MOTIF

DEVI PATAN TEMPLE

Temple Devi Patan located at a short distance towards west of Tulsipur on way to Chandharydih is a place of great antiquity and is connected with Karn of Mahabharat. It is also one of the oldest seat of shakta cult in the northern India. As per the legends it is said that Bikramaditya, who had been identified with Chandra Gupta-II restored the dilapidated structure temples of Ayodhya. Devi Patan temple, Tulsipur was erected by Chauhan rajas of Tulsipur, bearing a Nagri inscription in which the name of Gorakhnath appears.

The temple is situated on a large heap of bricks and there is a tank and well close by which is since ancient time. A fair is held at the temple of Devi Patan from the 1st to the 9th day of the Shukla Paksh (first fortnight of the month when moon is bright) of Chaitra and attracts lakhs of pilgrims and traders.

Annexures - I To VIII

Annexure I	Number of villages under each Gram Panchayat	555
Annexure II	Fertility and Mortality, 1991 Census	555
Annexure III	Various measures of fertility and mean age at marriage, 1991 Census	556
Annexure IV	Percentage distribution of Migrants by place of birth/place of last residence, 1991 Census	557
Annexure V	Brief account of main religions in the district/tahsil as per 1991 Census	559
Annexure VI	Marital status of population as per 1991 Census	561
Annexure VII	Age, Sex and Education in the district, 1991 Census	566
Annexure VIII	Distribution of different mother tongues returned in 1991 Census	570

FOREWORD

The District Census Handbook (DCHB) published by Census Organisation since 1951 census, is one of the important publications in the context of planning and development at gross-root level. The publication, which is brought out for each district, contains several demographic and socio-economic characteristics village-wise and town-wise of the district alongwith the status of availability of civic amenities, infrastructural facilities, etc.

2. The scope of the DCHB was initially confined to a few Census Tables and Primary Census Abstract (PCA) of each village and town within the district. Thereafter, at successive censuses, its scope and coverage has been enlarged. The DCHB published at the 1961 census provided a descriptive account of the district, administrative statistics, census tables and a village and town directory including PCA. The 1971 census-DCHB series was in three parts: Part-A related to village and town directory, Part-B to village and town PCA and Part-C comprised analytical report, administrative statistics, district census tables and certain analytical tables based on PCA and amenity data in respect of villages. The 1981 census DCHB was in two parts: Part-A contained village and town directory and Part-B the PCA of village and town including the SCs and STs PCA up to tahsil/town levels. New features alongwith restructuring of the formats of village and town directory were added into it. In Village Directory, all amenities except electricity were brought together and if any amenity was not available in the referent village, the distance in broad ranges from the nearest place having such an amenity, was given. Information on new items such as adult literacy centres, primary health sub-centres and community health workers in the village were provided so as to meet the requirements of some of the Revised Minimum Needs Programme. Information on approach to the village was provided for the first time in the Village Directory so as to give the details on number of inaccessible villages in each district. In the Town Directory, a statement (IV-A) on slums was introduced to provide the details on civic and other amenities in the notified slums of Class I and Class II towns.

3. The 1991 census DCHB, by and large, followed the pattern of presentation of 1981 census, except the format of PCA was restructured. Nine-fold industrial classification of main workers was given against the four-fold industrial classification presented in the 1981 census. In addition, sex-wise population in 0-6 age group was included in the PCA for the first time with a view to enable the data users to compile more realistic literacy rate as all children below 7 years of age had been treated as illiterate at the time of 1991 census. One of the important innovations in the 1991 census was the Community Development Block (CD block) level presentation of village directory and PCA data instead of the traditional tahsil/taluk/PS level presentation. It was expected that the presentation of village directory and PCA data at CD block level will help the planners in formulation of micro level development plans, CD block being lowest administrative unit.

4. The present series of 2001 census DCHBs have been made more informative and exhaustive in terms of coverage and content. The Village Directory has been enlarged in scope by including a number of other facilities like banking, recreational and cultural facilities, newspapers and magazines and 'most important commodity' manufactured in village. Income and expenditure of gram panchayat, wherever possible, has been provided. Apart from these, more details on distance(s) at which basic amenities are available (if not available in the village), are given. This includes educational facilities (namely primary and middle schools and college), medical facilities (viz. Allopathic Hospital, Maternity & Child Welfare Centre and Primary Health Centre), drinking water, post & telegraph (post office and phone), communication, bank, credit societies and recreational facilities. In Town Directory, the statement on Slums has been modified and its coverage enlarged by including

details on all slums instead of 'notified slums'. The information is given in case of all statutory towns irrespective of their class, against only Class I and Class II towns in the 1981 and 1991 censuses. The basic amenities available in the villages and towns are analysed in depth with the help of a number of cross-classified inset tables and statements. Two other significant additions in the publication are inclusion of 'motif' highlighting significant characteristic of the district and analytical notes as annexures. The analytical notes on (i) fertility and mortality and (ii) various measures of fertility and mean age at marriage are prepared based on 1991 Census. Whereas, in the notes relating to (i) percentage distribution of migrants by place of birth/place of last residence, (ii) main religions, (iii) marital status of population, (iv) age, sex and education, and (v) distribution of spectrum of mother tongue, nature and extent of changes occurred in the district in its basic socio-demographic features during the decade 1991-2001 are analysed. The eight digits permanent location code (PLCN) to all the villages and towns have been assigned keeping in view the future needs.

5. The village and town level amenity data have been collected, compiled and computerised in prescribed record structure under the supervision of Dr. Ranvir Singh, Director of Census Operations, Uttar Pradesh. Thereafter, efforts have been made to ensure comparability of the information with that of 1991 census data and the information brought out by the respective state governments in their annual reports and statistical handbooks for various years after 1991. The task of planning, designing and coordination of this publication was carried out by Shri R.G. Mitra, Deputy Registrar General (C&T) and Dr. I.C. Agrawal, Senior Research Officer of Social Studies Division. Dr. R.P. Singh, Deputy Registrar General (Map) provided the technical guidance in the preparation of maps. Whereas, Shri Anil Kumar Arora, Deputy Director of Data Processing Division who worked under the overall supervision of Shri Himakar, Addl. Director (EDP) helped in preparation of record structure for computerisation of village and town directory data and the programme for the generation of Village Directory and Town Directory statements including analytical inset tables. The draft DCHB manuscripts received from the Census Directorates have been scrutinised in the Social Studies Division under the guidance of Shri S.L. Jain, Deputy Director and Shri R.K. Mehta, Assistant Director. I am thankful to all of them and others who have contributed to make this publication possible.

D.K. Sikri
Registrar General &
Census Commissioner, India

New Delhi
Dated: 17.10.2006.

Preface

The District Census Handbooks (DCHBs) are brought-out in two parts giving village and town wise data for each district. The first part contains non-census data for each village and town and is called Village and Town Directories Part A. The Part B provides Census data for rural area up to the village level and for urban areas up to ward level for each town or city in the shape of Primary Census Abstract (PCAs). The information contained in Primary Census Abstract and Village and Town Directory (VDs/TDs) has already been released for data users in soft copy. Data available in District Census Handbooks are very useful for policy planners, Administrators, Researchers and other socio-economic research centers. Till 1991 Census, all the inset tables included in District Census Handbooks were produced manually. But this time the software designed by the Data Processing Division of the Office of the Registrar General, India helped in the fast generations of tables.

I am deeply grateful to Shri J.K. Banthia, Ex-Registrar General and Census Commissioner of India for his guidance and support. I would like to thank Shri D.K. Sikri, Secretary, Registrar General and Census Commissioner of India for his sustained support and spontaneous, unfailing guidance through our endeavours. At the outset I thank to Shri R.C. Sethi. Additional Registrar General, India, who drove us to complete the District Census Handbooks within a specific timeframe and make it ready for printing.

I thank to Shri R.G. Mitra, Ex. Deputy Registrar General (C&T), Shri R.P. Singh, Ex. Deputy Registrar General (Map), Dr. I.C. Aggarwal, Ex. Assistant Registrar General (SS) of the office of Register General, India for their guidance at each steps in the preparation of District Census Handbook. Special thanks are due to Shri S.L. Jain, Deputy Director (Social Studies) and Shri Anil Kumar Arora, Deputy Director (EDP), without their untiring efforts and support we could not have completed the District Census Handbook within this time.

The Director of Census Operations, Uttar Pradesh, Dr. Ranbir Singh, under whose guidance, the entire operations were carried out deserves all credit for its success, but he was repatriated to the State Government for taking up some other important assignments before the volume could be made available for the printing. I am also thankful to Shri R. K. Singh, Ex-Joint Director and Shri S.S.A. Jafri, Deputy Director for their valuable guidance and support to complete this project within specific time frame. The task of data collection in respect of both Census and non-census items was a gigantic on which officials in the State Government had to perform along with their normal duties. For their deep sense of devotion to duty and hard work in this regard, I am thankful to all of them.

The preparation of District Census Handbook was done under the supervision and guidance of Shri B.K. Srivastava, Deputy Director of Census Operations and his team of dedicated workers deserve all praise for their perseverance and dedication in preparing for Camera Ready Copy of District Census Handbook.

I am also thankful to Shri Mohan Pandey, Ex-Deputy Director, Shri J. Majhi, Assistant Director, Shri M.M. Pandey, Dr. S.S. Sharma S.I. Grade-I and Shri S.K. Banerjee, S.I. Gr. II who assisted in the work for timely completion of the project. S.I.Gr.II, S.I.Gr.III, Sr.Compilers, Compilers, Data Entry Operators and Assistant Compilers who assisted in the work also did a tremendous job. Shri A.M. Ansari, Deputy Director (EDP) and his team of devoted workers deserve all praise for timely processing of Household Schedule through Image Based Data Capturing Technology i.e. Scanning. The members of the staff in the Map Section did a commendable job under the guidance of Shri Dashrath Singh, Research Officer (Map) in bringing out various maps.

Pradeep Kumar

ANALYTICAL NOTE

(i) History and Scope of the District Census Handbook

The district census handbooks were first published after 1951 Census. Since then after every decadal census the publication has remained a constant feature with some improvements. This publication has been traditionally brought out by the Census Organization on behalf of each State Government/ Union Territory. This publication provides data on demographic characteristics as well as information on the availability of basic amenities in each village and town of respective district. The scope of the publication has been changing with the changing needs of the data users. The 1951 census series of the publication contained Primary Census Abstract, Village and Town Directories, administrative statistics and an account of the district. In 1961 the publication was in a single volume containing three parts covering Census tables, official statistics and Village Directories. The 1971 Census DCHBs were published in 2 parts. The Part A contained Village and Town Directories and Part B contained Village and Town PCA. The Part C could not be published in many States/UTs which contained administrative statistics and district census tables. The 1981 DCHBs were published on the restructured formats of Village and Town Directories. The DCHBs of 1981 Census were published in 2 parts for each district. The Village and Town Directories comprised Part 'A' and PCAs of Villages and Towns (ward-wise) including Scheduled Castes and Scheduled Tribes PCA up to Tahsil/Town level were provided in Part 'B'. If any amenity except electricity was not available in the referent village, the distance in broad ranges from the nearest place having such amenities was given. Information on some new items were also provided keeping in view of the needs of the Revised Minimum Needs Program. The 1991 DCHBs were almost same in scope as was at 1981. The new features included in 1991 DCHBs were the nine-fold industrial classification of main workers and the sex-wise population in the 0-6 age group. Yet other information at the 1991 census was the CD Block level presentation of data. The VD data was also made available through the magnetic tapes/floppies. Unfortunately in UP no DCHBs relating to 1991 Census were out of press till completion of 2001 Census, defeating the very purpose of these publications apart from causing inconveniences to the data users.

The 2001 DCHBs contain more information such as details on greater number of facilities available to the Villages/Towns. The analysis of data with aid of inset tables and statements is more informative. The 2001 DCHBs are fully geared to meet the requirements of Gram Panchayats. At the 2001 Census the DCHBs are entirely available on electronic format and on CD-ROM, hence the word "Handbook" seems now to be a misnomer.

(ii) Brief History of the District

District Balrampur came in to existence on 22nd May 1997. The district is actually a product of old district Gonda, which was a part of Faizabad Division. It is said that the present area of the district, in historical perspective was ruled by Doms, Tharus, Bhars, Pasis and Like. It was part of Kaushal Rajya, with its kingdom at Ayodhya, during Ramayan period. Later on during the time of Lord Buddha, it came to the Vicinity of the Saraswati kingdom. For a larger period. Jains also flourished in the area and put their impact upon the town. After 1376 A.D., the district remained to belong to the Subedar of Amethi, Sultanpur. There is another story which relates that the same subedar granted Mahadeva to the Sahaj Singh the founder of Kalhans clan. The descendants of Sahaj Singh established a powerful kingdom with headquarter at Khurasa and extended over whole of district. Various other Rajputs came into existence under their protection such as Bishens of Kila Rampur in Digar and Harraha Bishens of Mahadeva. The last ruler of Khurasa was Achal Singh, whose downfall came in 1544. Maharaj Singh, Son of Achal Singh founded a new state in Mankapur, which was later developed as Balrampur. The other Bishen in Digsir rose from their low estate to a position of other clan. During these days Ali Khan, who was the Kakar Pathan, founded Utraula Taluka. Ali Khan died in 1571. His son, Sher Khan entered into an agreement with Akbar and was allowed to hold Utraula estate.

A large territory of Achal Singh was in the hand of Digsir Bishens, who later on became rulers of that territory. In fact the great Bishen raj that established and that it lasted till the advent of British rule.

During the regime of Akbar, the Then Mahal of Utraula comprised the Parganas of Utraula, Sadulla nagar and Burahapura. The district was ruled by Nawabs and in 1773 Gonda estate was made over to Bahu Begam in Jagir and upto 1799, it was managed by her. The management was done by the Nazims of Gonda, Hakim Mehdi Ali Khan, held charge from 1808 to 1810 and Kayastha Rai Amir Singh from 1812 to 1817. Fourteen Nazims held during 20 years period.

The province of Oudh during February 1856 was annexed by British Government and present area of the district, which was included in district Gonda, was made a separate district.

The present area of district Balrampur bears significant place in the history of Indian freedom struggle. The first war of independence by freedom fighters centered around Balrampur. The Rani of Tulsipur Ishwar Kunwar and Raja of Gonda Devi Bux Singh led the command of freedom fighters, they never surrendered, but their estates were given to Raja of Balrampur and Maharaja Man Singh respectively. The Burhapur of Ashraf Baksh rebellion was given to Bhaiya Har Ratan Singh of Majhgawn. The Baraipur Sunri episode was noteworthy incident during the history of freedom struggle.

(iii) Administrative Setup

The headquarter of district administration is at Balrampur. It has 3 tahsils namely Balrampur, Tulsipur and Utraula. There are 9 development blocks. The district has 667 Gram Sabhas and 1012 Revenue Villages alongwith 9 forest villages. There are 4 urban units in the district, two of them have the status of Municipal Board and two having the status of Town Panchayat.

Jurisdictional Changes (1991-2001)

During the year 1991-2001 the following jurisdictional change has taken place.

S.No.	Name of District/ Tahsil	Notification No. and Date	Jurisdictional Changes	
			Added	Subtracted
1	2	3	4	5
41	BALRAMPUR	1428/1-5/97-172/85-R-5 dated 25.5.1997	Entire district created from Gonda district after 1991 census.	
1.	Balrampur Tahsil	- do -	Entire tahsil and one town transferred from Gonda district	-
2.	Tulsipur Tahsil	- do -	Entire tahsil and two towns transferred from Gonda district.	-
3.	Utraula Tahsil	- do -	Entire tahsil and one town transferred from Gonda district	-

District Administration:

District administration comprises of Revenue, Development, Police (Law and Order), Judiciary, and Local self-government. District Magistrate is in-charge of revenue administration. He is assisted by Additional District Magistrate (Finance and Revenue) i.e., ADM (F&R). At the tahsil level Sub Divisional Magistrate is in-charge. He is assisted by Tahsildars in each tahsil and for revenue collection each tahsil is further entrusted to Naib Tahsildars and Kanongos's circles, respectively. For each revenue village, Lekhpal is in-charge. Chief Development Officer and District Development Officer are in-charge for development activities in the district. Various departments have departmental officers at the district level eg. Health, Panchayat Raj, Electricity, Transport, Irrigation, Jal Nigam, Animal Husbandry, Harijan and Samaj Kalyan, Agriculture, Horticulture, PWD, etc. each have a departmental district level office. The development point of view the district is divided into community development blocks. Block Development Officers (BDO) looks after development works at community development blocks level. Assistant Development Officer and Village Development Officers at village level.

Under the police set-up Senior Superintendent of Police (SSP) in big district and Superintendent of Police (SP) in small districts are incharge. Additional Superintendent of Police (ASP) in their respective area. Deputy Superintendent of Police (DSP) look-after the Thanas allotted to them. Police Inspector and Sub-Inspector are in-charges of their police stations,depending upon the population and area.

The judicial administration of the district is headed by District and Session Judge. In addition, there are several Additional District Judge, Civil Judge, Chief Judicial Magistrate and Munsif Magistrate etc.

The nucleus of the district body for Local self government is consisted of Mayor and Mukhya Nagar Adhikari (MNA) in the case of Nagar Nigam, Chairman, Executive Officer in Nagar Palika Parishad and Nagar Panchayat. Chairman District Board and Gram Pradhan in Panchayats and Pramukh of Kshetra Samiti etc. come under Local self-government.

(iv)Physical Features

Location and Size :

The district of Balrampur is situated on the north of Faizabad division. Nepalese territory runs in the north east of the district. The boundary in the south is formed by district Gonda. In the east lies the district of Siddharthnagar. In the west its boundary touches with district Shravasti. Its boundary consists of Shivalik range of Himalayas and the geographical boundary in the south is formed by River Kuwana. The extreme of latitude and longitude are $27^0 30'$ north and $82^0 11'$ east. The geographical area of the district is 3,349 sq.km.

Physiography :

Topographically the district has two tracts. First of which is Tarai. This part includes Tulsipur, large portion of Balrampur and northern part of Utraula. As it lies in low surface, floods are frequent. This part of the district is unhealthy and famous for malarial fever. Second is Uparhar which embraces the remaining part of Utraula.

The geology of the district does not expose anything except, generally Gangetic alluvium with the exception of the boulders brought down by hill in the north.

On the basis of geology, climate, topography, soils and natural vegetation, the district is subdivided in the following region.

1. **Balrampur Tarai :** It is situated in the northern part of the district covering portions of Balrampur and Tulsipur tahsils. The northern limit of the region coincides with Indo-Nepal international boundary where as southern limit extends to the high bank of the Rapti river. There are numerous rivulets which drain from north to south directions. These rivulets are wide and change their courses. It is difficult to define the channel of the streams. The surface along these streams are eroded. The extent of such erosion decreases as the streams drain southward. During the rains all these streams are flooded and water as a sheet rather than gully. The main streams are Gandhela, Kachni, Khanjhar, Kather, Siria, Nakti, Kataha, Bhambhar etc. Besides above streams Girgithi, Ganeshpur, Baghelbhand, and Khargaddi Tals are very significant. A 100 meter contour passes through the eastern part of the region.

2. **Rapti Flood Plain :** The region is situated on both sides of the river Rapti in east wise direction. The north south extent of this plain coincides with the raised surface which is the limit of the flood water. Rapti flood is a common feature every year. The river enters the district from the west and drains out in the east. Suwawan is the old channel of Rapti which drains in the southern part of the region parallel to it. Pera and Kharjhar are the right bank tributaries. Some natural depressions or tals are also situated here. There are embankments to protect and divert the flood water. A 100 meter contour crosses the region in the eastern part but western side is still higher than this.

Drainage :

Rapti, Budhi Rapti, Suawa and Kuano rivers alongwith Kharjhar Katni, Kaktava, Manmar, Varuna and Ars hilly nullah flows in this district. The slope of the district is slight and lies from north west to south east. It is 390 feet above the sea level in the north and it drops to 360 feet at Tulsipur and 350 feet at Balrampur.

Climate :

The climate of the district is similar to other adjoining districts of Shravasti, Siddharthnagar and Gonda. During summer the climate becomes hotest and coldest during winter. Due to high level of water and jungle the prevalence of malarial fever is commonly found which effects the health. The average rainfall of the district is 1150 mm. According to Statistical Magazine 1999 the temperature in the year1998.99 was 44.8^0C maximum and 4.9^0C minimum. The climate of this district is helpful for the health. The winter season from November to February is followed by the hot season from March to June and Monsoon season is from July to October. The wind blows mostly from east to west and west to east. The mostly rainfall nearly 90% becomes between middle of June to middle of October.

Natural and Economic Resources

Forestry :

North part of the district is covered with forest. In the north Bankatwa range consists of thick forest. Due to variations in the configuration of the ground, the character of forest differs in different parts. In some part the trees are slanted and badly shaped an in some part trees are tall and straight. The principal species of trees in the forest are the sal, assina, haldu, shishum, khair, mahua, semal, jamun, aonla and ebony. The district is rich with forest produce which are either exported by road or railway. Beside the rivers of Rapti, Burhi Rapti, Suwava and Kuwano, hilly rivulets like Kharjhar, Katni, Kaktawa, Bhamar, Varuna and Ars flow through these area.

Due to the area of jungle and forest many wild animals are found in the district such as tigers, leopards, bears, but their numbers are decreasing day by day. The Sambhar, spotted deer, hog deer and nilgai and pigs also exist in the jungle. Peacock, fowl, bastards, partridges and quail jungle birds are also found in the district.

Minerals and Mining :

No significant mineral are found in the district. In the northern part of the district is the Jarwa border, precious sand called Morang is found. Stones which are important for industrial purposes are also found. Soil, Kankar, Mouram and Sand are main minerals found in the district.

Soil :

The soil of the district is not bhur or usar as in the other district but in tarai generally a stiff heavy clay is found while in some places it has rich alluvial loam. In uparhar loam predominates.

Land and Land use Pattern :

Forests covered 59,644 hectares, cultivable waste (Banjar) land 2,845 hectares, present fallow 16,141 hectares, Usar and uncultivable land 3,553 hectares, land use other than agriculture 32,033 hectares net irrigated area 61628 hectares.

The operational holdings of land are largely of the small size. As per agriculture census 1990-91 data, 198,732 land holdings are below 1 hectare, 33,244 land holdings are between 1-2 hectares, 13,444 land holdings are between 2-3 hectares, 7,833 land holdings are between 3 to below 5 hectares and only 2,887 land holdings are above 5 hectares.

Agriculture and Crop Pattern :

Main harvest sare Rabi and Kharif. The position of the main crops may be seen as under.

Crops	Area used (hectares)
Paddy	100,938
Maize	12,379
Arhar	12,264
Sugarcane	13,833
Wheat	83,075
Masoor	17,250
Mustard/Lahi	12,708
Gram	6,114

Thus, it is clear that main crops of the district are paddy, wheat, maize arhar, sugarcane crops and pulses etc. Average production per hectare for main crops are paddy 16.8 quintals, wheat 21.1 quintals, Maize 8.9 quintals and Sugarcane 491.5 quintals.

Agriculture is an important source of income of the people of the district. According to the Statistical Magazine 1998-99, in the year1995-96. Out of the total land of 337,549 hectares in the district total sown is 281,738 hectares. Kharif crops are sown in 152,612 hectares, Rabi 126,912 hectares and 1,444 hectares for Zaid.

Irrigation :

Means of irrigation in the district are Canal, Govt. Tube wells, Private Tube wells and Boring pumpsets. The length of canal in the district is 224 kms. Number of Govt. tube wells were 167, private tube wells 566, boring pumpsets 31,470 and 266 wells. In the Year 95-96, net irrigated area was 61,628 hectare.

Animal Husbandry :

Animal husbandry is helpful in the rural economy of the district. As per cattle census of 1992 , total cattle in the district were 673,452, out of which bovine population 356,490, buffaloes 119,075, 13,722 sheeps, 113,715 goats, 2,796 horses, 24,517 pigs and others 43,227 were counted. There were 25 veterinary hospitals, 17 animal development centres, 22 artificial insemination centres, 10 breeding sub centres and 3 pig development centres in the district.

Poultry farming and fisheries are other important source of income for the people in rural area of the district. Poultry farming is being done very enthusiastically in the district. Although, there are no poultry farm in the organised sector, people are engaged in poultry farming in their homes.

Fishery :

Under the aegis of Fisheries Department, development programmes in fisheries are being implemented in the district. During 1997-98 number of departmental ponds were 6 comprising total land area of 809 hectares, total producted fisheries 176.40 quintals and distribution of fingerling 7,301 thousand.

Industry :

The industrial structure of the district is not good. Beside some sugar mill there are no big industry in the district. There are 34 industries in the year 1990-91 registered under 1948 industrial act.

Trade and commerce :

Northern part of the district is covered with forest. Total area under forest in the district is 59644 hectares. Good quality wood from the trees of Teak and Sheesum are exported from the district. Herbs, honey and wax are also produced in the forest. Crores of rupees can be earned from the forest produce by exporting them to foreign countries and other parts of our country.

Transport :

The district Balrampur is serviced by N.E. Railway. On Metre Gauge line the N.E. Railways serves the district from Gonda to Gorakhpur via Balrampur and Tulsipur. There are 11 railway stations and 72 km. Metre Gauge Railway line in the district.

Availability of road communication is important prequisite for infrastructural development of an area. On main roads of the district, buses of state roadways are available. In other routes private buses and taxis are available. Metalled roads outside the municipalities are of the length of 567 kms. The length of pucca roads within municipalities are 14 kms. The length of road for every one thousand sq.kms. is 172.14 kms. Availability of roads per one lakhs of population is 42.45 kms.

Electricity and Power :

According to the definition of Central Electricity Authority, 561 villages out of total 998 inhabited villages are electrified. Proportion of electrified villages to total villages is 56.21 percent. Number of villages electrified through L.T. Mains are 442 villages. 501 scheduled caste localities are electrified and 1,013 private tube wells/ pump sets are also electrified in the district.

Gram Panchayat, its composition, jurisdiction and role in villages development

A Gram Panchayat acts as the executive of the Gram Sabha. It is vital for village development.

Composition : The members of the village of Gram Panchayat are elected by the members of the Gram Sabha. The members of the Gram Sabha generally elect a small committee of 7-15 members from among themselves who constitute the village panchayat. There are 667 gram sabhas in the district.

It is necessary that the village Panchayat should have a member belonging to the scheduled caste and also a woman member. If they are not elected, then the government itself appoints two such members. The

Village Panchayat is the sole body, which looks after the various problems of the village and takes steps to improve the conditions of the villagers.

Its term : The new Panchayat Raj Act of 1993 has fixed a uniform five year for every Panchayat. It can also be dissolved earlier by the state government, if it fails to perform its duty faithfully. A Sarpanch may be removed from office if two-third Panchas vote against him. But in such a case the sanction of the district authorities must be obtained beforehand.

The Panchayat normally meets once in a month. If need be, an emergency meeting can also be called by the sarpanch.

Qualifications : In order to be elected to a village panchayat, a candidate should posses the following qualifications :

1. He should be a resident of the village concerned and his name should be in the voter's list of the village.
2. He should be twenty five years old.
3. He should be mentally and physically sound.
4. He should not be a proclaimed offender.

Functions : A Gram panchayat is entrusted with various social, economic and judicial functions.

1. It provides civic amenities to the people of the village.
2. It gets a primary school opened in the village and supervise its work.
3. It looks the cleanliness of the village. Drains for waste water are also provided by the Panchayat in the village.
4. It gets a Primary Health Centre opened in the village. The Panchayat has also to provide land and building for such a center.
5. It gets metal led roads built from the village to the nearest road leading to a market place with the help of the Public Works Department of the District.
6. It arranges for sufficient irrigational facilities, improved seeds, insecticides, chemical manures, improved implements and other such facilities with the help of the Block Development Officer for the area of the uplift of agriculture.
7. It manages and maintains the common property of the village.
8. In some states, the Gram Panchayat enjoys also certain judicial powers. It decides petty civil and criminal cases and imposes fine upto Rs. 100.

(v) Census Concepts

Building:

A 'Building' is generally a single structure on the ground. Sometimes it is made up of more than component unit which are used or likely to be used as dwellings (residences) or establishments such as shops, business houses, offices, factories, workshops, worksheets, Schools, places of entertainment, places of worship, godowns, stores etc. It is also possible that building which have component units may be used for a combination of purposes such as shop-cum-residence, workshop-cum-residence, office-cum-Residence, etc.

Usually a structure will have four walls and a roof. But in some area the very nature of construction of houses is such that there may not be any wall. Such is the case of conical structures where entrance is also provided but they may not have any walls. Therefore, such of the conical structures are also treated as separate buildings.

Permanent houses :

Houses, the walls and roof of which are made of permanent materials. The material of walls can be any one from the following, namely, galvanized iron sheets or other metal sheets, asbestos sheets, burnt bricks,

stones or concrete. Roof may be made of from any one of the following materials, namely, tiles, slate, galvanized iron sheets, metal sheets, asbestos sheets, bricks, stones or concrete.

Semi-permanent houses :

Houses in which either the wall or the roof is made of permanent material and the other is made of temporary material.

Temporary houses

Houses in which both walls and roof are made of materials, which have to be replaced frequently. Walls may be made from any one of the following temporary materials, namely, grass, thatch, bamboo, plastic, polythene, mud, unburnt bricks or wood. Roof may be made from any one of the following temporary materials, namely, grass, thatch, bamboo, wood, mud, plastic or polythene.

Room :

A room should have four walls with a doorway with a roof over head and should be wide and long enough for a person to sleep in, i.e., it should have a length of not less than 2 metres and a breadth of at least 11/2 metres and 2 metres in height. A room, however, which is used in common for sleeping, sitting, dining, storing and cooking, etc., should be regarded as a room. An unenclosed verandah, kitchen, store, garage, cattle-shed and latrine and rooms in which a household industry such as a handloom is located, which are not normally used for living or sleeping are excluded from the definition of a living room for the purpose of this question.

One is likely to come across conical shaped hut or tent in which human beings reside. In such improvised accommodation, there will be no four walls to a room and therefore, the above definition would not strictly apply to such types of accommodation. In such cases, the tent or conical hut etc., have been construed to be a room.- In certain parts of the country, particularly in rural area, the pattern of housing may present some problems. For example, a household may be in occupation of several huts put to different uses such as main residence, sitting room, store and even for sleeping at night. By strict application of the definition each one will be reckoned as a census house, but this does not reflect the real situation. While huts used as store or cattle shed pose no problems, those used as sleeping rooms beyond the main residence, should be counted as rooms rather than separate census houses. If a servant uses a garage and he lives in it as a separate household, it should be reckoned as a room available to the servant's household. If the servant is considered as a member of the household then the garage room should be reckoned as an additional room of the household.

Dwelling Room

A room is treated as a dwelling room if it has walls with a doorway and a roof and should be wide and long enough for a person to sleep in, i.e. it should have a length of not less than 2 meters and a breadth of at least 1.5 meters and a height of 2 meters. A dwelling room would include living room, bedroom, dining room, drawing room, study room, servant's room and other habitable rooms. Kitchen, bathroom, latrine, storeroom, passageway and verandah, which are not normally usable for living, are not considered as dwelling rooms. A room, used for multipurpose such as sleeping, sitting, dining, storing, cooking, etc., is regarded as a dwelling room. In a situation where a census houses is used as a shop or office., etc., and the household also stays in it then the room is not considered as a dwelling room. But if a servant uses a garage or servant quarter and if she/ he also lives in it as a separate household then this has been considered as a dwelling room available to the servant's household. Tent or conical shaped hut if used for living by any household is also considered as dwelling room. A dwelling room, which is shared by more than one household, has not been counted for any of them. If two households have a dwelling room each but in addition also share a common dwelling room, then the common room has not been counted for either of the households.

Census house:

A 'census house' is a building or part of a building used or recognized as a separate unit because of having a separate main entrance from the road or common courtyard or staircase, etc. It may be occupied or vacant. It may be used for residential or non- residential purpose or both.

In certain peculiar situations, the manner in which buildings and census houses were identified for numbering in the field by the enumerators is described hereunder.

Sometimes a series of different buildings are found along a street which are joined with one another by common walls on either side looking like a continuous structure. These different units are practically independent of one another and are likely to have been built at different times and owned by different persons. In such cases, though the whole structure with all the adjoining units apparently appears to be one building, each portion was treated as a separate building and its constituent units as separate census houses.

On the other hand, one may come across cases, particularly in large cities of multi-storeyed ownership flats. In these cases while the structure looks like one building, different persons own the flats. In case of such multi-storeyed structures, having a number of flats owned by different persons, the entire structure was treated as one building and each flat as a separate census house.

If within a large enclosed area, there are separate buildings owned by different persons then each such building is treated as a separate building. There can be a situation where within an enclosed compound there are separate buildings owned by an undertaking or company or even government that are actually in occupation of different persons. For example, Indian Oil Corporation colony where the buildings are owned by the Corporation but these are in occupation of their employees. Each such building was treated as a separate building. But if in any one of these buildings there were flats in occupation of different households, each such flat was reckoned as a separate census house.

Sometimes it becomes difficult to apply the definition of census house strictly in certain cases. For example, in an urban area, if a flat has five rooms, each room having direct entrance from the common staircase or courtyard. By definition, this has to be treated as five census houses. If all these five rooms are occupied by a single household it was not realistic to treat them as five census houses. In such a case, 'singleness' of use of these rooms along with the main house should be considered and the entire flat was treated as one census house. On the other hand, if two independent households occupy these five rooms, the first household living in 3 rooms and the second household occupying 2 rooms, then considering the use, the first three rooms together were treated as one census house and the remaining rooms as another census house. But if an independent household occupied each room, then each such room was treated as a separate census house.

In case of hostels, hotels, etc., even if the door of each room in which an inmate lives opens to a common verandah, staircase, courtyard or a common room, as it happens almost invariably, the entire hostel/ Hotel building was treated as one census house. but if such hostels/hotels have out-houses or other structures used for different purposes or the same purpose, then each such structure attached to the main hostel / hotel was treated as a separate census house.

In some parts of the country, in rural area, the pattern of habitation is such that a group of huts, located in a compound, whether enclosed or unenclosed, is occupied by one household. While the main residence may be located in one hut, other huts may be used for sleeping, as a kitchen, bath room, baithak, etc. Though each of the huts was a separates structure, they form a single housing unit and therefore, have to be treated collectively as one building and one census house. If some of the huts are used by one household and the others by a second household as residence, then the two groups of huts were treated as separate census houses. However, if there were also other huts in the compound used for other purposes and not as part of the household's residence such as, cattle shed, workshed, etc., these were treated as separate census houses.

On the other hand, in urban area, where more than one structure within an enclosed or open compound (premises) belonging to the same person, e.g., the main house, the servant's quarter, the garage, etc., only one building number was given for this group and each of the constituent a separate census house number

Only cases where a structure with roof and pillars has come up was treated as a building.

Village-

The basic unit for rural area is the revenue village, which has definite surveyed boundaries. The revenue village may comprise of one or more hamlets but the entire village is treated as one unit for presentation of data. In unsurveyed area, like villages within forest area, each habitation area with locally recognized boundaries is treated as one village.

Rural-Urban area

The data in tables on Houses, Household Amenities and Assets are presented separately for rural and urban area. The unit of classification in this regard is 'town' for urban area and 'village' for rural area. In the Census of India 2001, the definition of urban area adopted is as follows:

a) All places with a municipality, corporation, cantonment board or notified town area committee, etc.

b) A place satisfying the following three criteria simultaneously:

i) a minimum population of 5,000;

ii) at least 75 per cent of male working population engaged in non-agricultural pursuits; and

iii) a density of population of at least 400 per sq. km.(1,000 per sq.mile)

For identification of places which would qualify to be classified as 'urban' all villages, which, as per the 1991 Census had a population of 4,000 and above, a population density of 400 persons per sq. km. and having at least 75 per cent of male working population engaged in non-agricultural activity were considered. To work out the proportion of male working population referred to above against b) (ii), the data relating to main workers were taken into account.

Apart from these, the outgrowths (OGs) of cities and towns have also been treated as urban under 'Urban Agglomerations'. Examples of out-growths are railway colonies, university campuses, port area, military camps, etc., that may have come up near a statutory town or city but within the revenue limits of a village or villages contiguous to the town or city. Each such individual area by itself may not satisfy the demographic criteria laid down at (b) above to qualify it to be treated as an independent urban unit but may deserve to be clubbed with the towns as a continuous urban spread. Thus, the town level data, wherever presented, also includes the data for outgrowths of such towns.-

City :

Towns with population of 1,00,000 and above are called cities.

Urban Agglomeration

An Urban Agglomeration is a continuous urban spread constituting a town and its adjoining urban outgrowths (OGs) or two or more physically contiguous towns together and any adjoining urban outgrowths of such towns. In some cases railway colonies, university campuses, port area, etc., may come up near a city or statutory town outside its statutory limits but within the revenue limits of a village or villages contiguous to the town or city. Each such individual area by itself may not satisfy the minimum population limit to qualify it to be treated as an independent urban unit but may deserve to be clubbed with the town as a continuous urban spread.

-For the purpose of delineation of Urban Agglo-merations during Census of India 2001, following criteria are taken as pre-requisites:

(a) The core town or at least one of the constituent towns of an urban agglomeration should necessarily be a statutory town; and

(b) The total population of all the constituents (i.e., towns and outgrowths) of an Urban Agglomer-ation should not be less than 20,000 (as per the 1991 Census).

With these two basic criteria having been met, the following are the possible different situations in which Urban Agglomerations would be constituted:--

i) a city or town with one or more contiguous outgrowths;-

ii) two or more adjoining towns with their outgrowths; and

iii) A city and one or more adjoining towns with their outgrowths all of which form a continuous spread.

Household

A 'household' is usually a group of persons who normally live together and take their meals from a common kitchen unless the exigencies of work prevent any of them from doing so. Persons in a household

may be related or unrelated or a mix of both. However, if a group of unrelated persons live in a census house but do not take their meals from the common kitchen, then they are not constituent of a common household. Each such person was to be treated as a separate household. The important link in finding out whether it was a household or not was a common kitchen. There may be one member households, two member households or multi-member households.

Institutional household :

A group of unrelated persons who live in an institution and take their meals from a common kitchen is called an Institutional Household. Examples of Institutional Households are boarding houses, messes, hostels, hotels, rescue homes, jails, ashrams, orphanages, etc. To make the definition more clearly perceptible to the enumerators at the Census 2001, it was specifically mentioned that this category or households would cover only those households where a group of unrelated persons live in an institution and share a common kitchen.-

Houseless household :

Households who do not live in buildings or census houses but live in the open on roadside, pavements, in hume pipes, under fly-overs and staircases, or in the open in places of worship, mandaps, railway platforms, etc., are treated as Houseless Households.

Scheduled Caste and Scheduled Tribe

Article 341 of the Constitution provides that the President may, with respect to any State or Union territory, specify the castes, races or tribes or parts of or groups within castes, races or tribes which shall for the purposes of the Constitution be deemed to be Scheduled Castes in relation to that State or Union territory. Article 342 similarly provides for specification of tribes or tribal communities or parts of or groups within tribes or tribal communities which are to be deemed for the purposes of the Constitution to be Scheduled Tribes in relation to the various States and Union territories. In pursuance of these provisions, the list of Scheduled Castes and / or Scheduled Tribes are notified for each State and Union territory and are valid only within the jurisdiction of that State or Union territory and not outside.

It is important to mention here that under the Constitution (Scheduled Castes) Order, 1950, no person who professed a religion different from Hinduism was deemed to be a member of a Scheduled Caste in addition to every member of the Ramdasi, Kabirpanthi, Majhabi or Sikligar caste resident in Punjab or Patiala and East Punjab States Union were in relation to that State whether they professed the Hindu or the Sikh religion. Subsequently, in September 1956, by an amendment, the Presidential Order of 1950 and in all subsequent Presidential Orders relating to Scheduled Castes, the Hindu and the Sikh religions were placed on the same footing with regard to the specification of Scheduled Castes. Later on, as per the amendment made in the Constitution (Scheduled Castes) Order 1990, the Hindu, the Sikh and the Buddhist were placed on the same footing with regard to the recognition of the Scheduled Castes.

The list containing the names of the Scheduled Castes and the Scheduled Tribes applicable for the Census of India 2001 in the State are given below:--

Scheduled Castes :

1 Agariya
2 Badhik
3 Badi
4 Baheliya
5 Baiga
6 Baiswar
7 Bajaniya
8 Bajgi
9 Balahar
10 Balai
11 Balmiki
12 Bangali
13 Banmanus
14 Bansphor
15 Barwar
16 Basor
17 Bawariya
18 Beldar
19 Beriya
20 Bhantu
21 Bhuiya
22 Bhuyiar
23 Boria
24 Chamar,Dhusia, Chero
25 Dabgar
26 Dhangar
27 Dhanuk
28 Dharkar
29 Dhobi
30 Dom
31 Domar
32 Dusadh
33 Gharami
34 Ghasiya
35 Gond
36 Gual
37 Habura
38 Hari
39 Hela
40 Jhusia, Jatawa
41 Kalabaz
42 Kanjar
43 Kapariya
44 Karwal
45 Khairaha
46 Kharwar (excluding Banbasi)
47 Khatik
48 Khorot
49 Kol
50 Kori
51 Korwa
52 Lalbegi
53 Majhwar
54 Mazhabi
55 Musahar
56 Nat
57 Pankha
58 Parahiya
59 Pasi, Tarmali
60 Patari
61 Rawat
62 Saharya
63 Sanaurhiya
64 Sansiya
65 Shilpkar
66 Turaiha

Scheduled Tribes

1 Bhotia
2 Buksa
3 Jaunsari
4 Raji
5 Tharu

Language and Mother tongue :

As per the census concept, each language is a group of mother tongues. The census questionnaire collects information on the mother tongue of each person and mother tongue is defined as the language spoken in childhood by the person's mother to the person. If the mother died in infancy, the language mainly spoken in the person's home in childhood will be the mother tongue. In the case of infants and deaf mutes, the language usually spoken by the mother is considered as mother tongue. It is not necessary that the language

spoken as mother tongue should have a script. The mother tongues returned by the respondents in census are classified and grouped under appropriate languages according to their linguistic characteristics.-

Literate :

A person age 7 years and above who can both read and write with understanding in any language is taken as literate. A person who can only read but cannot write is not literate. It is not necessary that to be considered as literate, a person should have received any formal education or passed any minimum educational standard. Literacy could also have been achieved through adult literacy classes or through any non-formal educational system. People who are blind and can read in Braille are treated as literates.

Literacy rate:

Literacy rate of the population is defined as the percentage of literates in the age group seven years and above. For different age groups the percentage of literates in that age group gives the literacy rate.

Educational level

The highest level of education a person has completed.

Work- :

Work is defined as participation in any eco-nomically productive activity with or without compensation, wages or profit. Such participation may be physical and/or mental in nature. Work involves not only actual work but also includes effective supervision and direction of work. It even includes part time help or unpaid work on farm, family enterprise or in any other economic activity. All persons engaged in 'work' as defined above are workers. Persons who are engaged in cultivation or milk production even solely for domestic consumption are also treated as workers.

Reference period for determining a person as worker and non-worker is one year preceding the date of enumeration.

Main worker:

A person who has worked for major part of the reference period (i.e. six months or more during the last one year preceding the date of enumeration) in any economically productive activity is termed as 'Main worker'.

Marginal worker :

A person who worked for less than six months of the reference period (i.e. in the last one year preceding the date of enumeration) in any economic activity is termed as 'Marginal worker'.-

Non worker :

A person who has not worked at all in any economically productive activity during the reference period (i.e. last one year preceding the date of enumeration) is termed as 'Non worker'.-

Cultivator :

For purposes of the Census a person is classified as cultivator if he or she is engaged in cultivation on land owned or held from government or held from private persons or institutions for payment in money, kind or share. Cultivation includes effective supervision or direction in cultivation.--

A person, who has given out her/his land to another person or persons or institution(s) for cultivation for money, kind or share of crop and who does not even supervise or direct cultivation in exchange of land, is not treated as cultivator. Similarly, a person working on another person's land for wages in cash or kind or a combination of both (agricultural labourer) is not treated as cultivator.

-Cultivation involves ploughing, sowing, harvesting and production of cereals and millet crops such as wheat, paddy, jowar, bajra, ragi, etc. and other crops such as sugarcane, tobacco, groundnuts, tapioca, etc. and pulses, raw jute and kindred fiber crop, cotton, cinchona and other medicinal plants, fruit growing, vegetable growing -or keeping orchards or groves, etc. Cultivation does not include the following plantation crops – tea, coffee, rubber, coconut and betel nuts (areca).

Agricultural labourer-

A person who works on another person's land for wages in money or kind or share is regarded as an agricultural labourer. She/he has no risk in the cultivation, but merely works on another person's land for wages. An agricultural labourer has no right of lease or contract on land on which she/he works.-

Household industry worker :

Household industry is defined as an industry conducted by the head of the household herself/himself and or by the members of the household at home or within the village in rural area and only within the precincts of the house where the household lives in urban area. The larger proportion of workers in household industry should consist of members of the household including the head. The industry should not be run on the scale of a registered factory which would qualify or has to be registered under the Indian Factories Act and should be engaged in manufacturing, processing, servicing and repairs of goods.

It does not include professions such as a pleader, Doctor, Musician, Dancer, Waterman, Astrologer, Dhobi, Barber, etc. or merely trade or business, even if such professions, trade or services are run at home by members of the household.

Other worker :

A person who has been engaged in some economic activity during the reference period but not as a cultivator or agricultural labourer or in Household Industry is termed as a 'Other Worker (OW)'. The type of workers that come under this category of 'OW' include all government servants, municipal employees, teachers, factory workers, plantation workers, those engaged in trade, commerce, business, transport, banking, mining, construction, political or social work, priests, entertainment artists, etc. In effect, all those workers other than cultivators or agricultural labourers or household industry workers, are 'Other Workers'.

Work participation rate

Percentage of workers (main + marginal) to total population.

Population density :

Population density is the number of persons inhabited per square kilometer of the area.-

Age :

Age is measured in terms of the completed number of years.

Sex-ratio

Number of females per 1,000 males in a population.

(vi) Non Census Concepts

Improved drinking water :

If the household had access to drinking water supplied from a tap, hand pump, tube well or well (protected or covered) situated within or outside the premises, it is considered as having access to improved drinking water.

It may be mentioned that such uniform definition may not be valid across all states. --

System of Sewerage :

Generally, a sewerage system would mean a network of mains and branches of underground conduits for the conveyance of sewerage to the point of disposal. Sewers that carry only household and industrial wastage are called separate sewers; those that carry storm water from roofs, streets and other surfaces are known as storm water drains, while those carrying both sewage and storm water are called combined sewers. However, in some towns which are not provided with such underground sewerage system, it is served by open surface drain, box drain, silk pattern drain, etc., in these towns.

Type of latrine and method of disposal of night soil.

There are three prevalent systems of disposal of human wastes, viz. (i) underground sewerage, (ii) sanitary water flush latrines with individual disposal systems, like septic tank, leaching cess pool and collecting well, and (iii) dry type of latrines with manual scavenging.

The system of underground sewerage provides for the street sewerage with which are connected the sanitary latrines constructed in the houses having water closets and fitted with flushing cistern (or hand flushing). Through this sewer the faecal matter is transported without the need for scavenging. This system generally exists in cities and big towns.

Where the streets sewer does not exist these sanitary water flush latrines are connected to a local septic tank with a sub-soil dispersion system or a leaching pit. Here the liquid wastes from the water closet is disposed of locally in leaching pit, a septic tank with a soil dispersion system is constructed. This dispersion requires an optimum travel through the pores of the soil which renders the harmful liquid bacterially innocuous by the slow process of filteration through the soil traversed.

Where the soil is impermeable, collecting wells are constructed and the sanitary water flush latrines are connected with them. These wells are cleaned at periodic intervals by a suitable device. The dry type of latrines are of service type latrines from where human excreta is removed by scavengers from house to house, in most cases carrying it on their heads or shoulders or in baskets with handle or wheel barrows. These are then collected in bullock carts or trucks or tractors and trolleys for being carried to the dumping grounds.

Fertility :

In demography, the word fertility is used in relation to the actual production of children or occurrence of births specially live births. Fertility is a measure of rate at which population adds to itself by births and normally assessed by relating the number of births to a full or part of the population, such as number of married women or number of women of child bearing age. The definitions of the terminology used in computing different fertility rates are mentioned below:

Crude birth rate (CBR)

Ratio of the number of live births in a year to the mid year population, normally expressed per 1,000 population.

$$CBR = \frac{\text{Number of live births during the year}}{\text{Mid–year Population}} \times 1000$$

Crude death rate (CDR)

Ratio of the number of deaths in a year to the mid year population, normally expressed per 1,000 population.

$$CDR = \frac{\text{Number of deaths during the year}}{\text{Mid-year Population}} \times 1000$$

Natural growth rate-

Growth rate is obtained as the difference between crude birth rate and crude death rate in the absence of migration.

Age specific fertility rate (ASFR)

Number of live births in a year to female population in any specified age group normally expressed per 1,000 women.

$$ASFR = \frac{\text{Number of live births in a particular age-group}}{\text{Mid-year female population of the same age-group}} \times 1000$$

Age specific marital fertility rate (ASMFR)

Number of live births in a year to married female population in any specified age group normally expressed per 1,000 married women.

$$\text{ASMFR} = \frac{\text{Number of live births in a particular age-group}}{\text{Mid-year married female population of the same age-group}} \times 1000$$

General fertility rate (GFR)-

Number of live births per 1,000 women in the reproductive age-group (15-49) years in a given year.

$$\text{GFR} = \frac{\text{Number of live births in a year}}{\text{Mid-year female population in the age-group (15-49) years}} \times 1000$$

General marital fertility rate (GMFR)

Number of live births per 1,000 married women in reproductive age-group (15-49) years in a given year.

$$\text{GMFR} = \frac{\text{Number of live births in a year}}{\text{Mid-year married female population in the age-group (15-49) years.}} \times 1000$$

Total fertility rate (TFR)

It is obtained as the total of the age specific fertility rates (number of children born per woman of the particular age) for the entire reproductive age span. It provides the average number of children that will be born to a woman under the fertility levels indicated by the age specific fertility rates assuming that there is no mortality of women till the completion of reproductive period.

$$\text{TFR} = \frac{5 \sum_{15-19}^{45-49} (\text{ASFR})}{1000}$$

Total marital fertility rate (TMFR)-

Average number of children that would be born to a married woman if she experiences the current fertility pattern throughout her reproductive span (15-49) years assuming that there is no mortality of women till the completion of reproductive period.-

$$\text{TMFR} = 5 \sum_{15-19}^{45-49} (\text{ASMFR}) \times 1000$$

Age-specific mortality rate (ASMR)

Number of deaths in a particular age and sex group per 1,000 population of the same age group.

$$\text{ASMR} = \frac{\text{Number of deaths in a particular age-group-}}{\text{Mid-year population of the same age-group}} \times 1000$$

Probability of dying between birth and age 1 This can be used as approximate value of Infant Mortality Rate (IMR) which gives the ratio of number of deaths in a year of children aged less than one year to the number of births in that year.

q2-

Probability of dying between birth and age 2

q5-

Probability of dying between birth and age 5. This indicator is also known as Under Five Mortality Rate (U5MR) .

Infant mortality rate (IMR)--

Ratio of the number of infant deaths (deaths of children below one year) in a year to the number of live births in that year.

$$\text{IMR} = \frac{\text{Number of infant deaths during the year}}{\text{Number of live births during the year}} \times 1000$$

Infant mortality rate comprises of two parts, viz., Neo-natal mortality rate and Post neo-natal mortality rate. The neo-natal mortality rate also comprises of two parts viz., Early neo-natal mortality rate and late neo-natal mortality rate. These are defined as.

Neo-natal mortality rate (NMR)

Number of infants dying within the first month of life (28 days or under) in a year per 1,000 live births of the same year.

$$\text{NMR} = \frac{\text{Number of infant deaths aged 28 days or under during the year}}{\text{Number of live births during the year}} \times 1000$$

Early neo-natal mortality rate

$$= \frac{\text{Number of infant deaths of less than 7 days during the year}}{\text{Number of live births -during the year}} \times 1000$$

Late neo-natal mortality rate

$$= \frac{\text{Number of infant deaths of 7 days to less than 29 days during the year}}{\text{Number of live births during the year}} \times 1000$$

Post neo-natal mortality rate (PNMR)-

$$= \frac{\text{Number of deaths of 29 days to less than- One year during the year}}{\text{Number of live births -during the year}} \times 1000$$

Peri-natal mortality rate (PMR)

Number of still births plus deaths within 1st week of delivery per 1,000 births in a year.

$$\text{PMR} = \frac{\text{Number of still births and infant deaths of less than 7 days during the year}}{\text{Number of live births and still births during the year}} \times 1000$$

Still birth rate (SBR)

$$= \frac{\text{Number of still births during the year}}{\text{Number of live births and still births during the year}} \times 1000$$

Maternal mortality rate (MMR)

Number of deaths of women in the age group 15-49 while pregnant or within 42 days of termination of pregnancy from any cause related to pregnancy and child birth per 100000 live births in a given year.

$$MMR = \frac{\text{Number of maternal deaths to women in the age-group 15-49}}{\text{Number of live birth}} \times 100000$$

Eligible couple (Couples per 1,000 Population)

Number of currently married females in the age group 15-44 years per 1000 persons of all ages.

Child woman ratio (0-4)

1. Number of children in the age group 0-4 years per 1,000 women in the age group 15-49 years.

Child woman ratio (5-9)

2. Number of children in the age group 5-9 years per 1000 women in the age group 15-49 years.

Migration

Migration is the third component of population change, the other two being mortality and fertility.

A person is considered as a migrant by place of birth if the place in which he/she is enumerated during the census is other than the place of his/her birth.

Similarly a person is considered as a migrant by place of last residence if the place in which he/she is enumerated during the census is other than his/her place of immediate last residence outside the village or town and not simply in another house or locality in the same village or town.

Certain aspects concerning temporary movement/ migration of people has been explained below as these are important components concerning migration:

(i) Migration of persons in search of job is high in the country. In many cases such migrants are only seasonal in nature. People migrate to other places for work in a particular season and come back again to their usual place of residence after three or four months. All such workers are treated as migrants. Similarly, if a person moved to any other place for attending short term vocational or educational course that lasted for only few months of a year, she/he too were considered as a migrant.

(ii) Where a person had merely gone out to another place or had been shifting from one place to another purely on tour, pilgrimage, visit to hospital for treatment or for temporary business purposes, such persons are not deemed to have had another residence different from the place where she/he or her/his family normally resides. She/he is not considered as migrant.--

(iii) A woman temporarily moves into a hospital or to her parents or other relative's house for delivery and if the hospital or the parents/relatives houses is in a place different from usual place of residence, the place where the hospital or parents/relative's house is the place of last residence of the child but not of the mother.

A new response category 'Moved after birth' was added in Census of India 2001 in the question on 'reasons for migration' to bring out additional migration patterns. Natural calamities or distress migration as a reason for migration for last residence migrants included in 1991 Census, is covered under category of 'Others'. The reason for migration has been determined as applicable at the time of migration and not in reference to any point of time after that. For example, if a person had moved from the place of her/his last residence for the purpose of education and subsequently at some point of time got employment there only, the reason for migration would be 'education' and not 'work/employment'.

Internal and International migration

The migrational movements are of three types (i) Migration within the state itself with its components (a) Migration within the district of enumeration (intra district migration) (b) Migration from one district of state to another district of state (inter district migration), (ii) Migration from one state to another State of the country (inter-state migration), (iii) Migration from one country to another country. The first two streams together constitute internal migration, while the last type of movement is called international migration. The

present name of the country, state or district and not the name by which they were known at the time of her/his birth or last residence were recorded.

Rural-Urban components of migration

Rural or Urban status in respect of migrants have been determined as applicable at the time of migration and not with reference to any point of time after that.

(vii) 2001 Census findings

Population Distribution

The total population of the district is 1,682,350 divided in to the 1,546,770 in rural and 135,580 in urban area. The most populous tahsil is Tulsipur, with 604,100 population followed by Utraula tahsil with population 556,292. The least populous tahsil is Balrampur with population 521,958. The maximum urban population resides at Balrampur tahsil which is 72,501, followed by Tulsipur tahsil with 35,577 urban population whereas the least urban population is in Utraula tahsil which is 27,502. At the 2001 Census the district has 8.1 per cent of its population living in towns. As compared to this in the State the same is 20.8 per cent. The population of urban area is highest at 13.9 per cent in Balrampur tahsil followed by 5.9 per cent in Tulsipur tahsil and least of 4.9 per cent in the Utraula tahsil.

Size, Class and Status of Towns

There are 4 statutory Towns in the district. Balrampur NPP with 72,501 population is Class II.town. Utraula NPP & Tulsipur NP.with 27,502 and 21,243 population is Class III. There is one Class IV town in the district – named Pachperwa NP. The two.Municipal Boards in the district are Balrampur NPP & Utraula NPP apart from Nagar Panchayats, namely Tulsipur NP & Pachperwa NP.

Population Growth

The population of the district in 1991 at jurisdiction of 2001, was 1,368,630. The population of the district in 2001 Census is 1,682,350. During 1991 to 2001 Census, decadal population growth of the district was 22.9 per cent. The male and female growth rates in district were 21.2 percent and 24.9 respectively.

Population Density

The area of the district is 3,349.square kilometre. The density of population in the district is 502 as compared to 690 in the state. In the rural area of the district the population density is 468.

Sex ratio

The sex ratio in the district is 895 while it is 898 in the state. In the rural area of the district the sex ratio is 894while it is 899 in urban area. The sex ratio among three tahsils varies between 965 in Utraula 965 to 850 in Balrampur. Among C.D. blocks the sex ratio varies from 974 in Shri Duttganj to 819 in Haraya Satgarhwa. The sex ratio in rural population in the district comes to 894. Among towns of the district the least sex ratio is found in Tulsipur NP and highest in Pachperwa NP. The sex ratio of population in the age-group 0-6 is 961 in the district. The sex ratio of population of the age-group 0-6 the rural area is 962 against .965.in urban area. The sex ratio of population in the age-group 0-6 among nineC.D. blocks varies from as low as 940 in Haraya Satgarhwa to as high as 979 in Tulsipur. The sex ratio of population in the age-group 0-6. Among towns varies from 923 in Utraula NPP to 998 in Tulsipur.

Work Participation Rate

In the district about 42.4 per cent population come in category of working population. The proportion of male working population is about 52.5 per cent against about 31.2 per cent among females. Main workers constitute 29.8 per cent of total population. Female workers predominate male among marginal workers. Non-workers contribute about 57.6 per cent of total population. Out of these about 72.7 per cent are from the urban population. In rural area about 66.7 per cent females are Non-workers. In worker in the district 55.2 per cent are cultivators, 31.7per cent engaged as agricultural labourers, 2.3.per cent in household industry and 10.9.per cent as other workers. Among male workers 57.7 per cent are cultivators as compared to 50.4 per cent among females. Similarly as against 14.7 per cent male other workers, the proportion of female is only 3.8 percent. In rural area of the district as much as about 57.9 per cent of working population is cultivators as against only 4.8.per cent in urban area. In case of other workers, the composition of rural and urban proportion

is 7.2 and 79.3 per cent of working population. It may be mentioned that the working population in the district is about 42.4 per cent as compared to about 32.5 per cent in the state.

Literacy

In the district about 34.6 per cent of the population is literate as against 56.3 per cent in the state of Uttar Pradesh. In the district 45.8 per cent of the male population is literate as compared to 68.8 per cent in the state. However, among females the literacy in the district to 21.8 per cent as compared to 42.2 per cent at the state level. In the district literacy rate is 62.3 per cent in urban area as against 32.0 per cent in rural area. The gap in male/female literacy rate is 24.8 per cent in rural area as compared to 15.9 per cent in urban area. The literacy rate among C.D. blocks varies between 26.9 per cent in Haraya Satgarhwa to 38.4 per cent in Rehra Bazar Similarly, the literacy rate among towns varies from 53.2. per cent in Pachperwa NP to 65.2 per cent in Utraula NPP.

(viii) Brief analysis of PCA data

The district throws up an vivid picture of its population at the 2001 Census. A few of the peculiar characteristics of the population is being highlighted through the following inset tables.

TABLE 1: DECADAL CHANGE IN POPULATION OF TAHSILS BY RESIDENCE, 1991-2001

Serial number	Tahsil	Population						Percentage decadal variation 1991-2001			Percentage urban population	
		1991			2001						1991	2001
		Total	Rural	Urban	Total	Rural	Urban	Total	Rural	Urban		
1	2	3	4	5	6	7	8	9	10	11	12	13
1	Balrampur	NA	NA	NA	521,958	449,457	72,501	NA	NA	NA	NA	13.9
2	Tulsipur	NA	NA	NA	604,100	568,523	35,577	NA	NA	NA	NA	5.9
3	Utraula	NA	NA	NA	556,292	528,790	27,502	NA	NA	NA	NA	4.9
District total		**1,368,630**	**1,253,491**	**115,139**	**1,682,350**	**1,546,770**	**135,580**	**22.9**	**23.4**	**17.8**	**8.4**	**8.1**

The growth rates of each tahsil in the Balrampur district for total, rural and urban area and percentage of urban population to total population is given in table. The decadal growth rate of the district is 22.9 per cent during 1991-2001. The growth rates for rural and urban area of the district are 23.4 and 17.8 per cent respectively. Out of the total population of the district 91.9 per cent lives in rural area while 8.1 per cent lives in urban area of the district. The proportion of urban population has slightly declined during the decade from 8.4 per cent in 1991 to 8.1per cent in 2001 in the district.

TABLE 2: NUMBER AND PERCENTAGE OF INHABITED VILLAGES IN SPECIFIED POPULATION SIZE RANGES WITH THE RELATED POPULATION , 2001

Serial number	District / C.D. block	Total number of inhabited villages	Total rural population			Number and percentage of villages	Population less than 200		Number and percentage of villages
			Persons	Males	Females		Males	Females	
1	2	3	4	5	6	7	8	9	10
1	Haraya Satgharwa	129	200,341	110,186	90,155	0 (0.0)	0	0	9 (7.0)
2	Balrampur	135	249,116	133,867	115,249	3 (2.2)	202	165	7 (5.2)
3	Tulsipur	107	207,622	111,803	95,819	0 (0.0)	0	0	3 (2.8)
4	Gesari	137	192,976	103,350	89,626	1 (0.7)	3	0	8 (5.8)

Serial number	District / C.D. block	Total number of inhabited villages	Total rural population			Number and percentage of villages	Population less than 200		Number and percentage of villages
			Persons	Males	Females		Males	Females	
1	2	3	4	5	6	7	8	9	10
5	Pachperwa	128	166,290	87,918	78,372	3 (2.3)	181	168	13 (10.2)
6	Shri Dutt Ganj	95	128,642	65,169	63,473	6 (6.3)	344	355	12 (12.6)
7	Utraula	112	120,656	61,443	59,213	3 (2.7)	183	193	27 (24.1)

Table-2 gives C.D. block-wise population, number and percentage of villages falling in each range of population size of villages and number of males and females in each population range at C.D. block level in the district. Out of the 999 inhabited villages, 21 (2.1 per cent) are small sized villages with population below 200 persons. In the size of 200 to 499 persons there are 88 villages having 8.8 per cent villages of the district while in the size class of 500-999 population claims 229 villages with 22.9 per cent of the total villages in the

district. 420 villages (42.0 per cent) are in the size class of 1,000-1,999 and 224 villages (22.4 per cent) are in the size class of 2,000-4,999. None of villages in the district fall in the ranges of 5,000 and above population.

Table 3: New Towns, Denotified, Declassified and Merged Towns in 2001 Census

Name of town
1
(a) New
(i) Statutory town
1.
2. Nil
3.
(ii) Census town
1.
2. Nil
3.
(b) Denotified
(i) Statutory towns of 1991 census denotified and also did not satisfy the criteria to be treated as census towns - Nli
1.
2. Nil
3.
(ii) Statutory towns of 1991 census denotified but identified as census towns based on demographic and economic criteria – Nil
1.
2. Nil
3.
(iii) Census towns of 1991 census are notified as statutory town in 2001 census - Nil
1.
2. Nil
3.
(c) Declassified
1.
2. Nil
3.
(d) Wholly merged with other town(s)
1.
2. Nil
3.

Declassified means the census towns of 1991 Census which failed to satisfy the demographic and economic criteria.

During the decade 1991-2001, no new town has been added or declassified or merged with other town in the district.

TABLE 4: DISTRIBUTION OF VILLAGES BY POPULATION DENSITY, 2001

Range of population density (per square kilometer)	Total number of villages in each population density range	Percentage of villages in each population density range	Population	Percentage distribution of population
1	2	3	4	5
0-10	183	18.3	253,845	16.4
11-20	1	0.1	25	0.0
21-50	5	0.5	1,149	0.1
51-100	12	1.2	5,965	0.4
101-200	32	3.2	25,295	1.6
201-300	52	5.2	47,769	3.1
301-500	247	24.7	356,015	23.0
501 +	467	46.7	856,707	55.4
Not known	0	0.0	0	0.0
District Total:	999	100.0	1,546,770	100.0

This table 4 shows the distribution of villages by population density ranges. The inhabited villages of the district have been grouped under eight different ranges of density. The maximum number of village i.e. 467 accounting for 46.7 per cent of the total inhabited villages of the district fall in the density range of 500 & above persons having 55.4 per cent population. The lowest ranges of 11-20 & 21-30 persons per sq. km. cover 1 village (0.1 per cent) and 5 villages (0.5 per cent) respectively. 467 villages have very high density with more than 501 persons per sq. km. while the corresponding proportion in the range of 301 to 500 is 247 per cent of the total inhabited villages having 23.0 per cent population of the district. In the medium densities ranges of 21 to 50 and 51-100 persons account for 0.5 and 1.2 per cent of inhabited villages respectively. Both these ranges claim 0.5 per cent rural population.

Table-5: Sex Ratio of State and District1901-2001

Census Year	UTTAR PRADESH			BALRAMPUR		
	Total	Rural	Urban	Total	Rural	Urban
1901	938	941	916	965	964	974
1911	916	922	866	966	966	960
1921	908	918	834	957	959	897
1931	903	916	813	954	958	872
1941	907	922	824	945	948	902
1951	908	922	827	931	933	907
1961	907	921	817	917	921	842
1971	876	884	826	867	869	841
1981	882	889	850	875	874	878
1991	876	879	864	868	866	882
2001	898	904	876	895	894	899
NOTE- Sex Ratio has been defined here as the number of females per 1000 males						

As per 2001 Census sex-ratio of 895 females per 1,000 males has been recorded in the district against the state average of 898 The sex-ratio of the district was significantly high as compared to the state average figures from 1901 to 1961 and remained above the state average figures during this period. The subsequent decades show declining trend from 1971 to 2001 and value remained below the state average. The lowest sex ratio of 867 females per 1000 males were recorded in the district during 1971 against the state average of 876 females. It is also observed that the proportion of females in rural area is higher than that of urban area in the district except in 1901 and from 1981 to 2001 Census the trend follows the state.

TABLE 6: SEX RATIO BY TAHSILS, 2001

Serial number	Name of Tahsil	Sex ratio		
		Total	Rural	Urban
1	2	3	4	5
1	Balrampur	850	842	901
2	Tulsipur	872	870	900
3	Utraula	965	969	895
	District Total:	**895**	**894**	**899**

Table-6 gives sex-ratios for total, rural and urban area at tahsil level as per 2001 Census. There are 899 females for every thousand males in urban area of the district. It becomes clear from the table that sex-ratio in urban area is higher than that of rural area. The sex-ratio among rural and urban population is 894 and 899 females respectively. The rural sex-ratio in the tahsils varies between 842 in Balrampur tahsil and 969 females per 1,000 males in Utraula tahsil. The sex-ratio in Utraula tahsil (969) is higher than district rural average (894). In urban area the highest sex-ratio is recorded in Balrampur (901) and the lowest is in Utraula urban (895).

TABLE 7: SEX RATIO BY CD BLOCKS, 2001

Serial number	Name of C D block	Sex ratio
1	2	3
1	Haraya Satgharwa	818
2	Balrampur	861
3	Tulsipur	857
4	Gesari	867
5	Pachperwa	891
6	Shri Dutt Ganj	974
7	Utraula	964
8	Gaindas Buzurg	970
9	Rehra Bazar	969
10	Forest Villages	829
	District (Rural) Total:	**894**

The table-7 presents C.D. block-wise sex-ratio for rural population in the district. The sex-ratio in rural area of the district comes 894 females per 1,000 males, as a whole. Among the C.D. blocks the highest sex-ratio of 974 females is found in Shri Dutt Ganj C.D. block and is fallowed by Gaindas Buzurg (970) while the lowest of 818 is recorded in Haraya Satgharwa C.D. block. The sex-ratios of Sri Dutt Ganj, Gaundas Buzurg, Utraula and Rehra Bazar C.D. block are higher than the district rural average of 894 females and in remaining blocks, this value is below the district average.

TABLE 8: SEX RATIO OF RURAL POPULATION BY RANGES, 2001

Range of sex ratio for villages	Number of inhabited villages	Percentage of villages in each range	Population 2001	Percentage distribution of population
1	2	3	4	5
Less than 700	10	1.0	2,838	0.2
700-749	23	2.3	17,757	1.1
750-799	99	9.9	124,768	8.1
800-849	209	20.9	345,508	22.3
850-899	218	21.8	374,236	24.2
900-949	196	19.6	309,125	20.0
950-999	108	10.8	201,201	13.0
1000-1099	89	8.9	135,516	8.8
1100+	47	4.7	35,821	2.3
District Total	**999**	**100.0**	**1,546,770**	**100.0**
Sex ratio (Rural) for District:		**894**		

Table 8 presents the distribution of villages by 894 sex-ratio ranges based on 2001 Census. The maximum number of villages i.e. 218 accounting for 21.8. per cent of the total villages having largest population of 24.2 per cent in the district fall in the sex-ratio range of 850-899 females per 1,000 males. It is followed by the sex-ratio range of 800-849 which claims 209 villages (20.9 per cent) and 22.3 per cent population. The highest range of 1,100 & above claims 47 villages (4.7 per cent). This range shares 2.3 per cent rural population of the district while in the sex-ratio range of 900-949; there are 196 villages (19.6 per cent). In remaining sex-ratio ranges of 1000-1099,950-999, 750-799, 700-749 and less than 700, the number of villages are 89(8.9 per cent), 108 (10.8 per cent), 99 (9.9 per cent), 23 (2.3 per cent) and 10 (1.0 per cent) respectively. In these ranges, the percentage of population is comparatively low. The maximum number of villages i.e 218 having maximum population (24.2 per cent) fall in the lower sex-ratio ranges of 850-899 females and this showing that in majority of villages the sex-ratio is significantly lower.

TABLE 9: SEX RATIO OF URBAN AGGLOMERATIONS / TOWNS, 2001

Serial number	Name of U.A./Town	Urban status of town	Sex ratio
1	2	3	4
1	Balrampur	(NPP)	901
2	Tulsipur	(NP)	886
3	Pachperwa	(NP)	921
4	Utraula	(NPP)	895
Sex ratio (Urban) for the district			**899**

Table 9 gives the sex ratio of towns. The sex ratio in urban area of the district comes to 899 females per 1,000 males as a whole. Among the four towns of the district the sex ratio varies between 886 to 921 Pachperwa (N.P.) has the highest sex ratio (921) While Tulsipur (N.P.) has the lowest sex ratio of 886 females per 1000 males.

TABLE 10: SEX RATIO OF POPULATION IN THE AGE GROUP 0-6 FOR TAHSILS, 2001

Serial number	Name of Tahsil	Total / Rural / Urban	Total population in 0-6 age group			Sex ratio for 0-6 age group
			Persons	Males	Females	
1	2	3	4	5	6	7
1	Balrampur	Total	99,545	51,035	48,510	951
		Rural	88,812	45,470	43,342	953
		Urban	10,733	5,565	5,168	929
2	Tulsipur	Total	122,312	61,964	60,348	974
		Rural	115,874	58,731	57,143	973
		Urban	6,438	3,233	3,205	991
3	Utraula	Total	117,575	60,131	57,444	955
		Rural	112,807	57,651	55,156	957
		Urban	4,768	2,480	2,288	923
	District Total	**Total**	**339,432**	**173,130**	**166,302**	**961**
		Rural	**317,493**	**161,852**	**155,641**	**962**
		Urban	**21,939**	**11,278**	**10,661**	**945**

Table 10 presents population of age-group 0-6 years and sex-ratio for total, rural and urban area in respect of each tahsil of the district. Total population in age-group 0-6 is 339,432 persons comprising 173,130 males and 166,302 females. The total sex-ratio in this age-group works out 961 females for every thousand males in the district. The proportion of females in rural area is higher than that of urban area. The sex-ratio in rural and urban area comes 962 and 945 females in this age-group respectively. The rural sex-ratio in tahsil varies between 953 to 973. The sex-ratio of Tulsipur is higher than district rural average (962) Balrampur (T) has lowest sex-ratio of 953 females among the total population. In urban area, the higher sex-ratio is recorded in Tulsipur urban (991) and the lowest is found in Utraula urban (923).

TABLE 11: SEX RATIO OF POPULATION IN THE AGE GROUP 0-6 FOR C.D. BLOCKS, 2001

Serial number	Name of C.D. block	Total population in 0-6 age group			Sex ratio for 0-6 age group
		Persons	*Males*	*Females*	
1	2	3	4	5	6
1	Haraya Satgharwa	38,431	19,809	18,622	940
2	Balrampur	50,381	25,661	24,720	963
3	Tulsipur	41,410	20,926	20,484	979
4	Gesari	39,698	20,119	19,579	973
5	Pachperwa	34,372	17,466	16,906	968

Serial number	Name of C.D. block	Total population in 0-6 age group			Sex ratio for 0-6 age group
		Persons	Males	Females	
1	2	3	4	5	6
6	Shri Dutt Ganj	27,126	13,854	13,272	958
7	Utraula	26,382	13,408	12,974	968
8	Gaindas Buzurg	24,556	12,534	12,022	959
9	Rehra Bazar	34,743	17,855	16,888	946
10	Forest Villages	394	220	174	791
District (Rural) Total		**317,493**	**161,852**	**155,641**	**962**

Table 11 gives C.D. block-wise sex-ratio of rural child population in the age-group 0-6 years in the district. The sex-ratio is 962 for the district (rural). The sex-ratio of C.D. blocks varies between 940 to 979. It is highest in Tulsipur C.D. block i.e. 979 followed by 973 in Gasari C.D. block and lowest 940 females is found in Haraya Satgharwa C.D. blocks. The sex-ratio of Tulsipur, Gesari, Uttaraula, Pachperwa and Balrampur C.D. blocks are higher than the district rural (962) while in remaining blocks, it is below the average of the district. The sex ratio is 791 for the forest villages, which is lowest in all the CD blocks in the district.

TABLE 12: SEX RATIO OF RURAL POPULATION IN THE AGE GROUP 0-6 BY RANGES, 2001

Range of sex ratio for villages	Number of inhabited villages	Percentage distribution of villages	Population 2001	Percentage distribution of population
1	2	3	4	5
Less than 700	29	2.9	3,029	1.0
700-749	25	2.5	4,938	1.6
750-799	46	4.6	10,354	3.3
800-849	99	9.9	25,662	8.1
850-899	116	11.6	36,560	11.5
900-949	157	15.7	62,746	19.8
950-999	153	15.3	62,570	19.7
1000-1099	215	21.5	72,821	22.9
1100+	159	15.9	38,813	12.2
District (Rural) Total	**999**	**100.0**	**317,493**	**100.0**
Sex ratio (Rural) for District:		**962**		

Table 12 shows the distribution of villages in 9 sex-ratio ranges of the age-group 0-6 years as well as percentage of villages, total population and percentage of population of this age-group falling in each range of sex-ratio in the district.

The maximum number of villages i.e. 215 (21.5 per cent) having largest population (22.9 per cent) in the district (rural) fall in the sex-ratio range of 1000 -1099 females per 1,000 males in age of 0-6 years. It is followed by the sex-ratio range of 1,100 & above which claims 159 villages (15.9 per cent) and 12.2 per cent population. Next to it, 157 villages (15.7 per cent) are in the range of 900-949 with 19.8 per cent population. 153 villages (15.3 per cent) having 19.7 per cent population fall in sex-ratio range of 950-999. In remaining sex-ratio ranges of less than 700, 700-749, 750-799, & 850-899 claim less number of villages and these are distributed as 29 (2.9 per cent), 25 (2.5 per cent), 46 (4.6 per cent), 99 (9.9 per cent and 116 (11.6 per cent) respectively. In these ranges, the percentage of population is also low. It becomes clear from the table that more than fifty percent of villages i.e. 527 having population (54.8 per cent) fall in the higher sex-ratio ranges of 950 to 999 and above.

TABLE13: SEX RATIO OF POPULATION IN THE AGE GROUP 0-6 OF URBAN AGGLOMERATIONS / TOWNS, 2001

Serial number	Name of UA / Town	Urban status of town	Total population in 0-6 age group			Sex ratio for 0-6 age group
			Persons	Males	Females	
1	2	3	4	5	6	7
1	Balrampur	(NPP)	10,733	5,565	5,168	929
2	Tulsipur	(NP)	3,496	1,750	1,746	998
3	Pachperwa	(NP)	2,942	1,483	1,459	984
4	Utraula	(NPP)	4,768	2,480	2,288	923
District(Urban) Total			**21,939**	**11,278**	**10,661**	**945**

Table 13 shows sex ratio of population in the age group 0-6 of urban agglomerations/towns, 2001. In urban area of the district total population in age group of 0-6 is 21,939 in which 11,278 males and 10,661 females and sex ratio of the urban area of the district is 945. Among four towns sex ratio in age group 0-6 varies from 923 in Utraula NPP to 998 in Tulsipur (N.P). In Tulsipur and Pachperwa towns sex ratio is more than the district average. Among four towns Balrampur NPP has highest population.

TABLE 14: NUMBER AND PERCENTAGE OF SCHEDULED CASTES AND SCHEDULED TRIBES POPULATION IN TAHSILS, 2001

Serial number	Name of Tahsil	Total / Rural / Urban	Total population	Total Scheduled Castes population	Total Scheduled Tribes population	Percentage of Scheduled Castes population to total population	Percentage of Scheduled Tribes population to total population

Table 14 depicts the distribution of Scheduled Castes and Scheduled Tribes population as well as their percentage to total population at tahsil level in rural and urban area of the district. Out of 1,682,350 total population of the district, 13.5 per cent of the population belongs to the Scheduled Castes and 1.1 per cent to Scheduled Tribes. The percentage of Scheduled Castes, constitutes 14.2 per cent in rural population and 5.8 per cent in urban population of the district. The highest percentage of total Scheduled Castes population is recorded in Balrampur tahsil (16.2) while the lowest is found in Tulsipur tahsil (12.0 per cent). The proportions of Scheduled Tribes population in rural and urban area are 1.2 and 0.1 per cent respectively. Scheduled Tribes population in the district is mainly concentrated in tahsil Tulsipur (3.2 per cent).

TABLE 15: NUMBER AND PERCENTAGE OF SCHEDULED CASTES AND SCHEDULED TRIBES POPULATION IN C.D. BLOCKS, 2001

Serial number	Name of C.D. block	Total population	Total Scheduled Castes population	Total Scheduled Tribes population	Percentage of Scheduled Castes population to total population	Percentage of Scheduled Tribes population to total population
1	2	3	4	5	6	7

District (Rural) Total:		**1,546,770**	**218,873**	**19,278**	**14.2**	**1.2**

Table 15 shows distribution of Scheduled Castes and Scheduled Tribes population in each C.D. block of the district. 14.2 per cent of rural population of the district belongs to Scheduled Castes and 1.2 per cent to Scheduled Tribes. In C.D blocks, Scheduled Castes population varies between 18.7 per cent in Balrampur and 11.2 per cent in Sri Dutt Ganj, C.D. block. The other C.D. blocks containing the highest percentage of Scheduled Castes are Haraya Satgharwa (16.5), Gaindas Buzurg (15.6) and Utraula (14.3). The highest proportion of 8.2 per cent Scheduled Tribes population is counted in Pachperwa C.D. block While the lowest percentage of Scheduled Tribes is recorded in Gesari (2.3). The Scheduled Tribes population in the district is mainly concentrated in Pachperwa and Gesari C.D. blocks.

TABLE 16: PROPORTION OF SCHEDULED CASTES POPULATION TO TOTAL POPULATION IN VILLAGES, 2001

Percentage range of Scheduled Castes population to total population	Number of villages	Percentage	Scheduled Castes Population	Percentage
1	2	3	4	5
Nil	50	5.0	0	0.0
Less than 5	103	10.3	5,200	2.4

31-40	42	4.2	16,107	7.4
41-50	19	1.9	7,194	3.3
51-75	4	0.4	1,960	0.9
76 and above	1	0.1	104	0.0
District Total	**999**	**100.0**	**218,873**	**100.0**

Table 16 reflects the number of villages according to the proportion of Scheduled Castes population to their total population in different ranges of percentage at district level. 50 villages accounting for 5.0 per cent of total 999 inhabited villages in the district do not have any Scheduled castes population. The proportion of Scheduled Castes population is less than 5.0 per cent in 103 villages (10.3 per cent). In 846 villages, it varies between 5-75 & above per cent while the next range of 5-10 per cent accounts for 244 villages constituting 24.4 per cent of the total villages. The range of 11-20 and 21-30 per cent contains 371 and 165 villages respectively. Both these ranges together account for 53.6 per cent villages of the district. One village falls in

the range of 76 and above percent. 780 villages are such where the proportion of Scheduled Castes is more than 16 per cent. These villages contain 86 per cent Scheduled Castes population of the district. The maximum of the 44.5 per cent of the Scheduled Castes population is covered by range of 11-20 per cent.

TABLE 17: PROPORTION OF SCHEDULED TRIBES POPULATION TO TOTAL POPULATION IN VILLAGES, 2001

Percentage range of Scheduled Tribes population to total population	Number of villages	Percentage	Scheduled Tribes Population	Percentage
1	2	3	4	5
Nil	940	94.1	0	0.0

51-75	5	0.5	3,100	16.1
76 and above	17	1.7	12,096	62.7
District Total	**999**	**100.0**	**19,278**	**100.0**

Table 17 indicates the distribution of villages by percentage ranges of Scheduled Tribes population to total population in the villages. 1.2 per cent of rural population of the district belong to Scheduled Tribes population. There are 940 (94.1 per cent) villages, where none of Scheduled Tribes have been recorded in the district. 22 (2.2 per cent) villages have proportion of Scheduled Tribes population up to 1.2 per cent and remaining 37 (3.7 per cent) villages have above 98 percent Scheduled Tribes population. 17 villages are such where proportion of Scheduled Tribes population ranges 76 and above per cent accounting for 62.7 per cent of the total Scheduled tribes population of the district. In 5 villages the proportion of Scheduled Tribes population ranges between 51-75 per cent accounting for 16.1 per cent of the total population of the district.

TABLE 18: NUMBER AND PERCENTAGE OF SCHEDULED CASTES AND SCHEDULED TRIBES POPULATION IN URBAN AGGLOMERATIONS / TOWNS, 2001

Serial number	Name of UA/ Town	Total population	Total Scheduled Castes population	Total Scheduled Tribes population	Percentage of Scheduled Castes population to total population	Percentage of Scheduled Tribes population to total population
1	2	3	4	5	6	7
1	Balrampur (NPP)	72,501	4,933	20	6.8	0
2	Tulsipur (NP)	21,243	1,063	28	5.0	0.1
3	Pachperwa (NP)	14,334	735	19	5.1	0.1
4	Utraula (NPP)	27,502	1,149	2	4.2	0.0
District(Urban) Total		**135,580**	**7,880**	**69**	**5.8**	**0.1**

Table 18 shows number and percentage of scheduled caste and scheduled tribes population recorded during 2001 Census in district Balrampur. The table depicts that scheduled caste population in Balrampur, Tulsipur, Pachperwa & Utraula towns varies from 4.2 to 6.8 percent. Scheduled tribe population is negligible in the urban area of the district. There is no scheduled tribe population in Balrampur & Utraula towns. Tulsipur and Pachperwa towns recorded the same percentage of S.T. population to total population i.e. 0.1 percent.

TABLE 19: SEX RATIO AMONG SCHEDULED CASTES AND SCHEDULED TRIBES IN C. D. BLOCKS, 2001

Serial number	Name of C D block	Scheduled Castes sex ratio	Scheduled Tribes sex ratio
1	2	3	4
1	Haraya Satgharwa	809	0
2	Balrampur	840	800
3	Tulsipur	835	750
4	Gesari	832	897
5	Pachperwa	837	920
6	Shri Dutt Ganj	907	0
7	Utraula	915	400
8	Gaindas Buzurg	963	0
9	Rehra Bazar	947	1,000
10	Forest Villages	734	875
	District (Rural) Total	**862**	**911**

Table 19 shows sex ratio among Scheduled Castes and Scheduled Tribes in each C.D. block of the district. The Scheduled Castes sex ratio is 862 for district (rural). Among the C.D. blocks, the highest sex ratio of 963 females is found in Gaindas Buzurg C.D. block and lowest of 809 females is recorded in Haraya Satgharwa C.D. block. This table also shows sex raio of ST population in rural area of the district is 911 point · Rehra Bazar C.D. block has recorded a unique feature in S.T. as sex ratio of this block shows equal females with males. It is also interesting to note that only 400 females per 1,000 males are recorded in Utraula C.D., the lowest sex ratio among the blocks. In forest villages the Scheduled Castes and Scheduled Tribes sex ratio is 734 and 875 females per 1,000 males, respectively.

TABLE 20: SEX RATIO AMONG SCHEDULED CASTES AND SCHEDULED TRIBES IN URBAN AGGLOMERATIONS / TOWNS, 2001

Serial number	Name of U.A./ Town	Scheduled Castes sex ratio	Scheduled Tribes sex ratio
1	2	3	4
1	Balrampur (NPP)	922	111
2	Tulsipur (NP)	940	750
3	Pachperwa (NP)	929	1375
4	Utraula (NPP)	835	0
	Sex ratio (Urban) for the district	**912**	**568**

Table 20 shows sex ratio among scheduled castes and scheduled tribes in urban agglomerations/towns during 2001 census. A sex ratio of 912 females per 1000 males has been recorded for urban area in the district for Scheduled Castes and 568 for Scheduled tribes. Among towns sex ratio of scheduled castes highest (940) in Tulsipur NP and is lowest (835) in Utraula NPP. Among scheduled tribes sex ratio is highest 1,375 in Pachperwa NP and lowest at 111 in Balrampur NPP. Utraula town has sex ratio zero in scheduled tribes population. It means Scheduled tribe females population is zero in Utraula NPP.

TABLE 21: NUMBER AND PERCENTAGE OF LITERATES AND ILLITERATES BY TAHSILS, 2001

Serial number	Name of Tahsil	Total / Rural / Urban	Number of literates and illiterates						Percentage of literates			Gap in male-female literacy rate

		Urban	**70,802**	**41,953**	**28,849**	**64,778**	**29,425**	**35,353**	**62.3**	**69.8**	**53.9**	**15.9**

District and tahsil-wise literacy rates besides the number of literates and illiterates for total, rural and urban area are given in table-21. The literacy rates are worked out by excluding population of 0-6 years. As per 2001 Census, the proportion of literates to total population excluding 0-6 years comes to 34.6 per cent in the district. This proportion in rural area is 32.0 per cent against 62.3 per cent in urban area. In the district the literacy rates of males (45.8 per cent) is much higher than that of females (21.8 per cent). Among the tahsils, Utraula tahsil tops with 36.8 per cent literates followed by 36.3 Balrampur tahsil. Tausipur tahsil with 31.1 per cent literates stands at the bottam in the district. Out of 3 tahsils, the literacy rates of two tahsils are higher than that of district average. It is observed that in urban area of district the literacy rates are higher than the rural area.

The gap between male and female literacy is very high, which comes to 24.1 per cent in the district, as a whole. The situation at tahsil level is not much different. However this gap in urban literacy is low which comes to 15.9 points against the rural area, where the gap between male and female literacy is 24.8 points.

TABLE 22: NUMBER AND PERCENTAGE OF LITERATES AND ILLITERATES BY SEX IN C. D. BLOCKS, 2001

Serial Number	Name of C.D. block	Number of literates and illiterates						Percentage of literates			Gap in Male-female Literacy rate
		Number of literates			Number of illiterates						
		Persons	Males	Females	Persons	Males	Females	Persons	Males	Females	
1	2	3	4	5	6	7	8	9	10	11	12

District (Rural) Total:		**393,785**	**285,741**	**108,044**	**1,152,985**	**530,820**	**622,165**	**32.0**	**43.6**	**18.8**	**24.8**

Table 22 reveals number of literates, illiterates and the literacy rates in rural area at C.D. block level in the district. 32 per cent of the total rural population excluding the age-group of 0-6 years literates in the district. The corresponding proportion of male and female literates comes to 43.6 and 18.8 per cent respectively, which shows very wide gap of 24.8 per cent in male and female literacy. At C.D. block level,

Rehra Bazar C.D. block has the highest rural literacy rate of 38.4 per cent while 51.7 per cent males and 24.8 per cent females are literates in this block. The lowest literacy rate in rural area is noted in Haraya Satgharwa C.D. block (26.9 per cent). There are wide variations in male and female literacy in all the C.D. blocks of the district. The maximum difference of 28.3 points is found in Shree Dutt Ganj C.D. block.

TABLE 23: DISTRIBUTION OF VILLAGES BY LITERACY RATE RANGE, 2001

Range of literacy rate for villages	Number of inhabited villages	Percentage distribution of villages	Population	Percentage distribution of population
1	2	3	4	5
0	1	0.1	25	0.0
1-10	24	2.4	15,860	1.0
11-20	131	13.1	188,738	12.2
21-30	325	32.5	519,817	33.6
31-40	290	29.0	499,451	32.3

51-60	53	5.3	72,381	4.7
61-70	8	0.8	13,801	0.9
71-80	2	0.2	688	0.0
81-90	1	0.1	25	0.0
91-99	0	0.0	0	0.0
100	1	0.1	3	0.0
District Total:	**999**	**100.0**	**1,546,770**	**100.0**
Literacy rate for District		**34.6**		

Table 23 gives the distribution of villages by literacy rate ranges in the district. There is no literate in 01 villages (0.1 per cent) of the district and population of these villages is only 25 persons. 1 village (0.1 per cent) have all the literate population. 53 villages accounting for 5.3 per cent of the total villages are in the literacy range of 51-60 per cent and 8 villages (0.8 per cent) fall in the literacy range of 61-70 per cent. The lower literacy rate of 1 to 50 per cent observed in 933 villages (93.3 per cent) of the district. The higher literacy ranges of 71 to 100 per cent covers 4 villages (0.4 per cent). The range of 21-50 have the maximum number of 778 villages forming 77.8 per cent of the total inhabited villages.

TABLE 24: NUMBER AND PERCENTAGE OF LITERATES AND ILLITERATES BY SEX IN URBAN AGGLOMERATIONS / TOWNS, 2001

Serial number	Name and urban Status of UA/Town	Number of literates and illiterates						Percentage of literates			Gap in male-female literacy rate
		Number of literates			Number of illiterates						
		Persons	Males	Females	Persons	Males	Females	Persons	Males	Females	
1	2	3	4	5	6	7	8	9	10	11	12

4	Utraula (NPP)	14,812	8,691	6,121	12,690	5,825	6,865	65.2	72.2	57.2	15
District(Urban) Total		**70,802**	**41,953**	**28,849**	**64,778**	**29,425**	**35,353**	**62.3**	**69.8**	**53.9**	**15.9**

Table 24 shows number and percentage of literates and illiterates by sex during 2001 in the urban area of the district. The table reveals that literacy rate is 62.3 ercent in the urban area of the district (Balrampur). The literacy rate is quite high (above 72 per cent in two towns) among males. Female literacy rate is not for behind in two towns (above 56 per cent). However, literacy rate among females is very low (43.2 per cent) in Pachperwa town, and the gap in male female literacy rate is also high (19.0).

TABLE 25: NUMBER AND PERCENTAGE OF SCHEDULED CASTES LITERATES AND ILLITERATES BY SEX IN C.D. BLOCKS, 2001

Serial number	Name of C.D. block	Number of literates and illiterates						Percentage of literates			Gap in Male/female Literacy rate

Table 25 shows number and percentage of scheduled castes literates and illiterates by sex in C.D. blocks 2001 Census. In rural area of the district proportion of literacy is 23.8 per cent in which 34.5 males and 11.0 females. Thus, the gap in male and female literacy rates is 23.5. Among 9 C.D. blocks, Utraula C.D. block has the highest literacy rate and Gesari C.D. block has the lowest (19.4) literacy rates. The gap in male/female literacy rates in Utaraula C.D. block is highest and this gap is lowest in Forest village C.D Haraya Satgharwa CD block. In forest villages there are only 5.3 percent persons are literate.

TABLE 26: DISTRIBUTION OF VILLAGES BY LITERACY RATE RANGE FOR SCHEDULED CASTES POPULATION, 2001

Range of literacy rate for villages	Number of inhabited villages	Percentage distribution of villages	Scheduled Castes Population	Percentage distribution of population
1	2	3	4	5
0	16	1.7	399	0.2
1-10	110	11.6	19,203	8.8

District Total:	**949**	**100.0**	**218,873**	**100.0**
Literacy rate for District (Rural):		**23.8**		

Table 26 presents the distribution of villages by literacy rate range for scheduled castes population at the 2001 censes. In majority of inhabited villages, which from about 38 per cent of total rural scheduled castes population the literacy range is 21 to 30 percentages. In the district there are 2 inhabited villages with scheduled castes population about 100 per cent of literacy rate. It is observed that in the literacy rate ranges from 11-40, there are 752 villages (79.2 percent) covering 86.8 percent of the population.

TABLE 27: NUMBER AND PERCENTAGE OF SCHEDULED CASTES LITERATES AND ILLITERATES BY SEX IN TOWNS, 2001

Serial number	Name and urban status Of Town	Number of literates and illiterates						Percentage of literates			Gap in male/female literacy rate
		Number of literates			Number of illiterates						
		Persons	Males	Females	Persons	Males	Females	Persons	Males	Females	
1	2	3	4	5	6	7	8	9	10	11	12
1	Balrampur (NPP)	1,704	1,167	537	3,229	1,399	1,830	40.6	53.4	26.7	26.6

Table 27 brings out the number and percentage of scheduled castes literates and illiterates by sex in urban towns population at the 2001 Censes. The number of illiterates is more than literates in the district (urban) and towns. The percentage of literates is least in Pachperwa (N.P.) among four towns but the gap in the male/female literate rate is highest in case of Tulsipur town. The males in all the four towns enjoy higher literacy rate than females. The gap in male/female literacy rate is least in cast of Pachperwa town.

District (Rural) Total		**3,769**	**2,981**	**788**	**15,509**	**7,105**	**8,404**	**25.3**	**38.2**	**11.1**	**27.1**

Table 28 brings out the number and percentage of scheduled tribes literate and illiterates by sex in CD block at the 2001 Census. The number of illiterates is more than literates in the district (rural). The similar pattern has seen in all the CD Blocks concept in Haraya Satgharwa. The literacy rate of the Scheduled tribes population at 25.3 percent is lower than the corresponding rate which is about 42 percent in case of scheduled castes community. The gap in male and female literacy rates at 27.1 percent in the district. The percentage of literacy in CD block varies between 26.4 percent in Gesari and 100 percent in Haraya Satgharwa CD Block.

TABLE 29: DISTRIBUTION OF VILLAGES BY LITERACY RATE RANGE FOR SCHEDULED TRIBES POPULATION, 2001

Range of literacy rate for villages	Number of inhabited villages	Percentage distribution of villages	Scheduled Tribes Population	Percentage distribution of population

District Total	**59**	**100.0**	**19,278**	**100.0**
Literacy rate for District (Rural)		**25.3**		

The table 29 gives the distribution of villages by literacy rate range for the scheduled tribes population at the 2001 Census. In the district the scheduled tribes population is found in 59 villages out of which in one village the literacy is 100 percent. However, the maximum (35.7.percent) of the scheduled tribes population is found in only10villages with literacy range from 21 to 30 percent. In 10 villages (16.9 percent) scheduled tribes population having zero percent literacy rate.

TABLE 30:NUMBER AND PERCENTAGE OF SCHEDULED TRIBES LITERATES AND ILLITERATES BY SEX IN TOWNS, 2001

Serial number	Name and urban Status of Town	Number of literates and illiterates						Percentage of literates			Gap in male/female Literacy rate
		Number of literates			Number of illiterates						
		Persons	Males	Females	Persons	Males	Females	Persons	Males	Females	
1	2	3	4	5	6	7	8	9	10	11	12
1	Balrampur (NPP)	12	12	0	8	6	2	63.2	66.7	0	66.7
2	Tulsipur (NP)	16	8	8	12	8	4	69.6	72.7	66.7	6.1
3	Pachperwa (NP)	11	7	4	8	1	7	78.6	100	57.1	42.9
4	Utraula (NPP)	2	2	0	0	0	0	100.0	100.0	0.0	100.0
	Balrampur (Urban)	**41**	**29**	**12**	**28**	**15**	**13**	**70.7**	**76.3**	**60.0**	**16.3**

The table 30 gives number and percentage of scheduled tribes literates and illiterates by sex in urban agglomerations/town population at the 2001 Census. There is small scheduled tribes population in the towns of the district. In Utraula NPP there are only 2 (literate) scheduled tribe population. Out of the total scheduled tribe population in the district 70.7 percent of literate comprising 76.3 per cent of males and 60.0 per cent of females. The gap in male and female literacy is 16.3 percent. The rate of literacy is highest in Utraula NPP (100 percent) and lowest in Balrampur NPP (63.2 percent).

TABLE 31: NUMBER AND PERCENTAGE OF MAIN WORKERS, MARGINAL WORKERS, AND NON-WORKERS BY SEX IN TAHSILS, 2001

Table 31 gives the number and percentage of main workers, marginal workers and non-workers by sex at tahsils level in the district as per 2001 Census. The proportion of the total workers is 42.4 per cent of the total population in the district. The total workers are comprised of 29.8 per cent of main workers and 12.6 per cent of marginal workers and the remaining 57.6 per cent are non-workers.

Among the main workers, males participation rate in the district is 44.9 per cent and 13.0 per cent of females. Male and female marginal workers account for 7.6 and 18.3 per cent respectively. The percentage of females marginal workers is higher than males. Total workers (main and marginal workers) among tahsils varies from 40.2 per cent in Balrampur tahsil to 45 per cent in Tulsipur tahsil.

Table 32 shows C.D. block-wise number and percentage of main workers, marginal workers and non-workers for rural population of the district. Of the 1,546,770 total rural population of the district, 30.4 per cent has been categorised as main workers and the marginal workers constitute 13.4 per cent and the remaining 56.2 per cent fall in the category of non-workers. The sex-wise break up at the district level shows that 45.3 per cent males and 13.7 per cent females are in the category of main workers. Male and female marginal workers account for 7.8 and 19.6 per cent respectively. The percentage of female marginal workers is higher than male marginal workers. Similar trend is visible at C.D. block level.

The percentage of total rural workers of the district comes to 43.8 per cent. At the C.D. block level, Pachperwa has highest proportion of total workers forming 49.9 per cent of the total population. It is followed by Forest villages (46.1 per cent), Gasari (45.6 per cent),Utraula (44.3 per cent), Balrampur (44.2 per cent) and Giandas Buzurg (43.5 per cent). The lowest percentage of 40.8 per cent is recorded in Rehra Bazar C.D. block.

The table 33 gives number and percent of main workers marginal workers and non workers by sex in urban area of the district at the 2001 Census. The proportion of the total workers works out to 27.3 percent of the total population of the district. The total workers are comprised of 22.9 percent of main workers and 4.4 percent of marginal workers and the remaining 72.7 percent are non-workers.

Among the main workers, male participation rate in the district is 39.8 percent whereas female participation rate is only 4.1 percent. Male and female marginal workers accounts for 5.5 percent and 3.1 percent respectively. The percentage of female marginal workers is lower than males. Total workers (main and marginal workers) among town vary from 26.2 percent in Tulsipur (NP) to 35.3 percent in Pachperwa (NP).

Note: Percent of Worker to total worker are given in brackets

Table 34 shows that the economy of the district is primarily agricultural as supported by the fact that cultivators constitute 55.2 per cent of the total workers (main + marginal) and remaining 44.8 per cent of total workers are engaged as agricultural labourers (31.7 per cent), Household industry workers (2.2 per cent) and other workers (10.9 per cent) in this district.

The distribution of workers in four categories of economic activity at tahsil shows very high dependence of population on agriculture sector absorbing large number of workers. The proportion of cultivators varies between 48.3 per cent in Balrampur tahsil and 59.6 per cent in Utraula tahsil. These variations within the district may be due to cropping and land holding patterns. The percentage of male cultivators is 57.7 per cent which is higher than female cultivators in the district. The percentage of household industry workers is very low in the district, as stated above. The workers, agricultural labourers occupy second position next to cultivators in the district as well as in each tahsil. The highest proportion of other workers is recorded highest (15.9 per cent) in Balrampur tahsil while the lowest proportion of (8.6 per cent) in Tulsipur tahsil.

Note: Percent of Worker to total worker are given in brackets

Table 35 presents, C.D. block-wise distribution of workers by sex in four categories of economic activity. In the rural area of the district, total workers (main +marginal) 43.8 per cent of total population. Among these workers, cultivators constitute 57.9 per cent, 32.9 per cent agricultural laborers, 2.0 per cent household industry workers and 7.2 per cent other workers. The agricultural sector plays a major role in providing employment to the working force of rural population despite the fact that it is not commercial viable. Household industries, also could not make much progress in rural area as reflected in the data and these household industries employ only 2.0 per cent workers of the total working force. Therefore, surplus-working force has to depend on primary activities. Among cultivators, the percentage of males (61.6 per cent) is higher than females (51.2 per cent) in the rural area of the district. The proportion of cultivators and other workers does differ considerably from one C.D. block to other. The proportion of cultivators varies between 47.1 per cent in Balrampur C.D. block to 66.8 per cent in Rehra Bazar C.D. block. Similarly for other workers, the lowest proportion is 4.9 per cent in Gesari C.D. block while 10.2 per cent is the highest in Balrampur C.D. block. The percentage of household industry workers is quite low i.e. only 2.0 per cent in the district. The percentage of agricultural labourers is highest in Pachperwa (40.4) CDblock and is followed by Balrampur (39.6). Household industry workers varies in C.D. blocks between 1.2 per cent in Gaindas buzurg and 3.2 per cent in Haraya Satgharwa..

Table 36 presents distribution of workers by sex in four categories of economic activity in urban area of the district Balrampur. It can be observed from the table that the four categories of economic activity are cultivators, agricultural labourers, household industry workers and other workers. Figures in the table has been given for total number of workers including main and marginal workers. At the district level, urban area recorded highest percentage of other workers (79.3 per cent), followed by Agricultural labourers, with 9.1 percent (6.3 percent male and 28.4 percent female). If we observe each town, the table reveals that highest percentage of cultivators (15.7) is recorded in Pachperwa N.P. In the agriculture laboures category Tulsipur N.P. recorded very low percentage (1.6 per cent) Pachperwa town has highest (32.2 per cent agricultural workers. Household industry workers are also very low (4.4 percent in Utraula NPP. 6.4 per cent in Balrampur NPP. and 8.4 per cent in Pachperwa (N.P). As the usual trend recorded in the urban area, other workers are in high percentage (90.0 percent in Utraula NPP. 86.0 per cent in Tulsipur N.P. and 82.5 percent in Balrampur NPP.

(ix) Brief analysis of the Village Directory and Town Directory data :

One of the major part of the District Census Handbook is Village and Town Directories.These are non-census data showing educational, medical, drinking water, banking facilities, communication facilities and other such developmental indicators in the towns and villages. From this non-census data certain inset tables have been generated and reproduced below showing major trends in the availability of above amenities.

TABLE 37: DISTRIBUTION OF VILLAGES ACCORDING TO AVAILABILITY OF DIFFERENT AMENITIES, 2001

Note : - Percentages are given in brackets.

* Based on the improved drinking water source, drinking water supply has been classified as 'Improved ' or otherwise. If the household has access to drinking water supplied from a tap or a hand pump / tube well situated within or outside the premises it is considered as having access to 'Improved drinking water source'. However, the concept of improved drinking water is state specific and this is to be considered accordingly.

Post office includes Post office, telegraph office and Post and telegraph office.

$ Transport communication includes bus service, rail facility and navigable waterways.

Table 37 deals with the C.D. block-wise distribution of villages, according to the availability of different amenities like education, medical, improved drinking water, post office, telephone, transport, communications, agricultural credit societies, approach by pucca road and power supply within the village. Out of 999 inhabited villages in the district 822 villages or 82.3 per cent have been provided with the education facilities of one type or the other. Similarly 330 villages in the district constituting 33.0 per cent have medical facilities of one type or the other. Improved drinking water facility is available in 984 or 98.5 per cent villages. As regards, post office facility which includes facilities like telegraph office and post & telegraph, 169 villages constituting 16.9 per cent of villages have been provided with post office facility within the village. 191 or 19.1 per cent villages have been provided with the telephone facility, 129 or 12.9 per cent with transport facility, 77 or 7.7 per cent villages with bank facility and 55 or 5.5 per cent with agricultural credit societies. Similarly there are 487 or 48.7 per cent villages which have been linked with the pucca road. Total 607 or 60.8 per cent of villages have been provided with the electricity supply. Almost similar pattern of distribution of villages by availability of amenities in the villages at C.D. block has been found with slight variation. Tulsipur C.D. block has the highest 92.5 per cent villages, where educational facility is available and lowest 70.6 per cent is found in Haraya Satgharwa CD block. Medical facility is highest in Haraya Satgharwa (51.9 per cent) and lowest (8.9 per cent) in Gaindas Buzurg C.D. block. Improved drinking water is available to cent-percent villages in Tulsipur and Gaindas Buzurg blocks while in other blocks expect Forest villages (75.0), it is above 95 per cent. Telephone facility is highest in Gaindas Buzurg (37.5 per cent) while 3 out of 128 villages of Pachperwa C.D. block enjoy this facility. Transport and communications is less developed in Sri Dutta Ganj where only 5.3 per cent villages are covered by this facility whereas 19.7 per cent villages of Gesari C.D. block are availing this facility. In the field of power supply 607 villages (60.8 percent) have been covered in the district. Out of 4 inhabited Forest villages in the

district, only 2 has educational aminity, 3 has improved drinking water facility available and only 2 villages are connected by Pucca Road. The other amenities are not found in Forest villages.

TABLE 38: NUMBER AND PERCENT OF RURAL POPULATION SERVED BY DIFFERENT AMENITIES, 2001

Serial number	Name of C. D. block	Total population of inhabited villages	Type of amenity available

Note : - Percentages are given in brackets.

* Based on the improved drinking water source, drinking water supply has been classified as 'Improved ' or otherwise. If the household has access to drinking water supplied from a tap or a hand pump / tube well situated within or outside the premises it is considered as having access to 'Improved drinking water source'

However, the concept of improved drinking water is state specific and this is to be considered accordingly.

Post office includes Post office, telegraph office and Post and telegraph office.

$ Transport communication includes bus service, rail facility and navigable waterways.

Table 38 depicts the number and proportion of rural population served by different kind of amenities. Out of total rural population of 1,546,770 persons in the district, 1,400,905 or 90.6 per cent have educational facility of one or the other type. Similarly 627,794 or 40.6 per cent population has medical facilities while 1,530,011 or 98.9 per cent have got improved drinking water facility. Post office facilities are available to 395,347 or 25.6 per cent population. Telephone facility is available to 417,204 or 27.0 per cent. Transport communications facility is available to 249,722 or 16.1 per cent. Bank facility is available to 211,514 or 13.7 per cent. 140,963 or 9.1 per cent have been provided with the facility of agricultural credit societies. 881,722 or 57.0 per cent have been provided with the facility of approach by pucca road. Power supply is available to 1,068,584 or 69.1 per cent rural population in the district. Similar pattern of availability of facilities is visible to the rural population at C.D. block level except Forest villages which is difficult area of the district. However, in Forest villages facilities of education and improved drinking water are available to larger proportion of population

TABLE 39: DISTRIBUTION OF VILLAGES NOT HAVING CERTAIN AMENITIES, ARRANGEDBY *DISTANCE RANGES FROM THE PLACES WHERE THESE ARE AVAILABLE, 2001*

Village not having the amenity of	Distance range of place from the villages where the amenity is available			
	Less than 5 kilometers	5-10 kilometers	10+ kilometers	Total (Col. 2 - 4)

Table 39 presents distribution of villages not having certain amenities within the village at district level. They have to go out of their village to avail these facilities. Such villages have been presented according to various distance ranges in this table. 197 villages do not have primary school in their villages and out of these villages, children of 165 villages have to travel less than 5 kms. for schooling Out of 999 inhabited villages as many as 873 are deprived of middle school and 994 of degree college. Of these 397 avail the facility of middle school at a distance of less than 5 kms, 412 at a distance 5-10 kms. and the remaining 64 at a distance of 10+ kms. In respect of degree college 71 avail this facility at a distance of less than 5 kms., 169 between 5 to 10 kms. and rest 754 villages at a distance of 10+ kms.

Similarly there are 982 villages in the district which have been devoid of Hospital facility and 981 villages which are deprived of PHC facilities. Of these 193 villages have the facility of Hospital available within 5 kms. while in respect of 367 villages the inhabitants have to cover a distance of 5-10 kms. in order to avail this facility. Similarly overwhelming number i.e. 422 villages have this facility at a distance of 10+ kms. As regards PHC 153 avail this facility at a distance of less than 5 kms., 464 at a distance of 5-10 kms. and the remaining 364 have to travel a distance of more than 10 kms to avail this facility.

Regarding Post Office, 830 villages do not have this facility in the village itself. Of these majority i.e. 549 have this facility at a distance of less than 5 kms., another 225 villages avail it at a distance of 5-10 kms. In the remaining 56 villages habitants have to travel a distance of 10+ kms.

As regards Telephone, there are 808 villages in the district which are without telephone facility. Of these 327 avail this facility at a distance of less than 5 kms., 187 at a distance of 5-10 kms. and remaining 294 have to traverse a distance of 10+ kms.

For Bus service out of 896 villages which do not have facility, 309 villages avail this facility at a distance of less than 5 kms, 400 at a distance between 5-10 kms. and 187 at a distance of 10+ kms.

In the entire district 930 villages are deprived of Commercial Bank & 969 of Co-operative Bank. Of these 930 villages which are deprived of Commercial Banks 414 villages avail this facility at a distance of less than 5 kms, 356 between 5-10 kms. & the remaining 160 at a distance of 10+ kms. Regarding Co-operative Banks out of 969 villages 149 villages avail this facility at a distance of less than 5 kms., 437 at a distance of 5-10 kms. and remaining 383 at a distance of 10+ kms. 944 villages do not have agricultural credit societies. This facility to 462 villages is available at a distance of less than 5 kms., 281 at a distance of 5-10 kms. and the remaining 201 at a distance of 10+ kms.

TABLE 40: DISTRIBUTION OF VILLAGES ACCORDING TO THE DISTANCE FROM THE NEAREST STATUTORY TOWN AND AVAILABILITY OF DIFFERENT AMENITIES, 2001

Post office includes Post office, Telegraph office and Post and telegraph office.

$ Transport communication includes bus service, rail facility and navigable waterways.

Table 40 deals with the distribution of villages according to distance from the nearest statutory town. Out of total 999 inhabited villages in the district, there are 125 villages which have nearest towns upto a distance of 5 kms. Of these only 111 villages forming 88.8 per cent of these total villages, having the educational facilities of one type or the other and 38 villages constituting 30.4 per cent, have the medical facilities within the village, 11 villages forming 8.8 per cent have the facility of post office within the village and 35 or 28.0 per cent have the facility of telephone. 10 villages constituting 8.0 per cent have been linked by transport service. 10 villages comprising 8.0 per cent have been provided bank facilities, while 8 villages constituting only 6.4 per cent have been provided by agricultural credit societies. 64 villages comprising 51.2 per cent have been provided with pucca road.

There are 521 inhabited villages in the district which fall in the distance range of 5-15 kms. Of these 426 villages constituting 81.8 per cent have been provided with the educational facilities. 152 villages comprising 29.2 per cent have been provided with medical facilities. 90 villages constituting 17.3 per cent enjoy the post office facility. 91 villages comprising 17.5 per cent have been provided the telephone facility. 76 villages constituting 14.6 per cent have been linked with transport communications. 40 villages comprising 7.7 per cent have bank facility. 28 villages constituting 5.4 per cent are having agricultural credit societies, while 242 villages or 46.4 per cent are approachable by pucca road. 233 villages fall in the distance range of 16-50 kms. Of these, 81.5 per cent villages have educational facility, 44.2 per cent with medical, 21.5 per cent with post office, 17.6 per cent with telephone and transport & communications available to 13.7 per cent villages. Banks and agricultural credit societies facilities are available to 9.0 and 5.2 per cent of villages.

There are 22 villages in the district which are situated beyond 50 kms. from the nearest town and out of these 20 or 90.9 per cent enjoy the education facility in the village itself whereas 11 villages comprising 50.0 per cent have been provided with medical facility of one type or the other. 04 such villages comprising 18.2 per cent have the post office facility. 7 villages comprising 31.8 per cent have been provided with telephone facility. One village constituting 4.5 percent have been linked by bus service bank facilities and having agricultural credit societies while 12 villages comprising 54.5 per cent have been linked by pucca roads. There are 98 villages whose distance ranges from the nearest statutory town have not been given. Such villages have been grouped under the unspecified category. 75 or 76.5 per cent villages have the educational facility of one or other type. 26 villages constituting 26.5 per cent have the medical, 14.3 percent with post office, 17.3 percent with telephone and transport and communication available to 10.2 percent villages

constituting 6.1 percent have been provided by agricultural credit societies. 62 villages comprisingt 63.3 percent have been provided with pucca road.

TABLE 41: DISTRIBUTION OF VILLAGES ACCORDING TO POPULATION RANGE AND AMENITIES AVAILABLE, 2001

Post office includes Post office, Telegraph office and Post and telegraph office.

$ Transport communication includes bus service, rail facility and navigable waterways.

* Based on the improved drinking water source, drinking water supply has been classified as 'Improved' or otherwise. If the household has access to drinking water supplied from a tap or a hand pump / tube well situated within or outside the premises it is considered as having access to 'Improved drinking water source'. However, the concept of improved drinking water is state specific and this is to be considered accordingly.

Table 41 deals with the distribution of villages by population ranges and amenities available therein. In Balrampur district out of a total 999 inhabited villages, there are 109 villages have a population of less than 500 persons. Of these, 49 villages (45.0 per cent) have education facility, 14 (12.8 per cent) have medical facility, 104 (95.4 per cent) have improved drinking water facility. No village has been provided with post office and agricultural credit socities facility. 10 villages have telephone facility and also linked by bus service. 2 (1.8 per cent) have Bank facility. 37 villages (33.9 per cent) have been linked with pucca road. 34 villages (31.2 per cent) have been provided with electricity.

Out of 229 villages, which fall in the population range of 500-999 persons, 156 villages (68.1 per cent) have been provided with the education facility, 41 (17.9 per cent) with medical facility, almost (98.7) all the villages have improved drinking water facility. 26 villages (11.4 per cent) have been provided with post office facilities, 25 villages (10.9 per cent) with telephone facility, 28 villages (12.2 per cent) with transport facilities, 4 villages (1.7 per cent) with bank facility, 9 villages (3.9 per cent) with agricultural credit societies & 94 villages (41.0 per cent) have approach by pucca road. Only 120 (52.4 per cent) villages in this range have electricity. 420 villages are in population range of 1,000-1,999 persons out of these 388 (92.4 percent) have education facilities. Whereas 164 villages (39.0 percent) enjoy the medical facility, 415 villages (98.8 percent) have improved drinking water facilities.

66 villages (15.7 per cent) have post office facility, 69 villages (16.4 per cent) have telephone facility, 44 villages (10.5 per cent) have transport communications facilities, 28 villages (6.7 per cent) have bank facilities, 21 villages (5.0 per cent) have agricultural credit societies and 201 villages (47.9 per cent) have approach by pucca road and 262 villages (62.4 percent) have been provided with electricity.

There are 224 villages in the district which are covered under 2000-4999 population range. Out of these 212 villages (94.6 percent) have been provided with the education facility, 101 villages (45.1 percent) have medical facility, 222 villages (99.1 percent) have improved drinking water facility, 64 villages (28.6 percent) have post office facility, 77 villages (34.4 percent) have telephone facility, 39 villages (17.4 percent) have transport communication facilities, 36 villages (16.1 percent) have bank facilities, 20 villages (8.9

percent) have agriculture credit societies, 140 villages (62.5 percent) have been linked with pucca road and 176 villages (78.6 percent) have electricity facility.

Out of 16 villages which are in the population range of 5000-9999 persons all the villages have educational and improved drinking water facilities. 10 villages (62.5 percent) have medical and telephone facility. There are only one village in the population range fo 10,000 and above persons. This village has enjoy educational, improved drinking water, post office, bank, agricultural credit societies and approach by pucca road facilities.

TABLE 42: DISTRIBUTION OF VILLAGES ACCORDING TO LAND USE, 2001

10	Forest Villages	4	0.0	0	0
	District Total	**999**	**241395.1**	**60.9**	**54.6**

Note : - Cultivable area = irrigated area + unirrigated area

Table 42 presents C.D blockwise distribution of villages according to land use. It also gives details of total area and cultivable area available of inhabited villages in the district. Cultivated area includes irrigated as well as unirrigated area. It further elaborates that what is the extent of cultivable area under irrigation. There are total 999 inhabited villages in the district having a total area of 241395.1 hectares. Of this, 60.9 per cent is cultivable and 54.6 per cent of total cultivable area has got the irrigation facility. The area figures have been collected from the revenue record maintained for each village by the State Government.

A look at the land use pattern at C.D. block level shows that Balrampur. block with 135 villages have a total area of 42097.98 hectares, of this 76.1 per cent of land is cultivable and of the aforesaid area 83.1 per cent is irrigated. In Tulsipur block, all the 107 villages have a total land area of 36669.59 hectares, of this 70.7 per cent of land is cultivable and of the aforesaid area 30.5 per cent is irrigated. In Pacherwa block, all the 128 villages have a total area of 30363.34 hectares, of this cultivable area is 43.6 per cent and 58.3 per cent is irrigated. In Gesari block, all the 137 villages have a total area of 20355.38 hectares, Of this, cultivable area is 47.0 per cent and of cultivable area 39.3 per cent is irrigated. Utraula block with 112 villages have a total land area of 18586.97 hectares, of this 58.1 per cent is cultivable area and out of this cultivable area 84.5 per cent is irrigated. Rehra Bazar block with 96 villages has a total land area of 18025.8hectares. Of this 38.8 per cent is cultivated area, out of which 78.3 per cent is irrigated. Gaindas Buzurg block with a total 56 villages have an area of 122650 hectares. Of this 24.7 per cent is cultivable area out of which 79.5 per cent is irrigated. Haraya Satgharwa block with total of 129 villages have an area of 51044 hectares of this 64.3 percent is cultivable area out of which 16.9 percent is irrigated.

TABLE 43 : PER CAPITA RECEIPT AND EXPENDITURE IN STATUTORY TOWNS										
Sl No.	Class, name & urban status of the Town	Per capita receipt			Per capita expenditure					
		Total	Through taxes	From all other sources	Total	General Administration	Public health and conveniences	Public works	Public institutions	Other(s)

	Total	**232**	**22**	**210**	**180**	**129**	**14**	**11**	**0**	**27**

The table 43 gives the per capita receipts and expenditure (in rupees) for each town in the district. The average per capita receipts for towns of the district, Balrampur works out of Rs. 232 of which Rs. 22 are derived through local taxes and the remaining Rs. 210 received from all other sources. The average of total expenditure incurred per head is Rs. 180. Out of this Rs. 129 are spent on general administration, Rs. 14 on public health and conveniences, Rs. 11 on public works and Rs 27 is spent on other items. Among all the four towns the receipt and expenditure recorded per head are the highest in Balrampur NPP.

TABLE 44: SCHOOLS / COLLEGES PER 10,000 POPULATION IN STATUTORY TOWNS, 2001

Serial number	Name and urban status of Town	Type of educational institution				
		Primary	Junior Secondary / Middle	Secondary / Matriculation	Senior Secondary	College
1	2	3	4	5	6	7
1	Balrampur (NPP)	5.0	1.9	0.8	0.6	0.1
2	Pachperwa (NP)	3.5	2.1	1.4	1.4	0.0
3	Tulsipur (NP)	1.4	0.9	1.8	0.9	0
4	Utraula (NPP)	3.3	3.3	0.7	0.7	0.7
District Total		**3.9**	**2.1**	**1.1**	**0.7**	**0.1**

The table 44 presents the availability by the type of educational institutions in the statutory towns per 10,000 population. The average number of primary school comes 3.9 schools, 2.1 junior secondary/middle, 1.1 secondry/matriculation, 0.7 senior secondary schools and the ratio of college is only 0.1 college per 10,000 population. Among the towns the ratio of primary school is highest in Balrampur (NPP) and lowest in Tulsipur (NP).

TABLE 45 : NUMBER OF BEDS IN MEDICAL INSTITUTIONS IN TOWNS, 2001		
Sl. No.	Name and urban status of the Town	Number of beds in medical institutions per 10,000 population

TABLE 47 : MOST IMPORTANT COMMODITY EXPORTED OUT OF AND MANUFACTURED IN TOWNS, 2001

Sl.No.	Name and urban status of Town	Most important commodity	
		Manufactured	Exported
1	2	3	4
1	Balrampur, NPP	Sugar, Alcohal, Card Board	Sugar, Alcohal, Card Board
2	Tulsipur, NP	Sugar, Wine, --	Sugar, Cement Pole, Wool
3	Pachperwa, NP	Bell Metal, Banka, Rope	Wood, Banka (Chopper), Rice
4	Utraula, NPP	Soap, Metal Utensils, Rope	Wheat, Rice, Wood

Table 47 indicates most important articles manufactured and exported out of the each town in the district. The district is well known for Sugar industry. The chief export items of the district are Sugar, Alcohol, Cardboard and Cement pole are the main items which are manufactured in Balrampur and Tulsipur town and these are mainly exported to other places.

(x) Brief analysis of the data on houses and household amenities, Houselisting Operations, Census of India 2001 :

Data on houses and household amenities have traditionally been undertaken a few months before each census.Based upon data collected in the houselist, a few tables on the use of census house, materials of wall, floor and roof etc. are prepared.In 1991 census, the houselist was considerably expanded with 22 items of information. Again in 2001 census many new items on household assets like radio /transistor, television, telephone, cycle, scooter /motorcycle / moped, car/jeep and banking facility availed by household etc. for the first time has been added in the schedule. The district wise tables have been prepared and these are placed in the subsequent tables. The following is the distribution of households by number of rooms occupied.

TABLE 48: HOUSEHOLDS BY TENURE STATUS AND NUMBER OF ROOMS OCCUPIED IN THE DISTRICT, 2001

Data source: Census of India 2001, H- series: "Tables on Houses, Household amenities and Assets."

The data presented in the Table 48 depicts, number of households by tenure status and number of rooms occupied in the district. The total number of households in the district stands at 258,142 consisting of 239,358 rural and 18,784 urban households. 44,415 households belong to Scheduled Castes and 4,354 to Scheduled Tribes. 252,301 households are living in their owned houses constituting 97.7 per cent of total households. Of these households, the largest number of households (83,702) have occupied double roomed accommodation and is followed by single roomed accommodation numbering to 61,661 households. Next position is claimed by households (52,356) occupying three plus roomed accommodation. Number of households in owned accommodation occupying three rooms rank at fourth place with 47,088 households while 7,494 households are without any exclusive room.

4,106 households living in rented accommodation account for 1.6 per cent of total number of households in the district. The largest number of, 1,849 households are living in double roomed accommodation followed by 1,106 households living in one roomed accommodation. Households with three rooms and three plus are small in numbers. Other households numbering to 1,735 forming only 0.7 per cent of total households are distributed in single roomed accommodation numbering 622, 522 double roomed and 236 in three roomed accommodations. In rural area majority of households have bigger size and majority of them have their own houses while in urban area show reverse picture.

TABLE 49: PERCENTAGE DISTRIBUTION OF HOUSEHOLDS LIVING IN PERMANENT, SEMI PERMANENT AND TEMPORARY HOUSES, 2001

Serial number	District/ Tahsil	Total			Rural			Urban		
		Permanent	Semi-permanent	Temporary	Permanent	Semi-permanent	Temporary	Permanent	Semi-permanent	Temporary
1	2	3	4	5	6	7	8	9	10	11
1	Balrampur	58.5	12.5	29.0	54.4	13.5	32.1	88.1	5.3	6.6

	District Total	**63.9**	**13.2**	**22.9**	**62.1**	**13.8**	**24.1**	**87.0**	**5.9**	**7.1**

Data source: Census of India 2001, H-series: Tables on Houses, Household amenities and Assets.

Note:-Permanent:- 1 Permanent houses refers to those houses whose wall & roofs are made of pucca materials i.e. where, burnt briks. G.I. Sheets or other metal sheets, stone cement concrete is used for wall and tiles slate, shingle, corrugated iron, zinc or other metal sheets asbestos sheets bricks. lime and stone and RBC/RCC concreate are used for roof.

The percentage distribution of households as shown in the above table reveals that 63.9 per cent of the households in the district had permanent houses. The trend is almost similar in rural (62.1 per cent) and urban area (87.0 per cent). Among tahsils highest proportion of permanent houses were accounted in tahsil Utraula (68.1 per cent) followed by Tulsipur (64.8 per cent), and lowest in Balrampur (58.5 per cent). In respect of semi permanent houses, the returns were 13.2 per cent of district level where as among tahsils in Utraula it

was 17.6 per cent and lowest was 9.7 per cent in tahsil Tulsipur, Rural area represented a similar ratio at district and tahsil level but semi permanent houses in the urban area were in the proportion range of 5.0 to 8.7 per cent. In respect of temporary houses, the return were 22.9 percent at district level, of which 29.0 percent in tahsil Balrampur and lowest 14.3 percent in tahsil Utraula. In rural and urban area, the returns were 24.1 and 7.1 percent respectively, at district level

TABLE 50: PERCENTAGE OF HOUSEHOLDS HAVING IMPROVED DRINKING WATER SOURCE, ELECTRICITY, BATHROOM, TOILET AND DRAINAGE FACILITY, 2001

Data source: Census of India 2001, H-series: Tables on Houses, Household amenities and Assets.

*Based on the improved drinding water source, drinking water source, drinding water supply has been classified as 'Improved' or otherwise. If the household has access to drinking water supplied from a tap or a hand pump/tube well situated within or outside the premises it is comsidered as having access to 'Inproved drinking water source'.

However, the concept of improved drinking water is state specific and this is to be considered accordingly.

Note: Percentage is to be given in brackets after the number of households.
Bathroom means bathroom within the house
Toilet means toilet within the house.
Drainage menas closed and open drainage.

The above table shows that out of total households of the district, 78.8 per cent households had improved drinking water facility. The proportions of rural and urban area were 77.5 and 95.1 per cent. Tahsil Utraula has higher order of proportion of households where percentage for rural area were 92.3 and 96.2 per cent in urban area. Electricity was available for 19.5 per cent of households at district level. Households of the urban area of the district had better access of electricity. Bathrooms and toilet facilities were available in 15.5 and 15.0 per cent of households. Tahsil Tulsipur poorly served in respect of these amenities. Similarly, drainage facility was also poor in Tulsipur. At district level drainage facility was available for 43.5 per cent of households whereas the proportion of rural and urban area households accounted to 39.8 and 90.2 per cent, respectively.

Percentage in brackets Data source: Census of India 2001, H-series: Tables on Houses, Household amenities and Assets.

It is observed from the above table that 60.8 per cent of households in the district use firewood as fuel, for cooking, the proportion in the rural area is 62.0 and in urban area it comes to 45.6 per cent of households. LPG (cooking gas) has been reported as one of the fuel for cooking of food in 2.1 per cent of the households. The composition of rural and urban comes to 0.5 per cent and 21.3 per cent respectively. Kerosene is used for cooking in as many as 2.5 per cent of the households (0.8 per cent rural and 25.2 per cent urban households). The other methods like crop residue, cow dung cake, coal, lignite, charcoal, electricity and biogas etc. ranges between 0.1 per cent to 18.7 per cent of the households of the district. The pattern of fuel used for cooking follows the same trend in tahsils (rural area) where predominant fuel is firewood the table shows that firewood, cow dung cake and crop residue are the predominant fuel for cooking in the district. It is interesting to mention that kerosene oil is used as fuel in rural area of the district with negligible proportion i.e. 0.8 per cent.

TABLE 52: NUMBER OF HOUSEHOLDS AVAILING BANKING SERVICES AND NUMBER OF HOUSEHOLDS HAVING EACH OF THE SPECIFIED ASSET, 2001

Data source: Census of India 2001, H-series: Table on Houses, Household amenities and Assets.

This table reveals that out of total households (258,142) in the district, 152,761(59.2 percent) could avail banking services at district level while only 104928(40.6%),18711 (7.2%),6314 (2.4%), 178,158 (69.0%), 12,502 (4.8%) and 4511 (1.7 %) households enjoyed the availability of household assets radio/transistor, television, telephone, bicycle, scooter/motor cycle/moped and car/jeep/van, respectively..whereas only 59,331(23.0 per cent) households had none of the specified assets.

In Utraula tahsil (58,505) households availing banking services, which is highest among all three tahsils of the district. This tahsil also has the highest no of radio/transestor (37,658), bicycle (65,413), scooter motor cycle moped (4572), car, jeep, van (1,644). But tahsil Balarampur has highest no. of television (9,088) and telephone (2,558) highest no. of non-specified household articles are in Tulsipur tahsil.

(XI) Major social and cultural events, natural and administrative developments and significant activities during the decade :

The newly created District Balrampur came into existence on 25.5.1977 by gazettee notification by carving the three Tahsils namely Utraula, Tulsipur and Balrampur from the former Gonda District. Many offices at district Head Quarters, Balrampur have been created and the district is developing on the path of progress sharply. Fisheries developing agency. Urban Development agency and District Panchayat have been organized.

(xii) Brief description of places of religious, historical or archaeological importance in villages and places of tourist interest in the towns of the district:

There are no tourist places as such in Balrampur district. The most celebrated fair is of Debi Patan near Tulsipur. This fair which occurs in the begining of Chaitra is largely attended by merchants from Nepal and other parts of the country. People worship goddess Pateshwari, as this place is called her 'Shaktipeeths'. There are many famous temples in this district. There is a Dargah of Mir Hanif at Mathura Bazar, located at

the north west border of the district. Internationally famous old Buddhist and Jain shrine of Shravasti is hardly 16 kms. away from the western border.

(xiii) Major characteristics and contribution of the district :

There are so many famous worship centers relating to various religion like Hindu, Muslim, Baudh & Jain. District has also taken major part in the freedom struggle. Now newly created district in developing in sharply manner.

(xiv) Scope of Village Directory & Town Directory

Village Directory

The village directory as the title connotes presents information pertaining to rural area of the district at C.D block/ village level. For each C.D. block a list of villages serialized by English alphabetical order along with their location code numbers of 2001 and 1991 census has been presented. The rational of giving 2001 location code along with 1991 location code is to facilitate the identification of villages for matching information collected at each Census. The villages which have been wholly merged in Nagar Nigam, Nagar Palika Parishad and Nagar Panchayat are not included in the list. In case of partly merged villages, the remaining rural part of the villages has been treated as independent revenue village and the data have been presented for such villages in the village directory.

However, the villages treated as outgrowth of an Urban Agglomeration or Nagar Panchayat is listed in the village directory but no data are presented against the name of such villages. All these villages are listed in the Primary Census Abstract (rural) without presenting their data for providing cross references. Uninhabited or depopulated villages are listed but only area of the village and land use pattern is given. A note against such a village indicates the state of its being depopulated or uninhabited.

The village directory brings out some basic information about a village. These data can broadly be classified into the following categories:

1.	Population and households	Cols.4 & 5
2.	Amenities.	Cols.6 to 13
3.	Other infrastructural facilities etc.	Cols.14 to 16
4.	Availability of news paper/ magazine	Column 17
5.	Commodities manufacture	Column 18
6.	Total area of village and land use pattern	Column 3 & 19-23

Town Directory :

The Town Directory covers all the towns in a district. The towns are arranged by English alphabetical order. The data are presented in seven statements serially numbered (I) to (VII).

The following mode of listing of towns has been followed:-

(i) All the towns having statutory status which are not part of an Urban Agglomeration are listed once in the alphabetical arrangement of the towns.

(ii) All the towns which are part of an Urban Agglomeration and enjoy independent status of a statutory town are listed twice in the alphabetical arrangement of the towns as well as under the main town of an Urban Agglomeration. However, the data are presented separately only once under the main UA. In alphabetical arrangement a note is given against such towns that they are part of such and such Urban Agglomeration.

(iii) The outgrowth(s) of a town, which do not qualify themselves for being treated as independent town, are not listed in the main body of the Directory. Against name/names of the town having outgrowth(s) an asterisk (*) has been placed to indicate that the town has outgrowth(s).

(iv) Census towns are also listed in the body of Directory. These are the towns, which do not enjoy statutory status but are declared towns for the purpose of population Census.

Town Directories of the districts give an account of status and growth history of towns, location and physical aspects of the towns, municipal finances during 1998-1999, civic and other amenities up to 1999 (as

well in notified slums), medical, educational, recreational and cultural facilities by year 1999, and trade, commerce, industry and banking activities in year 1999. In this way population and growth rates of towns from 1901 to 2001, density in 2001, sex-ratio during 1981, 1991 and 2001Censuses, rainfall and temperature of the towns, receipts and expenditures in the towns of the district, road length, system of sewerage, number of latrines, method of disposal of night soil, water supply position and fire fighting services, number of electric connections, number of hospitals, colleges, cinemas etc. and number of banks as well as commodities of manufactured and exports are enumerated vividly in various statements relating to the town directories of the districts.

PART - A
VILLAGE AND TOWN DIRECTORY
(SECTION I AND II)

Section - I : Village Directory

Note explaining the abbreviations used in the village directory :

The "Village Directory" is one of the traditional compilations of the Census. It gives the list of villages, their location numbers, their area, population, number of households, amenities such as educational, medical, drinking water, post and telegraph, commercial and co-operative banks, agricultural non-agricultural and other credit societies, recreational and cultural facilities, communication, approach to village, nearest town with a distance, power supply availability of newspaper and magazines, most important commodity manufactured and land use of each village.

Village is a statutory recognized unit having a definite boundary and separate land records. In case, a complete village is treated as an outgrowth of urban agglomeration, data on amenities for that village, have not been given in the Village Directory but shown along with the urban component. The villages which are considered as a Census Town , their amenities data are shown in the Town Directory. For those villages which have partly merged in an outgrowth of U.A., the amenities data are shown in the Village Directory for that particular village.

The 'un-inhabited' villages (villages with no population) have been indicated as such after furnishing details in columns 1 to 3 i.e., Serial number, Name of village & location code number and area of the village against column no. 4 to 18. The land use data for such villages are shown in col. 19 to 23.

The Village Directory format has 23 columns and the details given under each column are for the village are as follows:-

Columns 1 : Serial Number

Self explanatory. All the villages within the CD Block are presented serially in the ascending order of their location code number.

Columns 2 : Name and Location Code Number of village.

The name and location code number of the village are shown against these columns. This also includes the forest and uninhabited villages.

Column 3 : Area of the village

The area of the villages in hectares are given. Wherever the area figures were not furnished by the concerned department the column is left blank.

Column 4 : Total population

The total population of the village as per 2001 Census is given against this column.

Column 5 : Number of households

The number of households as per 2001 Census is given in this column.

Amenities :

In column 6 to 23, availability in respect of different amenities such as education, medical, drinking water, post, telegraph, banks, credit societies, communication, power, approach road etc., in each village has been depicted with appropriate codes against the column concerned. Wherever the amenities are not available in the village, a dash(-) is shown in the column and next to it in brackets the distance in broad ranges viz.< 5 kms., 5-10 kms. and 10+ kms of the nearest place where the facility is available is given. Column wise details are given below :

Column 6 : Educational

Classes upto class V included in Primary School. This will include nursery school, kindergarten school. Pre-basic school, pre-primary school, junior basic school upto class V.

Classes from VI to VIII are included in the middle school.

Classes from IX and X included in High secondary school. Classes XI and XII are included in senior secondary school.

In case of composite schools like middle school with primary school or secondary school with middle school, these are also included in the number of primary and middle schools, respectively. Accordingly any of the following types of institutions if exists within the village is shown as per codes given below :

(i)	Primary School	P
(ii)	Middle School	M
(iii)	Secondary School	S
(iv)	Senior Secondary School	PUC

(v)	College	C
(vi)	Industrial School	I
(vii)	Training School	Tr
(viii)	Adult literacy class/centre	AC
(ix)	Others (specify) e.g. Sanskrit Pathshala, Senior basic school, Navodaya Vidyalaya, Makhtab,etc.	O

More than one institution of a type in the village is indicated by the number within brackets against the abbreviation, e.g. P(3), M(4), etc.

Column 7 : Medical

Availability of medical facility within the village is indicated by following codes :

(i)	Allopathic Hospital	H
	Ayurvedic Hospital	HA
	Unani Hospital	HU
	Homeopathic Hospital	HHom
(ii)	Allopathic Dispensary	D
	Ayurvedic Dispensary	DA
	Unani Dispensary	DU
	Homeopathic Dispensary	DHom
(iii)	Maternity & Child Welfare	MCW
(iv)	Maternity Home	MH
(v)	Child Welfare Centre	CWC
(vi)	Health Centre	HC
(vii)	Primary Health Centre	PHC
(viii)	Primary Health Sub-Centre	PHS
(ix)	Family Welfare Centre	FWC
(x)	T.B. Clinic	TB
(xi)	Nursing Home	NH
(xii)	Registered Private Medical Practitioner	RMP
(xiii)	Subsidised Medical Practitioner	SMP
(xiv)	Community Health Worker	CHW
(xv)	Others	O

More than one institution of a type in the village is indicated by the number within brackets against the abbreviations, e.g. H(3), D(4), etc.

Column 8 : Drinking Water

The type of the drinking water supply sources available within the village are indicated by codes as follows :

(i)	Tap Water	T
(ii)	Well Water	W
(iii)	Tank Water	TK
(iv)	Tubewell Water	TW
(v)	Handpump	HP
(vi)	River Water	R
(vii)	Canal	C
(viii)	Lake	L
(ix)	Spring	S
(x)	Others	O
(xi)	Summer Source	SS

Column 9 : Post, Telegraph and Telephone

It is indicated by codes as shown below whether within the village exists the following amenities:

(i)	Post Office	PO
(ii)	Telegraph Office	TO
(iii)	Post & Telegraph Office	PTO
(iv)	Telephone Connection	PH

Column 10: Commercial and Co-operative Banks

If the village is served by any banking service, commercial bank, co-operative bank etc. the same is indicated in codes mentioned below along with the number of banks in brackets. If not available the distance of nearest place where the facility exist is given:

(i)	Commercial Bank	CM
(ii)	Co-operative Bank	CP

Column 11: Credit Societies

If the village enjoys the services of Credit Societies i.e. Agricultural Credit Societies, Non Agricultural Credit Society or Other Credit Societies, the same is indicated in codes mentioned below along with the number of such societies in brackets. In case the facility is not available within the village the distance of the nearest place where such facility exist is given :

(i)	Agricultural Credit Society	ACS
(ii)	Non-Agricultural Credit Society	NCS
(iii)	Other Credit Society	OCS

Column 12 : Recreational and cultural facilities

If facilities such as Cinema/Video hall, Sports Club, Stadium/Auditorium is available in the village. The same is recorded in these columns. If not available the particulars of the nearest place with the facility is recorded. The information is indicated in codes mentioned below along with the number of such facilities in brackets:

(i)	Cinema / Video Hall	CV
(ii)	Sports Club	SP
(iii)	Stadium / Auditorium	ST

Column 13 : Communications

If the village is served by any mode of public / private transport like Bus, Railway station or Navigable water ways they are to be mentioned as follows:

(i)	Bus	BS
(ii)	Railway Station	RS
(iii)	Navigable Waterway	NW

Column 14 : Approach to village

Approach to village refers to the state of road leading to village. The approach to the village is indicated in following codes :

(i)	Paved Road	PR
(ii)	Mud road	MR
(iii)	Foot path	FP
(iv)	Navigable River	NR
(v)	Navigable Canal	NC
(vi)	Navigable waterways other than River, Canal	NW

Column 15 : Nearest Town and distance

The distance is given in kilometres in brackets against the name of the town nearest to the village.

Column 16 : Power supply

Availability of Power Supply in the village, whatever may be the form of its use is given by using following codes :

(i)	Electricity for domestic use	ED
(ii)	Electricity for agricultural use	EAG
(iii)	Electricity for other purposes	EO
(iv)	Electricity for all purposes	EA

Column 17 : Newspaper / Magazine

If village receives any News Paper/Magazines the same is noted in this column using following codes:

(i)	Newspaper	N
(ii)	Magazine	M

Column 18 : Most important commodities manufactured

The name of three most important commodities manufactured in the village is recorded against this column.

Column 19 to 23 : Land use i.e. area under different types of land use

Land use data maintained by the State/ UT Govts. are furnished against these columns. The data concerning area under Forest, Irrigated land (by source), Un-irrigated land, Culturable waste and Area not available for cultivation in the village are shown against these columns. The area figures are given in hectare(s) up to one decimal. Dash '-' is recorded wherever the information is not made available by the concerned department. The codes used for different types of irrigation facilities available in the village are indicated below:

(i)	Government Canal	GC
(ii)	Private Canal	PC
(iii)	Well (without electricity)	W
(iv)	Well (with electricity)	WWE
(v)	Tubewell (with electricity)	TW
(vi)	Tubewell(without electricity)	TWE
(vii)	Tank	TK
(viii)	River	R
(ix)	Lake	L
(x)	Waterfall	WF
(xi)	Others	O
(xii)	Total	T

The village directory also carries the following appendices.

Appendix-I	It gives the abstract of educational, medical and other amenities available in villages C D Block wise of the district.
Appendix-I-A	Indicates number of villages C D Block wise having one or more primary schools.
Appendix-I-B	Indicates number of villages C D Block wise having primary, middle and secondary schools.
Appendix-I-C	Shows number of villages C D Block wise with different sources of drinking water facilities.
Appendix-II	Indicates the list of villages with 5,000 and above population which do not have one or more important amenities.
Appendix-II-A	Indicates list of Census Towns which do not have one or more amenities.
Appendix-III	It gives the land utilization data in respect of Census Towns / non-municipal Towns.
Appendix-IV	C D Block wise list of inhabited villages where no amenity other than drinking water facility is available.
Appendix-V	Summary showing number of villages having or not having Scheduled Castes population.
Appendix-VI	Summary showing number of villages having or not having Scheduled Tribes population.
Appendix-VII A	List of villages according to proportion of Scheduled Castes to the total population by ranges.
Appendix-VII B	List of villages according to proportion of Scheduled Tribes to the total population by ranges.
Appendix-VIII	Indicates C D Block wise number of villages under each Gram Panchayat.
Appendix-IX	Shows number of different types of girls school in a village.

APPENDIX VIII

Number of villages under each Gram Panchyat (C.D. block wise)

Serial number	Name of gram panchayat and location code number	Area of gram panchayat in hectare	Number of villages with location code numbers		Number of households	Total population	Total SC population	Total ST population	Income and expenditure of Gram panchayat (in Rs.'000)	
			Number of villages with location code numbers	Location code					Total income	Total expenditure
1	2	3	4	5	6	7	8	9	10	11

The information is not being provided for districts of Uttar Pradesh due to certain reasons.

APPENDIX IX

Statement showing number of girls schools in the villages

Name of District - Balrampur

Name of District	Name of C.D. Block	Location Code	Name of Village Number	No. of Girls School
1	2	3	4	5
Information not available for this district				

SECTION II
TOWN DIRECTORY

NOTE EXPLAINING THE ABBREVIATIONS USED IN THE TOWN DIRECTORY

Town Directory statements (I to VII)

Statement I : Status and Growth History

Column (2) : Class, name and civic administration status of town :

Class has been introduced to facilitate analysis of town directory data at the state and all India levels. It is presented according to 2001 Census Population of the town as follows :

Population	Class
100,000 and above	I
50,000 - 99,999	II
20,000 - 49,999	III
10,000 - 19,999	IV
5,000 - 9,999	V
Below 5,000	V

I

Town with a population of one hundred thousand (1,00,000)and above is treated as a city.

The civic administration status of the towns is indicated within bracket against the name of the town. The following abbreviations are used to denote civic status of town.

(I)	Municipal Corporation	M. Corp.
(II)	Municipal Committee	MC
(III)	Municipal Council	M Cl
(IV)	City Municipal Council	CMC
(V)	Town Municipal Council	TMC
(VI)	Municipal Board	MB
(VII)	Municipality	M
(VIII)	Cantonment Board/Cantonment	CB
(IX)	Notified Area	NA
(X)	Notified Town	NT
(XI)	Notified Area Committee/ Notified Area Council	NAC
(XII)	Notified Town Area	NTA
(XIII)	Industrial Notified Area	INA
(XIV)	Industrial Township	ITS
(XV)	Township	TS
(XVI)	Town Panchayat	TP
(XVII)	Nagar Panchayat	NP
(XVIII)	Town Committee/ Town Area Committee	TC
(XIX)	Small Town Committee	ST
(XX)	Estate office	EO
(XXI)	Gram Panchayat	GP
(XXII)	Census Town	CT

Others columns need no comments.

Statement II - Physical Aspects and Location of towns, 1999.

Column 3 to 5 : Physical Aspects

In this columns the Rainfall and Maximum & Minimum Temperature of the town is recorded.

Column 6, 7 and 8 :

Name of the State headquarters, District headquarters and Sub-Divisional headquarters with distance from the referent town in kilometers, is to be recorded respectively. If the names mentioned in these columns are the same as the referent town itself, the distance is recorded as (0) zero.

Column 9& 10 :

Name of the nearest city with one lakh and more and five lakhs and more population are recorded.

Column 11, 12 and 13 :

If referent town enjoys the facility of railway station, bus route facility or navigable river/canal. Its name is to be mentioned. If not available, then the name of nearest place with distance, where such facility exists is to be mentioned.

Statement III : Municipal Finance 1998 – 1999

Item-wise amount of receipt and expenditure in thousand rupees, relating to municipal finance of the town for the year 1998-99 is to be recorded.

Statement IV : Civic and Other amenities, 1999

Column (1 to 5) : Self explanatory.

Column (6) : Road length (in kms.)

Information about kutcha / pucca road is to be recorded separately for the roads within the limits of the referent town.

(i)	Pucca Road	PR
(ii)	Kutcha Road	KR

Column (7) : System of Sewerage

Generally, by sewerage system is implied the network of mains and branches of underground conduits for the conveyance of sewerage to the point of disposal. Sewers that carry only household and industrial wastes are called separate sewers, those that carry storm water from roofs, streets and other surface are known as storm water drains, while those carrying both sewage and storm water are called combined sewers.

The codes used for different types of drainage system are as follows :

(i)	Sewer	S
(ii)	Open Surface Drains	OSD
(iii)	Box Surface Drains	BSD
(iv)	Sylk Drains	SD

(v)	Cesspool method	CP
(vi)	Pit System	Pt
(vii)	Others	O

Column 8 to 11 : Number of latrines

Number of various types of latrines both Public and Private are given in these columns.

Column 12 : Method of disposal of night soil

The various prevalent method of disposal of night soil are given below with codes :

(i)	Head Loads	HL
(ii)	Basket	B
(iii)	Wheel Barrows	WB
(iv)	Septic Tank	ST
(v)	Pit System	Pt
(vi)	Sewerage	S
(vii)	Others	O

Column 13 and 14 : Water supply

Source and capacity of storage system. The following codes are used in these columns :

Column 13:

(i)	Tap water	T
(ii)	Tube-well water	TW
(iii)	Tank Water	TK
(iv)	Well water	W

Column 14:

(v)	Over Head Tank	OHT
(vi)	Service Reservoir	SR
(vii)	River Infiltration Gallery	RIG
(viii)	Bore Well Pumping System	BWP
(ix)	Pressure Tank	PT

The information on major source of water supply are given in column 14 and the storage capacity against each in kilo-litres (in bracket) are presented in column 15.

Column 15 : Fire Fighting Service

In case the fire fighting service is available in the referent town 'yes' is recorded. If the facility is not available within the town. The name of the nearest place having this facility with its distance from the referent town has been recorded.

Column 16 to 20 : Electrification (Number of connections)

Different types of electric connections have been shown in these columns, i.e. Domestic, Industrial, Commercial, Road lighting (points) & others.

Statement V : Medical, Educational, Recreational and Cultural Facilities, 1999

Column 1 to 3 : Self explanatory.

Column 4 & 5 :

The data covers all such medical institutions run by or aided by Government/Semi Government/Local bodies and Charitable institutions or Social agencies like the Missionaries. Where the family planning centres are attached to hospitals or maternity and child welfare centres or Primary Health Centres, may be treated as independent units and counted separately using following codes :

(i)	Hospital	H
(ii)	Dispensary	D
(iii)	Health Centre	HC
(iv)	Family Welfare Centre	FWC
(v)	T.B. Clinic	TB
(vi)	Nursing Home	NH
(vii)	Others	O

In case of more than one institutions of any type, it is indicated within brackets the number of such institution (s) e.g. D(3), NH(8), etc. The institutions have further been distinguished by providing additional codes within the bracket as given below :

(i)	Ayurvedic	A
(ii)	Unani	U
(iii)	Homoeopathic	Hom.

Column 6 to 9 :

The codes used for these columns are as follows:

(i)	Arts only	A
(ii)	Science only	S
(iii)	Commerce only	C
(iv)	Arts & Science only	AS
(v)	Arts & Commerce only	AC
(vi)	Combined for all categories-Arts, Science and Commerce	ASC
(vii)	Law	L
(viii)	University	U
(ix)	Others	O

Column 10 : Recognized shorthand, typewriting and vocational training institutes

"Recognised" should mean recognised by some statutory authority, like education department, commerce department, labour department etc. of the government or semi government or autonomous bodies, public sector undertakings etc..

The following codes are used :

(i)	Vocational Training Institute	VT
(ii)	Shorthand	SH
(iii)	Typewriting	Type
(iv)	Shorthand & Typewriting	SH Type
(v)	Others	O

The vocational institutions like - Applied Art/Painting college, Pharmacy college, B. Ed. College, Teacher's Training Institute, Music / Dance School, Nursing School etc. are covered under 'Others'.

Column 11 to 14:

Higher Secondary / Intermediate / Senior Secondary / PUC / Junior College level, Secondary / Matriculation, Middle Schools / Junior Secondary and Primary Schools.

School up to class V are treated as Primary or elementary schools. These include Nursery schools, Kindergarten schools, Pre-Primary schools, Junior Basic schools upto class V and Primary schools upto class IV.

Schools upto VIII are considered as Middle school or Junior Secondary.

Schools upto class X are considered as

Matriculation or Secondary schools. Schools upto XI or XII classes are considered as Higher Secondary / Intermediate / Pre University /Junior College etc. This would cover 10+2 classes whether held in schools or college.

If there are composite schools like middle schools with primary classes or Secondary schools with Middle classes, these are also included in the number of Primary and Middle schools, respectively. For example, if in a town, there are two Primary Schools and one Middle school with Primary classes, the number of Primary schools in the town is given as three and that of Middle schools as one though there are only three educational institutions.

If there are more institutions of a type in the town, the number is indicated within bracket along with the abbreviation, e.g. P(4), M(3).

Column 15 : Adult literacy class/centres

This column has been introduced keeping in view the Minimum Needs Programme of the Planning Commission. There are number of Adult Education Centres which are included in these columns.

If an educational facility is not available in the town, the name of the nearest place and its distance in kilometres from the town where the facility is available is mentioned.

Column 16 : Working Women's hostels with number of seats

The number of working women's hostel if available in the referent town is mentioned with number of seats. If the facility is not available in the town the name of nearest place with distance where the facility is available is recorded.

Column 17 to 19 : Recreational and Cultural Facilities

Stadium, Cinema, Auditorium/Drama/Community Hall are covered under recreational & cultural facilities. The particulars of permanent recreational facilities are considered for these columns.

Column 20 : Public Libraries, Reading Rooms

Number of public libraries and reading rooms available in the referent town are recorded in codes as follows :

(i) Public Library	PL
(ii) Reading room	RR

Statement VI : Trade, Commerce, Industry and Banking, 1999

Column 3 to 8 :

Name of three most important commodities exported and names of three most important commodities manufactured in the town are recorded.

Column 9 : Number of Banks

Number of Banks available in the referent town both Commercial and Co-operative banks are recorded against this column.

Column 10 & 11 : Number of Agricultural Credit Societies and Non Agricultural Credit Societies

The total number of Agricultural Credit Societies and Non Agricultural Credit Societies in the referent town are recorded against these columns.

Statement VII : Civic and other Amenities in Slums, 1999

This is the statement on civic and other amenities in all slums whether notified or not and for all towns having statutory bodies, like municipality, Municipal Corporation, Town area committee etc.

PART B
PRIMARY CENSUS ABSTRACT

(a) Brief note on Primary Census Abstract

The first census of the third millennium and twenty first century the Census of India, 2001 was the 14th continuous and uninterrupted Indian census since 1872. Thus, 2001 Census will provide data on population and its characteristics marking transition from one century and millennium to another.

The gigantic operation of Population Enumeration (considered by many to be the single largest and complex peace time administrative exercise in the world) was made possible due to the door to door universal canvassing of the Household Schedule by about 2 million enumerators and supervisors covering 593 districts, 5,463 sub-districts, 5,161 towns and 638,588 villages. The comprehensive Household Schedule which replaced the individual slip had three parts and two sides A and B. Part I contained the Location Particulars; Part II related to the Individual Particulars and Part III contained questions for Household engaged in Cultivation/Plantation. The part II of the Household Schedule had 39 columns and 23 questions all of which were universally canvassed and no sampling was resorted to during enumeration.

Data Processing

A quantum leap was made in the technology front while processing the Census 2001 data both for Houselisting and Population Enumeration. The Census schedules for both the phases were scanned through high speed scanners in fifteen data centers across the country and hand-written data from the schedules were converted into digitized form through Intelligent Character Reading (ICR) software for creation of ASCII records for further processing. The designing and formatting of the Household Schedule had to be done very carefully using specialized software so as to ensure uniformity, which was an essential pre-requisite for scanning. The selection of appropriate state-of-art technology in data processing has made it possible to produce all the Houselisting as well as Population Enumeration tables on full count basis for the first time in the history of Census. For Census 2001, about 202 million schedules consisting of about 1,028 million records were scanned and processed within a span of only 10 months starting October, 2002.

Task Force on Quality Assurance

After the data is processed, it is expedient on the part of the data producing agency to satisfy itself about its quality before putting the same in public domain. This has to be done mainly through the process of internal consistency, comparison with similar data in the past and also through validation with likewise data if available, from external sources. Quite often the local knowledge and perception has to be brought into play to understand both the existing and the new emerging trends of population distribution and characteristics. The other very important aspect of the data quality is to ensure complete coverage of all geographical areas especially for the population enumeration phase where the data is disseminated right up to the village level in the rural areas and the ward level in the urban areas. Thus ensuring the complete coverage and

correct geographical linkage of each enumeration block was one of the major planks of the quality control, specially for small area population statistics.

A very comprehensive check and edit mechanism was put in place to objectively examine the preli-minary Census 2001 Population Enumeration results and finally clear them for use. The responsibility of the final clearance of data was with the Task Force on Quality Assurance (TFQA), headed by the Registrar General and Census Commissioner, India. The other members of the TFQA were the Heads and senior officers of the Census Division, Data Processing Division, Map Division, Demography Division and Social Studies Division. The Directors of Census Operations were co-opted as members whenever the TFQA discussed the data for their States/Union territories. The Directors and their senior officers were required to make detailed presentations of data for their own state both in respect to the quality and the coverage and only after the full possible cleared.

There has been a major departure in Census 2001 from the past in respect of the procedure followed for finalization of the Scheduled Castes and the Scheduled Tribes population. In the earlier censuses, the total Scheduled Castes and Scheduled Tribes populations were finalized at the time of the manual compilation of the Primary Census Abstracts (PCA) at the Regional Tabulation Offices which were specially set up for this purpose. The individual Scheduled Castes and the Scheduled Tribes population for each state was finalized much later based on manual coding done by the coders. In 2001 Census, each individual Scheduled Caste and the Scheduled Tribe have been coded directly on the computers by the Data Entry Operators through a process known as Computer Assisted Coding (CAC) and taken up along with the processing of PCA data. The CAC process involves pulling down, from the relevant dictionary of the Scheduled Castes and the Scheduled Tribes, on the computer screen and coding from the dictionary by referring to the image of the specific individual entry in the Household Schedule appearing on the screen. The CAC of the response on Religion wherever required, was also undertaken along with the processing of PCA. This is because the Scheduled Castes status had to be determined in relation to the religion of the individual. Two Special Task Forces, one on Religion and the other on Scheduled Castes/Scheduled Tribes were constituted for scrutiny and appropriate classification of these responses.

The main task of the Special Task Force on Religion was to appropriately merge or group the new responses encountered and code it into the appropriate religious community based on available literature and local knowledge. The Special Task Force on Scheduled Castes and Scheduled Tribes examined the different Scheduled Castes and Scheduled Tribes entries encoun-

tered and classified these into appropriate category of the Scheduled Castes or the Scheduled Tribes principally based on the Presidential Notification and the available literature. Thus a very systematic and scientific mechanism was operationalised to firm up the individual religion and the individual Scheduled Castes/Tribes returns. The Scheduled Castes and the Scheduled Tribes population in 2001 Census, is thus being finalized by aggregating the population data for individual Scheduled Castes and the Scheduled Tribes at appropriate geographical levels.

The entire work relating to the data validation and scrutiny was completed by all the States/Union Territories under the overall supervision and monitoring of the Census Division of the Office of the Registrar General, India with active cooperation and support of the Social Studies Division, Data Processing Division, Data Dissemination Division and Map Division.

Primary Census Abstract

The Primary Census Abstract which is yet another important population of 2001 Census gives basic information on Area, Total Households, Total population, Scheduled Castes, Scheduled Tribes population, Population in the age group 0-6, Literates, Main workers and Marginal workers classified by the four broad industrial categories, namely, (i) Cultivators, (ii) Agricultural laborers, (iii) Household Industry Workers, and (iv) Other workers and also Non-workers. The characteristics of the Total Population includes Scheduled Castes, Scheduled Tribes, Institutional and Houseless population and are presented by sex and rural-urban residence. This data is presented at different levels, namely, India, States/Union territories, Districts and Cities, Urban Agglomerations (Population 1,00,000 and above) in three different tables. In addition, the Appendix of said publication provides Houseless and Institutional Households and their population by residence and sex for 2001 for India, State and Union territory.

Apart from the India and State/Union Territory volumes for Primary Census Abstract, the District Census Handbook contains District Primary Census Abstract, Appendix to District Primary Census Abstract, Primary Census Abstract for Scheduled Castes, Primary Census Abstract for Scheduled Tribes, Village Primary Census Abstract and Urban Primary Census Abstract of the concerned district in the state.

It was for the first time at the 1981 Census that the Primary Census Abstract (PCA) was brought out for the Scheduled Castes and the Scheduled Tribes separately on the pattern of General Primary Census Abstract. This practice was continued in 1991 also. In the 1961 and 1971 Censuses, such data were made available in Table C-VIII-Social and Cultural table and to some extent in the series 'Special Tables for Scheduled Castes/Scheduled Tribes'.

The format of Primary Census Abstract has been restructured slightly in the 2001 Census as compared to that of 1991 Census. The nine-fold industrial classification of main workers given in the Primary Census Abstract of 1991 Census has been discontinued and its place, four-fold industrial classification of both 'main workers' and 'marginal workers' are included. In 1981 census only main workers were presented in to four categories. One of the novel features of the primary census abstract of 1991 census was the presentation of data of the population of age group 0-6 is continued in 2001 Census also. This will help the data users in better analysis and understanding of this literacy data.

Level of presentation in District Census Handbooks:

The Primary Census Abstract data in different PCAs are presented at different levels. The level of presentation of Primary Census Abstracts are as under:

The PCA Data for villages was presented CD Block wise for the first time in 1991 Census. This practice is continued in 2001 Census also. The data for each CD Block is presented both for rural and urban areas separately. All the villages within the CD Block constitute the rural portion and the Census Towns and Outgrowths are shown under the urban portion of the CD Block. In case a CD Block is spread over two or more districts, than portion which falls within the district is presented, the data pertaining to remaining portion of the CD Block is presented in the concerned District Census Handbook. The data in the Urban Primary Census Abstract for each town as well as for town with outgrowths in the district are presented. The data for all the wards and the outgrowths of the town(s) are also presented separately below the concerned town(s).

The District Primary Census Abstract is presented in 59 columns. The Primary Census Abstract for Scheduled Castes and Primary Census Abstract for Scheduled Tribes are presented in 52 columns. The Village Primary Census Abstract and Urban Primary Census Abstract are presented in 58 columns.

The concepts and definitions used in the column heading are explained under the sub heading 'Census Concepts' in the Analytical Note. The term 'Total Population' includes the Scheduled Castes, the Scheduled Tribes, the Institutional and the Houseless populations. The explanation regarding area figures presented at various level in the Primary Census Abstracts are as follows:

Area Figures

The area figures supplied by local revenue authorities of the district in respect of tehsils, Police Stations and by the local bodies in respect of towns are given in square kilometers. The area figures of the villages supplied by the Tahsildars in acres have been converted and shown in

hectares. The area figures of the CD Block is the total of the village areas coming under each CD Block. The area figures for the district are the same as adopted by the Surveyor General of India to maintain uniformity at the national level. The total area figures of all the tahsils/CD Blocks within the district may not tally with area figures of the district because former represents land use area only. Similarly, the total of all the villages may not tally with the entire rural of Police Station/Tahsil. The difference may be due to the fact that while the area covered by hills, forests and rivers etc, have been accounted in the Tahsils and P.S. level the same may not be covered under the area of the villages. Apart from this it may also differ due to varying methods of computation adopted at different levels.

An appendix to District Primary Census Abstract has also been furnished showing urban enumeration block-wise particulars on Total Population, the Scheduled Castes Population and the Scheduled Tribes Population for each town.

ANNEXURES
I TO VIII

ANNEXURE - I
NUMBER OF VILLAGES UNDER EACH GRAM PANCHAYAT

Not provided for this district.

ANNEXURE - II
Fertility and Mortality 1991 Census

The three factors affecting the population size of the district are fertility, mortality and migration. These concepts are explained in detail under the caption Census and Non- Census Concepts and Definitions in the Analytical Note portion. One major aspect of consideration under mortality is infant and child mortality. Migration may be perceived as percentage distribution of migrants by place of birth and/or place of last residence. The population of the UP state was 139 million at the 1991 Census, which accounted for 16 % of India's total population. It grew by 25% between 1981 and 1991 largely as a result of high fertility, the highest of any Indian state.

The child mortality indicators at the 1991 Census in the district and the State was as following:

Child Mortality Indicators in the State and the District

Indicator	Persons/Males/Females	UP*	Gonda
q1	Persons	99	130
	Males	98	114
	Females	104	138
.q2	Persons	117	136
	Males	117	121
	Females	118	154
q5	Persons	134	157
	Males	135	135
	Females	132	180

(*Undivided Uttar Pradesh at 1991 Census)

Note:-Balrampur district was carved out from Gonda after 1991 Census. The data is not available separately for Balrampur. Hence, for comparison purpose of Annexure IV to VIII , the data of undivided Gonda district have been used, assuming that the trends and pattern of districts are same.

Annexure – III

Various Measures of Fertility and Mean Age at Marriage – 1991

Sl. No.	Fertility Measures	Person Male Female	Uttar Pradesh	Gonda
1	2	3	4	5
1	CBR		37.21	42.10
2	TFR		5.60	6.38
3	TMFR		6.30	6.81
4	GFR		172	193
5	GMFR		200	212
6	Mean age at marriage (1981-91)		17.27	16.46
7	Number of children ever born per ever married woman aged 15-49 years		4.59	4.58
8	Child woman ratio 0-4 (years)		631	612
	5-9 (years)		752	739

Source: (i) Estimates of fertility indicators Uttar Pradesh Table # 2.23
(ii) District Profile Uttar Pradesh 1991.

Measures of fertility is an important component to describe fertility and mortality rate of any area. The table reveals that the Crude Birth Rate (CRB), which is the ratio of the number of live births in a year to the mid year population, is 42.10 per cent in the district. It is above the state of Uttar Pradesh i.e. of 37.21 per cent. In respect of Total Fertility Rate (TFR), Total Marital Fertility Rate (TMFR), General Fertility Rate (GFR) and General; Marital Fertility Rate (GMFR), the district presents all along a higher proportion from the state figures. The conclusion that may be drawn is higher fertility ratio for the district in comparison to state average fertility. The mean age at marriage during the period 1981-91 has been 17.27 years for the state where as 16.46 years has been observed for the district. It may be observed that lower age at marriage leads to low rate of fertility in the state and higher in the district. Similar trend is observed in the number of children born per ever married women in the age group 15-49. The state and the district figures are placed as 4.59 and 4.58 per cent respectively. Number of children in the age group 0-4 and 5-9 years per one thousand women in the age group 15-49 has been calculated to 612 and 739 for the district while in case of the state the corresponding figures are 631 and 752. The various measures of fertility presents that fertility levels as such are higher to the state average. Another important factors i.e. the probability of dying between birth and at age 1,2&5 has been higher order in the district.

The annexure presented above shows percentage distribution of in-migrants as per the 1991 and 2001 Census amongst the total migrants in the state and district. There are two type of in-migration in the district such as in-migration by place of birth (in which a person is enumerated during the census at a place other than place of birth) and in-migration by place of last residence (a person is enumerated during the Census at other than his place of last residence). The comparison between 1991 Census and 2001 Census reveals that among the total migrants the proportion of in-migrants within the state (from other districts of state) was 81.3 percent and 79.6 percent respectively. The corresponding figure for the district was 89.1 in 1991, while in 2001 it was 87.9 percent respectively. The proportion of in-migrants from other states was 16.2 percent at state level during 1991 Census, whereas it rose to 19.3 percent in 2001. The district level figure was 7.1 percent and 7.0 percent respectively. This shows in-migration from other states to this district was nearly equal in 2001 and 1991 census. At district level in-migration from other countries was 3.9 percent in 1991 and 5.1 percent in 2001. While at state level figures were 2.5 percent and 1.1 percent during 1991 and 2001 Census respectively.

In respect of in-migrants by place of last residence, it is evident that in-migrants from other districts of the state amongst total migrants, constituted 79.6 percent in 1991, while it was recorded 74.1 percent in 2001 at state level. District level figures were 85.3 percent and 84.5 percent during 1991 and 2001 Census respectively. The percentage of in-migrants from other states worked out to be 18.9 in 1991 and 25.2 percent in 2001 at state level, whereas district figures for both the Censuses were 11.3 percent and 10.9 percent respectively. The movement of population from other countries in the district was 3.4 percent in 1991 and 4.6 percent in 2001, while state level figures were 1.5 percent and 0.7 percent respectively.

Annexure-V presents composition based on religions at the state, district and tahsil level. If we compare the data for 1991 and 2001 Census, we find that demographic pattern based on religions is almost same in both Censuses at the state level. Hindu religion predominates with 81.7 percent population in 1991 and 80.7 percent in 2001 followed by Muslim which were 17.3 and 18.5 percent respectively. Against this, district figure for Hindu religion were 74.5 percent in 1991 and 62.9 percent in 2001, while Muslim were 25.4 percent in 1991 and 36.7 percent in 2001. Rest of the four religions i.e. Buddhist, Christian, Jain and Sikh alongwith combined population of other religion had insignificant proportion which was less than one percent of total population for each religion. Similar trend is visible for state, district and at tahsil level in 1991 as well as 2001 Census.

Annexure – VI

Marital status of populations as per 1991 Census

Annexure-VI deals with marital status of different age groups of population. On perusal of the annexure for state and district for two respective Census in the years 1991 and 2001, it is evident that, for all ages the percentage of never married is higher than proportion of married for state and at the district level also. Percentage of never married has increased from 54.4 percent male and 45.9 percent female in 1991 to 57.5 percent male and 48.9 percent female in 2001 at state level, while it rose marginally in the district from 49.4 percent male and 41.1 percent female to 54.2 percent male and 46.7 percent female. Percentage of married male and female shows declining trend in comparison to 1991 from 42.4 percent male and 49.4 percent female to 39.8 percent male and 46.2 percent

female. Percentage of married male was 46.5 percent and female was 53.5 percent in 1991 and in 2001 it was 42.0 percent male and 48.7percent female. Percentage for widowed persons at state level was 3.0 percent male and 4.6 percent female in 1991 and in 2001 it was 2.6 percent male and 4.8 percent female. At district level in 2001 it was 3.6 percent male and 4.4 percent female while it was 4.0 percent male and 5.3 percent female in 1991 Census. Percentage of divorced and Separated remained constant at 0.1 percent for male and female in state and district level during 1991 and 2001. None person was recorded in the category of Unspecified marital status in state and district during 2001 Census. Among the age groups, the proportion is in the descending order for never married and ascending order for widowed. The trend for married is pyramidal the peak being between 25-29 and 45-49 (years) age- groups.

Annexure - VII

Age, Sex and Education in the state/district 1991 census.

Age and sex wise education in the state and district has been presented in the Annexure - VII. From the annexure it can be observed that percentage of illiterates has declined from 55.3 percent male and 80.0 percent female in 1991 to 44.2 percent male and 65.9 percent female in 2001 at the state level. Consequently percentage of literates has increased in all educational levels. Percentage of literates without educational level was 2.0 percent male and 0.7 percent female in 1991 at state level, which increased to 2.8 percent male and 2.1 percent female in 2001. Similarly primary level education was 10.7 percent male and 6.1 percent female in 1991 and percentage for male and female rose to 16.0 and 11.5 respectively in 2001. Middle level education was 9.8 percent male and 3.7 percent female in 1991 which increased to 13.8 percent male and 7.1 percent female in 2001. Matriculation and above level was 13.5 percent male and 4.4 percent female in 1991 which was 20.4 percent male and 9.0 percent female in 2001.

Similar trend can be observed in the district also. Illiterates were 67.8 percent male and 90.0 percent female in 1991 which declined to 63.1 percent male and 82.8 percent female in 2001. Primary level education was 8.9 percent male and 3.1 percent female in 1991, which was 12.9 percent male and 6.1 percent female in 2001. Middle level education was 6.4 percent male and 1.6 percent female in 1991 and 7.5 percent male and 2.4 percent female in 2001. Matriculation and above level of education was achieved by 7.9 percent male and 1.7 percent female in 1991 which was 8.9 percent male and 2.9 percent female in 2001. Primary level of education was highest in the age-group 7-14 in 2001, while middle level education was highest in 15-19 and the age group that had highest percentage of matriculation and above level of education was 20-24 (years).

Note : For state level only first 28 mother tongues and at district level only those mother tongues are shown in the table whose proportion is greater than 0.02%. The remaining tongues have been merged in the column of "Total of Other Mother Tongues."

Annexure-VIII presents distribution of population according to different mother tongues with percentage for the state and the district. There is identical trend for Census of 1991 and 2001 as the highest percentage of the people reporting Hindi as the mother tongue (82.1 percent in 1991 and 83.1 percent in 2001). This trend is visible for the district as well. The district reported Hindi as mother tongue for 86.4 percent person in 1991 and 91.0 percent in 2001. Urdu returned as second largest spoken mother tongue as 9.0 percent was recorded in 1991 and 8.0 percent at the state level whereas 10.0 percent and 8.2 percent at district level in 1991 and 2001 Census respectively. Persons speaking other languages as mother tongue were very small in number in both the state, and district, in both Censuses.
