufactured in the village is recorded against this column.

**Column 19 to 23 : Land use i.e. area under different types of land use**

Land use data maintained by the State/ UT Govts. are furnished against these columns. The data concerning area under Forest, Irrigated land (by source), Un-irrigated land, Culturable waste and Area not available for cultivation in the village are shown against these columns. The area figures are given in hectare(s) up to one decimal. Dash '-' is recorded wherever the information is not made available by the concerned department. The codes used for different types of irrigation facilities available in the village are indicated below:

| | | |
|---|---|---|
| (i) | Government Canal | GC |
| (ii) | Private Canal | PC |
| (iii) | Well (without electricity) | W |
| (iv) | Well (with electricity) | WWE |
| (v) | Tubewell (with electricity) | TW |
| (vi) | Tubewell(without electricity) | TWE |
| (vii) | Tank | TK |
| (viii) | River | R |
| (ix) | Lake | L |
| (x) | Waterfall | WF |
| (xi) | Others | O |
| (xii) | Total | T |

The village directory also carries the following appendices.

| | |
|---|---|
| Appendix-I | It gives the abstract of educational, medical and other amenities available in villages C D Block wise of the district. |
| Appendix-I-A | Indicates number of villages C D Block wise having one or more primary schools. |
| Appendix-I-B | Indicates number of villages C D Block wise having primary, middle and secondary schools. |
| Appendix-I-C | Shows number of villages C D Block wise with different sources of drinking water facilities. |
| Appendix-II | Indicates the list of villages with 5,000 and above population which do not have one or more important amenities. |
| Appendix-II-A | Indicates list of Census Towns which do not have one or more amenities. |
| Appendix-III | It gives the land utilization data in respect of Census Towns / non-municipal Towns. |
| Appendix-IV | C D Block wise list of inhabited villages where no amenity other than drinking water facility is available. |
| Appendix-V | Summary showing number of villages having or not having Scheduled Castes population. |
| Appendix-VI | Summary showing number of villages having or not having Scheduled Tribes population. |
| Appendix-VII A | List of villages according to proportion of Scheduled Castes to the total population by ranges. |
| Appendix-VII B | List of villages according to proportion of Scheduled Tribes to the total population by ranges. |
| Appendix-VIII | Indicates C D Block wise number of villages under each Gram Panchayat. |
| Appendix-IX | Shows number of different types of girls school in a village. |

# SECTION II
# TOWN DIRECTORY

# Town Directory

**Note explaining the abbreviations used in Town Directory :**

**Statement I : Status and Growth History**

**Column (2) : Class, name and civic administration status of town :**

Class has been introduced to facilitate analysis of town directory data at the state and all India levels. It is presented according to 2001 Census Population of the town as follows :

| Population | Class |
|---|---|
| 100,000 and above | I |
| 50,000 - 99,999 | II |
| 20,000 - 49,999 | III |
| 10,000 - 19,999 | IV |
| 5,000 - 9,999 | V |
| Below 5,000 | VI |

Town with a population of one hundred thousand (1,00,000) and above is treated as a city.

The civic administration status of the towns is indicated within bracket against the name of the town. The following abbreviations are used to denote civic status of town.

| | | |
|---|---|---|
| (i) | Municipal Corporation | M.Cor/NN |
| (ii) | Municipal Committee | MC |
| (iii) | Municipal Council | M Cl |
| (iv) | City Municipal Council | CMC |
| (v) | Town Municipal Council | TMC |
| (vi) | Municipal Board | MB/NPP |
| (vii) | Municipality | M |
| (viii) | Cantonment Board/ Cantonment | CB |
| (ix) | Notified Area | NA |
| (x) | Notified Town | NT |
| (xi) | Notified Area Committee/ Notified Area Council | NAC |
| (xii) | Notified Town Area | NTA |
| (xiii) | Industrial Notified Area | INA |
| (xiv) | Industrial Township | ITS |
| (xv) | Township | TS |
| (xvi) | Town Panchayat | TP |
| (xvii) | Nagar Panchayat | NP |
| (xviii) | Town Committee/Town Area Committee | TC |
| (xix) | Small Town Committee | ST |
| (xx) | Estate office | EO |
| (xxi) | Gram Panchayat | GP |
| (xxii) | Census Town | CT |

**Statement II - Physical Aspects and Location of towns, 1999.**

**Column 3 to 5 : Physical Aspects**

In this columns the Rainfall and Maximum & Minimum Temperature of the town is recorded.

**Column 6, 7 and 8 :**

Name of the State headquarters, District headquarters and Sub-Divisional headquarters with distance from the referent town in kilometers, is to be recorded respectively. If the names mentioned in these columns are the same as the referent town itself, the distance is recorded as (0) zero.

**Column 9 & 10 :**

Name of the nearest city with one lakh and more and five lakh and more population are recorded.

**Column 11, 12 and 13 :**

If referent town enjoys the facility of railway station, bus route facility or navigable river/canal. Its name is to be mentioned. If not available, then the name of nearest place with distance, where such facility exists is to be mentioned.

**Statement III**

**Municipal Finance 1998 -1999**

Item-wise amount of receipt and expenditure in thousand rupees, relating to municipal finance of the town for the year 1998-99 is to be recorded.

**Statement IV**

**Civic and Other amenities,1999**

**Column (1 to 6) : Self explanatory.**

**Column (7) : Road length (in kms.)**

Information about kutcha/pucca road is to be recorded separately for the roads within the limits of the referent town.

surface are known as storm water drains, while those carrying both sewage and storm water are called combined sewers.

The codes used for different types of drainage system are as follows :

| | | |
|---|---|---|
| (i) | Sewer | S |
| (ii) | Open Surface Drains | OSD |
| (iii) | Box Surface Drains | BSD |
| (iv) | Sylk Drains | SD |
| (v) | Cesspool method | CP |
| (vi) | Pit System | Pt |
| (vii) | Others | O |

**Column 9 to 12 : Number of latrines**

Number of various types of latrines both Public and Private are given in these columns.

**Column 13 : Method of disposal of night soil**

The various prevalent method of disposal of night soil are given below with codes :

| | | |
|---|---|---|
| (i) | Head Loads | HL |
| (ii) | Basket | B |
| (iii) | Wheel Barrows | WB |
| (iv) | Septic Tank | ST |
| (v) | Pit System | Pt |
| (vi) | Sewerage | S |
| (vii) | Others | O |

**Column 14 and 15 : Water supply**

Source and capacity of storage system. The following codes are used in these columns:

**Column 14:**

| | | |
|---|---|---|
| (i) | Tap water | T |
| (ii) | Tube-well water | TW |
| (iii) | Tank Water | TK |
| (iv) | Well water | W |

**Column 15:**

| | | |
|---|---|---|
| (v) | Over Head Tank | OHT |
| (vi) | Service Reservoir | SR |
| (vii) | River Infiltration Gallery | RIG |
| (viii) | Bore Well Pumping System | BWP |
| (ix) | Pressure Tank | PT |

The information on major source of water supply are given in column 14 and the storage capacity against each in kilo-litres (in bracket) are presented in column 15.

**Column 16 : Fire Fighting Service**

In case the fire fighting service is available in the referent town 'yes' is recorded. If the facility is not available within the town. The name of the nearest place having this facility with its distance from the referent town has been recorded.

**Column 17 to 21 : Electrification (Number of connections)**

Different types of electric connections have been shown in these columns, i.e. Domestic, Industrial, Commercial, Road lighting (points) & others.

**Statement V : Medical, Educational, Recreational and Cultural Facilities, 1999**

**Column 1 to 3 : Self explanatory.**

**Column 4 & 5 :**

The data covers all such medical institutions run by or aided by Government/Semi Government/Local bodies and Charitable institutions or Social agencies like the Missionaries. Where the family planning centres are attached to hospitals or maternity and child welfare centres or Primary Health Centres, may be treated as independent units and counted separately using following codes :

| | | |
|---|---|---|
| (i) | Hospital | H |
| (ii) | Dispensary | D |
| (iii) | Health Centre | HC |
| (iv) | Family Welfare Centre | FWC |
| (v) | T.B. Clinic | TB |
| (vi) | Nursing Home | NH |
| (vii) | Others | O |

In case of more than one institutions of any type, it is indicated within brackets the number of such institution (s) e.g. D(3), NH(8), etc. The institutions have further been distinguished by providing additional codes within the bracket as given below :

| | |
|---|---|
| Ayurvedic | A |
| Unani | U |
| Homoeopathic | Hom |

**Column 6 to 9 :**

The codes used for these columns are as follows

| | | |
|---|---|---|
| (i) | Arts only | A |
| (ii) | Science only | S |
| (iii) | Commerce only | C |
| (iv) | Arts & Science only | AS |
| (v) | Arts & Commerce only | AC |
| (vi) | Combined for all categories-Arts, Science and Commerce | ASC |
| (vii) | Law | L |

**Column 10 : Recognized shorthand, typewriting and vocational training institutes**

"Recognised" should mean recognised by some statutory authority, like education department, commerce department, labour department etc. of the government or semi government or autonomous bodies, public sector undertakings etc.

| | | |
|---|---|---|
| (i) | Pucca Road | PR |
| (ii) | Kutcha Road | KR |

**Column (8) : System of Sewerage**

Generally, by sewerage system is implied the network of mains and branches of underground conduits for the conveyance of sewerage to the point of disposal. Sewers that carry only household and industrial wastes are called separate sewers, those that carry storm water from roofs, streets and other The following codes are used :

| | | |
|---|---|---|
| (i) | Shorthand | SH |
| (ii) | Typewriting | Type |
| (iii) | Shorthand & Typewriting | SH Type |
| (iv) | Others | O |

The vocational institutions like - Applied Art/

Painting college, Pharmacy college, B. Ed. College, Teacher's Training Institute, Music/Dance School, Nursing School etc. are covered under 'Others'.

**Column 11 to 14**:

Higher Secondary/Intermediate/Senior Secondary/PUC/Junior College level, Secondary/ Matriculation, Middle Schools/ Junior Secondary and Primary Schools.

School up to class V are treated as Primary or elementary schools. These include Nursery schools, Kindergarten schools, Pre-Primary schools, Junior Basic schools upto class V and Primary schools upto class IV.

Schools upto VIII are considered as Middle school or Junior Secondary.

Schools upto class X are considered as Matriculation or Secondary schools.

Schools upto XI or XII classes are considered as Higher Secondary/Intermediate/Pre University/ Junior College etc. This would cover 10+2 classes whether held in schools or college.

If there are composite schools like middle schools with primary classes or Secondary schools with Middle classes, these are also included in the number of Primary and Middle schools, respectively. For example, if in a town, there are two Primary Schools and one Middle school with Primary classes, the number of Primary schools in the town is given as three and that of Middle schools as one though there are only three educational institutions.

If there are more institutions of a type in the town, the number is indicated within bracket along with the abbreviation, e.g. P(4), M(3).

**Column 15 : Adult literacy class/centres**

This column has been introduced keeping in view the Minimum Needs Programme of the Planning Commission. There are number of Adult Education Centres which are included in these columns.

If an educational facility is not available in the town, the name of the nearest place and its distance in kilometres from the town where the facility is available is mentioned.

**Column 16 : Working Women's hostels with number of seats**

The number of working women's hostel if available in the referent town is mentioned with number of seats. If the facility is not available in the town the name of nearest place with distance where the facility is available is recorded.

**Column 17 to 19 : Recreational and Cultural Facilities**

Stadium, Cinema, Auditorium/Drama/Community Hall are covered under recreational & cultural facilities. The particulars of permanent recreational facilities are considered for these columns.

**Column 20 :Public Libraries, Reading Rooms**

Number of public libraries and reading rooms available in the referent town are recorded in codes as follows :

| | | |
|---|---|---|
| (i) | Public Library | PL |
| (ii) | Reading room | RR |

**Statement VI : Trade, Commerce, Industry and Banking, 1999**

**Column 3 to 8** :

Name of three most important commodities exported and names of three most important commodities manufactured in the town are recorded.

**Column 9 : Number of Banks**

Number of Banks available in the referent town both Commercial and Co-operative banks are recorded against this column.

**Column 10 & 11** : **Number of Agricultural Credit Societies and Non Agricultural Credit Societies**

The total number of Agricultural Credit Societies and Non Agricultural Credit Societies in the referent town are recorded against these columns.

**Statement VII : Civic and other Amenities in Slums, 1999**

This is the statement on civic and other amenities in all slums whether notified or not and for all towns having statutory bodies, like municipality, Municipal Corporation, Town area committee etc.

# PART - B
# PRIMARY CENSUS ABSTRACT

# Brief note on Primary Census Abstract

The first census of the third millennium and twenty first century the Census of India, 2001 was the 14th continuous and uninterrupted Indian census since 1872. Thus, 2001 Census will provide data on population and its characteristics marking transition from one century and millennium to another.

Primary Census Abstract gives data up to CD Block/UA/City/Town level for the country and state. It contains information relating to Area (in sq km.), number of occupied residential houses, number of households, total population, population in age-group 0-6, scheduled caste and scheduled tribe population with male-female break up along main and marginal workers separately by sex. Both main and marginal workers have been further classified into four broad industrial categories viz., Cultivators, agricultural laborers, household industry workers and other workers and presented along with non-workers by sex. For the first time during 2001 census the Primary Census Abstract will give number of illiterates, total workers and classification of marginal workers also into four broad industrial categories. This corresponds to Union/State PCA presented separately till 1991 except inclusion of some extra features as mentioned above. However, only four fold classification of main and marginal workers will now be presented instead of nine fold categories.

**Data Processing**

A quantum leap was made in the technology front while processing the Census 2001 data both for Houselisting and Population Enumeration. The Census schedules for both the phases were scanned through high speed scanners in fifteen data centers across the country and hand-written data from the schedules were converted into digitized form through Intelligent Character Reading (ICR) software for creation of ASCII records for further processing. The designing and formatting of the Household Schedule had to be done very carefully using specialized software so as to ensure uniformity, which was an essential pre-requisite for scanning. The selection of appropriate state-of-art technology in data processing has made it possible to produce all the Houselisting as well as Population Enumeration tables on full count basis for the first time in the history of Census. For Census 2001, about 202 million schedules consisting of about 1,028 million records were scanned and processed within a span of only 10 months starting October, 2002.

**Task Force on Quality Assurance**

After the data is processed, it is expedient on the part of the data producing agency to satisfy itself about its quality before putting the same in public domain. This has to be done mainly through the process of internal consistency, comparison with similar data in the past and also through validation with likewise data if available, from external sources. Quite often the local knowledge and perception has to be brought into play to understand both the existing and the new emerging trends of population distribution and characteristics. The other very important aspect of the data quality is to ensure complete coverage of all geographical areas especially for the population enumeration phase where the data is disseminated right up to the village level in the rural areas and the ward level in the urban areas. Thus ensuring the complete coverage and correct geographical linkage of each enumeration block was one of the major planks of the quality control, specially for small area population statistics.

A very comprehensive check and edit mechanism was put in place to objectively examine the preliminary Census 2001 Population Enumeration results and finally clear them for use. The responsibility of the final clearance of data was with the Task Force on Quality Assurance (TFQA), headed by the Registrar General and Census Commissioner, India. The other members of the TFQA were the Heads and senior officers of the Census Division, Data Processing Division, Map Division, Demography Division and Social Studies Division. The Directors

of Census Operations were co-opted as members whenever the TFQA discussed the data for their States/Union territories. The Directors and their senior officers were required to make detailed presentations of data for their own state both in respect to the quality and the coverage and only after the full possible cleared.

There has been a major departure in Census 2001 from the past in respect of the procedure followed for finalization of the Scheduled Castes and the Scheduled Tribes population. In the earlier censuses, the total Scheduled Castes and Scheduled Tribes populations were finalized at the time of the manual compilation of the Primary Census Abstracts (PCA) at the Regional Tabulation Offices which were specially set up for this purpose. The individual Scheduled Castes and the Scheduled Tribes population for each state was finalized much later based on manual coding done by the coders. In 2001 Census, each individual Scheduled Caste and the Scheduled Tribe have been coded directly on the computers by the Data Entry Operators through a process known as Computer Assisted Coding (CAC) and taken up along with the processing of PCA data. The CAC process involves pulling down, from the relevant dictionary of the Scheduled Castes and the Scheduled Tribes, on the computer screen and coding from the dictionary by referring to the image of the specific individual entry in the Household Schedule appearing on the screen. The CAC of the response on Religion wherever required, was also undertaken along with the processing of PCA. This is because the Scheduled Castes status had to be determined in relation to the religion of the individual. Two Special Task Forces, one on Religion and the other on Scheduled Castes/Scheduled Tribes were constituted for scrutiny and appropriate classification of these responses.

The main task of the Special Task Force on Religion was to appropriately merge or group the new responses encountered and code it into the appropriate religious community based on available literature and local knowledge. The Special Task Force on Scheduled Castes and Scheduled Tribes examined the different Scheduled Castes and Scheduled Tribes entries encoun-tered and classified these into appropriate category of the Scheduled Castes or the Scheduled Tribes principally based on the Presidential Notification and the available literature. Thus a very systematic and scientific mechanism was operationalised to firm up the individual religion and the individual Scheduled Castes/Tribes returns. The Scheduled Castes and the Scheduled Tribes population in 2001 Census, is thus being finalized by aggregating the population data for individual Scheduled Castes and the Scheduled Tribes at appropriate geographical levels.

The entire work relating to the data validation and scrutiny was completed by all the States/Union Territories under the overall supervision and monitoring of the Census Division of the Office of the Registrar General, India with active cooperation and support of the Social Studies Division, Data Processing Division, Data Dissemination Division and Map Division.

**Primary Census Abstract**

The Primary Census Abstract which is yet another important population of 2001 Census gives basic information on Area, Total Households, Total population, Scheduled Castes, Scheduled Tribes population, Population in the age group 0-6, Literates, Main workers and Marginal workers classified by the four broad industrial categories, namely, (i) Cultivators, (ii) Agricultural laborers, (iii) Household Industry Workers, and (iv) Other workers and also Non-workers. The characteristics of the Total Population includes Scheduled Castes, Scheduled Tribes, Institutional and Houseless population and are presented by sex and rural-urban residence. This data is presented at different levels, namely, India, States/Union territories, Districts and Cities, Urban Agglomerations (Population 1,00,000 and above) in three different tables. In addition, the Appendix of said publication provides Houseless and Institutional Households and their population by residence and sex for 2001 for India, State and Union territory.

Apart from the India and State/Union Territory volumes for Primary Census Abstract, the District Census Handbook contains District Primary Census Abstract, Appendix to District Primary Census Abstract, Primary Census Abstract for Scheduled Castes, Primary Census Abstract for Scheduled Tribes, Village Primary Census Abstract and Urban Primary Census Abstract of the concerned district in the state.

It was for the first time at the 1981 Census that the Primary Census Abstract (PCA) was brought out for the Scheduled Castes and the Scheduled

Tribes separately on the pattern of General Primary Census Abstract. This practice was continued in 1991 also. In the 1961 and 1971 Censuses, such data were made available in Table C-VIII-Social and Cultural table and to some extent in the series 'Special Tables for Scheduled Castes/Scheduled Tribes'.

The format of Primary Census Abstract has been restructured slightly in the 2001 Census as compared to that of 1991 Census. The nine-fold industrial classification of main workers given in the Primary Census Abstract of 1991 Census has been discontinued and its place, four-fold industrial classification of both 'main workers' and 'marginal workers' are included. In 1981 census only main workers were presented in to four categories. One of the novel features of the primary census abstract of 1991 census was the presentation of data of the population of age group 0-6 is continued in 2001 Census also. This will help the data users in better analysis and understanding of this literacy data.

**Level of presentation in District Census Handbooks:**

| | Name of the Primary Census Abstract | Level of presentation |
|---|---|---|
| 1. | District Primary Census Abstract | District/CD Block/UA/City/Town |
| 2. | Primary Census Abstract for Scheduled Castes | District/CD Block/Town |
| 3. | Primary Census Abstract for Scheduled Tribes | District/CD Block/Town |
| 4. | Village Primary Census Abstract | CD Block/Village wise |
| 5. | Urban Primary Census Abstract | Town/Ward level |

The Primary Census Abstract data in different PCAs are presented at different levels. The level of presentation of Primary Census Abstracts are as under:

The PCA Data for villages was presented CD Block wise for the first time in 1991 Census. This practice is continued in 2001 Census also. The data for each CD Block is presented both for rural and urban areas separately. All the villages within the CD Block constitute the rural portion and the Census Towns and Outgrowths are shown under the urban portion of the CD Block. In case a CD Block is spread over two or more districts, than portion which falls within the district is presented, the data pertaining to remaining portion of the CD Block is presented in the concerned District Census Handbook. The data in the Urban Primary Census Abstract for each town as well as for town with outgrowths in the district are presented. The data for all the wards and the outgrowths of the town(s) are also presented separately below the concerned town(s).

The District Primary Census Abstract is presented in 59 columns. The Primary Census Abstract for Scheduled Castes and Primary Census Abstract for Scheduled Tribes are presented in 52 columns. The Village Primary Census Abstract and Urban Primary Census Abstract are presented in 58 columns.

The concepts and definitions used in the column heading are explained under the sub heading 'Census Concepts' in the Analytical Note. The term 'Total Population' includes the Scheduled Castes, the Scheduled Tribes, the Institutional and the Houseless populations. The explanation regarding area figures presented at various level in the Primary Census Abstracts are as follows:

**Area Figures**

The area figures supplied by local revenue authorities of the district in respect of tehsils, Police Stations and by the local bodies in respect of towns are given in square kilometers. The area figures of the villages supplied by the Tahsildars in acres have been converted and shown in hectares. The area figures of the CD Block is the total of the village areas coming under each CD Block. The area figures for the district are the same as adopted by the Surveyor General of India to maintain uniformity at the national level. The total area figures of all the tahsils/CD Blocks within the district may not tally with area figures of the district because former represents land use area only. Similarly, the total of all the villages may not tally with the entire rural of Police Station/Tahsil. The difference may be due to the fact that while the area covered by hills, forests and rivers etc, have been accounted in the Tahsils and P.S. level the same may not be covered under the area of the villages. Apart from this it may also differ due to varying methods of computation adopted at different levels.

An appendix to District Primary Census Abstract has also been furnished showing urban enumeration block-wise particulars on Total Population, the Scheduled Castes Population and the Scheduled Tribes Population for each town.

**DISTRICT PRIMARY**

| Location code number | District/ CD Block/ U.A./ City/ Town | Total/ Rural/ Urban | Area of Town/ Ward in square kilometre | Number of households | Total population (including institutional and houseless population) | | | Population in the age-group 0-6 | | |

Not provided for this district.

## ANNEXURE - II

## FERTILITY AND MORTALITY 1991 CENSUS

The three factors affecting the population size of the district are fertility, mortality and migration. These concepts are explained in detail under the caption Census and Non- Census Concepts and Definitions in the Analytical Note portion. One major aspect of consideration under mortality is infant and child mortality. Migration may be perceived as percentage distribution of migrants by place of birth and/or place of last residence. At the 1991 Census the district was part of Uttar Pradesh, which in north –central India, is still the country's most populous state even after carving out of Uttaranchal in year 2000.The population of the UP state was 139 million at the 1991 Census, which accounted for 16 per cent of India's total population. It grew by 25 per cent between 1981 and 1991 largely as a result of high fertility, the highest of any Indian state.

The child mortality indicators at the 1991 Census in the district and the State was as following:

**Child Mortality Indicators in the State and the District**

| Indicator | Persons/Males/Females | UP* | Rae Bareli |
|---|---|---|---|
| Q1 | Persons | 99 | 107 |
| | Males | 98 | 104 |
| | Females | 104 | 109 |
| Q2 | Persons | 117 | 142 |
| | Males | 117 | 134 |
| | Females | 118 | 143 |
| Q5 | Persons | 134 | 169 |
| | Males | 135 | 159 |
| | Females | 132 | 168 |

(*Undivided Uttar Pradesh at 1991 Census)

The child mortality by ages 1, 2 and 5 years was higher in the district as against the State, The child mortality indicators in the district shower higher proportion both for males and females in the ages 1,2 and 5.

**Annexure III**

**Various measures of 6 utility and mean age at marriage 1991 census**

| Sl. No. | Fertility Measures | Person/Male/Female | Uttar Pradesh | Rae Bareili |
|---|---|---|---|---|
| 1 | 2 | 3 | 4 | 5 |
| 1 | CBR | | 37.2 | 40 |
| 2 | TFR | | 5.6 | 6 |
| 3 | TMFR | | 6.3 | 6.6 |
| 4 | GFR | | 172 | 180 |
| 5 | GMFR | | 200 | 207 |
| 6 | Mean age at marriage (1981-91) | | 17.3 | 17 |
| 7 | Number of children ever born per ever married woman aged 15-49 years | | 4.6 | 4.9 |
| 8 | Child woman ratio 0-4 | | 631 | 594 |
| | 5-9 | | 752 | 706 |

Measures of fertility is an important component to describe fertility and mortality rate of any area. The table reveals that the Crude Birth Rate (CRB), which is the ratio of the number of live births in a year to the mid year population, is 40.0 per thousand in the district which is higher to the state of Uttar Pradesh i.e. of 37.2 per thousand . In respect of Total Fertility Rate (TFR), Total Marital Fertility Rate (TMFR), the district presents a higher proportion from the state figures. The conclusion that may be drawn is higher fertility ratio for the district. The mean age at marriage during the period 1981-91 has been 17.3 years for the state where as 17.0 years has been observed for the district. It may be observed that lower age at marriage leads to high rate of fertility in the state and district as well. Number of children born per ever married women in the age group 15-49 is higher in the district as compared to the state. The state and the district figures are placed as 4.6 and 5.9 per thousand respectively. Number of children in the age group 0-4 and 5-9 years per one thousand women in the age group 15-49 has been calculated to 594 and 706 for the district while in case of the state the corresponding figures are 631 and 752. The various measures of fertility presents that levels as such are high to the state average.

The annexure presented above shows percentage distribution of in-migrants as per the 1991 and 2001 Census amongst the total migrants in the state and district. There are two type of in-migration in the district such as in-migration by place of birth (in which a person is enumerated during the census at a place other than place of birth) and in-migration by place of last residence (a person is enumerated during the Census at other than his place of last residence). The comparison between 1991 Census and 2001 Census reveals that among the total migrants the proportion of in-migrants within the state (from other district of state) was 81.3 percent and 79.6 percent respectively. The corresponding figure for the district was 90.4 in 1991, while in 2001 it was 89.6 percent respectively. The proportion of in-migrants from other states was 16.2 percent at state level during 1991 Census, whereas it rose to 19.3 percent in 2001. The district level figure was 9.1 percent and 10.2 percent respectively. This shows in-migration from other state to this district was almost same in 2001 in comparison to 1991. At district level in-migration from other countries was 0.5 percent in 1991 and 0.2 percent in 2001. While at state level figures were 2.5 percent and 1.1 percent during 1991 and 2001 Census respectively.

In respect of in-migrants by place of last residence, it is evident that in-migrants from other districts of the state amongst total migrants, constituted 79.6 percent in 1991, while it was recorded 74.1 percent in 2001 at state level. District level figures were 88.3 percent and 81.7 percent during 1991 and 2001 Census respectively. The percentage of in-migrants from other states worked out to be 18.9 in 1991 and 25.2 percent in 2001 at state level, whereas district figures for both the Censuses were 11.3 percent and 18.2 percent respectively. The movement of population from other countries in the district was 0.4 percent in 1991 and 0.1 percent in 2001, while state level figures were 1.5 percent and 0.7 percent respectively.

Annexure-V presents composition based on religions at the state, district and tahsil level. If we compare the data for 1991 and 2001 Census, we find that demographic pattern based on religions is almost same in both Censuses at the state level. Hindu religion predominates with 81.7 percent population in 1991 and 80.7 percent in 2001 followed by Muslim which were 17.3 and 18.5 percent respectively. Against this, district figure for Hindu religion were 88.5 percent in 1991 and 88.0 percent in 2001, while Muslim were 11.4 percent in 1991 and 11.8 percent in 2001. Rest of the four religions i.e. Buddhist, Christian, Jain and Sikh alongwith combined population of other religion had insignificant proportion which was less than one percent of total population for each religion. Similar trend is visible for state, district and at tahsil level in 1991 as well as 2001 Census.

Annexure-VI deals with marital status of different age groups of population. On perusal of the annexure for state and district for two respective Census in the years 1991 and 2001, it is evident that, for all ages the percentage of never married is higher than proportion of married for state and at the district level also. Percentage of never married has increased from 54.4 percent male and 45.9 percent female in 1991 to 57.5 percent male and 48.9 percent female in 2001 at state level, while it rose marginally in the district from 50.6 percent male and 43.5 percent female to 55.5 percent male and 48.0 percent female. Percentage of married male and female shows declining trend in comparison to 1991 from 42.4 percent male and 49.4 percent female to 39.8 percent male and 46.2 percent female. At district level it was 45.1 percent and female was 50.8 percent in 1991 and in 2001 it was 41.0 percent male and 46.1 percent female. Percentage for widowed persons at state level was 3.0 percent male and 4.6 percent female in 1991 and in 2001 it was 2.6 percent male and 4.8 percent female. At district level in 2001 it was 3.1 percent male and 5.6 percent female while it was 3.8 percent male and 5.4 percent female in 1991 Census. Percentage of divorced and Separated remained constant at 0.1 percent for male and female in state and district level during 1991 and 2001. None person was recorded in the category of Unspecified marital status in state and district during 2001 Census. Among the age groups, the proportion is in the descending order for never married and ascending order for widowed. The trend for married is pyramidal the peak being between 25-29 and 45-49 (years) age-groups.

Age and sex wise education in the state and district has been presented in the Annexure - VII. From the annexure it can be observed that percentage of illiterates has declined from 55.3 percent male and 80.0 percent female in 1991 to 44.2 percent male and 65.9 percent female in 2001 at the state level. Consequently percentage of literates has increased in all educational levels. Percentage of literates without educational level was 2.0 percent male and 0.7 percent female in 1991 at state level, which increased to 2.8 percent male and 2.1 percent female in 2001. Similarly primary level education was 10.7 percent male and 6.1 percent female in 1991 and percentage for male and female rose to 16.0 and 11.5 respectively in 2001. Middle level education was 9.8 percent male and 3.7 percent female in 1991 which increased to 13.8 percent male and 7.1 percent female in 2001. Matriculation and above level was 13.5 percent male and 4.4 percent female in 1991 which was 20.4 percent male and 9.0 percent female in 2001.

Similar trend can be observed in the district also. Illiterates were 57.1 percent male and 83.2 percent female in 1991 which declined to 44.9 percent male and 67.9 percent female in 2001. Primary level education was 11.9 percent male and 5.4 percent female in 1991, which was 17.3 percent male and 11.2 percent

female in 2001. Middle level education was 9.5 percent male and 3.1 percent female in 1991 and 14.6 percent male and 7.2 percent female in 2001. Matriculation and above level of education was achieved by 10.9 percent male and 3.0 percent female in 1991 which was 16.9 percent male and 7.2 percent female in 2001.

Primary level of education was highest in the age-group 7-14 in 2001; while middle level education was highest in 15-19 and the age group that had highest percentage of matriculation and above level of education was 20-24 (years).

Note : For state level only first 28 mother tongues and at district level only those mother tongues are shown in the table whose proportion is greater than 0.02%. The remaining tongues have been merged in the column of “Total of Other Mother Tongues.”

Annexure-VIII presents distribution of population according to different mother tongues with percentage for the state and the district. There is identical trend for Census of 1991 and 2001 as the highest percentage of the people reporting Hindi as the mother tongue (82.1 percent in 1991 and 83.1 percent in 2001). This trend is visible for the district as well. The district reported Hindi as mother tongue for 95.9 percent person in 1991 and 92.5 percent in 2001. Urdu returned as second largest spoken mother tongue as 9.0 percent was recorded in 1991 and 8.0 percent at the state level whereas at the district level Urdu with 3.5 percent in 1991 and in 2001 Awadhi with 4.2 percent returned as the second largest spoken mother tongue. Persons speaking other languages as mother tongue were very small in number in both the state, and district, in both Censuses.
