DEVI TALAB MANDIR

Devi Talab Mandir is located about one km. from the railway station in Jalandhar. The old Devi Talab has been renovated and in its centre, a new temple has been built. Recently a model of Amarnath Yatra has been built in the premises. An old temple of goddess Kali also stands by the side of the Devi Talab. The gilded Mandir is famous for the 'Hariballabh Sangeet Sammelan' held every year in December at its precincts for the past 125 years. Famous classical music exponents - both instrumental and vocal come together and perform at this gathering. In Devi Talab, there is a large masonry 200 year old tank sacred to Hindus.

Urban Primary Census Abstract. 574

Annexure I : Number of villages under each Gram Panchayat 598

Annexure II : Fertility and child Mortality, 1991 Census 598

Annexure III : Measures of fertility and mean age at marriage, fertility level 599

Annexure IV : Percentage distribution of in Migrants by place of birth/place of last residence. 600

Annexure V : Brief account of main religions in the district/tahsil as per 1991 Census 602

Annexure VI : Marital status of population 603

Annexure VII : Distribution of Literate by sex and Educational Level 604

Annexure VIII : Distribution of different mother tongues. 605

Foreword

The District Census Handbook (DCHB) published by Census Organisation since 1951 census , is one of the important publications in the context of planning and development at gross-root level. The publication, which is brought out for each district, contains several demographic and socio-economic characteristics, village-wise and town-wise, of the district alongwith the status of availability of civic amenities, infrastructural facilities, etc.

2. The scope of the DCHB was initially confined to a few Census Tables and Primary Census Abstract (PCA) of each village and town within the district. Thereafter, at successive Censuses, its scope and coverage has been enlarged. The DCHB published at the 1961 Census provided a descriptive account of the district, administrative statistics, census tables and a village and town directory including PCA. The 1971 Census-DCHB series was in three parts: Part-A related to village and town directory, Part-B to village and town PCA and Part-C comprised analytical report, administrative statistics, district census tables and certain analytical tables based on PCA and amenity data in respect of villages. The 1981 Census DCHB was in two parts : Part-A contained village and town directory and Part-B the PCA of village and town including the SCs and STs PCA up to tahsil/town levels. New features alongwith restructuring of the formats of village and town directory were added to it. In Village Directory, all amenities except electricity were brought together and if any amenity was not available in the referent village, the distance in broad ranges from the nearest place having such an amenity, was given. Information on new items such as adult literacy centres, primary health sub-centres and community health workers in the village were provided so as to meet the requirements of some of the Revised Minimum Needs Programme. Information on approach to the village was provided for the first time in the Village Directory so as to give the details on number of inaccessible villages in each district. In the Town Directory, a statement (IV-A) on slums was introduced to provide the details on civic and other amenities in the notified slums of Class I and Class II towns.

3. The 1991 Census DCHB, by and large, followed the pattern of presentation of 1981 Census, except the format of PCA which was restructured. Nine–fold industrial classification of main workers was given against the four-fold industrial classification presented in the 1981 Census. In addition, sex-wise population in 0-6 age group was included in the PCA for the first time with a view to enable the data users to compile more realistic literacy rate as all children below 7 years of age had been treated as illiterate at the time of 1991 Census. One of the important innovations in the 1991 Census was the Community Development Block (CD block) level presentation of village directory and PCA data instead of the traditional tahsil/taluk/PS level presentation. It was expected that the presentation of village directory and PCA data at CD block level will help the planners in formulation of micro level development plans, CD block being the lowest administrative unit.

4. The present series of 2001 Census DCHBs have been made more informative and exhaustive in terms of coverage and content. The Village Directory has been enlarged in scope by including a number of other facilities like banking, recreational and cultural facilities, newspapers and magazines and 'most important commodity' manufactured in village. Income and expenditure of gram panchayat, wherever possible, has been provided. Apart from these, more details on distance(s) at which basic amenities are available (if not available in the village), are given. This includes educational facilities (namely primary and middle schools and college), medical facilities (viz. Allopathic Hospital, Maternity & Child Welfare Centre and Primary Health Centre), drinking water, post & telegraph (post office and phone), communication, bank, credit societies and

recreational facilities. In town directory, the statement on Slums has been modified and its coverage enlarged by including details on all slums instead of 'notified slums'. The information is given in case of all statutory towns irrespective of their class, against only Class I and Class II towns in the 1981 and 1991 Censuses. The basic amenities available in the villages and towns are analysed in depth with the help of a number of cross-classified inset tables and statements. Two other significant additions in the publication are inclusion of 'motif' highlighting significant characteristics of the district and analytical notes as annexures. The analytical notes on (i) fertility and mortality and (ii) various measures of fertility and mean age at marriage are prepared based on 1991 Census. Whereas, in the notes relating to (i) percentage distribution of migrants by place of birth/place of last residence, (ii) main religions, (iii) marital status of population, (iv) age, sex and education, and (v) distribution of spectrum of mother tongue, nature and extent of changes occurred in the district in its basic socio-demographic features during the decade 1991-2001 are analysed. The eight digits permanent location code number (PLCN) in all the villages and towns have been assigned keeping in view the future needs.

5. The village and town level amenity data have been collected, compiled and computerized in prescribed record structure under the supervision of Shri Inder Jit Singh, IAS, Director of Census Operations, Punjab. Thereafter, efforts have been made to ensure comparability of the information with that of 1991 Census data and the information brought out by the respective State Governments in their annual reports and statistical handbooks for various years after 1991. The task of planning, designing and coordination of this publication was carried out by Shri R.G.Mitra, Deputy Registrar General, (C&T) and Dr. I.C.Aggrawal, Senior Research Officer of Social Studies Division. Dr. R.P. Singh, Deputy Registrar General (Map) provided the technical guidance in the preparation of maps. Whereas, Shri Anil Kumar Arora, Deputy Director of Data Processing Division who worked under the overall supervision of Shri Himakar, Addl. Director (EDP), helped in preparation of record structure for computerization of village and town directory data and the programme for the generation of Village Directory and Town Directory statements including analytical inset tables. The draft DCHB manuscripts received from the Census Directorates have been scrutinised in the Social Studies Division under the guidance of Shri S. L. Jain, Deputy Director and Shri R. K. Mehta, Assitant Director. I am thankful to all of them and others who contributed to make this publication possible.

D.K. Sikri
Registrar General &
Census Commissioner, India

New Delhi
Dated 2007

Preface

The publication of District Census Handbook (DCHB) has been a regular feature ever since 1951, the first Census after independence. It aims to provide village/town level statistics for use by the government departments, non-government agencies, academicians and scholars, alike.

At the 1961 Census, a beginning was made to also include village level data on availability of amenities such as educational, medical, postal and communicational, land use pattern etc. in the form of Village Directory. Likewise, for towns, information with regard to their physical, financial, socio-cultural aspects and infrastructure were also added at town level. Keeping in view the great utility of non-census data in the form of Village Directory and Town Directory, the same has remained to be an integral part of the DCHBs ever since 1961. Above all, the analytical part and inclusion of maps presenting data at village level has further enriched the scope and use of this publication. The analytical note describes historical, administrative, physio-graphic and demographic aspect of the district.

The present volume has two parts viz., Part A - Village and Town Directory and Part B - Primary Census Abstract, giving data for each village within the Community Development (CD) Block and each town in the district. The CD block maps included, presenting village level data, have been prepared by using computer assisted technology. In order to ensure greater authenticity of the data, an effort has been made to cross check the same with the information available from other sources. We do hope that the contents and coverage of this publication would be of great use to the user agencies.

The production of the DCHB has always remained to be a joint venture of the Central Government and the State Government. We greatly acknowledge and express our deep gratitude to the Government of Punjab for extending their complete cooperation in providing the requisite data in the form of Village Directory and Town Directory. The District Gazetteers and the Statistical Abstracts brought out by the State Government were of big help to us in the preparation of brief analytical note.

We owe our deepest gratitude to Shri D.K. Sikri, IAS, Additional Secretary, Registrar General and Census Commissioner, India and Shri J.K. Banthia, IAS, former Registrar General and Census Commissioner, India for their directions and support from time to time in accomplishing this arduous task.

In the directorate, at the outset we are beholden to Shri Inder Jit Singh, IAS under whose able guidance and direction as Director Census, Punjab, the census operations in the State were successfully completed.

Our thanks are also due to Shri D.R. Khanna, Ex-Deputy Director for getting the compilation of data and Shri Madhav Shyam, Ex-Deputy Director for drafting this specimen model which has been replicated in other DCHBs.

The great effort and hard work done by Shri Bhagirath Singh, Assistant Director, Sh. Rajender Prasad, S.I.Gr-I, Sh. B.S. Rai, S.I. Gr-I and Sh. C.K. Dutta, S.I.Gr-I are greatly acknowledged. Sh. Azad Kumar, S.I. Gr-III and Sh. H.S. Sudan, S.I.Gr-III deserved special thanks for having completed the publication work.

Last but not the least the publication of DCHB is a collective effort of the staff in the directorate and the services rendered by them (as per list) are acknowledged with thanks.

District Highlights - 2001 Census

1. Jalandhar district ranks 9th in area and 5th in population.
2. Jalandhar-I is the most populous and Shahkot is the least populous tahsil.
3. The average population size of a village in the district (1,104) is lower than that of the State (1,311).
4. Bilga (9,821) is the largest village by population size followed by Jamsher (8426) in the district.
5. 15 villages in the district are large sized with a population of 5,000 or more.
6. The decadal population growth rate in the district (19.0%) is lower than the State 20.1 per cent.
7. Jalandhar district is relatively more urbanized (47.5 %) than the State (33.9 %).
8. The sex ratio in the district (887) is higher than that of the State (876).
9. The child sex ratio in the district (806) is higher than the State sex ratio (798).
10. Jalandhar district has a population of 1,962,700 comprising 1,040,177 males and 922,523 females.
11. Jalandhar district makes 8.1 per cent of the total population of the State.
12. Out of the total population of the district 52.5 per cent is rural while only 47.5 per cent is urban.
13. 30.5 per cent main workers and 4.0 per cent marginal workers are recorded in the district .

ANALYTICAL NOTE

Analytical Note

(i) History and scope of the District Census Handbook

Ever since the beginning of first post independence Census of India i.e. in 1951, the publication of District Census Handbooks (DCHBs) has become a regular feature of the Indian Census. Produced by the Census Organisation of Government of India on behalf of the State Government, the DCHB is a unique publication which gives the census as well as non-census data down to every village in case of rural areas and ward within the town/urban area in the State. It is recognized as one of the most comprehensive sources of information. Infact, this is the only publication which provides primary census abstract based on census, and non-census data on infrastructure and amenities available, such as educational, medical, postal and communicational at the sub-micro level. It is inter- alia used for delimitation of constituencies, formulation of local level and regional plans and serves as a valuable tool for district administration.

Undisputedly, DCHB has remained to be the most comprehensive and valuable product of the census organization ever since its initiation. It has always been the endeavour of the Census of India to enlarge the content and coverage of the data presented at every census. The DCHB series of 1951 Census contained important Census Tables and the Primary Census Abstract. At the 1961 Census, the scope of the DCHB was enlarged by including a descriptive account of the district, administrative statistics, census tables and the village and town directory. In 1971, the DCHBs were planned in three parts; Part-A included the village and town directory, Part-B included village and town wise primary census abstract, while the Part-C was meant to include analysis of census data and a write up covering social, cultural, historical and other important aspects. However, in some states/union territories Part-C remained confined to the district tables only.

During 1981 Census, some new features were added and the formats of village and town directory were restructured, somewhat. These volumes were published for each district in two parts. Part- A included village and town directory, while Part-B included primary census abstract (PCA) of every village and ward in town/urban area. The inclusion of scheduled castes PCA was the additional feature of the 1981 Census. The village directory of 1981 Census included new parameters viz; information on Adult literacy Centres, Primary Health Sub-Centers and Community Health workers in the village (s) to meet the requirement of the Revised Minimum Needs Programme. In addition, information on approach to the village was also provided for the first time in the village directory to help in taking stock of villages requiring road linkages in the district. Likewise, Statement IV-A included in the Town Directory aimed to provide data on slums so as to undertake development activities in such areas.

The manner of presentation of the DCHBs for the 1991 Census was, by and large, same as followed in 1981 Census. However, the format of PCA was slightly restructured in the 1991 Census for the benefit of data users. The village level data were presented Community Development (C.D.) block wise to cater to the needs of grass root level planning as envisaged under the five year plans. Ninefold industrial classification of the main workers was reintroduced by replacing the four-fold industrial categories adopted at the 1981 Census. In addition, the PCA also gave population in the 0-6 age group by sex, essential for working out effective literacy rate, besides providing proportion of child population.

The DCHB 2001, the present volume, is the sixth in series. The pattern followed is, by and large, similar to that of the 1991 Census. Among the new features added, information on the availability of newspapers/magazines, banking facility, agricultural and non- agricultural credit societies, recreational and cultural facilities and income and expenditure of the village

panchayats is mentioned. More important is that, it is for the first time in the history of Indian Census that Permanent Location Code Number (PLCN) has been allotted to every village in the State to meet the demand from different organizations to study the village level data over a time spell. It is believed that the permanent location codes assigned to each village would help in tracing the precise location of a village on account of jurisdictional changes in the boundaries of various administrative areas.

(ii) Brief history of the district

Legendary and mythological – The district of undoubted antiquity, and finds mention in the Puranas and Mahabarata. According to Padma Purana the territory takes its name from the great demon king Jalandhara, the son of the Gangas by Ocean. Jalandhara was a prodigy of nature. When he was grown up, Sukra, the Preceptor of the demons appeared before Ocean and requested him to withdraw from Jambudwipa, the sacred abode of holy persons, and to leave sufficient land unwashed by his waters for Jalandhara. The Ocean acceded to the request and withdrew for about 300-Zojanas. This mythological story embodies a tradition of a time when, as geologists affirm, the sea stretched in a long arm up the Jalandhara Doab to the neighborhood of the Hoshiarpur. Shiwaliks. According to another legend Jalandhar was the capital of the kingdom of Lava, the son of Rama before he founded Lahore. According to still another account based upon Mahabharata, the kingdom of Jalandhara was founded by a Rajput King Susarma Chandra of Multan who had fought in the great battle of Mahabharata on the side of Kauravas and had thereafter retired with his followers to the Jalandhar Doab. This kingdom was also called Trigartta, as it was watered by three river Satluj, Beas and Ravi.

Hindu period – The earliest history of Jalandhar occurs in the reign of Kanishka, the Kushan king of northern India in whose time a council of Buddhist teachers was held near Jalandhar about 100 A.D. to collect and arrange the sacred writings of Buddhism and to bring about reconciliation between its various sects. In the 7th century when the famous Chinese traveller and pilgrim Huen Tsiang visited India in the reign of Harsha Vardhana, the kingdom of Jalandhara or Trigartta was under Raja Utito (whom Cunningham identifies with the Rajput Raja Attar Chandra). It was said to extend 167 miles from east to west and 133 miles from north to south, thus including the hill states of Chamba, Mandi and Suket, and Satadru or Sirhind in the plains. Raja Utito was a tributary of Harsha Vardhana. The Rajput Rajas appear to have continued to rule over the country right up to the 12th century, interrupted sometime or the other by their skirmishes with the rulers of Kashmir. Generally their capital was Jalandhar and Kangra formed an important stronghold.

Muslim period - The Rajput Rajas lost Jalandhar to a Turkish chief, Ibrahim Shah of Ghazni sometime between 1179 to 1188 A.D. The territory was a fief of the Delhi Kingdom in the reign of Muizz-ud-Din Behram Shah (1240-1242). Thence forward the plains portion of the territory remained under the Muslim rule and the hills portion, called Kangra, continued under the rule of the former Rajput Rajas. Alla-ud-Din Khilji sacked the fort of Kangra and desecrated the temple. Then came the sack of Delhi by Timor (1398) as a result of which the ruling house of Tughlak fell. The Sayyads succeeded and remained in power from 1414 to 1450. But the country remained in a disturbed condition and many insurrections appeared, those of Malik Tughan and the Khokhar chief, Jasrat Khan, being conspicuous. The rebellious chiefs aimed at the Governors at Jalandhar and Sirhind who represented the Sultanate at Delhi and whenever the imperial forces marched against them and they found them stronger they would withdraw, but only to reappear with the going a way of the imperial forces. The Sultanate was further weakened by the Mughal attacks from the north-west and finally in 1450, Behlol Lodhi, the Governor of Sirhind seized power at Delhi and became the first Lodhi Sultan. The matters did not improve under the Lodhis. The Afghan nobles who were the mainstay of the empire were disloyal and rebellious and would take every opportunity to grab more and more power from the Sultanate. In the meantime the Mangols or Mughals had been attacking and plundering the north- west part of the

country. Babar had risen to power and was casting a varicious eyes on the empire of Delhi. He got a golden opportunity when the rebellious Afghan Chiefs invited him to attack hoping that, after plundering, he would return leaving them supreme in the territory ruled over by the Delhi Sultan. Babar attacked and defeated Ibrahim Lodhi in the first battle of Panipat in 1526, But he did not oblige the inviting chiefs, particularly the Afghan Governor of Punjab, and instead of going back he settled down at Delhi and became the founder of the Mughal Empire

In 1540 Babar's son, Humayun, was defeated and expelled from India by the Turko-Afghan Chief, Sher Shah Suri, and it was only after the latter's death that he could return India in 1555. Sher Shah Suri's son Sikander Sur was defeated at Sirhind but he retreated to the hills and Humayun had to send his son Akbar along with Bairam Khan in pursuit of him. Akbar took up his residence at Jalandhar but in the meantime Humayun died and it was only after defeating Hemu in the second battle of Panipat in 1556 that Akbar could return to deal with Sikander Sur, whom he ultimately defeated. Then came the fall of Bairam Khan in 1560 from the position of his power over Akbar and he intended to withdraw and proceed to Mecca. But he changed his mind in the way and collected troops and prepared to attack Jalandhar. He was, however, defeated at Gunachaur north-west of Rahon and he finally surrendered to Akbar at the fort of Talwara on the Beas. During Akbar's reign, copper coins were minted at Jalandhar and his capable minister, Todar Mal, made a settlement of land revenue in Jalandhar Doab.

During Jehangir's reign (1605-27) Jalandhar Doab received special attention because of Nur Jehan's attachment with Nurmahal. She had been brought up there and among other things, she got a big Sarai built there in which, it is said, she halted whenever she passed between Delhi and Lahore. Guru Arjan Dev founded Kartarpur in 1588 on the site given by Jehangir to Guru Arjun Dev's father, Guru Ramdas. In Shah Jahan's reign (1627-58). The highway between Delhi and Lahore was laid out and one of the sites where a sarai on the road was constructed, developed as Phillaur. The Sarai at Dakhin, some of thebastes of Jalandhar and Phagwara which was originally called Shah Jehanpur came into existence during those days. During the rest of the 17th century, Jalandhar remained firmly attached to the Delhi empire. With the death of Aurangzeb in 1707, the Mughal Empire began to totter, but Nadar Shah's invasion in 1739 gave it the greatest jolt. Enemies of empire rose from all sides and among them were the Sikhs from the Punjab.

Sikh period. Having mature his plans, Guru Gobind Singh commenced open opposition to the imperial power near about 1695 and for ten years was engaged in war fare with varying degrees of success with the Governors of Lahore and Sirhind in the vicinity of the Jalandhar Doab. Ultimately he was defeated in 1705. His two younger sons were bricked alive and put to death at Sirhind by the Governor of that place, Wazir Khan. Guru Gobind Singh left for Deccan where he was killed by an Afghan fanatic in 1708 on the banks of Godawari, but he had inspire Banda Bairagi to continue the struggle against the Mughal tyranny. Banda Bairagi proceeded to Punjab, defeated Wazir Khan, sacked Sirhind and put to death the slayers of Guru Gobind Singh's sons. He marched through Jalandhar Doab showing no quarter to the religious persecutors. The imperial forces, however, pursued him and ultimately he was defeated, captured and tortured to death in 1716. This silenced the Sikhs for a while but as soon as Nadar Shah appeared on the scene and put Nurmahal to ransom, they took up arms again but were defeated in 1743 by Adina Beg, the Mughal Governor of Jalandhar Doab.

In 1747, Ahmed Shah Abdali invaded Punjab, but was defeated near Sirhind by the Mughal forces under Mir Mannu who had also the support of the Sikhs and Adina Beg. Mir Mannu became Governor of Punjab and ruled from 1748 to 1752, retaining Adina Beg as his deputy in the Jalandhar Doab. Ahmed Shah invaded Punjab for the second time in 1748 and for the third time in 1752. A great damage, however, came from his fourth invasion in 1755. He plundered Nurmahal and slaughtered its inhabitants. He plundered Delhi and retired, leaving his son, prince Taimur, as Governor of Punjab. On his way back, he pillaged and burnt Kartarpur but the Sikhs

took the revenge in 1757 when, under Guru Barbhag Singh, they ransacked Jalandhar and punished the Afghans living in the bastis there. Adina Beg who had in the meantime retired to the hills, invited the Maratthas against the Afghan. The Marhattas came, expelled the Afghans and made Adina Beg Governor of Province in 1758. This infuriated Ahmed Shah and he invaded for the fifth time in 1761 and defeated the Marhattas in the third battle of Panipat. He returned to Kabul leaving Buland Khan as Governor of Lahore and Zain Khan as Governor of Sirhind. The Sikhs had also in the meantime mustered strength and attacked Zain Khan. Ahmed Shah appeared again and defeated the Sikhs in 1762 at Barnala in the battle known as Ghallughara, meaning the great destruction. No sooner had Ahmed Shah returned to Kabul, the Sikhs attacked Zain Khan, defeated and slew him near Sirhind in 1763. This established Sikh supremacy which was not disturbed though Ahmed Shah made another few attempts.

Thus began the era of Sikh confederacies (misls). Brought into existence principally by the religious persecution of the Mughals, the Sikh misls were feudal in character. The leaders of the Confederacies had under them minor chiefs, who in turn had their subordinates, till the common soldiers were reached. The greater chiefs divided their lands among their subordinate chiefs and these again assigned villages to their dependents for their support. These misls were twelve in number (1) the Nikais, (2) the Nishanias, (3) the Kanhaias, (4) the Sukarchakias, (5) the Shahids, (6) the Bhangis, (7) the Phulkians, (8) the Ahluwalias, (9) the Ramgarhias, (10) the Faizullapurias, (11) the Krora Singhias, and (12) the Dalawalas. The Nikais and Nishanias had no connection with the Jalandhar Doab. The Kanhaias for some time held a large tract in the upper part of the Doab. The Sukarchakias, ultimately is the person of Ranjit Singh, became master of the whole Doab, but till then the scene of their history lay mostly outside it. The connection of the Shahid and Bhangi misls with Jalandhar was also not much. Similarly the Phulkians were also not directly concerned with the Doab except that they had created marital relations with some of the Sardars there. The remaining 5 misls had large possessions in the Doab. The possessions of the Ahulwalias mostly lay outside the Jalandhar District. Jassa Singh Ramgarhia had taken service with Adina Beg in 1752, though he deserted him a little later. On his (Adina Beg) death, he took possession of a considerable tract in the north-west of the Doab in which he was helped by the mutual wranglings of the other misls. It was on the death of his son, Jodh Singh, in 1816 that his possessions were taken over by Ranjit Singh as a consequence of family quarrels.

Consequent to the death of Adina Beg, Jalandhar proper passed on to the Faizullapurias under the leadership of Khushal Singh. Khushal Singh's son, Budh Singh built the fort at Jalandhar but he was driven out of his possession to the south of the Sutluj by Diwan Mohkam Chand in 1811whom Ranjit Singh had deputised to take over the whole Doab. The Kalsia branch of the Krora Singhias were in strength near about Talwan in the south –west of Phillaur Tahsil under Baghel Singh. The later got a fort built at Talwan, but on his death, the consequent family quarrels enabled Ranjit Singh to take over his possessions in 1809-10. The Dalawala Confederacy was founded in the extreme south- west of Jalandhar near the confluence of Beas and Sutluj rivers by Tara Singh Gheba. It was the strongest amongst the misls and, among other possessions, had all the three southern Tahsils of the District under its control. Tara Singh extended his dominion far and wide even beyond Sutluj; it included Rahon where he took up his residence. Tara Singh Gheba accompanied Ranjit Singh in the latter's exploits across Sutluj in latter's 1807, but he died in the way and Ranjit Singh lost on time in taking hold of his possessions, despite heroic resistance offered by his wife Ratten Kaur, in which she perished.

British period- Even before Ranjit Singh had succeeded in absorbing the various misls in the domain, the British had appeared on the scene and in 1809 a treaty was concluded between Ranjit Singh and the British whereby the cis-Sutluj Sikh States passed on to the protection of the East India Company and Ranjit Singh agreed to confine his dominion to the north of Sutluj. Though Ranjit Singh broke the power of the great chiefs, he did not proceed to extremes against their feudal subordinates. They were mostly left in possession of a considerable portion of their

estates, in return for a proportionate number of men for the Army and in some cases personal service. The rest of the country was either given on a similar tenure other followers of the Sikh Government or were held by Nazims (Governors)for the ruler.

The Jalandhar Doab had a chain of Nazims during the reign of Ranjit Singh, the first and the most important being his Commander-in-chief, Diwan Mohkam Chand. Ranjit Singh died in1839. Confusion and disorder followed his death. In 1845, the Khalsa Army crossed the Sutluj and thus started the First Sikh War. The Jalandhar Doab was not the scene of any remarkable military event. The Army of Ranjodh Singh Majithia marched through the Doab was joined by the troops of Nihal Singh Ahluwalia of Kapurthala. It crossed the Sutluj at Phillaur on 17th January, 1846 and after a temporary success at Badowal was defeated at Aliwal by the British forces led by Sir Henry Smith. The Sikhs retreated to Phillaur and then dispersed, pursued by Brigadier Wheeler who occupied the fort at Phillaur. The main body of the English Army marched to Sabraon where the Khalsa Army was finally defeated and thus the first Sikh War was ended. The British annexed the Jalandhar Doab and formed it into a commissionership. They built cantonments at Jalandhar, Phillaur, Nakodar and Kartarpur, only one of which at Jalandhar continues to this day, the remaining three having been abandoned a little later. The British authority set about getting the various Sikh forts in the region demolished. This was highly distasteful to some of the Sikh Chiefs and the Second Sikh War broke out in 1848-49 Again the Jalandhar District was not the scene of any military operations. The Khalsa Army was finally defeated at Gujarat and the whole of the remain under the Sikh Darbar of Lahore was annexed by the British. The latter soon established law and order and till the Mutiny nothing of importance occurred in Jalandhar District.

The first War of Independence and after.- During the first war of Independence (Mutiny so called) the District was of importance because one of the main lines of communication between Punjab and Delhi passed through it, and was commanded, where it crossed the Sutluj by the Phillaur fort. All the native troops stationed in Jalandhar mutinied, with the exception of the Artillery. Though the forces of the Raja of Kapurthala kept peace in the town and there was also a small European garrison present, there was not much resistance to the main body of the mutineers setting out for Delhi. At Phillaur, they were joined by the native infantry. At Ludhiana, they found plenty of guns and powder in the fort. They succeeded in reaching Delhi. In the District, however, the situation remained under control thanks to the Kapurthala troops and other levies which the authorities were able to raise with the help of the loyal elements. After the fall of Delhi, the country was disarmed and matters did not take long to settle down.

After the Mutiny, nothing of importance has occurred in the District. In 1858-59, the portion of the Grand Trunk Road between Sutluj and Beas, passing through Phillaur, Phagwara and Jalandhar was realigned and metalled. A decade later, the railway line between Beas, Jalandhar and Phillaur was opened. The Doab was linked with the rest of the Punjab by great railway bridges over the Beas, and the Sutluj as also over the Bein. Except for minor adjustments here and there the boundaries of the District continued to remain the same as they were when it was first constituted. The district shared with the rest of country, the benefits of settled regime and administration. It also took its due share in the various phases of the national struggle which finally brought the county its political emancipation from foreign rule in 1947. More about it will be found in the section dealing with political activities in Chapter IV.

iii) Administrative set-up

The State has experienced a large-scale jurisdictional changes after the 1991 census. The number of districts has increased from 12 to 17 in 2001. The newly created districts include; Nawanshahr, Fatehgarh Sahib, Moga, Muktsar and Mansa. With the exception of Kapurthala district, all other 11 districts in the State have experienced inter-district jurisdictional changes of varying magnitude.

These 17 districts are distributed over four divisions. Jalandhar division includes districts of Gurdaspur, Amritsar, Kapurthala, Jalandhar, Hoshiarpur and Nawanshahr; Patiala division covers districts of Rupnagar, Ludhiana, Patiala, Fatehgarh Sahib and Sangrur. Firozpur division spreads over districts of Firozpur, Moga and Muktsar, while Faridkot division embraces districts of Faridkot, Bathinda and Mansa.

All the districts of 1991 Census except Kapurthala have undergone intra-district jurisdictional changes resulting in increase in the number of tahsils in the state from 46 to 72 in 2001 Census. (In Punjab tahsil and sub division are synonymous to each other). In Jalandhar district, with the addition of two newly created tahsils of Shahkot and Jalandhar-West the number of tahsils has gone upto five during this decade. Likewise, the number of towns in the district has increased from 12 to 14 and 13 of them have statutory status and one is census town.

The statutory towns are notified by the State government under Section 4 of the Punjab Municipal Act, 1911 lays down the specifications of local areas to be smaller urban areas or transitional areas and constitution of Municipal Council and Nagar Panchayat. Under this section, the State government may, having regard to population of area, the density of population therein, the revenue generated for local administration, the percentage of employment in non-agricultural activities, the economic importance or such other factors, as it may deem fit, specify by notification in the official gazette any area to be transitional area or a smaller urban area for the purpose of this Act. Further, under Section 4 (ii) where an area is specified as a transactional area or as a smaller urban area under sub section (i), the state government may, by notification in the official gazette, constituted for the transactional area so specified a Nagar Panchayat and for the smaller urban area so specified a Municipal Council of the Ist Class, IInd Class or IIIrd Class.

The different categories of urban bodies constituted by Punjab government under the provisions of Punjab Municipal Act are as follows:

Sl. No.	Class of Urban Local Bodies	Population	Income
1	Municipal Corporation	3 lac or above	2 Crore or above
2	Municipal Council Class I	50,000 to 3 lac.	50 lac to 2 Crore
3	Municipal Council Class II	10,000 to 50,000	15 lac to 50lac
4	Municipal Council Class III	Up to 10,000	Up to 15 lac
5	Nagar Panchayat	5,000 or above	More than Rs.150 per head

The following statement indicates the jurisdictional changes which took place after the 1991 Census in Jalandhar District.

Jurisdictional Changes during 1991-2001

Name of District/ Tahsil	No. of villages as per		No. of Towns		Changes since 1991 & Govt. Notification No.
	1991	2001	1991	2001	
1	2	3	4	5	6
Jalandhar	1256	950	11	14	i) 2/44/94-RE.II(1)6743 dated 20.07.1995
Nakodar	324	147	2	1	ii) 2/44/94-RE.II(1)6743 dated 20.07.1995
Shahkot	-	178	-	2	iii) 2/44/94-RE-II(II)/6743 dated 20.07.1995
Phillaur	239	237	-	3	iv) 2/44/94-RE-II(I)/6765 dated 20.07.1995
Jalandhar-I	402	144	-	3	v) 2/44/94-RE-II(I)/6769 dated 20.07.1995
Jalandhar-II	-	244	2	3	vi) 2/44/94-RE-II(I)/8011 dated 20.07.1995
					vii) 2/44/94-RE-II(I)/8011 dated 20.07.1995
					viii) 2/44/94-RE-II(I)/9018 dated 20.07.1995

For the administrative purposes, the district is a part of Jalanshar division. The district is the basic unit of administration. For the purposes of general and revenue set up the district is divided into five tahsils viz Shahkot, Nakodar, Phillaur Jalandhar-I and. Jalandhar II. All of them have sub divisional status. The district is divided into 10 development blocks, viz, Jalandhar East, Jalandhar West, Bhogpur, Adampur, Nakodar, Shahkot, Phillaur, Nurmahal, Lohian Khas and Rurka Kalan. The administrative machinery of the district consists of hierarchy of officers and officials headed by the Deputy Commissioner (also the District Magistrate) as head of the administration of the district as well as revenue administration in the district.

(iv) Physical Features

Origin of Name:

The district takes its name from great Daitya King Danava Jalandhara, the son of the Ganga by Ocean, as per Padma Purana. The present area of the district formed part of Trigarta, a territory comprising area watered by Satluj, Beas and Ravi rivers, which mentioned in ancient texts

Location and Size:

Jalandhar is a centrally located district, which falls in the Doaba region of the State. It forms part of Jalandhar division and lies between north latitude 30°-58' and 31°-37' and east longitude 75°-08' and 76°-18'. On the south, it is bounded by the Satluj river which separates it from Jalandhar and Firozpur district. On the north-west, Kapurthala district intervenes between the Jalandhar territory and Beas river, and on the north-east, it shares boundaries with Hoshiarpur district, broken by area of Phagwara tahsil of Kapurthala district, which juts into Jalandhar territory.

Area:

Jalandhar district has an area of 2,624 sq. km., as supplied by the surveyor General of India. Out of this, 2,432.4 sq. km. is rural and remaining area, 191.6 sq. km. is urban shared among 14 urban units in this district. The rural area of the district is derived by subtracting urban areas of the district from the total area of the district are, as supplied by the Surveyor General, India. The tahsil wise area, as supplied by the Director Land Records, Punjab is as follows: (1) Shahkot tahsil 448.3 sq. km.; (2) Nakodar tahsil 441.6 sq. km.; (3) Phillaur tahsil 763.8 sq. km.; (4) Jalandhar-I tahsil 441.7 sq. km. and (5) Jalandhar-II tahsil 566.9 sq. km. The area of the tahsils when totalled up works out to 2662.3 sq. km., which does not tally with the area supplied by the Surveyor General, India. The urban area for the district has been obtained by adding up areas of towns, as supplied by the urban civic bodies. The rural area for tahsil has been obtained by subtracting urban area from the tahsil area, as supplied by the Director Land Records, Punjab. The Community Development Block area has, however, been obtained by adding up village areas of the constituent villages, including census towns and out-growths of urban agglomerations.

Climate:

The climate of this district is on the whole dry except during the brief south-west monsoon season. The year may be divided into four seasons. The winter season is from the middle of November to early part of March. The succeeding period upto the end of June is the summer season, July, August and first half of September constitute the south-west monsoon season. The period from middle September to the middle of November is the post monsoon or transition period.

There is no meteorological observation in the district of Jalandhar. The description given is based on the records of the observatories in the neighboring district where similar climate

conditions prevail. After February, temperatures begin to rise rapidly. June is generally the hottest month. Scorching dust- laden winds blow on many days in the summer season and day temperature may reach 45°C. With the onset of monsoon by about the end of June or early July, the day temperatures drop down appreciably. But the nights continue to be a warm during the summer. Due to the increased moisture in the monsoon air, the weather is often sultry and uncomfortable, in between these rains. After about mid-September when the monsoon withdraws temperatures decrease, the drop in night temperature being rapid. January is generally the coldest month. During the winter season, cold waves affect the district due to the western disturbances and the minimum temperature may drop below the freezing point of water. Adampur is generally reported the coldest place in the district.

The rainfall in the district in general, increases from South-West towards the North-East. About 70 per cent of the rainfall is received during the period July to September, July being the wettest month. Some rain fall is received as thunder showers in June and in association with passing western disturbance in the cold season. The rainfall during December to March accounts for 16 per cent of the rainfall. The remaining 14 per cent rainfall is received in other months of the year. The following table gives monthly rainfall based on average of 5 years 1996-2000 for the district:

Monthly Rainfall: Average of 5 years 1996-2000

Month	Rainfall (mm)	Month	Rainfall (mm)
1	2	3	4
1. January	23.2	7. July	153.4
2. February	27.9	8. August	119.0
3. March	10.3	9. September	78.7
4. April	10.6	10. October	22.8
5. May	20.5	11. November	3.9
6. June	74.2	12. December	15.3
Total			**562.8**

(Source: Statistical Abstract of Punjab, 2001)

Physiographic:

Jalandhar district is situated in the heart of Punjab and forms part of Bist Doab, the interfluvial plain of the Beas and the Satluj rivers. In general, its physiography lacks variety. The entire district comprises of vast plain. However, when examined in detail in terms of local difference in slope, texture, local relief and surficial material, the district is easily divisible into two physiographic units: (1) the upland plain and (2) the Satluj flood plain.

Upland Plain –It covers more than three fourths of the total area of the district. Within the upland plain, the height above sea level ranges between 244 and 259 metres. It is a vast expanse of old alluvium flat and featureless for kilometres together. However, in the western sections of the upland plain covering parts of the Nakodar tahsil, the alluvial monotony is somewhat interrupted by a few low and scattered sand ridges, or sand dunes, such as near Jalalpur, Mala and Rupewali villages.

Satluj Flood Plain: Locally known as the Bet, the Satluj flood plain lies along the southern boundary of the upland plain. The Bet includes the southern fringes of Nawanshahr, Phillaur and Nakodar tahsils. It is a low lying tract (about 8 metres below the level of the adjoining upland plain) and is frequently flooded during the rainy season. The width of the flood varies according to the amount of shift experienced by the river. It is the widest in the Nakodar tahsil where the river bed runs almost parallel to the old bed at a distance of about 13 km. Eastwards in Phillaur tahsil, the Bet shrinks to barely a kilometer and a half. In the Nawanshahr tahsil the

flood plain again widens to about six and a half kilometres. Within the flood plain a distinction may be made between active and flood plain which is annually flooded and cover flood plain. which is inundate only rarely when the discharge in the river is enormous. A well marked scarp which varies in height from about 2 to 12 metres separates the flood plain from the upland plain. The scarp in the Jalandhar district is rot plane surface but is highly dissected by gullies and cravaces. It has experienced lateral recession resulting in increasing distance between scarp and the river bed and the widening of the cover flood plain as against the active flood plain.

In brief, general uniformity no withstanding, the physiography of the Jalandhar district is characterized by a vast upland plain a flood plain, of varying width and a well marked east-west running scarp that separates the upland and the flood plain.

Rivers and Drains:

River Satluj :

It originates from Mansarover Lake in Tibet and flows through Himachal Pradesh, Hoshiarpur and Rupnagar districts of Punjab. The river enters the Jalandhar district from the eastern side at village Malakpur. It runs westwards forming the southern boundary of Nawanshahr, Phillaur and Nakodar tahsils and separates this district from Ludhiana district on its south. The Satluj, like other rivers of Punjab, has been changing its course in the past and its flood plain has clear fraces of its old channel. The drift, as is the case with other rivers of Punjab, has been to the right so that its flood plain is wider in the adjoining Ludhiana district. The width of the river bed varies from place to place.

Sufed Bein :

It is also called East Bein which is the main tributary of the Satluj in the Jalandhar district. It is formed near Garhshankar (Hoshiarpur district) where the Basu Khad flowing down the western slopes of the Shivalik hills, empties itself into what is known as Bein. It also receives water from number of seasonal streams, locally known as chos. More important among these streams is the Jadla Bein which joins the Garhshankar branch near village Bhaura. From Bhaurta the Bein flows in a north –westerly direction for about 23 km. In parts, the valley of the Bein is entrenched and lies roughly 3 metres below the level of the upland plain through which it flows. After flowing 13 km. through Phagwara tahsil of the Kapurthala district, the Bein again enters the Jalandhar district at village Ucha where it changes its direction and adopts a more south-westerly course. At Ucha, the Bein is also joined by Kail, a stream which rises near Pharala in the Nawanshahr tahsil but runs mainly through the Phagwara tahsil with its course running almost parallel to that of the Sufed Bein till the latter changes its direction and is then joined by Kail from south. For about 13 km. the Bein forms the boundary between the Jalandhar, Nakodar and Phillaur tahsils and, continuing a long winding course through the Nakodar tahsil, it enters the Satluj flood plain a few kilometres south –west of Malsian and terminates in the Satluj.

Chos:

Locally called chos, these seasonal streams emanate from the south-western slopes of the Shivaliks. These are most numerous in the Hoshiarpur district but a few enter the Jalandhar district. The most northerly of these chos runs along the boundary of Jalandhar and Dasua tahsil. To its south, a distance of about 6 Km., another cho enters Jalandhar tahsil from the east, flows to the west, and after crossing the district boundary joins the west Bein, a tributary of Beas River. A third cho entering the district near village Dhurial, runs from east to west, and ultimately joins the west Bein (Black Bein). Thus these three streams belong to the Beas river system. Some of the other chos are Nasrala, Tamuli and Meharanwali, all of which drain into the East Bein (White Bein).

Chhambs :

There are number of local depressions or chhambs which formerly affected large areas due to their flooding. Many such areas and depressions have been reclaimed by now. One chhamb lies to the south of Rahon in the Nawanshahr tahsil. A stream called Eastern Neri flowing from the east, falls into this chhamb later the stream again emerges from the western part of the chhamb, where it is called western Neri. Besides the Rahon Chhamb there are smaller Chhambs near Charan, Muzafarpur, Soets, Gropar villages in Nawanshahr tahsil. In the Phillaur tahsil there is an extensive marsh north of Phillaur town and a small one near Ajtani village. There are also small marshes found in the Jalandhar and Nakodar tahsils.

Forestry:

Jalandhar district falls under the jurisdiction of Divisional Forest Officer, Jalandhar. There are no regular Forest in the district except the old reserved forests, locally known as Rakhs, which are as follows: (1) Rakh Serai Amanant Khan, (2) Rakh Bhoru, (3) Rakh Gagarwal and (4) Rakh Othian. In view of the shortage of fuel after partition more area (in 1951 the railway and national highway strips and in 1956 PWD road strips and canal strips) was transferred to the forest department for plantation.

The area under forest in the district is classified according to "Reserved", "Protected" and "Unclassified". The area under forests has undergone slight changes as shown in the following table, during the decade 2000-2001.

Serial No.	Type of Forest	2000-01 (in sq. kms.)
1.	Reserved Forests	1.0
2.	Protected Forests	33.0
3.	Unclassified Forests	12.0
4.	State Forests (Total 1 to3)	46.0
5.	Under S/38 of Indian Forest Act, 1927	-
6.	Total Forest (total 4+5)	46.0

The table reveals that during 2000-01 the area under forests is 46 sq. kms. However, during 2000-01, no area has been reported under the private forests, whereas 46 sq. kms are under State forests.. With the shifting over of management of road sides, canal banks and strips of land along railway lines, to the Forest Department for growing and maintaining tree plantation therein, some improvements have taken place during last few decades in the district.

Natural Economic Resources

Minerals and Mining:

Jalandhar district is poor as regards mineral and mining wealth. A few minor minerals are found are sand and brick earth. Sand used in cement concrete mixture is found at Pandhera, Phillaur, Ganepind, Nangal, Daroli and Ramgarh. Brick earth used for making hard burnt bricks is found in sufficient number of villages in the district. Foundry sand has been reported in Nakodar area.

Land and Land use Pattern:

As per the village paper's record , the Jalandhar district has an area of 266 thousand hectares which is also the same as per Surveyor General of India. During the year 2000-01, the description given hereinafter is only of area according to village papers. Out of an area of 266 thousand

hectares, 4 thousand hectares is under forest. 2 thousand hectares is barren and uncultivable, 20 thousand hectares is put to non-agricultural use, 2 thousand hectares is under culturable waste and permanent pastures and other grazing land. 238 thousand hectares is net sown area and constitutes 89.0 per cent of the total area of the district. Out of this total net sown area, 176 thousand hectares is sown more than once. Thus the total cropped area works out to 414 thousand hectares in the district during 2000-01.

Agriculture :

There are two principal crop seasons Kharif (sawni) and Rabi (hari) in the district. Both the seasons are equally important but area wise Rabi is more important of the two as it reported 168 thousand hectares against 152 thousand hectares reported in Kharif in the year 2000-01. Out of 414 thousand hectares cultivated area, the area under food and non-food crops is 354 thousand hectares and 60 thousand hectares, respectively. In terms of percentages the area under food crops is 85.5 per cent against 14.5 per cent under non-food crops. The major and minor crops during Kharif season are; Paddy, Maize, Groundnut, Sugarcane, Cotton, Pulses, Chillies, etc; whereas Wheat, Gram, Barley, Potatoes, Oilseeds are the major and minor crops of the Rabi season. Among the food crops important ones are; Wheat, Rice and Maize, which account for 319 thousand hectares.

Jalandhar district is not an agricultural district though 52.5 per cent of its population is reported to be residing in the rural areas during 2001 Census whereas only 25.0 per cent main workers were engaged in agricultural sector during 2001 Census (cultivators 14.0%, agricultural labourers 11.0%). Thus it would be seen that agriculture does not provide the single largest source of employment in the district and this decline is noticeable during the last few decades.

During 2000-2001, 136,000 hectares of area was under rice cultivation and 16,000 hectares under Maize in the district. This signifies that rice (paddy) is the most dominant Kharif crop grown in the district. During 2000-2001 the district produced 488 metric tonnes of rice at an average yield of 3,588 kg per hectare and 52 metric tonnes of Maize at an average yield of 3,273 kg. per hectare.

Among the Rabi crops, wheat is the most dominant. During 2000-2001, 167,000 hectares of agricultural land was under wheat cultivation and produced 773 metric tonnes of wheat in the district. The average yield of wheat per hectare in the district was 4,626 kgs.

Rapeseed and mustard, Sun flower and Sesame are the other important crops grown in the district and area under cultivation of these two crops is 2,700 hectares, 1,800 hectares and 1,400 hectares respectively.

Out of the total production of 66 metric tonnes of rapeseed and mustard, 9 metric tonnes of sunflower and 7.6 metric tonnes Sesame in the State, the share of Jalandhar district was 2.8 metric tonnes, 2.4 metric tonnes and 0.5 metric tonnes respectively.

The vegetables are also grown in the district. An area of 174.9 hectare was reported under vegetables during 2000-01. The break up of area is as follows. Potatoes 147.8 hectares, Onions 104.0 hectares, winter vegetables 1,102.0 hectares and summer vegetables 1,508.0 hectares. The demand for vegetables is picking up in the district as the urban centers have grown over the years. The establishment of various colonies etc. under various central and state projects increased the demand for vegetables.

Besides compost (both in urban and rural), cattle dung and green manures, chemical fertilizers are increasingly being used in this district. During 2000-01, 51,000 tonnes of chemical fertilizers mainly nitrogenous, 17,000 tonnes Phosphetic and 5,000 tonnes PhospheticK2o were consumed in the district for growing improved varieties of wheat, paddy sugarcane, cotton, etc. The farmers are, however, becoming conscious of the delirious effects of reckless use of chemical

fertilizers in their farms. The farming scientists are required to provide them with some alternative nutritive soil agents so that crop yields do not suffer.

Irrigation:

The main sources of irrigation in the district are wells (including tube wells and pumping sets) and Canal. Before the advent of canal irrigation, wells provided the main source of irrigation as the water level in the Bist Doab was not deep. The canal irrigation was introduced in the district in 1954 on completion of Bist Doab canal, which takes off from the right bank of river Satluj river at Rupnagar headworks. The canal has total length of 688.8 kms (including distributaries and miners) in the district.

However, during the year 2000-01 the net irrigated area reported was 236,700 hectares, out of which 7,200 hectares from government canals and 229,500 hectares from tubewells and wells. Thus percentage of net area irrigated to net area sown worked out of 99.5 per cent for this district during 2000-01. Also during 2000-01 out of 414,000 hectares gross cropped area, 412,400 hectares was gross irrigated area. During 2000-01 the percentage of gross irrigated area to gross cropped area worked out to 99.6 per cent for Jalandhar.

The figures in the preceding paragraph show that increase in irrigated area has been possible due to the tapping of sub-soil water for irrigation. Even though, there are some diesel operated tube wells yet the majority of the tube wells are electricity operated because the latter are cheaper in operational cost. As on 31st March, 1991, there were 65,277 electricity operated tube wells in the district. The number has increased to 78,095 as on 31st March, 2001, which has mainly resulted in the increase in area irrigated in the district. This has ushered in green revolution in the district.

Horticulture:

The district has an area of 739 hectares under various types of fruits and orchards during 2000-01 in the State. Among the fruits, Guava and Pear has the largest area (186 hectares each), followed by Mangoes (143 hectares) and Peach (66 hectares). Some other important fruits grown in the district are; Kinnow (38 hectares), Ber (21 hectares), Lemon (43 hectares), Grapes (9 hectares) Orange(1 hectare), Litchi (2 hectare), Plum (5 hectare) and Misc (39 hectares) etc. The farmers have persistently demanded the setting up of some factories to process their produce to bring them remunerative returns from fruits, which require very delicate handling before disposal. Day by day the attitude of the farmers is changing and horticulture has become very popular in the district.

Animal Husbandry:

Livestock are the backbone of the peasantry. They not only supply the motive power for various agricultural operations but also provide milk and other by-products and thereby help in augmenting the income of the farmer. Animals, especially cattle, play an important role in the economy of the district. Animal husbandry, therefore, is an integral part of the agriculture in the district. The ever increasing demand for milk and the opening of modern dairies in the district have created quality consciousness among the farmers, who prefer cross-breed cows of exotic breeds like Jersey, Holstein, and Dane etc. The fast development of urban centres like, The Doaba Milk Producers Co-Op. Union, Jalandhar and Metro Milk products Pvt. Ltd Jalandhar provide excellent markets for milk, This has put the animal Husbandry in a state of flux. Modern dairy farms, poultry farms and modest sized piggeries have come up in the district.

The data on livestock in Punjab is available for the year 1997. It reveals that there are 221,200 cows, 460,100 buffaloes, 6,100 horses and ponies, 4,300 donkeys, 900 Mules, 11,200 sheep, 40,800 goats, 100 camels and 7,500 pigs, (total 752,200 animals). Cows and Buffaloes, as

elsewhere, are the two most dominant milch animals in the district. The district can boast of a fairly rich cattle wealth. The decline in the number of cattle is attributable to the mechanization of agriculture and transportation, which make lesser demand of draught cattle. However, due to the ever increasing demand of milk in the urban centers, the demand of milch buffaloes, which are mainly of good breeds (murrah and nili) has also shot up.

The government too is aware of its responsibility for the development of animal husbandry. It maintained 92 veterinary hospitals, 90 veterinary dispensaries, 4 poultry service centers in the district in 2000-01, where treatment of sick animals, the control and prevention of contagious diseases among animals, the castration of useless male stock for the improvement of breeds, the supply of bulls of improved breeds is carried out. The above veterinary hospitals/dispensaries were manned by 73 veterinary officers and 170 veterinary pharmacists under the overall control of an Assistant Director stationed at the district headquarters.

The poultry had recorded 994,000 birds (646,000 Hens and 348,000 Chickens) in 1997. The poultry farming is now being practiced on scientific lines, which is evident from the large number of poultry farms located in the district. This has been made to understand due to acceptability of egg as a vegetarian food.

Cattle fairs and shows are held every month at Nakodar and Jalandhar. Nakodar cattle fair is the most important.

A milk plant with 3 chilling centres with a capacity to process 300,000 liters of milk and milk product was working in the district in the year 2000-01. It has enable the farmers to make handsome income by selling milk to various milk collection centres in the district.

Tenancy:

The Farmers, generally small, cultivate their own land by using bullocks and tractors. This system is known as Khud Kasht (self cultivation). Sometimes the land is leased out to other farmers or persons on Batai (share cropping) which is usually fixed for one half of the gross produce, payable in kind. Contract or Theka is also in vogue and is fast gaining popularity. This is generally paid in cash on yearly basis but may be agreed to in kind depending upon the land contracted and the economic positions of the cultivator. The Batai or Theka may vary depending upon the productivity of the land. Since a large number of people own tractors, they prefer to provide agriculture services to the fellow farmers on cash payment. The Jagirdari system has since been abolished after the introduction of various enactments under the land reforms undertaken after independence and merger of the PEPSU areas in the Punjab State.

Communications:

An efficient network of roads and railways, posts, telegraph, telephone etc. is an essential requirement for development of any area. This also applies to Jalandhar district which is well connected by both roads and railways. Barring its southern parts, which are separated from Ludhiana and Firozpur district by Satluj river, serving as a natural barrier, all part of the district enjoy excellent facilities of communication within and outside the district. Whereas the rail and road bridge at Phillaur provide an excellent (all weather) outlet to Ludhiana district, the rail cum road bridge at Giddarpindi provides (all weather) link between Jalandhar and Firozpur district,

In the beginning of twentieth century, the principal metalled roads in the district were: Jalandhar to Phillaur, Jalandhar to Nakodar, Jalandhar to Kapurthala, Jalandhar – Hoshiarpur, Phagwara to Nawanshahr and Nawanshahr to Garhshankar. The unmetalled roads at that time were; Nurmahal to Phillaur, Jalandhar to Nurmahal, Nakodar to Shahkot to Lohian Khas, Nakodar to Mehatpur, Jalandhar to Bhogpur, to Tanda, Nawanshahr to Rahon, Nawanshahr to Balachaur, Banga to Apra and to Phillaur. In the year 1950-51 there were 774 km of roads (313kms. metalled

and 461 kms. Unmetalled) in the district. As regards facility of roads in the district it is noticed that district has a road length of 180 kms under National Highways and 2,891 kms under State highways. Further, as per the data available from P.W.D. (B&R) department for the year 2000-01, the Punjab state has a road length of 54,836 kms. giving an overall average of 109 kms per 100 sq. kms. of area. This by all means exhibits a fairly well developed system of roads in the State. Jalandhar district has a road length of 166 kms. per 100 sq. kms. of area which, though some what higher than that of the State as a whole, is quite satisfying in itself. Further more, all the villages in the district are connected by road.

The important roads in the district are as follows: besides the National Highway (Sher Shah Suri Marg, connecting Mughal Sarai with Jalandhar) are: (1) Jalandhar - Kapurthala – Amritsar road, (2) Jalandhar – Hoshiarpur, Phagwara, and Nawanshahr to Chandigarh. (3) Jalandhar - Ludhiana road, (4) Jalandhar - Hoshiarpur- Dharamshala road, (5) Jalandhar-Nakodar-Moga road.

There is one ferry bridge on Satluj river on Shahkot – Dharmkot - Moga road and two ferry crossing on Mehatpur- Sidhwan Bet- Jagraon road and Rahon – Machhiwara - Samrala road. Besides there are number of ferry crossing on the Satluj between Jalandhar and Ludhiana districts.

The district is well served by the Public Road Transport System. The district being part of erstwhile Pepsu State, the bus routes are mainly with the Pepsu Road Transport Corporation (PRTC), Kapurthala depots had 82 buses in 2000-2001 and government hired buses from private sector on kilometer basis to fulfill the requirements of public. The other depots of PRTC and Punjab Roadways also operate buses on various routes in the district. There are a number of private operators also, who provide transport services in areas not served by Government transport operators.

Jalandhar district falls under the Firozpur Division of the Northern Railway. It is well connected by rail within the district and outside. There are following broad gauge rail lines:-

(1)Amritsar – Jalandhar – Saharanpur – Luknow - Mugal Sarai rail line- It was opened in 1869-70. It is double tracked broad gauge line which serves the tahsil Phillaur and Jalandhar. The important railway stations falling on this line in the district are: Jalandhar city, Jalandhar Cantt., Mandhali, Kultham Abdula Shah, Baharm and Malupota. In fact it is the main railway link between Jalandhar and rest of India.

(2)Jalandhar City – Jaijon Doaba rail line- It was opened in 1915 and serves the tahsil Phillaur and Jalandhar. It is double tracked broad gauge line which serves the tahsil Phillaur and Jalandhar. The important railway stations falling on this line in the district are: Jalandhar city, Jalandhar Cantt., Kartarpur, Sura Nussi, Goraya and Phillaur.

(3)Jalandhar City – Hoshiarpur rail line-: It was built in 1913 and serves Jalandhar tahsil of the district. The railway stations situated in the district are: Jalandhar Cantt, Bolina Doaba, Khurdpur and Sham Chaurasi.

(4)Jalandhar City- Mukerian- Pathankot – Jammu Tawi rail line: It was opened between 1912-14 and is also a broad gauge line. It serves the northern part of Jalandhar tahsil of the district. The main railway stations located at this line in this district are: Dhogri, Alawalpur, Bias pind, Kotla Bakra, Machrowal, Bhogpur Sirwal, Sanaura and Cholang.

(5)Jalandhar City- Firozpur Cantt rail line: It was opened in 1915 and is also a broad gauge line. It serves the western part of Jalandhar tahsil and western part of Nakodar tahsil of the district. The main railway stations located at this line in this district are: Lohian Khas and Giddarpindi.

(6)Jalandhar City- Nakodar rail line: It was opened between 1914 and serves the southern portion of Jalandhar tahsil of the district. The main railway stations located at this line in this district are: Lyallpur Khalsa College (Halt), Jaamser Khas, Thablke, Shankar and Nakodar.

(7)Lohian Khas- Nakodar – Phillaur - Ludhiana rail Line: It was opened between 1913 and serves the Nakodar and Phillaur tahsils.. The main railway stations located at this line in this district are: Kang Khurd, Sindhar, Mulewal Khera, Maalsian Sahkot, Gahndran, Nakodar, Sidhwan, Nurmahal, Gumtali (Haalt), Bilga, Partabpura and Phillaur.

The district is well served by the Public Road Transport system. The district being part of erstwhile Pepsu State, the bus routes are mainly with the Punjab Roadways and Pepsu Road Transport Corporation (PRTC). Jalandhar main road is a gate way to Jammu & Kashmir and half of Punjab and Himachal Pradesh States. Jalandhar-I depot had 131 buses and Jalandhar-II depot had 129 buses in 2000-2001 and government hired buses from private sector on kilometer basis to provide services to the public. The other depots of PRTC and Punjab Roadways also operate buses on various routes in the district. There are a number of private operators also, who provide transport services in several areas and among them are Ambala -Syndicate bus service, New Fatehgarh –Sirhind Private Ltd. and Libra Bus service etc.

Trade and Commerce:

The district has emerged as a leading district in trade and commerce. As per the data available for the year 2000-01, out of 144 regulated markets in the State, 11 are located in Jalandhar district. On an average, each regulated market is serving 87 villages in the district compared with 88 villages in the State. They are Jalandhar city, Jalandhar Cantt, Nakodar, Phillaur, Shahkot, Nurmahal, Adampur, Goraya, Lohian Khas, Bhogpur and Bilga.

In the year 2000-2001, there were 969,000 tonnes of total arrivals of food grains and non-food grains in the markets. Under the scheme of procurement of food grains at remunerative prices, the various agencies made following procurements in the district during 2000-2001: paddy-State Government 14,000 tonnes; FCI 138,000 tonnes; Markfed 19,000 tonnes; Punsup 32,000 tonnes, PSWC 39,000, PAIC 25,000, Private traders 255,000 tonnes total 522,000 tonnes and wheat-State Government 33,000 tonnes; FCI 133,000 tonnes, Markfed 89,000 tonnes; Punsup 65,000 tonnes; PSWC 90,000 tonnes, PAIC 33,000 tonnes, Private traders 4,000 tonnes total 447,000 tonnes. Thus out of total arrivals of 969,000 tonnes in the markets of the district during 2000-2001, various agencies purchased 522,000 tonnes of paddy and 447,000 tonnes of wheat. Thus it is noticed that paddy arrivals maintain a definite edge over wheat arrivals in the district.

Industry:

Before the setting up of medium scale modernized industries in Jalandhar district it had a good range of artisans engaged in cotton weaving and spinning, silk weaving and spinning, utensil making, woollen blankets and rugs manufacture, ban and rope making, wood work, pottery, tanning, etc. Village Bilge (Phillaur tahsil) was a prominent centre for the manufacture of blankets and rugs. Gabrun was produced at Nurmahal but to a limited extent. Brass and copper utensils were produced at various places in the district such as Dugri (Jalandhar tahsil) Mahal (Phillaur tahsil,) Daroli (Jalandhar tahsil) and Birk (Phillaur tahsil) The main products were: garwa, hukka, gilas, degchi, etc, There were about 200 looms, engaging 700 workers at the close of the nineteenth century, which engaged in the production of silk products like patoli, azarband, rakhri etc. Ropes from san/sankokra were manufactured at Rajpur (Jalandhar tahsil), moonj ropes were manufactured at village Bilga (Phillaur tahsil) and moonj ban at Jalandhar. Kartarpur specialized in the manufacture of furniture for wholesale export to other places. The hukka of Nakodar had some celebrity. The thin pottery known as paper (Kaghzi) pottery was made at Basti Sheikh, Jalandhar,. Besides, there were village industries which were principally confined to cloth, sugar and manufacture of shoes. These suffered heavily from the factory made products in the beginning of twentieth century.

During the post independence period, the industrial talent of the district has opened new vistas and the importance of the district was enhanced considerably. The credit goes to the migrants from Pakistan who provided stimulus for fostering several new industries which might not have developed but for their zeal. Sports goods manufacturing, surgical instruments, rubber goods and many other engineering trades took birth in the wake of the partition of the country in1947. Thus the industrial structure of the district has altered in complexion and expanded a great deal.

The following are some of the present day industries which fall under the category of large/medium scale in the district:-

Sugar Industry- There are two sugar manufacturing units located in district in the cooperative sector : (i) Janta Cooperative Sugar Mill Ltd., Bhogpur which has a crushing capacity of 1,375 tonnes daily and produced 14,100 tonnes of sugar during 1990-91 and (ii) Nakodar Cooperative Sugar Mill Ltd., Nakodar which has a crushing capacity of 1,250 tonnes daily and produced 16,200 tonnes of sugar during 1990-91.

Milk plant:-There is one milk plant located at Jalandhar (The Doaba Milk Produce Cooperative Union, Jalandhar) which has a capacity to process 3 lakh litres of milk daily. There are 3 chilling centres attached to this plant.

Steel casting

Automobile parts

Agriculture implements:-The district ranks next to Batala (Gurdaspur district). Goraya has earned a name in the production of chaff cutters.

Flour mills: - There is one roller flour mill at Jalandhar, besides number of flour mills are located at various places in the district.

Dehydrated vegetables

Cables and conductors

Hydraulic presses

Values and corks

The following are some of the industries which are pursued on small scale:-

Machine tool:-Main products being drilling machines heads, dies, duck, chuks.

Sewing machines

Re-rolling mills:-Main products being rounds, flats, angle iron, etc., manufactured from iron.

Utensil making

Water pipe fitting:-Jalandhar is the main leading centre.

Bolts and nuts

Electric goods

Cycle parts industry

Power looms

Hosiery:- mainly located at Apra and Jalandhar

Surgical goods:- mainly at Jalandhar

Rubber goods:- mainly at Jalandhar

Sports goods :- mainly at Jalandhar

Conduit pipes

Plastic goods

Radio and sound parts

Paints and varnish

Ball bearings

Batteries and plates

Pens and pencils.

Steel and wooden furniture- Wooden furniture is mainly manufactured at Kartarpur for wholesale, whereas steel furniture units are scattered throughout the district.

Leather goods- shoes, gloves, jackets, etc.

Some of the cottage industries located in the district are as follows:-

1. Handlooms
2. Leather tanning
3. Leather goods
4. Ban and rope making
5. Potteries.

During 2000-01 there were 1,695 registered factories in the district, out of which 237 were working with power, these employed 44,298 average number of workers. In 1990-91 there were 1,451 registered factories in the district, out of which 1,423 were working, these employed 36,152 average number of workers In 2000-01 there were 2,304 workers per lakh population, against 1,752 workers per lakh population in 1990-91 in the district. No doubt the district has made a good progress in the field of industries over the years yet in the matter of large and medium scale industrial units, it is being surpassed by districts of Patiala, Rupnagar and Sangrur, where number of large and medium scale industrial units have come up.

The government has made good efforts, for improvement of infrastructure for developing and promoting industries in the district which are described below:-

(1) An Industrial Area was developed at Jalandhar where 389 industrial plots were developed and allotted to enterpreneurs.

(2) An Industrial Estate was set up at Jalandhar where 40 sheds were constructed and allotted to the users.

(3) Two Rural Industrial Estates were set up, one each at Nakodar and Adampur, wherein 12 and 8 sheds, respectively, were built up.

(4) An Industrial Focal Point was set up at Jalandhar for which an area of 105.6 acres was acquired. As on 31st December, 1991 140 plots were developed in this focal point and allotted to the enterpreneurs.

(5) Sports Complex, Jalandhar- An area of 74.0 acre was acquired. As on 31st December 1991, 197 plots were developed, out of which 162 plots were allotted and 35 plots were lying vacant.

(6) Leather Complex, - The development of this complex is being undertaken. Some entreperneurs have already taken possession and started production.

Besides, the government has opened up the following Rural Industrial Development Centres Common Facility Workshops at the following places:-

(1) Rural Industrial Development Centre, Nakodar- for Leather

(2) Rural Industrial Development Centre, Jalandhar –for Hide Flaying and Carcass Utilization.

(3) Rural Industrial Development Centre, Adampur –for Light Engineering.

(4) Common Facility Workshop, Nurmahal –for Light Engineering Trade.

(5) Common Facility Workshop, Malison-for Light Engineering Trade.

(6) Common Facility Workshop, Nakodar- for Light Engineering Trade.

Further, Industrial Development cum-Service Centres were opened by the government at the following places:-

(1) Industrial Development –cum-Service Centre, Jalandhar –for Heat Treatment.

(2) Industrial Development-cum-Service Centre, Kartarpur-Wood Seasoning Plant;

(3) Industrial Development-cum-Service Center, Jalandhar-Development and Testing Centre for Electronic Instruments.

In order to save national wealth from going waste the Industries Department have set up Government Hide Flaying and Carcass Utilization Centre at Jalandhar.

The following quality marking centres have been set up at Jalandhar under the quality marking scheme.

(1) Government Quality Marking Centre for Engineering Goods, Jalandhar-It was established in 1962.

(2) Government Quality Marking Centre for Sports and Leather Goods, Jalandhar –It was established in 1958 and has rendered valuable assistance to the sports and leather goods industry.

The office of Khadi Sewa Sangh is located at Adampur. The Sangh renders help to the weavers and other village artisans in procuring raw material for their various products. The Sangh not only provides employment but renders financial assistance to the workers/artisans.

There is a polytechnic (Mehar Chand Polytechnic) at Jalandhar, which imparts instructions in diploma courses in the technical and engineering subjects.

The following ITIs, etc. are located in the district:-

(1) Industrial Training Institute, Jalandhar,

(2) Government Industrial Training Institute, Jalandhar-for the training of workers in the evening classes.

(3) Government Training Institute, Jalandhar

(4) Rural Artisans Training Centre, Nakodar

(5) Government Wood Working Institute, Jalandhar

The Government of India has also set up a Central Institute of Hand Tool at Jalandhar. Government of India has also opened a Regional Engineering College (Dr. B.R. Ambedkar Regional Engineering College) at Jalandhar, which has started functioning recently. The above technical institutions are training much needed technical manpower for various industrial units located in the district as well as other parts of the State and the country.

The district is bound to make further progress in the field of industries due to the location of Railway Coach Factory, Kapurthala (at Hussainpur), which will be requiring large number of ancillary units to feed this factory. Undoubtedly, Jalandhar has great potential to meet the requirement of this factory, which is bound to inflate over.

Electricity:

Jalandhar city was electrified for the first time in 1926 by the Jalandhar Electric Company. Later it received power from hydro – electric station at Jogindernagar (HP),which give a boost to various industries located in the district. The electrification project remained under the control of Punjab PWD Electricity Branch from 1933 to January 31, 1959, When the Punjab State Electricity Board was formed and took over from the Government Department. Jalandhar district is being fed power from Jalandhar and Hoshiarpur circles. The Jalandhar circle comprises four divisions: (1) East Division, Jalandhar (2) West Division, Jalandhar (3) Cantonment Division, Jalandhar and (2) Nakodar Division, Nakodar. The Hoshiarpur circle covers major portion of Jalandhar tahsil throughout its own network of Division.

In the year 2000-2001 Jalandhar district consumed 1656.6 million units of electricity, the district was second highest in the State, next to Ludhiana, Amritsar, Patiala and Sangrur districts. The break up of electricity consumed during 2000-2001 is as follows: Domestic 508.3 million units, Commercial 139.6 million units, Industrial 506.2 million units, Agricultural 440.3 million units and others 62.1 million units. If we look back we find that in the year 1990-91 Jalandhar district consumed 1214.1 million units of electricity which was 10.2 per cent of States total consumption. The break up of electricity consumed during 1990-91 is as follows: Domestic 232.2 million units, Commercial 58.4 million units, Industrial 320.3 million units, Agricultural 563.2 million units and others 30.0 million units. Thus it would be seen that consumption of electricity has increased from 1214.1 million units in 1990-91 to 1656.6 million units in 2000-2001, the percentage of electricity consumption has declined from 10.2 per cent in 1990-91 to 8.6 per cent in 2000-2001.It would also be noted that Industrial sector was the largest consumer of electricity and the gap between the level of district consumption in Industrial and Agricultural sector has increased over the decade 1991-2001.

The district is a net consumer of electricity as there is no power generating station in the district. However, to meet contingencies some big Industrial houses have installed their own diesel generating sets. Needless to say that demand for electricity outstrips the supply which ought to be increased at the earliest.

Medical and Public Health:

The ayurvedic and unani systems of medicine were popular among the people since times immemorial, the faith curers and quacks also had a field day. But since the advent of the modern system of medicine i.e. allopathic system, the things have improved a lot. The first regular hospital was opened in the district at Jalandhar city in1849, which was followed with chain of hospitals and dispensaries at the tahsil headquarters, towns and big villages gradually. The faith curers and quacks have now taken a back seat. But in the matter of treatment of bones (orthopaedic) the village Siannas still hold a sway over a sizable population, Jalandhar district being a leading district in the matter of emigration to foreign countries, the local people were progressive enough to respond to the modern system of medicine. Homeopathic system is also now gaining popularity in the towns. In the past the government laid emphasis on the opening of allopathic medical institutions only but since after independence the ayurvedic and unani systems are also getting due attention of the government, which would be evident from the number of institutions opened by the government in the district.

As on 1st April, 2001, there were 170 medical institutions (125 rural, 45 urban), out of which 157 belonged to State Government, 5 to local self government and 8 were others. Among these medical institutions there were 7 hospitals, 25 PHCs, and 91 dispensaries, besides there were 36 ayurvedic and unani dispensaries (32 ayurvedic, 4 unani) operating in the district.

There is a military hospital at Jalandhar Cantt which attends to the armed forces personnal/ ex-servicemen and their families only. There are number of private organizations, charitable institutions, which are running medical institutions in the district. These are (1) Gulab Devi TB Hospital, Jalandhar. It was first started at Lahore in 1934 and its foundation stone was laid by Mahatma Gandhi. After partition it was re-established at Jalandhar in January, 1955, (2) Ruby Nelson Memorial Hospital, Jalandhar Cantonment (established in 1933), (3) Rai Bahadur Sewak Ram Maternity Hospital, Jalandhar City etc. There are number of private clinics which have mushroomed at Jalandhar and other places in the district, These provide general and specialized medical treatment to patients from the district and outside.

Education:

The year 1850 marks the beginning of the modern system of education in the Jalandhar district when an Anglo Vedic Middle School was opened at Rahon A. P. Mission School followed by Jalandhar in 1857 and thereafter there was no looking back. In the year 1903-04 the number of pupils swelled to 13,874 in the district. In 1903-04 the district had a training school, 6 Anglo-Vernacular High School, 4 Anglo-Vernacular and 7 Vernacular Middle School and 3 English and 124 Primary Schools for boys and 23 Vernacular Primary Schools for girls. In addition, there were 7 advanced and 262 elementary (private) schools. As a result the district emerged as a leading district in education due to the efforts of the government, various local bodies, religious bodies and social organizations, like Christian Mission, Arya Samaj, Sanatan Dharm Sabha, Sri Guru Singh Sabha, Guru Ravi Dass Sabha, etc.

The district can boast of having the only State College of Sports, which was started at Jalandhar in 1961 with the aim to produce physical directors and coaches for athletes and sportsmen.

The district also has an Ayurvedic College, Dayanand Ayurvedic College, Jalandhar, which was originally established at Lahore (Pakistan) in 1898 and shifted to Amritsar in 1947, on partition of the Indian sub-continent. Later in 1953 it was shifted to Jalandhar. Besides GAMS course, the college also has started one year course for Pharmacists.

There are two Training Colleges, at Jalandhar. These are:

(i) Government Training College for Teachers; Jalandhar (imparts instructions for B. Ed. and M. Ed. Classes),

(ii) Montgomery Guru Nanak College of Education Jalandhar, (imparts for B. Ed. Classes);

Recently an Engineering college, Dr. B.R. Ambedkar, Regional Engineering College, Jalandhar, has started functioning in the district. It imparts instructions for B.E. degree in the subjects of Electrical, Mechanical, Civil, Electronics etc. Besides, there is a Polytechnic named Mehar Chand Polytechnic, Jalandhar, which imparts instructions for diploma in the subjects of civil, electrical, mechanical, automobile and electronics. There is also functioning a Government Polytechnic for Women at Jalandhar. It imparts instructions for diploma courses in commercial practice, library science, stenography and pharmacy. Besides, there are two industrial training institutes i.e: Industrial Training Institute, Jalandhar and Government Industrial Training Institute, Jalandhar for training of workers in evening classes. These impart instructions for certificate courses for various trades.

(v) Census concepts

Building :

A 'Building' is generally a single structure on the ground. Sometimes it is made up of more than one component unit which are used or likely to be used as dwellings (residences) or establishments such as shops, business houses, offices, factories, workshops, worksheds, Schools, places of entertainment, places of worship, godowns, stores etc. It is also possible that buildings which have component units may be used for a combination of purposes such as shop-cum-residence, workshop-cum-residence, office-cum-residence etc.

Usually a structure will have four walls and a roof. But in some areas the very nature of construction of houses is such that there may not be any wall. Such is the case of conical structures where entrance is also provided but they may not have any walls. Therefore, such of the conical structures are also treated as separate buildings.

Permanent houses :

Houses, the walls and roof of which are made of permanent materials. The material of walls can be any one from the following, namely, galvanized iron sheets or other metal sheets, asbestos sheets, burnt bricks, stones or concrete. Roof may be made of from any one of the following materials, namely, tiles, slate, galvanized iron sheets, metal sheets, asbestos sheets, bricks, stones or concrete.

Semi-permanent Houses :

Houses in which either the wall or the roof is made up of permanent material and the other is made up of temporary material.

Temporary Houses :

Houses in which both walls and roof are made of materials, which have to be replaced frequently. Walls may be made from any one of the following temporary materials, namely, grass, thatch, bamboo, plastic, polythene, mud, unburnt bricks or wood. Roof may be made from any one of the following temporary materials, namely, grass, thatch, bamboo, wood, mud, plastic or polythene.

Dwelling Room :

A room is treated as a dwelling room if it has walls with a doorway and a roof and should be wide and long enough for a person to sleep in, i.e. it should have a length of not less than 2 meters and a breadth of at least 1.5 meters and a height of 2 meters. A dwelling room would include living room, bedroom, dining room, drawing room, study room, servant's room and other habitable rooms. Kitchen, bathroom, latrine, store room, passageway and verandah which are not normally usable for living are not considered as dwelling rooms. A room, used for multipurpose such as sleeping, sitting, dining, storing, cooking, etc., is regarded as a dwelling room. In a situation where a census house is used as a shop or office., etc., and the household also stays in it then the room is not considered as a dwelling room. But if a garage or servant quarter is used by a servant and if she/he also lives in it as a separate household then this has been considered as a dwelling room available to the servant's household. Tent or conical shaped hut if used for living by any household is also considered as dwelling room.

A dwelling room, which is shared by more than one household, has not been counted for any of them. If two households have a dwelling room each but in addition also share a common dwelling room, then the common room has not been counted for either of the households.

Census House :

A 'census house' is a building or part of a building used or recognized as a separate unit because of having a separate main entrance from the road or common courtyard or staircase, etc. It may be occupied or vacant. It may be used for residential or non- residential purpose or both.

In certain peculiar situations, the manner in which buildings and census houses were identified for numbering in the field by the enumerators is described hereunder:

Sometimes a series of different buildings are found along a street which are joined with one another by common walls on either side looking like a continuous structure. These different units are practically independent of one another and are likely to have been built at different times and owned by different persons. In such cases, though the whole structure with all the adjoining units apparently appears to be one building, each portion was treated as a separate building and its constituent units as separate census houses.

On the other hand, one may come across cases, particularly in large cities of multi-storeyed ownership flats. In these cases while the structure looks like one building, different persons own the flats. In case of such multi-storeyed structures, having a number of flats owned by different persons, the entire structure was treated as one building and each flat as a separate census house.

If within a large enclosed area, there are separate buildings owned by different persons then each such building is treated as a separate building. There can be a situation where within an enclosed compound there are separate buildings owned by an undertaking or company or even government that are actually in occupation of different persons. For example, Indian Oil Corporation colony where the buildings are owned by the Corporation but these are in occupation of their employees. Each such building was treated as a separate building. But if in any one of these buildings there were flats in occupation of different households, each such flat was reckoned as a separate census house.

Sometimes it becomes difficult to apply the definition of census house strictly in certain cases. For example, in an urban area, if a flat has five rooms, each room having direct entrance from the common staircase or courtyard. By definition, this has to be treated as five census houses. If all these five rooms are occupied by a single household it was not realistic to treat them as five census houses. In such a case, 'singleness' of use of these rooms along with the main house should be considered and the entire flat was treated as one census house. On the other hand, if two independent households occupy these five rooms, the first household living in 3 rooms and the second household occupying 2 rooms, then considering the use, the first three rooms together were treated as one census house and the remaining rooms as another census house. But if each room was occupied by an independent household, then each such room was treated as a separate census house.

In case of hostels, hotels, etc., even if the door of each room in which an inmate lives opens to a common verandah, staircase, courtyard or a common room, as it happens almost invariably, the entire hostel/ hotel building was treated as one census house. but if such hostels/hotels have out-houses or other structures used for different purposes or the same purpose, then each such structure attached to the main hostel/hotel was treated as a separate census house.

In some parts of the country, in rural areas, the pattern of habitation is such that a group of huts, located in a compound, whether enclosed or unenclosed, is occupied by one household.

While the main residence may be located in one hut, other huts may be used for sleeping, as a kitchen, bath room, baithak, etc. Though each of the huts was a separates structure, they form a single housing unit and therefore, have to be treated collectively as one building and one census house. If some of the huts are used by one household and the others by a second household as residence, then the two groups of huts were treated as separate census houses. However, if there were also other huts in the compound used for other purposes and not as part of the household's residence such as, cattle shed, workshed, etc., these were treated as separate census houses.

On the other hand, in urban areas, where more than one structure within an enclosed or open compound (premises) belonging to the same person, e.g., the main house, the servant's quarter, the garage, etc., only one building number was given for this group and each of the constituents a separate census house number.

Only cases where a structure with roof and pillars has come up was treated as a building.

Village :

The basic unit for rural areas is the revenue village, which has definite surveyed boundaries. The revenue village may comprise of one or more hamlets but the entire village is treated as one unit for presentation of data. In unsurveyed areas, like villages within forest areas, each habitation area with locally recognized boundaries is treated as one village.

Rural-Urban Area :

The data in tables on Houses, Household Amenities and Assets are presented separately for rural and urban areas. The unit of classification in this regard is 'town' for urban areas and 'village' for rural areas. In the Census of India 2001, the definition of urban area adopted is as follows :

a) All places with a municipality, corporation, cantonment board or notified town area committee, etc.

b) A place satisfying the following three criteria simultaneously:

   i) a minimum population of 5,000;

   ii) at least 75 per cent of male working population engaged in non-agricultural pursuits; and

   iii) a density of population of at least 400 per sq. km.(1,000 per sq. mile).

For identification of places which would qualify to be classified as 'urban' all villages, which, as per the 1991 Census had a population of 4,000 and above, a population density of 400 persons per sq. km. and having at least 75 per cent of male working population engaged in non-agricultural activities were considered. To work out the proportion of male working population referred to above against b) (ii), the data relating to main workers were taken into account.

Apart from these, the outgrowths (OGs) of cities and towns have also been treated as urban under 'Urban Agglomerations'. Examples of out-growths are railway colonies, university campuses, port areas, military camps, etc., that may have come up near a statutory town or city but within the revenue limits of a village or villages contiguous to the town or city. Each such individual area by itself may not satisfy the demographic criteria laid down at (b) above to qualify it to be treated as an independent urban unit but may deserve to be clubbed with the towns as a continuous urban spread. Thus, the town level data, wherever presented, also includes the data for outgrowths of such towns.

City :

Towns with population of 100,000 and above are called cities.

Urban Agglomeration :

An Urban Agglomeration is a continuous urban spread constituting a town and its adjoining urban outgrowths (OGs) or two or more physically contiguous towns together and any adjoining urban outgrowths of such towns. In some cases, railway colonies, university campuses, port areas, etc., may come up near a city or statutory town outside its statutory limits but within the revenue limits of a village or villages contiguous to the town or city. Each such individual area by itself may not satisfy the minimum population limit to qualify it to be treated as an independent urban unit but may deserve to be clubbed with the town as a continuous urban spread.

For the purpose of delineation of Urban Agglomerations during Census of India 2001, following criteria are taken as pre-requisites:

(a) The core town or at least one of the constituent towns of an urban agglomeration should necessarily be a statutory town; and

(b) The total population of all the constituents (i.e., towns and outgrowths) of an Urban Agglomeration should not be less than 20,000 (as per the 1991 Census).

With these two basic criteria having been met, the following are the possible different situations in which Urban Agglomerations would be constituted:

i) a city or town with one or more contiguous outgrowths;

ii) two or more adjoining towns with their outgrowths; and

iii) a city and one or more adjoining towns with their outgrowths all of which form a continuous spread.

Household :

A 'household' is usually a group of persons who normally live together and take their meals from a common kitchen unless the exigencies of work prevent any of them from doing so. Persons in a household may be related or unrelated or a mix of both. However, if a group of unrelated persons live in a census house but do not take their meals from the common kitchen, then they are not constituent of a common household. Each such person was to be treated as a separate household. The important link in finding out whether it was a household or not was a common kitchen. There may be one member household, two member households or multi-member households.

Institutional Household :

A group of unrelated persons who live in an institution and take their meals from a common kitchen is called an Institutional Household. Examples of Institutional Households are boarding houses, messes, hostels, hotels, rescue homes, jails, ashrams, orphanages, etc. To make the definition more clearly perceptible to the enumerators at the Census 2001, it was specifically mentioned that this category or households would cover only those households where a group of unrelated persons live in an institution and share a common kitchen.

Houseless Household :

Households who do not live in buildings or census houses but live in the open on roadside, pavements, in hume pipes, under flyovers and staircases, or in the open in places of worship, mandaps, railway platforms, etc., are treated as Houseless Households.

List of Scheduled Castes and Scheduled Tribes:

The Government of India by Gazette Notification under Article 341(1) of Indian Constitution has declared some castes, races or tribes or parts of or groups within castes, races or tribes as Scheduled Castes as there is no standard definition of Scheduled Castes. Similarly, Scheduled Tribes mean all such tribes or tribal communities or parts of or groups within such tribes or tribal communities as are declared by the President of India to be treated as Scheduled Tribes under Article 342(1) of the Indian Constitution. There is slight change in the definition of Scheduled Castes in 1991. Before that, Scheduled Castes could belong to Hindu or Sikh religion. But from 1990, in addition to Hindu and Sikh religions, Scheduled Castes may belong to Buddhists religion also. The list of Scheduled Castes and Scheduled Tribes are notified for each State and Union Territory and are valid only within the jurisdiction of that State or Union Territory and not outside. In Punjab State, 37 castes were notified by the State Government as Scheduled Castes at the 1991 Census and there is no change at the 2001 Census. Following 37 castes have been notified as scheduled castes in Punjab;

1. Ad Dharmi
2. Balmiki, Chura, Bhangi
3. Bangali
4. Barar, Burar or Berar
5. Batwal
6. Bauria, Bawaria
7. Bazigar
8. Bhanjra
9. Chamar, Jatia Chamar, Rehgar Raigar, Ramdasi or Ravidasi
10. Chanal
11. Dagi
12. Darain
13. Deha, Dhaya, Dhea
14. Dhanak
15. Dhogri, Dhangri, Siggi
16. Dumna, Mahasha, Doom
17. Gagra
18. Gandhilla, Gandil, Gondola
19. Kabirpanthi, Julaha
20. Khatik
21. Kori, Koli
22. Marija, Marecha
23. Mazhabi
24. Megh
25. Nat
26. Od
27. Pasi
28. Perna
29. Pherera
30. Sanhai
31. Sanhal
32. Sansi, Bhedkut Manesh
33. Sansoi
34. Sapela
35. Sarera
36. Sikligar
37. Sirkiband

Scheduled Tribes : No tribes are notified in Punjab.

Language and Mother Tongue :

As per the census concept, each language is a group of mother tongues. The census questionnaire collects information on the mother tongue of each person and mother tongue is defined as the language spoken in childhood by the person's mother to the person. If the mother died in infancy, the language mainly spoken in the person's home in childhood will be the mother tongue. In the case of infants and deaf mutes, the language usually spoken by the mother is considered as mother tongue. It is not necessary that the language spoken as mother tongue should have a script. The mother tongues returned by the respondents in census are classified and grouped under appropriate languages according to their linguistic characteristics.

Literate :

A person aged 7 years and above who can both read and write with understanding in any language is taken as literate. A person who can only read but cannot write is not literate. It is not

necessary that to be considered as literate, a person should have received any formal education or passed any minimum educational standard. Literacy could also have been achieved through adult literacy classes or through any non-formal educational system. People who are blind and can read in Braille are treated as literates.

Literacy Rate :

Literacy rate of the population is defined as the percentage of literates in the age-group seven years and above. For different age-groups the percentage of literates in that age-group gives the literacy rate.

Educational Level :

The highest level of education a person has completed.

Work :

Work is defined as participation in any economically productive activity with or without compensation, wages or profit. Such participation may be physical and / or mental in nature. Work involves not only actual work but also includes effective supervision and direction of work. It even includes part time help or unpaid work on farm, family enterprise or in any other economic activity. All persons engaged in 'work' as defined above are workers. Persons who are engaged in cultivation or milk production even solely for domestic consumption are also treated as workers.

Reference period for determining a person as worker and non-worker is one year preceding the date of enumeration.

Main worker :

A person who has worked for major part of the reference period (i.e. six months or more during the last one year preceding the date of enumeration) in any economically productive activity is termed as 'Main worker'.

(vi) Non-Census Concepts

Improved drinking water :

If the household had access to drinking water supplied from a tap, hand pump, tube well or well (protected or covered) situated within or outside the premises, it is considered as having access to improved drinking water.

It may be mentioned that such uniform definition may not be valid across all States.

System of sewerage :

Generally, a sewerage system would mean a network of mains and branches of underground conduits for the conveyance of sewerage to the point of disposal. Sewers that carry only household and industrial wastage are called separate sewers; those that carry storm water from roofs, streets and other surfaces are known as storm water drains, while those carrying both sewage and storm water are called combined sewers. However, in some towns, which are not provided with such underground sewerage system, it is served by open surface drain, box drain, sylk pattern drain, etc., in these towns.

Type of latrine and Method of disposal of night soil.

There are three prevalent systems of disposal of human wastes, viz.

(i) underground sewerage,
(ii) sanitary water flush latrines with individual disposal systems, like septic tank, leaching cess pool and collecting well, and
(iii) dry type of latrines with manual scavenging.

The system of underground sewerage provides for the street sewerage with which are connected the sanitary latrines constructed in the houses having water closets and fitted with flushing cistern (or hand flushing). Through this sewer the fecal matter is transported without the need for scavenging. This system generally exists in cities and big towns.

Where the street sewer does not exist, these sanitary water flush latrines are connected to a local septic tank with a sub-soil dispersion system or a leaching pit. Here the liquid wastes from the water closet is disposed of locally in leaching pit, a septic tank with a soil dispersion system is constructed. This dispersion requires an optimum travel through the pores of the soil, which renders the harmful liquid bacterially innocuous by the slow process of filtration through the soil traversed.

Where the soil is impermeable, collecting wells are constructed and the sanitary water flush latrines are connected with them. These wells are cleaned at periodic intervals by a suitable device. The dry type of latrines are of service type latrines from where human excreta is removed by scavengers from house to house, in most cases carrying it on their heads or shoulders or in baskets with handle or wheel barrows. These are then collected in bullock carts or trucks or tractors and trolleys for being carried to the dumping grounds.

Fertility :

In demography, the word fertility is used in relation to the actual production of children or occurrence of births specially live births. Fertility is a measure of rate at which population adds to itself by births and normally assessed by relating the number of births to a full or part of the population, such as number of married women or number of women of child-bearing age. The definitions of the terminology used in computing different fertility rates are mentioned below:

Crude birth rate (CBR) :

Ratio of the number of live births in a year to the mid year population, normally expressed per 1,000 population.

$$\text{CBR} = \frac{\text{Number of live births during the year}}{\text{Mid-year Population}} \times 1{,}000$$

Crude death rate (CDR) :

Ratio of the number of deaths in a year to the mid year population, normally expressed per 1,000 population.

$$\text{CDR} = \frac{\text{Number of deaths during the year}}{\text{Mid-year Population}} \times 1{,}000$$

Natural growth rate :

Growth rate is obtained as the difference between crude birth rate and crude death rate in the absence of migration.

Age specific fertility rate (ASFR) :

Number of live births in a year to female population in any specified age-group normally expressed per 1,000 women.

$$\text{ASFR} = \frac{\text{Number of live births in a particular age-group}}{\text{Mid-year female population of the same age-group}} \times 1{,}000$$

Age specific marital fertility rate (ASMFR) :

Number of live births in a year to married female population in any specified age-group normally expressed per 1,000 married women.

$$\text{ASMFR} = \frac{\text{Number of live births in a particular age-group}}{\text{Mid-year married female population of the same age-group}} \times 1{,}000$$

General fertility rate (GFR) :

Number of live births per 1,000 women in the reproductive age-group (15-49) years in a given year.

$$\text{GFR} = \frac{\text{Number of live births in a year}}{\text{Mid-year female population in the age-group (15-49) years}} \times 1{,}000$$

General marital fertility rate (GMFR) :

Number of live births per 1,000 married women in reproductive age-group (15-49) years in a given year.

$$\text{GMFR} = \frac{\text{Number of live births in a year}}{\text{Mid-year married female population in the age-group (15-49) years}} \times 1{,}000$$

Total fertility rate (TFR) :

It is obtained as the total of the age specific fertility rates (number of children born per woman of the particular age) for the entire reproductive age span. It provides the average number of children that will be born to a woman under the fertility levels indicated by the age specific fertility rates assuming that there is no mortality of women till the completion of reproductive period.

$$\text{TFR} = \frac{5 \times \sum_{15\text{-}19}^{45\text{-}49} \text{ASFR}}{1{,}000}$$

Total marital fertility rate (TMFR) :

Average number of children that would be born to a married woman if she experiences the current fertility pattern throughout her reproductive span (15-49) years assuming that there is no mortality of women till the completion of reproductive period.

$$TMFR = \frac{5 \times \sum_{15-19}^{45-49} ASMFR}{1{,}000}$$

Age-specific mortality rate (ASMR) :

Number of deaths in a particular age and sex group per 1000 population of the same age-group.

$$ASMR = \frac{\text{Number of deaths in a particular age-group}}{\text{Mid-year population of the same age-group}} \times 1{,}000$$

q1 :

Probability of dying between birth and age 1. This can be used as approximate value of Infant Mortality Rate (IMR) which gives the ratio of number of deaths in a year of children aged less than one year to the number of births in that year.

q2 :

Probability of dying between birth and age 2.

q5 :

Probability of dying between birth and age 5. This indicator is also known as Under Five Mortality Rate (U5MR).

Infant mortality rate (IMR) :

Ratio of the number of infant deaths (deaths of children below one year) in a year to the number of live births in that year.

$$IMR = \frac{\text{Number of infant deaths during the year}}{\text{Number of live births during the year}} \times 1{,}000$$

Infant mortality rate comprises of two parts, viz., Neo-natal mortality rate and Post neo-natal mortality rate. The neo-natal mortality rate also comprises of two parts viz., Early neo-natal mortality rate and late neo-natal mortality rate. These are defined as:

Neo-natal mortality rate (NMR) :

Number of infants dying within the first month of life (28 days or under) in a year per 1,000 live births of the same year.

$$NMR = \frac{\text{Number of infant deaths aged 28 days or under during the year}}{\text{Number of live births during the year}} \times 1,000$$

i) Early neo- natal mortality rate :

$$= \frac{\text{Number of infant deaths of less than 7 days During the year}}{\text{Number of live births during the year}} \times 1,000$$

ii) Late neo-natal mortality rate :

$$= \frac{\text{Number of infant deaths of 7 days to less than 29 days during the year}}{\text{Number of live births during the year}} \times 1,000$$

Post neo-natal mortality rate (PNMR) :

$$= \frac{\text{Number of deaths of 29 days to less than One year during the year}}{\text{Number of live births during the year}} \times 1,000$$

Peri-natal mortality rate (PMR) :

Number of still births plus deaths within 1st week of delivery per 1000 births in a year.

$$PMR = \frac{\text{Number of still births and infant deaths of less than 7 days during the year}}{\text{Number of live births and still births during the year}} \times 1,000$$

Still birth rate (SBR) :

$$SBR = \frac{\text{Number of still births during the year}}{\text{Number of live births and still births during the year}} \times 1,000$$

Maternal mortality rate (MMR) :

Number of deaths of women in the age-group 15-49 while pregnant or within 42 days of termination of pregnancy from any cause related to pregnancy and child birth per 100,000 live births in a given year.

$$MMR = \frac{\text{Number of maternal deaths to women in the age group 15-49}}{\text{Number of live birth}} \times 100{,}000$$

Eligible couple (Couples per 1,000 population):

Number of currently married females in the age-group 15-44 years per 1000 persons of all ages.

Child woman ratio (0-4) :

1. Number of children in the age-group 0-4 years per 1000 women in the age-group 15-49 years.

Child woman ratio (5-9) :

2. Number of children in the age-group 5-9 years per 1000 women in the age-group 15-49 years.

Migration

1) Migration
2) Internal and International Migration
3) Rural - Urban component of migration

Civic status of urban units :

Civic Status of a town/city is determined on the basis of Civic Administrative authority of the town e.g., Municipal Corporation/Corporation, Municipal Committee/Municipal Council, Municipality etc.

Size class of UA/town :

Size-class of UA/Town is based on the population size of the UA/City/Town. UAs/Towns with 100,000 and above population are classified as Class I UAs/Towns. These Class I UAs./Towns are now further sub classified into seven sub classes namely M1 to M7 depending on the population size of UA/City/Town. These are :

M7 (5,000,000 and above)
M6 (2,000,000 to 4,999,999)
M5 (1,000,000-1,999,999)
M4 (500,000-999,999)
M3 (300,000-499,999)
M2 (200,000-299,999) and
M1 (100,000-199,999)

Towns with 50,000 to 99,999 population are classified as Class II towns, 20,000 to 49,999 population are Class III towns, population with 10,000-19,999 are Class IV towns, population with 5,000 and 9,999 are Class V towns and towns with less than 5,000 population are Class VI towns.

Slum area :

The Slum Areas (Improvement and Clearance) Act, 1956, which was enacted by the Central Government defined slums as a) Areas where buildings are in any respect unfit for human habitation; or b) are by reasons of dilapidation, overcrowding, fault arrangement and design of such buildings, narrowness or faulty arrangement of streets, lack of ventilation, light or sanitation facilities, or any combination of these factors, are detrimental to safety, health or morals.

Mega city :

The concept of 'Mega city' is a recent phenomenon in the Urban Sociology and is defined in terms of metropolitan city in the form of large size, problem of management of civic amenities and capacity to absorb the relatively high growth of population. Indian Census in 1991 treated the population size of 5 million and above as the cut off point to identify a place as the mega city. Whereas, for the purpose of inclusion in Centrally Sponsored Scheme for Infrastructure Development in Mega cities the Ministry of Urban Affairs and Employment, Department of Urban Development adopted the criteria of 4 million and above population as per 1991 Census for Mega Cities. In 2001 Census, cities with 10 millions and above population have been treated as Mega cities.

(vii) 2001- Census Findings - Population and its distribution:

The following table shows distribution of rural and urban population by tahsils in the district:

POPULATION, NUMBER OF VILLAGES AND TOWNS, 2001

Name of Tahsil	Population									Number of Villages		No. of Towns
	Total			Rural			Urban					
	P	M	F	P	M	F	P	M	F	Total	Inhabited	
1	2	3	4	5	6	7	8	9	10	11	12	13
Shahkot	158,683	82,862	75,821	137,528	71,702	65,826	21,155	11,160	9,995	178	177	2
Nakodar	196,237	102,358	93,879	164,829	85,848	78,981	31,408	16,510	14,898	147	146	1
Phillaur	367,307	192,052	175,255	309,510	161,393	148,117	57,797	30,659	27,138	237	229	4
Jalandhar - I	965,162	517,576	447,586	184,061	96,359	87,702	781,101	421,217	359,884	144	140	5
Jalandhar -II	275,311	145,329	129,982	234,789	123,719	111,070	40,522	21,610	18,912	244	242	2
Jalandhar	**1,962,700**	**1,040,177**	**922,523**	**1,030,717**	**539,021**	**491,696**	**931,983**	**501,156**	**430,827**	**950**	**934**	**14**

According to 2001 Census, Jalandhar district has a population of 1962,700 comprising of 1040,177 males and 922,523 females. This makes 8.1 per cent of State's population and 5.2 per cent of area.

Among the tahsils, Jalandhar-1 with a population of 965,162 is the most populated and Shahkot 158,683 the least populous tahsil in the district. In other words, tahsil with the highest population is more than six times bigger than the least populated tahsil. The population of other tahsils is; Phillaur (367,307), Jalandhar-II (275,311) and Nakodar (196,237). On an average, a tahsil has 392,540 population in the district compared with 338,319 in the State as a whole.

Distribution of Population in Rural and Urban Areas :

Out of the total population in the district (52.5 %) is residing in rural and 47.5 per cent in urban; the corresponding percentages of rural and urban population in the State are 66.1 and 33.9

per cent respectively. The rural population is spread over 934 inhabited villages and urban population in 14 towns in the district

Out of 950 villages of the district, 934 are inhabited. A tahsil on an average has a population of 1,104 as against 1,311 in the State signifying that the villages in Jalandhar district are smaller in size. Towns on the other hand are comparatively larger in size in the district.

A town on an average has 66,570 population compared with 52,627 of the State as such. Among the towns Jalandhar (714,077) is the highly populated while Sansarpur (4,060) the least populous town in the district. Apart from Jalandhar, no other town crosses 100,000 mark.

Size Class & Status of a Town:

The methodology of urbanization can be better understood in terms of distribution of urban population among towns of different size classes. It has been the tradition for the Census organization to classify towns according to their population size. A town with a population of 100,000 or more is termed as 'city' in Indian census.

Class	Population size	No. of Towns
1	2	3
Class – I	100,000 and above (Generally referred to as city)	1
Class – II	50,000 to 99,999	-
Class – III	20,000 to 49,999	4
Class – IV	10,000 to 19,999	5
Class – V	5,000 to 9,999	3
Class – VI	Less than 5,000	1

The number of towns has increased from 9 to 14 in 2001 in this district, comprising 13 statutory towns and 1 census town.

Out of 14 towns in the district, one is Class I town (city), there is no town under class II, four fall in the population size class III, five towns in size class IV, three towns in size class V and the remaining one is Class VI town. As regards distribution of population by size class of towns, it is observed that more than two-third (76.6 %) of the urban population is residing in Class I town in the district and (12.8 %) in Class III towns. These two Class I and Class III towns which together accommodate (89.4 %) urban population in the district. The share of Class IV and V towns are 7.6 per cent and 2.5 per cent respectively while class VI town accommodate only 0.5 per cent of the urban population in the district.

Population Growth, Density and Sex Ratio

Population Growth :

During 1991-2001, population of Jalandhar has increased from 1,649,909 to 1,962,700 in 2001 resulting in a net addition of 312,791 persons during this decade. In percentage terms the district has recorded a decadal growth rate of 19.0 per cent which is lower than that of State average (20.1%). Among the districts, it ranks 5th in population size.

Density :

Density of population refers to number of persons per unit of area in the State. There are 484 persons per sq. Km. as per 2001 census as against 403 persons per sq. Kms. as per 1991 showing increase of 81 points during this decade. Among the districts, Ludhiana (848) is the most densely

populated while the density of population is only 300 in Muktsar district. Jalandhar (748), Amritsar (609), Rupnagar (528) and Patiala (505) are the other districts having density of population higher than that of State.

Jalandhar with a population of 1,962,700 and an area of 2,624.0 sq. kms has a density of 748 persons per sq. km, which is significantly higher than that of the State (484) and ranks 5th among the districts in the State. It also excels the State in rural density (424).

Sex Ratio:

Sex ratio is derived as the number of females per 1,000 males. Generally speaking differentials in mortality conditions of males and females, male-female ratio at birth and sex selective migration are the key factors which determine the sex composition. It reflects the socio-economic and demographic characteristics of the population and unfolds the status of women in the society and care of the girl child in particular.

A significant feature of Punjab's population is the preponderance of males over females. According to Census 2001, out of the total population of 24,358,999 in the State, 12,985,045 are males and 11,373,954 are females resulting in an overall sex ratio of 876 which is significantly lower than the country as a whole (933). All the districts in the State barring Hoshiarpur (935) and Nawanshahr (914) have a sex ratio of less than 900.

There has been a phenomenal decline in the child sex ratio in Punjab during 2001, from 875 in 1991 to 798 in 2001 exhibiting a decrease of 77 points in child sex ratio. All the districts in the State have reported substantial decrease which varies between 47 points in Muktsar and 108 points in Fatehgarh Sahib districts. The Child sex ratio is reported to be the highest in Firozpur district (822) and the lowest in Fatehgarh Sahib (766). This exhibits that the child sex ratio is quite poor in all the districts in the State. There are 8 districts which exhibit a child sex ratio of over 800. Besides Firozpur, they include Moga (818), Ludhiana (817), Hoshiarpur and Faridkot (812 each), Muktsar (811), Nawanshahr (808) and Jalandhar (806).

The sex ratio in the State and its constituent districts has remained low throughout. At the beginning of the 20th century, the sex ratio was 832 in 1901 which declined to 780 in 1911. Ever since, the sex ratio in the State showed gradual improvement till 1991 when it reached 882. However, it has again declined to 876 in 2001, exhibiting a fall of 6 points in the State.

Ever since 1911 the sex ratio in Jalandhar district has gradually improved from 783 to 887 in 2001. It was only in 1911 when sex ratio declined to 783 from 848 in 1901. Within the districts it is the highest in Hoshiarpur (935) and the lowest in Ludhiana (824). Jalandhar with a sex ratio of 887 ranks 7th among the districts but higher than the State (876).

Among the tahsils in the district the sex ratio is the highest in Nakodar (917) and the lowest in Jalandhar –I (865). The rural sex ratio varies between Nakodar (920) and Jalandhar -II (898) tahsil and the urban sex ratio fluctuates between 902 in Nakodar and 854 in Jalandhar –I tahsil

The sex ratio of child population in age group 0-6 in the State and its constituent districts is quite low. Punjab has a child sex ratio of 798 and it is almost identical in its rural (799) and urban (796) areas. In Jalandhar, the child sex ratio (806) is even higher than that of the State and it ranks 8th among the districts. Within the tahsils the child sex ratio is the maximum in Phillaur (827) and the minimum in Jalandhar-II (787).

Likewise, rural child sex ratio varies between 831 in Phillaur and the minimum 789 in Jalandhar-II while the variation in urban child sex ratio is to the extent of 818 in Nakodar and 774 in Shahkot.

Literacy:

Any person who is able to read and write with understanding in any language is recorded as literate. Since 1991 all the children below 7 years of age are being treated as illiterates, even though, some children in this age group may be attending school and may have picked up some words.

69.7 per cent of the State's population is literate which is higher than that of the country (64.8%) as such. Among the States and Union Territories Punjab occupies 16th place in term of literacy.

78.0 per cent of the district's population is literate which is much better than the State. In other words, more than three-forth of its population in the district is literate. It ranks 3rd among the districts in the State superseded by district Hoshiarpur (81.0%) and Rupnagar 78.1 per cent. Among the tahsils in the district, Jalandhar -I (82.3%) ranks at the top while Shahkot (68.2%) is placed at the bottom. However, except Shahkot tahsil all other tahsils in the district have literacy rate higher than the overall literacy rate in the State.

Between the two sexes, the literacy rate in the district varies between 82.5 per cent among males and 73.1 per cent among females, exhibiting a gap of 9.4 percentage points. The male-female differential is the widest (12.4 percentage points) in Shahkot tahsil and the narrowest (7.5 percentage points) in Jalandhar I tahsil. Likewise, the rural-urban literacy rates also exhibit significant disparity. In the district; 73.9 per cent of the rural population and 82.6 per cent of the urban population is literate.

Work Participation Rate

Definition of Work and Classification of Workers:

How the 'work' is defined by the Census needs to be understood religiously. Work is defined as the participation in any economically productive activity with or without compensation, wages or profit. Such participation may be physical and/or mental in nature. Work involves not only the actual work but also includes effective supervision and direction of work. It even includes part time help or unpaid work on farm, family enterprise or in any other economic activity. The scope of definition of work was expanded at the Census of India 2001, as persons engaged in rearing of animals for production of milk for their own use have been treated as workers. Further more in the 1991 Census cultivation of certain crops even for one's self consumption was treated as an economic activity. The scope of the term cultivation was expanded in this census to include certain other crops such as tomatoes, all types of flowers, fruits and tubers, potatoes, chillies and turmerics, viper, cardamoms, vegetables etc. In other words plantation of tea, coffee, rubber, coconut and betel nuts have been classified under plantation and not included in cultivation.

The reference period for recording the economic activity of any person is preceding one year from the date of enumeration. All those persons who had worked for six months or more during the last year are recorded as main workers while those who had worked for less than six months during the last one year are treated as marginal workers. A person who had not worked at all during the last one year falls in the category of non-worker. Workers have been further classified into four categories viz. Cultivators, Agricultural labourers, workers in Household Industries and Other Workers.

Punjab, with a work participation rate of 37.5 per cent, ranks 24th among the States/Union Territories in the Country. The work participation rate in the State is lower than that of India (39.1%). Among the districts in the State, the proportion of workers varies between 44.9 per cent in Nawanshahr district and 33.3 per cent in Gurdaspur district. In all 10 out of 17 districts in the State have shown work participation above the State average and among them five districts have

at least two-fifths of their population reported as worker. Besides Nawanshahr, they include Bathinda (42.3%), Mansa (40.9%), Sangrur (40.7%) and Moga (40.1%).

Main Workers and Marginal Workers:

32.2 per cent of Punjab's population is recorded as 'main worker' and 5.3 per cent as 'marginal worker'; the corresponding figures for 1991 Census are 30.1 per cent and 0.8 per cent respectively. In Sangrur district main workers and marginal workers constitute 35.7 and 5.0 per cent of the total population respectively. This signifies that the work participation rate (main + marginal) in Sangrur district (40.7%) is better than that of the State (37.5%).

Among the tahsils it varies between 36.8 per cent in Shahkot and 33.4 per cent in Jalandhar-I. In the district 53.7 per cent among males and 12.8 per cent among females are reported as workers. Out of the total population 30.5 per cent are main workers and 3.9 per cent marginal workers. The proportion of main workers in the tahsils is the highest in Nakodar with 32.4 per cent and the lowest in Phillaur with 29.4 per cent. However, the proportion of marginal workers is the highest in Shahkot with 6.4 per cent whereas the lowest in Jalandhar-I with 2.7 per cent. On the other hand the number of non workers (65.5%) is quite alarming in this district.

Religion :

It has been customary for the Indian Census to provide information on religious persuasions of its people. Religion is one of the basic cultural characteristics of population and several religions have thrived in the secular state of India. Apparently, information on various religious communities in the country has been of great interest and useful to the Anthropologists, Sociologists, Demographers, Administrators, Planners and the public at large. Question 7 of the household schedule canvassed at the 2001 Census pertained to religion. The instructions to enumerators were to record faithfully the religion of each member of the household as returned by the respondent in reply to this question.

The six main religions in the country were recorded by using following codes in 2001:

Religions	Code
Hindu	1
Muslim	2
Christian	3
Sikh	4
Buddhist	5
Jain	6

For all others, actual religion as stated was recorded fully. Further more, if any individual stated that he had no religion, the answer was recorded accordingly.

In Jalandhar district there are 37.8 per cent Sikhs, 59.0 per cent Hindus, 0.9 per cent Muslims and 1.1 per cent Christians, 1.0 per cent Buddhists and whereas Jains are negligible (0.2%).

The instructions for recording this information are, by and large, the same as in 1991. A brief analysis based on 2001 Census data is given under annexure V.

Mother Tongue and language :

Question 10 of the Household Schedule canvassed at the 2001 Census pertained to 'Mother Tongue'. It is the language spoken in the childhood by the person's mother to the person. If the mother died in infancy, the language mainly spoken in the person's home in childhood will be the mother-tongue. In the case of infants and deaf mutes the language usually spoken by the

mother should be recorded. In case of doubt, the language mainly spoken in the household may be recorded. Since the household may consist of persons related by blood or of unrelated persons or a mix of both, every person in the household is asked about her/his mother tongue because the mother tongue of each member of a household need not necessarily be the same. It may be different for different members in the household. The definition of 'Mother Tongue' is the same as in 1991.

Question 11 of the Household Schedule was aimed to collect information on 'Other Languages known' (up to two languages in order of proficiency) other than Mother Tongue.

In order to provide a broad scenario a brief note along with table based on 1991 Census data is given in Annexure VIII.

Scheduled Castes and Scheduled Tribes :

Out of the total population of 24,358,999 in the State 7,028,723 belong to Scheduled Castes as per 2001 Census. As such 28.9 per cent of the State's population and 37.7 per cent of the population in the district belong to Scheduled Castes. Among the districts, two- fifth (40.5%) of the total population in Nawanshahr belong to Scheduled Castes and it is the highest among the districts in the State. Firozpur district with a proportion of 22.8 per cent is placed at bottom. Besides Firozpur, Amritsar (28.8%), Sangrur (27.6%), Ludhiana (25.0%), Gurdaspur (24.7%), Rupnagar (23.9%) and Patiala (23.1%) are the districts which have proportion of Scheduled Castes population lower than that of the State while the remaining ten districts exhibit this percentage higher than that of State.

Out of the total population of 1962,700 in the district 739,762 belong to Scheduled Castes and this makes (37.7%) of the district's population belong to Scheduled Castes. Among the tahsils, it is the highest in Jalandhar - II (46.9%), and the lowest in Jalandhar - I (31.8%). The proportion of Scheduled Castes population in remaining tahsils is higher than the State average (28.9 %).

In consonance with the general trends in the State, Scheduled Castes are more rural by residence as 75.7 per cent of Scheduled Castes population in the State and 63.8 per cent in the district are rural by residence.

In the district 45.8 per cent of population in rural areas belongs to Scheduled Castes while the corresponding percentage in urban areas is 28.8 per cent. In Jalandhar - I tahsil Scheduled Castes comprise (51.1%) of rural population and this percentage is the highest among all the tahsils in the district. The proportion of Scheduled Castes population residing in urban areas varies between 41.5 per cent in Jalandhar - II tahsil and 26.3 per cent in Shahkot tahsil.

During 1991-2001 Scheduled Castes population in the State has increased by 22.4 per cent which is higher than that of Jalandhar (21.6%). In the district 70.5 per cent of the Scheduled Castes population is literate which is higher than that of the State (56.2 %.), 69.4 per cent in rural areas and 72.4 per cent in urban areas in Jalandhar are literate.

As regard sex ratio among Scheduled Castes in Jalandhar district, it is 901, 907 and 892 for total, rural and urban respectively. Whereas the State excels the district in total and rural sex ratio, it is in urban area only where the district supersedes the State (887) by 2 points.

There is no Scheduled Tribes population in the State.

(viii) Brief Analysis Based on Primary Census Abstract

TABLE 1 : DECADAL CHANGE IN POPULATION OF TAHSILS BY RESIDENCE, 1991-2001

Serial number	Tahsil	Population						Percentage decadal variation 1991-2001			Percentage urban population	
		1991			2001							
		Total	Rural	Urban	Total	Rural	Urban	Total	Rural	Urban	1991	2001

4	Jalandhar - I	740,649	177,820	562,829	965,162	184,061	781,101	30.3	3.5	38.8	76.0	80.9
5	Jalandhar -II	248,148	222,159	25,989	275,311	234,789	40,522	10.9	5.7	55.9	10.5	14.7
District Total:		**1,649,909**	**979,554**	**670,355**	**1,962,700**	**1,030,717**	**931,983**	**19.0**	**5.2**	**39.0**	**40.6**	**47.5**

Table 1 shows tahsilwise population for total, rural and urban areas of the district. Two sets of population data have been given for all the tahsils of the district i e for 1991 and 2001 Census. Jalandhar district has recorded a growth rate of 19.0 per cent during 1991-2001 as against 20.1 per cent for the State. When we analyse the decadal variation of population between 1991-2001, we find that among all the tahsils, the maximum growth of population is in tahsil Jalandhar-I (30.3 %) while the least decadal growth is in tahsil Phillaur (7.0%). For the rural areas the maximum growth of population has been observed in tahsil Nakodar (10.3) while the least has been found in tahsil Phillaur (3.0%). Among urban areas, the maximum growth of population is in tahsil Shahkot (106.5%) while the least has been observed in tahsil Nakodar (10.3%).

Further, it has been seen that Jalandhar-I tahsil which was highly urbanised in 1991 also ranks first in 2001 Census where proportion of urban population increased from 76.0 per cent to 80.9 per cent in 2001 Census. The urban population in the district grew by 39.0 per cent which is more than about eight times that of the rural (5.2%) growth rate. The level of urbanization in the district (47.5%) however, is higher than the average of State (33.9%).

TABLE 2: NUMBER AND PERCENTAGE OF INHABITED VILLAGES IN SPECIFIED POPULATION SIZE RANGES WITH THE RELATED POPULATION , 2001

Serial number	District/ C.D. block	Total number of inhabited villages	Total rural population			Number and percentage of villages	Population less than 200	
			Persons	Males	Females		Males	Females

	Districts (Rural) Total:	**104 (11.1)**	**146,883**	**135,691**	**15 (1.6)**	**52,092**	**45,408**	**0 (0.0)**	**0**	**0**

Out of 950 villages in the district, 16 villages are uninhabited and 934 villages inhabited. A village on an average has a population of 1,104 in the district. The corresponding size of an inhabited village in the State as a whole is 1,311. These 934 inhabited villages are distributed over 10 CD blocks in the district. On an average a CD block has 93 inhabited villages and population of 103,072, whereas total villages of the State are distributed over 138 CD blocks. In the State a CD block on an average has 89 inhabited villages and a population of 116,641. Evidently, the inhabited villages in Jalandhar district are much smaller in population size as compared to the State. Among 934 inhabited villages, 96(10.3%) villages have a population of less than 200, 171(18.3%) fall in the population size Class of 200-499, 282(30.2%) in the category of 500 –999, 266(28.5%) in the range of 1,000 -1,999, 104(11.1%) with population varying between 2,000 -4,999, 15(1.6%) villages are having population between 5,000 - 9,999 and none of the villages in the district crosses the population of 10,000 and above. In other words 549 villages are small sized with a population of less than 1,000 and they contain 58.8 per cent of the rural population of the district, 370 are medium sized having population 1,000-4,999 and they contain 39.6 per cent of rural population of the district, 15 villages in the district are large sized having population 5,000 and above but less than 10,000 and they contain 1.6 per cent of the rural population of the district.

TABLE 3: NEW TOWNS, DE-NOTIFIED, DECLASSIFIED AND MERGED TOWNS IN 2001

Serial number	Name of town	Urban status of town
1	2	3
(a) New Towns		
(i) Statuary town		
1	Jandiala	NP
2	Lohian Khas	NP
(ii) Census town		
	Sansarpur	
(b) Denotified		
(i) Statutory town of 1991 Census denotified which did not satisfy the criteria to be treated as towns		
	Nil	
(ii) Statutory towns of 1991 census denotified but identified as census towns based on demographic and economic criteria		
	Nil	
(iii) Census towns of 1991 census are notified as statutory town in 2001 census		
1	Bhogpur	NP
(C) Declassified*		
	Nil	
(d) Wholly merged with other town (s)		
	Nil	

*Declassified means the census towns of 1991 census which failed to satisfy the demographic and economic criteria.

Table 3 revealed new towns added, denotified, declassified and merged in the district at the 2001 Census.

There are 14 towns in the district and all of them are statutory in status except Sansarpur. Only 2 towns namely Jandiala (NP) and Lohian Khas (NP) are newly created statutory towns in the district at the 2001 Census.

Further, one town namely, Bhogpur with CT status in 1991 census is notified as statutory town during 2001 Census.

TABLE 4: DISTRIBUTION OF VILLAGES BY POPULATION DENSITY, 2001

Range of population density (per square kilometer)	Total number of villages in each population density range	Percentage of villages in each population density range	Population	Percentage distribution of population
1	2	3	4	5
0-10	8	0.9	70	0.0
11-20	5	0.5	103	0.0
21-50	11	1.2	1,473	0.1
51-100	41	4.4	5,752	0.6
101-200	83	8.9	27,405	2.7
201-300	148	15.8	122,044	11.8
301-500	328	35.1	365,978	35.5
501 +	310	33.2	507,892	49.3
Not known	0	0.0	0	0.0
District Total:	**934**	**100.0**	**1,030,717**	**100.0**
Population Density (Rural) of the district:		**424**		

Table 4 shows distribution of villages according to density of population per Sq. km. Jalandhar district has a rural density of 424 persons per Sq. km. The villages however, display a significant variation among themselves. Low density of 100 or below is noticed in 65 (7.0%) villages and they contain barely 0.7 per cent district's rural population. Another 83 villages, which make 8.9 per cent of the total villages and 2.7 per cent of the total rural population are also marked with low density of population in the range of 101-200.Yet another 148 (15.8%) villages which contain 11.8 per cent of the total rural population in the density range of 201-300.

A large number of villages 328(35.1%) fall in the density range of 301-500, covering more than one-third villages and accommodating more than one third (35.5%) of the rural population of the district.

However, very high density of 501+ is the characteristics of 310 (33.2%) villages and accommodate almost one-half (49.3%) of the rural population of the district.

TABLE 5 : SEX RATIO OF STATE AND DISTRICT, 1901-2001

Census Year	State			District		
	Total	Rural	Urban	Total	Rural	Urban
1	2	3	4	5	6	7
1901	832	837	798	848	848	843
1911	780	785	740	783	784	775
1921	799	808	735	807	812	781
1931	815	832	721	841	855	772
1941	836	855	750	859	892	737
1951	844	854	807	857	882	806
1961	854	865	817	867	897	808
1971	865	868	856	883	886	878
1981	879	884	865	890	904	870
1991	882	888	868	897	907	883
2001	876	890	849	887	912	860

Note: Sex Ratio has been defined as number of females per 1000 males.

Sex ratio reflects the socio-economic and demographic characteristics of population. It unfolds the status of women in society and the care for the girl child in particular. The sex ratio declined from 832 to 780 in 1911 in the State. Ever since 1911, the sex ratio has shown a gradual improvement, uninterruptedly, till 1991 when it reached 882. During 1991-2001, the sex ratio has declined again by 6 points, from 882 to 876.

This table exhibits that the sex ratio at district level is 887 in 2001 census while at the State level it has been observed as 876. At the State level, the sex ratio has decreased by six points during 1991- 2001. It has increased by two points in rural areas but reduced by 19 points in its urban counterpart. At the district level as a whole it has decreased by 10 points. This fall in the sex ratio is mainly caused by the huge drop in the urban sex ratio by 23 points during the period.

The improvement in sex ratio is exhibited both in the rural and urban areas of the State in the last five decades where sex ratio has gradually augmented from 854 in 1951 to 890 in 2001 in rural areas and from 807 in 1951 to 849 in 2001 in its urban counterpart. In consonance with the overall pattern of the State, sex ratio in the district as a whole has also increased from 857 in 1951 to 897 in 1991 but it has gone down by 10 points during 2001.

TABLE 6 : SEX RATIO BY TAHSILS, 2001

Serial number	Name of Tahsil	Sex ratio		
		Total	Rural	Urban
1	2	3	4	5
1	Shahkot	915	918	896
2	Nakodar	917	920	902
3	Phillaur	913	918	885
4	Jalandhar - I	865	910	854
5	Jalandhar -II	894	898	875
	District Total:	**887**	**912**	**860**

Sex ratio by tahsils is shown in table 6. The sex ratio of the district is revealed as 887 while it is 912 in rural and 860 in urban.

Among the tahsils, the sex ratio varies between 917 in Nakodar tahsil and 865 in Jalandhar- I. Similarly sex ratio in rural area varies between 920 in Nakodar and 898 in Jalandhar-II, and the urban sex ratio fluctuates between 902 in Nakodar and 854 in Jalandhar-I.

TABLE 7 : SEX RATIO BY CD BLOCKS, 2001

Serial number	Name of C D block	Sex ratio
1	2	3
1	Bhogpur	914
2	Adampur	897
3	Jalandhar West	895
4	Lohian Khas	927
5	Shahkot	910
6	Nakodar	920
7	Jalandhar East	910
8	Noor Mehal	923
9	Rurka Kalan	915
10	Phillaur (P)	916
	District (Rural) Total:	**912**

Table 7 shows the sex ratio by CD blocks in the district. Rural sex ratio in the district (912) is much higher than that of the State sex ratio (890). Among the CD blocks rural sex ratio varies between Lohian Khas (927) as the maximum and Jalandhar West 895 as the minimum. In all, six CD blocks show rural sex ratio above and four below the rural sex ratio of the district. Surprisingly 8 out of 10 CD blocks have crossed sex ratio above 900.

TABLE 8 : SEX RATIO OF RURAL POPULATION BY RANGES, 2001

Range of sex ratio for villages	Number of inhabited villages	Percentage of villages in each range	Population 2001	Percentage distribution of population
1	2	3	4	5
Less than 700	23	2.5	18,791	1.8
700-749	11	1.2	2,927	0.3
750-799	30	3.2	14,110	1.4
800-849	72	7.7	52,813	5.1
850-899	253	27.1	279,883	27.2
900-949	287	30.7	401,734	39.0
950-999	173	18.5	211,313	20.5
1000-1099	70	7.5	47,866	4.6
1100+	15	1.6	1,280	0.1
District Total:	**934**	**100.0**	**1,030,717**	**100.0**
Sex :ratio (Rural) for District		**912**		

Sex ratio of rural population by ranges is portrayed in Table 8. The district as such is marked with a relatively high rural sex ratio (912). This is rather low (less than 800) in 64 villages. The villages with low sex ratio comprise only 6.9 per cent of the total villages in the district and contain 3.5 per cent of district's rural population. 72 villages (7.7 %) are marked with a rural sex ratio of 800-849 and they contain 5.1 per cent of the district rural population.

253 villages exhibits a rural sex ratio in the range of 850-899. These make 27.1 per cent of the total villages and have 27.2 per cent of the rural population in the district.

The maximum number of 287 villages have the high sex ratio in the range of 900-949 and they constitute 30.7 per cent of the villages and account for 39.0 per cent of the rural population in the district.

As many as 173 villages are marked with a very high sex ratio of 950-999 and they constitute 18.5 per cent of the total villages and account for 20.5 per cent of the population.

Female biased sex ratio (1000 and +) is observed in 85(9.1%) villages having 4.7 per cent of rural population in the district. Out of which, 15 villages are highly female biased. This is a welcome sign for the State as well as for the district otherwise marked with a deplorably low sex ratio.

TABLE 9 : SEX RATIO OF URBAN AGGLOMERATIONS / TOWNS, 2001

Serial number	Name of U.A./ Town+*	Urban status of town	Sex ratio
1	2	3	4

Sex ratio (Urban) for the district:			**860**

+ Towns arranged in alphabetical order.
* In case of towns having outgrowth an asterisk mark has been placed against their names to indicate that they have outgrowths which are not separate towns.

Sex ratio of urban agglomerations/towns is exhibited in Table 9. The district has an urban sex ratio of 860, which is higher than the urban sex ratio of the State (849).

Among the UAs/ towns, the sex ratio varies between 965 in Sansarpur and 699 in Jalandhar Cantt. In all, as many as 12 towns have sex ratio higher than that of the district and one town is at par with district viz. Phillaur. On the contrary, the sex ratio in Jalandhar Cantt (699) is less than the district average.

		Urban	**103,789**	**57,899**	**45,890**	**793**

The child sex ratio in age-group 0-6 is shown in Table 10. The State and its districts are marked with a very low child sex ratio and this has become a matter of deep concern. Punjab has a 798 child sex ratio as compared to India (927). Jalandhar district also exhibits a low child sex ratio 806 holding 8th rank in the State.

Child sex ratio within the district is the maximum in Phillaur (827) and the minimum in Jalandhar-II (787). As such the tahsils among themselves display a considerable disparity in the child sex ratio.

Likewise, the disparity in the rural and urban child sex ratio is also evident among the tahsils. Rural child sex ratio varies between 831 in Phillaur and 789 in Jalandhar-II and urban sex ratio between 818 in Nakodar and 774 in Shahkot respectively.

Table 11 presents the sex ratio in the child population 0-6 for the CD blocks.

The gap of 95 points between rural child sex ratio (817) and the over all rural sex ratio (912) in the district is quite alarming. The maximum child sex ratio in the 0-6 age group has been observed in CD block Shahkot (849) while the minimum in Bhogpur (776). When compare the child sex ratio of different CD blocks with the district overall rural sex ratio, it is noticed that none of the CD blocks has reached to that 912 mark.

TABLE 12 : SEX RATIO OF RURAL POPULATION IN THE AGE GROUP 0-6 BY RANGES, 2001

Range of sex ratio for villages	Number of inhabited villages	Percentage distribution of villages	Population 2001	Percentage distribution of population
1	2	3	4	5
Less than 700	227	24.3	19,812	15.7
700-749	100	10.7	18,389	14.6

1100+	71	7.6	5,034	4.0
District (Rural) Total	**934**	**100.0**	**126,366**	**100.0**
Sex ratio (Rural) for District:		**817**		

Table 12 shows the sex ratio of rural child population in the district in different ranges.

It is observed that the maximum number of villages i.e. 227 (24.3%) containing 15.7 per cent population have the sex ratio of less than 700 while 100 (10.7%) villages having 14.6 per cent population fall in the range of 700-749.

The range of 750-799 covers 110 (11.8%) villages and 14.0 per cent population. Almost similar number of villages i.e. 107 (11.5%) containing 13.2 per cent population are covered in the range of 800-849. 112 (12.0%) villages containing 17.0 per cent population fall in the sex ratio range of 850-899.

The rural child sex ratio is fairly high in the range of 900-949 in 67 (7.2%) villages with 9.0 per cent population while the sex ratio range 950-999 covers 42 (4.5%) villages and 4.8 per cent population. 169 villages are female biased in the district, out of which, 98 villages fall in the range of 1000-1099 and 71 villages in the range of 1100+. These 169 villages together make 18.1 per cent of the total villages and share 11.7 per cent of the rural child population of the district.

+ Towns arranged in alphabetical order.

* In case of towns having outgrowth an asterisk mark has been placed against their names to indicate that they have outgrowths which are not separate towns.

Table 13 shows sex ratio of child population in the age group 0-6 in urban area as 793 in the district. It is significantly lower than the overall urban sex ratio (860) in the district.

Among the towns/UAs, Child sex ratio is the highest in Goraya (NP) (876) and the lowest in Bhogpur (NP) (723). 7 out of 14 towns show urban child sex ratio lower than that of the district average. In other seven towns it exceeds the district average. Beside Goraya (NP), these include Sansarpur (834), Lohian Khas (832), Nakodar (818), Jalandhar Cantt. (817), Kartarpur (812) and Nurmahal (801).

TABLE 14 : NUMBER AND PERCENTAGE OF SCHEDULED CASTES AND SCHEDULED TRIBES POPULATION IN TAHSILS, 2001

		Urban	**931,983**	**267,950**	-	**28.8**	-

Table 14 shows that 37.7 per cent of the population in the district belongs to Scheduled Castes as compared to the State (28.9%). Among the tahsils it is the highest in Jalandhar-II with 46.9 per cent and the lowest in Jalandhar-I with 31.8 per cent.

In consonance with the general trends in the State, Scheduled Castes population is more in rural areas by residence than in urban areas excepted Jalandhar-I. In rural areas of the district the highest percentage of Scheduled Castes has been observed in tahsil Jalandhar-I (51.1%) while it is the lowest in Shahkot (34.5%).

There is no scheduled tribe in the State.

TABLE 15 : NUMBER AND PERCENTAGE OF SCHEDULED CASTES AND SCHEDULED TRIBES POPULATION IN C.D. BLOCKS, 2001

Serial number	Name of C.D. block	Total population	Total Scheduled Castes population	Total Scheduled Tribes population	Percentage of Scheduled Castes population to total population	Percentage of Scheduled Tribes population to total population

	District (Rural) Total:	**1,030,717**	**471,812**	-	**45.8**	-

Table 15 gives CD block wise distribution of scheduled castes population in the district. CD blocks among themselves exhibit disparity in the proportion of scheduled castes population. It is the maximum in Jalandhar East (54.9%) closely followed by Phillaur (P) (50.0%). Among all the C.D. blocks, seven C.D. blocks reveal the scheduled castes population more than the district rural proportion (45.8%) whereas three C. D. blocks show this rural proportion below the district. Lohian Khas witnesses the minimum proportion of 29.1 per cent.

TABLE 16: PROPORTION OF SCHEDULED CASTES POPULATION TO TOTAL POPULATION IN VILLAGES, 2001

+ Towns arranged in alphabetical order.
* In case of towns having outgrowth an asterisk mark has been placed against their names to indicate that they have outgrowths which are not separate towns.

Table 18 gives the number and percentage of scheduled castes population to total population in urban Agglomeration/Towns.

In urban area, the scheduled castes comprise 28.8 per cent of the total urban population in the district. The towns among themselves show wide disparity in this regard. While in Alawalpur 58.9 per cent of the total population belongs to scheduled castes, in Jalandhar Cantt. this percentage is barely 16.9 per cent. Beside Alawalpur, Kartarpur (45.1%) and Phillaur (44.3%) exhibit the higher percentage of scheduled castes population in urban.

There is no scheduled tribe in the State.

TABLE 19 SEX RATIO AMONG SCHEDULED CASTES AND SCHEDULED TRIBES IN C. D. BLOCKS, 2001

\+ Towns arranged in alphabetical order.

* In case of towns having outgrowth an asterisk mark has been placed against their names to indicate that they have outgrowths which are not separate towns.

Table 20 shows that the Scheduled castes sex ratio were recorded as 892 in urban area of the district which is better than that of the overall urban sex ratio (860) in the district. Scheduled Castes sex ratio in Sansarpur (1072) is female biased. Besides, the position in the towns like Adampur (936), Alawalpur (921), Kartarpur (917), Goraya (911), Shahkot (910) and Nakodar (902) are also quite encouraging as all these towns have sex ratio more than 900 points. On the other hand only Jalandhar Cantt. (852) Shows a sex ratio among Scheduled Castes less than that of the district's overall urban sex ratio (860).

Table 21 reveals that 78.0 per cent of the district's population is literate as compared to 69.7 per cent for the State as such. In other words almost eight out of 10 persons are literate in the district and this percentage is quite high as compared to the State as a whole. As compared to other districts, Jalandhar topples all other districts, barring Hoshiarpur (81.0%) and Rupnagar (78.1%).

In all the tahsils of the district, Jalandhar-I is the most literate with 82.3 per cent and Shahkot is the least literate with 68.2 per cent. Tahsils among the district show a wide variation in literacy rate

Male-female literacy rate varies between 82.5 per cent among males and 73.1 per cent among females in the district exhibiting a gap of 9.4 percentage points. In tahsils, this gap is the widest (12.4 percentage points) in Shahkot and the narrowest (7.5 percentage points) in Jalandhar-I.

Likewise, the rural-urban literacy rates also exhibit significant disparity. 73.9 per cent of the population in rural areas and 82.6 per cent in urban areas are literate in the district. The urban literacy is higher than that of the rural in all the tahsils; the gap in the rural urban literacy rate is the widest in Nakodar (12 points) and the closest in Jalandhar-I (4.2 points) and Jalandhar-II (3.8points).

TABLE 22 : NUMBER AND PERCENTAGE OF LITERATES AND ILLITERATES BY SEX IN C. D. BLOCKS, 2001

Table 22 shows the number and percentage of literates and illiterates by sex in the CD block.73.9 per cent is literate in the rural compared with 82.6 percent in urban areas in the district.

Among the CD blocks, rural literacy varies between 81.0 per cent in Adampur and 65.7 per cent in Lohian Khas. Besides Adampur, Bhogpur (78.8%), Jalandhar East (77.3%), Phillaur (P) (75.7%) Jalandhar West (75.0%) and Rurka Kalan (74.8%) are the other C.D. blocks displaying higher literacy rate than the district average but the district itself topples the State (69.7%) by 4.2 percentage points. Further more in all the seven CD blocks of the district out do the State average.

TABLE 23 : DISTRIBUTION OF VILLAGES BY LITERACY RATE RANGE, 2001

Range of literacy rate for villages	Number of inhabited villages	Percentage distribution of villages	Population	Percentage distribution of population
1	2	3	4	5
0	2	0.2	51	0.0
1-10	1	0.1	179	0.0
11-20	2	0.2	175	0.0

91-99	7	0.7	11,296	1.1
100	3	0.3	17	0.0
District Total:	**934**	**100.0**	**1,030,717**	**100.0**
Literacy rate for District Rural :		**73.9**		

Table 23 shows distribution of villages by literacy rate ranges. Very low literacy rate (40% or below) is reported in 13(1.3%) villages and have (0.1%) population. It is considerably low in 20 (2.1%) villages in the range of 41-50 per cent containing 1.3 per cent rural population. Another 64(6.9%) villages in the range of 51-60 per cent contain 3.6 per cent of rural population in the district. 256 villages fall in the range of 61-70 per cent., which make 27.4 per cent of the villages and comprising 23.2 per cent rural population in the district

The maximum number of villages 441 which comprise little less than one-half (47.2%) of the total villages and 55.4 per cent of the rural population are placed in the literacy range of 71-80 per cent.

Further more, 130 (13.9%) villages containing 15.3 per cent of the rural population in the district are placed in the literacy range of 81-90 per cent. The high literacy rate varying between the ranges of 91-100 per cent is the characteristics of 10(1.0%) villages with 1.1 per cent population. Only 3 villages with 17 habitants in the district have hundred per cent literacy rate.

+ Towns arranged in alphabetical order.

* In case of towns having outgrowth an asterisk mark has been placed against their names to indicate that they have outgrowths which are not separate towns.

Table 24 gives the number and percentage of literates and illiterates by sex in Urban Agglomerations/ Towns.

It reveals that 82.6 per cent of the urban population is literate in the district. The male literacy is 85.7 and the female 79.0 per cent.

Among the towns it varies between 89.8 per cent in Jalandhar Cantt. and 75.1 in Lohian Khas. In four towns literacy rate is higher than that of the urban literacy in the district. Besides Jalandhar Cant., Adampur (87.5%), Sansarpur (84.2%) and Bhogpur (83.7%), male literacy rate in Jalandhar Cantt.. (93.9%) rips apart all other towns. Similarly female literacy rate is also the highest in Jalandhar Cantt. (83.9%).

Between the two sexes, 85.7 per cent among males and 79.0 per cent among females are literates. The male-female literacy rates in urban show a sizable gap of 6.7 percentage points. This gap is the widest in Phillaur and Alawalpur with 11.4 percentage points each. On the other hand this gap is narrowest in Jalandhar (M.Corp) (5.8 percentage points).

TABLE 25: NUMBER AND PERCENTAGE OF SCHEDULED CASTES LITERATES AND ILLITERATES BY SEX IN C.D. BLOCKS, 2001

Table 25 shows the number and percentage of scheduled castes literates and illiterates by sex in CD blocks.

It reveals that scheduled castes population in rural has 69.4 per cent literacy rate compared with an over all rural literacy rate of 73.9 per cent in the district. The maximum literacy rate of 77.7 per cent has been observed in Adampur C D block while it is the lowest in Lohian Khas with 55.1 per cent. Out of every ten male scheduled castes, about eight are literate and 6 out of 10 females are literate.

The male and female scheduled castes literacy rate shows a gap of 15.6 percentage points in rural area of the district. The gap is to the extent of 16.4 percentage points in Jalandhar East CD block and 14.9 per cent each in Nakodar and Phillaur (P). Amazingly, Adampur CD block leads all other blocks in total (77.7%), male (85.1%) and female (69.6%) literacy rate respectively.

TABLE 26: DISTRIBUTION OF VILLAGES BY LITERACY RATE RANGE FOR SCHEDULED CASTES POPULATION, 2001

Range of literacy rate for villages	Number of inhabited villages	Percentage distribution of villages	Scheduled Castes Population	Percentage distribution of population
1	2	3	4	5
0	4	0.5	7	0.0
1-10	0	0.0	0	0.0
11-20	1	0.1	8	0.0
21-30	6	0.7	569	0.1
31-40	16	1.8	3,403	0.7
41-50	53	6.0	10,856	2.3
51-60	161	18.4	60,743	12.9
61-70	270	30.8	167,612	35.5
71-80	278	31.7	188,862	40.0
81-90	80	9.1	38,744	8.2
91-99	4	0.5	992	0.2
100	4	0.5	16	0.0
District Total:	**877**	**100.0**	**471,812**	**100.0**
Literacy rate for District (Rural):		**69.4**		

Table 26 shows the distribution of villages by literacy rate ranges for scheduled castes population. 11 villages which make 1.3 per cent of the total villages and accommodate 0.1 per cent population of the district fall in the range of 30 per cent or less. Another 16 villages which constitute 1.8 per cent of the total villages and 0.7 per cent of the district's Scheduled Castes population have literacy rate varying between 31-40 per cent. Evidently all these villages are marked with a very low literacy rate in Scheduled Castes population. Further Scheduled Castes

literacy rate is relatively better in 53 (6.0%) villages containing 2.3 per cent of scheduled castes population in the range of 41-50 per cent. 161 villages (18.4%) fall in the literacy range of 51-60 per cent which accommodate 12.9 per cent of the scheduled castes population. Another 270 (30.8%) villages accommodating 35.5 per cent scheduled castes population fall in the range of 61-70 per cent.

The maximum number of villages 278 which comprises 31.7% of the total villages and 40.0% of the rural population of the district are placed in the literacy range of 71-80 per cent which is a good sign.

Further more, the highest literacy rate (more than 80%) is noticed in 88 (10.1%) villages accommodating 8.4 per cent scheduled castes population. Only four villages in the district have hundred per cent literacy rate, reason being, these villages have a scanty population of 16 only.

TABLE 27: NUMBER AND PERCENTAGE OF SCHEDULED CASTES LITERATES AND ILLITERATES BY SEX IN TOWNS, 2001

+ Towns arranged in alphabetical order.

* In case of towns having outgrowth an asterisk mark has been placed against their names to indicate that they have outgrowths which are not separate towns.

Table 27 shows the number and percentage of scheduled castes literate and illiterate by sex in towns. (72.4%) Scheduled Castes population is literate in urban areas of the district. Among the towns, it is the highest in Adampur (79.4%) followed by Alawalpur (79.3%). By contrast, urban Scheduled Castes literacy rate is the lowest in Lohian Khas (55.9%).

78.1 per cent Scheduled Castes males and 66.0 per cent females are literates in urban areas reflecting a gap of 12.1 percentage points. Male-female disparity in this regard is quite conspicuous. Among the towns Scheduled Castes male literacy rate varies between 86.7 per cent in Adampur and 59.4 per cent in Lohian Khas, while the corresponding percentages among females are 71.8 per cent each in Adampur and Alawalpur and 51.0 in Shahkot.

Further more, male-female differential in Scheduled Castes literacy rate is the maximum in Phillaur (17.2%) and the minimum in Lohian Khas (7.7%).

TABLE 28: NUMBER AND PERCENTAGE OF SCHEDULED TRIBES LITERATES AND ILLITERATES BY SEX IN C. D. BLOCKS, 2001

Table 31 shows that the work participation rate in Jalandhar district (34.5%) is comparatively lower than the State average (37.5%). Among the tahsils it varies between 36.8 per cent in Shahkot and 33.4 per cent in Jalandhar-I. In the district 53.7 per cent among males and 12.8 per cent among females are reported as workers.

Out of the total population 30.5 per cent are main workers and 4.0 per cent marginal workers. The proportion of main workers in the tahsils is the highest in Nakodar with 32.4 per cent and the lowest in Phillaur with 29.4 per cent. However, the proportion of marginal workers is the highest in Shahkot with 6.4 per cent whereas the lowest in Jalandhar-I with 2.7 per cent. On the other hand the number of non workers (65.5%) is quite alarming in the district.

Table 32 gives the number and percentage of main workers, marginal workers and non-workers by sex at CD block level. It is observed that 35.4 per cent of the rural population is working in the district, out of which 29.7 per cent are main workers and 5.7 per cent marginal workers. This percentage is higher in the State where 39.5 per cent is reported as workers out of which 32.6 per cent main workers and 6.9 per cent marginal workers.

Among the C D blocks the work participation rate varies between 38.4 per cent in Shahkot and 32.8 per cent in Adampur.The percentage of main workers is the highest in Nakodar (32.1%) whereas the lowest has been reported in Adampur (26.0%). However the proportion of marginal workers is the highest in Bhogpur with 7.1 per cent whereas the lowest in Nakodar with 3.7 per cent.

Punjab State, in general is characterized by low female work participation rate. It was the lowest 4.4 per cent among all the States/Union Territories in the country at the 1991 Census. It was due to non-reporting of female's work by the respondents.

Special efforts introduced at 2001 Census for netting female's work have helped in obtaining more accurate picture of female's work; Female work participation rate in Punjab (19.1 per cent) recorded at the 2001 Census is nearly five times that of 1991 Census and Jalandhar district is almost 4 per cent behind of the State with 15.4 per cent female work participation rate comprising 9.5 per cent main workers and 5.9 per cent marginal workers.

Further percentage of non-workers is 64.6 per cent in the district comprising 46.3 per cent males and 84.6 per cent females. Percentage of non-workers is the highest in Adampur with 67.2 per cent and the lowest in Shahkot with 61.6 per cent.

+ Towns arranged in alphabetical order.

* In case of towns having outgrowth an asterisk mark has been placed against their names to indicate that they have outgrowths which are not separate towns.

Table 33 gives the number and percentage of main workers, marginal workers and non-workers by sex in urban Agglomerations/Towns.

The table shows that 33.5 per cent of the urban population is working in the district. This percentage is at par with the State average 33.5 per cent. Among the towns it is the highest in Jalandhar Cantt.(39.5%) and the lowest in Adampur (30.2%).

The participation rate in main workers is the highest in Jalandhar Cantt..(38.5%) and the lowest in Adampur (27.1%) whereas, the work participation rate in marginal workers is the highest in Bhogpur (4.4%) and the lowest in Jalandhar Cantt. (1.0%).

The female work participation rate is much less with 9.9 per cent in urban area as compared to male work participation rate of 53.7 per cent. Among the towns the female work participation rate is the highest in Sansarpur 15.6 per cent and the lowest in Goraya 6.9 per cent.

TABLE 34 : DISTRIBUTION OF WORKERS BY SEX IN FOUR CATEGORIES OF ECONOMIC ACTIVITY IN TAHSILS, 2001

Note: Percentage of Workers to total worker is given in brackets

Table 34 shows distribution of workers by sex in four categories of economic activity by tahsils in the district.

Among the total workers in the district, 14.0 per cent are cultivators, 11.0 per cent agricultural labourers, 4.5 per cent household industry workers and 70.6 per cent reported as

other workers. This signifies that 25.0 per cent of the total workers are engaged in agricultural sector in the district, while 75.0 per cent are engaged in non-agricultural sector of economy.

Among tahsils, the percentage of cultivators is the highest in Shahkot (33.7%) and the lowest in Jalandhar-I (3.9%). Likewise, the proportion of workers reported as agricultural labourers varies between 23.5 per cent in Shahkot and 4.6 per cent in Jalandhar-I.

The proportion of workers engaged in household industry is the highest in Jalandhar-I with 4.8 per cent and the lowest in Shahkot with 2.6 per cent. The proportion of other workers is the highest in Jalandhar-I (86.6%) and the lowest in Shahkot (40.2%).

The participation of females as well as males in non-agricultural sector is greater than the agricultural sector. In the district 75.9 per cent of the female workers are non-agricultural workers (HH1 – 9.2 per cent and OW- 66.7 per cent). On the other hand, for males the percentage of non-agricultural workers is 74.8 per cent.

Note: Percentage of workers to total worker is given in brackets

Table 35 presents distribution of workers by sex in four categories of economic activity in C.D. blocks. Among rural workers in the district, 24.9 per cent are cultivators, 18.3 per cent agricultural labourers, 4.2 per cent household industry workers and 52.6 per cent other workers.

This shows that 43.2 per cent of rural workers are engaged in agricultural and 56.8 per cent in non-agricultural sector.

Among C.D. Blocks, the proportion of rural workers recorded as cultivators is the highest in Lohian Khas (41.6%) whereas the lowest has been observed in Jalandhar East (16.6%). Likewise, the proportion of Agricultural labourers shows a variation of 26.2 per cent in Shahkot and 8.6 per cent in Rurka Kalan CD blocks.

The proportion of rural workers engaged in household industry also exhibits significant variation at CD block level. It is the highest in each Jalandhar East and Jalandhar West (5.2%) whereas the lowest has been observed in Shahkot (2.3%) per cent. Other workers constitute more than half of the total workers (52.6%). Among the C.D. Blocks it is the highest in Phillaur (P) (65.5%) whereas the lowest in Lohian Khas (30.7%).

Further, it reveals that participation of females as well as males is greater in non-agricultural sector in comparison to the agricultural sector. Among the rural female workers in the district, 35.4 per cent (C-13.7% and AL-21.7%) are agricultural workers and 64.5 per cent (Household Industries-8.6% and Other Workers 55.9%) non agricultural workers. On the other hand among the male workers, 45.3 per cent are agricultural workers and 54.8 per cent non- agricultural workers.

Note: Percentage of workers to total workers is given in brackets.

+ Towns arranged in alphabetical order.

* In case of towns having outgrowth an asterisk mark has been placed against their names to indicate that they have outgrowths which are not separate towns.

Table 36 gives the distribution of workers by sex in four categories of economic activity of urban agglomerations/towns. The table reveals that among towns/ UA's the proportion of urban workers recorded as cultivator is the highest in each Lohian Khas and Jandiala (9.1%) which is fairly high as compared to the district urban (1.1%). The lowest is exhibited in Jalandhar Cantt. (0.2%). The proportion of agricultural labourers shows a variation of (17.9%) as the highest in Alawalpur and (0.3%) as the lowest in Jalandhar Cantt. whereas the district urban displays (2.5%).

It is further revealed that the percentage of household industry workers is the highest in Jandiala (7.3%) and the lowest in Alawalpur (1.0%).

The proportion of other workers also shows significant variation at town level with the highest (97.7%) in Jalandhar Cantt. and the lowest (75.9%) in Alawalpur while at district level it is observed as 91.6 per cent.

Note :- Percentages are given in brackets.

* Based on the improved drinking water source, drinking water supply has been classified as 'Improved ' or otherwise. If the household has access to drinking water supplied from a tap or a hand pump/tube well situated within or outside the premises it is considered as having access to 'Improved drinking water source'. However, the concept of improved drinking water is state specific and this is to be considered accordingly.

Post office includes Post office, telegraph office and Post and telegraph office.

$ Transport communication includes bus service, rail facility and navigable waterways.

Table 37 shows distribution of villages according to availability of different amenities by CD blocks.

Education:

Educational amenity is available to 89.4 per cent of villages in the district. In case of 99 villages only this facility is not available within the village, but the same can be availed at some distance.

Among the CD blocks, this percentage is as high as 95.0 per cent in Nakodar. Apart from this, more than 90 per cent villages in five other C.D. blocks of the district are having availability of educational facilities with in the village.

Medical:

64.0 per cent of the villages are equipped with some kind of medical facility in the district. This percentage is as high as 86.8 per cent in Rurka Kalan. Apart from this, more than 70 per cent of villages in three CD blocks namely, Jalandhar East (72.8%), Bhogpur (72.5%) and Phillaur (P) (71.6%) are having availability of medical facility within the village. Remarkably in all the CD blocks, more than 50 per cent of villages are having the medical facility.

Improved Drinking Water:

The availability of improved drinking water refers to availability of drinking water through tap, hand pump and tubewell. It is available to all the villages in the district.

Post Office:

Only 20.1 per cent of the villages have availability of post office within the village in the district and the villagers of the remaining 79.9 per cent villages avail this facility at some distance. This percentage is as high as 40.0 per cent in Phillaur (P). On the other hand, 5 CD blocks are portraying the percentage of villages below the district average.

Telephone:

Telephone facility is available in 96.7 per cent of the villages in the district which by all means, is a very high percentage. The position is the best in Bhogpur and Adampur where hundred per cent of the villages are enjoying this facility. In the remaining CD blocks, more than 90 per cent of villages are experiencing this facility.

Transport and Communication:

The villages are fairly well equipped with transport and communication as 75.5 per cent of the villages have this facility in the district. Only 24.5 per cent of villages are devoid of this facility and avail it at some distance. Jalandhar West with 85.2 per cent out does all other C.D. blocks.

Banks:

11.3 per cent of villages have a bank facility in the district. This percentage is as high as 20.8 per cent in Rurka Kalan CD block. Other than this 5 CD blocks cross only 10.0 per cent marks regarding availability of banks.

Agricultural Credit Societies:

Nearly one-forth of villages (25.6%) have agricultural credit societies in the district. Among the CD blocks it varies between 52.8 per cent villages in Rurka Kalan and 13.5 per cent in Lohian Khas.

Approach by Pucca Road:

Appreciably all the villages are approachable by Pucca Road in the district.

Power Supply:

All the villages are having power supply in the district.

TABLE 38: NUMBER AND PERCENT OF RURAL POPULATION SERVED BY DIFFERENT AMENITIES, 2001

Note :- Percentages are given in brackets.

* Based on the improved drinking water source, drinking water supply has been classified as 'Improved ' or otherwise. If the household has access to drinking water supplied from a tap or a hand pump/tube well situated within or outside the premises it is considered as having access to 'Improved drinking water source'.
However, the concept of improved drinking water is state specific and this is to be considered accordingly.

Post office includes Post office, telegraph office and Post and telegraph office.

$ Transport communication includes bus service, rail facility and navigable waterways.

Table 38 shows number and percentage of rural population served by different amenities by CD blocks in the district. It is very satisfactory that almost the entire rural population in the district (98.9%) and its constituent CD blocks are being served by educational institutions. In case of Safe drinking water supply, approach by pucca road and power supply facilities, whole population of inhabited villages are availing these facilities. Almost same is the case for availability of telephone facility where 99.9 per cent population is enjoying this facility.

As regards medical facilities available, it is serving 82.9 per cent rural population. Among the CD blocks, the proportion of population served by medical institutions is the highest in Rurka Kalan with 96.2 per cent while the lowest in Lohian Khas with 65.8 per cent. Out of 10 CD blocks 6 fall above and 4 below the district average.

Post offices are serving 38.7 per cent of the rural population in the district and this percentage of population varies between Phillaur (P) (61.0%) and Lohian Khas (10.3%).

Transport and communication amenity is availed by 81.9 per cent population of CD blocks in the district. Jalandhar West (91.9%) is leading and closely followed by Noor Mehal (91.8%)

Banks cater to the needs of 26.8 per cent population in the district. Among the 10 CD blocks, the proportion of population served by bank is the highest in Rurka Kalan (43.7%) whereas the lowest in Shahkot (10.4%).

As regards the facilities of agricultural credit societies available, it is serving 46.8 per cent of the rural population in the district and this percentage of population varies between Rurka Kalan (78.2%) and Lohian Khas(28.8%).

TABLE 39: DISTRIBUTION OF VILLAGES NOT HAVING CERTAIN AMENITIES, ARRANGED BY DISTANCE RANGES FROM THE PLACES WHERE THESE ARE AVAILABLE, 2001

Village not having the amenity of	Distance range of place from the villages where the amenity is available			
	Less than 5 kilometres	5-10 kilometres	10+ kilometres	Total (Col. 2 to 4)
1	2	3	4	5
1. Education :-

6. Banks				
(a) Commercial Bank	707	133	15	855
(b) Cooperative Bank	703	169	8	880
7. Agricultural Credit Societies	636	59	0	695

Table 39 shows distribution of villages which are not having certain amenities by distance ranges from the places where these are available.

Education:

Primary School facility is not available to 102 villages and avail it within a distance of less than 5 kms.573 villages do not have middle schools. They have to avail this facility at a distance of less than 5 kms for 560 villages, 5-10 kms for 11 villages and 10+ kms for 2 villages.

Similarly out of 934 inhabited villages, 927 villages do not have Degree Colleges. Surprisingly only 7 villages have a degree college in the district. However, this facility is available to 177 villages within five kilometers, in case of 328 villages at a distance of 5-10 kms and the remaining 422 villages have to cover 10+ kms to avail this facility in the district.

Medical:

926 villages are not having hospital facility within the villages and they have avail it by covering different distance ranges. Among them the same is available to 286 villages at a distance of less than 5 kms, 404 villages have to avail at a distance of 5-10 kms and the remaining 236 villages have to cover a distance of more than 10 kms to avail the facility of hospital.

Likewise, out of 905villages which do not have PHC, 286 villages have this facility at a distance of less than 5 kms, 376 villages at a distance of 5-10 kms and 243 villages at a distance of more than 10 kms.

Post office:

The post office facility is not available to 746 villages out of which 725 villages avail this facility at a distance of less than 5 kms. while 20 villages avail it at a distance of 5-10 kms and only one village avail this facility at a distance of more than 10 kms.

Telephone:

30 villages do not have telephone facility but all of them avail this facility at a distance of less than 5 kms.

Bus service:

231 villages do not have bus service out of which 214 villages have to cover a distance of less than 5 kms while 17 villages cover a distance of 5-10 kms to avail this facility.

Banks:

855 villages do not have banking facility (commercial). 707 villages avail it at a distance of less than 5 kms while 133 villages avail at a distance of 5-10 kms and the rest of 15 villages have to cover a distance of more than 10 kms.

Likewise, Co-operative banking facility is not available in 880 villages. Among them 703 villages avail it within a distance of 5 kms and in case of 169 villages it is available at a distance of 5-10 kms and for the remaining 8 villagers have to travel a distance of 10+kms to avail this amenity.

Agricultural Credit Societies:

695 villages do not have the facility of agricultural credit societies. 636 villages avail this facility at a distance of less than 5 kms, while 59 villages at a distance of 5-10 kms.

TABLE 40: DISTRIBUTION OF VILLAGES ACCORDING TO THE DISTANCE FROM THE NEAREST STATUTORY TOWN AND AVAILABILITY OF DIFFERENT AMENITIES, 2001

Post office includes Post office, Telegraph office and Post and telegraph office.
$ Transport communication includes bus service, rail facility and navigable waterways.

Table 40 shows the distribution of villages according to the distance from the nearest town and availability of different amenities. Of the total villages, 286 villages are located within a distance of 5 kms in the district, 634 villages in the distance range of 5-15 kms. and 14 villages are located within 16-50 kms from the nearest statutory town.

Maximum number of villages (634) fall in the distance range of 5-15 kms and among them educational facility is available to 572(90.2%) villages, medical facility is available to 403(63.6%) villages, post office to 123(19.4%) villages, telephone facility to 614(96.8%) villages, transport and communications to 484(76.3%) villages and approachable by pucca road to all villages. The Banking facility is available only in 71 villages (11.2%) and 163(25.7%) villages have agricultural credit societies. Regarding percentages, two ranges 51+ kms. and unspecified have no villages falling under these ranges.

TABLE 41: DISTRIBUTION OF VILLAGES ACCORDING TO POPULATION RANGE AND AMENITIES AVAILABLE, 2001

Post office includes Post office, Telegraph office and Post and telegraph office.
$ Transport communication includes bus service, rail facility and navigable waterways.
* Based on the improved drinking water source, drinking water supply has been classified as 'Improved' or otherwise. If the household has access to drinking water supplied from a tap or a hand pump / tube well situated within or outside the premises it is considered as having access to 'Improved drinking water source'. However, the concept of improved drinking water is state specific and this is to be considered accordingly.

Table 41 reveals the distribution of villages by population ranges and amenities available. Of the 934 villages, 267 villages fall in the population range of 1-499, 282 villages fall in the population range of 500-999 and 266 villages in 1000-1999. There are 104 villages falling in the population range of 2000-4999 and only 15 villages have population range of more than 5000-9,999. Educational facility is available to 835(89.4%) villages. Medical facility to 598 (64.0%) villages, Improved drinking water facility to hundred per cent villages. Post office facility is available only to 188(20.1%) villages. Telephone facility to 903(96.7%) villages. Transport & communications and Banking facility to 705(75.5%) and 106(11.3%) villages respectively. Agricultural credit societies are available to 239(25.6%) villages. All villages are linked with Pucca road and power supply is also available to all the villages.

TABLE 42: DISTRIBUTION OF VILLAGES ACCORDING TO LAND USE, 2001

Serial number	Name of C. D. block	Number of inhabited villages	Total area	Percentage of cultivable area to total area	Percentage of irrigated area to total cultivable area
1	2	3	4	5	6
1	Bhogpur	91	19381	90.6	99.1
2	Adampur	57	17178	73.5	96.1
3	Jalandhar West	142	30378	87.7	98.9
4	Lohian Khas	126	28032	86.7	98.8
5	Shahkot	97	24390	89.0	99.3
6	Nakodar	100	33937	88.9	99.5
7	Jalandhar East	92	20007	88.1	99.2
8	Noor Mehal	80	25200	91.3	99.9
9	Rurka Kalan	53	17111	89.3	99.8
10	Phillaur	96	29168	86.8	99.7
	District Total:	**934**	**244782**	**87.5**	**99.1**

Note : - Cultivable area = irrigated area + unirrigated area

Table 42 shows the distribution of CD block wise villages according to land use. The total area of the district is reported to be 244,782 hectares in which 87.5 per cent area is cultivable area. 99.1 per cent of cultivable area is availing irrigation facility. Nakodar C.D. block (33,937 hectares) is the largest in area and is almost double to Rurka Kalan (17,111 hectares) which is the smallest C.D. block in area. Among the C.D. blocks the percentage cultivable area varies between 91.3 per cent in Noor Mehal and 73.5 per cent in Adampur. In most of the C.D. blocks the percentage of cultivable area is greater than that of the District.

99.1 per cent of the cultivable area in the district is irrigated. All the C.D. blocks have fairly high proportion of their cultivable area under irrigation and this percentage varies between 96.1 per cent in Adampur and 99.9 per cent in Noor Mehal.

TABLE 43 : PER CAPITA RECEIPT AND EXPENDITURE IN STATUTORY TOWNS

13	IV Shahkot (N.P.)	584.8	55.7	529.1	538.8	409.6	0	103.2	0	26
	District Total	**789.2**	**555.1**	**234.2**	**752.1**	**67.1**	**301.5**	**148.5**	**20.5**	**214.6**

Table 43 shows per capita receipt and expenditure incurred in statutory towns in the district. The per capita receipt in the district in Rs. 789.2 out of which Rs. 555.1 come through taxes and Rs. 234.2 through all other sources. The per capita receipt is as high as Rs. 925.3 in Jalandhar M.Corp. and as low as Rs. 41.3 in Bhogpur.

As against the per capita receipt of Rs. 789.2, the district is incurring per capita expenditure of Rs. 752.1. The major chunk of this expenditure is on public Health & conveniences i.e. Rs. 301.5, other Rs. 214.6, public works Rs. 148.5 and per capita expenditure on General administration is only Rs. 67.1, while it is Rs. 20.5 for public institutions.

TABLE 44 : SCHOOLS / COLLEGES PER 10,000 POPULATION IN STATUTORY TOWNS, 2001

Serial number	Name and urban status of Town	Type of educational institution				
		Primary	Junior Secondary / Middle	Secondary / Matriculation	Senior Secondary	College
1	2	3	4	5	6	7

13	Shahkot (N.P.)	1.6	1.6	1.6	0.8	0.8
	District Total	**1.0**	**0.3**	**0.4**	**0.3**	**0.1**

Table 44 shows number of schools/colleges per 10,000 population in towns. In the district there are 1.0 primary school, 0.3 junior secondary/middle schools, 0.4 secondary/ matriculation schools, 0.3 senior secondary schools and 0.1 colleges per 10,000 population.

TABLE 45: NUMBER OF BEDS IN MEDICAL INSTITUTIONS IN TOWNS, 2001

Serial number	Name and urban status of the Town	Number of beds in medical institutions per 10,000 population
1	2	3
1	Adampur(M.Cl.)	15
2	Alawalpur(M.Cl.)	6
3	Bhogpur(N.P.)	4
4	Goraya(N.P.)	3
5	Jalandhar(M.Corp.)	15
6	Jalandhar Cantt.(C.B.)	255
7	Jandiala(N.P.)	39
8	Kartarpur(M.Cl.)	10
9	Lohian Khas(N.P.)	29
10	Nakodar(M.Cl.)	16
11	Noormehal(M.Cl.)	20
12	Phillaur(M.Cl.)	90
13	Sansarpur(C.T.)	0
14	Shahkot(N.P.)	20
	District Total	**15**

Table 45 shows number of beds in medical institutions in towns per 10,000 population. The district on an average has 15 beds per 10,000 of population. Among the towns, Jalandhar Cantt. has 255 beds per 10,000 population and this is the highest among all the towns in the district. Besides Jalandhar Cantt., Phillaur (90), Jandiala (39), Lohian Khas (29) and Nur Mehal and Shahkot (20 each) have more beds per 10,000 population, than that of the district average.

TABLE 46: PROPORTION OF SLUM POPULATION IN TOWNS, 2001

Serial number	Name of the Town	Total population	Slum population approximately	Percentage of slum population to total population
1	2	3	4	5
1	Adampur	16,707	8,600	51.5
2	Alawalpur	7,172	4,000	55.8
3	Bhogpur	13,919	4,000	28.7
4	Jalandhar M. Corp.	714,077	181,116	25.4
5	Nakodar	31,408	4,500	14.3
6	Phillaur	22,302	12,600	56.5
7	Shahkot	12,607	4,260	33.8
	District Total	**818,192**	**219,076**	**26.8**

Table 46 shows proportion of slum population living in statutory towns in the district. In absolute terms 2,19,076 persons are living in slums which account for 26.8 per cent of the total urban population. In the town of Phillaur (56.5%) of the total population is residing in slums and for other towns it varies between 55.8 per cent in Alawalpur and 14.3 per cent in Nakodar.

TABLE 47: MOST IMPORTANT COMMODITY EXPORTED OUT OF AND MANUFACTURED IN TOWNS, 2001

Serial number	Name and urban status of Town	Most important commodity	
		Manufactured	Exported
1	2	3	4
1	Adampur (M.Cl.)	Khadi Cloth Honey Khadi Durries	Khadi Cloth Ambar Charkha Wooden Furniture
2	Alawalpur (M.Cl.)	Shoes Cattle Feed Fertilizer	Sugar Cane Rice Shoes
3	Bhogpur (N.P.)	Toka Machine Motor Axcels Motor Spare Parts	Sugar Rice Motor Axcels
4	Goraya (N.P.)	Thresher Toka Parts Motor Parts (Excel Bearing) Electric Goods	Toka Machine Parts Ball Bearing Electric Goods
5	Jalandhar (UA)	-	-
6	Jalandhar (M.Corp.)	Sports Goods Chemical Rubber Goods	Hand Tools Iron Sheets Sports Goods
7	Jalandhar Cantt. (C.B.)

Data Source: Census of India 2001, H-Series: "Tables on Houses, Household Amenities and Assets".

Table 48 shows households by tenure status and number of rooms occupied in the district.

The table reveals that 305,063 households in the district are living in the houses owned by them, 40,411 in rented houses while 10,100 households live in houses with tenure status 'others' i.e. neither owned nor rented. This reflects that, out of 355,574 households, 85.8 per cent are living in owned houses further out of them 55,268 (18.1%) have one room, 94,290 (30.9%) two rooms, 73,719 (24.2%) three rooms, 80,137 (26.3%) more than 3 rooms while 0.5 per cent have no exclusive room. This reveals that majority of the households have two rooms (30.9%). If we analyse it rural and urban wise, the position is by and large the same as majority of the households have two rooms accommodation.

Among the scheduled castes, out of 149,043 households, 133,875(89.8%) households have the houses owned by them and further out of them, majority of the households 48,773 (36.4%)

have two rooms, 36,286 (27.1%) one room while 28,005 (20.9%) three rooms houses and 20,058 (15.4%) have more than 3 rooms.

The percentage of households living in rented houses is only 5.8 per cent in rural and it is 31.5 per cent in urban area.

TABLE 49: PERCENTAGE DISTRIBUTION OF HOUSEHOLDS LIVING IN PERMANENT, SEMI PERMANENT AND TEMPORARY HOUSES, 2001

Sl. No.	District/ Tahsil	Total			Rural			Urban		
		Permanent	Semi-permanent	Temporary	Permanent	Semi-permanent	Temporary	Permanent	Semi-permanent	Temporary

		(9.7)	(8.6)	(14.6)	(15.4)	(15.6)	(23.0)	(3.4)	(1.4)	(2.7)
3	Phillaur	62,456	3,347	1,439	53,347	2,394	1,265	9,109	953	174
		(19.0)	(17.5)	(20.8)	(30.9)	(24.4)	(31.4)	(5.8)	(10.2)	(6.0)
4	Jalandhar - I	164,719	10,109	2,866	32,305	2,156	341	132,414	7,953	2,525
		(50.0)	(52.9)	(41.4)	(18.7)	(22.0)	(8.5)	(84.5)	(85.4)	(87.4)
5	Jalandhar -II	45,050	3,140	731	38,913	2,939	652	6,137	201	79
		(13.7)	(16.4)	(10.6)	(22.5)	(30.0)	(16.2)	(3.9)	(2.2)	(2.7)

Table 49 shows percentage distribution of households living in permanent, semi-permanent and temporary houses. It is to the tune of 92.7 per cent, 5.4 per cent and 1.9 per cent to total households respectively.

The distribution of permanent houses among the tahsils show that the highest percentage of permanent houses is in Jalandhar-I (50.0%) while the lowest is observed in Shahkot (7.7%). The corresponding figures for rural and urban show that the highest percentage is observed in Phillaur (30.9%) in rural area while the lowest again in Shahkot (12.5%). In the urban areas the highest percentage is observed in Jalandhar-I (84.5%) while the lowest in Shahkot (2.3%).

The distribution of Semi-permanent houses shows that the highest percentage is observed in Jalandhar-I (52.9%) while the lowest in Shahkot (4.5%). In the rural area it is the highest in Jalandhar-II (30.0%) while the lowest in Shahkot (8.0%) and in urban area it is the maximum 85.4 per cent in Jalandhar-I and the minimum in Shahkot (0.9%).

The percentage distribution of temporary houses is the highest again in Jalandhar-I (41.4%) while the lowest is observed in Jalandhar-II (10.6%). In rural area it is the highest in Phillaur (31.4%) while the lowest in Jalandhar-I (8.5%). In urban areas it is the highest in Jalandhar-I (87.4%) while the lowest is observed in Shahkot (1.1%).

TABLE 50: PERCENTAGE OF HOUSEHOLDS HAVING IMPROVED DRINKING WATER SOURCE, ELECTRICITY, BATHROOM, TOILET AND DRAINAGE FACILITY, 2001

Serial number	Tahsil	Total / Rural / Urban	Number of households	Number and percentage of households having				
				Improved drinking water*	Electricity	Bathroom	Toilet	Drainage

Data Source: Census of India 2001, H-Series: "Tables on Houses, Household Amenities and Assets".

* Based on the improved drinking water source, drinking water supply has been classified as 'Improved' or otherwise. If the household has access to drinking water supplied from a tap or a hand pump / tube well situated within or outside the premises it is considered as having access to 'Improved drinking water source'. However, the concept of improved drinking water is state specific and this is to be considered accordingly.

Note: Percentage is given in brackets after the number of household.

Bathrooms means bathroom within the house.

Toilet means toilet within the house.

Drainage means closed and open drainage.

Table 50 shows the percentage of households having improved drinking water source, electricity, bathroom, toilet and drainage facility.

Improved drinking water:

Households having tap, hand pump and tubewell as the sources of drinking water are grouped as having improved drinking water facility. In the district, this facility is available to 98.8 per cent households. While screening the corresponding figures for the rural and urban areas, the same trend is visible among all the tahsils.

Electricity:

Electricity as the source of lighting is available to 96.8 per cent of the households in the district; the corresponding figures for rural and urban areas are 95.4 per cent and 98.4 per cent respectively signifying that the rural areas do not lag behind the urban much in this regard. The trends are, by and large, the same for all the tahsils.

Bathroom:

Bathroom facility is available to 80.1 per cent in the district. This facility is available to only 73.0 per cent households in the rural area and this percentage is as high as 87.9 per cent in urban area in the district.

Toilet:

Toilet facility is available to 65.9 per cent households in the district. In the rural areas of the district nearly 4 persons out of 10 are enjoying this facility whereas in the urban areas more than 9 out of 10 persons are having such facility.

Drainage:

Drainage facility is available to 91.5 per cent households in the district. The corresponding figures for the rural and urban areas of the district are 90.6 per cent and 92.6 per cent respectively

Data Source: Census of India 2001, H-Series: "Tables on Houses, Household Amenities and Assets".

Table 51 gives the distribution of households by availability of separate kitchen and type of fuel used for cooking.

Cooking gas (LPG) is the major fuel used for cooking in the district with 45.0 per cent households followed by Cow dung cake with 21.4 per cent. Cooking gas (LPG) in the rural areas is used by 25.6 per cent and 66.5 per cent in urban area. But in the rural area Cow dung cake is used by 36.3 per cent house holds.

Among the tahsils the highest percentage of cooking gas (LPG) users were seen in Jalandhar-I with 61.6 per cent while the lowest in Shahkot with 19.0 per cent. Cow dung cake users are the highest in Phillaur (44.9%) while the lowest in Jalandhar-I (9.5%).

In the district, the users of cooking gas (LPG) and Cow dung cake alone constitute 66.4 per cent of the total households and apart from these two, kerosene(13.3%), fire wood(12.7%) and crop residue(6.5%) are the other major fuels being used by households.

Data Source: Census of India 2001, H-Series: "Tables on Houses, Household Amenities and Assets".

Table 52 shows the number of households availing Banking services and number of households having each of the specified assets. It is revealed from the table that out of 355,574 households in the district 226,868 (63.8%) are availing banking facility. The facility of Radio/Transistor and Television is being availed by 189,159 (53.2%) and 286,491 (80.6%) households respectively. Telephone facility is available to 86,991 (24.5%) households. Bicycle is owned by 268,411 (75.5%) households while Scooter/Motorcycle/Moped 145,257 (40.9%) households. Car/Jeep/van is available to 30,144 (8.5%) households only. There are 20,529 (5.8%) such households which do not have any specified asset

(xi) Places of tourist, religious, historical or archeological importance

Kartarpur:

It is located at about 16 km. from Jalandhar City, on the Jalandhar-Amritsar Grand Trunk road, and is also connected by road with Bhogpur and Alawalpur. It is a railway station on the Amritsar Saharanpur-Mughal Sarai main rail line.

Kartarpur was founded by the Sikh Guru Arjun Dev (1581-1606AD) on a piece of land received in grant from Mughal Emperor Akbar. The legend goes that there resided a demon who allowed wood to be cut for buildings on promise from the guru to the effect that he would not be disturbed and will be venerated. Consequently, the guru erected a than (Pole) made of sandal wood about 50 feet high known as Thamji, for which a temple was constructed from money gifted by Maharaja Ranjit Singh, who visited Kartarpur in 1833 AD. The place was invaded and burnt by Ahmed Shah Abdali in 1756 AD. A fort and a tank was built here in 1783 AD by Guru Gulab Singh. The fort has, however, been dismantled and no longer exists. The original Adi

Granth, complied by Guru Arjan Dev, is preserved here and is opened on every Sankrant (first day of the Bikrami month). The sword of Guru Arjan Dev known as Tegha Sahib and a cap of Guru Nanak Dev known as Selt are also preserved here. A well, known as Gangasar, was got sunk by Guru Arjan Dev which is frequented by pilgrims as a substitute for Ganga river. The Damdama Asthan is a platform over the graveyard of Painda Khan, an adherent of Guru Hargobind who was killed by followers of Guru Hargobind in a fight. According to a tradition the Kartarpur Gurus sit on this platform on every Baisakhi day (once a year) in fulfillment of ka prophecy that children of Guru Hargobind, should sit over the body of Painda Khan. On annexation of Jalandhar Doab by the British a cantonment was set up here in 1845-46 but was abolished in 1854. Near Gangasar there is a shrine called Manji Sahib where Guru Arjan Dev and his successor Guru Hargobind used to sit on a cot (Manji) to deliver sermons to their disciples. Adjacent to Manji Sahib is Dera Badabhag Singh. Besides there are number of historical and religious places such as, Chabucha Sahib, smadh of Mata Kaulan, Vivsh Asthan of Mata Gujri (wife of Guru Tegh Bahadur), Nankana Gurdwara built in memory of Mata Nanki (wife of Guru Arjan Dev) Ber of baba Gurditta , Gurdwara Tahli Sahib and Dera of Bhai Bhagtuji. The town is known as a wholesale market of wooden furniture which is locally manufactured. The furniture is not only of good quality but cheaper in price than other place.

Nakodar:

It is located at about 24 km from Jalandhar City, the district headquarters, and is also connected by road with Phillaur, Sultanpur Lodhi, Moga, Firozpur, Jagraon (through ferry), Nurmahal and Kapurthala. It is a railway junction on the Jalandhar City-Nakodar rail line and Lohian Khas - Nakodar - Ludhiana rail line.

According to one account it was founded by Nakodar Khan, an. Afghan. According to another account it was founded by Malik Nakdar Khan popularly known as Baba Malik, a brother of Rai Izzat. The word Nakodar is said to be corrupted form of Persian word Nekidar, which means 'Gate of Goodness of virtue. Still according to another account, it was founded by Nikudari, legion of Mughals. The town is said to be occupied by Manj Rajputs during the Mughal period. They were, however, ousted by Sardar Tara Singh Gheba during the early Sikh period. He built a fort. It was annexed by Maharaja Ranjit Singh in 1816. On annexations by British in 1845-46 a cantonment was built here which was abolished in 1854. There are two Mohammedan tombs which are protected monuments under the Archeological Department. One of the tombs, which is octagonal from outside and a square from inside, was built in 1612 AD, in the beginning of the reign of Jahangir (1605-1627AD) and the other tomb is octagonal from inside and square from outside, which was built in 1657 AD towards the close of reign of Shah Jahan (1627-1658 AD). The first tomb (built in 1612 AD) is that of Muhammad Momin Hussaini alias Hafiza, a tambura player in the service of Khan Khanan, while the other tomb (built in 1657 AD) is that of Haji Jamal a pupil of Muhammad Momin Hussaini. To the north of the tomb is a tank on one side of which is a summer house and on the other a baradari which contains the shrine of Bahadur Khan who died during the reign of Jahangir and also an old mosque which is now in dilapidated condition. While bricks of the tank were mostly used in the construction of cantonment the summer house, housed the courts of Sub-Judge-cum-Judicial Magistrate. The town is known for durries and Khadi goods. A cooperative sugar mill is also located here.

Nur Mahal:

It is located at about 33 km. from Jalandhar City, the district headquarters by road. It is also connected by road with Nakodar, Phagwara and Phillaur, the tahsil headquarters. It is a railway station on the Lohian Khas-Nakodar-Ludhiana rail line.

It is situated on the old imperial road from Delhi to Lahore and is built on the site of an ancient town, as testified by the large sized bricks and numerous coins found here. Nurmahal is

said to have been built on the site of a town called Kot Kalur or Kot Kahlur, which was a place of importance but is said to have been ruined in 1300AD. The modern town is due to the fostering care of Nur Jahan (after whom it was named), the consort of Emperor Jahangir (1605-1627 AD), who was brought up here. She had the imperial sarai constructed between 1619 and 1621 AD. In 1738-39 Nadir Shah exacted a ransom of three lakh rupees from Nurmahal which impoverished its inhabitants. In 1756-57 Ahmed Shah demanded three lakh rupees. The town was plundered, burnt and its population was put to sword as its residents could not meet his demand. In later times Ahluwalia Sikhs seized it and was held by Kapurthala Chief Sardar Kaur Singh and his descendents. Earlier it was occupied by Talwan Rajputs. From Ahluwalia Chief Maharaja Ranjit Singh took over this place, which passed to British after the first Anglo-Sikh War in 1845-46. The imperial sarai is a fine specimen of oriental architecture and is protected as monument by the Archaeological Department. There is a tomb of Fateh Ali Shah built in 1660-61 AD.

Phillaur:

It is tahsil and Sub-divisional Headquarter town and is located on the right bank of Satluj river on the Grand Trunk Road (NH-1) at about 47 km. from Jalandhar City, It is also connected by the road with Nurmahal, Phagwara, Banga, Nawanshahr, Rahon and Ludhiana city. It is a railway junction on the Amritsar-Saharanpur -Mughal Sarai main rail line and Lohian Khas-Nakodar-Ludhiana City branch rail line.

Phillaur was founded by Phul, a Sanghera Jat, who named it as Phulnagar. Subsequently it was occupied by Naru Rajputs who deserted this place in some unknown past. The present town dates back from the time of Shah Jahan (1627-1658 AD) who selected the place for building an imperial Sarai on the main Lohore-Delhi road. During the Sikh period it was occupied by Sardar Sudh Singh Kakarah whose family became extinct in 1807 AD. It was taken over by Maharaja Ranjit Singh who recognizing its importance put it under his governor Diwan Mohkam Chand. A strong force of Sikh troops was stationed at Phillaur. Between 1809-1812 AD the Sarai was converted into a fort by construction a ditch and bastions in consequence of British occupation of Ludhiana. With annexation of Jalandhar Doab by the British, in 1846 a cantonment was built here which was deserted in 1857 by the mutinous native infantry stationed here and was not reoccupied thereafter. The fort, however, house artillery and magazine, which were withdrawn in 1863. In 1891 the fort was handed over to the police department. A police Training College formerly a police training school, established on 1st January, 1892 but raised to the status of college in April, 1967 and the Finger Print Bureau (established in 1894) are functioning here. Near the railway station there are a Baradari and a Thakardwara, erected by Diwan Mokham Chand. A smadh of Diwan Mohkm Chand is also located nearby. On 12th February, every year a Sarvodya Mela held on the banks of Satluj to commemorate the immersion of ashes of Mahatma Gandhi, the father of the nation.

Jalandhar:

It is the division/district/sub-division/tahsil headquarters of the same name and is situated on the Amritsar –Saharanpur-Mughal Sarai main rail line. Besides it is situated on the Grand Trunk Road (National Highway No. 1) it is directly connected by road and rail with Amritsar, Pathankot, Kapurthala, Firozpur Cantt. Hoshiarpur, Nakodar, Ludhiana, and Jaijon Doaba..

According to a legend this place used to be part of an ocean which receded to create kingdom for the "Daitya, King Jalandhara" from whom the city takes its name. It finds earliest mentioning the times of King Kanishka (100 AD) when a conference of Buddhist theologians was held to collect manuscripts and preparing commentaries on them. Jalandhar gave rise to the Nath movement and remained centre of its activity during the 8th to10th century AD. The samadh of Jogi Jalandhar Nath was situated at the place where now stands the shrine of Nasir - ud- din Chishti, constructed in the 15th Century. It was visited by Chinese traveler Hiuen Tsang

when it was capital of Katoch Chiefs. At that time, the town was more than 3 km. in circumference. It was occupied by Ibrahim Shah of Ghr in 1179-80 AD. Thereafter it remained in considerable importance in the struggle between Jasrath Khokhar and Mohammedan governors in 1422-42 AD. During the Mughal period it served as capital of Jalandhar Doab. The last of the Mughal governors was Adina Beg who indulged in intrigues with Marathas and Sikhs. It was during his governorship that Jalandhar was allowed to be burnt by Baba Badbhag Singh of Kartarpur in retaliation for burring of Kartarpur by Ahmed Shah Adbali in 1756 AD. In 1766 it came in the hands of Sikhs of Faizullapuria misl under Khushal Singh. His son Budh Singh built a masonry fort which is known as Qila Mohalla. In 1811 it was annexed to Maharaja Ranjit Singh's dominions under the command of Diwan Mohkam Chand. Thereafter it served as capital of Lahore state in Jalandhar Doab. It later passed over to the British after the first Anglo Sikh War in 1845-46

After partition the town has made good progress in the field of industries especially; sports goods, pipe fittings, hand tools, rubber goods, leather products, surgical instruments, auto parts, agricultural implements, ball bearings, motor body building, electrical appliances, household appliances, valves and cocks, etc.

(xii) Scope of Village and Town Directory

Village Directory :

The "Village Directory" is one of the traditional compilations of the Census. It gives the list of villages, their location numbers, their area, population, number of households, amenities such as educational, medical, drinking water, post and telegraph, commercial and co-operative banks, agricultural, non-agricultural and other credit societies, recreational and cultural facilities, communication, approach to village, nearest town with a distance, power supply, availability of newspaper and magazines, most important commodity manufactured and land use of each village.

Village is a statutory recognized unit having a definite boundary and separate land records. In case, a complete village is treated as an outgrowth of urban agglomeration, data on amenities for that village, have not been given in the Village Directory but shown along with the urban component. The villages which are considered as a Census Town, the amenities data are shown in the Town Directory. For those villages which have partly merged in an outgrowth of U.A., the amenities data are shown in the Village Directory for that particular village.

The 'uninhabited' villages (villages with no population) have been indicated as such after furnishing details in columns 1 to 3 i.e., Serial number, Name of village & location code number and area of the village against column no. 4 to 18. The land use data for such villages are shown in col. 19 to 23.

Town Directory :

The Town Directory is presented for each town covering different aspects of urban life. Like 1991 census, in the present census also there are seven Statements included in the District Census Handbook for presentation of data. The seventh Statement relates to slums which was numbered as IV- A in 1991 Census. Statements I to VI contain data about growth, density, sex ratio, physical aspects of towns, communications, municipal finances, civic, medical, educational and other amenities and trade, commerce, Industry, Banking facilities etc. Hence the data for the towns of Jalandhar has been presented in these six Statements. Similarly the seventh Statement presents the data for slums.

Statement I shows status and growth history of the towns of Jalandhar District. Column 2 in this Statement indicates class, name and civic status of a town (as in 2000). Class of

the town indicated under this column has been introduced to facilitate the analysis of town directory data at the State/U.T. and at the national level. Column 6 presents area in Sq. kms. while Column 7 presents number of households including houseless households. Columns 8 to 18 give population and growth rate of towns since 1901. Column 19 presents density and Columns 20 to 22 present sex-ratio.

Statement II shows physical aspects and location of each town as in 1999. Column 2 shows the class, name civic status of Town. Columns 3 to 5 show the rainfall and maximum and minimum temperature. Columns 6 to 13 show the name and distance of State HQ, district HQ, Tahsil HQ, nearest city with a population of one lakh and more, nearest city with a population of five lakh and more, Railway Station, Bus facility and Navigable river/canal from town.

Statement III shows the municipal finance of the Towns of Jalandhar District. The income and expenditure for the towns of Jalandhar have been presented in this Statement.

Statement IV provides information for civic and other amenities available to the Town. This Statement presents general population as well as the scheduled castes/scheduled tribes population as per 2001 census under Columns 3, 4 and 5. Columns 6 to 20 present data regarding road length, system of sewerage, number of latrines, method of disposal of night soil, protected water supply, fire fighting service, electric connections for domestic, industrial and commercial as well as road lighting (points) and others amenities.

Statement V gives information regarding medical, educational, recreational and cultural facilities available in the town. Population figures for 2001 census have also been presented for the towns of Jalandhar which will facilitate in analyzing data on facilities available to the people. Data pertaining to medical facilities have been obtained from towns and shown under Columns 4 and 5. The information on educational facilities has been shown under Column 6-15.

This Statement also shows, number of working women's hostels, recreational and cultural facilities available in the town under Columns 16 to 20.

Statement VI presents information in respect of trade, commerce, industry and banking services in the town. Columns 3 to 8 indicate three most important commodities exported and manufactured in the Town. Information on number of banks available in the town has been presented under column 9 whereas Columns 10 and 11 show the number of agricultural and non-agricultural credit societies in the town.

Statement VII shows the civic amenities available to all the 7 towns having slums falling in the jurisdiction of Jalandhar District.

Part - A
VILLAGE AND TOWN DIRECTORY

Section-I
Village Directory

NOTE EXPLAINING THE ABBREVIATIONS USED IN THE VILLAGE DIRECTORY

The Village Directory format has 23 columns and the details given under each column are for the village are as follows :

Column 1 : Serial Number :

Self explanatory. All the villages within the CD Block are presented serially in the ascending order of their location code number.

Column 2 : Name and Location Code Number of village :

The name and location code number of the village is shown against this column. This also includes the forest and uninhabited villages.

Column 3 : Area of the village :

The area of the villages in hectares is given. Wherever the area figures were not furnished by the concerned department, the column is left blank.

Column 4 : Total population :

The total population of the village as per 2001 Census is given against this column.

Column 5 : Number of households :

The number of households as per 2001 Census is given in this column.

Amenities:

In column 6 to 23, availability in respect of different amenities such as education, medical, drinking water, post, telegraph, banks, credit societies recreational and cultural facilities, communication, power, approach road etc. in each village has been depicted with appropriate codes against the column concerned. Wherever the amenities are not available in the village, a dash (-) is shown in the column and next to it, in brackets, the distance in broad ranges viz. < 5 kms., 5-10 kms. and 10+ kms. of the nearest place where the facility is available is given. Column wise details are given below:

Column 6 : Educational:

Classes upto class V are included in Primary School comprising nursery school, kindergarten school, Pre-basic school, pre-primary school and junior basic school.

Classes from VI to VIII are included in the middle school.

Classes from IX and X are included in Higher Secondary School. Classes XI and XII are included in Senior Secondary School.

In case of composite schools like middle school with primary school or secondary school with middle school, these are also included in the number of primary and middle schools, respectively.

Accordingly any of the following types of institutions if exists within the village is shown as per codes given below:

(i)	Primary School	P
(ii)	Middle School	M
(iii)	Secondary School	S
(iv)	Senior Secondary School	PUC
(v)	College	C
(vi)	Industrial School	I
(vii)	Training School	Tr.
(viii)	Adult literacy class/centre	AC
(ix)	Others (specify) e.g. Sanskrit Pathshala, Senior basic school, Navodaya Vidyalaya, Makhtab, etc.	O

More than one institution of a type in the village is indicated by the number within brackets against the abbreviation, e.g. P (3), M (4), etc.

Column 7 : Medical :

Availability of medical facility within the village is indicated by following codes :

(i)	Allopathic Hospital	H
	Ayurvedic Hospital	HA
	Unani Hospital	HU
	Homeopathic Hospital	H Hom
(ii)	Allopathic Dispensary	D
	Ayurvedic Dispensary	DA
	Unani Dispensary	DU
	Homeopathic Dispensary	D Hom
(iii)	Maternity & Child Welfare	MCW
(iv)	Maternity Home	MH
(v)	Child Welfare Centre	CWC
(vi)	Health Centre	HC
(vii)	Primary Health Centre	PHC
(viii)	Primary Health Sub-Centre	PHS
(ix)	Family Welfare Centre	FWC
(x)	T.B. Clinic	TB
(xi)	Nursing Home	NH
(xii)	Registered Private Medical Practitioner	RMP
(xiii)	*Subsidised Medical Practitioner*	*SMP*
(xiv)	Community Health Worker	CHW
(xv)	Others	O

More than one institution of a type in the village is indicated by the number within brackets against the abbreviations, e.g. H(3), D(4), etc.

Column 8: Drinking Water:

The type of drinking water supply sources available within the village is indicated by codes as follows:

(i)	Tap Water	T
(ii)	Well Water	W
(iii)	Tank Water	TK
(iv)	Tubewell Water	TW

(v)	Handpump	HP
(vi)	River Water	R
(vii)	Canal	C
(viii)	Lake	L
(ix)	Spring	S
(x)	Others	O
(xi)	Summer Source	SS

Column 9 : Post, Telegraph and Telephone:

It is indicated by following codes:

(i)	Post Office	PO
(ii)	Telegraph Office	TO
(iii)	Post & Telegraph Office	PTO
(iv)	Telephone Connection	PH

Column 10 : Commercial and Co-operative Banks :

If the village is served by any banking service, commercial bank, co-operative bank etc.the same is indicated in codes mentioned below along with the number of banks in brackets. If not available within the village, distance of the nearest place where the facility exists is given:

(i)	Commercial Bank	CM
(ii)	Co-operative Bank	CP

Column 11 : Credit Societies:

If the village enjoys the services of Credit Societies i.e. Agricultural Credit Societies, Non-Agricultural Credit Society or Other Credit Societies, the same is indicated in codes mentioned below along with the number of such societies in brackets. In case the facility is not available within the village, the distance of the nearest place where such facility exists is given.

(i)	Agricultural Credit Society	ACS
(ii)	Non-Agricultural Credit Society	NCS
(iii)	Other Credit Society	OCS

Column 12 : Recreational and cultural facilities:

If facilities such as Cinema/Video hall, Sports Club, Stadium/Auditorium are available in the village, the same is recorded in these columns. If not available, the particulars of the nearest place with the facility exists is recorded. The information is indicated in codes mentioned below along with the number of such facilities in brackets:

(i)	Cinema/Video Hall	CV
(ii)	Sports Club	SP
(iii)	Stadium/Auditorium	ST

Column 13 : Communications :

If the village is served by any mode of public/ private transport like Bus, Railway station or Navigable water ways, they are to be mentioned as follows:

(i)	Bus	BS
(ii)	Railway Station	RS
(iii)	Navigable Waterway	NW

Column 14 : Approach to village :

Approach to village refers to the state of road leading to village. The approach to the village is indicated in following codes :

(i)	Paved Road	PR
(ii)	Mud road	MR
(iii)	Foot path	FP
(iv)	Navigable River	NR
(v)	Navigable Canal	NC
(vi)	Navigable waterways other than River, Canal	NW

Column 15 : Nearest Town and distance :

The distance is given in kilometers in brackets against the name of the town nearest to the village.

Column 16 : Power supply :

Availability of Power Supply in the village, whatever may be the form of its use, is given by using following codes :

(i)	Electricity for domestic use	ED
(ii)	Electricity for agricultural use	EAG
(iii)	Electricity for other purposes	EO
(iv)	Electricity for all purposes	EA

Column 17 : News Paper/Magazine :

If village receives any News Paper/Magazine the same is noted in this column using following codes :

(i)	News Paper	N
(ii)	Magazine	M

Column 18 : Most important commodities manufactured :

The name of three most important commodities manufactured in the village is recorded against this column.

Column 19 to 23 : Land use i.e. area under different types of land use :

Land use data maintained by the State/UT Govts. are furnished against these columns. The data concerning area under Forest, Irrigated land (by source), Un-irrigated land, Culturable waste and Area not available for cultivation in the village are shown against these columns. The area figures are given in hectare (s) up to one decimal. Desh '-' is recorded wherever the information is not made available by the concerned department. The codes used for different types of irrigation facilities available in the village are indicated below :

(i)	Government Canal	GC
(ii)	Private Canal	PC
(iii)	Well (without electricity)	W
(iv)	Well (with electricity)	WE
(v)	Tubewell (without electricity)	TW
(vi)	Tubewell (with electricity)	TWE
(vii)	Tank	TK
(viii)	River	R
(ix)	Lake	L
(x)	Waterfall	WF
(xi)	Others	O
(xii)	Total	T

The village directory also carries the following appendices.

Appendix-I It gives the abstract of educational, medical and other amenities available in villages CD Block wise of the district.

Appendix-I-A Indicates number of villages CD Block wise having one or more primary schools.

Appendix-I-B Indicates number of villages CD Blockwise having primary, middle and secondary schools.

Appendix-I-C Shows number of villages CD Block wise with different sources of drinking water facilities.

Appendix-II Indicates the list of villages with 5,000 and above population which do not have one or more important amenities.

Appendix-II-A Indicates list of Census Towns which do not have one or more amenities.

Appendix-III It gives the land utilization data in respect of Census Towns/non-municipal Towns.

Appendix-IV CD Block wise list of inhabited villages where no amenity other than drinking water facility is available.

Appendix-V Summary showing number of villages not having Scheduled Castes population.

Appendix-VI Summary showing number of villages not having Scheduled Tribes population.

Appendix-VII A and B The appendices show the list of villages according to proportion of the Scheduled Castes and Scheduled Tribes to the total population by ranges.

Appendix-VIII Indicates CD Block wise number of villages.

Appendix-IX Shows number of different types of girls schools in a village.

PUNJAB
C.D. BLOCK PHILLAUR
TAHSIL PHILLAUR
DISTRICT JALANDHAR

P.L.C.NUMBER 00637400 IS A PART OF TAHSIL LUDHIANA (WEST) AND BECOMES A PART OF PHILLAUR C.D. BLOCK.

BOUNDARY: DISTRICT	
" C.D. BLOCK	
" VILLAGE WITH P.L.C.NUMBER	00385600
HEADQUARTERS: C.D. BLOCK	
POPULATION SIZE CLASS OF VILLAGES:BELOW 200,200-499,500-999,1000-4999,5000 AND ABOVE	
UNINHABITED VILLAGE WITH P.L.C.NUMBER	X 00405800
URBAN AREA WITH LOCATION CODE	XIV
NATIONAL HIGHWAY	NH 1
IMPORTANT METALLED ROAD	
RAILWAY LINE WITH STATION,BROAD GAUGE	
RIVER	
POST OFFICE/TELEPHONE OFFICE/POST AND TELEGRAPH OFFICE	PO/TO/PTO
SECONDARY OR SENIOR SECONDARY SCHOOL	S
PRIMARY HEALTH CENTRE	
BANK	B

C.D. BLOCK BOUNDARY EXCLUDES STATUTORY TOWN (S)

BOUNDARIES ARE UPDATED UPTO 1.1.2000.

TOTAL AREA OF C.D. BLOCK (In Sq. Km)	293.16
TOTAL POPULATION OF C.D. BLOCK	139,483
TOTAL NUMBER OF TOWNS IN C.D. BLOCK	1
TOTAL NUMBER OF VILLAGES IN C.D. BLOCK	97
DISTANCE FROM DISTRICT HEADQUARTERS (In Kms)	47

C.D. BLOCK PHILLAUR
TAHSIL PHILLAUR
DISTRICT JALANDHAR

XIV PHILLAUR M.Cl.

P.L.C.NUMBER 00837400 IS A PART OF TAHSIL LUDHIANA (WEST) AND BECOMES A PART OF PHILLAUR C.D. BLOCK.

BOUNDARY: DISTRICT	
" C.D. BLOCK	
" VILLAGE WITH P.L.C.NUMBER	00285200
HEADQUARTERS: C.D. BLOCK	
POPULATION SIZE CLASS OF VILLAGES:BELOW 200,200-499,500-999,1000-4999,5000 AND ABOVE	
UNINHABITED VILLAGE WITH P.L.C.NUMBER	X 00405600
URBAN AREA WITH LOCATION CODE	XIV
NATIONAL HIGHWAY	NH 1
IMPORTANT METALLED ROAD	
RAILWAY LINE WITH STATION,BROAD GAUGE	RD
RIVER	
POST OFFICE/TELEPHONE OFFICE/POST AND TELEGRAPH OFFICE	PO/TO/PTO
SECONDARY OR SENIOR SECONDARY SCHOOL	S
PRIMARY HEALTH CENTRE	
BANK	B

C.D. BLOCK BOUNDARY EXCLUDES STATUTORY TOWN (S)

BOUNDARIES ARE UPDATED UPTO 1.1.2000.

TOTAL AREA OF C.D. BLOCK (In Sq. Km)	293.16
TOTAL POPULATION OF C.D. BLOCK	139,483
TOTAL NUMBER OF TOWNS IN C.D. BLOCK	1
TOTAL NUMBER OF VILLAGES IN C.D. BLOCK	97
DISTANCE FROM DISTRICT HEADQUARTERS (In Kms).	47

Section-II
Town Directory

NOTE EXPLAINING THE ABBREVIATIONS USED IN THE TOWN DIRECTORY

Town Directory statements (I to VII)

Statement I : Status and Growth History

Column 2 : Class, name and civic administration status of town

Class has been introduced to facilitate analysis of town directory data at the state and all India levels. It is presented according to 2001 Census Population of the town as follows :

Population	Class
100,000 and above	I
50,000-99,999	II
20,000-49,999	III
10,000-19,999	IV
5,000-9,999	V
Below 5,000	VI

Town with a population of one hundred thousand (1,00,000) and above is treated as a city.

The civic administration status of the towns is indicated within bracket against the name of the town. The following abbreviations are used to denote civic status of town.

(i)	Municipal Corporation	M.Corp.
(ii)	Municipal Committee	MC
(iii)	Municipal Council	M Cl
(iv)	City Municipal Council	CMC
(v)	Town Municipal Council	TMC
(vi)	Municipal Board	MB
(vii)	Municipality	M
(viii)	Cantonment Board/Cantonment	CB
(ix)	Notified Area	NA
(x)	Notified Town	NT
(xi)	Notified Area Committee/ Notified Area Council	NAC
(xii)	Notified Town Area	NTA
(xiii)	Industrial Notified Area	INA
(xiv)	Industrial Township	ITS
(xv)	Township	TS
(xvi)	Town Panchayat	TP
(xvii)	Nagar Panchayat	NP
(xviii)	Town Committee/Town Area Committee	TC
(xix)	Small Town Committee	ST
(xx)	Estate Office	EO
(xxi)	Gram Panchayat	GP
(xxii)	Census Town	CT

Other columns need no comments.

Statement II : Physical Aspects and Location of towns, 1999

Column 3 to 5 : Physical Aspects :

In these columns the Rainfall and Maximum & Minimum Temperature of the town is recorded.

Column 6, 7 & 8 :

Name or the State headquarters, District headquarters and Tahsil headquarters with distance from the referent town in kilometers, is to be recorded respectively. If the names mentioned in these columns are the same as the referent town itself, the distance is recorded as (0) zero.

Column 9 & 10 :

Name of the nearest city with one lakh and more and five lakh and more population are recorded.

Column 11, 12 and 13 :

If referent town enjoys the facility of railway station, bus route facility or navigable river/canal. Its name is to be mentioned. If not available, then the name of nearest place with distance, where such facility exists is mentioned.

Statement III : Municipal Finance 1998-1999

Item-wise amount of receipt and expenditure in thousand rupees, relating to municipal finance of the town for the year 1998-99 is recorded.

Statement IV : Civic and Other amenities, 1999

Column 1 to 5 : Self explanatory :

Column 6 : Road length (in kms.) :

Information about kutcha/pucca road is to be recorded separately for the roads within the limits of the referent town.

(i)	Pucca Road	PR
(ii)	Kutcha Road	KR

Column 7 : System of Sewerage :

Generally, sewerage system is implied by the net-work of mains and branches of underground conduits for the conveyance of sewerage to the point of disposal. Sewers that carry only household and industrial wastes are called separate sewers, those that carry storm water from roofs, streets and other surface are known as storm water drains, while those carrying both sewage and storm water are called combined sewers.

The codes used for different types of drainage system are as follows :

(i)	Sewer	S
(ii)	Open Surface Drains	OSD
(iii)	Box Surface Drains	BSD
(iv)	Sylk Drains	SD
(v)	Cesspool method	CP
(vi)	Pit System	Pt
(vii)	Others	O

Column 8 to 11 : Number of latrines :

Number of various types of latrines both Public and Private are given in these columns.

Column 12 : Method of disposal of night soil :

The various prevalent methods of disposal of night soil are given below with codes :

Head Loads	HL
Basket	B
Wheel Barrows	WB
Septic Tank	ST
Pit System	Pt

Sewerage	S
Others	O

Column 13 and 14 : Water supply :

Source and capacity of storage system. The following codes are used in these columns :

Column 13 :

(i) Tap water	T
(ii) Tube-well water	TW
(iii) Tank Water	TK
(iv) Well water	W

Column 14 :

(v) Over Head Tank	OHT
(vi) Service Reservoir	SR
(vii) River Infiltration Gallery	RIG
(viii) Bore Well Pumping System	BWP
(ix) Pressure Tank	PT

The information on major sources of water supply is given in column 13 and the storage capacity against each in kilo-litres (in bracket) is presented in column 14.

Column 15 : Fire Fighting Service :

In case the fire fighting service is available in the referent town 'yes' is recorded. If the facility is not available within the town, the name of the nearest place having this facility with its distance from the referent town has been recorded.

Column 16 to 20 : Electrification (Number of connections) :

Different types of electric connections have been shown in these columns, i.e. Domestic, Industrial, Commercial, Road lighting (points) & others.

Statement V : Medical, Educational, Recreational and Cultural Facilities, 1999

Column 1 to 3 : Self explanatory.

Column 4 & 5 :

The data covers all such medical institutions run by or aided by Government/Semi Government/Local bodies and Charitable institutions or Social agencies like the Missionaries. Where the family planning centres are attached to hospitals or maternity and child welfare centres or Primary Health Centres, they may be treated as independent units and counted separately using following codes :

(i)	Hospital	H
(ii)	Dispensary	D
(iii)	Health Centre	HC
(iv)	Family Welfare Centre	FWC
(v)	T.B. Clinic	TB
(vi)	Nursing Home	NH
(vii)	Others	O

In case of more than one institutions of any type, it is indicated within brackets the number of such institution (s) e.g. D(3), NH(8), etc. The institutions have further been distinguished by providing additional codes within the bracket as given below :

Ayurvedic	A
Unani	U
Homoeopathic	Hom

Column 6 to 9 :

The codes used for these columns are as follows:

(i)	Arts only	A
(ii)	Science only	S
(iii)	Commerce only	C
(iv)	Arts & Science only	AS
(v)	Arts & Commerce only	AC
(vi)	Combined for all categories-Arts, Science and Commerce	ASC
(vii)	Law	L
(viii)	University	U
(ix)	Others	O

Column 10 : Recognized shorthand, typewriting and vocational training institutions :

"Recognised" should mean recognised by some statutory authority, like education department, commerce department, labour department etc. of the government or semi-government or autonomous bodies, public sector undertakings etc.

The following codes are used :

(i)	Vocational Training Institutes	VT
(ii)	Shorthand	SH
(iii)	Typewriting	Type
(iv)	Shorthand & Typewriting	SH Type
(v)	Others	O

The vocational institutions like-Applied Art/Painting college, Pharmacy college, B.Ed. College, Teacher's Training Institute, Music/Dance School, Nursing School etc. are covered under 'Others'.

Column 11 to 14 :

Higher Secondary/ Intermediate/ Senior Secondary/ PUC/ Junior College level, Secondary/ Matriculation, Middle Schools/ Junior Secondary and Primary Schools.

Schools up to class V are treated as Primary or elementary schools. These include Nursery schools, Kindergarten schools, Pre-Primary schools, Junior Basic schools upto class V and Primary schools upto class V.

Schools upto VIII are considered as Middle schools or Junior Secondary.

Schools upto class X are considered as Matriculation or Secondary schools.

Schools upto XI or XII classes are considered as Higher Secondary/Intermediate/Pre University/ Junior College etc. This would cover 10+2 classes whether held in schools or colleges.

If there are composite schools like middle schools with primary classes or Secondary schools with Middle classes, these are also included in the number of Primary and Middle schools, respectively. For example, if in a town, there are two Primary Schools and one Middle school with Primary classes, the number of Primary schools in the town is given as three and that of Middle schools as one though there are only three educational institutions.

If there are more institutions of a type in the town, the number is indicated within bracket along with the abbreviation, e.g. P(4), M(3).

Column 15 : Adult literacy class/centres :

This column has been introduced keeping in view the Minimum Needs Programme of the Planning Commission. There are number of Adult Education Centres which are included in these columns.

If an educational facility is not available in the town, the name of the nearest place and its distance in kilometres from the town where the facility is available is mentioned.

Column 16 : Working Women's hostels with number of seats :

The number of working women's hostel if available in the referent town is mentioned with number of seats. If the facility is not available in the town the name of nearest place with distance where the facility is available is recorded.

Column 17 to 19 : Recreational and Cultural Facilities :

Stadium, Cinema, Auditorium/Drama/Community Hall are covered under recreational & cultural facilities. The particulars of permanent recreational facilities are considered for these columns.

Column 20 : Public Libraries, Reading Rooms:

Number of public libraries and reading rooms available in the referent town is recorded in codes as follows :

(i)	Public Library	PL
(ii)	Reading room	RR

Statement VI : Trade, Commerce, Industry and Banking, 1999

Column 3 to 8 :

Names of three most important commodities exported and names of three most important commodities manufactured in the town are recorded in these columns.

Column 9 : Number of Banks :

Number of Banks available in the referent town both Commercial and Co-operative banks is recorded against this column.

Column 10 & 11 : Number of Agricultural Credit Societies and Non Agricultural Credit Societies:

The total number of Agricultural Credit Societies and Non Agricultural Credit Societies in the referent town is recorded against these columns.

Statement VII : Civic and other Amenities in Slums, 1999

This is the statement on civic and other amenities in all slums whether notified or not and for all towns having statutory bodies, like Municipality, Municipal Corporation, Town Area Committee etc.

Part - B
PRIMARY CENSUS ABSTRACT

Brief note on Primary Census Abstract

The first census of the third millennium and twenty first century the Census of India, 2001 was the 14th continuous and uninterrupted Indian census since 1872. Thus, 2001 Census will provide data on population and its characteristics marking transition from one century and millennium to another.

The gigantic operation of Population Enumeration (considered by many to be the single largest and complex peace time administrative exercise in the world) was made possible due to the door to door universal canvassing of the Household Schedule by about 2 million enumerators and supervisors covering 593 districts, 5,463 sub-districts, 5,161 towns and 638,588 villages. The comprehensive Household Schedule which replaced the individual slip had three parts and two sides A and B. Part I contained the Location Particulars; Part II related to the Individual Particulars and Part III contained questions for Household engaged in Cultivation/Plantation. The part II of the Household Schedule had 39 columns and 23 questions all of which were universally canvassed and no sampling was resorted to during enumeration.

Data Processing

A quantum leap was made in the technology front while processing the Census 2001 data both for Houselisting and Population Enumeration. The Census schedules for both the phases were scanned through high speed scanners in fifteen data centers across the country and hand-written data from the schedules were converted into digitized form through Intelligent Character Reading (ICR) software for creation of ASCII records for further processing. The designing and formatting of the Household Schedule had to be done very carefully using specialized software so as to ensure uniformity, which was an essential pre-requisite for scanning. The selection of appropriate state-of-art technology in data processing has made it possible to produce all the Houselisting as well as Population Enumeration tables on full count basis for the first time in the history of Census. For Census 2001, about 202 million schedules consisting of about 1,028 million records were scanned and processed within a span of only 10 months starting from October, 2002.

Task Force on Quality Assurance

After the data is processed, it is expedient on the part of the data producing agency to satisfy itself about its quality before putting the same in public domain. This has to be done mainly through the process of internal consistency, comparison with similar data in the past and also through validation with likewise data if available, from external sources. Quite often the local knowledge and perception has to be brought into play to understand both the existing and the new emerging trends of population distribution and characteristics. The other very important aspect of the data quality is to ensure complete coverage of all geographical areas especially for the population enumeration phase where the data is disseminated right up to the village level in the rural areas and the ward level in the urban areas. Thus ensuring the complete coverage and correct geographical linkage of each enumeration block was one of the major planks of the quality control, specially for small area population statistics.

A very comprehensive check and edit mechanism was put in place to objectively examine the preliminary Census 2001 Population Enumeration results and finally clear them for use. The responsibility of the final clearance of data was with the Task Force on Quality Assurance (TFQA), headed by the Registrar General and Census Commissioner, India. The other members of the TFQA were the Heads and senior officers of the Census Division, Data Processing Division, Map Division, Demography Division and Social Studies Division. The Directors of Census Operations were co-opted as members whenever the TFQA discussed the data for their States/Union territories. The Directors and their senior officers were required to make detailed presentations of data for their own state both in respect to the quality and the coverage and only after the full possible satisfaction of the TFQA, the population data was cleared.

There has been a major departure in Census 2001 from the past in respect of the procedure followed for finalization of the Scheduled Castes and the Scheduled Tribes population. In the earlier censuses, the total Scheduled Castes and Scheduled Tribes population were finalized at the time of the manual compilation of the Primary Census Abstracts (PCA) at the Regional Tabulation Offices which

were specially set up for this purpose. The individual Scheduled Caste and the Scheduled Tribe population for each state was finalized much later based on manual coding done by the coders. In 2001 Census, each individual Scheduled Caste and the Scheduled Tribe have been coded directly on the computers by the Data Entry Operators through a process known as Computer Assisted Coding (CAC) and taken up along with the processing of PCA data. The CAC process involves pulling down, from the relevant dictionary of the Scheduled Castes and the Scheduled Tribes, on the computer screen and coding from the dictionary by referring to the image of the specific individual entry in the Household Schedule appearing on the screen. The CAC of the response on Religion wherever required, was also undertaken along with the processing of PCA. This is because the Scheduled Castes status had to be determined in relation to the religion of the individual. Two Special Task Forces, one on Religion and the other on Scheduled Castes/Scheduled Tribes were constituted for scrutiny and appropriate classification of these responses.

The main task of the Special Task Force on Religion was to appropriately merge or group the new responses encountered and code it into the appropriate religious community based on available literature and local knowledge. The Special Task Force on Scheduled Castes and Scheduled Tribes examined the different Scheduled Castes and Scheduled Tribes entries encountered and classified these into appropriate category of the Scheduled Castes or the Scheduled Tribes principally based on the Presidential Notification and the available literature. Thus a very systematic and scientific mechanism was operationalised to firm up the individual religion and the individual Scheduled Caste/Tribe returns. The Scheduled Castes and the Scheduled Tribes population in 2001 Census, is thus being finalized by aggregating the population data for individual Scheduled Castes and the Scheduled Tribe at appropriate geographical levels.

The entire work relating to the data validation and scrutiny was completed by all the States/Union Territories under the overall supervision and monitoring of the Census Division of the Office of the Registrar General, India with active cooperation and support of the Social Studies Division, Data Processing Division, Data Dissemination Division and Map Division.

Primary Census Abstract

The Primary Census Abstract which is yet another important publication of 2001 Census gives basic information on Area, Total Households, Total population, Scheduled Castes and Scheduled Tribes population, Population in the age group 0-6, Literates, Main workers and Marginal workers classified by the four broad industrial categories, namely, (i) Cultivators, (ii) Agricultural laborers, (iii) Household Industry Workers, and (iv) Other workers and also Non-workers. The characteristics of the Total Population includes Scheduled Castes, Scheduled Tribes, Institutional and Houseless population and are presented by sex and rural-urban residence. This data is presented at different levels, namely, India, States/Union territories, Districts, Cities and Urban Agglomerations (Population 1,00,000 and above) in three different tables. In addition, the Appendix of said publication provides Houseless and Institutional Households and their population by residence and sex for 2001 for India, State and Union territory.

Apart from the India and State/Union Territory volumes for Primary Census Abstract, the District Census Handbook contains District Primary Census Abstract, Appendix to District Primary Census Abstract, Primary Census Abstract for Scheduled Castes, Primary Census Abstract for Scheduled Tribes, Village Primary Census Abstract and Urban Primary Census Abstract of the concerned district in the state.

It was for the first time at the 1981 Census that the Primary Census Abstract (PCA) was brought out for the Scheduled Castes and the Scheduled Tribes separately on the pattern of General Primary Census Abstract. This practice was continued in 1991 also. In the 1961 and 1971 Censuses, such data were made available in Table C-VIII-Social and Cultural table and to some extent in the series 'Special Tables for Scheduled Castes/Scheduled Tribes'.

The format of Primary Census Abstract has been restructured slightly in the 2001 Census as compared to that of 1991 Census. The nine-fold industrial classification of main workers given in the Primary Census Abstract of 1991 Census has been discontinued and in its place, four-fold industrial classification of both 'main workers' and 'marginal workers' are included. In 1981 census only main

workers were presented into four categories. One of the novel features of the primary census abstract of 1991 census was the presentation of data of the population of age group 0-6 is continued in 2001 Census also. This will help the data users in better analysis and understanding of literacy data.

Level of presentation in District Census Handbooks

The Primary Census Abstract data in different PCAs are presented at different levels. The level of presentation of Primary Census Abstracts are as under:

Name of the Primary Census Abstract	Level of presentation
1. District Primary Census Abstract	District/CD Block/UA/City/Town
2. Primary Census Abstract for Scheduled Castes	District/CD Block/Town
3. Primary Census Abstract for Scheduled Tribes	District/CD Block/Town
4. Village Primary Census Abstract	CD Block/Villagewise
5. Urban Primary Census Abstract	Town/Ward level

The PCA Data for villages was presented CD Block wise for the first time in 1991 Census. This practice is continued in 2001 Census also. The data for each CD Block is presented both for rural and urban areas separately. All the villages within the CD Block constitute the rural portion and the Census Towns and Outgrowths are shown under the urban portion of the CD Block. In case a CD Block is spread over two or more districts, then portion which falls within the district is presented, the data pertaining to remaining portion of the CD Block is presented in the concerned District Census Handbook. The data in the Urban Primary Census Abstract for each town as well as for town with outgrowths in the district are presented. The data for all the wards and the outgrowths of the town(s) are also presented separately below the concerned town(s).

The District Primary Census Abstract is presented in 59 columns. The Primary Census Abstract for Scheduled Castes and Primary Census Abstract for Scheduled Tribes are presented in 52 columns. The Village Primary Census Abstract and Urban Primary Census Abstract are presented in 58 columns.

The concepts and definitions used in the column heading are explained under the sub heading 'Census Concepts' in the Analytical Note. The term 'Total Population' includes the Scheduled Castes, the Scheduled Tribes, the Institutional and the Houseless populations. The explanation regarding area figures presented at various level in the Primary Census Abstracts are as follows:

Area Figures

The area figures supplied by local revenue authorities of the district in respect of Tahsils, Police Stations and by the local bodies in respect of towns are given in square kilometers. The area figures of the villages supplied by the Tahsildars in acres have been converted and shown in hectares. The area figures of the CD Block is the total of the village areas coming under each CD Block. The area figures for the district are the same as adopted by the Surveyor General of India to maintain uniformity at the national level. The total area figures of all the Tahsils/CD Blocks within the district may not tally with area figures of the district because former represents land use area only. Similarly, the total of all the villages may not tally with the entire rural of Police Station/Tahsil. The difference may be due to the fact that while the area covered by hills, forests and rivers etc, have been accounted in the Tahsils and P.S. level the same may not be covered under the area of the villages. Apart from this it may also differ due to varying methods of computation adopted at different levels.

An appendix to District Primary Census Abstract has also been furnished showing urban enumeration, block-wise particulars on Total Population, the Scheduled Castes Population and the Scheduled Tribes Population for each town.

Annexure-I

Number of villages under Gram Panchayat:

With the Constitution (73rd amendment) Act, 1992, the Census Organisation felt it necessary to provide population data for the territorial area of Panchayat. This required precise details of the territorial area of each Panchayat so that delineation of enumeration blocks (EBs) to be allotted to the enumerators could be done to meet this requirement.

It required careful delineation of enumeration blocks by the Charge Officers to ensure that EBs do not cut across the territorial area falling in the Panchayat. Different situations were well perceived. A Panchayat could consist of only one village or a number of complete villages. There could be another situation where the Panchayat may consist of some complete villages and parts of villages. Still there could be another situation where Panchayat could consist of a number of villages etc.

An exhaustive exercise was done to prepare Panchayat level data. However, we came across following types of situations which made it difficult to compile the Panchayat level data:

i) Some of the Panchayats have one or more than one village.

ii) Some of the Panchayats have only a part of the village.

iii) Some Panchayats include full village (s) as well as part of village (s).

All this has not made it feasible for us to present Panchayat level PCA.

Annexure-II

Age Specific Fertility and Marital Fertility Rates:

The following table shows age specific fertility rates in Punjab as well as in Jalandhar district for the years 2001 and 1991. The trends are observed almost identical both for the State and the district for 2001. Among different age groups, the fertility rate is the highest in age-groups 20-24, 25-29 and 30-34. The trend is the same for rural and urban areas also.

The trends also show some fall in the fertility levels during 1991 - 2001 and this decline is noticeable in all age-groups except 25-29, 40-44 and 45-49 in the state. In district Jalandhar, the fertility rate plunged only in the age-group 20-24 and it was at par in the first 15-19. Nevertheless, the fertility rate shoot up in all other age groups.

AGE SPECIFIC FERTILITY RATES 2001 AND 1991

Age	Jalandhar						Punjab					
Group	Total		Rural		Urban		Total		Rural		Urban	
	2001	1991	2001	1991	2001	1991	2001	1991	2001	1991	2001	1991

The following table shows age specific marital fertility rates in Punjab as well as in Jalandhar district for the year 2001 and 1991. The trends are observed similar to those of total fertility levels. Surprisingly in Jalandhar district, ASMFR shoot up in all the age groups in the year 2001. ASMFR is amazingly higher in rural as compared to urban in Jalandhar district in all age groups except 45-49 in 2001.

Annexure-III

Measures of Fertility and Mean Age At Marriage Fertility Levels :

In demography, the word fertility is used in relation to the actual production of children or 'occurrence of births specially live births'. Fertility is a measure of rate at which population adds to itself by births and normally is assessed by relating number of births to size of some section of the population, such as number of married couples and number of women of child bearing age. In other words, it is a major component of population growth. In the 1991 census, questions on fertility related to age at marriage, number of children surviving at present, number of children ever born alive and any child born alive during last one year were asked. The first three questions were asked to all ever married women and the last question was related to currently married women only. The measures of fertility worked out are based on the F-Series Tables of 1991 & 2001 Census pertaining to Punjab State.

The following table presents important indices of fertility in Punjab as well as in Jalandhar district for the years 2001 and 1991 separately for total, rural and urban areas. There has been significant decline in the number of children ever born per ever married woman in the age group (45-49); the decline is relatively more in rural areas than urban in Punjab as well as in the Jalandhar district. Likewise, there has been a significant decline in the child-women ratio also. However, the number of married couples per 1,000 population has gone up in the state except urban and in rural areas of the district and it is vice-versa for urban areas.

IMPORTANT INDICES OF FERTILITY

Fertility indices	Jalandhar						Punjab					
	Total		Rural		Urban		Total		Rural		Urban	
	2001	1991	2001	1991	2001	1991	2001	1991	2001	1991	2001	1991
1	2	3	4	5	6	7	8	9	10	11	12	13
No. of Children ever born per ever married woman in the age group (45-49)	3.31	4.41	3.61	4.53	2.98	3 97	3.50	4.27	3.69	4.45	3.16	3.81

Child-Woman ratio (0-4 Years)	304	462	326	471	281	437	349	480	369	493	311	448

Annexure IV

MOVEMENT OF POPULATION

What is migration?

Migration is the third component of population change, the other two being mortality and fertility. A person is considered as a migrant by place of birth if the place in which he is enumerated during the census is other than the place of his birth. Similarly a person is considered as a migrant by place of last residence, if the place in which he is enumerated during the census is other than his place of immediate last residence.

Internal and International Migration:

The migrational movements are of three types- (i) Migration within the State itself with its components-(a) Migration within the district of enumeration (intra-district migration), (b) Migration from one district of the state to another district of the State/UT (inter-district migration), (ii) Migration from one State to another state of the country (inter-state migration) and (iii) Migration from one country to another country. The first two streams together constitute internal migration, while the last type of movement is called international migration.

Why the people migrate?

For the first time in the census, reasons for migration were elicited in 1981. Keeping operational constraints in view, the reasons for migration were broadly categorized as (1) employment, (2) education, (3) marriage, (4) family movement and (5) other reasons. Other Reasons for migration have been elicited only with reference to movement from place of last residence.

Impact of migration:

The growth of population of a particular place depends upon the biological variates such as mortality and fertility and migration. The knowledge of trends in migration helps in future planning of a place.

PERCENTAGE DISTRIBUTION OF INMIGRANTS BY PLACE OF BIRTH

Place of Birth	1991 Census			2001 Census		
	Persons	Males	Females	Persons	Males	Females
1	2	3	4	5	6	7

	(45.6)	(33.1)	(51.3)	(48.1)	(44.8)	(50.1)
(ii) Migrants born in other districts of the State	223,539	61,360	162,179	211,129	57,106	154,023
	(30.5)	(27.0)	(32.1)	(28.4)	(20.5)	(33.2)
(II) Migrants born in other states of India	92,673	44,983	47,690	129,152	72,078	57,074
	(12.7)	(19.8)	(9.4)	(17.4)	(25.9)	(12.3)
(III) Migrants born in other countries	80,876	45,393	35,483	45,329	24,826	20,503
	(11.0)	(19.9)	(7.0)	(6.1)	(8.9)	(4.4)
(IV) Unclassifiable	1,130	490	640	1	1	0
	(0.2)	(0.2)	(0.1)	(0.0)	(0.0)	(0.0)
Total Migrants	**732,267**	**227,537**	**504,730**	**742,938**	**278,782**	**464,156**
	(100.0)	**(100.0)**	**(100.0)**	**(100.0)**	**(100.0)**	**(100.0)**

The above table gives distribution of inmigrants by place of birth in Jalandhar district as per 1991 and 2001 Censuses. Out of the total inmigrants in 2001, 76.5 per cent are born within the state of enumeration and 17.4 per cent born in other states/Union Territories of the country while 6.1 per cent born in other country. The figures for 1991 were recorded 76.1 per cent, 12.7 per cent and 11.0 per cent respectively.

PERCENTAGE DISTRIBUTION OF INMIGRANTS BY PLACE OF LAST RESIDENCE

Last residence	1991 Census			2001 Census		
	Persons	Males	Females	Persons	Males	Females
1	2	3	4	5	6	7
(I) Last residence within the state of enumeration	568,768	142,091	426,677	588,194	189,290	398,904
	(77.4)	(62.2)	(84.3)	(77.7)	(66.8)	(84.2)
(i) Elsewhere in the district of enumeration	344,959	79,661	265,298	376,563	132,080	244,483
	(47.0)	(34.9)	(52.4)	(49.8)	(46.6)	(51.6)
(ii) In other districts of the state of enumeration	223,809	62,430	161,379	211,631	57,210	154,421
	(30.5)	(27.3)	(31.9)	(28.0)	(20.2)	(32.6)
(II) States in India beyond the state of enumeration	92,863	44,993	47,870	128,745	71,604	57,141
	(12.6)	(19.7)	(9.5)	(17.0)	(25.3)	(12.1)
(III) Last residence outside India	71,916	40,873	31,043	39,936	22,405	17,531
	(9.8)	(17.9)	(6.1)	(5.3)	(7.9)	(3.7)
(IV) Unclassifiable	1,040	430	610	0	0	0
	(0.1)	(0.2)	(0.1)	(0.0)	(0.0)	(0.0)
Total	**734,587**	**228,387**	**506,200**	**756,875**	**283,299**	**473,576**
	(100.0)	**(100.0)**	**(100.0)**	**(100.0)**	**(100.0)**	**(100.0)**

The above table gives distribution of inmigrants by place of last residence in Jalandhar district. As per 2001 Census, 77.7 per cent of the inmigrants had the place of last residence within the state but out of the place of enumeration. Another 17.0 per cent have place of last residence in other states/UTs within the country, while 5.3 per cent have their last residence out side India. The corresponding figures for 1991 were 77.4 per cent, 12.6 per cent and 9.8 per cent respectively.

Annexure V

Main Religions:

The instructions for recording this information are the same as in 1991. A brief analysis based on 1991 and 2001 Census data is presented below.

Question 7 of the Household Schedule canvassed at the 2001 census pertained to religion of a person. The religion of the person was recorded as returned by the respondent. The six main religions in the country were recorded by using following codes:

Hindu	:	1
Muslim	:	2
Christian	:	3
Sikh	:	4
Buddhist	:	5
Jain	:	6 .

For all others, actual religion as stated was recorded fully. Further more, if any individual stated that he had no religion, the answer was recorded accordingly.

Religious Composition of Punjab's Population:

The numerical strength of the six main religious communities in the State and Jalandhar district in 2001 Census is as follows:

RELIGIOUS COMPOSITION OF POPULATION, PUNJAB AND JALANDHAR 1991 AND 2001

Religious Communities	Punjab				Jalandhar district			
	Total Population		Percentage in total population		Total Population		Percentage in total population	
	1991	2001	1991	2001	1991	2001	1991	2001
1	2	3	4	5	6	7	8	9
Hindus	6,989,226	8,997,942	34.4	36.9	898,443	1,158,868	54.5	59.0
Muslims	239,401	382,045	1.2	1.6	7,247	17,308	0.4	0.9
Christians	225,163	292,800	1.1	1.2	14,719	22,106	0.9	1.1
Sikhs	12,767,697	14,592,387	63.0	59.9	714,222	740,841	43.3	37.8
Buddhists	24,930	41,487	0.1	0.2	12,122	18,749	0.7	1.0
Jains	20,763	39,276	0.1	0.2	2,011	3,441	0.1	0.2
Others Religions and persuations	883	8,594	0.0	0.0	132	846	0.0	0.0
Religion not stated/ Unspecified	13,906	4,468	0.1	0.0	1,013	541	0.1	0.0
All Religions	**20,281,969**	**24,358,999**	**100.0**	**100.0**	**1,649,909**	**1,962,700**	**100.0**	**100.0**

As can be seen from the above statement, Sikhs form the predominant religious community in Punjab and they account for 59.9 per cent of the State's population according to the 2001 Census. The corresponding percentage for 1991 Census was 63.0 per cent. Hindus is the second largest religious community in the State and their share in the total population is 36.9 per cent which was 34.4 per cent in 1991 Census. This signifies that Sikhs and Hindus, the two most dominant religious communities in the state, together constitute 96.8 per cent of the state's total population.

The share of Muslims, Christians, Buddhists and Jains in the total population is 1.6, 1.2, 0.2 and 0.2 per cent respectively.

As per 2001 Census, in Jalandhar district, Hindus constitute 59.0 per cent of the total population. Sikhs, the second dominant religious community in the district, account for 37.8 per cent of the district's total population. Together, the Sikhs and the Hindus account for 96.8 per cent of the district's population. Muslims constitute 0.9 per cent, Buddhists 1.0 percent and Jain 0.2 per cent while the share of Christians is only 1.1 per cent.

Annexure VI

Marital Status:

Current marital status of each individual, irrespective of age, was obtained through Question 5 of the household schedule canvassed during 2001 census into following four categories:

1. Never married
2. Currently married
3. Widowed
4. Divorced or separated.

The instructions to enumerators for eliciting marital status were same as adopted in 1991 census. A brief analysis based on 1991 and 2001 census is presented here.

The following table exhibits data for Persons, Males and Females in percentage form regarding Marital Status.

MARITAL STATUS OF POPULATION AS PER, 1991 AND 2001 CENSUS

Marital Status	Punjab						Jalandhar					
	1991			2001			1991			2001		
	P	M	F	P	M	F	P	M	F	P	M	F
1	2	3	4	5	6	7	8	9	10	11	12	13
Total Population	100.0	100.0	100.0	100.0	100.0	100.0	100.0	100.0	100.0	100.0	100.0	100.0
Never Married	51.5	55.4	47.1	48.7	53.1	43.8	51.7	56.0	46.9	48.5	53.0	43.5
Married	45.1	42.3	48.2	47.2	44.6	50.2	44.4	41.5	47.7	47.1	44 5	50.0
Widowed	3.3	2.2	4.6	3.9	2.1	5.8	3.8	2.4	5.3	4.1	2.2	6.2
Divorced or Separated	0 1	0.0	0.0	0.2	0.2	0.2	0.1	0.1	0.1	0.3	0.2	0.3
Un-Specified	0.0	0.0	0.0	0	0	0	0.0	0.0	0.0	0	0	0

According to 2001 Census, the population of the State is recorded 24,358,999 comprising 11,871,211 (48.7%) never married, 11,499,566 (47.2%) married, 938,678 (3.9%) widowed and 49,544 (0.2%) divorced or separated. As per 1991 Census the State had a population of 20,281,969 comprising 10,452,444 (51.5%) never married, 9,146,158 (45.1%) married, 673,569 (3.3%) widowed, 8,768 (0.1%) divorced or separated and 1,030 (0.0%) unspecified.

In Jalandhar district, out of the total population of 1,962,700 as per 2001 census; 952,839 (48.5%) are never married, 924,634 (47.1%) married, 80,190 (4.1%) widowed, 5,037 (0.3%) divorced or separated. Thus, the patterns observed for the State and the district are almost identical.

Annexure VII

Sex and Educational level:

It has become customary for the Indian Census to obtain details of educational levels of the literates in the society. Question 13 of the Household Schedule canvassed during 2001 census aimed to elicit information on the highest educational level attained. The data so collected is put to public domain by classifying the population by sex and educational levels.

The following table shows percentage distribution of literates by educational level for Punjab State and Jalandhar district as per 1991 as well as 2001 Census.

PERCENTAGE DISTRIBUTION OF LITERATES BY EDUCATIONAL LEVEL AS PER 1991 AND 2001 CENSUS

Educational Levels	Total Rural Urban	Punjab						Jalandhar					
		1991			2001			1991			2001		
		P	M	F	P	M	F	P	M	F	P	M	F
1	2	3	4	5	6	7	8	9	10	11	12	13	14
Below Primary	Total	21.8	20.9	23.1	20.0	19.7	20 4	19.5	19.1	20.0	16.8	16.8	16 8
	Rural	24.2	22.9	26.2	22.9	22.3	23.7	21.4	20.9	22.0	19.6	19.5	19.7
	Urban	17.6	17.2	18.2	15.5	15.6	15.4	16.6	16.2	17.1	14.1	14.3	14.0
Primary but below middle	Total	27.9	25.3	31.7	25.6	23.7	28.3	27.8	25.3	31.2	23.8	22.6	25.4
	Rural	31.8	28.4	37.0	29.3	26.6	33.0	32.1	28.9	36.5	28.5	26.8	30.8
	Urban	21.2	19.7	23.3	19.9	19.0	21.1	21.5	19.8	23.7	19.2	18.4	20.1
Middle but below matric	Total	18.1	19.0	16.7	16.9	17.5	16.1	18.3	18.8	17.6	17.0	17.4	16.4
	Rural	18.5	19.8	16.7	17 7	18.5	16.8	19.4	20.2	18.4	18.4	19.1	17.6
	Urban	17.3	17 7	16.8	15.7	16.1	15.1	16.7	16.7	16.6	15.6	15.8	15.3
Matric but below graduate	Total	26.3	28.6	22.8	30.8	32.7	28.4	27.4	29.3	24.8	33.2	34.1	32.1
	Rural	23.0	26.0	18.3	27.5	29.9	24.3	24.0	26.2	21.0	29.9	30.8	28.8
	Urban	32.0	33.5	30.0	36.0	37.1	34.6	32.4	34.0	30.3	36.4	37.3	35.3
Graduate and above	Total	5.9	6.1	5.7	6.6	6.4	6.7	7.0	7.5	6.3	9.2	9.0	9.3
	Rural	2.5	3.0	1.8	2.5	2.8	2.2	3.1	3.8	2.1	3.5	3.8	3.2
	Urban	11.8	11.9	11.8	12.9	12.2	13.7	12.9	13.3	12.3	14.7	14.2	15.3

As per 1991 census 21.8 per cent of the literates in Punjab were below primary level of education, 27.9 per cent primary but below middle and 18.1 per cent middle but below matric. A little over one-fourth (26.3%) of the literates in the State were matric but below graduation. It was only 5.9 per cent of the literates who had attained graduation or above level of education.

According to 2001 census 20.0 per cent of the literates in Punjab are below primary level of education, 25.6 per cent primary but below middle and 16.9 per cent are middle but below matric; 30.8 per cent matric but below graduation. Only 6.6 per cent of the literates in Punjab are graduate and above. Whereas there is some-decline in first 3 levels as compared to 1991, last 2 level exhibit slight improvements.

In the district 16.8 per cent of the literates are below primary and another 23.8 per cent are primary but below middle. By contrast, the percentage of literates with middle and matric levels of education is greater in Jalandhar district as compared to the State. In the district 17.0 per cent of the literates are middle passed as compared to state with 16.9 per cent. Likewise the percentage of matriculation, with 33.2 in Jalandhar district is higher than that of the State 30.8 per cent. In respect of Graduate and above level, this district (9.2%) also out does the State (6.6%).

Annexure VIII

Distribution of Different Mother Tongues:

Question 10 of the Household Schedule canvassed at the 2001 Census pertained to 'Mother Tongue'. It is the language spoken in the childhood by the person's mother to the person. If the mother died in infancy, the language mainly spoken in the person's home in childhood is recorded as the mother-tongue. In case of infants and deaf mutes the language usually spoken by the mother should be recorded. In case of doubt, the language mainly spoken in the household may be recorded. Since the household may consist of persons related by blood or of unrelated persons or a mix of both, every person in the household is asked about her/his mother tongue because the mother tongue of each member of a household need not necessarily be the same. These may be different for different members in the household. The definition of 'Mother Tongue' is the same as in 1991.

Mother Tongue and Language data based on 1991 & 2001 Censuses is given here. The distribution of languages/mother tongues which returned 10,000 or more speakers each at all-India level (including of mother tongues grouped under each) for the district by sex separately for rural and urban areas. The unclassified mother tongues and the mother tongues having less than 10,000 speakers have been relegated to 'other' mother tongue category. The table is divided into two parts; Part A- Scheduled languages with the mother tongues grouped under each, and Part B- Non-Scheduled languages with the mother tongues grouped under each. This naturally leads to the recording of a very large number of mother tongue names. It is to be mentioned that mother tongues as returned in the census are, basically, the designations provided by the respondents. These designations or mother tongue label need not be identical with the actual linguistic mediums. For assessing the correlation between the mother tongue designations and actual languages and dialects, the raw returns of census were subjected to thorough scrutiny and rationalization. This resulted in 1576 rationalized mother tongues in 1991 for the entire Country, which was further classified following the usual linguistic methods. The total number of languages so arrived at is 114 returned by 10,000 or more speakers at the all-India level and grouped under appropriate languages.

NUMERICALLY BIGGEST LANGUAGE ARRANGED IN DESCENDING ORDER OF THE NUMBER OF SPEAKERS, 1991 and 2001

Table above shows languages arranged in descending order of the number of speakers in Jalandhar district as per 1991 and 2001 censuses. Punjabi is the most dominant language spoken in the district. As per Census 2001, it is spoken by 1,787,605 persons in Jalandhar district and this forms 91.08 per cent of the district's total population. Hindi, the second most dominant language spoken by 148,207 (7.55%) persons in the district.

COMPARATIVE STRENGTHS OF SCHEDULED LANGUAGES 1971, 1981, 1991 AND 2001 IN THE STATE
