IMPORTANT METALLED ROAD

RAILWAY LINE:BROAD GAUGE

RIVER AND STREAM

VILLAGE HAVING 5000 AND ABOVE POPULATION WITH NAME — Narahat

TOWNS WITH POPULATION SIZE AND CLASS I, IV, V

DEGREE COLLEGE, TECHNICAL INSTITUTION

MOTIF

DASHAVATAR TEMPLE - DEOGARH

It is situated on the right bank of Betwa River and at the western end of the range of Hills in Lalitpur. The dence forested hills surrounding Deogarh harbour have a variety of wild life. The place is of great antiquarian, epigraphical and archeological importance and has been integral part of the history of the Gupta, the Gurjars, Pratihars and the Gonds, the Muslim rulers of Delhi, the Marathas and the British. It possesses, the remains of the fine Vishnu temple dating to Gupta era and several Jain temples. The architecture and sculpture of these temples display high level of craftsmanship.

Annexures - I To VIII

Annexure I Number of villages under each Gram Panchayat 499
Annexure II Fertility and Mortality, 1991 Census 499
Annexure III Various measures of fertility and mean age at marriage, 1991 Census 500
Annexure IV Percentage distribution of Migrants by place of birth/place of last residence, 1991 Census 501
Annexure V Brief account of main religions in the district/tahsil as per 1991 Census 503
Annexure VI Marital status of population as per 1991 Census 504
Annexure VII Age, Sex and Education in the district, 1991 Census 507
Annexure VIII Distribution of different mother tongues returned in 1991 Census 510

FOREWORD

The District Census Handbook (DCHB) published by Census Organisation since 1951 census, is one of the important publications in the context of planning and development at gross-root level. The publication, which is brought out for each district, contains several demographic and socio-economic characteristics village-wise and town-wise of the district alongwith the status of availability of civic amenities, infrastructural facilities, etc.

2. The scope of the DCHB was initially confined to a few Census Tables and Primary Census Abstract (PCA) of each village and town within the district. Thereafter, at successive censuses, its scope and coverage has been enlarged. The DCHB published at the 1961 census provided a descriptive account of the district, administrative statistics, census tables and a village and town directory including PCA. The 1971 census-DCHB series was in three parts: Part-A related to village and town directory, Part-B to village and town PCA and Part-C comprised analytical report, administrative statistics, district census tables and certain analytical tables based on PCA and amenity data in respect of villages. The 1981 census DCHB was in two parts: Part-A contained village and town directory and Part-B the PCA of village and town including the SCs and STs PCA up to tahsil/town levels. New features alongwith restructuring of the formats of village and town directory were added into it. In Village Directory, all amenities except electricity were brought together and if any amenity was not available in the referent village, the distance in broad ranges from the nearest place having such an amenity, was given. Information on new items such as adult literacy centres, primary health sub-centres and community health workers in the village were provided so as to meet the requirements of some of the Revised Minimum Needs Programme. Information on approach to the village was provided for the first time in the Village Directory so as to give the details on number of inaccessible villages in each district. In the Town Directory, a statement (IV-A) on slums was introduced to provide the details on civic and other amenities in the notified slums of Class I and Class II towns.

3. The 1991 census DCHB, by and large, followed the pattern of presentation of 1981 census, except the format of PCA was restructured. Nine-fold industrial classification of main workers was given against the four-fold industrial classification presented in the 1981 census. In addition, sex-wise population in 0-6 age group was included in the PCA for the first time with a view to enable the data users to compile more realistic literacy rate as all children below 7 years of age had been treated as illiterate at the time of 1991 census. One of the important innovations in the 1991 census was the Community Development Block (CD block) level presentation of village directory and PCA data instead of the traditional tahsil/taluk/PS level presentation. It was expected that the presentation of village directory and PCA data at CD block level will help the planners in formulation of micro level development plans, CD block being lowest administrative unit.

4. The present series of 2001 census DCHBs have been made more informative and exhaustive in terms of coverage and content. The Village Directory has been enlarged in scope by including a number of other facilities like banking, recreational and cultural facilities, newspapers and magazines and 'most important commodity' manufactured in village. Income and expenditure of gram panchayat, wherever possible, has been provided. Apart from these, more details on distance(s) at which basic amenities are available (if not available in the village), are given. This includes educational facilities (namely primary and middle schools and college), medical facilities (viz. Allopathic Hospital, Maternity & Child Welfare Centre and Primary Health Centre), drinking water, post & telegraph (post office and phone), communication, bank, credit societies and recreational facilities. In Town Directory, the statement on Slums has been modified and its coverage enlarged by including details on all slums instead of 'notified slums'. The information is given in case of all statutory towns irrespective

of their class, against only Class I and Class II towns in the 1981 and 1991 censuses. The basic amenities available in the villages and towns are analysed in depth with the help of a number of cross-classified inset tables and statements. Two other significant additions in the publication are inclusion of 'motif' highlighting significant characteristic of the district and analytical notes as annexures. The analytical notes on (i) fertility and mortality and (ii) various measures of fertility and mean age at marriage are prepared based on 1991 Census. Whereas, in the notes relating to (i) percentage distribution of migrants by place of birth/place of last residence, (ii) main religions, (iii) marital status of population, (iv) age, sex and education, and (v) distribution of spectrum of mother tongue, nature and extent of changes occurred in the district in its basic socio-demographic features during the decade 1991-2001 are analysed. The eight digits permanent location code (PLCN) to all the villages and towns have been assigned keeping in view the future needs.

5. The village and town level amenity data have been collected, compiled and computerised in prescribed record structure under the supervision of Dr. Ranbir Singh, Director of Census Operations, Uttar Pradesh. Thereafter, efforts have been made to ensure comparability of the information with that of 1991 census data and the information brought out by the respective state governments in their annual reports and statistical handbooks for various years after 1991. The task of planning, designing and coordination of this publication was carried out by Shri R.G. Mitra, Deputy Registrar General (C&T) and Dr. I.C. Agrawal, Senior Research Officer of Social Studies Division. Dr. R.P. Singh, Deputy Registrar General (Map) provided the technical guidance in the preparation of maps. Whereas, Shri Anil Kumar Arora, Deputy Director of Data Processing Division who worked under the overall supervision of Shri Himakar, Addl. Director (EDP) helped in preparation of record structure for computerisation of village and town directory data and the programme for the generation of Village Directory and Town Directory statements including analytical inset tables. The draft DCHB manuscripts received from the Census Directorates have been scrutinised in the Social Studies Division under the guidance of Shri S.L. Jain, Deputy Director and Shri R.K. Mehta, Assistant Director. I am thankful to all of them and others who have contributed to make this publication possible.

D.K. Sikri
Registrar General &
Census Commissioner, India

New Delhi
Dated: 17.10.2006.

Preface

The District Census Handbooks (DCHBs) are brought-out in two parts giving village and town wise data for each district. The first part contains non-census data for each village and town and is called Village and Town Directories Part A. The Part B provides Census data for rural area up to the village level and for urban areas up to ward level for each town or city in the shape of Primary Census Abstract (PCAs). The information contained in Primary Census Abstract and Village and Town Directory (VDs/TDs) has already been released for data users in soft copy. Data available in District Census Handbooks are very useful for policy planners. Administrators, Researchers and other socio-economic research centers. Till 1991 Census, all the inset tables included in District Census Handbooks were produced manually. But this time the software designed by the Data Processing Division of the Office of the Registrar General, India helped in the fast generations of tables

I am deeply grateful to Shri J.K. Banthia, Ex-Registrar General and Census Commissioner of India for his guidance and support. I would like to thank Shri D.K. Sikri, Secretary, Registrar General and Census Commissioner of India for his sustained support and spontaneous, unfailing guidance through our endeavours. At the outset I thank to Shri R.C. Sethi. Additional Registrar General, India, who drove us to complete the District Census Handbooks within a specific timeframe and make it ready for printing.

I thank to Shri R.G. Mitra, Ex. Deputy Registrar General (C&T), Shri R.P. Singh, Ex. Deputy Registrar General (Map), Dr. I.C. Aggarwal, Ex. Assistant Registrar General (SS) of the office of Register General, India for their guidance at each steps in the preparation of District Census Handbook. Special thanks are due to Shri S.L. Jain, Deputy Director (Social Studies) and Shri Anil Kumar Arora, Deputy Director (EDP), without their untiring efforts and support we could not have completed the District Census Handbook within this time.

The Director of Census Operations, Uttar Pradesh, Dr. Ranbir Singh, under whose guidance, the entire operations were carried out deserves all credit for its success, but he was repatriated to the State Government for taking up some other important assignments before the volume could be made available for the printing. I am also thankful to Shri R. K. Singh, Ex-Joint Director and Shri S.S.A. Jafri, Deputy Director for their valuable guidance and support to complete this project within specific time frame. The task of data collection in respect of both Census and non-census items was a gigantic on which officials in the State Government had to perform along with their normal duties. For their deep sense of devotion to duty and hard work in this regard, I am thankful to all of them.

The preparation of District Census Handbook was done under the supervision and guidance of Shri B.K. Srivastava, Deputy Director of Census Operations and his team of dedicated workers deserve all praise for their perseverance and dedication in preparing for Camera Ready Copy of District Census Handbook.

I am also thankful to Shri Mohan Pandey, Ex-Deputy Director, Shri J. Majhi, Assistant Director, Shri M.M. Pandey, Dr. S.S. Sharma S.I. Grade-I and Shri S.K. Banerjee, S.I. Gr. II who assisted in the work for timely completion of the project. S.I.Gr.II, S.I.Gr.III, Sr.Compilers, Compilers, Data Entry Operators and Assistant Compilers who assisted in the work also did a tremendous job. Shri A.M. Ansari, Deputy Director (EDP) and his team of devoted workers deserve all praise for timely processing of Household Schedule through Image Based Data Capturing Technology i.e. Scanning. The members of the staff in the Map Section did a commendable job under the guidance of Shri Dashrath Singh, Research Officer (Map) in bringing out various maps.

Pradeep Kumar
Deputy Director of Census Operations,
Uttar Pradesh, Lucknow

ANALYTICAL NOTE

(i) History and Scope of the District Census Handbook

The district census handbooks were first published after 1951 census. Since then after every decadal census the publication has remained a constant feature with some improvements. This publication has been traditionally brought out by the Census Organization on behalf of each State Government/ Union Territory. This publication provides data on demographic characteristics as well as information on the availability of basic amenities in each village and town of respective districts. The scope of the publication has been changing with the changing needs of the data users. The 1951 census series of the publication contained Primary Census Abstract, Village and Town Directories, administrative statistics and an account of the district. In 1961 the publication was in a single volume containing three parts covering Census tables, official statistics and Village Directories. The 1971 Census DCHBs were published in 2 parts. The Part A contained Village and Town Directories and Part B contained Village and Town PCA. The Part C could not be published in many States/UTs which contained administrative statistics and district census tables. The 1981 DCHBs were published on the restructured formats of Village and Town Directories. The DCHBs of 1981 Census were published in 2 parts for each district. The Village and Town Directories comprised Part 'A' and PCAs of Villages and Towns (ward-wise) including Scheduled Castes and Scheduled Tribes PCA up to Tahsil/Town level were provided in Part 'B'. If any amenity except electricity was not available in the referent village, the distance in broad ranges from the nearest place having such amenities was given. Information on some new items were also provided keeping in view of the needs of the Revised Minimum Needs Program. The 1991 DCHBs were almost same in scope as was at 1981. The new features included in 1991 DCHBs were the nine-fold industrial classification of main workers and the sex-wise population in the 0-6 age group. Yet other information at the 1991 census was the CD Block level presentation of data. The VD data was also made available through the magnetic tapes/floppies. Unfortunately in UP no DCHBs relating to 1991 Census were out of press till completion of 2001 Census defeating the very purpose of these publications apart from causing inconveniences to the data users.

The 2001 DCHBs contain more information such as details on greater number of facilities available to the Villages/Towns. The analysis of data with aid of inset tables and statements is more informative. The 2001 DCHBs are fully geared to meet the requirements of Gram Panchayats. At the 2001 Census the DCHBs are entirely available on electronic format and on CD-ROM, hence the word "Handbook" seems now to be a misnomer.

(ii) Brief History of the District

The district is named after its headquarters town. Lalitpur has ancient history. It has been mentioned in Yagya Puran, Vishnu Puran and Varah Puran which are the oldest scriptures of the world, said to be about 5000 years old. It has also been referred in Ramayan as well as in Mahabharat. Tradition has it that Raja Sumer Singh who hailed from Daccan, founded the town Lalitpur and named it after his wife name Lalita.

This area was under the possession of Gonds. It was taken from Gonds early in the sixteenth century by Gobind Bundela and his son Rudra Pratap. Later on, it was included in Bundela state of Chanderi. In 1812 it became the headquarters of colonel Baptist who was appointed by Sindhiya to manage Chanderi when it came under his control. This district was formed in 1844 with headquarters at Lalitpur. The district was named Lalitpur in 1861. In 1891 Lalitpur and Jhansi districts were united and it became a sub-division of Jhansi district. In the same year, it was included in Allahabad division. Lalitpur was again made a separate district on 01.3.1974 for administrative convenience and proper development. It was carved out of tahsils Lalitpur and Mahroni of district Jhansi.

(iii) Administrative Setup

To provide efficient administration the district is divided into three tahsils - viz Lalitpur, Mahroni and Talbehat. It also comprises of 6 development blocks - Talbehat, Jakhaura, Bar, Birdha, Mahroni and Madawara. There are 778 revenue villages and 4 towns in the district. One town is administered by Nagar Palika Parished - Lalitpur Remaining three towns are under Nagar Panchayat- Talbehat, Mahroni and Pali.

Jurisdictional Changes (1991-2000)

No jurisdictional change has been taken place during 1991-2000.

District Administration

District administration comprises of Revenue, Development, Police (Law and Order), Judiciary, and Local self-government. District Magistrate is in-charge of revenue administration. He is assisted by Additional District Magistrate (Finance and Revenue) i.e., ADM (F&R). At the tahsil level, Sub Divisional Magistrate is in-charge, who is now re-designated as Up-Jila Adhikari. He is assisted by Tahsildars in each tahsil and for revenue collection each tahsil is further entrusted to Naib Tahsildars and Kanongos circles respectively. For each revenue village, Lekhpal is in-charge. Chief Development Officer and District Development Officer are in-charge for development activities in the district. Various departments have departmental officers at the district level eg. Health, Panchayat Raj, Electricity, Transport, Irrigation, Jal Nigam, Animal Husbandry,

Harijan and Samaj Kalyan, Agriculture, Horticulture, PWD, etc, each have a department at district level office, departments point of view the district is divided into community development block. Block Development Officers (BDO) looks after development works at community developments block level. Similarly Assistant Development Officer and Village Development Officers at village level.

Under the police set-up Senior Superintendent of Police in big district and Superintendent of Police in small districts are incharge. Additional Superintendent of Police (ASP) and their respective area. Deputy Superintendent of Police (DSP) look after the Thanas allotted to them. Police Inspector and Sub-Inspector are in-charges of their police stations depending upon the population and area.

The judicial administration of the district is headed by District and Session Judge. In addition there are several Additional District Judge, Civil Judge, Chief Judicial Magistrate and Munsif Magistrate etc.

The nucleus of the district body for self government is consisted of Mayor and Mukhya Nagar Adhikari (MNA) in the case of Nagar Nigam, Chairman, Executive Officer in Nagar Palika Parishad and Nagar Panchayat. Chairman District Board and Gram Pradhan in Panchayats and Pramukh of Kshetra Samiti etc. come under Local self-government.

(iv) Physical Features

Location and size :

District Lalitpur lies between $24^0 11'$ and $25^0 77'$ North latitude and $78^0 11'$ and 78^0 79' East longitude in the extreme South west corner of Uttar Pradesh. The district of Lalitpur is surrounded by Madhya Pradesh from three sides. It is connected with the district of Jhansi in the North where river Betwa forms its district boundary for about 15 Kms. In the East lies district Tikamgarh of Madhya Pradesh, in the West Guna district of Madhya Pradesh and in the South Sagar district of Madhya Pradedsh forms the boundary.

The Western boundary of the district runs along river Betwa for about 96 Kms. The South west boundary is formed by Narain Nandi, the North-east by river Jamni for about 65 Kms. and the South-east boundary for about 40 Kms. by river Dhasan.

Total area of the district is 5,039 sq.kms. Nearly 5 sq.kms. of area fluctuates due to change in the course of river.

Physiography :

The entire district of Lalitpur may be classified as hilly in character. In its extreme South, it meets the abrupt Northern escarpments of the Vindhyan plateau. The hills in the South occur in small groups or in continuous narrow chains running parallel to each other from North-east to South-west, the ridges being mostly bare and the slopes covered with thick shrub jungles. In the South, the average height of the Vindhyan plateau is 500 metres above sea level and it falls upto 300 metres in the North. The plateau is intersected by wide valleys and the entire tract is covered with vegetation varying from shrubs and thorns to trees. From the base of the plateau to the town of Lalitpur, there is a black soil plain which is dissected by numerous ravines and nullahs and is characterised by undulating topography. On the basis of geology, soil, topography, climate and natural vegetation, the district is divided into four regions.

Lalitpur uplands : Formed of Archaen rocks, the region covers the inter-fluvial zone of Betwa and Sajnam rivers. The general slope is towards North with local variations. The averages height ranges from 300 to 400 metres. Hillocks or rocky knobs are spread over the area.

Jamini-Sajnam Basin : The region lies between Jamni and Sajnam rivers. The slope is from South to North. Numerous hillocks are spread over in the region.

Mandwara Uplands : The region stretches in the Western part of Mahroni tahsil. The slope of the area is towards West. It is formed of granites of Archaen age.

Lalitpur Hill Tract : The region is located in the Southern most part of tahsils of Mahroni and Lalitpur in the strip form. It is a mountain belt covered with dense reserved forest. The maximum height rises up to 1,010 metres.

Drainage : The main river of the district is Betwa. The other rivers are Jamini, Shahjad, Sajnam and Rohit. Beside these other tributaries are Jamdar and Banai. There are many lakes or Jhils throughout the district.

Climate : The climate of the district is akin to the climatic condition prevalent in Central India. Sub-tropical in nature, it can be characterised by a very hot dry summer and a cold winter. From December to middle of February it remains cold. The temperature begins to drop by the middle of November. January is the coldest month. From March onwards, the temperature starts rising and the district faces hot climate till June. Being rocky area, with the cooling of the stones, nights becomes pleasant, summer is followed by the rainy season. The South–west monsoon reaches the district by the end of June and withdraws by the end of September. The Southern region of the district observes maximum rainfall and it decreases towards the North. During rainy season the

temperature of the district begins to fall. The months of October and November are the post-monsoon months when the day temperature rises slightly but the night temperature decreases progressively.

Natural and Economic Resources

Forestry :

Out of the total geographical area of 5,039 sq.kms. of the district Lalitpur, forest covers an area about 14.8 per cent. For administrative purposes total forest area has been divided into 8 forest ranges.

The dry tropical species of vegetation capable of sustaining on low rainfall are found in abundance. The forests in the district may be classified into three types-the Northern-southern dry miscellaneous forest, the Northern thorn forests and the dry tropical shrub forests. The main species of trees found in the forests are *dhak, khair, thuar, mahua, chironji, tendu, teak, ghont, salai and bans etc.*

Forest products provides raw material for many industries. Products available from the forests are timber for furniture and woods for fuel, gum, honey, lakh, tendu leaves for biri industry, bamboo for paper industry, chironji, herbs for medicines. Hide of wild animals are also available for shoe manufacturing and other industries. Khair is used in manufacturing catechu . Besides these, the villagers around forests get woods for fuel, mahua, grass as fodder for their animals and many types of other fruits. The chief grasses found in the district are musel, guner, lampo or parba the well known spear grass of Bundelkhand and Bhanpuri.

Under social forestry scheme extensive afforestation drive has been taken up by various agencies, such as Government departments, NGO's and Gram Sabhas.

Minerals and Mining :

The district is rich in minerals Granite sound dimensional stone is available in plenty in the district, which is exported to foreign countries, earning foreign exchange for the country. Paraphlite and Diaspore are also available in the district, which are used for ceramic insulater, cosmetic, paperweight, slate and pencils. Another type of mineral is soap stone (Gaura Pathar), which is found in the hilly tracts of Kailguwa under Bar development block, utilised for manufacturing cup, saucer and toys. Beside these Rock phosphate are also found around villages of Sorai and Pisnari in Mahroni tahsil, which is used for manufacturing fertiliser. Survey work is being carried by U.P. Mineral department as there are ample scope for other minerals like Uranium etc.

Soil :

The soil of the district is not very fertile. Cultivable lands of many region remains uncultivated because Rawad and Padna soil loses its fertility after harvesting of one crop. It is, therefore, essential to plant more and more trees in this region.

Land and Land use Pattern :

Out of the total available area of 509,436 hectares, forest covers an area of 74,415 hectares. Cultivable barren land covers 100,045 hectares, barren and uncultivable land is spread in 17,688 hectares, lands put to non-agricultural uses covers an area of 29,477 hectares. Net area sown is about 237,567 hectares.

Land holdings are generally small in size, Number of land holdings with a size of less than one hectare are 44,605, which is about 35.9 per cent of total land holdings but covers about 10 per cent of total cultivable land. Similarly number of land holdings with a size of 1 to 2 hectares are 48,873 which is about 38 per cent of total land holdings, which covers an area of 32 per cent of total cultivable land. Contrary to this, land holdings with a size between 2 to 5 hectares and above 5 hectares together constitutes only 27 per cent of number of holdings but covers an area of 58 per cent of total cultivable land . It clearly depicts that small land holdings are higher in numbers, which are economically not viable.

Agriculture and Crop Pattern :

Survey of economic activities of the workers show that the economy of the district is predominantly agricultural as 80.3 per cent of main work force is depended on agriculture.

Two main harvests namely rabi and kharif are sown. The agriculture pivoted on the cultivation of food grains. Wheat is the foremost crop cultivated in an area of 92,306 hectares, followed by maize in 19,777 hectares and jwar 13,322 hectares. Among pulses Urad is shown in 19,851 hectares followed by Masoor in 10,003 hectares. None of the commercial crops occupied substantial area.

The economy of the district is predominantly agricultural. Two main harvests namely Rabi and Kharif are sown. Main crops produced are wheat, paddy, maize, Jwar, bajra, pulses and oil seeds. Output of main crops per hectare during 1996-97 were paddy 7.7 quintals, wheat 18.4 quintals, barley 15.8 quintals, jowar 9.1 quintals, bajra 6.9 quintals, maize 7.8 quintals, Moong 5.4 quintals, Masoor 12.3 quintals, gram 12.3 quintals and arhar 9.5 quintals.

For increasing production of crops amenities available in the district during 1997-98 were, 70 seed stores/fertilizer depots, 58 rural godowns and 43 insecticide depots.

Irrigation :

Irrigation facilities available in the district were 661 kms., long canal network, one government tubewell, 359 private tubwells, 19,429 wells, 17,446 Persian wheels and 16,505 pumpsets, which includes 9,624 ground level pumsets and 6,881 pumpsets installed on boring. The canal irrigation system consisted of Mata tila, Govind Sagar, Sukhwa Dukhwa Jamini dam, Sejwan and Rohini dam. Rajghat dam is also nearing completion.

Animal Husbandry :

Animal husbandry is an integral part of rural economy. It helps in supplementary income of the people living in villages. It provides milk and milk products, while it also provides drought power for agriculture. During livestock census of 1993 the number of cattle enumerated were, bovine population 409,923, where as 114,091 buffaloes, 23,076 sheeps, 131,238 goats and 3,745 pigs were counted. There were also 45,023 poultry. For keeping animals healthy and to improve the progeny of animals, the district during 1997-98 had the facilities of 26 veterinary dispensaries, 25 livestock development centres, 20 artificial insemination centres, 9 animal breeding farms, 4 sheep development centres and 3 pig development centres. Gopal Kshetra Vikas Yojna (area development scheme) is functioning in two development blocks (Mahroni and Bar) under the aegis of State Government; under this scheme improvement of the breeds of cows and health check-up is being undertaken.

Fishery :

Fishery department has introduced schemes to promote pissiculture through scientifically developed technique in the district. The aim of such scheme is to provide employment to underprivileged class of the society, particularly the fishing community and to provide protein rich food to the people. As per the survey conducted in the districts, there are 155 ponds covering 4,336.1 hectares, 7 tanks covering 40,288.0 hectares and 4 lakes covering 872.3 hectares available under Gram Samaj and irrigation department. These ponds, lakes and tanks are assessed for their worthiness and given to fishermen on long term lease. Fishermen are also supplied fingerlings. Under central government sponsored National Fishermen Welfare Scheme during 1997-98, 7 houses were constructed for fishermen in village Jamalpur. The government agencies are giving yeomen services for the upliftment of fishermen by providing them training, giving loans and improving the condition of ponds.

Industry :

The district has not developed industrially despite of having mineral deposits. No large scale industry has been established in the district either in public or private sector. Seven units working under registered establishments and 1,389 units owned by individual entrepreneurs were functioning in small scale sector during 1997-98, engineering, chemical, tanning of hides, shoe making, baskets, manufacture of Persian wheels are some of the main units working in the towns of the district. Number of industrial estates during 1997-98 were 4, in which 89 plots had been allotted, out of which 31 had been occupied and production had been started.

Trade and Commerce :

Intra district trading of bidi, tendu leaves, betel and agricultural equipments are done.

Transport :

The district is served by the broad gauge of Central Railway, connecting it to Jhansi in the North and to Bina in the South-west. The rail track runs to a length of 75 kms., in the district. There are 9 railway stations, out of which seven were located in the rural areas. This shows that the district is poorly served by the rail transport. Comparatively, the road coverage is good. The district possessed 1,024 kms. of pucca roads of which 99 kms was covered by national highways. During 1997-98 the number of bus stations were 150.

Electricity and Power :

Electricity is essential infrastructural amenity required for industrial and primary development of an area. But district Lalitpur is lagging behind in this field. Due to shortage of electricity, industrial development has not taken place and electricity supply for agriculture is negligible. Efforts are being made to upgrade this facility. Electricity produced from Matatila dam has benefited entire division. Two sub stations of 233/11 kv were under construction at Bansi and Talbehat during 1997-98.

All the towns of the district have electricity and 53.8 per cent of the total inhabited villages (375 villages) have been electrified till 1997-98. During 1996-97 the consumption of electricity for domestic use dominated with 23,236 thousand Kwh. followed by railway 13,899 thousand Kwh., industrial use 7932 thousand kwh, agriculture 7035 thousand kwh. According to the provisional figures available, total consumption of electricity during 1996-97 was 60,941 thousand kwh.

Gram Panchayat, its composition, jurisdiction and role in village development :

In order to strengthen the Panchyat raj system, Gram Panchyat plays a pivotal role in the development of village economy. A total of 338 Gram Sabhas exists in the district. Gram Panchayats consists of Pradhan (President), Up Pradhan (vice president) and members. Elections are periodically held to elect members and

Pradhan of Gram Sabha. To ensure representation of all sections of society seats are reserved for scheduled caste, scheduled tribes and women. Tenure of Gram Panchayat is of five years or if shorter dissolved earlier. Village Panchyat meets once in a month and all the decisions are taken by majority of vote presided by Pradhan.

As many as 17 departments have been attached to Gram Sabha in order to ensure that the benefits of government programmes may reach to the common people living in the villages, Under civic and welfare facilities, it provides safe drinking water, better medical and health care, arranges primary and secondary education, maintains roads, drainage and other essential facilities required. Developmental functions include minor irrigation, agricultural plan, rural electrification, vocational education, rural housing, poverty alleviation programme. Its duties include implementation of various development plans, central and state government introduces from time to time.

(v) Census Concepts

Building:

A 'Building' is generally a single structure on the ground. Sometimes it is made up of more than component unit which are used or likely to be used as dwellings (residences) or establishments such as shops, business houses, offices, factories, workshops, worksheds, Schools, places of entertainment, places of worship, godowns, stores etc. It is also possible that building which have component units may be used for a combination of purposes such as shop-cum-residence,workshop-cum-residence,office-cum-Residence, etc.

Usually a structure will have four walls and a roof. But in some areas the very nature of construction of houses is such that there may not be any wall. Such is the case of conical structures where entrance is also provided but they may not have any walls. Therefore, such of the conical structures are also treated as separate buildings.

Permanent houses :

Houses, the walls and roof of which are made of permanent materials. The material of walls can be any one from the following, namely, galvanized iron sheets or other metal sheets, asbestos sheets, burnt bricks, stones or concrete. Roof may be made of from any one of the following materials, namely, tiles, slate, galvanized iron sheets, metal sheets, asbestos sheets, bricks, stones or concrete.

Semi-permanent houses :

Houses in which either the wall or the roof is made of permanent material and the other is made of temporary material.

Temporary houses

Houses in which both walls and roof are made of materials, which have to be replaced frequently. Walls may be made from any one of the following temporary materials, namely, grass, thatch, bamboo, plastic, polythene, mud, unburnt bricks or wood. Roof may be made from any one of the following temporary materials, namely, grass, thatch, bamboo, wood, mud, plastic or polythene.

Room :

A room should have four walls with a doorway with a roof over head and should be wide and long enough for a person to sleep in, i.e., it should have a length of not less than 2 metres and a breadth of at least 11/2 metres and 2 metres in height. A room, however, which is used in common for sleeping, sitting, dining, storing and cooking, etc., should be regarded as a room. An unenclosed verandah, kitchen, store, garage, cattle-shed and latrine and rooms in which a household industry such as a handloom is located, which are not normally used for living or sleeping are excluded from the definition of a living room for the purpose of this question.

One is likely to come across conical shaped hut or tent in which human beings reside. In such improvised accommodation, there will be no four walls to a room and therefore, the above definition would not strictly apply to such types of accommodation. In such cases, the tent or conical hut etc., have been construed to be a room.- In certain parts of the country, particularly in rural areas, the pattern of housing may present some problems. For example, a household may be in occupation of several huts put to different uses such as main residence, sitting room, store and even for sleeping at night. By strict application of the definition each one will be reckoned as a census house, but this does not reflect the real situation. While huts used as store or cattle shed pose no problems, those used as sleeping rooms beyond the main residence, should be counted as rooms rather than separate census houses. If a garage is used by a servant and he lives in it as a separate household, it should be reckoned as a room available to the servant's household. If the servant is considered as a member of the household then the garage room should be reckoned as an additional room of the household.

Dwelling Room

A room is treated as a dwelling room if it has walls with a doorway and a roof and should be wide and long enough for a person to sleep in, i.e. it should have a length of not less than 2 meters and a breadth of at least 1.5 meters and a height of 2 meters. A dwelling room would include living room, bedroom, dining room,

drawing room, study room, servant's room and other habitable rooms. Kitchen, bathroom, latrine, store room, passageway and verandah which are not normally usable for living are not considered as dwelling rooms. A room, used for multipurpose such as sleeping, sitting, dining, storing, cooking, etc., is regarded as a dwelling room. In a situation where a census houses is used as a shop or office., etc., and the household also stays in it then the room is not considered as a dwelling room. But if a garage or servant quarter is used by a servant and if she/ he also lives in it as a separate household then this has been considered as a dwelling room available to the servant's household. Tent or conical shaped hut if used for living by any household is also considered as dwelling room. A dwelling room, which is shared by more than one household, has not been counted for any of them. If two households have a dwelling room each but in addition also share a common dwelling room, then the common room has not been counted for either of the households.

Census house :

A 'census house' is a building or part of a building used or recognized as a separate unit because of having a separate main entrance from the road or common courtyard or staircase, etc. It may be occupied or vacant. It may be used for residential or non- residential purpose or both.

In certain peculiar situations, the manner in which buildings and census houses were identified for numbering in the field by the enumerators is described hereunder.

Sometimes a series of different buildings are found along a street which are joined with one another by common walls on either side looking like a continuous structure. These different units are practically independent of one another and are likely to have been built at different times and owned by different persons. In such cases, though the whole structure with all the adjoining units apparently appears to be one building, each portion was treated as a separate building and its constituent units as separate census houses.

On the other hand, one may come across cases, particularly in large cities of multi-storeyed ownership flats. In these cases while the structure looks like one building, different persons own the flats. In case of such multi-storeyed structures, having a number of flats owned by different persons, the entire structure was treated as one building and each flat as a separate census house.

If within a large enclosed area, there are separate buildings owned by different persons then each such building is treated as a separate building. There can be a situation where within an enclosed compound there are separate buildings owned by an undertaking or company or even government that are actually in occupation of different persons. For example, Indian Oil Corporation colony where the buildings are owned by the Corporation but these are in occupation of their employees. Each such building was treated as a separate building. But if in any one of these buildings there were flats in occupation of different households, each such flat was reckoned as a separate census house.

Sometimes it becomes difficult to apply the definition of census house strictly in certain cases. For example, in an urban area, if a flat has five rooms, each room having direct entrance from the common staircase or courtyard. By definition, this has to be treated as five census houses. If all these five rooms are occupied by a single household it was not realistic to treat them as five census houses. In such a case, 'singleness' of use of these rooms along with the main house should be considered and the entire flat was treated as one census house. On the other hand, if two independent households occupy these five rooms, the first household living in 3 rooms and the second household occupying 2 rooms, then considering the use, the first three rooms together were treated as one census house and the remaining rooms as another census house. But if each room was occupied by an independent household, then each such room was treated as a separate census house.

In case of hostels, hotels, etc., even if the door of each room in which an inmate lives opens to a common verandah, staircase, courtyard or a common room, as it happens almost invariably, the entire hostel/ Hotel building was treated as one census house. but if such hostels/hotels have out-houses or other structures used for different purposes or the same purpose, then each such structure attached to the main hostel / hotel was treated as a separate census house.

In some parts of the country, in rural areas, the pattern of habitation is such that a group of huts, located in a compound, whether enclosed or unenclosed, is occupied by one household. While the main residence may be located in one hut, other huts may be used for sleeping, as a kitchen, bath room, baithak, etc. Though each of the huts was a separates structure, they form a single housing unit and therefore, have to be treated collectively as one building and one census house. If some of the huts are used by one household and the others by a second household as residence, then the two groups of huts were treated as separate census houses. However, if there were also other huts in the compound used for other purposes and not as part of the household's residence such as, cattle shed, work shed, etc., these were treated as separate census houses.

On the other hand, in urban areas, where more than one structure within an enclosed or open compound (premises) belonging to the same person, e.g., the main house, the servant's quarter, the garage, etc., only one building number was given for this group and each of the constituent a separate census house number

Only cases where a structure with roof and pillars has come up was treated as a building.

Village-

The basic unit for rural areas is the revenue village, which has definite surveyed boundaries. The revenue village may comprise of one or more hamlets but the entire village is treated as one unit for presentation of data. In un surveyed areas, like villages within forest areas, each habitation area with locally recognized boundaries is treated as one village.

Rural-Urban area

The data in tables on Houses, Household Amenities and Assets are presented separately for rural and urban areas. The unit of classification in this regard is 'town' for urban areas and 'village' for rural areas. In the Census of India 2001, the definition of urban area adopted is as follows:

a) All places with a municipality, corporation, cantonment board or notified town area committee, etc.

b) A place satisfying the following three criteria simultaneously:

i) a minimum population of 5,000;

ii) at least 75 per cent of male working population engaged in non-agricultural pursuits; and

iii) a density of population of at least 400 per sq. km.(1,000 per sq. mile)

For identification of places which would qualify to be classified as 'urban' all villages, which, as per the 1991 Census had a population of 4,000 and above, a population density of 400 persons per sq. km. and having at least 75 per cent of male working population engaged in non-agricultural activity were considered. To work out the proportion of male working population referred to above against b) (ii), the data relating to main workers were taken into account.

Apart from these, the outgrowths (OGs) of cities and towns have also been treated as urban under 'Urban Agglomerations'. Examples of out-growths are railway colonies, university campuses, port areas, military camps, etc., that may have come up near a statutory town or city but within the revenue limits of a village or villages contiguous to the town or city. Each such individual area by itself may not satisfy the demographic criteria laid down at (b) above to qualify it to be treated as an independent urban unit but may deserve to be clubbed with the towns as a continuous urban spread. Thus, the town level data, wherever presented, also includes the data for outgrowths of such towns.-

City :

Towns with population of 1,00,000 and above are called cities.

Urban Agglomeration

An Urban Agglomeration is a continuous urban spread constituting a town and its adjoining urban outgrowths (OGs) or two or more physically contiguous towns together and any adjoining urban outgrowths of such towns. In some cases railway colonies, university campuses, port areas, etc., may come up near a city or statutory town outside its statutory limits but within the revenue limits of a village or villages contiguous to the town or city. Each such individual area by itself may not satisfy the minimum population limit to qualify it to be treated as an independent urban unit but may deserve to be clubbed with the town as a continuous urban spread.

-For the purpose of delineation of Urban Agglomerations during Census of India 2001, following criteria are taken as pre-requisites:

(a) The core town or at least one of the constituent towns of an urban agglomeration should necessarily be a statutory town; and

(b) The total population of all the constituents (i.e., towns and outgrowths) of an Urban Agglomeration should not be less than 20,000 (as per the 1991 Census).

With these two basic criteria having been met, the following are the possible different situations in which Urban Agglomerations would be constituted:--

i) a city or town with one or more contiguous outgrowths;-

ii) two or more adjoining towns with their outgrowths; and

iii) A city and one or more adjoining towns with their outgrowths all of which form a continuous spread.

Household

A 'household' is usually a group of persons who normally live together and take their meals from a common kitchen unless the exigencies of work prevent any of them from doing so. Persons in a household may be related or unrelated or a mix of both. However, if a group of unrelated persons live in a census house but do not take their meals from the common kitchen, then they are not constituent of a common household. Each such person was to be treated as a separate household. The important link in finding out whether it was a household or not was a common kitchen. There may be one member households, two member households or multi-member households.

Institutional household :

A group of unrelated persons who live in an institution and take their meals from a common kitchen is called an Institutional Household. Examples of Institutional Households are boarding houses, messes, hostels, hotels, rescue homes, jails, ashrams, orphanages, etc. To make the definition more clearly perceptible to the

enumerators at the Census 2001, it was specifically mentioned that this category or households would cover only those households where a group of unrelated persons live in an institution and share a common kitchen.-

Houseless household :

Households who do not live in buildings or census houses but live in the open on roadside, pavements, in hume pipes, under flyovers and staircases, or in the open in places of worship, mandaps, railway platforms, etc., are treated as Houseless Households.

Scheduled Caste and Scheduled Tribe

Article 341 of the Constitution provides that the President may, with respect to any State or Union territory, specify the castes, races or tribes or parts of or groups within castes, races or tribes which shall for the purposes of the Constitution be deemed to be Scheduled Castes in relation to that State or Union territory. Article 342 similarly provides for specification of tribes or tribal communities or parts of or groups within tribes or tribal communities which are to be deemed for the purposes of the Constitution to be Scheduled Tribes in relation to the various States and Union territories. In pursuance of these provisions, the list of Scheduled Castes and / or Scheduled Tribes are notified for each State and Union territory and are valid only within the jurisdiction of that State or Union territory and not outside.

It is important to mention here that under the Constitution (Scheduled Castes) Order, 1950, no person who professed a religion different from Hinduism was deemed to be a member of a Scheduled Caste in addition to every member of the Ramdasi, Kabirpanthi, Majhabi or Sikligar caste resident in Punjab or Patiala and East Punjab States Union were in relation to that State whether they professed the Hindu or the Sikh religion. Subsequently, in September 1956, by an amendment, the Presidential Order of 1950 and in all subsequent Presidential Orders relating to Scheduled Castes, the Hindu and the Sikh religions were placed on the same footing with regard to the specification of Scheduled Castes. Later on, as per the amendment made in the Constitution (Scheduled Castes) Order 1990, the Hindu, the Sikh and the Buddhist were placed on the same footing with regard to the recognition of the Scheduled Castes.

The list containing the names of the Scheduled Castes and the Scheduled Tribes applicable for the Census of India 2001 in the State are given below:-

Scheduled Castes :

1 Agariya
2 Badhik
3 Badi
4 Baheliya
5 Baiga
6 Baiswar
7 Bajaniya
8 Bajgi
9 Balahar
10 Balai
11 Balmiki
12 Bangali
13 Banmanus
14 Bansphor
15 Barwar
16 Basor
17 Bawariya
18 Beldar
19 Beriya
20 Bhantu
21 Bhuiya
22 Bhuyiar
23 Boria
24 Chamar,Dhusia, Jhusia, Jatawa
25 Chero
26 Dabgar
27 Dhangar
28 Dhanuk
29 Dharkar
30 Dhobi
31 Dom
32 Domar
33 Dusadh
34 Gharami
35 Ghasiya
36 Gond
37 Gual
38 Habura
39 Hari
40 Hela
41 Kalabaz
42 Kanjar
43 Kapariya
44 Karwal
45 Khairaha
46 Kharwar (excluding Banbasi)
47 Khatik
48 Khorot
49 Kol
50 Kori
51 Korwa
52 Lalbegi

53 Majhwar
54 Mazhabi
55 Musahar
56 Nat
57 Parahiya
58 Pasi, Tarmali
59 Patari
60 Patari
61 Rawat
62 Saharya
63 Sanaurhiya
64 Sansiya
65 Shilpkar
66 Turaiha

Scheduled Tribes

1 Bhotia
2 Buksa
3 Jaunsari
4 Raji
5 Tharu

Language and Mother tongue :

As per the census concept, each language is a group of mother tongues. The census questionnaire collects information on the mother tongue of each person and mother tongue is defined as the language spoken in childhood by the person's mother to the person. If the mother died in infancy, the language mainly spoken in the person's home in childhood will be the mother tongue. In the case of infants and deaf mutes, the language usually spoken by the mother is considered as mother tongue. It is not necessary that the language spoken as mother tongue should have a script. The mother tongues returned by the respondents in census are classified and grouped under appropriate languages according to their linguistic characteristics.-

Literate :

A person age 7 years and above who can both read and write with understanding in any language is taken as literate. A person who can only read but cannot write is not literate. It is not necessary that to be considered as literate, a person should have received any formal education or passed any minimum educational standard. Literacy could also have been achieved through adult literacy classes or through any non-formal educational system. People who are blind and can read in Braille are treated as literates.

Literacy rate:

Literacy rate of the population is defined as the percentage of literates in the age group seven years and above. For different age groups the percentage of literates in that age group gives the literacy rate.

Educational level

The highest level of education a person has completed.

Work:

Work is defined as participation in any eco-nomically productive activity with or without compensation, wages or profit. Such participation may be physical and/or mental in nature. Work involves not only actual work but also includes effective supervision and direction of work. It even includes part time help or unpaid work on farm, family enterprise or in any other economic activity. All persons engaged in 'work' as defined above are workers. Persons who are engaged in cultivation or milk production even solely for domestic consumption are also treated as workers.

Reference period for determining a person as worker and non-worker is one year preceding the date of enumeration.

Main worker:

A person who has worked for major part of the reference period (i.e. six months or more during the last one year preceding the date of enumeration) in any economically productive activity is termed as 'Main worker'.

Marginal worker :

A person who worked for less than six months of the reference period (i.e. in the last one year preceding the date of enumeration) in any economic activity is termed as 'Marginal worker'.-

Non worker :

A person who has not worked at all in any economically productive activity during the reference period (i.e. last one year preceding the date of enumeration) is termed as 'Non worker'.-

Cultivator :

For purposes of the Census a person is classified as cultivator if he or she is engaged in cultivation on land owned or held from government or held from private persons or institutions for payment in money, kind or share. Cultivation includes effective supervision or direction in cultivation.--

A person, who has given out her/his land to another person or persons or institution(s) for cultivation for money, kind or share of crop and who does not even supervise or direct cultivation in exchange of land, is not treated as cultivator. Similarly, a person working on another person's land for wages in cash or kind or a combination of both (agricultural labourer) is not treated as cultivator.

-Cultivation involves ploughing, sowing, harvesting and production of cereals and millet crops such as wheat, paddy, jowar, bajra, ragi, etc. and other crops such as sugarcane, tobacco, groundnuts, tapioca, etc. and pulses,

raw jute and kindred fiber crop, cotton, cinchona and other medicinal plants, fruit growing, vegetable growing -or keeping orchards or groves, etc. Cultivation does not include the following plantation crops – tea, coffee, rubber, coconut and betel nuts (areca).

Agricultural labourer-

A person who works on another person's land for wages in money or kind or share is regarded as an agricultural labourer. She/he has no risk in the cultivation, but merely works on another person's land for wages. An agricultural labourer has no right of lease or contract on land on which she/he works.-

Household industry worker :

Household industry is defined as an industry conducted by the head of the household herself/himself and or by the members of the household at home or within the village in rural areas and only within the precincts of the house where the household lives in urban areas. The larger proportion of workers in household industry should consist of members of the household including the head. The industry should not be run on the scale of a registered factory which would qualify or has to be registered under the Indian Factories Act and should be engaged in manufacturing, processing, servicing and repairs of goods.

It does not include professions such as a pleader, Doctor, Musician, Dancer, Waterman, Astrologer, Dhobi, Barber, etc. or merely trade or business, even if such professions, trade or services are run at home by members of the household.

Other worker :

A person who has been engaged in some economic activity during the reference period but not as a cultivator or agricultural labourer or in Household Industry is termed as a 'Other Worker (OW)'. The type of workers that come under this category of 'OW' include all government servants, municipal employees, teachers, factory workers, plantation workers, those engaged in trade, commerce, business, transport, banking, mining, construction, political or social work, priests, entertainment artists, etc. In effect, all those workers other than cultivators or agricultural labourers or household industry workers, are 'Other Workers'.

Work participation rate

Percentage of workers (main + marginal) to total population.

Population density :

Population density is the number of persons inhabited per square kilometer of the area.-

Age :

Age is measured in terms of the completed number of years.

Sex-ratio

Number of females per 1,000 males in a population.

(vi) Non Census Concepts

Improved drinking water :

If the household had access to drinking water supplied from a tap, hand pump, tube well or well (protected or covered) situated within or outside the premises, it is considered as having access to improved drinking water.

It may be mentioned that such uniform definition may not be valid across all states. --

System of Sewerage :

Generally, a sewerage system would mean a network of mains and branches of underground conduits for the conveyance of sewerage to the point of disposal. Sewers that carry only household and industrial wastage are called separate sewers; those that carry storm water from roofs, streets and other surfaces are known as storm water drains, while those carrying both sewage and storm water are called combined sewers. However, in some towns which are not provided with such underground sewerage system, it is served by open surface drain box drain, sylk pattern drain, etc., in these towns.

Type of latrine and method of disposal of night soil.

There are three prevalent systems of disposal of human wastes, viz. (i) underground sewerage, (ii) sanitary water flush latrines with individual disposal systems, like septic tank, leaching cess pool and collecting well, and (iii) dry type of latrines with manual scavenging.

The system of underground sewerage provides for the street sewerage with which are connected the sanitary latrines constructed in the houses having water closets and fitted with flushing cistern (or hand flushing). Through this sewer the faecal matter is transported without the need for scavenging. This system generally exists in cities and big towns.

Where the streets sewer does not exist these sanitary water flush latrines are connected to a local septic tank with a sub-soil dispersion system or a leaching pit. Here the liquid wastes from the water closet is disposed of locally in leaching pit, a septic tank with a soil dispersion system is constructed. This dispersion requires an optimum travel through the pores of the soil which renders the harmful liquid bacterially innocuous by the slow process of filteration through the soil traversed.

Where the soil is impermeable, collecting wells are constructed and the sanitary water flush latrines are connected with them. These wells are cleaned at periodic intervals by a suitable device. The dry type of latrines are of service type latrines from where human excreta is removed by scavengers from house to house, in most cases carrying it on their heads or shoulders or in baskets with handle or wheel barrows. These are then collected in bullock carts or trucks or tractors and trolleys for being carried to the dumping grounds.

Fertility :

In demography, the word fertility is used in relation to the actual production of children or occurrence of births specially live births. Fertility is a measure of rate at which population adds to itself by births and normally assessed by relating the number of births to a full or part of the population, such as number of married women or number of women of child bearing age. The definitions of the terminology used in computing different fertility rates are mentioned below:

Crude birth rate (CBR)

Ratio of the number of live births in a year to the mid year population, normally expressed per 1,000 population.

$$CBR = \frac{\text{Number of live births during the year}}{\text{Mid-year Population}} \times 1000$$

Crude death rate (CDR)

Ratio of the number of deaths in a year to the mid year population, normally expressed per 1,000 population.

$$CDR = \frac{\text{Number of deaths during the year}}{\text{Mid-year Population}} \times 1000$$

Natural growth rate-

Growth rate is obtained as the difference between crude birth rate and crude death rate in the absence of migration.

Age specific fertility rate (ASFR)

Number of live births in a year to female population in any specified age group normally expressed per 1,000 women.

$$ASFR = \frac{\text{Number of live births in a particular age-group}}{\text{Mid-year female population of the same age-group}} \times 1000$$

Age specific marital fertility rate (ASMFR)

Number of live births in a year to married female population in any specified age group normally expressed per 1,000 married women.

$$ASMFR = \frac{\text{Number of live births in a particular age-group}}{\text{Mid-year married female population of the same age-group}} \times 1000$$

General fertility rate (GFR)-

Number of live births per 1,000 women in the reproductive age-group (15-49) years in a given year.

$$GFR = \frac{\text{Number of live births in a year}}{\text{Mid-year female population in the age-group (15-49) years}} \times 1000$$

General marital fertility rate (GMFR)

Number of live births per 1,000 married women in reproductive age-group (15-49) years in a given year.

$$GMFR = \frac{\text{Number of live births in a year}}{\text{Mid-year married female population in the age-group (15-49) years.}} \times 1000$$

Total fertility rate (TFR)

It is obtained as the total of the age specific fertility rates (number of children born per woman of the particular age) for the entire reproductive age span. It provides the average number of children that will be born to a woman under the fertility levels indicated by the age specific fertility rates assuming that there is no mortality of women till the completion of reproductive period.

$$TFR = \frac{5 \times \sum_{15-19}^{45-49} ASFR}{1000}$$

Total marital fertility rate (TMFR)-

Average number of children that would be born to a married woman if she experiences the current fertility pattern throughout her reproductive span (15-49) years assuming that there is no mortality of women till the completion of reproductive period.-

$$TMFR = \frac{5 \times \text{å } ASMFR_{15\text{-}19}^{45\text{-}49}}{1000}$$

Age-specific mortality rate (ASMR)

Number of deaths in a particular age and sex group per 1,000 population of the same age group.

$$ASMR = \frac{\text{Number of deaths in a particular age-group}}{\text{Mid-year population of the same age-group}} \times 1000$$

Probability of dying between birth and age 1 This can be used as approximate value of Infant Mortality Rate (IMR) which gives the ratio of number of deaths in a year of children aged less than one year to the number of births in that year.

Probability of dying between birth and age 2

Probability of dying between birth and age 5. This indicator is also known as Under Five Mortality Rate (U5MR) --

Infant mortality rate (IMR)--

Ratio of the number of infant deaths (deaths of children below one year) in a year to the number of live births in that year.

$$IMR = \frac{\text{Number of infant deaths during the year}}{\text{Number of live births during the year}} \times 1000$$

Infant mortality rate comprises of two parts, viz., Neo-natal mortality rate and Post neo-natal mortality rate. The neo-natal mortality rate also comprises of two parts viz., Early neo-natal mortality rate and late neo-natal mortality rate. These are defined as.

Neo-natal mortality rate (NMR)

Number of infants dying within the first month of life (28 days or under) in a year per 1,000 live births of the same year.

$$NMR = \frac{\text{Number of infant deaths aged 28 days or under during the year}}{\text{-Number of live births during the year}} \times 1000$$

Early neo-natal mortality rate

$$= \frac{\text{Number of infant deaths of less than 7 days during the year}}{\text{Number of live births -during the year}} \times 1000$$

Late neo-natal mortality rate

$$= \frac{\text{Number of infant deaths of 7 days to less than 29 days during the year}}{\text{Number of live births during the year}} \times 1000$$

Post neo-natal mortality rate (PNMR)-

$$= \frac{\text{Number of deaths of 29 days to less than- One year during the year}}{\text{Number of live births -during the year}} \times 1000$$

Peri-natal mortality rate (PMR)

Number of still births plus deaths within 1st week of delivery per 1,000 births in a year.

$$PMR = \frac{\text{Number of still births and infant deaths of less than 7 days during the year}}{\text{Number of live births and still births during the year}} \times 1000$$

Still birth rate (SBR)

$$= \frac{\text{Number of still births during the year}}{\text{Number of live births and still births during the year}} \times 1000$$

Maternal mortality rate (MMR)

Number of deaths of women in the age group 15-49 while pregnant or within 42 days of termination of pregnancy from any cause related to pregnancy and child birth per 100000 live births in a given year.

$$MMR = \frac{\text{Number of maternal deaths to women in the age-group 15-49}}{\text{Number of live birth}} \times 100000$$

Eligible couple (Couples per 1,000 Population)

Number of currently married females in the age group 15-49 years per 1000 persons of all ages.

Child woman ratio (0-4)

1. Number of children in the age group 0-4 years per 1,000 women in the age group 15-49 years.

Child woman ratio (5-9)

2. Number of children in the age group 5-9 years per 1000 women in the age group 15-49 years.

Migration

Migration is the third component of population change, the other two being mortality and fertility.

A person is considered as a migrant by place of birth if the place in which he/she is enumerated during the census is other than the place of his/her birth.

Similarly a person is considered as a migrant by place of last residence if the place in which he/she is enumerated during the census is other than his/her place of immediate last residence outside the village or town and not simply in another house or locality in the same village or town.

Certain aspects concerning temporary movement/ migration of people has been explained below as these are important components concerning migration:

(i) Migration of persons in search of job is high in the country. In many cases such migrants are only seasonal in nature. People migrate to other places for work in a particular season and come back again to their usual place of residence after three or four months. All such workers are treated as migrants. Similarly, if a person moved to any other place for attending short term vocational or educational course that lasted for only few months of a year, she/he too were considered as a migrant.

(ii) Where a person had merely gone out to another place or had been shifting from one place to another purely on tour, pilgrimage, visit to hospital for treatment or for temporary business purposes, such persons are not deemed to have had another residence different from the place where she/he or her/his family normally resides. She/he is not considered as migrant.--

(iii) A woman temporarily moves into a hospital or to her parents or other relative's house for delivery and if the hospital or the parents/relatives houses is in a place different from usual place of residence, the place where the hospital or parents/relative's house is the place of last residence of the child but not of the mother.

A new response category 'Moved after birth' was added in Census of India 2001 in the question on 'reasons for migration' to bring out additional migration patterns. Natural calamities or distress migration as a reason for migration for last residence migrants included in 1991 Census, is covered under category of 'Others'. The reason for migration has been determined as applicable at the time of migration and not in reference to any point of time after that. For example, if a person had moved from the place of her/his last residence for the purpose of education and subsequently at some point of time got employment there only, the reason for migration would be 'education' and not 'work/employment'.

Internal and International migration

The migrational movements are of three types (i) Migration within the state itself with its components (a) Migration within the district of enumeration (intra district migration) (b) Migration from one district of state to another district of state (inter district migration), (ii) Migration from one state to another State of the country (inter-state migration), (iii) Migration from one country to another country. The first two streams together constitute internal migration, while the last type of movement is called international migration. The present name of the country, state or district and not the name by which they were known at the time of her/his birth or last residence were recorded.

Rural-Urban components of migration

Rural or Urban status in respect of migrants have been determined as applicable at the time of migration and not with reference to any point of time after that.

(vii) 2001 Census findings

Population Distribution

The total population of the district is 977,734 divided into the 835,790 in rural and 141,944 in urban areas. The most populous tahsil is Lalitpur with 405,746 population followed by Mahroni tahsil a population of 325,124. The least populous tahsil is Talbehat with a population of 246,864. The maximum urban population is at Lalitpur tahsil which is 120,611 followed by at Talbehat with 12,665 urban population whereas the least urban population is in Mahroni tahsil which is 8,668. At the 2001 Census the district has about 14.5 per cent

of its population living in towns. As compared to this in the State the same is about 20.8 per cent. The population of urban is highest at about 29.7 per cent in Lalitpur tahsil followed by about 5.1 per cent in Talbehat tahsil and least of about 2.7 per cent the Mahroni tahsil.

Size, Class and Status of Towns

There are 4 statutory Town in the district Lalitpur NPP with 111,892 population is Class I town Talbehat NP with 12,665 population is Class IV Town. There are two Class V towns in the district namely, Pali NP and Mahroni NP. The Lalitpur NPP is the only NPP in the district.

Population Growth

The population of the district in 1991, adjusted at jurisdiction of 2001 was 752,040. The population of the district at 2001 Census is 977,734. There has been decadal variation, in population since 1991 to 2001 is 225,691 in absolute term, (30.0 per cent). The males who were 403,685 at 1991 Census increased to 115,728 and females increased from 348,358 to 458,321 As against to 31.6 per cnet decadal growth in the district, the growth rate has increased 25.8 per cent in the state

Population Density

The area of the district is 5,039 square kilometre. The density of population in the district is 194 as compared to 690 in the state. In the rural areas of the district the population density is 167.

Sex ratio

The sex ratio in the district is 882 while it is 898 in the state. In the rural areas of the district the sex ratio is low 880 while it is 899, in urban areas. The urban sex ratio of the district is better than the rural. The sex ratio among three tahsils varies between 865 in Talbehat 889 in Lalitpur. Among C.D. blocks the sex ratio varies from 855 in Talbehat to 894 in Mahroni. The sex ratio in rural population in the district comes to 880. Among towns of the district the least sex ratio is found in Mahroni (NP) and highest in Pali (NP). The sex ratio of population in the age-group 0-6 is 931 in the district which is high to 882 from the general population. The sex ratio of the age-group 0-6 in rural areas is 935 against 902 in urban areas. The sex ratio of population in the age-group 0-6 among C.D. blocks varies from as low as 922 in Bar to as high as 955 in Mahroni. The sex ratio of rural population in the age-group 0-6 by ranges for about 21.9 per cent population in the range 900-949. The sex ratio in the age-group 0-6., Among towns varies from 890 in Lalitpur NPP to 990 in Pali NP.

Work Participation Rate

In the district about 43.2 per cent people came under working population. Average working population among males is about 50.4 per cent against about 35.0 per cent among females. Main workers constitute 29.6 per cent of population. Female workers predominate male among marginal workers. Non-workers contribute about 56.8 per cent of total population. Out of these about 70.6 per cent are from the urban population. In rural areas about 60.9 per cent females are Non-workers. Of the total worker population in the district 63.3 per cent are cultivators, 17.0 per cent engaged as agricultural labourers, 3.0 per cent in household industry and 16.7 per cent as other workers. Among male workers about 65.7 per cent are cultivators as compared to about 59.4 per cent among females. Similarly as against 23.1 per cent male same other workers, the proportion of female is only 6.2 per cent. In rural areas of the district as much as about 63.3 per cent of working population is cultivators as against only 8.4 per cent in urban areas. In case of other workers, the composition of rural and urban proportion is 16.7 and 79.2 per cent of working population. It may be mentioned that the working population in the district is about 43.2 per cent as compared to about 32.5 per cent in the state.

Literacy:

In the district about 49.5 per cent of the population is literate as against about 56.3 per cent in the state. In the district 63.8 per cent of the male population is literate as compared to 68.8 per cent in the state. However, among females the literacy in the district to about 33.0 per cent as compared to about 42.2 per cent at the state level. In the district literacy rate is about 75.1 per cent in urban areas as against about 44.8 per cent in rural areas. The gap in male/female literacy rate is 32.9 per cent in rural areas as compared to 20.6 per cent in urban areas. The literacy rate among C.D. blocks varies between 38.7 per cent in Talbehat to 50.4 per cent in Mahroni Similarly, the literacy rate among towns varies from about 62.7 per cent in Pali NP to 78.4 per cent in Mahroni (NP).

(viii) Brief analysis of PCA data

The district throws a vivid picture of its population at the 2001 Census. A few of the peculiar characteristics of the population is being highlighted through the following inset tables.

TABLE 1 : DECADAL CHANGE IN POPULATION OF TAHSILS BY RESIDENCE, 1991-2001

Serial number	Tahsil	Population						Percentage decadal variation 1991-2001			Percentage urban population	
		1991			2001							
		Total	Rural	Urban	Total	Rural	Urban	Total	Rural	Urban	1991	2001
1	2	3	4	5	6	7	8	9	10	11	12	13
1	Talbehat	NA	NA	NA	246,864	234,199	12,665	NA	NA	NA	NA	5.1
2	Lalitpur	NA	NA	NA	405,746	285,135	120,611	NA	NA	NA	NA	29.7
3	Mahroni	NA	NA	NA	325,124	316,456	8,668	NA	NA	NA	NA	2.7
District Total:		**752,043**	**646,495**	**105,548**	**977,734**	**835,790**	**141,944**	**30.0**	**29.3**	**34.5**	**14.0**	**14.5**

The growth rate of each tahsil in the Lalitpur district for total, rural and urban areas and percentage of urban population to total population is given in the table. The decadal growth rate of the district is 30.0 per cent during 1991-2001. The growth rate for rural and urban areas of the district is 29.3 and 34.5 per cent respectively. Out of the total population of the district 85.5 per cent lives in rural areas while 14.5per cent lives in urban areas of the district. The proportion of urban population has slightly increased during the decade from 14.0 per cent in 1991 to 14.5 per cent in 2001 in the district.

TABLE 2: NUMBER AND PERCENTAGE OF INHABITED VILLAGES IN SPECIFIED POPULATION SIZE RANGES WITH THE RELATED POPULATION , 2001

Serial number	District / C.D. block	Total number of inhabited villages	Total rural population			Number and per-centage of villages	Population less than 200	
			Persons	Males	Females		Males	Females
1	2	3	4	5	6	7	8	9

Table-2 gives C.D. block-wise population, number and percentage of villages falling in each range of population size of villages and number of males and females in each population range at C.D. block level in the district. Out of the 697 inhabited villages, 73 (10.5 per cent) are small sized villages with population below 200 persons. In the size of 200 to 499 persons there are 122 villages having 17.5 per cent villages of the district while in the size class of 500-999 population claims 210 villages with 30.1 per cent of the total villages in the district. 191 villages (27.4 per cent) are in the size class of 1,000-1,999 and 83 villages (11.9 per cent) are in the size class of 2,000-4,999. 16 villages (2.3 per cent) in the district fall in the ranges of 5,000 -9999 population. 2 villages (0.3 per cent) are in sze class 10,000 and above population.

Table 3 : New Towns, Denotified, Declassified and Merged Towns in 2001 Census

		Name of town
		1
(a)	New	
	(i) Statutory town	NIL
	(ii) Census town	NIL
(b)	Denotified	
	(i) Statutory towns of 1991 census de-notified and also did not satisfy the criteria to be treated as census towns.	NIL
	(ii) Statutory towns of 1991 census de-notified but identified as census towns based on demographic and economic criteria.	NIL
	(iii) Census towns of 1991 census are notified as statutory town in 2001 census.	NIL
(c)	Declassified	NIL
(d)	Wholly merged with other town(s)	NIL

**Declassified means the census towns of 1991 census which failed to satisfy the demographic and economic criteria.*

During the decade 1991-2001, no new town has been added or declassified or merged with other town in the district.

TABLE 4 : DISTRIBUTION OF VILLAGES BY POPULATION DENSITY, 2001

Range of population density (per square kilometre)	Total number of villages in each population density range	Percentage of villages in each population density range	Population	Percentage distribution of population
1	2	3	4	5
0-10	22	3.2	6,781	0.8
11-20	10	1.4	1,472	0.2
21-50	36	5.2	8,235	1.0
51-100	84	12.1	42,966	5.1
101-200	306	43.9	327,399	39.2
201-300	148	21.2	256,719	30.7
301-500	68	9.8	123,271	14.7
501 +	23	3.3	68,947	8.2
Not known	0	0.0	0	0.0
District Total:	**697**	**100.0**	**835,790**	**100.0**

The table 4 shows the distribution of villages by population density ranges. The inhabited villages of the district have been grouped under eight different ranges of density. The maximum number of villages i.e. 306 accounting for 43.9 per cent of the total inhabited villages of the district fall in the density range of 101-200 persons having 39.2 per cent population. The lowest ranges of 0-10 and 11-20 persons per sq. km. cover 32.villages (4.6 per cent). 23 villages (3.3 per cent) have very high density with more than 501+ above persons per sq. km. while the corresponding proportion in the lower range of 201 - 500 is 31.0 per cent of the total inhabited villages having 45.4 per cent population of the district. In the medium density ranges of 21 - 50 and 51-100 persons account for 5.2 and 12.1 per cent of inhabited villages respectively. Both these ranges claim 6.1 per cent rural population.

Table 5 : Sex Ratio of State and District 1901-2001

Year	UTTAR PRADESH			LALITPUR		
	Total	Rural	Urban	Total	Rural	Urban
1	2	3	4	5	6	7
1901	938	941	916	956	953	993
1911	916	922	866	946	943	976
1921	908	918	834	924	920	964
1931	903	916	813	932	928	985
1941	907	922	824	935	933	956
1951	908	922	827	931	929	953
1961	907	921	817	905	907	886
1971	876	884	826	855	858	828
1981	882	889	850	858	855	881
1991	876	879	864	863	859	888
2001	898	904	876	882	880	899

NOTE- Sex-Ratio has been defined here as the number of females per 1000 males

As per 2001 Census sex-ratio of 882 females per 1,000 males has been recorded in the district against the state average of 898. The sex-ratio of the district was significantly high as compared to the state average figures from 1901 to 1951 and remained above the state average figures during this period. The lowest sex ratio of 855 females per 1000 males were recorded in the district during 1971 against the state average of 876 females. It is also observed that the proportion of females in rural areas is higher than that of urban areas in 1961 and 1971 census in both district and state from 1901 to 1951 and 1981 to 2001 the proportion of females in urban areas is higher than rural areas in the district while in state vice-versa .

TABLE 6 : SEX RATIO BY TAHSILS, 2001

Serial number	Name of Tahsil	Sex ratio		
		Total	Rural	Urban
1	2	3	4	5
1	Talbehat	865	863	902
2	Lalitpur	889	885	899
3	Mahroni	887	887	895
District Total:		**882**	**880**	**899**

The table-6 presents the sex-ratio for total, rural and urban areas at tahsil level as per 2001 census. There are 882 females for every thousand males in Lalitpur district. It becomes clear from the table that sex-ratio in urban areas is higher than that of rural areas. The sex-ratio among rural and urban population is 880 and 899 females respectively. The rural sex-ratio in the tahsils varies between 863 in Talbehat tahsil and 887 females per 1,000 males in Mahroni tahsil. The sex-ratio in Lalitpur and Mahroni (T) is higher than district rural average (880). In urban areas the highest sex-ratio is recorded in Talbehat (902) and the lowest is in Mahroni urban (895).

TABLE 7 : SEX RATIO BY CD BLOCKS, 2001

Serial number	Name of C D block	Sex ratio
1	2	3
1	Talbehat	855
2	Jakhaura	881
3	Bar	876
4	Birdha	887
5	Mahroni	894
6	Mandawara	884
District (Rural) Total:		**880**

The table-7 shows C.D. block-wise sex-ratio for rural population in the district. The sex-ratio in rural areas comes 880 females per 1,000 males, as a whole. Among the C.D. blocks the highest sex-ratio of 894 females is found in Mahroni C.D. block and is fallowed by Birdha (887), while the lowest of 855 is recorded in Talbehat C.D. block. The sex-ratio of Jakhaura, Birdha, Mahroni and Mandawara C.D. block are higher than the district rural average of 880 females and in remaining blocks, this value is below the district average.

TABLE 8 : SEX RATIO OF RURAL POPULATION BY RANGES, 2001

Range of sex ratio for villages	Number of inhabited villages	Percentage of villages in each range	Population 2001	Percentage distribution of population
1	2	3	4	5
Less than 700	22	3.2	6,636	0.8
700-749	11	1.6	4,299	0.5
750-799	51	7.3	29,818	3.6
800-849	137	19.7	144,518	17.3
850-899	222	31.9	368,194	44.1
900-949	163	23.4	226,756	27.1
950-999	61	8.8	47,900	5.7
1,000-1,099	27	3.9	7,355	0.9
1100+	3	0.4	314	0.0
District Total:	**697**	**100.0**	**835,790**	**100.0**

Sex ratio (Rural) for District 880

Table 8 presents the distribution of villages by 9 sex-ratio ranges based on 2001 Census. The maximum number of villages i.e. 222 accounting for 31.9 per cent of the total villages having largest population of 44.1 per cent in the district fall in the sex-ratio range of 850-899 females per 1,000 males. It is followed by the sex-ratio range of 900-949, which claims 163 villages (23.4 per cent) and 27.1 per cent population. The highest range of 1,100 and above claims 3 villages (0.4 per cent). This range shares negligible per cent rural population of the district while in the sex-ratio range of 800-849, there are 137 villages (19.7 per cent). In remaining sex-ratio ranges of 1000-1099, 950-999, 750-799, 700-749 and less than 700 the number of villages are 27 (3.9 per cent), 61 (8.8 per cent), 51 (7.3 per cent), 11 (1.6 per cent) and 22 (3.2 per cent) respectively. In these ranges, the percentage of population is comparatively low. The maximum number of villages i.e 385 having maximum population (71.2 per cent) fall in the higher sex-ratio ranges of 850-949 females showing that in majority of villages the sex-ratio is significantly higher.

TABLE 9 : SEX RATIO OF URBAN AGGLOMERATIONS / TOWNS, 2001

Serial number	Name of U.A. / Town	Urban status of town	Sex ratio
1	2	3	4
1	Talbehat	(NP)	902
2	Lalitpur	(NPP)	897
3	Pali	(NP)	928
4	Mahroni	(NP)	895
Sex ratio (Urban) for the district		**899**	

Table 9 gives the sex-ratio of towns. The sex-ratio in urban areas of the district comes to 899 females per 1,000 males as a whole. Among 4 towns of the district the sex-ratio varies between 895 928. Pali NP has the highest sex-ratio (928), while Mahroni has the lowest sex-ratio of 895.females.

TABLE 10 : SEX RATIO OF POPULATION IN THE AGE GROUP 0-6 FOR TAHSILS, 2001

Serial number	Name of Tahsil	Total / Rural / Urban	Total population in 0-6 age group			Sex ratio for 0-6 age group
			Persons	Males	Females	
1	2	3	4	5	6	7
1	Talbehat	Total	50,731	26,448	24,283	918
		Rural	48,795	25,429	23,366	919
		Urban	1,936	1,019	917	900
2	Lalitpur	Total	81,265	42,264	39,001	923
		Rural	61,710	31,965	29,745	931
		Urban	19,555	10,299	9,256	899
3	Mahroni	Total	68,353	35,050	33,303	950
		Rural	66,889	34,300	32,589	950
		Urban	1,464	750	714	952
	District Total:	**Total**	**200,349**	**103,762**	**96,587**	**931**
		Rural	**177,394**	**91,694**	**85,700**	**935**
		Urban	**22,955**	**12,068**	**10,887**	**902**

The table 10 presents population of age-group 0-6 years and sex-ratio for total, rural and urban areas in respect of each tahsils of the district. Total population in age-group 0-6 is 200,349 persons comprising 103,762 males and 96,587 females. The total sex-ratio in this age-group works out 931 females for every thousand males in the district. The proportion of females in rural areas is higher than that of urban areas. The sex-ratio in rural and urban areas comes 935 and 902 females in this age-group respectively. The rural sex-ratio in tahsil varies between 919 in Talbehat tehsil and 950 in Mahroni tahsil. The sex-ratio of Mahroni (T) are higher than district rural average (935). Talbehat (T) has lowest sex-ratio of 918 females among the total population, as a whole. In urban areas, the highest sex-ratio is recorded in Mahroni urban (952) and the lowest is found in Lalitpur urban (899).

TABLE 11 : SEX RATIO OF POPULATION IN THE AGE GROUP 0-6 FOR C.D. BLOCKS, 2001

Serial number	Name of C.D. block	Total population in 0-6 age group			Sex ratio for 0-6 age group
		Persons	Males	Females	
1	2	3	4	5	6
1	Talbehat	27,628	14,344	13,284	926
2	Jakhaura	36,120	18,738	17,382	928
3	Bar	27,255	14,177	13,078	922
4	Birdha	34,083	17,667	16,416	929
5	Mahroni	27,139	13,880	13,259	955
6	Mandawara	25,169	12,888	12,281	953
District (Rural) Total:		**177,394**	**91,694**	**85,700**	**935**

Table 11 gives C.D. block-wise sex-ratio of rural child population in the age-group 0-6 years in the district. The sex-ratio is 935 for the district (rural). The sex-ratio of C.D. block varies between 922 to 955. It is highest in Mahroni C.D. block i.e. 955 followed by 953 in Mandawara C.D. block and lowest 922 females is found in Bar C.D. block. The sex-ratio of Mahroni and Mandawara C.D. block is higher than the district rural (935), while in remaining blocks, it is below the average of the district.

TABLE 12 : SEX RATIO OF RURAL POPULATION IN THE AGE GROUP 0-6 BY RANGES, 2001

Range of sex ratio for villages	Number of inhabited villages	Percentage distribution of villages	Population 2001	Percentage distribution of population
1	2	3	4	5
Less than 700	60	8.6	3,092	1.7
700-749	25	3.6	4,005	2.3
750-799	59	8.5	10,714	6.0
800-849	58	8.3	17,027	9.6
850-899	88	12.6	25,546	14.4
900-949	99	14.2	38,815	21.9
950-999	73	10.5	30,457	17.2
1,000-1,099	140	20.1	34,376	19.4
1,100+	95	13.6	13,362	7.5
District (Rural) Total	**697**	**100.0**	**177,394**	**100.0**

Sex ratio (Rural) for District: 935

Table 12 shows the distribution of villages in 9 sex-ratio ranges of the age-group 0-6 years as well as percentage of villages, total population and percentage of population of this age-group falling in each range of sex-ratio in the district.

The maximum number of villages i.e.140 (20.1per cent) having population (19.4 per cent) in the district (rural) fall in the sex-ratio range of 1000-1099 females per 1,000 males in age of 0-6 years. It is followed by the sex-ratio range of 900-949 which claims 99 villages (14.2 per cent) and 21.9 per cent population. Next to it, 95 villages (13.6 per cent) are in the range of 1,100+ with 7.5 per cent population. 88 villages (12.6 per cent) having 14.4 per cent population fall in sex-ratio range of 850-899. In remaining sex-ratio ranges of less than 700, 700-749, 750-799, 800-849, and 950-999 claim less number of villages and these are distributed as 60 (8.6 per cent), 25 (3.6 per cent), 59 (8.5 per cent), 58 (8.3 per cent) and 73 (10.5 per cent) respectively. In these ranges, the percentage of population is also low. It becomes clear from the table that more than fifty per cent of villages i.e. 407 having population (66.0 per cent) fall in the higher sex-ratio ranges of 900 to 949 and above.

TABLE13 : SEX RATIO OF POPULATION IN THE AGE GROUP 0-6 OF URBAN AGGLOMERATIONS / TOWNS, 2001

Serial number	Name of UA / Town	Urban status of town	Total population in 0-6 age group			Sex ratio for 0-6 age group
			Persons	Males	Females	
1	2	3	4	5	6	7
1	Talbehat	(NP)	1,936	1,019	917	900
2	Lalitpur	(NPP)	17,918	9,480	8,438	890
3	Pali	(NP)	1,637	819	818	990
4	Mahroni	(NP)	1,464	750	714	952
District(Urban) Total			**22,955**	**12,068**	**10,887**	**902**

Table 13 shows sex ratio of population in the age group 0-6 of urban agglomerations/towns, 2001. In urban area of the district Lalitpur total population in age group of 0-6 is 22,955 in which 12,068 males and 10,887 females and sex ratio of the urban areas of the district is 902. Among towns sex ratio in age group 0-6 varies from 890 in Lalitpur NPP town to 990 in Pali (N.P.) In Pali NP and Mahroni NP towns sex ratio is more than the district average. Among 4 towns Lalitpur NPP town has highest population.

TABLE 14 : NUMBER AND PERCENTAGE OF SCHEDULED CASTES AND SCHEDULED TRIBES POPULATION IN TAHSILS, 2001

Serial number	Name of Tahsil	Total / Rural / Urban	Total population	Total Scheduled Castes population	Total Scheduled Tribes population	Percentage of Scheduled Castes population to total population	Percentage of Scheduled Tribes population to total population
1	2	3	4	5	6	7	8
1	Talbehat	Total	246,864	58,607	0	23.7	0.0
		Rural	234,199	56,185	0	24.0	0.0
		Urban	12,665	2,422	0	19.1	0.0
2	Lalitpur	Total	405,746	98,930	2	24.4	0.0

		Urban	120,611	16,839	2	14.0	0.0
3	Mahroni	Total	325,124	86,251	0	26.5	0.0
		Rural	316,456	84,954	0	26.8	0.0
		Urban	8,668	1,297	0	15.0	0.0
District Total:		**Total**	**977,734**	**243,788**	**2**	**24.9**	**0.0**
		Rural	**835,790**	**223,230**	**0**	**26.7**	**0.0**
		Urban	**141,944**	**20,558**	**2**	**14.5**	**0.0**

Table 14 depicts the distribution of Scheduled Castes and Scheduled Tribes population as well as their percentage to total population at tahsil level in rural and urban areas of the district. Of the 977,734 total population of the district, 24.9 per cent of the total population belong to the Scheduled Castes and there is no Scheduled Tribes population. The percentage of Scheduled Castes population constitutes 26.7 per cent in rural population while 14.5 per cent in urban population of the district. The highest percentage of total Scheduled Castes population is recorded in Mahroni tahsil (26.5), whereas the lowest is found in Talbehat tahsil (23.7). The proportion of Scheduled Tribes population is Nil and negligible per cent in rural and urban areas respectively. Scheduled Tribes population in the district is only 2 persons available in Lalitpur tahsil (0.0 per cent).

TABLE 15 : NUMBER AND PERCENTAGE OF SCHEDULED CASTES AND SCHEDULED TRIBES POPULATION IN C.D. BLOCKS, 2001

Serial number	Name of C.D. block	Total population	Total Scheduled Castes population	Total Scheduled Tribes population	Percentage of Scheduled Castes population to total population	Percentage of Scheduled Tribes population to total population
1	2	3	4	5	6	7
1	Talbehat	132,855	32,529	0	24.5	0
2	Jakhaura	170,297	46,866	0	27.5	0
3	Bar	130,406	30,377	0	23.3	0
4	Birdha	156,121	45,665	0	29.2	0
5	Mahroni	127,764	33,642	0	26.3	0
6	Mandawara	118,347	34,151	0	28.9	0
District (Rural) Total:		**835,790**	**223,230**	**0**	**26.7**	**0**

Table 15 shows distribution of Scheduled Castes and Scheduled Tribes population in each C.D. block of the district. 26.7 per cent of rural population of the district belongs to Scheduled Castes and no population of Scheduled Tribes. At C.D. block level, Scheduled Castes population varies between 23.3 per cent in Bar and 29.2 per cent in Birdha C.D. block. The other C.D. block containing the highest percentage of Scheduled Castes are Mandwara (28.9), Jakhaura (27.5) and Mahroni (26.3). No Scheduled Tribe population is available in rural areas.

TABLE 16 : PROPORTION OF SCHEDULED CASTES POPULATION TO TOTAL POPULATION IN VILLAGES, 2001

Percentage range of Scheduled Castes population to total population	Number of villages	Percentage	Scheduled Castes Population	Percentage
1	2	3	4	5
Nil	55	7.9	0	0.0
Less than 5	19	2.7	286	0.1
5-10	42	6.0	3,744	1.7
11-20	140	20.1	34,773	15.6
21-30	193	27.7	80,646	36.1
31-40	141	20.2	61,930	27.7
41-50	49	7.0	22,168	9.9
51-75	45	6.5	16,898	7.6
76 and above	13	1.9	2,785	1.2
District Total	**697**	**100.0**	**223,230**	**100.0**

Table 16 reflects the number of villages according to the proportion of Scheduled Castes population to their total population in different ranges of percentage at district level. 55 villages accounting for 7.9 per cent of total 697 inhabited villages in the district do not have any Scheduled castes population. The proportion of Scheduled Castes population is less than 5 per cent in 19 villages (2.7 per cent). In 42 villages, it varies between 5-10 per cent, while the next range of 11-20 per cent accounts for 140 villages constituting 20.1 per cent of the total villages. The range 21-30 and 31-40 per cent contains 193 and 141 villages respectively. Both these ranges together account for 47.9 per cent villages of the district. 107 villages fall in the range of 41-50 and above per cent. 13 villages are such where the proportion of Scheduled Castes is more than 75 per cent. These villages contain 1.2 per cent Scheduled Castes population of the district. The maximum of 36.1 per cent of the Scheduled Castes population is covered by range of 21-30 per cent.

TABLE 17 : PROPORTION OF SCHEDULED TRIBES POPULATION TO TOTAL POPULATION IN VILLAGES, 2001

Percentage range of Scheduled Tribes population to total population	Number of villages	Percentage	Scheduled Tribes Population	Percentage
1	2	3	4	5
Nil	697	100.0	0	0.0
Less than 5	0	0.0	0	0.0
5-10	0	0.0	0	0.0

4	Birdha	899	0
5	Mahroni	894	0
6	Mandawara	887	0
District (Rural) Total		**892**	**0**

Table 19 shows sex-ratio among Scheduled Castes and Scheduled Tribes in each C.D. block of the district. The Scheduled Castes sex-ratio is 892 for district (rural). Among the C.D.blocks, the highest sex ratio of 899 females is found in Birdha C.D. block and lowest of 884 females is recorded in Talbehat C.D. block. There is no scheduled tribe population has been recorded in Lalitpur district (rural).

TABLE 20 : SEX RATIO AMONG SCHEDULED CASTES AND SCHEDULED TRIBES IN URBAN AGGLOMERATIONS / TOWNS, 2001

Serial number	Name of U.A. / Town	Scheduled Castes sex ratio	Scheduled Tribes sex ratio
1	2	3	4
1	Talbehat (NP)	918	0
2	Lalitpur (NPP)	891	0
3	Pali (NP)	902	0
4	Mahroni (NP)	902	0
Sex ratio (Urban) for the district:		**895**	**0**

Table 20 presents sex-ratio among Scheduled Castes and Scheduled Tribes in urban agglomerations/towns 2001. Among 4 towns sex ratio of Scheduled Castes is highest in Talbehat NP town and it is lowest in Lalitpur (MB) town. All 4 towns have sex ratio zero in Scheduled Tribes population. It means Scheduled Tribes female population is zero. In urban area of the district sex ratio of Scheduled Castes in Lalitpur and Scheduled Tribes are 895 and Zero respectively.

TABLE 21 : NUMBER AND PERCENTAGE OF LITERATES AND ILLITERATES BY TAHSILS, 2001

Serial number	Name of Tahsil	Total / Rural / Urban	Number of literates and illiterates						Percentage of literates			Gap in male-female literacy rate
			Number of literates			Number of illiterates						
			Persons	Males	Females	Persons	Males	Females	Persons	Males	Females

District and tahsil-wise literacy rate besides the number of literates and illiterates for total, rural and urban areas are given in table-21. The literacy rate is worked out by excluding population of 0-6 years. As per 2001 Census, the proportion of literates to total population excluding 0-6 years comes to 49.5 per cent in the district. This proportion in rural area is 44.8 per cent against 75.1 per cent in urban areas. In the district the literacy rate of males (63.8 per cent) is much higher than that of females (33.0 per cent). Among the tahsils, Lalitpur tops with 54.8 per cent literates followed by Mahroni (47.9 per cent). Talbehat with 42.7 per cent literates stands at the bottom in the district. Out of 3 tahsils, the literacy rate of Lalitpur. is higher than that of district average. It is observed that in urban areas of district the literacy rate is higher than the rural areas.

The gap between male and female literacy is very high, which comes to 30.8 per cent in the district, as a whole. The situation at tahsil level is not much different. However, this gap in urban literacy is low, which comes to 20.5 points against the rural areas, where the gap between male and female literacy is 32.9 percent.

TABLE 22 : NUMBER AND PERCENTAGE OF LITERATES AND ILLITERATES BY SEX IN C. D. BLOCKS, 2001

Serial number	Name of C.D.block	Number of literates and illiterates						Percentage of literates			Gap in male-female literacy rate
		Number of literates			Number of illiterates

District (Rural) Total:		**295,119**	**212,050**	**83,069**	**540,671**	**232,615**	**308,056**	**44.8**	**60.1**	**27.2**	**32.9**

The table 22 reveals number of literates, illiterates and the literacy rate in rural areas at C.D. block level in the district. 44.8 per cent of the total rural population excluding the age-group of 0-6 years literates in the district. The corresponding proportion of male and female literates comes to 60.1 and 27.2.per cent respectively, which shows very wide gap of 32.9 per cent in male and female literacy. At C.D. block level, Mahroni C.D. block has the highest rural literacy rate of 50.4 per cent while 66.3 per cent males and 32.4 per cent females are literates in this block. The lowest literacy rate in rural areas is noted in Talbehat C.D. block (38.7 per cent). There are wide variations in male and female literacy in all the C.D. blocks of the district. The maximum difference of 35.0 percent is found in Birdha C.D. block.

TABLE 23 : DISTRIBUTION OF VILLAGES BY LITERACY RATE RANGE, 2001

Range of literacy rate for villages	Number of inhabited villages	Percentage distribution of villages	Population	Percentage distribution of population
1	2	3	4	5
0	5	0.7	28	0.0
1-10	6	0.9	762	0.1
11-20	20	2.9	8,401	1.0
21-30	71	10.2	62,284	7.5
31-40	188	27.0	241,913	28.9
41-50	213	30.6	262,262	31.4
51-60	157	22.5	208,333	24.9
61-70	28	4.0	33,556	4.0
71-80	5	0.7	18,200	2.2
81-90	1	0.1	7	0.0
91-99	1	0.1	41	0.0
100	2	0.3	3	0.0
District Total:	**697**	**100.0**	**835,790**	**100.0**
Literacy rate for District: (Rural)			**44.8**	

Table 23 gives the distribution of villages by literacy rate ranges in the district. There is no literate in 5 villages (0.7 per cent) of the district and population of these villages is only 28 persons. 2 villages (0.3 per cent) have all the literate population. 157 villages accounting for 22.5 per cent of the total villages are in the literacy range of 51-60 per cent and 28 villages (4.0 per cent) fall in the literacy range of 61-70 per cent. The lower literacy rate of 1 - 50 per cent observed in 503 villages (72.2 per cent) of the district. The higher literacy ranges of 71 to 100 per cent covers 9 villages (1.3 per cent). The range of 51-70 have the maximum number of 185 villages forming 26.6 per cent of the total inhabited villages.

TABLE 24 : NUMBER AND PERCENTAGE OF LITERATES AND ILLITERATES BY SEX IN URBAN AGGLOMERATIONS / TOWNS, 2001

Serial number	Name and urban status of UA/Town	Number of literates and illiterates						Percentage of literates			Gap in male-female literacy rate
		Number of literates			Number of illiterates						
		Persons	Males	Females	Persons	Males	Females	Persons	Males	Females	
1	2	3	4	5	6	7	8	9	10	11	12
1	Talbehat (NP)	8,075	4,705	3,370	4,590	1,953	2,637	75.3	83.4	66.2	17.2

3	Pali (NP)	4,438	2,928	1,510	4,281	1,594	2,687	62.7	79.1	44.7	34.4
4	Mahroni (NP)	5,650	3,410	2,240	3,018	1,165	1,853	78.4	89.2	66.3	22.9
District(Urban) Total		**89,372**	**53,177**	**36,195**	**52,572**	**21,571**	**31,001**	**75.1**	**84.8**	**64.3**	**20.5**

Table 24 shows number and percentage of literates and illiterates by sex during 2001 in the urban areas of the district. Regarding absolute figures of literates Mahroni NP town is way ahead of other towns. The table reveals that literacy rate is pretty high in the urban areas of the district (75.1 per cent). The literacy rate is quite high (above 85 per cent in two towns) among males. Female literacy rate is not far behind in two towns (above 65 per cent). However, literacy rate among females is very low (44.7 per cent) in Pali NP town, thus the gap in male female literacy rate is very high (20.6).

TABLE 25: NUMBER AND PERCENTAGE OF SCHEDULED CASTES LITERATES AND ILLITERATES BY SEX IN C.D. BLOCKS, 2001

Serial number	Name of C.D.block	Number of literates and illiterates						Percentage of literates			Gap in male/ female literacy rate
		Number of literates			Number of illiterates

Table 25 shows number and percentage of scheduled castes literates and illiterates by sex in C.D. .blocks 2001. In rural areas of the district proportion of literates is 35.9 per cent in which 49.2 per cent Males and 20.8. Females. Thus, the gap in male and female literacy rate is 28.5. Among 6 C.D. blocks, Mahroni (42.7 per cent) CD block has the highest literacy rate and Talbehat (29.9 per cent) C.D. block has the lowest literacy rate. The gap in male/female literacy rate in Mahroni CD block is highest and this gap is lowest in Mandwara C.D. block.

TABLE 26 : DISTRIBUTION OF VILLAGES BY LITERACY RATE RANGE FOR SCHEDULED CASTES POPULATION, 2001

Range of literacy rate for villages	Number of inhabited villages	Percentage distribution of villages	Scheduled Castes Population	Percentage distribution of population
1	2	3	4	5
0	10	1.6	215	0.1
1-10	25	3.9	2,987	1.3

100	3	0.5	49	0.0
District Total:	**642**	**100.0**	**223,230**	**100.0**

The table 26 presents the distribution of villages by literacy rate range for Scheduled Castes population at the 2001 census. In majority of inhabited villages which form about 54.6 per cent of total rural scheduled castes population the literacy range is 31 to 50 percentages. In the district there are 642 inhabited villages with Scheduled Castes population of about 35.9 per cent of literacy rate.

TABLE 27 : NUMBER AND PERCENTAGE OF SCHEDULED CASTESLITERATES AND ILLITERATES BY SEX IN TOWNS, 2001

Serial number	Name and urban status of Town	Number of literates and illiterates						Percentage of literates			Gap in male/ female literacy rate
		Number of literates			Number of illiterates						
		Persons	Males	Females	Persons	Males	Females	Persons	Males	Females	
1	2	3	4	5	6	7	8	9	10	11	12
1	Talbehat (NP)	1,217	765	452	1,205	498	707	61.1	73.3	47.7	25.6
2	Lalitpur (NPP)	8,347	5,212	3,135	6,932	2,869	4,063	66.6	79.1	52.8	26.3
3	Pali (NP)	558	411	147	1,002	409	593	45.6	64.7	25	39.7
4	Mahroni (NP)	648	431	217	649	251	398	63.8	82.1	44.2	37.9
Lalitpur (Urban)		**10,770**	**6,819**	**3,951**	**9,788**	**4,027**	**5,761**	**64.3**	**77.6**	**49.6**	**28.0**

The table 27 brings out the number and percentage of Scheduled Castesliterates and illiterates by sex in urban agglomerations/towns population at the 2001 census. The number of illiterates is less than literates in the district (urban) and in towns except Pali NP. The percentage of literates is least in Pali NP. Among 4 towns. The gap in male/female literacy rate is highest in case of Pali NP town. The males in all the 4 towns enjoy higher literacy rate than females. The gap in male/female literacy rate is least in case of Talbehat NP and female literacy rate is highest in Lalitpur NPP.

TABLE 28: NUMBER AND PERCENTAGE OF SCHEDULED TRIBES LITERATES AND ILLITERATES BY SEX IN C. D. BLOCKS, 2001

Serial number	Name of C. D. block	Number of literates and illiterates						Percentage of literates			Gap in male/ female literacy rate

Literacy rate for District (Rural): 0

The table 29 gives the distribution of villages by literacy rate range for the scheduled tribes population at the 2001 census. Scheduled Tribe population is not available in none of the village of the district Lalitpur.

TABLE 30 : NUMBER AND PERCENTAGE OF SCHEDULED TRIBES LITERATES AND ILLITERATES BY SEX IN TOWNS, 2001

Serial number	Name and urban status of Town	Number of literates and illiterates						Percentage of literates			Gap in male/ female literacy rate
		Number of literates			Number of illiterates						
		Persons	Males	Females	Persons	Males	Females	Persons	Males	Females	
1	2	3	4	5	6	7	8	9	10	11	12
1	Lalitpur (NPP)	1	1	0	1	1	0	50.0	50.0	0.0	50.0
Lalitpur (Urban)		**1**	**1**	**0**	**1**	**1**	**0**	**50.0**	**50.0**	**0.0**	**50.0**

The table 30 gives number and percentage of scheduled tribes literates and illiterates by sex in urban agglomerations/town population at the 2001 census. There are only 2 persons of scheduled tribes population in the towns of the district. In 3, out of 4 towns there is no scheduled tribe population. In Lalitpur NPP towns, which have scheduled tribe population, the percentage of literates is 50 per cent of males and no females is available in the town.

TABLE 31: NUMBER AND PERCENTAGE OF MAIN WORKERS, MARGINAL WORKERS,AND NON-WORKERS BY SEX IN TAHSILS, 2001

Serial number	Name of Tahsil	Persons / Males / Females	Total population	Main workers		Marginal workers		Total workers (Main and marginal workers)		Non workers

Table 31 gives the number and percentage of main workers, marginal workers and non-workers by sex at tahsils level in the district as per 2001 Census. The proportion of the total workers works out 43.2 per cent of the total population in the district. The total workers are comprised of 29.6 per cent of main workers and 13.6 per cent of marginal workers and the remaining 56.8 per cent are non-workers.

Among the main workers, males participation rate in the district is 46.2 per cent and 10.8 per cent of females. Male and female marginal workers account for 4.3 and 24.2 per cent respectively. The percentage of females marginal workers is higher than males. Total workers (main and marginal workers) among tahsils varies from 38.9 per cent in Lalitpur tahsil to 47.2 per cent in Mahroni tahsil.

TABLE 32: NUMBER AND PERCENTAGE OF MAIN WORKERS, MARGINAL WORKERS, AND NON-WORKERS BY SEX IN C. D. BLOCKS, 2001

Serial number	Name of C.D. block	Persons / Males / Females	Total Population	Main workers		Marginal workers		Total workers (Main and marginal workers)		Non workers

		Females	**391,125**	**44,723**	**11.4**	**108,209**	**27.7**	**152,932**	**39.1**	**238,193**	**60.9**

Table 32 shows C.D. block-wise number and percentage of main workers, marginal workers and non-workers for rural population of the district. Of the 835,790 total rural population of the district, 30.2 per cent has been categorised as main workers and the marginal workers constitute 15.3 per cent and the remaining 54.5 per cent fall in the category of non-workers. The sex-wise break up at the district level shows that 46.7 per cent males and 11.4 per cent females are in the category of main workers. Male and female marginal workers account for 4.5 and 27.7 per cent respectively. The percentage of female marginal workers is higher than male marginal workers. Similar trend is seen at C.D. block level.

The percentage of total rural workers of the district comes to 45.5 per cent. At the C.D. block level, Bar C.D. block has highest proportion of total workers forming 49.8 per cent of the total population. It is closely followed by Mandwara (47.8 per cent), Mahroni (46.1 per cent), Talbehat (44.8 per cent), and Birdha (44.7per cent). The lowest percentage of 41.7 per cent is recorded in Jakhaura C.D. block.

The table 33 gives number and percentage of main worker, marginal workers and non-workers by sex in urban area of district at the 2001 census. The proportion of the total workers works out to 29.4 per cent of the total population of the district. The total workers are comprised of 25.8 per cent of main workers and 3.6 per cent of marginal workers and remaining 70.6 per cent are non-workers.

Among the main workers, male participation rate in the district is 42.7 per cent whereas females participation rate is only 6.9 per cent. Male and female marginal workers accounts for 3.1 per cent and 4.1 per cent respectively. The percentage of male marginal workers is lower than females. Total workers (main and marginal) among towns varies from 27.9 per cent in Talbehat (NP) to 40.2 per cent in Pali (NP).

Note: Per cent of Worker to total worker are given in brackets

It can be seen from the table 34, that the economy of the district is primarily agricultural, as cultivators constitute 63.3 per cent of the total workers (main + marginal) and remaining 36.7 per cent of total workers are engaged as agricultural labourers (17.0 per cent), Household industry workers (3.0 per cent) and other workers (16.7 per cent) in this district.

The distribution of workers by four categories of economic activity at tahsil shows very high dependence of population on agriculture sector absorbing large number of workers. The proportion of cultivators varies between 54.0 per cent in Lalitpur tahsil and 69.4 per cent in Talbehat tahsil. These variations within the district may be due to cropping and land holding patterns. The percentage of females cultivators is 59.4 per cent which is low as compared to 65.7 per cent of male cultivators in the district. The percentage of household industry workers is very low in the district as stated above. The percentage of agricultural laboures occupy the second position in the district. the highest proportion of 21.5 per cent of agricultural labourers is recorded in Mahroni tahsil while the lowest proportion of 14.1 per cent is found in tahsil Lalitpur. The workers in other activities occupy the third position next to agriculture in the district as well as in each tehsil The highest proportion of 28.2 per cent of other workers is recorded in Lalitpur tahsil while the lowest proportion of 7.9 per cent is found in Mahroni tahsil.

TABLE 35 : DISTRIBUTION OF WORKERS BY SEX IN FOUR CATEGORIES OF ECONOMIC ACTIVITY IN C.D. BLOCKS, 2001

Note. Per cent of Worker to total worker are given in bracket

Table 35 presents C.D. block-wise distribution of workers by sex in four categories of economic activity. In the rural areas of the district total workers (main + marginal) 45.5 per cent of total population. Among these workers, cultivators constitute 69.3 per cent, 18.4.per cent agricultural labourers, 2.4 per cent household industry workers and 9.9 per cent other workers. The agricultural sector plays a major role in providing employment to the working force of rural population despite the fact that it is not commercial viable. Household industries also could not make much progress in rural areas as reflected in the data and these household industries employ only 2.4 per cent workers of the total working force. Therefore, surplus working force has to depend on primary activities. Among cultivators, the percentage of females (61.9 per cent) is lower than males (74.4 per cent) in the rural areas of the district. The females play a main role in rural economy of the district. The proportion of cultivators and other workers differ considerably from one C.D. block to other. The proportion of cultivators varies between 66.2 per cent in Birdha C.D. block to 76.1 per cent in Bar C.D. block. Similarly, for other workers, the lowest proportion is 5.1 per cent in Bar C.D. block while 14.8 per cent is the highest in Birdha C.D. block. The percentage of household industry workers is quite low i.e. only 2.4 per cent in the district. The percentage of agricultural labourers is highest in Mahroni (23.7 per cent) block and is followed by Mandwara CD block (22.4). In other C.D. blocks, this proportion is lowest Jakhaura and Bar C.D. blocks (16.1 per cent). Similarly, household industry workers varies in C.D. blocks between 1.3 per cent in Mahroni and 2.8 per cent in Jakhaura and Mandwara CD block.

Table 36 presents distribution of workers by sex in four categegories of economic activity in urban areas of the district Lalitpur. It is observed from the table that the four categories of economic activity are cultivators, agricultural labourers, household industry workers and other workers. Figures in the table has been given for total number of workers including main and marginal workers. At the district level, urban areas recorded highest percentage of other workers (79.2 per cent), followed by household industry workers with 8.9 per cent (4.5 per cent male and 29.4 per cent female). If we observe each town, the table reveals that highest percentage of household industry workers (14.0) is recorded in Pali (NP) and lowest in Mahroni (NP) (3.5 per cent). Highest percentage of cultivators is recorded in Pali (NP) (36.8 per cent) and lowest in Lalitpur NPP (4.4 per cent). Highest agricultural labourers is recorded in Pali (NP) (18.1 per cent) and lowest in Lalitpur NPP (1.3 per cent). As the usual trend recorded in the urban areas, other workers are in high percentage (85.6 per cent in Lalitpur NPP, 83.6 per cent in Talbehat NP and 59.6 per cent in Mahroni(NP).

(ix) Brief analysis of the Village Directory and Town Directory data :

One of the major part of the District Census Handbook is Village and Town Directories.These are non-census data incorporated showing educational, medical, drinking water, banking facilities, communication facilities and other such developmental indicators in the towns and villages. From this non-census data certain inset tables have been generated and reproduced below showing major trends in the availability of above amenities.

TABLE 37 : DISTRIBUTION OF VILLAGES ACCORDING TO AVAILABILITY OF DIFFERENT AMENITIES, *2001*

Serial number	Name of C. D. block	Num-ber of in-habited villages	Type of amenity available

Note . - Percentages are given in brackets

**Based on the improved drinking water source, drinking water supply has been classified as 'Improved ' or otherwise. If the household has access to drinking water supplied from a tap or a hand pump / tube well situated within or outside the premises it is considered as having access to 'Improved drinking water source'. However, the concept of improved drinking water is state specific and this is to be considered accordingly.*

 # Post office includes Post office, telegraph office and Post and telegraph office.

$ Transport communication includes bus service, rail facility and navigable waterways.

Table 37 deals with the C.D. block-wise distribution of villages according to the availability of different amenities like education, medical, improved drinking water, post office, telephone, transport, communications, agricultural credit societies, approach by pucca road and power supply within the village. Out of 697 inhabited villages in the district 570 villages or 81.8 per cent have been provided with the education facilities of one type or the other. Similarly 164 villages in the district constituting 23.5 per cent have medical facilities of one type or the other. Improved drinking water facility is available in 663 or 95.1 per cent villages. As regards, post office facility which includes facilities like telegraph office and post and telegraph, 146 villages constituting 20.9 per cent of villages have been provided with post office facility within the village. 193 or 27.7 per cent villages have been provided with the telephone facility, 208 or 29.8 per cent with transport facility, 25 or 3.6 per cent villages with bank facility and 35 or 5.0 per cent with agricultural credit societies. Similarly, there are 300 or 43.0 per cent villages, which have been linked with the pucca road. Total 352 or 50.5 per cent of villages have been provided with the electricity supply. Almost similar pattern of distribution of villages by availability of amenities in the villages at C.D. block has been found with slight variation. Bar C.D. block has the highest 91.0 per cent villages where educational facility is available and lowest 77.4 per cent is found in Birdha C.D. block. Medical facility is highest in Birdha (34.9 per cent) and lowest (12.9 per cent) in Jakhaura C.D. block. Improved drinking water facility is highest in Mandwara (99.2 per cent) and lowest in Jakhaura C.D. blocks (90.6 per cent) while in other blocks, it is above 92 per cent Part of facility in highest in Bar C.D. block (29.2 per cent) and lowest in Mandwara C.D. block (13.9 per cent). Telephone facility is highest in Talbehat (59.6 per cent) while lowest (13.9 per cent) Mandwara C.D. block enjoy this facility. Transport and communications is less developed in Birdha C.D. block where only 26.0 per cent villages are covered by this facility, whereas 43.3. per cent villages of Mahroni C.D. block are availing this facility. In the field of power supply highest (66.3 per cent) in Bar C.D. block and lowest (22.1 per cent) in Mandwara CD block avail this facility.

TABLE 38 : NUMBER AND PERCENT OF RURAL POPULATION SERVED BY DIFFERENT AMENITIES, 2001

Note : - Percentages are given in brackets.

** Based on the improved drinking water source, drinking water supply has been classified as 'Improved' or otherwise. If the household has access to drinking water supplied from a tap or a hand pump / tube well situated within or outside the premises it is considered as having access to 'Improved drinking water source'. However, the concept of improved drinking water is state specific and this is to be considered accordingly.*

 # Post office includes Post office, telegraph office and Post and telegraph office.

$ Transport communication includes bus service, rail facility and navigable waterways.

Table 38 depicts the number and proportion of rural population served by different kind of amenities. Out of total rural population of 835,790 persons in the district, 801,649 or 95.9 per cent have educational facility of one or the other type. Similarly 365,679 or 43.8 per cent population has medical facilities while 821,454 or 98.3 per cent have got improved drinking water facility. Post office facilities are available to 393,187 or 47.0 per cent population. Telephone facility is available to 391,741 or 46.9 per cent. Transport communications facility is available to 418,613 or 50.1 per cent. Bank facility is available to 12,688 or 14.4 per cent. 154,609 or 18.5 per cent have been provided with the facility of agricultural credit societies. 534,743 or 64.0 per cent have been provided with the facility of approach by pucca road. Power supply is available to 599,402 or 71.7 per cent rural population in the district. Similar pattern of availability of facilities is visible to the rural population at C.D. block level. However, in Talbehat C.D. block facilities of education, medical and improved drinking water are available to larger proportion of population .

TABLE 39 : DISTRIBUTION OF VILLAGES NOT HAVING CERTAIN AMENITIES, ARRANGED BY DISTANCE RANGES FROM THE PLACES WHERE THESE ARE AVAILABLE, 2001

Village not having the amenity of	Distance range of place from the villages where the amenity is available			
	Less than 5 kilometres	5-10 kilometres	10+ kilometres	Total (Col. 2 - 4)
1	2	3	4	5
1. Education -

7. Agricultural Credit Societies	176	246	240	662

Table 39 presents distribution of villages not having certain amenities within the village at district level. They have to go out of their village to avail these facilities. Such villages have been presented according to various distance ranges in this table. 127 villages do not have primary school in their villages and out of these villages, children of 73 villages have to travel less than 5 kms for schooling. Out of 697 inhabited villages as many as 542 are deprived of middle school and 697 of degree college. Of these 129 avail the facility of middle school at a distance of less than 5 kms., 326 at a distance 5-10 kms. and the remaining 87 at a distance of 10+ kms. In respect of degree college 15 avail this facility at a distance of less than 5 kms., 55 between 5 - 10 kms. and rest 627 villages at a distance of 10+ kms.

Similarly, there are 671 villages in the district which have been devoid of Hospital facility and 684 villages which are deprived of PHC facilities. Of these 56 villages have the facility of Hospital available within 5 kms,. while in respect of 208 villages the inhabitants have to cover a distance of 5-10 kms. in order to avail this facility. Similarly, overwhelming number i.e. 407 villages have this facility at a distance of 10+ kms. As regards PHC 34 avail this facility at a distance of less than 5 kms., 215 at a distance of 5-10 kms. and the remaining 435 have to travel a distance of more than 10 kms. to avail this facility.

Regarding Post Office, 551villages do not have this facility in the village itself. Of these 202 villages have this facility at a distance of less than 5 kms., another 287 villages avail it at a distance of 5-10 kms. In the remaining 62 villages habitants have to travel a distance of 10+ kms.

As regards Telephone, there are 504 villages in the district which are without telephone facilitiy. Of these 115 avail this facility at a distance of less than 5 kms., 176 at a distance of 5-10 kms. and remaining 213 have to travel a distance of 10+ kms.

For Bus service out of 496 villages which do not have facility, 120 villages avail this facility at a distance of less than 5 kms., 312 at a distance between 5-10 kms. and 64 at a distance of 10+ kms.

In the entire district 672 villages are deprived of Commercial Bank and 691 of Co-operative Bank. Of these 672 villages which are deprived of Commercial Banks 118 villages avail this facility at a distance of less than 5 kms., 263 between 5-10 kms. and the remaining 291 at a distance of 10+ kms. Regarding Co-operative Banks out of 691 villages 41 villages avail this facility at a distance of less than 5 kms., 219 at a distance of 5-10 kms. and remaining 431 at a distance of 10+ kms. 662 villages do not have agricultural credit societies. This facility to 176 villages is available at a distance of less than 5 kms., 246 at a distance of 5-10 kms. and the remaining 240 at a distance of 10+ kms.

Table 40 deals with the distribution of villages according to distance from the nearest statutory town and availability of different amenities within the village. Out of total 697 inhabited villages in the district, there are 24 villages which have nearest towns upto a distance of 5 kms. Of these only 15villages forming 62.5 per cent of these total villages, are having the educational facilities of one type or the other and 8 villages constituting 33.3 per cent, have the medical facilities within the village, 3 villages forming 12.5 per cent have the facility of post office within the village and 5 or 20.8 per cent have the facility of telephone. 14 villages constituting 58.3 per cent have been linked by transport service. No village comprising zero per cent have been provided bank facilities, while no villages constituting zero per cent have been provided by agricultural credit societies. 12 villages comprising 50.0 per cent have been provided with pucca road.

There are 362 inhabited villages in the district which fall in the distance range of 5-15 kms. Of these 295 villages constituting 81.5 per cent have been provided with the educational facilities. 82 villages comprising 22.7 per cent have been provided with medical facilities. 75 villages constituting 20.7 per cent enjoy the post office facility. 113.villages comprising 31.2 per cent have been provided the telephone facility. 110 villages constituting 30.4 per cent have been linked with transport communications. 11 villages comprising 3.0 per cent have bank facility. 19 villages constituting 5.2 per cent are having agricultural credit societies, while 171 villages or 47.2 per cent are approachable by pucca road. 254 villages fall in the distance range of 16-50 kms. Of these, 83.1 per cent villages have educational facility, 24.8 per cent with medical, 20.9 per cent with post office, 24.4 per cent with telephone and transport and communications available to 26.8 per cent villages. Banks and agricultural credit societies facilities are available to 4.3 and 5.5 per cent of villages.

There are 3 villages in the district which are situated beyond 50 kms. from the nearest town and out of these 3 or 100 per cent enjoy the education facility in the village itself whereas no village comprising zero per cent have been provided with medical facility of one type or the other. Post office facility, telephone, transport and communication, banks, and agricultural credit societies facilities 1 village comprising 33.3 per cent have been linked by pucca roads. There are 54 villages whose distance ranges from the nearest statutory town have not been given. Such villages have been grouped under the unspecified category. 46 or 85.2 per cent villages have the educational facility of one or other type. 11 villages constituting 20.4 per cent have been provided with medical facility of one or other type. 15 villages constituting 27.8 per cent enjoy the post office facility. 13 villages comprising 24.1 per cent have been provided telephone facility. 16 villages constituting 29.6 per cent have been linked with transport and communication. 3 villages (5.6 per cent) have bank facility. 2 villages (3.7 per cent) have agricultural credit societies. 22 villages or 40.7 per cent are approachable by pucca road.

TABLE 41: DISTRIBUTION OF VILLAGES ACCORDING TO POPULATION RANGE AND AMENITIES AVAILABLE, 2001

 # Post office includes Post office, Telegraph office and Post and telegraph office.

$ Transport communication includes bus service, rail facility and navigable waterways.

** Based on the improved drinking water source, drinking water supply has been classified as 'Improved' or otherwise If the household has access to drinking water supplied from a tap or a hand pump / tube well situated within or outside the premises it is considered as having access to 'Improved drinking water source'. However, the concept of improved drinking water is state specific and this is to be considered accordingly.*

Table 41 deals with the distribution of villages by population ranges and amenities available therein. In Lalitpur district out of a total 697 inhabited villages, overwhelming 195 have a population of less than 500 persons. Of these, 80 villages (41.0 per cent) have education facility, 11 (5.6 per cent) have medical facility, 168 (86.2 per cent) have improved drinking water facility. No village (zero per cent) have post office facility. 12 (6.2 per cent) have telephone facility. 14 (7.2 per cent) have been linked by bus service. No village (zero per cent) have Bank facility. No village (zero per cent) have been provided with the agricultural credit societies, 33 villages (16.9 per cent) have been linked with pucca road. 42 villages (21.5 per cent) have been provided with electricity.

Out of 210 villages, which fall in the population range of 500-999 persons, 199 villages (94.8 per cent) have been provided with the education facility, 38 (18.1. per cent) with medical facility, 208 villages (99.0 per cent) have improved drinking water facility. 13 villages (6.2 per cent) have been provided with post office facilities, 42 villages (20.0 per cent) with telephone facility, 53 villages (25.2 per cent) with transport facilities, 1village (0.5 per cent) with bank facility, 1 village (0.5 per cent) with agricultural credit societies and 81 villages (38.6 per cent) have approach by pucca road. 90 villages (42.9 per cent) in this range have electricity.

191villages fall in population range of 1,000-1,999 persons. All of these villages have education facility. Whereas 55 villages (28.8 per cent) enjoy the medical facility, 187 villages (97.9 per cent) have improved drinking water facility. 56 villages (29.3. per cent) have post office facility, 75 villages (39.3 per cent) have telephone facility, 74 villages (38.7 per cent) have transport communications facilities, 4 villages (2.1 per cent) have bank facilities, 5 villages (2.6 per cent) have agricultural credit societies 101 villages (52.9 per cent) have approach by pucca road and 128 villages (67.0 per cent) have electricity.

There are 83 villages in the district which are covered under 2,000-4,999 population range. In this range, all the villages enjoy the facility of improved drinking water. Whereas 82 villages (98.8 per cent) have education facility. 42 villages (50.6 per cent) have medical facility. 59 villages (71.1per cent) have post office facility, 50 villages (60.2 per cent) have telephone and transport and communication facilities, 8 villages (9.6 per cent) have bank facility, 17 village (20.5 per cent) is having agricultural credit societies. 67 villages (80.7 per cent) have approach by pucca road and 75 villages (90.4 per cent) have been provided with electricity.

16 villages fall in population range of 5000-9999 persons. All of these villages have education, medical, post office and approach by pucca road facilities. 15 villages (93.8 per cent) have improved drinking water facility, 12 villages (75.0 per cent) have telephone facility, 15 villages (93.8 per cent) have transport and communication facility, 11 villages (68.8 per cent) have bank facility, 10 villages (62.5 per cent) have agricultural credit societies and 15 village (93.8 per cent) have been procided with electricity.

2 villages falls in population range. 10000 and above persons all of these villages have education, medical, improved drinking water , post office, telephone, transport and communications, agricultural credit societies, approach by pucca road and power supply facilities. One village (50.0 per cent) have bank facility.

TABLE 42: DISTRIBUTION OF VILLAGES ACCORDING TO LAND USE, 2001

Serial number	Name of C. D. block	Number of inhabited villages	Total area in acre	Percentage of cultivable area to total area	Percentage of irrigated area to total cultivable area
1	2	3	4	5	6
1	Talbehat	104	69,200.8	46.5	68.2
2	Jakhaura	139	87,783.6	66.0	59.5
3	Bar	89	67,187.7	72.4	78.2
4	Birdha	146	101,568.7	54.8	33.8
5	Mahroni	97	64,502.3	71.5	71.5
6	Mandawara	122	68,919.1	59.3	53.4
District Total:		**697**	**459,162.2**	**61.3**	**59.7**

Note : - Cultivable area = irrigated area + unirrigated area

Table 42 presents C.D block-wise distribution of villages according to land use. It also gives details of total area and cultivable area available of inhabited villages in the district. Cultivated area includes irrigated as well as unirrigated area. It further elaborates that what is the extent of cultivable area under irrigation. There are total 697 inhabited villages in the district having a total area of 459,162.2 hectares. Of this, 61.3 per cent is cultivable and 59.7per cent of total cultivable area has got the irrigation facility. The area figures have been collected from the revenue record maintained for each village by the State Government.

A look at the land use pattern at C.D. block level shows that Talbehat block with 104 villages have a total area of 69,200.8. hectares, of this 46.5. per cent of land is cultivable and of the aforesaid area 68.2 per cent is irrigated. In Jakhaura block, all the 139 villages have a total land area of 87,783.6 hectares, of this 66.0 per cent of land is cultivable and of the aforesaid area 59.5 per cent is irrigated. In Bar block, all the 89 villages have a total area of 67,187.7 hectares, of this cultivable area is 72.4 per cent and 78.2 per cent is irrigated. In Birdha block, all the 146 villages have a total area of 101,568.7 hectares. Of this, cultivable area is 54.8 per cent. Of cultivable area 33.8 per cent is irrigated. Mahroni block with 97 villages have a total land area of 64,502.3 hectares, of this 71.5 per cent is cultivable area and out of this cultivable area 71.5 per cent is irrigated. Mandwara block with 122 villages has a total land area of 68,919.1 hectares. Of this 59.3 per cent is cultivated area, out of which 53.4 per cent is irrigated.

TABLE 43 : PER CAPITA RECEIPT AND EXPENDITURE IN STATUTORY TOWNS,2001

		Per capita receipt			Per capita expenditure					
Sl No	Class, name & urban status of the Town	Total	Through taxes	From all other sources	Total	General Adminis-tration	Public health and convenien-ces	Public works	Public insti-tutions	Other (s)
1	2	3	4	5	6	7	8	9	10	11
1	I Lalitpur (NPP)	206	6	200	221	68	1	62	9	81
2	V Mahroni (NP)	235	126	109	233	105	107	21	0	0
3	V Pali (NP)	200	24	176	206	64	4	93	0	45
4	IV Talbehat (NP)	275	10	265	252	14	63	137	12	26
	District	**214**	**15**	**199**	**223**	**65**	**14**	**68**	**8**	**69**

The table 43 gives the per capita receipts and expenditure (in rupees) for each town in the district. The average per capita receipts for towns of the district Lalitpur works out to Rs214 of which Rs15 are derived through local taxes and the remaining Rs199 received from all other sources. The average of total expenditure incurred per head is Rs223. Out of this Rs65are spent on general administration, Rs14on public health and conveniences, Rs68 on public works, Rs8 on public institutions and Rs69 is spent other items. Among all the five towns the receipt and expenditure recorded per head are the highest in Talbehat NP.

TABLE 44 : SCHOOLS / COLLEGES PER 10,000 POPULATION IN STATUTORY TOWNS, 2001

Serial number	Name and urban status of Town	Type of educational institution				
		Primary	Junior Secondary / Middle	Secondary / Matriculation	Senior Secondary	College
1	2	3	4	5	6	7
1	Talbehat (NP)	8.7	2.4	1.6	1.6	0.0
2	Lalitpur (NPP)	2.2	0.7	0.2	0.5	0.2
3	Pali (NP)	6.9	3.4	1.1	1.1	0.0
4	Mahroni (NP)	5.8	1.2	3.5	1.2	1.2
	District	**2.7**	2.7	1.2	0.6	0.7

Table 44 shows in urban areas of Lalitpur district the average number of primary school per 10,000 population comes 2.7 schools, 2.7.junior secondary/middle, 1.2 secondary/matriculation, 0.6 senior secondary schools and the ratio of colleges is only 0.7 college per 10,000 population. Among the towns, the ratio of primary. and senior secondary is highest in Talbehat NP and Pali NP has highest ratio of Junior secondary/ middle schools. College education is available only in Lalitpur NPP and Mahroni NP.

TABLE 45 : NUMBER OF BEDS IN MEDICAL INSTITUTIONS IN TOWNS, 2001

Serial number	Name and urban status of the Town	Number of beds in medical institutions per 10,000 population
1	2	3
1	Talbehat (NP)	12
2	Lalitpur (NPP)	35
3	Pali (NP)	5
4	Mahroni (NP)	24
	Distrct	**14**

Table 45 depicts the number of beds available in medical institutions per 10,000 population in each town of Lalitpur district. On an average there are 14 beds per 10,000 population in urban areas of the district. Whereas it is the highest 35 in Mahroni NP while lowest value of 5 beds is recorded in Pali NP and is closely preceded by Lalitpur NPP (12 beds).

TABLE 46 : NUMBER OF BEDS IN MEDICAL INSTITUTIONS IN TOWNS, 2001

Sl. No.	Name of Town	Total population	Slum population	Percentage of slum population of total population
1	2	3	4	5
NA				

TABLE 47 : MOST IMPORTANT COMMODITY EXPORTED OUT OF AND MANUFACTURED IN TOWNS, 2001

Serial number	Name and urban status of Town	Most important commodity	
		Manufactured	Exported
1	2	3	4
1	Talbehat, NP	Stone Goods, Iron utensils	Ginger, Lemon, Iron Goods
2	Lalitpur, NPP	Granite Tiles, Pulses, Agri. Equipment	--, --, --
3	Pali, NP	Agricultural Equipment	Betel, Herbs, Stone
4	Mahroni, NP	--, --, --	Pulses, Wheat, Gur

Table 47 indicates most important articles manufactured and exported out of the each town in the district. The district is well known for an agricultural equipment and iron utensiles town's main exports. The chief export items of the district are pulses and Iron goods are the main items which are manufactured in Talbehat town and these are mainly exported to other places.

(x) Brief analysis of the data on houses and household amenities, Houselisting Operations, Census of India 2001 :

Data on houses and household amenities have traditionally been undertaken a few months before each census Based upon data collected in the houselist, a few tables on the use of census house, materials of wall, floor and roof etc. are prepared. In 1991 census, the houselist was considerably expanded with 22 items of information. Again in 2001 census many new items on household assets like radio /transistor, television, telephone, cycle, scooter /motorcycle / moped, car/jeep and banking facility availed by household etc. for the first time has been added in the schedule. The district wise tables have been prepared and these are placed in the subsequent tables. The following is the distribution of households by number of rooms occupied.

TABLE 48 : HOUSEHOLDS BY TENURE STATUS AND NUMBER OF ROOMS OCCUPIED IN THE DISTRICT, 2001

Tenure status	Number of dwelling households	Number of households								
		Total			Scheduled Castes			Scheduled Tribes		
		Total	Rural	Urban	Total	Rural	Urban	Total	Rural	Urban

	District total	**165,940**	**143,363**	**22,577**	**46,818**	**43,480**	**33,38**	**1,231**	**990**	**241**

Data source· Census of India 2001, H- series: "Tables on Houses, Household amenities and Assets."

The data presented in the Table 48 depicts number of households by tenure status and number of rooms occupied in the district. The total number of households in the district stands at 165,940 consisting of 143,363 rural and 22,577 urban households. 46,818 households belong to Scheduled Castes and 1,231 to Scheduled Tribes. 157,518 households are living in their owned houses constituting 94.9 per cent of total households. Of these households, the largest number of households (49,514) have occupied double roomed accommodation and is followed by single roomed accommodation numbering to 41,097.households. Next position is claimed by households (38,590) occupying three plus roomed accommodation. Number of households in owned accommodation occupying three rooms rank at fourth place with 26,710 households while 1,607 households are without any exclusive room.

6,209 households living in rented accommodation account for 3.8 per cent of total number of households in the district. The largest number of 2,735 households are living in single roomed accommodation followed by 2,286 households in double roomed accommodation. Households with three

rooms and three plus are small in numbers. Other households numbering to 2,213 forming only 1.3 per cent of total households are distributed in single roomed accommodation numbering 772,601 double roomed 646 in three roomed and 144 in 3+ roomed accommodation. In rural areas majority of households have bigger size and majority of them have their own houses while in urban areas show reverse picture.

TABLE 49: PERCENTAGE DISTRIBUTION OF HOUSEHOLDS LIVING IN PERMANENT, SEMI PERMANENT AND TEMPORARY HOUSES, 2001

Serial number	District/ Tahsil	Total			Rural			Urban		
		Perma-nent	Semi-perma-nent	Tempo-rary	Perma-nent	Semi-perma-nent	Tempo-rary	Perma-nent	Semi-perma-nent	Tempo-rary
1	2	3	4	5	6	7	8	9	10	11
1	Talbehat	79.6	20.0	0.4	79.3	20.4	0.4	85.9	13.7	0.4
2	Lalitpur	67.4	31.6	1.0	63.6	35.3	1.2	77.2	22.2	0.6
3	Mahroni	63.8	35.9	0.3	63.4	36.3	0.3	80.1	19.9	0.0
	District Total:	**69.5**	**29.9**	**0.6**	**68.2**	**31.2**	**0.6**	**78.2**	**21.2**	**0.5**

Data source: Census of India 2001, H-series Tables on Houses, Household amenities and Assets

Note The percentage distribution of households as shown in the above table reveals that 69.5 per cent of the households in the district had permanent houses. The trend is different in rural (68.2.per cent) and urban area (78.2.per cent). Among tahsils highest proportion of permanent houses were accounted in tahsil Talbehat (79.6.per cent) followed by Lalitpur (67.4.per cent), and lowest in Mahroni (63.8.per cent). In respect of semi-permanent houses, the returns were 29.9 per cent of district level, whereas among tahsils, in Mahroni it was heghest 35.9 per cent and lowest was 20.0 per cent in tahsil Talbehat. Rural areas represented a similar ratio at district and tahsil level but semi permanent houses in the urban areas were in the proportion range of 13.7 - 22.2 per cent. Temporary houses in the district lie between the range of 0.3.to 1.0 per cent.

TABLE 50: PERCENTAGE OF HOUSEHOLDS HAVING IMPROVED DRINKING WATER SOURCE, ELECTRICITY, BATHROOM, TOILET AND DRAINAGE FACILITY, 2001

Serial number	Tahsil	Total / Rural / Urban	Number of house-holds	Number and percentage of households having

Data source: Census of India 2001, H-series: Tables on Houses, Household amenities and Assets.
**Based on the improved drinding water source, drinking water source, drinding water supply has been classified as 'Improved' or otherwise. If the household has access to drinking water supplied from a tap or a hand pump/tube well situated within or outside the premises it is comsidered as having access to 'Inproved drinking water source'. However, the concept of improved drinking water is state specific and this is to be considered accordingly.*
Note: Percentage is to be given in brackets after the number of households.
Bathroom means bathroom within the house,Toilet means toilet within the house.Drainage menas closed and open drainage.

The table 50 indicates that 45.0 per cent of households in the district have been provided with improved drinking water supplied from tap or a hand pump/tube well. 20.3 per cent households have provision of electricity in their houses. The bath room facility is available to only 18.1 per cent households with in their premises. As regards rural areas 12.8 per cent households are having bathroom facility, whereas this proportion in urban areas comes to 51.5 per cent. 12.1 per cent rural households have facility of electricity against 72.7 per cent in urban areas. Toilet and drainage facilities in the district are available to 17.2 per cent and 39.4 per cent households respectively. The percentage is much higher in urban areas a compared to rural areas. The trend of these amenities available to the households at tahsil level is almost confirmed to the district pattern analysed.

Percentage in brackets
Data source: Census of India 2001, H-series: Tables on Houses, Household amenities and Assets.

It is observed from the above table that to 79.2 per cent of households in the district use firewood as fuel, for cooking, the proportion in the rural area is to 83.5 per cent of household and in urban arca it comes to 51.3. per cent of households. LPG (cooking gas) has been reported as one of the fuel for cooking of food in to 6.4 per cent of the households. The composition of rural and urban comes to to 1.7 per cent and to 35.9 per cent respectively. Cowdung cake is used for cooking in as many as 9.8 per cent of the households (to 10.9 per cent rural and to 2.7 per cent urban households). The other methods like crop residence, kerosene, coal, lignite, charcoal, electricity and biogas etc. ranges between to zero percent to 3.1 per cent of the households of the district. The pattern of fuel used for cooking follows the same trend in tahsils (rural areas) where predominant fuel is firewood. The table shows that firewood, LPG (cooking gas) and cow dung cake are the predominant fuel for cooking in the district.

TABLE 52 : NUMBER OF HOUSEHOLDS AVAILING BANKING SERVICES AND NUMBER OF HOUSEHOLDS HAVING EACH OF THE SPECIFIED ASSET, 2001

Serial number	Tahsil	Total/ Rural/ Urban	Total number of house-holds	Total number of house-holds availing banking services	Availability of household assets

Data source: Census of India 2001, H-series: Table on Houses, Household amenities and Assets.

This table presents data for total rural and urban areas at district/tahsil level about households availing banking services and possession of assets such radio/transistor, telephone, bicycle, scooter and car etc. by the households. There are 165,940 households in the district and among them, 44,241 households have been availing banking services 45,916 households have Radio/Transistor; Television is possessed by 27,260 households. Telephone is available in 5,940 households. Bicycle is a main means of transportation and is available in 89,922 households. Scooter/Motor cycle/ Moped and 11,303 and 2,265 households use Car/ Jeep/ Van respectively. The picture in use of banking services and possession of assets by households at tahsil level is almost similar as analysed above for the district as a whole.

(xi) **Major social and cultural events, natural and administrative developments and significant activities during the decade.**

No significant social or cultural events has taken place and also no natural or administrative development worth mentioning has taken place during the last decade.

(xii) **Brief description of places of religious, historical or archaeological importance in villages and places of tourist interest in the towns of the district**

District Lalitpur is a backward district. Being rocky topography it is underdeveloped in agriculture. Industrial development has not taken place. Mining and quarrying is an important occupation. But the hazards of quarrying makes people unhealthy and infected with tuberculosis. Villages of this district are located far away from each other. People are poor. It is also dacoit infested district.

Positive side of this district is its strategic location. Industrial development of the district can be achieved if government take initiative in developing this district as industrial area. Basic infrastructure like road transport and electricity generated from Matatila dam is available in the district. Although rail network is not expansive, Lalitpur is an important station of Central Railway. If proper attention is given for the development of this district it can also become developed place.

(xiii) **Major characteristics and contribution of the district :**

Lalitpur It is the headquarters of the district, situated on the Jhansi-Bombay section of the Central Railway. It is said to have been founded by Sumer Singh, Raja of South India who named it his wifes name Lalita. A tank in which he is said to have bathed and cured of the skin disease from which he was suffering still bears his name. There are a few archeological remains at Lalitpur, foremost being a small building known as Bansa which is said to have been octoroi office of the Muslim rulers. It has an inscription bearing the name of Firoz Shah Tuglaq in Samvat 1415 (1358 AD). Lalitpur is well known for its industries, the principal being the tanning of hides, sawing, shoe making, ironware, item of bone and metal and manufacturing of soap etc.

Deogarh This place has great antiquarian epigraphical as much as archaeological importance and has figured in the history at a period of the Guptas, the Gurjaras, the Pratiharas, the Gonds, the Muslim rulers of Delhi, the Bundelas, the Marathas and the British. It possesses the remains of a fine Vishnu temple (Sagar math) of Gupta period and a group of Jain temples. The Vishnu temple is approximately 1400 years old. Deogarh which was once a place of considerable importance is now an insignificant village.

Barpur Local tradition associates this place with Banasur, a legendary demon king. Banpur as associated with the name of Mardan Singh, who took active part in the freedom fight of 1857. He was imprisoned at Lahore. His fort - palace is in ruins. About a mile away, there is a life size image of the God Ganesha at Ganesh Khera. It is well known for pan gardens.

Pawa This village is situated at 5 kms. north-east of Talbehat. It gained religious importance about 175 Years ago as a place of pilgrimage for Jains and is visited by Jain pilgrims all over the country. It is said that four Jain saints including Swarnabhadra attained nirwana at pawagir. There are ruins of Jain temples.

Chandpur The importance of this place is only on account of the extensive archaeological remains all over the place. There are group of ruined Jain and Hindu temples. There are ruins of temple of Sahastra Linga which derived its name from a large linga on which carved thousand small lingas.

Talbehat Talbehat derives its name from Tal (lake). In ancient times, the place was known as Jiria Khetra. At that time the town, stood by the lake near the hill as can bee see by the ruins. About 1618

A.D. Bharat Shah, the second king of Bar and Chanderi built a fort which is now in ruins, Dabi Singh Bundela, his son set up Singh Bagh in the town which still exists. In his days, the place was called Narsinghouri from the Narsingh temple built in fort by him. The place is famous for basket making, tanning, shoe making and manufacture of persian wheels.

Dhauri Sagar It is situated on a Vindhyan hill, an expansive lake at the foot of the hill gives it picturesque appearance. It was here that Chattrasal the famous son of Champat Rai, defeated the Imperial forces in 1658.

Madanpur It is named after Madana Verma, a famous Chandela ruler who founded it. It contains several Chandela ruins and Jain temples. The most interesting building of past times is small pillared Baradari containing inscriptions describing the victory of great chauhan warrior Prithviraj Chauhan over king Paramardi. In the west of the village is the site of older town, Patna, where there are old Jain temples. There are remains of palace of Mangal Singh, a legendary prehistoric king of Patna.

Sonrai It possesses a five old fort built by Prithvi Singh (a grandson of Chhatrasal) the Raja of Shahgarh and Garkakotah (1744-1753) which was partially destroyed during freedom struggle of 1857. The occurrence of copper ore in the neighbourhood gives it some importance.

(xiv) Scope of Village Directory & Town Directory

Village Directory

The village directory as the title connotes presents information pertaining to rural areas of the district at C.D block/ village level. For each C.D. block a list of villages serialized by English alphabetical order along with their location code numbers of 2001 and 1991 census has been presented. The rational of giving 2001 location code along with 1991 location code is to facilitate the identification of villages for matching information collected at each Census. The villages which have been wholly merged in Nagar Nigam, Nagar Palika Parishad and Nagar Panchayat are not included in the list. In case of partly merged villages, the remaining rural part of the villages has been treated as independent revenue village and the data have been presented for such villages in the village directory.

However, the villages treated as outgrowth of an Urban Agglomeration or Nagar Panchayat is listed in the village directory but no data are presented against the name of such villages. All these villages are listed in the Primary Census Abstract (rural) without presenting their data for providing cross references. Uninhabited or depopulated villages are listed but only area of the village and land use pattern is given. A note against such a village indicates the state of its being depopulated or uninhabited.

The village directory brings out some basic information about a village. These data can broadly be classified into the following categories:

1.	Population and households	Columns 4 & 5
2.	Amenities.	Columns 6 to 13
3.	Other infrastructural facilities etc.	Columns 14 to 16
4.	Availability of news paper/ magazine	Columns 17
5.	Commodities manufacture	Columns 18
6.	Total area of village and land use pattern	Columns 3 & 19-23

Town Directory :

The Town Directory covers all the towns in a district. The towns are arranged by English alphabetical order. The data are presented in seven statements serially numbered (I) to (VII).

The following mode of listing of towns has been followed:-

(i) All the towns having statutory status which are not part of an Urban Agglomeration are listed once in the alphabetical arrangement of the towns.

(ii) All the towns which are part of an Urban Agglomeration and enjoy independent status of a statutory town are listed twice in the alphabetical arrangement of the towns as well as under the main town of an Urban Agglomeration. However, the data are presented separately only once under the main UA. In alphabetical arrangement a note is given against such towns that they are part of such and such Urban Agglomeration.

(iii) The outgrowth(s) of a town which do not qualify themselves for being treated as independent town are not listed in the main body of the Directory. Against name/names of the town having outgrowth(s) an asterisk (*) has been placed to indicate that the town has outgrowth(s).

(iv) Census towns are also listed in the body of Directory. These are the towns which do not enjoy statutory status but are declared towns for the purpose of population Census.

Town Directories of the districts give an account of status and growth history of towns, location and physical aspects of the towns, municipal finances during 1998-1999, civic and other amenities up to 1999 (as well in notified slums), medical, educational, recreational and cultural facilities by year 1999, and trade, commerce, industry and banking activities in year 1999. In this way population and growth rates of towns from 1901 to 2001, density in 2001, sex-ratio during 1981, 1991 and 2001 censuses, rainfall and temperature of the towns, receipts and expenditures in the towns of the district, road length, system of sewerage, number of latrines, method of disposal of night soil, water supply position and fire fighting services, number of electric connections, number of hospitals, colleges, cinemas etc. and number of banks as well as commodities of manufactured and exports are enumerated vividly in various statements relating to the town directories of the districts.

PART - A
VILLAGE AND TOWN DIRECTORY
(SECTION - I & II)

SECTION - I VILLAGE DIRECTORY

Village Directory

(A) Note explaining the abbreviations used in the village directory :

The "Village Directory" is one of the traditional compilations of the Census. It gives the list of villages, their location numbers, their area, population, number of households, amenities such as educational, medical, drinking water, post and telegraph, commercial and co-operative banks, agricultural non-agricultural and other credit societies, recreational and cultural facilities, communication, approach to village, nearest town with a distance, power supply availability of newspaper and magazines, most important commodity manufactured and land use of each village.

Village is a statutory recognized unit having a definite boundary and separate land records. In case, a complete village is treated as an outgrowth of urban agglomeration, data on amenities for that village, have not been given in the Village Directory but shown along with the urban component. The villages which are considered as a Census Town , their amenities data are shown in the Town Directory. For those villages which have partly merged in an outgrowth of U.A., the amenities data are shown in the Village Directory for that particular village.

The 'un-inhabited' villages (villages with no population) have been indicated as such after furnishing details in columns 1 to 3 i.e., Serial number, Name of village & location code number and area of the village against column no. 4 to 18. The land use data for such villages are shown in col. 19 to 23.

The Village Directory format has 23 columns and the details given under each column are for the village are as follows:-

Columns 1 : Serial Number

Self explanatory. All the villages within the CD Block are presented serially in the ascending order of their location code number.

Columns 2 : Name and Location Code Number of village.

The name and location code number of the village are shown against these columns. This also includes the forest and uninhabited villages.

Column 3 : Area of the village

The area of the villages in hectares are given. Wherever the area figures were not furnished by the concerned department the column is left blank.

Column 4 : Total population

The total population of the village as per 2001 Census is given against this column.

Column 5 : Number of households

The number of households as per 2001 Census is given in this column.

Amenities :

In column 6 to 23, availability in respect of different amenities such as education, medical, drinking water, post, telegraph, banks, credit societies, communication, power, approach road etc., in each village has been depicted with appropriate codes against the column concerned. Wherever the amenities are not available in the village, a dash(-) is shown in the column and next to it in brackets the distance in broad ranges viz.< 5 kms., 5-10 kms. and 10+ kms of the nearest place where the facility is available is given. Column wise details are given below :

Column 6 : Educational

Classes upto class V included in Primary School. This will include nursery school, kindergarten school. Pre-basic school, pre-primary school, junior basic school upto class V.

Classes from VI to VIII are included in the middle school.

Classes from IX and X included in High secondary school. Classes XI and XII are included in senior secondary school.

In case of composite schools like middle school with primary school or secondary school with middle school, these are also included in the number of primary and middle schools, respectively.

Accordingly any of the following types of institutions if exists within the village is shown as per codes given below :

(i)	Primary School	P
(ii)	Middle School	M
(iii)	Secondary School	S
(iv)	Senior Secondary School	PUC
(v)	College	C

(vi)	Industrial School	I
(vii)	Training School	Tr
(viii)	Adult literacy class/centre	AC
(ix)	Others (specify) e.g. Sanskrit Pathshala, Senior basic school, Navodaya Vidyalaya, Makhtab, etc.	O

More than one institution of a type in the village is indicated by the number within brackets against the abbreviation, e.g. P(3), M(4), etc.

Column 7 : Medical

Availability of medical facility within the village is indicated by following codes :

(i)	Allopathic Hospital	H
	Ayurvedic Hospital	HA
	Unani Hospital	HU
	Homeopathic Hospital	HHom
(ii)	Allopathic Dispensary	D
	Ayurvedic Dispensary	DA
	Unani Dispensary	DU
	Homeopathic Dispensary	DHom
(iii)	Maternity & Child Welfare	MCW
(iv)	Maternity Home	MH
(v)	Child Welfare Centre	CWC
(vi)	Health Centre	HC
(vii)	Primary Health Centre	PHC
(viii)	Primary Health Sub-Centre	PHS
(ix)	Family Welfare Centre	FWC
(x)	T.B. Clinic	TB
(xi)	Nursing Home	NH
(xii)	Registered Private Medical Practitioner	RMP
(xiii)	Subsidised Medical Practitioner	SMP
(xiv)	Community Health Worker	CHW
(xv)	Others	O

More than one institution of a type in the village is indicated by the number within brackets against the abbreviations, e.g. H(3), D(4), etc.

Column 8 : Drinking Water

The type of the drinking water supply sources available within the village are indicated by codes as follows :

(i)	Tap Water	T
(ii)	Well Water	W
(iii)	Tank Water	TK
(iv)	Tubewell Water	TW
(v)	Handpump	HP
(vi)	River Water	R
(vii)	Canal	C
(viii)	Lake	L
(ix)	Spring	S
(x)	Others	O
(xi)	Summer Source	SS

Column 9 : Post, Telegraph and Telephone

It is indicated by codes as shown below whether within the village exists the following amenities:

(i)	Post Office	PO
(ii)	Telegraph Office	TO
(iii)	Post & Telegraph Office	PTO
(iv)	Telephone Connection	PH

Column 10: Commercial and Co-operative Banks

If the village is served by any banking service, commercial bank, co-operative bank etc. the same is indicated in codes mentioned below along with the number of banks in brackets. If not available the distance of nearest place where the facility exist is given:

(i) Commercial Bank	CM
(ii) Co-operative Bank	CP

Column 11: Credit Societies

If the village enjoys the services of Credit Societies i.e. Agricultural Credit Societies, Non Agricultural Credit Society or Other Credit Societies, the same is indicated in codes mentioned below along with the number of such societies in brackets. In case the facility is not available within the village the distance of the nearest place where such facility exist is given :

(i) Agricultural Credit Society	ACS
(ii) Non-Agricultural Credit Society	NCS
(iii) Other Credit Society	OCS

Column 12 : Recreational and cultural facilities

If facilities such as Cinema/Video hall, Sports Club, Stadium/Auditorium is available in the village. The same is recorded in these columns. If not available the particulars of the nearest place with the facility is recorded. The information is indicated in codes mentioned below along with the number of such facilities in brackets:

(i) Cinema / Video Hall	CV
(ii) Sports Club	SP
(iii) Stadium / Auditorium	ST

Column 13 : Communications

If the village is served by any mode of public / private transport like Bus, Railway station or Navigable water ways they are to be mentioned as follows:

(i) Bus	BS
(ii) Railway Station	RS
(iii) Navigable Waterway	NW

Column 14 : Approach to village

Approach to village refers to the state of road leading to village. The approach to the village is indicated in following codes :

(i) Paved Road	PR
(ii) Mud road	MR
(iii) Foot path	FP
(iv) Navigable River	NR
(v) Navigable Canal	NC
(vi) Navigable waterways other than River, Canal	NW

Column 15 : Nearest Town and distance

The distance is given in kilometres in brackets against the name of the town nearest to the village.

Column 16 : Power supply

Availability of Power Supply in the village, whatever may be the form of its use is given by using following codes :

(i) Electricity for domestic use	ED
(ii) Electricity for agricultural use	EAG
(iii) Electricity for other purposes	EO
(iv) Electricity for all purposesEA	

Column 17 : Newspaper / Magazine

If village receives any News Paper/Magazines the same is noted in this column using following codes:

(i) Newspaper	N
(ii) Magazine	M

Column 18 : Most important commodities manufactured

The name of three most important commodities manufactured in the village is recorded against this column.

Column 19 to 23 : Land use i.e. area under different types of land use

Land use data maintained by the State/ UT Govts. are furnished against these columns. The data concerning area under Forest, Irrigated land (by source), Un-irrigated land, Culturable waste and Area not available for cultivation in the village are shown against these columns. The area figures are given in hectare(s) up to one decimal. Dash '-' is recorded wherever the information is not made available by the concerned department. The codes used for different types of irrigation facilities available in the village are indicated below:

(i)	Government Canal	GC
(ii)	Private Canal	PC
(iii)	Well (without electricity)	W
(iv)	Well (with electricity)	WWE
(v)	Tubewell (with electricity)	TW
(vi)	Tubewell(without electricity)	TWE
(vii)	Tank	TK
(viii)	River	R
(ix)	Lake	L
(x)	Waterfall	WF
(xi)	Others	O
(xii)	Total	T

The village directory also carries the following appendices.

Appendix-I	It gives the abstract of educational, medical and other amenities available in villages C D Block wise of the district.
Appendix-I-A	Indicates number of villages C D Block wise having one or more primary schools.
Appendix-I-B	Indicates number of villages C D Block wise having primary, middle and secondary schools.
Appendix-I-C	Shows number of villages C D Block wise with different sources of drinking water facilities.
Appendix-II	Indicates the list of villages with 5,000 and above population which do not have one or more important amenities.
Appendix-II-A	Indicates list of Census Towns which do not have one or more amenities.
Appendix-III	It gives the land utilization data in respect of Census Towns / non-municipal Towns.
Appendix-IV	C D Block wise list of inhabited villages where no amenity other than drinking water facility is available.
Appendix-V	Summary showing number of villages having or not having Scheduled Castes population.
Appendix-VI	Summary showing number of villages having or not having Scheduled Tribes population.
Appendix-VII A	List of villages according to proportion of Scheduled Castes to the total population by ranges.
Appendix-VII B	List of villages according to proportion of Scheduled Tribes to the total population by ranges.
Appendix-VIII	Indicates C D Block wise number of villages under each Gram Panchayat.
Appendix-IX	Shows number of different types of girls school in a village.

(B) STATEMENT
LIST OF VILLAGES MERGED IN TOWNS AND OUT-GROWTH AT 2001 CENSUS

Serial Number	Name of Village	Location Code number	Merged in Town and Outgrowth
1	2	3	4

Not applicable, as there is no village (s) merged in towns and any outgrowths at 2001 Census.

APPENDIX IX

Statement showing number of girls schools in the villages

Name of District - Lalitpur

Name of District	Name of C.D. Block	Location Code	Name of Village Number	No. of Girls School
1	2	3	4	5
Information not available for this district				

SECTION II
TOWN DIRECTORY

(a) NOTE EXPLAINING THE ABBREVIATIONS USED IN THE TOWN DIRECTORY

Town Directory statements (I to VII)

Statement I : Status and Growth History

Column (2) : Class, name and civic administration status of town :

a Class has been introduced to facilitate analysis of town directory data at the state and all India levels. It is presented according to 2001 Census Population of the town as follows :

Population	Class
100,000 and above	I
50,000 - 99,999	II
20,000 - 49,999	III
10,000 - 19,999	IV
5,000 - 9,999	V
Below 5,000	VI

Town with a population of one hundred thousand (1,00,000)and above is treated as a city.

The civic administration status of the towns is indicated within bracket against the name of the town. The following abbreviations are used to denote civic status of town.

(I)	Municipal Corporation	M. Corp.
(II)	Municipal Committee	MC
(III)	Municipal Council	M Cl
(IV)	City Municipal Council	CMC
(V)	Town Municipal Council	TMC
(VI)	Municipal Board	MB
(VII)	Municipality	M
(VIII)	Cantonment Board/Cantonment	CB
(IX)	Notified Area	NA
(X)	Notified Town	NT
(XI)	Notified Area Committee/ Notified Area Council	NAC
(XII)	Notified Town Area	NTA
(XIII)	Industrial Notified Area	INA
(XIV)	Industrial Township	ITS
(XV)	Township	TS
(XVI)	Town Panchayat	TP
(XVII)	Nagar Panchayat	NP
(XVIII)	Town Committee/ Town Area Committee	TC
(XIX)	Small Town Committee	ST
(XX)	Estate office	EO
(XXI)	Gram Panchayat	GP
(XXII)	Census Town	CT

Others columns need no comments.

Statement II - Physical Aspects and Location of towns, 1999.

Column 3 to 5 : Physical Aspects

In this columns the Rainfall and Maximum & Minimum Temperature of the town is recorded.

Column 6, 7 and 8 :

Name of the State headquarters, District headquarters and Sub-Divisional headquarters with distance from the referent town in kilometers, is to be recorded respectively. If the names mentioned in these columns are the same as the referent town itself, the distance is recorded as (0) zero.

Column 9& 10 :

Name of the nearest city with one lakh and more and five lakhs and more population are recorded.

Column 11, 12 and 13 :

If referent town enjoys the facility of railway station, bus route facility or navigable river/canal. Its name is to be mentioned. If not available, then the name of nearest place with distance, where such facility exists is to be mentioned.

Statement III : Municipal Finance 1998 – 1999

Item-wise amount of receipt and expenditure in thousand rupees, relating to municipal finance of the town for the year 1998-99 is to be recorded.

Statement IV : Civic and Other amenities, 1999

Column (1 to 5) : Self explanatory.

Column (6) : Road length (in kms.)

Information about kutcha / pucca road is to be recorded separately for the roads within the limits of the referent town.

(i)	Pucca Road	PR
(ii)	Kutcha Road	KR

Column (7) : System of Sewerage

Generally, by sewerage system is implied the network of mains and branches of underground conduits for the conveyance of sewerage to the point of disposal. Sewers that carry only household and industrial wastes are called separate sewers, those that carry storm water from roofs, streets and other surface are known as storm water drains, while those carrying both sewage and storm water are called combined sewers.

The codes used for different types of drainage system are as follows :

(i)	Sewer	S
(ii)	Open Surface Drains	OSD
(iii)	Box Surface Drains	BSD
(iv)	Sylk Drains	SD
(v)	Cesspool method	CP
(vi)	Pit System	Pt
(vii)	Others	O

Column 8 to 11 : Number of latrines

Number of various types of latrines both Public and Private are given in these columns.

Column 12 : Method of disposal of night soil

The various prevalent method of disposal of night soil are given below with codes :

(i)	Head Loads	HL
(ii)	Basket	B
(iii)	Wheel Barrows	WB
(iv)	Septic Tank	ST
(v)	Pit System	Pt
(vi)	Sewerage	S
(vii)	Others	O

Column 13 and 14 : Water supply

Source and capacity of storage system. The following codes are used in these columns :

Column 13:

(i)	Tap water	T
(ii)	Tube-well water	TW
(iii)	Tank Water	TK
(iv)	Well water	W

Column 14:

(v)	Over Head Tank	OHT
(vi)	Service Reservoir	SR
(vii)	River Infiltration Gallery	RIG
(viii)	Bore Well Pumping System	BWP
(ix)	Pressure Tank	PT

The information on major source of water supply are given in column 14 and the storage capacity against each in kilo-litres (in bracket) are presented in column 15.

Column 15 : Fire Fighting Service

In case the fire fighting service is available in the referent town 'yes' is recorded. If the facility is not available within the town. The name of the nearest place having this facility with its distance from the referent town has been recorded.

Column 16 to 20 : Electrification (Number of connections)

Different types of electric connections have been shown in these columns, i.e. Domestic, Industrial, Commercial, Road lighting (points) & others.

Statement V : Medical, Educational, Recreational and Cultural Facilities, 1999

Column 1 to 3 : Self explanatory.

Column 4 & 5 :

The data covers all such medical institutions run by or aided by Government/Semi Government/Local bodies and Charitable institutions or Social agencies like the Missionaries. Where the family planning centres are attached to hospitals or maternity and child welfare centres or Primary Health Centres, may be treated as independent units and counted separately using following codes :

(i)	Hospital	H
(ii)	Dispensary	D
(iii)	Health Centre	HC
(iv)	Family Welfare Centre	FWC
(v)	T.B. Clinic	TB
(vi)	Nursing Home	NH
(vii)	Others	O

In case of more than one institutions of any type, it is indicated within brackets the number of such institution (s) e.g. D(3), NH(8), etc. The institutions have further been distinguished by providing additional codes within the bracket as given below :

(i)	Ayurvedic	A
(ii)	Unani	U
(iii)	Homoeopathic	Hom.

Column 6 to 9 :

The codes used for these columns are as follows:

(i)	Arts only	A
(ii)	Science only	S
(iii)	Commerce only	C
(iv)	Arts & Science only	AS
(v)	Arts & Commerce only	AC
(vi)	Combined for all categories-Arts, Science and Commerce	ASC
(vii)	Law	L
(viii)	University	U
(ix)	Others	O

Column 10 : Recognized shorthand, typewriting and vocational training institutes

"Recognised" should mean recognised by some statutory authority, like education department, commerce department, labour department etc. of the government or semi government or autonomous bodies, public sector undertakings etc..

The following codes are used :

(i)	Vocational Training Institute	VT
(ii)	Shorthand	SH
(iii)	Typewriting	Type
(iv)	Shorthand & Typewriting	SH Type
(v)	Others	O

The vocational institutions like - Applied Art/Painting college, Pharmacy college, B. Ed. College, Teacher's Training Institute, Music / Dance School, Nursing School etc. are covered under 'Others'.

Column 11 to 14:

Higher Secondary / Intermediate / Senior Secondary / PUC / Junior College level, Secondary / Matriculation, Middle Schools / Junior Secondary and Primary Schools.

School up to class V are treated as Primary or elementary schools. These include Nursery schools, Kindergarten schools, Pre-Primary schools, Junior Basic schools upto class V and Primary schools upto class IV.

Schools upto VIII are considered as Middle school or Junior Secondary.

Schools upto class X are considered as

Matriculation or Secondary schools. Schools upto XI or XII classes are considered as Higher Secondary / Intermediate / Pre University /Junior College etc. This would cover 10+2 classes whether held in schools or college.

If there are composite schools like middle schools with primary classes or Secondary schools with Middle classes, these are also included in the number of Primary and Middle schools, respectively. For example, if in a town, there are two Primary Schools and one Middle school with Primary classes, the number of Primary

schools in the town is given as three and that of Middle schools as one though there are only three educational institutions.

If there are more institutions of a type in the town, the number is indicated within bracket along with the abbreviation, e.g. P(4), M(3).

Column 15 : Adult literacy class/centres

This column has been introduced keeping in view the Minimum Needs Programme of the Planning Commission. There are number of Adult Education Centres which are included in these columns.

If an educational facility is not available in the town, the name of the nearest place and its distance in kilometres from the town where the facility is available is mentioned.

Column 16 : Working Women's hostels with number of seats

The number of working women's hostel if available in the referent town is mentioned with number of seats. If the facility is not available in the town the name of nearest place with distance where the facility is available is recorded.

Column 17 to 19 : Recreational and Cultural Facilities

Stadium, Cinema, Auditorium/Drama/Community Hall are covered under recreational & cultural facilities. The particulars of permanent recreational facilities are considered for these columns.

Column 20 : Public Libraries, Reading Rooms

Number of public libraries and reading rooms available in the referent town are recorded in codes as follows :

(ii) Reading room	RR

Statement VI : Trade, Commerce, Industry and Banking, 1999

Column 3 to 8 :

Name of three most important commodities exported and names of three most important commodities manufactured in the town are recorded.

Column 9 : Number of Banks

Number of Banks available in the referent town both Commercial and Co-operative banks are recorded against this column.

Column 10 & 11 : Number of Agricultural Credit Societies and Non Agricultural Credit Societies

The total number of Agricultural Credit Societies and Non Agricultural Credit Societies in the referent town are recorded against these columns.

Statement VII : Civic and other Amenities in Slums, 1999

This is the statement on civic and other amenities in all slums whether notified or not and for all towns having statutory bodies, like municipality, Municipal Corporation, Town area committee etc.

PART - B
PRIMARY CENSUS ABSTRACT

(a) Brief note on Primary Census Abstract

The first census of the third millennium and twenty first century the Census of India, 2001 was the 14th continuous and uninterrupted Indian census since 1872. Thus, 2001 Census will provide data on population and its characteristics marking transition from one century and millennium to another.

The gigantic operation of Population Enumeration (considered by many to be the single largest and complex peace time administrative exercise in the world) was made possible due to the door to door universal canvassing of the Household Schedule by about 2 million enumerators and supervisors covering 593 districts, 5,463 sub-districts, 5,161 towns and 638,588 villages. The comprehensive Household Schedule which replaced the individual slip had three parts and two sides A and B. Part I contained the Location Particulars; Part II related to the Individual Particulars and Part III contained questions for Household engaged in Cultivation/Plantation. The part II of the Household Schedule had 39 columns and 23 questions all of which were universally canvassed and no sampling was resorted to during enumeration.

Data Processing

A quantum leap was made in the technology front while processing the Census 2001 data both for Houselisting and Population Enumeration. The Census schedules for both the phases were scanned through high speed scanners in fifteen data centers across the country and hand-written data from the schedules were converted into digitized form through Intelligent Character Reading (ICR) software for creation of ASCII records for further processing. The designing and formatting of the Household Schedule had to be done very carefully using specialized software so as to ensure uniformity, which was an essential pre-requisite for scanning. The selection of appropriate state-of-art technology in data processing has made it possible to produce all the Houselisting as well as Population Enumeration tables on full count basis for the first time in the history of Census. For Census 2001, about 202 million schedules consisting of about 1,028 million records were scanned and processed within a span of only 10 months starting October, 2002.

Task Force on Quality Assurance

After the data is processed, it is expedient on the part of the data producing agency to satisfy itself about its quality before putting the same in public domain. This has to be done mainly through the process of internal consistency, comparison with similar data in the past and also through validation with likewise data if available, from external sources. Quite often the local knowledge and perception has to be brought into play to understand both the existing and the new emerging trends of population distribution and characteristics. The other very important aspect of the data quality is to ensure complete coverage of all geographical areas especially for the population enumeration phase where the data is disseminated right up to the village level in the rural areas and the ward level in the urban areas. Thus ensuring the complete coverage and correct geographical linkage of each enumeration block was one of the major planks of the quality control, specially for small area population statistics.

A very comprehensive check and edit mechanism was put in place to objectively examine the preliminary Census 2001 Population Enumeration results and finally clear them for use. The responsibility of the final clearance of data was with the Task Force on Quality Assurance (TFQA), headed by the Registrar General and Census Commissioner, India. The other members of the TFQA were the Heads and senior officers of the Census Division, Data Processing Division, Map Division, Demography Division and Social Studies Division. The Directors of Census Operations were co-opted as members whenever the TFQA discussed the data for their States/Union territories. The Directors and their senior officers were required to make detailed presentations of data for their own state both in respect to the quality and the coverage and only after the full possible cleared.

There has been a major departure in Census 2001 from the past in respect of the procedure followed for finalization of the Scheduled Castes and the Scheduled Tribes population. In the earlier censuses, the total Scheduled Castes and Scheduled Tribes populations were finalized at the time of the manual compilation of the Primary Census Abstracts (PCA) at the Regional Tabulation Offices which were specially set up for this purpose. The individual Scheduled Castes and the Scheduled Tribes population for each state was finalized much later based on manual coding done by the coders. In 2001 Census, each individual Scheduled Caste and the Scheduled Tribe have been coded directly on the computers by the Data Entry Operators through a process known as Computer Assisted Coding (CAC) and taken up along with the processing of PCA data. The CAC process involves pulling down, from the relevant dictionary of the Scheduled Castes and the Scheduled Tribes, on the computer screen and coding from the dictionary by referring to the image of the specific individual entry in the Household Schedule appearing on the screen. The CAC of the response on Religion

wherever required, was also undertaken along with the processing of PCA. This is because the Scheduled Castes status had to be determined in relation to the religion of the individual. Two Special Task Forces, one on Religion and the other on Scheduled Castes/Scheduled Tribes were constituted for scrutiny and appropriate classification of these responses.

The main task of the Special Task Force on Religion was to appropriately merge or group the new responses encountered and code it into the appropriate religious community based on available literature and local knowledge. The Special Task Force on Scheduled Castes and Scheduled Tribes examined the different Scheduled Castes and Scheduled Tribes entries encoun-tered and classified these into appropriate category of the Scheduled Castes or the Scheduled Tribes principally based on the Presidential Notification and the available literature. Thus a very systematic and scientific mechanism was operationalised to firm up the individual religion and the individual Scheduled Castes/Tribes returns. The Scheduled Castes and the Scheduled Tribes population in 2001 Census, is thus being finalized by aggregating the population data for individual Scheduled Castes and the Scheduled Tribes at appropriate geographical levels.

The entire work relating to the data validation and scrutiny was completed by all the States/Union Territories under the overall supervision and monitoring of the Census Division of the Office of the Registrar General, India with active cooperation and support of the Social Studies Division, Data Processing Division, Data Dissemination Division and Map Division.

Primary Census Abstract

The Primary Census Abstract which is yet another important population of 2001 Census gives basic information on Area, Total Households, Total population, Scheduled Castes, Scheduled Tribes population, Population in the age group 0-6, Literates, Main workers and Marginal workers classified by the four broad industrial categories, namely, (i) Cultivators, (ii) Agricultural laborers, (iii) Household Industry Workers, and (iv) Other workers and also Non-workers. The characteristics of the Total Population includes Scheduled Castes, Scheduled Tribes, Institutional and Houseless population and are presented by sex and rural-urban residence. This data is presented at different levels, namely, India, States/Union territories, Districts and Cities, Urban Agglomerations (Population 1,00,000 and above) in three different tables. In addition, the Appendix of said publication provides Houseless and Institutional Households and their population by residence and sex for 2001 for India, State and Union territory.

Apart from the India and State/Union Territory volumes for Primary Census Abstract, the District Census Handbook contains District Primary Census Abstract, Appendix to District Primary Census Abstract, Primary Census Abstract for Scheduled Castes, Primary Census Abstract for Scheduled Tribes, Village Primary Census Abstract and Urban Primary Census Abstract of the concerned district in the state.

It was for the first time at the 1981 Census that the Primary Census Abstract (PCA) was brought out for the Scheduled Castes and the Scheduled Tribes separately on the pattern of General Primary Census Abstract. This practice was continued in 1991 also. In the 1961 and 1971 Censuses, such data were made available in Table C-VIII-Social and Cultural table and to some extent in the series 'Special Tables for Scheduled Castes/Scheduled Tribes'.

The format of Primary Census Abstract has been restructured slightly in the 2001 Census as compared to that of 1991 Census. The nine-fold industrial classification of main workers given in the Primary Census Abstract of 1991 Census has been discontinued and its place, four-fold industrial classification of both 'main workers' and 'marginal workers' are included. In 1981 census only main workers were presented in to four categories. One of the novel features of the primary census abstract of 1991 census was the presentation of data of the population of age group 0-6 is continued in 2001 Census also. This will help the data users in better analysis and understanding of this literacy data.

Level of presentation in District Census Handbooks:

The Primary Census Abstract data in different PCAs are presented at different levels. The level of presentation of Primary Census Abstracts are as under:

The PCA Data for villages was presented CD Block wise for the first time in 1991 Census. This practice is continued in 2001 Census also. The data for each CD Block is presented both for rural and urban areas separately. All the villages within the CD Block constitute the rural portion and the Census Towns and Outgrowths are shown under the urban portion of the CD Block. In case a CD Block is spread over two or more districts, than portion which falls within the district is presented, the data pertaining to remaining portion of the CD Block is presented in the concerned District Census Handbook. The data in the Urban Primary

Census Abstract for each town as well as for town with outgrowths in the district are presented. The data for all the wards and the outgrowths of the town(s) are also presented separately below the concerned town(s).

The District Primary Census Abstract is presented in 59 columns. The Primary Census Abstract for Scheduled Castes and Primary Census Abstract for Scheduled Tribes are presented in 52 columns. The Village Primary Census Abstract and Urban Primary Census Abstract are presented in 58 columns.

The concepts and definitions used in the column heading are explained under the sub heading 'Census Concepts' in the Analytical Note. The term 'Total Population' includes the Scheduled Castes, the Scheduled Tribes, the Institutional and the Houseless populations. The explanation regarding area figures presented at various level in the Primary Census Abstracts are as follows:

Area Figures

The area figures supplied by local revenue authorities of the district in respect of tehsils, Police Stations and by the local bodies in respect of towns are given in square kilometers. The area figures of the villages supplied by the Tahsildars in acres have been converted and shown in hectares. The area figures of the CD Block is the total of the village areas coming under each CD Block. The area figures for the district are the same as adopted by the Surveyor General of India to maintain uniformity at the national level. The total area figures of all the tahsils/CD Blocks within the district may not tally with area figures of the district because former represents land use area only. Similarly, the total of all the villages may not tally with the entire rural of Police Station/Tahsil. The difference may be due to the fact that while the area covered by hills, forests and rivers etc, have been accounted in the Tahsils and P.S. level the same may not be covered under the area of the villages. Apart from this it may also differ due to varying methods of computation adopted at different levels.

An appendix to District Primary Census Abstract has also been furnished showing urban enumeration block-wise particulars on Total Population, the Scheduled Castes Population and the Scheduled Tribes Population for each town.

ANNEXURES I TO VIII

ANNEXURE - I

NUMBER OF VILLAGES UNDER EACH GRAM PANCHAYAT

Not provided for this district.

ANNEXURE - II

FERTILITY AND MORTALITY 1991 CENSUS

The three factors affecting the population size of the district are fertility, mortality and migration. These concepts are explained in detail under the caption Census and Non- Census Concepts and Definitions in the Analytical Note portion. One major aspect of consideration under mortality is infant and child mortality. Migration may be perceived as percentage distribution of migrants by place of birth and/or place of last residence. The population of the UP state was 139 million at the 1991 Census, which accounted for 16 % of India's total population. It grew by 25% between 1981 and 1991 largely as a result of high fertility, the highest of any Indian state.

The child mortality indicators at the 1991 Census in the district and the State was as following:

Child Mortality Indicators in the State and the District

Indicator	Persons/Males/Females	UP*	Lalitpur
q1	Persons	99	103
	Males	98	87
	Females	104	118
q2	Persons	117	136
	Males	117	132
	Females	118	143
q3	Persons	134	158
	Males	135	141
	Females	132	176

(*Undivided Uttar Pradesh at 1991 Census)

The child mortality by ages 1, 2 and 5 years was higher in the district as against the State. The child mortality indicators in the district for females were in the improved condition as compared to the state by ages 1, 2 and 5 years.

Annexure – III
Various Measures of Fertility and Mean Age at Marriage – 1991

Sl. No.	Fertility Measures	Person Male Female	Uttar Pradesh	Lalitpur
1	2	3	4	5
1	CBR		37.2	38 7
2	TFR		5.6	5.6
3	TMFR		6.3	5.9
4	GFR		172.0	179.0
5	GMFR		200 0	192.0
6	Mean age at marriage (1981-91)		17.3	15.3
7	Number of children ever born per ever married woman aged 45-49 years		4.6	4 95
8	Child woman ratio 0-4	(Year)	631.0	664.0
	5-9	(Year)	752.0	782.0

Source: (i) Estimates of fertility indicators Uttar Pradesh Table # 2.23
(ii) District Profile Uttar Pradesh 1991.

Measures of fertility is an important component to describe fertility and mortality rate of any area. The table reveals that the Crude Birth Rate (CRB), which is the ratio of the number of live births in a year to the mid year population, is 38.7 per thousand in the district. It is high to the state of Uttar Pradesh i.e. of 37.2 per thousand. In respect of Total Fertility Rate (TFR), Total Marital Fertility Rate (TMFR) and General Marital Fertility Rate (GMFR), the district presents all along a lower proportion from the state figures while General Fertility Rate (GFR) is higher in the district. The conclusion that may be drawn is lower fertility ratio for the district. The mean age at marriage during the period 1981-91 has been 17.3 years for the state where as 15.3 years has been observed for the district. It may be observed that lower age at marriage leads to high rate of fertility in the district. Similar trend is observed in the number of children born per ever-married women in the age group 45-49. The state and the district figures are placed as 4.59 and 4.95 percent respectively. Number of children in the age group 0-4 and 5-9 years per one thousand women in the age group 15-49 has been calculated to 664 and 782 for the district while in case of the state the corresponding figures are 631 and 752. The various measures of fertility presents that levels as such are high to the state average. Another important factors i.e. the probability of dying between birth and at age 1,2 and 5 has been of higher order in the district than the state average.

The annexure presented above shows percentage distribution of migrants as per 1991 census. Amongst the percentage distribution of migrants, particularly in-migrants by place of birth (in which a person is enumerated during the census at a place other than the place of birth) the proportion of total migrants in the district from the total population was 8.32 percent in both the district and state as well. Amongst total migrants the proportion of in-migrants from other districts of the state comprised 81.32 percent (73.52 percent male and 83.32 percent females). The corresponding proportion in the district was less than half of the state figure, worked out to be 39.25 percent (57.93 percent male and 32.32 percent females). The proportion of in-migrants from other states was 16.15 percent (20.88 percent male and 14.94 percent females) in the state while in the district it was too high up to 62.56 percent (41.82 percent male and 69.50 percent females).In-migrants from other countries was 0.19 percent (0.25 percent males and .018 percent females) as against state figure of 2.53 percent (5:60 percent male and 1.74 percent females).

In respect of in-migrants by place of last residence (a person is enumerated during the census at other than his place of last residence) it is evident from the total population of 1991 census that the volume of total migrants in the state had been to the extent of 2.78 percent (1.45 percent male and 4.24 percent females), the corresponding proportion at the district level was 3.43 percent. In-migrants from other districts of the state constituted more than 79 percent in the state and whereas the corresponding proportion was 43.22 percent (61.51 male and 96.83 female) in the district. Here it is important of mention that the migrants "from other districts of the state" and "from other countries" in the district is very low, whereas in-migration "from other States/UT" is very high as compared to the state figure. It is applicable for both type of migration i.e. in-migration by place of birth and by place of last residence.

From the above annexure it is observed that Hindu religion predominate with 81.74 percent of total population Muslim follows with 17.33 percent in the state. In the district however, the trend is the same but the proportion for the district Lalitpur does not follow the state figures. In respect of district followers of Hindu religion are 94.84 percent whereas the Muslim followers are only 2.73 percent. At the state level proportion of Budh is 0.16 percent while at the district level it is 0.01, Christian constitute 0.14 percent in the state and 0.08 percent in the district. Similar proportion prevails to Jain 0.13 percent in the state and 2.20 percent in the district. Sikh 0.13 percent out number the state figure 0.49 percent. Followers of other religion account 0.01 percent in the state and nearing zero percent in the district.

On perusal of the above annexure it is evident that percentage of never married is lower for the district both for male and female (50.67 percent male and 41.97 percent female) than the state (54.40 percent male and 45.92 percent female). Consequently percentage of married in the district (45.96 percent male and 53.10 percent female) is also higher than the state (42.41 percent male and 49.41 percent female). Like wise percentage of widowed persons in the district (3.21 percent male and 4.87 percent female) is also higher than the state (3.00 percent male and 4.56 percent female). Percentage of unspecified marital status is much lower in the district than the state. Among the age groups the proportion is in the descending order for never married and ascending order for widowed. The trend for married is pyramidal, the peak for male is in the age group 35-39 and for female is in age group 30-34. Excluding age group 0-9 the highest proportion of never married is in the age groups 10-14. Highest proportion of widowed is in the age group 70+both for male and female.

Annexure - VII

Age, Sex and Education in the state/district 1991 census.

From Annexure VII, it can be observed that percentage of male illiterates is higher in the district (64.15 percent male and 87.08 percent female) than the state (55.28 percent male and 79.97 percent female). Consequently percentage of literates is lower in the district than the state both for males and females. Although percentage of literates without educational level is higher than the state, percentages are higher in the subsequent educational levels. Comparative study between state and district will elaborate the facts. While percentage of literates with primary education in the state is 10.72 for male and 6.05 for female, in the district they are 12.95 and 4.98 percent respectively. Middle level education in the state is 9.75 and 3.72 percent for male and female, while the district has 8.89 and 2.83 respectively. For the matriculation and above level the state has reported the figures of 13.49 percent and 4.42 percent for male female, whereas the district depicts the figures of 8.18 and 2.58 percent for males and females. Highest literates with primary education is in the age group age not stated. The age group that has highest population of middle level education is 7-14. The age group that has highest population of middle level education is 15-19 for male and female both. The population of matriculation and above level is highest in the age group 20-24 for males and in age group 15-19 for female.

The above annexure presents distribution of different mother tongue with percentage for the state and the district. There is identical trend for the highest percentage of the people reporting Hindi as the mother tongue both for the state (82.12 percent) and the district (93.02 percent). Percentage of people reporting Urdu as mother tongue is much lower for the district (1.17 percent) than the state (8.98 percent). Bundeli/Bundelkhandi is placed is second (5.39 percent) mother tongues, has also higher percentage in the district than the state (0.08 percent). Other mother tongues such as Punjabi, Marathi, Malayalam, Bhojpuri, Tamil, Chhattisgarhi, Telugu, Bengali, Rajasthani, Sindhi, Dogri, Gujarati, Kannada are below one percent.

Note : For state level only first 28 mother tongues and at district level only those mother tongues are shown in the table whose proportion is greater than 0.02%. The remaining tongues have been merged in the column of "Total of Other Mother Tongues."

Annexure-VIII presents distribution of population according to different mother tongues with percentage for the state and the district. There is identical trend for Census of 1991 and 2001 as the highest percentage of the people reporting Hindi as the mother tongue (83 1 percent in 1991 and 94.9 percent in 2001). This trend is visible for the district as well. The district reported Hindi as mother tongue for 86.4 percent person in 1991 and 91.0 percent in 2001. Urdu returned as second largest spoken mother tongue as 9.0 percent was recorded in 1991 and 8.0 percent at the state level whereas 10.0 percent and 8.2 percent at district level in 1991 and 2001 Census respectively. Persons speaking other languages as mother tongue were very small in number in both the state, and district, in both Censuses.
