Map of Pratapgarh

Bela Bhawani Temple

Bela Pratapgarh, popularly known as Pratapgarh is the headquarters town of the district. It lies on Allahabad-Faizabad main road at a distance of 40 kms. from Allahabad. It is well connected with Faizabad, Jaunpur, Rae Bareli and Sultanpur. Bela Pratapgarh gets its name from Bela Bhawani Temple situated on the banks of the river Sai which flows to the north & east of the town. It is believed that Shri Rama once crossed the river before dawn and offered his prayers to Godess on its bank. Later, as the legend goes, a temple known as Belha was founded at this spot. Baba Bhikhari Das, the great Hindi poet of the 18th century was born here and composed his famous "Kavya-nirnaya" here in 1802. The particular area was annexed as cantonment for the Oudh auxiliary force and was made headquarter of the district, after first freedom struggle was suppressed by the British. Around the temple, one Dharmshala, sub-post office and a few small pottery units are located. Local people offer prayers to the district on Tuesday & Saturday. During the months of October and April/May Navratri Pujas are organised with enthusiam.

Annexures - I To VIII

Annexure I	Number of villages under each Gram Panchayat	1008
Annexure II	Fertility and Mortality, 1991 Census	1108
Annexure III	Various measures of fertility and mean age at marriage, 1991 Census	1009
Annexure IV	Percentage distribution of Migrants by place of birth/place of last residence, 1991 Census	1010
Annexure V	Brief account of main religions in the district/tahsil as per 1991 Census	1011
Annexure VI	Marital status of population as per 1991 Census	1012
Annexure VII	Age, Sex and Education in the district, 1991 Census	1014
Annexure VIII	Distribution of different mother tongues returned in 1991 Census	1016

FOREWORD

The District Census Handbook (DCHB) published by Census Organisation since 1951 census, is one of the important publications in the context of planning and development at gross-root level. The publication, which is brought out for each district, contains several demographic and socio-economic characteristics village-wise and town-wise of the district alongwith the status of availability of civic amenities, infrastructural facilities, etc.

2. The scope of the DCHB was initially confined to a few Census Tables and Primary Census Abstract (PCA) of each village and town within the district. Thereafter, at successive censuses, its scope and coverage has been enlarged. The DCHB published at the 1961 census provided a descriptive account of the district, administrative statistics, census tables and a village and town directory including PCA. The 1971 census-DCHB series was in three parts: Part-A related to village and town directory, Part-B to village and town PCA and Part-C comprised analytical report, administrative statistics, district census tables and certain analytical tables based on PCA and amenity data in respect of villages. The 1981 census DCBH was in two parts: Part-A contained village and town directory and Part-B the PCA of village and town including the SCs and STs PCA up to tahsil/town levels. New features alongwith restructuring of the formats of village and town directory were added into it. In Village Directory, all amenities except electricity were brought together and if any amenity was not available in the referent village, the distance in broad ranges from the nearest place having such an amenity, was given. Information on new items such as adult literacy centres, primary health sub-centres and community health workers in the village were provided so as to meet the requirements of some of the Revised Minimum Needs Programme. Information on approach to the village was provided for the first time in the Village Directory so as to give the details on number of inaccessible villages in each district. In the Town Directory, a statement (IV-A) on slums was introduced to provide the details on civic and other amenities in the notified slums of Class I and Class II towns.

3. The 1991 census DCHB, by and large, followed the pattern of presentation of 1981 census, except the format of PCA was restructured. Nine-fold industrial classification of main workers was given against the four-fold industrial classification presented in the 1981 census. In addition, sex-wise population in 0-6 age group was included in the PCA for the first time with a view to enable the data users to compile more realistic literacy rate as all children below 7 years of age had been treated as illiterate at the time of 1991 census. One of the important innovations in the 1991 census was the Community Development Block (CD block) level presentation of village directory and PCA data instead of the traditional tahsil/taluk/PS level presentation. It was expected that the presentation of village directory and PCA data at CD block level will help the planners in formulation of micro level development plans, CD block being lowest administrative unit.

4. The present series of 2001 census DCHBs have been made more informative and exhaustive in terms of coverage and content. The Village Directory has been enlarged in scope by including a number of other facilities like banking, recreational and cultural facilities, newspapers and magazines and 'most important commodity' manufactured in village. Income and expenditure of gram panchayat, wherever possible, has been provided. Apart from these, more details on distance(s) at which basic amenities are available (if not available in the village), are given. This includes educational facilities (namely primary and middle schools and college), medical facilities (viz. Allopathic Hospital, Maternity & Child Welfare Centre and Primary Health Centre), drinking water, post & telegraph (post office and phone), communication, bank, credit societies and recreational

facilities. In Town Directory, the statement on Slums has been modified and its coverage enlarged by including details on all slums instead of 'notified slums'. The information is given in case of all statutory towns irrespective of their class, against only Class I and Class II towns in the 1981 and 1991 censuses. The basic amenities available in the villages and towns are analysed in depth with the help of a number of cross-classified inset tables and statements. Two other significant additions in the publication are inclusion of 'motif' highlighting significant characteristic of the district and analytical notes as annexures. The analytical notes on (i) fertility and mortality and (ii) various measures of fertility and mean age at marriage are prepared based on 1991 Census. Whereas, in the notes relating to (i) percentage distribution of migrants by place of birth/place of last residence, (ii) main religions, (iii) marital status of population, (iv) age, sex and education, and (v) distribution of spectrum of mother tongue, nature and extent of changes occurred in the district in its basic socio-demographic features during the decade 1991-2001 are analysed. The eight digits permanent location code (PLCN) to all the villages and towns have been assigned keeping in view the future needs.

5. The village and town level amenity data have been collected, compiled and computerised in prescribed record structure under the supervision of Dr. Ranvir Singh, Director of Census Operations, Uttar Pradesh. Thereafter, efforts have been made to ensure comparability of the information with that of 1991 census data and the information brought out by the respective state governments in their annual reports and statistical handbooks for various years after 1991. The task of planning, designing and coordination of this publication was carried out by Shri R.G. Mitra, Deputy Registrar General (C&T) and Dr. I.C. Agrawal, Senior Research Officer of Social Studies Division. Dr. R.P. Singh, Deputy Registrar General (Map) provided the technical guidance in the preparation of maps. Whereas, Shri Anil Kumar Arora, Deputy Director of Data Processing Division who worked under the overall supervision of Shri Himakar, Addl. Director (EDP) helped in preparation of record structure for computerisation of village and town directory data and the programme for the generation of Village Directory and Town Directory statements including analytical inset tables. The draft DCHB manuscripts received from the Census Directorates have been scrutinised in the Social Studies Division under the guidance of Shri S.L. Jain, Deputy Director and Shri R.K. Mehta, Assistant Director. I am thankful to all of them and others who have contributed to make this publication possible.

D.K. Sikri
Registrar General &
Census Commissioner, India

New Delhi
Dated: 17.10.2006.

Preface

The District Census Handbooks (DCHBs) are brought-out in two parts giving village and town wise data for each district. The first part contains non-census data for each village and town and is called Village and Town Directories Part A. The Part B provides Census data for rural area up to the village level and for urban areas up to ward level for each town or city in the shape of Primary Census Abstract (PCAs). The information contained in Primary Census Abstract and Village and Town Directory (VDs/TDs) has already been released for data users in soft copy. Data available in District Census Handbooks are very useful for policy planners, Administrators, Researchers and other socio-economic research centers. Till 1991 Census, all the inset tables included in District Census Handbooks were produced manually. But this time the software designed by the Data Processing Division of the Office of the Registrar General, India helped in the fast generations of tables.

I am deeply grateful to Shri J.K. Banthia, Ex-Registrar General and Census Commissioner of India for his guidance and support. I would like to thank Shri D.K. Sikri, Secretary, Registrar General and Census Commissioner of India for his sustained support and spontaneous, unfailing guidance through our endeavours. At the outset I thank to Shri R.C. Sethi. Additional Registrar General, India, who drove us to complete the District Census Handbooks within a specific timeframe and make it ready for printing.

I thank to Shri R.G. Mitra, Ex. Deputy Registrar General (C&T), Shri R.P. Singh, Ex. Deputy Registrar General (Map), Dr. I.C. Aggarwal, Ex. Assistant Registrar General (SS) of the office of Register General, India for their guidance at each steps in the preparation of District Census Handbook. Special thanks are due to Shri S.L. Jain, Deputy Director (Social Studies) and Shri Anil Kumar Arora, Deputy Director (EDP), without their untiring efforts and support we could not have completed the District Census Handbook within this time.

The Director of Census Operations, Uttar Pradesh, Dr. Ranbir Singh, under whose guidance, the entire operations were carried out deserves all credit for its success, but he was repatriated to the State Government for taking up some other important assignments before the volume could be made available for the printing. I am also thankful to Shri R. K. Singh, Ex-Joint Director and Shri S.S.A. Jafri, Deputy Director for their valuable guidance and support to complete this project within specific time frame. The task of data collection in respect of both Census and non-census items was a gigantic on which officials in the State Government had to perform along with their normal duties. For their deep sense of devotion to duty and hard work in this regard, I am thankful to all of them.

The preparation of District Census Handbook was done under the supervision and guidance of Shri B.K. Srivastava, Deputy Director of Census Operations and his team of dedicated workers deserve all praise for their perseverance and dedication in preparing for Camera Ready Copy of District Census Handbook.

I am also thankful to Shri Mohan Pandey, Ex-Deputy Director, Shri J. Majhi, Assistant Director, Shri M.M. Pandey, Dr. S.S. Sharma S.I. Grade-I and Shri S.K. Banerjee, S.I. Gr. II who assisted in the work for timely completion of the project. S.I.Gr.II, S.I.Gr.III, Sr.Compilers, Compilers, Data Entry Operators and Assistant Compilers who assisted in the work also did a tremendous job. Shri A.M. Ansari, Deputy Director (EDP) and his team of devoted workers deserve all praise for timely processing of Household Schedule through Image Based Data Capturing Technology i.e. Scanning. The members of the staff in the Map Section did a commendable job under the guidance of Shri Dashrath Singh, Research Officer (Map) in bringing out various maps.

District Highlights – 2001 Census

1. District Pratapgarh ranks 29th in terms of population in the state.

2. The percentage share of urban population in the district is 5.3 as against 20.8 of the population in urban areas of the state.

3. Pratapgarh district has population density of 735 persons per sq.km. which is more than the state average 690 persons per sq. km.

4. Pratapgarh district ranks 3rd in terms of sex ratio (1004) which is higher than the state average (898) females for one thousand males.

5. Pratapgarh district ranks 36th in literacy 57.6 which is higher than the state average 56.3 percent.

6. There are only 37 uninhabited villages out of total 2219 villages in the district.

7. Decadal growth rate of the district 23.5 is lower to the state average of 25.8

8. Patti tahsil has the highest number of inhabited villages 815 while Lalganj tahsil has the lowest number (441).

9. The district has 7 towns out of them none is new town added after 1991 census and no town has been declassified.

10. There are 438,936 households in the district accounting for 1.70 per cent of the total households in the state. The average size of households in the district is 6.2persons.

ANALYTICAL NOTE

(i) History and Scope of the District Census Handbook :

The district census handbooks were first published after 1951 census. Since then after every decadal census the publication has remained a constant feature with some improvements. This publication has been traditionally brought out by the Census Organization on behalf of each State Government/ Union Territory. This publication provides data on demographic characteristics as well as information on the availability of basic amenities in each village and town of respective districts. The scope of the publication has been changing with the changing needs of the data users. The 1951 census series of the publication contained Primary Census Abstract, Village and Town Directories, administrative statistics and an account of the district. In 1961 the publication was in a single volume containing three parts covering Census tables, official statistics and Village Directories. The 1971 Census DCHBs were published in 2 parts. The Part A contained Village and Town Directories and Part B contained Village and Town PCA. The Part C could not be published in many States/UTs which contained administrative statistics and district census tables. The 1981 DCHBs were published on the restructured formats of Village and Town Directories. The DCHBs of 1981 Census were published in 2 parts for each district. The Village and Town Directories comprised Part 'A' and PCAs of Villages and Towns (ward-wise) including Scheduled Castes and Scheduled Tribes PCA up to Tahsil/Town level were provided in Part 'B'. If any amenity except electricity was not available in the referent village, the distance in broad ranges from the nearest place having such amenities was given. Information on some new items were also provided keeping in view of the needs of the Revised Minimum Needs Program. The 1991 DCHBs were almost same in scope as was at 1981. The new features included in 1991 DCHBs were the nine-fold industrial classification of main workers and the sex-wise population in the 0-6 age group. Yet other information at the 1991 Census was the CD Block level presentation of data. The VD data was also made available through the magnetic tapes/floppies. Unfortunately in UP no DCHBs relating to 1991 Census were out of press till completion of 2001 Census defeating the very purpose of these publications apart from causing inconveniences to the data users.

The 2001 DCHBs contain more information such as details on greater number of facilities available to the Villages/Towns. The analysis of data with aid of inset tables and statements is more informative. The 2001 DCHBs are fully geared to meet the requirements of Gram Panchayats. At the 2001 Census the DCHBs are entirely available on electronic format and on CD-ROM, hence the word "Handbook" seems now to be a misnomer.

(ii) Brief History of the District

District Pratapgarh was created in 1858 with its headquarter at Bela which was later on known as Bela Pratapgarh. The name Bela Pratapgarh has been derived from the temple of Bela Bhowani, situated on the bank of river Sai. Pratap Singh a local Raja who flourished between 1628-1682 fix his headquarter at Rampur near the old town of Agra, the said king built a 'Garh' (Fort) and called it Pratapgarh after his own name, subsequently the area around the fort was popularized and known as Pratapgarh.

The early history of the district dates back to the fact that the reign was already inhabited in pre historic age. The archaeological exploration, excavations under taken by state archaeological department and Tata Fundamental Research Institute Bombay at Sarai Nahar in tahsil Kunda have found human skeltons along with animal's bones and small stone implements probably of Neolithic age. These findings pertain to around 8000 B.C. the ruins of the numerous buildings; monuments show that this tract did enjoy settled life and civilization since the early times. The ruins of the ancient fort at Hindaur in Pratapgarh tahsil ascribe that it was founded by Handavi, a demon of Mahabharat age. The present area of Bihar where ruins still remain is probably of an ancient Buddhist monastery which gave its name Biha to this town, Historian Cunningham made an excavation at village Gaura in 1876, he had found the ruins of a small richly carved temple of Surya, shows the date of the temple older than 8 or 9 century. It appears that Surya Vansh dynasty of Kshatriyas founded by Manu, who ruled over Madhyadesh, was the first to establish an organized govt. over this area. Ikshavaku, the eldest son of Manu was the first ruler and he succeeded by his son Vikushi who was also a very powerful king. District Pratapgarh was part of Kosala kingdom during Ramayan period; Ram divided his kingdom among his

sons and nephews. Kush the elder got the throne of Ayodhya; Pratatgarh was included in his dominion. In the times of Mahabharat 'Diraghayajna'a powerful and religious minded monarch ruled over Ayodhya and neighbouring area. He was subdued by BhimSen, a Pandava. In the 6th century B.C. the area of present district was ruled by powerful king Mahakosala. In the middle of the 4th century B.C. The entire territory of Kosala including this district was annexed to Maghadh Empire. The district came under Maurya empire during (322-297 B.C.).This dynasty lasted for 137 years and Ashoka was the famous king of this dynasty. Sungas, Sakas and Kushans followed afterwards Gupta's annexed Kosala kingdom. Chandragupta Vikramaditya and his successors ruled over Avadh upto 510 A.D. in which the district included towards the beginning of the sixth century this reign was passed into the hands of Maukhari kings of Kannauj. During 9th century, the Gurjara- Pratihara monarchs of Kannauj dominated the district. During the days of Kannauj kingdom some part of the district was occupied by Bhars**.**

In the medieval period, it is said that the area was ruled by Manikchand and Kara and then by his elder brother Jayachandra of Gahada vala dynasty. In 1192 Shihbuddin Ghori invaded the earlier ruler and established. The capital at Kara in which Pratapgarh was included. Ala-ud-din Masaud dominated the area of the present district till 1246 when he was succeeded by Nasir-ud-Mahmud (1244-1265). According to tradition about 1258, Lakhan Sen, a Sombanshi Rajput from Allahabad established him self at Parcho Siddh (near Pratatgarh) and subsequently occupied the pargana of Pratapgarh. In 1394 Khwaja Jahan, Mohammad Tughlaq's vazir was entrusted with the administration of the country from Kannauj to Bihar. In 1479 Sultan Bahlul Lodhi followed by Sikandar Lodhi ruled the area till 1517,Manikpur was a place of great importance in the reign of Sher Shah Suri and after his death the district passed under the subjugation of Muhammad Adil Shah. In 1567 Khan Zaman over rule all the area of Avadh including the district when Akbar founded Allahabad and made it headquarters of province, a reconstitution of the old administrative division was carried out and the present area of Manikpur, Rajpur & Bihar were included in it. In 1580 Akbar appointed Asad Khan Turkman to the change of Manikpur and in 1605 he was succeeded by his son Jahangir (1605-1628). In 1628 Sombarshi Rajput of Lunar dynasty Raja Pratap Singh moved his headquarter to Rampur from Tejgarh (now Pratapgarh) as made a fort in the memory of his late father Raja Tej Singh Chhatradhari Singh son of Jai Singh holded Pratapgarh estate independently till 1722 when Sadat Khan Burhar-ul-Mulk was appointed governor of the province of Avadh by emperor Mohommad Shah. In the year 1759 Pratapgarh estate was annexed to the dominions of the nawabs some times later Siraja-ud-daula handed over Pratapgarh estate to Hindupat.

In the later history of district for more than half a century, is simply a record of continuous fighting between the officials of Avadh government and local Rajput chief. In 1856, Wazid-Ali- Shah(1847-1856) was deposed and his territories including the area now covered by present district were annexed to East India Company. The district of Pratapgarh was then created with headquarter at Bela. The revolt against British government gradually got momentum and early in June 1920, 200 kishans including Pt. Jawaharlal Lal Nehru marched to Allahabad to draw the attention of prominent leaders regarding their woebegone condition. The Non-co-operation Movement launched by Mahatma Gandhi in 1920 also started side by side in the district. During the civil disobedience movement of 1930. The Pratapgarh played an important part the quiet India movement of August 9,1942 received wide support of the people in the district. By this time the British was realized that they could no longer here to keep rule and untimely on August 15,1947 the district along with the country shows off the foreign yoke.

(iii) Administrative Setup

District Pratapgarh is located in the eastern reign of the state. The eastern reign of the state starts Allahabad in the south to Maharajganj in the north east. Since long there are four Tahsil namely Lalganj, Kunda, Pratapgrah and Patti. They are located within the radius of 60 km from the district. Kunda is the farthest among all tahsils. The rural area

of the district have been grouped under 16 community development blocks namely Kalakankar, Babaganj, Kunda, Vihar, Sangipur, Lalganj, Ajhara, Laxmanpur, Sandawa Chandrika, Pratapgarh Sadar, Mandhata, Magraura, Patti,Aspur Deosara, Shivgarh, Gaura and Rampur Sangramgarh. There are 1105 Gram Sabhas, 2219 revenue villages in which 2182 inhabited and 37 uninhabited villages. Apart from six Nagar Panchyats there are one Nagar Palika Parishad, Bela Pratapgarh exists here.

Jurisdictional Changes(1991-2000)

There was no Jurisdictional Changes in external boundaries of the district. Two villages of Kunda Tahsil have been merged finally in Manikpur nagar panchayat, and six villages of Kunda tahsil in nagar Panchyat Kunda, two villages of Pratapgarh tahsil in town panchayat Katra Medniganj. One village of Pratapgarh tahsil in Nagar Panchyat at Antu and three villages of Patti tahsil partially in Nagar Panchyat Patti. No other Jurisdictional change has taken place during 1991-2000 Total number of towns in the districts are 7 number and villages are 2219.

District Administration:

District administration comprises of Revenue, Development, Police (Law and Order), Judiciary and Local self government. District Magistrate is in-charge of revenue administration. He is assisted by Additional District Magistrate (Finance and Revenue) i.e., ADM (F&R). At the tahsil level Sub Divisional Magistrate is in-charge who is now re-designated as Up-Jila Adhikari. He is assisted by Tahsildars in each tahsil and for revenue collection each tahsil is further entrusted to Naib Tahsildars and Kanongoss circles respectively. For each revenue village, Lekhpal is in-charge. Chief Development Officer and District Development Officer are in-charge for development activities in the district. Various departments have departmental offices at district level eg. Health Panchayat Raj, Electricity, Transport, Irrigation, Jal Nigam, Animal Husbandry, Harijan and Samaj Kalyan, Agriculture, Horticulture, PWD etc. each have departmentat district level officer. The development point front of view, the district is divided into community development blocks, Block development officers (B.D.O.) look after development works at community development blocks level, Assistant Development Officer and Village Development Officers at Village level.

Under the police set-up Superintendent of Police in the district is in-charge. Additional Supdt. Of Police (ASP) in their respective area. Deputy Superintendent of Police (DSP) look after the Thanas allotted to them. Police Inspector and Sub-Inspector are in-charge of their Police stations depending upon the population and area.

The Judicial administration of the District is headed is by District and Session Judge. In addition there are several Additional District Judge. Civil Judge Chief Judicial Magistrate and Munsif Magistrate.

The nucleus of the district local body for self government is consisted of Chairman, Executive Officer in Nagar Palika Parishad and Nagar Panchayat. Chairman District Board and Gram Pradhan in Panchayat and Pramukh of Kshetra Samiti etc. come under Local self-government.

(iv) Physical Features:

Location and Size:

Pratapgarh district lies in the middle of Ganga plain west under the administrative control of Allahabad division. The district is bounded by Sultanpur district in the north, Allahabad and Kaushambi district in the south. Eastern border matches along Jaunpur district and in west , Rai Bareli district. The district is situated between the parallels of $25^{o}34'$ and $26^{o}11'$ north latitude and between the meridians of $81^{o}18'$ and $82^{o}27'$ east longitude , roughly extending for some 110 kms from west to east and 40 kms from north to south. Average height of the district from main sea level is 137 metres. Total area of the district is 3717 sq km.

Physiography :

The district on a whole is considered fairly level plain of which nearly every part is equally fertile and well cultivated. The ordinary dead level is here and there relived by gentle undulations and in the vicinity of rivers and rain stream, by ravines and broken ground. The southern portion of the immediate neighbourhood of river Ganga is more densely wooded than other parts. In some places may be seen stretches of unculturable land, but these do not extend over considerable area. For the most part such and varied cultivation, with groves of mangoes, mahua and other tree, combine to form a pleasing landscape.

On the basis of geology, soil, topography and natural vegetation, the district is divided into following region.

Ganga Flood plain

This region is situated along the Ganga river extending upto usual flood limit. The general slope is towards south-east but local slope is from north to south. The main physical features are broken surface , natural level, dead arms of rivers etc. Dura is the only small rivulet which originates from local depression in the reign itself and joins the Ganga. A continuous stretch of eroded surface is noticed along this stream. The geology of this region is marked by Alluvium and Dun gravels of recent formation.

Kunda Plain

This region covers part of Kunda and Lalganj Ajhara tahsils. The south west reign is the area slope towards southern east direction marked by watershed line of Ganga river. The slope of Kunda plain has special feature. It is not influenced by mighty Ganga though it is adjacent to it. The presence of ox-bow lake indicates the west course of rivers in ancient period. Geology of this reign belong to Alluvium and Dun gravels.

Middle Sai Catchments:

The region is spread between the watersheds of Sai-Gomti one hand and Kunda plain on the other side. It is centrally located in the district. The general slope of the reign is from north-west to south-east. The geology of the reign belongs to Alluvium and Dun gravels of recent reign.

Patti Plain:

It is situated in the eastern part of the district separated by relished of Gomti and Sai. The slope inform north-west to south-east. Except patches of rugged surface along the river streams, the area is dull in physiography, Alluvium and Dun gravels mark the geology.

Gomti Basin:

This region is situated in the extreme eastern part of the district. This is smallest among all the reigns. Gomti river flows on the border of the district and cuts rugged surface along its bank. There is no other predominant geographic feature.

The average attitude is 91 meters above the sea level and gentle slope of districts is from north-west to south-east. The genial as part of the district is influences by rivers and streams which pass through its the district is in almost rectangular in shape. The average height from the sea level is 137 meters.

The type of land in this district comprises the recent formation of ordinary Gangatic Alluvium. To the south–west border along the bank of Ganga, the soil is sandy. Further to the south of Sai occurs matiyar (loom) and domat(clay loam). The spread of loam is more than that of clay loam. Sandy soil occur along river bank. Land usually is very fertile in the district.

Drainage:

The general slope of the land and the drainage are determined by the course of rivers, especially the Sai and its effluents. The northern tributaries of the Sai run from north to south; but these on the right bank have an eastward tendency. It appears that in the western half of the district the watershed runs from west to east. The Ganga flows along the south-western border of the district and the Gomti forms its boundary for about

6 km. in this extreme north-east. The Ganga is the largest river which is flanking the district. The other streams that flow through the district are the Duar, Sai, Naiya, Chamraur, Paraya, Tambura and Pili, Chhaiya, Loni, Sakarni, Baklahi. Duar is the only tributary of the Ganga in this district. It takes its origin in Reali Tal and runs tortuously in a south-easterly direction nearly parts added to the Ganga. Sai river enters Pratapgarh on the west at Mustafabad in ateha. Its course at first is exceedingly tortuous , consisting of numerous bend and contortions which form loops large and small and enclave fertile upland. In the dry season the Sai is narrow, shallow and easily fordable, while its tributaries become more ravines but in the rains the latter carry a large volume of water into the river , which rises to a considerable level and acquires a great velocity.

There are many large lakes and swamps in the districts in which the surface water collects where there is no defined line of drainage. Benti lake is the important lake of this district.

Climate:

The climate of this district is characterized by hot summer, pleasant monsoon and cold winter. The maximum temperature in the district during 96-97 touched 45.3^{o} C while a minimum of 5.1^{o} C was recorded. Climatically the year may be divided in to four seasons. The cold seasons, from about the middle of November to February is followed by the summer which continues till the middle of June. The south-west monsoon then ushers in the rainy season which lasts till the end of September October and the first half of November farming the post-monsoon season. The air is very humid during the south-west monsoon season , the humidity being generally 70 percent to 85 percent. The driest part of the year is the hot season , when, the humidity in the afternoon become as low as 20 percent. The skies are generally clouded or overcast during the monsoon season and sometime for short spells of a day or two in association during the cold season but during two rest of the year they are mostly clear or lightly clouded. Winds are generally light but they increase in part of during the late summer in the afternoon and the south west monsoon season. During the month from November to April winds are predominantly from west to north–west. During the south west monsoon season wind directions are either south west to west or north –east to east.

The density of rains vary from year to year. During the year 1999 the actual and generally rains observed in the district was 1041 mm. and 977 mm. respectively. Inter district disparities of rains have also been of varying nature. The month of maximum rainfall are July & August. The raining season starts from mid June to October. After rains are over the winter season starts from November. The night come to cold along since October.

On the basis of climate field work is in agriculture operations attach from Kharif, followed by Rabi & Zaid. May & mid June are the months with last agricultural activity and it is probably because hot climate conditions.

Natural and Economic Resources

Forestry:

The situation of the year 1998-99 show that forest including groves and orchards accounted 4.45 percent of the district total area. The forests also form the principal grazing ground of the district , the chief species of tree found in these forests are dhak, shesham, neem, babul, bel, peepal, bargad, gular, pakar, mahua, teak, mango and jamun. Grasses like dub,baib and spear grass are found in the district. Formerly the district had large area under groves. It was highest in Pratapgarh tahsil, Manikpur & Kunda followed. Pratapgarh in the districts occupies prominent place in the entire state from where mangoes variety of its product are expanded all over the country orange, lemon, guava and pomegranate tree found in the orchards of the district.

Minerals and Mining:

In the sub head minerals and mining nothing important is found in the district. Reh for washing clothes, Kankar and stone sand alloy in the river belt of Sai is found which is used in the construction of houses.

Soil:

The variety of soil within the performing of the district follows like other parts of Avadh. The richly manure land around the village site is known as goind while the outlying field's are described as Siwar or Aher. The recognized various natural soils are matiyar or clay, bhur or sand and domat or loam. Matiyar are might in fertility and the least fertile in loam, upon the bhur soil inferior stales such as bajra, arhar and masoor are produced.

Land and Land Use Pattern:

The district is covered with a net work of rivers and nalas and the soil mostly is matiyar domat and baluai. Land is fertile and all type of crops are grown. The land use pattern of the district during 1996-97 was as follows.

The 68.55 percent of the land holdings are below 0.5 hectare , 20.87 percent 0-5 to 1.0 hectare, 9.46 percent in the size of 1 to 2 hectare, 2.61 precent of land holdings in the size of 2 to 4 hectare and 0.51 percent in the land holding size of 4 and above hectare. More than 99.0 percent of land holdings are owned by them selves.

Agriculture and Crop Pattern:

Crop pattern follows Rabi, Kharif and Zaid. The principal Kharif crops are Rice, Jwar and Bazara, Maize, Arhar & Urad. During the year 1996-97 Paddy was grown upon, the area 111,424 hectare , followed by bazara 14,318, jwar 6,529, maize 2312, arhar 14,503 , urad 9,923 and moong 3,155 hectare. The principal Rabi crops are wheat, barley, gram peas potato and other pulses like masoor & lahi etc. The area under different crops during the harvest season of 1996-97 was 140,880 for wheat, 6,597 hectare berley 8,001 hectares gram, peas 4,783 hectare and masoor 18 hectare. The area under oil seeds was 2,888 hectares , potato 7,119 hectares, sugarcane crop 2002 hectares and other 8,536 hectares.

Wheat was grown in 43.7 percent of total cultivable land while paddy occupied 32.6 percent land. Til, Sunflower, Tobacco , Turmeric are the commercial crops produced in the district. Except vegetables none of the crops are grown during Zaid. The traditional methods of cultivation are replaced by modern fertilizers improved variety of seeds pesticides, and fertilizers and used for raising productivity.

For improvement of agriculture the district had the services of 453 seed godown/ fertilizers depot, 174 rural godowns, 19 insecticide depots, one seed farms, 3 cold storages and one agriculture service center during 1999-2000. Besides these were 11 warehousing godowns managed by different agencies, such as Food Corporation of India (2), State warehousing (1), State government (6) and co- operative sector (2).

Irrigation :

The district is well served with the network of irrigation guiles since long by different means is canals , lift canal, Tube wells, wells , tanks and minor irrigation. More than 76 percent of cropped area was under the network of irrigation during 1996-97. The net area irrigated was 171,994 hectare and gross area was 261,901 hectares. Besides canals the network of irrigation includes, Govt. tube wells numbering 94 , pucca wells 6,714, Rahat 6,712, under ground pump set 24, boring pump set 59,992 and private tube wells 7194. Boring pumpsets and private tube wells are more popular in the district which occupies 57.10 percent of the total irrigated land whereas percentage of land irrigates by canal is 42.78 percent.

Animal Husbandry:

The cattle of the district are small in size and suffer from deficiency of good posture. The animals of the district are mostly low fed. Their fodder consist chiefly of Bhusa and Karbi. The main cattle's found in the district are cows, bulls, bullocks , buffaloes, pigs , sheep, goats, horse and ponies, camels, donkeys, mules and poultry. Buffaloes and country cows are held in greater estimation is 543,995 as per 1,997 cattle census. Cows followed by buffaloes 192,042, sheep 54,652 , goats 232,836 horse & mules 3,974 , pigs 139,119, hens &cocks 178245 and other 10367. For the development of live stock 45 hospitals, 49 live stock development centers, 12 artificial insemination center and 55 sub center, 4 sheep & 6 pig development centers, 90 piggery units and as many as 53 poultry units have been established by government during 1999-2000.

Fishery:

Fresh water fish species of about 30 types are commonly found in the district of which Rohu, Bhankur, Main, Karaunch, Bata, Tengra, Parahin and Patra are good for the taste very small nets are used for catching the smaller fish and the large over being usually caught in traps and baskets of various sizes. During the year 1997-98, 04 fishery cooperative society were operational and 131.82 qntls of fishes were produced and more than 17,010 thousands fingerlings were distributed in the several sector of district. There were 5 fishery departments ponds with 359 hectares land. In order to generate additional income of the poor, new entrants to be encouraged in the sector.

Industry:

The industrial atmosphere in the district is not as much to commensurate the development of the district no large scale industries exist in the district. Upto march 31st there were 7,516 rural and small scale units employing 22,205 persons. During the year 1990-91, 18 industries were registered under the industrial act 1948. The household and small scale industries produce general engineering goods, furniture, saw mills, rice mills, lime soap, leather goods, telephone, bulbs, optical frames and lens, tobacco , bakery and cold storage , hosiery cloth and printing the other items being produced among household industries are basketry, pottery, woolen blankets, brass and copperware , ropes of moonj fibre are produced mainly in Kunda. Moonj is available on the banks of river Ganga and in the ponds. The district has good potential for industrial expansion. Roads , rails , market and availability of consumers match the expanding culture of industrialization.

Trade and Commerce:

The trade of the district was nothing of any importance with the exception of food grains with the development of roads and other means of communication. Export of food grains , bones and skins of animals, fruit like mangoes and. guava, oil seed & aoula, murabba mats, baskets etc. Pratapgarh , Ramganj, Kanichia, Lalganj and Kunda are the main trading center. Bazar / hat fairly is available in 177 villages of the district.

Transport:

The district is well connected by rail and road. There are 15 railway station and lots number of bus station as bus stops are 112. Length of state highway is 148 kms, district roads 164 kms, and other road compare 1,536 kms. During the year 1998-99 , the length of pucca road per lacks of population was 626 kms in the district. The length of roads per one thousand sq. km. was 105.3 km.

Electricity & Power:

Electricity is the most important roll for development of agriculture & industries Upto year 1999, as the definition of electricity authority 1665 villages were electrified out of these 1,332 hamlets pirated to scheduled caste. 9843 connections were given to private tube wells and pump sets. In this way 76.3 percent of the village were electrified. The total consumption of electricity during 1999-2000 was 188,762 thousand KWH., out of which lions share was consumed by agriculture sector (130,545 thousands KWH) , followed by industry (21,647 thousands KWH), domestic light (17,856 thousands KWH), and commercial light(11,964 thousands KWH).

Gram Panchayat, its composition, jurisdiction and role in village development:

A Gram Panchayat acts as the executive of the Gram Sabha and it plays a vital role in village development

Composition:

The members of the village of Gram Panchayat are elected by the members of the Gram Sabha. The members of the Gram Sabha generally elect a small committee of 7-15 members from among themselves who constitute the village Panchayat. There are 1233 Gram Sabhas in the district.

It is necessary that the village Panchayat should have a member belonging to the scheduled caste and also a woman member. If they are not elected, then the government itself appoints two such members of the village and takes steps to improve the conditions of the villagers.

Its Term:

The new Panchayat Raj Act of 1993 has fixed a uniform five year for every Panchayat. It can also be dissolved earlier by the state government, if it fails to perform its duty faithfully. A Sarpanch may be removed from office if two-third panchas vote against him. But in such a case the sanction of the district anchorites must be obtained beforehand.

The new Panchayat normally meets once in a month. If need be, an emergency meeting can also be called by the Sarpanch.

Qualifications:

In order to be elected to a Village Panchayat, a candidate should possess the following qualifications:

(1) He should be a resident of the village concerned and his name should be in the voter's list of the village.
(2) He should be twenty-five years old.
(3) He should be mentally and physically sound.
(4) He should not be a proclaimed offender.

Functions:

A Gram Panchayat is entrusted with various social economic and Judicial functions.

(1) 1. It provides civic amenities to the people of the village.
(2) 2. It gets a primary school opened in the village and supervise its work.
(3) 3. It looks the cleanliness of the village. Drains for waste water are also provided by the Panchayat in the village.
(4) 4. It gets a Primary Health Center opened in the village. The Panchayat has also provided land and building for such a centre.
(5) It gets metalled roads build from the village to the nearest road leading to a market place with the help of the Public Works Department of the district.
(6) It arranges for sufficient irrigational facilities, improved seeds, insecticides, chemical manures, improved implements and other such facilities with the help of the Block Development Officer of the area for the uplift of agriculture.
(7) It manages and maintains the common property of the village.
(8) In some states, the Gram Panchayat enjoys also certain judicial powers. It decides petty civil and criminial cases and imposes fine unto Rs.100.

(v) Census Concepts

Building:

A 'Building' is generally a single structure on the ground. Sometimes it is made up of more than component unit which are used or likely to be used as dwellings (residences) or establishments such as shops, business houses, offices, factories, workshops, worksheds, Schools, places of entertainment, places of worship, godowns, stores etc. It is also possible that building which have component units may be used for a combination of purposes such as shop-cum-residence,workshop-cum-residence,office-cum-Residence, etc.

Usually a structure will have four walls and a roof. But in some areas the very nature of construction of houses is such that there may not be any wall. Such is the case of conical structures where entrance is also provided but they may not have any walls. Therefore, such of the conical structures are also treated as separate buildings.

Permanent houses :

Houses, the walls and roof of which are made of permanent materials. The material of walls can be any one from the following, namely, galvanized iron sheets or other metal sheets, asbestos sheets, burnt bricks, stones or concrete. Roof may be made of from any one of the following materials, namely, tiles, slate, galvanized iron sheets, metal sheets, asbestos sheets, bricks, stones or concrete.

Semi-permanent houses :

Houses in which either the wall or the roof is made of permanent material and the other is made of temporary material.

Temporary houses

Houses in which both walls and roof are made of materials, which have to be replaced frequently. Walls may be made from any one of the following temporary materials, namely, grass, thatch, bamboo, plastic, polythene, mud, unburnt bricks or wood. Roof may be made from any one of the following temporary materials, namely, grass, thatch, bamboo, wood, mud, plastic or polythene.

Room :

A room should have four walls with a doorway with a roof over head and should be wide and long enough for a person to sleep in, i.e., it should have a length of not less than 2 metres and a breadth of at least 11/2 metres and 2 metres in height. A room, however, which is used in common for sleeping, sitting, dining, storing and cooking, etc., should be regarded as a room. An unenclosed verandah, kitchen, store, garage, cattle-shed and latrine and rooms in which a household industry such as a handloom is located, which are not normally used for living or sleeping are excluded from the definition of a living room for the purpose of this question.

One is likely to come across conical shaped hut or tent in which human beings reside. In such improvised accommodation, there will be no four walls to a room and therefore, the above definition would not strictly apply to such types of accommodation. In such cases, the tent or conical hut etc., have been construed to be a room.- In certain parts of the country, particularly in rural areas, the pattern of housing may present some problems. For example, a household may be in occupation of several huts put to different uses such as main residence, sitting room, store and even for sleeping at night. By strict application of the definition each one will be reckoned as a census house, but this does not reflect the real situation. While huts used as store or cattle shed pose no problems, those used as sleeping rooms beyond the main residence, should be counted as rooms rather than separate census houses.If a garage is used by a servant and he lives in it as a separate household, it should be reckoned as a room available to the servant's household. If the servant is considered as a member of the household then the garage room should be reckoned as an additional room of the household.

Dwelling Room

A room is treated as a dwelling room if it has walls with a doorway and a roof and should be wide and long enough for a person to sleep in, i.e. it should have a length of not less than 2 meters and a breadth of at least 1.5 meters and a height of 2 meters. A dwelling room would include living room, bedroom, dining room, drawing room, study room, servant's room and other habitable rooms. Kitchen, bathroom, latrine, store room, passageway and verandah which are not normally usable for living are not considered as dwelling rooms. A room, used for multipurpose such as sleeping, sitting, dining, storing, cooking, etc., is regarded as a dwelling room. In a situation where a census houses is used as a shop or office., etc., and the household also stays in it then the room is not considered as a dwelling room. But if a garage or servant quarter is used by a servant and if she/ he also lives in it as a separate household then this has been considered as a dwelling room available to the servant's household. Tent or conical shaped hut if used for living by any household is also considered as dwelling room. A dwelling room, which is shared by more than one household, has not been counted for any of them. If two households have a dwelling room each but in addition also share a common dwelling room, then the common room has not been counted for either of the households.

Census house :

A 'census house' is a building or part of a building used or recognised as a separate unit because of having a separate main entrance from the road or common courtyard or staircase, etc. It may be occupied or vacant. It may be used for residential or non- residential purpose or both.

In certain peculiar situations, the manner in which buildings and census houses were identified for numbering in the field by the enumerators is described hereunder.

Sometimes a series of different buildings are found along a street which are joined with one another by common walls on either side looking like a continuous structure. These different units are practically independent of one another and are likely to have been built at different times and owned by different persons. In such cases, though the whole structure with all the adjoining units

apparently appears to be one building, each portion was treated as a separate building and its constituent units as separate census houses.

On the other hand, one may come across cases, particularly in large cities of multi-storeyed ownership flats. In these cases while the structure looks like one building, different persons own the flats. In case of such multi-storeyed structures, having a number of flats owned by different persons, the entire structure was treated as one building and each flat as a separate census house.

If within a large enclosed area, there are separate buildings owned by different persons then each such building is treated as a separate building. There can be a situation where within an enclosed compound there are separate buildings owned by an undertaking or company or even government that are actually in occupation of different persons. For example, Indian Oil Corporation colony where the buildings are owned by the Corporation but these are in occupation of their employees. Each such building was treated as a separate building. But if in any one of these buildings there were flats in occupation of different households, each such flat was reckoned as a separate census house.

Sometimes it becomes difficult to apply the definition of census house strictly in certain cases. For example, in an urban area, if a flat has five rooms, each room having direct entrance from the common staircase or courtyard. By definition, this has to be treated as five census houses. If all these five rooms are occupied by a single household it was not realistic to treat them as five census houses. In such a case, 'singleness' of use of these rooms along with the main house should be considered and the entire flat was treated as one census house.On the other hand, if two independent households occupy these five rooms, the first household living in 3 rooms and the second household occupying 2 rooms, then considering the use, the first three rooms together were treated as one census house and the remaining rooms as another census house. But if each room was occupied by an independent household, then each such room was treated as a separate census house.

In case of hostels, hotels, etc., even if the door of each room in which an inmate lives opens to a common verandah, staircase, courtyard or a common room, as it happens almost invariably, the entire hostel/ Hotel building was treated as one census house. but if such hostels/hotels have out-houses or other structures used for different purposes or the same purpose, then each such structure attached to the main hostel / hotel was treated as a separate census house.

In some parts of the country, in rural areas, the pattern of habitation is such that a group of huts, located in a compound, whether enclosed or unenclosed, is occupied by one household. While the main residence may be located in one hut, other huts may be used for sleeping, as a kitchen, bath room, baithak, etc. Though each of the huts was a separates structure, they form a single housing unit and therefore, have to be treated collectively as one building and one census house. If some of the huts are used by one household and the others by a second household as residence, then the two groups of huts were treated as separate census houses. However, if there were also other huts in the compound used for other purposes and not as part of the household's residence such as, cattle shed, workshed, etc., these were treated as separate census houses.

On the other hand, in urban areas, where more than one structure within an enclosed or open compound (premises) belonging to the same person, e.g., the main house, the servant's quarter, the garage, etc., only one building number was given for this group and each of the constituent a separate census house number. Only cases where a structure with roof and pillars has come up was treated as a building.

Village-

The basic unit for rural areas is the revenue village, which has definite surveyed boundaries. The revenue village may comprise of one or more hamlets but the entire village is treated as one unit for presentation of data. In unsurveyed areas, like villages within forest areas, each habitation area with locally recognized boundaries is treated as one village.

Rural-Urban area

The data in tables on Houses, Household Amenities and Assets are presented separately for rural and urban areas. The unit of classification in this regard is 'town' for urban areas and 'village' for rural areas. In the Census of India 2001, the definition of urban area adopted is as follows:

a) All places with a municipality, corporation, cantonment board or notified town area committee, etc.

b) A place satisfying the following three criteria simultaneously:

i) a minimum population of 5,000;

ii) at least 75 per cent of male working population engaged in non-agricultural pursuits; and

iii) a density of population of at least 400 per sq. km.(1,000 per sq.mile)

For identification of places which would qualify to be classified as 'urban' all villages, which, as per the 1991 Census had a population of 4,000 and above, a population density of 400 persons per sq. km. and having at least 75 per cent of male working population engaged in non-agricultural activity were considered. To work out the proportion of male working population referred to above against b) (ii), the data relating to main workers were taken into account.

Apart from these, the outgrowths (OGs) of cities and towns have also been treated as urban under 'Urban Agglomerations'. Examples of out-growths are railway colonies, university campuses, port areas, military camps, etc., that may have come up near a statutory town or city but within the revenue limits of a village or villages contiguous to the town or city. Each such individual area by itself may not satisfy the demographic criteria laid down at (b) above to qualify it to be treated as an independent urban unit but may deserve to be clubbed with the towns as a continuous urban spread. Thus, the town level data, wherever presented, also includes the data for outgrowths of such towns.-

City :

Towns with population of 1,00,000 and above are called cities.

Urban Agglomeration

An Urban Agglomeration is a continuous urban spread constituting a town and its adjoining urban outgrowths (OGs) or two or more physically contiguous towns together and any adjoining urban outgrowths of such towns. In some cases railway colonies, university campuses, port areas, etc., may come up near a city or statutory town outside its statutory limits but within the revenue limits of a village or villages contiguous to the town or city. Each such individual area by itself may not satisfy the minimum population limit to qualify it to be treated as an independent urban unit but may deserve to be clubbed with the town as a continuous urban spread.

-For the purpose of delineation of Urban Agglo-merations during Census of India 2001, following criteria are taken as pre-requisites:

(a) The core town or at least one of the constituent towns of an urban agglomeration should necessarily be a statutory town; and

(b) The total population of all the constituents (i.e., towns and outgrowths) of an Urban Agglomer-ation should not be less than 20,000 (as per the 1991 Census).

With these two basic criteria having been met, the following are the possible different situations in which Urban Agglomerations would be constituted:--

i) a city or town with one or more contiguous outgrowths;-

ii) two or more adjoining towns with their outgrowths; and

iii) A city and one or more adjoining towns with their outgrowths all of which form a continuous spread.

Household

A 'household' is usually a group of persons who normally live together and take their meals from a common kitchen unless the exigencies of work prevent any of them from doing so. Persons in a household may be related or unrelated or a mix of both. However, if a group of unrelated persons live in a census house but do not take their meals from the common kitchen, then they are not constituent of a common household. Each such person was to be treated as a separate household. The important link in finding out whether it was a household or not was a common kitchen. There may be one member households, two member households or multi-member households.

Institutional household :

A group of unrelated persons who live in an institution and take their meals from a common kitchen is called an Institutional Household. Examples of Institutional Households are boarding houses, messes, hostels, hotels, rescue homes, jails, ashrams, orphanages, etc. To make the definition more clearly perceptible to the enumerators at the Census 2001, it was specifically mentioned that this category or households would cover only those households where a group of unrelated persons live in an institution and share a common kitchen.-

Houseless household :

Households who do not live in buildings or census houses but live in the open on roadside, pavements, in hume pipes, under fly-overs and staircases, or in the open in places of worship, mandaps, railway platforms, etc., are treated as Houseless Households.

Scheduled Caste and Scheduled Tribe

Article 341 of the Constitution provides that the President may, with respect to any State or Union territory, specify the castes, races or tribes or parts of or groups within castes, races or tribes which shall for the purposes of the Constitution be deemed to be Scheduled Castes in relation to that State or Union territory. Article 342 similarly provides for specification of tribes or tribal communities or parts of or groups within tribes or tribal communities which are to be deemed for the purposes of the Constitution to be Scheduled Tribes in relation to the various States and Union territories. In pursuance of these provisions, the list of Scheduled Castes and / or Scheduled Tribes are notified for each State and Union territory and are valid only within the jurisdiction of that State or Union territory and not outside.

It is important to mention here that under the Constitution (Scheduled Castes) Order, 1950, no person who professed a religion different from Hinduism was deemed to be a member of a Scheduled Caste in addition to every member of the Ramdasi, Kabirpanthi, Majhabi or Sikligar caste resident in Punjab or Patiala and East Punjab States Union were in relation to that State whether they professed the Hindu or the Sikh religion. Subsequently, in September 1956, by an amendment, the Presidential Order of 1950 and in all subsequent Presidential Orders relating to Scheduled Castes, the Hindu and the Sikh religions were placed on the same footing with regard to the specification of Scheduled Castes. Later on, as per the amendment made in the Constitution (Scheduled Castes) Order 1990, the Hindu, the Sikh and the Buddhist were placed on the same footing with regard to the recognition of the Scheduled Castes.

The list containing the names of the Scheduled Castes and the Scheduled Tribes applicable for the Census of India 2001 in the State are given below:--

Scheduled Castes :

1	Agariya	28	Mazhabi
2	Badhik	29	Musahar
3	Badi	30	Nat
4	Baheliya	31	Pankha
5	Baiga	32	Parahiya
6	Baiswar	33	Pasi, Tarmali
7	Bajaniya	34	Patari
8	Bajgi	35	Rawat
9	Balahar	36	Saharya
10	Balai	37	Dhangar
11	Balmiki	38	Dhanuk
12	Bangali	39	Dharkar
13	Banmanus	40	Dhobi
14	Bansphor	41	Dom
15	Barwar	42	Domar
16	Basor	43	Dusadh
17	Bawariya	44	Gharami
18	Beldar	45	Ghasiya
19	Beriya	46	Gond
20	Bhantu	47	Gual
21	Bhuiya	48	Habura
22	Bhuyiar	49	Hari
23	Boria	50	Hela
24	Chamar, Dhusia, Jhusia, Jatawa	51	Kalabaz
		52	Kanjar
25	Chero	53	Kapariya
26	Dabgar	54	Karwal
27	Majhwar	55	Khairaha

56	Kharwar (excluding Banbasi)	64	Sansiya
		65	Shilpkar
57	Khatik	66	Turaiha
58	Khorot	**Scheduled Tribes**	
59	Kol	1	Bhotia
60	Kori	2	Buksa
61	Korwa	3	Jaunsari
62	Lalbegi	4	Raji
63	Sanaurhiya	5	Tharu

Language and Mother tongue :

As per the census concept, each language is a group of mother tongues. The census questionnaire collects information on the mother tongue of each person and mother tongue is defined as the language spoken in childhood by the person's mother to the person. If the mother died in infancy, the language mainly spoken in the person's home in childhood will be the mother tongue. In the case of infants and deaf mutes, the language usually spoken by the mother is considered as mother tongue. It is not necessary that the language spoken as mother tongue should have a script. The mother tongues returned by the respondents in census are classified and grouped under appropriate languages according to their linguistic characteristics.-

Literate :

A person age 7 years and above who can both read and write with understanding in any language is taken as literate. A person who can only read but cannot write is not literate. It is not necessary that to be considered as literate, a person should have received any formal education or passed any minimum educational standard. Literacy could also have been achieved through adult literacy classes or through any non-formal educational system. People who are blind and can read in Braille are treated as literates.

Literacy rate:

Literacy rate of the population is defined as the percentage of literates in the age group seven years and above. For different age groups the percentage of literates in that age group gives the literacy rate.

Educational level

The highest level of education a person has completed.

Work- :

Work is defined as participation in any economically productive activity with or without compensation, wages or profit. Such participation may be physical and/or mental in nature. Work involves not only actual work but also includes effective supervision and direction of work. It even includes part time help or unpaid work on farm, family enterprise or in any other economic activity. All persons engaged in 'work' as defined above are workers. Persons who are engaged in cultivation or milk production even solely for domestic consumption are also treated as workers.
Reference period for determining a person as worker and non-worker is one year preceding the date of enumeration.

Main worker:

A person who has worked for major part of the reference period (i.e. six months or more during the last one year preceding the date of enumeration) in any economically productive activity is termed as 'Main worker'.

Marginal worker :

A person who worked for less than six months of the reference period (i.e. in the last one year preceding the date of enumeration) in any economic activity is termed as 'Marginal worker'.-

Non worker :

A person who has not worked at all in any economically productive activity during the reference period (i.e. last one year preceding the date of enumeration) is termed as 'Non worker'.-

Cultivator :

For purposes of the Census a person is classified as cultivator if he or she is engaged in cultivation on land owned or held from government or held from private persons or institutions for payment in money, kind or share. Cultivation includes effective supervision or direction in cultivation.--

A person, who has given out her/his land to another person or persons or institution(s) for cultivation for money, kind or share of crop and who does not even supervise or direct cultivation in exchange of land, is not treated as cultivator. Similarly, a person working on another person's land for wages in cash or kind or a combination of both (agricultural labourer) is not treated as cultivator.

-Cultivation involves ploughing, sowing, harvesting and production of cereals and millet crops such as wheat, paddy, jowar, bajra, ragi, etc. and other crops such as sugarcane, tobacco, groundnuts, tapioca, etc. and pulses, raw jute and kindred fiber crop, cotton, cinchona and other medicinal plants, fruit growing, vegetable growing -or keeping orchards or groves, etc. Cultivation does not include the following plantation crops – tea, coffee, rubber, coconut and betel nuts (areca).

Agricultural labourer-

A person who works on another person's land for wages in money or kind or share is regarded as an agricultural labourer. She/he has no risk in the cultivation, but merely works on another person's land for wages. An agricultural labourer has no right of lease or contract on land on which she/he works.-

Household industry worker :

Household industry is defined as an industry conducted by the head of the household herself/himself and or by the members of the household at home or within the village in rural areas and only within the precincts of the house where the household lives in urban areas. The larger proportion of workers in household industry should consist of members of the household including the head. The industry should not be run on the scale of a registered factory which would qualify or has to be registered under the Indian Factories Act and should be engaged in manufacturing, processing, servicing and repairs of goods.

It does not include professions such as a pleader, Doctor, Musician, Dancer, Waterman, Astrologer, Dhobi, Barber, etc. or merely trade or business, even if such professions, trade or services are run at home by members of the household.

Other worker :

A person who has been engaged in some economic activity during the reference period but not as a cultivator or agricultural labourer or in Household Industry is termed as a 'Other Worker (OW)'. The type of workers that come under this category of 'OW' include all government servants, municipal employees, teachers, factory workers, plantation workers, those engaged in trade, commerce, business, transport, banking, mining, construction, political or social work, priests, entertainment artists, etc. In effect, all those workers other than cultivators or agricultural labourers or household industry workers, are 'Other Workers'.

Work participation rate

Percentage of workers (main + marginal) to total population.

Population density :

Population density is the number of persons inhabited per square kilometer of the area.-

Age :

Age is measured in terms of the completed number of years.

Sex-ratio

Number of females per 1,000 males in a population.

(vi) Non Census Concepts

Improved drinking water :

If the household had access to drinking water supplied from a tap, hand pump, tube well or well (protected or covered) situated within or outside the premises, it is considered as having access to improved drinking water.

It may be mentioned that such uniform definition may not be valid across all states. --

System of Sewerage :

Generally, a sewerage system would mean a network of mains and branches of underground conduits for the conveyance of sewerage to the point of disposal. Sewers that carry only household and industrial wastage are called separate sewers; those that carry storm water from roofs, streets and other surfaces are known as storm water drains, while those carrying both sewage and storm water are called combined sewers. However, in some towns which are not provided with such

underground sewerage system, it is served by open surface drain, box drain, sylk pattern drain, etc., in these towns.

Type of latrine and method of disposal of night soil.

There are three prevalent systems of disposal of human wastes, viz. (i) underground sewerage, (ii) sanitary water flush latrines with individual disposal systems, like septic tank, leaching cess pool and collecting well, and (iii) dry type of latrines with manual scavenging.

The system of underground sewerage provides for the street sewerage with which are connected the sanitary latrines constructed in the houses having water closets and fitted with flushing cistern (or hand flushing). Through this sewer the faecal matter is transported without the need for scavenging. This system generally exists in cities and big towns.

Where the streets sewer does not exist these sanitary water flush latrines are connected to a local septic tank with a sub-soil dispersion system or a leaching pit. Here the liquid wastes from the water closet is disposed of locally in leaching pit, a septic tank with a soil dispersion system is constructed. This dispersion requires an optimum travel through the pores of the soil which renders the harmful liquid bacterially innocuous by the slow process of filteration through the soil traversed.

Where the soil is impermeable, collecting wells are constructed and the sanitary water flush latrines are connected with them. These wells are cleaned at periodic intervals by a suitable device. The dry type of latrines are of service type latrines from where human excreta is removed by scavengers from house to house, in most cases carrying it on their heads or shoulders or in baskets with handle or wheel barrows. These are then collected in bullock carts or trucks or tractors and trolleys for being carried to the dumping grounds.

Fertility :

In demography, the word fertility is used in relation to the actual production of children or occurrence of births specially live births. Fertility is a measure of rate at which population adds to itself by births and normally assessed by relating the number of births to a full or part of the population, such as number of married women or number of women of child bearing age. The definitions of the terminology used in computing different fertility rates are mentioned below:

Crude birth rate (CBR)

Ratio of the number of live births in a year to the mid year population, normally expressed per 1,000 population.

$$\text{CBR} = \frac{\text{Number of live births during the year}}{\text{Mid–year Population}} \times 1000$$

Crude death rate (CDR)

Ratio of the number of deaths in a year to the mid year population, normally expressed per 1,000 population.

$$\text{CDR} = \frac{\text{Number of deaths during the year}}{\text{Mid-year Population}} \times 1000$$

Natural growth rate-

Growth rate is obtained as the difference between crude birth rate and crude death rate in the absence of migration.

Age specific fertility rate (ASFR)

Number of live births in a year to female population in any specified age group normally expressed per 1,000 women.

$$\text{ASFR} = \frac{\text{Number of live births in a particular age-group}}{\text{Mid-year female population of the same age-group}} \times 1000$$

Age specific marital fertility rate (ASMFR)

Number of live births in a year to married female population in any specified age group normally expressed per 1,000 married women.

$$\text{ASMFR} = \frac{\text{Number of live births in a particular age-group}}{\text{Mid-year married female population of the same age-group}} \times 1000$$

General fertility rate (GFR)-

Number of live births per 1,000 women in the reproductive age-group (15-49) years in a given year.

$$GFR = \frac{\text{Number of live births in a year}}{\text{Mid-year female population in the age-group (15-49) years}} \times 1000\text{-}$$

General marital fertility rate (GMFR)

Number of live births per 1,000 married women in reproductive age-group (15-49) years in a given year.

$$GMFR = \frac{\text{Number of live births in a year}}{\text{Mid-year married female population in the age-group (15-49) years.}} \times 1000$$

Total fertility rate (TFR)

It is obtained as the total of the age specific fertility rates (number of children born per woman of the particular age) for the entire reproductive age span. It provides the average number of children that will be born to a woman under the fertility levels indicated by the age specific fertility rates assuming that there is no mortality of women till the completion of reproductive period.

$$TFR = \frac{5 \times S_{15\text{-}19}^{45\text{-}49} ASFR}{1000}$$

Total marital fertility rate (TMFR)-

Average number of children that would be born to a married woman if she experiences the current fertility pattern throughout her reproductive span (15-49) years assuming that there is no mortality of women till the completion of reproductive period.-

$$TMFR = \frac{5 \times \sum_{15\text{-}19}^{45\text{-}49} ASMFR}{1000}$$

Age-specific mortality rate (ASMR)

Number of deaths in a particular age and sex group per 1,000 population of the same age group.

$$ASMR = \frac{\text{Number of deaths in a particular age-group-}}{\text{Mid-year population of the same age-group}} \times 1000$$

q1

Probability of dying between birth and age 1 This can be used as approximate value of Infant Mortality Rate (IMR) which gives the ratio of number of deaths in a year of children aged less than one year to the number of births in that year.

q2-

Probability of dying between birth and age 2

q5-

Probability of dying between birth and age 5. This indicator is also known as Under Five Mortality Rate (U5MR) --

Infant mortality rate (IMR)--

Ratio of the number of infant deaths (deaths of children below one year) in a year to the number of live births in that year.

$$IMR = \frac{\text{Number of infant deaths during the year}}{\text{Number of live births during the year}} \times 1000$$

Infant mortality rate comprises of two parts, viz., Neo-natal mortality rate and Post neo-natal mortality rate. The neo-natal mortality rate also comprises of two parts viz., Early neo-natal mortality rate and late neo-natal mortality rate. These are defined as.

Neo-natal mortality rate (NMR)

Number of infants dying within the first month of life (28 days or under) in a year per 1,000 live births of the same year.

$$\text{NMR} = \frac{\text{Number of infant deaths aged 28 days or under during the year}}{\text{-Number of live births during the year}} \times 1000$$

Early neo-natal mortality rate

$$= \frac{\text{Number of infant deaths of less than 7 days during the year}}{\text{Number of live births -during the year}} \times 1000$$

Late neo-natal mortality rate

$$= \frac{\text{Number of infant deaths of 7 days to less than 29 days during the year}}{\text{Number of live births during the year}} \times 1000$$

Post neo-natal mortality rate (PNMR)-

$$= \frac{\text{Number of deaths of 29 days to less than- One year during the year}}{\text{Number of live births -during the year}} \times 1000$$

Peri-natal mortality rate (PMR)

Number of still births plus deaths within 1st week of delivery per 1,000 births in a year.

$$\text{PMR} = \frac{\text{Number of still births and infant deaths of less than 7 days during the year}}{\text{Number of live births and still births during the year}} \times 1000$$

Still birth rate (SBR)

$$= \frac{\text{Number of still births during the year}}{\text{Number of live births and still births during the year}} \times 1000\text{-}$$

Maternal mortality rate (MMR)

Number of deaths of women in the age group 15-49 while pregnant or within 42 days of termination of pregnancy from any cause related to pregnancy and child birth per 100000 live births in a given year.

$$\text{MMR} = \frac{\text{Number of maternal deaths to women in the age-group 15-49}}{\text{Number of live birth}} \times 100000$$

Eligible couple (Couples per 1,000 Population)

Number of currently married females in the age group 15-44 years per 1000 persons of all ages.

Child woman ratio (0-4)

1. Number of children in the age group 0-4 years per 1,000 women in the age group 15-49 years.

Child woman ratio (5-9)

2. Number of children in the age group 5-9 years per 1000 women in the age group 15-49 years.

Migration

Migration is the third component of population change, the other two being mortality and fertility.

A person is considered as a migrant by place of birth if the place in which he/she is enumerated during the census is other than the place of his/her birth.

Similarly a person is considered as a migrant by place of last residence if the place in which he/she is enumerated during the census is other than his/her place of immediate last residence outside the village or town and not simply in another house or locality in the same village or town.

Certain aspects concerning temporary movement/ migration of people has been explained below as these are important components concerning migration:

(i) Migration of persons in search of job is high in the country. In many cases such migrants are only seasonal in nature. People migrate to other places for work in a particular season and come back again to their usual place of residence after three or four months. All such workers are treated as migrants. Similarly, if a person moved to any other place for attending short term vocational or educational course that lasted for only few months of a year, she/he too were considered as a migrant.

(ii) Where a person had merely gone out to another place or had been shifting from one place to another purely on tour, pilgrimage, visit to hospital for treatment or for temporary business purposes, such persons are not deemed to have had another residence different from the place where she/he or her/his family normally resides. She/he is not considered as migrant.--

(iii) A woman temporarily moves into a hospital or to her parents or other relative's house for delivery and if the hospital or the parents/relatives houses is in a place different from usual place of residence, the place where the hospital or parents/relative's house is the place of last residence of the child but not of the mother.

A new response category 'Moved after birth' was added in Census of India 2001 in the question on 'reasons for migration' to bring out additional migration patterns. Natural calamities or distress migration as a reason for migration for last residence migrants included in 1991 Census, is covered under category of 'Others'. The reason for migration has been determined as applicable at the time of migration and not in reference to any point of time after that. For example, if a person had moved from the place of her/his last residence for the purpose of education and subsequently at some point of time got employment there only, the reason for migration would be 'education' and not 'work/employment'.

Internal and International migration

The migrational movements are of three types (i) Migration within the state itself with its components (a) Migration within the district of enumeration (intra district migration) (b) Migration from one district of state to another district of state (inter district migration), (ii) Migration from one state to another State of the country (inter-state migration), (iii) Migration from one country to another country. The first two streams together constitute internal migration, while the last type of movement is called international migration. The present name of the country, state or district and not the name by which they were known at the time of her/his birth or last residence were recorded.

Rural-Urban components of migration

Rural or Urban status in respect of migrants have been determined as applicable at the time of migration and not with reference to any point of time after that.

(vii) 2001 Census findings

Population Distribution

The total population of the district is 2,731,174 divided into the 2,586,619 in rural and .144,555 in urban areas. The most populous tahsil is Patti with 840,259 population followed by Kunda tahsil a population of 767,234 .The least populous tahsil is Lalganj with a population of 523,979 The maximum urban population is Pratapgarh tahsil which is 99,978 followed by Kunda with 35,780 urban population whereas the least urban population is in Patti tahsil which is 8,797. In 2001 Census the district has about 5.3 per cent of its population living in towns as compared to this in the State the same is 20.8 per cent. The urban population is highest at 16.7 per cent in Pratapgarh tahsil followed by 4.7 per cent in Kunda tahsil and least of about one per cent in the Patti tahsil. There is no urban population in Lalganj tahsil.

Size, Class and Status of Towns

There are 7 statutory towns and no Census Town in the district. Bela Pratapgarh NPP with 71999 population is Class II town. Kunda NP with 2,2311 population is Class III town. There are two Class IV towns in the district .Also in the district there are three Class V towns. The only one Nagar Palika Parishad NPP in the district is Bela Pratapgarh apart from Nagar Panchayats, namely Antu, Pratapgarh city, Katra Medniganj, Patti, Manikpur and the Kunda.

Population Growth

The population of the district in 1991 adjusted to jurisdiction of 2001 was 2,210,700 in the district. The population of the district at 2001 Census is 2,731,174 .There is decadal variation in

population of the district since 1991 amounting to 520,474 in absolute term (23.5 per cent). The males who were 1,112,755 in 1991 Census increased to 1,362,948 and females increased from 1,097,945 to 1,368,226. As against to 23.5 per cent decadal growth in the district, the growth rate has increased 25.8 per cent in the state of Uttar Pradesh.

Population Density

The area of the district is 3,717 square kilometre. The density of population in the district is 735 as compared to 690 in the state. In the rural areas of the district the population density is 706.

Sex ratio

The sex ratio in the district is 1004 while it is 898 in the state of Uttar Pradesh In the rural areas of the district the sex ratio is high at 1009 while it is 922 in urban areas. The rural sex ratio of the district is better to the state. The sex ratio among four tahsils varies between 983 in Pratapgarh to 1025 in Patti. Among C.D. blocks the sex ratio varies from 957 in Pratapgarh Sadar to 1048 in Aspur Deo Sara. The sex ratio in rural population in the district comes to 1009. Among towns of the district the least sex ratio is found in Bela Pratapgarh NPP and highest in Katra Medniganj (NP). The sex ratio of population in the age-group 0-6 is 936 in the district which is quite low to 1004 from the general population. The sex ratio of population of the age-group 0-6 the rural areas is 937 against 903 in urban areas. The sex ratio of population in the age-group 0-6 among Sixteen C.D. blocks varies from as low as 905 from Patti to as high as 962 in Kalakankar & Vihar. The sex ratio of rural population in the age-group 0-6 by ranges for 19.8 per cent population in the range 1000-1099. The sex ratio of population in the age-group 0-6 among towns varies from 871 in Kunda NP to 988 in Pratapgarh city NP.

Work Participation Rate

In the district 33.5 per cent (915,786 persons) pertains to the category of working population. Average males working population is 42.9 per cent against 24.2 per cent among females. Main workers constitute 21.2 per cent of population. Female workers predominate male among marginal workers. Non-workers contribute about 66.5 per cent of total population. Out of these about 74.1 per cent are from the urban population. In rural areas about 75.8 per cent females are non-workers. Of the total working population in the district 46.5 per cent are cultivators, 30.7 per cent engaged as agricultural labourers, 5.2 per cent in household industry and 17.5 per cent as other workers. Among male workers 48.7 per cent are cultivators as compared to 42.7 per cent among females. Similarly as against 23.2 per cent male other workers, the proportion of female is only 7.5 per cent. In rural areas of the district as much as about 48.2 per cent of working population is cultivators as against only 8.6 per cent in urban areas. In case of other workers, the composition of rural and urban proportion is 15.2 and 71.6 per cent of working population. It may be mentioned that the working population in the district is about 33.5 per cent as compared to about 32.5 per cent in the state.

Literacy

In the district 57.6 per cent of the population is literate as against about 56.3 per cent in the state of Uttar Pradesh. In the district 74.0 percent of male population is literate as compared to 68.8 per cent in the state. However, among females the literacy in the district to about 41.5 per cent as compared to 42.2 per cent at the state level. In the district literacy rate is about 74.7 per cent in urban areas as against 56.6 per cent in rural areas. The gap in male/female literacy rate is 33.1 per cent in rural areas as compared to 19.3 per cent in urban areas. The literacy rate among C.D. blocks varies between 46.2 per cent in Rampur Sangramgarh to 66.3 per cent in Pratapgarh (Sadar) Similarly, the literacy rate among towns varies from about 60.4 per cent in Pratapgarh city NP to 82.2 per cent in Bela Pratapgarh NPP.

(viii) Brief analysis of PCA data

The district throws up an vivid picture of its population at the 2001 Census. A few of the peculiar characteristics of the population is being highlighted through the following inset tables.

TABLE 1 : DECADAL CHANGE IN POPULATION OF TAHSILS BY RESIDENCE, 1991-2001

SL. No.	Tahsil	Population						Percentage decadal variation 1991-2001			Percentage urban population	
		1991 *			2001						1991	2001
		Total	Rural	Urban	Total	Rural	Urban	Total	Rural	Urban		
1	2	3	4	5	6	7	8	9	10	11	12	13
1	Lalganj	NA	NA	NA	523,979	523,979	0					0
2	Kunda	NA	NA	NA	767,234	731,454	35,780			NA		4.7
3	Pratapgarh	NA	NA	NA	599,702	499,724	99,978					16.7
4	Patti	NA	NA	NA	840,259	831,462	8,797					1
District Total:		**2,210,700**	**2,088,599**	**122,101**	**2,731,174**	**2,586,619**	**144,555**	**23.5**	**23.8**	**18.4**	**5.5**	**5.3**

The growth rates of each tahsil in the Pratapgarh district for total, rural and urban areas and percentage of urban population to total population is given in table. The decadal growth rate of the district is 23.5 per cent during 1991-2001. The growth rates for rural and urban areas of the district are 23.8 and 18.4 per cent respectively . Out of the total population of the district 94.7 per cent lives in rural areas while 5.3 per cent lives in urban areas of the district. The proportion of urban population has slightly declined during the decade from 5.5 per cent in 1991 to 5.3 per cent in 2001 in the district. The highest growth of urban population is recorded in Pratapgarh (16.7) per cent tahsil and lowest is registered in Patti (1.0 per cent) tahsil. Urban population is concentrated in Pratapgarh, Kunda and Patti tahsils while other tahsils namely Lalganj is entirely rural.

TABLE - 2: NUMBER AND PERCENTAGE OF INHABITED VILLAGES IN SPECIFIED POPULATION SIZE RANGES WITH THE RELATED POPULATION, 2001

Sl. No.	District / C.D. block	Total number of in-habited villages	Total rural population			Number and percent-age of villages	Population less than 200		Number and percent-age of villages	Population 200-499		Number and percentage of villages

Table-2 gives C.D. block-wise population, number and percentage of villages falling in each range of population size of villages and number of males and females in each population range at C.D. block level in the district. Out of the 2182 inhabited villages, 124 (5.7 per cent) are small sized villages with population below 200 persons. In the size of 200 to 499 persons there are 480 villages having 22.0 per cent villages of the district while in the size class of 500-999 population claims 649 villages with 29.7 per cent of the total villages in the district. 578 villages (26.5 per cent) are in the size class of 1,000-1,999. 317 villages (14.5 per cent) are in the size class of 2,000-4,999. 34 villages (1.6 percent) are in the size class of 5000 – 9999. None of village in the district fall in the ranges of 10000 and above population. The biggest village Shakardaha in the district having population of 9343 persons is located in Vihar C.D. block of district.

Table 3 : New Towns, Denitified, Declassified and Merged Towns in 2001 Census

		Name of town
		1
(a)	New	
	(i) Statutory town	NIL
	(ii) Census town	NIL
(b)	Denotified	
	(i) Statutory towns of 1991 census de-notified and also did not satisfy the criteria to be treated as census towns.	NIL
	(ii) Statutory towns of 1991 census de-notified but identified as census towns based on demographic and economic criteria.	NIL
	(iii) Census towns of 1991 census are notified as statutory town in 2001 census.	NIL
(c)	Declassified	NIL
(d)	Wholly merged with other town(s)	NIL

**Declassified means the census towns of 1991 census which failed to satisfy the demographic and economic criteria.*

During the decade 1991-2001, no new town has been added or declassified or merged with other town in the district.

TABLE 4 : DISTRIBUTION OF VILLAGES BY POPULATION DENSITY, 2001

Range of population density (per square kilometer)	Total number of villages in each population density range	Percentage of villages in each Population population density range	Population	Percentage distribution of population
1	2	3	4	5
0-10	59	2.7	55,332	2.1
11-20	0	0.0	0	0.0
21-50	1	0.0	13	0.0
51-100	4	0.2	656	0.0
101-200	33	1.5	7,292	0.3
201-300	64	2.9	25,568	1.0
301-500	306	14.0	238,650	9.2
501 +	1,715	78.6	2,259,108	87.3
Not known	0	0.0	0	0.0
District Total:	**2,182**	**100.0**	**2,586,619**	**100.0**

This table 4 shows the distribution of villages by population density ranges. The inhabited villages of the district have been grouped under eight different ranges of density. The maximum number of village i.e. 1715 accounting for 78.6 per cent of the total inhabited villages of the district fall in the density range of 501+ persons having 87.3 per cent population. The lowest ranges of 0-10 & 11-20 persons per sq. km. cover 59 villages (2.7 per cent). 306 villages (14.0 per cent) have high density with 301-500 persons per sq. km. while the corresponding proportion in the lower range of 201 to 300 is 2.9 per cent of the total inhabited villages having 1.0 per cent population of the district. In the medium densities ranges of 21 to 50 and 51-100 persons account for 0.0 and 0.2 per cent of inhabited villages respectively. Both these ranges claim 0.0 per cent rural population.

Table 5 : Sex Ratio of State and District 1901-2001

Year	UTTAR PRADESH			PRATAPGARH		
	Total	Rural	Urban	Total	Rural	Urban
1901	938	941	916	1,045	1,049	900
1911	916	922	866	1,057	1,060	940
1921	908	918	834	1,048	1,051	871
1931	903	916	813	1,049	1,053	879
1941	907	922	824	965	967	873
1951	908	922	827	1,039	1,044	873
1961	907	921	817	1,062	1,067	839
1971	876	884	826	1,016	1,020	847
1981	882	889	850	1,006	1,015	863
1991	876	879	864	987	993	880
2001	898	904	876	1,004	1,009	922

NOTE- Sex Ratio has been defined here as the numberof females per 1000 males

As per 2001 Census sex-ratio of 1004 females per 1,000 males has been recorded in the district against the state average of 898. The sex-ratio of the district was significantly high as compared to the state average figures from 1901 to 2001. The lowest sex ratio of 965.females per 1000 males were recorded in the district during 1941 against the state average of 907 females. It is also observed that the proportion of females in rural areas is higher than that of urban areas in both district and state.

TABLE 6: SEX RATIO BY TAHSILS, 2001

Serial number	Name of Tahsil	Sex ratio		
		Total	Rural	Urban
1	2	3	4	5
1	Lalganj	1,012	1,012	
2	Kunda	991	994	931
3	Pratapgarh	983	997	916
4	Patti	1,025	1,026	953
	District Total:	**1,004**	**1,009**	**922**

The table-6 gives sex-ratios for total, rural and urban areas at tahsil level as per 2001 census. There are 1004 females for every thousand males in Pratapgarh district. It becomes clear from the table that sex-ratio in rural areas is higher than that of urban areas. The sex-ratio among rural and urban population is 1009 and 922 females respectively. The rural sex-ratio in the tahsils varies between 994 in Kunda tahsil and 1026 females per 1,000 males in Patti tahsil. In urban areas the highest sex-ratio is recorded in 953 (Patti) and the lowest is in 916 urban (Pratapgarh).

TABLE 7: SEX RATIO BY CD BLOCKS, 2001

Serial number	Name of C D block	Sex ratio
1	2	3
1	Sangipur	1,006
2	Lalganj Ajhara	1,027
3	Rampur Sangramgarh	995
4	Babaganj	1,020
5	Lakshamanpur	1,019
6	Kalakankar	973
7	Kunda	977
8	Vihar	1,010
9	Sandwa Chandrika	1,029
10	Pratapgarh (Sadar)	957
11	Mandhata	1,012
12	Magraura	1,009
13	Patti	1,039
14	Aspur Deosara	1,048
15	Shivgarh	1,009
16	Gaura	1,032
	District (Rural) Total:	**1,009**

The table-7 presents C.D. block-wise sex-ratio for rural population in the district. The sex-ratio in rural areas of the district comes 1,009 females per 1,000 males, as a whole. Among the C.D. blocks the highest sex-ratio of 1,048 females is found in Aspur Deosara C.D. block and is followed by 1,039 (patti) while the lowest of 957 is recorded in Pratapgarh (sadar) C.D. block. The sex-ratios of Aspur Deosara, Patti, Gaura, Sandwa Chandrika, Babaganj, Lakshamanpur, Mandhata and Vihar C.D. block are higher than the district rural average of 1,009 females and in remaining blocks, this value is below the district average.

TABLE 8: SEX RATIO OF RURAL POPULATION BY RANGES, 2001

Range of sex ratio for villages	Number of inhabited villages	Percentage of villages in each range	Population 2001	Percentage distribution of population
1	2	3	4	5
Less than 700	2	0.1	314	0.0
700-749	5	0.2	2,733	0.1
750-799	21	1.0	7,977	0.3
800-849	43	2.0	25,642	1.0
850-899	154	7.1	142,622	5.5
900-949	278	12.7	384,630	14.9
950-999	438	20.1	673,135	26.0
1000-1099	783	35.9	1,000,245	38.7
1100+	458	21.0	349,321	13.5
District Total:	**2,182**	**100.0**	**2,586,619**	**100.0**
Sex ratio (Rural) for District:		**1009**		

Table 8 presents the distribution of villages by Range sex-ratio based on 2001 Census. The maximum number of villages i.e. 783 accounting for 35.9 per cent of the total villages having largest population of 38.7 per cent in the district fall in the sex-ratio range of 1,000-1,099 females per 1,000 males. It is followed by the sex-ratio range of 1100+ which claims 458 villages (21.0 per cent) and 13.5 per cent population. The range of 950-999, there are 438 villages (20.1 per cent). In remaining sex-ratio ranges of 900-949, 850-899, 800-849, 750-799, 700-749 and less than 700, the number of villages are 278 (12.7 per cent), 154 (7.1 per cent), 43 (2.0 per cent), 21 (1.0 per cent), 5 (0.2 percent) and 2 (0.1 per cent) respectively. In these ranges, the percentage of population is comparatively low. The maximum number of villages i.e 783 having maximum population (38.7 per cent) fall in the higher sex-ratio ranges of 1000-1099 females and above showing that in majority of villages the sex-ratio is significantly higher.

TABLE 9: SEX RATIO OF URBAN AGGLOMERATIONS / TOWNS, 2001

Serial number	Name of U.A. / Town	Urban status of town	Sex ratio
1	2	3	4
1	Manikpur	(NP)	929
2	Kunda	(NP)	933
3	Antu	(NP)	927
4	Bela Pratapgarh	(NPP)	899
5	Pratapgarh City	(NP)	934
6	Katra Medniganj	(NP)	1,050
7	Patti	(NP)	953
Sex ratio (Urban) for the district:			**922**

Table 9 gives the sex-ratio of towns. The sex-ratio in urban areas of the district comes to 922 females per 1,000 males as a whole. Among the 7 towns of the district the sex-ratio varies between 899 to 1,050. Katra Medniganj (NP) has the highest sex-ratio (1,050), while Bela Pratapgarh (NPP) has the lowest sex-ratio of 899 females.

TABLE 10: SEX RATIO OF POPULATION IN THE AGE GROUP 0-6 FOR TAHSILS, 2001

Serial number	Name of Tahsil	Total / Rural / Urban	Total population in 0-6 age group			Sex ratio for 0-6 age group
			Persons	Males	Females	
1	2	3	4	5	6	7
1	Lalganj	Total	97,193	50,157	47,036	938
		Rural	97,193	50,157	47,036	938
		Urban	0	0	0	
2	Kunda	Total	147,016	75,187	71,829	955
		Rural	140,671	71,817	68,854	959
		Urban	6,345	3,370	2,975	883
3	Pratapgarh	Total	104,982	54,543	50,439	925
		Rural	90,304	46,853	43,451	927
		Urban	14,678	7,690	6,988	909
4	Patti	Total	162,906	84,665	78,241	924
		Rural	161,455	83,914	77,541	924
		Urban	1,451	751	700	932
	District Total:	**Total**	**512,097**	**264,552**	**247,545**	**936**
		Rural	**489,623**	**252,741**	**236,882**	**937**
		Urban	**22,474**	**11,811**	**10,663**	**903**

The table 10 presents population of age-group 0-6 years and sex-ratio for total, rural and urban areas in respect of each tahsils of the district. Total population in age-group 0-6 is 512,097 persons comprising 264,552 males and 247,545 females. The total sex-ratio in this age-group works out 936 females for every thousand males in the district. The proportion of females in rural areas is higher than that of urban areas. The sex-ratio in rural and urban areas comes 937 and 903 females in this age-group respectively. The rural sex-ratio in tahsil varies between 924 in Patti tahsil and 959 in Kunda tahsil. The sex-ratio of 959 of tahsil Kunda and 938 of tahsil Lalganj are higher than district rural average (937). Patti (Tahsil) has lowest sex-ratio of 924 females among the total population. In urban areas, the higher sex-ratio is recorded in Patti urban (932) and the lowest is found in Lalganj urban (883).

TABLE 11: SEX RATIO OF POPULATION IN THE AGE GROUP 0-6 FOR C.D. BLOCKS, 2001

Serial number	Name of C.D. block	Total population in 0-6 age group			Sex ratio for 0-6 age group
		Persons	Males	Females	
1	2	3	4	5	6

15	Shivgarh	31,634	16,482	15,152	919
16	Gaura	34,400	17,736	16,664	940
District (Rural) Total:		**489,623**	**252,741**	**236,882**	**937**

Table 11 gives C.D. block-wise sex-ratio of rural child population in the age-group 0-6 years in the district. The sex-ratio is 937 for the district (rural). The sex-ratio of C.D. block varies between 905 to 962. It is highest in Kalakankar & Vihar C.D. block i.e. 962 followed by 960 in Babaganj C.D. block and lowest 905 females is found in Patti C.D. block. The sex-ratio of Sangipur, Rampur Sangramgarh, Babaganj, Kalakankar, Kunda, Vihar and Gaura C.D. block are higher than the district rural (937) while in remaining blocks, it is below the average of the district.

TABLE 12: SEX RATIO OF RURAL POPULATION IN THE AGE GROUP 0-6 BY RANGES, 2001

Range of sex ratio for villages	Number of inhabited villages	Percentage distribution of villages	Population 2001	Percentage distribution of population
1	2	3	4	5
Less than 700	146	6.7	11,744	2.4
700-749	92	4.2	14,305	2.9
750-799	128	5.9	23,644	4.8
800-849	206	9.4	45,806	9.4
850-899	285	13.1	81,484	16.6
900-949	304	13.9	93,304	19.1
950-999	237	10.9	72,087	14.7
1000-1099	395	18.1	96,722	19.8
1100+	389	17.8	50,527	10.3
District (Rural) Total	**2,182**	**100.0**	**489,623**	**100.0**
Sex ratio (Rural) for District:		**937**		

Table 12 shows the distribution of villages in 9 sex-ratio ranges of the age-group 0-6 years as well as percentage of villages, total population and percentage of population of this age-group falling in each range of sex-ratio in the district.

The maximum number of villages i.e. 395 (18.1 per cent) having largest population (19.8 per cent) in the district (rural) fall in the sex-ratio range of 1000-1099 females per 1,000 males in age of 0-6 years. It is followed by the sex-ratio range of less than 1100+ which claims 389 villages (17.8 per cent) and 10.3 per cent population. Next to it, 304 villages (13.9 per cent) are in the range of 900-949 with 19.1 per cent population. 285 villages (13.1 per cent) having 16.6 per cent population fall in sex-ratio range of 850-899. In remaining sex-ratio ranges of less than 700, 700-749, 750-799, 800-849, and 950-999 claim less number of villages and these are distributed as 146 (6.7 per cent), 92 (4.2 per cent), 128 (5.9 per cent), 206 (9.4 per cent and 237 (10.9 per cent) respectively. In these ranges, the percentage of population is also low. It becomes clear from the table that more than fifty per cent of villages i.e. 1325 having population (60.7 per cent) fall in the higher sex-ratio ranges of 900-949 and above.

TABLE 13 : SEX RATIO OF POPULATION IN THE AGE GROUP 0-6 OF URBAN AGGLOMERATIONS / TOWNS, 2001

Serial number	Name of UA / Town	Urban status of town	Total population in 0-6 age group			Sex ratio for 0-6 age group
			Persons	Males	Females	
1	2	3	4	5	6	7
1	Manikpur	(NP)	2,578	1,357	1,221	900
2	Kunda	(NP)	3,767	2,013	1,754	871
3	Antu	(NP)	1,307	695	612	881
4	Bela Pratapgarh	(NPP)	9,748	5,164	4,584	888
5	Pratapgarh City	(NP)	2,278	1,146	1,132	988
6	Katra Medniganj	(NP)	1,345	685	660	964
7	Patti	(NP)	1,451	751	700	932
District(Urban) Total			**22,474**	**11,811**	**10,663**	**903**

Townwise sex – ratio of urban child population with age - group 0-6 years in the district. The sex – ratio is 903 for the district (urban). The sex – ratio of urban towns varies between 871–988. It is highest in Pratapgarh city (NP) followed by 964 of Katra Medniganj (NP) and lower 871 females is found in Kunda (NP). The sex ratio of Pratapgarh city (NP), Katra Medniganj (NP) and Patti (NP) are higher than the district urban (903) while in remaining urban areas, it is below the average of the district.

TABLE 14: NUMBER AND PERCENTAGE OF SCHEDULED CASTES AND SCHEDULED TRIBES POPULATION IN TAHSILS, 2001

Serial number	Name of Tahsil	Total / Rural / Urban	Total population	Total Scheduled Castes population	Total Scheduled Tribes population	Percentage of Scheduled Castes population to total population	Percentage of Scheduled Tribes population to total population
1	2	3	4	5	6	7	8

		Urban	8,797	702	0	8.0	0
	District Total:	**Total**	**2,731,174**	**601,043**	**159**	**22.0**	**0**
		Rural	**2,586,619**	**584,713**	**157**	**22.6**	**0**
		Urban	**144,555**	**16,330**	**2**	**11.3**	**0**

Table 14 depicts the distribution of Scheduled Castes and Scheduled Tribes population as well as their percentage to total population at tahsil level in rural and urban areas of the district. In the district, 22.0 per cent of the total population belong to the Scheduled Caste. There are only 159 Scheduled Tribes population in the district. The percentage of Scheduled Castes population constitutes 22.6 per cent in rural population and 11.3 per cent in urban population of the district. The highest percentage of total Scheduled Castes population is recorded in Kunda tahsil (26.7) while the lowest is found in Pratapgarh tahsil (17.4).

TABLE 15: NUMBER AND PERCENTAGE OF SCHEDULED CASTES AND SCHEDULED TRIBES POPULATION IN C.D. BLOCKS, 2001

SL. No	Name of C.D. block	Total population	Total Scheduled Castes population	Total Scheduled Tribes population	Percentage of Scheduled Castes population to total population	Percentage of Scheduled Tribes population to total population
1	2	3	4	5	6	7

District (Rural) Total:		**2,586,619**	**584,713**	**157**	**22.6**	**0**

Table 15 shows distribution of Scheduled Castes and Scheduled Tribes population in each C.D. block of the district. 22.6 per cent of rural population of the district belongs to Scheduled Castes. At C.D. block level, Scheduled Castes population varies between 17.5 per cent in Shivgarh and 29.9 per cent in Babaganj & Vihar C.D. block.. The other C.D. block containing the highest percentage of Scheduled Castes are Rampur Sangramgarh (28.8), Lalganj Ajhara (24.5) and Kunda (24.4). Scheduled Tribes population is negligible in the district (Rural).

TABLE 16: PROPORTION OF SCHEDULED CASTES POPULATION TO TOTAL POPULATION IN VILLAGES, 2001

Percentage range of Scheduled Castes population to total population	Number of villages	Percentage	Scheduled Castes Population	Percentage
1	2	3	4	5
Nil	131	6.0	0	0.0
Less than 5	90	4.1	2,278	0.4
5-10	227	10.4	19,750	3.4
11-20	625	28.6	149,930	25.6

76 and above	14	0.6	2,915	0.5
District Total	**2,182**	**100.0**	**584,713**	**100.0**

Table 16 reflects the number of villages according to the proportion of Scheduled Castes population to their total population in different ranges of percentage at district level. 131 villages accounting for 6.0 per cent of total 2,182 inhabited villages in the district do not have any Scheduled castes population. The proportion of Scheduled Castes population is less than 0.4 per cent in 90 villages (4.1 per cent). In 14 villages, it varies between 0.6 per cent while the next range of 4.2 per cent accounts for 75 villages. The range 41-50 and 5-10 per cent contains 111 and 227 villages respectively. Both these ranges together account for 15.5 per cent villages of the district. 14 villages fall in the range of 76 and above per cent. 592 villages are such where the proportion of Scheduled Castes is between 21-30 per cent. These villages contain 36.6 per cent Scheduled Castes population of the district.

TABLE 17: PROPORTION OF SCHEDULED TRIBES POPULATION TO TOTAL POPULATION IN VILLAGES, 2001

15	Shivgarh	1,003	0
16	Gaura	1,042	0
	District (Rural) Total	**1,037**	**1,066**

Table 19 indicates sex-ratio among Scheduled Castes and Scheduled Tribes in each C.D. block of the district. The Scheduled Castes sex-ratio is 1,037 for district (rural). Among the C.D. blocks, the highest sex ratio of 1,089 females is found in Vihar C.D. block and lowest of 956 females is recorded in Pratapgarh (sadar) C.D. block. The Scheduled Tribes sex – ratio is 1,066 in the rural areas of the district. Among C. D. blocks the Scheduled Tribes population is recorded only in five C. D. blocks namely Lalganj Ajhara, Babaganj, Kalakankar, Sandwa Chandrika and Aspur Deosara. The highest sex – ratio 2000 females is found in Kalakankar C. D. block while it is lowest in Babaganj C. D. block.

TABLE 20: SEX RATIO AMONG SCHEDULED CASTES AND SCHEDULED TRIBES IN URBAN AGGLOMERATIONS / TOWNS, 2001

Serial number	Name of U.A.^ / Town +*	Scheduled Castes sex ratio	Scheduled Tribes sex ratio
1	2	3	4

District and tahsil-wise literacy rates besides the number of literates and illiterates for total, rural and urban areas are given in table-21. The literacy rates are worked out by excluding population of 0-6 years. As per 2001 Census, the proportion of literates to total population excluding 0-6 years comes to 57.6 per cent in the district. This proportion in rural area is 56.6 per cent against 74.7 per cent in urban areas. In the district the literacy rates of males (74.0 per cent) is much higher than that of females (41.5 per cent). Among the tahsils, Pratapgarh tahsil tops with 64.4 per cent literates followed by Patti tahsil (60.1 per cent). Kunda tahsil with 52.6 per cent literates stands at the bottom in the district. Out of 4 tahsils, the literacy rates of 2 tahsils are higher than that of district average. It is observed that in urban areas of district the literacy rates are higher than the rural areas.

The gap between male and female literacy is very high which comes to 32.5 per cent in the district, as a whole. The situation at tahsil level is not much different. However this gap in urban literacy is low which comes to 19.3 points against the rural areas, where as the gap between male and female literacy in rural areas is 33.1 points.

TABLE 22: NUMBER AND PERCENTAGE OF LITERATES AND ILLITERATES BY SEX IN C. D. BLOCKS, 2001

District (Rural) Total:		**1,187,044**	**759,483**	**427,561**	**1,399,575**	**528,258**	**871,317**	**56.6**	**73.4**	**40.3**	**33.1**

The Table 22 reveals number of literates, illiterates and the literacy rates in rural areas at C.D. block level in the district. 56.6 per cent of the total rural population excluding the age-group of 0-6 years are literates in the district. The corresponding proportion of male and female literates comes to 73.4 and 40.3 per cent respectively which shows very wide gap of 33.1 per cent in male and female literacy. At C.D. block level, Pratapgarh (sadar) C.D. block has the highest rural literacy rate of 66.3 per cent while 81.8 per cent males and 50.2 per cent females are literates in this block. The lowest literacy rate in rural areas is noted in Rampur Sangramgarh C.D. block (46.2 per cent). There are wide variations in male and female literacy in all the C.D. blocks of the district. The maximum difference of 36.6 points is found in Gaura C.D. block.

TABLE 23: DISTRIBUTION OF VILLAGES BY LITERACY RATE RANGE, 2001

Range of literacy rate for villages	Number of inhabited villages	Percentage distribution of villages	Population	Percentage distribution of population
1	2	3	4	5
0	0	0.0	0	0.0
1-10	0	0.0	0	0.0
11-20	6	0.3	1,585	0.1

District(Urban) Total		**91,227**	**53,258**	**37,969**	**53,328**	**21,949**	**31,379**	**74.7**	**84.0**	**64.7**	**19.3**

Table 24 shows number and percentage of literates and illiterates by sex during 2001 Census in the urban areas of the district. Regarding absolute figures of literates Bela Pratapgarh (NPP) town is way ahead of other towns. The table reveals that literacy rate is pretty high in the urban areas of the district Pratapgarh). The literacy rate is quite high (above 80.0 per cent in five towns) among males. Female literacy rate is not for behind in three towns (above 62.1 per cent). However, literacy rate among females is very low (47.6 per cent) in Manikpur (NP), The gap in male female literacy rate is (19.3) per cent at the district level.

	District (Rural) Total:	**201,857**	**136,366**	**65,491**	**382,856**	**150,629**	**232,227**	**43.4**	**60.4**	**27.4**	**33.0**

Table 25 shows number and percentage of scheduled castes literates and illiterates by sex in CD blocks 2001. In rural areas of the district proportion of literates is 43.4 per cent in which 60.4 Males and 27.4 Females. Thus, the gap in male and female literacy rates is 32.9 Among 16 C.D blocks, Pratapgarh Sadar C.D block has the highest literacy rate and Rampur Sangramgarh C.D block has the lowest literacy rates. The gap in male/female literacy rates in Mandhata C.D block is highest and this gap is lowest in Kalakankar C.D block.

TABLE 26 : DISTRIBUTION OF VILLAGES BY LITERACY RATE RANGE FOR SCHEDULED CASTES POPULATION, 2001

Range of literacy rate for villages	Number of inhabited villages	Percentage distribution of villages	Scheduled Castes Population	Percentage distribution of population
1	2	3	4	5
0	8	0.4	119	0.0
1-10	16	0.8	1,303	0.2

District Total:	**2,051**	**100.0**	**584,713**	**100.0**
Literacy rate for District (Rural):		**43.4**		

The table 26 presents the distribution of villages by literacy rate range for Scheduled Castes population in 2001 Census. In majority of 636 inhabited villages which form about 32 per cent of total rural scheduled castes population the literacy rate range is 41 to 50.

TABLE 27 : NUMBER AND PERCENTAGE OF SCHEDULED CASTES LITERATES AND ILLITERATES BY SEX IN TOWNS, 2001

Serial number	Name and urban status of Town	Number of literates and illiterates						Percentage of literates			Gap in male/ Female literacy rate
		Number of literates			Number of illiterates						
		Persons	Males	Females	Persons	Males	Females	Persons	Males	Females	
1	2	3	4	5	6	7	8	9	10	11	12
1	Antu (NP)	437	288	149	556	219	337	55.3	70.8	38.9	31.9
2	Bela Pratapgarh (NPP)	3,371	2,130	1,241	2,367	880	1,487	69.5	83.4	54.1	29.3
3	Katra Medniganj (NP)	303	196	107	513	207	306	44.4	58.2	30.9	27.2
4	Kunda (NP)	1,312	877	435	2,475	1,000	1,475	43.6	59.6	28.2	31.4
5	Manikpur (NP)	1,139	764	375	1,403	569	834	55.1	70.0	38.4	31.6
6	Patti (NP)	255	168	87	447	185	262	43.7	57.3	29.9	27.4
7	Pratapgarh City (NP)	761	483	278	991	398	593	53.8	67.9	39.5	28.4
	Pratapgarh (Urban)	**7,578**	**4,906**	**2,672**	**8,752**	**3,458**	**5,294**	**56.6**	**71.5**	**40.9**	**30.6**

The table 27 brings out the number and percentage of scheduled castes literates and illiterates by sex in urban agglomerations/towns population in the 2001 Census. The lower percentage of literates is found in Kunda (NP) among 7 towns but the gap in male/female literacy rate is highest in case of Manikpur (NP). The males in all the 7 towns enjoy higher literacy rate than females. The gap in male/female literacy rate is least in case of Katra Medniganj (NP).

TABLE 28: NUMBER AND PERCENTAGE OF SCHEDULED TRIBES LITERATES AND ILLITERATES BY SEX IN C. D. BLOCKS, 2001

Serial number	Name of C. D. block*	Number of literates and illiterates						Percentage of literates			Gap in male/ female literacy rate
		Number of literates			Number of illiterates						
		Persons	Males	Females	Persons	Males	Females	Persons	Males	Females

1	Lalganj Ajhara	2	2	0	17	8	9	15.4	33.3	0	33.3
2	Babaganj	4	4	0	24	13	11	18.2	28.6	0	28.6
3	Kalakankar Sandwa	1	1	0	8	2	6	12.5	33.3	0	33.3
4	Chandrika	14	11	3	54	18	36	29.8	47.8	12.5	35.3
5	Aspur Deosara	2	2	0	31	15	16	7.7	15.4	0	15.4
	District (Rural) Total:	**23**	**20**	**3**	**134**	**56**	**78**	**19.8**	**33.9**	**5.3**	**28.6**

*In the remaing C.D. block, no scheduled tribe exist.

The table 28 brings out the number and percentage of scheduled tribes literates and illiterates by sex in CD Blocks in 2001 Census. The literacy rate of the scheduled tribes population of 19.8 per cent is lower than the corresponding rate of 43.4 per cent in case of scheduled castes community. The gap in male and female literacy rates is 28.6 per cent is lesser than the scheduled castes community (32.9 per cent). The literacy rate is highest in Sandwa Chandrika CD Block and lowest in Aspur Deosara CD Block. The gap in male/female literacy rate is also higher (35.3) in Sandwa Chandrika CD Block lowest of 15.4 point in Aspur Deosara.

TABLE 29 : DISTRIBUTION OF VILLAGES BY LITERACY RATE RANGE FOR SCHEDULED TRIBES POPULATION, 2001

Range of literacy rate for villages	Number of inhabited villages	Percentage distribution of villages	Scheduled Tribes Population	Percentage distribution of population
1	2	3	4	5
0	1	12.5	12	7.6
1-10	1	12.5	33	21.0
11-20	2	25.0	37	23.6
21-30	2	25.0	57	36.3
31-40	1	12.5	7	4.5
41-50	1	12.5	11	7.0
51-60	0	0.0	0	0.0
61-70	0	0.0	0	0.0
71-80	0	0.0	0	0.0
81-90	0	0.0	0	0.0
91-99	0	0.0	0	0.0
100	0	0.0	0	0.0
District Total:	**8**	**100.0**	**157**	**100.0**
Literacy rate for District (Rural):				**9.8**

The table 29 gives the distribution of villages by literacy rate range for the Scheduled Ttribes population in 2001 Census. In the district the Scheduled Tribes population is found in 8 villages. However, the maximum (80.9 per cent) of the Scheduled Tribes population (127) is found in only 5 villages with literacy rate range from 1 to 30.

TABLE 30 : NUMBER AND PERCENTAGE OF SCHEDULED TRIBES LITERATES AND ILLITERATES BY SEX IN TOWNS, 2001

Serial number	Name and urban status of Town	Number of literates and illiterates						Percentage of literates			Gap in male/ female literacy rate
		Number of literates			Number of illiterates						
		Persons	Males	Females	Persons	Males	Females	Persons	Males	Females	
1	2	3	4	5	6	7	8	9	10	11	12
1	Bela Pratapgarh (NPP)	1	1	0	1	0	1	50	100	0	100
	Pratapgarh (Urban)	**1**	**1**	**0**	**1**	**0**	**1**	**50.0**	**100.0**	**0**	**100.0**

The table 30 gives number and percentage of Scheduled Tribes literates and illiterates by sex in urban agglomerations/town population in 2001 Census. Out of 7 statutary town in the district only Bela Pratapgarh (NPP.) has Scheduled Tribes population. Out of 2 Scheduled Tribes population the only male is found literate.

TABLE 31: NUMBER AND PERCENTAGE OF MAIN WORKERS, MARGINAL WORKERS, AND NON-WORKERS BY SEX IN TAHSILS, 2001

Serial number	Name of Tahsil	Persons / Males / Females	Total population	Main workers		Marginal workers		Total workers (Main and marginal workers)		Non workers

Table 31 gives the number and percentage of main workers, marginal workers and non-workers by sex at tahsils level in the district as per 2001 Census. The proportion of the total workers works out 33.5 per cent of the total population in the district. The total workers are comprised of 21.2 per cent of main workers and 12.3 per cent of marginal workers and the remaining 66.5 per cent are non-workers.

Among the main workers, males participation rate in the district is 33.1 per cent and 9.3 per cent of females. Male and female marginal workers account for 9.8 and 14.9 per cent respectively. The percentage of females marginal workers is higher than males. Total workers (main and marginal workers) among tahsils varies from 30.5 per cent in Pratapgarh tahsil to 35.0 per cent in Patti tahsil.

TABLE 32: NUMBER AND PERCENTAGE OF MAIN WORKERS, MARGINAL WORKERS, AND NON-WORKERS BY SEX IN C. D. BLOCKS, 2001

Table 32 shows C.D. block-wise number and percentage of main workers, marginal workers and non-workers for rural population of the district. Of the 2,586,619 total rural population of the district, 21.2 per cent has been categorized as main workers and the marginal workers constitute 12.8 per cent and the remaining 66.0 per cent fall in the category of non-workers. The sex-wise break up at the district level shows that 32.9 per cent males and 9.5 per cent females are in the category of main workers. Male and female marginal workers account for 10.0 and 15.5 per cent respectively. The percentage of female marginal workers is higher than male marginal workers. Similar trend is visible at C.D. block level.

The percentage of total rural workers of the district comes to 34.0 per cent. At the C.D. block level, 40.1 has highest proportion of total workers Gaura. It is closely followed by Kalakankar (39.1 per cent), Rampur Sangramgarh (37.8 per cent), Magraura (35.3 percent), Lalganj Ajhara (35.1 per cent) and Babaganj (34.2 per cent). The lowest percentage of 29.4 percent is recorded in Pratapgarh (Sadar) C.D. block.

Note: Percentage of Worker to total worker are given in brackets

It can be seen from the table 34, the economy of the district is primarily agricultural as supported by the fact that cultivators constitute 46.5 per cent of the total workers (main + marginal) and remaining 53.5 per cent of total workers are engaged as agricultural labourers (30.7 per cent), Household industry workers (5.2 per cent) and other workers (17.6 per cent) in this district.

The distribution of workers by four categories of economic activity at tahsil shows very high dependence of population on agriculture sector absorbing large number of workers. The proportion of cultivators varies between 38.6 per cent in Pratapgarh tahsil and 53.3 per cent in Patti tahsil. These variations within the district may be due to cropping and land holding patterns. The percentage of male cultivators is 48.7 per cent which is high as compared to 42.7 per cent of female cultivators in the district. The percentage of agricultural labourers and household industry workers is low in the district as stated above. The workers in other activities occupy the third position in the district as well as in each tahsil. The highest proportion of 29.2 per cent of other workers is recorded in Pratapgarh tahsil while the lowest proportion of 12.5 per cent is found in Lalganj tahsil.

Note: Percentage of Worker to total worker are given in brackets

Table 35 presents C.D. block-wise distribution of workers by sex in four categories of economic activity. In the rural areas of the district total workers (main+marginal) 34.0 per cent of total population. Among these workers, cultivators constitute 48.2 per cent, 31.6 per cent agricultural labourers, 5.1 per cent household industry workers and 15.2 per cent other workers. The agricultural sector plays a major role in providing employment to the working force of rural population despite the fact that it is not commercial viable. Household industries also could not make much progress in rural areas as reflected in the data and these household industries employ only 5.1 per cent workers of the total working force. Therefore surplus working force has to depend on primary activities. Among cultivators, the percentage of females (43.3 per cent) is less than males (51.0 per cent) in the rural areas of the district. The females play a main role in rural economy of the district. The proportion of cultivators and other workers differ considerably from one C.D. block to other. The proportion of cultivators varies between 32.1 per cent in Pratapgarh Sadar C.D. block to 60.1 per cent in Gaura C.D. block. Similarly for other workers, the lowest proportion is 10.1 per cent in Rampur Sangramgarh C.D. block while 31.5 per cent is the highest in Pratapgarh Sadar C.D. block. The percentage of household industry workers is low i.e. only 5.1 per cent in the district. The percentage of agricultural labourers is highest in Rampur Sangramgarh (41.0) block and is followed by Vihar (38.7). Similarly, household industry workers varies in C.D. blocks between 4.2 per cent in Rampur Sangramgarh and Aspur Deosara each and 6.3 per cent in Kalakankar.

Note:- percentage of worker to total worker are given in brackets.

Table 36 presents distribution of workers by sex in four categegories of economic activity in urban areas of the district Pratapgarh. It can be observed from the table that the four categories of economic activity are cultivators, agricultural labourers, household industry workers and other workers. Figures in the table has been given for total number of workers including main and marginal workers. At the district level, urban areas recorded highest percentage of other workers (71.6), followed by Agricultural Labour with 11.6 per cent. If we observe each town, the table reveals that highest percentage of cultivators (33.9) is recorded in Antu (NP). Household industry workers are (19.4 per cent in Manikpur (NP), followed by 13.4 per cent in Katra Medniganj (NP) and 8.5 per cent in Patti N.P. As the usual trend recorded in the urban areas, other workers are in high percentage (88.3 per cent in Bela Pratapgarh NPP.), 75.6 per cent in Patti (NP) and 69.5 per cent in Katra Medniganj (NP).

(ix) Brief analysis of the Village Directory and Town Directory data :

One of the major parts of the District Census Handbook are Village and Town Directories. These are non-census data incorporated showing educational, medical, drinking water, banking facilities, communication facilities and other such developmental indicators in towns and villages. From this non-census data, inset tables have been generated and reproduced below showing major trends in the availability of above amenities:

TABLE 37 : DISTRIBUTION OF VILLAGES ACCORDING TO AVAILABILITY OF DIFFERENT AMENITIES, 2001

Note : - Percentages are given in brackets.

* Based on the improved drinking water source, drinking water supply has been classified as `Improved ' or otherwise. If the household has access to drinking water supplied from a tap or a hand pump / tube well situated within or outside the premises it is considered as having access to `Improved drinking water source'. However, the concept of improved drinking water is state specific and this is to be considered accordingly.

Post office includes Post office, telegraph office and Post and telegraph office.

$ Transport communication includes bus service, rail facility and navigable waterways.

Table 37 deals with the C.D. block-wise distribution of villages according to the availability of different amenities like education, medical, improved drinking water, post office, telephone, transport, communications, agricultural credit societies, approach by pucca road and power supply within the village. Out of 2182 inhabited villages in the district 1407 villages or 64.5 per cent have been provided with the education facilities of one type or the other. Similarly 504 villages in the district constituting 23.1 per cent have medical facilities of one type or the other. Improved drinking water facility is available in 2154 or 98.7per cent villages. As regards, post office facility which includes facilities like telegraph office and post & telegraph, 312 villages constituting 14.3 per cent of villages have been provided with post office facility within the village. 528 or 24.2 per cent villages have been provided with the telephone facility, 265 or 12.1 per cent with transport facility,109 or 5.0 per cent villages with bank facility and 169 or 7.7 per cent with agricultural credit societies. Similarly there are 1377 or 63.1per cent villages which have been linked with the pucca road. Total 1717 or 78.7 per cent of villages have been provided with the electricity supply. Almost similar pattern of distribution of villages by availability of amenities in the villages at C.D. block has been found with slight variation. Vihar C.D. block has the highest 78.1 per cent villages where educational facility is available and lowest 47.2 per cent is found in Shivgarh. Medical facility is highest in Sangipur(49.2 per cent) and lowest (10.0 per cent) in Shivgarh C.D. block. Improved drinking water is available to cent-percent villages in Lalganj Ajhara, Rampur Sangramgarh, Balaganj and Aspur Deosaara blocks while in other blocks, it is 98.7 per cent. Telephone facility is highest in Pratapgarh Sadar (52.2 per cent). Transport and communications is less developed in Kalakankar where only 4.1 per cent villages are covered by this facility whereas 22.0 per cent villages of Lakshmanpur C.D. block are availing this facility. In the field of power supply most of the villages have been covered except 465 villages in the district.

TABLE 38 : NUMBER AND PERCENT OF RURAL POPULATION SERVED BY DIFFERENT AMENITIES, 2001

Table 38 depicts the number and proportion of rural population served by different kind of amenities. Out of total rural population of 2,586,619 persons in the district, 2,139,220 or 82.7 per cent have educational facility of one or the other type. Similarly 1,005,209 or 38.9 per cent population has medical facilities while 2,563,807 or 99.1 per cent have got improved drinking water facility. Post office facilities are available to 775,505 or 30.0 per cent population. Telephone facility is available to 906,271 or 35.0 per cent. Transport communications facility is available to 496,361or 19.2 per cent. Bank facility is available to 302,890 or 11.7 per cent. 412,490 or 15.9per cent have been provided with the facility of agricultural credit societies. 1,920,980 or 74.3 per cent have been provided with the facility of approach by pucca road. Power supply is available to 2,204,910 or 85.2 per cent rural population in the district. Similar pattern of availability of facilities is visible to the rural population at C.D. block level. However, in Sangipur C.D. block facilities of education, medical and improved drinking water are available to larger proportion of population.

TABLE 39 : DISTRIBUTION OF VILLAGES NOT HAVING CERTAIN AMENITIES, ARRANGED BY DISTANCE RANGES FROM THE PLACES WHERE THESE ARE AVAILABLE, 2001

Village not having the amenity of	Distance range of place from the villages where the amenity is available			
	Less than 5 kilo metres	5-10 kilometres	10+ kilometres	Total (Col. 2 - 4)
1	2	3	4	5

Table 39 presents distribution of villages not having certain amenities within the village at district level. They have to go out of their village to avail these facilities. Such villages have been presented according to various distance ranges in this table. 785 villages do not have primary school in their villages and out of these villages, children of 726 villages have to travel less than 5 kms. for studying. Out of 2,182 inhabited villages as many as 1,802 are deprived of middle school and 2,162 of degree college. Of these 1281 avail the facility of middle school at a distance of less than 5 kms., 502 at a distance 5-10 kms. and the remaining 19at a distance of 10+ kms. In respect of degree college 391avail this facility at a distance of less than 5 kms., 686 between 5 to 10 kms. and rest 1,085 villages at a distance of 10+ kms.

Similarly there are 2,140 villages in the district which have been devoid of Hospital facility and 2,148 villages which are deprived of PHC facilities. Of these 610 villages have the facility of

Hospital available within 5 kms. while in respect of 845 villages the inhabitants have to cover a distance of 5-10 kms. in order to avail this facility. Similarly overwhelming number i.e. 685 villages have this facility at a distance of 10+ kms. As regards PHC 462 avail this facility at a distance of less than 5 kms., 1,007 at a distance of 5-10 kms. and the remaining 679 have to travel a distance of more than 10 kms. to avail this facility.

Regarding Post Office, 1,870 villages do not have this facility in the village itself. Of these majority i.e. 1,533 have this facility at a distance of less than 5 kms., another 303 villages avail it at a distance of 5-10 kms. The remaining 34 villages habitants have to travel a distance of 10+ kms.

As regards Telephone, there are 1,654 villages in the district which are without telephone facilitiy. Of these 963 avail this facility at a distance of less than 5 kms., 452 at a distance of 5-10 kms. and remaining 239 have to traverse a distance of 10+ kms.

For Bus service out of 1,973 villages which do not have facility, 1,031 villages avail this facility at a distance of less than 5 kms., 709 at a distance between 5-10 kms. and 233 at a distance of 10+ kms.

In the entire district 2,081 villages are deprived of Commercial Bank & 2,154 of Co-operative Bank. Of these 2,081 villages which are deprived of Commercial Banks 1,289 villages avail this facility at a distance of less than 5 kms., 670 between 5-10 kms. & the remaining 122 at a distance of 10+ kms. Regarding Co-operative Banks out of 2,154 villages 563 villages avail this facility at a distance of less than 5 kms., 1,012 at a distance of 5-10 kms. and remaining 579 at a distance of 10+ kms. 2,013 villages do not have agricultural credit societies. This facility to 1,404 villages is available at a distance of less than 5 kms., 545 at a distance of 5-10 kms. and the remaining 64 at a distance of 10+ kms.

TABLE 40: DISTRIBUTION OF VILLAGES ACCORDING TO THE DISTANCE FROM THE NEAREST STATUTORY TOWN AND AVAILABILITY OF DIFFERENT AMENITIES, 2001

Distance range from the nearest statutory town (in kilometres)	Number of inhabited villages in each range	Type of amenity available				Type of amenity available

Post office includes Post office, Telegraph office and Post and telegraph office.

$ Transport communication includes bus service, rail facility and navigable waterways.

Table 40 deals with the distribution of villages according to distance from the nearest statutory town and availability of different amenities within the village. Out of total 2,182 inhabited villages in the district, there are 464 villages which have nearest towns upto a distance of 5 kms. Of these only 301 villages forming 64.9 per cent of these total villages, are having the educational facilities of one type or the other and 112 villages constituting 24.1 per cent, have the medical facilities within the village, 65 villages forming 14.0 per cent have the facility of post office within the village and 127 or 27.4 per cent have the facility of telephone. 61 villages

constituting 13.1 per cent have been linked by transport service. 17 villages comprising 3.7 per cent have been provided bank facilities, while 37 villages constituting only 8.0 per cent have been provided by agricultural credit societies. 309 villages comprising 66.6 per cent have been provided with pucca road.

There are 1,042 inhabited villages in the district which fall in the distance range of 5-15 kms. Of these 671 villages constituting 64.4 per cent have been provided with the educational facilities. 230 villages comprising 22.1 per cent have been provided with medical facilities. 148 villages constituting 14.2 per cent enjoy the post office facility. 258 villages comprising 24.8 per cent have been provided the telephone facility. 111 villages constituting 10.7 per cent have been linked with transport communications. 47 villages comprising 4.5 per cent have bank facility. 76 villages constituting 7.3 per cent are having agricultural credit societies, while 679 villages or 65.2 per cent are approachable by pucca road. 467 villages fall in the distance range of 16-50 kms. Of these, 65.1 per cent villages have educational facility, 24.4 per cent with medical, 12.8 per cent with post office, 20.6 per cent with telephone and transport & communications available to 13.7 per cent villages. Banks and agricultural credit societies facilities are available to 5.4 and 7.7 per cent of villages.

There are 209 villages whose distance ranges from the nearest statutory town have not been given. Such villages have been grouped under the unspecified category. 62.7 per cent villages have the educational facility of one or other type. 48 villages constituting 23.0 per cent have the medical, 18.7 per cent have the Post Office, 22.5 per cent have the Telephone, 13.9 per cent have the Transport & Communication. Banks and Agricultural Credit societies facilities each are availed to 9.6 per cent of villages. 128 villages or 61.2 per cent have been provided with pucca road.

TABLE 41: DISTRIBUTION OF VILLAGES ACCORDING TO POPULATION RANGE AND AMENITIES AVAILABLE, 2001

Post office includes Post office, Telegraph office and Post and telegraph office.

$ Transport communication includes bus service, rail facility and navigable waterways.

* Based on the improved drinking water source, drinking water supply has been classified as `Improved ' or otherwise. If the household has access to drinking water supplied from a tap or a hand pump / tube well situated within or outside the premises it is considered as having access to `Improved drinking water source'.

However, the concept of improved drinking water is state specific and this is to be considered accordingly.

Table 41 deals with the distribution of villages by population ranges and amenities available therein. In Pratapgarh district out of a total 2,182 inhabited villages, 1,407 villages (64.5 per cent) have education facility, 504 (23.1 per cent) have medical facility and 2,154 (98.7 per cent) have improved drinking water facility. 312 villages (14.3 per cent) have post office facility. 528 (24.2 per cent) have telephone facility. 265 (12.1 per cent) have been linked by bus service. 109 (5.0 per cent) have Bank facility. 169 villages (7.7 per cent) have been provided with the agricultural credit societies, 1,377 villages (63.1 per cent) have been linked with pucca road. 1,717 villages (78.7 per cent) have been provided with electricity.

Out of 649 villages, which fall in the population range of 500-999 persons, 412 villages (63.5 per cent) have been provided with the education facility, 100 (15.4 per cent) with medical facility, 99.4 per cent of the villages have improved drinking water facility. 42 villages (6.5per cent) have been provided with post office facilities, 124 villages (19.1 per cent) with telephone facility, 62 villages (9.6 per cent) with transport facilities, 9 villages (1.4 per cent) with bank facility, 37 villages (5.7 per cent) with agricultural credit societies and 383 villages (59.0 per cent) have approach by pucca road. 501 villages (77.2 peer cent) in this range have electricity.

578 villages fall in population range of 1,000-1,999 persons. Of these 488 (84.4 per cent) villages have education, 477 (82.5 per cent) power supply and 571 (98.8 per cent) improved drinking water facilities. Whereas 183 villages (31.7 per cent) enjoy the medical facility, 114 villages (19.7 per cent) have post office facility, 178 villages (30.8 per cent) have telephone facility, 87 villages (15.1 per cent) have transport communications facilities, 29 villages (5.0 per cent) have bank facilities, 49 villages (8.5 per cent) have agricultural credit societies and 392 villages (67.8 per cent) have approach by pucca road.

There are 317 villages in the district which are covered under 2,000-4,999 population range. In this range, 304 (95.9 per cent) villages enjoy the facility of education, 314(99.1 per cent improved drinking water, 137(43.2 per cent) telephone, transport communications, 273(86.1 per cent) approach by pucca road and 290(91.5 per cent) have power supply. 172 villages (54.3 per cent) have medical facility. 126 villages (39.7 per cent) have post office facility, 56 villages (17.7 per cent) have bank facility, 67 village (21.1 per cent) is having agricultural credit societies. There are 34 village in the district having a population of 5,000 persons or above.

TABLE 42: DISTRIBUTION OF VILLAGES ACCORDING TO LAND USE, 2001

Serial number	Name of C. D. block	Number of inhabited villages	Total area(In hectares)	Percentage of cultivable area to total area	Percentage of irrigated area to total cultivable area
1	2	3	4	5	6
1	Sangipur	124	25,875.2	77.7	81.6
2	Lalganj Ajhara	91	15,959.3	62.4	87.5
3	Rampur Sangramgarh	120	16,455.7	72.3	87.3
4	Babaganj	134	22,649. 1	81.0	87.5
5	Lakshamanpur	127	18,293. 5	86.8	86.3
6	Kalakankar	97	17,701.0	61.8	80.3
7	Kunda	117	24,004.9	58.0	78.2
8	Vihar	114	26,602.5	87.8	88.6
9	Sandwa Chandrika	135	22,325. 5	63.3	72.8
10	Pratapgarh (Sadar)	136	18,802.7	62.1	74.4
11	Mandhata	172	21,202.0	62.5	74.1
12	Magraura	207	26,714.5	82.4	91.8
13	Patti	159	19,449.4	81.4	89.6
14	Aspur Deosara	144	20,736.9	85.6	90.6
15	Shivgarh	180	21,825. 5	81.5	84.3
16	Gaura	125	22,318.0	72.2	84.6
	District Total:	**2,182**	**340,915.6**	**74.2**	**84.4**

Note : - Cultivable area = irrigated area + unirrigated area

Table 42 presents C.D blockwise distribution of villages according to land use. It also gives details of total area and cultivable area available of inhabited villages in the district. Cultivated area includes irrigated as well as unirrigated area. It further elaborates that what is the extent of cultivable area under irrigation. There are total 2,182 inhabited villages in the district having a total area of 340,915.6 hectares. Of this, 74.2 per cent is cultivable and 84.4per cent of total cultivable area has got the irrigation facility. The area figures have been collected from the revenue record maintained for each village by the State Government.

A look at the land use pattern at C.D. block level shows that Sangipur block with 124 villages have a total area of 25,875.2 hectares, of this 77.7 per cent of land is cultivable and of the aforesaid area 81.6 per cent is irrigated. In Lalganj block, all the 91villages have a total land area of 15,959.3 hectares, of this 62.4 per cent of land is cultivable and of the aforesaid area 87.5 per cent is irrigated. In Rampur Sangramgarh block, all the 120 villages have a total area of 16,455.7 hectares, of this cultivable area is 72.3 per cent and 87.3 per cent is irrigated. In Babaganj block, all the 134 villages have a total area of 22,649.1 hectares. Of this, cultivable area is 81.0 per cent. Of cultivable area 87.5 per cent is irrigated. Lakshmanpur block with 127 villages have a total land area of 18,293. 5 hectares, of this 81.0 per cent is cultivable area and out of this cultivable area 87.5 per cent is irrigated. Kalakankar block with 97 villages has a total land area of 17,701.0 hectares. Of this 61.8 per cent is cultivated area, out of which 80.3 per cent is irrigated. Kunda block with a total 117 villages have an area of 24,004.9 hectares. Of this 58.0 per cent is cultivable area. Vihar, Magraura, patti and Aspur Seosara Blocks have more percentage of cultivable area and irrigated as from Distt. Level.

TABLE 43 : PER CAPITA RECEIPT AND EXPENDITURE IN STATUTORY TOWNS

Sl No.	Class, name & urban status of the Town	Per capita receipt			Per capita expenditure					
		Total	Through taxes	From all other sources	Total	General Administration	Public health and conveniences	Public works	Public institutions	Other(s)

7	Pratapgarh City, NP	1.6	0.8	0.8	0.8	2.4
	Total	**4.7**	**1.2**	**1.1**	**1.1**	**0.1**

Table 44 shows in urban areas of Pratapgarh district the average number of primary school per 10,000 population comes 4.7 schools, 1.2 junior secondary/middle,1.1 secondary/matriculation, 1.1 senior secondary schools and the ratio of colleges is only 0.1 college per 10,000 population. Among the towns, the ratio of primary and junior secondary/middle is highest in Kunda(N.P.) and Antu (NP) respectively. Patti (N.P.) has highest ratio of secondary/ matriculation schools while in case of senior secondary school this position is claimed by Katra Medniganj (N.P.) The college education is not available in Antu (N.P.) and Katra Medniganj (N.P.).

TABLE 45 : NUMBER OF BEDS IN MEDICAL INSTITUTIONS IN TOWNS, 2001

Sl. No.	Name and urban status of the Town	Number of beds in medical institutions per 10,000 population
1	2	3
1	Antu, NP	0
2	Bela Pratapgarh, NPP	46
3	Katra Medniganj, NP	25
4	Kunda, NP	18
5	Manikpur, NP	0
6	Patti, NP	34
7	Pratapgarh City, NP	0
	Total	29

Table 45 depicts the number of beds available in medical institutions per 10,000 population in each town of Pratapgarh district. On an average there are 29 beds per 10,000 population in urban areas of the district. Whereas it is the highest 46 in Bela Pratapgarh NPP. while not even a single bed is recorded in Antu(N.P.), Manikpur)N.P.) and Pratapgarh City(N.P.).

TABLE 46 : PROPORTION OF SLUM POPULATION IN TOWNS, 2001

Sl.No.	Name of the Town	Total population	Slum population	Percentage of slum population to total population
1	2	3	4	5
			N.A	

TABLE 47 : MOST IMPORTANT COMMODITY EXPORTED OUT OF AND MANUFACTURED IN TOWNS, 2001

Sl.No.	Name and urban status of Town	Most important commodity	
		Manufactured	Exported
1	2	3	4
1	Manikpur, NP	--, --, --	--, --, --
2	Kunda, NP	--, --, --	Mango, Guava, Water Melon
3	Bela Pratapgarh, NPP	Murabba (Aonla), Pickles, Biscuit	Aonla, Mango, Guava
4	Pratapgarh City, NP	--, --, --	--, --, --
5	Katra Medniganj, NP	--, --, --	--, --, --
6	Antu, NP	Tat Patti, --, --	Sutali (Rope), Aonla, Sindur
7	Patti, NP	Box, Almirah, Wooden Furniture	Rice, Potato, Wheat

Table 47 indicates most important articles manufactured and exported out of the each town in the district. The district is well known for a Aonla Exported district. Antu and Bela Pratapgarh NPP. towns are the main export of Aonla. The main items which are manufactured in Antu NP and Bela Pratapgarh NPP are mat and Murabba respectively.

(x) Brief analysis of the data on houses and household amenities, Houselisting Operations, Census of India 2001 :

Data on houses and household amenities have traditionally been undertaken a few months before each census. Based upon data collected in the houselist, a few tables on the use of census house, materials of wall, floor and roof etc. are prepared. In 1991 census, the houselist was considerably expanded with 22 items of information. Again in 2001 census many new items on household assets like radio /transistor, television, telephone, cycle, scooter /motorcycle / moped, car/jeep and banking facility availed by household etc. for the first time has been added in the schedule. The district wise tables have been prepared and these are placed in the subsequent tables. The following is the distribution of households by number of rooms occupied.

TABLE 48 : HOUSEHOLDS BY TENURE STATUS AND NUMBER OF ROOMS OCCUPIED IN THE DISTRICT, 2001

Data source: Census of India 2001, H- series: "Tables on Houses, Household amenities and Assets."

The data presented in the Table 48 depicts number of households by tenure status and number of rooms occupied in the district. The total number of households in the district stands at 449,476 consisting of 426,967 rural and 22,509 urban households. 120,741 households belong to Scheduled Castes and 5,613 to Scheduled Tribes. 432,827 households are living in their owned houses. Of these households, the largest number of households (136,058) have occupied 3+ room accommodation and is followed by double room accommodation numbering to 132,870 households Next position is claimed by households(87,025)occupying three room accommodation. Number of households in owned accommodation occupying one room rank at fourth place with 76,074 households while 8,530 households are without any exclusive room.

6,026 households living in rented accommodation account for 1.3 per cent of total number of households in the district. The largest number of 2,131 households are living in two room accommodation followed by 1,976 households in single room accommodation. Households with three rooms and three plus are small in numbers. Other households numbering to 2,893 forming only 0.6 per cent of total households are distributed 783 in single room accommodation 868 double

room and 521 in three roomed accommodation. In both rural and urban areas majority of households have bigger size and majority of them have their own houses.

TABLE 49: PERCENTAGE DISTRIBUTION OF HOUSEHOLDS LIVING IN PERMANENT,C:C[10] SEMI PERMANENT AND TEMPORARY HOUSES, 2001

Sl. No.	District/ Tahsil	Total			Rural			Urban		
		Permanent	Semi-permanent	Temporary	Permanent	Semi-permanent	Temporary	Permanent	Semi permanent	Temporary
1	2	3	4	5	6	7	8	9	10	11
1	Lalganj Ajhara	37.1	39.6	23.2	37.1	39.6	23.2	0.0	0.0	0.0
2	Kunda	27.3	66.2	6.5	25.9	67.4	6.7	57.3	40.7	1.9
3	Pratapgarh	49.0	45.1	5.9	42.2	51.2	6.6	84.8	12.7	2.6
4	Patti	34.7	58.9	6.3	34.3	59.4	6.4	81.0	14.0	5.0
	District Total:	**36.0**	**54.3**	**9.7**	**33.8**	**56.1**	**10.1**	**77.2**	**20.3**	**2.5**

Data source: Census of India 2001, H-series: Tables on Houses, Household amenities and Assets.

Note:- bricks, lime and stone and RBC/RCC concreate are used for roof.

Semi permanent:- 2 Semi-permanent houses refer to those houses made of other types of materials.

The percentage distribution of households as shown in the above table reveals that more than 36.0 per cent of the households in the district had permanent houses. The trend is different in rural (33.8 per cent) and urban area (77.2 per cent). Among tahsils highest proportion of permanent houses were accounted in tahsil Pratapgarh (49.0 per cent) followed by Lalganj Ajhara (37.1 per cent), Patti (34.7 per cent) and lowest in Kunda (27.3per cent). In respect of semi-permanent houses, the returns were 54.3 per cent of district level where as among tahsils, in Kunda it was 66.2 per cent and lowest was 39.6 per cent in tahsil Lalganj Ajhara Rural areas represented a similar pattern at district and tahsil level but semi permanent houses in the urban areas were in the proportion range of 12.7 to 40.7 per cent. Temporary houses in the district lie between the range of 5.9 to 23.2 per cent.

TABLE 50: PERCENTAGE OF HOUSEHOLDS HAVING IMPROVED DRINKING WATER SOURCE , ELECTRICITY, BATHROOM, TOILET AND DRAINAGE FACILITY, 2001

Data source: Census of India 2001, H-series: Tables on Houses, Household amenities and Assets.

*Based on the improved drinding water source, drinking water source, drinding water supply has been classified as 'Improved' or otherwise. If the household has access to drinking water supplied from a tap or a hand pump/tube well situated within or outside the premises it is comsidered as having access to 'Inproved drinking water source'. However, the concept of improved drinking water is state specific and this is to be considered accordingly.

Note: Percentage is to be given in brackets after the number of households.

Bathroom means bathroom within the house

Toilet means toilet within the house.

Drainage menas closed and open drainage.

The above table shows that out of total households of the district 67.4 per cent of the households had improved drinking water facility. The proportion of rural and urban area was 66.4 and 86.2 per cent. Tahsil Lalganj Ajhara had higher order of proportion of households where percentage for rural area was 68.4 and 0.0 per cent in urban areas. Electricity was available for 25.8 per cent of households at district level. It means that households of the district had better access of electricity. Bathrooms and toilet facilities were available in 19.3 and 13.8 per cent of households. Tahsil Kunda poorly served in respect of these amenities. Similarly drainage facility was also poor in Patti and Lalganj Ajhara. At district level drainage facility was available for 51.5 per cent of households, whereas the proportion of rural and urban areas households accounted to 50.0 and 78.8 per cent.

Percentage in brackets

Data source: Census of India 2001, H-series: Tables on Houses, Household amenities and Assets.

It is observed from the above table that to 69.3 per cent of households in the district use firewood as fuel, for cooking. The proportion in the rural area is to 70.6 and in urban area it comes to to 44.8 per cent of households. LPG (cooking gas) has been reported as one of the fuel for cooking of food in to 4.4 per cent of the households. The composition of rural and urban comes to 2.6 and to 37.0 per cent respectively. Kerosene is used for cooking in as many as 0.9 per cent of the households (0.4 per cent rural and 11.4 per cent urban households). The other methods like crop residence, cow dung cake, coal, lignite, charcoal, electricity and biogas etc. ranges between to 0.0 per cent to 17.3 per cent of the households of the district. The pattern of fuel used for cooking follows the same trend in tahsils (rural areas) where predominant fuel is firewood. The table shows that firewood, LPG (cooking gas) and kerosene are the predominant fuel for cooking in the district.

Data source: Census of India 2001, H-series: Table on Houses, Household amenities and Assets.

The table reveals that out of the total households (449,476) of the district, in all 53.1 per cent could avail banking services at district level while only 47.31,18.74, 3.39, 83.46,9.88 and 2.31 per cent enjoyed the availability of household assets radio/transistor, television, telephone, bicycle, scooter/motor cycle/moped and car/jeep/van respectively whereas only 10.86 per cent had none of the specified assets.

It also reveals that at tahsil levels a highest proportion of 27.81 per cent of households were availing banking services as well as all other households assets in Kunda tahsil. The highest of none of specified assets 28.85 per cent in the tahsil Patti against it, on the other hand the lowest of 19.89 per cent was observed were availing banking services and 20.13 per cent radio/transistor household asset in Lalganj Ajhara tahsil while the rest of the availabilities of household assets at the lowest foot were being availed in Lalganj Ajhara tahsil and the percentage of the enjoyers of none of the specified assets was 23.43 per cent in Kunda tahsil. 29.30 per cent households in Patti tahsil followed by 27.81 per cent in Kunda tahsil were having banking services and the order of percentage of households having all other available household assets was higher in tahsil Pratapgarh than the tahsil Patti except in the case of none of the specified assets being reverse.

(xi) Major Social and Cultural Events, Natural and Administrative Development and Significant Activities during the decade:

Their was nothing significant in record as a new contribution. During the last decade the district administrative is patronized on the old scale.

(xii) Brief description of places of religious, historical or archaeological importance in villages and places of tourist interest in the towns of the district :

Vihar Archaeological remains of a Buddhist monastery lies in the place. The ruins abounds is broken bricks, fragment of buildings , eastern wares and sculptures

Manikpur

This old town stands by the river Ganga old monuments are main attraction of Manikpur. Some monuments which are very much decay are chihal satun, Jama masjid, sangin mahal, rangin mahal and fort. Besides , there are numerous tomb of historical important Manikpur is also full of political residence built during the reign of Akbar.

Pratapgarh

An old building which was residence of Raja Pratap Bahadur Singh, exists here. This Raja is said to have founded this city in 1617 A. D. and gave it his own name.

Ranki

It is undisputedly a place of great antiquility. There is ruined brick fort exists at this place. Numerous old coins have been discovered here.

Yahiapur

It is a place of pilgrimage for the Hindus. Here the temple of Bilkhar Nath stands among the ruins of Kot Bilkhar.

Besides the above mentioned places, Dahiawan and Dandpur are noted for blood shed during the mutinery. Shahpur is famous for a Dargah, a mosque , Qadam Rasul built during the reign of Akbar.

(xiii) Major Characteristics and Contribution of the District:

Pratapgarh district is mainly agricultural in nature. 94% of the population lived in rural are and more than 76% of the work force is engaged in agricultural activities size of land holdings in case of 67% of the farmers is below 0.5 hectare. Burden of population in respect of resources is more and very scanty network of industrialization has lesSened the per capita income in the district. Hindus, Muslims, Christans, Sikhs and Jains constitute community composition. They celebrates their festivals with enthusiasm and gaiety. Social life is in respect of property and living area for Hindus and Muslims are separate. Marriage and monads envisages with in their own caste. Despite dowry prohibition act it exist there. The tracts of widow marriage have not common in upper caste but member of SC/ST and other backwards classes is permitted. Similarly Muslims and Christians adopt widow marriage is usual circumstance. Rate of divorce is negligible as it is not permissible by law for Hindus but in case of Muslims it is very insignificant. Food habits pertain to local produced and living is influent by western culture even in the rural area. Social awareness has sharply increased from the older days and people are now proud to the levitate for better living.

On the political front and regarding freedom struggle contribution of the district. Jawaharlal Lal Nehru visited the district in 1920. He was followed by 200 kissans of Pratapgarh. Thakur Din Singh, Baba Ram Chandra, Shyam Sunder Shukla and Mata Badal, Mangla Prasad , Shiv Murti Singh fully participated in the freedom struggle. Lal Brijal Singh , of Kala Kankar and Mohan Lal Saxena also joined national movement against British in 1928. Lal Surge Singh and others dissuaded people of district by purchasing foreign cloths. Kunwar Man Singh, Raja Awdhesh Singh have also contributed in freedom struggle. The entire district was created to have participated activity in the freedom struggle.

(xiv) Scope of Village Directory & Town Directory Village Directory

The village directory as the title connotes presents information pertaining to rural areas of the district at C.D block/ village level. For each C.D. block a list of villages serialized by English alphabetical order along with their location code numbers of 2001 and 1991 census has been presented. The rational of giving 2001 location code along with 1991 location code is to facilitate the identification of villages for matching information collected at each Census. The villages which have been wholly merged in Nagar Nigam, Nagar Palika Parishad and Nagar Panchayat are not included in the list. In case of partly merged villages, the remaining rural part of the villages has been treated as independent revenue village and the data have been presented for such villages in the village directory.

However, the villages treated as outgrowth of an Urban Agglomeration or Nagar Panchayat is listed in the village directory but no data are presented against the name of such villages. All these villages are listed in the Primary Census Abstract (rural) without presenting their data for providing cross references. Uninhabited or depopulated villages are listed but only area of the village and land use pattern is given. A note against such a village indicates the state of its being depopulated or uninhabited.

The village directory brings out some basic information about a village. These data can broadly be classified into the following categories:

1.	Population and households	Cols.4 & 5
2.	Amenities.	Cols.6 to 13
3.	Other infrastructural facilities etc.	Cols.14 to 16
4.	Availability of news paper/ magazine	Column 17
5.	Commodities manufacture	Column 18
6.	Total area of village and land use pattern	Column 3 & 19-23

Town Directory :

The Town Directory covers all the towns in a district. The towns are arranged by English alphabetical order. The data are presented in seven statements serially numbered (I) to (VII).

The following mode of listing of towns has been followed:-

(i) All the towns having statutory status which are not part of an Urban Agglomeration are listed once in the alphabetical arrangement of the towns.

(ii) All the towns which are part of an Urban Agglomeration and enjoy independent status of a statutory town are listed twice in the alphabetical arrangement of the towns as well as under the main town of an Urban Agglomeration. However, the data are presented separately only once under the main UA. In alphabetical arrangement a note is given against such towns that they are part of such and such Urban Agglomeration.

(iii) The outgrowth(s) of a town which do not qualify themselves for being treated as independent town are not listed in the main body of the Directory. Against name/names of the town having outgrowth(s) an asterisk (*) has been placed to indicate that the town has outgrowth(s).

(iv) Census towns are also listed in the body of Directory. These are the towns which do not enjoy statutory status but are declared towns for the purpose of population Census.

Town Directories of the districts give an account of status and growth history of towns, location and physical aspects of the towns, municipal finances during 1998-1999, civic and other amenities up to 1999 (as well in notified slums), medical, educational, recreational and cultural facilities by year 1999, and trade, commerce, industry and banking activities in year 1999. In this way population and growth rates of towns from 1901 to 2001, density in 2001, sex-ratio during 1981, 1991 and 2001 censuses, rainfall and temperature of the towns, receipts and expenditures in the towns of the district, road length, system of sewerage, number of latrines, method of disposal of night soil, water supply position and fire fighting services, number of electric connections, number of hospitals, colleges, cinemas etc. and number of banks as well as commodities of manufactured and exports are enumerated vividly in various statements relating to the town directories of the districts.

PART - A
VILLAGE AND TOWN DIRECTORY
(SECTION I AND II)

Section - I : Village Directory

Section - I : Village Directory

Note explaining the abbreviations used in the village directory :

The "Village Directory" is one of the traditional compilations of the Census. It gives the list of villages, their location numbers, their area, population, number of households, amenities such as educational, medical, drinking water, post and telegraph, commercial and co-operative banks, agricultural non-agricultural and other credit societies, recreational and cultural facilities, communication, approach to village, nearest town with a distance, power supply availability of newspaper and magazines, most important commodity manufactured and land use of each village.

Village is a statutory recognized unit having a definite boundary and separate land records. In case, a complete village is treated as an outgrowth of urban agglomeration, data on amenities for that village, have not been given in the Village Directory but shown along with the urban component. The villages which are considered as a Census Town , their amenities data are shown in the Town Directory. For those villages which have partly merged in an outgrowth of U.A., the amenities data are shown in the Village Directory for that particular village.

The 'un-inhabited' villages (villages with no population) have been indicated as such after furnishing details in columns 1 to 3 i.e., Serial number, Name of village & location code number and area of the village against column no. 4 to 18. The land use data for such villages are shown in col. 19 to 23.

The Village Directory format has 23 columns and the details given under each column are for the village are as follows:-

Columns 1 : Serial Number

Self explanatory. All the villages within the CD Block are presented serially in the ascending order of their location code number.

Columns 2 : Name and Location Code Number of village.

The name and location code number of the village are shown against these columns. This also includes the forest and uninhabited villages.

Column 3 : Area of the village

The area of the villages in hectares are given. Wherever the area figures were not furnished by the concerned department the column is left blank.

Column 4 : Total population

The total population of the village as per 2001 Census is given against this column.

Column 5 : Number of households

The number of households as per 2001 Census is given in this column.

Amenities :

In column 6 to 23, availability in respect of different amenities such as education, medical, drinking water, post, telegraph, banks, credit societies, communication, power, approach road etc., in each village has been depicted with appropriate codes against the column concerned. Wherever the amenities are not available in the village, a dash(-) is shown in the column and next to it in brackets the distance in broad ranges viz.< 5 kms., 5-10 kms. and 10+ kms of the nearest place where the facility is available is given. Column wise details are given below :

Column 6 : Educational

Classes upto class V included in Primary School. This will include nursery school, kindergarten school. Pre-basic school, pre-primary school, junior basic school upto class V.

Classes from VI to VIII are included in the middle school.

Classes from IX and X included in High secondary school. Classes XI and XII are included in senior secondary school.

In case of composite schools like middle school with primary school or secondary school with middle school, these are also included in the number of primary and middle schools, respectively. Accordingly any of the following types of institutions if exists within the village is shown as per codes given below :

(i)	Primary School	P
(ii)	Middle School	M

(iii)	Secondary School	S
(iv)	Senior Secondary School	PUC
(v)	College	C
(vi)	Industrial School	I
(vii)	Training School	Tr
(viii)	Adult literacy class/centre	AC
(ix)	Others (specify) e.g. Sanskrit Pathshala, Senior basic school, Navodaya Vidyalaya, Makhtab, etc.	O

More than one institution of a type in the village is indicated by the number within brackets against the abbreviation, e.g. P(3), M(4), etc.

Column 7 : Medical

Availability of medical facility within the village is indicated by following codes :

(i)	Allopathic Hospital	H
	Ayurvedic Hospital	HA
	Unani Hospital	HU
	Homeopathic Hospital	HHom
(ii)	Allopathic Dispensary	D
	Ayurvedic Dispensary	DA
	Unani Dispensary	DU
	Homeopathic Dispensary	DHom
(iii)	Maternity & Child Welfare	MCW
(iv)	Maternity Home	MH
(v)	Child Welfare Centre	CWC
(vi)	Health Centre	HC
(vii)	Primary Health Centre	PHC
(viii)	Primary Health Sub-Centre	PHS
(ix)	Family Welfare Centre	FWC
(x)	T.B. Clinic	TB
(xi)	Nursing Home	NH
(xii)	Registered Private Medical Practitioner	RMP
(xiii)	Subsidised Medical Practitioner	SMP
(xiv)	Community Health Worker	CHW
(xv)	Others	O

More than one institution of a type in the village is indicated by the number within brackets against the abbreviations, e.g. H(3), D(4), etc.

Column 8 : Drinking Water

The type of the drinking water supply sources available within the village are indicated by codes as follows :

(i)	Tap Water	T
(ii)	Well Water	W
(iii)	Tank Water	TK
(iv)	Tubewell Water	TW
(v)	Handpump	HP
(vi)	River Water	R
(vii)	Canal	C
(viii)	Lake	L
(ix)	Spring	S
(x)	Others	O
(xi)	Summer Source	SS

Column 9 : Post, Telegraph and Telephone

It is indicated by codes as shown below whether within the village exists the following amenities:

(i)	Post Office	PO
(ii)	Telegraph Office	TO
(iii)	Post & Telegraph Office	PTO
(iv)	Telephone Connection	PH

Column 10: Commercial and Co-operative Banks

If the village is served by any banking service, commercial bank, co-operative bank etc. the same is indicated in codes mentioned below along with the number of banks in brackets. If not available the distance of nearest place where the facility exist is given:

(i)	Commercial Bank	CM
(ii)	Co-operative Bank	CP

Column 11: Credit Societies

If the village enjoys the services of Credit Societies i.e. Agricultural Credit Societies, Non Agricultural Credit Society or Other Credit Societies, the same is indicated in codes mentioned below along with the number of such societies in brackets. In case the facility is not available within the village the distance of the nearest place where such facility exist is given :

(i)	Agricultural Credit Society	ACS
(ii)	Non-Agricultural Credit Society	NCS
(iii)	Other Credit Society	OCS

Column 12 : Recreational and cultural facilities

If facilities such as Cinema/Video hall, Sports Club, Stadium/Auditorium is available in the village. The same is recorded in these columns. If not available the particulars of the nearest place with the facility is recorded. The information is indicated in codes mentioned below along with the number of such facilities in brackets:

(i)	Cinema / Video Hall	CV
(ii)	Sports Club	SP
(iii)	Stadium / Auditorium	ST

Column 13 : Communications

If the village is served by any mode of public / private transport like Bus, Railway station or Navigable water ways they are to be mentioned as follows:

(i)	Bus	BS
(ii)	Railway Station	RS
(iii)	Navigable Waterway	NW

Column 14 : Approach to village

Approach to village refers to the state of road leading to village. The approach to the village is indicated in following codes :

(i)	Paved Road	PR
(ii)	Mud road	MR
(iii)	Foot path	FP
(iv)	Navigable River	NR
(v)	Navigable Canal	NC
(vi)	Navigable waterways other than River, Canal	NW

Column 15 : Nearest Town and distance

The distance is given in kilometres in brackets against the name of the town nearest to the village.

Column 16 : Power supply

Availability of Power Supply in the village, whatever may be the form of its use is given by using following codes :

(i)	Electricity for domestic use	ED
(ii)	Electricity for agricultural use	EAG
(iii)	Electricity for other purposes	EO
(iv)	Electricity for all purposes	EA

Column 17 : Newspaper / Magazine

If village receives any News Paper/Magazines the same is noted in this column using following codes:

(i)	Newspaper	N
(ii)	Magazine	M

Column 18 : Most important commodities manufactured

The name of three most important commodities manufactured in the village is recorded against this column.

Column 19 to 23 : Land use i.e. area under different types of land use

Land use data maintained by the State/ UT Govts. are furnished against these columns. The data concerning area under Forest, Irrigated land (by source), Un-irrigated land, Culturable waste and Area not available for cultivation in the village are shown against these columns. The area figures are given in hectare(s) up to one decimal. Dash '-' is recorded wherever the information is not made available by the concerned department. The codes used for different types of irrigation facilities available in the village are indicated below:

(i)	Government Canal	GC
(ii)	Private Canal	PC
(iii)	Well (without electricity)	W
(iv)	Well (with electricity)	WWE
(v)	Tubewell (with electricity)	TW
(vi)	Tubewell(without electricity)	TWE
(vii)	Tank	TK
(viii)	River	R
(ix)	Lake	L
(x)	Waterfall	WF
(xi)	Others	O
(xii)	Total	T

The village directory also carries the following appendices.

Appendix-I	It gives the abstract of educational, medical and other amenities available in villages C D Block wise of the district.
Appendix-I-A	Indicates number of villages C D Block wise having one or more primary schools.
Appendix-I-B	Indicates number of villages C D Block wise having primary, middle and secondary schools.
Appendix-I-C	Shows number of villages C D Block wise with different sources of drinking water facilities.
Appendix-II	Indicates the list of villages with 5,000 and above population which do not have one or more important amenities.
Appendix-II-A	Indicates list of Census Towns which do not have one or more amenities.
Appendix-III	It gives the land utilization data in respect of Census Towns / non-municipal Towns.
Appendix-IV	C D Block wise list of inhabited villages where no amenity other than drinking water facility is available.
Appendix-V	Summary showing number of villages having or not having Scheduled Castes population.
Appendix-VI	Summary showing number of villages having or not having Scheduled Tribes population.
Appendix-VII A	List of villages according to proportion of Scheduled Castes to the total population by ranges.
Appendix-VII B	List of villages according to proportion of Scheduled Tribes to the total population by ranges.
Appendix-VIII	Indicates C D Block wise number of villages under each Gram Panchayat.
Appendix-IX	Shows number of different types of girls school in a village.

SECTION II
TOWN DIRECTORY

NOTE EXPLAINING THE ABBREVIATIONS USED IN THE TOWN DIRECTORY

Town Directory statements (I to VII)

Statement I : Status and Growth History

Column (2) : Class, name and civic administration status of town :

Class has been introduced to facilitate analysis of town directory data at the state and all India levels. It is presented according to 2001 Census Population of the town as follows :

Population	Class
100,000 and above	I
50,000 - 99,999	II
20,000 - 49,999	III
10,000 - 19,999	IV
5,000 - 9,999	V
Below 5,000	VI

Town with a population of one hundred thousand (1,00,000)and above is treated as a city.

The civic administration status of the towns is indicated within bracket against the name of the town. The following abbreviations are used to denote civic status of town.

(I)	Municipal Corporation	M. Corp.
(II)	Municipal Committee	MC
(III)	Municipal Council	M Cl
(IV)	City Municipal Council	CMC
(V)	Town Municipal Council	TMC
(VI)	Municipal Board	MB
(VII)	Municipality	M
(VIII)	Cantonment Board/Cantonment	CB
(IX)	Notified Area	NA
(X)	Notified Town	NT
(XI)	Notified Area Committee/ Notified Area Council	NAC
(XII)	Notified Town Area	NTA
(XIII)	Industrial Notified Area	INA
(XIV)	Industrial Township	ITS
(XV)	Township	TS
(XVI)	Town Panchayat	TP
(XVII)	Nagar Panchayat	NP
(XVIII)	Town Committee/ Town Area Committee	TC
(XIX)	Small Town Committee	ST
(XX)	Estate office	EO
(XXI)	Gram Panchayat	GP
(XXII)	Census Town	CT

Others columns need no comments.

Statement II - Physical Aspects and Location of towns, 1999.

Column 3 to 5 : Physical Aspects

In this columns the Rainfall and Maximum & Minimum Temperature of the town is recorded.

Column 6, 7 and 8 :

Name of the State headquarters, District headquarters and Sub-Divisional headquarters with distance from the referent town in kilometers, is to be recorded respectively. If the names mentioned in these columns are the same as the referent town itself, the distance is recorded as (0) zero.

Column 9& 10 :

Name of the nearest city with one lakh and more and five lakhs and more population are recorded.

Column 11, 12 and 13 :

If referent town enjoys the facility of railway station, bus route facility or navigable river/canal. Its name is to be mentioned. If not available, then the name of nearest place with distance, where such facility exists is to be mentioned.

Statement III : Municipal Finance 1998 – 1999

Item-wise amount of receipt and expenditure in thousand rupees, relating to municipal finance of the town for the year 1998-99 is to be recorded.

Statement IV : Civic and Other amenities, 1999

Column (1 to 5) : Self explanatory.

Column (6) : Road length (in kms.)

Information about kutcha / pucca road is to be recorded separately for the roads within the limits of the referent town.

(i)	Pucca Road	PR
(ii)	Kutcha Road	KR

Column (7) : System of Sewerage

Generally, by sewerage system is implied the network of mains and branches of underground conduits for the conveyance of sewerage to the point of disposal. Sewers that carry only household and industrial wastes are called separate sewers, those that carry storm water from roofs, streets and other surface are known as storm water drains, while those carrying both sewage and storm water are called combined sewers.

The codes used for different types of drainage system are as follows :

(i)	Sewer	S
(ii)	Open Surface Drains	OSD
(iii)	Box Surface Drains	BSD
(iv)	Sylk Drains	SD
(v)	Cesspool method	CP
(vi)	Pit System	Pt
(vii)	Others	O

Column 8 to 11 : Number of latrines

Number of various types of latrines both Public and Private are given in these columns.

Column 12 : Method of disposal of night soil

The various prevalent method of disposal of night soil are given below with codes :

(i)	Head Loads	HL
(ii)	Basket	B
(iii)	Wheel Barrows	WB
(iv)	Septic Tank	ST
(v)	Pit System	Pt
(vi)	Sewerage	S
(vii)	Others	O

Column 13 and 14 : Water supply

Source and capacity of storage system. The following codes are used in these columns :

Column 13:

(i)	Tap water	T
(ii)	Tube-well water	TW
(iii)	Tank Water	TK
(iv)	Well water	W

Column 14:

(v)	Over Head Tank	OHT
(vi)	Service Reservoir	SR
(vii)	River Infiltration Gallery	RIG
(viii)	Bore Well Pumping System	BWP
(ix)	Pressure Tank	PT

The information on major source of water supply are given in column 14 and the storage capacity against each in kilo-litres (in bracket) are presented in column 15.

Column 15 : Fire Fighting Service

In case the fire fighting service is available in the referent town 'yes' is recorded. If the facility is not available within the town. The name of the nearest place having this facility with its distance from the referent town has been recorded.

Column 16 to 20 : Electrification (Number of connections)

Different types of electric connections have been shown in these columns, i.e. Domestic, Industrial, Commercial, Road lighting (points) & others.

Statement V : Medical, Educational, Recreational and Cultural Facilities, 1999

Column 1 to 3 : Self explanatory.

Column 4 & 5 :

The data covers all such medical institutions run by or aided by Government/Semi Government/Local bodies and Charitable institutions or Social agencies like the Missionaries. Where the family planning centres are attached to hospitals or maternity and child welfare centres or Primary Health Centres, may be treated as independent units and counted separately using following codes :

(i)	Hospital	H
(ii)	Dispensary	D
(iii)	Health Centre	HC
(iv)	Family Welfare Centre	FWC
(v)	T.B. Clinic	TB
(vi)	Nursing Home	NH
(vii)	Others	O

In case of more than one institutions of any type, it is indicated within brackets the number of such institution (s) e.g. D(3), NH(8), etc. The institutions have further been distinguished by providing additional codes within the bracket as given below :

(i)	Ayurvedic	A
(ii)	Unani	U
(iii)	Homoeopathic	Hom.

Column 6 to 9 :

The codes used for these columns are as follows:

(i)	Arts only	A

(ii)	Science only	S
(iii)	Commerce only	C
(iv)	Arts & Science only	AS
(v)	Arts & Commerce only	AC
(vi)	Combined for all categories-Arts, Science and Commerce	ASC
(vii)	Law	L
(viii)	University	U
(ix)	Others	O

Column 10 : Recognized shorthand, typewriting and vocational training institutes

"Recognised" should mean recognised by some statutory authority, like education department, commerce department, labour department etc. of the government or semi government or autonomous bodies, public sector undertakings etc..

The following codes are used :

(i)	Vocational Training Institute	VT
(ii)	Shorthand	SH
(iii)	Typewriting	Type
(iv)	Shorthand & Typewriting	SH Type
(v)	Others	O

The vocational institutions like - Applied Art/Painting college, Pharmacy college, B. Ed. College, Teacher's Training Institute, Music / Dance School, Nursing School etc. are covered under 'Others'.

Column 11 to 14:

Higher Secondary / Intermediate / Senior Secondary / PUC / Junior College level, Secondary / Matriculation, Middle Schools / Junior Secondary and Primary Schools.

School up to class V are treated as Primary or elementary schools. These include Nursery schools, Kindergarten schools, Pre-Primary schools, Junior Basic schools up to class V and Primary schools up to class IV.

Schools up to VIII are considered as Middle school or Junior Secondary.

Schools up to class X are considered as

Matriculation or Secondary schools. Schools up to XI or XII classes are considered as Higher Secondary / Intermediate / Pre University /Junior College etc. This would cover 10+2 classes whether held in schools or college.

If there are composite schools like middle schools with primary classes or Secondary schools with Middle classes, these are also included in the number of Primary and Middle schools, respectively. For example, if in a town, there are two Primary Schools and one Middle school with Primary classes, the number of Primary schools in the town is given as three and that of Middle schools as one though there are only three educational institutions.

If there are more institutions of a type in the town, the number is indicated within bracket along with the abbreviation, e.g. P(4), M(3).

Column 15 : Adult literacy class/centres

This column has been introduced keeping in view the Minimum Needs Programme of the Planning Commission. There are number of Adult Education Centres which are included in these columns.

If an educational facility is not available in the town, the name of the nearest place and its distance in kilometres from the town where the facility is available is mentioned.

Column 16 : Working Women's hostels with number of seats

The number of working women's hostel if available in the referent town is mentioned with number of seats. If the facility is not available in the town the name of nearest place with distance where the facility is available is recorded.

Column 17 to 19 : Recreational and Cultural Facilities

Stadium, Cinema, Auditorium/Drama/Community Hall are covered under recreational & cultural facilities. The particulars of permanent recreational facilities are considered for these columns.

Column 20 : Public Libraries, Reading Rooms

Number of public libraries and reading rooms available in the referent town are recorded in codes as follows :

(i) Public Library PL

(ii) Reading room RR

Statement VI : Trade, Commerce, Industry and Banking, 1999

Column 3 to 8 :

Name of three most important commodities exported and names of three most important commodities manufactured in the town are recorded.

Column 9 : **Number of Banks**

Number of Banks available in the referent town both Commercial and Co-operative banks are recorded against this column.

Column 10 & 11 : **Number of Agricultural Credit Societies and Non Agricultural Credit Societies**

The total number of Agricultural Credit Societies and Non Agricultural Credit Societies in the referent town are recorded against these columns.

Statement VII : Civic and other Amenities in Slums, 1999

This is the statement on civic and other amenities in all slums whether notified or not and for all towns having statutory bodies, like municipality, Municipal Corporation, Town area committee etc.

PART B
PRIMARY CENSUS ABSTRACT

Brief note on Primary Census Abstract

The first census of the third millennium and twenty first century the Census of India, 2001 was the 14th continuous and uninterrupted Indian census since 1872. Thus, 2001 Census will provide data on population and its characteristics marking transition from one century and millennium to another.

The gigantic operation of Population Enumeration (considered by many to be the single largest and complex peace time administrative exercise in the world) was made possible due to the door to door universal canvassing of the Household Schedule by about 2 million enumerators and supervisors covering 593 districts, 5,463 sub-districts, 5,161 towns and 638,588 villages. The comprehensive Household Schedule which replaced the individual slip had three parts and two sides A and B. Part I contained the Location Particulars; Part II related to the Individual Particulars and Part III contained questions for Household engaged in Cultivation/Plantation. The part II of the Household Schedule had 39 columns and 23 questions all of which were universally canvassed and no sampling was resorted to during enumeration.

Data Processing

A quantum leap was made in the technology front while processing the Census 2001 data both for House-listing and Population Enumeration. The Census schedules for both the phases were scanned through high speed scanners in fifteen data centers across the country and hand-written data from the schedules were converted into digitized form through Intelligent Character Reading (ICR) software for creation of ASCII records for further processing. The designing and formatting of the Household Schedule had to be done very carefully using specialized software so as to ensure uniformity, which was an essential pre-requisite for scanning. The selection of appropriate state-of-art technology in data processing has made it possible to produce all the Houselisting as well as Population Enumeration tables on full count basis for the first time in the history of Census. For Census 2001, about 202 million schedules consisting of about 1,028 million records were scanned and processed within a span of only 10 months starting October, 2002.

Task Force on Quality Assurance

After the data is processed, it is expedient on the part of the data producing agency to satisfy itself about its quality before putting the same in public domain. This has to be done mainly through the process of internal consistency, comparison with similar data in the past and also through validation with likewise data if available, from external sources. Quite often the local knowledge and perception has to be brought into play to understand both the existing and the new emerging trends of population distribution and characteristics. The other very important aspect of the data quality is to ensure complete coverage of all geographical areas especially for the population enumeration phase where the data is disseminated right up to the village level in the rural areas and the ward level in the urban areas. Thus ensuring the complete

coverage and correct geographical linkage of each enumeration block was one of the major planks of the quality control, specially for small area population statistics.

A very comprehensive check and edit mechanism was put in place to objectively examine the preliminary Census 2001 Population Enumeration results and finally clear them for use. The responsibility of the final clearance of data was with the Task Force on Quality Assurance (TFQA), headed by the Registrar General and Census Commissioner, India. The other members of the TFQA were the Heads and senior officers of the Census Division, Data Processing Division, Map Division, Demography Division and Social Studies Division. The Directors of Census Operations were co-opted as members whenever the TFQA discussed the data for their States/Union territories. The Directors and their senior officers were required to make detailed presentations of data for their own state both in respect to the quality and the coverage and only after the full possible cleared.

There has been a major departure in Census 2001 from the past in respect of the procedure followed for finalization of the Scheduled Castes and the Scheduled Tribes population. In the earlier censuses, the total Scheduled Castes and Scheduled Tribes populations were finalized at the time of the manual compilation of the Primary Census Abstracts (PCA) at the Regional Tabulation Offices which were specially set up for this purpose. The individual Scheduled Castes and the Scheduled Tribes population for each state was finalized much later based on manual coding done by the coders. In 2001 Census, each individual Scheduled Caste and the Scheduled Tribe have been coded directly on the computers by the Data Entry Operators through a process known as Computer Assisted Coding (CAC) and taken up along with the processing of PCA data. The CAC process involves pulling down, from the relevant dictionary of the Scheduled Castes and the Scheduled Tribes, on the computer screen and coding from the dictionary by referring to the image of the specific individual entry in the Household Schedule appearing on the screen. The CAC of the response on Religion wherever required, was also undertaken along with the processing of PCA. This is because the Scheduled Castes status had to be determined in relation to the religion of the individual. Two Special Task Forces, one on Religion and the other on Scheduled Castes/Scheduled Tribes were constituted for scrutiny and appropriate classification of these responses.

The main task of the Special Task Force on Religion was to appropriately merge or group the new responses encountered and code it into the appropriate religious community based on available literature and local knowledge. The Special Task Force on Scheduled Castes and Scheduled Tribes examined the different Scheduled Castes and Scheduled Tribes entries encoun-tered and classified these into appropriate category of the Scheduled Castes or the Scheduled Tribes principally based on the Presidential Notification and the available literature. Thus a very systematic and scientific mechanism was operationalized to firm up the individual religion and the individual Scheduled Castes/Tribes returns. The Scheduled Castes and the Scheduled Tribes population in 2001 Census, is thus being finalized by

aggregating the population data for individual Scheduled Castes and the Scheduled Tribes at appropriate geographical levels.

The entire work relating to the data validation and scrutiny was completed by all the States/Union Territories under the overall supervision and monitoring of the Census Division of the Office of the Registrar General, India with active cooperation and support of the Social Studies Division, Data Processing Division, Data Dissemination Division and Map Division.

Primary Census Abstract

The Primary Census Abstract which is yet another important population of 2001 Census gives basic information on Area, Total Households, Total population, Scheduled Castes, Scheduled Tribes population, Population in the age group 0-6, Literates, Main workers and Marginal workers classified by the four broad industrial categories, namely, (i) Cultivators, (ii) Agricultural laborers, (iii) Household Industry Workers, and (iv) Other workers and also Non-workers. The characteristics of the Total Population includes Scheduled Castes, Scheduled Tribes, Institutional and Houseless population and are presented by sex and rural-urban residence. This data is presented at different levels, namely, India, States/Union territories, Districts and Cities, Urban Agglomerations (Population 1,00,000 and above) in three different tables. In addition, the Appendix of said publication provides Houseless and Institutional Households and their population by residence and sex for 2001 for India, State and Union territory.

Apart from the India and State/Union Territory volumes for Primary Census Abstract, the District Census Handbook contains District Primary Census Abstract, Appendix to District Primary Census Abstract, Primary Census Abstract for Scheduled Castes, Primary Census Abstract for Scheduled Tribes, Village Primary Census Abstract and Urban Primary Census Abstract of the concerned district in the state.

It was for the first time at the 1981 Census that the Primary Census Abstract (PCA) was brought out for the Scheduled Castes and the Scheduled Tribes separately on the pattern of General Primary Census Abstract. This practice was continued in 1991 also. In the 1961 and 1971 Censuses, such data were made available in Table C-VIII-Social and Cultural table and to some extent in the series 'Special Tables for Scheduled Castes/Scheduled Tribes'.

The format of Primary Census Abstract has been restructured slightly in the 2001 Census as compared to that of 1991 Census. The nine-fold industrial classification of main workers given in the Primary Census Abstract of 1991 Census has been discontinued and its place, four-fold industrial classification of both 'main workers' and 'marginal workers' are included. In 1981 census only main workers were presented in to four categories. One of the novel features of the primary census abstract of 1991 census was the presentation of data of the population of age group 0-6 is continued in 2001 Census also. This will help the data users in better analysis and understanding of this literacy data.

Level of presentation in District Census Handbooks:

The Primary Census Abstract data in different PCAs are presented at different levels. The level of presentation of Primary Census Abstracts are as under:

The PCA Data for villages was presented CD Block wise for the first time in 1991 Census. This practice is continued in 2001 Census also. The data for each CD Block is presented both for rural and urban areas separately. All the villages within the CD Block constitute the rural portion and the Census Towns and Outgrowths are shown under the urban portion of the CD Block. In case a CD Block is spread over two or more districts, than portion which falls within the district is presented, the data pertaining to remaining portion of the CD Block is presented in the concerned District Census Handbook. The data in the Urban Primary Census Abstract for each town as well as for town with outgrowths in the district are presented. The data for all the wards and the outgrowths of the town(s) are also presented separately below the concerned town(s).

The District Primary Census Abstract is presented in 59 columns. The Primary Census Abstract for Scheduled Castes and Primary Census Abstract for Scheduled Tribes are presented in 52 columns. The Village Primary Census Abstract and Urban Primary Census Abstract are presented in 58 columns.

The concepts and definitions used in the column heading are explained under the sub heading 'Census Concepts' in the Analytical Note. The term 'Total Population' includes the Scheduled Castes, the Scheduled Tribes, the Institutional and the Houseless populations. The explanation regarding area figures presented at various level in the Primary Census Abstracts are as follows:

Area Figures

The area figures supplied by local revenue authorities of the district in respect of tehsils, Police Stations and by the local bodies in respect of towns are given in square kilometers. The area figures of the villages supplied by the Tahsildars in acres have been converted and shown in hectares. The area figures of the CD Block is the total of the village areas coming under each CD Block. The area figures for the district are the same as adopted by the Surveyor General of India to maintain uniformity at the national level. The total area figures of all the tahsils/CD Blocks within the district may not tally with area figures of the district because former represents land use area only. Similarly, the total of all the villages may not tally with the entire rural of Police Station/Tahsil. The difference may be due to the fact that while the area covered by hills, forests and rivers etc, have been accounted in the Tahsils and P.S. level the same may not be covered under the area of the villages. Apart from this it may also differ due to varying methods of computation adopted at different levels.

An appendix to District Primary Census Abstract has also been furnished showing urban enumeration block-wise particulars on Total Population, the Scheduled Castes Population and the Scheduled Tribes Population for each town.

District Primary Census Abstract

ANNEXURE - I
NUMBER OF VILLAGES UNDER EACH GRAM PANCHAYAT

Not provided for this district.

ANNEXURE - II
Fertility and Mortality 1991 Census

The three factors affecting the population size of the district are fertility, mortality and migration. These concepts are explained in detail under the caption Census and Non- Census Concepts and Definitions in the Analytical Note portion. One major aspect of consideration under mortality is infant and child mortality. Migration may be perceived as percentage distribution of migrants by place of birth and/or place of last residence. At the 1991 Census the district was part of Uttar Pradesh, which in north –central India, is still the country's most populous state even after carving out of Uttaranchal in year 2000.The population of the UP state was 139 million at the 1991 Census, which accounted for 16 % of India's total population. It grew by 25% between 1981 and 1991 largely as a result of high fertility, the highest of any Indian state.

The child mortality indicators at the 1991 Census in the district and the State was as following:

Child Mortality Indicators in the State and the District

Indicator	Persons/Males/Females	UP*	Pratapgarh
q1	Persons	99	111
	Males	98	117
	Females	104	105
q2	Persons	117	124
	Males	117	121
	Females	118	134
q5	Persons	134	147
	Males	135	136
	Females	132	159

(*Undivided Uttar Pradesh at 1991 Census)

2	TFR		5.60	5.58
3	TMFR		6.30	6.05
4	GFR		172	171
5	GMFR		200	191
6	Mean age at marriage (1981-91)		17.27	17.06
7	Number of children ever born per ever married woman aged 45-49 years		4.59	4.77
8	Child woman ratio 0-4		631	594
	5-9		752	724
9	Child mortality indicator			

Source: (i) Estimates of fertility indicators Uttar Pradesh Table # 2.23
(ii) District Profile Uttar Pradesh 1991.

Measures of fertility is an important component to describe fertility and mortality rate of any area. The table reveals that the Crude Birth Rate (CBR), which is the ratio of the number of live births in a year to the mid year population, is 39.11 percent in the district. It is below to the state of Uttar Pradesh i.e. of 37.21 percent. In respect of Total Fertility Rate (TFR), Total Marital Fertility Rate (TMFR), General Fertility Rate (GFR) and General Marital Fertility Rate (GMFR), the district presents all along a lower proportion from the state figures. The mean age ate marriage during the period 1981-91 has been 17.27 years for the state where as 17.06 years has been observed for the district. Higher trend is observed in the number of children born per ever married women in the age group 45-49. The state and the district figures are placed as 4.59 and 4.77 percent respectively. Number of children in the age group 0-4 and 5-9 years per one thousand women in the age group 15-49 has been calculated to 594 and 724 for the district while in case of the state the corresponding figures are 631 and 752. The various measures of fertility presents that fertility levels as such are below to the state average. Another important factors i.e. the probability of dying between birth and at age 1,2,5 has been of higher order in the district both for male and female in the district.

	100.0	100.0	100.0	83.0	56.5	88.7	16.9	43.3	11.3	0.1	0.2	0.0

The annexure presented above shows percentage distribution of in-migrants as per the 1991 and 2001 Census amongst the total migrants in the state and district. There are two type of in-migration in the district such as in-migration by place of birth (in which a person is enumerated during the census at a place other than place of birth) and in-migration by place of last residence (a person is enumerated during the Census at other than his place of last residence). The comparison between 1991 Census and 2001 Census reveals that among the total migrants the proportion of in-migrants within the state (from other districts of state) was 81.3 percent and 79.6 percent respectively. The corresponding figure for the district was 93.8 in 1991, while in 2001 it was 91.1 percent respectively. The proportion of in-migrants from other states was 16.2 percent at state level during 1991 Census, whereas it rose to 19.3 percent in 2001. The district level figure was 6.1 percent and 8.8 percent respectively. This shows in-migration from other states to this district was slightly increased in 2001 in comparison to 1991. At district level in-migration from other countries was 0.1 percent in 1991 and 0.1 percent in 2001. While at state level figures were 2.5 percent and 1.1 percent during 1991 and 2001 Census respectively.

In respect of in-migrants by place of last residence, it is evident that in-migrants from other districts of the state amongst total migrants, constituted 79.6 percent in 1991, while it was recorded 74.1 percent in 2001 at state level. District level figures were 89.2 percent and 83.0 percent during 1991 and 2001 Census respectively. The percentage of in-migrants from other states worked out to be 18.9 in 1991 and 25.2 percent in 2001 at state level, whereas district figures for both the Censuses were 10.7 percent and 16.9 percent respectively. The movement of population from other countries in the district was 0.1 percent in 1991 and 0.1 percent in 2001, while state level figures were 1.5 percent and 0.7 percent respectively.

Annexure-V presents composition based on religions at the state, district and tahsil level. If we compare the data for 1991 and 2001 Census, we find that demographic pattern based on religions is almost same in both Censuses at the state level. Hindu religion predominates with 81.7 percent population in 1991 and 80.7 percent in 2001 followed by Muslim which were 17.3 and 18.5 percent respectively. Against this, district figure for Hindu religion were 86.6 percent in 1991 and 85.8 percent in 2001, while Muslim were 13.3 percent in 1991 and 13.7 percent in 2001. Rest of the four religions i.e. Buddhist, Christian, Jain and Sikh alongwith combined population of other religion had insignificant proportion which was less than one percent of total population for each religion. Similar trend is visible for state, district and at tahsil level in 1991 as well as 2001 Census.

Annexure-VI deals with marital status of different age groups of population. On perusal of the annexure for state and district for two respective Census in the years 1991 and 2001, it is evident that, for all ages the percentage of never married is higher than proportion of married for state and at the district level also. Percentage of never married has increased from 54.4 percent male and 45.9 percent female in 1991 to 57.5 percent male and 48.9 percent female in 2001 at state level, while it rose marginally in the district from 52.6 percent male and 43.1 percent female to 56.2 percent male and 47.3 percent female. Percentage of married male and female shows declining trend in comparison to 1991 from 43.8 percent male and 52.0 percent female to 56.2 percent male and 47.3 percent female. Percentage of married male was 42.4 percent and female was 49.4 percent in 1991 and in 2001 it was 40.6 percent male and 48.1 percent female. Percentage for widowed persons at state level was 3.0 percent male and 4.6 percent female in 1991 and in 2001 it was 2.6 percent male and 4.8 percent female. At district level in 2001 it was 3.0 percent male and 4.7 percent female while it was 3.5 percent male and 4.7 percent female in 1991 Census. Percentage of divorced and Separated remained constant at 0.1 percent for male and female in state and district level during 1991 and 2001. None person was recorded in the category of Unspecified marital status in state and district during 2001 Census. Among the age groups, the proportion is in the descending order for never married and ascending order for widowed. The trend for married is pyramidal the peak being between 25-29 and 45-49 (years) age-groups.

Age and sex wise education in the state and district has been presented in the Annexure - VII. From the annexure it can be observed that percentage of illiterates has declined from 55.3 percent male and 80.0 percent female in 1991 to 44.2 percent male and 65.9 percent female in 2001 at the state level. Consequently percentage of literates has increased in all educational levels. Percentage of literates without educational level was 2.0 percent male and 0.7 percent female in 1991 at state level, which increased to 2.8 percent male and 2.1 percent female in 2001. Similarly primary level education was 10.7 percent male and 6.1 percent female in 1991 and percentage for male and female rose to 16.0 and 11.5 respectively in 2001. Middle level education was 9.8 percent male and 3.7 percent female in 1991 which increased to 13.8 percent male and 7.1 percent female in 2001. Matriculation and above level was 13.5 percent male and 4.4 percent female in 1991 which was 20.4 percent male and 9.0 percent female in 2001.

Similar trend can be observed in the district also. Illiterates were 52.3 percent male and 89.5 percent female in 1991 which declined to 40.4 percent male and 66.0 percent female in 2001. Primary level education was 12.0 percent male and 5.8 percent female in 1991, which was 17.8 percent male and 12.7 percent female in 2001. Middle level education was 10.0 percent male and 3.0 percent female in 1991 and 13.8 percent male and 7.1 percent female in 2001. Matriculation and above level of education was achieved by 13.5 percent male and 2.4 percent female in 1991 which was 20.4 percent male and 9.0 percent female in 2001. Primary level of education was highest in the age-group 7-14 in 2001; while middle level education was highest in 15-19 and the age group that had highest percentage of matriculation and above level of education was 20-24 (years).

Total Of Other Mother Tongues
11
791
0.0

Note: For state level only first 28 mother tongues and at district level only those mother tongues are shown in the table whose proportion is greater that 0.02 percent. The remaining tongues have been merged in the column of "Total of other mother tongue".

Annexure-VIII presents distribution of population according to different mother tongues with percentage for the state and the district. There is identical trend for Census of 1991 and 2001 as the highest percentage of the people reporting Hindi as the mother tongue (82.1 percent in 1991 and 83.1 percent in 2001). This trend is visible for the district as well. The district reported Hindi as mother tongue for 95.0 percent person in 1991 and 87.7 percent in 2001. Urdu returned as second largest spoken mother tongue as 9.0 percent was recorded in 1991 and 8.0 percent at the state level whereas 4.5 percent and 7.8 percent at district level in 1991 and 2001 Census respectively. Persons speaking other languages as mother tongue were very small in number in both the state, and district, in both Censuses.
