Population	2,712,650
Number of Tahsils	5
Number of Vikas Khand	15
Number of Towns	10
Number of Villages	2161

MOTIF

SHRI DUGDHESHWAR NATH TEMPLE

Shri Dughheshwar Nath Temple located near Rudrapur is considered as the holiest place of the district because of Lord Shiva Temple known as– "Ekadash Rudra". According to the legend the temple is very ancient and thick forests happened to be along with western bank of Narayani river and the area was basically known as "Devranya". The place finds mention in Balmiki Ramayan too. By tradition, it is said that Garg, Gautam and Shandilya – three Rishis inhabited here and with the milk of 'Kamdhenu' the shape of 'Shivaling' is believed to have emerged at this place and was named as "Dugdheshwarnath". Kamdhenu and Rishi Dadhichi are traditionally said to be in the centre of origin of this temple. The principal idol in the temple is 'Shiva Ling' of black stone. Thousands of devotees visit the temple on every Monday.

Annexure VIII	Distribution of different mother tongues returned in 1991 Census	930

FOREWORD

The District Census Handbook (DCHB) published by Census Organisation since 1951 census, is one of the important publications in the context of planning and development at gross-root level. The publication, which is brought out for each district, contains several demographic and socio-economic characteristics village-wise and town-wise of the district alongwith the status of availability of civic amenities, infrastructural facilities, etc.

2. The scope of the DCHB was initially confined to a few Census Tables and Primary Census Abstract (PCA) of each village and town within the district. Thereafter, at successive censuses, its scope and coverage has been enlarged. The DCHB published at the 1961 census provided a descriptive account of the district, administrative statistics, census tables and a village and town directory including PCA. The 1971 census-DCHB series was in three parts: Part-A related to village and town directory, Part-B to village and town PCA and Part-C comprised analytical report, administrative statistics, district census tables and certain analytical tables based on PCA and amenity data in respect of villages. The 1981 census DCBH was in two parts: Part-A contained village and town directory and Part-B the PCA of village and town including the SCs and STs PCA up to tahsil/town levels. New features alongwith restructuring of the formats of village and town directory were added into it. In Village Directory, all amenities except electricity were brought together and if any amenity was not available in the referent village, the distance in broad ranges from the nearest place having such an amenity, was given. Information on new items such as adult literacy centres, primary health sub-centres and community health workers in the village were provided so as to meet the requirements of some of the Revised Minimum Needs Programme. Information on approach to the village was provided for the first time in the Village Directory so as to give the details on number of inaccessible villages in each district. In the Town Directory, a statement (IV-A) on slums was introduced to provide the details on civic and other amenities in the notified slums of Class I and Class II towns.

3. The 1991 census DCHB, by and large, followed the pattern of presentation of 1981 census, except the format of PCA was restructured. Nine-fold industrial classification of main workers was given against the four-fold industrial classification presented in the 1981 census. In addition, sex-wise population in 0-6 age group was included in the PCA for the first time with a view to enable the data users to compile more realistic literacy rate as all children below 7 years of age had been treated as illiterate at the time of 1991 census. One of the important innovations in the 1991 census was the Community Development Block (CD block) level presentation of village directory and PCA data instead of the traditional tahsil/taluk/PS level presentation. It was expected that the presentation of village directory and PCA data at CD block level will help the planners in formulation of micro level development plans, CD block being lowest administrative unit.

4. The present series of 2001 census DCHBs have been made more informative and exhaustive in terms of coverage and content. The Village Directory has been enlarged in scope by including a number of other facilities like banking, recreational and cultural facilities, newspapers and magazines and 'most important commodity' manufactured in village. Income and expenditure of gram panchayat, wherever possible, has been provided. Apart from these, more details on distance(s) at which basic amenities are available (if not available in the village), are given. This includes educational facilities (namely primary and middle schools and college), medical facilities (viz. Allopathic Hospital, Maternity & Child Welfare Centre and Primary Health Centre), drinking water, post & telegraph (post office and phone), communication, bank, credit societies and recreational facilities. In Town Directory, the statement on Slums has been modified and its coverage

enlarged by including details on all slums instead of 'notified slums'. The information is given in case of all statutory towns irrespective of their class, against only Class I and Class II towns in the 1981 and 1991 censuses. The basic amenities available in the villages and towns are analysed in depth with the help of a number of cross-classified inset tables and statements. Two other significant additions in the publication are inclusion of 'motif' highlighting significant characteristic of the district and analytical notes as annexures. The analytical notes on (i) fertility and mortality and (ii) various measures of fertility and mean age at marriage are prepared based on 1991 Census. Whereas, in the notes relating to (i) percentage distribution of migrants by place of birth/place of last residence, (ii) main religions, (iii) marital status of population, (iv) age, sex and education, and (v) distribution of spectrum of mother tongue, nature and extent of changes occurred in the district in its basic socio-demographic features during the decade 1991-2001 are analysed. The eight digits permanent location code (PLCN) to all the villages and towns have been assigned keeping in view the future needs.

5. The village and town level amenity data have been collected, compiled and computerised in prescribed record structure under the supervision of Dr. Ranvir Singh, Director of Census Operations, Uttar Pradesh. Thereafter, efforts have been made to ensure comparability of the information with that of 1991 census data and the information brought out by the respective state governments in their annual reports and statistical handbooks for various years after 1991. The task of planning, designing and coordination of this publication was carried out by Shri R.G. Mitra, Deputy Registrar General (C&T) and Dr. I.C. Agrawal, Senior Research Officer of Social Studies Division. Dr. R.P. Singh, Deputy Registrar General (Map) provided the technical guidance in the preparation of maps. Whereas, Shri Anil Kumar Arora, Deputy Director of Data Processing Division who worked under the overall supervision of Shri Himakar, Addl. Director (EDP) helped in preparation of record structure for computerisation of village and town directory data and the programme for the generation of Village Directory and Town Directory statements including analytical inset tables. The draft DCHB manuscripts received from the Census Directorates have been scrutinised in the Social Studies Division under the guidance of Shri S.L. Jain, Deputy Director and Shri R.K. Mehta, Assistant Director. I am thankful to all of them and others who have contributed to make this publication possible.

D.K. Sikri
Registrar General &
Census Commissioner, India

New Delhi
Dated: 17.10.2006.

Preface

The District Census Handbooks (DCHBs) are brought-out in two parts giving village and town wise data for each district. The first part contains non-census data for each village and town and is called Village and Town Directories Part A. The Part B provides Census data for rural area up to the village level and for urban areas up to ward level for each town or city in the shape of Primary Census Abstract (PCAs). The information contained in Primary Census Abstract and Village and Town Directory (VDs/TDs) has already been released for data users in soft copy. Data available in District Census Handbooks are very useful for policy planners, Administrators, Researchers and other socio-economic research centers. Till 1991 Census, all the inset tables included in District Census Handbooks were produced manually. But this time the software designed by the Data Processing Division of the Office of the Registrar General, India helped in the fast generations of tables.

I am deeply grateful to Shri J.K. Banthia, Ex-Registrar General and Census Commissioner of India for his guidance and support. I would like to thank Shri D.K. Sikri, Secretary, Registrar General and Census Commissioner of India for his sustained support and spontaneous, unfailing guidance through our endeavours. At the outset I thank to Shri R.C. Sethi. Additional Registrar General, India, who drove us to complete the District Census Handbooks within a specific timeframe and make it ready for printing.

I thank to Shri R.G. Mitra, Ex. Deputy Registrar General (C&T), Shri R.P. Singh, Ex. Deputy Registrar General (Map), Dr. I.C. Aggarwal, Ex. Assistant Registrar General (SS) of the office of Register General, India for their guidance at each steps in the preparation of District Census Handbook. Special thanks are due to Shri S.L. Jain, Deputy Director (Social Studies) and Shri Anil Kumar Arora, Deputy Director (EDP), without their untiring efforts and support we could not have completed the District Census Handbook within this time.

The Director of Census Operations, Uttar Pradesh, Dr. Ranbir Singh, under whose guidance, the entire operations were carried out deserves all credit for its success, but he was repatriated to the State Government for taking up some other important assignments before the volume could be made available for the printing. I am also thankful to Shri R. K. Singh, Ex-Joint Director and Shri S.S.A. Jafri, Deputy Director for their valuable guidance and support to complete this project within specific time frame. The task of data collection in respect of both Census and non-census items was a gigantic on which officials in the State Government had to perform along with their normal duties. For their deep sense of devotion to duty and hard work in this regard, I am thankful to all of them.

The preparation of District Census Handbook was done under the supervision and guidance of Shri B.K. Srivastava, Deputy Director of Census Operations and his team of dedicated workers deserve all praise for their perseverance and dedication in preparing for Camera Ready Copy of District Census Handbook.

I am also thankful to Shri Mohan Pandey, Ex-Deputy Director, Shri J. Majhi, Assistant Director, Shri M.M. Pandey, Dr. S.S. Sharma S.I. Grade-I and Shri S.K. Banerjee, S.I. Gr. II who assisted in the work for timely completion of the project. S.I.Gr.II, S.I.Gr.III, Sr.Compilers, Compilers, Data Entry Operators and Assistant Compilers who assisted in the work also did a tremendous job. Shri A.M. Ansari, Deputy Director (EDP) and his team of devoted workers deserve all praise for timely processing of Household Schedule through Image Based Data Capturing Technology i.e. Scanning. The members of the staff in the Map Section did a commendable job under the guidance of Shri Dashrath Singh, Research Officer (Map) in bringing out various maps.

ANALYTICAL NOTE

Analytical Note

(i) History and Scope of the District Census Handbook

The district census handbooks were first published after 1951 census. Since then after every decadal census the publication has remained a constant feature with some improvements. This publication has been traditionally brought out by the Census Organization on behalf of each State Government/ Union Territory. This publication provides data on demographic characteristics as well as information on the availability of basic amenities in each village and town of respective districts. The scope of the publication has been changing with the changing needs of the data users. The 1951 census series of the publication contained Primary Census Abstract, Village and Town Directories, administrative statistics and an account of the district. In 1961 the publication was in a single volume containing three parts covering Census tables, official statistics and Village Directories. The 1971 Census DCHBs were published in 2 parts. The Part A contained Village and Town Directories and Part B contained Village and Town PCA. The Part C could not be published in many States/UTs which contained administrative statistics and district census tables. The 1981 DCHBs were published on the restructured formats of Village and Town Directories. The DCHBs of 1981 Census were published in 2 parts for each district. The Village and Town Directories comprised Part 'A' and PCAs of Villages and Towns (ward-wise) including Scheduled Castes and Scheduled Tribes PCA up to Tahsil/Town level were provided in Part 'B'. If any amenity except electricity was not available in the referent village, the distance in broad ranges from the nearest place having such amenities was given. Information on some new items were also provided keeping in view of the needs of the Revised Minimum Needs Program. The 1991 DCHBs were almost same in scope as was at 1981. The new features included in 1991 DCHBs were the ninefold industrial classification of main workers and the sex-wise population in the 0-6 age group. Yet other information at the 1991 census was the CD Block level presentation of data. The VD data was also made available through the magnetic tapes/ floppies. Unfortunately in UP no DCHBs relating to 1991 Census were out of press till completion of 2001 Census defeating the very purpose of these publications apart from causing inconveniences to the data users.

The 2001 DCHBs contain more information such as details on greater number of facilities available to the Villages/Towns. The analysis of data with aid of inset tables and statements is more informative. The 2001 DCHBs are fully geared to meet the requirements of Gram Panchayats. At the 2001 Census the DCHBs are entirely available on electronic format and on CD-ROM, hence the word "Handbook" seems now to be a misnomer.

(ii) Brief History of the District

The present district Deoria is situated in eastern zone of Uttar Pradesh. In previous time it was a part and parcel of Gorakhpur district. By separating from Gorakhpur it came into existence as a district on 16th March 1946 and with the passage of time, a part of it including tahsils of Padrauna, Hata and Tamkuhi Raj, was carved out from it and a new district was formed in 1994 which was named Padrauna and after that it was renamed Kushinagar in 1997. The origin of this district is acknowledged as ancient place of Devaranya and possibly Deopuria. According to the government records the name of this district is associated with the name of its headquarters. In general the meaning of Deoria is "That place where temples are found in a large number". The origin of the name Deoria is derived perhaps from the remnant (broken) of the Shiv temple situated on the mound on the side of 'Karn river' flowing in the north of Deoria.

The entire area of the Kosala Kingdome was an ancient centre of Aryan civilization. As for the rest, many archaeological remnants are found in the form of images, coins, super abundance bricks, temples, stupas and remains of abbeys of Buddha at many places of the district which signifies that there was a developed and organised social life since a long time. The story goes that once upon a time the cow of Vashistha muni was grazing in the forest, where a tiger came and crried away her. On the way it

marked a place with her 'Lar' (Saliva) falling her mouth. For this reason this place particularly was known as Lar, which became town now, and is situated at a distance of 38 kms. in north-east from the headquarters of Deoria. Another ancient place is Sohanag of cultural importance where main character of 'Ramayan', Parasuram residing here, used to practised penance, meditate and worship. In consequence of this the place was known as 'Parasuram Dham'. There is an ancient pond where two images of the parents of Parasuram. Jamdagini and Renuka are placed in the temple of Parasuram. Along with many relics of Brahmanical system, it is also a birth place of Tirthankar of Jainism. Many remains of Brahmanical systems are found in Khukhundu along with the Jain temple. Images of Shiv Parvati, Ganesh and fourarmed Vishnu are carved out from blue stone.

In pre-epic period there was only one Chakravarty ruler whose name was 'Mahasudassana'. The reference of whose name acquires in 'Maha sudassana suttanta'. There was none to stand against him. In Mahabharat period Mallas had gained complete ascendancy on this tract. The present regent of Malla suffered defeat in the hand of Bhimsen (one of the Pandavas) on occassion of Rajsuya yagya. After Mahabharat (1400 B.C.) Mallas were succeeded to re-establish their authority and they organised themself in a Gantantra (Republic) and this empire remained intact upto the death of Buddha. They were disciples of both 'Buddha' and 'Mahavir'. They used to go in the district in order to preach sermons. Testimony in this regards acquires in the form of sculpture, clay, seals, votive tablets, ruins of stupas and monasteries. The mounds at Sohnag corroborate the recourse of Buddha. After the end of Buddha's life his cousin and disciple Aniruddha came in order to give consolation to the Mallas went to the place where funeral rites of Buddha were performed. By the cause of Buddha's staying in Pavanagar (presently Fazilnagar) this place has become a religious centre at international level for the followers of both 'Budhism and Jainism'.

In subsequent time, this tract was bestowed to Surya vanshi king Vashishtha but his successors were driven out by Bhars during the half century of B.C. In the period of Mahapadmananda this region was under control of Nanda's kings. Afterwards Brahmanical Hindu Pushyamitra Sunga thwarted the authority of Buddhist Mallas in 187-157 B.C. The coins of Vuna Kadphisis Kanishka and Kurishka period found in excavation reveal the rule of Kushan dynasty in first and second A.D.

During the period of Chandra Gupta I (319-335 A.D.) the full political power was acquired by the district. In sway of Chandra Gupta II (375-414 A.D.) a pilgrim of China named Fa-Huien came in to the district (400-411 A.D.) and in the course of his pilgrimage observed the places of Buddhist. The order of Gupta's rule was shattered by Hune in the period of Skand Gupta (445-467 A.D.) in 1100 A.D. The tract at Nawapur (now Salempur) was carved out by Bisen Singh of Majhauli but Govind Chandra (1114-1154 A.D.) ousted him and established matchless sovereignty upon whole of the district and magnified its boundaries up to Bihar. The rule of the district could not remain durable by the cause of changeful nature of the Governor of Awadh or Bihar. In 1353 A.D. Firoz Tughlaq drove away Haji Ilyas Khan, the ruler of Bengal. At the time of his departure to Bengal he made a stoppage very near to the district and the chieftain of that part gave him profound respect. In 1497 after the downfall of Tughalqui rule, Sultanate of Delhi was brought under his control, during Lody dynasty. In the beginning of the twelth century Bisen Singh of Majhauli, linked with the illustrious Rajput clan, protected the district from his strong neighbour Doomers or Domkatarar in the west. However Chandra Sen the founder of Satasi raj drove them away from their dwelling place.

The medieval history of this district began with the enthronement of Akbar in 1556. Ali-Kuli-Khane-i-zaman raised agitation against supreme power in 1565. Akbar, gaining advantage of this situation, made up his mind to forward in the district. His brothers Bahadur Khan and Sikandar Khan entered in the district with the help of local chief but they were put down by the Sultan and a treaty was signed. After some time they revolted but were put to an end by the supreme forces. Fidal Khan a general of Akbar forced Khane-i-zaman to surrender. Afterwards he changed his name as Mohammad Salim and established the town Salempur. The whole terrain of the district was included by Akbar in the Sarkar of Gorakhpur under the suba of Awadh in 1596. The paragana of Sidhuo, Jogna Salempur and Shahjahanpur mingled with Akbari Mohal of Dewapura. Afterwards these were transferred to Gorakhpur. As a result of Afzal Khan's death in 1612. Raja Basant of Satasi gained mastery over situation. The Mughal Governor was expelled by him and he himself became lord of Gorakhpur (which include present Deoria) in 1625 A.D. Aurangzeb in his reign threw off the Raja Satasi and nominated Khalilur-Rehman as Chakaledar of Gorakhpur in 1680. The sernate chieftain was compelled to take refuge in Pargana Silhat where Rudrapur town was made by him. On the arrrival of

Prince Mujjam (Bahadur shah) of Gorakhpur, in his honour a new division Muazzamabad was made. Chin Qulich Khan was deputed as a supreme Faujdar of Gorakhpur in 1707 by Bahadur Shah but he resigned his claims. Saadat Khan Shia of Neshapur in Khurasan succeeded the Faujdari and later on made an independent kingdom of Avadh in 1724. Disorder against Nawab's son-in-law (Saadat Khan) has been created by Tilaksen. After a long time struggle his inheritor Abdul Mansoor Khan Safdarjang maintained order and peace and established Mansoorganj in 1750. His heir Siraj-ud-Daula was showed ostentatiously to Sarkar of Gorakhpur (including present district) and Asaf-ud-Daula got success. In 1778 Hannary a British regiment officer lent a hand to Avadh and he was deputed to look after the army and to accumulate revenue of the region. He made affording passage for Britishers.

The people of Deoria district along with other freedom fighters enthusiastically participated in all Independece movements led by Mahatma Gandhi. After the end of IInd World War in 1945 the British Government made up his mind to give full independence to India. In 1946, the Deoria region was detached from the district of Gorakhpur as a separate district. On August 15, 1947, the country and with it the district was liberated from alien rule and became Independent. With the enactment and adoption of the constitution of India on January 26th, 1950, India became a Sovereign Democratic Republic. On independence day and on Republic day, the people of the district alongwith country celebrated the events with full enthusiasm.

On 13.5.1994 by carving out district Deoria, a new district Kushinagar (formerly named Padrauna and renamed Kushinnagar in 1997) had been created, by transfering of entire tahsils Padrauna, Hata and Tamkuhi Raj of Deoria district to Kushinagar district.

(iii) Administrative Set-up:

The district consists of five tahsils namely Deoria, Rudrapur, Barhaz, Salempur and Bhatpar Rani. The district headquarter is at Deoria. It is further divided into 15 community development blocks, 1016 gram sabhas, 10 towns and 2161 villages in which 2008 villages are inhabited and 153 are un-inhabited villages. The number of NPP are only two namely Deoria Nagar Palika Parishad and Gaura Barhaz Nagar Palika Parishad. Gauri Bazar, Rampur Karkhana, Rudrapur, Bhatani Bazar, Majholi Raj, Salempur, Lar and Bhatpar Rani are Nagar Panchayat. There are fifteen community development block namely Gauri bazar, Baitalpur, Desahi Deoria, Pathardeva, Rampur Karakhana, Deoria, Rudrapur, Bhalubani, Barahaj, Bhatani, Bhatpar Rani, Bankata, Salempur, Bhagalpur and Lar. The total area of the district is 2538.00 sq.km..

Jurisdictional Changes (1991-2000)

During the decade 1991-2000, a new district Kushinagar had been carved out (formerly known as Padrauna) from Deoria district vide gazette notification no. 5-4(1) 88-277 dated 13.5.1994, by which entire Padrauna, Hata and Tamkuhi Raj tahsils of the then Deoria district had been transferred to the newly created district Kushinagar and the remaining tahsils namely Deoria, Rudrapur and Salempur had also been bifurcated within the remaining Deoria district and formed the Barhaj tahsil (from Rudrapur & Salempur tahsils) and Bhatpar Rani (from Salempur tahsil) as new tahsils in Deoria district. The details are given below in tabular form:-

S. No	Name of District/Tahsil	Notification No. and Date	Jurisdictional Changes	
			Added	Subtracted
1	2	3	4	5
60	DEORIA	5-4(1)88-277 dated 13.5.1994		Entire Padrauna, Hata and Tamkuhi Raj tahsils transferred to Kushinagar district
1.	Deoria tahsil	3028/1-5/98-MR 74/97-R-5 dated 15 2.1999		14 villages transferred to Kasya tahsil of Kushinagar district
2.	Rudrapur tahsil	2647/15/97-189/96-R-5 dated 5.9 1997		82 villages transferred to Barhaj tahsil
3	Barhaj tahsil	2647/15/97-189/96-R-5 dated 5.9.1997	(i) 82 villages transferred from Rudrapur tahsil	
		2541/1-5/97-281/97-R-5 dated 29 8 1997	(ii) 211 villages and one town transferred from Salempur tahsil	
4	Salempur tahsil	2541/1-5/97-281/97-R-5 dated 29.8.1997		(i) 211 villages and one town transferred to Barhaj tahsil (ii) 353 villages and one town transferred to Bhatpar Rani tahsil
5	Bhatpar Rani tahsil	2541/1-5/97-281/97-R-5 dated 29 8.1997	353 villages and one town transferred from Salempur tahsil	

District Administration

District administration comprises of Revenue, Development, Police (Law and Order), Judiciary, and Local self-government. District Magistrate is in-charge of revenue administration. He is assisted by Additional District Magistrate (Finance and Revenue) i,e., ADM (F&R). At the tahsil level Sub Divisional Magistrate is in-charge, who is now redesignated as Up-Jila Adhikari. He is assisted by Tahsildars in each tahsil and for revenue collection each tahsil is further entrusted to Naib Tahsildars and Kanongos circles respectively. For each revenue village, Lekhpal is in-charge. Chief Development Officer and District Development Officer are in-charge for development activities in the district. Various departments have departmental officers at the district level eg. Health, Panchayat Raj, Electricity, Transport, Irrigation, Jal Nigam, Animal Husbandry, Harijan and Samaj Kalyan, Agriculture, Horticulture, PWD, etc. each have a departmental district level office. The development point of view the district is divided into community development block. Block Development Officers (BDO) looks after development works at community development blocks level. Assistant Development Officer and Village Development Officers at village level.

Under the police set-up Senior Superintendent of Police in big districts and Superintendent of Police in small districts are incharge and Additional Superintendent of Police (ASP) in their respective area. Deputy Superintendent of Police (DSP) look-after the Thanas allotted to them. Police Inspector and Sub-Inspector are in-charges of their police stations depending upon the population and area.

The judicial administration of the district is headed by District and Session Judge. In addition there are several Additional District Judge, Civil Judge, Chief Judicial Magistrate and Munsif Magistrate etc.

The nucleus of the district body for Local self government is consisted of Mayor and Mukhya Nagar Adhikari (MNA) in the case of Nagar Nigam, Chairman, Executive Officer in Nagar Palika Parishad and Nagar Panchayat. Chairman District Board and Gram Pradhan in Panchayats and Pramukh of Kshetra Samiti etc. come under Local self-government.

(iv) Physical Features

Location and Size :

Deoria a part of Gorakhpur division, is situated far in the eastern corner of Uttar Pradesh. The district lies between latitude of 26°6' to 26°45' north and longitude of 83°29' to 84°14' east. It is bounded by district Gorakhpur in the west, in the north and north east by district Kushinagar and in east by Siwan and Gopalganj districts of Bihar state. In the south river Rapti and Ghaghara have separated its boundary from district Ballia and Mau. Total area of the district is 2538. Sq.Km.

Physiography :

On the basis of geology, soils, topography, climate and national vegetation the district is divided in the following regions:

1. Deoria Plain : The region is situated in the central part and covers two third area of the district. The surface is flat and slope is towards south-east direction. There is a broken chain of mounds in west and south of Hata and sourthern part of Padrauna town. Soil erosion along the Chhoti Gandak, the Ghagi and Kachi nala are the main physical features. There is natural levee along the Chooti Gandak which represents the old course of river. This river drains through the central part in the tract towards south and join the Ghaghara drainage system. There are a number of water bodies scattered in the entire course. The soil is productive.

2. Rapti Ghaghra Khadar : It is a low lying tract along the Rapti and the Ghaghra rivers. The Rapti flows towards south-east direction and joins the Ghaghara at the district boudnary junction of Gorakhpur. Ghaghra drains towards east along the district boundary. These mighty rivers are well known for their flood havoc. Incised meanders, oxbow lakes and dead arms of the river are common topographical features. The above features are the representatives of the shifting river courses. The frequency of such feature is more along the Rapti. The Chhoti Gandak joins the Ghagara in its part. The general slope is towards east but there is variation in local slope.

Drainage :

A river network is lying in the district, of which Ghaghra, Rapti and Chhoti Gandak are the main rivers. Besides these the Gaura, Vathna, Kurna, Majhnan and Nakta are small rivers, streams and nullahas which originate from the above big rivers. The river Ghaghra, which makes south boundary of the district, flows from west to eastward. The Rapti river flows from west-south to eastern side and meet with Ghaghra river at Kurch village. Flood comes in above noted rivers nearly every year, which has

effected the vast area of the district. There is not a single notable lake in the district and the ponds are also negligible.

Climate :

The climate of the district is alike of bordering district in south and north and some what affected by tarai marsh. The climate is not good for health. It is neither too hot nor too cold. The three seasons for the district are divided as the winter from mid November to February, Summer from March to mid June and from mid June to whole September is the south west monsoon seasons.

Generally rain starts from mid of June and continues upto mid of October. The maximum rain fall occurs in the month of August and the minimum is recorded in the month of April. In the year 1998-99, the real rainfall was 864.34 mm while in 1999-2000 it was 828.06 mm, which was 95.80% of average rain fall. May and June are the hottest months while the coldest months are December and January. In the year 1998-99 maximum temperature was 47.8^{0}celsius and minimum was 5.6^0 celceus. The weather is humid and casual events like thunder storms are accompanied by hail are observed.

Natural and Economic Resources

Forestry :

During the year 1999-2000, the forest covered an area of 25 hectares only which is very small and is 0.01% of district area whereas the state's forest area covers 17.55% of the total area of the state. Thus the forest area of the district is negligiable. Available forest in the district is of fire wood and timber wood. Under the social forestry programme, the central west plantation programme has been launched, by which forest production may be increased in coming years.

The trees found in the district are Jamun, Khair, Haldu, Semal, Sain, Jhingan, Aonla, Harra, Bahera, Bel and Bijasal.Other tress generally found in the district are Mango, Babul, Bargad, Gular, Neem and Sisoo.

Among the shrubs which generally grow here are ail, akola, ban nibua, bantulsi, ber jhau, karaunda, madar, mainihul, musali, rohini and sarpgandha. The chief climbers being the dudhibel, gurich, harijor and kalibel.

Among grasses munia sentha, pater, dub and kus are found throughout the district. Mango, is the main grove in the district. Chausa is the common variety of mangoes grown in the district. Apart from mango other species like Guava and Mahuva are also grown.

The large animals found in the district are Nilgai and some varieties of deer in the Kachhar tract along the Ghaghra. Other animal found in the district include the jackal, fox, hare, porcupine and monkeys. The kinds of birds found are duck, partridge and pigeon. Other birds like swan, sparrow, quail, jungle fowl, snipe, parrot, kite, crow and vulture are also found in the district. Snake species which are found in the district are non poisonous except cobra, krait and the russel's viper. The crocodiles, muggar and turtle are found in the ghaghra, through the first two are becoming rare.

Fish are found in the rivers, lakes and ponds of the district. About 60 species have been recorded. The chief being the rohu, mahasher, bhakur, karaunch and bata.

Minerals and Mining :

None of the minerals found in the district, is notable. But the sand is found in the rivers in sufficient quantity, which is used in construction work. Saltpetre, Kankar, Reh and Clay are found in some quantity in the district. Saltpetre mineral is being quarried in a crude state in considerable quantity near Gaura Barhaj. Reh is used in the manufacture of washing soap and as a leather pigment. Clay is used for making bricks, earthen toys and utensils are found almost everywhere in the district. In some areas, the Kankar is also found, which is used in road making and lime making.

Soil:

Nearly all kinds of soils, are found in the district, as Domat, Bhat, Matiyar and Balui Domat. The Domat is found in tahsil Deoria and in the west cornor of tahsil Salempur. This soil is very fertile in which nearly all crops are grown. The Bhat soil is found in the half area of Lar C.D.block. all areas of Bankata and Bhatparrani C.D. block. and some areas of Bhatni C.D.block. This soil is Chikni and Bhurbhuri and it has the capacity of absorbing water. Its main quality is that the alongwith the foodgrains, the production of commercial crops are also growing in much quantities. Matiyar soil is found in the western side of C.D.block. Bhalubani and mostly in the areas of C.D. block. Rudrapur. This soil is hard and is also fertile. Besides these soils, the Balui soil is found in

some parts of district, in which the coarse grains are produced; especially it is found mostly on the bank of rivers. The strata of underground water in the northern region of district is less than southern part and in middle part, it is equal to southern part. In northern part, Iodin is less and in the water of Rapti and Ghaghra's Kachhar and the salt is found in small quantity.

Land and Land use Pattern :

According to statistical magazine 1999-2000, on the basis of available land record 1999-2000, total reported area of the district was 248,941 hectares, in which net sown area was 199,420 hectares; which was 80.1% of total reported area; and sown area more than once (dofasli) was 115,845 hectares, which was 58.1% of the net sown area. The remaining land, which is used for other purposes, after net sown area in the reported land area of the district was covered by forest 0.01% (25.0 hectares). Usar and uncultivable land 1.36% (3,378.0 hectares), land used other than agriculture purpose were11.14% (27,726.0 hectares), waste land for agriculture 0.69% (1,726 hectares), permanent grazing land and other land for grazing 0.02% (64.0 hectares), other land area for trees, shrubs, bushes, gardens or chards etc. 1.75% (4,349.0 hectares), present fallow land 4.04% (10,056.0 hectares) and other fallow land 0.88% (2198.0 hectares). The land available for cultivation was 209,476 hectares in the year 1999-2000, in which net sown area was 19,9420 hectares which was 95.19% of the cultiviable land 58.09% area was sown more than once (dofasli) in the net sown area. In the reference year, total area sown was 315,265 hectares, divided as 147,813 hectares for Rabi, 161,596 hectares for Kharif and 5,826 hectares for zaid crops.

On the basis of agriculture census year 1995-96, the total numbers of land holdings were 340,030 in the district having covered the area of 205,134 hectares. In the district the area per holding is 0.60 hectare and cultaviable land per family in average is 0.62 hectares. The number of operational land holdings, below one hectare size was 289,143 having an area of 104,833 hectares in the year 1995-96, which was 85.03% of total holdings of the district numbring 340,030 and 5.10% of total area of 205,134 hectares holdings of the district. The number of smallholdings of the district is more than the division and state. For agriculture development the planning is to be set up accordingly.

Agriculture and Crop Patterns:

In the year 1999-2000, the total net sown area was 199,420 hectares and sown area more than once (dofasli) was 115,845 hectares in the district. Comparing the tahsils of the district, it seems that the net sown area in the tahsil Deoria was 71,842 hect. out of district's net sown area of 199,420 hectares, which was 36.03% of the district. The area sown more than once (dofasli) in Deoria tahsil was 40.68% having an area of 47,120 hectares out of district area of 115,845 hectares, which was more than the area of other tahsils of the district.

The main Rabi crops are wheat, barley, gram, lahi and sarson, and the crops sown in Kharif are mainly paddy, maize and arhar. Besides these the sugarcane, gram and sawan crops are also sown. In the year 1999-2000 in Rabi crops, the wheat was sown in 90.07% of area, Barley in 0.78% gram in 0.28%, peas in 1.83%, potato in 1.54% and remaining 5.50% area was covered by other crops. The area for wheat in the rabi crop was as much as 90.07% in which Deoria tahsil was much ahead than others, while Bhatpur Rani tahsil was most backward among the tahsils. The barley's production is reducing every year due to more production of wheat. In the Kharif crops, the paddy was cultivated in 123,788 hectares which was almost much more in Deoria tahsil and least in Bhatpur Rani tahsil. The sugarcane cultivation plays an important role in the district. In the year 1999-2000 an area of 17,436 hectares was under the sugarcane cultivation in which 10,110 hect. was in Deoria tahsil. The potato too has an important place in commercial crops. It was cultivated in 2,281 hectares. Due to un-timely payment and irregularity in purchasing of sugarcane and its transportion to sugar mills regularly, the cultivation is going down in comparison of the year 1998-99. From the last two years the cultivation is increasing in paddy, lahi, sarson, arhar, potato, gram and wheat while cultivation of sugarcane and other crops are going down. The average production in quintals per hectare in the district, in the year 1998-99, was 17.20 quintals paddy, 26.67 wheat, 4.53 maize, 21.82 barley. 13.81 peas, 6.41 arhar, 8.55 gram, 7.45 groundnut and 6.55 lahi/sarson. The production of food grains are increasing in the district due to the use of more crop producing varieties in every community blocks.

In the year 1999-2000, in the district 52,913 tons urea (75.5%), 14,063 tons phosphorus (20.1%) and 3,045 tons potash(4.4%) (a total of 70,021 tons) were

distributed. For crop protection, in the year 1999-2000, many efforts were made. In the district, there is one Mandi Samiti, alongwith 3 Purchase and Sale cooperative societies. The working area of the Mandi Samiti is spread all over the district's mandies, where cooperation is given to the farmers in marketing and storage of agriculture products. Besides these there are two cold storages in Deoria town. In the district,there are two depots of Indian Food Carporation having a capacity of 8,200 m.tons, two State Govt. depots with a capacity of 3,360 m.tons, 25 grain depots of state level having a capacity of 3,500 m.tons and one grain depot of cooperative department having capacity of 5,000 metric tones. Besides these grain depots, grain and other essential commodities have been made available to the villagers through rural depots at Nyaya Panchyat level.

Irrigation:

On the basis of statistical magazine 1999-2000, in the district, net irrigated area was 156,373 hectares, which was 78.41% of the net sown area. In this duration total irrigation area was 175,819 hectares, which was 55.76% of the total sown area. As per data available in statistical magazine 1999-2000, the particulars of irrigation by different sources in 1999-2000 are as follows: by canals area irrigated was 27,564 hectares (17.63% of total irrigated area) by tubewells 127,777 hectares (81.7%), by wells only (0.02%) 26 hectares, by ponds and lakes only with the area of 199 hectares (0.12%) and by other sources only 807 hectares(0.52%). Thus it is clear that the main source of irrigation, in the district, are tube wells and secondary the canals, where tubewells irrigates 81.71% area, the canals irrigates only 17.63%. Besides these the wells, ponds/lakes and other sources are enough in the district but these are not proper sources because their water level depends on the rain water. As per statistical magazine 1,997, means and sources of irrigation as on 31.3.1997, are given. According to it, the length of canals were 401 km, govt. tubwells 857, private tubewells 3,799, pumpsets on boring 56,511, earth leveled pumpsets 88, and pucca wells were 4,652.

Animal Husbandry :

Statistical Magazine 1999-2000 shows, that as per livestock census 1993, the total no. of livestocks in the district was 798,121, out of which the cows and buffaloe were 38.4% sheeps 17.91%, goats 1.62%, pigs 29.2% and ponies were 6.36% and density was 316 animals per sq.km. It is notable that at the time of livestock census 1993, the newly created district Kushinagar was included in the district, after that animal census is not done till now.

As per live stock census 1993, in the then district Deoria, cows were 307 thousand, buffalows 143 thousands, sheeps and goats 246 thousands, pigs 51 thousands and other animals were 51 thousands. Total animal were 798 thousands. Polutry development programme has an important role in the district. In the year 1993 number of polutry were 178,057. In the production of milk, ghee and manure and to strengthen the economic status of district, the livestock have an active role. The livestock development is done by breeding reforms. For livestock development in the district, till the end of the year 1999-2000, about 25 veternary hospitals, 33 livestock service centres, 33 artificial insemination centres and subcentres were functioning. In the year 1999-2000, about 260,120 livestock had been treated and 322,140 vaccinised through veterinary hospitals and livestock service centres. In the year 1999-2000, 32,897 cows and 11,914 buffalows was artificially inseminated. A variey of high breed bulls were distributed at low prices, and by artificial insemination process, the breed reform work has been done successfully. In 1996-97, 8 pig development centres, 2,217 pigri units and 698 poultry units were working in the district.

Fishery :

In the year 1980, Matasya Palak Vikas Abhikaran had been established in the district for the development of fishery. The aim is to give employment to unemployed educated persons and to improve the income of weaker section. The liabilities of the fishery department is to help the eager people for fishery work and assist them to obtain loan from banks on the private ponds or Gram Samaj's ponds, and to give them high breed fingerlings for fish production. Under this scheme, for the reform of ponds the provision is to give a grant of Rs. 20,000/- per hectares on private ponds and Rs. 12,000/- per hectare on 10 years lease ponds of Gram Samaj. The short term and long term training courses are also available to the fisherman on technical ground under this scheme. Also in the year 1999-2000, an amount of Rs. 21.42 lacks have been spent on various programmes for fishery development. According to the statistical magazine 1997, in the year 1996-97, 7,645 thousands fingerlings had been distributed by the fishery department. In the year 1996-97, 29

Matasya Sahkari Samitiyan alongwith 2,568 members and 9,800 working capitals were working in the district.

Industry :

As per information given in statistical magazine 1999-2000, four sugar mills are working in the district. In the large scale industry sector, not a single unit was established during the past years and neither any proposal is existing at present for establishing large scale industry unit. A middle scale industry, Deoria Paper Mill, on Hata Road, Narayanpur is working since 1995-96 in the district. Two industrial estate are in the district which accommodates five sugar industrial places. Total number of sheds are 24, which are allotted under the mini industrial estates. The total numbers of plots are 194, in which 114 plots has been allotted. The total number of Industrial co-operative societies are 26 in the district. 4,501 industrial units have been registered under the Industrial Directorate till now. The government is giving promotion to the small scale industries and hope to solve the problem of poverty and unemployment.

According to statistical magazine 1997, in the year 1996-97, a total of 4,205 Khadi industrial units were working in the district, in which 4,090 units were belonged to individual industrialist, 49 units were being operated by registered institutions and 66 units were being run by the industrial cooperative societies. In the small industry sector, 3 units of engineering and 58 others units were run by the individual industrialists. Thus the total no. of 4,266 units of Khadi and Small scale industry were operating in the district in the year 1996-97, in which 179 person were employed in Small Scale industry sector and 8,326 persons were employed in Khadi industry

Trade and commerce:

A Mandi Samiti and three Purchase and Sale co-operative societies are working in the district. Working sphere of Mandi Samiti is spread over different mandies of the district where Mandi Samiti assist farmers for sale and storage of agriculture products. Two cold storages are in Deoria town. In the district, there are two grain depot of I.F.C., 2 state ware house, 25 state level's storage depots and one grain depot of co-operative department. Their storage capaicty is 8200, 3360, 3500 and 5000 m.tons. respectively. Besides these, by the Nyay Panchayats' rural godowns, the grain and other essential commodities are also made available to the villagers at a proper price.

In the year 1996-97, the 186 primary Agricultural loan cooperative societies were functioning in the district, which have 294,265 members. These societies have distributed short term lone of Rs. 175,403 thousands and midterm loan of Rs. 6,394 thousands. 2,004 villages were under these societies. Co-operative agriculture and village development bank also distributed a loan of Rs. 36,744 thousand through their 2 branches.

There were 18 branches of District Co-operative Bank in the district with 2,789 members and distributed 175,403 thousand rupees as short term loan and Rs. 6,394 thousand as midterm loan. The other co-operative societies is running in the year 1996-97 in the district as follows :-

The Purchase and Sale co-operative societies are three in number in the district, which have 3,791 members. The society turn over was of Rs. 5,182 thousand. 237 primary milk production societies are working, with the sales of Rs. 9,484 thousand, The number of members were 9,484. In the district, 29 Fishery cooperative societies are working with 2,568 members. The Weavers primary industrial cooperative societies are running in 89 numbers with 3,032 members, 209 thousand metres cloth was produced with a value of Rs. 320 thousand. 42 Primary industrial cooperative societies are working with 689 members with a marketing of Rs. 250 thousand valued products. There are eleven Sugarcane cooperative societies with 167,644 members, which earned Rs. 17,694 thousand.

In the year 1996-97, total 50 branches of Nationalised Banks and 59 branches of Regional Rural Banks were working in the district . In the year 1996-97 the Nationalised banks distributed the total loans of Rs 105,9061 thousand which were 19% of the deposited amount. Through this loan Rs. 17,999 thousand were given for small industries and 82,562 thousand for other priority basis sectors. Thus the total lone distributed in priority basis sector was Rs. 216,017 thousand. In the district at the end of 1999-2000 the number of post offices were 500 and telegraph offices were 15. All telegraph offices and call offices had the facilities of trunck call on telephone and all the post offices had the saving bank facilities. The telephone connections were 6,540 in the year 1998-99.

Transport:

Road transport is very important for the

development of any area. It is very essential for convenience and industrial development. It assist the certainty of availability of goods and commodities essential for life. Through the road transport, the product articles in rural areas get facilities to reach in the market. Transport played an important role in giving opportunity of employment to unemployed persons. For economic development, the attempts are continuously being done to construct more and more roads under the different schemes.

Till the end of 1999-2000, the road of 1,542 km. length was constructed by P.W.D. out of the total 2,243 km. road. In addition to it 671 Km. road was constructed by local bodies and remaining roads were constructed by other departments. The villages having a population above 1000 is to be connect with pucca roads. The programme is being done under the National Minimum Need Programme, and the work will be completed soon to connect these villages with pucca roads. By the P.W.D. (Public Works Departments), 211 villages having the population above 1500, and 130 villages having the population within the range 1,000 to 1,499 have been connected with pucca roads. A total of 142 Bus station/stop were in the district in the year 1996-97, to transport goods and passengers. The Indian Railway plays a main role. 111 Km. broad gauge railway line with 19 railway stations (with halts) were in the district in the year 1996-97.

In the year 1999-2000, the number of various types of registered vehicles were 4,500 in the district, while in the year 1998-99 it was 3,891, so the increase in registration of vehicles were 15.6% in the year 1999-2000 in comparison to the year 1998-99. The percentage of various types of vehicles out of total number of vehicles were as follows in the year 1999-2000: motor cycle 76.4%, tractor 15.8%, truck 1.3% and jeep/car 6.5%.

In the year 1999-2000, total 60 trucks had been registered for goods transport. Not a single unit, related to large scale industry, is available in the district. In the middle scale industries, the sugar mills are mainly connected with railway line and their production is carried mostly by rail routes.

Electricity and Power :

No power production units is working in the district,. In the year 1999-2000, as per central power authority, 1,424 villages and 10 towns were electrified. The percentage of electrified villages out of total inhabited villages was 71.1%. In this period 26 pumpsets/tube- wells were opertating. Under the minimum need programme, the electrification of more and more villages are being done. According to the statistical magazine 1997, the consumption of electricity in various sector during 1996-97, in thousand kilowatt per hour was as follows: in domestic light and small electric power 45,774 kwh, commercial light and low electric power 6,337 kwh, Industrial electric power 23,426 kwh, Public light system 324 kwh, agriculture electric power 69,778 kwh, public water supply and sainitation, sewerage system 709 kwh, and the total consumption in all above noted items were 146,348 kwh. According to the sources the number of electrified Scheduled Castes colonies were 920 in 1996-97, and 5,352 private tube wells and pump sets were electrified. In the area of non-conventional energy, 185 Biogas plants had been established, in the year 1996-97.

Gram Panchayat, its composition, jurisdiction and role in villages development –

A Gram Panchayat acts as the executive of the Gram Sabha. It is vital for village development.

Composition: The members of the village of Gram Panchayat are elected by the members of the Gram Sabha. The members of the Gram Sabha generally elect a small committee of 7-15 members from among themselves who constitute the village panchayat. There are 1,016 gram sabhas in the district.

It is necessary that the village Panchayat should have a member belonging to the scheduled caste and also a woman member. If they are not elected, then the government itself appoints two such members. The Village Panchayat is the sole body, which looks after the various problems of the village and takes steps to improve the conditions of the villagers.

Its Terms : The new Panchayat Raj Act of 1993 has fixed a uniform five year for every Panchayat. It can also be dissolved earlier by the state government, if it fails to perform its duty faithfully. A Sarpanch may be removed from office if two-third Panchas vote against him. But in such a case the sanction of the district authorities must be obtained beforehand.

Qualifications: In order to be elected to a village panchayat, a candidate should posses the following qualifications :

1. He should be a resident of the village concerned and his name should be in the voter's list of the village.

2. He should be twenty five years old.
3. He should be mentally and physically sound.
4. He should not be a proclaimed offender.

Functions : A Gram panchayat is entrusted with various social, economic and judicial functions.

1. It provides civic amenities to the people of the village.
2. It gets a primary school opened in the village and supervise its work.
3. It look the cleanliness of the village. Drains for waste water are also provided by the Panchayat in the village.
4. It gets a Primary Health Centre opened in the village. The Panchayat has also to provide land and building for such a centre.
5. It gets metalled roads build from the village to the nearest road leading to a market place with the help of the Public Works Department of the District.
6. It arranges for sufficient irrigation facilities, improved seeds, insecticides, chemical manures, improved implements and other such facilities with the help of the Block Development Officer of the area of for the uplift of agriculture.
7. It manages and maintains the common property of the village.
8. In some states, the Gram Panchayat enjoys also certain judicial powers. It decides petty civil and criminal case and imposes fine upto Rs. 100.

(v) Census Concepts

Building :

A 'Building' is generally a single structure on the ground. Sometimes it is made up of more than one component unit which are used or likely to be used as dwellings (residences) or establishments such as shops, business houses, offices, factories, workshops, worksheds, Schools, places of entertainment, places of worship, godowns, stores etc. It is also possible that building which have component units may be used for a combination of purposes such as shop-cum-residence,workshop-cum-residence,office-cum-residence, etc.

Usually a structure will have four walls and a roof. But in some areas the very nature of construction of houses is such that there may not be any wall. Such is the case of conical structures where entrance is also provided but they may not have any walls. Therefore, such of the conical structures are also treated as separate buildings.

Permanent houses :

Houses, the walls and roof of which are made of permanent materials. The material of walls can be any one from the following, namely, galvanized iron sheets or other metal sheets, asbestos sheets, burnt bricks, stones or concrete. Roof may be made of from any one of the following materials, namely, tiles, slate, galvanized iron sheets, metal sheets, asbestos sheets, bricks, stones or concrete.

Semi-permanent houses

Houses in which either the wall or the roof is made of permanent material and the other is made of temporary material.

Temporary houses

Houses in which both walls and roof are made of materials, which have to be replaced frequently. Walls may be made from any one of the following temporary materials, namely, grass, thatch, bamboo, plastic, polythene, mud, unburnt bricks or wood. Roof may be made from any one of the following temporary materials, namely, grass, thatch, bamboo, wood, mud, plastic or polythene.

Room

A room should have four walls with a doorway with a roof over head and should be wide and long enough for a person to sleep in, i.e., it should have a length of not less than 2 metres and a breadth of at least 11/2 metres and 2 metres in height. A room, however, which is used in common for sleeping, sitting, dining, storing and cooking, etc., should be regarded as a room. An unenclosed verandah, kitchen, store, garage, cattle-shed and latrine and rooms in which a household industry such as a handloom is located, which are not normally used for living or sleeping are excluded from the definition of a living room for the purpose of this question.

One is likely to come across conical shaped hut or tent in which human beings reside. In such improvised accommodation, there will be no four walls to a room and therefore, the above definition would not strictly apply to such types of accommodation. In such cases, the tent or conical hut etc. have been construed to be a room. In certain parts of the country, particularly in rural areas, the

pattern of housing may present some problems. For example, a household may be in occupation of several huts put to different uses such as main residence, sitting room, store and even for sleeping at night. By strict application of the definition each one will be reckoned as a census house, but this does not reflect the real situation. While huts used as store or cattle shed pose no problems, those used as sleeping rooms beyond the main residence, should be counted as rooms rather than separate census houses.If a garage is used by a servant and he lives in it as a separate household, it should be reckoned as a room available to the servant's household. If the servant is considered as a member of the household then the garage room should be reckoned as an additional room of the household

Dwelling Room

A room is treated as a dwelling room if it has walls with a doorway and a roof and should be wide and long enough for a person to sleep in, i.e. it should have a length of not less than 2 meters and a breadth of at least 1.5 meters and a height of 2 meters. A dwelling room would include living room, bedroom, dining room, drawing room, study room, servant's room and other habitable rooms. Kitchen, bathroom, latrine, store room, passageway and verandah which are not normally usable for living are not considered as dwelling rooms. A room, used for multipurpose such as sleeping, sitting, dining, storing, cooking, etc., is regarded as a dwelling room. In a situation where a census houses is used as a shop or office., etc., and the household also stays in it then the room is not considered as a dwelling room. But if a garage or servant quarter is used by a servant and if she/ he also lives in it as a separate household then this has been considered as a dwelling room available to the servant's household. Tent or conical shaped hut if used for living by any household is also considered as dwelling room. A dwelling room, which is shared by more than one household, has not been counted for any of them. If two households have a dwelling room each but in addition also share a common dwelling room, then the common room has not been counted for either of the households.

Census house

A 'census house' is a building or part of a building used or recognised as a separate unit because of having a separate main entrance from the road or common courtyard or staircase, etc. It may be occupied or vacant. It may be used for residential or non- residential purpose or both.

In certain peculiar situations, the manner in which buildings and census houses were identified for numbering in the field by the enumerators is described hereunder:

Sometimes a series of different buildings are found along a street which are joined with one another by common walls on either side looking like a continuous structure. These different units are practically independent of one another and are likely to have been built at different times and owned by different persons. In such cases, though the whole structure with all the adjoining units apparently appears to be one building, each portion was treated as a separate building and its constituent units as separate census houses.

On the other hand, one may come across cases, particularly in large cities of multi-storeyed ownership flats. In these cases while the structure looks like one building, different persons own the flats. In case of such multi-storeyed structures, having a number of flats owned by different persons, the entire structure was treated as one building and each flat as a separate census house.

If within a large enclosed area, there are separate buildings owned by different persons then each such building is treated as a separate building. There can be a situation where within an enclosed compound there are separate buildings owned by an undertaking or company or even government that are actually in occupation of different persons. For example, Indian Oil Corporation colony where the buildings are owned by the Corporation but these are in occupation of their employees. Each such building was treated as a separate building. But if in any one of these buildings there were flats in occupation of different households, each such flat was reckoned as a separate census house.

Sometimes it becomes difficult to apply the definition of census house strictly in certain cases. For example, in an urban area, if a flat has five rooms, each room having direct entrance from the common staircase or courtyard. By definition, this has to be treated as five census houses. If all these five rooms are occupied by a single household it was not realistic

to treat them as five census houses. In such a case, 'singleness' of use of these rooms along with the main house should be considered and the entire flat was treated as one census house.On the other hand, if two independent households occupy these five rooms, the first household living in 3 rooms and the second household occupying 2 rooms, then considering the use, the first three rooms together were treated as one census house and the remaining rooms as another census house. But if each room was occupied by an independent household, then each such room was treated as a separate census house.

In case of hostels, hotels, etc., even if the door of each room in which an inmate lives opens to a common verandah, staircase, courtyard or a common room, as it happens almost invariably, the entire hostel/ Hotel building was treated as one census house. but if such hostels/hotels have out-houses or other structures used for different purposes or the same purpose, then each such structure attached to the main hostel / hotel was treated as a separate census house.

In some parts of the country, in rural areas, the pattern of habitation is such that a group of huts, located in a compound, whether enclosed or unenclosed, is occupied by one household. While the main residence may be located in one hut, other huts may be used for sleeping, as a kitchen, bath room, baithak, etc. Though each of the huts was a separates structure, they form a single housing unit and therefore, have to be treated collectively as one building and one census house. If some of the huts are used by one household and the others by a second household as residence, then the two groups of huts were treated as separate census houses. However, if there were also other huts in the compound used for other purposes and not as part of the household's residence such as, cattle shed, workshed, etc., these were treated as separate census houses.

On the other hand, in urban areas, where more than one structure within an enclosed or open compound (premises) belonging to the same person, e.g., the main house, the servant's quarter, the garage, etc., only one building number was given for this group and each of the constituent a separate census house number.

Only cases where a structure with roof and pillars has come up was treated as a building.

Village

The basic unit for rural areas is the revenue village, which has definite surveyed boundaries. The revenue village may comprise of one or more hamlets but the entire village is treated as one unit for presentation of data. In unsurveyed areas, like villages within forest areas, each habitation area with locally recognized boundaries is treated as one village.

Rural-Urban area

The data in tables on Houses, Household Amenities and Assets are presented separately for rural and urban areas. The unit of classification in this regard is 'town' for urban areas and 'village' for rural areas. In the Census of India 2001, the definition of urban area adopted is as follows:

a) All places with a municipality, corporation, cantonment board or notified town area committee, etc.

b) A place satisfying the following three criteria simultaneously;

i) a minimum population of 5,000;

ii) at least 75 per cent of male working population engaged in non-agricultural pursuits and

iii) a density of population of at least 400 per sq. km.(1,000 per sq. mile)

For identification of places which would qualify to be classified as 'urban' all villages, which, as per the 1991 Census had a population of 4,000 and above, a population density of 400 persons per sq. km. and having at least 75 per cent of male working population engaged in non-agricultural activity were considered. To work out the proportion of male working population referred to above against b) (ii), the data relating to main workers were taken into account.

Apart from these, the outgrowths (OGs) of cities and towns have also been treated as urban under 'Urban Agglomerations'. Examples of out-growths are railway colonies, university campuses, port areas, military camps, etc., that may have come up near a statutory town or city but within the revenue limits of a village or villages contiguous to the town or city. Each such individual area by itself may not satisfy the demographic criteria laid down at (b) above to qualify it to be treated as an independent urban unit but may deserve to be clubbed with the towns as a continuous urban spread. Thus, the town level data,

wherever presented, also includes the data for outgrowths of such towns.

City

Towns with population of 1,00,000 and above are called cities.

Urban Agglomeration

An Urban Agglomeration is a continuous urban spread constituting a town and its adjoining urban outgrowths (OGs) or two or more physically contiguous towns together and any adjoining urban outgrowths of such towns. In some cases railway colonies, university campuses, port areas, etc., may come up near a city or statutory town outside its statutory limits but within the revenue limits of a village or villages contiguous to the town or city. Each such individual area by itself may not satisfy the minimum population limit to qualify it to be treated as an independent urban unit but may deserve to be clubbed with the town as a continuous urban spread.

For the purpose of delineation of Urban Agglomerations during Census of India 2001, following criteria are taken as pre-requisites:

(a) The core town or at least one of the constituent towns of an urban agglomeration should necessarily be a statutory town; and

(b) The total population of all the constituents (i.e., towns and outgrowths) of an Urban Agglomer-ation should not be less than 20,000 (as per the 1991 Census).

With these two basic criteria having been met, the following are the possible different situations in which Urban Agglomerations would be constituted:

i) a city or town with one or more contiguous outgrowths;

ii) two or more adjoining towns with their outgrowths; and

iii) A city and one or more adjoining towns with their outgrowths all of which form a continuous spread.

Household

A 'household' is usually a group of persons who normally live together and take their meals from a common kitchen unless the exigencies of work prevent any of them from doing so. Persons in a household may be related or unrelated or a mix of both. However, if a group of unrelated persons live in a census house but do not take their meals from the common kitchen, then they are not constituent of a common household. Each such person was to be treated as a separate household. The important link in finding out whether it was a household or not was a common kitchen. There may be one member households, two member households or multi-member households.

Institutional household

A group of unrelated persons who live in an institution and take their meals from a common kitchen is called an Institutional Household. Examples of Institutional Households are boarding houses, messes, hostels, hotels, rescue homes, jails, ashrams, orphanages, etc. To make the definition more clearly perceptible to the enumerators at the Census 2001, it was specifically mentioned that this category or households would cover only those households where a group of unrelated persons live in an institution and share a common kitchen.

Houseless household

Households who do not live in buildings or census houses but live in the open on roadside, pavements, in hume pipes, under fly-overs and staircases, or in the open in places of worship, mandaps, railway platforms, etc., are treated as Houseless Households.

Scheduled Caste and Scheduled Tribe

Article 341 of the Constitution provides that the President may, with respect to any State or Union territory, specify the castes, races or tribes or parts of or groups within castes, races or tribes which shall for the purposes of the Constitution be deemed to be Scheduled Castes in relation to that State or Union territory. Article 342 similarly provides for specification of tribes or tribal communities or parts of or groups within tribes or tribal communities which are to be deemed for the purposes of the Constitution to be Scheduled Tribes in relation to the various States and Union territories. In pursuance of these provisions, the list of Scheduled Castes and / or Scheduled Tribes are notified for each State and Union territory and are valid only within the jurisdiction of that State or Union territory and not outside.

It is important to mention here that under the Constitution (Scheduled Castes) Order, 1950, no person who professed a religion different from Hinduism was deemed to be a member of a

Scheduled Caste in addition to every member of the Ramdasi, Kabirpanthi, Majhabi or Sikligar caste resident in Punjab or Patiala and East Punjab States Union were in relation to that State whether they professed the Hindu or the Sikh religion. Subsequently, in September 1956, by an amendment, the Presidential Order of 1950 and in all subsequent Presidential Orders relating to Scheduled Castes, the Hindu and the Sikh religions were placed on the same footing with regard to the specification of Scheduled Castes. Later on, as per the amendment made in the Constitution (Scheduled Castes) Order 1990, the Hindu, the Sikh and the Buddhist were placed on the same footing with regard to the recognition of the Scheduled Castes.

The list containing the names of the Scheduled Castes and the Scheduled Tribes applicable for the Census of India 2001 in the State are given below:

Scheduled Castes :

1	Agariya	38	Habura
2	Badhik	39	Hari
3	Badi	40	Hela
4	Baheliya	41	Jhusia, Jatawa
5	Baiga	42	Kalabaz
6	Baiswar	43	Kanjar
7	Bajaniya	44	Kapariya
8	Bajgi	45	Karwal
9	Balahar	46	Khairaha
10	Balai	47	Kharwar
11	Balmiki		(excluding Banbasi)
12	Bangali	48	Khatik
13	Banmanus	49	Khorot
14	Bansphor	50	Kol
15	Barwar	51	Kori
16	Basor	52	Korwa
17	Bawariya	53	Lalbegi
18	Beldar	54	Majhwar
19	Beriya	55	Mazhabi
20	Bhantu	56	Musahar
21	Bhuiya	57	Nat
22	Bhuyiar	58	Pankha
23	Boria	59	Parahiya
24	Chamar, Dhusia,	60	Pasi, Tarmali
25	Chero	61	Patari
26	Dabgar	62	Rawat
27	Dhangar	63	Saharya
28	Dhanuk	64	Sanaurhiya
29	Dharkar	65	Sansiya
30	Dhobi	66	Shilpkar
31	Dom	67	Turaiha
32	Domar	**Scheduled Tribes**	
33	Dusadh	1	Bhotia
34	Gharami	2	Buksa
35	Ghasiya	3	Jaunsari
36	Gond	4	Raji
37	Gual	5	Tharu

Language and Mother tongue :

As per the census concept, each language is a group of mother tongues. The census questionnaire collects information on the mother tongue of each person and mother tongue is defined as the language spoken in childhood by the person's mother to the person. If the mother died in infancy, the language mainly spoken in the person's home in childhood will be the mother tongue. In the case of infants and deaf mutes, the language usually spoken by the mother is considered as mother tongue. It is not necessary that the language spoken as mother tongue should have a script. The mother tongues returned by the respondents in census are classified and grouped under appropriate languages according to their linguistic characteristics.

Literate

A person age 7 years and above who can both read and write with understanding in any language is taken as literate. A person who can only read but cannot write is not literate. It is not necessary that to be considered as literate, a person should have received any formal education or passed any minimum educational standard. Literacy could also have been achieved through adult literacy classes or through any non-formal educational system. People who are blind and can read in Braille are treated as literates.

Literacy rate

Literacy rate of the population is defined as the percentage of literates in the age group seven years and above. For different age groups the percentage of literates in that age group gives the literacy rate.

Educational level

The highest level of education a person has completed

Work

Work is defined as participation in any economically productive activity with or without compensation, wages or profit. Such participation may be physical and/or mental in nature. Work involves not only actual work but also includes effective supervision and direction of work. It even includes part time help or unpaid work on farm, family enterprise or in any other economic activity. All

persons engaged in 'work' as defined above are workers. Persons who are engaged in cultivation or milk production even solely for domestic consumption are also treated as workers.

Reference period for determining a person as worker and non-worker is one year preceding the date of enumeration.

Main worker

A person who has worked for major part of the reference period (i.e. six months or more during the last one year preceding the date of enumeration) in any economically productive activity is termed as 'Main worker'.

Marginal worker

A person who worked for less than six months of the reference period (i.e. in the last one year preceding the date of enumeration) in any economic activity is termed as 'Marginal worker'.

Non worker

A person who has not worked at all in any economically productive activity during the reference period (i.e. last one year preceding the date of enumeration) is termed as 'Non worker'.

Cultivator

For purposes of the Census a person is classified as cultivator if he or she is engaged in cultivation on land owned or held from government or held from private persons or institutions for payment in money, kind or share. Cultivation includes effective supervision or direction in cultivation.

A person, who has given out her/his land to another person or persons or institution(s) for cultivation for money, kind or share of crop and who does not even supervise or direct cultivation in exchange of land, is not treated as cultivator. Similarly, a person working on another person's land for wages in cash or kind or a combination of both (agricultural labourer) is not treated as cultivator.

Cultivation involves ploughing, sowing, harvesting and production of cereals and millet crops such as wheat, paddy, jowar, bajra, ragi, etc. and other crops such as sugarcane, tobacco, groundnuts, tapioca, etc. and pulses, raw jute and kindred fiber crop, cotton, cinchona and other medicinal plants, fruit growing, vegetable growing or keeping orchards or groves, etc. Cultivation does not include the following plantation crops – tea, coffee, rubber, coconut and betel nuts (areca).

Agricultural labourer

A person who works on another person's land for wages in money or kind or share is regarded as an agricultural labourer. She/he has no risk in the cultivation, but merely works on another person's land for wages. An agricultural labourer has no right of lease or contract on land on which she/he works.

Household industry worker

Household industry is defined as an industry conducted by the head of the household herself/ himself and or by the members of the household at home or within the village in rural areas and only within the precincts of the house where the household lives in urban areas. The larger proportion of workers in household industry should consist of members of the household including the head. The industry should not be run on the scale of a registered factory which would qualify or has to be registered under the Indian Factories Act and should be engaged in manufacturing, processing, servicing and repairs of goods.

It does not include professions such as a Pleader, Doctor, Musician, Dancer, Waterman, Astrologer, Dhobi, Barber, etc. or merely trade or business, even if such professions, trade or services are run at home by members of the household.

Other worker

A person who has been engaged in some economic activity during the reference period but not as a cultivator or agricultural labourer or in Household Industry is termed as a 'Other Worker (OW)'. The type of workers that come under this category of 'OW' include all government servants, municipal employees, teachers, factory workers, plantation workers, those engaged in trade, commerce, business, transport, banking, mining, construction, political or social work, priests, entertainment artists, etc. In effect, all those workers other than cultivators or agricultural labourers or household industry workers, are 'Other Workers'.

Work participation rate

Percentage of workers (main + marginal) to total population.

Population density

Population density is the number of persons inhabited per square kilometer of the area.

Age

Age is measured in terms of the completed number of years.

Sex-ratio

Number of females per 1,000 males in a population.

(vi) Non Census Concepts

Improved drinking water :

If the household had access to drinking water supplied from a tap, hand pump, tube well or well (protected or covered) situated within or outside the premises, it is considered as having access to improved drinking water.

It may be mentioned that such uniform definition may not be valid across all states.

System of Sewerage

Generally, a sewerage system would mean a network of mains and branches of underground conduits for the conveyance of sewerage to the point of disposal. Sewers that carry only household and industrial wastage are called separate sewers; those that carry storm water from roofs, streets and other surfaces are known as storm water drains, while those carrying both sewage and storm water are called combined sewers. However, in some towns which are not provided with such underground sewerage system, it is served by open surface drain, box drain, sylk pattern drain, etc., in these towns.

Type of latrine and method of disposal of night soil

There are three prevalent systems of disposal of human wastes, viz. (i) underground sewerage, (ii)sanitary water flush latrines with individual disposal systems, like septic tank, leaching cess pool and collecting well, and (iii) dry type of latrines with manual scavenging.

The system of underground sewerage provides for the street sewerage with which are connected the sanitary latrines constructed in the houses having water closets and fitted with flushing cistern (or hand flushing). Through this sewer the faecal matter is transported without the need for scavenging. This system generally exists in cities and big towns.

Where the streets sewer does not exist these sanitary water flush latrines are connected to a local septic tank with a sub-soil dispersion system or a leaching pit. Here the liquid wastes from the water closet is disposed of locally in leaching pit, a septic tank with a soil dispersion system is constructed. This dispersion requires an optimum travel through the pores of the soil which renders the harmful liquid bacterially innocuous by the slow process of filteration through the soil traversed.

Where the soil is impermeable, collecting wells are constructed and the sanitary water flush latrines are connected with them. These wells are cleaned at periodic intervals by a suitable device. The dry type of latrines are of service type latrines from where human excreta is removed by scavengers from house to house, in most cases carrying it on their heads or shoulders or in baskets with handle or wheel barrows. These are then collected in bullock carts or trucks or tractors and trolleys for being carried to the dumping grounds.

Fertility

In demography, the word fertility is used in relation to the actual production of children or occurrence of births specially live births. Fertility is a measure of rate at which population adds to itself by births and normally assessed by relating the number of births to a full or part of the population, such as number of married women or number of women of child bearing age. The definitions of the terminology used in computing different fertility rates are mentioned below:

Crude birth rate (CBR)

Ratio of the number of live births in a year to the mid year population, normally expressed per 1,000 population.

$$CBR = \frac{\text{Number of live births during the year}}{\text{Mid-year Population}} \times 1000$$

Crude death rate (CDR)

Ratio of the number of deaths in a year to the mid year population, normally expressed per 1,000

population.

$$CDR = \frac{\text{Number of deaths during the year}}{\text{Mid-year Population}} \times 1000$$

Natural growth rate

Growth rate is obtained as the difference between crude birth rate and crude death rate in the absence of migration.

Age specific fertility rate (ASFR)

Number of live births in a year to female population in any specified age group normally expressed per 1,000 women.

$$ASFR = \frac{\text{Number of live births in a particular age-group}}{\text{Mid-year female population of the same age-group}} \times 1000$$

Age specific marital fertility rate (ASMFR)

Number of live births in a year to married female population in any specified age group normally expressed per 1,000 married women.

$$ASMFR = \frac{\text{Number of live births in a particular age-group}}{\text{Mid-year married female population of the same age-group}} \times 1000$$

General fertility rate (GFR)

Number of live births per 1,000 women in the reproductive age-group (15-49) years in a given year.

$$GFR = \frac{\text{Number of live births in a year}}{\text{Mid-year female population in the age-group (15-49) years}} \times 1000$$

General marital fertility rate (GMFR)

Number of live births per 1,000 married women in reproductive age-group (15-49) years in a given year.

$$GMFR = \frac{\text{Number of live births in a year}}{\text{Mid-year married female population in the age-group (15-49) years.}} \times 1000$$

Total fertility rate (TFR)

It is obtained as the total of the age specific fertility rates (number of children born per woman of the particular age) for the entire reproductive age span. It provides the average number of children that will be born to a woman under the fertility levels indicated by the age specific fertility rates assuming that there is no mortality of women till the completion of reproductive period.

$$TFR = \frac{5 \times \sum_{15-19}^{45-49} ASFR}{1000}$$

Total marital fertility rate (TMFR)

Average number of children that would be born to a married woman if she experiences the current fertility pattern throughout her reproductive span (15-49) years assuming that there is no mortality of women till the completion of reproductive period

$$TMFR = \frac{5 \times \sum_{15-19}^{45-49} ASMFR}{1000}$$

Age-specific mortality rate (ASMR)

Number of deaths in a particular age and sex group per 1,000 population of the same age group.

$$ASMR = \frac{\text{Number of deaths in a particular age-group}}{\text{Mid-year population of the same age-group}} \times 1000$$

q1

Probability of dying between birth and age 1. This can be used as approximate value of Infant Mortality Rate (IMR) which gives the ratio of number of deaths in a year of children aged less than one year to the number of births in that year.

q2

Probability of dying between birth and age 2.

q5

Probability of dying between birth and age 5. This indicator is also known as Under Five Mortality Rate (U5MR)

Infant mortality rate (IMR)

Ratio of the number of infant deaths (deaths of children below one year) in a year to the number of live births in that year.

$$\text{IMR} = \frac{\text{Number of infant deaths during the year}}{\text{Number of live births during the year}} \times 1000$$

Infant mortality rate comprises of two parts, viz., Neo-natal mortality rate and Post neo-natal mortality rate. The neo-natal mortality rate also comprises of two parts viz., Early neo-natal mortality rate and late neo-natal mortality rate. These are defined as:

Neo-natal mortality rate (NMR)

Number of infants dying within the first month of life (28 days or under) in a year per 1,000 live births of the same year.

$$\text{NMR} = \frac{\text{Number of infant deaths aged 28 days or under during the year}}{\text{Number of live births during the year}} \times 1000$$

Early neo-natal mortality rate

$$= \frac{\text{Number of infant deaths of less than 7 days during the year}}{\text{Number of live births during the year}} \times 1000$$

Late neo-natal mortality rate

Number of infant deaths of

$$= \frac{\text{7 days to less than 29 days during the year}}{\text{Number of live births during the year}} \times 1000$$

Post neo-natal mortality rate (PNMR)

$$= \frac{\text{Number of deaths of 29 days to less than One year during the year}}{\text{Number of live births during the year}} \times 1000$$

Peri-natal mortality rate (PMR)

Number of still births plus deaths within 1st week of delivery per 1,000 births in a year.

$$\text{PMR} = \frac{\text{Number of still births and infant deaths of less than 7 days during the year}}{\text{Number of live births and still births during the year}} \times 1000$$

Still birth rate (SBR)

$$= \frac{\text{Number of still births during the year}}{\text{Number of live births and still births during the year}} \times 1000$$

Maternal mortality rate (MMR)

Number of deaths of women in the age group 15-49 while pregnant or within 42 days of termination of pregnancy from any cause related to pregnancy and child birth per 100000 live births in a given year.

$$\text{MMR} = \frac{\text{Number of maternal deaths to women in the agegroup 15-49}}{\text{Number of live birth}} \times 100000$$

Eligible couple (Couples per 1,000 Population)

Number of currently married females in the age group 15-44 years per 1000 persons of all ages.

Child woman ratio (0-4)

1. Number of children in the age group 0-4 years per 1,000 women in the age group 15-49 years.

Child woman ratio (5-9)

2. Number of children in the age group 5-9 years per 1000 women in the age group 15-49 years.

Migration

Migration is the third component of population change, the other two being mortality and fertility.

A person is considered as a migrant by place of birth if the place in which he/she is enumerated during the census is other than the place of his/her birth.

Similarly a person is considered as a migrant by place of last residence if the place in which he/she is enumerated during the census is other than his/her place of immediate last residence outside the village or town and not simply in another house or locality in the same village or town.

Certain aspects concerning temporary movement/migration of people has been explained below as these are important components concerning migration:

(i) Migration of persons in search of job is high in

the country. In many cases such migrants are only seasonal in nature. People migrate to other places for work in a particular season and come back again to their usual place of residence after three or four months. All such workers are treated as migrants. Similarly, if a person moved to any other place for attending short term vocational or educational course that lasted for only few months of a year, she/he too were considered as a migrant.

(ii) Where a person had merely gone out to another place or had been shifting from one place to another purely on tour, pilgrimage, visit to hospital for treatment or for temporary business purposes, such persons are not deemed to have had another residence different from the place where she/he or her/his family normally resides. She/he is not considered as migrant.

(iii) A woman temporarily moves into a hospital or to her parents or other relative's house for delivery and if the hospital or the parents/relatives houses is in a place different from usual place of residence, the place where the hospital or parents / relative's house is the place of last residence of the child but not of the mother.

A new response category 'Moved after birth' was added in Census of India 2001 in the question on 'reasons for migration' to bring out additional migration patterns. Natural calamities or distress migration as a reason for migration for last residence migrants included in 1991 Census, is covered under category of 'Others'. The reason for migration has been determined as applicable at the time of migration and not in reference to any point of time after that. For example, if a person had moved from the place of her/his last residence for the purpose of education and subsequently at some point of time got employment there only, the reason for migration would be 'education' and not 'work/employment'.

Internal and International migration

The migrational movements are of three types (i) Migration within the state itself with its components (a) Migration within the district of enumeration (intra district migration) (b) Migration from one district of state to another district of state (inter district migration), (ii) Migration from one state to another State of the country (inter-state migration), (iii) Migration from one country to another country. The first two streams together constitute internal migration, while the last type of movement is called international migration. The present name of the country, state or district and not the name by which they were known at the time of her/his birth or last residence were recorded.

Rural-Urban components of migration

Rural or Urban status in respect of migrants have been determined as applicable at the time of migration and not with reference to any point of time after that.

The flow of migrants consists of four streams viz. rural to rural, rural to urban, urban to rural and urban to urban.

Civic status of urban units

Civic Status of a town/city is determined on the basis of Civic Administrative authority of the town e.g. Municipal Corporation/Corporation, Municipal Committee/Municipal Council, Municipality etc.

Size class of UA / town

Size-class of UA/Town is based on the population size of the UA/City/Town UAs./Towns with 1,00,000 and above population are classified as Class I UAs. / towns. These Class I UAs. / towns are now further sub classified in to seven sub classes namely M1 to M7 depending on the population size of UA/City/Town. These are M7 (5,000,000 and above); M6 (2,000,000 to 4,999,999); M5 (1,000,000-1,999,999) M4 (500,000-999,999); M3 (300,000-499,999), M2 (200,000-299,999) & M1 (100,000-199,999). Towns with, 50,000 to 99,999 population are classified as Class II towns, 20,000 to 49,999 population are Class III towns, population with 10,000-19,999 are Class IV towns, population with 5,000 and 9,999 are Class V towns and towns with less than 5,000 population are Class VI towns.

Slum area

The Slum Areas (Improvement and Clearance) Act, 1956 which was enacted by the Central Govt. defined slums as (a) Areas where buildings are in any respect unfit for human habitation; or (b) are by reasons of dilapidation, overcrowding, fault arrangement and design of such buildings, narrowness or faulty arrangement of streets, lack of ventilation, light or sanitation facilities, or any combination of these factors, are detrimental to safety, health or morals.

Mega city

The concept of 'Mega city' is a recent phenomenon in the Urban Sociology and is defined in term of metropolitan city in the form of large size, problem of management of civic amenities and capacity to absorb the relatively high growth of population. Indian Census in 1991 treated the population size of 5 million and above as the cut off point to identify a place as the mega city. Whereas, for the purpose of inclusion in Centrally Sponsored Scheme for Infrastructure Development in Mega cities the Ministry of Urban Affairs and Employment, Department of Urban Development adopted the criteria of 4 million and above population as per 1991 Census for Mega Cities. In 2001 Census, cities with 10 millions and above population have been treated as Mega cities.

(vii) 2001 Census findings

Population Distribution :

The total population of the district is 2,712,650 comprising of 2,444,345 person in rural, and 268,305 in urban areas. The most populous tahsil is Deoria with 1,071,132 population followed by Salempur tahsil with 545,922. The least populous tahsil is Barhaj with a population of 334,194. The maximum urban population is 120,014 in Deoria tahsil followed by Salempur with 73,800 person whereas the least urban population is in Bhatpar Rani tahsil which is 12,523. At the 2001 Census the district has 9.9 per cent of its population living in towns. As compared to the State urban population of 20.8 per cent. The proportion of urban population is highest at 13.5 per cent in Salempur tahsil followed by 11.2 percent in Deoria tahsil and least 3.3 percent is in Bhatpar Rani tahsil.

Size-class and status of towns:

There are only ten statutory towns in the district. Deoria NPP with 104,227 population is class I town and in the remaining three towns are class III, four are class IV and two class V towns. There are three towns in Deoria tahsil one in Rudra pur, one in Barhaj, four in Salempur and one town is in Bhatpar Rani tahsil.

Population growth:

The population of the district in 1991 adjusted to jurisdiction of 2001 was 2,183,690 in the district. The population of the district at 2001 Census is 2,712,650 There has been decadal wherein population since 1991 numbering 528,960 in absolute term (24.2 per cent). The males who were 1,094,387 at 1991 Census increased to 1,355,023, and females increased from 1,089,303 to 1,357,627. As against to 24.2 per cent decadal growth in the district, the growth rate has increased up to 25.8 per cent in the state of Uttar Pradesh.

Population Density:

The area of the district is 2,538 square kilometre. The density of population in the district is 1,069 as compared to 690 in the state. In the rural areas of the district the population density is 1,003.

Sex-Ratio:

The sex ratio in the district is 1,002 while it is 898 in the state of Uttar Pradesh. In the rural areas of the district the sex ratio is high at 1,011while it is only 920 in urban areas. The rural sex ratio of the district is better to the state. The sex-ratio among five tahsils varies between 980 in Deoria to 1,039 in Bhatpar Rani. Among C.D. blocks the sex ratio varies from 974 in Gauri Bazar to 1,041 in Bankata. Among towns of the district, the least sex ratio is found in Gauri Bazar NP and highest in Lar NP. The sex ratio of population in the age-group 0-6 is 948 in the district which is quite low to 1002 in the total population. The sex ratio in rural population of the age-group 0-6 is 949 against 936 in urban areas. The sex ratio in the age-group 0-6 among fifteen C.D. blocks varies from 929 in Gauri Bazar to 968 in Salempur and the sex ratio in the age-group 0-6 among towns varies from 918 in Gauri Bazar NP to 985 in Majhauliraj NP.

Work Participation Rate:

In the district 28.5 per cent or 773,902 persons pertains to the category of working population. Amongst males the working population is 40.5 per cent against 16.6 per cent females. Main workers constitute 17.2 per cent of population. Female workers predominate male among marginal workers. Non-workers contribute 71.5 per cent of total population while 77.0 per cent are in urban population. In rural areas 59.3 percent male and 82.3 per cent females are Non-workers. Of the total worker population in the district 41.0 per cent are cultivators, 31.5 per cent engaged as agricultural labourers, 4.1 per cent in household industry and

23.4 per cent as other workers. Among male workers 42.5 per cent are cultivators as compared to 37.5 per cent among females. Similarly as against 29.5 per cent male other workers, the proportion of female is only 8.4 per cent. In rural areas of the district as much as 44.1 per cent of working population is cultivator as against only 5.5 per cent in urban areas. In case of other workers, the composition of rural and urban proportion is 18.4 and 80.2 per cent of working population. It may be mentioned that the working population in the district is 28.5 per cent as compared to 32.5 per cent in the state.

Literacy:

In the district 58.6 per cent of the population is literate as against 56.3 per cent in the state of Uttar Pradesh. In the district 75.0 per cent of the male population is literate as compared to 68.8 per cent in the state. However, among female the literacy in the district 42.5 per cent as compared to 42.2 per cent at the state level. In the district literacy rate is 73.6 per cent in urban areas as against 56.9 per cent in rural areas. The gap in male/female literacy rate is 33.8 percentage points in rural areas as compared to 19.7 in urban areas. The literacy rate among C.D. blocks varies between 52.3 per cent in Pathar Dewa to 62.6 per cent in Bhagalpur. Similarly, the literacy rate among towns varies from 54.3 per cent in Majhauliraj NP to 83.3 per cent in Deoria NPP.

(viii) Brief analysis of PCA data based on inset tables 1 to 36 :

The district throws up a vivid picture of its population by varying parameters at the 2001 Census. A few of the peculiar characteristics of the population is being highlighted here on the basis of the following inset tables 1 to 36:

TABLE 1 : DECADAL CHANGE IN POPULATION OF TAHSILS BY RESIDENCE, 1991-2001

Serial No.	Tahsil	Population						Percentage decadal variation 1991-2001			Percentage urban population	
		1991			2001						1991	2001
		Total	Rural	Urban	Total	Rural	Urban	Total	Rural	Urban		
1	2	3	4	5	6	7	8	9	10	11	12	13
1	Deoria		NA		1,071,132	951,118	120,014		NA			11.2
2	Rudrapur		NA		377,893	351,210	26,683		NA			7.1
3	Barhaj		NA		334,194	298,909	35,285		NA			10.6
4	Salempur		NA		545,922	472,122	73,800		NA			13.5
5	Bhatpar Rani		NA		383,509	370,986	12,523		NA			3 3
	District Total	**2,183,690**	**1,966,327**	**217,363**	**2,712,650**	**2,444,345**	**268,305**	**24.2**	**24.3**	**23.4**	**10.0**	**9.9**

The growth rates of the district for total, rural and urban areas and percentage of urban population to total population is given in table. The decadal growth rate of the district is 24.2 per cent during 1991-2001. The growth rates for rural and urban areas of the district are 24.3 and 23.4 per cent respectively. Out of the total population of the district 90.1 per cent lives in rural areas while 9.9 per cent lives in urban areas of the district. The proportion of urban population has slightly declined during the decade from 10.0 per cent in 1991 to 9.9 percent in 2001 census.

TABLE 2: NUMBER AND PERCENTAGE OF INHABITED VILLAGES IN SPECIFIED POPULATION SIZE RANGES WITH THE RELATED POPULATION, 2001

Serial No.	District / C.D. block	Total number of inhabited villages	Total rural population			Number and percentage of villages	Population less than 200		Number and percentage of villages	Population 200-499		Number and percentage of villages

Table 2 gives C.D. block wise population, number and percentage of villages falling in each range of population size of villages and number of males and females in each population range at C.D. block level in the district. Out of the 2,008 inhabited villages, 168 (8.4 per cent) are small sized village with population below 200 persons. In the size of 200 to 499 persons there are 371 villages with 18.5 per cent of the total villages, while in the size class of 500-999 population claims 562 villages with 28.0 per cent

of the total villages in the district. 597 villages (29.7 per cent) are in the size class of 1,000-1,999 and 274 villages (13.6 per cent) are in the size class of 2,000-4999. In the size of 5,000-9,999 persons there are 33 villages (1.6 per cent) of the district while in the size class of 10,000 and above population claim only 3 villages with 0.1 per cent of the total villages in the district. The biggest village in the district having population of 12,784 persons is located in Rudrapur C.D. block.

TABLE - 3 : NEW TOWNS, DENOTIFIED, DECLASSIFIED AND MERGED TOWNS IN 2001 CENSUS

(a) New

(i) Statutory town – NIL

(ii) Census town - NIL

(b) Denotified - NIL

(i) Statutory towns of 1991 census denotified and also did not satisfy the criteria to be treated as census towns - NIL

(ii) Statutory towns of 1991 census denotified but identified as census towns based on demographic and economic criteria - NIL

(iii) Census towns of 1991 census are notified as statutory town in 2001 census - NIL

(c) Declassified - NIL

(d) Wholly merged with other town(s) - NIL

Declassified means the census towns of 1991 census which failed to satisfy the demographic and economic criteria.

TABLE 4 : DISTRIBUTION OF VILLAGES BY POPULATION DENSITY, 2001

Range of population density (per square kilometre)	Total number of villages in each population density range	Percentage of villages in each population density range	Population	Percentage distribution of population
1	2	3	4	5
0-10	108	5.4	128,324	5.2
11-20	8	0.4	1,925	0.1
21-50	13	0.6	628	0.0
51-100	22	1.1	6,262	0.3
101-200	38	1.9	13,736	0.6
201-300	41	2.0	16,499	0.7
301-500	102	5.1	68,432	2.8
501 +	1,676	83.5	2,208,539	90.4
Not known	0	0.0	-	0.0
District (Total)	**2,008**	**100.0**	**2,444,345**	**100.0**

Above table 4 shows the distribution of villages by population density ranges. The inhabited villages of the district have been grouped under eight different ranges of density. The maximum number of village i.e. 1,676 accounting for 83.5 per cent of the total inhabited villages fall in the density range of 501 and above persons having 90.4 per cent population. The lowest ranges of 0-10 and 11-20 persons per sq. km. cover 116 villages (5.8 per cent). 38 villages (1.9 per cent) have the density of 101-200 persons per sq. km. while the corresponding proportion in the range of 200-500 is 7.1 per cent of the total inhabited villages having 3.5 per cent population of the district. In the medium densities ranges of 21-50 and 51-100 persons account for 0.6 and 1.1 per cent of inhabited villages respectively. Both these ranges claim 0.3 per cent rural population.

TABLE-5: SEX RATIO OF STATE AND DISTRICT 1991-2001

Census Year	UTTAR PRADESH			DEORIA		
	Total	Rural	Urban	Total	Rural	Urban
1	2	3	4	5	6	7
1901	938	941	916	1,011	1,022	820
1911	916	922	866	995	998	938
1921	908	918	834	966	970	871
1931	903	916	813	944	949	842
1941	907	922	824	968	972	882
1951	908	922	827	1,031	1,039	902
1961	907	921	817	1,036	1,046	806
1971	876	884	826	986	994	820
1981	882	889	850	1,022	1,036	888
1991	876	879	864	995	1,008	892
2001	898	904	876	1,002	1,011	920

NOTE- Sex ratio has been defined here as the number of female per 1000 male

As per 2001 census, sex ratio of 1,002 females per 1,000 males has been recorded in the district against the state average of 898. The sex ratio of the district was significantly high as compared to the state average figures from 1901 to 2001. The lowest sex ratio of 944 females was recorded in the district during 1931 against the state average of 903 females. It is also observed that the proportion of females in rural areas is higher than that of urban areas in both the district and state.

TABLE-6 : SEX RATIO BY TAHSILS, 2001

Serial No.	Name of Tahsil	Sex ratio		
		Total	Rural	Urban
1	2	3	4	5
1	Deoria	980	990	906
2	Rudrapur	997	1,002	930
3	Barhaj	1,005	1,017	902
4	Salempur	1,021	1,033	946
5	Bhatpar Rani	1,039	1,043	922
	District Total	**1,002**	**1,011**	**920**

Table 6 gives sex ratios for total, rural and urban areas at tahsil level as per 2001 census. There are 1,002 females for every thousand males in the district. It becomes clear from the table that sex ratio in rural areas is higher than that of urban areas. The sex ratio among rural and urban population is 1,011 and 920 females respectively. The sex ratio in the tahsils varies between 980 in Deoria tahsil and 1,039 females in Bhatpar Rani tahsil. The sex ratio in Barhaj, Salempur and Bhatpar Rani tahsil is higher than district rural average (1002). In urban areas the highest sex ratio is recorded in Salempur (946) and the lowest is in Barhaj urban (902).

TABLE-7 : SEX RATIO BY CD BLOCKS, 2001

Serial No.	Name of C D block	Sex ratio
1	2	3
1	Pathar Dewa	1,010
2	Desai Deoria	1,007
3	Gauri Bazar	974
4	Baitalpur	986
5	Rampur Karkhana	996
6	Deoria	982
7	Rudrapur	996
8	Bhaluani	1,032
9	Barhaj	1,005
10	Bhagalpur	1,033
11	Bhatni	1,038
12	Salempur	1,035
13	Lar	1,028
14	Bhatpar Rani	1,038
15	Bankata	1,041
	District (Rural) Total	1,011

Table 7 presents C.D. block wise sex ratio for rural population in the district. The sex ratio in rural areas of the district comes to 1,011 females per 1,000 males, as a whole. Among the C.D. blocks the highest sex ratio of 1,041 females is found in Bankata C.D. block and is followed by Bhatni and Bhatpar Rani (1,038) while the lowest of 974 is recorded in Gauri Bazar C.D. block. The sex ratios of Bhaluani, Bhagatpur, Bhatni, Salempur, Lar, Bhatpar Rani and Bankata C.D. block are higher than the district rural average of 1,011 females and in remaining blocks, it is below the district average.

TABLE 8 : SEX RATIO OF RURAL POPULATION BY RANGES, 2001

Range of sex ratio for villages	Number of inhabited villages	Percentage of villages in each range	Population 2001	Percentage distribution of population
1	2	3	4	5
Less than 700	22	1.1	450	0 0
700-749	6	0.3	1,084	0 0
750-799	15	0.7	4,091	0 2
800-849	43	2 1	22,821	0.9
850-899	103	5.1	85,129	3 5
900-949	270	13.4	357,696	14 6
950-999	398	19 8	635,512	26 0
1000-1099	780	38.8	1,026,786	42 0
1100+	371	18.5	310,776	12 7
District Total	2,008	100.0	2,444,345	100.0
Sex ratio (Rural) for District		1011		

Table 8 presents the distribution of villages by 9 sex ratio ranges based on 2001 census. The maximum number of villages i.e. 780 accounting for 38.8 per cent of the total villages having maximum population of 42.0 per cent in the district fall in the sex ratio range of 1,000-1,099 females per 1,000 males. It is followed by the sex ratio range of 950-999, which claims 398 villages (19.8 per cent) with 26.0 per cent population. The highest range of 1,100 and above claims 371 villages (18.5 per cent). This range shares 12.7 per cent rural population of the district while in the sex ratio range of 900-949; there are 270 villages (13.4 per cent). In remaining sex ratio ranges of 850-899,800-849, 750-799, 700-749 and less than 700, the number of villages are 103 (5.1 per cent), 43 (2.1 per cent), 15 (0.7 per cent), 6 (0.3 per cent) and 22 (1.1 per cent) respectively. In these ranges, the percentage of population is comparatively low. The maximum number of villages i.e. 1,549 having maximum population (80.7 per cent) falls in the higher sex ratio ranges of 950-999 females and above ranges showing that in majority of villages the sex ratio is significantly higher.

TABLE 9 : SEX RATIO OF URBAN AGGLOMERATIONS / TOWNS, 2001

Serial number	Name of U.A. / Town	Urban status of town	Sex ratio
1	2	3	4
1	Bhatni Bazar	(NP)	907
2	Bhatpar Rani	(NP)	922
3	Deoria	(NPP)	906
4	Gaura Barhaj	(NPP)	902
5	Gauri Bazar	(NP)	866
6	Lar	(NP)	975
7	Majhauliraj	(NP)	959
8	Rampur Karkhana	(NP)	938
9	Rudrapur	(NP)	930
10	Salempur	(NP)	924
Sex ratio (Urban) for the district			**920**

Table 9 gives the sex ratio of towns, which comes to 920 female per 1,000 male as a whole. Among 10 towns of the district the sex ratio varies between 866 to 975. Lar (N.P.) has the highest sex ratio of 975, while Gauri Bazar (N.P) has the lowest sex ratio of 866 females.

TABLE 10 : SEX RATIO OF POPULATION IN THE AGE GROUP 0-6 FOR TAHSILS, 2001

Serial number	Name of Tahsil	Total / Rural / Urban	Total population in 0-6 age group			Sex ratio for 0-6 age group
			Persons	Males	Females

		Rural	88,767	45,548	43,219	949
		Urban	13,081	6,698	6,383	953
5	Bhatpar Rani	Total	75,073	38,355	36,718	957
		Rural	73,029	37,294	35,735	958
		Urban	2,044	1,061	983	926
	District Total	Total	515,597	264,694	250,903	948
		Rural	472,248	242,306	229,942	949
		Urban	43,349	22,388	20,961	936

Table 10 presents population of age group 0-6 years and sex ratios for total, rural and urban areas in respect of each tahsil of the district. Total population in age group 0-6 is 515,597 persons comprising 264,694 male and 250,903 female. The total sex ratio in this age group works out to 948 female for every thousand male in the district. The proportion of female in rural areas is higher than that of urban areas. The sex ratio in rural and urban areas comes to 949 and 936 females in this age group respectively. The rural sex ratio in tahsils varies between 937 in Barhaj tahsil and 957 in Bhatpar Rani tahsil. The sex ratio of Deoria (T), Salimpur (T),) and Bhatpar Rani (T) are higher than district rural average (948). Barhaj (T) has lowest sex ratio of 937 females among the total population. In urban areas, the highst sex ratio is recorded in Salempur urban (953) and the lowest is found in Barhaj urban (923).

TABLE 11 : SEX RATIO OF POPULATION IN THE AGE GROUP 0-6 FOR C.D. BLOCKS, 2001

Serial Number	Name of C.D. block	Total population in 0-6 age group			Sex ratio for 0-6 age group
		Persons	Males	Females	
1	2	3	4	5	6
1	Pathar Dewa	44,679	22,776	21,903	962
2	Desai Deoria	26,799	13,714	13,085	954

14	Bhatpar Rani	28,575	14,670	13,905	948
15	Bankata	31,156	15,863	15,293	964
	District (Rural) Total	**472,248**	**242,306**	**229,942**	**949**

Table 11 gives C.D. blockwise sex ratio of rural child population in the age group 0-6 years in the district. The sex ratio is 949 for the district (rural). The sex ratio of C.D. block varies between 929 to 968. It is highest in Salempur C.D. block i.e. 968 followed by 966 in Baitalpur C.D. block and lowest 929 females is found in Gauri Bazar C.D. block. The sex ratio of Pathar Dewa,Desai Deoria, Baitalpur,

Deoria, Salempur and Bankata C.D. block are higher than the district rural average (949), while in remaining blocks, it is below the average of the district.

TABLE 12 : SEX RATIO OF RURAL POPULATION IN THE AGE GROUP 0-6 BY RANGES, 2001

Range of sex ratio for villages	Number of inhabited villages	Percentage distribution of villages	Population 2001	Percentage distribution of population
1	2	3	4	5
Less than 700	162	8.1	8,587	1.8
700-749	69	3.4	8,940	1.9
750-799	113	5.6	17,761	3.8
800-849	183	9.1	46,319	9.8
850-899	225	11.2	67,288	14.2
900-949	289	14.4	89,353	18.9
950-999	224	11.2	79,639	16.9
1000-1099	382	19.0	102,756	21.8
1100+	361	18.0	51,605	10.9
District (Rural) Total	2,008	100.0	472,248	100.0

Sex ratio (Rural) for District 949

Table 12 shows the distribution of villages in 9 sex ratio ranges of the age group 0-6 years as well as percentage of villages, total population and percentage of population of this age group falling in each sex ratio range in the district.

The maximum number of villages i.e. 382 (19.0 per cent) having maximum population (21.8 per cent) in the district (rural) fall in the sex ratio range of 1000-1099 female per 1,000 male. It is followed by the sex ratio range of 1,100 and above which claims 361 villages (18.0 per cent) with 10.9 per cent population. Next to it, 289 villages (14.4 per cent) are in the range of 900-949 with 18.9 per cent population. 225 villages (11.2 per cent) having 14.2 per cent population fall in sex ratio range of 850-899. In remaining sex ratio ranges of 700-749, 750-799, 800-849, less than 700 and 950-999 claim less number of villages and these are distributed as 69 (3.4 per cent), 113 (5.6 per cent), 183 (9.1 per cent), 162(8.1 per cent) and 224 (11.2 per cent) respectively. In these ranges, the percentage of population is also low. It becomes clear from the table that more than fifty per cent of villages i.e. 1256 having population (68.5 per cent) fall in the higher sex ratio range of 900 and above.

TABLE13 : SEX RATIO OF POPULATION IN THE AGE GROUP 0-6 OF URBAN AGGLOMERATIONS / TOWNS, 2001

Serial Number	Name of UA / Town	Urban status of town	Total population in 0-6 age group			Sex ratio for 0-6 age group
			Persons	Males	Females	
1	2	3	4	5	6	7
1	Bhatni Bazar	NP	2,488	1,268	1,220	962
2	Bhatpar Rani	NP	2,044	1,061	983	926
3	Deoria	NPP	14,444	7,503	6,941	925
4	Gaura Barhaj	NPP	6,032	3,137	2,895	923
5	Gauri Bazar	NP	936	488	448	918
6	Lar	NP	4,714	2,437	2,277	934
7	Majhauliraj	NP	3,035	1,529	1,506	985
8	Rampur Karkhana	NP	1,777	913	864	946
9	Rudrapur	NP	5,035	2,588	2,447	946
10	Salempur	NP	2,844	1,464	1,380	943
District (Urban) Total			**43,349**	**22,388**	**20,961**	**936**

Table 13 shows sex ratio of population in the age group 0-6 of urban agglomerations/towns 2001. In urban area of the district total population in age-group 0-6 is 43,349 in which 22,388 are males and 20,961 females and sex ratio of the urban areas is 936. Among 10 towns sex ratio in age group 0-6 varies from 918 in Gauri Bazar N.P. to 985 in Majhauliraj (N.P.) In Rampur Karkhana (N.P.),Rudrapur(N.P.),Bhatni Bazar (N.P.),Majhauliraj (N.P.) and Salempur(N.P.) the sex ratio is more than the district average. Among all towns, Deoria (NPP), has highest child population.

TABLE 14 : NUMBER AND PERCENTAGE OF SCHEDULED CASTES AND SCHEDULED TRIBES POPULATION IN TAHSILS, 2001

Serial No.	Name of Tahsil	Total / Rural / Urban	Total population	Total Scheduled Castes population	Total Scheduled Tribes population	Percentage of Scheduled Castes population to total population	Percentage of Scheduled Tribes population to total population
1	2	3	4	5	6	7	8

2	Rudrapur	Total	377,893	65,107	73	17.2	0.0
		Rural	351,210	62,686	37	17.8	0.0
		Urban	26,683	2,421	36	9.1	0.1
3	Barhaj	Total	334,194	65,932	31	19.7	0.0
		Rural	298,909	60,801	31	20.3	0.0
		Urban	35,285	5,131	0	14.5	0.0
4	Salempur	Total	545,922	105,885	180	19.4	0.0
		Rural	472,122	95,703	179	20.3	0.0
		Urban	73,800	10,182	1	13.8	0.0
5	Bhatpar Rani	Total	383,509	69,986	208	18.2	0.1
		Rural	370,986	68,246	208	18.4	0.1
		Urban	12,523	1,740	0	13.9	0.0
	District Total	Total	2,712,650	493,344	533	18.2	0.0
		Rural	2,444,345	462,853	496	18.9	0.0
		Urban	268,305	30,491	37	11.4	0.0

Table 14 depicts the distribution of Scheduled Castes and Scheduled Tribes population as well as their percentage to total population at tahsil level in rural and urban areas of the district. Of the 2,712,650 total population, 18.2 per cent belongs to Scheduled Castes and negligible percent to Scheduled Tribes. The percentage of Scheduled Castes population constitutes 18.9 per cent in rural population and 11.4 per cent in urban population of the district. The highest percentage of total Scheduled Castes population is recorded in Barhaj tahsil (19.7) while the lowest is found in Rudrapur tahsil (17.2). The proportion of Scheduled Tribes population is nearing zero per cent in both rural and urban areas. Scheduled Tribes population in the district is mainly concentrated in tahsils Bhatpar Rani (208 persons), Salempur (180 persons) and Rudrapur(73 persons) and most of them are living in rural areas of the district.

TABLE 15 : NUMBER AND PERCENTAGE OF SCHEDULED CASTES AND SCHEDULED TRIBES POPULATION IN C.D. BLOCKS, 2001

Serial number	Name of C.D. block	Total population	Total Scheduled Castes population	Total Scheduled Tribes population	Percentage of Scheduled Castes population to total population	Percentage of Scheduled Tribes population to total population
1	2	3	4	5	6	7
1	Pathar Dewa	218,922	37,257	3	17.0	0.0
2	Desai Deoria	132,254	20,911	23	15.8	0.0
3	Gauri Bazar	205,792	36,650	0	17.8	0.0
4	Baitalpur	185,599	34,917	9	18.8	0.0
5	Rampur Karkhana	153,361	30,872	0	20.1	0.0
6	Deoria	199,683	36,320	15	18.2	0.0
7	Rudrapur	159,748	33,316	0	20.9	0.0
8	Bhaluani	169,746	31,641	32	18.6	0.0
9	Barhaj	117,585	24,443	0	20.8	0.0
10	Bhagalpur	125,942	27,571	77	21.9	0.1
11	Bhatni	149,503	29,422	0	19.7	0.0
12	Salempur	177,447	37,583	66	21.2	0.0
13	Lar	144,562	27,697	254	19.2	0.2
14	Bhatpar Rani	147,652	27,238	0	18.4	0.0
15	Bankata	156,549	27,015	17	17.3	0.0
	District (Rural) Total	2,444,345	462,853	496	18.9	0.0

Table 15 shows distribution of Scheduled Castes and Scheduled Tribes population in each C.D. block of the district. 18.9 per cent of rural population of the district belongs to Scheduled Castes and negligible per cent to Scheduled Tribes. At C.D. block level, Scheduled Castes population varies between 15.8 per cent in Desai Deoria and 21.9 per cent in Bhagalpur C.D. block. The other C.D. block containing the highest percentage of Scheduled Castes are Salempur (21.2), Rudrapur (20.9) and Barhaj (20.8). The highest proportion of 0.2 per cent Scheduled Tribes population is counted in Lar C.D. block and it followed by Bhagalpur C.D. block (0.1). The Scheduled Tribes population in the district is mainly concentrated in Lar, Bhagalpur and Salempur C.D. blocks.

TABLE 16 : PROPORTION OF SCHEDULED CASTES POPULATION TO TOTAL POPULATION IN VILLAGES, 2001

Percentage range of Scheduled Castes population to total population	Number of villages	Percentage	Scheduled Castes Population	Percentage
1	2	3	4	5
Nil	212	10 6	0	0.0
Less than 5	141	7 0	3,634	0 8
5-10	295	14 7	34,993	7.6
11-20	595	29 6	157,853	34.1
21-30	409	20.4	139,980	30.2
31-40	188	9.4	70,469	15 2
41-50	81	4 0	28,207	6.1
51-75	54	2 7	21,108	4 6
76 and above	33	1 6	6,609	1.4
District Total	2,008	100.0	462,853	100.0

Table 16 reflects the number of villages according to the proportion of Scheduled Castes population to their total population in different ranges of percentage at district level. 212 villages accounting for 10.6 per cent of total inhabited villages in the district do not have any Scheduled Castes population. The proportion of Scheduled Castes population is less than 5.0 per cent in 141villages (7.0 per cent). In 295 villages, it varies between 5-10 per cent while the next range of 11-20 per cent accounts for 595 villages constituting 29.6 per cent of the total villages. The range 21-30 and 31-40 per cent contains 409 and 188 villages respectively. Both these ranges together account for 29.8 per cent villages of the district. Remaining 168 villages fall in the ranges of 41-50 and above per cent. 33 villages are such where the proportion of Scheduled Castes is more than 76 per cent. These villages contain 1.4 per cent Scheduled Castes population of the district. The maximum of 34.1 per cent of the Scheduled Castes population is covered by range of 11-20 per cent.

TABLE 17 : PROPORTION OF SCHEDULED TRIBES POPULATION TO TOTAL POPULATION IN VILLAGES, 2001

Percentage range of Scheduled Tribes population to total population	Number of villages	Percentage	Scheduled Tribes Population	Percentage
1	2	3	4	5
Nil	1,981	98.7	0	0
Less than 5	22	1.1	227	45.8
5-10	2	0.1	109	22
11-20	0	0	0	0
21-30	1	0	92	18.5
31-40	0	0	0	0
41-50	0	0	0	0
51-75	0	0	0	0
76 and above	2	0.1	68	13.7
District Total	2,008	100	496	100

Table 17 indicates the distribution of villages by percentage ranges of Scheduled Tribes population to total population. A very low percentage of rural population of the district belongs to Scheduled Tribes population. There are 1981 (98.7 per cent) villages where none of Scheduled Tribes has been recorded in the district. 24 (1.2 per cent) villages have a proportion of Scheduled Tribes population up to 10 per cent and remaining 2 (0.1 per cent) villages have above 76 percent and one village in the percentage range of 21-30 of Scheduled Tribes population.

TABLE 18 : NUMBER AND PERCENTAGE OF SCHEDULED CASTES AND SCHEDULED TRIBES POPULATION IN URBAN AGGLOMERATIONS / TOWNS, 2001

Serial No.	Name of UA / Town	Total population	Total Scheduled Castes population	Total Scheduled Tribes population	Percentage of Scheduled Castes population to total population	Percentage of Scheduled Tribes population to total population
1	2	3	4	5	6	7
1	Bhatni Bazar (NP)	14,278	1,651	1	11.6	0.0
2	Bhatpar Rani (NP)	12,523	1,740	0	13.9	0.0

8	Rampur Karkhana (NP	9,586	697	0	7.3	0.0
9	Rudrapur (NP)	26,683	2,421	36	9.1	0.1
10	Salempur (NP)	16,924	2,256	0	13.3	0.0
District (Urban) Total		**268,305**	**30,491**	**37**	**11.4**	**0.0**

Table 18 shows number and percentage of Scheduled Castes and Scheduled Tribes population recorded in urban areas during 2001 census in the district. Of 268,305 total urban population only 11.4 per cent belongs to Scheduled Castes. The highest percentage of Scheduled Castes population is recorded in Majhauliraj (N.P) i.e.15.0 per cent while the lowest percentage is found in Gauri Bazar N.P. (5.6 per cent). The Scheduled Tribes population in Rudrapur N.P. is 0.1 per cent and in remaining other urban units there is either very small or nearing zero percent of Scheduled Tribes population.

TABLE 19 : SEX RATIO AMONG SCHEDULED CASTES AND SCHEDULED TRIBES IN C. D. BLOCKS, 2001

Serial No.	Name of C D block	Scheduled Castes sex ratio	Scheduled Tribes sex ratio
1	2	3	4
1	Pathar Dewa	1,006	500
2	Desai Deoria	1,001	769
3	Gauri Bazar	967	0
4	Baitalpur	975	286
5	Rampur Karkhana	980	0
6	Deoria	970	1,143
7	Rudrapur	1,002	0
8	Bhaluani	1,004	1,133
9	Barhaj	989	0
10	Bhagalpur	1,018	833
11	Bhatni	1,039	0
12	Salempur	1,020	1,129
13	Lar	1,016	1,099
14	Bhatpar Rani	1,043	0
15	Bankata	1,050	1,429
District (Rural) Total		1,003	1,024

Table 19 shows sex ratio among Scheduled Castes and Scheduled Tribes in each C.D. block of the district. The Scheduled Castes sex ratio is 1,003 for district (rural). Among the C.D.blocks, the highest sex ratio of 1050 females is found in Bankata C.D. block and lowest of 967 females is recorded in Gauri Bazar C.D. block. This table also shows the sex ratio of Scheduled Tribes population in rural areas of the district is 1,024. It is highest in Bankata C.D. Block (1429) and lowest in Baitalpur C.D. Block (286). The Scheduled Castes sex ratio is higher in Pathar Dewa, Bhaluani, Bhagalpur, Bhatni, Salempur, Lar, Bhatpar Rani and Bankata C.D. Block than the district ratio of 1,003. Similarly the Scheduled Tribes sex ratio is higher in Deoria, Bhalauni, Salempur, Lar and Bankata C.D. blocks than the sex ratio observed at district level.

TABLE 20 : SEX RATIO AMONG SCHEDULED CASTES AND SCHEDULED TRIBES IN URBAN AGGLOMERATIONS / TOWNS, 2001

Serial number	Name of U.A. / Town	Scheduled Castes sex ratio	Scheduled Tribes sex ratio
1	2	3	4
1	Bhatni Bazar (NP)	893	0
2	Bhatpar Rani (NP)	900	0
3	Deoria (NPP)	905	0
4	Gaura Barhaj (NPP)	903	0
5	Gauri Bazar (NP)	923	0
6	Lar (NP)	948	0
7	Majhauliraj (NP)	981	0
8	Rampur Karkhana (NP)	975	0
9	Rudrapur (NP)	924	500
10	Salempur (NP)	945	0
Sex ratio (Urban) for the district		921	480

Table 20 shows sex ratio among Scheduled Castes and Scheduled Tribes in urban areas at 2001 census. Among 10 towns sex ratio of Scheduled Castes is highest in Majhauliraj (N.P) and it is lowest in Bhatni Bazar (N.P). Except Rudrapur (N.P) the sex ratio in other towns for Scheduled Tribes population is zero. It means Scheduled Tribes population is zero. In all urban areas of the district the sex ratio of Scheduled Castes and Scheduled Tribes are 921 and 480 respectively.

TABLE 21 : NUMBER AND PERCENTAGE OF LITERATES AND ILLITERATES BY TAHSILS, 2001

Serial number	Name of Tahsil	Total / Rural / Urban	Number of literates and illiterates						Percentage of literates			Gap in male/female literacy rate

District and tahsil wise literacy rates besides the number of literates and illiterates for total, rural and urban areas are given in table 21. The literacy rates are worked out by excluding the population of 0-6 years. As per 2001 census, the proportion of literates to total population comes to 58.6 per cent in the district. This proportion in rural area is 56.9 per cent against 73.6 per cent in urban areas. In the district the literacy rates of males (75.0 per cent) is much higher than that of females (42.5 per cent). Among the tahsils, Salempur tahsil tops with 63.4 per cent literates followed by Barhaj tehsil (59.3 per cent). Rudrapur tahsil with 53.0 per cent literates stands at the bottam in the district. Out of 5 tahsils, the literacy rates of Deoria, Barhaj and Salempur tahsils are higher than that of district average. It is observed that in urban areas of district the literacy rates are higher than the rural areas.

The gap between male and female literacy is very high which comes to 32.5 percentage points in the district, as a whole. The trend at tahsil level is not much different. However this gap in urban literacy is low which comes to 19.7 against the rural areas where the gap between male and female literacy is 33.8 percentage points.

TABLE 22 : NUMBER AND PERCENTAGE OF LITERATES AND ILLITERATES BY SEX IN C. D. BLOCKS, 2001

Serial No.	Name of C.D.block	Number of literates and illiterates						Percentage of literates			Gap in male/female literacy rate
		Number of literates			Number of illiterates

13	Lar	72,390	44,884	27,506	72,172	26,410	45,762	61.7	78.3	45.8	32.5
14	Bhatpar Rani	68,402	43,884	24,518	79,250	28,580	50,670	57.4	75.9	40	35.9
15	Bankata	69,107	45,087	24,020	87,442	31,614	55,828	55.1	74.1	37.2	36.9
District (Rural) Total		**1,122,758**	**720,472**	**402,286**	**1,321,587**	**494,785**	**826,802**	**56.9**	**74.1**	**40.3**	**33.8**

Table 22 reveals number of literates, illiterates and the literacy rates in rural areas at C.D. block level in the district. 56.9 per cent of the total rural population excluding the age group of 0-6 years are literates in the district. The corresponding proportion of male and female literates comes to 74.1 and 40.3 per cent respectively, which shows very wide gap of 33.8 percentage points in male and female literacy. At C.D. block level, Salempur C.D. block has the highest rural literacy rate of 63.9 per cent in which 80.7 per cent males and 47.9 per cent females are literates. The lowest literacy rate in rural areas is noted in Pathar Dewa C.D. block (52.3 per cent). There is wide gap in male and female literacy in all the C.D. blocks of the district. The maximum difference of 36.9 percentage points is found in Bankata C.D. block.

TABLE 23 : DISTRIBUTION OF VILLAGES BY LITERACY RATE RANGE, 2001

Range of literacy rate for villages	Number of inhabited villages	Percentage distribution of villages	Population	Percentage distribution of population
1	2	3	4	5
0	7	0.3	60	0
1-10	2	0.1	88	0
11-20	10	0.5	1,524	0.1
21-30	24	1.2	8,050	0.3
31-40	95	4.7	84,778	3.5
41-50	335	16.7	438,647	17 9
51-60	755	37.6	1,094,392	44.8
61-70	577	28.7	658,658	26.9
71-80	178	8.9	151,895	6.2
81-90	17	0.8	5,483	0.2
91-99	4	0.2	757	0
100	4	0.2	13	0
District Total	2008	100	2,444,345	100
Literacy rate for District		58.6		

Table 23 gives the distribution of villages by literacy rate ranges in the district. There is no literate in 7 villages (0.3 per cent) of the district and population of these villages is only 60 persons. Four villages (0.2 per cent) have all the literate population. 755 villages accounting for 37.6 per cent of the total villages are in the literacy range of 51-60 per cent and 577 villages (28.7 per cent) fall in the literacy range of 61-70 per cent. The lower literacy rate of 1 to 50 per cent observed in 466 villages (23.2 per cent) of the district. The higher literacy ranges of 71 to 100 per cent covers 203 villages (10.1 per cent). The range of 51-70 has the maximum number of 1,332 villages forming 66.3 per cent of the total inhabited villages.

TABLE24 : NUMBER AND PERCENTAGE OF LITERATES AND ILLITERATES BY SEX IN URBAN AGGLOMERATIONS / TOWNS, 2001

Serial No.	Name and urban status of UA/ Town	Number of literates and illiterates						Percentage of literates			Gap in male/female literacy rate
		Number of literates			Number of illiterates						
		Persons	Males	Females	Persons	Males	Females	Persons	Males	Females	
1	2	3	4	5	6	7	8	9	10	11	12

10	Salempur (NP)	10,651	6,277	4,374	6,273	2,518	3,755	75.6	85.6	64.8	20.8
District (Urban) Total		165,562	97,428	68,134	102,743	42,338	60,405	73.6	83.0	63.3	19.7

Table 24 shows number and percentage of literates and illiterates by sex in urban areas of the district. Regarding absolute figures of literates Deoria NPP is way ahead of other towns. Above table reveals that literacy rate is high in the urban areas of the district (73.6 per cent). The literacy rate is quite high (above 83.0 per cent) in Deoria (NPP). In case of male literacy it is above 80 per cent in Deoria NPP, Bhatni Bazar N.P.,' Salempur, Lar and Bhatpar Rani N.P. Female literacy rate is not far behind in Deoria (NPP) and Salempur (NP) which is above 64 per cent. However, literacy rate among female is very low (39.9 per cent) in Majhauliraj (N.P.), thus the gap in male female literacy rate is highest (28.1 percentage points).

TABLE25: NUMBER AND PERCENTAGE OF SCHEDULED CASTES LITERATES AND ILLITERATES BY

Serial Number	Name of C.D. Block	Number of literates and illiterates						Percentage of literates			Gap in Male/ Female

Table 25 shows number and percentage of Scheduled Castes literates and illiterates by sex in CD blocks. In rural areas of the district, proportion of literates is 48.0 per cent in which 65.9 percent are male and 30.4 female. Thus, the gap in male and female literacy rate is 35.5 percentage points. Among 15 CD blocks, Salempur CD block has the highest literacy rate and Pather Dewa CD block has the lowest literacy rate. The gap in male/female literacy rate in Bankata CD block is highest and this gap is lowest in Barhaj CD block.

TABLE 26 : DISTRIBUTION OF VILLAGES BY LITERACY RATE RANGE FOR SCHEDULED CASTES POPULATION, 2001

Range of literacy rate for villages	Number of inhabited villages	Percentage distribution of villages	Scheduled Castes Population	Percentage distribution of population
1	2	3	4	5
0.00	12	0.7	68	0.0

District Total	**1,796**	**100.0**	**462,853**	**100.0**
Literacy rate for District (Rural)			**48.0**	

Table 26 presents the distribution of villages by literacy rate range for Scheduled Castes population at 2001 census . Maximum number of villages (560) are in the literacy range of 51-60 with population of 145,330, which also carries second highest percentage of population (31.4 percent). In contrast of this lowest number of only one village (0.1 per cent)is in the literacy rate range of 91-99 with 16 population. There are only 4 villages (0.2 per cent) with cent percent literacy rate having population of eleven persons. In

the literacy rate ranges of 31-60, there are 1399 villages (78.0 per cent) covering 86.6 per cent of the population.

TABLE 27 :NUMBER AND PERCENTAGE OF SCHEDULED CASTES LITERATES AND ILLITERATES BY SEX IN TOWNS, 2001

Serial No.	Name and urban status of Town	Number of literates and illiterates						Percentage of literates			Gap in male/female literacy rate
		Number of literates			Number of illiterates						
		Persons	Males	Females	Persons	Males	Females	Persons	Males	Females	
1	2	3	4	5	6	7	8	9	10	11	12
1	Bhatni Bazar (NP)	804	553	251	847	319	528	60.2	77.0	40.6	36.4

9	Rudrapur (NP)	1,048	675	373	1,373	583	790	56.1	69.4	41.7	27.7
10	Salempur (NP)	990	681	309	1,266	479	787	54.0	70.9	35.3	35.6
	District (Urban)	13,028	8,583	4,445	17,463	7,286	10,177	52.9	66.8	37.8	29.0

Table 27 brings out the number and percentage of Scheduled Castes literates and illiterates by sex in urban agglomerations/towns' population at the 2001 census. The percentage of literates is more than illiterates in the district (urban). The percentage of literates is least in Rampur Karkhana among 10 towns but the gap in male/female literacy rate is highest in case of Lar (N.P). The males in all ten towns enjoy higher literacy rate than females. The gap in male/ female literacy rate is least in Gaura Barhaj N.P. (22.6 percentage points). While the female literacy rate is highest in Deoria NPP. (46.9 per cent).

TABLE 28: NUMBER AND PERCENTAGE OF SCHEDULED TRIBES LITERATES AND ILLITERATES BY SEX IN C. D. BLOCKS, 2001

Serial No.	Name of C. D. block	Number of literates and illiterates						Percentage of literates			Gap in male/female literacy rate

Table 28 brings out the number and percentage of Scheduled Tribes literates and illiterates by sex in CD blocks at the 2001 census. The number of illiterates is more than literates in the district and CD blocks, with exception to Bhagalpur CD Block. The literacy rate of the Scheduled Tribes population 36.9 per cent is lower than the corresponding rate of 48.0 per cent in Scheduled Castes community. The gap in male and female literacy rate of 33.8 per centage points is also lesser than what it is in case of the Scheduled Castes community (35.5 per cent). The literacy rate is highest in Bhagalpur CD Block (63.2

per cent) and lowest in Salempur CD Block (6.5 per cent). The gap in male/female literacy rate in Salempur CD block is also minimum because of nil literate female population. Similar case is also found in Deoria CD block where the gap is maximum of 66.7 percentage points with nil female population.

TABLE 29 : DISTRIBUTION OF VILLAGES BY LITERACY RATE RANGE FOR SCHEDULED TRIBES POPULATION, 2001

Literacy rate for District (Rural)		36.9		

Table 29 gives the distribution of villages by literacy rate range for the Scheduled Tribes population at the 2001 census. In the district the Scheduled Tribes population is found in 27 villages out of which in 2 villages the literacy range is cent per cent. However, the maximum (33.3 per cent) of the Scheduled Tribes population is found in only 4 villages with literacy range from 51 to 60 percent. In 10 villages with 15.5 per cent Scheduled Tribes population, the literacy rate is zero percent.

TABLE 30 : NUMBER AND PERCENTAGE OF SCHEDULED TRIBES LITERATES AND ILLITERATES BY SEX IN TOWNS, 2001

Table 31 gives the number and percentage of main workers, marginal workers and non-workers by sex at tahsil level in the district as per 2001 census. The proportion of total workers works out to 28.5 per cent of the total population in the district. The total workers are comprised of 17.2 per cent of main workers and 11.4 per cent of marginal workers and the remaining 71.5 per cent of non-workers. Among the main workers, males participation rate in the district is 29.3 per cent and 5.1 per cent of females. Male and female marginal workers account for 11.2 and 11.5 per cent respectively. At CD block level male and female marginal workers is almost similar. Total non-workers among tahsils varies from 68.6 per cent in Rudrapur tahsil to 74.2 per cent in Salempur tahsil.

Table 32 shows C.D. block wise number and percentage of main workers, marginal workers and non-workers for rural population of the district. Of the 2,444,345 total rural population, 17.0 per cent has been categorised as main workers while marginal workers constitute 12.1 per cent and the remaining 70.9 per cent fall in the category of non-workers. The sex wise break up at the district level shows that 28.9 per cent males and 5.2 per cent females are in the category of main workers. Male and female marginal workers account for 11.8 and 12.5 per cent respectively. The percentage of female marginal workers is higher than male marginal workers. Similar trend is visible at C.D. block level.

The percentage of total rural workers of the district comes to 29.1 per cent. At the C.D. block level, Gauri Bazar has highest proportion of total workers forming 33.3 per cent of the total population. It is closely followed by Rudrapur (32.2 per cent), Rampur Karkhana (30.7 per cent), Pathar Dewa (30.3 per cent), Desai Deoria (29.8 per cent) and Baitalpur and Deoria (29.3 per cent). The lowest percentage of 25.1 per cent is recorded in Lar C.D. block.

Table 33 gives the number and percentage of main workers, marginal workers and non-workers by sex in urban areas of the district at 2001 census. The proportion of the total workers works out to 23.0

per cent of the total population. The total workers are comprised of 18.7 per cent main workers, 4.4 per cent of marginal workers and remaining 77.0 per cent are non-workers. Among the main workers, male participation rate in the district is 32.8 per cent, whereas female participation rate is only 3.3 per cent. Male and female marginal workers accounts to 6.3 per cent and 2.3 per cent respectively. Total workers (Main and marginal workers) among towns varies from 21.4 per cent in Rudrapur (N.P.) to 26.1 per cent in Gauri Bazar (NP).

It can be seen from the table 34, the economy of the district is primarily agricultural as supported by the fact that cultivators constitute 41.0 percent of the total workers (main + marginal) and remaining 31.5 per cent are engaged as agricultural labourers, household industry workers 4.1 percent and other workers 23.4 percent. The distribution of workers by four categories of economic activity at tahsil level shows very high dependence of population on agriculture sector, absorbing large number of workers. The proportion of cultivators varies between 36.2 per cent in Barhaj tahsil and 51.2 per cent in Bhatpar Rani tahsil. These variations within the district may be due to cropping and land holding patterns. The percentage of female cultivators is 37.5 per cent, which is low as compared to 42.5 per cent of male cultivators. The percentage of household industry workers is very low in the district. The workers in

other activities occupy the third position next to agriculture in the district as well as in each tahsil. The highest proportion of 30.0 per cent of other workers is recorded in Salempur tahsil while the lowest proportion of 15.9 per cent is found in Rudrapur and Bhatpar Rani tahsil.

Table 35 presents C.D. block wise distribution of workers by sex in four categories of economic activity.In the rural areas of the district total workers (main+marginal) are 29.1 per cent, among these workers, cultivators constitute 44.1 per cent, 33.5 per cent agricultural labourers, 3.9 per cent household industry workers and 18.4 per cent are other workers.The agricultural sector plays a major role in providing employment to the working force of rural population despite the fact that it is not commercialy viable. Household industries could not make much progress in rural areas as reflected in the data and these household industries employ only 3.9 per cent workers of the total working force. Therefore, surplus-working force has to depend on primary activities. Among cultivators, the percentage of female (38.5 per cent) is lower than male (46.6 per cent) in the rural areas, though, the female play a main role in rural economy of the district.The proportion of cultivators and other workers differ considerably from one C.D. block to other.The proportion of cultivators varies between 35.3 per cent in Deoria C.D. block to 55.1 per cent in Pather Dewa C.D. block. Similarly for other workers,the lowest proportion is 13.5 per cent in Bankata C.D. block while 28.2 per cent is the highest in Deoria C.D. block. The percentage of household industry workers is quite low i.e. only 3.9 per cent in the district. The percentage of agricultural labourers is highest in Rudrapur CD block as much as 42.7 per cent and is followed by Bhagalpur 40.8 percent. Similarly, household industry workers varies in C.D. blocks between 3.2 per cent in Bhaluani and 5.7 per cent in Bhagalpur.

Table 36 presents distribution of workers by sex in four categories of economic activity in urban areas of the district. It can be observed from the table that the four categories of economic activity are cultivators, agricultural labourers, household industry workers and other workers. Figures in the table has been given for total number of workers including main and marginal workers. At the district level, urban areas recorded highest percentage of other workers (80.2 per cent), followed by agricultural labourers with 8.0 per cent (5.8 per cent male and 24.4 per cent female).If we observe each town, the table reveals that highest percentage of agricultural labourers (23.0) is recorded in Bhatpar Rani N.P.In the cultivators category a very low percentage (5.5) is recorded.Household industry workers could not make much progress in urban areas as reflected in the data.Among non-worker the percentage of male

(83.2 per cent) is much higher than female (57.5 per cent).As the usual trend recorded in the urban areas, other workers are in high percentage in Deoria NPP (91.6 percent), Gaura Barhaj NPP (85.5 per cent) and Salempur N.P. 84.6 per cent.

(ix) Brief analysis of the Village Directory and Town Directory data based on inset tables 37-47:

One of the major parts of the District Census Handbook is Village and Town Directory. Non-census data showing educational, medical, drinking water, banking, communication facilities and other such developmental indicators are incorporated in the town and village directory. From non-census data, inset tables 37 to 47 have been generated and reproduced here showing major trends in the availability of above amenities.

* Based on the improved drinking water source, drinking water supply has been classified as 'Improved ' or otherwise. If the household has access to drinking water supplied from a tap or a hand pump / tube well situated within or outside the remises it is considered as having access to 'Improved drinking water source'. However, the concept of improved drinking water is state specific and this is to be considered accordingly.

Post office includes Post office, telegraph office and Post and Telegraph office.

$ Transport communication includes bus service, rail facility and navigable waterways.

Table 37 deals with the C.D. block wise distribution of villages according to the availability of different amenities like educational, medical, improved drinking water, post office, telephone, transport, communications, agricultural credit societies, approach by pucca road and power supply within the village. Out of 2,008 inhabited villages in the district 1,414 villages or 70.4 per cent have been provided with the educational facilities of one type or the other.Similarly 514 villages in the district constituting 25.6 per cent have medical facilities of one type or the other. Improved drinking water facility is available in 1,979 or 98.6 percent villages. As regards, post office facility which includes facilities like telegraph office and post and telegraph, 251 villages constituting 12.5 per cent of villages have been provided with post office facility within the village. 420 or 20.9 per cent villages have been provided with the telephone facility, 191 or 9.5 per cent with transport facility, 74 or 3.7 per cent villages with bank facility and 156 or 7.8 per cent with agricultural credit societies. Similarly there are 1,206 or 60.1 percent villages which have been linked with pucca road. Total 1,565 or 77.9 per cent villages have been provided with the electricity supply. Almost similar trend of distribution of villages by availability of amenities in the villages at C.D. block has been found with slight variations. Desai Deoria C.D. block has the highest 86.4 per cent villages where educational facility is available and lowest 56.7 per cent is found in Salempur. Medical facility is highest in Bhatpur Rani (46.2 per cent) and lowest (13.0 per cent) in Salempur C.D. block. Improved drinking water is available to cent percent villages in Bhatni, Lar and Rampur Karkhana blocks while in other blocks, it is above 94.0 per cent. Telephone facility is highest in Deoria (35.7 per cent) and lowest (5.7 per cent) in Bhatni C.D. block.Transport and communications is less developed in Rudrapur where only 1.2 per cent villages are covered by this facility whereas15.9 per cent villages of Desai Deoria C.D. block are availing this facility.

TABLE38 : NUMBER AND PERCENT OF RURAL POPULATION SERVED BY DIFFERENT AMENITIES, 2001

* Based on the improved drinking water source, drinking water supply has been classified as 'Improved ' or otherwise. If the household has access to drinking water supplied from a tap or a hand pump / tube well situated within or outside the remises it is considered as having access to 'Improved drinking water source'. However, the concept of improved drinking water is state specific and this is to be considered accordingly.

Post office includes Post office, telegraph office and Post and Telegraph office.

$ Transport communication includes bus service, rail facility and navigable waterways.

Table 38 depicts the number and proportion of rural population served by different type of amenities.Out of total rural population of 2,444,345 persons in the district, 2,145,327 or 87.8 per cent have educational facility of one or the other type.Similarly 1,035,937 or 42.4 per cent population have medical facilities while 2,437,350 or 99.7 per cent have got improved drinking water facility. Post

office facilities are available to 702,769 or 28.8 per cent population.Telephone facility is available to 777,413 or 31.8 percent.Transport communications facility is available to 425,879 or 17.4 per cent.Bank facility is available to 268,114 or 11.0 per cent.409,975 or 16.8 per cent have been provided with the facility of agricultural credit societies.1,714,265 or 70.1 per cent have been provided with the facility of approach by pucca road.Power supply is available to 2,111,588 or 86.4 per cent rural population. Similar trend of availability of facilities is visible to the rural population at C.D. block level. However, in Bhatni C.D. block facilities of educational, medical and improved drinking water are available to higher proportion of population.

TABLE 39 : DISTRIBUTION OF VILLAGES NOT HAVING CERTAIN AMENITIES, ARRANGED BY DISTANCE RANGES FROM THE PLACES WHERE THESE ARE AVAILABLE, 2001

Village not having the amenity of	Distance range of place from the villages where the amenity is available			
	Less than 5 kilometres	5-10 kilometres	10+ kilometres	Total (Col. 2 - 4)
1	2	3	4	5
1. Education :-

(b) PHC	599	1,038	338	1,975
3. Post Office	1,533	191	33	1,757
4. Telephone	1,013	381	194	1,588
5 Bus Service	970	729	155	1,854
6. Banks				
(a) Commercial Bank	1,281	552	115	1,948
(b) Cooperative Bank	617	1,093	275	1,985
7. Agricultural Credit Societies	1,474	322	56	1,852

Table 39 presents distribution of villages not having certain amenities within the village at district level.They have to go out of their village to avail these facilities.Such villages have been presented according to various distance ranges in this table. 598 villages do not have primary school in their villages and out of these villages, children of 578 villages have to travel less than 5 kms. for schooling.Out of 2,008 inhabited villages as many as 1618 are deprived of middle school and 1,990 of degree college.Of these 1,187 avail the facility of middle school at a distance of less than 5 kms., 418 at a distance 5-10 kms. and the remaining 13 at a distance of 10+ kms.In respect of degree college, 390 avail this facility at a distance of less than 5 kms., 621 between 5 to 10 kms. and rest 979 villages at a distance of 10+ kms.

Similarly there are 1,957 villages which have been devoid of Hospital facility and 1,975 villages which are deprived of PHC facilities.Of these 616 village inhabitants have the facility of Hospital available within 5 kms. while in respect of 696 villages, the inhabitants have to cover a distance of 5-10 kms. in order to avail this facility.Similarly overwhelming number i.e. 645 villages have this facility at a distance of 10+ kms. As regards PHC 599avail this facility at a distance of less than 5 kms., 1,038 at a distance of 5-10 kms. and the remaining 338 have to travel a distance of more than 10 kms.

Regarding Post Office, 1,757 villages do not have this facility in the village itself. Of these majority i.e.

1,533 have this facility at a distance of less than 5 kms., another 191 villages avail it at a distance of 5-10 kms.In the remaining 33 villages, inhabitants have to travel a distance of 10+ kms.

As regards Telephone, there are 1,588 villages in the district which are without telephone facilitiy.Of these 1,013 avail this facility at a distance of less than 5 kms., 381 at a distance of 5-10 kms. and remaining 194 have to traverse a distance of 10+ kms.

For Bus service out of 1,854 villages which do not have facility, 970 village inhabitants avail this facility at a distance of less than 5 kms., 729 at a distance between 5-10 kms. and 155 at a distance of 10+ kms.

In the entire district 1948 villages are deprived of Commercial Bank and 1,985 of Co-operative Bank. Of these 1,948 villages which are deprived of Commercial Banks 1,281 villages avail this facility at a distance of less than 5 kms., 552 between 5-10 kms. and the remaining 115 at a distance of 10+ kms.Regarding Co-operative Banks, out of 1,985 villages 617 villages avail this facility at a distance of less than 5 kms., 1,093 at a distance of 5-10 kms. and remaining 275 at a distance of 10+ kms.1,852 villages do not have Agricultural Credit Societies. This facility to 1,474 villages is available at a distance of less than 5 kms., 322 at a distance of 5-10 kms. and the remaining 56 village inhabitants at a distance of 10+ kms.

TABLE 40 : DISTRIBUTION OF VILLAGES ACCORDING TO THE DISTANCE FROM THE NEAREST STATUTORY TOWN AND AVAILABILITY OF DIFFERENT AMENITIES, 2001

Distance range from the nearest statutory town (in kilometres)	Number of inhabited villages in each range	Type of amenity available

Table 40 deals with the distribution of villages according to distance from the nearest statutory town and availability of different amenities within the village.Out of total 2008 inhabited villages in the district, there are 451 villages which have nearest towns upto a distance of 5 kms.Of these only 314 villages forming 69.6 per cent, are having the educational facilities of one type or the other and 110 villages constituting 24.4 per cent, have the medical facilities within the village, 34 villages forming 7.5 per cent have the facility of post office within the village and 93 or 20.6 per cent have the facility of telephone.35 villages constituting 7.8 per cent have been linked by transport service.12 villages comprising 2.7 per cent have been provided bank facilities, while 30 villages constituting only 6.7 per cent have been

provided by agricultural credit societies.287 villages comprising 63.6 per cent have been provided with pucca road.

There are 1,320 inhabited villages in the district which fall in the distance range of 5-15 kms.Of these 928 villages constituting 70.3 per cent have been provided with the educational facilities.346 villages comprising 26.2 per cent have been provided with medical facilities. 179 villages constituting 13.6 per cent enjoy the post office facility.268 villages comprising 20.3 per cent have been provided the telephone facility.126 villages constituting 9.5 per cent have been linked with transport communications.47 villages comprising 3.6 per cent have bank facility. 99 villages constituting 7.5 per cent are having agricultural credit societies, while 774 villages or 58.6 per cent are approachable by pucca road. 168 villages fall in the distance range of 16-50 kms. Of these, 73.2 per cent villages have educational facility,25.0 per cent with medical, 17.3 per cent with post office, 27.4 per centwith telephone and transport & communications available to 13.7 per cent villages. Banks andagriculturalcredit societiesfacilities areavailable to 5.4 and 11.9 per cent of villages. Total 98 villages constituting 58.3 percent have been provided with pucca road.

There is only one village in the district, which is situated beyond 50 kms.from the nearest town. This village has only educational facility.There are 68 villages whose distance ranges from the nearest statutory town have not been given. Such villages have been grouped under the unspecified category.48 or 70.6 per cent villages have the educational facility of one or other type. 16 villages constituting 23.5 per cent with medical, 13.2 per cent with postoffice,19.1 per cent with telephone and transport and communication available to 10.3 per cent villages. Banks and agricultural credit societies facilities are available to 8.8 and 10.3 per cent of villages. 69.1 per cent villages are approachable by pucca road.

* Based on the improved drinking water source, drinking water supply has been classified as 'Improved ' or otherwise. If the household has access to drinking water supplied from a tap or a hand pump / tube well situated within or outside the premises it is considered as having access to 'Improved drinking water source'. However, the concept of improved drinking water is state specific and this is to be considered accordingly.

Table 41 deals with the distribution of villages by population ranges and amenities available therein. In the district out of 2008 inhabited villages, overwhelming 539 have a population of less than 500 persons. Of these, 174 villages (32.3 per cent) have educational facility, 43 (8.0 per cent) have medical

facility, 515 (95.5 per cent) have improved drinking water facility. None village has post office facility.38 (7.1 per cent) have telephone facility. 30 (5.6 per cent) have been linked by bus service.4 (0.7 per cent) have Bank facility.None village has been provided with the agricultural credit societies, 277 villages (51.4 per cent) have been linked with pucca road and 329 villages (61.0 per cent) have been provided with electricity.

Out of 562 villages, which fall in the population range of 500-1,999 persons, 399 villages (71.0 per cent) have been provided with the educational facility, 102 (18.1 per cent) with medical facility, all the villages except 3 villages have improved drinking water facility. 29 villages (5.2 per cent) have been provided with post office facility, 89 villages (15.8 per cent) with telephone facility, 32 villages (5.7 per cent) with transport facility, 4 villages (0.7 per cent) with bank facility, 25 villages (4.4 per cent) with agricultural credit societies, 303 villages (53.9 per cent) have approach by pucca road and 437 villages (77.8 per cent) have been provided with electricity.

597 villages fall in population range of 1,000-1999 persons. Of these 535 villages (89.6 per cent) have been provided with the educational facilities.Whereas 190 villages (31.8 per cent) enjoy the medical facility, all of these villages except 2 villages have improvised drinking water facility. 82 villages (13.7 per cent) have post office facility, 170 villages (28.5 per cent) have telephone facility, 49 villages (8.2per cent) have transport and communicationsfacilities, 17 villages (2.8 per cent) have bank facilities, 52 villages (8.7 per cent) have agricultural credit societies, 378 villages (63.3 per cent) have approach by pucca road and 517 villages (86.6 per cent) have electricity facility.

There are 274 villages in the district which are covered under 2,000-4,999 population range.In this range, all villages enjoy the facility of education (except 4 villages) and all villages have improved drinking water facility. 150 villages (54.7 per cent) have medical facility. 108 villages (39.4 per cent) have post office facility, 30 villages (10.9 per cent) have bank facility, 60 villages (21.9 per cent) are having agricultural credit societies. 100 villages (36.5 per cent) have telephone facility, 59 villages (21.5 per cent) have transport and communication facility. 213 villages (77.7 per cent) have been linked with pucca road and 246 villages (89.8 per cent) have been provided with electricity. There are 36 villages in the district having a population of 5,000 persons or above. In of this group majority of villages have maximum facilities.

TABLE 42: DISTRIBUTION OF VILLAGES ACCORDING TO LAND USE, 2001

Serial No.	Name of C. D. block	Number of inhabited villages	Total area in hectare	Percentage of cultivable area to total area	Percentage of irrigated area to total cultivable area

	District Total	**2,008**	**243,292.45**	**76.1**	**83.9**

Note :Cultivable area = irrigated area + unirrigated area

Table 42 presents C.D block wise distribution of villages according to land use. It also gives details of total area and cultivable area available of inhabited villages in the district. Cultivated area includes irrigated as well as unirrigated area. It further elaborates that what is the extent of cultivable area under irrigation. There are total 2,008 inhabited

villages in the district having a total area of 243,292.45 hectares. Of this, 76.1 per cent is cultivable and 83.9 per cent of total cultivable area has got the irrigation facility. The area figures have been collected from the revenue record maintained for each village by the State Government.

A look at the land use pattern at C.D. block level shows that Pathar Dewa block with 149 villages have a total area of 15,087.6 hectares, of this 47.7 per cent of land is cultivable and of the aforesaid area 91.5 per cent is irrigated. In Desai Deoria block, all the 88 villages have a total land area of 12,631.42 hectares, of this 74.7 per cent of land is cultivable and of the aforesaid area 86.0 per cent is irrigated. In Gauri Bazar block, all the 114 villages have a total area of 20682.26 hectares; of this cultivable area is 69.3 per cent and 93.6 per cent is irrigated. In Baitalpur block, all the 128 villages have a total area of 26,162.3 hectares. Of this, cultivable area is 56.8 per cent and of cultivable area 93.4 per cent is irrigated. In Rampur Karkhana block with 114 villages have a total land area of 10441.8 hectares, of this 86.6 per cent is cultivable area and out of this cultivable area 88.4 per cent is irrigated. Deoria block with 157 villages has a total land area of 17470.1 hectares. Of this 85.2 per cent is cultivated area, out of which 89.2 per cent is irrigated. Rudrapur block with a total 162 villages have an area of 18,146.6 hectares. Of this 96.7 per cent is cultivable area and out of this cultivable area 97.7 per cent is irrigated.

In Bhaluani Block, all the 170 villages have a total area of 18513.8 hectares, and out of cultivable area 56.9 per cent is irrigated. In Barhaj block, all the 94 villages having total area of 14,410.64 ,of this cultivable area is 52.2 per cent and 68.9 per cent is irrigated. In Bhagalpur block, all the 126 villages have a total area of 14756.71 hectares. Of this 66.5 percent is cultivable area out of which 85.8 per cent is irrigated. In Bhatni block, all the 106 villages have an area of 15,620.0 hectares. Of this cultivable area is 84.8 per cent of cultivable area 72.8 per cent is irrigated area. In Salempur block with 208 villages have a total area of 21,803.7 hectares, of this 61.7 per cent is cultivable area and out of this cultivable area 86.8 per cent is irrigated. Lar block with a total 127 villages have an area of 11,778.0 hectares, of this 88.3 per cent is cultivable area and out of this cultivable area 87.7 per cent is irrigated. In Bhatpar Rani block, all the 117 villages havea total area of 13,206.0 hectares, of this cultivable area is 89.4 per cent and 75.9 per cent is irrigated. Bankata block with 148 villages has a total land area of 12641.6 hectares, of this 79.4 per cent is cultivated area and out of this cultivable area, 95.3 percent is irrigated.

TABLE 43 : PER CAPITA RECEIPT AND EXPENDITURE IN STATUTORY TOWNS

Data source: Census of India 2001, H- series: "Tables on Houses, Household amenities and Assets."
* House list households.

The data presented in the table 48 depicts number of households by tenure status and number of rooms occupied in the district.The total number of households in the district stands at 383,587 consisting of 348,143 rural and 35,444 urban households.81,916 households belong to Scheduled Castes and 4,348 to Scheduled Tribes. 374,604 households are living in their own houses constituting 97.6 per cent of total households. Of these households, the largest number of 110,870 house holds have double roomed accommodation and is followed by three plus roomed accommodation numbering to 98,272 households. Next position is claimed by households (94,811) occupying single roomed accommodation. Number of households occupying three rooms rank at fourth place with 63,455 households while 7,196 households are without any exclusive room.

5,998 households living in rented accommodation account for 1.6 per cent of total number of households in the district. The largest number of 2,403 households are living in double roomed accommodation followed by 1,952 households in single roomed accommodation. Households with three rooms and three plus are small in numbers. Other households numbering to 2,985 forming only 0.8 per cent of total households are distributed in single roomed accommodation numbering 1,085 double roomed are 819 and 438 in three roomed accommodation. In rural areas majority of households have bigger size and majority of them have their own houses while in urban areas show reverse picture.

TABLE 49: PERCENTAGE DISTRIBUTION OF HOUSEHOLDS LIVING IN PERMANENT, SEMI PERMANENT AND TEMPORARY HOUSES, 2001

Serial No.	District/ Tahsil	Total			Rural			Urban		
		Perma-nent	Semi-perma-nent	Tempo-rary	Perma-nent	Semi-perma-nent	Tempo-rary	Permanent	Semi-permanent	Temporary
1	2	3	4	5	6	7	8	9	10	11

Data source: Census of India 2001, H-series: Tables on Houses, Household amenities and Assets.

Note:-

Permanent:- 1 Permanent houses refer to those houses whose wall & roofs are made of pucca materials i.e., burnt bricks. G.I. Sheets or other metal sheets, stone cement concrete is used for wall and tiles slate, shingle, corrugated iron, zinc or other metal sheets asbestos sheets bricks, lime and stone and RBC/RCC concreate a re-used for roof.

Semi permanent:- 2 Semi-permanent houses refer to those houses made of other types of materials.

Temporary:- 3 Temporary houses refer to those houses having wall and roofs made of Kutcha materials i.e. where grass, leaves, reeds, bamboo mud, unburnt bricks are used for the construction of walls and grass, leaves reeds, bamboo hatch, mud, unburnt bricks, wood etc.are used for roofs.

The percentage distribution of households as shown in the above table reveals that 68.6 per cent of the households in the district had permanent houses.The trend was approximately similar in rural areas (67.3 per cent) but it was different in urban areas (81.9 per cent). Among tahsils highest proportion of permanent houses were accounted in tahsil Deoria (72.0 per cent) followed by Salempur (70.7 per cent), Bhatpar Rani (67.3 per cent) and lowest was in Rudrapur (61.8 per cent). In respect of semi-permanent houses, the returns was 15.7 per cent at district level whereas among tahsils, in Rudrapur it was highest at 20.8 per cent and lowest was 12.8 per cent in tahsil Deoria. Rural areas represented a similar ratio at district and tahsil level but semi permanent houses in the urban areas were in the proportion range of 5.7 to 20.2 per cent. Temporary houses in the district lie between the range of 12.1 to 19.4 per cent.

Data source: Census of India 2001, H-series: Tables on Houses, Household amenities and Assets.

* House list Households.

**Based on the improved drinking water source, drinking water supply has been classified as 'Improved' or otherwise. If the household has access to drinking water supplied from a tap or a hand pump/tube well situated within or outside the premises, it is considered as having access to 'Inproved drinking water source'. However, the concept of improved drinking water is state specific and this is to be considered accordingly.

Note: Percentage is to be given in brackets after the number of households.

Bathroom means bathroom within the house

Toilet means toilet within the house.

Drainage means closed and open drainage.

The above table shows that out of total households of the district 93.5 per cent of the households had improved drinking water facility. The proportion of rural and urban area was 93.3 and 95.8 per cent. Tahsil Deoria had higher order of proportion of households where percentage for rural area was 94.2

and 97.1per cent in urban areas. Electricity was available for 28.0 per cent of households at district level. Bathrooms and toilet facilities were available in 19.1 and 17.4 per cent of households. Tahsil Bhatpar Rani poorly served in respect of these amenities. Similarly drainage facility was also poor in Bhatpar Rani and Deoria. At district level drainage facility was available for 67.1 per cent of households, where as the proportion of rural and urban areas households accounted to 65.7 and 80.1 per cent

* House list households.

Data source: Census of India 2001, H-series: Tables on Houses, Households amenities and Assets.

It is observed from the above table that 56.7 per cent of households in the district use firewood as fuel, for cooking, the proportion in the rural area was 57.9 and in urban area it came to 44.4 per cent of households. Crop residue had been reported as one of the fuel used for cooking of food in 28.9 per cent of the households. The composition of rural and urban came to 30.9 and 8.6 per cent respectively. Cowdung cake was used for cooking in as many as 7.7 per cent of the households (8.2 per cent rural and 2.1per cent urban households). The other methods like Cooking gas, L.P.G., Kerosene, Coal, Lignite, Charcoal, Electricity and Biogas etc. ranged between 0.1 per cent to 4.2 per cent of the households of the

district. The pattern of fuel used for cooking followd the same trend in tahsils (rural areas). The table shows that firewood, crop residue and cowdung cake were the predominant fuel for cooking in the district.

Data source: Census of India 2001, H-series: Table on Houses, Households amenities and Assets.
* Houselist Households.

This table presents date for total rural and urban areas at district/tahsil level about households availing banking services and possession of assets such as radio/transistor, telephone, bicycle, scooter, and car by the households. There were 383,587 households in the district and among them, 205,771 households had been availing banking services. 146,048 households have radio/transistor; television was possessed by 60,876 households. Telephone was available in 13,680 households. Bicycle was a main means of transportation and was available in 280,667 households. Scooter/ motor cycle/ moped and car/ Jeep/ van were used by 31,409 and 9,145 households respectively. Banking services and possession of assets by households at tahsil level was almost similar as shown in the above table.

(xi) Major Social and Cultural Events, Natural and Administrative Development and Significant Activities during the decade:

Till 1994, known as Padrauna the district was renamed as Kushinagar district and was formed by transferring the entire tahsils of Padrauna, Hata and Tamkuhi Raj to the newly created district. In the remaining district Deoria, two tahsils namely Barhaj and Bhatpar Rani had been created from the existing two tahsils namely Rudrapur and Salempur in the year 1997 and 14 villages of Deoria tahsil were transferrd to Kasya tahsil of Kushinagar district in the year 1999.

(xii) Brief description of places of religions historical or archaeological importance in villages and places of tourist interest in the towns of the district.

Temple of Dugdheswar Nath: The temple of Dugdheswar Nath which is also known by the name of 'Hans Pilgrimage' of eastern zone. This temple is

located only 2 km. in north from present town of Rudrapur. It is constructed in the shape of Octagon according to Buddh tradition. At the time of down fall of Buddhism the twelve 'Jyotirling' was set up by 'Jagat Guru Shankaracharya'. There is a fair held on the occassion of Maha Shiva-Ratri in which people come from every noock and corner of Uttar Pradesh, Bihar, Bengal and Nepal and worship the idol of Shiv-ling. Dugdheswar Nath Dham has been declared as a centre of 'Tourism' by the government of Uttar Pradesh and digging of the pond, construction of traveler shade and decoration of the temple has been done by the government.

Temple of Baikunth Nath of Village Baikunthpur: There is an ancient proverb that town was made by man but village was made by almighty one. The complete and natural development of Indian civilization and culture has come into existence from rural areas. There is a village named Bai-kunth linked from that tradition. The village Baikunthpur is stationed on the bank of little Gandak nearby Bihar state and eastern edge of Deoria district. It lies at a distance of 3 kms. north from Noonkhar Railway Station and 15 kms. east away from district headquarter of Deoria. The spiritual history of this village begins from the mid of eighteen century. The image of Vishnu, carved on from black stone was enshrined in the temple by the hand of Pauhari Baba . Along with preliminary history of first throne. Mahatma pauhari, made it his place of penance. A fair of 'Dhanush-yagya' and 'Ram-Sita' marriage is held on auspicious occasion of Aghan Punchami of bright half of the month and people coming at great distance stay at night, to witness Ramlila. This village has remained a centre of commercial ccreals from olden time.

The 'Sati-Ka-Chaura' situated on the bank of 'Kurna river' to the west of Mahavidyalaya of Baba Raghava Dass, still exit on this day as a place of worship. Another place of Devi is 'Kurnat varto' which is situtated on Gorakhpur-Deoria route. This is also a place of 'Sati Devi'. The place of 'Kulkula Devi' is on Kasya-Fazilnagar route. The name of this Devi is mentioned in Devi Bhagavat Puran. Math Lar hermitage, located at Lar town of this district, is a 'Siddhe pith' Hermitage of Siddha Saint 'Anant Maha prabhu' is situated in the market of Barhaj. The word 'Barhaj' is derived by joining 'Ba' ;'Ra', 'Ha' and 'Ja' the first letter of four place of Pilgrimage: Badrika Hermitage, Rameswarm, Haridwar and Jagannath puri. Thus, in the district there are many historical and tourist interest places, such as Shri Venkethswar Mandir, Kasya road, Pauhari Mandir, Paikoli, Baikunthpur in Deoria tahsil; Shri Dugdeshwar Nath Mandir and Satasi State fort in Rudrapur tahsil, Majhauli Raja's fort and Mahal, Sohnag mandir in Salempur tahsil, Shri Deoraha Baba Ka Sthan Mau, Baba Ragav Das Ashram in Barhaj tahsil. Bhimsen Ki Chhari, Bhagadpur are other place of pilgrimage. On the occasion of Kartiki Purnima a big fair is held in the Barhaj, every year, which is attended by about one lakh people. Kartiki Purnima fair is also held in Bhagalpur.

(xiii) Major Characteristics and Contribution of the District:

It was a part of Koshala state, and a main centre of a Aryan civilization. There are so many archaeological remains, like coins, statues, temples, stupas, Baudha Mathas, sculpture, bricks were found in the district which shows that an organised social life was existing in this area long ago. Many legends are attached to this area.There are many religious places related to Hindu, Buddhist, and Jains' faith. In the historical reference, the Rudrapur and Barhaj has a separate importance. The district has also taken a prominent part in the freedom struggle of India.

(xiv) Scope of Village Directory & Town Directory

Village Directory :

The village directory as the title connotes presents information pertaining to rural areas of the district at C.D block/ village level. For each C.D. block a list of villages serialized by English alphabetical order along with their location code numbers of 2001 and 1991 census has been presented. The rational of giving 2001 location code along with 1991 location code is to facilitate the identification of villages for matching information collected at each Census. The villages which have been wholly merged in Nagar Nigam, Nagar Palika Parishad and Nagar Panchayat are not included in the list. In case of partly merged villages, the remaining rural part of the villages has been treated as independent revenue village and the data have been presented for such villages in the village directory.

However, the villages treated as outgrowth of an Urban Agglomeration or Nagar Panchayat is listed in the village directory but no data are presented against the name of such villages. All these villages

are listed in the Primary Census Abstract (rural) without presenting their data for providing cross references. Uninhabited or depopulated villages are listed but only area of the village and land use pattern is given. A note against such a village indicates the state of its being depopulated or uninhabited.

The village directory brings out some basic information about a village. These data can broadly be classified into the following categories:

1.	Population and households	Cols.4 & 5
2.	Amenities.	Cols.6 to 13
3.	Other infrastructural facilities etc.	Cols.14 to 16
4.	Availability of newspaper/ magazine	Column 17
5.	Commodities manufacture	Column 18
6.	Total area of village and land use pattern	Column 3 & 19-23

Town Directory :

The Town Directory covers all the towns in a district. The towns are arranged by English alphabetical order. The data are presented in seven statements serially numbered (I) to (VII).

The following mode of listing of towns has been followed:-

(i) All the towns having statutory status which are not part of an Urban Agglomeration are listed once in the alphabetical arrangement of the towns.

(ii) All the towns which are part of an Urban Agglomeration and enjoy independent status of a statutory town are listed twice in the alphabetical arrangement of the towns as well as under the main town of an Urban Agglomeration. However, the data are presented separately only once under the main UA. In alphabetical arrangement a note is given against such towns that they are part of such and such Urban Agglomeration.

(iii) The outgrowth(s) of a town which do not qualify themselves for being treated as independent town are not listed in the main body of the Directory. Against name/names of the town having outgrowth(s) an asterisk (*) has been placed to indicate that the town has outgrowth(s).

(iv) Census towns are also listed in the body of Directory. These are the towns which do not enjoy statutory status but are declared towns for the purpose of population Census.

Town Directories of the districts give an account of status and growth history of towns, location and physical aspects of the towns, municipal finances during 1998-1999, civic and other amenities up to 1999 (as well in notified slums), medical, educational, recreational and cultural facilities by year 1999, and trade, commerce, industry and banking activities in year 1999. In this way population and growth rates of towns from 1901 to 2001, density in 2001, sex-ratio during 1981, 1991 and 2001 censuses, rainfall and temperature of the towns, receipts and expenditures in the towns of the district, road length, system of sewerage, number of latrines, method of disposal of night soil, water supply position and fire fighting services, number of electric connections, number of hospitals, colleges, cinemas etc. and number of banks as well as commodities of manufacture and exports are enumerated vividly in various statements relating to the town directories of the districts.

PART A
VILLAGE AND TOWN DIRECTORY
(SECTION I & II)

Section - I : Village Directory

Note explaining the abbreviations used in the village directory :

The "Village Directory" is one of the traditional compilations of the Census. It gives the list of villages, their location numbers, their area, population, number of households, amenities such as educational, medical, drinking water, post and telegraph, commercial and co-operative banks, agricultural non-agricultural and other credit societies, recreational and cultural facilities, communication, approach to village, nearest town with a distance, power supply availability of newspaper and magazines, most important commodity manufactured and land use of each village.

Village is a statutory recognized unit having a definite boundary and separate land records. In case, a complete village is treated as an outgrowth of urban agglomeration, data on amenities for that village, have not been given in the Village Directory but shown along with the urban component. The villages which are consider as a Census Town , the amenities data are shown in the Town Directory. For those villages which have partly merged in an outgrowth of U.A., the amenities data are shown in the Village Directory for that particular village.

The 'un-inhabited' villages (villages with no population) have been indicated as such after furnishing details in columns 1 to 3 i.e., Serial number, Name of village & location code number and area of the village against column no. 4 to 18. The land use data for such villages are shown in col. 19 to 23.

The Village Directory format has 23 columns and the details given under each column are for the village are as follows:-

Columns 1 : Serial Number

Self explanatory. All the villages within the CD Block are presented serially in the ascending order of their location code number.

Columns 2 : Name and Location Code Number of village.

The name and location code number of the village are shown against these columns. This also includes the forest and uninhabited villages.

Column 3 : Area of the village

The area of the villages in hectares are given. Wherever the area figures was not furnished by the concerned department the column is left blank.

Column 4 : Total population

The total population of the village as per 2001 Census is given against this column.

Column 5 : Number of households

The number of households as per 2001 Census is given in this column.

Amenities :

In column 6 to 23, availability in respect of different amenities such as education, medical, drinking water, post, telegraph, banks, credit societies, communication, power, approach road etc., in each village has been depicted with appropriate codes against the column concerned. Wherever the amenities are not available in the village, a dash(-) is shown in the column and next to it in brackets the distance in broad ranges viz.< 5 kms., 5-10 kms. and 10+ kms of the nearest place where the facility is available is given. Column wise details are given below :

Column 6 : Educational

Classes upto class V included in Primary School. This will include nursery school, kindergarten school. Pre-basic school, pre-primary school, junior basic school upto class V.

Classes from VI to VIII are included in the middle school.

Classes from IX and X included in High secondary school. Classes XI and XII are included in senior secondary school.

In case of composite schools like middle school with primary school or secondary school withmiddle school, these are also included in the number of primary and middle schools, respectively.

Accordingly any of the following types of institutions if exists within the village is shown as per codes given below :

(i)	Primary School	P
(ii)	Middle School	M
(iii)	Secondary School	S
(iv)	Senior Secondary School	PUC
(v)	College	C
(vi)	Industrial School	I
(vii)	Training School	Tr
(viii)	Adult literacy class/centre	AC
(ix)	Others (specify) e.g. Sanskrit Pathshala, Senior basic school, Navodaya Vidyalaya, Makhtab, etc.	O

More than one institution of a type in the village is indicated by the number within brackets against the abbreviation, e.g. P(3), M(4), etc.

Column 7 : Medical

Availability of medical facility within the village is indicated by following codes :

(i)	Allopathic Hospital	H
	Ayurvedic Hospital	HA
	Unani Hospital	HU
	Homeopathic Hospital	HHom
(ii)	Allopathic Dispensary	D
	Ayurvedic Dispensary	DA
	Unani Dispensary	DU
	Homeopathic Dispensary	DHom
(iii)	Maternity & Child Welfare	MCW
(iv)	Maternity Home	MH
(v)	Child Welfare Centre	CWC
(vi)	Health Centre	HC
(vii)	Primary Health Centre	PHC
(viii)	Primary Health Sub-Centre	PHS
(ix)	Family Welfare Centre	FWC
(x)	T.B. Clinic	TB
(xi)	Nursing Home	NH
(xii)	Registered Private Medical Practitioner	RMP
(xiii)	Subsidised Medical Practitioner	SMP
(xiv)	Community Health Worker	CHW
(xv)	Others	O

More than one institution of a type in the village is indicated by the number within brackets against the abbreviations, e.g. H(3), D(4), etc.

Column 8 : Drinking Water

The type of the drinking water supply sources available within the village are indicated by codes as follows :

(i)	Tap Water	T
(ii)	Well Water	W
(iii)	Tank Water	TK
(iv)	Tubewell Water	TW
(v)	Handpump	HP
(vi)	River Water	R
(vii)	Canal	C
(viii)	Lake	L
(ix)	Spring	S
(x)	Others	O
(xi)	Summer Source	SS

Column 9 : Post, Telegraph and Telephone

It is indicated by codes as shown below whether within the village exists the following amenities:

(i)	Post Office	PO
(ii)	Telegraph Office	TO
(iii)	Post & Telegraph Office	PTO
(iv)	Telephone Connection	PH

Column 10: Commercial and Co-operative Banks

If the village is served by any banking service, commercial bank, co-operative bank etc. the same is indicated in codes mentioned below along with the number of banks in brackets. If not available the distance of nearest place where the facility exist is given:

(i)	Commercial Bank	CM
(ii)	Co-operative Bank	CP

Column 11: Credit Societies

If the village enjoys the services of Credit Societies i.e. Agricultural Credit Societies, Non Agricultural Credit Society or Other Credit Societies, the same is indicated in codes mentioned below along with the number of such societies in brackets. In case the facility is not available within the village the distance of the nearest place where such facility exist is given :

(i)	Agricultural Credit Society	ACS
(ii)	Non-Agricultural Credit Society	NCS
(iii)	Other Credit Society	OCS

Column 12 : Recreational and cultural facilities

If facilities such as Cinema/Video hall, Sports Club, Stadium/Auditorium is available in the village. The same is recorded in these columns. If not available the particulars of the nearest place with the facility is recorded. The information is indicated in codes mentioned below along with the number of such facilities in brackets:

(i)	Cinema / Video Hall	CV
(ii)	Sports Club	SP
(iii)	Stadium / Auditorium	ST

Column 13 : Communications

If the village is served by any mode of public / private transport like Bus, Railway station or Navigable water ways they are to be mentioned as follows:

(i)	Bus	BS
(ii)	Railway Station	RS
(iii)	Navigable Waterway	NW

Column 14 : Approach to village

Approach to village refers to the state of road leading to village. The approach to the village is indicated in following codes :

(i)	Paved Road	PR
(ii)	Mud road	MR
(iii)	Foot path	FP
(iv)	Navigable River	NR
(v)	Navigable Canal	NC
(vi)	Navigable waterways other than River, Canal	NW

Column 15 : Nearest Town and distance

The distance is given in kilometres in brackets against the name of the town nearest to the village.

Column 16 : Power supply

Availability of Power Supply in the village, whatever may be the form of its use is given by using following codes :

(i)	Electricity for domestic use	ED
(ii)	Electricity for agricultural use	EAG
(iii)	Electricity for other purposes	EO
(iv)	Electricity for all purposes	EA

Column 17 : Newspaper / Magazine

If village receives any News Paper/Magazines the same is noted in this column using following codes:

(i)	Newspaper	N
(ii)	Magazine	M

Column 18 : Most important commodities manufactured

The name of three most important commodities manufactured in the village is recorded against this column.

Column 19 to 23 : Land use i.e. area under different types of land use

Land use data maintained by the State/ UT Govts. are furnished against these columns. The data concerning area under Forest, Irrigated land (by source), Un-irrigated land, Culturable waste and Area not available for cultivation in the village are shown against these columns. The area figures are given in hectare(s) up to one decimal. Dash '-' is recorded wherever the information is not made available by the concerned department. The codes used for different types of irrigation facilities available in the village are indicated below:

(i)	Government Canal	GC
(ii)	Private Canal	PC
(iii)	Well (without electricity)	W
(iv)	Well (with electricity)	WWE
(v)	Tubewell (with electricity)	TW
(vi)	Tubewell(without electricity)	TWE
(vii)	Tank	TK
(viii)	River	R
(ix)	Lake	L
(x)	Waterfall	WF
(xi)	Others	O
(xii)	Total	T

The village directory also carries the following appendices.

Appendix-I	It gives the abstract of educational, medical and other amenities available in villages C D Block wise of the district.
Appendix-I-A	Indicates number of villages C D Block wise having one or more primary schools.

Appendix-I-B	Indicates number of villages C D Block wise having primary, middle and secondary schools.
Appendix-I-C	Shows number of villages C D Block wise with different sources of drinking water facilities.
Appendix-II	Indicates the list of villages with 5,000 and above population which do not have one or more important amenities.
Appendix-II-A	Indicates list of Census Towns which do not have one or more amenities.
Appendix-III	It gives the land utilization data in respect of Census Towns / non-municipal Towns.
Appendix-IV	C D Block wise list of inhabited villages where no amenity other than drinking water facility is available.
Appendix-V	Summary showing number of villages having or not having Scheduled Castes population.
Appendix-VI	Summary showing number of villages having or not having Scheduled Tribes population.
Appendix-VII A	List of villages according to proportion of Scheduled Castes to the total population by ranges.
Appendix-VII B	List of villages according to proportion of Scheduled Tribes to the total population by ranges.
Appendix-VIII	Indicates C D Block wise number of villages under each Gram Panchayat.
Appendix-IX	Shows number of different types of girls school in a village.

STATEMENT

LIST OF VILLAGES MERGED IN TOWNS AND OUTGROWTH AT 2001 CENSUS

Serial. Number	Name of the Village	Location Code number	Merged in Town and Outgrowth
1	2	3	4

Not applicable as there is no village merged in towns and any outgrowths in the district at 2001 Census.
